RIVERTON EXTENSION.

Having become the owner of a portion of the

land at Riverton, I have laid it off into

BUILDING LOTS,

which I now offer for sale.

These lots are beautifully located on the south

side of the Camden and Amboy Railroad, adjoining

the depot at Riverton,

SEVEN MILES FROM THE CITY.

Requiring but 20 minutes to and from the foot of

Market Street, Philadelphia.

The land is a good farm, nearly level, gently

rising from the railroad. It is well adapted for

building and garden lots. Wells of moderate

depth furnish a

BOUNDLESS SUPPLY OF PURE SOFT

WATER.

In a healthy, flourishing neighborhood. Post

D. E. MATTIS, P. M.

With the spirit of enterprise which has of late so forcibly manifested itself in Riverton it seems remarkable that no one has thought of an institution so greatly needed, namely, a street sprinkler. The condition of our streets for the past month, coated as they have been with an inch of fine dust, does not appear to have impressed anybody to a sufficient degree, at least, to give expression to thought as to a remedy (and there is but the one) for the inconvenience.

It is a matter in which every Rivertonian should feel interested, as it concerns all. The property holders on Main street probably suffer more discomfort than residents in any other quarter of town, from the fact that more driving is done there, and consequently more dust is set in motion.

If it be too late this season to procure a sprinkler let those men of the town who have influence, in matters concerning the maintenance of highways and roads, exert it to its utmost extent, that by next summer the nuisance arising from dusty streets may be entirely done away with. If the township cannot be made to feel this to be a thing really needful, let our residents take the bull by the horns, and support the advocated institution by private subscriptions.

Recipients of letters through the Riverton Post Office will observe the Riverton postmark on each. Complaint was made to the Department in Washington that letters failed to be promptly delivered. And now in consequence it is required that each article coming through the office shall bear the date of receipt. This is no doubt a good plan, and the grounds for complaint have been well considered, as a petty inconvenience would hardly have warranted the action taken. It will have the effect of making our officials more careful, and when inquiries for letters are made will necessitate their looking in the boxes at the time of inquiring and not trusting to memory in answering inquiries.

LOCALS.

—Mr. L. H. Davis is having a tin roof put on his house at the corner of Main and Second streets.

—A meteor of considerable brilliancy was seen here in the eastern sky on Sunday evening the 6th inst.

—Corn, tomatoes, egg-plants and other garden vegetables are being extensively shipped from here to Philadelphia.

—A party of young gentlemen sailed to Trenton in the "Olivette," a short time ago where they remained all night, returning next day.

—The new awning recently placed on the upper deck of the Columbia is a decided improvement. It is a wonder her owners have not seen the expediency of such a measure before.

—There seems to be a scarcity of bicycles here this summer, the craze has died out suddenly. Perhaps it is just as well, for our Riverton folks were never particularly fond of them.

—Ex-editor Priestley is still abroad but expects to return about September 15th. From last accounts we learn that he has completed a tour through the Highlands of Scotland.

—Ex-editor Earnshaw has returned from a trip to the mountains of north-western Pennsylvania. He reports trout fishing last month as excellent, and that many fine catches were made.

—The "Olivette" will probably make a trip down the bay the latter part of this month, with a party of young men from here. It has not yet been definitely decided upon though.

—Mr. W. H. Bower, and our correspondent A. R. N. sailed for Antwerp Saturday, 22d ult., on the Red Star Steamer Rhineland. They expect to visit France, Germany and Switzerland, returning home early in October.

—Messrs. Thomas Bros. have sold the good will and fixtures of their grocery to J. M. Roberts, of Girard avenue, Philadelphia, who will continue the business, adding to the present stock a full line of fancy groceries.

—Cat birds, which abound in this locality, at this season of the year warble anything but sweet melodies. In the early summer they sing beautifully, and why it is that the quality of their voices change as the season advances is an unsolved mystery.

—Quite a remarkable driving feat was accomplished between here and Camden on the 3d inst., the distance, 9½ miles, having been traversed in 53 minutes, by one of Mr. Ely's horses, not the one however that died a few days ago. Considering that the load drawn was by no means a light one, the time made was excellent.

—An adjourned meeting of the Vestry of Christ Church was held at the residence of Mr. Wm. P. Ellison, on the evening of July 6th. A plan of the church lot, locations of buildings upon it, and an outline of the plan of the proposed church were presented with a view of deciding upon a site for the latter. The subject of the location of the new church was considered, and it was finally decided to postpone further consideration of the matter for another month. On motion of Mr. Ellison, seconded by Mr. Roberts, it was resolved to adjourn, to meet on Monday evening, July 31st. Accordingly, on this date, another meeting was held, and a vote polled with reference to location of new church. The questions at issue were, whether it should be

placed at a distance of 125 feet from Main street, or 60 feet distant. The majority of those present were in favor of the former distance, but as there was not unanimity in the vote it was resolved to let the matter be decided by the pewholders; so a parish meeting was held on Monday evening, 7th inst., in the Sunday school building, and a vote taken, the result of which was the decision in favor of placing the church at a distance of 125 ft. from Main street.

It is probable that steps will at once be taken regarding the erection of the church, though before operations begin it will be necessary to remove the present one, a portion of which site will be covered by the new structure.

—The Fair at the School House in aid of the Roman Catholic Church is over. Upwards of \$300 was cleared. The building presented a tasteful appearance inside, being decorated with flags and bunting, which, with the many fancy articles for sale, proved quite an attraction to the villagers, who flocked there every evening.

—The Night Blooming Cereus belonging to Mrs. Jno. Fraser has again put forth some magnificent blossoms. A few weeks ago the plant contained 14 buds, 6 of which fell off, the other 8 having come to perfection on the eve of the 1st, 2d and 3d inst. A singular coincidence is that a plant of the same kind, in the possession of Mr. G. L. Senat bloomed at the same time having four blossoms of rare size and beauty.

—The improvement at the corner of Main street and Bank avenue, has been a source of favorable comment ever since its completion. Persons who knew the old house can scarcely believe it in its present condition to be the same building. Great credit is due the young architects Messrs. Hazelhurst & Huckel, according to whose plans it has undergone such an agreeable change.

—Riverton has been unusually quiet this summer though there are more people here than for many years past. This is attributable to the sad accident of the Fourth, which seems to have thrown a damper on all festivities up to within a short time ago.

The Ball grounds are again open and matches are proceeding as usual. Tennis is looking up, and the four courts with which the grounds are supplied may be seen daily occupied by players of that interesting game. On Mondays the ladies turn out in fair number.

Archery and Tennis are indulged in extensively at the Ladies Out Door Club grounds every Tuesday afternoon.

—On Tuesday morning, 1st inst., Mr. Thos. Wiggins was about entering his carriage to drive to the depot, when he lost his footing and fell to the ground, striking his side on the wooden step. With some difficulty he was lifted from beneath the carriage and conveyed into the house. It was found that one rib was broken. Dr. Marcy was summoned and everything proper in the case done. Since then he had been improving from day to day, and on Saturday last passed a more comfortable day than any since the accident. About 8 o'clock in the evening, while the physician and some members of the family, who had just finished arranging his pillows, were conversing at the bedside, he died suddenly and without a struggle. The sudden demise is attributed to an affection of the heart. Universal sympathy for

the family shows that the friends of the deceased include all who knew him.

—Mr. Wm. L. James has about completed some extensive improvements in the rear of his property on First street. A mansard roof has been placed on the old stable building, the building itself having been entirely remodelled inside. An iron tank with 3700 gallons capacity occupies most of the available space in the third story, and is supported by heavy yellow pine timbers, which run through the entire building, and find lodgment in well-constructed piers of masonry, several feet beneath the surface of the ground. It is supplied with water by a small steam engine located on the ground floor, which draws its supply from a well close by. The other portions of this floor are used for the storage of fuel. The second floor is used for storage purposes. The whole arrangement of the building is most complete, and it is without doubt the best water works in town.

The small house which formerly contained the engine has been converted into a beautiful play house, and its comforts are daily enjoyed by the children of the neighborhood.

PENNSYLVANIA RAILROAD

For New York via Trenton, 7.16 P. M.

REGATTA.

The Annual Fourth of July Regatta of the Riverton Yacht Club, which was brought to such a sad termination, was sailed Saturday morning last with the following entries:—First-class Yachts, Olivette, Nettle, and Mascot. Second-class, Curlew, Mawp, Laura, and Gypsy, the Ethel did not participate. The course prescribed was from Riverton wharf to buoy off Thomas', thence to buoy off Harrison's wharf, to lower buoy, to upper buoy and back to the wharf. All buoys to be rounded from Pennsylvania to Jersey.

At 9.35 the first-class yachts started, in the positions as named above, the Mascot having taken the lead shortly after, which she maintained during the entire race. Poor management on board the Olivette gave her a position in the rear, and after her first turn around the buoy off Harrison's wharf, she put back for Riverton, giving up the race. The race between the Nettle and Mascot was of great interest, and at the finish there was but a difference of 1½ minutes between them. Both boats were admirably handled.

At 9.49 yachts of the second-class started in the following order:—Mawp, Gypsy, Curlew, and Laura. On the way to the first buoy the Curlew crept up and passed the Mawp which had been the first to get under way, and pushed steadily on, rounding the buoy, followed closely by the Gypsy and Laura. When the second buoy off Harrison's was turned the Gypsy was 15 seconds ahead of the Laura and 13 ahead of the Curlew. At this stage the race was very exciting, as the boats were all extremely close, except the Mawp

which was decidedly in the background. From our wharf it was a beautiful sight to see the three boats beating down the river with uniform distances between them. The lower buoy was rounded for the second time with the boats still in the same order, and the turn at Harrison's buoy showed the same positions. Here their courses diverged, the Gypsy and Curlew striking towards Jersey, while the Laura kept in mid stream. From this point to the wharf was the finish, and when the boats crossed the line, the Gypsy lead the way, being one minute ahead of the Laura. The Curlew on the way down had lost much ground, and did not get in for ten minutes after the Gypsy. The race was well contested, and was pronounced to be one of the best ever witnessed here.

The presentation of prizes came next. Mr. H. Bower assisted by Mr. H. Biddle, had the programme in charge. Dr. Vallette of the Mascot received a pair of field glasses as the prize for first-class yachts.

Mr. Geo. H. Bower of the Gypsy received a handsome gold compass, the first prize for second-class boats, and Mr. L. Flanagan of the Laura, gracefully accepted the second prize, a beautiful gold scarf pin with a ship carved in the centre.

Quite a number of ladies were in attendance in the club house during the whole time of the race, which lasted two hours and thirty-five minutes.

TIDES FOR SEPTEMBER.

Below we publish a table of the tides for September, giving the hours of high water A. M. and P. M. Also height of tide in feet and inches. Sportsmen will do well to cut this out, as it will be an invaluable source of reference during the gunning season.

CAHILL HOUSE,

THIRD AVE. & KINGSLEY ST.,

ASBURY PARK,

4 miles below Long Branch, N. J.

The above commodious house
will be RE-OPENED for the recep-
tion of guests

June 15th, 1892,

Having greatly enlarged by the
addition of a number of bedrooms
refurnished with Spring Beds,
Hair Mattresses, &c. The house
has been otherwise renovated and
refurnished, with the addition of
bath rooms, hot and cold water,
with perfect drainage. Gas
throughout.

An early application will secure a choice
of rooms.

MRS. M. D. CAHILL,

thanking her friends for their
former patronage, begs to inform
them and the public in general
that she now has every facility of
making them thoroughly comfort-
able. The kitchen facilities, en-
larged dining-room, with its
sumptuously provided tables, will
rival the best of seaside resorts.

The situation, as is well-known, is
one of the most desirable in
Asbury Park. Being but two
minutes walk from the beach and
bathing grounds, and easy of
access to the several pleasure lakes,
on each of which there is a boat at
the disposal of the guests, free of
charge. The house is surrounded by

WIDE PIAZZAS AND BALCONIES.

Laundry connected with the
house. A coach will be at the
station on the arrival of every
train, and convey passengers direct
to the house free of charge.

Guests will please retain their
baggage checks, and hand them to
her coachman, who will see that
the baggage is delivered without
delay.

Rooms may be engaged, and
special arrangements made for
families remaining the entire
season, and further information
obtained by addressing

MRS. M. D. CAHILL,

1314 Arch Street, Phila.

Where her large double house, con-
taining over 30 rooms is open until
June 15th, for transient or perma-
nent guests.

Terms: \$2.50 to \$3.00 per day,
\$10.00 to \$20.00 per week.
