## Ford THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3 1/2-inch tires front and rear, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability.

## SUNDAY SCHOOL

## LESSON

REV. F. J. STEWART, D. D.  
Teacher of English Bible in the Moody  
Bible Institute of Chicago.  
(Copyright, 1920, Western Newspaper Union)

## LESSON FOR AUGUST 8

## THE KINDLY KINDNESS OF DAVID.

LESSON TEXT—II Sam. 8:1-12.

GOLDEN TEXT—David executed judgment and justice unto all his people.

II Sam. 8:15.

ADDITIONAL MATERIAL—Deut. 16:19-20.

PRIMARY TOPIC—David's Kindness to Jonathan's Son.

JUNIOR TOPIC—David's Kindness to Jonathan's Son.

INTERMEDIATE AND SENIOR TOPIC—David Showing Himself Kindly.

YOUNG PEOPLE AND ADULT TOPIC—Elements of Strength in David's Character.

I. David's Righteous and Impartial Reign (8:1-5).

When he was established as king over all Israel, he executed judgment and justice unto all his people.

In this respect he stands as a type of the Lord Jesus Christ; for when David's greater son, the Lord Jesus, shall reign over all Israel, righteousness and justice will prevail in all the earth.

II. David's Inquiry for Some of Saul's House to Whom He Might Show Kindness (8:1-3).

This story of faithful love to a dead friend is quite refreshing. David experienced great grief when he received the news that Jonathan had fallen in battle. Now when he is made king and success has crowned his efforts in the subjugation of his enemies, he sets himself to make inquiry as to whether there is any one left of Saul's family to whom he might show kindness for Jonathan's sake. When Mephibosheth, Jonathan's son, was found, David ordered him to be brought to him and restored to him his grandfather's estate. Being unable to cultivate it on account of infirmity, he arranged that it be cultivated for him. Not content with this, he ordered that Mephibosheth should eat at his own table as one of his sons. This example of David's nobility teaches us that those who are blessed and prospered should stop to inquire as to whether there are not some deserving ones whom they can help. It may be that children of some old friends who rendered us help in former days need care and help. Then, too, some faithful servant of God could be cheered along life's way. This should not be simply done as an act of charity, but in recognition of some lasting obligation in view of help rendered by their fathers in bygone days. This was the case with Jonathan. He had sacrificed much and endangered his life for David's sake.

III. Mephibosheth is Found (8:4-5).

This lame man was found in the house of Machir in Lodebar. This strikingly illustrates the sinner's condition. The sinner is utterly unable to walk uprightly before the Lord. Mephibosheth was in the house of Machir, which means "sold." This is exactly the sinner's condition—sold unto sin and Satan. Lodebar means "no pasture." This, too, suggests the sinner's condition of soul which nothing can satisfy but God. The sinner maimed and enslaved by sin has an "aching void" which only God and his grace can satisfy.

IV. Mephibosheth's Sense of Unworthiness (8:6-8).

When he was brought into the presence of the king he reverently fell upon his face. Every sinner in the presence of God feels unworthy of his saving grace.

V. David Restores to Mephibosheth the Forfeited Estate of His Father (8:9-10).

He not only restored this estate, but provided a means of tillage. God not only restores us into his family as children and restores to us the estate forfeited by Adam, but provides for its culture and development.

VI. Mephibosheth at the King's Table (8:11-15).

This act of kindness on the part of David was done out of the sincerity of his heart. This illustrates God's kindness to us in Christ.

Find Good in Evil.

Train yourself to find the good in what seems evil, to make of disaster an opportunity for your courage, to master suffering by patience, to learn from sorrow sympathy.—G. S. Merriam.

Rooted in Christ.

As ye have therefore received Christ Jesus the Lord, so walk ye in him; rooted and built up in him, and established in the faith as ye have been taught, abounding therein with thanksgiving.—Colossians 2:6 and 7.

### Mary Emma S. Wood

Mary Emma S. Wood, widow of Alexander C. Wood, passed away at her home, Harmony Hall, near Cinnaminson, on the evening of the twenty-eighth of July, in the seventy-ninth year of her age, after an illness extending over eight months. Her death has removed a tenderly loved member of the older generation from our community in the life of which her family for two generations preceding her own had taken an active part. Her affectionate, kindly spirit and her unflinching interest in the interest of others, have through the years that she has been among us, endeared her to her wide circle of acquaintances in a manner not often seen today. The activities of this community claimed her unflinching interest. Chief among these was the Cinnaminson Home, of which she was one of the founders and the first president. To be enshrined in the heart's love of a host of friends, this, indeed, is a monument we may all desire. Such a memorial will be hers. Loving kindness, tenderness, sweetness and light—she had them all in full measure. We are the poorer for her going. We are the richer indeed in the heritage of high tradition she left us to maintain.

### Activities at the "School"

The work among the Italian children is still in progress at Cinnaminson.

The older girls (all are under nine years) have made themselves bloomers under the supervision of Miss Yates.

The babies and little tots are getting sweet and rosy under the mothering care of Miss Ward. Miss Dunfee has won the enthusiastic approval of both boys and girls by her unselfish interest in everything they enjoy.

The school room are made attractive and comfortable by cotton curtains, and well-screened windows and doors.

A trip to the school between 8.30 and 4 o'clock will well repay anyone who loves children, or who is interested in social work. The lunch hour is especially interesting, and visitors are very welcome.

**THE CINNAMINSON HOME AND SCHOOL ASSOCIATION**

**New Court Ruling on Unfinished Cases.**

Hon. Ralph W. E. Donges, Circuit Court Judge, has announced that the rule continuing unfinished cases from term to term is revoked and the practice of listing undisposed of cases without notice of trial will be discontinued. Notice of trial will be required by law, except in such cases as may be continued by special rule.

Under this ruling of Judge Donges all cases on the Burlington County April Term 1920 List of Causes must be retentive for the October term 1920.

This ruling will apply to original cases in the Common Pleas and on appeals.

**Electric Lights for Cinnaminson Township.**

Cinnaminson township is advertising for bids for electric lights to be placed on the Burlington Pike and on the river road. Sixty-two lamps are contemplated. This will make an improvement, the need of which has been long felt, and those who are responsible for bringing it about are to be congratulated on their initiative and success.

**"Booster Pump" to Increase Water Pressure.**

The water pressure in that part of Cinnaminson township known as Westfield, has never been great enough to afford adequate fire protection, and now the Water Company has decided to install a "booster pump" which can be used on the water mains leading to that section, which will make the pressure equal to that in Riverton and Palmyra. The pump has been ordered and will be put into operation as soon as it arrives. It will be located at the stand pipes.

### Miss Faunce Likes Her Ring.

American Red Cross.  
Letterman General Hospital  
San Francisco.  
July 31, 1920.

My dear Mr. Bowen:  
Would you kindly publish for me this note of appreciation in The New Era.

To the Citizens of Riverton:  
I sincerely wish to extend my greatest appreciation and thanks for my service ring, which I value most highly.

Sincerely,  
Amanda D. Faunce, A. N. C.

## WEEKLY NEWS BUDGET

for Riverton and Vicinity

### Buy It At Home.

J. C. DeLaCour and family are at Buck Hill Falls.  
Tomato pickers in South Jersey are making \$12 a day.

W. F. Bly and family are at Seaside Park for two weeks.

Charles Flynn and family are at Atlantic City for a month.

Mrs. C. A. Ferri and children went to Mount Carmel, Pa., Saturday.

Charles Seraff has returned home after spending several weeks at Wildwood.

Mr. and Mrs. J. D. Eisele left on Wednesday for a tour of the Western States.

Joseph Rech has returned home after spending several months at New Lisbon.

Fred P. Hemphill and family will go to Seaside City on Saturday for a month.

Ogden H. Mattis has bought a lot at Seventh and Elm Terrace and expects to build.

Mrs. Margaret Reese and daughter Peggy, went to Cape May on Monday for a week.

Misses Elizabeth and A. B. Campbell have gone to South Brookville, Me. for a month.

Mrs. John Denner and daughter, Miss Florence, are spending two weeks at Atlantic City.

Mrs. John Sloan and grand-children have gone to Wildwood where they will remain two weeks.

Charles McCordell has returned to work as manager at the American store, after a month's vacation.

At the Burlington County Hospital last month 48 patients were admitted, 50 discharged, 4 died and 16 remained.

The recorder of vital statistics reports three births, one death and no marriages in Riverton during the month of July.

Mrs. Harry Sim and family and Mrs. John Ogden and family have gone to Atlantic City for the balance of the summer.

Mr. and Mrs. N. Myers Fittler, who have been at Cape May, were in Riverton Wednesday. They are leaving today for Jefferson, N. H.

Mrs. Daniel Cavanaugh left on Sunday for Carlyle with her husband. Mr. Cavanaugh has been located there about two months.

Miss Helen Quigley, of Hopewell, daughter of Officer William Quigley, is spending two weeks with Mrs. Gnan, 610 Thomas avenue.

Mrs. J. A. Houghtaling and Dewitt Houghtaling have returned home after spending a week in Bridgeton with Mrs. Seward Tremaine.

Good cooking apples can be obtained at the Cold Storage plant at East Riverton at 10c a five-eighth bushel basket and up. Bring your own containers.

Adv. if A basket of trash fire in the backyard of W. H. Albertson, Linden avenue, brought the Riverton fire company out for a short quick run Thursday morning.

Mrs. William H. Bishop was tendered a birthday surprise party Monday evening. About fifty guests were present and spent a very enjoyable evening.

J. Vetter, the East Riverton florist, is cutting some very fine gladioli just now. Mr. Vetter furnishes all kinds of cut flowers for all occasions. See ad in this issue.

The Palmyra and Riverton Methodist colored churches and the St. Paul Baptist Church, of East Riverton, went on their annual picnic to Rancocas Park today.

Mrs. James Elliott was tendered a "surprise" luncheon on Wednesday by the sewing circle of which she is a member, in celebration of her birthday anniversary.

Mr. and Mrs. Dale B. Fittler, who have been at Cape May, left here Monday for a motor trip to Canada, accompanied by Miss Caroline Murdoch and R. Ralston Biddle.

Chief Gunner Mate R. V. Quintero was in Riverton Wednesday looking for recruits for the Navy. Those interested may communicate with him at Broadway and Kaighn avenue, Camden.

George S. Ireland, the aviator who exhibited the Curtiss hydroplane at Riverton last Saturday afternoon, took up eight passengers. The unfavorable weather prevented any flights on Sunday.

Mrs. George A. Stroblein gave a birthday party for Miss Mary McGivney Wednesday evening. About forty guests were present from Oak Lane, Moorestown, Merchantville, Palmyra and Riverton.

Hereafter only Yacht Club members will be allowed on the pier. An officer will be stationed at the gates Sundays and holidays, and all who desire to go on the pier will be requested to show their membership cards.

Mount Holly has a kick coming over the population assigned to it in the recent census. The figures there given are 5901, but the men who made the enumeration say the figures they turned in to Washington were slightly over 6300.

All classes will participate in the Riverton Yacht Club races this Saturday afternoon. The float that belongs on the upper side of the pier has been fixed up and placed in position by the volunteer service of a number of the members.

The city of Burlington has taken steps to buy the sewer system there from the company which operates it for \$85,000, payment to be made in 5 per cent city bonds. The running expenses of the plant last year were \$9,465 with an income of \$17,000.

Mr. and Mrs. Richard Boren, who spent the summer here last year aboard the Nedjah, the motor boat now owned by R. W. Knight, are here again, having arrived on Sunday in their new boat, which they purchased in the fall, and in which they spent the winter at the Farragut Yacht Club. In the spring they installed an engine and fitted the boat up in fine style.

The First Division of the army is to be transferred from Camp Zachary Taylor, at Louisville, Ky., to Camp Dix in the near future, the southern cantonment being marked for abandonment. The division is merely a skeleton organization, containing only about two regiments at this time, it is said. There are now about five thousand men at Camp Dix, not counting the national guard cavalry organizations and the West Point cadets in training there.

The first annual picnic of St. Joseph's Council, Knights of Columbus, was held at Rancocas Park Wednesday, about 200 members and their friends participating. Transportation was by automobiles and motor trucks. There were games of various kinds, for which sixteen prizes were awarded. In the baseball game between the married and single men, the married men won 10-2. In the tug of war the married men were also victorious—which prompted one of the bachelors to remark, "Well, no wonder, look at the training a married man has!"

## Firemen Again Get \$500 Tax Exemption

New Jersey assessors have been advised of a new law of the legislature that exempts from taxation to the amount of \$500 all persons who are enrolled as active members of a volunteer fire department of exempt firemen's association, who are honorably discharged soldiers and sailors who served during any war, and their widows, and all members of the national guard during their term of service. Each person affected is required to present his certificate or papers to the board of assessors. The law nullifies the payment of \$1 a month as had been practiced.

## A Bit Exaggerated, Probably

Daily newspaper readers were horrified last week by the details of how an aged man's clothing was set afire by a tramp whom he refused to feed in the middle of the night, etc., etc. The New Jersey Mirror gives this version of the affair:

Sensational reports gained circulation last week in connection with the death of Samuel Taylor, a farmer living on the William Lippincott farm near Colestown. Taylor was discovered lying on the floor of his home suffering from burns about the body and was taken to the Episcopal hospital for treatment, where he died on Friday without being able to give any coherent account of the cause of his plight. It was rumored that Taylor's clothing had been maliciously set on fire by a tramp to which he refused food and that the farmer, being an invalid, was not able to extinguish his burning clothing. The generally accepted version of the fatality is that Taylor accidentally ignited his clothing during the night when he was trying to light a lamp in his bedroom.

## Motorist Sued for Boy's Death

Suit to recover \$10,000 for the death of his son James has been instituted by Louis Bonatelli in the Burlington county supreme court against Nathan Aronis, of Trenton. Bonatelli alleges that his son was killed by an automobile driven by Aronis at a high rate of speed on the New Albany road, near New Albany, Burlington county, May 21, last.

## Mrs. Thomas Roberts Dies at Her Home Here

Mrs. Elizabeth Hill Bissell Roberts, widow of Thomas Roberts, died yesterday in her eighty-fifth year at her home on Bank avenue, after a long illness.

Four children, Mrs. Theodore W. Reath, George W. B. Roberts, the Rev. Dewees Roberts and Thomas Roberts, Jr., survive, as do six grandchildren and ten great-grandchildren. A grandson, Thomas Roberts Reath, was killed with the marines at Chateau Thierry.

Funeral services will be conducted tomorrow in Christ Church, Riverton, commencing at 1.30 p. m.

## R.Y.C. Plans Big Labor Day Program

The Riverton Yacht Club is completing details of a program for Labor Day very different from that of Fourth of July. There will be yacht races, canoe and swimming events, and probably a number of swimming and diving girls from Philadelphia.

It is expected that some of the Labor Day features will be Frank Mills and his hydroplane, which made such a hit here on the Fourth.

At the meeting of the Club Tuesday evening a proposition was submitted to offer a \$1000 cup for the ten-mile national championship swimming race, to be won three times to become the property of the winner. This would mean that this big national event would come to Riverton for several years in succession. St. Louis offered such a trophy and it was seven years before it was lifted. Then it offered another, which has never been won.

At this meeting it was also decided to issue an invitation to the Chesapeake Yacht Racing Association to send boats to compete in the races here on Labor Day.

Charles M. Biddle, Jr., one of the board of governors of the Club, is on a trip through the New England States. Before his return he expects to visit Canada to see if he can find an inexpensive type of sail boat adapted to conditions in Riverton, with a view to getting a dozen or more members of the Club buy them, in order to revive the interest in yacht racing here.

Mr. Durborow, chairman of the swimming committee, has received a challenge from the Central Swimming Club, of Brooklyn, for dual swimming meet between Riverton talent and members of the Brooklyn Club. This matter is being considered, but Mr. Durborow has decided to enter George Corner, Jack Showell, and Rex Bell in the five-mile marathon by the Philadelphia Swimming Club, to be run off in the Schuylkill river between Conshohocken and Fair Rock dam on August 28. These boys swam in the ten-mile race here on July 18th and acquitted themselves with credit.

Y.M.C.A. Ralston, of Meadowbrook, and McCurdy and Levand, of the Philadelphia Swimming Club will be the most formidable opponents. While all of these men finished ahead of our boys in the national championship race, Mr. Durborow believes that in the shorter distance they stand a good chance to win out.

Mrs. John Rigg has been visiting Mrs. John J. Reese at Wilcox, Pa.

The United States Civil Service Commission has announced an examination for the County of Burlington, N. J., to be held at Moorestown, Mr. Holly, Burlington and Riverton, on September 11, 1920, to fill the position of rural carrier at Moorestown.

If you want to drive your car, keep sober. Such in effect, is the edict of William L. Dill, commissioner of motor vehicles. In a statement issued on Wednesday, Mr. Dill declared that he knew of no greater menace to the public than an automobile driver under the influence of liquor and said, "The New Jersey Motor Vehicle Department will not stand for intoxicated drivers, and I mean to do all in my power to bring about the arrest, conviction and punishment by jail sentences of all offenders. So far this year 125 licenses to drive have been revoked, more than double the number for the entire year of 1919. In one week Mr. Dill revoked driving permits of sixteen drivers for intoxication.

For sale cheap. 1900 Washer with wringer and water motor. Reason for selling have installed electric machine. Very low price for quick sale. Address "New Era Office."—Adv.

## QUALITY FIRST

Is Our Motto

There is quality in banking service just as there is in the trades and professions. It may be good, poor or indifferent. But for our customers the best is none too good.

**THE BEST—**

In MECHANICAL PROTECTION—as seen in our equipment, and our strong, modern vault.

In THOUGHT AND EXPERIENCED DIRECTION—as exemplified in our officers and board of directors

In WINDOW SERVICE—where promptness and courtesy are a guiding law

## FIVE POINTS.

The Moravian Sunday School held its annual picnic at Burlington Island Park last Saturday. The trip was made as far as Burlington in auto trucks.

Wednesday evening the Willing Workers, Kings' Daughters, and Ushers' Association tendered a farewell party to Mr. and Mrs. H. W. Baker and family, who expect to leave for California this month. After refreshments were served, Mrs. R. Reimer, president of the Willing Workers, presented a cameo pin to Mrs. Baker, on behalf of the Society. Mr. John M. Burgmann, president of the Ushers' Association, presented a gift to Mr. Baker.

Sometime on Wednesday, between 8 o'clock in the morning, and 6 at night, the home of Mr. and Mrs. William Schmieder was broken into and robbed of a number of pieces of jewelry and a small amount of cash, and the whole house ransacked. No trace of the burglars has been found.

Little Nellie Wallace was tendered a birthday party on Sunday in honor of her seventh year. She had little friends from Philadelphia, Camden, Riverton and East Riverton, who presented her with many nice gifts.

**How Eagles Secure Prey.**  
Eagles usually hunt in pairs, one bird frightening the prey from its hiding place and the other pouncing on it as it tries to escape.

**Stepladders.**  
To keep the stepladder from slipping on either a polished floor or on sidewalk, put pieces of adhesive plaster on the feet of the ladder. This holds it steady and protects the floor from scratches.

**What Birthmarks Indicate.**  
According to a French scientist, birthmarks to families not now of good social position indicate that they are of knightly descent, the marks being due to the fact that their possessors' ancestors wore armor.

## INTERESTING NEWS BITS

in and around Palmyra

Friday, August 6, 1920

Buy It At Home.

Frank Godley spent several days this week at Wilkesbarre, Pa. Mrs. Blair Klepper and Mrs. W. M. Harman, Jr., are at Cape May. Mrs. Irwin, of Fifth and Garfield, has gone to Trenton for a month. Mrs. A. G. Barrie and daughter, Mrs. Simons, spent last week in New York.

Mr. and Mrs. S. G. Snelson and children have gone to Seaside Park for a month. Mrs. Arthur Bowker is entertaining Miss Gertrude Beck, of Philadelphia, for a week.

Mrs. John T. Larkin has returned from a week's visit at Rockaway Park, Long Island. Little Marjorie Powell has returned from Wildwood where she has been spending two weeks.

Master Thomas Griffenberg is spending a week in Canada and Northern New York.

Mr. and Mrs. F. N. Johnson and family have gone to Gettysburg, Pa., for a two weeks' vacation. Mrs. Melvin, of Philadelphia, formerly one of Palmyra's old residents, is visiting in town this week.

Mr. and Mrs. Robert Barr and son, Robert, have returned after spending a month at Ocean City. Mr. and Mrs. Harry Holt, of Elm Terrace, were guests at the Jackson House, Ocean Grove on Thursday.

Mrs. Laura L. Beck, National president P. O. of A., spent Monday as the guest of Mrs. Arthur Bowker. Mr. and Mrs. Alonzo Bonsal and son, Richard, have returned home after spending two weeks at Cape May.

Mrs. A. S. Griffith was called to Camden, Del., Wednesday by the death of her aunt, Mrs. Lockwood. Charles Durgin is home from North Carolina for his vacation. He will go to Wildwood next week for several days.

Mr. and Mrs. Cordie Stokley, of Garfield avenue, attended the funeral of their niece in West Conshohocken on Tuesday.

Mrs. E. Meginney and daughter will spend the next two months in Buffalo as guests of Mr. and Mrs. John Hermann.

The regular August meeting of the Palmyra Business Men's Association will be held in Society Hall next Tuesday evening.

Mr. and Mrs. A. J. Wilkinson, Jr., of Audubon, spent Wednesday and Thursday with their parents, Mr. and Mrs. James T. Weart.

Mr. and Mrs. E. A. King are spending a two weeks' vacation at Lavelle. Harry Williams was their guest the first part of the week.

Mr. and Mrs. B. S. Forbess and son have returned home after spending two weeks with Mrs. Forbess's sister, Mrs. James Lowry, 632 Garfield avenue.

Camp J. P. O. of A., of Palmyra, and Camp 14, of Delanco, took an auto party to Mount Holly Wednesday evening to visit Camp 59, P. O. of A.

The Township Committee will hold a special meeting Tuesday evening to hear objections, if any, to the building of sidewalks on New Jersey avenue.

Mrs. George A. Murray is reported improved following a relapse after the week at the Trenton hospital where she is convalescing from an operation.

Mrs. O. F. Rutchman and family are spending two weeks at Wildwood. Mr. Rutchman took the folks down by boat and remained over Monday and Tuesday.

Mr. and Mrs. C. H. Crowell are home after an absence of several months in the middle west, accompanied by Mr. and Mrs. C. T. Lewis, of Flint, Mich.

Paul H. Powers, cashier of the Palmyra bank, has purchased the former Harder property on Morgan avenue, Morgan Heights, and expects to move in next Thursday.

Lieut. Calvin Durgin, Mrs. Durgin and their two children arrived Monday from Pensacola, Fla., to spend several days with Mr. Durgin's parents, Mr. and Mrs. F. L. Durgin.

Rev. and Mrs. E. A. Robinson left on Wednesday for a three weeks' vacation in the Catskill mountains. The Rev. Eugene M. Coffey, of Collinswood, will have charge of the services this Sunday.

Mrs. George Wendt and Mrs. Jacob Krause and daughter, Georgianna, formerly of Panama, have returned to their home in Washington after spending a week as guests of Mr. and Mrs. James Lowry.

John H. Etris is home after spending several days at Wildwood. Mrs. Etris will leave on Monday for Providence, R. I., a day will visit Mr. and Mrs. John Polio who recently moved there from Palmyra.

The Griffenberg and the Baldwin Locomotive Works bands will give an open air concert in the grove at Society Hall on Saturday evening, August 14th, beginning at 7:30 p.m. Refreshments will be on sale. -Adv.

Saturday, August 14, from 2 to 9 P.M., will be open house at the Palmyra National Bank, at which time the public is invited to inspect the furnishings and equipment of the new bank. The institution will be open for business on Monday, the 16th.

Freelander Rogers, Ogden Mattie, E. C. Stoughton, George N. Wimer and William H. Ottiger were guests of Governor Edwards, at Sea Girt today, this being a "South Jersey Day" at the summer capital. The party made the trip in the Freelander's auto.

The Rev. C. W. Williams and Mrs. Williams will leave Monday for Palmer, Mass., for a two weeks' vacation. The Rev. Melvin B. Wright, of Wilmington, will substitute on August 15; the Rev. T. A. Lloyd, of Philadelphia, on August 22, and the Rev. Joseph Bennett, on August 29.

Overseer of Roads and Streets Winfield Land is loud in his praises of Len Baker for the way in which he cleaned up and repaired the street in front of his property. Mr. Land suggests that it would be of great benefit to the town if other property holders would follow the example.

Drop around to the Field Club lawn etc in Society Hall grove this Saturday evening. The club is maintained for the purpose of fostering healthful athletic and social activity among the young men of the town and merits the support of all who have chosen Palmyra as their home.

## P.H.S. Needs More Room.

The Palmyra School Board is still confronted with the problem of finding sufficient space to accommodate the growing enrollment of students at the High School.

Three hundred students are expected for next year, against 256 last year, and an effort is being made to find an extra room for a kindergarten class, so that another room in the Delaware avenue building will be available for High School purposes.

Among other plans, the purchase of a portable school room for the kindergarten is being discussed. Owing to the increased number of students and additional State requirements, another teacher must be added to the faculty next term.

The heating plant at the High School building also furnishes a problem. Last winter considerable difficulty was experienced in heating the rooms. At an adjourned meeting of the board Thursday night the property committee reported that a practical heating engineer had convinced the members that it would be possible to repair the present system and make it efficient, and it is planned to have this done rather than to consider installing a new system.

F. C. Will Play Delanco Saturday. The strong Delanco baseball team, which has a good record this season, will cross bats with The Field Club players at the local grounds this Saturday afternoon.

Last Saturday the Orston Club, of Audubon, was in a crippled condition, but decided to play rather than to disappoint the fans altogether. The score was one-sided, 14-0 in favor of the locals.

On the 14th, Field Club will play North Camden again. The first game was won by Palmyra, 4 to 3, after a hard struggle, and the North Camdens are coming up this time with a determination to win.

Miss Mildred Dorothea Wishart, of Camden, and Mr. Raymond Bergey, of Palmyra, were quietly married at the home of the bride on Wednesday evening at 8 o'clock.

Bingham-Bard. Miss Hilda E. Bard, daughter of Mrs. Ada Bard, 727 Morgan avenue, and Sanford M. Bingham, were married in Greenville, South Carolina, on July 24.

The wedding of Miss Bard was somewhat of a surprise to her many friends here. She had gone to Washington on a business trip, but met her fiancé there and continued on to Greenville where the ceremony was performed.

The marriage was the culmination of a war-time romance. Mr. Bingham, who came from the middle west, was in the naval service, and met his future bride while stationed in Philadelphia. He is now an automobile salesman. The young couple will reside in Greenville.

Lippincott-Tillinghast. Miss Elizabeth Tillinghast, daughter of Mr. and Mrs. George Tillinghast, of Burlington, and Stanley S. Lippincott, son of Mr. and Mrs. Edw. W. Lippincott, of Broad and Washington avenues, Palmyra, were quietly married in St. Mary's Church, Burlington, last Friday afternoon.

The wedding was given in marriage by her father, Miss Ellen Elson of Brooklyn, was bridesmaid, and Wilfred Lippincott, brother of the bridegroom, was best man.

The bride is a teacher in the Burlington schools. The young couple will reside at 802 Columbia avenue, Palmyra.

Community League Plans Town Betterment. An extensive membership drive is being conducted by the Palmyra Community League. The town has been divided into sections, and workers have been assigned to each part for the purpose of canvassing every citizen.

The purpose is to interest every citizen possible in the aims of the League, so that there may be created in Palmyra a real spirit of citizenship, with nearly every property holder taking part in the many plans for the betterment of the town that are now taking form.

Meetings are held monthly in the High School building. Prominent speakers on municipal problems are to be obtained and all the progressive ideas on modern town improvement are to be discussed and an effort will be made to apply them to Palmyra whenever they are deemed applicable and desirable.

An especially important meeting is scheduled for August 26th. Committees will make reports concerning their investigation of the sewer proposition, and the commission government plan and a course of action for the fall elections will be mapped out.

Caterpillars Strip Walnut Tree. About a billion caterpillars, more or less, early in the week descended on a large walnut tree in the rear of Aronson's store.

They devoured all the foliage of the tree in a day and then started to web themselves in all over the bare branches. They covered the trunk and branches of the tree from top to bottom and hung all at various points in big bunches, like small swarms of bees.

The caterpillars did not confine their attention entirely to the tree. There was a room for all of them. They could be observed wriggling about all over the ground and virtually covered several small buildings in the vicinity.

Many people visited the scene of the caterpillar invasion and there were fears expressed that the pests might continue multiplying and perhaps devastate all the vegetation in this region.

The effective time to deal with this pest would have been while they were feeding, when a light spraying with a solution of Paris green would have accomplished their destruction, according to Winfield Land.

As it is, the critters have spread all over the neighborhood, creeping into cracks in porch floors, through cellar windows, and invading every harbor for their cocoons which will contain about 300 eggs each—the outlook is not pleasant for residents of the neighborhood when the hatching begins next year.

Joseph Shaffer has a walnut tree in his yard which is attacked in a similar manner each year. The annual visitation was due this week, but Joe was on the lookout and scooped the worms off in a bucket and destroyed them before they broke out of their silken webs and spread over the tree.

The In-Between Age. Our observation is that the closest faces in the world belong to girls about eleven years old.—Dallas News.

Little Bobby Bates was taken to the Cooper hospital in Camden on Tuesday evening and it is feared that he has spinal meningitis. The lad developed strange pains in the head and his eyesight began to be affected early in the week and the ailment could not be diagnosed, so he was rushed to the hospital. He is 7 years old and is the son of Mr. and Mrs. Walter Bates, of Horace avenue.

Russell Evans and Miss Emily Ward, who motored to Reading to visit his sister, have returned.

The Officers and Directors of the PALMYRA NATIONAL BANK

Palmyra, New Jersey

cordially invite the public to inspect their quarters

Saturday, August 14, 1920 from 2 to 9 P. M.

Open for business Monday, August 16, 1920 8 a. m. to 3 p. m.

WM. T. J. PURNELL President. THOMAS E. STEELE Vice President. PAUL H. POWERS, Cashier. DIRECTORS: JOHN ARMITAGE, THOMAS BRIDEMAN, GEORGE M. BECKER, WILLIAM H. COOK, JOHN C. HOEFFNER, A. HARRY RUDDUCK, ALBERT N. STEWART, FRED A. TRUCESSER, HERBERT B. TROUT, GEORGE N. WIMER.

Housecleaning Backaches. Former generations of women suffered like this. Modern women realize it is wrong to risk health by such exertion. A motor-driven Hoover does the work easily and quickly. NO FURNITURE MOVING—The Hoover cleans rugs as they lie on the floor. The house is never upset for cleaning. THE HOOVER DOES THE SHAKING—Its suction lifts a small section of rug at a time; the revolving brush sweeps over the lifted portion, vibrating it rapidly against a protecting cushion of air. The deep-seated dirt which suction alone does not reach loosens and is drawn into the bag. ONLY THE HOOVER shakes and beats as it sweeps, removing embedded dirt and leaving the rug perfectly clean and unharmed. THE HOOVER PREVENTS INJURIOUS REACHING AND STOOPING—The attachments reach mouldings, ceilings and other difficult spots. A special catch holds the handle up to the hand. The foot turns on the safety switch. Women live longer and look fresher when spared exhausting toil. The Hoover saves strength, youth and attractiveness. How do you want to look?

PRESERVE YOUR CHARM—The "Hoover Special" for the average home, \$65, attachments \$15 extra. For tiny homes, the "Baby Hoover." Larger Hoovers if desired. On easy terms.

Easier washings—easier on the clothes and on the woman—with the Thor Washer.

During This 10 Per Cent. Reduction Sale Gas Ranges Installed, as usual Without Charge.

When you buy a gas range from us it is installed by expert fitters. This means that connections are properly made and that it will cook with greatest efficiency. This service is included in the price of the range, and it means much to you.

All gas ranges from our well-chosen stock will be offered at a 10 Per Cent Reduction During August.

This reduction is made in order to keep our forces busy during this month and to get as much work of this kind as possible done before the fall moving rush sets in.

We do not expect prices of gas ranges to go as low as this again for some time, if ever, so would advise you to select a range now and save money, as manufacturers tell us ranges probably will cost more this fall.

The No. 1897-16 New Process is designed to economically cook meals of a large family. Occupies 47½ inches floor space, less end shelf. The cooking top is very roomy and has five economical, whirling flame burners—also lighter.

Another burner in the broiling oven permits cooking vegetables under cover, so that the odor passes out the flue, not into the house. This range offers the maximum of cooking facilities, with an extra large broiling oven, a large oven for bakings; a small one to save gas when bakings are small, and a special warming oven and warming shelf with canopy top to keep foods hot.

Finished in baked black Japan, nickel trimmed, with splashers, pans and door panels of white enamel. Regular price, \$171.85. August monthly payment price, \$154.67. August cash price \$146.93.

GENTLEMAN would like apartment in private Protestant family. Apply S. Sheppard Davis, Lock Box 392. 7-16-41.

## SENATE APPROVES HIGHWAY BOARD

Confirms All the Governor's Appointees But One, the New Head of the Commission.

### FOUR SENATORS OPPOSED.

Members From South Jersey Refuse to Vote for Any of the Eight Men. Governor Must Name Another Man on Board.

Trenton.—With a single exception the appointments made by Governor Edwards to the new Highway Commission to succeed the commission of whom he summarily ousted from office were confirmed by the Jersey senate in executive session. On the ground that George L. Burton of South Jersey, who was elected president of the commission at its organization meeting two weeks ago, at one time served as counsel for a company engaged in the production of patented pavements, the senate refused to confirm him. Burton's alleged connection with this company was brought to the attention of the senate by Senator Brown of Middlesex, Burton's county, with the result that when his nomination came up eight senators opposed it and seven voted in favor of it.

Every one of the eight men met with some opposition, which was led principally by Senator Allen of Salem county, Senator Sturgis of Gloucester, Senator White of Atlantic and Senator Haines of Camden, who refused to vote for the confirmation of any of the nominees. They had varied reasons for taking this attitude, but their objections, for the most part, were based upon the belief that South Jersey had been slighted by Governor Edwards in his selection of commissioners. They also were inspired largely by the opinion that the removal of the old board was without justification.

John Ferris of Jersey City was confirmed by a vote of 11 to 5, George Padock of Newark by 14 to 3, Thomas E. Collins of Elizabeth by 15 to 3, Walter F. Whittemore of Newton by 15 to 4, William J. Kirby of Somerville by 15 to 4 and Albert E. Doughty of Mount Holly by 15 to 3.

### Must Name Another Man.

As originally announced by Governor Edwards, the list of appointees to the new commission included only seven names. Doughty was nominated, however, when the senate met to act upon the appointments. Four Democrats and three Republicans now constitute the commission. Burton, the rejected nominee, was named as a Democrat.

More than four hours were spent by the senate in executive session, and the greater part of this time was devoted to an investigation of the business and professional lives of the appointees with a view toward determining whether or not they had affiliations with companies interested in the manufacture of patented pavements. With the exception of Burton, all were given a clean bill of health on this score.

The session of the senate developed that there is considerable feeling among members against the action of Governor Edwards in dismissing the old Highway Commission, and some of this opposition comes from within the governor's party and is expressed by his close friends and supporters. Senator Brown of Middlesex said that he considered the governor's action as one of the serious mistakes of the present administration, and Senators Simpson of Hudson and Heath of Mercer declared that, while they did not consider his dismissal of the old board as a wise move, they were willing to support the governor in his policy.

### Thinks Commission Needed.

President Case, speaking for himself, said he voted for confirmation because he believed the state should be without a highway commission. He added that he believed Governor Edwards was wrong when he named the de facto board and that the only thing to do to remedy the situation was to confirm a commission which is made up of men who evidently were capable and worthy of confidence.

As members of a de facto board, the commissioners were without legal warrant and were personally responsible for any action of the commission. Their confirmation by the senate gives to them the authority of a de jure board, which has every legal right to proceed with the execution of the state highway plan.

Governor Edwards also sent to the senate for confirmation the name of J. Russell Carrow, of Camden, a Democrat, to succeed the late John R. Wright as a member of the Camden County Tax Board. The appointment was confirmed. The governor also announced the appointment of Dr. William H. Martin, of Newark, as the fifth member of the State Board of Chiropractic Examiners for the one-year term.

### Efforts to bring up for action the five bills designed to bring about the relief of the acute housing situation in the state met with complete failure and in consequence these measures, which were passed by the House several weeks ago, will have to go over until the expiration of the present recess, September 8.

### Mayors' Appeal in Vain.

The mayors of a number of North Jersey municipalities, including Jersey City, appeared and urged that the measures be taken up for passage and their cause was vigorously supported by Senator Simpson, of Hudson, who moved for the passage of the bills. Speaker Case, however, declared Senator Simpson out of order, ruling that the senate had been called in special session for the express purpose of confirming nominations by the governor and that its activities, under the Constitution, must be confined exclusively to that purpose.

Friends of the housing measures sent a large representation to Trenton early in the day to work up the cause of the bills and succeeded in arranging for a meeting of the special house-

### ONE SUMMER NIGHT

I DO not think it is fair," said the Maple. "We wear green all summer, and look at the gay clothes our cousins, the flowers, wear!" "I have looked at them often and often," said the Chestnut tree, spreading out her branches to better see into the garden below.

The Oak tree said she, too, had often longed for a change of dress—"something dark and rich," she said. "I would choose if I could have a new one."

"And why should we not have new ones?" asked a pretty Beech tree. "I feel sure that some one could help us to get them if we only asked."

"But of whom could we ask such a

favor?" said the Maple. "No one but the fairies could bring about such a change, but if I could change my dress I would not care for a plain color. I should choose gold and red."

The Maple rustled as she spoke, as if she were already dressed in her fine new clothes.

"Oh, I would choose to be dressed like my cousin Marigold in the garden," said the Chestnut tree. "I have always admired her color."

"I quite agree with your choice, my dear," said the Beech tree, "only I

would choose the shade like the tall Sunflower which looks over the garden wall."

"All this choosing of colors for our gowns does not get them," said the Maple, "and it seems to me that our sister Oak can help us, for does she not furnish for the fairies and the goblins their cups? Everyone knows that acorns are fairy and goblin dishes."

The sturdy Oak began to move. "I never thought of that," she said. "I'll ask this very night."

And she did, but the fairies told her they could do very little besides getting the goblins to listen to their request for Jack Frost kept all the fall shades up in his house in the North.

"You see," said the fairies, "you could not put on those gay colors when the flowers are in bloom because the green is needed to make the world beautiful, but we are sure that later in the season you could have your wish."

The goblins listened to the trees and promised to see Jack Frost as soon as he was awake, and when the flowers went to sleep that season the trees were given their new clothes and there they stood all gay and beautiful like a huge bouquet, and every year since that time they have changed their dresses as soon as the flowers went to sleep.

"And to think that we wore those green clothes all that time," said the Maple, "when for the asking we were given these beautiful clothes—the very latest autumn colors!"

But so proud were these trees in their new gowns that they rustled and shook themselves until all their gay leaves fell off, and though every year they think they will be more careful, their pride is so great they cannot stand still and when winter days come they are without a leaf to cover them.

(Copyright.)

The commission's decision to again employ patented materials was reached following a recommendation by State Highway Engineer Thomas Wanser that four and one-half miles of road between Elizabeth and Rahway be built upon a concrete base nine inches deep and with a top surface of two inches of bituminous concrete. It was indicated that the advertisements for bids will specify that warrentite is to be used for this particular road.

In answer to a question by Commissioner Young of Morris county why concrete was not to be used for the entire length of the road involved, Engineer Wanser said that there was a strong demand in the Elizabeth and Rahway localities that this road be completed this year. Bituminous concrete, he said, can be laid with the temperature as low as 28 degrees, whereas it is necessary to abandon concrete work with the advent of cold weather. Commissioner Young accepted this explanation as satisfactory.

### Election Laws Indexed.

A chronological index of the new election laws has been prepared under the direction of Secretary of State Martin for the benefit of the election officers of the state and will be ready for general distribution on or before August 15. The index gives complete details concerning registration, primary and general election days.

September 14 will be the first registry day for the general election and the polls will be open from 1 to 9 p. m. In municipalities of 15,000 or less population the house-to-house canvass will be made the same day. The second registry day will be September 23, which also will be the day for holding the primary election, and the polls will be open from 7 a. m. to 9 p. m. The third registry day will be October 12, with the polls open from 1 to 9 p. m. The general election will be held November 2, with the polls open from 6 a. m. to 7 p. m.

The election law requires that petition nominating candidates to be voted upon throughout the state or in subdivision of more than a single county or any congressional district shall be filed with the secretary of state on or before August 30. Petitions nominating candidates to be voted for in a single county or in a subdivision of more than a single municipality shall be filed with the county clerk on or before September 8. Petitions nominating candidates to be voted for in a single municipality shall be filed with the municipal clerk on or before September 8.

Declarations of nominations must be filed on or before September 18. The house-to-house canvass in municipalities of 15,000 or less population must be completed on or before September 17. Sample ballots for the primary election are to be mailed before noon on September 23 and 24. The state conventions will be held October 5 to nominate electors for President and Vice President. The usual state convention of each party is to be held October 7. Sample ballots for the general election must be mailed to the voters by noon on October 27. Campaign managers must file general election expense statements on October 29 or 30. The State Board of Canvassers will meet at the State House to canvass the state returns on November 30.

### Patented Paving Again.

Patented paving materials again have found their way into favor with the State Highway Commission after having been consistently barred from use for several years. The new commission, appointed by Governor Edwards and confirmed by the senate, authorized the substitution of a patented material for straight concrete construction, which had been the inviolable policy of the original commission. In view of the widespread opposition that has prevailed in New Jersey against the use of patented materials, the decision of the commission came as somewhat of a surprise.

This question was given particular consideration at the executive session of the senate to confirm the nominations to the new commission made by Governor Edwards. Because of the fact that George L. Burton of South Jersey at one time had been counsel for a patented paving material company, the belief of the senators that they voted for confirmation of the remaining members of the commission that the old policy of concrete construction would be continued. President Case expressed the hope that the commission would not depart from this policy.

Sucker!

Teacher of English Bible in the Moody  
Bible Institute of Chicago.)  
(Copyright, 1915, Western Newspaper Union.)

## LESSON FOR AUGUST 15

THE SINS AND SORROWS OF  
DAVID.

**LESSON TEXT**—II Sam. 12:9-30; 18:32.  
**GOLDEN TEXT**—Whatever is man's sin, that shall he also reap.—Gal. 6:7.  
**ADDITIONAL MATERIAL**—II Sam. 12:30.  
**PRIMARY TOPIC**—David's Grief Over Absalom.  
**JUNIOR TOPIC**—David and Absalom.  
**INTERMEDIATE AND SENIOR TOPIC**—Absalom's Selfish Life and How It Ended.  
**YOUNG PEOPLE AND ADULT TOPIC**—Elements of Weakness in David's Character.

1. David's Sins (12:9, 10).

1. Adultery (v. 9; cf. 11:1-4). David instead of going forth at the head of the army as was his duty of the king (11:1), sent Joab and his servants, and he himself lounged around at home in idleness. It was while in idleness that he fell a victim to his lust and committed adultery with Bathsheba. "An idle brain is the Devil's workshop." The crimes of the world are committed for the most part by idle men and women.

2. Murder (12:9; cf. 11:15-21).

Having committed adultery with Uriah's wife, David tried to cover up his sin by killing Uriah. He ordered Joab to place Uriah at the forefront of the battle where he would surely be killed. When men sin they endeavor to cover up their sin by committing other sins, and usually it requires the doing of greater wickedness to cover up wrong that has been done.

II. David's Sorrows (18:1-33).

1. The battle between Absalom and David (vv. 1-18). Following Absalom's revolt, David fled from Jerusalem. After counsel with Abithophel and Hushai, Absalom with his men went in pursuit. Absalom planned well, but made one great mistake—he left God out of the question.

Being dissuaded by the people, David foregoes his purpose of going forth with the army. He sent the army forth under three commanders. His one special request as they went to battle was that they deal gently with Absalom. The victory of David's army was overwhelming. The interference of Providence is marked in that more died in the entanglement of the woods than by the sword. In the fight, Absalom was caught in the bough of a tree by the head, and was left hanging as the mule went forth from under him. Perhaps his long hair which had been his pride was the instrument of his destruction. While thus hanging, Joab thrust him through the heart with three darts. This awful end was deservedly met (Deut. 27:16, 29; 21:23). They dispassionately disposed of his body (v. 17, 18). They cast it into a pit and piled stones upon it as a fitting monument of his villainy. How different from what he planned (v. 18). His one ambition was to be remembered. A heap of stones piled upon him in contempt is quite different from a tomb in the king's vale.

2. The victorious tidings announced to David (vv. 19-32). He was anxiously waiting for news from the battlefield. So anxious was he that he stationed a watchman upon the walls to look for some messenger to appear. His first question to the messenger shows what was uppermost in his heart. It was the welfare of his boy.

3. David mourns for Absalom (v. 33). He received the news of his rebellious son's death with much regret. The good news of the victory was entirely lost sight of through excessive grief. The news of his poor heart must have been awful. Perhaps it is impossible to analyze his sorrow, but most likely the following elements were present:

(1) The loss of a son. The ties of nature bind together the hearts of parents and children in such a way that separation by death is very trying; (2) the death of a son in rebellion against his father and God. Could he but have had the assurance that this course was regretted, or could he have heard a cry of forgiveness, his grief, no doubt, would have been greatly lessened; (3) he knew that his rebellious son had now gone to answer to God for his crimes—he knew their parting was forever; (4) he knew that this was but the bitter fruit of his own sin. In a sense he was the destroyer of his own child. May this example deeply impress all parents as to their responsibility! Away from this dark picture we turn to contemplate the depths of a father's love. Death effaces all faults; all wrongs are forgotten and only the memory of happy days is kept. The father is willing to die, even for a rebellious son. This illustrates God's love to us in Christ which made him willing to die for his children.

**The Greatest.**  
The greatest man is he who chooses the right with invincible resolution; who resists the sorest temptations from within and without; who bears the heaviest burdens cheerfully; who is the calmest in storms, and whose reliance on truth, on virtue, on God, is the most unflinching.—Channing.

**Profit by Mistakes.**  
To make no mistake is not in the power of man; but from their errors and mistakes the wise and good learn wisdom for the future.—Plutarch.

## THE NEW ERA

### Mrs. Roberts' Active Life.

The death of Mrs. Elizabeth H. B. Roberts at her home, 205 Bank avenue, Thursday, August 5th, is the loss of one who, for sixty years, had taken a leading part in the events which have changed Riverton from a village of farms to a town of suburban homes. As a school girl she visited the village, as a young married woman she became a householder and a resident, first in the brick house at the corner of Second and Main streets, since 1869 on Bank avenue. Her memory went back to the years when the wharf was the center of community interest, when the John A. Warner carried people forward and back between Riverton and Philadelphia, when sailing and sailing fishing under Captain Wm. Fancey, Fourth of July celebration, racing, the Yacht Club picnic, getting out ready for the winter, the interest of the village during the year, as though it were a big family settlement. The August picnic then divided honors with the Fourth of July celebration. The Flanagan Company seemed to own all the towboats on the river. Their tugs carried the village and pulled the long string of yachts to whatever place was chosen for the picnic. Mrs. Roberts was interested and active in helping whenever it was within her power.

In those days there was no church life in Riverton. The older families went to the Westfield Meeting. Mrs. Roberts was a power in standing behind Mr. William P. Ellison, and her husband, Mr. Thomas Roberts, in their early days. During the long and strong leadership of the Rev. H. H. Welch, D.D., in the first church opposite the railroad station, in the church on Howard street, she was always a leader. Were an entertainment demanded, Mrs. Roberts would bring Simon Bliz to her home in Riverton, and the village would have an evening of delight in his ventriloquism and sleight of hand. Were a society needed for temporary or permanent work in church or village, Mrs. Roberts was its almost inevitable president. Her skill as presiding officer was unusual. Without the appearance of undue pressure she kept a meeting alert and at its task. She got work out of all committees appointed. She welcomed new plans, differences of opinion. A younger friend, a person of exceptional ability, says of Mrs. Roberts: "She never quailed the smoking flax. A plan suggested modestly and half-heartedly by a friend would be caught up by Mrs. Roberts, discussed, illumined by her hopefulness, and pushed for all the good that there might be in it. She never came back to Riverton from the outside world without a word of home encouragement drawn from what she had seen or what she had heard. She was an inspiration to all of us."

Identified for three score years with Riverton, loyal to her home, generous and alive, the life of Mrs. Roberts is the history of the growth of a big village into becoming a small suburban town. Philadelphia gave her to Riverton, but too soon Philadelphia and the big outside world began to take back its gift. The Porch Club, with admirable influence in moulding the new-born community spirit, was very dear to her. The Club owes its birth and much of its vigor to her enthusiasm. On the other hand Philadelphia claimed her as a charter member of the Century Club. She was earnest in trying by Bible classes, by Guild work, by missionary activity, to help her neighbors and to give Riverton to church life. The big world claimed her for Woman's Auxiliary administration, and made her nation-wide president of Girls' Friendly Societies. Trips abroad and journeys from end to end of America brought her back to Riverton, happy to be at home again, full of memories which must be given to the home friends. The strong and beneficent Philadelphia Home for Incapables was among the first of the Philadelphia institutions which turned to Riverton for help. Three Rivertonians, Mrs. Roberts, Mrs. E. H. Ogden, and Miss Helen Wright, were its leaders during the early years of its best growth. Philadelphia asked her help as director of the Pennsylvania School of Industrial Art, in patriotic societies, in many other ways as official or unofficial worker in organizations for public welfare. The wonder of it was that one person of limited strength could do so much and do it so well. With a quick mind and open-hearted sympathies, she kept herself alive to the needs around her and grew in helpfulness year by year during the whole of a long life.

### Ocean Is Norway's Highway

Norway's small number of automobiles would be larger if its 2,500,000 people were not stretched out along some 2,000 miles of seacoast. The ocean is the ordinary highway between different parts of the country.

## WEEKLY NEWS BUDGET for Riverton and Vicinity

### Buy It At Home.

Miss Emma Rudderow is at Ocean Grove.

Mr. and Mrs. Ralph Flower are at Seaside Park.

Mr. and Mrs. H. L. Randall are at New Haven, Conn.

Mrs. D. M. Clifton is spending two weeks at Allentown.

Frank Eahler and family have gone to York Village, Maine.

Don't run a chance of having your home-canned goods spoil by using old rubbers and tops. You can get new ones at Becker's.

Miss Helen Harned, of Merchantville, who is spending the summer in Cape May, spent the weekend as the guest of Miss Helen Kipp.

Mr. and Mrs. W. R. Hoffman are entertaining their sister, Mrs. R. Heath, of Flemington, and his cousin, Mrs. Mary Fisher, of Three Bridges.

The Ushers' Association of the Presbyterian Church will give a watermelon party tonight on the Houghtaling lawn, Fourth and Linden.

Dr. Frances Janney-Stoddard, Mr. and Mrs. A. F. Deacon and Dr. J. D. Janney have returned home after spending several weeks at Stoddardsville, Pa.

Main street, which was recently repaired by the county, is now being oiled, which is very necessary to protect the surface from "unraveling" and blowing away.

Good cooking apples can be obtained at the Cold Storage plant at East Riverton at 10c a five-ounce bushel basket and up. Bring your own containers.

A bridge party was an attractive feature Saturday evening at the Lawn House. Prizes were dainty and useful. Mrs. Hall and Mrs. Curtis had the party in charge.

The Wednesday morning bridge, which is held at the Lawn House, every week, has been very well attended this year, by guests from the Lawn House and friends from Riverton.

You can get excellent service in cleaning, pressing and repairing men's and women's clothing at McCombs' tailor shop. Phone 52-1 and your clothing will be called for and delivered.

Mrs. Catherine McLyndon, mother of Mrs. L. A. Brennan, has gone to Mahanoy City, Pa., for the month of August, accompanied by her two granddaughters, Misses Ellen and Winifred Brennan.

The annual harvest home of the Asbury M. E. Church will be held in Gibbons' grove Wednesday, August 25. There will be the usual attractions, including music and an address by the Rev. John R. Mason.

Freeholder Rogers, of Palmyra, George N. Wimer, E. C. Stoughton, Henry Lippincott, and Joseph L. Thomas were among the guests at the annual dinner of the Governor given at Sea Girt last Friday.

Brigadier-General Burt S. Johnson, wife and son, from Illinois, have been the guests of Colonel and Mrs. Harry Kramer, at the Lawn House. Mr. Johnson is the youngest Brigadier-General in the United States.

In this issue is published the announcement of Capt. E. P. Morton, who has resigned from the Corps of Engineers of the U. S. Army and will re-enter the private practice of civil engineering. He has had valuable experience both in this country and abroad.

An automobile speeding down Thomas avenue, driven by a woman, was nearly wrecked at the Fourth street crossing, which was taken at full speed Wednesday afternoon. The car swerved sharply and nearly crashed into the curb in front of Councilman Armitage's residence.

## BIKES OFF SIDEWALKS!

State Law Will Be Enforced and Full Penalty Inflicted. Speeding Autoists Will Be Pinched, Too.

At the meeting of the Borough Council last night the bicycle ordinance came up for its annual airing and discussion. Every new councilman since the ordinance was passed has made his maiden speech on this document.

But this time it looks as though something was really going to be done about it. Councilman Geiss had evidently been laboring under some sort of excitement from the time Council was called to order, and when the Mayor called for "new business" he opened up. In less than a minute he had shoved into "high" gear and was going at top speed with the cut-out wide open. He called attention to the reckless riding of bicycles on the sidewalks by a lot of boys who were a deadly menace to the little children playing in front of their homes. He cited several narrow escapes the little ones had had recently—one no longer ago than last Sunday, and referred to the woman who was knocked down and very badly hurt early in the evening some time back. He insisted that the riding of bicycles on the sidewalks should be prohibited, and prohibited in a way that would put a stop to it.

The Mayor told Mr. Geiss that he had tried in vain to have the ordinance enforced, but had failed because he could not get the co-operation of the police department. He had taken the matter up personally with the chief of police and the officers, but could not get results. He said that the Chief's sons rode on the pavements continually, and whenever he remonstrated with anyone else for doing so, they told him about it.

At this juncture the Chief of Police said that if the children were to be forced into the streets, and perhaps would have to be stopped from speeding around at forty miles an hour. The Mayor pointedly replied that it was up to the Chief to see that the law in this respect was complied with also. The Mayor also informed Mr. Geiss that he, as a member of the police committee, had the power to arrest anyone whom he saw violating any laws or borough ordinances. Again the cut-out flew wide open and John assured his Honor that by "pinching" he would see that all this recklessness was broken up or somebody would be pinched!

And he looked as though he meant it, too. He asked and was given permission to have notices printed giving fair warning of the intention to enforce the law, so that violators would have no chance to feel that they had been pinched upon unwares. It was said that one handicap in the way of efficient enforcement of the law was the absence of a justice of the peace in the borough. To this the Mayor replied that if the police department would do its duty he would sit as a committing magistrate to hear the cases. Aside from any borough ordinances, there are State laws completely covering the use of bicycles and automobiles, and it is under these laws that Mr. Geiss expects to have notices printed and so that anyone hoping to wriggle out of a tight place through some technicality in the borough ordinances, will find himself on very insecure ground.

Mr. Geiss made a strong plea for the safety of children and pedestrians on the sidewalks, and the Chief made a strong plea for the safety of children in the streets.

Between them they cover pretty much all of the ground, and something worth while ought to be accomplished.

Mr. Mathis, chairman of the highway committee, reported that the flooded condition of Broad street at Thomas avenue east of the railroad, after every heavy rain, was a menace to automobiles and a great nuisance to the public. The Mayor said that he believed the condition could be greatly improved by having contractors, from dumping material at that point and filling up the culvert that had been constructed to carry this water to the creek.

Mr. Davis, chairman of the lighting committee, reported that a new gas lamp had been ordered for Broad and Thomas avenue, east of the railroad. A petition signed by several neighbors was presented to Council asking to be relieved from the nuisance created by the dogs on the premises of John B. Watson, east of Main street, which "bayed the moon" at all sorts of unreasonable hours. After some discussion as to what authority the Council had in the matter, it was decided to send a copy of the resolution to the owner of the dogs and see what action he took, before proceeding any further.

### NOTICE

The Griffenberg Band of Palmyra, assisted by members of the Baldwin Band of Philadelphia, will give a free concert in the grove at Cinnaminson avenue and Broad street, Palmyra, Saturday evening, August 14, beginning at 7 P. M. A good program is arranged, including standard and popular numbers, with which it is hoped to please all. Ice cream and cake will be on sale and the patronage of the public is respectfully solicited.

The committee in charge of the horse and cattle shows at the Holly Fair, are arranging for lighting the two large cattle buildings, and building a large ring in the center for the indoor riding of the entry of dairy cattle and the show horses at night. A modern ring will be built with dirt floors and brilliant lights, so that those who wish to enjoy the racing and other amusements during the day or are unable to attend the day fair, will have an opportunity to see the cattle and horses by electric light.

J. Lawrence Lippincott writes from Edinburgh as follows: "Many times have I thought of friends back in good old Riverton, while passing through many of the very old medieval landmarks of this part of the world. It makes one realize how young we are as a nation. Traveling conditions have been very comfortable, and all nationalities most cordial." Mr. Lippincott went to England to attend the Friends' Conference to be held there this month, and while there is touring about a bit.

Mayor Killam E. Bennett is entertaining his sister, Mrs. D. M. Linnard, who motored from Pasadena, Calif., arriving Wednesday night. Mrs. Linnard started on July 3, taking a leisurely trip and stopping at many places of interest. The journey was unusually free from the many little annoyances which often mar such a trip. A set of new tires were put on the car before starting, and the run across the continent was made without a puncture or a blowout, the tires having the same air in them when they arrived at Riverton that was pumped into them in California.

## Groton's Codfish Cakes

Ready to Fry

Just make into cakes and fry in smoking hot fat.

One 25c can will make 6 large cakes or 12 small ones.

**COMPTON, The Better Grocer**  
Member of United States Food Commission

### SERVICE

### SECURITY

## QUALITY FIRST

Is Our Motto

There is quality in banking service just as there is in the trades and professions. It may be good, poor or indifferent. But for our customers the best is none too good.

### THE BEST—

In MECHANICAL PROTECTION—as seen in our equipment, and our strong, modern vault.

In THOUGHT AND EXPERIENCED DIRECTION—as exemplified in our officers and board of directors

In WINDOW SERVICE—where promptness and courtesy are a guiding law

In view of the alarming spread of the area infested with the Japanese beetle, the New Jersey Audubon Society calls attention to the fact that birds are the most effective insect check, and urges that every effort be made to attract birds to homes, gardens, and farms, and to increase their numbers by providing nesting places, bathing and drinking pools, and food during the winter. Anyone interested may obtain valuable information and suggestions by addressing the Society at 164 Market street, Newark, N. J.

More Children at the "School." This week six newcomers presented themselves at the Improvement Center at Cinnaminson, and were evidently pleased, for on Wednesday they brought nine more, making fifteen to break in. The plucky workers, who now have thirty children in their care, are almost swamped.

If any young girl who is interested in social betterment would be willing to give an hour or two to help, we are sure they would feel repaid, for the work is fun, the children responding so readily.

We hope some one will feel called to offer their services at the two-room school at Cinnaminson.

Promising Juvenile Swimmers. Lee Edwards, the 14-year-old daughter of the vice-commander of the Riverton Yacht Club, swam across the river from the House of Correction wharf to Riverton in 31 minutes, in the face of a choppy sea.

On Sunday Harriet Holder swam over and back in 1 hour and 20 minutes. She expects to try the ten-mile swim from Philadelphia soon. The Stevens property on Bank avenue for the summer.

Last Saturday Henry Parrish swam across the river. He expects to try to make it both ways.

Billy Edwards swam across the river last night in 24:20.

Court of Lions.

The Court of Lions is the most famous court of the Alhambra, in Spain. It takes its name from 12 white marble lions from whose mouths streams of water flowed into a central alabaster basin.

### GOOD DRESSERS

realize the importance of having their suits and dresses without soil or wrinkles if they would be called well dressed. We keep ladies' tailored suits, as well as men's garments, looking as fresh and handsome as when they were new, by our cleaning and pressing methods. Let us keep your wardrobe in first-class condition.

Miss Agnes Anderson, of Delaware avenue, is visiting her grandparents, Mr. and Mrs. S. A. Bailey, at Harrington, Del., for a few weeks.

The Palmyra Building and Loan Association paid off its 24th series this week, amounting to about \$30,000, a month ahead of last year.

Mrs. E. Leonberger, of West Philadelphia, and her son, Walter, of Worcester, Mass., spent Saturday with Mr. and Mrs. William McCuen.

The Palmyra Business Men's Association had another bad night, and because of the terrific downpour at meeting time, no session was held.

Mr. and Mrs. A. J. Wilkinson, Jr., of Audubon, and Mrs. A. J. Wilkinson and Mrs. Hulm, of Philadelphia, were weekend guests of Mr. and Mrs. James T. Weart.

Former Sheriff Andrew J. Jordan, of Willingborough, has announced his candidacy for the democratic nomination for sheriff. He is the only democratic entry thus far and is regarded as a very strong candidate.

The high tension wires supplying current to the water works broke at Fifth and Garfield about three o'clock Wednesday morning, and the electric display that caused excitement in the neighborhood.

Mr. and Mrs. G. Mohrman have received a telegram that the body of their son, Private Harrison G. Mohrman, who died in France, will arrive in New York about August 15, and will be shipped home as soon as possible.

Professor Nelson Roray, who is remembered by many Palmyra school alumni as a popular principal of the local schools fifteen years ago, was the week-end guest of his uncle, C. S. Roray. Professor Roray is now in charge of the mathematics department of the Jersey City High School.

Last Saturday night, Tuesday night and Wednesday night were marked by very heavy rain and electrical storms. The electric lights were out for long periods owing to the blowing of lines at the Public Service plant, Broad street, south of the railroad, was flooded its entire length.

The Field Club Board of Directors met Wednesday evening at the home of Norman Schriver, on Morgan avenue. Various "donations" for the club were discussed and a substantial payment was made on the note which is the club's chief financial worry. Delicious refreshments were served by Mrs. Schriver.

The Township Committee on Tuesday evening passed on first and second reading the ordinance for the sidewalks on New Jersey avenue. There was one objector, Mrs. L. A. Pace. Next Tuesday evening it is expected that a resolution for sidewalks on Pennsylvania avenue will be introduced.

All the friends and members of the Relief Association are invited to attend the twentieth anniversary of the dedication of the New Jersey Firemen's Home and the unveiling of the testimonial statue of General Bird W. Spencer, president of State Firemen's Association, at Jononton on August 28.

**To Pay More for Poorer Gas.**  
The New Jersey Public Utilities Commission will permit the Public Service Gas Company to increase its rate from \$1.15 to \$1.40 per 1000 cubic feet, and to decrease the gas from 600 British thermal units to 525, commencing August 1.

In all conscience it is bad enough to have to pay the gas bill, which, however, there may be some justification, but why reduce the heating efficiency, which any housewife will tell you is quite low enough?

**Sea Scouts Get Boat.**  
The Palmyra Sea Scouts expect soon to receive their boat, which they have named the John Ross Martin, after the Navy Captain who gave it to them. She is a fully equipped 40-foot admiral's barge, with sails and oars.

A cruise is planned for August 28 up the river, with 18 sea scouts and 18 boy scouts aboard. Scout Master Charles Lutz is now officially known as "Skipper" Lutz.

Captain Martin has presented the ship with two sails captured from the Spanish at Manila Bay.

**F. C. Defeats Delanco 2-1.**  
One of the best games this season was played at The Field Club park last Saturday, when the local boys were defeated by Delanco by the score of 2 to 1, in a ten-inning game.

Smith, the veteran of the old Delaware River League, pitched for Delanco, while our own Roy Hardy was on the mound for The Field Club. He pitched a masterful game, and but for unfortunate breaks of the game, would have won by 1 to 0.

Twining at third, and Russ Gibson at short, put up as clean a fielding game as ever seen, and accepted every chance that came their way.

North Camden A. A. will be the attraction this Saturday and the Ardmore Club will be here on August 21. On August 28 the locals will journey to Delanco for a second game with that club, and on Labor Day the Riverside F. C. will be the attraction here.

## P. O. S. of A. Convention.

The annual State convention of the Patriotic Order Sons of America will be held at Cape May, August 17 and 18. The Cape May Camp is arranging an elaborate program for the entertainment of the visiting delegates. There will be a parade Tuesday morning and a reception and ball in the evening.

Delegates from Camp 23 will go down in five automobiles. It is the largest Camp in the State and will send the following delegates, 21 in number: Walter M. Horner, Melvin P. Davis, C. Kenneth Davis, John Green, Joseph F. Schmierer, David B. Gales, Thomas B. Given, George W. Stahl, George W. Rogers, Charles Koppenhoefer, John Banfi, A. Newton Stewart, Albert N. Stewart, Furman A. Wood, Samuel Griffith, Harry Fluck, Charles A. Malack, William L. Fichter, Edson Carhart, William R. S. Fluck, George N. Wimer.

**Hooked Shark—Man Overboard!**  
Last Saturday James T. Weart, Al Wilkinson, Clinton and Walter Gibson, Lons Bonal and Jeff Flannigan were fishing at Green Creek. Wilkinson hooked a four-foot man-eating shark. When he got it close to the boat Mr. Weart thought he would dispatch it with a knife, so he stabbed with all his might, but the sharp point merely bounced off the shark's tough hide and the man-eater flipped its tail, broke the hook and disappeared.

Flannigan, a Camden man, fell overboard while trying to get his hook out of a shark's mouth. The others saved him a life preserver as the current swept him away, and it was fifteen minutes before they got him aboard again.

The catch is reported as 77, but in addition many sturgeons and other unpleasant denizens of the sea were reeled in.

**Joy Ride Ends in Arrest.**  
Three boys who took a joy ride in a car which Donald Knowlton had left standing outside the movies on Saturday night were held in \$200 bail for court by Justice Roray at a hearing held Thursday evening.

The machine was taken during the storm Saturday evening, while the lights were out, and the boys drove it to Beverly where it was abandoned. Chief Beck was notified and he gave the alarm all over this part of the State, and spent several hours in the search. Finally Officer VanSclaver discovered the machine in Beverly.

It happened that the boys were seen in the car by other parties and they were also observed to return to town late byrolley. When confronted by evidence they confessed the offence to Mr. Knowlton and also at the hearing.

Justice Roray in holding them for court emphasized that they had committed a serious offence and that they could also be tried for driving without a license and for malicious mischief, inasmuch as the car was slightly damaged.

**The New Bank Open for Inspection Saturday.**

The Palmyra National Bank, at Broad and Garfield avenue, will be open for inspection on Saturday, the 14th, from 2 until 9 o'clock p. m.

The last two weeks has been a busy time at the bank, with the furniture and equipment to be installed, and the fact that it is in readiness by the date set for opening is largely due to the personal efforts of President Purnell, Cashier Powers and his assistant, and a number of the directors, who rolled up their sleeves and "went to it," wherever a hand was needed.

The bank will be open for business on Monday next.

The officers and directors have given much thought to the convenience of the patrons of the new institution and have worked out several innovations which will add to its popularity from the start. For one thing, the bank will open at 8 o'clock in the morning, and will be open from 7.30 until 9 Saturday evenings. Out-of-town deposits will be accepted by mail and promptly acknowledged.

**Frank E. Grubb**  
A well-known figure in the life of Palmyra for the last twenty-five years has been removed by death last Friday afternoon, when Police Officer Frank E. Grubb died at his home on West Broad street.

"Grubbie," as he was known to young and old throughout the town, had been on the police force for about ten years, having succeeded the late Officer Tomes. Previous to that he was constable here for a number of years.

Throughout the whole period he was noted for the many services, big and little, that he performed gladly for many residents of the town, escorting the timid home late at night, watching parked automobiles at the beach, or helping little children across the street intersections.

The last few months of "Grubbie's" life were tragic to him. A few days after Christmas, when he received his usual numerous presents of cigars and other gifts from grateful friends, a small sore developed in the bottom of his mouth and it was not long till the doctor conveyed to him the dread fact that he was the victim of cancer, attributed to bad teeth and to smoking.

Hope of complete cure was held out at a Philadelphia hospital, and he went under the knife on March 10, followed by X-ray treatments. For a time he thought the operation had accomplished its purpose, and he told his friends that he would be on the job again Memorial Day. It was not to be, however, and the last few weeks saw him lose strength rapidly and all knew that his death was near.

Officer Grubb was born in Wilmington over 62 years ago. He went to Philadelphia as a boy and later married Miss Emma Gray there. He practiced the carpenter trade in Philadelphia and Camden and about thirty years ago moved to the vicinity of Five Points. A few years later he came to Palmyra, and for sometime was in the employ of the telephone company, previous to becoming constable.

The funeral was held Tuesday afternoon, the Rev. R. K. Reimer, of the Moravian Church officiating, with the interment in Morgan cemetery. The P. O. S. of A., of which he was an honorary member, took prominent part, and the business men and his many other friends sent beautiful flowers.

Officer Grubb is survived by his widow and four children, Edwin G. Grubb, of Palmyra; Mrs. Anna Reid-baker, of Fork Landing; Mrs. Catherine Meyer, of Camden; and Mrs. Clara Horne, of Palmyra.

**For sale cheap. 1900 Washer with wringer and water motor. Reason for selling has installed electric machine. Very low price for quick sale. Address "M" New Era Office.—Adv.**

## THE COMMUNITY LEAGUE.

Its Aims and Purposes As Explained by Its President, James T. Weart.

August 12th, 1920.

Editor The New Era:

You have asked me several times to give you a statement for your paper in regard to the organization of the Community League of Palmyra, and I am, therefore, writing you this communication, for which I trust you will find room in your issue of the 14th inst.

The formation of this Association was brought about by the arbitrary methods pursued by the Township Committee in passing the sewer ordinance over the protest of more than 400 property owners in our township. The objects of the Association all tend toward the betterment and improvement of our town and we feel that attendance at our meeting on the 26th will convince the most skeptical that we have no "axes to grind," but rather are willing to give our time and attention to the interests of the taxpayers.

Our contention in regard to the sewer ordinance was mostly along the line that this was not the proper time, owing to the high cost of materials and labor, to start this projected improvement, to say nothing of the rate of interest which would be demanded by financial interests. Our petition and our public meeting developed, in our opinion, sufficient opposition to the project at that time to have had weight with the Township Committee and caused them to delay, for the present at least, the passage of said ordinance. The Committee, however, in spite of our protest, passed this ordinance, giving as their reason that we had not sufficient signers and that while they did not intend to proceed with the work at once, they wanted to go ahead and have everything ready when, in their judgment, the opportunity would arise. This, we believe, was an usurpation of their authority and contrary to facts, for if nothing is done for one year, there is great possibility that the ordinance as passed will not meet with the needs of the township at that time, and it may be necessary to re-draw and re-advertise an amended ordinance.

We have, as you are well aware, petitioned the Township Committee for a special election, in order that the voters may decide whether this ordinance is to stand or not. The law requires that this election be held within 30 days. The Committee refuses to spend the money for our money, mind you, for a special election, but we are promised that we can vote for the issue at the regular election in November.

Now right here I think it well to place the citizens of Palmyra on their guard. If the Committee places this issue on the ballot, as we are led to believe from newspaper reports that they will, in this fashion:

"For or Against" they will be the issue.

The election we have petitioned for is not to decide that point at all. It is, or should be,

"Shall the Ordinance as passed by the Township Committee regarding sewers be approved, or not?"

Much against my inclination, I have been elected president of the Palmyra Community League, and I shall do all in my power to fulfill the duties of that office to the best of my ability, and will give all the time and attention possible to further the interests of the citizens of Palmyra township.

Right here, however, I desire to go on record as saying that I am not opposed to a sewer being placed in Palmyra; on the contrary, when things readjust themselves, I will be one of the first, along with many others, who I know, to be in favor of the passage of an ordinance that will give us this improvement.

To my mind a far more important matter should have been put before the voters, and, were it not for the existing condition of things, the enlargement of our school facilities could have been put before the voters, for the Board of Education have for the last year been compelled to rent a room on the north side of the railroad, either for the kindergarten class, or to take care of the High School pupils. Additional studies have been provided for by the Legislature, which will require the services of additional teachers, and the enlargement of this school will be the largest in the history of the school. We can delay the building of another school for another year, but in my opinion, before 1922 we will be compelled to erect another building, which shows our short-sightedness in not erecting a \$30,000 school and subdividing of our present \$32,000 school on Delaware avenue.

I earnestly request that every citizen of Palmyra, and subdividing on the 26th inst.; their interests are at stake.

**JAMES T. WEART.**

**New Election Laws**  
Requirements of the new election law for the fall election have been given out as follows:

The first house-to-house canvass for registration purposes will take place on September 14.

The second registration day will be September 28, which is also primary day. The polls will be open from 7 a. m. till 9 p. m. The third registration day will be October 12, and the boards will sit from 1 p. m. till 9 p. m. November 2 will be general election day with the polls open from 6 a. m. till 7 p. m.

September 3 is the last day for filing petitions for nominations to county offices, or any sub-division greater than a municipality. Petitions for municipal offices may be filed up to September 8.

Declarations for nominations must be filed by September 13. Sample ballots for the primary are to be mailed before noon, September 22. September 23 is the last day for receiving campaign contributions for the primaries.

The State conventions will be held October 5, when the electors will be nominated. The annual meeting of the county committees will be held on October 7.

**Franklin's Queer Vision.**  
When Benjamin Franklin became the first American postmaster general the wheelbarrow was prominent in mail transportation. That Franklin expected something better was shown by his active interest in the first balloons and in electricity. He was not for one age but for all ages.

**Isn't It Truth?**  
Nobody wants to hear of your hard luck, and few, envy being a common trait, care to hear of your success.—Boston Transcript.

A cordial invitation is extended to all.

## NATIONWIDE FIGHT AGAINST DISEASE

American Red Cross Will Have  
Health Centers in All Parts  
of United States.

The American Red Cross has launched upon a nation wide campaign of fighting disease and physical defect among the American people. A new and unique health institution has come into being, the result of several months' study by the Red Cross Health Service Department at National Headquarters.

Officials in charge of the department predict that before long this new health activity will be in actual operation all over the country, and that the slogan—"American Red Cross Health Center"—will become as familiar to the people everywhere as are now the signs of the telegraph companies.

**Busy Long Before War.**  
The interest of the American Red Cross in the fight against disease is not, however, of recent origin. Long before the war the organization began this health service through its medical units in disaster relief work and its department of Town and County Nursing. During the war and following the armistice thousands of American Red Cross units have been fighting disease in the war-stricken countries. At the same time tens of thousands of local Red Cross officials have been engaged at home fighting disease, notably during the influenza epidemics.

The American Red Cross has determined that all this valuable experience in health service abroad and at home shall not go to waste. So long as there are a half a million people dying yearly in this country from preventable causes, and so long as more than one-third of the American children and young people are victims of physical defects, the Red Cross recognizes the urgent need for continued Red Cross health service at home.

**How Organization Works.**  
The Red Cross Health Center is governed by business principles, applied to the health service. Long and more simple form, can be established and conducted by lay people.

It proceeds upon the demonstrated fact that health is a "commodity" that can be bought and sold like brooms and soap. Therefore, it establishes itself in a storehouse in the principal business section of the community. It displays its goods in the form of attractive health exhibits in its show windows. It advertises constantly and extensively. And it uses every business and social device to attract customers.

The Red Cross Health Center is of service to the sick in that it gives out reliable and complete information about existing clinics, hospitals, sanatoria and other institutions for the sick and the defective; about available nurses, both trained and practical; about when to consult a physician and why to shun the quack and his nostrums.

**Teaching Disease Prevention.**  
The Red Cross Health Center is, however, of even greater service to the well. It teaches people how to prevent sickness and disease. This is done in many interesting and attractive ways—first of all, by the distribution of popular health literature and through health lectures illustrated with lantern slides or with health motion picture films. Then special exhibits are given, one after the other, on various health subjects. Practical demonstrations are made; also health playlets by children to interest and instruct themselves and their elders. Classes are organized in personal hygiene, home care of the sick, first aid and in food selection and preparation. Health clubs, both for younger and older people, are formed; also the Mothers' Leagues. Nutrition and growth clinics are conducted for children.

Already more than a hundred of these Red Cross Health Centers are in actual operation throughout the country. Many of these also conduct medical clinics, but the one chief outstanding feature of the American Red Cross Health Center is its health education service which teaches well people how to keep well.

**The Congressional Library.**  
Under its great gilded dome the Congressional Library preserves for public use and reference and for posterity nearly five million items, including 270,000 printed books and pamphlets, 165,000 maps, 400,000 engravings, photographs, etc.; 850,000 pieces of music and hundreds of thousands of manuscripts.

**Electric Bulb Burst Inwardly.**  
When an electric bulb is burst, either by design or accident, the force of the explosion is inwardly. This has been proved by painting the bulb with a harlequin effect, half one color and half another. After the explosion, which may be accomplished by a well-aimed bullet from a pistol, the colored pieces will be found scattered on the floor on the opposite side from which they were originally placed.

**Bruises in Furniture.**  
Here is a method which has been of great use in removing bruises from furniture. Wet the part with warm water; double a piece of brown paper five or six times, then soak it in warm water and lay it on the dent. Apply a warm (not hot) flatiron until the moisture has evaporated. If the bruises are not gone, repeat the process. You will find this very good, and if the surface of the furniture is not broken the dent will disappear and leave no trace.

## OPENS WAY FOR RATE INCREASE

Commission Is Ordered to Consider Present Costs in Fixing Prices for Service.

### DECISION IS MOST SWEEPING

Gas, Electric, Water and Many Other Concerns Expected to Ask for More Money on Ground That Present Rates Are Unjust.

Trenton.—Failure of the Public Utility Commission to fix valuations according to present reproduction costs is held by Justice Swayne, in an opinion filed in the supreme court, to be an error, and for this reason he sent back to the board the case of the Elizabeth Gas Light Company for a revision of new rates in accordance with the findings of the court.

This opinion is one of the most important and far-reaching that have been given by a New Jersey court in many years, as it opens the way for wholesale increases in rates by virtually all of the utility companies throughout the state. It will be followed, it is confidently expected, by applications for the establishment of increased rates for gas, electricity, water and other utilities on the ground that the valuation policy of the Utility Commission, upon which the present rates are based, is unjust.

The commission in establishing rates has followed the policy of not taking into consideration the costs of the war period, but rather to spread the costs over a series of four or five years and then fix the rate for service upon an average of costs for the group of years. Actual costs of improvements, such as the erection of new plants and additions, have been allowed by the commission, together with the actual increases in operating and other expenses, but it never has adopted the policy that in fixing rates the property of a utility should be valued according to what it would cost to reproduce it at this period, when peak prices, due to the war and other conditions, prevail.

The application made by the Elizabeth company to the Utility Commission for increased rates for gas for all classes of services was denied, but some increases were allowed. The company insisted that the new rates were not based upon a proper valuation and carried their appeal to the supreme court for a review of the commission's order. The company was joined in its fight by the supreme court by a number of other companies, and opposition was brought to bear by municipalities in different sections of the state. The companies complained that the commission did not allow them as large an increase in rates for gas as they thought just. On the other hand, the municipalities contended that the rates were excessive.

Justice Swayne in his opinion said that the only question that need be dealt with in the case is the application of the question raised to the facts. The companies claimed undervaluation of their properties because the commission adopted a standard of value based on the average prices prevailing for five years previous to January 1, 1918; because they disregarded the only evidence as to going value and adopted an arbitrary sum not sustained by any evidence at all and because they arbitrarily admitted what is called the overhead valuation on land owned, being the cost of acquiring and assembling the land employed by the companies for the manufacture of gas.

"I think it entirely clear," said Justice Swayne, "that the failure to fix rates for prices at the time to which the rates apply, July 1, 1919, was an error. It was not denied that the prices were much higher in 1919 and are very much higher now than the average for the years 1911-1916. No notorious is this that the United States Supreme Court has referred to it in an opinion as a matter of common knowledge in the Lincoln Gas Company case."

"In that case the court on its own responsibility suggested that in its opinion the decree ought to be modified to permit the complainants to make another application to the courts for relief. It would be manifestly unjust to apply to a gas company a standard of value different from that applied to others. To what extent the increase in prices may be due to an inflation of the currency or to any particular cause we do not know. What we do know is that the dollar of 1910 and 1920 is worth less than the dollar of 1916 and still less compared with the dollar of the average year from 1911 to 1916."

"If it were proposed to value the property of the gas company in 100 cent dollars and allow them a return only on that while other values were on the basis of 50 cent dollars and just double in number everyone would see the injustice. So far as the increase in prices is due to inflation of currency, the illustration is a perfect one."

Justice Swayne also discussed interest rates of return upon investment and applied these figures to the Elizabeth case. He found that the amount of returned allowed to the company probably would be insufficient under present circumstances to attract capital to business, and he held this to have been one of the important tests of the justice and reasonableness of the rate as decided in the Passaic gas case. The justice said in concluding his opinion that if he set aside the entire order an injustice would be worked upon the company, so he sustained the Utility Commission's order for \$1.15 gas and remanded the entire case back to the commission for such additional increases as a valuation of property under the terms of the opinion will produce.

### Red Cross Helps Needy.

During the past three months Trenton Chapter, American Red Cross, has shipped several cases of needed articles to the headquarters of the Atlantic division in New York city for distribution.

Among the goods shipped were: One hundred women's blue petticoats, 120 women's gray petticoats, 337 women's undergarments and 18 women's nightgowns. Knitted articles that have been

shipped within that time are: Thirty-four pairs of men's socks, 10 pairs of wristlets, 4 pairs of bed socks, 3 shirts, 5 pairs of children's stockings, 1 band and 5 men's sweaters. Seventy-seven layette sets have also been sent to the headquarters, and 23 sets are ready for shipment, thus completing the chapter's quota of 100 layettes.

**Upsets Car Dodging Cyclist.**  
To avoid striking a boy on a bicycle a chauffeur drove a machine containing John G. Schellie, a hotel proprietor of Hightstown; his sister, Mrs. E. W. Scherer of New York, and his aunt, Mrs. Emma Devlin of Philadelphia, into a clump of trees and overturned it. All the occupants of the machine were severely injured. They were taken from Mannapan, where the accident occurred, to Hightstown by autoists.

Daniel McCloskey of Long Island City, who was run over by a truck near Charlesville, died in McKinley Hospital. McCloskey, who was employed by a trucking company operating between New York and Philadelphia, fell from his seat while asleep and the wheels passed over his body.

**Beetles Ravaging Farms.**  
Despite the extraordinary precautions taken by agents of the department of agriculture the Japanese beetle, which is regarded as the nation's worst crop pest, has escaped the quarantine in Burlington and Camden counties and has crossed the Delaware river into Pennsylvania. Farmers of both New Jersey and Pennsylvania are alarmed at the rapid spread of the parasite and have made vigorous appeals to the authorities in Washington. Wild ringneck pheasants have been used successfully in combating the beetles because they devour the parasites greedily, while other birds pass them by because of their hard shells. Many of the farmers are advocating the importation of pheasants.

### Work for Younger Republicans.

Chairman Stokes of the Republican State Committee has named a committee of young Republicans of the state, who will take an active part in the formation of campaign plans and the execution of details. The committee includes Henry D. Thompson, Princeton, chairman; A. Dayton Oliphant, James E. Mitchell, Charles O. Hillinger, Myer Nager, David Holzer, Michael Connolly, James Hammond of Trenton and Charles A. Wolvert, Camden.

### More Profit for D. L. & W.

The annual report of the Delaware, Lackawanna and Western Railroad Company for last year, just issued, shows corporate net earnings after interest and other charges amounting to \$16,072,200.

This equivalent to 38.08 per cent earned on the \$42,277,000 capital stock and compares with \$12,834,052, or 30.30 per cent, on the stock in 1918.

There was an increase in earnings from the company's coal department of \$1,362,072 to \$4,081,215, an increase of \$2,719,143. In this department, certified compensation for the year was \$3,140,805, greater, due in part to an item of \$1,674,048, which was 10 per cent of 1918 compensation accrued in July last year upon completion of the standard return contract with the railroad administration.

A comparative statement of operations presents the following outstanding items:

	1919.	1918.
Total revenue	\$71,825,917	\$68,240,378
Total expenses	\$55,825,917	\$49,825,917
Net revenue from operations	\$15,999,999	\$18,414,461
Operating income	\$12,287,412	\$15,853,508
Net income	\$10,154,344	\$16,011,456

In spite of the gain in earnings W. H. Truesdale, president, attacked the planning of railroad work on an eight hour basis. He said in part:

"The most serious and far-reaching injury which the railroads have suffered, however, is the disorganizing effect on their employees which has resulted from the policy established in dealing with the latter during federal control."

"The putting of all classes of employees on an eight hour basis cannot be viewed otherwise than as a calamity to the railroads from which they cannot recover in years, if ever."

"The railroads must be operated continuously every hour of the day in order to perform the transportation service required of them by the country, and they have been forced as a result of the establishment of the eight hour day to employ a large number of inexperienced, inefficient men and to pay large sums for punitive overtime worked by such employees, and they are without power themselves to fix their charges for transportation on a basis that will cover the increased costs of maintenance and operation resulting from the shorter work day."

### Held Under \$15,000 Bail.

Three men charged with violation of the national prohibition act were held for the grand jury under \$15,000 bail each by United States Commissioner Wilson. Although the amount of the charges was \$15,000, the only 50 cases, the high bail was demanded, it is believed, because an affidavit had been made by Robert Rickerson that the whiskey had been stolen from a truck belonging to him.

Rickerson claimed he was transporting the whiskey from Newark to Trenton August 5 when the three men forcibly took the goods from him.

### Adjustable Stopper.

A new adjustable stopper is of rubber with a nickel screw imbedded in the center. The lower end of the screw is swiveled in a brass washer so as to turn without engaging the thread, but a second washer or nut near the top is acted on by the screw in the usual way. Turning the screw to the right draws the washers nearer together, expanding the rubber so as to hold the stopper securely in the container. When the screw is turned to the left, the washers are pushed farther apart, the rubber is contracted, and the stopper is withdrawn without effort.

### Japanese Launchings Are "Dry."

The Japanese observances attending the launching of a ship, as described by a writer, are begun with a religious ceremony. Then the ship is released in the usual way, but instead of cracking a bottle of champagne across her stem, great quantities of cut flowers, usually chrysanthemums, and the sponsor's bouquet and a number of live pigeons are scattered from a decorated globe suspended over the launching platform, the sponsor pulling a cord. The flowers fall about the launching party as the freed birds circle overhead.

## Fruit Trees Are Scarce!

### We Advise Ordering AT ONCE

This is the first time in our history that we have issued an announcement at this time of the year. Our interest in thousands of fruit growers this year impels us to warn them that fruit trees, especially the best varieties, will be very scarce this year. The man intending to plant a few or several thousand fruit trees (especially apples) should place his orders very early this year. He had better place his order NOW.

### World Shortage of Apple Seedlings

France has always been America's chief source of apple seedlings. From 1914 until the spring of 1919 war-torn France produced very few apple seedlings. In a few sections of the United States, in our propagating grounds in Kansas and in our branch nurseries, we here in America have done our best to make up for the world-wide shortage of apple seedlings. But—the shortage still exists—and but for the fact that we make our plans far ahead and saw to it that

### Major Stark Was First to Contract for French Apple Seedlings

soon after the Armistice was signed, we would be in no better position than many other nurseries. When Major Lloyd C. Stark came back from France with his regiment, he had in his pocket contracts for huge blocks of French seedlings. Due to this foresight, we are in a better position to

## Stark Bro's Nurseries

### Are Ready to Supply Big Fruit Tree Buyers

—and the man who wants just a few trees. If you protect yourself by writing us at once for latest price list—and then, by placing your order at once, we will ship the trees whenever you direct—and protect you against disappointment. Despite the shortage we hold our trees at Reasonable Prices. We feel that it is our duty toward the orchardists, who, by their patronage, have helped to make this the Largest Nursery in the World, to hold prices as low as possible. Even our famous Stark Delicious and Stark's Golden Delicious Apple trees and our famous Peach, Pear, Plum, Cherry tree and Berry bushes are priced with the idea of encouraging greater orchard planting in America.

**But—Act Quick!—Write for New Price List**  
Don't wait until the usual time of ordering fruit trees. Our nursery, and others turned down thousands of orders last season. Don't you be disappointed this year—ORDER NOW.

**Address Box 74  
STARK BRO'S NURSERIES**  
The Only Stark Nursery in Existence  
at LOUISIANA, Mo., Since 1816

**Stark Delicious Trees Loaded With Top-Price Apples**  
Here was an amazing demonstration of bearing ability of Stark Delicious trees on good rich soil! Mr. Horace Rainey, owner of this Maryland County, Tennessee, orchard, writes: "I got enough from this one crop from these Stark Delicious to pay for the land and for all my labor. The fruit was far above the average in size and color and sold at a fine price. I gathered 25 bushels or more from one tree. And one limb was broken although they were in the ground."

## NURSING SERVICE IS RAPIDLY EXPANDING

This American Red Cross Work Flourishing in Small Towns Throughout Country.

More than 37,000 graduate nurses have been enrolled in the American Red Cross to date and its department of nursing is daily increasing this enrollment.

The department of nursing has been authorized to maintain an adequate reserve of nurses for the army and navy. It will continue to supply the needs of the United States Public Health Service to which it has assigned more than 1,000 nurses in the last year.

It will assist in establishing proper nursing service in foreign countries where the American Red Cross has organized hospitals, dispensaries and schools for nurses. Courses in home hygiene and care of the sick have been started for thousands of women who have never received any education in this direction. Rural nursing which was in its infancy a short while ago has been put ahead at least a decade through the work of the department of nursing and local Red Cross chapters.

Public health nursing has been extended to many rural communities and now flourishes actively in hundreds of small towns and counties. Nearly a thousand efficient nurses have already been assigned to this kind of work.

The department of nursing is uniting with other organizations in a year's campaign in recruiting nurses for training schools, in educating the general public as to standards of nursing education and in showing communities their responsibility toward schools of nursing. It will endeavor to meet all these needs as well as to continue the enrollment of dietitians who will be utilized as instructors in home dietetics. In developing nutritional clinics, and in supplying dietitians for the United States Public Health Service and the civilian hospitals.

The Nursing Service will continue to offer to women and young girls the opportunity of acquiring instruction in home hygiene and care of the sick in every community in the country. This instruction has not only laid the foundation for public health but in some places has given impetus to the establishment of hospitals and community school houses.

"As a community profits by the work of the nurse," says Miss Clara D. Noyes, director of the department of nursing, "it is logical that the community should be aroused to its responsibility. The American Red Cross stands ready to help in a general campaign of recruiting and must have the support, sympathy and understanding of the medical profession as well as the intelligent co-operation of the people at large."

### Old Cup Carved of Wood.

A cup, which is in the possession of Mrs. Margaret Schultheis, Main avenue, Montebello park, Harford road, Baltimore, is a century and a half old, having been exhibited at the world's fair in Vienna in 1876 and at the Centennial in Philadelphia in 1876, says the American Forestry Magazine of Washington, D. C. It is the work of L. R. Wildenhorst, and is exquisitely wrought from a brown wood. It has a silver cup inside, which is covered by the carved lid. The figures represent Bacchus and a group of nymphs and satyrs and the small figures are perfect in every detail.

## CINNAMINSON

An Indian name from the Leni-Lenape Nation, the original owners of New Jersey, meaning

### "SWEET WATER SHORE"

The original settlers of this section deserve the credit that is given in history to William Penn, for they made friends with the Indians, and bought from them this section of New Jersey, long before William Penn came over or Philadelphia was established. They also retained many of the musical-sounding Indian names.

**Early Basket Makers.**  
The ancient Islanders of Great Britain were famous basket makers and their wares were costly acquisitions in the palaces of Italy. They manufactured woven baskets and covered them with the skins of wild animals; their huts were made of openwork made of osiers and their warriors' shields were constructed of reeds in a marvelously impervious manner.

### Memorial to Great Scientist.

The original home and laboratory of Dr. Joseph Priestley, the chemist who discovered oxygen in 1774, a frame house, located on the banks of the Susquehanna river at Northumberland, has been bought by graduate chemists of the Pennsylvania State college, who plan to move it to the college campus in Philadelphia and make it a lasting memorial to the great scientist.

### Steel Ships Carry More.

Ships built of steel are said to be able to carry about 20 per cent more cargo than those made of iron.

## A SUGGESTION

for Saving Wasted Postage and Increasing Your Business

Unless your letter weighs one ounce, you are wasting some part of the postage you pay on it. Most business letters weigh less than half an ounce, so envelope stuffers cost nothing to mail. Let us show you how attractive a stuffer can be made.

THE NEW ERA  
Riverton, N. J.

**GAS** The Economical Fuel for Preserving

With fruits, berries and sugar so high, you cannot afford to take chances with a worn out stove, because results are not certain and fuel is wasted.

A new range would be an economy—get it now at 10 per cent reduction.

The Direct Action Cabinet Gas Range with Lorain Heat Regulator, is very economical for cooking and preserving.

With the Direct Action principle of heating you don't have to light the oven burner until you put in the baking, thus saving ten or fifteen minutes' time of gas.

The Lorain Heat Regulator insures any one of 44 desired oven temperatures. Put a whole dinner in the oven, set the regulator, go out for the afternoon, and return and find the dinner perfectly cooked with one burner. This simplifies cooking during the canning season.

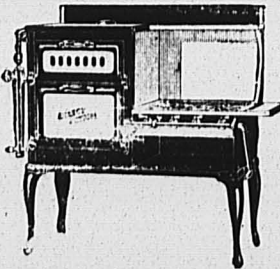

This isn't the whole story of the Direct Action Range. Come and see one of them.

The No. 310-E occupies 51 inches; has five top burners, lighter, baking oven that will hold 8 1/2-pound loaves, wide burner broiler, white enamel splashers, broiler pan, burner tray and door panels.

Regular price, \$110.86  
August monthly payment price, \$99.78. August cash price, \$94.80.

The all-enamelled Direct Action Range No. 310-A, as fine a gas range as ever was built, also specially priced during August.

Regular price, \$216.45  
August monthly payment price, \$194.80. August cash price, \$185.06.

## The Best Fans At Reduced Prices

By the "best fans" we mean the kind you can't get at these prices oftener than once in a blue moon.

Of course you can find plenty of "cheap" fans but these weren't built to last cheaply—they were built to give service and to last. The motor is the vital part of an electric fan; these Westinghouse and General Electric motors stand up indefinitely.

One man says, Divide the price by the years they last.

It is not too late to buy a fan; you can use it all the year round. Start the heat up a balky register with a fan; dry clothes or hair with it.

Ten, twelve or sixteen-inch fans at greatly reduced prices.

Come early to get the size you want.

## IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By REV. P. B. FITZWATER, D. D.  
Teacher of English Bible in the Moody  
Bible Institute of Chicago.  
(Copyright, 1919, Western Newspaper Union.)

## LESSON FOR AUGUST 22

DAVID'S PRAYER FOR PARDON.

LESSON TEXT—Ps. 51:1-17.  
GOLDEN TEXT—Wash me thoroughly from mine iniquity, and cleanse me from my sin.—Ps. 51:2.

ADDITIONAL MATERIAL—11 Sam. 11.

PRIMARY TOPIC—Asking God to Forgive Us.

JUNIOR TOPIC—How David Obtained Forgiveness.

INTERMEDIATE AND SENIOR TOPIC—What to Do When We Have Done Wrong.

YOUNG PEOPLE AND ADULT TOPIC—Penitential Prayer in Christian Experience.

There can scarcely be any doubt but what the sin here meant is that which we studied last Sunday, namely, adultery and murder (see 11 Sam. 11 and 12). About a year had elapsed from the time of David's sin to his repentance. The Thirty-second Psalm graphically pictures David's state of soul during this time. It was a year of great soul-anguish; a day and night he was tormented by a guilty conscience. In this psalm we see the path by which a guilty soul may return to God.

1. David's Cry for Pardon (vv. 1, 2). It is well to note his conception of God. He saw him as a God of mercy and loving kindness.

2. "Have mercy" (v. 1). He knew that justice would forever separate him from God. Because he saw the mercy and loving kindness of God, he did not sink down under the weight of gloom and despair. Because Jesus Christ did not see God as a God of mercy he went out and hanged himself.

3. "Wash me from my iniquity" (v. 2). He knew that it was not enough to have God blot out his sin, for his very person was defiled. He knew that in order to be clean he must be washed thoroughly, and that by God himself.

4. "Cleanse me from my sin" (v. 2). He was not clear that washing would make him clean, so he pleads with God to make him clean by whatever process is needed. He was even willing for fire to be applied, just so he could be clean.

5. David's Confession (vv. 3-5). 1. "I acknowledge my transgressions" (v. 3). He now makes a clean breast of them—he would hold back nothing. There is no way to please God but by a full confession of sin. No half-hearted dealing with sin will avail.

2. "Against thee have I done this evil" (v. 4). All sin is vitally and really against God. All our wrongdoing with our fellows is against God, for such deeds violate his laws. To heighten all this guilt he remembers that it was done in God's sight, thus showing disrespect and contempt for him.

3. "Behold, I was shapen in iniquity" (v. 5). He confesses not only to these acts of sin, but that he is by very nature a sinner.

4. David's Cry for Deliverance (vv. 6-9). 1. "Make me to know wisdom" (v. 6). He asked God that instead of heart wickedness he might be taught by God himself in his inmost nature.

2. "Purge me with hyssop" (v. 7). David seems to see that in order to be cleansed there is need of applying atoning blood. His prayer soars aloft on the wings of faith to the supreme sin offering, Christ.

3. Restoration (vv. 8, 9). He not only wants pardon, but restoration to the divine favor in Jesus Christ.

4. David's Cry for Purity of Heart (vv. 10-12). He realized that if his life was to be different, God must dispose his heart toward the right, so he cried for the Holy Spirit to not be taken away from him.

5. David's Vows (vv. 13-17). 1. To tell God's mercies to others (v. 13). The one who has experienced God's forgiveness at once desires to tell it to others.

2. To sing aloud of God's righteousness (v. 14). He saw that the application of God's mercy and loving kindness was on the ground of righteousness and justice. He had vowed to preach, now he vows to sing.

3. To show forth God's praise (v. 15). When the Lord opens a man's lips, then his lips shall sing his praises.

4. The reason assigned (vv. 16, 17). It is because the sinner has seen the supreme sacrifice, Christ, and with a contrite heart presents the merits of Christ Jesus, God's remedy for sin.

Mission of Every Christian. The nearer we approach to God in our spiritual life and fellowship, the larger our sympathies for humanity, and the more universal our ministry in the world. The mission of Christ is the mission of every Christian. He came and lived and died to save the world. The disciple is not better than his Master.—Anon.

An Invincible Armor. A habit of prayer and a sense of humor forge invincible armor.—Beth Bradford Gilchrist.

## THE NEW ERA

Published every Friday at  
RIVERTON, N. J.

WALTER L. BOWEN  
Editor

PUBLISHER.

### Notice

All readers of local notices of entertainments, suppers, fairs, dances, etc., given for the purpose of raising money, or for which admission is charged, will be charged for at the rate of ten cents a line.

### The Automobile's Toll of Death

In an editorial on Wednesday the Public Ledger said, in part:

The amazing death toll of the automobile, as revealed at the meeting of the National Safety Council at Atlantic City, is well calculated to arouse astonishment as well as horror. The statistics show that the automobile is responsible for one death in the United States every thirty-five minutes, an aggregate of about 15,000 a year.

This list does not include those who are injured but not killed by automobiles. By far the greater number of auto accidents are not fatal ones, and the list of the injured must reach far up into the thousands; and most of these accidents, like the fatal ones, are preventable.

But the main trouble is in the laxity of the law. When speeding and careless driving are punishable with jail sentences instead of fines, the automobile accident will speedily become a rarity.

Steps have already been taken in Riverton for the rigid enforcement of the State law governing the use of bicycles, and it is hoped that care will be taken in seeing that the regulations governing the use of automobiles is enforced.

In an interview yesterday Chief of Police Mattis said that the law in this particular would be rigidly enforced, and that persons leaving their cars standing on the wrong side of the street, stopping in front of fire hydrants, speeding, driving recklessly or violating any other provisions of the law would be called to account, and that prosecutions would follow if necessary.

### Annual Re-union of Satchel Club.

The annual re-union of the Satchel Club was held at Cedar Lake August 15. At high noon the satchels were opened and an elaborate spread was laid. Sixty-five were present, coming from Chicago, Wilmington, Girardville, Allentown, Norristown, Germantown, Cobb Creek, Philadelphia, Atlantic City, Palmyra, Riverton, Riverside, Vincentown, Tabernacle, and Indian Mills.

While the dinner was in progress the Victrola was played and the latest records, "Love's Nest" seemed to be the most popular one, and was very appropriate for the occasion. Many of the guests enjoyed the fine bathing in the afternoon.

When the time came to break up the party there were the usual congratulations and leave takings after which all joined in singing "Till We Meet Again."

Those present were, Mr. and Mrs. D. D. Bastian, Mr. and Mrs. H. K. Robinson, Mr. and Mrs. J. E. McCann, Mr. and Mrs. E. W. Stowe, Mr. and Mrs. H. J. McCleese, Mr. and Mrs. Alfred Bozarth, Mr. and Mrs. B. F. Gaskill, Mr. and Mrs. P. Clayton Buckner, Mr. and Mrs. P. Edward Steele, Mr. and Mrs. Alva Gaskill, Mr. and Mrs. Richard Logan, Mr. and Mrs. Elmer Logan, Mr. and Mrs. T. R. Graham, Mrs. Willis Hersh, Mrs. S. M. Groebey, Mrs. R. M. Boren, Mrs. H. G. Brown, Mrs. F. I. Boren, Mrs. John McCarpenter, Nicholas Buckner, H. C. Cook, Miss Bessie Steele, George Norbly, Miss Ethel Miller, George Thomas, Miss Dagny Norbly, William Stiles, Miss Marian Buckner, Norman Joyce, Miss Alice Steele, Lester Brewer, Miss Julia Gaskill, Thomas Harker, Miss Estelle Seigal, Lester Steele, Miss Marie McCarthy, Howard F. Haines, Miss Ella Snyder, E. F. Fenstermacher, Miss Mary Felker, D. D. Logan, Miss Ethel Hersh, Miss Edna Stuart, Miss Julia Sheker, Miss Helen Stuart, Miss Dora Howell, J. J. Hickey, Miss Ray Gaskill, Miss Emma Hersh, Henry R. Denny, Roger Lindsay.

### New Jersey Women to Vote.

Unless there is some other hitch, of which there seems to be little probability, the women of our State will be entitled to vote in the fall election, by reason of the adoption of the nineteenth amendment by the Legislature of Tennessee. So far as we have been able to learn this will not make any difference in the election arrangements here. The women will be registered the same time the canvas is made for the men, though it will add one, and probably two voting districts next year, as one district is not allowed to have more than 300 voters. If the women vote where they near up to their registration, two additional districts will result.

The election board in Riverton this year will be composed as follows: first district, D. M. Clifton, J. C. Sager, J. B. Murphy, James J. Flynn. Second district, John Carhart, Ogden Mattis, Jr., Charles Fox, Ezra M. Perkins.

The board in Cinnaminson township is composed of William McKinney, William Langin, Joseph F. Schmieder and Calvin Stowe.

## WEEKLY NEWS BUDGET

for Riverton and Vicinity

### Buy It At Home.

John G. Seckel is spending a fortnight at Wilcox, Pa.

Miss Josephine Westcott is spending a week at Atlantic City.

Mr. and Mrs. M. C. Boyer will go to Pocono Manor on Saturday.

B. Ralph Boyer and family have returned home from Ocean City.

The subscription card party at the Yacht Club will be held on Thursday morning, August 26, at 10 o'clock. All members and their friends are cordially invited to attend.

It may be of value to our readers to know that the services of a competent architect may be secured right at home. E. H. Yardley has recently taken up his residence at 404 Lippincott avenue.

Mr. and Mrs. N. Myers Fidler, and Mr. Edward S. Buckley, 3d, of Philadelphia, are among the guests at a house party given by Dr. and Mrs. George Fales Baker at their camp in the Adirondacks.

Mrs. E. B. Brown and Miss Mae Brown returned home Thursday after spending two weeks at Ocean Grove and Lavette. Mrs. Brown and her family were guests of Mr. and Mrs. C. W. Wanger.

The New Jersey State Board of Health and the Civil Service Commission have approved an increase in salary on the recommendation of Dr. Julius Levy, director of the Child Hygiene Bureau, for Child Hygiene District Supervisors be \$1,500 annually, and for Teachers of Child Hygiene, \$1,200.

Complaint has been made of boys swimming "in the altogether" at the bridge at East Riverton. And they are not little fellows, either, but big chaps fourteen to sixteen years of age. If the stories told of these lads deliberately exposing themselves to passersby are true, the police authorities of Riverton and Cinnaminson township should act promptly and rigorously.

Miss Linda Glass was tendered a surprise party Tuesday evening in honor of her birthday. The guests were: Miss Dorothy Ely, of Norfolk, Va.; Miss Emily Davis, of Marian, Pa.; Misses Gene and Dorothy Seast, of Palmyra; Miss Helen E. Verts, of Riverton; Messrs. Everett Cope, of Woodbury; Allen Shannon, of Philadelphia; Arthur Shaner, Harvey Fisher, John Stuckey, and Raymond Simons, of Palmyra.

A benefit ball game will be played at Florence Ass'n grounds on Wednesday, August 25, at 5:15 p.m. for the benefit of the Burlington County Anti Tuberculosis League. The teams are Florence vs. Burlington. The teams are Florence vs. Burlington. The teams are Florence vs. Burlington.

The Trenton and Camden trolley will take passengers within a short distance of the ball ground.—Adv.

## RIVERTON'S \$1000 CUP

May Offer Trophy for Ten-Mile Championship Swim. Riverton Boy Possible Winner

Swimming has risen rapidly in popular favor in Riverton of late and the Yacht Club has been kept busy handing out bronze and silver medals to its members.

Week before last Miss Harriet H. Holder swam across the river and back in 1:20, making her second time during the season, her other record being a couple of weeks previous in 1:05.

Miss Lee R. Edwards swam across in 31 minutes flat in a very choppy sea, and Vincent Bush and George W. Edwards, Jr., swam across in 23:30 and 24:20 respectively.

Friday a week George W. Smith, Jr., a new member of the Yacht Club and of Riverton, swam across in 32 minutes.

Last Saturday, Vincent Bush and Henry L. Parrish swam across and back, Parrish making the swim in 38 minutes and Bush in 1:06. However, Sunday was the big day, as Sonny Wright, on low water, made a new Riverton record for the swim both ways. Sonny swam across and back in 36 minutes, his time each way being an even 18 minutes. The best previous local record was 19 minutes made by Jack Showell, who won the across river race last year.

While Sonny was making his record swim, two juveniles made swimming history at the same time. Gr. Jr. swam across and back in the great time of 41 minutes, while Henry L. Parrish, not satisfied with his record of 58 minutes the day before, made the swim again, this time lowering his mark to 42 minutes. This youngster is some swimmer, and has all the ear marks of a "coner."

A little later Malcolm M. Dickinson, Jr. and George W. Edwards, Jr., made the across and back journey in 53 and 54 minutes. In the afternoon Miss Harriet H. Holder swam across and back, her third time this summer in 1:03, while Wesley Lloyd, the "50-yard champion of Riverton," swam across in fast time, which unfortunately, was not recorded.

It is astonishing the great number of children from 12 to 14 years of age who have swam across the river and back. At least 30 have made the one-way journey, and over a dozen both ways. Their times are really remarkable, and it is doubtful if any other town or city in the United States has so many budding swimmers.

Riverton issues a challenge to any city in the country to meet her juveniles in a swimming contest. The making of one of the foremost swimming teams in the world is right here among the Riverton boys and girls.

In the girls' three-mile race this summer we had four girls to finish: Catherine Steele, Catherine O'Neill, Violet Rigg and Virginia Campbell.

In the ten-mile national swimming championship, which was held at Camden, the Riverton boys were: John Edwards, Davisson, fourteenth. Last year the same race was won by the same number to finish: Sonny Wright, George Corner, Rex Bell and George W. Edwards, Sr.

On Saturday, August 28, Jack Showell, George W. Edwards, Jr. and Rex Bell are entered in the five-mile marathon in the Schuylkill river, and are expected to place. This Saturday Miss Harriet H. Holder will swim the ten-mile course between Race street, Philadelphia, and Riverton.

So enthusiastic is the Yacht Club and all Riverton over swimming that Mr. Durbinow has decided to go ahead and offer a \$1000 silver cup for the ten-mile national, to keep the great swim here.

The cup would have to be won three times by the same swimmer before it could become his property. It would no doubt take years to win it, and it might never be won. The national championship committee is so impressed with the mastery way Riverton has run this event in the last three years, that they have promised Mr. Durbinow if the cup is put up, the swim will be held in Riverton.

Miss Edna Lloyd is visiting friends at Swedesboro.

William McConnell and family are spending a week at Lavette.

Mr. and Mrs. Edward King returned home Sunday from Lavette.

Miss Katherine Hirsch spent last week-end with Mrs. Weikel at Olney.

Mr. and Mrs. Harry Nichols spent the week-end at Huxtion with relatives.

Misses Ruth and Madge King are visiting their sister, Mrs. Clinton B. Woolston, at Lavette.

Rev. A. P. Apgar, of Camden, had charge of both services at the Methodist Church last Sunday.

Mrs. Shaffer and daughter, Elizabeth, of Vine street, are guests at the cottage of Gilbert Taylor, at Somers Point.

Mrs. William E. Russell has taken a position in the bookkeeping department at the Cinnaminson National Bank.

James Johnson, of Morgan avenue, left Monday for a business trip to Mexico, representing the Standard Oil Company.

James Jenkins, catcher of the Gray's Ferry team of the railroad league, is making quite a reputation as a ball player.

Mr. and Mrs. Robert C. Biting spent the week-end at Wildwood. During the visit Mrs. Biting enjoyed her first airplane ride.

Miss Helen Lamont, and Misses Clara and Rae Hutchins, of Riverton, will go to the Moose Mountains in Pennsylvania on Saturday.

Mrs. Thomas Lewis returned home Wednesday after spending several days as the guest of Mr. and Mrs. W. Coffman Meade at Atlantic City.

It is understood that State Senator Bright is being supported by the J. A. Salomon hereabouts in his race for the Congressional nomination.

All members of Post Rodgers are requested by Commander Boehme to come out for Harrison Mohrmann's funeral Sunday afternoon in uniform with blouses.

Dick Wanger, who is spending the summer at Lavette, will visit Dick and wife at the home of Mr. and Mrs. W. C. Biting.

Mr. and Mrs. D. H. Lamont have returned home after spending two weeks in the mountains of Pennsylvania and New York, and visiting at Ocean Grove.

Palmyra Knights of the Golden Eagle will go to Florence on Tuesday evening, August 24. Leave Riverton station at 7:15. Free transportation by Cokes' auto truck.

Rev. Philip Volmer, Jr., of Cleveland, O., spent Sunday and Monday with his sister, Mrs. Elvin I. Powell, and then went to Wildwood to visit his parents, who are spending the summer there.

Mr. and Mrs. Stackhouse, of Florence, motored to Palmyra, Sunday to visit their daughter, Mrs. Herbert Kemmerle. Mr. and Mrs. Kemmerle returned with them and Mrs. Kemmerle remained for several days.

Strips were taken at the township meeting Tuesday evening to bring about an amicable adjustment of the dispute between Elias Toy, regarding the inspection of plumbing in his new home. Plans for a suit were dropped.

Inspector Land has added John Graham to his honor roll of those who have taken trouble to clean up and otherwise improve their section of the street. A good example for other citizens.

Mr. and Mrs. T. A. Lloyd, Mr. and Mrs. Thomas Branson, Miss Ruth Branson, Mr. and Mrs. Benjamin Fine, and Mrs. Benjamin Doehner, of Washington, spent Saturday at Atlantic City.

Bobby Bates has returned home from the Cooper hospital somewhat improved but with the doctors still puzzled over the nature of his ailment. One side of his face is still somewhat paralyzed.

Mrs. Thomas Branson and daughter, Miss Ruth, returned last Friday from a visit among relatives in Washington, D. C.

Frank C. Bell, of Highland avenue, was presented with a purse and a traveling bag on the occasion of his retirement from the service of the Pennsylvania railroad last week. He had reached the age of 70 and had been in the employ of the railroad over 25 years.

Mr. and Mrs. John Althouse and Edwin Kreeker attended the annual reunion of the Althouse family at Perkasee on Wednesday. About 200 were present, although the number was smaller than usual on account of the weather. Prof. Calvin O. Althouse, who was visiting in Palmyra, several weeks ago, was one of the speakers.

The resignation of George M. Becker as Collector of Taxes was accepted at the township meeting Tuesday evening and Frank C. Bell was appointed to the position. Since the office of custodian of school funds has been separated from the collectorship, the collector's pay has been much less and there seems to be trouble in filling the position. It is one of the offices to be filled by election this fall.

Lightning struck Amos Miller's house on Broad street on Monday and ripped the shingles off part of the roof. No one was harmed and no damage was done to the interior of the house. Mrs. William H. Truman was sitting on the porch at the time and she did not know the house had been struck until she saw the shingles flying. It is said that the lightning flashed over a large section of the neighborhood at the same time.

In last Sunday's Inquirer was published two photographs and a long story about the proposed ferry between Palmyra and Tacony. There is not the slightest doubt that if it can be put through the project would be a great convenience to farmers and motorists in this part of the State, and to those who motor to the seashore. Indications point to the probability of this ferry being completed before the bridge between Camden and Philadelphia is started.

### New Bank Ready for Business.

The Palmyra National Bank held "open house" last Saturday afternoon and evening, and many friends of the new institution visited its quarters at Broad and Garfield avenue to inspect the place and its fittings and to congratulate the officers and directors on the consummation of their efforts, which will give Palmyra the banking facilities right at home for which it has hoped and waited.

The Riverside Trust Company sent a handsome basket of flowers, and many floral offerings were received from individuals.

Notwithstanding the bank did not open for business until Monday, about \$50,000 was left Saturday to be deposited the first thing Monday morning. The deposits up to last night amounted to about \$75,000.

John C. Hoepfner, one of the directors, took a master's mind behind the interior arrangement of the bank, which are both convenient and pleasing to look upon.

Surface Drain to Cost \$16,500.

The Township Committee, last Tuesday night, decided to go the limit to bring about proper drainage of "the broad street" lake at Morgan avenue.

It had been hoped to utilize the big, 36-inch drain, running down Broad street from Cinnaminson avenue to Pensauken creek, which was constructed by the County at the cost of \$18,000 many years ago. Engineer Vosbury, however, reported that tests during recent heavy rains had showed that this sewer already was carrying a capacity load of water.

The Engineer said the best solution was to construct a new drainage sewer, 30 inches in diameter, from the center of the affected district, down Morgan avenue to the Boulevard, where it would empty into the natural drain. This sewer would have to pass under the railroad and the new Broad street road surface by tunneling. Smaller conduits would be run from its upper end to Lincoln avenue, Washington avenue, and to the intersection of Morgan and Highland avenues.

The cost of this plan, Mr. Vosbury estimated, would be about \$16,500.

The Township Committee decided to put it up to the people by having an ordinance prepared and given its preliminary passage, after which a public hearing will be held.

A special meeting of the committee will be held next Tuesday evening to take up the ordinance.

The ordinance for sidewalks on New Jersey avenue was given final passage and another ordinance for sidewalks on Pennsylvania avenue and on Broad street from New Jersey to Park avenue is being prepared.

Chairman Davies introduced a plan to have two or three arc lights installed on Cinnaminson avenue between the railroad and the outskirts of the town. The matter will be gone into further.

Military Funeral for Harrison Mohrmann.

The body of Harrison G. Mohrmann, who died in France while a member of the A. E. F., arrived at his home here today.

The funeral will be held Sunday afternoon. Post Rodgers, American Legion, will have charge of the services and a burial will be made with full military honors.

Private Mohrmann was a member of the Independence Fire Company, and all firemen are requested to attend the funeral.

The Firemen's Carnival.

The great annual carnival of the Independence Fire Company will be held at the Field Club ball park next Friday and Saturday evenings.

There will be music and dancing. Baskets of fruits, fine vegetables, cakes and carnival novelties will be on sale. The fruits have been presented to the firemen by the farmers of the surrounding districts and the cakes will be baked by the ladies of Palmyra.

The great exhibition of fireworks which has always been a feature of these celebrations will take place Saturday evening, the 28th.

P. C. Shuts Out North Camden.

Palmyra Field Club won in a walk over the North Camden A. C. last Saturday, despite the good work of the opponent pitcher, McMahon, who had 15 strike-outs against 13 for Hardy. The score was 7 to 0.

The game was a pitcher's duel for six of the nine innings, neither side scoring, but in the other session's McMahon's support faltered, and the Field Clubbers pasted his offerings so liberally at such times that the Camdens lost heart.

The scoring started in the third. After Durgin fanned, Hardy hit a Texas leaguer to center. Andy Pfaff fanned, Camden's shortstop fumbled MacMullin's drive, making two on and two out. Then the fireworks.

Russ Gibson sent a high fly to short left from the left fielder, who was said not to have missed one before all season, dropped it. Hardy scored, MacMullin went to third and Gibson to second. Len Baker grounded to second, where another fumble allowed MacMullin and Gibson to score. Tying them drove a clean two-bagger to right, scoring Baker from first. Fred fanned. Four runs.

In our end of the fourth, Schroepfer fanned. Francis Durgin singled to right and attempted to steal second. He was sewed up for a minute between the two bases, but was saved by a throw over the first baseman's head. Hardy fanned. Andy Pfaff drove to second, who fumbled again. MacMullin's hit over third scored Durgin. Gibson lined to third and was out. One run.

In the fifth North Camden protested. Umpire Feldman's decisions and Boehme was put on the bases to pacify them.

Baker started at bat in Field Club's half of this inning and was out at first. Tying drove through second and Fred hit through third and that made a double steal, while Schroepfer was fanned. Francis Durgin's hit to left center scored the pair of them. Hardy was out at first. Two runs.

After that the game grew listless. Camden was disgusted at its many errors, and the locals didn't need any more runs. Gibson, in the sixth, stole second on catcher Deighan, whose arm had most the base runners buffaloed.

Palmyra was a little bit worried about the "fateful" seventh, and the visitors did attempt an uprising in that frame. Jetter hit through Tying and Deighan hit through Baker at first, sending Jetter to third. Only one was out, and it looked like they were going to score.

The next man grounded to Gibson at short, and Russ had to do some quick thinking. Jetter was taking a lead off third for a dash home should "Gibb" attempt to get the runner at first, while Deighan rounded second. Gibson forced both Jetter and Deighan back to their bases and still had time to snap the ball to Baker for an out at first. The next man fanned. No runs and the seventh was over.

The remaining innings were uneventful.

Celebrated comebacks this season, as evidenced by their work Saturday, are Durgin and Pfaff. Durgin is hitting well, and Andy is there all the way.

Armstrong will be here this Saturday with a crackerjack team.

Athletically inclined members of Post Rodgers are training for the State Legion track meet at Alcyon Park, Pitman, N. J., on August 28. Palmyra boys entered thus far are Hubbs, Fox and Flynn, for the 100-yard dash. Others expected to compete are At. Donaghy, Tony Boehme, and Arthur Wright. Charles Bates is acting as trainer. Trucks will leave the station at noon on the 28th for Pitman, and the boys would like to take a crowd with them. Additional entries from Post Rodgers are also desired.

Meeting at 10 a. m.  
A cordial invitation is extended to all.

## Last Night's Dreams —What They Mean

### DANCING.

TO "TREAD THE MAZY" in shadowland; in other words to dream of dancing is, all the seers are agreed, a good sign. Just to dream of dancing is attending a dance foretells for you success in love and that you will have many friends if, indeed, it does not mean as many think, that you have many now, even if you are not aware of it. You had better join in the dream dance, however, and not be merely an onlooker; for to dream that you are dancing yourself is an omen of many other good things to come. However if you dream that you simply watch the others doing the minuet, fox-trot, valse de court, two-step or other terpsichorean exercise, it is not very bad—it only means that you have gone to bed tired. But to dream that you, yourself, are dancing—then, indeed, are things coming your way.

To begin with, there is the success in love and friendship. If you are unmarried, your sweetheart is kind, true, and will make you an excellent wife. If you are married, the dance of dreamland means an increase in the family. Also, all the authorities agree that for the dream dancer, there is a legacy impending. Some say a legacy is "probable," but most say that it is sure, and many declare that it will come from an unexpected source. To those in trade, the dream dance means increased profits, and from the present cost of things it is quite evident that many tradesmen have dreamed this dream of late.

To the sailor to dream of dancing foretells a pleasant and successful voyage, and to one and all it foretells good news from a long-absent friend, or from a distant country. Just one caution. Be careful how you dress yourself for your dream dance, for it you wear dancing tights, while all the other good things may come to you, you will be temporarily short of money.

## THE KITCHEN CABINET

July 4th statistics show that we lose more fools on this day than in all the other days of the year taken together. This proves, by the number left in stock, that one Fourth of July per year is not inadequate, the country has grown so—Mark Twain.

### GOOD CAKES.

The days when a pound or even a cupful of butter was used in making cakes are now a thing of the past. Forgotten and with sugar scarce and high, cakes except of the simplest kinds are a luxury.

**Golden Orange Cake.**—Take one-half cupful of clarified drippings, one cupful of New Orleans molasses, one egg, one tablespoonful of sugar, the juice and rind of a small orange, one teaspoonful of soda dissolved in one-half cupful of cold water, two cups of pastry flour, a pinch of salt. Mix as usual; bake in a shallow pan. Butter while hot and cover with powdered sugar.

**Cream Loaf.**—Cream one-half cupful of shortening, add one cupful of sugar and the well-beaten yolks of two eggs. Add one-half cupful of milk or thin cream, one cupful of flour and one-half cupful of buttermilk, mix with three teaspoonfuls of baking powder. Mix and beat well; then fold in the stiffly beaten whites of the eggs. Bake in a well greased loaf pan about forty-five minutes.

**Brown Sugar.**—Take one cupful of brown sugar, one-half cupful of shortening, one cupful of buttermilk, one teaspoonful of soda, allspice, cloves to taste, one cupful of raisins (nuts and citron may be added if liked) two cups of flour and vanilla to flavor. Bake in layers and put together with chocolate filling.

**Angel Food.**—Take one cupful of egg whites, one cupful of sugar, one cupful of sifted flour, one teaspoonful of phosphate baking powder. Put half the baking powder into the egg white and half into the sifted flour. Bake 50 to 60 minutes in a slow oven.

**Rolls Jelly Cake.**—Take three eggs, one cupful of sugar, one cupful of flour, two tablespoonfuls of baking powder. Beat the eggs until light, add sugar, two tablespoonfuls of cold water, pinch of salt. Stir in the flour sifted with the baking powder, adding flour gradually. Bake in a dripping pan well greased. Turn out on a towel wrung out of cold water. Spread with jelly; roll up while warm.

Gods Galore.

India holds the record for images. It has been estimated that there are more than 100,000,000 images of the various gods there.

## YOUR RED CROSS

The American Red Cross, by its Congressional charter, is officially designated:

To furnish volunteer aid to the sick and wounded in times of war, in accordance with the conventions of Geneva.

To act in matters of voluntary relief and as a medium of communication between the American people and their Army and Navy.

To continue and carry on a system of national and international relief in time of peace and to apply the same in mitigating the sufferings caused by pestilence, famine, fire, floods and other great calamities.

To devise and carry on measures for preventing these causes of suffering.

FOURTH RED CROSS ROLL CALL

November 11-25, 1920.

MEMBERSHIP FEES:

Annual ..... \$ 1.00

Contributing ..... 5.00

Life ..... 50.00

Sustaining ..... 10.00

Patron ..... 100.00

Send dues to your nearest local chapter.

## FIRST AID TRAINING TO MEN AND WOMEN

American Red Cross Is Teaching Hundreds of Thousands Life-Saving Methods.

The purpose of instruction in First Aid to the Injured offered by the American Red Cross is to train men and women to administer First Aid treatment promptly and intelligently when emergencies demand it. First Aid treatment is not intended to take the place of a physician's service. A surgeon should always be summoned as a precautionary measure where there is an injury of any consequence, but when one cannot be secured a few minutes' delay may mean a fatality. In such a case a person trained in First Aid is invaluable not only to the individual, but through him to the community in which he lives.

There is perhaps no way of ascertaining the number of deaths or serious disabilities which result from lack of proper safeguards or prompt emergency treatment. It is safe to assert they number thousands daily. There can be no doubt that the application of First Aid methods to each case would immeasurably lighten the country's toll of suffering and death.

The dissemination of First Aid training and information has already produced a far-reaching and beneficial influence in the prevention of accidents on railroads, in mines and in great industrial concerns.

The benefit of a widespread knowledge of First Aid in the event of a great disaster, such as a train wreck, an explosion, an earthquake, etc., is obvious. Laymen who have had First Aid training can render efficient assistance. Many lives may depend upon such emergency care.

Red Cross First Aid work includes (1) the formation and conduct, through Red Cross chapters, of classes for instruction in accident prevention and First Aid to the injured among men and women in all communities and in every industry; (2) the introduction of courses of instruction in high schools and colleges.

The Red Cross is prepared to supply First Aid books and equipment at reasonable prices.

Every person in this country able to do so should, in his own interest, receive Red Cross First Aid instruction. Information about the course and instruction classes may be had at the nearest chapter headquarters.

Improved Umbrella Construction. Mechanically simple as an umbrella is, it is usually generally taken apart to repair a broken rib or stretcher, and the task is beyond most owners' says Popular Mechanics Magazine. A Brooklyn inventor has improved on the usual construction by inserting the end of each rib and stretcher between a pair of metal ears on the notch and runner members, using a short wire with bent ends for the pivot.

How Mint Buys Gold.</

## SHOULD REVISE N. J. CONSTITUTION

Many Changes in Constitution Desirable—Among Them Raise in Salaries of Legislators.

### MARKED CHANGES AT RAHWAY

New Wards at Morris Plains Hospital Will Somewhat Relieve Congestion. Governor is Urged to Remove Utility Commission.

Trenton.—There are many subjects which the voters should bear in mind at this time when aspirants for seats in the legislature are seeking their support, but there is none more important than the need of amending the Constitution, a matter which the present legislature did not even consider, though there is not the slightest doubt that most of the members had it in mind, particularly the desirability of increasing the compensation beyond \$500 a year.

When the present salary was fixed, not only were living expenses much lower, but the cost of going through a primary and election campaign was inconsiderable in comparison with the expenses now, and since the salaries of every other class of public officers have been generously increased there is no reason why the senators and assemblymen should not receive consideration. It is true that a salary increase amendment was defeated a few years ago, but conditions were different then.

The subject of biennial sessions should also receive attention. New Jersey is one of not more than half a dozen of the states that stick to the ancient custom of holding legislative sessions annually. In the old days two or three "sessions" were held yearly, and it is time that the people took another step forward and adopted the biennial session plan, which will not appear like such a radical move after the experience of this year.

Many other changes in the Constitution are desirable, and the legislative candidates should be men with ability and force to present them for consideration next year in order that they may be submitted to popular vote in 1922, after having received the approval of two successive legislatures. This is no time to nominate candidates whose only claim is that they covet the honor and think they will be able to give as good service as others have given. The fact is that the service has been unsatisfactory. It can be improved by raising the standard of candidates.

### More Honor Among Rahway Inmates.

In Rahway Reformatory during the past year the new methods advocated by the State Department of Institutions and Agencies, principally concerning the classification of its inmates have been carried out along more extensive and thorough lines than in any other institution of the state and have effected a marked change in the results obtained in the reformatory. This statement is made in a letter to Ogden H. Hammond, president of the State Board of Control of Institutions and Agencies, by Burdette G. Lewis, Commissioner of Institutions and Agencies, who says that the reformatory has served as an experiment station to show the progress made under the system inaugurated about two and one-half years ago with the creation of the State Department of Institutions and Agencies.

Mental tests, which had been tried out as early as 1911, but limited to the administration of the school of the institution, were kept within these limitations until the latter part of 1919, when the classification was extended to include every inmate committed to the institution. Not quite two years' operation of the classification methods necessary to drive home their efficiency. By those means it was demonstrated that there was more honor among the inmates than it was possible to disclose under the old method of control.

Commissioner Lewis' letter shows that from a record of escapes, a total of twenty in 1919, the school just closed, during which there were reported only two escapes, was the long step toward the goal of perfection, which the modern treatment of the inmates is designed to accomplish.

### New Wards for State Hospital.

Proposed building operations at the Morris Plains hospital, for which \$800,000 is available, were considered at a conference between Governor Edwards, Superintendent Marcus A. Curry of the hospital, Daniel S. Voorhees of the board of managers and State Architect Francis Bent.

Mr. Bent expressed the belief that in place of the two psychopathic wings proposed to be erected, but which it was found would cost far in excess of the available appropriation, it would be possible to build a double building with two psychopathic wards and an administration structure in the center for \$400,000, the amount available for the purpose. It was agreed that this should be done, provided a contract can be awarded within the appropriation.

It was also agreed that the other half of the appropriation, or \$400,000 should be devoted to building an infirmary at the hospital and that the work should be undertaken as soon as possible. Although the completion of these structures will not relieve entirely the present overcrowding at the hospital they will help substantially.

### Want Utility Commission Removed.

It is not the purpose of the Trenton City Commission to co-operate with the governing authorities of Jersey City, Newark, Paterson and other cities of the state in a movement to urge upon Governor Edwards the immediate removal from office of the members of the New Jersey Board of Public Utility Commissioners.

The feeling against the Utility Commission has rapidly been becoming more intense throughout the state, and the climax was capped during the last week when the Public Service Gas

Company was granted authority to increase its rate for service from \$1.15 to \$1.40 per thousand cubic feet and the Cumberland and Pleasantville Gas Companies to establish a \$2 rate. Governor Edwards is being urged by his two closest political friends and advisors, Mayor Hague and John Milton, corporation counsel of Jersey City, to take summary action against the commission and the Newark and Paterson authorities insist that the governor expedite his decision in the charges brought against the commission by Jersey City.

Members of the Trenton City Commission, although feeling that the Public Service Gas Company rate increase is without justification, will allow events to take their course.

### Perth Amboy Bridge Closed.

Thomas J. Wanser, state highway engineer, has announced that the Perth Amboy bridge will not be open until September 1. Motorists traveling to shore points will find it necessary to detour by way of New Brunswick. The best route to New Brunswick is by way of Westfield, Plainfield, New Market and Highland Park.

**Bountiful Crops Indicated by Report.** Weather conditions extremely favorable to the growth of vegetation prevailed throughout New Jersey during July and as a result all crops show a substantial increase over the estimates for July 1. This is indicated in the New Jersey crop report for August 1 prepared by the United States Department of Agriculture in co-operation with the New Jersey department and the Bureau of Statistics and Inspection.

The condition of corn August 1 was eighty-eight per cent of normal, indicating a yield of forty bushels per acre and a total production of 10,240,000 bushels as compared with 10,800,000 bushels, last year's final estimate, and 10,000,000 bushels, the average production for the past ten years.

Wheat suffered severely from winter killing and the yield in New Jersey is the lowest for the last ten years. It is estimated at 10.3 bushels per acre, a total production of 1,640,000, as compared with 1,962,000 bushels, the average production for the last ten years. The quality of this year's crop is eighty-eight per cent of normal, which is three per cent under the average quality for the past ten years, and twenty per cent better than the quality of last year's crop, which suffered severe damage from wet weather after harvest.

The condition of the oats crop August 1 was ninety-six per cent of normal, indicating a yield of 88.6 bushels per acre and a total production of 2,587,000 bushels as compared with 2,401,000 bushels, the final estimate for last year and 2,327,000 bushels the average production for the last ten years.

The yield of rye this season is estimated at 17.5 bushels per acre and the total production at 1,200,000 bushels as compared with last year's final estimate of 1,206,000 bushels. The quality of this year's crop is nine per cent better than that of last year and slightly above the average for the last ten years.

Potatoes are reported in excellent condition in all parts of the state. The condition August 1 was ninety-five per cent of normal, indicating a yield of 120.2 bushels per acre and a total production of 13,824,000 bushels as compared with last year's final estimate of 10,540,000 bushels and an average of 9,908,000 bushels for the last ten years.

The condition of sweet potatoes August 1 was 93 per cent of normal, indicating a yield of 135.8 bushels per acre and a total production of 1,901,000 bushels as compared with last year's final estimate of 1,760,000 bushels and an average of 2,637,000 bushels for the last ten years.

It is estimated that New Jersey will produce 3,225,000 bushels of apples this year as compared with 2,313,000 bushels last year and 2,241,000 bushels the average production for the past ten years. The commercial crop of apples is estimated at 838,000 barrels as compared with 587,000 barrels last year. Indications point to the production of 1,032,000 bushels of peaches which is slightly in excess of last year and considerably above the average for the past ten years.

### Decrease of Food in Storage.

There was a decrease in the amount of many food articles held in cold storage in New Jersey in July, as compared with the previous month and as compared with the months of June and July of last year, according to a compilation just made by the New Jersey State Department of Health. Of other foodstuffs increased amounts in cold storage are shown, but the decreases are greater than the increases.

On June 30, 1919, there were 333,461 cases of eggs in cold storage, which was increased to 556,885 July 31, 1919, and on June 30 last there were 486,307 cases in storage, which increased to 500,280 on July 31 last, a smaller number of cases than in 1919.

There were 184,500 pounds of broken eggs in storage June 30, 1919, which fell to 157,200 pounds July 31, 1919, but increased to 230,170 June 30, 1920.

### Coaches to Go in the Trossachs.

An epoch of more than local interest was closed recently, when the four-in-hand and other coaches formerly in use on the famous Trossachs route were brought under the auctioneer's hammer.

For more than 60 years the four-in-hand coach with its team of powerful horses and its post-boy in scarlet coat and white hat has been a familiar and picturesque feature of the season on the road between Callander and the Trossachs.

The picturesque four-in-hand coach is being displaced by the utilitarian motorcar, and a fleet of them is being put upon the road by the new company which has taken over the Trossachs hotel from the Blair family, in whose hands the famous hostelry has been for more than half a century.—Edinburgh Scotsman.

### Man to Avoid.

Beware of the man of the harsh and sneering voice, he that never laughs and rarely smiles, for in the heart of him there lieeth much cruelty and treachery and the cowardice that lurks to smite unwares.—San Ben Jansen.

## Fruit Trees Are Scarce!

### We Advise Ordering AT ONCE

This is the first time in our history that we have issued an announcement at this time of the year. Our interest in thousands of fruit growers this year impels us to warn them that fruit trees, especially the best varieties, will be very scarce this year. The man intending to plant a few or several thousand fruit trees (especially apples) should place his orders very early this year. He had better place his order NOW.

### World Shortage of Apple Seedlings

France has always been America's chief source of apple seedlings. From 1914 until the spring of 1919 war-torn France produced very few apple seedlings. In a few sections of the United States, in our propagating grounds in Kansas and in our branch nurseries, we here in America have done our best to make up for the world-wide shortage of apple seedlings. But—the shortage still exists—and but for the fact that we are so far ahead and saw to it that

### Major Stark Was First to Contract for French Apple Seedlings

soon after the Armistice was signed, we would be in no better position than many other nurseries. When Major Lloyd C. Stark came back from France with his regiment, he had in his pocket contracts for huge blocks of French seedlings. Due to this foresight, we are in a better position to

supply our loyal friends and customers than any other fruit tree nursery in the world. However, the shortage elsewhere has created and intensified the tremendous demand for Stark Trees. Ample as our stock of trees will be, we advise you to place reservation orders at once.

## Stark Bro's Nurseries

### Are Ready to Supply Big Fruit Tree Buyers

—and the man who wants just a few trees. If you protect yourself by writing us at once for latest price list—and then, by placing your reservation order at once, we will ship the trees whenever you direct—and protect you against disappointment. Despite the shortage we hold our trees at Reasonable Prices. We feel that it is our duty toward the orchardists, who, by their patronage, have helped to make this the Largest Nursery in the World, to hold prices as low as possible. Even our famous Stark Delicious and Stark's Golden Delicious Apples and our famous Peach, Pear, Plum, Cherry trees and Berry bushes are priced with the idea of encouraging greater orchard planting in America.

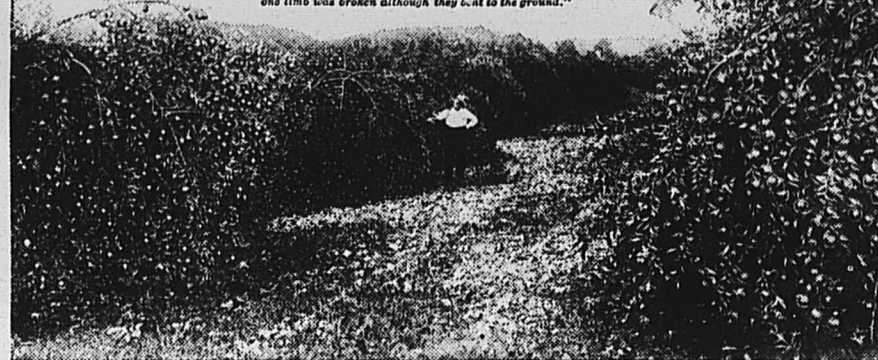

### But—Act Quick!—Write for New Price List

Don't wait until the usual time of ordering fruit trees. Our nursery, and others turned down thousands of orders last season. Don't you be disappointed this year—ORDER NOW.

### STARK BROS' NURSERIES

The Only Stark Nursery in Existence at LOUISIANA, Mo., Since 1816

Stark Delicious Trees Loaded With Top-Price Apples. *These orchards are the source of the best quality of Stark Delicious apples ever grown in any nursery in the world. Mr. Stark's Delicious trees are loaded with top-price apples. If you want to get the best quality of Stark Delicious apples, order Stark's Delicious trees. The fruit will be as good as the trees. The fruit will be as good as the trees. The fruit will be as good as the trees.*

## JUNIOR RED CROSS WORKING AT HOME

Production of Sound American Citizenship the First Aim, Says Dr. Farrand.

On the badge of every member of the Junior Red Cross are the words "I Serve." That tells the story of the school children's branch of the American Red Cross and its efforts to bring happiness to children throughout the world.

Realizing that the time never was so propitious as right now for teaching the highest ideals of citizenship, the entire present program of the Junior Red Cross has been framed under the very inclusive phrase, "Training for Citizenship Through Service" for others. Since the Junior Red Cross is the agency through which the American Red Cross reaches the schoolchildren and the schoolgirls, all its activities are designed to come within the regular school program, and without creating new courses or increasing the number of studies to lend its aid in vitalizing the work of the schools.

The thing that is needed," says Dr. Livingston Farrand, Chairman of the American Red Cross Central Committee, "is not a perpetuation of the Junior Red Cross, but the training and breeding of sound American citizenship inspired by the true, fundamental ideals of sound democracy. One of the great concepts in the Junior Red Cross is a contributor to better citizenship in our American democracy is the realization that after all the sole hope of any nation is with the children of the country."

The plan of organization of the Junior Red Cross makes the school—public, parochial and private—the unit, not the individual pupils. Mutual service, helpful community work such as clean-up campaigns, care of the sick, promotion of health regulations, participation in civic and patriotic movements—all these creative agencies designed to translate into life and action the regular school program are parts of the machinery which the Junior Red Cross places at the disposal of the school authorities.

Graded study courses, giving practical methods of civic training, supplemented by pamphlets and helpful suggestions, are supplied to the local schools by the Junior Red Cross. An elaborate plan for promoting an interchange of correspondence between children in different sections of the United States as well as with children in foreign lands is being devised and will take a prominent place in the established classroom program.

In promoting the general cause of child welfare, Red Cross courses in home hygiene and care of the sick, first aid, and dieting may be established in all Junior Red Cross Auxiliaries.

The ideals and the objective of the Junior Red Cross are embodied in the pledge of service which the pupil takes when he signs the membership roll and places on his coat the Junior's badge. The pledge which binds together service and citizenship reads:

"We will seek in all ways to live up to the ideals of the Junior Red Cross and devote ourselves to its service. We will strive never to bring discredit to this, our country, by any unworthy act."

"We will reverence and obey our country's laws and do our best to inspire a like reverence and obedience in those about us."

"We will endeavor in all these ways, as good citizens, to transmit America's greater, better and more beautiful than she was transmitted to us."

## CINNAMINSON

An Indian name from the Leni-Lenape Nation, the original owners of New Jersey, meaning

### "SWEET WATER SHORE"

The original settlers of this section deserve the credit that is given in history to William Penn, for they made friends with the Indians, and bought from them this section of New Jersey, long before William Penn came over of Philadelphia was established. They also retained many of the musical-sounding Indian names.

The Riverton & Palmyra Water Company lives up to the ancient name

### Early Basket Makers.

The ancient Islanders of Great Britain were famous basket makers and their wares were costly acquisitions in the palaces of Italy. They manufactured woven boats and covered them with the skins of wild animals; their huts were made of openwork made of osiers and their warriors' shields were constructed of reeds in a marvelous impenetrable manner.

### Memorial to Great Scientist.

The original home and laboratory of Dr. Joseph Priestly, the chemist who discovered oxygen in 1774, a frame house, located on the banks of the Susquehanna river at Northumberland, has been bought by graduate chemists of the Pennsylvania State college, who plan to move it to the college campus in Philadelphia and make it a lasting memorial to the great scientist.

### Steel Ships Carry More.

Ships built of steel are said to be able to carry about 20 per cent more cargo than those made of iron.

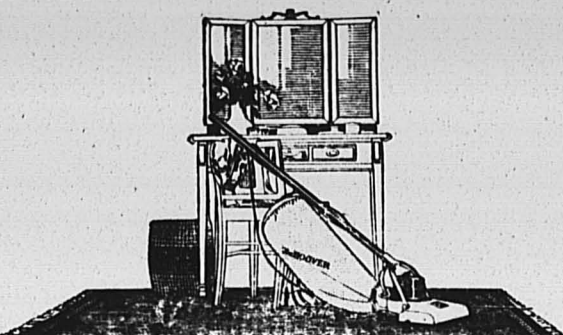

## A SUGGESTION

for Saving Wasted Postage and Increasing Your Business

Unless your letter weighs one ounce, you are wasting some part of the postage you pay on it. Most business letters weigh less than half an ounce, so envelope stuffers \* cost nothing to mail. Let us show you how attractive a stuffer can be made.

THE NEW ERA  
Riverton, N. J.

## The Hoover Prolongs the Life of Rugs

It is not walking on them that injures rugs most, but poor cleaning.

Most cleaning methods necessitate taking up a rug, when its weight strains on all parts handled. Many a good rug has been cut by hanging on a line, or laid its warp broken by hand beating and shaking.

Insufficient cleaning leaves embedded grit which cuts the nap. Cleansing that does not lift the nap exposes the side of the threads to wear, resulting in rapid destruction of the pile.

The Hoover cleaner averts all these dangers.

It cleans rugs on the floor; only a small portion at a time is suction lifted; the rest of the rug lies flat; no strain or breaking; warp.

The Hoover brush beats and sweeps the lifted part gently. Its rapid vibration jars all the deep-seated dirt out, to be swallowed up in the bag. None is left to cut the threads. But only the Hoover cleans so well, because only the Hoover beats as it sweeps, as it cleans.

The brushing straightens and lifts the nap, so wear is brought to the top and the color is restored. Hoover cleaned rugs look fresh and new.

The Hoover makes rugs last longer, saves rug-cleaners' bills, soon pays for itself. By making work easier it saves your youth and health. Just try it.

"Hoover Special" for the average home, \$65, attachments, \$15. Larger Hoovers and smaller Hoovers as well. Ask to see how the Hoover removes embedded dirt. No obligation attached.

The Thor Ironer does all but the frilliest things, in one-fourth the time you can iron them by hand

## Buy Your Gas Range Before Moving Time and Save Ten Per Cent

When we get to fall moving time our expert gas range fitters are going to be exceptionally busy.

To induce you to buy a gas range now and thereby let us get as much fitting work out of the way as possible, you are offered a 10 per cent. reduction during August on every range in our stock. Come take a look at them.

The No. 1481 Reliable is a well-made, easy-to-clean range that will do your cooking for years. It is approximately 43 inches wide.

The cooking top is roomy, with five burners and a lighter. The baking oven will bake eight one-pound loaves evenly, and the broiling oven is large enough for a twelve-pound roast. One burner heats both ovens, a gas-saving feature.

Two shelves provide generous space for utensils.

Polished steel, white enamel splashers, pans, broiler door panel and glass window set in a white enamel panel are features of this high-grade, handsome range.

Regular price, \$94.80. August monthly payment price, \$85.32. August cash price, \$81.06.

You can save \$9.48 by ordering now, as quantity is limited, and when present stock is gone there will be no more at the reduced price.

**Ford**  
THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3 1/2-inch tires front and rear, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability.

## LESSON FOR AUGUST 29

## BEGINNING OF SOLOMON'S REIGN

## LESSON TEXT—1 Kings 1:1-8; 2:1-12

**GOLDEN TEXT**—The fear of the Lord that is wisdom; and to depart from evil is understanding.—Job 28:28

**PRIMARY TOPIC**—Solomon's Choice.

**JUNIOR TOPIC**—Solomon's Wise Beginning.

**INTERMEDIATE AND SENIOR TOPIC**—Choosing the Best Things.

**YOUNG PEOPLE AND ADULT TOPIC**—True Wisdom and How to Get It.

I. Solomon Anointed King (1:1-8).  
David had hitherto failed to show the people who should be king after him (v. 20). He is now stirred to action by the combined appeals of Bathsheba and Nathan. He immediately sent for the faithful three, Zadok, Nathan and Benaiah, and bade them to anoint Solomon king. They speedily executed their commission and soon the people shouted "God save king Solomon!"

II. Solomon's Acts to Establish His Kingdom (1:11-21:40).

Coming to the kingdom at such a time as this, he noted certain dangerous elements, which, if allowed to develop, would weaken if not destroy his rule.

1. Adonijah placed under surveillance (vv. 41-53). Though he had attempted to usurp the kingdom, Solomon placed him on good behavior. In this treatment, Solomon displayed both clemency and dignity, which are praiseworthy in a ruler.

2. Adonijah executed (2:13-25). Solomon ordered him executed because he made an underhanded effort to become king.

3. Abiathar removed from the priesthood (2:26, 27). This man had joined Adonijah in his plot of usurpation. Solomon removed him from office and appointed Zadok in his stead.

4. Joab executed (2:28-35). Joab, too, was a party in Adonijah's rebellion. Beside this he had treacherously murdered his rivals in the army. He was succeeded in the generalship by Benaiah.

5. Shimei executed (2:36-39). Shimei had deserted David and joined his enemies, even bitterly cursed him. Solomon first paroled him and confined him to Jerusalem, but when he broke his parole he had him executed.

III. God's Gracious Offer to Solomon (3:4, 5).

Solomon made a lavish sacrifice to the Lord. It was not that the Lord cared for the number of animals, but the attitude of the man's heart toward him. "Ask what I shall give thee" placed very wide possibilities before the king. God, as it were, signed blank checks and turned them over to Solomon to fill in any amount that his heart desired.

IV. Solomon's Wise Choice (3:9-12).  
The Lord's gracious offer brought the king face to face with the responsibility of making a choice. God so deals with his children that a choice must be made by everyone.

Solomon was keenly sensible of the difficulty and the responsibility of his position. David was a great king. For a young man to take up the work of an illustrious father and push it to completion is a most difficult task.

Besides all this, the disturbing elements set in motion by the usurper, Adonijah, were to be dealt with. In his reply to God he pleads that he was not king as a result of his own choosing, but because of God's loving kindness. All who have been called of God to fill positions of honor and trust can truly exercise that same boldness of faith. When called to positions of honor and trust we should not become high-minded and vain, but humbly present ourselves before God for help.

V. God's Untold Gift to Solomon (3:10-15).

Solomon's speech pleased the Lord. The Lord is always pleased when we place ourselves before him in such attitude. Solomon got more than he asked for. Because he put wisdom first, God saw that he could be trusted with material good, also. Christ taught the same thing when he said, "Seek ye first the kingdom of God and his righteousness; and all these things shall be added unto you."—Matt. 6:33. He that puts God and spiritual things first in time and importance can be trusted with temporal things. That which God promised him above what he asked was riches, honor and length of days. All who feel the lack of wisdom can go to God with confidence (James 1:5). God blessed Solomon with a singularly comprehensive mind (1 Kings 4:29-34). He was a botanist, zoologist, architect, poet, and a moral philosopher.

When we ask what God wills, we shall surely get what we ask.

To Cheer Thee on Thy Way.  
Neither hurrying nor slackening, but sure of thy great and glorious destiny, walk thou; and presently, all around thee shalt thou see the multitude of him who thou seekest: He shall send a multitude of messengers in advance to cheer thee on thy way.—Edward Carpenter.

Common Sense.  
Common sense is, of all kinds, the most uncommon. It implies good judgment, sound discretion and true and practical wisdom.—Tyron Edwards.

### Pretty War Romance Leads to Altar

The second scene of a war romance that started two years ago in Cooper Hospital, was enacted on Tuesday at the Church of the Sacred Heart, Riverton, when Llewellyn Stout, of Camden, led to the altar Miss Katharine Holvick, with whom he fell in love while recovering from an operation in the hospital before entering the world war.

As soon as he had recovered from the operation he sailed away as a chief petty officer in the Navy, and Miss Holvick waited two years for his return.

The nuptial mass was attended by the immediate families and many friends. The pastor, the Rev. Joseph A. Rigney, officiated. The bride, who was given away by her father, was attended by her sister, Miss Edith Holvick, as bridesmaid, and Charles Ormsby, of Merchantville, was best man. The bride wore a veil and was dressed in white satin, trimmed with lace which the groom brought with him when he returned from France. She carried white roses.

After a wedding trip to Boston Mr. and Mrs. Stout will live in Camden.

### Two Railroad Accidents Monday.

Noah Vincent, driving a truck loaded with peaches for Benjamin Lippincott, was struck by an east bound train at 9:30 Monday morning at the crossing at the ice plant, East Riverton, and badly injured. He was taken to the Riverside hospital, where it was found he was suffering with concussion of the brain. No bones, apparently, were broken. The truck was demolished. He had sufficiently recovered by Thursday to be brought home.

William Bonner, of New Albany, was struck by an east-bound train at Taylor's Lane at 5:30 Monday morning, and seriously injured. He was riding a motorcycle, with Charles Harris in the sidecar. Their view of the tracks was cut off by the little waiting shed at this point. Harris saved himself by jumping. Bonner was taken to the Riverside hospital. He had a fractured arm and leg, dislocated jaw, bruises on the back and internal injuries.

### Canoe Races on Labor Day.

The following canoe and rowing races to be held in connection with the Labor Day sports at the Yacht Club, will be open to all comers, and it is the desire of the committee that a large number enter these contests in order to make the first annual Labor Day sports a big success. Every one will be welcome, so be sure and get in the game yourself and tell your friends to do the same.

Event 1—Rowing race in light boats for boys up to 14 years of age.

Event 2—Canoe Race, 4 paddlers in each crew, open to all.

Event 3—Special canoe, swimming and running race. Contestants must first run 100 yards, then swim 100 yards and then climb into a canoe and paddle 100 yards. Two teams will compose a team and the same two that started out together must be together in a canoe at the finish.

Event 4—Canoe tilting contest, open to all.

Prizes will be given to the winners in all of the above events.

Event 5—Canoe race. In order to demonstrate a way to prevent drownings, Mr. Chas. A. Wright will present a prize to the occupants of a canoe, that upon upsetting, will keep the greatest number of persons afloat for ten minutes.

### Trick Rider Recalls Former Days.

A traveling trick bicycle rider furnished amusement to large crowds in Riverton and Palmyra last Saturday afternoon and evening. He held forth on the finely cemented sections of Broad street near the stations, and his performance recalled the famous Fred Cope, who used to do thrills for Rivertonians on the old bicycle track two decades or more ago. The artist's name is Dan Recklow, with present headquarters in Philadelphia, though he travels pretty much all over the country with his outfit in a Ford truck, on which he has mounted a miniature house, complete with weatherboarding, doors and windows. He has a wife and five children, all of whom accompany him on his tours. The "house" is equipped with sleeping bunks, a complete cooking outfit and a tent, so that "home" is anywhere they happen to stop. "Dan" has been following the road for twenty years, except during the war, during which he "lent a hand." But he returned to his old tricks in June, this year. His receipts average about \$50 a day.

"Fumigo," will rid your bedroom of mosquitoes and permit you to have a comfortable night's rest. 25¢ at Fine's Drug Store. —Adv. 4

Ripe peaches for canning purposes can be obtained daily at the Cold Storage plant at East Riverton.—adv

## WEEKLY NEWS BUDGET for Riverton and Vicinity

### Buy It At Home.

Mrs. H. B. Hall is spending a week at Avalon.

C. R. Beagle moved to Palmyra on Wednesday.

Miss Ruth Major is spending a week at Stone Harbor.

Miss Emma Kipp is visiting Miss Helen Harned at Cape May.

John Jamison and Lloyd Major spent last week at Atlantic City.

Mrs. John Armitage entertained relatives from Brooklyn over Sunday.

William Crouch and family are spending a few days with friends in Brooklyn.

C. T. Beers has returned home after spending several months in Mexico on business.

Mr. and Mrs. Otto Becker and sons spent last week-end at Pitman with Mrs. Elmer Bright.

Mr. and Mrs. Charles Armstrong, Jr., and children are spending two weeks at Tuckerton.

Mrs. John Sloan and grandchildren have returned home after spending two weeks at Wildwood.

Mr. and Mrs. C. B. Durborow spent the week at Cape May, and will spend next week at Norfolk, Va.

Mrs. Seward Tremaine and daughter, of Bridgeton, visited her mother, Mrs. P. A. Houghtaling, this week.

The Cinnaminson Home is in need of a folding screen for nurse's room.

Phone Riverton 32-J-5, and it will be called for.

—Adv.

Mrs. Martha White will entertain the Fortnightly Reading Circle next Friday afternoon, which is the first meeting this season.

The season for reed birds and rail birds opens Wednesday, September 1st, and local nimrods have already taken out many gunning licenses.

Louis A. Brennan and son, Andrew, spent the week-end at Seaside Park with J. B. Howell, who was his employer for twenty-three years.

Mrs. Leslie Reeves and children, Mrs. James Elliott and children, and Mrs. Rush Stevens and children are spending a week at Stone Harbor.

The barber shop of Joseph Rech, at 510 Broad street, will be opened by Frank Eichler on Monday, August 30th. Special attention to children's hair cutting.

—Adv.

Mr. and Mrs. Edward Zisk have returned from Brooklyn Manor, N. Y., where they were the guests of Mr. Zisk's sister, Mrs. Edward Weber, for two weeks.

Misses Rae and Clara Hutchins will return home Sunday after spending a week in the mountains of Pennsylvania. Miss Rae, who has been ill all summer, is very much improved.

Under the schedule of railroad fares which went into effect on Wednesday a ticket to Philadelphia costs 34 cents, a ten-trip ticket \$2.44, sixty trip ticket \$7.66, and a hundred trip \$18.22.

The card party by the ladies committee of the Riverton Yacht Club, held at the club house Thursday morning, was well attended. The ladies will give another party the last of the season, late in September.

Mr. and Mrs. Reuben Clark and family are spending a fortnight aboard their boat off Riverton.

The Clarks were residents of Riverton fifteen years ago, and Mrs. Clark will be remembered as Miss Helen Godshalk.

Before the adoption of the Woman Suffrage amendment this year it was estimated that the number of sample and official ballots for the general election would approximate 54,000. That number will probably be doubled now.

Mr. and Mrs. G. Binder last week motored to Asbury Park and enjoyed many beautiful auto trips in the vicinity, including the Atlantic Highlands, Shadow Lawn, Camp Edwards, where they had a chat with the Governor, Deer Lake, where Mrs. Binder assisted at a card party at the hotel Monterey for the benefit of the Mary Fisher Home, and many other interesting points.

The State highway commission on Wednesday apportioned \$426,000 to the counties of the State as State aid in the construction of new roads. This money comes from an appropriation made by the legislature. Burlington county receives \$20,000, which is reported, is to be expended to improve the road to Four Mile, a thoroughfare that is not overburdened with travel.

John Jamison, employed at the experiment station at Westfield, was seriously burned about the hands on Tuesday while washing up in gasoline after cleaning an automobile. The accident was caused by a head flying off a match which was struck by a by-stander. In the excitement the bucket containing the gasoline was upset and for a few minutes things looked serious, but the cool-headed and prompt action of several of the employees of the station saved the situation. By the quick use of fire extinguishers the flames were put out before the Riverton fire trucks could get there—which didn't take long.

### The "School" Closes

The center at Cinnaminson for work among the Italian children closed on Friday, the 21st.

Teachers and equipment have gone to Bel Air, Md., where they are hoping to do similar work among the children of the workers in the canneries.

Twenty-five children were in attendance during the last week, and on Thursday they gave a most creditable entertainment to a few of their most interested friends. Songs (two of them solos), a folk dance by six little ones, an Italian fancy dance by a boy, Mother Goose tableaux, grand march and salute to the flag, a school yell given with gusto, the Star Spangled Banner, and as much ice cream and cake as they could eat, made a very happy set of youngsters.

When they left Friday afternoon, carrying treasures made during the week, there were many regrets, and many requests to "Please come again next year."

The Home and School Association expresses its appreciation for the loyalty with which the community has co-operated in the undertaking, and when we look at the record of over 800 day's attendance during the short term, we feel assured that it has been a success.

CINNAMINSON HOME AND SCHOOL ASSOCIATION.

The price of anger is failure.

### Miss Holder Makes Ten-Mile Swim.

Last Sunday Miss Harriet H. Holder, a new member of the Yacht Club, swam from the Riverton Yacht Club wharf to Race street, Philadelphia, in the fine time of three hours and twelve minutes. Miss Holder, who with her mother and sister are occupying the Stevens property on Bank avenue for the summer, has every reason to be proud of her accomplishment. She is entirely a new comer to the swimming game, and her best previous records were three swims across the river and return.

In Sunday's swim she hung up a better time than several of the entries in the famous ten-mile national championship for men just run off. The start was made at 10:41 a.m., and she finished the long grind at 1:53 p.m.

Mr. Durborow swam the entire way with her, while George Corner acted as pilot. R. W. Knight covered the course in his power boat. She swam an over-arm stroke throughout, and finished as fresh as when she entered the water. The entire way she chatted and not once was she tired. Her condition was remarkable, especially when it is considered it was her first big swim. It is the first time a Riverton girl ever made the swim, and the first time any girl has covered the course within the last four years.

With the exception of Mr. Durborow no man in Riverton has ever made a longer swim, although several of our boys made the same swim in the last three national swims held here.

Mr. Durborow was much impressed with Miss Holder's exhibition, and says she has all the requirements to become a really class swimmer. She cares to train for it. No girl ever swam the course and finished so fresh as did Miss Holder. Her pace was also steady, which means everything in distance swimming. It is always the swimmer who never sprints, or never loafs that conquers all other entries in a distance race. Miss Holder could have undoubtedly made faster time, but her advisers, not realizing her capabilities, insisted that she should take no chances of overdoing things at the start. She reached the Red Buoy off Tacony in 30 minutes, and reached the three-mile mark in 1:35. Here Miss Holder seemed to gain new strength, or as some style her second wind. At any rate her stroke started to pick up. Off Allegheny avenue she ate a cake of chocolate, and said she felt worlds better. Fort Richmond grain elevator was reached in 2 hours and 8 minutes. Here the wind sprang up and the going became very hard, but Miss Holder did not seem to mind it, and kept steadily to her task.

Cramp's shipyard was passed in 2:32, and the end of the long pull came after an immersion of nearly three and a quarter hours. She was not bothered with a single wave, and her wind and stamina could not be surpassed. She is now anxious to negotiate the Philadelphia-Chester swim and would not have the least trouble.

Riverton has reason to be proud of all its swimming stars, and the Yacht Club, by encouraging distance swimming is advancing the greatest physical development recreation known.

### Spies Continue Winning Streak.

The Spies territory boys met the employees from the combined Zim-german, Williams and Western territories on the Field Club diamond Wednesday afternoon and took them into camp by the score of 14-3. The "combination" team scored one in the fourth and two in the fifth.

Fenimore and Leconey pitched for Spies and Thompson caught. For the other team Watson and Flynn were in the mound and Healey behind the bat.

General Superintendent William C. Bailey was on the job to see that everything was on the square. He feels pretty sure that the Spies boys can wallop any team their fellow-employees can put up.

### Moorestown After Speed Fiends.

Speeding of automobiles and trucks through the streets of Moorestown has aroused the authorities there to action, and they propose to use drastic measures to have the practice stopped. Several arrests have already been made and more will follow.

Following the announcement by the Riverton Chief of Police last week that the automobile law would be more rigidly enforced, the officers have been cautioning motorists this week. There is no desire on the part of the police authorities to be unnecessarily unpleasant about the matter, but there is a strong public sentiment that speeding and reckless driving should be stopped before some serious accident happens, such as fill the papers daily from other towns.

If it is necessary to arrest some of the more flagrant offenders, the police department will have the backing of the public.

### Charles Parry.

Charles Parry, one of Riverton's older residents, died at his home on Lippincott avenue at one o'clock Friday morning, after an illness of six months. The funeral services were held at Friends Meetinghouse, Westfield, on Friday, and interment was made in the cemetery on the grounds there, in Mr. Parry's father's lot.

George Johnson, of Llanarch, Pa., delivered the prayer at the funeral. The deceased was born at Pomona, on the Parry homestead property, first month 29th, 1844. He was the son of William and Alice Parry, and spent his life in the neighborhood in which he was born. He was for a time associated with his brother, John and William, in the Pomona Nurseries. He devoted his time to farming and fruit growing, at which he was very successful. Of late years he has spent a considerable portion of the year at Miami, Florida, where he dealt largely in real estate.

Mr. Parry was a man of great intellectual capacity and development, having an unusually keen mind, which he stored with a fund of general information which was the delight and wonder of his relatives and friends.

He is survived by a widow, a son, William Parry, two daughters, Alice Parry Wistar and Anna J. Parry, a brother, Howard Parry, and sister, Mrs. Tacie Paul, of Moorestown.

### Three Classes Compete in Yacht Race

Last Saturday's races brought out contestants in three classes despite the squally and threatening weather.

Mr. Robertson, ever eager to sail a race, brought Mr. Merz's boat from the Keystone Yacht Club and sailed her against his own boat captained by Ogden Mattis. The poor condition of the Merz boat accounted for her defeat.

The cruiser class contestants were the Tradescantia and Nokomis. No one knows how these entirely different types of boats are going to perform. Nokomis, however, won the most decisive victory of the summer.

In the sixteen-foot class there were three entries, all of which were sailed by Boy Scouts of Philadelphia. Archie Bush upheld the Riverton honors by winning a close race.

Summaries:

Larchmont Interclub Class

Yurion Start Finish

Lewanna 3:05 4:29:39

3:05 4:25:15

Sea Scouts 2:55 4:25:20

Sea Scouts 2:55 4:30:20

The Labor Day program is as follows:

Saturday—September 4th, 2:30 p.m. All classes.

Sunday—September 5th, 10:00 a.m. "LI" and cruiser classes—50 mile run

Monday—September 6th, 9:30 a.m. Open to all yachts on Delaware river not over 35 feet overall measurement, excluding "LI" class.

Sixteen-foot class 10:00 a.m. "LI" and cruiser classes 2:00 p.m. Prizes will be awarded to the winner of each class.

The newest addition to the sailing fleet is the LI class boat Come, purchased by William Bower at Manchester, Mass., and sailed to Riverton by B. C. Hurst, of Philadelphia.

Mr. Hurst started about three weeks ago and after many delays on account of bad weather, arrived at Riverton Wednesday morning.

Mr. Bower is of the old family of Bower, who were residents of Riverton many years ago. They lived on Bank avenue where John C. S. Davis later made his home, having bought the property from the Bowers.

The "Seven Sleepers."

These were the heroes of an ancient legend. It is supposed that during the persecution of the Christians about 250 A. D. these seven Christian brothers of Ephesus took refuge in a cave. Their retreat was discovered and the mouth of the cave walled up. Two hundred years later the cave was accidentally opened and the men emerged, having slept through centuries as though they were but a single night. They found the Christian religion accepted in the city where they were honored and fed and where all of them died on the same day.

Getting Set.

The way some men arrange their napkins when they sit down at a table, you would think they were going to get a shave instead of a meal.—Arkansas Thomas Cat.

### Buy It At Home.

Mrs. C. D. Morgan, of White Plains, N. Y., is visiting Mrs. A. C. Hirsch.

Mr. and Mrs. Harry Rudwick will go to Ocean Grove Saturday for several weeks.

The annual Knights of Columbus carnival is scheduled for Saturday, September 18.

Mrs. John M. Davies and daughter, Miss Katie, went to Pocono Mountains Wednesday.

A shower was given by the Shepherds of Bethlehem for Mrs. Joseph Franklin last Wednesday.

Rev. and Mrs. C. W. Williams returned Wednesday after spending two weeks in Palmer, Mass.

Rex McCrosson has returned from a vacation with friends at Geneva Lake, Wis., and relatives at Chicago.

The Patriotic Order of America will give a dance in the P. O. S. of A. hall on Saturday evening, September 4th.

A number of young people went out to Sorrell Horse Hill Monday evening and gave a marshmallow toast.

The dry goods store in Palmyra will close at 6:30 Tuesday and Thursday evenings, instead of Wednesday afternoons.

Mrs. Kleckner, Thomas Bromley, Miss Madeline Kirby, and Albert Major, of Riverton, are on a camping and canoeing trip.

Miss Frances Browne has returned to her home at Nottingham, Pa., after a visit of several weeks with Mr. and Mrs. Frank R. Howell.

Miss Bertha Hodson and Miss Margaret Patman, who are spending the month at Wildwood, enjoyed their first airplane ride in the "Jazz Baby" last Sunday.

Mr. and Mrs. Fred Lutz returned home on Tuesday after a vacation of several weeks at Cape May. Their little daughter, Ruth, is much improved in health.

Mr. and Mrs. Elvin Powell went to Lake Heptacong, Thursday, when they will camp. Rev. and Mrs. Philip Vollmer are staying in their home during their absence.

The Calder Class will hold its monthly social and business meeting Friday evening, September 3, at the home of Mrs. Mary Cooke. A large attendance is desired.

Mrs. George A. Murray, who has been in the Mercer hospital at Trenton for five weeks convalescing from an operation, is now visiting at her parents' home in Lambertville. She is much improved.

Miss Miriam Clark, who is now at Los Angeles in the motion picture profession, has taken up swimming under the direction of an expert Hawaiian and is developing into a speedy quarter miler.

H. W. Harker, of Hylton Road, grew some tomatoes this season which he is ready to stack up against any others in Jersey for size and quality. He had on display last week seven five-eighths baskets, only 54 "tomatoes" being required to fill each basket.

Milton McCrosson and William Wilbraham, who are already in the shipping on a freighter bound for European ports, have reached New York on the return trip, but will not be through with their job until the vessel puts in at Baltimore where they started.

The Wide-Awake Boys and the Sunshine Girls gave a bazaar last Saturday at the corner of Randolph and Perry avenue to raise money for a trip. On Wednesday they went to Wilmington by boat and then to the park, chaperoned by Mrs. Joseph Tees, Mrs. Wilmer Roberts, and Mrs. William McCuen.

W. T. McAllister, who bought the former Vaughn property, including two business locations and the residence, plans to make the property the best-appearing business place on Broad street. Extensive alterations are to be made on the interior and large plate glass windows are to be built in front. Electricity is to be installed and the building will be repainted. Robert C. Biting has the electrical contract. George W. Shaner & Sons the alterations, and Clement C. Horn the painting.

### Changes in Palmyra Teachers

Superintendent Griffith announces the following changes in the Palmyra High School faculty for the new term opening September 13.

Miss Julia Mitchell, of Brooklyn, will succeed Miss Gramm, who goes to Hightstown, in the English department.

Miss Leda Mitchell, of Brooklyn, succeeds Miss Vandever in the Latin department.

Miss Young, of Lewistown, Pa., succeeds Miss Barber, who goes to Woodbury, as mathematics teacher.

Miss Moss, of Elkton, Md., succeeds Miss Melick, in science.

Miss Jones, of Ardmore, will be an additional teacher in mathematics and history.

Miss Pickock, of Whitehouse, N. J., succeeds Miss Grau in history.

Miss Tannery, of Hornell, N. Y., succeeds Miss Mandville in the kindergarten of the Delaware avenue school.

The position of Miss Gunn, who resigned a fifth grade position to teach in her home town of Burlington, has not yet been filled.

**Public Hearing on Drainage Ordinance September 9**

The Palmyra Township Committee held an adjourned meeting last Tuesday evening at which the ordinance providing for the Broad street drainage system was given first reading and the date for the public hearing set for Thursday evening, September 9th.

The Pennsylvania avenue sidewalk ordinance was also given to the hearing set for the 9th. John Spuck, the only interested property holder present, was in favor of the sidewalk.

### Knights of Pythias.

Brothers, we are close upon the fall season. We are going to do things. We expect to have interesting sessions. Come and enjoy them with us. Don't forget the movie benefit. Tell your friends about it.

Anita Stewart in "Her Kingdom of Dreams" Broadway Palace Theatre Wednesday Evening, September 1st Admission 18c, 2c 2c

## League Will Have Candidates in Fall Election

The Community League at its meeting Thursday evening decided to choose candidates to contest the two Township Committee places which will be voted for this fall.

A committee was appointed to select candidates to be passed upon at the next meeting of the League. The regular meeting date was changed from the fourth to the second Thursday of the month and the next meeting will fall on the 9th of September.

The committee to choose candidates were appointed: membership, Milton Faunce; highways, Horace Finney; public improvements, A. H. Hodson; public safety, W. A. Donaghy; finance, Harry Nichols; publicity, Frank Chambers. The chairman will select their own co-workers.

The committee to nominate candidates for the primaries is as follows: Harry Nichols, Horace Finney, Milton Faunce, Frank Mathews, Jr., and Mr. Hoar.

Frank Mathews, Jr., made a report on a questionnaire which had been sent to Mayors of various nearby towns regarding their forms of government.

Collingswood and Haddonfield, with commissions, recommended their form because it concentrated authority and responsibility in the hands of a few men. They have never had to invoke the initiative, referendum or recall.

Other towns, where the borough form with the council and Mayor exists, recommended the borough because the council has more members among whom the work of government can be divided. Councilmen serve without salaries, while commissioners are paid from \$750 to \$1000 a year in the towns named.

Mayor Bennett, of Riverton, seemed to think the township form as just as good as the borough form. A committee was appointed to continue work on the sewer proposition.

**Harrison Mohrman Buried With Military Honors**

The body of Harrison Gustave Mohrman, of Co. G, 147th Infantry, who died at a hospital in Brest, France, of cerebro-spinal meningitis on March 18, 1919, a few days before the date set for the sailing of the transport for home, was buried in Morgan cemetery last Sunday afternoon with full military honors by Post Rodgers.

The soldier boy was 23 years old at the time of his death. He left Palmyra for camp in April, 1918, and was sent overseas from Camp Lee in the month of May. He followed the flag in action five times and was gassed on three occasions, his name being carried on the official casualty lists previous to his fatal illness. He was the son of Mr. and Mrs. Gustav Mohrman, of 117 West Broad street, Palmyra. His twin brother, Morton, also served with the colors overseas.

Harrison was a member of Camp 23, P. O. S. of A., as well as of Independence Fire Company. Each organization had a large delegation in line at the funeral. The body was borne to its final resting place on the Fire Company's truck.

The Rev. R. Riemer, of the Moravian Church, conducted the funeral ceremony and paid a moving tribute to the dead hero, who the pastor said gave his life for his country just as truly as those who fell in battle.

Chaplain Harvey C. Fisher, of Post Rodgers, then paid the tribute of the soldier's living comrades.

**The Firemen's Carnival**

The big annual carnival of the Independence firemen will be held this Friday and Saturday evenings.

The firemen have been busy all the week gathering in fruit and produce from the farmers and various provisions contributed by the merchants and great abundance of very desirable things have been gathered together for disposal to the public at the Field Club grounds where the carnival will be held.

The affair will be bigger and better than ever, unless it rains and even rain has failed to prevent the success of similar carnivals in the past.

There will be music and dancing and refreshments of all kinds both evenings.

All the politicians of the county will probably be around to shake the hands of the voters. They will come dressed in their best owing to the proclamation of the suffrage amendment.

It's up to everybody to help the firemen, who are ready to help everybody else in time of need.

### DEATHS.

Miss Florence, aged 10, daughter of Mr. and Mrs. James Frabietore, died early Monday morning, after being ill for three weeks with rheumatic fever. Funeral services were held in the Church of the Holy Trinity, of the Lankenau hospital, Philadelphia, of peritonitis, following an illness of two days.

Mrs. John Saar.

Mrs. Margaret Halpin Saar, wife of John Saar, Jr., of Delaware avenue near Broad street, died last Saturday at the Lankenau hospital, Philadelphia, of peritonitis, following an illness of two days.

Mrs. Saar was only 24 years old. Her home was originally in Lebanon, Pa., and she was married to Mr. Saar on January 8, 1916. She leaves two children, Margaret, 3, and Mary, 2.

The funeral was held Thursday afternoon, having been delayed a day in the hope that her brother, William Halpin, could arrive from Las Vegas, Nevada. He did not reach Palmyra until late Thursday night.

Interment was in Morgan cemetery, the Rev. E. A. Robinson and the Rev. Reimer officiating.

### Field Club Notes

The Field Club boys added another win to their string of victories last Saturday when they defeated the Ardmore team by the score of 6-0.

The team will journey to Delanco this Saturday for a return game with the team of that place.

On Labor Day afternoon the Field Club team will play the Riverside Field Club team here for the championship of Burlington county.

**Live Game and Fish at the Fair**

Live game and fish will compose a new and interesting exhibit at the Mount Holly Fair in September, arrangements for this attraction having been completed by the Fair management with the State Fish and Game Commission. County sportsmen are delighted at the prospects of this feature of the Fair and its entertaining and educational possibilities of acquainting the public with New Jersey's natural resources.

King-necked pheasants, now one of the most popular game birds in the United States, and especially important to Burlington county as the fowl of the Japanese beetle, will head the live game exhibit.

## LABOR DAY SPORTS

**Riverton Yacht Club Has Arranged for Sailing, Canoe Sports, Swimming, Aeroplane Flights**

**Sailing.** Open to all comers under 35 feet overall length, for championship of Delaware river. Trophy presented by Commodore Hollingshead and Vice Commodore Edwards. Starts 10 a. m. Send entries to E. K. Merrill. The sixteen-foot class will race at the same time.

**Swimming.** Open to Yacht Club members only, championship race across the Delaware. This championship is now held by Jack Shovel, who will have to do his best to retain it.

**Ladies' race** across the Delaware, open to all comers. In charge of Charles B. Durbin.

**Fancy Diving Contest.** Open to all comers, ladies and gentlemen. In charge of Walter C. Wright.

**Canoe Races.** Open to all comers. The feature race will be an all-round contest, in which contestants will run 100 yards, swim 100 yards, and paddle 100 yards. In charge of Robert C. Ayres.

A special contest will be held to demonstrate a way to prevent drowning from canoe accidents, and a prize will be given by Class A. Wright to the canoe which floats the greatest number of persons for 10 minutes without any of the contestants swimming.

**Aeroplane Flights.** Mills, who took up so many passengers on July 4th, will be here again. He holds a record of taking up over 5,000 passengers, and has never had an accident. He will charge \$10 for each flight, and \$3 extra if passenger is accompanied by small child. Each passenger will receive as a souvenir a copy of the first photograph of Riverton ever taken from the air. Many were disappointed on July 4th by not reserving turns in advance, so send in your name early. In charge of R. W. Knight.

**Admission to Pier.** Members will have the privilege of issuing cards of admission to their friends. These cards can be procured from the steward at the pier. All others will be charged 25 cents admission. The club room upstairs will be reserved for members accompanied by friends.

The prizes will be donated by the following committee: Commodore Hollingshead, Vice-Commodore Edwards, Messrs. Wm. H. Baker, Jr., Maurice G. Belknap, Edward K. Merrill, Richard M. Borden, Joseph Denny, W. Robertson, Walter C. Wright, David L. Vaughan, Robert W. Knight, Everett Sullivan, Ross Elliott, Robert C. Ayres, Chas. B. Durbin, Chas. M. Biddle, Jr.

Rev. and Mrs. F. L. Jewett, of Woodstown, were guests of Mr. and Mrs. T. A. Lloyd today.

**AMERICANS ABROAD**

**IN RED CROSS WORK**

**United States Citizens Far Away Enthusiastic Members of the "Fourteenth" Division.**

Among the most enthusiastic and energetic members of the American Red Cross are those citizens of the United States who live outside the continental boundaries of their country—sons and daughters of the Stars and Stripes residing at the far corners of the earth.

These people compose the Insular and Foreign Division of the parent organization, generally known as the "Fourteenth" Division, which has jurisdiction of all territory outside the country proper; that is, Alaska, Porto Rico, Hawaii, Virgin Islands, the Philippines, Guam, and even the island of Yap, which came under our flag as a result of the world war. For the year 1920 this division reported 80,808 paid up members.

The main object of this division is to give our citizens everywhere the opportunity to participate in the work of the organization which stands for the best national ideals. Americans in far places intensely loyal and patriotic, treasure their membership in the Red Cross as the outward expression of their citizenship. It is another tie to the homeland and to each other. There are chapters of this division in Argentina, Bolivia, Brazil, Cuba, Chile, China, Costa Rica, Canada, Dominican Republic, Ecuador, England, France, Germany, Guatemala, Haiti, Honduras, Japan, Manchuria, Netherlands, Nicaragua, Paraguay, Peru, Philippines, Porto Rico, Siberia, Spain, Sweden, Switzerland, Syria, Turkey, Uruguay, Venezuela and Virgin Islands.

During the war these scattered members of the Red Cross contributed millions in money, and millions of dollars' worth of necessary articles for the men in service, and sent many doctors and nurses to France. At the same time they carried on an excellent home service in their own communities for the families of those who had gone to war, and in some regions gave large sums of money and immeasurable personal service to the relief of disaster and disease victims.

The division is now establishing service clubs in foreign ports for the benefit of sailors in the American Merchant Marine, making plans to aid Americans in trouble in foreign lands and completing arrangements for giving immediate adequate relief in case of disaster.

It is the Fourteenth Division's part to the great Peace Time program of the American Red Cross.

**Mosquitoes Need Pure Water.**

That mosquitoes, like other animals, require pure water is one of the surprises of the United States public health service. Larvae were placed in stagnant water containing much decaying vegetation and usually weakened rapidly, dying in a few days. It was not determined whether the effect was due to bacteria of protozoa, or to carbon dioxide or other gases from the decomposition. Given plenty of food the purest water seemed best for the mosquitoes and more than cleaning stagnant pools will be required to get rid of them.

**English Marriage Laws.**

Under English law a marriage may be declared void if both parties give false names, but it will not be declared void if only one party gives his name falsely.

## AMONG THE CHURCHES

### Advertisements

**Calvary Presbyterian Church.** 9:45 a. m., Sunday School. Rev. N. F. Stahl, D.D., Minister. 10:45 a. m., morning service. 7:15 p. m., Young People's Society of Christian Endeavor.

**Westfield Friends' Meeting.** Meeting at 10 a. m. A cordial invitation is extended to all.

**Flag of Universal Peace to be Unfurled at Green Acre.**

The Green Acre conference, which have been held near Eliot, Maine, for a number of years, are well-known among many people. The conference this year has been particularly inspiring and beneficial. Important subjects were discussed by well-known authorities in the world of sociology, education, astronomy, economics, religion and social hygiene.

Fazel Zandarbani, a former professor in the university in Teheran, Persia, and one of the Bahais, a group which believes in the Oneness of God and which has as its aim the unity of the people of the world in a great religion of brotherhood and love in which there will be no prejudices of race or creed, has made a number of addresses there. In a lecture which Mirza Fazel gave in Buffalo a couple of weeks ago, he said about the League of Nations, that the ideal of universal peace would come only when the peoples of the world recognize the oneness and singleness of the seven great religions; that the fundamental principles of all are identical; that the differences are man-made and not God-made.

Next Sunday at Green Acre, they will have the unfurling of the flag of universal peace, which will be raised with appropriate ceremonies. This is a ceremony which has been celebrated there for a number of years, but was discontinued during the war. There will also be an observance of the dawn of universal suffrage for the women of the United States. —adv

**SERVICE RECORD OF NATION**

City, County and State Histories Will Afford Voluminous and Valuable Data.

If the present progress in making county and state war histories is maintained there will be vast library of local "who-was-who in the war" books by the year 2020.

Not only are towns, counties and states preparing their own war histories, but colleges and schools of all kinds also are getting up collective service records. Large industrial concerns are doing the same thing.

Best results in history making seem to have been achieved in countries where the records of the county draft board served as a starting point and where all other sources of information have been utilized. Livingston county, Illinois, furnishes a typical example of a county which has been painstaking in its effort to compile a reliable war history.

A committee of seven was appointed in this county to have charge of the soldiers' and sailors' record. Before the records of the local exemption board were closed, a list was compiled of all registrants of the county who had entered the service by enlistment or induction, the date of entry into the service and the camp to which they were first sent. Newspaper files were combed to obtain as many additional names as possible. The list was then published in the newspaper with the request that all names not included be reported to the war records committee.

A questionnaire then was mailed to each service man or woman, the request being made to insure the return of the questionnaires. The questionnaires had spaces for practically all the information which appears on the soldier's discharge certificate and for many other details, such as citations in full and special honors. A special section will be devoted to the records of those who died in service. Their photographs will be included.

**Birds and Their Toes.**

Birds cannot open the foot when the leg is bent; that is the reason they do not fall off their perches when asleep. If you watch a hen walking, you will notice that it closes its toes as it raises the foot, and opens them when it touches the ground.—Tit-Bits.

**Enemies of the Olive Tree.**

Besides the birds, there are numerous insects which attack the fruit, the wood and the leaves of the olive tree. The most dreaded of these is a small fly called Dacus oleae, which is about half the size of a common house fly. The female has a sting like a wasp, with which she punctures the fruit where she deposits her eggs. It is calculated that a single fly will thus destroy three hundred or four hundred olives.

**Changing the Color of Gems.**

It is possible to change the color of precious and semiprecious stones by exposing them to the action of radium. A Frenchman who has devoted himself to this study has obtained remarkable results. He bought sapphires of different kinds and put them in a box with a small quantity of radium. At the end of a month the transformations were as follows: White sapphires had become yellow; blue, green; violet, blue; wine-colored stone, red; dark blue, violet.

**Coal in Saskatchewan.**

The coal deposit at Laupman, Sask., Canada, is believed to be one of the best of its kind in the world, and one of the greatest assets of the province, according to the investigators who recently made an examination of the location. They estimated that there are 32,000,000 tons of coal in the two and three-quarter sections of land in which the coal is located.—Scientific American.

## CINNAMINSON

An Indian name from the Leni-Lenape  
Nation, the original owners  
of New Jersey, meaning

"SWEET WATER SHORE"

The original settlers of this section deserve  
the credit that is given in history to William  
Penn, for they made friends with the Indians,  
and bought from them this section of New  
Jersey, long before William Penn came over or  
Philadelphia was established. They also re-  
tained many of the musical-sounding Indian  
names.

Nothing but Emptiness.  
A little girl, a neighbor of mine, went  
to the country with me last summer.  
When we were out of doors looking  
around the first day, the immensity of  
the sky seemed to amaze her. "O-o-o!"  
she cried, stretching her little arms  
wide and looking as if to embrace all  
nature. "Where's everybody gone to?"  
—Exchange.

## IT LASTS FOR YEARS —NOT MONTHS!

VALDURA 99.5% PURE AS-  
PHALT PAINT is offered for perma-  
nent protection. You do not have to  
apply VALDURA every year like you  
do most paints of its type. VALDURA  
makes its strongest appeal to the better  
class users. It sometimes costs a little  
more than the black tar dopes so gener-  
ally offered, but it really costs less be-  
cause a gallon goes further and lasts a  
great deal longer.

## VALDURA 99.5% PURE ASPHALT PAINT

should be preferred for all types of roofs whether  
rubber, felt, composition, or metal. It is used  
widely for bridges, dams, tanks, farm machinery,  
etc. You can use it everywhere a water and  
weather resisting paint is required, whether be-  
low ground or aboveground.

It is supplied in regular sized containers from  
1 Gal. on up. It is all ready for use and does  
not have to be heated or fused with before you  
use it.

Let us send you the VALDURA Booklet and  
if you wish it, we will include a free sample can  
for test.

# Fruit Trees Are Scarce!

## We Advise Ordering AT ONCE

This is the first time in our history that we have issued  
an announcement at this time of the year. Our interest  
in thousands of fruit growers this year impels us  
to warn them that fruit trees, especially the best vari-

## World Shortage of Apple Seedlings

France has always been America's chief source of apple seedlings.  
From 1914 until the spring of 1919 was torn France produced  
very few apple seedlings. In a few sections of the United States,  
in our propagating grounds in Kansas and in our branch nur-

series, we here in America have done our best to make up for the  
world-wide shortage of apple seedlings. But—the shortage still  
exists—and but for the fact that we made our plans far ahead  
and saw to it that

supply our loyal friends and customers than any other fruit tree  
nursery in the world. However, the shortage elsewhere has cre-  
ated and intensified the tremendous demand for Stark Trees.  
As our stock of trees will be, we advise you to place reser-  
vation orders at once.

## Stark Bro's Nurseries Are Ready to Supply Big Fruit Tree Buyers

—and the man who wants just a few trees. If you protect yourself by writing us at once for latest price list—and then, by placing your  
reservation order at once, we will ship the trees whenever you direct—and protect you against disappointment.  
Despite the shortage we hold our trees at Reasonable Prices. We feel that it is our duty  
toward the orchardists, who, by their patronage, have helped to make this the Largest  
Nursery in the World, to hold prices as low as possible. Even our famous Stark Delic-  
ious and Stark's Golden Delicious Apple trees and our famous Peach, Pear, Plum,  
Cherry trees and Berry bushes are priced with the idea of encouraging greater orchard  
planting in America.

## But—Act Quick!—Write for New Price List

Don't wait until the usual time of ordering fruit trees. Our nursery, and others turned  
down thousands of orders last season. Don't you be disappointed this year—ORDER  
NOW.

## STARK BRO'S NURSERIES

The Only Stark Nursery in Existence  
at LOUISIANA, Mo., Since 1816

## Stark Delicious Trees Loaded With Top-Price Apples

There is an enormous quantity of Stark's Delicious trees in our nursery. Last  
year, Mr. Herman Boring, owner of the Henry County, Tennessee, orchard wrote: "I got some from  
this nursery and they were the best I ever saw. I have been waiting for the fruit, and now I have  
it. The fruit was far above the average in size and color and sold readily at a fancy price. I  
am sure that I have never seen any other trees like these. I am sure that I have never seen any other trees like these. I am sure that I have never seen any other trees like these."

## Certain-teed is Impervious to Driving Rain

The severest rain storms only make  
you appreciate Certain-teed Roofing  
the more.

It keeps the interiors of your house,  
barn or other buildings dry and  
prevents damage from water.

Certain-teed, properly laid accord-  
ing to the instructions enclosed in  
every roll, is firmly cemented  
together into a one-piece roof  
impervious to rain or snow.

It provides complete weather pro-  
tection.

Certain-teed is spark-proof and fire-  
retarding. It is guaranteed for five,  
ten or fifteen years, according to  
weight.

With all its superiority, Certain-  
teed costs less to buy, less to lay and  
less to maintain than any other type  
of good roofing.

See your dealer about Certain-teed  
Roofing. If he hasn't enough in  
stock, he can get more for you  
quickly from a nearby Certain-teed  
distributing center.

### Banish Unhappy Thoughts.

If you wish to attract friends and to  
do your best work, keep your mind  
filled with sunshine, with beauty and  
truth, with cheerful and uplifting  
thoughts; bury everything that makes  
you unhappy and discordant, every-  
thing that cramps your freedom and  
worries you. Bury it before it buries  
you. Adopt the sun-dial's motto: "I  
record none but hours of sunshine."—  
Orison Swett Marden in Chicago Daily  
News.

### World's Largest Opal.

Proclaimed as the largest uncut pre-  
cious stone in the world, an enormous,  
absolutely flawless black opal, recent-  
ly discovered in the United States, is  
now in the office of a government offi-  
cial in Washington. The gem contains  
approximately 21 cubic inches and  
weighs 2,572,332 carats. It is valued  
at \$125,000 by the owners. The fa-  
mous Viennese opal, which was with-  
out an equal until this specimen was  
found, weighed 1,658,927 carats.

### Aristocratic Swallow.

The swallow comes from an old and  
aristocratic family and has the honor  
of being named several times in the  
Bible, which is not strange, as his  
tribe skinned, the soft air of Pale-  
stine. He appeared in literature way  
back in the time of Aristotle, who  
said, "One swallow maketh not a  
spring," a proverb translated into all  
languages. The swallow was honored  
by a special holiday given to the chil-  
dren of Attica to celebrate his arrival.

## A SUGGESTION for Saving Wasted Postage and Increasing Your Business

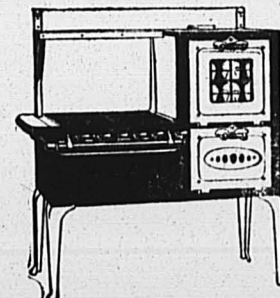

Unless your letter  
weighs one ounce, you  
are wasting some part  
of the postage you pay  
on it. Most business  
letters weigh less than  
half an ounce, so en-  
velope stuffers cost  
nothing to mail.  
Let us show you  
how attractive a stuffer  
can be made.

THE NEW ERA  
Riverton, N. J.

## Buy Your Gas Range Before Moving Time and Save Ten Per Cent

When we get to fall  
moving time our expert  
gas range fitters are  
going to be exceptionally  
busy.

To induce you to buy  
a gas range now and  
thereby let us get as  
much fitting work out of  
the way as possible, you

are offered a 10 per cent. reduction during August on every  
range in our stock. Come take a look at them.

The No. 1481 Reliable is a well-made, easy-to-clean range  
that will do your cooking for years. It is approximately  
43 inches wide.

The cooking top is roomy, with five burners and a light-  
er. The baking oven will bake eight one-pound loaves even-  
ly, and the broiling oven is large enough for a twelve-pound  
roast. One burner heats both ovens, a gas-saving feature.

Two shelves provide generous space for utensils.  
Polished steel, white enamel splashes, pans, broiler door  
panel and glass window set in a white enamel panel are  
features of this high-grade, handsome range.

Regular price, \$94.80. August monthly payment price,  
\$85.32. August cash price, \$81.06.

You can save \$9.48 by ordering now, as quantity is lim-  
ited, and when present stock is gone there will be no more  
at the reduced price.

## Long, Warm Afternoons make baby fretful

An electric fan, regu-  
lated to a soothing breeze,  
keeps him cool and con-  
tented. Then mother can  
work and rest.

Have a Westinghouse or General Electric Fan with a reli-  
able, economical motor. All sizes at reduced prices.

## Just Enough Light Not Too Much

Summer brings the need for a small  
shaded light that can be moved about in  
boudoir or living room, giving light with-  
out illuminating the whole room and nec-  
essitating drawn shades. On the porch  
such a lamp lights without attracting the  
gaze of passersby.

The Miller Boudoir Lamp is easily con-  
nected, and gives shaded light in decorative  
form. During August reduced from \$10.00  
to \$8.00.

You will admire many other beautiful lamps in our display.  
Every gas and electric reading lamp, dome and semi-indirect fixture  
reduced twenty per cent.

## Telephone for Your Mazdas

To save you trouble, we deliver  
standard Mazda Lamps anywhere  
by mail or wagon. You don't need  
to leave home to get them. Keep  
plenty on hand.

The Thor  
Washer  
The Thor Washer,  
equipped with a de-  
vice to prevent mo-  
tor trouble, washes  
quickly and safely.

## PUBLIC SERVICE
