RIVERTON, NEW JERSEY, THURSDAY, APRIL 1, 1926

CHAMBER OF COMMERCE HOLDS LIVELY MEETING

Members Discuss Various Plans for Improving Conditions; Dinner Idea Approved

COUNCILMAN WILLIAMS IS CHIEF SPEAKER

Twenty-five members of the Riverton Chamber of Commerce attended the dinner meeting held in Collins Hall Tuesday evening, and it was one of the liveliest meetings yet held by that body.

First off, George D. Steele got everybody pepped up by his snappy leading of the songs, with Lee Milton at the piano. Then the "inner man" was well fortified with excellent dinner, after which the members got down to business under the leadership of President Albertson. And how they did work! Everything was discussed from the best means of advertising the town to enlarging its territory so as to have some place to put folks when the influx came following the advertising.

Edward R. Williams, councilman and director of public safety, was to have furnished the speaker of the evening. George Steele but him fifty cents the speaker wouldn't come. "Pat" won the bet, but missed hearing "Biddle" doing his best address of his life by having to leave the meeting early to keep an appointment in the city.

Karl W. Latch, chairman of the committee on publicity, read a newspaper clipping which told of a committee being appointed at Madison to raise \$1500 by popular subscription to advertise the town.

Riverton Needs More Ground A. H. Weber countered with the suggestion that Riverton needed most was more territory, as there was not room to accommodate many more residents if they did come.

In reply to this Councilman Williams said that the matter of inviting Cincinnati township to join Riverton was being seriously considered by the borough council, and that several informal conferences had been held with the residents of that district. He said that subject would be probably come up at the next meeting of council on April 8, and asked that a committee be sent at that time to represent the Chamber. The publicity committee was appointed to attend the meeting.

Clarence Hubbs said that it was not only more territory that was needed. He claimed there were a hundred houses for sale in Riverton and a score or more for rent. He contended that Riverton ought to advertise itself to Rivertonians to keep what we already have as well as to invite others to come to the town.

A. H. Weber had a rather different view of the housing proposition. He said that while there were a number of houses for sale and some for rent, in many cases the present occupant had no idea of moving out of town. They wanted to dispose of the real estate and come to Riverton to live. The Chamber of Commerce could profitably spend a little money advertising the town itself, with its many natural advantages and modern improvements.

Samuel MacMullin thought an advertisement in the Sunday papers would help. He said that when anyone wanted to buy or rent a house in Riverton, the first thing they did was to look in the daily papers to see what was offered. While this was partially taken care of in Riverton, the case by the advertisements of the real estate agents, the Chamber of Commerce could profitably spend a little money advertising the town itself, with its many natural advantages and modern improvements.

When Chairman Latch suggested that a "Buy at Home Bargain Day" be held by the merchants the first Saturday the band concert was given. It brought up the question whether or not the Chamber should go ahead with the band concert idea. Clarence Hubbs, who was chairman of that committee, said that the Lyric band of twenty pieces and a leader could be secured for \$29 for two hours Saturday evening. The proposition was for the Chamber to finance a band concert Saturday afternoon for two weeks, and if it was successful, then the merchants could continue it by private subscription.

After a spirited discussion in which of members, and to secure a spend to that \$198 was discussed, it was decided to drop the band concert, and buy it-at-home-day idea, walked the plank along the idea of the band concert to the inspiring strains of the "Parade of the Woodmen Soldiers."

The proposition of advertising the town by means of signs in the buses, told by the way, after some discussion, but a resolution was passed to issue three mail pieces, the first of which was to be a letter, advertising the community boost idea, and the publicity committee was authorized to purchase brass signs bearing the words "Member Riverton Chamber of Commerce," to be hung in the offices of members, and to secure a supply of window stickers for automobiles bearing the Chamber's slogan, "Give Riverton the Preference."

It was suggested that some outside party, experienced in such work, be employed to come to Riverton and make a survey of the town to find out what is the matter with the business houses that so much trade belonging rightfully in Riverton is going outside. It was proposed that after the survey had been made the investigator make a general report to the Chamber at large, and an individual report to each member, in which he could get right down to brass tacks as to just what changes should be made in each particular case. This proposition has been up before the Chamber several times before, but never receives a very enthusiastic reception. In the meantime, it was claimed by one of the men present, sixty-five per cent of the business in his section of the town is done outside of Riverton.

(Continued on Page 3)

VISIT NAVY YARD

Palmyra Women are Guests at League Island

A party of Palmyra women representing organizations which have helped Mrs. William F. Leford and Mrs. E. J. Hibbs with their welfare work among the sailors spent Monday at the League Island Navy Yard.

The ladies were shown through the various hospital wards and vocational training departments as the guests of Mrs. Edith Lee Stewart, Red Cross hostess of the League Island yard.

Later in the day the party enjoyed a concert by the picked League Island Navy Band, which will have a part on the Sesqui Centennial exposition program, and was then taken aboard the hospital ship Mercy as the guest of Dr. Richmond C. Holcomb, the commander.

Since both Mrs. Leford and Mrs. Hibbs have entertained a large number of the boys from the U. S. S. Arkansas, the party was also permitted to inspect her, as she is now lying in drydock undergoing extensive repairs.

Those who spent the day at the Navy Yard were Mrs. John Hopner, representing the local Red Cross, Mrs. William T. J. Purnell, of the Needlework Guild and Mrs. M. J. Klotz, of the Junior Needlework Guild.

MRS. ANNA CONKLIN

Mrs. Anna Conklin, 64 years old, died suddenly at 109 East Broad street, last night, at 10 o'clock. She was buried Monday at Morcan Cemetery by Funeral Director Frank A. Shover.

Lever to Direct Legion Athletics

"Boots" Appointed New Jersey State American Legion Athletic Officer

Harold B. "Boots" Lever has again sprung into the limelight. Now he has been appointed New Jersey State American Legion Athletic Officer.

"Boots" shines the brightest in the spring. Several years ago, when as a student at the University of Pennsylvania, he first blossomed forth as a "dark horse" track star. Then he began to smash cinder path records, annexing a brilliant assortment of titles including world's, national, intercollegiate crowns and the captaincy of the U. of P. team. Last year, in one season as "track coach," he developed a relay team at Palmyra High which flourished in the footstep of its flashy tutor and knocked several marks to smithereens, sweeping all opposition aside and winning the county's finest field at the Penn Relays when the national scholastic class B crown was won.

This season the talented Harold B.B. gave the sports world another thrill with his refusal to sign a contract to coach Episcopal Academy, with a salary considered quite unusual, until he could make arrangements whereby he might continue coaching the Palmyra High school track squad.

Palmyra, in addition to being the home town of the new state athletic officer is also the home town of the Legion's state commander, Frank A. Mathews.

One of the big propositions Boots faces as he enters into the work of athletic officer is the fostering of a state-wide baseball campaign through the use of the Legion's athletic officer. At the national convention in Philadelphia this year one of the big features which the Legion will stage will be a junior world's series.

Every post in the country will be given an opportunity to have a contest. The winners of elimination matches. The state officer will encourage the sport throughout the winter and then, after the state winner has been decided, the nine will go into regional competition. The six regional victors will be entered in the junior world's series at the Sesqui city convention.

Boys of various ages may compete, as there will be four leagues. The first will be for boys under twelve years of age, those between twelve and fourteen, the fifteen and sixteen year old class and seventeen and over.

Lever announces he will hold an interclass track and field meet for his Palmyra High School track squad Thursday afternoon. The class scoring the largest number of points will be awarded a permanent trophy, either a silver cup or a banner.

There will be the usual events including the 100, 220, quarter-mile runs, high jump, broad jump and shot put. Bruce Beahm, the only member of last year's national championship quartet who is still in school, has been elected track captain. The young leader is also assisting Lever with the coaching.

The interclass meet is being conducted with the idea of uncovering some new material, as sort of a "feeler" to bring out the good points and defects in the work of the boys, says Boots. Beahm's first class year words displayed in an affair of this sort.

ANNUITY

Mrs. George McCann, of Collingswood, was a visitor at the home of Miss May Ward on Tuesday.

Services were held Sunday in the Assembly M. E. Church will be preaching at 5:30 a. m.; Sunday School at 10:30 a. m.; Song Service at 7:30 p. m.; Preaching by Brother Burk at 8 p. m.

Miss Abbie Dole, of Camden, was a visitor in Asbury on Sunday. Mrs. Ada Southwick attended the funeral of Mrs. Mary Southwick, widow of

MRS. DAVIES STAR

Will Play Leading Role in "Miss Somebody Else"

Mrs. Wesley Davies has been picked to play the leading female role in "Miss Somebody Else," a four act comedy which will be presented in the Palmyra High School auditorium Friday and Saturday evenings, May 7 and 8. Fred Metzger, who has starred in several college productions, will play opposite Mrs. Davies. The other members of the cast are:

Miss Josephine Hannold, Mrs. Clarence N. Hubbs, Mrs. Charles Bailey, Miss Elizabeth V. Hires, Miss Edith Lee Stewart, Miss Johnson, Mrs. Walter Jones, Miss Gladys Locke, Mrs. B. R. Leach, Lawrence B. Parker, Harry K. Strang, Clifton Taylor, Raymond D. Lamont and Paul Bailey.

The play, which is a delightful modern, will be given by the Friendship Circle Class, supported by the Goodwillship Class. Tickets can be obtained from any member of the two classes. Since all seats are reserved, there has already been considerable demand for tickets.

Better Railroad Service Promised

Palmyra Chamber of Commerce Committee Visits Division Superintendent

The Utilities Committee of the Palmyra Chamber of Commerce, headed by Walter D. Lamont, the chairman, took the difficulties encountered by local commuters on the Pennsylvania Railroad before Superintendent A. B. Clark of the Trenton division, at his office in Trenton Tuesday afternoon.

Mr. Clark assured the Chamber representatives, who were: Mr. Lamont, Charles K. Mervine and George M. Harris, the secretary, that he had the interests of the commuters at heart. He admitted they have suffered many delays, especially at the rush hours in the evening, and assured the committee that an attempt is being made to remedy the situation.

Recent delays, he said, can be attributed to two causes. The rebuilding of the Paxonville yards and the "lay-overs" to let New York-Atlantic City express go through. Everything possible is being done to avoid the delay and when it is possible, as last resort to save the commuters' time from a half-hour hold-up at Morris Junction, the east bound commuters' trains are run up on the west tracks. Conflicting west-bound schedules frequently make this impossible, however, he stated.

Preference for Expresses But, if it comes to a case of preference, it is given to the express. And when it came to a discussion as to rates, Mr. Clark said, if, for no other reason, the express riders are entitled to the right of way, for they pay 3.6 cents a mile against the commuters' 1.1-cent rate.

Mr. Clark said over-crowded trains should not be a regular occurrence for the commuters. The number of cars in the train, he figured to accommodate the average number of passengers for the month. Mr. Mervine, who acted as spokesman for the party, suggested that an effort should be made to take care of a maximum crowd and not the minimum number of passengers.

The use of the obsolete wooden coaches was brought up and the committee was assured that the division was equipped with a sufficient number of steel cars to take care of the normal amount of traffic, but the use of the objectionable cars was unavoidable in rush holiday seasons.

The committee said there had been no increase in the number of commuter trains in the past ten years and over that period the communities in this section have at least doubled their populations, therefore increasing the number of riders. Mr. Clark declared that the railroad's commuting patronage has not increased during this time, stating that ten years ago nearly 100 per cent of the traveling public used the trains while today it is estimated to be 40 per cent, are railroad patrons. The other sixty per cent use trolleys, buses and automobiles.

Complaint at Camden Mr. Lamont called attention to the poor service rendered in making up the trains in Camden. Mr. Clark said he frequently does not start to lower the gates until the express, some traveling at a 40-mile-an-hour speed, are almost upon the station, some times not until 12 seconds before it flies by. With the large amount of traffic which passes over the busy Cinnaminson grade crossing, the Palmyra man said it was unsafe to wait so long and that the gates should be down at least a minute before the fliers sweep by.

Mr. Clark agreed and said he would issue orders to that effect and also said he would have the short trains pull up past the crossing to discharge and take or passengers on the east bound track.

FORCH CLUB NEWS

Tuesday, April 6, 2 p. m. Executive Board Meeting; 3 p. m. Business Meeting, report of State Legislature.

George W. Southwick, at 426 Locust avenue, Burlington, last Wednesday.

Thorton Southwick, Ada and Helen Southwick, were among those present at the reception given Mr. and Mrs. John Lennon and family last Thursday evening at Bridgeport. Over thirty people were present, and an enjoyable evening was spent.

RIVERTON'S AIR MAIL SERVICE

Connects With New York—San Francisco and New York—Chicago Routes Daily

POSTAGE RATES AND OTHER AIR ROUTES

The Riverton post office has been supplied with an especially prepared air service schedule as means of assisting patrons in the solution of their air mail problems.

The schedule indicates the time that can be saved by using air mail, instead of fast mail trains. Where there is no advantage it is so indicated.

The Transcontinental Flight leaves New York at 8:10 a. m. daily, arriving in San Francisco at 5:00 p. m. the following day. The Chicago Night Mail leaves New York at 8:00 p. m. daily, arriving in Chicago 5:45 a. m. the following day.

There the three Air Mail Zones, namely, New York to Chicago, Chicago to Cheyenne, Cheyenne to San Francisco. The postage is 8 cents an ounce or fraction of an ounce for each zone, making the cost of a letter to San Francisco 24 cents per ounce. This charge includes transportation to and from the air mail route, as well as transportation by air.

Mail on the Night Air Mail Route to Chicago, the postage of which is 10 cents per ounce or fraction of an ounce, closes at the Riverton post office at 3:30 p. m. daily except Sunday. Mail on the Transcontinental route closes at 6:30 p. m. daily except Sunday.

There are several other mail routes, the time of dispatch or arrival of air mail to any point, or where there is no air mail, will be gladly given at the post office.

P. H. S. Senior Play Scores Big Hit

"Bab" is Cleverly Presented To Enthusiastic Audiences by Graduating Class

Playing to a crowded house both nights, the youthful actors and actresses of Palmyra High School scored a big hit Friday and Saturday evenings of last week when the senior class presented the brilliant four-act comedy, "Bab," by Edward Childs Carpenter. It was originally taken from Mary Roberts Rinehart's fascinating novel.

Every member of the cast played his or her part with honors. The humorous lines, tenacity of the dramatic moments and excellent stage technique displayed throughout was greeted with many rounds of applause from the large enthusiastic audience.

Much of the success or failure of the play depended on the interpretation and presentation of "Bab," the leading female role. And to "Polly" Dickinson goes the credit of the excellent portrayal of this flippant, snappy character. Her part expressed a charming little mannerisms won the audience and added much to the play's success.

The mature roles of father and mother were well filled with grace and dignity, yet not without plenty of humor, by Lamont Roberts and Helen Maurer. "Jimmy" Hires, as usual, was given a "big hand" playing the part of a comical, awkward youth and "Bill" Colsey won his share of the honors in the difficult part of an English nobleman.

Everyone was high in the praises for Mary Zurburg who, with only ten days' rehearsal, played Jane Raleigh with much ease and in a very creditable fashion.

The cast follows: Mary Dickinson Bab; James Archibald, her father; Helen Maurer, her mother; Dorothy Jones, her sister; Joseph Atkinson, Guy Grosvenor; Henry Prouse; Mary Zurburg; James Hires; William Colsey; Ruth Adill; William, butler at Archibald's; Elwood Wagner; Lucille, maid.

The splendid production was coached by Miss Marian Jordan Lodge, a member of the faculty. The class presented Miss Lodge with a fine leather traveling bag. The committee for the play were: Mrs. W. A. Bower, Dorothy Stewart, Promoters; Dorothy Fromuth and Lucille, Publicity; Dorothy Fromuth, Leo Terrell, Dorothy Stewart, William Colsey, Roscoe Bowers and Chester Bucher.

Stacy-Roscoe Bowers, Lucille Reeves, Chester Bucher, Stanley Godley, Karl Boehm, William Seese, Owen Merrill and Norman Thompson. "Bab"—Joseph Miller, John Scheer, David Stern and Joseph Martin. Program—Helen Shain, Margaret Albertson and Marcella Landers. Property—Charles Coddington, Jane Wanger, Clayton Schantz, Spencer Davidson, George Rhoades, Mary Zurburg and Cora Perkins. Light Curtains—Henry Freck, Leslie Reeves and Samuel Cohen. Candy—Emma Dugan, Margaret Albertson, Helen Shain, Frances O'Donnell, Ethel Foster, Mary Bruns, Helen Perkins, Lillian Murphy, Anna McCord and Florence Harvey.

ACCEPTS MOUNT HOLLY CALL

W. Clarence Wright, of Los Angeles, California, has accepted the call to the pastorate of the First Presbyterian Church, of Mount Holly and will assume the duties of the position on May 16, the Sunday after his graduation from Princeton Theological Seminary. He will occupy the pulpit this coming Sunday, at 10 o'clock.

CARS IN COLLISION

Come Together on East Main Street No One Hurt

Automobiles driven by the Rev. Arthur S. Lewis and John Williams collided on East Main street just above Seventh, about six o'clock Tuesday evening. Cars were parked on both sides of the street nearly opposite each other, leaving a narrow space in the middle of the road. Apparently each driver thought he would have time to pass before the other car reached the critical point.

The car driven by Mr. Lewis received a bent mudguard and other slight damage. On the car driven by Williams the front wheels were broken and the axle bent.

Director of Public Safety Williams and Officer Quigley took charge of the situation and had the car driven by Williams taken to the home of the owner, Martin Kerrigan. Mr. Lewis was able to drive home under his own power.

This is a striking illustration that the widening of Main street, which stopped at Seventh, should have been continued to the borough line.

Large Attendance at M. E. Church

Discourses of New Pastor, Rev. J. W. Lee, Attract Big Congregations

So large was the congregation at the morning service of the Epworth Methodist Episcopal Church last Sunday it was necessary to throw open the Sunday School room the first time in several years to accommodate the crowd. The pastor, the Rev. J. W. Lee, delivered a beautiful and impressive sermon on "The Triumphant Entry." In the evening the choir splendidly rendered Maude's "Hallelujah Chorus."

This Sunday morning Pastor Lee's theme will be "Resurrection Morn." At the evening service his sermon topic will be "The First Hour After Death." All activities will be in accordance with the occasion, including a brief Easter story for the children.

There will be special floral decorations in the church and Sunday School and the Sunday School will observe the day with special Easter programs in the various departments. The musical program for the church service follows:

Morning, soprano solo, "There is a Green Hill Far Away," by Gounod; anthem by choir, "Christ is Risen," by Wolcott. Evening, anthem, "Open Our Passover," by Darnton; "Christ the Gates of the Temple," by Knapp; baritone solo, "The Resurrection," by Knapp; and David Gray Schwartz; anthem, "And When the Sabbath Was Passed," by Stultz; anthem, "When Christ is Risen," by Shepherd.

The special Holy Week services, being conducted every evening this week, except Saturday, between 8 and 9 o'clock, are well attended. In commemoration of the first Sacrament of the Lord's Supper which was instituted on Thursday, Holy Communion will be administered by Pastor Lee Thursday evening, Friday evening the service will be on "The Words from the Cross."

"What is the Resurrection of Jesus Christ to Me?" will be the subject discussed by the teacher, the Rev. J. B. Whitton, at meeting of the Wesleyan Men's Bible Class Sunday morning at 10 o'clock. Easter will be celebrated with mixed class and both men and women are urged to attend the meeting.

An appropriate topic will be discussed at the Epworth League meeting at 7 o'clock Sunday evening. All young people will be heartily welcomed, either as visitors or new members.

The Woman's Home Missionary Society will meet at the home of the Misses Wolcott, 601 Elm Terrace, Monday, April 5, at 8 p. m. This will be observed as a birthday party and all members are urged to attend and take birthday bags.

OLD FELLOWS

On Friday evening last, March 26, Cinnaminson lodge had the pleasure of entertaining visiting delegation, from three neighboring lodges, Amity Lodge of Merchantville, Chosen Friends Lodge of Camden and Mount Holly Lodge. It was the occasion of the presentation of the second and third degrees of the Order to a class of candidates of the local lodge and the degree teams were highly commended on their work by the visiting members.

Cinnaminson Lodge accepted an invitation from Amity Lodge to be present on the occasion of their degree work in May. Werner Horton, Jr., of Riverton and Isaac A. Starna, of Delair, were admitted to full membership at this meeting.

10th Annual Easter Display

at Blackwell Building, next to the Snover Funeral Home, and at our greenhouses, 738 Cinnaminson Avenue. Better Flowers and Larger Assortment than ever before. Pen and Cooper. Free Delivery. Phone 422-B.—Adv.

Coming Events

April 1—Card Party, Riverton Fire Company in Fire House.
April 3—Comedy, "Seven Chances" by Ladies Aid, First Lutheran Church, Palmyra High School.
April 5—Card Party and Dance, Knights of Columbus, at K. of C. Home.
April 13—Bordenston Glee Club at Riverton public school auditorium, benefit Faylin Wheatley Y. W. C. A.
April 17—Card Party and Dance, benefit Riverton Baseball Club, P. O. S. of A. Hall.
April 19—Easter Bazaar, Christ Church, Palmyra High School.
The services will be at the usual

IMPROVEMENT BIDS TOO HIGH, ACTION DEFERRED

Architects Estimate \$4000 For Alteration in Collector's Office; Bid \$7000

When the bids of the builders amounted to almost twice as much as the architect's estimate for remodeling the county collector's office, the Board of Freeholders last Friday decided not to award the contract, but to look into the matter to see if some economies could not be discovered that would bring the price down materially. The matter was referred to the director of the department of public buildings.

The bids were as follows: William C. Cook, of Mount Holly, \$5,400 for the work and materials; Roscoe C. Gale, \$7,198. The latter bid provided for the use of certain materials which were classed as alternates in the bid of Mr. Cook, so it was hard to ascertain just what the bid was for. The bids for the plumbing and heating were: Albert Ellis, Moorestown, \$916; George D. Worrell, Mt. Holly, \$830; A. A. Stidole, Mt. Holly, \$630.95.

A resolution was offered by Freeholder Lippincott and unanimously adopted, requiring that a bond in the sum of \$500 be given by persons desiring to move small buildings over the county highways, and that for large buildings a permit must first be obtained from the freeholders, and a bond given in a sum to be determined by the board.

More Alterations A resolution by Director Russ authorizing the clerk to advertise for bids for alterations and additions at the Fairview Sanatorium, was passed. Mr. Russ also introduced the resolution to advertise for bids for the central heating plant to be installed in the county buildings at New Lisbon.

Charles A. Rigg appeared before the board representing Burlington township in a request that the county take over about two and a half miles of road between the Burlington and Florence townships line and Stevens station and improve it with oil penetration construction. Mr. Rigg said that his township would be willing to bear half the expense of the improvement with the proviso that the township would not be responsible for more than \$35,000 as its share.

According to the county engineer's estimate the cost of three types of construction could be as follows: Oil penetration, \$31,000; sheet asphalt, \$86,000; concrete, \$103,000. Mr. Russ favored asphalt as being much more durable at only a comparatively small increase of cost. Freeholder Fisher pointed out that the road was of growing importance and should be of good durable construction. The county engineer was instructed to prepare plans and specifications for bids on the three forms of construction, after which the freeholders will submit a counter proposition to Burlington township.

Want Roads Improved A petition was received from residents along the Cookstown-Jacobstown road and the Jacobstown-Cheserford road asking that these roads be improved. Director of Roads Stout said that both of these roads had been included in the road schedule made out the first of the year (Continued on Page 8)

Easter Services in the Churches

SPECIAL EASTER PROGRAM

Baptist Primary Children to Present Colorful Easter Pageant Sunday Evening

"Why Didn't You Tell?" is the title of a special Easter program by Anita B. Ferris which will be presented in costume by children of the Primary Department in the Baptist Church Easter Sunday evening. The program is one with a missionary message and will be composed of children representing all nations—Syrians, Chinese, Eskimos, Arabs and Japanese. Along with these, "Children of Nature" appear as Violets, Crocuses, Lillies, Bunnies and Robins. The bearers of the Easter message consist of "Christian Children" who in due time will tell their story to the "Children of the World."

It is easy to imagine the array of color that these children will present in their varied costumes and it is expected that the Central Baptist Church will be filled for the service. A number of extra chairs have been provided, however, as that all may be seated. The program will begin at 7:30 on Sunday evening. Everybody in the community is invited.

CHURCH OF SACRED HEART

The Festival of Easter will be observed at the Church of the Sacred Heart, Fourth and Linden avenues, on Sunday, April 4, with Masses at 7, 9, and 10 a. m.

The 10 a. m. mass will be solemn high mass with sermon by Rev. John F. Vanston, C. P., of the St. Michael's Monastery, of Hoboken, N. J.

The choir will be assisted by Professor Bosse's Orchestra, of Camden.

LUTHERAN CHURCH NOTES

On Holy Thursday at 8 p. m. a special service will be held by the Rev. Philip Vollmer, Ph.D. D. D. The choir will render the cantata, Stainer's "Crucifixion" under the direction of Raymond Garey, of Willow Grove.

Easter Sunday at 10 a. m., the Sunday School will have a special Easter musical service. Young People's League invites you to its meeting at 6:45 p. m.

The Rev. E. J. Traver, of Philadelphia, will again have charge of the church services, 11 a. m. and 7:45 p. m. Holy Communion at both services. We hope every member will be present. Individuals desiring baptism are urged to be present at the morning church service.

The Ladies' Aid Society will present the play, "Seven Chances" at the Palmyra High School on Monday, April 5th, at 8:15 p. m. Secure your tickets immediately. A program surpassing last year's entertainment is promised.

CHRIST CHURCH PALMYRA Good Friday

What can be more fitting than for Christian people to bear in mind, and keep sacred the anniversary of our Lord's suffering and death.

I affectionately invite any and all who care to keep holy and sacred the anniversary of our Lord's death to unite with us in an attendance upon the three hour service which begins at 12 o'clock and lasts until 3 p. m.

There will be prayers, hymns, and periods of silence for quiet thought. During this time there will be seven addresses made on the seven last words spoken by our Holy Redeemer from the Cross.

Persons who can not stay throughout the service are at liberty to come and go at will.

There will also be a brief Evening Prayer, beginning at 8 o'clock with short address, for the convenience of those whose duties prevent their attending the Three Hour Service.

There will be Baptisms in the Church at 4 o'clock on Easter Even. Easter Day The services will be at the usual

Architects Estimate \$4000 For Alteration in Collector's Office; Bid \$7000

WILL LOOK FOR SOME WAY TO ECONOMIZE

When the bids of the builders amounted to almost twice as much as the architect's estimate for remodeling the county collector's office, the Board of Freeholders last Friday decided not to award the contract, but to look into the matter to see if some economies could not be discovered that would bring the price down materially. The matter was referred to the director of the department of public buildings.

The bids were as follows: William C. Cook, of Mount Holly, \$5,400 for the work and materials; Roscoe C. Gale, \$7,198. The latter bid provided for the use of certain materials which were classed as alternates in the bid of Mr. Cook, so it was hard to ascertain just what the bid was for. The bids for the plumbing and heating were: Albert Ellis, Moorestown, \$916; George D. Worrell, Mt. Holly, \$830; A. A. Stidole, Mt. Holly, \$630.95.

A resolution was offered by Freeholder Lippincott and unanimously adopted, requiring that a bond in the sum of \$500 be given by persons desiring to move small buildings over the county highways, and that for large buildings a permit must first be obtained from the freeholders, and a bond given in a sum to be determined by the board.

More Alterations A resolution by Director Russ authorizing the clerk to advertise for bids for alterations and additions at the Fairview Sanatorium, was passed. Mr. Russ also introduced the resolution to advertise for bids for the central heating plant to be installed in the county buildings at New Lisbon.

Charles A. Rigg appeared before the board representing Burlington township in a request that the county take over about two and a half miles of road between the Burlington and Florence townships line and Stevens station and improve it with oil penetration construction. Mr. Rigg said that his township would be willing to bear half the expense of the improvement with the proviso that the township would not be responsible for more than \$35,000 as its share.

According to the county engineer's estimate the cost of three types of construction could be as follows: Oil penetration, \$31,000; sheet asphalt, \$86,000; concrete, \$103,000. Mr. Russ favored asphalt as being much more durable at only a comparatively small increase of cost. Freeholder Fisher pointed out that the road was of growing importance and should be of good durable construction. The county engineer was instructed to prepare plans and specifications for bids on the three forms of construction, after which the freeholders will submit a counter proposition to Burlington township.

National P. T. A. Keeps Up Activity

Rapid Growth in Scope of Associations Shown Through-out U. S.

The Texas Branch of the National Congress of Parents and Teachers is experiencing the most rapid and substantial growth in its 17 years of organization. There are now 1,236 local parent-teacher associations enrolled as members of the State congress. Since November, 1924, 258 new associations have become members of the State congress. At the recent State convention, held at El Paso, the treasurer reported the disbursement of \$19,000 for child-welfare work during the fiscal year.

Through Dr. J. E. Butterworth, of the rural education department, Cornell University, in cooperation with the National Congress of Parents and Teachers in making a survey of 12 States representing varied conditions of organization and population. The survey is an attempt to make an impartial inquiry into the work and ideals of parent-teacher associations so that their problems and the methods of attacking them may be seen more clearly.

Blanks entitled "An Inquiry to parent-teacher associations" have been sent through State presidents to associations of the 12 States. In addition to general questions regarding membership, character of associations, and attendance, the inquiry requests lists of activities, outstanding problems, chief handicaps, copies of programs, and minutes of at least two business sessions.

Rivalry for first place in national congress membership is keen in those States that have been making remarkable growth. California, Illinois, and Ohio are the highest three States in membership. Ohio has made a gain of 16,000 during the past year. Figures given for these States are 129, 212, 23,449, and 66,090, respectively. Ohio reports a special increase in rural membership, 80 counties of the 88 of the State having associations.

The Idaho branch of the National Congress of Parents and Teachers has put itself on record in the care of the young people of the State by passing a resolution opposing commercialized "round-ups" or "rodeos." such exhibitions are opposed as not representing American ideals or the traditions of the West and as degrading in their influence on the young by practicing cruelty to animals under the guise of amusement. The Idaho congress asked the authorities to enforce the law prohibiting cruelty in any form.

Another resolution passed by the Idaho branch urges school officers and teachers to forbid in school dramatics drinking scenes, the use of tobacco, and anything that is not of the best moral and ethical standard. This resolution urges a positive effort toward a constructive personal, family, and community recreation through the use of books, art, and music and those agencies which call the young people to God's out-of-doors. Members have pledged themselves to protect to publishers of literature of a questionable character and to support officials in the enforcement of the prohibition laws.

New Jersey reports more than 300 schools operating school banks in the State, with 87 per cent of the pupils depositing. Nineteen parent-teacher associations have been instrumental in putting school banks in operation during the year. The chairman of thrift in the national congress has outlined a program for teaching thrift in the home, because the family is the basic unit of society and the early training of the child in the home is fundamental to all education.

MISS MORRIS LOSES

Burlington Woman Fails to Recover Damages Against Railroad

A jury in the Federal Court at Trenton on Saturday returned a verdict against Miss Annie Morris, of East Union Street, Burlington, in her suit against the Pennsylvania Railroad Company for \$50,000 to cover damages received in an accident at East Broad and Pearl streets, Burlington, on March 5, 1923.

The jury was out less than two hours and their verdict, "no cause of action," was said to have caused surprise as it was reported Miss Morris had been asked to settle the

QUITS DIAL TWISTING

Karl Kitchen, who conducts a column in the New York Evening World, published the following as a warning to keep the cars free of embarrassments: "The other evening I was invited to a radio party," said James H. Birch, editor of the Log of the Circumnavigators' Club. "It was a new machine and several experts were also invited to test it. One bug put ear 'phones on and was sitting in front of the machine, working assiduously, when the host invited everybody into the dining room. The bug did not hear him and now swears he will never wear the 'phones again except in his own home."

case out of court on a \$10,000 basis.

Martin Devlin, former prosecutor in Mercer County, Miss Morris' attorney, said that a new trial would be sought.

The railroad company's testimony was confined to the crew of the train that maimed Miss Morris for life and forever cut off her earning power. All tried to make it appear that Miss Morris was negligent in crossing the railroad track; that she took her life in her own hands when she was using a public street in Burlington; that she had fallen in the work of looking to her own protection.

It was testified by Anthony Winklespecht, of Riverside, who was driving the car in which Miss Morris practically lost a leg, that he did not see the train that was approaching until he was almost on the track, and then, because it was running backward, he thought it was going east instead of coming west. In his haste to escape danger when he saw the train bearing down upon him he stalled his engine and a moment later the automobile was jammed between one of the cars of the backing train and a telegraph pole that stood in the centre of the highway and Miss Morris was cruelly maimed.

GRASS SEED FRAUD

Postal Department Bars "Herbaceous Prate" From Mails

Many persons have been victimized by the Zenith Lawn Accessory Company, a firm with numerous mail addresses engaged in selling a grass seed mixture for lawns under the coined name "Herbaceous Prate." The Post Office Department has denied the company the use of the mail.

According to the United States Department of Agriculture, grossly erroneous statements as to its suitability for lawns have been made. Its qualities have been proclaimed in such phrases as "The boss of all grasses;" "the world's most beautiful bluegrass;" "a lawn in 30 days anywhere;" "it will grow where other grasses have failed, in any soil or climate;" "heat, cold, or shade will not affect it."

An analysis of the mixture made by the department seed testing laboratory showed it to be composed mainly of meadow fescue and Italian ryegrass. The victims have paid as high as \$1.50 a pound for the mixture, whereas, according to the department the constituents of the Herbaceous Prate mixture could have been purchased from reputable seed firms for not more than 18 to 20 cents a pound.

Anne Leconey Honored

Riverside Student Chosen Vice-President of Trenton Normal Society

One of the students from this district who is at present attending the Normal School at Trenton is Miss Anne Leconey, of Riverside, who has been honored by being chosen Vice-President of the Gamma Sigma Society.

In this school there are eight literary societies to which members of the school are eligible. The officers of these various societies are chosen twice a year and it is considered an especial honor to any girl to be elected to the official board.

Each society has some special aim in connection with the life of the school. The aim of Gamma Sigma is the building up of a school museum. The society is acquiring and arranging in suitable form various kinds of illustrative materials useful in teaching. This year a large number of pictures have been mounted and industrial exhibits obtained.

Gamma Sigma hopes to gather materials representing the various industries of the state and will appreciate any donations its friends may be able to contribute.

Burlington Young Women Organize Business and Professional Club

The Y. W. C. A. building of Burlington was filled with young women on Tuesday evening when a Business and Professional Women's club was organized. A delicious supper was prepared and served by the Board of the Burlington Branch. The tables were artistically decorated in yellow and green crepe paper and daffodils and the same color scheme carried out in the menu.

Miss Sallie Sumner, county secretary, told of the work being accomplished in the Business and Professional Women's Department of the Y. W. C. A. of which 125,000 young women are members. In Burlington County there are nine business girls clubs who have adopted as their slogan "More honesty and better service in business."

Miss Elizabeth Black, state secretary for rural work in New Jersey, gave a talk on "The Business Woman's Place in the Business World."

Officers of the club will be elected at the next meeting which will be held in April.

Miss Black in County

Miss Elizabeth Black, secretary for rural and town work in the state of New Jersey, visited Burlington County last week. Miss Black is working with organized associations and with registered Girl Reserve clubs over the state.

The Eva D. Bowles Y. W. C. A. club of Mount Holly put on a candle ceremony at the St. Paul's Methodist Church on Washington Street Sunday evening at 8 o'clock. The program was planned by Mrs. Edward Smith, president of the club, and twelve members took part in the service. Miss Sallie Sumner, executive secretary of the county Y. W. C. A., assisted in the service and gave an interesting talk preceding the ceremony.

The County Council of Business Girls will meet at the home of Mrs. Henry Stockwell in Moorestown on

sort, particularly as they are without a minister at this time.

The Elizabeth Dunn Girl Reserves of Burlington enjoyed a club supper at the Y. W. C. A. on Friday evening. It is true that jollity aids the digestive organs, then the cold meat, salad, rolls, and fruit cocktail met with no obstacles.

Fun in Dishwashing

Even the wearysome task of dishwashing proved a time of fun making. A discussion followed in which suggestions for club programs were made. Many interesting things were decided upon. The last hour was spent in playing games.

The Indian Mills Girl Reserves had the privilege of a meeting with Miss Jean Driedlein, Mount Holly Community Nurse, last Wednesday. The girls are studying "First Aid," and Miss Driedlein was able to give them the very best of suggestions for the treatment of many mishaps such as burns, fainting, wounds, stings, sprains, and drowning. She also demonstrated several kinds of bandaging to the group. This was very interesting as well as helpful. The Mount Holly Grade School Girl Reserves had a most interesting visit last Tuesday afternoon to the Burlington County Shoe Factory. The girls had the privilege of seeing how shoes were made, step by step, from the pieces of leather to the finished shoe. That

The people of Chesterfield greatly appreciated the ability of their young people to do a thing of this

sort, particularly as they are without a minister at this time.

BACK TO RIVERTON

The Rev. W. H. Campston, Chaplain of Seamen's Institute in New York City

The Rev. William H. Campston and family have returned to Riverton after spending several years in Virginia. Mrs. Campston, and children, will occupy apartments in the Maples, while Mr. Campston fills his new position in the Seamen's Church Institute, New York City.

The Seamen's Church Institute, which Mr. Campston will serve as chaplain, is an incorporated religious society, the objects of which are not only to provide churches for the seamen and boatmen of the city and port of New York, but also boarding and lodging houses and entertainment. It was first organized as the Young Men's Auxiliary Education and Mission Society in 1881 and since that time the name has changed several times and the activities of the organization greatly increased. The present name was adopted in 1906.

The present building was erected twelve years ago and is located on the East River Front. It is a fire-proof structure, sixteen stories in height and is built and equipped as a hotel, club and church. It is practically a town within a building, containing a church, a complete hotel (lodging department, restaurant, soda fountain, news-stand, barber shop, etc.), a school (navigation and marine engineering and other educational features), a club (billiards, reading and game rooms, gymnasium, baths, etc.), a general store or "shop chest," a bank, a post office, an employment bureau, a theatre, a hospital and clinic, an express office and baggage department and a charity organization, or welfare department.

Every part of this great building is crowded to its full capacity day and night, the lodging registrations going well over 200,000 annually. The nightly sleeping capacity is 714. Mr. Campston is peculiarly fitted to assume these responsibilities and accomplish wonderful results. To start with, he is what is known as a good mixer; he has had a wealth of deep sea experience, has visited many foreign countries and speaks several languages fluently.

HENRY ASHBURNER

Henry Ashburner died suddenly last Friday morning, March 26th, at his home on Fulton street, of apoplexy. Mr. Ashburner was the son of the late Benjamin F. and Julia B. Ashburner, born in Philadelphia on March 6th, 1868. He was descended from one of the oldest Philadelphia families, his great-grandfather having been a vestryman of old Christ Church, Philadelphia, under Bishop White. Mr. Ashburner was connected for many years with the firm of Duncan & Moorhead, but his health becoming impaired, he gradually withdrew from active business and practically retired some two years ago.

In 1887 he and his wife, who was Miss Agnes Boulton, came to Riverton, where he soon, by his sterling and upright character, endeared himself to the people of the borough. He had served as member of the Borough Council, was a devoted member of Christ Church, which he served for many years as vestryman, and at the time of his death was a trustee of the Riverton Free Library Association.

He is survived by his widow, one daughter, Mrs. Peter Harrington, and two sisters, Miss Blanche Ashburner and Mrs. Albert Edson.

The largely attended funeral was held Monday afternoon from Christ Church, the service being conducted by the rector, the Rev. A. H. Lewis, assisted by the Ven. R. Bowden Shepherd, who was an intimate and life-long friend of the deceased. Interment was at Woodlands.

In the passing of Mr. Ashburner, Riverton has lost another most respected townsman; he had a host of friends and the sympathy of all goes out to the bereaved family.

No many people get excellent results from our classified columns that we rarely call attention to it any more. Last week one of our subscribers advertised an automobile and sold it within two days. Not many salesmen will sell a second-hand car for 25 cents commission. The week before there was a hot water boiler for sale and the owner said he could have sold it two or three times with the replies from one insertion. Quite often valuable articles lost are recovered through the same medium.

Estate of William J. Hooker

WINK'S LOSE

Deleo Boys' Club Wins Sixth Game by Sportsmen's Ball

A spirited rally in the second half of both games gave Deleo Boys' Club, of Derby, a pair of victories over Wink's Y. M. C. A. quints at the Epworth Temple gym Saturday evening. The first team lost, 24-22, and the classy second string "Y" five was defeated by a still smaller margin, 17-15.

Gamble, with a quartet of field goals, and Rea, with six double dunks, started for the visitors. Blakey, with a trio of field goals and an equal number of fouls, and McKee and Schwartz, with a pair of two-pointers and three fouls apiece, were the local bright lights.

The game was up and tuck from start to finish. Palmyra enjoyed a one-point advantage, the score being 15-14 at half time.

The local scrubs put a brilliant game against their classy opponents with fast all around playing and exceptionally nice passing, the features. With less than a minute to go and the score tied, the hawk-eye of the referee detected a foul against Palmyra and the Deleo boy made good his shot for the winning point. Wink's boys were ahead, 10-8, at the end of the first half.

Burke, Brown and Middleton were the outstanding local court artists and Mollinix and Meyers performed with honours for the Deleo scrubs.

Recall first and second quintets, of Riverside, will be the attraction at the Temple gym this Saturday night.

Y. W. C. A. NOTES

Once again the people of Burlington County, who have the welfare of girls at heart, are asked to renew their membership in the Young Women's Christian Association by paying the annual dues of one dollar.

It may be interesting therefore, to be reminded at this time of the far-reaching and vital work that this Association is doing, especially in the remote districts of our county.

The Eastern Chapel is not able to support a regular minister and the Y. W. C. A. supplies a speaker there for one Sunday in each month. At Evesboro, where there are many Italians, the association sends not only speakers, but teachers for the Mission Sunday School as well. In one other region, the Y. W. C. A. conducts the only religious services that are held. At Chatsworth, too, it is the only county organization working for the good of the community, who will be leaders in the mission Sunday School as well.

One club of girls is sending a member through normal school so that she will be better fitted to help her family who greatly need her support. So, in this program of Christian helpfulness and character building, the Young Women's Christian Association is laying foundations for a stronger young womanhood, and the girls are in the movement toward a better country, a better state and a better world.

WHAT HAPPENED TO JONES?

A shroud of mystery lays over the recent career of a certain young man bearing the exclusive name of Jones. Many queer rumors are circulating through the town, but so far the details have not been fully uncovered, and we ask the co-operation of the public in bringing this interesting character into the lime-light.

In reality however, it is known that Jones is to take a leading part in George Broadhurst's famous success, "What Happened to Jones," to be presented by the Junior Class of the Palmyra High School, on the evenings of April 23 and 24th.

Edward Hudson fills the part of Jones, and Helen Knakat an Clara, a character that will win the hearts of the audience immediately. The sporting blood of the dignified professor Rhensner Goodly has been stirred for the first time, and his resulting, tantalizing predicament, arouses the suspicion of his stately wife, Mrs. Goodly, who rules with an iron hand. The parts are taken by Anna Murphy and Edward Sor-

don. Ralph E. Platt is Richard, a friend of Jones, and engaged to the professor's daughter, Marjorie, formerly played by Gertrude Pancoast. Marie Burghman and Alvina, a romantic old maid of forty-five summers, plays opposite to Matt Hunter, as the Rev. Anthony Goodly, D. D., an innocent—? ? bishop, recently arrived from Australia.

The cast is completed by Elizabeth Toy, Grace Bauer, Henry Mathers, Victor Mueller and Joseph Klingler.

Phila. Dealers at Ford Plants

Take Years to Become Familiar With Great Detroit Enterprise, Says Salesman

Ford dealers and salesmen of the Philadelphia territory recently spent two days visiting the great manufacturing plant of the Ford Motor Company at Detroit.

"Of course, we merely scratched on the surface of just a few phases of the Ford industries," one of the dealers explained. "It would take months, yes, even years to become thoroughly familiar with the intricate machinery of the Ford plant."

In Detroit alone, in the River Rouge and Highland Park plants, more than 120,000 persons are employed in producing cars, contrast that figure with the population of Philadelphia.

"No wonder Henry Ford can put so much value into his cars. His control over the products used in his cars goes right back to the mines and the forests. Probably the most dramatic impression I received was in the new steel rolling mill. There billets of steel heated to a bright glow are drawn down in size through powerful rollers as easily as a child pulls taffy."

Scraping Freighters. "When I read in the papers that the Ford Motor Company had purchased a fleet of ships from the government to scrap I didn't realize just how big a job that would be. The first of these great freighters is now being cut up by company engineers and it sure is a mammoth task."

"We also visited the Ford Airport at Dearborn and saw the big all-metal airplanes which are used in the Ford Air Transport running daily from Detroit to Cleveland and Chicago. The Ford planes, under government contract, are now carrying U. S. air mail, connecting with the transcontinental air line. Since the Ford air transport has

been in operation, Ford planes have flown more than the equivalent of six times around the earth without an accident, an indication of the dependable performance of the modern air liner."

Development of a cloth-making industry within the Ford Motor Company which will produce more than 5,000 yards of fabric for upholstery for Ford closed cars, is announced in the current issue of the Ford News. Manufacture of cloth, which has been carried on by the company in an experimental way for some time, has reached a daily output of 500 yards and by the first of August should reach the point of 2,500 yards per day production.

At present, all looms are in the Highland Park plant. To reach the contemplated production of 2,500 yards daily, however, 74 more looms will be installed. Even with this department at full production, the output of cloth will be only a fraction of the amount required by the company. To produce Ford closed cars at the present rate, more than 22,000 yards per day are needed.

Although present equipment permits only the use of secured wool, special machinery has been installed to accommodate raw wool. The greater part of the wool requirements will be supplied by Michigan flocks.

Ford upholstery cloth is 80% wool, warp with cotton filling. This combination having been found to combine maximum strength and wearing qualities with a soft finish. The standard color is slate but a close examination discloses a myriad of various colors which impart to the finished product an appearance of richness and warmth.

While the bulk of the cloth requirements of the company will continue to be supplied by outside sources, development of this new angle of manufacturing is interesting in that it marks another complete production cycle, from raw material to finished product, within the Ford industries.

County Boy Scout Bulletin Tells of Boys' Many and Varied Activities

Through the efforts of our President, H. M. Wall, a splendid addition to the personnel of our Council has been accomplished. We are happy to be able to announce that the following gentlemen have been appointed to act as an Advisory Board of the Boy Scout Movement in Burlington County:

B. F. Haughton, Honorary President; W. C. Colles, H. F. Hall, E. F. Johnson, Moorestown; G. B. Keim, N. F. S. Russell and J. H. Blinck, Beverly.

Need anything further be said as to the success of the Boy Scout Movement with such men back of it?

None too early to line up your registration. In a very few days all of the frost will be out of the ground and everything will go a-buzzing toward the fulfillment of the greatest camp Burlington county Scouts have ever used. The Camping Committee decided that we would continue to hold the cost down to the lowest possible figure and the fee for seven days will be six dollars for registered Scouts. It doesn't pay for a thing except what you tuck under your belt in the mess hall. Fair enough you say.

Very well, who will be the first Scout to sign up for Camp? Let's have some real action at once. All Scouts must register and a dollar down must accompany your application. The dates are July 3 to August 28th.

Henry B. Blair, Chairman of Camp Committee

It is with regret that we announce the death of Scout William Dinsing of Troop No. 2, Burlington, N. J. William was one of our most faithful scouts, who never failed to respond when called upon to help, and he will be greatly missed by the Council and his fellow Scouts.

Our Commissioner, H. M. Neely says:

It takes time to train a good troop of scouts, time and hard work, but it pays and "Pays Big." A young man once asked the President of Oberlin College if he could not take a shorter course. "Oh yes," said the President, "but that depends on what you intend to make of yourself. When God wants to make an oak He takes a hundred years, but when He wants to make a reed He takes only six months. Let us give the time to 'Our Boys' and make sterling characters that will stand as monuments to our memory when we have passed along the trail."

Troop Notes. Beverly Troop 5, is building a cabin in the woods along the Rancocas Creek. The boys, under Brian Kane, are working like beavers to get it ready for over-night hikes this summer. Brian sure has a fine troop of Scouts.

Scoutmaster Harpold Neville of Troop 1, Delanco, is publishing a snappy Troop Bulletin, full of pep and news. Through the efforts of Ralph Charlton, the Township Committee have agreed to let the Delanco Boy Scouts handle the traffic situation in Delanco.

Riverside Troops 1 and 2, are displaying handicraft made by the Scouts in six of the store windows. Scoutmasters Himes, Carter and Potts say these window decorations will be the best ever. These two lively troops held a movie benefit recently and made sixty-three dollars for each troop. Good work. Troop 3, of Hiverville, under Scoutmaster George Bumbrey, is making good headway and adding new members to the troop. Now watch them grow.

Maple Shade Troop 1, have been under the steady canvas of a cold meeting place, but still going strong. Watch out for Ben and his gang in the contests, they are after the prize.

Lancaster Troop 1, now have a permanent meeting place in the old school house basement. The boys under Scoutmaster Powell, did a good job in cleaning up their new quarters and are proud of the results. Good luck to you, lads.

Harry Little, Bridgeboro Hero, Invited To Join Bridge Opening Ceremonies

Harry Little, the 16-year-old Palmyra High School swimming hero who saved four lives last summer, will be the only Jersey boy to be a member of the official party at the opening of the Delaware River bridge in open July 4.

Harry, who is a junior at Palmyra High and resides at Bridgeboro, the scene of two of his heroic acts which have gained him national recognition, is to be a member of the official party at the opening of the bridge in July 4.

The boy hero was recently awarded a Ralston hero medal at a testimonial dinner, has been given a life insurance policy, offered like guard positions at water shore resorts and parks and has a host of other honors bestowed upon his youthful brow.

He will be the only New Jersey representative at the Sequel Heroes' banquet at the Benjamin Franklin Hotel, Philadelphia, April 1, and has recently been notified that he is to receive a Carnegie life saving award.

Harry also received an offer to

swim with the Penn A. C. On several occasions this winter he has broadcast talks on his rescues from Philadelphia radio stations.

NOT GUILTY

"Things I Am Glad I Have Never Done"

Paul W. Holmes out in Camp Custer, Mich., has compiled a list of "Things I Am Glad I Have Never Done." It's an interesting list, and just to show our readers we print it, despite the petty dig at editors in the end. What things that you have refrained from doing have filled your soul with the Pollyanna spirit as you contemplate your restraint? Here's Mr. Custer's list:

Never believed in centralization of government.
Never supported the Volstead Act.
Never joined the Ku Klux Klan.
Never attempted to "uplift" my fellow man.

Never believed in "THE WRATH OF GOD."
Never envied or blasphemed the man who was richer than I.
Never attempted to write popular fiction.

Never accepted any man as the "MOUTHPIECE OF GOD."
Never accepted the popular judgment of any man.

Never preached a doctrine of pacifism.
Never lobbied a legislature to enact my private opinion into law.
Never aspired to be an "EDUCATOR."

Never thought man could be made good by law.
Never believed what a sport writer said.
Never thought preachers the "denier of" in religion, politicians in statesmanship, or editors in literature.

I know I am wicked and there is no hope for me. I know I am non-progressive and have no intellect. I know I am not a good citizen and will probably always remain a nobody. But I am going to stick to the above creed just the same. — Collier's.

Middle age is the period when he thinks some other brand of cigarettes would be better for him.

All the old ladies that used to weep at the strains of "Home Sweet Home" now have granddaughters who fox trot to the same tune.

WOMEN DRIVERS

The Hand That Rocks the Cradle Can Steer Auto as Well

Every once in a while a survey is conducted by some authority or other to determine the relative reliability of women and men as automobile operators, and contrary to the opinion which is invariably almost always reached that the former lead as careful drivers, The National Safety Council recently put forward a statement, in answer to a request from a liability insurance company, which told the story delightfully.

"The beauty whose high-powered sport model breaks all the city speed laws, and whose devastating charm disarms the motorist, is rarely met with except on the screen."

MY CREED OF FRIENDSHIP
I have great faith in you, always did have, always will. I don't care what you do, what you become, whether you succeed moderately or splendidly. That's not considered in the creed of friendship.

I am your friend. It is my job to encourage you, to be loyal to you, fair with you, and to help you in any way you need. That's friendship.

The man or woman who likes me because I succeed will hate me if I fail, and that is not friendship. I know quite a few people who are like that and I pass them by with very little consideration. There are a good many people who treat me mightily nice now—but I can't forget. I harbor no hatred, no resentment, but I know just how to measure their pretended friendship, just to distinguish between the real and the counterfeit.

Friendship asks no questions. Overlooks both failure and success. Desires neither prosperity and failure to the real man and the real woman. That's the kind of friend I want. That's the kind of friends I want.—[Selected.]

SUNDAY SCHOOL LESSON

THE REV. F. B. FLETCHER, D.D., Dean of the Riverside Church, New York City, is the author of the lesson for April 4.

Lesson for April 4 JESUS APPEARS TO HIS DISCIPLES

LESSON TEXT—John 20:24-29; 1:1-3.
GOLDEN TEXT—Because thou hast seen me, thou hast believed: blessed are they that have not seen, and yet have believed.—John 20:29.

PRIMARY TOPIC—Thomas Happy to See Jesus Alive Again.
JUNIOR TOPIC—Jesus Appears to His Disciples.
INTERMEDIATE AND SENIOR TOPIC—Jesus Appears to His Disciples.
YOUNG PEOPLE AND ADULT TOPIC—Loving and Serving the Risen Lord.

1. Jesus Manifests Himself to the Disciples—Thomas Present (20:24-25).
Thomas was absent at the first appearance of Jesus—just why we may never know. His absence deprived him of a vision of the Lord. The other disciples went to Thomas with the glad news of the Lord's resurrection but he would not believe. His stubborn disbelief was such that he doggedly declared that unless he saw the prints of the nails and put his finger in the print of the nails and thrust his hand into His side, he would not believe. Note:

1. The Lord's kindness to those who have difficulties (vv. 23, 27).
Thomas declared his doubts, but the Lord kindly supplied the evidence which he demanded.

2. The Lord revealed Himself to Thomas (vv. 27, 28).
When He thus revealed Himself, Thomas was transformed from a doubter into a confessor. He cried out, "My Lord and my God."

3. The superior blessing of belief without sight (v. 28).
Jesus patiently furnished Thomas with tangible evidence of His resurrection, but assured him that belief on Him without the tangible evidence was to be in a frame of mind to receive the blessings of the Lord.

4. Jesus Manifests Himself to Seven Disciples at the Sea of Tiberias (21:1-14).

1. The occasion (vv. 1-3).
At Peter's suggestion the disciples go fishing. They do not go back to their old calling without hope in Christ. They should not be accused of forsaking their Lord—they were poor men, therefore obliged to work. Furthermore, honest toil should not be considered incompatible with witnessing for Christ. Sensible men and women will be busy at so-called secular occupations until called from them by the Lord. Indeed, when the Lord wants men to work for Him, He goes to those who are busy. The disciples toiled all night and got nothing.

2. The risen Lord the supplier of the disciples' needs (vv. 4-14).
At daybreak the Lord appeared on the shore and inquired as to their success. The Lord appears at the point of their extremity. When the disciples confessed their failure, He directed them and success followed.

(11) The Charge of the Risen Lord to Peter (21:15-17).
Christ put to Peter the three repeated question, "Lovest thou me?" before He gave to him a commission. This shows that supreme love to Christ is the one essential qualification for serving Him. "Lovest thou me more than these?" means, no doubt, "Do you love me more than you do these disciples and all things besides?" Three classes in the church need special care and food adapted to their several states.

1. Feed My lambs (v. 15). This first charge relates to those who are beginning the Christian life, the babes in Christ. The word "feed" means more than instruction. It means in addition to instruction, surroundings, influences, examples, etc.

2. Tend My sheep (v. 16). This charge shows a different class. It means to shepherd the sheep. The duty here enjoined is to deal with the mature class. He must feed them, give them the proper instruction, guide them, lead them and correct them.

3. Feed My sheep (v. 17). This third charge means the caring of aged Christians. The word "feed" is much the same as in the first case. It means that for the aged Christians the instructions ought to be such as will be suited to their needs.

IV. Follow Me (vv. 18-23).
Christ here gives a prophecy concerning Peter's death. It was to be by crucifixion (v. 18). Peter once ascribed from the cross, but now the Lord holds it up before him. It is not the Lord's death on the cross, but Peter's own. Whatever may be before, even the cruel cross, the disciples are directed to follow Him.

Worldly Joy
Worldly joy is like the songs the peasants sing, full of melody and sweet airs. Christian joy has its sweet airs, too; but they are augmented to harmonies, so that he who has it goes to heaven, not to the voice of a single flute, but to that of a whole band of instruments, discoursing wondrous music.—A. W. Beecher.

Our Lives
Our lives are like a garden, they grow either weeds or flowers.

JAMING THE SHADBLAWS
Mrs. Winifred Hudnut Valentino was awarded a divorce in Paris the other day from her not unknown husband. The award for the best headline just naturally falls to the gifted pen of the New York World who over the tale penned this sonnet: Winifred Hudnut Unbelieved in Paris

We Just Wonder
Speaking of the Weather Man,
We sort o' wonder whether
He ever caught pneumonia
Right over his own weather?
—Anna B. Rogers.

DRAP STATE COF

Corporal William H. O'Donoghue, well known in Burlington county, is no longer connected with the New Jersey State Police. When his name came for reappointment all his chief officers voted against him on the charge of "lack of adaptability to the State police service."

TROLLEY PAVING

Legislature Passes Bill To Relieve Burden on Public Service

The Legislature has passed in an amended form Senate Bill No. 27, introduced by Senator Abdell, of Morris county, designed to relieve street railways of part of the expense they now bear in connection with street paving.
Relief from paving charges as an unjust impost upon those who use street cars and who consequently pay paving costs charged against the companies, has been urged by Public Service Railway Company through a series of newspaper advertisements and has received the endorsement of many of the leading papers of the State.
Mr. Abdell's bill was passed by the Senate March 22. Before its passage by the Assembly it was amended to clarify certain of its provisions and to meet objections that had been raised as to some of its terms.
At the suggestion of the State Highway Commission a provision was inserted which requires the companies at their own cost to put tracks and track structures in good operating condition prior to the paving or repaving of streets in which tracks may be located by any municipality, board or body having authority to pave.
Under another provision inserted at the suggestion of the municipal authorities, the companies are required to repair any damage done to pavement between track and eighteen inches outside by reason of the operation of cars over the tracks. Municipal, county and state authorities can apply to the Board of Public Utility Commissioners for an order compelling the companies to comply with this provision and the Board is given authority to issue and enforce such orders.

SUMMER SESSION

Modern Courses for Teachers Big Feature of Rutgers This Year

With the consummation of the plans for the summer session which is to be carried on at Rutgers University, New Jersey will have one of the most modern programs for teachers and college students that has been offered in many years. New departures for the work in the summer session include an extended range of courses for teachers in the various high school subjects.
One most important new provision is a group of courses in the teaching of the various high school subjects, a set of special courses in mathematics, and courses in spoken French. A course in music for supervisors will include some unusual teachers, among them, George H. Garland, Supervisor of Music for the City of New York.
In an interview recently the director, Dr. Charles H. Elliott, said: "The summer session in the American university has come to be one of the most important lines of work. In many of our larger institutions the most intensive and important work is done during that period. At Rutgers we are attempting to make our program of work for college students, for teachers, and for those who wish to do advanced work in supervision and administration, one of the best in the country. We shall do experimental work in a school in which we offer opportunity to study the most advanced methods in elementary and secondary education."

Musings of a Maniculist
I don't like to be suspicious, but I notice a lot more sheiks asks me to marry 'em when I'm workin' 'em than when I'm out of a job.
Never mind if he does call you up twice a day; how many letters does he write you? You know you can't bring a telephone into court.
After all, women owe a lot to men; it was a man that discovered alimony.
—James Kevin McGuinness.

Ask Coolidge to Plant Napoleon Willow Slip at South Jersey Fair

From the tomb of Napoleon Bonaparte on the Isle of St. Helena, to the tomb of the immortal George Washington at Mt. Vernon, and then to a home in New Jersey is a long journey.
But that will have been the history and ancestry of a slip from a willow tree which the New Jersey Daughters of the American Revolution and their national officers have decided to take to Camden.
The willow which grows over the tomb of Washington was grown from a slip taken from the Napoleon tree. Now a slip of the third generation is destined to find its adopted soil on the new Camden Civic Center where the South Jersey Exposition will be conducted this summer.
The decision of the D. A. R. was made known at a meeting of representatives of historical societies of South Jersey who gathered at the Walt Whitman, Camden, for the purpose of drawing up tentative plans for ten weeks of historic and patriotic pageantry to be presented at the Exposition.
And to make the picture more impressive, it has been decided by the State D. A. R. to ask their national officers to invite President Coolidge to officiate at the planting ceremony. The President has accepted an invitation to visit Camden on July 5 when the bridge across the Delaware will be formally opened. With national and state officers of the D. A. R. joining in the invitation it is thought probable the President will accept.

STRONG CHICKS BOLSTER LAYING PLACE VITALITY

Chicks born weak or that have developed weaknesses while very young are the cause of much of the mortality occurring in laying flocks during the winter and spring. So reports the poultry department of the New Jersey Agricultural Experiment Station after observation of hundreds of flocks over a period of years.
In New Jersey the mortality in laying flocks average close to 2 per cent during the cold months. Chick mortality varies from 10 per cent upwards, and is the biggest cost in raising pullets.
To reduce this unnecessarily heavy loss the department recommends the following:
Purchase chicks of high quality that are from stock tested free from bacillary white diarrhea.
Hatch early. Chicks received before April 5 do not develop the troubles of later hatches.
Use clean ground. Raise the chicks on ground that was not used for this purpose before, and where old birds have not ranged or droppings been spread.
Have clean houses. Clean and disinfect the brooder houses often.

CAR UPSETS

Injured Philadelphian Brought to Baraburg Hospital

John Naah, 2121 Merrill street, Philadelphia, was brought to the Baraburg hospital, Riverton, Sunday morning, seriously injured after his car upset on the Burlington Pike outside of Burlington.
Riding in the car with Naah was Fred Mason, of the same address, and he hailed Russell Watson, of Mount Holly, who was passing at the time. Watson rushed the men here and after an examination it was found that Mason was uninjured.
Naah's car was damaged considerably.

ORGANIZATION CHANGE IN PHONE COMPANY

Marshall H. Downing Becomes General Manager of Eastern Area

An important change in the organization of the Bell Telephone Company of Pennsylvania and Associated Companies will become effective May 1 on which date Marshall H. Downing, now General Commercial Manager, will become General Manager of the Eastern area which will include south-eastern Pennsylvania outside of Philadelphia, Delaware and Southern New Jersey.
In his new capacity Mr. Downing will have charge of all telephone matters in this area whether they relate to the Traffic, Plant, Commercial or Engineering Departments. This area today has as many telephones and as large an investment in telephone plant as had the entire company a few years ago. This growth and ensuing complexities of administration and operation have made it advisable to decentralize the operating authority and responsibility by the creation of a general manager.
Mr. Downing is a graduate of the University of Maine and has been in the service of the Bell System since 1899. His first place was in New York Telephone Traffic Department. After two years he was made manager of the Franklin Exchange in New York City and later had charge of various districts in New York state and in northern New Jersey.
Mr. Downing left New York in November 1912 to go to St. Louis as a General Traffic Superintendent of the Southwestern Bell Telephone Company in Missouri and Arkansas. Four years later he was transferred to the Michigan State Telephone Company.
He entered the service of the Bell Telephone Company of Pennsylvania and its Associated Companies, the Delaware and Atlantic Telegraph Telephone Company and the Diamond State Telephone Company, in December 1919 where he was General Superintendent of the entire Traffic Department.
Three years ago he was made General Commercial Manager and placed in charge of the entire Commercial Department of the three companies.

Only a Buick Could Stand this Test!

Buick has the only chassis built today that can take a "shower bath" while the engine is running and driving the wheels.

Only Buick provides the design which can undergo such punishment. Of all cars built today, Buick alone has the complete protection of the "Sealed Chassis" and "Triple-Sealed Engine."

Every Buick operating part is "sealed" inside a dirt-tight, oil-tight, water-tight iron or steel housing. The "Triple Seal" (oil cleaner, gasoline filter, oil-filter) keeps dirt, grit and moisture out of the engine.

Road slush and grit cannot reach Buick vital parts. Rain and moisture cannot cause short circuits in the Buick electrical system. Even the spark plugs are protected!

Come in and see, with your own eyes, why Buick motor cars are more dependable. Only a Buick could stand the "shower bath" test!

SCHOOL CLERKS MEET

County Organization Formed by District Officials

Sixteen district clerks representing the school districts of Chesterfield, Eastampton, Evansham, Hainesport, Medford, Mt. Laurel, New Hanover, Northampton, Palmyra, Pemberton Borough and Pemberton township, Riverside, Shamong, Southampton, Westampton and Woodland, gathered in the office of Superintendent of Schools L. J. Kasper, at Main and Union streets, Mount Holly, last week, and effected a permanent organization to be known as the Burlington County Association of District Clerks.
An organization was formed by the election of the following officers: President, William H. Mason, of Northampton; vice president, Francis S. Day, of Palmyra, and secretary and treasurer, C. R. Moska, of Riverside. The meeting will go down on the records as the first annual meeting of the Association.
Printers are the men who put the ink in this ink.

To stop squeaks

Wherever a solid graphite surface lubricant is required, you'll find the Gulf Penetrating Oil "him the spot."

To stop squeaks in your automobile body and springs, a few drops will work wonders. And it will not collect dust, or become sticky or gummy.

For loosening rusted nuts and bolts, couplings, valves, brakes, hinges or any other rusted mobile metal surfaces, Gulf Penetrating Oil is highly recommended.

Sold in pint, gallon and five gallon cans at hardware and auto accessory stores—also at service stations.

Poems from English Grade English Class

The Song of the Month
January brings an snow and ice
And the joy of skating and coasting
February brings two great birthdays
Which is all it has for boasting.

March is the bringer of blustering winds
April of breezes and showers.
May brings golden days and bees
And June the pretty flowers.

July and August bring sultry days,
September the falling leaves.
October brings cold days and nights
November the barren trees.

December brings merry Christmas.
A happy day for all.
To rich, to poor, to young and old
It brings blessings great and small.

Anna Scattergood,
5th Grade.

Daffy-Down Dilly

Daffy-Down Dilly came out in the cold.
Through the brown mold.
Although the March breezes blew
Keen in her face,
Although the white snow lay in
Many a place.

Daffy-Down Dilly had heard under-
ground
The swift rushing sound of the
streams.
As they burst from their white
winter chains.
And whispering spring winds and
the pattering rains.

Thought Daffy-Down Dilly deep
down in her heart
"It is time, I should start."
So she pushed her soft leaves
through the hard frozen ground
Quite up to the surface, then she
looked 'round.

White snow all around her, gray
clouds overhead,
The trees looked dead,
The sun did not shine and the ice
did not melt.

Then how do you think poor Daffy-
Down felt?

"Cold weather, sighed Daffy with
beating heart,
"The earth's hard to dig,
There's but half an inch of my
leaves to be seen,
And two-thirds of that is more yel-
low than green."

"I cannot do much, but I'll do what
I can."
It is well I began
For if I can't manage to hold up
my head
The people will think spring her-
self is dead."

So little by little, she brought her
head out.
All clustered about,
And then her bright garment began
to unfold
Till Daffy stood clothed in her robe
green and gold.

O, Daffy-Down Dilly! so brave and
so true!
I wish all were like you;
So ready for duty in all sorts of
weather,
And showing forth courage and
beauty together.

Mary Pfaff,
Grade 8.

The Coming of Spring

The spring has come.
The flowers are out.
The birds and the insects are up
and about.
And the bumblebees have sought a
new route.

The willow peeps from its wood-
ed nest.
As if awaiting some great behest
The sky seems clear, the sun is
bright.
And the leaves on the trees will
soon be ripe.

A little white snowdrop in its home
on the grass,
Bends lightly as March winds rush
past.
A trailing arbutus with its face of

pink
Looks pathetically toward the sky.
And each person knows that spring
is nigh.

Frank Conwell,
Grade 8.

Springtime

Springtime is here
Bringing great cheer
To people on the earth.
The birds are singing,
And people show their mirth.

They, tiny something,
Are creeping above the ground.
In the meadows,
And by the pond,
Azure violets are found.

Spring has come at last,
You can breathe it in the air.
It has a touch of magic
So wonderful and so rare.

With the use of the bright sun-
shine,
Birds are on the wing.
All the world is happy
With the coming of the spring.

Jane Mathis,
Grade 8.

Signs of Spring

Oh, the pussy-willow's owl,
'Tis a sign that spring is here.
The robin's in the apple tree
With his song of good cheer.

And on the apple tree
The small buds appear;
And soon, what do you think?
The small buds on the apple tree
Will turn to white and pink.

The arbutus pops its head
From its warm, earthy bed.
When it sees the signs of spring,
It decides to stay and bring
Joy to all.

So let us sing,
Let all the world be happy
And all the world be gay
There's spring in every heart
Today and every day.

Lenore Showell,
Grade 8.

CHAMBER OF COMMERCE HOLDS LIVELY MEETING

(Continued from Page 1)

In the absence of the speaker
which Mr. Williams failed to pro-
duce, President Albertson suggested
that the general director fill the
breach and make a speech himself.

Williams makes stirring address
Mr. Williams said he was glad
to see the Chamber of Commerce
taking so much interest in civic
affairs. He had lived in Riverton
twenty-six years, and in all that
time the Chamber was the only
organization of men that had banded
together to advance the interests
of the town. "It may interest
you to know," said the speaker,
"that the property in Riverton is
valued at three million dollars.

The Mayor and members of coun-
cil are your board of directors, and
we are only too happy to have citi-
zens come in council with construc-
tive suggestions." He said that he
had tried to do what he could to
promote the interests of the town.
He said that every Rivertonian
should be proud to have such a
Mayor as Fred P. Honnig, who,
in his opinion, was fully qualified
to become governor of our great
State should the opportunity offer.
He had a complimentary word to
say about each of his fellow-coun-
cilmembers and the members of the police
force.

In speaking of the officers he
said that he heard some reports
from time to time about the mem-
bers of the police force which he
thought were unwarranted. He said
they were as clean and loyal a set
of men as occupied such positions
anywhere. And pointed out that
they had never been called be-
fore council nor the courts to an-
swer to charges of drunkenness,
violation of motor vehicle laws or
bootlegging. He said with some
warmth that the record of nearly a
quarter of a century of loyal and
conscientious service to the resi-
dents of Riverton should protect
them from petty and undeserved
criticism.

Speaking of a third officer, which
had been talked of during the past
year, he said he did not see the
pressing need for an addition to
the force at this time. He thought
it was most important, however,
to have a man at night so located
that he could be reached by tele-
phone at any time. He did not see
much need for patrolling the town

all night. He said he had been
around with the officers on their
night duty, any time from 11
midnight until daylight, and seldom
saw anyone on the streets.

Park Valuable Asset
The memorial park was a splen-
did piece of ground, Mr. Williams
said, and Riverton was fortunate
in having secured it. It afforded
an ideal ground for the national
sport, and it was proposed to add
other attractions as fast as the bor-
ough finances permitted. A base-
ball court had just been com-
pleted, and it was proposed to fur-
ther improve the swimming hole
so as to make it safe and sanitary
and give the folks a better place
to bathe than the polluted water of
the river.

Mr. Williams called attention to
the fact that two vacancies would
occur in council this year and urged
the Chamber to back good men for
the office. "Get away from the
knocking idea," he said, "and co-
operate. Riverton will have to
spend a lot of money in the next
few years. Additional school room
is needed, a sewer disposal plant is
inevitable, and other improvements
will have to be made from time to
time. Be very careful of the type
of men you put in office to repre-
sent you during these important
future years."

In speaking of how to improve
business conditions in Riverton Mr.
Williams said that it was first neces-
sary to sell yourself to the custom-
er, personally, after which it
was easy to sell your goods. He
courteously, say "good morning,"
"thank you" and "goodbye." People
appreciate these little attentions, and
will naturally trade where the at-
tention is cordial and congenial.

What Riverton Has to Sell
He said that some of the speakers
earlier in the evening had seemed
to think that Riverton had nothing
much to sell, but he had a differ-
ent opinion. He pointed to our
splendid river bank, our country
club, fine school, good churches,
improved streets, lighting system
and our banking institution. "It
isn't the town that is lacking," he
claimed, "but ourselves. Let us
sell our town to ourselves and then
proceed to sell it to our friends.
If we are going to make Riverton
what we want it to be we must
eat it, sleep it, drink it, dream it,
and above all, TALK IT."

What made the big Florida boom pos-
sible? he said, "Nothing but talk."

"If New Jersey had been talked
up like Florida was, our State
would have had a bigger boom than
Florida ever dreamed of. Let it be
Riverton with us, Riverton first,
last and all the time."

"And Rivertonians have a town
of which they could well be proud,"
he said. "The people of Riverton
are as fine as you will find any-
where. Where is a community that
has less crime? Why, it was only
the other day when I was talking
to the county prosecutor and county
detective that they remarked,
"The people down in your town never
give us any work. Wasn't that
a fine compliment?"

In closing, Mr. Williams predicted
a successful future for the Riv-
erton Chamber of Commerce and
pledged his cooperation.

Edward A. Richmond, who holds
a responsible position at the Japan-
ese Beetle Laboratory said that insti-
tution had apparently become a
permanent fixture and wanted to
cooperate making Riverton realize
its ambitions. Mr. Richmond said,
"be thoroughly imbued with the
value of your city. It is only this
attitude of mind that will make it
grow." The laboratory, he said,
brought between three and four
hundred extra men into the com-
munity during the busy months of
spring and summer, and the insti-
tution wanted to express its friend-
ly interest and cooperation.

The dinner meeting was voted a
big success and a resolution was
passed to hold one every month.

IMPROVEMENT BIDS TOO
HIGH, ACTION DEFERRED
(Continued from Page 1)

Director of Bridges Fisher report-
ed that bids had been asked for a
bridge tender at Lower Bank bridge
and asked that the engineer and
himself be authorized to act on the
bids. The permission was granted
further investigation he had found
the bridges in the lower part of the
county were used much more than
he had at first understood. Over
one of them a large hay crop is
hailed to market every season, and
several families are dependent for
a livelihood on the hay raised on
the meadows adjacent to this bridge.
He said the men in the neighbor-
hood were willing to use the lumber
left over from the construction of
the Lower Bank bridge, and that

a very durable structure could be
made at little expense. He was
authorized to go ahead with the
work.

The following bills of the various
departments were ordered paid:
Roads, \$5,628.75; Schools, \$1,112.
55; Buildings, \$10,622.35; Public
affairs, \$3,200.53; Finance, \$25,579.
49; making a total of \$105,237.16.

ADVERTISING DAY AT PORCH CLUB

If you were at the Porch Club today
When many free samples were given
away,
You saw Mother Goose in a curious
state
Or old nursery rhymes, and "old-
up-to-date."

Mrs. Darborow was Mother Goose
and wrote most of the clever rhymes
which introduced the tableaux
representing various advertisements.
The costumes, in many cases, as
well as the samples, were provided
by the firms represented.

Miss Gail Ellsworth was respon-
sible for all the clerical work in-
volved.
Among those present were:

Campbell Book Kids, Old Dutch
Chambers (6 of them), A Little John
Glad, Tupperware, Colman's Must-
ard, Gold Dust Twins, Baker's Cocoa
Lucky, Ketchum Tooth Paste in a
tube), The Pinky K-A-Ture Kid, A
Live-Saver Lady, White Lead Dutch
Boy, Wrighty Spearmint Gums, The
Bourbon Gentleman of Smith Bros.
Cough Drops, Macola Oil Infant
Grit, Pancake Flour "Aunt Jani-
ma," Whiskies, Chocolates, "Camp-
er Chalk," Oxyg Honey Loz-
es, Ivory Soap, Helar St Varieties, A
Lark and Rimes Lady, and Misses
The Gentlemen in suit made of
rings of rubber, which brought
down the house.

Mrs. Stanley Lippincott sang sev-
eral numbers before the entertain-
ment began, after which the Or-
thopedic machine was responsible
for the music, and the contribution
of the Victor Company consisted of
picture puzzle records. Paper shop-
ping bags to carry home the "speci-
mens" were provided by the Hull
Stationery Company.

It was a most original and en-
joyable afternoon and the ladies at
least were convinced that "it pays
to advertise."

WINTER HAVEN AWAKENS NATION AS CITY SURGES WITH GREAT ACTIVITY

Millions Being Spent to Make
'City of 100 Lakes' New Capital
Of Florida's Productive Area

City's Bank Resources Tripled;
Population Increases 350 Per Cent

With thousands of people pouring in from all parts of
the country, the bustling town of almost magic ap-
pearance, Winter Haven, Fla., has become the "City of
100 Lakes"—a sparkling new metropolitan
center.

Today Winter Haven is a sparkling town of activity and
constructive building. Its reputation as the most actively
growing town in North America has been enhanced by its rich
agricultural and commercial background.

Developing from 20 percent of developed Winter Haven
has made rapid strides. Already in 12 busy months
it has tripled its population, increased its bank resources 350
percent and has become, in a word, the richest city per capita
in the United States.

RIVERTON, NEW JERSEY, THURSDAY, APRIL 8, 1926

PRICE FIVE CENTS

"ROMANCE OF RIVERTON" NEW FILM NOW MAKING

Chamber of Commerce Sponsors
Plan; Committee of Three
Will Select Scenes

LOCAL TALENT WILL
BE USED IN FILM

At a meeting of the board of directors of the Riverton Chamber of Commerce Tuesday night it was unanimously decided to engage Edwin Cooper to produce a film to be known as the "Romance of Riverton."

Those present at the meeting were William H. Albertson, president of the chamber, Karl W. Latch, chairman of the moving picture committee, J. M. Coddington, treasurer, Louis C. Clelland, secretary, E. E. Compton, Robert H. Clelland, Joseph M. Roberts and Walter L. Bowen.

Mr. Cooper outlined his plan in detail. All the talent for the play will be Riverton men and women, boys and girls. The film will go back into the early days of Riverton and trace its growth to the present, showing step by step how the place has grown and developed.

The prominent places and people, borough officials, the fire company and the school will have a place, too.

Mr. Cooper, who lives at Hainesport, near Mount Holly, was attracted to Riverton as a suitable town in which to produce the film by the reports he had seen in the newspapers of the doings of the Chamber of Commerce here.

The Chamber of Commerce will offer prizes for the best essay on the history of Riverton—Past, Present and Future—after the play has been produced.

President Albertson has appointed a committee of three to co-operate with Mr. Cooper in producing the film. They are H. B. Conover, Karl W. Latch and Walter L. Bowen. They will determine what goes into the picture.

Mr. Cooper will require the services of twenty-five or thirty men and women and a large number of boys and girls to take the characters in the play. Those who would like to take part should file their names at once at the office of the secretary, Louis C. Clelland in the Wright building, broad and Main streets, together with their photographs.

No expense attaches to the parts taken for costumes, etc. Everything is supplied free. Mr. Cooper expects to start making the film early next week.

Bloomer Girls Defeat Scrubs

New "Y" Basketball Team Plays
Fast Game in Temple
Gym

Play the regular boys' rules, Wink's Bloomer girls, a recent addition to his "stable" of basketball teams, downed the crack Y. M. C. A. scrub team, 22-20, in a fast game at the Temple gym Saturday evening.

The girls played regular Eastern League rules and put up a hard fought game as they triumphed over the classy junior "Y" team. The fair court stars also led at half time, being on the long end of a 14-12 count.

Helen Skunket, captain of this year's Palmyra High School girls' basketball team, as usual, capped the honors. The pretty little forward's clever shooting netted four double dunks. Not far behind her were Catherine Burr and Margaret Jenkins, with a trio of two-pointers apiece.

Although considered the weaker sex, the girls furnished plenty of action for "Wink" (Pat) Griffenberg, and kept the rather portly lad "battered" with their fast floor work. Burke and Miller were the scrub stellar performers.

The variety fared somewhat better and literally "showed under" the Rexall, Riverside passers to a 30-6 tune. The visitors put up a rough and tumble game, but were no match for Wink's more experienced and aggressive five. Palmyra outplayed the Riverside aggregation from every angle of the game with brilliant teamwork, snappy passing and an accurate eye for the basket.

McKee and the "Iron man" Burke, with a quartet of double counters, each, started with Tagner, who dropped in three field goals, as runner-up for the honors on Wink's squad. West and Dallman were the visiting bright lights.

Saturday's game was the last of the season for Wink's Palmyra Y. M. C. A. teams.

MUSICALS

Program Will Be Given By Legion Auxiliary

The outline of the program for the musical which will be given in Post Rodgers Legion Home by the Legion Auxiliary Friday evening, April 16, is as follows:

Quartette, selected, by American Legion Quartet, Messrs. Stucky, Hoyt, Miller, Woodcock.

Piano solo, Pauline K. Becker.

Soprano solo, Esther C. Miller.

Tenor solo, Thelma F. Jones.

Reader solo, Edward Hoyt.

NOT A SECRET

Everybody Knows What It's All About, Says Publicity Agent

No, it's not a big secret. Nearly everybody knows what they mean. "They" refers to those stickers printed with red ink with the working "Miss Somebody Else" which you have seen on the windshields of automobiles and trucks during about the streets of Palmyra and Riverton.

And "Miss Somebody Else" is the title of a four-act comedy, one of the best ever written for amateur casts, which will be presented in the Palmyra High School auditorium Friday and Saturday evenings, May 7 and 8, by the Friendship Class, supported by the Goodfellowship Class.

An excellent cast has been picked from the amateur actresses and actors of the two classes which have "pooled" their resources to make the show the "best ever" and some additional talent, all of which is favorably known by the people of the Twin Cities.

The play is delightfully modern, has bright comedy lines, gripping dramatic moments and very pretty scenic effects. There is plenty of action and the show will be greatly enhanced with several unusual novelty numbers.

All seats are reserved and the members of the two classes who are in charge of the ticket sales report there is already a big demand for tickets.

SACRED HEART

Easter Sunday Services Were Inspiring and Delightful

Servants at the Sacred Heart Church, 4th and Linden avenues, on Sunday next, will be at the usual hours, 7 and 10 a. m.

The services on Easter Sunday at the Church of the Sacred Heart were of a most inspiring and delightful character. The altars were richly decorated with flowers and gilded decorations by Frank Betts, John Ogden and Miss Catherine Haehnle.

The choir added much to the service of the feast with the able rendering of the different beautiful selections of the Mass, assisted by Professor Brown's orchestra and the sermon by the Rev. Missionary Father edited and enthused all present with love, admiration and faith in God on the glorious feast of the Resurrection.

The members of the choir were, Miss Mary Steele, Miss Margaretta Bachman, Mrs. George J. Foster, Mrs. Arthur C. Haines, the Messrs. John Graham, William Asinwall, Theo D'Autreey and John O'Connor. The choir was under the direction of Miss Eleanor Connell, the organist.

COMBINED MINSTRELS

Post Rodgers and Compass Club to Present Show

Post Rodgers, American Legion, and the Compass Club will give a combined minstrel show in the Palmyra High School auditorium Friday and Saturday evenings, April 30 and May 1.

It is felt that a combination of both talent and effort of these two organizations will tend to surpass any show of this kind ever given in the Twin Cities.

There will be specialties of all kinds by the proficient members of both organizations, including a classic rendition of the Charleston dance, novelty acts, songs, quartet numbers and a cast of men and a chorus that will be hard to beat.

Make a mental note of these dates and don't miss the show. It will be something worth while. All seats will be reserved and should be secured early to insure the best locations in the house.

NEW LAW REDUCES

'SQUIRES' EARNINGS

One Terror To Pike Motorists Has Sent In His Resignation To Governor Moore

The State Motor Vehicle Department has sent to each magistrate and constable, police recorders and mayors in municipalities in South Jersey, a copy of the new law pertaining to motor vehicle cases. Under the new act the magistrates can collect about fifty-one cents each and the constable thirty cents for each case. This will stop constables making wholesale arrests of violators and will cause most of the magistrates to refuse to handle such cases. In the past magistrates collected total costs of \$5.55 of which \$1.50 went to the constable making the arrest.

It means that the State Police and traffic officers making arrests of motor law violators will be required to hunt up police recorders or a salaried mayor to conduct the hearings. Each hearing requires about two hours on the average.

Squire Jackson, of Magnolia, on Wicks Horse Pike, who has handled more motor cases than any other magistrate, sent his resignation to Governor Moore, saying he will not handle any more. No doubt motorists will be pleased with the new law, but it may put some of them to much inconvenience when arrested if a magistrate cannot be found to conduct the hearings.

RIVERTON FIRES

Hardly a day passes but that the Riverton fire department is called into action. Last Sunday a fire broke out near Peace and Plenty Farms was put out by hosing with a hose and one of the little Pack and chemical truck. Several houses were threatened by the flames and would have been in great danger had not the fire been promptly put out. On Monday a chicken coop at East Riverton, called for a fire.

RIVERTON PLAYERS

New Dramatic Organization Presents Three One-Act Plays

The Riverton Players presented three one-act plays in Christ Church parish house Tuesday evening, April 6th. The Riverton Players is a new organization resulting from the College Committee of the Parish Club, and will be a community group, not connected with the Parish Club. Those who are interested are invited to make application and complete for acts.

The plays given were: "Cinderella Married," a libretto unpublished chapter by Rachel Lyman Field; "Thursday Evening" by Christopher Morley; and "Three Pills in a Bottle," by Rachel Lyman Field.

Those who took part were: Miss Flora Davis, Mrs. Charles E. Sargent, Mrs. J. Douglas Clark, Mrs. Frederick T. Boyer, Victor Ritchie, Mrs. J. Gardner Crowell, William G. Porter, Mrs. Arthur P. Coe, Mrs. Charles Burdick, Mrs. Joseph Morgan, Miss Carl Ellsworth, Mrs. Edward J. Dineen, Reuben F. Corry.

The very large audience was delighted with the ability shown and the desire has been expressed that the Riverton Players will gather together those who have dramatic talent in an organization that will make a place for itself.

PHS Track Team

Will Enter Meet

Boys Will Take Part in National Guard Events at Camden

Coach Harold B. "Boots" Lever has entered his Palmyra High School track team in its first meet of the season this Friday evening. The boys, who are gradually rounding into shape, will compete in the high school events in connection with the fifth annual athletic meet of the New Jersey National Guard units in Camden.

Captain Bruce Beahn will be the only member of the national class B one-mile scholarship championship relay team of last year who it takes the field against some of the crack South Jersey high school one-mile quartets Friday night. Boots included Captain Beahn, Spencer Davidson, who ran with the team when it captured the state indoor championship relay team of last year, Robert Matthews, George Hutchins and Perrell Stanford in its entries. The other entries and the events in which they will compete are as follows:

Edward Knecht, mile run.
Perrell Stanford, 220-yard dash.
Karl Boehm, mile run.
George Madison, 50-yard dash and standing broad jump.
Spencer Davidson, 220-yard dash.
Joseph Atkinson, mile run and high jump.

Russell Rubrecht, high jump.
Robert Stull, 50-yard dash.
Bruce Beahn, 50-yard and 220-yard dashes.
Robert Matthews, 50-yard and 220-yard dashes.
Wilbur Davidson, high jump.
George Hutchins, broad jump and mile run.
Harry Jenkins, 50-yard and 220-yard dashes.

Arthur Hartley, shot put.
John Divino, standing broad jump.
Frank Hengert, standing broad jump and mile run.
Ellwood Wagner, shot put.
Vethold Johnson, mile run.

Coach Craig Moore says his baseball squad shows good form and should be in excellent shape for the opening game with Temple University High Tuesday afternoon at the Field Club Park. The team has taken on tough opposition for the initial game as Temple is expected to present a strong nine with a lineup including several veterans from last year's successful team.

MORE CHICKS SHOULD

BE RAISED THIS YEAR

Every time you bury a dead chick you are burying fifty cents or more. If the average poultry raiser would pay attention to scientific care and feeding of chicks during the first six weeks after hatching there would be more plump broilers this summer and many more layers next winter.

A simple and yet scientific explanation of how to have fifty per cent of your chicks is published by the Purina Mills of St. Louis, Mo., in their 1925 Purina Poultry Book. Through the courtesy of H. B. Williams, this valuable book is mailed free of charge to every poultry raiser who requests it from him.

Coming Events

April 9—Card Party and Dance, Knights of Columbus, at K. of C. Home.

April 10—Cake Sale by Eastern Star, Y. M. C. A. building, Palmyra.

April 10—Cake Sale by Christian Endeavor, Presbyterian chapel, Riverton.

April 13—Bordentown Glee Club at Riverton public school auditorium, benefit Phyllis Wheatley Y. W. C. A.

April 17—Concert by University of Pennsylvania Quartet, Palmyra High School.

April 17—Card Party and Dance, benefit Riverton Baseball Club, P. O. B. of A. Hall.

April 18—Rapper Dance, Christ Church Parish house, Riverton.

April 22 and 24—"What Happened to Jones," Junior Class Play, Palmyra High School.

April 30, May 1—Minstrels, American Legion and Compass Club, Palmyra High School Auditorium.

May 7 and 8—Comedy, "Miss Somebody Else," by Friendship Circle Class supported by Goodfellowship Class, Palmyra High School.

May 10—Cinnamon Home, Home Post, Moorestown Field Club.

YMCA WANTS

MORE MONEY

County-Wide Campaign to Open April 19; County Secretarial Service for Riverton

LOCAL MEN PLAN FOR BIG DRIVE HERE

Representing the County YMCA Committee, and speaking for it in the matter of the annual current expense campaign, the Treasurer, Frank W. Thacher, of Florence, who is also serving as General Manager, announced that the time set for this in the week of April 19-25.

"This year bids fair to exceed the best efforts of former years," according to a recent statement made by Mr. Thacher, who continues, "and this is due in large measure to the directness of the campaign in being given by a representative of the Finance Service Bureau of the National YMCA Council, New York City—Clifford C. Hatfield."

The County-wide Campaign Inauguration Dinner will be held Monday evening, April 19, at the Presbyterian Church, Mount Holly, when the "kick-off" will be made. At the present time attention is being given in the various towns and communities all over the county to lining up the chairman, and they in turn, their team workers, so that in the final round-up of all the people having a share in the securing of the funds which the Young Men's Christian Association are translated into better housing, better neighborhood, better schools, better health, there will be an organization numbering two hundred workers.

William F. Overman, County Committee Chairman, recently expressed himself thus concerning the campaign: "It can be done. What? What's the catch? Can be done. 'Sooner or later' is the word of the campaign, April 19-25 current expenses budget for the new fiscal year which commences May 1st."

Community chairman who have already pledged themselves to the cause are: Alex L. Clark, Chesterfield; John H. Hutchinson, Bordentown; Edward Knecht, Florence; Harold Holmes, Burlington; Alex C. Ferguson Jr., Edgewater Park; Nathan Lane, Jr., Riverton; Herman Cross, Bordentown; John V. Bishop, Columbus; William H. Hoehler, Pemberton; Morris K. Perlinich, Mount Holly; John J. Buswell, Lumberton; William Haines, Manasville and Harold E. Page, Moorestown.

Baptist Pastor

Now Benedict

Rev. George Lockett Married To Miss Ethel M. Ingram in Own Church

Standing before the pulpit from which he preached the gospel every Sunday, the Rev. George Lockett, B. D., pastor of the Central Baptist Church of Palmyra and Riverton, was married at noon Tuesday.

The church was crowded with members of the congregation as Miss Ethel M. Ingram, of Philadelphia, became the bride of the pastor.

The pulpit, banked with gorgeous floral pieces, formed a pretty setting for the quiet wedding. The ceremony was performed by the Rev. Walter B. Shugway, dean of Temple University.

Walter Lockett, of Maple Shade, brother of the pastor, is best man and Mrs. Lockett, was matron of honor. The bride wore a beautiful gown of pearl gray georgette and carried a bouquet of pink roses and lilies. The groom wore a tuxedo and carried a sword.

The wedding march was played by Mrs. Elvin Powell.

The ceremony was followed by a luncheon and reception at the parsonage, after which the happy couple left on their honeymoon. They are expected to return the latter part of this week and will be at home to friends at the parsonage, 509 Main avenue, Palmyra, after Tuesday, April 13.

The Rev. Mr. Lockett assumed charge of the Palmyra Church the first of this year after enjoying a very pleasant pastorate at the Berean Baptist Church, West Philadelphia. He is a graduate of Temple University and has already become very popular with the congregation at Central Baptist Church.

FIRE ALARMS

Small Blaze Cause Palmyra Trucks Several Trips

The Palmyra Fire Company was called out to five fires, the majority arising over the weekend. Although each caused considerable excitement, very little damage resulted.

The first call was Saturday to a small fire in the orchard at West Broad and a railroad crossing. The fire was extinguished by a grass fire which threatened the Stone home on West Broad street.

Monday the company answered three alarms. The first fire, about 11 o'clock in the morning, was in the rear of Dr. P. Conner Hulse's garage at Broad and Highland Avenue. It was thought loose paper, which had lodged between the hedge and the garage, caught fire from a spark from a railroad engine. The second was a grass fire near the Randolph home on Henry street in the early afternoon.

To vary the type of confagurations and relieve the monotony for the firemen, an automobile, driven by a Camden man, caught fire at Broad and Race streets late Monday afternoon. Considerable damage resulted to the motor.

Saturday afternoon the company hurried on the dry grass and weeds on several of the lots along Cinnamon Avenue, near the Moorestown Field Club.

PRESBYTERIAN

"Swelling of the Jordan" Will Be Pastor's Theme

Calvary Church welcomes to its fellowship all who will come. If you have no regular church home come and worship with us.

Next Sunday the pastor will preach both morning at eleven and the evening at 8 o'clock. Theme for the morning sermon: "The Swelling of the Jordan"; evening: "A Source of Power." The children's sermon at the Presbyterian church will be "A Rippe Blackberry."

Sunday School will meet at 10. There is a class for all ages. Come with the children and stay for the morning worship.

The Young People's Society of Christian Endeavor extend a cordial invitation for all young people of the community to share the inspiration of their meetings, each Sunday evening at 7:15.

GALE GETS CONTRACT

The bids of William C. Cook and Roscoe C. Gale, both of Mount Holly, for making alterations and improvements at the county collector's office, submitted at the meeting of the Board of Freeholders on March 25, were given further consideration on the following Tuesday and the contract was awarded to Gale for about \$7200 which includes the plumbing and heating.

School Board

Elects Officers

C. W. Kipp Made President; No Change in Committees; Field Day in May

At the April meeting of the Riverton Board of Education, Monday night, organization was effected by the election of the following officers: President, C. W. Kipp; vice-president, Murray C. Boyer; district clerk, Fred P. Hemphill; medical inspector, Dr. Harry L. Rogers; janitor, Joseph Letherby; attendance officer, William Quilley. There were no changes in the personnel of the various committees.

Miss Chew, supervising principal, announced that field day would be held during the last week in May. Miss Chew further reported as follows:

This week we received a letter from Newark, in answer to the report that was made by the present 8th Grade last year. Three prize essays were submitted by pupils of the 7th and 8th Grades to the Moorestown Friends Temperance Committee. The subject was "Why the present laws should not be modified to permit the sale of light wines and beer of greater than 4% of 1% alcoholic content." In answer to the contest was purely voluntary.

The county spelling bee will be held on May 1st. An usual, we shall have no contest, but it has not yet been determined who it will be.

The 7th and 8th grades have just finished a Curtin Publishing Co. drive, in less than a week they have secured forty-three dollars which they will give to the public library.

A course in music appreciation is being given at Mt. Holly for five weeks at 4 p. m. The instructor is Miss Grace Barr, employed by the Educational Department of the Victor Company. Our teachers are planning to go as often as possible, and those who attended the first meeting last week reported it as very worth while.

The Burlington County Supervisors Association met in Riverton School, Wednesday, March 31st. The program consisted of a business meeting at 8 p. m., dinner at 8 p. m. and an evening meeting at which Mr. Roscoe L. West recently appointed assistant commissioner of Elementary Education made an address on "What is Meant by Supervision." This was followed by a round table discussion.

The following bills were ordered paid: Riverton & Palmyra Water Co., 23.84; Del. & Atl. Tel. & Tel. Co., 5.05; Public Service, Elec. & Gas Co., 80.19; Board of Education of Moorestown, 150.00; Robert H. Clelland, hauling ashes, 4.30; Lily Cup & Specialties Co., 15.00; Steel Blank Book and Stat. Co., supplies, 57.80; Joseph M. Roberts, supplies, 5.17; Palmyra Jewelry Shop, repairing clock, 2.00; J. B. Collins & Son, Inc., coal, 555.63; William B. Lynch, repairing 4.50; Stead's Express, carting, 1.00.

DOG WARNING

Animals Will Be Impounded Unless Law Is Observed

Owners of dogs in Palmyra are warned that the animals must be registered and muzzled before being permitted to run at large on the streets of the town. Failure to comply with the warning will result in the impounding of the animals.

A statement concerning this warning, issued by Councilman Wilmer H. Rando, chairman of the police committee, follows:

Attention is directed to the new state law recently passed making it necessary for the police department to impound all dogs running loose without license. All dogs must be registered and in accordance with a recent ruling of the Palmyra Board of Health, must also be muzzled if running loose.

The police department will take steps to carry out the provisions of the new law and impound all dogs running loose in violation of the law.

Progress cost money; you can't get public improvements without paying cash.

EARLY DAYS OF RIVERTON'S

VOLUNTEER FIRE COMPANY

GEORGE T. DOLD OPERATED UPON

Taken Suddenly Ill Saturday Afternoon; Operation Sunday

George T. Dold was taken suddenly ill last Saturday afternoon while assisting with the Easter decorations at the Presbyterian church. He went home and grew so much worse during the night that a physician was called Sunday morning. The doctor pronounced it appendicitis and sent the patient at once to the Woman's Hospital, Philadelphia.

An immediate operation was decided on and at two o'clock the work was done by Dr. William Harley, surgeon-in-chief and Dr. H. M. Eberhard, Mr. Dold's personal physician, and two other specialists. Mr. Dold has been the best of health for a month. As a matter of fact he has been doctoring for a stomach trouble for more than a year, and being on a special diet, he attributed pains in his stomach to the dieting and treatment. Instead it was the progression of the appendix trouble.

Mr. Dold's many friends will be glad to know that he is doing well.

P. R. R. Promises

Better Service

Superintendent Clark Writes Letter To Palmyra Chamber of Commerce

In a letter to Walter D. Lamon, chairman of the Palmyra Chamber of Commerce Utilities Committee, A. B. Clark, superintendent of the Trenton Division, Pennsylvania Railroad, writes to express his regret that he was unable to remedy the poor commuting service which the committee complained about in a visit to Mr. Clark's office in Trenton Tuesday afternoon of last week. The letter to Mr. Lamon follows:

"In connection with the visit of yourself and the committee to my office yesterday in regard to the service between Palmyra and Camden, I want to assure the committee and the Chamber of Commerce that we are just as much interested in an on-time performance of our passenger trains as you are."

"I agree with the committee that our performance during the last half of February and the first half of March was not good, and there were various causes which entered into it. Most of them, under the conditions, were unavoidable, but there were, however, some delays which should have been avoided and proper corrective action will be taken to avoid recurrence. Also, some of the complaints might have been avoided if proper action had been taken by the employees on the ground to explain to the passengers the cause of the delay and probable duration."

"As explained to yourself and committee, the delays to local trains at Morris Junction and also at East Burlington, which occur only at such times when there is heavy travel to or from Atlantic City, necessitating the operation of additional sections of the regular trains, cannot be avoided. We do, however, whenever possible, endeavor to run the local trains on the express track, but this is not always practicable."

"Train No. 2575, which backs in on siding at East Burlington after discharging passengers, to let Atlantic City Train No. 1077 pass, is an awkward condition on the part of the latter train for passengers destined to points between Burlington and Camden and must wait for them. If there is more than one section of Train No. 1077, it makes rather a long wait; but this delay cannot be avoided as it is impracticable to run this train on the Eastward track between Burlington and Morris Junction at that time of the day."

"I have taken necessary action in connection with the operation of the gates at Cinnaminson and Camden, that the watchman will lower them sooner for the trains which do not stop at Palmyra, and have also issued instructions for Eastward trains, consisting of engine and three cars, to stop so that the rear will clear the road crossing and the crossing watchman may, after assuring himself that there is no Westward train approaching, raise the gates to permit traffic to pass over the crossing."

The house was too short to quite reach the burning building, and it was totally destroyed. At that time the house was housed in a little building where the house now occupied by Mr. and Mrs. Thomas Ryan stands on Main street. The first officers of the company were John C. B. Davis, president; Walter C. Spackman, vice-president; Albert J. Horne, secretary, and Charles A. Wright, treasurer. Louis Corne was foreman. Mr. Stoughton said that the young men who are active firemen can congratulate themselves on the case with which they go to fire.

FIRE IN PALMYRA

The last speaker was Joseph M. Roberts who said that the fire was really responsible for the organization of the Riverton Fire Company occurred in Palmyra when one house on Cinnaminson avenue was burned and two others badly damaged. The neighbors formed a bucket brigade and saved the other two from total destruction. Mr. Roberts said that the present firemen, and those of past years as well, deserve much credit for their prompt and efficient work. He only had one suggestion to offer and that was that the truck should not be run quite so fast. Better, he said, to let a house burn down than that a man should be killed.

The musical part of the program was furnished by Partelow's Spanish Troubadours. The refreshments consisted of ice cream and home made cake.

CINNAMINSON FETE

The annual lawn fete for benefit of the Cinnaminson Home will be held at the Moorestown Field Club, May 29. The horse show will be featured again this year and the various committees will endeavor to make this year's affair the best ever.

Delicateness supper will be served. Everybody welcome. Watch this paper for further notices.

Miss Bates, of the Public Service will give a talk on "Foods" with a practical demonstration which everyone will enjoy. A very good meeting for the subject is one in which every home-maker is interested.

WILL TALK ON "FOOD"

Miss Bates, of Public Service, Will Speak to Mothers at P.T.A. Meeting

The regular monthly meeting of the Riverton Parent-Teacher Association will be held Thursday afternoon, April 15, in the public school auditorium. This promises to be a very good meeting for the subject is one in which every home-maker is interested.

CHURCH GROWS

Increased Attendance at Calvary Presbyterian in Marked

Last Sunday marked a record attendance at the Presbyterian Church and the congregation was much impressed with the services and decorations. A rather unusual feature was a life-size cross in the window at the back of the pulpit.

Y. W. C. A. Will Hold National Convention in Milwaukee Soon

Delegates From Burlington County Will Attend Meetings To Take Place From April 21 to 27

The ninth National Convention of the Young Women's Christian Association of the United States of America will be held in Milwaukee, Wisconsin, April 21-27.

Delegates from Burlington County will be Mrs. Edward S. Harmer, Moorestown, president of the county association; Mrs. John Sliney and Mrs. J. W. Davis, Edgewater Park; Mrs. Henry A. Brown, Burlington; Miss Helen Woodman, Riverton; Miss Sallie Sumner, executive secretary of Burlington county; and Miss Margaret Lippincott of Moorestown. Miss Lippincott has been elected by the county council of business girls to represent the business girls of Burlington county at the convention.

At stated intervals representatives of the Young Women's Christian Association meet together to see where we have come and where we are going. Like sailors at noon we take observations, we study the stars, we set our course. There are 45,000 of us. We belong to 1,118 city, town, rural and student associations. There are 22 branches and centers in addition and 800 registered Girl Reserve clubs in unorganized territories. Our line reaches out to forty-eight foreign countries, enabling us, together with the women of these lands, to share our mutual experience in the business of being women.

At Milwaukee we must once again appraise our methods, study our equipment, think through division of labor, decide our road, and perhaps make our highway. Much of the road over which women travel today is marked "Under construction, travel at your own risk." Some of it is definitely marked "Dangerous, but unsafe." Some detours are full of danger. We are living to the task an amazing breadth of experience, and we are helpful to one another not in spite of but because of our differences. We are a cross-section of American life today.

Seeking the Leaven

Our task is to make sure that we have found the leaven which a woman took and hid in three measures of meal until the whole was leavened.

Our stimulus is the immense need before us, the hunger and thirst on every side, the abiding realization that life is good.

Our strength is in the mighty power of the Living God offered to us so freely as the air we breathe. Our preparation is to seek to know Him, not as remote Creator, but as Father, Advisor, Saver, Helper, in every concern of our separate or collective lives.

The glass of water, the cup of coffee, the room for the stranger, the work for the jobless, the release of life found in class or club, in committee or board service, the joy in camp, the vision in conference—these are all restatements of the living words heard first by roads in Judea and the like in Galilee, our effort to do His will, if together we can "agree" as our orchestra "Agrees" under a great leader, then indeed we can ask what we will at Milwaukee and it shall be done unto us.

The Moorestown Girl Reserves entertained the Blue Bird Club on Thursday afternoon. The main attraction of the afternoon was the pictures shown with the "Bravo." A variety of pictures which were both humorous and serious proved to be very interesting to the girls. After this part of the party several games were played. Fruit punch, cookies, and Easter eggs were served as refreshments.

At a business meeting of the Hainesport Girl Reserves on Thursday evening, the girls decided that during the next month their chief effort would be devoted to the preparation of a play they are planning to give. Out door programs and activities were also discussed. On April 10, the girls are having a cake sale. Definite arrangements for this were made.

The Burlington Junior High Girl Reserves are availing themselves of every opportunity to enjoy the out-of-doors. On last Monday the girls played a game of volleyball in the yard adjoining the Y. W. C. A. building. After the game the girls gathered in the club room and took part in an interesting discussion of sportsmanship. Plans were then made for all-after-noon hike and out-door program on April 6th.

SUMMER SCHOOL OF LIBRARY SCIENCE

New Course at Drexel Institute From July 6 to August 18

To meet the ever-increasing demand for school librarians, the Drexel Institute School of Library Science, of Philadelphia, has added a summer course to open July 6 and continue until August 18th. It has been announced by the Director of the Library School, Mrs. Anne W. Howland.

One of the most interesting features of this summer course is the fact that the Carnegie Foundation of New York has furnished sufficient endowment to make the course practically free to school librarians and teachers. This was done on the recommendation of the American Library Association after an investigation of The Drexel Library School.

The need for such a course, it was said, was revealed in a recent survey, and Drexel Institute, which has successfully conducted a school of Library Science since 1892, and which last year set the pace by elevating this school to a post graduate one, with a college degree required for entrance, immediately organized the course.

This course is open to high school teachers who do part time library work, to school librarians who wish to improve their knowledge of library methods and to teachers who wish to become librarians.

It was announced that the regular faculty of the school will have charge of the summer course, and that special lecturers engaged in active library work will also address the class at frequent intervals of subjects relative to the course of study. In order that the students shall have practice work, a number of neighboring libraries are now

operating with Drexel Institute. The Drexel Library in addition to the collection of reference and technical books for supplementary reading in all departments of the college, also houses a number of rare and beautiful books and manuscripts. The museum collections of furniture, ceramics, wood carving, ivories, prints, engravings and textiles and the notable paintings in the Drexel Gallery will be available to all the students of the course.

Pass Bills Over Governor's Veto

Measure Affecting Trolley Paving Fails of Reenactment

When the State legislature recessed last week to reconvene again on June 22, it had added nearly a score of laws to the statutes by passing bills over Governor Moore's veto. The closing hours were marked by confirmation of all except two pending executive nominations, which must lie over until June.

The June session was designed primarily to give exclusive attention to the establishment of a state water policy, but a situation developed which brought about slight changes in this plan. The Republican Senators, after various conferences, were not able to agree upon any action on proposed amendments to the Constitution contained in a series of concurrent resolutions by Assemblyman Clifford R. Powell, of Burlington County. These will be taken up in June.

Senator Abell's measure to relieve traction companies from paying obligations under their franchises was lost after a final effort to have the bill passed over the Governor's veto in the Senate. Senator Abell, finding he lacked the votes, had the bill laid over and subsequently announced no further efforts would be made to pass it.

The Abell bill has been one of the controversial measures of the session. It would relieve traction companies of obligations amounting to hundreds of thousands of dollars annually in the upkeep of street pavements within the track area. The measure was opposed by the League of Municipalities.

Another measure failing to pass over the Governor's veto was Mackay bill establishing certain holidays upon which public school teachers could not be compelled to work.

Two of the most important bills enacted over vetoes were those of Senator Harrison providing for permanent registration of voters in municipalities having a population in excess of 15,000, and the Powell bill extending for another year the half-mill tax from which more than \$2,500,000 will be realized to carry on the building program of the Department of Institutions.

The Harrison measure passed the Senate by a vote of twelve to five. Senator Case thought the bill would make it easier to vote on the name of another person. Senator Richards objected on the ground it would make it easier for stay-at-homes to vote. Senator Mackay believed the bill added enormously to the costs of elections. Senator Simpson, Democrat, also opposed the bill. The Powell bill creating a South Jersey port district and the Hicks measure creating a Harlan port district were passed over the Governor's veto.

PAIGE SHIPMENTS

Month of March Shows Gain of 508 Per Cent.

Instantaneous success, reflected in immediate quantity demand, for the new line of Paige motor cars

STANDARDISING RADIO INDUSTRY

Radio, once regarded as an agency for the amusement or diversion of a comparatively few, is rapidly gaining recognition as a utility affecting the lives of the general public, and observers predict an even greater movement in this direction.

One of the outstanding developments in broadcasting during the last year was the linking of many stations for important features. This process of "chain" broadcasting is expected to move even more rapidly during 1926.

Stabilizing of the industry has made great progress, and the public is no longer delaying purchase of receiving sets because of a feeling that they are likely to be changed rapidly and improved.

is revealed in the announcement of the Paige-Detroit Motor Car Company that Paige shipments in March totaled 8,209, an increase of 287.9, or 508.3 per cent, as compared with March, 1925.

Although the new Paige line was not announced until February 20, a total of 6,274 cars have already been shipped up to the end of March. This is 5081 more than the number of Paiges shipped in the same period of 1925, or an increase of 425.3 per cent for the first quarter of the present year. The new Paige, in two months, has thus exceeded the total for all 12 months of last year.

At the same time, the company has continued to ship New-Day Jewetts, which were introduced last December, in large quantities, a total of 7618 for the first quarter.

Total shipments of both Paiges and Jewetts, therefore, were 13,892 in the first three months of the year.

According to H. N. Jewett, president, the company has every expectation that the demand for both lines will continue.

"We are, of course," he said, "greatly pleased with the immediate response of the public to the new Paige. When we planned the car, we did everything we could think of to fit it into the market for high grade automobiles, and to enable it to solve the newer problems of the motorist that have arisen with changed conditions of motoring in the United States. We naturally looked forward to large sales during the year, but we are more than gratified that the motoring public so quickly recognized the values of the new line.

"Not only the motor public, but our dealer organization everywhere, is enthusiastic. This I can tell from the daily influx of orders. To keep up with the demand, we have scheduled for production in April, 5660 Paiges, an increase of 2460 over our March production. This is more than ten times the number of Paiges built in April last year.

"At the end of only 70 days from the date of the announcement of the new Paige, our production will, therefore, have reached the total of 11,924 cars.

"JEFF SMITH" WILL MOVE TO NEW YORK

Famous Boxer and his Family Soon To Leave Mount Holly

Jerome V. Jeffers, nationally known as "Jeff Smith," who has had quite a career as a middleweight boxer, is soon to leave Mount Holly where he has been living with his family since he came to Camp Dix as a boxing instructor during the World War.

A year or so ago "Jeff" suffered an injury to the nerves of his eyes while boxing and found that his pugilistic skill was badly impaired as a result. Consequently he has been forced to quit the ring and engage in business in New York, to which city he now plans to move. Mr. and Mrs. Jeffers have made many friends during their residence in the county seat and it is much regret that his acquaintances have learned they must move away.

Plan to Push South Jersey

Advertising and Publicity Campaign to Tell Nation of Section's Advantage

South Jersey, Inc., has been organized to sell South Jersey to the Nation; to bring to the attention of the world the wonderful advantages in climate, unsurpassed highways, fertile soil and opportunities for establishing homes or making investments in manufacturing and other enterprises sure to result in higher standard of living and ultimate fortune. Conceived and directed by men who are known throughout the State for their public-spirited devotion to progress, South Jersey, Inc., believes that the permanent population of South Jersey can be at least doubled, adding to the already solid value of real estate; that many more millions can be added to its annual number of visitors and vacation seekers, and that the tremendous power of co-operation can be used to make South Jersey one of the famous sections of the globe.

"We are working to secure the hearty support of every business and civic organization and the individual support of every man and woman who knows and believes in the future of South Jersey," declared A. Conrad Elkholm, executive secretary of South Jersey, Inc., and one of the most expert organizers and executives in the State. "A membership of at least 25,000 is needed to assure the absolute success of the plans which we have formulated for an advertising and publicity campaign which will make other sections of the country realize that we of South Jersey are in earnest when we invite them to this state.

"Expert surveys already made show that with proper local support millions of dollars can be added to the valuation and income of the western section of South Jersey extending to the tip of Cape May Point. Although great shipbuilding interests, the famous DuPont factories, large glass manufacturing and canning centres including the plants of the Campbell and H. J. Heinz firms already are established along the Delaware River and Bay and their tide-water tributaries, thousands of acres of fine factory sites remain to tempt manufacturers with their armies of well paid employees to sites where land is much lower in price than in or near the great cities and where shipments can be made by rail or by water to every section of the globe.

"Thriving river and bay resorts need the same high class of publicity which already has been used to tremendous advantage along the ocean front of New Jersey. Advertising such as is to be undertaken by South Jersey, Inc., will open new

markets for the farm, poultry and dairy products of this favored section with consequent increase in prices for high grade commodities and greater value for land. Sportsmen can be attracted for the shooting and fishing along bay and river and made into permanent investors in South Jersey homes or industries.

"All we need is active and earnest co-operation," stated Secretary Elkholm, who already has established a South Jersey Exhibit on the Million Dollar Pier, Atlantic City. "Every organization or individual who takes out membership in South Jersey, Inc., can be assured of a share in the new and greater prosperity which is to come to every section of South Jersey through this advertising and publicity campaign."

HOTEL RAIDED

Sorrel Horse Inn Seizure by State Police

A scene of wild confusion marked the arrival of a party of state police early Sunday morning at the Sorrel Horse Inn on the Burlington pike near the Camden county line, Pennsauken township.

More than forty couples, mostly young people, made a mad rush for the exits when the troopers entered. The excitement was only allayed

after the announcement that the principal arrests would be those of the inn and its employees.

The inn was quickly emptied of guests, and after a search that netted ten gallons of whiskey and two quarts of cognac, the troopers arrested Harry Polk, the proprietor. He was ordered to appear for a hearing before Commissioner Drake by Justice of the Peace O'Grady.

Hiram Davis, colored, of Pennsauken, the piano player of the inn, was sentenced by O'Grady to 60 days in the county jail on the charge of carrying concealed deadly weapons.

Polk was recently fined for maintaining a disorderly house. His arrest followed statements made by two minor girls to the effect that they had bought liquor in the hotel.

The troopers who made the raid were Fine, Cline, Baer, Apper and Moreau, carrying out the orders of Governor Moore to clean up objectionable road houses.

CHIROPRACTORS ARRESTED

Dr. Joseph Bowley, of Burlington, an unlicensed chiropractor, was arrested last week, charged by the State Medical Board with practicing medicine without a license. He pleaded guilty and paid the statutory fine of \$200.

Dr. W. Campbell Bowley, a blind chiropractor of Riverside, was being similarly charged, but he pleaded not guilty and will stand trial. Dr. Bowley was placed under bail and will be represented by Palmer & Powell.

Mrs. Elizabeth Burroughs served the warrants.

An Ideal Road to Future Comfort

Through your savings you can own your own home. A few dollars saved a week will in the course of a few years grow to such proportions that you can secure a home for your old age. This is no myth, but thousands of happy and contented men can testify to the magic power of Saving.

Dr. Lamb Writes About Pasadena

Finds Living Costs About 20 Per Cent Higher Than in East

Pasadena, Calif., March 7.

Soon after the world war California underwent a period of unusual prosperity that lasted up till two or three years ago. It is now suffering from a reaction and a slump and it is problematical how long this may last. I have an idea that the state has been over-boomed. Of course it is to be admitted that it is a great state with wonderful resources.

It is in a position to carry on commercial relations with the Orient and Australia and New Zealand and will always figure conspicuously as a maritime as well as an agricultural and a mining country. But I think I can see wherein it has some drawbacks that will handicap it for a considerable while.

At present it is too sparsely populated in proportion to its area to consume very much of a proportion of its products and it therefore has to find sale for its surplus in the markets of the East which are from two to three thousand miles distant and in these markets it has to compete with products that are shipped from the Mediterranean ports, such as citrus fruits, dates, but I think grapes, raisins, etc., which can be landed in New York or Philadelphia about as quickly and more cheaply than from here.

Water Freight Cheaper

Tropical fruits can be shipped from Florida or the West Indies to better advantage than from California. Water transportation is always more economical than by rail-road but the sea route from here to the eastern cities is a very long and therefore expensive one, compared with coastwise shipping or West Indies trade.

California fruits, vegetable and canned goods sell in the eastern markets at about the same price as they do right here and farmer Jones pays the freight. This with labor and other outlay is enough to eat up all the profit to the producer and the railroads and the laborer gets all the velvet above the actual cost of production in many instances.

On my way I met a man from Pennsylvania near Philadelphia who had come out here a few years ago and bought a ranch in the San Joaquin Valley which is about the last agricultural region in the state and he assured me that there is no profit whatever in farming here at the present time.

Around Fresno the farmers went in for grapes a few years ago to the tune of forty thousand acres in the aggregate. With these they did entirely too well. They overstocked the market to such an extent that their grapes were not worth gathering. Last year some growers had the bitter experience of not getting enough out of their crops to pay the cost of picking and shipping and let their grapes remain on the vines unpicked.

Hundreds and perhaps thousands of tons of the most beautiful grapes that can be grown went to waste and the whole farming community suffered thereby. Never before have I (excepting in Cape Colony) ever seen such wonderful bunches of grapes as those which were left to rot in the vineyards.

Some of the farmers have taken out their vines and planted cotton with the hope of better financial success. A few years ago land in that locality sold for about a thousand dollars an acre which was altogether a fictitious price. It can now be bought for two hundred and fifty and even that is at least fifty dollars an acre more than it is really worth for farming purposes. In boom times people are very apt to loose their heads and get severely stung.

Nice Winter Trip

This is a very nice place to come to in the winter for those who do not mind the long journey and the expense attending it. Pasadena is beautiful, clean, healthy, and quite attractive. It is built up with not only elegant residences but with a great many very modest cosy comfortable and inexpensive little homes. Furnished rooms and apartments in these are easily procurable at very reasonable rates.

There are plenty of places of entertainment and very nice social life among a very good class of people. Courtesy and kindness is met with everywhere. It seems to be increasing in popularity and in all probability will continue to grow so long as it has room to spread.

Many of these towns and cities adjacent to Los Angeles are so built up together that it is difficult to know where one leaves off and another begins. Thus Pasadena, Eagle Rock, Glendale, Hollywood, Burbank and Beverly Hills are pretty well fused into a vast suburban section containing a population of nearly a quarter of a million inhabitants.

Cost of Living

The cost of living hereabouts, I estimate is about twenty per cent more than it is in the vicinity of Philadelphia. Flour, rent, clothing and food are higher but fuel costs considerably less because less of it is required. Where there is one thing that cost less there are about ten that cost more than they do in the east. Nearly all commodities are on a higher scale here. Even Woolworth who says in Philadelphia "Nothing in this store is more than ten cents" says fifteen cents as his maximum prices in Pasadena. Railroad fares here are twenty-five per cent less than they are in the east. The rate is three cents per mile and the Pacific Electric car and bus lines that supply the city with transportation facilities operate on a five cent basis by ticket and six cent single cash fares, including transfer. There are not enough things cheaper here to compensate for the many things that are higher in price.

R. H. LAMB.

Social and educational guidance for girls, by a dean of girls, is incorporated in the public-school systems of Brookline, Cambridge, and Haverhill, Mass.

The valuation of school properties in New Jersey has increased 139 per cent during the past 10 years, according to a recent report of the department of public instruction.

Another sign of spring is when the small boy hides the rake and the shovel under the bed.

NEW P. S. DIRECTOR

The annual meeting of the stockholders of Public Service Corporation of New Jersey and forty-three underlying companies was held April 5. Thomas S. Gates of Drexel & Co., of Philadelphia was elected a director for one year in place of Randal Morgan who died recently.

These five directors whose terms had expired were re-elected for three years: David Baird, Jr., William C. Heppenheimer, William Scheerer, Landon K. Thorne and Edmund W. Wakeloe. Paul Thompson, a vice president of the United Gas Improvement Company of Philadelphia, was elected a director for three years. Lewis Little having resigned from active connection with the corporation.

Widen White Horse Pike

Will Prepare Famous Motor Route for Increase Traffic From New Bridge

With a contract awarded for the construction of reinforced concrete pavement 29-feet wide on Route 3, Section 14 at Absecon, and plans in preparation for the widening to 29 feet of the existing concrete road for the entire distance between Berlin and Absecon during the construction season of 1926, the State Highway Department is well advanced on its program to prepare the famous White Horse Pike, the motor route from Philadelphia and Camden to Atlantic City, for the increased traffic it will have to carry after the opening of the new Camden-Philadelphia Bridge, now scheduled for July 4th.

This famous motor trail to the year-round playground of east coast resorts is a continuous stretch of concrete 18 miles in length and offers to motorists from all over the United States a drive rarely equalled for comfort, convenience, scenic beauty and historic interest. The story of the construction of this highway is typical of the efforts made by engineers throughout the country to keep pace with the tremendous increase in traffic.

The concrete paving was started in 1918 and was built 12 feet wide, a width which was entirely adequate at that time. The construction of 18-foot pavement continued until 1920, by which time 20 miles had been completed. By that time the increase in traffic had given a hint of what was to be expected in the future and contracts let in 1920 and 1921 were for 20-foot pavement. In subsequent work done in 1922 and 1923 the width was again increased to 29 feet and 40 feet. The project for 1926 will widen the 35-mile stretch of 18 and 20 foot pavement to 29 feet.

The same tale of advance in road-building practice also applies to changes in design. The entire 85 miles built prior to 1921 was designed with thin edges, the thickness being 6 inches on the edges and 8 1/2 inches at the center. The standard thickness today is 8 inches throughout the slab and the widening will conform to that standard, one but the 20-foot sections were reinforced with steel and these were not as heavily reinforced as more recent practices dictate. In short, the traffic load has increased beyond the maximum for which the road was designed.

The value of concrete pavement as an investment is shown by the fact that, although this road was not designed for traffic it now must bear it, has most satisfactorily taken care of the ever-increasing burden for from 5 to 8 years and can now be so readily brought up to new standards by widening and strengthening without resurfacing. With the widening the heavy loads will be more evenly distributed over the new 8-inch, heavily reinforced slab and the whole pavement will be strengthened by the distribution of the load over a wider surface. The old pavement has not yet been damaged under the pounding of traffic which reached to from 8,000 to 13,000 vehicles per 16-hour day, according to a census taken in 1925. It is giving 100% service and will continue to do so as a part of the 29-foot boulevard. And 5 or 10 years hence when further widening may be necessary, the original concrete will still be giving the same return on the investment in the form of safe, comfortable and economical transportation.

PORCH CLUB NOTES

The pilgrimage to the studio of Samuel H. Vellin, the mental writer, the recipient of the Bok Award this year, will take place Tuesday morning, April 13. All those wishing to go will meet Mrs. Murray C. Boyer on the 9.21 train and proceed with her to the work-shop.

The Porch Club will be open from 9 to 10 on Monday, April 12, to receive donations of plants, such as iris and chrysanthemum, or any spring or fall plants. These are to be planted in the Porch Club grounds. Donations of money for shrubs will be most acceptable also.

ANNUAL WATER RATES of the RIVERTON and PALMYRA WATER COMPANY

All persons wishing to connect with the public water supply, may do so by applying for a contract and filing it with the Company, at the Office, Broad and Main Streets, Riverton.

RATES

1/2-in. including 10,000 gallons 25 per quarter
3/4-in. including 12,000 gallons 35 per quarter
EXCESS
First 25,000 gallons 30c per 1000 gallon
Second 25,000 gallons 25c per 1000 gallon
All over 50,000 gallons 20c per 1000 gallon
Bills rendered quarterly and due when rendered.
For convenience of patrons, bills may be paid at Classmen's National Bank.

We aim to give good service. Any complaints will receive prompt and courteous attention if addressed to Office of the Company, Broad and Main Streets, Riverton, N. J. Phone Riverton 147.

Prison Sentences at County Court

Several Offenders Tried at Mt. Holly Draw Terms at Trenton

State prison sentences appeared to be in order at the Mount Holly County House last week and as a result the county will be clear of two offenders for at least a year and one for two years or more.

Harry Foche, of Philadelphia, who had just completed a sentence of four years in the state prison for burglary committed in Camden county and was brought to Mount Holly on a detainer last week, went back to state prison for from two to six years after he had pleaded guilty to breaking and entering a private residence at Moorestown and stealing about \$1,000 worth of silver, part of the loot being recovered in the prisoner's room in a Philadelphia lodging house by Detective Parker.

It has since been learned that he was out of the prison on parole at the time and when he has served this last sentence he will be returned to the Philadelphia authorities.

James Wills, originally from Medford, who has been in and out of the Burlington county courts no less than four times in the last three years, pleaded guilty to larceny of \$150 in Burlington and will make his first trip to Trenton, being sentenced to from one to three years in state prison.

He has just completed a sentence of six months in the state jail.

Bradley Sentenced

The third offender to go to state prison was James Bradley, of Riverside, a young husky colored man who used a knife on his benefactor, an aged colored man, who was present in Court and showed the scars still remaining from the unprovoked assault.

He received from one to three years.

Fred L. Wilson, colored, of Burlington, stood trial on the charge of stealing an overcoat from a Burlington tailor, being represented by Robert Peacock.

Wilson was detected with the overcoat in his possession but his defense was that he was merely carrying it for another man.

He was adjudged guilty by the Court and sentenced to sixty days in jail, to be from the time of his commitment, March 16.

Husband Will Behave

Peter Marcell, of West Palmyra, gave a fairly satisfactory explanation of why he had not supported his wife and seven children, and he was placed on probation for two years with the understanding that he will be brought back if he fails.

STAMPS REPEALED

Revenue Act of 1926 Makes Many Changes

The revenue act of 1926 has repealed, effective March 29, 1926, the documentary stamp tax on the following documents.

On bonds or certificates of indebtedness issued by any person, not a corporation (the tax is still in force on bonds or certificates of indebtedness issued by a corporation).

On deeds or conveyances, assignments, and transfers of lands, tenements, or other realty.

On entry of goods or merchandise at any customhouse.

On entry for withdrawal of any goods or merchandise from customs bonded warehouses.

On proxies for voting at any election for officers or meeting for the transaction of business of any corporation.

On power of attorney.

The only remaining documents taxed by the revenue act of 1926 on and after March 29, 1926, as listed under paragraph 117, page 43, of the 1925 Postal Guide are:

Bonds or certificates of indebtedness issued by a corporation, each \$100 or fraction thereof 5 cents.

Each renewal of bonds or certificates of indebtedness by a corporation.

The New Era is a Legal Newspaper. Commissioners, Sheriff's and other Sales, Administrators and Executors' Advertisements are solicited. The New Era will appreciate being remembered in this connection.

NOTICE

All readers or local notices of entertainments, suppers, fairs, dances, etc., given for the purpose of raising money, will be charged at the rate of fifteen cents a line.

THE QUESTION BOX

Half-Tone

Subscriber, Riverton—Will you kindly answer in the question column what is a half-tone?
Ans.—A half-tone is an illustration from a plate produced by the half-tone process. By this process blocks that may be used in an ordinary press are made from photographs. The illustrations show not only black and white, but all the gradations between these—the "half" and other fractional "tones" once thought to be beyond the power of ordinary printing. Hence half-tone.

Other Words Better

N. B., Palmyra—Is it proper to use the word "raised" in saying "I was raised in the south"?
Ans.—Hardly. Say "brought up," "reared," "trained." We "raise" cattle, hogs, horses and crops, but apply a more refining process to human beings.

Water the Hottest

Reader, Cinnaminson—Will you please answer in your Query and Answer column which is the hottest in a steam boiler at 120 pounds of steam the water or the steam and how many degrees temperature is it?
Ans.—With all conditions equal the water is the hottest. The proportion of heat depends upon the thermal efficiency of the boiler.

Getting Ahead

Willie Boy, East Riverton—Will you please tell me through the Q. & A. how I can get ahead in this world?
Ans.—Set out a cabbage plant.

Not Very Clean

Reader, Palmyra—I want to ask you if it is unhealthy to eat snow?
Ans.—Not particularly unhealthy but snow is full of dirt, notwithstanding it appears white and clean.

August 5 on Sunday

J. D., East Riverton—Will you please tell me on what day of the week was Aug. 5, 1849?
Ans.—August 5, 1849 was Sunday.

Strongest Animal

C. S., Riverton—What is the strongest animal in the world?
Ans.—The elephant.

Correct Position

P. C., Riverton—When an automobile party is made up so that the rear seat is to accommodate two ladies and one gentleman where should the man sit, and in walking on the street with two ladies on which side should he walk?
Ans.—While riding in an automobile the man may sit in the middle if he likes, but walking on the street he should always take the outside.

Author of Gulliver's Travels

S. S., East Riverton—Who is the author of "Gulliver's Travels," and is the author still alive and where does he live?
Ans.—"Gulliver's Travels" was written by Jonathan Swift, who was born in 1667.

Y. W. C. A.

Miss Ruth King, Miss Helen Sterling and Miss Amy Milton attended a meeting Tuesday night of the Business Girls' Council of the Y. W. C. A., which was held at the home of Mrs. H. H. Stockwell, Maple avenue, Moorestown. Miss King is president of the Council and Miss Sterling and Miss Milton were delegates from the Riverton Branch. Miss Margaret Lippincott, of Moorestown, will attend the National convention of the Y. W. C. A., which will be held in Milwaukee April 17, as delegate from the Business Girls' Council of Burlington County. About twenty-five girls were present.

DOG MEET

Many Sportsmen Attend Field Trials at Medford

The field trials for bird dogs held at Medford last week was the largest affair of its kind ever held in this country, according to authentic reports. Interest was unusually great and many local sportsmen attended among whom were: Stanley Groves, W. A. Hendrickson, John G. Becker, Harry Biddle, Clarence Hulse, Clarence Matlin, John Keating, Tony Boehme, William Thomason, Lawrence Joyce, Joseph Keating, Dr. E. R. Tronell, H. L. Randall, Mrs. Carhart, James Becker, George W. Rogers and W. T. J. Farnell.

Stanley Groves, Jr., had a dog entered in the contest.

The trouble with most installment accounts is found in the second syllable.

Most criminals are not afraid of the word, they are afraid of a trial.

BASEBALL

Contributions Will Be Asked To Help Equip Riverton Team

A meeting of the finance committee of the new Riverton Baseball Club was held at the home of M. Sontheimer Tuesday night, and plans discussed for raising the necessary money to put in the field a real first-class team this season. It was decided to make an appeal for popular subscriptions and the president appointed Walter G. Miller, M. Sontheimer, Frank Holvick, J. M. Coddington and Karl W. Latch to solicit funds.

The money will be spent for equipment, the club and buying uniforms. If there is sufficient surplus a grandstand will be erected. Those who have an interest in Riverton and especially in sports in Riverton are asked to contribute liberally when called on. If by any mischance they are overlooked they may still have a part in making the 1926 baseball season in Riverton a grand success by sending their contributions to M. Sontheimer.

NEEDLEWORK GUILD

The National Convention of the Needlework Guild of America will be held in Boston, Mass. 4 and 5, at the Copple Plaza. Any directors of the Palmyra Branch wishing to attend, kindly communicate with the president, Riverton 249, or meet at the home of Mrs. Shill, 907 Morgan avenue, Wednesday, April 14, at 8.30, to make final arrangements.

Y. M. C. A. DRIVE WILL START APRIL 10

Greater Part of Money Raised To Be Spent in Riverton

Nathan H. Lane heads a committee which will put on a drive for funds for YMCA work in Riverton during the week of April 10-26.

A meeting will be held at his home this evening to select captains and teams to make the canvass. There will be seven teams of five men each. The town will be divided up into districts and each man will have about twenty houses to visit.

A large portion of the money raised will be spent in Riverton. The personnel of the teams, what the money will be spent for and other details will be published next week.

MOTION PICTURES AT RIVERTON SCHOOL

True Incident in Life of Lincoln To Be Shown April 9

The monthly motion pictures given by the Riverton Parent-Teacher Association will take place this evening, April 9, at 7.30 in the public school auditorium. The following program promises to be unusually appropriate. The last feature is a true incident in the life of Abraham Lincoln. Admission 10c and 15c.

The program will be as follows: Companion Travels—"A Boat Race in Burma," Aesop Fable, "Housing Shortage," Gang Comedy, Companion Department and "The Land of Opportunity."

ASBURY

Miss Mary Ward entertained Mrs. and Mrs. Augustus Wagner, Mrs. Kessler and two children and near Maple Shade, Misses Ruth and Alice Sievers, of 3318 N. Howard street, Philadelphia, on Monday.

The following officers were elected in the Asbury M. E. Church Sunday School on Sunday: superintendent, Mrs. Lillie Ward; assistant superintendent, Mrs. Lillie Parker; secretary, Helen Perkins; assistant secretary, Ada M. Southwick; S. S. treasurer, Mrs. Lillie Ward; S. S. treasurer, Mrs. Lillie Parker; librarian, Claire Dinges; assistant, Helen Southwick; organist, Helen Perkins; assistant, Helen Southwick. The following teachers are appointed for the classes: primary, Ada M. Perkins; intermediate, Mrs. Lillie Parker; Sunshine Class, Ada M. Southwick.

Mrs. Benah Anderson, of Stratford, N. J., was a visitor in Asbury on Saturday.

Mrs. Elizabeth Gordon, of Burlington, and Miss Brown, of Riverton, were visitors at the Asbury M. E. Church on Sunday. Mrs. Gordon will be remembered as Elizabeth Sterling, of Union Landing.

Freeman E. Hunter, of Asbury, has purchased a new Ford coupe from Lester Portman, with which he hopes to be better able to serve the people, as he is an agent for car accessories, dry goods, and other things.

There will be no service at the Asbury Church on Sunday evening, April 11th, as the congregation is invited to attend the Sunday evening service at Bridgeboro M. E. Church, in charge of Rev. Charles Leviator, of Camden, of the New Jersey Conference.

A GOOD OFFICIAL RECOGNIZED

William L. Dill, of Paterson, who has been Assistant Secretary of State and by virtue of that office, Commissioner of Motor Vehicles, for the past eleven years, is now the head of the newly created State Department of Motor Vehicles. He qualified for his new job last week.

It was a signal tribute to a man who had made good in official capacity that a Republican Legislature should have been the agency through which Mr. Dill was elevated to the new Commissioner'ship, for he is a Democrat and long as active in the affairs of his party.

In thus divorcing the Department of Motor Vehicles from the office of Secretary of State, the Legislature acted wisely. The work of regulation and control of motor vehicles in New Jersey long ago outgrew the machinery earlier devised for supervision over them.

The salary of \$7,500, an increase of \$1,500 over the combined salaries of his two old offices, is not exorbitant pay for the duties required of the executive head of the new Department of Motor Vehicles. That Commissioner Dill will give to the State full measure of service is not doubted by those who know him or have followed his record in other places securing control over the former Department of Motor Vehicles more than a decade ago.

—New Jersey Mirror.

Mrs. H. E. Brown entertained her sisters from Philadelphia last Thursday.

Turning Corn Into Dairy Feeds Urged

Surplus Crop Fed to Cows Will Relieve Farmer.

Farmers who are worrying about the surplus of corn and the relatively low price of their product, just now can secure as much as \$1.25 a bushel by turning this corn into dairy feeds and market the dairy products.

"By marketing their surplus corn in the form of dairy products," says M. D. Munn, president of the National Dairy Council, who has been conferring with leaders in the dairy industry and bankers on the question, "this corn will return the farmer about \$1.25 a bushel based on the average price of dairy products in 1925. By so doing we will not upset the balance of grain produced by having corn consumed in the form of corn meal mush, bread or muffins in place of a bushel of wheat. At best we can only eat a given amount of bread and cereals, and an increased consumption of one form of bread necessarily decreases the consumption of another."

While corn meal mush and milk is palatable and healthful and should be freely eaten, it does not constitute an effective way of consuming the surplus corn. Milk and its products are the most healthful foods we have, and by consuming more of these people will have better health, be more efficient and at the same time directly assist in relieving the farmer of his burden of surplus corn providing they will feed it to the dairy cows in a properly balanced ration.

"If the public is really willing and anxious to help in relieving the farmer of this corn surplus burden," says Mr. Munn, "he can best assist by increasing the consumption of milk, butter, ice cream and cheese and at the same time be more healthful and efficient. The properly balanced ration for the dairy cow includes corn meal, corn gluten feed, together with ground oats, barley, bran, cottonseed meal, beet pulp, etc. This corn gluten feed is a by-product from the manufacture of starch and sugar from corn. Therefore the consuming public can further assist by using more corn sugar and less imported cane sugar."

Raising Turkeys Helps Destroy Grasshoppers

Development of Wyoming as a turkey-producing section has been urged by extension workers of the state and the United States Department of Agriculture for three reasons: The climate induces fattening in time to place the stock early on the holiday markets; live stock growers need a supplemental cash crop; and where there are sufficient turkeys, grasshoppers cease to be a liability and become an asset, for these birds have a high regard for the grasshopper, and large appetites.

In Park county alone Thanksgiving shipment totaled over 75,000 pounds of turkey after four years' emphasis on turkey production. Big Horn, Fremont, Cheyenne, and other counties have made similar progress.

Increased interest in good stock and good management of the flock was fostered by county agents and other extension workers, with the result that in one year the average weight of the turkeys shipped to market was two pounds heavier than those of the preceding season, and this year's crop is said to show even greater advance.

Corn Yield Problem Is One of Soil Fertility

Corn growers face a problem of raising general soil fertility if they are to redeem production from the decline which depletion of organic matter in the soil has brought about, according to Prof. R. L. Throckmorton, head of the department of agronomy at the Kansas State Agricultural college.

General fertility, Professor Throckmorton pointed out, can be increased by growing corn in rotation with such crops as alfalfa, clover, and soy beans; by returning all manure and crop residue to the soil; and by good tillage methods.

Every parent is now and then surprised at the wisdom of his offspring.

Farm schools in the Philippines are tending to stabilize some of the nomadic tribes in the islands.

Noted fertility, Professor Throckmorton pointed out, can be increased by growing corn in rotation with such crops as alfalfa, clover, and soy beans; by returning all manure and crop residue to the soil; and by good tillage methods.

"SEVENTH CHANCE"

Play by Lutheran Ladies' Aid Society Scores Big Hit

Another one of the Lutheran Church Ladies' Aid Society's plays has made a big hit.

The women of the Lutheran Church presented that delightful three-act comedy, "Seven Chances," to a well filled house at the Palmyra High School auditorium Monday evening. The clever lines won round after round of applause from the enthusiastic audience.

Every member of the cast played his part in a manner very creditable to the work of David F. Shanks, of Riverton, who coached the production. This made the fifth play to be given by the Ladies Aid Society and each one was directed by Mr. Shanks, who was presented with a gold watch at Monday night's performance in recognition of his untiring services.

The entire cast, Thomas Hettie, S. Stuart Buchholz, George Ingram, J. Warren Beahn, J. Houston Ingram, Merle Schaff, Mrs. Paul Wolf-schmidt, Mrs. Merle Schaff, Miss Maybelle Whitehead, Mrs. S. Stuart Buchholz, Mrs. William Ripka, Miss Rebecca Buchholz, Mrs. Walter Howe and Mrs. Raymond Walling, performed with honors.

Mrs. Schaff, playing the leading feminine role, was ably supported by her husband, who played the opposite lead. Councillman J. Warren Beahn distinguished himself playing the part of an attorney with Thomas Hettie as his assistant.

The theme of the play centered around one of those delightful farces where a young man falls heir to millions providing he is married by a certain date and time, and as usual, he learns of the conditions a few hours before the expiration of the time limit of the provisions. Then, of course, the fun starts.

Mr. Schaff, in the character of Jimmie Shannon, was the young man hurriedly searching for a mate. After receiving curt refusals from

Don't let's get too serious. Don't let's get too gay. There's nothing going to happen. To frighten peace away. We take events too solemnly. We grow too grave by half. The country's coming on all right—Just laugh!

Don't mope around and worry. Don't think the end is near. There's nothing going to come along. That's worth a single fear. We take our days too gloomy. We make our wheat all chaff; There won't be any trouble—Just laugh!

It won't be long before we will be planting gardens for our neighbors chickens.

Don't pity the man with the hoe. He's probably after bait.

Highly recommended when added to milk (hot or cold) as drink for children, adults, nursing mothers or invalids and persons who require a pleasant and nourishing milk diet.

Mrs. H. E. Brown entertained her sisters from Philadelphia last Thursday.

The first six maids to whom he proposes marriage, his luck turns on the "seventh chance." Mrs. Shafr was the "seventh."

An "Institute of Physics and Chemistry" has been offered as a gift to Spain by the International Education Board, according to a report of the American ambassador, Madrid. A commission headed by the Duke of Alba has been constituted by royal order to conclude the preliminaries for accepting the offer. It is understood that the board will expend \$400,000 for the building and that the Spanish Government will provide the site and maintain the institute. Administration and control is expected to be under the Spanish Ministry of Public Instruction and Fine Arts.—School Life.

Genius is only the power of making continuous efforts. The line between failure and success is so fine that we scarcely know when we pass it—so fine that we are often on the line and do not know it. How many a man has thrown up his hands at a time when a little more effort, little more patience, would have achieved success. As the tide goes clear out, so it comes clear in. In business, sometimes, prospects may seem darkest when really they are on the turn. A little more persistence, a little more effort, and what seemed hopeless failure may turn to glorious success. There is no failure, except in no longer trying. There is no defeat except from within, no really insurmountable barrier save our own inherent weakness of purpose.

Palmyra Notes

Mrs. Elvin I. Powell is entertaining her cousin from New York.

Chief of Police C. Morris Beck spent Tuesday in Atlantic City on business.

Mr. and Mrs. Harry Kemmerle and child, of Riverside, spent Easter with his parents here.

Mrs. G. Blinder will arrive home Sunday evening after spending four weeks in Atlantic City.

Mrs. Wesley Huyett and family spent the past week with her parents at Broadwater, Va.

Mrs. Clara Jewett returned home Thursday of last week after a month's visit at Bridgeton.

Mrs. William Wilbraham entertained the Stutch and Chatter Sewing Circle this afternoon.

A delegation from the Palmyra I. O. O. F. attended the initiation at Westville Monday evening.

Mrs. Harry L. Saul, of New Bedford, Pa., is spending two weeks with her mother, Mrs. Dryer.

Jean Wells, of Delanco, is now assisting Mrs. H. E. Carter at the Palmyra Hotel.

Mrs. Robert Long, of Nantuxet, R. I., spent several days with her sister, Miss Nora Carpenter.

Misses Adeline and Muriel Seel spent the Easter holidays at Boston and Providence, visiting friends.

Mrs. Eva Braddock left on Monday for Medford after spending the winter with Mrs. William B. Powell.

Mrs. M. K. Musser, of the McGee Home, Bank and Cinnaminson avenues, has purchased a new Stutz coupe.

Joseph L. Stack has offered to donate ice to any fraternal or church organizations for their various affairs.

Frank Catterly, of Philadelphia, was the guest of Mr. and Mrs. John M. Davies, of Cinnaminson Avenue, Sunday.

Covenant Lodge Eastern Star will hold its annual banquet next Tuesday evening, April 13, at P. O. S. of A. Hall.

Dr. R. H. Lamb has returned home after spending several months on a tour extending from Florida to California.

Mrs. Pearl Carpenter, of Villanova, spent several days with her parents, Mr. and Mrs. William Rawlings, this week.

Mr. and Mrs. Joseph L. Stack, Clayton Welkmen and Miss Helen Tice, of Riverside, motored to Atlantic City Sunday.

Clifford Bell, of Atlantic City, a former resident of Palmyra, spent the weekend with relatives in Palmyra and Riverton.

Mr. and Mrs. Barrett King, Mr. and Mrs. Warrington Darnell, George Powell and Mrs. Correll Cann spent the weekend at Avalon.

Mr. and Mrs. Hayes Idrell, son and family of Woodstown, were guests of Mr. and Mrs. Milton Jewett, of Washington street, Sunday.

Mr. and Mrs. Elvin I. Powell and children and the Rev. and Mrs. Philip Vollmer spent Easter with Dr. Clement Vollmer, at Oakmont, Pa.

Mr. and Mrs. George Seel, 32, and family, of Maplewood, spent the holidays with his parents, Mr. and Mrs. George J. Seel, of Cinnaminson avenue.

Mrs. Charles MacCubin, of West Virginia, was the guest at the home of her sister-in-law, Mrs. D. W. Johnson, of Leconey Avenue, Thursday of last week.

Mr. and Mrs. John Hoepfner and Mr. and Mrs. H. Elwood Hoepfner spent the weekend in Pitman with Mr. and Mrs. James Ryckman, former residents of Palmyra.

Mr. and Mrs. John R. Jagers and family have returned home after spending some time at Seaside Park where Mr. Jagers was engaged on a building operation.

Mrs. B. W. Meeker, Mrs. Mary Truax and Mrs. Oliver Bright, all of Wildwood, were guests of Mr. and Mrs. Joseph L. Stack, of West Broad street, over the weekend.

The Palmyra High School boys' basketball team will hold a cake sale at Buoh's corner, Broad street and Cinnaminson avenue, Saturday afternoon. The boys will call for and deliver the cakes.

All men of the Twin Cities are invited to attend the meeting of the Y. M. C. A. Bible Class in the Y. M. C. A. Hall, Broad street and Garfield avenue, Sunday afternoon between 3 and 4 o'clock.

Joseph Gorman, Jr., son of Mr. and Mrs. Joseph Gorman, of Rowland street, is expected home from Miami, Florida, where he spent the winter, the latter part of next week. At the present "Joe" is enjoying a week's vacation in Cuba before starting homeward.

George Rogers declares his son, Harvey, is one of the town's "worst leaders" to the popular horseback riding habit. Sunday morning Harvey and Bill Wilbraham took a long ride on the Rogers' horses. Later in the day they motored to Atlantic City and then spent several hours riding the famous beach ponies.

Mrs. W. T. Wilson will hold a box party and dance at her home 423 West Broad street, Saturday evening April 17, for the benefit of Independence Fire Company, Palmyra. Everyone is invited to give. Women are requested to bring boxes and the men should be well heeled with the "herewith" to purchase the packages.

The regular monthly meeting of the Palmyra Association will be held at the Palmyra police headquarters Friday evening. All members are urged to attend. Mrs. John Hoepfner, treasurer of the Association, reports the following recent contributions: Mary A. Sarabia, Moorestown, \$15.00; Miss Sarah Schreiner, \$5.00.

The Palmyra Fire Company was called to a blaze at the home of Wilson Morris, Farry, Tuesday afternoon. A portion of the roof about the chimney caught fire from an overheated stove. Quick action on the part of the local company averted a serious blaze and the flames were extinguished with only slight damage resulting to the home.

The Palmyra Chamber of Commerce will stage a "Booster Night" meeting in Post Rogers Legion Home Tuesday evening, April 13, at 8:15. Regardless of weather or not, they are members, all men of the town are urged to attend the meeting and become acquainted with the work of the Chamber. Charles W. Sumnerfield, secretary of the Palmyra Chamber of Commerce, is a man who has had years of experience in the work of a local speaker.

Active Steps for Improvement of Palmyra are Advanced

Cemeteries Need More Attention—Athletics Seem to be Dying Out For Season of 1926

Mr. and Mrs. Joseph L. Stack, both enthusiastic boosters and willing workers for the development of Palmyra and who have the welfare of the community at heart, have called attention to conditions which they consider need attention.

Mrs. Stack declared that Palmyra's cemeteries are the "most disgraceful in the section." She says she traveled quite extensively over this section by motor during the Easter holidays and nowhere did she see cemeteries in the unkempt condition they were in Palmyra.

"Strangers in the town last week first called my attention to the deplorable shape of the Palmyra burial grounds," said Mrs. Stack. Continuing, she said "Imagine the impression people going through Palmyra Cemetery to greet motorists as they enter the town and the Methodist Cemetery almost in the very heart of the business section."

She says the lots are in poor shape, some only receive attention once a year, piles of rubbish and dry grass and weeds are allowed to remain in the almost untouched, ragged paths and from the general appearance, the cemeteries look as if they receive the least attention of any for miles around.

Otherwise, Palmyra is considered a very neat and tidy town and Mrs. Stack says if the Chamber of Commerce is going to make any kind of an effort to beautify the community, its first step should be taken in the direction of putting the cemeteries in a more presentable appearance.

Mr. Stack, who is an ardent sports enthusiast, says apparently the Field Club, about which most of Palmyra's athletic activities have been centered in recent years, is dying out and will leave the town with no sports of any kind, this summer.

Joe says the ideal method of reviving sports in Palmyra would be to have the Borough purchase the Field Club and develop a community athletic center. But, since the town fathers have never deemed this practicable, the next best method would be to reorganize the Field Club, which has been rather unsuccessful in recent years and make a strenuous and concerted effort to rejuvenate the organization.

Athletics play a big part in the life of a live-wire town, contends Joe and should receive a big boost as Palmyra is striving to make it a worth-while community for the new-comers.

Joe, who should be in a position to know as the result of his many years in the work, says to the best of his knowledge the town will be without a ball team of any sort this season. Neither the Field Club which played at home every Saturday, nor the Twilight League, which staged three games a week, has taken steps to arrange for teams this summer, says Joe. And he added "Now is the time to start the ball rolling."

Neither Mr. or Mrs. Stack are "chronic growlers," but are sincere in their criticism and are deeply interested in the betterment of these conditions.

Metric System Old Scientific Standard

The theory of the metric system is that a meter is one-tenth-millionth of the distance from the pole to the equator, which is a quadrant, or one quarter of the earth's circumference.

The idea of a scientific standard of measures had been suggested as early as the Seventeenth century, particularly by the French astronomer, Jean Picard, who lived from 1620 to 1682.

The suggestion took practical shape in 1790, when the national assembly of France appointed a committee to consider the question. The committee reported in favor of the standard being the one-tenth-millionth part of a quadrant of the earth's circumference.

A commission was then appointed to measure the quadrant. In 1792 a report on the length of the meter was made. In the same year the assembly passed a law bringing in the new system of measures, the use of which became compulsory throughout France in 1801.

Subsequent measurements of the quadrant proved that the meter had been made too small, so that it is now defined as the length of a certain bar of iridium-platinum which is preserved in the bureau des archives in Paris.

Head Thy Dream

Life itself is a bubble and a skepticism and a deep within a dream. Great it, and as much more as they will, but thou, God's darling! head thy private dream; thou wilt not be missed in the scoring and skepticism; there are enough of them; stay there in thy closet and tell until the rest are agreed what to do about it. Thy sickness, they say, and thy puny habit require that thou do it or avoid that, but know that thy life is a sitting state, a test for a night, and do thou, sick or well, finish that state. Thou art sick, but shalt not be worse, and the universe, which holds thee dear, shall be the better.—Emerson.

The way the League of Nations tries to keep the peace is by sending boys out of its Council would lead one to think that the Council has some kind of a jam closet.

A single gentle rain makes the grass many shades greener. So our prospects brighten on the influx of better thoughts.—Thoreau.

Teakwood is so durable that beams made of it 2,000 years ago are said to be still strong. Doubtless that is why they never build political platforms out of teakwood.

A large jolly crowd enjoyed the splendid entertainment and dance given by the Artisans in P. O. S. of A. Hall Tuesday evening. Music for the dancing was furnished by the popular Royal Commanders of Palmyra. The proceeds of the affair went into the assembly's hospital fund.

Famous Work of Art Painted on Cask Top

There is an appealing legend connected with the painting of the "Madonna of the Chair," which also explains why it is circular in form. The story goes that outside of Rome dwelt a vine dresser with his daughter, Mary, and also hard by in the hills lived an old hermit who loved but two things in the world—the girl Mary, who daily carried him grapes to appease his hunger, and an ancient oak tree sheltering his hut, whose murmuring leaves brought him music and companionship in his loneliness. One day a storm wrecked his hut, and the hermit's life was saved only by seeking refuge in the oak tree. Then came Mary, who took him to her home and ministered to him until his death. The hermit harbored a pathetic gratitude toward both Mary and the tree, and prayed before he died that each might be remembered by the world. Shortly thereafter the tree was felled, and its wood made into casks, many of which were used by the vine dresser himself.

Eventually the Roman girl married and bore two children. Early one evening Raphael, while strolling, perhaps for relaxation from the arduous work of his decorations in the Vatican, chanced by this dwelling and saw in the window Mary, the mother, crouching to her last born, with her elder son at her knee. Having no canvas, he took the top of a wine cask that stood nearby and sketched the group then and there, in the soft Italian dusk. Thus was the hermit's prayer granted, for the "Madonna of the Chair," and in consequence the oak on which it is painted, have won undying fame as one of the treasures of the world. The painting hangs in the Pitti palace, Florence.—Mentor Magazine.

Artificial Gold Exhibit

The first sample of synthetic gold which has reached this country is to be an exhibit in the collection of elements at the American Museum of Natural History in New York. Dr. George F. Kunz, the well-known gem expert, who has the difficult task of gathering together samples of as many of the 92 elements as can be obtained or exhibited, states that the sample of what is said to be synthetic gold is a tiny speck.

It is a product from the laboratory of Prof. Hantaro Nagasaka of the Tokyo Imperial university, who obtained microscopic quantities of what he reports to be artificial gold from mercury by running a mercury lamp over a long period and employing extremely high voltage. Doctor Kunz has in his collection the first crystals of pure fluoride of hafnium and metallic hafnium. He has not yet obtained samples of the two new elements, rhenium and massium.

Peacocks Color Blind

We may be misjudging the peacock and rooster when we call them vain birds. For Dr. H. Richard of Munich, who has been experimenting with the eyesight of birds, says that the shimmering colors in plumage probably mean nothing to the feathered creatures. At least they do not appreciate colors as we do, it is indeed, they even distinguish one color from another.

Birds that fly by day, Doctor Richard says, see everything in a bright red-orange light, being very slightly sensitive to the short waves that make up blue and violet. Night birds, on the other hand, never see red, but do see blues and violet. Tiny globules of oil in the retina of the eyes act as color screens and determine the birds' color sense, according to Doctor Richard.

Salmon's Long Trip

The Canadian department of marine and fisheries has marked a considerable number of Atlantic salmon, by attaching silver tags to their dorsal fins, for the purpose of tracing the movements of these fish.

A salmon that was marked and liberated at Burns point, Port Maitland, Yarmouth county, Nova Scotia, on June 11 was killed in the Motele river, Quebec, in the early part of July.

If this fish took the most direct route it traveled about 800 miles, but if it followed the longer indentation of the shoreline it traveled over 1,200 miles.

Famous Woman Surgeon

Dame Louisa Aldrich-Blake, who died recently in London, was considered one of the greatest surgeons in England and as dean of the London school of medicine for women she was a successful administrator.

During the war she gave valuable service for which she was rewarded with the title of dame of the Order of the British Empire. She was born in 1855, and went from Cheltenham college to London university, where she was the first woman to take the degree of master of surgery.

Mexico's Forests

The forest service says that there are approximately 50,000,000 acres of forest in Mexico and 25,000,000 additional acres of scrubby woodland and commercial timber. A very rough estimate of board feet in Mexico has been made at 275,000,000,000.

One Snake in Ireland

A snake that was discovered in Dublin was placed on exhibition at the National museum of that city. It is a small specimen, less than two feet long and of a harmless variety.

Opponents fancy they refute us when they repeat their own opinion and pay no attention to ours.

And-a-Kris! don't think that his active days as a soldier and statesman are about over. He has begun writing for the newspapers.

IDEA OF NUMERALS FROM HUMAN HAND?

That Theory at Least as Good as Any Other.

No one knows how our numerals originated. A good guess, which he acknowledges is only a guess, is made by Charles Pomeroy Sherman in the Mathematics Teacher.

The first use of the numerals of which we have record, Mr. Sherman tells us, is in India, and dates back to the end of the Second century of our era. In the Ninth century an Arabian mathematician wrote a work on algebra in which he used for numbers the signs which he had obtained in India or Afghanistan.

By 1400 those numerical signs in use in Europe were identical with those in use by us today, and they gradually supplanted, in general use, the clumsy Roman signs and the still more clumsy Greek.

"This much we we know," says Mr. Sherman, "but we do not know who was the originator of those signs nor what was in his mind when he formed these seemingly arbitrary shapes. Therefore, as we do not know—as we have no information whatever—it is allowable for us to conjecture what, probably, was then in his mind."

"The savage looked at his hand, and saw four fingers and a thumb, five short straight lines; and thus he learned to count up to, perhaps, five. He looked at the other hand, and saw five more short straight lines; and thus learned, less often, to count up to ten. In place of his fingers he used, to illustrate his numbers, small stones or short pieces of stick or short straight scratches in the sand or earth or on the rock."

"The Roman also looked at his hand, but he saw also the V-shape between the forefinger and the extended thumb, and conceived the idea, to save making five straight marks, to join two straight lines at the end, thus imitating that V shape, and to make that V stand for the whole five straight lines."

"One day, holding his two hands before him, palms outward, and happening to draw them together until the extended thumbs crossed, he conceived the further idea, to save making ten straight marks, or two V shapes, to cross two straight lines in the middle, thus imitating those crossed thumbs, and to make that X stand for the whole ten straight lines. So the savage and the Roman used short straight lines, arbitrarily placed, for their numerical notation."

Swallow's Record Flight

A sea swallow, ringed in Northumberland, England, early in 1919, is reported to have been captured at Cape Town.

Mr. H. F. Witherby, the ornithologist, and the moving spirit in the British bird-marking scheme, stated recently that more than 18,000 birds were ringed in 1924, while more than 150,000 birds have been so marked since 1900.

One of the most remarkable cases of migration was the crossing of the Atlantic by a kittiwake gull, which was ringed in the Farnes islands in 1923, and was afterwards shot in Newfoundland in 1924.

Swallows have the longest range of flight, and in several cases ringed birds have been found in South Africa. Teal and mallard come next.

Substitute for Diamond

After several years of research, metallurgical experts of a steel plant at Wetzlar, in southern Germany, claim to have produced a metal alloy nearly as hard as the diamond, says popular Science Monthly.

The difference in the scale of hardness is merely one-tenth of a degree. The alloy consists of a fused mixture of metallic tungsten and tungsten carbides.

Tests have shown that this tungsten alloy, while somewhat softer than diamond, offers many practical advantages. It is said to have metallic structure and to retain its cutting power much longer than the diamond.

It has a crystalline structure and is extremely brittle, hence soon loses its cutting power by the chipping of its crystal edges.

Smarter Than Samson

You remember Samson's haircut, which proved fatal. That bit of his story came near repeating itself in the case of Governor Elzardo of Aguacalientes, Mex. He was proud of his magnificent beard but his enemies tried to put a job on him and persuaded him that he would be even better looking without it. They expected to subsidize a barber, who would cut the governor's throat while pretending to shave off his beard. However, that beard had been the pride of the governor's life and he refused to have it removed and so probably saved himself from removal along with his whiskers.—Copper's Weekly.

Just the Same

Musky love scenes are as popular with House Peters as the income tax with the average man.

"But when a man's in love everything looks different to him," patiently explained Director Lynn Reynolds, about a scene they were about to take.

"Sure," admitted Peters, "and it's the same way when he knocks his head against a lamp post."

"All right," retorted Lynn. "Act that way and the scene ought to be good."—Los Angeles Times.

If profiting Christians don't stop patronizing Sunday trains and Sunday papers, America will go to a Babylon of ruins.—Noah Webster Cooper.

The Bible knows nothing about evolution, just as it knows nothing about automobiles and radio.—Henry Edwards Fackler.

You can't marry an oak tree and expect to pick almonds there, snugly counsels Viola Brothers Shere, in the "Don't Get Too Close to the Fair-Old Lady" column for the "Society" magazine.

Don't expect cocoanuts to show down on your head, either.

APARTMENTS

FOR RENT—apartment, five rooms and bath. C. H. Westcott, 421 Linden avenue, Riverton.

DESIRABLE APARTMENT—4 1/2 Lippincott avenue, Riverton, modern in every respect. Rent \$50 per month. Phone Riverton 764 or Lombard 9240.

APARTMENT FOR RENT—Five rooms and bath. All conveniences, all sunny rooms. Apply 301 Bank avenue, Riverton. Phone Riverton 714.

AUTOMOBILES

ALBERTSON'S Drive-In Service Station, Broad and Linden avenues, Riverton. High grade gasoline and lubricating oils, automobile accessories. Crank case service and flushing oil free. Telephone Riverton 753.

AUTOMOBILE AND RADIO batteries recharged. Prompt service. Batteries to hire. Radio Tubes, Batteries and Accessories. Have your radio tubes rejuvenated. No results, no charge, testing free. Apply S. J. Coddington Estate, 519 Howard street, Riverton. Phone Riverton 501-W.

FEMALE HELP WANTED

WANTED—Stenographer. Apply Dreer's Nurseries, Riverton.

COMPETENT MAID wanted for general housework in apartment. References. J. New Era Office.

FOR RENT

HOUSE for rent—livingroom siting, diningroom, kitchen, bathroom, bedroom and bath. Inhabited attic; all modern conveniences. Apply 710 Thomas avenue, Riverton. Phone 180.

FURNISHED HOUSE at Second and Penn streets; new, seven rooms, electricity, stationary tubs, open fireplace in livingroom. Phone 126.

UNFURNISHED HOUSE at Second and Penn streets; new, seven rooms, electricity, stationary tubs, open fireplace in livingroom. Phone 126.

FOR RENT—401 Seventh street, immediate possession, desirable house, southern exposure, eight rooms and bath. Wired for electricity. Phone Riverton 143-W.

FOR RENT—Ten room house, all conveniences. Apply 612 Thomas avenue, Riverton.

FOR SALE

FOR SALE—Fresh horse manure, \$4.50 a load, delivered at curb. Get it while it lasts. Watson's Blacksmith Shop, Broad and Park, Palmyra. Phone Riverton 449-R.

One Dresser, beautiful old mahogany; one new dresser, walnut; one new brown mahogany dressing table and stool; two a la tique ebony chairs, and one rocker, done over and beautiful. Telephone 692-W.

In The Churches

Central Baptist Church
The Rev. George Lockett, B. D., pastor.
Sunday School, 10:00 a. m.

GROWN IN NEW JERSEY
and other fine fruits, such as Apples, Peaches, Plums, etc., are raised in the State of New Jersey, and are of the highest quality, and are sold at the lowest prices. Write for catalogue to J. E. STEELE & SON, 100 N. 3rd St., Philadelphia, Pa.

MISCELLANEOUS

RADIO TUBES tested and revived, 15 cents each. No charge if in good condition. Tubes called for and delivered, or tested in your home. Lewis O. Ford, 609 Elm avenue, Riverton. Phone 601.

FOR SALE—Sewing Machine. Good condition. Apply 626 Thomas avenue, Riverton.

BAMBOO LAWN RAKES 69c, regular \$1. Schwering's Hardware Store, 305 E. Broad street, Palmyra. Phone Riverton 182-W.

FOR SALE—Jewett Touring Car in first-class condition. Price, \$325.00. Must be seen to be appreciated. Apply Taylor's Garage, Riverton.

FOR SALE—Novelty Pipeless Heater, 24-inch, excellent condition. Apply 724 Garfield avenue, or phone Riverton 276.

FOR SALE—Frame building, 10' square, slate roof. Apply X. Y. Z. New Era Office. 4tnp

SECOND-hand furniture bought and sold. Apply Jones Express, Broad street, East Riverton. Phone Riverton 456-J. Open afternoon 4 to 6. Saturday 2 to 6.

FOR SALE—502 E. Broad street, \$12,000.00. Large store, office apartment, two-car garage 36 by 97 feet deep. Write Karl W. Latch, Box 154.

IMPROVED UNIFORM INTERNATIONAL

Sunday School Lesson

(By REV. P. B. FITZWATER, D.D., Dean of the Evening School, Moody Bible Institute of Chicago.)

Lesson for April 11

THE STORY OF CREATION

LESSON TEXT—Genesis 1:1-2:25.
GOLDEN TEXT—In the beginning God created the heavens and the earth.

Gen. 1:1.
PRIMARY TOPIC—God the Creator of All Things.

JUNIOR TOPIC—The Story of Creation.

INTERMEDIATE AND SENIOR TOPIC—God the Maker of All Things.

YOUNG PEOPLE AND ADULT TOPIC—God in Creation.

Everything that God had a beginning. God the uncaused cause is the cause of all things. Let this fundamental truth, though beyond the power of the human mind to grasp, be believed and all our problems of philosophy and theology will be solved.

I. The Origin of the Universe (Gen. 1:1).

It was created by God. All things came into being by the will and act of a personal God. Creation means to bring into existence that which had no previous existence.

II. The Regeneration of the Earth (1:2-2:25).

Between verses one and two, is clearly marked an interval of perhaps wide duration. The earth which was created by God was subjected to a judgment. The Hebrew word "was" might just as well have been translated "became." Instead, therefore, of the earth having been created a void or chaos, we see that it became so through a catastrophic judgment. In Isaiah 45:18, the prophet declares that God did not create the earth as waste, but that He formed it to be inhabited. All that real geology has to say to us harmonizes with this view. The so-called six days of creation exhibit God's rehabilitation of the earth.

The cause for this judgment upon the earth is to be found doubtless in the judgment upon Satan, who is called the prince of this world (John 12:31).

Observe that God created the species and decreed that they propagate after their kind. Such a thing as one species developing out of another is unknown to the Bible and real science.

III. The Origin of Man (1:26-2:25).

He was created by God. He came into being through a special creative act of God. As to nature, he bore the image and likeness of God. This image and likeness is not physical or bodily, but intellectual and moral (Eph. 4:24, Col. 3:10). God's likeness is reflected in man's threefold nature. Man is spirit, soul and body (1 Thess. 5:23). God made man with a personality capable of having fellowship with Himself—with whom He could share His glory.

IV. Adam Alone in Eden (2:7-9, 15-20).

He had a most beautiful place in which to live. God gave him surroundings in keeping with his nature. "Pleasant to the sight and good for food" describes his surroundings. He was to "dress and keep the garden" (v. 15), showing that work was God's primal thought for man. To this agrees the teaching of the New Testament. If any man would not work, neither should he eat (1 Thess. 3:10). Man in Eden was desolate. Paradise with all its splendor could not satisfy his lonely heart. Animals of all kinds surrounded him, but no companionship among them was to be found for him. To make Adam conscious of his condition God caused the animals to pass before him, with the result that no helpmeet was found for him; man, being a personality, was differentiated from the animal.

V. The Origin of Woman (2:21-24).

To meet the need of man God made the woman. They had minds alike, therefore could commune together about the things that surrounded them, and about God. They had spiritual natures, therefore could commune together with God. God took a rib from Adam's side and out of it made the woman. Man was made from the dust of the ground and woman was taken from his side—thus woman was one removed farther from the earth than man. Someone has said that the man was dust refined, but the woman was dust doubly refined. Matthew Henry says, "Woman was made from a rib out of the side of Adam, not out of his head to top him, nor out of his feet to be trampled upon by him, but out of his side, to be equal with him—under his arm to be protected and near his heart to be loved."

VI. The Origin of Marriage (2:24).

God made man—male and female. It was His intention that men and women should marry. Marriage is the most sacred of human ties. It is of divine origin, for God Himself performed the marriage ceremony.

Give Credit to God

This act of initiative and daring this resolute step of entire confidence is at the same time the most reasonable proceeding that a creature may undertake. Give credit to God; by wisdom, no prudent calculation could be safer.—Charles Wagner.

Killing Doubts

Every step toward Our Lord Christ kills a doubt. Every thought, word and deed for Him, carries you away from doubt.

FIVE BUSES

Will Be Operated Between Burlington and Middletown

The Public Utility Commission has approved permits for the operation of five auto buses between Middletown and Burlington via Mount Holly.

It is said the buses will be placed in operation just as soon as some little differences are ironed out with some of the township authorities through which they will operate.

For instance, the residents of Westampton township, feel that they are entitled to some consideration

Early Seeded Oats Give Larger Yields

Seven-Year Test Made by Nebraska Station.

While there is such a thing as seeding oats too early in the spring, there is no doubt but many farmers are inclined to defer seeding more than seems advisable. Oats are a cool-weather plant, and for that reason the more its growing period can be stretched while the weather is cool the larger will be the yield. The Nebraska experiment station has accumulated some valuable data on this subject in recent years that should be generally known.

In a seven-year test, for example, oats seeded on March 31 averaged 58 bushels per acre; those seeded April 12, 40 bushels; and those seeded April 20, 38 bushels. At the North Platte (Neb.) experiment station in a 14-year test, oats seeded April 8 yielded 28 bushels per acre; those seeded April 18, 25 bushels; and those seeded April 20, 21 bushels.

Average yields of a given crop for periods of seven to fourteen years are pretty reliable and the figures presented above certainly point to early seeding as being very desirable for oats. What may be said about oats in this respect applies equally to barley and spring wheat. It is important, therefore, to have the ground intended for oats or other small grains in shape to rush seeding operations as much as possible after the season for spring work opens.

Farm Inventory Is Very Simple Form of Record

"An inventory can be taken on the average farm in less than half a day, and for the time spent it shows the farmer the most about his business of any records he can keep." This statement is made by Prof. V. B. Hart of the farm management department at the New York State College of Agriculture.

"A farm inventory is the simplest form of farm financial record that can be kept," he says. "The inventory shows the farmer his net worth above debts, and a comparison of two successive annual inventories will show him whether he got ahead during the year. This is the first step to take in putting a farm on a good business basis, and from such an inventory a credit statement can be made to be filed with the bank where the farmer does business."

"Any farmer borrowing money from a bank should file a credit statement with his bank once a year. The banker is a custodian of the funds of his depositors and should not make loans to any but responsible persons. He is entitled to and should have the information which a credit statement gives and this statement also generally gives a farmer a better credit standing at the bank."

The state college at Ithaca has copies of a form for taking an inventory, with spaces provided for all the items. It also contains complete directions for taking the inventory and for making a credit statement, with blanks for two such statements, with writing for it.

Ventilation in Chicken House Quite Important

Chickens need more fresh air for their skin than any other farm animal. This is because the moisture other animals exude through the skin and kidneys is in poultry almost entirely given off in breathing. The air of an overcrowded, under-ventilated house quickly becomes foul. The chickens get off the roost in the mornings dull and drugged from bad air.

Even open front houses with three sides closed and open on the south may not provide enough fresh air. A narrow board's width opening along the south side immediately under the rafters improves the circulation without draft. The curtain openings should be from 30 to 36 inches from the floor. All openings should be arranged for closing if necessary.

Inventory Is Big Aid

The farm inventory is an aid in keeping a record of property that has been lent or misplaced. This is often sufficient justification for taking the inventory, although the information it furnishes concerning the progress made in accumulating farm property is of far greater importance. Many farmers who are keeping a close record of their farm business never fail to take their farm inventory.

Economical Rations

Stock keepers must know the cost of their feeds in order to determine the best and most economical rations. For this reason it is necessary to investigate the cost of making silage. The Missouri Agricultural college last year showed a cost of \$5.90 per ton for corn silage. They based this on 26½ bushel yield, crediting the corn with 94 cents per bushel and charging actual costs, which were liberal on all items.

Grub Out Dead Trees

Midwinter is the best time to grub out dead trees in the orchard and save off large dead branches. These should be at once worked up into stove wood. Apple or cherry wood makes excellent fuel for the fireplace or kitchen stove. If removed from the orchard at this time the hazard of their spreading blight canker or borers to the live trees is avoided.

and would like to have a bus line from Mount Holly to Beverly by the way of their hamlet and the township committee there has thus far withheld favorable action on the application of the Public Service Company to run the Mount-Holly-Burlington buses through that town.

The length of the cigarette holder or seems to be in exact proportion to the paucity of wit behind it.

Wouldn't it be nice if we were asked as we wish our friends would?

For ordinary cream seeds, use it just as it comes from the can. When a rich milk is desired, add an equal part of water. For cooking and baking two parts water and one part milk will usually make a good cream.

NO BRAINS

Helma Said to be the "Paragon" of Ignorance

Who said it took brains to make money? Say—brains mean nothing to Helma, the Swedish maid in "What Happened to Jones." Helma is absolutely devoid of expression, and not once does she show a glimmer of intelligence in this fascinating farce to be presented by the Junior Class of Palmyra High School on the evenings of April 23rd and 24th. Miss Grace Bauer plays this part most humorously.

The cast includes the following: Helma Haskal, Gertrude Hancock, Anna Murphy, Elizabeth Toy, Muriel Burmann; and Ted Hudson, Matt Ruster, Edward Sordon, Joe Klingler, Lester Johnson, Henry Mathers, and Victor Mueller.

ICE CREAM

Industry Now Produces \$300,000,000 Gallons Yearly

Every industry that eventually gets into the category of "Big Business" has its romantic side. And, assuredly the manufacture of ice cream can be termed a great basic industry. For in 1925 the American people alone consumed 300,000,000 gallons of ice cream, valued at more than \$300,000,000.

Some unknown chronicler with an urge for historic accuracy has been delving into the beginnings of ice cream. He declares that Italy is entitled to the crown of laurel for first having discovered this luxury.

His story is the effect that an Italian dairyman in the twelfth century froze a bucket of cream by packing snow around it and stirring it with a paddle. If we can place any credence in this tale, then the manufacture of ice cream can be classed as one of the oldest of our industries.

However, other historians claim that ice cream originated in Japan in the thirteenth century. They prove this by quoting Marco Polo, the great traveler of his day, who mentions ice cream in his writings of that period on Japanese customs and characteristics.

As a matter of cold fact, the real history of ice cream is quite fragmentary. It is known that water ices, originating in Italy, were brought to France in the sixteenth century. Ice cream is said to have been known in Paris in 1775, and in England and Germany at about the same time.

In our country, ice cream was advertised for the first time in New York in 1786. It was introduced in Washington at a dinner given by Mrs. Alexander Hamilton in honor of President Jackson.

Quantity production, or the making of ice cream in a wholesale way, dates from about 1850. Philadelphia very early took the lead in this new industry. So pronounced did this leadership become that Philadelphia is often referred to as the "Ice Cream Capital of the World."

Among the pioneers in the ice cream industry in Philadelphia, the name of Breyer stands out most prominently. In 1866 the Breyer family conducted a small "Ice Cream Store" in that city. The Breyer product became famous for its goodness, the elite of Philadelphia in those days patronizing the modest establishment.

Now, the three Breyer ice cream plants in Philadelphia and New York cover many acres. The new plant of the Breyer Ice Cream Company on Long Island is the largest institution devoted to the making of ice cream in New York City.

Health and Home

WHAT IS EVAPORATED MILK?

Did you ever stop to figure out the exact meaning of "Evaporated Milk"? The word "evaporated" may give you the idea that in the process of evaporation the milk has lost some of its valuable qualities. It hasn't. It has lost only water. Sixty per cent of the water is evaporated from the milk after it comes fresh from the cow.

The first step in processing the milk is the evaporation, where a portion of the water content is removed. The second step is the homogenization, which insures the cream being distributed evenly throughout the milk. The third is the canning. The fourth is sterilization, which takes place in the can when the milk is subjected to sufficient heat to destroy the bacteria. Thus evaporated milk remains as pure and fresh in the can as when it foamed into the pail in the farmer's barn.

Evaporated milk is now generally recognized as the freshest milk available to those not living on farms and producing their own milk. For freshness in milk means purity.

Transportation of milk from the dairy country to the city is well systematized and rapid and yet owing to the immense quantities of milk that must be rushed in daily, much of it must be obtained at considerable distances and a large per cent is necessarily some days old when it is delivered by the milkman.

Evaporated milk, on the other hand, is last night's and this morning's milk. From the dairy barn, always under rigid inspection, it is hurried by farmers to factories located in the heart of the dairy country and delivered when it is fresh. Evaporated milk is canned just at its "freshest moment," when it is in its finest state. It is never allowed to get old. The whole process from cow to can requires only a few hours. It may be interesting to know that the process of sterilizing takes place after the milk has been cooled in its containers. Once in its sterilized containers, there is no possibility of deterioration.

The sterilizing of evaporated milk insures its purity—it makes a safe milk for the children. Evaporated milk is boiled milk, and this makes it more digestible.

It may be used for any milk need with safety and economy.

For ordinary cream seeds, use it just as it comes from the can. When a rich milk is desired, add an equal part of water. For cooking and baking two parts water and one part milk will usually make a good cream.

Rancocas Cases

Up Again Monday

Trial Was Postponed From March 29 at Appar's Request

Postponement of trials of several defendants against whom indictments had been found by the Grand Jury for complicity in the famous Rancocas creek rum barge raid and charges growing out of that unsavory affair, that had been set for Monday, March 29, was ordered at the opening of court on that day, after W. Holt Appar, the newly appointed special investigator named to prosecute the cases, had so requested.

Mr. Appar explained that in the two weeks since his appointment to the prosecution for the state he had been a very busy man and had not been able to fortify himself with all the facts and properly prepare the cases for trial. He stated that he would do everything in his power to be ready to conduct the trials next Monday, if that date was satisfactory to the Court, but also stated there was no certainty that he would not again be compelled to ask for a further postponement at that time.

Names of Defendants
The cases to be tried are those of Charles Sharp, Wilmer Raff, Samuel Cutler, Thomas Davis, Edward Everitt, Addison Bintliff, Paul Dussavich and Nathan Kiawansky, all charged with conspiracy.

James Mercer Davis, who represented some of the defendants, made objection to the postponement, early as he said, that Mr. Appar had been very busy, but he insisted that the cases be called peremptorily on April 12.

Mr. Appar objected to this, but assured the court that everything that was within his power would be done to bring the defendants to trial, as he stated that the state and the better-thinking people of the county demanded summary action.

The court announced that the moving power rested with the state and he would be governed accordingly.

Engage for Trial
Clifford D. Cain and Arthur Carabine, assistant county detectives indicted for nonfeasance and malfeasance in office in connection with the rum raid, pleaded not guilty, through their counsel, Robert Peacock, who pressed for the postponement of his clients, but Mr. Appar replied that he found it impossible to try the county officers before he had first heard the conspiracy cases.

State Trooper Dayton S. Young, indicted for nonfeasance and malfeasance before the court later in the day and also pleaded not guilty.

In addition to Mr. Davis, Martin Devlin, of counsel for the defense, was in court, but John A. Matthews, of Newark, and Frank I. Casey, of Trenton, who are associated with the defense, did not appear, they apparently having been advised that the postponement would be asked for and be granted.

TO BACK PROJECTS

Every project promising easier access of greater numbers of people into South Jersey is to have the active support of South Jersey, Inc., the organization of leading men and women of this section which is preparing the great publicity and advertising campaign. In the office of South Jersey, Inc., on the Milton Dollar Pier, Atlantic City, plans are being made for further the interests of the proposed new Delaware Bridge from South Philadelphia, which is to bring thousands of new residents to the extended home and garden district of Gloucester and Salem counties and to pour new millions into the entire area of South Jersey; to boost the building of a bridge from Bristol to Burlington and a bridge from Somers Point to Beesley's Point which will allow of direct motor travel to the lowermost points of the South Jersey coast and farming districts.

Cancer Feeds Body in Cure

Serves as Nutrition During Critical Period of Recovery, Experts Say

The most important discovery in the successful treatment of cancer by the Koch Cancer Foundation, in which close to 80 per cent. of hopelessly incurable cases are cured, is the fact that the cancer itself during its period of absorption feeds the body of the sufferer. This has been demonstrated in hundreds of cases where it was not until recently that Dr. Koch and his associates recognized that the cancer tissue was building up instead of tearing down the system of the patient during the curative period.

Among the other doctors who report similar results in their various districts are W. A. Dewey of Los Angeles, Cal.; L. L. Dill, of Logansport, Ind.; Frederick Dugdale, of Boston; C. Everett Field and A. W. Hoyt, of New York City; Elmer C. Folkner, of Washington, D. C.; and W. Wallace Fritz, of Philadelphia. In addition to these physicians more than a hundred others are now using the Koch antitoxin are achieving the same results and report that their patients gain strength and even weight as their cancers decrease in size.

Explains Cure
That the decreasing cancer becomes food for the body of the patient is noted by Dr. Field who explains the process.

"This extraordinary phenomenon," he says, "is the direct result of the reaction caused by the Koch antitoxin. Dr. Koch in his years of study before perfecting his antitoxin discovered that cancer is a cell growth produced by the body to wall in the cause of the infection. It is just as though a stone wall were built around a herd of cows to prevent them from straying all over the country. The cancer cells reproduce with extraordinary swiftness so that in the course of a short time the patient is killed. Their growth can only be stopped by killing the infection against which the body uses them as a protection."

"Dr. Koch's antitoxin which has successfully cured more than 80 per cent. of hitherto hopeless cases, attacks both the infection and the cancer itself. The infection is killed and the cancer dissolves through the system of the patient. It is at this point that the cancer cells provide nutrition for its victim. This has been demonstrated in hundreds of cases and is absolutely proven to be a fact. Under the treatment evolved by Dr. Koch the patient eats nothing but fruit juices for a week previous to receiving the injection. Then for two, perhaps three, weeks following only the juices of fruits and vegetables are taken. It is not until the third or fourth week, if the case be normal, that the patient is allowed to eat the fruits and vegetables themselves."

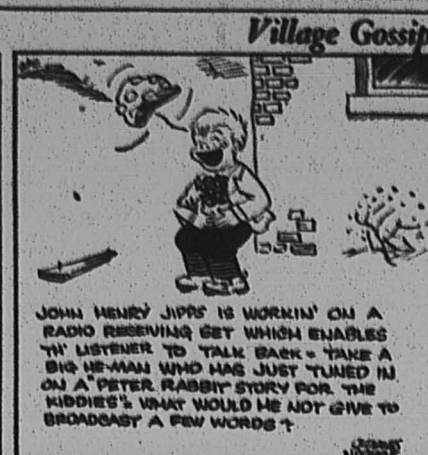

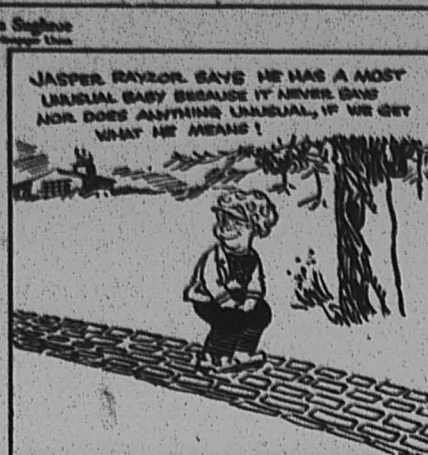

Cancer Absorbs Itself
"Following the injection the cancer symptoms begin to disappear and the cancer itself to absorb. It has been found that the patient instead of being practically starved on this restricted diet begins to gain weight and strength in proportion to the speed with which the cancer disappears. In other words, the cancer itself becomes the food upon which the patient thrives for some time after receiving the antitoxin."

The average cure is obtained after twenty weeks according to Dr. William F. Koch, who was formerly a Professor of Medicine at the University of Michigan.

"It is seldom that a second injection is needed," he said, "and this is usually because the patient has been subjected to the radium and X-ray treatments. However, it may be necessary because the patient is in a very run down condition when treatment is commenced. The antitoxin is absolutely harmless to the body and produces no injury nor soreness even when injected in a concentrated solution. Some years ago before the present antitoxin had been perfected it was found necessary to give a number of injections before the patient was cured. Now,

MICKIE, THE PRINTER'S DEVIL

FIFTY YEARS OF PUBLIC SERVICE

The first transcontinental telephone line was established from New York to San Francisco only eleven years ago, by way of Chicago and Denver. A second transcontinental line has recently been completed from Los Angeles through Texas to New Orleans, with lateral lines connecting at San Francisco with the first continental line, from El Paso to Denver and from Fort Worth to Chicago, as well as the existing lines from New Orleans north.

To think that the telephone was unknown but 50 years ago is almost inconceivable. Its phenomenal growth has been due to its practical usefulness and the fact that its officials have always been men of high ability.

however, one injection is all that is needed in 90 per cent. of the cases. We have found that the antitoxin cures every form of cancer and does so with remarkable speed."

Under the plans of the Koch Cancer Foundation clinics for the cure of cancer are to be opened in all important cities of the country. Patients will be accepted, after proper investigation, from all walks of life.

BRINGING WORKERS TO SOUTH JERSEY

Advantages of South Jersey, as a place both to work and live, are to be set forth in the big advertising and publicity campaign now being launched by South Jersey, Inc., composed of leading citizens of the nine South Jersey counties. Owners of farms and factories are to be represented on the Board of Directors and be asked to advise the best manner of telling throughout America of the fine living conditions, the wonderful climate and the high standard of living enjoyed by South Jersey workers. Moving pictures and photographs of fine homes in cities and on farms occupied by workers and their families are to be taken during the New Jersey Publicity Campaign. Special literature and newspaper stories calling attention to advantages of South Jersey for workers needed on the wonderful South Jersey farms will be included in the list of subjects used during the publicity campaign which is intended to double the present population of South Jersey.

POLITICAL NOTES

The party primary elections this year occur on Tuesday, June 15.

The Mount Holly Fair, which did service as the cradle for so many infant political booms in years gone by, is likely to function in that capacity again this coming summer. A week of Fair, starting on May 31 and continuing to June 5, promises to give all the politicians a chance and few will pass it up.

Ex-Judge Harold B. Wells, of Bordentown, who had the backing of ten Senators for one of the two Circuit Court judgeships created by the Legislature, failed to land the \$16,000 annual plum. Governor Moore on Wednesday night, filling the office by the appointment of County Judge Ruliff J. Lawrence, of Monmouth county, a Democrat, who had the backing of Senator Stevens, and Law Judge Newton H. Porter, of Essex, a Republican, backed by

Senator Harrison

The Ranocas Construction Company, of Delanco, which has two sawmills, one on Old York road, near Burlington, and the other on the Vincennes stone road, has the contract to furnish a large number of the pound poles being used by the fisheries along the Long Beach coast. In former years the owners have gone as far as Virginia to obtain poles. This proves that New Jersey has resources that many business men have not known about, as these poles are as fine as any shipped from other states.

Mayor "Tom" Mooney, of Burlington, is not going to let his friend and fellow townsman, "Tom" Birch, get too long a start on him in the race for honors. While they are talking of the former Minister to Portugal as a possible candidate for the gubernatorial nomination in 1928, some of Mayor Mooney's friends are booming him for the presidency of the State Elks' Association.

clation. If the two Tom's reach the goals pointed out to them by their friends, New Jersey may come down into Burlington county to get the biggest Governor it ever had, and the State Elks' organization, the largest president.

Assemblyman Powell made a valiant fight to pilot Senator Robert's bill prohibiting night work for women in places of employment, through the Houses, but it enemies succeeded in blocking it for another

session. The measure had the backing of a number of women, among them Mrs. Falckert, of some State fame in politics, and the latter's support of the bill may not have attracted friends in the House. But that as it may, the No-Night-Work-for-Women bill, which got through Senate by courtesy, did not fare so well in the lower house, although Assemblyman Powell did his best to get better treatment for his colleague's measure.

A nonsecret Greek letter high-school honorary society, the Sigma Tau Alpha, has been organized in the Milan (Ind.) high school. Members are chosen by the faculty on the basis of scholarship. The membership at present is composed of seniors and alumni, but it is proposed to elect new members at the end of the junior year.

A very important thing going on now is spring clothes.

Good Lungs Vital to Healthy Body

Purify Blood by Giving It Oxygen and Taking Away Carbon-Dioxide

A man can live forty or fifty days without food, but he can't live five minutes without air. Yet how many really intelligent people have an adequate idea of the marvelous apparatus by means of which we use air—the lungs? A careful reading of what follows will enable you to impress anyone who happens to bring up this subject, with the idea that you are a very profound person with a wide range of information.

Just what do the lungs do? They purify the blood by giving it to oxygen gas from the air which we breathe in, and by carrying away from the blood, in the air we breathe out, a poisonous gas called carbon dioxide. This poisonous carbon dioxide is the same gas that miners fear under the name of "choke damp." It is also given off by a coal fire. In our bodies, it is formed in the same way by the burning of fuel (food) which produces heat and energy for us. If, for any reason, the lungs fail to carry off this constantly forming gas, a person will have convulsions, become unconscious from self-poisoning, and finally die. In fact, in some diseases in which pain disappears before death, it is because the nerves have been paralyzed by this poisonous gas.

The capacity of your lungs should be from 200 to 400 cubic inches—two cubic inches for every pound of body weight. As a matter of fact, many people have only 150 to 200 cubic inches lung capacity, which may account for the fact that while man has hundreds of diseases, about one-seventh of all deaths result from diseases of the lungs alone, chiefly from pneumonia and tuberculosis.

Tidal Air
While 300 cubic inches is good average total lung capacity, it is a rather surprising fact that we take in, when the body is at rest, only about 20 or 30 cubic inches in an ordinary breath. This is called tidal air. The amount you could expel by the most forcible effort is called reserve air. That which cannot be expelled by the most forcible effort is called residual air and amounts to from 100 to 200 cubic inches. Of course, the residual air is gradually changed at all times and the whole arrangement is to prevent cold air, dust, etc. from getting into the very delicate, terminal air sacs.

Some exponents of fancy breathing systems would have us believe that by artificial deep breathing before an open window, we can load the blood with life-giving oxygen and expel great quantities of carbon dioxide, thus becoming mental giants, captains of industry, and physical prodigies. Unfortunately, this is not true. Let us see why.

The truth is that there are two factors in this blood purifying process. One factor is the air in the lungs, and the other is the speed with which the blood-stream is forced through the lungs so much oxy-

gen and give off just so much of the poisonous carbon dioxide.

Must Have Exercise

So, if we want to increase the rate at which the blood absorbs oxygen and throws off carbon dioxide, we must make the heart beat faster so as to force the blood more rapidly through the lungs. Exercise makes the heart beat faster and thus forces the blood more quickly through the lungs where it is exposed to the air. Therefore, the only deep breathing which really counts is that which results from exercise.

If I should tell you that you have from 1,000 to 1,400 square feet of area in your lungs where the blood stream is exposed to air, you might elect me to the Annapolis club of the late lamented Roosevelt. So, let's take a little jaunt back to the old physiology class of our school days. Later, I shall tell you why a coal miner's lungs are black and what looks after your breathing while you are asleep so that you don't forget to breathe for that fatal five minutes.

Let us draw a mental picture of the lungs. You remember from your grammar school days, the general shape of them. And you probably remember a picture that looks like two small trees extending downward. That one represents the trachea, or wind-pipe, which extends down from the larynx, or Adam's Apple, and divides into the right and left bronchus, from each of which extend many bronchial tubes like the branches of a tree. They divide and subdivide, again and again, and finally terminate in the small ends of a lot of little inverted cones called lobules. The inner surface of these lobules are pitted deeply with many little cup-like depressions called air-sacs. In the extremely thin walls between these air-sacs are fine networks of tiny blood vessels called capillaries, and it is here that the oxygen gas is absorbed from the air and the poisonous carbon dioxide given off.

1000 Square Feet

The total area of these thousands of air-sacs has been estimated at from 1,000 to 1,400 square feet. That explains why the dark, venous blood coming from the veins by way of the heart is, in a few seconds, turned into a bright red stream of rich, oxygen-carrying, life giving blood ready to go all over the body again.

Why are the lungs of a child pink while those of an adult are gray and those of a coal miner black? If you should look at the mucous membrane which lines the bronchial tubes, through a microscope, you would see thousands of little, short, hair-like projections much like the nap on a piece of pink plush. These cilia, as they are called, are in constant motion. They move quickly upward toward the larynx and slowly back thus carrying any dust particles or other foreign matter toward the larynx. As we get older, the lungs, in spite of this action, retain a certain amount of the foreign matter so that in old age they become gray. In miners, who constantly breathe foul gases loaded with coal dust, the lungs are black, due to retained coal dust.

BAPTIST CHURCH

Easter Services Are Enjoyed by Big Congregations

Easter worship at the Central Baptist Church was magnificent in spirit and attendance from the early Sunrise Service to the end of the colorful children's service in the evening. Pastor Lockett invites everyone in Palmyra and Riverton who has no church affiliation to make "Central Baptist" their church home in religious and social life.

Tonight the Thursday evening Bible Class members will journey to the Market Square Church in Germantown to hear a lecture by Dr. Beeber.

Friday afternoon the kiddies will spend another "Happy Hour" at four and in the evening representatives of the next older generation will meet at eight.

Regular services will be held on Sunday with Bible School at 10 a. m., Morning Worship at 11:15 and evening service at 7:45.

Next Wednesday the Women's Society will meet in the church for morning and afternoon sessions and the regular church prayer meeting will be held at 8 o'clock.

ERNEST H. SCHUCK

Ernest H. Schuck, 8 weeks old, died at the home of his parents, Mr. and Mrs. Charles Schuck, Parry, Saturday.

Funeral services were held Tuesday afternoon at the home of the

parents, at 2 o'clock with the Rev. Albert J. Harks, pastor of the Moravian Church, officiating. Interment was made in Hillside Cemetery, Philadelphia, with Funeral Director Frank A. Smover in charge.

EPWORTH CHURCH

"Dictionary of the Soul" Will Be Pastor's Sermon

"The Dictionary of the Soul" will be the subject of the Rev. J. W. Lee's sermon at the morning service of the Epworth Methodist Episcopal Church Sunday at 11:15. At the evening service, at 7:45, the pastor will have "Rich Without Money" as his topic. Spirited congregational singing is one of the features of the evening service.

The musical program for Sunday morning service includes "Andante," in D flat, by Lenore; anthem, "Festival Te Deum," by Dudley Buck; offertory invocation by Maltby; psalm in G, by Clark. The special selections for the evening are "Romance," by Rubinstein; offertory, "Afterglow," by Strang; anthem, "Rise Up Men of God," and postlude, March by Lowden.

The Sunday School, which meets at 10 a. m., has classes for all ages and to which all will receive a most hearty welcome. "A Cause for Every Effect" will be the Rev. J. B. Whitton's subject for the lesson for the Wesleyan Men's Bible Class which also meets at 10 o'clock.

DINE IN CAMDEN

Members of Palmyra Chamber of Commerce Enjoy Program

Twenty-six members of the Palmyra Chamber of Commerce headed by George M. Harris, secretary.

Concillman J. Edwin Lees, president, Walter D. Lamon, vice-president, and Mayor James T. Weart motored to Camden Thursday evening of last week and enjoyed the splendid program arranged for South Jersey Civic Night.

The affair, which was attended by 2,500 civic workers from the various South Jersey communities, was

held in the immense Camden Convention Hall.

The program included a bonanzaous banquet and spirited addresses by Governor A. Harry Moore, Senator Frank R. Willis, of Ohio, and Merie Thorpe, of Washington, D. C., editor of Nation's Business and official national Chamber of Commerce publication.

COUNCIL ASKS CHAMBER OF COMMERCE TO ASSIST

Present Body Has Taken No Action in Merger With Cinnaminson

FIRE TRUCK PROBLEM IS STILL UNSETTLED

Karl W. Latch, chairman of the publicly owned fire department of the Chamber of Commerce, appeared before the Borough Council last Thursday night to convey to that body the approval of the Chamber of Commerce of the effort being made by council to effect a consolidation of government between Riverton and Cinnaminson township.

President William B. Lynch, who occupied the chair in the absence of Mayor Fred P. Hemphill, informed Mr. Latch that the present council had taken no action in this direction. This was news to the Chamber of Commerce representative, as Councilman Williams had stated in an address before that body a short time ago that council was working on the proposition. Mr. Lynch contended that this was a mistake.

Former Mayor Bennett and H. H. Murray, who was councilman during Mr. Bennett's term, he said, had taken the matter up with some of the residents of Cinnaminson township and did not find them in a very receptive mood. Mr. Williams asked Mr. Lynch if a conference had not been held much more recently. "No," said Mr. Lynch, "what you probably refer to was a conference with J. Lawrence Lippincott, who was building some houses across the line and wanted to see if arrangements could be made with the borough for sewer facilities."

Discuss Merger
Mr. Williams, however, stood by his guns and said he had talked to Mayor Hemphill within three months, that the council was in favor of the plan and was going to bring it before council.

A general discussion followed in which Mr. Flagg wanted to know what benefit the proposed merger would be to Riverton. Mr. Latch replied that it would give Riverton more room to expand and accommodate new residents. Mr. Lynch countered with the statement that just as soon as the township became a part of the borough, improved streets, sewers and street lighting would be demanded, which would cost a lot of money. Mr. Williams expressed the opinion that the new homes would soon be erected after the township was merged with Riverton and these improvements made without any material increase in the tax rate.

Mr. Flagg said that while he was mayor this same proposition came up and its sponsors went so far as to present a bill to the State Legislature, but that the Legislature appeared before the council and to which the bill was referred and it never got any further. (At the time referred to the initiative was taken by Cinnaminson township, the reason given being that it would be a hardship on the township to have to provide adequate school facilities for children in East Riverton. It was proposed to cede to Riverton that section of Cinnaminson township known as East Riverton.)

Survey Suggested
Councilman Howell said he was glad to have the matter brought officially to the attention of council by the Chamber of Commerce.

Mr. Welsh suggested that the Chamber of Commerce might make a survey of Cinnaminson township to ascertain what the township would be like in the future, population, number of houses, available building sites, etc., and report back to council, giving that body something definite to work on. The clerk announced for the information of council that the assessed valuation of Cinnaminson township this year is slightly over one and a half million dollars.

Mr. Lynch said that what he would like to see was for Riverton and Palmyra to get together in one good-sized borough.

Councilman Howell offered a motion which was seconded by Councilman Welsh, that action in this matter be held in abeyance. It was unanimously passed.

Then Mr. Latch wanted to know what word he was to take back to the Chamber of Commerce and council wanted the chamber to co-operate in this matter, and if so, now or at some future time, and how? Mr. Lynch recommended that the chamber go ahead and get what information it could.

The attitude and action of council rather put the shoe on the other foot. The Chamber of Commerce had been informed by a member of council that the merger proposition was being considered by that body and that it was likely to come up for discussion at the next meeting. The chamber passed a resolution directing a committee to represent that body at the meeting and to convey to council its approval of the plan and to offer its help. In effect council disclaimed any active interest in the matter and put in up to the chamber to take the initiative.

Discuss Fire Apparatus

Councilman Flagg, chairman of the fire and water committee, said that some time ago, in good faith and at the request of the fire company, he had brought before council the matter of doing something with the fire apparatus. A committee of citizens had been appointed by the fire company to confer with the fire and water committee on what it would be best to do. (That committee was composed of H. H. Murray, a former councilman who had been actively interested in the purchase of the LaFrance pumper, John C. Oates, president of the fire company, and George D. Steele.) Mr. Flagg said that the committee had met and discussed the matter from many angles.

Personally he favored replacing

baseball meeting Friday night. The attention of those interested in the success of the new Riverton baseball team is called to the meeting which will be held in Collins Hall, Riverton, Friday evening of this week at 8 o'clock.

A strenuous effort is being made to raise enough money to erect a grandstand on Memorial Park, in addition to buying suits and equipment for the team.

If you want to help in this very laudable enterprise, here is your chance to show it.

Excitement In Morning Blaze

Roof of Evans' Lumber Warehouse Discovered in Flames Monday Morning

Riverton's pumper fire truck again demonstrated its efficiency last Monday morning when the lumber warehouse of Joseph T. Evans was set afire, supposedly by a spark from a passing train. In less than five minutes after the fire company arrived the flames were under control.

Joseph Cook, who lives next door, saw the smoke and flames, and while he was looking at it, John Nichols, who had just built a fire in Evans' heater, came out of the building to see what it was all about. He turned in the alarm and the company made a quick response, notwithstanding the early hour.

The stream from the pumper beat down the fire from the outside, while some of the firemen went inside with the chemical hose.

It was a close call for all the buildings in the neighborhood, and if the fire had started in the night when it might have gained considerable headway before it was discovered, the result could easily have been disastrous.

YMCA Drive to Start Monday

Organization Lined Up To Secure Funds in County "Y" Drive

Nathan Lane, Jr., Riverton Community Chairman for the current campaign for the County YMCA, April 15-19th, had selected the following Captains: C. W. Rodman, L. B. Jackson, V. S. Meary, Victor S. Ritchard, John S. Hartley, Howard D. Gordon, Charles H. Yost.

These men together with their team workers plan to be present at the County Y Campaign Dinner in Mount Holly, Friday evening, April 16th.

The collection of subscriptions will start the following Monday evening.

In coming before the public again in its annual appeal for financial support for its current expense budget, the County Committee does this with the confident expectation that there will be enough good citizens to respond to the appeal.

Lloyd Wright offered a resolution protesting against the discontinuance of the Medford-Mount Holly branch of the railroad and it was unanimously passed without discussion.

A communication was read from the State Highway Commission stating that there could be no State aid in repairing the road on Washington street, Burlington, as there were no funds for this work.

The South Jersey Port Commission sent a communication inviting suggestions for the improvement of transportation facilities along the riverfront. On motion of Freeholder Lippincott the clerk was instructed to acknowledge receipt of the communication and to express the appreciation of the board for the commission's offer of cooperation.

J. B. Troth, speaking for the Mount Holly Athletic Association, asked for and was granted permission to construct a wading pool in the rear of the court house and adjacent to the public playground.

The pool will be about 50x50 feet, and will be maintained by the association.

Two bids were received for the installation of a central heating plant for the county building at New Lisbon. John Black and Sons of Trenton, bid \$16,465, but the contract was awarded to the Worrell Engineering Company, of Moorestown, whose price was \$15,595.

A resolution offered by Freeholder Lippincott that the balance due Samuel Bodine for work done at the almshouse be paid, the work having been accepted, was passed. The amount was \$727.25.

Bills for the various departments were ordered paid as follows: Roads \$4,981.74; bridges, \$1,449.97; buildings, \$9,087.23; public affairs, \$3,829.57; finance, \$2,325.92—total, \$17,534.45.

WILL ENTERTAIN HERE

University of Pennsylvania Quartet
Which will give a Grand Musical Concert in the Palmyra High School Auditorium Saturday evening under the auspices of the Palmyra Club, of the Epworth M. E. Church. The members are, left to right—John J. Colgate, first tenor; Clyde R. Danner, second tenor; W. Lawrence Curry, accompanist; E. L. Frederick, baritone; Leon T. Moore, bass; Pauline V. Waters, soprano. The quartet will be the singing artists. This splendid musical combination is very popular with Philadelphia audiences and has given many delightful concerts.

WORK STARTED ON GRAVELLING STREETS

Pocket of Fine Gravel Found at Hyltons. Work to Be Pushed

On Monday morning the Riverton highway department started the work of top dressing the streets of the borough with gravel. The borough truck is doing the hauling, assisted by John Denner's fleet of trucks. By Tuesday night a considerable portion of Lippincott avenue, between Broad and Fourth streets, had been covered.

It is the intention of William B. Lynch, head of the department, to go right ahead with the work, and a larger force of trucks may be put on in a few days.

Last year a survey was made of the gravel pits at Hyltons but the material did not quite meet the requirements of the department. Recently, however, a new pocket was found which contains gravel suitable for building roads.

The gravel is being put on from two to four inches thick, extending from curb to curb.

Freeholders Have Quiet Meeting

No Excitement, Little Business; Worrell Gets Contract for Heating Plant

The meeting of the county Board of Freeholders last Friday was utterly devoid of excitement, but a single disturbing incident occurring to mar the serenity of the occasion. Nor was much business transacted.

Lloyd Wright offered a resolution protesting against the discontinuance of the Medford-Mount Holly branch of the railroad and it was unanimously passed without discussion.

A communication was read from the State Highway Commission stating that there could be no State aid in repairing the road on Washington street, Burlington, as there were no funds for this work.

The South Jersey Port Commission sent a communication inviting suggestions for the improvement of transportation facilities along the riverfront. On motion of Freeholder Lippincott the clerk was instructed to acknowledge receipt of the communication and to express the appreciation of the board for the commission's offer of cooperation.

J. B. Troth, speaking for the Mount Holly Athletic Association, asked for and was granted permission to construct a wading pool in the rear of the court house and adjacent to the public playground.

The pool will be about 50x50 feet, and will be maintained by the association.

Two bids were received for the installation of a central heating plant for the county building at New Lisbon. John Black and Sons of Trenton, bid \$16,465, but the contract was awarded to the Worrell Engineering Company, of Moorestown, whose price was \$15,595.

A resolution offered by Freeholder Lippincott that the balance due Samuel Bodine for work done at the almshouse be paid, the work having been accepted, was passed. The amount was \$727.25.

Bills for the various departments were ordered paid as follows: Roads \$4,981.74; bridges, \$1,449.97; buildings, \$9,087.23; public affairs, \$3,829.57; finance, \$2,325.92—total, \$17,534.45.

Gershon Wheeler, son of Mr. and Mrs. William Wheeler, and well known in Riverton, died on Monday, April 12, in a New York Hospital, following an operation. The funeral services were held at his late residence in New Brunswick last afternoon, and interment was made in Old Fellows cemetery, Burlington, where his father is buried.

Local People Do Heroic Work Aiding Victims of Delair Wreck

Doctors, Policemen, Nurses, Firemen and Ambulance Play Big Part in Rescue Work

The wreck of the "Nellie Bell" at Delair early Thursday evening of last week called into play all the first aid relief and rescue facilities of both Riverton and Palmyra. The Palmyra and Riverton fire companies and the physicians from both towns did splendid work among the victims of the wreck, and were ably assisted by the two visiting nurses and the head nurse from the Kleckhefer Convalescent Company.

Dr. H. B. Mark, H. W. Bauer, Francis Voorhis, A. P. Loro and L. Rogers were all on the scene and did much to alleviate the sufferings of the injured by giving them immediate attention.

Miss Betty D. Scanlon, head nurse of the Kleckhefer Convalescent Company, Delair, who resides at 710 Washington avenue, Palmyra, was on the scene immediately after the wreck and immediately attended to the sufferers.

Word of the disaster was flashed to the telephone exchange and the unrecogized heroines of many disasters—the operators, quickly notified the rescuers.

The Palmyra Fire Company, the first to arrive on the scene, quickly went to work assisting the physicians when it found there was no fire fighting to be done. The company would have arrived at the wreck several minutes sooner had there not been a mistake in the location when the alarm was sent in.

The appeal was for assistance at Morris Junction, and naturally, the company made a hasty run to the towerhouse station, which took it over the back roads instead of a route down the Riverroad to Delair.

The Riverton fire company had the same experience as to wrong instructions, but was also soon on the field and ready for action. The search for the victims was the rescue work.

Officer Joseph Rodgers was at the firehouse when word was received for the ambulance for relief of the victims who were being pulled from the tangled mass of wood and steel.

Joe rushed to Riverton, picked up Dr. Rogers and made a record run to Derous Avenue crossing, where the heavy train was piled up. The ambulance was taken from the first aid kit and then as the victims were given temporary relief by physicians on the scene, many of them were rushed to Camden hospitals in Palmyra's community ambulance.

Harold Marshall and Mayor James T. Weart took charge of the ambulance after it arrived on the scene.

The victims, a few minutes before the ambulance arrived, were in a pleasure seekers' mood for the "big ground of the world," were then strewn along the ground. Some were writhing with agony and pain, some dazed from the shock, others unconscious, and scores bruised and lacerated from the flying glass.

First to receive treatment were the more seriously injured who were given first aid to alleviate their suffering during the trip to the hospital. Not until every needy person had been attended to did the Palmyra physicians return to their homes.

On the scene of the wreck they not only gave medical treatment, but also attended to the surgical needs, such as probing for glass and taking stitches in deep gashes.

Visiting Nurses on Scene
The visiting nurses, too, were on the scene and accomplished wonders in the field hospital that was quickly set up.

Although Miss Scanlon was at her home when the train was wrecked, she was one of the first to receive the word. She jumped into her car, made a quick run, and was the first nurse to arrive at the wreck.

"I only did my duty," said the heroine nurse, after administering to scores. "I don't know how many I treated, but I did all I could to alleviate the sufferings of the injured. The workers at the Kleckhefer plant deserve the credit. They were on the scene before I got there and they did splendid work."

WILL FILM "ROMANCE OF RIVERTON" NEXT WEEK

LAWYERS OF 1888 FREE
The Legislation Reference Department of the State Library, following the practice of former years, has issued a Descriptive List of the Laws and Joint Resolutions enacted by the 1888 Legislature. This Descriptive List gives the bill and chapter number of every measure enacted, together with the name of the introducer and a succinct statement of just what the law does.

A copy of this Descriptive List will be sent gratis to any person making application therefor to the State Library at Trenton.

Ambulance Tag Day is Planned

Annual Drive for Maintenance Funds Will Be Made May 8

At the regular monthly meeting held in the Palmyra police headquarters Friday evening, it was announced that Saturday, May 8, is that date of the annual cake sale and Tag Day for the Palmyra Ambulance Association.

George N. Wimer, president of the Ambulance Association, says all residents of the town are asked to donate cakes, buy the delicacies, or do both, if possible, to assist this worthy organization.

There is no organization which is more deserving of support than the Ambulance Association. It stands ready, twenty-four hours of the day, to go on its errands of mercy. Its drivers and nurses willingly and cheerfully donate their service, make many sacrifices, both in their business and social life, to drop any task, pleasure or love rest to rush to the call of this work of humanity.

No charge is made to people of the community for the services of Palmyra's ambulance, which is one of the finest, the last word in modern equipment and comforts for the patient. Persons using the machine may, however, if they can afford and desire to, make a contribution, but the donations do not cover the entire expense of the purchase, maintenance and running costs of such a luxurious ambulance for one such as the people, all of whom may sooner or later have to call the machine, are asked to support the cake sale and tag day to boost funds.

The names of the nurses on their phone numbers for this month are: Mrs. John C. Hoepfner, 601; Mrs. Elias Morgan, 148-M; Mrs. James T. Weart, 309; Mrs. James Lord, 513-W.

Mrs. John Hoepfner, treasurer of the Association, reports recent contributions: Mrs. Haberman, Lincoln Avenue, \$2.00; James O'Connor, Highland Avenue, \$2.00.

NEW FACTORY AT EAST RIVERTON

Automobile Equipment Concern May Put Up Plant to Employ 250 Workmen

Just as The New Era was going to press this morning it was learned that the Automobile Equipment Company, of Camden, is contemplating the erection of a factory at East Riverton, which will employ at least two hundred and fifty workmen. One of the sites under consideration is a plot of ground near Rollins avenue, and adjacent to the old McWhorter farm implement factory.

A short time ago Eugene Borgard, a representative of the company, at that time seeking a suitable location for the factory, learned of the East Riverton proposition, and through the friendly offices of Sherman L. Warren was put in touch with Edward R. Williams, who has been working with the company in the matter.

Representatives of the company will appear before the Riverton Chamber of Commerce at its next meeting.

ENGAGEMENT ANNOUNCED

The engagement of Miss Freda Faranese, daughter of Mr. and Mrs. Anthony Faranese, of Burlington, to William Frisco, son of Mr. and Mrs. Thomas Frisco, of Arch street, Palmyra, was announced Sunday.

Coming Events

- April 17—Concert by University of Pennsylvania Quartet, Palmyra High School.
- April 17—Card Party and Dance, benefit Riverton Baseball Club, P. O. B. of A. Hall.
- April 20—Supper Dance, Christ Church Parish House, Riverton.
- April 23 and 24—What Happened to Jones? Junior Class Play, Palmyra High School.
- April 24—Rummage Sale by St. Agnes Guild of Christ Church, Palmyra.
- April 24—Repeat performance of comedy, "O' My Heart," by Bagdad Young People's Society in Camden Y. M. C. A. Auditorium.
- April 30, May 1—Minstrels, American Legion and Compass Club, Palmyra, High School Auditorium.
- May 2—Ambulance Association Cake Sale and Tag Day.
- May 7 and 8—Comedy, "Miss Somebody Else," by Friends of Ship Circle Class supported by Good-fellowship Class, Palmyra High School.
- May 29—Cinnaminson Home Fete, Moorestown Field Club.
- June 1—Strawberry Festival by St. Agnes Guild of Christ Church, Palmyra.

Everybody Will Be "In It"; All Parts To Be Taken by Local Residents

FIRE DEPARTMENT WILL BE SHOWN IN ACTION

Now Riverton is going in the "movies." Beginning Monday, Riverton will become a miniature Hollywood, and the cameraman will be busy "shooting" everything and everybody, in and about Riverton. However, the "shooting" will not necessarily be painful, and in fact many of us will be "hot" without knowing it while going about our regular daily activities.

The story revolves around the trials and tribulations of a young Riverton couple who meet, and love, and marry, as young people sometimes do, and then live in and around Riverton. The schools in Riverton and Cinnaminson Township will be shown as well as all the children and teachers, the various churches, the Rotary Club Chamber of Commerce Police Department, Railroad Station, Postoffice, Library, Newspaper Office and bus lines showing nearness to large cities as well as the possibilities of development around Riverton.

The Mayor and Council will be invited to take part in the film, as well as the entire fire department, to show the people of Riverton their life and property are always safe with such an efficient fire department as our own.

Edwin Cooper, the director, is more than pleased with the cooperation he is receiving from the various members of the Chamber of Commerce, and is sure the picture will be one that will be remembered and talked of long afterward in Riverton.

Practically all the merchants are participating in the Better Business Drive, this department being handled by Mr. Bernard Piquet, who reports that tickets will be furnished for free distribution to all the merchants behind this drive to "Give Riverton the Preference," and they will place many valuable prizes on display in their windows to be given free to their customers upon the purchase of goods.

This drive is just the beginning of a campaign by this live-wire body of citizens to give Riverton its place in the sun that it deserves. Rehearsals begin Thursday at the Chamber of Commerce Office on Broad street, and the director will be pleased to see some of Riverton's future screen stars appear in the parts of the story.

Ask your merchant for a prize ticket and watch the drive for the valuable prizes they will give. All prizes will be announced in this paper next week, as well as all the people participating in the "Romance of Riverton."

Palmyra High Loses on Track

Haddonfield High is Big Scorer at Indoor Track Meet in Camden

Harold B. "Boots" Lever's Palmyra High School track team, last year's state indoor intercollegiate champions, lost its title to Haddonfield High at the fourth annual indoor track and field meet of the Camden Athletic Association at the National Guard stadia at the Third Regiment Armory, Camden, last Friday night.

Lever's proteges, practically a complete new and inexperienced team, did not cut the figure that Palmyra's cinder path stars did at Newark last year when the state championship was annexed. Palmyra garnered but four and a half points.

Mathews was in a triple tie for second place in the high school high jump event and Hutchins scored second honors in the standing broad jump.

Haddonfield High, led by the brilliant Jim Mowich, state scholastic mile champion, showed its heels to the cream of South Jersey high school in coping the title.

Frances J. V. Ruppert, of Riverton, former Palmyra High star girl athlete, was first to cross the tape in the fifty-yard dash event for girls. Frances, who now stars with the famous Meadowbrook Club, of Philadelphia, is the Palmyra High School girls' track team coach.

Al Leconey, Moorestown's prominent son of Olympic fame, triumphed in the fifty-yard dash invitation event and the open fifty yard dash. Charles Rogers, Penn's scintillating all-around athlete placed third in the fifty-yard dash. The famous Charley Leconey, who won the dash at a victory in the special invitation three-hundred yard race. Leconey scored third in this event.

I. O. O. F. ANNIVERSARY

An interesting event soon to take place on the program of activities of Cinnaminson Lodge, No. 101, is the celebration of the 167th anniversary of the founding in America of the Independent Order of Odd Fellows. As in the past the members of this lodge, also brother members of other lodges residing in town, will attend divine services in a body Sunday evening, April 25th. On Friday evening, the 30th, Ladies' Night will be the feature with one of the finest programs ever arranged for this occasion.

ONCE MORE
"Pag O' My Heart" is to be repeated by the local Baptist Young People in the Camden Y. M. C. A. Saturday, April 24. Enough said! Tickets 50 cents.—Adv.

Palmyra YMCA Captains Named

Drive for County Current Expense Fund Starts Tomorrow

A committee composed of twenty prominent citizens, headed by Leonard R. Baker, chairman, will open a week's campaign to revive interest in Y. M. C. A. activities in Palmyra. For the first time in its history the Palmyra branch is cooperating with the Burlington County committee and will take on its extensive year-around program.

The community is asked to support the movement and help the committee raise its quota of \$1000 which will provide interest for many of the men and boys of the town. The plan is to raise the fund with cash donations and subscription pledges.

Chairman Baker says the movement will be of a great benefit to the townpeople, especially the youth. Many Palmyra boys, he says, will attend the new "Y" camp near Medford this summer. The new camp is situated in one of the most desirable locations in the section, will be under the supervision of trained instructors, experienced boys' workers and will provide an ideal vacation center for the lad.

Mr. Baker briefly outlined the many advantages the Palmyra group will enjoy in taking on the extensive County program this year.

He says there will be lectures of deep interest, the physical development of the members will be cared for by special training and exhibitions and there will be many attractive social programs presented.

Should Palmyra and Riverton meet the anticipated success in their drives, the Twin Cities will in all probability be given access to the services of a paid part-time secretary, which is a big boom to work of this character.

Mr. Baker has enlisted the following captains in the drive which will be held from April 16 to 23:

Team No. 1 Harry Strang.
Team No. 2 Thomas VanOrsen.
Team No. 3 James H. Hartley.
Team No. 4 Chester Watson.
Team No. 5 Harvey G. Fisher.
Team No. 6 Charles A. Dietz.
Team No. 7 Clifford B. LaForce.
Team No. 8 William T. J. Co.
Team No. 9 William J. McConnell.
Team No. 10 George N. Wimer.

These Captains and their workers plan to attend the Campaign Inaugural Dinner at Mount Holly, Friday evening, April 16th.

WORK ON BOULEVARD

Building of New Palmyra Street to Start at Once

Work will be started immediately on the Palmyra boulevard from Elm avenue to the disposal plant pumping station, Mayor James T. Weart announced.

The work will include removing trees along every street where the boulevard passes, the construction of crossings and the filling in and grading of the new driveway.

Immediately after completion, the boulevard will not be open to travel and the soft dirt will have to settle and be followed by the re-filling process. The public will be able to use it before the end of this year, however, promises the mayor.

This is the opportune time to do the work, says Mr. Weart, as there is an abundance of available soil from the King development at the present time which will only entail the cost of hauling.

The boulevard will start at Elm avenue just below 4th street, running on an angle, but also in a direct line to the pumping station. Later it will be continued to the river.

WILL REMOVE PERIL

John S. Warner Gives Permission To Round Off Dangerous Corner

At the meeting of the Palmyra Chamber of Commerce Tuesday evening, announcement was made that John S. Warner, the new owner of the former Cook store property at Broad and Chestnut avenues, had given permission to the borough to take as much off the corner of his property as necessary to eliminate the dangerous traffic curve there.

The borough has been endeavoring to bring about this improvement for years, but had never been able to obtain the consent of the previous owner.

Owing to the swing that Broad street makes around the railroad station, the corner at the corner has heretofore been a great menace to west bound traffic, as the street virtually rounds into the curb at this point. Automobiles have frequently run upon the sidewalk due to this condition and the corner has always been a hard one for fire trucks and ambulances to negotiate at the rate of speed they travel.

It is understood that the Borough Council will proceed to eliminate the hazard at once and everyone is quite thankful to Mr. Warner for his generosity.

OPERA CONTEST

Owing to the large number of operas that have been received in the Musical Prize Competition being conducted in connection with the Sesqui-Centennial International Exposition to be held in Philadelphia, June 1-December 1, the judges have announced they will be unable to make public the name of the winner of the \$5,000 award on May 1. The contest closed on March 1, and thirty-two operas were submitted.

The judges of the contest are Alexander Smallens, conductor, Philadelphia Civic Opera Company; Josef A. Pasternack, director of music, Victor Talking Machine Company, and Richard Hageman, conductor, San Francisco Opera Company.

It is expected the winner will be announced in the early fall.

PALMYRA P. T. A.

Big Program Arranged For Next Monday Evening

According to an announcement by Mrs. Charles Whitmer, president, of the directors of the Palmyra Parent-Teacher Association have arranged a very attractive program for the regular monthly meeting which will be held in the grammar school auditorium, Delaware Avenue, Monday evening, April 19.

Mrs. Arthur Hagston, of Riverton, a very interesting speaker, will deliver the address of the evening. Mrs. Hagston is the chairman of the Burlington County Council of the Parent-Teacher Associations.

The program will also include a soprano solo by Mrs. Joseph J. Siddall with a violin obligato by her husband. Mr. Siddall will also play a violin solo and there will be a baritone solo by Captain Nelson G. Bond.

Mrs. Whitmer says a large attendance is requested. Especially the fathers are asked to turn out in large numbers as the meeting night has been changed to the third Monday of the month for their benefit.

Plans are being made to meet the second installment of \$125 on the stereopticon views the P. T. A. purchased for use in the Palmyra schools. Any contributions will prove very acceptable, says the president.

Refuse Release of Rosemendo

Riverside Man, Charged With Fatally Wounding Gilbert, Must Stay in Jail

Attorney V. Claude Palmer, representing Pasquale Rosemendo, of Riverside, charged with inflicting a knife wound which caused the death of John Gilbert during a row in the former's pool room, last Thursday argued for the release of his client on bail, making the claim that neither of the commitments charged the man with murder.

The cutting took place on March 14, when Rosemendo was committed for atrocious assault and battery, and when Gilbert died on March 18, a second commitment was sent through by Squire Hechel, of Riverside, which stated that Gilbert died as the result of knife wounds inflicted by Rosemendo.

The Court refused the application and Mr. Palmer was allowed an exception. A nap on a railroad train cost John M. Frick, an aged resident of Moorestown, \$50 when he appeared before Judge Slaughter for sentence.

Frick, who claims he has to have whiskey for a stimulant, purchased two pints in Philadelphia on December 24, and then boarded the train for his home, but he fell asleep and awakened in Mount Holly, where the local police found him wandering around with the bottles protruding from his pockets.

Robert Farr, of Mount Holly, a petty thief who has given the police considerable trouble, had already pleaded guilty to stealing a job of brass parts, etc., from the Burlington County Canvassing Company's building. He has been reporting to the Court weekly for the past few weeks, showing that he is working and trying to go straight.

Farr was placed on probation for three years and was given six weeks in which to pay the costs of \$30.

William M. Craft, of Columbus, charged with desertion and neglect of his wife and four children, had his case nolle prossed. It was stated that while a reconciliation had not been effected, Craft was supporting his family.

Nathan Vogel, of New York, charged with breaking, entering and

"Silver" Starter Makes Good

In a series of tests recently conducted by the United States Naval Air Service at its Pensacola, Florida station, a Ford motor starter proved that it was almost as efficient as hauling in aerial targets as it is at the more familiar task of cranking a Ford car. In fact, according to engineers of the Naval Air Service, the Ford unit proved more powerful than any of the truck or automobile starter motors employed in the government experiments.

larceny at Moorestown, pleaded guilty and will be sentenced April 15.

AMANDA T. CONYER

Amanda T. Conyer, colored, 73 years old, died at her home, 11 Market Street, West Palmyra, Saturday. Funeral services were held at the West Palmyra Methodist Church Tuesday afternoon and interment was made in the Wrightsville Cemetery with Funeral Director Frank A. Shover in charge. It was one of the largest colored funerals ever held in this section.

Trout Limit is Changed to 15

Sportmen's League Streamers Fact is Suggestion for "Happy Season"

Emphasizing the fact the legislature has changed the daily bag limit on trout from twenty-five to fifteen, the New Jersey Fish and Game Conservation League has sent out, through its secretary, J. S. Schwinn, of Newark, suggestions prompted by the wish that the coming trout fishing season will be a happy one for everyone. The season opens Thursday, April 15, and will continue to July 31, inclusive.

Some of the league's "happiness" suggestions are as follows: "Ignorance No Excuse." "If you go out with a party on the opening day, or any other, be sure they all know the daily bag limit has been changed to fifteen. Our old friend, Ignorance of the Law, is no excuse if anybody gets in trouble, you know."

"If you catch a trout so small that it would be necessary to measure it to determine whether or not it is over the legal length of six inches, give it the benefit of the doubt and carefully put it back."

"Be careful about trespassing on posted land. A written permit is

required to enter it. Land-owners, however, aren't as black as some folks would have us think they are and usually will gladly respond to a courteous request. Try it—whether or not the land is posted.

"The average game warden is a pretty good scout. He takes his life in his hands every time he goes out to enforce the laws that are for the benefit of all of us. Let's co-operate with him to the limit."

Need Large Hook

"The only size of trout there's any satisfaction in catching will take a fairly large hook. The minimum hook-lands the kind that are usually killed when the fishermen tries to release them. No. 3 Sprout, Snook or Carlsle are plenty small enough."

"A dry hand is almost certain to cause the death of the trout with which it comes in contact. Therefore, if you're going to free a fish wet your hands before you touch him."

"A tiny tube of rubber cement and a few rubber patches won't take up much room in your pocket and will come in mighty handy if your boot springs a leak."

Sell Klan Headquarters

Elkwood Park, near Long Branch, purchased by the Ku Klux Klan for \$30,000 about a year ago, has been sold to a development company for \$190,000, it is said.

Elkwood Park has been the state headquarters of the Klan and it is expected that the site of the Maroon Wireless Station at Belmar, also owned by the Klan, will become the headquarters in the future.

KAYNEE SHIRTS and BLOUSES FOR BOYS

Kayne blouses fit a boy as though custom made. They are designed for boys; their lines conform to his figure. Any mother, too, can see the economy of Kaynees. The materials are strong and wear well. The colors are sun and tub fast—they can be boiled without fading. The buttons are sewed on to stay and the seams and stitches withstand the tugs and pulls they are bound to get. The careful workmanship of each detail will be a joy to you.

The telephone has just passed its fiftieth birthday

This half-century of history has been marked by extraordinary progress. The service has been extended into a Bell System of close to seventeen million telephones. Its facility and dependability have reached a height which to the user seems commonplace by very familiarity.

But a review of these fifty years emphasizes most the necessity for further progress in pace with the requirements of the future.

In New Jersey even the most remote towns have their telephone service, and thousands of lines radiate off through the back-country, bringing it into the universal community which this service creates.

But this was so ten years ago; and, yet, since 1916 the number of telephones has almost doubled.

New users and new uses continuously push this growth forward. New developments of equipment and method make possible a constantly increasing usefulness of the service, despite the magnifying complexity of the great switching system which is the mainspring of it all.

The "pioneer" era of telephony was inspiring in its overcoming of great obstacles. But each year calls for new and just as essential pioneering in the growing intricacies of so complex a service mechanism.

County Council of Business Girls Holds Meeting in Moorestown

Banquet is Planned to Which Every Business Girl in the County Clubs Will be Invited

The Burlington County Council of Business Girls met at the home of Mrs. Henry F. Stockwell in Moorestown on April 6th. Twenty-five members were present. Miss Lucy Wild gave an interesting report of the Business Girls Conference held in Chester in March. Miss Ruth King and Marguerite Lippincott told of the plans for the summer conference to be held at Silver Bay and Newton Hamilton in July. Every business girl club in the county is planning to be represented at these conferences.

Miss Marguerite Lippincott of Moorestown, will represent the business girls of Burlington county at the National Convention in Milwaukee, Wisconsin, April 21st-27th.

The County Council is planning a banquet to which every business girl in the county clubs will be invited. Miss Harriet Cunningham, National Secretary for Business and Professional Women, will be the speaker.

Girl Reserves
A Girl Reserve club was organized at Stevens on Friday afternoon. This group of girls will meet in the Stevens School building. Miss Helen Hoff, Girl Reserve Secretary, talked to the girls about what it meant to be a Girl Reserve, and the opportunities that it could bring to a girl.

The officers were elected as follows: Helen Van Sciver, president; President: Meriel Phillips, Vice President; Dorothy Horton, Secretary; and Evelyn Brock, Treasurer. The adviser of the club is Miss Elizabeth Brock. The girls discussed the things they wanted to do and planned their program for April and May.

Twenty-five junior high school Girl Reserves of Burlington liked on last Monday from YVCA building to Sylvan Lakes. An hour of end-ball and bat-ball made a great deal of fun as well as an appetite. After the games, wood was gathered and it was not long before a fire was in full blast. Weiners and marshmallows were roasted. Pickles, olives, and fruit completed the meal which was enjoyed in a way that only out of door eating can be enjoyed.

Riverton Group
At the meeting of the Riverton-Palmira grade school Girl Reserves on Thursday evening, it was decided to divide the group into two triangles. Miss Grace Davis, of Riverton, is adviser of the Riverton group, and Miss Townsend, a teacher in the Palmira High School, is adviser of the Palmira group.

In the fall this club started with a small group of girls, but the membership has increased each week until it has been necessary to secure two leaders and have a club in each town.

Even bad weather conditions and sickness did not discourage the Chatsworth Girl Reserves who have been having regular meetings all winter and have been doing very good work. These girls are working for honors whereby they may

LET RADIO DEVELOP NORMALLY

The success and the very existence of radio broadcasting depend upon the general public that owns and uses receiving sets. The sending stations give them the sort of entertainment and instruction they want, or can be educated to want.

In this country, the Government interferes with and manages radio much less than in European countries. This, Secretary Hoover holds to be very commendable. He declares himself against any censorship on the broadcasters, except such as can be exercised by the listeners-in through the ordinary legal agencies.

It is recognized that all problems of distribution of equipment and broadcasting cannot be solved at once, and care should be taken not to move too fast in establishment of rules.—Industrial News Bureau.

win a Girl Reserve armband, and eventually the Girl Reserve ring. On Wednesday of this week the girls are planning a hike and meeting out-of-door where they will have a program on "Trees."

Artisans to Hold Great Initiation

Thousands of South Jerseymen to Attend Rally at Camden Convention Hall

Thousands of residents of South Jersey have been invited to attend a huge rally which will be held in Camden, at the big convention hall, on the night of April 25 by the Artisans Order of Mutual Protection. One of the features of the big meeting will be the initiation of a large class of candidates for membership. This class will be formed of prospective new members of the several assemblies and will be initiated in a body. Prominent Artisans will conduct the ceremonies. Several of the assemblies, notably Palmira and Camden, are expected to have tremendous classes.

Goldy and Dusty, the famous radio twins who have entertained millions with their spirituelles and banter, will head the program of an elaborate entertainment which will furnish the public end of the program. The initiation has been called to take place before the open season gets underway, and from that time on the program will be devoted entirely to enjoyment.

Every Artisan in South Jersey has received invitation cards which he is presenting to friends who are from eighteen to fifty years old. Only men will be admitted and each applicant for admission must have

an invitation card. Distribution of prizes will be among the features of the meeting.

While audience is assembling the uniformed units of several Artisan assemblies in Philadelphia will be parading through Camden. They will be on hand to help in the entertainment which has for its prime purpose the revelation, to men not Artisans, just what kind of persons belong to the order. The rally will arrive at the hall while the initiation is in progress and will then be ready for the entertainment itself.

Included in the parade, which is scheduled to form at the Market street ferry at 7:30 p. m., will be the famous Artisan brass band, the sitting band of Progressives and St. John's assemblies, the marching club of Progressives, the patrol of St. John's and the mounted patrol of Northwestern Assembly.

The affair is being given under the auspices of the Jersey Artisan Booster Club and the Artisans Extension committee, of which John Lippincott is chairman. The chairman of the subcommittee which is directing the activity is J. Horace Finney, of Palmira. Other members of the extension committee include Robert G. Watt, William E. Decker, Fred Cunningham, of Haddon Heights, and Leroy Poole. The representatives of the Jersey Artisan Booster Club on the committee include Harman F. C. Kremer, Laurel Springs; Victor R. Cramer, Camden; A. R. Underdown Jr., Haddonfield; William J. Walther, also of Haddonfield, and Walter Charriere, of Collingswood. Included in the committee, also, is Harry Kendig, chairman of the committee on units of the Most Excellent Assembly of the Artisans.

"THE IRON HORSE"
Palmira Police Department Has a New Vehicle

"Have you written anything about our iron horse?" Chief Beck asked the reporter the other day. "What iron horse?"

"Why the Palmira police department's iron horse," replied Morry. "Do you ride it?—Does it have a saddle?" were the next questions.

"Sure we ride; that's what it's for," continued the officer.

Then, he went on to explain. The iron horse is a nice shiny new bicycle recently purchased as part of an auxiliary conveyance for the police department. If one officer is off answering a call in the police car (which, by the way, just received a coat of paint and looks great all dolled up for spring) the other one on duty may hop on the bicycle should a second call be received.

At night one of the officers can patrol the residential section of the town on the iron horse while the second officer takes care of the business section and stays in the immediate vicinity of the police station to answer calls in the automobile.

Some "wise guy," as a slang phraseology puts it, says he is waiting to see one of the officers pushing the iron horse up the street with a drunk in custody—on the handle bars.

Rancocas Rum Case Postponed

Hearing of Special Prosecutor Appar Comes Fourth Delay

Hearing of the Rancocas liquor case, in which eleven are indicted, was postponed for the fourth time Monday by Judge William A. Slaughter, in the Burlington County Court, Mount Holly.

Repeated postponement of hearings has brought a sharp statement of protest from J. Mercer Davis, counsel for seven of the defendants, and an equally tart reply from Deputy Attorney General W. Holt Appar, who has been designated as a special prosecutor in the case.

"We are sick and tired of these delays," said Mr. Davis. "It looks to me as though the special prosecutors are trying to 'hid' the public."

Mr. Appar was ill at his home in Trenton Monday, and it was that fact that led to the postponement of hearing until April 26. He expressed both surprise and indignation when informed of the statement by Mr. Davis.

"I did not think," he declared, "that a gentleman of Mr. Davis' standing of the bar would stoop to such unreason. The prosecution is well able to take care of itself and in due time the cases will be moved."

Mr. Appar then explained that he had been named to act as special prosecutor on short notice and had found it impossible to prepare his case for presentation at an earlier date. Being pitted against counsel that is intimately acquainted with all the facts, having been working since last October, Mr. Appar declared that he had no intention of allowing himself to be rushed.

The latest postponement in the fourth to date though only two of the number have been since the designation of Mr. Appar as special prosecutor. He asked for a delay two weeks ago in order to obtain more time for the gathering of evi-

dence and the postponement Monday was caused by an attack of the grip to which he fell a victim last week.

P. H. S. WINS

Baseball Team Opens Season With Victory Over Temple

Despite the unfavorable, chilly weather, Palmira High put a very spectacular touch to the opening of its baseball season as it defeated the strong Temple University High nine 5-4, at the Field Club Park in a thrilling game Tuesday afternoon.

Joe Atkinson, Coach Morse's stellar initial sacker, opened the fracas with beautiful triple to deep left center in the first inning with two on base. A few minutes later Joe was driven home, giving Palmira a three-run lead.

Palmira scored again in the second and was four ahead when the visitors rallied in the third and put over a trio of counters. The local drive was continued in the fourth round when Palmira drove over the last local run. Temple, likewise, scored its last tally in the fourth. During the remaining three innings both clubs tightened up and although the first inning with two on base, neither to muster another tally.

West was on the mound and gave a very creditable performance. The youthful hurler held the City of Brotherly Love boys to four solid bumps and didn't pass a man.

Atkinson capped the evening honors with the triple and a pair of timely singles. Captain Shear, Elsiey, McKee, Bright and Meyers rapped the horsehide for a hit each.

Palmira's lineup presented a majority of veterans which included Quicksall, catcher, Atkinson, Captain Shear, who starred in the center patch last year at second, Bright, whose regular position is behind the bat, at the hot corner and McKee in the outfield.

Galley and Manager McCuen made their debut in the outfield, and Johnny Meyers, the dusky football star, made his premier at short stop and performed in a seasoned manner.

As was to be expected in the opening game, the playing was somewhat loose in spots, but as a

whole, the entire team played bang-up ball and has all the earmarks of a crackerjack combination. The boys were only charged with a pair of errors.

Erasing the chilly air which swept the field, a large enthusiastic crowd helped get what promises to be a season filled with success under way.

Friday the team will travel to Pemberton. The farmers are unusually keen about the diamond sport and take the game very seriously, so are expected to furnish some real opposition for the Morsemen.

WEDS CHIROPRACTOR

The marriage of Miss Sara Eliza, both Altes, daughter of Dr. Howard

Allen, a leading practitioner, of New Egypt, to Dr. Joseph Bowley, a chiropractor, of Burlington, took place at the bride's home recently, the ceremony being performed by Rev. James Cameron, pastor of the Presbyterian church of New Egypt.

The bride was attended by her sister, Mrs. Rachel Cameron, while the best man was Dr. Claude Clements, of Pottstown, Pa.

Following a wedding trip the newly-weds will reside in Burlington where Dr. Bowley enjoys a lucrative practice.

This is the season of the year when the public finds out again what a good thing a primary election is.

THE QUESTION BOX

Sailors' Trouser Convent

Jack, Riverton—Why are sailors' trousers made wide at the bottom? Ans.—They are made thus for convenience. They can be pulled up quickly in any emergency.

Speed of Ostriches

M. H. B. Palmyra—I am told that an ostrich can run as fast as a horse. Is that a fact or am I being "kidded"? Ans.—It is a fact. Ostriches have been known to travel as fast as a mile a minute.

Similar to Japanese and Chinese

Mary Riverton—Do the Koreans speak a language of their own? Or is it Japanese or Chinese? Ans.—The Korean language belongs to the same class of language as the Mongol-Tartar—Chinese and Japanese. It has borrowed words from the Chinese, but in sound differs widely. In grammar it is nearly identical with Japanese.

Good English

George, Riverton—I would like to know when it is proper to use the past participle verb "hanged" and "hung"? Ans.—"Hanged" is used for persons. "Hung" is used for all other objects. For example: The man was hanged; the door was hung.

"Met His Waterloo"—Will you please answer what is meant by the expression, "He met his Waterloo"? Ans.—The expression implies that the person concerned has met an ignominious defeat despite the fact that he has had a continuous successful career in the past. It is founded on Napoleon, whose lifelong successes ended in his downfall at the Battle of Waterloo.

May 30, 1806

C. L. J. Palmyra—Will you please settle an argument by stating when and where Christopher Columbus died? Ans.—Christopher Columbus died at his home in Spain on Monday, May 20, 1806.

Moses Was 120

Agnes, Cinnaminson—Will you please answer in your Question Box how old Moses was when he died? Where was he living at that time? Where will I find it in the Bible? Ans.—Moses was 120 years old at death. He died in the land of Moab, on Mt. Nebo, at the top of Pisgah. You will find the account in the 34th chapter of Deuteronomy.

Mocking Bird Lives in Semi-Tropics W. M. S. Monticello—I desire to ask you what is the native country of the mocking bird? Ans.—The mocking bird is semi-tropical and its home is anywhere the climate is semi-tropical.

Cause of Eclipse

S. K. Y. East Riverton—Will you please tell me what causes the eclipse of the sun and moon at times?

Ans.—When the earth is between the moon and sun in a line the moon lies in the shadow of the earth and so suffers temporary obscuration. When the moon passes between the earth and the sun, the latter is at certain points on the earth obscured by the dark body of the moon.

Get Shock Absorbers

Daddy, Palmyra—What are we to do if ladies' skirts get any shorter? Ans.—Just equip yourself with shock absorbers.

Springfield, Ill.

Betty, Cinnaminson—I wish to ask through your paper where Abraham Lincoln's tomb is located? Ans.—In his home city—Springfield, Ill.

Watch Your Step, Though

Easy, Palmyra—Can you tell me how I can get rich quick without much work? Ans.—Yes. Get a patent on a suitcase with a false bottom that won't leak.

No, But Why Do It?

W. A. R. Riverton—Is there any penalty for sending anonymous letters through the mails? Ans.—No, unless it carries a criminal threat or otherwise contains unlawful matter. Then it is punishable according to the degree of the offense.

Letters on Coins

P. A. T. Delair—Will you please answer in your question column the meaning of single letters found on some United States coins, while most of them have no such letters? Ans.—Those are the mint marks. "C" was Charlotte, N. C., which was discontinued in 1861; "D" is Carson City, also discontinued in 1893; "P" is for Denver, Col., since 1893; "S" is for San Francisco, and these not marked are coined in Philadelphia.

Mrs. Grace Kimball and daughter, Miss Harriet, who have been visiting Mr. and Mrs. Paul Barnhart, left on Sunday for their home in Boston, Mass.

Mr. and Mrs. Coffin, and daughter, who have been spending the winter with her parents, Mr. and Mrs. Southamer, left on Sunday for their home in Yakima, Washington.

Among the newcomers to Riverton this week are Mr. and Mrs. John Bauer, who have moved to 411 Elm avenue, and Mr. and Mrs. E. Weber, who are occupying 108 Morgan avenue.

Mrs. Russell Jermon attended a surprise shower Saturday evening on Miss Muriel Seal, whose marriage to William Rudolph, of Riverton, will take place on Saturday, April 24.

Mrs. Albert Bunn, of Kew Garden, L. I., returned Wednesday morning after spending a week visiting Mrs. R. F. Corry and Mrs. H. M. Morris. Mrs. Bunn is a former resident.

The Board of Managers of the Cinnaminson Home are giving a tea at the home on Thursday afternoon, April 22nd, and cordially invite the friends of the home from four until half after five o'clock to inspect the home. Tea and sandwiches will be served.

Mrs. Benjamin S. Sanderson, Jr., and sons, Benjamin 3d, and David, of North Tonawanda, N. Y., are the guests of her parents, Mr. and Mrs. H. P. Corry for two weeks. They expect to return Friday evening.

A number of friends have entertained for Mrs. Sanderson.

A supper dance will be held in Christ Church Parish House, Riverton, on Tuesday evening, April 20th, at 7 o'clock, for the young people of the parish and their friends. Single tickets, \$1.00 may be purchased at Mrs. Alfred Smith's store by Saturday, April 17th.—Advertisement.

Eric Von Stroheim's "The Merry Widow," with Mae Murray and John Gilbert and thousands of players, scenes of wild revelry in night-time Vienna, tender, throbbing romance, madcap adventure and unbelievable beauty is the feature at the Broadway Palace Theatre Monday, Tuesday and Wednesday evenings.

Last Monday morning a consignment of twenty-five portable garages arrived on the siding at the Riverton freight station, and there was much speculation as to where they were consigned to. It turned out that they are shipped to Riverton for redistribution by Steedle's Express within a radius of twenty-five miles of Philadelphia.

If you are thinking of doing over your kitchen, or any other room this spring, don't decide on what paint you will use until you have investigated "Barreled Sunlight" at Elms Hardware Store, 17 West Broad Street, Palmyra. Or call Riverton 378 and Mr. Elms will be glad to tell you about the attractive tints you can secure with this paint.

Phyllis Wheatley Y. W. C. A. The Phyllis Wheatley Y. W. C. A. assembled at Mt. Zion A. M. E. Church, Sunday at 2 p. m., where a very instructive and inspiring sermon was preached to them by the pastor, Rev. R. T. Boyd. The text was chosen from Rom. 10:16. A beautiful interpretation of the meaning of Young Women's Christian Association was given by the pastor.

A short program was rendered under the leadership of Miss Emily Davis after which a collection was taken which was for the benefit of the church. This was presented by Miss Dorothy Johnson, a member of the Senior Class of Palmyra High School. Remarks were made by the President, Mrs. Eleanor J. Young. Her talk was based on the purpose of the Y. W. C. A. and the duty of each member.

GEORGE RICHMAN HENRY George Richman Henry died at Detroit, Mich., Sunday, April 11. The deceased was son of the late Matthew Henry and Caroline Henry, and brother of Mrs. Charles Henry.

"LOYALTY MONTH" AT CALVARY CHURCH

"Loyalty Month" at Calvary Church begins April 15th and ends May 31st. Next Sunday, April 18, the pastor will preach on "Loyalty to Christ and to His Church". In the evening, "Women's Night" will be observed. The speaker is one of the most prominent women in the Presbyterian Church, Mrs. Margaret E. Hodge, vice-president Board of Foreign Missions of the Presbyterian Church. There will be music by the women. The women will occupy the front seats. If any remain, the men may have them. There will be a sermon for the children at the morning worship. Hours: 11 a. m. and 8 p. m.

Loyalty in the Sunday School is urged with every scholar in very class in attendance at the service at ten o'clock. Loyalty to the Christian Endeavor at 7:15.

On Wednesday evening April 21st Rev. Arlen J. Myshken, of East Orange, will address the midweek service. This is the first of the Loyalty mid-week services. Every member is urged to loyalty.

K. OF C. PARTY

A diamond ring, the prize for the highest score at the card party and dance given Friday night by the St. Joseph's Council, Knights of Columbus, of Palmyra and Riverton, was won by Harry C. Sim, of Riverton.

The grand prize, a gold watch, was won by L. A. Bauer, of Broad street, Palmyra. Other winners were:

Pinocchio, Mrs. George Frohoffer; suchers, Mrs. Joseph Shaffer.

This was the best attended function ever given by the local K. of C., according to Joseph F. Yearly, grand knight.

The committee in charge was composed of William J. Beck, chairman, Joseph F. Yearly, Thomas McCrosson, John Ford, James Goodwin, Andrew J. Pfaff, Harry C. Sim, Joseph Schuler, Sr., Joseph Schuler, Jr., Horace Richman, Frank Stroheim and Harry Williams.

MRS. ELIZABETH TRICKER

Mrs. Elizabeth Tricker, widow of William Tricker, died April 12 at her home in Arlington, N. J. Mrs. Tricker lived in Riverton for about ten years and has many friends here. Interment was made on Thursday, April 15.

The deceased leaves three boys and three girls: Mrs. William C. Moore, Mrs. Florence Tricker, Mrs. J. M. Coddington, Charles, William and Rupert Tricker.

Funeral services will be held at 2 p. m. on Saturday, April 17, at the residence of Mrs. J. M. Coddington, 17 West Broad Street, Palmyra.

The New Oatmeal

Kellogg's New Oats, the new kind of Oatmeal, of which you received a sample package last week, can now be bought

Palmyra Notes

Charles Wison, of Washington Avenue, has purchased a Humvee sedan.

Mrs. E. V. Standen spent Tuesday in Wayne, Pa., visiting her son, Dr. Standen.

Mrs. Robert Dodge, of Wilmington, Del., was the guest of Mrs. James Ryan on Tuesday.

Mrs. Elvin Powell will entertain the St. John's Church at her home this Friday evening.

Mrs. C. C. Green, of Mount Pleasant, spent Tuesday visiting her son, Mr. and Mrs. Stanley Green.

Mrs. and Mr. Arthur Smyth have returned home after spending the winter in Florida and Texas.

Mrs. Frank A. Snover has returned home after spending a week with her mother in Stroudsburg, Pa.

Mrs. Harry Kemmerle, Sr., spent Tuesday in Rocking visiting her daughter, Mrs. Raymond Weber.

Mr. and Mrs. Edwin Seel, and family, spent the weekend with his brother, George Seel, of West Philadelphia.

Miss Katherine L. Hirsch, of New York, spent the weekend at the home of her parents on Highland Avenue.

Clayton Weikman, of West Broad Street, Miss Helen Tice and Albert Tice, of Riverside, motored to Vineland Sunday.

Mr. and Mrs. Albert Smith, of Vineland, spent the weekend with her parents, Mr. and Mrs. Harry Kemmerle, Sr.

Meachen W. Willis, of Columbia Avenue has purchased a new Chevrolet coach through the Broad Street Garage and Sales Co.

Miss Margaret Hoepfner, of Overbrook, spent the weekend in Palmyra as the guest of Mr. and Mrs. John Hoepfner and Mr. and Mrs. Elwood Hoepfner.

The cast of the Baptist Young People's play, "Peg O' My Heart," was entertained at the home of Miss Helen McConnell on Parry Avenue, Wednesday evening.

Mrs. Henry Stiles, of Washington Avenue, entertained Saturday evening in honor of Miss Hoepfner, of Philadelphia, and the Misses Strong and Marland, of Long Island.

Other organizations in the Twin Cities are requested to refrain from holding cake sales Saturday, May 4, the date of the annual Ambulance Day when the deserving organization will conduct a cake and tag sale.

"The Merry Widow," advertised as the "romance of romance," and "the glorious, interesting, story of The Merry Widow," featuring Mae Murray and John Gilbert, is showing at the Broadway Palace Theatre, Monday, Tuesday and Wednesday evenings.

The cake sale conducted at Bush's corner Saturday by the boys' basketball team of the Palmyra High School was very well patronized and the court stars report it was a huge success. The profits, which are estimated at \$50, will be used to purchase suitable awards for the players.

Riverdale Castle, K. G. E., will stage a baseball tournament with the Palmyra Castle at Society Hall, Palmyra, Wednesday evening, April 11. Harry Storick and Walter H. Horner, who are in charge of the tournament, are anxious that a large crowd of the Palmyra Castle members attend.

Augustus L. Wilson, who underwent a very recent operation at the Lankenau Hospital, Philadelphia, three weeks ago, returned to his home on Lincoln Avenue Saturday. Although still very weak, Mr. Wilson is in excellent spirits and his physicians feel that he is on the road to a speedy recovery.

Tickets for the combined minstrel show of Post Rodgers, American Legion, and the Compass Club may be obtained from Clinton Gibson or Frank Parker. The show promises to be one of the best of its kind ever given in the Twin Cities. The program will include a classical rendition of the Charleston, novelty acts, solos, quartet numbers and end men and a chorus that will be hard to beat.

George N. Wimer reports that the Men's Y. M. C. A. Bible Class meeting last week was very enjoyable and well attended. The meetings, which all men of the town are urged to attend are held in the Palmyra Y. M. C. A. Hall, Broad Street and Garfield Avenue, every Sunday afternoon under the supervision of a "Y" committee consisting of Mr. Wimer, Leonard R. Baker, and James H. Hartley. James Thompson is the teacher and always has a worth-while message.

The 53-acre Bauer farm at the corner of Highland Avenue and Burlington Pike was sold this week to the Lammington Realty Company which was recently organized with J. Lawrence Lippincott as president. An additional quarter-section of the farm, 13 acres, has been sold to Edgar F. and Arthur H. Shaver. It is understood that the buyers plan to develop the tract in the near future. The original sales were made through Edgar A. Lamm and the latter was perfected by the Palmyra-Riverton Realty Company.

CAMP 23

Camp 23, P. O. S. of A., has planned many interesting features for the members and many new propositions have been received in the last four weeks.

The Booster Committee met and planned for the anniversary in May and assures the members something different this year. It also urges the members to attend the meetings on Monday evenings and take part in the good times.

On Monday evening, April 26, a large class will be initiated and as a special feature we will have the uniformed Commandery team of Delaware perform the initiatory work. This team needs no introduction as it has made a record during the past months throughout Burlington County.

A committee has been appointed to arrange a visitation to Camp 25, Merchantville, and assist in the dedication of its new building. Be prepared to go with us when the date is announced.

Publicity Committee.

FOR SALE—Modern bungalow, 10 rooms and bath, all conveniences, cement walks, shade and fruit trees, two-car garage. Desirable location. See view of river. Address Box 456, Delaware, N. J. for further particulars.

METHODIST CHURCH

"Widely" Speaker and Chorus of Fifty Boys Will be Feature

At the morning service of the Church this Sunday the Rev. R. S. Hartman, of Newark, speaking in behalf of the Acadia League will deliver an address on the Wet and Dry Situation.

Another feature, which promises to be quite out of the ordinary, will be selections by a chorus of fifty boys from Philadelphia and its suburbs under the direction of the Rev. H. E. K. Whitney. The chorus includes many youthful soloists of note among whom are Joe Holland, the boy tenor who possesses a remarkable voice, and Larry Johnson, soprano, who has achieved considerable fame in the musical world.

The Rev. Mr. Whitney recently returned from the West where he developed these splendid boy chorals. The special musical numbers are expected to attract a large crowd to the morning worship.

A beautiful service taken from some of the most popular hymns was conducted at the devotional service of the Epworth League by Robert Coward last Sunday evening. Each meeting is full of interest, many new and unusual ideas are injected into the programs and all young people will find it worth their while to become a regular attendant at the League meetings.

Sunday School, with classes for all ages, extends a welcome to all. Prayer meeting Wednesday evenings under the direction of the pastor and class meetings in charge of Carl Peterson are held Friday evenings.

The Rev. J. B. Whitton will have "St. Matthew's History and Teachings of Jesus Christ" as his subject for his discussion before the Wesleyan Men's Bible Class at 10 o'clock Sunday morning.

DECLINES POST

Mrs. Hoepfner Gives Up Treasury After Seven Years Service

After seven years of faithful and untiring service, Mrs. John Hoepfner declined re-election as treasurer of Covenant Chapter, Eastern Star, Palmyra, at its annual election of officers and banquet in P. O. S. of A. Hall Tuesday night.

During her period in office Mrs. Hoepfner also established an attendance record which will be difficult to better. In the seven years she never missed a meeting. The meetings are held the first and third Tuesday of each month, with the exception of July and August, when the Chapter closes for the summer vacation.

The newly elected officers of the Chapter are: Mrs. Margaret, worthy matron; Edward H. Flagg, Jr., worthy patron; Mrs. Anna Toes, associate matron; Mrs. Alma Evans, conductress; Mrs. Margaret Ryan, associate conductress; Mrs. Julia Bidell, secretary; and Mrs. Evelyn Gibson, treasurer.

The banquet was a very delightful affair and was well attended. The delicious repast was served by the Philanthropic Class of the Central Baptist Sunday School.

The installation of the new officers will be held Tuesday evening, April 27, in P. O. S. of A. Hall.

French and Cochran to Speak at Goodwillship Dinner

Two famous athletes will address the dinner meeting of the Goodwillship Class, of the Epworth M. E. Church Sunday School, at the Hotel Walt Whitman, Camden, Thursday evening, April 22.

The speaker will be Walter "Pit" French, of Moorestown, former West Point star athlete and the Athletic's famous pinch hitter who has won a regular berth in the outfield this year as the result of his timely clouting and "Mickey" Cochran, one of Connie Mack's catchers.

French is a cousin of Leonard R. Baker, teacher of the popular young men's class.

William Rudolph is leaving this week for his summer home at Sea Girt.

Electric Radiator Prices Reduced for Final Clearance

All the best makes. Supplies just that little extra needed on spring mornings and evenings.

PUBLIC SERVICE

FREE THIRTY DAY TRIAL . . . Electric Waffle Irons

Order your waffle iron! Make waffles as you like them and when you want them during the next thirty days. Recipe with every iron.

Should you like to own this electric iron that makes delicious golden-brown waffles? Only \$1.00 cash. Or \$3.00 down—\$1.00 a month.

PUBLIC SERVICE

BAPTIST CHURCH NOTES

Pastor Lockett will have for his sermon subject Sunday morning, "Prayer," and in the evening the title will be "A Seeker After Truth." Both of these services will be inspiring and should be well attended. Last Sunday the attendance at both services was very large.

This evening (Thursday) the business meeting of the Barcoo Class is to be held at the home of William McConnell on Parry Avenue.

Tomorrow evening (Friday) the Weekly Bible Class will go to the Fifth Baptist Church in Camden to hear Dr. Arthur H. Carter, President of the Baptist Union of London.

At the monthly business meeting of the Samaritan Class, held in the church on Tuesday evening, Harry Hough showed the boys a number of pictures and a general discussion of happenings on the other side of the ocean during the year followed.

Mr. Dietz and members of the class invite more young men to join them on Sunday mornings and at the monthly meetings.

TAKE A LITTLE TEA IN YOUR ICE CREAM

High Tea in Frozen Form May Soon Be Innovation in London Drawing Rooms

Give the average Britisher his tea at regular intervals and he cares not who makes the nation's laws—er who writes its songs.

Now, it appears, he is to get it in an entirely new form—tea, flavored ice cream. Selfridges in London, the big department store, recently announced that this new delicacy would be served there this coming summer.

This announcement is the result of extensive experiments made by the Selfridge institution covering a period of about six months. The Selfridge manager declares that the English people will take to the new flavor and that he expects it to become immensely popular, as tea is the national beverage of the British nation.

So far as is known, there has been no attempt to introduce a tea-flavored ice cream in America. We now have a great diversity of flavors, including coffee. It is quite possible, however, that Americans may take kindly to the tea-flavored dainty, when it crosses the ocean.

In the early days of ice cream making we had vanilla and chocolate. Later came the fruit flavors which are so popular today. The Breyer family of Philadelphia introduced fruit flavors in ice cream shortly after the Breyer ice cream business was founded in 1866. These were real fruit flavorings—not extracts.

The innovation was received with great favor by the beaux and belles of that period. The reputation achieved in those days by the Breyers has come down the years until today the Breyer Ice Cream Company is one of the largest in the world.

NABBED FOR FRAUD

Camden Police Arrest Five Men Selling Bogus Tickets for Musical at St. Joseph's Orphanage

Three women and five men were arrested last night as they were about to check out at the Walt Whitman Hotel, Camden, recently, charged with defrauding city officials and business men out of about \$3,000 by purporting to be selling tickets for a musical to be held at St. Joseph's Orphanage, at Beverly on April 15.

The arrests were made after it had been ascertained that the officials at the orphanage knew nothing of a musical to be given, and the canvassers had been branded

as crooks. The women were discharged after they had shown that they were merely employed by the men, but the men were held for Court. It is said they have been working similar schemes all through New Jersey.

HOME VEGETABLE GARDENS PRODUCE LARGE RETURN

The value of vegetable grown in New Jersey amounts to over \$5,000,000 annually. This merely represents the monetary value and does not take into consideration all the benefit to health from eating fresh vegetables, says the New Jersey State College of Agriculture. Children eat almost as many vegetables as grown-ups and should be counted as adults when estimating the amount of space in the garden devoted to vegetables. The size of the family's appetite is apt to expand considerably, and it is always well to have plenty of fresh vegetables.

As a rule, home gardeners, especially beginners, devote too much to lettuce and radishes and too little space to carrots, beets, beans, onions and tomatoes. Corn and Irish potatoes occupy too much space to be planted in a very small garden. Tomatoes should have a place in every garden, as should asparagus, chard, and other kinds of greens.

In preparing the soil, the deeper one digs, spades or plows, the better. It may not be possible to dig very deep the first year, especially if a heavy sub-soil is near the surface. A little of the sub-soil can be brought up and mixed with the top soil every year, until the top 8 to 10 inches becomes pulverized and full of humus. Well-rotted horse manure will give excellent results. This would be applied in the bottom of the furrow when either spading or plowing. Lime applied at the rate of 1 pound to every 25 square feet and raked into the surface soil after it has been spaded is beneficial for most garden crops, particularly beets, spinach and celery.

CALIFORNIA REQUESTS DAY AT THE SESQUI EXPOSITION

September 9 is the day which has been requested by Governor F. W. Richardson of California as the Golden State's official day at the Sesqui-Centennial International Exposition to be held in Philadelphia from June 1 to December 1. According to a communication received from the Governor at Exposition headquarters, California wishes to have that day set apart for its own special events because it marks the seventy-sixth anniversary of its admission into the Union, which occurred September 9, 1850.

WHOSE ADVERTISING BILLS DO YOU PAY

Sales Manager, Flyer Garment Company, Fort Smith, Arkansas
The store that doesn't advertise pays the advertising bills for the one that does. Every merchant in business pays for advertising, whether he uses it or not. If a competitor's advertising takes any business away from him, the profit he would have made on the lost sale is what his competitor's advertising cost him.

You have, perhaps, wondered how some stores can afford to spend such enormous sums for advertising. That is easy to fathom. Their competitor, who doesn't advertise and whose business they take, pays for their advertising.

Say the Jones family is a customer of your store. They have \$60 which they intend to spend with you. They read the advertising of your competitor and are induced to spend their \$60 with him instead of spending it with you. The store makes 20 per cent, or \$12, on the sale. They deduct, we will say, the \$1 advertising cost and have \$11 profit left. The advertising has cost them nothing, they got back its cost and had \$11 profit they would not have had only for their advertising.

Who paid for this advertising? Did the advertiser pay? No. He got the cost back, and profit besides.

Did the purchaser pay? No. He paid only the regular price. Then who did pay?

The store that did not advertise paid for his competitor's advertising. He not only paid for the other fellow's advertising, but he paid out of his cash drawer the profit his competitor made on the sale. The store that doesn't advertise pays the advertising bill for the one that does. He pays in loss of sales, profits, and increased costs.

The store that loses business through not advertising has such high overhead and unit sale cost that it cannot possibly sell goods as cheaply as the store that increases its sale and reduces its cost with advertising—Flyer Pilot.

TO HONOR MRS. JACOBY

County Democrats to Tender Edgewater Park Woman Dinner

At a meeting a number of prominent Democrats of the county held in the office of Prosecutor George M. Hillman last week it was unanimously decided to tender a testimonial dinner to Mrs. Florence W. Jacoby, of Edgewater Park, Democratic State Committeewoman from Burlington county, who has just been honored by Governor Moore by being appointed a member of the Burlington County Board of Taxation, and the affair will be held at the St. Andrew's Parish House, Mount Holly, Tuesday evening, April 27.

Francis H. Reed of Mount Holly, presided at the meeting, and the following committees were appointed:

Speakers—Judge William A. Slaughter and Prosecutor George M. Hillman. This committee will make a strenuous effort to secure the services of John A. Matthews, of Newark, well known in Burlington County, who is also a great friend of Mrs. Jacoby's. Ex-Judge William D. Lippincott, of Moorestown, will probably be the toastmaster, and there will be several other speakers of note.

William McConnell, of Palmyra, and George M. Williams, of Riverton, are members of the ticket committee.

USED CARS

Anybody Can "Do"
This Simple Problem

When a man buys a new automobile he pays a certain price per mile, arrived at by dividing the potential mileage into the cost. When you buy any one of our certified used cars you get three-quarters of that mileage for less than half the original price.

RUSH FOR CAMPS

Applications in Early for Citizens' Military Training Camps

An unexpected early rush by young men eager to attend this summer's Citizens' Military Camps closed the popular cavalry course scheduled to open on August 2 at Fort Ethan Allen, Vt., with an over-subscription of 71 applications, if was announced at Governors Island today by Major-General Charles P. Summerall, commander of the Second Corps Area.

Other camps that were reported filling rapidly were Barracks, N. Y., which had 85 vacancies; Fort Monmouth, N. J., 100; Fort DuPont, Del., 100; Fort Hancock, N. J., 150; and Fort Niagara, N. Y., 250. Plattsburg Barracks, N. Y., which alone takes 3,000 youths during July and

August, reported 1,800 openings left. The General promised to give each student entering Plattsburg an opportunity to visit the picturesque Ausable Chasm, historic Burlington and many other places of interest. He also said that to those who go to camps this year, in his corps area there will be given a new and different kind of living, filled with clean and wholesome adventure, something especially planned and prepared for the American youth.

"CHORUS OF THE STATES"

TO BE FEATURE OF SESQUI

Letters have been issued by Mayor W. Freeland Kendrick, President of the Sesqui-Centennial International Exposition to be held in Philadelphia, June 1 to December 1, to the mayors of all large cities asking them to enlist the cooperation of their citizens in the musical events

incident to the chorus of 500 voices which is being organized in Philadelphia. It is hoped that each of the cities will select a quartet to represent them in the concerts to be given by the "Chorus of the States."

When I Am Big
I would like to be a moving picture man and show pictures on the screen. I would earn some money. I want to go to a movie down at Ocean Grove. It was the Revolutionary War. Once I saw Jacky Coogan in the Circus. I saw it in Philadelphia. I have only missed two movies at the Riverton school.
John Warren, March 15-1926.

When I Am Big
When I am big I would like to be a missionary lady. I am going to go to different lands. I would teach the people about Jesus. I would tell people how to keep well; how to take care of babies and how to cook. Missionaries teach them to do a whole lot of things.
Mary Patterson.

When I Am Big
When I am big I am going to be an acrobat and walk along wires. I will carry men on my hands, and throw them up in the air.
Edward Wallace.

When I Am Big
When I am big I am going to be a swimming teacher. I am going to be a swimming teacher because I like jumping and diving in the water.
R. Newell Hunn.

When I Am Big
When I am big I am going to be a doctor for when people are sick. I can test them better and give them pills.
Robert M. Teeple.

When I Am Big
I am going to be a school teacher. I am going to teach the boys and girls their lessons. I hope they will be good children for me. I am going to teach them to use good language. I will read them stories. I will try to be nice to the children. I am going to teach them to behave and not be in fights all the time. I don't want them to get in trouble. I would go out doors with the girls. We

would play games like ring-a-round-a-rosy. I will let them go home at three o'clock in the afternoon if they will be good.
Dolores Biddle.

Preparing for Field Day
A picked class of sixteen boys and sixteen girls are now practicing for a marching drill to be given on Field Day. They have a program of interesting drills, including the making of figures and squares.
Floyd Smith, 8th Grade 4/13/1926

Assembly News
Riverton Public School held its weekly assembly in the auditorium, where we had several numbers on the program. On Friday, April 9th the Fifth grade took entire charge of the assembly. After the reading of the Bible and repeating the Lord's Prayer, several songs were sung.
Following this was a piano solo entitled "Pirates of the Night" by Betty Sim. A play was also given by the pupils of the Fifth Grade entitled "Health Play" which was enjoyed by all.

On Monday, April 12th, the Assembly period was given over to pupils of Grade six, when they presented an ancient play entitled "Sir Percival." The play was in three acts, the scenery was simple, and the costumes were made and designed by the pupils. The play salute, and the singing of our National Anthem concluded our exercises.
F. Lochowitz.

The School Census
The boys and girls of the eighth grade have been taking the school census. Each child was given a street on which they were to work. The pupils had a card for every person who had children on their street. The people were given the card to see if it was correct. If not, we were to correct it. We finished the drive in one week. Each year the eighth grade class does this for the school.
Jane M. Mattis, Grade 8.

The Census
The census of the children of Riverton Borough was taken by the eighth grade of Riverton Public School. It was found that some people had moved and some had taken residence here. The census is taken every year by the eighth grade so as to know the exact number of children who are of school age in the borough.
J. Vincent Hackett, Grade 8.

History—Sixth Grade
Our grade has been studying about Castle Life in History. We learned that "Knights" made the true gentlemen of today. Under the direction of Miss Muncan, practice teacher, we gave a three act play "Sir Percival, the Boy Knight." Twenty-seven children took the parts of the various characters. Each child furnished his own costume. We enjoyed giving this little play and are sure we have a better idea of the requirements training, home and castle life of the boy knight.
Ruth Bach, Sixth Grade.

HYGIENE
In the fifth grade we are studying about foods. We have learned the kinds of foods that are good for us. We have also learned how to make menus. Here are some that we have arranged.

Menu:
Breakfast
Oranges Cream of Wheat
Boiled Eggs Muffins
Luncheon
Creamed Chicken Baked Potatoes
Rolls Celery
Fruit Salad
Milk
Dinner
Cream of Celery Soup
Lamb Chops
Mashed Potatoes Peas
Tomato Salad
Cherry Jello
Milk
Sponge Cake
Adelaide R.

Palmyra Firemen Make Speed Test

Fine Record Established in Extinguishing Bon Fire Built For Purpose

The Palmyra Fire Company made excellent time when given an efficiency and speed test in connection with the drill Monday evening. Chief Beck and several of the firemen collected a large truck load of boxes and old wood during the day and made an immense pile on field out Cinnaminson Avenue opposite Morgan Cemetery. Early in the evening the firemen gathered at the firehouse to await the call for the big test. Ed Bennett climbed a pole and hooked in on a telephone line, ready to flash the signal at the proper time. Chief Beck ignited the pile of wood and waited for it to get a good start and then signalled Bennett. Word was sent to the telephone exchange at Riverton and in turn the operator notified the firemen.

Only three minutes and forty seconds elapsed from the time Morgan set fire to the pile until the company had a stream on the blaze. In less than four minutes after the flames got under way, the company was called, made a trip of six-tenths of a mile, made the connection with the nearest plug, hooked up the pumper, laid 550 feet of hose and was pumping water on the blaze. Mayor James T. Weart and Councilman J. Edwin Lees were the official timekeepers. To increase the speed in getting a stream on blazes the company has devised a scheme whereby it cannot fail. The packard truck has its hose packed so that it first makes the connection with the plug and then runs to the scene. The packing order has been reversed in the pumper, which drops off the nozzle as it passes the fire and lays the line of hose as it drives to the plug. This system proved very effective at the fire in the Collier house on Garfield avenue Saturday.

CALVARY CHURCH PLANS EXTENSION

Series of Rallies Covering Month to Be Addressed by Prominent Speakers

Calvary Presbyterian Church has set aside the period from April 18 to May 8 to deepen Church loyalty and to prepare the way for a proposed building extension.

The past year at Calvary church has shown a most remarkable development, not only in a reawakened activity in all of the departments and in a growth in membership, but also in an increased giving to benevolent causes. While the ultimate aim of these rallies is the erection of a new and modern church plant, the whole character of the meetings is to be on a spiritual plane. April 18th is to be observed as Roll Call Sunday, with a special sermon by the pastor, the Rev. Charles T. Bates, on "Loyalty to Christ and to His Church." In the evening Miss Margaret E. Dodge, vice-president of the Presbyterian Board of Foreign Missions, will speak at the "Women's Night" service on "The Power and Privilege of Christian Personality."

April 25th will be Community Sunday, when the pastor will preach in the morning on "The Church and the Community," and the Rev. George Emerson Barnes, D. D., of the Overbrook Presbyterian Church, of Philadelphia, will address the "Men's Night" service. May 2 will be known as Preparation Sunday, and the morning service will be devoted to the needs of Calvary Church. There will be no preaching, but a "surprise." The Rev. C. W. Lauffer, of the Presbyterian Board of Christian Education, will speak to the young people at the "Young People's Night" service in the evening.

The climax of the month's activities will come on May 9th, when Mr. J. Edward Tompkins will speak at both services. The meetings will be devoted to the expansion programme of Calvary Church. A distinct feature of the month's activities is a renewed loyalty to the midweek services on Wednesday evenings. Prominent Presbyterian pastors will address these meetings April 21, Rev. J. Mayskens, of East Orange, N. J.; April 28th, Rev. R. A. Brotemarkle, Ph. D., Dean of the Philadelphia School for Christian Workers; and on May 5th, Mr. J. Edward Tompkins.

On May 6th there will be a men's dinner and on May 7th a women's dinner.

Calvary Presbyterian Church is showing many signs of progress. Its proposed new building will be a fine asset to Riverton and will give opportunity for a much wider range of activities. The month's midweek services which are outlined above cannot fail to be of real value, not only to the members of the church, but to the community as well.

MUSICALS

Camden Chapter, N. A. O., Will Present Program in Riverton

The first appearance of the Camden Chapter N. A. O. in Burlington County will occur on Monday, April 19, when a program will be presented in the Christ Episcopal Church, 4th and Main streets, Riverton. The soloists include Miss Margaret M. Vaughn, harpiste, Mrs. S. W. Collins, contralto, Mrs. Frank L. Bell, and Harry R. Bager, organist. Accompaniments will be furnished by Miss Helen C. Sterling and Mrs. Bell. The purposes and ideals of the organization will be explained by the President Howard S. Tansley and Dr. Daniel Brock, M. D., Chairman.

Summerfield Sees Greater Palmyra

Secretary of Philadelphia Chamber of Commerce Makes Address Here

Much improvement in Palmyra was noticed by Charles P. Summerfield, Secretary of the Philadelphia Chamber of Commerce, when he visited the town Tuesday for the first time in six years.

Mr. Summerfield was the speaker at the Palmyra Chamber of Commerce Tuesday evening and in his address he complimented the town on the marked improvement in the condition of its streets and its street lighting, as well as the increasing number of fine homes being erected here.

The speaker predicted rapid growth for the town in the future, as transportation would be constantly growing better with the completion of the bridge and the building of new boulevards from Camden. Already it is easier for a man to live to Palmyra and reach his business in Philadelphia than it is from many sections of Philadelphia itself. This, coupled with the advantages of the better living conditions to be found in suburban towns, he said, was bound to bring more and more people to Palmyra.

"Cooperation" Now the story of how Philadelphia was combined with many neighboring towns back in 1854, at which time twenty-three different communities were merged into one town. The tendency made in the modern era toward annexation, said Mr. Summerfield, as it is for cooperation and coordination between established communities. Towns that grow too big are often found to become unwieldy.

The speaker predicted much of interest to transpire in the Philadelphia district in connection with the Sesqui-Centennial and thought that Palmyra and neighboring towns would share in the "Excitement" and prosperity resulting.

Help Fix Dates
Secretary George M. Harris read a letter from the Riverton Chamber of Commerce asking that the Palmyra Chamber cooperate with the Riverton body in establishing a clearing house for dates of entertainments, etc., in the two towns, these dates to be published in the two newspapers. The Palmyra Chamber voted to cooperate in the matter.

Mayor James T. Weart announced that condemnation proceedings would be started soon for the purpose of acquiring ground for the new Avenue C street from the high school building. In regard to South Broad Street, the Mayor said that he doubted anything could be done this year. Some of the nine houses in the way will have to be moved back, while others, in the Mayor's opinion, will have to be moved back, while the ground not needed for the street be added to the school property recently purchased in that section.

Clean Up Cemeteries
William Jenkins suggested that the Chamber should make a request that the cemeteries be cleaned up and the secretary was instructed to write the proper parties to that effect.
President Lees announced that eight electric lights would be placed on Public Road, two at the River Road railroad crossing, one at the fire house and one at Hatachuck's garage. Five gas lights are to be removed and placed somewhere else. It is planned to place one of these at Spring Garden and Cinnaminson another on Spring Garden near Highland and the others wherever need for extra lighting develops.

REWARD

A reward of 1901 hearty laughs is offered to anyone knowing of the happenings of a certain young man having the well known title of "Jones." The reward can be obtained by applying in person at the Palmyra High School Auditorium, on Friday or Saturday evenings, April 23rd or 24th.
But coming down to brass tacks, the young Mr. Jones is none other

than "Ted" Hudson, who fills this character in George Broadhursts side-splitting comedy, "What Happened to Jones," to be given by the Junior Class of Palmyra High School on the evenings mentioned before.

Besides the cleverly acted part of Edward Hudson, the cast includes the following stars:—Helen Enskat, as the winsome Clissy, in love with Jones; Mr. and Mrs. Ebenezer Gooddy, the former a well-tamed, hen-pecked husband, played by Edward Sordana and Anna Murphy. The part of Marjorie, their daughter, is charmingly played by Gertrude Pancoast, and Lester Johnson is seen as Richard, her fiance. The rather humorous and one-sided love affair between Alvin, a romantic spinster of sweet, 18 plus 29 years, and the Rev. Antony Gooddy, D. D., a stately, bally, English Bishop from Australia is very cleverly acted by Muriel Burgmann, and Matt Ruster, respectively.

WORLD'S GREATEST SHOW FILMED

"Ben Hur" with its magnificent chariot race, which was ever the wonder of the speaking stage, is to be renewed again in all its glory of thrills and romance at the Forrest Theatre, Philadelphia, beginning April 19 and twice daily thereafter, at 2:30 and 8:30.

All the features of General Lew Wallace's wonderful "Tale of the Christ" are presented with the super-art of the motion picture camera. Twelve team of four horses each bear Hur to victory just as they did when the stage presentation was made. The Roman and Pirate navies contend in realistic death grips on the Mediterranean. The exquisite Madonna, The Last Supper, The Procession of the Palms and the beautiful love story of Ben Hur and Esther dominates the spectacle which is characterized by a fine reverence in the treatment of the various themes. Metro-Goldwyn-Mayer, A. L. Erlanger, Charles Dillingham and Florenz Ziegfeld have made "Ben Hur" out-top all former achievements, through the process of film wizardry.

Among the leading actors are Ramon Navarro in the title role; Francis X. Bushman as Messala; May McAvoy as Esther; Betty Bronson as the Madonna; Carmel Meyers as Iras; Frank J. Currier, Mitchell Lewis, Nigel de Brulier, Claire McDowell, Kathleen Key, with no less than 150,000 persons in "Support."

"Ben Hur" cost Metro-Goldwyn-Mayer \$4,000,000 and it was money well spent. By the unanimous opinion of those who have seen the production, it is the world's greatest show. The same perfect projection and musical accompaniment by big orchestra as are used at the George M. Cohan Theatre, New York, will mark the Forrest Theatre presentation. Mail orders addressed to the Manager, Forrest Theatre, Philadelphia, are promptly filled in the order of their receipt. The prices are 50c to \$2., evenings; and Saturday and holiday matinees; and 50c to \$1., at all other matinees. In making out their checks, patrons are requested to add 10 per cent. U. S. Government Tax to the prices of tickets higher than 50c and 75c.

ASBURY
Freeman E. Hunter was a Sunday visitor at the home of the Rev. and Mrs. Fred E. Tansley, of Pointville.

Miss Louise Southwick is spending a week in Asbury recovering from tonsillitis.

Thomas Hunter and family moved into the Asbury M. E. Parsonage on Friday.
George A. Hess, Jr., of 131 Fillmore street, Riverside, will have charge of the Sunday evening service in the Asbury Church on April 18th.
Aaron F. Youis, of 311 N. Fifth street, Camden, was a visitor in Asbury on Sunday.
Mrs. Hattie Seagrave, widow of the late Joseph H. Seagrave, of Delanco, died in Cooper Hospital on Monday. Interment being made in the Asbury M. E. Cemetery, on Wednesday, under the direction of H. B. Earnest, of Riverside.

THE NEW ERA

No. 36. No. 46.

RIVERTON, NEW JERSEY, THURSDAY, APRIL 22, 1926

PRICE FIVE CENTS

CHAMBER OF COMMERCE

SIFTS FACTORY PLAN

Committee Appointed Gives Favorable Report; Decision by Saturday Noon

COMING HERE BIG BOOST TO RIVERTON

More than three-fourths of the membership of the Riverton Chamber of Commerce turned out to a special meeting Monday night to hear H. E. Armstrong, president, and E. A. Borgard, director of sales of the Motor Requirements Corporation, whose office is at 32 N. Third street, Camden, all of their plans to erect a \$70,000 plant at East Riverton for the production of a gasoline filter or cleaning device.

Mr. Armstrong said that the building would be 100,000 feet of latest improved type of construction and a white marble front. The corporation, Mr. Armstrong said, was ready to let its contract for the erection of the building, and had practically decided upon a site in Camden when Councilman Edward R. Williams asked them to look over the Riverton situation before taking final action as to where to locate their plant. He said they had been impressed with the advantages of the Riverton site and it now only remains to find out what the people in this vicinity are willing to do for the corporation financially.

The selling plan for the corporation's product contemplates five division managers located in New York, Chicago, San Francisco, Kansas City, and Atlanta, Ga., and a national campaign of advertising in the Saturday Evening Post and similar magazines which would bring Riverton to the attention of people all over the United States. Stock will be sold in blocks of three shares, two preferred and one common, at \$100.00 each.

The Board of Directors is composed of H. E. Armstrong, Camden; Harry E. Richman, of Haddonfield, secretary and treasurer of the Haddonfield Trust Company; and J. Pindelsen, Wywood, Pa., formerly with the Jordan Agency in Philadelphia and the White Truck Company; C. E. Pearson, Camden, chief engineer of the corporation and formerly a member of the English Government Airplane Service; John D. Moore, Haddonfield; C. W. Martin, Jr., Atlanta, Georgia; R. H. Butters, Atlanta, Georgia; E. A. Borgard, Philadelphia; E. H. Walker, Haddonfield; Daniel Davenhower, Camden.

Mr. Anderson and Mr. Borgard gave a very convincing demonstration of the apparatus and gave figures showing the potential for such a device. Councilman Williams said that he had asked the gentlemen to consider locating near Riverton because he believed it was a good thing for any community to have such a plant as they proposed to put up would prove to be a valuable asset to Riverton. He hoped, he said, that they would receive sufficient encouragement warranting them to locate here.

It was stated that five officials of the company would locate their homes in or near Riverton in the event of the plant being erected here. Mr. Armstrong said that all his corporation desired was the endorsement of the Chamber of Commerce and they would see to the selling of the stock in this neighborhood. He said that Chambers of Commerce in various places invited him to locate their plant there. In Camden, he said, the Chamber of Commerce had backed and made possible the erection of the Walt Whitman Hotel. In the face of much pessimism and a few doubting threes he said "it could not be done." But it had been done and he believed it was the greatest thing that had ever been done in Camden.

J. Lawrence Lippincott said that there was money in Riverton for such an investment if after investigation the product and the company were found to be all right and suggested that a committee be appointed to make an investigation. President William H. Albertson appointed the following committee which visited the Camden office of the corporation the next morning: Ed. W. Lamm, Rev. E. Mather, Clement Biddle Lewis, Clarence Hubbs, William B. Lynch, and J. Lawrence Lippincott.

This committee visited the offices of the corporation Tuesday morning and a special meeting of the chamber was called Wednesday night to hear their report.

The report of this committee was favorable. Then it was a matter of getting down to brass tacks as to just what the corporation wanted to induce them to come to Riverton with their plant. The proposition was that \$150,000 worth of stock should be bought by the people in this neighborhood. It was the general opinion of those present that there would be no difficulty in raising this amount if the people could be sold to the idea. Some of the men, however, seemed to feel that they would like to have a little further investigation made as to the reliability of the concern itself, and President Albertson appointed Clement Biddle Lewis, August H. Weber, the committee to act in conjunction with E. L. Williams, president of the Cinnaminson Bank and Trust Company in this investigation. This committee will report to the committee which visited the headquarters of the corporation in Camden on Tuesday, and another meeting of the Chamber will be called to give its final judgment on the proposition.

Mr. Armstrong, president of the corporation, said that they had been practically ready to purchase their grounds in Camden and proceed immediately with the erection of their factory, when they had been asked by Councilman Williams to consider the East Riverton location. They had already lost two weeks of valuable time, he said, and asked for the final decision by noon on Saturday of this week. He was assured by Councilman Albertson that he should receive the final answer by that time.

FERRIES JAMMED

Palmyra Boats Carry Big Crowd of Cars Over Weekend

A double line of cars several squares long marked a new record this season for the Tecony-Palmyra Ferry Company Sunday. More than 2,500 cars were transported over the Delaware by the company.

At one time the cars were lined from the ferry to Fourth street, P. m. until 10 o'clock Sunday night. The Philburco Coach Line carried 2,100 passengers during the day. The foot-passenger traffic was slightly heavier than usual.

MUSIC RECIPROCITY DAY AT PORCH CLUB

Delightful Program Rendered by Many Artists at Riverton Club House

The response from our neighboring clubs and from our own members to the Music Reciprocity Day on Tuesday, April 20, one of the delightful occasions of our Club year.

The morning session was opened most auspiciously by our own Mrs. Collin, who was in glorious voice. The address made by Miss Williams, of Merchantville, State Chairman of Federated Music Clubs in New Jersey, and also National President of the Junior Music Clubs, was most inspiring and helpful.

Piano solos were contributed by members from the Camden Women's Club and from the Haddonfield Fortnightly.

Mrs. Haig from Merchantville, charmed her audience with several readings in dialect. Vocal duets by two members of the Merchantville Club, also vocal duets from the Pitman Woman's Club, were greatly appreciated.

The mid-day intermission featured a box lunch and a social time. The Riverton Choral under the splendid leadership of Mrs. Collin, opened the afternoon session.

A most interesting number was a charming address on Music. Miss Vaughan's harp solos were a delight to our guests and to her own. The members of the Paragon Club, of Beverly, entertained us with a vocal solo, by one of its members, who made her performance doubly attractive by playing her own accompaniment.

A most interesting number was a tap dance given by Miss Mildred Collin, who was dressed in black face costume.

A request was made that the choral sing again. Mrs. Collin responded and a much appreciated program ended with this number.

"Y" DRIVE MEETS MUCH SUCCESS

Palmyra Contributions To Quota Reported Coming in Rapidly

The Palmyra Y. M. C. A. drive for its \$1,000 quota of the big campaign to raise \$15,000 to take on an extensive county program is progressing very nicely. We should report very few refusals. Tuesday evening the subscriptions and cash contributions amounted to nearly \$300.

Leonard R. Baker, the Palmyra community chairman in charge of the drive which opened Friday evening of last week and will continue until this Friday, said "The Palmyra campaign is progressing very nicely. We should appreciate the generous contributions of those who have given to further this wonderful cause—the Y. M. C. A. which develops the boy of today who is the man of tomorrow. And sincerely hope for the cooperation of those who have not been approached as yet. Those who are not called upon and feel they should get behind the work may send their contributions direct to me."

As the result of the local branch cooperating with the County Board, should Palmyra raise its quota, and Riverton be equally successful in its drive, the County Board will have a trained secretary to its staff who will be located in Palmyra and Riverton. This would increase the usefulness and possibilities of the Y. M. C. A. in the Two Cities. Under the supervision of a trained director the advantages and benefits to the boys and young men of the community who now belong to the "Y," and many more who would become affiliated, would be greatly increased.

CAR COLLIDES WITH WAGON

The car driven by Miss Mary Zurbrugg ran into a team at the Riverton station last Saturday night about 11 o'clock. The horse was knocked down and the wagon damaged. The driver of the team was John Kelly, 613 E. street, Kensington. He formerly lived in Riverton, and is known here. He escaped with a few scratches, but George Carel, also of Kensington, who was in the wagon with him, was not so fortunate. The shafts were wired up, and when Carel was pitched from the seat an end of the wire pierced his nose. No doctor was available at the time and the injured man was obliged to go home in the bus without receiving attention. His wound is not considered serious.

Perhaps if the subtleties of the whole world were exposed simultaneously, after the first shock, there would be a great sheepish laugh.

unable time, he said, and asked for the final decision by noon on Saturday of this week. He was assured by Councilman Albertson that he should receive the final answer by that time.

ROTARY CLUB

Regular Weekly Meeting and Luncheon Held

The regular weekly dinner and meeting of the Palmyra-Riverton Rotary Club was held on Thursday of last week with the president, Charles Street Mills, presiding. The members were greeted with their new American Flag, Club banner and the dinner banner.

Two new members, P. Conner Hulse, dentist, and Elwood Thum, Iron Castings Mfg., were present.

At the next meeting, another new member, the Rev. Mr. Lockett, minister, is expected to be present. W. H. Albertson, a Rotarian and President of the Riverton Chamber of Commerce, introduced the representative of the moving picture concerns who are filming "Romance of Riverton." He asked permission to film the members of the Rotary Club. This request was granted and the Secretary was instructed to advise all members to be present at the club house at 6:30 p. m. today (Thursday), April 22nd.

The speaker was Leroy Goodwin, a past president of the Camden Rotary Club. His talk was entitled "What a Good Rotarian" which conveyed to the members an inspiring message, interspersed with humor enjoyed by all. The speaker was given a rising vote of thanks.

Expect Thousands at Artisan Rally

Big Mass Meeting and Entertainment to be Held on April 29

Thousands of residents of South Jersey and their Artisans friends will attend the big mass meeting which will be held in the New Convention Hall in Camden on Thursday night, April 29th.

It is expected that the capacity of the new structure will be tested to its limit on the night of the big Artisan Rally because thousands of friends of the Order have been invited to attend.

Goldy and Dusty, the radio twins who have become famous since broadcasting and radio receiver became the thing, will be the stars of a fine entertainment program. In addition there will be lots of music and attendance prizes. The invitations are issued on behalf of the Artisans of South Jersey by the Jersey Artisans Boosters Club and the Artisans Extension Committee of the Artisans Order of Mutual Protection. The Order in South Jersey has a group of aggressive active organizations, each composed of live wires in their home towns.

Cards of admission are required for the meeting and they can be obtained from any Artisan. Only men will be admitted.

The program of entertainment will start with the arrival of the Artisans Band, the strictly hand-picked, the marching club of the latter organization, the patrol of St. John's and the mounted patrol of the Northwestern Assembly. These units, assembled of some of the active assemblies of the order in Philadelphia will parade from Market street ferry, Camden, to the Convention Hall.

While the parade is enroute a large class of members representing each of the South Jersey assemblies will be initiated on the stage of the convention hall with the curtain drawn. After the ceremony the members will be placed in the audience and the fun will commence.

Besides scores of Artisans who will come to the meeting from Philadelphia, the following New Jersey assemblies are expected: Palmyra, Camden, Merchantville, Haddon, of Haddonfield, Haddon Heights, Collingswood, Goodfellowship at Laurel Springs and Woodbury. A large delegation of members of Atlantic City assembly will attend the meeting and visitors will come also from Trenton, Newark, Hammonton, Lakewood, Wildwood and Toms River.

One tenth of the membership of the Artisans Order of Mutual Protection is found in New Jersey assemblies. In addition, there are hundreds of members who retain their affiliations with Philadelphia and other assemblies. The Artisans have assets of about \$2,500,000 invested funds and since their organization have paid more than \$6,000,000 in benefits. Last year they were able to pay more than 64 per cent of their death claims from interest on investments.

One of the big events of the Artisans year will be the annual excursion to Wildwood which will be held during the summer. This outing always attracts in the neighborhood of 5000 members of the order and their families and friends. Edward G. McCracken is the chairman of the committee. John M. Armstrong, William T. Walker, and Bertram Smith, most excellent master artisan, will provide the rally and other officers of the most excellent assembly, the governing body of the order, will be in attendance. John M. Armstrong, master, Lancaster, Pa., most excellent superintendent; William A. McCauland, most excellent inspector; Alvin P. Cox, most excellent recorder, and American E. Underdown, Jr., of Haddonfield, most excellent cashier.

The committee in charge includes J. Horace Finney, Palmyra, chairman; Robert G. Watt, William E. Decker, Fred Cunningham, of Haddon Heights, and Leroy F. Cole, of the Artisans Extension Committee, and the following members of the Jersey Artisans Boosters Club: Herman P. C. Kromer, Laurel Springs; Mr. Underdown, Victor; Cramer, Camden; William T. Walker, Haddonfield and Walter Charriere, of Collingswood.

HOLD-UP YARN

Excitement Caused Among Riverton Towns by Robbery Story

A youthful truck driver who proved to be a regular Barrymore stirred up considerable excitement in this section of South Jersey with his clever acting Tuesday morning. He was driving "unknown" beneath the bakery truck which covers the route between Palmyra and Delair Park, about 10 o'clock Tuesday morning. As he regained consciousness he told of being held up and beaten by two colored men. He had stopped to adjust his motor. To prove his statements he displayed a bump on his head, said to have been inflicted by the brutal holdup men.

As he was being rushed to the Cooper Hospital, Camden, by the motorman who found him, and even receiving first aid treatment by a trained nurse on the trip, police from this section were scouring the countryside for the gangsters.

Among the first police to arrive on the scene and institute a hurried search were Chief of Police C. Morris Beck and Officer Nelson Wallace, of the Palmyra force, but the searches failed to disclose highway-men.

Later in the day the youth, who is William Denny, 20 years old, of Florence, driver of the Oliver's Bakery truck, Burlington, proved he is a clever actor by admitting the holdup was a fake to cover a shortage.

Selling the pastry products to various stores down from Burlington, including several in Palmyra and Riverton, the youth had collected \$3. He was to deliver the money to the bakery.

Denny was found near the road running in to the Mohickon Club by J. A. Shorn, of Delair, a passenger in the truck. Mrs. A. Daly, the motorman, Mrs. A. Cross, of Delair, a trained nurse at the St. Francis Hospital, Trenton, administered aid on the way to Camden. At Seventh and Market streets, Camden, the trolley was not by a police ambulance and he was rushed to the Cooper Hospital.

Physicians at the hospital could not find any signs of mistreatment, except the small scratch on Denny's head, and on hearing his story of the holdup several times noticed several discrepancies in the tale. They then summoned Camden detectives.

The detectives took the youth to the office of Prosecutor Westcott and under severe questioning he broke down and confessed the fake.

The confession of Denny makes the fourth bakery-truck driver who has confessed to take holdups during the past month. Denny was held in the Camden County jail.

DOT WARNER SOLOIST

Number by Palmyra Dancer to be Feature of "Miss Somebody Else"

A solo by Miss Dorothy Warner, Palmyra's popular dancer, will be one of the features of the four-act comedy, "Miss Somebody Else," to be given in the Palmyra High School auditorium Friday and Saturday nights.

Miss Warner has achieved considerable fame as a soloist and her graceful form is always well received by local audiences. Her number will appear in the third act, in a charming ballad, a pretty body solo, a soprano solo will also be an added feature to the play.

Mrs. Wesley Davies charmingly plays the leading part in the delightful modern play. Fred Metzger, who attained considerable fame for his body solo, will also be in the play. Miss Elizabeth Hires, formerly starred in Palmyra High School productions, will be seen in one of the prominent parts of "Miss Somebody Else." Lawrence B. "Toots" Parker, who also won fame as a college actor, cleverly plays opposite Miss Hires.

Other members of the cast, practically all of whom are known to Palmyra and Riverton audiences, are Harry K. Strang, Clifford Taylor, Raymond D. Lamont, Paul Bailey, Miss Josephine Handoll, Mrs. Clarence Hubbs, Mrs. Charles Bailey, Mrs. Elsie Smith, Mrs. Spencer Johnson, Mrs. Walter Jones, Miss Gladys Locke and Mrs. B. R. Leach.

The play is given by the Friendship Circle Class, supported by the Goodfellowship Class. A large sale of tickets is reported.

MRS. DEBORAH WILBRAHAM

Mrs. Deborah Anna Wilbraham, one of Palmyra's oldest residents, died at her home, 511 Cinnaminson avenue, Sunday, following an illness of four weeks.

Mrs. Wilbraham, who had been invalid until her last illness, and lived in Palmyra or the village of Ashbury practically all of her life. She was a resident of Palmyra for the past thirty-five years, was a woman of sterling Christian character and beloved by all who knew her. She was a member of the Epworth Methodist Episcopal Church.

Funeral services were held at her late residence Wednesday afternoon at 2:30. The Rev. J. W. Lee, pastor of the Epworth M. E. Church, and the Rev. E. A. Robinson, of Trenton, a former Epworth Church pastor, officiated. Interment was made in Ashbury Cemetery with funeral director Frank A. Snover in charge.

Mrs. Wilbraham is survived by three sons and four daughters. They are Walter, of Cleveland; Ruden, of Camden; William, of Garden P. C. Kromer, Laurel Springs; Mr. Underdown, Victor; Cramer, Camden; William T. Walker, Haddonfield and Walter Charriere, of Collingswood.

WINNERS OF WOMEN'S GOLF TOURNAMENT

Mrs. Sheble and Miss Parry Get First Places in Two Opening Events at Country Club

The Monday afternoon tournaments for women golfers of the Riverton Country Club were started this week, with an eighteen-hole and a ten-hole medal play tournament.

Mrs. Harold N. Sheble was the winner of the former contest and Miss Charlotte M. Parry won the prize for the ten-hole tournament. The low gross scores alone counted, since the handicaps have not been arranged.

Mrs. Frederick M. Steiner won second place in the eighteen-hole rounds, and Mrs. Harry L. Rogers was second in the ten-hole competition.

Next Monday, April 26, will be held a tournament to decide the places on the "Green and White" teams. All the players in the club will be divided into these two opposing forces which will meet each other in match play on succeeding Mondays.

The Riverton women's suburban league team under Mrs. Herbert M. Kieckhefer, captain, will play its first match of the season with the North Hills Country Club, Tuesday, April 27. There are seven members on this team.

Plans to Improve M. E. Cemetery

Mr. Baker Hopes to Have Burial Grounds in Good Shape by Summer

George C. Baker, president of the board of trustees of the Epworth Methodist Church, Palmyra, owner of the Methodist Cemetery, says steps will be taken in the near future to improve the burial grounds in the heart of Palmyra.

Mr. Baker, who has been very ill for the past year, but is now improving, says he recently read the criticism of the deplorable condition of the Palmyra cemeteries, and says he will personally attend to the matter and see that action is taken to improve the Methodist Cemetery.

He will instruct a committee to get estimates on a concrete fence, four or five feet high, to be run along Cinnaminson avenue and says if that is done, he will advise the erection of the present front fence along the "lane" line of the plot.

"I am ashamed of the cemetery," declared Mr. Baker. And he added "You may assure the people that the lots and paths, the entire cemetery for that matter, will be put in fine shape this spring."

Just as soon as his health will permit, Mr. Baker says he is going to make a thorough inspection of the cemetery and have the chairman of the committee in charge of the cemetery, Fred Lutz, look up the names of all lot owners and make an effort to have each party contribute a certain amount "to keep their ground in shape each year. He says the maintenance will be cared for in a more efficient manner in the future."

When asked if he ever thought of moving the cemetery, Mr. Baker said "Yes, but there are many legal technicalities involved and it would prove difficult to locate the relatives of some bodies buried in the old cemetery. And it is impossible to move the bodies unless the sanction of the loved ones is obtained. If it were possible, I, personally, would favor removing the bodies to a plot in the new cemetery. It is reasonable to believe that few people will bury in the cemetery, located as it is, in the future."

MUSICALES ENJOYED

Legion Auxiliary Gives Another Delightful Program

A very delightful musical was given by the American Legion Auxiliary of Post Frederick M. Rodgers in the Post Rodgers Home Friday evening of last week. The program was as follows:

Sylvia Grey, Spoken, American Legion Quartette; piano, Fruelings, rauchen, Sinding. A la bien ainee, Schutt, Pauline F. Becker, soprano solo, Villanelle, Dell A. Quara, Esther C. Miller, reading, Thelma P. Jones, tenor solo, I Never Knew Florida, Edward Hoyt, Duet, Passage Bird's Farewell, Eugene Hildach, Esther C. Miller and Elizabeth Lippincott; arsp, Meditation, Thomas, Spanish Dance, Tedeschi, Margaret Vaughn; contralto solos, Thoughts Have Wings, Lehmann, I've Been Roaming, Horn, Elizabeth T. Lippincott; quartette, O' Carlina Cooke, American Legion Quartette. The members of the quartet are John Hickey, first tenor; Edward Hoyt, second tenor; William Miller, first bass; L. C. Woodcock, second bass. Mary B. Sim was the accompanist.

BASKETBALL FUND GROWING

The raising of money for the newly-organized baseball club is coming on apace. M. Southeimer, treasurer, reports enough funds in hand to buy the uniforms and equipment, and a drive is now being started to put up a grandstand on the grounds.

The card party and dance recently given for the club's benefit netted about \$60, though it may amount to more, as the returns are not yet all in.

ELIZABETH P. GOULD

Elizabeth P., aged 7, daughter of Mr. and Mrs. David P. Gould, died at Jefferson Hospital, Philadelphia, Tuesday afternoon.

Services will be held Friday afternoon at 2 o'clock at the Snover Funeral Home, conducted by Rev. A. S. Lewis, interment at Morgan Cemetery; both private.

MANY RIVERTONIAN ARE BEING "SHOT" THIS WEEK

MINSTREL COMING

Everything Ready for Combined Show of Legion and Compas Club

The stage is all set for the crack-erjack minstrel show to be given by Post Rodgers, American Legion, and the Compas Club in the Palmyra High School auditorium Friday and Saturday evenings, April 30 and May 1.

The combined talent of the two organizations has been whipped into excellent shape and from the reports at rehearsals, the show will be one of the best of its kind ever given in the Twin Cities.

There will be specialties of all kinds by the proficient members of both organizations, including a classic rendition of the Charleston, novelty acts, solos, quartet numbers, and men and a chorus that will be hard to beat.

Frank Parker, the hustling business manager for the Compas Club says tickets are selling very well and from all indications the minstrel will be presented to well filled houses.

Pemberton Nine Loses to PHS

Locals Make Big Rally in 10th Inning and Win 6-2

The Palmyra High School baseball team chalked up its second win of the season at Pemberton Friday afternoon with a thrilling 6-2 ten-inning battle over the former high school tilters.

West was on the mound for the Morsemen and pitched and excellent brand of ball against the plow artists.

Palmyra broke the ice with a tally in the third frame. Solid hits netted another counter in the fourth and Pemberton tied it up with a pair in the fifth.

Neither aggregation could break the deadlock until the tenth when Palmyra opened up with a furious attack and scored a quartet, annexing the battle.

McKee opened the rally with a pretty double-bagger, Zoll, too, locked one for a couple of bases and singles by Scheer and Bright, mixed in with sacrifices Quickall and Elsiey and a pair of overthrows by the Pemberton lads paved the way for the Palmyra foursome.

Palmyra line-up at the start was Scheer, 2b; Quickall, c; Zoll, 3b; Elsiey, cf; P. Miller, 1b; Meyers, ss; McCuen, lf; West, p; Wagner, rf. Bright and McKee, as pinch hitters, replaced Miller and Wagner in the ninth.

FAMOUS OLD LOCOMOTIVE

"Old Ironsides," the famous five-ton piece of railroad apparatus designed in 1832 by Matthias Baldwin, founder of the Baldwin Locomotive Works, will be one of the prominent exhibits in the Palace of Machinery, Transportation, Mines and Metallurgy at the Sesqui-Centennial International Exposition, to be held in Philadelphia from June 1 to December 1. The tiny model will be exhibited in contrast to the 330-ton type now being turned out by the Baldwin company.

PORCH CLUB NOTES

Charter Luncheon, Tuesday, April 27, at 1:30 p. m. Mary Rose Collin and Mrs. N. Myers Fitter will be the speakers. Please make reservations not later than Friday, April 23, to Mrs. Fred P. Hemphill, phone 134. Tickets \$1.00.

Coming Events

April 23 and 24—"What Happened to Jones," Junior Class Play, Palmyra High School.
April 24—Luncheon at 1:30 p. m. by St. Agnes Guild of Christ Church, Palmyra.
April 24—Repeat performance of comedy, "Peg O' My Heart," by Baptist Young People's Society in Camden Y. M. C. A. Auditorium.
April 24—Golden Hour Cake Sale, 700 Thomas avenue.

May 7 and 8—Comedy, "Miss Somebody Else," by Friendship Circle Class supported by Goodfellowship Class, Palmyra High School.
May 8—Ambulance Association Cake Sale and Tag Day.
May 12—Entertainment by Palmyra Girl Scouts, Epworth M. E. Temple.
May 15—Cake Sale by the Junior Philatelic Class of the Central Baptist Church.
May 22—Cake Sale by Palmyra Girl Scouts.
May 29—Cinnaminson Home Pets, Moorestown Field Club.
May 31—Cake and Ice Cream Sale, Society Hall Grove, by P. O. of A.
June 2—Strawberry festival by St. Agnes Guild of Christ Church, Palmyra.

Camera Man Filming Scenes For "Romance of Riverton;" Love Scene Progressing Nicely

GANG COMEDY STAGED AT SCHOOL YESTERDAY

Many people have been "shot" in Riverton this week who were totally unconscious of the fact. Ed. Cooper, who is filming "The Romance of Riverton," under the direction of the Chamber of Commerce, has been in town with the camera man, John Clements, of New York City and many of the scenes that will appear in the picture have been taken.

The opening chapters of the "Romance" have already been sent to New York to be developed, and others, as well as many more, of the beauty spots in Riverton and Cinnaminson township are being taken daily. Mr. Cooper is an artist in his line and "The Romance of Riverton" promises to be a real thriller. The huge crowd will be blended with the dramatic, and before you are through shivering over the red-skinned hero who rescues the white maiden, you will be a splitting your sides over the antics of the gang comedy featuring our own boys and girls.

There will be a very prettily love scene with a decidedly unexpected ending. While the cast is not complete, enough is known to insure the picture of being one of annual interest.

Colonial Scene

There will be a historical section, featuring the early days of Riverton and including a colonial scene with six maidens and six men handsomely costumed.

Friday afternoon of this week, at 2:30 the Palmyra High School will be filmed, and on Saturday at 1:30 a street scene at Broad and Cinnaminson avenue, Palmyra, will be "shot."

At 3 o'clock Saturday afternoon the Riverton fire department will stage a demonstration at Roberts' store. Arrangements have been made by which this will be very interesting indeed. It will be a good chance to see your fire department in action. Saturday afternoon has been selected by the committee as the time to stage this demonstration in order that everyone may have a chance to see it.

Sunday morning, between 9:30 and noon, a hydroplane will be seen flying over Riverton taking a birds-eye view to be used in this film.

"The Romance of Riverton" will undoubtedly be the greatest attraction in filmdom that has ever been shown in this section. Tickets are now on sale at all the leading stores.

Owing to the limited capacity of the school auditorium, the committee has had only enough tickets to printed for the three dates, May 6, 7 and 8, to fill the hall

Plan Drive to Raise Funds for \$350,000 Burlington County Hospital

Campaign, With Hundreds of Workers Enlisted, Will Be Held May 17 to 27; Great Need Felt for New 100-Bed Structure

Preliminary plans were completed during the past week for an extensive cooperative effort on the part of residents throughout Burlington County to obtain a fund of \$350,000 to provide a new hospital to replace the present Burlington County Hospital structure. The active work of the effort will take place from May 17th to May 27th, when hundreds of workers will strive to attain the goal which will provide the county with greater hospital facilities.

Decision to strive for a new hospital has come only after lengthy consideration of the needs of Burlington County for adequate hospitalization. The present structure, efficient as it has become in its nearly half century of work, is far from a suitable structure in which the sick and injured of a large county can be cared for properly. The inadequacy of the present institution has resulted in many cases which it could ordinarily have handled being sent to hospitals in metropolitan centers nearby.

Under the plans, as outlined by the executive committee, a new structure will arise on Madison avenue, Mount Holly, directly opposite the present structure. It will be three stories in height and will contain 100 beds, sufficient for the present and future needs of the county. It will be so designated as to provide outside rooms and plenty of light for the occupants and will be of the most modern type, and will be erected in accordance with the latest modern hospitalization practices.

Central Location

Building the hospital in Mount Holly will afford a central location for county wide service as it is within reach of every population center in a minimum of time and will be, at the same time, in the center of a network of good roads, which will provide a means of rapid transportation for sick and injured. The former hospital will be slightly remodeled to provide a nurses' home and sleeping quarters for not only the nurses attached to the hospital but for special nurses as well, as the larger hospital will require a greater number of nurses. Where adequate provisions are made for nurses, it will also be possible to establish a training school for nurses and afford the hospital a constant supply of expert nurses at all times.

The cooperative effort to obtain funds for the new hospital will be under the direction of committees representing the various cities and townships throughout the county, with Franklin S. Chambers, of New Lisbon, as general chairman. The activities will be conducted from a headquarters which has been established in the former offices of Judge Stauch at 125 Main street, Mount Holly. Telephone service under exchange numbers 606 and 607 has already been established for quick communication with the various districts prior to and during the active work of the cooperative effort.

Chartered in 1880

The present Burlington County Hospital has had one of the most active and interesting careers of any of the county hospitals throughout the country. It was chartered April 20th, 1880, and began active service in May of the same year. The original incorporators were Theodore H. Risdon, Francis Ashhurst and Charles Bisham, Jr., and those composing the original board of managers were Mrs. Elizabeth C. Curtis, Mrs. Charles Bisham, Mrs. Isaac Budd, Mrs. Joseph C. Clark, Mrs. Francis Ashhurst, Mrs. Ewan Merritt, Mrs. Thomas D. Armstrong, Mrs. Robert H. Howard, Mrs. E. Cathell, and Mrs. Franklin B. Lewis. Of Mount Holly, Mrs. Theodore Budd of Pemberton, Mrs. Robert Clarkson of Beverly, Mrs. Joseph J. Pharo and Miss Lydia E. Pharo, of Tuckerton, and Miss Jane A. Aikman, of Burlington.

The hospital has gained one distinction seldom achieved by similar institutions that being the fact of only having five superintendents in a half century. The first superintendent was Dr. Francis Ashhurst, who served from the inception of the hospital until August 17th, 1885. He was succeeded by Dr. Richard H. Parsons, whose career as superintendent ended on his death in November 1916, after 31 years of active service. He was succeeded by Dr. Elmer D. Prickett, who was made medical director, in 1921, be-

represents the number that can be helped and all in excess must be removed from friends and family.

Many Free Operations During the past year, 9,665 days service were given at the hospital of which 4,880 days were free patients. This record of over 50 per cent. of the patients being given free treatment is high and in harmony with the free treatment rendered by other hospitals of much greater pretensions than the Burlington County Hospital. Despite the handicap of limited facilities, 373 operations were performed at the hospital last year, of which no small number were total operations extended free to children throughout the county.

Among those who will be active in the cooperative effort will be the present officers of the institution, including Miss Lydia M. Parry, president, Mrs. V. Claude Palmer, first vice-president, J. L. Clarkson, second vice-president, Miss Rebekah B. Willis, secretary, Mrs. Charles Colles, treasurer and Miss Ellen C. Curtis, assistant treasurer, of the Board of Managers, and the following officers of the Board of Council, Franklin S. Chambers, president, Alfred E. Darnell, first vice-president, Edward H. Lewis, second vice-president, Morris K. Perinich, secretary, A. Engle Conrow, treasurer, and V. Claude Palmer, solicitor.

Judges for Essay Contest Announced

County W. C. T. U. Encourages Pupils to Write Compositions on Temperance

The judges for the WCTU Prize Essay Contest in the schools of Burlington county have been selected and are as follows:— Miss Hulda K. Hewitt, and Mrs. Rebecca Wilkins, helping teachers for Burlington county; Miss Dorothy B. Smith, Mrs. Alfred Darnell, of Medford, and Mrs. Rachel Herr, of Moorestown. These judges will meet in the office of Louis J. Kaer, county superintendent, the last week in May or the first week in June to award the prizes so the money can be paid over to the winners before schools close. This will give an opportunity to hold any school exercises that may be desirable at the time and prizes are paid to the winners. The county WCTU essay contest closes May 15.

The amount of prizes to be paid by the WCTU was announced in the fall but may again be stated with advantage. The prize of \$10 is offered for the best essay written by any scholar of the High Schools on the subject "Preparation for Life Work and Tobacco Smoking" or "What I Have Been Told About the Harm Done by Alcoholic Drinks Before Prohibition," and \$5 for the second best essay written on the same subjects.

In the grades, \$5 is offered for the best story in the form of a play written by any scholar of the seventh and eighth grades on the subject, "Benjamin Franklin's Experience with Paper in the Printing Office," and \$2.50 as the second prize for the second best story in the form of a play written by any scholar in those grades.

In the fifth and sixth grades, \$5 is offered for the best booklet, "My Total Abstinence Book," prepared by any scholar in those grades, and \$2.50 for the second best booklet on the same subject.

The WCTU of Burlington county has set aside the sum of \$30 for the payment of prizes for essay work along the lines of temperance in the schools of Burlington county.

FOREIGN TRACK AND FIELD STARS

Three additional foreign track and field stars have been invited to compete in the national A. A. U. championships which will be held in Philadelphia, July 2, 6 and 8, during the Sesqui-Centennial Exposition, which will be held in Philadelphia from June 1 and December 1. They are Hunzari, the all-around star of Finland; Pelzer, a middle distance runner of Germany; and R. A. Rose, of New Zealand, who recently ran a mile in 4:12 3-5.

APRIL COAL PRICES NOW PREVAIL

Our April prices are now in effect and we have a sufficient stock of every size to fill all orders for prompt delivery.

We again urge our customers to put their year's supply in early as coal mined and shipped during the Spring and Summer months is much cleaner and better prepared and we have every reason to believe that the prevailing prices will be the lowest of the year.

We sell "Old Company's Lehigh" and "Jeddo" Coals.

Sheep Manure, Bone Meal and Lime for your lawns.

THE NEW ERA, RIVERTON, N. J.

PAGE SEVEN

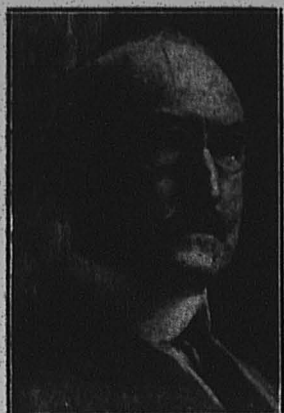

P. S. Official is Promoted

Richard R. Young is Made Vice-President in Charge of Sales

Richard R. Young, who has been new business agent of Public Service in charge of electric and gas sales since 1912, was elected vice president in charge of sales by the board of directors of Public Service Electric and Gas Company at the organization meeting held in Newark Terminal April 12. The board of directors of the several Public Service operating companies, all of which held their organization meetings on the same day, elected F. Milton Ludlow an assistant treasurer. Mr. Ludlow has been stock transfer clerk. Ivan L. Gulick, who has been auditor of Public Service Production Company, was made general auditor of that company.

Thomas N. McCarter was re-elected president of the various companies and the vice presidents and other officers were also re-elected.

Mr. Young was born in Forest Hill, a suburb of London, England, and came to this country in 1896.

RICHARD R. YOUNG

settling in Nebraska. In 1892 he became associated with the Omaha Gas Company, a subsidiary of the United Gas Improvement Company, as clerk. After three years in an educational course conducted by a national gas association, Mr. Young returned to the Omaha Gas Company as the first salesman employed by the newly organized commercial department of the company. In 1897 he was made agent of the South Omaha branch of the company.

In 1899 Mr. Young came to New Jersey, as agent of the Passaic office of the Paterson and Passaic Gas and Electric Company and in 1902 was made assistant secretary of that company. In 1907 he became agent of the Essex and Hudson Gas Company, with offices in Newark. In 1909 when Public Service Gas Company was formed, Mr. Young was made Essex Division agent and a year later when Public Service Electric Company was organized, he was given the same position with that company. In 1913 he became new business agent, or sales manager, of the two companies, covering all Public Service territory in New Jersey. Mr. Ludlow went first with the company's office, in 1916, and two years later was transferred to the treasurer's department as stock transfer clerk. He joined the United States Marine Corps in 1918 and returned to Public Service in 1919.

John Philip Sousa was a teacher of music at the age of fifteen and a conductor at seventeen.

BUY BUS LINE

Public Service Extends Express Service on Three Routes

In keeping with recently announced plans for developing and extending the operation of high class express bus service, Public Service Transportation Company has purchased the Arrow Bus Company which operates lines between Newark and Paterson, via Montclair; between Paterson and Midland Park and between Paterson and Ridgewood and Suffern.

The deal was consummated last week with John H. Stoddard, of Ridgewood, who owned the company, having developed it from a small enterprise operating two or three buses between Paterson and Upper Montclair. As part of the transaction Mr. Stoddard himself becomes associated with Public Service in a responsible executive position and his ability and experience will be utilized in the operation and further expansion of these and other similar lines.

Included in the purchase were fifty buses of a superior type and forty-two operating permits covering the three lines mentioned. Twenty-four of these permits are for service between Newark, Montclair and Paterson, two being used for local operation on Grove street, Montclair; six permits are in use between Paterson and Midland Park and twelve between Paterson, Ridgewood and Suffern.

Celebrate Boys' Week May 2-8

Mount Holly Service Clubs Plan Seven Days of Activity

Plans are being perfected for the proper observance of National Boys' Week in Mount Holly, May 2 to 8 inclusive, under the co-operation of the Rotary and Exchange Clubs, American Legion, Boy Scouts, YMCA and ministers of the town, and the tentative program that has been suggested to the various committees in charge of each day's activities during the week promises that it will be well balanced and interesting. The program will be similar to that of Boys' Week last year.

Sunday will be Boys' Day in the churches, when every boy in town will be urged to attend at least one service of the church of his faith. They will be accompanied by delegations of men from the town's service clubs.

Monday afternoon has been set aside for a loyalty parade, when a band of music will be engaged to head the big line of marching boys America over the streets of the town.

Tuesday has been designated Boys' Day in Citizenship, when it is expected that Manager Hulise will run a movie picture of an appropriate nature at the Mount Holly Theatre and arrangements will be made for the boys to attend.

Wednesday will be Boys' Day in Entertainment. A Treasure Hunt has been suggested as one of the activities and the committee in charge is considering other features for the occasion.

Thursday, Boys' Day in Industry, will be made to industrial plants of the town and perhaps inspection trips to fruit, general crop and chicken farms.

Friday, Boys' Evening at Home, will also be featured in the morning with an interesting address at Assembly at the high school, while every father of the town is urged to spend that evening at home with his boy. Special radio programs will be broadcast that evening for the boys. Saturday will be occupied with a Junior Olympic Track Meet and Marble Shooting Contest. The elimination trials for the track meet will be held a week previous, on Saturday, May 1, while the elimination trials for the marble contest will be on Friday, May 7.

Rectors Support Prohibition Law

Thirty New Jersey Episcopal Clergy Repudiate Action of Church Society

The Rev. John Talbot Ward, rector of St. Mary's Church, Burlington, is one of the thirty some clergymen of the New Jersey Episcopal Diocese who have signed a statement in which the action of the Church Temperance Society is repudiated and the declaration is made that prohibition should have a longer and fairer trial.

The communication which also is signed by Bishop Matthews and Bishop Albion W. Knight, is as follows:—"We, the undersigned clergy of the Protestant Episcopal Church in the Diocese of New Jersey want to dissociate ourselves absolutely from the pronouncement put forth by the secretary of the Church (Protestant Episcopal) Temperance Society on the subject of the modification of the Volstead Act. Further, we are convinced that that act should have a fairer and longer trial than it has yet had, to prove its effectiveness."

In addition to Bishops Matthews and Knight, the signers of the statement are: A. Q. Bailey, William Reid Cross, W. Dutton Dale, John F. Fenton, Howard S. Fraser, West E. Grimsbury, John Mitchell Harper, Wilson S. Hartel, Thomas L. Josephs, R. Kemp, Charles E. Kennedy, Gordon L. Kidd, H. Lancelles, Robert MacKellar, S. G. Morton Montgomery, W. H. Moor, Elliston J. Perot, J. Mervin Pettit, Arthur S. Phelps, T. B. Fennell, W. B. Rogers, H. A. Linwood Sadler, Norman Stockett, Harold J. Sweeney, F. P. Swesey, C. W. Twing, Clarence R. Wagner, John Talbot Ward, Joseph W. Watts, Samuel G. Welles, Robert G. Williams, C. S. Wood, A. B. Baker, L. H. Litchfield.

Speaking of the statement yesterday Canon Samuel G. Welles, of Trenton said:—

"In view of the fact that, through the advocacy of the modification of the Volstead Act in the report of the superintendent of the Church Temperance Society (an official organization of the Protestant Episcopal Church) many people, unaffiliated about the status of the Church Temperance Society in its relation to the Protestant Episcopal Church as a whole, have gained the impression that the Episcopal Church favors a modification of the Volstead Act, so as to allow the manufacture and sale of light wine and beer."

"The Church Temperance Society is a small organization, composed of members of the Protestant Episcopal Church. It does not seek, nor is it given any sanction or endorsement of its views by any official body of the church. This society is not responsible to the Protestant Episcopal Church for any views it puts forth, nor is that church to be held responsible for any views which the Church Temperance Society expresses."

There is more joy upon earth over one sin found out than over ninety and nine sins forsaken.—Boston Transcript.

RURAL SCHOOL WATER SUPPLIES IMPROVED

A great improvement in the sanitary quality of rural school water supplies is indicated by the results so far obtained on the second series of examinations made by the Bureau of Chemistry of the New Jersey State Department of Health. Chemical and bacteriologic analyses of the water supplies of about 750 rural schools, made last fall by the Bureau of Chemistry, showed more than half of these supplies to be potentially unsafe for drinking purposes.

Reports of the conditions found were made to the local boards of education concerned, and, urged by the State Department of Health, instruction, improvements in the supplies were begun. At the present time a reexamination of the water is under way by the Bureau of Chemistry, and the examination of the samples so far submitted indicates the improvement stated above.

The State Department of Public Instruction and Health are cooperating with the rural school officials to provide as quickly as possible a safe water supply for every school in New Jersey; an important contribution to the health of school children which is emphasized throughout the country on May Day, as it is now called, Child Health Day.

Home Canning Exhibit at Fair

Housewives Will Have Opportunity to Exhibit Kitchen Products

Shades of the old fashioned kitchen when pots and kettles steamed during the season for fresh vegetables and fruits.

Home canning exhibits will be one of the interesting features of the wide range of exhibits which will be seen at the South Jersey Exposition which opens July 1 and continues to September 6.

"Perhaps the modern kitchen is not so modern but that the art of home canning is still a very important function," said Volney Bennett, president of the Exposition, in making the announcement that an extensive exhibit of the kitchen canned products would be encouraged. Inquiries from women in all parts of South Jersey, asking if there would be an opportunity for them to show their home products, resulted in the decision of the management to care for this form of exhibit.

Women throughout the state will be permitted to enter their fruits and vegetables in any quantity. These will be labeled and shown in elaborate display. Domestic science and food experts will form a board

of judges which will pick winners from among the entrants, and prizes will be awarded. Numerous newspapers in South Jersey have agreed to sponsor the move to encourage home canning.

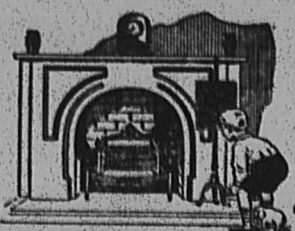

In their respective fields. These publications will print rules and details of the canning contests. They also will publish receipts and suggestions from experts on the art of canning.

SPECIAL SALE!

\$10 Allowance
On your old range.
Special offer on the new
Smoothtop
GAS RANGE
WITH SUPER VULCAN BURNERS

This Offer Will Be Withdrawn May First

For better cooking and baking results we advise your trading-in your old cook stove on the Ten Dollar Allowance feature toward a new SMOOTHTOP model.

With the Smoothtop you will benefit in more ways than one. With it comes oven heat regulation to gether with top-stove heat control. Top-stove results, where 75% of cooking is done, have been bettered by the solid Smoothtop idea. Super-Vulcan burners under the solid top of the Smoothtop produce four different heat zones: speed, boiling, simmering, warming—giving to the housekeeper quicker, more dependable cooking results.

Cooking Demonstration

every day this week and next

Come in and see the interesting way Smoothtop cooks—bakes—and how four vessels cook over one lighted burner.

Illustrated are two popular Smoothtop models. There are others on view at every Public Service salesroom.

Be sure to order your new Smoothtop now in order to get the special cash allowance on your old range.

A compact model that gives greater cooking surface with less floor space. Roomy baking and broiler oven. Equipped with three full-sized Super-Vulcan Burners and a convenient extra burner for simmering.

A compact model that gives 10% greater cooking surface with less floor space. Three full-sized Super-Vulcan Burners and a convenient extra burner for simmering. Oven heat regulation. 40 1/2 inches wide.

IN THE FIELD OF PUBLIC SERVICE

NUMBER THREE

State-wide distribution of Gas, Electricity and Transit to a population of 3,000,000 people.

Paterson is world-famous as the center of the nation's silk industry. It is famous as well for its other textile mills. Its name is intimately associated with that of Alexander Hamilton, who conceived the project of founding a great manufacturing community to utilize power to be generated by the water of the Passaic River. Today, Paterson has within its corporate limits a population of approximately 145,000 people and a surrounding population of 100,000 more. Public Service supplies it with gas, electricity and transit.

Popular Ownership!

To a constantly increasing extent the securities of Public Service Corporation of New Jersey are being owned by those who depend upon the services provided by its operating companies.

The reason is to be found in the opportunity afforded small investors under our Popular Ownership Plan to safely invest their savings as they accumulate. Buy

Riverton Items

Mrs. Francis Elwell spent several
days last week in New York visiting
her father, Mr. Pell.
Mrs. Joseph M. Roberts is attend-
ing a convention of the D. A. R. in
Washington, this week.
Mr. and Mrs. C. T. Woolston have
returned to Riverton after spend-
ing a week at Asbury Park.
Mrs. Gordon Mattie is spending
this week with her daughter, Mrs.
Dorothy Wheeler, of New Brun-
swick.
Mrs. John R. Parry, who spent
the winter in Florida, has returned
to Riverton and rented an apart-
ment on Bank avenue.
Dr. J. E. Brown and family, of
Palmyra and Russell Jermon and
family spent Sunday with relatives
in Philadelphia.
Golden Hour Circle will hold a
cake sale on Saturday, April 24 at
Mrs. I. S. Williams, 700 Thomas
Avenue, Riverton.—Advertisement.
The regular monthly business
and social meeting of the Junio-
Philathea Club was held at the
home of Mrs. R. V. Townsend on
Monday evening.
Mr. and Mrs. A. W. Schramm,
who have been spending several
months in Florida, have returned to
Riverton. The trip was made on
the S. B. Karibair.
Mrs. L. E. Carpenter's mother,
Mrs. John Menasse, returned to her
home in Stamford, Kentucky, last
Friday. Mrs. Carpenter, who ac-
companied her, expects to return on
Saturday.
The Broadway Palace Theatre
will go on its Daylight Saving Time
schedule Monday. While the sum-
mer schedule is in effect there will
be two shows, starting at 7:45 and
9:30 each evening including Satur-
day.
The Camden Chapter of the Na-
tional Association of Organists met
in Christ Church, Riverton, Monday
evening, and gave a musical pro-
gram. Among the numbers were
solos by Mrs. S. W. Collins, harp
selections by Miss Margaret Vaughn,
accompanied by Miss Helen C.
Sterling on the organ, and selections
by Mrs. Frank A. Bell. After the
recital the members of the organiza-
tion went to the Presbyterian chap-
el, where they spent a social hour.
The card party given for the
benefit of the Riverton Baseball
Club in P. O. S. of A. Hall, Palmyra,
last Saturday night was well attend-
ed. About one hundred couples
patronized the dance floor while an
equal number were at the card
table. Seventy-six dollars in prizes
donated by the people of Riverton
were awarded the players. Music
by the Royal Commodore. The
ladies in charge of the affair were:
Mrs. Robert Hullings, Mrs. Hudson
Hullings and Mrs. John Hullings.

MEN'S CLUB

"American Indian" Will Be Topic of
Dr. Frank Speck
"The American Indian" will be the
speaker's subject at the meeting
of the Men's Club of Christ Church,
Palmyra, in the Parish House Mon-
day evening.
The speaker will be Dr. Frank
Speck, instructor of the department
of anthropology, University of Pen-
sylvania, who will give an illustrated
talk.
Dr. Speck is a very fluent and in-
teresting speaker and will have a
message well worth hearing. He
has just returned from a 3-week
trip to the recently discovered gold
mine in Canada and is expected to
touch on the trip, and the finding
of this great wealth, during the
course of his address.
The delightful program which has
been arranged will include vocal
duets by Miss Becker and Mrs.
Turner and readings by Miss Helen
McConnell, Palmyra's popular circu-
larianist.
J. HARRY DOUGLASS
J. Harry Douglass, 60 years old,
a former resident of Palmyra, died
at his home, 720 North 10th and
Wharton streets Philadelphia, Thurs-
day last week. Mr. Douglass had
been suffering with complications for
some time and had been confined to
his bed for several months.
Funeral services were held at his
late residence Monday afternoon at
2 o'clock and interment was made
in Mount Moriah Cemetery.
Mr. Douglass is survived by his
wife, who is a sister of Chief of
Police C. Morris Beck, of Palmyra,
two daughters and one son, all mar-
ried.
The deceased was the manager of
Palmyra's crack baseball team twenty-
five years ago.

ANNURRY

Services on Sunday will be on
daylight saving time, in the Asbury
M. E. Church, 9:30 a. m. preaching
by Rev. John F. Lennon; 10:30
a. m. Sunday School; 7:30 p. m.
in charge of Aaron F. Yount, of
Camden.
Rev. and Mrs. Fred E. Tansley
were visitors at the home of Miss
May Ward on Monday.
George Hess, Jr., George Hess, Jr.,
Mr. and Mrs. Harry Stiles and
daughter, Margaret and Horace Man-
son, of Riverside, were visitors in
Asbury on Sunday.

Sweeney, 502 North Fourth street,
Camden, was best man. Following
the ceremony, Mr. and Mrs. Bennett
were entertained by A. E. MacKinnon,
director of the South Jersey
Exposition at his New York home.
A formal reception has been planned
for the bride on her return from
the honeymoon.

The wedding was kept secret, and
not until a telegram was received
from the bridegroom by Cecil Bent-
ley, of Merchantville, the best friend
of the bridegroom, did anyone know
of the marriage.
Mr. Bennett is vice president of
the V. G. Bennett Lumber Company.
His father is president of the com-
pany and of the South Jersey Ex-
position. The couple will make their
home with the bridegroom's parents
in Merchantville until their Haddon-
field residence is completed.

BAPTIST CHURCH NOTES

Attendance at the Central Baptist
Church is increasing each Sunday
with the advent of God. In the
attraction of the pastor's in-
spiring sermons, Bible School schol-
ars also are crowding the capacity
of the building. Large attendances
are especially marked in the Primary
Department where all but four of
the total enrollment was present
last Sunday. Let us make it 100%
next Sunday.

Pastor Lockett's sermon subject
Sunday morning at 11:15 will be:
"The Kingdom of God." In the
evening Huddle's Student Orchestra
composed of many of our High
School students will give a sacred
concert and the pastor will give the
interesting history of "Some Well
Known Hymns."

This afternoon (Thursday) the
Philathea Ladies will meet at Mrs.
Van Osten's home, 813 Lincoln ave-
nue for their monthly thimble party.
Friday afternoon the "Happy
Hour" kiddies meet at four. Fri-
day evening the Young People's So-
ciety will have an enthusiastic meet-
ing and will prepare for the rep-
etition of the play, "Pag O' My Heart."
In the Camden Y.M.C.A. on Satur-
day evening, "The latest rap" will be
presented. The play will be better
than ever and it is expected that
a large number of people will go
down to Camden from Palmyra and
Riverton to enjoy it. The Young
People's advice is "go early and
avoid the rush!" The curtain will
rise at 8:15.

BIDS OPENED

Freeholders Sean Contractor's Fig-
ures for New Lisbon Work

At the meeting of the Burlington
County Board of Freeholders last
Friday, bids were opened for altera-
tion and additions to the Fairview
Sanatorium at New Lisbon and
building a connecting corridor be-
tween the old structure and the
newer one.
The bids were as follows:
John M. Yardley, Philadelphia
\$24,821; Roscoe C. Gale, Mount
Holly, \$26,650; Hugh B. Miller,
Edgewater Park, \$29,488; John
Toth, Trenton, \$19,941. This bid
was not considered owing to the
fact that no certified check accom-
panied it as required in the specifi-
cations.
There were two bids for electrical
work:
Enterprise Electrical Company,
Philadelphia, \$2,650, plus \$100 for
alternate specified; E. T. Janney
Electrical Company, Dancocks, \$2-
400, plus \$250 alternate.

The plumbing and heating bids
were as follows:
George D. Worrell, Mount Holly,
\$1987.32; A. A. Stidford, Mount
Holly, \$1760.87, less \$250 alternate;
Albert Ellis, Mount Holly, \$1217.
No certified check accompanied this
bid, but it was accepted.
The bids were referred to the
Director of the Department of Pub-
lic Buildings.

The request of Northampton for
fifteen new election booths was re-
ferred to the department of Public
Affairs. The clerk of Mercer Coun-
ty sent the freeholders a copy of
a resolution passed by his board
asking the cooperation of Burling-
ton County in the repair of a bridge
at Groveville near Crosswicks. Cur-
ron B. Fisher, director of Bridges
offered a resolution which was
unanimously passed that the desired
co-operation be given. Bills of
Weightman & Leoney were referred
to the solicitor for a report.

LEAGUE OF WOMEN VOTERS

The Riverton-Palmyra Branch of
League of Women Voters will enter-
tain the county meeting next Wed-
nesday, April 26th, at 10:30 in the
Porch Club. Mrs. Herman G. Terry
of Edgewater Park, will preside.

Louis J. Kaser, county superin-
tendent of schools, will talk on
Education.
Mrs. J. N. Simmons, of North
Jersey, will speak on State Legisla-
tion, dealing with child labor, and
Mr. Emerson, of Philadelphia, will
tell of the Pennsylvania side of the
problem of migrating farm labor.
Mrs. Joseph Evans will describe
the work of the summer school at
Cincinnati for the children of the
migrating farm laborers.
Box luncheon, tea and coffee
will be served.
All interested are invited.

DISCUSS FIRE APPARATUS

A meeting of the Board of Direc-
tors of the Riverton Fire Company
was held Monday night to further
consider additional apparatus. Sev-
eral plans were tabled and consid-
ering the purchase of another pumper
and putting chemical tanks on this
present pumper outfit.

QUANTICO TEAM TO PLAY IN REQUI

The Quantico Marine Corps base-
ball team, which in three days
scored no-run and no-hit victories
over Bucknell and Rutgers will re-
present the Marines in the Army,
Navy and Marine baseball champion-
ship tournament to be held this
summer in the Philadelphia Muni-
cipal Stadium. These games will be
part of the sports program of the
Sequoi-Continental International Ex-
position, which will be held from
June 1 to December 1.

BUILDING NOW OCCUPIED

The Administration Building of
the Sequoi-Continental International
Exposition, to be held in Philadel-
phia from June 1 to December 1, is
now occupied by the office staff of
the Exposition. The Administration
Building is located at Broad street
and Croston avenue, the corner of
the Exposition grounds. The plan
is composed of about three hundred
persons.

Seven Weeks of Fire Prevention

South Jersey Departments to
Give Demonstration at
Exposition

South Jersey firemen have launch-
ed an ambitious program which is
expected to result in national promi-
nence for this section. High spots
in the plan follow:

Seven weeks of practical fire pre-
vention demonstrations at the South
Jersey Exposition.

Seven weeks of competitive tests
with each of the seven South Jersey
Counties occupying one week.

Three days of final competitions
in which the winners from each
county will take part.

Competitive tests for paid de-
partments from Philadelphia, Atlan-
tic City, Newark and New York.

Formation of the children of
South Jersey into a "Fire Preven-
tor's League," with state recogni-
tion.

Organization of the companies of
the seven South Jersey counties into
the South Jersey Firemen's Associa-
tion.

The ambitious plans of the fire-
men were evolved from a modest
beginning when representatives from
twenty-three companies met to ar-
range for demonstrations at the Ex-
position grounds which would require
one or two days.

Birth of Broader Idea

Another meeting was held at
Camden. It was here the broader
idea had its birth. Nobody attend-
ed the gathering with a complete
plan, but, as suggestions followed
each other, the component parts
took definite shape and then the
complete picture unfolded.

The feasibility of the plans, their
importance from a state and nation-
al viewpoint, and the manner of
their birth, brought a momentary
pause from the authors as they
realized the magnitude of their pos-
sibilities.

When the meeting adjourned,
complete carrying out of the plan
was virtually assured.

Dr. Carroll T. Rodgers, president
of the Gloucester County Firemen's
Association, presided at the meeting,
which was held at the Walt Whit-
man Hotel, Salem, Gloucester, Cum-
berland, Atlantic, Camden, Burling-
ton and Cape May Counties had re-
ported they would support the
move for a proper celebration at
the South Jersey Exposition. This
was the original tentative plan for
a one or two-day demonstration.

Director Rodgers, of the Ex-
position, then suggested a general
program to extend over several
weeks, with the National Board of
Underwriters and other organiza-
tions, along with makers of fire
fighting appliances, supplying prac-
tical and education features as a
background.

Dr. Rodgers next outlined a plan
for the tests to be held among the
firemen. They included: Chemical
crews; combers; stripping ladder
trucks; water pump hook-up and
lay-out; reviving unconscious per-
sons; smoke mask and rescue dem-
onstrations.

The discussion which started with
the suggested plan, broadened until

it had taken in all the elements
which finally became a part of the
elaborate program enumerated.

Week for Each County

The unpracticability of having all
the individual companies in the sev-
en counties come to the Exposition
grounds on the same two days, for
competition, resulted in the decision
to have each county association al-
lotted a week at the grounds, in
which they would have elimination
contests. The winners will receive
medals and certificates of award
from the Exposition. The particu-
lar "week" will be named after
each county and residents of the
respective sections will be asked to
support their companies through
their presence.

The attractiveness of the suggest-
ed programs so enthused the repre-
sentatives at the meeting that numer-
ous plans were evolved.

Out of the mass of suggestions
came one from the formation of the
"Fire Preventor's League." This
provides that the state give certi-
ficates of membership to children who
witness the fire prevention tests
and practical demonstrations. The
movement, the authors agreed,
might easily become national in its
scope.

With executives from the seven
county associations working togeth-
er on the plans, it was suggested
by Assemblyman John R. Stratton
of Gloucester County, that the in-
terested associations organize them-
selves into the South Jersey Fire-
men's Association. This met with
favor from those present, and along
with the other plans outlined, will
be presented to the association for
action. It was the opinion of those
present that the proposed associa-
tion of the South Jersey groups
would be a forerunner for a State
Association.

NOW WE'LL FIND OUT

Junior of P. E. S. Will Not Forth
"What Happened to Jones"

Everyone of the Junior Class of
the Palmyra High School, is on his
toes, in order to make a debut over

Galloway Discusses Taxes, Street Paving and Living Costs in Letter

How can we have the streets out of our income? At the present time, taxes and living are too high. In the first place it costs a home owner just as much to live in his own home as it does for the man who rents.

If you own and live in your own home, you tax your own income for all improvements and if you rent your home, the owner pays the increase down to you in the form of rent. Now let us deal in some real facts about our home town of Palmyra, N. J.

Let us first take the assessed valuation and taxes for the years 1925 and 1926 after which will give a fair basis of two classes of income. Palmyra's total assessed valuation in 1925, \$3,106,621; 1926, \$3,485,651. Increase \$379,030.

Amounts collected in taxes in 1925, \$135,127; 1926, \$160,523.95. Increase \$25,396.95.

How taxes are divided

	1925	1926
State	14,001.12	16,052.39
County	35,726.14	41,177.88
School	59,957.79	66,652.34
Borough	24,852.87	26,411.35

Total \$135,127.02 1925, \$160,523.95 1926. Allowing that the increase of \$25,396.95 in assessed valuation was on new properties it shows that the State reduced its tax \$210.67, School reduced its tax \$621.32.

Total decrease \$832.00. County increased \$652.00. These two items balance one another.

While the Borough increased its tax \$776.55. This shows that our taxes are still going up.

Now we will take the two classes of income.

1st. The man with an income of \$3000 per year.

2nd. The man with an income of \$1500 per year.

We all know that the general cry in this country is for tax reduction and our National Government is crying economy, that means that you and I are called upon to practice economy as we are part of this government, and let me say right now that the National Government did meet the demand for lower taxation and decreased taxes.

While our local government increases our taxes. We should follow the example set by the Government at Washington and practice economy at home and then broadcast it.

We cannot expect the National Government to reduce taxes, if the local taxes are increased, any more than you would expect the retailer to reduce his prices, if the wholesaler did not reduce his prices first.

If we the local Government keeps on increasing taxes in the future as in the past, the day will surely come when the busy bee will stop his daily work long enough to sting you and that time will be when you get assessed on an inflated value of your property, and later become a part of the market, then your income will drop, while your assessment and taxes remain at the top notch.

The local Government may tell you that the tax rate will be reduced then but that puts me in mind of the bad man who was trying to be good, so he got a new post of wood and planted it and gave it several coats of white paint and then had it enameled, and every time he did a bad deed he would drive a nail into this beautiful post, and when he did a good deed he would pull out one of these nails, as he got older and better and his good deeds were greater than his bad ones, he had no nails to pull, but as he passed this post daily he would exclaim with shame, Look at the scars in that beautiful post.

That is the way it will be when they reduce your tax rate, but you will stop and exclaim look at the assessment. Now try to get your assessment reduced, and the first thing the Government will ask you is: "Will you sell for the assessed value?" And you will tell them that you did not buy to sell, and that you wanted to live in the house, but it is assessed too high, then they say: "So your old man." Now think this over and apply the figures that you will read below to yourself and see what has happened in a general way.

1st. class—Your home 12 years ago cost you \$3500 and was assessed for \$1200.

The supposed value is now \$7500 and is assessed for \$4100.

The income for this class is \$1600 a year now. Twelve years ago \$1400.

2nd. class—Your home 12 years ago cost you \$1750 and was assessed for \$600.

The supposed value is now \$3750 and is assessed for \$2050.

The income for this class is \$1500 a year now. Twelve years ago \$700.

I use the term supposed value because the true value is that which you could get for same at a forced sale.

The man with an income of \$3000 and living in his own home whose assessed value is \$7500 should deduct \$750 from his salary, to cover the yearly cost of living in this house and the man with an income of \$1500 should deduct \$375 to cover his cost.

Wise men for years, have said that you should never pay over 25% of your income for rent and here is the proof.

Supposed value of house \$7500 or 6% \$450.00 Taxes \$14.00 Water \$12.00 Sewer Assessment \$7.00 Sewer Maintenance \$4.00 1% of supposed value of \$7500 for repairs \$75.00 Insurance and etc. \$15.00

This proves that we have the correct amount to be charged against our income as rent.

Now comes the fun for the man who has an income of \$2000 a year. To spend it he calls on his wife, son and daughter to help him, and this dandy American family, form a council and prepare a budget as given below:

25% for Rent	\$500.00
25% for Food	\$500.00
10% for Clothes	\$200.00
5% for Insurance	\$100.00
5% for Church	\$100.00
5% for Savings	\$100.00
5% for Social	\$100.00
4% for Household	\$80.00
4% for Doctor	\$80.00

Now comes the fun for the man who has an income of \$2000 a year. To spend it he calls on his wife, son and daughter to help him, and this dandy American family, form a council and prepare a budget as given below:

25% for Rent	\$500.00
25% for Food	\$500.00
10% for Clothes	\$200.00
5% for Insurance	\$100.00

5% for Savings	\$100.00
5% for Social	\$100.00
4% for Household	\$80.00
4% for Doctor	\$80.00

Now comes the fun for the man who has an income of \$2000 a year. To spend it he calls on his wife, son and daughter to help him, and this dandy American family, form a council and prepare a budget as given below:

25% for Rent	\$500.00
25% for Food	\$500.00
10% for Clothes	\$200.00
5% for Insurance	\$100.00
5% for Church	\$100.00
5% for Savings	\$100.00
5% for Social	\$100.00
4% for Household	\$80.00
4% for Doctor	\$80.00

4% for Carefare \$120.00
2% for Gas and Elec \$60.00
2% for Movies \$60.00
2% for Vacation \$60.00
2% for Shoes \$60.00

100% 100% \$2000.00
This 100% American family of father, mother, son and daughter thought they had done their best when this was completed.

Father starts to figure and finds that he must make for each day worked, a scale as noted below.

By working every day or 365 a year he must make \$5.22 per day, and by not working on Saturdays and only a half day on Saturdays and taking four holidays such as New Years Day, Fourth of July, Thanksgiving and Xmas, that he would work only 322 days and must make \$10.40 each day he works.

And he loses a day when it rains so he allowed one day a month and he had that he only had 271 working days in a year and must make \$11.07 per day.

He then thinks of the \$60.00 laid aside in the budget for vacation and takes a week off, stays home and helps around the house and uses the \$60.00 which was laid aside for vacation to make up the amount lost in wages and not allowed for.

Mother had not been idle while father was busy and she finds that each year she had two meals and a lunch to get each day of 1095 meals and \$50.00 per year to do it with and finds that it would allow her only 68 1/2 cents per meal or .17 cents per person. Now let each son and daughter as we are one of them figure all items allowed and see where you can honestly cut the home budget to allow enough to pay our taxes. May God bless the mother who has to figure her allowance of \$375 for 1095 meals.

R. B. Galloway, Jr.
402 Cleveland Ave.,
Palmyra, N. J.

PAYMENTS WILL BE GIVEN AS FEATURES OF REQUEST

The romance of history in striking episodes from the fall of Babylon and days of King Solomon down to modern events will be depicted in pageant during the Sequi-Centennial International Exposition, to be held in Philadelphia from June 1 to December 1.

All the famous characters of time will be fitted into spectacles which will be a new departure in the staging of giant theatrical productions. Famous actors and operatic stars will play the principal roles.

No week during the Exposition will be without two or three of these brilliant displays. The first pageant will be given on Monday, May 31, in connection with a Memorial Day program.

A world basketball tournament for men is being staged by Dr. George W. Orton, sports director of the Sequi-Centennial International Exposition, to be held in Philadelphia from June 1 to December 1.

The Edmonton team, of Alberta, Canada, winners of the world title held in the 1924 Olympic games, has written to Dr. Orton of his willingness to defend his title.

COMPENSATION

If earth were never wrapped in night
On man would never dawn the thought
We cannot reach "the raptured height"
Until we walk "the vale of sorrow."

An sunshine sweetly follows rain—
So smiles of joy come after weeping.
With bitter tears—in grief and pain—
We sow for a golden reaping.

If earth should her tears withhold
Sweet flowers would miss her fragrant showers;
If darkness days we ne'er behold
Less bright will seem the golden hours.

And, if a loss the soul sustain—
Vainly would be our fretful grieving;
For us—upon the loom of pain—
A glorious fabric Love is weaving.

The highest, sweetest joy of life
Can only come to us in giving,
And we must cross "the sea of death"

To mingle with the truly living,
Who yieldeth up his life shall gain—
And who would save his own shall lose it.

Oh, radiant is the path of pain—
And sweet to loyal souls who choose it!
—George Vail Williams.

A amir grass found extensively in Japanese water, which is a fiber which, when mixed with cotton, both strengthens and cheapens thread usually made of the latter alone.

Mrs. Rebecca Longfield, and daughter, Ruth, spent the weekend in Palmyra visiting relatives.

Harry King, Frank King and Mrs. Mary V. King, were among the many fans of Palmyra who attended the opening game of the season in Bluffs Park between the A's and Washingtons.

SUNSET BLAZE

A sunset blaze in Palmyra's latest innovation in fire.

At least that was what greeted the Palmyra Fire Company when it answered a call at Second and Cinnaminson Avenue about 6:30 Monday evening.

One of the good ladies in that neighborhood happened to glance at the home of a neighbor, who was not at home and noticed a reddish glow against the window pane. Naturally, it must be a fire, decided the lady, and she promptly telephoned for the company.

Then, after sending in the alarm, she made a closer inspection and the radiant color against the window, thought to be a blaze, proved only to be the brilliant reflection of the setting sun.

She decided not to tell the firemen about it when they arrived in the neighborhood. So the firemen, after searching in vain, returned to the firehouse and asked the operator who it was that sent in the alarm. They got the lady's number and then she told them of her mistake and apologized.

Palmyra Passes Truck Ordinance

New Ladder Equipment Will Be Advertised For at Once

Palmyra Borough Council at its meeting Tuesday evening gave final passage to the ordinance providing for the purchase of a new ladder truck for Independence Fire Company at a cost not to exceed \$8,000.

Mayor Weart instructed the Fire and Police Committee of Borough Council to meet with the committee of the fire company to decide on specifications so that bids can be asked at once. The matter will come before council at an adjourned meeting next Tuesday evening.

An ordinance was introduced and passed on first reading for the building of a new street from Broad street to the High School building and for the condemnation of such land as may be needed for that purpose.

The new street will be named Weart Boulevard, in honor of Palmyra's first Mayor, who has long advocated a street leading to the high school building.

Several requests for new sidewalk were received and a general sidewalk ordinance covering the whole town will be drafted at an early date.

The sewer committee was instructed to have plans drawn for sewer extensions on Lincoln, Columbia, and Memorial avenues.

The matter of concrete streets for Riverside street, upon the whole town will be drafted at an early date.

The building inspector reported having 28 permits for the month for operations totalling \$47,865. Nine of the permits are for dwellings, worth a total of \$41,635.

Palmyra Notes

Nick Reitz has purchased a new Buick sedan.

Mr. and Mrs. Thomas Carroll, Jr. spent the weekend in Atlantic City.

W. T. McAllister and Spencer Johnson are spending the week in Avalon.

Mrs. Anna V. Blackburn spent several days of this week with relatives in Trenton.

Mr. and Mrs. William Wanning and Herman Dietz spent the weekend at Pleasantville.

Harry Kemmerle Strang and Raymond J. Lamont motored to Atlantic City Sunday.

Mrs. Jacob Ullmann, of Philadelphia, is visiting Mrs. John Werrbach, of Garfield avenue.

Arthur C. Strang went to the Lankenau Hospital Philadelphia, Tuesday, for observation.

Mrs. John Graham, of Lecency avenue, is suffering with a broken ankle, received Monday.

Mrs. Jennie Sharp, of Modford, is the guest of her sister, Mrs. George C. Baker, of Elm Terrace.

Miss Mary E. Griffin, of Lincolnwood, N. J., visited the sister, Mrs. John Griffin, on Sunday.

Mrs. Harry Kemmerle, Jr. spent Tuesday in Riverside visiting her son, Walter Kemmerle and family.

Mrs. Wilbur Wessell, of Collingswood, is the guest of Mr. and Mrs. Thomas L. Griffenberg for a few days.

Mr. and Mrs. W. Coffman Meade, of Yonkers, Pa., will spend the week end with Mr. and Mrs. Thomas L. Lee.

Mrs. M. D. Schaffer, Mrs. Edith Lee, Mr. and Mrs. DeWitt Russ and son, Nelson, motored to Beach Haven Sunday.

Miss Martha Nauman and Sidney Hatch, of Germantown, were the guests of Mr. and Mrs. George J. Seel, on Sunday.

The Misses Pauline and Grace Robinson, of Springfield, Mass., were weekend guests of Mrs. J. McMahon, of Columbia Avenue.

Mrs. William F. Blackburn, of Cinnaminson Avenue, has been called to Lebanon, Pa., on account of the serious illness of a brother.

Mrs. John Hoefner, treasurer of the Palmyra Ambulance reported contribution during the past week it was a \$5 donation from a friend.

Clayton Wetkman and James Rambeau, of Palmyra, Miss Helen Tice, of Riverside, and Miss Bodine, of Camden, motored to Hushell Falls, Pa. Sunday.

Starting Monday night the Broadway Palace Theatre will run on Daylight Saving Time with two shows each night, including Saturday, starting at 7:45 and 9:30.

A conference of the American Legion state athletic officers at New Haven, Conn., April 25. "Boots" is the New Jersey Legion state athletic officer.

M. and Mrs. William B. Powell, Mrs. Corolla Cann, and George Powell, of Modford, who is visiting in Palmyra, spent Sunday in Mount Holly with Joseph Haines, who is very ill.

The marriage of Miss Seel and Mr. Christopher William Rudolph will take place at the Central Baptist Church, on Saturday, April 24 at 7:45 p. m. The Rev. George Lockett will perform the ceremony.

Mr. and Mrs. Gideon H. Horter, of 314 Columbia avenue, are receiving congratulations upon the birth of a son, Gene Dale Horter, on April 16th. Mrs. Horter before her marriage was Miss Janice M. Thomas.

Walter French and "Mickey" Cochrane, stars of the Abbeville ball club, will speak at the dinner meeting of the Goodfellowship Class at the Walt Whitman Hotel, Camden, tonight.

Sunday quite a crowd of men enjoyed the regular weekly meeting of the Palmyra Y. M. C. A. Bible Class from three to four o'clock Sunday afternoon in the "Y" building. All men are urged to attend.

Mrs. Leonard R. Baker, of Garfield avenue, and Mrs. Tomlinson and Mrs. Leon C. Jones, of Riverton, attended the musical tea given for the benefit of the Haddonfield Loving Service by Mrs. Victor Clymer and Mrs. Ralph VanHart at Haddonfield Saturday.

A sixteen-year-old lad was arrested by Officer Lawrence Betty after he had loitered around Palmyra station for some time Saturday. He turned out to be a runaway son of a good Camden family. He was Walter Anderson, 1410 Haddon Avenue, and had left home Thursday. Chief Beck's severe questioning brought out the fact that the lad was a habitual runaway.

Already considerable interest is being expressed in Ambulance Day, Saturday, May 8, when the Palmyra Ambulance Association will stage its annual drive for funds. Many cakes have been promised and everyone in the town will be prepared to make a substantial contribution for their lady, Mrs. George W. Winer, president of the Association.

Charles King, colored, of West Palmyra was held on default of \$500 bail in Mount Holly Wednesday morning for hearing today (Thursday). King was arrested Tuesday by Officer Wallace on warrants from Justice of the Peace William L. Fletcher and a justice in Mount Holly. He was placed under the bond by the Mount Holly justice charged with non-support of his wife and family.

The Palmyra Girl Scouts will give an apron social and demonstration in the Epworth M. E. Temple Thursday evening, May 13. The girls will have a unique way of charging for admission which will mean a saving for the thin folks, as those attending will be charged a cent for each inch of their waist measure. The Palmyra Troop 1, which was only organized recently, has a membership of 215 girls and Miss "Kay" Green as their captain.

The Palmyra Fire Company was called to a blaze at the manure stacks along the railroad tracks below Pensauken Creek Tuesday afternoon. The second alarm, sounded about a half hour after the siren blew the first time, was to call out more members to man the chemical truck, which was needed for its hose supply. Palmyra pumping water from the creek and relayed it through more than 2,000 feet of hose for an hour. Merchantsville fire department was called on to supply some of the hose. The Riverton boys were also called upon for hose and later made a second run to the scene, the pumping operations.

C. E. RALLY
Great Spring Meeting Will Be Held in Burlington April 30

The spring rally of the Burlington County Christian Endeavor Union will be held on Friday evening, April 30, in the First Presbyterian Church of Burlington. An exceptional program is being arranged by the executive committee, headed by the Rev. Homer J. O. Rinker, president of the Union.

The Rev. S. H. Gapp, D. D. Ph. D., of Bethlehem, Pa., a member of the Administrative Board and Superintendent of Young People's Work of the Moravian Church in America, will make the address. Select numbers of vocal and instrumental music will be rendered.

The meeting will close with a delightful post-accidental social. This rally will be an outstanding inspirational inter-denominational gathering of Christian workers and a meeting of special interest to the young people of our churches.

A cordial invitation is extended to all to come and help make this the biggest and best rally yet.

Court Disposes of Several Cases

Hooch Runner Pleads Guilty; Yansick Gets Six Months and \$300 Fine

When Richard M. Grant, alias Young Giffon, was arrested in Mount Holly in November last he was driving a brand new Studebaker coach, and being charged with the transportation of liquor, naturally, the car was confiscated.

Later the car was ordered to be sold by Sheriff Pinewood but before this could be done the Huber Investment Company, of Philadelphia, a corporation of automobile purchases, put in a claim for the car.

The matter has been heard once or twice before Judge Slaughter and decision reserved, but last week Attorney Carroll, of Camden, presented evidence to prove the claim of the Huber Company, showing by witnesses that the original purchase price was \$1175 and that Grant had paid but \$576 cash, the company holding the notes for the balance.

The court issued an order returning the car to its original owner, the Huber Investment Company.

Lacock Pleads Guilty
Charles Lacock, of Philadelphia, pleaded guilty to the transporting of liquor through his counsel, Frank A. Hendrickson, and he will be sentenced this week. He was arrested in Palmyra last week with 15 gallons of hooch bound for Riverside.

Charles Nelson, of Washington Township, pleaded guilty to assault and battery on Floyd Mathis, and was fined \$100.

Stephen Calk, of Florence Township, through an interpreter, pleaded guilty to possession of liquor and having utensils for the manufacture of the same, and was fined \$300. His wife, Lena Calk, pleaded guilty to the sale of liquor, and was fined \$200.

Philip Jackson, colored, of Moorestown, did not deny that he had not supported his wife and four children, but said he had been out of work. He had been arrested on the complaint of Overseer of the Poor Hollingshead.

His father offered to go on his bond for \$500, and Jackson agreed to see that the children got \$15 a week of his wages, so he went free after he had been placed on probation for three years.

Yansick Sentence Changed
Albert Yansick, of Riverside Park, who has been in the county jail for some time, had his sentence reconsidered and was given six months in jail and a \$300 fine.

Norman Jackson, of Mount Holly, who had pleaded guilty to assault and battery on Warner Harris, and who has been in jail several weeks, was sentenced to three years on probation and must pay the costs, amounting to \$50 in six months.

In Orphans' Court on Thursday of last week Judge Slaughter had two of the largest estates to be settled that have been handled by the Court in several years—the estate of Theophilus Zurburg, deceased, of Riverside, and that of John W. C. Frishmuth, of Riverton. Neither of the accounts presented were final, but they showed that final settlement was in sight and that the counsel handling them and the executors had had plenty of work.

PRIZE FOR SLOGAN

Offered School Children For County Hospital Slogan

More than 20,000 school children in Burlington County have been given an opportunity during the past week to win a prize of \$25. This amount will be awarded to the school child who can suggest the most appealing slogan to be used in connection with the cooperative effort in behalf of the Burlington County Hospital which will be conducted May 17th to May 27th to raise a fund of \$250,000 for a new hospital.

Folders announcing the contest and giving a brief history of the hospital and its needs were circulated among the children early this week. It was especially pointed out that parents can be of assistance in aiding the children evolve a suitable slogan. It is anticipated that at least 5,000 slogans will be submitted which will be judged by Judge Harold B. Wells of Bordentown and V. Claude Palmer of Moorestown.

The child selected as the winner will be awarded the amount. At the dinner which will open the campaign May 17th.

WORLD SERIES GAMES

Baseball Mugs Sold to Favor Staging Contests at Sesqui-International Exposition

Major League owners and managers are warming up to the invitation to play two games of this year's world series at the new Municipal Stadium in Philadelphia as part of the Sesqui-Centennial International Exposition which opens June 1 and continues to December 1.

The international aspect of the exposition and the opportunity to introduce the sport to the thousands of visitors from foreign shores have caused the change in the managers' viewpoint. There will be many at the Exposition who never have seen a baseball game and a world series contest, according to an official, who believes will turn them into baseball enthusiasts.

Another official says baseball shouldn't pass up the advertising features which already have been recognized by every other sport.

"Virtually every major sport organization," he declared, "has taken advantage of the Sesqui-Centennial to boost its activities. All the sport classics, with the exception of the world series, will be held in Philadelphia sometime during the Exposition. The big leagues should do likewise."

Dr. George W. Orton, sports director of the Exposition, plans to invite all the league officials and managers to the Stadium while they are visiting Philadelphia this summer.

Plan Big Week at County Fair

Many Unusual Features on Program Which Opens May 31

Commencing May 31, and lasting for an entire week, both day and night, Mount Holly is to have a revival of the old Burlington County Fair which made it so popular and famous for so many years. Under the direction of Miss Helen Mac Hugh, a former Mount Holly girl who has rented the Grounds for the week, arrangements are being made for an unusual entertainment.

A Klan Day will be observed on Monday, May 31, through courtesy to the Ku Klux Klan of New Jersey, the present owners of the Fair Grounds. Though this day has been accorded the organization and designated as its day, everyone will be welcome the same as on any other day during the week.

Special features are being arranged by the Klan officials to celebrate their day and the program, consisting of a Klan Wedding, with a local minister officiating and a local couple as the parties most interested; drills by the military division of the Klan; a monstrous parade at night around the race track with the white robes outlined by hundreds of red flares; and other features pertaining to the hooded order will undoubtedly prove of interest to those outside the organization as well as the members.

Death-Defying Stunts
An extensive program is outlined consisting of the fascinating sport of whipper racing with six heats each day. The always entraining auto polo, featuring the men who do not seem to think of death. Barney Demarest and his great company of accomplished riders and performers. The aerial Graden, whose dare-devil feats high in the air are known to many who follow the leading performers of the fairs and circuses, will hold the audience spell bound for a fast fifteen minutes.

Marvellous Melville, another unusual and daring performer, will enhance his act each night with fireworks. There will be double parachute drop each day and each night and many other acts that have not been listed at this early date.

On Thursday, the old followers of horse racing will rejoice to see the track once more the scene of the exciting races that helped to make it famous.

On Saturday there will be automobile races of the highest type brought to Mount Holly by Ralph A. Hankinson, a pioneer in the business of automobile racing. He has guaranteed the Fair Association to bring Daredevil Vee as a feature of the Saturday races. This man has often been called crazy by those

who have seen his stunts. One of the difficult feats he performs is to tumble backwards over the machine in which he is riding while traveling at the rate of 70 miles an hour. The patrons of the auto races on Saturday will have an opportunity to judge for themselves just how much this driver apparently values his life.

VACCINATE DOGS

Any veterinarian can give protection against rabies

There having been several mad dogs reported as running at large in the nearby towns during the past few weeks, attention has been called to the fact that dogs may be vaccinated against rabies the same as people are vaccinated against small pox.

Doctor Gardner, of Moorestown, has already vaccinated several dogs in this vicinity. Any veterinary can do this for you and the cost is slight considering the feeling of security which is afforded by having your dog protected against this dread malady.

SESQUI BRIEFS

The United States Bureau of Mines will exhibit model coal mines and the latest safety devices in connection with the Government exhibits at the Sesqui-Centennial International Exposition, to be held in Philadelphia from June 1 to December 1.

More than 10,000 persons from various states throughout the Union, will take part in the massed Festival Chorus to be held in connection with the Sesqui-Centennial International Exposition, which opens June 1 and continues until December 1.

Interest

The interest one naturally thinks of in connection with banking is the money paid for the use of funds.

There is other interest of great importance to depositors.

It is the interest the bank takes in the affairs of its customers.

A well managed institution is constantly manifesting this interest in its various forms of service as applied to the business of its patrons.

You will find the proper proportion of every form of interest in your dealings here.

The Palmyra National Bank

Palmyra, N. J.

A fine arts exhibit of unusual interest and importance will be one of the features at the Sesqui-Centennial International Exposition, to be held in Philadelphia from June 1 to December 1.

Today—a third of a million

Two men, with scant facilities and less money at their disposal, winding coils, twanging clock springs and shouting into strange contraptions of wood and parchment, finally created the telephone.

In 1876 Alexander Graham Bell and Thomas A. Watson, his assistant, were the only two "telephone men" in the world.

Today there are a third of a million men and women in the Bell System.

Every day brings an increase in the number of people they serve and in the volume of calls they handle.

The inherent tendency of telephone growth is to complicate the mechanisms and their operation disproportionately.

Each added telephone means more than just one more line and instrument. The problem of its interconnection with every other telephone of the System—the natural complication of the switching job as thousands and tens of thousands of new users are added, would long ago have swamped the service had constant improvement and simplification of equipment and method not more than kept pace.

Alexander Graham Bell invented the telephone. But modern telephone service is the product of a myriad of inventions, scientific and technical, which make the facility of that service seem almost commonplace.

So must it and will it continue to be.

THE DELAWARE AND ATLANTIC

TELEGRAPH AND TELEPHONE CO.

ONE POLICY, ONE SYSTEM, UNIVERSAL SERVICE

BUSINESS GIRLS WILL HOLD ANNUAL BANQUET ON MAY 18

Dinner Under Auspices of Y. W. C. A. Will Take Place in Baptist Church at Burlington

The County Council of Business Girls has chosen May 18th as the date for the annual banquet which will include all of the business girls in the county. The banquet will be held at the Baptist church in Burlington.

The regular meeting of the Board of Directors of the Burlington County Y. W. C. A. on Tuesday morning at the county office was well attended. Mrs. M. W. Newcomb, first vice-president of the Board, presided in the absence of Mrs. Harmer.

The Burlington County delegates to the National Convention of the Y. W. C. A., left on Tuesday morning for Milwaukee. Three thousand women from all parts of the United States are attending the convention as well as representatives from many foreign countries.

The next Girl Reserve leaders, meeting will be at the home of Mrs. Jacob Cochley, 225 W. 30th St., on Friday evening, April 25. Mrs. Cochley is one of the pioneer workers of the Burlington County Y. W. C. A. It will be a privilege to meet at her home and share the inspiration that she has given to many others.

After the meeting everyone will be able to enjoy the fun of making a camp fire and cooking her own refreshments.

The Mount Holly Junior High Girl Reserves visited many places of interest in Philadelphia on Saturday.

day, Carpenter's Hall, Independence Hall, and the home of Betty Ross were among the places of historical interest that were visited. The girls were also conducted on a tour through the Curtis Publishing Company. The trip proved to be educational as well as enjoyable.

The Green Bank Girl Reserves Club is the most far-distant club in the Burlington County Y. W. C. A. Although these girls are quite separated from other parts of the county they have been able to do very fine work under the leadership of Miss Mary Swain, a teacher in the Green Bank School. These girls are planning a program in observance of Mother and Daughter Week to which the community may be invited. Plans for a joint meeting with the Indian Mills Girl Reserves is also under way.

The Captain Lawrence Girl Reserves of Burlington met on Thursday afternoon. Miss Helen HOG, Girl Reserve Secretary, told them about the Girl Reserves in other countries of the world. Pictures of the girls in many countries were shown. The girls were very much interested in hearing about Latvia, the country where Burlington County shares in the support of the Y. W. C. A. Secretary. The last half hour of the meeting was spent in playing ball in the yard adjoining the Y. W. C. A. building.

STEWART PREPARING FOR GRADUATION

Riverton Student Soon to Write Final Thesis at University of Pennsylvania

Charles F. Stewart, of Riverton, has completed the preliminary work of a study on "The Jury System of New Jersey." For the research department of the Wharton School of Finance and Commerce of the University of Pennsylvania. Stewart who is the son of Mr. and Mrs. Harvey E. Stewart, of Thomas avenue, will soon enter upon the final writing of his thesis, which is a requirement for graduation, each student being obliged to do a piece of practical research before receiving his diploma.

The senior research is one of the most important phases of the Wharton School curriculum, and marks a definite attempt on the part of the authorities to give the graduating students a taste of practical business problems. This year over five hundred students carried on research, seventy per cent of whom engaged in actual field work. Over two hundred manufacturing and business establishments co-operate with the Wharton School by opening their plants to the students. Many of these have availed themselves of the results of the studies to improve their method and equipment, and each year increasing numbers of concerns are asking for Wharton research students in connection with one or another of their difficulties. In addition to research in business institutions, studies have been made for the Pennsylvania State Department of Labor and Industry, the Philadelphia Housing Association and other bodies.

The average time spent on research of this type which Stewart is doing is eight hours per week over a period of six months. Studies are made in every field of business activity and are under the supervision of the faculty and the heads of the business in which the research is being made, thus insuring a practical approach to the problem.

Stewart is a member of the "Varsity" soccer team and of the basketball squad of the University. He is a member of Phi Kappa Phi Junior Honorary Society and is prominent in Christian Association work.

Stewart prepared for the University of Pennsylvania at the George School, where he was captain of the soccer and basketball teams; and a member of the basketball team. He is also a member of Delta Upsilon Fraternity.

HIRST WINS

Harvey's Team Champion of Country Club Bowling Tournament

Bowling for the winter at the Country Club is now over and after the usual strenuous opposition, team No. 7, captained by Harvey M. Hirst, won the tournament, with team No. 11, captained by J. J. Ruster a good second.

The highest average made for the entire tournament was 175 pins per game and was turned in by Powell Thatcher who again demonstrated that he is the most consistent bowler in the club. Ross Elliott and C. L. Peterson were right on Thatcher's heels with 173 pins average each.

Harry L. Jones bowled the highest game of 245 pins.

Ross Elliott bowled the highest three games in any one match these games were made on the last night of the tournament against Davis' team. The games were 226, 183 and 192 making a grand total of 601.

The standing of the Teams at the end of the tournament was as follows:

Captain	Won	Lost	P.O.
1. Hirst	15	15	487
2. Ruster	13	15	487
3. Clark	11	10	487
4. Davis	10	11	487
5. Ayres	10	11	487
6. Bartley	10	11	487
7. Sager	10	11	487
8. Cox	10	11	487
9. Yost	10	11	487
10. Miller	10	11	487
11. Willis	10	11	487
12. Jackson	10	11	487
13. Biddle	10	11	487
14. Gresh	10	11	487
15. Jones	10	11	487
16. Thompson	10	11	487
17. Bell	10	11	487

On Friday night, April 18th, Hirst's team will bowl Yost's team for the Club championship as Yost's team won the Fall Tournament and the winners of these tournaments usually fight it out in the spring to see who can crow the loudest.

"I suppose there are many problems which Polar explorers seek to solve."

"Yes," replied the intrepid traveler, "a great many."

"What do you consider the most important?"

he walked into town to obtain assistance.

A short time later, Herman Donnelly, of Chatham, passed the deserted wrecked auto, but saw another car parked near it, with two men headed in the direction of the auto. His suspicions were aroused and he took the number of the license tags on the machine which had stopped and then continued on his way home.

After reaching home, he became more suspicious, and returned to the scene of the accident. As he approached, the two men ran from the wrecked car, jumped into the machine he had earlier seen pull up, and sped off.

An investigation disclosed that the two men had been stripping the deserted wrecked car and had already taken two wheels, tires, rim accessories and all of the tools when they were frightened off by Donnelly.

Donnelly gave the license number to Platt who in turn handed it over to the authorities who are making an investigation and expect to run down the party who was stripping the car in a few days.

Final rehearsals are being held for the Follies of 1936, the annual production of the Riverside Kiwanis Club, which will be presented in St. Peter's Hall, Riverside, Saturday Monday and Tuesday evenings, May 8, 10 and 11.

Last year's show met success far beyond the most optimistic anticipations and from all indications this year's presentation will equal if not surpass the 1935 show.

The members of the cast are rehearsing their dialogue numbers religiously. This part of the performance is in the hands of Leon Raczky, Gene Robertson, Van Baren Hainsbury, Sadie Berger and Ruth Neville. Those who enjoyed last year's Follies know what to expect from this talented quintet. Jennie Siddall was a shining star last year and will be seen in a much more prominent role this season. Her song, "I Want You," with Charles Williams, one of the new members of the cast, is a gem. And the dance they execute as their encore number will go over big.

Charles Williams will be found in a part written especially for him by Dr. Edwards, president of the Kiwanis Club and the Follies director. Mr. Williams sings one of the hits of the evening, "A Girl for Every Night," composed by Dr. Edwards. The girls who participate with the new actor in this number are Jennie Siddall, Mae Siddall, Genevieve Raff, Geraldine Pike, Rachael Hettmansperger and Kathryn White.

These girls form the first dancing chorus and lead the dances originated by Edwin Cox, the Mask and Wig star. They take part in at least eight dance numbers that compare favorably with the dancing choruses on the legitimate stage. You will agree after having seen their work this year.

A juvenile number that will add very materially to the show is a ballet by twelve boys and girls who are members of the dance class conducted by Mrs. Lloyd Cross, of Delaware.

The tickets for the three nights are going very rapidly and the ticket committee urges those desirous of seeing this banner show to immediately communicate with Sol Pollack for the best seats.

At this service the women held first place. They occupied the front seats and supplied the music. The few remaining seats were occupied by men.

Next Sunday evening the men of Calvary will hold a "Men's Night" service, when the men will have first choice of seats, and will supply the music. The speaker of the evening will be the Rev. George Emerson Barns, D. D., pastor of the Overbrook Presbyterian Church, of Philadelphia. Theme of his address is "A Star in the Window."

The opening of "loyalty month" at Calvary Church again shows the need of larger facilities to accommodate the growing congregation.

Miss Margaret E. Hodge, vice president of the Presbyterian Board of Foreign Missions addressed the women of the church. Miss Hodge spoke of the Power and Privilege of Christian Personality. Her address was inspired by her close touch with the power of the Gospel upon the lives of those which it reaches in foreign fields. She cited numerous incidents of Christian personality among the Chinese and in other places where the power of such personality has been directed towards the constructive force of Christianity.

At this service the women held first place. They occupied the front seats and supplied the music. The few remaining seats were occupied by men.

Next Sunday evening the men of Calvary will hold a "Men's Night" service, when the men will have first choice of seats, and will supply the music. The speaker of the evening will be the Rev. George Emerson Barns, D. D., pastor of the Overbrook Presbyterian Church, of Philadelphia. Theme of his address is "A Star in the Window."

The opening of "loyalty month" at Calvary Church again shows the need of larger facilities to accommodate the growing congregation.

At this service the women held first place. They occupied the front seats and supplied the music. The few remaining seats were occupied by men.

Next Sunday evening the men of Calvary will hold a "Men's Night" service, when the men

Jurors Are Drawn for April Term

Big List of Talemans Selected in Anticipation of Busy Session

At the Court House last week Sheriff Joseph H. Footwood and Jury Commissioner Charles B. Ballinger, in the presence of Judge Stauffer, drew the following panels of grand and petit jurors to serve during the April term of Court which begins Tuesday, April 27.

There were six women drawn on the grand jury and forty-two women on the petit jury, one hundred twenty-five petit jurors being drawn this time in anticipation of a busy session.

Following are the names of persons residing here and in nearby towns who have been drawn for jury service:

Grand Jurors
David P. Hopkins, manager, Beverly.
Joseph L. Horton, paperhanger, Moorestown.
Walker Horroan, manufacturing, Moorestown.
Henry B. Jones, insurance, Moorestown.
Edw. R. Williams, merchant, Riverton.
Maurice H. Massey, real estate, Beverly.
Harry J. Dennis, banker, Beverly.
Margaret Williams, housewife, Riverton.
Walter W. VanScliver, retired, Beverly.
Edward A. Meehling, farmer, Moorestown.
Edith Coale, housewife, Riverton.
Anelia R. Coale, nurse, Riverton.
Henry T. Drink, superintendent, Riverside.
William Kennard, Jr., insurance, Moorestown.
Dallas R. Perkins, merchant, Beverly.

Petit Jurors
Howard Fish, shoemaker, Moorestown.
Edward Catterall, merchant, Beverly.
Antoinette Campbell, nurse, Riverton.
Edward Beecher, electrician, Riverside.
Adelaide S. Biddle, housewife, Riverton.
A. Henry Rudduck, real estate, Palmyra.
William Shoemaker, retired, Moorestown.
Rachel M. Lord, housewife, Palmyra.
Ridgway S. Potts, lumber dealer, Beverly.
Katherine Graff, housewife, Riverton.
Eleanor W. Polsonett, retired, Moorestown.
George Caldwell, farmer, Delran.
Mary Sweeney, housewife, Moorestown.
Elizabeth Morris, housewife, Riverton.
William Hubbs, Jr., Delran, paperhanger.
William C. Roberts, farmer, Moorestown.
Charles Reidenbach, mechanic, Riverton.
Ray Beeton, housewife, Palmyra.
Leroy Grant, clerk, Beverly.
Gertrude Polder, housewife, Riverside.
Anna E. Taplin, housewife, Riverton.
George B. Little, clerk, Delran.
Howard Pitcher, clerk, Moorestown.
William Lindsay, salesman, Palmyra.
Roger Oliver, merchant, Burlington.
Fred Frech, grocer, Riverside.
Edward H. Haines, merchant, Delran.
George C. Dietrich, contractor, Riverside.

WAR ON CYCLISTS

Palmyra Police Ordered to Enforce Ordinance

Palmyra has declared war on its bicycle riders. Mayor James T. Weir, who says he has received dozens of telephone calls complaining about the recklessness of the bicycle riders on sidewalks, has issued orders to the police department that the ordinance prohibiting the riding of bicycle on sidewalks be strictly enforced.

Although there has been some complaint about the smaller riders, the youth of high school age seem to be the worst offenders and continually frighten folks by speeding past them along the pavements.

There is a fine of five dollars for the violation of the bicycle ordinance and it will be rigidly enforced. If the riders cannot pay the fines, their "wheels" will be held.

The riding of bicycles along highways after sundown without a light is another of the practices which will be curbed. Motorists are held responsible if they run down a bicycle rider and it is impossible to see them until the driver is almost upon them unless the bicycle carries a light, declares the mayor.

He says not only are the riders a menace to the public, but they violate a local ordinance and also commit an infraction of the state laws. The police have been ordered to quickly arrest bicycle riders on the streets after dark without a light.

BASEBALL CHAMPIONSHIP

TO BE PLAYED AT THE ESQUQU

The annual championship tournament of the National Federation of Baseball will be held in Philadelphia September 27-October 3, as a sports feature of the Sesqui-Centennial International Exposition, which will be held in Philadelphia from June 1 to December 1.

Elimination tournaments will be held in twenty of the largest cities in the United States and the winner in each district will play in Philadelphia for the national championship. Last year the final in Cleveland drew 100,000 persons, the largest gathering ever to see a baseball game in the world.

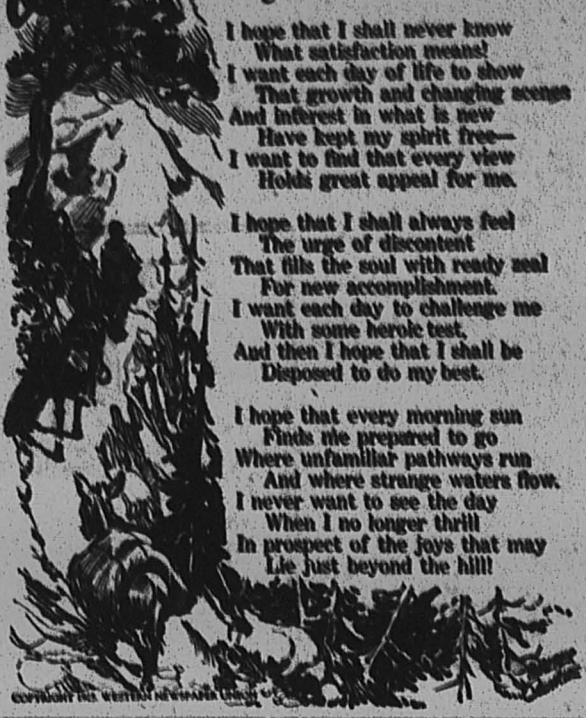

A Man of Determination

"Do you think the accused would steal a chicken?" the lawyer asked Moss on cross-examination.

"Nonsense. Ah wouldn't say so he would," answered Moss, wringing uneasily on the chair. "But Ah knows dis—what dat man did honey for chicken, dat man's got 'nough 'bout 'em to see a chicken."—American Legion Weekly.

Just Beyond the Hill

by Lawrence Hawthorne

I hope that I shall never know
What satisfaction means!
I want each day of life to show
That growth and changing scenes
And interest in what is new
Have kept my spirit free—
I want to find that every view
Holds great appeal for me.

I hope that I shall always feel
The urge of discontent
That fills the soul with ready zeal
For new accomplishment.
I want each day to challenge me
With some heroic test.
And then I hope that I shall be
Disposed to do my best.

I hope that every morning sun
Finds me prepared to go
Where unfamiliar pathways run
And where strange waters flow.
I never want to see the day
When I no longer thrill
In prospect of the joys that may
Lie just beyond the hill!

Jersey Farmers Form Standard Roadside Market Association

State Organization Makes Regulations For Fair Prices and Honest Pack

Increasing popularity of roadside stands operated by farmers in many sections of New Jersey has encouraged hucksters and other operators to sell to consumers at prices beyond the actual value of the products and to misrepresent the quality of produce in weight and quality. In some districts less than half of the produce market stands are owned by farmers.

Last year, the New Jersey State Horticultural Society sensed that this condition might bring about a loss of consumer confidence. A small group of men who were brought together with the New Jersey Federation of County Boards of Agriculture and the New Jersey State Bureau of Markets cooperating, to try out a standard farmers' roadside market plan. The results were decidedly successful. More than half of the produce market stands are owned by farmers.

As an outgrowth of that movement, the same group of farmers formed a nucleus for the newly organized Farmers' Roadside Market Association of New Jersey. The New Jersey Federation has supplied state headquarters through its office at Trenton, and is assisting directly in the field organization work for new members. The association starts the season with a small but rapidly growing membership. It has adopted a series of rules and regulations governing the operation and control of its members' markets. It has adopted a registered emblem, consisting of a large ear of corn with the words "Farmers' Roadside Market Association of New Jersey" surcharged upon it. Inspection of the stands at regular intervals is vested in the New Jersey State Bureau of Markets. Approved owners are given permission to operate as a New Jersey standard roadside market, the protection of which term with full authority is vested in the State Department of Agriculture.

Any farmer in New Jersey who sells a part or all of the products of his own farm, his own roadside market is eligible to membership. The New Jersey Federation of County Boards of Agriculture states in a bulletin this week. The rules for operation and conduct of the markets are briefly as follows:

1. Sixty per cent of the farm products sold must be produced by the member.
2. Forty per cent may be purchased from an original New Jersey producer.
3. Ten per cent in any one month may be produced outside of New Jersey or secured from other than the original producer. Such products shall be plainly labeled to show origin.
4. Top of all packages shall be representative of entire volume.
5. Prices must be reasonable and based upon nearby market conditions.
6. Products shall be of average high quality.
7. Stand shall be at least 10 feet from the edge of the highway.
8. Automobile accessories and other products may be sold at a member's market but it will be primarily a produce market in appearance.
9. Standard sign and membership certificate shall be issued to each member; additional signs \$5 each.
10. Signs and certificates remain the property of the Association.
11. Market shall be maintained in a clean and attractive condition and open at all times to authorized inspectors of the Association.
12. The New Jersey Bureau of Markets shall inspect all markets.

Referring to the stimulation in business which farmers of New Jersey may expect from their new organization, H. E. Taylor, Secretary of the Association said:—

"Consumer support of the State inspection and regulation roadside markets will drive unscrupulous and dishonest operators from the roads. The traveling public will be able to obtain standardized products at a fair price without danger of misrepresentation. Acceptance of the Association's rules and regulations has been wide spread and indications are that by the height of the season standardized roadside markets, inspected by the State, will be scattered along the main highways around every one of all the larger cities."

The movement in New Jersey

Burlington Fears Loss of Railroad

Town May Be "Dead-ended" if Suit Is Decided Against P. R. R.

Residents of Burlington interested in the welfare of the town want to Atlantic City Monday for a conference with Attorney George Burgoon, representative of the Pennsylvania Railroad, relative to the removal of the railroad tracks from Broad street.

The conference, which lasted two hours and a half, developed three facts:

That the Pennsylvania Railroad is determined to have a double track in the Burlington section, running east and west.

That if a double track is not allowed in Burlington, it will go through Mount Holly.

That if a double track is allowed in Burlington it will run through Broad street at grade, or on an embankment one hundred and fifty feet south of the present line.

That if the double track is allowed on Broad street the railroad company probably will give an amount of money equal to the cost of asphaltizing Broad street on a concrete base from the Assamuck Creek to Mills street and build a modern passenger station.

That if the court action, which may be moved early next month, is decided against the Pennsylvania Railroad Company, no appeal may be taken.

That if the court orders the track taken from Broad street no other track will be built in Burlington.

"May 'Dead-end' Town"

That the Pennsylvania Railroad is standing pat on the statements of Charles A. Rigg, representing the business men, and George Burgoon, representing the Pennsylvania Railroad, and that Burlington will be dead-ended under certain eventualities.

That the company feels that Burlington is on the defensive and is in a position to dictate terms.

Mr. Burgoon was asked what the attitude of the company would be were the court to order the track removed from Broad street. He said that the board of directors of the Pennsylvania Railroad were divided on that subject, some of them wanting to fight the case to the last court in the land, and others wanting to accept the mandate of the Burlington County Court as final and quit Burlington.

Mr. Burgoon said that personally he would not choose to defend the case; that his advice would be to permit the matter to go by default and let the track be taken out of Broad street, and out of Burlington, if such were the will of the people.

Home-Route Route

Mr. Burgoon said that under that program railroad service on Broad street would stop as soon as the order of the court was made; the Nellie Bly express would be run over the New York Division to Holmansburg Junction and down to Atlantic City by way of the Delaware Bridge until the new spur from Ates to Medford could be built.

When the Ates spur was built, he said, the road from Ates to Kinkora would be double tracked and that would be the Burlington County road of the future. No road, Mr. Burgoon declared, would be built in or near Burlington under this program.

Mr. Burgoon said that even though Burlington were double tracked through Broad street, it would be only a question of probably five years when the Ates road would be developed, and that Burlington would have only local traffic.

And this traffic, Mr. Burgoon said, would probably be electric traffic in two or three years. Plans, he said, were under way for the electrification of the Trenton Division.

Railroad Men's Pat

Mr. Burgoon was asked if he thought that the Public Utilities Commission would permit the Pennsylvania Railroad Company to dead-end Burlington. He declared that since the people of Burlington were asking the courts to have the road taken out, they certainly could not go to the Public Utilities Commission and ask to have it put back.

If the court orders the Pennsylvania Railroad Company to take the track out of Broad street, the lawyer declared, the company will obey the order, but neither the Public Utilities Commission, nor any court could compel them to build another track in Burlington.

Mr. Burgoon said the only way in which the Public Utilities Commission could figure in the case advantageously to the city would be through an appeal on the part of some people to have a stop put to the court proceedings relative to the

removal of the present track. Mr. Burgoon was asked what the Pennsylvania Railroad Company would do about the transportation of mails were Burlington dead-ended. He said that the railroad company would live up to its contract with the United States Government; that the mail bags would be carried out as far as Edgewater and west as far as Stevens, and taken by truck from those two points to the Burlington postoffice. He said whether the government contract with the Burlington postoffice would be renewed at its expiration was a matter for future decision.

Plan Now Conference

Relative to the belief of some people that the Pennsylvania Railroad is bluffing Mr. Burgoon said he felt very sorry for those who entertained such an opinion, but more sorry for the town. He said if they felt that being a bluff of today the whole question of Burlington had been under consideration by the Pennsylvania Railroad Company for a considerable time, and that Common Council in taking the matter to court merely had precipitated action.

Mr. Burgoon was inattentive as to whether another conference took place in Burlington with the hope of ironing the thing out. He said that the matter now was up to the people of Burlington; that if they felt that another conference was for the best interests of the town, one could be arranged and that the Pennsylvania Railroad Company would send a representative. Mr. Burgoon expects to spend some time in Washington, but said that he would come to this city either on Friday night, April 20, or Saturday night, May 1.

There is a belief that another conference will be arranged. It is thought that the thing is so big, so fraught with importance, so threatening to the best interests of Burlington that an attempt should be made to come to some better understanding.

ANNUAL BALL

Sons of Italy Will Give Big Entertainment May 4

Preparations have been completed for the second annual entertainment and ball to be given by Sons of Italy, Palmyra, in P. O. S. of A. Hall, Palmyra, Tuesday evening, May 4.

Mayor James T. Weir will again lead the grand march. He will be followed by J. Edwin Lees, president of Palmyra Borough Council, Assemblyman Clifford R. Powell, of Mount Holly, and Freeholder Charles R. Stutz.

The chairman of the committee in charge, Bernard Barney, promises the affair will surpass last year's. The entertainment will be pleasing and the program includes a number by Kitty Lakatos and her Charles-ton Kitties.

"Palmyra's own" will again furnish the music for dancing which will be held from 8 p. m. to 1 a. m.

The committee is composed of Bernard Barney, chairman; J. V. Caves, vice-chairman; Albert R. Kild, secretary; Paul Villard, treasurer; Joseph Paditto, Frank Ben, Peter Balado, Frank DeViel and Joseph Cusapio.

AUTOMOBILE MANUFACTURERS

Will Exhibit At THE ESQUQU

Twenty-two automobile concerns are combining to prepare an exhibit for the Sesqui-Centennial International Exposition to be held in Philadelphia from June 1 to December 1.

The display will occupy 120,000 square feet in the Palace of Transportation. National and local automobile associations are cooperating with the Exposition authorities in arranging for a showing which it is declared will be without parallel in the history of automobile shows.

MUST STERILIZE EATING UTENSILS

State Board of Health Adopts Regulation for Restaurants

The danger of the spread of communicable diseases by soiled cooking and eating utensils led to the adoption by the State Department of Health of a regulation providing for the sterilization of these articles. It is common observation that drinking glasses and knives and forks are improperly washed in many restaurants and soda water fountains, and it is well known that diphtheria, scarlet fever, measles, and similar diseases may be spread from mouth to mouth by dirty glasses and eating utensils. Probably common cold, pneumonia, and influenza are also spread in the same manner.

The State law gives to the State Department of Health the authority to make rules for the protection of foods and beverages, and under the provisions of this act the State Department of Health at its last regular meeting adopted the following regulation:

"All hotels, restaurants, cafes, soda fountains, and other places where food is produced, manufactured, cooked, prepared, distributed, and sold, or intended for sale for human consumption, shall be provided with adequate facilities for the treatment of cooking and eating utensils by boiling water,

or steam under pressure, or by other means which shall yield the same results; and all utensils intended for a second use, including spoons, knives, forks, plates, cups, saucers, glasses, and other containers repeatedly used for food and all knives, forks, and food implements shall be subjected to treatment with boiling water, or steam under pressure, for at least three minutes after each service, or by such other method that effective sterilization of each article shall be properly carried out between each use. Where sufficient or adequate sterilizing equipment has not been or cannot be installed as above specified, sanitary disposable receptacles (paper cups and utensils) which are to be thrown away after being used may be adopted and used in whole or in part as a substitute.

As local health departments have power to enforce regulations of the State Department of Health, it becomes their duty to require restaurants and soda fountains to be equipped with facilities for the proper sterilization of drinking glasses and eating utensils and to see that this disinfection is carried out satisfactorily. Common decency dictates that eating utensils be cleaned between each usage, and the protection of public health requires sterilization of the utensils. The enforcement of this regulation should be a long step forward in the prevention of the spread of many communicable diseases.

A lustrous paint so smooth it washes like TILE!

No hard scrubbing! No rubbing off the paint with the dirt! A damp cloth quickly removes every spot from Barreled Sunlight—without injuring the durable surface.

Comparable only to the finest enamel in beauty, Barreled Sunlight costs less, has greater covering power, and is easy to apply. Made by the exclusive Rice Process, it is guaranteed to remain white longer than any gloss paint or enamel, domestic or foreign, applied under the same conditions.

Sold in cans from 1/2 pint to 5 gallons. Where more than one coat is to be used, apply Barreled Sunlight underneath first.

THE FILM IS ALL "SHOT" NOW THE PLAY'S THE THING

Indian Drama and Modern Love
Scene Features of "The
Romance of Riverton"

CASH PRIZES OFFERED FOR BEST ESSAYS

The final filming of "The Romance of Riverton" was done over the weekend. The film company in action, a bird's-eye view of the town from the top of Joseph M. Roberts' store, the traffic crash at Broad and Main streets, with both officers directing the stream of automobiles, were witnessed by more people than have been seen on the streets since the Fourth of July.

About five o'clock Saturday afternoon Director Edwin Cooper ran out of film and for the time it looked as though the thrilling scene of the Indian love drama would have to be omitted. But Mr. Cooper finally located some rolls of film in Philadelphia just as the scene was closing. He arranged with a young lady employed in the store to bring the precious rolls to the Camden ferry on her way home, and John Clemens, the camera man, made a quick run in Karl Latch's roadster, with Karl at the wheel, and the situation was saved.

Sunday morning Cooper and Clemens were on the job at six o'clock to "shoot" Pat Steele's trucks and busses. In order to get the movie men have before the buses started out on their run, President Albertson, president of the Chamber of Commerce, turned out at five o'clock, daylight saving time, and went to Hainesport, where Mr. Cooper lives. There he had a couple about and few cars on the road, the president made the run in seventeen minutes flat. That was on the return trip when he had Cooper for a witness. He early refused to tell how long it took him to go over.

The Chamber of Commerce will give three prizes for the best essay written by the grammar school pupils of Riverton and Cinnaminson township after they have seen the play. The prizes will be \$5, \$3, and \$2 in cash.

There was great excitement Saturday afternoon when the film scene was filmed. Unlike a real film, this "show" was announced in advance and had an "audience" awaiting it. The smoke bombs gave a realistic effect to the scene, and the "audience" got all it was looking for, including a ducking when the pavements were drenched with spray from the stream of water being played on the burning building.

The latter scene demonstrated clearly that the film company needs ladder equipment suitable for fire purposes.

Those who witnessed the filming of the Indian scene saw some mighty good riding and a bit of acting by the young folks that was a revelation to their friends.

The adventures of Mr. Newcomer in collecting birds from among Riverton's fairest, their honeycombs, rumbling their nest, and the unexpected ending in one of the cleverest and most mirth-provoking pieces of play acting that has been seen in Riverton since the old Iroquois was in the heyday of its glory a generation ago.

One of the attractive spots in the picture will be the Colonial dance staged at the Riverton Country Club which generously opened its spacious porch for this scene.

This dance in costume was made possible through the cooperation of Miss Flora Davis.

Mr. Cooper has gone to New York to cut and title the picture.

The seating capacity of the school auditorium is limited, and tickets will be at a premium. It will be the part of wisdom to secure them early. They are on sale at practically all the stores and may be received by calling Riverton 712.

Coming Events

April 26, May 1—Minstrels, American Legion and Compass Club, Palmyra, High School Auditorium.

May 2—Cinnaminson Lodge "Home Run" to conduct afternoon service at the I. O. O. F. Home, Trenton.

May 4—Annual meeting and election of officers at Porch Club.

May 4—Second Annual Ball, Sons of Italy, P. O. S. of A. Hall.

May 8—Supper, Christ, Palmyra.

May 8, 9—"Romance of Riverton" in movies.

May 7 and 8—Comedy, "Miss Somebody Else," by F. L. and S. H. C. Circle Class supported by Good Fellowship Class, Palmyra High School.

May 14—Ambulance Association Cake Sale and Tag Day.

May 15—Entertainment by Palmyra Girl Scouts, Epworth M. E. Temple.

May 14—Free entertainment by Pennington Club, Epworth M. E. Temple.

May 15—Musical and literary entertainment by Temple Quartet in Central Baptist Church.

May 16—Cake Sale by the Junior Philanthropy Class of the Central Baptist Church.

May 16—Dance, Palmyra High School Alumni Association.

May 17—Exhibition of dancing by Miss Dorothy Warner and pupils in Palmyra High School Auditorium.

May 22—Cake Sale by Palmyra Girl Scouts.

May 23—Cinnaminson Home Fete, Moorestown Field Club.

May 31—Cake and Ice Cream Sale, Society Hall Grove, P. O. of A.

June 1—Strawberry festival by St. Agnes Guild of Christ Church, Palmyra.

MOTORS COLLIDE

Riverton Borough Truck Damaged by Beverly Sedan

A large sedan driven by James A. Stokes, of Beverly, and the Riverton Borough street department truck collided on West Broad street, just below Delaware avenue, Palmyra, Tuesday morning.

Both drivers escaped unscathed. Only the rear end guard and hub of the truck were damaged, while the truck suffered considerable damage including a broken radius rod, spring and ripped tire.

Edward Bowers was at the wheel of the Riverton Borough machine. The sedan started to make a right machine going in the same direction, but as he pulled along side of the car he saw that he could not get by without piling head-on into the truck which was approaching in the opposite direction. Stokes slammed the brakes of his machine in an attempt to drop in back of the first car, and as he was working his way to the right of the road, the left side of the truck grazed the left side of his machine toward the rear.

Rotary Arranges Boys Field Meet

Local Service Club to Take Part in Boys' Week Event at Mount Holly

Under the direction of Harold B. "Boots" Laver, the Palmyra-Riverton Rotary Club, is arranging to have a squad of boys represent it in a Burlington County service club track and field meet.

Joseph T. Evans is chairman of the Palmyra-Riverton Rotary Club committee and has secured Palmyra's famous track star to assist him in picking the local representatives.

The boys are being picked from the Palmyra High School. There will be three classes, arranged according to age. The first group will be for boys under fourteen, the second will be for fourteen and under sixteen and the senior squad will be run off at the county seat the following Saturday May 8.

The local club is arranging to go to the county seat in autos and will also furnish transportation for the boys representing the Palmyra-Riverton group.

BAPTIST

Next Sunday, being the first Sunday in May, there will be communion after the morning service.

The week will be observed as "Boys' Week" and the Bible School session, held at 10 a. m., will be in charge of a group of boys.

In the evening a number of the boys of the Church will constitute a novel "Harmonies Band" and will play at the service. There will be other musical numbers rendered by the boys.

Lockett will have a sermon prepared especially for this "Boys' Night." A unique, helpful service awaits a large congregation on Sunday evening.

The Bible Study class will hold its weekly meeting at the home of Mrs. Shelby, 712 Thomas avenue, Riverton, Thursday evening at eight o'clock. The Rev. Charles A. Bauer, B. D., of Camden, will be the speaker. Cordial invitation is extended to all.

Friday afternoon at four o'clock the kiddies will meet for their "Happy Hour."

The regular meeting of the Young People's Society will begin at eight on Friday evening. Come out and find out "What's Next."

Special programs are in preparation for "Mother's Day," May 9. Let us all join with Mother Nature in glorifying God these Spring Sundays.

Who's In the Play

The principal characters in "The Romance of Riverton" are: "Princess Wetonah," Margaret Albertson; "Chief Tipping Blade," Jack Coleman; "Ramona," Mary Burroughs; and "Blind Hattie," Mary Water.

Other characters are: "School Teacher," Mildred Collins; "Pupils," Ted and Baby Collins and Peggy Adams; "Miss Riverton," Blind Hattie; "Her Friend," Mildred Collins; "Mr. Newcomer," Oliver Bowen.

The Thursday afternoon matinee, starting at 3.30, will be reserved for pupils of the Riverton public school and their friends.

Friday afternoon has been reserved for the pupils of the Cinnaminson public school and the Westfield Friends' school and their friends.

Saturday matinee will be for the boys and girls from anywhere who were unable to see the show the other afternoons.

Children's tickets will be honored at the evening shows when the children are accompanied by older persons, but owing to the limited seating capacity it is desirable to have as many children attend in the afternoon as possible so as to allow more room for the grownups in the evening.

NEW JOHN HOPKIN

Mrs. Maria, wife of John Brown, of West Ninth street, Palmyra, died on Sunday at their home from apoplexy. The deceased leaves her husband and one son, Joseph. Services were held at Sacred Heart Church, Riverton, Wednesday morning.

RIVERTON YMCA DRIVE \$250 SHORT

Services of Additional Secretary Depend on Raising This Small Sum

At a meeting of the committee having in charge the YMCA drive for funds in Riverton at the home of Nathan Lane, Jr., Monday night it was announced that Riverton had fallen short in its quota by \$250, and that unless this sum is raised Riverton will not be entitled to the services of the extra secretary which will be added to the county YMCA organization.

Those who have already contributed are asked to take the matter into consideration and if they feel inclined to increase their subscriptions communicate with any member of the following committee: Nathan Lane, Jr., B. Jackson, Clarence Rodman, Howard Gordon, Victor Ritzhard, Charles Yost, Ellsworth Hall, Joshua B. Bartley, C. Singleton Mears.

With the goal so near the committee hopes the full sum will be forthcoming.

Those who have not already contributed should not let this opportunity to serve the boys in Burlington county, and more particularly in our own community, pass by.

Lane Will Go to Finland

Son of Nathan Lane, Jr., Will Accompany D. S. Evans to YMCA Conference

It is to be the good fortune of Nathan Lane, 3rd, to take a trip which a few young men of his age have the good fortune to enjoy. He has been elected to accompany D. S. Evans, of Burlington, industrial secretary of Burlington County Y. M. C. A., as delegate from Burlington county to the nineteenth World's Conference of Young Men's Christian Association, held in Helsinki, Finland, August 1 to 6.

Nathan, 3rd, will go to the conference with a party of young men arranged by J. A. Vandila, secretary of the National Council at New York City. After the conference they will tour the principal countries of Europe before returning home.

Mr. Evans will leave Montreal with a party from the central region on the Canadian-Pacific Line, on July 25, and will see some of the principal points in England during the following five days. Mr. Evans will leave the party in England and visit some of his relatives in South Wales. On July 28 the party will leave Hull for Copenhagen, and then on to Helsinki, Finland. At the close of the conference this party will visit the ancient city of Abo, Finland, and from there will go to Stockholm.

After a short stay there, they will take the train to Berlin. At Berlin with a number of others, Mr. Evans will cross to Antwerp and from there to Rotterdam, where they will get the Canadian Pacific Steamship for the return trip home, arriving about the 13th of August.

For many years from time to time the world's committee of the Y. M. C. A. has held conferences to which have been gathered delegates from all over the world. The last conference was held in 1924, and due to unsettled conditions in the world in general, it has been impossible for the World's Committee to plan a conference until this year. Upon invitation of the National Committee, it was decided that the 1926 conference would be held in the beautiful city of Helsinki, the capital of that country.

A total of two hundred and sixty delegates has been allotted to the United States, and of this number only thirty will be under twenty years of age.

PAKE SOLICITORS CAUGHT

Two men soliciting for magazine subscriptions in Riverton, and who could not satisfactorily account for their methods to Officer (Jules), were driven to Rutgers, where they were taken to the county jail on Wednesday morning. The subscription price for their magazine which seemed to be a myth, was the odd figure of 49c.

They had no samples of the supposed magazine, and in making change attempted to flim-flam their victim in addition to sticking him for the price of something they could not have to sell.

Such fellows should be prosecuted and not turned loose to prey on some other community.

NEW VISITING HOURS

Superintendent Robert W. Cox, of the County Hospital for the Insane, has announced additional visiting hours from 9.30 to 11 o'clock Sunday mornings for the convenience of those who cannot come to see the inmates during the week. There will be no Sunday afternoon visiting hours, as this would deprive the employees of the institution of any opportunity for relief from their duties.

Local Contests

South Carolina High School League sponsors contests in declamation, expression and debate, English and Latin, stenography, as typewriting, as well as track and field athletics, baseball and boys' and girls' basketball. The league is the only high school athletic association in the United States. It is said that its administration is wholly by high-school superintendents and principals.

Classes in real estate are conducted in 15 centers in California by the University of Southern California, in cooperation with the California Real Estate Association.

PHS ATHLETES IN PENN RELAY

Local Team Places Second in Fast Race With Vine-Land Leading

HARRIS SACKS AGAIN WINS BIG HONORS

Although the brilliant triumph of last year was not repeated, Palmyra High School team Palmyra High was high performer again, an excellent account of themselves at the Penn Relays, the carnival in which the local mile quartet shone so brightly last year, at Franklin Field Friday Saturday afternoon of last week.

The Palmyra High School relay team, practically a green combination, again displayed the fruits of the coaching by a man of the Boots Lever type, and placed second in its class race. Vine-Land, one year from Palmyra High, was minutes and 38 seconds, some three minutes slower than that Palmyra whirlwind which won the event last year.

Palmyra's inexperienced team placed a good second, showing up exceptionally well against a fast team. Captain Bruce Behn, the only member of last year's national Class B, scholastic one-mile relay champs now enrolled in Palmyra High, was the outstanding member of the local quartet. He spent, at least, the last season of '25 by the late Harold Wood, Harris Sacks and Wallace Sullivan.

Much glory did, however, radiate about a former Palmyra High boy, Harris Sacks, who matriculated at Mercersburg Academy after his graduation from Palmyra High, the scintillating member of the Pennsylvania prep school relay team as it shattered the world's record for the quarter-mile relay and auspiciously cleaned up the prep school honors of the national prep school relay team. Sacks, who ran first for Mercersburg, made the longest gain for the Penn Relays. When Harris handed the baton to the second member of his quartet, Mercersburg was in the lead by at least twenty yards. Harris' work stood out as one of the phenomenal exploits of the meet.

Another former Palmyra High runner, who made an excellent showing was "Whit" Sullivan. Although he failed to "come in for the money," as Boots puts it, Sullivan looked good performing with the Rutgers Freshman squad.

Roy Kerner, another former Palmyra runner, was a member of the team of the Swarthmore College mile relay team which captured the Middle Atlantic States Class B one-mile relay college championship in the Penn Relays. Roy is the first Palmyra boy who has been a member of a world class relay team.

Both of the suburban and national Class B mile relay records had stood for some time until Lever's Palmyra High team bettered them last year. One of the fastest scholastic fields ever entered in the carnival of international fame, again lowered the marks, wiping out the Palmyra times as the records.

The fleet-footed youth who pushed Sacks so hard last year in the national event, led Brooklyn Manual, which annexed the title and clipped considerable time off Palmyra's mark. The speedy Norwintown runner, however, was a new arrival in the suburban event with a new record to their credit.

Boots, Palmyra's grata coach, who won a national reputation as a mentor with last year's brilliant squad, says he is very well satisfied with the results of his team this year. He says the boys are doing splendidly, considering their experience, and should prove a very fast squad.

A dual track and field meet with Hudson Heights High School will be held at the Field Club ground this (Thursday) afternoon.

RUDOLPH—SEEL

Miss Rudolph Glinther Seel, daughter of Mr. and Mrs. George J. Seel, 2nd, of Cinnaminson avenue, Palmyra, was married last Saturday evening to Mr. Christopher William Rudolph, son of Mrs. Mary Rudolph, of Riverton. The ceremony was performed by the Rev. George Lockett at the Central Baptist Church at 7.45.

The bride was attended by her sister, Mrs. Helen Seel Guidin, as matron of honor. Miss Virginia Elizabeth Seel was maid of honor. The bridesmaids were her cousins, Mrs. Elizabeth Blundin Campion, of Ocean City, and Miss Adeline Seel.

The bride wore a gown of white satin and georgette with train and a veil fastened with orange blossoms.

The matron of honor was dressed in beaded orchid georgette and the maid of honor was gown in turquoise blue georgette, trimmed in white lace. The bridesmaids wore dresses of geranium pink georgette.

The bride carried a shower bouquet of white roses, sweet peas, lilies of the valley and orchids and the attendants carried bouquets of snapdragons and geranium pink roses.

The wedding march was played by Mrs. Mae Brown Jermon. The soloist was Mrs. Ethel Hightower Wilson, of Lansdowne, a cousin of the bride, who sang, "O Perfect Love."

The best man was Mr. Joseph Gregory Seel, brother of the bride. The ushers were, Mr. Horace Russell Guidin and Mrs. James Letton, of Stone Harbor.

After a brief wedding trip to Luray Caverns, Va. and West Virginia, the couple will reside at Second and Cinnaminson avenues, Palmyra.

Miss Peggy Dean, of Ferry avenue, was actively recovering from an operation, having had her tonsils removed.

WILL TRY AGAIN

Pennington Club Will Try to Recoup Its Battered Fortunes

The Pennington Club, of the Epworth M. E. Church, in an effort to recoup its fortunes, will give an entertainment in the Epworth Temple Friday evening, May 14.

Two weeks ago, in an attempt to raise funds to send some of its young people as delegates to Pennington Institute this summer, the Club presented the University of Pennsylvania male quartet and assisting artists in an unusually fine concert.

The people of the community, evidently not realizing what a splendid treat was in store for those who attended, gave the concert but little support. Consequently, instead of realizing a neat little profit, Pennington Club suffered a financial loss, something in the neighborhood of \$25 to \$30.

The Club, which has a very small membership, as the result of it being limited to young people who have attended Pennington Institute during the past few summers, is not in a position to suffer a financial loss and meet its obligations, so will give the entertainment to help boost its bank balance.

The program will include a humorous sketch, vocal and instrumental numbers and recitations.

Virtues Natural To Savage Races

Dr. Frank Speck, of U. of P., Tells Men's Club, of Savages' High Traits

Some of the so-called savage races are superior to the civilized white people in many fundamental virtues, declared Dr. Frank G. Speck, of the Anthropological department of Pennsylvania University, in an address before the Men's Club of Palmyra in Christ Church Parish House Monday evening.

Dr. Speck emphasized especially the homely but sterling morality of the Labrador Indians among whom he has spent many years of exploration. Not ill contented by his contact with the worldly white men do these people learn to lie and steal.

Explorers and native hunting parties make a habit of storing their supplies at various points along their route in caches which are placed in open conspicuous places, so as to be easily found again. No one has the slightest fear of these caches being rifled except by white men. No native will touch them, unless driven to desperation by hunger and privation, and even in that case the natives makes provision to repay.

He leaves his mark on the cache and later repays many times over "Can't Understand Murder."

These Indians can't understand murder and bribery among the white men, especially when the whites come among them to teach religion and good behavior. "Why steal?" they ask, "when all you have to do is take it, make your mark and repay when possible."

The bushmen of Australia, heretofore considered among the lowest types of existing races, have shown a remarkable mentality. Members of these tribes have learned to play checkers and chess with considerable skill after having been in contact with the whites for only a few years. These people are also practical astronomers, having recently been able to discover a new star with their naked eyes, which astronomers with powerful telescopes had just noticed.

Mr. Speck also dwelt upon the remarkable intellectual development shown by the remote ancestors of mankind, who lived in Europe some twenty thousand years ago in the Cro-Magnon cave in southern France, where relics of this ancient race have been discovered, and found life-like drawings and even colored pictures of that far distant time. Most of these animals have since disappeared from the earth. The drawings are made with a skill and attention to detail which indicates a remarkable sense of proportion and art.

A few grooves of modern times could do as well. One of these ancient pictures which was shown illustrated the moving picture of that far distant age. A bison was drawn with two sets of legs, each set in different positions, so that by moving the eyes back and forth from one to the other it gave the impression that the bison was running.

No race with talent like that could possibly be entirely savage, declared Dr. Speck.

Returning to his discussion of the Labrador Indians, the speaker said that one thing about the white people that the Indians could not understand was why the civilized races punished their children by slapping or whipping them. No Labrador would think of striking a child. He regards it as cowardly. The way Labrador children are punished is to have a few drops of water thrown on them and this is said to be very effective.

Mr. Speck also told of a visit to the region of the new gold rush and his chief concern was that contact with the red-skin of whites such as always flows to a gold region would spoil the simple virtues of the natives there and destroy their respect for the so-called civilized races.

Five Musical Program

Music was furnished during the evening by Huddack's orchestra. Two beautiful selections were sung by the Christ Church quartet composed of Mrs. Luther Turner, Miss Cecile Becker, John Ward and William Wilbraham.

Miss Helen McConnell delighted the audience with two witty readings which were delivered with much skill.

The club is growing rapidly since the meeting place was enlarged and

FAVORS BIG JOINT FOURTH CELEBRATION FOR TWIN CITIES

BOYS AND GIRLS ATTENTION!

Cash Prizes for Selling Tickets for "The Romance of Riverton"

Boys and girls of the sixth, seventh and eighth grades who would like to compete for the cash prizes offered for selling tickets for "The Romance of Riverton" may call at Louis C. Clelland's office Friday after school and secure tickets from Miss Becker.

The first prize for the boy or girl selling the largest number of tickets will be \$5, second prize, \$3, third prize \$2.

FIREMEN MEET

Will Obtain Bids for Tower to Day

At the regular monthly meeting of the Palmyra Fire Company held Monday evening, a committee was instructed to obtain bids and award the contract as soon as possible for the thirty-five foot hose drainage tower.

The tower will be equipped with hoists and after a fire the hose will be run up the tower to assure thorough drainage, which will increase the life of the hose considerably. Five hundred feet of hose can be dried at one time in the tower, which will be erected in the rear of the firehouse.

The company also ordered a coupling machine, which will prove a time and money saver. When a hose breaks, or the coupling hose breaks, instead of sending the section away, the company will now be in a position to mend the break immediately.

An order was placed for fifty feet of chemical hose.

Frank Windish and Levin Wallace were presented with gold firemen's badges in recognition of twenty-five or more years of active service and were placed on the retired list.

CARPENTERS INJURED

Charles Smythe Suffers Three Broken Bones When Scalloffing Breaks

Charles Smythe, of Cinnaminson avenue, Palmyra, suffered a broken collar bone, wrist and ankle Monday when a scaffolding on which he was working became dislodged from the roof and slipped. All of the breaks are on the left side.

On the scaffold with Mr. Smythe was his son, Arthur. While the elder man was seriously injured, the younger was not seriously hurt, with only a slightly bruised knee. They were placing an asbestos roof on the house on the old Hunter farm on Highland avenue. The scaffolding on which they were working was twenty-four feet above the ground.

The two injured carpenters were rushed to a local physician in Walter Raymond's automobile and then taken to the office of a Camden physician for X-rays.

The two men were employed by Christopher S. White.

Palmyra-Tacony Bridge Planned

Northeast Philadelphia Chamber of Commerce Unanimously Backs Project

Plans for the building of a bridge from Tacony to Palmyra are taking definite shape. The matter was taken up by the Northeast Philadelphia Chamber of Commerce at its meeting in the Frankford Library building Wednesday noon and a committee of the Chamber's most prominent members was appointed to back the project energetically.

Charles A. Wright, of Riverton, president of the Tacony-Palmyra Ferry Company, addressed the meeting and told of the advantages of a bridge to High-Bridge Point, Palmyra. Mr. Wright said he expected the ferry to become obsolete in the course of time. In order to protect the interests of the stockholders to the fullest extent, he said the ferry charter would probably be amended to enable it to build and operate a bridge.

The ferry company, in doing more business than ever before, the proposed bridge is to be built on a trestle level and to draw like the railroad bridge at Delair, and would cost in the neighborhood of \$4,000,000.

Edward W. G. Borer, of Riverton, also addressed the meeting on the subject. Mr. Borer has been in touch with prominent financiers in both Philadelphia and New York and has found keen interest in the project. Senator Emmor Roberts, of Burlington County, also spoke and promised his cooperation.

The Board of Directors of the Northeast Chamber of Commerce are unanimously in favor of the bridge.

ENGAGED

Mr. and Mrs. Alfred Clark, of Riverton, announce the engagement of their daughter, Helen Elizabeth Clark, to Albert Clayton Welkman, son of Mrs. Joseph L. Stack, of West Broad street, Palmyra.

Thirteen new members were elected Monday evening. They were: George Rumpel, Percy Cotman, Joseph Tromper, George Barrow, Newton Stewart, Charles Bailey, Alex Murphy, Jr., Lawson Herrington, Fred B. Conway, Stanley Carly, Harry Deemer, Richard Dallett and Andrew Baker.

The ladies of St. Agnes Guild served refreshments as usual and a movement was started to have the members of the club repay them in kind in the near future.

The club will have the Forum for its program next month and 10-minute talks will be delivered by six of the members. Several surprises are promised.

Rotary Club to Confer With Chambers of Commerce and Borough Councils

PALMYRA-RIVERTON BOYS TO BACK BOYS' WEEK

At the meeting of the Palmyra-Riverton Rotary Club last Thursday evening, Herman E. Eichner, member of the Community Service Committee, suggested that the Rotary Club ask the cooperation of the Chambers of Commerce of Palmyra and Riverton, also the Borough Councils of the two towns in the consideration of a joint celebration on the 4th of July. This suggestion was given the approval of the Club, and the committee on Community Service was instructed to proceed with suggestions to all Civic bodies affected. Rose G. Malcomb is chairman of this committee.

The Palmyra-Riverton Rotary Club received an invitation from Mount Holly Kiwanis to have some of the Palmyra and Riverton boys participate in the activities of Boy's Week, May 2-8. The invitation was referred to Joseph T. Evans, chairman of the Boys' Week committee.

Only two boys are eligible for each field sport, four for the relay and two for the mark events. Prizes will be given the winners of the first, second and third place in the finals. A silver cup will be given the town winning the most points, which will be counted as follows: five points for the first, three for the second, and one for the third place.

A part of Rotary's activities during boys' week is the arrangement for three free nights at Broadway Picture Palace (Tuesday, Wednesday, and Thursday) for boys twelve years of age and under.

On suggestion of Ross E. Mattis it was decided to have three Rotary signs made and placed as follows: River Road and Taylor's Lane, River Road and Cinnaminson Creek, and Thursday for boys twelve years of age and under.

These signs will be four feet in diameter and will present a very attractive appearance, lettered in the Rotary colors.

The sponsor of the evening was Ray, Bob Williams, secretary of the Woodbury Rotary Club. His theme was, "The Rotary Clubs Interest must extend to the community, cooperation of all civic clubs must be procured."

APPEAL TO PARENTS

H. B. Miller Gets County Contract

Toth's Bid is Considerably Lower, But He Failed To Provide Check

Action on the bids for alterations and additions to the Tuberculosis Hospital at New Lisbon, which was deferred at the meeting of the Board of Freeholders the week before, was taken last Friday when Hugh B. Miller was awarded the contract. He was the second highest bidder. The lowest price was submitted by John Toth, of Trenton, who was lower than Miller, but his bid was not accompanied by a certified check as required, and it was thrown out.

Favorable action was taken on the construction of the London Bridge, Washington avenue, Burlington, when the county engineer was authorized to prepare plans and specifications for the rebuilding of the span.

In the reconstruction work the bridge will be widened to meet the requirements of sidewalk extension work in that section of the city. The cost of the operation will be about \$2,500 according to the engineer's estimate.

It had been hoped to improve Washington avenue from Broad street to St. Michael's Drive in connection with the bridge work, but thus far the State Highway Commission has said they cannot take the expense and the road improvement may be delayed.

According to a report made by Curwen B. Fisher, director of bridges, the span over the Rancocas Creek at Pemberton is in bad condition. The moving pit is in danger of collapse. Recently a truck broke through. The county engineer was authorized to prepare plans for the necessary repairs.

There also was a report relative to the span over the Crosswicks Creek at Greenville. This is an In-Township bridge and will be built jointly by Mercer County and Burlington County. The Mercer County engineer is now preparing the plans and specifications.

The State Highway Commission sent a letter to the board announcing a detour during the construction of section 9 of Route 2 of the State highway. The detour is as follows: Beginning on Route 2 where same is intersected by the road to Palmyra, at a point about 1750 feet northeast from Pennsauken creek, and running northerly to Palmyra road to its intersection with River road in Palmyra, thence southwest along river road to Cove road, along Cove road southeasterly to Route 2.

Edwin Goldsborough, clerk of Beverly township, addressed a communication to the Board of Freeholders asking for the paving of an intersection at Willow street and the State Highway at Delanco. The culverts at this point are frequently broken by heavy traffic and it is the desire of the township committee to grade down the gutters and provide surface drainage in place of the culvert system. Beverly township is willing to pay the major portion of the expense. Referred to Charles R. Stout, director of roads.

A resolution by Mr. Stout, gave the Public Service Company the privilege of erecting four poles on the Columbus road in Mansfield Township, and 201 poles on the Mount Holly-Beverly road. In the latter case the poles are to be erected to supply Rancocas with electric light.

Permission under the usual conditions was given W. C. Worrell, of Moorestown, to open the county road from Moorestown to Bridgeboro. Water mains are to be laid. Worrell will give a bond in the sum of \$5000 to properly safeguard the traveling public, and to protect the County from liability for damage.

Announcement was made to the board that Job Collins, of Mount Holly, night turnkey at the Burlington County Jail, Mount Holly, has resigned on account of ill health. Herbert Shadle, of Mount Holly, has been chosen to succeed him at a salary of twenty-five dollars a week. The job calls for a service of seven days a week and twelve hours a day.

A resolution by J. Lloyd Wright, of Medford, authorized the county treasurer to pay the prosecutor of pleas his new salary of \$4,000. This is a boost of five hundred dollars. Incidentally the sheriff will get his thousand dollars a year and the members of the Board of Freeholders will get four thousand a year. They are now getting three thousand.

Under a resolution the meetings of the county board will be held at ten o'clock Eastern standard time.

CAMP 23

Last Monday evening was another big night in the history of Camp 23, P. O. S. of A., Palmyra. A class of candidates was initiated into the Order, the ceremonies being performed by the commandery team of Delanco and the members present were well repaid for coming out as the work done by the Commandery was of the best.

Another class is forming for May 10th, so get your candidate signed up and ready for this class. We are expecting fifty candidates. This year the Camp will have class initiation the week previous to the anniversary date which is May 17th. Instead of on the anniversary to give the members who attend the anniversary the whole evening to enjoy the banquet and hear from our State Officers who, by the way, will all be present. D. F. McAllister & Sons, Philadelphia's leading caterers, will serve the Banquet, "enough said." This is the evening the officers of the Camp would like to see all the members present who are unable to come out every week, so answer yes to your card and send it in.

On May 16th we will attend church services in the Central Baptist Church, Palmyra, at 7:45 p. m. Members meet in the Camp room at 7:50. On the 17th the anniversary and banquet at 8 p. m. in the auditorium of the P. O. S. of A. Building, and on May 20th and 21st the ladies entertainment in the auditorium. Tickets will be mailed each member later.

The success of these various evenings depend upon the members, so put the dates down and be present at each one.

WHY NOT?

"Thus far, radio has brought its leading program features from the opera, the concert hall, the orchestra and the stage. The day may come when the relationship will be reversed—when the broadcasting station will comb the field of original talent; when broadcasting will create new reputations, instead of capitalizing old ones; when the opera, the stage or the concert hall will draw from radio in response to the demand of the public to see as well as to hear its favorite artists; when broadcasters will compete with music publishers for original compositions, and not only buy but sell music publishing rights. This may seem a far cry, but radio broadcasting has advanced far from the days of mechanical music to the present stage of star programs."—David Sarnoff, Vice-President and General Manager, Radio Corporation of America.

Bills to the amount of \$55,590.59 were read and ordered paid, as follows: Roads, \$5,558.66; bridges, \$1,506.04; financial, \$41,317.74; buildings, \$8,545.89; public affairs, \$2,664.26.

Rural-School Teachers, Trained in Rural Surroundings

Students in the rural unit of the Territorial normal and training school at Waimanalo, Hawaii, are expected to participate in the life of the neighboring people. They call upon parents of pupils organize school picnics, give benefit school entertainments, and in other ways contribute to the enjoyment and well-being of the community. The location of the school was chosen when the rural unit was instituted in 1922, in order that teachers in rural schools might have the advantage of training in typical rural surroundings. It is not easily accessible to Honolulu, but is on the main highway, and within about a mile of the beach. It is a typical center for the great crops of Hawaii, sugar cane, pineapples, rice, and bananas. The school property affords ample space for playgrounds and for carrying out school projects, as well as for a beautiful campus. In these surroundings students easily adjust themselves to rural conditions, and become identified with the life of the surrounding population.

P. H. S. Juniors In Clever Play

Youthful Theatricals Win Applause in "What Happened To Jones"

Playing the role of a traveling salesman for a hymn book concern, who was forced to masquerade as a bishop, Edward "Ted" Hudson won his spurs as a clever amateur actor and comedian.

Ted took the leading male part and was "Jones," of "What Happened To Jones," farce in three acts by George Broadhurst presented by the Junior Class of Palmyra High School in the high school auditorium Friday and Saturday evenings of last week. The youthful aspirants to stage honors were greeted with large, enthusiastic audiences both nights.

Every member of the cast played his part in a very finished manner which was a fine tribute to the coaching of Miss Anna Mary Bell, a member of the high school faculty, who was the director.

The difficult, mature parts of Ebenezer Goodly, professor of anatomy, and Mrs. Goodly, were delightfully presented by Edward Sordun and Anna Murphy. Helen Enskat, a member of the high school faculty, who was the director.

Gertrude Pancoast and Elizabeth Toy, too, pleasingly played youthful parts as the Goodly daughters. Muriel Burghart and Grace Bauer very cleverly filled character roles of Alvina Starlight, Mrs. Goodly's splinter sister, and that of a Swedish servant girl.

Matt Ruster excellently portrayed the character of Anthony Goodly, bishop of Ballarat. Lester Johnson, as Richard Heatherly, Major's son, played his part with unusual ease and Henry Mathers won many laughs playing the part of the policeman.

Humming Bird PURE SILK HOSIERY WEARS LONGER

Bewitching New Hosiery Colors

We have arranged with the makers of Humming Bird Pure Silk Hosiery to send us the newest shades as soon as they are dyed. This brings right into our store the latest styles from Paris and New York, weeks ahead of the usual method.

Humming Birds are noted for the beauty, variety and fadelessness of their colors.

Stop by our hosiery department frequently to see the newest creations.

KANT WEAR HOODS

Mount Holly Refuses K. K. K. Permission to Parade Masked

The Burlington County Ku Klux Klan, presided over by Great Titan James R. Bennett, of Mount Holly, has been denied a permit to parade along the street of Mount Holly with the members wearing their hoods.

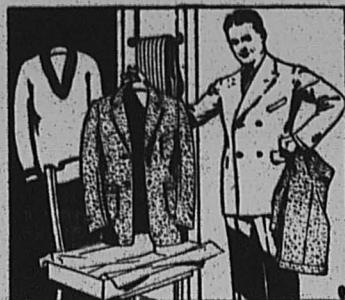

An application for such a permit was made to the Township Committee last week, but the officials seemed to be opposed to having a parade under cover and unanimously denied the privilege requested. The application was made by Mr. Bennett and the time fixed was the night of May 31, when Memorial Day will be celebrated and the revived Mount Holly Fair is to be opened.

There was no thought on the part of the officials, it is understood, that the Klansmen should not be permitted to parade unmasked and a permit would undoubtedly be granted for a demonstration with the faces of the paraders showing. It is expected that the matter will again come before the Township Committee.

When the application was made it was represented that the demonstration proposed would bring thousands of new people to Mount Holly and there would certainly be some benefit to come from it, but the Township Committee could not be moved from the idea that faces should be shown.

C. E. RALLY

Exceptional Program Arranged for County Meeting at Burlington

The spring rally of the Burlington County Christian Endeavor Union will be held on Friday evening, April 30, in the First Presbyterian church of Burlington. An exceptional program is being arranged by the executive committee, headed by the Rev. Homer J. O. Rinker, of Delanco, president of the Union.

Rev. S. H. Gapp, D. D., Ph. D., of Bethlehem, Pa., a member of the administrative board and superintendent of young people's work of the Union.

There was no thought on the part of the officials, it is understood, that the Klansmen should not be permitted to parade unmasked and a permit would undoubtedly be granted for a demonstration with the faces of the paraders showing. It is expected that the matter will again come before the Township Committee.

Moravian church in America will make the address.

Select numbers of vocal and instrumental music will be rendered. The meeting will close with a delightful get-acquainted social.

This rally will be an out-standing, inspirational inter-denominational gathering of christian workers, a meeting of special interest to the young people of the churches, and a cordial invitation is extended to all to attend and help make this the biggest and best rally yet.

A year's course in cooking is offered boys in the Calumet (Mich.) High School. The outstanding subject is camp cooking.

Spring's Example

Spring is with us and everything in nature is responding to the season of growth. Spring sets a good example for your Savings Account. Is it growing along with your income and your ambitions?

You can make a deposit each pay day if you will. You can draw nearer each month to greater prosperity and larger success. The way is easy if you make saving a habit. The best time to begin is immediately.

APRIL COAL PRICES NOW PREVAIL

Our April prices are now in effect and we have a sufficient stock of every size to fill all orders for prompt delivery.

We again urge our customers to put their year's supply in early as coal mined and shipped during the Spring and Summer months is much cleaner and better prepared and we have every reason to believe that the prevailing prices will be the lowest of the year.

We sell "Old Company's Lehigh" and "Jeddo" Coals.

Sheep Manure, Bone Meal and Lime for your lawns.

Amendments Made To N. J. Game Laws

Reduction of Daily Bag Limit For Certain Game Becomes Effective

Reduction of the daily bag limit for certain game fish and withdrawal of rewards heretofore paid in information and deputation in certain game law violation cases are outstanding features of new fish and game legislation now effective in this state. Few changes were made in the laws and most of these were introduced at the behest of organized sportsmen in the interest of conservation. The new bag limit law, immediately effective, reduces the legal daily catch of various varieties as follows: Fifteen trout, twenty rock bass, twenty in aggregate of catfish and crappie, ten salmon, ten in aggregate of black and Oswego bass. A fine of twenty dollars for each fish caught above the specified bag limit is the penalty for violation.

Crabs, which have become an increasingly important food product along the seashore, come in for protection under a new law, which forbids the taking of female crabs with spawn or eggs attached, at any season, under a twenty dollar penalty. Another new law of interest to the seacoast extends the ocean fishing-boat regulations to Sandy Hook and Raritan or Lower Bay.

Raccoons may hereafter be kept in this state as pets or for breeding purposes, by any person holding a breeder's license, and keep the animals in an enclosed preserve. Use of ferrets in hunting game has been prohibited under previous laws but a new statute will assist wardens in enforcement by making it illegal to have ferrets in possession in the fields or woods at any time. Another new law extends the closed season on wild turkey for three years. Colonies of these birds have been established in an effort of the state to restore the turkey as a game bird and the law continues protection of the experiment.

In order that western jackrabbits cottontails and Belgian hare may be more extensively used for food and sport in this state, a new law will permit the importation of these animals from other states and the offering of such imported game for sale. The ban on market-hunting for New Jersey game remains in full force.

Parent-Teacher Associations Conduct Children's Theater

Los Angeles Federation of Parent-Teacher Associations is successfully operating a children's theatre. The purpose is to provide spoken drama which will give right standards and establish a discriminating taste. Parents and children are getting wholesome, refreshing entertainment. An expert in educational dramatics manages the presentations. Costumes are designed and made by members of the federation associations. Music is furnished by orchestras from the schools. Tickets are sold through the schools, admission being 25 cents. Since the children's theatre movement began in this country in 1907, several cities have made experimental ventures, but Los Angeles is the first city in which the movement has been entirely fostered by parent-teacher initiative. Expenses are met by sale of seats.—School Life.

WHEN ICE CREAM WAS A NOVELTY

"Dolly" Madison Said to be First to Make Frozen Dairy Popular at Nation's Capitol

According to reliable government statistics the consumption of ice cream in this country today in the neighborhood of three gallons for every man, woman and child in the United States.

Everywhere you go nowadays you see ice cream signs. You can buy it in bulk, in bricks—all colors of the rainbow—in daisy cones and in paper cups. Also it forms the most delectable part of the well-known ice cream soda, nut sundae and other weird but delightful drinks sold over the soda fountain.

It was different at the beginning of the nineteenth century. Ice cream was then comparatively unknown. New Yorkers knew of it, and ice cream was actually advertised in the New York papers as far back as 1786, as newspapers of the year will testify. But Washington, which in those days set the styles in everything from wearing apparel to eatables, had not as yet taken up this new confection.

According to one of many legends, it was "Dolly" Madison, most charming of all mistresses of the White House, who actually introduced ice cream to fashionable and official Washington.

It is said that throughout the entire administration of President James Madison, ice cream was served at receptions and dinners. Apparently, "Dolly" loved the new dainty and was generous enough to allow her friends to share in her pleasure.

HELP PREVENT ACCIDENTS

"In our everyday activities each of us has a supreme conviction that nothing will happen to him; that if accidents happen they will always be to the other fellow. So Nature protects us from fear and constant worry."

"It is not unwarranted interference with our freedom to have someone interested in looking out for our personal safety, knowing as we do our own inclination to neglect it. It is not paternalism to neglect it. It is not paternalism to neglect it. It is not paternalism to neglect it."

"I commend with all my heart, the activities of the public utilities in the accident prevention field. I know it is right. I am not so much concerned whether the reason for their action is to prevent economic loss or to gain good will, or whether it is purely humanitarian. Results are what we want. Our effort affords

Little Travelogues

By BLANCHE GILL

DOG AT MASTER'S GRAVE

The Lake of Lucerne in Switzerland is one of the most beautiful sheets of water in Europe and is unsurpassed in magnificence of scenery. Its banks are intimately associated with those historical events and traditions which are so graphically depicted by Schiller in his "William Tell."

The city of Lucerne lies picturesquely on the lake, is enclosed by well-preserved walls with nine watch towers, while its amphitheatrical situation, surrounded by low hills, facing Rigi and Pilatus and the snow-clad Alps, is of surpassing beauty. Here the clear emerald green Reuss issues from the lake with the swiftness of a torrent. The river and the lake are enlivened with swans and flocks of half-tame waterfowl.

Near the Glacier Garden is the famous lion of Lucerne, a most impressive work, a monument to the Swiss guard who perished at the Zoltersee in 1792. The dying lion reclines in a grotto, overhung by trees and creepers, transfixed by a broken lance, and sheltering the Bourbonilly with its paw, is hewn out of the natural sandstone after a model by Thorvaldsen.

It was our fortune to spend a summer in this enchanting country. We were at the villa of a baroness—a most attractive home, high up on the terraced hill, with a magnificent view of the lake and the mountains. One day our hostess, the baroness, told us the following sad story of a faithful dog:

The baron (her husband), died about six months before. He had a shepherd dog which he thought much of and it was continually by his side and very faithful. After the baron's death the dog went every day to his master's grave, would eat but little, and evidently was very, very unhappy. In about a month he was missing. They found him lying on the baron's grave—dead.

(S. Western Newspaper Union.)

matively should be to gain for ourselves more comfort, more leisure and more culture. Our effort, negatively should be to prevent pain, suffering, disability and death from accident because we can."—Owen D. Young, Chairman of Board, General Electric Company.

REIN'S AUTO TALKS

Potential and Active Transportation Discussed by Riverside Dealer

"An automobile standing in a garage is only potential automotive transportation," says Frederick E. Rein, of the Rein Motor Company, Riverside. "It represents only the possibility of quick comfortable travel over streets and highways. 'Too many people think that a car is all that is needed to enjoy the advantages of motoring. But they soon find that many other things enter into motoring. 'The primary function of the automobile dealer is—not to sell cars as many suppose—but to see that the cars he sells do deliver the potential mileage which the manufacturer built into them. 'This means service, responsibility, a constant interest in the car, a stock of parts, and a readiness to meet every operating requirement of the car. 'Only when the dealer who sold the car offers these essentials of car performance to the owner does he realize the full value of his automobile."

Evening High School Approaches

A fifth period has been added to the program of the Brooklyn Evening High School, and more than 600 students at once announced their intention to take the additional period. Sessions are from 7 to 10:30 p. m. For average students, four periods will continue to be the allowance. Permission to take the fifth period will be granted by

the principal only to students over 17 years of age, physically and mentally fit, whose day-time work is light or of less than eight hours duration. Five-period students up to the first month will be compelled to drop one subject.

PORCH CLUB

Charter Luncheon Provides Splendid Program for Members

The Charter Luncheon of the Potch Club was unusually well attended this year and the abundance of spring flowers with their fresh colorings of green, yellow, and white, added immeasurably to the enjoyment of the well served luncheon.

Mrs. Corey, the president, introduced the speakers. First, Mrs. N. Myers Piller, a former and well-known member, made a strong appeal for the Charlotte Cushman Club, of Philadelphia, and described the activities of the club in furnishing a suitable home for transient girl members of the theatrical world. Mary Rose Collin then read some very appropriately selected poems of spring and home, especially suitable for the season and the audience. Mrs. Wilfred Heebner, of the Philomusical Club, of Philadelphia, gave a humorous sketch of a trip to the Academy of Fine Arts which afforded great amusement.

The Civic Section took advantage of the occasion to sell various small plants for the benefit of the Club's Shrubbery Fund.

A tax of five per cent. on every meal costing more than one dollar is planned by the Quebec provincial government.

LARGE DIVIDENDS PAID BY ADVANCED REGISTRY

Figures issued by the American Guernsey Cattle Club indicate that Advanced Registry Records of Production greatly increase the sale value of dairy cattle.

An analysis of 41 public sales of Guernsey animals held in the past year shows that 496 females over two years old and without Advanced Registry Records either on themselves or on their ancestors, averaged \$252 each. The average price of 395 Advanced Registry females of Advanced Registry parentage and over 2 years old, was over 2 1/2 times as much, or \$677. Females under two years old and without Advanced Registry dams averaged \$376 each.

Equally striking is a comparison of prices received for Guernsey bulls over 2 years old. The average price for bulls not out of Advanced Registry dams was \$115, whereas for 583 bulls out of Advanced Registry dams the average was \$1129.

Bulls under two years old and having Advanced Registry dams averaged \$400. This average was obtained from the sale prices of 123 animals. Eighty-three bulls under two years old and without Advanced Registry dams averaged \$110.

NOTICE

All readers or local notices of entertainments, suppers, fairs, dances, etc., given for the purpose of raising money, will be charged for at the rate of fifteen cents a line.

In a few weeks (June 15th, 1926) a primary election will be held for the selection of two candidates for members of Council.

Every voter should weigh carefully the question of who can best serve the interests of the Borough, as we are facing problems relative to taxation which are of vital importance to every property owner; therefore, let us all bring vividly before ourselves the character, ability and qualifications of the ones we desire to serve us as "public servants."

In the past Riverton has been served by its best citizens, and when we go to the polls on June 15th we should continue this good policy.

It is to be hoped that every voter will perform well the duty which we will be called upon to do in this respect.

THE QUESTION BOX

Deepest Spot in Atlantic Ocean
S. R. Riverton—Will you answer where is the deepest place in the Atlantic Ocean and how deep is it; also where is the shallowest place and how deep is it?
Ans. The deepest place in the Atlantic Ocean is near Porto Rico, where it is a little over five miles deep, and the shallowest place is near Ireland, where it is a little less than a mile in depth.

Intelligent Insects
F. J. Cinnaminson—Are there any insects that have intelligence?
Ans. Bees and ants are said to have intelligence. Their lives are remarkable for system. Each has soldiers, workers, kings and queens. Each set has its own part to play: the kings and queens lead, the soldiers only fight the enemies, the workers only store up food, while the non-producer and non-fighter is put to death.

Chinese Coin
E. H. Palmyra—What is the commercial value of the Chinese brass coin that is about the size of a nickel and has a square hole in it?
Ans. They have a valuation of one-tenth of a cent in United States money.

Why Do Eyes Wink
Miss S. Cinnaminson—Mr. Editor, I would like to ask you this simple question, if you will be kind enough to answer: Why do people and animals wink their eyes?
Ans. The act of winking furnished a steady lubrication for the eyes like oil for a machine. The ball of the eye is thus kept clean and in good condition by the water which passes over it from the tear glands. That, Miss S., is why we wink.

"Blue Laws"
J. C. Five Points—Will you kindly tell me what are "blue laws"?
Ans. After the restoration of Charles II "Presbyterian true Blue" became a term of derision applied to anything which smattered of Puritanism, and the "blue laws" simply meant puritanical laws, or laws with a blue tinge. These laws adopted in Connecticut, inflicted the death penalty for worshipping any god but the God of the bible; for speaking disrespectfully of the bible; for witchcraft, theft, false swearing, etc.

Barbaric Youth
Reader, Riverton—As I am one of your subscribers and you are running a weekly question column, I am coming to you for a little advice, but don't print my name. I have a boy that will enter high school next fall, but he now seems discouraged for the reason that most of the class treat him so cool that he doesn't want to go when the time comes. I try to keep him neat and clean, and he tries to join in their sports, but it doesn't do any good. On this account he quit school for a while last year. Should I keep him out of school, or what should I do?
Ans. This is a trying situation; but talk to him and tell him that it is just such things as that which, if he will overcome them, will make a real man of him. Tell him it doesn't pay to be too sensitive, and for him to show them that his a real boy who is above noticing such petty manners. Tell him all this the morning he starts to school next fall, so that it will then be fresh in his mind.

Rather Large
B. G. Palmyra—May I ask you a question probably you will think silly but for personal reasons I am interested. The question is: Was Theodore Roosevelt a large or small man?
Ans. Theodore Roosevelt was 5 feet 9 inches tall and weighed usually about 165 pounds.

Free and Accepted Masons
F. L. Riverton—What does F. & A. M. mean with reference to the Masons?
Ans. F. & A. M. means Free and Accepted Mason.

More Than 4000 Years Ago
E. S. Palmyra—When did the Deluge occur and how long did it last?
Ans. According to the Bible the Deluge began on Dec. 7, 2345 B. C., and continued 377 days. (Genesis VI, VII, VIII.)

PRESBYTERIAN

Next Sunday will be Preparation Day in Loyalty Month. There will be no preaching at the morning worship, except the children's sermon, which will be given as usual. There will be a "surprise" to take the place of the regular sermon.

In the Sunday school all scholars can show their loyalty by their attendance and punctuality; also, by bringing other scholars. Parents are urged to come to the school and to remain for the morning worship.

The Christian Endeavor meets at 7:15. A cordial invitation is extended to all young people of the community who do not belong to other societies to make this their society.

In the evening "Young People's Night" will be observed at 8:00. The entire service will be in charge of the young people and will be devoted to the young people's interests. The speaker for the evening will be Frank Getty, of the Department of Young People's Work of the Board of Education of the Presbyterian Church. There will be music by the young people, including orchestra selections. All adults are cordially invited to be present. The front seats will be reserved for the young people.

On Wednesday evening, May 5th, J. Edward Tompkins, of Rahway, will speak at the mid-week service on "The Spiritual Values of a Financial Campaign." On Thursday evening, May 6th, at 8:30, there will be a men's dinner for all men of the congregation. Mr. Tompkins will again speak on "The Community's Greatest Asset."

On Friday evening there will be a special women's meeting to hear Mr. Tompkins on "Service of Women in the History of the Church." All women of the congregation are urged to be present.

The meetings of the Women's Missionary Society, and of the Ladies' Aid Society, which usually are held on the first Wednesday in each month will be postponed. The mid-week service of May fifth will be held in the Church auditorium instead of in the Chapel.

METHODISTS

The pastor, the Rev. J. W. Lee, will administer the Sacrament of the Lord's Supper at the morning service of the Epworth Methodist Episcopal Church Sunday morning. There will also be a soprano solo, "O Lord be Merciful."

In the evening the congregation always enjoys a period of spirited song service. Pastor Lee's sermon theme for Sunday evening is "The Greatest Question Ever Asked." The choir will render the anthem "The Heavens are Telling."

Are you one of the few people in the Twin Cities who have not had the pleasure of hearing one of Pastor Lee's sermons? Many new faces are seen in the congregation each Sunday and everyone has felt more than repaid for attending. If you are not attending another church you will be heartily welcomed at Epworth Church and find the Rev. Mr. Lee and several messages of great value to you.

Mrs. Earl R. VanLewen will be the leader at the Epworth League devotional service at 7 o'clock Sunday evening. Her topic will be "Christ in the World's Music."

The Sunday School has classes for all ages, from the new-born babe who can be enrolled in the Cradle Roll department to the oldest folk. And there is the Wesleyan Men's Bible Class, which meets at the same hour as the Sunday School, 10 a. m., where all men may spend a very enjoyable hour. The Rev. J. B. Whitton is the teacher of the Wesleyan Class.

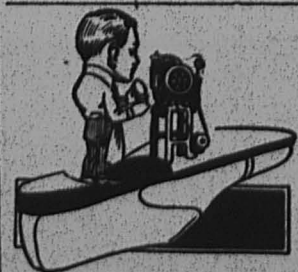

A meeting of the Woman's Home Missionary Society will be held at the home of Mrs. Rachael Lord, Fifth and Market streets, Monday evening. In addition to a special

CHRIST CHURCH

The Christ Church Branch of the Young Woman's Auxiliary will attend a corporate Communion next Sunday morning at 7:30 o'clock at which time they will present their first semi-annual offering for the United Offering of the women of the parish. It is earnestly hoped that they will attend this service.

There will be a supper given in the parish house on Wednesday evening, the 5th of May, under the auspices of the teachers of the Church School. The proceeds are for the uses of the Church School. The supper will be served from six o'clock to eight o'clock p. m. Price of the supper including ice cream and cake 60 cents for adults; 30 cents for children under ten years.

On Wednesday evening, May 5th, J. Edward Tompkins, of Rahway, will speak at the mid-week service on "The Spiritual Values of a Financial Campaign." Palmyra Notes

the drivers agreed to settle for the damages out of court.

Miss Virginia Storicks spent Sunday at Riverside as the guest of Mrs. G. Muller.

Miss Anna Corson, of Camden is spending a few days with Mrs. George J. Seel.

Mr. and Mrs. Pearl Kemp, of West Broad street, spent the weekend in Wyoming, Delaware.

Mrs. Joseph L. Black and Mrs. Pearl Kemp motored to Pitman Wednesday of last week.

Dan Nigro, of The Lone Pine, Cinnaminson Avenue, is on a two-months' trip to Europe.

Mr. and Mrs. Wesley Lane, of New York City, arrived at 11 a. m. and Mrs. George J. Seel, over the weekend.

Mr. and Mrs. Russell Hamelmaier entertained a party of friends at their home on Columbia Avenue Sunday.

Charles H. Shinn, of Riverside, has purchased a Dodge Sedan from the Ridgely Sweeney Dodge Agency, Palmyra.

The Palmyra Artisan Assembly having league held its annual banquet in Philadelphia Monday evening.

Mr. and Mrs. George Freise entertained a party of friends at cards at their home on Lincoln avenue Saturday evening.

Mr. and Mrs. Ed King, who have purchased the Chalfont Hotel at Ocean Grove, will leave on Monday to prepare for its opening.

Mr. and Mrs. Fred W. Itland will leave on Saturday for Ocean Grove, where they will re-open their Hotel Lorraine.

William B. Powell was a guest at a banquet at the Walt Whitman Hotel, Friday evening, given by the Architect's Association of Camden.

Miss Doris Brommell and Mr. Dan Scholtz, of West Philadelphia, were the guests of Mr. and Mrs. Thomas M. Griffenberg on Sunday.

Mrs. William F. Blackburn, of Cinnaminson avenue, has returned from Lebanon, Pa., where she attended the funeral of a brother.

Mr. and Mrs. Benjamin Sadler, of Atlantic City, spent Friday of last week with Mrs. Frank Storicks and then left by motor for Miami, Florida.

Mr. and Mrs. Harvey G. Fisher, of Morgan avenue, are receiving congratulations on the birth of a daughter, Jane Elizabeth, on Monday.

The Odd Fellows of Palmyra and Riverton will motor to the Odd Fellow's Home in Trenton on Sunday, where an afternoon service will be rendered.

The senior class of Palmyra High school will leave on its annual three-day trip to Washington, D. C., Thursday, May 6, and return the following Saturday.

Mr. and Mrs. Frank Storicks, of Highland Avenue, entertained Mr. and Mrs. William Storicks and family and Mr. and Mrs. DeYoung, of Hackensack, Sunday.

The regular monthly business meeting and social of the In-Ad-Much Bible Class will be held at the home of Mrs. T. W. Beldeman, Elm Terrace, Riverton, Tuesday evening, May 4.

Mr. and Mrs. Richard Newell, of Pawlucutt, guests at the wedding of Miss Muriel Seel, on Saturday. Mrs. Newell will be remembered as Miss Hazel Salisbury, a former resident of Palmyra.

Mr. and Mrs. Albert Smith, of Stonehurst, and Mr. and Mrs. Raymond Weber, and children, of Rosbling, took dinner with Mr. and Mrs. Harry Kemmerle, Sr., on Sunday.

The Palmyra High School Alumni Association is planning to give another one of its popular dances Saturday, May 15. Music, as usual, will be furnished by the popular Royal Coloredones. "Palmyra's own" jazz outfit.

Tickets are now on sale for Miss Dorothy Warner's annual exhibition of dancing. Miss Warner's class, one of the largest and most talented in the history of the school, will present a splendid program in the Palmyra High School auditorium Friday evening, May 21.

Raymond Warner has purchased eleven lots in the second block of Memorial Avenue, Palmyra, and has started the erection of his first home and says others will follow. These homes will be modern and complete and will have their usual attractiveness in appearance.

The Palmyra Pine Company pump-and-did excellent work at the Kleck-hefer Container Company, Delair, Saturday afternoon when several companies from this section were called to a blaze in several large bales of paper. The local apparatus was quick to arrive on the scene and soon was pumping three streams of water from the Delaware River.

The Palmyra Parent-Teacher Association will give a "May Dance" in the Palmyra High School gymnasium Saturday evening, May 15. There will be splendid music and a large, jolly crowd of folks have promised to attend, says Mrs. Charles Whitmer, president of this association. Tickets may be obtained from any member of the P. T. A.

Edwin Shaner, son of Mr. and Mrs. George B. Shaner, of Lincoln avenue, was tendered a surprise party in honor of his fourth birthday Friday afternoon of last week. Little Edwin's guests were Mary Kirkpatrick, Colleen Shaner, Ruth Lukewaller, "Billy" VanSant, "Bill" Burkess, Harley Rivers and "Bobby" Grafton. Edwin received many nice presents and Ruth Lukewaller won the party's first prize.

Two Philadelphia automobiles collided at the intersection of Broad street and Cinnaminson avenue Wednesday morning. A truck driven by George Kasper, of 214 Race street, coming out of Cinnaminson avenue, ran into the rear of a sedan which was driven by William Bausch, of 943 East Toga street. No one was injured, and only a rear fender of the sedan was smashed. No arrests were made, as George N. Wimer and Walter D. Lamont attended a meeting of the Burlington County Republican Committee in Mount Holly Tuesday evening.

Mr. Wimer is chairman of the committee, having served in that capacity for five years, and Mr. Lamont is just making his debut into politics as campaign manager for George W. Rogers, independent candidate for the Republican nomination for the county board of Freeholders.

Mrs. John Hoepfner reports the Palmyra Ambulance Association has received a check of \$10 from the

IMPROVED UNIFORM INTERNATIONAL

Sunday School Lesson

(By REV. P. B. FITZWATER, D.D., Dean of the Evening School, Moody Bible Institute, Chicago.)

Lesson for May 2

GOD'S COVENANT WITH NOAH

LESSON TEXT—Genesis 8:20; 9:1-17.

GOLDEN TEXT—I do set my bow in the cloud, and it shall be for a token of a covenant between me and the earth.—Gen. 9:13.

PRIMARY TOPIC—The Promise of the Rainbow.

JUNIOR TOPIC—God's Promise to Noah.

INTERMEDIATE AND SENIOR TOPIC—The Story of Noah.

YOUNG PEOPLE AND ADULT TOPIC—God's Dealing With Noah.

In order to grasp the meaning of God's covenant with Noah, the whole story of the flood should be clearly in the mind of the teacher and the pupil.

I. The Cause of the Flood (8:1-5). It was apostasy from God. The two types of men we saw in Cain and Abel (the one of proud self-will, the other of humble faith), developed on diverging lines, but as they multiplied they came into contact and intermingled.

II. The Ark the Way of Salvation (8:14; 9:24). Although all flesh had corrupted its way before God, in His mercy provision was made for such as would avail themselves of it. Christ is the ark into which all who enter are eternally saved. All who outside of the ark perished, so all outside the redemption of Christ shall perish (Mark 16:16; II Thess. 1:8, 9; John 3:18, 19, 36; I Pet. 3:18-22).

Observe in connection with this Judgment and provision of salvation: 1. The long-suffering God—He waited 120 years.

2. Noah, a preacher of righteousness (II Pet. 2:5).

God not only waited long, but through Noah sounded forth intelligent warnings.

3. God will not withhold His anger forever. At the appointed time the flood came and everything perished outside of the ark.

III. Beginning Life Upon a New World (Gen. 8:20).

This was a most solemn hour for Noah. With the fresh consciousness of God's hatred and judgment of sin, Noah faced the responsibility of giving shape to the life which was beginning upon the cleansed earth. He was to replenish the earth. Happily Noah began right, for he began with the act of worship.

IV. The Covenant With Noah (8:21; 9:27).

God was well pleased with Noah's act of devotion. Because of this He entered into a covenant with him embracing the following elements:

1. Assurance of the perpetuity of the race (8:21, cf. 9:17).

The how was set in the cloud as a token or guarantee of this.

2. The security of the order of nature (8:22).

We know of the succession of the seasons and the ongoing of the system of nature only because of the guarantee of Him who controls them all.

3. Establishing the privileges and responsibilities of Noah and his descendants in their relation to the earth (9:1-4).

(1) The earth to be replenished (v. 1).

(2) Dominion restored. The dominion which was lost through the fall of man was now restored, but on the ground of fear.

(3) Animal food given. Heretofore man subsisted on a vegetable diet (Gen. 1:29).

4. Human government established (9:4-6).

The sword of justice was placed in man's hands and man was to be ruled by man. This sword has never been removed (Rom. 13:1-7).

5. The destinies and interrelations of the three great branches of the race fixed (9:18-27).

(1) Cursed be Canaan (v. 25). The descendants of Ham were reduced to the lowest condition of servitude. This was partly fulfilled in the time of Joshua in their being partly exterminated and partly reduced to the lowest state of servitude, and also in the time of Solomon (Josh. 9:23; I Kings 9:20, 21), and it is still in the process of fulfillment in that for the most part Canaan's descendants are the world's servants.

(2) Blessed shall be Shem (v. 26). This was fulfilled in making the Jewish race the repository of religious truth and ultimately in Christ the promised seed.

(3) Enlargement of Japheth (v. 27). This was fulfilled in making him the progenitor of peoples and multitudes (10:5); also in the civilization which has been brought to the world through him.

Christ and the Resurrection

Let the science of historical investigation be rigorously applied to the resurrection of Jesus. Christianity will not fear the proof. For it has pleased God that this crowning seal put to His Son's life should be sustained and guarded by an amount of proof such as no other fact in ancient history can boast; so that no honest searcher for truth might be left in doubt that Jesus of Nazareth has been declared to be the Son of God with power.—J. Oswald Dykes.

Taxation of real estate in Delaware provides for only one-fourth of the cost of public-school education. Taxes on incomes, corporations, corporation franchise, and polls are other important sources of school revenue.

Pennsylvania Railroad, to be used for the purchase of a new first aid kit. The supplies in the old kit were exhausted at the "Nettie Bly" wreck in Delair. And don't forget the annual Ambulance Tag Day, Saturday, May 8. Everybody should be prepared to support the drive to the fullest extent. Bake cakes, buy cakes, buy tags and help boost the sale of the tags.

NOTICE. Proposals for collection and removal of garbage in the Borough of Riverton.

Sealed proposals will be received by the Mayor and Council of the Borough of Riverton at the Council Chamber in said Borough of Riverton at 8:15 o'clock P. M. on May Thirtieth, 1926, for the collection and removal of all garbage within the limits of the Borough of Riverton. Proposals should be addressed to Daniel M. Clifton, Borough Clerk.

The Contract shall cover and specify the following particulars: Collection and removal must be made in accordance with the Ordinance of the Board of Health entitled, "An Ordinance for the sanitary regulation of the collection, removal and disposal of garbage, sweep or refuse in the Borough of Riverton, New Jersey, passed May Fourth, nineteen hundred and fifteen, and also in accordance with specifications for collection and removal of garbage, on file in the office of the Borough Clerk and said contract must be made for a period of three years.

The Garbage Wagon owned by the Borough of Riverton must be used for the collection and removal of such garbage and the cost of maintenance, keeping said Garbage Wagon in repair must be borne by the party obtaining the contract.

A certified check drawn in the sum of fifty dollars, to the order of Herbert Evans, Borough Treasurer, must accompany each bid.

The Mayor and Council of the Borough of Riverton reserve the right to reject any and all bids.

Further information may be obtained from Daniel M. Clifton, Borough Clerk, No. 604 Main Street, Riverton, N. J.

Dated March 18, 1926.

DANIEL M. CLIFTON, Borough Clerk.

423-21

Tuesday at noon, after the dry grass on the Methodist Cemetery caught fire, several members of the Palmyra Fire Company burned off the entire plot to prevent future flames. Considerable smoke was caused by the fire, and as a small child, coming from school, dived across Cinnaminson avenue, he was knocked down by a machine driven by W. L. Wright, salesman for Palmyra Motor Company. Mr. Wright said the dense smoke made it impossible to see the little fellow.

The child, who is the son of Mr. and Mrs. Devaney, of West Broad street, was taken to a local physician for examination and found to be uninjured.

AIRDALES

MERLIN KENNELS, Merrey Lane, Maple Shade, New Jersey, puppies and grown dogs for sale. Lindenworth Craftsman at stud. Black police dog for sale. Telephone. E. Lindley.

ANNOUNCEMENT

It is with much pride and pleasure that I formally announce my candidacy for Freeholder of Burlington County.

My policy will be to work earnestly and diligently for the reduction of County Taxation. My experience as Freeholder of Burlington County for a period of six years has given me an accurate knowledge of the needs and requirements as well as the cost of construction work which will be beneficial to the Board of Freeholders.

At a time like this it seems most necessary to place in office men who by virtue of their experience will be an asset to our County.

My position in this campaign is one not pledged to any combinations but a free and open independent candidate. I earnestly solicit your vote and patronage and further promise to the best of my ability an efficient businesslike administration on my part.

Thanking you for all past courtesies, I remain.

Very truly yours,

George W. Rogers

Ordered and paid for by Walter D. Lamont.

ANNOUNCEMENT

It is the desire of the Republican Voters of Burlington County, that I should be their candidate for Sheriff, may they express that desire by voting for me at the Primary on June 15, 1926.

If I should be nominated and later elected I shall be the People's Sheriff, and will endeavor to give them an efficient and economical administration.

A. ENGLE HAINES

Ordered and Paid for by A. Engle Haines.

Class Meeting on Friday evening.

Christian Science. First Church of Christ, Scientist, Riverton. Thomas Avenue and Seventh street.

Sunday services: 11 a. m. Subject: "Everlasting Punishment." Sunday School 9:30 a. m. Wednesday 8 p. m.

Reading Room in Church Building open Tuesday and Friday 2:30 to 4:30 p. m. All are welcome.

Christ Church, Riverton. Holy Communion, 7:30 a. m. Church School, 10:00 a. m. Holy Communion and Sermon at 11 a. m. Morning Prayer and Sermon at 11 Evening Prayer and Sermon, 8:00 p. m.

Epworth Methodist. Fifth Street and Morgan Avenue. Rev. J. W. Lee, pastor.

Sunday Services. 10:00 a. m. Church School. 11:15 a. m. Morning Worship. 11:15 a. m. Epworth League 6:45 p. m. Evening prayer, 8:00 p. m. Prayer Meeting Wednesday at 8.

ANNOUNCEMENT

After a very careful consideration of the matter, I have decided to run for the Republican nomination for Member of the Board of Chosen Freeholders of Burlington County at the Primary Election to be held June 15th next, and I respectfully solicit the support of all voters.

Since serving as Auditor of this County by appointment (my time expiring at the end of this year), I have realized as never before the importance of the office of Chosen Freeholder and have seen how intimately the management of the County's business affects not only every taxpayer but every citizen.

I am not one to make rash promises, but I firmly believe in the policy of President Coolidge in the matter of economical management and common sense in government affairs and that these principles should be applied to County and Municipal affairs as well.

If nominated and elected, I shall endeavor to the utmost of my ability to perform the duties of the office in such a way as to faithfully serve the best interests of all the people of Burlington County.

William H. Heisler, Jr.

Ordered and paid for by William H. Heisler, Jr.

ANNOUNCEMENT

To the Voters of Burlington County:

I beg to announce my candidacy for the Republican nomination for County Auditor, subject to the decision of the voters of the party at the primaries, to be held on Tuesday, June 15, next.

Should I be nominated and elected I pledge my best efforts in the discharge of the duties of the office, to the end that I may protect the interests of the taxpayers at all times.

As to my qualifications for the office which I seek, I would prefer that those speak who know me best. However, I beg to say in my own behalf, that if I did not feel that my business experience of fourteen years would enable me to perform the duties of County Auditor to the satisfaction of the people, I would not be a candidate.

I solicit your support.

Very truly yours,

Harry J. Ziegler

Riverside, N. J., April 27, 1926.

Ordered and paid for by Harry J. Ziegler.

HAD GOLF LINKS IN AMERICA LONG AGO

Evidence That Game Was Played in Year 1760.

The inquiries made by those who have searched into the history of golf have elicited a fund of interesting lore, and there are several outstanding points which seem to have escaped attention completely by most of the players of this day.

The most startling of these is that golf was first played, not in Scotland, which is generally supposed to have been its birthplace, but in Holland. In its primeval form the sport is believed to have been only a crude outline of what it is in its modern raiment, but the basic principles were unquestionably there.

In my time it has always amounted to a sacrifice to advocate radical reforms in the game. The slight changes have invariably been more of an expedient nature than constitutional. A manifesto of the ancient St. Andrews club of Scotland reads: "The game ceases to be golf as soon as the rules are broken at pleasure." This refers more to arbitrary violations by individuals, but the spirit back of it is the same as that which keeps the game free from tampering.

There is scattered evidence that golf was played sporadically in this country more than a century previous to the time it was placed on an enduring basis in 1888, the year which is now accepted as marking its real beginning. I have heard authorities on the early history of the game tell of a blue law passed in the city of Albany, N. Y., in 1760, forbidding Sunday play.

It is traditional that wherever Scotsmen went they took the game with them, in exactly the same manner as baseball today follows Americans over the face of the globe. In New York, the members of the St. Andrews society, which was founded in 1756 and was the outgrowth of the Scots society of New York, its senior by 12 years, made a practice of providing entertainment for the men who came here with the Scottish regiments in Colonial days. Golf was one of the diversions which it encouraged among the soldiers from the native land.

But whatever golf was played here then was of an unorganized and local nature. It gained no foothold among native Americans. There is not even any record to show that it stirred sufficient interest to be worthy of the ridicule which greeted its revival more than one hundred years later. And with the Revolution it died, leaving only a few mourners, who, in spite of the clannish Scottish spirit and the traditional Scottish love for old customs, were unable to revive the flame to life.

It is unquestionably true that here and there over the land were Scotsmen who continued to swing clubs and at times even banded together and mapped out courses, as the records of Texas and other Southern localities show; but it remains that no effort to launch golf in the United States was genuinely successful until 38 years ago. The fact that it had meanwhile taken strong hold in Canada seemed to be without effect. Jerome D. Travers and James R. Crowell, in the Saturday Evening Post.

The movement for parent-teacher associations in colleges is growing. A committee for this service has been created by the national congress. The chairman says that college authorities welcome any reliable means of imparting information to the public. The college parent-teacher association aims to bring about fuller cooperation between college authorities and college patrons.—School Life.

Be Neighborly!

If you are one of those who have written for the Charles William Stores Catalog of big bargains and have not received it we are sorry. The reason is, an amazing demand for this book has exhausted our supply. We earnestly ask you to borrow a catalog from one of our customers—there are many in your community—and we are sure they will oblige you . . . and us.

Of our old catalog please help us and your less fortunate neighbors by lending them your catalog for a while. We could not force how great the demand would be for this catalog and so our Special Midsummer Sale and our Special Midsummer Sale May 15th, it seems hardly possible to print a fresh supply of the big book before the special sale comes to an end. We have all the big bargains that have made our catalog so popular and around the huge demand, but unfortunately we have no more books. However, if our old customers and new ones will co-operate with us they will render a real service to us and to their neighbors. We thank you.

CHARLES WILLIAM STORES
New York City Inc.

Waffles!

the hot crispy-edged dainties so well liked by everyone. Easily and quickly made on the electric waffle iron.

Exceptional value \$9.95. On terms \$10.45—\$1.45 down, \$1 a month.

Sounds to Control Fires

The use of sound waves as fire extinguishers and a weapon in warfare is called a possibility by Howard Cooley, civilian director for the chemical warfare service in the New England district.

"It is possible in time that the tone wave of every building in a great city could be ascertained and at a central fire station a tuning fork would be set up," Mr. Cooley says. "In case of fire the tuning fork would be vibrated and in a few minutes the fire would be extinguished."

"That sounds extravagant, but many of you will live to see it done." Experiments, he said, had already been conducted on his own house. The reason why the vibrations would not shake the house into a mass of ruin was that the adjustment would be just enough out of tune.

Light Aids Surgeons

Surgeons performing operations, laboratory workers, engravers and others are aided by a shadowless light developed in France. The rays are reflected upon the surface to be illuminated in such a manner that the hands, or any other body held between the lamp and the working area, cannot obscure the surface by their shadows. This effect is secured by a cylindrical prismatic lens and a set of silvered reflectors adjusted around the inside of the lamp bowl which is of sheet metal. The light can be concentrated by focusing. A cover glass keeps the heat from persons below, and the shade is counterweighted so that the lamp may be tilted.—Popular Mechanics Magazine.

Smart Kid

"Several years' experience with youngsters has taught me that you cannot outsmart them," says a city bus conductor. "Last Sunday morning two little girls, one of them about five years old and the other about six, boarded my empty bus. They selected a seat and the younger one proceeded to perch herself on her sister's lap. Before taking their seats, I asked why they were sitting like that when there was so much room. 'Why?' asked the older one. 'She is my baby and I am holding her in my arms and I am only going to pay one fare.'"

So Easy

George L. Chapman, the Florida realtor, was talking in Jacksonville about a man named Snodgrass who had lost heavily in Florida land. "A couple of crooked realtors got hold of him," said Mr. Chapman. "There are crooks, you know, even in our trade. And then Snodgrass was such a bonehead."

"These two crooked realtors were playing golf the other day over a new course they had just laid out in order to boom a building operation, and it occurred to them that it would be a good thing to christen the holes. 'What shall we call this third hole,' George? said the first realtor. 'Call it Snodgrass,' said the second."

"Why call it that?" "Oh, because it's so easy to do."

Twenty-two centers for correction of speech defects in children are maintained in elementary schools of Denver, Colo.

A two-year library course is part of the curriculum in a San Diego junior high school.

A Lucky Lie

John Silver was surrounded by friends. And how must friends be entertained? By some sort of story surely. Silver thought for some time, and began:

"I don't know if any of you knew it, but I am going to Mexico next month."

"You are really going to Mexico?" "And why shouldn't I go to Mexico?" asked Silver.

In the manner of friends they replied: "Every other man dies of malaria." "It is simply unbearable with poisonous fumes."

"You have to go to bed with a revolver in one hand."

"What's more, Silver, very few people ever come back."

And then Silver exclaimed heartily: "Well, it certainly is a lucky thing I was lying!"

Thirty per cent of the elementary school children in Indiana are taught in one-room schools. Last year 352 one-room schools were abandoned, but there are still 3,029 in the State. Only one county, Marion, has entirely discontinued one-room schools, but three other counties have only one one-room school each.

Waves of Quakes

A remarkable instrument that translates the slightest tremors of the earth into sounds that issue from a loud speaker is the recent invention of a Japanese professor, Dr. Jun Shida of Kyoto university. It is designed to give warning of the approach of earthquakes, says Popular Science Monthly.

The possible usefulness of the invention lies in the assumption that most severe earthquakes are preceded by slight shocks. Thus an audible warning of slight tremors would give people time to leave homes and office buildings before the arrival of a destructive quake.

The invention consists of a pendulum, an electric coil and an amplifier. The pendulum is so delicately poised that it responds to the slightest vibration. When it is set in motion, electricity is generated in the coil, which actuates a sound-producing device. The sound is amplified and issues through a loud speaker.

FIVE DOLLARS for Gas or Coal Old Water Heater

We will pay Five Dollars for it on the purchase of Our Rex "turn-the-faucet" heating system. Hot water is ready any minute—day and night.

Thermostatic control—gas goes on and off automatically. Hot water is always available without dirt, work or attention, and costs less than coal.

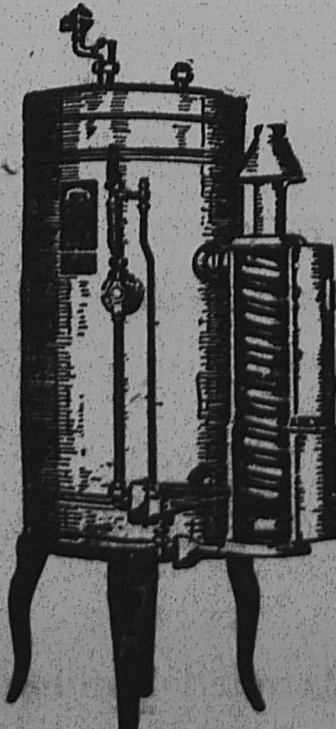

The patrol valve and additional pilot are exclusive Rex features which control the gas supply to burners. They keep main gas supply shut off unless regular pilot is lighted. Other features are brass circular pipes and fittings; aluminum downdraft hood; 24 gallon extra heavy galvanized boiler, well insulated. Our regular size copper coil tank water heaters. Aluminum finish.

In buying a gas water heater one should have expert advice. We are experts in gas water heating construction and efficient operation. Every heater we sell will give the hot water service you expect at a price you can afford, with least possible cost for upkeep. This we guarantee—and our guarantee is your insurance policy of gas water heater satisfaction.

Sell your old heater for \$5 and enjoy the Hot Water comforts you may have only if you use an automatic gas water heater.

PUBLIC SERVICE

If it's done with heat—You can do it better with GAS.

\$10 down

install a 24 gallon Rex—Pay balance \$170 monthly. Cash price \$106. Terms price \$112.60.
Connected ready to use. Less \$5 for your old water heater.

The Palmyra ambulance was called to take an injured workman who had fallen from a roof of a house near Bridgeboro to the Zabriskie Hospital, Riverside, Wednesday morning. The ambulance was driven by Officer Joseph Rodgers.

ANNUAL WATER RATES of the RIVERTON AND PALMYRA WATER COMPANY

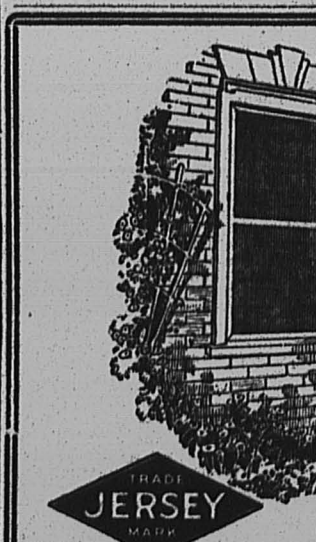

All persons wishing to connect with the public water supply, may do so by applying for a contract and filing it with the Company, at the office, Broad and Main Streets, Riverton.

RATES
1/2-in. including 10,000 gallons \$3 per quarter
3/4-in. including 12,000 gallons \$4 per quarter
Special contracts on large meters EXCESS
First 25,000 gallons 30c per 1000 gallon
Second 25,000 gallons 25c per 1000 gallon
All over 50,000 gallons 20c per 1000 gallon
Bills rendered quarterly and due when rendered.
For convenience of patrons, bills may be paid at Cinnaminson National Bank.
We aim to give good service. Any complaints will receive prompt and courteous attention if addressed to Office of the Company, Broad and Main Streets, Riverton, N. J. Phone Riverton 147.

Tuberculosis League Gets Broader Aspect on Work at Spring Meeting

Conference Brings Out Better Understanding of Campaign Planned by State Organization Against White Plague

The first open spring conference on the broader aspects of tuberculosis work, attended by some 500 persons from different parts of the state, including physicians, teachers and social workers, resulted in a better understanding by those in attendance of the practical and inspirational need and development planned by the organization in New Jersey.

The conference was held jointly by the New Jersey Tuberculosis League and the Essex County Tuberculosis Council.

The conference was broadcast at noon and during the evening. Other than the general educational purpose of the meeting, its immediate purpose was to indicate the exact use of the hospital in a community, and better ways of locating tuberculosis cases in rural districts.

Ernest D. Easton, executive secretary of the New Jersey Tuberculosis League, announced that the National Tuberculosis Association would award a silver cup to the state that reaches the greatest number of schools in the state and competes for this prize. Mr. Easton also said a nutrition cup would be awarded the community of 10,000 or more which has put on the best program for malnourished children.

Much Enthusiasm
The enthusiasm of the conference was stirred by Dr. C. E. A. Winslow, of the Yale School of Medicine and President of the American Public Health Association, who declared that national progress is being made in the fight on the White Plague.

Dr. Winslow said: "Three fourths of the burden of tuberculosis which rested on our ancestors one hundred years ago has now been lifted from the human race. I can see no escape from the conclusion that our methods of administrative control are effective and have played a large part in the reduction of the tuberculosis death rate."

While stressing the need of community effort he said that the first need in the anti-tuberculosis campaign is public health nurses to find new cases and, second, a tuberculosis clinic program.

It developed during the conference how these two objects are being carried out in New Jersey. Dr. Samuel B. English, president of the New Jersey Tuberculosis League, explained how the recent \$15,000 ap-

port function of schools, but of the broader aspects of health. He said the time is not far off when all teachers will be obliged to pass a medical examination of their fitness physically and mentally in order to get their licenses to teach.

"County Child's Health" Myth
That the old fashioned country child of great health has passed into a myth, was the conclusion of the discussion following Commissioner Logan's talk. It developed, during the discussion, that in some of the surveys of rural schools, made by nurses of the New Jersey Tuberculosis League, they found over fifty per cent of the children who are more than ten per cent underweight for height. These facts show, it was stated, that the rural schools have more malnutrition than the city schools where statistical studies have shown twenty to thirty per cent malnutrition.

Said Mr. Easton, "The League has proven that the modern country school child has more uncorrected physical defects, lives under less sanitary conditions, works longer without sufficient sleep, and for this reason is not as strong as the city child. Therefore, the end of the myth of the strong children from the country."

Approximately 40,000 men and women in 122 colleges and universities of the United States, 39 per cent of the entire enrollment, are working their way through college, according to information furnished the Interior Department, Bureau of Education. About 55 per cent of the men and 22 per cent of the women in these institutions are supporting themselves in whole or in part.

Primary Children Taught History by Weaving Wool
Wool weaving as a history project was effectively worked out in the third grade of the training school of State Teachers "College" at Mankato, Minn., last session. The

Audubon Society Bird-House Contest

The New Jersey Audubon Society, referring to the recent State-wide bird house contest in which it is co-operating with L. S. Plant & Co., considers as one of the principal features of value, the interest and attention that is thereby directed to the birds themselves, and to methods of attracting birds about human homes.

Independent and co-operative educational work is claimed by the Society to be its most important function. It co-operates with Boy Scouts, Girl Scouts, Young Men's Christian Association, Garden Clubs and many other organizations, and has accomplished a surprising amount of constructive work with the limited resources at its command.

The Audubon Society urges that either the economic value of birds to man or the aesthetic pleasure of their companionship, would abundantly justify all effort to further protection and encouragement of the birds, without the double incentive. Through specifications for constructing and placing bird houses, and dissemination of information on all phases of the relation of birds to man, the Society seeks to spread an important gospel, in which work it urges public co-operation.

Primary Children Taught History by Weaving Wool
Wool weaving as a history project was effectively worked out in the third grade of the training school of State Teachers "College" at Mankato, Minn., last session. The

purpose was to develop a historical sense and background through a study of pioneer conditions in the children's own community. All work, as far as possible, was done by the children. In supervised study periods they read and discussed tools and processes, and became deeply interested in the story of the past. When possible, implements of former days or pictures were obtained and kept as exhibits at school during the carrying out of the project. Crude models were made, and children and teacher worked together in weaving a small mat. Many new words were learned, and in the development of the project, reading and spelling, oral and written composition, writing and industrial art figured largely. School Life.

A NEW COLLEGE COURSE
The University of Colorado has established an extension division course in public utilities. Instruction is under the supervision of the School of Business Administration, with the advice of a special staff of electric, telephone, street railway and gas company executives. The list of courses includes: 1. the elements of public utility economics; 2. valuation; 3. rate making; 4. regulation; 5. taxation; 6. financing; 7. management; 8. engineering problems; 9. accounting. The course comprises from 12 to 18 lessons and costs from \$5 to \$9 each. This department has been added because of the rapid and ever-increasing expansion of the public utility industry in creating a demand for men and women who possess something more than rank and file ability and learning.

WHERE THE AUTO DOLLAR GOES FARTHEST

No question about it, a good used car delivers more miles per dollar than you can buy in anything else.

It Costs Less to Own a Better Buick

Gasoline, lubrication, water and fair treatment are all the Better Buick needs to deliver its mileage at astonishingly low cost.

The Valve-in-Head engine, as Buick builds it, develops more power from a given quantity of gasoline. Buick Automatic Heat Control, an integral part of the Buick carburetor, still further aids fuel economy, by super-efficient carburetion.

In no other car, regardless of price, will you find the completeness of protection for performance afforded by the Buick "Sealed Chassis" and "Triple-Sealed Engine." Dirt cannot get in, anywhere, to cause wear, looseness and vibration.

To know what motor car economy really is, for finer transportation at lower cost, own a Better Buick.

THE FIRST TELEPHONES

The first commercial telephone line in southern New Jersey was built not long after the Centennial.

Two instruments, a few hundred feet apart, comprised the first Bell telephone service in this part of the state.

Other lines quickly followed. By 1900 there were over three thousand telephones; by 1905, nearly twenty thousand; by the end of 1915, nearly fifty thousand. Today, the operations of this company cover more than a hundred thousand telephones.

So does the service grow; and so does this constant broadening increase its value to every user.

As to quality of service, our objective is a continuously increasing promptness and dependability—that each year shall show greater facility in its usage, either cross-town or cross-country, and still further diminishing of mechanical and human failure in its operation.

As to further expansion, we neither have nor can have an exact goal, except to match the extension of our service with the public need for it.

Ten years ago it seemed to some that South Jersey was "saturated" with telephones. Since then the System has more than doubled.

THE DELAWARE AND ATLANTIC TELEGRAPH AND TELEPHONE CO.
ONE POLICY, ONE SYSTEM, UNIVERSAL SERVICE

Trenton is the capital of New Jersey. It ranks fourth among the cities of the State, having a population of some 150,000. An industrial city with wide diversification of manufacture, it is famous for its potteries. Well over \$100,000,000 are invested in its 400 factories of which seventy distribute their products nationally. Historically it is a center of interest. Public Service provides electric, gas and a part of its transit service for Trenton.

A Safe Investment!

THROUGH our Popular Ownership Plan an opportunity is given to every thrifty person to secure a proved investment in a long established enterprise, known to all residents of the State.

Back of the security offered are the earnings of public utility companies furnishing essential services to the rapidly growing municipalities in one of the leading States of the Union. Buy

6% Cumulative Preferred Stock of Public Service Corporation of New Jersey

The Season I Like Best

The season of the year I prefer is Spring. After having the cold dreary months of winter with its snow and sleet, Spring is welcomed by all. It is then that the outdoor sports begin, and we again become interested in baseball, tops, marbles, hop-scotch, jumping rope and other such games. Flowers bloom, leaves appear on the trees, grass becomes green again and the days grow longer.

After being shut up in the house during the winter months we are glad to get outside again when the first days of Spring appear.

Elizabeth Stiles, Grade TB.

Moving Pictures Taken of School Children

The Riverton school pupils took part in "The Romance of Riverton" which was taken Thursday April 22.

Thursday morning at nine-thirty pictures were taken of the upper grades showing their progress in what they have been doing so far through the year in physical training.

After the exercises a mass drill was held by the entire school. They then saluted the flag, led by Miss Chew, which ended the school's part in the picture.

These pictures will be shown in Riverton next month.

J. Vincent Hackett
John R. Fuller
Grade 8.

Assembly Notes

Riverton Public School assembled in the school auditorium where the program consisted of several numbers.

Miss Chew read the Bible and the entire school repeated the Lord's Prayer.

Following this, several songs were sung.

The next number was a piano solo "Four Horsemen" by William Shackeny. A poem entitled "Planting of a tree" by Jane Mattila.

Brown Prep Wins Over PHS. Nine

Philadelphians Are Victors For First Time in Many Years

Tuesday afternoon, for the first time in any line of athletic endeavor during the Morse regime, Brown Prep, of Philadelphia, defeated Palmyra High when the Philadelphia nine triumphed over the Moravians, 7-6, at the Field Club Park. After three victories, this is the first setback the locals have met this season.

Palmyra started off like a whirlwind, garnered seven solid snacks, knocked two twirlers out of the box and collected five round counters. Then a big husky fellow, who had been presiding at the hot corner, was sent to the mound, quelled the onslaught, and held Palmyra to a pair of scattered hits during the remaining eight innings.

And such "stuff" that twirler number three displayed. He had more hooks, slouts, control and speed than any twirler the local lot for many moons. He appeared to have seen at least twenty-four summers, and apparently has spent every one of them gaining a thorough knowledge of the national pastime. He had the local boys guessing from the time he ascended the mound and was invincible throughout the fray.

Brown did not score until the fourth, when a pair of runs were chalked up. Fancy stickwork netted the victors another quarter in the sixth and they tallied for the last time in the eighth. A feebly rally gave Palmyra her last run in the seventh frame.

Smith started on the hill for Palmyra and was relieved in the fifth canto by West, Morse's first string hurler.

Spotty work by the infield did not help Palmyra's chances of stopping the fast Prep lads. Several miscues at critical moments allowed runners to advance and make the way for counters. Atkinson, at the initial sack, committed a pair of costly errors. The infield was somewhat crippled, due to the loss of Meyers, the dusky short stop, who was injured in a practice game Monday. The clever colored athlete is suffering with a small broken bone in his ankle and will probably be out of the game for the remainder of the season.

Captain Scheer, the second baseman, led the attack with the willow, collecting a total of four base hits. The field leader was the only Moravian to connect safely with the brilliant Brown moundman's fancy delivery. Jack Easley leaped into the limelight with a beautiful heavy from deep center field and stopped the runner at the plate.

Last Friday Palmyra met Mount Holly at the county seat. The game, which was thrilling ten-inning affair, was called on account of darkness with the teams in a 7-7 deadlock.

FINAL REHEARSALS

"Miss Somebody Else" Will Be Presented May 7 and 8

Final rehearsals for "Miss Somebody Else," the four act comedy which will be presented in the High School auditorium Friday and Saturday evenings May 7 and 8, show the cast to be well trained.

Director David P. Shanks, after many weeks of diligent rehearsing, has developed a well balanced body of amateur actors and actresses which promises to present the delightfully modern farce in a finished manner.

One of the very attractive features of the production will be a solo by Miss Dorothy Warner, Palmyra's premier actress, and a soprano number by one of the Twin Cities popular soloists. Music between the acts and for Miss Warner's solo will be furnished by the Palmyra High School orchestra under the direction of Louis R. Richards.

Everyone is bound to enjoy the work of Fred Metzger, in the leading male role, and those who have seen the cast, at work have been

The Flag Salute and Singing of our National Anthem concluded our exercises.

Florence Lockwitz,
Grade 8.

The Babes in the Wood

Once upon a time there were two babes who were lost in the wood. They laid down and went to sleep. The Robins came by and found the two babes lying asleep. They covered them up with leaves. That is the end.

Dorothy Bartlett,
Second Grade.

The Babes in the Wood

Once upon a time two poor little children were stolen away. They were left in a wood. When it was night, the moon gave us light.

Poor babes in the wood. And don't you remember the babes in the wood?

Clifton Mayfield,
Second Grade.

Arithmetic

In the Fifth Grade we have been studying in arithmetic about decimal fractions. We have learned that in dividing we place a decimal point to the right of the whole number, and one directly above it, in the quotient. After we have done that we add two noughts to the dividend. If our answer does not come out even, and the remainder is large we usually add another unless the question says to find the quotient to the nearest hundredths. We have also learned that in adding and subtracting decimal fractions the decimal points always come under each other. In multiplying decimals if there is only one decimal place in the multiplicand we only have in the product. This same thing applies to any number of decimal places in the multiplicand. We are enjoying this work very much.

Dorothy Corneal,
Grade 5A.

More Candidates Out for Primary

Harry Ziegler, of Riverside, and W. H. Heisler, of Pemberton, in Race

The Burlington County campaign for the June primaries took definite shape this week with the announcement of several additional candidates, completing the County Republican organization's "sleets."

Harry J. Ziegler, of Riverside, will be candidate for County Auditor, while William H. Heisler, Jr., of Pemberton, has entered the Freeholder fight.

Mr. Heisler is understood to have the support of the county republican organization headed by Charles H. Stout. Other candidates for the office, who apparently will be opposed by the Stout organization, include former Freeholder George W. Rogers, of Palmyra, and Freeholder J. Lloyd Wright, of Medford, whose term expires this year.

Mr. Ziegler is well known throughout the county and polled a heavy vote last year when he was nominated for the Freeholder nomination. He should have no difficulty landing the Auditor's berth.

Heisler was appointed Auditor at the time former Auditor Curwen was elected. He is a well known figure in the county and has been sufficiently for it to decide to promote him to Freeholder.

Another big fight will be waged for the office of Sheriff. A. Engle Haines, former Sheriff and at present Deputy Sheriff, is the candidate for the office, and is expected to win the organization's endorsement.

The other leading candidate for Sheriff is Ex-Sheriff Edward H. Plank, Jr., of Riverton.

SONS OF ITALY

The stage is all set for the second annual ball of the Palmyra Sons of Italy. Work of decorating P. O. S. of A. Hall, where the affair will be held, is under way and B. Barney, chairman of the ball committee, says the decorations are expected to surpass anything ever attempted in the hall.

The entertainment program includes Buff and Shank, South Philadelphia comedians who scored a big hit last year; Kitty and her Charles, a comedy duo, featuring the 75-pound Estelle Taylor; Frank Kline, the Camden xylophonist; Peggy Gorman, Egyptian dancer; Gus Bishop, the clever impersonator of Cliff Edwards, Ukelele Ike; and the return engagement of Denny Fox and Kitty LaMonte, in an exhibition of the Argentine tango.

Music for the dancing will be furnished by the popular Royal Commodore orchestra.

The grand march will be led by Mayor James T. Weart, J. Edwin Lewis, president of the Palmyra Borough Council and the councilmen, Assemblyman Clifford R. Powell and Freeholder Charles H. Stout.

Refreshments will be served and everyone will be given an attractive souvenir.

Ice Cream

The life of the Children's Party.

On Friday, April 30, a social and dancing will be held at the home of Mr. and Mrs. Herbert Dison, Randolph avenue, East Riverton, to plan work for the future. All members and friends of the church are invited to attend at 7:30.

Wither Chocolate Sale Helped to Raise Money for the P. T. A.

The Parent Teacher Association distributed price lists and order blanks of Wither products among the pupils of the school. These were taken home, orders listed and many were returned to the school and then sent to the Wither Company.

The sale lasted for only one day. A price box of candy was offered to the room selling the most chocolate. The award was made to the Fifth Grade, which led the race, twenty dollars and eighty-five cents as their return.

Leon Wilcox,
Grade 5.

Burlington County Spelling Contest Will Take Place on Saturday

The spelling contest which occurs yearly for Burlington County Grammar School pupils will be held on May first in the Mount Holly High School.

The contest will begin at 12:30 o'clock. A written contest will take place first. The thirty pupils who receive the highest average will enter the oral contest which will take place at two-fifteen o'clock in the afternoon.

Riverton Public School will be represented by one contestant.

The prizes will be as follows: \$5 to the best speller, \$2.50 to the next best speller, \$1.00 each to the next best spellers, \$5.00 each to the nine next best spellers.

A special bus or automobile will be ordered to take any of the pupils to Mount Holly who care to go as witnesses. This will be at their own expense.

The pupils of the Seventh and Eighth Grades have been preparing for this, and we are hoping that the person who will be chosen may cast a favorable reflection upon our school; and with him or her we send our wishes for success.

Mary Wagner,
Mary Pfaff, Grade 8.

NOTES—RICE

A very quiet wedding took place Wednesday morning at nine o'clock, at the rectory of the Sacred Heart Church, when Miss Elsie M. Janssen, daughter of Mr. and Mrs. Harry Rice, became the bride of Mr. Jack Roth, of Frankford.

The attendants were her sister, Miss Mary A. Rice, maid of honor, and Mr. Albert Wilke, best man.

After a short wedding trip to Atlantic City, the couple will reside at Chester Gardens, Frankford.

SHERIFF'S SALE

By virtue of a writ of fieri facias, to me directed out of the District Court of the United States for the Eastern District of Pennsylvania, I will sell at Public Sale:

THURSDAY, MAY 20, 1926

between the hours of 12 and 3 o'clock in the afternoon to wit, at 2 o'clock at the Court House, Room 100, Burlington County, New Jersey:

ALL that certain lot or parcel of ground with the frame dwelling house thereon erected situate on the north corner of said Broad Street and York Street, in the City of Burlington, County of Burlington, and State of New Jersey, bounded and described as follows:

BEINGING at a point on the North corner of Broad Street, a line thereof one hundred and thirty-three feet east of the outside of the east curb of York Street, extending easterly along the line of said Broad Street twenty-two feet, thence easterly to the corner of a lot formerly of George J. Gill, now of James Maurer, thence northerly along the line of said York Street thirty feet, thence easterly along the line of Broad Street twenty-two feet six inches to a post for a corner, in a line with the line of said York Street, thence easterly and parallel to the west line of said lot, a line thereof one hundred and thirty-three feet to the place of beginning.

THE same premises which John G. Powell and wife, by deed bearing date September 28, A. D. 1925, and duly recorded in the Clerk's Office of Burlington County, New Jersey, in Book 124 of Deeds, page 225 &c., granted and conveyed to the said John G. Powell and wife.

ALL that certain lot or parcel of ground situate in the City of Burlington, County of Burlington, and State of New Jersey, between York and St. Mary Streets, and between Broad and Barclay Streets, and more particularly described as follows:

BEINGING at the northeasterly corner of a lot conveyed by John Collins and wife, by deed bearing date July 15, 1910, and recorded in Book 12 of Deeds, page 28, in the Clerk's Office of Burlington County, New Jersey, the property of the said John Collins and wife, thence easterly along the line of said York Street, three feet four inches to the corner of a lot owned by the said John Collins, thence (2) along the line of said lot, a line thereof one hundred and thirty-three feet to the place of beginning.

THE same premises which John G. Powell and wife, by deed bearing date September 28, A. D. 1925, and duly recorded in the Clerk's Office of Burlington County, New Jersey, in Book 124 of Deeds, page 225 &c., granted and conveyed to the said John G. Powell and wife.

ALL that certain lot or parcel of ground situate in the City of Burlington, County of Burlington, and State of New Jersey, between York and St. Mary Streets, and between Broad and Barclay Streets, and more particularly described as follows:

BEINGING at the northeasterly corner of a lot conveyed by John Collins and wife, by deed bearing date July 15, 1910, and recorded in Book 12 of Deeds, page 28, in the Clerk's Office of Burlington County, New Jersey, the property of the said John Collins and wife, thence easterly along the line of said York Street, three feet four inches to the corner of a lot owned by the said John Collins, thence (2) along the line of said lot, a line thereof one hundred and thirty-three feet to the place of beginning.

THE same premises which John G. Powell and wife, by deed bearing date September 28, A. D. 1925, and duly recorded in the Clerk's Office of Burlington County, New Jersey, in Book 124 of Deeds, page 225 &c., granted and conveyed to the said John G. Powell and wife.

ALL that certain lot or parcel of ground situate in the City of Burlington, County of Burlington, and State of New Jersey, between York and St. Mary Streets, and between Broad and Barclay Streets, and more particularly described as follows:

BEINGING at the northeasterly corner of a lot conveyed by John Collins and wife, by deed bearing date July 15, 1910, and recorded in Book 12 of Deeds, page 28, in the Clerk's Office of Burlington County, New Jersey, the property of the said John Collins and wife, thence easterly along the line of said York Street, three feet four inches to the corner of a lot owned by the said John Collins, thence (2) along the line of said lot, a line thereof one hundred and thirty-three feet to the place of beginning.

THE same premises which John G. Powell and wife, by deed bearing date September 28, A. D. 1925, and duly recorded in the Clerk's Office of Burlington County, New Jersey, in Book 124 of Deeds, page 225 &c., granted and conveyed to the said John G. Powell and wife.

ALL that certain lot or parcel of ground situate in the City of Burlington, County of Burlington, and State of New Jersey, between York and St. Mary Streets, and between Broad and Barclay Streets, and more particularly described as follows:

BEINGING at the northeasterly corner of a lot conveyed by John Collins and wife, by deed bearing date July 15, 1910, and recorded in Book 12 of Deeds, page 28, in the Clerk's Office of Burlington County, New Jersey, the property of the said John Collins and wife, thence easterly along the line of said York Street, three feet four inches to the corner of a lot owned by the said John Collins, thence (2) along the line of said lot, a line thereof one hundred and thirty-three feet to the place of beginning.
