checks, bank stationery, stocks, bonds, etc., lithographed or engraved.

¶ The engraving service includes wedding and social stationery, letter heads, business and visiting cards, seasonable greetings, etc.

¶ Of course we are equipped to do all kinds of printing, including social stationery in the fashionable shades of ink, in our own plant.

¶ Your orders will be appreciated and carefully executed.

THE NEW ERA
Riverton, N. J.

ANNOUNCEMENT

Mr. Edsel B. Ford, President of the Ford Motor Company, gives out the following statement:

"Another reduction has been made in the list price of all types of Ford Cars and the Ford Truck to take effect immediately. The list prices, f. o. b. Detroit, are now as follows:

Touring Car, starter and demountable rims	\$510
Runabout, starter and demountable rims	\$465
Coupe, starter and demountable rims	\$695
Sedan, starter and demountable rims	\$760
Chassis, starter and demountable rims	\$440
Truck-Chassis	\$495
Tractor	\$625

"The big reductions last fall were made in anticipation of low material costs which we are now getting the benefit of, and this fact together with increased manufacturing efficiency and the unprecedented demand for Ford Cars, particularly during the last three months, permitting maximum production, have made another price reduction possible immediately.

"Ford business for April and May 1921 was greater by 56,633 cars and trucks than for the same two months in 1920; in fact, the demand has been even greater than the supply, so that our output has been limited, not by unfilled orders but by manufacturing facilities.

"During May we produced 101,424 Ford cars and trucks for sale in the United States alone—the biggest month in the history of our company—and our factories and assembly plants are now working on a 4000 car daily schedule for June.

"The Fordson tractor is still being sold at less than the cost to produce on account of the recent big price reductions, and it is impossible, therefore, to make any further cut in the price of the tractor."

Can you afford to go without a car any longer when Fords are selling at these new low prices? There is no reason now why you should delay purchasing a Ford car, Ford truck, or Fordson tractor.

We will gladly advise you concerning delivery of a Fordson tractor or the particular type of car in which you are interested. Just phone us or drop us a card.

The Wet Woods.
Did you ever put on a waterproof, rubber boots, an old hat and wander about through the woods on a rainy day? A foggy day will do just as well, or even a day after a rain, if things have not had time to dry.

The moisture has brought out new and brilliant colors. Gray, dull-colored lichen has turned a brilliant green. The color has become rich and variegated on the bark of the trees. Your feet sink into soft moss, in which a thousand new shades have developed; red, green and amber, with all its gradations of tone. Mushrooms have appeared everywhere of every color in the rainbow, glistening and brilliant. The very rocks themselves have taken on a new hue, as all stones do when wet. Everything is wholly freshened up. And how the birds sing! And how the squirrels chatter!—Christian Science Monitor.

Merrymaker in Difficulties.
In her book, "Crowding Memories," Mrs. Thomas, Bailey Aldrich tells of a large fancy dress ball in London, which was attended by the greatest and most illustrious persons of the day.

"When we arrived at Mr. Boughton's we found the hall and stairway quite blocked by a figure in full armor on the stairs, a policeman and several knights and cavaliers vainly trying to move it," writes Mrs. Aldrich. "The armor was heavy and unwieldy, the man inside helpless, as hinges in the armor over the knees had become rusty or caught in some way and would not bend. The unfortunate prisoner was William Black, whose portrait in this same armor was painted afterward and now hangs in the Glasgow gallery."

Sunday School Lesson

(By REV. P. B. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.)
(© 1921, Western Newspaper Union.)

LESSON FOR JULY 3

THE EARLY LIFE OF SAUL.

LESSON TEXT—Acts 13:18; Deut. 6:4-9; cf. 11 Tim. 3:14, 15.

GOLDEN TEXT—Today if ye will hear his voice, harden not your hearts.—Heb. 3:7, 8.

REFERENCE MATERIAL—Deut. 4:9, 10; 6:10-25; Josh. 4:20-24.

PRIMARY TOPIC—When Saul Was a Boy—Acts 22:3; Deut. 6:4-9.

JUNIOR TOPIC—When Timothy Was a Boy—11 Tim. 3:14-15.

INTERMEDIATE AND SENIOR TOPIC—Jewish Boy Life.

YOUNG PEOPLE AND ADULT TOPIC—Saul's Early Training and Education.

We are now entering a six months' study of the life and teachings of one of the greatest men who ever lived.

1. Saul's Birth (Acts 21:38).

His parents belonged to the tribe of Benjamin and were "Hebrews of the Hebrews," that is, Jews who have not become contaminated in their ancestry through intermarriage with the Gentiles (Phil. 3:5).

1. Time of. It is impossible to determine the exact year of his birth, but the probability is that it was practically the same as that of Jesus. He was a "young man" when Stephen was stoned (Acts 7:58). "Young man" may mean any age from twenty to thirty.

About 60 A. D. in the Roman prison he calls himself "Paul the aged" (Phil. 1:13). This distinction would hardly be appropriate for a man under sixty.

2. Place of (v. 39). Tarsus, the capital of the Province of Cilicia. Representative business men came here from all parts of the world. It was a self-governing city which made citizenship therein honorable. Besides, it was one of the three great educational centers of the Roman empire. God's providence ordered that the apostle to the Gentiles should be born in a city where he would encounter men of every class and nation, making him broad in his sympathy and tolerant in his dealings with others.

11. Saul's Home Training (Deut. 6:4-9; cf. 11 Tim. 3:14, 15).

He was brought up in a pious home (Phil. 3:5). In the passages cited above is given the responsibility of a Jew in the training of his children.

1. Central truths to be taught (vv. 4, 5). (1) Unity of God. "The Lord our God is one Lord." This was a testimony against the polytheism existing among the Gentiles of that day. He is God alone, therefore to worship another is sin. The word translated "God" is plural in form, giving room for the doctrine of the Trinity—Father, Son and Holy Spirit. The great need of the world is a recognition of the fundamental doctrine of the unity and trinity of the Godhead. There can be no established order until God is given His rightful place; neither can there be any moral health. (2) Man's supreme obligation (v. 5). God should be loved with all the heart, soul and might, because He is God alone and supreme. This being the first and great commandment, we know what is man's supreme duty.

2. How these truths are to be kept alive (vv. 6-9). The place for God's Word is in the heart. In order that it may be in the heart (1) "teach it diligently to thy children" (v. 7). The most important part of a child's education is that given by parents in the Word of God. (2) Talk of them in the home (v. 7). How blessed is that home where God's Word is the topic of conversation. (3) Talk of them when retiring for the night (v. 7). The last thing upon which the mind should rest before going to sleep should be God and His truth. (5) Talk of them when rising in the morning (v. 7). How fitting that God should speak to us the first thing when we awake! (6) Bind them upon thine hand (v. 8). This was literally done by the Jews, even to the wearing of little boxes between their eyes. (7) Write them upon the posts of the houses and on the gates (v. 9).

Doubtless Timothy's home training was similar to Saul's (11 Tim. 3:14, 15). From a child Timothy was taught the Holy Scriptures (11 Tim. 1:5). This was done in the home by his mother.

11. Saul's Education (Acts 22:3).

1. In college at Jerusalem. A Jewish child became a child of the law at the age of thirteen. Most likely at this age he went to Jerusalem to enter upon his course of study. Here he sat at the feet of Gamaliel, one of the most eminent teachers that ever blessed Israel. The course of study here was restricted to the Holy Scriptures.

2. A trade at Tarsus. Perhaps after finishing his college course at Jerusalem he returned to Tarsus and learned a trade. One rabbi said, "He that teacheth not his son a trade doeth the same as if he had taught him to steal." The trade he learned was tent making. This came in very good in his later life, enabling him to support himself while preaching the gospel.

A Handful With Quietness.

Better is a handful with quietness than both the hands full with travail and vexation of spirit.—Ecclesiastes 4:6.

Meet Each Other.

Who can measure the difference between the great sun and that little blade of grass? Yet the grass has all the sun it can need or hold. In waiting on God His greatness and your littleness suit and meet each other most wonderfully.—Rev. Andrew Murray.

THE NEW ERA

Published every Friday at
RIVERTON, N. J.WALTER L. BOWEN
Editor

The New Era is devoted to the business and home interests of Riverton and Palmyra, independent of political or religious belief—the people's paper.

LEGAL ADVERTISEMENTS

The New Era is a Legal Newspaper. Commissioners, Sheriff's and other Sales, Administrators' and Executors' Notices, as well as all other Legal Advertisements are solicited. The New Era will appreciate being remembered in this connection.

Notice

All readers or local notices of entertainments, suppers, fairs, dances, etc., given for the purpose of raising money, or for which admission is charged, will be charged for at the rate of fifteen cents a line.

O Bradley Boy!

God bless the heart's blood that you left on Flanders Field!
May every drop shine as a ruby on our Nation's shield.
O Bradley Boy! We love you for what you did over there
Where the poppies bloom, where the sunshines in the air!
O Bradley Boy! You raised all mankind higher
When your soul went through that deathless fire;
For those who went through cannot ever die—
Their deeds are deathless as the sunshines in the sky.
And so we want your name to live over here
Where you can hear your comrades cheer!
O Bradley Boy! We love your memory here,
More! More! With the passing of each year!

—David Henry Wright.

Speeders Will Be Arrested

In an interview last night Mayor Killam E. Bennett said that the laws governing the operation of automobiles would be strictly enforced within the Borough limits. The police department has been given a list of names of owners and drivers of cars of whom complaints have been received for speeding and other violations of the auto code. The officers have been instructed to see that all provisions of the automobile laws are complied with, and to promptly arrest offenders who do not heed the first warning.

Mayor Killam E. Bennett is to be commended for his prompt action and it is to be hoped that he will succeed in placing cars under proper restriction before the accident happens which will be inevitable if things are allowed to go on as in the past. It has been purely a matter of good luck that someone has not been killed before this.

As though in open defiance of the attempt being made to properly regulate the running of cars on our streets, two automobiles raced up Thomas avenue from the river to Broad street yesterday morning at breakneck speed, only slowing up for the bumps at Fourth street. One was a Dodge and the driver could not be ascertained, but the other belonged to a family on the river bank and the name of the chauffeur who was driving has been given to the authorities.

Most of the cars in Riverton are properly and carefully run and those who have failed to show the proper regard for the rights and safety of pedestrians should have no cause to feel aggrieved if they are now summarily dealt with, as they are doubtless familiar with the State laws, and have been repeatedly warned by the local authorities in an endeavor to secure reasonable action on their part without resorting to drastic measures.

Patience has ceased to be a virtue.

Mad Dog on Rampage

Last Saturday a dog apparently suffering with rabies, bit a dog belonging to the Keatings at East Riverton. It escaped and remained at large, biting several other dogs, until it was finally run down and killed late in the afternoon by Officer George R. Scott, constable in Cinnaminson, living at East Riverton. He sent for Dr. W. W. Gardner, of Moorestown, who said the dog showed signs of rabies, and he sent the head to the University of Pennsylvania, from which he received a report that the dog had been suffering with a very acute case of rabies. The dog had been in Riverton during the afternoon and it is quite likely that it bit other dogs within the borough.

Immediately on learning of the incident the borough authorities made arrangements to have the S. P. C. A. dog catcher's outfit from Burlington come to Riverton and pick up all dogs found in the streets unattended and unmuzzled. This action shows that Riverton's officials are keenly alive to the necessity of taking prompt and effective measures to protect the lives of the residents of the borough, and is to be highly commended.

What with bicycles being ridden on the sidewalks and automobiles racing through our streets like all possessed, parents have had enough to worry about without this added concern, but it will be the part of wisdom to keep an eye on the little folks for awhile and to discourage familiarity with strange dogs.

On instructions from the township committee Officer Scott has required the owners of dogs in the vicinity where the mad dog is known to have operated, to be muzzled or kept tied up for a hundred days.

The law requiring that all dogs registered has not been very well observed in the township, only two owners having complied with the regulations to date.

It is understood that Cinnaminson township authorities will also employ the dog-catcher's outfit to weed out the dogs for which no one is willing to stand responsible.

DEATHS

Clara V. Myers, daughter of Armond Myers, of Haines Mill Road, died Wednesday, and will be buried this Saturday at Wrightsville.

Wesley Estell, 23-day-old son of Mr. and Mrs. Howard Estell, 605 Cinnaminson street, Riverton, died June 22, and was buried in the Methodist cemetery, Palmyra, last Saturday, the Rev. E. A. Robinson officiating.

WEEKLY NEWS BUDGET
for Riverton and Vicinity

Buy It at Home!

Miss Harriet Bonham will spend the summer in Benton, Pa.

William Crouch went on a fishing trip to Asbury Park on Sunday.

Miss Leah M. Harris is spending the summer in Rio Grande, N. J.

Mr. and Mrs. D. L. Vaughan and daughter are spending the summer in Ocean City.

C. A. Templin and family are in Ocean Grove, where they will spend the summer.

Ogden Nevin, of Philadelphia, is spending the summer at the Lawn House, Riverton.

Mr. and Mrs. Spencer Johnson moved to Atlantic City Monday, where they spent several days.

Ralph K. Boyer is making extensive alterations and additions to his residence on Main street.

Miss Bertha Gramm will take Miss Campbell's place at the Riverton Free Library from July 5th to August 20th.

Mrs. Charles E. Chidester and daughters, of Massillon, Ohio, are visiting her parents, Mr. and Mrs. S. S. Daniels.

Mr. and Mrs. Walter K. Woolman and family expect to leave on Saturday for Bayhead, where they will spend the summer.

Mrs. Casper Padmore and children, of Wilmington, Del., will be the guests of her mother, Mrs. Nellie Cavanna, over the Fourth.

Mr. and Mrs. M. J. Flynn, of Wayne, Pa., and Mrs. F. J. Straulina, of Franklin, New Jersey, will spend next week with Mrs. William O'Donnell.

Mr. and Mrs. John Clark stopped over Sunday with their son, J. Douglas Clark, on their way to Ludlow, Mass., to Athens, O., by motor.

Miss Helen D. Wells left last week to visit her sister, Mrs. Robert Wells, at Sea Side Park, N. J., en route for Orr's Island, Maine, where she will spend the summer.

Mrs. Sarah Etris left on Monday for Alma, Michigan, where she expects to spend a month with her son, George S. Etris and daughter, Mrs. Frank Earling Smith.

Clinton B. Woolston has purchased a cottage at Lavalette and Mrs. Woolston and children are now occupying it for the summer. Mr. Woolston spends the weekends with his family.

The Three M's Bible class of Calvary Presbyterian Sunday School held their annual picnic at Clementon Park Wednesday. Transportation was by means of Harry Haines' truck, from Moorestown.

Mrs. Randall S. VanPelt and young daughter, of Sewickley, Pa., who spent the weekend as guests of their uncle, Charles C. Rianhard, left Tuesday for Sea Side Park, N. J., to spend the summer with Mrs. VanPelt's mother, Mrs. Robert Wells.

Lawn festival under the auspices of Sacred Heart Church will be held at Broad and Elm avenue, Saturday afternoon and evening, July 2nd. There will be lots of amusement provided, home-made cakes will be on sale, the Palmyra band will play, and an automobile will be given away to some lucky person.

Mr. and Mrs. C. H. Westacott, of Linden avenue, entertained guests Saturday evening from Riverton, Palmyra, Philadelphia, Sharon Hill, and Paulsboro, to announce the engagement of their daughter, Josephine Theresa Westacott, to Mr. Milton Steele Lippincott, son of Mr. and Mrs. E. W. Lippincott, of Palmyra.

Miss VanSchuyver, of Burlington, has taken the new clerkship in the office of the Superintendent of Schools Kaser, recently authorized by the State Board of Education. She was formerly employed there, but resigned to accept a position in the Burlington office of the United States East Iron Pipe and Foundry Company.

At a meeting of the Board of Directors of the Riverton Fire Company last night the matter of the Penn Motor Company fire on the morning of June 14th was thoroughly discussed as regards the efficiency of the work of the Company, water pressure, etc., and it is understood that the Company will have some recommendations to make to the Borough Council at its next meeting, on July 14th.

Elzie Stanford, driver on one of the ice wagons of D. H. Mattis, was arrested yesterday and given a hearing last night before S. Howard Troth, charged with stealing ice. He was held under \$50 bail, which was furnished by his father, for trial in the county court. Stanford claimed that he took the ice for his own use, which privilege had been granted by his employer. It is understood that Mr. Mattis will withdraw the charge.

L. R. Turner has been appointed principal of the Bousal school, Camden.

The new sign posts marking the streets were placed in position last week at the corner of all streets crossing Broad street. The streets were formerly marked by signs on the lamp posts, but when the electric arc lights were installed the posts were removed and there was no means of displaying the names. The new posts are neat and attractive.

James Kenny, wife and children, of Riverside, had a narrow escape from death when their automobile was demolished by an eastbound train at Taylor's Lane about 10 o'clock Tuesday night. The front wheels of the car were on the track before Mr. Kenney noticed the train. He stopped his engine and the family climbed out of the car just before it was struck. The engineer had succeeded in bringing his train almost to a stop before the collision occurred. The front of the car was badly damaged.

The Riverton and Palmyra Water Company will install the Fourth of July drinking fountains of the bubbler type on fire hydrants at the foot of Penn street, on the bank in front of the home of George W. Edwards, and one near the station. These fountains will take the place of the water barrel from which has been quenched the thirst of juvenile patriots as well as those of greater years. First there was the barrel and a tin cup, then paper cups supplanted the time-honored tin, and now the last word in sanitary drinking has been introduced. As soon as suitable fixtures can be secured the company expects to install three such fountains permanently—one on the river bank at the pier, one near the Riverton station, and one near the station at Palmyra.

The Opening of the William Penn Memorial Bridge, July 4, 1925

The day has come, our bright and happy day
When we can see them across the Bridge.The Mounted Police—first of all,
With their horse flanks shining in the sun;
The Boy Scouts with their flags and banners
To keep the crowd in order.A merry group of dancing girls
Robed in white with garlands of roses,
Then the Chorus of one hundred
Churches chanting their hymns of praise.A thousand women, whose hands are
gnarled and hard with work.
Another thousand women from the
sweatshops of our cities.
Those with hands like sponges, made
by the pricks of a thousand needles
as they sew on heavy garments.
These shall ride today in the autos of the rich.They today shall carry roses in their hands.
For this is their holiday.
Then the workmen in their working clothes
From the farm, shops, ship yards—
Then a troop of jolly boys
With wide trousers flapping in the wind.Then the soldier boys with drums and martial tread.
Then the Mayors of Cities,
The Governors of States—
Perhaps Mr. President will walk as
Alleyed did into Jerusalem.
For this is the Bridge of the working people;They who toil and labor with their hands,
Who grow the food we eat,
Who make the clothes we wear,
Who make the ships that bring the
Products of the world to our city gates.These are earth's toilers who are so
Happy on their Bridge today.
—David H. Wright, 2007 Arch St.

Big Swimming Event July 9

On Saturday afternoon, July 9, the Riverton Yacht Club will hold the largest and greatest swimming meet of the entire season. The events will consist of 50, 100 and 200 yard events, breast stroke and back stroke races, fancy diving and a relay race between the New York and Philadelphia girls for the American championship, and one between teams from the Philadelphia Swimming Club, Girard College and the Riverton Yacht Club for the Philadelphia championship.

Among the swimmers competing will be the cream of the triumphant Olympic team. Ethelda Bleibrey, the world's premier woman swimmer, will be on hand, as will little Eileen Riggan, who annexed the world's diving crown. Charlotte Boyle, Helen Wainwright, Alice Lord, Bertha Tomkins, Catherine Brown and many other famous New York mermaids will be among the entries. Eleanor Uhl and Irene Guest, our own two Olympic champions, will make Miss Bleibrey swim in a record time to win.

Among the men will be the pick of the Philadelphia Swimming Club, the Girard College boys, the Philadelphia Turngemeinde, Central Y. M. C. A., etc.

It is expected that Ludy Langer and Harold Krueger from Honolulu will swim against the pick of our boys.

It will be the first meet since the Olympics in which most of the country's great stars will swim.

The races will start promptly at 2.30 p. m., and will be under the supervision of Charles B. Durbin, the swimming chairman of the Middle Atlantic Association of the Amateur Athletic Union of America.

On the 23rd the Club will run off for the fourth time in succession the long distance national swimming championship of America and Canada. The Philadelphia Swimming Club stages the one mile national championship on the 16th.

The Storm

The heavy wind, electrical and rain storm that passed over this section Tuesday afternoon blew down several trees in Riverton, and wrenched off many limbs as large as a man's body. Fortunately the downpour of rain had driven nearly everybody to shelter, and no one was injured by the flying debris.

Some of the trees fell across the electric lines, and the police department immediately telephoned to the power house at Riverside to cut off the current, thereby preventing possible injury to the army of pedestrians who flocked out as soon as the storm had subsided to see what damage had been done. The power was off for about two hours.

The building of the First Church of Christ, Scientist, on Thomas avenue, was struck by lightning and a hole torn through the roof and one of the side walls.

A force of workmen with axes, under the personal supervision of Robert Clelland, was on the streets before the storm had fairly subsided, chopping away the trees and limbs where they had fallen across the highways which they had opened for traffic in a very short time.

The basement of the new Palmyra bank building was completely filled with water and steps will have to be taken to prevent this from occurring after the bank opens for business there.

In West Palmyra Mrs. Annie Pfaff's house was struck by lightning and the chimney knocked down during Tuesday's storm.

Robert McGuigan, a Beverly man who recently bought a farm from the Brock estate near Fairview on the Burlington pike, was killed by lightning while working in the fields Tuesday afternoon.

Lightning struck the State House at Trenton twice this week, not exactly in the same place, but close enough to worry the old adage some.

New Teachers Selected

At the meeting of the Board of Education last Friday night Robert F. Parks was elected director of physical training. Miss Helen F. Bozarth is to teach domestic science, and Miss Gladys Barrett for departmental work.

The selection of electric lighting fixtures was referred to the property committee, and a plan was submitted by Miss Chew for the arrangement and equipment of the domestic science room, which will be installed in the room heretofore occupied by the seventh grade.

The following bills were ordered paid:
Teachers \$1474.00
Janitor 100.00
Attendance officer 15.00
Coal 321.43
District Clerk 175.03
Printing 14.50Books for awards and manual training supplies 77.34

Concerning Fireworks

By special Act of the Legislature, it is unlawful to explode fireworks of any character in any city, borough or township in the State of New Jersey excepting it be between the hours of 12 o'clock p. m. July 3, and 12 o'clock p. m. July 4.

The Borough officers have been instructed to enforce the law, and you are respectfully requested to observe the same.

The use of revolvers or firecrackers on Main Street or River Bank during the Children's Parade or the morning exercises is strictly prohibited.

Owing to the many casualties resulting from the use of fireworks, the citizens of Riverton are requested to discourage the use of all kinds of explosives to such an extent as their good judgment and the safety of the children may suggest.

KILLAM E. BENNETT,
Mayor.

The Fourth in Riverton

The Fourth of July program in Riverton will start at 9.45 with a children's flag parade as usual. There will be the usual prizes for decorated baby coaches and velocipedes.

Canoe events will start at four o'clock. These contests are open to all comers and will include men's doubles, juvenile doubles, ladies' doubles, men's singles, juvenile singles, ladies' singles; men's doubles, men's fours, men's fives paddling with hands, and winding up with the tilting contest.

The music through the day will be furnished by Iron's band, of Burlington. The fireworks, of which an unusually fine display has been secured, will start at 9.30, daylight saving time.

The prizes for aquatic events will be on exhibition in Mrs. Alfred Smith's store window on Friday and Saturday of this week.

The prizes for the decorated baby coaches and velocipedes are on exhibition in Mrs. Smith's store window.

Political Notes

Miss Lilly Parry, of Hainesport, daughter of the late Senator William C. Parry, and sister of Senator William H. Parry, of Essex county, is said to be the prospective woman vice chairman of the Republican County Committee.

The news of the week in political circles has been the definite statement by Surrogate Charles M. Rigg that he will not stand for renomination.

When Mr. Rigg's final decision became known, Deputy Surrogate M. E. Matlack became an avowed candidate for the Republican nomination for Surrogate, his announcement appearing elsewhere in today's issue.

In the County Court

Carl Taylor, the Camp Dix soldier who pleaded guilty to stealing a pair of trousers at Riverton was committed to the Rahway reformatory.

There is a divine intuition which is independent of all tuition.—Persian.

Noted Persian Visits Riverton

Jenabe Fazel Mazandarani, former professor of philosophy in the college of the Shah, Teheran, Persia, and his interpreter, Mirza Ahmad Sohrab, formerly of Persia, and now of California, were visitors in Riverton last Friday.

In the afternoon they gave a talk at the home of Miss Helen Lippincott, telling of the spiritual life of the East, and how it has always been the home of the prophets of God. They touched on the early life of Persia and the prejudices left by the many religions that have been in that country—the result of ignorance and misunderstanding. Then they told how the coming of Baha'ullah had brought love and harmony among the people who receive his message, which tells of the oneness of humanity, independent investigation of truth, the foundation of all religions is one, religion must be the cause of unity, religion must be in accord with science and reason, equality between men and women, removal of prejudice, universal peace, universal education, solution of the economic problem, an international auxiliary language, an international tribunal.

After talking about an hour Jenabe Fazel then answered a number of questions regarding India and other countries, and explained that the Baha'i Movement is not connected with any political agitation, but works along spiritual lines. Among other things he said that in Ishkabad, Russia, about twenty years ago, a great universal temple was erected, the first of its kind in the world, surrounded by beautiful gardens and buildings of benefit to humanity, such as a college, hospital, hospice, home for children and the aged, etc., and all of them with their doors open to all mankind. The foundation for a similar temple in America has been started at Wilmette, near Chicago.

Lively Wasn't There

A flurry of excitement was caused Wednesday morning by a report that Louis Lively, wanted for the murder of the little Russo girl at Moorestown, had been seen in the woods at the Country Club. Both officers were detailed to capture him, but a most thorough beating of the bush failed to reveal the presence of Lively or any other person of suspicious appearance.

Carl Wallin is spending several weeks in Fairleigh Heights, Md.

No Shortage

"I rented a house in the Street of Dreams," sings a poet. Well, even a poet can pay the rent of that kind of a house. Boston: Tribune.

"Some people said that it couldn't be done,
But they with chuckles replied,
'That they wouldn't say it couldn't be done
Until they had tried.'
So they started right in, with faces all grins—
If they worried they hid it—
And they started to SING as they tackled the thing
That couldn't be done and they did it."

Notice

All readers or local notices of entertainments, suppers, fairs, dances, given for the purpose of raising money, or for which admission is charged, will be charged for at the rate of fifteen cents a line.

All the Swimming Stars Here Tomorrow

The swimming races at the Yacht Club this Saturday, July 9th will be the biggest thing since the Olympic events in the swimming line. Charlie Durborow has outdone himself this time to secure for Riverton the greatest stars in the swimming world. The matchless Ethelda Bleibtrey, the wonder of the age, will be here as will Charlotte Boyle, who just made a record for her fifteen year old record for the 150 yard event. Little Eileen Riggins will show how last year she annexed the world's diving title at Antwerp. Helen Wainwright, the national champion, will strive to show that an American national champion can even beat an American world's champion. In all the New Yorkers are bringing to Riverton their fifteen most formidable swim demons. In fact they have written to Mr. Durborow to make certain he has an accurate 100 yards course measured off as they claim their four-girl relay team will even surpass the world's champion American relay team which swam at Antwerp last year. They are going to hang up a new world's record in time. By the way there will be three of that all-conquering American relay team here Saturday. The Philadelphia girls will have in Misses Guest and Uhl (Philadelphia's two Olympic stars) and in Misses Artelt and Ryan a formidable team to meet the haughty Manhattaners who will rely on the Misses Bleibtrey, Boyle, Riggins and Wainwright. Then the little girls under thirteen will fight it out all over again. In the Misses Uhl and Guest, of Philadelphia, and the Misses Bleibtrey and Boyle, of New York, we will see a quartet of the famous American Olympic champions; and in the Misses Riggins and Wainwright, two of the greatest divers in the world today.

Miss Artelt, of Philadelphia, will give Miss Bleibtrey an awful struggle for the back stroke event, while Miss Hillegass, of the Turngemeinde, is sure to annex the breast stroke event. The Turngemeinde girls will also enter both the senior and junior races. In all they are sending sixteen of their best girls. The Meadowbrook girls who are expected to upset the predicted victory of the New Yorkers will be here strong. Teams from the New York Women's Swimming Association, the Meadowbrook, Philadelphia Turngemeinde, the Hyacinth Swimming Club, the Philadelphia Swimming Club, Gird College, University of Pennsylvania, the Kensington and Central Y. W. C. A. and Y. M. C. A., etc., will all be listed among the entering clubs. Ludy Langer and Stubby Kruger, of Honolulu, who are here for the one and ten mile national championships, will enter the men's races, as will the pick of the east. In the men's relay will be brought together the always victorious Girard College team, the Philadelphia Swimming Club, the Philadelphia Turngemeinde, and the Riverton Yacht Club. The Yacht Club team will consist of George Corner, Jack Howell, Ogden Nevin and Dick Hollingshead. Little Johnny Boyle, of Girard College, the schoolboy wonder, will astonish the spectators with his thrilling dives. Little Master Brown, the four year old New York diving wizard, will also be among the attractions.

Mr. Durborow will be in charge of the meet, assisted by Luke Smith, of the Turngemeinde, who will act as referee, while President Dalls, Herman Meyer, Miss Charlotte Epstein, of New York, and other capable officials will see that all runs smoothly. Three different movie men will be here to see who gets the best films, while all the Philadelphia papers will have reporters and photographers on the job, and with President Dalls, of the Middle Atlantic A. A. U., here and Miss Epstein, head of swimming in the Metropolitan A. A. U., and Mr. Durborow, head of the Middle Atlantic A. A. U. swimming, all the main officers of the East will be in charge of the meet.

Glimpse of the Labor Day Events

Riverton swimming followers will be given a great treat over the Labor Day weekend. The great team of women swimmers touring America from the Pacific coast, Canada, the Middle West and the Eastern stars, after their meet in New York Saturday afternoon, September 3, under the supervision of Tex Rickard, the greatest of all promoters, will board a train direct for Riverton, arriving here Saturday night to be the Yacht Club's guests over Sunday and so be fresh on Labor Day after their grueling New York meet. It is a safe bet all day Sunday the Club pier will be crowded and that the fair swimmers will not have to look in vain for pilots when they swim, or motor boat—and automobile trips.

bringing here and the great fame it is giving to our town throughout the world as a swimming center second to none.

Let us at least learn these duties: To identify ourselves with truth, liberty, righteousness.—F. W. Gunsauls.

WEEKLY NEWS BUDGET for Riverton and Vicinity

Buy It at Home!

C. T. Woolston is spending the summer at Longport.

Miss Eleanor Major is spending a week at Asbury Park.

Mr. and Mrs. G. T. Dold are visiting relatives in the Poconos.

Mr. and Mrs. J. W. Sylvester had a family reunion on July 4th.

Mr. and Mrs. W. B. Lynch spent last weekend at Atlantic City.

Mr. and Mrs. Alfred Smith and Mrs. W. R. Hoffman are at Longport.

J. P. Fairbanks, who is staying at Parkersburg, W. Va., was home over the Fourth.

Dixon Taylor and family left today for a month's motor trip to Marblehead, Mass.

Mrs. Allen McWhorter and daughter are spending several weeks at Norfolk, Va.

During the month of June there were in Riverton 5 marriages, 2 births and 2 deaths.

Honest now, what was the first thing you read in the Sunday morning newspaper?

Have the brakes on your car re-lined at John Carhart's shop, back of Compton's store. —adv.

R. D. Barclay and family are at Platenburg, N. J., where they will spend the summer.

Capt. H. M. Powers and family, of Baltimore, spent the Fourth with friends in Riverton.

Mrs. C. H. Roll and family are spending the summer at Honey Harbor, Ontario, Canada.

Edward Faunce has taken the place of his father, Michael Faunce, as attendant at the wharf.

Mr. and Mrs. A. F. Deacon and Dr. E. S. Janney-Stoddart are spending some time at Stoddartsville, Pa.

Miss Elizabeth Dunlop, daughter of Mr. and Mrs. Charles Williams, is spending several weeks in Ocean City.

Mrs. E. L. Carpenter and son, Jack, returned Sunday from spending three weeks in Kentucky with her mother.

Owen Merrill and Oliver Bowen left on Tuesday for two weeks at Camp Ochanickon, near New Egypt.

Both eating and cooking apples can be obtained at the Cold Storage Plant at ten cents per basket and up. —adv.

Mr. and Mrs. Francis Holvick, of Delair, are receiving congratulations upon the birth of a daughter on Saturday.

William Rowan and family moved into their new home on Tuesday which they purchased from John Armitage.

Medford's oldest house, the building in which wrought iron nails were first made in America, was badly damaged by fire last week.

Mr. and Mrs. Craig Denman, and Mr. and Mrs. G. H. Wheeler, of New Brunswick, were guests of Mr. and Mrs. O. H. Mattis over the Fourth.

Sneak thieves have now taken to carrying off porch furniture. A number of fine cushions were taken from the porch of Mr. Myers Filler Wednesday night.

The Palmyra Motor Company, under the management of Oscar B. McCoy, has opened a new Ford station with temporary headquarters in the rear of 117 West Broad street, which a new garage is being erected.

The fire company has arranged to hold a fire drill every Tuesday night. Members who desire to become acquainted with the work of the company and to see if all the skippers had their new licenses. He found to meet at the fire house at 7 o'clock.

Mrs. John Sloan is spending the summer at Wildwood, where she has charge of an apartment house for Mrs. Cole. Her grandchildren, Leon and Betty, are with her, and Mr. Sloan plans to spend this weekend there.

A government inspector stopped at Riverton Fourth of July to see if everything was ship-shape aboard the fleet here and to see if all the skippers had their new licenses. He found nothing amiss, and each captain had his pastebord.

The superintendent of the Burlington County Hospital reported at the monthly meeting of the board of managers on July 5 that the number of patients admitted the preceding month was 52, discharged 51, died 1, and remaining 12.

Anna Evans was rescued from drowning by Edward Faunce on Wednesday. Anna had gone in to swim with water wings. She got the wings adjusted too far aft and when she kicked up her heels her head went under and she was unable to trim ship.

Mr. and Mrs. William Barr and family, M. J. Gorman, of Moorestown, Charles Lyons, of Burlington, Mr. and Mrs. M. J. Flynn, of Wayne, Mrs. F. J. Straulina, of Franklin, and Miss Anna Coulahan, of Germantown, were the guests of Mr. and Mrs. William O'Donnell on the Fourth.

Henry Biddle, who has been quarantined for scarlet fever at the home of his uncle, McVain Biddle, has recovered and gone to the home of his parents in St. Davids. The quarantine has also been removed from the home of Mr. and Mrs. N. Myers Filler, where their son, Nathan, has been ill with scarlet fever.

Appointment of John Enright, of Freehold, to succeed Dr. Calvin N. Kendall as Commissioner of Education for the ad interim term between July 1st and the convening of the Legislature was announced by Governor Edwards on Wednesday.

Mr. Enright is the Assistant Commissioner of Education, having in charge the interpretation of the school law. During the illness of Dr. Kendall, Mr. Enright has been acting as commissioner, so his advancement may be regarded as logical. Mr. Enright's appointment followed the declaration of Dr. Henry Snyder.

Cooper H. Prickett, of Burlington, whose candidacy for the Republican nomination for State Senator was first announced in a newspaper in his home city several weeks ago, has reconsidered his earlier attitude in the matter and decided that his business responsibilities will not permit of his giving the personal attention to his candidacy that would be required, in justice to himself and to those friends who might be enlisted in his behalf. Mr. Prickett has therefore decided not to be a candidate. This new development in the Senatorial race apparently leaves Assemblyman Roberts in virtual possession of the field.

Children's Flag Parade Impresses Spectator

The feature of Riverton's Independence Day celebration was, as usual, the children's flag parade. The remark of one spectator voiced the sentiments of many when he said, "Well, this is the big event of the day to me. All the other things are fine, but to see all these happy children carrying the national emblem is a great and inspiring sight."

The line of march to the river was led by Fred Wilson on stilts and wearing the uniform he used for naval recruiting during the war, followed by Irons band, the mayor and councilmen, the ministers and then the lines of children, followed by the procession of decorated baby coaches and velocipedes. Wilson made a great tide with the youngsters. Charles A. Wright arranged to have Mr. Wilson come to Riverton.

Upon the arrival of the column at the river bank prayer was offered by the Rev. E. A. Robinson, of Palmyra, and the address was delivered by Dr. N. F. Stahl, of Riverton. Mayor William Bennett presided at these exercises.

Prizes were awarded as follows: decorated baby coaches, Robert Steele first, Rex Showell second, Granville Dare third. Velocipedes, Ralph Gibbon first, Anetta Durborow second. The judges were Miss Bertha Robinson, Mrs. Herbert M. Morris, Mrs. Robert F. White and Miss Steele.

The three bubbling drinking fountains placed on the river bank by courtesy of the Water Company, were greatly appreciated.

The sailing races were somewhat disappointing. The sixteen-foot class was the only one with enough courage to attempt to race in the light, fluky air. Three of the sixteen footers came over from Holmesburg to try their hand against the Riverton youngsters. The course was shortened to enable them to finish within a reasonable time. Starting down the river against tide, leaving Dixon's houseboat to starboard, they then rounded the buoy off Holmesburg wharf and finished at the club house.

The houseboat blanketed the little fellows and made it hard to riddle. The Captain Kid was the first to accomplish this, and with a strong tide in their favor to the next mark, were never overtaken to the finish, although Vin Bush used good headwork in trying to overcome the lead of his adversary. The Captain Kid finished first, Vincent Bush second and Bill Edwards third.

In the afternoon when the tide turned, a light air sprang up, and with the first sign of a breeze the captains and crews of the L. I. boats, waiting anxiously, were quick to take advantage of any opportunity to sail a race.

Starting up the river with a broad reach to the weather mark, thence to Eight-mile Point, returning home with spinners set, the boats looked like a bunch of geese. The first to reach the mark was Vincent Bush, a winner as the boats neared the club house, but Robert nosed him out by inches in the last few feet.

Riverton—less than a minute elapsing between the finish of the first and last boats.

The judges of the aquatic sports were Walter C. Wright and Clarence Tucker.

Juvenile swimming race, under 12 years—Dick Cole, Jack Naisby, John Ayres.

Juvenile swimming race, under 16—Vincent Bush, John Brennan.

Girls' swimming race, under 16—Catherine Steele, Edith Sullivan, Helen McConnell.

Men's swimming race—Dick Hollingshead, Jack Showell, Wesley Lloyd.

Ladies' swimming—Harriet Holder, Catherine Eastburn, Mildred Simpson.

Tub race—Malcolm Dickinson, Vincent Bush, John Ayres.

Tub race, under 12—Giles Knight, Charles Knight, John Ayres.

Canoe events

Men's singles—Marcey, Adams, Funk.

Ladies' singles—Harriet Holder, Augusta Cavanna, Miss Lloyd.

Juvenile singles—Burr, Sylvester, V. Bush.

Men's doubles—Rankin and Adams, Clelland and Marshall, Hollingshead and Shreve.

Ladies' doubles—Holder and Cavanna, Sullivan and Ransey, Cline and Mooney.

Juvenile doubles—Burr and Burr, Karins and Miller, Dickinson and Bush.

Mixed doubles—Wismar and Adams, Collin and Hollingshead, Karins and Rankin.

Men's fours—Farrow, Merrill, Corry and Jones, Clelland, Ransey, Marcey and Rieged.

Men's fives, paddling with hands—Armstrong, Wright, Anderson, Keating and Graf.

Relay contest—Anderson and Wright, Hollingshead and Jamison.

A feature of the day was the flying of Frank Mills, senior flying instructor, at the Essington School of Aviation, who was here with his hydroplane again this year, and dropped over 500 shields valued at from one to twenty-five cents, for which there was the usual merry scramble. He also took up many passengers, among them were Herbert Evans, Mrs. Joseph Morgan, Elaine Hatch, Mrs. William Burnell, Mrs. J. B. But, Adelaide S. Biddle, Kay Kershner, Keshling, A. L. Miller, E. R. Miller, C. A. Wright, Walter C. Wright and George E. Davis, of Riverton; Francis Karins, of Atlantic City; Mrs. E. E. Kitchin, of Great Neck, L. I.; J. C. Nash, Philadelphia; K. P. Stone, Kansas City, Mo.; J. Weyer, Meriden, Conn.

The celebration ended with a fine display of fireworks in the evening.

Picnic Up the River

Last Sunday four boatloads of Rivertonians "sailed" to Edgewater Park and spent the day. Owing to the absolute lack of wind the other three boats were towed by the Tradescantia, an auxiliary cruiser. The boats and the guests were as follows: Tradescantia, Captain E. K. Merrill; Mrs. Edgar Miller and two daughters, Harry Rogers, Mr. and Mrs. Merrill, Nokomis, Captain William H. Baker; William and Miss Eleanor Baker, Miss Mildred Simpson, Miss Osbourne, Fred, Frank and Robert Jones, Miss Eleanor Jones, Miss Adelaide Jones, who is a house guest of the Washingtons, Howard and de Herburn Washington, Wayne Wilson, Tom, Captain John—Mr. and Mrs. Johnson, Yankee, Captain Edgar Miller—Mr. Miller and son, Edgar, Rodman and Owen Merrill.

Who Shot the Dog?

I want to correct the report in last week's issue about the person who killed the mad dog at East Riverton. William Anderson is the man who killed the dog with a shot gun at the railroad crossing.

Leave It to the Boys!

A good story was repeated by an officer from Camp Dix the other day who was speaking of the ingenuity of the soldier boys in getting what they wanted even when short of cash. Two soldiers enjoying a short leave of absence decided that they would relish a trip to the shore. No prosaic train rides for them, though. They must needs charter a taxi and travel in style. When they had seen a good slice of the country between the cantonment and the western edge of the Big Pond, the chauffeur began to manifest symptoms of anxiety as to the state of the soldiers' exchequer. Finally he stopped his car and asked for a show-down. The soldiers dug down and brought up all of their available assets, which amounted to somewhere between thirty and forty dollars, enough to pay off the taxi driver and get a good square meal. How to get back to camp was the next question. This did not bother the young men long, however, for one of the closest friends of the army and so this "surrender" would look like a round hundred dollars to the officer landing the "deserters" at Camp Dix. Accordingly the soldiers, after a little preliminary prospecting, "surrendered" to a constable who owned an automobile. He welcomed them with open arms and immediately got out to make ready for the "diver" and started off for Camp Dix with the two "deserters." He was affability itself and visions of an easy hundred dollars were before him all the way to Wrightstown. Arrived at Dix, the men kept the constable driving around the cantonment for some time upon an ostensible hunt for the proper officer whom to make report. After becoming convinced that they had secured the confidence of the constable by their apparent interest in the cantonment, they placed where the Asbury Park minion of the law was to receive his hundred dollars, the men quietly slipped out of the rear of the car and disappeared, leaving the constable to arrive slowly at a realization of the lengths some men will go to get a free ride, when out of car-fare. Of course the young "deserters" promptly informed their comrades and identification after that was impossible. There were probably some thousands in camp who would have provided a complete alibi for the respectful young privates who rode in state to the shore and got back for nothing. But they wait until the next soldiers get into the grasp of Asbury Park constable. —New Jersey Mirror.

Interest in Party Keen

State Republican Chairman E. C. Stokes announced on Wednesday that the appeal to ten thousand Republicans to fill the State Committee with dollar subscriptions had netted the State Committee to July 1 just \$4155. This sum, the State Chairman had indicated that forty-one and one-half per cent of the people actually responded to the appeal for popular support of the party.

"I am delighted at the success of the effort," Stokes said. "I am confident that some good Republicans have laid aside this appeal, intending to send in their money before we close the books on September first. We are still receiving fifty per cent paid in when the State committee next meets."

Ten Cent Trolley Fare Probable

Declaring that the present seven-cent fare charged by the Public Service Railway Company in 142 municipalities of New Jersey under existing conditions will bankrupt the company and endanger the lives of its passengers for want of funds to repair roads and cars, the Supreme Court on Friday remanded to the Public Utility Commission for a review the proceedings under which the board denied the company's application for permission to charge a ten cent fare.

The effect of this decision, it is believed, will be some increase in rates will be granted by the utility commission.

At the meeting of the Board of Freeholders on Friday, a communication from Congressman Bacharach was read, stating that he would do all in his power to assist this county to collect from the government the money expended for repairs to roads that have been damaged by traffic occasioned by Camp Dix. The claims of the county total about \$400,000.

"You Cannot Hire a Man to Do Your Killing"

Notice has been served by Judge Barratt in Philadelphia, that if the owner of an automobile is in the car and allows his chauffeur to drive recklessly so that an accident or death to a pedestrian results, he, the owner, is equally responsible and should be held.

"You cannot hire a man to do your killing in this State, and get away with it," Judge Barratt said.

That notice to car-owners was made by Judge Barratt in his charge to the Grand Jury, and he laid special stress on the increase in accidental deaths and the need for the rigid enforcement of the law. He said that there were more accidental deaths in Pennsylvania in a year than there were men killed in the battle of Gettysburg. He told the Grand Jury that it should not distinguish between the rich and poor owners of automobiles who figure in accidents.

"The poor owner cannot afford a chauffeur," said Judge Barratt, "and following an accident the owner is arrested while the rich car-owner who employs a chauffeur escapes a jail sentence, and his chauffeur, who is under his orders, is held responsible."

The above charge, Magistrate Price put into effect Tuesday, when he held Jacob Stein, Pottstown, Pa., owner of a truck which crashed into a concrete base in the middle of Broad street, at Westmoreland, under \$300 bail with the driver, Hiram Snyder.

Owners and drivers of automobiles in Riverton have been notified by the police department that any infractions of traffic laws will be promptly prosecuted.

Approximately 44,000 former service men and women of New Jersey will receive their State war bonus checks this week. They will be mailed from the State House. The checks range from \$10 to \$100, under the provision of the 1920 law, approved by the electorate, voting a bonus of \$10 to former service men for each month they served in the colors during the World War. The maximum bonus is for ten months' service, totaling \$100.

INTERESTING NEWS BITS

in and around Palmyra

Buy It at Home!

Mr. and Mrs. Gilbert Tees, of Morgan avenue, will spend the summer in Avalon.

Mr. and Mrs. Alcock Nairn, of Lansdale, Pa., spent last weekend with Mr. and Mrs. A. W. King.

Watson Mervine is now in charge of the wireless aboard the destroyer Maury at Newport, R. I.

Mr. and Mrs. C. P. Palphreyman and son, Gilbert, left Sunday for a two weeks' stay at Lavallette.

Mr. and Mrs. James A. Ryckman and daughter, Miss Dorothy, left Saturday to spend two weeks at Lavallette.

Paul Bauder and Glen Easley will again spend the summer at Island Heights, being the main works of an orchestra there.

The Riverside fire truck was employed last Friday evening to pump the water from the basement of the new bank building.

Mr. and Mrs. Earl Harker, former Palmyrians, now living in Miami, Fla., are receiving congratulations on the birth of a daughter, June 28.

Mrs. M. Shumate, of Oklahoma City, and her son, H. Shumate, with his French bride, were weekend guests of Mr. and Mrs. W. F. Letford, of Parry avenue. Mr. and Mrs. E. H. Shumate leave shortly for Paris for an indefinite stay.

The King's Daughters Bible club will hold its business and social meeting at the home of Mrs. Dorell T. Mason, on Horace avenue, Tuesday evening, July 12. Every member is requested to attend as there is important business on hand.

Mr. and Mrs. W. B. Powell entertained Mrs. Philip Volmer, of Dayton, O., Mr. and Mrs. Elvin Powell, Mrs. Sarah Powell and Mr. and Mrs. Warrington Darnell, of Palmyra, and Mr. and Mrs. Howard Powell and family, of Merchantville, over the Fourth.

Albert S. King has presented the Field Club Tennis Association with a handsome 14-inch silver cup as trophy to be played for by members. The cup must be won two times and will be awarded for the first time at the end of a tournament to begin in August.

Chief Yeoman George W. Wuest, stationed at the Philadelphia Navy Yard, who has been making his home for some time with Mr. and Mrs. W. F. Letford, of Parry avenue, has received an honorable discharge and returned to his home in New York to enter business.

The committee in charge of the carnival for the Sacred Heart church, held at Broad and Elm avenue, last Saturday night, wish to thank the people of the town for their generous support. The proceeds totaled \$3,000. The automobile was presented to A. H. Born, of Delaware avenue.

Thieves entered the garage of Dr. Voorhis Wednesday night, but failed, having twisted off the key in the locking mechanism. They then ransacked the pockets of another car, but apparently did not take anything. It is believed they were scared off by the return of Dr. Francis Voorhis from a late call.

The Wesleyan Men's Bible class will hold a joint meeting in the woods at Taylor's Lane, on Friday, July 9. The class of Collingswood next Sunday. The members and their guests will meet at the gym at 2 p. m. Every man who wishes to go is urged to join them. Thirty cars are needed for the excursion. A total attendance at the meeting of 250 men is expected.

Mr. and Mrs. Frank N. Johnson entertained a house party over the weekend and the Fourth. The guests included Mr. and Mrs. J. L. Markley, the Misses Vesta and Edith Markley and Francis Markley, of Trenton; Misses Mary and Martha Shank and Norbert Ruggles, of Philadelphia; Mrs. Ella Entenken, Miss Elizabeth Hobart, Mr. and Mrs. Howard Entenken, and Mrs. John Tobari, Jr., of Vineland.

Charles J. Hein had quite a time with automobiles last week. Thursday afternoon, while riding with William Hansen, of Riverton, there was a mix-up near Riverside, in which two other cars figured and Charlie was thrown through the windshield and against another car. He received a laceration on top of his head. About Saturday morning he was riding up Broad street on his bicycle when a truck from Merchantville turned in suddenly from Cunningham avenue, passing on the wrong side of the sign post. The truck ran into Mr. Hein despite his effort to avoid it. This time his arm was skinned up and the bicycle wrecked.

McCoy to Open Ford Garage
The Palmyra Motor Company, with Oscar B. McCoy as manager, will erect a modern showroom and repair shop in the near future. The equipment of the new garage is to be most complete, including an exclusive repair shop with special machinery designed to handle Ford repairs cheaply and quickly.

Mr. McCoy was formerly sales manager for Lester S. Fortnum, Ford dealer at Bridgeboro, where he made a great reputation for sales promotion.

W. L. Wright, at present salesman for Lester S. Fortnum, Ford dealer at Bridgeboro, will resign his position there to accept a similar proposition with the new Palmyra Motor Company.

It's a Great Life—It!

Jean Mervine and Edward Becton, the two Palmyra boys who are "seeing America" afoot and via bicycle and contributed auto rides, have reached their first objective in the wheat fields of Kansas, where they have stopped to work for some time. Their latest address is Beloit, Kansas, R. F. D. No. 6, in care of Mrs. Grant Noah. Beloit is 200 miles west of Atchison. They reached Mrs. Noah's place very tired and short of change and accepted a job cutting weeds at \$4.00 per 12-hour day. Regular wages in those parts are \$5.00, but the boys aren't professionals yet. They write that they are sleeping in the hay and enjoying whopping big meals, despite the fact that they have developed 15 blisters and sundry other marks from unaccustomed toil.

The wheat threshing is to start soon and the boys are counting on making regular wages as long as the season lasts. They declare it's a great life and are so taken up with it that they hope to continue their tour to Colorado later.

Base Ball

The Field Club base ball team had a couple of defeats in its portion during the week, breaking a long string of successes.

The two unlucky games, however, had more thrills than a half dozen of the other kind and the fans ought to be satisfied, even if the "razzers" plied their criticism at each session.

In the fourth of July game, the Bristol A. C., which the Saturday before had defeated Rahway 1 to 0 in a 21 inning game, took the locals into camp by 11 to 7.

Despite the score the Field Club really looked like the better team and probably would have won but for the fact that one or two players, apparently affected by the heat, seemed unable to catch or stop a ball. The locals earned four of their runs, while Bristol got off to a bad start and despite excellent pitching by Hoyt, the tally was 7 to 2 when the locals came to bat in the seventh. No one had the slightest hopes of even tying the score, but it so happened that for the one frame the Field Club boys batted the ball all over the place.

Waggoner redeemed himself with a clean three-bagger to centre-field fence, all of which, coupled with Bristol errors, brought five runs across, knotting the score.

The crowd naturally went wild. Thereafter, however, the old game went flooie again, several additional errors letting in four Bristol runs, while the locals were helpless.

Wednesday evening, the Mitchell Fire Company, of Burlington, which the Field Club defeated some time back 6-3, took the measure of the locals 4-3.

In the ninth, with one needed to tie the score, the bases were loaded with none out, and the crowd indulged in a great demonstration. A sacrifice fly was vain and then, as it was quite dark, the visiting pitcher put lots of speed on the ball and struck out two men.

On Saturday, the locals defeated the Merchantville Giants, colored, by 12 to 3. Walton, a new pitcher, from Riverside, did excellent work.

This Saturday the locals play the Northwest Professionals, a crack Philadelphia nine.

Field Club Carnival

The Palmyra Field Club will hold a carnival and lawn fete at Broad and Maple avenue on Friday and Saturday evenings, July 15 and 16.

Strawberries, dancing, automobile rides, good music and many other amusements are among the scheduled attractions and the public is cordially invited.

In case of bad weather the carnival is to be held the following Monday and Tuesday.

Notes from Parry

Mr. and Mrs. J. Dawson, of Wissahickon, Pa., spent the weekend with their son-in-law and daughter, Mr. and Mrs. George Dorworth.

Mrs. J. W. Pickett, of Philadelphia, spent last weekend with her daughter, Mrs. R. Reimer.

The choir of the Moravian Church will hold their annual picnic at Cedar Lake on Saturday, July 16th.

Mrs. Charles S. Malley, who has been ill for two weeks, is recovering nicely.

The firemen's carnival was a great success.

The Wortham brothers are building a new bungalow.

Foot and take anything. It is believed they were scared off by the return of Dr. Francis Voorhis from a late call.

The Wesleyan Men's Bible class will hold a joint meeting in the woods at Taylor's Lane, on Friday, July 9.

The class of Collingswood next Sunday. The members and their guests will meet at the gym at 2 p. m.

Every man who wishes to go is urged to join them. Thirty cars are needed for the excursion. A total attendance at the meeting of 250 men is expected.

Mr. and Mrs. Frank N. Johnson entertained a house party over the weekend and the Fourth. The guests included Mr. and Mrs. J. L. Markley, the Misses Vesta and Edith Markley and Francis Markley, of Trenton.

Charles J. Hein had quite a time with automobiles last week. Thursday afternoon, while riding with William Hansen, of Riverton, there was a mix-up near Riverside, in which two other cars figured and Charlie was thrown through the windshield and against another car.

Not Drowned After All

Report had it Tuesday afternoon that William Hoff, son of Mr. and Mrs. Edward Hoff, had been drowned in Pensauken creek, but Mr. and Mrs. Hoff were overjoyed to see their son come walking home as sprightly as usual a short time later.

It seems that William had been in swimming with some of the 500 men word came of a trolley wreck at Delair. William dressed in a hurry and went to the scene of the accident. His companions missed him later and some feared that he had drowned. So the rumor originated.

Chance-Craft

The wedding of Miss Anna Craft, of Palmyra, and Mr. John Chance, of Beverly, took place in the parsonage of the Epworth Methodist Church on Saturday evening, July 2nd, at six thirty. The ceremony was performed by the Rev. E. A. Robinson. They were attended by Mr. and Mrs. Stanley Craft, of Palmyra, brother and sister-in-law of the bride.

Congress having enacted legislation to reduce the standing army to 150,000 men, orders have been sent to Camp Dix and other army posts to release from service all soldiers desiring to be discharged. There will be a great attempt to force men out of the service as the war department will stand back of enlistment contracts. All men who enlisted and desire to continue in the service will be permitted to do so. Those desiring to get out will be honorably discharged.

VILLAGE OVERRUN BY DOGS

Housewives of Silver Lake, New York, Had to Guard Kitchens From the Hungry Animals.

The hamlet of Silver Lake, on the outskirts of White Plains, N. Y., is all "bet" up because of the large number of dogs that have migrated to that section, according to the New York Evening Sun. In the daytime they forage through the town and at night they make sleep impossible by their howling.

Silver Lake has a population of about 600 persons, and it is said that there are 141 dogs, one lap dog and half a dozen hounds by actual count.

A staid old resident says that there is every kind of a dog imaginable in Silver Lake—small ones, big ones, short ones, long ones, dogs with no tail and one eye, lean ones and fat ones, but mostly lean ones.

This great influx of dogs to Silver Lake has created many nuisances. In fact, the housewives don't dare leave their kitchen doors unlocked or half a dozen hungry mutts will be roaming around trying to find something to eat.

The story is told of how one woman baked a raisin pie for supper for her husband. She left it on the kitchen table to cool while she went about her household duties. A little later she heard a great commotion, and when she went to the kitchen she found half a dozen hungry canines, big and little, fighting for the last scrap of her pie.

She struck them with a broom, but that did not do any good, because they had her pie.

ENGLISH TERMS ARE ADOPTED

French Take Kindly to a Number of Expressions That They Learned During the War.

We all know what an army of French words has billeted itself permanently upon the English language. Not so many of us think of the interchange of prisoners, so to speak, between French and English, of the numerous English words naturalized in France. In sport, of course, this English contingent was to be expected.

"Champlain," "knockout," "coming man," "single," "footnote," "buff against invasion from the north. The territory used was part of what was known as the "Equivalent Lands," which were sold for public auction in Hartford for about a farthing an acre, the proceeds being donated to Yale college. Shortly after this, settlers pushed eastward from New York across Lake Champlain and westward from New Hampshire. This led to disputes between these two colonies as to their boundaries. Under the leadership of Ethan Allen New York's claims were resisted by a local military force, which proudly called themselves "the Green Mountain Boys." It was these same men who played such a brilliant part during the Revolution.

In 1777 a formal Constitution for the state was adopted and the Vermonters are proud of the fact that theirs was the first of the states to prohibit slavery by constitutional provision. For a number of years Vermont remained as a separate republic, but in 1791 it was admitted to the Union as the first addition to the original thirteen states.

In size Vermont has 9,564 square miles, and its congressional delegation numbers four. It thus casts four votes for the president.

(By McClure Newspaper Syndicate.)

Faux Pas de Luxe.
Mrs. Jones had never entertained the sewing circle of Horseshoe Bend that she did not commit an absent-minded faux pas of some kind. She would either forget to invite her next-door neighbor or forget to entertain the sewing circle. She was so absent-minded that her own children began to get skeptical of her mental health after she had taken their medicine on several occasions. This afternoon she was making a final effort to entertain without "pulling a one." Everybody seemed to be present, and local gossip was being swallowed with as much relish as was Mrs. Jones' delicious ice cream, when suddenly Mrs. Jones put down her saucer, gracefully arose and said: "The afternoon has been just delightful, but I really must be going."—Virginia Reel (University of Virginia).

Weak-Minded Spirits Suggest Suicide.
It would seem that there are not only good spirits and evil spirits hovering about us, but that there are also weak-minded spirits. These, it appears, are well meaning souls that often work injury to us. The New York Medical Journal remarks: "These disincarnate spirits believe it is sad sometimes that human souls must tarry in this world when everything is against them. They long to have them enjoy the larger, freer life. If one of these spirits becomes attuned to a weak or diseased mind, it may suggest suicide, but purely from a desire to help. Suicides are generally deemed irresponsible. This theory confirms it; but one reluctantly admits weak-minded spirits. Devils and angels we know, but how are we to discern these others?"

The Story of Our States

By JONATHAN BRACE

XIII.—RHODE ISLAND

RHODE ISLAND is not really the name of this state. As can be seen from the state seal, the official name is the "State of Rhode Island and Providence Plantations." It originated from two distinct settlements. The first was made by Roger Williams in 1639. He was the pastor of a church in Salem. As he advocated radical reforms he was ordered to return to England, but fled to the Narragansett tribe of Indians. From them he obtained a tract of land and called the town which he established Providence, in token of God's mercy which had so far provided for him.

About the same time Mrs. Anne Hutchinson and her followers were expelled from Massachusetts on account of a theological dispute. She made her way to the island of Aquidneck, which she purchased from the Indians for 40 fathoms of white wampum, 20 hoes and 10 cents. The name of this island was changed to the Isle of Rhodes, probably after the famous Greek island in the Mediterranean.

By common usage it became known as Rhode Island. In 1662 Charles II gave Rhode Island a very liberal charter, and this remained in force until 1841, when a new state constitution was adopted by mass conventions, and two years later another new constitution was legally voted. The change in constitutions caused what was known as Dorris' rebellion.

The entrance of Rhode Island into the Union in 1790 completed the list of the original thirteen states. Though Rhode Island is the smallest of all the states, with only 1,248 square miles, it is very thickly populated and has a large industrial base, which is more than those of a number of states of much larger territory.

EXECUTOR'S NOTICE
Estate of George K. Clark
Notice is hereby given that an order has been made by the Surrogate of the County of Burlington, bearing date the 18th day of May, 1921, upon the submission of the executor, requiring the creditors of George K. Clark, deceased, late of the County of Burlington, to bring in their claims against the estate of said decedent, under oath of affirmation on or before the 15th day of November, 1921, or they will be barred of any action therefor against the said executor.

ALBERT C. BRAND, Executor.
Palmer and Powell, Proctors.
5-21 to 7-23

Explaining the Saucapan.
Many people have been puzzled as to why the pictures of Japanese heroes should represent men carrying small shields. It is now explained that the articles carried are not shields, but saucapan lids, which are used as weapons, and contests between saucapan lids and swords are enlightening the spectators at the Royal Horticultural hall in London. It seems the legend runs that, about 200 years ago, a famous Japanese force was busy stirring something in a saucapan, when he was attacked by a man with a sword. He had nothing to defend himself with, so snatched up a saucapan lid and succeeded in parrying the attacks of his enemy.

Robinson Crusoe's Island.
Tobago's failure to obtain greater recognition of its importance as the "only authentic Robinson Crusoe Island" is doubtless due to the fact that it is a retiring little island, concerned chiefly with its plantations and trade. Leaving Crusoe out altogether, Tobago has had an eventful history from the time it was discovered by Christopher Columbus, on his third voyage, until England took it from France in 1803 and started to turn it into a profitable colony. Its present estate after a century of English rule is less that of a desert island than of a partly wooded, partly cultivated and built up island of the tropics.

To Get "Results" From Reading.
The man or boy who reads with attention cannot read unless if what he reads is worth perusing. Of his habits when a student a man who achieved greatness says, "Many other students read more than I did and knew more than I did. But so much as I read I made my own. When a half-hour, or an hour at most, had elapsed, I closed my book and thought on what I had read. If there was anything peculiarly interesting or striking in the passage, I endeavored to recall it and lay it up in my memory, and commonly could effect my object."—From "Books and Reading," by Noah Porter.

Youth Prodigal With Opinions.
You can get a measure of youth from its readiness to offer an opinion. That's inevitable. Youth has such a fund of ideas that it must tell everybody what to do next. Men of broad experience are satisfied to wait until their opinion is asked. Youth and fresh folk past youth are perfectly ready to tell you just what to do and throw in a little criticism for good measure. We need the dash and dare of youth, but it's a little amusing at times to note the extent to which immature advice is proffered to people.—Exchange.

Let the Others Be Careful.
A tiny miss who had never taken part in anything before an audience was to sing in a church on children's day. They were all tots in the chorus. Her parents, afraid that she might not take her part well, decided something ought to be said to her at the last minute. So her father said, "Dorothy, now you must be sure and keep up with the rest when you sing!" "Oh," replied the child, "I always keep up. I'm most generally ahead!"

Sailors' Superstitions.
Time was when sailors would not think of sailing without a charm or pocket piece of some kind to ward off bad luck. Wind heads were a favorite and in nearly every port were maidens to sell them. Tattoos were considered essential for bon voyage, especially the butterfly on the shoulder predominated for good luck. A pig tattooed on the foot was insurance the man would never drown. Sailors say not a man is known to have drowned if he possessed this significance of charm against fate.

Explaining the Saucapan.
Many people have been puzzled as to why the pictures of Japanese heroes should represent men carrying small shields. It is now explained that the articles carried are not shields, but saucapan lids, which are used as weapons, and contests between saucapan lids and swords are enlightening the spectators at the Royal Horticultural hall in London. It seems the legend runs that, about 200 years ago, a famous Japanese force was busy stirring something in a saucapan, when he was attacked by a man with a sword. He had nothing to defend himself with, so snatched up a saucapan lid and succeeded in parrying the attacks of his enemy.

Robinson Crusoe's Island.
Tobago's failure to obtain greater recognition of its importance as the "only authentic Robinson Crusoe Island" is doubtless due to the fact that it is a retiring little island, concerned chiefly with its plantations and trade. Leaving Crusoe out altogether, Tobago has had an eventful history from the time it was discovered by Christopher Columbus, on his third voyage, until England took it from France in 1803 and started to turn it into a profitable colony. Its present estate after a century of English rule is less that of a desert island than of a partly wooded, partly cultivated and built up island of the tropics.

To Get "Results" From Reading.
The man or boy who reads with attention cannot read unless if what he reads is worth perusing. Of his habits when a student a man who achieved greatness says, "Many other students read more than I did and knew more than I did. But so much as I read I made my own. When a half-hour, or an hour at most, had elapsed, I closed my book and thought on what I had read. If there was anything peculiarly interesting or striking in the passage, I endeavored to recall it and lay it up in my memory, and commonly could effect my object."—From "Books and Reading," by Noah Porter.

Youth Prodigal With Opinions.
You can get a measure of youth from its readiness to offer an opinion. That's inevitable. Youth has such a fund of ideas that it must tell everybody what to do next. Men of broad experience are satisfied to wait until their opinion is asked. Youth and fresh folk past youth are perfectly ready to tell you just what to do and throw in a little criticism for good measure. We need the dash and dare of youth, but it's a little amusing at times to note the extent to which immature advice is proffered to people.—Exchange.

Let the Others Be Careful.
A tiny miss who had never taken part in anything before an audience was to sing in a church on children's day. They were all tots in the chorus. Her parents, afraid that she might not take her part well, decided something ought to be said to her at the last minute. So her father said, "Dorothy, now you must be sure and keep up with the rest when you sing!" "Oh," replied the child, "I always keep up. I'm most generally ahead!"

Sailors' Superstitions.
Time was when sailors would not think of sailing without a charm or pocket piece of some kind to ward off bad luck. Wind heads were a favorite and in nearly every port were maidens to sell them. Tattoos were considered essential for bon voyage, especially the butterfly on the shoulder predominated for good luck. A pig tattooed on the foot was insurance the man would never drown. Sailors say not a man is known to have drowned if he possessed this significance of charm against fate.

Explaining the Saucapan.
Many people have been puzzled as to why the pictures of Japanese heroes should represent men carrying small shields. FARE RATES TO BE RECONSIDERED

Supreme Court Sets Aside Decision of Utility Board Denying Increase in Fares.

BAR EXAMINATION CANDIDATES

State Prison Death House Crowded Beyond Capacity—Legislature is to Probe Coal Combine—Public Service Must Furnish Current.

Trenton.—Evidence submitted during the hearings on the application of the Public Service Railway Company for authority to put into effect an emergency fare of 10 cents showed conclusively that at least a considerable part of the proposed increased fare is justified, the supreme court held in an opinion setting aside the decision of the Utility Commission denying the increase. The company sought permission to increase its fare from 7 cents, with an additional cent for each initial transfer, to a flat rate of 10 cents. In denying this application the commission held that the emergency for which the increased revenue was desired to relieve was rapidly passing with the progress being made toward restoration of normal economic conditions.

The opinion of the supreme court, written by Justice Bergen, makes more probable an advance in the rate of fare on the entire system of the Public Service Railway and affects scores of municipalities, the greater number of which were represented by counsel in the opposition to the application. It is directed by the supreme court that the application of the Public Service Company be remanded back to the utility board for more consideration in order "that it may fix a just and reasonable rate based on the evidence in this particular case."

The conclusion reached by the court is that the major portion of the desired increase is required to pay the cost of operation and maintenance and that without additional income to make repairs they cannot be made, thereby endangering the lives of the passengers. "It should be kept in mind," said Justice Bergen, "that the public as well as the company are interested in the continuation of the service and that it should be made as safe as possible, for the public needs no argument, nor can it be doubted that its cessation or inefficient management would seriously injure the public, which it is the duty of the board of commissioners, as well as the utility corporation, to avoid if possible."

"A rate which does not provide for the depreciation fund imposed by the board nor for the operating expenses of the utility company is not, in our judgment, a just and reasonable rate, which the statute contemplates. The evidence clearly shows that the present rate under existing conditions will bankrupt the company as well as endanger the lives of its passengers for want of funds to make imperative repairs. To require a maintenance fund to be carried and at the same time refuse an income to provide it is, to say the least, a peculiar exercise of discretion under our statute relating to the power of fixing rates."

"The board in its report of its conclusion denies relief from these conditions and treats the situation as an emergency that will soon pass. Why it so concludes is not apparent from the evidence when the evidence shows that for over three years the conditions which produced threatened bankruptcy and lack of repairs demanded have not only continued, but are constantly increasing. To call this situation an emergency and to refuse relief for that reason is giving a meaning to the word emergency which neither our statute nor adjudged cases warrant. There is no evidence in this record from which it can be inferred that the present cost of operation and maintenance will not continue, and with it the so called emergency until its victim shall have collapsed to the great injury of its stockholders and especially the public, who depend upon it for transportation."

"The relief was denied upon the ground that the conditions creating the deficit were the result of a sudden happening producing a crisis, temporary in character, which the board called an emergency. Why an increased tax, enhanced cost of labor, of operation and of necessary repairs should be called an emergency soon to be assuaged like a sudden flood is not apparent to us, either from the evidence or conditions, of which we can take no judicial notice, nor, as the board did, can we assume that other conditions will shortly exist."

"In support of the conclusions of the board the present rate is sufficient to pay cost of operations and fixed charges in the present emergency and to show that there is no deficit for that purpose it submits a schedule of actual conditions for 1920 and that estimated for 1921. The actual deficit for 1920 was \$280,700, allowing \$144,000 for maintenance instead of \$800,000 required by order of the board. The estimates for the year 1921 are rather speculative than reliable, and on this the board concludes that there will be a surplus, not now, but at the end of the year, without making any allowance beyond \$300,000 for imperative improvements, which the evidence shows will exceed at least \$1,200,000."

"So that, assuming the estimate of the board is correct, there will be a deficit of \$400,000 if the service is to be efficient and safe for the public use without taking into account the losses for 1918, 1919 and 1920 amounting to over \$1,000,000. If this is called an emergency it is one that needs prompt relief and ought not to be postponed until the board has reached a result in another case involving the fixing of a just and reasonable rate based on valuation. The prosecutor is entitled to cost of operation and fair return on capital invested under the statute and to have its rights determined on the case made by it in this proceeding."

Coal Dealer Probe

The New Jersey Coal Dealers' Association, whose president, Joseph A. Lucking of Newark, is to be one of the

witnesses when the special committee of the legislature starts its coal probe, consists of 110 members, from Newark, Harrison, Kearny, Irvington, Arlington, Bloomfield, Montclair, East Orange, South Orange, West Orange and Belleville.

Ninety-five per cent of these dealers, it is said, do not have coal themselves, but go to the pockets when they receive orders and buy at the market price. It is also charged that the pockets are controlled by coal operators, mine owners and railroads.

In connection with this it is said the matter of loading may be made a subject of investigation. It is alleged that other coal dealers have to wait in line at the coal pockets while favorites are first served. Some of the independent dealers, it is further said, are claiming that the consumers in Newark and its vicinity are made to suffer as a result of alleged understandings said to exist between some dealers and those controlling the pockets.

Bar Examinations

Results of the recent bar examination were announced by the examiners. Fifty candidates qualified for admission to the bar as attorneys and 88 attorneys qualified for the counselor degree.

Among the candidates who passed the examinations for admission as attorneys are these: Louis Cohen, Charles E. Dalrymple, Edward Feinlas, Harry Gersen, Charles M. Grossman, Luther George, Robert A. Fraser, Nathaniel W. Fraublaun, Perival Penitich, Irving Riker, Harry Rinker, John H. Tauch, Jr., and Besse E. Snyder, all of Newark.

James J. Farley, Isador Halprin and John J. Sullivan of Jersey City; Harold E. Becker, Harrison B. Johnson and Isador J. Stein of Elizabeth; Richard J. Fitzmaurice of Orange, Viola R. Wilhelm of East Orange, Lewis P. Dolan of Ogdensburg, Orville V. Mesler of Morristown, John T. Coggins and Edward Sachar of Plainfield, Francis Haskard of Scotch Plains, Gershon G. Goldman of Perth Amboy, John J. Geraghty of Trenton, Samuel S. Fester of Rahway, Irving G. Pasternack and J. Robert Rosenthal of Passaic, George B. Vaughan of Newton and Forster W. Freeman, Jr., of Paterson.

Attorneys who passed the examination for the counselor degree were as follows: Alfred W. Cooper, Vincent J. Casale, Herman E. Dultz, Xavier Del Negro, Selma A. Guller, Charles Kuster, Nicholas La Vecchia, James Mangano, Wallace M. Norton, John W. Palmer, Joseph H. Steinhart, Robert S. Terhune and William J. Woodhead, Jr., all of Newark.

Death House Crowded

For the first time in this state since 1907, when electrocution was substituted for hanging as the legal means of executing the death penalty in New Jersey, the capacity of the death house at the state prison is found insufficient to provide accommodations for the condemned men awaiting the last tragic act. This condition is due about equally to stays of execution granted by the governor and the courts and to the increasing frequency with which murders have been committed during the past few months.

The last of the six cells in the death house at the prison was occupied three months ago and when a seventh prisoner was received for execution some time later it was found necessary to utilize a cell in another part of the institution. Since then two more men have arrived, and they, too, had to be given cells apart from the death house. Of the nine murderers, only one, Frederick Pierson of Warren county is actually under sentence. He is to die during the week of July 21. All the others either have appeals pending or are awaiting reprieve.

The distinction of being the "dean of the death house" goes to Michael Kostynski of Camden, who murdered his wife, who was received March 11 for execution during the week of April 18, 1919. Kostynski, whose sanity is questioned, was twice granted reprieves by Governor Edwards on the eve of electrocution and his case is now before the Court of Pardons.

WHEN THEY DROVE THE HUNS

No American Who Took Part in the Capture of Berzy Will Ever Forget the Thrill.

The fall of the plateau south of Soissons and the thrust across the Chateau-Thierry road sealed the fate of the great Marne salient. The fall of the Twenty-eighth Infantry, First division, made this success possible by their grim tenacity in driving the Germans out of Berzy after being repeatedly repulsed in their brave efforts to take the place.

But, despite every effort, the grim walls of Berzy still loomed ahead beyond the shell-cracked strip of upland as the summer twilight faded from the sky. Through the night its guns, like those of a beleaguered fortress, continued to flame. In it stood at bay the last German garrison of that "plateau south of Soissons," with the whole western front of the Marne salient pinned upon it, which and for so long held a black menace over Paris.

Now and then there is a man who conceals a timid heart behind a long, drooping mustache and the general appearance of a western sheriff of the days of Jesse James, but Gen. Beaumont B. Buck is not one of them. As the second hand of his watch marked 30 minutes past 8 and the barrage fell, General Buck stretched his long legs out in front of the first wave, advised his men in no mincing words to follow him and get the d—bodies this time, and led off the streaming rush across the open.

They followed—who would not with such a leader? On and on they went toward the hot muzzles that flamed through the cracks of split walls and behind fallen masses of masonry, on past those muzzles, yelling, cursing, striking down with swinging blows the desperately resisting Germans behind on by the massive quadrangle of buildings in the western edge of the village, past the ravished church and down the crooked main street until they pulled up where the road pitched down into the Crise valley and against the last eastern walls of the bastion on which pattered bullets from the German nests clear beyond the valley.

Joseph Mills' Hanson in the Home Sector.

THE AMERICAN RED CROSS IN PEACE TIME Health Promotion

Health is at the foundation of human happiness. Through its Rural Service, Public Health Nursing Service and Health Center Service, the American Red Cross aims greatly to strengthen this foundation and to draw more closely than ever the neighboring ties that bind the American people together. Here is shown a Red Cross Public Health nurse attending a young mother with a brand new baby, seeing that both receive scientific care.

The Story of Our States

By JONATHAN BRACE XI.—NEW YORK

THE STORY of New York should rightly begin with 1624, eighty-five years before Henry Hudson's voyage in his little boat, the Half Moon, up the river which now bears his name. For at that early date an Italian navigator, Verrazano, exploring for France, sailed into New York bay. This first visit to New York made little stir and was soon forgotten, and it was Hudson's rediscovery which tempted the Dutch to send over colonists and obtain for the Dutch West India company a monopoly of the Dutch fur trade in America. The new colony which was started in 1623 called its territory New Netherlands, after its mother country, and their principal city New Amsterdam.

It is interesting to reflect that Manhattan island, which is now New York city, was purchased from the Indians for \$24 worth of beads and ribbons. Even in its earliest days the settlement on Manhattan Island was cosmopolitan. In 1643 it is reported that eighteen different languages were spoken there. In 1664 the English captured New Netherlands, and King Charles II presented the colony to his brother, the duke of York, who was later King James II, and its name was then changed to New York.

New York played a leading part in the formation of the United States. It was Alexander Hamilton who was New York's representative in framing the Constitution and it was New York city which was selected as the first capital of the new Union, where Washington was inaugurated the first president. Ever since the Empire state, as New York is sometimes called, has held the deciding voice in presidential elections. Its size is only 49,204 square miles, not quite half in the list of states according to area, its great population gives New York forty-five presidential electors, the largest number of any of the states.

(By McClure Newspaper Syndicate.)

Sacrifice, sacrifice, sacrifice is the quality necessary to achieve success. Then, too, you must have tenacity. That is the greatest quality. Without it no man can possibly succeed. One failure leads to another failure—and one success to another success. Win out in one thing before giving it up or trying another. Tact is very important. I would rather employ a person of no extraordinary ability, but who had great tact, than one of conspicuous learning and intelligence, but without tact. Judgment, initiative and energy, all these are most desirable and valuable qualities. But above and beyond all, you must have tenacity and tact.—Daniel Guggenheim.

Tortoise Shell.

Tortoise shell is the carapace or horny armor that protects the back of the hawksbill turtle. This armor is composed of 13 segments or plates that are not fast at the outer edges, but overlap one another like tiles on a roof. The turtles are captured when they come on shore to lay their eggs, and after being killed the plates can be removed without injury. Formerly, in some places, live turtles were roasted until the plates loosened and could be taken away, when the turtle was put back into the sea to grow a new shell. It is doubtful whether the shells grow again, or whether they would be of much value if they did.—Detroit News.

Newlyweds to Tent.

A honeymoon colony, believed to be the first of its kind in England, has been established in a meadow near Farnham, Surrey. At the edge of a certain wood half a dozen tents may be seen. They are the homes of the four brides and their husbands who, rendered homeless by the house shortage, have begun their married life in the open air.

The colony is likely to be still further enlarged, for several other couples have applied for admission.—From the Continental Edition of the London Mail.

The Story of Our States

By JONATHAN BRACE XII.—NORTH CAROLINA

THE STORY of North Carolina is very appropriately named Raleigh, for it was Sir Walter Raleigh who was responsible for North Carolina's first settlement. It was in 1584 that Raleigh obtained permission from Queen Elizabeth to plant an English colony in America, and the expedition which he sent established a little colony on Roanoke island. There in 1587 was born the first American child of English parents. She was named Virginia Dare, after the virgin queen. This colony, due to England's war with Spain, could not be properly supported, and after a few years perished. It was not until over a century later that permanent settlements were made. Daring pioneers from Virginia pressed south into the new territory, and these, augmented by a large company of Huguenots from France and a greater number of Germans from the Palatinate, founded the first North Carolina town of Newburn in 1710. By the time of the Revolution the population in North Carolina had increased to such an extent, with an influx of Scotch-Irish and Scotch Highlanders who settled chiefly in the western counties, that it ranked fourth among the original thirteen colonies. Today its population entitles it to twelve electoral votes for president. In area it stands about half way among the states with 52,426 square miles. North Carolina was the twelfth state to adopt the Constitution, the formal ratification taking place in November, 1789. The derivation of the name Carolina, as in the case of South Carolina, came from the Latin Carolus, meaning Charles, and was given originally in honor of King Charles IX of France and retained by King Charles II of England. North Carolina is also known as the Old North state.

(By McClure Newspaper Syndicate.)

The Moqui Desert. Never was life so lonely and cheerless as in the desolate howls of the Moquis. Their land is not a tender solitude, but a forbidding desolation of escarpment cliffs, overlooking wastes of sand, where the winds wage war on the small shrubs and venturesome grasses, leaving to the drouth such as they cannot uproot. A few scrubby trees, spotting the edge of the plain as if they had looked across the waterless waste and crouched in fear, furnish a little brushwood for the fires of the Moquis who are fighting out the battle of existence that is hardly worth the struggle. The seven villages within a circuit of ten miles have been isolated from the world through centuries, yet they have so little intercourse with each other that their tribal languages, everywhere subject to swift mutations, are entirely unlike.—Susan Arnold Wallace.

"Crust."

A man advertised his car for sale. Early the next morning a man who lived across the street came over and said: "Pardon me, but I see by last night's paper you advertised your car for sale." "Quite true," said the man who advertised the car, "but surely you are not in the market for it." "No," was the reply, "but I only live across the street and I also want to sell my car. And there would be no need for my spending my money for an advertisement if after the people were through looking at your car you could just send them across the street to look at my car."—Argonaut.

Her Threat.

The dispirited spendthrift of a husband begged for another chance. "Be patient, my dear," he said. "I am like the prodigal son; I shall reform by and by." "You'd better get it at or I will be like the prodigal, too," she warned him, "for I will arise and go to my father."—

Sounds Like a Sane Driver.

"Do you drive carefully?" "I'll tell you about that. I never start out for a place that I don't have plenty of time to get there. And a minute more or less doesn't make the slightest difference to me."—

THE QUESTION

By MARY POWER.

(© 1920, by McClure Newspaper Syndicate.)

It was the impatient jangle of bells without that caused Aubrey to hasten with the final touches to her toilette. A moment later she emerged from the house and swung her little young body into the sleigh beside her brother.

"Well, have to hurry, Ken," she advised, tucking the robe about her. "I've exactly ten minutes."

"Well, if you don't take the cake," he muttered; "here I've been waiting—"

"Please, Kenneth, don't scold," wheedled Aubrey. "Gracious!" in sudden alarm. "I've forgotten my notes—no, I haven't, either," evidently relieved.

"I'll!" Kenneth cast a scornful glance at the trig figure beside him. "What's the subject this afternoon, socialism, woman suffrage, or—or—better babies?" he grinned.

Aubrey flushed. "The eternal question—Should Woman Propose—Choose the Mate Rather?"

Kenneth gave a prolonged whistle.

"Going to take advantage of leap year, eh?" he chuckled. "You're—affirmative?"

Aubrey shook her head. "No real lady proposes," she said.

"Huh, nine-tenths of 'em do," vouchsafed Kenneth. "That is, subtly."

Aubrey flashed him a look of withering scorn. "One couldn't expect even a mere child—to understand," she said frigidly.

The "mere child" grinned.

"I promised to call at Ellen Colby's," said Aubrey; "mind you're back in time."

A moment later they stopped at the headquarters of the Girls' club. Entering, Aubrey swept down the aisle and daintily took her place on the platform.

The debate was a success. Aubrey's opponent, a fair-haired, languid girl of twenty, expounded her views on the "eternal question" in well couched language. Aubrey, on the other hand, took the house by storm when, in concluding her remarks, she said, with flushed cheeks and sparkling eyes:

"No girl with an ounce of dignity in her makeup could, with honor, ask a man to marry her." And then, thrillingly:

"Our grandmothers couldn't, our dear mothers wouldn't. I—you—we—ph!" emphatically, "it shouldn't be done!" Kenneth, enmeshed in a rear seat, was interested in spite of himself. He could not resist one last sarcastic fling, however as he dropped Aubrey at Ellen Colby's door.

"I say, Aubrey," he cautioned, "hadn't you better give Ellen a bit of advice? She and Floyd have been courting for ages. They say he hasn't ever mentioned marriage. If you don't watch out she'll upset your pet tradition by proposing herself. Time's ripe," he added maliciously. "Seeing she's Roger's sister, you should—" he shot a meaning glance at her and drove away.

Ascending the stairs to the Colby flat Aubrey frowned, cogitating on Kenneth's insinuations.

"Dear," Ellen was saying, her voice all queer and trembly-like, "if Roger and Aubrey get married this year, I'll go to you at Christmastide. I should like to be a Christmas bride."

Aubrey waited no longer, but stole quietly away, a queer little ache in her throat. It was twilight when she stumbled over her own threshold. The fragrant odor of a cigar told her Roger was there ahead of her, smoking in the dark. Roger often waited for her like that. Throwing her wraps aside, she tiptoed to the hall portieres and pulled the "rocker."

"Roger," she called, softly, and as he came eagerly forward, "I want to ask you something—no, please stay there on the other side of the portieres. For one breath-taking instant she paused, then:

"Roger, do you love me— heaps?" tremulously.

"Why, Aubrey, of course— heaps and— heaps and—" Roger's hands, fumbling there on the other side of the portieres, suddenly thrust themselves through.

"Roger, has it ever occurred to you that Ellen and Floyd—might be waiting for us—to—couldn't we—at Easter, perhaps—" breathlessly, blushing furiously there in the darkness in spite of herself.

"Aubrey," he said sternly, "are you—joking?"

"Why, no," Aubrey laughed a bit shakily. "I'm merely taking advantage of the season," she glibly. And then, eternal feminine all over, she gave a little dry sob, and hid her burning face in her hand.

"Maybe Ellen and Floyd could plan on Christmas if we—mercy!" as a low chuckle from beyond the portieres, smote the air.

"Yes it's Ken," said Roger, dryly. "He was dosing when you came in. But catch him to miss anything," he growled. Aubrey darted forward and switched on the lights.

A youth of nineteen, or thereabouts, a "mere child," whose long, lanky frame draped the top of a luxurious leather davenport, arose, blinked a bit, then stretched himself lazily.

"Evening, folks," he drawled with a mischievous quirk at the corners of his mouth. "Dec, I had the funniest dream," he yawned. "I dreamed some sweet, young thing was proposing to me—taking advantage, as it were—oh, all right, Roger," at that worthy's threatening gesture. "Anyway, greetings of the season—or—congratulations, rather," and grinning like a Cheshire cat, Kenneth sauntered from the room.

Unique Marker in Maine. Within ten minutes' automobile ride from Eastport, Me., erected on the side of the country road at North Perry, is a unique granite marker indicating the halfway distance between the equator and the North pole, having been erected some years ago by government officials who enjoyed summer vacations in this frontier section, close to the banks of the border river, St. Croix, and within a mile of the Dominion shores. The stone would not be observed by many unless the spot were known.

Noise Alone Will Not Win. There is such a thing as detracting from the main issue by the noise you make in doing it. Folks get tired of plain noise. To merit persistent survival noise should have some merit in itself. In some towns they have ordinances against unnecessary noises. That in itself ought to be an argument against noise for noise's sake. And unless you can continually produce something that claims the patience of the people you will soon lose any power your noise once had to win attention. So you must see to it that your actions are sufficiently worthy to stand alone when the noise stops. If people begin to associate you with noise alone you will soon be lost to human interest.

LESSON FOR JULY 17

THE CONVERSION OF SAUL

LESSON TEXT—Acts 9:1-19.

GOLDEN TEXT—This is a faithful saying, and worthy of all acceptance, that Jesus came into the world to save sinners; of whom I am chief.—1 Tim. 1:15.

REFERENCE MATERIAL—Acts 22:1-21; 26:1-23.

PRIMARY TOPIC—Learning to Obey Jesus.

JUNIOR TOPIC—Saul Becomes a Christian.

INTERMEDIATE AND SENIOR TOPIC—The Pharisee Becomes a Christian.

YOUNG PEOPLE AND ADULT TOPIC—A Study of Paul's Conversion.

I. Saul's Burning Hatred of Jesus (vv. 1, 2).

Saul knew full well that unless the movement set on foot by Jesus was stopped it would supersede Judaism, but he was entirely ignorant of the genius of Christianity. Christianity thrives on persecution. Prosperity may ruin the church, but persecution never.

The noble display of faith by Stephen in sealing his testimony with his blood did not soften Saul's spirit, but rather intensified his hatred for Jesus and His disciples. It made him more determined than ever to stamp out this Nazarene heresy. The intensity of his madness and the extent of its operations are best set forth in his own words (see Acts 22: 4 and Acts 26:10-12). He obtained authority from the chief priests to carry on this murderous work.

II. Saul Kicking Against the Pricks (vv. 3-9). The figure here is that of the eastern ox-driver following the ox with a sharp iron fixed to the end of a pole. The animal is prodded on with this instrument and if it is refractory it kicks against this sharp iron and injures itself. This is a picture of Saul as he was madly fighting against Jesus.

1. A light from heaven (vv. 3, 4a). The time had come for the Lord to interfere. Saul is stricken with blindness and falls to the earth. This physical demonstration accentuated the workings of his conscience which doubtless were going on, quickened by the Holy Spirit as He used Stephen's testimony.

2. A voice from heaven (vv. 4b, 5). This was the Lord's voice calling Saul by name and asking, "Why persecutest thou me?" This moved Saul to inquire, "Who art thou, Lord?" The answer came, "I am Jesus whom thou persecutest," as if to say persecution of the church is persecution of Jesus.

3. "What wilt thou have me to do?" (v. 6). The dictator is now willing to be dictated to. The Lord told him to go into the city where information would be given him as to what he must do.

4. Saul entering Damascus (vv. 7-9). The haughty persecutor goes quite humbly into Damascus led by his attendants. For the space of three days he remained in blindness and fasting. What went on in his soul in those days no mortal can know, but we may be assured that he, like the Lord in the wilderness, was too deep in meditation and prayer to desire food. Doubtless in this time he got hold of the truths which he later proclaimed to the world; for his conversion was the basal fact of his theology.

III. Ananias Sent to Saul (vv. 10-18a).

Here appears upon the scene a hitherto unknown disciple.

1. Ananias' vision (vv. 10-12). In this vision the Lord appeared and instructed him to go to Saul. He gave him the name of the street and Saul's host, and informed him that Saul was now a praying man and that he had prepared Saul by the vision for the coming of Ananias.

2. Ananias' fear and hesitancy (vv. 13-18). He knew of Saul's mission and the authority by which he came. The Lord encouraged him to go, assuring him that Saul is no longer an enemy, but a chosen vessel to bear His name before the Gentiles, kings, and the children of Israel.

3. Ananias' obedience (v. 17). His fears being removed, Ananias went to the house where Saul was staying, put his hands on him and affectionately addressed him as "brother." The savage persecutor is now a brother in Christ. He informed Saul that the Lord had sent him with a twofold mission: (1) "That thou mightest receive thy sight;" (2) "Be filled with the Holy Spirit." He received sight forthwith. It is not said as to whether he received the Holy Ghost then, but his life's work proves that he did.

1. Saul baptized (vv. 18, 19a). After Saul received his sight Ananias baptized him.

God Gives Light and Strength.

Give yourself to God's perfect love to work out His perfect will. For all He means you to do, He will surely give light and strength. The throne of the Lamb is surely proof that there is no surer way for us to riches and honor than through His poverty.—Rev. Andrew Murray.

Life.

Life alone can rekindle life; what others claim from us is not our thirst and our hunger, but our bread and our guard.—Amiel.

THE NEW ERA

All readers or local notices of entertainments, suppers, fairs, dances, etc., given for the purpose of raising money, or for which admission is charged, will be charged for at the rate of fifteen cents a line.

New Yorkers Capture Swimming Prizes

Never in the history of swimming, outside of an Olympic meet, was there a greater array of stars gathered together than participated in the meet at Riverton last Saturday. Ethelda Bleibrey, champion woman swimmer and breaker of all records in the women's swimming world was here. So was little Ellen Riggin, who is another world's champion, having annexed the fancy diving title at the Olympic games. Helen Wainwright was second in the world's diving honors at Antwerp, but won the national championship in both 1920 and 1921. Charlotte Hoyle, another Olympic wonder and the holder of several world's records, shone to her best advantage. Our own Eleanor Uhl, the Philadelphia Olympic star, was here, as was Gertrude Artelt, who hustled hot foot from Chicago to enter the meet. The two famous Honolulu swimmers, Ludy Langer and Harold Krueger, were on hand to show the caliber of swimming exhibited out on the Pacific coast. All the local clubs were on hand in force as were the Hygiene Swimming Club boys from Atlantic City.

It was Miss Bleibrey's first appearance in the East since her triumphant trip through Australia, the Hawaiian Islands and the Pacific coast. She contented herself with helping the New Yorkers to romp away with the girl's senior relay race, and then went out and simply ran away with the 200, never having to exert herself in the least. Miss Hoyle showed she had returned to her old time form, by easily winning the 50 and 100 yard events. The little New York girls also cleaned up the Philadelphia mid-gets in their relay race. Helen Wainwright, by winning the diving contest, gave the New York girls a victory in every event they entered except the back stroke, where Miss Artelt, of Philadelphia, proved the victor. Marie Hillegass, as was expected, won the breast stroke event, the New Yorkers having no entry in this event.

In the men's events the great Honolulu pair of stars, were supreme. Langer, who was the world's sensation in 1916 when he won the 100 yards to the pick of the world out at the Pan American International games, showed he still possessed his old cunning by winning the 200 yards event with lots to spare. Krueger, the great Duke himself in Hawaiian swimming history, won both the 50 and 100 yards event. Then this famous pair, swimming as a putting team, defeated the best quartet Philadelphia could produce in the 400 yards relay.

Notwithstanding the oppressive heat the attendance was large.

Charles M. Biddle Entertains "Half Century" Club

The Half Century Club, which is made up of men who have spent fifty or more consecutive years with the Supply-Biddle Hardware Company, Philadelphia, assembled at the home of Charles M. Biddle, Friday afternoon and evening, July 1st, to celebrate the golden anniversary entrance into the club of several eligibles. During the reception and dinner the officers of the Supply-Biddle Hardware Company, all of whom were present, bestowed the usual cash bonus on the new members.

The feature of the gathering was the kindly speech made by Mr. Biddle. He expressed appreciation of the fifty-year records of those who served so faithfully, and the loyalty of the "old timers" encouraged him to point out the future in an optimistic manner to others in the employ of the company, several scores of whom have been associated with the firm for from twenty-five to nearly fifty years.

The Supply-Biddle Hardware Company of Philadelphia was founded by the Biddle family in 1837, and has grown in its existence of eighty-four years to be the largest jobbing hardware business east of the Mississippi river. During their long career they have made a point of retaining old and valued employees, and the fact they are able to maintain a "Half Century Club" of active members among their employees is a record that very few business concerns can equal; as one of the requirements for membership is that an employee must have been with the company for fifty consecutive years.

Salary Boost Knocked Out

The salaries of the sheriff, county clerk and surrogate are to remain the same as heretofore, according to an opinion given to the Board of Freeholders by County Solicitor Peacock, on Friday. The last federal census revealed a population of 81,000 in the county. Included in this was the population of Camp Dix, approximately 5,000. The statute regulating salaries of county officials is based on the population of each county. The increase to over 80,000 here would entitle the officials to a raise from \$4,500 to \$6,000 a year. The legislature, however, enacted a statute that the Camp Dix population should not be included in the census, and the act was approved by the governor. This act, the solicitor says, must be considered legal and binding until declared otherwise by the courts, in consequence of which there will be no change in the salaries.

Both eating and cooking apples can be obtained at the Cold Storage Plant at ten cents per basket and up. —Advertisement.

WEEKLY NEWS BUDGET
for Riverton and Vicinity

Buy It at Home!

Joseph Beck Tyler is having a concrete swimming pool constructed on his rear lawn.

Lawn mowers sharpened at John Carhart's auto shop on Harrison street. —Advertisement.

There was a large turnout at the fire drill Tuesday night. The fire chief says, "Come on boys, the more the merrier."

The Burlington County Board of Election organized Saturday by electing Richard P. Hughes chairman, and Joseph C. Kingdon secretary.

The Burlington County Board of Agriculture will conduct a short automobile tour and hold a summer meeting, Friday, July 22. The auto tour will start promptly at 9 a. m., Standard time, at N. B. Jones' farm, at Masonville.

George W. Crawford, of Pittsburgh, Pa., has purchased the R. W. Rogers property at Bank avenue and Main street. Mr. and Mrs. Crawford and daughter have been at the Lawn House since May and will continue there until the end of the summer. Mrs. Frederick Blair, of Palmyra, is a daughter of Mr. and Mrs. Crawford.

Last night an autoist knocked over a lamp post on the river bank at the foot of Lippincott avenue and kept right on going. Word was telephoned to the Borough Council, which was in session at the time, and Harry E. Davis, chairman of the light committee, got in touch with the Public Works Committee at Riverside, who sent a man down immediately to repair the damage.

The road authorities are beginning an investigation of the heavy loads carried by auto trucks. They claim that every driver loads his truck beyond the legal limit. Some complaint has been made on the ground that drippings of salt water from ice cream trucks damage the stone roads, but one of the state chemists has reported that more benefit than damage arises from this source.

George Conn, the eighteen-year-old boy accused of murdering Edward Everett Hatch about two months ago, and indicted for the crime by the Camden County Grand Jury, has surrendered to the Camden police authorities. Conn says that he did not fire the shot which killed Hatch, but will give the name of the boy who did, in a few days. His attorney is C. Stuart Patterson, of Philadelphia.

Riverton was agog on Wednesday when Detective Parker telephoned from Mount Holly that Lively, Russo girl at Moorestown, was making his headquarters in the dismantled McWhorter factory and asked that the officers be sent to capture him. They went but found no traces of Lively. Detective Parker came down himself in the afternoon to look the ground over.

Plans and specifications for the armory to be erected in Mount Holly by the state have been prepared and bids for its construction are being asked. It will be located on Grant street, on the lot decided to the state by the board of freeholders several years ago. The last legislature appropriated \$25,000 for this armory, but that amount is not expected to cover the cost, and another appropriation is expected to be made by the next legislature.

Detective Parker received a letter from Sheriff Edgar Barrett, of Perryville, Md., Monday, stating that the body of James Fletcher, supposed to have been drowned in the Susquehanna river there, has not yet been found. Fletcher was the prisoner who jumped from a passenger car window while in the custody of Under Sheriff H. C. Miller, en route from Knoxville, Tenn., to Mount Holly, and is believed to have landed in the river. The man was wanted here for stealing an automobile at Riverside.

The Women's Division of the Burlington County Republican Committee held a meeting on Saturday at the Y. W. C. A. building, Mount Holly. Miss Lydia Parry, of Hainesport, was elected vice chairman of the county organization to succeed Mrs. A. E. G. Sherman, of Moorestown, who has become a member of the State Republican committee. Mrs. Ada Lippincott, of Moorestown, gave an interesting account of the work at the forum held in Trenton during the last session of the legislature.

In Camden county they are taking the stray dog nuisance seriously. It was shown at a meeting of the Camden County District of the Society for the Prevention of Cruelty to Animals, Wednesday, that over 1500 dogs of all kinds have been netted by the society, which has taken contracts as the official dog catcher in Camden city, Collingswood, Audubon, Magnolia and Clementon townships. About 1200 of the number were taken from the streets of Camden and of the total number only about 100 have been humanely killed.

The fifteenth summer meeting and auto tour of the New Jersey State Horticultural Society will be held at Middletown, Monmouth county, Wednesday, July 27, 1921. Members and their friends will meet at the home of W. M. Ackerson, one half mile south of the Hazlet station on the Holmdel road at 11 o'clock sharp, daylight saving time. As this meeting will be held in the center of this noted vegetable and fruit section it offers an exceptional treat to both vegetable and fruit growers. Bring your family and friends. Additional information will be cheerfully given by Howard G. Taylor, Riverton.

What is Riverton coming to? Where is the fine old spirit of the early years? The pier, which was a public recreation center for two generations, is now in private hands and virtually closed to the public. And now there is a proposition to so change the course of the roadway on Bank avenue as to practically spoil it for the use to which it has been put for so many years. Maybe the Bank avenue residents are within their legal rights to do this thing, but they certainly are drifting a long way from the spirit of the founders of Riverton.

There has been a great deal of discussion from time to time about the status of Bank avenue as to what right the public had in the roadway, and the jurisdiction of the borough authorities. This matter should be now settled once for all, and the action of the Mayor and Council in session last night in directing the clerk to lay the whole matter before the borough attorney for his opinion was well taken.

If you are interested in the newest thing in fountain pens stop at the New Era office and see the automatic filler that has no rubber sac. —Advertisement.

PLAN TO SPOIL THE BANK

Residents on Bank Avenue Propose to Move Roadway Beyond Line of Trees

A storm of protest was raised in the Borough Council last night when Councilman G. Rex Showell announced that a number of the residents of Bank avenue proposed to change the course of the roadway from the William L. James property to the J. B. M. Showell property, by closing the present roadway and making a new one between the row of trees and the stone wall. Immediately the question was raised whether or not they had the right to do this without the consent of the borough authorities, and the clerk was instructed to communicate at once with the borough attorney to ascertain just what rights the borough had in the matter. If this change is made it will virtually spoil the bank for the use the public has made of it for many years. The men back of the plan are Charles W. Whitely, Whitney Frishmuth and Oliver G. Willis.

Mayor Bennett reported that since the last meeting of Council a mad dog had been running loose in Riverton and that several citizens had asked that some action be taken to round up stray dogs so as to prevent, if possible, a repetition of the harrowing experiences other municipalities have had with mad dog scares. He said that, accompanied by Councilmen Harry E. Davis and John C. Geiss he had called on Alonzo B. Fox, head of the S. C. A. at Burlington, where he learned that the necessary apparatus for dog catching could be rented. After some discussion the matter was referred to the police committee with power and instructions to act.

The committee on the memorial park reported that two conferences had been held with the borough attorney during the month. A petition signed by 110 residents of Riverton was laid before Council asking that a building code be enacted which would prevent the erection of buildings that would constitute a fire menace, referring to the recent fire which destroyed the factory of the Pennell Corporation at Seventh and Main streets. The petition was received and filed.

A communication was received from the Fire Company stating that at the Pennell Company's fire, the water pressure was not sufficient to enable them to get near enough to the burning building to get a stream of water on the fire. They requested that Council enact a building code which would require the Fire Company to furnish sufficient pressure to give a satisfactory stream, and if not, to take some action to correct the same. A communication was received from the Fire Company stating that at the Pennell Company's fire, the water pressure was not sufficient to enable them to get near enough to the burning building to get a stream of water on the fire. They requested that Council enact a building code which would require the Fire Company to furnish sufficient pressure to give a satisfactory stream, and if not, to take some action to correct the same.

An ordinance regulating the operation of auto buses was introduced. It was passed first reading and will be published in the next issue of The New Era.

A resolution granting the Liberty Transit Company permission to run their line of busses through Riverton was passed. Councilman Geiss reported progress on the preparation of a building code ordinance. The subject of trees was brought up by Councilman Mattis and attention called to the dangerous condition of some of the old trees in the town. It was suggested that some of the younger ones were dying from blight. It was suggested that many of the old trees should be taken out and new ones planted. Riverton is to maintain its wealth of shade trees which has for so long been one of its chief charms and assets. A resolution was passed that the various cemeteries and the various trees that had been sent to Council be communicated to the Shade Tree Commission. It was reported that the owner of one of the trees, at the site of which a large old tree is in a dangerously decayed condition had flatly refused to let it be cut down.

Dr. S. W. Collin tendered his resignation as a member of the Board of Health, owing to the fact that he had moved out of the borough.

The following bills were ordered paid:

Would You Believe It?

One afternoon last week a child between two and three years of age sat in its go-cart in front of the post office, accompanied by a nurse girl. A woman came out of the office and the child said, "That's my mamma."

"No," said the nurse. The little face fell. Another woman came out. "That's my mamma," exclaimed the child. "No," said the girl. The baby eyed wondering and questioning the other women as they came down the steps, but ventured no more guesses.

Is it possible the child did not see enough of her mother to know her by sight?—or was it only one of the inexplicable vagaries of the child mind? Whose tender good nights leave the last impression on the little heart as it passes into dreamland—the mother or the nurse?

There is a theory that the mind and spirit of the child develops during sleep from the impressions received in waking hours. Whose influence is shaping this baby's development? And the future—what of that? In the cars just ahead, where the girl just budding into womanhood needs advice, encouragement and sympathetic understanding—will she in that hour turn to the mother who has always been a stranger to her?

Good-bye to the Rubber Sac!

THE pen at the left is a rubber sac self-filler. The barrel is more than half full of rubber. It holds only 25 drops of ink.

The pen at the right is the marvelous Dunn-Pen. The Fountain Pen with the Little Red Pump-Handle. It holds several times as much ink as the rubber sac pen of the same size—and you can pump it full in a jiffy.

The marvelous DUNN-PEN
The Fountain Pen with the Little Red Pump-Handle
The Dunn-Pen has no rubber sac. It doesn't leak, clog, or flood, and automatically cleans itself while you are filling it. Absolutely guaranteed.

Local Swimming Stars to Compete

Mr. Durborow has entered George Corner, Jack Showell and Wesley Lloyd in the one-mile national event to be run off in the Schuylkill Saturday. The local boys will face such stars as Ludy Langer, Harold Krueger and Eugene T. Boldt. Durborow last year and the chances are he will repeat. Corner and Showell are entered in the ten-mile national the following week as well.

Local swimming history was made last Sunday when Malcolm Dickinson, Vincent Bush and Billie Edwards swam from the Riverton Yacht Club wharf to the Delair bridge. The boys were accompanied by C. B. Durborow who acted as pilot, and by Commodore George W. Edwards who followed in his flagship, while George Corner and Sonny Wright swam along with the field.

These youngsters showed plainly what swimming is doing for boys in Riverton, as they plowed along a great clip, never ceasing a second, and all three finished as strong as when they started. In a few more years these same boys will develop some of the best watermen in this section of country.

Malcolm led across the line, finishing in the fine time of 1:26. Vincent followed in 1:28, while Billie, who certainly showed he has the staying qualities by sprinting off and on the entire way, went underneath the arch in 1:26. It was a great feat for these boys, and while the Yacht Club hailed the success of its junior members with delight, still a shiver of apprehension ran through it, for it took it but a hand's out bronze "across the river" medals and silver "across and back" medals, and now with the bridge conquerors it is at a loss to know what to do with the youngsters as a goal seems to be beyond their reach.

Commodore Ed Merrill and Bill Baker swam across the river the other night to show the batch of youngsters who had just accomplished it, that they had nothing on their elders—so it is now up to Ed and Bill to see what they can do in the bridge line.

Commodore George W. Edwards still has it on his son Billie, for the popular leader of the Yacht Club is rearing in from States all over the nation two years ago, and Dad Edwards says he will not enter the lists till Billie tops his feat, which means the commodore is sure to have to swim next year if not this.

Saturday, July 23, is the great blue ribbon event of the swimming world and that is "steal" a float that had formerly been used at the wharf, but which had been blown ashore on the flats and never recovered. One of the lads came from East Riverton and told them from Delanco. After a hearing before Squire William L. Fichter Wednesday morning they were released, as the commodore of the Yacht Club could not find any action taken against them. The story told by the boys is that while they were swimming at Delanco, and diving from a cat, a man from Riverton in a motor boat stopped for water and told them that there was a discarded float at Riverton and suggested that they go get it and fix it up for a platform, which they then proceeded to do. They worked for hours to get it afloat and just as their labors were about completed the officer appeared on the scene and called them ashore, and placed them under arrest. They were surprised at this action as they supposed they were only taking something that had been abandoned. The lads were a fine looking lot and evidently had no wrong intention.

The Riverton fleet and the dories and pilots will leave Riverton Saturday morning at 11:30, and all the pilots want to be sure to report to Mr. Durborow. The other Jersey fleets will take down the dories they have so kindly donated on this occasion.

Automobiles Run on Sidewalks

The efforts of the local authorities to have drivers of automobiles exercise some care and judgment is meeting with a degree of success. Many of the cars are now handled in a manner that leaves nothing to be desired. One of those, however, which was reported for speeding on Thomas avenue, has taken another route and on Tuesday was seen "hitting it up" on Fourth street. This chauffeur might as well learn first as last that all streets are alike, and he stands no chance of escaping the penalty by simply transferring the scene of his recklessness to another portion of the town.

And there is another thing that should be promptly broken up—that is giving up on the sidewalk in the act of the impressions received. Only last Friday afternoon a gentleman narrowly escaped being run down by a car that swirled up the approach at Evans' coal yard, and dashed across the pavement in front of The New Era office on its way to the post office. This unnecessary and unwarranted effort is inexcusable, and should be tolerated no longer.

PERSONALS

Miss Louisa Becker is spending two weeks in New York.

Miss Esther Dean is spending her vacation in Asbury Park.

Mr. and Mrs. Charles Seraff spent last week in Atlantic City.

Harvey Stewart and family are spending the summer at Atlantic City. Dr. John T. Dorrance and family are at Jamestown, R. I., for the summer.

Mr. and Mrs. Henry Ashburner and Miss Frances Boulton are at the Chalfont, Cape May.

Jack Stucky spent several days last week in Hempstead, L. I., as the guest of Leroy Hinkle.

Mr. and Mrs. J. Price and daughter, Mary, of Parry avenue, left Sunday to spend sometime with relatives in Stone Harbor.

Mr. and Mrs. Thomas Conway, of Howard street, is spending the week with their daughter, Mrs. John Bowers, at Westfield.

Mrs. Luther Ross Turner and daughter, Mary Lela, left the past week for a two month's visit with her mother at Alton, Illinois.

F. W. Robertson and Orden Mattis are on a cruise down the Chesapeake aboard the Lewanna.

Miss Katherine Sontheimer will give a miscellaneous shower in honor of Miss Dorothea Simons, of Eddington, Pa., Saturday afternoon. Miss Sontheimer will be bridesmaid at the wedding of Miss Simons in the near future.

Mrs. W. H. Cumpston and her son and daughter, left on Tuesday for the coal mining region of West Virginia, where she will join her husband who has taken up social service work among the miners at the Laundale Coal Camp. Mrs. Cumpston is the daughter of Mr. and Mrs. George S. Washington, of Riverton.

No Soft Rubber Sac to Leak

If that old fountain isn't giving complete satisfaction stop at the New Era office and see the new wonder, a self-filling pen that has no rubber sac, and holds three or four times as much as the kind you have. There is a point and size that will just fit your hand. —Advertisement.

Arrested for Taking Old Float

Five boys were arrested by Officer Miller Tuesday afternoon for attempting to "steal" a float that had formerly been used at the wharf, but which had been blown ashore on the flats and never recovered. One of the lads came from East Riverton and told them from Delanco. After a hearing before Squire William L. Fichter Wednesday morning they were released, as the commodore of the Yacht Club could not find any action taken against them. The story told by the boys is that while they were swimming at Delanco, and diving from a cat, a man from Riverton in a motor boat stopped for water and told them that there was a discarded float at Riverton and suggested that they go get it and fix it up for a platform, which they then proceeded to do. They worked for hours to get it afloat and just as their labors were about completed the officer appeared on the scene and called them ashore, and placed them under arrest. They were surprised at this action as they supposed they were only taking something that had been abandoned. The lads were a fine looking lot and evidently had no wrong intention.

INTERESTING NEWS BITS
in and around Palmyra

Buy It at Home!

Miss Clara Johnson is spending two weeks with Miss Marian Libe in Linwood, N. J.

Mr. and Mrs. Harry Rudduck leave Saturday for Wildwood, where they will spend two weeks.

Mrs. Joseph H. Smith and son, Sargent, will leave for Wildwood Saturday for a two weeks' stay.

District School Clerk Frank Day, of Moravia avenue, is improving after his recent trip to the hospital.

Mrs. Allen M. March, of Stroudsburg, is visiting Mr. and Mrs. Frank A. Snover, of East Broad street.

The Field Club board of trustees was entertained Wednesday evening at the home of Charles W. Davison.

Christ Church is being repainted inside and out and electric lighting is being installed by Robert C. Bittling.

Mrs. Edith Sleeper, a former resident of Palmyra and now of Burlington, was the guest of friends here this week.

The Girl Scouts leave on Saturday morning for a week's camping trip on Banff's farm along the Pensauken creek.

The Knights of Pythias have cancelled their meetings for July 21, August 4 and 18, owing to the hot weather.

Benjamin Pine, of Washington, is spending two months with his aunt, Mrs. Thomas Branson, of Washington avenue.

The infant son of Mr. and Mrs. Lawrence Bell, of East Riverton, died Thursday morning. Burial was at Riverside cemetery today.

Pastor Williams will preach at the Baptist Church Sunday morning on "Kept by One Who Is Able," and in the evening on "Ascension Hymns of the Church."

Midshipman Edward Durgin arrived home from Annapolis last Saturday evening to spend the summer at the home of his parents, Mr. and Mrs. F. L. Durgin.

Last Saturday the Field Club defeated the Northville Professionals in an interesting game, 7 to 3. Wednesday evening the locals were blanked by Medford, 1 to 0.

Wilbur Roberts, William Donaghy, At. Donaghy, Harry C. Fox, Furman Rush, and Clinton Gibson went fishing at Portescue last Saturday and Sunday, returning with a catch of 73.

Mr. and Mrs. Elvin Powell and family and Mrs. Philip Volmer motored to Wildwood Saturday, where they have taken a cottage. Mr. Powell plans to spend the weekends with his family.

The Philathea class, of the Baptist Church held their annual picnic on the lawn of Mrs. Sycamore and Mrs. Clifford Bell, of Highland avenue, on Wednesday afternoon. An enjoyable time was had by all.

Mrs. Enrike, of Vineland, who has been visiting her daughter, Mrs. F. N. Johnson, returned home on Wednesday. Her granddaughter, Mrs. Katherine Johnson, accompanied her, and will remain for a month.

Arthur Read, of Pottstown, Pa., William Wetzel, of Marion Center, Pa., and Julius Hund, of Wrightstown, Pa., were guests at the home of Mr. and Mrs. S. L. W. Field, of Elm avenue, last week.

The former soldier boys are all wearing wide smiles this week, since the bonus checks from the State started arriving on Wednesday. It is understood 10,000 were to be mailed out daily from Trenton until complete.

The Palmyra school board has called a public meeting for August 2 for a vote on a bond issue of \$150,000 for school purposes. Of this sum \$137,000 is for the new high school building and \$13,000 for alterations and plumbing and heating in the present Delaware avenue school.

The epidemic of quail pitching about town has been much aggravated by a quail tournament started by the Baraca Class of the Baptist Church. Every evening groups of quail can be seen on the various vacant lots absorbed in the flight and landing of the iron rings.

A flivver put the Nellie Bly on the blink in Edgewater Park the other day, says Edgar C. Lewis. The Ford crashed through the safety gates and was stopped only after bending an iron step on the engine, which in turn caused the eccentric to snap and the flyer had to go to Camden on one cylinder.

The Men's League of the Baptist Church have arranged a quail tournament, to be held in the street in front of the church. They will pitch on Tuesday and Thursday evenings. There is quite an epidemic of quail pitching in town and spectators can be seen in progress on almost all the vacant lots.

A flivver put the Nellie Bly on the blink in Edgewater Park the other day, says Edgar C. Lewis. The Ford crashed through the safety gates and was stopped only after bending an iron step on the engine, which in turn caused the eccentric to snap and the flyer had to go to Camden on one cylinder.

William Birkenhead, Jr., and "Pete" Jenkins were among the 2700 who attended the picnic of Pennsylvania railroad employees at Rocky Springs Park, near Lancaster, Pa., Saturday. Jenkins won the 50-yard swim in the men's class, and Birkenhead won the same event for the junior class. Each won a fountain pen as a prize.

Great crowds are expected at the Field Club's carnival at Broad and Maple avenues this Friday and Saturday evenings. Many novel attractions have been arranged. Free vaudeville, music, jitney and straw rides, refreshments of all kinds, and other well-known carnival attractions will be going in full blast all of both evenings.

We have received a letter from Henry A. Stiles, who is touring the west with his family. They were leaving Colorado Springs on the 10th for Salt Lake City, after having spent two weeks in Denver and the Springs. On their way out they stopped at Chicago, St. Louis and Kansas City. They expect to reach San Francisco on the 20th, later going to Los Angeles.

DEATHS

Charles E. Dilks, aged 23 years, husband of Helen, and son of Mr. and Mrs. James Dilks, died at the home of his parents, Broad street and Pennsylvania avenue, on Tuesday morning, July 12th. The funeral services were held at the Church of the Sacred Heart this morning (Friday) at nine o'clock. Interment was made in St. Peter's cemetery, Riverside. Mrs. Dilks is the daughter of Mr. and Mrs. Theo. D'Autechy, also of Palmyra.

Chamber of Commerce

Twenty-one new members were elected to the Palmyra Chamber of Commerce at the regular July meeting Tuesday evening. The total membership is now 108, with every prospect that the first mark set in the membership drive, 150, will be reached by early fall.

Eleven of the new members were obtained by the new chairman of the membership committee, Harry K. Mansfield, with Edgar C. Lewis running a close second. The new members are: Oscar B. McCoy, H. Chester Watson, Herman C. Baer, Morris Birenbaum, Edward A. Goldberg, William L. Wright, B. S. Torbett, David W. Knowlton, Thomas C. Ingling, Morris Lipkowitz, David Schwartz, Carl J. Jefferson, E. Jack-obsen, Fred W. Fuci, C. Oswald Melcher, Ernest K. Mueller, Arnold J. Beckenbach, J. A. Althouse, Jr., Seth E. Matlack, C. Augustus Buohl, and Theo D'Autechy.

An offer from the Philadelphia Chamber of Commerce to provide a speaker in the person of former Senator Cartwright, of California, to make an address here on modern business problems, was accepted and the speech will be given at a public meeting later in the fall.

Among matters assigned to committees and on which reports will be made later were: charges made by the water company, improvement of the telephone service, placing of welcome signs for motorists and others at entrances to the town, speeding up the free mail delivery.

To help the postmaster obtain the promised free mail delivery, the following committee was appointed: P. E. Jenkins, chairman; C. O. Melcher and W. E. Jenkins.

Postmaster Cook explained the delay had been due to the fact that the department at Washington at first got mixed in its plans, informing him that village delivery was planned and telling the civil service office at Philadelphia that city service was planned.

Village service provided only \$1000 a year for carriers and it had been impossible to get men qualified to pass the examination which was declared to be in some respects like Mr. Edison's famous quiz.

Now things have been straightened out. It will be city delivery with \$1400 yearly for the carriers; but civil service examinations are few during the summer and this may delay things further.

The committee urges men wishing a \$1400 job to watch for the examinations and carry residents are urged to put up mail boxes where they have not done so. It is hoped that all obstacles will be speedily overcome.

Mr. Wimer suggested that prizes be provided for best kept lawns and blocks in Palmyra next summer.

Jail Sentences for Bootleggers

Violators of the VanNess prohibition act are being given prison sentences in addition to fines by Judge Wells at the weekly session of court last Thursday.

Thomas Maguire, who pleaded guilty to a charge of transporting whiskey to Wrightstown, was given sixty days in the county jail and \$200 fine.

Thomas McKay, who pleaded guilty to the same charge, got three months in jail and a fine of \$300.

Michael McNinney, of Wrightstown, was sentenced to thirty days in jail and a fine of \$100. His defense was selling a pint of whiskey to a Camp Dix soldier.

Additional testimony was taken in the case of Leroy Cotton, of Mount Holly, charged with selling a pint of whiskey to Albert Briggs on the night of May 9, after which the proceedings again were postponed for a week. At the request of Prosecutor Kelsey the case was continued for one week.

The court reconsidered the sentence of Morgan Vannell, convicted last week of selling liquor illegally, and made the sentence six months in the county jail, to date from the time of conviction. The original sentence was thirty days in jail and a fine of \$1000.

F. C. Joins County League

Great enthusiasm has been aroused among baseball fans in Palmyra by the fact that the Field Club on Wednesday evening joined the Central League of Burlington County.

The second half of the league season starts this Saturday and all teams will start even. The league standing of the clubs will be calculated and published just like in the big circuits and the local boys will have an opportunity to fight for the amateur championship of Burlington county.

The league is strictly amateur, no players being paid. All players must be listed with the board which is composed of one representative of each club and the president, who is Sheriff Flagg, of Burlington county. This board will pass upon the eligibility of all players. The Sheriff will select the umpires.

No guarantees will be paid, a fixed agreement governing the division of the receipts.

An example of the kind of baseball to be played was given at the local grounds Wednesday evening, when in what was declared by spectators to be the best game of the season, Medford, one of the league teams, beat Palmyra 1-0. Other members of the league are Burlington, Delanco, Mt. Holly and Moorestown.

The first league game here will be with Burlington, this Saturday. The following Saturday Medford will play here again. Three games are to be played here this month, two in August and one in September, while four games will be played away.

Notes from Parry

Messrs. Kaefer and VanEmburgh have opened a modern service garage.

Miss Carrie Haines is spending a week with her grandparents, Mr. and Mrs. Murgatroy, in Philadelphia.

Mrs. T. Morton Haines and Mrs. Anna Haines spent Wednesday at Woodside Park.

A seven-and-a-half-pound son was born to Mr. and Mrs. J. R. McNall last Friday morning. Mother and son are doing well.

Michael Higgins, of Philadelphia, will visit his brother, Patrick Higgins, on Sunday.

Mr. and Mrs. George Adams, of Philadelphia, will spend the weekend with Mr. and Mrs. Thomas Hutchinson.

Residents of Parry are anxious for the bus line to Camden to be started, as it will save them many a step.

Mr. and Mrs. A. W. Weisbrod, of Philadelphia, will spend the weekend with Mr. and Mrs. Charles Wortham, who will also entertain Mr. Wortham's parents, Mr. and Mrs. Robert Wortham, of Philadelphia.

Mr. and Mrs. Adam Ferguson will be guests of Mr. and Mrs. Charles Schuck over the weekend.

Thomas Moffett is painting his new bungalow.

A thirty-five foot flag-pole has been erected on the grounds of Louis Doring and son. The arrow on top was made by Daniel Barnett.

Mrs. Richard McNall entertained Mr. and Mrs. J. B. Pultz, of West Philadelphia; Miss Marian Post, of Pasadena, Cal.; and Miss Cecile, of Poughkeepsie, N. Y., during the week.

Mrs. Julia Swain and Mr. and Mrs. Harry Schuck spent Thursday at Willow Grove.

Miss Margaret Phelan enjoyed the week on a vacation trip to Douglasville, Pa.

William Forde, of Delanco, was the guest of his sister, Mrs. Richard McNall, Jr., this week.

Hearing on Gas Rates

To determine whether the existing rates charged by the Public Service Gas Company are just and reasonable, the Public Utility Commission held a week forwarded notices to the company and officials of the various municipalities in which the utility operates, advising on a hearing to be held on Newark on August 3.

When the board allowed the company to increase its schedules during the war a clause in its report set forth that the commission would retain jurisdiction in order to subsequently determine whether the additional charges should remain in effect.

In another notice sent out by the commission a hearing is called for the afternoon of August 3, at Newark, for the purpose of making an investigation into the advisability of permitting the Public Service Electric Company to continue an addition of 25 per cent. to certain bills and also the continuance of a coal clause by the company.

East Riverton Notes

Mrs. Melvin Underhill, of Lakewood, has been spending a few days with her parents, Mr. and Mrs. Alfred Giberson.

Isabel Perkins has moved from Riverton into the Church property.

Miss Jennie Siddell is visiting Miss Millicent Church at Newtown, Pa., for two weeks.

William Sprout and family, of Chester, have been spending a week with her parents, Mr. and Mrs. John Salsbury.

Miss Elizabeth Banff is visiting at Lumberton.

Mr. and Mrs. Calvin Stowe entertained a party of friends Tuesday to celebrate the birthday of Mrs. Stowe, from the club of the child of Mr. George Palmer, who is a sister of Mr. Stowe.

John Banff has had his house newly painted by D. H. Everingham.

No Boost in Trolley Fares, but Transfers Will Cost Two Cents

An increase of one cent in the cost of transfers, making such accommodations cost two cents besides the regular seven-cent fare, was granted the Public Service Railways of New Jersey yesterday by the Public Utility Commission.

President Zachary Taylor.

Zachary Taylor is one of the least known of our presidents. He held office only 16 months, but in that time he displayed such courage and strength of character as to endear himself to the people. He came to the office practically unknown and unknown. His victories in the Mexican war had made him famous, but he was not known to the politicians, nor did he know any of them. He had been called "Old Rough and Ready," but he was not such a blustering, uncouth man as people had thought.

Pigmy Pigs.

The smallest known species of hog are the pigmy swine of Austria. They are exactly like other hogs in every particular except size, being no longer than a good-sized house rat.

Usually a "Bluffer."

A person who goes around bragging about his "awful temper" is the easiest person in the world to cow by a very small show of firmness and determination.

Old Home Day, October 1.

An Old Home Day will be celebrated in Palmyra, Saturday, October 1, next, under the auspices of the Chamber of Commerce.

According to plans outlined at the first meeting of the general committee held immediately after the meeting of the Chamber Tuesday evening, the celebration will be the biggest affair of its kind ever known in Palmyra.

All the organizations in town, lodges, churches and civic organizations are to take part. Former residents are to be invited to return on that day to renew old acquaintances, homes and business places are to be decorated and citizens in general will be asked to entertain as many guests as possible to help make the celebration a huge success. Open house is to be the rule of the day.

An elaborate program of entertainment is to be worked out. It is planned to have music and dancing in the open air, a ball game, athletic events, possibly a parade and many other interesting features.

The Chamber of Commerce committee is George N. Wimer, chairman; W. Davidson, vice chairman; Wilbur F. Crane, secretary; A. N. Stewart, treasurer; and Clement B. Horn, assistant secretary.

Every organization in town will be asked to appoint a committee of three to co-operate, and a meeting of all committees will be held Tuesday evening, August 2, for further organization, division of duties and appointment of sub-committees.

The ball game may take the form of a contest between the old-timers and the present generation. Every body will be asked to make a special effort to bring former residents back to town, in keeping with the Old Home idea.

Fun for the big time will be raised by public subscription among the citizens and business men.

The Story of Our States

By JONATHAN BRACE XVII.—OHIO

THE West Territory, of which Ohio is a part, was a bone of contention between Spain, France and England. Spain's claim was based on the voyage of De Soto up the Mississippi river. France, through the explorations of La Salle from the north and the entry of French priests from Canada, considered this territory theirs.

As for England, she rested her claims on the discovery of North America by the Cabots, and in the charter granted to Virginia included all the country lying to the west.

The French were the first to get a foothold in Ohio, but the English pioneers, who shortly began to drift westward, firmly established their settlements in the fertile Ohio valley.

In a long period of warfare, in which the Indians played a leading part, the Northwest Territory was finally ceded to the United States by the Treaty of Independence in 1783. And Virginia and other states, which had laid claim to portions of the region turned over their rights to the federal government.

The government of the Northwest Territory was formally created by the ordinance of 1787. People from the East migrated into this territory in great numbers, and by 1803 Ohio was taken into the Union as the seventeenth state. The fourth largest state in size of population, Ohio has 24 electoral votes for President, while in area, with its 41,040 square miles, it ranks only thirty-fifth, which shows how densely it is populated.

It is noted as the state of Presidents. President Harding makes the seventh Ohioan to all the presidential office.

The name Ohio is derived from the Iroquois word O-hee-yo, meaning "beautiful river."

It was first applied by the Indians of the Five Nations to what we now call the Allegheny river, one of the chief tributaries of the Ohio. Gradually the name came to include the whole river, sometimes even being applied to the Mississippi. Later it was confined to the river between Pittsburgh and Cairo, and appropriately the first state formed on its northern bank was named after it. Ohio is often called the Buckeye State from its large number of horse-chestnut trees.

Washington's Religion.
There has been considerable controversy over the extent to which religious belief entered into Washington's character. His own chronicles show that most of his Sundays, except during the presidency, when he felt obliged to set an example, he spent in answering letters, going over his accounts, hunting or doing any business that those with whom he was negotiating had no scruples in choosing people to work for him he set up no barriers of creed, judging men from the standpoint of honesty, industry and ability.

NO TROLLEY CASE SPECIAL SESSION

Chancellor Walker Says Court of
Errors Can't Be Mobilized to
Hear Utility Board

JUDGES OFF ON VACATIONS

Resents High Court's Criticism — Ob-
jects to Statement That It Made
Public Service a "Victim" in
Its Fare Ruling.

Trenton.—Chancellor Walker declined to convene the court of errors and appeals in special session to stay the judgment of the supreme court directing the Public Utility Commission to grant a higher rate of fare than 7 cents to the Public Service Railway Company.

L. Edward Herrmann, as counsel, appeared before the chancellor at the direction of the Utility Board. The chancellor stated that it would not be possible at this time upon such short notice to get a quorum of the 18 judges court members, as many of the judges are away.

Herrmann's application was based upon the claim that the Utility Board on July 14 is required to hand down a decision in the proceedings wherein the commission will determine a permanent rate for the Public Service Railway Company based upon a valuation of its property made by Ford, Bacon & Davis, engineers employed by the State Valuation Commission. The supreme court in an opinion by Justice Bergen had ordered the so called emergency appeal of the Public Service back to the board in order to grant the company a fare higher than 7 cents.

"Under the law the board is required to fix a just and reasonable rate in the valuation proceedings within three months after the report made for the Valuation Commission is filed with the board," said Herrmann. "This report was filed with the board on April 14, and that the board must reach its determination by July 14. Under the judgment entered in the supreme court the emergency rate case is remanded to the board for rehearing, and by the opinion the board is limited to reconsideration of the evidence presented conclusively that a considerable part at least of the increased rate is just and reasonable. The supreme court in effect holds that under this evidence the board allow a higher rate of fare than is now charged."

"The board might reasonably reach different conclusions and establish different rates to these cases because the factors required to be considered in the two cases differ. To avoid this possible conclusion the application to stay the rehearing in the emergency case was made."

Counsel Herrmann filed with the court of errors and appeals the reasons upon which the board is appealing to the highest state court to set aside Justice Bergen's decision in the supreme court that the Public Service is immediately entitled to a higher fare. Among the errors assigned are:

"That the supreme court erred in finding, 'that it was shown conclusively that a considerable part at least of the increased rate is just and reasonable.' That it erred in holding that 'it is just and reasonable that an increase of rates should be made.'"

"That it erred in holding that the fixation of a just and reasonable rate 'ought not to be postponed until the board has reached a result in another case involving the fixing of a just and reasonable rate based on the valuation.'"

"That it erred in holding that the railway company was entitled to the cost of operation and a fair return 'on capital invested.'"

"That it erred in holding that it is entitled to any higher rate than it is now receiving until the appellant fixes, as it is required to fix under the statute, a just and reasonable rate based upon a fair value of the property used and useful in the service of the public."

Board Resents Criticism
In a dignified but at the same time caustic statement the public utility commissioners took exception to the language used by the supreme court in reversing the commission's order denying the Public Service Railway a 10 cent trolley fare and announced its purpose of carrying the case to the court of errors and appeals.

The indignation of the members of the commission has been aroused by Justice Bergen's reference to the Public Service as having been a "victim" of the Utility Board. They assert that it is unjustified and insist that the commissioners in the handling of the public's business are actuated by the same high conception of duty that inspires the members of the bench. The statement of the board was issued in connection with the announcement that the opinion of Justice Bergen would be carried to the court of errors for determination of the question whether the fixation of a just fare is a judicial or a legislative function. It follows:

"The board proposes to take an appeal from the order of the supreme court in the application of the Public Service Railway Company for permission to charge a 10 cent fare. The board considers the order of the supreme court is not warranted by the law in that it orders the board to fix a rate higher than 7 cents upon the evidence heretofore submitted. The board contends that the court's power is prescribed by the constitutional act and by Chapter 1180 of the laws of 1918. The latter restricts the court's power as to the board's acts to set aside any order not based upon the evidence, but does not prohibit the consideration of additional evidence."

"In the second place, the effect of the order of the supreme court is to equalize all the bond issues of the Public Service Company and all the rentals paid to subsidiary companies under leases, the value of which has never been determined by the Board of Public Utility Commissioners or the supreme court. It is contended by many that these issues and rentals are based upon excessive capitalization and do not constitute a legal basis for fixing a rate of fare."

"In the third place, the board is now devoting all its time and energy to an

endeavor to arrive at a just and reasonable rate upon the only fair basis upon which rates can be determined—viz, upon consideration of all factors in a rate making case, including the valuation of the company's property, and expects to arrive at a determination by the 14th of this month, as required by statute."

"The court in its opinion refers to the company as a 'victim' of the board. The board considers that the language used by the supreme court in this connection is unjustified. The board entertains the same high conception of its duty as that actuating the members of the court which rendered the opinion in this case. The board is of the opinion that the question whether the fixation of a just and reasonable rate is a judicial or a legislative function should be definitely settled."

Award Is Upheld

Where a workman receives a personal injury from an accident arising out of and in the course of his employment and a disease ensues which but for the accident would not have ensued and when such disease causes his death this justifies a finding that death was, in fact, the result of the injury and was by accident within the meaning of Section 2 of the workmen's compensation act, even though it is not the natural result of the injury.

This is in part the syllabus of an opinion by Justice Trenchard filed in the supreme court affirming an award by the Union court of common pleas under the workmen's compensation act in favor of Mrs. Eliza Geisel against the Regina Company of Rahway as the result of injuries sustained by her husband, Jacob Geisel, who died later. Geisel, who was seventy-two years old, was employed by the company as a porter.

The evidence showed that on February 6 of last year Geisel was caught between the door and casing of the elevator and slung there, with one leg within the elevator and the other on the outside, and remained in that position from five to eight minutes. It was necessary to pry the door away to release him. It was impossible to get an ambulance because of a heavy snowfall, and he was taken home within an hour in a sleigh. He died 17 days after the accident.

Medical Testimony Given

It was argued by the company that the cause of death was diabetes or influenza, or both, but the physician called by Mrs. Geisel testified that in effect the accident was a factor in producing death. Justice Trenchard said the medical testimony clearly tends to show that the injury and consequent shock and exposure so impoverished Geisel's strength and vitality as to predispose him to the ravages of the disease.

"If we assume," said Justice Trenchard, "that before or at the time of the accident Geisel was suffering from bodily disease that does not necessarily defeat compensation. Death may be found as having been caused by an accident, although there was a diseased bodily condition prior to the injury, without which death would not have ensued, where, as may be inferred here, the undeveloped and dangerous physical conditions are set in motion producing such result."

In the syllabus of his opinion Justice Trenchard said that in a proceeding under Section 2 of the workmen's compensation act to recover compensation for the death of an employee the burden of proving that "death was caused by accident arising out of and in the course of his employment is upon the petitioner. The findings of fact by the trial judge in a proceeding under this section will not be disturbed if they are supported by the evidence."

The Monmouth county court of common pleas was sustained in an opinion filed in awarding a judgment in favor of Somers & Somers against Ella H. Clement in an action to recover a broker's commission for services rendered in bringing about the sale and exchange of a farm belonging to the defendant. The court held that from the evidence it appeared that the plaintiffs carried out the terms of their agreement by procuring a person able and willing to take the farm of the defendant by purchase or in exchange for property in Brooklyn at the purchase price of \$90,000. The commission agreed upon in the contract was 2 1/2 per cent.

Boys Form Asparagus Club

An asparagus club has been organized among the boys of Monmouth county, under the leadership of the county club agent. This is the first of its kind to be started in New Jersey and, as far as the United States department of agriculture is informed, in the United States. The enterprise is the outgrowth of co-operation between the market gardening specialist and the county club agent. The object is to demonstrate to the Hazlet community the growing of a large type rust resistant variety of asparagus.

Plants Revived by Sleep

After the period of growth in spring and summer there is a period of dormancy in plants before the cold weather sets in, and if plants are maintained artificially at a high temperature this dormant period persists. Exposure to cold is needed to activate the plant for another period of growth. Perhaps the liberation of enzymes acts on the stored starches, converting them into sugars, or the phenomenon may be due to a change in the permeability of the cell-membrane. Though normally the stimulus required for a renewal of growth is supplied by cold, mechanical injury or a period of drying may have the same effect. The process occurs independently in any exposed part of the plant, so that if one or two branches of a plant be kept continually warm while the other is subjected to the usual winter chilling, the former will not develop normally on the return of summer temperature, though the latter develops as usual.

Thinness of Spider's Thread

A scientist once compared a hair of his beard with a spider's thread. Under a microscope and estimated that it would take 10,000 threads to equal one hair in substance.

The Story of Our States

By JONATHAN BRACE
XV.—KENTUCKY

THE kinship of Kentucky and Virginia is that of parent and child. From Virginia came most of the settlers of the western state, and with them these pioneers brought Virginia institutions and ideals. It was not until 1790 that the first authentic journey was made by a white man into central parts of the region afterwards called Kentucky.

Further explorations showed that this territory held two important attractions for settlers. The first was the great fertility of what was called the Blue Grass region. The so-called blue grass, from which this state is nicknamed the "Blue Grass State" is in no wise peculiar to Kentucky.

The second inducement for settlers was the fact that there were no Indians living in this region. It was later found that many roving bands of savages crossed the Ohio from the north and sorely harassed the early colonists until Clark's expeditions checked their invasions. In fact, the name Kentucky is probably derived from the Iroquois word kentucke, meaning "hunting land." Another interpretation is "dark and bloody ground," but this is doubtless incorrect.

The main highways of travel at that time were Daniel Boone's "Wilderness Road" through Cumberland Gap and down the Ohio. Hardy pioneers poured into this new territory in such numbers that in 1792, with the permission of Virginia, Kentucky was admitted to the Union as the fifteenth state with an area of 40,598 square miles. Kentucky has thirteen electoral votes for president. The remarkable physical condition of its population is shown in a report of the volunteers in the Civil war. They gave the average height as nearly an inch taller than the New England troops and with a correspondingly greater girth of chest.

Selling C... Under Difficulties

Dean B. Stover, southern salesman for a Brockton shoe concern, got an order under difficulties while out on his last trip. He made a North Carolina town and hired a taxi to take him to a township 15 miles away to which few trains ran. Arriving on the outskirts of his destination he found that the heavy floods had washed away the only bridge. Mr. Stover decided the only thing to do was to turn back until the taxi driver suggested that there might be a boat somewhere around. Mr. Stover hunted along the banks until he found a flat bottomed skiff and he rowed across. He interviewed his customer, requisitioned a small wharf and laid his samples out on the roadside. And he made the sale.—Brockton Enterprise.

Best "Get-Rich-Quick" Scheme

There is no better guarantee to success than just plain honest-to-goodness work. It may take longer to win the public, but when you have won it you have won to stay. After an article has a definite market folks learn to depend upon it, and new articles have to earn their right to even a place in competition. It's this constant production of the worth-while thing that puts both you and your business on the commercial map. There are all sorts of attractions to the contrary, but there is no get-rich-quick scheme that can take the place of honest, consistent, persistent efforts.—Exchange.

Primavera Mahogany

Mahogany is the name of the timber of a number of absolutely unrelated trees. A government bulletin on true mahogany does not mention primavera mahogany, which is a Mexican tree belonging to the family Bignoniaceae. It is called Primavera from its early flowering, which resembles a bright yellow cloud in the top of the tree before the leaves are out. The tree is a native of Mexico and Central America. Its wood is also known as white mahogany and has been used since 1885 for cabinet and furniture making in the United States.

The Story of Our States

By JONATHAN BRACE
XVI.—TENNESSEE

THE history of Tennessee stretches back to the year 1541 when De Soto with his party of Spanish

adventurers probably reached the present site of Memphis on the Mississippi. The French under La Salle built a fort here about 1682. The English also laid claim to this territory, including it in the grant to North Carolina. It was not until 1770 that the first permanent settlement was made by James Robertson and this was soon followed by many other settlers from North Carolina. They formed what they called the Washington district, but this was short lived as it was promptly annexed to North Carolina. In 1784 the inhabitants, indignant over North Carolina's attitude toward them, declared their independence and formed the State of Franklin or Frankland. As this secession was not contemplated by North Carolina, for a number of years a state of confusion existed with two sets of officers trying to govern. Meanwhile the settlement suffered severely from hostile Indians and from the Spanish, who still held Louisiana, and controlled the Mississippi river. In 1790 North Carolina finally ceded this territory to the United States. By 1796 the population had increased to over 60,000, so Tennessee was admitted as the sixteenth state of the Union.

At the outbreak of the Civil war Tennessee joined the Confederacy. In 1863, when the state was readmitted to the Union, there was much disorder during the reconstruction period. This led to the formation of the Ku Klux Klan, the influence of which quickly spread throughout the Southern states. This secret organization took into its own hands the suppression of crime and the administration of justice. Tennessee contains 42,022 square miles, and is sometimes called the Volunteer state. It is named after its principal river, which is a Cherokee word meaning "Crooked River" or "bend in the river."

How Long is Ironing Day?

Is it a full eight-hour day of hard, tedious work?
You can sit down and do the family ironing in an hour if you choose.

The Thor Ironer has a wide ironing surface, evenly and uniformly heated all the time, so that more than one piece can be ironed at a time. The Thor irons dresses, shirts, ruffled things with equal facility.

In order to reduce our stock we've declared a special price on these splendid labor-saving Ironers.

\$142.50 Cash

\$150 on Convenient Terms

A few Ironers that we've used for demonstration purposes, mechanically perfect, but not brand new in appearance, can be bought, while they last—

\$137.65 Cash

\$144.90 on Convenient Terms

Electric Irons

Heat quickly, keep hot long after current is shut off. Highly polished ironing surface slips over damp materials easily. A hard working iron at a little price—

\$5.95

It Pays to Own a Hoover

Figure what a Hoover saves. Carpet cleaning bills, cost of additional help at cleaning time, frequent redecorating due to dust-filled rooms, replacement of draperies due to same cause. The biggest expense is the cost of new rugs. Unless rugs are regularly beaten by the Hoover, the only cleaner that beats as it sweeps, as it cleans, grit becomes embedded and gradually cuts the nap away.

The Hoover prevents such wear. Many times over it pays for itself in this way.

10% down, the remainder in monthly payments

Electric Fans

You heat your home in winter, why not cool it in summer with an electric fan?

You want comfort and health for your children and yourself.

You need an electric fan. We have General Electric and Westinghouse fans in stock.

10, 12, 16 inches; plain and oscillating.

Reductions on Gas Water Heaters

A warm, cleansing bath first, then a shower is the proper method for cooling off, doctors and physical directors say.

Gas water heaters provide plenty of hot water. Your bath is ready when you are.

Our Clearance Sale Includes

IMPROVED UNIFORM INTERNATIONAL

Sunday School 'Lesson'

By REV. F. B. FITZWATER, D. D.,
Teacher of English Bible in the Moody
Bible Institute of Chicago.
(© 1921, Western Newspaper Union.)

LESSON FOR JULY 24

SAUL PROCLAIMS JESUS AS THE
CHRIST.

LESSON TEXT—Acts 9:1-30.
GOLDEN TEXT—Thou art the Christ,
the Son of the Living God.—Matt. 16:16.
REFERENCE MATERIAL—Acts 18:
24-26.

PRIMARY TOPIC—Saul Telling Others
About Jesus.

JUNIOR TOPIC—Saul Winning Others
to Jesus.

INTERMEDIATE AND SENIOR TOPIC
—Getting Ready for a New Career.

YOUNG PEOPLE AND ADULT TOPIC
—Saul Begins His Ministry.

1. Saul Preaching Christ in Damas-
cus (vv. 19b-22).
After Saul was baptised he remained
certain days with the believers in Da-
muscus (v. 19b). How beautiful to
think of the transformation which
took place—one who was so passion-
ately bent on the destruction of the
disciples was now enjoying fellowship
with them.

2. The people amazed (v. 21). They
knew that the very one who had been
ringleader in persecuting the Chris-
tians in Jerusalem and had come to
Damascus for the express purpose of
bringing them bound to the chief
priests, was now passionately advo-
cating that which he had so vehe-
mently sought to destroy.

3. The Jews confounded (v. 22). Saul
retired into Arabia for three years.
During this time he was taught the
full truth of his mission (Gal. 1:17,
18). Saul increased in spiritual
strength and confounded the Jews,
proving that Jesus was not only the
Son of God, but their Messiah. His
proof, no doubt, was by citation from
the Old Testament prophecies, show-
ing that the life, death and resurrec-
tion of Jesus exactly paralleled them.
That Christ died and rose again from
the dead, no one then could deny; the
transformation of Saul from a hater
to an ardent witness was a proof
which could not be gainsaid.

4. Saul Escapes From the Jews
(vv. 23-25).
He used the Scriptures with such
skill that the Jews could not answer
him. Finding that the argument was
against them, the Jews took counsel
how they might destroy Saul. So in-
tent were they upon killing him that
they watched the gates of the city day
and night that they might take him.
When this was known to the disciples
they let him down at night in a bas-
ket by the wall.

5. Saul Visits Jerusalem (vv. 26-
29a).
This journey to Jerusalem was in
strange contrast with the one from
Jerusalem to Damascus. The one
was the leader of an important expedi-
tion under the authority of the Jew-
ish officers with the prospect of a
place of distinction in the councils of
the Jewish nation. Now he is an out-
cast, disowned by his countrymen, and
fleeing for his life.

6. Suspected by the disciples
(v. 26). The believers at Jerusalem
had not heard fully about Saul's con-
version. They knew nothing of his so-
journ in Arabia and his preaching at
Damascus after his return, so they re-
garded him as a spy. "Part of the
penalty of wrong-doing is the difficulty
of restoration in the good opinion of
honorable men." But it is infinitely
better to be regarded with suspicion
when genuinely true than to be trust-
ed as genuine when a hypocrite.

7. Barnabas' confidence in Saul
(v. 27). He was a man filled with
the Holy Spirit (Acts 11:24); there-
fore, able to discern the reality of
Saul's conversion. He was in reality
a "son of consolation," and in this
instance showed his kindly spirit.

8. Saul in fellowship with the dis-
ciples (v. 28). They went in and out
together. Peter received him into his
home, since his object in going to
Jerusalem was to see Peter (Gal. 1:18).
He abode with him 15 days.

9. Saul disputing with the Grecians
(v. 29). He was not content to merely
visit with the brethren; he spoke
boldly in the name of the Lord Jesus
Christ.

10. Saul Sent to Tarsus (vv. 29b,
30).
A conspiracy similar to the one at
Damascus was formed against Saul.
When the brethren knew of it they
sent him to Tarsus. Saul's life is in
danger everywhere except among the
Gentiles. He is now back to the place
of his birth. The first and best place
for one's testimony is in his home.

When Thou Art in Tribulation,
and all these things are come upon thee,
even in the latter days, if thou turn
to the Lord thy God, and shalt be ob-
edient unto His voice (for the Lord thy
God is a merciful God), he will not
forsake thee.—Deuteronomy 4:30, 31

A Sabbath Thought.
O come, let us worship and bow
down: let us kneel before the Lord
our Maker. For He is our God; and
we are the people of His pasture.—
Psalm 95:6, 7.

INTERESTING NEWS BITS
in and around Palmyra

Buy It at Home!

Miss Florence Harvey is spending a week with relatives in Columbus.

John Shade has purchased Curtis Stacey's house at 912 Garfield avenue.

Mrs. William J. Mathews, a former resident of Palmyra, is visiting Mrs. James T. Wear.

Miss Pauline Frizlen, of Long Island, is the guest of her cousin, Mrs. W. T. McAllister.

Mr. and Mrs. Harry Lewis attended the funeral of her mother in Philadelphia on Tuesday.

Mr. and Mrs. I. U. Kerschner and family are expected home from Asbury Park this Saturday.

Mrs. A. R. Corbett and family, of Washington avenue, are spending the summer at Ocean City.

Mr. and Mrs. W. B. Powell motored to Medford on Sunday where they visited relatives and friends.

Joseph McCarty, of Palmyra, has rented the property on the corner of Parry and Wallace avenue.

Carl Latch, of Riverton, and Redford Powers, of Baltimore, are on a steamer making a trans-Atlantic trip.

The First National Bank of Merchantville will soon start building a new home next to its present location.

Mrs. J. H. Abdill and daughter were the guests of Mrs. Abdill's sister Mrs. Charles H. Davis, of Burlington, on Thursday.

Mr. and Mrs. Frank A. Mathews, Jr., will spend the weekend as the guests of Judge Waddington, of Woodstown.

Mrs. Edward E. Fox, who underwent a serious operation at the West Jersey hospital last Monday, is reported improving.

Mr. and Mrs. A. G. Kern and daughter, Frieda, of Terre Haute, Indiana, are the guests of Mr. and Mrs. Frank Chambers.

Professor and Mrs. A. S. Griffith spent last week at Ocean City, where Mr. Griffith attended the convention of school superintendents.

Mrs. R. M. Atkinson, of 913 Highland avenue, is home again after having fully recovered from an operation at the McKinley hospital.

Mr. and Mrs. Howard Alloway, of Highland avenue, entertained their aunt and uncle, Mr. and Mrs. T. P. Bowman, of Hebron, O., last Friday.

Mr. and Mrs. H. B. Wahl, of Burlington, were guests of Mr. and Mrs. Samuel A. Plumly over the weekend.

The engagement of Miss Esther Bingham, of Merchantville, to Mr. Marlin F. Wallace, son of Elmer Wallace, Sr., of Palmyra, has been announced.

Little Miss Emily Fish, of Garfield avenue, expects to be freed of her plaster cast this week. She fell from an apple tree about a month ago and broke her leg.

Cinnaminson avenue to the Burlington pike was much improved this week, a new road being finally crushed stone having been laid under the direction of the freeholders.

Fred Frei plans to leave Sunday for Kent, O., where he will take a course in the Davey Tree Surgery school, after which he will take up an profession with the Davey Company.

A civil service examination for clerk-carrier in the Palmyra postoffice will be held on August 6. Applicants can obtain necessary blanks and information from Miss Florence Cramer at the local postoffice.

While working in his garden, John Plumly, of Delaware avenue, nearly stepped on a 2-foot snake. He rushed to the house for a gun, but on his return his snakeship had disappeared. Later it was learned that the snake is a pet belonging to Frederick Sandoz, of West Fifth street.

The Field Club carnival gross receipts were \$120 and it is thought the net will be something over \$400. The Indian blanket and fruit and groceries booths proved to be most successful, while C. O. Melcher was kept quite busy hauling the youngsters and a good many of the elders about in his big truck, netting a handsome sum.

A heavy rain Friday night caused the carnival to be continued Monday and the change probably reduced the receipts considerably.

Baseball and Picnic for Wesleyans

An intra-class baseball team is to be played by members of the Wesleyan Men's Bible Class at the Field Club park next Thursday evening as a preliminary to selecting a team which will represent the class in other contests to be arranged.

Inasmuch as the big membership of the class embraces a large number of star players, some interesting games are to be expected.

Plans have all been laid for a big picnic of the class and its friends at Cedar Lake, near Mount Holly, on Saturday, August 6th.

The class has delayed plans to place a fine diving board at the ferry swimming hole, inasmuch as the ditch there does not at present present a very suitable location. The proposition will be taken up later when the future plans of the ferry company are definitely settled.

An interesting meeting of the class officers was held Wednesday night at the home of Augustus Wilson in Riverton and many interesting plans for the remainder of the summer were discussed.

Motor Company to Build \$60,000 Garage

The new Palmyra Motor Company is pushing its plans for the erection of a modern Ford salesroom and repair and parts garage. The lot purchased at 115 and 117 West Broad street has a frontage of 65 feet on Broad street and extends back to Fifth street where it has a frontage of 100 feet.

The present building, containing the offices of W. L. Fichter and G. Mohrman, is to be moved back to Fifth street to make room for the new structure, which is to cost \$60,000.

Oscar McCoy, manager of the new company, are continuing their active and successful work pushing Ford sales.

Mrs. Emma Rental

Mrs. Emma Rental, 39 years old, died at the home of her parents, Mr. and Mrs. Emanuel Keuser, Arch and Washington streets, Palmyra, Monday. She was a widow of the late Oscar Rental. She is survived by one daughter, Mary, 14 years old. The funeral was held Thursday afternoon with interment in Morgan cemetery.

No Objection to Sewer Ordinance

The sewer ordinance was passed on its third and final reading by the Palmyra township committee Tuesday evening without a dissenting voice.

The ordinance provided for a sanitary sewerage system covering most of the town as shown in the blue print maps which have been placed in several places about the town, a pumping station, a disposal plant and also a surface drainage system designed to relieve the flood conditions on Broad street south of the railroad, centering at Morgan avenue. The cost is not to exceed \$175,000.

The meeting was attended by only 20 persons, including 10 township officials and 10 members of the Chamber of Commerce. This was a marked contrast to the meeting last year and of previous years when great crowds appeared and contests were started which killed the sewer movements of times gone by.

This time those present were interested in securing extensions of the system instead of opposing it.

Township Clerk George Spencer urged that the system be extended to that part of the town south of the railroad and west of Cinnaminson avenue, which is not included in the present plan. He said some of the citizens of that section understood they would have to help pay for sewerage the rest of the town but would not benefit from it themselves.

Engineer Voshury explained that only those property owners benefiting from the system would have to pay for it, as set forth in the ordinance, except for the Broad street drainage proposition which will have to be paid for by the whole town.

It is further explained that the section referred to had been left out of the sewerage system because it was not completely developed as yet and, the engineer said, owing to the slope of the land there it would require either a pumping station or a separate disposal plant. It was not thought that the additional expense would be justified at present in view of the undeveloped state of the section. The township committee was satisfied that soon as the section is built up more completely they would be glad to consider extending the system to include it.

Mr. Spencer feared that the district under discussion, which composes a quarter of the area of the town would be handicapped in its growth if it had no sewerage.

Ferdinand Trudel asked if the Broad street drainage system could be extended to relieve conditions at Walla street and Washington avenue, where during heavy rains the water washes big quantities of sand and clay from the Lippincott orchard section into the lawns of Washington avenue. Engineer Voshury advised that this condition could be taken care of better by the building of cement gutters on the streets concerned.

Trudel, who was backed up by Samuel Scott, was very anxious for an up-to-date town. George N. Wiener urged extensions to the sewer system wherever possible for the same reason.

A good part of the evening was taken up by a colloquy between the Township Committee and Attorney Frank A. Mathews, Jr., who, representing Norman Graham, obtained the Committee's promise to place the Broad street drainage among the first items of the sewer construction work.

Later, Mr. Mathews, representing Albert S. King, had quite an argument with the committee about the riparian rights at the foot of the eastern half of Cinnaminson avenue, for which the township has applied and which Mr. King also desires. The committee maintained that it was going ahead with its effort to obtain the grant from the State.

The following bills were ordered paid:

C. M. Beck, salary \$130.00
Jos. Rodgers, salary 100.00
Roads and streets 723.05
School Board, first half taxes 16,000.00
T. W. Land, salary 50.00
L. A. Weikman, half ton coal 6.75
S. Collins, lumber 2.00
Palmyra Garage 6.55
Public Service Co. 418.00
Phone 3.88
F. L. Crosta, repairs 1.50
W. Paxon, gravel 62.60
Remington & Voshury engineering work 161.25
Riverton Ice Co., cinders 7.00
Weekly News, advertising 38.12
A. J. Beckenbach, legal serv. 117.50

Notes From Parry

Mr. and Mrs. Charles Schuck and Mr. and Mrs. Adair Ferguson spent Wednesday at Atlantic City.

William Phelan is painting his new bungalow.

The Parry Fire Company plans to give another carnival on August 20. The committee is composed of Howard Bender, John Williams, George Dorworth, Kie Wallace, Richard McNall, Jr., and Richard McNall, Sr.

Thomas Ziegler is building an addition to his home.

Miss Margaret Posnott, of Philadelphia, will be the guest of Alfred Schuck over the weekend.

Mr. and Mrs. Gieger, of Orland, Pa., spent the weekend with Mrs. John Schuck.

Herbert Fritschman, of Burlington, was weekend guest of Alfred Schuck.

Ward-Coleman

Miss Alvina Coleman, daughter of Mr. and Mrs. John W. Coleman, became the bride of John E. Ward, son of Mr. and Mrs. Frank Ward, of Philadelphia, at a pretty wedding at the home of the bride Wednesday evening.

Miss Dorothy C. Coleman, sister of the bride, was maid of honor, and J. Powell Parker, of Philadelphia, was best man. The happy young couple left at once for a ten day trip to Niagara Falls.

A Regular Camel For Ink

A fountain pen with no rubber sac, and an ink capacity three or four times as great as those which have, is the latest sensation in pens. You can see this wonder at the New Era office.

Over-Enthusiastic

Once in a while you meet a friend who is so glad of a chance to help you out of trouble that he is almost willing to help you into some for the sake of showing you.

Was Necessary

Judging from frequent mentions in townrooms and street cars of persons who have "got wise," the American standard of intelligence must be rapidly rising.—Boston Transcript.

If you are interested in the newest thing in fountain pens stop at the New Era office and see the automatic filler that has no rubber sac.—Advertisement.

ORDINANCE

(continued from second page)

side of intersecting streets. This clause shall not be construed as permitting the stopping to take on or discharge passengers in such a location as to interfere with the use of street crossings by pedestrians or to interfere with the discharging or taking on of passengers by any trolley car or other vehicle.

The door of the said bus shall be closed at all times when bus is in motion.

SECTION 10. It shall be unlawful for any person to operate or drive any auto-bus when the streets are covered with rain water, snow or ice unless the rear wheels thereof be equipped with non-skid tires or with skid chains, or other safety devices for use in operating said vehicles.

Every auto-bus operating on the streets of the Borough shall be thoroughly cleaned and ventilated at all times, and the interior of the same shall be properly lighted and heated.

SECTION 11. No fare shall be collected on said auto-bus, or no passenger shall be received or discharged by the driver thereof while such auto-bus is in motion.

SECTION 12. The license fee for operating each auto-bus, as herein provided, shall be Fifty Dollars, payable at the time said license is issued, except where such license is issued on or after September 1st, in which case one-half of the fee shall be charged. Such fee is imposed for the purpose of revenue.

All license fees shall be paid to the Borough Clerk.

SECTION 13. No person shall smoke, strike matches, carry lighted cigars, cigarettes or pipes while riding in or driving any vehicle used for the transportation of passengers for hire.

SECTION 14. It shall be unlawful to allow any auto-bus to be parked on any street within the limits of the Borough of Riverton, or to remain standing on any of such streets, except for the purpose of promptly receiving and discharging passengers.

In such cases where breakdown or accident or circumstances beyond the control of the driver of said auto-bus necessitates the stopping of the vehicle for a longer time.

SECTION 15. Any person violating any of the provisions of this ordinance shall be subject to a fine not exceeding Twenty-five Dollars for the first offense, and Fifty Dollars for each subsequent offense.

SECTION 16. If any section, clause or provision of this ordinance shall be adjudged to be inoperative or shall apply only to the section, clause or provision so adjudged to be inoperative and the rest of this ordinance shall remain valid and effective.

This ordinance shall take effect immediately.

"What's in a Name?"
By MILDRED MARSHALL

Facts about your name; its history; meaning; whence it was derived; significance; your lucky day and lucky jewel.

ALICIA.

THIS name is derived from the same root as Alice, and represents an attempt at greater euphony.

The curious part is that the name, in its original form, is really not that of a woman at all, but of a man. It is derived from the Anglo-Saxon Adelgis, of which the feminine form was Adelgia, but was not frequently given to women. Instead it was sacred to the sons of the house, principally among the nobility. The name itself means noble, in both its masculine and feminine forms.

The name is purely English, having, however, a slight Teutonic flavor. An argument is put forward by some experts that the name is derived from the Frankish Adalbert on Adelchen, meaning "daughter." Alia or Alisa in Lombardy was naturalized in England when Alia in Belle married Henry I.

The name, originally masculine, according to the best authorities, however, represents Adelgis and not Adelgia, making the proper feminine form Alia. Some believe that Eliza, generally believed to be a derivative of Elizabeth is this missing form. For proof of Alia as the representative of Adelgia, the Liber Vitae of Durham records the changes in Adelgia from the first noble lady of that name, who laid her gifts upon the altar. By contraction it became Adelgia and Alia.

The talismanic stone of Alia is the Alexandrite, a Russian gem. It is found in the emerald mines of that nation, being of a beautiful green shade which changes to columbine red. The Russians believe it brings great good fortune. When the subject of its favorite's dream it signifies hope. Monday is Alia's lucky day and seven her lucky number. Her flower is the white hawthorne, a beautiful bud.

PUTTING MORE MILK IN FOOD OF FAMILY

Numerous Dishes Are Enumerated by Home Specialists.

Milk Toast, Cream Soups, Creamed Vegetables, Fish and Scalloped Dishes Are Favored—Recipe for White Sauce.

Milk toast, cream soups, creamed vegetables, creamed fish and scalloped dishes are all good ways of putting more milk into the daily food of the family, say home economics specialists in the United States Department of Agriculture. The milk for all of these is thickened into a sauce, thick or thin.

To make the sauces, melt the fat, stir in the flour, add the milk gradually, and cook until thickened, stirring constantly unless a double boiler is used. All measurements are level in these recipes.

Thin White Sauce.

1 cup milk 1/2 teaspoon salt
1 tablespoon flour 1/2 teaspoon pepper
1 tablespoon fat

Medium White Sauce.

1 cup milk 1/2 teaspoon salt
2 tablespoons flour 1/2 teaspoon pepper
2 tablespoons fat

Thick White Sauce.

1 cup milk 1/2 teaspoon salt
3 tablespoons flour 1/2 teaspoon pepper
3 tablespoons fat

For milk toast and with vegetables use the thin sauce. For scalloped or creamed vegetable and meat dishes use the medium sauce. The chief use for the thick sauce is as a binding material in croquettes and loaves.

ANNOUNCEMENT

I announce that I am a candidate for the Republican nomination for the office of Surrogate of Burlington County at the Primary Election to be held on September 22, next.

Although believing myself to be well known to the voters of the County, it may be useful to state my past record in public life, my qualifications for the office of Surrogate, and my purpose if nominated and elected. I am a lawyer by profession, and have been engaged in the active practice of law in this county for 25 years. In the profession, I have had a wide range of experience in the law and in business, including practice in the Surrogate's office and the Orphans' Court. Hence I am familiar with the practice of this branch of the law, and with the conduct of business in such office and court.

Also I represented our county for 8 years in both branches of our New Jersey State Legislature, having been for 3 years a member of the House of Assembly and State Senator for 5 years. In my work in the Legislature, I was always in sympathy with every movement to better the condition of the whole people, and every measure framed for honest, economic government. Equal taxation and other needed reforms always received my earnest, honest support. My legislative record in an open book, and proves my real and valuable service to the people as a whole and especially to my constituents in my home county whose interests were ever foremost with me. Having served the people so long and faithfully in the office of small emoluments, I believe that I may with good grace and without any feeling of selfishness, in this more substantial office which my qualifications and experience will enable me to fill with entire satisfaction to the people of the county and others.

If nominated and elected, I promise a faithful, efficient, economical and business-like administration of the office, to the greatest interest and advantage of the people.

Respectfully submitted,

BLANCHARD H. WHITE.

Ordered and paid for by Blanchard H. White.

Baseball

The Field Club's standing in the Central League of Burlington County, which it joined last week, is now .000. That's the same as it was last week with one difference. There's one game against the locals which will have an effect on the percentage when games won are balanced against it.

The victors in the opening of the league series on the local grounds were the U. S. C. & P. & P., all of which stands for a certain foundry in Burlington which certainly has a lot of good ball players on its payroll.

This team led the league in the first half of the season, nevertheless the locals should have beaten them, according to the same old story. The score was 6 to 4 and half of the visitors' failures were unearned, while the Field Club batted out theirs.

Apparently too much excited over the fact that it was the first league game, Captain L. P. & P. was unusually brilliant and steady at shortstop, made a couple of critical errors, and even reliable old Herbie Kemmerle dropped a fly in right.

The locals batted well, getting 11 hits to Burlington's 9.

Babe Flynn pitched a great game throughout and proved especially effective in keeping full control of the ball even when he lost his temper at the umpire. He struck out 12 men to his opponent's 6, and deserved to win the game.

The scoring ceased at the fourth inning, but not the interest in the game. Almost every inning thereafter saw men on bases, sometimes they were forced, but snappy ball playing on both sides and a double play by the Field Club cut off all runs.

Wac Twing hit safely three times, and walked once out of five times up. The all round work of Van Amburg should give him a regular berth. He is needed, his stick work being especially effective.

Wednesday evening a game with the Riverton Field Club was the weirdest thing pulled off here for years. The visitors made 12 runs in the first and one in the second. Then Alia, some believe that Eliza, generally believed to be a derivative of Elizabeth is this missing form. For proof of Alia as the representative of Adelgia, the Liber Vitae of Durham records the changes in Adelgia from the first noble lady of that name, who laid her gifts upon the altar. By contraction it became Adelgia and Alia.

The talismanic stone of Alia is the Alexandrite, a Russian gem. It is found in the emerald mines of that nation, being of a beautiful green shade which changes to columbine red. The Russians believe it brings great good fortune. When the subject of its favorite's dream it signifies hope. Monday is Alia's lucky day and seven her lucky number. Her flower is the white hawthorne, a beautiful bud.

CODE OF HONOR FOR STATE POLICE

More Than One Thousand Seek
to Become Troopers in New
Jersey Constabulary.

ORGANIZED IN SEPTEMBER

Urges Farmers Co-operate in Avoiding
Waste—Frellinghuysen, Host to
Agriculturists, Discusses
Marketing.

Trenton, — Colonel H. Norman Schwarzkopf, superintendent of the state constabulary, has forwarded to the thousand applicants for appointment as troopers detailed instructions for their guidance concerning enlistment in the state police. Included in the personal letters sent to the world be policemen are six questions to be answered by the applicants.

Men of the highest type are required, said the colonel, and you may apply the following test to yourself as a preliminary examination:

Can you disregard partisan criticism?

Are you willing to face death in the performance of your duty?

Are you physically able to undergo strenuous training and unusual hardship in the performance of your duty?

Have you sufficient self constraint to control yourself when you are personally insulted or assaulted in the performance of your duty?

Would you, as a police officer, enforce the law regardless of class or color?

Will you recognize the upholding of the honor and the reputation of this organization as your highest duty?

Colonel Schwarzkopf also sets forth in detail the plan of organization of the department, which will consist of two troops, each made up of a captain, a lieutenant, one first sergeant, four sergeants, four corporals, 44 privates, a saddler, horse-shoer and mechanic.

With the exception of the commissioned officers and first sergeants, all men will be enlisted as privates and will retain that rank until the termination of the training period.

Although under the law men between the ages of twenty-one and forty will be eligible for appointment to the department, preference will be given applicants between the ages of twenty-five and thirty-two, and applicants will be required to pass a rigid physical and mental examination.

Organization in Fall

A skeleton organization of the constabulary will be completed probably during next September. Colonel Schwarzkopf has authority to recruit the organization at his discretion. An appropriation of \$200,000 became available July 1.

The state purchasing department will equip the two cavalry troops within 48 hours after receipt of requisitions.

Colonel Schwarzkopf has been promised motor equipment by the war department. Horses will be personally selected by the superintendent.

Details of organization as outlined by Colonel Schwarzkopf follow:

"The force will consist of two troops, each consisting of one captain, one lieutenant, one first sergeant, four sergeants, at an annual salary of \$1,400; four corporals, at an annual salary of \$1,300; one saddler, one horse-shoer and one mechanic, each with the rank and pay of a corporal, and 44 privates, at an annual salary of \$1,200.

"With the exception of commissioned officers and first sergeants all men will be enlisted as privates and will retain that rank until the termination of the training period. During the training period temporary non-commissioned officers will be made, and as far as possible each man will be tested in some non-commissioned grade. At the termination of the period of training permanent assignments to the non-commissioned grades will be made, and selections will be based on the qualifications and ability displayed by those promoted during the course of training.

"The law requires that no person shall be appointed unless he shall be a citizen of the United States, of good health, good moral character, between the ages of twenty-one and forty (preference, however, will be shown the men between the ages of twenty-five and thirty-two). The law further requires that enlistments be for a period of two years and that voluntary withdrawal without the consent of the superintendent of state police shall be a misdemeanor and that troopers removed for cause, after a hearing, shall be ineligible for reappointment. The law further requires that preference be given to residents of the state.

"All men will be enlisted on probation for six months on full pay, when, if their service is satisfactory, the period of enlistment will be extended to complete the two years.

"The duties will be principally mounted patrol work, day and night, enforcing the state laws and such other duties as may be ordered.

"Applicants will be required to pass a rigid physical and mental examination; they are required to be over five feet six inches in height and proportionate in weight, and they must indicate mental qualification sufficient to comprehendively study such subjects as may be required, including criminal law, police manuals, drill regulations, care of the horse, equitation, etc. They should bring to the examination at least three letters of recommendation as to moral character, discharge certificates, etc."

Field Day at Raritan

Farmers and their wives and not a few young folks from all parts of the state gathered for the annual field day of the State Board of Agriculture at the home of United States Senator Joseph S. Frellinghuysen, near Raritan.

In his address President Frellinghuysen, reviewing the work of the state board for the year, called attention to its achievements for the benefit of the farmers of the whole state and laid especial emphasis upon the value of co-operative buying and selling as the greatest measure for economy and progress that could be suggested. He stressed the necessity of grading farm

products according to a standard grade in order to conserve waste in distribution and to obviate the "dumping" of products of unknown quality upon consumers; also advocated the creation of single selling agencies for single products, the establishment of which would save the duplication of transportation and other charges.

In commenting upon the elimination of the "middleman" in the sale of farm products Senator Frellinghuysen stated that through the help of the newspapers, women's organizations and chambers of commerce, producer and consumer have been brought face to face. In this work, said the senator, the establishment of curb markets in various cities by the Bureau of Markets of the state department of agriculture has also played a part. Through conference between the railroad companies of the state and the Bureau of Markets, it was said, transportation facilities have been improved, and special trains have been run so that perishable articles could reach the markets on time.

Of the work of the state department of agriculture the senator said it was "a demonstration of the farmer's ability to organize and to maintain a department of the state government that is outside of the realm of partisan politics. This is no mean accomplishment. Many states have tried and failed. New Jersey's chosen representatives of county boards of agriculture, Pomona granges and our many state wide organizations, such as the State Horticultural Society, elect a State Board of Agriculture, and this board guides the work of the department. Thus we have always a service institution for the entire state. It is no mean accomplishment of the State Board of Agriculture that we have a department whose record of economy and efficiency has caused the Appropriation Committee of the state legislature to grant practically every item as placed in the department's budgets."

Fare Decision Final

The decision of the Public Utility Commission authorizing the Public Service Railway Company to put into effect an increase of from 1 to 2 cents in the charge for each transfer issued on the company's system, while retaining the straight fare at 7 cents, is in accordance with the ruling of the supreme court directing that a just and reasonable rate be fixed, it was announced by the Utility Board.

The board issued a report supplementing its decision, just announced, disposing of an increased rate based upon the valuation of its physical property devoted to the service of the public. In this decision the board directed the company to continue its fare of 7 cents and to charge 2 cents for a transfer where 1 cent now is charged. This schedule the commission has decided also shall serve as "the just and reasonable rate" which the supreme court recently ordered the board to establish in order that the alleged straitened financial circumstances of the Public Service be relieved.

Referring to Justice Bergen's opinion directing the board to allow a higher rate of fare, the Utility Commission in its statement said:

"While the board has appealed from the decision of the supreme court, no stay of its order directing an increase could be obtained because of the impossibility of conveying the court of errors to sit thereon. The order of the supreme court is therefore in effect and must be obeyed. All of the testimony in this case was also considered in the valuation case decided contemporaneously herewith.

"We therefore find and determine upon the evidence before us that the allowance of 2 cents for a transfer instead of 1 cent now charged will be in connection with the company's existing charges a just and reasonable rate and a compliance with the order of the supreme court.

"We have borne in mind this order of the supreme court in endeavoring to arrive at a just and reasonable rate in deciding the valuation case decided simultaneously herewith and have also considered in that case all the evidence produced in this case."

Jersey Collects on San

The state department of commerce and navigation in the past year has collected fees aggregating \$328,253.11, representing returns from grants, licenses, easements and land royalties.

The principal item of the receipts for the year, which ended June 30, is \$388,448.10 received from land grants.

The state entered into leases for riparian lands valued at \$1,500,125, upon which a rental of 7 per cent annually is levied. The largest lease of riparian rights ever made in the state was effected when the Luckenbach Terminal Company was granted rights in the Hudson river valued at \$1,250,000.

From sand taken from the bed of the Delaware river the state collected royalties amounting to \$12,535.65. These represent a new source of revenue. At present five dredging companies are operating in the river, and the state receives 2 cents a cubic yard for all material removed.

Violent Thunderstorms in India.

Indian thunderstorms are notoriously violent, though comparatively harmless. According to Mountstuart Elphinstone, the setting-in of the monsoon in India is accompanied by such an electric convulsion "as can scarcely be imagined by those who have only seen that phenomenon in a temperate climate. It generally begins with violent blasts of wind, which are succeeded by floods of rain. For some hours lightning is seen almost without intermission; sometimes it only illuminates the sky and shows the clouds near the horizon; at others it discovers the distant hills, and again leaves all in darkness, when in an instant it reappears in vivid and successive flashes and exhibits the nearest objects in all the brightness of day. During all this time the distant thunder never ceases to roll and is only silenced by some nearer peal, which bursts on the ear with such a sudden and tremendous crash as can scarcely fail to strike the most insensible heart with awe."—Scientific American.

So Fast We Age.

Another thing that startles a man as he gets on in life is how young boys and girls can be and still call one another Mr. and Miss.—Ohio State Journal.

ORDINANCE

AN ORDINANCE providing for the regulation of the operation of Auto Buses, commonly called jitneys, in the Borough of Riverton, and providing for the licensing of the same.

BE IT ORDAINED by the Borough Council of the Borough of Riverton, as follows:

SECTION 1. The words "auto bus" as used herein shall mean and include any automobile or motor bus, commonly called jitney, which shall have a capacity of seven or more passengers, engaged in the business of carrying passengers for hire which is held out, announced or advertised to operate or run, or which is operated or run, over any of the streets or public places in the Borough of Riverton, and indiscriminately accepts and discharges such persons as may offer themselves for transportation, either at the terminal points along the way or route on which it is used or operated or may be running.

SECTION 2. The word "person" as used herein shall mean and include any individual, co-partnership, association, corporation, or joint stock company, their lessees, trustees, or receivers appointed by any court whatsoever.

SECTION 3. The word "street" as used herein shall mean and include any street, avenue, park, parkway, highway or other public place.

SECTION 4. It shall not be lawful for any auto bus or jitney to be operated upon any street or highway or partly in the Borough of Riverton until the owner thereof shall have obtained a license for that purpose from the Borough Clerk as hereinafter provided. Such license shall be issued to the owner of such auto bus or jitney for operation thereof by the said owner or by his agent or servant duly accredited by such owner for that purpose, and such license shall not be deemed to authorize the operation of any auto bus by any lessee or person other than the owner or his duly accredited agent or servant.

Such license shall not be issued except upon compliance by the owner of any auto bus with the following conditions:

There shall be filed with the Borough Clerk an application which shall contain the name of the owner, his age, residence and business address, if any, and a request for permission to operate the auto bus for which the application is made. It shall also contain a statement of the character and estimated value of the auto bus, the said auto bus, State license number and maker's number of its engine; it shall also definitely state whether said auto bus is to be operated by the owner personally or by agents or servants duly accredited by such owner or both.

No person shall be licensed to operate an auto bus unless he shall be a citizen of the United States, at least twenty-one years of age, or a corporation duly incorporated under the laws of New Jersey to operate auto-buses.

No person shall be licensed to operate an auto bus, as hereinafter provided, until he shall have been duly licensed to operate a motor vehicle by the State Department of Motor Vehicles.

The Borough Clerk, upon receiving such application and upon finding that the applicant has been duly licensed to operate a motor vehicle by the State Department of Motor Vehicles, shall immediately investigate the merits of said application and shall thereupon issue a license to such applicant to operate such auto bus in person or by his duly accredited agent or servant, upon his complying with the provisions heretofore stated and Section 5 of this ordinance and upon the payment of the license fee provided in Section 12.

Said license shall bear the date of issue, and shall be in force and effect until the end of the calendar year during which it was issued. Such license shall further contain the name and address of the owner, and the street or streets over which permission to operate is granted and the territory between which said auto bus may operate, the State license number and maker's number of engine of the auto bus and the number of persons who may be carried at one time, as stated in the application.

No such license shall be issued until the owner shall also have filed with the Borough Clerk an agreement whereby he shall bind himself, his agents and servants to operate said auto bus only upon such street or streets as is or are set forth in said license; that he will not carry at any one time more passengers than the number mentioned in his license; that he will not permit said auto bus to be operated except by a person satisfactory to the Borough Clerk, according to the restriction of operations provided by this ordinance, and that he, his agents or servants operating such auto bus will comply with the regulations hereinafter provided for the operation of auto-buses in the streets of the Borough of Riverton, and that said license may be revoked by Borough Council upon his failure to do so.

SECTION 5. No such license shall become effective and no operation of such auto bus shall be permitted until the owner of such auto bus shall have complied with the following requirements:

(a) He shall file with the Borough Clerk an original insurance policy or certificate therefor by a responsible and responsible company satisfactory to the Borough Council licensed to transact business under the laws of the State of New Jersey in the sum of not less than Ten Thousand Dollars (\$10,000.00) against loss from the liability imposed by law upon the auto bus owner for damages on account of bodily injury or death for any one person and for the sum of not less than Twenty Thousand Dollars (\$20,000.00) for more than one person by reason of any one accident and in the sum of not less than One Thousand Dollars (\$1,000.00) for property loss or damage suffered by any person or persons as the result of an accident occurring by reason of the ownership, maintenance or use of such auto bus upon the public streets of the Borough of Riverton, and such license shall continue effective and such operation be permitted only as long as such insurance shall remain in force.

Such insurance policy shall provide for the payment of any final judgment or award recovered by any person or account of the ownership, maintenance or use of such auto bus or of any fault in respect thereto, and shall be for the benefit of every person suffering loss, damage or injury as a result of any accident occurring by reason of the ownership, maintenance or use of such auto bus.

(b) He shall execute and deliver to the Borough Clerk concurrently with the filing of the policy or certificate hereinafter referred to, a power of attorney wherein and whereby he shall nominate, constitute and appoint the said Borough Clerk his true and lawful attorney for the purpose of acknowledging service of any process out of a court of competent jurisdiction to be served against insured by virtue of the indemnity granted

under the insurance policy or certificate filed.

SECTION 6. Any such license may be revoked by the Borough Council, after notice and hearing whenever it shall appear that the person to whom such license was granted has failed to furnish and keep in force the insurance and the power of attorney herebefore required or to comply with any of the terms of this ordinance.

SECTION 7. Any person to whom a license has been granted to operate an auto bus over any of the streets of the Borough of Riverton shall register with the Borough Clerk the name of each and every driver before permitting him to operate the said auto bus.

The holder of any license may substitute one car for another under the provisions of this ordinance, but before doing so, a description of such car shall be filed with the Borough Clerk, and the necessary changes made in the insurance policy so as to cover the new car.

No transfer of any license or permit granted under this ordinance shall be made without first applying to the Borough Clerk, and upon such transfer being made it shall be the duty of the Borough Clerk to see that the necessary changes are made in the insurance policy or certificate so as to cover the new owner.

SECTION 8. Every auto bus for the operation of which a license shall be granted, as herein provided, shall bear prominently displayed within it, a placard issued by the Borough Clerk bearing the number of such license and the route for which the license has been granted with the fare to be charged, and the capacity of said auto bus as stated in said license.

SECTION 9. It shall be unlawful to drive any auto bus when any passenger is standing on the running board, fender, mud-guard, or back thereof, or while any passenger is riding on said auto bus outside the body thereof, or in such manner as to obstruct the view of the driver, or to interfere with the discharging or taking on of passengers by any trolley car or other vehicle.

The door of the said bus shall be closed at all times when bus is in motion.

SECTION 10. It shall be unlawful for any person to operate or drive an auto bus on any street or highway covered with rain water, snow or ice unless the rear wheels thereof be equipped with non-skid tires or with skid chains, or with safety devices for use in operating said vehicles.

Every auto bus operating on the streets of the Borough shall be thoroughly clean and ventilated at all times, and the interior of the same shall be properly lighted and heated.

SECTION 11. No fare shall be collected on said auto bus, or no passenger shall be received or discharged by the driver thereof while such auto bus is in motion.

SECTION 12. The license fee for operating each auto bus, as herein provided, shall be Fifty Dollars, payable at the time said license is issued, except where such license is issued on or after September 1st in any year, in which case one-half of the fee shall be charged. Such fee is imposed for the purpose of revenue.

All license fees shall be paid to the Borough Clerk.

SECTION 13. No person shall smoke, strike matches, carry lighted cigars, cigarettes or pipes while riding in or driving any vehicle used for the transportation of passengers for hire.

SECTION 14. It shall be unlawful to allow any auto bus to be parked on any street within the limits of the Borough of Riverton, or to remain standing on any of such streets, except for the purpose of promptly receiving and discharging passengers, or in such cases where breakdown, accident or circumstances beyond the control of the driver of said auto bus necessitates the stopping of the vehicle for a longer time.

SECTION 15. Any person violating any of the provisions of this ordinance shall be subject to a fine not exceeding Twenty-five Dollars for the first offense, and Fifty Dollars for each subsequent offense.

SECTION 16. If any section, clause or provision of this ordinance shall be adjudged invalid, such adjudication shall apply only to the section, clause or provision so adjudged to be invalid and the rest of this ordinance shall remain valid and effective.

This ordinance shall take effect immediately.

under the insurance policy or certificate filed.

SECTION 6. Any such license may be revoked by the Borough Council, after notice and hearing whenever it shall appear that the person to whom such license was granted has failed to furnish and keep in force the insurance and the power of attorney herebefore required or to comply with any of the terms of this ordinance.

SECTION 7. Any person to whom a license has been granted to operate an auto bus over any of the streets of the Borough of Riverton shall register with the Borough Clerk the name of each and every driver before permitting him to operate the said auto bus.

The holder of any license may substitute one car for another under the provisions of this ordinance, but before doing so, a description of such car shall be filed with the Borough Clerk, and the necessary changes made in the insurance policy so as to cover the new car.

No transfer of any license or permit granted under this ordinance shall be made without first applying to the Borough Clerk, and upon such transfer being made it shall be the duty of the Borough Clerk to see that the necessary changes are made in the insurance policy or certificate so as to cover the new owner.

SECTION 8. Every auto bus for the operation of which a license shall be granted, as herein provided, shall bear prominently displayed within it, a placard issued by the Borough Clerk bearing the number of such license and the route for which the license has been granted with the fare to be charged, and the capacity of said auto bus as stated in said license.

SECTION 9. It shall be unlawful to drive any auto bus when any passenger is standing on the running board, fender, mud-guard, or back thereof, or while any passenger is riding on said auto bus outside the body thereof, or in such manner as to obstruct the view of the driver, or to interfere with the discharging or taking on of passengers by any trolley car or other vehicle.

The door of the said bus shall be closed at all times when bus is in motion.

SECTION 10. It shall be unlawful for any person to operate or drive an auto bus on any street or highway covered with rain water, snow or ice unless the rear wheels thereof be equipped with non-skid tires or with skid chains, or with safety devices for use in operating said vehicles.

Every auto bus operating on the streets of the Borough shall be thoroughly clean and ventilated at all times, and the interior of the same shall be properly lighted and heated.

SECTION 11. No fare shall be collected on said auto bus, or no passenger shall be received or discharged by the driver thereof while such auto bus is in motion.

SECTION 12. The license fee for operating each auto bus, as herein provided, shall be Fifty Dollars, payable at the time said license is issued, except where such license is issued on or after September 1st in any year, in which case one-half of the fee shall be charged. Such fee is imposed for the purpose of revenue.

All license fees shall be paid to the Borough Clerk.

SECTION 13. No person shall smoke, strike matches, carry lighted cigars, cigarettes or pipes while riding in or driving any vehicle used for the transportation of passengers for hire.

SECTION 14. It shall be unlawful to allow any auto bus to be parked on any street within the limits of the Borough of Riverton, or to remain standing on any of such streets, except for the purpose of promptly receiving and discharging passengers, or in such cases where breakdown, accident or circumstances beyond the control of the driver of said auto bus necessitates the stopping of the vehicle for a longer time.

SECTION 15. Any person violating any of the provisions of this ordinance shall be subject to a fine not exceeding Twenty-five Dollars for the first offense, and Fifty Dollars for each subsequent offense.

SECTION 16. If any section, clause or provision of this ordinance shall be adjudged invalid, such adjudication shall apply only to the section, clause or provision so adjudged to be invalid and the rest of this ordinance shall remain valid and effective.

This ordinance shall take effect immediately.

High-grade Gas and Electric Appliances

Here's an answer to the hot water question. A tank water heater will heat enough water for a bath in fifteen minutes, plenty for the dishes in five.

Our copper-coil heaters are the best on the market.

\$27.55 upward, connected

We also

strongly recommend the automatic storage water heater. Plenty of hot water at all times. These heaters last long and cost little for maintenance.

\$158.41 upward.

The automatic instantaneous type heats water at the turn of a faucet. Always all the hot water you need.

\$251.75 installed.

The Direct Action Lorain is the wonderful gas range that will cook fruit and vegetables without special attention. No special equipment required. Simply place jars in oven and set the Lorain Oven Heat Regulator.

Ask about our special 30 day free trial offer. Semi-enamel range. Delivered, \$94.85 cash.

Furnished with push button lighter and installed from kitchen outlet. Special, \$99.95.

Special value! The patented ventilated Eclipse oven minimizes food shrinkage and saves gas. Fresh heated air is constantly passing through during cooking process. A remarkable range—white enamel door panels, pans and burner handles. Special price \$58 cash, delivered. Furnished with push button lighter and installed by our expert gas fitters at small additional cost.

Convenience

is of first importance these days. Now's the time when you should have every appliance that will make work lighter, make you more comfortable. Our high-grade gas and electric household appliances are ready to serve you. Many of them are exclusive with us.

Big bills for "extra" washing? Blankets, curtains, bath mats, rag rugs and many other articles can not be included in your regular laundry list. They must be cleaned separately at additional cost.

The Thor Washer will clean them all beautifully. Thor-cleaned, they last longer.

The Thor does all the household wash. Has an all-metal swinging wringer, is in every respect a splendid labor-saving machine.

The Thor Washer is the lowest priced among high-grade machines. \$133 cash. On convenient terms, \$140 for No. 25, the average family size. Others range in price according to size.

Big Helps

A Hoover Cleaner.

A Lorain Oven Heat Regulator Gas Range.

An Electric Dish Washer.

A Storage Gas Water Heater.

Little Helps

A Gas "Iwantu" Iron.

An Electric Grill.

A Gas Toaster for the kitchen.

An Electric Toaster for the table.

Waffle Irons, either gas or electric.

These are only a few of the many helps, little and big, that we can furnish you. Come in and see these labor-savers.

The Fan's the thing during hot weather. In nursery, sleeping room, living room, dining room or office, an electric fan insures comfort, safeguards health. General Electric and Westinghouse makes.

Shirts, dresses, ruffled things may be ironed by the Thor. It's the machine that really takes the work out of ironing day.

\$142.50 cash. \$150 on convenient terms.

Not less, but softer light is given by electric lamps. An appropriate lamp on the porch gives a pretty touch of "hominess" to your summer living room. Whether it be a table, desk or floor lamp, you will find a beautiful assortment here.

These lamps are notable for fine material, artistic design, charming light effects.

Sunday School Lesson

By REV. F. B. FITZWATER, D. D.,
Teacher of English Bible in the Moody
Bible Institute of Chicago.
(C. 121, Western Newspaper Union.)

LESSON FOR JULY 31

SAUL TEACHING AT ANTIOCH.

LESSON TEXT—Acts 11:19-30.
GOLDEN TEXT—A whole year they
assembled themselves with the church,
and taught much people.—Acts 11:26.
REFERENCE MATERIAL—Acts 6:8;
1 Tim. 3:2; II Tim. 2:2.
PRIMARY TOPIC—Carrying Help to
Jerusalem.
JUNIOR TOPIC—Saul Helping Others
in the Christian Life.
INTERMEDIATE AND SENIOR TOPIC
—Entering Upon a New Career.
YOUNG PEOPLE AND ADULT TOPIC
—A Year's Teaching in Antioch.

When God was about to launch the
missionary enterprise among the Gen-
tiles, He arranged for a new religious
center. Antioch was admirably
adapted for such a center. The upper
classes were Greeks and used the
Greek language. The government
officials were Romans and used the
Latin tongue. While the masses were
Syrians, sprinkled among them were
Jews who had come for commercial
purposes; also travelers from all parts
of the world were in evidence.
I. A Religious Awakening at Antioch
(vv. 19-21).

1. The occasion (v. 19a). The per-
secution at Jerusalem scattered the
disciples abroad. This God permitted
in order to separate them from the
home people at Jerusalem.

2. The preachers (v. 19a). They
were ordinary men and women, not
officials, but they were filled with the
yearning desire for lost souls and
witnessed of the Lord Jesus in the
power of the Holy Ghost.

3. What they preached (vv. 19b,
20). They preached the "Word" and
the "Lord Jesus." All who preach the
Word will preach the Lord Jesus;
for He is its center. The real reason
why there are not conversions today
is the failure of ministers to preach
the Word.

II. Barnabas Sent to Inspect the
Work at Antioch (vv. 22-24).

This was a wise selection.
1. The character of Barnabas (v.
24). He was a good man. It is
highly important in sending a man
to follow up a work of the Spirit that
his character be good. He not only must
be of an unblemished character, but
his sympathies must be broad. He
must be capable of entering into full
appreciation of the things about him.
Much mischief often results from
sending injudicious men to look after
the Lord's work. He was full of the
Holy Spirit. This is an essential
qualification for pastoral work. Only
a Spirit-filled man can appreciate the
workings of the Spirit of God. He
was also a man of great faith.

2. Work done by Barnabas (v. 23).
He gladly endorsed the work and
earnestly exhorted them to steadfastly
continue in the faith, clinging unto
the Lord. There are many allurements
to tempt young Christians. The re-
joicing of Barnabas shows that he
was a man who could rejoice in the
work of others. He did more than
inspect the work; for many people
were added unto the Lord. Doubt-
less he preached.

III. Barnabas Brings Saul (vv. 25,
26).

The work grew to such an extent
that help was needed. Barnabas had
the good judgment to seek Saul for
this important work. Barnabas knew
that the bringing of Saul would mean
his taking a secondary place. It is
the duty of Christian leaders to seek
out men who are qualified for the
Lord's work and bring them from their
places of obscurity, setting them to
work in the Lord's vineyard. There
are many men in obscurity who it
requires a Barnabas to bring forth.

IV. The Disciples First Called Chris-
tians (v. 26b).

They were not called Christians in
derision, as is so often asserted. It
was a consequence of Saul and Bar-
nabas teaching there for a year that
they were called Christians. The name
was a consequence of the teaching. In
all Saul's teaching he showed the
unique relation which the Christian
sustains to Christ. Since the body
closely resembles its head, Christ, they
were called Christians.

V. The Church at Antioch Sends Re-
lief to Jerusalem (vv. 27-30).

The Holy Spirit through Agabus
made known a great dearth through-
out the world. This came to pass in
the days of Claudius Caesar. Every
man according to his ability deter-
mined to send relief unto the brethren
which dwelt in Judea. They made up
money for the poor saints at Jerusalem
and sent it by the hands of Barnabas
and Saul. This act not only proved
the genuineness of the work at An-
tioch, but it emphasized the fact that
there is no division between Jew and
Gentile.

Christ's Blessing.

From Heaven Christ sends down a
blessing. He communicates His na-
ture to us, and so we learn how we
are to live, and how we are to let
Him live in us; and we see somewhat
of what we might be if we had faith,
and hope, and love, to bear the weight
of the glory.—H. Munsell.

Where Love Reigns.

"The best way to cultivate love in
your heart is to enthroned Jesus there
—for He is love, and, where He is,
love reigns."

THE NEW ERA

Published every Friday at
RIVERTON, N. J.WALTER L. BOWEN
Editor

The New Era is devoted to the business and home interests of Riverton and Palmyra, independent of political or religious belief—the people's paper.

Subscription \$1.50 a year in advance

Advertising rates on application

The New Era Office is equipped to do all kinds of Fine Printing at reasonable prices

LEGAL ADVERTISEMENTS

The New Era is a Legal Newspaper. Commissioners, Sheriff's and other Sales, Administrators' and Executors' Notices, as well as all other Legal Advertisements are solicited. The New Era will appreciate being remembered in this connection.

Notice

All readers or local notices of entertainments, suppers, fairs, dances, etc., given for the purpose of raising money, or for which admission is charged, will be charged for at the rate of fifteen cents a line.

Monument Memorial Organization

A large attendance at an informal meeting of citizens rewarded the efforts of a few few wires who met in Collins hall last evening, to discuss the question of erecting a suitable memorial to the service men engaged in the World War.

The organization was accomplished quickly by the election of William R. Lynch as chairman and Walter A. Armstrong as secretary.

The unanimous opinion of those present was that a monument should be erected, the necessary funds to be secured by popular subscription.

A location committee was appointed to report at the next meeting suitable sites. Walter C. Wright, John F. Flynn and Joseph E. Keating will be in charge of that work.

A publicity committee was also appointed. The meeting adjourned to meet again next Thursday, August 4th, at 8:30 p. m. in Collins hall. Everybody invited—yes, urged to be present to help do justice to those who answered the call of their country.

Ferry Company Will Advance Money for Concrete Road

The following letter indicates that the Ferry Company means business and should inspire the confidence of the public:

July 22, 1921.
Mr. Frederick Lippincott,
Chairman Board of Freeholders
of Burlington County,
Moorestown, New Jersey.

Dear Sir:
I am writing you to say that, at a meeting of the Board of Directors of the Tacony-Palmyra Ferry Company, held this afternoon, the following resolution was passed:

Resolved: That we agree to advance to the Board of Freeholders of Burlington county, ten thousand (\$10,000) dollars, to be used to construct a concrete road on Cinnaminson avenue between Broad street and Bank avenue, this money to be returned to the ferry company, if the ferry is constructed; the freeholders to retain the money, if the ferry is not constructed.

Yours very truly,
Tacony-Palmyra Ferry Co.
(Signed) Wm. Miller.

The Storm

An electrical and wind storm of unusual severity struck Riverton and vicinity late Tuesday afternoon.

Harold Thompson, who is a member of the U. S. Laboratory camp near Westcott's farm, was struck by lightning and his right eye injured. He was brought to the home of Hudson Hullings that he might have better care, and the eye is now considerably improved, although sensitive to the light. Another man who was in the same tent had his arm injured.

Several large trees were blown down and many others had their tops torn off by the wind. One fell across the roof of the house of J. R. Naisby, breaking a couple of windows; another tore the screens down on the front porch of Carl Weber's house.

The chimney on a new house on Linden avenue was blown down, fifteen minutes after the laborers had finished their work and descended. The trees and branches which were on the houses and in the way of traffic were removed Tuesday evening by the Riverton fire company.

A large tree in front of Samuel Plumly's house on Broad street was blown down across the road and took the trolley wires down with it, which delayed trolley traffic for about half an hour.

The damage to the Dreer plant at Riverton and their "Locust" farm on the Riverton road is roughly estimated at about \$5000. About twelve hundred hotbeds at Riverton were totally destroyed, some of them which were on the hotbeds on the north side of the railroad, were carried across the tracks by the wind.

East Riverton Notes

Mr. Jones, of Philadelphia, has bought the Irland property and moved in.

Charles Bell is having his house remodeled.

Andrew McIlhenny took a trip in the aeroplane last Saturday.

Mr. and Mrs. John Stratton took a trip to Atlantic City last Thursday.

Miss Helen Weber celebrated her thirteenth birthday on Monday evening with a party.

Miss Esther Sitzer is spending a week in Philadelphia.

Mrs. James Salsbury was visiting in Bristol on Tuesday.

Mrs. Arthur Sidow is visiting at Newton, Pa., at the home of her brother-in-law, Fred Church.

Mrs. Anna D. Hauser, of Camden, is visiting her sister-in-law, Mrs. E. M. Everingham.

William Lanagan is home on a visit.

What Has Been Your Experience?

A man said the other day at the office, when we showed him the fountain pen with the little red pump handle, "Well, that's something like I never bought a self-filling pen because I didn't like the idea of that soft rubber sac." Advertisement

WEEKLY NEWS BUDGET for Riverton and Vicinity

Buy It at Home!

Harry E. Davis and family are at Atlantic City.

Mr. and Mrs. Ralph Flower are at Strathmere.

Mr. and Mrs. G. W. Smith, Jr., are at Newport, R. I.

Mrs. Nellie Cavanaugh has returned home from Palmer, Mass.

Miss Jean Klenckli is spending two weeks at Atlantic City.

Oliver G. Willis spent Sunday in Atlantic City with his family.

Mr. and Mrs. Emerson Wolfshmidt spent Sunday in Indian Mills.

Mr. and Mrs. W. F. Bilyeu are spending two weeks at Nahasset.

Miss Mae Burns leaves tomorrow for a two week's stay at Atlantic City.

Mr. and Mrs. J. D. Eisele will leave on Tuesday for a trip to Los Angeles, Calif.

Mrs. C. A. Fetterman is entertaining her mother and sister from Mount Carmel.

Mrs. Fannie Reeves is spending the week with her sister, Mrs. Oakley, at Avon, N. J.

Miss Helen Wood returned on Thursday after spending two weeks at Longport.

Mr. and Mrs. John C. Geiss and family are at Avalon for the balance of the summer.

Mr. and Mrs. W. F. Bilyeu and Mr. and Mrs. H. L. Randall motored to Atlantic City on Tuesday.

S. H. Young has taken a cottage at Avalon, where his family will spend the remainder of the summer.

Mr. and Mrs. William F. Frank, of Thomas avenue, will spend the week-end with friends in Baltimore.

See Wolfshmidt's ad in this issue. Three barbers. No waiting. Quick service.

Mr. and Mrs. Arthur Bowker and Mr. and Mrs. George Watson will spend the coming week at Stone Harbor.

Jack Hughes, Walter Armstrong, Warren Irwin and Dick Armstrong were on a fishing trip to Tuckerton on Sunday.

Lawton Steele is planning to spend the next two weeks motoring through New York State with a number of friends.

Mr. and Mrs. L. A. Flanagan have returned after spending ten days at Seaside Park, as guests of Mr. and Mrs. J. B. Howell.

Both eating and cooking apples can be obtained at the Cold Storage Plant at ten cents per basket and up. —Advertisement.

Robert Biddle, president of board of trustees of the Riverton Free Library, reports the offer of another \$1000 for the endowment fund of the library. This is contingent upon raising \$1000. Who will be the next?

New Jersey is preparing to wage a fight to save the shad industry by halting the pollution of nearby waters by oil tankers and factories. The shad season just closed has been the poorest in netting history of the Delaware river has aroused fishermen to seek legislation at Trenton next winter to check the pollution of public waters and its consequent destruction of a great source of food supply.

Organists who wish to better their positions, have the opportunity of competing for a free scholarship in the Guilman Organ School of New York City for a year. City Chamberlain and Mrs. Philip Berolzheimer offer four free scholarships to deserving young men and women eighteen years of age and over, who possess the necessary talent, but are without funds to pay the tuition. Application must be made in writing, and full information may be obtained as to the requirements, by addressing Dr. William C. Carl, Director of the Guilman Organ School, 17 East Eleventh Street, New York City. The list will be open until October 1st.

Three Killed Near Roebling by Trolley Car

Two women and one man were killed and another man injured when a trolley car of the Public Service Railway Company struck an automobile near Day's crossing, above Roebling, Sunday afternoon. The accident occurred near the scene of a recent collision of trolley cars, when one man was killed and a score injured.

The dead are: Miss Nora McCue, aged 22, of Clarkson street, Burlington; Miss Marion Lawrence, aged 21, of York and Clarkson streets, Burlington; Edward Schwartz, aged 24, of Riverside; Harry Stecher, of Riverside, received internal injuries and is in a serious condition.

A new state highway is being built near the scene of the accidents and it is necessary for motorists. This detour is over a temporary dirt road, leading up the side of the new fill and at the top making a sharp turn to the left across the trolley tracks to the concrete highway.

According to Stecher, the survivor, the light coupe in which the four were riding had climbed the hill and was just turning across the tracks when the crash came. Schwartz, who was driving, apparently did not see the trolley car until a fraction of a second before it struck, and he had no chance to escape.

The impact wrecked the automobile and the victims were dragged forty yards before the trolley could be stopped. All three were terribly mangled.

Schwartz was a son of George S. Schwartz, of Riverside. He was employed in the piano business at Wilmington, Del., and the wrecked car was licensed in that state. When he returned to Riverside for the weekend he and Stecher and the young woman, who had long been friends, planned the brief pleasure trip. Both of the young men had friends in Riverton.

The bodies of the victims were removed to the homes of their parents. Both the young women's mothers are widows.

Have You Seen It?

Have you seen the fountain pen with the little red pump handle? If not, drop in at The New Era office and examine it. You will be surprised and probably pleased. You will place yourself under no obligation to buy, and there will be no importunity. If you do not need a pen now you may later on, and we want you to know about the greatest advance in writing since fountain pens were invented. —Advertisement

Hall Wins Ten-Mile Championship

The long distance national swimming championship of the United States last Saturday proved the best yet in the annals of the sport. Thirty-four famed swimmers had sent in their entry blanks to Chairman Charlie Durborow. At Race street wharf twenty-seven of them showed up and showed up and dived off, twenty-three of this number finishing the long grind. Except for a late start due to the fact that a portion of the Riverton fleet was a trouble getting to Race street, the swim went off like clock-work. There were enough pilots and boats to see that every one of the twenty-seven starters had his boat and pilot and there were launches enough to carry all the people interested in the race.

The Winsconsin Club kindly sent their two best power craft and five dories to our help, while the power craft of Commodore Edwards, McIlvaine Biddle and R. W. Knight represented the Riverton fleet.

It was a record for each minute of the 24 hours of the year and each day of the year, and is open for inspection of the public. This pressure of 56 lbs. is more than double the average in Philadelphia, but is not as high as that of most New Jersey towns and cities.

As the different sections of the company's territory vary greatly in height, this pressure of 56 lbs. at the pumping station will be less in the higher districts, so much so that the Company recently installed a centrifugal pump and electric motor at the tanks in order to increase the pressure in Cinnaminson township, due to the fact that some portion of Westfield is 50 to 60 feet higher than the gauge in the pumping station on the river bank, Palmyra.

Never before in the history of the Water Company has it been in a better position to furnish an adequate quantity of water for fire purposes. We now have installed two electric centrifugal pumps of 700 gallons per minute and also a gasoline driven pump of 900 gallons per minute capacity and wells capable of producing 4 millions gallons each 24 hours.

The writer has gone into the matter in detail in order to demonstrate that the Water Company has gone as far as it can to give proper fire protection and while we can and do supply water at 40 to 50 lbs. according to the height of the particular fire hydrant used is situated at a pressure equal to a head of 92.40 ft. and 115.50 ft., if no friction in hose or pipes were encountered, a condition that never exists when fighting a fire. Most authorities agree that the loss of pressure in each 100 feet of hose between the hydrant and nozzle equals 15 to 20% and when it is realized that we ordinarily fight with 8 or 10 lengths of hose, each of 50 feet, or 400 to 500 feet, it becomes manifest that in order to successfully fight a fire you will require a pressure of 100 to 125 lbs. at the hydrant in order to have 50 to 60 lbs. at the nozzle. It will be quite obvious that a pressure of 100 to 125 lbs. in the mains would subject the plumbing which enters homes to a pressure that would be impracticable, hence, it follows the only way to successfully fight a fire and insure 50 or 60 lbs. pressure at the nozzle, is to carry on the fire truck an auxiliary pumping outfit, preferably a centrifugal gasoline driven engine with a capacity of 500 gallons per minute at a pressure of 125 lbs. This apparatus would require 35 horse power plus 50% for friction and loss in the engine and pump or 52.5 horse power.

The writer would strongly suggest that some well known engineering company be invited to quote a price for such an apparatus that could be carried on the present fire truck or carried on a trailer and would in probability cost \$2000 or \$2500. In Philadelphia and other large cities where they use the water direct from the mains for fire purposes, those mains constitute a special fire service and are used for no other purpose.

Should Councils wish it, the Water Company would arrange to have one of the fire company's standard nozzles directly connected with one of our pumps so as to have 50 lbs. at the nozzle with unlimited flow which could enable the firemen to throw a stream over a smoke stack, this would graphically demonstrate the conditions required to successfully cope with a fire.

CHAS. A. WRIGHT, Pres.
Riverton & Palmyra Water Co.

Report of Bureau of Markets

The New Jersey State Bureau of Markets is co-operating with the local committees of the New Jersey State Federation of Women's Clubs and New Jersey League of Women Voters, and is furnishing Mrs. R. E. Corry, a member of the local branch of the League of Women Voters, and thrift chairman of the P. T. A., with prices of commodities in other sections, and the wholesale prices, that the housekeeper may have an intelligent understanding of the market.

One of the interesting things reported this week is ice cream, which is said to sell at wholesale from 25c to 40c per quart, and the consumer pays from 50c to \$1.00. Riverton's highest price is 80c. It is quoted by Montclair, and exceeded by Ventnor, where ice cream retails as high as \$1 per quart.

Ice cream is one of the best ways in which to consume milk during the hot weather, yet the price does not always induce one to buy. On the other hand for the past five months the large handlers of milk have faced a glutted market. Cooperation might be of benefit to all.

Better Than Either

Any self-filling fountain pen is better than the old kind you had to fill, usually with a medicine dropper. But it was soon discovered that while the self-filling pen with the rubber sac was more convenient, it lacked capacity. It held only a small portion of ink and was forever running dry. The pen with the little red pump handle has the virtues of both and the failings of neither. It fills automatically, but has no rubber sac, and the full barrel capacity is available for ink. Stop at The New Era office and see it. Advertisement

(Continued on third page)

Good-bye to the Rubber Sac!

The pen at the left is a rubber sac fountain pen. It holds only 25 drops of ink. The pen at the right is the marvelous Dunn-Pen. It holds several times as much ink as the rubber sac pen of the same size and you can pump it full in a jiffy.

The marvelous

DUNN-PEN

The Fountain Pen with the Little Red Pump-Handle. The Dunn-Pen has no rubber sac. It doesn't leak, sag, or flood, and automatically cleans itself while you are filling it. Absolutely guaranteed.

An Adequate Pressure Required

Riverton, N. J., July 28, 1921.
To the Mayor and Council of the Borough of Riverton:

Gentlemen:

The question as to the proper method of fire protection seems to have been brought prominently forward, and some citizens seem to be under the impression that the Riverton and Palmyra Water Co. is at fault, hence this letter.

The Water Company pumps into two tanks situated on Morgan Hill, Palmyra, the two tanks having a capacity of 550,000 gallons and when the water is at the highest level in the tanks the pressure will then be 56 lbs. or 125 feet head. This pressure is recorded in the pump house on a recording gauge which gives a record for each minute of the 24 hours of the year and each day of the year, and is open for inspection of the public. This pressure of 56 lbs. is more than double the average in Philadelphia, but is not as high as that of most New Jersey towns and cities.

As the different sections of the company's territory vary greatly in height, this pressure of 56 lbs. at the pumping station will be less in the higher districts, so much so that the Company recently installed a centrifugal pump and electric motor at the tanks in order to increase the pressure in Cinnaminson township, due to the fact that some portion of Westfield is 50 to 60 feet higher than the gauge in the pumping station on the river bank, Palmyra.

Never before in the history of the Water Company has it been in a better position to furnish an adequate quantity of water for fire purposes. We now have installed two electric centrifugal pumps of 700 gallons per minute and also a gasoline driven pump of 900 gallons per minute capacity and wells capable of producing 4 millions gallons each 24 hours.

The writer has gone into the matter in detail in order to demonstrate that the Water Company has gone as far as it can to give proper fire protection and while we can and do supply water at 40 to 50 lbs. according to the height of the particular fire hydrant used is situated at a pressure equal to a head of 92.40 ft. and 115.50 ft., if no friction in hose or pipes were encountered, a condition that never exists when fighting a fire. Most authorities agree that the loss of pressure in each 100 feet of hose between the hydrant and nozzle equals 15 to 20% and when it is realized that we ordinarily fight with 8 or 10 lengths of hose, each of 50 feet, or 400 to 500 feet, it becomes manifest that in order to successfully fight a fire you will require a pressure of 100 to 125 lbs. at the hydrant in order to have 50 to 60 lbs. at the nozzle. It will be quite obvious that a pressure of 100 to 125 lbs. in the mains would subject the plumbing which enters homes to a pressure that would be impracticable, hence, it follows the only way to successfully fight a fire and insure 50 or 60 lbs. pressure at the nozzle, is to carry on the fire truck an auxiliary pumping outfit, preferably a centrifugal gasoline driven engine with a capacity of 500 gallons per minute at a pressure of 125 lbs. INTERESTING NEWS BITS
in and around Palmyra

Buy It at Home!

Mr. and Mrs. Alonzo Bousal are spending two weeks in Ocean City.

Mrs. James Elliott is entertaining Mrs. Edward Street and daughter, of Baltimore.

Miss Mae Land and Paul Land, of Delaware are spending two weeks at Wildwood.

Russell Blackburne is now manager of the Toronto baseball team of the International League.

Mr. and Mrs. W. Paul VanSant will spend Sunday with Rev. and Mrs. VanSant in Paulsboro.

Mr. and Mrs. Milton Clark, of Highland avenue, are spending a week in the Pocono mountains.

A final decree of divorce was granted last Friday to Ethel Aspinall from John Aspinall, both of Palmyra.

George N. Wimer attended the meeting of the New Jersey Real Estate Board at Atlantic City Tuesday.

Mrs. Norman Shriver and daughter, Helen, are spending a week in York county, Pa., visiting friends and relatives.

Mr. and Mrs. R. E. Sanford, of 830 Highland avenue, have returned from a two weeks' trip to Indiana, Kentucky and Ohio.

Mrs. Elvin Powell and children, Donald and Margery, are home on Monday after spending several weeks at Wildwood.

The marriage is announced of Mrs. Almada Marguerite, of Palmyra, and Joseph J. Scott, of Collingswood, in Camden, on July 12, by the Rev. J. F. Dorman.

Township Chairman Davies is enjoying a two-weeks' vacation at Atlantic City where Mrs. Davies and daughter, Kathryn, are spending the summer.

A force of surveyors from Township Engineer Vossburg's office has been going over the town this week preparing the new specifications for the sewer contract.

Mr. and Mrs. Arthur Calloway, of Chester, Pa., and Mrs. S. O. Bailey, of Harrington, Del., were guests of Mr. and Mrs. John Anderson, of Delaware avenue, over the weekend.

The next regular meeting of Camp 3, P. O. of A., will be held Thursday, August 11. Owing to the hot weather, only one meeting is held in the months of July and August.

Mrs. A. B. Powell attended the launching of the "Leeward Arrow" at the New York shipyard this week. She was accompanied by Miss Mac MacPherson, of West Philadelphia.

Elias Stiles, aged ninety years, of South Bend, Indiana, left Toledo, O., on Thursday for Palmyra. He expects to make his home with his daughter, Mrs. A. B. Powell, and will make the trip alone.

Mr. and Mrs. Albert Pennington, Mr. and Mrs. J. F. Sandox, and Mr. Pennington's sister, Mrs. Delaney and daughter, Laura, of Milwaukee, will take a week's motor trip to Spring City, Pa., next week.

On Wednesday evening the K. G. E. District Association held its regular meeting for July at the local hall. There was a big turnout in honor of the occasion and an enjoyable and profitable session took place.

Mrs. Edwin M. Beeton, of Washington avenue, left last week to visit her mother who was very ill at Peoria, Ill. Her mother is now much improved and Mrs. Beeton has stopped off at Indianapolis to visit friends there on her way home.

Mr. and Mrs. Thomas Ingling, Mr. and Mrs. Edward A. King, Mr. and Mrs. Warrington S. Darnell, all of Camden, and Mr. and Mrs. Robert Palmer, of Palmyra, are going to Philadelphia about a week, and are going to stay at the Hotel Marlborough.

J. S. Warner has sold his new tile bungalow at 808 Lincoln avenue to Arthur Parfith, of Frankford. Mr. Parfith and his family will move in on September 11. The house at 812 Lincoln has been purchased by Fred Freize, of Chicago, who will take possession on September 15.

Miss Kathryn Hirsch, of 738 Highland avenue, was a passenger on the D. L. & W. train which was wrecked last Friday, while she was on her way from Cresco, Pa., to Ithaca, N. Y. Miss Hirsch escaped injury, but was shaken up quite a bit. The engineer and fireman of the train were killed.

John S. Warner has sold the lot at 816 Lincoln avenue to John Holton, of Camden. The Charles Benjamin property, at 632 Linden avenue, Riverton, has been purchased by Albert Harkins, of Camden, who will take possession August 15. Mr. Benjamin and family will move to York, Pa.

Edward Beeton and Jean Mervine are now on their way to Colorado Springs. A party received by Edward's father Thursday said they were half way between Independence, Kan., and Colorado Springs, traveling in an auto which was up to its hubs in mud, there having been another flood in the Colorado river valley recently.

This Friday the Freeholders in regular session at Mount Holly expect to let the contract for another stretch of sheet asphalt, to connect Mount Holly and Burlington. The work on the same kind of work on Warren street, Beverly, also may be let today. The new asphalt roads are fast making Burlington county a "motorists paradise."

The Girl Scouts, of which Miss Florence Brooks is captain, have returned home after spending an enjoyable week camping on Banff's farm along the Pensauken creek. There was about twenty-five young women in the camp and some 150 persons visited the girls during the week. They report having had a wonderful time.

The Artisans had a good crowd out at their regular meeting in Society Hall Tuesday night. Owing to the electric lights having been knocked out by the storm, proceedings had to be held by dim candle light. Two candidates were initiated, the work being especially well done considering the inexperience of the new officers. The usual entertainment and refreshments were enjoyed.

The seven foot pine snake belonging to Albert Pennington, son-in-law of Frederick Sandox, of West Fifth st., met an untimely end Thursday, when after having been missing from its cage for several weeks, it was discovered by some boys on Cinnaminson avenue and killed. It is the same snake that John Plumly came near killing in his garden a week or so ago. Mr. Pennington captured it in the pine barrens some time back.

Freeholder George W. Rogers has had a busy week. On Wednesday he attended the big harvest home of the Jacobstown M. E. Church. Last Friday with George N. Wimer and T. E. Steele he attended the Governor's day celebration at Sea Girt. On Monday he was present at the State Association of Freeholders' meeting at Sea Girt. Yesterday and today he has been busy with county business at Mount Holly and New Lisbon.

There have been a number of applicants for the examination for the position of clerk-carrier in the Palmyra post office. The examination for which will be held on Saturday, August 6. Forms and additional details for this examination may be obtained from Miss Florence Cramer at the local post office. There are three positions to be filled, two regular carriers and one substitute carrier. It is understood the regular jobs pay \$1400 per year.

Ready for New School Building

It is ready for the public school meeting next Tuesday evening in the Delaware avenue school when the bond issue for \$150,000 to build a new high school annex and make alterations and repairs in the old high school building, will be voted upon.

The meeting will be opened by James T. Weart, president of the school board, who will make a brief statement of the board's plans. Separate rooms for secret ballots will be provided for those who wish them.

If the bond issue is approved, as is expected, the next step will be the framing of specifications and advertising for bids.

Little opposition to the proposition has been expressed, as it has been recognized for several years that school facilities in Palmyra have been growing more and more inadequate and that a new building in the near future was a necessity.

Of late it has been developed that unless facilities were provided for modern high school courses and equipment, Palmyra would lose the 150 outside high school pupils whose tuition is a great aid in supporting a modern institution here.

The new building will be financed for the first couple of years by temporary bonds, after which time the money market is expected to be favorable for the floating of the regular bond issue, which must be paid off in twenty-five years at the rate of \$6,000 a year with interest.

All members of the Parent-Teacher Association and citizens in general are urged to come out and support the new school.

Almost a Tornado

The terrific storm that struck Palmyra late Tuesday afternoon was too close to a tornado for comfort.

Riverton and the eastern half of Palmyra received the main force of the blow which seemed to reach its peak about 5.30. According to those who were hardy enough to be eye-witnesses, the wind blew up Broad street and then turned around and came back again with redoubled violence.

Washington and Lincoln avenues suffered most of all. While few trees were blown down completely, there were not many that escaped having their tops or big limbs yanked off. Lincoln avenue was rendered impassible, both sidewalks and roadway being blocked with a jungle of fallen branches. Washington and Highland fared about as bad and citizens worked for an hour or so to clear the roadway and sidewalks in front of their homes. Overseer Land has been busy with a force of men clearing up the debris and removing dangerous limbs from trees.

Mrs. Albert N. Stewart, of 619 Morgan, fainted when a huge limb crashed against the house. Mr. Stewart found her lying unconscious on the floor when he returned from Philadelphia about a week ago and she remains in a highly nervous condition.

Lightning knocked a chimney through the roof of Fred Baitinger's house on Perry avenue. A bolt also struck a tree in front of the home of Norman Graham at Broad and Morgan.

The force of the wind was so great that the two heavy baggage trucks were blown off the station platform on to the railroad tracks. A traffic sign with a heavy iron base was picked up and hurled to the concrete pavement.

Old Home Day Notes

Meeting of general committee at Society Hall, Tuesday evening, August 2nd. All Palmyra organizations have been represented.

Washington Camp No. 23, P. O. S. of A. has appointed as their representatives on the general committee George Reber, A. Newton Stewart and William L. Richter. The Good of the Order Committee of the organization has been instructed to hold open house on the evening of October 1st and a big time may be expected.

The committee from Post Rodgers of the American Legion consists of Frank A. Mathews, Jr., T. Roden Bromley and William Miller. The Legion will arrange for open house in the building.

Residents of Palmyra are requested to make up lists of names and addresses of former residents and turn the lists over to the committee.

This celebration is going to be the greatest ever held by any town in this section. Every resident of Palmyra should take considerable money to do what the committee anticipates and we will ask our citizens to be as liberal as possible in their contributions to the committee.

Sneak Thief at Work

A thief entered the home of R. Selby Williams, on Elm Terrace, last Monday night and ransacked the lower floor and garage. A number of articles of silverware are missing.

The thief apparently entered thru a cellar window first, and finding the doors leading to the first floor locked, obtained a ladder which he took to the house and used in climbing through the pantry window.

A number of burned matches were found lying about the floor.

Equipping himself with a candle from the dining room the burglar obtained keys and then ransacked the garage, but apparently took nothing of value. He kept the keys.

Mr. Williams was asleep in the house at the time. Mrs. Williams was away as she is spending the summer at Peak's Island, in Casco Bay, Maine.

Advice

We hand this out and ask no price. And know that you'll take it. For you must charge for your advice. If you want folks to take it. —Arkansas Thomas Cat.

Field Club

The league standing of our Field Club in the Central Burlington County League is now 500. The boys won their game with Mount Holly last Saturday.

The batting of Tying was the feature, the powerful "Wac" having carried three hits for a second time in succession. He leads the league in batting. Hoyt, in addition to pitching a great game, got two hits, and so did Russ Gibbons.

The game with Delair Wednesday night was the thriller. It is said that it is the first time Palmyra has beaten this outfit in 16 attempts.

Hoyt had pitched a few innings the day before and was expected to let the other eight men do some of the work. They did, to the extent of four double plays, one time with the bases loaded. On that occasion Eddie Duran's cool work at the plate nipped off two runners. Babe MacMullin made a great catch in short center.

This Saturday the locals play a league game at Moorestown. Trucks and autos will be at the station at 9 o'clock to take along all rooters who wish to go. Van Amburg and Schneider will be the battery.

A Medical and will be the attraction Saturday a week and Manager Hottel is trying to get the strong Florence team down for the Wednesday evening game.

Wesleyan Baseball

Athletically inclined Wesleyans had their baseball tryout at the Field Club Thursday evening.

Dillon and Kates chose sides and we are instructed to ask Dillon's men which way.

When interviewed at 10 p. m., Kates' first words were "I'm ruined for life."

A little exercise is a dangerous thing unless taken in regular doses. However, a good time was had by all and another such evening is scheduled for next Thursday evening.

Saturday a week is the date for the big picnic.

Baseball

Inasmuch as the Field Club plays a league game at Moorestown this Saturday afternoon, local fans will be entertained with a first class contest to be put on by local players.

Benny Gilbert's Camden A. C. The Camden A. C., it is said, has not played here since the days Eddie Williams was manager for the Field Club.

"Bud" Mathews will be captain and manager of the local team. "He has obtained the services of Roy Steele, a noted star of the Camden Eastern basketball league. Other players in the Palmyra lineup will be Joe Stack, Gordon Andrews, At. Donaghy, Van Amburg and others.

It is expected that Ed Caskey, the well known professional, will pitch.

Five Points

Albert Quinn, of Berlin, Germany, and New York, has been spending sometime on the family estate at Five Points. Before leaving for New York, he sold the house to Lester Steiner, who is planning to improve it. Mr. Quinn will return to Germany in the fall to accompany his wife on a concert tour.

The electric storm on Tuesday did considerable damage in Cinnaminson. The old trees on the grounds of the Friends' meeting house suffered severely. A dozen or more electric light poles on the Burlington pike were blown over. At Five Points the storm was not violent and no damage was done.

Erich Veltcheimer, of Philadelphia, and Miss Martha Thomas, of Parry, were married in Philadelphia this week. The bride is the daughter of Thomas Thomas, Sr. They will live at Parry.

Harry Yeagel, Fred Bauers and Frank Hewitt, all of Philadelphia, were guests Thursday of Mr. and Mrs. James Moffett.

Mr. and Mrs. Patrick Garrity and Mrs. Michael Garrity, of Philadelphia, were entertained by Mrs. J. Herbin on Thursday. The Garritys will be the guests of Mr. and Mrs. Harry Schuck during the month of August.

William Johnson, of Philadelphia, spent Sunday with his daughter, Mrs. Howard Bender.

Michael Phelan is spending the week with his brother, William.

William Ziegler and family, of Philadelphia, will spend the rest of the summer in their bungalow here.

BALANCED RATIONS FOR MAN

Fruits, Vegetables, Whole Grains, Milk, Eggs, Butter and Nuts Are Most Healthful.

How many human beings eat balanced rations? The best foods for health and strength are fruits, vegetables, whole grains, milk, eggs, butter and nuts, with meat in moderation.

Heavy meat eating, artificial sugars, white flour, polished rice, peeled potatoes—these are said to create acidosis which is the forerunner of many serious diseases.

Patching Holes. Sifted coal ashes, sand and wheat flour, mixed with water, make an excellent mortar for patching holes when the plaster is broken. Use two parts ashes and sand to one of flour.

MAKE WHIPS AND CUSTARD DISHES

Eggs Form Basis of Many Delicious Desserts During Early Spring and Summer.

SOME SIMPLE RECIPES GIVEN

Thrifty Housewives Take Advantage of Plentiful Supply of Eggs to Convert Them into Nutritious Concoctions.

(Prepared by the United States Department of Agriculture.)

In early spring and summer, when eggs are plentiful and cheap, the thrifty among the housekeepers utilize plenty of them for desserts. When this is done the rest of the meal does not need to be quite so "hearty."

The following recipes are recommended by food specialists of the United States Department of Agriculture:

Soft Custard.

1 cup milk 2 tablespoons sugar
1/4 teaspoon vanilla 1/4 teaspoon salt

Heat the milk in a double boiler. Mix the eggs in a bowl with the sugar and salt. Add hot milk slowly, stirring, and return mixture to the double boiler. Cook until custard will coat a silver spoon. Strain and serve. If the custard curdles set the pan into cold water and beat the custard until smooth.

Steamed or Baked Custard.

1 pint milk 1/2 cup sugar
1 egg 1/4 teaspoon salt

Mix eggs as for soft custard. Strain into custard cups and steam until firm over hot water, which is boiling gently. To bake, strain the custard into cups and place in a pan of warm water. Bake in a moderate oven until the custard is firm. To test a steamed or

baked custard, slip a knife blade to the bottom of the cup in the center of the custard and draw out without turning. If the knife is not coated the custard has cooked enough. Grate the nutmeg over the surface and cool before serving.

Floating Island.

1 quart milk 5 eggs (yolks)
1/4 teaspoon salt 1/4 teaspoon vanilla
1/4 cup sugar

Prepare as a soft custard. The whites should be beaten light and two tablespoons powdered sugar added for the meringue. When the custard is cool it may be poured into sauce dishes and the meringue dropped in large spoonfuls into it.

Custard Pudding.

1/2 cup pearl tapioca 1/4 cup sugar
3 eggs (yolks) 1/4 cup milk (whites)
1/4 teaspoon vanilla 1/4 teaspoon salt

Soak the tapioca in enough cold water to cover it until it absorbs the water. Add the milk and cook in a double boiler until the tapioca is soft and transparent. Combine the yolks of eggs with sugar and salt and add to the mixture in the double boiler. Cook until it thickens. Add stiffly beaten whites and flavoring, and when cold serve. Rice must be cooked in boiling water until soft.

Apple Whip.

3 cups apple sauce Cream for serving
5 eggs (whites)

Cook six or eight medium-sized tart apples until soft in just enough water to keep them from burning. Add sugar to sweeten sufficiently and one-half teaspoonful grated nutmeg. Cool. Press the apple sauce through a strainer and add to it the stiffly beaten whites of eggs. Beat until light and foamy. Pipe onto saucers and serve with fresh cream or a custard sauce made of the egg yolks. This sauce may be prepared by the same method as for soft custard, omitting the whites of eggs. Canned fruit, such as peaches, figs, cherries or guava, may be substituted in the same proportion for the apples.

Always remove stains before washing, as soap fixes them.

A pinch of sugar or a little vinegar will make the stove polish stay on.

A salad made with chopped cabbage, grated raw carrots and chopped peanuts is delicious.

An asparagus stalk is edible only as far down the stem as it will snap easily between the hands.

The Word "Rum."

The word "rum" is an abbreviation of "rumbone," "rum" being an Asiatic word for "good," and "bone" a derivation of the German "bausen," meaning to "guzzle."

AMONG THE CHURCHES

Christ Church, Episcopal

Services Sunday, July 31, 1921: Holy Communion, 7:30 a. m.; Morning Prayer and Sermon 11:00. Evensong 5:30 p. m.

No evening service during August. Until further notice, pending repairs to the church building, all services will be held in the parish house.

Christian Science

First Church of Christ, Scientist, Riverton, N. J. Services at the church, Thomas avenue and Seventh street:

Sunday School, 9:30 a. m.; Sunday Services, 11 a. m.; Wednesday, 8 p. m.

Reading room open Tuesdays and Fridays 3 to 5 p. m. All welcome.

Westfield Friends' Meeting

Meeting at 10 a. m.

Calvary Presbyterian Church.

Rev. N. F. Stahl, D.D., Minister. 10:45 a. m., morning service. 7:15 p. m., Young People's Society of Christian Endeavor.

8:00 p. m., evening worship. Prayer meeting Wednesday evening at 8 o'clock.

Central Baptist Church

Charles W. Williams, Pastor. Sunday School at 9:30 a. m. Morning worship at 10:45 a. m. Willight service at 7:00 p. m. Prayer meeting Wednesday at 8 p. m. Young People's Meeting, Friday at 8 p. m.

DAY AND NIGHT

Right at the Ferries

on the N. W. corner of Delaware Avenue and Market Street we have established a conveniently located office to serve the banking needs of the New Jersey business man or visitor to Philadelphia.

This office is open from 8:30 A. M. until 6 o'clock in order that you may attend to your banking or savings fund before during or after business hours and on your way to or from business or shopping.

An account at this office also insures you of the same facilities at our other two offices, which remain open until midnight.

We cordially invite you to consult with us on financial problems requiring expert advice.

Franklin Trust Company

Resources over \$13,000,000.00

WAY TO POLISH SILVERWARE

After Soaking in Sour Milk Wash in Warm Water to Which Ammonia Has Been Added.

It is not necessary to rub all morning polishing the silverware. Next time soak it for three hours or longer in a pan of sour milk. Wash in warm water to which a small amount of ammonia has been added, and polish with a clean chamois cloth. Shining silver makes the dinner-table look doubly attractive.

SOLE OF SHOES WATERPROOF

Place in Melted Mixture of Eight Ounces of Vaseline and One Ounce of Beeswax.

You can save leather and make your shoe soles fairly waterproof by placing the soles for 15 minutes in a melted mixture of eight ounces of vaseline and one ounce of beeswax. The mixture should not be hotter than can be borne by the hand.

WAY TO HEM STRAIGHT EDGES

Run Corners Together With Needle and Thread Before Putting Goods in Hammer.

When you have a number of straight edges to hem—towels and like—run the corners together with needle and thread before putting the goods in the hammer. This will make a continuous hem and avoid the trouble usually experienced in starting the hem neatly.

Drying Shoes.

To dry wet shoes quickly stuff them with paper and put near the fire, though not close enough for the leather to burn.

Wire Rope Wire Strand

STATE INCOME TAX OPPOSED BY C. O. P.

Republican Committee, in Resolution, Pledges Party to Defeat Enactment of Proposed Law.

HITS COMMERCIALIZED BOXING

Nuisances Damage New Jersey Coast Resorts—Bathing, Fishing and Beauty Spoiled by Intolerable Conditions Along Shore.

Trenton.—Opposition to the levying of a state income tax was expressed by the Republican State Committee in session here in resolutions pledging the party to use every honorable method to defeat the enactment of an income tax law at least during the period of readjustment.

The resolutions set forth that the burdens of taxation imposed by the federal government have become so onerous as to stagnate business; that this fact is recognized by federal government, which is now using every effort toward retrenchment; that taxation has more than doubled for local purposes in many of the taxing districts of the state, and that the commission appointed by the legislature has recommended an additional burden by a tax on incomes and has been deflected by the legislature to draft bills with that end in view.

The resolutions state that "the New Jersey Republican State Committee, feeling that it owes a duty to the general public, declares not for more taxes, but for less taxes if possible, and does hereby protest against a state income tax and pledges its good faith to the public to use every honorable method to defeat the enactment into law of such state income tax, at least during the period of readjustment."

The resolutions concluded by asserting that while the federal government is considering the necessity of removing the burden of business and industrial prosperity by reducing income taxes, it is inexpedient for the state to thwart the federal government's laudable purpose by substituting a state income tax.

The committee discussed the subject of prize fighting in New Jersey with special reference to the recent Dempsey-Carpentier match. The committee, while indorsing the "manly sport of boxing," took exception to the commercializing of this sport and incidentally declared that the administration is open to criticism on this score. The view of the committee seemed to be that the law sanctioning boxing should be modified in such a way as to eliminate features to which exception has been taken.

Nuisances at Coast Resorts
Oil, tar and garbage from the sea and its tributaries and poor roads, long detours and generally intolerable conditions on the land side or approaches are declared to be rapidly destroying the beauty, value and accessibility of New Jersey famous Atlantic coast resorts from Sandy Hook to a point well south on the shore.

Bivalve Food Disappears
Where clams, oysters and lobsters grew in abundance in other years there are now none, that alone spells annual loss of countless thousands of dollars to individuals and communities and of men deprived of employment. What there was good bathing there is now generally so much tar on the bottom that sticks and other implements are necessary to scrape it off the feet of men, women and children who brave the water in spite of the surface oil. On some of the beaches at certain times there is a much larger crop of decayed vegetables possible of being gathered than of fish, clams, oysters or lobsters. They are washed in by the sea from where they are dumped by New York's large garbage scows. The oil and tar come from New Jersey plants on the shore of river, bay and ocean tributaries and from the dumping of waste material by oil-burning steamships on their way into harbor. Investigation after investigation has been made, many complaints have been made to the State Board of Health in the last dozen years, but nothing definite in the way of action to remedy the evils complained of and known to be growing steadily worse has been productive of results.

Bill Before Congress
Now the matter is up in Congress through a bill introduced by Representative Appleby to prohibit oil-burning ships from emptying their waste along the Jersey coast. This will be a step in the right direction, but only a small one, say those familiar with conditions along the shore. At times there have been associations of fishermen and of business men formed to combat the things that they asserted were rapidly spelling ruin for the whole North Jersey coast. Its pleasures and its industries, but the fight has invariably waned before substantial permanent good came of the movements.

Complain of Highways
On the land side of the question the most serious complaint is that State highways are being built or repaired to such an extent that shoreward travel is seriously interfered with. One of the main roads is in such a condition that Keyport is declared to be almost isolated and there is loud complaint that not only its residents but the town itself will suffer serious and irretrievable losses if the road is not soon put into shape and opened to the public. It was said yesterday that even if the road is completed within the next few weeks it will have to remain closed until the bridge over Mat-tawan Creek is rebuilt.

No one can quite understand why the bridge is not being reconstructed while the road-building is under way, so that both undertakings will be finished together and the entire road opened at the earliest possible minute to traffic. Other roads are in a disturbed condition and thousands of motorists have been inconvenienced and put to expense of time and money, many of them from other states. So, between the lands and the sea, the shore resorts are having a hard time of it this year.

Hope to Restore Shad

Aroused to one last desperate effort to save the shad industry by the report of Chief Protector James M. Stratton of the New Jersey Fish and Game Commission, showing that the shad season just closed was by far the poorest in history on the Delaware, fishermen are preparing to seek legislation at Trenton next winter that will check pollution of public waters and the careless destruction of a great source of public food supply. In this move for remedial laws the Delaware river men will seek the aid of coast fishermen, whose sea and bay fishing is being ruined by oil waste from tankers and also of the thousands of anglers in this state.

Reports gathered by Protector Stratton from the shad fishers in Hunterdon, Burlington, Mercer, Camden, Gloucester, Salem and Cumberland counties show that with nearly as many men engaged in the industry this year the catch was less than half that of last year, and shrank in value from \$88,877 in 1920 to \$28,985 in the present year.

Records showing that Cumberland county led the state with a total of 11,100 shad cast an interesting light on the pollution question. Of the Cumberland catch, 9,000 were taken in the Maurice river. A few years ago, Protector Stratton says, scarcely any shad were caught in the Maurice river, but about six years ago a campaign to stop pollution in that stream was successful. The shad have been returning in increasing numbers ever since, and it was the one stream in the state where the fishing was profitable this year.

While the state has a law against pollution of public waters, the fishermen claim it offers a loophole for violators, and that it has been difficult to enforce. They will seek a law that will not make it necessary to prove by costly procedure that fish have been killed by certain pollution, but that will attach a severe penalty to the act of permitting sewage or waste of any poisonous type to enter public waters.

Tax Valuation Inquiry
The State-wide tax investigation to revise valuations in every county and which will commence with Morris, will be started by the special joint county committee.

William E. Sandmeyer, president of the Essex Tax Board, is chairman of the committee and the following are other members: Director Elmes and Freeholder Lindeman representing Essex county; Commissioner Bredendach, Director of Finance of Newark; Theodore Fetting of the Newark Tax Board.

Hudson county: Freeholders Frank Boland, Oscar L. Auf der Hede, Clarence P. Van Doerin of the Hudson County Tax Board; James F. Croonan, president of the Jersey City Tax Board.

Union county: George Keller, Director of the Board of Freeholders and Freeholder Thomas Hayland, Francis J. Dobbins of the Union County Tax Board.

The first efforts of the investigators will be to organize a corps of experts who will examine Morris records in the tax board's and register's office to learn the difference between the actual value of Morris property and the valuations fixed for taxation purposes by the county board. The officials of Hudson and Essex maintain that some owners are paying only 10 or 20 per cent of their taxes and that the two first class counties are being unjustly taxed by the State because of the great undervaluations throughout the rest of the state, with the exception of Union county.

When the case of Morris county has been prepared and proofs of the alleged undervaluations obtained, it will be presented by the committee to the State Board of Taxation with a request that a state-wide investigation of rates be made by that body. Recent legislation allows the state board to investigate upon protest from one or more counties.

The investigators intend to hurry their efforts so that a just share of State taxes will be borne by all counties next year.

Wide Margin in Sundae

It costs from 3 1/2 to 6 cents for the ingredients composing an ice cream sundae that sells anywhere from 15 to 25 cents each, according to South Jersey dairymen, who have procured from the state bureau of markets exact figures obtained by that department in a recent investigation of the milk producers' charges of alleged profiteering in soda fountain and restaurant men. The dairymen in this section, who are receiving from 4 to 6 cents a quart for milk, started the recent nationwide agitation for cheaper ice cream dishes by showing that exorbitant prices of ice cream and sundae, figures of which were verified by the market bureau agents, were checking the demand for such delicacies.

The dairymen indorsed the New England movement of a boycott of retailers who maintain high prices. Reports in nearby cities, they say, show that most of the soda stands are selling ice cream at 10 cents a plate. Sundae, however, still cling to fancy prices.

Origin of Sundae Disputed.
A druggist says that the origin of the word "sundae" has been under discussion in drug trade papers for years. He says that several years ago the Druggists' Circular made the following statement in reference to the word, after citing various accounts from journals of the word's origin: "All these explanations," it says, "cannot be true. Since all but one must be false, it may be that they all are." Among the explanations given is that a Mr. Sundae of New Orleans was the originator of this delicious concoction. Another well-known theory is that Sundae is a corruption of Sunday, and that the concoction was so called because it was originally a specialty on Sundays of many drug stores in places where confectioners were closed on that day.

Diminutive Only in Stature.
It is related of Philetas of Cos, distinguished about 330 B. C. as a poet and grammarian, that he was so diminutive in size and avoidings that he carried metal weights in his clothing to prevent his being blown away by the wind. He was the preceptor of Ptolemy Philadelphus.

BEST RECIPES FOR PREPARING DRIED FRUITS AND VEGETABLES

Dried Corn Keeps in Good Condition for a Long Time, if Good at the Beginning.

(Prepared by the United States Department of Agriculture.)

Even though they do not spoil, many dried vegetables which were delicious and attractive in every way during the first few weeks or months of storage, do not keep their color, flavor and cooking qualities indefinitely, but deteriorate gradually after a long period of storage. Even vegetables which are blanched before drying will deteriorate in much the same way, though more slowly, and blanching in salted water (1 1/2 per cent solution) before drying constitutes a slight improvement over the common custom of drying without such treatment.

Household stocks of dried vegetables should not be held over from one year to the next for the reason they lose in quality. Indeed, it is the part of wisdom to use them early in the winter season, reserving canned goods for the late winter or early spring. The experimental kitchen in the United States Department of Agriculture has carried on a number of experiments with dried vegetables, and the work is being continued. A progress report is in order and some of the results arrived at to date follow:

Dried corn is one of the vegetables which keeps in good condition for a long time, if good at the beginning. The peculiar flavor developed in dried green string beans is popular in many parts of the country. Dried soup mixtures deserve wide use, for the combination of such strong-flavored vegetables as onions, carrots, cabbage and turnips will retain considerable flavor for a long time, even though the individual vegetables which compose it may have deteriorated somewhat in flavor when compared with the freshly dried vegetable.

Preparing Dried Vegetable.

Dried vegetables may be soaked from one to three hours in warm or cold water, and then cooked from 10 to 30 minutes (or longer, if necessary). Or they may be put at once, without any soaking, into boiling water, and then cooked slowly over the simmering flame for 20 to 40 minutes, or longer, if necessary. The length of time for which they must be cooked depends largely upon the condition of the fresh vegetable before it was dried. Large carrots, or white cabbage, even though cut into small pieces before drying, must be cooked longer than small carrots or green cabbage.

The water added for soaking or cooking should be little more than what the vegetable will take up. To soak them in a large amount of water which is thrown away, then cook them in a fresh supply of water which also is thrown away, is to take the most thorough method which could be devised for extracting and discarding most of their nutritive constituents as well as most of their flavor.

Three cupsful of water to one cupful of vegetable is as good a general rule as can be given, but spinach and greens take half of that, being light for their volume. Long cooking demands a larger amount of water, because it boils away; but vegetables should not be cooked longer than is absolutely necessary, except in the making of puree.

Particularly when the dried vegetables are put into boiling water without soaking, it is best to salt them toward the end of the cooking process rather than at the beginning.

One cupful (measured dry) of most kinds of dried vegetables will serve two persons heartily, or three persons with moderate portions.

Dried vegetables may be used in the same way as fresh ones, while they are still in prime condition. When they begin to fall off in flavor they should be judiciously combined with other materials and have favoring materials added to them. Dried sweet potatoes or carrots which have become rather flat when served with butter and salt only are more appetizing when glazed. To do this, bake them (after cooking tender by boiling) in a sauce of sugar or molasses or sirup, and fat. Dried spinach which has become a little flat will be liked if served with an egg and vinegar dressing, or in a cream sauce flavored with onion or celery.

Dried vegetables (after being boiled) may be served in the gravy with the pot roast or meat or vegetable casserole or in the sauce for the baked or boiled fish. They may be combined with each other or with other fresh vegetables, in "boiled dinner" or in chowders or casseroles of any kind. They may be used with rice, macaroni or bread crumbs, in stuffing baked peppers or tomatoes or meat or fish; they may be combined in a mock minicemeat.

Cooking the Dried Fruits.
Dried fruits are usually given a

long, slow cooking in water below the boiling point. They may be soaked for a few hours, or they may be simply mashed and put directly into the warm water for cooking. The important point to be observed is not to soak or cook in too much water. The dried product can not be expected to have as much flavor as does the fresh; so all pains must be taken to dilute that flavor as little as possible. Most recipes for cooking dried prunes and apricots direct that two cupsful of water be used to one cupful of fruit; but a better-flavored product will result, if equal measures of water and fruit be used, when the cooking is done slowly in a tightly covered vessel, so that little of the steam escapes.

Dried fruits may be sweetened lightly (since they usually contain a good deal of sugar themselves) with sugar, or with any sort of sirup, according to taste. They are to be used as sauces, in puddings, fruit cakes and cookies, compotes, whips, souffles and even salads, much as fresh fruits are used.

The Logical Place to Buy Gas and
Electrical Appliances

The New Thor Washer

has a smooth, perforated, wear-resisting cylinder of luminoid, which, by careful tests, is found to be impervious to rust, as well as alkalis and acids found in water and soap.

The edges of the perforations are rounded. Your clothes are as safe in this cylinder as in a porcelain tub.

It is easily cleaned, and is so light in weight that it can be lifted in and out with ease.

This handsome No. 32 is the product of the oldest and largest washing machine manufacturers in the world, the Hurley Machine Company.

Install the Thor in your home and strike "blue Monday" off the calendar.

Washes everything—lace curtains, blankets, silk underwear—everything from the wispiest handkerchief to a rag rug.

On convenient terms, 10% down, 10% a month
5% discount for cash

The Thor Ironer is a worthy partner of the Thor Washer. Irons shirts, dresses, ruffled things, besides all flat pieces. Irons entire wash, at the touch of a button.

All you have to do is to sit and guide the clothes. An average wash is beautifully ironed in an hour.

The Thor Ironer is one of the most important domestic labor-savers of the century.

Visit our salesroom and see it at work.

No Waiting!

Hot Water at the Turn of a Tap

Isn't it aggravating to have to wait for water to heat, when you want a bath, want to wash dishes, or in case of accident?

With one of our automatic storage water heating systems in your home there's no waiting. We'll give you

\$10

for your tank water heater if you will let us install one of our automatic storage systems. You can enjoy the greater hot-water service and also get a return on your tank heater.

Let our representative call and explain the best system for your home. We will see that you not only get the heater that will furnish the best service at the least cost, but also one that will cost you least for maintenance.

And How Many There Are!

An old fool is one who thinks that when a pretty girl smiles at him she's flirting instead of laughing at him. Toledo Blade.
