Musio and the Child.

Prof. Daniel Batchelor, of Philadelphia, originator of "Color Music for Children," and one of the leading composers of children's songs, has kindly consented to give a parlor talk on Friday, September 22nd, at 4 o'clock, at the home of Miss Emma A. Price, 416 Lippincott avenue, Riverton. Subj: "The Relation of Music to the Education of the Child." He will show the beneficial effect of music upon the child's physical and nervous system and also how it co-ordinates to mental and moral growth.

Prof. Batchelor has had a long and large experience with children and this is an opportunity which should appeal to mothers and to all who are interested in the welfare of the young.

Miss Price will be glad to communicate with and give information to any who may desire to hear this lecture.

Friends' School at Westfield Remodeled.

Feeling the necessity of placing the school on a more permanent foundation, the trustees of the Westfield Preparatory Meeting School are remodeling the building on their property at Westfield, where the school will be held this year instead of at the home of Mr. and Mrs. Boyer, on Eighth street, as formerly.

New sanitary arrangements have been installed and the rooms are airy and light and of suitable size, and well equipped for primary and kindergarten work, to which the instruction will be confined. A large playground surrounds the building.

School was first started on this property under the care of this Meeting in 1790.

Transportation from Riverton and Palmyra will be supplied for those who desire it without extra charge.

Miss Mann and Miss Rur, who have successfully conducted the school in the past, will again be in charge.

For terms and further information apply to

Riverton A. A. Notes.

Owing to the fact that Mr. Bell, the manager of the Delair team, did not think that our grounds would be in condition for a game after the rain of Friday night and the greater part of Saturday morning, he cancelled the regular scheduled game for Saturday, and thus we were without one, being the first lay-off that we have had this season owing to rain or wet grounds. As it turned out it was one of the best afternoons we have had to have a game, and most of our rosters journeyed to the West Palmyra grounds to see the game between The Field Club and Riverside, which The Field Club lost in the regulation 9 innings, owing to an unfortunate miff of a fly ball to centre field, which permitted of the only run made in the game being scored, the runner scoring on a three base hit of the next batter.

As requested by one of the exponents of the art of umpiring, whom we have criticized in a previous issue, we took particular note of the work done by the person we submitted as our Umpire, Anthony Borne, and from the work he did on Saturday, and also games that he has umpired at Riverton, we have nothing but praise for his work and are able to stamp him with the stamp of approval and fear no one in stating that he has displayed the best work of the four men appointed by the president, Taylor C. Rae. His decisions were not questioned at all on Saturday, and from those who witnessed games which he has umpired, they state the same work has prevailed in all the games.

This Saturday we have with us Riverside, for the deciding game of the series and we fully expect to take the ice into camp, as we should have done the last time we met, but they seem to have had all the luck, but it is hoped that a little of it will turn our way on Saturday.

On Monday, September 4th, Labor Day, we will journey to West Palmyra and once more endeavor to take a game, which if we succeed in doing, will tie up the series and then most likely a fifth game will be played.

Riverside management is very desirous of the game for this Saturday being played on their grounds, but as we have not had a game on the home grounds for several weeks, we have decided to stay at home and give the rosters an opportunity of seeing this game.

RIVERTON ROOTER.

Dr. Janny Withdraws.
Since it was announced that I would be a candidate for the office of Coroner in Burlington County this coming fall, I have learned that I shall be required to spend a large part of my time out of the State, in the future, which would be incompatible with the service. I have, therefore, withdrawn from the canvass in favor of my worthy friend, Ellwood W. Bolton, of Moorestown.

Horace Roberts, of Moorestown, and Joseph Borton, of Marlton, were judges of fruit, and George Gilligham, of Moorestown, and Howard G. Taylor, of Riverton, judges of vegetables at the Monmouth County Fair, held at Red Bank yesterday. The party made the trip in Mr. Roberts' automobile.

The Standup Scrubber, sold by John Epple, 508 Broad street, is undoubtedly an improvement over any other device yet put on the market for scrubbing and mopping floors. It robs another of the household tasks of half its unpleasantness and labor. It is built along entirely new lines and is well worth investigating. For a short time Mr. Epple is selling the device at a special price.

While returning from the ice plant yesterday afternoon, Theodore Kessler, driving J. L. Lippincott's Hummobile, collided with one of Lit Bros' wagons, at East Riverton, which turned out of a cross street and which Kessler did not see until it was too late to avert an accident. Both of the horses were hurt, one of them seriously, and the automobile was damaged.

The fifth annual camp meeting at Fletcher grove, Delanco, will be held tonight. During the first three days of the camp, the fifty-first annual meeting of the Local Preachers' Association of the New Jersey conference will be held. It is expected that on Sunday there will be two hundred preachers present. While the convention is being held the members of the preachers' organization will be the guests of the Fletcher grove camp meeting association. There will be three services on Monday, Labor Day, for which interesting programs have been arranged.

MANHOOD.

Riverton Country Club.

As the month of August draws to a close the golf players of the Country Club are looking forward to exciting times and plenty of sport; September being the banner month on the links. On September 2nd the final play for the Committee Cup will decide the winner for 1911. On Labor Day, September 4, every man that plays golf will try for the President's Cup. This being a handicap event all have an equal chance. The cup, which is put up for competition by John S. Bloor, president of the Club, is the finest cup played for during the season and consequently there will be a hard struggle to land the prize. Edwin S. Parry was the winner in 1910.

Following this event comes the Club championship, the qualifying round to be played on September 9th, to be followed by match play of 18 holes each on September 16th and 23rd and on September 30th, the final match play of 36 holes to decide the event. This tournament carries several prizes including the Championship Cup, a watch fob medal for the winner of the qualifying round, a cup for the runner up of the first division and a cup for winner of second division.

In addition to the above events the "goat tournament" is creating much sport as well as good golf playing. This event will probably continue on through September and October ending about November 1st when the winner will be declared and a suitable prize awarded.

During September and October the putting contests on the 9-hole putting green will form another pleasant feature on Saturday afternoons. This event is open to ladies and gentlemen and adds additional pleasure to all the members of the Club.

Mrs. A. R. Cavanna and children returned from Wildwood on Tuesday after spending a month at Wildwood.

Mrs. Charles Armstrong and daughters, Margaret and Edith, returned on Sunday after spending a week at Atglen, Pa.

Pinching.

"I have to pinch for a living," as the rab said when it seized the hand of the man who sought to catch it.

The Workers.

In the civilized countries of the world 90 per cent of persons over ten years of age have to work for a living.

Ambergis.

For many hundreds of years ambergris has been employed in sacerdotal rites of the church, and with fragrant gums it was formerly burned in the apartments of royalty. To some extent it was used as a medicine and as a flavoring for certain dishes. Nowadays ambergris is utilized almost exclusively by perfumers in the preparation of fine scents.

Stealing.

"Why do you call your story 'The Thieves' Romance'?"

"Because it is all about stealing."

How?

"Well, the story of the romance goes this way: 'She stole a look; then she stole a kiss. Next they had stolen meetings, they stole a march on their friends, and both stole away.'"

"I suppose the next thing they will be stealing back."

Paid For the Advice.

Old Hunk (meeting a physician at the club)—Doc, what ought a man do when he has an all over his feeling, as if he were going to have an attack of the grip? Crusty M. D.—He ought to consult a good physician about it. Old Hunk—Well, that advice ought to be worth a dollar anyhow. Here it is, I'll go and hunt him up.—Chicago Tribune.

The Sage Plant.

Sago is a nutritive, farinaceous substance obtained from the pith of several species of palms growing in such hot countries as Java and Sumatra. The stem, about fifteen to twenty feet long, is cut into pieces and the pith dug out and placed in a vessel having a sieve bottom. Water poured into the sieve washes the flour thus exposed into a second vessel. When the water is poured off and the residue becomes dry it is known as sago flour. The pith left behind forms what is known as common brown sago.

Throwing the Dart.

Throwing the dart is a picturesque custom which is observed in Cork, Ireland. Every third year the chief magistrate proceeds to the mouth of Cork harbor in full state. Following flamemorial custom, he throws a dart into the sea—a dart with a head of gold and a shaft of mahogany—saying, "I cast this javelin into the sea and declare that as far around as it falls declare the right and dominion of the corporation of Cork to and over the harbor as well as the rivers, creeks and bays within the same."

Girls in Guatemala.

None of the maidens in Guatemala are allowed to go abroad from their homes without the company of a chaperon, and a lover is only allowed to come and court his sweetheart through the heavily barred windows of her father's home. After they are married they pass along the streets in Indian file, the woman marching ahead, so that the husband can be in a position to prevent any flirtations.

The Rule of Three.

Professor McGoude—it is astonishing how little the young people of the present day know of mathematics. For example, Miss Tarun—of you, Mr. Sparks—do you remember what the rule of three is?

Miss Tarun—Oh, yes, professor; I haven't forgotten that. I think, "Three is a crowd." That right?—Chicago Tribune.

Charity.

She—I'm glad we went. It was an excellent performance—and for such a charitable purpose! Her husband—Yes, indeed! We all feel a thrill of satisfaction when we do something for charity and get the worth of our money at the same time.

His Pride—Her Dust.

The sum of \$1,000 is left in trust for the benefit of a minor grandchild, George A. Wallace, who is to receive the principal when he reaches the age of thirty years. In the event of her death without issue before the specified age the amount is to go to the three sons mentioned. The residue of the estate is left to the widow and sons.

Card of Thanks
Mr. and Mrs. Charles Payung desire to thank the friends who assisted them in their recent bereavement, and who sent carriages to the funeral.

Christ Church, Palmyra.
There will be an early service next Sunday morning. Services will be held at 11 a. m. and 8 p. m.

OLD HOME DAY.

Don't forget "Old Home Day" in Palmyra on Saturday, September 10th. Make arrangements to knock off business on that day and help the town to celebrate. Can the storekeepers not get together and make the day a general holiday. Every one can make their purchase on Friday night or early in the morning if notice is given in time.

Have you contributed to the finance committee? If not, why not? This is your town and your celebration and you ought to help push it along. The extent of the affair depends on the amount contributed.

The committee have been instructed to engage the P. R. Y. M. C. A. band of West Philadelphia, for the day. Mr. Griffiths, of Cinnaminson avenue, is leader of this band and it has a good reputation.

The program as at present outlined is as follows: Morning—Reception of visitors, games and sports in the base-ball grounds. Afternoon—Reception of visitors, exercises in the grove. Evening—Band concert, moving picture show, fireworks, illumination.

Citizens generally are requested to contribute, decorate, illuminate, invite, entertain, aid and above all else "booster" and not "knock." The 10th should be for the "booster" and the "knockers" take September 31st for their day.

Prior to the 10th let every citizen see that his house, yard and street is in condition to greet visitors. Let the Freeholder and Township Committee get busy also and in addition the railroad company should be appealed to that they may do their part. We have a good town, let it put on its best clothes.

The next meeting of the committee will be held on Saturday evening at 8 o'clock in Society Hall. Every member should be present. We are now in shape to receive reports from the various sub-committees as to their work and know just what we have to depend on.

Why would it not be a good thing for each one of the churches to hold a reunion of their members on Sunday 17th? Many persons will stay over that day with friends and undoubtedly many of these will be former members of the various churches. If the lodges and clubs hold reunions on Saturday evening it seems fitting for the church to do something in that line on Sunday.

The P. O. S. of A. will hold open house in their lodge room the same as last year. How about the other lodges and clubs? Make it general and let us have a big night.

Old Home Day Sports.

Sports will be held on the morning of Old Home Day, starting at 9:30 o'clock, at the West End grounds. The various events will be all open and no entrance fee will be asked. It will be necessary that all contestants shall have their names entered with the events that they will participate in on or before Wednesday, the 13th. The same can be sent or given to F. W. Schroeffer, 10 W. Broad street, or W. H. Keen. Attractive prizes will be awarded to those finishing first and second in each event.

The Events.

100-yd. dash for seniors.

100-yd. dash for juniors (11 to 14.)

100-yd. dash for juveniles under 11 years.

220-yd. hurdles.

440-yd. dash.

One mile run.

Hurdling broad jump.

Pole vault.

3-legged race.

Kick race.

A special event for girls will be a 50-yd. potato race.

The committee reserve the right to handicap any of the events.

Field Club Notes.

The Field Club base ball team met the strong Riverside team last Saturday in a League game and while they lost the game, they captured all the glory. Starting the game with the odds 6 to 1 against them they put up their best and played the game of the year, and not until the last man grounded out in the ninth inning with the bases full, would they consent to swallow the 1 to 0 pill of defeat.

The team as a whole put up a grand game and the home team furnished most of the snappy plays and continually had their opponents on the defensive, the breaks of the game alone holding them in several innings.

Baker, on third base, gave an exhibition not excelled in the League this season, while Gibbons at short played his usual steady game. A catch in right centre by Reeves was one of the bright features of the game. The pitching of Holt was clean all the way through, and no doubt this chap, now that his seriousness, when facing Riverside, has vanished, will hand them many a defeat in the future.

The pitching of Mathews, the batting of Moyer with Overfelt's throwing and fielding of Kettler featured Riverside's work.

This Riverside bunch is a well-balanced team, with Louis Overfelt as the pivot, and contains just the proper amount of veteran material to assure its followers a steady and consistent playing team. With this team to set the pace next year and every other team going in to get them should produce some classy ball games.

Labor Day at Beverly.

On Labor Day, 1911, the Beverly Yacht Club, always noted for its cordiality and fine hospitality, quite outdid itself.

The handsome new club house gave the members an opportunity to entertain their visitors in a manner after their own hearts, and right royally they did it. Invitations had been extended to all the clubs on the lower Delaware and the river was fairly alive with craft of all kinds, from the swift power boats and stately cruisers to the sprightly little larks and crickets.

Commodore Holloway met all the visiting boats as they cast anchor, and invited the crews ashore where they were entertained and refreshed.

Riverton was well represented. Two cruisers, the Thetis and the Kid, and three one-designers, Allegro, Nokomis and Laura went up in the morning expecting to enter the race, but, owing to the total failure of the wind, the contest for sailing craft was postponed. Several of the power boats of the Club were present with gay parties aboard to witness the canoe events which were numerous and exciting, and to enjoy the excellent music furnished by the Metropolitan Band, of Philadelphia.

The speed boat contest was won by Thomas Hutchinson, who retained the Sioux trophy which he won last year with his fast boat, Zip II, his new boat, Zip III, easily winning first place this year. He covered the twenty-two mile course in about fifty-five minutes. There were two other entries in this class, but one withdrew, and the other, C. T. Ashman's "Kona," took nineteen minutes longer to cover the course.

No Contests in Riverton.

The political situation in Riverton so far has not developed even a ripple to mar the serenity of its calmness. May Plagg is candidate to succeed himself, without opposition; K. E. Bennett is out for re-election to council, and A. J. Wadhams has signified his willingness to step into the shoes of H. N. Foxworth, whose term expires, and who is content to lay aside the toga for the nonce. Asessor Davis has given such universal satisfaction that it looks as though he has a life sentence, as long as he is willing to retain the office, and Preholder Lowndes seems to have left no opening through which an opponent could find an entrance. All together it promises to be a very quiet affair, unless the devious ways of the new election law stir up some excitement.

Silver Wedding.

Mr. and Mrs. James Elliott, of 418 Elm avenue, celebrated their twenty-fifth wedding anniversary Tuesday evening, September 5, 1911.

The house was beautifully decorated with elements and pink and white roses. Edward Brown, a professional entertainer from Philadelphia, gave many fine recitations and amusing songs.

Refreshments were served beneath arches of roses and pink and white drapery.

After the cutting of the bridal cake, each guest offered a toast to the health of the happy couple.

Mr. and Mrs. Elliott received many handsome presents.

Guests were present from Baltimore, Md., New York City, Elizabeth, N. J., Philadelphia, Palmyra and Riverton.

Some of the places they visited were Eagle Lake, Pa.; Watkins Glen, N. Y.; Niagara Falls, Toronto, Canada; Thousand Islands, St. Lawrence river; Montreal, Canada; Adirondack Mountains and Berkshire Hills, Mass.

A fair, under the auspices of the Junior Auxiliary of Christ Church, Riverton, was held on the large lawn of A. O. Cook's residence Thursday afternoon. Among the attractions were ice cream, cake, candy, book and fancy tables, all prettily decorated in pink and white. There was also a fish pond, which yielded delightful surprises, and a tent where everyone had their fortunes foretold. The lawn was strung with lanterns, and the whole effect of the decorations was very pretty indeed. Seventy-five dollars was taken in, and the proceeds will be put in the treasury of the Junior Auxiliary and used for the winter's work in sending boxes to the different mission fields.

Friends' School at Westfield Remodeled.

Feeling the necessity of placing the school on a more permanent foundation, the trustees of the Westfield Preparative Meeting School are remodeling the building on their property at Westfield, where the school will be held this year instead of at the home of Mr. and Mrs. Boyer, on Eighth street, as formerly.

New sanitary arrangements have been installed and the rooms are airy and light, and of suitable size and well equipped for primary and kindergarten work, to which the instruction will be confined. A large playground surrounds the building.

School was first started on this property under the care of this Meeting in 1790.

Transportation from Riverton and Palmyra will be supplied for those who desire it without extra charge.

Miss Mann and Miss Roe, who have successfully conducted the school in the past, will again be in charge.

When is an Old Maid?
"Some day the marriageable age for women will be advanced from 20 to 30, and the old maid line will be changed from 30 to 40. When that time comes there will be surprisingly few divorcees. The husband of whom we dream at 20 is not at all the type of man who attracts us at 30. The man I married at 20 was a brilliant, world, handsome, abnormal creature, with magnificent eyes and very white teeth and no particular appetite at meal time. The man whom I could care for would be the normal, safe and substantial sort who would come in at 6 o'clock, kiss me once, snuff the air twice, and say, 'Mm! What! That smells so good, old girl! I'm as hungry as a bear. Trot! I out. Where are the kids?'—From "Dawn O'Hara," by Edna orber.

Chinese Still At It.
Congressman Murdock, the insurgent who insured all of the time during the last year of the Cannon regime, says that after reading a lot about Chinese tongs and their murderous work, he went to bed and dreamed of them. In the morning, as he looked over his morning paper, he found himself murmuring: "Those Chinamen are still at it." The headline which attracted his attention was: "Shot Wife of Chum."

Changing Hospital Character.
The question in hospitals has gradually become not "Is this patient poor enough to be admitted to the hospital?" but "Is he ill enough, or is his illness of the kind to require the special services which the hospital is organized to render?"—British Medical Journal.

THE UP-BUILDING OF THIS BANK

is due to the fact that we have adhered to a policy which has been conservative, yet along progressive lines. We offer to our customers modern facilities for the prompt and proper transaction of their financial affairs; ample vault and safe room for storing and safe-guarding of their money, notes, insurance policies and other valuable papers, and such liberality of treatment as is consistent with prudent banking.

Your account is cordially solicited. Deposits can be made either at the Corn Exchange National Bank, Second and Chestnut Sts.; or the Franklin National Bank, Broad and Chestnut Sts., Philadelphia, for the account of this bank.

Old Home Day.

Don't forget that Saturday, September 16, is "Old Home Day" in Palmyra. Why not take a day off from business and help the town to celebrate? This should be an annual holiday and business should be suspended as much as possible.

The Independence Fire Company are taking hold right and have appointed a committee consisting of James T. Weir, Louis Krause, Walter Lepp, Ellsworth Hall and Winfield Land to hold "open house" on that day and evening. An orchestra has been engaged and there will be plenty to eat and drink. All old members of the company have been invited to visit the house during the day or evening.

The Good of the Order Committee of Camp No. 23 will have charge of the celebration. The members of the committee are: Koppenhaver, Horner, Gladney and Schmierer. There will be music, singing and other entertainment and a substantial lunch. Every member of the camp will receive an invitation to be present.

Chairman Donaghy reports that he is receiving numerous replies to the invitations he has sent out to the home comers. Some of these show much feeling for the old town.

All stores and residences that will enter into competition for the prizes for decoration or illumination should notify the chairman of the committee, William C. Strang. There will be a prize for the best illuminated and the best decorated business place and other prizes for the best decorated and the best illuminated private residences.

Once more will we appeal to the residents of the town to clean up for the day. The freeholder, township committee and railroad company have all promised to do their part. Now let the individuals get busy.

All those intending to enter into the sports and games for prizes should make their entries with the committee as early as possible.

The responses of our citizens to the finance committee shows that all are enthusiastic for the celebration. At few who refuse to contribute and who throw cold water on the project are relics of past days. We have a good town and we should not be ashamed to advertise it.

Hand into the committee the names and addresses of all former residents. Put it on a postal and direct it to William A. Donaghy. Let no one be missed.

Invite your friends and relatives to spend "Old Home Day" with you. The old town is going to let loose that night and everyone should have a good time. If some of the former residents have particular friends invite them to make your home their headquarters while in the town. This will aid the committee very much.

Delaware River League.

The final meeting of the Delaware River League was held at The Field Club rooms Thursday night, with President Ruc in the chair.

After the general routine President Ruc upheld Umpire Halsinger's fine to the River Club for disorderly conduct in game last Saturday between the River Club and Riverside club. President Ruc also censured Manager Hemphill for not playing the championship game scheduled between Palmyra and River Club Labor Day last. River Club played an exhibition game on that date with players outside of the League on their team.

A committee was appointed to furnish the Riverside B. C. with a pennant which will be presented to them in a few days. Vice-President Tucker, of Delair, then spoke on the good fellowship between the League players and spectators. He also favored the League being carried on, as it has been a grand success from every point of view. A committee was appointed with this end in view, and the meeting then adjourned to the other room where the Riverside team was presented with a handsome silver loving cup by the inimitable "Pat" Dwyer, who made a neat little speech for the A. J. Reach Co. Mr. Snyder, who received the cup for Riverside, came right back and said how glad he was to get it and asked for a few words from George Durgin, who was instrumental in getting the cup for the League. George then told how he was glad Riverside had won (?) and said he would try and work A. J. Reach & Co. for another one next year. After every one had had their fill of talk, refreshments were served by The Field Club Auxiliary. President Clark asked for a vote of thanks, and it was given with hearty cheers—between bites.

The Field Club Minstrels then favored with a few attractions.

Photography of Dr. Sharp.

Friend of the late Dr. Lewis Lippincott Sharp who have not already done so may secure a copy of the folder containing the doctor's picture and a brief biographical sketch, issued by THE NEW ERA, by applying at this office, or sending a two-cent stamp to cover postage and envelope.

The folder is printed on a delicate dull-shiny gray paper, while the picture is done in a sepia tone and tipped in. Many of those who have already secured copies have been kind enough to say that it is very well executed.

The first edition was exhausted almost before it was off the press. Another and larger edition has been printed and we are now able to fill orders promptly.

There are no restrictions on conditions and it is not necessary to be or to become a subscriber to this paper to secure a copy—if you want it, it is yours for the asking.

School Notes.

School will open on Monday next; but only half sessions will be held on Monday and Tuesday.

Among the corps of teachers there are several new ones. Miss Haddock will teach mathematics; Miss Gooding, English; Miss Tuckson, history; in the High School; Miss Seel will be the eighth grade teacher in place of Miss Tracy Edwards; Miss Johnston the fourth instead of Miss Augusta Edwards; and Miss Gardner and Miss Havens will be first grade teachers. The Misses Edwards have taken positions near Millburg, Pa.

In the new school building the windows are being stripped with metal so as to exclude the cold drafts.

Field Club Notes.

The Field Club traveled to the town of the Seibert, Pa. on Saturday last and again proved to the Delair aggregation that for them to cop a game from the F. C. boys there would have to be some unforeseen calamity. It seems that no matter how good Delair's pitchers are going and how many hits they get they can never cop a game. Saturday was no exception, as the Delair boys outbatted the locals 7-6, and with any kind of support Bodine should have come out a winner.

The locals secured their two runs in quite an easy fashion. In the first inning Gibbon went to second when Bell threw wild to first and scored when Durgin threw wild to third to catch him stealing. Delair's single tally was made in the second when Kiefer doubled and scored, after Bodine and Tees had been retired, when Hardy missed Baker's throw.

It looked like an extra inning game with both pitchers going good, especially when Baker and Reeves were easy outs in the ninth, but Bodine passed Durgin—his only pass of the game—who stole second, Dunn throwing wild and scored when Bradley lost the ball in the woods trying to catch him going to third. Things looked good for Delair in their half, Souders walked, Walton fed to Kiemmerle Bradley singled, but Bell fanned and Gibbon fed to Reeves.

The Field Club 1; Riverton 0.

In one of the pitcher's battles seen on the local grounds Palmyra again defeated the Riverton team by the narrow margin of 1-0—the run was a hit at that, but that is base ball and the team that takes advantage of its opponent's misplays wins out. It was the lucky seventh when, with one down, Kemmerle singled—Lynch making a great effort to get up, but could not hold; Herb then stole second and scored when Williams was knocking down Deacon's high throw, sliding under Dunn when Williams tried to get him at the plate. Some springing, this!

Durgin was doing some pitching and only one Riverton player reached third and this was after two were out. At this period G. Durgin had a finger broken by a foul tip, Piff taking his place, but Williams fanned just the same and Riverton's last chance to score was lost.

Side Lights.

Rees and Gibbon are the speed boys of the League.

One good single and two scratch infield hits is the best Riverton could do to Durgin.

The local outfielders had an easy day—one chance each and easy ones at that.

Reeves had Diamond an easy out at second when he tried to stretch his single to a double.

No game in Riverside or Delair on Monday gave Palmyra a banner Labor Day crowd.

Four stolen bases on Diamond.

Deacon tried to steal third but George Durgin's throw beat him to the bag.

Riverside won every game but they had several close ones and had to play ball to win out.

Delair at Riverton on Saturday, the last League game of the season.

The Field Club plays the North West Professionals on the West End grounds.

ROOTER.

Moravian Church Notes.

Services in the Moravian Church next Sunday. Rev. Paul S. Meinert, M. A. pastor.

9.30 a. m., Sunday School and pastor's Bible Class.

10.30 a. m., litany and sermon by the pastor. Theme "Christ, the Cure for all Public Ills."

7.00 p. m., C. E. consecration meeting led by the pastor. Theme "Lessons from the Life of Daniel."

7.30 p. m., song service and sermon by the pastor.

You are cordially invited to attend these services.

Baptist Church Notes.

The notices of the Central Baptist Church for next week are as follows:

At 10.45 a. m., the regular preaching service of worship.

Bible School at 2.30 p. m. This is a school well equipped and thoroughly organized.

Tuesday evening from 7 to 8 p. m. Pastor Steinmetz will preach at both morning and evening services.

Tuesday evening at 8 o'clock the regular prayer service of the church.

You are invited to worship at this church.

REV. SAMUEL STEINMETZ.

Christ Church, Palmyra.

Owing to illness in his family, the Rev. J. W. Comfort, of Madison, Ind., who was announced to hold services in Christ Church, Palmyra, next Sunday, will not be able to keep the appointment. The services will be in charge of a licensed reader—morning prayer and sermon 11 a. m.; evening and sermon at 8 p. m.

On Monday, the 11th, the quarterly congregational meeting will be held in the parish house at 8 p. m. Matters of importance will be presented by the vestry and every member of the congregation is urged to be present.

The Primary Election.

At the primary election on September 26, Winfield Land will be opposed for re-election to the Board of Freeholders by Joel Horner, who served Palmyra township in that capacity for several years.

H. P. Huff will have no opposition in his candidacy for re-election to the township committee. Mr. Huff is found in the Democratic column, but so well has he served his constituents and the town at large, that the Republicans will not put up a candidate to oppose him.

William L. Fichter is a candidate for re-election as justice of the peace, but the place will be contested with him by William A. Donaghy.

For constable J. J. Tomes and Charles Cooper are out to succeed themselves and John Cooper, Democrat, and Frank Grubb, Republican, will try conclusions with them.

There are two surveyors of highways and one pound keeper to be elected but no candidates.

The Democrats have filed petitions, Julius Fisher in the second district and Thomas J. Prickett in the first district as members of the county committee, one to be elected in each district.

MANY INNOVATIONS AT TRENTON 1911 FAIR

Monoplane Flights by a Woman to Be the Greatest Thrill—Improvements in Many Lines.

Will it be possible for the Trenton Fair to surpass the wonderful exhibition offered to the more than 125,000 spectators who passed through the gates in 1910?

That's the question being asked by the people of half a dozen states in the east who are interested in this greatest of all eastern fairs.

Here is the answer:

Yes.

The 1911 Trenton Fair will be true to its slogan—

Greater, grander than ever!

True, the mere saying so will not make it so; consequently Secretary Mahlon Margerum and Assistant Secretary L. P. Randall, pleased over the bright outlook, do not hesitate to discuss the plans.

There are so many new things, so many innovations, for 1911 that it is difficult to determine just where to begin.

Last year as a feature the fair introduced the Wright brothers' aeroplanes in marvelous flights.

That was the limit, the spectators said.

Not so.

The Trenton Fair will go that one better this year and offer a woman in air flights.

What! A woman making flights in one of those tricky, air, birdlike affairs?

Even so.

Miss Harriet Quimby, dramatic editor of Leslie's Weekly, one of the most daring, daintiest and most charming little women in the world, has become one of the air conquerors, and she will demonstrate at the Trenton Fair that a woman can do anything a man can.

A magnificent new building has just been completed for a horse show that will equal anything that has been seen in the east. The show will be under the direction of H. A. Folsom, a well known horseman and one of America's leading directors of events of this kind. As a distinct feature of the show there will be a special class for Clydesdales and Percherons and already a classy entry list has been secured.

Vandeville?

More thrilling, more sensational than ever.

Absolutely the cream of thrills and sensations has been gathered by the fair's vandeville director, William Taylor.

Horticulture will be given greater prominence than in any former year for two entire buildings will be devoted to this branch of the fair under the direction of Professor A. M. Blake.

Look for something far out of the ordinary.

Children will not be disappointed.

The children's department? Enlarged so as to make it the most important demonstration of children's work ever attempted in this country.

An entirely new arrangement whereby the vast plot of ground used for this purpose has been laid out like a miniature city—

Play grounds and streets so that you can find any class of exhibit you are interested in by looking at a chart which will be handed you without charge.

This is a decided innovation and one that will find general favor.

Speed racing?

You know the class of racing that delighted Trenton Fair patrons last September?

The field will be larger this year and the entries more class; therefore as a matter of course the racing cannot help but be better.

Another great improvement will be found in the cattle exhibit. There is to be a ring surrounded by seats where the cattle will be shown and judged. This will surely please all interested in cattle and will attract the best cattle the Trenton Fair has ever exhibited.

There will also be one of the finest automobile shows of the year, at which will be exhibited cars of almost every make. Many of the 1912 models will be shown both in pleasure cars and in commercial trucks.

Take this tip: If you are at all interested in motorcars don't miss the Trenton Fair, for the exhibition in the handsome new exhibition hall under the grand stand.

OFFICE OF RIVERTON AND PALMYRA WATER CO.

SPECIAL NOTICE

For Lawn Sprinklers or Pavement Taps

The attention of water takers is called to Rule 12, of Rules and Regulations of the Riverton and Palmyra Water Company, which are a part of the contract with every person who takes water.

RULES—No pavement tap, charged for at schedule rates, shall be used for a longer period than three hours in any one day. Using pavement taps longer than the time hereon designated, allowing water to escape therefrom when not in actual use, sprinkling with a nozzle, or with a nozzle larger than 1/4 inch, or with more than one opening sprinker to each tap, is positively forbidden; and any consumer found violating this rule in any respect, or permitting the same to be violated, will be charged FOUNTAIN RATES, and if he shall REFUSE TO PAY THE SAME AT ONCE, SHALL HAVE HIS SUPPLY OF WATER STOPPED.

During the hot and dry summer months this rule of the Company will be rigidly enforced, in order to prevent the unnecessary waste of water, and thereby protect the Water Company and its consumers. In case of a fire the reckless waste of water would prove to be a very serious matter. There is a good supply of water if consumers will only help the Company to stop its waste.

THE PRIMA

CHAPTER I.—"Mad" Dan Maitland, on reaching his New York bachelor flat, met an attractive young woman at the door. "Hello," he said, "I'm Dan Maitland. You must be the girl who was in the car with me last night. I saw you in the papers."

CHAPTER II.—Maitland dined with Banerman, his attorney. Dan set out for Greenfield, to get his family jewels. During his walk to the country, he met the young woman in gray, whom he had seen leaving his bachelor flat. Her auto had broken down. He fixed it and by a ruse she "lost him."

CHAPTER III.—Maitland, on reaching home, surprised lady in gray, cracking the safe containing his gems. She, however, merely took a well-known crook, Daniel Anstey.

CHAPTER IV.—Maitland, on reaching home, opened his safe, and there, to his horror, found his family jewels. He called the police, and they found the young woman in gray, who had been leaving his bachelor flat. Her auto had broken down. He fixed it and by a ruse she "lost him."

CHAPTER V.—Maitland received a "Mr. Smith" introducing himself as a detective. Maitland, about to show him the jewels, suddenly changed his mind. He called the police, and they found the young woman in gray, who had been leaving his bachelor flat. Her auto had broken down. He fixed it and by a ruse she "lost him."

CHAPTER VI.—Anstey, who was Maitland's double, masqueraded as a detective. Maitland, about to show him the jewels, suddenly changed his mind. He called the police, and they found the young woman in gray, who had been leaving his bachelor flat. Her auto had broken down. He fixed it and by a ruse she "lost him."

CHAPTER VII.—The "Mr. Smith" who had introduced himself as a detective, was in fact a detective. Maitland, about to show him the jewels, suddenly changed his mind. He called the police, and they found the young woman in gray, who had been leaving his bachelor flat. Her auto had broken down. He fixed it and by a ruse she "lost him."

CHAPTER VIII.—Maitland revived and regretted missing the engagement ring. He called the police, and they found the young woman in gray, who had been leaving his bachelor flat. Her auto had broken down. He fixed it and by a ruse she "lost him."

CHAPTER IX.—The cab which picked Maitland up at his lodgings carried him but a few blocks to the club at which he had, the previous evening, entertained his lawyer. Maitland had selected a room in one of all the clubs of which he and Banerman were members, wherein he was least likely to meet the latter. Neither frequented its sober precincts by habit. Its servers and classical building on corner of Madison avenue overlooking the square, is the outward presentment of an institution to be a member of which is a duty, but emphatically no great pleasure, to the sons of a New York family of any prominence.

But in its management the younger generation holds no suzerainty; and is not slow to declare that the Primordial is rightly named, characterizing the individual members of the board of governors as antediluvian, prehistoric monsters who have never learned that laughter lends a savor to existence. And so it is that the younger generation of the Primordial, while it religiously pays its dues and has the name of the Primordial engraved upon its cards, shuns those deadly respectable rooms and seeks its comfort elsewhere.

Maitland found it dull and depressing enough, that same evening, something before seven. The spacious and impressive lounging room, with its sparsely stationed, other than by the snuffed corps of servants; and the few members who had lent the open doors the excuse of their presence were of the elderly type that hides itself behind a newspaper in an easy chair and snorts when addressed.

The young man strolled disconsolately enough into the billiard room, where he found a man in a suit, who was looking at a picture on the wall.

"The Maitland Jewels," he read, half aloud. "Darling attempt at burglary. 'Mad' Maitland Catches 'Hand-some Dan' Anstey in the Act of Cracking His Safe at Maitland Manor. Which Was Which? Both Principals Disappear."

A dull red glow suffused the reader's countenance; he compressed his lips, only opening them once, and then to emit a monosyllabic oath, which can hardly have proved any considerable relief to his surcharged emotional nature.

The news-story was exploited as a "beat"; it could have been little else, since nine-tenths of "exclusive details" had been born full-winged from the fecund imagination of a busy reporter to whom Maitland had refused an interview while in his bath, some three hours earlier. Maitland discovered with relief that bottled-down essentials consisted simply of the statement that somebody (presumably Anstey) had caught somebody (presumably Maitland) in the act of cracking his safe at Maitland Manor that morning; that one of the sombodies (no one knew which) had overpowered the other and left him in charge of the butler, who had presently permitted

coolness, forthwith the dawn, rode up on the breeze.

He looked up and away northward, for many minutes, over house-tops stenciled black against the glowing sky, his gaze yearning into vast distances of space, melancholy tinged by the complexion of his mind. He fancied himself oppressed by a vague uneasiness, unaccountable as to cause, unless—

From the sublime to the ridiculous with a vengeance, his thoughts tumbled. Gone the glamour of romance in a twinkling, banished by rank materialism. He could have blushed for shame, he got slowly to his feet, irascible, trying to grapple with a condition that never before in his existence had he been called upon to consider.

He had just realized that he had been deceived for cash. He had given his last quarter to the cabby, hours back, who was registered at a strange hotel, under an assumed name, unable to beg credit even for his breakfast without declaring his identity and thereby laying himself open to suspicion, discountenance and—

Of course there were ways out. He could telephone Banerman, or any other of half a dozen acquaintances, in the morning; but that involved confession, and explanations involved making himself the butt of his circle for many a weary day.

There was money in his lodgings, in the Chippendale secretary; but to have him come to the room, to run the gauntlet of reporters and detectives who had already dismayed him in prospect, O'Hagan—ah!

At the head of his bed was a telephone. Impulsively, inconsiderate of the hour, he turned to it. "Give me nine-eighty-nine Madison, please," he said; and waited, receiver to ear.

There was a slight pause; a buzz; the voice of a switchboard operator below stairs repeating the number to central; central's appropriately mechanical reiteration; another buzz; a silence; a prolonged buzz; and again the sound of a switchboard operator.

"Hello!" he said, softly, into the transmitter, at a venture.

No answer.

"Hello!" he said, irritably. "Go ahead. You've got your party."

"Hello, hello!"

A faint hum of voices, rising and falling, beat against the walls of the room. "What's that?" he asked, frowning. "Jiggle the hook and call central to order. When something crashed heavily. He could hear the sound of a chair being violently overturned. And then a woman's voice, clear, and anxious informed with anger and pain: "No!" and then—

"Say that's my mistake. That line you had out of order. I had a call for them a while ago, and they didn't answer. Guess you'll have to wait."

"Central?" he asked, frowning. "Ah, say! what's the matter with you, anyway? Didn't I tell you that line was out of order? I had a call for them a while ago, and they didn't answer. Guess you'll have to wait."

CHAPTER X.—Consequences. Breathing convulsively, wide eyes a little wildly fixed upon his face in the dim light, he waited. At last, after a few moments, he heard a voice, and for a moment remained cowering against the wall, terrified, a hand gripping a corner of the packing box for support, the other pressed against his forehead. "Say that's my mistake. That line you had out of order. I had a call for them a while ago, and they didn't answer. Guess you'll have to wait."

"Central?" he asked, frowning. "Ah, say! what's the matter with you, anyway? Didn't I tell you that line was out of order? I had a call for them a while ago, and they didn't answer. Guess you'll have to wait."

CHAPTER X.—Consequences. Breathing convulsively, wide eyes a little wildly fixed upon his face in the dim light, he waited. At last, after a few moments, he heard a voice, and for a moment remained cowering against the wall, terrified, a hand gripping a corner of the packing box for support, the other pressed against his forehead. At last, after a few moments, he heard a voice, and for a moment remained cowering against the wall, terrified, a hand gripping a corner of the packing box for support, the other pressed against his forehead.

CHAPTER XI.—The young man strolled disconsolately enough into the billiard room, where he found a man in a suit, who was looking at a picture on the wall.

"The Maitland Jewels," he read, half aloud. "Darling attempt at burglary. 'Mad' Maitland Catches 'Hand-some Dan' Anstey in the Act of Cracking His Safe at Maitland Manor. Which Was Which? Both Principals Disappear."

A dull red glow suffused the reader's countenance; he compressed his lips, only opening them once, and then to emit a monosyllabic oath, which can hardly have proved any considerable relief to his surcharged emotional nature.

The news-story was exploited as a "beat"; it could have been little else, since nine-tenths of "exclusive details" had been born full-winged from the fecund imagination of a busy reporter to whom Maitland had refused an interview while in his bath, some three hours earlier. Maitland discovered with relief that bottled-down essentials consisted simply of the statement that somebody (presumably Anstey) had caught somebody (presumably Maitland) in the act of cracking his safe at Maitland Manor that morning; that one of the sombodies (no one knew which) had overpowered the other and left him in charge of the butler, who had presently permitted

coolness, forthwith the dawn, rode up on the breeze.

He looked up and away northward, for many minutes, over house-tops stenciled black against the glowing sky, his gaze yearning into vast distances of space, melancholy tinged by the complexion of his mind. He fancied himself oppressed by a vague uneasiness, unaccountable as to cause, unless—

From the sublime to the ridiculous with a vengeance, his thoughts tumbled. Gone the glamour of romance in a twinkling, banished by rank materialism. He could have blushed for shame, he got slowly to his feet, irascible, trying to grapple with a condition that never before in his existence had he been called upon to consider.

He had just realized that he had been deceived for cash. He had given his last quarter to the cabby, hours back, who was registered at a strange hotel, under an assumed name, unable to beg credit even for his breakfast without declaring his identity and thereby laying himself open to suspicion, discountenance and—

Of course there were ways out. He could telephone Banerman, or any other of half a dozen acquaintances, in the morning; but that involved confession, and explanations involved making himself the butt of his circle for many a weary day.

There was money in his lodgings, in the Chippendale secretary; but to have him come to the room, to run the gauntlet of reporters and detectives who had already dismayed him in prospect, O'Hagan—ah!

At the head of his bed was a telephone. Impulsively, inconsiderate of the hour, he turned to it. "Give me nine-eighty-nine Madison, please," he said; and waited, receiver to ear.

CHAPTER I.—"Mad" Dan Maitland, on reaching his New York bachelor flat, met an attractive young woman at the door. "Hello," he said, "I'm Dan Maitland. You must be the girl who was in the car with me last night. I saw you in the papers."

CHAPTER II.—Maitland dined with Banerman, his attorney. Dan set out for Greenfield, to get his family jewels. During his walk to the country, he met the young woman in gray, whom he had seen leaving his bachelor flat. Her auto had broken down. He fixed it and by a ruse she "lost him."

CHAPTER III.—Maitland, on reaching home, surprised lady in gray, cracking the safe containing his gems. She, however, merely took a well-known crook, Daniel Anstey.

CHAPTER IV.—Maitland, on reaching home, opened his safe, and there, to his horror, found his family jewels. He called the police, and they found the young woman in gray, who had been leaving his bachelor flat. Her auto had broken down. He fixed it and by a ruse she "lost him."

CHAPTER V.—Maitland received a "Mr. Smith" introducing himself as a detective. Maitland, about to show him the jewels, suddenly changed his mind. He called the police, and they found the young woman in gray, who had been leaving his bachelor flat. Her auto had broken down. He fixed it and by a ruse she "lost him."

CHAPTER VI.—Anstey, who was Maitland's double, masqueraded as a detective. Maitland, about to show him the jewels, suddenly changed his mind. He called the police, and they found the young woman in gray, who had been leaving his bachelor flat. Her auto had broken down. He fixed it and by a ruse she "lost him."

CHAPTER VII.—The "Mr. Smith" who had introduced himself as a detective, was in fact a detective. Maitland, about to show him the jewels, suddenly changed his mind. He called the police, and they found the young woman in gray, who had been leaving his bachelor flat. Her auto had broken down. He fixed it and by a ruse she "lost him."

CHAPTER VIII.—Maitland revived and regretted missing the engagement ring. He called the police, and they found the young woman in gray, who had been leaving his bachelor flat. Her auto had broken down. He fixed it and by a ruse she "lost him."

CHAPTER IX.—The cab which picked Maitland up at his lodgings carried him but a few blocks to the club at which he had, the previous evening, entertained his lawyer. Maitland had selected a room in one of all the clubs of which he and Banerman were members, wherein he was least likely to meet the latter. Neither frequented its sober precincts by habit. Its servers and classical building on corner of Madison avenue overlooking the square, is the outward presentment of an institution to be a member of which is a duty, but emphatically no great pleasure, to the sons of a New York family of any prominence.

But in its management the younger generation holds no suzerainty; and is not slow to declare that the Primordial is rightly named, characterizing the individual members of the board of governors as antediluvian, prehistoric monsters who have never learned that laughter lends a savor to existence. And so it is that the younger generation of the Primordial, while it religiously pays its dues and has the name of the Primordial engraved upon its cards, shuns those deadly respectable rooms and seeks its comfort elsewhere.

Maitland found it dull and depressing enough, that same evening, something before seven. The spacious and impressive lounging room, with its sparsely stationed, other than by the snuffed corps of servants; and the few members who had lent the open doors the excuse of their presence were of the elderly type that hides itself behind a newspaper in an easy chair and snorts when addressed.

The young man strolled disconsolately enough into the billiard room, where he found a man in a suit, who was looking at a picture on the wall.

"The Maitland Jewels," he read, half aloud. "Darling attempt at burglary. 'Mad' Maitland Catches 'Hand-some Dan' Anstey in the Act of Cracking His Safe at Maitland Manor. Which Was Which? Both Principals Disappear."

There was a slight pause; a buzz; the voice of a switchboard operator below stairs repeating the number to central; central's appropriately mechanical reiteration; another buzz; a silence; a prolonged buzz; and again the sound of a switchboard operator.

"Hello!" he said, softly, into the transmitter, at a venture.

No answer.

"Hello!" he said, irritably. "Go ahead. You've got your party."

"Hello, hello!"

A faint hum of voices, rising and falling, beat against the walls of the room. "What's that?" he asked, frowning. "Jiggle the hook and call central to order. When something crashed heavily. He could hear the sound of a chair being violently overturned. And then a woman's voice, clear, and anxious informed with anger and pain: "No!" and then—

Seaweed Bread.
Many lovers of seaweed have writ-
ten with the conviction that we need
ever worry about the wheat supply
as long as there is the sea, says the
London Chronicle. A correspondent
said that south Wales finds a particu-
lar sort of green seaweed on its
coast. After being washed it is boiled
down and made up generally with
meal—into cakes and eaten with
sauce. It is called laver bread and is
considered a great delicacy. So let us
juggle with our children on our sum-
mer holiday and gather the year's in-
come.

His Last Resort.
A Boston painter who died some
time ago was a broken down wreck in
his later days. Some feeling of pride
and shame clung to him to the last,
however, and, although he lived upon
the charity of his friends, he never
asked for money outright. In the
evening of his last day he passed this
request, "Please lend me a quarter,"
printed in big, staring letters. When
making a call he would doff his hat
with much show of dignity, and there-
upon be the mute appeal staring in
the face his intended victim. The
scheme never failed.

Tailors' Designers.
There are some New York tailors
who pay their designers \$20,000 a year,
and many pay from \$5,000 to \$10,000.

Wallace's Oak.
An oak tree near Paisley, Scotland,
known as Wallace's oak, is said to be
over 700 years of age.

Very True.
What is it that nobody wants
and which nobody likes to lose? A
law suit.

Mild Smoking.
The smoking of dried catfish
leaves antedated the introduction of
tobacco in England.

The Harvest Moon.
The "harvest moon" is the full moon
which falls nearest to the autumnal
equinox.

The Top of Minnesota.
The Northwest Angle in Minnesota is
the northernmost point in the United
States, not counting Alaska.

South African Winter.
The South African winter begins to-
ward the end of April and lasts until
September.

Especially the Latter.
"Why, I didn't know you could ride."
"Oh, I've been practicing the last two
months on and off."—Lippincott's.

AN ARCTIC KNIGHT

Story of an Exploring Party

Feldmann Fights Fast Draw with Gilmore.

Gus Feldmann, who has been on the water wagon for some months past, fought a fast draw with Gilmore at the Nonpareil A. C. of Philadelphia. Gilmore outwitted Gus by at least fifteen pounds and had all the better of the first few rounds, but Gus proved that he was a come-back by coming back strong in the fifth and sixth rounds. While Gus was badly battered about the head he is anxiously awaiting his next battle, which will be in about three weeks.

Most Valuable Possession.

I am much disposed, the longer I live, to set less value upon mere cleverness, and to think that the power of endurance, with persistence, is the most valuable of all—Huxley.

Old Home Day.

Pray for good weather. Look for a big crowd. In your property cleaned up so as to help make the town look attractive to the visitors?

Did you make a contribution towards the celebration? If not it is not too late yet. Treasurer Stewart will be glad to call for it if you notify him.

After the thing is over, don't say "You forgot to invite so-and-so." The committee have invited everyone of the old residents whose names have been handed in and if anyone is missed it is because their friends in Palmyra did not notify the committee.

If the celebration is a success watch the moss-backs thaw out. They will be the first to tell strangers of "our celebration" and "our town." Why is it that all our citizens cannot pull together on a matter of this kind surpassing all understanding. Get together, stop knocking and start boasting.

The prizes for the best decorated and illuminated stores and dwellings are on exhibition in the windows of Schroepfer, Roma, McAllister and Vaughn. All persons who intend competing for these prizes should notify William C. Straub, chairman of the committee at once.

The first place in town to be decorated was the residence of James T. Ward, this was closely followed by the store of Sol. Komm. Both of these gentlemen are up-to-date at all times.

Battles for the sports and games should be made to the chairman of the committee, William H. Ken or Fred Schroepfer as early as possible. Good prizes will be given. The events will take place on the baseball grounds at 9 a. m. and admission will be free to all.

The entertainment in the grove in the afternoon will start at 2:30. The address of welcome will be made by James E. Russell and will be responded to on behalf of the old homers by Rev. J. H. Nicholson.

There will be a concert by the band and selections by the Palmyra Choral Society under the direction of Professor John H. McNeil.

In the evening there will be a concert by the band, a moving picture show in the open air and an illumination with red fire. Also an entertainment at the P. O. S. of A., Field Club, Fire Company, etc., to their friends and members.

Frank S. Day and his committee will meet all trains and escort the guests to the registration bureau in Society Hall. Banners will be given the visitors and the committee will endeavor to make them feel at home.

The general committee will visit the Y. M. C. A., Fire Company, Field Club, P. O. S. of A. and other open houses where they have been invited during the evening.

Field Club Notes.

The Field Club and the North West Professionals had to go ten innings on Saturday before they could reach a verdict, and at the end of that period The Field Club boys romped home a winner by the score of 6-5.

The visitors were not in the local's class and the Palmyra boys seemed to be too confident—especially Rusty Holt, who allowed the visitors thirteen hits, gave four base on balls and had a wild pitch; which all considered is not a very classy article of pitching, especially after defeating teams much stronger, but it only proves that, while a team might look like something soft, it would always be best to see what they can do and then proceed to practice on them.

The visitors were the first to score, pushing a man over the rubber in the first on a base on balls, two hits and a fielder's choice. The Field Club scored three in the third on Keil's single and steal of second. Schriever then was batted a base on balls, Holt then pushed Keil over the run and Schriever to third by a clean single over second. Hardy was given a lift when the left fielder missed his long fly, Holt then scored when R. Gibbon was thrown out at first on a close play. The fireworks began in the fifth when the visitors bunched two base on balls, three singles, an infield out and a double, giving them four more runs. The Field Club tied it up in their half of the fifth on two bases on balls, two infield outs, five stolen bases and a single. There was no more scoring until the tenth when Paff led off with a single and scored when R. Gibbon hit to left field for two bases, making the score stand 8-5 in favor of the home boys.

Slide Lights.

Hardy made a grand-stand catch of a foul fly in the ninth. Paff not to be outdone got the very next man when he dove into the hedge and came out with the ball.

Talk about catches! Did you see Keil's out in the centre garden?

W. Gibbon was on third—only two chances but he got them. He also had an out.

The Field Club had seven stolen bases, five on a single.

Holt thought he was going to have it easy. Reeves was there with his usual single. Cahill, pitcher for the visitors, batted a 1,000, with a base on balls and four singles.

Delair pushed Riverton down to last place in the Delaware River League game.

ROOTER.

The notes of the Central Baptist Church for the coming week are as follows:

At 10:45 a. m. the regular preaching service of worship.

Bible School at 2:30 p. m. There will be a special program, including an address by the Rev. Paul Stephen Meiner, M. A., of the Moravian Church.

Every officer, teacher and scholar is expected to be in his place.

Twilight service from 7 to 8 p. m. At this service, Maurice Mower, the boy preacher, will preach. There will also be singing assisted by the young ladies choir. This boy is but 12 years of age and he has been preaching for about two years. You will miss a treat if you don't hear him.

Tuesday evening at 8 o'clock the regular prayer service of the church.

You are invited to worship at this church.

(1.) Verses 1-2—What right have we, if any, to compel those over whom we have authority to worship as we desire?

(2.) Should the state control, as to the religious belief and practice of its citizens? Why or why not?

(3.) If we should attend the services in a heathen or a Mohammedan temple, how should we conform our selves to their methods of worship?

(4.) Verses 13-15—What rights have we, if any, to be angry, or annoyed, at the method others take to worship God?

(5.) When one shows anger with another at the expression of an opinion contrary to his own, what does that indicate?

(6.) What should be our relative valuation of correct creed and correct deeds?

(7.) If a man gives way to "rage and fury" what are the chances for the correctness of his creed?

(8.) What was really the matter with Nebuchadnezzar, and with all others who have been intolerant of the religion of others?

(9.) Verses 16-18—Who were Shadrach, Meshach, and Abednego?

(10.) What would have been the harm if these three men, out of deference to the king, who had been a good friend to them, had fallen down to the golden image like the rest of them?

(11.) What is the religious significance to us, of the faith which animated these three men?

(12.) Suppose you had to lose your life, or sacrifice a religious principle, which should you do?

(13.) Verses 19-23—How do you account for the cruel spirit that has been manifested through the centuries, and which has resulted in the martyrdom of thousands, for their religious belief?

(14.) Does God in these days ever interfere miraculously, to prevent the physical suffering or the death of a good man who may be in the hands of those who are determined to wreak their vengeance upon him?

(15.) What does God do in these days, for one who may be in similar peril to these three men?

(16.) Verses 24-27—Who was the fourth man in the furnace with the three Hebrews?

(17.) What, if any, evidence is there, that faithful Christians these days, get delivered from the fiery furnace of trial, more than other men?

(18.) Verses 28-30—What happens in these days, to good people in trouble, in any way analogous to this story?

(19.) Was the king any better man after this event than before?

(20.) What is the moral difference between a man who is crucified on behalf of a good cause and one who is crucified on behalf of a bad cause? (This is one of the questions that may be answered in writing by members of the class.)

TRENTON FAIR TO HAVE ENLARGED AUTO SHOW.

Last year the Trenton Fair inaugurated an automobile show that met with such general approval that it has been decided to add it permanently to the long list of attractions of which this fair boasts.

The automobile show is held in the big exhibition hall under the drop roof stand, where there is ample space for the showing of the numerous cars the manufacturers of which deem the New Jersey capital the greatest demonstration center in the east.

This is true. The Trenton Fair offers rare opportunities to show automobiles, as it attracts the cream of people who "want to know" from four great states.

This year all of the plans and details have been worked out along the line of the big up to date shows that are held in various parts of the country.

It is certain that many 1912 cars will be on exhibition, and in addition there will be a magnificent display of commercial trucks. All the country is talking now about commercial trucks, and the Trenton Fair will never get a better opportunity of looking into the truck field than at the Trenton Fair.

Indications are that these cars will be shown Cadillac Oldsmobile, Buick, Peerless, Stoddard Dayton, Brush, Marmon, Overland, E. M. F., Flinders, Studebaker, Hudson, Chalmers, White, Speedwell, Maxwell, Le Mans, Packard, Buick, Regal, Abbott Detroit, Penn "30," Mercer, Win-ton, Buick, Lozier, Everet, Interstate, Chadwick, Bergdoll, American, Cole, Benz and many others.

The list of commercial trucks will include Garford, Sampson, White, Martin, Packard, I. H. C., Buick, Brush and a score of others—in fact, the best that the trade can produce.

When 22 will be the charge.

How I Won

By GROVER S. GRIFFIN

When I chose journalism for a profession I did so because I had literary tastes and a facility for writing. I soon found that the principal ingredient in the success of a newspaper man, especially while on the lower rungs of the ladder, is getting ahead of the other fellows. I soon tired of the routine work of collecting news and was thinking of giving up journalism when something happened; in other words, my opportunity arrived.

The president of the United States proposed to Russia and Japan, who were then at war, to settle their differences. A meeting was called between the representatives of the two nations to meet at Portsmouth. Our American newspapers are not used as they are in Europe to getting ahead of one another in news of matters pertaining to government and diplomacy or my opportunity would not have occurred at this time, for I was very young, had no acquaintances in the work and I had never been in the city where I was to go.

The managing editor of an obscure paper sent me to Portsmouth simply to transmit the news as it came out, with comments on the crowds and descriptions of the distinguished participants.

But a wild dream came into my head. It occurred to me that if I alone published it I might make myself famous as a newspaper man. And here opportunity came in again to help me. On my journey to Portsmouth I traveled on the same train as one of

The Russian representatives. "He had with him a number of attendants, consisting of secretaries, stenographers and servants. I made the acquaintance of several of the suite, and it occurred to me that I might possibly make a deal with some one of them to give me the news for a consideration. I doubt if I should have attempted to get anything out of a Russian, but I tried, but I knew that a Russian was much more amenable to the persuasion of funds.

I fell into conversation with one, whom I shall call Potodoff, a copyist. I gave him a cigar and several dollars from my task. I explained to him my desire and found a willing listener. I ended by offering him \$500 if he could get me the news, should one be made, in time to send it to my paper for publication ahead of all other journals.

I may seem remarkable that I should have offered so small a sum for such a valuable prize. The truth is I offered him all the money that had been given for my expenses after paying for my tickets, and he had no other money. He said he would do it, and I took him to my hotel. At the next meal we would change hats back again.

Well, the convention met and began its deliberations. Potodoff and I did not have any need to change hats till the articles of the treaty were being brought up for discussion. Then as soon as an article was written out by him, who was engaged in the work, would put a copy of it, written on this paper, in his hat, and I would soon after be its possessor.

I was in a continuous state of anxiety lest the plenipotentiaries should fail to agree and I should have all my trouble for nothing. Besides, I fancied that if a treaty were made and I offered it at a telegraph office in Portsmouth in advance of its release I

would not be able to get it through. I therefore resolved, if I did get it, I would take a train for some small place distant from Portsmouth and telegraph it from there.

Finally the convention began discussing the articles one by one. Every time an article was agreed to the same evening I would find it written out within the lining of the hat I would put on leaving the hotel dining room. I was getting anxious for the convention to end. I had not informed my paper that I was reserving all my money for a purpose and was in debt for everything I required.

At last the final articles were signed and a time appointed for giving the treaty to the newspaper representatives. The evening it was signed I got the last article from Potodoff, took a train for a near station, and the same night at 11 o'clock a telegraph operator was clicking its text to my paper.

Sixty Bushels of Corn

By M. QUAD

(Copyright, 1910, by Associated Literary Press.)

The Widow Glenn lived on a couple of acres of ground in the outskirts of the village of Bryon. She had three small children, and the world was not going very well with her. Her cow had been taken on a debt, there was a mortgage of \$200 on the place, and the holder was threatening to sell her out.

One day a fat man arrived in the village and took rooms at the tavern. He was fat and jolly and gossipy. He was also sympathetic. He happened to hear of the Widow Glenn's troubles, and after three or four days he sauntered out that way and found her seated on the doorstep with tears in her eyes.

"Widow," said he after introducing himself and sympathizing with her about the loss of crops, "I'm a fat man. I'm a good man. I have a heart. You are not getting a fair show in this world. I am not here to ask your hand in marriage, for 'Cupid is not for me. I am here to say that those who go out to shear shall be shorn, or words to that effect."

"I don't understand you," was her reply.

"And those who go out to slay shall come back home slain themselves. While I am a fat man and a good man and have a heart, there are times when I do a little business on the outside. This is one of the times. I want to rent your barn for a week, and then I want you to act as my agent for perhaps two more. I will pay you \$100 a week and perhaps more."

"But you can't mean it!" exclaimed the surprised woman.

"But I can, widow. I want the barn to store corn in. It is shelled and shelled in sacks. There will be many come to buy it for next year's seed. The price will be \$10 a bushel."

"As my agent you are to sell it at \$10 a bushel, and I am to pay you \$200 for so doing."

"Why, I'll do that, of course, but—"

"Say no more, widow. Rest right there. Here's \$5 for the rent of the barn till we get married. The corn will arrive on the railroad, and we will draw it up here."

Next day the fat man and the good man and the man with a heart prepared an article for the village paper. He also got out circulars to farmers. The inventor of a new breakfast food wanted 5,000 bushels of corn next year. He wanted red corn exclusively. He would pay \$15 per bushel for it. The red corn was a fact, but New York was willing to pay for its fads. The Widow Glenn had been made the agent of the Great American Red Corn Food company and had red seed corn to sell at \$10 per bushel. Call before it was all gone. Not more than three bushels to any one buyer. The company wanted to give all farmers a chance.

The fat man with a heart disappeared. The widow had her instructions, and she obeyed them. The red corn was in two bushel sacks, and the farmers flocked over themselves to take them away.

The widow's roll of 100 and twenty dollar bills grew larger every hour, and her heart grew lighter. There was a moneyy about her being a good agent, but no one had any time to talk about it. It was the red corn. Many of the buyers thought there might be a demand for blue corn within two or three years and wondered how it could be grown. In ten days every bushel of the corn was sold, and the widow had \$300 deposited in the postoffice safe. Then the fat man showed up. He was just as fat and jolly as ever. He said at the tavern that the day

seemed to have dawned when red corn must take its place in the social and commercial world, and he intimated that the stock he had secured in the Great American Red Corn Food company would pay dividends of 50 per cent within two years. To the widow, when he had sauntered out to her house and received the roll of greenbacks, he said in a tone of tennis. So long, Billy boy."

"Great Scott, it's hot here. I believe I'll climb up to the peak where the wind must be blowing some miles a minute," Billy pulled his hat down over his eyes and set forth on the narrow trail that wriggled up the mountain.

The wind was increasing, and the pine and cedar rustled and whispered. All the wild scents of pine and hemlock and trailing saxifrage and other more elusive odors assailed his nostrils as he climbed upward, stopped here and there to rest and gaze over the view that widened below as he went on. The long afternoon was before him, and he outlined a vaguely delightful period of repose on the peak. Billy pulled his hat down over his eyes and set forth on the narrow trail that wriggled up the mountain.

"If none of those kingly girls from the hotel break in on me, I ought to have a bully old time," panted Satterly as he tottered up the last steep ascent.

He crammed his hat down farther over his eyes in defense against the gale that was blowing up here. Bracing himself against the wind, he turned to look down into the valley below when he became aware that he was not alone on the peak.

Near him, and apparently oblivious to his presence, was a slender, boyish figure, whose black cloth skirts whipping back in the wind accentuated the masculine appearance of what proved to be a girl, and a mighty pretty girl at that, thought Satterly as he looked at her.

TWO IN A GALE

The Results Were Propitious

was in the upper balcony of the pavilion a little while ago," she said curtly.

"I heard what you said," she went on resentfully. "Listeners never hear any good of themselves, but I thought it was unkind in you to say I thought."

Billy reddened to his forehead. "Oh, I say," he apologized, "the fellows didn't mean any harm; it's just the idle gossip that one drifts into when there isn't anything else to do. Every one of us would risk our neck for you, Don't."

"What is your name?" asked the girl hurriedly.

"Satterly—Billy Satterly," he said.

"Oh, you're the one that didn't say anything, then?" she seemed to breathe a little sigh of relief. "Why didn't you answer when they asked what you thought of my masculine attire?"

"There was nothing to say. I happened to see you when you arrived on the stage last night, and—" He paused, as if embarrassed by a too eager tongue.

"And?" she suggested.

"I thought you didn't need any frills, you know," he finished lamely.

"Thanks," she said simply, dropping down a seat on the rock and pressing back the flying waves of black hair from her eyes. "But that is not the reason why I wear plain clothes. You see, I'm a western girl, and I was born and raised on a ranch. Father and I lived alone. There were just two after I came, and I had to be both son and daughter to dad. He died a year ago, and so I had to come east and make my home with Mrs. Bowker, my aunt. I had private tutors at the ranch, but of the outside world I have been quite ignorant. I am learning rapidly that girls are girls and boys are boys, and why—well, I know all about it. It's a stiffish gale," he added hastily.

"It is," she laughed through her teeth. "How border you must have thought me, Mr. Satterly, but I heard what you were all saying, and I did feel so lonely and unappreciated, you know. Wasn't it silly? So I just tipped downstairs and flew up to this rock out of sheer defiance to the gale."

"And I've been intruding on your privacy all this time," cried Billy remorsefully. "I'll run along down now—be careful when you descend; you might slip on the pine needles and sprain your ankle. One of the girls did that the other day." He turned to the path.

"Please stay, Mr. Satterly," she urged. "You mustn't let me drive you away. Thank you," she pressed the handkerchief into his hand, and he returned it to his pocket silently.

"You are sure I won't be in the way?" he asked, settling down on the ground and taking out his neglected newspaper.

"Not at all. And you may smoke your pipe too. I don't mind it," she smiled as she studied a tobacco pouch back in his pocket.

"Thank you," he said gratefully.

"You do not know my name," said the girl suddenly. "It's not fair when I am acquainted with yours. I am Rose Benworth."

"Thank you," said Satterly gravely.

After awhile the greedy wind tore the paper from his hands, and they watched it sail down the mountain side until it reached the lake, where it became a white winged craft and disappeared from view.

Then Billy showed Rose how to find pictures in the sailing clouds, and he taught her to look at the clouds painting that he had ever dreamed of, for she was a child of prairie and hill in the western country.

So they talked and the sun dipped below the west peak, and then they went regretfully down the narrow trail. "Back to the earth—out of the clouds," remarked Billy as he helped Rose Benworth over the slippery pine needles.

At the top that night Dick Fancher and Lester Pennington rallied Billy on his long absence that afternoon. They had, with one accord, fallen captive to the charm of Rose Benworth in her simple white evening frock. She danced to perfection.

"What's the matter with you, old man?" they demanded of Billy. "You look as if you'd been drinking."

"I have," he said urbanely.

"What?"

"Nectar and all that sort of thing, you know."

"Rubbish!" jeered Dick enviously. "You're in love, that's what's the matter with you."

And so it proved.

At last.

Diogenes, lantern in hand, entered the village drug store. "Say, have you anything that will cure a cold?" he asked.

"No, sir, I have not," answered the pill complier.

"Give me your hand!" exclaimed Diogenes, dropping his lantern. "I have at last found an honest man,"—Christian Advocate.

The Fishing Banks.

Newfoundland would be nothing without the great submarine plateau known as the "banks," on which all the fishing is done. At a small station within the edges of the great bank that the cod lores so well the sea is quite smooth. It is usual for vessels fishing on the bank to inquire from those that have arrived from the open sea as to what sort of weather it is "aboard."

"Thank you," she said demurely.

"Then you're alive, after all," breathed Billy relievedly. "You were so silent I thought you were petrified with amazement or admiration or something, you know."

"I was petrified with surprise that you should address me at all," said the girl with unfriendly emphasis in her low voice. Satterly had to draw closer to hear her, and she said: "Between the wind and the rushing sound of the swaying trees below there was a tumult of harmonious noises."

"Why?" demanded Billy Satterly bluntly, fixing his honest eyes on her.

SACRAMENT RENEWS COVENANT WITH GOD

By Rev. LOYAL W. MADDEN,
Pastor First Presbyterian Church,
Hoonoson, Ill.

When the Saviour spoke of the new covenant he implied that there was an old covenant. There is not any word more expressive of the true relation between God and his people than the word covenant. A covenant is an agreement between two or more persons to do or not to do a certain thing or things.

There are some essentials to every proper covenant, legal parties, a promise, a compromise, conditions, forfeitures and penalty, a seal by which the whole is usually attested and ratified. Covenants are sealed in different ways. Notes and contracts are sealed by signing the name, documents by setting the seal of the state, an oath by holding up the right hand, the marriage vow by the clasp of the right hand.

When a covenant of certain liberties was made between King John and the English people the Magna Charta was sealed and delivered to the barons of England. To the present day an important ceremony at the coronation of the sovereign of Great Britain is the investiture of the sovereign by a ring. This ring is placed on the fourth finger of the sovereign's right hand by the bishop of Canterbury. It is called the "wedding ring of England," as symbolizing the covenant relation between the sovereign and his people.

A similar practice prevails of the

and placed the bleeding arms together, thus sealing the covenant that each is to do for the other whatever is asked, even to yielding up life, and thus it became a sacred custom and very widely practiced throughout the world. There arose later a custom of each dropping a few drops of his blood into a bowl of water and each drinking and in this manner sealing the covenant, and then later came the custom of mixing wine and water and each drinking it, thus sealing the covenant relation.

Abraham is the only person in the Bible termed "the friend of God." This endearing term seemed to have been bestowed on him because he kept the covenant relation. In Genesis xlvii, 2, the Hebrew for "I will make my covenant" is "berith" and may as well be translated "I cut my covenant," then immediately the covenant is sealed with the blood of circumcision. And now Abraham is to do for God whatever God asks him to do, and God is to do for Abraham everything that he asks.

When rescued Israel had reached Mount Sinai the covenant of blood friendship between the Lord and the seed of the Lord's friend was once more recognized and celebrated. "And Moses came and told the people all the words of the Lord, and all the judgments, and all the people answered with one voice and said, 'All the words that the Lord has spoken we will do.'"

"And Moses wrote up all the words of the Lord, and rose up early in the morning and builded an altar under the mount, and twelve pillars, according to the twelve tribes of Israel. And now observe the celebration of the symbolic rite of blood covenant between the Lord and the Lord's people, with the substitute blood accepted on both sides and the covenant record agreed upon.

"And Moses took half of the blood and put it in basins, and half of the blood he sprinkled on the altar. And he took the book of the covenant and read it in the audience of the people and they said, 'All the Lord has spoken we will do and be obedient.' And Moses took the blood and sprinkled it on the people of the Lord. Thus the covenant is renewed between God and the seed of Abraham.

The covenant is renewed by God in the New Testament, transferred from David to David's greater son, from type to antitype, from symbol and prophecy to reality and fruition. God establishes the covenant with his people and seals it with the blood of his Son Jesus Christ upon the cross of Calvary. Christ, knowing the manner of his death, before he passed in that dreadful hour gave the substitute for his body and his blood, the bread and wine.

He commanded that the feast be kept, and thus it has been kept through the centuries, and the covenant relation has been thousands upon thousands of people between themselves and God and between one another.

Friends' School at Westfield Remodeled.

Feeling the necessity of placing the school on a more permanent foundation, the trustees of the Westfield Preparative Meeting School are remodeling the building on their property at Westfield, where the school will be held this year instead of at the home of Mr. and Mrs. Boyer, on Eighth street, as formerly.

New sanitary arrangements have been installed and the rooms are airy and light and of suitable size and well equipped for primary and kindergarten work, to which the instruction will be confined. A large playground surrounds this building.

School was first started on this property under the care of this Meeting in 1790.

Transportation from Riverton and Palmyra will be supplied for those who desire it without extra charge.

Miss Mann and Miss Rue, who have successfully conducted the school in the past, will again be in charge.

School Notes.

On Monday-afternoon of this week the boys of the Riverton Public Schools met and organized an athletic association with the following officers: President Francis Cole, Vice-President David Kern, Secretary-Treasurer Corner Clelland.

A rule was adopted permitting the admission to membership of former members of the school, and under this rule Russell Smith, now attending the Palmyra High School, was the first to be admitted.

By a unanimous vote, the dues were placed at twenty-five cents a month, the money to be used in purchasing suits for the various athletic teams, and later in acquiring gymnasium apparatus.

For the purpose of increasing the money in the treasury, the boys of the association have been collecting newspapers and magazines on which they realized this week \$3.67.

Twice a month the members will call at any home for papers and magazines, the proceeds of the sale being used to further the interests of the athletic association. All persons having papers and magazines, which they desire to contribute, should inform the president or secretary of the association. This assistance would be very much appreciated.

Foot ball games have been arranged with the Palmyra Grammar and Penn Charter Schools.

At the present time there are 246 pupils attending the schools here.

The vaccination, here adopted by the local Board of Education last Spring, has been very generally observed by all pupils.

An innovation this year is the playground work. A twenty-minute period each morning is devoted to drills and games, all pupils taking part.

Mrs. Anna Matilda, wife of Edson Carhart, of East Riverton, died Saturday. Mrs. Carhart was 61 years of age, and was a member of the P. O. of A., about fifteen members of which attended her funeral, which was held Wednesday afternoon. Rev. Samuel Sargent conducted the services and the burial rites of the lodge were read. Interment was made in Mount Cemetery, Beverly, under the direction of Undertaker John C. Belton, of Moorestown.

A special meeting of the Burlington County Historical Society was held on Friday evening at "Woodverge," the residence of the president of the society, at Moorestown, at which time it was decided to hold a loan exhibition of historical and family relics of Burlington County and the State of New Jersey.

Francis H. Lee, the State historian, who has expressed much interest in the project, was present at the meeting and was made chairman of the committee to look after the details. It was decided to hold the exhibition the latter part of November in the Town Hall, at Moorestown.

Early Sunday morning burglars tried to visit all sections of the town and succeeded in having themselves reported from five places. The residence of Mrs. Charles F. Armstrong, on Cinnaminson street, was entered and a gold watch, considerable money, several cigarette cases and a number of eatables taken.

At the home of A. M. Elsworth, on Main street, they found the refrigerator and emptied it of all cooked foods and the milk. Men were seen lurking around the home of G. H. Mealey, J. Henry Yeager and George Stroblein, all on Fulton street.

We are in receipt of a picture post card from Muncie, Indiana, on which is displayed a Friends' Church of pretentious appearance; very unlike the plain Friends' Meeting-Houses of this part of the country. Near this Church is a paragon of tincture, which indicates that the members employ a pastor at a salary, also unlike the Friends' of either branch of Philadelphia yearly meetings. This postcard is by the politeness of our esteemed friend Edward H. Hancock, who states that he is at Muncie for a brief period. If others, while on their trips abroad, would report to THE NEW ERA what of interest they see and hear, it would be appreciated by its readers.

Manager Pratt at the Adams Express office is as proud as a peacock over the new office fixtures with which the company has just equipped his office. The office proper has been partitioned off and a suitable desk and counter constructed, so that now the genial manager has proper facilities for waiting on the patrons of the company.

The twenty-sixth annual convention of the Burlington County Women's Christian Temperance Union was held in the Methodist church at Jacksonville Thursday. Mrs. Thacher, of Florence, the county president, made the principal address at the evening session, taking for her theme "The Liquor Traffic as Seen in Other Lands."

The attention of parents is called to the fact of their children getting mail before going to school and carrying it to school with them. In the past several reports of lost mail have been traced to this fact. The Postmaster would suggest that the children stop at the office for mail on their way home from school only and thus reduce the chances of trouble over lost mail. If parents will instruct their children in this matter it will be greatly appreciated by the post office authorities.

The Riverton Yacht Club has re-elected John H. Reese commodore and Robert Biddle, 2d, vice-commodore. G. H. Mealey took Eugene J. Bush's place as secretary, and H. B. Hilla was retained as measurer. The finance and elective committee remained the same—W. MacLean Jones, John C. S. Davis, E. H. Showell, Roberts L. Inoué and C. C. Kishner.

The regatta committee was entirely changed, the new members being Walter C. Wright, George H. Mealey and Dr. J. M. Hill. The new power boat committee is R. H. Stackhouse and A. W. Herr.

SUPPLEMENT TO THE NEW ERA

RIVERTON, N. J., FRIDAY, SEPTEMBER 22, 1911.

WILLIAM P. LIPPINCOTT

Why He Should be Nominated for Surrogate of Burlington County and Elected for Another Term

The subscriber, having been selected and designated by William P. Lippincott, as his committee to act for him in his candidacy for the Republican nomination for Surrogate, under the provision of Chapter 188, of the laws of 1911, and having accepted and consented thereto, deems it his duty and privilege, at this time, to acquaint the Republicans of the county with the reasons that have prompted him to act in this capacity and endeavor to promote the nomination of Mr. Lippincott. They are as follows:

It is generally conceded by those competent to judge that Mr. Lippincott has given to the people of this county the best administration of the Surrogate's Office that they have had for many years; that he has given close attention to the duties and performed them all promptly, efficiently and courteously, and thereby demonstrated his eminent fitness for the position which he seeks. The office is one that is semi-judicial in character and often requires the quick determination of nice legal questions concerning the probate of wills, the granting of letters of administration and other matters of like character, and therein differs from most of the other county offices. These legal questions have been solved by Mr. Lippincott with unusual aptitude, as evidenced by the fact that few, if any, appeals have been taken from his decisions.

When Mr. Lippincott became Surrogate the office was changed by a recently enacted law from a fee to the salary system, necessitating the adoption by him of an entire new system of keeping the accounts of the fees collected therein which were required to be thereafter paid over monthly to the county collector for the use of the county. The system of keeping these accounts and reporting thereon devised by Mr. Lippincott, together with the forms connected therewith proved to be so satisfactory that they have received high commendation and have been adopted by a number of the Surrogates' offices in other counties.

It is for reasons like the foregoing that most of the other counties in this State have adopted the policy of continuing competent men in the Surrogate's office for more than one term, as an examination of the records for the past thirty years will quickly demonstrate.

While Burlington county has not elected a Surrogate for a second term since the election of John R. Howell in 1881, I find that there are only two counties in our class and they are the counties of Essex and Hunterdon.

In Atlantic county the Surrogate is serving his second consecutive term while his predecessor served four consecutive terms.

In Bergen county the Surrogate who preceded the present incumbent served two consecutive terms and was also Surrogate before that from 1883 to 1893.

In Camden county, the Surrogate is serving his second consecutive term, while his predecessor served three consecutive terms.

In Cape May County the Surrogate who preceded the present incumbent served two consecutive terms while his predecessor served three consecutive terms.

In Cumberland county, the Surrogate is serving his second consecutive term and another Surrogate served two consecutive terms from 1888 to 1898.

In Gloucester county, the Surrogate is serving his second consecutive term while his predecessor served three consecutive terms.

In Hudson county, the Surrogate who preceded the present incumbent served three consecutive terms.

In Mercer county, the Surrogate who preceded the present incumbent served five consecutive terms.

In Middlesex county the recent incumbent was elected for two consecutive terms, his predecessor for two consecutive terms and his predecessor for two consecutive terms.

In Monmouth county Davis S. Crater has been Surrogate so long that no one can remember when he was first elect-

ed he has had it at least six consecutive terms.

In Morris county the Surrogate is serving his third consecutive term.

In Ocean county the Surrogate is serving his third consecutive term, while his predecessor had two consecutive terms.

In Passaic county the Surrogate who preceded the present incumbent had five consecutive terms.

In Salem county the Surrogate is serving his third consecutive term while his predecessor also served three consecutive terms.

In Somerset county the Surrogate is serving his second consecutive term, while another Surrogate served for a like period from 1888 to 1898.

In Sussex county the Surrogate who preceded the present incumbent served two consecutive terms.

In Union county the Surrogate is serving his fifth consecutive term.

In Warren county a Surrogate has served for two consecutive terms.

It appears from this that whatever prejudice there may be against giving the Surrogate a second term is confined to a very small area of the State and that the policy pursued by a very large majority of the counties is to continue competent and worthy men of experience in the Surrogates office for at least two terms.

Such a policy is an incentive to good service, is in line with civil service, and is eminently fitting at this time where merit and not politics should govern in the selection of public officials.

Mr. Lippincott, in addition to the qualifications above mentioned, has been a life-long and consistent Republican, is well and favorably known throughout the county and if nominated, as he surely deserves to be, will in my judgement, add material strength to the Republican ticket and insure its triumphant election in November.

Owing to unwarranted insinuation, if not charges to the contrary, I deem it incumbent on me to say, that my advocacy of William P. Lippincott's nomination for Surrogate has not been inspired by any promise, hope, expectation or desire for reward of any kind or character, whether he be successful or not in his candidacy, but only by my desire to promote the best interests of the Republican party which I am always ready to serve.

Should either of the Republican candidates for this nomination secure the most Republican votes at the primaries I pledge to him the unwavering and unqualified support of Mr. Lippincott and myself as well as that of our friends, at the polls in November and bespeak for Mr. Lippincott like support by them and their friends should he secure this nomination.

Above all let me impress upon every Republican voter in the county the importance of casting his ballot at the primary election on September 26th and seeing that at that time he is properly registered for the ensuing election.

Mount Holly, N. J.

Old Home Day.

The great day.

Everybody enjoyed it, and even the rain which fell in the morning would not dampen the ardor of the participants or chill the warmth of the hearty welcome extended to the visitors.

The program of the day started with the field events on the West End grounds and closed with a fine out-of-door motion picture exhibition in the evening.

Notwithstanding the unfavorable weather conditions during the early part of the day, the attendance was much larger than last year, and the various committees whose untiring efforts made the day such a complete success, are entitled to the satisfaction arising from a service well and faithfully performed.

The decorations and illuminations are worthy of special notice and showed a degree of civic pride which speaks well for Palmyra. The committee had offered prizes for decorations and illuminations and William S. Vaughn carried off the

honor for business houses, for decorations, while James T. Weart was awarded first place for private residences for decorations and illuminations; and the Independence Fire Co was awarded first place for the best illuminated public place. The judges on decoration were Herbert Bonser, Harry Worrell and Adolph Killian. On illumination Frank Davis, Albert Cox and Harry Hawkins. Music was furnished during the afternoon and evening by the P. R. R. V. M. C. A. band, of West Philadelphia, and one of the attractions of the day was the Scottish Bag-pipe Band.

The address of welcome was made by the Township Committeeman James E. Russell and was responded to by Rev. J. W. Nickelson, of Williamstown. Selections were rendered by the Palmyra Choral Society from the oratorio "Joseph."

Mitchell's Letters to Appear in Sunday North American.

The Sunday North American has arranged to publish a series of twelve articles by John Mitchell on important phases of present-day industrial conditions. One will appear each week, beginning next Sunday, September 24.

No man in the country is better fitted by experience and temperament to discuss the vital issues which affect the wage earner and industry. He has earned the confidence of his fellow-workers, the respect of employers and the admiration of the great public. His integrity is unquestioned; his grasp of these big questions unequalled, and he writes with a direct simplicity that gives vigor to his views. Every worker—every citizen, indeed, who is concerned in the problems of the day—should follow this series in the Sunday North American.

Following are some of the subjects to be treated:

The Wage Earners and the Trusts.
The Wage Earners and the Judiciary.
The Wage Earners and Labor Organizations.

The Wage Earners and Occupational Diseases.
The Wage Earners and Compensation for Accidents.

The Wage Earners and Industrial Efficiency.
The Wage Earners and Immigration.

The Wage Earners and the Church.
The Wage Earners and Unemployment.

These articles are bound to create an unusually large sale for the Sunday North American, and it would be advisable for all who are interested in the above articles to see their newsdealer and order him to reserve a copy.

A Wonderful Story of the Glenwood Range

For more than a hundred years Taunton, Massachusetts, has been famous for its stoves. The craft of molding, casting, and setting up a range seems in this busy city to have been handed down, father to son, for generation after generation. And yet, mention Taunton today, and the mind pictures a Glenwood Range. Just thirty-two years ago three young men started making stoves in a barn at Taunton. One was a designer and pattern-maker, one a foundry boss, the third a skilled molder. They all turned carpenter long enough to add a shed to their barn in order to accommodate their melting furnace.

If the casts came through all right, their output ran up to four ranges a day.

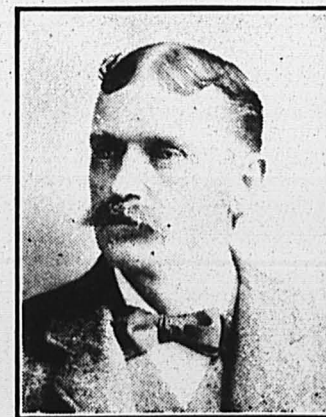

One of the first claims ever made by the Glenwood makers is set forth in the phrase, "Glenwood Makes Cooking Easy." This modest claim appealed at once to busy housekeepers, and it rang true from home to home as fast as Glen-

woods were put in, until today 500,000 users know "Making Cooking Easy" means "Glenwood Range."

There are one hundred and fifty parts to the average Glenwood Range, and as each part comes from its casting box, it is marked with the initial of the workman who made it,—if anything is wrong it is easy to place the blame.

The guarantee which the makers give with each Glenwood Range or Heater is a model of sincerity and reads—"Our responsibility does not end with the sale of this Range or Heater, but continues until it gives the Service and Satisfaction that it was intended to give."

At present there is a Glenwood Range cast, set up and shipped every three minutes in the day. In a generation the business has increased from four ranges a day to one range in just the length of time it has taken you to read this story. (Article from May Munsey's Magazine.)

HOWARD RUSS

Republican Candidate for Surrogate of Burlington County.

Mr. Russ has been an active Republican for thirty-one years. He has never missed voting at any election during that time. His policy has been one of independence. He is well and favorably known throughout the County, has been a candidate for Surrogate three times and five years ago lacked only one vote of being selected in the Convention held for that purpose, after losing twelve delegates. Things are different now—days and the people will decide. Give our neighbor your hearty and deserving support.

Part-free Violin Scholarships.

M. B. Swaab, director of the violin department of the Swaab, Fabiani School of Music, 1714 Chestnut street, Philadelphia, Pa., announces that through a fund created by generous subscriptions from wealthy patrons of music, a number of part-free violin scholarships will be awarded this season. As this will afford an exceptional opportunity for many to acquire a musical education at a nominal cost, the most worthy pupils only will be considered. A number of these scholarships will be evenly divided among applicants outside of Philadelphia either sex, beginners or advanced. Applications may be made from now on till October 31st, at the above address.

Mr. Swaab who will grant these awards, is a violinist and instructor of experience and authority, having received his diploma from the Royal Conservatory of Leipzig, Germany. He was for a long time violinist with the Leipzig Royal Gewandhaus Orchestra under Arthur Nikisch, formerly of the Boston Symphony Orchestra. Prior to this Mr. Swaab also played under direction of Hans Sitt, Felix Weingartner and Carl Reinecke.

Power Boat Races at Riverton.

The Riverton Yacht Club is preparing to hold the greatest power boat race in its history on September 30. The Sand Burr II, owned by the White Brothers, Atlantic City, and the fastest 20-ft. boat afloat, the Joker, owned by J. C. Vander-slice, of Camden, the S. V. C., the Elmarja and several other boats with reputations have already been entered. The race will start at 2.30, and will be over a 20-mile course.

At 10 a. m. there will be a race for cruising power boats, open to boats of the fleet only, to Burlington Island and return. Six entries have already been made and several more are expected.

Short of Funds. The "Old Home Day" committee met Wednesday evening but as all the bills and money had not been turned in it was impossible to make a final report. From the reports received, however, it looks as though the committee will be a little short of cash. There are several persons who have promised to aid further if necessary, but it does not seem right that they should be called on again when so many who enjoyed the occasion contributed nothing. The most laughable thing is to hear some of the moon-backs tell what a great time it was; then again some persons who did not contribute a cent are asking where all the money was spent. The committee will present an itemized statement next week.

MORE LIGHT FOR LESS MONEY WELSBACH ECONOMICAL HOME LIGHT Greatest Gas Lamp Ever Invented for Residence Purposes EIGHTY CANDLE-POWER ILLUMINATION Costs Only ONE CENT for Three Hours' Burning

We have secured the exclusive right in our territory to the latest and best gas light designed for use in the home. It is known as the WELSBACH ECONOMICAL HOME LIGHT and embodies the best ideas of the largest manufacturers of incandescent gas lamps in the world.

We have determined to offer this light to all our patrons because we know from actual tests that it is better than any similar light we have ever had on sale before—and we handle only the best.

We sincerely hope that every one of our customers will give this lamp a trial. We know it will give satisfaction and we want satisfied customers.

These lights will give you more illumination. They will burn only about one-half as much gas as the ordinary open-flame burner. This means you will get better service and save expense.

LIGHTS COST \$2.25 EACH

Payment can be made in three monthly installments of 75 cents each, with your gas bills if you so desire.

Our agents will call on you and show the new light. It is a wonder.

Put a Welsbach Economical Home Light in your home. It will make the Fall and Winter evenings seem brighter.

Unnecessary Advice.

A Boston school teacher, on attiring after 49 years' service, had these suggestions to make to young women teachers: "A little harmless flirting with nice people with whom you are acquainted will do much to rest the tired mind after the arduous duties of the schoolroom; be a live wire every minute; do not eat too much."

Advice is given to those who "d it; it is easy to see what young teachers are like."

Palmyra Tax Rate \$2.21.

At the meeting of the township committee Tuesday night, a letter was read from the County Board of Taxation stating that under the maximum tax rate allowed by the Hillyer Act, the Board could not raise the amount of money asked for by the township, and that it would be necessary for the committee to pass a resolution asking for an increase of 11 cents on the \$100 valuation, making a total rate of \$2.21.

The committee unanimously passed the following resolution:

Resolved that the Township Committee of the Township of Palmyra in the County of Burlington hereby petition the Burlington County Board of Taxation for an increase in the tax rate for the year 1911 from \$1.25 to \$1.36 on the \$100 valuation for municipal and district school purposes, making a total rate for the year 1911, including the County and State School tax \$2.21 on the \$100 valuation.

The clerk was instructed to notify the Cinnaminson Electric Light Co. to remove all wire and poles in the township not in actual use.

A. H. Ruddeck addressed a letter to the committee asking that he be authorized to clear the tax duplicate of delinquents which had been paid, but which had not been marked up on the old duplicates. His request was complied with.

The following bills were ordered paid:

Daniel in the Lion's Den. Dan. vi. Golden Text—The angel of the Lord encampeth round about them that fear him, and delivereth them. Ps. xxxiv:7.

(1.) Verse 1—Who was King Darius, whom did he succeed, what kind of a man was he?

(2.) Verse 2—What had been Daniel's history up to this time?

(3.) What is the relative importance to success in life, of intellectual ability and an excellent spirit, that is a kind heart with polite and winning manner?

(4.) What are the really essential qualities to success in life?

(5.) Verse 4—Why did the "presidents and princes" dislike, and seek the injury of Daniel?

(6.) What proportion of men are jealous of the success of others?

(7.) Why are so many men jealous, instead of rejoicing at the success of others?

(8.) Is it possible for all Christians to so live, as to perfectly please God?

(9.) Verse 6—Are rich or highly educated men, as liable to be jealous, and seek the injury of another, as are the poor and ignorant?

(10.) There are two classes of men, one which seeks to injure, and the other which seeks to help their fellows, where do we mostly find them, in or out of the church?

(11.) What was the scheme of these men for injuring Daniel?

(12.) Verse 10—Why is it wise or otherwise in these days, to open our windows, so our neighbors may hear our prayers?

(13.) Does the narrative indicate, or is it anywhere in the bible stated as to how many times a day we should engage in formal prayer?

(14.) Verse 15—What is the moral difference in the turpitude of killing a man in anger, and killing him by a cold blooded and systematic follow up plan?

(15.) What reasons are there for or against the breaking of a promise that never should have been made?

(16.) Verse 16—Was Darius sincere in saying it, and what reason had he to think that God would deliver Daniel?

(17.) Verse 15—23—What did Daniel avert the king, and of what use is it to us?

(18.) What is the spiritual value of this miraculous deliverance of Daniel to us?

(19.) If this story should prove to be of the nature of a parable, and not actual history, would its religious value be any the less or more to us? (This is one of the questions that may be answered in writing by members of the club.)

(20.) Verse 24—28—Was the king just as bad in causing the cruel death of all these enemies of Daniel, as they had been?

(21.) What is the character of the act to try by threat to make people serve our God?

Lesson for Sunday, Oct. 1st, 1911. The Prophet Ezekiel a Watchman, Ezek. iii.

Oct. 1st, 1911.

(Copyright, 1910, by Rev. T. S. Lascott, D.D.)

The Prophet Ezekiel a Watchman, Ezek. iii.

Golden Text—Hear the word at my mouth, and give them warning from me. Ezek. iii:17.

(1.) Verse 13—What is it that is to the soul like food to the body?

(2.) Do men get, in these days special messages from God as Ezekiel did? If so, specify.

(3.) What is the immediate effect upon us of new knowledge?

(4.) Verse 47—Which are most susceptible to the claims of the gospel, a people who have rarely heard it preached, or those who are constantly hearing it? Give your reasons.

(5.) What is the effect of preaching the gospel upon those who reject it?

(6.) Verse 8:17—Is it always true, that we have sufficient strength to do the work to which God appoints us? Give your reasons.

(7.) Does God know in advance, "whether they will hear or whether they will forbear," when he sends a message to a people? Why or why not?

(8.) If our hearts fall us in the difficulties of our appointed work, how much are we to be blamed?

(9.) Verse 12:14—When we are "bitter," or angry, or even sorry to carry out the work to which we are appointed, what attitude does God likely take to us?

(10.) May we make every work, no matter how hard or disagreeable, a joy, or does God know and expect that we shall sometimes be sad?

(11.) When we do God's work against our will, or inclination, are we praised or blamed by Him?

(12.) Verse 8:17—Is it always true, that we have sufficient strength to do the work to which God appoints us? Give your reasons.

(13.) When we are appointed to do the work to which God appoints us? Give your reasons.

(14.) Verse 18:19—How can we justify God in making the salvation of a sinner depend upon the warning of a man?

(15.) What is the guilt, and what will be the punishment of a man whose failure to warn is the means of a sinner dying in his sin?

(16.) If a Christian refuses or neglects, to give to the utmost ability, to the missionary cause, will he be adjudged guilty before God for those who could have been converted through the influence of the message he might have sent?

(17.) Verse 20:21—To what extent are we guilty for the backslide state of so many members of the church? (This is one of the questions that may be answered in writing by members of the club.)

(18.) How is it that some who were really earnest Christians, lapse into a sinful life?

(19.) Verse 22:27—Which person gets more revelations from God, the one that gives himself up to contemplation chiefly, or the one who is in the thick of the fight for God?

Miss Lenia Wins Ladie's Race.

The 'Ladies Race' of the one-day fleet, postponed from two weeks ago owing to the rain, was sailed on Saturday, and won by Miss Helen Brown, her father's boat, Nekomis, defeating Miss Christine Washington in W. M. Lean Jones' Allegro, by the narrow margin of one minute and five seconds. The other entries were Miss Helen Brown who sailed the Biddle Brothers' Elsie III and Miss Madeline Gill, who sailed H. M. Evans' Elsie's Indian. The girls were true sports and would not again be cheated out of their race by threatening weather, and set sail in a light drizzle which would soon have made it very uncomfortable had it continued, but, fortunately it soon let up and they finished the contest under fair skies.

Miss Washington had rather the best of it in the start and maintained her lead the first time over the course, but the second time around Miss Lenia gradually worked ahead and finished first.

In the cruiser class Dr. Hilla's Kid beat Commodore Reese's Tekoma over the ten-mile course by twelve minutes.

Music and Color.

Prof. D. Butcher, of Philadelphia, gave a most interesting talk before a number of ladies and their children at the "Studio" of Miss Emma A. Price 416 Lippincott avenue, last Friday afternoon on "The Place of Music in Child's Education." He explained how music could be used to educate children in different channels, also how it helps in the physical development of the child and showed its beneficial effect upon the nervous system.

The musical scale having an intimate relation to the colors of the rainbow, each tone has a color with a connecting meaning. Games have been arranged showing the relationship between them, eliciting the interest of the child, and an interesting feature was the lesson to a class of little children.

Nature songs are written about the flowers, birds, etc., telling how they grow and how to find them, instilling in the mind of the child a love of nature, at the same time harmony is being taught.

By the means of certain hand signs, colored balls and bird pictures, the interest of the children was thoroughly aroused and they soon learned to recognize and sing the different tones of the scale. In these play lessons the children quickly gain an intelligent idea of the tone language, and it saves them from years of mechanical drudgery at a later period.

School Notes.

A sectional book case recently purchased by the Board of Education for the school library now adorns the office of the principal. The reference books, although few in number, are in constant use by the pupils.

The foot ball is meeting with great success. There are at present enough candidates out after the season to make two full teams. As a result of this splendid turn out, Mr. Wendell is giving the boys plenty of scrimmage practice in preparation for the opening game on Friday, Oct. 6 when they open the season with the First Year High School Class, of Palmyra.

Francis Cole, the acting captain of the team, is holding down the full-back position in good shape.

Leon Harris, who came out for the team this week, is making a strong bid for a line position.

On Saturday morning of this week, members of the Association will make a thorough canvass of the town for the purpose of collecting newspapers or magazines to spare are requested to spare are requested to donate the same to the boys.

On Saturday of next week, October 7th, the boys will hold a candy and cake sale, on the porch at the home of Mr. R. P. Corry, Howard street, the proceeds going to the Athletic Association.

All persons interested in the Riverton schools are requested to attend this week's meeting, donations to the Association will have the boys call on Saturday morning. However, more details concerning this sale will be known in the course of the next few days.

Votes for Women.

An open-air meeting will be held in Independence Square, Philadelphia, Saturday, September 30, at 3 p. m., addressed by Dr. Anna H. Shaw, and many other noted speakers.

Rally Day was observed at the Presbyterian Church last Sunday. A special program was arranged and certificates were awarded to those who had done good work in the Sunday School during the year.

Miss Margaret Piller was one of the passengers on the steamer Olympic that collided with another vessel, last week, on her homeward trip and had to go back to port. Miss Piller was not injured but will be delayed in arriving.

Tuesday morning an axle on a freight train broke at Princeton Junction, causing a lot of cars one upon another. This caused a delay of over an hour in all trains on both lines, and many which usually run on the Pennsylvania side had to be sent on the Amboy division.

John Buchanan, caretaker for Heulings Lippincott, of Chester township, who several weeks ago shot two boys that were bathing in a pond on the Lippincott farm and refused to obey Buchanan's order to leave the place, was the final case considered in the County Court on Tuesday. Joseph Kalgish, who appeared as counsel for the accused, said it was Buchanan's intention, in firing the gun, to simply frighten the boys away, but that he had aimed too low. One of the boys was pretty badly injured but had since recovered and gone to work. It was stated that in ordering the boys off the place, Buchanan was carrying out his employer's instructions, but, of course, he was not authorized to use a shot gun. The court did not make a disposition of the case and the prisoner was remanded to jail until a more thorough investigation is made of the matter.

Presbyterian Church Notes.

Last Sabbath was a banner day in our Church. With one exception we had the largest attendance of recent years at a communion service. The Bible School set a new high mark to look up to but one which we hope will soon be passed. The interest was fine all day and our purpose now is to increase that interest each week. On the coming Sabbath there is a treat in store for you which we don't want you to miss.

The services are as follows:

10.45 a. m., regular morning of worship, at which time the sermon will be preached by Rev. H. W. Taylor, of Baltimore on the subject "Life's Give and Take."

2.30 p. m., the Bible School will begin the regular course of study. We want every one who was there last Sabbath to be there again. This is the best time for new students to enter the school. There is a class for you.

8.00 p. m., Evening Praise Service with a sermon by Rev. Taylor on "The Magnitude of Little Things."

Monday, 8 p. m., regular meeting of the Board of Trustees. If you have any plans to suggest they will be glad to see you.

Wednesday, 8 p. m., regular meeting of the congregation for prayer and praise. Next week we are to have a promise meeting and everyone is expected to bring a scripture promise for the rest.

Interest is increasing and more than twenty-five have promised to be faithful. Now we want fifty. Will you be one?

Our church is here for service. If we can serve you we want to know it. If you are willing to help us serve the community come and join with us.

J. G. NOORDWIJK, Pastor.

Foot Ball.

Riverton will play its first game this Saturday on the ball ground at Broad and Linden avenue against the fast Vincom, of Philadelphia, one of the latest team in the 140-lb. class. There will be some new faces in the line up. Our line will be strong and the back field will be like a stone wall as Capt. Walter Wright has given his line a strong practice two nights a week. Riverton has every date full and with good teams.

Come out on Saturday and see the first game. Game starts 3.30.

Theodore Schneider has donated two handsome pennants for the foul lines.

Benefits were given at Schwartz pool parlor two nights this week and next Thursday night a benefit will be given at the moving picture show. Proceeds for uniforms. The suits have been secured and the team will wear them on Saturday.

"The Quick or the Dead"

created the biggest sensation ever caused by a novel appearing in magazine form. To this day there is an incredible demand for the story. Its author, Amie Rives, now the Princess Troubetskoy, has written a new novel which bids fair to overtop the reputation of its famous predecessor. It is called "Hidden House" and appears in the October Lippincott's.

A serious accident was narrowly averted last Saturday by the prompt action of the engineer on a fast train which runs between New York and Philadelphia. As there was no brake in the rear of the train, the engineer, who was crossing the track near his home, entirely unconscious of the approaching train, was brought to a sudden stop within about ten feet of the trolleys.

The attention of parents is called to the fact of their children getting up mail before going to school and carrying it to school with them. In the past several reports of lost mail have been traced to this fact. The Postmaster would suggest that the children stop at the office for mail on their way home from school only and thus reduce the chances of trouble over lost mail. If parents will instruct their children in this matter it will be greatly appreciated by the post office authorities.

Field Club Defeats Crescentville by One-sided Score.

By Holt's masterly pitching and the home team's back hitting, the locals defeated the Crescentville team Saturday, by the score of 11-1. When Lega, retired the side is one, two, three order in the first, the spectators sat back in their seats, prepared for good pitching, as the visitor looked as if he had the stuff, but in the local's half of the second, he presented Mathews with a base on balls, then advanced him to second with a wild throw, then our famous pluck hitter, Reeves, pushed Mathews over the pan singe to centre. That ended the scoring for that inning, but the fireworks opened in the latter half of the fourth. Pfaff opened by sending a single through third. Gibbons sacrificed him to second, then Hardy, singled, Kemmerle tripled, Mathews singled, Reeves and Keil doubled and six runs were over. Lega discovered he had arthritis and Stewart took up the hurling duty. While the locals didn't need anymore runs, they added one in the fourth, one in the sixth and two in the eighth, making a grand total of eleven runs. Just to show you how good Holt was going, only thirty men faced him during the entire game, but Pfaff's steel arm was there to help him, as he got two men trying to steal. The visitors' one run was scored in the sixth, after two men had fanned the air in vain, two of the visitors singled, Hardy and Kemmerle spoiled Holt's shutout by trying to see who could make the poorest throw, and the visitor who was occupying the third corner walked home with the only run.

This is the last game of the season and the foot ball team will practice on the grounds next week.

The Field Club has had a very good team this year and should have an even better one next year, as this year there have been seven stars discovered and should improve during the winter.

Base Hits.

Holt sure can pitch when he wants to. Pfaff's arm is still on the job.

Herbie's three base slam in the third was a corker.

Keil had two doubles, one was when no one covered second and he took advantage. Hard-work, old boy!

Reeves and Gibbons each had a single and a double.

Base ball—this all.

ROOTER.

Prospects Look Good for Palmyra.

H. S.

The Palmyra H. S. boys are daily practicing foot ball, under the guidance of Manager Prickett and Coach Durgin. When the school season opened the outlook was very discouraging, as Prickett, Durgin and Greene are the only regulars left from last year's squad, and the manager has had hard work in getting out enough candidates, but Ellis, Smith and Toy, three subs, to last year's team are out and the team will be built around these six men, although they will have to go some as some of the new recruits are showing exceptional form. Greene is one of the most promising, as he is one of the best kickers that has ever donned a high school uniform, he is also showing great class in the forward pass and if he keeps this form he will more than fill the hole left by Powell Thatcher. Pluck and Smith are showing great form on the line, especially "Sims" Smith who has a knack of getting through the line and getting on the right end of the forward pass. Their defense is good and should improve before the opening game, which takes place Friday, October 6th, at the West Palmyra grounds. "Bill" Holt seems to have the guard position cinched, and as he is a pretty good boy great things are expected of him. Houghtaling, who by the way is a veteran from last year, is holding down the other guard, and with Ellis and Woolman as tackles, should make a stout wall defense on the line. The backfield will be made up of Captain Durgin, "Skeets" Goldbere, "Baldy" Prickett and "Les" Toy. Don't forget the first game, Friday, October 6.

Baptist Church Notes.

The notices of the Central Baptist Church for the coming week are as follows:

At 10:45 a. m., the regular preaching service of worship.

At 2:30 p. m., the regular session of the Bible School. This school is thoroughly organized, having the following classes: Junior Bible Class, for young men, and the Philathea Class for young women.

At 7 p. m., the Y. P. S. C. E., which has just been re-organized, will hold its first meeting in the basement of the church.

At 7:45 p. m., the regular evening service of worship.

Pastor Steinmetz will preach at both morning and evening services.

Tuesday evening at 8 o'clock the regular prayer service of the church.

Friday evening, September 29th, the monthly business meeting of the church at 8 o'clock.

You are invited to worship at this church.

REV. SAMUEL STEINMETZ.

Field Club Foot Ball.

The Field Club foot ball squad was out for the first time Saturday and although light, the prospects for the coming year look pretty good. Russell Gibbons, the star short stop, is coming out for end and Manager Kee expects to get Reeves, the other speed merchant, for the other end job. Les says so, but he might change his mind when he sees that we need him, and as the game as now played needs speed and not brute strength. Keil, who played full, has not come out yet, but we need him for kicking and as he can boot one in a while, he will have to come out or the good of the team. As there will be no base ball game Saturday, the afternoon will be spent in foot ball practice, namely signal drill, punting and instructing the new recruits the rudiments of the game.

The Field Club Danco.

The Field Club held their fifth dance, at the Lyceum, last Saturday evening, and seemed to enjoy themselves. It may be said for the benefit of those not there that the music and the floor were never better. The Field Club intend to hold these dances, so if you are a dancer and would like to be among those present, hand your name to the "Dance Committee" and you will be notified when the next one takes place.

The Prophet Ezekiel a Watchman.

Ezek. iii.

Golden Text—Hear the word at my mouth, and give them warning from me. Ezek. iii: 17.

(1) Verses 1-17—What is it that is to the soul like food is to the body?

(2) Do men get, in these days special messages from God as Ezekiel did? If so, specify.

(3) What is the immediate effect upon us of new knowledge?

(4) Verses 4-7—Which are most susceptible to the claims of the gospel, a people who have rarely heard it, or those who have heard it constantly hearing it? Give your reasons.

(5) What is the effect of preaching the gospel upon those who reject it?

(6) Verses 8-11—Is it always true, that we have sufficient strength to do the work to which God appoints us? Give your reasons.

(7) Does God know in advance, whether they will hear or whether they will forbear? when he sends a message to a people? Why or why not?

(8) If our hearts fall us in the difficulties of our God-appointed work, how much are we to be blamed?

(9) Verses 12-14—When we are "bitter," or angry, or even sorry to carry out the work to which we are appointed, what attitude does God likely take to us?

(10) May we make every work, no matter how hard or disagreeable, a joy, or does God know and expect that we shall sometimes be sad? Give your reasons.

(11) When we do God's work against our will, or inclination, are we praised or blamed by Him?

(12) Verses 15-17—Is it either essential or an advantage to get best results, for missionaries to dwell among the people to whom sent and become a part and parcel of them?

(13) When we are appointed by God to do a thing, should we sit around and wait for special inspiration, or start right at the work, and expect all essential help?

(14) Verses 18-19—How can we justify God in making the salvation of a sinner depend upon the warning of a man?

(15) What is the guilt, and what will be the punishment of a man whose failure to warn, is the means of a sinner dying in his sins?

(16) If a Christian refuses or neglects, to give to his utmost ability, to the missionary cause, will he be adjudged guilty before God for those who could have been converted through the influence of the money he might have given?

(17) Verses 20-21—To what extent are we guilty for the backslidden state of so many members of the church? (This is one of the questions that may be answered in writing by members of the club.)

(18) How is it that some who were really earnest Christians, lapse into a sinful life?

(19) Verses 22-27—Which person gets more revelations from God, the one that gives himself up to contemplation chiefly, or the one who is in the thick of the fight for God?

(1) Verses 1-2—What does water, when used as a figure in the bible, generally stand for?

(2) What house is here referred to as a real or imaginary house of God?

(3) What are the influences which flow out from the house of God?

(4) What blessings have Christianity brought to the world?

(5) In how many ways is Christianity propagated? Specify some of them?

(6) Verse 3—What are the chief means by which we measure, or test the beneficent influences of Christianity?

(7) What is the least personal experience a person must have to constitute him a real Christian?

(8) What are among the first blessings which come to an individual, a community, or a nation, on the adoption of Christianity?

(9) Verses 4-5—What if any special blessings are there for the children of God, after conversion?

(10) What are the limits to the possibilities of personal Christian experience?

(11) What is your conception of the meaning of the figure "water to swim in"?

(12) How may our growing conception of the love of God be illustrated with this figure of swimming in water that was at first only ankle deep?

(13) Verses 6-7—From an art and utilitarian standpoint what do trees represent?

(14) Show how Christianity ministers to the all-round needs of humanity.

(15) Verse 8—For what class of people is Christianity primarily meant?

(16) The waters were referred to as being poured into the Dead Sea. What is the nature of the water of the Dead Sea?

(17) Nothing could live in the Dead Sea; what effect was this living water to have upon it?

(18) What effect has Christianity upon countries that are cruel?

(19) Verses 9-11—What is the effect of Christianity upon material progress, inventions, manufacturing and commerce?

(20) Verse 12—What effect does Christianity have upon sentiment, happiness, enjoyment of life and human life? (This is one of the questions that may be answered in writing by members of the club.)

Lesson for Sunday, Oct. 15th, 1911. The Return From Captivity. Ezek. i: 1-11; ii: 64-70.

Desire and Endeavor.

What does the hungry man want? Money? Not at all. Fame? No. Good clothes? Not a bit. He wants food. What does the thirsty man want? Reputation? Bonds and stocks? No! He wants water. When we are dead in earnest and want the bread of heaven and water of life, we shall not stop till we get them—Ram's Horn.

High School Notes.

The candidates are practicing earnestly for the foot ball team, and the first game will be played October 6, at Cheltenham.

Palmyra Independents and Riverton Pickups Have Grand Game.

The Palmyra Independents went to Riverton and played a pickup team from that town, and made them go twelve innings to a decision. The Riverton team was made up of boys from Riverton, with Hercher in the box. While there are several weak spots on the team, the writer thinks that the town of Riverton could get a smooth working team out of local boys. The Palmyra team had Bodine pitching and Jack did pitch some game, only allowing four hits and striking out fifteen men. Jack seems to have the knack of always being on the short end of these pitchers' battles, not through any fault of his, but just because one of his team happens to make an error or misplay at the wrong time. Saturday was no exception, as in the twelfth, with two down, Hubbs and Fry played the Alfonso-Garrett act and what should have been an easy out, went as a hit, but the hit scored a man from second with the winning run. Hercher was also pitching great ball, he only allowed six hits, during the twelve innings, which is some pitching at that. He also struck out fourteen men, and didn't give a base on balls. Palmyra had an earned run when Schuler, who proved that he can come back, singled, was sacrificed to second and was brought home by a good solid drive to centre, by big Mac. Mac was also there with the iron white, getting two men trying to pilfer second. In all it was a great game. The Riverton management should look over some of these youngsters and they may be able to save a dollar or two next year by using home talent.
