FIREMEN FROZEN FAST IN ICY BOOTS AND CLOTHING

Fight Big Blaze at John Hinkle's Home. Inmates Had Gone To Bed

HEROIC WORK SAVES ADJOINING HOMES

A party of young folks returning from a party last Tuesday night discovered the roof of the home of John Hinkle on Broad street between Thomas and Linden avenues to be on fire. They immediately gave the alarm and in less than five minutes the Riverton Fire Company was on the scene and in action, closely followed by the Palmyra company.

The party who discovered the fire was composed of Misses Ernestine and Dorothy Stewart and Malcolm Dickinson and Mr. Wyncope. Young Dickinson telephoned for the fire company from the Stewart home and then the party hurried back to the Hinkle domicile. Meanwhile another pedestrian had discovered the flames and rushed into the home of Coudine Lynch, who also turned in the alarm.

The Hinkle family were all in bed and were unaware of their danger until Dickinson broke open the front door and called to them. Dickinson carried Mr. Hinkle's aged mother to the home of Samuel A. Plumly next door.

Chimney Believed Cause
The fire is supposed to have been caused by a spark from the chimney and gained considerable headway before it was seen. Notwithstanding the progress the flames had made, the fire was contained in the building in which it started, and only the roof and attic were burned.

The fire occurred during the height of the cold wave which brought the mercury down to within a few degrees of zero. A stiff north wind was blowing, which whipped the flames fast and furious. The flames fanned across Broad Street and caused the glare to be visible for miles. Fortunately the row of dwellings on Broad street were at right angles to the direction of the wind and the two halves of Broad Street and the railroad right of way created a wide open space in the direction the flames were blown. Had the fire been on a street running north and south, other homes no doubt would have caught fire.

In a very few minutes after the fire companies got their hose in action the flames were under control, but it was one of the most stubborn conflagrations the local firemen have had to fight in a long time. The pumps threw water which they worked very severe.

Firemen Brave Dangers
At one thrilling point in the fight against the flames a little band of intrepid fire fighters worked their way up to the burning attic with a line of hose, while the roof was still burning fiercely. A heavy stream of water was being played on the roof from the rear. In addition to being nearly suffocated by the smoke these men were drenched for several minutes by the rush of water through the burned openings and windows. Finally the outside stream was turned off and short work of the fire was made from the inside.

Due to the intense cold the spray from the streams of water froze on the men's hands, face and clothing, and many of them had to be thawed out with hot water before they could unbuckle their coats. The hot coffee furnished by nearby neighbors was much appreciated by the wet and chilled fire fighters.

It was one of the most severe tests the men and apparatus have ever had and the companies met it splendidly. The pumps threw streams well over the highest point of the roof, and the men handled not only the equipment but the whole situation like veterans. Many favorable comments have been heard over the way the situation was handled.

A daughter, who was visiting her mother, spent the night with Mrs. Hinkle at the Plumly home, and Mr. Hinkle was taken care of by Spencer Johnson, the neighbor on the other side.

School Election Tuesday Evening

Board Members and Appropriations Will Be Voted On At Meeting

The Palmyra school budget to be voted upon at the annual election of the Board of Education in the Delaware Avenue grammar school auditorium Tuesday evening of next week calls for an appropriation of \$49,000.

Although the budget to be approved only shows an expenditure of \$49,000, the actual outlay of funds by the school board for 1925 will amount to \$49,000, the difference being on bonds and interest which have already been approved in previous years, so consequently will not be voted upon.

This year's budget shows an increase of a few thousand dollars over 1925. This is occasioned by a payment of \$4,000 on the lot at Park Avenue and Spring Garden Street recently purchased by the board and the addition of teachers to the high school faculty.

Since there is a \$250,000 increase in the assessments it is thought that the larger budget will not jump the tax rate more than two cents. Three members are to be elected to the school board. George J. Spencer and Mrs. Evelyn Gibson have filed their applications for re-election and George W. Rogers and Mrs. Joseph H. Abell are the other candidates in the field. Mr. Spencer, Carl J. Jefferson, the other member whose term expires, will not be a candidate for re-election as he plans to move from the town in the near future.

RIVERTON SCHOOL BUDGET IS HIGHER

A special meeting of the Riverton Board of Education was held Wednesday night of last week to pass on the budget for next year. The amount was \$5,977 more than last year and will have to be voted on at the annual district school meeting, February 9.

The terms of Mrs. Hettie L. Miller, Murray C. Boyer and D. M. Clifton expire and they are candidates for re-election for three years. Harry Davis, who was appointed to fill the unexpired term of Harold Baker, resigned, will be candidate for the unexpired term of two years.

The annual report of Miss Chew, supervising principal, was read and accepted. Miss Chew was appointed district clerk to serve during the absence of Mayor Fred P. Hemphill who is going South for his health.

The following bills were ordered paid: J. S. Collins & Son, fuel and supplies, \$316.78; Benj. H. Sanborn & Co., books, 7.83; W. H. Lynch, plumbing repairs, 9.05; Curtin & Brookie, compensation insurance, 24.67; Philadelphia Fire and Marine Insurance Co., insurance on building, 18.56; interest on school bonds, 440.00.

Fred Blackburn Expires at 85

Pioneer Citizen of Palmyra Dies After Illness of Two Weeks

Frederick Blackburn, Palmyra's first real estate broker, Civil War veteran and inventor, died early Tuesday morning. Mr. Blackburn was eighty-five years old.

Death came after a bitter two-week fight for life. Blackburn's "grand old man" at the home of Mrs. Nellie Strang, 530 Garfield Avenue, Palmyra, where he and his wife resided.

Two weeks ago Mr. Blackburn became seriously ill with several complications. More than a week ago his physical condition was such that he gave up all hope of recovery, but each time as the patient would sink, the grit and determination to live which had pulled him through several severe illnesses seemed to drive him back to another brave rally. He began to weaken for the last time shortly before midnight Monday and the end came at 5:40 Tuesday morning.

Mr. Blackburn was born in Philadelphia, where he resided until 45 years ago, when he moved to Palmyra. During the Civil War he was an engineer attached to the U. S. S. Gunboat Huro in the North Atlantic Squadron. He suffered a slight wound when a shell fragment lodged in his wrist.

Invented Hat Machine
He was a machinist by trade and for many years before he came to Palmyra was in the straw hat manufacturing business in Philadelphia. He invented and was the first to patent a straw hat manufacturing machine and held patents on several other minor inventions.

When Mr. Blackburn moved to Palmyra he established the first real estate office in the town. He was the first township assessor and served in that office for twenty years. At the time of the institution of the township board of health Mr. Blackburn filled the position of its president. A year later a physician was added to the board's personnel. His term as assessor covered a period of twenty-five years.

When Mr. Blackburn moved to Palmyra he purchased the house at Broad and Arch streets which he and Mrs. Blackburn occupied until 1920 when they broke up housekeeping and moved to Mrs. Strang's home.

Mr. Blackburn continued his insurance and real estate business until the fall of 1923, when his health began to fail. The couple spent the winters of 1924 and 1925 in Lakeland, Florida, where Mr. Blackburn had hoped at the time to spend the remainder of his life. But, following the footsteps of many other residents who moved away, he was unable to resist the lure of Palmyra and returned to be among his friends.

Famous Ford
Mr. Blackburn was very spry and active for a man his age and up until six weeks ago drove his automobile.

His life story would not be complete without mention of one of his most treasured possessions, his 1909 Ford sedan which he drove until 1924. It was shipped to Florida on the couple's first trip there. When they returned to Palmyra after the first winter's sojourn Mr. Blackburn gave the old car to a neighbor who was moving to another section of Florida.

The deceased was a member of the Camden Yacht Club, the Palmyra Odd Fellows and Knights of the Golden Eagle, both of which he founded, the K. of P. in Philadelphia and a honorary member of Camp 35, F. O. E. of A. and Camp 3, F. O. E. of A. Palmyra.

Funeral Friday
Funeral services will be held at the Snover Funeral Home, 313 East Broad Street, Palmyra, Friday afternoon at 2 o'clock with the Rev. William H. Higgins, pastor of Christ Episcopal Church, Palmyra, officiating. Interment will be made in Morgan Cemetery.

The body may be viewed at the Snover Funeral Home Thursday evening. Relatives, friends and members of the fraternal organizations of which Mr. Blackburn was a member are invited to both services.

Mr. Blackburn is survived by his wife, Anna Y., and one brother, William Blackburn, of Riverside.

GRANGE WANTS JURY ACTION

Condemns Lack of Results in Rum Probe and Inactivity of County Detective

URGES PRESENT JURY TO REPORT HONESTLY

In a set of resolutions adopted at a meeting in Columbus the Burlington County Pomona Grange declares that a blot has been placed on Burlington County through the discovery of the rum scandal at Bridgeboro, and asks that steps be taken to bring the bootleggers to justice. The resolutions, expressed in disapproval of the attitude of the county detective in failing to demonstrate his sincerity by a vigorous and determined co-operation, and show regret that the October grand jury failed to bring in any findings or made recommendations to the court.

The resolution follows:—Whereas, the fair name of Burlington County having been jeopardized because of the uncovering by State Police of a nasty rum scandal last October, coupled with treacherous violation of law on a big scale, and

Whereas, the failure of the authorities to properly gauge the importance of the violation resulted in some sixty gunmen, mostly from out of the state, getting away with notorious names and small bail, and

Whereas, the resulting investigation ordered by our courts into the organized bootleg ring and the uncovering of any guilt, or failure in truly tremendous financial burden. Resolved, by the officers and members of the Burlington County Pomona Grange, assembled in Grange Hall, Columbus, N. J., Tuesday, January 26th, 1926,

That, we express our surprise and regret at the failure of the October grand jury to bring in any findings or even recommendations before the court and people, and

That we strongly express our disapproval of the whole attitude of the county detective toward this matter from the beginning in failing to demonstrate his sincerity by a vigorous and determined co-operation with the authorities and to vindicate himself by other means than doing nothing for fear of being misunderstood, and

That, we earnestly petition our present grand jury to probe deep and conscientiously and to honestly report to the taxpayers just where laxity has existed in the public servants and loss of prestige and money thereby occasioned, and

That, the efforts of a small, but powerful, minority to bring to nothing all honest and thorough investigation be not allowed to thwart the will of the people or bribe public opinion, and

That, copies of this resolution be sent to every county newspaper and caused to be read before every subordinate grange, and our people urged to manifest in a very determined manner their will for the successful cleaning up of this scandal, and making any repetition of the same highly improbable.

WILLIAM B. SHARP, Master.
MARY C. ROCKHILL, Secretary.

BIG CARD PARTY FOR RIVERTON FIREMEN

Clarence Hubbs Arranging Gala Event for Washington's Birthday

Clarence N. Hubbs, the new chairman of the Riverton Fire Company, has arranged a big card party at the Forch Club, Riverton, Monday evening, February 22. Mr. Hubbs says the affair will be an appropriate way for the people of the Twin Cities to celebrate Washington's Birthday and is anxious for a large attendance.

Five hundred and pinocle are the games slated. At the conclusion of the card games, for which many attractive prizes will be awarded, there will be a splendid entertainment.

The program includes dancing, a solo by Robert Coward on his musical saw, a girls' chorus with attractive accompaniment and a soprano solo by Miss Mary Steele.

Mr. Hubbs says every member of the company is taking an active part in the arrangements and tickets can be purchased from any of them.

In his characteristic jovial manner, Clarence added "Tell them to bring their hatchets, for there'll be plenty of trees to chop down and we expect to have George as the guest of honor."

Scout Week February 7 to 13

Seven Days of Activities On Program for Troops Here

The Biggest Boys' Club in the World. That is the Boy Scouts, with organizations in over fifty countries, and a roster that numbers millions of former and active members. In America Scout Troops dot the country from coast to coast, and the Scout movement has a few miles before he meets a brother with his friendly hand extended—a scout who subscribes to the same Oath and Law as himself—and greets him with the Scout sign, the symbol of all over the United States.

This thought carries a thrill to every boy and particularly to the lonely boy in the isolated districts. He belongs to a gang of 700,000 boys in the United States alone.

All over the United States Anniversary Week will be observed by all Troops, from February 7th to 13th and the program for Palmyra's celebration of Anniversary Week follows:

Sunday 7th. Scouting and the Church.
A. M. All Scouts to attend their respective churches in uniform.

2 p. m. At the Palmyra Borough High School. Presentation of the American Flag by the Artisans and the Boy Scouts of Palmyra. The Scouts will arrange to have this flag raised and lowered every day except high days and holidays when the larger flag will be flown.

4:45 P. M. All Scouts will attend Services at the Baptist Church. Rev. Geo. Lockett will have for his subject, "Lincoln."

Monday, Feb. 8th—Anniversary Day.
Scouting in America is sixteen years old on this day.

7:45 P. M. Recommitment service at the Lutheran Church. This will be a short service to which all are urged to be present. On this night at 8:15 every Scout in the United States will repeat the Scout Oath and Law.

In order to aid in this the Burlington County Council, the Camden County Council, the Philadelphia Council and the Delaware and Chester Counties Council through the assistance of Mr. Henry M. Neely, our Scout Commissioner, have induced radio station WJLT to broadcast this ceremony and through the courtesy of B. B. Hedley of Palmyra, a receiver will be installed in the Lutheran Church so that those present may join with the other Scouts in this vicinity in the program.

FOOTBALL HOP

Novel Program Feature of Event Held Saturday Evening

A large jolly crowd of young people enjoyed the Palmyra High School hop at P. O. S. of A. Hall Saturday evening.

The Royal Commodores lived up to their reputation and furnished excellent jazz for the dancers.

The decorations, which were red and white crepe paper streamers, the school colors, transformed the hall into a brilliant ballroom and the dull red glow, the result of tasty decorations over the lights, rendered a delightful effect.

The decorations on the stage made the setting for the orchestra the finest seen in the hall for several years.

Novel programs, with the dances numbered klick, fumble, first down, second down, penalty, first touchdown, first half for intermission, klick, fumble, penalty, first down, field goal and showers made a hit with the young people.

Miss Brewer, Miss Bell, Mr. and Mrs. Palmer and Mrs. Morse chaplained the hop and were well pleased with the conduct of the youthful dancers throughout the evening.

ATTEMPTED TO "WRECK" FERRY CO., WRIGHT CLAIMS

Benjamin Lippincott, of Cinnaminson Township, a prominent Burlington County farmer, one of the original proxies in the so-called "stockholders' committee" of the Tacony-Palmyra Ferry Company, has become disgusted with the fight and has sent the company a letter to have his name removed from those proxies.

The article published in the advertising columns of this issue.

Palmyra Foundry Damaged by Fire

\$2500 Loss Suffered in Early Morning Blaze; Two Fire Companies Praised

Fire causing damage estimated at \$2500 broke out in the Palmyra Foundry, Broad Street and Public Road, early Saturday morning.

It is thought the fire was started by an overheated flue. The flames developed in the core room of the foundry and quickly spread to the main building.

E. F. Thum, president of the Foundry company, said the blaze damaged the top of the core room and a new roof will have to be built. The destruction of materials, electrical wiring and machinery is as great as the building loss.

The fire was discovered shortly before two o'clock. At one-fifteen three car loads of coal were run on the sliding by Pennsylvania Railroad freight train and the trainmen declare there were no signs of fire at that time. The watchman made his hourly trip through the building at one o'clock and did not notice any odor of smoke from a mouldering wood around the chimney where the conflagration is thought to have started.

Work in the damaged building was again in full swing Monday morning. Saturday and Sunday the employees cleared away the debris and repaired the damaged machinery. The property was practically all covered by insurance.

Mr. Thum is high in his praise for the work of the Palmyra and Riverton Fire Companies. He said the fire was only the remarkable speed with which the fire companies responded that saved the entire building. Had there been any delay all would have been lost, for in ten minutes more the core room roof would have collapsed.

"The Foundry Company is extremely grateful for the work of the firemen," said Mr. Thum. "The splendid cooperation of these two departments makes a great firefighting organization to protect the homes in Palmyra and Riverton from the ravenous tongues of fire."

The Foundry has been damaged by fire on several occasions. The last fire was in 1921.

MRS. HENRY C. BIDDLE

Mrs. Henry C. Biddle, for many years a resident of Riverton, died Sunday morning, January thirty-first, at the residence of her son-in-law and daughter, Mr. and Mrs. Myers Filler, Wynnewood, Pa. Mrs. Biddle was in her seventy-sixth year and was in ill health for some time, but in spite of that fact, she died Riverton just a week before her death.

In 1922 when Mr. and Mrs. N. Myers Filler left Riverton, Mrs. Biddle broke up her home at 201 Bank avenue and moved to Wynnewood to live with them. But she never lost her interest in her home town and was always eager for "Riverton news." She was associated for many years with the Forch Club and was a member of the Westfield Monthly Meeting of Friends.

She is survived by three sons and two daughters, H. Melvyn Biddle, of Riverton; Mrs. N. Myers Filler and Mrs. Walter G. Page, of Wynnewood, Pa.; Henry C. Biddle, Jr., of St. David's, Pa.; and Robert Ralston Biddle, of Philadelphia. Ten grandchildren and one great grand-child also survive her.

Funeral services were held at the residence of her son, H. Melvyn Biddle, 201 Bank avenue, on Tuesday, February second, at 2 p. m. Interment at Westfield Friends burying ground.

SACKS TO RUN

Palmyra Boy Chosen Member of Mercersburg Relay Team

Harold B. Lever received a letter early this week stating Harris Sacks had been picked as a member of the Mercersburg Academy one-mile relay team.

Sacks, who is the son of Mr. and Mrs. Fred Sacks of West Broad Street, is a protégé of Boots, the former Penn track captain and intercollegiate sprint champion. Harris was member of the Palmyra High School track relay team which won the National Class B one-mile relay at the Penn Relays, last year.

The Mercersburg, which is made up of former scholastic stars such as Sacks, will open its season today (Thursday) in the Millrose games at New York. Mercersburg will compete with the country's outstanding schools for the national indoor one-mile relay championship.

Frances Ruppert, another former Palmyra High School star, will run in the Millrose games. She is a fair track jumper and will run with the all-American girls' relay team which will meet Canada's ladies of the spiked shoes. The international race in which Frances will run will be one of the features of the big meet.

Almost two-thirds of the student body of Transylvania College, Kentucky, earn by their own labor all or part of their college expenses.

Some of Directors Wanted To Foreclose Mortgage and "Make Some Money"

FIGHT FOR CONTROL AT
ELECTION, FEBRUARY 18

Charles A. Wright, president, and Samuel S. Daniels, secretary, of the Tacony-Palmyra Ferry Company, have issued statements in which they tell the "inside story of a movement on foot to wrest the control of the company from the present management."

They refer to the activities of a "so-called stockholders' committee," which is soliciting proxies to be voted at the annual meeting of the company, on February 18, in a recent newspaper advertisement, signed by members of the company's executive committee—Mr. Wright, Mr. Daniels and Charles L. Asam. It was stated that the stockholders' committee had no authority from the company.

Both Mr. Wright and Mr. Daniels name R. M. Hollingshead, a director of the Ferry Company and president of the Palmyra Realty Company, as the leader of the opposition. Mr. Wright says that Mr. Hollingshead and his attorney, William Clayton Jones, are "hiding in the background" and seeking to gain control of the Ferry Company through the foreclosure of a mortgage of \$112,800.

According to Mr. Wright, Mr. Hollingshead and Mr. Jones own two-thirds of the stock of the realty company, which in turn holds the \$112,800 mortgage against the entire assets of the Ferry Company.

Part Payment for Farm
"It is a purchase money mortgage," said Mr. Wright, "given in part payment for the Hubbs farm directly opposite and across the river from the Pennsylvania terminus of the ferry. The company is very anxious to move its Jersey terminus to the Hubbs farm and operate from Eight-Mile-Point. It would mean a direct route of 2000 feet instead of our present round-about route of 4800 feet and suffer the loss of an enormous saving to the company."

"The Hubbs farm cost the Ferry Company \$125,000 and the Palmyra Realty Company bought it for only \$15,000. I am a minority stockholder in the realty company to the extent of one-sixth share and find it very hard to have the ground leased to the Ferry Company on a 99-year lease at \$1 a year. Strange to say, when I finally did get consent of the realty company to the \$1 a year lease, John H. Shook, former president of the Ferry Company and then chairman of a committee of four, of which I was a member, rejected the \$1 proposition emphatically."

"In the meantime Mr. Hollingshead and Mr. Jones secured two

P. H. S. Varsity Defeats Scrubs

High School Second Team, However, Bows to Winkie's Stars

A pickup team of members of the Alumni Association and town boys was defeated, 27-7, by the Palmyra High School varsity quintet last Friday evening. Palmyra High was scheduled to meet Langhorne (Pa.) High but due to poor traveling conditions the Pennsylvania team was unable to get to Palmyra.

Winkie's V. M. C. A. second won its eleventh straight by defeating the High School reserves.

The general all-around team work, crisp passing and pretty shots of the varsity ended it to run up the top-added score against the pickup opposition.

Russ Davis and Ray Lamont featured for the pickups. The other players who looked good were Jimmie Burr, Ed Palphreyman and Ted Hudson.

The battle of the evening was between the two scrub teams. Both entered the cage with a clean slate. At half time it looked as if the "V" players were to suffer the loss, for the Morsemen were leading 5 to 3.

With the beginning of the second half Winkie's men unleashed a brilliant attack and swept the high scrubs off their feet with the most spectacular passing seen on the floor this season. Winkie's team was somewhat handicapped in the initial canto for it is accustomed to playing Eastern League Rules, but had to play this game under 50-shot rules. Becoming more familiar with the rulings, the "V" boys fared better all around in the closing minutes of the furious battle.

Burke's dazzling shooting was the feature of the game, while Middleton, MacCorkle and Jenkins played a pretty passing game for the winners. Branson carried off the honors on the attack for Palmyra High and West and Reed were his co-stars.

Winkie's "V" team recently merged with the Baker Blue Sox and the combined stars of the two clubs will represent the Blue Sox in the Strawberry and Clothier Tournament which Palmyra has great hopes of winning.

Last year the Blue Sox was the last out-of-town club to be eliminated and is considered one of the strongest contenders for the title this season.

The merged teams will meet Raymond A. A. of West Philadelphia, runners-up in the S. & C. tourney last year, Thursday evening, and Lansdowne Saturday night. Both games will be staged in the Temple. Both the varsity and scrub teams will meet the visiting first and second fives.

Contents are pending with the Crystal Ice Company, of Atlantic City, which plays preliminary games to the Morris Guards on the Steel.

Dr. Lamb Writes Interesting Letter from Pasadena, Calif.

Tells of Historical Centers in New Orleans and San Antonio Viewed During Trip

Dr. Ridgeway H. Lamb, of Palmyra, has written the following letter, which was published last week in the New Egypt Press:

To The Press:—
The steamship Creole, which left New York at noon Saturday, December 12th was due to arrive at New Orleans on the following Friday at 8 A. M., which makes the voyage a little less than six days in duration. It goes without saying that the minute as well as the hour was observed in the matter of arrival for in these modern days steamships run with the same adherence to schedule as do railroad trains.

Leaving port at noon means that the propeller begins to move at just six minutes past eleven and it ceases to move at its destination at just about six minutes past seven. This needs to be so where steamers and trains are run in conjunction.

The Southern Pacific System is one of the greatest in this country. It has a very fine equipment and very extensive areas stretching from coast to coast. I take notice that they do things very well. Passengers are well looked after. I took mental note of the fact that on the morning of arrival a placard appeared in my room with a new legend, thus "Have you forgotten anything?" Please take another look around.

No doubt this precaution is based upon past experience. It is a fact of very frequent occurrence that passengers leave something behind them on departure. A comb, brush, umbrella, overcoat, or some such article is very often forgotten in the hurry and excitement of departure.

A Real Southern City

New Orleans is a real genuine Southern city. It has about a quarter of a million of inhabitants and is a commercial city of very considerable consequence since it is the outlet and shipping point of the products of the whole Mississippi Valley, which is about the most extensive and important agricultural section in the world. It has a very interesting history which extends back to 1718, when it was founded by Jean de Bienville. Three years afterwards it became the capital of Louisiana.

In 1762 it was sold by the French to Spain. In 1803 it came into the American Union by means of the Louisiana purchase. It was here that General Jackson fought his famous battle with the British veterans of the Peninsular War, and was very successful in his military tactics of utilizing cotton bales as a fortress of defense for his little army of frontiersmen. It is considerable of a winter resort and during the annual carnival it is said to be thronged with visitors.

I did not stop there long enough to see much of the city as my intention is to return to my home town by way of the first available train and started out on my long road reaching across the continent. I never before have been in that section of our Southland, and was therefore very much interested in riding through sugar growing estates representative of the historic plantations of antebellum days and the real typical Uncle Tom's Cabin and the Aunt Jemima's and the pickaninnies.

Many Refineries

I find that they now have sugar refineries all through that section, which is a great advantage over having to ship the raw sugar North to be refined and then ship it back again in the form of the refined product for home consumption. The land is very rich and productive in that region. The soil has been carried down and deposited by the river during the ages of the limitless past.

Scientists, I believe, claim that the mouth of the Mississippi was at the point where the city of St. Louis now stands. Cotton is also another important crop that is produced in Louisiana and the price of it is rather high just now. This is due to the fact that the state pretty much to make the state pretty prosperous. It took the South about half a century to recover from the shock of the Civil War, but it has reached the point now when it has become quite prosperous again.

It is a long stretch of level country until the great state of Texas is reached. This is a country of itself larger than France or Germany. Its area is 266,896 square miles. It was formerly a part of Mexico, but in the early settlement of North America it was inhabited principally by Indians and some Mexicans, but American settlers got in among them and they were not particularly congenial to the Mexicans which in the course of time led up to a pretty strong anti-American sentiment on the part of the Mexican Government.

Remember the Alamo

Many of these American settlers were domiciled in and about San Antonio, which was an outpost of civilization. Indians thereabouts were rather numerous in those days and the ancient Spanish mission called the Alamo was used as a fortress of defense against their hostility. In the course of time the liberty loving American settlers became rather insubordinate to Mexican rule and from a Latin standpoint became too fresh and independent to suit the Mexican authorities and early in the year 1835 an army of 4000 soldiers was sent over to her by Santa Anna "The Dictator" to straighten them out and to discipline them in the way he thought they deserved.

He took the city by assault. He was opposed by General Sam Houston with a very small force. The Mexicans erected batteries on both sides of the Rio Grande River on which the city was situated, after taking possession. The Texans, 140 in number, commanded by Colonel Travis retired to Fort Alamo, which is an oblong structure about one acre in extent. It is surrounded by a wall eight or ten feet high and three feet thick.

Here they withstood a siege of several weeks duration and from the ramparts inflicted great loss upon the Mexican Army by means of sharp shooting. Finally the army was assaulted by the whole Mexican army before daybreak when a tremendous conflict ensued. The Texans fought with great desperation

Survivors Massacred

These finally agreed to surrender with the proviso that they should be conducted to a place of safety. This was ostensibly agreed to but when they had given up their arms Santa Anna decreed that they should be killed. They were taken out and shot. The Mexicans lost about 16,000 men. As a culminating point to this horrible massacre the bodies were mangled and thrown in a pile and burnt. The Alamo is now a museum and belongs to the city. Many interesting relics of that early period are on exhibition. The names of those who lost their lives are engraved upon brass plates and adorn the walls of this ancient structure. I noticed among them James Bowie of "bowie knife" fame and David Crockett, both notable frontiersmen.

This act of treachery on the part of the Mexicans ultimately resulted in their undoing for General Houston recruited his depleted army and went for the Mexicans in great shape. Enthusiased and inspired by the slogan "Remember the Alamo" he defeated Santa Anna at the battle of San Jacinto and made an effective clean-up of Mexican authority in part of the world and the Texans freed themselves from the tyrannical rule of Mexico in the same year 1836 and became an independent republic. It was known as the lone star state. It had a blue flag with a star in the center. Ultimately, however, it voluntarily joined the American Union.

For 850 Miles

The Southern Pacific or Sunset Route, traverses this vast domain for a distance of nearly nine hundred and fifty miles. Although a large portion of this is sparsely populated it has several quite populous cities. Beaumont has a population of 47,159; Houston, 204,580; Galveston, 55,138; Fort Worth, 175,000; Dallas, 246,000; Austin, 55,728; Waco, 50,000; Shreveport, 68,512; San Antonio 197,000 and El Paso has more than 100,000.

There is plenty of room in the state for the entire population of the United States. I made a continuous run to San Antonio, a distance of 573 miles where I arrived in the early morning and stopped over for twelve hours which gave me a fine opportunity to see the city which is well worth while for it is a thriving commercial center and considered a very desirable place of residence.

It is a railway center surrounded by a vast and fertile domain. Farm products of cotton, cattle and wool make it a shipping and manufacturing center of considerable importance. Fort Sam Houston located there is one of the largest military posts in the country and the largest flying field in the world in Kelly Field near by. It is visited by thousands of tourists on account of its ever moderate and salubrious climate.

I was greatly surprised to find such a beautiful and populous city in this region. It has fine wide and well shaded streets and numerous parks (about 20 in all) modern skyscrapers, large hotels, ancient missions, beautiful public buildings and everything up-to-date. I visited Brookhollow Park which is quite extensive and contains a fine Zoological Tea Garden and a sunken garden where aquatic plants of great beauty are blooming and everything is gotten up in the most artistic and aesthetic style, so characteristic of the Japanese who are undoubtedly the most wonderful landscape gardeners in the world.

HONOR CHANCELLOR

Chancellor Edwin R. Walker will be the guest of honor of the South Jersey Bar Association at its annual banquet in the Hotel Wallt Whitman, Camden, February 11. More than two hundred lawyers and legal officials from all parts of the area south of Trenton are expected to attend the affair, which is an annual event always looked forward to by members of the profession.

Governor A. Harry Moore, Owen J. Roberts, attorney for the Federal government in the Teapot Dome cases, and Albert C. Waldo, Jersey City, president of the State Bar Association, will also address the South Jersey attorneys. Former Judge William T. Boyle, president of the Camden County Bar Association, will preside as toastmaster.

PROGRESSIVE FINANCING

Ten years ago the idea of having employees and customers own a large percentage of the stock in leading public utility and industrial corporations, was scarcely thought of. Today such stock ownership is so well established that it is a standard method of financing.

A recent survey of a group of utility companies, typical of the electric light and power, gas, and telephone industries shows 47,654 shares sold to 7,746 customers and employees during 1925, as compared to 36,156 shares sold to 4,185 similar purchasers in 1924. Of the 47,654 shares, 38,849 were sold to customers, 5,660 to employees, and 3,145 to 1,765 unclassified persons.

County Boards of Agriculture maintain in a statement this week to its membership. Substantiating this view, the Federation calls attention to the State Crimes Act which authorizes a penalty of not more than \$1000 fine or not more than three years imprisonment or both. If the value of the stolen goods is less than \$20. If the value of the stolen property is more than \$20, the law provides a penalty of not more than seven years imprisonment or not more than \$2000 fine, or both.

Y. W. C. A. Notes

Burlington County Y. W. C. A. will be well represented at the High School Conference to be held in Atlantic City, Feb. 5th-7th. The subject of the conference is Christian Citizenship and the theme, "Weave well the pattern of thy life."

The delegates from Burlington County will be accompanied by Miss Sallie Sumner, executive secretary of the county, Miss Helen Hoff, Girl Reserve Secretary, Miss Mildred Purnell, County Chairman of Girls' Work. Delegates from the High School clubs are Misses Emily Comely, Ruth Stephen, Hartford; Virginia Good, Florence Freeman, Riverton; Sara Matchett, Juliet Robinson, Moorestown; Phyllis Bozarth, Ramocas; Eleanor Van Alstyne, Beverly; and two delegates from Mt. Holly and Burlington. The Atlantic City Y. W. C. A. will entertain the conference at a reception at Hadron Hall on Friday evening.

Mrs. Edward Harmer entertained the Girl Reserves of Moorestown at her home on Central Avenue on Thursday afternoon. Progressive games were played and the girls had a jolly time picking up shots with tooth picks, peanuts with hat pins, and other interesting contests. After an hour of games the room where cocoa, sandwiches, ice cream and cake were served. The girls left reluctantly at six o'clock declaring that they had never had such a good time at a party.

The Y. W. C. A. Council of Moorestown met at the home of Mrs. Henry F. Stockwell on Thursday morning. Mrs. Stockwell is chairman of the council. Margaret Thomas, secretary, Mrs. Edward S. Harmer, is the representative of the council on the Executive Committee of the Community House. Other members of the Moorestown Council are Mrs. F. Wallis Armstrong, Mrs. Harvey Horton, Mrs. Lester Collins, Miss Marguerite Lipincott, and Miss Mary Rhoads.

The Girl Reserve Committee of the Burlington County Y. W. C. A. met at the club house on Paxson Ave., Mt. Holly, Saturday morning. Mrs. Myrtle Simons opened the meeting with a short period of worship. Miss Mildred Purnell, County Chairman of Girls' Work, explained the plan for leaders meetings which will be held by districts during the months of February and March. The leaders' meeting which have been held monthly since October have been well attended and have been a great help to both leaders and clubs.

Miss Purnell expressed deep appreciation of the work being done by the club leaders in the county and of their splendid co-operation with the county secretaries.

The reading course for club leaders has been distributed on very attractive folders and the books included in the list are the best books published for leaders of girls' clubs. Mrs. Harold Horner, president of the Mt. Holly Y. W. C. A., has been invited to speak at the Parent Council of Philadelphia on Tuesday, Feb. 9th. Mrs. Horner will give a report of the work being done by the Y. W. C. A. in Mt. Holly. The Willingboro Senior Club of the Y. W. C. A. has twenty active members enrolled. The officers of

the club are, President, Elizabeth Stuart; vice-president, Donalda Bertrand; secretary, Anna S. Bell; treasurer, Isabel Curry; leader, Marion Stuart. The club has a fine basket ball team and they have made a good record this season.

FRENCH CHALK FOR CLEANING WALL PAPER

"When some member of the family has been unfortunate enough to spot the wallpaper with furniture polish, don't waste any time fretting or scolding about it," says the state specialist in home management, Mrs. Marion C. Bell. "Instead of that apply some French chalk as quickly as possible. If you haven't any on hand, perhaps you live near enough to the drug store to get some in a short time. Spread news-papers on the floor, then take a cloth and pack the dry chalk (as much as you can make stick) on each spot. Allow it to remain on the spot about twenty-four hours, then brush off. If any of the spot remains, pack on fresh, dry chalk. "This treatment may not remove spots made by all polishes, but we have used it successfully; during the past month. Furthermore, there is nothing in the chalk that will do any harm to the most delicate wallpaper."

NEW STOCK ISSUE

At a meeting held in Newark today, Tuesday of last week, the Board of Directors of Public Service Corporation of New Jersey, authorized the issue of 153,815 shares of no par value common stock at the rate of one share for each ten shares of either common or preferred stock outstanding on February 5, 1926.

The new issue will on this basis be in excess of 153,815 shares. Holders of common and preferred stock of record as of February 5, 1926, were given the right to subscribe at the ratio of one share of the new common or preferred stock owned on that date. The subscription price was fixed at \$80 per share. Rights expire and stock to be paid in full on or before March 31, 1926.

UNDIMINING GOVERNMENT

During the past year more than 1,400 bills seeking to regulate the insurance industry have been submitted to the legislatures of the various states, and more than 100 proposals to create direct state monopolistic insurance funds have been

Sales People Wanted Male and Female All or Part Time

To represent the largest concern of its kind in America.

To assist in developing the biggest project of its kind in New Jersey.

To fill a position you will shortly be proud to fill because

of the associations you will have.

Of the financial benefits you may secure for your friends and relatives.

Of the very material increase in your own income which determined effort must produce.

Addressing the Insurance Federation of America at its annual get-together dinner, James B. Emery of the National Association of Manufacturers, said:—

"Whatever could be said of the entrance of government into the field of manufacture on a commercial basis, there is far less that could be advanced in support of any proposal to make any unit, state or national, of the federal government an insurer, and if one turns back to the argument, it seems to me that he must go beyond the mere suggestion that the government ought not to compete with its citizens. The issue is far more fundamental. It is an issue that goes to the very roots of the purpose for which this government exists, because the purpose of the American Government is political and not economic."

Bridgeboro Man Held in Rum Case

Charles E. Sharp, Arrested in
Maryland, Believed To Have
Much Information

Judge Slaughter handed out some stiff sentences on Thursday, most of them being caused by offenses against the Prohibition laws.

Charles E. Sharp, of near Adams' Wharf, who resided in two tenant houses on the Wilmer Ruff farm and disappeared soon after the rum barge raid, being apprehended at Cambridge, Maryland, early last week, was brought to court to plead to an indictment charging conspiracy to defeat the aims and purposes of the Prohibition laws, and through his counsel, Robert Peacock, pleaded not guilty.

Mr. Peacock then attempted to have his client released on bail, but the Court demurred and deferred this phase of the case until Judge Leroy W. Lederer, the special investigator, could be heard from.

Later in the day, an Attorney Peacock's solicitation, Judge Lederer came to Mount Holly and recommended to the Court that the bail be fixed at \$20,000. Representatives of the Detroit Casualty Company were present and agreed to furnish the bond, but Judge Lederer insisted that it be cash bail and after argument it was decided that the representatives appear at the Court House Friday morning with the \$20,000 in cash, or Liberty bonds, which they agreed to do.

Wants to Get Family

Attorney Peacock assured Judge Lederer that Sharp was desirous of returning to Cumberland, Maryland, where he has been hiding, and with his family would return to Burlington county immediately.

Sharp was arrested by Department of Justice men and taken to Trenton on Tuesday, where it is said he made a statement over his own signature which throws considerable light on the rum barge matter and which will be of assistance to Judge Lederer in his investigation of certain county officials.

John J. Johnson, a former proprietor of the Arcade Restaurant, in Mount Holly, and in Court on his third trip for violation of the liquor laws, went to jail for sixty days on the charge of sale and sentence was suspended on the charges of maintaining a house and possession of liquor. Judge Slaughter was well acquainted with this case and severely reprimanded Johnson, closing his remarks with a statement that if he ever came before him again he would be sent to state prison.

The Court also took occasion to state that he was of the opinion that Johnson was only the goat in the case and that the real culprit was the famous Arcade Restaurant was still being run on open lines, it having been brought to his attention that no less than fifteen men staggered out of the place one day this week, and he advised the prosecutor to see that Mr. Marren, the owner, was immediately notified, if he did not know conditions existing there, and to assure him that unless he got rid of the undesirable tenant the place would be immediately padlocked.

Pleads non vult

Richard Gamigan, alias Grant, alias Young Griffo, of Leola, also retracted his plea of not guilty to possession of liquor and pleaded non vult. Due to some argument as to whom belonged the liquor, he was driven by him and confiscated by the county, his sentence was deferred.

John Stanton, of Beverly, who claimed ownership of the liquor found in the Burlington House and through whose testimony Harry O'Neil, the proprietor, escaped punishment, received a suspended sentence, he having served nearly three months in jail.

Lewis Scott, of Camden, charged with breaking, entering and stealing \$400 worth of tires and tubes from the McCoy Service Station at Cinnaminson, retracted his plea of not guilty and pleaded non vult and was sentenced to the State Reformatory at Rahway.

George Zimmerman, of Camden, indicted with Scott, and also charged with breaking and entering the refreshment stand of James E. Reid, on the South Pennock road near Pemberton, pleaded guilty and was also sent to the Reformatory.

Beverly Man Acquitted

The case of William Leslie, of Beverly, charged with assault and battery, was heard by a jury and the verdict was not guilty.

George Dawson, of Burlington, made a retraction of his plea of not guilty to a charge of assault and battery, and was placed on probation for two years and must pay the costs.

Charles Kropus, of Burlington, charged with possession of liquor, made a retraction of his plea of not guilty and pleaded guilty. He was fined \$200.

FRY-McCORD

Mr. and Mrs. William G. McCord, of Horner, announce the marriage of their daughter, Helen A. McCord, to Wilbur H. Fry, son of Mr. and Mrs. Albert E. Fry, of Morgan Avenue, on January 23.

The young couple were married by the Rev. Harry L. Hall at his home on Gardell Avenue.

A school for the training of colored librarians has been established at Hampton Institute, Virginia, through the cooperation of the Carnegie Foundation. One year of college training is required for entrance.

CONSUMERS SAVE

By lowering cost of production, the manufactured gas industry is reducing price to consumers. Two hundred thirteen gas companies, representing 99 per cent of total sales of gas, reported ratio of expenses to gross revenue in 1925, as 55.4 per cent, against 59.6 per cent in 1923.

Ratio of taxes to gross revenue of 5.3 per cent represents a heavy burden for the gas companies.

A Faithful Friend

By Lawrence Hawthorne

We ain't much on goin' places
Like so many does today;
Ma an' me has got the notion
Home's a darn good place to stay!

No, we don't see many people
An' we seldom gets to town,
But the way we're livin' gives us
Little cause to fret an' frown.

Some folks maybe gets to thinkin'
We don't know what's goin' on—
Or at least we ain't be'n told it
Till a thing is past an' gone—
But them days has long since ended,
Makes no difference where you be,
So don't waste yer idle moments
Feelin' bad fer Ma an' me.

We don't miss the roar an' racket
Folks in town is forced to stand,
And we ain't got greedy strangers
Crowdin' us on every hand.
No, we—Well, here comes the mail man!
He's a mighty faithful cuss;
Look at all the readin' matter
That he's leavin' here for us!

A SCHOOL FOR YOUR SON

"Ask a Parent Who Knows" The
U. S. School of the Navy

What Irvin S. Cobb, one of our ablest writers says about YOUR NAVY:

It has been my very good fortune to be thrown with the men of OUR NAVY in peace times as well as in war times. I never met a member of that NAVY of ours, whether officer or enlisted man, but who seemed to me a better man for wearing the uniform than he otherwise would have been.

There is something about the naval game which makes a young American courteous and prompt, which gives him ambition and a sense of responsibility, and finally, which makes him realize how great an honor has fallen to him; in that he is serving his country under circumstances calculated to add to the mental and physical measure and to increase the self respect of any freeman citizen.

If I had a son growing up I would ask nothing better for him, in the character forming years of his life, than that he might serve a term of enlistment as a sailor in our Navy; for I know full well from what I have seen of the workings of our Navy, that such an experience would bring out and develop his manhood, his energies and his activities, that it would teach him discipline and respect for order and system, and that most of all, it would impress upon him in the impressionable time of his youth, that lesson which every one of us who hopes to succeed in life must learn, namely: that no man is fitted to give orders until he has learned how to take them and obey them.

Ask a parent who knows, surely there is one amongst your acquaintances who has a son wearing the uniform of our Navy, who is safely launched in a career worth while, satisfied that his son has gotten his stride and will become a successful self respecting man and citizen.

For further information call or write the Navy Recruiting Officer, Navy Recruiting Station, Post Office Building, 3rd and Arch streets, Camden, New Jersey, the only Navy recruiting station in South Jersey.

These hundred and fifty foremen of industrial plants in Pennsylvania are enrolled in the engineering extension department of Pennsylvania State College. This has proved one of the most popular forms of industrial service offered by the college, and eight new foremen-training classes, it is many different industrial plants, have recently been established.

only to the Forestry Division of the Department but to all owners of New Jersey woodland in being secured from these experimental plots with respect to the most suitable species of trees to grow under a wide variety of conditions and also concerning the best methods of thinning and handling woodland areas.

New Jersey Streams

Computations of the flow of New Jersey streams for 1925 are now being completed by the Water Resources Division of the State Department of Conservation and Development working in cooperation with the U. S. Geological Survey, O. W. Hartwell, District Engineer, of the U. S. Geological Survey, has charge of the collection and compilation of the data.

Thirty-seven stations have been established on streams in all parts of the State and from these careful and continuous records of flow are obtained. About three-fourths of these stations are equipped with automatic instruments which make a continuous record of the stage of the streams. At several of the stations low wells or controls have been constructed to insure the necessary accuracy and affect reduced operating costs.

Records of the flow of streams are essential for a complete inventory of the water resources of the State. These records are in constant demand by engineers who are selecting and designing new sources of water supply. It has been found that the flow of any stream changes so much from day to day, from month to month, and even from year to year, that a short record cannot give a true measure of a stream.

1925 Driest

In general 1925 was the driest of the last twenty years while the average flow for 1924 was almost fifty per cent larger.

In 1925 the records show the tributaries of the Delaware produced about ten per cent more water than in the driest year, and the North Jersey highland streams about fifteen per cent more water, while in the central Jersey streams there was practically no difference between the two years. In South Jersey the streams were even lower than in 1923.

It will be remembered that in 1923 many industrial plants dependent on the Hackensack River for water had to shut down because of the water shortage. In 1925 the average flow of the Hackensack was 5 per cent less than in 1923. However, no shortage was experienced because of the full use of a new storage reservoir on the Hackensack, and an improvement in the distribution of the flow.

A Federal Bureau of Education, similar to the United States Bureau of Education, for the purpose of collecting and diffusing information respecting education generally, is for Australia by the Australian Teacher's Federation.

TH' OLE GROUCH

WOW! FOLKS! MEET TH' OLE GROUCH! THATS ME! IM A HARD-BOILED OLE BIRD, BUT YOU'RE GON' T LIKE ME BECAUSE I SAY TH' THINGS YOU'D OFFER LIKE T SAY IF YOU HAD TH' NERVE! I GOT TH' NERVE! LEAVE IT T ME!

The boys will probably say they can never get to school on time until they are provided with automobiles for that purpose.

The fappers will soon be growing up and complaining of the decadence of the younger crowd.

British liquor exports in 1924 totaled 8,372,936 proof gallons.

NOTICE

All readers or local notices of entertainments, suppers, fairs, dances, etc., given for the purpose of raising money, will be charged for at the rate of fifteen cents a line.

THE QUESTION BOX

What Cracked the Liberty Bell?

Reader, Five Points—Pictures of the Liberty Bell shows a large crack. Why is that?

Ans.—The Liberty bell was cracked under the stroke of the hammer in 1835 and was never repaired. The bell has been transported to a number of exhibitions, but the custodians guard it carefully to see that it is kept in its original condition.

Sweden and Denmark

George, Palmyra—May I ask in your paper when Sweden and Denmark became Christian countries?

Ans.—In the year 824.

July 7, 1898

A. B. Cambridge—When were the Hawaiian Islands annexed to the United States?

Ans.—On July 7, 1898.

Cause of Rain

M. E. Riverton—Will you kindly inform me through your worthy paper what causes rain?

Ans.—Rain is the return to earth in condensed drops of vapor which is continually arising in the atmosphere, by a collision produced by contrary currents, or by a cloud passing into a cold stratum of air.

Yes, for Amount Due

Reader, West Palmyra—Can I take a lien upon a horse that I shod if the owner does not pay?

Ans.—Yes, you can take a lien upon the horse for the amount due you for such services.

Shock Absorbers

D. S. Palmyra—What is the latest and most useful invention?

Ans.—Shock absorbers for aeroplanes.

In Hungary

X. Y. Z. Riverton—Tell us through your columns, where are the Carpathian Mountains?

Ans.—They lie chiefly in Hungary.

Probably Wet

A. F. Palmyra—Do you know whether George Washington was "wet" or "dry"?

Ans.—No records exist to establish a fact, except that in his will he bequeathed "his distillery to his wife."

Snow or Ice Shoe

B. P. East Riverton—How is "ski" pronounced, and give a good definition of the word?

Ans.—Ski is pronounced as if it was spelled "skay." The ski is a Norwegian snow or ice shoe used for sliding, and consisting of a long narrow wooden runner to which the foot is attached slightly in front, leaving the heel free.

Good English

B. D. Palmyra—I would like to ask if this expression is correct: "He had ought to go home."

Ans.—No, because "had" is used with the past participle of the principal verb to form the compound tense. "Ought" is a defective verb and has no participle, therefore "ought" cannot be used with "had."

CHAUTAQUA

Annual Presentation in Palmyra and Riverton Successful

Palmyra and Riverton folk seemed to deeply enjoy every one of the Chautauqua programs which were given Saturday, Sunday, Monday and Tuesday evening with a program of magic, mystery and mirth.

Every presentation drew a large crowd, the largest attendance being 219 while the largest was 224. Financially, the Chautauqua "went over the top," says Mrs. Frank N. Johnson, secretary of the guarantors. A statement of the finances, showing just how much the beneficiaries, the Palmyra Ambulance Association and the Riverton Free Library, will receive, will be given at a later date.

Since the Chautauqua was so well received this year the contract was signed for the 1927 presentation before the leaders left town.

MISS IRMA BOEHME

Mrs. Irma Boehme, 32 years old, died at the Cooper Hospital, Camden, Monday afternoon following a short illness.

Funeral services will be held at her late residence, 602 Linden Avenue, Riverton, Thursday afternoon at 2 o'clock with the Rev. Fred B. Morley, pastor of the Epworth M. E. Church, officiating. Interment will be made in Morgan Cemetery.

Mrs. Boehme, who was a member of Epworth Church, is survived by her husband, Paul J. Boehme, her mother, Mrs. Rebecca Greut, of Palmyra, two brothers, Harry G. of Riverside, and Ledy, of Palmyra, and one sister, Mrs. Edith G. Liggett, of Riverside.

Mrs. W. Huxley entertained the Monday evening "500 club" this week.

Riverton Items

Mrs. L. W. Hampton entertained friends at cards on Saturday evening.

Mr. and Mrs. L. W. Hampton entertained friends from Philadelphia on Sunday.

Mr. and Mrs. Leon Sloan spent the weekend with friends in West Philadelphia.

Mr. and Mrs. John Kerrigan spent Sunday with relatives in Atlantic Highlands.

James Cunningham and daughter, Miss Louise, returned home on Friday from a trip to California.

Mrs. Paul Barnhart has just returned from New York where she spent the greater part of the winter.

Mr. and Mrs. Isaac Woolston, of Ashbury Park, were in Riverton on Tuesday on their way to Miami, Florida.

The regular meeting of the Golden Hour Circle will be held Friday evening, February 5, in the Presbyterian chapel.

A meeting of the Riverton Chamber of Commerce will be held in the Riverton firehouse at 8 o'clock this evening.

Walter G. Miller has been appointed janitor of the fire house and will have charge of keeping the fire apparatus clean.

Mayor Fred P. Hemphill and Mrs. Hemphill are planning to take a boat trip to Galveston, Texas, leaving Riverton on February 10.

Harry Hebrew, son of William Hebrew, 610 Elm avenue, joined the coast guards on January 26. He is stationed at New London Conn.

Mr. and Mrs. Ross Evans and children, and Mrs. Edwin Evans spent Sunday with Mr. and Mrs. W. L. Caskey, of Frankford.

Mr. S. W. Menessee, who has been spending a few days with his sister, Mrs. L. E. Carpenter, returned to his home in New York City on Wednesday.

Miss Mary E. Steele will be the leading lady in the musical comedy, "Miss Bob White," to be produced by the Riverside American Legion February 11 and 12.

A bicycle belonging to Allen Hemphill was stolen from his back yard on Tuesday. This is the second wheel he has lost in this way within a short time.

Audrey, 5 months old daughter of Mr. and Mrs. James Kerrigan, of Atlantic Highlands, died Saturday. Interment was made at Calvary Cemetery, near Camden, on Monday.

Robert Turner's wife and six children had a narrow escape from asphyxiation by coal gas Monday night. They probably owe their lives to the fact that two windows were open in their sleeping rooms. Turner had banked the fire with soft coal and turned the damper partly off.

The Golden Hour Circle of Calvary Presbyterian Church will give a concert by the Temple Quartet of Philadelphia, Tuesday evening, February 16. Adults 50 cents, children 25 cents.

Dr. Mary Rushmore, of the Maples Apartments, Riverton, was taken to the University of Pennsylvania Hospital, Philadelphia, Tuesday afternoon in the Palmyra ambulance. The machine was driven by Joseph L. Stack and Mrs. James T. Weart was the nurse.

There has been quite a boom in building operations in Riverton recently. George Jessup, of Camden, has a new house well under way on Golf Road facing the Country Club. Henry and William Chalmers is also building a house on the same street.

It is reported that Charles W. Wanger is planning to build on Golf Road near the woods in the spring.

J. L. Lippincott has erected a number of very attractive houses on Cherry Lane, and it is beginning to look as though folks around here have decided to act on the slogan, "Forget Florida and Boost Riverton."

John C. Hinkle desires to express his thanks to the Riverton and Palmyra fire companies for their prompt and efficient service at the fire which partially destroyed his home last Thursday night, and to the neighbors for their kindness.

CALVARY PRESBYTERIAN

Calvary Church bids you welcome to its services and to its fellowship.

Next Sunday the pastor will preach at the morning worship at eleven o'clock. There will also be a short sermon for the children.

Sunday School at ten o'clock. Bring the children and stay with them for the morning worship.

Christian Endeavor at 7:15.

Instead of the usual evening prayer service, at eight o'clock, the young people will observe "Young People's Day" by presenting a worship programme in pageant, entitled "The Heart of the Dream." All members of the congregation are urged to be present at the service.

The Executive Committee of the Burlington County Christian Endeavor Union will meet at the Parry Moravian Church on Tuesday evening, February 9th, at eight o'clock. The pastor calls attention to the mid-week service on Wednesday evening in the chapel at eight o'clock, at which time the study of the Book of Acts will be continued.

NOTICE

Notice is hereby given to the legal voters of the School District of the Borough of Riverton, in the County of Burlington, that the annual meeting for the election of four members of the Board of Education will be held at School House, on

TUESDAY, FEBRUARY 9, 1926
at eight o'clock p. m.

2 members will be elected 2 years; 2 members will be elected 2 years; The polls will remain open one hour, and as much longer as may be necessary to enable all the legal voters present to cast their ballots.

All said meeting will be submitted the question of voting tax for the following purposes:

For current expenses \$23,975.00
For repairs and replacements 1,000.00
For manual training 1,100.00

Total amount thought to be necessary is \$25,075.00
Dated this 27th day of January, 1926.
FRED P. HEMPHILL,
District Clerk.

NOTE—The term "current expenses" includes principals', teachers', janitors' and medical inspectors' salaries, fuel, textbooks, school supplies, flags, transportation of pupils, tuition of pupils attending schools in other districts with the consent of the Board of Education, school libraries, compensation of the District Clerk, of the custodian of school moneys and of transient officers, transient schools, insurance and the incidental expenses of the schools.

Voters twenty-one years of age or above, by virtue of the Nineteenth Amendment to the United States Constitution, may vote in any election presented at this meeting.

A member of the Board of Education shall be at least an adult citizen, a citizen and resident of the school district, and shall have been such a citizen and resident for at least three years immediately preceding his or her becoming a member of such Board, and shall be able to read and write.

Petitions, legally nominating candidates to be voted on at said meeting, must be filed with the District Clerk at least five days before the date of the meeting in order to have the names of such candidates printed on the official ballots to be used in voting. In calculating the above-mentioned five days, either the filing day or the election day, but not both, may be counted. Blank forms for this purpose may be obtained from the District Clerk.

Palmyra Notes

Mrs. B. Buchanan entertained the afternoon "500 Club" on Tuesday. Miss Ella Dika spent the week end with her sister in Philadelphia. Mrs. Eva Braddock is spending a few days in Medford visiting friends.

Mrs. Clement Vollmer, of Oakmont, spent Friday with Mrs. Elvin Powell.

Mr. and Mrs. Leon Evans and children spent Sunday with relatives in Bridgeton.

Mrs. Dayton Lamont will entertain the Stith and Chatter Circle Friday evening.

Mrs. Harry Lewis, of Olney, spent the weekend with Mrs. Emily C. Doan, of Parry avenue.

Mrs. I. U. Korahner, of Columbia avenue, will leave Saturday on a several weeks' trip to Arizona.

Postmaster George I. Harvey and family spent Sunday with Mr. and Mrs. Walter Curby at Columbus.

George W. Rogers attended the regular weekly meeting of the State Board of Freeholders at Trenton Monday.

The Rev. E. S. Falkenstein, of Newville, Pa., will have charge of the services at the Lutheran Church Sunday.

Edward A. Lamont took Mrs. Lamont and their little son, Eddie, Jr., to Atlantic City for a short vacation Tuesday.

Mrs. Sarah Smith left on Thursday for Stonehurst where she will remain for a short time with Mr. Smith's parents.

Mr. and Mrs. C. B. Marple are receiving congratulations on the birth of a son, C. Bertram, Jr., Wednesday morning.

Former Freeholder George W. Rogers has become affiliated with the Palmyra-Riverton Realty Company as a salesman.

The Win-A-Chum Class of the Methodist Sunday School was entertained last Friday evening by their teacher, Mrs. William Wilbraham.

At a meeting of the Lamont Investments, Inc., last Thursday afternoon George D. Steele was elected president, succeeding J. A. Lamont, whose resignation was accepted.

Milton Romm, son of Mr. and Mrs. Sol Romm, was admitted to the Pennsylvania bar Monday. Attorney Romm is associated with the law firm of Congressman Benjamin Golder, in Philadelphia.

The regular monthly meeting of the Palmyra Ambulance Association will be held at the Palmyra police headquarters Friday evening. Geo. N. Wimer, president of the Association, has requested that all members be present.

"Daniel's Visions" will be the lesson subject of the Wesleyan Bible Class at its next meeting, at the Temple at 10 o'clock Sunday morning.

The Rev. J. B. Whitton, the teacher, says a hearty invitation is extended to all men.

Officers of the White Shrine, a branch of the Eastern Star, will be installed at Burlington tonight (Thursday).

George W. Rogers, of Palmyra, will head the men's division of the officers in the organization.

The Rev. and Mrs. Harry L. Saul moved from Palmyra Tuesday. The Rev. Mr. Saul recently resigned his pastorate of the First Lutheran Church of Palmyra and Riverton and took up his duties at his new charge, the Bedford Lutheran Church, on Thursday of this week.

The members of the Palmyra Fire Company wish to publicly thank Mrs. Friebofer, of Thomas avenue, Riverton, for her thoughtfulfulness in centering a lovely coffee at the Hinkle fire on Broad street, Riverton, Thursday night of last week.

Mr. and Mrs. Walter Haines, of Market street, West Palmyra, are receiving congratulations on the birth of a ten-pound son, Francis Joseph, last Friday.

Mrs. Haines will be remembered as Miss Florence Gorman, daughter of Mr. and Mrs. Joseph Gorman, of Rowland street.

Camp 59, P. O. of A., of Mount Holly celebrated their 12th anniversary Wednesday evening. A delegation of Camp No. 3, P. O. of A., of Palmyra attended. Mrs. Nettie Bowker, National Secretary, and a number of other national officers were present and participated.

A surprise aluminum shower was tendered Mr. and Mrs. Wilbur H. Fry by the Palmyra All-American Club in the club rooms Saturday evening. According to one of the members of the club, the young people received many useful gifts and the large, jolly crowd spent a very enjoyable evening.

Sixteen kiddies, two cousins from Audubon, five cousins from Overbrook and Little Palmyra playmates attended a surprise birthday party given Lillian Louise, little two-year-old daughter of Mr. and Mrs. William Schilling, at their home on West Broad street last Saturday afternoon. Little Lillian received many nice gifts. In the "donkey" game Margaret Saar won the first prize and the "booby" went to Ruth Schwartz.

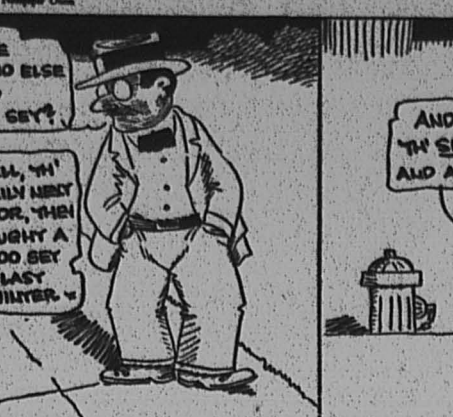

Preparations are well under way for the annual Palmyra High School orchestra concert which will be given in the high school auditorium Thursday evening, February 18, under the direction of Louis R. Richards, the leader. The orchestra numbers will be augmented by selections by the High School Girls' Glee Club, solos and readings by Miss Thekla Jones. From all indications the musical will be the finest ever, says Prof. A. S. Griffith, supervising principal of the Palmyra schools.

One of the Chautauqua guarantors has called attention to the fact that an automobile had to be moved from the curb in front of the Epworth M. E. Temple door Monday evening in order that other cars might pull up and unload. Edward A. King, who is familiar with the situation, having served as janitor of the church for some time, says thoughtless motorists frequently park directly in front of the door and make it impossible for other cars to unload at this convenient point.

YOU WILL LOVE

"Peg O' My Heart" as much as "Jerry" does when you see the play at the High School, Saturday evening, February 27, under the auspices of the Baptist young people. 100 seats reserved at 50 cents each. Tickets now! Above all, don't miss it!—A.A.V.

MICKIE, THE PRINTER'S DEVIL

This Happens Too

To Start Drive For New Hospital

Immediate Campaign To Build Bigger County Institution Decided Upon

Action taken by the Board of Council of the Burlington County Hospital at a dinner meeting at the home of Mrs. E. W. S. Brophy, at her country estate at Moorestown, on Monday night, indicates very clearly that a campaign to raise funds for a new county hospital of 100-bed type and appointments in keeping with modern practices and the also of the institution, will be launched within the next few months. This much information has been made available to give people of the county an opportunity to prepare themselves for the campaign.

The action taken consists of a decision to proceed with the work of raising a new building fund and the appointment of a building committee with authority to determine upon plans and time for the campaign. The amount to be raised and the method of procedure is left to the judgment of the executive committee, which consists of the officers and chairman of standing committees. It is expected that this committee will meet next week.

There has been much talk during the past two and one-half years without anything being done. The Board of Council has now decided that further delay will certainly not be advisable. The question of necessity has long ago been settled. The present hospital of 35-bed capacity is wholly inadequate to meet the demands of the sick and afflicted of the county and those who are connected with the management and maintenance of the hospital see no reason why Burlington county people should not come forward as they will be requested to do and make short work of a campaign. It is believed that the call will be met. The demand, it is understood, will not be unreasonable, for everybody who knows anything about the hospital work is thoroughly convinced that a 100-bed hospital will be none too large.

It is well known that many Burlington countians have been taken to Trenton, Camden and Philadelphia hospitals because their home physicians could not find accommodations for them in the Burlington County Hospital. This is one of the things that a new hospital will overcome. The medical men of the county are absolutely back of a movement that will bring about a new building and this means that when they get the modern facilities they know to be necessary they will see that Burlington county patients are given treatment in a Burlington county hospital.

Mrs. Brophy Delightful Hostess During the most delightful evening spent with Mrs. Brophy as hostess, the Board of Council organized for the year by electing the following officers: President, Franklin C. Chambers, New Lisbon; first vice president, Alfred Darrell, Medford; second vice president, Edward H. Lewis, Mount Holly; secretary, Morris K. Perinelli, Mount Holly; treasurer, A. Engle, Conro, Ranococas; solicitor, V. Claude Palmer, Moorestown; chairman finance committee, Alexander G. Wood, Jr., Cinnaminson; publicity committee chairman, Chas. La Tour, Mount Holly; property committee chairman, Charles Coleman, Mount Holly; building committee chairman, Alfred Darrell, Medford; campaign expense fund chairman, John V. Bishop, Columbus.

The building committee will work in conjunction with Mrs. Brophy and V. Claude Palmer, who have been appointed to represent the Board of Managers, and will also have the cooperation of the hospital medical board and a committee of the Burlington County Medical Society.

BAPTIST CHURCH NOTES

The Rev. George Lockett invites everyone in the community who has no church home to attend the Central Baptist Church and enter into its fellowship.

Tonight at 8 o'clock, the Thursday evening Bible Class will meet at the home of Mr. and Mrs. George Bailey, 607 Linden avenue.

Remind the children of their engagement with the other kiddies at the weekly "Happy Hour" at four on Friday afternoon.

The Young People, who meet on Friday evenings, are bubbling with enthusiasm at the prospect of the 3-act play, "Peg O' My Heart," to be given by an all-star cast in the High School, Saturday evening, February 27. All seats are reserved and tickets should be secured from the young people as soon as possible.

Sunday morning at 11:15 Pastor Lockett will have for his subject, "The Lord's Supper." Sunday evening at 7:45 the pastor's topic will be "The Preeminence of Christ."

The officers and teachers of the Sunday School will hold their monthly conference in the church on Tuesday evening. All teachers are especially urged to be present.

To encourage thrift many savings banks in Czechoslovakia give to each new pupil in the elementary schools a passbook with a beginning credit of 1 krona. The schools of the country celebrate thrift day and impress upon the children that saving insures happiness and that industry and thrift mean prosperity for the individual and for the nation.—School Life.

IMPROVED UNIFORM INTERNATIONAL

Sunday School Lesson

(By REV. F. R. FITZWATER, D.D., Dean of the Evening School, Moody Bible Institute of Chicago.)
(G. 1924, Western Newspaper Union.)

Lesson for February 7

JESUS HEALS AND SAVES A BLIND MAN

LESSON TEXT—John 9:1-41.
GOLDEN TEXT—"I am the light of the world; he that followeth Me shall not walk in darkness, but shall have the light of life."—John 8:12.
PRIMARY TOPIC—The Blind Man Made to See.
JUNIOR TOPIC—Jesus Heals a Blind Man.
INTERMEDIATE AND SENIOR TOPIC—What Jesus Did for the Blind Man.
YOUNG PEOPLE'S AND ADULT TOPIC—Jesus Christ the Light of the World.

1. Working the Works of God While It is Day (vv. 1-5).

1. The Disciples' Problem (vv. 1, 2).

In their minds all affliction, negative and positive, was God's retribution for sin. Therefore, they argued that this man's blindness proved his sin. They recognized, too, that the effect of sin is sometimes hereditary. No doubt they inferred this from the second commandment (Ex. 20:5). The implication is that there is a connection between sin and blindness, and that suffering in this life may be the result of sin committed in that pre-existent state.

2. The Lord's Answer (vv. 3-5).

The Lord affirmed that in this case there was neither sin on the man's part, nor that of his parents, but that it was an occasion for the display of the works of God and that He had come to execute this task while it was day, because the night would come when no man could work. Since Christ is the light of the world, the task which challenged His attention was the opening of this man's eyes. The purpose of Jesus in working miracles was not a mere exhibition of miraculous power, but "to illustrate in the physical sphere His power in the spiritual sphere." This man's blindness, helplessness in bettering his physical condition is illustrative of man's utter helplessness in the salvation of his own soul. The natural man is blind and dead (II Cor. 4:4; Eph. 2:1). God by His spirit must quicken the soul dead in trespasses and sin before it can see to take hold on Christ, the remedy for sin.

II. The Man's Eyes Opened (vv. 6, 7).

1. The Means.

Jesus spat on the ground and made clay of the spit and anointed his eyes. Observe that the means used in this miracle were little less than foolish in themselves. The object must have been to teach this man the utter inadequacy of the means to the accomplishment of the end, that he might be caused to look from the means to the One who used them, that he might be convinced that the power was of God.

2. His Obedience (v. 7).

He immediately obeyed. He did not stop to question the reasonableness of the command.

III. The Man's Testimony (vv. 8-10).

In his testimony we have a fine example of the development of faith. The opening of this man's eyes aroused inquiry among his neighbors. When a man's spiritual eyes are opened, there will be a stir among his friends.

1. He Testified to His Personal Identity (v. 9). This was very easy. His self-consciousness enabled him to know that he was the same man who was born blind.

2. He Testified as to How It Was Done (vv. 11-15). So definite was his experience that he was able to tell just how it was done. When he repeated it there was no conflict.

3. He Testified That the One Who Opened His Eyes Was a Prophet (v. 17).

4. He Testified That This Healer No Doubt Was Sent of God (vv. 30-33). He declared that He was the greatest worker of miracles who had appeared since the world began.

5. He worshiped Him as the Son of God (v. 38).

IV. The Results of His Confession.

1. As to the People, They Were Divided in Sentiment (v. 18). Some believed He was from God because of His works, others that He was a sinner because He did His work on the Sabbath day.

2. As to the Man, They Cast Him Out (v. 34). Faithful testimony will often result in ostracism from even religious people.

3. As to Jesus, He Found the Man (v. 35). Being cast out by men he found himself in the arms of Jesus. It is quite often true that separation from human fellowship results in more vital fellowship with Jesus. He was led on to a deeper faith. He first saw Him as a miracle worker, then as a prophet and finally as the Son of God and when he perceived Him to be the Son of God, he worshiped Him.

Religion

Religion, in its purity, is not so much a pursuit as a temper; or rather it is a temper, leading to the pursuit of all that is high and holy. Its foundation is faith; its action, works; its temper, holiness; its aim, obedience to God in improvement of self and benevolence to men.—Tryon Edwards.

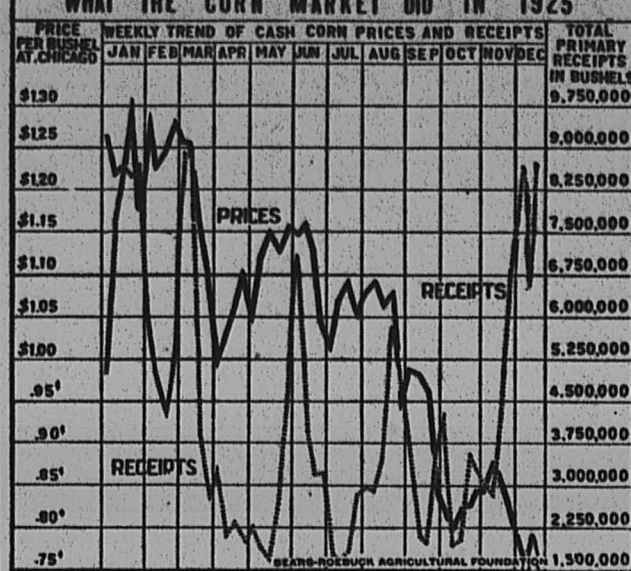

Satan's Deadliest Fee

Time well expended in Satan's deadliest fee; it leaves no opening for the working hand.

TOO EASY ON CHICKEN THIEVES

Lack of severity on the part of the courts in dealing with convicted poultry thieves is held responsible for the increasing losses which farmers are sustaining from organized bands of marauders throughout New Jersey. Disposal of recent cases against convicted chicken thieves has been with such light sentences as suspended sentences that stealing is encouraged rather than controlled the New Jersey Federation of

WHAT THE CORN MARKET DID IN 1925

TWENTY per cent more corn was produced in 1925 than in 1924, according to the corn survey of the Sears-Roebuck Agricultural Foundation. An increased production of 587,830,000 bushels brings the 1925 figure to 2,900,581,000 bushels. This, plus the carry-over of 1924, makes the general marketable 1925 corn crop of 2,961,581,000 bushels the largest in five years. While the corn crop was nearly a failure in the Southwest and the average yield was almost the entire cotton belt, the corn belt itself, in practically all sections north of the Ohio and Potomac rivers, produced an excellent crop of fine quality.

The large excess production, however, and the fact that there is fewer live stock on the farms and some curtailment in feeding operations, have made corn plentiful and low in price. Prices dropped steadily from the top price in January of \$1.32 to 82 cents in November in Chicago. Receipts fluctuated violently with an up-turn grade beginning in October.

The United States is the corn nation of the world, producing 70 per cent of the entire crop. New uses for corn promise to increase consumption of this grain appreciably. Particularly significant is the manufacture of corn sugar, which is increasing in commercial importance.

Public Service Plan Improvements

To Spend \$55,000,000 on Betterment of Electric, Gas and Transportation in 1926

Approval of the 1926 construction budgets of Public Service operating companies, including Public Service Electric and Gas Company, Public Service Railway Company and Public Service Transportation Company, brings the total amount now authorized to be expended on the improvement of electric, gas and transportation facilities available in the territory served by these utilities up to approximately \$55,000,000.

New authorization for 1926 total more than \$18,000,000 and construction projects already approved and to which the companies are committed make up the rest of the total.

The completion of the great Kearny electric generation station and the Harrison gas works, are the biggest single items in the program of the Electric and Gas Company while for the Railway Company, an order for 333 gas-electric buses, said to be the largest single order for motor buses ever given at one time, heads the list.

New construction items in the electric department budget, include \$6,411,000 to be spent on substations, \$3,285,000 to be spent in extending and strengthening transmission lines and \$2,928,000 in the betterment of the distribution system.

Much of the new electric construction work is to be done in connection with giving full utilization of the resources of the generation of the resources, which with the completion of the system of the Philadelphia Electric Company, will constitute the highest point of development. Extension of transmission lines in the southern division, including a new submarine cable at Camden connecting with the system of the Philadelphia Electric Company, will cost more than \$700,000 and an equal amount will be spent in and around Newark. All over the system the transmission system is to be brought up to meet the full requirements of rapidly increasing demand.

\$2,000,000 for Substations
Of the 1926 appropriations for substations, more than \$2,000,000 will be spent for new units, \$1,500,000 for additions to existing units and \$2,750,000 for changing stations over from two to three-phase operation, an alteration which will double their capacity.

New substations are to be built in Carteret, Jersey City, Bayonne, Paterson and Monmouth Junction, while a site is provided for a new substation in Union City.

To meet the increase in population in the western part of Essex County, appropriation has been made to purchase a site at West Orange for a large switching station, to be erected later.

More than \$1,000,000 is to be spent in extending the underground distribution service and some \$700,000 in reinforcing distribution circuits, while \$300,000 will go for the purchase of spare and emergency apparatus to insure against possible interruptions to service. Provision is also made for replacing arc with street lighting systems of both Paterson and Jersey City. This will remove the last of the arc lamps from street lighting circuits supplied by the company.

Extend and Better Service
Appropriations made for 1926 in the gas department are largely for the extension and betterment of service and for the improvement of the company's gas manufacturing plants. Mains will be extended to a number of municipalities not hitherto served both in the Bergen and Southern divisions. A new holder station will be built at Caldwell.

More than half of the construction budget of the Railway Company will be used for track reconstruction in addition to the 333 gas-electric buses, previously provided for, the Transportation Company appropriations cover new garage facilities at Camden, Hackensack and Elizabeth.

In addition to all other recipes for reaching the century mark, add this one: Never dispute the right of way even when right.—Cincinnati Enquirer.

Chicago had 90,000 population before getting a steam fire engine in 1857.

ELECTRIC CARS MORE POPULAR

Many new features are being suggested by street railway executives to make railway service more inviting. Bright wheel brakes, bumpers at both car-ends, smoking compartments, flood-lighting, individual leather seats, easier entrance and exit are some of the features to make travel easier, safer more attractive. Better spring suspension and spring seating to take up bumps of travel, may be expected as among the most important improvements. The electric cars still carry many times as many passengers as all other paid traffic, even in face of automobile competition. Easier riding equipment in these days of traffic congestion will draw patrons from the private automobile and jitney buses. There seems to be no good reason why the electric car cannot be made as comfortable as the modern motor coaches.

USED CARS?

Fred E. Rein Says It's Difficult to Determine When an Auto Reaches This Stage

"It's a rather big undertaking to explain just why or when an automobile becomes a used car," remarked Frederick E. Rein, of the Rein Motor Company.

"For instance, suppose a man owns a new car, drives it a few thousand miles and then decides to trade it in for a larger car or a smaller car, or an enclosed car, and trades it in.

"This fellow's car is comparatively new up to the last day he owns it, but the next day the same car with the same engine, tires and roadability becomes a used car when it is offered for sale by the dealer.

"There is undoubtedly a greater demand for used automobiles than any other 'used' property, excepting houses. Several thousand used cars will exchange ownership in Riverside and vicinity this year."

TALK RECONSTRUCTION

Plan to Rebuild Mount Holly Building Destroyed by Fire Year Ago

On this anniversary day of the destructive Kelsey & Killie building fire in Mount Holly a year ago comes the encouraging information that the new owners of the property, Kutzer, Bass & Kutzer, of Camden, are negotiating with contractors in getting their bearings on plans to wipe out the present unsightly ruins and begin a reconstruction program.

It is understood that they plan to use the walls of the Temple building and replace as much of the Kelsey & Killie building walls as may be necessary to provide for a three-story structure that will be completely modern.

They are figuring on finishing the first floor and then establishing not less than four stories. The second and third floors will not be finished. They will fix only the first floor, the walls and the roof. A steel structure will support the entire interior.

CONSIDER DEANSHIP

The Rev. John W. Gummere, rector of St. Andrew's church, Mount Holly, may be asked to consider the deanship of the Episcopal Cathedral at Phoenix, Arizona.

There is nothing formal about the matter at this time, but it will not be surprising to hear the Rev. Mr. Gummere has been requested to take the charge in the southwestern state.

His close acquaintance and association with Bishop Walter Mitchell, in New Jersey during the past few years and recently elevated to the bishopric, suggests the likelihood of a call.

The situation at present is not of a character that calls for an answer from Mr. Gummere, but he is probably justified in dealing with the situation as one of the probabilities of the near future.

They are still talking of a federated Europe, but we should think that for some time to come the question of the distribution of the aggregate debt would constitute an insurmountable obstacle.—Columbus Dispatch.

CHARLESTON CONTEST

Latest Hop Will Be Demonstrated at K. of C. Dance

The Charleston has at last invaded the Twin Cities! The popular dance, which is the rage all over America and has taken on some of the European cities by storm, makes its debut in Palmyra Saturday evening when a Charleston contest will be held in connection with the K. of C. dance in St. Joseph Council's Home, Broad street and Elm avenue, Palmyra.

Attractive prizes will be awarded the winners and there will also be prizes for the winning couple in the spot dance.

The Royal Commodore, Palmyra's popular jazz artist, will furnish the music for the hop, of the Valentine Dance, as it is advertised.

The same committee which has conducted all of the K. of C. dances which have been so well attended this season will be in charge and a large crowd is expected to be present.

HOW GREAT MEN MAKE LOVE

AS REVEALED BY THEIR LOVE LETTERS

By JOSEPH KAYE

(By Wheeler Wriggins, Inc.)

AARON BURR AND THEODOSIA PREVOST

AARON BURR, who achieved political fame, was vice president of the United States, and later became an exalted name in American history through his slaying of Alexander Hamilton in a duel he forced upon him, was a devoted lover and fond father. The woman he married was a widow with two children, not beautiful and ten years his senior. Why he married her is still a puzzle. He was a rising man and could have had his pick of eligible society beauties. Theodosia Prevost, widow of a British officer, was, however, a very cultured woman, and this probably fascinated Burr, who was himself a keen lover of the arts.

The following very pretty letter Burr sent his fiancée a short time before they were married:

I confess I have still some transient distrust that you set too little value on your own life and comfort. Remember it is not yours alone, but your letters shall convince me, I value the subject. I am not certain I shall be regularly punctual in writing to you in this manner every day when I get at business, but I shall, if possible, devote a quarter of an hour a day to you. In return I demand one-half an hour of each day from you: more I forbid, unless on special occasions. This half hour is to be mine, and he invariably at the same time and for that purpose fixed at the hour least liable to interruption and as you shall find most convenient. . . . the children shall have their sheet and at the given hour write, if but a single word. Burr, at this hour, is to be a kind of watchword."

"That Theodosia did not live up to these instructions, is evident from another letter after their marriage: "I have lived three days upon the letters I expected this evening, and behold, the stage has arrived without a line from you. I have been through the rain and dark and mud, hunting up every passenger to catch them for letters and I can scarce yet believe I am so totally forgotten."

At the age of twenty, when Burr was aide to General Putnam and stationed in New York, he had his first love affair. The lady was Margaret Moncrieffe, aged fifteen, developed beyond her years, beautiful, passionate and a vamp in the modern sense. Margaret was the daughter of Major Moncrieffe, stationed with the English troops at Staten Island. Fearing for the safety of his daughter, who was with him, the major sent a soldier with a flag of truce to General Putnam, begging him to take care of Margaret.

Putnam was Moncrieffe's enemy officially, but to Moncrieffe the father he was a friend and he gladly consented to act as Margaret's guardian. Margaret was sent to Putnam forthwith and the general placed her with his family, who showed her every kindness.

While with the Putnams, Burr fell in love with Margaret and she presumably with him. But one day Burr discovered the English girl painting a bouquet of flowers. This was an occupation usually with girls of culture, but Burr, coupling this with the fact that Margaret seemed very fond of watching the maneuvers of ships in the bay with a telescope, got the idea that she was painting a message to the enemy in the language of flowers.

Burr was a lover but he was also a prudent man. He told of his suspicions to Washington, who had the girl removed to a place where she could do no damage and held her virtually a prisoner of war. That was the end of Aaron Burr's first love.

Here is the answer to the world's greatest problem in mathematics: Armament reduction equals tax reduction.—Los Angeles Times.

"California has one consolation."

argues the Muskogee (Okla.) Phoenix, which is evidently subsidized by the Los Angeles Chamber of Commerce. "Her real estate does not splash."

New platinum discoveries recently started a boom in the Transvaal.

County Young People's Leader

Council of Religious Education Places Burlington County in First Place

The New Jersey Council of Religious Education has just issued a statement which gives the comparative standing of the counties in the state, based upon the interest of the young people of these counties in religious education and leadership. Burlington county is one of the two counties that reach the "A" grade in all departments, and adding to this the fact that Burlington county captured the banner at the state conference last year, the state office of Religious Education gives to Burlington county young people first place in young people's organizations throughout the state.

The project on which all groups of religious leaders and organizations now have their efforts centered, is the schools for training leaders in the field of religious education. The response coming from the communities all over the county indicates that not only will the young people keep first place in the state, but all other departments will lead the counties of the state in serious religious work.

The Board of a new Community Training School with an enrollment of one hundred and six has almost completed its twelve weeks' course. The results of this school have been a delight to all persons interested in training the youth of the county in matters of religion.

Mount Holly community schools of religious education, under the leadership of Prof. Edgar F. Buncie, will open for enrollment on Tuesday evening, February 9. Six courses are offered.

The classes are held each Tuesday evening from February 9 to April 27, inclusive. Credit is given the pupil who meets the requirements toward a diploma issued by the International Council of Religious Education. Each class when completed entitles the student to one credit and twelve credits entitles the pupils to the diploma.

A similar school is being planned for the Moorestown district and within a week or two the details of the school curriculum will be given to the public. More enthusiasm is present in the committee's planning for this school and the promoters feel sure that the church schools in and around Moorestown will cooperate in making the Moorestown school among the best in the county.

PLAN ENLARGEMENT

New Wing at Asylum and Nurses' Home at Sanatorium Part of Plan

Improvements to be made to county buildings by the Board of Freeholders include erecting a wing at the asylum at New Lisbon, which will cost approximately \$100,000, and is made necessary by the crowded condition of the institution. Another necessary building is a home for the nurses at the Tuberculosis Sanatorium at New Lisbon, which will cost about \$15,000. At present the nurses have no quarters except in the sanatorium, which is filled to capacity with patients. A corridor will be erected to join the former almshouse hospital with the sanatorium. The hospital is used for patients in the sanatorium. Other quarters have been provided for use of the almshouse inmates needing hospital attention.

Plans to heat all the county buildings at New Lisbon from a central plant also are being considered, as a matter of economy. The plant at the asylum probably will be enlarged to supply the heat if the plan is adopted.

The former vault used by the county clerk, in the rear of the court house, is to be fitted as offices. The tentative plan includes raising the roof about five feet, to the height of the main building, and then putting a second floor in the vault.

CHEAPER FARM CAPITAL

Bankers' organizations have been studying ways to supply the farmers with cheaper capital for agricultural purposes. Bankers become a hard-headed lot of business men in protecting depositors' accounts but they are interested in the widest distribution of capital at the lowest possible rate of interest, making their profits on the enormous volume of business.

They are anxious to see money safely loaned to farmers, for this means agricultural development and more business, for both the farmers and the banks.

PUBLIC SERVICE

Man Wins Atlanta Prize as Fruits of Efforts for Help of Fellowmen

In Atlanta, Georgia, they award a loving cup each year to a citizen of the city adjudged most valuable to the community during the preceding twelve months. The award of the silver trophy, which is given annually by "The Georgian and Heart's Atlanta Sunday American," is made by a committee representing the city government and ten outstanding civic and labor organizations. Any man, of works so substantial that they are selected by his acquaintances as the outstanding service, the most valuable contribution in the course of a notable year, must surely possess sterling ideals and inspirations.

The fact that H. M. Atkinson, Chairman of the Board of the Georgia Railway and Power Company, a great power corporation, was chosen by the citizens of Atlanta as the most valuable man in their community during the past year, speaks volumes for the type of service that this public utility executive must have given to Atlanta and Georgia citizens in the way of transportation, electric service and power development.

A member of the award committee said: "The belief of this committee is that the time has passed when personal gain is the goal of the truly successful business man. The man who succeeds greatly in business today is the man who directs his operations with a view of service to his fellowmen. Mr. Atkinson has brought, almost single-handed among Atlanta citizens, a new era of industrial development and prosperity to North Georgia, guiding the employment of hundreds of millions of capital in new enterprises established in this region, and in so doing has brought about the establishment of better wages, a broader vision, a new, more pleasant and more promising condition of life for many thousands of people."

HANDSOME MAUSOLEUM

A handsome mausoleum will shortly be erected in the Mount Holly cemetery as the final resting place for members of the Keeley family centering about the late Jackson L. Keeley, of Mount Holly. It will be placed there by Andrew J. Keeley, well-known former resident of Mount Holly and at present living in Florida. The contract has been awarded to William S. Fryer, monument dealer and builder, of Mount Holly, and it is understood that the mausoleum will cost not less than \$16,000.

Rush Burlington Bridge Project

Beverly Growers Adopt Resolutions Favoring Span To Bristol

Feeling a bridge over the Delaware River between Burlington and Bristol is urgently needed by agricultural interests as well as all other kinds of business and industry, the Beverly Co-operative Growers' Association has adopted resolutions calling for the building of a bridge at the earliest possible moment.

The Beverly Growers' Association is one of the outstanding organizations in Burlington County. It was formed several years ago and has for its members some of the most prominent farmers and orchardists in Beverly Township, Burlington Township and Willingboro Township. It does a million dollars worth of business annually. The resolution follows:—

"Whereas the ferry service has been unsatisfactory between Burlington and Bristol for several years, and

"Whereas the present day automobile traffic and business require better service and a more convenient method of communication between the two cities of Burlington and Bristol, and

"Whereas there has been an appropriation made in the State Legislature for preliminary surveys for a bridge site, be it

"Resolved that the Co-operative Growers' Association, of Beverly, go on record as being in favor of a bridge being built between Burlington and Bristol as soon as possible to end this unsatisfactory condition."

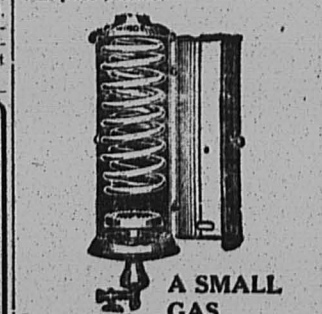

The Beverly Co-operative Growers' Association has followed the lead taken by Common Council and the Civic League, Burlington, in the work of securing a bridge.

It is expected that other organizations that have the welfare of Burlington and the surrounding country at heart, also will join the campaign to press the matter in the legislature and attempt to have the bridge built at the earliest possible moment.

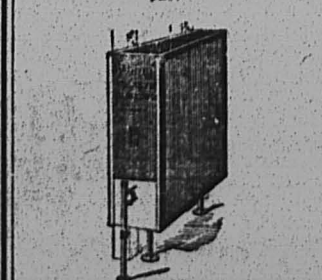

PERFECT WASHDAY WEATHER ASSURED

Every washday, with the gas clothes dryer. Linens remain beautifully white and all clothes dry quickly. Protects wash from smoke and soot. \$12.50 saving during February. Now \$120 instead of \$132.50, or \$12.50 down, \$10 a month. Special cash price \$112.50.

A SMALL GAS WATER HEATER

For the small house. Plain or enamel jackets. Abundant hot water on a few minutes' notice. \$2 down—\$3 a month. Were \$29.50 to \$34—now \$24.50 to \$29.

GAS GARAGE HEATER PROTECTS YOUR CAR

Buy now and save \$10. Now \$96 instead of \$106, or \$10 down, \$16 a month. Cash price \$90.

GAS INCINERATOR Burns Waste

For health's sake it's well to dispose of garbage immediately. Prices on gas incinerators are reduced during February. One-half loaded capacity now \$72 instead of \$80. \$12.10 down and \$12.15 a month.

PUBLIC SERVICE

The bridge is needed because of the intercity business that is done between Burlington County and Bucks County. As the matter now stands this business either is held up or delayed every time there is ice in the river or a fog settled on the water.

Burlington and Bristol are only one mile apart, and yet when the ferryboat quits for the causes named it is necessary to go all the way to Trenton to make the trip across the river.

Both Senator Emmor Roberts, of Moorestown, and Assemblyman Clifford R. Powell, of Mount Holly, have given assurance that they will do everything in their power to make the bridge possible.

Eighteen educational surveys in eight States—Kentucky, New York, Ohio, Oregon, Pennsylvania, Tennessee, Virginia, and West Virginia—were made by the Interior Department, Bureau of Education, during the fiscal year 1924-25.

Tuition fees in the state secondary schools of Czechoslovakia are graded according to the incomes of the parents of the pupils.

Blood transfusions are given by 150 University of Michigan students to help pay their way through college. They are called from classroom theatre or sleep as the emergency requires.

FORD LED

Sixty Per Cent. of All Trucks in Use in 1925 Were Fords

The year 1925 witnessed the biggest sale of Ford Ton Trucks in the history of the Ford Motor Company, according to a sales statement just issued by the company. The total for the year was 217,112 units, an increase of 16,828 over the sales of 1924. This mounting demand for Ford trucks was accounted as due largely to an increase in truck buying by the agricultural districts of this country. The American farmer, one of the most logical users of the ton trucks, is now coming into the market stronger than ever before and indications are that 1926 will see a marked rise in the number of trucks of less than two tons capacity on American farms.

Other figures indicate that more than 60 per cent. of all trucks in use during the past year were Fords. In the less-than-two-ton class, 71 per cent. of all makes sold were Fords.

Four standard types of truck bodies on the Ford Ton Truck chassis comprise the line for the new year. A stake body, especially adapted for farm and other use requiring accommodations for heavy, bulky loads and three express types are versatile enough to cover every field of ton truck haulage.

One of the express bodies features low sides while another is of the canopy top and curtained sides type.

The third is screened with canopy top and protecting curtains. Open and closed cabs also are provided.

One new commercial body style was developed during 1925—the pick-up body—designed to take the place of the rear deck of the Ford Runabout for light weight haulage in which speed, light weight and easy maneuvering ability are dominant factors. The runabout seat affords comfortable riding for the driver and there is ample room for another passenger. Full protection against inclement weather is provided by the top and side curtains which open with both doors.

Meanest man in the world is the one who every week mails a picture post card of the Statue of Liberty to a convict friend in prison, who still has twenty years to serve.

REMOVE CRUST FROM WATER-GLASS CROCKS

When the winter's supply of water-glass eggs is consumed, persons who have kept eggs in this way may find it difficult to remove the hard crust which clings to the sides of the crocks. The Poultry Department of the New Jersey Agricultural Experiment Station recommends that hot water be used to get this material off, and if this fails, a few drops of hydrochloric acid.

This crust is a form of sodium silicate which is soluble in hot cold water, hydrochloric acid and nitric acid. The water, however, may not dissolve the material as quickly as desired, hence the acid is recommended. If acid is used the crocks should be washed thoroughly afterward.

Tacony-Palmyra Ferry Stockholders Read This

Copy of Letter received from one of the Proxies of the "So-called Stockholders Committee"

Riverton, N. J., Jan. 27, 1926

Tacony-Palmyra Ferry Co.,
Palmyra, N. J.

Gentlemen:

I desire my name removed from
Stockholders Committee Proxy.

(Signed)

BENJAMIN LIPPINCOTT

Your next Car should be a BUICK

For Comfort's Sake

The Better Buick offers every ordinary motoring comfort, and many that are exclusively Buick. Easier starting—a new high-speed starting motor does it. Smooth running from the go—Automatic Heat Control is an exclusive Buick feature. Easier steering—Buick's 5-control-surface steering gear is the most expensive and most efficient type today.

For Safety's Sake

Buick surrounds you with every ordinary protection, and then adds Buick protection: Buick dependability, which takes you and brings you back, on time, all the time. Buick mechanical 4-wheel brakes, with no liquid in them to expand, contract or leak away. And Buick Controllable Beam

Headlights, with steering wheel control, which make night driving a pleasure.

For Economy's Sake

No other car has the "Sealed Chassis" and the "Triple Sealed Engine." The "Sealed Chassis" lowers operating costs by enclosing every operating part inside a dirt-proof, oil-tight housing, while "Triple Seal" closes every engine point of entry to dirt and the wear dirt causes.

For Value's Sake

At present prices, Buick with all of its added comfort, safety, and economy, is easily the greatest automobile value in the world.

If you want finer transportation at lower cost, come in and see the Better Buick!

THE BETTER BUICK

Your Transit Problem!

"It is unfair to ask the trolley company to pay for a pavement which is of more use to its competitors than to the trolley company itself. * * * In all fairness the trolley company should be relieved of this burden."
—Perth Amboy News.

"IN ALL FAIRNESS—"

It is not alone Public Service and the other street car companies of the State that are adversely affected by the burden of street paving charges. It is every man, woman and child who uses a street car as well!

The riders pay the cost! Although nominally charged against the companies, every dollar of such cost must come from the street car passengers because paving charges are officially recognized by the Public Utility Commissioners as operating expenses.

And under the laws of New Jersey, the rate of fare depends upon what it costs to provide the service.

The Board of Public Utility Commissioners in its annual report for 1925 points out that the Five Cent Fare "cannot be maintained except by adopting every possible economy." Paving charges are one of the burdens that prevent "every possible economy" and they should not, in fairness, be imposed upon car riders, because the rider secures no advantage from paving, since he would ride as easily and comfortably on the steel rails provided for the cars if there were no paving.

No one is more vitally interested in the three following measures than those who pay fare on street cars:

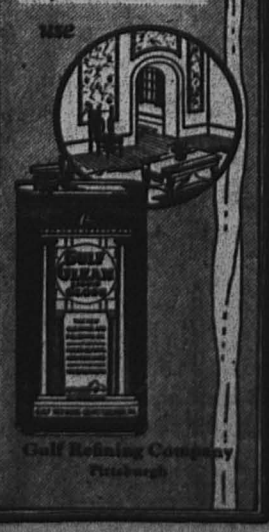

**Further Coordination of Car and Bus Service,
Better Traffic Regulation,
Removal of Paving Burdens.**

In their adoption lies the hope of retaining the Five Cent Fare and the expansion and betterment of local transportation service.

**PUBLIC SERVICE RAILWAY COMPANY
PUBLIC SERVICE TRANSPORTATION COMPANY**

To polish and preserve

To remove surface scratches, and give a soft gleamy gloss to furniture, hardwood and varnished floors, Gull-Gloss Liquid Gloss can't be beat. It is unequalled for restoring the true color to linoleum; and for retaining the original lustre of highly finished surfaces, such as automobile bodies and pianos. Gull-Gloss Liquid Gloss is not only a polish and preservative, but also a cleanser. Sold at all leading stores in pint and quart cans.

Some Parts Never Wear Out

Not all the parts of an automobile are subject to wear. A large part of any car is good for practically unlimited life. Quite often the new parts we put into a used car are better than those in the original assembly.

STATE EXAMINATION

The New Jersey Board of Education, issues a group of examinations to be taken twice each year by the eighth grade classes of the schools in the state.

One set is taken in January and another set at the end of the term. The mid-year examinations are used by some schools to determine the pupils included in the mid-year promotion. The Riverton School does not have a mid-year promotion, and therefore the percentage obtained in these tests, count on the report cards for the month.

The examinations are a little different this year than in the past, but not much more difficult, it seems. The tests we have just had, have shown us what we expect at the end of the term.

LEON WILCOX.

State Examinations for 8th Grade
The pupils of the Eighth Grade in the Riverton Public School took the mid-year State Examinations on January 18, 19 and 20th.

The different subjects were: English, Penmanship, Spelling, Arithmetic, Hygiene, History and Geography. The State Examinations of this year are different from those given in past years.

Each test was very long and covered a great deal of material of course, this provided us with plenty of opportunity to make a high score, if we really did know something about the work.

The class as a whole, did fairly well for this time of the year.

HELEN ELLIOT, Grade 8
The Constitutional Convention
This noted convention was held in "Philly."

Not once thing performed in it was silly.

Other stockholders' interests in the realty company and at the subsequent meeting of the board, of which I was then a member, stated that Mr. Sinex, as president, had absolutely rejected the \$1 rental.

As Messrs. Hollingshead and Jones then controlled the realty company, they withdrew the \$1 offer. No remonstrance on my part was of any avail.

"\$125,000 for Farm
"I then asked, if they would not sell the marsh land to the Ferry Company for \$25,000. They refused emphatically. For \$50,000. Again they refused. I then introduced a resolution to sell for \$75,000. It never came to a vote. I grew angry and asked them what price they insisted on. They replied \$125,000 and 'not one cent less'.

"Fearing competition lest they should carry out their threat of starting a ferry across from Eight-Mile Point, I called Mr. Hollingshead on the phone and asked him if I would acquiesce to the \$125,000 sale, would he act agreeably and stop the turmoil and strife he had injected into the board. And as we were then interested in a sale of ground at Lovick street, Tacony, would he and Mr. Jones, or anybody in their interest, stay off that proposition as it vitally concerned the stockholders of the ferry company.

"Having assurance from Mr. Hollingshead that they would, I then reasoned that as they were getting the maximum price of \$125,000, they would surely consent to let the ferry company function without molestation. For undoubtedly the more the ferry company earned the easier it would be for it to discharge its obligations and pay off the mortgage.

George Washington was the President. And everything he said he meant. Many great men attended this meeting. Benjamin Franklin helped in the making. One of the younger men was Madison. And another one was Hamilton.

There were two big points in this. These points were about representation. The states like Delaware wanted one thing. While the bigger States wanted another thing.

The biggest States of all didn't see. Why the smaller States, like New Jersey. Could expect to have as much to say. As the biggest States, like Virginia.

The biggest States thought much differently. And neither thought they silently. They felt it determined by population.

Then, about the matter rose much calculation.

President Washington was very wise. And from a question made a compromise. That gave justice to both large and small. And then they made up without quarrelling at all.

RUTH McVAUGH, Grade 8
The mid-year election of the Eighth Grade Civic Club was held Wednesday, January 27th, 1936.

The meeting was opened by the former president, Lashon Dickinson, and Charles Sullivan suggested that the election take place at once.

The following officers were to be nominated President, Vice President, Secretary and Treasurer.

After the nominations were over, we voted by ballot, which resulted in the election of the following officers.

President, Fred Powell; Vice President, Henry Seabrook; Secretary, Mary Pfaff; Treasurer, Gertrude Burr.

The class hopes that the new officers will fulfill their positions as well as the retiring officers did, and also wishes for as successful a year as the last one.

VINCENT HACKETT, Grade 8.
613 Thomas Ave., Riverton, N. J.
January 26, 1936.

My Dear Elizabeth:—
We went down to the Auditorium this afternoon to talk about Italy and France. We invited the Fifth Grade to listen to us and hear and see what we have been studying in Geography. We had the slides and lantern that were presented to the school by the Parent-Teacher Association. The subjects on France and Italy were very interesting, and very nicely discussed. Almost everybody in the class had something to say about the slides.

I wish you could have been with us and I am sure you would have enjoyed our lesson.

your friend,
NAOMI EVANS, Grade 6.

Being Taught to Skate
I was very much delighted when I received my roller skates. I had

and lease the land to the ferry company at \$1 a year for 99 years, providing that Mr. Hollingshead will cast his one-third interest for the same lease. This will show that I am willing to sacrifice one-third of \$125,000 for the ferry company and also determine who the real friends of the ferry company are."

Mr. Wright, however, does not believe that the Hubbs farm will not be worth more than \$125,000 to be ferry company. He is enthusiastic over the advantage of a direct route and believes that a bridge will cross the river at this point within 10 years. He pointed out that 410,567 autos and trucks, 115,890 foot passengers and \$26,462 bus passengers used the ferry last year and that the total receipts were only \$82,568.85. Mr. Wright also cited the success and popularity of the bus line service.

"Don't think the new Delaware River bridge will hurt our business," said Mr. Wright. "People will continue to seek to escape heavy traffic and a bridge from Tacony to Palmyra would do a large business. Hundreds of motorists bound for the shore would find it to their advantage to take the nearer route and escape city traffic. I refer chiefly to pleasure cars. The Delaware River bridge is going to be overcrowded with commercial traffic."

Mr. Daniels' Statement
The statement by Mr. Daniels follows in part:
"It is difficult to find a reason for any opposition to the present management of the ferry company. It has certainly made a good record during the past year, having made a net profit of about \$50,000 and paid the stockholders 8 per cent. in dividends. The possibilities of the company are wonderful if it is not misused by a number of unfaithful directors such as have recently blocked quarrels for the sole purpose of preventing action on the dividends which the company had earned and which were recommended by the executive committee. The fact that when the directors did get together they would have no excuse to make to the stockholders if the dividends were not declared and they declared them, proves that the executive committee was right all along."

"The beginning of this quarrel can be traced back to 1923 when the company was sorely in need of money, and a director desired to embarrass it so that it would have to be sold out by the Sheriff. He suggested that we would have to 'forget the stockholders.' He intimated that under foreclosure, the company could be bought cheap. 'A few of us could stick together,' buy it, reorganize it and make a lot of money out of it. The suggestion of this outrageous move by the present members of the executive committee, consisting of

enviously watched children gliding by with ease, and I now thought that this pleasure would be mine. I did not think of the difficulties in learning.

The first opportunity I had, I began my lessons. After my skates were strapped on, I tried to stand up. How queer I felt! My feet were slipping to and fro, and I had no power over them. I felt as though I would never be able to stand on them alone.

Finally, I got used to the sensation and tried with assistance, to skate. At first all went well. Then I tried to do it alone. My foot struck a stick and of course I fell.

After this, I didn't feel like skating alone, but soon I gained confidence. I was more successful this time, but my attempt was followed by a fall. So the lesson went on, my attempts often ending by falls.

When my lesson was over, I thought skating a serious problem, and I decided that falling down was one of the main parts of roller skating.

DORIS CLARK, Grade 8
Assembly News
Monday, February 14, 1936, the school met in the Auditorium for its regular Monday morning assembly. Miss Chew spoke about the Near East Relief after the Bible had been read. Miss Chew had received a letter from the head of the Near East Relief, which was read to the pupils. This letter asked us to help the poor orphans in Alexandropolis or the Children's City, where 17,000 of them are housed. The pupils are asked to fill some envelopes for the support of these children. On the envelope is the following poem: "On good St. Valentine's natal day, I may not eat or sleep or play Unless you let me have my share."

That I another day may live, So send your love to the sea. And I your valentine will be." The letter was written by an orphan whose name was Onoush. After Miss Chew had explained what we were to do, we closed in the usual way by singing the flag and singing "America."

CHARLES HENRY SULLIVAN, Grade 8.
Second Grade Written English
The Eskimos
If you come to my room you will see our sand table. It shows how the Eskimos live.

DOROTHY BARTLETT, Grade 2.
The Twins
Minnie and Monie are Eskimo twins. They live in the cold land. They have good times.

BENJAMIN RAY, 2nd Grade
First Grade Sentences, Oral English
The Eskimo puts his meat on a high table, so that the dogs can't get it. George Eaters.

The Eskimo cuts holes in the ice to fish. Wm. Thompson.
The Eskimo kills bears and reindeer. They make clothes from the skins and eat the meat. Herman Weber.

Their sled is made from a cake of ice. Eileen Mattis.
The Eskimo makes igloos from cakes of ice. Wm. McDermott.
The dogs pull the sleds. Pamela Taylor.

The Eskimos winter in a long, long night. Helen Schmidt.
The Eskimo kills seals and dries the skins to make clothes. Lloyd Witte.
The Eskimo's daylight is their summer. Mary Lou Wilcox.

Charles A. Wright, Charles L. Asam and myself.
"The company has been made prosperous and profitable and this disloyal director has never forgiven the officers who have accomplished this desirable result for the stockholders."

"His proposition to break the company and absorb it in 1923 was made to four gentlemen, I know of. I was one of them. He made it to too many people and what he proposed to do can be easily proved. As a matter of fact, affidavits have already been prepared and they will be used if he compels us to use them."

Mr. Wright yesterday gave out a further statement as follows:—
"In reference to the R. M. Hollingshead and Jones letter of Feb. 1, 1926, titled 'Does the Truth Count.' In the third paragraph they state that Charles A. Wright was Vice President and a member of the Board of the Palmyra Realty Company, and when this mortgage of \$112,500 was created, this is an error, and is a decided departure from the facts, which are as follows:

"When Hollingshead and Jones stated emphatically that \$125,000 was the lowest price they would take for the Hubbs Farm at Eight-Mile Point, I then tendered my resignation and sent one copy of letter to R. M. Hollingshead, President, and one copy to Wm. B. Bay and Secretary, reading as follows:

November 24, 1925
"I hereby tender my resignation as Vice President of the Palmyra Realty Company. Also as a member of the Board of Directors of the Palmyra Realty Company; same to take effect as soon as practical."

"The mortgage was not executed until January 2, 1926. I hereby offer to give to the Burlington County Hospital my check for \$100 if this can be proven inaccurate or untruthful."

"In regard to statement that R. M. Hollingshead holds 40 shares of the stock of the Palmyra Realty Company, the true facts of the case are that Wm. Clayton Jones holds and controls one-third of the stock of the Palmyra Realty Company; R. M. Hollingshead, Sec. R. M. Hollingshead, Jr., R. M. Bay and Chas. W. Tolson, both of the R. M. Hollingshead Company own and control another third, making two thirds of the stock controlled by R. M. Hollingshead and Wm. Clayton Jones, who is true owner of two thirds of this \$112,500 mortgage. I will pay \$100 to the Burlington County Hospital if this statement can be proven false or inaccurate."

Rescued Offer
"In regard to statement made in letter that C. A. Wright makes a plea for martyrdom by offering to let his holdings in the Palmyra Realty Company be sold for \$100, I now again make this offer that I will vote my one-third share in

the Palmyra Realty Company contingent on Hollingshead and Jones voting the two-thirds shares they control to do likewise and either sell for a dollar or lease for one dollar a year for 99 years the necessary ground for a terminal and thereby save the Ferry Company \$125,000. This offer to remain open 90 days. If rejected, it is obvious that this would cost me \$19,633 and is made in good faith."

"What can R. M. Hollingshead and Wm. Clayton Jones say about Benjamin Jones withdrawing from their ticket and selling his stock? 'I hereby make the assertion without any fear of contradiction, that the agitation caused by R. M. Hollingshead and Wm. Clayton Jones has cost the Ferry Company thousands and thousands of dollars, and it is hoped that this election will be so decisive that the stockholders will be relieved of the great anxiety that they undoubtedly have had to face in the past eight months."

WILL OBSERVE SCOUT WEEK IN PALMYRA
(Continued from Page 1)

Tuesday, 9th, Scouting and the School.
Appropriate mention of the connection between Scout and Education will be made at the opening exercises of the Schools.

Wednesday, 10th, Scouting and the Home.
A good Scout loves his home and will always do his best to help make it all it should be, but on this day he will give some thought to it that he can be more helpful in the future and the time when he has a home of his own.

Thursday, 11th, Scouting and Service Day.
A Scout stands always ready to be of service to his community, his country and those who need his help. On this day the patrols will meet and plan service work for the coming year.

Friday, 12th, Lincoln's Birthday, Scouting and Patriotism Day.
7 P. M. Epworth M. E. Church Fathers and Scouts Banquet.

Saturday, 13th, During the week the six patrols of Palmyra will have a store window in the Borough in which to display specimens of their work. We want the people to decide which is the best display and prize will be awarded accordingly.

Volting slips may be had at the store where the displays are made. Buehl's Pharmacy, 9 East Broad street.

Palmyra Meat Market, No. 15 East Broad Street.
Palmyra-Riverton Realty Company, No. 5 East Broad St.
VanSant's Electrical Store Broad and Moravia Aves.

Harry C. Schwering, 309 East Broad Street.
The prizes will be for
The Best Window Display, 1st, 2nd and 3rd.
The Best Individual Piece, 1st, 2nd and 3rd.
The Best Bird House, 1st, 2nd and 3rd.

All workers in the Borough have been untiring in their efforts to make Palmyra's observance of Scout Week a thing that will do credit to Palmyra, Palmyra Boy Scouts and the ones who in any manner help the Boy Scout Movement.

An extensive school building campaign is in progress in a number of counties in Alabama. At present more than 100 buildings, many of them handsome structures of brick or stone, are in process of erection through aid granted by the State Department of Education.

NOTICE
Notice is hereby given to the legal voters of the School District of the Township of Cinnaminson, in the County of Burlington, that the election for the election of three members of the Board of Education will be held at the Westside School Building, on Tuesday, February 9, 1936, at 7:30 o'clock, p. m.

Two members will be elected 3 years; One member will be elected 1 year. The polls will remain open one hour, and as much longer as may be necessary to enable all the legal voters present to cast their ballots.

At said meeting will be submitted the question of voting a tax for the following purposes:
For current expenses . . . \$30,257.50
For repairs and replacements . . . \$50.00
For manual training . . . \$1,000.00

Total amount thought to be necessary is . . . \$31,307.50
Dated this 28th day of January, 1936
BENJ. LEPPINCOTT, District Clerk.

NOTE—The term "current expenses" includes principal teachers' salaries, fuel, maintenance of buildings, transportation of pupils, tuition of pupils attending schools in other districts with the township, cost of books, school libraries, cost of operation of the District Clerk's commission, the District Clerk's salary, travel, school, insurance and the incidental expenses of the school.

Women citizens twenty-one years of age or above, by virtue of the Nineteenth Amendment to the United States Constitution, may vote for everything presented at this meeting.

Persons entitled to the vote of Education shall be at least 21 years of age, a citizen and resident of the district at the time of the election, and shall have been such a citizen and resident for at least three years prior to the election, or for one year prior to the election, and shall be able to read and write.

WELL BABY CLINIC

Meetings Every Wednesday Are Growing in Attendance

According to Mrs. Carl J. Jefferson, the Well-Baby Clinic which is conducted in Post Rodgers Legion Home every Wednesday afternoon from 2:30 to 4:30, is constantly gaining popularity among the mothers of the town.

Miss Marie Otwell, the school nurse who has been doing splendid work among the older children, is in charge of the clinic. Miss Otwell is assisted each week by one of the local physicians.

From the time baby is born deep interest is shown for him at the clinic. The nurse discusses the problems of diet and the many other difficult phases which confront mother in the rearing of the little folk. Miss Otwell is especially trained for this character of work and is exceptionally well qualified to give advice on the many trying questions.

The service of the clinic is free to all mothers and it is equipped with the latest modern apparatus for weighing and measuring the child. The clinic is open to all children from infancy to school age.

PEG O' MY HEART

Love Still Holds First Place in List of Elementary Human Interests

There was a time in the development of English literature when it was believed no story would attain popularity unless it was interwoven with the universal theme of "love." Many tales and thrilling stories have been written, of course, with other appeals to human interest and, since there is spice in variety, fortunately so.

Still, today, and no doubt for all time to come, books, newspaper stories, plays and even idle gossip, spun on the elemental appeal of "love's young dream" continue to vibrate the most responsive chords of interest in humanity.

"Peg O' My Heart," the tremendous stage success of a few years ago, has such an appeal. It is a pure, simple comedy of youth and love spontaneously exuding its appeal from the irresistible, Irish character of "Peg", whom even an

Old Mr. Carter Helped by Simple Mixture

"After taking Adlerika I feel better than for years. At my age (60) it is ideal—so different from other medicines." (signed) W. W. Carter. Adlerika is a simple mixture of buckthorn bark, glycerine, etc., which removes OAK in ten minutes and often brings surprising relief to the stomach. Stops that full, bloated feeling. Brings out old waste-matter you never thought was in your system. Excellent for chronic constipation. L. L. Kauting, Druggist.

SUNDAY DINNERS

old Scrooge would love, once under her spell of compelling winemessness. "Peg O' My Heart" is to "live" again in Palmyra at the High School on Saturday evening, February 27. The sponsors are the members of the Christian Endeavor Society of the Baptist church with a cast of players, well chosen for the parts by Mrs. Olive B. Luckey.

Miss Helen McConnell, the talented local elocutionist, takes the charming part of "Peg" as if it were a thrilling chapter from her own experience.

The Baptist young people believe that hundreds of people will want to see it and those who have read the book or seen the professional play will want to see it again.

"Peg O' My Heart" has been played (and sung) all over the world—a total of over 11,000 performances having been recorded.

Those of us who remember what Peg's eloquent, Irish father used to say will agree, "Sure, there's a half so sweet in life as love's young dream."

Ten units of summer school or normal school study, at least six units of which must be strictly teacher-training study in the principles, theory, or practice of teaching, are now required in addition to high-school graduation, before a resident of Nevada may obtain a third-grade certificate.

PRICE FIVE CENTS

FIGHTING FERRY FACTIONS IN CLASH AT MEDFORD

Wright and Daniels Meet With
Hollingshead and Jones In
Wordy Battle

WILLIAM D. ROLAND GIVES
HISTORY OF FERRY CO.

To acquaint the stockholders of the Palmyra-Tacny ferry company who live in the Medford-Moorestown district with the questions involved in the fight for the control of the board of directors, a meeting was arranged by Albert J. Kirby, and held in the Medford firehouse last Monday evening.

Many reports had reached the people of this part of the county that President Charles A. Wright and his colleagues should be thrown off the board of directors of the Ferry Company and a board favorable to Mr. Hollingshead should be elected, and in order to have the affairs of the company and the claims of the opposing sides more clearly explained, Mr. Kirby, arranged for the meeting.

Mr. Wright, with his stenographer, Mrs. H. B. Morris, and Mr. Hollingshead, with his attorney, William Clayton Jones, and their stenographer, were prepared with facts, papers, affidavits, a map, and arguments galore to prove their respective claims for a right to control the Ferry Company.

Mr. Wright's map gave a very clear idea of the location of the Hubbs farm, about which there had been so much controversy of late, as compared with the Tacny terminus of the ferry line, and the present location of its landing on the Jersey side of the river. It showed that the Eight-Mile Point project, embracing the Hubbs farm, was directly opposite the Pennsylvania land, a distance of 2000 feet, while the present location of the Jersey side is a distance of 4800 feet. It also showed the marsh land, or riparian rights, adjacent to the farm, over which the pier and slips of the ferry would have to be constructed in order to reach deep water. It showed that the riparian grant as made by the Commerce Commission carried the lines at such an angle that the Ferry Company would not have a single foot of disputed land on which to build a terminal, after having paid the Palmyra Realty Company, of which Mr. Hollingshead is president, \$125,000 for the farm and the land adjacent thereto. This condition existed, Mr. Wright claimed, owing to the fact that Mr. Hollingshead had held out a triangular piece of marsh land with a frontage of 2000 feet, which should have been included in the deed as part of the "land adjacent to the Hubbs farm," and which the Ferry Company should have had, and for which he is now making his fight. Mr. Hollingshead's reply to this was that the Ferry Company received all that the blue prints had shown to be included in the deed.

Refuses to Answer
At this point Harry L. Kuhn, one of the directors of the company, asked Mr. Hollingshead if he would see that the company got the necessary frontage to enable them to construct and operate a ferry at this point. Mr. Hollingshead replied "I refuse to answer."

George D. Steedle, whom everybody knows as the founder of the Philadelphia Coach Line, asked Mr. Hollingshead if he was still a director of the Ferry Company. He replied, "I am."

Steedle then asked him "Did you not tell me that you did not wish to wreck the Ferry Company?" "I never did want to," he replied. Steedle then declared that Hollingshead had told him he held out the ground so he could start another ferry in case he should lose out at this election. Hollingshead denied making such a statement.

Mr. Wright then asked Messrs. Hollingshead and Jones if they would deed to the Ferry Company the necessary ground, and Mr. Kuhn backed this up by asking Mr. Hollingshead "Will you as a gentleman commit yourself?" "I will not say anything until the Realty Company acts," replied Mr. Hollingshead. (Mr. Hollingshead is said to own two-thirds of the stock of the Realty Company.)

Made Good Bargain
The purchase of the ferryboat Fearless, now the Tacny, came in for much discussion. Mr. Wright and others freely admitted that Mr. Hollingshead had made a good bargain when he secured the boat for \$25,000. Mr. Hollingshead explained that he had paid down \$5,000 on the purchase because the company did not have the cash at that time to pay it. He had also offered to loan the company \$15,000 to pay its debts when it was financially embarrassed.

At this point Samuel S. Daniels, secretary of the Ferry Company, read certified copies of the minutes to prove that a mortgage of \$75,000 was placed on the entire assets of the company to protect the creditors (among the directors) of certain notes of the company and "as security for any cash loans made to the company for the liquidation of the purchase price of the ferryboat Fearless." Mr. Hollingshead had loaned the company \$5,000 to pay the initial installment on this boat.

AMBULANCE DRIVERS

George N. Wimer, the president, appointed George W. Rogers and Harold B. Lever drivers of the ambulance at the regular monthly meeting of the Palmyra Ambulance Association held in the Palmyra police headquarters Friday evening of last week.

Mr. Wimer announced that four of the ladies would be appointed to serve as nurses each month. This month they will be Mrs. Elias Morgan, Mrs. John Hoopner, Mrs. James T. Weart and Mrs. Rachel Lord.

Now that a more centralized place of meeting has been obtained, Mr. Wimer feels that there will be a large attendance at the monthly meeting.

PALMYRA P. T. A.

Interesting Program Arranged for
Next Tuesday Evening

Mrs. Charles Whitmer, the president, has announced a very interesting program for the regular monthly meeting of the Palmyra Parent-Teacher Association which will be held in the grammar school auditorium, Delaware Avenue, Tuesday evening at 8 o'clock. It is as follows: Address by Miss Marie Owell, the Palmyra School Nurse, on "My Experiences in Palmyra Schools." Sketch by Benjamin Torbett and Robert Brown.

The chief of police by group of children from fourth grade; Miss Josephine Hannold, teacher. Mrs. Whitmer is especially anxious to have a large attendance at the proposition of changing the meeting night will be discussed. It is understood that a number of men are desirous of attending, but conflicting meetings make it impossible. It has also been suggested that the third Monday instead of the third Tuesday of the month would be more convenient and the president wishes every member to have a voice in the arrangements in order that any action might be based on a popular opinion.

"MR. BOB"

Clever Comedy To Be Given by the
Epworth League

"Mr. Bob," a comedy in two acts by Rachel E. Baker, will be given in the Epworth Temple Saturday evening, February 20, by the Epworth League. The play holds the interest of the audience from start to finish with the snatches of humor and romance. Much amusement is added with the mistaken identity of several of the characters and after several weeks of diligent rehearsing the Leagueurs are prepared to give a splendid presentation.

"Kay" Green, in the leading role well supported by Hilda Lippincott, Pearl Coombs, Gilt Hunseler, Dorothy Taylor, Clifton Taylor and Harlan Lippincott make up the cast.

RIVERTON SCHOOL MEETING

Fourteen citizens of Riverton attended the annual school meeting and election of members of the Board of Education in the schoolhouse Tuesday night. At ten minutes past eight only two were present, and it was necessary to wait until others came in to have enough to conduct the meeting.

C. C. Miller was elected chairman, and Ross E. Mattis, secretary. The tellers were Miss Hannah H. Chew and Joseph Letherbury. Mrs. Hettie L. Miller, Daniel M. Clifton and Murray C. Boyer were re-elected for full terms, and Harry E. Davis, who was appointed to fill the vacancy caused by the resignation of Harold Baker, was elected to fill the unexpired term of two years.

The appropriation voted for current expenses was \$35,970; repairs and replacements, \$1000; manual training, \$1,100.

PORCH CLUB

On February 10 at 3 p. m. under the auspices of the College Committee, Dean Douglas, of the Jersey State College for Women, will address the Porch Club. Any prospective students or parents who are interested are cordially invited to attend the meeting.

D'OLIER ADVANCED

Former Riverton Man Vice-President
of Prudential Co.

At a recent meeting of the Board of Directors of the Prudential Insurance Company of America, Franklin D'Olier, a former Rivertonian, was elected Vice President in charge of administration. He will be associated with the President in direct charge of administrative matters both in the Field and Home Offices.

Colonel D'Olier is a native of Burlington, N. J., and is a graduate of Princeton University. He entered the United States' service in April 1917, organized the salvage service and was honorably discharged as Lieutenant-Colonel on the General Staff in 1919. He was awarded the Distinguished Service Medal by the government of the U. S. and was named by France a commander of the Legion of Honor. He was elected as the First National Commander of the American Legion in November, 1919. He is a resident of Philadelphia, is the President and Treasurer of Franklin D'Olier & Co., Inc., founded by his father William D'Olier in 1869. He is a Director of the First National Bank of Philadelphia and the Penn Mutual Life Insurance Company, as well as a Trustee of Princeton University.

Mr. D'Olier was a resident of Riverton for about twenty years, leaving here in May 1921, when he moved to Wynnewood, Pa. In the spring he expects to move to Morristown.

Police Seeking Hit-Run Driver

Several Charges Reported
Against Principal in Five
Points Crash

Palmyra police are searching for the driver who is alleged to have caused an accident which injured a boy and a three-year-old girl at Five Points, Parry, Sunday noon, and then escaped.

The driver, who is said to be Oscar Thompson, of Wildwood, disappeared with a young woman, who was a passenger in his car, shortly after the Buick coupe which he was driving crashed into a Morgan Laundry truck of Westmont.

Both machines were considerably damaged and the truck turned over and after it piled into a tree. Hanson Taylor, the driver of the truck, escaped unscathed, being protected by the steering wheel of the truck. His helper, Gustave Geiger, of Westmont, 17 years old, was thrown from the cab of the truck by the force of the impact. The lad suffered a broken arm and lacerations.

Thompson and the girl were accompanied by Jacob Kirch, of Cream Ridge, and his three-year-old daughter, Addie. Addie was the only occupant of the Thompson machine to be injured. She received a deep gash under her left eye that required seven stitches.

Palmyra police were not called until some time after the accident. It was found that Thompson, after removing the license tags from the machine, had disappeared with the girl shortly after the accident occurred.

Officer Joseph Rodgers placed Kirch under arrest and Chief of Police Beck continued the investigation. At first the chief was told that the pair had come off in another automobile bearing Pennsylvania license plates. Later a small boy informed Beck that the couple had fled across the fields in the direction of Camden.

The chief quickly located their tracks in the snow but by then the couple had ample time to escape. He traced their foot steps for several miles until they finally led up to trolley tracks where they were boarded.

The Palmyra police are being assisted by detective forces from several counties and the state police in their search for Thompson. It is understood that Chief Beck has evidence for serious charges against the escaped shore man.

Hirsch was held under \$300 bail by Justice of the Peace William L. Fichter. The bond for the Cream Ridge man's release was furnished by Charles W. Chamberlain, of Yardville.

EXPRESSMEN MEET

Prominent speakers featured the meeting of the South Jersey Local Express Association, held at Steedle's garage, Riverton, last Friday. Thirty-five members were present.

F. Braver, of the Pierce Arrow Motor Company, Buffalo, N. Y., spoke on the "Value of Unity in the Motor Trucking Game." E. Underwood, of the New York Motor Haulage Association of New York, spoke of truck legislation at Washington, and Lawrence Mingin, former deputy county clerk of Burlington county, talked on the value of local express companies to rural communities.

RIVERTONIANS QUIZ COUNCIL

Rather Cool Reception Given
Borough Taxpayers at
Hearing

VISITORS INTERESTED
IN POLICE PLANS

A number of Riverton citizens appeared before the Borough Council last Saturday night to ask some questions concerning the budget for the coming year, a hearing on which had been advertised for that date.

Among those present were I. S. Williams, Ross E. Mattis, Clarence Hubbs, George D. Steedle, John C. Hart, Frank Perkins, John Carhart, William G. Frank and Frank Bach.

The subject which received most consideration was the increase in the appropriation for the police committee, which was made for the purpose of adding another officer, to be placed in charge of the present members of the force.

Mr. Williams said he did not think that traffic conditions at the different railroad crossings would warrant putting on another man, and that if a help was needed to guard the safety of school children and the people of the borough, the railroad company should pay part of the expense.

John C. Geiger wanted to know what the extra policeman would do when not operating the traffic signals, and if the new man was to be placed over the two present officers who had served the borough for many years. He said that there certainly must be someone in the borough who could fill the position without going outside. He had no one to suggest, but thought someone might be found by advertising that such a position was open.

Wants Suggestions
In answer to Mr. Geiger, Councilman Welsh said that instead of citizens coming to criticize severely they should come with some constructive suggestions. In other words, give Council something to work on. He said that the job of being councilman was a thankless one without being severely criticized for what they only intended to do, not what they had done. He felt that citizens should wait until the end of the year, and then if they were not satisfied, that was the time to act. (Which calls to mind the story of the small boy whose father told him not to bother until he was hurt, to which the lad replied, "It will be too late then.")

Not There to "Kick"
Mr. Williams said the councilman did not get him quite right, that he was not criticizing, but merely seeking for information, which he understood was the purpose of advertising a hearing on the budget.

Mayor Homphill said he did not think Mr. Williams had understood Mr. Welsh, who doubtless did not think that the citizens present were there to find fault, but to ascertain just how the various items of the budget had been made up. Mr. Welsh replied that he had meant just what he said, that councilmen were elected to represent the people and the people should have confidence in them. When the councilmen made up a budget it should not be criticized, Mr. Welsh felt.

In explaining the increase in the budget, Mayor Homphill said he thought the police force should be put on an eight-hour basis, giving them time for rest and recreation, finally stating that whether the third man was added to the force or not, the day would be reduced to eight hours, if he had anything to do with it. The mayor said he had been in conference with at least seventy-five persons in the borough, all of whom were in sympathy with the intentions of council in this matter. Mr. Homphill also called attention to the fact that the officers had been sent for to quell disturbances on the river bank and said that in order to uphold the good name of Riverton it was absolutely necessary to prevent the occurrence of any dangerous scenes that had been enacted there in the past. He said it had been necessary to keep an officer stationed on the bank about six months in the year. He also stated that it was usually necessary for two men to patrol the borough twenty-four hours a day.

Holvick for Chief
When council asked if anyone could suggest a suitable man in town for the third officer, Clarence Hubbs offered the name of Frank Holvick, stating that he had had military training and thought he could fill the bill in all respects. To this Mr. Welsh objected, saying that anyone so mixed up in politics should not be placed in that position.

Speaking on the police situation, Councilman Flagg said he had been a resident of Riverton for the past twenty-five years and did not think there was anyone in the borough who loved the town more than he did, but he thought the business of the borough should not be talked profusely on street corners and in saloons, and a member of council he did not think should have his own opinion, said Mr. Flagg, and every invention, no matter how good, needs a tryout; therefore give the third man proposition a tryout.

He further stated he did not think there was any fruit going on and that the councilman had the interests of the townspeople at heart; that they were elected to council to take care of the business of the borough, and if they do not properly perform their duties, "fire them."

Mayor Homphill said that while taxes in Riverton were higher, when it was all added out it would be found that Riverton's budget is far below that of other municipalities.

MISS RUPPERT WINS

Girl Sprinter Helps Relay Team
Smash World's Record

Frances J. V. Rupert, of Riverton, former Palmyra High School champion girl athlete, has annexed another world's record.

In defeating the crack Canadian girls' relay team in the feature international mile relay at the Millrose meet in New York Thursday of last week, the American team, of which Frances was a member, established a new world's record.

The former girls' 440 indoor relay time was 54.9 seconds. The all-star U. S. quartet tore off the mile in 52.9.

Frances ran first and when she handed the baton to Mable Gilliland, of the Savage School of Physical Education and former Olympic luminary, America had a lead that was never threatened by the invading lassies.

Frances and Miss Gilliland were followed by Eleanor Egan, of the Patterson Recreation Center, and Miss Loretta McNeill, of Millrose, A. A., New York.

The fleet-footed Frances also ran a beautiful race in the international 50-yard dash, placing second. The winning time was 6.2 seconds, a fifth of a second slower than the world's record. The former Palmyra High star breathed the tape on the heels of the victor.

Saturday evening at 8 o'clock Frances broadcasted from station WIP, through Dr. M. Francois D'Elise's sport center, a feature of the station which is broadcasted every Saturday evening.

Frances, in a short talk, told of the part feminine athletes played in the great Millrose meet.

TO IMPROVE FIRE HOUSE

Following the meeting of the Riverton Borough Council last Saturday night, a committee from council and a committee from the fire company got together on some contemplated improvements to the upper floor of the firehouse including the woodwork in the council chamber, to arrange a police headquarters in the front room. Some re-arrangement and improvement of the sign on the front of the building was also spoken of.

It is proposed to put the telephone in place and to install an oil-burning heating equipment before next fall.

Frank Bach, of Linden avenue, said he took no exception to the third man if needed, but felt the years of service rendered by the present officers should receive some consideration, and that it would be entirely wrong to go outside of the borough to secure a chief of police.

Blazer Celebration
E. Earl Perkins, of Thomas avenue, asked why the Fourth of July appropriation had been raised \$500 over last year and the mayor replied that inasmuch as 1925 was the 150 anniversary of the Declaration of Independence, it was thought it would be desirable to have a somewhat more elaborate program.

The arguments pro and con seemed to be about all in Mr. Williams wanted to know if the arguments on the third man proposition were to be of no avail.

In reply the mayor said that he did feel the small delegation present could be taken to represent what the people of Riverton at large wanted, and while the objections raised would have no effect on the action about to be taken in approving the budget, he thanked the citizens for turning out and expressing their views, which was their privilege and prerogative.

The budget was then unanimously adopted as previously prepared. The ice and snow ordinance passed second and final reading.

The mayor announced the following appointments which were unanimously ratified by council: Superintendent of Highways, Ogden H. Mattie; shade tree commission, Mrs. Adelaide S. Mattie; to fill the unexpired term of Thomas Seidman, resigned, and the Rev. Arthur S. Lewis for the full term, to which an appointment has been made for more than a year.

HOLLINGSHEAD REPLIES TO WRIGHT AND DANIELS

Disclaims Any Attempt to
Wreck Ferry Co; Would
Not Foreclose Mortgage

It has been publicly stated in the Riverton New Era newspaper that Benjamin Lippincott withdrew his name from the stockholders committee.

Mr. Lippincott had given his proxy to the stockholders committee to vote his shares, but afterwards sold his stock, which he had a perfect right to do, and as a result asked to have his name withdrawn.

This cannot be considered as a reflection either upon Mr. Lippincott or the committee, notwithstanding that Mr. Lippincott has asked to have his name withdrawn.

At a special meeting of the Board of Directors of the Palmyra Realty Co., held on the 21st day of January, 1926, present Messrs. Wright, Bleakly, Forsyth, and Fluck, Mr. Jones and Mr. Hollingshead being absent in Florida, Mr. Wright presiding as Vice-President. The Committee presented the following report: Tentative Lease Agreement between the Palmyra Realty Co. and the Palmyra Ferry Co.

Note: Mr. Hollingshead and Mr. Jones received no notice of this meeting therefore it was an illegal meeting, notwithstanding a quorum was present. All Special Meetings can be called only upon notice to each Director with the purpose of the meeting in the notice. After the reading of the tentative agreement, the following resolution was passed: On motion by Mr. Bleakly, seconded by Mr. Forsyth, it was resolved that we lease to the Tacny-Palmyra Ferry Co. for 99 years the right to terminate either a ferry or bridge on the premises of the Palmyra Realty Co. for one dollar per year rental and the matter of property safeguarding the interests of the Palmyra Realty Co. in this lease be left in the hands of the Committee who will report at a subsequent date. Same was carried.

Mr. Wright and Mr. Daniels state that Mr. Hollingshead and his attorney, William Clayton Jones, are hiding in the background, seeking to gain control of the Ferry Company through the foreclosure of a mortgage of \$125,000. The mortgage was executed by Charles A. Wright as President and Samuel S. Daniels, Secretary, on behalf of the Ferry Company on January 2, 1926. The terms of the mortgage provide that the first payment of \$10,000 shall be made on July 1, 1926, and the sum of \$12,500 shall be paid each six months thereafter until the mortgage is paid off.

It will therefore be seen that if Mr. Wright's statements are correct and the Ferry Company is earning sufficient to enable it to meet this obligation as well as pay a dividend to its stockholders, then of course, the Realty Co. could not foreclose even though it desired to do so. Mr. Wright's statement respecting the foreclosure of this mortgage is misleading and untrue, and neither Mr. Hollingshead nor his associates could obtain control of the Ferry Company by this method.

Mr. Wright says that "I tried very hard to have the ground leased to the Ferry Company on a 99 year lease at one dollar a year. Strange to say, when I finally did get connected with the Realty Company, the \$1 a year lease, J. H. Bines, former President of the Ferry Company and then Chairman of a Committee of Four, of which I was a member, rejected the one dollar proposition emphatically." The question of the matter is that Mr. Bines did object to the Ferry Company leasing the property known as Eight Mile Point for the reason that Mr. Bines was unwilling that the Ferry Company should spend upwards of \$150,000 for a new terminal at Eight Mile Point upon property that did not belong to the Ferry Company under a lease.

"Such an arrangement would prevent the Ferry Company except under its lease agreement, from considering this large investment as an asset, and on July 18, 1924, a letter was addressed to Mr. Wright in which eleven of the Company's large stockholders, some of whom are Directors, expressed their disapproval of establishing a ferry terminal at Eight Mile Point, under conditions such as were proposed by Mr. Wright."

Letter to Bines
On July 17, 1924, J. V. Hewitt, a stockholder of the Ferry Company, addressed a letter to the President, John H. Bines, as follows: "Mr. Bines, President:

"I, as a stockholder of the Tacny-Palmyra Ferry Co., understand there is a deal going on to have the ferry changed from Palmyra to a point eight miles, at a cost of about \$12,000 a year. I, as an owner of 50 shares of stock and many friends holding hundreds of shares, do not approve of any change whatever. I will take it up with my attorney and put it before the highest courts if there is any move whatever to make any change in the moving of the ferry from Palmyra to any point."

Yours truly,
J. V. Hewitt

This letter was commented on by Samuel S. Daniels, as follows: "Mr. Hewitt being misinformed, that Charles Wright was working for George Sales, wrote the above letter and it frightened Mr. Sales, though as a matter of fact, it does not mention anything. Mr. Hewitt has since learned the facts of the case, viz, that Charles Wright is fighting Sales and he is now, so I am told, one of Wright's staunchest adherents."

With respect to the statement made by Mr. Wright "Fearing opposition from the stockholders, I called Mr. Hollingshead on the phone and asked him if I would acquire the \$125,000 and stop the trouble and strife he had injected into the board."

Mr. Hollingshead made no threat of any such character as indicated by Mr. Wright. Mr. Wright at that time had embroiled himself in a

TO IMPROVE FIRE HOUSE
Following the meeting of the Riverton Borough Council last Saturday night, a committee from council and a committee from the fire company got together on some contemplated improvements to the upper floor of the firehouse including the woodwork in the council chamber, to arrange a police headquarters in the front room. Some re-arrangement and improvement of the sign on the front of the building was also spoken of.

It is proposed to put the telephone in place and to install an oil-burning heating equipment before next fall.

Disclaims Any Attempt to
Wreck Ferry Co; Would
Not Foreclose Mortgage

DEMANDS PROOF FROM
DANIELS FOR STATEMENT

Answering the charges made by Charles A. Wright and Samuel S. Daniels in the issue of the New Era dated February 4th, 1926, in the Ferry Company controversy, Mr. Hollingshead and Mr. Jones make the following statement:

At a special meeting of the Board of Directors of the Palmyra Realty Co., held on the 21st day of January, 1926, present Messrs. Wright, Bleakly, Forsyth, and Fluck, Mr. Jones and Mr. Hollingshead being absent in Florida, Mr. Wright presiding as Vice-President. The Committee presented the following report: Tentative Lease Agreement between the Palmyra Realty Co. and the Palmyra Ferry Co.

Note: Mr. Hollingshead and Mr. Jones received no notice of this meeting therefore it was an illegal meeting, notwithstanding a quorum was present. All Special Meetings can be called only upon notice to each Director with the purpose of the meeting in the notice. After the reading of the tentative agreement, the following resolution was passed: On motion by Mr. Bleakly, seconded by Mr. Forsyth, it was resolved that we lease to the Tacny-Palmyra Ferry Co. for 99 years the right to terminate either a ferry or bridge on the premises of the Palmyra Realty Co. for one dollar per year rental and the matter of property safeguarding the interests of the Palmyra Realty Co. in this lease be left in the hands of the Committee who will report at a subsequent date. Same was carried.

Mr. Wright and Mr. Daniels state that Mr. Hollingshead and his attorney, William Clayton Jones, are hiding in the background, seeking to gain control of the Ferry Company through the foreclosure of a mortgage of \$125,000. The mortgage was executed by Charles A. Wright as President and Samuel S. Daniels, Secretary, on behalf of the Ferry Company on January 2, 1926. The terms of the mortgage provide that the first payment of \$10,000 shall be made on July 1, 1926, and the sum of \$12,500 shall be paid each six months thereafter until the mortgage is paid off.

It will therefore be seen that if Mr. Wright's statements are correct and the Ferry Company is earning sufficient to enable it to meet this obligation as well as pay a dividend to its stockholders, then of course, the Realty Co. could not foreclose even though it desired to do so. Watson's Bull Tied Up Again

Roving Beast Is Corralled After Long Chase in Vicinity of Taylor's Lane

"They all come back," said Chet Watson Tuesday morning as he affectionately patted the "long lost bull" in a stall at his stable Tuesday morning.

"Yes, and not so tame either," sighed Bert Cooper as he gingerly rubbed a few more spots, for only a few minutes before Cooper had gone in the stall to get acquainted with the roving beast. For some unknown reason, the bull decided there was something unattractive about Cooper's appearance and had unceremoniously kicked the visitor out of the stall.

Early in December the bull first made its appearance in Palmyra. After a lively tussle with Officer Lawrence Hottel at the Field Club Park it was subdued and placed in the Watson stable.

New Year's evening the beast broke its halter rope and was last seen going eastward up the railroad tracks at a lively clip. Several hunting parties were organized but each search was fruitless.

Discovered Again

About three weeks ago reports began to drift into the Watson stable to the effect that the bull was hovering in the vicinity of Taylor's Lane. Workmen at the Campbell's Soup farm declared they had, after a short chase, lost it in the woods in that locality.

On Tuesday last week, one of the boys, a member of Watson's rough riders, breathlessly dashed into the stable, declaring the notorious beast was again at large near Taylor's Lane and in a few minutes he was followed by Superintendent Shivers, of Campbell's who vouches for the boy's statements.

A party of a dozen, made up of Mr. and Mrs. Watson, the blacksmith, Mart Lamont, and boys of the club, all astride horses, soon set out in pursuit of the animal.

On reaching Taylor's Lane they could find no trace of the animal. After an hour's search, it was spotted off in the distance, grazing in a field. As the party neared it shied off and disappeared in the woods.

Mart Lamont followed closely after and in a short time had chased it out in the clearings. Chet took up the chase, which was a thriller from all accounts.

Loosing the rest of his party, but never sight of the long lost bull, Chet followed it across fields, marshland, through small streams and woods, over fences, railroad tracks, and finally pulling up along side it in a meadow near Lenola. Watson jumped from his horse and landing on the bovine's neck, threw the bull.

He managed to hold it and yell until the rest of the party located him and then the bull was tied while Chet returned to Palmyra for his truck. Lamont and Hank Land remained with the bull and had quite a wait before Watson returned.

After getting his truck Chet couldn't seem to locate the meadow where he had thrown the bull, and had considerable trouble with the machine which got stuck in the mud several times.

Chet says he will give the famous bull to the Palmyra Fire Company for a fire engine for he says it's too much trouble to keep around the stable. Especially, since it has such a roving disposition.

COURT NEWS

Due to the fact that Judge Joss was expected to preside in the circuit court at Mount Holly last week but was kept at home owing to illness, there were few criminal matters set down to be heard. However, Judge Blaughter cleared the slate so far as was possible on Thursday.

Francisco Rivelli, of Riverside, who was convicted on an assault and battery charge, was sentenced to pay a fine of \$75.

Frank Peters, of Burlington, who assaulted a woman because she claimed he got her husband intoxicated, escaped with a \$50 fine.

Mrs. Louisa Smith, of Florence, charged with concealment of pregnancy and the birth of her child, which was found dead in a corn stack near her home, came in on a waiver and pleaded guilty, throwing herself on the mercy of the Court.

She also produced a marriage license and said the father of the child was willing to marry her immediately and support her. This not being the first time that this woman is said to have destroyed her new-born offspring, the judge declined.

BELL SYSTEM HAS 700,000 OWNERS

More "Partners" Than Any Other Business in the World. Says D. F. Houston

There are more than 700,000 owners of the Bell System, says D. F. Houston, president of the American Telephone and Telegraph Company, which is the largest company in the world. The Bell System, according to Houston, is a great success story. It has grown from a small company in New York to a giant enterprise that covers the entire United States and parts of Canada and Mexico. Houston says that the Bell System is a great example of the power of the American system of free enterprise and competition. He says that the Bell System has been able to provide the best service in the world at the lowest cost. He says that the Bell System is a great example of the power of the American system of free enterprise and competition.

At the present time, any one can purchase Bell System stock at any time. The price of the stock is now \$100.00. It is a great investment. It is a great example of the power of the American system of free enterprise and competition. It is a great example of the power of the American system of free enterprise and competition.

Ready to Finance Burlington Bridge

Moneyed Interests Promise Support For Span Over Delaware to Bristol

Two more moves toward building a bridge between Burlington and Bristol were made last Saturday, and the dream of years is drawing nearer to realization.

On Saturday night there was a conference in Burlington at which Philadelphia and Burlington financial interests were represented, and assurance was given that money for the building of the bridge is available at once.

On Saturday afternoon Burlington Grange, No. 68, Patrons of Husbandry, adopted a resolution placing the Grange back of the bridge campaign and asking Burlington County members of the New Jersey Legislature to give the bridge project every possible support.

For some time past active work in connection with the bridge has been done by private interests with a view to establishing a toll bridge between the two towns. Data on which the project was considered were furnished by an engineer associated with the Delaware River Bridge between Camden and Philadelphia, and the financiers declared they were ready to put the thing through.

Under the plans of the financiers they will build the bridge and operate it as a toll proposition until the cost of construction is paid for and then turn it over to the state as a free structure.

At the Saturday night conference the matter was discussed from every angle and the possibility of a bridge between Burlington and Bristol was placed in a more real light than at any time since the campaign was started.

Two plans are being considered by the private interests. One is a bridge from Burlington to Bristol by the way of Badger's Island, and the other is a bridge by the way of Burlington Island. The Badger's Island structure will require one draw. The Burlington Island structure will require two.

Further moves will be made in a few days and it is expected that the matter soon will come before the New Jersey Legislature.

BLUE SOX WIN

Defeat Runners-up in Strawbridge and Clothier Tournament

Baker's Blue Sox won more than a mere basketball game by trimming Raydon A. A., of West Philadelphia, 28-17, in the Temple gym last Thursday evening. This victory carries much weight and prestige for Raydon was the runner-up in the Strawbridge and Clothier tournament last year and the triumph for Baker's boys puts them in a formidable position for championship honors.

The game was closely contested and filled with thrills from start to finish. The first half was marked with brilliant shooting and Palmyra's court stars only held a scanty advantage, the score being 11-10 at half time.

Bleak broke through in the second half and with a trio of double-dunked shots led the locals in the lead. Through Bleak's superb shooting, coupled with snappy passing and splendid team work, the Palmyra court artists easily held the lead throughout the waning moments of the fray.

This Saturday evening Baker's Blue Sox will meet the fast Crystal Ice five in a preliminary game to the Morris Guards on the Steel Pier, Atlantic City.

The locals will play their first game in the Strawbridge and Clothier tourney on March 1.

It's weather, not wear, that destroys machinery.

Little Travelogues

By BLANCHE GILL
ST. BERNARD DOGS

There are no more interesting places to visit in Switzerland than the mountain passes in the Alps.

We spent some time on street St. Bernard, the most famous of the Alpine passes, and known especially on account of the Hospice at the top. It was founded in the Ninth century by St. Bernard of Monthon for the benefit of pilgrims journeying to Rome. The monks who live at the Hospice are canons of the Order of St. Augustine. Their purpose is to save poor wayfarers when they have lost their way in a blinding snowstorm. In this rescue work the monks are assisted by their wonderful St. Bernard dogs. From little puppies these dogs are trained to find the wanderers lost or buried in the snow. It takes about two years to reach a dog this great work of life-saving.

These remarkable animals are sent out from the Hospice with small cakes of water tied around their necks, and they sniff up traces of travelers in distress, surprised by the dangerous, heavy snow storm. If the horses discovered has this strength to walk, the dog guides him to the Hospice. If found over come by the storm and sleeping the death sleep caused by the intense cold, the dog digs him out of the snow, barks and tries to wake him up if possible. It is possible to wake him the dog drags him as far as he can, then runs back to the monks for assistance.

There is always a hearty welcome from the monks. Rich and poor are received alike at the Hospice; no name is asked and no payment is demanded from anyone, but the expectation is that alms will be put in the poor-box.

This heroic rescue work by the good monks and their clever dogs fought off the snow months of the year in this isolated snowbound region saves the lives of many travelers.

Old-Time Army Thing of Past

Graft Hard-boiled "Non-Com" Gives Way To Young Officers

The old Army is passing. The graft, hard-boiled, middle-aged non-commissioned officers are giving way to younger men, "gentle-men rankers," as Kipling would call them.

Today, say Army authorities in New York, the military establishment most abundant with youngsters holding the highest enlisted grades up to and including that of master sergeant, the very highest.

Before the World War the sergeants and first sergeants usually were "old-timers" who had to their credit at least ten years of service; service in Cuba, Panama, Alaska, China or the Philippines. The war took an enormous toll of these men and hundreds more retire each year on three-quarters pay at the end of thirty years service. Few of the hardy soldiers who fought in the Spanish-American War and against Aguinaldo in Luzon are left. The Army today is composed primarily of young men.

This is accounted for by the rapid turnover. The present day soldier is not a professional military man. He enters the service just as he would enter a college, and for much the same reason.

The schools of Uncle Sam's Army are among the finest in the country. Practically every line of human endeavor is taught, from the raising of horses to medical and radio science, engineering, cooking and the many technical trades.

Each year thousands of young men who have completed courses offered to its personnel by the Army, purchase their discharges for a nominal sum and return to civil life. Nearly all of their applications are based on the offer of more lucrative positions by commercial concerns, and it is a cardinal principle of the Army that it shall not stand in the way, in peace time, of an enlisted man who has the opportunity to better his position in life.

It is for this reason that the Old Army is passing. Promotion is rapid and it is common to find a "top-kick" or a staff sergeant in his

first enlistment, and under twenty-five years of age. The military service loses many of its technically trained men before their enlistments expire, but the commercial world gains and thereby the Army increases its percentage as an educator and builder of men.

A New York man told the police judge that he wore three pairs of trousers to protect his bankroll. Most of us, if we had three pairs of trousers, wouldn't have any bankroll left to protect.

Still there's one consolation to be found if some of the boys don't learn anything in college nowadays except playing the saxophone, and dancing the Charleston. Even these two vices are to be preferred to pacifism.

A moderate is one who uses a paper towel and likes it.—Milwaukee Journal.

No wonder President Coolidge doesn't talk. Think of the people who keep him listening.—Cleveland Times-Commercial.

Local Interest

To a great extent your social activities and business interests center in this locality.

Tacony-Palmyra Water Co. and Riverton Water Co. Notice

The William C. Ferry letter of Feb. 10, 1926, is a very important document. It is a very important document. It is a very important document.

Before you throw Jones it would sur Public Utility Commission management by Jones and then ask your your Ferry Company.

This report is from table 1, page In the matter of Delaware River Water Co.

the Tacony-Palmyra Water Co. is the Presiding in Riverside, A. Wright is President Palmyra Water Co. and supply about

pany and install Mr. New Jersey Board of March 19, 1926, of the live water companies you would prefer in

acts as shown below

ease of rates by the and by the Board.

Delaware River Water Co. Jones

Water Pumped (Year 1922)

Expense per 1,000 gallons

Labor per 1,000 gallons

Dividends paid for average of eight years

Amount paid to Stockholders in 5 years

Salary paid President per year

Legal Expense year 1922

In water pumped, Wright's Company pumped over forty million gallons more than Jones Company, but did it for less than one half of what Jones Company paid. They have supplied their consumers for less money, yet Wright's Company has paid to stockholders in the past eight years more than \$30,000, while Mr. Jones Company by his own admission, has paid nothing. Mr. Wright was paid \$500, Mr. Jones \$3,000 per year for this management. The physical property of Mr. Wright's Company has always been maintained in splendid condition, and is in better shape than before he became president. Mr. Wright's Company paid an average of \$125 per year for legal advice, while Mr. Jones Company paid in 1922 \$3,042.79. Bear in mind that Mr. Jones is an attorney.

ROBERT W. KNIGHT, Stockholder Riverton and Palmyra Water Co. Stockholder Tacony-Palmyra Ferry Co.

(Copyright, 1925, by the International Bible Students Association)

Lesson for February 14

JESUS, THE GOOD SHEPHERD

LESSON TEXT—John 10:1-18.
GOLDEN TEXT—The good shepherd gives his life for the sheep.—John 10:11.
PRIMARILY TOPIC—The Good Shepherd and His Sheep.
JUNIOR TOPIC—Jesus the Good Shepherd.
INTERMEDIATE AND SENIOR TOPIC—What the Good Shepherd Does for His Sheep.
YOUNG PEOPLE AND ADULT TOPIC—Many Sheep, but One Shepherd.

The relationship of the Messiah to His own is set forth in the Old Testament under the figure of the shepherd and his sheep. (Ex. 22, 34.)

1. The Good Shepherd (vv. 1, 11).
2. He is the True Shepherd (vv. 1, 11).

He came by the divinely appointed way. The power exercised by the Pharisees in casting out this man was not obtained by lawful means. It was stolen by them and exercised in the bold spirit of robbers. John the Baptist, and others of the prophets, had performed the function of the porter and opened the door to the Shepherd (v. 23). Despite the deceit, audacity, theft and robbery of these Pharisees, those who were Christ's sheep were declared to be forming a new flock and following Him as the true Shepherd (v. 4). The reason the man suffered excommunication for Jesus' sake was that he recognized Him as the true Shepherd and the Pharisees as strangers.

3. He is the Door of the Sheep (vv. 7-10).

The way to fellowship to God is through Christ. He is the only door (Acts 4:12). There is absolutely no way to get into the fold of the redeemed but by Him. All who attempt it are thieves and robbers (v. 8). Those who become members of the flock through Him enjoy marvelous gifts (vv. 10, 11).

- (1) Salvation—"Shall be saved." Not only saved now but saved eternally (vv. 27, 28).
- (2) Liberty—"Shall go in and out" (v. 9).

Only those who accept salvation in Christ know what freedom is.

- (3) Contentment—"Shall go in and out and find pasture" (v. 9).

The one who really enters the fold by Christ, the door, receives that which is all-satisfying to the soul.

4. He is the Good Shepherd (vv. 11-18).

He is so devoted to His sheep that He willingly lays down His life for them. The hireling abandons his sheep in time of danger. The Good Shepherd has perfect knowledge of His sheep and they know Him (vv. 14, 15). He knows each individual in His flock and goes before them to lead the way and defend them from every danger. This He will do even unto death. On Calvary this was historically fulfilled. It was Christ's love for such sheep as this poor blind man that caused Him to give up His life in order to find for them the abundant life (v. 10). The sympathy in words—"Other sheep I have which are not of this fold." This suggests that the Gentiles have a place in His fold. All who believe in Christ form one flock. In order to save His sheep He voluntarily laid down His life (vv. 17, 18).

1. The Sheep (vv. 10-30).

Unbelievers are Not His Sheep (vv. 10-30).

Christ's assertion that He was the good shepherd caused a division among the people. Some accused Him of being mad, others that He had a devil. To their request that He would tell them plainly if He were the Christ, He referred them to the testimony of His works, declaring that the secret of their inability to recognize Him was their unbelief.

2. They Recognize His Voice (v. 4).

There are many voices in the world, the voice of the hireling, the voice of the thief and the voice of the stranger, but none of these will the sheep hear. The voice of the true Shepherd is recognized by His sheep even amidst the babel of voices in the world today.

3. His Sheep Follow Him (vv. 4, 27).

This is the proof that they are His. The one who does not hear, heed, and obey the Lord's voice is clearly not His sheep. His sheep have unquestioned faith in His ability to lead them.

4. His Sheep Are Eternally Secure (vv. 27, 28).

The sheep are entirely dependent on the Shepherd. It is the Shepherd's business to look after and care for the sheep. This He does for He knows them by name and is acquainted with their weaknesses and trials.

The Real Blessing

The real blessing, mercy, satisfaction, is not in the having or the lack of merely outward things, but in the consciousness that the true source of life and happiness is deeper than all these.—John W. Chadwick.

Eyes to See

As a face is made beautiful by the sun's shining through it, so the world is beautiful by the shining through it of a loving God. Happy the man who has eyes to see the shining.

"CHARLESTON FOOL"

Youngstown, O.—"Kid Dusty," self-termed "Charleston fool of Youngstown," wants a chance to Charleston his way out of jail. He gave an exhibition in court, but was sent up to serve out a \$100 liquor fine. He thinks if he can shake his toes in court again they'll let him out.

SOME DRIVE

Washington, D. C.—When a locomotive struck the rear of a "Ford" merchant's automobile he started his machine a half mile down the tracks and he drove away, unhurt.

EMPTY CITIZENSHIP

At the Women's Industrial Conference in Washington last week Miss Rose Schneiderman asserted that citizenship without a stake in the country is an empty name. She also pointed out how hard the immigrants struggle to get in and become citizens, whereas one-half of our own people habitually neglect to exercise their citizenship in voting.

Here we had been building up a nation for just 150 years coming the next Fourth, and our liberties are due entirely to the principles of democracy, yet our democracy only half functions today. For no democracy can function any higher than the percentage of its votes cast. It is no wonder that with only half of our people voting we should be getting or failing to get in government many things which we complain of.

Y. W. C. A. Notes

Burlington County had a splendid delegation at the State High School Girl Reserve Conference at Atlantic City last weekend. Every high school club of Burlington County was represented at the conference. "Christian Citizenship" was the theme of the conference; the different threads that go to make up a pattern of life were the subjects of many inspiring talks.

Mrs. J. E. L. Davis, of the Friendly League for Christian Service, gave a very delightful talk Friday evening on "Christian Citizenship." On Saturday evening after a very delicious banquet served to the conference by Atlantic City, Mrs. Frederick M. Paist, National President of the Y. W. C. A. of America, spoke on "Christian Citizenship in the World." She spoke of the need of understanding and appreciation of other people who came to us, expecting so many things of us which we often fail to give. We need to be world citizens in our own country.

Throughout the whole conference Burlington County felt very much at home and a part of the conference. Miss Alice Owens, executive of the conference, formerly of Burlington; Mrs. Davis mentioned the splendid speakers from Burlington County who had come to New York to talk to her girls; Miss Marjorie Titus, one of the outstanding speakers on Saturday morning showing the part the school plays in making a pattern of life, was formerly a Girl Reserve in Burlington; Miss Margaret Luce, a former Girl Reserve of Moorestown, was in the audience on Saturday morning; and after the banquet on Saturday evening Juliet Robinson of the Moorestown Girl Reserves made a very beautiful toast to the home. The girls from Burlington County were entertained at the Willahria and Morton Hotels. This was at the request of former Burlington County residents who are now proprietors of these hotels.

Not even the extremely bad weather on last Wednesday evening could discourage the Allen School Reserves of Burlington from having a very fine Mother and Daughter Banquet. The banquet was held in the Sunday School room of the Methodist Church on High street which was most attractively decorated in Girl Reserve blue and white. A very delicious lamb dinner was served.

Mrs. Johnnie Adams, toast mistress. Mrs. George Rigg, president of the Burlington City Y. W. C. A., complimented the girls on the fine work they are doing. Rev. Lewis pastor of the church, and Mrs. Clinton made toasts to the Girl Reserves, and gave them bits of inspiration to go on in their work. Miss Sallie Sumner made a toast to the mothers. She told how the Young Women's Christian Association had grown out of the beauty of a mother's love.

In such an association women may join one another and join the girls, so that they may go on life's journey together, each one helping the other. Miss Helen Hoff made a toast to the girls showing how the Girl Reserve Movement offered a splendid opportunity for them to fit themselves for the responsibilities that were theirs. Miss Phoebe Phillips of the Belmont Y. W. C. A., in Philadelphia, spoke on the duty of the Girl Reserve Code and what it does mean in a girl's life. A great deal of credit and honor is due Miss Ruth Forman, for the splendid work she is doing with the Girl Reserves of the Allen School, of which she is principal.

The Senior Club of Mt. Holly Y. W. C. A. went into Philadelphia on Monday evening to see William Hodge in the Judge's Hall. There were twenty-eight young ladies in the party.

RUE'S BRIDGE BUILDERS

Moorestown Man Wants \$25,000 For Injuries Received on Inspection Tour

Struck on the head by a falling wooden block while making a tour of inspection of the Camden bridge with fellow Rotarians, William O. Coles, of Moorestown, has instituted suit against the Keystone State Construction Company of Philadelphia, for \$25,000 damages.

Mr. Coles, who is a member of the firm of C. B. Coles Sons & Company, was injured on September 16, 1924, and was a patient for a week at Cooper Hospital, suffering from concussion of the brain and nervous shock.

The complaint sets forth that workmen of the defendant company were negligent in permitting the heavy block to fall from the construction work.

GIFTS FOR "BOYS"

London.—Bags with triple mirrors, that will show the head at every angle, are among the novel gifts designed for this season. Chinaware combs studded with brilliant, shoulder flowers of scented chignon and garters with concealed scent sprays also are being shown.

CANARY IN REMEMBRANCE

Los Angeles.—The will of Mrs. August L. Hart sets aside \$1,000 to be divided 5 per cent, the interest to go to the upkeep of her pet canary.

Prosperity Reigns Says State Review

Country Has \$3,850,127 Savings Bank Depositors With Over \$23,000,000,000

The prosperity of our nation cannot be doubted, when we learn from the American Bankers' Association that there are \$3,850,127 savings-bank depositors in the country, who have \$23,000,000,000 to their credit.

Newark—Continental Baking Co. plans erection of modern baking plant.

Verona—Two new dwellings to be constructed.

Newark—\$150,000 business block will be built at Branford Place and Washington street.

Newark—Building at 692 High street will be replaced by large, modern apartment house.

Kearny—Water system in industrial section to be extended, at cost of \$800,000.

New Brunswick—Sacred Heart church plans erection of new school building.

New Jersey highway board contracts 848 miles of road; 454 additional miles to be taken over.

Newark—Deepening of Passaic River channel here, being urged by local manufacturers.

Newark—December building construction totaled \$2,745,828.

Newark—Pennsylvania Railroad plans to improve traffic conditions; new passenger station will be constructed.

New Hudson Bridge.

Fort Lee—Plans under way for new Hudson River Bridge.

Dumont—County may pave section of Washington Avenue.

Newark—Automobile show held here recently.

Woodbridge—Plans to be discussed for improving Upper Green Street and Highway Avenue.

Dumont—City council discussing plans for purchasing new pumping engine.

Westwood—Deposits in First National Bank for 1925, increased \$259,718 over those of 1924.

Hilldale—Plans being considered for organizing new banking institution.

Camden—Merchant Trust Company have combined assets of \$12,500,000.

Wildwood—\$275,000 will be appropriated for constructing new addition to high school building.

Stewartsville—Annual meeting of Warren County Board of Agriculture held recently.

Princeton—New building being erected on Nassau street, for Bureau Company.

Wildwood—Extensive street improvement program to get under way in Wildwood Gables.

Atlantic Highlands—Movement under way to improve westerly end of Center Avenue.

Wildwood Tables Growing.

Wildwood—Several new dwellings nearing completion in Wildwood Gables.

Cape May—One-half mile streets being graded and graveled.

Nutley—New water supply system planned in service.

Dumont—1925 building permits totaled \$766,700.

Pennington—New school building occupied.

Trenton—Plans under way to replace Bessie Rubber Co's building, recently destroyed by fire.

Bordentown—Total resources of Bordentown Banking Company, estimated at \$1,981,662.64.

Bridgeton—New addition being built to Bridgeton Free Library.

Bridgewater—Electric light to be installed along North Branch-Hedden road.

Bridgeton—Movement on foot for building new addition to County Hospital.

Paulsboro—\$175,000 school bond issue proposed.

East Orange—1925 building operations totaled approximately \$7,004,549.

New Town Hall.

Newark—Cedar Grove Township will have new town hall.

More than \$3,000,000 will be spent by Delaware & Atlantic Telegraph & Telephone Co. in 1926, for expanding service in Southern and Central New Jersey.

Pittman—Petition presented for extending water mains on South Driveway.

Pinetown—New 8-room school building proposed for this place.

ENCLOSED CAR

Nash Attracting Interest With Motor Designed for Sedan Type

An exhibit that is attracting pronounced interest is the new Nash "enclosed car" motor being shown to the public for the first time. It was initially introduced at the New York Motor Show and proved to be an outstanding attraction. It is said that Nash has approached and solved the problem of providing power, speed, acceleration, quietness, and long life in a passenger car engine, from a standpoint entirely new to the industry. Nash engineers have reversed precedent in seeking to improve upon the performance standards of today.

Since the beginning of the industry it has been general practice for automobile engineers to develop their motors upon the basis of the requirements for touring car models and they employed the same motor in the production of their enclosed bodies. The result was that the standard of performance attained in open cars was never reached with the far heavier enclosed models. Nash has now set aside custom and engineered motor specially for the requirements of enclosed models.

Manure is a source of the most valuable plant food obtainable, says the Institute, but to preserve it at its highest value of efficiency, it should either be put directly to the fields each day of conservation until such time as the opportunity offers itself to spread it. Feeding trials have proven that an ordinary cow, while putting from 15 to 18 per cent of the total energy of the feed she consumes into milk, actually returns to the soil 80 per cent of the soil fertility in her feed in the form of manure.

This has led many dairymen to discover that the purchase of good concentrate feeds for their cows not only more than pays for itself in increased milk production but that it also supplies necessary food to farm crops that are expensive when bought in the form of commercial fertilizer.

"GOT THEIR MAN"

London.—Arrested on a warrant issued 25 years ago, William Hardy was sentenced to three months at hard labor. The warrant, issued in 1900, charged abandonment of his wife and four children.

Bombay has opened a public library and reading room exclusively for women.

NOTICE

All readers or local notices of entertainments, suppers, fairs, dances, etc., given for the purpose of raising money, will be charged for at the rate of fifteen cents a line.

CITIZENS VISIT COUNCIL

A number of citizens attended the hearing on the borough budget before the Borough Council last Saturday night. The number was small, to be sure, but the fact that any number was there was an innovation. It just hadn't been done for years and years.

These citizens had taken the legal notice that this was the time and place to ask questions about the budget at its word, and proceeded to ask some questions. Some of the councilmen got an idea that their fellow citizens had come there to kick up a fuss. This was denied by the visitors.

But they didn't get on very well. Relations were strained throughout the evening. The visitors felt that they were shown scant courtesy in some instances, and some of the councilmen persisted in the belief that they were there to find fault.

Members of Council have decided the bad habit some citizens have had of discussing public affairs on street corners—setting up a sort of curbstone court, so to speak. But when the delegation called on Council Saturday night were they given the glad hand and made to feel so welcome and at home that they would really want to come again? They were not, or, if they were, the visitors failed to get that impression.

And yet, there were some things on which any and all citizens had a right to be enlightened, if they cared enough to take the trouble to ask. They had a right to want to know why a third officer was considered necessary, and why it was thought advisable to go outside of the borough limits to secure a man for the job. They had a right to know why the highway department wanted more money than was spent last year, when a large portion of its appropriation remained untouched while the streets suffered damage to double the amount of the money "saved." They had a right to know what was planned in the way of street improvement for the coming year.

Doubtless many questions that would have been asked in a more inviting atmosphere, died unborn.

The people of Riverton have a perfect right to attend all meetings of Council. More than that, it is their civic duty.

We believe their presence would be welcomed by a majority of the members of that body.

Now that the start has been made, it would be a good idea for fifteen or twenty citizens to attend every meeting of council. It need not be the same men and women every time. It could be varied by selecting groups from various parts of the town.

This would be a two-fold benefit. It would give the people first-hand knowledge of just what their representatives are doing and trying to do, and it would give the members of council the encouragement of knowing that their constituents were taking an interest in their efforts to serve the town.

Much of the unfair and unfounded criticism now heard on the streets from both sides would disappear in the mutual understanding which would surely arise from this course of action.

BOY SCOUTS

What the Organization Is and What It Stands For

We have in Riverton a Boy Scout Troop. From the active interest thus far shown by a very large majority of our citizens it might be judged that either they do not know this, or they are not interested in the Scout movement. This, perhaps, is only natural under the circumstances pertaining to a good Boy Scout is not self advertising in a sense of shouting his wares from the house tops; nor is he a swaggering, boastful, untamed bit of humanity, vaunting the merits of his organization. Outward show with nothing substantial to go with it is not a part of a true Scout.

For fifteen years the writer has been more or less actively engaged in Boy Scout work. He has seen the movement develop from a drive for efficiency—quantity—to an urge for efficiency—quality. He has seen the timid boy made self reliant, the fully made man, the headstrong boy made neat and the headstrong boy filled with enthusiasm to cooperate, and all because they were shown by Scout methods a definite objective and became ambitious to attain it.

In Riverton some forty of our boys are working under this "do" (not don't) programme and, more or less unconsciously, perhaps absorbing fundamentals necessary to fit them to become the highest type of citizen.

A brief outline of what it means to become a Boy Scout might be interesting as well as informative to many of you.

First a boy must show a desire to join a troop and have the written consent of his parents or guardians to do so after which, in the Riverton troop at least, he must attend three consecutive troop meetings as a candidate, during which time he studies the requirements necessary to become a Tenderfoot Scout. Then if his conduct and general morals are judged as acceptable to the members of the troop, he is elected by them to membership and becomes a Tenderfoot Scout upon passing the necessary tests with an average of not less than 85%. Now what happens? He must keep his uniform clean and neat at all times; his hands and finger nails must be clean at troop meetings, his shoes polished, his hair neatly trimmed, otherwise, each point counts against the average of his patrol, the entire average of which are judged through his cleanliness or his dis-

obedience. Obviously such pressure is brought to bear that either he mends his ways or is dropped. Thus he gets his first scout lesson in the value of practical cooperation. Simple? Yes, but very effective.

After three months service as a Tenderfoot in good standing he is eligible to pass the required tests to become a Second Class Scout. These tests require studious application, each one of them being useful in itself, but the far greater benefit to the scout is that he has learned to have "the will to do" and the "joy of achieving." Thus he starts out to fight his way through the necessary requirements to become a First Class Scout and is beginning to fully realize the advantages of keeping himself physically, astringe, mentally awake and morally straight.

Every Friday at 8 p. m. this Troop meets in the Parish House at Christ Church, Citizens of Riverton, and especially the parents of the boys in the troop, will be welcomed at any meeting. We want you all to know what we are doing and how we are doing it. The importance of the work must be appreciated when we realize that our children are either our greatest asset or our greatest liability.

DR. MARY D. RUSHMORE

Dr. Mary D. Rushmore passed from this life on Wednesday, February 3rd, in the University Hospital, where she had been taken earlier in the week.

Dr. Rushmore had lived in New York for many years and was a surgeon at the Infirmary for Women and Children. She moved to Palmyra when her health failed, about seven years ago, and later moved to the Maple Apartments, at 200 Main Street, Riverton.

Funeral services were held Saturday at the home of Joseph L. Thomas, Cinnaminson. Interment at Friends' burying ground.

The deceased leaves a brother, Dr. Edward C. Rushmore, of Tuxedo Park, N. Y., and two sisters Mrs. George W. Irwin, of Catskill, N. Y., and Miss Jane Rushmore, of Cinnaminson.

Riverton Items

Albert McCombs has gone to Florida for several weeks. Mr. and Mrs. Dennis Mahoney have moved into the property at 223 Cinnaminson street.

Miss Mildred Donnell will attend Temple University this winter. She started her course on Monday.

George A. Strobel is on a four weeks business trip to California. He is accompanied by his son, Frank.

Mr. and Mrs. Richard Wanger are receiving congratulations upon the birth of a son, on Sunday, February 7.

George Shreaffer and sons, and Charles Riley, of Bridgeton, spent Sunday with Mr. and Mrs. John A. Ruppel.

Mrs. Arthur H. Burns entertained Mr. and Mrs. Herbert Kelly, of Collingswood, at dinner and bridge on Wednesday.

Mr. and Mrs. John Denner, and son, Herman, have gone to Florida where they expect to spend the month of February.

Mr. and Mrs. Charles Welkel are receiving congratulations upon the birth of a son, John Clason, on Thursday, February 4.

The Golden Hour Circle of Calvary Presbyterian Church will give a concert by the Temple Quartet of Camden, Tuesday evening, February 16. Adults 50c, children 25c.—Adv.

A slight fire in the garage of Charles Evans on the Riverton-Moorestown Road took the Riverton fire company out for a brisk run Tuesday morning. The damage was slight.

The Melody Four, composed of Joseph T. Johnson, first tenor; Penelton Scott, second tenor; Alex Johnson, baritone; and Robert Foster, bass, spent last week in Maryland on a concert tour.

Mr. and Mrs. Robert J. G. Patterson, son of the John Patterson, Bank and Lippincott avenues, have left for a trip to Florida. While at Daytona Beach they will be the guests of Mr. and Mrs. John T. Dunn.

Franklin D'Oller, former resident of Riverton, first national Legion Commander and the first director of the Sesqui-Centennial Association, has been elected one of the vice presidents of the Prudential Insurance Company.

Mr. and Mrs. R. J. G. Patterson will stay at the Hotel Royal Poinciana, Palm Beach, Fla., as the guests of Mrs. Patterson's cousin and aunt, Senator Emerson L. Richards and Mrs. R. Richards of Atlantic City, N. J.

Mrs. Charles B. Durbin, daughter Henrietta Jeannette, and her mother, Mrs. H. G. Shinn, will leave for Coral Gables, Miami, Florida, at the end of the week.

A fortnight, Mr. Durbin has extensive holdings in Coral Gables and is building a winter home there to be occupied next year.

Charles B. Durbin was elected President of the Orley Beach, N. J., Water Company at a recent meeting of the directors. Mr. Durbin is president of the Orley Beach Co., a real estate development, as well.

He was also elected a director of the Coast National Bank, of Seaside Heights, at the last meeting of its directors.

Mrs. Charles Kline gave a luncheon on Saturday in her beautiful new home in Overbrook. The luncheon was given in honor of her mother, Mrs. B. M. Shewell.

Mrs. Kline will be remembered as Miss Nellie Shewell. Among the guests present were Mrs. Charles Rianhard, Mrs. George S. Washington, the Misses Cook, of Riverton, Mrs. Charles Wymann, of Atlantic City, Mrs. Charles Connelley, and Mrs. H. J. Mitchell, of Philadelphia.

OF INTEREST TO CHILDREN

The moving pictures for the school children of Riverton will be given tonight (Thursday) instead of Friday, on account of Friday being a holiday. At 7:30 the following program will be shown:

Scene, "Tibet." An interesting study of this forbidden land situated in the high plateaus of Northern India.

Ansop Fable, "Cut and the Magnet."

Companion Department, devoted to interesting studies of business and industry or of helpful hints for us in home, health or pleasure.

Hometown Drama, "Man's Faith in Man." Another "Hometown" story featuring Carleton King in a series of adventures that stir the emotions and demonstrate the power of faith and confidence in man's dealings with man.

WESLEYAN CLASS

"Words from the Great Shepherd of the People, Abraham Lincoln," will be the lesson subject to be discussed by the Rev. J. B. Whitton, the teacher, at the meeting of the Wesleyan Men's Bible Class in the Epworth M. E. Temple Sunday morning at 10 o'clock. The Rev. Mr. Whitton will also talk on "A House Divided Against Itself Cannot Stand." A cordial invitation is extended to men to attend the meetings of the Class.

WILL SNOW ORDINANCE BE ENFORCED

The ordinance requiring residents to remove ice and snow from their pavements under a penalty of \$5.00 for each violation, added to the cost of cleaning by the municipal shovel squad, is now in full force, it having been duly passed and published.

Many sidewalks have been cleaned, but a large number have been neglected just as they have always been. Now that this ordinance has been required "tooth" will it be impartially enforced, or will pavements only be cleaned by those who have civic pride enough to do it without being compelled, and the shovels allowed to "slack" as heretofore?

AN ORDINANCE

An Ordinance to provide for the removal of snow and ice from the sidewalks of the Borough of Riverton.

I hereby certify that the foregoing ordinance was unanimously passed by the Mayor and Council of the Borough of Riverton at a meeting held at the regular meeting place of said Mayor and Council in Riverton, N. J., on February 6, 1932.

DANIEL M. CLAYTON,
Borough Clerk.
The foregoing ordinance approved by me February 6, 1932.
FRED P. KEMPHILL,
Mayor.

FATHERS' NIGHT

Riverton Parent-Teacher Association Holds Annual Event

The Riverton Parent-Teacher Association held its annual Fathers' Night on Thursday last. One hundred and twenty-eight fathers responded to the appeal. Fathers and Parents' and registered in the classrooms of their children.

More than a hundred mothers also registered and there were a large number of aunts and uncles and friends in the auditorium to hear John G. Paine, of the Victor Talking Machine Company, make a most interesting appeal for the introduction of cultural courses into school curricula.

Mr. Paine showed the place such courses had in the development of the emotional character of the student and how in turn the proper development of the emotions gave a keener appreciation of the finest things in life and an increased capacity for their enjoyment.

Miss Chew spoke for greater cooperation at home in awakening a sense of responsibility on the part of the child for successful performance of school work.

Children from the sixth, seventh and eighth grades delivered the program with singing which drew well-deserved applause. Mrs. Luth- or Turner sang two solos which also met the keen approval of the audience.

Interpersed between the various features of the program, Milton's orchestra rendered snappy music which all enjoyed. Girls from the upper grades served doughnuts and coffee after the meeting.

The chairman, Joseph Gould, on behalf of the committee in charge, expressed appreciation of the assistance given by all who participated in the program, and of the generosity of Caterer Holland who not only furnished all the coffee but devoted the evening to its preparation and service.

BIG ENTERTAINMENT

Fine Program Being Arranged for Washington's Birthday Event

As arrangements near completion it is apparent the card party to be staged by the Riverton Fire Company should be called a combination card party and entertainment.

The affair will be given in the Porch Club Monday evening, February 22, and, of course, will be in honor of the Father of his Country.

Clarence Hubbs and George Steele, the pair of hustlers on the Fire Company entertainment committee, are in charge of the party and declare it's going to be one well worth attending.

After lining up a large supply of excellent prizes for the winners at cards, the committeemen decided that wasn't enough work, so set out to line up a few entertainers in order that the card games might be interspersed with an entertainment. The result is, the following program has been arranged.

Selections by Ruthalia Ukulele Club.

Soprano solo by Miss Mary E. Steele, accompanied by Miss Eleanor Connell.

Selections on musical saw by Robert Coward.

Readings by Dorothy Russ.

The ukulele club is composed of six girls from Camden, Miss Steele's sisters work under an introduction. Miss Russ is an eloquent, of unusual ability and the musical saw numbers by Robert Coward always make a big hit.

Charles Coward, one of Riverton's enthusiastically new-comers, assisted Hubbs and Steele in arranging the entertainment.

Only a limited number of tickets are on sale. They can be purchased from any member of the company.

CRAWFORD HOME ROBBED

When Mrs. George W. Crawford, who lives at the corner of Main street and Bank avenue, returned from Atlantic City last Friday morning she found her home had been broken into and that two rugs, valued at about \$100, had been stolen.

Appearance indicated that entrance had been gained through a window on the side of the house next to the Riverton Yacht Club, which had been forced open.

On Wednesday night Director of Public Safety Williams and Officer Miller had inspected the Crawford home during the night patrol, and there were no evidence at that time of it having been entered.

Rita Truog, Herman Bading was called to Riverton on Saturday to make an investigation but failed to find any clues.

William Jackson, of Linden avenue, who is looking for the pair six weeks, is able to be about again.

SCHOOL MEETING AT CINNAMINSON

The annual district school meeting in Cinnaminson Township was held Tuesday evening and the following members of the Board of Education were elected:

For the three-year term, two to be elected, George C. Frank, 127 votes; Emily H. Lippincott, 127 votes; Rev. M. A. Foster, 30 votes. Maurice Conrow was elected to the unexpired term of one year.

The vote on the appropriations was as follows:—Building and repairing school houses, \$950.00, Yes 118, No 20; Current Expenses, \$20, 327.50, Yes 198, No 22; Manual Training, \$1000, Yes 150, No 23; To transfer from an account having a surplus to one having a deficit, Yes 90, No 18.

SCOUT EXHIBIT

Keating Shows Exhibit of Bird Houses Built by Troop

Lawrence Keating has made an attractive display of the bird houses constructed by the members of Troop No. 1 of Riverton, Boy Scouts of America. There are twenty-eight of these houses and they will be disposed of to the highest bidder. Bids are being placed during the week, and the successful bidder will be announced on Saturday.

The proceeds from the sale will help finance a camping trip for the boys next summer.

From the appearance of some of the houses, the birders were not entirely familiar with bird habits, for some of the houses have no perches on which the feathered occupant can alight before entering his home. Now can you imagine the bird aiming straight enough to fly through a hole very little larger than his body with wings folded without scraping off some of his feathers? And if he did strike the hole fairly with sufficient velocity to carry him through, he would probably break his neck on the back wall.

However, the editor is informed that perches will be added if purchasers purchase the boxes.

Palmyra Notes

Mrs. Frederick Blaser has moved to 408 Perry avenue.

The H. H. Chase met at the Central Baptist Church on Monday afternoon.

The regular monthly meeting of the Compass Club will be held Friday evening.

Mrs. George M. Becker and William Harry Beck are spending the week at Atlantic City.

Mrs. Charles Shaw, of Delanco, spent Sunday with her parents, Mr. and Mrs. Thomas Carroll.

Rev. and Mrs. Philip Vollmer, moved to Monmouth avenue, Palmyra last week, from St. Louis, Missouri.

Mrs. Harry Kemmerle, Sr., spent the weekend in Roebeling visiting her daughter, Mrs. Raymond Webster.

Mr. and Mrs. George Fries, of Lincoln avenue, entertained a party of friends at cards Saturday evening.

Harris Sacks, of Mercersburg Academy, will spend the weekend at the home of his parents, Mr. and Mrs. Fred Sacks.

Miss Josephine Rodman, of Camden, was the guest of Mr. and Mrs. Joseph Graham, of Horace avenue, over the weekend.

Palmyra takes part in the selling of Christmas Seals, Burlington and Moorestown ranked first and second respectively.

Mrs. Bertie Spies entertained her Philadelphia bridge party at luncheon and cards at her home on Garfield avenue last Friday.

Mrs. Sanders and son and daughter, of Ocean City, motored to Palmyra to visit Mr. and Mrs. Leonard H. Baker, of Garfield avenue, Sunday.

H. E. Kleiner, of Palmyra, was the successful bidder for the erection of a \$12,000 school house to be built on Whitaker street, Riverside.

The regular monthly meeting and social of the Friendship Circle Class was held at the home of Mrs. H. W. Hattlinger, Morgan avenue, Monday evening.

The Misses Pricilla and Rachel Evans, of Lebanon, Pa., guests of their aunt, Mrs. William P. Blackburn, of Cinnaminson avenue, this week.

Edgar A. Lamont motored to Atlantic City Sunday to bring home Mrs. Lamont and little Eddie, Jr., who spent several days of last week at the resort.

Mr. and Mrs. Walter J. Hunt entertained Mr. and Mrs. George Fries, Mr. and Mrs. Howard Parkes and Mr. and Mrs. Frank Chambers at cards last Friday evening.

The Rev. Ralph Wagner, of Carlisle, Pa., will have charge of both morning and evening services at the First Lutheran Church of Palmyra and Riverton Sunday, February 14.

Mr. and Mrs. George L. Anderson are receiving congratulations on the birth of a son, John Bruce, on February 2. The young man weighed eleven and a quarter pounds.

A profit of \$50.00 has been received from the Chautauque \$25.00 of this amount will go to the Ambulance Association while the other \$25.00 will be donated to the Riverton Free Library.

A large sale of tickets is reported for the play, "The First Day of School," to be followed by a dance in P. O. S. of A. Hall Saturday evening. The affair is for the benefit of St. Agnes Guild, of Christ Church, Palmyra.

F. G. Fromuth, manager, and James D. Autrey and William L. Wright, members of the Palmyra Motor Company force, spent Wednesday in Atlantic City business.

An unusually well-balanced program of orchestral numbers, vocal chorus and solo numbers and readings will be presented at the annual high school orchestra musical under the direction of the leader, Louis H. Richards, in the high school auditorium Thursday, February 18.

Clayton Weikman's new Ford sedan was stolen from Arch street, between Tenth and Eleventh, Monday evening while he was attending a show with a party of friends. Two other cars parked near Weikman's car were also stolen. Fortunately the machine was covered with insurance against theft.

The Palmyra Boy Scout dinner will be held in the Epworth Temple gym Friday evening at 7 o'clock. In celebration of Scout week the boys have decorated several of the store windows on Broad street and the displays of their handiwork and craftsmanship has attracted considerable attention.

Among the list of patents granted, just sent out by Munn & Company, Patent Attorneys at Washington, is found that of an anti-rattler for windows, by Emanuel Kewser, Sr., of Palmyra. This invention relates to articles of hardware and has more special relation to an anti-rattler for window sash or the like.

The popular Royal Commodore dance orchestra will furnish the music for the Valentine Hop to be given by the Palmyra High School Alumni Association in the high school gymnasium Saturday evening. The usual fancy decorations and attractive prizes for the winners of the spot and lucky number dances and novelties will be the features of the event.

This is real news for the Twin Cities. We are enjoying the heaviest fall of snow for several years. Tuesday afternoon when the latest fall of the beautiful began, there was already some snow on the ground. It snowed steadily all Tuesday night, and more or less steadily Wednesday, bringing the average depth to between a foot and a foot and a half. Three o'clock Wednesday morning superintendent of the Streets & Waterways had a force of ten men and three horse-drawn sidewalk plows at work to clear away the said beautiful from the pavements and crossings.

Mrs. Richard M. Lord leaves for Washington and Baltimore as a member of the National Musical Club, of Philadelphia, to sing in a combined chorus of the Club and University of Pennsylvania Glee Club in connection with the New York Symphony Orchestra under the direction of Dr. Walter Damrosch, who will give a gala Wagner program featuring excerpts from "Rienzi" and Temple scene from "Parsifal." The concluding concert will be given at the Academy of Music, Philadelphia, Thursday evening, February 11, on the return. The Matinee Musical Club is under the direction of Helen Puckett Jones and Dr. Alexander Matthews is in charge of the University Glee Club.

Chamber Plans Palmyra Census

Classification of Town's Businesses and Their Condition Also Included

At the monthly meeting of the Palmyra Chamber of Commerce in Post Road, Tuesday evening, the Board of Directors was instructed to appoint a committee to take a complete census of Palmyra.

The instructions called for prompt action and the work will be coupled with a classification of the town's various types of business and their conditions.

A contribution of \$25 to the American Legion Orphans' Endowment Fund was approved. After J. Edwin Lees, the new president, explained in detail the two bills regarding Public Utilities control of buses and the abandonment of the Public Service policy of paying for the paving between its tracks, the Chamber went down on record as opposing the bills. The secretary was instructed to communicate with Assemblyman Clifford Powell, stating the Chamber's views in the matter.

William E. Jenkins suggested an excellent method of advertising Palmyra would be to furnish the University of Pennsylvania with a plan of Harold B. "Boots" Lever and his track team which won the one-mile scholastic Class B championship of America at the Penn Relays last year.

The picture will be used in the program for the Twin Cities year and will be distributed among the thousands who attend the big sports event. Mr. Jenkins suggested the Chamber receive the hearty endorsement of the Chamber.

Describing it as the "greatest project ever undertaken in the town," Albert S. King solicited the support of the Chamber in booming the plot of ground which will be developed by the Palmyra Development Company. The tract is located on the west side of Cinnaminson Avenue along the river.

Mr. King said the improvement of this section would be a big asset to the entire community and declared the Company would start work laying out streets, paving, curbing and the general development of the plot early this spring. Three hundred homes will be built in this section in the near future, said the speaker.

He also outlined plans for improving the waterfront below Cinnaminson Avenue and told of the proposed wall and wide boulevard which will be laid along the plot. In closing, Mr. King suggested the Chamber assist in persuading the borough to beautify its grounds around the sewer disposal plant which is adjacent to the new section which will be opened.

Walter D. Lamont, the newly elected vice-president, suggested the Chamber commend the Company on its action in developing the tract.

Mr. Lamont was appointed chairman of the committee which will arrange for Palmyra members to join the Camden Chamber of Commerce at its monthly forum in the Walt Whitman Hotel Thursday, February 18.

Mr. Lamont is anxious to have a large representation of the local body and would like to hear from all members who can possibly attend. Transportation will be furnished by members who drive automobiles and the party will assemble at the Palmyra police headquarters at 5:30 Thursday evening. Mr. Lamont has requested that the members get in touch with him as soon as possible in order that reservations may be made for the Palmyra delegation.

W. M. Brittain, director of Export and Import Bureau, Baltimore, will be the speaker at the forum. His topic will be "Port Development."

G. O. Fromuth, Frank Kleitz, William A. McNulty, John Dierker, Bernard Barney, Harold H. Lever, Herbert H. Parsons, J. J. Robinson, Louis Piergros, Thomas Mueller, William H. Lindsay, J. Vincent Caruso and John Sackel were elected to membership of the Chamber.

Mayor and Mrs. Weart and Mr. and Mrs. Alfred Wilkinson, of Audubon, spent the weekend in Montclair, with Mr. and Mrs. Alonso Bonnell.

Mr. and Mrs. C. C. Green, of Mt. Pleasant visited friends and relatives in Palmyra over the weekend. Mr. and Mrs. Green were former Palmyra residents.

Mrs. Katherine Cleaver, of Reading, Pa., National P. O. of A. president, and Mrs. Minette Becker, National secretary, are visiting camps in Atlantic City, Cape May and Port Republic.

George W. Rogers, Watchman of the Shepherds, and Frances Hartley, Noble Prophetess, both of Palmyra, were installed as officers of the White Shrine of Jerusalem which was instituted at Masonic Hall, Burlington, Thursday evening of last week.

Miss Marie Janders, daughter of Mr. and Mrs. Louis Janders, of Horace avenue, entertained twelve friends from Palmyra and Riverton Monday evening in honor of her twelfth birthday. The evening was spent happily and Marie was the recipient of some beautiful gifts.

On default of \$300 bail Peter Martucci was sentenced to serve a term of ninety-days in the county jail at Mount Holly by Justice of the Peace William L. Pichter, Saturday. Martucci was arrested on complaint of Overseer of the Poor Harry Burr and was found guilty of non-support of his family.

Borough authorities had to clean up about twenty pavements this week, which will be charged against the property owners. Henceforth no notices are to be given and the offenders will be summoned and fined, as the borough officials are tired of having to get after a certain few citizens every time there is a snow.

A Colonial Carnival will be given by children from the second to eighth grades, inclusive, of the Palmyra grammar school, in the high school auditorium Friday evening, February 18. The entertainment, which includes four acts and several musical selections, will be given for the benefit of the Palmyra Parent-Teacher Association stereopticon slide fund and is directed by Miss Mary Mann. More than 100 children in colonial costumes will take part.

BOY SCOUTS

Troop No. 1 of Riverton, Boy Scouts of America, observed their Scout Week by attending services at Christ Church in a body and in uniform Sunday morning. Thirty-four members of the troop were in attendance and listened to a splendid special sermon prepared for the occasion and delivered by the pastor, the Rev. Arthur S. Lewis.

About eight o'clock every morning during the week, a color guard from one of the patrols hoisted the national colors on the town flagpole with the scout flag at the cross trees, and lowered them at sunset.

Eighty-five per cent of the troop membership turned out in uniform Monday night to hear H. M. Neely broadcast from Station WLLT.

Friday night Mrs. Neely will come to Riverton to pass the boys on signaling.

Bowling at Country Club

The Country Club are sending a ladies' and men's bowling team to Riverton on Tuesday, February 18. The Riverton team will be selected from the high average bowlers, and an exciting match is expected. All are welcome.

BAPTIST CHURCH NOTES

Pastor Lockett's subject for Sunday morning at 11:15 will be "The Presence of Christ and the Evening at 7:30, 'The Essential Things of Life.' Come out and hear the important messages from these topics.

Tonight a full attendance of this music concert is requested at the church at 7:30.

The Bible Class also will meet tonight at the home of Mrs. Moody, 302 Washington avenue. Bring your Bible. Subject—"The Ten Virgins."

New children are invited to join the happy group at the weekly "Happy Hour" at 4 o'clock on Fridays.

A short time ago 17 of the young people attended a B. Y. P. U. Rally in Camden and it was decided that the local society join the Camden Federation. The Christian Endeavor Society has now adopted the name B. Y. P. U. and on Friday evening the members will be favored with a visit from a group of new friends from the Parkside Baptist Church of Camden. "Come out Friday and let these Camdentons know that Palmyra is on the map," says the president.

The 3-o'clock play, "Fog O' My Heart" is coming soon. The reserved seats in the High School are going fast. Get yours before they are gone—now. A big, booster, building benefit.

The Samaritan Class held its annual business meeting on Tuesday evening at the church and elected officers as follows:—President, Marvin Atkinson; vice-president, James Hupp; secretary, Thomas Taylor; treasurer, John Weart, Jr. The class also listened to a very interesting talk by Mr. Dietz, the teacher, on the making of gold leaf and its use in stamping and embossing.

CALVARY PRESBYTERIAN

Calvary Church bids you welcome to its services and to its fellowship. If you have no church home, come and worship here.

Next Sunday the pastor will preach at the morning worship at eleven o'clock and at the evening prayer service at eight o'clock. There will be a sermon for the children at the morning worship.

Sunday School will meet at ten o'clock. There is a class for every age. Bring the children and remain with them for the church service.

The members of the Christian Endeavor society will share the people of the community to share with them in their meeting at 7:30 p. m.

The Mission Study class of the Women's Missionary Society will meet at the manse on Friday afternoon, February 12 at 8 o'clock. The meeting scheduled for Friday, February 19th has been postponed until February 26th. The place of meeting will be announced later.

To-morrow evening (Friday) there will be a Supper Conference for Sunday School Workers, Officers and teachers of young people's groups, under the direction of the Burlington County Council of Religious Education, in the Lutheran Church at 6:30.

Members of the congregation are urged to be present at the mid-week service on Wednesday evening, in the chapel at eight o'clock.

There will be a Father and Son Banquet in the church on Friday evening, February 19th, at seven o'clock, under the direction of the Riverton committee of the Y. M.

GRIFFENBERG—WINTERS

Dr. and Mrs. W. S. Winters, of Cinnaminson Avenue, wish to announce the marriage of their daughter, Sue F., to Thomas Griffenberg, Jr., son of Mr. and Mrs. Thomas Griffenberg, of Lincoln avenue.

For the present, Mr. and Mrs. Griffenberg will reside with the bride's youngest brother, Anderson Winters, of 81 Pear street.

"PEG O' MY HEART"

As her father called her, will charm and make you laugh at the High School, Saturday evening, February 17, when you see the play. Get reserved seats now from the Baptist young people. Tickets 50 cents—C. A.

Y. M. C. A. NOTES

Next Tuesday evening, February 16, an entertainment under the auspices of the Y. M. C. A. will be given at the Porth Club at 8:15 p. m.

In addition to selections by the choral, the following artists will take part:

Margaret Henderson, soprano; Margaret Vaughn, harpist; Beatrice Flint Collins, contralto; Helene Johnson and Helen McConnell, readers.

The public is invited. Admission, 45 cents, at the door. —Adv.

HARDY WINS DAMAGES

At a trial in Mount Holly Wednesday, Roy T. Hardy, of Palmyra, was awarded \$500 damages against Walter Britton, of Camden, as the result of damages suffered in an automobile collision in Mount Holly last year. Hardy received the full extent of his claims. He was represented by Frank A. Matthews.

It doesn't pay to be crooked. Look what happened to the crook.

Notice is hereby given that the first and final account of the estate of John J. Adolph, deceased, late of the county of Burlington, will be audited and stated by the Surrogate and reported for settlement and allowance to the Orphan's Court for April 1st, 1936.

HELEN J. KAPUS, ELIZABETH BELL, Executrices.

Dated February 9, 1936. Executor, Joseph L. Thomas. 2-11-3-11

MISS TAYLOR BRIDE OF GORDON ANDREWS

Popular Palmyra Couple Wedded in Central Baptist Church

Miss Helen Mahala Taylor, daughter of Mr. and Mrs. Walton Taylor, of Garfield Avenue, Palmyra, and Robert Gordon Andrews, also of Palmyra, son of Robert Andrews, of Pemberton, were married in the Central Baptist Church, Palmyra, Saturday afternoon at 4 o'clock.

The ceremony was performed by the Rev. Calvin Hare, of Burlington, an uncle of the bride, and the Rev. George Lockett, pastor of the Central Baptist Church, assisted.

The bride wore white georgette and carried a bouquet of white roses and lilies of the valley. She was attended by her sister-in-law, Mrs. Edith Taylor, of Riverton, whose gown was of yellow georgette and carried a bouquet of yellow roses.

The bridesmaids were Mrs. Dorothy Malsinger, of Wayne, Pa., Miss Mildred Rogers, Miss Anna McConnell and Miss Helen Johnson, all of Palmyra. They were attired in rose georgette and carried deep pink roses.

Gordon Mott, of Palmyra, cousin of the bridegroom, was best man and Thomas Taylor, of Riverton, brother of the bride, Edgar A. Lamont, Frank MacCormack and C. Nevins Buchholz, all of Palmyra, were the ushers.

The church was beautifully decorated with palms and ferns. Miss Marion Taylor, of Haddon Heights, rendered a delightful soprano solo, "In the Dawning," and the wedding march was played by Dr. Strauss, of Lambertville.

The guests were followed by a reception at the home of the bride's parents after which the happy couple left on the honeymoon which is being spent at Washington, D. C. On their return, which is expected the latter part of this week, they will reside at their apartment, 735 Morgan avenue.

Both have a large circle of friends in the Twin Cities and are active workers in the Central Baptist Church. Mr. Andrews is a graduate of Palmyra High School and Mr. Andrews was a student at Pennington Seminary when he left school to enter service during the war.

Change in Public Service Officials

Thomas Sproule Succeeds Vandervoort as Electric Department Superintendent

Thomas Sproule has been named to succeed William K. Vandervoort as general superintendent of distribution of the Electric Department of Public Service Electric and Gas Company. Mr. Sproule has been assistant general superintendent. Mr. Vandervoort resigned to become vice president and executive engineer of the Oklaite Cable Company, Inc., with plants at Paterson and Passaic.

THOMAS SPROULE

In connection with the appointment of Mr. Sproule these changes have been made, effective February 1:

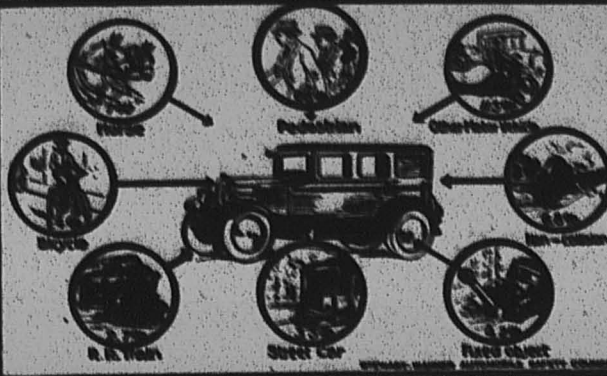

John S. Ware, distribution engineer, takes Mr. Sproule's place. Charles H. Lewis, division superintendent in Hudson, succeeds Mr. Ware, and Edwin E. Lockwood, assistant to Mr. Lewis, becomes the Hudson Division head.

Mr. Sproule, who went to Public Service from the Philadelphia Electric Company in 1911, has been active in committee work for various engineering societies. As chairman of a sub-committee of the N. E. L. A., he played a major part in the preparation of the "Hand-Book on Overhead Line Construction" which is used by practically every electric light and power company in the United States and by many foreign companies.

Mr. Sproule was also prominently identified with preparation of the national electrical safety code. He was the sole representative of the N. E. L. A. on the committee which considered the joint use of poles with the American Telegraph and Telephone Company.

When a man says he runs things around his house he refers, probably, to the vacuum cleaner.

Pedestrian Greatest Victim of Automobile Accidents

THE PEDESTRIAN is the greatest sufferer in automobile fatalities, according to records analyzed by the Stewart-Warner Safety Council for the prevention of automobile accidents. No complete record is available for the United States as a whole, but a report based on 3,023 auto fatalities occurring in the first seven months of 1925, covering a population of thirty-one million, is significant. Two thousand of these 3,023 fatalities have been classified according to type. Sixty-eight per cent of the victims were pedestrians, 11.5 occurred with another motor vehicle; 7 per cent with horse vehicles, 4.5 with fixed objects such as lamp posts, 3.5 per cent with street cars, 2.7 with railway trains and 1.4 per cent with bicycles. The remaining 4.8 per cent involved no collision. The small percentage involving railway trains is encouraging and doubtless due to the gradual abolition of unguarded grade crossings. The menace to the pedestrian, however, is alarming, and calls for greater care on his part in crossing streets and on the drivers for more careful driving.

HAINESPORT MAN PLEAS FOR OWLS

Observations at Taylor Lane Proves Birds' Worth

Barn owls, the farm policemen of the night, are entitled to better protection and more consideration than they are given, says Howard Taylor Middleton, of Hainesport, in calling attention to one of his latest interesting nature studies.

Few people know the real value of certain birds as Mr. Middleton does and there is always expert authority and positive proof back of all he says when it comes to the question of benefit derived from the winged family. He does not depend upon hearsay, but satisfies himself through personal investigation and he is always able to talk interestingly.

Just at present one of the things uppermost in his mind is a recent experience with some barn owls, and he found so that some good may come from it. He considers the barn owl one of the most valuable of birds so far as the farmer is concerned and he would have the people educated upon this point so there would be less killing of this species when the sole object of the murderer is to get something that a taxidermist can stuff. A letter from Mr. Middleton follows:

"I am fresh from a mighty interesting experience with a family of barn owls which has been residing since November 1 on top of a water tank under the eaves of a barn on the Howard G. Taylor farm, near Riverton. The glorious bit of news that came to the fore during my

THE ELECTRIC AGE

An alarmist newspaper sees a great menace to the American people from what it calls a gigantic superpower electric combination in the United States.

This being an age of electricity the superpower menace can be judged to alarm the public not yet familiar with the advantages of handling electricity in larger units.

When the handling of electricity in gigantic units is found to be the means of supplying cheaper light and power to every farm home, the political scarecrow of superpower will disappear.

Several visits was the display of as many as ten half-grown rats in front of the young birds at one time, and there were meadow mice besides.

"Because the barn owls, with their monkey-like faces and delicate coloring, make attractive mounted trophies, they are slaughtered unmercifully every year by gunners, often by the very farmers they protect from vermin. I know this is true, because I have made it my business to visit taxidermist's shops to find out.

"Will you kindly make known the great value of these policemen of the night in order that their killing might be checked."

In one year the gophers of Yosemite Park brought up 8,000 tons of earth.

SCOUTS AID BIRDS

Newark Troop Cooperation With Audubon Society

With the slacking of the recent heavy snow storms, 145 Boy Scouts of the South Side District, Newark, under the direction of Deputy Commissioner John Russell, Jr., always ready for "service," called immediately to aid the hungry birds. These Scouts not only distributed food for the birds, but handed out printed cards to passersby in the Public Service Terminal reading: "This snow storm will kill birds. South Side District Boy Scouts request you to feed the birds."

That the Scouts are earnest co-operators in Audubon work has been attested heretofore by their making bird houses and shelters, some of which have been placed about the Andrew G. Taylor farm and H'nal Abraham Temple. Prompt recognition and appreciation was issued from the New Jersey Audubon Society. A letter sent from the Society's office, through Mr. Russell, to each of the seven Scout Troops who took part in the bird relief work, follows:

"To The Boy Scouts of America, South Side District, Newark, N. J.

Dear Scouts: The New Jersey Audubon Society feels that in your prompt and efficient work on behalf of the storm scourged birds of Newark and its environs, yesterday, you were true to the finest traditions of SERVICE of the Scout organization, and that

THOMAS CARLYLE

FRANCHISE TAXES!

Of the total of \$2,212,429 of taxes which accrued against Public Service Railway Company in 1925, the sum of approximately \$1,000,000 was for Franchise Taxes.

Franchise Taxes take five per cent. of the gross receipts of the company, and although levied by the State, are paid directly to the different municipalities in which the company operates, on the basis of the value of the personal property of the railway located in the highways of such municipalities.

They are taxes collected for the use of the streets and are large enough to cover many times the cost of any possible damage that may be done to pavement by reason of the presence of car tracks.

The municipalities receive every dollar of the Franchise Taxes and they can use the money received for any municipal purpose they desire, street paving and street repair included.

They are levied in addition to other taxes, since the company pays real estate taxes, and a tax in lieu of personal property tax, based on its gross receipts, at the average State tax rate.

All these taxes are, in fact, a charge against the car rider. Every time he drops a nickel in the fare box, a quarter of a cent goes for Franchise Taxes, and an additional quarter of a cent and more, for other taxes. Taxes are, under the law, operating expenses, and like every other operating expense, are paid by the passengers.

And, in spite of the Franchise Taxes, which are supposed to cover any charge that the municipalities make for use of the streets, the car rider is required under present conditions to make a further contribution—to pay for street paving!

Paving is not used by him! He rides on steel rails, and would ride as comfortably and as speedily if there were no paving.

Permanent Site for YMCA Camp

400-Acre Tract, Containing Two Fine Lakes, Purchased for Ockanickon

Camp Ockanickon, the YMCA summer camp operated by the County Committee of Burlington, Camden, Gloucester, and Monmouth counties, and known to thousands of boys and young men of these counties, is to have its own site for development, which will be unsurpassed, according to a statement recently made by the chairman of the Camp Committee, Henry F. Stockwell, of Moorestown.

This camp site is located in the Township of Medford in Burlington county, about three and one-half miles from the town, down the Indian Mills road at the place known for years as Busby's Mill. The tract contains 400 acres, on which there are two beautiful lakes and much natural woodland. The larger of the lakes contains thirty acres. A short distance from the end of this lake and at a point from which the upper lake can be beautifully viewed is a hill rising abruptly to an altitude of 120 feet above the level of the surrounding country. The upper lake contains twenty to twenty-five acres, the shore of which is beautifully wooded all the way around.

According to a number of camping authorities who have already viewed this new site for Ockanickon the situation is quite ideal for a camp for boys and young men. There is no habitation nearby and yet the location is near enough to town for securing necessary supplies. Furthermore, the two beautiful lakes provide ample opportunity for water sports and all sorts of aquatic events. Along the shores of the larger lake there are three or four spots which seem ideal for the erection of the buildings which will constitute the main center of activities, where the ground is high, amply wooded, with a beautiful view of the lake in either direction and where across the lake, large bluffs rising directly from the water's edge, give the effect of miniature palisades.

For some time Ockanickon has needed its own camp site. At Brindle Lake, New Egypt, which has been used for Camp Ockanickon during the past dozen years, the County YMCA Secretaries in charge applied the same principle that they employ in their counties, namely, made use of the equipment which was there available. Their dining room was an old mill, their lodge and chapel an old dance hall, their headquarters an old lodging house. No permanent tent houses were constructed because of the uncertainty of remaining indefinitely at this site. During the last two years water for 200 campers had to be hauled a considerable distance because of the inadequacy of the well on the property and because the Camp Committee did not feel justified in going to the expense of sinking a well on leased land. Now with a permanent site there is much rejoicing over the possibility of erecting a modern lodge which will be used for evening entertainments, rainy-day activities, religious services, etc., possibly combining with this a dining room of modern construction with kitchen attached and properly equipped to handle as many as 200 diners at one time. Then, too, considerable improvement over the use of the Army Sibbey tents will be effected by the erection of permanent tent houses.

Camp Management. Ockanickon is distinctly a YMCA camp, open to all South Jersey boys 12 years of age and up. The Committee directing its activities is composed of two members from the County Committees of Burlington, Camden, Gloucester, and Monmouth counties, together with the Executive Secretaries from each of these counties, thus comprising a board of twelve men, the officers of which are president, secretary and treasurer. The President is Henry F. Stockwell, one of the

Burlington County members on the Camp Committee. He is also Vice Chairman of the Burlington County YMCA Committee. Mr. Stockwell, by profession is a lawyer of the firm of Shook, Stockwell & Hart, of Camden. To him belongs the credit for having discovered the Busby's Mill site. The secretary and treasurer of the Camp Committee are elected from the YMCA secretaries of these four counties. The secretary becomes the Camp Director, who, in turn, has associated with him in the actual management of the camp the various secretaries and their assistants from the four counties.

Present Officers. At the annual meeting of the Ockanickon Camp and Conference Committee, Inc., held Saturday, February 6, at the YMCA Office, Mount Holly, the following officers for the ensuing year were elected: President, Henry F. Stockwell, Moorestown; Secretary (and Camp Director), Leigh E. Cobb, Monmouth County; Treasurer, Freeholder, Burlington County; Secretary, Mount Holly.

At this same annual meeting two very important committees were named: 1. A committee on the development of the new camp site. 2. A committee on financing it. Hereafter the Camp Committee has not asked the public for special funds, having operated the camp on just what was received from the campers for board. The oversight supervision was taken care of by the various cooperating YMCA Committees. Wherever any surplus did exist it was put into new camp equipment.

The Committee has decided to go to the new site this year and they have plans in mind whereby this will be possible.

Development Plans. It is not simply the feeling of President Stockwell that the future Ockanickon with its own site, thus making possible permanent development, should be among the very finest of camps, but this same view is unanimously held by the entire Camp Committee and also by all the members of the various County Committees.

To this end the Camp Committee is resolving itself as a whole, into a Development Committee. It is agreed among the various members thereof, that when each man will interview from a long list of men in this section of the country who have had extensive experience in the development and operation of boys' and young men's camps.

In order that there may be no delay in this matter, a time schedule has been arranged and also the date fixed for receiving such reports. As the work of the Development Committee progresses, and as plans take final form, the Committee anticipates selecting a Development and Construction Manager.

As the Camp Committee anticipates the development of this site it has in mind that the property will be used not simply for a summer camp, but also for Leaders' Training Conference, week-end institutes, and week-end camping trips for boys from all four counties throughout the year.

THE PERFECT SHEIK. London.—The perfect sheik has been found, in spite of tales of the sorcery of the desert masters. Lord Bellingham reports that the emir of Central Arabia, Bin Saud, fills all the requirements. The sheik also exceeds the allotted four wives allowed by the Koran.

Low New Jersey Death Rate for 1925 Reported by State Health Department

A low New Jersey death-rate for the year 1925 is reported by the State Department of Health. The rate, possibly subject to slight corrections, is shown to be 11.30 deaths per 1000 inhabitants. Although this is about one-fourth of a point higher than the 1924 rate, which was 11.17, the past year's rate is considered very favorable.

A slightly increased death-rate from the extremely low figure which followed the influenza epidemic in 1918 is to be expected. Another influenza, which would make for higher death-rates is the limiting of immigration. When large numbers of young foreign adults were admitted each year, the death-rate was lowered because the proportion of infants and aged, in which deaths most frequently occur, was automatically lowered.

Marked Decline. The birth-rate for the year just closed shows a marked decline from the rate prevailing the preceding year. Only 21.33 births per thousand and inhabitants was recorded for the year 1925, a decline of more than four per cent. from the rate for the previous year. This decline is in conformity with the trend of the past few years, for the rate has been decreasing almost steadily since the peak of 24.33 was reached in 1917.

But to partly offset the declining birth and marriage rates and the slight increase in the total death-rate there is achieved a new low infant mortality rate. Approximately 63 deaths of infants under one year of age of each thousand babies born means a decrease of one point from the rate of the previous year, which was 70 per thousand, and is the equivalent to a saving of 14 infant lives. If infant death rate is a barometer of the health of the community, as many authorities claim, this record is an indication that public health conditions are improving in New Jersey.

Infant Death Rate. Although the reports of improved infant death rates are a source of satisfaction to the State Department of Health, said Dr. Henry B. Costill, director of health, and they are a measure of the value of the continuous child hygiene program so generally adopted throughout the State, it is indeed a cause for regret that a distressingly high maternal mortality-rate continues.

In 1925, six mothers gave their lives for every thousand infants born. The New Jersey maternal mortality-rate is lower than that of the country as a whole, but it is needlessly high, and it should be remembered that the United States has the highest maternal mortality rate of any civilized country. The good work in saving of infant lives should be extended to a like saving of the lives of mothers.

Motor Vehicle Toll. The continued increase in the number of motor vehicles in operation in New Jersey is not reflected in the death-rate from automobile accidents, continued Dr. Costill. During the year 1925, there were 345 fatalities resulting from the use of automobiles, a decrease of 5 from the preceding year which, it should be noted, showed an increase of 10 per cent over the year 1923. It should be here pointed out that the increase in the number of deaths for

STUDY NATION'S EATING HABITS

Live stock men wonder what has caused their general long-lasting slump. The real reason may be that the people of America are not eating as much meat per capita as they did. The tendency towards a meatless diet is stronger every day. More fruits, cereals, vegetables go into the American diet than ever before. Last year the country in and west of the Rocky Mountains shipped 22,000 carloads of lettuce to the Eastern markets. Salads that used to be considered merely as relishes or table ornaments are today major foods.

There is still a great market for meats, and always will be; but today the successful farmer is pretty certain to make his profit from diversified production.

A closer study into this national food habit might help many old-time stockmen who still believe that a sliver of Somebody in the Government, or in organized Society, is robbing him. National table and table habits, and not a robber influence is affecting the great live stock business.

The year 1925 over the figure two years ago (1923) is entirely among operators and occupants of such vehicles, and not among pedestrians killed by automobiles.

In 1923, 505 pedestrians were killed; whereas, in 1925, a total of 507 pedestrians deaths must be charged to the automobile. Considering the tremendous increase in the number of automobiles operated in New Jersey, this slight actual increase in the number of pedestrians killed is an indication that there is also an increase in careful driving, due perhaps to better supervision of traffic.

Opportunity

If you are looking for a real opportunity to materially increase your earnings, here it is.

It does not matter what your profession is, if you have time which you will devote to our proposition under our guidance, we will show you the way to greater earnings.

See Mr. Roy E. Williams, Willow street, Delanco or Phone Riverside 99 for special appointment.

COCAINE IN MAST

London.—A large quantity of cocaine was found by narcotic agents hidden in the mast of a ship. It was discovered only after a large manhole covering was taken up.

NO BABY TORTOISES

Manchester, Eng.—Efforts to hatch in an incubator some eggs laid by the giant tortoise at the zoo completely failed.

33¢ A CUP FOR COFFEE

London.—A cup of coffee at the fashionable Mayfair Club now costs 33¢, and other things in proportion.

33¢ Off Lamps and Shades

The reductions are sharp considering the splendid value offered formerly, at regular prices.

The lamps you will find to be distinctively original in design, craftsmanship and materials superior in every way.

The types offered are Lenox pottery and china table lamps—wrought metal bridge and floor models—dainty boudoir and bed reading types. All reduced for quick clearance 33 1-3 below usual prices.

PUBLIC SERVICE

Heavy-weight hens will usually bring more on the market than they produce in eggs.

RENULIFE VIOLET RAY TREATMENTS

will help tone up the body. A ten minute application daily will aid in keeping the circulation up to par, muscles pliant, nerves quiet. Renulife works on any lamp socket—more than one hundred ailments are said to respond favorably to its use.

Models for home use \$12.50 up

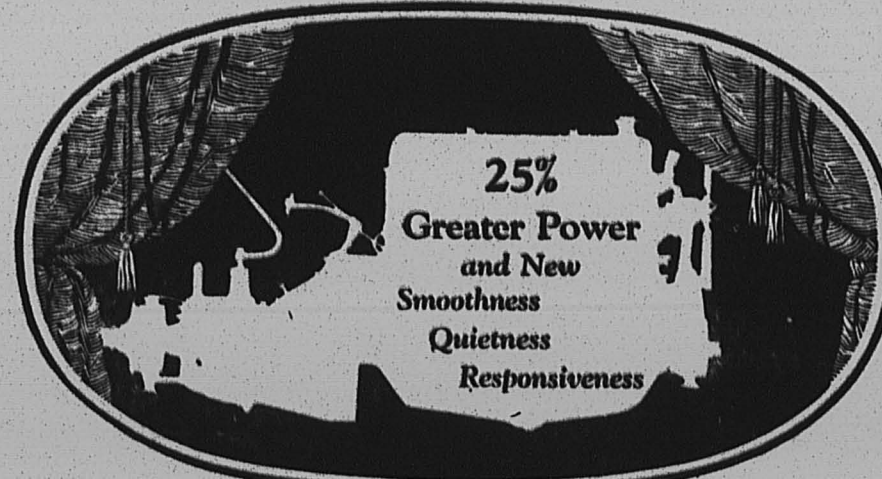

When you've an ache or a pain "plug in" the soft, cozy, plant electric heating pad. Drop off to sleep while its genial warmth soothes away the pain. \$8.00 up

NASH

Leads the World in Motor Car Value

On View Here!

"Enclosed Car" Motor

Introduced at New York Show

Our showrooms are now devoted to a Special Nash Exhibit that practically duplicates the great New York Show display.

Here you may view personally the important new Nash developments—particularly the great new Nash "Enclosed Car" Motor.

In creating this new motor Nash deliberately disregarded general precedent which was accustomed to shape the capabilities of a motor to open car requirements.

On the contrary, Nash especially engineered this motor to provide the finest calibre of performance for the enclosed car.

In utter smoothness, in quietness and in phenomenal acceleration, this new "Enclosed Car" Motor clearly outdistances all that has gone before.

It creates an absolutely new standard of enclosed car performance that will prove a revelation to you—for it is surpassingly superior in every phase of operation.

There's a full 25% greater volume of symmetrically smooth power—power without a single "rough spot" thruout the entire range.

And the speed with which you accelerate is lightning-like—23% faster than formerly in going from any given rate to a higher rate.

Yet your travel-cost per gallon of fuel is held down to the old low level.

And so expertly is the motor designed and constructed that under average driving conditions you may drive to a mileage high in the five-figure class without further thought except to change oil at the usual periods.

REIN MOTOR COMPANY

Phone 131

Just Like Our Own Make

When we offer a used car for sale, we think of it as something that is going to carry the reputation of this house for full value and fair dealing throughout this community. And we value our good name more than anything else in this business.

REIN MOTOR COMPANY

141-143 Bridgeboro St.

Riverside, N. J.

Phone 131

Throughout This Entire Month! These Reductions are in Effect!

\$15 OFF

Gas Automatic Storage Water Heaters

20 gallon size KOMPAC copper tank (illustrated) or 24 gallon RUUD, extra heavy galvanized tanks, formerly \$212, now \$197, or \$12 down—\$12 a month. Special cash price \$187. Have hot water always on tap. Constant dependable, works automatically. This is the time to secure one of these gas storage water heaters at a substantial reduction.

\$12.50 OFF

Laundry Dryers

Drying the wash in a home clothes dryer is gaining popularity steadily. Protects clothes from smoke and odor. No weather condition to worry about. Gas-heated clothes dryers were \$127 cash—now \$112.50 cash or \$120 on deferred payments—\$12.50 down, \$10 a month.

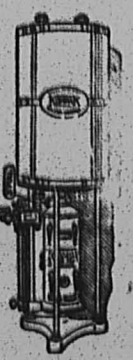

\$5 OFF

Gas Fireplace Heaters

Reductions of price in many instances are larger. The Radiantone is built on an entirely new principle. Do not confuse this with the old style gas log. Radiantone burns with a charming glowing effect and the radiant heat gives real comfort. Was \$47, now \$42 cash or \$45.10 on deferred payments. \$5 down, \$1.77 a month.

\$5 OFF
TANK WATER HEATERS
The new gas tank water heater for the small family. Plain "tank" or column "radiant" heating burners. Priced formerly at \$46.50, now \$41.50 cash. Deferred payments \$5 down—\$5 a month.

\$10 OFF
GARAGE HEATERS
The Dwyer Gas Heating Unit is designed for 500 or 1000 sq. ft. of space. It is a complete unit, including burner, gas valve, and blower. Save your money, your health, your comfort. Get a Dwyer Garage Heater. Priced formerly at \$110, now \$100 cash. Deferred payments \$10 down—\$10 a month.

PUBLIC SERVICE

The oil of untold uses

GULF OIL
A drop of Gulf Oil is "wear insurance" wherever it penetrates—door hinges, locks, washing machines, sewing machines, vacuum cleaners, typewriters, electric fans, motors—in fact, everything that requires a high grade oil. It not only lubricates but also cleans and polishes woodwork, furniture and floors, as well as it removes and prevents rust and scale on metal surfaces, auto valves and cylinders. Sold in all exporting stores.

HOLLINGSHEAD REPLIES TO
WRIGHT AND DANIELS

(Continued from Page 1)

controversy with George Sales, who owned a mortgage of \$20,000 upon the entire Philadelphia Terminal of the Ferry Co., which mortgage was being foreclosed, and Mr. Wright was fearful that someone would acquire the property at foreclosure sale which would give them a Philadelphia terminal and then, using Eight Mile Point as a New Jersey terminus, start a competing ferry. Mr. Hollingshead had no time for him, had any thought or intention of buying the Philadelphia property at foreclosure sale, and in the telephone conversation referred to, Mr. Hollingshead's reply was that he would notify Mr. Wright in advance if he had any intention of attending the sale or bidding upon the property of the Ferry Co. in Philadelphia, and so far as Mr. Hollingshead was concerned, the matter was then dropped.

Concerning Dividends
Mr. Wright further states as follows: "Mr. Hollingshead's acts of depriving us of a quorum on four different occasions, to prevent the declaration of a dividend mystified me and my colleagues until we came to the conclusion that in all probability it was his and Mr. Jones' intention to absorb the Company under foreclosure, for if they are only apprehensive concerning the payment of their mortgage, they would surely see that a Company earning 13% and paying 8% dividends was doing very well. Mr. Wright here confirms the ability of the Ferry Company to meet its obligations respecting payment of installments and interest on the mortgage of \$112,800. Mr. Hollingshead in absconding himself from the meetings of the Ferry Co. during the summer months was well understood by Mr. Wright because Mr. Hollingshead objected to the payment of any dividend until the obligation of the Ferry Co. of \$20,000 with interest and costs on the Philadelphia terminal had been paid off and discharged, and further that the \$7,000 yet due upon the ferry boat Fearless had been paid, after which Mr. Hollingshead was in favor of declaring a dividend and at a subsequent meeting either made the motion or seconded it to pay a dividend; and further at a meeting of the Board of Directors of the Tacony-Palmyra Ferry Co. held June 12, 1925, the following resolution was unanimously adopted: 'Resolved that when the Board adjourns today, it adjourns until the third Friday in September for the regular monthly meetings.' This resolution, however, meant nothing to Mr. Wright because he continued to call meetings during the summer and criticized the absence of the Directors and even went so far as to write letters to the stockholders requesting them to ask certain Directors to resign because of their non-attendance at meetings."

Mr. Wright says that it would be suicidal for the stockholders of the Ferry Co. to allow two men to control so large a mortgage against the Ferry Co. Possibly this is a good thing, as it will prevent Mr. Wright from mortgaging the assets of the Ferry Co. to a larger extent than they are now already mortgaged, as this mortgage covers all the assets of the Company's property. While Mr. Wright strenuously objects to anybody else controlling the Ferry Co., he has no objection to controlling it himself, dictating its entire policy to the exclusion of all other Directors and Stockholders and criticizing their views publicly if they do not agree with him. We have invited Mr. Wright, in order that he may ease his conscience, to contribute his share in the sale of the Hubbs Farm to the Ferry Co., but he sidesteps this suggestion and suggests that other stockholders of the Realty Co. do likewise. He sidesteps knowing that there is no possibility of the sale being set aside.

Made \$50,000 in Year
Mr. Daniels states that during the past year the Company made a net profit of about \$50,000 and paid the stockholders 8% in dividends. This would seem to preclude beyond all possibility of doubt, that the Company is well able to meet its obligations on the large mortgage and thus prevent a foreclosure.

Mr. Daniels makes the statement: "The beginning of this quarrel can be traced back to 1923 when the Company was sorely in need of money and a Director desired to embarrass it so that it would have to be sold out by the Sheriff. He suggested that we would have to forget the stockholders. He suggested that under foreclosure the Company could be bought cheap. A few of us could stick together, buy it in, re-organise it and make a lot of money out of it. The consummation of this outrage was prevented by the present members of the Executive Committee, namely Charles A. Wright, Charles L. Asam, and myself. The Company has been made prosperous and profitable and this delinquent Director has never forgiven the officers who have accomplished this desirable result for the stockholders."

Mr. Daniels further says "This statement can be easily proved and affidavits have already been prepared and they will be used if compelled to do so."

Mr. Hollingshead challenges Mr. Daniels' statement as being absolutely false, both in spirit and in fact, and demands that Mr. Daniels retract this statement or else furnish the affidavits at once covering his complete statement.

Mr. Wright denies that he was Vice-President and a Director of the Palmyra Realty Co. at the time the mortgage of \$112,800 was created and states that he resigned on November 24, 1925. Mr. Wright overlooks the fact that the agreement providing for the creation of the mortgage was dated November 14, 1925, while Mr. Wright was still Vice-President and a Director of the Palmyra Realty Co. and that Mr. Wright executed that agreement on behalf of the Ferry Co., his signature being attested by Mr. Daniels over the corporate seal of the Ferry Co., and the mortgage dated January 2, 1926, was a matter of detail following the provisions of the agreement, which mortgage was prepared by Mr. Wright's attorney. It is therefore hoped that Mr. Wright will immediately transmit his check for \$100 to the Burlington County Hospital as he promised to do in his statement published in the issue of the New Era of Riverton, under date of February 4th, 1926.

Ray South in Riverton.
The statements made by Mr.

Wright and Mr. Daniels contain elements of truth, but are framed in such a misleading manner as to convey absolute untruths. While it may be true that Mr. Hollingshead and Mr. Jones either own or control a majority of the stock of the Palmyra Realty Co., neither of them have ever exercised that control to take any unfair advantage of Mr. Wright or any other stockholder. The stock is originally subscribed was 50 shares to each. Mr. Jones subsequently acquired 50 shares formerly owned by Mr. Forsyth, and Mr. Tomlinson. Mr. Bagley and Mr. R. M. Hollingshead, Jr. subsequently acquired the 50 shares owned by Mr. Bleakly, and each of the last three named gentlemen now hold 20 shares apiece, so that the other offer made by Mr. Wright to pay \$100 to the Burlington County Hospital is made in such a fashion as to impose no liability upon Mr. Wright to make that payment. He is not a good sport, otherwise he would donate it anyway, knowing full well how the stock ownership stands and that no expression of control has ever been exercised by the gentlemen who have it, even though it is in their power to do so.

Mr. Hollingshead has made the statement and now makes it again publicly that if a Board of Directors selected by the Stockholders' Committee is elected by the Stockholders at the Annual Meeting and thus prevent Mr. Wright from continuing his course of one man control over the interests of the Stockholders, in the event that the Company thereafter does not earn sufficient to pay at least an 8% dividend to the Stockholders and have sufficient funds left over to pay the first installment and interest upon the mortgage of \$112,800 when the same comes due July 31, 1926, then he, Mr. Hollingshead, will individually loan to the Company on the Company's unsecured note, the amount necessary to meet said installment and interest and that said loan will be by him made for a period of not less than one year and bear interest at 5%. This will overrule the Stockholders' Meeting of 1925 when a new Board will be elected. This would prevent any possibility of foreclosure even though the same were contemplated.

FIGHTING FERRY FACTION
IN CRASH AT MEDFORD

(Continued from Page 1)

thing else but a note for the Company's indebtedness of \$5,000 to him, which was given to him under a resolution adopted by the Board of Directors on December 13, 1925, which minute was read to the meeting.

Wants Business Men
Mr. Hollingshead claimed at this meeting that the Board should be under the control of business men, but did not say that it was not so controlled. The fact that the ferryboat Fearless, now the Tacony, paid for itself, lifted the Company from a state of near insolvency and brought it to a profitable basis so that the Company paid dividends aggregating 8 per cent. during the past year, speaks well for the business ability of Mr. Wright and his associates.

Charles L. Asam, one of the directors, spoke at various times during the meeting and never failed to impress his hearers by his quiet, orderly manner, and stated there were some who had not acted squarely with the Company, and urged the stockholders to support as directors those men who had brought the Company from the brink of bankruptcy when its enemies were endeavoring to force it into the hands

of receivers. He declared that when a note for \$20,000 fell due at the Corn Exchange Bank the other directors attempted to leave the Company high and dry, so he went to the bank with \$25,000 in gold securities and offered to pledge them, but he was informed that it was not necessary, as his signature was sufficient guarantee. He paid \$5,000 to reduce the note, the new paper being signed by himself and Messrs. Wright, Roland and Daniels, which was very satisfactory to the bank.

Roland's Statement
One of the most pleasing speeches and in fact the most convincing of the evening was that of William D. Roland, who recited briefly and quietly the history of the Company and stated that it was his opinion that the originators of the idea never intended to operate a ferry, but that Mr. Wright became identified with the enterprise because he sincerely believed a ferry at this point could be made a paying proposition and had therefore invested his money, to the extent of \$24,000, being the heaviest stockholder, and had also induced many of his friends to become interested financially. Naturally he felt obliged to put forth his best efforts to make the proposition a profitable one. He stated that Mr. Wright was 66 years of age, with the energy and enthusiasm of a man of 35, that he spends all his time looking after the interests of the Company, that he has effected many savings in operation and developed labor-saving devices, as well as successfully remodeling the ferryboat Palmyra so that it is possible to carry many more cars each trip than formerly. Mr. Roland's talk seemed to carry home to most of those present the conviction that Mr. Wright and the men he undertakes as directors would be the best ones to elect. When he concluded he was greeted with applause.

In addition to those present from the neighborhood of Medford were Charles A. Wright, Charles Asam, Samuel S. Daniels, Harry L. Kohn, J. H. Roberts, William D. Roland, R. M. Hollingshead, William Clayton Jones, Mrs. H. B. Morris, George Steedie, Arthur and Walter Wright, Stewart and Richard Hollingshead, Russell Blackburne, Frank Holvick and others.

TALK ON GOLD LEAF

Chas. A. Dietz, Teacher of Samaritan Class, Gives Interesting Talk

At the annual meeting of the Samaritan Class of young men of the Central Baptist Church held Tuesday evening, Charles A. Dietz, teacher of the class, told the boys many of the technical and interesting points connected with his business of stamping and embossing, with particular attention to the making of gold leaf.

Gold bars from the U. S. Mint, 999.9 fine, are alloyed with copper, according to Mr. Dietz, and a long narrow bar 12 1/2 x 1 1/2 inches of the precious metal is then cast and rolled into a thin ribbon about 525 feet long. After cutting this into 1 inch squares, the gold beater takes 150 pieces of the gold which are interleaved with as many parchment paper leaves four inches square, forming a packet called the "Cutch." The Cutch is beaten for 20 minutes with a heavy hammer on a smooth marble block until the gold has thinned and extended to the edges. It is then taken from the Cutch and each piece is quartered. The 150 pieces thus become 600 pieces. After a second beating of about two hours each piece is again quartered, the 600 pieces becoming 2400 pieces and these pieces again

board and satin. Each month the Samaritan Class intends to have some member or friend of the class thus explain his trade or business.

EPWORTH CHURCH NEWS
Lincoln Day will be observed at the Epworth Methodist Episcopal Church Sunday.

The Rev. J. S. Handy, colored, of the Delaware conference and pastor of the Ferry Avenue Church, Camden, will speak at the evening service. The Rev. Mr. Handy is a

brilliant talker, is well educated and is considered a leader among the colored people.

Mrs. Caroline Webb, also colored, of Palmyra, will be the soloist. Mrs. Webb is a woman of unusual musical ability, is a graduate of a conservatory of music and has a rich contralto voice.

The pastor, the Rev. Fred B. Morley, will preach at the morning service at 11:15 and will also deliver a spirited address before the Epworth League at its devotional meeting at 6:45. Church school, as usual at 10 a. m.

A workers conference of the church school will be held Monday evening at 8 o'clock in the Temple.

Prayer meeting Wednesday evening at 8 o'clock.

CARD OF THANKS
I wish to extend my deepest appreciation to my many friends and neighbors for their kindness and sympathy shown me during my recent bereavement. I wish to especially thank those who so kindly sent care to the funeral.

Paul J. Boehme.

NOTICE

TACONY-PALMYRA FERRY CO.

At a meeting of the Board of Directors of the Tacony-Palmyra Ferry Company on December 18, 1925, the following was adopted:

RESOLVED that the Executive Committee be and is hereby empowered to select eleven (11) suitable persons who will be faithful to the interests of the stockholders, to be nominated and voted for at the Annual Meeting of the Company to be held February 18, 1926, to constitute a Board of Directors for the ensuing year, or until their successors are elected. Be it further

RESOLVED that the said Executive Committee be and is hereby authorized to solicit proxies and vote the same at the said Annual Meeting, and to make all arrangements for its orderly conduct. Be it further

RESOLVED that the said Executive Committee be authorized to advertise these resolutions in the newspapers, for the information of stockholders.

The so-called stockholders' committee which is soliciting proxies to take control from the present successful management has no authority from the Company.

DO NOT SIGN THESE PROXIES

Stand by your executive committee which has made your Company profitable and has paid you your dividends.

CHARLES A. WRIGHT, President.
CHARLES L. ASAM, Vice Pres. and Treas.
SAMUEL S. DANIELS, Secretary.
Executive Committee.

Sworn Statement by Hollingshead

STATE OF NEW JERSEY }
COUNTY OF CAMDEN }

Richard M. Hollingshead, of full age, being duly sworn according to law on his oath says that he is a Stockholder and also a Director of the Tacony-Palmyra Ferry Company; that the Board of Directors are composed of eleven, Charles A. Wright, President; Charles L. Asam, Treasurer; Samuel S. Daniels, Secretary; William D. Roland, William Welch, John H. Sinex, Morgan H. Thomas, Frank Peoples and this deponent, there being two existing vacancies in the Board caused by the resignation of Earl L. Williams and Armit H. Coate.

Five of said Directors, less than a quorum, to wit: Wright, Asam, Roland, Daniels and Welch, met at the office of Samuel S. Daniels, on Third Street near Walnut in Philadelphia, on December 18th, 1925, and held what purported to be a meeting of the Board of Directors of the Ferry Company. The By-Laws of the Ferry Company, Section 20, read as follows:

"A majority of the Directors shall be necessary at all meetings to constitute a quorum for the transaction of any business."

This deponent hearing that said purported meeting had been held, called upon Mr. Daniels at his office on Monday the 21st of December, 1925, at about eleven o'clock in the forenoon. Mr. Daniels being the Secretary of the Company, deponent asked him, Daniels to see the Minute Book and was informed by Daniels that he had it at his home in Riverton. He then told deponent that there were five members of the Board present at the so-called meeting, to wit: Wright, Asam, Daniels, Roland and Welch, and that at said meeting they filled the two vacancies mentioned by the election of H. L. Kuhn and John H. Roberts. He also informed deponent that at said purported meeting they had approved the purchase of the land known as Eight Mile Point and that no other business was transacted at said meeting, notwithstanding deponent, particularly asked him if any other business had been transacted at said meeting, and his answer was "no."

Deponent then consulted counsel and on January 14th, 1926, Honorable Francis S. Katzenbach, one of the Justices of the Supreme Court of New Jersey, allowed and issued a writ of Certiorari requiring all the records of said so-called meeting of December 18th, 1925, to be sent to said Court for review, said writ being returnable January 30th, 1926, and the disposition thereof still pending. The purpose of this writ, in which this deponent is the prosecutor, is to set aside the illegal proceedings of the purported meeting held by Wright, Asam, Daniels, Roland and Welch at the office of Daniels in Philadelphia on the 18th of December, 1925, as aforesaid for the reason that said before-mentioned persons being less than the quorum of said Board of Directors had no power to fill said vacancies or to meet and transact any business to bind said corporation and any business transacted at said meeting was illegal and of no effect.

Annexed to this affidavit and made a part hereof is a printed notice which deponent cut from the following newspapers.

The Philadelphia Sunday Inquirer, January 24, 1926.

The Philadelphia Inquirer, Monday, January 25, 1926.

In said notice it will be seen that other business of vital importance to the interests of the Company was transacted at said so-called meeting, notwithstanding statements of Mr. Daniels, the Secretary, to the contrary.

Sworn and Subscribed before me
this 25th day of January, 1926
CHARLES R. FERRIS,
Notary Public for New Jersey.

My commission expires June 25, 1926.

C. of C. Booster From Burlington

Monthly Letter Published by Industrial Body of Up-River Town

The Burlington Chamber of Commerce publishes a monthly letter called "The Booster." February's paper is No. 2 of Volume 3 and is as follows:

THE MEMBER'S CREED
I believe that
What I do for myself is Human.
What I do for my family is Duty.
What I do for my business is Profit.
All I do for my CITY should be
Unselfish.
Patriotic and
For Civic Pride.
—T. A. Dunn.

SHIP CANAL WOULD BENEFIT BURLINGTON AND NEW JERSEY

This organization was represented at a preliminary meeting in Trenton to plan for the Interstate meeting to be held there on March 2nd and 3rd. At this meeting it is planned to have represented, all those persons interested in the Canal so that concerted action may be secured. Mr. Moore, President of the Atlantic Deepwater Waterways Association, outlined the work accomplished in the last 18 years and stated that the New Jersey Ship Canal was the final link in the Intra-Coastal Waterways. More talk for the convention will be announced later.

FIFTH ANNUAL MEETING OF THE BURLINGTON CHAMBER OF COMMERCE

The Annual Meeting of the Chamber of Commerce was held at the Masonic Hall, Thursday evening, February 14th. The meeting was the first of the year and the work of the organization for the past year was given and the more important things accomplished by the various committees of the Chamber. At the same time some of the plans for work in the coming year were given. The speakers for the meeting were Mr. J. J. Ruster, Manager of the Camden Chamber of Commerce, who spoke on the "Advantages of Camden and South Jersey," and Mr. John H. Matter, Manager of the Retail Division of the Domestic Distribution Department of the United States Chamber of Commerce, gave an interesting talk on the Retail Merchandise Problems. This meeting was the first to be held in the new year, and it marked the beginning of the Sixth Year of the Chamber's existence.

CHECK FORGER IN ACTION

This office has been requested to warn its members of the workings of a check forger. He gives his name as Charley Swigert, an employee of the Pennsylvania Railroad and presents checks drawn on them in payment for his purchases. Swigert is described as about 39 years of age, 5 feet 7 inches in height, dressed in working clothes, stocky built, medium complexioned, possibly an Italian. The checks presented are on blue, venturized paper while the regular P. R. R. checks are yellow. The treasurer signs the checks H. H. Lee and it is printed on the checks while the ones presented are signed H. W. Lee and are written. In the event that any of these checks come to your attention please notify the Chamber of Commerce.

CHAMBER OF COMMERCE ELECTIONS OFFICERS

The membership of the Chamber expressed their desire to have the same members of the Board of Directors continue for the next term of office. The Directors elected to serve a two year term are: Messrs. M. H. Hallinger, W. R. Conrad, J. W. Davis, W. C. Jones, A. L. Severns, G. T. Williams, Rev. J. T. Ward was elected to fill the unexpired term of James H. Birch, Jr. The officers for the coming year, elected at the first meeting of the Board are: President, B. F. Haughton; Vice-President, A. L. Severns; Vice-President, J. W. Davis; Treasurer, Joseph S. Fox; Secretary, Noble Waggoner; National Councilor, Noble Waggoner.

BURLINGTONIANS INVITED TO CAMDEN FORUM

The Camden Chamber of Commerce has extended to the citizens of Burlington an invitation to attend their next Forum Meeting to be held at the Walt Whitman Hotel, on Thursday evening, February 18. This meeting will begin promptly at 6:10 p. m. and adjourn at 8:15 p. m. The subject to be discussed is "Port Development." Anyone wishing to attend is requested to call the Chamber of Commerce office (Phone 414) and make the reservations before Monday, February 15th. The reservations are \$1.00 each.

Wets claim it's getting worse. Drys claim it's getting better. Depends upon viewpoint.

OUR SPRING SHIPMENT

Of imported English Broadcloth, Rayon and Crepe arrived this week. This is just the time to do your spring sewing.

The new Trouseau Cloth for Lingerie is fine and durable and comes in lovely shades of Green, Pink, Peach and White.

SOMEBODY PAYS THE TAXES

Discussing municipal ownership of utilities, H. E. Tobey of the Interstate Public Service Company of Indiana, says:

"As to the claim that the municipal government can finance at lower costs than private industry through the medium of tax-exempt securities, the injustice and evil of such exemptions are becoming so flagrant and so apparent that it is not to be believed that the public will tolerate this condition much longer."

It takes just so much money to run the government, whether it be national, state or municipal. Where a utility is municipally owned and therefore tax-free, the immense sums of money which it would pay to the city in taxes, must be made up by general taxation—often falling heavily on those who get no direct benefit from the utility.

To Train 4700 in Citizens' Camps

No Reduction in Number of Youths Despite Cut in Appropriation

With smaller appropriations, forty-seven hundred youths from the states of New York, New Jersey and Delaware, one of the largest contingents yet raised, are to be given thirty days' outdoor training this summer at Plattsburg and other encampments of the Citizens' Military Training Camps in the Second Corps Area, it plans under way by Major-General Charles P. Summerall at Governor's Island, are successful.

As a result of the reduced War Department budget, General Summerall announced that efforts are being made to work out greater economies in connection with the summer camps so that no reduction will be made in the number of students accommodated nor in the scope of the training. Much of the saving is expected to come from a different arrangement of camp sites.

Opening of the training season has been set for July. Every student is to be a volunteer and must pass standardized mental and physical tests adopted by the Government. Students will range from seventeen to twenty-four. Those who meet the requirements will be sent to the training without personal expense and upon completion will receive return tickets to their homes. While at camp whose some food, uniforms, athletic equipment, laundry service, and camp facilities will be furnished free by the Government.

The C. M. T. C. course this year will be divided between camping, hiking, shooting, athletics and citizenship studies, with the students enrolled in four different courses. First-year men without prior training will be given only elementary drills, most of their work being designed to build up bodily strength by outdoor sports.

Advanced classes—called Red, White and Blue courses for the other three years of the course will offer instruction in Infantry studies, Coast Artillery and Field Artillery problems, Cavalry and horse-manship tactics, military methods, and radio and Signal Corps work. Specialists in various professions who hold commissions in the Organized Reserves will be called to duty to aid in the non-military part of the program, under General Summerall's plan, the troops of the Regular Army being largely occupied with instructions in drills and shooting.

It is also planned to give individual instruction to the physical training of individual students to correct defects that might become chronic in later life. Data compiled from records of C. M. T. Camps held since 1921 when the movement was inaugurated is now being studied with this end in view.

Caravan of Death 660 Miles Long Is Nation's Auto Story

A CARAVAN of death and suffering 660 miles long is what the annual automobile casualties of the United States would form if placed in one continuous line. From New York to Detroit, painful mile on painful mile, this ghastly and pathetic human chain would reach. This graphic picture, prepared by the Stewart-Warner Safety Council for the prevention of automobile accidents, tells its own story. Twenty-two thousand killed annually by automobiles and 600,000 injured is the present toll caused by thoughtless drivers and careless pedestrians. Only a small per cent of the accidents are due to defects in the cars or can rightly be called unavoidable.

Camps, General Summerall declared, is to bring together young men of high type from all sections of the country, of wealthy and poor parents alike, in the same uniform on a common basis of equality, under the most favorable conditions of outdoor life; to stimulate and promote citizenship, patriotism, and Americanism, and through expert physical direction, athletic coaching and military training, benefit the young men individually and to lead them to a better realization of their obligation to their country.

The story comes from California that a man out there was cured of paralysis by being struck by lightning. Now let Florida tell one.—Columbus Dispatch.

A REPORT ON STREET PAVING

Results of investigations by New York State Bureau of Municipal Information at Albany, relative to experience of various cities throughout the country with construction and maintenance of street pavements, show that out of 92 leading cities reporting, 44 use only asphaltic types, 8 use asphaltic and brick pavements, 9 use asphaltic types and stone block with asphalt filler, and 8 use asphaltic types and Portland cement concrete.

Out of 63 cities answering query as to whether sheet asphalt pavement has given good service, only one reported in the negative. Thickness of base under sheet asphalt

surfaces ranged from 4 inches to 9 inches, with 6 inches prevailing; while a 3-inch surface, including binder course, was the average.

Cost of constructing sheet asphalt pavements, including grading, wearing course, binder course and base, ranged from \$2.40 to \$4.50 per square yard, variance in prices being due to availability of local materials, as well as variance in freight and labor cost, etc.

A TELEPHONE NATION

The telephone is rapidly usurping the position formerly held by the telegraph in control of trains and transmission of railroad business.

Train orders are now being transmitted by telephone on more than 84 per cent of the railroads of the country.

Not only are telephones being used for transmission of train orders, but telephone stations are being installed on many roads at each signal bridge and siding, and are connected with adjacent interlocking or block stations, so that almost constant communication can be had by train crews, with headquarters.

Many railroads have also provided means by which observation cars on certain trains are connected with the city telephone service, so that a passenger up to the time the train leaves the station, may communicate with any point in the city.

DEMOCRATIC SPLIT

Mrs. Jacoby at Odds With Vandegrift Over Appointments

The members of the Democratic State Committee of Burlington County are split over appointments for County Tax and Election Boards. Mrs. Florence W. Jacoby, the woman member, is taking a strong stand for the reappointment of George Alloway, Vincentown, for Election Board, and Walter W. Van Selver, Beverly, for Tax Board.

Mrs. Jacoby believes that these men have faithfully served the Democratic Party, have conscientiously and satisfactorily performed the duties of their respective offices, and have the support of the representative Democrats of the county, and so are entitled to two terms.

William B. Vandegrift, the State Committeeman, is endorsing Francis J. Mulraney for County Election Board, and James B. Cunningham, Burlington, for Tax Board. These men are staunch friends and loyal supporters of Richard P. Hughes, of Burlington, a member of the Civil Service Commission.

Mrs. Jacoby is opposed to Cunningham, because he is a relative of Hughes, whose brother-in-law, James J. Gallagher, has the motor vehicle agency in Burlington. She thinks this gives too much patronage to one family, particularly when there are so few offices in Burlington to hand out.

Settlement of the matter may be taken to the County Committee and Democrats of Burlington County are watching the outcome with interest. France never will turn the corner toward safety and solvency until her wealthy citizens are as willing as wealthy Englishmen have been to pay heavy taxes.

Look Ahead!

Some day soon Palmyra is going to be a bigger and busier town.

Are you going to be in position to share in the benefits of this growth?

A great deal will depend on your financial condition.

Prepare Now!

An account in this bank will help in many ways toward the desired result.

Lesson for February 21

JESUS RAISES LAZARUS FROM THE DEAD

LESSON TEXT—John 11:1-57.
GOLDEN TEXT—"I am the resurrection and the life: he that believeth in Me, though he were dead, yet shall he live."—John 11:25.
PRIMARY TOPIC—Lazarus Raised from the Dead.
JUNIOR TOPIC—Lazarus Raised from the Dead.
INTERMEDIATE AND SENIOR TOPIC—Christ's Power Over Death.
YOUNG PEOPLE AND ADULT TOPIC—Christ the Resurrection and the Life.

I. Lazarus Sick (vv. 1, 2).

Even those who are in close fellowship with the Lord are not immune from sickness. Sorrow comes even to the homes where Jesus is loved.

II. Martha and Mary Send for Jesus (v. 3).

Those who receive Jesus into their homes when all are well and happy can be sure of His love and sympathy when sickness and death overtake them.

III. Jesus' Strange Delay (vv. 4-6).

Martha and Mary sent for Jesus because He loved Lazarus. Jesus said, "He whom Thou lovest is sick." Now, Jesus "abode in the same place" because He loved Lazarus and his sisters (v. 5). This mystery is to be explained by the fact that Jesus was divine and knew all things.

IV. Jesus Goes to the Bethany Home (vv. 7-17).

At length He turned His face toward the sorrowing home. Jesus knew the disciples apparently knew that going into Judea meant His own death. His mission to this home was twofold: to restore to these sisters their brother and to strengthen the faith of the disciples (vv. 11-16). The word "sleep" reveals Jesus' estimate of death.

V. Jesus Teaching Martha (vv. 18-27).

As He is nearing the village Martha meets Him with a complaint because of His delay. He ignores her complaint and teaches her concerning the resurrection and life.

1. "Thy Brother Shall Rise Again" (v. 23).

Most blessed words are these to fall upon the ears of a sorrowing sister for a dead brother.

2. "I Am the Resurrection and the Life" (vv. 25, 26).

He is the source of life and all are joined to Him by a living faith. The believer cannot die. The great truth indeed to be apprehended is that here we are united to the living Christ, the source of life, and that this is a pledge of bodily resurrection and eternal reunion.

VI. Jesus Weeping With Mary (vv. 28-35).

Mary fell at Jesus' feet, uttering the same words used by Martha, but no doubt with a different tone of voice and attitude. Her words were responded to with His tears—"Jesus wept." He is now a sympathizing Saviour; He can be touched with the feelings of our infirmities (Heb. 4:15).

VII. Jesus Raising Lazarus (vv. 36-44).

His great sympathy now expresses itself in supernatural power. Sympathy would be valueless without this connection with divine power. In this stupendous miracle we see an illustration of the quickening into life of those dead in trespasses and sin.

Observe: 1. He Was Dead (v. 39).

This is a type of the sinner dead in trespasses and sins, even morally corrupt (Eph. 2:1).

2. The Stone Must Be Rolled Away (v. 38).

This is the part that the human must play.

3. Martha's Protest of Unbelief (v. 39).

She insisted that Lazarus had already undergone putrefaction.

4. Christ's Intimacy and Fellowship With the Father (v. 42).

In His prayer He declared that it was not for His sake that He prayed, but for those who stood by.

5. Christ's Manner of Dealing With Lazarus (v. 43).

It was by a call. He is calling men and women today by His Spirit, Word and providence.

6. The Response of Lazarus (v. 44).

This shows that the call of Jesus is with authority and power. With the call goes the power to heal and obey.

7. The Command to the People (v. 44).

They were to remove the grave clothes and set him free.

VIII. The Effect of This Miracle (vv. 45-57).

1. Some Believed (v. 45).

2. His Enemies Sought to Put Him to Death (vv. 46-53).

3. His Withdrawal (v. 54).

The Soul of Religion

Always remember that sincerity is the very soul of religion. A single intention to please God and to approve ourselves to Him must animate and govern all that we do.—Philip Doddridge.

Holiness

Holiness is religion shining. It is faith gone to work. It is charity clothed into actions, and devotion breathing benedictions on human suffering.—Bishop Huntington.

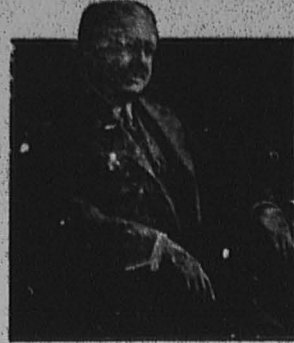

FROM MISSOURI

Missouri business men have formed an organization "to show the tax wastage and to formulate a plan whereby the present methods of administration may be improved so the taxpayers may receive a larger return."

They propose to examine the whole state administrative system and also that of the counties. Such an effort should be welcomed by every public official, as well as by the people.

Several states have formed such organizations and the rest should follow for it is only by organized effort that state government can be improved.

NEW PRESIDENT

A. L. Salt, new President of the Gray Electric Company, a distributing company for electrical supplies recently formed from the Western Electric Company. The latter organization will continue as the Western and its plant is to be used in the manufacture of telephone equipment for the Bell System. Mr. Salt was formerly a Vice-President of the Western Electric Company.

10,000 Fordsons Sent to Russia

Tractors Being Used in Effort To Develop Vast Resources of Soviet

The boundaries of the empire are marked by the sword, but the foundation of the empire is laid in a plow furrow. On two occasions in the past decade the simple truth of this ancient adage has been strikingly demonstrated in Europe and twice America has been called upon to, figuratively, at least, pull Europe's plow. The first occasion was in answer to the well remembered warning, "produce more food to win the war" which echoed around the world in the stirring days of 1917. The other is still alive in newspaper headlines—the effort being made by Russia to establish upon its vast expanse of fertile land, the foundation of its republic.

Of the two, probably the first was the more dramatic, for it has as a background the awful splendor of the world war. England, after three years of fighting on a score of battle fronts was gradually reaching a point of famine because of the submarine blockade which had cut the British Isles off from their principal sources of food supply. Under the urge of necessity, extensive estates and other non-productive lands were put under cultivation and at about the same time that America dispatched the vanguard of its doughboys to France, 6,000 Fordson tractors were purchased by the British Ministry of Munitions. After safely running through the submarine blockade, the Fordsons were landed and assigned to farms all over the British Isles. There, they "fought" through the closing years of the war to feed the nation behind the men behind the guns.

Among the nations of the earth probably none is potentially richer agriculturally than the states that make up the Russian Republic. Vast areas of soil, too extensive to be easily comprehended, is ideally suited to raising essential grains. During the reign of the Romanoffs, Russia was known as the granary of the world, even despite the fact that heavy-footed oxen and even camels provided the farm power. Since the overthrow of the monarchy, this fertile land produced little if any grain for export until the first tractor began to make their appearance. Peasants tilled the soil in tiny patches to supply their own needs.

Upon this scene of economic waste enters the "made in Detroit" Fordson tractor. In the rich wheat lands of the Ukraine, in the shadow of the Caucasus range, along the romantic Volga or in seemingly limitless Siberia, thousands of these tractors are opening furrows and hundreds of thousands of acres are planted to crops for the first time. Naturally, such a tremendous enterprise manifests itself in developments of huge proportions. An example is the order just filled by the Ford Motor Company for a shipment of 10,000 Fordson tractors to Russia, by far the greatest single tractor order ever placed, representing extensive experiment by the Soviet government and the decision of the interests behind the promotion of agriculture to a standard on this type of equipment.

The 10,000 tractors were produced at the River Rouge plant of the Ford Motor Company in approximately seven weeks in addition to the production quota for domestic absorption. Fifteen cranes worked unceasingly loading the crated tractors on freight cars which rumbled out of the River Rouge plant in a seemingly endless stream for the coast. Stencilled on the sides of the cranes, were the names of such destinations to excite the imagination as Vladivostok, Novorossiysk, Odessa, Moscow, Leningrad or Peking. Dozens of ships, laden to the waterline with Fordsons are still carrying the "made in U. S. A." stencil into Russian ports on the Black Sea and the Sea of Japan, pouring tractors into Russia to complete the shipment.

To one whose conception of farming is drawn from the middle west of the United States or even the less densely populated south or far west, 10,000 tractors might seem enough to put all Russia under cultivation. As a matter of fact 10,000 Fordsons are already in use in the Soviet Republic when the latest order was placed, all having been purchased in the past three years. Yet the imposing array of tractors has been scattered over such a vast expanse of territory that the Fordson tractor is even yet regarded as very much a novelty and its appearance to the community is a signal for a public demonstration. An idea of the magnitude of the area into which these tractors are going may be gained from the fact that after leaving the railroad, it is vividly driven by the purchaser two or three hundred miles to the village where it is to be put to work.

Schools, in which an intensive practical course in tractor operation and maintenance is given, have been opened in the agricultural centers of population. Each prospective operator must learn all about the Fordson and the adjustments which must be made to suit the soil. The Soviet government, appreciating the

importance of realizing the maximum efficiency from every tractor has issued performance cards with each machine and each operator is required to keep accurate check on the amount of his day's work. If his record indicated that he is obtaining the greatest possible amount of service from the tractor, his is issued the valuable fuel and oil.

Operating a Fordson, however, is scarcely regarded as a "job" in the interior of Soviet Russia. In the majority of instances, these tractors are the first examples of internal combustion engines ever seen. With the automobile unknown, operating a tractor assumes the role of a highly prized privilege and "driving" it to and from the field of operation is an experience of pleasure which may scarcely be appreciated by Americans.

The American farmer, even with a decade of power farming experience behind him, may profit by the study of tractors made by the Soviet. In specifying the equipment, blanket instructions were issued to provide each tractor with fenders and belt pulley. The fenders are so equipped as to carry conveniently all tools necessary to make minor adjustments together with a supply of the small essential parts to make possible minor repairs right in the field. For, in Russia when operation possibly 1,000 miles from the Soviet equivalent of a service station, laying up a tractor in the rush period to await a service mechanic for repair is highly impractical.

Thrashing and the grain harvesting operations as well as wood sawing and the numerous other essential farm jobs requiring belt power may all be done through the medium of the single unit.

The return to the soil by Russia for a foundation on which to build for world prominence assumes special significance through the purchase of these tractors. Generations of advancement have been covered in a single stride; camels and oxen which yesterday pulled the plow, today see the most modern development in power farming multiplying their achievements. And Russia's move to regain his position of "granary of the world" is not likely to go unnoticed by other agricultural nations of the world.

ENVIALE WORKING CONDITIONS

Wage earners in this country earn more, live better, have more recreation and yet save more than workers of any other country. Including skilled and unskilled labor, the daily pay of the American workman is approximately that of the weekly pay of the English workman. Yet the demand is equal to the supply in this country, and in some crafts there is a shortage, while in England about 1 1/2 million persons are maintained in idleness on the "dole" which the government contributes. England is regarded as the most tightly unionized country in the world.

Unions in the United States have done much to raise the standards of pay and living conditions. These standards now are at a level where there should be little dissatisfaction, little excuse for labor disturbances and strikes.

KERLIN—TUPPER

The home of Mr. and Mrs. Joseph Kerlin, of Alloway, N. J., was the scene of a very attractive wedding on Thursday, February 11, at 12 o'clock when Miss Eleanor I. Tupper of Woodstown, N. J., became the bride of William M. Kerlin, of Alloway, N. J.

The room was very prettily decorated with smilax, roses and sweet peas. The ceremony was performed by the Rev. William Lickenbill, pastor of Alloway, N. J. Church, under an arch of ring corsages. The money was used. The bride wore a dress of white crepe-de-chine draped and trimmed with old point lace. The veil of white tulle was held in place with sprays of orange blossoms.

The bride carried a shower bouquet of bridal roses. Mrs. Blanche L. Fogg, of Woodstown, N. J., sister of the bride, was matron of honor. Mr. Van Dorn Hoxate, of Quinton, cousin of the bridegroom, was best man. Bertha E. Fogg, niece of the bride was flower girl. A reception followed the ceremony. After a brief honeymoon in Washington and New York, Mr. and Mrs. Kerlin will reside in their home near Alloway. The bride was a graduate of Pennsylvania Hospital Training school for Nurses in 1923. She has held the position of Night Supervisor at Salem County Memorial Hospital for the past year.

BUS COLLISION CASE IN COURT

Philadelphia Awarded Damages Against David B. Coles, of Cinnaminson

The case of James F. Mundell and others, of Philadelphia, against David B. Coles, of Cinnaminson, was tried in the County Court at Haddonfield last week. The suit was brought for damages as a result of an auto collision in Philadelphia on July 14, 1923. The case had been previously tried and resulted in a verdict.

David B. Coles, the defendant, had been to Newnam Falls on the day in question with a bus load of ladies from the Moravian church, in River-side, and was returning home by way of Frankford avenue when his bus and the Mundell car, occupied by Mundell, his wife and their daughter, a Mrs. Miller, were in collision, and as a result of the accident the Mundell car was badly damaged, for which the owner asked damages, while the two women had their clothing nearly torn from their bodies and received numerous injuries.

The defense claimed that the Mundell were responsible for the accident. V. Claude Palmer represented the defendant, while Howard L. Miller looked after the plaintiff's case. The jury, which was composed of five women and seven men, deliberated all night and finally returned a verdict of \$300 for Mundell for damages to his car, and gave Mrs. Miller, the daughter, \$150. The claim of Mrs. Mundell was not allowed.

The new gasoline-driven snow-plows making a 14-foot driveway through deep drifts would have been declared useless, immediately by our snowed-out motorists.

Y. W. C. A. Notes

Thirty-four Girl Reserves met at the Mount Holly Club House of the Y. W. C. A. last Thursday afternoon. Soon the air was full of music, for the purpose of the meeting was to learn Girl Reserve Songs. This task proved to be a very delightful one since Mrs. William Karges, formerly supervisor of music in the Atlantic City Schools, directed the singing, and Mabel Geall accompanied at the piano. There were serious songs and funny songs; beautiful songs, and popular songs; but whatever the kind, they were sung with a great deal of spirit and zest.

Suddenly the music stopped and the jingling of cups and saucers replaced it. Hot chocolate and cookies were served and much laughter ensued as the girls ate. Finally it was time to go home, but as the girls were leaving the air was full of the echoes of an "Awful good time."

The Hartford-Masonville Girl Reserves entertained the Y. M. C. A. group of the same towns on Friday evening at a Valentine Party. Although there were twice as many boys as girls at the party, they seemed to enjoy their majority. Circle games, relays, stunts, and quiet games of a thought-provoking nature, entertained the party during the evening.

No part of the evening was more enjoyed than that when the girls served delicious vanilla ice cream with home-made chocolate sauce and cake. Managing to find one's way home through the snow drifts was a final game of the evening. Everyone was most grateful to Miss Emily Conly, adviser of the Girl Reserves, for having made it possible to spend such a happy evening.

The regular monthly meeting of the Board of Directors of the Burlington County Y. W. C. A. was held at the county office, Tuesday morning at 10:30 a. m. After the reports were given Mrs. Harmer led an interesting discussion on Issues and Preparations for the National Convention to be held in Milwaukee, April 21-27.

"New occasions teach new duties" is far after now as a precept than when James Russell Lowell sang it seventy years ago. Our confusion lies entirely there.

AN OLD TIMER

Organization of the first gas company dates back to 1816. When a company was formed to light the streets of Baltimore, Maryland. Electricity is now used for lighting purposes, but gas leads in low cost and efficiency all other substances, as a fuel for homes and industries.

As a public utility, the gas industry is essentially a democratic institution. It gives equal service to rich and poor, the home with its cook stove and gas appliances and the great manufacturing plant which daily consumes enormous quantities of this practical, economical and dependable fuel. Its customers and investors represent people in every walk of life, a true cross section of America.

If a starfish finds a tidbit too large for it to swallow, it extends its stomach out to its mouth and digests the morsel outside.

King Victor Emmanuel, of Italy is said to be the wealthiest reigning sovereign.

Secretary Hoover opines that we have recovered economic normalcy. May it be so!

NOTICE

All readers or local notices of entertainments, suppers, fairs, dances, etc., given for the purpose of raising money, will be charged for at the rate of fifteen cents a line.

RUM SCANDAL TRIAL

February 23 has been set as the date for beginning trial of those recently indicted in the Rum Scandal. Citizens of the county who are interested in seeing justice done in this matter which has brought the fair name of Burlington County into such disrepute throughout our own state and our neighboring states, should attend these hearings and lend the judge and jury the moral support of their presence.

It may be that if some of the indicted men find such action on their part would have the approval of the better thinking men and women in the county, they may be encouraged to make a clean breast of the whole situation and thereby bring to book the hitherto, if not existing, in these high places, as has been so persistently rumored.

THE QUESTION BOX

Milk is Valuable Food
Reader, Cambridge—My little girl who is nearly 7 years old, is very fond of milk. How long should I continue to give it to her.
Ans.—Consult your physician, who we believe, will advise giving it as long as the child wants it. Milk is one of the most valuable foods for the growing child.

Democrats Carried Ten States
T. J. Riverton—How many states did the Democrats carry in the Presidential election of 1916?
Ans.—In that election the Democrats carried 10 states—Alabama, Arkansas, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Texas and Virginia.

Mutton in Sausage
C. S. Ashbury—I would like to ask you if sausage can be made out of mutton? If so how?
Ans.—Sausage can be made out of mutton mixed with pork which is the same way that beef is used. Take one-half mutton, one-quarter lean fresh pork and one-quarter fresh fat pork and you will have what is generally considered mutton sausage.

A Long Distance
F. P. East Riverton—Will you kindly answer in this week's paper how far away is the moon and the sun from the earth?
Ans.—The moon is about 140,000 miles away, and the sun about ninety three million miles.

Holidays Made by State
J. B. Cinnaminson—To decide a bet will you please answer in the question column if the Fourth of July is a national legal holiday?
Ans.—No. There are no national legal holidays. Holidays are made legal by state statute.

Baseball
Bug, Palmyra—In baseball when a man strikes three times at the ball and misses, and the catcher muffs it, is the batter out, and if he is not, is the pitcher credited with a strike out if the batter runs and gets safe at first?
Ans.—If first base is occupied the batter is out providing there is not over one out. The pitcher is credited with a strike out if he strikes out the batter, after striking three times reaches first.

Why?
M. F. Riverton—Can you tell me why some people laugh at the most trivial things what is it?
Ans.—Maybe they have pretty teeth.

Both Sides Yielded
R. H. Five Points—Will you kindly tell me how the sinking of the American liner Lusitania was settled between this country and Germany?
Ans.—Germany sent the United States a memorandum of settlement in which both sides were to yield ground. Wilson accepted the proposal on February 8, 1916.

The United States
George, Cinnaminson—Will you kindly answer which country in the world has the largest battleship, and give its size. Also which country has the greatest number of battleships.
Ans.—The "Pennsylvania" in the United States navy, is now the largest in the world. Its displacement is 31,400 tons, and it has 31,500 horsepower engines. England leads the world in the greatest number of battleships, having nearly twice as many as its nearest competitor.

"Big Ben" Not the Largest
George, Cinnaminson—Can you please tell me the size of the bell at Westminster in England, and if it is the largest bell in the world?
Ans.—The bell at Westminster known as "Big Ben," weighs fifteen tons, "Kronos" at Moscow, which weighs 210 tons, is the largest bell in the world. "Big Ben" is located on the House of Parliament opposite Westminster Abbey.

\$100 A PAGE, PLEASE

Advertising in "Magistrates' Manual" Finds Few Takers At This Price

Considerable excitement was caused in Riverton and Palmyra last Tuesday by a number of telephone calls by a man who said he was a magistrate and who asked for advertising in the Magistrates' Manual, at prices ranging from \$100 for a full page down to \$10 spaces.

When the local merchants failed to place an order, he assumed a gruff and threatening manner. After two or three merchants had been called they began to get busy on their telephones, calling up their fellow business men to see if they had also been approached.

The voice on the telephone told some of the Riverton merchants that Joseph T. Evans and Walter L. Bowen had subscribed. At that time neither of them had been approached, Mr. Bowen has not been asked up to this writing.

Mr. Evans was asked to subscribe to the advertising plan shortly after Clinton B. Woolton had been told that he had already done so. Mr. Evans declined to place an order. C. W. Ludlow was among those solicited and who also refused.

In Palmyra among those who were asked to patronize this publication were Maurice Schwartz and Sol Romm. Schwartz was not at home when the telephone message came to his store, and the voice on the other told Mrs. Schwartz to have her husband call Rivertonhouse 2276 just as soon as he came in.

At Romm's store the proprietor agreed to take \$10 worth, and about two hours later a man appeared to collect the money. In the meantime, however, Mrs. Romm had become suspicious and told the collector that the party who signed the checks was not in and asked him to wait a few minutes. He was evidently disappointed at this turn of events and decided not to wait. When he departed he left a receipt for \$10 signed with a faint rubber stamp in the name of Peter A. Seddon, chairman of public utility committee.

One of the arguments advanced by the voice over the telephone for advertising in the Magistrates' Manual was that if the subscriber ever got into trouble he would be "taken care of."

Evidently the folks up this way were such a law-abiding set that they did not think it worth while.

HANDLE SNOW EFFICIENTLY IN RIVERTON

(Continued from Page 1)

of the diamond on Memorial Park for a game every Saturday afternoon during the summer. The team, he said, would not be made up exclusively of Riverton players this year, but that local talent would be used just as fast as it could be developed. All the players, he said, would be amateurs. After some discussion the matter of granting the desired guarantee as to the use of the diamond was left in the hands of the borough property committee.

A communication was received from J. L. Lippincott asking permission to use fire retardant construction instead of asbestos or other fire-proof materials on a garage attached to a dwelling which he is building. He submitted a sketch of the structure and described in detail the form of construction he desired to use, which was approved by the State Board of Fire Underwriters. A resolution was passed authorizing the building inspector to permit Mr. Lippincott to proceed along the lines indicated in his communication.

The following bills were ordered paid:—

Borough Property
Robt. H. Clelland, Storage, \$21.00

Newcomer Hales Howl
Riverton, N. J., February 11, 1926.

To the Editor—

I read many things of general interest in your paper. It has been very valuable to me as a new resident. One can't refrain from considering some things other than come.

Our borough fathers passed an ordinance for the removal of snow from the sidewalks. To the uninitiated this sounds reasonable and proper; but the fact remains there are a number of residences that have no walk. In winter it's slush or snow, and in summer it's either swim or wade in the mud.

The ferry controversy is amusing to a daily rider who has viewed personification of inefficiency in attempts to rebuild boats, and four months to make four dot holes for passengers, which are not completed to date. Seats are built after start about two seats per week.

If the ferry company can pay dividends under such management, it would be a good idea to handle on real business principles.

I am fed up on the two subjects and have to let go or blow up.

A FERRY COMMUTER.

BOY NARROWLY ESCAPES DEATH
Last week one of the Conwell boys was run over by an automobile. He also was injured but the lad escaped injury by lying flat on the ground and allowing the car to pass over him. It was only by the merest chance that he was not killed.

MRS. MARY YOUNG
Mrs. Mary Young, 57 years old, passed away at her late residence, 9 Morton street, Riverside, Tuesday evening.

The early part of last week she was stricken with paralysis and her condition declined rapidly.

The deceased came to Riverside from Camden twenty-two years ago and she was highly respected by her many friends and acquaintances.

She is survived by eight children, Charles, Mrs. Anna Keating, of Riverton; Mrs. Bess Young, Wright, Kansas; Helen, Lillian, Harry and Walter and three grandchildren.

Funeral services will be held at her home Sunday afternoon, The Rev. E. T. Butt, of the Zion Lutheran Church, will officiate, assisted by the Rev. Robert Standfield, of the Riverside Methodist Church.

Interment will be made in the family plot, Riverside Cemetery, under the direction of H. Stetwage, Funeral Director.

There have been forwarded to League Island Hospital, Philadelphia, 20 canteens in the past month. To the United States Veterans' Hospital, Augusta, Georgia, 20 canteens.

Twenty cases of assistance to ex-servicemen and their families were reported for January, food, clothing, medicine, rent, and in one case insurance being provided.

One death of an ex-serviceman; transportation to the funeral provided. Capt. James McFarland Post of American Legion also assisted in this case.

Washington appeals for Cape Cod, Bathhouse, Palmyra for hospital cases; and for layettes. The old well in the town is in the worst way by each branch according to the proportion of the work.

SNOW RAPIDLY REMOVED

Riverton's Sidewalks, Crosswalks and Gutters Quickly Cleared by Highway Department

The new equipment of the Riverton Highway Department had a good tryout over the weekend in the biggest snowstorm of many years, and handled the situation to general satisfaction.

The snowplow started out at 5 o'clock Thursday morning to clear the pavements, and by 7 o'clock they were opened up so that the early commuters could reach their trains dry-shod.

After the pavements had been cleared the shovel squad tackled the crossings and these were in good shape by noon. After this the months of the culverts were cleared so that the melting snow could run off. This was followed by opening the gutters with the gutter plow, built somewhat similar to the sidewalk plow but so constructed that it hugged the curb—throwing the slush and snow toward the middle of the street. It was 11:30 Sunday night before this work was completed and the water could flow off without flooding the pavements.

About half of all agricultural labor in Germany is done by women.

WESTLEYAN CLASS
"Jesus and the Resurrection With Washington and the Issues of Life," will be the subject to be discussed by the Rev. J. H. Whitton, the teacher at the meeting of the Wesleyan Bible Class at the Epworth M. E. Temple Sunday morning at 10 o'clock. All men are welcome. Come give your influence for Bible study and good character. Washington said it is impossible to rightly govern without God and the Bible," says the Rev. Mr. Whitton.

We shall not care so much why girls leave home if they will make an effort to get back a little earlier.

—New York American.

ADMINISTRATOR'S NOTICE
RULE TO BAIL
ESTATE OF ANNIE KIRBY SIMMONS
Notice is hereby given that an order has been made by the Surrogate of the County of Burlington, bearing date on the 1st day of February, 1926, upon the application of the undersigned, administrator, requiring the creditors of Annie Kirby Simmons, deceased, late of the County of Burlington, to bring in their claims against the estate of said deceased under oath of affirmation on or before August 1st, 1926, or they will be deemed to have waived their claims against the said administrator.

S. HOWARD TROTTER, Administrator.
Dated February 1, 1926. F-4-A-22

NOTICE OF SETTLEMENT
First and Final Account
Estate of John J. Adolph
Notice is hereby given that the first and final account of the undersigned, executor of the estate of John J. Adolph, deceased, late of the County of Burlington, will be audited and stated by the Surrogate and reported for settlement and allowance to the Orphan's Court for April 1st, 1926.

HELEN J. KAPUS, ELIZABETH C. BELL, Executrices.
Dated February 9, 1926.
Proctor, Joseph L. Thomas, F-11-A-11

AN ORDINANCE
An Ordinance to provide for the removal of snow and ice from the sidewalks of the Borough of Riverton.

I hereby certify that the foregoing ordinance was unanimously passed by the Mayor and Council of the Borough of Riverton at a meeting held at the regular meeting place of said Mayor and Council in Riverton, N. J., on February 6, 1926.

DANIEL M. CLIFTON, Borough Clerk.
The foregoing ordinance approved by me February 6, 1926.
FRED P. HEMPHILL, Mayor.

EAST RIVERTON NOTES

Mr. and Mrs. Harry Beach, of Bellevue avenue, are receiving congratulations upon the birth of a daughter.

Mrs. Joseph Grant and family spent the weekend visiting her mother in Philadelphia.

Miss Emma Countryman, niece of Mr. and Mrs. Fox, of South Warrington avenue, had a serious accident at the Riverside Jelly Factory, last week but is recovering slowly.

Albert C. Rush spent the weekend visiting his grandparents, Mr. and Mrs. I. D. Hill.

Edith Bowers, daughter of Mr. and Mrs. Cecil Bowers, of South Warrington avenue, is recovering from scarletina.

Young Wife Afraid To Eat Anything
"I was afraid to eat because I always had stomach trouble afterwards. Since taking Adierha I can eat and feel fine." (signed) Mrs. A. Howard. ONE spoonful Adierha removes GAS and often brings surprising relief to the stomach. Stops that full, bloated feeling. Removes old waste matter from intestines and makes you feel happy and hungry. Excellent for obstinate constipation. L. L. Keating, Druggist.

Palmyra Needs Ladder Truck

Palmyra Borough Council Urged To Help Company Get Added Equipment

Joe Stack appeared before Palmyra Borough Council Tuesday evening to make a plea for that body's cooperation in obtaining a ladder truck as additional equipment for Independence Fire Company. Mr. Stack is assistant chief of the company.

The fire at John Roushew's Tuesday morning demonstrated the need of ladder equipment, Joe said, as the only way the firemen could get at the blaze with their present equipment was to climb their ladders by dragging a heavy water-filled hose through the house and into the attic which was like an inferno with smoke and flames swirling about the faces of the fire-fighters.

Two men were arrested and had to be dragged downstairs by their companions. One time, however, said Joe, he found himself in the attic alone without anybody to carry him out in case he fell. He was nearly suffocated before relief came.

Would Cost \$3000

By the use of extension ladders which would reach sixty feet or more, a line of hose could be carried to the level of the fire before the water turned to steam. It could be anchored to the ladder by attachments already provided by the hose equipment and the fire could be fought without near as much danger as that attending the work of the firemen at the Roushew home.

A ladder truck carrying sufficient ladders, with a Scagrav's chassis such as the pump is mounted on, can be purchased for \$3,000, Stack informed Council.

The Mayor and Council seemed heartily in favor of the additional equipment, but Mayor Weart thought it best to hear what the people of the borough think about it before taking any direct action. Council is determined that the ordinance regarding the removal of snow and ice from sidewalks shall be complied with. Sidewalks of 50 different properties were cleaned off by the borough fire department during the two recent snows, many sidewalks having to be taken care of both times. Inasmuch as the names of the owners are not definitely known in some cases, final action was provided that not only shall the owner pay the cost of cleaning off the snow, but that a fine of \$5 shall also be assessed for the neglect.

Board of Health

The Board of Health reported issuing licenses for six plumbers and 15 milk dealers. There have been eight cases of measles, one of pneumonia and one of scarlet fever during the month.

The Roads and Streets department reported good work in cleaning off the streets during the recent snow, the sidewalk snow plow being out as early as three o'clock in the morning. There are lights to be placed, one near the Brehouse and the other at Broad and Morgan avenues. Overseer Land is in charge and one of the regular street force has been made foreman during his absence.

New salaries for Borough officers

new salaries for 1938 are as follows: Clerk, \$600, an increase of \$100; Borough Collector, \$500; Overseer of Streets, \$1600; Superintendent of Disposal Plant, \$1700, an increase of \$100; Chief of Police, C. Morris Nick, \$2000; Officer Joseph Rodgers, \$1800; Officer Nelson Wallace, \$1600; Officer Lawrence Betty, \$1600; Building Inspector, \$250; Overseer of the Poor, \$50. The salaries of the police officers have each been increased \$100 and that of the Chief, \$160.

After Carpenters

Building inspector Powell says some carpenters have been evading the law requiring permits for various jobs, chiefly inside work, and he promises trouble for them in case the practice is continued.

Disposal Plant

Superintendent Strickland reports that various foreign articles not intended to be sent through the sewers are showing up continually at the disposal plant and he begs the people to discontinue such a serious danger to the plant may result.

OPPOSES GASOLINE TAX

"An annual charge of one dollar for drivers' licenses would more than pay the entire cost of maintaining the New Jersey Motor Vehicle Department," is the statement made by Alfred N. Chandler, Chairman of the Manufacturers and Merchants Taxation League of N. J. continues, "The charge is now three dollars, and an additional charge averaging \$17 is made for each and every vehicle registered."

"Courts have held that whatever charge is made by a license bureau in excess of the actual cost of conducting the bureau is a tax. This tax, therefore, on the motorist's of the state amounted to more than \$14,000,000 last year."

"In addition, there is a Personal Property tax of more than a million dollars a year on all motor vehicles."

"Furthermore, motorists are paying a Federal tax on all new vehicles and on all accessories and parts. They are also contributing several hundred million dollars a year in excess rubber prices collected by the British to pay the British war debt to the United States."

"Regarding this last heavy taxation the proposal is made to levy a 12% tax at the rate of 2c a gallon on all gasoline bought in New Jersey, with the prospect of increasing it, as has been done in some states, to 30c, or 5c a gallon."

"All such taxation is a suppressive tax on industry, agriculture and trade."

"It is a recognized fact that it has not been improved roads in themselves that have caused the tremendous increase in the value of land throughout the state that has occurred recently, but the existence of the motor vehicles which have brought people and goods directly to localities hitherto remote. This tremendous increase in the value of land has not, as yet, reflected in the Tax Assessor's returns and instead of collecting more revenue from the increased value of the land, the popular notion seems to be to close the public eye to increased value and collect more and more taxes from that element which is creating the new value and developing the state."

MICKIE, THE PRINTER'S DEVIL

Palmyra Notes

Miss Irma Rich, of Parry Avenue, spent Sunday in New York.

Mrs. Stanley Green will entertain at a bridge luncheon to-day.

Miss Maria L. Gust has just returned from a business trip to New York.

Mrs. Mary King, of Cinnaminson avenue is ill at her home with infected hands.

Mrs. Harry Kemmerle is spending a week at Ventnor visiting her sister, Mrs. Jack Coyle.

Harvey Rogers, of Morgan avenue, has been enjoying a two-weeks' vacation at DeLand, Florida.

Mrs. and Mr. George J. Deel spent the weekend in Manalawney visiting their son, George Deel, 3rd.

Mrs. Elwood Haines, of Five Points, is in the Lankenau Hospital for an operation for gallstones.

Mrs. James E. Rawn entertained her college chum, Miss Alice Hareley, of Boston, over the weekend.

Miss Lydia Mervine spent the weekend with her uncle, Dr. Graydon D. Mervine, in Lock Haven, Pa.

Mrs. Albert Smith, of Stonehurst, and Miss Mary Kemmerle, of Ventnor, are visiting their father, Harry Kemmerle, Jr.

Mrs. Joseph Miller, of Delair, entertained the Junior Philathea Class, of the Central Baptist Church at her home on Monday evening.

Several friends tendered Miss Evelyn Waller a surprise Valentine party at her home on Parry avenue Thursday evening of last week.

The Thursday Hour Sewing Circle was entertained at the home of Mrs. Russell Hamelman, Columbia Avenue, Thursday evening of last week.

BILL BOOSTER SAYS

"CO-OPERATION IS WHAT MAKES THE 'TOWN GROW' TO WHAT MAKES FOLKS SHAKE HANDS INSTEAD OF FISTS! MULES CAN KICK AND PULL AT THE SAME TIME—NEITHER CAN ANY COMMUNITY! PROGRESS FOLLOWS CO-OPERATION AS SURELY AS A WAGON FOLLOWS THE HORSE ITS WHEELS TO."

Chain Letter Fanatics Busy

Mails Again Being Clogged By Superstitious "Good Luck" Missives

Again the mails are being clogged with useless bits of superstition. The "chain letter" fanatics are at it again and from all reports they are giving the mail carriers plenty of work.

Some are rather personal, tell from whom they received their letter and also attach their own signature to the letter, while others received are of the anonymous type.

One little miss who received a missive of "good luck" took it very seriously. The day she received the letter she was extremely busy and it was not until late in the evening that she had an opportunity to pen her reply.

Determined, however, not to have misfortune befall her, she "burned the midnight oil" in order that the chain would not be broken and then anxiously awaited the ninth day when Dame Fortune was to smile so brightly upon her.

And such good luck! The little lady says she never had so much "hard luck" as was crowded in that ninth day, her "lucky" one.

Following is the copy of one of the letters:

"Some one sent me this Good Luck Letter. I am sending it to you and ask you, as I have been asked, not to break the chain, copy and send to nine persons whom you wish Good Luck."

"This Chain was started by an American Officer in France and should go around the world three times. Do not break the Chain, for whoever does will have bad luck. Write nine letters within twenty-four hours. Count nine days and you will have Good Luck. It is positively remarkable how many times this prediction has been fulfilled since this Chain Letter was started."

"With success to you and yours, let us go smiling through 1938."

"From one who wishes you Good Luck."

BAPTIST CHURCH NOTES

Pastor Luckett moved into the parsonage on Wednesday and now becomes locally available to members of the church and congregation.

Telephone 402-2022.

James Thompson will teach the Thursday evening Bible Class to-night at his home, 708 Lincoln avenue.

"A day of prayer" will be observed by women of the Central Baptist Association Friday, February 19, at 2 p. m. in the First Baptist Church of Camden. All women are invited.

The "Happy Hour" children meet as usual at 4 p. m. on Friday in the church.

Activity increases in the Young People's Society every day as the big play, "Peg O' My Heart," nears the date of presentation in the Palmyra High School (Sat. Feb. 21). The cast is putting on the finishing touches and tickets are in active demand. Many good seats are still available, but the young people's advice is "Get them now!" "Peg O' My Heart" is planned to be the biggest and best entertainment given by a Baptist church organization for a long time, and the proceeds are for so long an object that the \$25,000 new church building fund.

Pastor Luckett will conduct both morning and evening Sunday services and will give an especially interesting address on Washington in the evening.

The regular monthly meeting of the Philathea Class will be held at the home of Mrs. Joseph H. Abill, 505 Garfield Avenue, Thursday afternoon, February 18, at 2:30. The business will be Mrs. A. J. Gibson, Mrs. Thomas Moore, Mrs. Joseph Wallace, Mrs. William Gorkin and Mrs. Abill.

Women used glass for windows in their houses in the first century.

Palmyra Scouts Have Big Week

Banquet of Boys and Their Dads Proves Biggest Fair of Celebration

The week of February 7th to 13th has now passed and was properly celebrated by the Boy Scouts of the Borough as the Anniversary Week over big.

Beginning Sunday, the 7th, a Flag Raising took place in the afternoon at which time the Artisans of Palmyra presented to the Boy Scouts of the Borough a storm flag to be flown each day from the Borough Flag pole. The Rev. J. B. Whitton gave the invocation and asked the benediction. The presentation speech was made by Harry Davidson and accepted on behalf of the Scouts by George Worley, member of the Burlington County Executive Committee from Palmyra.

The ceremony was in charge of R. E. Wilson, Chairman of the Court of Honor, and an address was made by Edwin Leas on behalf of the Borough. The troops attended church on Sunday evening and again on Monday evening they met in the Lutheran Church and as the Scout Oath was recited from WLT all Scouts again pledged themselves to the organization by once more repeating it.

The real and biggest time however was the occasion of the first annual banquet of the Scouts and their Dads. This affair took place on Friday evening the Methodist Church and was attended by at least 100 people. The dinner, prepared by a number of ladies and served by the Girl Scouts, was relished very much by all present and everyone who believes a good healthy boy is shy on appetite should have seen those Scouts get on the outside of the bountiful feast served them. Cake and ice cream disappeared like snow from the air during the hour. H. B. Wilson, Scoutmaster and the invocation was made by C. W. Hassell.

As a surprise to all present the toastmaster called on Walter Poulson, Patrol Leader of Troop No. 2 for an address and that Boy spent the evening speaking about Scout Work and what Scouting meant to him. The speech made by the lad was worthy of an adult and all present predicted a wonderful future after dinner speaker in his boyhood. Organized by the Scoutmaster and the Scout, James Davidson surprised the entire assembly by telling us of his first meeting with Genl. Baden Powell, the founder of the world-wide Scout movement. This happened in London long before the Scout work was started and Mr. Davidson's next meeting with Sir Baden Powell was during the Boer War in South Africa, where with only his Scout training he held the post assigned to him against tremendous odds. All the boys young and old sat spell bound listening to Mr. Davidson's most excellent talk.

James H. Ingram, another dad of a Scout, talked on Obedience and cited instances where immediate obedience meant the safety of lives of many people. The toastmaster then sprang another surprise on all assembled by calling for a speech from Spencer Davidson, Acting Scoutmaster of Troop No. 1. This lad also interested his hearers with his talk on Scouts and Scouting. Mr. Davidson's introduction were full of wit, admonitions and humor and were well appreciated. C. O. Melcher, member from Palmyra of the Executive Committee of the Burlington County Council, spoke on the benefits of Obedience and what the County Council has done for the Boy Scouts of Burlington County.

HOW GREAT MEN MAKE LOVE

AS REVEALED BY THEIR LOVE LETTERS

By JOSEPH KAYE

(By Wheeler Syndicate, Inc.)

DANIEL O'CONNELL AND MARY O'CONNELL

THE following beautiful expression of love was written by the great Irish patriot, orator and lawyer, Daniel O'Connell. To his sweetheart, No. 1, to his wife, after twenty-three years of married life. And it is but one of many such epistles, written up to the end of the O'Connell's thirty-three years of happiness together.

"My own and only love, I was Kate (his daughter) that wrote the letter I got this morning, and I do most tenderly, tenderly love Kate. Yet, sweetest Mary, I could have wished to see one line also in the handwriting which gives me recollections of the happiest hours of my life and still blest days with irrepressible sweetness and comfort when sweetest, darling, are separate. All the romance of my life envelopes you and I am as romantic in my love this day as I was twenty-three years ago when you dropped your soul unwilling hand into mine.

"Darling, will you smile at the love letters of your old husband? Oh, no, my Mary, my own Mary will remember that she had the fond and faithful affection of my youth and that if years have rolled over they have given us no cause to respect or love each other less than we did in early life."

O'Connell's "own Mary" was his cousin, Mary O'Connell, whom he married when he was twenty-seven.

There are 2,000 true love letters in this.

KEEPING WELL

DIABETES ON THE INCREASE

DR. FREDERICK A. GREEN

Editor of "HEALTH"

SO MUCH has appeared in the newspapers during the last two years about diabetes, fasting and his insulin treatment for diabetes that many are under the impression that this disease has been practically wiped out or will disappear in the near future.

This is a grave mistake. Insulin is in no sense a cure for diabetes. It is merely a substance which enables the diabetic patient to live a little longer than he otherwise would. It has no effect, so far as we now know, in preventing the disease itself.

While diabetes has been known ever since the time of Hippocrates, it is probably more common today than ever before and is constantly increasing. Our statistics on diabetes are so recent as to give us little information regarding their frequency except that about a hundred years ago but we do know that diabetes is much more common today than it was even a few years ago.

New York city was one of the first communities in this country to keep any records regarding the causes of death. In the late 1800s, just after the close of the Civil war, one death from diabetes occurred in every 2,400. In 1928, there was one death from diabetes in every 81.

An diabetes is not a contagious disease but is due entirely to personal habits, probably largely to diet, this increase must be due to some change in our manner of living. In a recent issue of the Survey Dr. Haven Emerson shows that the increased use of sugar is probably responsible. Fifty years ago sugar was a luxury and was eaten in comparatively small amounts. A few pieces of barley sugar or a little home-made molasses lolly was about all the candy available for children. Adults used small amounts of sugar on their foods. Today, there are candy stores on every corner, lunch room and hotel lobby. The consumption of soft drinks, ice cream and other sweet things has enormously increased. The average amount of sugar eaten today by the American people is far beyond that of any other period in the world's history.

Now, sugar, itself, is an excellent food but we are consuming today more sugar than ever before in our food, with candy, sweet drinks and ice cream, thrown in for good measure. The discovery of insulin has done much to diminish the amount of fatalities. Only sensible regulation of our diet can do this.

AMERICAN MAGAZINE and Woman's Home Companion for \$5 both to one address, for one year. Other magazines at club prices. Elizabeth Bowen, Riverton. Phone 751 and 712.

Slants on Life

By J. A. WALDRON

Paring His Expense Account
THE Rineharts were at breakfast. The wife had not been at work as usual.

"Anything the matter, dear?" asked Mrs. Rinehart.

"Lots of things, always, Lavinia."

"Well, what is the particular thing this morning? You look as though you were harboring an embryonic grudge. Better scorch it before it develops."

"I will. When I made you an allowance I asked you just how large it should be."

"Your memory is faulty, Benjamin. You asked me how much it should be. Not in those words, of course. What you really asked was that I should tell you the least I could get along with for personal expenses—how much a month. You said you had to have a lot of money at work in business. Am I right?"

"Your mind, Lavinia, is exact as to some details though a bit lax as to others. You haven't a shrewd business sense. I suppose you remember what you replied. 'My dear, you said—and I remember you looked charming as you said it—I think I can get along nicely on a thousand a month.'"

"I remember. And you were generous enough to respond: 'My dear, I'll make it \$1,200 a month.' You've always been a liberal darling." She went over and kissed him, and then went back to her coffee.

"Thank you. But why should bills like this be sent to me?" He handed her a paper. "That calls for \$100 for three hats. Aren't hats related to your personal expense?" She looked at the bill. "But I was short, Benjamin. I had spent all my money. And the one thing you warned me about was my bank account. 'Never, in any case, overdraw,' you told me."

"I'm glad you remembered that. But you'll have to pay this bill out of your next month's allowance."

"Oh!" She thought a moment.

"And I wanted to go shopping today!"

"I saw a Policeman Standing by My Car."

"But tomorrow is the first of the month. Can't you postpone your excursion?"

"She thought another moment. 'It's a bargain sale. And tomorrow I might not find a bargain.'"

"Well, I'll lend you \$100 until tomorrow. He wrote a check and passed it over. 'But you must pay me from your allowance.'"

"What a dear you are! But I saved you \$25 yesterday, so I'll pay you back \$75."

"Saved me \$25? How?"

"It was the funniest thing! But it proved that I have an alert business sense, though you say I lack it."

"I'm anxious to be convinced as to that."

"You know when you bought my limousine you said it was a present, and you agreed to keep it up if I would learn to drive it."

"Yes."

"Well, I went shopping yesterday."

"Another bargain sale?"

"No. Just shopping. Though I did buy a new costume. That's why I'm short."

"But how did you save me \$25?"

"It was the strangest thing! I left my car in front of Blighley's, where I bought my costume. I was in the shop quite a while. When I came out, just as I was in the doorway, I saw a policeman standing by my car. I stopped, a little frightened. Thought something was wrong. I waited for him to go away."

"Just happened to be standing there, I suppose."

"I thought so, but he didn't go. Then I began to think. All at once the truth dawned on me."

"Well?"

"I remembered reading there is a fine of \$25 for leaving a car within a certain distance of a fire plug."

"And you had violated the ordinance, of course."

"Well, there was a fire plug right by my car!"

"You got in bad, Lavinia. Paid the policeman, I suppose! That would be the woman's way!"

"Wait. I took a street car home, leaving the policeman on guard. When I got home I called up police headquarters and told them my car had been stolen, giving them the number, etc."

"What a nerve, Lavinia!"

"Just good business, Benjamin. I waited a while, and they phoned that my car had been found standing in front of Blighley's and in an hour a policeman drove up with it."

"And that's—"

"Yes. That's the way I saved you \$25, dear!"

The Better Business Bureau of New York City is pushing a bill at Washington to punish severely all bribery in business such as commissions to employees for buying at certain stores and so on.

Heat by radio, says Professor Hilde of Carnegie Institute, Pittsburgh, while still merely in the thought stage is just as probable as the present broadcasting of sound waves. Well, we're ready for anything to beat the coal strike.

Prohibition was adopted in the District of Columbia in 1917 by act of Congress.

Hen's Own Egg Factory Is Run Like Real Plant

IT'S A whole egg or none for the hen, according to the Larrow Institute of Animal Economics. Being an honest manufacturer she does not make half an egg. Her egg "factory" is run like a real plant. When the yolk is made it is then passed into another department where it is surrounded by white, then into a third where it is encased by a layer of the purest form of carbonate of lime, forming the egg shell, after which it is ready to greet a hungry world.

The average hen lays about 72 eggs a year, mostly during warm weather. She should manufacture twice that number, insists the Institute's experts who, in experimenting with hundreds of laying hens, discovered surprising differences in the number of eggs produced by various poultry flocks. If the hen's egg-making apparatus fails to work up to a standard of efficiency it is probably not the hen's fault, but rather that of the poultryman who unknowingly does not provide her with the food material the hen requires to keep all three egg-making departments working full time. When the hen is fed sound grains and an efficient mash containing egg-making nutrients that make for the greatest efficiency in her plant, she can't help but make eggs! Feed is the most important single factor in egg production. It is also the biggest item of cost. Profitable results cannot be secured with poor rations.

In addition to providing the best rations for egg production the wise poultryman will watch his flock, to continuously cull out the naturally poor layers, thus building up a flock of heavy-laying fowls. Every effort should also be made to see that the hens are comfortably housed, especially in winter, because dark, damp, dirty quarters may nullify all the advantages resulting from culling and better feeding.

Suspensions About Wall Street and How They Arise

By FRANCIS H. SISON, President

Trust Company Division, American Bankers Association

WOULD-BE economists, political orators and the general public make frequent positive assertions about the functions of Wall Street without any realization of what constitutes Wall Street or what purpose it serves. Lack of knowledge breeds suspicion. Yet it is not difficult to understand the nature and function of Wall Street. Let us set down a few of the facts which account for the existence and nation-wide, as well as international, services of Wall Street.

There are 316 banks in New York with combined capital and surplus of about \$1,400,000,000. Their deposits aggregate over \$11,500,000,000, and during 1924 their total volume of business reached nearly \$250,000,000,000.

The New York Stock Exchange in 1925 sold 469,000,000 shares of stock and in 1924 \$3,828,000,000 worth of bonds. Wall Street is the national credit and money market.

It is just as essential that there be markets for money and for stocks, bonds, mortgages and other securities as for cotton, corn, tobacco, wheat, hogs and other commodities.

If Wall Street Were Destroyed

Wall Street is the natural evolution of the forces of trade and finance. It exists because there is imperative need for it in the nation's business. If some cataclysm should destroy the financial district of New York we would see frantic efforts to re-establish it so that trade and industry could continue. If the production and marketing of agricultural and industrial commodities did not need such a financial institution, Wall Street would not exist.

We depend upon the farmer to help maintain the general level of prosperity. Wall Street as a money market is called upon to finance the growth and marketing of farm crops. Many Wall Street bankers were born and raised on farms. If they were not thoroughly familiar with agricultural requirements, they could not hold their present positions in the financial world.

In the period of deflation, Wall Street suffered proportionately as much as the farmer. The aggregate losses of Wall Street banks amounted to a staggering sum. Wall Street is not an independent institution, but an organic part of the country's business system, necessarily reflecting the ups and downs of business.

Four Billion Dollars

An approximate estimate of the main items in Wall Street's financial operations in handling farm crops shows that New York banks for the purpose of agriculture put out some \$4 billion in loans to the value of one billion dollars. And bankers' acceptances or another billion, by commercial paper such as cattle and sheep loans or a third billion and carry balances of country banks for a fourth billion. Thus Wall Street furnishes a \$4,000,000,000 river of credit annually to produce farm products and host them to market.

The outworn flow to rural banks enables them to make the required advances on farm crops and for warehousing and handling cotton, tobacco, wheat, raisins, prunes and countless other products. Outside of his own personal efforts on his farm, Wall Street is the biggest single factor in the prosperity of the farmer. After these commodities have been moved to market, the money used in handling returns to Wall Street for investment. New York is the largest security market in the country and offers a use and market for the idle capital of the rural banks between crops.

Funds from every part of the country flow to New York, attracted by the greater opportunity for their profitable use found in this center. Thus the accommodations of deposits are large, and in turn the openings for the useful employment of these funds in

The United States Treasury estimates that more than \$400,000,000 is hoarded in stockpiles, old sugar, hogs, turkeys, and old-fashioned cupboardware, or otherwise kept out of circulation in the United States.

Nearly 100,000 goats, 5,000,000 horses and cattle, and 6,000,000 sheep are now standing under permit in the National Forests of the United States.

the facilitation of trade, industry and investment are upon a correspondingly ample scale. It is clear that these funds must be employed sanely, constructively and to the real service of the business community. Otherwise they would inevitably soon be withdrawn.

Huge Investments Help Farmers

These huge investment operations in Wall Street are of significance to the farmer. Much of the \$10,000,000,000 invested in farm mortgages was advanced by Eastern financial institutions. In no sense is Wall Street's interest in agriculture local or sectional. The main function of New York financial institutions is to send money where it is most needed.

Another service rendered to agriculture by Wall Street is the purchase of Farm Loan bonds, Joint Stock Land bank bonds and the debentures of the Intermediate Credit Banks. There is a total of \$1,451,800,000 of this paper outstanding, of which New York banks took about one billion.

Wall Street loans to country banks are made at low rates, usually below 4½ per cent. The local banker's rates to his customers are adjusted to local conditions, which cannot justly be laid at the door of Wall Street.

General financial service to other industries related to agriculture also helps the farmer substantially. Wall Street loans to the packers, railroads, millers and farm-machinery manufacturers to help them serve agriculture.

Wall Street is as necessary and serviceable in the handling of credit and capital as is the cold-storage plant in caring for seasonal perishable products. The necessity of such a credit center in a country with a \$60,000,000,000 annual business is obvious.

What the People Want

Every great international bank in New York maintains close relations with thousands of other banks in the United States and in every foreign country of any importance. The movements of commerce and investment are supported upon this international system of domestic and foreign banks. Thus it comes about that the products of the farm, factory and mine are financed by these banks all the way from the producer to the foreign consumer.

Wall Street in the discharge of its true functions as the nation's reservoir of capital and credit includes the whole business community in its field of operations. Its control lies with the people. Their demands govern it, and their presence or absence from the market determines its trends.

Wall Street prospers as farming and industry prosper. Its service is to the people of the whole country and, for them, to the people of other countries. It is the direct reflection of American agriculture, industry and commerce.—From the Country Gentleman.

HOW GREAT MEN MAKE LOVE

AS REVEALED BY THEIR LOVE LETTERS

By JOSEPH KAYE

(© by Western Newspaper Union)

MARK TWAIN AND OLIVIA LANGDON

ON THE thirtieth birthday of his wife, Mark Twain sent her this charming and heartfelt letter:

"Hartford, Nov. 27, 1873."

"Livy, darling, six years have gone by since I made my first great success in life and won you, and thirty years have passed since Providence made preparation for that happy success by sending you out in the world. Every day we live together adds to the security of my confidence that we can never any more wish to be separated than we can imagine a regret that we were ever joined. You are dearer to me today, my choice, than you were upon the last anniversary of this birthday; you were dearer then than you were a year before—you have grown more and more dear from the first of the anniversaries and I do not doubt that this progression will continue to the end."

Let us look forward to the coming anniversary which will open and gray hairs without fear and without depression, trusting and believing that the love we bear each other will be sufficient to make them blessed."

"So, with this abounding affection for you, and our babies, I hall this day that brings you the matronly grace and dignity of three decades."

"Always yours,"

"R. L. C."

The first great success which Clemens refers to in this letter, was "The Innocent Abroad," which was published during his engagement to Miss Langdon and which, on his wedding day, brought him a present from his publishers of over four thousand dollars, the accumulation of three months' royalties.

Mark Twain fell in love with Olivia Langdon before he saw her. He was traveling home on board ship when he met a fellow traveler who happened to show him one day a miniature portrait of his sister. The picture fascinated the author and he soon found himself in Elmira, N. Y., to visit the original of the portrait. His engagement to Olivia Langdon followed.

That popular phrase of novelists and poets, "She was my severest critic," could very properly have been applied by Mark Twain to his wife. She was his editor, and a strict and impartial one. Before their marriage, she corrected the proofs of "Innocent Abroad" and weeded out many passages which were not in the best of taste and later she stood judgment over his literary ideas and curbed his sometimes unruly and grotesque inspiration. Once he secretly set to work on a delectable piece which he chuckingly called "The Autobiography of a Damned Fool," and thought he had created a masterpiece of humor and satire. But it hastily went into discard—"Livy wouldn't have it!"

ALONG LIFE'S TRAIL

By THOMAS ARKLE CLARK

Dean of Men, University of Illinois.

ROSES AND SWEET HONEYSUCKLE

WHEN grandmother was a young girl she lived in England, but saw little of the country. It was in London and Liverpool and Newcastle amid the smoke and confusion of its collieries that she grew up.

When she and grandfather came to America in 1840 they bought a little farm, and grandmother for the first time in her life had a garden. Behind the quaint house which grandfather built there were quantities of fruit trees, and gooseberry and currant bushes, and grape vines clambering up long trellises, and all sorts of other delightful things growing.

The path in front of the house led through a beautiful garden down to a winding road.

It was grandmother who looked after the flower garden. There were clumps of iris and fragrant lilacs and flowering currants which sent sweet, pungent odors over the place in the early spring, and on the porch was a riot of honeysuckle, and in one corner of the garden a tangle of bush roses. Grandmother tended the garden carefully while she lived, and it brought joy and satisfaction to everyone who saw it. The borders were always in order, the shrubs were carefully trimmed, and the beds were as neat as grandmother's hands could make them. But grandmother died forty years ago and her garden fell into careless hands.

I passed the old place this summer. The winding road is overgrown with weeds and has been almost abandoned. The orchard and the house have disappeared entirely, and wheat is growing where grandmother's grapevines and gooseberry bushes once flourished. But the site of grandmother's garden I can still distinguish. Under the friendly protection of the old fence that marks the boundaries of the little farm the bush roses that she planted nearly seventy years ago are still blooming, and over the fence the sweet honeysuckle is clambering.

"The evil that men do lives after them," Shakespeare says, "the good is oft interred with their bones." Perhaps. But sweetness and beauty and goodness seem to me as persistent as evil. Every good deed we do, every helpful word we utter, every worthy example we set are like grandmother's roses and sweet honeysuckle. (© 1925, Western Newspaper Union)

"Pangloss, Greek Dictator, falls All Opponents"—headline. Sounds familiar, yet Judge Gary came back from sailing on Marmora, Italian dictator, saying he was quite a nice man and was performing a service that might be good for any country.

Speaking of scalp treatments, we observe this difference. The modern woman has to have a great many, whereas the aborigine, or our fore-fathers upon whom they practiced, usually found one treatment sufficient.

Flowers are cheap in Japan.

FEBRUARY 18, 1926

No. 9

Valentines for the Near East Relief. About one week ago the pupils received a letter from the Near East Relief asking us to fill valentines for them. Each valentine was to contain seventeen cents, which would be sent to the Near East Relief. The pupils gave their orders for the valentines to the teachers and they were then reported to Miss Chew. Miss Chew sent the money to the Near East Relief. It amounted to \$35.11.

Gertrude Burr, Grade 8.

Boy Scout Week

The week of February seventh was Boy Scout Week. Monday of that week was the sixteenth anniversary of the Scouts. The Eighth Grade took charge of assembly on February fifteenth. There were several recitations from the children for Lincoln's Birthday.

Monday, the eighth, at eight fifteen, all the Scouts of America came to salute and repeated the Scout Oath and Law. If seventy-five per cent of each troop were present in their meeting place to repeat the oath and laws, the troop was given some points toward winning a trophy flag.

Henry Seabrook, Grade 8.

Lincoln's Birthday celebrated in Assembly on February 13th. The assembly in memory of Lincoln held on February 13th, February, was taken charge of by five Scouts of the Eighth Grade. Complete charge of the program was given to them.

The following recitations were given: "Stones from Life of Lincoln," by four boys of the Third Grade. "Quotation from Emerson about Lincoln" Third Grade class. "Abraham Lincoln" Esther Shock, Fifth Grade.

"Piano Solo," Cecil Guest, Sixth Grade. "Lincoln Triumphant," Jack Barr, Seventh Grade.

"Abraham Lincoln," Nan Evans, Seventh Grade. "Lincoln, Man of the People," Doris Clark, Eighth Grade.

"Lincoln's Birthday," Helen Elliott, Eighth Grade. "Lincoln's Christmas," Helen Pratt, Eighth Grade.

"A Poem of Lincoln," Mary Wagner, Eighth Grade.

Ask Support of Truck Movement

Chief Beck and Joseph L. Stack Make Plea For Fire Company

As the Fire Company's annual drive for funds and the request for extra equipment is put before the people of Palmyra many ask, "What benefits do the firemen receive?" The answer is, they receive more and it costs the firemen more money for his protection than it does the average taxpayer.

Years ago members of Independence Fire Company were allowed a \$500 tax exemption. Later the Borough authorities repealed the exemption act and allowed each active man \$12 a year for his services. This money, instead of going into the pockets of the members, is turned over to the company to help with the maintenance expenses.

While the taxpayers are requested to become contributing members, and pay one dollar a year, each, the firemen hand over their \$12 compensation, pay annual membership dues of two dollars and pay fees which average about one dollar each per annum. Therefore, the cost to each fireman is fifteen times greater than that of other residents.

In addition, the boys risk their lives. Many firemen are killed, receive injuries that they carry through life and often contract severe illness while exposed to the bitter cold weather battling the flames winter night. As members, they are compelled to drop their work at any hour of the day or leave their home at any time to answer the call to duty—to fight for the protection of some citizen's home.

Therefore, no one could conscientiously accuse these men of personally benefiting by membership in the company and when they ask for funds for additional equipment or maintenance costs, it is for your protection.

Being familiar with the existing conditions and necessity of a hook and ladder truck, we ask the support of our townspeople in the movement. It is absolutely necessary that we have the truck, for at the present time the longest ladder owned by the company will not reach the roof of a two-story house.

It is not always possible to fight a fire on the inside and what would be the result if one of our three-story buildings were burned? We couldn't reach it on the outside.

Will you support the movement, give the firemen and every home owner in the town added protection?

C. Morris Beck, Chief.

Joseph L. Stack, Assistant Chief.

FIREMEN BATTLE MORNING BLAZE

(Continued from Page 1)

As the water would splash on the firemen it froze almost instantly and the clothing of those who did not take time to put on their heavy rubber coats and boots was a mass of ice.

Chief Beck in discussing the fire said "That was one of the worst fires we've had in a long time and our boys certainly deserve a lot of credit for the quick and efficient manner in which the blaze was conquered. When we arrived it looked almost impossible to save any portion of the house for the flames had gained a big headway."

Need Ladder Truck

Councilman George N. Wimer said "The blaze today showed the dire need of Palmyra Fire department for a ladder truck. With ladders the firemen would not have had to risk their lives fighting their way to the third floor through the interior and they could have made

"The Gettysburg Address," Eighth Grade Class. "Captain, My Captain," Irene Stipple, Seventh Grade. John Pailer, Grade 8.

Needwork Guild

In the earlier part of the school term Riverton Public School decided to have a Needwork Guild Club of its own.

We had an election with results as follows:—

President, Florence Loehowitz. Vice President, Betty Elinger. Secretary, Lenore Showell.

Treasurer, Mary Wagner. Our meetings are held on the second Friday of every month from 3.30 o'clock until 4.00 o'clock.

Miss Chew is present at our meetings. In order to become a member of this Club, you must donate two articles that would be useful to children. The Eighth Grade have made useful things for babies.

There are twelve girls in our Club and each girl has made or has nearly finished making a tiny baby's outfit. The next articles to be made are tiny booties which are also made of flannel.

Florence Loehowitz, President.

Fathers' Night

Fathers' Night was held at the Riverton Public School on Thursday evening, February 11th. Mr. Milt. Toner's orchestra gave many selections. There were many songs by some of the pupils of the Sixth, Seventh and Eighth Grades.

Mr. Paine of the Victor Talking Machine Company, gave an interesting talk on emphasizing the cultural subjects in the curriculum.

Miss Chew then gave a short talk about the value of education to the child before reaching the age of sixteen.

Coffee and doughnuts were served by the Eighth Grade girls who made the doughnuts. The grade having the largest percentage of Fathers present received a picture for the room.

The number present were:

Fathers, 128; Mothers, 101.

Percentage of attendance was:

Fathers 36.5%; Mothers 29.1%.

The highest percentage of attendance was in the Seventh A class.

The next highest was in the First Grade Room.

HOW GREAT MEN MAKE LOVE

AS REVEALED BY THEIR LOVE LETTERS

By JOSEPH KAYE

(© by Wheeler Syndicate, Inc.)

WILLIAM LLOYD GARRISON AND HELEN BENSON

THIS ideal wife for Garrison, the American reformer, is stated by him as follows, in a letter to his brother on the first anniversary of his marriage to Helen Benson:

"I did not marry her expecting that she would assume a prominent position in the anti-slavery cause, but for domestic quietude and happiness. She completely absorbed me in that cause that it was undoubtedly wise in me to select as a partner one who, while her benevolent feelings were in unison with mine, was less immediately and entirely connected with it—she is one who prefers to tell unseen—to give by stealth and to sacrifice in seclusion. By her unwearied attention to my wants, her sympathetic regards, her perfect equanimity of mind and her sweet and endearing manner, she is no trifling support to abolitionism. Inasmuch as she lightens my labors and enables me to find exquisite delight in the family circle, an offset to public activity."

Garrison's letters to his wife, therefore, are not of the kind that search the paper with their intensity. Before their marriage, he writes, "Hitherto having none to care or provide for but myself, I have felt contented in merely getting my daily bread. But duty to myself and to you requires that I should make such arrangements with 'The Liberator' as shall afford me, in moderate, at least a sure income. . . . This salary ought to be no less than one thousand dollars a year, for my editorial abilities will readily command more than that sum if devoted to politics or literature. Still, I shall be satisfied with \$800 for the present."

Another of the Garrison love letters begins as follows:

"Yesterday (Sabbath) forenoon I concluded not to go to church, because to confess the truth, I had not replaced my torn pantaloons, and as the weather was too warm to justify the wearing of a cloak. . . ."

KEEPING FIT

Public Service Tells Employees of Relation of Their Health to Their Job

The Public Service Railway Company is issuing a series of bulletins to its employees on "service," Bulletin No. 12 is no good, and so well applied to every employee in every business, that it is reproduced below.

Executive Bulletin No. 12

YOUR HEALTH

February 8, 1926.

To All Operators:

Your health is a matter of prime importance, not only to yourself, and to your family, but to your company as well.

You are worth twice as much to everyone concerned, and that includes first of all, yourself, when you are feeling strong and vigorous, as when you are feeling sick.

You were physically fit when you entered Public Service employment. Your physical examination showed that; and keeping in good health is largely a matter of taking proper care of yourself—eating, sleeping, the right kind of food and common sense, in regard to dress.

I have asked one of our Company doctors to give me a few simple rules for keeping well, and I am transmitting them to you, in the belief that they will be of benefit.

The doctor says:—

1. Sleep eight hours a day.

2. Take time enough for your meals. Get up early enough to eat a good breakfast.

3. Keep your feet warm and dry.

4. Drink lots of water.

5. Leave alcoholic beverages alone.

6. Don't neglect a cough or cold.

7. If you have a fever stay home and call a doctor.

8. Don't take medicine intended for someone else.

This is all good common sense; none of the rules impose a hardship, and there is no reason why each and everyone of us shouldn't observe them.

With your attitude towards your family with your attitude towards your family, your friends and your job, that is the best way to keep fit.

M. R. BOYLAN, Vice President in Charge of Operation.

\$700 FOR FIREMEN

Drive for Contributing Membership Expected to Reach \$1,000.

Mayor James T. Weart, chairman of the committee, reports the Palmyra Fire Company drive, for contributing membership has netted approximately \$700 to date.

None of the town's organizations which are regular contributors have made reports yet and the committee is confident the \$1,000 mark will be passed before the drive closes.

Each resident of the town is requested to contribute one dollar a year for the support of the splendid Palmyra fire department. Many have made their payments although there were some few who were not at home when the firemen called to collect the funds.

The mayor says any of the late donations may be sent to him.

Madeline Rice, Mary Wagner.

The third grade has a newspaper. It is called "The Third Grade News." We get the news from boys and girls. They tell what the weather is like. I have written in the newspaper twice. Once was about a bulb that had a flower on. The other time was when I had a good English paper. John Warren stayed last night to paste another sheet on the newspaper and Newell helped him.

Edwin Moore, Grade 3.

Our Hand Table

Milkville is a town of milk houses. The trees are apple trees. We have a house with toothbrush guards. We have a pure white cow, and three black and white cows. We have cliffs with a valley with a stream of milk flowing in between. There are a few healthy children.

In Bathville we have a sponge hedge and a few houses. We have soap and here and there are wash-rags for carpets.

Jack Geiss, Grade 3.

Our Sand Table

Our Milkville has milk bottles for houses. They are painted white and the windows are black. There are people in cows. We have grass in the pasture.

Bathville has bathtubs. We have toothbrush guards.

Robertson Coe, Grade 3.

Our Journey

In the Fifth Grade we have made travel books. We call these books "My Journey." They tell about the states we have studied. They also tell about the important cities. They are very interesting. We should like to have people come and see our books and offer their criticisms.

John Foster, Grade 5.

Geography in Sixth Grade

Today the Sixth Grade had two lessons using the lesson slides. The A Section's lesson was "Recony of Switzerland." These pictures helped make the places more real. The B Section's lesson was "Places of Interest in Germany." The A Section visited the B Class during their recitation.

Ella Russell, Grade 6.

Slants on Life

By J. A. WALDRON

Reconciliation

say I wish going to separate. It is a night as well happen before we unpack and set things to rights," said Hardleigh.

"It would have trouble of my packing up again surely," replied Mrs. Hardleigh. "But you know, there are some things that can't be set to rights."

"There you go! Well, let's have it out and done with it."

They had returned from a summer's travel. When they set out, their luggage had been plastered with foreign labels, which were now covered with torn cosmopolitan signs of touring through various resorts of the Pacific coast to Honolulu and back. They had escaped the hardships that European travelers sometimes encounter, but they had picked up points of national difference on the way.

"There's no need to go over what we've already talked about to no purpose, I suppose," said Mrs. Hardleigh. "We've been gone four months. We went away quite well satisfied with each other, separately, and come back quite dissatisfied with each other. What's the logical solution?"

"Divorce. There's no other."

"Perhaps."

"Perhaps? Why, didn't we encounter young Frothman wherever we went? He hung to us like a bill collector. Stopped invariably at our hotel. He managed to know where we were to put up in a lively element of suspicion alone—and you moaned with him wherever the moon was visible, and danced with him wherever there was a floor and music. And you remember, don't you, that in Honolulu I discovered you with him—"

"In a boat. Terrible, wasn't it? And Mrs. Hardleigh laughed as though she enjoyed the memory.

"Well, I shall sue for a divorce," And Hardleigh looked it.

"But you'll have trouble making out a case. And what of my side of the matter?"

"Your side! Haven't I been a model husband? You never found me talking in tender tones to any woman."

"I never tried to. But from the time we started out until this moment

"Well, I'll sue for divorce!"

you've played golf. Where there was no golf course, you borrowed every man who ever saw one and talked in an unknown tongue—unknown to me. You ate golf, drank golf and slept golf. I might as well have been married to a golf stick. Do you know you haven't kissed me a dozen times in four months? And even now you have your golf kit in hand, impatient to get out and swear at the balls of your luck."

Hardleigh dropped his kit in amazement. "Why didn't you object, then, to my playing golf?"

Mrs. Hardleigh laughed with a satisfied note. "Object? Why, I think the average man who plays golf would consider that alone ground for divorce."

"Forgive me, Abigail," said Hardleigh, taking her in his arms with a kiss. "I'm a brute! And you don't care for that young puppy?"

"You mean Frothman? What a question!" And she kissed him back.

"And you don't mind if I run out to the Delirium course for the rest of the day, while you get the luggage to rights? I'll stay in this evening, dear, and we'll make up our foolish differences."

"Of course I don't mind, dear."

And Hardleigh was off in a dilly. He hadn't been gone ten minutes before Mrs. Hardleigh, at the telephone, invited Jack Frothman down to help her get the luggage to rights.

(Copyright.)

ANCIENT CARVED SHILL

Archaeologists, excavating in Arizona, recently unearthed a carved shell bearing a reproduction of the Masonic square and compass. The symbol, which was discovered in an old red trail mound just east of the reservation, is believed to be at least eight hundred years old. It is thought to have been deposited there by Indians centuries before the discovery of America. The region adjacent to the locality where the symbol was found was early inhabited by the Pima tribe of Indians, the descendants of which now live on a reservation near Casa Grande. While the symbol is said to possess all the characteristics of the Masonic emblem, Masonic officials of Pennsylvania doubt that it possesses any Masonic significance.

Still, your parents know nothing of child psychology, and look how wonderful you are—Cedar Falls Record.

The potato and the lump of anthracite can't pass each other going into the basement without smiling—Milwaukee Journal.

Air mail carried 140,000,000 letters in three years and lost only one in 30,000, or one-half as many as the railroad, while in Columbia in five years there has been no loss.

"The Voice with the Smile" in Japanese

Telephone operators in Japan are attempting to give the same grade of telephone service as our own operators in America. The sign in the upper corner of the illustration reads, "Speak pleasantly," which is the Japanese version of America's "the voice with the smile wins."

Local Boys Also Trim Moorestown in Thrilling Basketball Contest

Sports team work coupled with Jack Baker's scintillating performance and uncanny eye for the basket enabled Palmyra High to score another triumph on the basketball court with a 23-10 victory over Mount Holly High at the local gym Thursday afternoon of last week.

The first occasion in several years on which Palmyra and the boys from the county seat have met was marked with a bang-up game, but showed Palmyra to have a marked superiority over her former rival.

With her usual fast game Palmyra jumped in the lead in the early moments of play and half-time found the Mooremen on the husky end of a 3-4 count.

Romping about in his usual quick and shifty foot-work which quickly has the ball beneath the basket, Blake ran circles around the visitors. His brilliant caging of field goals was the feature of the game. The star forward caged nine of Palmyra's ten double dunks. McKee dropping in the other Kingsdon, with a pair of two-timers, capped the offensive honors for the Mount Holly passers.

A large crowd was on hand to

TRouble-MAKERS FOR TELEPHONE MEN ARE LEGION

They Include Everything From Swarming Bees to Dragging Ship's Anchors

Although fires and floods and accidents of major importance cause a very considerable number of the cable troubles to which telephone service may at times be subjected, many of them are due to mischievous causes and often of seemingly trifling importance.

The "trouble shooters," however, in their effort to maintain and restore service, have learned to know the signs of little things.

For example, bees sometimes take possession of a distribution box on the lines until the bees have been disposed of. Hornets have been known to build hives in terminals. Rats will chew through cables, perhaps in search for water. Squirrels frequently cause damage by gnawing the lead cable sheaths. Birds sometimes become entangled in the wires, while the industrious beaver, in felling a tree, carelessly lets it fall across tall lines.

But animals and insects are not the only offenders. Motor cars sometimes collide with telephone poles, resulting in considerable damage. Careless workmen, in blasting and digging, often upset telephone cables. Trenching machines working in city streets now and then cut telephone conduits and cables and many lines are thereby put out of commission. Leaky water mains, explosion of gas mains, a pickaxe wielded by a clumsy workman, a boat or ship which disregards the cable crossing warning and rips it up by a dragging anchor, are a few of the many other reasons why the "doctors of the telephone," the wire chiefs and their associates, have so varied and so interesting tasks to perform.

It takes but a moment for a cable trouble to originate, but it often requires hours to remedy it, and once begun, the work never ends until service is completely restored.

CALVARY PRESBYTERIAN

Calvary Church extends to you a hearty welcome to share in its worship and its fellowship. Next Sunday the pastor will preside at the morning worship at eleven o'clock, and at the evening prayer service at eight o'clock, at which time the members of Camp 23, P. O. S. of A., will attend.

Sunday School at ten o'clock. There is a class for every age. Bring the children and remain with them for the morning worship.

All young people of the community are cordially invited to the meeting of the Christian Endeavor Society on Sunday evening at 7 o'clock.

At the midweek service on Wednesday evening, in the Chapel at eight o'clock, the pastor will continue the study of the Book of Acts.

On Monday, February 22nd, there will be an all-day Christian Endeavor Conference of the district workers of the Southern District in Calvary Church. All those who are interested in Christian Endeavor work are invited to attend the sessions at 10 a. m. and 3 p. m.

Letters are delivered in some of the islands of the Tonga group, in the Pacific, by skyrockets fired from steamers.

Why This Man Likes His Motor Car

Rare indeed is it that one who ever owned an automobile has been without one since he bought his first car.

"Before I had a car I thought there were other things I needed more," said one of our old customers the other day. "But now I know that I need a car more than anything else that money can buy."

When he said "car" he implied, of course, uninterrupted satisfaction in the use of it. That is what Rein Policy, plus Rein responsibility, means to everyone who buys a car here.

Come in and talk it over.

RIVERTON, NEW JERSEY, THURSDAY, FEBRUARY 25, 1936

PRICE FIVE CENTS

PALMYRA-RIVERTON ROTARY CLUB RECEIVES ITS CHARTER

Presentation Made by Gilbert J. Pelen on 21st Anniversary of Rotary

MUSIC BY ORCHESTRA AND GLEE CLUB

The Palmyra-Riverton Rotary Club received its charter, No. 2225, Tuesday evening. Presentation was made in P. O. S. of A. Hall by Gilbert J. Pelen, Governor of Fifth District Rotary International. George A. Wofor, special representative of the district governor, was chairman.

Following a turkey dinner, Mayor James T. Weart of Palmyra, extended greetings to the assembled guests on behalf of the borough government. After which, Chairman Wofor called on the visiting Rotary and Kiwanis Clubs who responded with a few words by their president or his representative.

Volney Kandle responded for Gloucester and spoke of what Rotary had meant to him and his community. The Rev. Robert Williams responded for Woodbury and briefly told the history of Rotary which was started in Chicago in 1905 and now has a membership of over 200,000 in thirty-three countries. Mark Reynolds, speaking for Mount Holly, said that Palmyra-Riverton Rotary was the third to be organized in Burlington County. Mount Holly had been first and Moorestown second.

Moorestown Official William Grobler, vice-president of the Moorestown club, said it gave him great pleasure to represent the president who was unable to be present owing to illness and warmly welcomed the new member of Rotary.

Ralph Charlton, past president of the Riverside Kiwanis Club, said that before the organization of Kiwanis at Riverton eleven years ago, there had been three towns, Riverside, Bridgeboro and Delanco, while now there was but one community working together in the spirit of harmony. William Boltger, a resident of Riverton, spoke for the Camden Kiwanis Club representing its president, John B. Kates.

The Camden Rotary Club was represented by A. W. Steadman, president, who said his club was mighty proud of its new baby, No. 2225, Palmyra-Riverton, the organization of which had been fostered by Camden. The Philadelphia Rotary was represented by Thomas Moore and William Oaks, who made brief addresses of welcome and congratulations and telegrams of felicitations were read from the various clubs at North Wales, Pa. and Piquette, N. J.

John Booth, of the Camden Club, urged all Rotarians to attend the annual convention to be held in Reading, April 19 and 20, and urged Boyd to attend the international convention to be held at Denver.

The principal addresses of the evening were made by the Rev. George E. Barnes, former district governor of Michigan, and Gilbert J. Pelen, governor of the Fifth District Rotary International, who presented to Dr. C. S. Mills, president, the charter for the Palmyra-Riverton Club.

Governor Pelen said it was a most happy coincidence that the Palmyra-Riverton Club should receive its charter on the 21st anniversary of the organization of Rotary—on Tuesday, February 23, 1905.

Seven Towns United

Just prior to the presentation of the charter, Chairman Wofor handed over to President Mills the gavel. In accepting this symbol of responsibility, Dr. Mills said that he knew Rotary would bring the two towns together in a way that it had never been possible to do in any other way. He said that he had remarked to the district governor that in his twenty-five years of experience he had never known anyone able to work together successfully on any project, civil, social, or political, to which the governor replied, "and a chartered Rotary Club has never failed." In accepting the charter, President Mills pledged the Palmyra-Riverton Club to the upholding of the principles of Rotary and was given a big hand by the members of the new club.

At the close of the evening's program, Dr. Mills presented to Dr. Mills a handsome Rotary bell, the mounting of which he had made as well as the gavel previously presented to the new president by Mr. Wofor as a token of his confidence in the services Dr. Mills had rendered when young Wofor had cut his finger on a saw at the Palmyra High School and was for a time in danger of losing his left hand.

The meeting was opened with prayer by the Rev. William H. Higgins, rector of Christ Church, Palmyra.

Glee Club Songs

Selections were rendered by Leo Milton's Twin City Orchestra, the Artisan Glee Club, led by Alfred VanOsten and the Camden Rotary Quartette. George D. Steadman and Horace J. Finney led the singing by the assembled clubs.

A pleasing part of the program was two vocal selections by Bernard Poland, tenor soloist of the Presbyterian Church at Overbrook, who also was a member of the Camden Rotary Club Quartette.

Each guest was presented with a handsome leather pocket wallet for carrying letters and paper, stamped in gold with the Rotary emblem and the words "Palmyra-Riverton Rotary."

The decorations in the hall and on the stage were Rotary emblems and American and Rotary Club flags.

George Wofor introduced the new club officers, directors and members as follows:

Charter Members—William H. Albers, George L. Anderson, William P. Becker, Luke K. Brierly, Paul C. Burr, Herman B. Richter,

DEMOCRATS AGREE

Recommend Willis and Mulraney for Appointment

To all outward appearances the Democratic County Committee, which met at the Court House on Friday night to decide upon the names to be sent to Governor Moore for membership of the County Tax Board and for one of the Democratic members of the County Board of Elections, settled its differences amicably. Rumblings of discontent heard during the meeting and subsequently, however, suggest that harmony within the Democratic party in Burlington County is as far away as ever.

It is true that the committee, of which 20 members were present, went on record as unanimously favoring Richard W. Willis, an eleventh hour dark horse, for the Tax Board, and Francis J. Mulraney, of Moorestown, for the Board of Elections. The speaker who came as an empty formality after the committee by a vote of 16 to 24 had given its approval to Messrs. Willis and Mulraney. Mrs. Florence Jacoby, of Edgewater Park, woman member of the Democratic State Committee, was a recognized leader in her party in this county, proved the truth of the adage that "a woman convinced against her will is of the same opinion still."

After the meeting Mrs. Jacoby, who did not take kindly to the action of the committee, was quoted as saying that she was not done fighting and would win out yet for her candidates, Walter J. VanSclver, of Beverly, a present member of the Tax Board, and George Alloway, of Vineland, who now holds membership in the Board of Elections.

Fathers and Dads Enjoy Banquet

Judge Wells, Porter Ashbrook, Edward Sorden and J. Allen Hemphill Spenters

The Father and Son banquet arranged for by a committee headed by John S. Boney and held in the Presbyterian Chapel last Friday night, was attended by one hundred and thirty-two boys and their dads, and a merrier group was never seen within these walls, which have witnessed many social gatherings.

The first speaker was J. Porter Ashbrook, a great favorite with the YMCA boys throughout the county—and how they did sing! Even the dads unlearned their vocal organs and let go with real gusto, just like the boys at Kiwanis and Rotary meetings.

Guy C. Hendry, county YM secretary, was down on the program for the first speech, but was unable to fill his engagement. Russell Blackburne was also absent.

The first speaker was Edward P. Sorden, who told of the activities of the YM group in Riverton. He was followed by the Rev. Charles T. Bates, pastor of Calvary Presbyterian Church, who spoke of the boys of today and their dads. J. Allen Hemphill spoke of the activities of the Boy Scouts in Riverton.

"Boots" Lever talked about sportsmanhood and was eagerly listened to by the boys both young and old. And then came "Judge" Wells, rapid-fire speaker, the delight of audiences and the despair of stenographers and reporters, who got so wrapped up in what he is saying that they forget to make notes—and couldn't keep up with him if they did.

The music was furnished by the county YMCA orchestra, and very good music it was.

The Rev. Mr. Bates was disparaging the efforts of the speakers, if they were generally admitted that the big event of the evening for the sons (and maybe the dads, too) was the dinner. It was served by the ladies of the Presbyterian church, and all the youngsters voted that "the mother does it, it is done right—your bet!"

And healthy boys with normal appetites are pretty good judges of the culinary art. Within the dishes had been cleared away and the toastmaster suggested a rising vote of thanks and three cheers for the ladies, they were given heartily and with a right good will.

Joshua B. Bartley was charming as toastmaster and kept things moving so that a very full program in addition to the dinner, was completed by ten o'clock—the time when all good boys should be in bed, or on the way.

ADVANCE NOTICE

It was Monday morning. The rent-collector's bag was getting heavy, but his heart was light till he reached the house of Mrs. Jones.

"Little Johnny Jones opened the window and, with the air of one who had learned his message well, said:

"Mother and Father are out. Will you call on Friday?"

"H'm!" said the collector.

He would have said more but it did not seem of much use. Then a thought struck him.

"And why on Friday my little man?"

"That's what I don't know," said the boy, "unless it's because we're going to move on Thursday."

Joseph T. Evans, Horace J. Finney, Edwin Fish, Joseph S. Lee, Rev. E. Mattie, Charles Street Mills, Charles A. Mohrhead, Harry C. Schermer, Jr., Fred W. Seiber, Frank A. Snyder, George D. Steadman, Evan W. Stover, Paul W. Vanant, John B. Warner, Earl Williams, Harry W. Williams, Everett O. Wolcott, Clinton B. Woolston, Charles A. Wright.

Officers: President, Charles B. Mills; vice-president, John B. Warner; secretary, Fred W. Seiber; treasurer, Rev. E. Mattie; directors, Joseph B. Lee, Earl L. Williams, Harry B. Williams; sergeant-at-arms, H. B. Williams.

WISLEYAN CLASS

The Rev. J. B. Whitton, teacher of the Wesleyan Men's Bible Class, will talk on "The Five Periods in Human Life and What to do in Each Period," this Sunday morning at 10 o'clock in the Epworth M. E. Temple. "The most important in life is a strong mind and a pure heart," says the Rev. Mr. Whitton. The teacher is anxious for a large attendance this Sunday, the last before the annual New Jersey Conference.

Y. W. C. A.

Classes for lamp shade making and raffia will be held at the regular weekly meeting of the Riverton-Palmyra Branch of the Y. W. C. A. next Tuesday evening. All members are requested to bring in their order sheets for William project.

LEAGUE OF WOMEN VOTERS

The regular meeting of the League of Women Voters will be held this Thursday afternoon at 2.30, at the home of Mrs. John G. Baehrer, Broad and Main streets, Riverton. The speaker will be Mrs. Lucy Biddle Lewis, of Lansdowne, who is well known in Riverton.

P. H. S. Cage Stars Win Five Games

Boys Victor in Three of Four Contests; Girls Take Two

The Palmyra High School cage stars won three out of four basketball games last week. While the boys won one and dropped the other to more seasoned opponents, the girls team won both of its games. All of the games were staged on the home court.

Tuesday afternoon the boys tasted a 52-30 defeat at the hands of Ridgely's Business College, of Trenton. Although the Ridgelymen put up a dandy fight, they were outclassed for the heavy and more experienced commercial boys from the state capital.

The girls avenged the boys' defeat by a hard earned victory over Moorestown Friends. Palmyra's feminine players outplayed the Quakers at every stage of the game and showed championship material with Elliott and Enkhat in the leading roles. Margaret Jenkins and Rosalie Roberts, center and guard, backed up the scintillating performance of the tall forwards with excellent cage tactics.

With the clever field goal shooter Jack Easley starring, Palmyra ran away with Brown Prep Friday afternoon by a 24-12 count. Palmyra showed marked superiority over the Prep School boys in every department of play and put up an excellent defensive. The visiting forwards found it extremely difficult to break through for a shot against the stellar work of the Palmyra guards.

Moorestown High made suffered a 31-11 trouncing as the local girls put up one of their finest games of the season in the other half of Friday's twin bill. Every member of Palmyra's sextette covered herself with honors.

Both squads are enjoying a very successful season and Coach Morse is well satisfied with the brand of ball being displayed by the boys and girls.

FRENCH PLAY

Children of Westfield School Give Delightful Entertainment

A French play was enacted by children of the Westfield Friends' School at special exercises on Washington's birthday. This, together with recitations from the poem, "Hiawatha," in which the children of the school took part, entertained an audience consisting of parents and friends of the little folks.

The play, "La Mere Michel et son Cheval," Mother Michel and her horse, was dramatized by Miss Edith Riley, teacher of French at the school, from a story by that name. It concerns a large and beautiful cat, belonging to a countess, and which is so ill liked by the miller that he tries repeatedly to kill it. The cat, Moumouh, is finally thrown into the river Seine by the butler, but is rescued by a fisher boy who returns it to the countess amid great rejoicing. The play was rendered throughout in French, and the cast was as follows:

Father Lasterus, Samuel Biddle—the wicked butler.

Mother Michel, Peggy Reese—the housekeeper who loves the cat.

The Countess, Elizabeth Woolman.

Moumouh, Lewis Robbins—the pet cat of the Countess.

A friend of the Countess, Mary Eastwood.

Jacques, Peter Rodman—the boy who rescued Moumouh from the river.

Hiawatha was recited practically in its entirety by the children of the various grades, singly and in groups, with songs from the poem interspersed. Progress was shown in the enthusiasm of the work of the little performers.

Special exercises of this kind are held at the time of the principal holidays at the school, through the year.

Phyllis Wheatley Y. W. C. A.

The members of the Phyllis Wheatley Y. W. C. A. entertained their relatives and many friends at a Valentine Social given last Wednesday at the residence of Mrs. E. J. Young, 309 Third Street, Riverton.

The program which was rendered under the leadership of Miss Hildebrand was as follows:

Recitation, "Poems of Life," Miss D. Johnson; Solo, "Sleepy Hollow Tune" and "Gray Days," Mrs. H. P. Jones; Solo Reading, "The Origin of Valentine's Day," Miss A. Johnson; Solo, "A Song in the Deep," and "The Pirate," Mr. Coston; Address,

P. H. S. Orchestra Pleases Audience

Splendid Program Given by Youthful Musicians in Annual Concert

The large crowd which attended the fifth annual concert of the Palmyra High School orchestra in the high school auditorium Thursday evening of last week generously applauded the work of the youthful musicians and the other numbers on the unusually well balanced program.

The auditorium rang out with applause as George Rhoades finished his saxophone solo, "Laverne," and his delightful rendition of "The End of a Perfect Day," as the encore. The saxophonist was accompanied by Nelson McClean at the piano.

The opening orchestral numbers on the program were "Encouragement March" and "Palmyra High School March." The High School march was written by Harold Mueller, a student, and has been dedicated to Prof. A. S. Griffith, supervising principal of the Palmyra Schools.

The Girls' Glee Club, with thirty voices under the direction of Miss Nellie V. Earle, a member of the faculty, rendered the "Flower Song" and "Dreams of Eve" in a very finished manner. Edward Cuyper, accompanied by Mr. Florence Harvey at the piano, gave two pleasing violin solos.

The orchestra opened the second part of the program with "Blue Danube," the popular old waltz and its concluding number was the presentation of "Il Trovatore" in a masterful fashion. Louis R. Richards, the conductor of the orchestra, has in charge of the splendid program and the orchestra displayed delightful results of his expert training.

Thelma Jones, the popular young eleventh grader who is a pupil of Mrs. R. S. Byers, pleased the large audience with a brilliant monologue, "The White Silhouette."

The orchestra ensemble with Louis Rechever Richards, Conductor, follows:

Violins, Edward Cuyper, M. Virginia Good, Franklin Bowen, C. Harold Quickall, Arthur A. Hartley, Henry T. Albright, C. Joseph Miller, Robert A. Mathews, C. Spencer Davidson, W. Franklin Miller, Joseph R. Margaret B. Hall, Lloyd Smith, John H. Timothy, Johnson.

Clarinet, Mr. Palmer.

Trumpets, James B. Wright, William R. Seese, David H. Beagle.

E. Flat Saxophone, George A. Rhoades, Louis J. Meunier, George B. Hanger, Charles E. Bod.

C. Melody Saxophone, John S. King.

Drums, Henry L. Prouse, John A. Smith, Jack Siddall.

Bells and Xylophone, Roy Wentzell.

Piano, M. Florence Harvey, Ruth E. Abdill, Ruth V. Hemingway, Gertrude E. Crouch, Gladys E. Booth, Margaret G. Stockdale, C. Marian Schrank.

An elderly lady dressed in a coat of the period of 1899, stumbled into a South Side court room and went directly to the Judge's bench.

"Your honor," she cried, "I want a divorce from my husband. He left me twenty-five years ago and I ain't seen him since."

"Well," inquired His Honor.

"Well," continued the woman, "what about my getting a separation?"

"The Qualities of a Woman," Rev. S. T. Boyd; Solo, "Shall I Be Forgotten?" Mr. Robinson; Quartet, "There's a Way That Leads to Glory," Mrs. M. Johnson, Mrs. E. Groce, Mr. A. Green and Mr. T. Robinson.

Remarks were made by the president, after which a silver offering was taken.

After the rendition of the program, many games were played. Mr. Peel Pointexter was the winner in the "heart hunt" and received a heart-shaped box of chocolates as the prize. Every one expressed themselves as having spent a very enjoyable evening.

BAPTIST CHURCH NOTES

This afternoon the Philathea ladies met in Mrs. Joseph H. Abdill's home, 209 Garfield avenue. The Thursday evening Bible Class will meet at the home of Mrs. John E. Shibley, 8th and Thomas avenue, Riverton.

Friday afternoon the children met for a "Happy Hour" and the young people's meeting will be an usual Friday evening. All young people who have tickets for the play, Saturday night, are asked to return them to the committee on Friday evening, that they may be available for sale at the High School for late comers who have not secured reserved seats. Don't miss seeing "Peg O' My Heart."

Pastor Lockett's topics for Sunday are as follows: Morning, "Jesus Only;" evening, "Seven Aspects of Salvation."

Next Thursday evening, March 4, Pastor Lockett will be installed in the Central Baptist Church with an appropriate service. A number of prominent ministers will be present and a full program of the installation service will be published next Thursday.

Riverton Plans Fast Ball Club

Outside Talent to Boost Lineup in Movement to Revive Sport

Plans are rapidly maturing for the organization of a first-class baseball team in Riverton this year. Several members of the team will be outside players. Local boys will be used as fast as promising candidates can be found and developed. Any Riverton boys who would like to try for the team should get in touch with Manager Martin Welsh at once, as the lineup is now being prepared. The team will be fitted out with new uniforms, probably gray.

The diamond at Memorial Park will be put in shape by the borough property committee, after which the infield will be maintained by the ball club. It is proposed to erect a grandstand for the comfort of those who attend the games, and it is hoped that many ladies will enjoy the sport this year, as police arrangements will be made to prevent any rowdiness or other objectionable features.

Arrangements will be made to play a game on the home grounds every Saturday.

Martin Welsh will be manager. Edward R. Williams coach, and the board of directors as follows: Welsh, Walter C. Wright, and Walter S. Thelmer, secretary and treasurer.

The management has been fortunate in securing the services of Yankee Fredling, the star pitcher from Mercer County, and Doc Hinkle, former Atwater Kent twirler, and Bill Platt, late of the Delaware 3-M League as catcher. Peterson will play third base and Ted Hopkins center field. Both of these men formerly starred in the Delaware 3-M circuit.

It is expected to arrange at least one twilight game every week in which the local boys will be given a chance to try out for the first team.

The big idea in back of all this activity on the part of the men who have always stood back of baseball in Riverton, is to revive the old time sport of the game and to develop an All-Riverton team which will be able to maintain the reputation enjoyed thirty-five years ago by the boys who are now dads and granddads but have lost none of their love for the great national game.

A meeting of the directors will be held in Collins Hall, Friday evening, March 14, at eight o'clock and the management cordially invites all who are interested in the revival of baseball in Riverton to attend and give them the advantage of their co-operation and suggestions.

Electro-typing Men's Club Topic

Dr. Lukens, of University of Pennsylvania, Delivers Address on Plate Making

Dr. H. S. Lukens, professor of electro-chemistry at the University of Pennsylvania, addressed the Men's Club of Palmyra Monday evening.

Dr. Lukens gave an exceedingly interesting illustrated lecture and with the aid of a stereopticon machine took the audience step by step through the manufacturing plant where electro-type plates are made. These plates are used to print pictures in high class magazines and rotary-gravure sections. Gigantic hydraulic presses are used in the manufacture of the plates, calling into play a pressure of from 1000 to 2000 pounds. The process is a very costly and tedious one.

Previous to Dr. Lukens' address the club commemorated the birthday anniversary of the Father of Our Country by singing in chorus "America."

Following the lecture Dr. Higgins extended to the club members a cordial invitation to attend devotional services in a body on Sunday evening, March 7th. Every man interested should make a memorandum of this date, and arrange to meet in the Sunday School room of Christ Church, at 7.45 p. m.

J. J. Siddall, arranged a very pleasing program of music and comedy, and was very ably assisted by Messrs. Lee Milton, A. R. Burns, Allen McWhorters, J. M. Williams, Walter Seeds and John Ward.

The ladies of St. Agnes Guild were tastefully amplified the first two o'clock session of the latest song hit, "A Cup of Coffee, a Sandwich and You," which needless to say was enjoyed by everyone.

The meeting room is being enlarged and the members are urged to fill the new quarters at the next meeting on March 26th.

FIREMEN'S CARD PARTY SEASON'S BIGGEST HIT

BUY A BIRD BOX

Riverton Bay Scouts Have Display at Keating's. Funds Will Help Summer Camp

For the past two weeks some twenty-four bird boxes, each made by one of the Riverton Bay Scouts, have been displayed in the corner window of Keating's store, Broad and Main streets.

These boxes were offered for sale to the highest bidder, but up to last Sunday morning only eight bids had been received for a total amount that would hardly cover the cost of materials. Not very much encouragement for the boys to "carry on" in that line of endeavor! These are good bird boxes and each has built into it "The try to be constructive" that goes with all Boy Scout activities.

Now, my fellow townspeople, you have the opportunity to tangibly help and encourage these boys. Go to Keating's, bid for one (or more) of these boxes and on Saturday evening at 8 o'clock the boys will auction them off to the highest bidder, tie your bids in before then. Show the boys you are interested in their work. If you can come to the auction on Saturday, do it; but if you can't, your bid made in advance may be the highest, and the Scout who made the box will deliver it to you.

The proceeds from the sale will go into their fund for next summer's camp.

The Scout does his "good turn" daily. Here's the opportunity for you, Riverton reader, to do yours.

Wm. SHOEMAKER, Jr., Scoutmaster.

Jersey Conference Opens Tuesday

Chicago Bishop to Preside at Methodist Sessions in Atlantic City

The thirtieth session of the New Jersey Annual Conference will convene next Tuesday evening at the First Methodist Episcopal Church, Atlantic City.

Bishop Edwin H. Hughes, of Chicago, will preside. Bishop Hughes is one of the outstanding leaders of the denomination. He is a man of evangelistic fervor, moral earnestness, and scholarship. He is a former college president, he has for years been one of the leaders in raising the educational standards of the ministry. In addition to his work as one of the general superintendents, he is in great demand as a lecturer and preacher.

The Conference will open on Tuesday evening with the introduction of Bishop Hughes and the reading of the reports of the four District Superintendents. Throughout the week the conference sessions will be held on Monday from 9 o'clock until 12.30 o'clock.

The afternoons and evenings are given over to anniversaries of the various organizations of the denomination, lectures, and evangelistic services.

As usual, much of the interest centers about the appointments for next year. There is much speculation about possible changes, but the final word about all appointments rests with the bishop.

During the year the pastors of two important churches have died. They were the Rev. H. D. Mitchell of Ocean Grove, and the Rev. B. C. Lippincott, of Spring Lake. The Rev. H. J. Zelle, of South River, has announced his intention of taking a year's vacation. The Rev. W. Earl Zimmerman, of Camden, is withdrawing from the ministry to enter business.

It is reported that the Rev. M. E. Snyder, pastor of Haddon Heights is to become superintendent of the Ocean Grove district.

The Rev. A. A. Conover, of Palmyra, who, for the past five years has been doing evangelistic work throughout the conference, may take a pastorate this year.

C. E. CONFERENCE

On Washington's Birthday, Calvary Presbyterian Church entertained delegates from all of the counties of South Jersey in an all-day conference.

The morning session was devoted to classes in Christian Endeavor Methods, led by Frederick L. Mintel, executive secretary of the New Jersey State C. E. Union and by the president of the Union, E. Thompson. A luncheon was served in the Chapel at twelve o'clock.

At the afternoon session, Harry R. Paisley, treasurer of the leading Company, inspired the Conference with an address on "Your Five Leaves." He was followed by Mrs. Nina R. Gano, State Intermediate Superintendent. A Junior demonstration was presented by a number of Junior Endeavors from the Presbyterian Church at Delanco.

The afternoon session was followed by a dinner and Fellowship Hour at which time the "Working of the Fidelity Programme" was presented by Rev. I. J. Shaffer, of Camden; Rev. J. H. Fisher, of Wildwood; Frederick L. Mintel, of Rahway; Rev. Frank B. Ritter, of Maple Shade; Rev. H. J. O. Rinker, of Delanco, and a stirring address was given on "World-wide Fellowship" by John T. Spruill, of Arlington.

President Emeritus of the New Jersey Union.

Throughout the day, in the conferences and in the devotion periods, there was a marked emphasis on a deepening of the spiritual life. The Conference was one of three for the state, covering the southern North Jersey and Central Jersey.

by everyone.

The meeting room is being enlarged and the members are urged to fill the new quarters at the next meeting on March 26th.

Nearly Two Hundred Guests Enjoy Musical Program and Song Hits

NEXT PLAN IS FOR SURPRISE DINNER

Somebody said that it couldn't be done.

But he with a chuckle replied: "That 'maybe it couldn't' but he would be one Who wouldn't say no till he'd tried." So he buckled right in with the trace of a grin On his face. If he worried he hid it. He started to sing as he tackled the thing That couldn't be done, and he did it.

And that is what the entertainment committee of the Riverton Fire Company did with the card party and dance which was held in the Porch Club last Monday night. This committee was composed of Clarence Hubbs, Clarence Mattie, Adolph Strobel, John Strobel and George D. Steadman.

In addition to the card playing and dancing, a fine program of entertainment was arranged, and when the evening was over everyone said it was the finest affair of its kind that had ever been held in Riverton. The cards and card tables were loaned by the Knights of Columbus.

Forty-five Tables

Ross Mattie was master of ceremonies and William Boyce, of Riverside, was floor manager in charge of the tables. There were 45 tables of players and twenty prizes were awarded. The crowd became so large that it was necessary to take care of the overflow by arranging tables in the freehouse.

The talent furnishing the entertainment was composed of Miss Frances Mattison, Miss Rebecca Strange, Miss Helen McGuigan, Miss Marion McGuigan and Miss Mary Coward, with Mrs. J. H. Charleston, pianist. They all came from Camden with the exception of Miss Coward, who is a daughter of Mr. and Mrs. Charles Coward, of 4th and Lippincott avenue, Riverton.

The girls danced with the boys, sang choruses and had a clever song hit for each of the active firemen which brought down the house by their clever characterizations.

Miss Mary Steedle sang several songs, accompanied by Mrs. Eleanor Council. Each of the ladies was presented with a bouquet of carnations, roses and daffodils.

Musical Saw

Robert Coward, also of Riverton, gave several selections on his musical saw and made a decided hit. Some members of the committee were kept busy all the next day bowing their acknowledgments to compliments on the success of their party.

This is the first of a series of entertainments of various kinds the committee has planned for the coming months. It is understood that the next event will be a dinner, and the committee has declared its intention of going the card party one better.

McCombs Enjoys Trip to Florida

Wonders of Southern Resort State Described in Letter To Editor

Orlando, Fla., February 15, 1936.

To the Editor:

On the morning of February 1st, in company with Charles Singer and my son, Lewis, we started for Florida. The weather was just grand—no weather all the way from New Jersey to Jacksonville, Fla. The scenery along the way was beautiful except some very bad roads in and around Georgia, but barring that, the trip in all was wonderful.

Our first visit was in Hibernia, Fla., a small town near Jacksonville where we enjoyed four very pleasant days fishing and hunting on the banks of the beautiful St. John's river. The climate was just grand with the exception of two days that was rather cold, the air has been as balmy as May.

We are now in Orlando, one hundred miles south of Jacksonville, for a few days. It is a very pretty place and rapidly growing into a city.

I saw Mr. Morrel Parry. He is in the real estate business. This town is on the boom in that capacity. We had a long chat about things in general here and there. We are leaving here for Miami, the most famous resort of Florida. It is the playground of the rich. It is never too cold there to go in bathing. From there we will return to Hibernia for another fishing and hunting trip, then we will return to our own dear New Jersey for you may travel here and you may travel there, but "there is no place like Home Sweet Home."

We motored to Tampa and St. Petersburg for a day. The trip across the Gandy Bridge to St. Petersburg was wonderful. It has connected the two towns and they are rapidly building up. In fact

Friends Present World Court

Splendid Presentation of Peace Idea Given in Moorestown

Moorestown Friends presented something unusually new recently when they held a World Court of the type that met with their highest endorsement and the kind they would have the people at large better understand for the advancement that mankind will receive through the adoption of the principle of peace on this basis of broad-minded protection from disasters and progress-debilitating disturbances. In connection with the affair there was a dinner that was attended by over three hundred who had accepted invitations.

The most striking and unexpected thing about the most highly-touted and comprehensive feature of the evening was a called session of the World Court, composed of judges, noted as great leaders and learned legal lights representing the various nations of the earth.

Judges of the Court

When the curtain lifted there appeared the honored judges, seated in a slightly curved line back of a long table, facing the audience. The judges were: D. C. Scholten, Denmark; William H. Roberts; Epitacio Passera, Brazil; Lee Haines; Lord Finlay, Great Britain; William F. Overman; Yuzuru Uda, Japan; Richard Brown; Barthelme Weiss; Francis Morris Linton, Vice president of the Court; Raphael Atlasder, Holland; Hans Froelicher, Jr., president of the Court; B. C. J. Lomira, Spain; Edward Richey; Max Huber, Switzerland; Joseph P. Davis; John Bassett Moore, United States; John W. Calhoun; Chung Hui Wang, China; Edward S. Harmer; Dionisio Anzilotti, Italy; George DeCon. His high honor, the Chief Justice, sat in the middle, the clerk to the right as seen by the audience.

They were clad in judicial gowns as are the judges of the State and National Supreme Courts of the United States, when sitting as the tribunals of the people. These judges were far more exalted in that they are not judges for any state or nation, but for all nations, kindred tongues and peoples. Their sodate judicial bearing was finely manifest. Litigants were seated in front of the high court of nations.

The characters portraying the different parts were as follows: Clerk Edward Sharpless; American Observer, Edwin A. Russell; representative of Poland, Albert Haines; representative of France, Maurice Haines; representative of Japan, Charles D. Barton; representative of Germany, Howard G. Taylor; representative of Chile, Reuben Spencer; moral opinion of the world, Mrs. William H. Roberts; spirit of World War veteran, William H. Roberts.

Voice of the World

Several causes were reported as having been tried and adjudicated, and opinions were handed down at this session of the Court and announced in recent in one case, between Chile and Japan, to which both litigants objected and stood in persistent unyielding objection; and especially did the Chilean representatives refuse to accept the Court's decision and demand, "You have no force back of you to execute your decision." Whereupon a learned member of the Court said: "This Court has no military power to carry out its mandates. It is the voice of the world, the moral judgment of mankind and the voice of the world, and you have no force back of you to execute your decision." She poured out a stream of such fine, beautiful reasoning in behalf of the people of Japan and Chile and of the World with such persuasive eloquence that the gentlemen from opposite sides of the Pacific yielded and so declared to his Honor, the Chief Justice, and confirmed their acceptance by cordially shaking hands. Under the spell of the woman's pleading the audience held its breath, mingled with fear and hope, till the decision, when, despite the rules of Supreme Court custom, it broke forth in acclamations of joy.

John Woolman

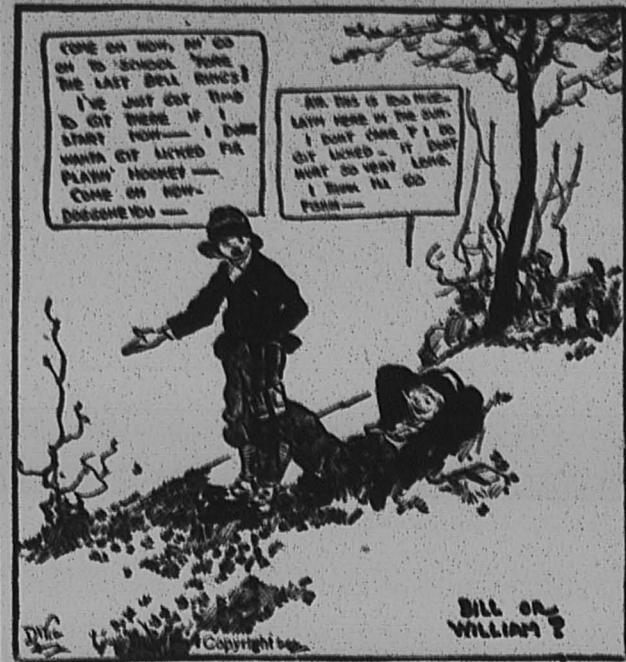

When, in the opening of the entertainment, the curtain was raised there was revealed on the platform an improvised, large, old-fashioned, open fire place, dominating the one in the Woolman House in North Holly, with a blazing fire in it and the figure of a man representing John Woolman, clad in the peculiar Friends' custom of John Woolman, and in an old-time early peculiarly and the hat on his head, was an undyed broad-brimmed beaver, said to be a century old and such as Woolman wore. Wearing this outfit he appeared like an ancient friend. He stood by the fire, his right arm resting on the mantle piece, in meditation oblivious to everything and everybody about him, talking to himself in reminiscent manner, of his visits South among slave owners, trying to persuade them to free their slaves, and it seemed to worry him that they did not yield to his arguments and entreaties—and after this journey I feel weary and believe I will rest."

Setting action to the word, he sat down in his high-backed arm chair, taking an easy posture with his head against the back of the chair, and with closed eyes he seemed asleep, maybe dreaming despite the gloomy outlook that the day was coming when the shackles from every slave in America would be dropped. He remained there oblivious through a business period of Friends' social order by the young Friends of Madford and Marlton monthly meetings.

Then came a humorous presentation of an old-fashioned day school, followed by an exhibition of the present day school. There appeared a sample of Japanese mission school, of pupils in costume of their native land, preceded by a fit, well-expressed talk by William H. Richey, concerning Friends' mission work in the Society Kingdom by Moorestown monthly meeting.

We walk into trouble through open doors; we have to pick the locks to get out.

SCHOOL DAYS

Prune Grapes This Month

Specialist Says Work Should Be Completed by End of March

Annual pruning of grape vines is essential if profitable crops are to be produced, says J. H. Clark, of the New Jersey Agricultural Experiment Station. Even one year of neglect will cause the clusters to be small and irregular, while the canes will be weak and unable to produce a satisfactory crop the next year. It is advisable to prune during late February or March so that the work will be completed before growth starts.

The single-stem 4-arm Kniffin type of vine has proved to be more productive and easier to handle than others, such as the fan and spur systems. The Kniffin trellis consists of two wires, one five to six feet from the ground, the other thirty inches below it, supported by posts set fifteen to twenty feet apart.

A peculiar parasite has recently been discovered by F. R. Beaudette, poultry pathologist, in a number of chickens sent to the Agricultural Experiment Station for diagnosis. So far as is known the parasite has not previously been reported in this country.

The parasite belongs to the same group as the round worms, though it is in shape. The worm is found imbedded in the wall of the proventriculus, or true stomach, which is just in front of the gizzard. On examining the exterior of an infected organ the parasites may be seen like bluish, oval, round, red, and a little larger than the head of a pin. Under the microscope a short head and tail are seen protruding from the body of the worm.

A study of New Jersey cow-leasing association records shows that it costs \$4.29 to produce a hundred pounds of milk with others at \$1.16. This difference, continues the dairy department of the State College of Agriculture, is due to a difference in the milk production of the cows.

"MR. BOB" ENJOYED

Epworth League Play Meets Well

A crowd of three hundred enjoyed the splendid presentation of "Mr. Bob," a comedy in two acts, by a group of young people of the Epworth League in the Temple Saturday evening.

Clifton Taylor and his sister, Dorothy, made a big hit playing the father and mother, and the maid. The domestics kept the crowd in an uproar from start to finish. Miss Pearl Combs cleverly enacted the part of Miss Rebecca Lake, a spinster.

The rest of the leading lady, Marion Bryant, of "Mister Bob," was admirably filled by Kay Green. By very humorous complications Miss Bryant was forced to masquerade under the name of "Mister Bob," as she had been affectionately nicknamed by school pals. Miss Green played the character in a vivacious manner that won her many rounds of applause.

Hilda Lippincott, Gilbert Haussner, and Harlan Lippincott added much to the spirited performance with their well delivered lines. Miss Lippincott played the part of Kathryn Rogers, niece of Miss Lake. Mr. Haussner was the nephew and Harlan Lippincott, a clerk for the law firm of Benson & Benson. The production was coached by Miss Florence Taylor.

The opening numbers of the program were a violin solo by Robert Hudack, a recitation by Ruth Lutz and a vocal solo by Rachel Pettit. Miss Pettit and Mr. Hudack favored the numbers between the two acts.

The work of the soloists was well received.

New Mortgage & Loan Company

The Cinnaminson Bank & Trust Company will represent the South Jersey Mortgage Company for Riverton, Palmyra and Cinnaminson townships. This company has just been organized for the purpose of financing the building boom expected in this section with the opening of spring. Walter E. Robb, president of the Burlington City Loan & Trust Company, is one of the directors.

Lena To Play at Little Rock

Blackburne Will Be Assistant Manager and Play In-Field Position

The following article, giving a brief outline of Palmyra's diamond celebrity and the renewing of his contract with Little Rock ball club appeared in a Camden newspaper the latter part of last week.

Russell (Lena) Blackburne, former major league diamond star, has signed a contract with Little Rock, Ark., of the Southern Association for the coming season.

Blackburne, who resides in Palmyra, will be assistant to Manager Joe Cantillon and also play an in-field position with the Little Rock Travelers.

Cantillon, who is a part owner of the Little Rock Club, succeeds Blackburne as pilot of the Southern Association team. Last year Cantillon was assistant business manager of the Chicago White Sox.

Instead of resigning the post, Cantillon and President Robert Allen, of the Little Rock team, appointed Blackburne as playing manager of the Travelers.

Blackburne will leave for Little Rock during the first week in March, according to present plans. Besides acting as assistant to Cantillon, the erstwhile big leaguer will also coach the team and probably play second base.

Injured Leg With Chicago

"Lena" Blackburne started playing baseball around Palmyra, Pa., but it was not until four years later that he broke into the majors as a member of the Chicago White Sox.

Blackburne was originally a shortstop, and it was while playing this position for the Chicago Americans that he sustained an injury that shortened his career in the big leagues.

In a game against the Philadelphia Athletics back in 1910, Jack Barry, Athletics shortstop, who had reached first base, attempted to steal second and Blackburne ran over to take the throw. The ball, tossed by Sullivan, White Sox catcher, was high, and "Lena" leaped off his feet to grab it.

He caught the ball, but in descending Blackburne twisted his knee. He never fully recovered from that injury and after several more seasons, the Chicago White Sox traded him to Milwaukee, of the American Association.

Came Back to Majors

Blackburne sparked with the Brewers in the Class AA circuit and Chicago recalled him in 1914 and 1915. Later he was sent to Toronto of the International League, and in 1917 was sold to the Cincinnati Reds.

The old injury kept Blackburne from exhibiting his old-time form, and Cincinnati traded him to the Boston Braves. In 1919, Boston sold him to the Philadelphia National League Club and the Phillies gave him his unconditional release so that he could accept the manager's position of the Toronto International League team.

In 1922, Blackburne played with Toledo, of the American Association, and the following season joined Kansas City, of the same circuit, where he remained until Little Rock secured his services last year.

COURSES IN AGRICULTURE

The Short Courses in Agriculture of Rutgers University offer to the public a series of three lectures on special garden subjects. These are to conclude the short course in flower gardening.

The lectures will be given in the lecture room of the Short Course Building, as follows:

March 1—10 a. m. Dahlias (illustrated by Mr. C. H. Connors, of the N. J. Agricultural Experiment Station).

March 1—2:15 p. m. Rock Garden, by Montague Fenn, of the Brooklyn Botanic Garden.

March 2—2:30 p. m. The Culture of Iris, by Ella Porter McKinney, of Madison, N. J.

These speakers are considered among the leading authorities on their subjects.

It is possible that a lecture will be arranged on Ponies for the morning of March 3.

Flower lovers of the state are invited to be present at these lectures.

AT THE RESTAURANT

"Say, waiter, please," I heard him sneeze.

"Close down that window quick," "Is there a draft?" the waiter laughed.

And stood there like a stick.

"Well, maybe not," the diner shot, "But sadly to relate, I cannot eat because my meal keeps blowing off my plate!"

WINK'S SPLIT BILL

First Team Defeated by Burlington, But Second Wins

Wink's Y. M. C. A. basketball teams split in their twin bill Saturday evening. The Scrubs hung up their fifteenth consecutive victory with a 22-12 win over the Second Ward, Burlington, Reserves, and the big "Y" aggregation went down to a 22-22 defeat at the hands of the Burlington variety combination. In the last four minutes of the

Young Swimmer Has Aunt Here

John Coryell Devine is Nephew of Mrs. William H. Buck

The following article concerning young John Coryell Devine, nephew of Mrs. William H. Buck, of Morgan Avenue, Palmyra, appeared last week in the Evening Bulletin, of Philadelphia:

"At least one young winter vacationist has returned from Florida without showing its wonders to the northern skies and ending up with: 'Oh folks, it was just grand!'"

"The gentleman in question is John (Freddie) Devine, champion long distance swimmer for his age and America's youngest aspirant to English Channel swimming honors. Freddie and his pa got back from the land of oranges (try and buy 'em) and high priced lots (try and not buy 'em) yesterday. Freddie carried 132 extra pounds, picked up here and there at ridiculously low prices in the land of sunshine, and also a hefty silver loving cup.

"He annexed both during the same event—a swimming across the bay, Miami Beach, a distance of seven and one-half miles. The swim included a trip up the government cut, to the jetties and back by way of the government reservation."

"When he finished, thereby setting a record in not only mileage but also for being the first human to brave the sharks and barracudas reputed to populate the bay, the Mayor's wife, Mrs. Percy W. Mader, Miami Beach, presented him with the cup. It's almost as tall as Freddie and would hold nearly enough water for him to stage a sprint in."

"Don't like Florida," said the yellow haired lad. There was no hemming and hawing—he didn't like the State. So he said so. "Might as well stay up here—I thought it was cold."

That was all. As for swimming the bay, Freddie has it on the warm beaches of the southern resorts any time, he says. Furthermore, he is not impressed by the big fish and bad shark stories.

"I didn't meet any," he said. "Now everybody's swimming in the bay, isn't that a good one?" He appreciates a joke at the age of seven almost as much as a grown-up. But he dislikes to be razed about the bit he made with the wee young ladies of the beaches.

"Aw, hey, leave me alone," he begs his father. The latter said Freddie's real reason for returning to Philadelphia was a desire to see his grandmother. The Devines live at 418th St. and Magazine lane.

"The swim across Biscayne bay, made during rough weather, was accomplished in three hours flat. The boy was paced by his father. "He had a great time with the Canadian boxer, Jack Remault, on his way north," said the elder Devine. Remault showed him some punches and now he is always trying them on me."

"Freddie weighs 65 pounds today, is getting huskier all the time, and hopes to swim the English channel before they make him go to school all the time."

EPWORTH NEWS

At the Epworth Methodist Episcopal Church on Sunday the pastor the Rev. Fred B. Morley, will preach at both morning and evening services.

OF course I take my own medicine. All of the drugs sold in this store are up to the highest standards of purity. Our pure drugs promote good health. If you don't believe it ask your doctor. He likes the way we fill prescriptions.

At the evening service the newly elected officers of the Epworth League will be publicly installed.

The Church School meets at 10 o'clock. The devotional meeting of the Epworth League is at 7 o'clock.

The Woman's Home Missionary Society will meet on Monday evening at the home of Mrs. C. W. Wray, 131 W. Sixth St. Mrs. C. W. Wray will have charge of the study program.

This is the last Sunday of the Conference year. On Tuesday the pastor leaves for the Annual Conference which meets at First Church Atlantic City.

DINNER FOR P. O. EMPLOYEES

The postmasters and employees of the second-class post offices of Burlington County attended a dinner Wednesday evening at the Wall Whitman Hotel, Camden. Beverly, Riverton, Palmyra, Mount Holly and Moorestown participated. O. B. Williamson, chief inspector of the Philadelphia division, was the principal speaker.

Those attending from Riverton were: Postmaster Ross E. Mattis, Lawton Street; Walter Armstrong, Stanley Carr; Ogden Mattis, Edson Carhart and Edward Faunce.

Palmyra was represented by Postmaster George L. Harvey, Mrs. Cann, Miss Florence Cramer, Stanley Black and James Seithers.

LITERARY REPLY

"Dear Doctor: My poor billy goat is seriously ill from eating a complete leather-bound set of Shakespeare. What do you prescribe?"

Answer: "Am sending Literary Digest by return mail."

SOME SPEED

"Waiter," said the customer, after waiting fifteen minutes for his soup, "have you ever been to the Zoo?"

"No, sir."

"Well, you ought to go. You'd enjoy watching the turtles while you wait."

McCALL PRINTED PATTERNS

McCall Printed Pattern 4393

Plan To Organize Mt. Holly Charity

Need of United Effort Set Forth by Dr. Longsdorf at Meeting

Representatives of thirty-seven of Mount Holly's fraternal societies, churches and other organizations interested in the benevolent work of the town assembled in St. Andrew's Parish House last week at the call of a committee composed of Dr. Harold E. Longsdorf, James T. Royle and Rev. John W. Gummere, for the purpose of discussing the feasibility of adopting a plan combining the charitable and welfare work of the town under one centralized body.

Prior to the opening of the real business of the evening a supper was served by the ladies of St. Elizabeth's Guild, at the close of which, Dr. Longsdorf, acting as chairman, called the roll of the organizations invited to send their representatives, and then read from a prepared paper the object for which the meeting was called, as follows:

Good Friends:
I am glad to greet you representatives of the Churches, Lodges, and other splendid organizations of this town. I am sure you are somewhat curious to know just what is back of your invitation to be present here tonight, and perhaps you have a desire to be informed as to the object of this meeting. A number of men—met one night recently at a little dinner. Our host introduced the subject of permanent constructive work in our community. A general discussion followed along the line of social conditions, charity work and promiscuous giving. The outgrowth of this meeting was the appointment of a committee which happened to be James Royle, Rev. Gummere and myself. We were requested to study the matter intensively and report to our club. We did so. One of the things we recommended was this dinner and get-together meeting, on behalf of the Rotary Club, welcome you here in conference with us.

Need United Effort
This is at once, I believe, the most unusual and distinguished small group of people who have ever gathered together in Mount Holly. You are trusted and tried members of nearly all the organizations of the town whose efforts are dedicated, in one way or another, to service in the cause of humanity. I have turned over to your activities, in many instances, are not confined to this locality, but are really world-wide.

I hope you will follow me carefully, and all other proceedings of the evening, so that you will be able to carry out to your members and others a better idea of conditions as they are in Mount Holly, and the remedy we are suggesting. The average community is faced to face with the important problem of its charity cases, and the proper method of administering aid. Mount Holly is no exception, and perhaps we have been carrying on through the organizations you represent as well as any community, but we know, each of us, that the work generally is being done in a very loose, slipshod fashion. There is a great deal of duplication, and an almost nonsensical expenditure of money and effort.

Will you pardon me if I tell you, in some detail, of a little experience a group of men had who tried to provide a Christmas for some needy children? Approximately twenty families, representing about ninety children were carefully selected from a rather large list of homes where there did not seem to be much prospect of a Christmas. Several individuals took some little time to ascertain what was needed for these children, and what the children might desire, and it was discovered, in most instances, that the children scarcely had, really did not have, the bare necessities, such as shoes or other articles of clothing. It was the original intention to buy toys and things for play but this plan had to be largely abandoned, for there was only a limited amount of money to spend and these children needed wearing apparel.

Home Conditions
This little experience was an awakening to some of our busy people. Home conditions were found, in some instances, to be almost intolerable. The houses frequently were dark, poorly lighted, and almost impossible to visit. They were not the kind of place to bring up children in. In some of the homes one of the parents was dead, in others bad social conditions existed. An analysis of these comparatively few cases showed that some families were deserving of charity, and needed aid, and will need aid. In others, alcohol was at the bottom of the trouble, and still in a few others, loss of a job was responsible for the difficulties. Bickering, very large families of young children, and other things played their part too. The big point in this group of cases is just this—that the men who made this little charity effort discovered at once, and much, that they were up against it, and how inadequately, in most cases, they were meeting the situation.

Who could these men do about the cases? How could they solve the problem? They really could not, and never can, alone. First of all, most men are too busy with their own work. Then, not a few are temperamentally and otherwise unsuited for the type of work required. I happen to know what a good many of the various organizations are doing in town. Often they do a lot of good—send a ton of coal or clothing to a needy family, and perhaps baskets of food at Christmas. Investigation has shown that some families have received four or five lots, consisting of perishable articles of food, part of which is not consumed, and therefore wasted. Dinners are often provided, and perhaps even this effort, since it is, does not always fall to the lot of the really needy. Someone has estimated that in various ways we are expending more than \$10,000 annually on perhaps five hundred or more individuals, and a large percentage is either wasted outright or not always wisely expended.

Neighborhood
I have been watching this thing in our community for at least a dozen years. No one has had a better opportunity to observe conditions in the home than I have.

Further, because of my connection with the public schools of Mount Holly during the past eight years I have added to my store of knowledge in this direction. We have had school nurses for a few years, who have done highly constructive work—that is, in counting nights—but a nurse cannot attend to her school duties, look after a large group of babies, and help solve the problems of the home. Much of the work to which I am referring is out of her field, even if time did permit. Someone must help make living conditions better in the homes. The importance of looking after the appearance and clothing of children, and at least keeping the home clean, must be taught many people. Simple hygiene and sanitation must be explained. Home economics should be practically demonstrated. People out of jobs should be helped on the way to employment where possible. People in difficulties should be represented before the proper officials. Many persons are ignorant of a possible source of help, and often no one is especially interested in them.

I purposely haven't told you anything of a sensational nature. I haven't attempted to appeal to your emotions in any manner that might hurry you into hasty action. I have tried to stick to a very modest and honest brief statement of fact.

Now having established, I hope, to your entire satisfaction, the need, the justification of charity here, you are interested, I am sure, in a remedy or plan that offers improvement.

Plan Organization
Our plan is the organization of our charities. The idea is not a novel one. It has been tried and is working in many communities. We are not offering you an experiment. We are not traveling, or asking you to travel, an unchartered sea. No, the way has been made perfectly clear through the efforts of other people with a real vision. We do not wish to offer you a hard and fast plan, but our committee has felt that we would like to meet you, and let you take back to the organizations you represent the germ idea—centralization in the direction of our charity efforts. We hope to have you decide tonight to meet together again, say in one month, with authority from those who represent to act. At this second meeting we wish you to select a steering committee, say of five or seven members, who will represent this entire committee, and who will be the directing body. A budget will have to be prepared and subscriptions taken, and all funds for charity will be turned over to this special committee.

Executive Board
We further believe that a social service worker should be secured and be under the direction of the executive or governing board. You will hear later fully about the duties and functions of a social service worker.

Once again, and for the last time, I want to mention the fact that thirty-five of your representative citizens, the Rotary Club in this instance, offer this idea to you. Those of you who feel that the humanitarian interests which they have with you in this matter, that it is really economical even at once, and practical, and therefore they are backing the plan a hundred per cent. Tomorrow's Rotary is just one of the units of the organization which we hope you will perfect. We individual Rotarians immediately lose our identity with you. We ask each of you representing organizations to purchase with different points of view, but with very much the same ideals, to meet here upon a common level. America has often been likened to a huge crucible, where many of the various peoples and races of the world are being mixed and made over. Would it not be a happy circumstance if this meeting should result not only in the accomplishment of our purpose, but in the cementing together of all these churches, organizations and people here represented, in a closer bond of friendship and fellowship, with a common purpose—the desire to serve for the good of all?

Idea in Bound Brook
Miss Gertrude M. Harding, head of the social welfare work in Bound Brook, N. J., was then introduced and told of the history of the organized charity movement in that city. She is the official in charge, working in cooperation with the town nurse, municipal authorities and other civic bodies. Her duties consist of visiting the poor, assisting them to help themselves by adding these out of work to find positions, distributing relief in the form of food, clothing and money where necessary, trying to solve social problems.

Organized charity there is carried on under a budget system which has been working since 1916. In its early days, it had many disappointing things to contend with, but as people have come to understand the benefits to be derived in the way of a point where the amount expended yearly through its channels is \$7,000. Bound Brook has a population of 8,000, largely foreigners. Miss Harding was asked several questions as to how her work was conducted and gave much information to her listeners.

Overseer of the Poor
Overseer of the Poor Patrick Dolan then spoke of the need for a social worker in Mount Holly, telling of many cases that come to his attention continually—not only cases of poverty, but of children being brought up in depravity—cases that were so sordid that some of his members were shocked to learn that such conditions could exist here, and there was no one who did not believe that something should be done to remedy them.

Many others present entered into the discussion, but nothing definite was decided upon in the way of procedure in the matter, although it seemed to the consensus of opinion that there is real need for some organized system of dispensing charity in Mount Holly, and it was finally decided that the representatives present should carry back to their organizations the information they had received, endeavor to enlist the moral support of their entire membership, and then convene at another meeting in St. Andrew's Parish House on Thursday evening, March 1, when a plan for organization will be decided upon.

VOICE SCHOOL FOUNDATION FOR GOOD OPERATING SAYS CHIEF

Pittsburgh's Training School for Student Telephone Operators

A highly organized school system, maintained by the Bell Telephone Company of Pennsylvania, is the foundation for the training of the young women operators whose Number, Please, is so familiar to the ears of telephone users, says Miss Gertrude Smith, Chief Operator of the training school in Philadelphia.

This system functions wherever the Bell Company operates and has for its purpose the training of voices to insure proper transmission over telephone lines, she said. Philadelphia and Pittsburgh are each provided with a large and fully equipped school. Outside of these metropolitan centers in Pennsylvania, and in Delaware and New Jersey, where Associate Companies of the Pennsylvania Bell Company operate, student operators receive their training in the Central Offices.

Class succeeds class in the large schools throughout the year. Pittsburgh has an average of 41 young women in training all the time and the Philadelphia school has about 55.

New Shore Resort Being Developed

Wonder of Pinewald Described at Meeting Held in Delanco

Last Friday evening at the office of Roy E. Williams, Delanco, a gathering of men and women interested in the development of Pinewald were addressed by Mr. Beaver, the confidential representative of B. W. Sangor and Co., owners and developers of Pinewald.

Pinewald is located almost directly east from here on the Barnegat Bay approximately five miles south of Toms River and is the scene of the biggest development ever undertaken by B. W. Sangor and Co. It is frequently spoken of as the crowning achievement of the company's many years experience in community building.

Mr. Beaver explained that Pinewald was selected because of its ready accessibility to approximately twenty million people who are only about two hours distant either by train or auto with excellent facilities for travel; because of its wonderful climate and beauty, being located right in the famous Pine Belt of Ocean County and because of many more natural features which may be readily adopted by the experienced community builder. At this place there is now being developed a wonderful all-year-round pleasure and health resort city. Among some of the many special development features, which are either now under way or scheduled for the immediate future, can be mentioned the spacious beautiful 105-foot boulevard and drivers, the 18-hole golf course where golf can be enjoyed 12 months in the year, country club house, the beautiful fresh water Crystal Lake covering an area of approximately 100 acres, a magnificent 250 room fashionable hotel and many other features either under way or slated for action in the near future.

Several hundred new homes are about to be erected in Pinewald, many of them being financed up to 75 per cent, of their value through the Ocean County Bond and Mortgage Co., a subsidiary corporation. Mr. Beaver asserted that at Pinewald will be developed one of the best known pleasure and health resort cities in the country and all within a remarkably short time. So confident is the company in the attractions of Pinewald that free transportation and entertainment are provided each Sunday for the people who desire to investigate. Comfortable bus service leaves every Sunday morning at a quarter to one from Burlington Avenue and Willow Street, Delanco.

WIN TWO

P. H. B. Hoyle and Girl's Teams Score Big Victory
The Palmyra High School basketball team performed brilliantly Tuesday evening as they chalked up a pair of decisive victories at the High School gym.

"Boots" Lever Is Kiwanis Speaker

Famous Athlete Gives "Fifteen Points of Keeping Fit"

Harold B. ("Boots") Lever, former Captain of the Penn Track team and holder of a number of world records for sprints, addressed the Riverside Kiwanis Club at its luncheon last week.

"Boots" took for his subject the "Fifteen Points of Keeping Fit" and told the Kiwanians how the average business man could easily keep himself in trim by following a few simple rules.

The cardinal principle of "Boots" system was regularity of living habits, eating, sleeping, etc. Regularity and moderation in eating is one of the chief keys to health. One should always arise from the table, said the speaker, feeling as if he could eat more if he didn't have better sense. Regular breathing exercises keep the lungs fit and help ward off colds and other ills.

Must Watch Teeth
Proper care of the teeth was another item stressed by the famous sprinter. He told a story of how an athlete once failed completely for a whole season and then found he was suffering from hidden abscesses of the teeth which were draining all his strength. He had this condition remedied and the next season proceeded to break several records.

"Boots" took it for granted that every Kiwanian slept with his windows open, but suggested that it would be a great benefit to do away with pillows, as such headrests do not allow the spinal column to keep its proper position. Correct posture is also important in sitting and standing, giving all the organs a chance to function properly.

Drink lots of water, and often, said the speaker. "Water flushes out the system and keeps it clean and fresh. Take a bath every day, topping it off with a cold spray if taken in the morning after the daily shower."

One's diet should be scientific. Foods such as meats, white bread, fruits, milk, butter, cheese, nuts and white sugar, rice and eggs are acid producing. The body has no place for acids and is constantly throwing it off. Foods which produce alkalines, such as fresh vegetables, fruits, milk, butter, cheese, nuts and the so-called neutral foods should be eaten.

Comfortable Clothing
Clothing should be comfortable. One always feels better in a new suit, said "Boots," because it usually fits better than an old wrinkled one.

Mental attitude is also a great factor in health. Forget your worries. Forget your business after you leave the office, so you can enjoy the atmosphere of your home. "Smile awhile," every now and then. Proper exercise, taken regularly, furnishes the chief requirement for the proper development of the muscles and the correct function of the organs. Exercise is a tonic, a builder, a strengthener which will arm the body against diseases and enable it to do its daily work better as well as to enjoy life to the fullest.

In response to questions, Mr. Lever said the best training for any athlete was to establish regularity in living habits. After that it was a question of specializing.

"Doc" Edwards announced that

Bill Booster Says

O-Operation Is What Makes the Tennis Game

Mr. Cox, a noted female impersonator in the Mask and Wig Society of the University of Pennsylvania, has been engaged to coach the dancers and he is proven to be fully as expert as was Paul Thomas last year.

P. H. S. Radio Club
Under the direction of the recently organized Palmyra High School Radio Club a drive is being made to install a high-powered receiver in the school. The work is being carried on under the supervision of Arthur N. Palmer, of the faculty, who is the club's advisor.

Mr. Palmer says the proposed radio set would be of a great educational advantage to the school as it would be possible to receive lectures broadcast by famous speakers in the auditorium and classrooms, would prove a valuable asset to the domestic science classes when cooking talks are broadcast and could be used after basketball games to furnish music for dancing in the gymnasium. Many helpful discussions might also be picked up for physical training work.

The boys of the club, which has a membership of thirty, will build the powerful receiver. At the present time the club is using an ordinary set of the type used in homes and is obtaining excellent results.

In addition to receiving assistance from several members of the faculty, members of the Palmyra Board of Education who are "dial twisters" fans are cooperating with the Club in its work.

Robert Mathews is the president of the Club, Roscoe Haines is the vice-president and Jack Smith is serving as secretary and treasurer.

Look Ahead!

Some day soon Palmyra is going to be a bigger and busier town.

Are you going to be in position to share in the benefits of this growth?

A great deal will depend on your financial condition.

Prepare Now!

An account in this bank will help in many ways toward the desired result.

"THE OLD RELIABLE"

Cinnaminson Bank & Trust Co.

Riverton, N. J.

THE NEW ERA

Published every Thursday at 607 Main Street

Riverton, N. J.

Entered as second class matter at the Riverton, N. J., post office

WALTER L. BOWEN, Editor

The New Era is devoted to the business and home interests of Riverton and Palmyra, independent of political or religious belief—the people's paper

Subscription \$1.50 a year in advance

Advertising rates on application

The New Era Office is equipped to do all kinds of Fine Printing at reasonable prices

LEGAL ADVERTISEMENTS

The New Era is a Legal Newspaper. Commissioners', Sheriff's and other Sales, Administrators' and Executors' Advertisements are solicited. The New Era will appreciate being remembered in this connection.

NOTICE

All readers or local notices of entertainments, suppers, fairs, dances, etc., given for the purpose of raising money, will be charged for at the rate of fifteen cents a line.

THE QUESTION BOX

Whales Are Shot

Subscriber, Riverton—I would like to ask you how they catch whales?

Ans.—Whales are caught by shooting with a combined harpoon and bomb fired from a swivel gun mounted on the bow of a steamer.

Why the "White House"

H. N. Cinnaminson—Why do they call the President's home "the white house?"

Ans.—Because the building is constructed of free stone and is painted white. During the administration of Harrison and McKinley the term "executive mansion" was used by the officials, but Roosevelt returned to the term "White House."

How Many Stars?

J. E. Palmyra—How many stars are there in the heavens and how far away is the nearest?

Ans.—The stars are grouped in magnitudes from the sixteenth magnitude—and the number is unknown as science is unable to go any farther than the sixteenth. From the first to the sixth, however, there are 3,000 stars visible to the naked eye; 20,000,000 are visible by telescope. Outside of the solar system the nearest star is forty-six trillion, five hundred billion miles away.

Mourning Colors

H. D. Bridgeton—Is black used the world over for mourning?

Ans.—No; America and Europe use black as a symbol of the privation of light or life; in China it is white, to represent purity; in Egypt it is yellow, which is the color of leaves when they fall.

Differentials

J. J. Cambridge—What is meant by "differentials" in talking about an automobile?

Ans.—The differentials of an automobile is the form of slip coupling used to transmit all the velocity ratio of the coupled shafts that is, when your automobile goes around a corner the outside wheels will slip so that they will travel faster than the inside wheels.

School Mountain

Reader, Delair—I received a card from a friend in New York and said she visited a couple of days at School Mountain. Now will you please tell where that is, as I can't find it in the geography?

Ans.—School Mountain is in Essex County, New York, and the place is a popular summer resort.

King's Daughters

E. P. D. Bridgeton—You have had at different times in your paper a question and answer column and I am just wondering if I might not turn to you for help in an extremely little talk in the church of our neighboring village of "The King's Daughters." Have tried from three sources to get some information on the origin of the movement, etc., but cannot as yet get practically anything.

Ans.—The order of King's Daughters is an organization of American women, irrespective of age or religious faith, founded in New York 1886, Jan. by Mrs. Margaret Bottoms for the purpose of uniting all Christian women in a sisterhood of religious and charitable service. The badge of the order is a small Maltese cross in silver suspended from a royal purple ribbon; the motto, "In His Name." The various lodges, supreme and subordinate, are called "Tens," and each subordinate may have an unlimited number of members, and add to the "Tens" any distinctive name that they choose, as "Hospital Tens," "Reading Tens," "Floral Tens," "Sewing Tens," all engaged in hospital work, etc. The injunctions of the order are "Look forward and not back," "Look up and not down," and "Lead a hand." The badge is to be worn conspicuously at the throat or on the breast, and recognition is by the members touching or pointing to their own badges, shaking hands, and while doing so repeating the motto, "In His Name." It was estimated 1889, July 1, that there were more than 40,000 King's Daughters in the United States, ranging from the girl of 8 or 9 years of age to the woman of 80 years; and the order had proved so popular and beneficial that steps were taken to form a co-operating order of King's Sons.

Monday

D. C. Palmyra—Will you kindly tell me on what day of the week I was born? The date was April 3, 1891.

Ans.—You were born on Monday.

Some people really seem to know more than is good for them. Others although knowing less, have the happy faculty of being able to adjust themselves to conditions and make the best of them.

When in doubt, shaver!

It costs a lot of money to die comfortably, unless one goes off suddenly.

Riverton Items

James R. Coale has a new Buick sedan.

Mrs. Lillian Chalm visited in Audubon on Sunday.

Mrs. S. B. Lisk spent the weekend in New Haven, Connecticut.

Mr. and Mrs. J. Lawrence Lippincott have gone on a trip to the West Indies.

Miss Helen Lippincott has gone to Coral Gables, Fla., to spend a month with Mrs. E. C. Grice.

Miss Nan Golden, of S. Orange, is visiting her grandparents, Mr. and Mrs. William A. Major, this week.

Mr. and Mrs. R. V. Townsend entertained his parents, Mr. and Mrs. Townsend, of Fitchburg, Mass., over the weekend.

Miss Ione Barnard and Henry Hibeau, Jr., of New York, were the guests of Mr. and Mrs. M. Southem, over the weekend.

Mrs. Edwin Saint, a former resident, now of Woodbury, left for West Palm Beach, Florida, Saturday to be gone three months.

Mr. and Mrs. William Minks, of Palmyra, and Mrs. Mary Stratton, of Broad street, motored to Glassboro Sunday to visit relatives.

Mr. and Mrs. Walter Compton and daughter, Barbara, of Washington, D. C., spent the weekend with his parents, Mr. and Mrs. E. E. Compton.

Miss Ella Kebr, of Scranton, Pa., Miss Jean Packer, of Sayre, Pa., and Miss Nina Kebr, of Philadelphia visited Mrs. S. A. Plumly over the weekend.

Miss Elizabeth Scott, who was taken sick during Christmas holidays at the home of S. A. Plumly, is still very ill at her home in Ocean Grove, N. J.

The famous Stamen Winesap apples put up by Evan Stover call now be purchased at Compton's at the same price Mr. Stover sells them. See Compton's adv.

Mr. and Mrs. Clarence N. Hubbs, of Thomas Avenue, are receiving congratulations on the birth of an eight-and-a-half-pound son, Donald, early Friday morning of last week.

Improvements in the Riverton council chamber, being made by the Fire Company are well under way. A heavy battleship inclosure has been laid on the floor and the furniture is being refurnished.

Mrs. Lucy Biddle Lewis, of Lansdowne, will be speaker at the meeting of the League of Women Voters, which will be held this Thursday afternoon at 2:30, the 25th, at the home of Mrs. John O. Buehrer, Broad and Main streets.

Little Arthur Reeves was attacked by a collar dog belonging to the railroad tracks at Main street, Monday afternoon, and expected last about two weeks ago this same dog bit Walter Hirst, whom he attacked while the boy was riding his bicycle. The matter was reported to Officer Miller of the Riverton Police Department, and the dog was tied up for a few days but was soon again at large. The Reeves boy received a severe pinch on the leg but the skin was not broken.

Man Not Yet Able to Make Wind Work

If we could bring the wind into subjection, and store it for power purposes as we do water, it would enable us to scrap our coal mines and oil wells.

The power of wind is enormous. An ordinary 20-miles-an-hour breeze, such as one commonly feels on the pier at the seaside, exerts a pressure of two pounds to every square foot, whilst if the wind speed is doubled the pressure is quadrupled. That is to say, a 40-miles-an-hour wind exerts a pressure of eight pounds per square foot.

The trouble is that the wind pressure is so variable. It is estimated that during 24 hours, taking the year round, there are 10 hours during which the wind is not strong enough to turn the sails of a windmill.

But even this inconsistent agent can do a great amount of work. At Faversham a 15 horsepower windmill raised in ten months 21,000,000 gallons of water from a depth of over 100 feet. Needless to say, every year, in Britain alone, hundreds of millions of horsepower blow to waste, which could be utilized, would turn every wheel in the land.

Law Defines Certain Rules for the Married

It is a truism to say that marriage brings responsibilities, but how many men, when they marry, realize what their full, and legal, burden might be in certain circumstances?

The law says that a man is not bound to maintain any of his wife's relatives, but—somehow queer exception—he is bound to maintain, until they are sixteen, any children she may have had by a former husband.

Thus a man who married a widow who concealed from him the fact that she had children would have a big burden to bear.

A married man is not bound to maintain his son's wife, or his son's widow, or his daughter's husband, whatever their circumstances, but he can be compelled, if necessary, to contribute toward the support of the grandchildren.

To balance the grandchildren responsibility, he cannot be compelled to maintain his own grandfather or grandmother—or his brother or sister—London Tit-Bits.

Frozen Alive

It seems a shocking thing to freeze fish alive to keep them fresh for the market at their journey's end, but it has been found that when they are unfrozen they are just as lively as before, and show no sign of injury or illness.

It was noticed that fish in Siberian rivers that are frozen in winter come out all right in the spring, and this gave the idea for experiments which have been going on for some time. The system is now being adopted in America as a regular thing.

The fish are put in a tub into which oxygen is forced, and after being kept three days just above freezing point they are frozen, and the blocks of ice, stripped of the tub, are wrapped up and put into cold storage.

Forest Profits in Short Period

Not Necessary to Wait Lifetime to Realize Returns From Trees.

Contrary to the current belief one does not have to wait a lifetime to realize returns from forest plantations.

In fact, continues E. L. Sevell, specialist in farm forestry at Rutgers university, trees established on idle lands next spring will yield the owner a very substantial profit in six to ten years.

Interplanting Favored.

Interplanting of pine and Norway spruce or Douglas fir in the answer. In a plantation of this sort Norway spruce is planted at intervals of six feet in rows six feet apart. Pine, preferably white or red pine, is then planted in the alternate intervals. As the pine grows much more rapidly than the spruce during the first few years, it is best to postpone the planting of the pine at least two years from the time the spruce is set. This allows the spruce trees sufficient time to become firmly established and to assure their not being crowded too quickly by the pine. When planted at this spacing, 1,200 trees of each species are required on an acre.

Under ordinary conditions the spruce will be suitable for Christmas trees when six to ten years old. Trees of this size are now bringing 50 cents to \$1.50 per tree delivered at the market. If two-thirds (800) of the planted trees reach maturity—the mortality is generally much lower—the harvested crop per acre at present market prices would be worth from \$400 to \$1,300 delivered.

Profit From Thinning.

The pine is left to grow to timber size. When harvested at forty years of age it will yield 20,000 to 25,000 board feet of lumber per acre, worth \$150 to \$200 at present market prices standing in the field. In addition it will yield a small profit when the first thinning is made, usually fifteen to twenty-five years after planting, and substantial returns from thinnings at regular intervals thereafter.

The total investment, including taxes and compound interest for a ten-year period, when the Christmas trees are harvested, will not exceed \$35 an acre. The additional cost of carrying the pine to maturity is practically negligible.

Winter Green Feed Very Important for the Hens

If one has cabbages or mangels stored in a cellar where they may freeze, it often pays to keep a thermometer in the cellar and give it additional protection, or use a lantern to bring up the temperature if the mercury begins to stand close to 32 degrees. Frozen green feed is not good for hens, and constant freezing and thawing is not good for the keeping qualities of the feed.

Hens do not like ice-cold grain, but they will eat sprouted grain, and it means to be a satisfactory green feed. Sprouted oats are generally used. If you make a homemade grain sprouter with wooden trays, heated with a kerosene incubator lamp, be sure the fire risk is not greater than the value of the sprouted oats. In most cases, I think the metal sprouters are a good investment, because the fire risk is greatly reduced.

When mangels are sliced and thrown in the litter, they pick up more or less dirt and straw. Cutting them in halves and laying them in wooden troughs may be a better way. Then the hens can pick out the succulent feed more readily than when the pieces are half-buried in the litter.

Make Garden Plans

Plan your garden for this year. Use as a basis the amount of vegetables needed by your family for a healthful diet. Plan for the greatest quantity of the vegetables your family particularly likes. Make the location and size of plot fit the garden you want, whenever possible, rather than plan the garden to fit a space that may be too cramped or inconveniently located.

Aggravates Insect Damage

The continuous cropping of land to the same crop frequently aggravates insect damage. Where corn is grown year after year in the same fields, the yields may show considerable reduction. Much of this loss may be due to insect activities. To practice the rotation of crops as a means of lessening insect damage is a good plan.

Farm Hints

Many chinch bugs may be harbored in those old fence rows and roadsides.

Manure that is thrown out in the weather in a barn yard pile will lose half its plant food in six months.

Crop rotation systems, manuring, fertilizing, are some of the ways that the natural fertility of the soil may be restored.

Half the pleasure of a garden is in planning it before hand—and half the work may thus be saved. It is winter-evening fun that will pay fully dividends all next season.

NOTICE OF SETTLEMENT

First and Final Account

Estate of John J. Adolph

Notice is hereby given that the first and final account of the subscribers, executors of John J. Adolph, deceased, in the county of Burlington, will be audited and stated by the Surrogate and reported for settlement and allowance to the Orphan's Court for April 1st, 1932.

Palmyra Notes

Miss Nora Carpenter spent the weekend at Atlantic City.

Mr. and Mrs. William Kooker are spending some time in Wildwood.

Mr. and Mrs. Harry Kommerle, Jr., spent the weekend at Atlantic City.

Mayor James T. Weart left Tuesday night on a two-day business trip to Boston.

Mrs. John T. Kelly, of Beverly, spent Tuesday with her daughter, Mrs. Joseph Land.

Mr. and Mrs. Corbett Thompson moved from Garfield avenue to 25 Henry street this week.

Mrs. Aaron White and family, of Horace avenue, spent Sunday with her mother in Philadelphia.

Mr. and Mrs. Albert Smith, of Stonehurst, spent the weekend with her father, Harry Kommerle, Sr., Clifton S. Seal, of East Orange, spent the holidays with his parents, Mr. and Mrs. George J. Seal, Sr.

Mr. and Mrs. Leonard R. Baker and family and Robert Blackburne motored to Port Elizabeth Sunday.

Dr. Harry Mark won the "mysterious prize," a fine leather traveling bag, at the Artisans' meeting last week.

Mrs. H. F. Smith, of Garfield avenue, will entertain the Bitch and Chatter Club at her home this afternoon.

Mrs. Etta Thompson, of Dias Creek, is spending the week with her sister-in-law, Mrs. William L. Fichter.

Mr. and Mrs. William P. Blackburne and Mr. and Mrs. Russell A. Blackburne motored to Lindenwood Sunday.

Miss Ada Swain and H. B. Buehl, of Beverly, were guests of Mr. and Mrs. Joseph Land, of Rowland street Sunday.

Mr. and Mrs. James D. Antrechy entertained a few friends at the S. A. H. Club Wednesday evening of last week.

Mrs. Elmer Jones entertained the Happy Hour Sewing Circle at her home on Rowland street Monday evening.

Mr. and Mrs. William Powell entertained Mr. and Mrs. Clayton Buckage, of Indian Mills, at dinner on Sunday.

Mr. and Mrs. Howard Alloway entertained a few friends at their home on Elm avenue last Saturday evening.

Robert Blackburne, of Newark, was the guest of his sister, Mrs. Leonard R. Baker, of Garfield avenue, over the weekend.

Mrs. John Hopfinger, treasurer of the Palmyra Ambulance Association, acknowledges a contribution of \$100 from Cinnaminson Township.

Miss Mildred Shedd, of Perkins Lane, was the guest of Mr. and Mrs. Albert St. C. Jones, of East Fifth street, over the weekend.

Mr. and Mrs. F. Smith and daughter, of Woodlawn, were guests of Mr. and Mrs. Milton Jewett of Washington avenue, Sunday.

A meeting of the Needle Work Guild will be held at the home of Mrs. A. C. Giberson, Charles street, next Tuesday afternoon at 2:30.

John DiPalma, of West Broad street, motored to Vineland, where he was the guest of his father, Joseph DiPalma, over the weekend.

The Philathia Class of the Central Baptist Sunday School will meet at the home of Mrs. Joseph H. Abduh, Garfield avenue, this afternoon.

Mr. and Mrs. Elmer Hahn and Mrs. George Harold Baker were dinner guests of Mr. and Mrs. Harry P. Orlmann in Loran Monday evening.

Miss Kathryn Green, of Charles street, entertained a party of girls friends who are students at the art school which she attends, at her home over the holidays.

The regular monthly meeting and social of the In-A-Much Bible Class will be held at the home of Mrs. A. Harry Hudduck, Washington avenue, Tuesday evening, March 2.

Mrs. Frank Kates, of Garfield avenue, underwent a serious operation at the Hahnemann Hospital, Philadelphia, Friday of last week. She is reported to be improving slowly.

Mr. and Mrs. Montgomery A. Simons are receiving congratulations on the birth of a son, Montgomery, Jr., at the Presbyterian Hospital, Philadelphia, Saturday, February 15.

Dallas Wentzell, of Washington avenue, called the Palmyra Fire Company Sunday afternoon when a heater pipe became red hot while the fire was burning out. No damage was done.

Through a typographical error this word "Mrs." was omitted from a local news item week before last. The note should have read Mrs. George M. Becker and Mrs. William Harry Buck are spending the week at Atlantic City.

Mr. and Mrs. Charles Laymond MacFarland, of West Philadelphia, are receiving congratulations on the birth of a daughter, Ruth Adelle, Feb. 20th, at the home of Mr. and Mrs. John R. Hudson, Cinnaminson avenue.

Little "Dickie" and Peggy Bonal are spending some time with their grandparents, Mayor and Mrs. James T. Weart, while their parents, Mr. and Mrs. Alonzo F. Bonal, of Montclair, are enjoying a two-week vacation at Bermuda.

Harold B. (Boots) Lever, who is Athletic Officer of the 103rd Engineers, Pennsylvania National Guard, is in charge of the inter-continental relay events at the College of Osteopathy Indoor Track Meet at Philadelphia, Saturday, February 22.

Camp No. 3 of Palmyra did the latitatory work, Mrs. Nettie Bowker, degree mistress, was in charge of the Palmyra group. Two hundred and seventy-eight members were initiated and Mrs. Mary E. Hagerty, of Phillipsburg, assisted the degree team as orator.

Later Tuesday night the Palmyra Fire Company was called to the Bailey home at 415 Park avenue. A small gas-filled chimney pipe which ran from the kitchen stove became over heated with the use of soft coal and ignited the woodwork where it ran through the ceiling. The firemen made quick time and extinguished the blaze before such damage resulted to the home, although a new chimney, with more precaution used where the pipe goes through the partition, will have to be built.

MICKIE, THE PRINTER'S DEVIL

But One Opposed To Ladder Truck

"And He Lives in One-Story House," Says Mayor Weart

Only one resident has opposed the purchase of the hook and ladder truck for the Palmyra Fire Company, says Mayor James T. Weart. "And that fellow lives in a bungalow," added Mr. Weart.

Chief Beck says he and several of the firemen have interviewed many of the prominent citizens and to date the only opposition met was by the resident mentioned by Mayor Weart.

With the present equipment the longest ladder will only reach twenty feet. Several times recently the company has been called upon to battle chimney fires in the third floor of houses. Without ladders, it has been necessary to fight the fire from the interior.

The result has been that the firemen have had to drag the heavy load of hose up three floors and then at the risk of loss of life or serious injuries, have been forced to enter the attic filled with smoke and a swirling mass of flames to get at the seat of the blaze. Much time is lost in this manner of attack on the conflagration.

Many of the citizens feel that the proposed hook and ladder would be a benefit to all and an added protection to both the company and themselves. With little or no opposition it is expected that further steps will be taken in the near future.

Assistant Chief Joseph L. Stack, when he broached the subject at the regular meeting last week, was told that the Mayor and Council heartily endorsed the movement but would prefer to get the consensus of opinion about town before taking action.

Along with sounding out the opinion of the taxpayers the firemen are obtaining specifications and full details of this type of apparatus made by several leading manufacturers before formally presenting the proposition again.

Moral Herein Is "Do Your Own Love Making"

It is one of the strange inconsistencies of human nature that, while some men would walk up to the guns of an enemy without a tremor, they find a terrible inclination to turn tail and fly when they are called on to face the battery of a pair of sweet eyes and ask a simple question to which they have reason to expect a gratifying answer.

This is why so many thousands of lovers seek courage in pen and ink and distance, and make the postman the innocent ambassador of their desires; but it is scarcely conceivable that a man who has this resource open to him should choose the alternative of getting a valiant and obliging friend to propose for him.

That there is a decided element of danger in a proposal by proxy was proved by the evidence given in a recent breach of promise case.

The defendant sought to excuse himself by declaring that his proposal was not a serious one. It appeared that an intimate friend was deeply in love with the fair plaintiff, but could not nerve himself to put his fate to the test. The defendant had volunteered, "Just as a joke," to take his place and make the best of his client's case. Unhappily he carried the joke too far; for, instead of laying his friend's heart at the lady's feet, he laid his own, and, to his amazement, was accepted.

It proved an expensive jest, however, for it cost him \$1,500 to disentangle himself from its consequences; and no doubt if ever again invited to plead a friend's love, he will be justified in retorting, "Do it yourself."

In another case, where a defendant sought to excuse himself on the ground that a friend had proposed for him without his full consent, the engagement, which had been weakly confirmed by subsequent letters and presents, was pronounced binding; and when a verdict for \$1,500 was awarded to the plaintiff, the judge humorously suggested that "as he had wooed by proxy, he might as well pay by proxy," which, alas! is quite another thing.

Best to Be Sure About Seed Corn

Corn Not Out of Field Before Frost Should Be Tested for Germination.

(Prepared by the United States Department of Agriculture.)

Seed corn for 1925 planting offers an interesting contrast to that for 1924. The United States Department of Agriculture, from the standpoint of maturing corn, the summer of 1924 was one of the poorest in many years. As a consequence there was every indication that there would not be enough seed corn to go around in the spring of 1925. An active campaign by the agricultural experiment station and the federal Department of Agriculture, aided by realization of the very evident danger, resulted in more seed corn being field selected and dried than ever before. Finally, unusually favorable weather during September and October permitted much corn to dry in the field without being damaged for seed purposes. Therefore an abundance of good seed corn was available for planting in 1925.

Seed Corn Situation.

In contrast, the summer of 1925 was unusually favorable for the rapid development of corn. The crop went into September in excellent condition and the prospects for seed corn were the best. Field selection of seed corn was put off in many cases because of these facts and early freezes occurred before many farmers had selected their seed. These conditions have contributed to a prospective seed corn situation next spring which, while not serious, may be unfavorable.

In Iowa, for example, the temperature during the last week in October was low, zero weather occurring over more than half of the state. Corn containing more than 20 per cent of moisture is ruined for seed purposes when subjected to such temperatures. Conditions similar to those in Iowa occurred over much of the corn belt.

Test for Germination.

Farmers who did not have their seed corn out of the field before the first freeze should test it for germination as soon as possible. Directions for conducting such tests may be had from their state agricultural experiment station or the United States Department of Agriculture. A preliminary test of two kernels from each of 100 ears of the kind to be planted will show whether the seed are good or whether other arrangements must be made.

ADMINISTRATOR'S NOTICE

ESTATE OF ANNIE KIRBY SIMMONS

Notice is hereby given that an order has been made by the Surrogate of the County of Burlington, bearing date on the 1st day of February, 1925, upon the application of the subscriber, administrator, requiring the creditors of Annie Kirby Simmons, deceased, late of the County of Burlington, to bring in their claims against the estate of said decedent under oath or affirmation on or before August 1st, 1925, or they will be barred thereafter against the said administrator.

H. HOWARD THORNTON, Administrator.
Dated February 1, 1925. 2-4-25-6

Who was the first man to begin eating asparagus with his fingers? What a lot of things there are to disagree about at home. Wonder if the old boys ever did work sixteen hours a day? The men who used to pull out their gold-filled, jeweled watches on the slightest provocation now talk about their automobiles and golf scores.

IMPROVED UNIFORM INTERNATIONAL Sunday School Lesson

REV. P. B. FLETCHER, D.D., Dean
of the Evening School, Moody Bible
Institute of Chicago.
(C. 1925, Western Newspaper Union.)

Lesson for February 28

JESUS TEACHES RESPECT FOR
LAW.

LESSON TEXT—Matt. 23:23-24-40.
GOLDEN TEXT—"Ye think that I
am come to destroy the law and
the prophets. I came not to destroy
but to fulfill."—Matt. 5:17.

PRIMARY TOPIC—A Lesson on Ob-
edience.
JUNIOR TOPIC—Obeying the Law.
INTERMEDIATE AND SENIOR TOP-
IC—Obeying the Law.
YOUNG PEOPLE AND ADULT TOP-
IC—How to Secure Respect for Law.

It is to be regretted that the lesson
committee introduced this lesson, im-
portant as it is, thus breaking up the
unity of instruction in the Gospel of
John. Teachers who prefer to con-
tinue in John would do well to choose
John 12:1-11 as the alternative lesson.

I. The Tribute Money (vv. 15-22).
The Pharisees and Herodians pro-
posed to entrap Jesus and bring Him
into conflict with the Roman govern-
ment by asking Him to pay tribute to
Caesar or not? At this time the Jews
were galling under the yoke of the Roman
government. Some even denied the right to
pay tribute to the government. To have
answered this question yes or no would
have involved difficulty. To have answered
yes would have conveyed the impres-
sion of endorsement of all that the
Roman government did. To have an-
swered no would have brought Him into
conflict with the government. Christ's
reply to this question, properly under-
stood and applied, is the final word on
the subject. Until the civil authorities
demand of us that which is a violation
of God's law, we are bound to render
them obedience. "Render unto Caesar
the things that are Caesar's" means that
within the realm of the right of govern-
ment the Christian should yield glad
and full obedience. "Render unto God
the things that are God's" means the
highest obligation. Since enjoying His
protection and care, it is our duty to
own all allegiance to Him, to yield our
lives to Him in service, worship and
praise. Everyone who enjoys the benefits
of civil government is obliged to pay the
taxes which are necessary for the support
of that government, and everyone who
receives God's favor is placed in like
obligation unto Him.

II. The Great Commandment in the
Law (vv. 34-40).

1. The First Commandment (vv.
34-38).
"Thou shalt love the Lord thy God
with all thy heart, with all thy soul
and with all thy mind." This means
that supreme and undivided love to
God is the first and great command-
ment. Man's supreme obligation is to
God. It is wrong to evaluate man's
character on the basis of his morality
as expressed in his relation to his
fellowman. Real righteousness is doing
the right thing with God. The greatest
immorality of which a man can be
guilty is his failure to respond to
the demands of God. The one who
does not supremely and with undiv-
ided affection love God is the great-
est sinner.

2. The Second Commandment (vv.
39-40).
The second commandment is like
unto the first in that it centers in
love. It is not said that it is love
unto the first; that would not be true.
A man may love himself, but not su-
premely. One's love for his neighbor
may be either too much or too little.
The measure set is love for self. We
should love God better than ourselves.
He is worthy of all our affections,
and demands all. Love is not mere
emotion, but a supreme desire for the
welfare of another and a willingness
to do everything possible to secure
that end. The command to love our
neighbor is involved in the command
to love God. To pretend to love God
is folly if we do not love our neighbor.
To attempt to establish a brother-
hood among men without the recog-
nition of the fatherhood of God is
utter nonsense. Men become children
of God by faith in Jesus Christ. It
is true that in the sense of being
God's creatures, all men are God's
children, but in the New Testament
sense, men are only God's children as
they are in Christ. The only way to
bring in the brotherhood of man is to
preach Jesus Christ to the race and
secure acceptance of Him. We thus
become brothers in the real sense of
the term when we have God as our
Father. All obligation resting upon
man is embraced in these two com-
mandments. Those who conform their
lives to these God's children and are
the very best citizens.

Go and Come

There is a mighty go in the gospel
as well as come. It is come, go. Go,
preach and heal; go, come to thy
friends; go, into the highways; go, in-
to all the world. Many Christians do
not obey; many churches have no
blessing, because they do not go.—B.
F. Jacobs.

The Wealthy

When a man begins to amass wealth,
it is a question as to whether God is
going to gain a fortune or lose a man.

HE'D PLAY SAFE

She: "Father's feet are so sore
from walking to the office today that
he can't use them."
He: "Then I'll be out to see you
tomorrow!"

AN EMERGENCY

A station master on the East
Indiana Railway had been given or-
ders not to do anything out of the
ordinary with specific authority from
the superintendent. Therefore, the
following telegram:

Superintendent's Office, Columbia

"Please on platform waiting car for
train leaving at 11:15 a.m. for
Indianapolis. Mr. Jones is waiting
at station house."

What the County Y. W. is Doing

Needs of Young Womanhood
Being Studied and Met by
the Association

Here's to the girl! It matters not
if she be young or mature:
She's just a girl whom God has made
Half human, half divine.

But—While God made her so, cir-
cumstances and environment often
tip the scales.
It is the normal, red-blooded, fun
loving, boy-loving girl with whom
we have to do and in order to get
close to her, we must enter into
her pleasures as well as her prob-
lems; above all we must believe in
her, take it for granted she is good
—not "goody-goody"—and don't
question the purity of a mind to
which "all things are pure." Youth
needs understanding not suppres-
sion. Animal spirits must find a
way out. The "Piper O'Pan" are
insistent and "thou shalt not" is
ever the urge to Pandora's Box.

The world is waking to this fact
and today the Young Women's
Christian Association is meeting a
very definite need in the lives of
girls of Burlington County.
What the YW Offers
The Young Women's Christian As-
sociation offers every girl fellowship
and growth through Bible study, live
clubs, recreation, service work,
story hour, study classes. It co-
operates with the church and home in
helping to build the girl's character
that she may have a solid founda-
tion for a successful and satisfying
life. This aim is in the development
of well-rounded Christian Woman-
hood. The influence of the Young
Women's Christian Association is
felt in the homes, in the churches,
and in the schools of Burlington
County.

The group spirit, group action,
and group loyalty which are expe-
rienced in clubs have a direct influ-
ence in the girl's life. No commu-
nity can maintain standards higher
than the standards of its women.
The Burlington County Y. W. C.
A. is supported by contributions
from the citizens of the county,
and by the dollar membership paid
by members of the association. An
opportunity is given to the public to
share in the work of the Y. W. C.
A. by contributing to put
your hand in your pocket into the
scope and of the influence of
this organization that is training the
girl of today to become the worth-
while woman of tomorrow, and DID
DEEP.

Mid-Winter Conference
The sectional mid-winter Confer-
ence of the Industrial Clubs of New
York and New Jersey will be held
in the Y. W. C. A. in Trenton on
Saturday and Sunday, February 27-
28. Burlington County was apor-
tioned six delegates and as more
than this number have registered to
attend, an effort is being made to
secure space for more delegates if
there are any vacancies.
On Saturday afternoon a trip to
the State House has been planned.
At 6:30 the annual banquet will be
held, followed by a party and a fire-
side hour. The Sunday program is
full of interesting talks and discus-
sions. "Education for the Up-Coming
Generation" a discussion lead by
Miss Lucy P. Carner, and "Develop-
ment of Unity in Industry" are two
of the topics to be discussed.

State Meeting
At the New Jersey State Confer-
ence on the Cause and Cure of War,
held at Montclair on Jan. 21st the
following Resolutions were adopted.
These resolutions will be of great
interest to the Women's Organiza-
tions of Burlington County.
Resolutions on Promoting Inter-
national Good Will
Whereas, We believe that it is
possible for the women of New Jer-
sey to aid in preventing war; there-
fore
Be It Resolved, That we recom-
mend to the organizations represent-
ed, that they urge their respective
members to conscientious effort to
achieve that end:
1. By unprejudiced and intelli-
gent study of the political, economic,
and social causes of war.
2. By such teaching of the child-
ren in the home, substituting
stories of the achievements of peace
for those of war, and shall educate a
generation to which peace may seem
more admirable than war.
3. By influencing the Schools,
the Press, the Pulpit and the Pub-
lic Platform of all kinds that they
shall strengthen and further such
home teaching.

Race Contacts
4. By developing such contacts
with those of other races living in
the community as will help to
break down racial antagonisms and
bring about a better understanding
of each other.

5. By using all influence against
racial prejudices and toward the
creating of such attitudes of mind
as will lead to a respect and admi-
ration of other peoples.
6. By personal fearless accep-
tance of the fact that the old meth-
ods of settling international diffi-
culties by war should be obsolete in a
period when education, the ameliora-
tion of suffering and the welfare of
all peoples are the concerns of many,
with the added implication that such
a belief pledges the holder to work
for the abolition of war.

7. By forming groups for study
in every organization in your local-
ity.

Kiyugo Club
The Senior "Kiyugo" club of Mt.
Holly, held a party in the Y. W. C.
A. Club House last Wednesday eve-
ning. Many games were played,
and refreshments of ice cream and
cake were served.

This club has just been reorgani-
zed, and this is the second meeting
they have had this year. The girls
are very enthusiastic, and are mak-
ing very good plans for their future
club work.

The Columbus Girl Reserves en-
tertained the boys of the Y. W. C.
A. at a Valentine party on Friday
evening at the Y. W. C. A. Club
house. Slips of heart-shaped paper
were given to the boys, and the
room was decorated with hearts and
candle light.

had charge of the games, and judg-
ing from the laughter and gaiety
to be heard they were very success-
ful in entertaining the group. No
party would be quite the same with-
out refreshments. Edith Craft and
Amy Newell were responsible for
seeing to it that everyone was served
with delicious warm cake and
cocoa. Mrs. Wallwork, who has
recently become leader of Columbus
Girl Reserves, helped a great deal
toward making the party a success.

Chesterfield Reserves
The Chesterfield Girl Reserves had
a Valentine get-together on Satur-
day afternoon at the home of Mabel
Miller. Because of bad roads and
weather the girls have been unable
to meet for the past month. On
Saturday the girls planned many
things for the rest of the winter
and spring. They are eager to go
on again now that it is possible to
meet. Games and stunts were play-
ed, a postmaster delivered many
Valentines from a Valentine box, and
everyone had a good time. Home-
made doughnuts, cocoa, and candy
were served to which everyone pre-
sented did pay humble homage.

Twenty-three Beverly girls were
recognized as real Girl Reserves last
Tuesday evening. The girls march-
ed in, each carrying an unlighted
candle. The salute to the Ameri-
can and Christian flag was given
as well as the salute to the Girl
Reserve Flag. Each girl made
declaration of her desire to become
a Girl Reserve and repeated the
Code. Miss Helen Hoff, Girl Re-
serve Secretary, then spoke of the
meaning of the blue triangle and
of the responsibility a girl assumed
when she lighted her candle as a
symbol of the way she was going
to arrive to live. The girls all came
forward then and lighted their
candles from the larger ones in the
front of the room. After a closing
prayer the ceremony ended with the
singing of "Follow the Glean."

These girls have been doing splen-
did work all winter. Miss Sophie
Steinman of Edgewater Park is their
adviser, and Edna Adams of Beverly
is President of the group.

Miss Maude Fowler, National
Secretary of the Rural Communities
Department of the Central Region
with headquarters in Chicago, visit-
ed Burlington County on Monday.
This is the first county in the East
that Miss Fowler has visited and
she is very enthusiastic over the
splendid work being done here.

ODD FELLOWS ENTERTAIN

The Glee Club of Cinnaminson
Lodge has exceeded anything ever
attempted in the way of entertain-
ment for "Ladies Night" Friday
evening, Feb. 26. The musical fea-
ture of the program is a musical farce
comedy entitled "A Bundle of Non-
sense" arranged and played by mem-
bers of the lodge.

But the night for which all Odd
Fellows have been awaiting is the
19th of March, the date of the An-
nual Packard Party and Dance, the
gala night of the year. Music will
be provided by a band from the
Philadelphia Navy Yard under the
supervision of "Mother Moore." The
program of entertainment will be
large and varied, and several con-
certs are appearing thereon.

Quite a large turnout of the mem-
bers of old Cinnaminson attended
services at the Methodist Church
last Sunday evening and enjoyed
a very interesting and instructive
sermon on the grand principles of
the Order.

A BETTER BARGAIN

Heine, the butcher, had long
been accused of making more money
than he was entitled to for the
meat he gave in return. Pat came
into the shop, ordered forty cents
worth of steak, and watched him
narrowly while it was weighed out.
"Sixty cents, please," said the
butcher as he started wrapping it
up.

"So here, I asked for forty cents
worth."
The butcher scowled, but said
nothing, as there was quite a num-
ber of other customers waiting. He
put the steak into almost identical
pieces, hung one on the scale and
snapped, "Just forty cents."
Pat eyed the halves and said
softly, "Begorra, then I'll take the
other half for twenty cents."
He got it.

NOT HIS SAL

Sam was unable to take his best
girl, Sally, to church; but promised
to be there to see her home after
the services. Before the close of
the meeting the minister was giving
an urgent invitation for lost souls,
as Sam peered in at the doorway
looking for his girl.
"Are you looking for salvation?"
asked the minister earnestly.
"No, sir, I'm looking for Sal
Jones," replied Sam calmly.

Bluff Is Seen in Wet Move

Harrison's Resolution, Expected
To Die in Trenton Legis-
lative Committee

There is a growing suspicion in
the New Jersey Legislature that
Senator Harrison's resolution peti-
tioning Congress to liberalize the
Volstead Act is a mere gesture. The
basis for the belief is that the reso-
lution was referred without protest
from Senator Harrison to the Judi-
ciary Committee, of which Senator
Davis, of Gloucester County, the
majority leader, is chairman. Davis
had let it be known that he would
not release the resolution from his
committee, and if that determination
is carried out the resolution may be
regarded as officially dead.

Nominally, it would be within the
power of Harrison and Simpson to
force a report on the resolution, but
such a source would be entirely con-
trary to senatorial courtesy. In the
first place it would involve a com-
bination between a majority and a
minority member of the committee,
which party usage never sanctions,
and, secondly, it would override the
committee chairman, a course equal-
ly at variance with senatorial prac-
tice.

It begins to look, therefore, as
though the prohibition issue is again
to be shelved, so far as the Senate
is concerned. That means, irrespec-
tive of what action may be taken in
the House, there will be no referen-
dum on law enforcement, and no ap-
peal to Congress to modify the ex-
isting prohibition law.

Senator Davis is making an effort
to speed up the work of the lagging
Legislature by means of a meeting
of the Joint Conference Committee
of the Republican majority to pre-
cede the opening of the seventh
week. Some of the measures to be
taken up by the committee are the
proposed election law changes, in-
cluding the proposal to abolish the
candidate for Governor and United
States Senator, salary-raising bills,
of which there are a number in both
branches, and measures relating to
the regulation of motorbuses.

Among the latter are bills which
would place motorbuses under the
jurisdiction of the Public Utilities
Commission and would impose a tax
upon their gross receipts.

In calling the conference, Senator
Davis expressed the belief that with
the introduction of bills virtually at
an end the work of the session can
now be speeded up in anticipation of
a reasonably early adjournment. It
is not likely, however, that this will
take place before the beginning of
April.

ASBURY

Mrs. Thomas Perkins, Miss Ada
M. Perkins, of East Riverton, and
Mrs. Albert Olmerson, of Union
Landing, the Rev. George S. South-
wick, of Chatsworth, Mrs. Joseph J.
Southwick and Mr. and Mrs. Harvey
Thompson, of Riverton, were visit-
ors in Asbury on Monday.

Miss Margaret Jones, of Drexel
Hall, Pa., was visitor at the West-
field public school, of Cinnaminson,
on Monday. Miss Jones was a
teacher at Westfield School last
year.

Walter Stockton, Mrs. Kate
Hubbs, Morris Dudley and family,
of Riverton, Miss Edna Bontell,
of Philadelphia, Mr. and Mrs. Thorn-
ton Southwick and Miss Helen
Southwick, of Asbury, were Sunday
guests of Thomas Bontell at the
home of his son, Walter Bontell,
of Bridgeboro.

Mrs. Jennie W. Price, wife of
James W. Price, M. D., of 435 W.
Broad street, Chester Pa., passed
away at the Philadelphia University
Hospital on Sunday, February 21st,
at the age of 40 years. Interment
at Asbury Cemetery on Tuesday.
Undertaker H. B. Earnest in charge.
Dr. and Mrs. Price lived at 8 Mor-
ton avenue, Riverton, before mov-
ing to Chester. Dr. Price was a
medical missionary to Porto Rico
for twenty years, before going to
Riverton.

FRANK NAPLE

Frank Naple, 69 years old, died
at the home of his son, Anthony
Naple, 429 West Broad street, Pal-
myra, Sunday afternoon.

Funeral services were held this
morning (Thursday) at the home
of the deceased's son at 8 o'clock
with mass at the Sacred Heart
Church, Riverton, at 9 o'clock. In-
terment was made in St. Peter's
Cemetery, Riverton, with Funeral
Director Frank A. Shover in charge.

A GALLANT DIALOG

He: "Aren't you the little girl
"I kissed down in the dell?"
She: "It must have been my sister,
"For she's not feeling well!"

County Buildings Will Be Improved

\$200,000 Will Be Spent on Necessary Additions and Alterations

Arrangements were completed at an adjourned meeting of the Burlington County Board of Freeholders in Mount Holly on Thursday for improvements to various county buildings at an approximate cost of \$200,000.

The improvements will have to do with the three institutions at New Lisbon and the county treasurer's office in Mount Holly. At the next meeting of the board an addition to the Court House will be considered.

The three institutions at New Lisbon are the Burlington County Insane Hospital, the Burlington County Almshouse and the Burlington County Tuberculosis Hospital.

The improvement plans call for a new wing at the Insane Hospital and when the work is completed the institution will be equipped with one hundred beds. Ninety-two of these will be for patients and eight for attendants. At the present time the institution is over-crowded. It is necessary to put two patients in one room.

Open Air Bedrooms
What previously was the hospital building of the almshouse will be connected with the tuberculosis hospital by a corridor. The corridor will be enclosed in movable glass so that it may accommodate beds and give the necessary air advantages. The connection of the old hospital with the tuberculosis hospital will give some fifty additional beds toward the excellent work that is being done in the New Lisbon institution.

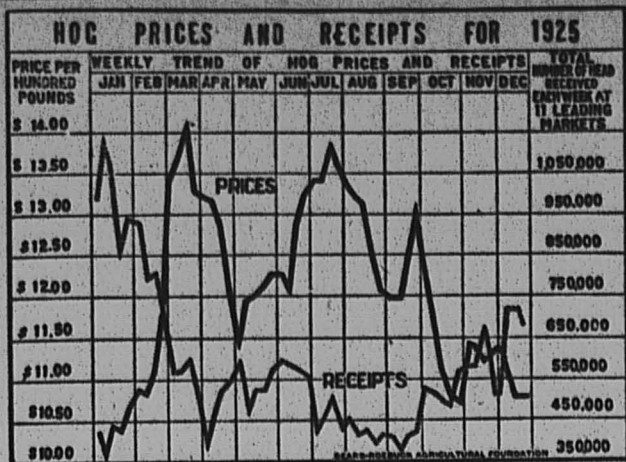

At the present time the nurses at the tuberculosis hospital are compelled to sleep in the hospital building, which, it is said, deprives them of needed rest and recreation and cuts down their efficiency. This will be overcome by building a nurses home separate from the hospital.

The home will be erected on the same side of the road as the hospital and to the east of it, occupying the same building line. It will be an eight-room cottage.

The use of the almshouse hospital was made possible by the vacation of the building for almshouse purposes. The sick at the almshouse are now cared for at a hospital within the almshouse building. This as a change suggested by Henry I. Worrell, the almshouse superintendent, soon after taking the position. He said that having the sick in a separate building multiplied the duties of those in charge.

Central Heating
At the Burlington County Insane Hospital there will be a central heating plant that will take care of all the New Lisbon institutions. The laundry for all the institutions also will be done at the insane hospital. The contract for the laundry machines was awarded on Thursday to the American Laundry Machinery Company at \$8,720.

The improvement to the county treasurer's office will be confined to the working room of Alfonso Adams, the clerk of the Board of Freeholders. The northern wall of the room will be taken out and the apartment

HOG prices in 1925, according to a market analysis by the Sears-Roebuck Agricultural Foundation, have been the highest since 1920 and the number of hogs slaughtered nearly 20 per cent less than in 1924 and 1925, when production was at a record level. With prices approximately 50 per cent higher this year than last year, hog producers have had an especially profitable season. The range of prices has run from \$10 to almost \$14.50 per hundred pounds, the peaks being reached in March, July and September.

The ratio between prices of hogs and corn prices turned favorably for the feeder last spring and is now the best that it has been since 1922. Last spring's pig crop in the corn belt, which is now coming on the market, was estimated to be 10.6 per cent less than the pig crop of the spring of 1924. This indicates that rather high prices are likely to be maintained during most of the 1925 season, unless a very large crop of hogs is produced and pushed rapidly into the markets. Excepting the months of January and February, receipts at the eleven leading markets of the country have gone below the 675,000 level and from June to October have been below the 550,000 mark.

extended to the width of the meeting room of the board which adjoins it.

Mr. Adams' quarters have been cramped for some time. The place is filled with records, papers and other things that must be preserved, and at the same time kept conveniently near.

The Court House improvement will include the erection of a second story on the old vault once used by the county clerk.

Henry A. Brown, Green Bank, Burlington, is the architect for the nurses' home. Herbert Ziegler, of Riverdale, is the architect for the other improvements at New Lisbon and at the treasurer's office.

Bills for the removal of snow from county roads, amounting to approximately \$7,000 were ordered paid.

NOT IN HIS LINE
A certain surgeon, very young and also rather shy, was invited to a dinner party given by a woman of at least fifty, but who behaved more like twenty.

At dinner she asked the young man to carve the chicken, and never having carved before, he failed miserably in his attempt.

Instead of trying to cover his confusion, the hostess called attention to it by looking down the table and saying:

"Well, you may be a clever surgeon, but if I wanted a leg cut off, I would not come to you to have the operation."

"No?" he replied politely. "But then, you are not a chicken."

Ajax Six Wins Blizzard Test

2 Stock Cars Buck Snowdrifts and Conquer New England's Worst Storm

Battling through the worst blizzard New England has experienced with a single exception, in 27 years, two Nash-built Ajax stock cars made a hard fought but successful journey from Boston to Ossipee, New Hampshire and return. The fight against the elements was a deliberately planned endurance test conducted by four representatives of the Nash-Ajax distributor in Boston, their only instructions being to prove what the Ajax would do and to "break the cars up" if it could be done by hard driving in almost insurmountable conditions that existed during the blizzard and immediately afterwards.

Snowdrifts encountered at some points were so high that after "bucking" them repeatedly, it was necessary to shovel through snow covered roads over which no vehicle had ventured before broken open and at the summit of Smith Hill the owner of a farm stated the Ajax cars were the "first cars he had seen since winter set in." Residents of Wakefield stated the two cars were the first to pass through the town in "more than a month."

And when they returned to Boston the only mechanical adjustment required was the replacement of a center bolt that had been sheared off a left rear spring of one of the cars and a report of the representatives summed up the endurance qualities of the Ajax as follows: "We all agree that we have never seen a motor car take the grief and punishment that we were forced to give these cars and stand it as they did."

The cars left Boston in the "teeth" of a 50-mile gale. The first part of the run was from Boston to Newburyport, Mass. The snow was drifted so high in places that it sifted through the radiator, covering the ignition wiring with a sheet of ice. The drivers were advised not to attempt to make Portsmouth, N. H., but they kept on. As no cars had been over this section of the road, it was necessary for the Ajax Sixes to buck the drifts all the way, a distance of twenty miles. From Boston to Portsmouth (59 miles) was made in 2 hours and 15 minutes running time.

On the Dover Road the two Ajax cars were compelled to buck drifts half as high as the radiator. The cars were accelerated as fast as they would go in low speed and driven "head-on" into the drifts, smash eight or ten feet each time before being stopped by a sheer blockade of snow. This process, with occasional shoveling, was repeated again and again, putting a terrific strain on the cars.

The snow beyond Wakefield was three feet deep on the level places, and it was necessary for the drivers to shovel out from under the rear fenders and in front of the gas tank to prevent "hanging up" the cars on the differential housing. On the mountain slopes near Ossipee the drivers coupled the two Ajax cars together in tandem fashion

so that more force could be secured in bucking the drifts. The snow on Smith Hill, near Ossipee, was drifted in some places from 3 to 5 feet deep and required "bucking" and shoveling. It was here that an inhabitant claimed these Ajax cars were the first automobiles he had seen since winter set in.

On Saturday morning, the Ajax cars started back to Boston, encountering similar conditions on the return trip because of a fierce gale that drifted the snow over their tracks. Sunday afternoon they arrived in Boston and Monday both cars were put back in demonstrating service, after being washed and greased. And no repair work of any kind except the replacing of the center bolt was necessary on the return. The motors were untouched during the journey and after it.

THIEVES IN COURT

Pointing out to his court that a witness was not necessarily to be regarded as untruthful because he altered a statement that he had made previously, a magistrate said: "For instance, when I entered this court today I could have sworn that I had my watch in my pocket. Then I remembered I had left it in the bathroom at home."

The case was then adjourned, and the magistrate made his way home. On arriving his wife's first words were:

"Why all this fuss about your watch, dear—sending four or five men for it?"

"God heavens!" gasped the man of law. "I didn't send anyone. Whatever did you do?"

"I gave it to the first who came, my dear," answered his wife. "He knew just where it was."

U. S. NAVY TRAINING—ITS RESULT

Captain George Fried, of the U. S. S. President Roosevelt, whose recent rescue of the crew of the S. S. Anthone excited praise throughout the world, is a U. S. Navy trained man. He took advantage of the opportunity offered him by the U. S. Navy and his 16 years of service as an enlisted man in the U. S. Navy prepared him to meet efficiently the emergency which has resulted in international commendation from foreign governments as well as his own.

The U. S. Navy offers to every healthy young man, between the ages of 17 and 35, the same opportunity it offered to Captain Fried. He took advantage of this opportunity, yours is still waiting for you. For further information apply at the U. S. Navy Recruiting Station, Post Office Building, 3rd and Arch Sts., Camden, N. J.

THE FLAPPER

A powdered nose,
The scent of rose,
A flash of hose,
And there she goes.

MEANS BETTER TOWN

Fred E. Rein Says Everybody Should Boost Motor Car Sales

"Every new motorist means a better town," says Frederick E. Rein, of the Rein Motor Company. "Whenever anybody buys a car, the whole community benefits. The man who owns and drives a car is a better workman, merchant, professional man, neighbor, friend, and citizen than the man who does not. Any man makes more money, spends more money and has more fun after he gets a car than he did before."

"Conservative folks used to look upon a poor man who bought a car as an unmitigated wastrel. Now the acquisition of a car is an exhibition of good sense, progress and achievement."

FOLLOW THE SIGNS

"My goodness!" remarked the gentleman as he stopped the young lad with the flax catch of trout. "You've had a very successful day."

DELANCO, N. J.

WAITED FOR HIMSELF!!

A certain professor at one of our Mid-Western Universities, is so absentminded that he's never sure he's had his dinner unless he finds a toothpick in his mouth.

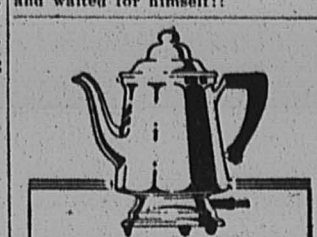

Recently he came home and had his ring at the door answered by a new maid. The girl looked at him inquiringly.

"Um—ah," is the Professor at home?" he asked.

"No, sir," replied the maid. "But he's expected any moment."

The Professor turned away. The girl closed the door.

Then he sat down on the steps and waited for himself!!

The Electric Coffee-maker

Know coffee at its best—percolated electrically. Here's a group of popular priced percolators, any one of which will give you delicious coffee.

At \$4.50

A nine cup percolator of highly polished aluminum. A splendid percolator for everyday use.

At \$6.50

The aristocratic Public Service Special, in colonial design of highly polished aluminum, reminiscent of old silver. Etched handle. Has many features of higher price percolators.

At \$7.95

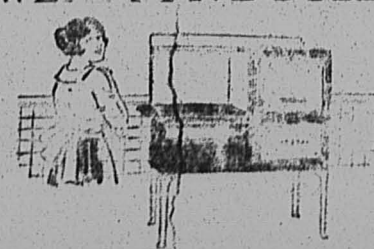

A six cup coffee-maker of graceful lines. Colonial design. Finished in highly polished nickel. Etched handle and feet. Carefully made spreader plate and coffee basket. An exceptional percolator at an unusually low price—\$7.95.

PUBLIC SERVICE

GAS RANGES - CLOTHES DRYERS WATER AND GARAGE HEATERS HEATERS FOR FIREPLACES

*Drastically Reduced
for Quick Clearance*

FIVE TO TWENTY-FIVE DOLLAR SAVINGS

PRICES on gas ranges, now at lowest level. Big assortment to choose from. All from regular stock. American Gas Association specifications assure satisfactory cooking results. Every hot cheaper buying a gas range now will get a big bargain in any cabinet gas range selected.

Install a Gas Automatic Kompak copper tank storage water heater. You save \$10—buy now! Take advantage of this saving and enjoy the comforts of a night and day hot water service. The 20 gallon size Kompak copper heater operates without attention and economically. Specially priced, installation included—\$190 cash or \$10 down—\$10.67 for 18 months.

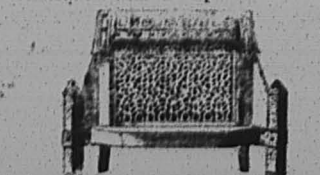

Garage Heaters

Reduced Ten Dollars

To store an automobile in an unheated garage invites many kinds of motor troubles. Free yourself from this worry by installing the Davy Garage Heater—the heater that operates automatically as weather requires. Cost of heater is offset by fewer repair bills on battery, starter, radiator, cylinders, etc. Costs only \$50—was \$100, or purchased on terms \$56—\$10 down \$16 a month for six months.

Savings from Five to Twenty-five Dollars—Lowest prices of the Season.

Radiant type gas heaters reduced in price for quick clearance. Save your coal now. It's wise to have installed in your home a heater to give instant, clean, radiant, odorless and economical heat as required.

The assortment to choose from includes the finest makes of gas radiant heaters—and the reductions are sharp, considering the unusual values offered. Connection without extra charge on first floor for heaters priced at \$40 and up.

No. 503 Kennedy Fireplace Heater—now \$32.30—was \$38—or \$7.25 down—\$3 a month for 9 months.

Install a Gas Heated Clothes Dryer Now and be immune from the soot and smoke. Dry all your clothes indoors, in the home size clothes drying cabinet, cheaply, quickly.

Special price installed \$112.50 cash or \$12.50 down—\$10 a month for 11 months. Formerly \$125 cash.

PUBLIC SERVICE

Your Transit Service!

"NO MORE THAN FAIR DEALING"

The following editorial appeared in the Jersey Journal of Friday, February 19:

"The warning that trolley fares are likely to be increased unless the Public Service paving bill now before the Legislature is passed sounds something like a threat. Threats ought not to be needed in the case of the paving bill. It would be no more than fair dealing with a great industry in the community to pass the measure with all the dispatch that can be exerted."

"This bill would relieve the trolley company of the obligation to pave alongside and between its tracks. This requirement is a relic of the horse car days, when the feet of the horses pulling the cars caused considerable wear and tear to the pavements. This damage has long since been eliminated by the operation of electric cars. Hence, the paving requirements should be done away with. Trying to force the Public Service to pay paving bills is merely trying to 'soak' the company by charging it for something that doesn't exist."

Senate Bill No. 37, now before the New Jersey Legislature is the bill to which The Journal refers. Its passage will benefit every car rider!
