Mr. Flynn immediately prepared to leave a family reception, but after several exchanges of telegrams found his son could not get home to noon. The reception was postponed until Lawrence could get a short leave. He collected from Akron, Ohio, and a member of the Rising Sun Division, Company F, 11th Infantry.

"Do either man am there," says Uncle Eben, "but sometimes it ain't no fun turnin' de clock inside out."

Robbed by Thugs in Uniform.

Officer Grubb was the hero in the arrest of a couple of hold-up men in Palmyra early Tuesday morning. The two men had held up Harold C. Barnes and James Bowers at the Riverside station about 3:30 a. m.

The prisoners, Fred Leffer and Floyd Selzer, were in soldiers' uniforms.

Leffer had escaped from the guardhouse at Fort Jay, N. Y. At Mount Holly yesterday he was taken back to the army authorities with a recommendation that he receive a five-year sentence. Selzer was sentenced to Rahway for a year.

The two were in a bunch of ten roughnecks who had been put off a trolley car here late Monday night.

Chas. Beck rounded them up and shipped them back toward Riverside on a car which ended its trip at that town. The gang gambled while among themselves at Riverside, and later Leffer and Selzer, after getting some food from Barnes and Bowers, who were waiting for the 4 o'clock trolley, took advantage of the two men falling asleep, stuck a gun in their faces and robbed them.

Some time later the crew of an up-bound trolley reported having seen them at Riverton. The Riverside police were waiting for the 4 o'clock trolley, took advantage of the two men falling asleep, stuck a gun in their faces and robbed them.

He forgot to search them when this was done later no weapon was found. However, after they had been taken to the county seat, a big revolver was discovered hidden in a mattress.

Fure property, New Jersey avenue, to William Fox, Philadelphia; Shuttler property, Third and Berkeley, to J. H. Spont, Philadelphia; Charles Flynn's property, Linden avenue, to Mrs. Helen Rowland, Riverside; Hansen property, West Fifth street, to Joseph Stack.

William Stack, Sr., has sold his property on Cinnaminson avenue to Thomas McWilliams, of East Riverton.

Officials Necessary—But Local Option Only "Sociological."

Palmyra has lost its local option case. Justice Parker, in a decision handed down at Trenton Monday upon the case of Charles Kent and the other applicants, decided that the election was invalidated because the soldiers' vote law had not been complied with.

Justice Parker based his opinion on a previous decision by the Chief Justice in a Montreal case.

The grounds of the decision were a surprise to the local option people here, inasmuch as earlier decisions on the matter in favor of the saloons were based on the point that a certain notice had not been printed the required length of time previous to a hearing on the local option petition.

Justice Parker takes up the point that has been raised on the soldier vote question, to the effect that the election of all the officials of town and county government might be invalidated by the same reason.

It is a curious turn of reasoning, the Justice holds that because officials are necessary for the administration of the government, their election is not to be affected, but that the merely "sociological" question of local option is.

Petty Substitution.

A cheap and effective substitute for putty, to stop the cracks in floors and woodwork, may be obtained by soaking newspapers in a paste made of a pound of flour in three quarts of water and adding a teaspoonful of alum.

Alternative.

Wine—"Richard, we are going to the Blank's dance, are we not? If we are, it's time for me to dress. If not, I must put a mustard plaster on my chest and go straight to bed."

Speak Up, Then.

Said the facetious fellow, "You've all heard that old wheeze about hearing Mike Speak; but did you ever hear Jack and the Beans Talk?"

Hunting Trouble.

When a man is looking for trouble he doesn't have to go to the dictionary to find it. He can get it in the telephone directory.

Do Justice Promptly.

When it is our duty to do an act of justice it should be done promptly. To delay is injustice.—La Bruyere.

APOLLO CARAMELS

MADE WITH RICH CREAM—

Chocolate and Vanilla flavors,

sprinkled with English walnuts,

Marshmallow, delicious California Raisins, etc. We are agents

for Whitman, Belle Mead and Apollo Chocolates—the kind you

would select if you knew how every kind of candy was made.

Our Confectionery is delicious

and thoroughly wholesome and

freshness is one of the characteristics you can rely upon. Although our stock is large we are

careful in buying and never buy more than can be sold while

fresh. We have received recently

a new supply of the above chocolates in 1/2-lb and 1-lb packages

and the price will induce the most conservative person to buy.

THE CHEERFUL CHERUB

The springtime stirs the leafy mold

And through it green shoots bravely start

In spring through all my last year's loves

A new love sprouts within my heart.

Peace.

Peace is not an ideal at all; it is a state attendant upon the achievement of an ideal. The ideal itself is human liberty, justice, and the honorable conduct of an orderly and humane society. Given this, a durable peace follows naturally as a matter of course. Without this, there is no peace, but only a rule of force until liberty and justice revolt against it in search of peace.—N. M. Butler.

Politics Analyzed.

"Politics," said Uncle Eben, "is simply dat some folks would call gambin' if it could be handled as quick as a horse race or a raffle."

Stokes' Seeds for 1919

We are so situated at Moorestown that we are able to care for the home trade to the very best advantage, carrying large stocks, making quick deliveries and testing all seeds under the New Jersey law. For the benefit of our trade we maintain our Philadelphia store, 219 Market street, (as established by Johnson & Stokes back in the eighties), where identically the same stocks may be had at the same prevailing prices as at Moorestown.

The moving picture benefit given at the Broadway Palace by the Palmyra Parent-Teacher Association last Tuesday evening cleared about \$50.

Mr. and Mrs. Harry G. Orcutt, formerly of Palmyra, now living in Riverside, are receiving congratulations on the birth of a daughter.

Friends of Mr. and Mrs. Jacob Lawson are sorry to hear that Mrs. Lawson also has been taken ill, following the release suffered last week by her husband.

A modern pool room will be opened in the rooms formerly occupied by the Field Club. The manager, Leo LeCain, expects to open Wednesday or Thursday of next week.

George Fisher, recently arrested here for beating Mrs. Emma Curry, pleaded guilty at Mount Holly and was fined \$100 and must remain in jail until the amount is paid.

The family of S. A. Plumly were overjoyed this week when a telegram arrived saying Miss Sabina Kehr had arrived in New York from overseas.

Miss Kehr has been serving with the 1st Hospital No. 20 for the past year in France.

Miss Anna Maul, daughter of Mr. and Mrs. Howard L. Wallace, and Stanley Raymond Craft were quietly married last Saturday, March 8, by Rev. E. A. Robinson. They were attended by Mrs. Manie Lytle, of Delanco, and his brother, Wilfred Craft.

After a short wedding trip they will reside with Mr. and Mrs. W. B. Powell.

The Burlington County Executive of the W. C. T. U. will hold a meeting at the Moorestown headquarters on Wednesday, March 13, at 8 o'clock.

Mrs. D. T. Mason, will attend the meeting, there will be no meeting of the Palmyra Union that day. Mrs. Emma Duff will also attend from Palmyra.

The next meeting, March 26, will be in charge of Mrs. Peterson.

Mrs. Lewis Bowler was called to Atlantic City Tuesday for her son Lewis, who was very ill and is slightly improved and she returned home Thursday evening. She received a letter this week from her son Emory, who is in with the army of occupation in Germany. Emory says he is working hard and he will need a couple of years to get rested in when he comes home.

Several of our lads have returned from overseas in the last few days. Morton Mohrman and Corporal Harry Jones, of the Eighty-seventh Division, got in on the Chicago last Saturday, and they are now at Camp Dix and ready to be discharged. Harry Fox, of the Engineers, arrived on the Commodore, and also in on the Camp Dix. Lincoln Richter is reported to have arrived at a Southern camp.

There was a burglar scare at Hahn's Bakery at about 1 a. m. Sunday. The family heard a noise at a window in the rear, and Nick Deitz, who lives next door, saw a man apparently trying to break in. Mr. Deitz turned on the lights in his place and called the police by phone, but by the time the cops arrived there was nobody to be seen. Chief Beck and the Hahn boys made a search through the town without avail.

Annual School Election.

The annual school election for Palmyra will be held at the High School building next Tuesday evening, polls opening at 8 o'clock.

The terms of three members of the board, James T. Ward, president; John C. Hoepner and William Douglas, expire, but it is understood that all three have been prevailed upon by their friends to serve again and no other candidates have been announced.

The annual appropriation will not figure Tuesday evening, having been voted on in February.

Palmyra School Notes.

These fine days have brought out the baseball candidates. Mercer Sarve is manager of the team.

To Miss Katherine seventh grade go the honors for spelling. In an elimination contest to choose Palmyra's grammar school representatives for the county contest this Saturday afternoon, all the winners were from this room. They are Margaret Giberson, Mary McCormick and Nelson McCuen.

The winners are Harold Odgers, sixth grade, and Pauline Williams, seventh.

The Sophomores will have a little St. Patrick's party in the auditorium tonight.

P-T. A. Will Meet Next Week.

The regular monthly meeting of the Parent-Teachers' Association will be held Tuesday evening at the High School. In addition to reading of papers and a discussion by the members, with special attention to the proposed lunch room, there will be an interesting entertainment.

Mrs. G. W. Williams will sing, Miss Helen Sterling will give a piano solo and Mrs. Sybil Green will recite.

Everybody is invited. A report will be made on the results of the movie benefit of Tuesday.

Will Give Boys Ring as War Souvenir.

The Palmyra Welcome Home Committee will begin its house-to-house canvass for funds on Monday, the 18th. Quite a bit of money is needed to carry out the plans which have been adopted. There are more than 200 boys to be taken care of. In addition to the houses for all the Committee on Souvenirs will provide a solid gold ring for each as a permanent souvenir from their home town in recognition of their service. The ring will be properly inscribed. This form of payment was unanimously favored by the soldiers, who met with the committee last night.

Five Points.

Private Robert B. Gibson landed in New York Saturday, and is now at Camp Dix awaiting his discharge. Sergeant George Frank, of the Aircraft Production, Washington, was home on a furlough over Sunday.

Rev. H. Reimer represented the Burlington County Chapter at a divisional conference of the Red Cross at New York City last Saturday.

Rev. Irwin Deer, of Reading, will preach the Memorial Church next Sunday morning.

Harry Frank is driving around in his new Ford.

County Athletics Organized.

A conference which resulted in a new Burlington County organization was held last Wednesday morning, March 6, in the office of the county superintendent of schools, Louis J. Kaser. This organization will have to do with county-wide athletic activities and contests among the public schools (the Y. M. C. A. and Y. W. C. A. groups). One of the immediate projects to which this organization is making plans is the promotion of a very largely attended athletic meet to be held in Mount Holly about May 24, with all the schools of the county participating in the event. It is fully expected that there will be some 2000 persons present as a result of the plans under way.

Towns Must Help Build County Roads.

At a meeting of the County Board of Freeholders last week a resolution was passed to the effect that when county roads are improved, those communities should share the cost in proportion to the wealth of the community and to the amount of benefit derived from that road. Burlington city was one of the districts in mind and its representative protested. Freeholder LeCain, of Chester township, where Moorestown is located, approved the plan and said Chester township already had bonded itself for \$40,000 to improve the roads. The vote of the board on the resolution was a tie, and Director Joyce decided it by voting in the affirmative.

The Burlington County Game Protective League will hold a meeting at the Court House this Saturday afternoon to consider the establishment of maintenance of a farm or preserve for the propagation of game.

Deaths.

George W. MacCord, aged 40, died on Monday after a long illness. Mr. MacCord was the husband of Edna F. Davis, daughter of Mr. and Mrs. Joseph Davis, of Palmyra. He was a member of Washington Camp, No. 23, P. O. S. of A. Funeral services were held this afternoon at 2 o'clock, at his late residence, 6715 Girard avenue, Philadelphia. Interment Arlington Cemetery.

L. G. E.

It is earnestly requested that all the members of Palmyra Temple, No. 11, will be at the next meeting, Thursday evening, the 20th. The Past Masters will entertain the Temple. Don't fail to be present.

Several members of Palmyra Castle attended the twenty-fourth anniversary of the establishment of the University of Athletics Temple, Philadelphia, Wednesday evening.

State-Wide Celebration Planned for Returning Soldiers.

Governor Edge on Tuesday asked General March the exact date on which the two Jersey divisions, the Seventy-eighth and the Twenty-ninth, may be expected home. The Governor has in mind a State-wide celebration in honor of the returning heroes. He asks that each division be demobilized at Dix. Latest information is that the Seventy-eighth will leave France the latter part of May and the Twenty-ninth the middle of June.

Fine Lenten Programs at the Hut.

George Carpenter Connor, Y. M. C. A. secretary, gave a most interesting introduction of his work in France for six months, last Tuesday evening at the Hut. When he arrived in Paris the drive to Chateau Thierry was on and the wounded were coming into the city in car loads. The Red Cross was practically swamped with requests for volunteers. Mr. Connor, with other "Y" men, worked night and day as stretcher bearers, carrying men from the front to the hospitals, which in some cases were in the hands of the enemy. He saw the horrors of the war, the suffering of the wounded, the loss of life, the destruction of property, the loss of the naval vessels and some volunteers, took care of the sufferers himself.

Edward Grugar rendered several diat songs, accompanied by Miss Clark, and Mr. Haines, styled the "prima donna" of vaudeville, exhibited remarkable skill on the piano and as a vocalist. "She" was kept busy for over thirty minutes.

The lunch served to the service men was in charge of Mrs. S. L. Warren and Mrs. William R. Hoffman. The tables were tastefully decorated and the lunch fine. The boys certainly appreciated the rabbit as a rare bit. During the lunch there was general singing, and Miss Virginia Corry sang several pieces in a most enjoyable manner.

Next week the program for the Hut includes Stephen Baxendine in feats of music, several solists of note, a reader of national fame and some real community singing. Special song sheets are being prepared for this.

To Help Crippled Soldiers.

Five chapters of the New Jersey State Association of Women's Civic Clubs, Education, Industrial and Social Conditions, Legislation and Public Health—are working together, under the direction of the State Chamber of Commerce, in making a survey of the physically handicapped persons in this State.

The survey is to determine a practical basis for the training of all disabled persons, and will include handicapped soldiers as well as civilians, and is not to be confined to cripples proper, but to include all persons affected to the extent of being handicapped in working for self-support.

"Re-education" schools have been established in all belligerent countries, for the training of soldiers in some trade in which they can be useful in spite of their injury, and the United States Government has made provision for the rehabilitation of our own disabled soldiers.

Plans are being formulated for the inauguration of the New Jersey State Federation of Women's Clubs and the New Jersey Division of the Woman's Committee of the Council of National Defense.

I believe in evolution rather than revolution—Theodore Roosevelt.

Trolley Fares May Be Based on Distance.

On Tuesday the Public Service Railway Company submitted to the Public Utility Commission at Trenton a plan for instituting in its entire system a zone-mile plan for fixing rates of fares for carrying passengers, based on a five-cent fare for a ride of two miles or under, and a cent a mile for any distance over that.

Work for Both Parents.

It is a tradition that the father should regulate the training of the child to the mother. It is so much easier than to expend the energy necessary to co-operate. But would he with as little compunction permit her to run his business? In order that the child receive a well-rounded training, it is essential for both parents to contribute their bit. What man would enter business without carefully studying the materials concerned, salesmanship, advertising schemes, etc. How many undertake parenthood with as much knowledge and forethought? Neither father nor mother makes much attempt to get acquainted with the problem until it is thrust upon them.—New York Tribune.

May Revolutionize Shipbuilding.

Remarkable claims, which may have far-reaching consequences in the shipbuilding world if substantiated, are being made for a new concrete mixture, with which it is proposed to build vessels that are much lighter than those now being built, and yet far more durable. Its ingredients have not been made known. The assertion is made that vessels built of the new material will be one-fifth lighter than those of wood, and at the same time more durable than those of steel. It appears that the discovery can also be made use of in applying a covering for concrete ships now under construction, for the purpose of giving them greater power to resist impact.

Physical Training Exhibit at the School.

On March 31 Miss Marjanna Packer, assistant State physical training instructor, will demonstrate with pupils taken from the grades. Those who have seen Miss Packer work say it is most interesting.

The meeting, which is under the auspices of the Parent-Teacher Association, will be held at 3 o'clock, and everybody is cordially invited.

The School Board Election.

At the annual meeting for election of members of the Board of Education Tuesday night, 83 ballots were cast. Ogden H. Mattis received 58; Fred P. Hemphill, 59; J. Wilson Sylvester, 38, and Harry F. Jones, 34. The first three were elected.

Robert Biddle was chairman of the meeting and Rosa Mattis, secretary. The tellers were H. L. Smith and McIlvaine Biddle.

Children's Organ Recital Next Week.

Another month has rolled around, slowly enough for the little folks who have been looking forward to the next recital, and next Friday afternoon the third organ recital for children will be given in Christ Church.

The organist will be Mr. A. Graham Burns, of one of the Presbyterian churches in Camden, and Mrs. Harold Gilpin will be the soloist.

Senator Frellinghuysen's Statement on "A League of Nations."

The question before the public is not the abstract one, whether it is desirable to have an international agreement which will prevent wars or at least render them improbable, but the concrete proposition, whether the proposed League of Nations is an agreement that no attempt should be made to amend or even to criticize it. Under the proposed league, secret treaties may be made up to the time of its adoption and may remain secret after its adoption. The United States, which we all believe to be the greatest nation in the world, has but one vote, while other nations which are no greater, as great, will have more votes.

The longue is open to the suggestion that an Executive Council made up of representatives of governments, the majority of which differ from our form, may pass upon questions such as the tariff, immigration laws and their enforcement; that we must be ready to meet any army or navy to protect any nation in Europe, Asia or Africa when attacked by another nation, and that should we become a party to it, we can never withdraw unless we secure the consent of all other parties.

I do not favor secret treaties. To me they are odious and cause suspicion. The United States is the greatest nation in the world and her voice in any international agreement should at least be equal to that of any other nation. Representatives of foreign governments should not have a voice in our internal affairs, and we should be the sole judges of our tariffs and the exclusion of aliens to our shores. I do not favor an agreement which is open to the suggestion that we may be obligated to take part in every war in Europe, Asia or Africa, or that we may be called upon to make up of representatives of European and Asiatic Governments to decide when we should go to war. There should be common rules binding upon all nations so as to render war improbable. I believe the United States should be prepared to agree that it would cooperate with all the nations on the American continent to see that those rules were scrupulously observed on the offensive and defensive.

cannot believe, however, that public opinion in the United States favors an obligation to enforce international rules in Asia, Africa and Europe. Should any occasion arise in future requiring our intervention in Europe, Asia or Africa, we can be counted upon to do the right thing; but we should not be required to enter every war no matter what questions might be involved. Any intervention, however, which is made should contain a provision permitting us to withdraw from it at any time. We would desire to do so should we learn from experience that instead of promoting the welfare of the world it was merely sowing the seeds of another world strife.

Mass Meeting for League.

There is considerable discussion of the League of Nations by the men "higher up," but what do the people think? To come a little nearer home, what do the people of Riverton think? Would it not be worth while to find out? Perhaps a mass meeting could be arranged where the constitution of the league as it now stands could be read and explained, as far as possible, and then the men and women of Riverton express their opinions on the subject. Notes takers would not need to be imported, as we can find out what they say by reading. It seems to me the important thing for each community to find out in what they themselves think, and then express themselves to their Senators. Such a League of Nations as now planned is certainly an important historic event and every one must surely have some interest in the matter.

The wheel was taken from Collins' barn. Officer Miller made the arrest and Squire Pichter sentenced Jackson to ninety days in the county jail.

A free tuberculosis clinic is held at the City Hall, Burlington, every Monday at 3 o'clock in the afternoon for the examination of those who have had influenza and show any symptoms of developing tuberculosis. If you are troubled with shortness of breath, spasms of coughing, profuse expectoration mornings or general weakness, it will be a wise precaution to have a thorough examination, either by your physician or at the clinic.

Riverton Girl Spells Down County Contestants.

In the county spelling contest last Saturday afternoon at Mount Holly, Miss Catharine Steele, daughter of Mr. and Mrs. Ogden Steele, of Riverton, won first prize of \$5.00 from a field of fifty-eight contestants, representing thirty districts. The second prize, \$2.50, was won by Nelson Meun, of Palmyra.

The contest called for much endurance, lasting from 3 o'clock to nearly 10 o'clock, and a record was made after he had spelled much harder ones during the three hours, was "infallible."

Riverton Police Pick Up Suspicious Characters.

Owing to the holidays and other forms of violence being perpetrated everywhere, the Riverton police officers are obliging all strangers in the town to give a satisfactory account of themselves. Yesterday afternoon three suspicious-looking characters were picked up and allowed to go this morning after an examination and a record made of them. They gave their names as Leonard Kousner, New York State, age 35; Charles Lewis, of Philadelphia, age 32; and Clarence Arnold, Philadelphia, age 35.

Last night two more were picked up and sentenced to 30 days in the county jail by Squire Pichter, while their statements could be investigated. They gave their names as Lewis, age 27, and William King, age 17, both from Williamsburg. King carried a black jack.

What Tardiness and Absence Means to the School.

In his annual report of message to the people of Riverton, the president of the Board of Education this year called attention to the increase in absence and tardiness, and asked the co-operation of parents in overcoming these two handicaps to the most efficient operation of the school.

It is impossible to give the limited space of a school report, to give the subject more than a passing mention, the statistical records of the school reveal what a very serious drawback irregular attendance is.

From a financial point the loss is much greater than most people suppose. A part of the money the local school receives from the State is based on attendance, and every day a child is out means a loss of two cents. This seems so small as to be almost negligible, but in the year 1916-1917 the Riverton school lost \$80.00 from absences. Last year the loss was \$123.56, but a part of this will be allowed owing to the epidemic.

But the financial loss, regrettable as it is, is not the heaviest. The greatest loss is to the child, who by irregular attendance leaves gaps in the instruction which make it very difficult for him to properly keep up with his class, resulting in discouragement and often in leaving school at an earlier age than he would do if he had been able to keep up. Sometimes it necessitates spending a second year in a grade, which is a serious loss to both school and pupil.

The operation of the Riverton public school will cost next year about an average of \$48 per pupil. Hence each pupil who fails to make his grade will cost the taxpayers an additional \$48.

Is this matter of sufficient importance to demand the attention and co-operation of parents?

The tardiness problem, while not so serious, still should receive consideration. Coming to the schoolroom late distracts the attention of the other pupils and interferes with the orderly routine of the work, and is often an indication of lack of interest on the part of the parent, which easily communicates itself to the child and affects his whole attitude toward his school work.

Tardiness has steadily increased during the past four years. Last year the number of cases was 222, as against 180 the year before.

Mrs. Bechtel Addresses P.T. A.

A very good attendance greeted Mrs. Wellington Bechtel, former president of the New Jersey Congress Mothers and Parent-Teacher Associations, when she addressed the Riverton P.T. A. yesterday afternoon at the "Work AHEAD for American Mothers."

Mrs. Bechtel said that in this time of readjustment we must begin with our homes and with our children. We are the war teachers as well as mothers and have had their trials, sacrifices and losses, and in working in unison for one great purpose they have been drawn together; and in the work for the refugees the American mother has been brought closer to the mothers across the seas.

Our boys are coming home with a broader vision and an entirely different spirit. They are holding American women in higher esteem than ever before. We must be more spiritually awake. God has touched our hearts in this great strife, and the boys are not going to be satisfied with conditions as they left them, every mother and every woman must see to it that she is ready to fill her larger role in the larger interests of the community.

The back-to-the-school drive involves the home again, for its success will depend on very large numbers of mothers. It is supported and worked for by the mothers.

The influence of the mother starts in the home and radiates to every other direction until it affects the community, the county, the State and the nation. Mothers must learn to realize as never before the tremendously important importance of their teaching and their example. Girls as well as boys must be trained to realize their responsibilities in the home, the school and the community.

And mothers today have the hearty backing and cooperation of the State Board of Education.

Mr. Price on War and Science.

Mr. Warwick James Price spoke Tuesday night on the contributions that war had made to science, the great strides that had been made in inventions and the use that the U-boats, air craft and camouflage would have in commercial life. A Mr. Price had already proved itself valuable in carrying mail and passengers and there will be a great development in its use for light and valuable freight.

Mr. Price spoke of the League of Nations and expressed the opinion that the peace treaty was signed without binding the various countries to the League of Nations in any way, that the league would then be very much more difficult to accomplish than it would become only an academic question and would be overwhelmed with criticism. He says European labor is very keen for the league and that English and Italian labor has criticized it because they did not think it went far enough. They believe that the nations should be disarmed and an international police established. The French seem mostly concerned with the League of Nations and the German aggression and getting started anew.

Labor trouble is an indirect encouragement to Bolshevism, and every one has sound ideas in regard to education and a few other things, but is "economically unsound and morally impossible," expressed by Raymond Robins. The London Times says "Bolshevism has proved itself class warfare carried through by terrorism."

The hand question has often been a cause of social upheavals, but in America more than one-third live on their own land, another third are a position to do so if they wish, which leaves a much smaller percentage of people who are not able to own their land than in most countries.

In the Legislature.

Monday evening the State Senate defeated Edwards' \$12,000,000 bonded issue plan for financing the Camden bridge and the Hudson tunnel. Governor Edge's tax plan, effective in 1922, stands, expenses in the meantime to be met by a \$3,000,000 balance in the treasury or by appropriations.

The House has taken favorable action on a bill providing \$10,000 for a New Jersey headquarters for our boys in Paris.

The Legislature plans to adjourn April 14.

The House has passed a bill changing the deer shooting season to five consecutive days from December 16 to 20.

The Democrats have succeeded in putting the House on record against the prohibition amendment. Wells will make another effort in the Senate next Monday.

A bill setting \$700 as the minimum salary for school teachers is under consideration.

Senator Wells has been appointed Judge of the County Court. He will succeed Judge Lipscomb April 1. The term of office is five years at \$1,000 a year.

Eighty-three at Red Cross Luncheon.

The anniversary Red Cross luncheon served Tuesday by members of the local branch was a most gratifying success in every particular. The headquarters were decorated with flags and evergreens, and of ninety acceptances eighty-three attended. Seventy repaired to the Porch Club after the luncheon to sew, finishing during the afternoon sixty-one garments. The Auxiliary at Cinnaminson was well represented.

Mrs. Alexander Marey, Jr., chairman of the Burlington County branch, was presented with flowers, and in her response spoke of the work still to be done and made a stirring appeal for more help.

Besides sewers on refugee garments there is a great need for more knitters on children's sweaters and stockings. A quantity of knitting material was issued after the luncheon.

Any member of the Red Cross upon the payment of \$1 before the 31st of March will become a subscribing member, receiving each month the Red Cross magazine, the official publication of the organization. Subscriptions taken at the Red Cross rooms Wednesday and Thursday and by Mrs. A. M. Ellsworth.

Deaths.

Mildred, daughter of Charles McCordell, died Wednesday night, after being ill for ten days with pneumonia. Requiem mass will be held Monday morning at 9 o'clock at the Sacred Heart Church, with Rev. J. A. Rigney officiating. Interment at Moorestown.

James J. Barr, Jr., husband of Ellen Barr, aged 32, died at his home in Camden last Sunday. Funeral Wednesday at 9:30 a. m. at 518 Penn street. Solemn high mass of requiem church of the Immaculate Conception, 11 a. m. Interment Mount Carmel Cemetery, Moorestown.

Henry D'Oiler.

Henry D'Oiler, retired cotton and yarn merchant and Civil War veteran, died suddenly of heart disease last Friday evening in Philadelphia. Mr. D'Oiler was in his eightieth year. He was a member, for many years, of the City Club and of Charles M. Swain Lodge, No. 654, F. and A. M. and Post 2, G. A. R. He served in the Civil War with the Keystone Battery.

Until a few years ago, when he retired, he was a member of the firm of William D'Oiler & Co., and was with the firm nearly forty years.

His home was at 1728 Master street, and he is survived by a widow and seven children. One of his sons is Captain Francis W. D'Oiler, of Riverton.

Mr. D'Oiler was a member of St. Matthew's Protestant Episcopal Church, Eighteenth street and Girard avenue, of which he was a vestryman twenty-five years and accounting warden ten years.

The funeral services were held Monday afternoon in St. Matthew's Church, conducted by the Rev. Dr. Yerkes and the late Henry Livingston, who was interment in West Laurel Hill Cemetery.

Banquet Coming for Service Boys.

The Community Hut gave a most enjoyable evening last Tuesday—in fact, one of the best of the season. The solos by Mr. Shrader included the Overture from "William Tell," Miss Schrader in several vocal solos, Miss Wilkerson reading Mr. Wilson's solos and Mr. and Mrs. Wilson in duets. In addition, Stephen Baxendale entertained with feats of magic in a way that captured the audience with the able assistance of Master "Bunny" Riggs.

The luncheon served to the service boys was a wonder. The tables were tastefully decorated to commemorate St. Patrick's Day and each place had a place card designed and printed by Miss Anna James for the occasion. The luncheon was prepared and served under the direction of Mrs. Clelland and Miss Ellis.

For next week the committee have prepared an entertainment that is expected to surpass all previous efforts. It will be a largely professional and worth hearing.

The banquet for our own boys who are or have been in the service will be given Tuesday evening, April 1, at 7:30. This is for the boys of both Palmyra and Riverton, and it is hoped that all who can will accept the invitation and respond promptly. Cards have been sent out to all those who have been reported to the secretary. Speakers of national reputation have accepted invitations to be present and there will be an entertainment of surpassing quality.

A No. 3 Oliver typewriter will be disposed of very cheap for immediate sale. Address "E" Box 20, Riverton.

The Bahai Cause.

The Bahai revelation, which took its rise in Persia in the year 1844, has spread throughout the world. This great movement for social and spiritual reconstruction was first centered about a radiant youth called the Bab. Many European historians have described the wonderful charm of this pure-hearted hero of progressive religion who was martyred in 1850, after six years of brilliant teaching.

After the Bab's martyrdom Baha'ullah (Glory of God), a Persian noble, led forward the movement. He announced the dawn of a new age, an age when brotherhood and peace should cover the earth even as the waters cover the sea. His universal principles, however, were too vast for the limited minds of his contemporaries. He had a little band of followers who were driven by the reactionary leaders of Persia into exile and prison, and at last, in 1868, were immured in the desolate barracks of Acre in Syria.

But the persecutions of men cannot extinguish the Light of God's Word. Spirit when it shines from the heart of his great prophets. From this "Most Great Prison" of Acre, Baha'ullah spread the message of universal love throughout western Asia. After his ascension, in 1892, at the end of forty years of exile and imprisonment, his son, Abdu'l-Baha, became his successor.

Under the divinely guided leadership of this "Servant of God," the Bahai faith has spread to all lands and all religions.

The Bahai believe this is the beginning of that Golden Age upon earth, the age of universal peace and love, when, as Christ foretold, men "shall come from the east and from the west, and from the north and from the south, and shall sit down in the kingdom of God."—A.D.

More Magazines Needed.

Another appeal has come for current numbers of magazines, particularly for use in hospitals, where many of the boys are too ill to read a book. Those most desired are: American, Adventure, Cosmopolitan, Everybody's, Life, Movie Magazine, McClure's, Metropolitan, The Popular, Red Book and all good story magazines.

The need for current magazines for our boys in American hospitals is urgent. Will you leave what you can at the Riverton Free Library?

Older magazines and books are being sent abroad. A cablegram has just come for several hundred of technical and scientific books for our boys "over there."

Work Shifted From Assessor to Collector.

Under the law passed by the Legislature last year, the work has been taken from the assessor. Heretofore those officers had to figure the amounts against each taxpayer and hand the book over to the collector. The new law says: "As soon as the tax duplicate is delivered to the collector of the taxing district he shall at once begin the work of preparing, compiling, mailing or otherwise delivering tax bills to the individuals assessed, and shall complete such work on or before the fifteenth day of May."

Corporal Daniel J. Blackburn has returned from overseas service and is now at Camp Merritt. He was wounded slightly last July while in an engineering company and is now recovering at the Jersey "Lightning" Division. Corporal Blackburn has a twenty-four-hour leave last week and visited his parents, Mrs. Charles George and Mrs. Louise Plummer. He expects to be transferred to Camp Dix to be discharged soon.

The new nurse station of forces provided by the Public Service Company has raised a storm of protest, especially among those suburban communities which have been used to one nurse to tend to their big families.

A public hearing on the question will be held by the Public Utility Commission next Wednesday. The chief engineers from the new rate here would be those who work at Riverside and now ride for one fare from Elm avenue. The new rate apparently would be nine or ten cents for this trip.

Mr. George Shaw Cook, of Chicago, Ill., will lecture on Christian Science under the auspices of the First Church of Christ, Scientist, Riverton, N. J., on Sunday afternoon, March 23, at 3:30 o'clock, in the Broadway Palace Theatre, Palmyra, N. J. Mr. Cook is a member of the Board of Lecturership of the Mother Church, The First Church of Christ, Scientist, Boston, Mass. The public is cordially invited. Adv.-2

May Start Sewer This Summer.

The proposed sewer system was again to the fore at the meeting of the Palmyra Township Committee Tuesday evening. Engineer Vonnury was present and reported that the price of labor was dropping rapidly and that plenty of men would be available to do the work when the operation is started. The cost of the entire system, he said, would be about \$96,000. The sewers proper would total about \$60,000 to \$65,000, and the remainder would be for the disposal plant, the pumping plant, outfall sewer and incidental expenses.

Several citizens were present, and interesting discussions arose about various details of the plan, but everybody seemed of the opinion that work on the system should be started during the summer.

A letter from the Public Utility Commission and of the railroad officials had issued orders designed to end the nuisance of the continued ringing of the crossing bells. As yet, however, no marked improvement has been reported.

The clerk was authorized to ask Riverton borough to agree to pay half the cost of traveling Elm avenue from Broad to Fourth street.

Steps were taken to purchase 500 feet of new hose for the Fire Department.

At the Board of Health meeting it was reported that several people were raising pigs and the town and inspector Blackburn was instructed to notify them to desist and to prosecute at once if they do not.

The following bills were ordered paid at the township meeting:

T. W. Land, work on road	\$259.86

Twenty-three Votes Elect School Board.

Only twenty-three votes were cast at the Palmyra School Board election Tuesday evening. Ten of these were by members of the board and other school officials, and members of the Parent-Teacher Association, meeting in the same building at the same time, provided most of the rest.

James T. Weart, William Donaghy and John Hooper were re-elected, all receiving twenty-three votes.

Frank Mathews presided as chairman, George Portier was secretary and Alexander Murphy and A. C. Gibson were tellers.

Five Points.

Robert B. Gibson, Company D, 348th Infantry, was discharged from the army and came home last Saturday.

He and Mrs. Gibson are spending a week with relatives at Cape May.

Mrs. George Dorworth returned on Wednesday from the Riverside Hospital, where she had been operated on for appendicitis.

Danquet for Service Boys in April.

At the meeting of the Palmyra Welcome Home Committee Monday evening, the Entertainment Committee, which had a session at the home of U. W. Davison Sunday morning, made a report on plans for the first banquet to be held on the returning hero.

The banquet will be held on or about Thursday evening, April 24, from 6:30 to 8 o'clock. Each boy will be provided with a ticket and the members of the committee will be expected to bring a guest.

At the committee meeting there was some discussion as to whether any distinction in the matter of presenting individual should be made between boys who crossed the seas and those who didn't, or those who enrolled in the U. S. A. T. C. It was decided that no distinction should be made.

The Committee on Souvenirs reported that the committee and the boys who had been consulted favored a gold medal as a souvenir. The main committee endorsed this proposal and the rings will be ordered.

The rings will be of solid gold, with the coat-of-arms of the State for the signet and the name of the recipient engraved inside.

Budgets had been provided for the main committee, it was decided, to be worn at all occasions where the committee appears officially.

Further plans were made for the canvass of the town for funds, which begins next Monday.

School Board Meets With P. T. A.

The Palmyra Parent-Teacher Association held out its most successful meeting Tuesday evening. About seventy-five members were present and the association also was honored by the presence of the School Board.

Miss Rebecca Conrow, secretary, reported that the recent benefit for the hot lunch fund cleared \$95.00.

Mrs. E. M. Bacon read a paper on the subject, "The Discovery and Cultivation of the Best in Children."

Mrs. H. Abell then presented two subjects, "The Self-Conscious Child" and "How to Help the P. T. A."

These interesting papers were taken up for general discussion.

Miss Mabel Root, chairman of the Entertainment Committee, presented the following program: Songs solo by Miss Ethel Morton, accompanied by Miss Robinson; piano solo by Miss Helen Sterling; recitation by Miss Josephine Gould.

Opportunity for Graduate Nurses.

The extensive program of the State Bureau of Child Hygiene, under the direction of Dr. Julius Levy, will eventually call for the employment of a large number of nurses. The work is preventive and educational in character, centered in the welfare station and carried into the home. It is work with well mothers and children, designed to keep them well. In addition, the welfare station, which is a doctor and a nurse periodically examine children, prenatal clinics are opened wherever possible.

Regulated nurses, who have not had experience in child hygiene work, are invited to attend the conference of the bureau, held each third Friday

afternoon of the month at 1 o'clock, at headquarters, 143 West State street, Trenton. Here they may be advised as to the best method of becoming experienced. At present several positions are open.

Third Victory Dance.

The members of Washington Camp, No. 23, P. O. S. of A., will hold their third dance of the series of victory dances on Saturday evening, March 23. There will be special features introduced at this dance that will entertain not only those who dance, but those who do not dance. The feature dance will be accompanied by a prize for both couples.

We will be further entertained with vocal selections by Augustus L. Wilson. Mr. Wilson has a host of admirers and is well known in Palmyra and Riverton. He has a fine voice of lyric quality and was formerly tenor soloist of the First Congregational Church of Jersey City.

President Brother Harry Curry asks that all members of the camp attend the meeting on next Monday night, as matters of vital importance will be discussed.

The camp is looking forward with pride to the next class initiation. If you are not a member, come out and join us now. The spirit of patriotism is in the air all over our country and it is a privilege that every true American should be proud of. Join Camp No. 23 and help the patriotic work in their fight against Bolshevism.

Gas Masks and Helmets May Be Released to Soldiers.

The War Department authorizes the following:

By direction of the Secretary of War, officers or enlisted men still in the service or discharged, who have had gas masks or steel helmets issued to them for use in the American Expeditionary Forces and who have been in the service of the Government, may obtain a release of them upon application to the nearest zone supply office, United States Army, accompanied by proper evidence that the articles desired were so previously issued and were not retained by the person making the application.

JAPS DEVOTED TO WRESTLING

Great Crowds Gather to Witness Contests Which to Western Eyes Would Be Tame Exhibitions.

The wrestling hall covers an acre and seats 15,000. Entering the circular hall one snatches glimpses through open doors of greenroom life—wrestlers getting their topknots greased and dressed in most meticulous fashion, and "gels" watching the operation with suppressed giggles. Inside tiers of seats slope down to the arena in a semi-circle. The affable editor takes me into a large empty box commanding a fine view of the arena and whispers that the box of the crown prince is the next one to the left.

Elise F. Woll, writes in Asia Magazine. A vast impersonal fusing together of thousands of hands, a dizzy hum of countless conversations tiring to unaccustomed foreign ears, a curious impression of somnolence produced by the enormous patches of black and mouse-gray and blue that predominate in any large Japanese group. The people are dividing their time between sipping tea, smoking their infinitesimal pipes, eating bowls of rice and watching the matches.

Down in the center is the arena, covered with a sloping roof like that of a Shinto shrine, gracefully recalling the dome when wrestling matches were given in the court of a temple to trample the ground for building and the proceeds of the contest went to repair temples and shrines. Up in the roof is a little shrine to Nomi no Sukune, the patron deity of wrestling, to whom offerings of rice are made before the matches. In the first century before Christ the emperor of Japan had an overbearing and insolent wrestler, the general, one Kecheyu. The emperor ordered the strongest men of the realm to wrestle with the herculean bully. Nomi no Sukune challenged him to a bout and trampled him to death, and received as an imperial reward a great estate. As a posthumous honor he was deified as the first to reduce wrestling to an elaborate science. The four pillars supporting the roof of the arena, each draped with a different color, white, blue, red and black, stand for the four seasons. The purple curtain with white wave pattern draping the eaves signifies passion calming the elements. At each of the four posts sits motionless like a Buddha, one of the elders, or "toshiyori," retired wrestlers who have attained champion rank, and now organize matches, administer finances, take pupils and receive a pension from the wrestling association.

Queer Turn of Fate's Wheel.

An announcement on the cables from Paris a few days ago showed a queer turn in the wheel of fate. It said that James Hazen Hyde had been made an assistant to Harvey D. Gibson, with the American Red Cross in Paris. Only a few years ago Mr. Hyde was an outstanding figure in American finance, and Mr. Gibson at same time was an express clerk earning less than \$80 a month. Mr. Hyde was the son of the founder of the Equitable Life and inherited his father's vast wealth. He was a striking figure for a time. Then came the Hughes investigation of the insurance business and Mr. Hyde fled to Paris, where he became an ornament of the boulevard cafes. Mr. Gibson in the meanwhile had gone steadily upward, became very wealthy, and because of his business ability was selected by Henry P. Davison to become general manager of the American Red Cross. It is said that Mr. Hyde is no longer the social butterfly he became after landing in Paris, and may again rise to great heights.

Why Lake Disappeared.

Mr. Peabody was the typical tourist, so when his wanderings here came across a depression in the ground, covering several acres, he pounced upon a native eagerly, firing his questions at him:

"What is this depression, can you tell me, my good man?"

"That is the bed of a lake."

"Is that so, really? And what has happened to the water?"

"It was this way. There was a picnic here last year, and they had a severe case of anchovy, and as they didn't want to carry it home they threw it in the lake."

"Yes! I see! But what has that to do with it?"

"Everything. The fish ate them, and the salt made them so thirsty they drank all the water."

SEEK STATUS OF INTOXICANTS

Legislature to Get Bill That Will Allow Making and Sale of 4 Per Cent. Drinks.

LOOPHOLE FOR BREWERIES.

Said to Avoid Clash With the National Prohibition Statute—Bill to Create Board of Moving Picture Reviewers.

Trenton, March 12.—Opening the session of the senate with prayer, Chaplain Read implored God's help in bringing about home rule for Ireland. He referred to the early history of Ireland when the rest of the world was in intellectual darkness and Ireland sent forth enlightening education to the far ends of the earth.

President Runyon was the speaker at a St. Patrick's day observance in Union county and in his absence Senator Smith of Passaic county presided.

Days of brighter and milder weather loom for those who deplore the prospects of parched throats after July 1. It is proposed to the legislature as a measure of relief that will be hailed with joy. It is a bill in the form of an amendment to the Municipal Home Rule law of two years ago, giving the municipalities of the state power and authority to grant licenses for the manufacture and sale of non-intoxicating beverages. Right there is the shining light of the proposal.

What is and what is not intoxicating in the way of a drink has been a mooted question for generations. Therefore, it is said the bill will once and for all define and establish the standard so that in New Jersey, at least, men may know. This definition is to be based upon the proposition that four per cent. of alcohol in a beverage is not intoxicating. Thus, if the legislature enacts the law, it will be possible for the brewers to resume the production of the foamy amber so dear to the palates of the weary and thirsty, but foredoomed to "pass away" into memory under the "hazy" law. It is declared by those familiar with the subject that beer just now is in a bad way. The proposed bill, it is declared, will not run counter to the national prohibition law, because that law gives the several states co-ordinate power to regulate such manufacture and sale. Naturally there will be loud and vigorous protest from the foes of booze, but advocates of the measure declare that it will meet the desire of a great majority of the people of New Jersey. That it will cause a just battle in the legislature is assumed in advance, since the uncompromising "dry" men will not yield to a suggestion for the sale of beer.

May Restore the Sturgeon. The senate put through without much discussion Senator Allen's series of bills designed to restore sturgeon fishing in the Delaware bay and river. The bills represent the conclusions of the recent conference of Governors Sproul, of Pennsylvania; Edgar, of New Jersey; and the governors of Delaware, and similar measures are to be put through the legislatures of those states. Their chief feature is a closed season of three years and it is believed that in that period the fish will have some chance to propagate. The industry has been on the decline for years and in recent seasons the fish, once so plentiful that no sale could be found for them, has become so scarce that it is said to be rare indeed to catch as many as a dozen.

A sudden halt came to one of the salary increase bills with which the calendars of the state House are liberally sprinkled. This was the measure adding \$1,000 a year to the \$9,000 salary of the circuit judges. The bill had passed the senate and was ready for final passage in the House when a deliver discovered that it had been incorrectly drafted and it was a "judges' bill" at that. The senate, therefore, put through a recall resolution and the bill is to get back to its original status. It is said to be very likely that it will pass again after the fault is corrected, but the other salary increase bills are not to have such easy paths. The senate, in accord with Governor Devoe's message of a week ago, has named a committee to investigate the program.

Ocean Highway Losses Again. Senator Ackerson, of Monmouth, made another ineffectual effort to put through his bill for the Ocean Highway to be made a two-lane highway, No. 4 of the state highway system. The measure was opposed so strenuously last week that he had to hold over in the hope of gathering support, but when it came on again tonight, Republican Leader Case led the opposition on the ground that Monmouth county already has more than its fair share of the highway system. All the Republicans joined him, and the bill was defeated with but five votes cast for it. Senator Ackerson had better fortune with his bill providing for the incorporation as a borough of Freehold, the county seat of Monmouth, as everybody voted for it. The town is now under an old form of commission government, which is not sufficiently elastic to afford improvements much desired.

The senate also passed Senator Whitney's bill creating a commission to take up the work of rehabilitating physically incapacitated individuals. It also passed Senator Hammond's bill permitting authorized health officers to make search of premises where it is suspected the sanitary code is being violated. Soon after its passage, however, Senator Brown, of Middlesex, declared that it was so "what" that it was not worth the trouble of the constitution, and he had the vote reconsidered so that it might put in an amendment.

The bill drafted by Attorney General McCann and introduced by Senator Case to most proposed legislation in Pennsylvania for the construction of the Delaware river bridge passed second reading in the senate.

THE FEDERAL RESERVE BANK

By CARTER GLASS, Secretary of the Treasury. "The Federal Reserve system today is the firm base from which the readjustment of after-war enterprises must be made. Just as it was the foundation upon which the financial straits of the world during the entire period of the great world-war.

"For fifty years we clung to the most unscientific banking and currency system in the world. Five times within the thirty years preceding the passage of the Federal Reserve Act financial catastrophe came upon us in the very midst of apparent business prosperity and contentment. These disasters ensued from two fundamental defects of the old system, one an insatiable bond-secured currency and the other an utterly fictitious bank reserve.

"Under the old system we proceeded upon the assumption that the country always needed a volume of currency equal to its bonded indebtedness, and never at any time required less, whereas we frequently did not need as much as was outstanding and just as often our debt was absorbed by the vast amount of currency that was not needed.

Attorney General Schaffer of Pennsylvania in Philadelphia an agreement was reached as to the form of legislation to be introduced in New Jersey and Pennsylvania providing for construction of the bridge to span the Delaware river between Camden and Philadelphia.

Attorney General Schaffer approved of bills that have been introduced in New Jersey legislature and discussed cases of them will be introduced in Pennsylvania. These measures will provide for a joint commission to acquire property and to secure surveys and plans incident to the bridge project, which will cost about \$18,000,000, half of which sum will be paid by each of the states involved.

The most important among the bills to pass the senate was the workman's compensation bill as amended and agreed to by representatives of labor, by representatives of employers and by representatives of the insurance companies. It provides for a minimum of \$5 a week and a maximum of \$12 a week and 62-2/3 of the salary as compensation for disability.

For Moving Picture Reviewers. Creation of a Board of Moving Picture Reviewers is provided for in a bill introduced in the senate by Senator Filgrim of Essex. It is proposed that the board consist of three members, one a woman, to be appointed by the governor for terms of three years. The salary is fixed at \$2,500. The bill was referred to the Committee on Revision of Laws.

A bill introduced by Senator Hammond of Mercer prohibits corporations furnishing gas and electricity to any person for the use of gas or electricity. Senator Case of Somerset introduced a bill increasing the "revolving and supplement fund" of the state from \$250,000 to \$500,000. On motion of Senator Case a bill by Senator Smith fixing the salary of Common Pleas Judges in counties having a population in excess of 175,000 at \$7,000 per annum was referred to the special named by President Runyon to consider salary raising measures.

Check on Auto Theft. Automobile thefts which have become alarmingly frequent and annoying will be materially checked, the law will be introduced by Assemblyman Reeves of Cumberland gets by the legislature. The measure provides that no car from which the manufacturer's numbers have been obliterated or altered may be sold or transferred to another person without the original manufacturer's bill of sale shall be transferred to the purchaser in every transaction and that sales of used cars must be acknowledged before a notary public. Violation of the provisions of the law will be punishable by \$2,000 fine or two years' imprisonment, or both, at the discretion of the court.

Assemblyman Devoe of Middlesex introduced a bill making the minimum salary for public school teachers \$700 a year. The measure has the endorsement of State Commissioner of Education Kendall and other prominent state educators as a result of widespread agitation in favor of better pay for teachers. It was introduced by a South Jersey teacher regularly employed at the minimum salary of \$305 a year. It is considered very likely that the bill will pass without much opposition in view of the prevalent sentiment in favor of increased pay for the teachers.

Another bill by Mr. Devoe provides that children must be fourteen years old and have passed the seventh grade in school before a certificate permitting employment may be issued. The present law allows a fifth grade student for the applicant for state certificates and the educators of the state believe that the two years' added schooling will very materially benefit the children. It is expected, however, that considerable opposition to the change will develop in certain industrial centers.

Urges More for Teachers. Of the 17,000 public school teachers in New Jersey, more than 1,000 receive less than \$250 in salary a year, and this situation is causing such a dearth of competent teachers as to seriously menace the whole educational system of the state. This was the statement of State Commissioner of Education Kendall before the Committee of Education of the Assembly on Assemblyman Devoe's bill providing for a minimum salary of \$700 a year. The hearing was attended by a large number of teachers and others interested in education, and it is said to be very probable that the bill will be favorably reported.

FOREIGN-BORN LEAD IN LOAN DRIVE

Section of a Group of Foreign-Language Representatives Who Met in Philadelphia to Boost the Victory Liberty Loan.

Foreign-born citizens of the Third Federal Reserve District made the distinction of being the first group of the new Victory Liberty Loan organization to start work when they launched their campaign in Philadelphia on Tuesday, March 4.

Representatives of nineteen different nationalities, comprising the sub-committee chairman of the Foreign Language Division, attended and made suggestions for the conduct of the Victory Liberty Loan campaign. In line with the plans of the general committee, this is to be handled on a more intensive scale than any of the four previous loans. In the absence of Judge Joseph Buffington, Chairman, Cassimir A. Sienkiewicz, Executive Secretary, presided.

An outline of the new organization was given by A. E. Berry, associate director of the War Loan Organization for the Third Federal Reserve District. In the security to be offered in the Victory Liberty Loan, he said, "The chief difference from other loans is that instead of offering bonds that mature in fifteen years, the government will offer notes which will agree to repay in one, two, three, four or five years."

To illustrate his point, Mr. Berry said the securities about to be offered are more like currency, which is payable on demand. He also emphasized that one never dreams of selling a dollar at less than its face value. "Security men who know what they are talking about say there are hardly any securities on the market that give a better net return than government bonds," he said. "The notes, because of the new tax conditions under which they will be sold, will give a better net return than anything else."

He likened the members of the Foreign Language Division to trustees of the government in their mission of explaining the Victory Liberty Loan to foreign-born peoples. A. E. Berry, Chairman of the Advisory Committee for Pennsylvania of the War Loan Organization, said that foreign-born people of the Third

money centers, for only there could they resort for redemptive favors. Under the new system it is no longer a question of favor; it is purely a question of business. "The whole startling contrast between the old system and the new may be summed up in the single statement that in 1907, under the old system, the failure of two banks in New York city precipitated the greatest financial panic that ever afflicted the nation. Under the new system, the greatest war of recorded history failed to create a ripple of alarm in the banking community of the United States!"

In the panic of 1907 New York could not let a country bank have \$50,000 of currency to meet the ordinary requirements of trade. In 1915 New York loaned two European nations \$200,000,000 for the prosecution of war!

"Today, the United States has bought back from foreign nations in excess of \$3,000,000,000 of American securities, has loaned foreign nations \$110,000,000 for purposes of war, has floated on Government accounts \$18,000,000 of Liberty Bonds and War Savings Certificates, not to mention the billions of dollars of Treasury certificates and the Liberty Loan in anticipation of the Liberty Loan."

"The twelve reserve banks alone have engaged in commercial redemption operations approximating \$1,500,000,000 and have made open market purchases amounting to \$1,818,000,000. The regional banks hold a gold reserve of \$2,100,000,000, an increase over last year of \$402,000,000. Notwithstanding the splendid provision made for the tremendous military and commercial needs of the country, the system maintains today a gold reserve of 64 per cent behind its notes and of 53.7 behind its combined note and credit issues."

America's Immortals

Post striking instances of gallantry for which the Distinguished Service Cross has been awarded.

On the war department's records there is a roll of "America's Immortals." It is the roll of officers and men to whom there has been awarded the Distinguished Service Cross in recognition of acts of unusual gallantry in action. Behind each of these awards is a story of surpassing bravery that deserves the widest publicity, but pages of newspaper space would be required to print them all. Officers attached to General Pershing's staff have selected from the hundreds of official reports a number that typify most strikingly the gallantry and spirit of self-sacrifice that made America's army invincible. Here are a few of them:

THOMAS O. NEIDOUR,

Private, Company M, 167th Infantry. Private Neidour, whose home is at Sugar City, Idaho, was decorated for conspicuous gallantry in action near Landres-et-St. Georges, France, October 16, 1918. On the afternoon of October 16, when the 40th de Chantilly had just been gained after bitter fighting, and the summit of that strong bulwark in the Kriehilde Stellung was being organized, Private Neidour was sent on patrol with his automatic rifle to observe the enemy's movements. As Private Neidour gained the ridge he set up his automatic rifle and was directly thereafter wounded in both legs by fire from a hostile machine gun on his flank. The advance wave of the enemy troops, however, had not yet gained the ridge and although practically cut off and surrounded, the remainder of his detachment being killed or wounded, this gallant soldier kept his automatic rifle in operation to such effect that by his own efforts and by fire from the skirmish line of his company at least 100 yards in his rear, the attack was checked. The enemy wave being halted and lying prone, four of the enemy attacked Private Neidour at close quarters. These he killed. He then moved along among the enemy lying on the ground about him, in the midst of the fire from his own lines, and by his coolness and gallantry captured eleven prisoners at the point of his pistol and, although painfully wounded, brought them back to our lines. The counter-attack in full force was arrested, to a large extent, by the single efforts of this soldier, whose heroic exploits took place against the skyline in full view of his entire battalion.

EDWARD C. ALLWORTH,

Captain, 60th Infantry. Capt. Allworth won the Distinguished Service Cross for bravery in action at Blanc Mont Ridge, France, November 5, 1918. While his company was crossing the Meuse river and canal at a bridgehead opposite Clerly-le-Petit, the bridge over the canal was destroyed by shell fire and Capt. Allworth's company, separated, part of it being on the east bank of the canal and the remainder on the west bank. Seeing his advance units making slow headway up the steep slope ahead, this officer mounted the canal bank and called his men to follow. Plunging in he swam across the canal under fire from the enemy, followed by his men. Inspiring his men by his example of gallantry, he led them up the slope, joining the hard-pressed platoons in front. By his personal leadership he forced the enemy back for more than a kilometer, overcoming machine gun nests and capturing a hundred prisoners, whose number exceeded that of the men in his command. The exceptional courage and leadership displayed by Capt. Allworth made possible the re-establishment of a bridgehead over the canal and the successful advance of his troops. Capt. Allworth's home is at Crawford, Washington.

LOUIS CUKELA,

Lieutenant, 5th Regiment, U. S. M. C. Lieutenant Cukela was decorated for conspicuous gallantry near Villers-Cotterets, France, July 18, 1918. When his company, advancing through woods, met with strong resistance from an enemy strong point Lieutenant Cukela, then a sergeant, crawled out from the tank and made his way toward the German line in the face of heavy fire, disregarding the warnings of his com-

rades. He succeeded in getting behind the enemy position. Rushing a machine gun emplacement, he killed the crew with his bayonet. With German hand grenades he then bombed out the remaining portion of the strong point. His home is in Minneapolis, Minn.

SYDNEY G. GUMPERTZ,

First Sergeant, Company E, 182nd Infantry.

Sergeant Gumpertz was decorated for gallantry beyond the call of duty in action in the Bois de Forges, France, September 23, 1918. When the advancing line was held up by machine gun fire, Sergeant Gumpertz left the position of which he was in command and started through a heavy barrage to ward the machine gun nest. His two companions soon became casualties from enemy machine gun fire. Sergeant Gumpertz continued on alone in the face of direct fire from the machine gun, jumped into the nest and silenced the gun, capturing nine of the crew. Sergeant Gumpertz's home is at 701 West 17th street, New York city.

CHARLES F. HOFFMAN,

Gunnery Sergeant, 49th Company, 5th Regiment, U. S. M. C.

Sergeant Hoffman received the Distinguished Service Cross for an act of conspicuous gallantry in action with the enemy near Chantilly, France, June 6, 1918. Immediately after the company in which Sergeant Hoffman belonged had reached its objective on Hill 142, several counter-attacks were launched against the line before the new position had been consolidated. Sergeant Hoffman was attempting to organize a position on the north slope of the hill when he saw twelve of the enemy, armed with five light machine guns, crawling toward his position. Giving the alarm he rushed at the hostile detachment, bayoneted the two leaders, and forced the others to flee, abandoning their guns. His quick initiative and courage routed the enemy from a position from which they could have sniped the hill with machine gun fire and forced the withdrawal of our forces. His home is in Brooklyn, N. Y.

THEODORE PETERSEN,

Sergeant, Med. Co., 151st Field Artillery.

Sergeant Petersen (deceased) was decorated for conspicuous gallantry in action at Peronne, France, March 3, 1918. Mortally wounded during a enemy bombardment, Sergeant Petersen, through his own weakness, refused to let his associates in treating the wounded and refused to receive assistance himself until all the others were cared for. When gas shells began to fall in the vicinity he directed the men in adjusting their masks and was the first to test for gas. He continued to supervise the treatment of the wounded, despite the fact that he was suffering from pain, until the arrival of the medical corps. He died on the rear. He died on reaching the hospital. His mother, Mrs. M. J. Petersen, lives at 69 Central avenue, Oakbrook, Wis.

JAMES D. HERIOT,

Corporal, Company I, 116th Infantry.

Corp. Heriot, who lived near Providence, S. C., was decorated for conspicuous bravery, resulting in his death, at Vaux-aud-Andilly, France, October 12, 1918. Corp. Heriot, with four other soldiers, organized a combat group, and attacked an enemy machine gun nest which had been inflicting heavy casualties on his company. In the advance two of his men were killed, and because of the enemy's machine gun fire, the remainder of his company was in peril of the hazard attached to his mission. Corp. Heriot, with fixed bayonet, alone charged the machine gun, killing his way through the nest for a distance of thirty yards, and forcing the enemy to surrender. During this exploit he received several wounds in the arm, and later in the same day, while charging another nest, he was killed.

DONALD M. CALL,

Second Lieutenant, Company D, Tank Corps.

Lieut. Call was decorated for conspicuous bravery in action near Varennes, France, September 23, 1918. During an operation against enemy machine gun nests near Varennes, Lieut. Call, then corporal, was in a tank with an officer, when half of the turret was knocked off by a direct artillery hit. Checked by gas from the high explosive shell, he left the tank and took cover in a shell hole thirty yards away. Seeing that the officer did not follow, and thinking that he might be alone, Corp. Call returned to the tank under intense machine gun and sniping fire and carried the officer over a tank under machine gun and sniping fire to safety. Lieut. Call's home is at Larchmont Manor, N. Y.

CHARLES DISALVO,

Private, Company B, 354th Infantry.

Private Disalvo (deceased) was decorated for conspicuous gallantry in action at Blanc Mont Ridge, France, November 1, 1918. When the combat group, of which he was a member, had been halted by enemy machine guns, Private Disalvo alone charged forward. Attacking the nest, he killed one gunner and forced the rest to surrender. His act enabled the group to continue their advance. During the charge on the nest he was so seriously wounded that he died on the field. His widow lives at 3503 Arlington avenue, St. Louis, Mo.

JOHN J. KELLY,

Private 78th Company, 6th Regiment, U. S. M. C.

Private Kelly was decorated for gallantry in action at Blanc Mont Ridge, France, October 3, 1918. Private Kelly ran through our own barrage 100 yards in advance of the front line and attacked an enemy machine gun nest, killing the gunner with a grenade, shooting another member of the crew with his pistol and returning through the barrage with eight prisoners. Private Kelly's home is at 6143 Kinsbury avenue, Chicago, Ill.

CHARLES D. PRIEST,

Chaplain, 95th Infantry.

Chaplain Priest (deceased) was decorated for extraordinary bravery in action near Les Hauts Clombes, France, September 23, 1918. Chaplain Priest disregarded personal danger by going six times into the enemy's trench, and with the aid of a machine gun, sniping back a wounded enemy. Chaplain Priest's home was at 241 North La Salle street, Chicago, Ill.

SUNDAY SCHOOL LESSON

By REV. P. B. FITZWATER, D. D.
Teacher of English Bible in the Moody
Bible Institute of Chicago.
(Copyright, 1918, by Western Newspaper Union.)

LESSON FOR MARCH 30 REVIEW.

GOD'S HAND IN A NATION'S LIFE

SELECTION FOR READING—John 24: 16-24.

GOLDEN TEXT—Righteousness exalteth a nation; but sin is a reproach to any people.—Proverbs 14:34.
PRIMARY TOPIC—How God led his people (Psalms 77:20).
JUNIOR TOPIC—Recognizing God's leading.
INTERMEDIATE TOPIC—Evidence of God's guidance.

Since Israel was a theocratic nation, perhaps the best method of review will be to trace God's hand in that nation's life. Israel was led, fed, clothed and disciplined by God.

Lesson I. God's hand is clearly discernible in the experiences of Israel in Egypt. Israel was to be the religious teacher of the world, therefore the nation must sojourn in Egypt, the most advanced in learning of any nation at that time. In order that Moses the great lawgiver might be equipped with the best possible education God used Pharaoh to oppress the people. This oppression served a threefold purpose: (1) It served the testimony to the Egyptian nation that the living God was the God of Israel. The more they oppressed them, the more they multiplied. (2) It served a beneficent purpose in bringing the nation into its own. It required the crucible of suffering to bring humanity into its own. (3) It made the nation willing to leave Egypt and go to Canaan, the promised land. Had not the hand of oppression been upon them they would have chosen to remain in bondage.

Lesson II. When Israel was ready to go to Canaan God had a leader ready for the difficult task. His parentage, education at his mother's knee and at Pharaoh's court, and communication with God in the desert of Midian had equipped him for this work.

Lesson III. Though enslaved by a powerful nation, God undertook freedom for Israel, and by tea telling strokes—the plagues—brought the shackles from their hands and set them free. The Passover is a memorial of that blessed deliverance.

Lesson IV. God opened the Red sea and made a path of safety for Israel to cross, but overthrew Pharaoh and his hosts in the sea.

Lesson V. Israel bitterly complained when they faced the wilderness without food. God sent them manna and quails. The manna did not fall from heaven, but was sent from God. The Passover is a memorial of that blessed deliverance.

Lesson VI. God sent Jethro to give needed counsel to Moses. The strength of Moses was about to break. God took one outside of the commonwealth of Israel and through him communicated the wisdom which Moses needed to save him from collapse through overwork.

Lesson VII. At Sinai Israel is organized into a nation, and the ten commandments are given as their constitution. In this constitution is clearly set forth man's duty to God and his obligation to his fellow men.

Lesson VIII. God's hand is seen in his burning anger against the nation for turning away from him to worship the golden calf. He is a jealous God; he will not tolerate a rival.

Lesson IX. Through unbelief the spies are sent to search out Canaan. When they were urged to take possession of the land according to God's promise they rebelled. Because of this failure God caused them to wander in the wilderness for 38 years.

Lesson X. When God's disciplinary measures had run their course the people were back again upon the borders of Canaan. Joshua was chosen by God to lead the people, as Moses' time to depart had come.

Lesson XI. In the cities of refuge God provided that revenge should not take the place of justice.

Lesson XII. Before Joshua's death God through him set forth the conditions upon which the nation's welfare could be maintained, namely, wholehearted obedience to God and separation from their wicked neighbors.

A Prayer.
Our Father, we bless thee that thou hast not waited to be asked but knowing our need, hast permitted us, in thy great mercy, to make our requests known unto thee, as well as our adoration and joy in thee, so we pray thee for the things that are requisite and necessary. Thou knowest what things we have need of before we ask thee, but thou hast hidden us ask thee because thou delightest in our consciousness of dependence upon thee, and wouldst have us feel our needs that we may be fit to receive their supply. Through Jesus Christ, our Lord. Amen.

Sphere of His Holiness.
If this sphere of his mercy and wrath, tenderness and severity, is so beautiful, what shall be the splendor of the sphere of his holiness? What the glory of the presence chamber, judged by the excellence of this distant boundary lodge?

Going to Church.
We cannot take advantage of the church without going to church, any more than we could take advantage of a week-day school, without going to classes each day.

The Change.
"Ah, what changes one short year has wrought! But 12 months ago, standing at the threshold of the new year, little did I think—"
"I see!" Interrupted old Festus Peter. "Little did you think then, and now you don't think at all. Is that the idea?"—Kansas City Star.

America's Immortals

Most striking instances
of gallantry for which
the Distinguished Service
Cross has been awarded

JAMES C. DOZIER,
First Lieutenant, Company G, 118th
Infantry.

For conspicuous bravery after being
wounded near Montbrun, France,
October 8, 1918, Lieut. Dozier was
awarded the Distinguished Service
Cross. In command of two platoons,
Lieut. Dozier was painfully wounded
in the shoulder early in the attack,
but he continued to lead his men, dis-
playing the highest bravery and skill.
When his command was held up by
heavy machine gun fire, he disposed
his men in the best cover available
and with a soldier continued forward
to attack a machine gun nest. Creep-
ing up to the position in the face of
intense fire, he killed the entire crew
with hand grenades and his pistol,
and a little later captured a number
of Germans who had taken refuge in
a dugout nearby. Lieut. Dozier's home
is with his father, John H. Dozier, 524
Ainslie street, Rock Hill, S. C.

HAROLD A. FURLONG,
First Lieutenant, Company M, 353rd
Infantry.

Lieut. Furlong won the Distin-
guished Service Cross for bravery in
action near Bantheville, France, No-
vember 1, 1918. Immediately after the
opening of the attack in the Bois de
Bantheville, when his company was
held up by severe machine gun fire
from the front, which killed his com-
pany commander and several soldiers,
Lieut. Furlong moved out in advance
of the line with great courage and cool-
ness, crossing an open space several
hundred yards wide. Taking up a
position behind the line of machine
guns, he closed in on them, one at a
time, killing a number of the enemy
with his rifle, putting four machine
gun nests out of action, and driving
twenty German prisoners into our
lines. Lieut. Furlong's home is at

Mich.

MICHAEL J. PERKINS,
Private, First Class, Company D, 161st
Infantry.

Private Perkins (deceased) was de-
corated for conspicuous gallantry in ac-
tion with the enemy at Belleau Bois,
France, October 27, 1918. He volun-

tarily crawled alone to a German "pill
box" machine gun emplacement, from
which grenades were being thrown
at his platoon. Awaiting his opportu-
nity, when the door was again opened
and another grenade thrown over him,
he threw a bomb inside, bursting the
door open, and then, drawing his
trench knife, rushed into the emplace-
ment. In a hand-to-hand struggle he
killed and wounded several of the oc-
cupants and captured twenty-five pris-
oners, at the same time silencing seven
machine guns. Michael Perkins, his
father, lives at 247 E street, South
Boston, Mass.

LYDD M. SEIBERT,
Sergeant Company F, 364th
Infantry.

Sergeant Seibert was awarded the
Distinguished Service Cross for con-
spicuous gallantry in action near Ep-
pinville, France, September 26, 1918.
Suffering from illness, Sergeant Sei-
bert remained with his platoon and led
his men with the highest courage and
leadership under heavy shell and ma-
chine gun fire. With two other sol-
diers Seibert charged a machine gun
emplacement in advance of his com-
pany, he himself killing one of the en-
emy with a shotgun, and capturing
two others. In this encounter he was
wounded, but he nevertheless contin-
ued in action, and when a withdrawal
was ordered he returned with the last
unit, assisting a wounded comrade.
Later in the evening he volunteered
and carried in wounded until he faint-
ed from exhaustion. His father, George
Seibert, lives in Salinas, Cal.

JOSEPH W. SMITH,
First Lieutenant, 116th Infantry.

Lieutenant Smith was decorated for
conspicuous gallantry in action near
St. Ransant, France, September 12,
1918. Finding that his platoon would
be under heavy fire from six enemy
machine guns in crossing the Rupt de
Mad, Lieutenant Smith plunged into
the stream ahead of his men, and
crossing to the opposite bank, exposed
himself to fire from the guns in order
to ascertain their exact location. He
then led his men in a flank attack on
the enemy position, capturing the guns
and nineteen Germans, this officer him-
self carrying a rifle and using it with
telling effect. Lieutenant Smith's
quick judgment and disregard for per-
sonal safety enabled the entire line to
advance without being separated from
its barrage. His mother, Mrs. Rita L.
Smith, lives in Austin, Tex.

GEORGE H. MALLON,
Captain, 132nd Infantry.

Capt. Mallon was decorated for in-
tegrity beyond the call of duty in the
Bois de Forges, France, Septem-
ber 23, 1918. Becoming separated
from the balance of his company be-
cause of a fog, Capt. Mallon, with six

soldiers, pushed forward and attacked
nine hostile machine guns, capturing
all of them without the loss of a man.
Continuing on through the woods, he
led his men in attacking a battery of
400 mm. howitzers which were in ac-
tion, ransacking the position and captur-
ing the battery and its crew. In this
encounter Capt. Mallon personally at-
tacked one of the enemy with his fists.
Later when the party came upon two

more machine guns, this officer sent
men to the flanks, while he rushed
forward directly in the face of the
fire and silenced the guns, being the
first one of the party to reach the
nest. The exceptional gallantry and
determination displayed by Capt. Mal-
lon resulted in the capture of 100 pris-
oners, eleven machine guns, four 400
mm. howitzers and one anti-aircraft
gun. Capt. Mallon's home address is
1921 Hallock street, Kansas City, Mo.

See the Children Do Their Stunts.

You wouldn't believe anything under the name of "physical training" could be so intensely interesting until you see Miss Packer in action with the children.

It is simply a revelation, both to the children who take part and to the spectators.

Miss Packer bears the title of instructor of physical education and comes from the department at Trenton. But that isn't what makes her so successful. It is the great interest she takes in her work, and her knowledge of it. She has the children working from the first minute, and they do willingly at her bidding things they never thought they could do. And the spectators catch the fever, too, and commence to rock and swing in their chairs in unison with the children on the stage.

Miss Packer gave an exhibition at the meeting of the County Council of the Parent-Teacher Association at Springfield (near Trenton) last month, which was witnessed by a number of women from the Riverton P. T. A., who became so interested that they asked Miss Packer to come here.

Miss Packer will demonstrate at a special meeting of the P. T. A. in the public school next Monday afternoon at 3 o'clock, and every one is invited. It doesn't matter whether you are a member of the P. T. A. or not, or whether you have a child in school or not, if you would like to see the demonstration, you will be welcome.

Play at Porch Club.

A very successful Porch Club entertainment was given last Tuesday evening for members and their guests, under the direction of Mrs. J. Douglas Clark, to a full house.

The program included a piano solo by Miss Carol Becker, readings by Mrs. Lucy E. Shreve and vocal solos by Mrs. Isabelle Greiss, of Philadelphia, accompanied by Mrs. Walter Clark, of Merchantville, and a play called, "A House on a Hill." Those taking part in the play were Mrs. C. H. Rolf, Miss Clara Albee, Miss Grace Bennett, Miss Marjorie Marcy, Miss Anne Wallace, Miss Dorothy Shreve and Mrs. J. D. Clark.

Aged Man Run Down by Truck.

Frank Coles, who lives on the Burlington Pike, was run down by a truck Monday night while on his way home and badly injured. The accident happened about 8 o'clock. The truck carried no lights and Mr. Coles did not see it approaching. The driver of the truck did not stop after hitting Mr. Coles, but sped on toward Camden. The injured man, who is in his seventies, managed to walk to his home, a quarter of a mile away, though he was suffering with a broken shoulder blade, an injured hip and severe bruises. When he staggered into the house covered with dirt and blood, his family thought he had been waylaid and robbed. There is no clue as to whose truck it was that ran him down.

Soldiers May Keep Uniforms.

A recent Act of Congress permits discharged soldiers to keep clothing and equipment which they have taken away from them, and they are also permitted to retain their gas masks and helmets. If these desirable items have been turned in, they may be recovered by application to the nearest zone supply officer, United States Army.

In the State Legislature.

The House has passed Speaker Pearson's bill to give civil service tests to all persons taking office in the State. Mackey's bill empowering the Interstate Bridge and Tunnel Commission to go ahead with the New York-New Jersey tunnel under the Hudson has been passed by the Senate.

Emmott Roberts has a bill for the benefit of the farmers, providing cooperative banks for the agriculturalists. It is designed to solve the farmers' financial problems and to increase crop production of all kinds thereby. The State Bankers' Association is opposed, calling it socialistic and dangerous.

The Senate has passed a bill increasing the compensation for injured workmen to a maximum of \$6 and a maximum of \$12 a week.

The House has passed a bill providing State medals for all of New Jersey's soldiers.

New Jersey Falls Short on Armenian Relief.

New Jersey's quota in the National drive for \$300,000 for relief in the Near East was \$900,000, of which the State has raised but \$284,000, and strenuous efforts are being made to stimulate contributions in those communities that did not reach their quotas. A belated but very acceptable subscription of \$5 to this fund came in this week and the local treasurer has forwarded it to headquarters. While Riverton over-subscribed its quota to this fund by nearly forty per cent, it there are still interested persons who have not subscribed, or who desire to subscribe again and helping to advance Walter L. Bowen, will be glad to receive and forward their donations. Even the \$30,000,000 asked for will be entirely inadequate to meet the demands for relief and complete the work that has been undertaken by the American committee. Riverton responded so promptly and so generously to the first call for funds that we cannot urge further giving, but the call of starving women and children is insistent and will not be quieted nor denied.

Auxiliary No. 3, which was organized in November, 1917, has decided to disband. They have worked faithfully and well, and the Red Cross desires to express its appreciation of the great amount of work accomplished by them during this time.

Service Boys Banquet Next Week.

The Community Hut gave the most interesting entertainment of the entire series last Tuesday evening. Mrs. Wharton, with the violin, led the Ladies Jazz Orchestra in a series of musical bouquets that fairly carried the audience away. Miss Wilson recited in a most interesting manner and the Lu Lio did everything in the local music from grand opera to the latest jazz. It seemed as though the service boys and others would never let them go. Community singing under the leadership of Mr. White was also enjoyed.

The Lu Lio trio stayed to lunch and did some more musical stunts for the sailor guests. The "jacks" had a fine time and after lunch insisted that Mrs. Harvey Stewart and Mrs. Ogden Mattis let them wash up the dishes. They certainly enjoyed themselves and the Riverton and Palmyra boys who were absent missed a great time, as well as a fine lunch.

Next Tuesday evening is the night of the banquet to the service boys of Riverton and Palmyra. About sixty of the invitations have been accepted. There will be provision made for those boys who come back between now and the first, but the secretary must be notified at once. There is going to be a splendid entertainment in addition to a great dining and the ladies will be prepared and served by the ladies of the Hostess Committee. No one will be admitted that evening without a ticket, and these are only issued to the invited ones.

Pershing and the Y. M. C. A.

Those comrades "at the front" know best what went on there, and most Americans will agree that General Pershing is no minor authority. Hence, when the leader of the American Expeditionary Force in France, in relieving the Y. M. C. A. of its canteen and post-exchange work, expresses his thanks for what that organization did under untoward conditions, the praise and the approval mean something.

It is to be remembered, moreover, that it was because the Y. M. C. A. took over this canteen work so that the army would not have to divert officers and enlisted men from their paramount military duties, and that the relations to the men were both understood and grossly misrepresented. The Y. M. C. A. did a great deal of patriotic duty in accepting this burdensome and difficult assignment must be admitted by the candid investigator, but if there be any who still have any doubts they must meet away in the face of General Pershing's endorsement.

The final paragraph of this should be read and re-read by all who are trying to get at the facts concerning the Y. M. C. A., since it is more than a vote of thanks; it is an explanation and a vindication.

For, as General Pershing puts it: "In making this change, praise, honor and thanks to the Y. M. C. A. for the valuable services and assistance which the Y. M. C. A. has rendered to the American Expeditionary Force in handling these exchange work, and the Y. M. C. A. has, by extra exertion, saved the day by bettering over what would have been expected, and you may be assured that its aid has been a large factor in the final great accomplishment of the American Army."

One can easily read in between the lines here and see how the Y. M. C. A. patriotically taking over these responsibilities, was forced to bear the brunt of criticism for those things for which it was in no sense blamable.

Like the mail and package service and other much criticized substantial features of our rapid mobilization on the other side, the Y. M. C. A. suffered silently for conditions that were part of the army system in which it had no voice except the voice of obedience to orders.

General Pershing's words, therefore, ought to settle this phase of the Y. M. C. A. controversy beyond all possibility of dispute, since he knows what the tasks of the various army departments were and how the Y. M. C. A. actually saved the day by bettering over what would have been expected, and you may be assured that its aid has been a large factor in the final great accomplishment of the American Army."

Like the mail and package service and other much criticized substantial features of our rapid mobilization on the other side, the Y. M. C. A. suffered silently for conditions that were part of the army system in which it had no voice except the voice of obedience to orders.

General Pershing's words, therefore, ought to settle this phase of the Y. M. C. A. controversy beyond all possibility of dispute, since he knows what the tasks of the various army departments were and how the Y. M. C. A. actually saved the day by bettering over what would have been expected, and you may be assured that its aid has been a large factor in the final great accomplishment of the American Army."

One can easily read in between the lines here and see how the Y. M. C. A. patriotically taking over these responsibilities, was forced to bear the brunt of criticism for those things for which it was in no sense blamable.

A black and white photograph of the U.S. Capitol dome during its construction. The dome is the central focus, showing its tiered structure and the ornate top. The surrounding area includes other buildings and scaffolding, indicating an active construction site.

The dome of the United States Capitol at Washington is kept in excellent condition by painting it every few years. For this work forty painters are steadily employed for three months' time. Over five thousand gallons of paint are required for one coat. The reason for painting the Capitol dome at regular intervals is to prevent disintegration of metallic surface.

THREE generations of American gardeners have proved the high productive value of these seeds.

When you decide on Buist's you are making a definite step toward crop success. Every Buist seed is pedigreed—the result of long years of patient selection from hardy, virile parent stock.

Plant Buist's Seeds now and always. And send at once for "1919 Garden Guide." Whether your garden is a thousand acre farm or only a little plot in the back yard, this book will be helpful to you. It is free.
