

**JUNE**

# BIG CROWD SEES NEW RIVERTON TEAM OPEN SEASON

Hopkins, For Riverton, Hits Safety Every Time He Faces Pitcher.

**WEIKMAN AT BAT HAS 800 AVERAGE**

Last Saturday afternoon the Palmyra Field Club Stars met Riverton's new baseball team for the first game of the season on the new diamond at Memorial Park.

Palmyra scored two runs in the fourth inning and took the lead of 5-4 which the Riverton team could not pass.

William B. Lynch threw out the first ball.

Between the third and fourth innings Mr. Lynch stepped up to the home plate accompanied by Edward H. Flagg, Jr., whom he introduced to the spectators as "the next sheriff of Burlington county." Mr. Flagg spoke for a few minutes about the kind of sports Riverton stood for.

He said "Riverton in the past has always stood for good clean athletics, and judging from these three innings of this game I am sure this team will be the type we want to play on this new diamond in Memorial Park."

**Need More Moral Support**

Mr. Flagg impressed upon those present the thought that the team needed more than a diamond and the playing paraphernalia to be successful. He said, "The team needs not only your financial support but your moral support as well. It cheers the boys up and inspires them to play harder to win the game, when there are rooters on the side lines to applaud a good play."

Bud Griffenberg opened the game by flying out to Adams at second. "Clay" Weikman laid one down along the third base line and beat the throw to first, getting the first base hit on a bunt. Frabietore and Richman were tossed out at first in order by the pitcher and third baseman.

In Riverton's half Weikman threw Platt out at first. Adams teased Wenger for a walk, but was out at second on Hopkins' hit to deep short. Hopkins' single scored and scored on Peterson's single. Nick (Altrock) Wallace was thrown out at first by Weikman to end the inning.

**Score in Third**

In the second for Palmyra, Reagle worked "Doc" Hinkle for a pass. Harder laced one out in right-center for two bases, scoring Reagle and tying the score 1-1. Harder was out stealing third. Krouse and Hepper fled out to right field and first. Frabietore, in Riverton's turn with the stick, F. Conway and Holvik took the 1-2-3 route back to the bench. W. Conway hit for a single. Pitcher Hinkle struck out, ending the inning.

Wenger opened the third for Palmyra with a single and took second on a wild pitch. Griffenberg fled out to Holvik at third. Weikman came to bat with a two-ply wallop scoring Wenger. Frabietore was out at first. Hinkle, assailing Richman hit a single scoring Weikman. Richman stole second. Reagle was out at first. F. Conway to W. Conway.

Riverton came back and scored three in their half. Platt fled out to Frabietore. Adams teased Wenger for his second pass. Adams advanced to second, and Hopkins was safe at first when Weikman rumbled his hard bouncer. Peterson landed on the first pitch for a triple, scoring Adams and Hopkins. Nick Wallace got a single, scoring Peterson. Wallace stole second but died there when W. Conway and Holvik fanned, ending the frame.

**Two More Runs**

Harder struck out to open Palmyra's fourth. Krouse, Hepper and Wenger walked. Krouse and Hepper, scoring on two wild pitches, Wenger out trying for third. Griffenberg struck out.

W. Conway, Hinkle and Platt went down in order for Riverton, being thrown out at first, flying out and thrown at first respectively.

In the fifth Palmyra had two on and Richman, Reagle and Harder failed to come through.

Riverton also failed with two on after one out. W. Conway and W. Conway ended the inning by being out and being tossed out at first. Hopkins and Peterson worked a double steal after one was down.

In the sixth "Doc" Hinkle struck out Krouse and Wenger while Hepper fled to Holvik in between.

In Riverton's seventh Holvik singled, W. Conway sacrificed him to second. Hinkle singled, Holvik out at the plate. Hepper, Holvik fled out to Hepper. Holvik was thrown out at first. W. Conway fled out to Krouse ending the eighth.

In the last inning Hepper whiffed, Hinkle threw a wild pitch out to first. Griffenberg was safe on Weikman's fumble. Adams threw out Weikman at first.

**End of Game**

D. Hylton, battling for Hinkle, was first up in the last stand for Riverton. He fled out to Griffenberg. Platt was an easy mark for Wenger and his fast ball. Adams worked Wenger into a 3 and 1 hole and tried to tease Wenger for another wild ball but Wenger made him swing at two, ending the game.

Both Hinkle and Wenger had 10 strikeouts to their credit and both pitched good ball throughout.

Weikman starred at the stick with an average of .800. Five times up, four safe hits, one a two-ply single.

For Riverton, Hopkins shone brightly with a perfect day at bat. Four times up and four times safe.

Both teams played good ball considering the fact that Palmyra had played only one game and this was Riverton's first. These two teams

# Palmyra Observes Day of Memorial

**New Flag Pole Dedicated at Legion Home; \$1000 Check Presented**

In a very fitting manner Frederick M. Rodgers Post of the American Legion, No. 158, and Washington Camp No. 23, P. O. S. of A., conducted the exercises in observation of Memorial Day in Palmyra last Monday.

Following the invocation given by the Rev. George Lockett in front of the Legion Home, the new flag pole was dedicated to the Palmyra and Riverton men who made the supreme sacrifice during the World War.

Frank A. Mathews, State Commander of the American Legion, was presented with a check for \$1000 as Palmyra's donation to the American Legion Endowment Fund for the Veterans and Orphans of the World War.

In accepting the check Commander Mathews thanked the residents and the Legionnaires for their contribution to a worthy cause and hoped that they would realize the great amount of good that will be done with the donation.

Leaving the Legion Home the parade passed up South street to Elm Avenue then up the North side of Broad street and out Cinnaminson Avenue to Morgan Cemetery where a salute was fired and prayer was given by Freeman Belcher, Legion Chaplain.

The same exercises were repeated at the M. E. Cemetery and following this the exercises were held at the Legion Home.

The 12th Field Auxiliary, of Camden, with two cannons lent a very military aspect to the procession.

At the Legion Home remarks were made upon the occasion of the celebration by Major James T. Weart and Richard E. Wilson, Esq.

The P. O. S. of A. placed flags upon the graves of the dead.

Harold West was chairman of the committee in charge of the celebration.

# LIPPINCOTT WINS

Defeats Harry F. Jones in Final Round of Golf Tourney

Richard Lippincott, by defeating Harry F. Jones, five up and three to play, in the final round of the tournament for the Walter H. Lippincott silver platter, won a second leg on this coveted trophy Memorial Day.

The tournament is one of the most important on the golf schedule of the Riverton Country Club, and the winner is a nephew of the donor of the platter, who was formerly president of the Club.

In the semi-finals, Jones defeated E. S. Parry, three up and one to play, and Lippincott defeated W. E. Coe, three and one.

# Artisans to Hold Big Celebration

Fifteenth Anniversary to be Observed With Entertainment at High School

The Fifteenth Anniversary Celebration of Palmyra Artisans Assembly, No. 85, will be held in the High School Auditorium, Saturday evening, June 5.

A very pleasant program has been arranged and many surprises will be given to the audience in the line of entertainment.

This meeting will take the place of the regular one scheduled for the third week of June.

Prior to the entertainment a parade will be held starting at the Riverton Fire House at 7:30 p. m. Special cars will be at the P. O. S. of A. Hall, Palmyra, to take the members to Riverton.

Among the special things arranged is a special Artisan Band, Mounted Guard of Northwestern Assembly and other uniformed units. Most Excellent officers and delegations from all Jersey Assemblies.

Every member is urged to do his bit and arrive to participate in the celebration.

# Ferry Jam Cut By Traffic Plan

One-Way Rule Put Into Effect on Cinnaminson Avenue

Chief Morris Beck, of Palmyra, reports that the new system of one way traffic on Cinnaminson Avenue from the ferry to Fourth street, tried for the first time Monday evening, was very successful.

The Chief stationed an officer at Second and Fourth streets and they kept the traffic going in the one direction only.

If a car desires to board the ferry, it is permitted to go down Cinnaminson, but otherwise it must cut off at Fourth street and proceed from there in whichever direction the driver desires.

Mayor James T. Weart and George N. Wimer were very enthusiastic about the result of the new system when they talked with Chief Beck Tuesday morning.

Now that the corner has been widened at Broad and Cinnaminson, says Chief Beck, "we experience no difficulty in handling the traffic no matter how heavy it is."

Sunday and Monday, although the traffic was the heaviest in months, everything moved along at a fine pace and the officers experienced no difficulty whatever.

Chief Beck says "If Broad street is widened as is proposed from McAllister's store to Garfield Avenue we will never experience any trouble handling automobile traffic."

Over nine thousand cars crossed the Palmyra-Tacony Ferry from Friday to Monday evening, according to Captain Sidney Albertson, superintendent of the company.

The traffic was heavier than usual yet the boats maintained their schedules all through the day, but at the same time carried a record number of cars.

Sunday and Monday twenty-seven hundred cars were carried each day by the two ferry boats "The Palmyra" and "The Tacony."

Captain Albertson noted that cars were coming in greater numbers from northern Philadelphia and the upper parts of South Jersey than they used to and he expressed satisfaction in the thought that more and more persons were realizing the many advantages presented by taking the ferry at Palmyra.

# LEGION CARNIVAL

Big Doings Will Be Staged at Harke's Extension

The Palmyra Post of the American Legion will hold a carnival Thursday, Friday and Saturday evenings of next week on the Palmyra Extension, Cinnaminson avenue, for the purpose of raising funds to carry on the work of the Legionnaires.

Through the courtesy of William T. Harke, owner of Palmyra Extension, this tract of land has been donated to the Legion for their carnival.

It is expected to make this the best ever with many new attractions on the ground under the supervision of members of the Palmyra Post.

The committee in charge is Reeves Morgan, W. Rex McCrosson and Harry Schaffer.

The boys earnestly ask the residents to come out and support the carnival which is an annual affair here.

# ANNURRY

Many graves of loved ones were decorated this year in the Asbury M. E. Cemetery. The soldiers and sailors visited the cemetery on Sunday morning at 11 o'clock. They sounded taps and fired the salute over the grave of their comrade of the World War, Harvey Thompson, of Riverside, who passed away on May 16th, 1926.

Mr. and Mrs. Joseph S. Southwick and daughter, Doris Marie, of 600 Biedman avenue, Camden, were visitors at the home of his uncle, Thornton B. Southwick on Sunday, Joseph S. Southwick preached in the Asbury M. E. Church on Sunday evening. Subject, "Heaven". Text, Rev. 22:14.

Services on Sunday evening, June 6th, in charge of Horace Mason, of Riverside.

# FLOWER SHOW

The annual Flower show will be held at the Park Club on Tuesday, June 8, at 2 o'clock. Bring exhibits between 10 and 12. Roses and penants to be judged for the quality of the species, three of a kind, if possible. Other garden flowers arranged in baskets, bowls and vases to be judged for their artistic arrangement. There will also be a children's exhibit of flowers.

There will be no charge for admission. Everybody welcome and everyone is urged to bring flowers.

# BIG DONATIONS START NEW HOSPITAL FUND

**MEET CANCELLED**  
Burlington County Competition Will Not Be Held Friday

Coach Harold "Boots" Lever, of Palmyra High School, has received a communication cancelling the Burlington County Track Meet scheduled for Friday, June 4th.

Coach Lever will send the pick of his track squad to Newark, Saturday, June 5th, to the State Championships. This meet will close the season for the Palmyra boys and although their showing has not been very sensational this year, Coach Lever feels that they have done the best possible.

"In sending a squad to Newark Saturday," says the coach, "we do not expect to do anything surprising but we feel it is our duty to send a representative about track to show the State Organization we are behind the movement."

The outlook for next year's track team is not so good, but it takes time to build a good track team and Coach Lever says he will be satisfied if the boys of this year's team are still enthusiastic about track when the season opens next year.

# Palmyra Loses To Camden City

Field Club Team Defeated in Memorial Day Game by 8-2

Although defeated in the second game of the season, the members of the Palmyra baseball team are enthusiastic over the fine showing made Monday when they crossed bats with the strong Camden City baseball team.

The final score was 8-2.

The cheering by the spectators was much appreciated by the Palmyra players and they sincerely hope that the attendance will grow as the season progresses.

Harder, Krause and Frabietore were the stellar lights for Palmyra, while McNulty and Kelly played well for the other team.

In an interview after the game Manager Jim Rapp said "We didn't win our second game, but I feel that the boys will spring many surprises before the season is over."

"I hope the fans will give the team the same support every game as at the one Monday."

Saturday the boys will play Belvidere, at Palmyra. Game out and root for the home team.

# Motor Accidents on River Road

Riverton Youths Drive Head-on Into One of Steedle's Buses

Three rather serious automobile accidents occurred within a single half-mile stretch of the River Road between Riverside and Riverton during the first three days of this week. Two accidents were on Memorial Day and the third occurred late Tuesday evening.

A Ford touring car owned by Eli Brown, Jr. and driven by Ned Bowers, Jr. and one of Steedle's buses opposite Drear's Fairview Nursery at 11:50 Tuesday evening. The third occupant of the car was Bill Faunce.

The front of the bus was damaged. The Ford was wrecked and its three occupants badly injured. Brown and Faunce were taken to Riverside by a passing trolley where the conductor turned them over to the police, who in turn took them to the hospital.

No doctor could be obtained at the hospital at that hour and Officer Walter G. Miller, who followed a few minutes later in Theobald Schneider's car, took them to the office of Doctor R. I. Downs, who took four stitches in Faunce and eight in Brown. Bowers came to Riverton and Dr. Rogers closed his cuts with five stitches.

The Riverside doctor said the boys had been drinking but would not declare them intoxicated.

# TWO DRIVERS FINED

Percy Grimes, of Palmyra, was fined twenty-five dollars and costs for permitting a man to drive his car without a license and loaning him his own car and driver's card.

Simon Gray, also of Palmyra, was fined ten dollars for driving a car without a license and five dollars for reckless driving when the two were arrested Saturday evening by Officer Nelson Wallace.

Gray drove past the traffic signal at the corner of Broad street and Cinnaminson avenue and failed to heed the yellow light.

He drove up Parry avenue, then over Spring Garden street to Highland avenue, where he struck a tree near Chief of Police Morris Beck's home.

Gray asked Mrs. Beck if he could use the phone and was telephoning Grimes about his misfortune when Wallace, who gave pursuit to the car, arrived. He checked the number he had taken when the car went past the traffic signal and it corresponded to the one of the wrecked auto.

Officer Wallace said there were three passengers in the car when he first saw it but they disappeared when he arrested Gray.

Both men were tried before Justice of the Peace William Fichter Monday morning and were released after they paid their fines.

# COMING EVENTS

- June 4—"Happy Hour" Kiddies Concert at Central Baptist Church.
- June 5—Strawberry festival by St. Agnes Guild of Christ Church, Palmyra.
- June 6—Camp 3, P. O. of A., of Palmyra, will present an American Flag to the Baptist Church.
- June 6—All members are requested to be present in the basement of the church at 7:30 p. m. Everyone invited.
- June 8—Flower Show, Riverton Park Club.
- June 10—Graduating exercises, Riverton Public School.
- June 12—Strawberry Festival, Ladies Auxiliary of Cinnaminson Lodge No. 301, L. O. O. F. Proceeds for charitable purposes.
- June 11—Strawberry festival and cake sale, by Golden Hour Circle, Ives Presbyterian Church.
- June 14—Final reception by graduating class, Palmyra High School.
- June 17—Commencement exercises, Palmyra High School.
- June 18—Women's Society of Central Baptist Church Strawberry Festival and Cake Sale on Church lawn.

Palmyra's work, under the direction of Richard E. Wilson, is well under way as is that of Delran township, under Lester S. Portman, in Edgewater Park and Beverly, the campaign will be aggressively pushed under the chairmanship of Frank W. Thacher, with Alexander C. Ferguson as vice chairman for Edgewater Park and Rev. Gordon H. Jones as chairman for Beverly, the latter having appointed the following captains: George W. Adde, W. B. Beck, Rev. Oliver C. Bowne, Edgar Burkhead, William L. Donaldson, John W. Hooker, Brian B. Kane, Harry McCloskey, Warren B. Smith, David Rodman, Frank H. Stone, and Howell Stone. Mrs. Stone is serving as chairman of the Women's Committee and Franklin Jones as treasurer for the combined districts.

## AGED MAN HIT BY RECKLESS AUTO DRIVER

**Moorestown Officer Captures Fleeing Motorist After Long Chase**

A "hit-and-run" driver was caught in Moorestown Monday night.

Patrolman Charles Erickson had to draw his gun and threaten to shoot at the speeding driver, John Wiggins, of 2107 Spring Garden street, Philadelphia, who had run down and seriously injured a 68-year-old man, before he would stop. Wiggins, who was accompanied by Clarence E. Stone, the owner of the automobile, who gave the same Philadelphia address, ran down William Snyder, who had recently been employed at Collins' Nurseries, as he stepped from the curb at Pleasant Valley Avenue and Main Street shortly after 10 o'clock Monday evening.

The Philadelphia machine slackened its speed and was apparently going to stop, until the driver saw another auto approaching from the rear. He then quickly increased his speed and raced up Main Street. The driver of the other car, Clarence J. Anderson, of Burlington, took up the chase. The Philadelphia party turned out South Church Street and after stopping to pick up Officer Erickson, the Anderson car followed.

Officer Draws Pistol Before passing the evening auto, the policeman blew his whistle several times, but that only seemed to make Wiggins add speed. It was not until Anderson's machine passed him and Officer Erickson drew his gun and showed his intentions of shooting that the Philadelphia party stopped. Then, the police say, Stone jumped from the machine and hastened to straighten the headlight which had been bent when the car drove into the elderly pedestrian.

Witnesses say Snyder was thrown several feet when the recklessly driven auto hit him. He was taken to the Cooper Hospital, Camden, and did not regain consciousness until late Tuesday afternoon. Then he was only conscious a few minutes.

**Deny Responsibility** Wiggins and Stone, at a hearing before Justice of the Peace Harry Wolf, of Lenola, at the Moorestown police station Tuesday morning, emphatically denied that it was their machine which had run down Snyder. Witnesses, however, refuted their statements and they were committed to the Burlington County Jail at Mount Holly in default of \$1,000 bail for further hearing.

Chief of Police Bradshaw says several parties attempted to obtain Stone's release, but had not been able to furnish the proper securities as late as Tuesday night.

Very little is known of the victim who is a stranger in the town and had only been employed at Collins' Nurseries a short time.

**Nurse Injured** Miss Emily Scott, a nurse at the Burlington County Hospital, Mount Holly, was severely cut when a Brown's Mills bus drove into a pole on King's Highway, near Pleasant Valley Avenue, Tuesday afternoon.

The nurse was the only occupant of the bus to be injured. She was rushed to County's drug store, where her wounds were dressed, and advised to go to a hospital for further treatment.

According to Chief of Police Bradshaw, whose men investigated the accident, the bus attempted to pass a truck and got over along the edge of the road where the driver lost control and piled head-on into a Public Service pole which was moved eighteen inches out of place by the force of the impact.

The machine drove away under its own power although the radiator and front was considerably damaged.

**Victim Unidentified** An unidentified man was struck by an automobile on Moorestown pike, at Chwick, Monday night.

On the inside of his hat was the name of N. N. Thies, Philadelphia Navy Yard.

Michael Zicardi, of Maple Shade, driver of the car, surrendered to Chief of Police Ward, of Maple Shade, and was released in his own recognizance for further hearing.

He said the man was staggering down the road toward Maple Shade and he was unable to avoid striking him.

Zicardi took the body to Cooper Hospital, where the man was pronounced dead.

## MAY FROLIC

**Freshman Girls Pay Tribute to Seniors at High School**

The Freshman girls of the Moorestown High School presented a May Frolic Wednesday morning of last week in the High School Auditorium in compliment to the Senior girls.

"The Swallows," a cantata sung by the Girls' Chorus, was accompanied by a playlet written by Emilie Lippincott, of the Freshman Class, and produced by the Freshman girls.

The first group of songs and the prologue told of the flight of the swallows as winter approaches. The second number and the following scene represented the returning of the swallows in the spring. The girls who took the part of the swallows appeared in very attractive group dancing. The girls representing spring delivered to each senior girl a May basket.

The costumes which represented the characters each girl portrayed were made by the Freshman girls under the direction of the Household Arts and Art Departments.

**MEETING** The next meeting of the Riverton Chamber of Commerce will be a dinner meeting held in Collins hall Friday evening, June 11, 6 o'clock sharp. Since the last meeting a large volume of business has accumulated which will require the attention of members every one of which should be present.

**LUTHERAN NEWS** The Rev. A. H. Roth, of Philadelphia, will be in charge of the morning service, which starts at eleven o'clock, at the First Lutheran Church, of Palmyra and Riverton, this Sunday. The Rev. L. M. Wallick, of Drexel Hill, will deliver the evening sermon. The evening service starts at 7:45.

**Miss Alice Paul Dominating Figure**

**Former Moorestown Woman Leading Spirit in Great Conference at Paris**

Alice Paul, formerly of Moorestown, is the dominating figure of a conference of women from forty-three nations in Paris. Although she remains in Washington, she has sent an American delegation to Europe to fight for Female Industrial Equality.

The chief question now before the International Women Suffrage Alliance concerns industrial parity between men and women. This organization advocates doing away with paid night work on the part of women and virtually closing the lead paint industry to women. It also has introduced a resolution declaring the I. W. S. A. to be in favor of industrial legislation based on the nature of the industry, rather than the sex of the worker, and applying to men and women alike.

Alice Paul's fearlessness, combined with her power and her organizing ability, her political wisdom and her great determination, has carried her successfully through the most difficult situations. Moorestown is proud to say that she was born and reared here.

Miss Paul is staying in Washington instead of going to the International Women Suffrage Alliance Congress because she is now working on her second law degree. She has spent a studious, active life and she already has the degrees of Doctor of Philosophy in economics and sociology and Bachelor of Laws. She will be awarded her Master of Laws degree soon.

Because she has complete faith in the women who have helped her for many years and who are now her delegates to the conference in Paris and because she has done much for the women of today, her spirit is a potent factor in the conference, even though she stays in Washington.

**FULL TICKET** The Democratic party in Burlington County, while it realizes that it will be hard work to overcome the normal Republican majority of from 6,000 to 12,000 in the county, has unhesitatingly named a full county ticket and will work for its success.

The candidates named are some of the county's best business men and citizens and they will make an aggressive fight against the hand-picked candidates of the Republican organization.

Petitions of the following were filed on Thursday: Assembly, Hans Froelicher, Jr., of Moorestown; surrogate, George D. Alloway, of Vincentown; sheriff, Walter W. Van Selver, of Beverly; freeholder, A. Enloe Conrow, of Moorestown; auditor, Annie T. Martin, of Bordentown.

**Anybody Can Own An Automobile Now--**

Car ownership is no longer a special privilege to be enjoyed by the few. Anybody who can earn a living can afford a car. Owning an automobile today is not so much a mark of wealth as of good sense. And buying the car from a dealer who has prepared himself to assure your uninterrupted satisfaction in its performance is not only good sense—it is foresightedness.

Whether you're thinking about buying a car right now or not, it will be worth your while to come in and talk it over.

## Dr. Estornelle Makes Fine Address at Session of Moorestown Rotary

**Speaker Pays Elquent Tribute to New Community House and Urges Real Service in Business**

In opening his address at the weekly luncheon of the Moorestown Rotary Club at the Community House Thursday noon of last week, the Rev. Camille Estornelle, pastor of St. John's Protestant Episcopal Church, Camden, paid a fine tribute to Moorestown's Community House.

In praising the new institution, he said it every town would follow in Moorestown's footsteps the communities would realize civic development beyond the fondest hopes. He warmly congratulated the Rotary Club on its excellent organization and termed it a "splendid body of men."

Commerce, declared the speaker, is the greatest and most powerful force in the world. It is the hand which guides the destinies of nations, communities and individuals.

Commerce is revolutionizing the world. It is harnessing the powers of the earth and the air and is one of the biggest factors in the life of every person, said the Rev. Mr. Estornelle.

**Principle in Commerce** He remarked that the school children, in their histories, learn of the wars and the great conquests as the revolutionizing power of the world, yet but little is said of commerce, by far a greater force in the development of humanity and changing of its conditions.

Principle, he said, is the dominating factor in commerce as it is in every phase of life, whether art, science, social or moral life. The business man must have a definite and strong principle to which he must rigidly adhere.

"Service," he said he understood was the Rotary motto. To be consistently and sincerely of service, a man must be of strong character, for success, wealth, position, any worldly resources are quick to crumble unless built upon the solid foundation of character.

In closing, Dr. Estornelle said the greatest work of service is the extended hand. The extended hand of fellowship, the uplifting hand, the hand that offers inspiration and renders love is service.

His opening remarks were filled with humor. A volley of witty remarks, some concerning Moorestown Rotarians, kept the jolly crowd of men in an uproar for several minutes.

The speaker was roundly applauded at the conclusion of his address.

**Appeal for Hospital** Dr. Joseph Stokes, in an appeal for support of the \$250,000 Burlington County Hospital Drive, said that few but physicians realize the great need of a more modern and larger institution at Mount Holly, Camden and Philadelphia hospitals, which have efficiently served the people in this section for years, are now overcrowded and cannot properly accommodate patients from their own immediate localities.

Frequently, said the physician, difficulty is experienced in obtaining relief for the most acute cases. The county hospital at the present has only thirty-five beds and they are in use practically all of the time. There are 80,000 people in Burlington County and with the trend of the people toward smaller homes, where there is inadequate room to care for the sick, and the fact that it is frequently almost impossible to procure the services of a nurse, immediate action is necessary to build a larger and more modern hospital for Burlington County.

**To Have 100 Beds** The new hospital, the plans of which have been enthusiastically endorsed by leading authorities, will have 100 beds, twenty-five in private rooms, a general ward and a complete children's department. A competent surgeon will be elected to the staff to serve the hospital at all times.

Dr. Stokes declared \$250,000 is a large amount to raise and it will mean for everyone to give to the fullest extent. He not only urged the members of the Rotary Club to give the drive their financial support, but to back it with strong moral support.

Other members of the club testified to the dire need of a larger institution and spoke of the splendid treatment which has always been accorded patients at the Burlington County Hospital.

Car ownership is no longer a special privilege to be enjoyed by the few. Anybody who can earn a living can afford a car. Owning an automobile today is not so much a mark of wealth as of good sense. And buying the car from a dealer who has prepared himself to assure your uninterrupted satisfaction in its performance is not only good sense—it is foresightedness.

Whether you're thinking about buying a car right now or not, it will be worth your while to come in and talk it over.

## SUMMER COURSES

**Rutgers Offers Excellent Curriculum For Teachers**

As the State University of New Jersey, Rutgers University is carrying out for the benefit of the citizens of the state and its teachers and students a very extensive and worthwhile program. The central workable program, the central idea back of the organization of the Rutgers summer work was expressed in an interview with the Director, Dr. Charles H. Elliott who said:

The rapid changes in social and industrial life demand a new point of view in education. The changes in communication brought about by the radio and those in transportation which may be predicted from present successes in air transportation are only a few which indicate the direction in which we are moving. Back of what we see is the thought and investigation which makes the application of science to the needs of man possible. All of these things must be taken into account in education and the purpose of the summer session is to provide basic courses which will be of aid to teachers in this rapidly changing era.

In line with this conception of education and teaching, Rutgers offers extended courses in the important field of physical education. These are designed to train teachers, coaches, and health administrators. Many courses in English, modern languages in which the spoken language is emphasized, courses in history including problems of American democracy and international relations and similar fields are emphasized. Vocational guidance occupies an important place in the program as this training enables teachers and school officials to diagnose vocational tendencies and properly to classify children.

Other important courses include studies of the junior high school, surveys, intelligence tests and courses in curriculum making. Rutgers offers one of the most complete programs in music in the East. The program includes vocal music, public school music, instrumental music, and piano and orchestra training. Other programs dealing with the cultural side of education include dramatic art, literature and history and appreciation of art.

Now that we are going to the North Pole every few days, it won't be long until some enterprising Alaskan commercial club will be promoting the North Pole Highway. Excluded corners in parks, even abandoned churchyards, as well as playgrounds and other available open spaces, will be utilized this summer for the 137 open-air classes that the London County Council plans to operate at an expense of about \$3,000.

**I A.M.—the desperate hour**  
Does your waiting home still hold this threat? No need. The oil burner has been perfected

**HOME** in your evening clothes to a cold house—a hurried dash to the basement—and now those desperate moments, trying to coax dim coals back to life and warmth! Are you still in this old-fashioned stage of heating?

It's not necessary. For with the May Automatic Oil Burner, oil heating passes out of the experimental stage.

The May is noiseless, simple, safe—dependable. Simply set your thermostat for whatever degree of heat you want. Other than that you have nothing whatever to do, if you instruct the

oil man to fill your tank when necessary. It can be easily installed in your present heating plant. You may have it on convenient terms. Even if you have ordered coal, don't let that deter you from investigating the May, for arrangements can probably be made to relieve you of this difficulty.

The May is listed as Standard by the Underwriters' Laboratories, Inc., of Chicago, and approved by the Board of Standards and Appeals of New York, and it conforms to all local fire department regulations.

## Freeholders in Executive Session

Bridges and Roads Occupy Attention of Board in Open Meeting

The chief business of the Burlington County Board of Freeholders last Saturday consisted of an executive session held before the regular meeting opened.

In the open meeting the fact that it will be necessary to build a new bridge over the Hancocks Creek on Washington street, Mount Holly, was brought to the attention of the board by Freeholder Fisher. He was authorized to have plans and specifications drawn for the reconstruction. Owing to the heavy traffic over that section during the summer the bridge will not be built until fall.

The plans and specifications for the rebuilding of the road from Stevens Station to Florence, which have been approved by the township committee, were received and Clerk Adams was authorized to advertise for bids. The work will be done on the 25-26 basis by the township and county.

Two resolutions were passed authorizing the clerk to advertise for bids, one for the building of a new porch at the County Almshouse and the other for a judgment index for the County Clerk.

The following bills were ordered paid: Roads, \$15,202.00; bridges, \$3,288.17; finance, \$1,900.00; public buildings, \$16,085.35; public affairs, \$3,353.97, making a total of \$40,445.49.

Judge Frank T. Lloyd, of the Supreme Court, in a communication to the board, announced the resignation of Arthur W. Kelly as court stenographer for this district at a salary of \$7,000 a year, \$1,500 of which is to be paid by Burlington county. This is an increase of \$200 a year.

The Mount Holly Water Company asked permission to lay 1,300 feet of 8-inch water pipe on Pine street and 1,000 feet of 6-inch pipe on East Mill street. It will be necessary to cut through the Pine street bridge abutment. The company was given permission and will furnish a \$4,000 bond for the Pine street work and a \$3,000 bond for the Mill street extension as a guarantee the company will put the road back in as good condition as was found.

## PRIMARY TICKETS ARE NOW COMPLETE

The tickets which will be presented to the voters of Burlington county at the Primary election on June 15 are now complete. The Democrats will have no contests on the county ticket, while the only contests in the Republican party will be for Sheriff and Chosen Freeholder.

The full county tickets are as follows:

**Democrat**  
Congress—Frank Melville, North field, Atlantic county.  
Assemblyman—Hans Froelicher, Moorestown.  
Sheriff—Walter W. VanSeiver, Beverly.  
Chosen Freeholder—A. Engle Cornow, Moorestown.  
Auditor—Anna Martin, Bordenstown.  
Coroner—No petition.  
**Republican**  
Congress—Isaac Bacharach, Atlantic City.  
Assembly—Clifford R. Powell, Mount Holly.  
Sheriff—Edward H. Flagg, Jr., Riverton; A. Engle Haines, Medford.  
Chosen Freeholder—William H. Heister, Jr., Pemberton; George W. Rogers, Palmyra.  
Auditor—Harry J. Ziegler, Riverside.  
Coroner—Benjamin F. Farmer, Burlington.

## MUDDLE NEAR END

Burlington Railroad Controversy Expected to be Settled

Belief is now expressed that the Burlington railroad track removal situation is coming to the point of solution, the Pennsylvania Railroad Company through General Manager R. V. Mansey having had a conference with Burlington Common Council and promised to submit a definite proposition not later than June 5.

The conference was arranged through prominent Burlington people identified with the Chamber of Commerce, and they met A. B. Clark, superintendent of the Trenton Division, and lawyers of the Railroad Company.

It is expected that the hearing of argument in this matter in the court on June 8 will be temporarily held up. The case was started on May 19 with the taking of testimony.

# Across the Years -

*by O. Lawrence Hawthorne*

I wonder what you'd say to me today  
If we could only talk across the years.  
I wonder if you'd care to stop your play  
To let me tell you of my hopes and fears.  
Would you be pleased to know what I have won?  
What progress I have made, or would you see  
So many other things I should have done?  
Would you be just a bit ashamed of me?

I wonder if you'd find your boyhood dreams  
Through my endeavors now are coming true.  
Or would you say my present station seems  
Far short of what ambition promised you?  
Have I accomplished in a many way  
Those tasks you set for me so long ago?  
If we could talk across the years today  
Would you be proud of me and tell me so?

I'd like to let you know how much I prize  
The opportunities I see from here.  
I wonder if you fully realize  
How kind you were in choosing my career.  
I wish that I could call you and confess  
My boyhood, just how much I owe to you;  
You were the wisest dreams of happiness  
Mine is the joy of making them come true!

## Y. W. C. A. Notes

The annual meeting of the Burlington County Y. W. C. A. on June 5th will be an interesting event for the women and girls of the county. Large delegations from all sections of the county will attend the meeting as well as many guests from other towns and cities. Among the guests from New York will be Miss Henrietta Roebuck, Miss Anna M. Clark, Miss Elizabeth Herring, and Miss Elizabeth Black, the state secretary. Mrs. Edward Parker of Washington, D. C., will be the guest of Mrs. Edward Harmer over the weekend and present the cup at the music contest. Other guests will be Misses Machum and Neff of Morris and Monmouth counties and representatives from their boards are expected for the day.

The Girl Reserves of the County are eagerly looking forward to the summer camp at New Hope, June 26th to July 17th. Camp Canadade is an ideal location for a summer camp, and offers many opportunities for wholesome vacations for teen age girls.

A camping experience should be the privilege of every girl, for camp is a place where opportunity is given for natural, simple, unforced development away from the whirl of every-day activities. The girl from town becomes acquainted with "real" things rather than with the artificial things which claim so much of her attention and interest during the winter: the girl from the country finds companionship and gains a deeper appreciation of the everyday things about her.

In the community life of camp, however, there is no barrier between town and country girls. A true democracy prevails because every girl is encouraged to live up to the highest standards and there is a common effort toward the "best." The activities of camp encourage this for they are planned in order to furnish experience which will build well rounded lives and which will help girls to face life squarely. The rates for camp are \$8.50 per week including the registration fee.

## PEACE THROUGH EDUCATION

The birthday of John Amos Comenius, March 28, will in future be observed in all the schools of Czechoslovakia by a "peace lesson" of a half hour. An order to this effect was issued by the ministry of education on March 6. Comenius, the great Czech teacher, was the first to advocate a world peace campaign through general education of all nations. Emanuel V. Lippert in School Life.

The General Education Board during the past year made an appropriation aggregating \$24,534 to the state departments of education of two States, payable in annual installments over a period of two or three years, to assist in maintaining divisions of schoolhouse planning in those States.

## \$\$\$ FOR AMBULANCE

Fifty-five dollars was received by Mrs. John C. Broadbent, treasurer of the Palmyra Ambulance Association, as donations during the past week. Five dollars was from Mrs. Helen Smith and fifty dollars was from Thomas E. Steele.

One call was made by the ambulance. Sunday Mrs. Lester Steele was rushed to the University Hospital, Philadelphia.

The regular monthly meeting of the Ambulance Association will be held Friday evening in the Police Headquarters, Broad street. All members are urged to be present.

## TO OPERATE FORGE

The residents of White Hill, which is a part of the Borough of Philadelphia, feel highly elated to think that the old steam forge and shop along the river are soon to be put to practical use again. The Delaware River Sand Dredging Company having taken title to the old Union Steam Forge and Machine Shop.

The plant, formerly owned by the Macpherson, Willard Company, was for many years one of the busiest ship forging concerns in the East, but the last operator of the plant, J. L. Root, of Bordentown, gave up operations when changing conditions made it inadequate to meet the competition on big work.

The Bordentown Banking Company made the sale to the new owners. With the deeper Delaware channel and the building of the New Jersey Ship Canal it will appear that the Delaware river front has great possibilities for a big commercial development in the future.

The new company will take immediate possession and a new railroad siding is now in course of construction.

## WESLEYAN CLASS

Lesson for Sunday Morning, June 6th, 10:00 A. M. "The Sabbath's Gods Memorial of Creation."

All men are welcome to the Wesleyan Bible Class.

Come and spend an hour with great profit.

J. B. Whitton, Pastor.

## William D'Olier

Dead at 84

Father of Col. D'Olier, Formerly of Riverton, Dies at Burlington

William D'Olier, father of Colonel Franklin D'Olier, first commander of the American Legion, and until recently a resident of Riverton, died at his home in Burlington May 26, he was 84 years old and had been in ill health for several months.

Mr. Olier was a descendant of the old French family of D'Olier, dating back to 1213.

Born at Carranmore, County Mayo, Ireland, in 1842, Mr. D'Olier came to America with his parents in 1850 and entered a law office in Philadelphia. Nine years later he established the house of William D'Olier & Co., wool merchants. His son, Colonel D'Olier, has since succeeded him as head of the business.

Mr. D'Olier made his home in Burlington after his marriage in 1875. He was active in affairs of the Protestant Episcopal Church in New Jersey, was president of the Church Club of the diocese of New Jersey, trustee on the board of the diocese, trustee and treasurer of St. Mary's Hall and Burlington College and held offices at times of vestryman, treasurer and senior warden of St. Mary's Church.

He was a former president of the Riverton Country Club and had been a director and president of the Burlington Library. He was a member of the Union League, of Philadelphia.

In addition to his son, Colonel D'Olier, Mr. D'Olier is survived by two daughters, Miss Alice E. D'Olier, of Burlington, and Mrs. Walter H. Lippincott, of Wynnewood, Pa.

## PREPARATORY LATIN

To pace the study of Latin on a parity with the study of modern languages, the University of North Carolina has reduced the amount of Latin required for admission to the College of Liberal Arts. A sliding scale has been adopted, and students will be admitted on a minimum.

**ALLITH Garage Door HARDWARE**

THE doors are the most important part of the average garage and particular care should be taken to get them right. # THE NEW ERA

Published every Thursday at 607 Main Street  
RIVERTON, N. J.

Entered as second class matter at the Riverton, N. J., post office

WALTER L. BOWEN, Editor

The New Era is devoted to the business and home interests of Riverton and Palmyra, independent of political or religious belief—the people's paper

Subscription \$1.50 a year in advance

Advertising rates on application

The New Era Office is equipped to do all kinds of Fine Printing at reasonable prices

## LEGAL ADVERTISEMENTS

The New Era is a Legal Newspaper. Commissioners', Sheriff's and other Sales, Administrators' and Executors' Advertisements are solicited. The New Era will appreciate being remembered in this connection.

## NOTICE

All readers or local notices of entertainment, suppers, fairs, dances, etc., given for the purpose of raising money, will be charged for at the rate of fifteen cents a line.

## "AND THE MOUNTAIN BROUGHT FORTH A MOUSE"

A mountain was in labor, sending forth terrible groans, and there was in the region the highest expectations. After all, it brought forth a mouse.—Pitarch's Life of Agesians II.

Last October fifty-six men were arrested in the notorious Rancocas rum raid. Last week, after a lapse of almost eight months eleven of them were brought to trial and acquitted.

In the meantime ugly rumors have been abroad concerning some of the men whose highest duty should be to secure law enforcement in Burlington county.

To begin with, the raid was made by a private detective, aided by a few State Troopers from a station not the nearest to Mount Holly. It was rumored that the officials at the county seat knew the rum barge was coming up the creek, but made no plans to capture it. Two of the assistant county detectives were tried for malfeasance and nonfeasance in office, and acquitted.

At the time of the raid the prisoners were liberated under bonds that seemed to layman to be inadequate, and one of the judges was kind enough to attribute it to dumbness, rather than any intention to do wrong, on the part of the officials who conducted the hearing.

The whole unsavory course of the subsequent proceedings, with its postponements and delays, changes of prosecutors and other time-consuming devices, is too well known to require repetition.

Two splendid grand juries "eat" on the case. The whole legal machinery of Burlington county, assisted by three outside prosecutors of undoubted ability, was called into play to bring the rum runners to justice.

After a legal battle of eight months two convictions were secured—two little boys who stole the rope with which the rum barge was tied to the wharf—and they pleaded guilty.

The cost in money of this farce is estimated at between \$50,000 and \$75,000.

But the money cost is the smallest cost after all.

The encouragement to breakers of law, particularly the prohibition law, is incalculably pernicious.

The disgrace to the decent and law-abiding people of Burlington county is well-nigh unbearable. "Jersey Justice" has become an empty sound.

Such miscarriage of justice will do more to sow seeds of anarchy than all the preaching of the "Reds" in a generation.

The case just closed advertises to the world and to the underworld that half-pinters and the little fry, particularly little boys who steal ropes, must beware—that for such, stern justice is swift and certain.

Meanwhile for the higher-ups the blind-folded Lady with the Scales is not only blind, but apparently deaf and dumb as well, and they gaze upon her with tongue in cheek.

With two such grand juries and three special prosecutors, if the rum ring is stronger than all the legal machinery that can be brought into action, domestic and imported, what hope is there of securing law enforcement in Burlington county?

## "Y" WANT TRUCKS

Prepare to Move Equipment to New Camp

In connection with moving the Ockanickon camp equipment from the old camp site on Brindle Lake at New Egypt to the new camp site near Medford, many trips would have to be made by one truck or many trucks will be needed for one trip.

At a recent meeting of the Camp Directors, Secretary Hendry of the Burlington County YMCA Committee, expressed his belief that there would be many friends of the Association who would be willing to contribute a truck on moving day which is now definitely fixed for Saturday, June 12th. He was lead to make this statement because of the offer of the Medford Chamber of Commerce to heartily cooperate in this endeavor. Consequently, a considerable number of truck owners are being invited to make such a contribution.

The equipment which is to be moved consists of tents, cots, dining tables, kitchen equipment, dishes, stoves, refrigerators, benches, furniture, tools, a Decca outfit, parts of the water system and many other things.

Some other counties where it would be a tremendous haul for trucks, are planning to line up a number of touring cars which can be used in transporting a considerable amount of the equipment such as tents, cots, dishes, etc.

The fleet of trucks and scores of helpers will begin to arrive at the old camp site from nine o'clock on the morning of the 12th. The plan will be to load the various trucks in turn, thus having all of the drivers and their assistants to help in loading some of the larger pieces such as the big float, motor boat, stove and ice box. It is hoped that there may be enough trucks to move all the equipment in just one trip.

Readers of this paper who would be glad to join in this special contribution to render this very desirable piece of service and thus feel that they are making a distinct contribution toward the establishment of the YMCA Camp Ockanickon, should let the County YMCA Secretary, Guy C. Hendry, know of such willingness and get their names immediately on the truck list at the County Office, Mount Holly.

## TWO ROADS FOR BOYS

As commencement approaches, many boys must decide if they shall continue their education. They stand at the parting of the ways but lack knowledge to choose wisely. We must give them a view of what lies ahead.

The one road leads to a blind-alley job. A small salary that enables the boy to buy some things that he has longed for leads him to choose this road. But as he proceeds, he finds that the road leads not to better things, and it is too late to turn back.

On the other road the boy finds at first only hard lessons and little spending money. But he soon finds that he is heading toward an elevated station in life. The experiences of many men have shown that this road is the better one, even though it appears rough at first.—(Contributed.)

Four graduates of the Moorestown Friends High School will take part in the commencement exercises to be held at Swarthmore College, Monday June 7.

They are Bradway Brown, William C. Coles, Jr., Horace Roberts and Arthur Evans.

All of these boys have gained distinction during their college careers and Moorestown is justly proud of her four sons.

Many Moorestown members of the Swarthmore Alumni Association will be at the Alumni Banquet to be held Saturday evening, June 5th.

Bathing caps and shoes at Keating's.—Advertisement

A pedestrian used to be a person who walks. Now he jumps.—Toledo Blade.

## RIVERTON ITEMS

Mrs. Joseph Clark is visiting friends in Hartsville.

Charles Stratton, of Lock Haven, Pa., is visiting Edwin Kovs.

Mr. and Mrs. Charles T. Woolston have gone to Longport for the summer.

Mrs. Conrad Becker entertained relatives from Jersey City over the weekend.

Mr. and Mrs. Frederick Powell have moved from Red Gables to Atlantic City.

Miss Lillian Greiner, of West Philadelphia, spent Friday with Mrs. Edwin Evans.

Mr. and Mrs. Clarence Bell and son, Edgar, motored to Atlantic City on Sunday.

The stores will close at 1 p. m. Wednesday during June, July and August, starting next week.

Mr. and Mrs. Pederson have moved from Madison street to their new home at Oakton, N. J.

Mr. and Mrs. F. G. Bennett, of Merchantville, spent the weekend with her mother, Mrs. Truchess.

Mrs. Clarence Bosworth and children have gone to St. Petersburg, Fla., to join Mr. Bosworth.

M. A. Funk, of Philadelphia, has purchased the Ruster property on Fulton street, and is now occupying it.

Mr. and Mrs. Edman Thomas, of Philadelphia, spent Monday with her parents, Mr. and Mrs. William O'Donnell.

Mr. and Mrs. Earl R. Van Leuwen, of Midway, spent the weekend and holiday visiting friends in Washington.

Mr. and Mrs. Charles DeGrau and children were visitors of Mr. and Mrs. Harry Siddall, of Norristown, over the weekend.

Mr. and Mrs. Ross Evans and children, and Mr. and Mrs. Lawrence Caskey, visited relatives in Williamstown on Sunday.

Mr. and Mrs. Gretchen Deans were visitors of Mr. and Mrs. Edwin Evans on Decoration Day.

Albert Gorman, of Philadelphia, who recently purchased the Mrs. May Tracy property at 402 Seventh street moved in the latter part of last week.

Mr. and Mrs. Charles DeGrau and children and Mr. and Mrs. Edward Smith and children motored to Ocean City on Saturday, spending the day there.

C. A. Wright and Edward W. G. Borer went to Washington Wednesday night to see Senator Edge about the bill for the proposed Palmyra-Tacony bridge.

Mrs. Hannah Rogers and Miss Marjorie Marcy, who have been ill abroad, have entirely recovered and sailed from London on May 23 aboard the steamship Ohio. They expect to arrive in Riverton June 7.

Mr. and Mrs. Raymond Lauder, of Riverside; Miss Alice Lauder, Leonard Megee, of Camden; Myram Lauder, and Miss Anna Lockowitz, of Riverton, motored to Bethlehem, Pa., on Saturday and remained until Monday.

Charles H. Hadley, former head of the Japanese Beetle Project at Riverton, and present Director of the Bureau of Plant Industry, Pennsylvania Department of Agriculture, recently visited the laboratory to confer with Loren B. Smith.

The Garden Club met Tuesday May 25 at the home of Mrs. Robert Hiddle, 301 Highway Street. A feature of the meeting was a talk on Garden Insects Control by Loren B. Smith, Entomologist in charge of the Japanese Beetle Project.

Miss Ruth King, the efficient secretary at Clinton B. Woolston's garage, returned on Saturday after driving to Portland, Maine, for Miss Frances Herr, 516 Edith Square, of Pittsburgh, over the weekend.

Miss King says she had a delightful trip without a single mishap of any kind.

Mr. and Mrs. John Hillson entertained her brother, E. Hodson, daughter, Mrs. Ethel Spear, and grandchildren, Miss Edith Spear, of Pittsburgh, over the weekend.

Also Mr. and Mrs. Lister Armstrong, of Chester.

Miss Edith Sullivan, Riverton, a student at Drexel Institute, has been awarded the coveted Key and Triangle pins, the insignia of the honorary society at the Philadelphia Institution. To become a member, a girl must have an average of 80 per cent. in every subject, and have no failures or conditional status in record, and must, at the same time, be active in the usual college activities.

## HEISLER IN RIVERTON

Candidate for Freeholder Wins Borough; Running Strong in County

William H. Heisler, of Pemberton, candidate for nomination for freeholder, was in Riverton Friday evening and met with a most cordial reception. As Mr. Heisler is making his rounds of the county in his quiet, unobtrusive way, he is meeting with encouragement on every hand, and as the primary election day, June 15, approaches there is a growing feeling of satisfaction that he has entered the lists. Mr. Heisler is a man of unquestioned integrity and sound judgment, will make a very valuable addition to the personnel of the Board of Freeholders.

Mr. Heisler was born at Pemberton, this county. His education was obtained in the public school of his native town, the William Penn Charter Preparatory School, Philadelphia, and at Princeton University, which he entered after his graduation with the class of 1901 at Penn Charter. Upon completing his four-year course at Princeton he graduated with his class. For three years thereafter he engaged in the business in Philadelphia where his father was the head of one of the largest financial institutions in the city, and then he entered upon the study of law, with his brother-in-law, Harold B. Wells, at Bordentown. He was admitted to the bar in 1911 as an attorney at law and as a counselor in 1915. He has been practicing law in Mount Holly since his admission to the bar.

Mr. Heisler is married and has three fine boys. Before her marriage Mrs. Heisler was Miss Ethel C. Rud, of Pemberton. He is a member of the Methodist Episcopal Church of Pemberton, being one of the Trustees. He is also Assistant Superintendent of the Sunday School. He has long been prominent in the work of the Y. M. C. A., and is a member of the County Executive Committee of that organization. Mr. Heisler is a director of the Mount Holly Safe Deposit and Trust Company and Solicitor of the Pemberton Building and Loan Association. He is a member of the Masonic Lodge and of the Odd Fellows.

Mr. Heisler has been the efficient Secretary of the Republican County Committee for a number of years.

IMPROVED UNIFORM INTERNATIONAL

# Sunday School Lesson

THE REV. D. B. PITTS, D.D., Dean of the University of Chicago, is the author of the new Sunday School Lesson (Chicago, N. Y. Newspaper Union).

Lesson for June 6

JACOB AND ESAU

**LESSON TEXT—Genesis 25:1-11.**  
GOLDEN TEXT—He who kind one to another, tender hearted, forgiving one another, even as God for Christ's sake hath forgiven you.—Ephes. 4:32  
PRIMARY TOPIC—Two Brothers Make Up a Quartet  
JUNIOR TOPIC—Esau Forgives Jacob  
INTERMEDIATE AND SENIOR TOPIC—Brotherly Love and Forgiveness  
YOUNG PEOPLE AND ADULT TOPIC—A Lesson in Reconciliation.

1. Their Birth (25:1-5).  
In answer to Isaac's prayer, seed was given unto him. Before the children were born God revealed unto Isaac the fact that the older should serve the younger. God reversed the ordinary law concerning the position of the elder son.

2. Esau Sells His Birthright (25:27-34).  
It was right that Jacob should have the birthright and the blessing, for it was according to God's plan which had been prearranged, but his scheme to get them to be condemned. He took advantage of a brother's weakness to drive a sharp bargain.

3. Esau the profane (25:35).  
Many think that profanity is only swearing, but swearing is not the most common profanity. To be under the sway of appetite is to be a profane person. Esau was a supreme example. He sold his birthright for a bowl of pottage. This birthright was the right of being at the head of the patriarchal family, a position of honor and influence, as well as being the inheritor of a double portion of the father's estate. This being a gift of God, it should not be despised. In the moment of his distress he thought only of that which would bring him some carnal satisfaction. He was willing to relinquish all claims on the future if only his present desire could be gratified. A profane person, therefore, is one who for the enjoyment of the present will forfeit all claims upon the future.

4. Jacob Secures the Blessing (25:27-34).  
Esau requested to get venison for his father (25:34). Isaac loved Esau because of his venison (25:34). He ought to have loved him because he was his son. It is a sad commentary upon a father that his love for his son had such a tordid basis as that of his stomach. Esau's scheme (25:33).  
God had said to her that the elder should serve the younger. It was his plan that Jacob should be at the head, but God was able to bring his own plans to pass.

5. Esau's remorseful cry (25:34-35).  
When he came to realize that he had not only lost his birthright but the blessing, his conscience smote him and he earnestly begged for a blessing, even seeking it with bitter tears.

6. Jacob's wrath (25:36-37).  
He was about to meet his brother, whom he had wronged some twenty years before.

(1) He made his plea on the basis of God's covenant. Jacob came in line with the Abrahamic covenant, so he had a right to plead that relationship.

(2) He pleaded that he was in God's way. We should assure ourselves that we are going according to God's will, then make our plea before Him on that ground.

(3) He made a definite plea. He told God plainly of his danger. He said, "Deliver me from the hand of my brother."

(4) The angel wrestles with Jacob (25:38-40).  
Observe that it was not Jacob wrestling with the angel, but the angel wrestling with Jacob. Jacob did not get the blessing because he wrestled, but he was not blessed until he had been crippled and in his helplessness clung to God.

7. Jacob gets a new name (25:41-42).  
This experience at the ford of Jacob brought a mighty change in Jacob. "Jacob" with his cunning and deceit was left behind and "Israel," "a prince with God," entered the land. Esau and Jacob Reconciled (25:43-44).  
At Jacob's Jacob got right with God, so now he easily got right with Esau. It is easy to get right with our brother after getting right with God.

8. In a Trackless Wilderness.  
He who sees no star can never be stable. He wanders vainly in a trackless wilderness.—G. H. Morrison.

9. Thoughts Leave a Trail.  
An arrow may fly through the air and leave no trace; but an ill thought leaves a trail like a serpent.

Tomorrow  
Tomorrow—I dare not ask; I know not what is best. God hath already said what shall befall.

GUNNERY COMPLETES RECORD  
The New Jersey Gunnersy Broad Association reports that the pure bred Gunnersy cow, Cady's Jewel, No. 120521, owned by S. E. Badisch, Locust Lane Farm, Medford, has completed her yearly Advanced Registry record in Class C (4 to 6 years) and has produced 1461.6 lbs. of milk containing 84.4 lbs. of butter fat. When compared with the average production of cows in the United States, which average 1000 lbs. of milk and 40 lbs. of butter fat, the exceptional value of this cow is easily seen.

## MICKIE, THE PRINTERS' DEVIL

## PALMYRA NOTES

Ralph A. Wolcott is spending several days on a fishing trip. Joseph DiRigero was a visitor at Atlantic City on Sunday.

Mr. and Mrs. Leonard R. Baker spent Tuesday in Atlantic City. Mr. and Mrs. Bert Ward motored to Valley Forge Memorial Day.

Mr. and Mrs. Thomas Carroll spent the weekend in Atlantic City. Mrs. Frank Bellman, of E. 5th street, is recovering from a serious illness.

The H. H. H. Class will meet at the Baptist Church next Monday evening.

Miss Beryl Buchanan has returned from a three months visit in Bridgeton.

Mrs. Mary Dean and daughter Betty spent Sunday and Monday in Oak Grove, Pa.

Mr. and Mrs. George C. Baker, of Elm Terrace, spent Sunday visiting friends in Haddonfield.

Miss Marie Fox and Jack Ackerman spent the past weekend in Philadelphia.

Robert Blackburn, of Newark, spent the weekend as the guest of his sister, Mrs. Leonard R. Baker.

Mr. and Mrs. William Minks entertained Mr. and Mrs. Thomas Headley, of Palsboro, Sunday and Monday.

Mr. and Mrs. Charles Whitmer motored to the home of Mr. Whitmer's parents in Sunbury, Pa., Memorial Day.

Mr. and Mrs. Leonard R. Baker spent Sunday as the guests of Mr. and Mrs. Warren Bolder, of Abram's, Pa.

Mr. and Mrs. Wesley Huyett and children and Miss Nora Carpenter motored to Broadwater, Va., for the weekend.

Mr. and Mrs. George M. Becker and Mr. and Mrs. Frank A. Mathews and children spent the weekend at Seaside Park.

Joseph Seal was the guest of Mr. and Mrs. Edgar Scheibley at their home in Ocean City from Saturday until Monday.

The Rev. and Mrs. George Lockett spent last week attending the Northern Baptist Convention in Washington, D. C.

Mr. and Mrs. Henry Gottschalk, of Haddon Avenue, entertained visitors from Buffalo and Albany during the past week.

The directors of the Palmyra Branch of the Needlework Guild met at the home of Mrs. Benjamin Harko Tuesday afternoon.

Mr. and Mrs. Grover Fox and children motored over the Eastern Shore Drive, stopping at Easton, Md., over the weekend.

Mrs. Wilbur E. Cline, a former resident here, is visiting her daughter, Mrs. E. C. Dean, Parry avenue, for several weeks.

Mr. and Mrs. Ned Redfield are receiving congratulations upon the birth of twin daughters, Blanche Margaret and Mildred Pearl.

The horses exhibited by George Rogers at the Moorestown Horse Show Saturday afternoon were awarded the second prize in its class.

Mr. and Mrs. Charles A. Deits, of Morgan avenue, announce the engagement of their daughter, Kathryn, to William F. Engle, of Roxborough.

Mr. and Mrs. Mark Nace and children and Mr. and Mrs. William Freed motored to Hanover, Pa., visiting relatives of Mr. Nace over the weekend.

Dr. and Mrs. Clement Vollmer, of Ocean, and the Rev. Philip Vollmer, of Cleveland, were the guests of Mr. and Mrs. E. I. Powell over the weekend.

The Rev. A. J. Harko attended the commencement exercises at the Bethlehem Theological Seminary, Bethlehem, Tuesday. Mr. Harko graduated from there fifteen years ago.

Mr. and Mrs. Leon Ewalt and children and Mrs. H. Ewalt and Grace, of Haddon, were the guests of the Rev. Harry Ewalt and family over the weekend.

C. Daniels, Gunnery Captain stationed on the U. S. S. New York was the guest of Mr. and Mrs. J. H. Abell Monday while enroute to attend the Shrine Convention in Philadelphia.

Mr. and Mrs. George Seal, 24, of Maplewood, Clifton, of East Orange, and Miss Anna Corson, of Camden, were weekend guests of Mr. and Mrs. George Seal, 24, on Sunday they spent the day at Ocean City.

Palmyra's summer garbage collection schedule is now in effect. Collections are made on the north side of the railroad Monday, Wednesday and Friday and on the south side Tuesday, Thursday and Saturday of each week.

The spring meeting of the County Council of the Congress of Mothers held at Maple Shade last Wednesday was attended by Mrs. Chas. Whitmer, president of the Palmyra P. T. A., Mrs. William Branson, Mrs. Mary Joyce and George W. Rogers.

Mr. and Mrs. Vernon Stone, 700 Park Avenue, entertained the Misses Gretchen Noble, Florie O'Hourke, Mary Knappack, C. Quigot, of New York City and Floyd Ship, of York, Pa., over the weekend.

Mr. and Mrs. C. W. Randolph entertained a family party at their home on Election Day. The guests were Mr. and Mrs. George Seal, 24, of Palmyra, Mr. and Mrs. George Seal, 24, of Maplewood, Clifton, of East Orange, Misses Adeline and Virginia Seal, Mr. and Mrs. C. Quigot, of Palmyra, Miss Anna Corson, of Camden, and Mrs. Acker, of Frankford.

## Purity of Milk Protected Now By Scientists

By KATHRYN ST. JOHN

Careful housewives constantly make it a point to ascertain the quality of each item that goes on their tables. Preparing food for the family is an extremely important job, for the proper selection and preparation of foods make in a large measure for the health and happiness of the family.

Milk is the most nearly perfect food, but it is a very delicate one as well. The keeping qualities of milk are slight. Danger from contamination is ever present. Evaporated milk, which is double rich because of the removal of 60 per cent of the water, is science's solution to these conditions.

Safeguarding evaporated milk is worked out as perfectly as man's ingenuity has been able to make the process. From cow to can, the milk which goes into the evaporated product is watched every step of the way.

The purchase of this new apparatus was authorized at the Fire District No. 1 election on February 20. The appropriation amounted to \$6500 and the additional \$150 was raised through private subscriptions.

The new truck, which is being purchased from the Forensic-Childs Company, New York, was ordered on May 12. Delivery is expected for sixty days after the placing of the order.

The new chemical will be placed in Hose Company No. 1 Fire House.

Many Beautiful Blooms Displayed at Community House

An Iris show, which attracted much attention, was held at the Community House Sunday afternoon and evening. Many beautiful species, which won much favorable comment from Iris fanciers, were shown.

Harry F. Hall, who was the chief exhibitor, explained in detail some of the finer technicalities of the Iris. "Color blends, distinctiveness of colors, the substance to hold the dome shape firmly, and the strength in the stalks to prevent drooping are the predominating features of the Iris," explained the expert.

Ninety per cent of Iris are of a bluish hue, while white, yellow and buff are the other shades most frequently found in the blooms.

Among the outstanding blooms displayed was the Ambassador, for years the most prominent of this floral variety, the Moa, which is the largest and most modern of the Iris, the Titan, the very fragrant Queen Caterina and the exquisite Swail.

Cecel B. Annetto and Mrs. Parry were the other exhibitors. The display will probably be kept at the Community House for several days.

Mr. Hall announced a Peony show will be held at the Community House next week, probably in the fore part.

Some men are so used to failure that when opportunity finally knocks they refuse to open the door for fear it's the wolf.—Lohan an In. Reporter.

When Greville Slipped  
Few diaries have evoked more bitterness than that of Charles Greville, whose unspangled records are about to be published in America. It will be interesting to see whether one incident is set down in them, for it very closely concerned the diarist himself. When Lord Clarendon became a privy councillor he called on Greville, then clerk to the council, with a check to pay the fees he thought were due. "What a good fellow you are!" exclaimed Greville enthusiastically. "You have no idea of the trouble I have to get them from some people. You know I have no legal right to recovery." "Haven't you?" said Clarendon, who had no reason to love the diarist, and threw his check in the fire. The story became known and it is doubtful if Greville ever received another fee.—Manchester Guardian.

Why, asks someone, have the girls of today such hard faces? We don't admit that they have, but granting the premise for the sake of argument, we would say it is nature's wise provision for protecting them from the hard stares they get.—Philadelphia Inquirer.

## CATHOLIC BOYS WIN

Moorestown Lads Defeat Riverton Baseball Team 12-2

The Moorestown Catholic Boys' Club scored an overwhelming victory over the Riverton Catholic Boys' Club at the South Church Street Grounds Monday afternoon. The final score was 12-2 in favor of the local boys.

Bolton and Riley performed with honors on the mound and only allowed the visitors two hits. McGinn was the local catcher. Schneider pitched for Riverton and proved easy for the Moorestown boys who collected fourteen hits. Bolton fanned ten Rivertonians and Schneider sent six men back to the bench via the strike-out route.

Riverton committed seventeen errors while the local team was charged with only four miscues.

A representative group of local fans attended the game.

## HOUSING CEREMONY

Fitting Exercises to Mark Arrival of New Chemical

A movement is afoot to stage an appropriate celebration when Moorestown's new \$6650 six-tank chemical truck is housed.

Benjamin Harko, secretary of Fire District No. 1, has suggested that the Chamber of Commerce co-operate in preparing a fitting celebration.

The purchase of this new apparatus was authorized at the Fire District No. 1 election on February 20. The appropriation amounted to \$6500 and the additional \$150 was raised through private subscriptions.

The new truck, which is being purchased from the Forensic-Childs Company, New York, was ordered on May 12. Delivery is expected for sixty days after the placing of the order.

The new chemical will be placed in Hose Company No. 1 Fire House.

"Haven't you?" said Clarendon, who had no reason to love the diarist, and threw his check in the fire. The story became known and it is doubtful if Greville ever received another fee.—Manchester Guardian.

Why, asks someone, have the girls of today such hard faces? We don't admit that they have, but granting the premise for the sake of argument, we would say it is nature's wise provision for protecting them from the hard stares they get.—Philadelphia Inquirer.

When Greville Slipped  
Few diaries have evoked more bitterness than that of Charles Greville, whose unspangled records are about to be published in America. It will be interesting to see whether one incident is set down in them, for it very closely concerned the diarist himself. When Lord Clarendon became a privy councillor he called on Greville, then clerk to the council, with a check to pay the fees he thought were due. "What a good fellow you are!" exclaimed Greville enthusiastically. "You have no idea of the trouble I have to get them from some people. You know I have no legal right to recovery." "Haven't you?" said Clarendon, who had no reason to love the diarist, and threw his check in the fire. The story became known and it is doubtful if Greville ever received another fee.—Manchester Guardian.

## Moorestown Girl Wins Essay Prize

### University Scholarship and \$50 Award Goes to Margaret Gindhart

Miss Margaret Gindhart, a sophomore in Moorestown High School, took highest honors for the state of New Jersey and the entire eastern district in the Third National Meat Story Contest, according to the announcement of winners by the National Live Stock and Meat Board, sponsor of the contest.

As district champion, Miss Gindhart will receive a university scholarship plus a cash award of \$50.00. Her story was entitled "Meat—Its History and Uses." Miss Ardis Wilcox, of El Paso, Tex., was declared national champion.

Winners in this annual contest were selected by a committee of judges composed of Dr. Louise Stanley, chief of the bureau of home economics, U. S. Department of Agriculture, chairman; Miss Margaret Pedde, chairman of the department of home economics, University of Nebraska, and Miss Marie Sellers, home bureau editor of Pictorial Review. The committee has just completed its deliberations after perusing and grading a mass of more than 10,000 stories coming from every state. Comment of the judges was quite complimentary to the contestants. The material in general showed that meat is playing a very important part in the study of home economics, they said.

The contest is held annually to assist in broadening the study of meat in high-school home economics classes, according to R. C. Pollock, general manager of the National Board. Teachers agree that it offers a splendid means of stimulating interest among students and hundreds of them co-operated in making it a success, said Mr. Pollock.

### "Y" DRIVE RESULTS

Total Amount Received to Date is \$16,300

The annual drive for funds for the County YMCA has again proved successful, the total received to date being \$16,300, and the officers of the organization feel very grateful to the team captains and the workers for their efforts in putting the drive "over the top."

The following list shows the amounts collected under the various

chairmen:	
Beverly Edgewater Park—	
A. C. Fergusson.	\$1,125.00
Bordentown—	
J. H. Hutchinson.	500.00*
Bridgeboro—

### SCHOOLS FOR CITIZENSHIP

Citizenship night schools in Alaska are maintained by the Territorial Government, and will be established in any community in which 12 persons signify their desire to enroll. In addition to reading, writing, spelling, grammar, and arithmetic, history of the United States is taught and the fundamentals of good citizenship are inculcated. Pupils enrolled this year include 99 citizens, 104 aliens, and 103 persons who have declared their intention of becoming citizens.

Only a few have the courage to search for the North Pole. The rest of us cheer when they start.—Toledo Blade.

## HISTORY IN CAKE

This replica of historic Independence Hall in Philadelphia is a fine example of the baker's art. It was made by the chef of one of Philadelphia's leading hotels to advertise the Sesqui-Centennial International Exposition, which will open in that city June 1 and run to December 1 to celebrate the 150th anniversary of American Independence. The "State House" stands on a table at the entrance to the main dining room of the hotel.

## AJAX CHANGED TO NASH LIGHT SIX

### Heavy Demand for New Cars Brings Absorption of Company

The Nash-built Ajax hereafter will be known as the Nash Light Six, the Ajax Motors Company, a subsidiary of Nash Motors, having been entirely absorbed by the parent company. The consolidation marks the first anniversary of the Ajax with a production of 25,000 cars. Many processes among the various Nash plants being identical, the consolidation of manufacturing operations affords increased production facilities for the Nash Light Six while this interlacing of manufacturing interests made it advisable for the parent company to absorb its subsidiary.

Announcement of the change in name from Ajax to Nash Light Six also marks the greatest five-month period of business in the Nash history. The upward soaring demand during January, February, March,

April and May drove the total sales and production to a figure approximately 70% of the total sales for the whole of last year.

"In all my twenty-five years of manufacturing, I have never felt greater satisfaction in any product than in the Ajax Six," said C. W. Nash, president of The Nash Motors Company. "So far as I know there has never been produced a car which from the very outset gave a greater measure of satisfaction and trouble-free performance. The public was quick to recognize the qualities embodied in the Ajax and the demand has made advisable the closer manufacturing relations of our Racine, Kenosha and Milwaukee plants."

### HELPING THE CHILDREN

The latest American of note to point out the insidious activities of the communists in the United States is Governor A. Harry Moore of New Jersey, who told the people of Atlantic City how the reds are working among the children of

America, trying to render them disloyal through pamphlets and by personal contact.

"Neither law nor agencies nor anything devised by man will save America," Governor Moore said. "America will only be safe as the boys and girls of the present measure up to the standards set by the founders of the country."

The governor added that it is the duty of the parents to give their

children the right start by training them rightly in their duties as citizens of the republic. This is certainly sound advice and, if it is generally followed, the organized efforts of those who seek to abolish patriotism in America will be unavailing.

So live that Gen. Smedley Butler might drop in any moment.—Ohio State Journal.

## USED CARS

### Costs Less Than a Railroad Ticket

## NO-NOX

MOTOR FUEL

## STOPS KNOCKS

*Turns Mountains into Mole hills*

FOR years the carbon knocks, clicks, pings or detonation in automobile engines have been a menace to motor efficiency and a sore spot to the motorist. GULF No-Nox Motor Fuel has turned the old time carbon bugaboo into an asset, in fact it has put carbon to work.

### No-Nox and Carbon are Power Twins

Compression is power—Carbon adds compression—No-Nox withstands compression and the combination gives wonderful motor efficiency.

GULF No-Nox Motor Fuel not only withstands the high compression of the modern automobile engine—but also the added higher compression caused by carbon deposits on the walls and piston head which increases with the age of the car;—clicks and knocks are eliminated—greater efficiency is accomplished—followed by more power and greater mileage.

### This Guarantee goes with it

GULF No-Nox Motor Fuel is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—and will not heat in summer driving.

GULF No-Nox Motor Fuel is priced three cents per gallon higher than ordinary gasoline—and is worth it.

The Orange Gas—At the Sign of the Orange Disc  
**GULF REFINING COMPANY**

## Question? and Answer!

THERE are more than 40,000 New Jersey people who are owners of the Preferred Stock of Public Service Corporation of New Jersey, and this number is increasing daily—WHY?

1. Because thrifty people have found the stock a safe investment, paying an attractive rate of return.
2. Because the plan under which it is sold permits them to invest their savings as they accumulate.
3. Because a high grade security is placed within the reach of the small as well as the large investor.
4. Because the record of Public Service Corporation of New Jersey over a period of twenty-three years shows it to be a successful, growing business enterprise.
5. Because the Corporation's Preferred Stock has established itself in the confidence of the investing public.

## 6% Cumulative Preferred Stock of Public Service Corporation of New Jersey

## Grant's Genius as Soldier Admired by War Students

But Always in His Heart Commander Was a Man of Peace.

Ulysses Simpson Grant—chance gave him the "Simpson" for a middle name—was born in a little two-room cottage, near the river front, at Point Pleasant, Ohio, a straggling village perched on a bend of the Ohio river about twenty-five miles southeast of Cincinnati, April 27, 1822.

He was graduated from West Point in 1843, No. 21 in a roll of 59, with a rank of second lieutenant, and was stationed at Jefferson barracks, near St. Louis. Before the Mexican war broke out he had courted and won the heart of Julia Dent, the daughter of a big planter, but did not marry her until August 22, 1848, six months after the war had come to an end. He had none of the war fever—it was not a war that made any appeal to his patriotism and Grant was never a militarist in principle. But Grant was a soldier and took orders. He went into the battle of Palo Alto a second lieutenant. In May, 1848, and entered the City of Mexico 16 months later, with the same rank, although he was frequently mentioned in reports for gallant conduct and was afterwards brevetted first lieutenant and later captain for distinguished gallantry in the field. Longstreet later gave this report of his Mexican career: "You could not keep Grant out of battle. He was everywhere on the field, always cool, swift and unharmed in battle, unconcerned apparently as though it were a hall storm instead of a storm of bullets."

After the close of the war, Grant continued in army service until 1854, when, despairing of making a livelihood for his family out of his meager salary and having no ambition for a military life, he resigned his commission and went back to the plow. Then followed years of blighting poverty and of successive failures as a farmer and in business—wasted years, dreary indolent years, hopeless and neglected years. But failures never daunted him—he never cursed his luck. If

GENERAL GRANT, FROM A PHOTOGRAPH TAKEN AT COLD HARBOR IN THE 1860s

one thing failed, he tried another and never despaired—neither, perhaps, did he hope for much. Then on April 11, 1861, the shot that opened for him the door of opportunity was fired at Sumter—and it found Grant waiting at the door. On the 15th the news reached Galena that Lincoln had called for volunteers. On the 16th Grant was drilling a company and in a week he led his men to Springfield the capital of Illinois, to tender his services to the nation.

Was Grant a great military genius? How often was that question asked in the days of storm and stress when, silent and unexplaining himself, he went smashing through the best laid plans of technical military men—how often, too, in the after days when the experts and the memoir writers were dissecting his campaigns.

Know War in All Its Phases. Grant was a pioneer in the business of big driving and big pushing, and a past master, as well, of the patient art of attrition that we heard so much about in the late World War. Grant always knew what he wanted to do—behind all his big driving and

big pushing was Grant's clear and quick thinking brain that saw far and planned boldly, according to the rules of war that he had learned at West Point, supplemented by some rules that were peculiarly his own and which were of the very essence of common sense. Like Fox, Grant was the first man to put his finger upon the weak spot of the federal military organization in the early years of the war—the lack of centralized control and of co-operation among the different armies. His first great stroke was one that showed his exceptional genius for the strategy of war.

Not only did he grasp the importance of the capture of Vicksburg, but his execution of the campaign that ended in its downfall was characterized by the first real evidence of

Grant's Tomb

military genius that had developed in the war up to that time. He was the first of the American generals to perceive that in a comparatively fertile country it was not necessary to outnumber his movements with commensurate impediments, but that the thing to do was to let his army live on the country and to make its necessities a spur to quick and decisive action. It was a Napoleonic idea. All of Grant's plans for the Vicksburg campaign were novel and startlingly bold—new methods of warfare entirely to the men and the officers under him—yet he had the faculty of impressing them with their feasibility. Vicksburg stands unchallenged today as a master stroke of strategy, with Grant in the role of the master strategist.

Proof of Genius. Grant's strategy at Chattanooga was another evidence of his genius that brought acclaim from the severest of his critics. The battle was fought out upon Grant's plans and under his immediate direction, and Grant's recognition of the "psychological moment" for the final attack that won the battle would have delighted the heart of Napoleon—that was an achievement after the great master's own teachings. And in those tremendous final campaigns that ended at Appomattox, the student of strategy will find much to interest him, to clinch his faith in Grant's

genius. Here we begin first to hear of Grant's policy of "attrition"—the terrible attrition of the Wilderness, of Spottsylvania, of Cold Harbor, of battle after battle, without rest or ceasing, until Lee was worn down, shelled away to nothing by Grant's merciless momentum. But it was not all "attrition," not all hammering. There were remarkable flashes of his strategic genius often evidenced—he was the one general who was always doing the unexpected. As, after the battle of Cold Harbor, when Lee was expecting him to cross the Chickahominy, Grant executed one of the most brilliant flank movements ever recorded of any army, when, with the Army of the Potomac, 115,000 strong, he crossed the James river at Wilcox Landing, entirely eluding Lee's observation and constructing for the purpose one of the greatest military bridges that the world has seen since the days of Xerxes, leaving Lee for nearly a week in absolute ignorance of his whereabouts. Here is what a distinguished foreign military critic has written of that campaign: "There were soldiers more accomplished, as was McClellan; more brilliant, as was Beauregard; and more exact, as was Buell, but it would be difficult to prove that these generals, or indeed any others in the service, could have accomplished the task which Grant brought to complete success in this campaign."

His End Tragic. And then the tragic close of this great career that was like the climax of a Greek tragedy, still too fresh in the memory for its poignant passages to be recalled—the struggle with sorrowful political environments, the wreck of fortune, the last sad days at Mount McGregor, with the nation's heart in its throat. Out of it comes forth in clear and resonant utterances his "Let us have peace," and his primal vision of the coming of a day when "the nations of the earth will agree upon some sort of congress, which will take cognizance of international questions, whose decisions will be as binding as the decisions of our Supreme court are upon us"—a vision that paved the way for The Hague tribunal, the first step toward a parliament of the world. The man of war passed from the stage in a dream of peace—his last message to the people a prayer of thankfulness that peace had come, as he hoped, to permanently remain. "If it is within God's providence," he wrote, when his tongue was no longer able to utter words, "that I should go now, I am ready to obey His call without a murmur. I am thankful for the providential extension of my time to continue my work, and because it has enabled me to see for myself the happy harmony which has so suddenly sprung up between those engaged but a few short years ago in deadly conflict."—Kansas City Star.

### PLANT YELLOW PERCH

Fish and Game Warden Howard Z. Mathis, of Burlington county, during the past few weeks has been engaged in planting yellow perch of fry size in the various ponds of the county, the fry coming from the State Hatchery at Hackensack.

The Sylvan Lakes at Burlington and Mirror Lake at Brown's Mills were stocked with 500,000 each, while 250,000 were placed in each of the following ponds: Kinkora Lake, Kinkora; Smithville Pond, Smithville; Norcross Lake, Pemberton; Hancock Park Lake, Masonville; Chatsworth Pond, Chatsworth; Cedar Lake, Bryn Mawr; Lake Coopers, Kirby's Mills; Vincentown Pond, Vincentown; Durand's Pond, Mount Holly.

Now that scientists have made water-pool matches it is only a matter of time until they get around to milk—Washington Post.

## Big Crowd Enjoys Annual Gymkhana

Amusement, Thrills and Splendid Exhibitions of Horse-ship Provided

Everybody enjoyed the annual fête for the Cinnamon House at the Moorestown Country Club Saturday afternoon.

The Gymkhana was full of fun for both the onlookers and the participants. Potato spearing, saddling races and the like brought both laughter and thrills. One of the features of the Gymkhana was "Captain," a blind horse, formerly owned by an army captain, which came in second in the bending race. The "Captain" was beaten out in this race by "Nobby," owned and ridden by Ernest L. Brown.

Miss Elaine Grove, of Riverton, won the grand prize for all blue ribbon winners, riding Mecca, who was the big point winner of the show. Miss Grove is eighteen and was a debutante during the recent social season. Her sisters, Mayrix, seventeen, and Constance, eight, all won prizes. These young equestriennes are daughters of F. Stanley Groves, who entered several splendid horses.

Miss Katherine Sharpless, and Miss Isobel Welsh, who rode "Black Lion," were also among the feature riders of the meet.

Thrills for Spectators. In the quality and great hunting classes the persons who crowded the fence about the horse show enclosure were treated to thrills galore.

Society folks from all over Burlington county and many from the Main Line were at the show. Flower maris, refreshment booths and other amusements tempted the onlookers. The judges of the horse show were Leander W. Riddle, and Calvin E. Quinton, both of Glenridge, Pa. W. F. W. Beeve was the chairman of the committee in charge, George B. Ferrier the secretary and E. W. Maule treasurer. The ringmaster was E. T. Gill, while J. W. E. Love did the announcing. The members of the committee in charge were Ralph L. Freeman, Stanley Groves, Lester Collin, F. W. Armstrong, Robert Brown, Russell Perkins, Edward E. Mechleng and Arthur E. Doran.

Life of Winners.

Class 1 (Shetland ponies)—First, Apple-blossom, owned and ridden by Harrison Mechleng; second, Envelope, owned by Stanley Groves, ridden by Constance Elaine Groves; third, Bonny, owned and ridden by Anne Roberts Freeman.

Class 3 (five-gaited saddle horses)—First, Black Lion, owned by W. A. Welsh, Miss Isobel Welsh; second, Belle, owned by George W. Rogers, Katherine Sharpless; third, Bobby Burns, W. A. Welsh owner, "Bucky" Keating up.

Class 4 (potato race)—First, Milady, Eldridge Freeman owner and rider; second, Milady, Stockings, Dorothy Middleton owner and rider; third, Tip-top, owned and ridden by Robert P. Brown.

Class 5 (saddle horses over 15.2)—First, Mecca, P. S. Groves, owner, Elaine Groves up; second, Markman, owned and ridden by Ralph L. Freeman; third, Mel, owned and ridden by Eldridge J. Freeman.

Class 6 (egg and spoon race)—First, Tip-top, Robert P. Brown, owner and rider; second, Milady, owned and ridden by Robert P. Brown; third, Stockings, owned and ridden by Dorothy Middleton.

Class 7 (ladies saddle horses)—First, Irish Girl, owned and ridden by Mrs. Lester Collins; second, Mecca, P. S. Groves, owner, Elaine Groves up; third, Babe, owned by F. Stanley Groves, Miss Mayrix Groves up.

Class 8 (light shirt race)—First, Nobby, owned and ridden by Robert P. Brown; second, Molly, owned and ridden by P. G. Hatch; third, Daddy Long Legs, owned and ridden by Byron Roberts.

Class 9 (qualified hunters)—First, Exterminator, owned by Lester Collins; Jantzen, a groom, up; second, Markman, owned by Ralph L. Freeman, Eldridge J. Freeman up; third, High Boy, owned and ridden by Robert P. Brown.

Class 10 (saddling race)—First, Daddy Long Legs, owned and ridden by Byron Roberts; second, Nellie, owned and ridden by Thomas Burroughs; third, Molly, owned and ridden by P. G. Hatch.

Class 11 (saddle horses, 15.2 and under)—First, Mecca, owned by P. S. Groves, Miss Elaine Groves up; second, Billy, Ralph L. Freeman's horse, ridden by Eldridge J. Freeman; third, Irish Lady, owned and ridden by Mrs. Lester Collins.

Class 12—Green Hunters, first, Tip-top, owned and ridden by Robert P. Brown; second, Mel, owned and ridden by Eldridge J. Freeman; third, Nobby, owned and ridden by Ernest L. Brown.

Class 13—Bending race; first, Nobby, owned and ridden by Ernest L. Brown.

Class 14—Pairs of Hunters, first,

Sally, owned by F. W. Revere, and Exterminator, owned by Lester Collins, ridden by groom; second, Markman, owned by Ralph L. Freeman, ridden by Eldridge J. Freeman; third, Nobby, owned and ridden by Ernest L. Brown; Tip-top, owned and ridden by Robert P. Brown.

Class 15—Race on outside course; first, Comet, owned by F. Stanley Groves, Paul Bohs up; second, Mel, owned and ridden by Eldridge J. Freeman and third, Tip-top, owned and ridden by Ernest L. Brown.

### Moorestown Briefs

"Adam and Eva," a three-act comedy, will be presented by the Moorestown Grange in Mount Holly Tuesday evening, June 1, for the benefit of Moorestown Grange P. O. H. and Masonville Fire Company. Tickets, 35c, 50c, 75c.

Those who missed this popular play when it was presented in Moorestown last week will have a fine treat by seeing it this time.

Miss Esther Crider, of Lenola, has recently returned from a winter spent in Coral Gables, Florida.

The Rev. William J. Cusworth, of the First Baptist Church, attended the convention held at Washington, D. C., last week.

Miss Rebecca Davis, of Newark, who was visiting friends in town, barely escaped injury Saturday morning when her automobile was struck by a trolley car at the corner of Main and Mill streets.

Mr. and Mrs. W. C. Coles, Mr. and Mrs. David Lippincott, Mr. and Mrs. Clements Lippincott, Mr. and Mrs. Walter Gardner, Mr. and Mrs. Harry Dudley, Mr. and Mrs. Henry Coles, Mr. and Mrs. Clayton Andrews and friends spent the week end at the Lippincott-Andrews Cottage, Seaside Park.

Announcement has been made of the engagement of Miss Laura Elizabeth Hunter, daughter of Mr. and Mrs. Edward C. Hunter, of Haddonfield, to Harrison R. Ker-shaw, son of Mr. and Mrs. Harry Ker-shaw, of Moorestown.

The Moorestown High School Alumni Association will hold its annual banquet and reception to the graduating class Saturday, June 12, in the Community House. Following the banquet and reception to the graduates, dancing will be enjoyed. The executive committee of the Alumni Association is in charge of the affair.

One of the most attractive events of the season will be the wedding of Miss Florence Engle, daughter of Mr. and Mrs. Aaron Engle, of East Central Avenue, and Warren Harper Jeffries, of Merchantville, which is set for June 19.

Mr. and Mrs. Martin V. Dunning, of Roxbury, Mass., former residents of Moorestown, were guests of friends in Moorestown last week.

The annual Moorestown Friends' High School banquet will be held at the Community House Wednesday evening, June 9. This is also the occasion of the annual Alumni reception to members of the graduating class.

The engagement of Richard W. Janney, physical training instructor of the Friends' School, whose home is in Germantown, and Miss Esther Metcalfe, of Ohio, has been announced.

Harry U. Bourreau's dwelling on Central Avenue was entered by burglars one night last week. As Mr. Bourreau and family are still in Florida, the extent of the theft could not be definitely ascertained.

Two 'out-of-town' automobiles crashed head on at Main and Chestnut streets, Sunday afternoon. No one was hurt but the cars were somewhat damaged.

Vandals entered the sewer disposal plant at Lenola recently and damaged the equipment to the extent of several hundred dollars. The Township Committee is now having the plant enclosed with a high fence. The work is being done by Worrell Engineering Company.

The old Hickite Friends' Meeting House yard has been improved by the planting of a quantity of shrubbery along Main street.

## Birthday Party For Walt Lamon

Surprise Given Palmyra Realtor on His Thirty-fourth Anniversary

Walter D. Lamon, president of the Palmyra-Riverton Realty Company, was tendered a surprise party at his home, 406 Cleveland avenue, Tuesday evening in honor of his thirty-fourth birthday.

The prominent realtor had spent the day in Philadelphia attending the Shrine Convention and when he returned in the evening he found a few of his friends at his house.

Later in the evening more of his friends called with some excuse to see Walter. Mrs. Lamon very graciously asked them to stay for a few minutes. All this time Walter was quite unsuspecting of the real purpose of the gathering until somebody brought in a huge bouquet of flowers.

Mr. Lamon received many telegrams of congratulations from his many friends.

Edwin A. Griceom had to collect taxes Tuesday evening and much to his regret he was unable to attend the party.

Refreshments were served by Mrs. Lamon.

Those present were: Mr. and Mrs. George N. Wimer, Mr. and Mrs. J. Edwin Lees, Mr. and Mrs. William T. J. Purcell, Mr. and Mrs. Harold B. Lever, Mr. and Mrs. Herbert H. Parsons, Mr. and Mrs. George W. Rogers, Mayor James T. Weart, Miss Irma Rich and A. Harry Rud-dick.

### TWILIGHT LEAGUE

Open Meeting Will Be Held Friday Evening

Twilight Baseball League meeting this Friday evening, June 4th, at 8:30 p. m.

There will be a meeting at the home of Wilbur Crane to discuss the Twilight League proposition and to plan, if possible, for the formation of a new league.

A representative from each organization desiring to go into the League is urged to attend and air his views in the open and also any man in the town interested in keeping Twilight Baseball in Palmyra for the pleasure of those who like to play for the love of playing and those who enjoy watching the game, is cordially invited to attend the meeting and to give his side of the question.

This will be an open meeting, no one will be barred. So instead of cackling around the town, come out to this meeting and express your views. Remember the date, Friday.

The sun never sets on American loans.—Washington Post.

### FORM GUARD UNIT

Captain Long Reorganizing Co. M in Mount Holly

Captain J. Frank Long, who has been deputized by Colonel Edward B. Stone, of the Twenty-third Infantry, N. J. N. G., to reorganize Company M, of Mount Holly, reports that a number of young men have signed the roll already and he confidently expects to have the full quota, fifty or more, in the company before the time arrives for the two weeks' training at Sea Girt.

Captain Long has undertaken the formation of an entirely new military organization under the name of the new defunct company, out of a spirit of town pride. He believes that Mount Holly should live up to its military traditions and not let its military company become permanently a thing of the past.

There was some talk recently of turning in the equipment of the machine gun company, which was disbanded last year, and to make the newly formed company once more a rifle company. Captain Long says that this is not the intention. The new Company M will be a machine gun company as was its immediate predecessor.

### KIDDIES ENTERTAIN

Parents Guests of Loyal Temperance Union at Community House

The kiddies of the Moorestown and Stanwick Loyal Temperance Union entertained their parents at the Community House Wednesday evening of last week.

A short play and group songs, with the theme of "Temperance," interwoven, proved a delightful part of the program.

The speaker of the evening was Mrs. Mable Gilbert, state secretary of the Loyal Temperance Union. Mrs. Gilbert gave the children a very impressive object lesson in opposition to cigarette smoking and her talk to the parents was on "Enforcement."

This work among the children is fostered by the W. C. T. U.

The trouble with that bootleg liquor is that it is synthetic but it isn't sympathetic.

## PROCLAMATION

Owing to the large number of ownerless dogs running the streets of this vicinity and the prevalence of rabies at this time of the year, the Borough Council and the Board of Health deem it advisable to adopt the following procedure:

1. All dogs must be licensed at once.
2. All dogs running free in the streets must be muzzled.
3. All unmuzzled dogs found running the street after June 1, 1926, will be taken to the dog pound at Robert Turner's in East Riverton (opposite the ice plant).
4. All unlicensed dogs will be put to death in a humane manner.
5. All licensed dogs may be returned to their owners by paying a fine of \$2.50, providing they are claimed within three days after their capture. If unclaimed they will be put to death in a humane manner.

This procedure is deemed necessary to protect your safety, and will continue for a period of two weeks—until June 15, 1926.

FRED P. HEMPHILL,  
Mayor.

By order of  
Borough Council and  
Board of Health

## RIVERTON WINS SNAPPY GAME PLAYED ON SOGGY FIELD

## Frietag On Mound Invincible Until Ninth, When Visitors Got One Run

**LEFT FIELDER ROMMELL  
FEATURED FOR VISITORS**

The field was soft and slow. The pitching was made extremely difficult with wet balls. "Doc" Hinkle was Yankee Frietag's official ball

Frietag yielded eight scattered hits, while Burke gave up thirteen. Yankee struck out thirteen, Burke four. Riverton committed but one error while St. John's made three.

Konk, St. John's first batter, was hit by a pitched ball. Morgan caught him napping and threw to Truman who tagged Konk. Ron

meil was thrown out at first by Dawson. Leslie was also hit by pitched ball. Stabenau was safe at first on Prietag's fumble. Stabenau stole second. "Yankee" tightened up and struck out Smith.

**Scores on Triple**

Hopkins, leading off for River ton, hit a single, stole second, and

on a single, stole second, scored on Dawson's blazing triple. Gordon Andrews slammed a hefty two play wallop to left-center scoring Dawson. Peterson was hit by a pitched ball. Morgan came through with a neat two base hit scoring Andrews and Peterson. Trueman was out at first, Leslie to Peterson. Adams fled to Pinkey in center. Wallace struck out.

In the home session Frietrag fled to Plinkey. Hopkins was out a first, Smith to Peiner. Dawson took three strikes.

In the visitors third time at bat Konk and Leslie fanned while Rommell fled out to Dawson (the

Andrews fled out to Rummel. Peterson was safe on Smith's tumble, but was out at second when Morgan forced him, Smith to Leslie. Morgan stole and scored when Trumanman was safe on Burke's error. Tru man scored on Stobeanu's wild throw. Adams walked and Wallace fowled to Stobeanu.

Stobeanu fanned, Smith fled out to Wallace. Mathew singled but Petner fled to Adams.

**Another Run In**

Friest got at first, Konk to Peterson. Hopkins safe on Smith's error. Dawson scored. Hopkins to second and Andrews fled, scoring. Heron

Andrews threw out Pinkey a first. Burke singled. Konk fanned. Rummel singled but Lealle retired.

on the 1-2-3 pan.

Morgan singled but was forced out at second by Truman. Adams lifted one to Pether and Wallace.

In the sixth Stobeenau singled and took second while Smith and Mathew fanned. Dawson threw to Truman to retire Pether.

In the seventh, Adams fanned, less, "Yankee" flied out to Smith. Hopkins singled, went to second when Dawson "walked." Andrews fanned. Stobeenau threw Pether out at first.

In the seventh, Pinkney singled but was caught stealing third. Morgan to Dawson. Burke walked but was out at second, Dawson to Andrews. Konk fanned.

In the eighth, Hommel left in Leslie's throw ball Truman to first. "Dunny" Hyton playing second in place of Adams, flied to Hommel.

Leslie, Singel and Storer all ran into a double play. Singel was thrown to Truman. Smith fanned.

In the eighth Bennett was safe on Burke's fumble. Frieta walked. Bennett scored while Smith was thinking of a play. Singel was safe. Dawson took three strikes. Andrews fled to Smith.

Potner was hit by a pitched ball. Pinky rolled out to Truman. Burke saved a shut out by sliding into the base. Singel was safe. Konk fled out to Andrews. Jackson batting for Mathew, struck out.

This Saturday afternoon Rivermont will play the All-Philadelphia Professionals. Be there at Memorial Park and see a good game starting at 3.30 sharp.

Whether the spring's well-dressed women do for the self, women and men, she will probably be the summer a soft, bobbed, raking, jaunty little felt hat pulled over one eye, "nothing else but" for travel and country wear.

## C. of C. Essay Prizes Awarded

School Children Tell What They Think of "The Romance of Riverton"

When the motion picture "The Romance of Riverton" was filmed and shown recently, the Riverton Chamber of Commerce offered three prizes for the best essay describing the picture. The contest was open to the pupils of the Cinnaminson and Riverton Public Schools. Riverton submitted three essays and Cinnaminson seven. The prizes have been awarded as follows:

**FIRST PRIZE, \$5.00**  
"The Romance of Riverton"  
How can you make people take interest in their town? A new idea was just tried in Riverton recently. The Riverton Chamber of Commerce took pictures of every important building in Riverton. It was a good idea because it showed their interest and that they are trying to increase the interest of the Rivertonians.

The first picture that was shown was an enjoyable one to me because that very day the seventh grade had had about the "Man Without a Country." It also taught a good lesson to some people. It showed how hard it is to go through life's long journey without a country.

The short Indian story showed how much more civilized the people of today are than they were in ancient days. It also showed how Riverton has progressed in a great many ways.

There have been many improvements in Riverton these last ten years as was shown in the picture of buildings. The fire company is one of the quickest fire companies in the United States by the way they worked together in the picture.

There have been less accidents and reckless drivers in Riverton since the police force has been in operation.

I think the entire picture would inspire greater patriotism in all who saw it.

MARY HARR,  
Westfield Public School

**SECOND PRIZE, \$3.00**  
"The Romance of Riverton"  
The Chamber of Commerce decided to present the motion picture "The Romance of Riverton" to show the people the progress of the town from the olden times to "the up-to-date Riverton" of today.

This picture was an educational one, as well as one for enjoyment. The addition of new stores and buildings to improve Riverton made it more possible for this picture to be taken.

Riverton is gradually increasing its population because of its location, business opportunities and also because people are attracted by its beauty.

LOUISE SMITH,  
Riverton Public School

**THIRD PRIZE, \$2.00**  
"The Romance of Riverton"  
"The Romance of Riverton" was a huge success. It was a modern picture produced in a modern town. The location and transportation facilities of Riverton are unexcelled. The picture brought out points of beauty that were before passed unnoticed. The advertising was well worth twice the original cost of the picture. The Indian love story gave a touch of added interest. The show was worth the price to get in. The picture was doubly interesting because you could see your own home and in some cases your own self.

JOSEPH STOW,  
Westfield Public School

## INTERESTING TIMES AT ROTARY CLUB

"Wills" and "Birth Control" Among Subjects Discussed  
From all accounts the members of the Palmyra-Riverton Rotary Club have a most enjoyable time when they get together for their Thursday night dinners. Between their poppy president, Dr. Mills and their tuneless song leader, George Stedde, there is something doing every minute. In addition to this there is always a worthwhile speaker.

At the May 27 meeting Attorney Joseph S. Low gave a very interesting talk on "Wills," and on June 3 Everett Meves, from the New Jersey Birth Control League, gave an intimate talk on this subject, which is being so broadly discussed just now. President Mills followed the speaker with some further remarks on the subject.

At this meeting Messrs. C. H. Stockwell and E. A. Richmond, officials at the United States Department of Agriculture at Riverton, were guests of the club.

Three new members were admitted—Thomas W. Beldeman, Clarence Hubbs and Harold B. Lever.

## DRUNKEN DRIVERS LOSE LICENSE

Driver and Owner Each Fined \$75, and Have Licenses Revoked

Edward F. Bowers, Eli W. Brown, Jr., and William Faunce were arrested before Justice of the Peace Coddington last Friday afternoon, after a night of last week, when the car driven by Bowers and owned by Brown ran into one of Steele's buses.

Bowers was charged with driving a car while intoxicated, and Brown with permitting it. Bowers denied being intoxicated, but admitted having a little wine. The Justice, however, produced a certificate from the physician who dressed Bowers' injuries the night of the accident, stating that he was under the influence of liquor and in no condition to drive a car. On the strength of this, Coddington imposed a fine of \$75 and revoked his license for a year.

Brown did not put up any argument. He pleaded guilty and received the same sentence. To the fine was added \$2.43 costs for each.

William Faunce was held as a material witness, but claimed not to know anything. He said he could not swear that either of the cars were drunk nor that they had been drinking. Faunce admitted taking a drink before meeting the other two. He disclaimed all knowledge of the two nearly empty bottles found in the car by Officer Miller, one containing the remnants of some white liquid, and the other about an equal amount of red liquid—white mule and red mule, Miller called it. Faunce naively suggested that the presence of the bottles in the car might be accounted for by the fact that "some one was hidin' it on 'em."

There was no charge against Faunce and he was dismissed. Brown's fine was paid by his father, and Bowers' by Stanley Hytton.

## Artisans Observe 15th Anniversary

Palmyra Assembly Gives Splendid Program, Preceded by Parade

A parade was a feature of the celebration of the Fifteenth Anniversary of Palmyra Assembly, No. 63, Artisans Order of Mutual Protection, here Saturday evening, with a thirty-five piece band and a mounted patrol from Philadelphia. The exercises opened with the parade in charge of Charles M. Cook, of Palmyra. Representatives from ten Assemblies in South Jersey and Philadelphia and uniformed units helped to swell the ranks of the procession which started at the Fire House, Riverton, and continued to the Palmyra High School, where a short business session, followed by an entertainment, was held.

Herman Meyer, S. Evans, D. Nicholas, and D. Scott, known as "The Four Horsemen" were recipients of tokens of appreciation from the Palmyra Assembly. These men in 1915 refused to take back the charter of the Palmyra organization and helped build it from a membership of forty to one hundred and fifty in six months. The local assembly at the present time has a membership of over six hundred.

Many of the notables in Artisan work were present, including Master B. Smith; Most Excellent Superintendent John Ammon; Most Excellent Inspector William A. McCausland; Most Excellent Editor William Chrisman; and Most Excellent Recorder Allen P. Cox.

At the Palmyra High School five acts of vaudeville were presented by professionals from Philadelphia for the entertainment of the local Artisans and their guests.

## EPWORTH NEWS

Sunday will be observed as Children's Day, at all services. Special services in the Church School at 10 a. m.

At 11:15 a. m. Infant Baptism will be administered. A class of boys and girls will be received on probation. The pastor will give an object lesson to all young hearts.

In the evening at seven o'clock, in the Temple, the members of Cradle Roll, Beginners, Primary and Junior departments of the Church School will present an impressive program entitled, "Children of the Father's Kingdom." It will be a time of inspiration and good cheer. Come and warm up your heart. On Thursday night the Epworth League will go on an excursion to "The Land of Enchantment." Tickets may be obtained from Miss Kay Green or Mr. Clifton Taylor, free of charge.

Those who have no church home are invited to hear with us at all services.

J. William Lee.

The hemlock poison that killed that greater heat is required in the oven for a cake that is in layers than the loaf variety.

## BROKE HIS PAROLE

Former Resident of Palmyra Re-arrested Here

Philip Mathews, of Harrison, N. J., a former resident here, was arrested Saturday evening by Officer Nelson Wallace on a charge of breaking parole.

Mathews lived here some years ago and then moved to Harrison. While living there he deserted his wife and children.

He was arrested but was released on parole and given the opportunity of supporting his family. His wife was taken ill and he moved to a hospital and in the meantime Mathews disappeared.

For nine months he wandered about hiding his identity until he came to Palmyra where he was recognized by Officer Wallace.

He was placed in the Palmyra jail and the probation officer of Harrison was notified. Mathews will be taken back to face charges of breaking parole and wife desertion.

## AMBULANCE MEETING

Nurses For June Appointed by Association

The monthly meeting of the Palmyra Ambulance Association was held in the Police Headquarters Friday evening and the nurses and attendants for the month of June were appointed.

The nurses are: Mrs. C. A. Hines, Mrs. J. C. Noone, Mrs. Edward E. Fox and Mrs. Joseph Stack. Those selected to care for the ambulance were Mrs. James T. Weart and Mrs. Elias Morgan. As president of the association George N. Wimer has arranged for a weekly mechanical inspection of the car.

## P. H. S. MERMAIDS WIN

Capture Four Out of Five Races Against Collingswood

Palmyra High School mermaids scored a decisive victory over Collingswood in a meet held at the Camden Y. W. C. A. Wednesday afternoon of last week by a score of 28-13.

In the five events the local girls captured first place in four of them, placing second in the only event captured by Collingswood.

Miss Grace Sipple, of Palmyra, was the outstanding star, with Miss Maxine Meltner running a close second. Miss Sipple won first place in three races and was a member of the relay team. Miss Meltner won first place in one event, the fancy diving contest.

Miss Dorothy Rund, of Collingswood, was the winner of the only event for her team, capturing the honors in the 25-yard side stroke race. Finishing slightly in the lead of Miss Good, of Palmyra.

The summary:

20-yard Free Style—Won by Sipple.

Those who have no church home are invited to hear with us at all services.

# THE NEW ERA

Published every Thursday at 607 Main Street

RIVERTON, N. J.

Entered as second class matter at the Riverton, N. J., post office

WALTER L. BOWEN, Editor

The New Era is devoted to the business and home interests of Riverton and Palmyra, independent of political or religious belief—the people's paper

Subscription \$1.50 a year in advance

Advertising rates on application

The New Era Office is equipped to do all kinds of Fine Printing at reasonable prices

## LEGAL ADVERTISEMENTS

The New Era is a Legal Newspaper. Commissioners, Sheriff's and other Sales, Administrators' and Executors' Advertisements are solicited. The New Era will appreciate being remembered in this connection.

## NOTICE

All readers or local notices of entertainment, suppers, fairs, dances, etc., given for the purpose of raising money, will be charged for at the rate of fifteen cents a line.

## JAPANESE BEETLES

The Japanese Beetle will soon be out. They will probably be a little late this year owing to the cold spring, but when they do arrive they will doubtless be more voracious than ever.

Those who care for their plants and foliage are taking thought as to how to best fight the pest. In this issue of The New Era is published a formula for a spray that has been used in the experimental work conducted at the Japanese Beetle Laboratory, Riverton, last year, with full instructions for mixing and using the solution, together with the results that may be expected.

Another formula will be published next week.

Riverton is fortunate in having the department organized to fight this pest located right at our doors, and to have first-hand information and advice so readily available.

## THE QUESTION BOX

**Feed for Young Chickens**  
Q. C. Riverton—Do you think my chicks get too much grit? Their crops are full, and yet some of them don't seem to get along like they ought to.

A. Plenty of grit is necessary, but sometimes chicks pick up so much grit that their crops become packed, giving their feed no chance to digest. Just watch this a little.

**The Precious Stones**  
P. T. Palmyra—Will you please publish in your query column the names of the precious stones and whether pearls, opals and garnets are precious?

A. The precious stones are: Diamond, ruby, emerald, and the sapphire. Opals, on account of their beauty, are often classed as precious. The garnet is not considered a precious stone, and the pearl is not a stone at all.

**1872 Was a Leap Year**  
B. K. Clinton—Was there 28 days in February in 1872? If so, on what day of the week did the 28th fall?

A. Yes. The 28th of February, 1872, was on Thursday.

**Drowned at Sea**  
L. M. East Riverton—I wish to ask you if Lord Kitchener, of England was killed in battle by the Germans?

A. No. He was drowned at sea while on his way to Russia on June 4, 1916.

**Panama Canal is Paying for itself**  
John Riverton—May I ask in your interesting question column what is the cost to dig the Panama Canal, and was the price paid from the United States Liberty Loan?

A. The Panama Canal cost \$375,000,000. This is now being paid from its own earnings. The United States Liberty Loan was for war purposes only.

**Double Entry Bookkeeping**  
E. E. Delair—I would like to ask you what double entry bookkeeping is, and what is the object?

A. It is the system by which two entries of every transaction are posted to the ledger (one to the Dr. side and the other to the Cr. side). The principal object is to prove by a balance that all transactions have been correctly made.

**John Sullivan Dead**  
S. J. Clinton—Where does John L. Sullivan, the sports fighter, live, and how old is he?

A. John L. Sullivan is dead. He was 67 years old when he died.

**Home Amount**  
V. M. Riverton—Will you please be so kind as to tell me how to read the figures here given: \$7,100,026,004,371,019,009,031,037

A. Your twenty-four figures are composed in dollars and cents as follows: Seven sextillion, one hundred quadrillion, twenty-five quadrillion, four trillion, three hundred seventy-one billion, eighteen million, nine thousand, twenty-one dollars and sixty-two cents.

**LOCAL FORD DEALER WILL CHANGE NAME**  
The Palmyra Motor Company, organized and incorporated in 1921, has by application to the Secretary of State, been dissolved and the business will, in the future, be conducted under the name of Lester S. Fortnum.

Mr. Fortnum has been successfully engaged as a Ford dealer at Bridgeboro for the last fourteen years. When the Ford agency was established in Palmyra in 1921 it was against the policy of the Ford Motor Company to permit more than one agency to use the same name and therefore the business was incorporated and operated under the name of the Palmyra Motor Company. Such outstanding stock as was not already in his possession has been purchased by Mr. Fortnum and the business will be known and conducted under the name of Lester S. Fortnum.

The personnel of the present local organization remains unchanged.

## Riverton Items

Mrs. J. W. Sylvester is entertaining her mother.  
Mrs. A. Russell Gauder has gone to her summer home at Bayhead.

J. L. York, of Woodbury, is visiting at the home of Mr. and Mrs. C. H. York.

Mrs. N. E. Smedley, of Narbeth, Pa., spent Sunday as the guest of Mrs. H. E. Brown.

Mrs. Jack Bush, of Frankford, spent Sunday with her parents, Mr. and Mrs. Harry Rice.

James Bury has returned from Swarthmore College to spend the summer in Riverton.

Mr. and Mrs. Weston Donaldson have gone to Hawthorne Inn in the Pocono mountains.

Fred Church, a former resident of East Riverton, died this week at his home in Dologation, Pa.

Mr. and Mrs. J. Russell Jermol and daughter are spending a few days in Germantown with relatives.

Miss Clara M. Shelby left Wednesday morning for a two-month visit in California among friends and relatives.

The new Rotary Club signs have been placed in position at the entrances of Riverton and Palmyra, and they're mighty nifty looking too.

Dr. H. L. Rogers and family have gone to Beach Haven. The doctor will spend three weeks there, and Mrs. Rogers will remain for the summer.

Dr. and Mrs. Alexander Marcy and their daughters, Mrs. Hannah Rogers and Miss Marjorie Marcy arrived home from their trip abroad on Sunday.

The Ladies of the Golden Eagle will celebrate their sixteenth anniversary in the lodge room, Thursday, June 17th. All members invited to be present.

L. Guyton and H. B. Kirk, Entomologists of the Pennsylvania Department of Agriculture and stationed at Harrisburg visited the Japanese Beetle Laboratory at Riverton last week.

Mr. and Mrs. George W. Smith, Jr., and son, Stephen, of Cleveland, Ohio, are guests of Mr. and Mrs. R. V. Townsend. They motored from Cleveland to Riverton, arriving on Tuesday.

Recent visitors at the Japanese Beetle Laboratory, Riverton, were James B. Cronin of the American Cyanamid Company, New York, and C. J. Grant of the New Jersey Department of Agriculture.

A very enjoyable Eastern Star tea, attended by members of Collinswood, Merchantville and Palmyra chapters, was held at the home of Mrs. R. C. Leonard, 1400 Locust Avenue, Tuesday afternoon.

John Lucas, of Philadelphia, was in Riverton on Tuesday to receive a birth certificate for his daughter who was about to go abroad.

The houses were former residents of Riverton and moved away from here about fifteen years ago.

Dr. A. L. Quaintance, in charge of Fruit Insect Investigations; Dr. T. H. Headlee, State Entomologist of New Jersey, and C. H. Hadley, Director, Bureau of Plant Industry, Pennsylvania Department of Agriculture, members of the advisory board of the Japanese Beetle Project were at the Riverton Laboratory Tuesday to confer with Loren B. Smith and other members of the staff.

**OPEN AIR PLAY AT FRIENDS' SCHOOL**  
School Law at Westfield Scene of Play "Snow White."

On the lawn adjoining the school, the children of the Westfield Friends' School enacted their annual outdoor play last Friday, June 4.

The trials and misfortunes of "Snow White" under the plots of the jealous and wicked queen, who sought to destroy her, were vividly portrayed. The children of the entire six grades took part—some garbed as courtiers, some as dwarfs and woodsmen and some as dancers—with a picturesque little house constructed for the occasion, as Snow White's forest refuge, occupying the center of the stage.

A large audience of parents and other grown-ups looked on and applauded from automobiles and benches grouped nearby. Songs and dancing interspersed the thrilling scenes leading up to the happy marriage of "Snow White" and the prince who finally rescued her.

The scenes and cast were as follows:

**SNOW-WHITE**  
Scene 1—Village Green of Westfield.  
Herald: Patton Kinney  
King: Billy Smith  
Queen: Brita Hendrickson  
Pages: Dickey Wright, Buddy Robertson

Ladies in Waiting: Mary Eastwood, Elizabeth Woolman  
Snow-White: Lucy Dickson  
Forest Children—Little Dancers: Peggy Willis, Olivia Steiner, Gene Steiner, Morris Guler, Shelia, Abby Shoemaker, Thomas Moffitt, Frank Haley, John Parry, Dickey Barclay, Bill Rowan, Jack Denninger.

Scene 2—The Forest.  
Solo Dancers—Henrietta Durbor, Circle Dancers—Emily Robertson, Margaret Jane Heister, Gwendolyn Watkins, Doris Mae Taubel, Elizabeth Smith, Laetitia Parry, Peggy Reese, Annie McVaugh, Mary Taylor, Lydia Parry, Laura Biddle, Henrietta Durbor, Constance Groves, Emily Barclay, Betty Eastwood, Rebecca Taylor.

The Mirror: Jane Welch  
Scene 11—The Forest.  
Woodmen—Kenneth Arnett, Samuel Biddle, Eugene Cox, Howard Conover, Ralph Fish, Harry Jones, Edwin McVaugh, Charles Muller, Peter Rodman.

Carl, the Huntsman: Joe Taylor  
Prince: Lawrence Parrish  
Scene 111  
Beren Dwarfs—Robertson Cox, Roscius Downe, John Lane, Edward Richie, Lewis Robbins, Lovick Tolson, William Watkins.

The Disguised Queen: Alice Harwell  
Stage Manager: Winfield Arnold

**UNION MARKET**  
benefit of Ambulance Fund, Tuesday, June 15, 9 a. m., at Bishop building, Broad and Main, next door to Oliver's Bakery. Fresh vegetables, berries, fruit, eggs and dairy products. Donations may be brought to market that morning at 8.30—Advertisement.

Police officers recently hunted through the night for motor thieves. On the following morning, I believe, they were still in the dark.

## Spraying for Jap Beetles

Formula by E. R. Van Leeuwen and Directions for Mixing and Using

By E. R. Van Leeuwen, Assistant Entomologist, United States Department of Agriculture, Bureau of Entomology.

The following bulletin has been prepared at the Japanese Beetle Laboratory at Riverton to meet the popular demand for authoritative recommendations for fighting the Japanese beetle. The Japanese Beetle laboratory is the headquarters for the cooperative project between the Bureau of Entomology of the United States Department of Agriculture, the Pennsylvania Department of Agriculture, the Bureau of Statistics and Inspection of the New Jersey Department of Agriculture, and the Delaware Department of Agriculture.

This formula was first used at the Japanese Beetle Laboratory, Riverton, during the early part of the season of 1925, and the conclusions are therefore drawn from the results of one season's experiments. There are several points which have not been thoroughly investigated. However, on account of the urgent demand for a spray of this type in Japan, the formula is being released. The writer feels that the material will be of value in combating other species of insects, especially where an arsenical is undesirable.

The toxic components of the formula are sodium oleate, which also acts as an emulsifier, and the pyrethrum oleoresin. The amount of oleoresin used in the formula, emulsified with an equal amount of sodium oleate, had a paralyzing effect on the beetle. Larger amounts of the oleoresin gave an increase in percentage of beetles killed, but also increased the cost of the spray. To offset this factor, larger amounts of the sodium oleate were added to the oleoresin. This resulted in a spray of considerably greater efficiency as a killing agent than when either component was used alone.

**FORMULA:**  
Oleoresin of pyrethrum flowers. . . . . 0.5 ounces  
Oleic acid U. S. P. . . . . 5 pounds  
Sodium hydroxide C. P. Slick . . . . . 11.2 ounces  
Water . . . . . 25 gallons

The oleoresin of pyrethrum used was obtained from a commercial firm in Baltimore, Md., for \$3.10 per pound.

**SODIUM OLEATE:**  
The sodium oleate used was made from the commercial products, oleic acid and sodium hydroxide.

**METHOD OF PREPARATION OF STOCK EMULSION:**  
Sodium oleate is first made from the above oleic acid and sodium hydroxide by heating 2 1/2 gallons of water to the boiling point, and after removal from fire, adding the oleic acid slowly under vigorous agitation. Next the sodium hydroxide is dissolved in 1 quart of water; when dissolved, the sodium hydroxide solution is poured slowly into the oleic acid-water mixture, and stirred until the solution is clear. While this mixture is still hot (again heating if necessary) add the oleoresin and stir the mixture thoroughly to obtain a uniform solution. This stock emulsion can be placed in a closed container and stored from season to season.

**DILUTION:**  
The above formula when added to 4 1/2 gallons of water will give the proper strength to be used against the beetle. For smaller amounts than 50 gallons use approximately 8.4 ounces of the stock solution to one gallon of water.

**DISCUSSION:**  
The limiting factor in the use of this material for large scale spraying is the most of oleoresin of pyrethrum. The writer was able to prepare the formula under laboratory conditions at a cost of about five cents per gallon of the diluted spray. This was not considered prohibitive in spraying large numbers of beetles attracted to a tree sprayed with geraniol.

No foliage injury resulted from two applications of the spray to tender foliage such as geranium. For the time being, however, one application only is recommended. Further investigations are necessary to determine the effect of repeated applications of the spray on certain types of foliage.

The percentage of kill is based wholly on the degree of thoroughness in applying the spray. Satisfaction.

**Riverton Electric Shoe Repairing**  
FRANK BROWN, Prop.

**Something Different**  
A few of the new fabrics received this week for furnishing covering.

Mohair and Worsted Damask. 20 beautiful colors. Plain striped Linen and Cotton Cloth for summer covers. This goods has a rich appearance and wearing quality that will last many years.

Our Deluxe Gause and L-cosa Taffeta are unexcelled in beautiful coloring and appearance when draped at your windows.

**Ye Upholstery Shoppe**  
Will E. Bowen  
Robert's Bldg., Main & Howard  
Riverton  
Phone, Riverton 761

factory results cannot be obtained from the use of this spray unless the insects are completely wetted. The results vary also according to the weather conditions at the time of application. The best kill was obtained with high temperature and low humidity. Beetles were sprayed at different hours of the day and in the shade and sun, but the results showed no variation as long as the temperature was high and the humidity low. A coarse, driving spray, under high pressure, gave the best results. On account of the habits of the insect under certain conditions many will drop from the foliage to the ground as soon as disturbed by the spray and before being sufficiently wetted. These, if allowed to drop on a canvas below the foliage, can easily be covered with the spray after they have fallen. Again, however, under certain conditions of high temperature and bright sunshine many beetles leave the foliage before being hit at all or sufficiently hit to cause death. Then again, on account of the beetle being a strong flier, many leave the foliage after being sprayed to die elsewhere.

**CAUTION:**  
This material has not been used in combination with other insecticides. The poet d'Annunzio always writes his verses with a bowl of goldfish at his elbow. There can be no real objection to this, until it has been proved that goldfish can read.

**PRESBYTERIAN**  
A cordial invitation is extended to you to worship at Calvary Presbyterian Church, Fourth street and Lippincott avenue. If you are a Presbyterian in this community, this is your home. If you are a stranger, you need not remain so. Come and share our worship and our fellowship. On Sunday morning, June 13th, at eleven o'clock, the pastor will preach to the graduating class of the Palmyra High School. In the evening, at eight o'clock his theme will be "The Christian's Righteousness."

The Sunday School will meet at ten o'clock. This will be the last opportunity to prepare for the Children's Day Service on June 20. All scholars are asked to be present. Parents are urged to come and bring their children. The Christian Endeavor Society will meet at 7.15 and all young people of the community who wish to come will receive a hearty welcome. There will be a Children's sermon for the Children at the morning service as usual.

The mid-week services will continue through the month of June, each Wednesday evening at eight o'clock.

**MOVE "Y" CAMP**  
Great Fleet of Trucks Promised For Saturday's Work

Saturday, June 12th, will be a grand day of activity both at the old and new Ockanickon Camp when a fleet of trucks and scores of workers will be engaged in transporting the Ockanickon Camp equipment from Brindle Lake, New Jersey, to the Camp site on the Indian Mills Road, below Medford. The following is among the equipment to be moved: tents, cots, canoes, boats, rafts, benches, tables, stoves, refrigerators, a piano, a DeLco wireless, dining, furniture, library, tools, printing supplies, etc.

The response to Secretary Hendry's solicitation for trucks has been very gratifying. He hopes,

however, that there will be a 100% response on the part of those who have been solicited in connection with rendering this special service.

The arrival time at the old Camp site has been set for nine o'clock. It is hoped that there may be enough trucks available so that only one trip each will be necessary.

Secretary Hendry also points out that regular cars can be put to excellent use for moving such things as they can conveniently carry, including cots, tents, dishes, tools, etc.

Moving day on Saturday will immediately be followed by the arrival of the advanced party at Camp on Monday, June 14th, when a group of the Directors and other fellows of each county will put the finishing touches on the new

Camp site in readiness for the arrival of the first-week boys Thursday, June 24th.

**MANY REASONS FOR TAKEN AUTOMOBILES**  
"Some people have the idea that there is something the matter with every used car offered for sale," says Fred Rein, of the Rein Motor Company of Riverside, "and that in some way the car failed to give satisfaction to its first owner."

"But a great percentage of the cars which find their way to the used car saleroom are there because of conditions which have nothing to do with the car. A man dies, and his widow does not want the two or three cars in the family garage."

## PALMYRA NOTES

Mr. and Mrs. Robert L. Moody spent the weekend at Ocean City. The Moody family has been spending its summer months at the beach.

Mrs. Charles K. Moore is entertaining Mrs. Florence Fox, of Milton, Pa.

Mrs. E. L. Powell will entertain the Stutz and Chatter Circles this Friday evening.

Dr. and Mrs. James E. Brown and children spent Sunday with relatives in Toga.

Mr. and Mrs. John M. Griffenberg, of Lincoln Avenue, spent Sunday in Swallow Heights.

The S. & S. Club met at the home of Mrs. Joseph Miller in Delair, Tuesday evening.

Don Scholtz, of West Philadelphia was the guest of Mr. and Mrs. Thomas Griffith on Sunday.

Mrs. P. A. Bailey entertained her cousins, Mr. and Mrs. Edward Patterson, of Dayton, Ohio, this week.

Mrs. Michael Haughey and children, of Philadelphia, are visiting her parents, Mr. and Mrs. Harry Rember.

Mr. and Mrs. Howard Alway and family and Mr. and Mrs. Ellen Jones and family motored to Ocean City Sunday.

Mrs. Anna Foster and Florence Kline motored to Delaware Water Gap with relatives from Albany over the weekend.

Dr. and Mrs. A. B. Shoemaker, of Boston, Mass., are the guests of Mr. and Mrs. W. Metzger, of Garfield Avenue.

The Order of Eastern Star, of Palmyra, will hold a picnic at Winsomine Park, Frankford, Thursday, June 11th.

Mr. and Mrs. Strahan and daughter, of Frankford, were dinner guests of Mr. and Mrs. C. W. Rudolph on Sunday.

The Samaritan Class of the Baptist Church held its monthly business meeting and social at the church Tuesday evening.

A food sale will be held by the Ladies' Aid of the M. E. Church, Saturday, June 28th, in front of the office of George N. Wilner.

Mrs. Fred Check and children, Victor and Henrietta, of Philadelphia, spent Thursday visiting her aunt, Mrs. John Davies, of Riverton.

Mrs. P. A. Bailey and Miss Lillian Stein, of Haddonfield, were the dinner guests of Miss Luana Felton, of Camden, Saturday evening.

A donation of fifteen dollars was received this week by Mrs. John C. Hopfinger, Treasurer of the Association, from H. Lester Steele, of Palmyra.

Mrs. A. B. Crammer was called to New York on Monday morning on the account of the serious illness of her daughter, Mrs. C. H. Payne.

The meeting of the Ladies' Aid of the M. E. Church was held in the form of a luncheon at the home of the president last Wednesday evening.

John H. Harbours and daughter, Mrs. Annie Farr, and her daughter, Miss Olive Farr, spent the weekend with Mrs. James M. Weart, of Highland Avenue.

Mrs. Susan Wall, of Spokane, Washington, will arrive Thursday to spend the summer at the guest of Mr. and Mrs. Edward Beaton, of Washington Avenue.

A meeting of the Fourth of July Committee will be held in Police Headquarters this Thursday evening to decide whether the celebration should be attempted this year.

Mrs. J. Knight Reeder, of Philadelphia, entertained at luncheon Wednesday in honor of her mother, Mrs. John G. Galloway, of Palmyra, who was celebrating her seventy-fifth birthday.

Hubert W. Logan again was a prize winner at the School of Industrial Art in Philadelphia. This year, he received the F. W. Weber Prize for best work in Color, Second Year Class.

Mr. and Mrs. Stewart Buckholz, Miss Rebecca Buckholz and Miss Ruth Ehrlich, Houston Ingram and Thomas Houston motored to Atlantic City over the weekend and had a very delightful time.

Dr. and Mrs. Gerald B. Smith and children, Gerald and Geraldine, of Woodburn, Oregon, are spending several days at the guests of Mrs. Smith's father, Albert Peterson, of Cinnaminson Avenue.

The P. O. of A. presented a beautiful silk flag to the Baptist Church last Sunday evening. The presentation was made by Mrs. Anna Blackburke and Thomas Van Osten accepted it on behalf of the church. Mr. and Mrs. D. Grey Schwarz sang a duet.

The members of the "Agnate" gave a birthday handkerchief shower to Mrs. Harvey Fisher and Miss Helen M. Violette Belcher, whose birthday occurred last week. The meeting was held at the home of Mrs. J. Martin Smith, on Linden Avenue, Riverton. Among those present were: Mrs. Porter Caldwell, Mrs. Walter Altman, Miss Mae Griffenberg and Miss Jeanette Soast.

**NEITHER—PIPER**

Miss Margaret Violet, daughter of Mr. and Mrs. Amory E. Piper, of Marlton, was married to Francis Francis Selinger, of Palmyra, in the Marlton M. E. Church, Tuesday evening, June 9th. After a short wedding trip Mr. and Mrs. Selinger will live with his parents at 404 Delaware Avenue, until their new home is completed on Cinnaminson Avenue.

An agency is now open in our section selling our \$10.00 Accident and Health Policies for one of the oldest and soundest companies in this country. Thousands of our agents have built up permanent businesses of their own. Many agents retire after several years and live on the renewals that come automatically. Write Dept. A-1, Suite 614, 76 Montgomery St., Jersey City, N. J.

## GRADUATES AS DOCTOR

W. Wells Westney, M.D., of Palmyra, was a member of the graduating class of the Hahnemann Medical College which held its commencement exercises in the Academy of Music, Philadelphia, last Thursday afternoon.

Mr. Westney is a graduate of Camden High School.

He is the son of John Westney, 301 Morgan Avenue.

He received a degree from Hahnemann Medical College. His two brothers, Alfred and Howard, both of Atlantic City, are graduates of the school.

Dr. Westney will serve his internship at the West Jersey Homeopathic Hospital.

## MASONS IN SESSION

National Grand Master Visits Palmyra Lodge

A special session of the St. John's Grand Lodge Free and Accepted Masons, of Palmyra, was called Saturday, May 29, in the lodge room at Palmyra.

Professor S. S. Simons, National Grand Master, presiding, coming here from Atlanta, Georgia.

The members of St. John's Lodge wish to thank William A. Pike, of Palmyra, for the courtesy extended to the grand officers and the members of the lodge in serving them a wonderful dinner at his place of business.

John H. Williams, Worshipful Master, Merrill Johns, Secretary.

## SCORE FIVE POINTS

Palmyra Boys Make Creditable Showing at Newark

A team composed of six athletes picked from the entire track squad of Palmyra High School represented Palmyra at the State Inter-Scholastic Meet at Newark Saturday afternoon and scored five points.

Although the meet was won by Vineland, Coach Harold "Boots" Lever feels that his boys made a very creditable showing against the strong field presented. The competition was very strong.

Captain Bruce Beahn lost first place in the 440 yard dash by only a few inches in the most sensational race of the day.

Beahn was beaten by Kosh, of Vineland.

R. Rubrecht, another local boy, won third place in the high jump.

The other members of Palmyra's team failed to place.

Those who represented Palmyra High School were: Captain Bruce Beahn, R. Rubrecht, Albert Mathews, Joseph Atkinson, Spencer Davidson and Frank Hengert.

In a recent interview Coach Lever expressed great satisfaction over the showing made by his team during the year and while Saturday's meet showed the season he feels confident that he will have many surprises to present to the sporting world next year.

He says "It takes time to make a good track team and these boys will arrive at the state meet. I think next season will find them very track wise, to use the expression of sporting circles."

## BASEBALL SATURDAY

Palmyra Will Play Tenth Ward, of Camden

Saturday afternoon the Palmyra baseball team will cross bats with the Tenth Ward team of Camden.

These boys beat Pedrickstown in a double header last Saturday and should make a fine game out of Saturday's contest.

Beahn is interested in obtaining the greatest support possible for his team, Jim Rapp, Palmyra's well known manager, has succeeded in having the price of admission reduced from thirty-five cents to a quarter of a dollar.

It is hoped that the team will receive good support at each game because they expect to give the fans the best that is in them.

## CENTRAL BAPTIST

Children will hold the center of interest at all services in the Central Baptist Church on Sunday.

It is hoped that there will be a very large attendance in the Bible School at 10 o'clock. At 11:15 parents are urged to bring their children to the church.

After the sermon the Lord's Supper will be held.

The evening service will commence promptly at 7:30 with the school officers in charge. In addition to a special Children's Day song service by the school, the Primary department will present a pageant entitled "Like Unto These."

The offering at this evening service will be added to the building fund.

Primary Department children are reminded that rehearsals for the pageant will be held Friday evening at 7 and Saturday at 8.

The next social event on the calendar is the Saturday Festival and Cake Sale by the Women's Society at the church lawn Saturday, June 19.

The following Saturday, June 26, is the day for the big Bible School Picnic at Neshaminy Falls, Pa. Buses will leave the church at 9 a. m. and 1 p. m. Round trip tickets are 35 cents, with the children of the Primary department taken free. "Let's all go!" says the committee.

## KILLED BY SHOT

Thomas Broncato, Formerly of Palmyra, Killed in Fight

Thomas Broncato, of Philadelphia, who was shot and fatally injured Saturday evening at Ninth and Christian streets, Philadelphia, was a former resident of Palmyra.

Broncato moved from Palmyra to Camden about a year ago and since then was in the habit of associating with notorious characters of Philadelphia's underworld.

In some manner he became mixed with a gang, led in Philadelphia with the result that he was shot by a member of a rival gang.

While living here he was frequently in the toils of the police and was known as a very "hard" character.

**FOR SALE**—Studebaker touring car, in splendid shape, complete with extras. 905 Lincoln Ave. Phone Riverton 549-J.

## Sunday School Lesson

Lesson for June 13

### JOSEPH'S FIDELITY

**LESSON TEXT**—Genesis 39:1-22.

**GOLDEN TEXT**—Blessed is a man diligent in his business; he shall stand before kings—Prov. 22:29.

**PRIMARY TOPIC**—A Noble Slave Boy.

**JUNIOR TOPIC**—How Joseph has helped us.

**INTERMEDIATE AND SENIOR TOPIC**—Facing Severe Tests.

**YOUNG PEOPLE AND ADULT TOPIC**—Triumphing Over Trials.

### 1. Joseph, the Well Beloved Son (37:23).

He was Jacob's favorite son, partly due to the fact that he was the son of the wife of his first love and the son of his old age, but mainly because of the superior qualities he possessed.

II. Joseph's Fidelity as a Slave (37:23-47).

Joseph's brethren had gone to Shechem, some fifty miles from Hebron, where there was plenty of pasture for their flocks. After a time Jacob became anxious as to their welfare and dispatched Joseph, now about seventeen years old, for the purpose of finding out their condition. He did not allow the envious hatred of his brethren to deter him from his duty, but willingly responded, "Here am I."

He no doubt realized that his mission was fraught with great peril—exposure to wild beasts, robbers, and the numerous hatred of his brethren. His fidelity is shown in two ways.

1. The fact that his father sent him on such a long and dangerous journey to bring back word concerning his brethren shows that he had proved himself to be a trustworthy character.

2. His brave and glad response to his father's request. He responded to his father's confidence.

III. Joseph's Fidelity as a Slave (38:1-20).

1. Sold to the Ishmaelites (37:25).

At the sight of Joseph, the murderous envy of his brethren was stirred up. They first proposed to kill him in order to prevent his dreams coming true. Finally, the prudent suggestion of Judah to sell him to the Midianites prevailed and he was carried to Egypt and sold to Potiphar as a slave.

2. His prosperity while a slave in Potiphar's house (38:21-30).

The secret of Joseph's prosperity was that the Lord was with him (v. 2). This prosperity consisted:

(1) Of being accorded the privilege of Potiphar's house, i. e., his private residence instead of his fields or public buildings.

(2) He became Potiphar's personal attendant (v. 4). Observing Joseph's fidelity Potiphar chose him to give attention to his personal affairs.

(3) He was made overseer over Potiphar's house (v. 4). As a personal attendant he proved himself to be so capable that he was made administrator over his estate including his household. He no doubt purchased all supplies and had charge of the servants.

(4) He brought prosperity to Potiphar (v. 5).

The Lord blessed Potiphar for Joseph's sake.

(5) He possessed an attractive personality (v. 6). His fine physique and commanding personality were gifts from God. All our gifts should be consecrated to the Lord who gave them.

3. His temptation (vv. 7-17).

His very attractive person became his peril. Potiphar's wife became infatuated with this handsome slave and attempted to induce him to commit adultery with her. He resisted this temptation because yielding would have been to sin against his master and his God. The man who is faithful to God will be faithful to his fellowmen.

IV. Joseph's Fidelity as a Prisoner (vv. 18-23).

Being defamed in his wicked purpose, Potiphar's wife accused Joseph falsely. Because of her charge he was thrust into prison. Potiphar must not have really believed his wife or else he would have put Joseph to death. He did to him the least that was possible under the circumstances. Because of his purity and unflinching loyalty to God and man, God was with him even in the prison.

1. The Lord gave him favor in the sight of the keeper of the prison (v. 21). This keeper was none other than Potiphar himself (40:3, cf. 39:11).

2. He was given charge of the prisoners (v. 22).

Potiphar knew Joseph's ability and faithfulness, therefore gave him employment in this new place.

3. The Lord made him prosperous (v. 23).

Joseph's success was due to the hand of his God upon him.

### Ordinary Duties of Life

If there be anything, in fact, where in the views of God and the impressions of men are apt to be at total variance, it is in respect to the solemnity and importance of ordinary duties.—Horace Bushnell.

### Highest and Lowest

The highest point of heaven's glory in glory can only be reached by going to the lowest place of earth's woe.—Prophetic News.

## Y. W. C. A. Holds Splendid Meeting At Home of Mr. and Mrs. Sinex

Ninth Annual Session Full of Interesting and Profitable Activity  
For 400 in Attendance

The ninth annual meeting of the Young Women's Christian Association of Burlington County was held on Saturday, June 5th, at Edgewater Park, the home of Mr. and Mrs. John H. Sinex, in Edgewater Park. The dark skies and frequent showers did not prevent women and girls from travelling many miles in cars, school buses, busses and trucks to be present on this great occasion. The weather prevented an out-door meeting as planned, but Mr. and Mrs. Sinex graciously welcomed the guests and turned the house over to them for the day. By noon the house was crowded with happy Girl Reserves and women and even a few men were seen on the porch.

There were over four hundred present for the day. Of this number two hundred twenty-six were Girl Reserves, representing the forty-one Girl Reserve clubs in the county. There were also guests from New York City, Washington and Morris County, New Jersey.

Promptly at 10:30 the meeting was called to order by the president, Mrs. Edward S. Harmer, Mrs. J. W. Davis, of Edgewater Park, led the opening service which consisted of responsive reading, a hymn and prayer written for this meeting. The annual reports followed.

There were the reports of the officers, the president, secretary and treasurer; the reports of the Executive and Girl Reserves secretaries; reports from each standing committee; the District chairman; the presidents of the Burlington and Mount Holly Branches. Each report was very interesting and showed a marked gain in every department and phase of the Association program, with a determined effort to meet the growing needs of Burlington county.

One of the most gratifying reports given was that of the membership chairman, Mrs. M. W. Newcomb, of Browns Mills.

Number of Girl Reserve Clubs 41  
Number of Senior Clubs 14  
Membership in Girl Reserve Clubs 699  
Membership in Senior Clubs 435  
Total Club Membership 1134  
Adult Membership 945  
Dollars Members 165  
Men Contributors 179  
Junior Members 13

Total 1313  
Plus club membership 1180

Total Association Membership 2493  
Quotas Complete

Mrs. F. Wallis Armstrong, chairman of finance, reported the following towns over the top in their quotas: Browns Mills, Burlington, Cooperstown, Crosswicks, Chatsworth, Green Bank, Marlton, Medford, New Lisbon, Whites Bog. There are many others that are just a few dollars from their goal.

Mrs. M. W. Newcomb presented the following names as candidates for officers of the Association for 1926-27. The ticket was unanimously accepted.

President, Mrs. J. W. Davis, Edgewater Park; First Vice-President, Mrs. Harold Horner, Mount Holly; Second Vice-President, Miss Mildred Parnell, Mount Holly; Third Vice-President, Mrs. Edward S. Harmer, Moorestown; Secretary, Miss Helen Woolman, Riverton; Treasurer, Mrs. M. W. Newcomb, Browns Mills.

District Chairmen

The following District Chairmen were elected:  
District 1, Mrs. Joseph Burkley; District 2, not filled; District 3, Mrs. Alexander Wood; District 4, Mrs. William Matlack; District 5, Mrs. Harry Evans; District 6, Mrs. Enlen Darlington; District 7, Mrs. Alexis Clark.

The following women were elected to serve on the Burlington County Board: Mrs. John H. Sinex, Edgewater Park; Mrs. James D. Ferris, Edgewater Park; Mrs. Henry Albertson, Burlington; Mrs. Charles Beckwith, Whites Bog; Mrs. R. G. Dunn, Burlington; Mrs. Henry Stockwell, Moorestown; Mrs. Alexis Clark, Crosswicks; Mrs. Charles Barton, Marlton; Mrs. Benjamin Roberts, Marlton; Mrs. Edwin Russell, Moorestown; Mrs. Ralph Charlton, Delanco; Mrs. George Hubbs, Florence; Mrs. Edward Harmer, Moorestown; Mrs. M. W. Newcomb, Browns Mills.

During the lunch hour old friendships were renewed and new friendships formed. Happy groups were seen on the grounds, the porch and in the house.

The afternoon program opened with an address by Miss Henrietta Ruelofs, National Secretary of the Rural Communities Department of New York City. Miss Ruelofs has become a close friend of the Burlington County Y. W. C. A. and she always received a most cordial welcome from both girls and women.

The Riverton Choral directed by Mrs. Beatrice F. Collins, of Riverton, charmed the audience with their presentation of the choral contest numbers for the year. The numbers were "Two Marionettes," "To A Wild Rose," and "Sylvia." So pleased was the audience with the work of this choral that they had to reply with an encore "Homing."

Mrs. Edward Parker, of Washington, and a member of the National Board presented the cup which is known as the Parker Cup to the Riverton Choral. This choral has

won the cup for three years and now the Riverton-Palmyra choral has the cup. Mrs. Collins has given much time and thought to the training of these girls and they are a great credit to her.

Other musical numbers were a piano solo played by Miss Isabel Fowles, of Edgewater Park, and a solo by Mrs. Collins.

The audience was invited to the grounds where the Girl Reserves were eagerly waiting to present their part of the program. The Beverly Girl Reserves presented "Living Letters," and gave an interesting interpretation of Girl Reserves followed by some lively yells.

The pageant in which two hundred and twenty-six girls took part was a very impressive sight. The girls marched in forming two solid triangles. The Spirit of the Girl Reserves entered carrying a large white candle. She was followed by ten girls each carrying a candle of different colors and each seeking to find the real Girl Reserve Spirit. The Spirit of the Girl Reserves called the new president of the Association, Mrs. J. W. Davis, to come forward and light her candle that she might lead all girls on in the Christian way of life as former presidents had done.

The pageant was directed by Miss Mildred Parnell, Helen Hoff and Mrs. William Karge. It was beautifully presented and the large number of girls present shows that the Association is reaching the lives of girls all over Burlington county. Mrs. Sinex presented each girl with attractive favors, and as the girls and buses left the grounds many happy faces were seen and many horns, whistles, and other noises were heard.

MAPS OF COUNTY FOR FREE DISTRIBUTION

The Burlington County Board of Freeholders and County Engineer H. B. Smith are distributing a very useful map of Burlington county prepared by Mr. Smith with the assistance of County Supervisor of Roads MacFarland, and showing, besides the location of every town and hamlet in the county, the township lines, the main county roads, secondary county roads, state highways, township roads and railroads.

The map is in colors and is 16 by 30 inches, while the reverse side contains a complete road map of the state, issued by the State Highway Commission. In addition the approximate population of the cities and towns is given.

The maps are for free distribution while they last and may be had on application to Clerk Alfonza Adams or County Engineer Smith, at the Collector's Building in Mount Holly.

## GRAHAM BROTHERS TRUCK SALES GAIN

The constantly increasing demand for Graham Brothers Trucks and Motor Coaches is further emphasized by the total retail delivery of 10,208 units from January 2 to May 15, 1926, by Dodge Brothers dealers in the United States. This is a gain of 1,976, or 85 per cent over the corresponding period of 1925.

Retail deliveries for the two weeks ended May 15, 1926, totaled 1,364, a gain of 769, or 126 per cent over the same period in 1925. Total factory shipments of Graham Brothers Trucks and Motor Coaches from January 1 to May 15, 1926, amounted to 15,022, a gain of 5,027, or 63 per cent over the corresponding period one year ago. Shipments of Graham Brothers Trucks and Motor Coaches in several days less than four months of 1926 exceeded the entire factory production of 10,728 units shipped in the twelve months of 1925.

The history of Graham Brothers has been one of constant increase. In 1922 factory sales showed a gain of 181 per cent over the previous year, while in 1923 the gain was 105 per cent over 1922. Sales for 1925 showed a gain of 123 per cent over 1924.

These continuous gains are the result of exceptional value made possible by the vast manufacturing resources and buying power that go with world leadership," declared Mr. Sweeney, Dodge Brothers dealer at Palmyra.

Sprinkle borax under the carpets and the moths will keep away.

## NORTH POLE DATE LINE

Used May 12 for First Time in Journalistic History  
For the first time in journalistic history, the date line "North Pole" was legitimately used May 12 on a news item. It was a wireless story of the flight of the Norge received by the New York Times as a part of the service describing the flight of that dirigible from Spitzbergen to Nome.

NO-NOX  
MOTOR FUEL  
STOPS KNOCKS

PUTS CARBON TO WORK

PUTTING the old demon, carbon, to work sounds like a paradox—nevertheless that's just what GULF No-Nox Motor Fuel does and here's how it happens: Compression is power. The more compression the more power. Greater compression is secured by reducing the displacement or space in the combustion chamber. Carbon deposits materially reduce this space—old time gasoline would not withstand this added carbon compression—clicks—knocks—pings or detonations of distress quickly following sudden acceleration or heavy pulls.

No-Nox withstands higher compression—stops the knocks or detonations, thereby increasing engine efficiency. GULF No-Nox and Carbon Deposits work together for more power and greater mileage.

Turns Mountains Into Mole Hills

This guarantee goes with it: GULF No-Nox Motor Fuel is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—that it positively will not heat the motor, winter or summer.

GULF No-Nox Motor Fuel is priced three cents per gallon higher than ordinary gasoline—and is worth it.

The Orange Gas—At the Sign of the Orange Disc  
GULF REFINING COMPANY

## Plead Not Guilty In Murder Case

### Three Defendants Will Fight Conviction in Mount Holly Court

Supreme Court Justice Frank T. Lloyd made his appearance in the Burlington County Courts on Thursday morning of last week for the first time since recovering from an operation performed at the Johns Hopkins Hospital in Baltimore, and while he has not fully regained his usual health he appeared to be in his customary good spirits.

The Justice was here for the purpose of taking the pleadings in three murder cases, as follows:

Pasquale Rosemond, of Riverside, charged with the murder of John Gilbert, of Riverside, on March 13, following an argument over a game of pool in the poolroom kept by Rosemond, at Riverside. He pleaded not guilty and will be represented by Attorney V. Claude Palmer.

**Pleads Not Guilty**  
Joseph Sandor, of Florence, charged with the murder of Augustus Poff in a boarding house at Roebbling on March 26, also pleaded not guilty. He will be represented by Robert Peacock.

The third defendant to plead to a murder charge was Mamie Jones, colored, also of Florence township, who it is alleged made away with her newly-born boy by on February 14. Mr. Peacock entered a plea of not guilty for her and will represent her.

No dates were set for the trials. Judge Lloyd then retired and Judge Slaughter took the following pleas:

Edward J. Hennessy and William Guilford charged with breaking and entering the American store at Bordentown, not guilty.

Thomas Glanville, two indictments for liquor violations, not guilty.

**One Pleads Guilty**  
George Starellis, assault and battery on a fellow countryman at Burlington, pleaded guilty.

Mark Savina, George Wlas, Trifon Watowsky and Samuel Bezenomsky, all of Mansfield township and indicted for liquor violations, pleaded not guilty.

Mary Kansius, of Burlington, liquor violations, not guilty.

John Welsh, of Philadelphia, who served fourteen months in the

State Prison, Pa., for being in possession of a car stolen at River-side, and who has been in the Mount Holly jail the past several weeks, may have his liberty if he can give bail in the sum of \$200.

**Put on Probation**  
Harry Martin, of Mt. Laurel township, was placed on probation for one year and must pay costs of \$50 in six months. Martin contracted to paint a house and after completing \$35 in advance to buy the materials he failed to do the work.

Oscar Bolden, colored, of Pemberton township, in his efforts to pay attention to a colored domestic, frightened the members of the household where she is employed and was arrested on a charge of loitering. Attorney Kelsey appeared for Bolden and he will be released if he can secure the \$200 bail.

There are several other defendants to plead and if they are not in court this week their bail will be ordered forfeited.

## FORMER RIVERTONIAN HIGHLY HONORED

Miss Frishmuth Laying Out Grounds  
For Persian Exhibit at Sesqui-Centennial

The plans for the Persian participation at the Sesqui-Centennial International Exposition are nearly completed. Persia will be represented in a far more adequate way than in any of the previous international exhibitions.

The government building, located on a beautiful site at the end of a lake, will be a reproduction of the famous college built by the mother of Sultan Hussein in the ancient Persian capital, Isfahan, which was for centuries one of the most beautiful cities in the world.

The grounds are being laid out by Miss Anna Biddle Frishmuth, and will give a good idea of the famous Persian gardens which, with the exception of the Gillespie Gardens in Santa Barbara, have never been reproduced in this country. The time naturally does not permit of the full effect, but the plans by Miss Frishmuth carry a good deal of Persian feeling.

A writer observes that monarchs who have been deposed seem to have quite enough to live on. They have evidently been wise enough to put something away for a rainy day.

Wide and narrow belts of gold or silver kid are used effectively on chiffon tailored frocks.

## New York's Old Guard Coming to Sesqui

At an imposing ceremony before their headquarters in New York City the famous Old Guard of New York under the command of Major E. Havemeyer Snyder, commander of the organization, received the invitation from the officials of the Sesqui-Centennial International Exposition, opening in Philadelphia June 1 and continuing to December 1, to celebrate 150 years of American Independence, to attend the Flag Day exercises on June 14, when all the historic military commands of the thirteen original colonies will assemble for a big military display and parade headed by General Pershing.

and also proof of insurability, that is, report of complete physical examination by a physician.

**REINSTATEMENT OF  
VETERANS' POLICIES**

In order to prevent the possibility of loss of rights by veterans in making application for reinstatement and conversion of Government Insurance, it is necessary that all applications be completed and mailed or delivered to the United States Veterans Bureau, Washington, of Regional Office, 14 Bleeker Street, Newark, or 3rd Regiment Armory, Camden, on or before July 2nd, 1926.

An application for conversion includes remittance sufficient to cover at least one monthly premium on the converted policy. Application for reinstatement should include remittance sufficient to cover the premium on the converted policy

## HORTICULTURISTS TO HAVE FIELD DAY

New Jersey fruit, vegetable, and flower growers will have a big program at the horticultural farm of their State College of Agriculture and Experiment Station, New Brunswick, on Field Day, June 16. Various important problems concerning cultural methods, and insect and disease control are to be considered in demonstrations, tours, and talks.

Vegetable growers will be shown by C. H. Nimsley, vegetable specialist, how to mix nicotine dusts, and the use of one-horse dusters and hand-dusting equipment. Fertilizer tests with cantaloupes and cauliflower are to be shown by L. G. Scherhorn, professor of vegetable gardening. In addition there are to be demonstrations of how garden tractors can plow, cultivate, and seed, and the use of plant setting machines. E. R. Gross, agricultural engineer, will have charge of this. Vegetable growers are being asked to bring along any questions regarding vegetable diseases as C. M. Henseler and Charles Chapp, plant pathologists, will be present to answer them.

Tours of the apple and peach orchards to note out of fruit, various spraying studies, and the improved peach varieties developed by the experiment station, are limited for fruit growers. Besides this, a number of short talks will be given by various authorities. These are:

"Special Features in regard to Fruit," "Fruit Crop Prospects of 1926," "Use of Oil Emulsions in the Control of European Red Mite," "The Bee as a Factor in the Pollination of our Orchard Fruits," "Some New Facts about Apple Scab and other Fruit and Vegetable Diseases." The speakers will be M. A. Blake, horticulturist; A. J. Farley, pomologist; T. J. Hensley, entomologist; William H. Martin, plant pathologist; L. A. Stearns, assistant entomologist, and Ray Hutson, bee specialist.

Following these talks there will be demonstration of spraying and dusting apples and peaches with various types of sprayers, dusters, spray guns and nozzles.

C. H. Connors and E. W. Winsor will take charge of the flower growers' group. Over 350 varieties of dahlias and many other species and varieties of ornamental plants are under culture at the horticultural farm, and all these will be shown.

## AMBULANCE TRIP

Field Day at the College and Experiment Station begins at 10:30 a. m. daylight saving time.

**AMBULANCE TRIP**  
Palmyra Machine Shop Riverton Men to Hospital

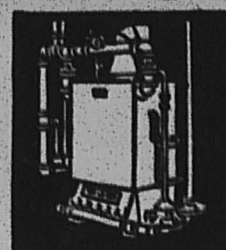

An emergency call was sent to the Palmyra Ambulance Association by Dr. Russell D. Geary, of Delanco, Monday morning to take William Edgo, of Riverside, to the Hahnemann Hospital, Philadelphia.

The call was received by Chief of Police Morris Beck and he obtained Arthur Leeds to drive the car.

Edgo was suddenly stricken and his immediate removal to a hospital was deemed advisable by Dr. Geary.

**JEFF'S EYES IMPROVES**  
Jerome V. Jeffords, of Mount Holly, known in the boxing ring as "Jeff" Smith, finds that there is an improvement in his eyesight as a result of recent operations and he is now developing a notion that he will re-enter the prize-fighting ring until he hears the birds sing if he can be relieved of his double vision.

# AUTOMATIC HOUSE HEATING with GAS

**AN** even temperature throughout your home, without forethought or worry on your part. Controlled by a thermostat.

You need never build a fire, nor shovel coal, nor remove ashes.

Furthermore, gas is the safest fuel devised for house heating. Absolutely odorless—noiseless.

Gas is clean and its use keeps your home clean—the damage done by smoke, ashes, and smudgy soot is eliminated when gas is used to heat the house.

No change in your radiation or piping is necessary when the gas boiler or furnace replaces coal or oil.

Gas can be applied to steam, water, vapor, or hot air heating systems.

JUST CLIP COUPON AND MAIL

## PUBLIC SERVICE

Please let me have your illustrated book, "Warmth and Comfort Conveniently," and other literature on gas for house heating.

# Here are the New Cabinet Kelvinators

## again, Something Better!

Since 1914 Kelvinator has been the recognized leader in the manufacture of electric refrigeration systems for refrigerators already in use, or for those newly purchased.

Now, in addition to these, we announce a complete line of Cabinet Kelvinators—cabinets and Kelvinators combined into single units, delivered to your

home complete, ready for the electric connection.

The cabinets are produced in a variety of sizes and finishes—nine models in all. They are of the famous "Leonard Cleanable" construction that won leadership in the refrigerator industry 44 years ago—and kept it. The Kelvinator installed in each cabinet is the same wonderful Kelvinator that has been recognized as the world's standard

system of electric refrigeration since the very beginning of the industry.

Manufacturing and selling economies put these Cabinet Kelvinators on the market at prices that set a new standard of value.

Now, right at the start of the summer, we invite you to inspect these fine new Cabinet Kelvinators at our display room. If you place your order early you can be sure of prompt delivery.

### Cabinet Kelvinator Models and Prices

**Model 226—\$250**  
A beautiful flush panel hard-wood cabinet finished in gleaming white enamel pyroxylin. The insulation is of corkboard. The interior is of gleaming white enamel on galvanized iron (Leonard Cleanable construction). The outside dimensions are: Height 60 inches, width 36 inches, depth 24 inches. This model has 1/2 cubic foot of shelf space, permitting you to make excellent use of the food storage compartment of the cubic foot capacity. The trays permit you to freeze 42 cubes of ice (8 pounds) at a time.

**Model 230—\$250**  
This Cabinet Kelvinator is exactly the same in size and construction as Model 226, except that the exterior is of rich golden oak.

**Model 227—\$275**  
In this model Kelvinator, the interior is gleaming white porcelain, enamel iron, making it as easy to keep clean and shining as a china dish. The design and size are the same as Model 226, with the same 1/2 cubic foot of shelf space, permitting you to make excellent use of the food storage compartment of the cubic foot capacity. The trays permit you to freeze 42 cubes of ice (8 pounds) at a time.

**Model 228—\$275**  
Has the same white porcelain interior as Model 227, and is of the same size and construction, but the exterior is quarter-sawn golden oak.

**Model 229—\$300**  
This is a de luxe Cabinet Kelvinator. The interior and exterior are of gleaming white porcelain, beautifully trimmed with polished metal corners and edging. The size, shelves, and construction are exactly the same as in Model 228. Corkboard insulation.

**Model 231—\$430**  
This is the larger model shown in the illustration. Its outside dimensions are 67 1/2 inches high, 40 inches wide and 34 inches deep. It has 1 1/2 cubic feet of shelf space and a food storage capacity of 1 1/2 cubic feet. In the trays or cubes of ice (12 pounds) can be frozen at one time. Exterior finish is of highest quality white enamel pyroxylin. The interior of white porcelain. Corkboard insulation is used throughout.

**Model 233—\$430**  
Dimensions, construction, arrangement and ice capacity are the same as above. The exterior finish is of quarter-sawn golden oak.

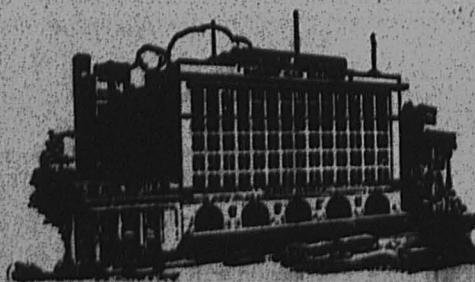

**Model 235—\$485**  
A de luxe model of the above, exterior is of white enamel, handsomely trimmed with polished metal. The dimensions

and general construction are similar to Model 231 and 233.

**Kelvinator Leonard Model, 16**  
This model is produced for those who desire even greater food compartment capacity than that needed by the average family. It has a food storage space of 1 1/2 cubic feet. Contains a hardboard Leonard Cleanable interior, finished inside and out in white enamel pyroxylin. It is mounted on a detachable base for enclosing the Kelvinator unit. May be used with or without base. The entire cabinet with base is 52 inches high, 40 inches wide and 34 inches deep. The interior has 1 1/2 cubic feet of shelf space, and the Kelvinator unit has two small trays and one large tray, freezing 42 cubes of ice, and a large pound cake of ice at each freezing.

## PUBLIC SERVICE

NUMBER ONE

### A New Jersey Institution

WITH thousands of New Jersey stockholders and an operating staff of New Jersey citizens, Public Service Companies supply some 3,000,000 New Jersey people gas, electricity or transportation.

In the extent and character of the service they render, Public Service operating companies, serving 239 different New Jersey municipalities, constitute one of the world's greatest public utility undertakings.

Service to the home, to industry and to the general public is the policy of Public Service Companies and the constant extension and betterment of facilities is visible evidence of the great contribution being made to the welfare and progress of the State and its people.

## "EXAM" WEEK AT RIVERTON SCHOOL

The pupils of Riverton School have been busy since Friday, June 4th, with final examinations. These examinations are very important because they will contribute largely to the term marks and will help to decide the promotions that will be made.

Jane Blackwell, Jr.

## NEEDLEWORK CLUB

The President of the Eighth Grade Needlework Club makes the following report for the school term of 1925-26.

The following articles are listed as finished:

- 12 sacques,
- 2 pairs booties,
- 2 night gowns.

It is hoped that the coming Eighth Grade will continue with this club's work.

K. Lockowitz.

## A PRESENT TO THE SCHOOL

The Eighth Grade of our school on June 7, 1926, presented to the school a set of lantern pictures taken after Fred Powell, a member of the class had presented them to Miss Chew, our principal, they were finished on the screen and proved to be pictures of some of the historical places in the United States and Canada.

Wesley Memphis, Grade 8.

## PERFECT PUNCTUALITY FOR THE

The Seventh B Grade of Riverton Public School has worked hard to establish a record for Punctuality and no one has been late the entire year. To celebrate this great occasion, Mrs. Howers gave her class a party, which was greatly enjoyed by all.

This class has striven the whole term to be able to proclaim this honor. We hope other grades will

take the same interest that the Seventh "B" took and we all congratulate them on their success.

## KNIGHT CHAMBER PUPILS MAKE "MAY" MEET

On Saturday, June 5, fifteen members of the Knight Chamber Pupils met at the home of their teachers to see "The Her" which was being shown at the Forest Theatre.

Miss Staman had purchased the tickets in advance, so every one was able to have a good seat.

The picture was very interesting and worth while, and everyone who saw it enjoyed it very much.

Doris Clark Grade 5.

## Thirty Members of Eighth Grade to Graduate on Thursday, June 10.

There has been much rejoicing among the pupils of the Eighth Grade, since they learned that every one is to graduate.

This has not happened for a long time, and we congratulate the members of the class for having completed a year of successful work.

## GRADUATING CLASS

George Francis Bailey

Presentation of Prize Books for Perfect Attendance and Punctuality  
Mr. Murray C. Boyer  
Vice President, Board of Education  
Benediction

200 citizens of Burlington county to apply the full authority of his office to a complete investigation of the situation that now exists in the rum-running case as a result of the acquittal of eight alleged rum runners who were charged with conspiracy.

The appeal to the high state official is being made mainly by church and temperance people who feel keenly the disgrace that has been brought upon the county by the outcome of the trial, after they consider that the testimony was so overwhelmingly against the accused, and they are anxious to know what may be expected in the future in the form of prosecutions in this sensational case. They are wondering if further proceedings in rum-running cases will be as useless as the trial ending last week proved to be.

One Admitted Guilt

What the letters to be sent to Trenton contain has not been revealed, but it is certain that some of them are fairly strong in expressing the denunciation held by the writers for the jury that gave freedom to the eight men on trial.

These people are not willing to pass by without some formal notice the fact that defendant Charles B. Sharp admitted having carried liquor taken from the barge that was raided at Bridgeboro on October 1, and they are not willing to accept the jury's view of this particular phase of the case that even though Sharp did transport liquor he could not be convicted for conspiracy because he could not conspire alone.

Prosecutor Hillman was asked if there was anything that he proposed to do in the handling of indictments in the rum case, and whether the indictments against the eight men given freedom of conspiracy for possession and transportation of liquor would be moved through his office or further action would come through the Attorney General's office.

In the absence of any information on the plans of the Attorney General, Mr. Hillman said that when he feels that the matter has been left entirely with him the indictments will be disposed of, as he does not propose to have them idle on his hands. If the circumstances

of it as they can. Some of them would steal anything from liquor to jewelry in making raids.

"Do you mean to say that a prohibition agent who wishes to enforce the law is hampered in his efforts?" asked Mr. Mandeville, the interviewer.

Action Hampered

"Of course he is," answered Mr. Carlsake. "If you tread on the toes of men higher up or their friends, you are immediately called off. Whenever I would get particularly active in knocking off a few of the eighty or ninety beer trucks that pass over a certain road each night, I would get a telegram ordering me to some other part of the state. About half my time was spent upon the train, being from point to point for no particular reason that I could figure out, except to keep me out of the way. Upon one occasion I was taken off the road, where I had been making a great many seizures, and placed on warehouse duty for five days, every bootlegger in the state knew it, and when I happened to make an arrest while on duty the rum-runner said: 'I thought you were in the warehouse. What are you doing out here?'

"Local police usually can't do anything about prohibition violations, even if they want to," said Mr. Carlsake. "If they try to make unwanted arrests they only cut off their own heads. People higher up won't stand for enforcement."

Mr. Mandeville concluded: "The important point to note is that an agent can pile up a considerable fortune before he is caught, and then he is not prosecuted, but simply asked to resign. High officers of the prohibition unit have stated that the government policy is not to bring any proceedings against a grafting agent or to have any publicity about it, but simply to require his leaving the service. Many of the ex-agents then make use of their experience by entering the bootlegging business themselves."

Ask Katschbach's Aid

Attorney General Katschbach, through whose office the Burlington county rum scandal trial was conducted in charge of Special Prosecutor W. Holt Apper, of Trenton, is being asked by between 150 and

200 citizens of Burlington county to apply the full authority of his office to a complete investigation of the situation that now exists in the rum-running case as a result of the acquittal of eight alleged rum runners who were charged with conspiracy.

The appeal to the high state official is being made mainly by church and temperance people who feel keenly the disgrace that has been brought upon the county by the outcome of the trial, after they consider that the testimony was so overwhelmingly against the accused, and they are anxious to know what may be expected in the future in the form of prosecutions in this sensational case. They are wondering if further proceedings in rum-running cases will be as useless as the trial ending last week proved to be.

One Admitted Guilt

warrant train he will proceed with them, but if they do not, and Judge Stauffer comes to such conclusion, they will be held pending. It is expected that within the next few days something will be heard from Attorney General Katschbach.

## TAG DAY RETURNS

Amounts raised by Schools in County by Sale of Tag for Scholarship Fund

The Burlington County Council Parents and Teachers pay the expenses of two other training for teachers at Normal School every year. The money is partly raised by the sale of tags, the balance being contributed by the local associations of Parents and Teachers. The amount paid is \$250 for each school each year.

The returns from the sale of tags this year are as follows:

Mount Holly	\$25.00
Burlington City	\$25.00
Alamora	\$25.00
Morestown	\$25.00
Bordentown	\$25.00

## MORAVIAN CHURCH

Next Sunday Children's Day will be celebrated at the church. At 7:30 in the evening the Sunday School will present a special program, with "His Crowning Day" as the topic.

Starting Sunday, June 20th, the evening service will be discontinued for the summer.

The Willing Workers spent today (Thursday) at the church sewing and next Wednesday evening will hold their annual strawberry festival at the church.

A very thin and supple type of broadcloth is used to make attractive straightline coats.

## USED CARS

### Figure It Out For Yourself

One of our certified used cars cost \$2,000 new and as a new car was easily good for 50,000 miles. On that basis the man who first owned it paid 4 cents per mile. This car was driven 10,000 miles by its first owner. The second owner paid \$1,000 for the car, or 2 1/2 cents per mile for what cost the other man 4 cents per mile. You save money when you buy a good used car.

### Rein Motor Company

141-143 Bridgeboro St. 118-120 Keanuth St.  
Phone 101 Riverside, N. J.

Member Society of American Automotive Dealers

You buy it once for all time

Frigidaire is built to last—and does. It keeps foods always at even cold temperatures. Nothing to adjust. Nothing to watch. No more ice to buy—but always plenty of ice cubes from Frigidaire.

A Frigidaire unit will convert your own ice-box into an electric refrigerator. Or you may prefer one of the new metal cabinet Frigidaires. You can buy either on the G.M.A.C. monthly payment plan.

**Frigidaire**  
ELECTRIC REFRIGERATION  
There are more than 150,000 Frigidaires now in use.

## MEN ARE WANTED FOR COAST GUARD

Sub-Station opened in Riverton for Enlistment—Ages 18 to 35

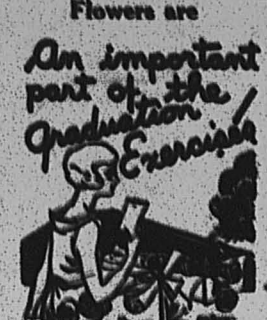

Men between the ages of 18 and 35 years are given the opportunity to enlist in the U. S. Coast Guard, five hundred being needed. Included in the Coast Guard activities are the enforcement of the custom laws, protection of life and property at sea, ice patrol in the frozen North, protection of the fur bearing animals, cruising along the West Coast from Alaska to the Panama Canal Zone and along the Atlantic Coast South to Key West.

There is much in the service that appeals to the young man with a thirst to acquire knowledge through training and experience, and those who desire to make it their life work will be given every encouragement to advance in the service with increased pay. Practical to all ratings are now open. The training which a young man receives in the service is of inestimable value from either physical, mental and health view points. The five hundred men are now needed to man the five destroyers, Wilkes, Davis, Tucker, Shaw and Wainwright, now being reconditioned at the Philadelphia Navy Yard.

Gunner C. N. Hubbard, in charge of Philadelphia Coast Guard recruiting, has opened a sub-station at the Riverton post office, in charge of Chief Machinist's Mate Lloyd J. Hardison, who will impart information to those who desire to enter the service.

## JUSTICE HUYETT DEAD

Canadian's Husband, Master, Passes Away Suddenly at His Home

Justice of the Peace Joseph H. Huyett died of heart disease Monday night at his home, 117 Cooper street, Camden. He was 52 years old, and had served in the minor judiciary 15 years, longer than any other justice of the peace in Camden. His office was at 555 Federal street.

Huyett had been working over papers in a room in his home that he had turned into an office. He complained to his wife that he was not feeling well and lay down on a couch to rest. Shortly afterward, Mrs. Huyett was unable to arouse her husband. She called a physician, who pronounced him dead from heart disease.

He was born at Sinking Springs.

John M. Green, 54 years old, 308 Horner avenue, died Sunday following a short illness. The deceased had resided in Palmyra for a number of years and is survived by his wife and two sons.

Funeral services were conducted Wednesday with High Mass at the Church of the Sacred Heart, Riverton.

Interment was made in St. Peter's Cemetery, Riverton. Frank A. Sawyer.

## MANY PROJECTS DISCUSSED BY RIVERTON C. of C.

### First Meeting For Two Months Brings Forth Many Suggestions

### FLAGS AT CURBS ON BROAD AND MAIN STS.

The meeting of the Riverton Chamber of Commerce held last Friday night was the first since March 30, and the business that had accumulated in the interim kept the members busily engaged until nearly eleven o'clock.

The subjects considered were the installation of flag sockets along the curbs on Broad street and Main street, the establishment of a credential department, a recommendation that Council pass an ordinance requiring peddlers and other out-of-town dealers to pay a tax, a letter of welcome sent to newcomers in the town, and a plan for sending to each member of the Chamber the name and address of such newcomers as soon as they arrive, membership in the National Chamber of Commerce, and finally, a picnic to be arranged for the members, their families and friends to be held sometime in July at the camping ground of Joseph T. Evans, a member of his friends near Ewanville.

**Flag Committee**  
The committee appointed by President Albertson to arrange for the installation of flag sockets was composed of L. G. Rogers, John Holvick, A. H. Weber and George D. Steele. It was proposed to have the flags placed 50 or 100 feet apart on Main street and Broad street, after the manner it is done in Palmyra, Medford, Mount Holly and many other places. In Palmyra the project was handled by the American Legion and in Medford by the Chamber of Commerce. In Mount Holly it was handled by the Business Men's Association. The committee was given power to act. It will start to work at once and hopes to have the installation completed by the fourth of July.

The credential department plan was unanimously adopted and will be in the hands of the president and secretary. The idea is to issue cards to members of the department, and to the peddlers and other out-of-town dealers. All advertising or charitable propositions must be passed on by the Riverton Chamber of Commerce before being considered by this firm.

Strangers from out of town soliciting funds for charitable organizations, selling machines, or canvassing the town of similar purposes will not be considered by the members of the chamber unless they have the proper credentials. It will be the duty of the president and secretary to investigate the credentials presented by such canvassers, and, if found to be satisfactory, give the applicant a letter stating that such is the case.

The object in establishing this department is to protect the members of the chamber against the impostors who often "work" the town, and the same benefit will be automatically extended to such residents of the borough as may care to ask the solicitors if they have secured their credentials.

**Cooperate with Police**  
This plan in no way interferes with the instructions recently issued by the police department to the officers to investigate every solicitor who appears in town, and to refuse them permission to make their canvases until they have been satisfied that they are reliable. The credentials issued by the chamber does not confer any right to make a canvass until the police permit has been secured. After the police permit has been secured, however, members of the chamber may still refuse to give the canvasser a hearing unless he has secured the Chamber of Commerce credentials. This is the same plan that is being worked by most Chambers of Commerce and is intended only to bar out impostors.

A copy was read of a letter that is being sent to every newcomer as soon as he arrives in town, giving a word of welcome and placing the services of the Chamber of Commerce at his command. The plan was unanimously approved and a resolution was adopted that enclosed with the letter should be a list of the members of the chamber and the business in which they are engaged. The plan also included the immediate notification of every member of the arrival of the newcomer and his name and address.

**John National Body**  
A motion by George D. Steele, seconded by Samuel MacMullin, that the Riverton Chamber join the National Chamber of Commerce was unanimously adopted.

Samuel MacMullin's suggestion that a letter of thanks be sent to the Riverton Board of Education for the free use of the auditorium to show the motion picture, "The Romance of Riverton," was unanimously adopted.

**Treasurer J. M. Coddington** reported on the financial end of the picture and showed a nice cash balance after all expenses connected with its production had been paid.

The story of the filming and showing of the picture was already familiar to all the members and no detailed report was made of that phase of the enterprise.

It was reported that the first prize for selling tickets for "The Romance of Riverton" was awarded to Robert and Richard Biddle, second to William Quigley and third to Charles Woolston.

**Money Prizes**  
The easy prizes were distributed as follows: First, Mary Barr, Cinnaminson Public School; second, Elizabeth Smith, Riverton Public School; third, Joseph Stow, Cinnaminson Public School.

A resolution was passed to have the sign of the chamber on the lot at the corner of Main and

### NEW PASTOR

The Rev. W. M. BERNHARD  
New pastor of the First Lutheran Church of Palmyra and Riverton.

## Palmyra Bridge Plans Advance

### Congressman Connolly To Introduce Necessary Measures at Washington

The proposed bridge between Palmyra and Tacney took another step forward when the Northeast Chamber of Commerce, of Philadelphia, requested Congressman James J. Connolly, of Philadelphia, to introduce a bill in Congress calling for the necessary legislation.

The capital to build the proposed structure has been obtained and a rough draft of the plans has already been drawn.

The plan has received the support of the business men here and Senator Emmor Roberts, of Moorestown, and Senator Fletcher W. Stitts, of Philadelphia, will bring the matter before the State Senate to obtain the necessary legislative permission.

The task of solidifying support for the project was undertaken by the Northeast Chamber upon realization that such a structure would provide the final means of completely opening the northeastern part of Philadelphia as a great residential and manufacturing section. In view of the fact that Philadelphia City Council has authorized expenditure of literally millions of dollars out of city loans for improvements in the northeast, the building of a bridge to link the section with communities across the river is considered a logical development.

According to figures presented to William D. Dimon, president of the Chamber, by Charles A. Wright, president of the Tacney-Palmyra Bridge Company, the proposed bridge would cost something less than \$500,000. It is planned to build it with private capital, which according to Mr. Wright is immediately available.

It is planned to construct the bridge from the foot of Levick street, Tacney, to the foot of the Palmyra shore known as Light-Hill Point. This is the narrowest point on the Delaware between Port Richmond and Burlington, a width of 2000 feet. The river at Race street where Camden bridge is erected, is 4400 feet.

**MRS. WILLIAM O. WOLCOTT**  
Mrs. Alice D. Wolcott, widow of William D. Wolcott, passed away on June 11th, after an illness of eight months, at her home, 415 Linden avenue, Riverton.

Mrs. Wolcott had lived in Palmyra and Riverton nearly thirty-five years. She was a member of the Baptist Church, and although ill health extending over a period of eleven years had kept her from participating in affairs of the church and community, she always maintained her interest in their progress and welfare.

She leaves two sons, Everett O. Wolcott and Ralph A. Wolcott, both of Riverton.

Services were held at her late residence on Tuesday afternoon at two o'clock, conducted by Rev. J. William Lee, and interment was made in Harleigh Cemetery.

Main street repainted, and that the chamber assume responsibility for keeping the corner in a neat and attractive condition.

The subject of a peddlers' tax or license to be imposed on all who come into Riverton from outside to do business, was brought up and a suggestion was made that the Borough Council be asked to pass such an ordinance. Councilman Lynch stated that the matter had already been taken up at the meeting of council the night before and the ordinance committee directed to prepare an ordinance.

The last business considered was a picnic to be held near Ewanville on the camping site maintained by Joseph T. Evans and a number of friends, which Mr. Evans generously offered to the chamber for the occasion. The arrangements were placed in the hands of the board of directors. The members were invited to bring their families and friends and make it a regular outing. There is a splendid bathing beach, with houses, tennis courts, quiet courts and place to play baseball. Ample notice will be given as to the date and other details, and all who would like to join in the outing are invited.

## AMBULANCE BUSY

### Two Persons Rushed to Hospital Sunday

The Palmyra Ambulance was used to rush two injured persons to hospital Sunday.

In the afternoon Mrs. A. Buckholz, 123 Garfield Avenue, fell down a flight of stairs and suffered severe bruises and a deep gash upon the head.

Late Sunday evening a call was received from County Detective Ellis Parker to rush A. Burns, of Riverton, who had been shot earlier in the evening, to the Cooper Hospital, Camden.

Both of these calls were made in record time.

## TO FENCE SCHOOL

### Parry Avenue Grounds Will Be Enclosed

The Palmyra school board plans to enclose the grounds of the Parry Avenue school with a high fence during the summer.

The danger to children playing about the school yard along such a busy street as Cinnaminson Avenue has steadily increased with the growth of auto traffic through Palmyra and the school board feels that the only safe thing to do is to enclose the grounds within the school grounds during the recess periods and before school begins.

## Heisler and Haines Victor

### George W. Rogers and Edward H. Flagg, Jr., Lose in Primary Election Contest

The primary election this year was very quiet, there being no county contest except for the offices of sheriff and freeholder, in which Edward H. Flagg, Jr., and A. Single Haines contested for the offices of sheriff and William H. Heisler, Jr., and George W. Rogers battled for the office of freeholder.

Heisler and Haines were easy winners. According to reports from the clerk's office Wednesday morning, Heisler and Haines were leading Rogers and Flagg by a ratio of 4 to 1.

In Riverton there was no contest for any of the offices.

The number of voters registered and the votes polled were as follows:

	Reg.	Voted	R	D
Riverton—				
First District	395	141	128	13
Second Dist.	700	217	210	7
Third Dist.	500	219	217	2

Palmyra—				
First Dist.	788	224	219	7
Second Dist.	558	133	114	19
Third Dist.	600	193	181	12
Fourth Dist.	674	282	270	12

Both the successful candidates were backed by the Burlington County Republican organization led by Charles H. Stout, of Florence, while Rogers and Flagg were running independently.

In the Palmyra local election, a "dark horse" candidate for council, Milton V. Beckett, ran third, two present councilmen, J. Warren Bush and Joseph A. Davis, being renominated by a large majority.

James H. Hartley, Democratic candidate for renomination as Palmyra Borough Assessor received a large Republican vote also, giving him the nomination on both tickets.

Mr. Beckett was selected county committeeman in the first district.

## RIVERTON WINS BY 3-2 SCORE

### New Baseball Team Defeats Philly Visitors in Tight Game

### LARGER CROWD WOULD HELP "PEP" PLAYERS

The All-Philadelphia Professionals were defeated by "Doc" Hinkle and his eight loyal supporters, last Saturday afternoon.

"Doc" pitched shut-out ball until the last frame, when a pass to Burns, a two batter by McGeehan, and a single by Mills netted the Philadelphia two runs. Even the visitors did score two in the last inning, the few spectators enjoyed seeing "Doc" fan eleven bad-guy runners from the City of Brotherly Love. Gallagher rained only three of Riverton's "wagon-tongue" swings.

"Daddy" Hyton, first up for the home team with one out and five men on base, pitched Gallagher and had five assists.

The game was started in a light rain which soon ceased, and from then on to the end the atmosphere was clear.

One hour and forty-five minutes was all that the required to play this fast and interesting game.

**Play by Play**  
Philadelphia's first up, McGeehan, fanned. Manion was thrown out at first by Hinkle. Burns also took three strikes.

"Daddy" Hyton, first up for Riverton, singled to right. Hopkins sacrificed Hyton to second, being thrown out at first by G. Gallagher. Andrews fled to McGeehan. Burns threw out Peterson at first.

**Second Inning**  
McGeehan advanced, first walked and Lavery was safe on Trueman's error. McGeehan tried to steal home on the muck but Trueman threw to Louisiana who with Morgan ran down McGeehan. Morgan getting the put out. E. Gallagher and Conne caught Hinkle's big swing and then took the bases.

Louisiana singled. Bennett walked. On Morgan's rap to G. Gallagher, Louisiana was forced out at third. Trueman hit safely to deep short but no one was able to score. Hinkle fanned. Hyton was out at first. G. Gallagher to McGeehan.

**Third Inning**  
Hinkle tossed out G. Gallagher at first. McGeehan fled to Trueman. Manion hit to Hyton who tossed to Trueman for a third strike. Burns threw Hopkins out at first. Andrews singled to left. Peterson (Continued on Page 5)

## Riverton Goes Over the Top

### Raises Nearly Double Its Quota in New County Hospital Drive

At a meeting of the Burlington County Hospital campaign committee in Mount Holly Monday night it was reported that Riverton and Cinnaminson had gone well over their quota in their contribution to this worthy cause.

The quota was \$25,000, and it is expected that by the time the returns are all in the sum will have reached nearly \$40,000, or double the amount asked for.

A greater Burlington County Hospital than has heretofore been even a dream is now proposed by the Woman's Board of Managers and the Men's Board of Council as a result of the success of the campaign conducted during the two weeks beginning June 1st.

The aim of the campaign, that closed this week was \$50,000, and the "first final" report at a meeting of workers in Mount Holly on Wednesday night showed that the drive had gone better than \$375,000, with prospects of considerably more coming through reports yet to be made.

The two directing boards of the present hospital in Mount Holly are now thoroughly convinced that the people of the county are ready and willing to erect and support an institution that will come somewhere near meeting the needs of the sick and afflicted, they have been shown that their faith in the people was not misplaced when they laid the foundation for the campaign, and they are sure that there is more enthusiasm over the new hospital idea now than at any other time since it was proposed some months ago and given its start at a meeting held at the home of Mrs. Esther Strawbridge Brophy in Moorestown.

The executive committee of the Board of Council, which has been the advisory body in the campaign, feels that the money-raising plan should be carried through until no less than \$450,000 has been raised so the county can be given a better hospital than was originally planned. It will be the aim of the Board of Council to reach this goal under the belief that the people will meet the situation. No expense will be attached to a continuance of the campaign, but the opportunity will be given to people not yet contributing to do their part. It appears that during the short campaign some of the workers having large territory to cover did not reach

**TRASH MORE KINDNESS**  
A number of states have enacted laws requiring that a small portion of time be devoted each week in public schools to the teaching of kindness to animals. These laws are not generally observed. In the higher institutions of learning the subject is never mentioned, and cruel practices in sports and hunting are tolerated. As a prelude to abolishing war, we need more kindness taught by precept and example.

**NOTES BY OWNERS OF DOGS**  
The provisions of the Provisional act passed two weeks ago concerning dogs in Riverton, have been retained two weeks by order of the Mayor.

## WILL NOW GET TAGS

### Police Department Instructed to Take Action Against Park- ing Without Lights

Director of Safety Williams has been trying to work out the problem of violations of the Motor Vehicle Law with as little unpleasantness as possible. The Director and his police officers have given many warnings, most of which have been taken in good part and the requests complied with. There are a few, however, who have taken this courtesy as a sign of weakness and have continued to disregard the requests. This is particularly so in the matter of parking without lights. There are a few who have been repeatedly warned and still continue this unlawful and dangerous practice.

Director Williams says that patience has come to be a virtue, and that hereafter owners of cars found parked without lights will be given a ticket which will enable them the opportunity to "tell it to the judge."

## FREEHOLDERS WILL HELP RIVERTON TO GET ACTION

### Borough Clerk Asks County Aid To Get Trolley Tracks Raised and Repaired

### LETTER REFERRED TO COUNTY SOLICITOR

It was last October that a Grand Jury asked the Board of Freeholders of Burlington County to give the Public Service sixty days notice to put its tracks in condition between Burlington and West Palmyra. The notice was given and this was followed by an agreement signed by the Public Service to raise and otherwise put in acceptable condition its rights of way between these two points, whenever and wherever the county engineer should direct.

Beverly seems to be about the only place that has succeeded in having the improvements made. Riverton has had the matter up with the company several times, but nothing has come of it. At the May meeting of the Riverton Borough Council the clerk was authorized to address a communication to the Board of Freeholders, asking the notice and the agreement and asking for immediate action. This letter was read at the meeting of the board last Friday and referred to the county solicitor.

**Road Bills Received**  
Walter S. French, of Moorestown, was awarded the contract for building the improvement road through Stevens, near Burlington, from the State Highway to the Florence Township line on the River Road. Burlington Township must pay \$35,000 as its share of the cost. The French bid was \$71,411.

There were other bidders for the work, the Union Paving Company at \$74,799.95, and the Barrett Paving Company at \$80,558.30. The township is expected to take action at an early date and it is likely that the construction work soon will begin.

Arrangements were made at the meeting Friday for a conference between the county board and members of Burlington Common Council relative to the improvement of Washington avenue in the city of Burlington. This section of road was turned over to the county when the new State Highway Commission was asked to share in the improvement but refused. The county feels that it cannot do the work alone and is seeking a conference with Common Council.

**Want Another Aid**  
Another section of road wanted by the county detectives' office. One it is declared, cannot be in both ends of the county at the same time, and should a demand come from opposite directions simultaneously the department would be up against it. This was the tenor of a letter sent to the Board of Freeholders by Prosecutor George M. Hillman.

Mr. Hillman said that if the county balked in buying the machine might be compelled to hire cars at various times, which, he feared, would be more costly than the purchase of one. The letter was referred to the public buildings department with power to act.

Members of the board were a little backward when an invitation was made to contribute toward the opening of the Victory Bridge over the Raritan River on Friday, June 25. The bridge has just been completed by the State Highway Commission and dedicated to the members of the New Jersey heroes who served in the World War.

**\$500 a Page**  
Those who are in charge of the cost of the dedication jubilee are getting out a souvenir book at three hundred dollars a page. Each county is supposed to buy space and have the names of its heroes inscribed in the book. The invitation was received and filed.

A communication was received from the County Board of Taxation.

**DOG ROUND-UP**  
Palmyra dog catcher doing good work.

Councilman Wilmer Randel announces that Palmyra's dog catcher has been busy for the past ten days and a large number of stray canines have been corralled.

The dogs are impounded for three days in the pen on the old Clark farm and then, if no one has claimed them, they are put in the gas box and painlessly executed.

The official dog catcher, Mr. Randel said, is a colored man, but he did not wish to announce his name because he is a good church member and another colored man in another town who became a dog catcher some time back was ousted from his church because the congregation did not believe a good dog catcher could be a good Christian.

## PEDDLERS MAY BE TAXED TO DO BUSINESS IN RIVERTON

## Letters Awarded M. H. S. Athletes

### Boys and Girls Receive Coveted Insignias for Prowess on Track and Field

In assembly at the closing of school Thursday of last week, Elwood Corning, Physical Training Director and Coach, for the boys awarded each regular player on the various boys teams a letter.

The football letter men were: D. Faxon, captain; C. Hartshorne, Manager; A. Faxon, G. Page, J. Morris, B. Wilkins, C. Haines, E. Thompson, W. Thompson, L. Ritchie, G. Julian, O. Bowen, A. Matchett, J. Grube, J. Baylor, F. Coleman.

The football team split even in their victories and defeats, winning five games and losing five.

The basketball letter men were: L. Ritchie and R. Boyer, alternating captains; E. Thompson, Manager; C. Haines, C. Hartshorne, C. Julian, W. Thompson, T. Hall, A. Matchett.

The basketball team had a good season, even better than last year's winning eleven and losing six games.

The baseball letter men were: L. Ritchie, captain; M. Foy, Manager; C. Haines, A. Matchett, R. Boyer, E. Earl, C. Julian, J. Hohlwald, J. Bartello, F. Gindfari, B. Wallace, W. Rommell.

The baseball season was also very good. The boys won nine and lost four games.

The track team letter men were: B. Wallace, captain; C. Haines, W. Oldershaw, E. Thompson, C. Julian, J. Grube, J. Chinn.

The relay team was placed third in the Penna Relays, third in the 1926 Relays, and second in the Burlington County meet. The team won the mile relay at Collingswood in three minutes and forty-four seconds, which averages per man a quarter of a mile in fifty-six seconds.

Mrs. Smith, Physical Training Director and Coach for the girls, made her awards at this time.

The girls on the hockey team who received letters were: E. Lippincott, captain; S. Ellis, Manager; J. Strang, M. Gardner, J. Rogers, C. Elston, K. Prender, M. Dolly, E. Ross, C. Fitzgerald, E. Merian, V. Henry, L. Riegart, I. Gould.

The hockey team lost six games out of ten.

The girls on the basketball team who received letters were: M. Wilkins, captain; B. Collins, Manager; S. Ellis, J. Strang, C. Elston, E. Moore, C. Fitzgerald, M. Gardner, C. Robinson.

The basketball team won four games out of ten.

The girls on the track team receiving letters were: G. Elston, C. Robinson, E. Ross, L. Riegart, A. Hill, I. Tull.

The cheer leaders, Margaret Wilkins and William Sweeney, received a letter for their work along this line.

This year a dull gold medal was awarded to any pupil who received four letters in one year. Charles Haines and Charles Julian were the only two on that list. It meant that these two boys worked hard. In order to do this they had to go out for baseball and track practice at the same time.

## FAMOUS ARTIST INSTRUCTS

William de Leftwich Dodge, famous mural artist, in his studio at the Sesqui-Centennial International Exposition grounds in Philadelphia, where the 150th anniversary of signing the Declaration of Independence will be celebrated from June, to December, of this year, giving instructions to a group of young artists who are creating the "Rainbow City." Mr. Dodge is the color expert for the exposition, and every bit of color work done must be approved by him.

### CHORAL REHEARSING

The Moorestown Choral, an organization of seventy-five members under the direction of Mrs. John C. Dudley, has entered the South Jersey Community Chorus which includes all the choral organizations of this kind south of Trenton.

At present the Moorestown Choral is rehearsing one evening a week for the ten twilight Sunday evening concerts, which will be given outside the Convention Hall in Camden.

On July 4, the Chorus will render selections at the opening of the bridge. Thence they will be interested in the South Jersey Exposition.

Powell Fithen, Director of Music in the Camden City Schools, is doing much along the same line.

### CRUELTY OF FUR INDUSTRY

Edward Brock, President of the National Anti-Steel-Trap League, Washington, D. C., is authority for the statement that annually 100,000,000 skins must be taken with traps, from a fur-bearing animals. Many of these animals are held in the traps from one to two weeks before being killed or slowly starved to death. Mrs. Flake, the great emotional actress, is heading a movement to have the women of Our Country refuse to buy furs from animals caught in steel traps.

Twin canaries were hatched from one egg recently at a Texas bird farm.

### COURT CASES

At Thursday's session of Court it was announced that the three homicide cases would be tried this week, with Judge Frank T. Lloyd on the bench, and the first case, that of Pasquale Rosemond, of Riverside, charged with the murder of John Gilbert, following an altercation in Rosemond's pool room, was moved by the state on Monday morning.

Among the cases disposed of by Judge Slaughter were:

Emma Raymond, a twelve-year-old Palmyra girl, charged with incorrigibility, went to the State Home for Girls at Trenton, and her father, who showed very little feeling for his daughter, will have to pay her board, amounting to \$6 a week.

William House, of Moorestown, who has been in the county jail since March 11 for failure to provide for his wife and baby, was placed on probation for two years, after he had arranged to pay the board of his wife and children by a former marriage.

Thomas Gallagher, charged with incorrigibility by the Board of Education of Mt. Laurel township, was ordered released, due to lack of prosecution, after representatives of the Board had agreed with the Court that "advice from the Court" would be satisfactory to them.

A portable dark room for tuberculosis field clinics has been devised so that it is now possible to make X-ray pictures of patients more satisfactorily.

## Federal Action In Rum Case Sought

### U. S. District Attorney Receives Many Petitions Urging New Move

As the result of a concerted movement among a number of law abiding citizens of Burlington county, United States District Attorney Winne, of Trenton, has been the recipient of numerous petitions all praying that he have the evidence in the Burlington county conspiracy cases presented to the Federal Grand Jury at the earliest possible moment.

The petitions were circulated in practically every church in the county and were quite liberally signed. Among other things the petitions declared "that justice had been thwarted" by the verdict which freed the defendants.

Judge Slaughter is receiving hundreds of letters every day compelling him on the action he took in discharging the jury for the balance of the term, while most of the newspapers in the state are denouncing Burlington county for permitting the men charged with conspiracy to go free.

It is expected that the Grand Jury will be brought back on June 22

to investigate the recent Burlington murder, and it is anticipated that before that date a conference will be held by Attorney General Katzenbach, Judge Frank T. Lloyd, William A. Slaughter and Special Prosecutor W. Holt Apper, and a plan mapped out for further action in the case which has brought such unsavory notoriety to the county.

### SCHOOL FUNDS

Burlington County Gets \$200,000 From State

At a meeting of the State Board of Education June 5, the Board organized by electing Robert Lynn Cox, of Montclair, as president, and Colonel D. Stuart Craven, vice president.

The ten per cent. reserve fund, amounting to \$1,127,924 was distributed among the various counties, Burlington county receiving the largest apportionment, its share amounting to \$200,000. The reserve was distributed according to the needs of the counties.

The Board fixed \$3,000 as the maximum salary for helping teachers.

Although known as a Corn Belt state, the last United States census showed Illinois to have produced in one year 566,000 pounds of tobacco.

## BURLINGTON ARMORY

### Contract is Awarded and Building Will Soon Start

Contracts for the construction of the Burlington Armory have been awarded by the Department of Institutions and Agencies, of which William J. Ellis is the head, and it is expected that the operation will be started in a few days.

The contract for general construction went to the Karno-Smith Company, of Trenton, who bid \$30,650. The plumbing contract was given to Leonard J. Hunt, of Burlington, at \$2,174.94.

The Mechanical Equipment Company, of Philadelphia, was given the contract for heating at \$4,194, and the electrical contract went to B. F. Goldy & Son, Burlington, at \$550.

The Armory will be erected on South High street, just south of Belmont street, on the site of the present little grove of trees. It will have a width of one hundred feet on High street and will run to a depth of sixty feet toward Lawrence street. The building will be set back from the sidewalk to conform to the Wilbur Watts High School, the Robert Stacy Junior High School and the Memorial Hall.

### MUSIC ON TABLE KNIVES

In the sixteenth century it was customary to put on one side of the blades of table knives the musical notes of the benediction or grace before meat, and on the other side the grace after meat.

Your friends from everywhere will be at the

## COMMENCEMENT

Graduating from school is rightly called commencement because it is the beginning of a bigger and broader life. At such a time, what could be more appropriate than the commencement of a bank account.

It would be found a friend in need on many occasions.

To those who graduate we urge the advisability of saving.

To those who have relatives or friends graduating we suggest the opening of an account as a suitable and timely present.

## The Palmyra National Bank

Palmyra, N. J.

## When in Need, Or in Doubt, They Come Here

Those who buy cars here never have any uncertainty about where to go for advice, service or repairs. For they know that not only are we responsible for their satisfaction in ownership, but that we have equipped ourselves to efficiently discharge that responsibility.

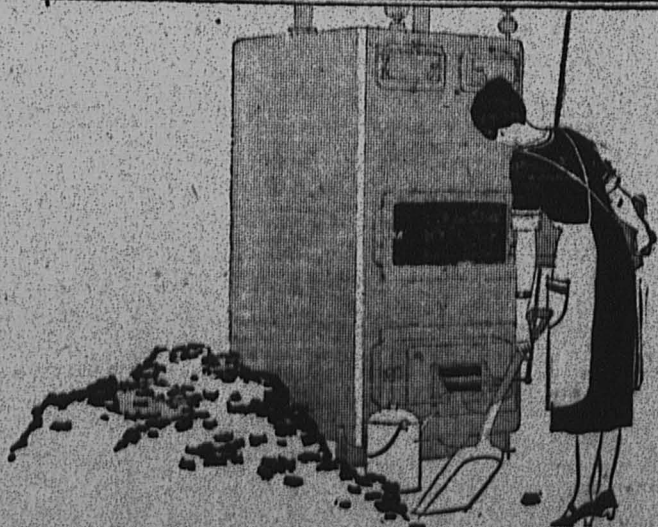

That's a good point to think about when you're shopping for your car.

In every home  
some one hates the furnace

SOMEONE has the interminable job of the furnace! Someone gets to hate the very sight of it, with its constant demand for coal, for shaking down, for regulating. The furnace is hard work—dirty work.

And now it is needless work. For at last the oil burner has been perfected.

The Quiet May Automatic Oil Burner is the simplest and most effective oil burner ever made. So declare competent authorities. So say May owners who have compared it with other burners.

The May is listed as Standard by the Underwriters' Laboratories, Inc., of Chicago, and approved by the Board of Standards and Appeals of New York, and it conforms to all local fire department regulations.

The May is noiseless. In autumn you turn it on and set the thermostat for the temperature you wish for the winter. As the weather gets colder, the May generates more heat. As the weather gets warmer, it generates less heat. The temperature of your house is always as you wish it.

The Quiet May can easily be installed in your present heating plant. It is not costly.

Even if you have ordered some of your coal, investigate the May. Arrangements can probably be made to relieve you of your coal.

Please send me complete details of the May System of Oil Heating. I understand that I will be under no obligation.

## "Tramp" Cows Cost Farmers More Than Billion a Year

Huge Drain on Agriculture Can Be Offset By Better Methods, Says Institute Founder

By L. J. BROSEMER

Two groups of farms represent an average business investment of \$23,000 per farm. One group showed a yearly labor income of \$1,423. The other group cleared only \$95 labor income for twelve months' hard work.

What all of us with money invested in land, animals and crops want in goodly measure, year after year, is "labor income," because labor income represents the amount of earnings left for one year's work after all expenses and interest at 5% on our investment have been taken into account. If we can't make money, why farm at all?

Quite a big difference between \$1,423 and \$95 as the result of a whole year's work! At least that is how it struck me, listening to James E. Larrowe outline the three factors which are keeping down profits in America's greatest industry. These are the waste, not the cost, of feed, the low production per animal, and the waste of time because of poor management.

Or, looking at the same picture from

GROUP 1 FARMS LABOR INCOME	GROUP 2 FARMS LABOR INCOME
\$1423	\$95
AVERAGE	AVERAGE
\$25,654 - INVESTMENT - \$23,550	\$66 - CROP ACRES PER FARM - 100
64 - NUMBER COWS PER FARM - 56	\$96 - VALUE COWS PER HEAD - \$110

Good Management Made All the Difference in the Income of These Two Groups of Farmers.

A slightly different angle, it is costing our farmers \$12,000,000,000 a year in feed, labor and overhead expense to keep the 12,000,000 tramp cows that produce less than the U. S. average milk production per cow. And none of these tremendous losses will be stopped until American farms are put on a business basis.

That is the opinion of James E. Larrowe, a successful business man whose clearly defined ideas on farming are the result of facts, proven on his noted Larro Research Farm and coupled with government and state field data covering thousands of eastern and southern farms.

We talked together in his office, visited his research farms, questioned the nutrition experts, former college professors, fact and detail hunters in his recently organized Larrowe Institute of Animal Economics, and I was amazed to learn how closely interwoven the businesses of milk, egg and meat production were with the general business structure of the nation, and the large part they play in our national economic life.

I wanted to get into the data reports and charts used by the Institute workers, so I started at the beginning with a simple question. "Suppose," I asked, "a farmer is making a living milking cows, producing a few eggs, feeding a few hogs and growing crops to feed his stock. He tests his cows ought to make more profit. What can he do that will increase his profits—without increasing his costs, not next year?"

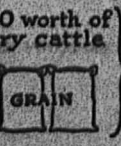

The answer I received certainly hit the nail on the head.

Answer: "You are depending on cows for a living. Milk at low cost is what you want. Very well. It takes good cows, good hay and a good grain ration to make money. You can't buy better cows, unless you have the money. You can't breed a new generation of better cows from the ones you have. That takes years. But you can, in four cases out of five, improve or change your grain ration, feed each

### GROUP 2 FARMS

Intelligent Feeding Netted Farmers of Group No. 1 a Profit Seven Times Greater Than Group No. 2.

cow as an individual according to her production and start making more money within a week," all of which was merely another way of stressing greater efficiency.

We had not gone very far into the subject of animal efficiency before I found myself facing facts obtained from official sources presented in two neatly arranged tables for single comparisons. The new data in these

### THE IDEAL STATE

Education and good morals will be found to be almost the whole that goes to make a good man, and the same things will make a good statesman and a good king. The truest definition of a complete citizen that can be given is probably this: That he shares in the judicial and executive part of the government. A state, consisting of a multitude of human beings, ought to be brought to unity and community by education.

## BIBLE SCHOOL

Moorestown Community Vacation Bible School Will Be Held July 6-20

The Moorestown Community Daily Vacation Bible School will hold its sessions daily, beginning July 6 until July 20, from 9 a. m. to 11:45 a. m. in the First Baptist School rooms under the direction of the Rev. W. J. Casworth.

The courses will be in instruction and practice of worship; in Bible story and drama; memorization of Scripture and hymns; handicraft and recreational activities. Associated with the Rev. Mr. Casworth will be Miss Louise Lippincott, Miss Elizabeth DeCoo, Mrs. Marian Owen, Mrs. Prichard and other volunteer workers. The purpose of Moorestown churches will cooperate and take part in the program.

Volunteer helpers are solicited. Schedules can be arranged to suit their convenience.

An institute for workers in recreation and handicraft will be held by Ian Forbes, recreational director at the Community House, June 17, 18 and 19. All who would like to assist along this line can get some valuable help by attending this institute.

A poster contest is arranged and a prize of five dollars will be awarded for the best. All posters are to be sent for exhibition at Community House June 26. Posters will then become the property of committee for advertising purposes.

## Silvertip Showed He Could Cover Ground

Any one who has seen a bear walk knows how slowly he seems to move, and his run is a shuffling, lumbering gait that is comical to witness, unless he happens to be running after you. But a bear moves pretty fast, notwithstanding appearances, and the grizzly, which looks to be clumsy than the brown or the black bear, can cover ground faster than the average horse.

A western sheep rancher was riding in the foothills when he saw a big, awkward silvertip. He had a rifle, but was not certain he could kill the bear at one shot and knew that he would get into trouble if he missed. So he gave a regular cowboy yell, and the bear started away in alarm.

The man gave chase, at the same time keeping up the piercing yell, and he soon noticed that the grizzly was getting farther away. He continued the chase for nearly two miles, until the bear disappeared in the mountains, and he had not gained a foot.

In going back over the trail he noticed places where the bear had made jumps of 15 or 20 feet, and the ground had been cut up by his claws, so that it looked as if a narrow had been run over it.

## Alumni Banquet Highly Enjoyed

Three Hundred Graduates of Moorestown High Hold Annual Reunion

Saturday night nearly three hundred Moorestown High School Alumni members and the members of the Class of 1926, flocked to the Community House for the annual banquet.

The reception committee politely received the guests and directed them to rooms where they could leave their wraps. The members of the Class of 1926 were ushered to the large club room on the left where they remained until dinner was served. This was probably the last time every member of '26 would be together in a group.

At 6:45 the crowd assembled in the gymnasium, which was effectively decorated as the dining room.

Miss Alta B. Perkins played a beautiful selection on the organ. Following this the crowd joined in the singing of popular songs, led by Ian Forbes, Mrs. Jonathan Powell accompanied at the piano.

Songs were sung during dinner by the various classes, starting with the Class of '75, which had two members present. The Class of '26 sang its class song and the male quartette, David Faxon, Gordon Page, Russell Boyer and Henry Lippincott, sang the second

time for the encore.

Jonathan Powell, who was in charge of the program did the introducing in a clever manner.

Russell Boyer, president of the class of '26, gave a short speech of acceptance on the part of his classmates, as new members of the Alumni. He presented the Alumni with a check for \$100.

The attention of the group was then turned to the officers of the Association. John Owen, who was president of the association last year, gave a short retiring talk and Mr. Powell then introduced the new president, Wallace Shea, and the new vice-president, Elmer Ruff. Both are members of the Class of 1923.

Miss Blanche Haines was introduced as the new secretary. Miss Helen Loftus was the secretary last year.

Mrs. Gilbert Aiken, a popular member of the Association and last year's treasurer gave a report of the financial standing of the Alumni. The Association now has approximately \$3800 to its credit. Its ambition is to accumulate a fund of \$4000, as the interest alone then would pay for an annual college scholarship.

The speaker of the evening was George C. Baker, supervising principal of Moorestown schools, who spoke principally of the Class of '26 and the achievements of the school year.

Following Mr. Baker's speech, the Class of '21 presented the Association with a check for \$100.

The Graduating Class presented

## FERRY TRAFFIC

Another Record Is Hung up by Weekend Rush

The largest number of cars during the present year was handled Sunday by the boats of the Palmyra-Tacony Ferry Company. Captain Sidney Albertson reports.

Thirty-two hundred and sixteen cars passed on the ferry boats while the buses carried 7421 passengers during the day.

On Saturday 2100 cars were carried.

This breaks all records and it is the belief of Captain Albertson that even this will be shattered before the summer ends.

Chief of Police C. Morris Beck said that despite the heavy traffic no difficulties were experienced by the officers handling the streams of cars.

With the new traffic rule in order and with the widened corner it has been possible to reduce the force of officers to one man instead of the three that were necessary.

Mr. and Mrs. Antonio Marino and friend, of Philadelphia, were visitors in Asbury on Sunday.

## HOW THE KINGDOM OF ISRAEL WAS WRECKED

The California Tax Digest, published monthly under the direction of Dr. Milbank Johnson, in the interest of taxpayers, in its May issue, contains a remarkable article by James Gregory, a Tacoma, Washington, manufacturer. The article is entitled "How the Kingdom of Israel Was Wrecked." As a preface, Dr. Johnson says:

History reveals the downfall of all governments in the past has been preceded by an era of excessive taxation; people have toiled long ages under insult, oppression and the burden of special privilege; but whenever taxation has become so extortionate as to take from them the natural fruits of their own labor, they have eventually risen and spoken their minds in no uncertain terms.

In succeeding paragraphs, Mr. Gregory says:

"Solomon was crowned King of Israel in 1015 B. C. His reign was characterized by exceeding brilliancy and great building enterprises. He laid upon the people a very heavy burden of taxation—tribute it was called in those days.

"In 975 B. C., his son, Rehoboam, ascended the throne. The continuance by Rehoboam of excessive and even increased taxation wrecked the government."

Mr. Gregory's articles quote the bible, showing the activities carried on by Solomon and the immense amount of the people's tax money which he spent lavishly in gratifying his own desires. "And Solomon had 1,400 chariots and 12,000 horsemen, and in other ways exhibited a disposition of liberal expenditure. When Rehoboam ascended the throne he heaped heavier taxes upon the people.

"The rest of the story is sad, indeed. Whereas, King Rehoboam might have had a loyal people, willingly supporting the government upon a basis of reasonable expenditure and reasonable progress, they turned from such loyalty and the kingdom was disrupted."

"There is nothing mysterious or hard to understand in this bible story, if we apply to our own affairs the principles and events and the public policies which characterized the reign of Solomon and Rehoboam. The people—once aroused to a consciousness that their property was being taken from them, and the normal fruits of their labor devoted to unnecessary public uses, sounded the knell of doom for public officials who had brought to pass such a deplorable fiscal and economic situation. "And so there is a lesson for public officials in the first Book of Kings."

## THE MENACE OF "GOOD PEOPLE"

"We hear a good deal these days about the uprising of the radicals. But I am more concerned about the downstopping of the conservatives—those who are quite content with things as they are; who have comfortable homes, can afford to wear good clothes, are assured of enough to eat, can educate their children, and who have snug little sums in the bank or in bonds which will take care of them in the future.

"The greatest menace to our American institutions today is not the labor agitator nor the trust magnate. The greatest menace to society is the smug, self-satisfied middle class, the "stand-patters," those who do not wish to be disturbed, the people who do not want to be compelled to face the real social facts of the twentieth century.

"The labor agitator has not created the social unrest in the world today. It has created him. He has been pushed up from among the people to give expression to their hopes and aspirations."—Charles Stelzle in The Outlook.

## PRESBYTERIAN

Children's Day will be observed at Calvary Presbyterian Church next Sunday. The Children's Day Service will take the place of the morning worship at eleven o'clock. A very interesting programme has been arranged and all members of the congregation are urged to be present. The Sunday School will convene as usual at ten o'clock and will march into the church for the service at eleven o'clock. Evening worship will continue as usual at eight o'clock. A midweek service in the Chapel on Wednesday evening at eight o'clock.

On Friday, June 25th, the annual church and Sunday School picnic will be held at Washington Park. A special bus will leave Riverton station at ten o'clock and will stop at the Palmyra station.

## FRIENDSHIP CIRCLE

The regular monthly business meeting and social of Friendship Circle was held at the home of Mrs. Edna Smith, on Monday evening.

An active campaign of work for the coming winter was mapped out. During the past two years, under the splendid leadership of Mrs. Clarence N. Hubbs, this class of young women have carried on an extensive welfare work. The new president, Mrs. B. R. Leach, proposes to continue the work, and if you are a young woman having no Sunday School connections, come out to Epworth Sunday School, at 10 a. m., and ask for Friendship Circle.

You will be given a warm welcome, enjoy a very interesting lesson by the teacher of the class, Mrs. John Morison, and will be given an opportunity of helping this class to carry on the work of the summer.

## EPWORTH CHURCH

The Sunday School will assemble at 10 a. m. The attendance is keeping up in a very gratifying way. The pageant "The Children of the Father's Kingdom" given by the Cradle Roll, Primary and Junior departments was a pronounced success and was appreciated by a large audience.

Sunday morning at 11:15 the sermon topic will be "Heart Treasure the Master Passion." The Young People's Societies of Palmyra and Riverton, will hold a Union Service in this church at 6:45 p. m. This promises to be a meeting of unusual interest. At 7:45 p. m. the Song Service of Inspiration will be full of joy and good cheer. Sermon topic: "How long ought a sermon to be." A fruitful theme for a summer evening.

## COUNCIL MEETS

Paying of Bills Chief Concern Tuesday Evening

The paying of bills was the chief work of Palmyra Borough Council at its meeting Tuesday evening.

President of Council J. Edwin Lees presided, owing to Mayor West suffering from a sore throat.

Building Inspector Powell reported issuing permits for \$37,500 worth of building operations during the month.

Four communicable diseases have been reported to Trenton: three of measles and one scarlet fever.

## MOHAVIAN CHURCH

The Children's day program last Sunday was very well rendered and the service had a good attendance.

# RIVERTON ITEMS

Elwood Miller has purchased a new four-door Ford sedan.

Mrs. E. Burt Merrill, and children, have moved to Bay Head.

Leon Sloan moved to Philadelphia on Tuesday.

Mrs. C. H. Yost and children are spending ten days at Ocean City.

Mr. and Mrs. F. G. Seaman and daughter, of West Palm Beach, Fla., are visiting her sister and husband, Mr. and Mrs. Arthur H. Burns.

Mrs. Russell Jermon will entertain the S. S. Club this Saturday afternoon.

Mrs. Charles Williams and daughters, the Misses Elizabeth and Eleanor, spent Sunday at Ocean City.

John Lockowitz and Lloyd Franks, of Palmyra, motored to Atlantic City, on Sunday.

Mrs. Rose Mattia and children will leave this week to spend the summer at Atlantic City.

Mr. and Mrs. Thomas R. Murphy are occupying the apartment vacated by the Welkels.

Mr. and Mrs. Paul E. Good, and children, will go to Margate for the summer, next week.

Miss Helen Becker spent Sunday with her aunt, Mrs. Julia Bright, of Pitman.

Mr. and Mrs. Otto Sauer and Mr. and Mrs. William Evans spent the weekend at the Portland, Mrs. Samuel Cole's hotel at Wildwood.

Mrs. Arthur Bowker, who was operated on at the West Jersey Hospital two weeks ago, is expected home during the coming week.

Mr. and Mrs. Russell Collins, and children, of Camden, spent Sunday with her parents, Mr. and Mrs. William White.

Mr. and Mrs. Charles Stonaker, and children, of Camden, spent Sunday with his mother, Mrs. Horace Stonaker.

F. A. Tompkins, 101 Main street, has purchased a Studebaker sedan of the West Motor Car Company, Beverly.

The Westfield First-day School picnic will be held on the lawn of Henry H. Lippincott on Sixth-day, the 25th of June, at 4 o'clock.

Charles Welkel has moved from the Wright and Williams apartments at Broad and Main streets to William Quigley's house on Thomas avenue.

The Ladies of the Golden Eagle will celebrate their sixteenth anniversary in the lodge room, Thursday, June 17th. All members invited to be present.

Mr. and Mrs. Paul Barnhart, who have been visiting her sister, Mr. and Mrs. G. W. Coffin, of Yakima, Washington, returned home on Saturday.

Charles Turner, of 214 Penn street, Riverton, wishes to correct the report that he is serving as dogcatcher in this town. He is not serving nor ever has served in this capacity.

Mrs. Clarence Hubbs entertained at cards on Tuesday afternoon. Among those present were Mrs. William Thackeray, Mrs. Roland Beagle, and Mrs. Oden Mattie, 2nd, of Riverton, Mrs. Edward Lahr, Mrs. Ross Cardwell and Mrs. Stickle of Delanco.

John William Graham, English educator and writer, will be at Westfield Friends' Meeting, Sunday, June 20, at 10 a. m., daylight saving time. He is about returning to England, having filled the Chair of Quaker History for its initial year at Swarthmore College. All who are interested are invited.

Mr. and Mrs. F. C. Cole and son, who live in St. Petersburg, Fla., spent a few days last week with Mr. Cole's sister, Mrs. W. R. Evans, of Howard street. On June 12th they sailed for Scotland on the S. S. Atlantic from New York to Liverpool, England. They will also visit in France and Belgium.

Last Monday evening George Corner removed a piling from the Palmyra-Tacony ferry slip on the Palmyra side. This piling had been interfering with boat maneuvers for about two years. Mr. Corner was assisted by C. A. Wright. The piling was sunk in about twenty-five feet of water.

Mr. and Mrs. Harris Dillinger motored from Dayton, Ohio, to Florida, last week to attend the wedding of his sister, Lenore Dillinger, of Brookline, Pennsylvania, and Harry Jakob, of Philadelphia. They also visited his grandparents, Mr. and Mrs. J. L. Harris. His mother and brother, Richard, will return with them for an extended visit.

The Palmyra High School Alumni banquet and annual meeting to receive the members of the newly graduated class will be held this Friday evening in the High School basement. An initiation of the new members, under the direction of Andy Pfaff, assisted by Harriet Rustler and Harris Sacks, will precede the banquet. Leon Reasly is in charge of the entertainment which will include numbers from the recent Riverside Kiwanis Polies. Frank A. Mathews, Jr., will be the speaker of the evening. Katherine Stewart is in charge of the whole program.

## BAPTIST NOTES

The big social event at the Central Baptist Church this week is the Strawberry Festival and Cake Sale on the lawn Saturday afternoon and evening.

On Sunday the pastor will preach at both morning and evening services. "What We Shall Be" is the morning subject and the evening sermon will be "A Rule of Life."

The children of the church are continuing to meet for their "Happy Hour" on Friday afternoon at four.

The young people's meeting will be on Friday evening at eight. All young people of the twin cities are invited.

Saturday, June 26, will be held the all-day Bible School picnic at Neshaminy Falls, Pa. Round trip tickets are 35 cents with buses leaving the church promptly at 9 a. m. and 1 p. m. The afternoon bus will leave on the Neshaminy side of the ferry until 1:30 to pick up those coming up from Philadelphia. Plan to be with the crowd on a real outing.

Those who attended the Children's Day services at the church last Sunday found real treats of inspiration and enthusiasm from the kiddies. If you are not a regular church-goer, the doors of Central Baptist are always open to you to join in our fellowship and activities. Make it a habit.

Jeremiah J. Leary, 301 Morgan avenue, Palmyra, died Tuesday afternoon at his late residence following a long siege of illness and heart trouble.

He deceased was 84 years old and was one of the pioneers of West Philadelphia. He often spoke of that section of Philadelphia as he remembered it being only a farm district during his boyhood. He came to Palmyra seven years ago. Mr. Leary was a retired employee of the Pennsylvania Railroad. He is survived by five daughters and one son.

High Mass will be celebrated Saturday morning in the Sacred Heart Church, Riverton. Father Joseph Higney officiating.

Interment will be made in the Holy Cross Cemetery, Philadelphia.

An anti-proof building is being erected by the United States government at Ancon, in the Canal Zone, where termite are extremely destructive.

# PROBLEMS MAY BE TAXED TO DO BUSINESS IN RIVERTON

(Continued from Page 1)

and Riverton, suggesting that the two towns go together in the celebration of the Fourth of July, including the fireworks. It was stated by members of council that arrangements for Riverton's celebration this year were nearly completed and it was not thought advisable to make any alterations at this late date. However, the communication was referred to the Fourth of July committee which will hold a meeting next week.

A petition signed by the necessary number of property owners presented asking for the construction of sidewalks and curbs on the following streets: Howard, Cinnaminson, Fulton, Second, Third, Fourth and Fifth. The petition was accepted and turned over to the committee for an ordinance to be presented at the next meeting.

The building inspector presented a report covering about \$5000 worth of building, and fees amounting to \$20.

A letter was received from Charles A. Wright asking that a street light be placed on the river bank at the spot where Frank Holvick was assaulted several months ago. After a thorough discussion of the letter it was stated that the council had no authority to place lamps on private property, but the communication was turned over to the lighting committee.

The highway department reported that the streets were being oiled and that the work would be completed as soon as more oil arrives.

# RIVERTON GOES OVER THE TOP

(Continued from Page 1)

all of their prospects and the Board of Council wants it understood that the collectors have been limited by time and have not been neglectful.

A hospital campaign headquarters will be maintained for a short time until all of the business in hand has been disposed of, and after that it will be necessary to follow out a system of collections under the pledge plan that was adopted for the campaign.

Want Complete Plant

"The idea of establishing a new goal of \$150,000 was given a boost by Dr. Joseph Stokes, of Moorestown, at the Mount Holly meeting on Monday night. He said that the sum of \$350,000 was fixed as a minimum for the erection and equipment of a new hospital, but in his opinion it was not enough to give Burlington county people the kind of hospital he would like to see them have available.

He stressed the value of completeness in giving hospital service and he would have all understand that an expenditure of \$450,000 will never be regretful. This talk aroused an enthusiasm that already had a good start and the workers are certain to go on until they have done better than has yet been accomplished. It is a noble and wonderful spirit that has been shown during the campaign.

An enthusiastic crowd assembled in the Mount Holly armory to hear the report of the various chairmen and to accept a noble and wonderful spirit that has been shown during the campaign.

The highway department reported that the streets were being oiled and that the work would be completed as soon as more oil arrives.

The following bills were ordered paid:

Horough Organization: Herbert Evans, Treas. & Collector, Salary \$325.00

## W. C. T. U. Prizes Are Distributed

### Moorestown Lad Wins Second Honors; Bordentown Girl First

The W. C. T. U. prize essay contest in the schools of Burlington County has closed and the prizes were paid to the winners last week.

First prize of \$10.00 to Catherine Baker of Bordentown High School.

Second prize of \$5.00 to Samuel Lippincott of Moorestown High School.

First prize of \$5.00 to Helen Roberts of Marlton school, 8th grade.

Second prize of \$2.50 to Helen Angelow of Lumberton school, 6th grade.

First prize of \$5.00 to Walter Angelow of Lumberton school, 6th grade.

Second prize of \$2.50 to Edna Bruck of Lumberton school, 6th grade.

The following essays received honorable mention: Bordentown, Dorothy Brown, of the High School; Mount Holly, Emma Hopkins, of the High School; Virginia Kaser, of 8th grade; Lumberton, Anna Litchner, of 7th grade; Samuel Aaron School, Pauline Harris, 7th A grade.

### CAMDEN BRIDGE TOLLS

The schedule of tolls over Camden bridge will be as follows:

Private passenger automobile or taxicab ..... \$ .25

Motor Trucks:

7,000 pounds and under gross weight (pneumatic tires) ..... .25

8,001 pounds to 25,000 pounds (pneumatic tires) ..... .35

Passenger busses (pneumatic tires) ..... .40

Horse drawn vehicle (1 or 2 horses) ..... .30

Horse and rider ..... .15

Led horse, mule, cow, hog or sheep ..... .10

Motorcycle or bicycle ..... .10

No vehicle weighing more than 25,000 pounds will be allowed on the bridge without a special permit, when they will be charged 25 cents additional per 2,000 pounds or fraction thereof of such load in excess of the 25,000 pounds on which the above tolls also will be paid.

Pedestrians may cross free. No motor truck or tractor with metal tires will be allowed.

States for years. Much of our present troubles in law observance and law enforcement arise from the fact that temperance instruction was allowed to become lax, and also to the fact that a large proportion of our population consists of foreigners who know nothing about the benefits of total abstinence. Scientific temperance instruction will give the needed information.

Hundreds of boys and girls are leaving the schools of preparation and entering the school of execution of life work and if they do not take with them the true knowledge concerning alcohol and tobacco some of them will fall victims to the temptations and insidious propaganda of the friends of the liquor traffic. Scientific temperance instruction should be given in all schools as a safe guard to our youth.

ELLA WOOLSTON,  
Director of I. T. L. in  
Burlington Co.

### CLEAN SPONGE

A sponge which has become too hard to use can be softened if put in clear cold water to which a little borax has been added. Let the water boil, remove the sponge, rub some borax into it and rinse in cold water.

### BITTEN BY DOG

Masonville Boy's Eyes Injured by Animal

Maurice Favour, a Masonville boy, was taken to the Burlington County Hospital last week to receive treatment for severe lacerations to his eyes as a result of his being attacked by a vicious dog. He was permitted to return home after treatment, but his case is being watched and he is on the outpatient list of the hospital.

Considering the close proximity of the wounds to his eyes it is a wonder that the dog's teeth did not get into his sight. It was a narrow escape.

### DR. JOHN C. BROWN

Dr. John Carlisle Brown, a life-long resident of Vincentown, died at his home there last week from cerebral hemorrhage with which he had been in poor health for a considerable time and had retired from the practice of medicine. On Sunday a week ago he was up and about and his condition was not considered to be more serious than usual, but the next day he remained in bed until nearly noon, when he quietly passed away.

Dr. Brown, who was 70 years of age, was a high type of the country

family practitioner and during his many years as a physician he gave his time and best efforts for the benefit of the sick of his neighborhood. No call for assistance was refused, no matter how stormy the night, or whether the patient was rich or poor. His charity work was of large scope and covered the entire district for many miles around Vincentown. Dr. Brown's death is a blow to his neighbors.

He is survived by a widow and five children.

"This air is very familiar," said the musician as a gust of wind whisked his hat off.—Boston Transcript.

### GET BRIDGE JOBS

Burlington county feared in the patronage distributed by the Camden-Philadelphia Bridge Commission when police and toll collectors were being appointed. Gregory W. Love, of Moorestown, one time a state trooper, is made a lieutenant of bridge police at \$2,800 a year; Charles I. Wilson, state trooper, well known in Burlington county, will be a police sergeant at \$2,300 a year; Harvey E. Lippincott, John E. Beyer and Cary P. Ewan, of Merchantville, formerly of Mount Holly, will be toll collectors.

Birdwood was used by the architects for papyrus. In rural Maryland the wood is used for heels of shoes, torches, and charcoal.

The Egyptians believe that crocodiles better luck, and one of the first lessons taught to their children is that they shall gaze intently upon every crocodile that they are fortunate enough to come across.

### MORTGAGES REAL ESTATE INSURANCE

**COMPLETE EFFICIENT SERVICE**

The placing of mortgage money on first-class properties a specialty. Insurance in all its phases.

Bolt, 5880 Keystone, 50661

C. A. KENSINGER, INC. REALTORS

**700 Essays**

The number of W. C. T. U. essays written in the schools of the county when all the reports are in will be close to 700, a gain of 200 for the year.

All the essays of the high schools were well written and showed careful preparation, both as to knowledge concerning the harmful effects of alcohol and tobacco upon the health and life of those who use them, and also well expressed personal thought in favor of abstaining from the use of those drugs. These essays were all so worth while that it was difficult for the judges to determine upon the most worthy.

The essays from the grades (6th, 7th and 8th), showed that the boys and girls of our schools are thinking along the lines of total abstinence and law enforcement, and are expressing their thoughts in an uncertain way in favor of both. The frequent statements that are heard saying the youths of the schools are becoming drinkers and want beer and wine, is false and are made by those who have no regard for truth, but have great regard for their own appetites and

selfish greed.

**Hope of Tomorrow**

Surely the hope for the honor and salvation of our country rests upon the shoulders of the boys and girls of our schools, and the realization of that hope depends upon the way those boys and girls are instructed by parents and teachers. They will be, as a whole, just what they are taught to be.

There is no other way that will so surely destroy the liquor traffic as that of earnest faithful teaching as to the truth concerning the nature and effects of alcoholic drinks. Before the use of such drinks as beverages is stopped the desire for them must cease.

The knowledge that they are poisons and must of necessity be injurious to health will prevent any right-minded person from using them. Scientific Temperance instruction will give this knowledge and should receive as much attention in class work as any other branch of instruction.

**Far Reaching Influence**

The power and influence of this essay work is far-reaching and long-reaching. It will be felt in the governing bodies of the United

# Here are the New Cabinet Kelvinators

...again, Something Better!

Since 1914 Kelvinator has been the recognized leader in the manufacture of electric refrigeration systems for refrigerators already in use, or for those newly purchased.

Now, in addition to these, we announce a complete line of Cabinet Kelvinators—cabinets and Kelvinators combined into single units, delivered to your

home complete, ready for the electric connection.

The cabinets are produced in a variety of sizes and finishes—nine models in all. They are of the famous "Leonard Cleanable" construction that won leadership in the refrigerator industry 44 years ago—and kept it. The Kelvinator installed in each cabinet is the same wonderful Kelvinator that has been recognized as the world's standard

system of electric refrigeration since the very beginning of the industry.

Manufacturing and selling economies put these Cabinet Kelvinators on the market at prices that set a new standard of value.

Now, right at the start of the summer, we invite you to inspect these fine new Cabinet Kelvinators at our display room. If you place your order early you can be sure of prompt delivery.

### Cabinet Kelvinator Models and Prices

**Model 226—\$250**

A beautiful flush panel hardwood cabinet finished in gleaming white enamel pyroxylin. The insulation is of corkboard. The interior is glossy white enamel on galvanized iron (Leonard Cleanable construction). The outside dimensions are: Height 60 inches, width 20 1/2 inches, depth 24 inches. Model 226 is 1/2 cubic foot of shelf space, permitting you to make excellent use of the food storage compartment of 1/2 cubic foot capacity. The trays permit you to freeze 20 lbs. of food at a time.

**Model 230—\$250**

This Cabinet Kelvinator is exactly the same in size and construction as Model 226, except that the exterior is of rich golden oak.

**Model 227—\$275**

In this model Kelvinator, the interior is gleaming white porcelain, on metal trim, making it as easy to keep clean and shining as a china dish. The design and size are the same as Model 226, with the same white enamel pyroxylin finish and the Leonard Cleanable construction.

**Model 228—\$275**

Has the same white porcelain interior as Model 227, and is of the same size and construction, but the exterior is quarter-sawn golden oak.

**Model 229—\$300**

This is a 40 inch Cabinet Kelvinator. The interior and exterior are of gleaming white porcelain, beautifully trimmed with polished metal corners and edging. The size, shelves, and ice-making compartment are the same as in Model 226. Corkboard insulation.

**Model 231—\$430**

This is the largest model shown in the illustration. Its outside dimensions are 60 inches high, 40 inches wide and 24 inches deep. It has 12 square feet of shelf space and a food storage capacity of 1 1/2 cubic feet. The trays 24 inches of ice (10 pounds) can be frozen at one time. Exterior finish is of highest quality white enamel pyroxylin (the interior of white porcelain). Corkboard insulation is used throughout.

**Model 232—\$430**

Dimensions, construction, arrangement and ice capacity are the same as above. The exterior finish is of quarter-sawn golden oak.

**Model 233—\$485**

A 40 inch model of the above, exterior is of white porcelain, beautifully trimmed with polished metal. The dimensions

and general construction are similar to Model 231 and 232.

**Kelvinator Leonard Model 18**

This model is produced for those who desire even greater food compartment capacity than that needed by the average family. It has a food storage space of 1 1/2 cubic feet. Complete of a handsome Leonard cabinet, finished inside and out in white porcelain with metal trimmings. It is mounted on a detachable base for enclosing the Kelvinator unit. May be used with or without base. The entire cabinet with base is 60 inches high, 40 inches wide and 24 1/2 inches deep. The cabinet contains three food compartments, has shelf space of 2 square feet and the Kelvinator unit has two small trays and one large tray. Trays 24 inches of ice (10 pounds) and a large 20 pound tray of ice at each freezing.

## PUBLIC SERVICE

NUMBER TWO

### An Army of Public Servants

SERVICE, electric, gas and transit provided for the people of New Jersey by Public Service is assured by the loyal and intelligent efforts of nearly 20,000 men and women, whose task is never ended.

Many professions and many trades are represented in the operating staffs of Public Service companies which are composed of trained workmen, who know their duty and faithfully perform it in your interest.

It is this great human organization that causes the vast physical equipment assembled by Public Service to function, so that service is continuous, dependable and at all times available to the thousands for whom it has become an actual necessity.

# Public Service

The Oldest Domestic Electric Refrigeration

Prices quoted include delivery to your home. Installation charges are additional. Our divided payment plan enables you to purchase Kelvinator in eighteen equal payments, at only a slight increase over cash prices.

## Promotion For P. S. Official

John A. Clark, Jr., Made Vice President of Operation Gas Department

John A. Clark, Jr., has been appointed vice president in charge of operation, Gas Department, Public Service Electric and Gas Company, to succeed Henry D. Whitcomb, who died May 5. The appointment was made by the board of directors. At the same time Herbert H. Morris, who has been general superintendent of manufacture, was made general manager. Edward H. Barnshaw continues in the capacity of chief engineer.

Mr. Clark, who has been general superintendent of distribution since 1917, was graduated from Union College in 1895 with the degree of B. S. He entered the service of the East River Gas Company, New York, as gas engineer, July 1, 1896, and remained with that company and its successor, the New Amsterdam Gas Company, until March 1, 1898, when he went to the Newark Gas Company as superintendent. This company was afterwards merged into the Newark Consolidated Gas Company which was one of the many taken over by Public Service Corporation of New Jersey in 1903.

On March 1, 1909, Mr. Clark became superintendent of distribution of the Orange, Montclair, and Summit districts and on November 1, 1908, he was made engineer of distribution of Essex Division, becoming general superintendent of distribution February 1, 1917.

Mr. Clark, who lives in East Orange, wears the gold button indicative of twenty-five years' service with Public Service and predecessor companies.

## VETERANS ORGANIZE

Battalion Composed Largely of Telephone Employees

An echo of the Great War is heard in the announcement of the recent organization of the Veterans of the First Telegraph Battalion, Signal Reserve Corps and the 40th Telegraph Battalion, Signal Corps, United States Army, largely composed of employees of The Bell Telephone Company of Pennsylvania and Associated Companies "to renew and continue the friendships formed during active service in the World War."

The 40th Telegraph Battalion of the Army was formed from the First Telegraph Battalion, Signal Reserve Corps, which was a first-class machine unit, was employed in Philadelphia and owned his home and an automobile.

The children are: John, 14; Ruth, 13; Robert, 11; Edward, 8; Frank, 6; Allen, 4 months.

Funeral services for the couple were held at the Church of Our Lady of Good Council, Moorestown, at nine o'clock Monday morning with the Rev. Father Dineen officiating. High requiem mass was celebrated for Mrs. Skutta.

Immediately after the funeral, relatives took three of the children to their homes in Philadelphia, and the other three are being kept by neighbors in Maple Shade.

Coroner John C. Helton and Dr. Howard C. Curtis, both of Moorestown, were called in to examine the bodies, which were later removed to the Elwood W. Helton and Sons funeral parlors.

After an investigation Thursday morning, County Detective Ellis D. Parker stated "it was the act of an insane man."

Skutta, who was a first-class machinist, was employed in Philadelphia and owned his home and an automobile.

## INCREASE CAPITAL

Washington County Trust Company  
Holds Total Stock to \$200,000

At a special meeting of the stockholders held last week, the directors of the Washington County Trust Company were authorized to increase the capital stock from \$100,000 to \$200,000.

The Trust Company is purchasing stock from the Moorestown National Bank and paying the stockholders of the bank with shares in the Trust Company upon a valuation of \$275 for Trust Company stock and a valuation of \$375 for bank stock.

As the result of the increase in capital stock, the Trust Company's surplus will probably rise to \$500,000.

The architects are now working on the detailed plans for the new building which will be erected on the site now occupied by Coler's Hotel, East Main Street.

It is expected that final settlement will be made for the hotel property in the near future and the work of raising the old property will be started just as soon as the negotiations are completed.

## Crime Shocks Maple Shade

Crazed Man Slays His Wife and Then Kills Himself; Had Been Ailing

Shortly after 11 o'clock Wednesday night of last week Konrad Skutta, 30 years old, who is thought to have been mentally unbalanced for several days, shot and killed his wife, Marie, 36 years old, and then sent a bullet through his own heart at their home on Sunset avenue, Maple Shade.

The strange act of the demented man who during his nine year's residence in Maple Shade had been regarded as a quiet, respected citizen, leaves six children, their ages ranging between 13 months and 14 years, without parents.

Neighbors report that the Saturday night previous to the shooting Skutta first acted "queer" when he called for neighbors to help him rout the "crowd of people" which he believed to be circling his home late at night.

Shot in Head  
Wednesday night after Skutta had sounded several such alarms, several men of the neighborhood stationed themselves in his garage to watch for the intruders. Shortly after 11 o'clock, when the Skutta home was in darkness, a shot was heard from the kitchen.

The kitchen light was flashed on and Skutta called for H. W. Fontaine, a neighbor, to take the children to his home as "things were going to start."

After the first shot, the Maple Shade police were called and when Sergeant Jackson arrived Mrs. Skutta was lying on the kitchen floor evidently dead. Although he had laid his revolver upon the chair, Skutta quickly darted for it when the policeman appeared at the door. Coldly impassionate, yet with a determined, crazed look in his eyes, Skutta remonstrated when Jackson tried to force his way into the house and threatened to take the policeman's life if he entered.

Both Found Dead  
The officer made a quick run to the home of William H. Helton, Clarence Ward, and when he and the chief returned both man and wife were lying on the floor with bullets through their hearts.

Coroner John C. Helton and Dr. Howard C. Curtis, both of Moorestown, were called in to examine the bodies, which were later removed to the Elwood W. Helton and Sons funeral parlors.

After an investigation Thursday morning, County Detective Ellis D. Parker stated "it was the act of an insane man."

Skutta, who was a first-class machinist, was employed in Philadelphia and owned his home and an automobile.

The children are: John, 14; Ruth, 13; Robert, 11; Edward, 8; Frank, 6; Allen, 4 months.

Funeral services for the couple were held at the Church of Our Lady of Good Council, Moorestown, at nine o'clock Monday morning with the Rev. Father Dineen officiating. High requiem mass was celebrated for Mrs. Skutta.

Immediately after the funeral, relatives took three of the children to their homes in Philadelphia, and the other three are being kept by neighbors in Maple Shade.

## Riverton Wins By 3-2 Score

(Continued from Page 1)

hit a sacrifice fly to Manion, putting Andrews on second. Louisiana walked. Andrews and Louisiana pulled a double steal and scored on Bennett's timely single. With two down and one on, McGinnis tossed out Morgan at first.

Fourth Inning  
Burns fled out to Hopkins. McGinnis singled. Mills fanned. Lavery was safe on Andrews' muff. E. Gallagher retired on three pitched balls.

Fifth Inning  
Mills three out "Doc" Trueman at first. Hinkle fled to Manion. Hinkle scored the third out by tossing Hylton out at first.

Sixth Inning  
Hylton threw out Conne at first. G. Gallagher singled. McGinnis struck out. Manion was out at first. Hylton to Trueman.

Seventh Inning  
Hopkins fled to Manion. Andrews took three and retired. Peterson was safe at first on Mills' fumble. Louisiana fled to Conne.

Eighth Inning  
Burns fanned. McGinnis singled but was out at second on Morgan's throw to Hylton. Mills popped up to Peterson.

Ninth Inning  
Bennett fled to Manion. Morgan fanned. Hinkle fled to Manion. G. Gallagher threw Trueman out at first.

Tenth Inning  
Lavery fled to Bennett. E. Gallagher fanned. G. Gallagher popped out to Bennett.

Eleventh Inning  
Hinkle's foul fled out to Lavery. Hylton fled to Manion. Hinkle fanned. The first out, base hit of the game, a two-bagger, Andrews fled to Burns in deep short.

Twelfth Inning  
G. Gallagher fled to Morgan. McGinnis fanned. Hylton tossed Manion out at first.

Home team scored another in their half. Peterson was out at first. G. Gallagher to McGinnis. Louisiana hit sharply and safely to center. Bennett doubled to left, scoring Louisiana. 'Twas a goodly score. Morgan fanned and with a chance to score Bennett pulled the comedy stunt—the hit was unintentional. While rounding third, Bennett looked back to see where the ball was, his feet became tangled and he fell heavily. He scrambled back to third safely. McGinnis then tossed out Trueman at first. "Doc" Hinkle fanned.

Visitors rally scored two. Burns walked. McGinnis hit a two-bagger scoring Burns. Mills singled scoring McGinnis. Lavery hit to Hylton who tagged second for a force out. McGinnis and Trueman at first. E. Gallagher singled. Conne fanned.

Two base hits—Hopkins, Bennett, McGinnis.  
Stolen bases—Andrews and Louisiana.  
Double play Hylton to Trueman.  
Sacrifice hits—Hopkins and Peterson.

Base on Balls on Hinkle, two; G. Gallagher, two.  
McGinnis Stars  
McGinnis starred at the bat for the visitors with three singles and a double in four times up. Louisiana, Bennett, and Morgan led Riverton's attack with two hits each.

The team which Manager Welsh has put on the field to represent Riverton in the local baseball realm is a good one. A team that is worthy of the attention and support of every baseball fan in Riverton. The season's schedule is made up of games with first-class teams and Riverton's Manager wants to see a crowd at this week's game.

Don't forget—the place, Memorial Park, Seventh and Cedar; the time, Saturday, June 19, at 3:30 sharp. Come and bring a friend.

This Saturday, June 19, Riverton will play the Kensington baseball team. The lineup for this week's game will be as follows:

D. Hylton, 2b; Hopkins, cf; Andrews, ss; Peterson, lf; Louisiana, 3b; Bennett, rf; Morgan, c; Trueman, 1b and Freitag, p.

CROWELL LEADS  
Last Saturday afternoon Skipper F. W. Robertson failed to show up in first place at the finish of the Larchmont interclass race. After getting away first the old "skipper" had a bit tough luck. Shortly after the start Robertson's peak layard parted. By the time this was mended Robertson had dropped back to third place, where he remained throughout the rest of the race.

Gardiner Crowell finished first for the first time this season. Ogden Mattie placed second; F. W. Robertson third and Edgar Miller, finished fourth.

The course from the Riverton Yacht Club buoy to the Red Spar buoy off the Hancock Creek was called in a stiff northeasterly breeze.

In the sixteen foot one design race Owen Morris's "Red Spar" finished first, followed by "Hot Times" and "Lad."

Dickinson had some trouble which forced him to withdraw.

"We're Here" John Fuller's boat, will sail for the first time in this week's race.

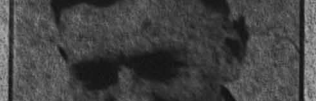

The real reason for planting yew trees in churchyards is indicated in an excerpt from Luther Postville, printed by Boston in 1660, which reads as follows: "For the reason that we have no olive that bears green leaf, we take yew instead of olive and carry it in procession and so in this day called Palm Sunday."

## NEW PRIEST

The Rev. Paul N. Fairbrother

Young Riverside man who was ordained to the Holy Priesthood of the Catholic Church at Baltimore Tuesday. He will conduct his first mass at St. Peter's, Riverside, Sunday.

St. Joseph Boys "Fox" Riverside For An Even Dozen, But Lose Game

The St. Joseph's baseball club of Riverton and Palmyra lost an exciting game to the Riverside Catholic Boys' team last Thursday evening at the Riverside diamond by the score of 10-6.

The St. Joseph boys ran wild between first and second. Bradshaw stole safely five times. Schneider successfully stole second three times. H. Schuler managed to get two steals and Davis and Brown each one—a total of an even dozen steals for St. Joseph's.

Riverside had three—one by Minnick and two by Stellwag.

The St. Joseph team scored six runs on five hits and three bases on balls, while Riverside scored ten runs on thirteen hits and three walks.

This Thursday the St. Joseph's team will combat with the Moorestown Catholic Boys on Memorial Park, Riverton, at the usual twilight hour.

Here is a strictly home-talent team which should be encouraged. It is only by encouraging the game in boys of this age that it will ever be possible to have a really good home team. Star players are not born, they are trained, and this is the age at which to start the training.

## Palmyra High Graduates 61

Commencement Exercises Will Be Held This Thursday Evening

One of the largest classes in the history of Palmyra High School will take part in the commencement exercises to be held this Thursday evening in the High School Auditorium.

There are sixty-one students graduating.

The valedictorian is Charles J. Miller of Riverside, and the salutatorian is Leo C. Terrell. Clayton H. Schouts will deliver the Baccalaureate Services were held in the Calvary Presbyterian Church last Sunday.

The Class Motto is: "Non Est Vivere Sed Valere Vita," the colors are green and white, the class flower is a white rose and the class officers are: President, Leo C. Terrell; Vice-President, Clayton H. Schouts; Secretary, Ethel M. Foster; and Treasurer, A. Elwood Wagner.

Program  
The commencement program follows:

Musical High School Orchestra  
Invocation Rev. J. William Lee  
Oration Leo C. Terrell  
"Travel—Its Place in the Development of Civilization"

Musical Girls' Glee Club  
Banner Oration Clayton H. Schouts  
Acceptance "The Lure of the Arctic"

Musical Bruce Beahm  
Address Dr. George B. Lawson  
Musical High School Orchestra  
Oration Charles J. Miller  
"The Future Development of South Jersey"

Musical Girls' Glee Club  
Presentation of Diplomas  
Mr. William A. Donaghy  
President of the Board of Education  
Benediction Rev. George Lockett  
Orchestra

List of Graduates  
The graduates are:  
Ruth Elisabeth Abdl, Margaret Fulton Albertson, Joseph Lawrence Atkinson, Karl Edward Boehm.

Rosecoe Haines Bowers, Adolph Newton Bright, Mary Elvira Bruno, John Chester Bucher.

Charles Stuart Mills Coddington, Samuel Edward Cohen, William Bartlett Colless.

Charles Spencer Davison, Violet Tantha Dixon, Emma Cecilia Duran, Mary Evans Dickenson.

Cora Lee Elliott, Ruth Katherine Foulmer, Ethel Mae Foster, Henry Herman Frank.

Donald Cedwyn Fountain, Dorothy Barile Fromuth, Ethel Galtner, Isabel Jarvis Glass.

Forman Stanley Godley, Mary Florence Harvey, James Conrad Hiles.

Elizabeth Puit Jessup, Dorothy Lotta Jones, Dorothy Estella Johnson, Marcella Gertrude Landers.

Anna Jane MacCord, Albert Warren McCuen, William McKee, Eleanor Katherine Moffitt.

Lillian Maybelle Murphy, George Mason Madison, Josef Ernest Martin, Helen Vivian Maurer.

Owen Parker Merrill, Charles Joseph Miller, Frances Mary O'Donnell, Helen Beck Perkins.

Henry Lamdon Prouse, Jr., George Andrew Rhoads, Jr., Leslie Burnard Hewell, Russell Paul Rubrecht.

Janet Mabel Ransom, Lamont Adolph Roberts, John Lester Scheer, Helen Mar Shain.

Jrene Sablin Shelton, Edith Floretta Stratton, Clayton Hulme Schouts, William Ruddiman Seese.

Harold Stern, Dorothy Augusta Stewart, Leo Charles Terrell, Norman Thompson.

Nicholas Stevens Verrocchio, Aaron Elwood Wagner, Jane Emma Wagner, Mary Agnes Zurbrugg.

Awake for Six Days  
A captain of thirty years' sea experience writes: "It was noted in Tit-Bits recently that a world's record for continued wakefulness had been put up by two experimenters, who had remained awake for 115 hours. On one occasion I exceeded this period by 21 hours. I was in charge of cargo loading operations which began on a Monday morning and ended at 8 p. m. the following Saturday. During this time I did not close my eyes, and after five and a half hours' sleep I was called up for further duty. On many occasions since I have put in over one hundred hours of continued wakefulness."

## Y. W. C. A. Notes

The Phyllis Wheatley club of Riverton closed the season's activities with a banquet at the Methodist church on Saturday evening.

The members of the club had as guests their husbands and daughters. It was a family affair with the entire family taking part in the songs and cheers. The program consisted of solos, readings and short talks. The banquet tables were decorated with pink and white flowers and table paper, and the delicious refreshments were prepared and served by the club.

The Phyllis Wheatley club is the largest colored club in the county having an active membership of 18. Under the leadership of Mrs. E. J. Young this club has done excellent work for the year, serving the four fold program of the Y. W. C. A. building at the Sesqui Centennial on June 14th.

Mrs. Margaret Taylor and Miss Lanthie Young will leave Saturday morning for Prospect, N. Y. where they will attend the Industrial Conference of the Y. W. C. A. from June 13 to July 2.

A number of Burlington County women attended the reception at "Mt Vernon" the Philadelphia Y. W. C. A. building at the Sesqui Centennial on June 14th.

That the Girl Reserves of Burlington County have put down camp as one of the foremost activities of the summer's vacation is shown by the way the registrations have been coming into the county Y. W. C. A. office. During this past week new registrations have been coming in each day, and it is expected that during the next ten days there will be even more. These girls will all have an opportunity to know the joy of fellowship, the good times that come from wholesome recreation, and inspiration.

## "YANKEE" FRIETAG BLANKS STRONG KENSINGTON A. A.

Strikes Out Nine of the Visitors; Louisiana Scores Two on Two-base Hit

### KENSINGTON PITCHER STRIKES OUT FIVE

Last Saturday "Yankee" Frietag, Riverton's pitching ace, turned in his second victory of the season by blanking the strong Kensington A. A. "Yankee" was never in danger of being scored on, due to his own invincible pitching and the errorless support given him by his teammates. Frietag struck out nine of the Kensington clubbers while Dillon struck out five of the Riverton boys.

The time of the game was one hour and thirty minutes. This is enough to indicate that the game was exceptionally fast.

Play by Play  
Kasper, Schultz and Hetrick struck out in order to open the game for Kensington.

In the home half Hopkins and Andrews retired on strikes. Dillon tossed out Peterson at first.

Second Inning  
Kennedy walked, Gankill laid down a pretty sacrifice bunt, being thrown out at first. Frietag to Truman. Wick, fanned. Louisiana threw Welch out at first.

Louisiana tied out to Gankill. Morgan came thru with a neat single to left. Adams fouled to Wick. Snyder threw Wallace out at first.

Third Inning  
Snyder flied out to Louisiana. Dillon and Kasper fanned.

Kasper tossed Truman out at first. Frietag fanned. Hopkins was out at first, Wick to Hetrick.

Fourth Inning  
Schultz flied out to Peterson. Hetrick retired on three strikes. Kennedy singled but Morgan caught him napping at first while Gankill was taking two strikes.

Andrews hit to Hetrick who retired Andrews unassisted. Peterson flied to Kennedy. Louisiana was safe at first on Snyder's error. Morgan was out at first. Schultz to Hetrick.

Fifth Inning  
Gankill flied out to Andrews. Wick lifted one to Bennett in right field. Welch singled. Snyder flied to Truman.

Adams flied to Schultz. Snyder threw out Wallace at first. Truman singled. Frietag forced Truman at second.

Riverton Gets Three  
Dillon fanned. Kasper and (Continued on Page 8)

### TENNIS

Palmyra Club Welcomes New Members

Palmyra Field Club tennis fans are showing more enthusiasm than ever this year and every suitable evening and Saturday afternoon finds a crowd of players on the courts.

The time for tournaments and matches is drawing near and Russell Davis has been appointed chairman of this phase of the club. He expects to announce the particulars of the first tournament early next week.

Two newcomers of note have joined the club. The Rev. W. M. Erhard, the Lutheran pastor, who played during his college career, and Dr. Dunn, the popular dentist, who fails to find sufficient exercise in yanking out jaw teeth and no place to do some reducing on the courts. The other players are wondering whether they should risk trying to trim either one of these racquet wielders, especially the dentist, for the fear they might be in his power some day.

Miss Helen McConnell has charge of the girls' division and reports several new members. Any lady wishing to join the club should get in touch with Helen at once.

Men players may obtain information from Wilbur Crane, James Rustie, Frank Chambers, Monte Sims, Roy Hardy, Harry Strang, Elmer Loughery, Harold Baker, Newton Morton, Russ Davis, James J. Tomes, Eugene Meyers or any member of the field club.

Everybody is welcome and the club is anxious to keep on increasing its membership.

FINE INCREASED

Edward Bowers, of Riverton, who was fined \$75.00 and had his license revoked three weeks ago for driving while intoxicated and for reporting to an officer an accident in which he was involved, was given a second hearing Saturday evening on order of Commissioner D.H.I. The minimum fine for this offense is \$200. Justice of the Peace E. C. Conington, who wished to let Bowers off easy, was ordered to add \$125.00 to the original fine.

Coming Events

June 24th—Cinnaminson Lodge 1, O. O. F. will make a return visit to Spring Garden Lodge, of Philadelphia.

June 25—Presbyterian Sunday School Picnic, Wissinoming Park.

June 26—Central Baptist Bible School Picnic to Newnamy Falls, Pa. Buses leave church 8 a. m. and 1 p. m.

June 26—Food Sale by Ladies Aid of Episcopal St. R. Church in front of Wimer's office, 10 a. m. on.

June 27—Community Service, Westfield Meeting grounds, 7 to 7.30.

July 10—Coke and Ice Cream Sale by the Eden Bible Club of the First Lutheran Church, in trust of George W. Wimer.

### THIRTY DAYS

Colored Man Jailed For Rampage in West Palmyra

Thirty days in the county jail, was the sentence meted out to Henry Hilton, colored, Fifth and Arch streets, by Justice of the Peace Fichter before whom Hilton was tried Monday afternoon.

Hilton was found guilty of beating Mrs. Maggie Graham, white, Second and Market streets, Sunday evening and after doing this broke down the door of her home and crashed in several windows.

A call was sent to the police headquarters and Officer Joseph Rodgers responded. When he arrived on the scene there were about fifty or sixty colored residents about.

Rodgers placed his man under arrest and Hilton refused to go. A call was sent for help and Officer Rodgers, with the aid of several other officers, arrived on the scene. Hilton was already on his way to the Police Headquarters with his man.

Hilton was placed in a cell overnight and tried Monday afternoon.

### Twilight League Holds Meeting

Officers and Directors of Palmyra-Riverton Sports Organization Chosen

The new Twilight League organized for Palmyra and Riverton held a very poppy meeting at the home of the new president, William R. Stevens, 14th and Cinnaminson avenues, Monday evening. At this time the other officers elected were, George D. Steedle, vice-president; Birdall La Force, secretary, and James M. Weart, treasurer.

The new league's policy is "co-operation" and towards this an advisory committee has been appointed to assist in the managing of the team and the careful and orderly conduct of the entire league.

President Stevens is very anxious to receive suggestions from any player or fan who attends the games.

Up to the present time the collections at games have been good and it is believed that those who have contributed would like to make suggestions towards the running of the entire outfit and these thoughts will be gladly entertained by the new president.

The advisory board is: Charles A. Delts, Baptist; George D. Steedle, Riverton Greys; Birdall La Force, Methodists, and Fremont Truman, Firemen.

The schedule committee is composed of the managers of the various teams.

The number of players on each team is unlimited and they do not have to belong to the organization but they must be signed up and their names turned in before July 15th.

The league is being operated on a "no pay for any job basis" and this means that the men are in it for the enjoyment and fun to be obtained.

It is all for fun whichever way you look at it. Come out and enjoy yourself. It will do you good and you may be able to pass away an evening when you don't know what to do.

The games are played Tuesday and Thursday evenings.

### NO CELEBRATION

Palmyra Will Have No Program on Fourth this Year

At a meeting of the Fourth of July Committee held in the Police Headquarters, Broad street, last Friday evening, it was decided to abandon plans for a celebration in Palmyra for 1936.

J. Edwin Lees, Chairman, called the meeting and sent notices to the twenty-five members. Of these only five responded and they were unanimous in the decision.

The reason given was that there will be no many celebrations in other nearby cities that it would be foolish to arrange a similar affair here.

There was not one member of the committee who favored a celebration and it was decided to concentrate efforts on the Old Home Day celebration to be held here during the latter part of September. The date will be announced later.

Robertson Regains Lead

P. W. Robertson found his way back to first place in the L. I. boat race last Saturday afternoon, with Crowell second, Showell third and O. H. Mattis last. Billy Baker, sailing Miller's boat, fouled the buoy and was disqualified.

Owing to the trip on which Doreen Showell, John Ayres and Charles Knight started last Saturday morning, there were only three boats left to participate in the sixteen-foot class.

Just before starting Larry Dickinson, John Fuller and Owen Merrill brought their boats up to the starting line. Owen was warned that he might have a hole shot in his sail if he stuck too close to the wharf.

The youthful skipper neglected to take the warning and when the starting gun was fired a hole was torn in the mainsail. This put Owen out of the race and narrowed the contest down to Larry Dickinson and John Fuller. Larry gave John an unmerciful thrashing, but this is not to John's discredit for he put up a fine race considering he was his first time at the helm in this class.

### FERRY CHECK-UP

Students Gathering Data For Bridge Committee

Information and data concerning the destination of cars crossing the Palmyra-Tacony Ferry is being gathered by a squad of ten young students for Charles A. Wright, President of the Ferry Company.

The data obtained will be used in the formation of plans for the proposed bridge across the Delaware River between Palmyra and Tacony, backed by Mr. Wright.

The checkers stop each car and write down the number of passengers, where they come from and their proposed destination, also the route they will take.

The stockholders of the Ferry Company have been assured by Mr. Wright that the proposed bridge will not have any effect upon the ferry because the bridge is intended only to take care of the excess traffic in South Jersey within the next five years.

W. P. Roland, of Cornell University, is in charge of the checkup. The other checkers are C. A. Roland and Robert Killoch, of Germantown Friends High School; W. Lord, Jr., of Penn State; George A. West and R. W. Barker, of the University of Pennsylvania; A. F. Horton, of Haverford College, and Edward Gordon and Allan Hemphill of Palmyra High School.

### Memorial For Class Member

High School Seniors Make Gift to Perpetuate Memory of Rosalie Roberts

One of the most affecting events that ever took place during a commencement program occurred last Thursday evening when Leo C. Terrell, President of the graduating class of Palmyra High School, presented the school with \$300 as a memorial to the late Miss Rosalie Roberts, a member of the class.

Just four weeks prior to the date of his funeral, he married Miss Ellen, daughter of 7031 Shellborn street, Philadelphia.

The body may be viewed after seven o'clock Friday evening, June 25, at the home of his father-in-law, 7031 Shellborn street.

The funeral will be held Saturday afternoon at 2 o'clock at the Shellborn street address. Interment will be made in Fernwood Cemetery.

Palmyra Lodge Holds Enjoyable Entertainment

"Charter Member Night" of Palmyra Lodge Number 67, Knights of Pythias, was held in the P. O. S. of A. Hall last Thursday evening.

Of the original fifteen charter members three have answered "The call beyond" three were on "The sick list" and the remaining nine were present.

Over 150 members were present and it is hoped that at the next meeting even a greater number will turn out.

The Palmyra Lodge is thirteen years old and during that time it has made wonderful progress.

Delegations were present from Philadelphia, Mount Holly, Bordentown, Burlington and Grand Lodge Officers from Somerville and Paterson.

Mayor James Weart gave a brief talk on the work of the organization and lauded the local lodge.

Music was furnished by the Palmyra Band and refreshments were served by the committee.

The next meeting will be held Thursday evening.

### OVER EMBANKMENT

Bruce Beahn and Mother Escape Serious Injuries

Mrs. Margaret Beahn and her son, Bruce, of Spring Garden street, Palmyra, escaped serious injuries when the car in which they were riding was struck by another automobile and hurled over a twelve-foot embankment near Cambridge on the River Road Tuesday morning.

Bruce Beahn was driving and was turning in Hoffman's lane, near Buck's Bridge, Cambridge, when a speeding machine driven by J. Sussman, of Camden, struck his rear fender and hurled the Beahn car over the embankment.

It was with some difficulty that Mrs. Beahn was extricated from the wrecked car, but fortunately neither she nor her son were severely hurt, although their machine was badly damaged.

Bruce had looked to the rear before making the turn, he says, and thought he had plenty of time, but evidently he failed to take into account the rate of speed at which the Sussman car was traveling.

Sussman's machine skidded a hundred feet before it could be brought to a stop.

A SOMEBODY

A somebody is one whose physician thinks a subpoena more dangerous than germs.—San Francisco Chronicle.

"COMMITTEE OF 50" WILL PAY \$1 A WEEK

M. Southamer, treasurer of the Riverton Insect team, has organized a "committee of 50" who will give a dollar each week to insure the financial security of the team this season.

There men are demonstrating their faith in Insecta in Riverton to the way they speak loudly—they are putting their money into it.

Now let those who SAY they want a team in Riverton match their actions against this "committee of 50." Let them attend the games, root and cry loudly.

AMBULANCE

Four checks were received by Mrs. John C. McKeen, Treasurer of the Palmyra Ambulance Association, on donations during the past week.

The checks were from: Alfred Frenzel, Ferry, \$5; Annabelle Bracy, Riverton, \$10; Arthur Stickle, Inwood, \$10; and A. J. Willis, Inwood, \$10.

It is noticed that the ambulance is rendering valuable service to the towns along the river and the residents are truly grateful for the aid and their donations have been quite liberal.

## MYSTERY IN LLOYD'S DEATH

Neck Broken, But How Accident Happened Is Not Known; Married Four Weeks

### DIES ON WAY TO HOSPITAL

Wesley Lloyd, formerly of Riverton, was injured shortly before eight o'clock Tuesday morning in the Camden Terminal of the Reading Railroad, and died on the way to the West Jersey Homeopathic Hospital.

The manner in which Lloyd received his fatal injury is not known. Three possibilities have been suggested. The railroad authorities believe that Wesley leaned too far out of his cab window as the train was pulling into the terminal and that his head struck one of the uprights supporting the roof of the platform.

Another theory is that he was climbing down the steps on the side of the locomotive and that his neck was broken when he was hit by a switchman's shed, close to the track. There is some thought that he was bending over and when he straightened up he hit his head on the cab roof.

Lloyd was a veteran of the World War. He was a member of the 11th Infantry while encamped in the Northern States, and when he was sent South he was transferred to the 11th Heavy Field Artillery. He served as a mounted police with the United States Army in France.

Lloyd was the son of Harry Lloyd and was born and raised in Riverton. He took part in the athletic activities in the town, being a member of the Riverton football team for several seasons. He was twenty-eight years old.

The deceased who was one of ten sons, is survived by a brother, Ezra Lloyd, of Riverside, and a sister, Mrs. John Ayres, of Hackettstown.

Just four weeks prior to the date of his funeral, he married Miss Ellen, daughter of 7031 Shellborn street, Philadelphia.

The body may be viewed after seven o'clock Friday evening, June 25, at the home of his father-in-law, 7031 Shellborn street.

The funeral will be held Saturday afternoon at 2 o'clock at the Shellborn street address. Interment will be made in Fernwood Cemetery.

### KNIGHTS OF PYTHIAS

Palmyra Lodge Holds Enjoyable Entertainment

"Charter Member Night" of Palmyra Lodge Number 67, Knights of Pythias, was held in the P. O. S. of A. Hall last Thursday evening.

Of the original fifteen charter members three have answered "The call beyond" three were on "The sick list" and the remaining nine were present.

Over 150 members were present and it is hoped that at the next meeting even a greater number will turn out.

The Palmyra Lodge is thirteen years old and during that time it has made wonderful progress.

It is noticed that the ambulance is rendering valuable service to the towns along the river and the residents are truly grateful for the aid and their donations have been quite liberal.

### COURTESY COMMITTEE

Arrangements have been made by the Riverton Fourth of July Committee to place at the disposal of those needing such service the use of automobiles and trucks to and from the river bank for the Independence Day celebration.

It is thought that by this means many of the aged, infirm or invalids might be able to enjoy the exercises for at least a part of the day who would otherwise be deprived of this pleasure.

There will be no charge for this service, which will be rendered by a number of car owners who have offered cooperation.

Telephone Riverton 544 before 9 o'clock, Monday morning, July 5.

### Hospital Fund Is Now \$395,521

Money Still Flowing In, and Total May Reach New Goal of \$450,000

A large tablet will be placed in the Walling Room of the proposed Burlington County Hospital as a memorial to the workers during the drive for funds.

The basis for the tablet will be that every district that turned in \$5000 or more will have its name inscribed on that memorial.

Those who have not contributed as yet are requested to do so before Saturday, June 24, and mail their check to Richard E. Wilson, Palmyra Chairman, or to any of the District Captains.

Palmyra has made a very good showing to date but it is hoped that the total will grow before the closing date.

The financial report from Palmyra is as follows:

Dist. 1	\$1184.85	299 pledges
Dist. 2	461.00	68 pledges
Dist. 3	558.50	135 pledges
Dist. 4	928.00	158 pledges
Exec. Comm.	400.00	10 pledges
Collection	80.00	8 pledges
Miscel.	8.00	1 pledge
Total	\$3862.45	589 pledges

The following list of workers are publicly recognized for their efforts in this humanitarian work:

Frank Bua, Lewis Harker, James Webb, Betty Baladi, John Roushew, T. L. Morris, George N. Wimer, Harold A. West, George Hardeker, Granville Malone, Charles Goner, G. W. Spahr, C. O. Melcher, M. H. Sheffield, A. C. Hirsch, Richard Baladi, George W. Rogers, Mr. and Mrs. H. J. Clifford, Mc Mahon, Wm. B. Powell, Mrs. Eula Roach.

Wilbur Crane, George I. Harvey, Wm. McConnell, Charles A. Delts, Wm. T. J. Purcell, Walter Lamon, Alfred E. Fowler, Mr. and Mrs. Chas. K. Mervin, Samuel Scott, Alfred Bauer, Elwood Hoepfner, Mrs. Richard E. Wilson, Capt. S. D. Alberson, Rex McCrosson, Fred W. Beeber, Capt. G. W. Bond.

Total Now \$395,521

Over twenty-three thousand dollars coming in since the first definite report of contributions for the new Burlington County Hospital was made at the meeting of workers in Mount Holly on Monday night of last week has run the total pledged to date to \$395,521.15.

One unexpected contribution came this week from Miss Mary A. Dobbin, of Philadelphia, one of the best friends of the Burlington County Children's Home in Mount Holly and a most liberal contributor toward the establishment of that institution in its present location and toward its maintenance. Miss Dobbin had not been seen about the hospital prior to the closing of the intensive campaign conducted during the two weeks beginning June 1, and her contribution of \$15,000, equal to the largest given during the active soliciting, came as a pleasant surprise that has given new encouragement to the Board of Council executive committee now handling the work of finishing the campaign.

Elizabeth Haines, of Chatsworth, has sent in \$1,000 since the campaign closed; employees of the New Jersey State Colony at Ford Mills have given \$100, and George D. Davis of Cedar Lake, has contributed \$100. There are additional smaller contributions and the prospects of reaching \$450,000 look mighty good.

Follow-up Planned

Under the general direction of Charles Colver, of the Board of Council, the reports made by the various captains of the soliciting teams are now being audited and a follow-up system is being laid out for the handling of the pledge plan and the collection of funds promised. After this first important layout has been finished the balance of the work will be in charge of Mrs. W. Floyd Pish and Miss Madge E. Huff, and they will carry it on during the twenty months covered by the plan. There is much detail to be handled right now in order to prepare for the first notes to go for the July 1 payment and the hospital headquarters is a busy place both day and night. It seems as though Mr. Colver has resigned most everything else temporarily.

There are some fine reports about additional contributions expected from those who held off during the progress of the big campaign and it would not be surprising to see another \$25,000 or more come in during the coming week. The hope is still maintained that some of those who did not give to the limit of their means and to the satisfaction of their feelings before the end of the collection period is reached and that these good citizens upon their heart again the next week or so will show a fine step forward toward the great goal. Those who want to increase their pledges and those who have not yet made any contribution should get in touch with their district captains and make their plans without further delay.

### NEW BOOSTER

Riverton and Palmyra gained another booster when John Reunis, of Merchantville, purchased a home from the Palmyra-Riverton Realty Company situated near the Riverton Golf Course.

Mr. Reunis has established his family in the new home and is quite enthusiastic over the wonderful towns of Riverton and Palmyra.

Task of those who have been working so hard to give Burlington County people the kind of beautiful their ways of living suggest they should have without further delay.

## RIVERTON PLANS BIGGEST INDEPENDENCE CELEBRATION

FLAGS WILL BE READY FOR THE 4th

Riverton Chamber Committee Has Arranged to Install 140 Flags at Curb

The committee appointed by the Riverton Chamber of Commerce at the last meeting to arrange for placing flags at the curb at Broad street and Main street, reports that 140 flags have been purchased, and that the sockets in which the flags will be placed will be put in within the next few days—probably this week.

These flags are made of wool bunting, U. S. Navy specifications, with sewed stars and stripes, and present a most attractive appearance. The size is 3x5 feet. The cost of the flag, including installation, will be in the neighborhood of \$3.00. The same flag purchased in small quantities and installed by individuals would cost from \$5.00 to \$6.00.

The fact that the installation is being done at one time under the supervision of the Chamber of Commerce insures proper spacing. The distance between flags will be about 75 feet and the appearance will be most pleasing.

On Main street, the flags will be placed from Eighth street to the river, and on Broad street, from Eighth to Fulton.

The committee in charge of this work is L. G. Rogers, A. H. Weber, John Holvick and George D. Steedle.

### Auto Hits Bridge; Five Injured

Riverton Man and Party of Friends Victims of Sunday Accident

Five persons were injured Sunday afternoon when the car driven by Francis Franks, of Riverton, crashed into the abutment of the bridge at Rancocas Park on the Mount Holly Road.

The injured are: Miss Helen Adams, of Lincoln avenue, Palmyra, fractured skull; Mrs. E. Adams, her mother, bruised; Fredie Franks, cuts about the head; Mrs. O. Irving, of Philadelphia, cuts and bruises; and Miss A. Steinkopf, of Ardmore, cuts and bruises. Mrs. Irving and Miss Steinkopf are nurses of Mrs. Franks.

Mr. Franks and his wife's niece attended Church Sunday and after the services were over invited Mrs. Adams and her daughter to go riding with them. The party drove over the Mount Holly Road and were passing Rancocas Park when a car swung out of the line of traffic.

## County Committees Hold Organization

**Charles R. Stout Heads Republicans While Frank Abalom Leads Democrats**

Charles R. Stout, of Florence, was re-elected chairman of the Burlington County Republican Committee at a meeting held in Mount Holly Monday evening and will continue to hold the political reins. There was no opposition.

The meeting was called to order by Alfonso Adams, of Florence, assistant secretary of the committee, and George Wimer, of Palmyra, was made temporary chairman.

Others re-elected were Mrs. Elizabeth G. Terry, of Edgewater Park, first vice-chairman; Mrs. Anna R. Newcomb, Brown's Mills, second vice-chairman; William H. Helzer, Jr., Pemberton, secretary; Alfonso Adams, Florence, assistant secretary, and George Wimer, Palmyra, treasurer.

The executive committee will include Joseph Hyton, Riverton; Elwood H. Russell, Burlington; Mrs. Marion C. Roberts, Moorestown; Mrs. Deborah Stratton, Moorestown; Joseph B. Fleetwood, Mount Holly; Evelyn A. Belcher, Medford; Glenn A. Landis, Burlington; M. E. Malachuk, Mount Holly; Carlton Haines, Tabernacle; Cornelia B. Ford, Beverly; John Geiss, Riverton; Caroline H. Haines, Burlington; Walter D. Lamos, Palmyra; Mrs. Mary Krupnick, Mount Holly; Radford Van Poll, Roanoke; Kater, Bordentown; George Stout, Moorestown; Mrs. Pearl Bridgman, Hainesport; Miss F. Godfrey, Moorestown; J. Lloyd Wright, Medford; Florence H. Haines, Vincennes; Mrs. Caroline H. West, Edgewater Park; Cora Carson, Burlington; and William J. Fickenscher, Jr., Maple Shade.

The committee went on record as being opposed to changing the primary election system.

The Democratic County Committee also organized by electing Frank Abalom, of Florence, chairman; Mrs. Mary Burke, Bordentown, vice-chairman; Francis Mulroney, of Moorestown, secretary, and Mrs. Clifford Emmons, Pemberton, treasurer.

Mr. Abalom had opposition, Mrs. Florence Jacoby, of Edgewater Park, member of the Democratic State Committee, presented the name of Frank Hendricks, of Mount Holly, and also placed Harry Barklow, of Moorestown, against Mr. Emmons. The vote was 12-7 in favor of the Vandegrift-Cunningham faction. Afterward the choice of the committee was made unanimous.

## Rotary To Send Boys to Camp

**Palmyra-Riverton Club Plans Outing For Lads From County Orphanage**

At their June 10th meeting and dinner, of the Palmyra and Riverton Rotary Club, each member found at his place a small jar of honey, the gift of Richard D. Barclay, largest beekeeper in the State, who was the guest of Rose Mattie at this meeting. "Dick" explained that the jars contained what he calls his "season blend" of honey, which is composed of a mixture of all his best grade table honey. The less attractive grades are disposed of to candy makers.

Elmer G. Carr, Deputy Bee Inspector of the New Jersey Department of Agriculture, was the speaker of the evening. He presented to the Club some most interesting facts and figures concerning the keeping of bees and the extent of the industry in the State.

Careful and frequent inspection of colonies is necessary to prevent spreading of disease, but fortunately no ill effects follow the use of honey from a diseased colony. Mr. Carr stated that there are 8000 beekeepers in this State, and that they are organized for the purpose of improving the quality of the honey and manner of caring for the bees.

Dr. Mills explained how he found honey useful as a substitute sweet in the diet of diabetic patients.

The Club met again for dinner, June 17th, and several local matters came up for discussion.

The secretary was directed by an unanimous vote to write the Ferry Company commending it for its progressive activity in promoting the Tacony-Palmyra bridge.

When Boys' Week is mentioned all good Rotarians sit up and pay attention. The president announced that for \$10.00 a boy could have all the fun of Camp Ockenikon for a week, and proposed that all the members that could do so should send a boy from the Mary Dobbins' Orphan Home at Mount Holly. This is said to be a splendidly organized and managed home, but the boys of a certain age used to be gotten out in such a camp to increase their confidence and allow them to mix with other boys.

The Club welcomed Walter Friant, of Camden Rotary, as a guest.

The speaker was Captain H. P. Marshall, of Palmyra, an Commercial Aviation, but by the time the meeting ended all kinds of aviation had been discussed. Captain Marshall saw "even months of service on the flying front in the World War. He was sent abroad with but twenty hours of practice flying, and with all that he did in France, he said that it totaled less than an aviator is required to fly in practice to get a commission now.

**Commercial Flying**  
Mechanical improvement has been so great that there remains only the question of the confidence of the public to put commercial flying on a sound financial basis. Present statistics show that in respect to safety of the passenger, flying ranks first over automobiles and railroading. Air mail pilots are required to have had fifteen hundred hours of flying experience to make them eligible, and there are two thousand on the waiting list now for fifty jobs in the air mail service. Aerial photography is being used extensively for the bringing up to date of city and township maps for tax purposes, and for laying out prospective high tension lines without arousing the suspicion of land owners.

Captain Marshall feels that Colonel Mitchell accomplished a most successful national reconnaissance and

up the moral and efficiency of the service, and that his dismissal has been a real loss. There has been some reaction, however, which is already manifested in the large appropriations by Congress for new planes.

**Parachute Reliable**  
In answering numerous questions, Captain Marshall said that most of the planes flying over this section are army planes passing between Washington and Long Island and that there is only an occasional mail plane. The present army parachute was adopted in 1919, and there is no case on record of the chute failing to function properly. Even though unopened, each parachute has to be opened up and repacked by an expert every sixty days, at a cost of about \$7.00.

A chute opens up in about four-fifths of a second and the man counts three after he steps off the plane and before he pulls the releasing ring. The Captain feels that the United States is keeping pace with other nations in aerial inventions and developments, and said that a British firm had recently secured a license to manufacture an American plane.

## THREE RIVERSIDE MEN PENN GRADS

Leon Rascely, Charles H. Maloney and Lawrence Dallett Received Degrees

Three students from Riverside were graduated from the University of Pennsylvania on Wednesday, June 16, at the University's 170th Commencement Exercises.

The Riverside graduates were Charles H. Maloney, 15 Washington street; Leon H. Rascely, 314 Dauphin street; and Lawrence R. Dallett, 301 Cleveland avenue.

Maloney, who attended the Central State Normal School before he matriculated at the University of Pennsylvania, took the course in the Wharton School of Finance and Commerce, while Rascely, a graduate of Palmyra High School, took the College Course. The latter was a member of the Alpha Pi Epsilon Fraternity.

Dallett was graduated from the Towns Scientific Engineering School, having taken the course in Chemical Engineering. He belonged to the Alpha Chi Sigma and Sigma Tau Fraternities, the Alamo Senior Society, "Man About Town" Club, Priestley Club and was a member of the cast of the plays presented by the engineers during his third and fourth years in college. Rascely plans to continue his college work, embarking next fall on a three year law course.

## AN APPRECIATION

I wish I could thank personally the many people of Burlington County who supported me and worked in my behalf at the recent Primary Election, thus enabling me to secure the nomination for member of the Board of Chosen Freeholders on the Republican ticket; but since this is impossible I want through this means to express my heartfelt thanks and appreciation and to bespeak their continued support and that of all voters, for the whole Republican Ticket at the November Election.

William H. Helzer, Jr.

## Attendance Shows Big Improvement

**Eighty-four Pupils in Palmyra Schools Were Neither Tardy nor Absent**

A marked improvement in attendance was made this year by the classes of the Palmyra High and Grammar Schools during the past school term.

In the High School thirty-six students were neither late nor absent during the year, and there was thirty in the Grammar School and eighteen in the primary school.

A. S. Griffith, Superintendent of the Palmyra Schools, and Miss Patterson, Principal of the Grammar School, were both very much pleased with the improvement.

The pupils are realizing the tremendous benefits to be obtained during school hours and are improving in attendance each year.

Each pupil received a certificate from the State Board of Education in which they are commended for their efforts during the past year.

The following were neither tardy nor absent during the 1925-26 term:—

**High School**

Helen Enstet, Margaret Hall,

Jantha Dixon, Helen Perkins, Perrell

Stanford, Mary Manoe, Paul Muel-

ler, Marion Schrank, Pearl Gilbert,

Bessie Hyman.

**John Diorio, Mildred Roach, Ray-**

**mond Schreiber, Harold Quicksall,**

**Elwood Poulson, Lillian Davis, Ger-**

**trude Croach, Howard Sorden, Helen**

**Bates, Virginia Good.**

**William Branson, Harry Orcutt.**

**Wins Essay Prize**

Cecil Thompson, of Palmyra, to Re-

ceive Scholarship

A Palmyra youth has again car-

ried off honors.

Cecil G. Thompson, 708 Lincoln

avenue, has been announced as a

winner of the essay contest on ac-

countancy conducted jointly by the

American Extension Institute of

New York and the Camden Courier.

All of the large number of essays

entered in the contest were of such

excellence, according to the judges,

that selection of the winners was

a difficult task. The papers covered

the three questions: Accountancy as

a profession; the advantages of an

extension course; and "What impor-

tant features would you consider es-

sential towards the mastering by

correspondence of a subject like

accountancy?" Young Thompson will

receive as the prize, a complete

course in accountancy, valued at

\$175.00, free of all charges.

The course takes the student

from the fundamentals of bookkeep-

ing through the successive steps of

principles of accounting, intermedi-

ate accounting and auditing to the

last unit of advanced accounting.

Cecil will also receive personal

coaching from a professional ac-

countant in this community.

**NOT OVER 25**

A drive will be made on speeders

in the Borough of Palmyra, accord-

ing to Chief of Police C. Morris

Beck.

The state law provides for a

speed limit of twelve miles an hour

in towns, but Palmyra graciously

extends this to twenty-five miles

per hour and Chief Beck feels that

any man driving over this limit is

endangering the lives of pedestrians.

Signs bearing the inscription

"Speed Limit Will Be Enforced"

will be placed along Broad street

within the next few days.

## PUBLIC SERVICE

NUMBER THREE

**The Owners of Public Service**

To provide the facilities necessary in order that gas, electric and transit service may be rendered to the thousands of New Jersey people who look for its provision to Public Service requires millions of capital.

In large part this capital is being provided by New Jersey citizens, customers of Public Service companies, whose confidence in the State and its utilities leads them to invest money in Public Service securities.

These security owners, and there are well over 60,000 of them, are through their investment making it possible that those who require heat, light, power and transportation, shall be adequately provided for—and so, they are rendering good service.

## Splendid Swimming Exhibition Given

Moorestown Community House Packed by Spectators Tuesday Evening

An exhibition of fancy diving and swimming which could probably never be duplicated again took place Tuesday night at the Moorestown Community House. The popular natorium was packed to capacity and the people of Moorestown were shown swimming at its best and swimming as it should be.

Erna Mae Lucas, who holds the 50-yard championship of Cincinnati, started the evening off with an exhibition swim of two lengths of the pool. This swim was not for time, but was done to show the proper form. There was nothing lacking as far as this was concerned and the forty yards was completed in an admirable fashion. Herman Ringer, Middle Atlantic high board senior champion and Middle Atlantic low junior champion, gave an exhibition of fancy diving. He demonstrated the swim, front jack, back jack, flip and a half, full gainer and other fancy dives. His co-worker in this demonstration was Edwin Schatzkowski who finished third in Middle Atlantic.

Margaret Ravioli, breast stroke Middle Atlantic champion then did 100 yards free style in 1:10. Miss Ravioli finished third last summer in the national championships in Detroit, also finishing second in the mile. Maxine Meitner of Riverton, gave a demonstration of the stroke she intends to propel herself across the English Channel in the near future. She has made many long distance swims, including Philadelphia to Riverton, Ocean City to Chelsea, and Ocean City to Young's Pier, Atlantic City. Miss Meitner also swam ten miles in the pool of the Camden Y. W. C. A., remaining in the water for ten hours and fifteen minutes.

Marie Hillgaass gave an exhibition of fancy diving, clearly demonstrating her right to the Middle Atlantic State diving title. She also placed second in the national championships and is Middle Atlantic champion of both the 100 and 120 yard free style dashes. Penn A. C. was well represented by Harry Glancey, who is all-around American champion. He did 20 yards in 1:11, which approaches the record by four seconds. He also went two lengths in tandem fashion, with Erna Lucas assisting. Glancey and Margaret Ravioli gave an exhibition of the back stroke completing two lengths or 40 yards. Along with Marie Hillgaass he also gave many humorous dives, demonstrating the Jewish high dive, submarine, and the soldiers dive. George Corner, of Riverton, created a great amount of interest with his sea diving outfit. Walking along the bottom of the pool, he did various stunts, assisted by Maxine Meitner.

Four records for the pool were established which will likely never be equalled. Erna Lucas established a forty-yard free style record of 24 seconds. Marie Hillgaass did forty yards breast stroke in 29 and 4-5 seconds. Margaret Ravioli set up a record for 60 yards finishing the three lengths in 37 seconds flat. The greatest record of all was made by Harry Glancey, who went five lengths of the pool or 100 yards in 55 seconds. He was paced the last 40 yards by Walter Wood, another Penn A. C. star. A number of well known local performers were seen in action. "Sonny" Wright, well known Riverton star, gave an exhibition of fancy diving, along with "Rum" Miller, "Hill" Clifton, "Jim" Foy and other athletes.

Harry Cochran, swimming coach of the Penn A. C., was the referee of the affair and gave many side-lights of the sport to the audience. Too much credit cannot be given to "Al" Leacy and Frank D'Oliver, who through their untiring efforts, made the meet possible. It is hoped that the interest created will be lasting and that the many spectators received a new incentive for swimming and all that the sport includes.

## PESTS DAMAGE JERSEY VEGETABLES

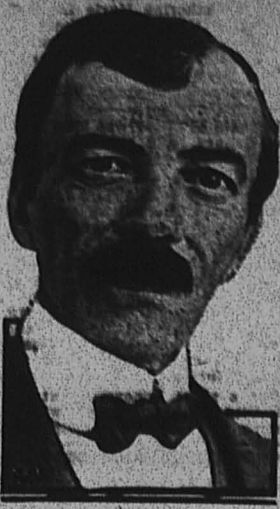

Outworn, Aphids and Maggots Causing Many Losses

Vegetable growers in all parts of the state are experiencing much trouble this year with certain insects. The specialist in vegetable gardening at the state College of Agriculture has seen a 20-acre field of peas fall to produce one bushel of salable peas, because of the ravages of aphids. Thorough dusting with nicotine dust in the early stages of infestation, he believed would have saved the crop.

Outworn are particularly bad this year, doing much damage to beans, tomatoes, eggplants, sweet potatoes, and other crops. This worm is being controlled by careful growers who apply poisoned bran mash in the evening near the plants, placing it where the pest is most likely to reach it.

Reports are coming in that string beans and lima beans are not doing well in certain sections, because of a maggot which works in the seed and young stems. This has been found to be the seed-corn maggot, which infests corn, cabbage, beans and peas. It even feeds sometimes on seed potatoes onions. The only means of prevention so far discovered is to plant the seed so that it will germinate quickly and send out strong sprouts. To accomplish this in cold wet weather such as has prevailed in some parts of the state this year, some growers plant shallow. When rapid growth occurs, injuries of the insect seem to be outgrown.

## Persian Pretender

Prince Riza Kuli Mirza of Seath, Wash., is the rightful heir, by direct descent, to the Persian kingdom. But he now occupies a one-room lodging and has no great hope of being called to the throne.

## Palmyra Team Defeats Frankford

Harder Allows Eight Hits, While Locals Garner Twelve

The Palmyra baseball team tucked another victory under its belt when it defeated the Frankford A. A. Saturday in a thrilling game by a score of 12-8.

The game, played on the local diamond was one of the best this year and the boys are elated over their success. Harder, Palmyra's tosser, allowed only eight hits while he and his teammates gathered in twelve, each resulting in a run.

Saturday the locals will play Belvidere, of Camden, at Palmyra.

## NEW NASH RECORD

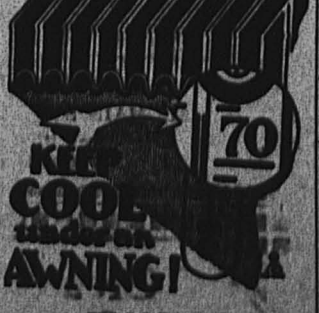

May hung up another record for Nash production and sales! The month of June ended showed a gain of 44.3% over the sales record of May, 1925 and was the twenty-first consecutive month, with one exception, that Nash production and sales exceeded the figure established in the same month of the previous year.

"In connection with the Nash sales and production record for May," said E. H. McCarty, general sales manager of The Nash Motors Company, "it is interesting to note that although 1925 was the biggest year in Nash history, we have built and shipped more cars in the first five months of this year—from January 1 to May 31—that were built and shipped in the last eight and one-half months of last year—January 1 to September 15—This is 14,413 more cars than were produced by Nash Motors in the entire year 1924."

"The Nash dealer contract year begins September 1 and in the nine months from that date to May 31 Nash Motors has built and shipped the dealer organization 101,403 cars."

Second J. M. D.—How come?

"The studio gateman refused to let the fire department in without a pass."

## County Firemen Hold Meeting

Practically every fire-fighting unit in Burlington County was represented at the monthly meeting of the Burlington County Firemen's Association which was held in the Grange Hall, Burlington, last week.

The meeting was one of the most interesting of the many staged by the organization. The Burlington Fire Department, the Independent Company, Springfield, and the Beverly Road Company, were the hosts and the visitors were given a royal time which embraced a dinner and an entertainment program by professional talent.

The meeting was in charge of David A. Brotherton, president of the County Association and president of the Beaverbrook Fire Company of Burlington.

J. R. Francis, speaker. One of the speakers was John R. Francis, chief of the New Brunswick Fire Department. He spoke on fire prevention and gave some excellent information along that line.

The chief is one of a committee that is making an investigation of the fire hazard in schools throughout the state. The committee is listing schools without fire escapes and gathering other valuable data. He told much of the work under way.

Chief Francis submitted a report on "Ventilation at Fires" which was read by former Sheriff Edward H. Farg, of Riverton. The paper was an especially important one. It told of the old fashioned method of no ventilation at fires and the present method of permitting smoke to escape and making the work of the firemen easier and safer.

Another interesting speaker was George Greenfield, chief of the Kearny Fire Department, and president of the State Chiefs' Association. He has been a fireman for thirty-six years and an officer for twenty-five years.

One of the features of his address, which related to fire matters generally, was a warning against non-oxide gas, which hangs over power lines and is more deadly. Mr. Greenfield said that the use of gas masks in fire fighting.

At the conclusion of the meeting, which was held on the second floor of the Grange Hall, the visitors went to the room below where an excellent supper was served. The entertainment included four acts of vaudeville which was much enjoyed.

The meetings of the County Association are held on the third Wednesday night of each month. They take place in the various towns and are important in that they permit the firemen to get together, compare methods of fire fighting and thus enhance efficiency throughout the county.

**HELLY—MAGPHERSON**  
Miss Anna MacPherson, of Maple Shade, and John E. Helly, of Wisconsin, formerly of Masonville, were married at the Maple Shade Congregational Church last Saturday evening at six o'clock. The ceremony was performed by the Rev. Frank R. Ritter.

The couple was attended by Miss Florence McAllister, of Maple Shade, as maid of honor, and Earl Kelly, of Wisconsin, the bridegroom's brother, as best man. After being followed by a party of friends in automobiles, the happy couple finally departed on their honeymoon by way of the Tacony-Palmyra Ferry. The newlyweds made the trip to the ferry in two different cars, changing at West Moorestown Station in an effort to lose their friends. After their return from their honeymoon, they will reside with the bridegroom's parents in Wisconsin.

## ALMSHOUSE

Henry I. Worrell, steward of the Burlington County Almshouse at New Lisbon, submitted his annual report to the Board of Freeholders last week and it shows that Mr. Worrell and his estimable wife, are both striving to make the Almshouse a better place of abode for those committed to their care.

During the year improvements have been made which will save the taxpayers about \$2,000 a year, due to the fact that the hospital and institution proper are now housed under one roof, the west wing formerly used as an asylum having been converted into a hospital, while the former hospital building at some distance away from the main structure has been turned over to the Fairview Sanatorium by the Board of Freeholders.

A new porch has been erected on the west wing for the comfort of the aged and sick, and a new porch is also being erected at the front of the building.

Two or three old buildings have been razed and the lumber and material used for the erection of a central machinery building.

The steward also called attention to the increase of inmates, there having been but 57 in June, 1924, while now there are nearly a hundred.

He also complimented Mrs. D. F. Remer and Andrew M. Smith for their faithful ministrations to the sick and aged.

The expenses for the year were \$41,280.36 and the operation of the farm showed a profit of \$1,027.04. The costs per inmate per day was 80¢ cents.

There is on hand a stock of potatoes, 2,000 bushels of corn, 23 tons of hay and 800 bushels of rye.

## BAUGH—BRENNAN

Wednesday morning of last week Helen Marie Brennan, daughter of Mr. and Mrs. Thomas Brennan, of Marlton, and William Baugh, of Philadelphia, were married at the Church of Our Lady of Good Council with nuptial mass. The Rev. Leo E. Dineen, officiated.

The bride was attractively gowned in white georgette with a veil of white mulline having a crown of orange blossoms. She was given in marriage by her father and was attended by her sister, Miss Mary Brennan, who wore a frock of orchid, as maid-of-honor.

Miss Brennan's little sister carried the veil and her little brother was ring bearer.

After the ceremony, the newlyweds left on a short honeymoon trip. After their return they will reside with the bridegroom's parents in Philadelphia.

School attendance in New York State for the year ended July, 1925, was 58.44 per cent of the total net enrollment, the highest ever reached in the State. In 1894, the year before the enactment of the compulsory education law, the corresponding percentage was 54. The attendance has steadily improved since that time, except during the period of the World War.

## W. C. T. U. ORGANIZED

Chief Purpose of Organization is Now Law Enforcement

Last Wednesday afternoon a meeting was held in the Methodist Church for the purpose of organizing a new W. C. T. U. in Palmyra and Riverton.

The meeting was in charge of Mrs. Nina G. Frantz, of Moorestown, State president, Mrs. Caroline Blair, of Mount Holly, county president, and Mrs. Lippincott, of Moorestown, also took part. About thirty-six were present.

The following officers were elected to serve until the annual meeting in September: Mrs. A. C. Hirsch, president; Mrs. Rachel Lord, corresponding secretary; Mrs. E. A. Griscom, recording secretary.

The purpose of the W. C. T. U. has now become one largely of law enforcement, which is especially needed in this county. All interested women are invited to join.

## MISS BETTY'S PARTY

Little Elaine Celebrates Promotion by Entertaining Friends

Miss Isabelle Elaine Betty, six year old daughter of Mr. and Mrs. Lawrence Betty, 500 West Broad street, was tendered a party in her honor at the home of her parents Monday evening.

Miss Betty was promised a party each year by her parents in honor of her passing of the examinations at school and this is the second one.

Those present were: Blanche Craven, Pauline Rubin, Norma Rosner, Mary Todley, Rita, Josephine and Rosalie Balada, David Sims and Ruth Mead.

## Interesting Information for BUILDERS and INVESTORS

Rare Opportunity to Acquire Beautiful Home Sites in Ridgway Park, Palmyra

This ancient Oak Grove, high, dry and level in the center of the town, is now in course of development by its owner. It is divided into thirty-six lots—the very best the town affords, inasmuch as they are ornamented with fine shade trees that are older than Uncle Sam. Situated within five minutes walk to the trolley line, they represent the last chance of obtaining building sites so beautiful and so favorably located.

A few of these lots are immediately available to home seekers and professional builders. At very advantageous and absorbing prices and terms for quick sale in order to facilitate the work now going on there. They are destined to increase greatly in value in the near future when work on the new Tacony-Palmyra bridge across the Delaware begins.

Therefore be wise and see Dr. Lamb, 429 Horace Avenue, Palmyra. Phone Riverton 107-M.

# Sunday School Lesson

REV. P. E. FITZWATER, D.D., D.D.S.  
of Day and Night  
Institute of Chicago  
(1914, Western Newspaper Union.)

Lesson for June 27

REVIEW: WHAT WE HAVE  
LEARNED FROM THE BOOK  
OF GENESIS

**GOLDEN TEXT**—We know that all things work together for good to them that love God, who are the called according to his purpose.—Rom. 8:28.

**PRIMARY TOPIC**—Favorite Stories From Genesis.

**JUNIOR TOPIC**—Stories of the Patriarchs.

**INTERMEDIATE AND SENIOR TOPIC**—Favorite Characters in Genesis.

**YOUNG PEOPLE AND ADULT TOPIC**—Permanent Messages of the Book of Genesis.

The method of review must always be determined by the department of the Sunday school and by the teacher's preferences. For the young people and adults, perhaps the best method will be to assign the task of finding the most important teaching of each lesson.

The following is suggestive of the method of review recommended:

Lesson for April 11—God created all things. The things which are come to be by the creative act of a personal God. God created man in His likeness and image, which means that man bears God's likeness morally and intellectually.

Lesson for April 18—The explanation of the fall and sorrows of the world can only be made on the basis of the historical fall of man as recorded in the Bible. The prime actor in this tragedy was the personal, cunning, malicious being called the Devil. Because man is a free being, possessing the power of contrary choice, sin entered through man's belief of the Devil instead of God.

Lesson for April 25—Because the human race is an organism, Cain and Abel through the law of heredity came into the world with sinful natures. God taught them the way of approach unto Him was through a bloody sacrifice, typifying the supreme sacrifice made by Jesus Christ on Calvary. Abel believed God, took his place as a sinner and presented his offering accordingly. Cain in proud self-will ignored God's appointed way of approach unto Him. Cain's offering therefore was rejected because he did not recognize himself as a sinner and come to God in the way which God had appointed.

Lesson for May 2—Noah, coming forth from the ark, faced the responsibility of repopulating the new world. In recognition of that obligation and out of gratitude for God's grace in saving himself and family, he erected an altar and worshipped before the Lord. God responded and entered into covenant relationship with him.

Lesson for May 9—Lot's selfish choice involved him in trouble. Abraham, because of his separation from Sodom and unto God, was able to go against a mighty king and rescue his unfortunate nephew.

Lesson for May 16—God manifested Himself visibly to Abraham in the form of an angel. This angel was none other than the Son of God. Abraham thus met Jesus Christ. Christ no doubt referred to this when He said, "Abraham saw my day and was glad."

Lesson for May 23—Isaac, a child of the covenant given in the old age of his parents, was a gentle and peace-loving man. He suffered wrong rather than strive with his enemies.

Lesson for May 30—Jacob was chosen of God. Because of this God was with him. God will keep, protect and prosper His elect even in spite of their weakness and failure.

Lesson for June 6—Esau because of living under the sway of his appetite sold his birthright for a mess of pottage. He afterward repented and sought to undo his deed. Though sincerely regretting his act, it was impossible to change conditions. Our acts and choices are irrevocable.

Lesson for June 13—Joseph was peculiarly beloved by his father. Because of this Jacob unwisely expressed favoritism. This favoritism incited the jealousy of his brothers, who at the opportune time sold him as a slave to men-chantien going down to Egypt. Because of the false accusation of a wicked woman he was imprisoned.

Lesson for June 20—Because of Joseph's fidelity God raised him to a position of honor and power in Egypt. While in this position he made provision against an awful famine which came upon the land and became a means of saving from starvation not only the Egyptians, but his brethren who came down from Canaan. Though they had wronged him he graciously forgave them and provided for them in their need.

## Neglecting Christ

Men who neglect Christ, and try to win heaven through moralities are like sailors at sea in a storm, who pull some at the bowsprit, and some at the mainmast, but never touch the helm.—H. W. Beecher.

## Worth Thinking About

Have you any compelling purpose in life? Is that purpose God's purpose for you? Are you co-operating with God in the carrying out of his purpose?—James F. Higgs.

## SURPRISE

Charles Whitmer, 1109 Morgan Avenue, was given a surprise birthday.

His friends gathered at the home of one of his friends in Moorestown and then came to Palmyra.

When Mr. Whitmer closed his store Saturday evening and came home he was greeted by "surprise" from his well wishers.

Many beautiful tokens of friendship were received by the host.

Friends were present from Philadelphia, Moorestown, Mount Holly and Palmyra.

# SUCH IS LIFE

Van Zelm  
HERE IS A MYSTERY

## PALMYRA NOTES

Russell Davis is spending a week in New York City.

Mr. and Mrs. George T. Baker will spend the coming weekend in New York City.

Mrs. Frank Bilman has returned as the guest of her mother, Mrs. J. Hays.

Miss Margaret Taylor, of Elm Avenue was tendered a linen shower Tuesday evening.

Mr. and Mrs. E. I. Powell and children spent the weekend at Ocean Grove.

Mr. and Mrs. W. B. Powell spent Sunday at Indian Mills with Harley Wright and family.

Mrs. Muriel Rudolph and Miss Emily Harvey, entertained the Philadelphia Class Monday evening.

Mrs. Russell Harper, and son, of Providence, R. I., was the guest of Mrs. H. B. Guidin on Monday.

Mr. and Mrs. Sydney Hatch, of Germantown, were guests of Mr. and Mrs. C. W. Rudolph on Sunday.

Mr. and Mrs. Robert Thomas and Miss Margaret Tomes motored to Atlantic City Sunday.

Frank H. Terry, former coach at Palmyra High School, was visiting friends in Palmyra last Friday.

Dr. and Mrs. W. W. Drye have returned from Lavalite where they spent the past three weeks.

Mr. and Mrs. Francis J. Barr, of Garfield Avenue, entertained her sister, Miss Patricia Grogan, of Lansdowne, over the weekend.

Mr. and Mrs. Albert Smith, of Stonehurst, spent the weekend with her parents, Mr. and Mrs. H. J. Kemmerle.

Thomas Grifflenberg and family and Joseph Scholts, of West Philadelphia, spent Sunday at Seaside Heights.

The Burlington County Association of Shepherds of Bethlehem were entertained Wednesday evening by the Riverton-Palmyra Branch.

Mrs. Theodore L. Morris is entertaining as her guest Miss Elizabeth and Katherine Morris, of Lynch, Maryland.

Mr. and Mrs. John M. Davies and daughter, Katharine and Mr. and Mrs. Wesley Davies and son motored to Atlantic City Sunday.

Mrs. Harry Saul, wife of the Rev. Harry Saul, former pastor of the First Lutheran Church here, was a visitor in Palmyra Tuesday.

Mr. and Mrs. William Macdonald, of Vineland, were the guests of Mr. and Mrs. W. T. Blackburne Sunday.

Mrs. Charles Smelts, of Philadelphia, was the week end guest of Mr. and Mrs. Charles Whitmer, of Ocean City.

Camp No. 8, P. O. of A., of Palmyra will hold its meeting Thursday at 7.45 after which they will attend a district meeting at Merchantville.

Albert L. Morris has accepted a position with W. H. Collisson and Company, Engineers of Ocean City and vicinity and is now residing in Ocean City.

George W. Rogers motored to Atlantic City Monday to attend the convention of the State Board of Freeholders. Mr. Rogers is an honorary member of that organization.

A District Meeting of the Order of the Eastern Star was held Monday at New Egypt, N. J. in honor of Mrs. Selby Williams, District Deputy.

Dr. and Mrs. Gerald B. Smith and family, who have been spending some time here visiting friends and relatives, have returned to their home in Oregon.

Mrs. Russell Blackburne left Friday to join her husband at Birmingham, Alabama. Mr. Blackburne is manager of the Little Rock, Arkansas, baseball team.

Mr. and Mrs. Harold Baker are receiving congratulations upon the birth of a daughter, Dorothy Jane.

## DIPPING INTO SCIENCE

**Roman Hard Roads**  
Hard roads of the Roman empire were constructed chiefly between the Second and Fourth centuries after Christ. They varied in width from eight to fifteen feet. Soldiers, slaves and criminals did the work. Some of the roads withstood traffic for 2,000 years without material injury. Twenty-four roads converging at the Roman forum had a total Roman mileage of 55,000. (© 1924, Western Newspaper Union.)

**POOR VICTROLA**  
Drunk Man Vents Rage on Innocent Talking Machine

Frank Carcam, 614 West Broad street, Palmyra, was arrested Saturday morning by Officer Lawrence Betty and charged with being drunk and disorderly.

Carcam was crazed by liquor and was destroying everything that came into his path. He smashed dishes, furniture and even threw the victrola down the cellar steps.

He was tried by Justice of the Peace William Flechter Saturday afternoon and sentenced to sixty days in the County Jail at Mount Holly.

**CARS CRASH**  
Machine Goes Through Hedge Following Collision

The car driven by John Smith, of Chinnaminson Avenue, Palmyra, hit the auto of Clarence Miner, of Delanco, last Thursday evening on the River Road near Riverton.

It is said that Miner started to turn into one of the smaller side roads without any signal. Smith applied his brakes but couldn't avoid striking the other car.

As he swerved his car went over the hedge in front of the home of Mrs. Beulah Kern, River Road.

Fortunately no one was injured and both cars were only slightly damaged.

**PARK-GREEN**  
Miss Ruth E. Green, daughter of Mr. and Mrs. A. K. Green, Charles street, Palmyra, and Harold E. Park, son of Mr. and Mrs. H. Park, of Carlisle, Pa., were married last Thursday morning at a pretty home wedding held at the home of the bride's parents.

The Rev. J. T. Williams, Yeagerstown, Pa., officiated.

The bride wore a stunning creation of white crepe and carried a bouquet of sweet peas and lilies of the valley.

The bridesmaid was Miss Mae Wagner, of Darby, and she was dressed in a beautiful gown of green crepe and carried a bouquet of yellow roses.

The best man was Edward Tomb, of Freehold, N. J.

The house was tastefully decorated with roses and ferns and following the ceremony the entire bridal party was tendered a reception by Mr. and Mrs. A. K. Green.

The happy couple left for an extended winter tour and will arrive at Carlisle upon their return.

The bride is a graduate of Drexel Institute. The bridesmaid is a graduate of Penn State College and is Agricultural Supervisor of Lancaster County.

## Seek to Reduce World Armament

**Preliminary Conference Held To Prepare For Disarmament Meeting in Future**

The Preliminary Conference on the reduction of armaments met in Geneva, Switzerland, on May 18th. As the subject to be discussed is very complex, the sessions will probably continue for several months. It was appropriate that the first meeting of the Conference took place on International Goodwill Day; for the success of the meeting will greatly improve the outlook for world peace.

The reduction of armaments reduces the fear and distrust which make nations fight rather than arbitrate. Reduce armaments and the possibility of settling disagreements peacefully at once increases.

The United States has long been eager to carry on the work begun at the Washington Conference of 1921-2, when competition in battleship building was checked, and a menacing rivalry for sea-power between this country, England and France was turned into friendly co-operation.

The interest of Americans in the present conference was reflected in the vote in Congress on the appropriation for the expenses of our delegation. The House of Representatives passed the appropriation with only one dissenting vote; and the Senate approved it unanimously.

Gibson Represents U. S.  
The American representative at the Conference is Hon. Hugh S. Gibson, United States Minister to Switzerland. He is an experienced diplomat who has served his country in many ways. He is assisted by a staff of expert advisors from the State, War and Navy Departments.

The present gathering is not a Disarmament Conference. No reductions in armies or navies or in military equipment will result from the Conference directly. Its task is to prepare for a Disarmament Conference, or a series of conferences, which will eventually lead to a lightening of the taxpayers' burdens, and a reduction of the danger of war which always exists when the world is an armed camp.

The world is still an armed camp. According to figures recently prepared by Richard V. Oulahan, Washington correspondent of the New York Times, the five great powers, United States, British Empire, France, Italy and Japan spent altogether in 1925, \$1,040,155,593 on their military defenses. In 1925, the same five nations spent \$1,766,809,074, or 160% as much as twelve years ago. And 1925 was six years after the end of the "war to end war."

**France Imports Labor**  
France has had to import from 800,000 to 1,000,000 foreign laborers to do necessary work that she did not have enough men to do. The presence of this large number of foreigners is causing many Frenchmen serious anxiety. Yet France has 733,000 officers and men in her standing army. These two groups of figures illustrate the importance of reduction of armaments to taxpayers and citizens.

The reduction of armaments is important. The problem of how to reduce armaments is very difficult, because of the distrust of neighbors which has grown up through generations of war. War is admittedly disastrous, to winner as well as loser; but there is a natural fear that a worse disaster may follow any weakening of one's own military strength that is not simultaneously offset by a corresponding reduction on the part of one's neighbors.

The small nations have realized that this fear is unfounded. Holland, Denmark, Norway and Sweden are definitely recognizing that small nations cannot fight successfully against large ones, and are adopting a policy of reducing their armies and relying on fair dealing and friendly relations to protect them. But the larger nations are not yet ready for that policy, although in the long run it seems to be the wisest.

**How To Reduce**  
Feeling the need of maintaining their military defenses, and at the same time reducing their armies and navies, the problem arises of how to reduce. A nation whose people are well educated can, in case of emergency, organize an effective fighting force more rapidly than a country with an illiterate population.

A nation with abundant raw materials and factories, producing most of what it needs, is much stronger than a nation that has to import its food and raw materials, even though the second country may have the stronger army. Conditions like these make it very difficult to find a satisfactory formula for the reduction of armaments.

Many individuals have studied these questions; but they have never before been discussed in an international conference. They form the subjects of discussion before the Preliminary Conference on the Reduction of Armaments. Agreement on these subjects will prepare for a conference to reduce armaments. The reduction of armaments is what the taxpayers and the parents of the world are demanding.

**MANY FARMERS PLANTING TREES**  
Idle Lands Being Transformed Into Valuable Forests

"It pays to plant your idle land to forest trees." That is what the 180 land owners in New Jersey believe who planted 1,100,000 trees on their idle fields this spring.

Some of these men have been planting portions of their idle lands annually for the past 10 years, and have already realized sufficient income from their plantations to more than cover all costs and carrying charges. These timber crops are expected to yield substantial profits periodically, and when the final crop is harvested.

At a small cost per acre these Jersey men changed land once a tax burden into a valuable farm asset. They feel that it is good business to plant timber crops on portions of their farms formerly idle because unsuited for farming. The average cost to reforest an acre of farm-land is \$8 to \$12. That represents the total cost to any owner of trying on his farm one acre of a crop which is paying dividends to other New Jersey land owners.

Trees may be planted without previous preparation of the ground and will grow without the care and cultivation demanded by other crops. A trial planting usually convinces land owners that this crop will grow well on portions of their farm which is not suited for other crops.

**Booting By the Boatload in Burlington County**  
A scientist reports finding a tree in the tropics, that when tapped, produces milk. Now if he can only find one that will produce beer under the same circumstances, think what a reforestation program we could put on in New York and New Jersey—Exchange.

But this scheme would have no appeal in Burlington county where bootleggers are more quickly available than growing a tree, and can deliver the good by the boatload with impunity.

## ENTERTAIN

Mr. and Mrs. Frank A. Snover entertained a number of friends at cards Saturday evening.

The greater part of the evening was spent in playing, and later refreshments were served by the hostess.

Those present were Mr. and Mrs. Elmer Jones, Mr. and Mrs. Howard Alloway, Mr. and Mrs. Harry K. Mansfield, Mr. and Mrs. Russell Hammett and Mr. and Mrs. William Rockefeller.

**Classified Column**  
Advertisements inserted under this heading for one cent a word, each insertion, payable strictly in advance. Minimum charge 25c.

**APARTMENTS**  
APARTMENT—Furnished or unfurnished, also furnished rooms. Apply Dickson, 301 Bank Avenue, Riverton. Phone Riverton 714.

APARTMENT FOR RENT—Three rooms, kitchenette and private bath, second floor. Apply 216 E. Fourth street, Riverton. Phone Riverton 733.—tf.

RENT APARTMENT, five rooms, bath, hot water heat, continuous hot water, janitor service. E. B. Rudenow, agent, 523 Main St. Riverton.

DESIRABLE APARTMENT—423 Lippincott Avenue, Riverton, modern in every respect. Rent \$50 per month. Phone Riverton 764 or Lombard 9240.

**AUTOMOBILES**  
ALBERTSON'S Drive-In Service Station, Broad and Linden Avenue, Riverton. High grade gasoline and lubricating oils, automobile accessories. Crank case service and flushing oil free. Telephone Riverton 753. 2-26tf

**AUTOMOBILE AND RADIO** batteries recharged. Prompt service. Batteries to hire. Radio Tubes, Batteries and Accessories. Have your radio tubes rejuvenated. No results, no charge, testing free. Apply S. J. Coddington Estate, 519 Howard street, Riverton. Phone Riverton 601-W.

**FOR RENT**  
FOR RENT—Any length of time—Remington typewriter. New Era Office. 6-24-tf

FOR RENT—401 Seventh street, immediate possession. Desirable house, southern exposure, eight rooms and bath. Wired for electricity. Phone Riverton 143-W.

**FRUIT AND PRODUCE**  
YOU CAN now make your selection of fruit and produce from a nice line at C. W. Ludlow's modern meat market. Phone 729. Main and Howard 3-19-4f

## FOR SALE

FOR SALE—Complete sailing outfit for canoe. Phone Merchantville 2, between 8 a. m. and 5 p. m.

FOR SALE—Novelty heater, in good condition, cheap. Apply T. Lloyd, 517 Elm Avenue, Palmyra. Phone 155-R.

MAGAZINES at interesting prices for summer subscriptions. Ellizabeth Bowen, Riverton. Phone 751.

FOR SALE—Good Strong Packing Boxes, complete with lids, 15c to \$1. The New Era Office, Riverton.

FOR SALE—Nine-room house, lot 70x125, all modern conveniences, three car garage and storage room, porch enclosed and screened. Apply 301 Seventh street, Riverton. Phone 608-J. tf

## Testimonial For Thomas S. Barlow

Two Hundred Attend Banquet in Honor of Founder of Maple Shade

More than two hundred men and women on Saturday night attended the testimonial dinner that was given to Thomas S. Barlow, of Maple Shade, in the Community House, Moorestown. Not only was Maple Shade well represented, but Moorestown also sent a large delegation, including the heads of all the banking institutions and all the doctors. Mr. Barlow is the father of Maple Shade. He has watched the place grow from a farm to a bustling town of some five thousand people and is more than proud of the part he has played in the town's development. And based on the sentiment expressed at the dinner the town is more than proud of its founder.

Mr. Barlow also is one of the commissioners of the Delaware River Bridge. He was one of the first to be appointed and always has shown a keen interest in the work. He has attended every session of the commission, except when kept away by illness.

### Dunn Toastmaster

The dinner, which took place at 7.45 o'clock, was served by McAllister, of Philadelphia, and included many happy features. The toastmaster was Hugh E. Dunn, postmaster of Maple Shade. His introductory talk was a fitting one; his presentation of the speakers was all that could be desired.

One of the speakers was Senator Emmor Roberts, who reviewed the work done by Mr. Barlow and told how advantageously he had helped Burlington County. The review included, not only his development of Maple Shade, but his efforts in connection with the building of the great span across the Delaware River between Camden and Philadelphia and other lines of endeavor.

Another speaker was Horace Roberts, of Moorestown, father of Senator Roberts. Mr. Roberts has been associated with Mr. Barlow for many years and assisted him in the development of Maple Shade. He laid stress on the association and paid a fine compliment to the Maple Shade founder for his high ideals and honesty of purpose.

### Flags Also Speaks

Edward H. Flags, Jr., of Riverton, former sheriff of Burlington County, who is associated with the Barlow Company, was well fitted to tell of the rapid rise of Maple Shade and the inspiration back of it. During his talk he lauded Mr. Barlow for what he had done in building a town and told how the founder stood back of the residents, whom he regarded as his family.

Addresses also were made by Mark L. Lewis, president of the Maple Shade Board of Education, and Charles J. Meyers, chairman of the Maple Shade Township Committee. Here again the talks were laudatory, each man telling how finely Mr. Barlow co-operated in school and township matters.

During the dinner a handsomely engrossed testimonial was presented to Mr. Barlow by the people of Maple Shade. The testimonial told of the work the town founder had done; how his efforts were appreciated and how high he stood in the esteem of the people of the community. The presentation was made by Mr. Meyers. Mr. Barlow fittingly responded, telling how greatly he would cherish what had been so kindly bestowed.

One of the features of the dinner

## Young At 60, Or Old At 40? Diet Decides

Women are as old or as young as their state of health. A woman may be young at sixty years or old at forty. It all depends on her physical well-being.

Youth and beauty have a foundation in sound health. And food is easily the most important item in health. In giving consideration to the subjects of diet and beauty, women should not forget the food essentials that make for the preservation of teeth, hair, figure and complexion.

Blame for round shoulders, flat chest and poor teeth among women is due in large measure to faulty diet, or, specifically, to a lack of lime and phosphorus. Milk, or evaporated milk, which is simply cow's milk with 80 per cent of the water taken away, is especially rich in lime.

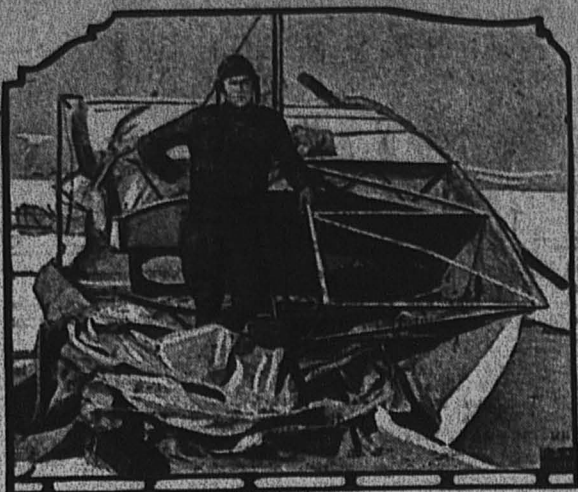

Because of the concentration of evaporated milk, which is regulated by government standards, it is of double the richness of ordinary market milk, as is shown in the following table:

Ordinary Milk	
Fat	3.5 to 4 per cent
Sugar (lactose)	4.5 to 4.75 per cent
Proteins	2.5 to 3 per cent
Minerals	.7 to .75 per cent
Evaporated Milk	
Fat	7.5 to 8.5 per cent
Sugar (lactose)	9.5 to 10 per cent
Proteins	7.5 to 8.5 per cent
Minerals	1.5 to 1.6 per cent

A quart of milk a day for adults is recommended by doctors not only because of its high mineral content, but for the reasons that it helps keep the digestive tract in proper condition, strengthens the body to resist disease, and gives proper balance to the diet.

Salads also play an important part in the dietary. Some sort of a salad, lettuce, tomato, fresh fruit, cabbage or vegetable, should be eaten at least once a day. Neither is the daily menu complete without a generous quantity of coarse, leafy vegetables, valuable for their high vitamin content. Fresh fruit also has very

## Dismantling the Polar Airship

This picture, just received from Teller, Alaska, shows a member of the crew of the Norge standing beside the partly dismantled airship. After its flight across the North pole from Spitzbergen the Norge was taken apart for shipment to the United States.

was a dance by Celeste Evans, the five-year-old daughter of Joseph M. Evans, the new postmaster who has been appointed to take Mr. Dunn's place. The little girl did a Charleston and did it charmingly. She was given much applause.

At the conclusion of the dinner there was a dance that lasted far into the night.

A Japanese, Chinese, Negro or Indian girl appearing on the American stage must have brains, beauty or talent. But any pot-smoking blonde female with a song about cheating husbands will pass if she's Caucasian.

Success is not a matter of the

business a man's in, but the man

that's in the business. Some men

couldn't make a go of the real

estate business in Florida.

## MUST CONSIDER ANY CAR AS A MACHINE

"After all, any automobile is a machine—nothing more nor less," says Fred Rein, of the Rein Motor Company.

"A used automobile is a machine that has been owned for a greater or less time by somebody who bought it to use. A new car is a machine that has been owned by somebody who bought it to sell."

"A used car in good mechanical condition is just as good for all practical purposes as a new car in good mechanical condition. People are learning that there is nothing mysterious about used cars—they are, or are not, in good condition. It's largely a question of the dealer. The modern reputable car dealer knows and tells the prospective buyer all about the machine he is looking at."

## Are you driving a second choice CAR?

Leadership today belongs to Buick because so many people

make it their first choice among all motor cars.

They have discovered that other cars, priced the same as Buick, are not even close to Buick in value.

Volume production enables Buick to give you a lot better car for a very moderate price.

Do not be misled into driving a second-choice car. Compare the new car offered you to Buick, before you let go of your money!

## Rap State School Board "System"

New Plan of Bookkeeping Brings Protest From District Clerks

District School Clerks of Burlington County gathered in the Wilbur Watts High School, South High street, Burlington, on Thursday evening of last week and made vigorous protest against another frill inaugurated by the State Board of Education that promises to add to the burden of the taxpayer.

Frank Day, of Palmyra, presided at the meeting in the place of James Mason, of Mount Holly, who is the president of the District Clerks of the Board of Education of Burlington County. Mr. Mason was unavoidably absent.

It seems that the State Board of Education has instituted a new system of bookkeeping for the clerks in the place of the one now in vogue. The new system, it is declared, is so complicated that only experienced accountants will be able to hold down the job.

This means that instead of the work being done by men who take the position as off-time jobs a fancy accountant will have to be employed at a salary of possibly \$2,500 a year. The average salary now paid the district clerk is from \$150 a year to \$300, and the system of bookkeeping, as the law requires, is so simple that anybody can do the work.

The clerks declare that the act of the State Board of Education looks like a move on the part of

that body to create new positions at high salaries and put a further weight on the taxpayers who already are over-burdened.

A protest will be filed with the state authorities, and there is reason to believe that the clerks will have the backing of the taxpayers. What with the addition of this and that frill public school education has become an expensive thing for those who must pay the bill, and a feeling of antagonism is arising all over the state.

Moreover the people are declaring that they should have some say about the management of the schools since they have to pay the bill and are rebelling against the dictatorial methods employed by the state school authorities in local school affairs.

The action taken by the district clerks is not confined to Burlington County. The campaign against the latest frill is state wide.

## A UNITED PEOPLE GET RESULTS

A unified United States made possible the development and general use of automobiles, the telephone, electric lights and the radio. A long-distance "phone line from New York to San Francisco is the same length as one would be from London to Bagdad. But the Bagdad line would cross a dozen hostile boundaries, where jealous, ignorant, selfishdom fights everything it cannot understand. The Bagdad line is still hardly a dream, of statesmen who despair over the selfish provincialism of petty monarchies. But the example of the American long-distance telephone must one day have its effect. It will help powerfully to civilize the world.

## Pennsylvania Railroad

THE STANDARD RAILROAD OF THE WORLD

## GRAHAM TRUCKS SUPPLANT CAMELS

Camels, those dependable beasts of burden, which have carried the wealth of the Orient since early Biblical days, are finding their usefulness in West Australia curtailed by the adoption of the motor truck. In the vast stretches of grazing land in West Australia, where sheep raisers number their flocks by the hundreds of thousands, camel caravans for years have been the media in hauling the wool clip to the warehouses near the seacoast. The loads they were able to haul were considered large for such beasts, but their gait was slow and often rising markets got away from growers before they were able to make delivery of the wool clip.

But this condition is rapidly passing. Adoption of Graham Brothers Trucks by these sheep raisers has enabled them to rush their wool clip more quickly to the marketing points and consequently convert it into money more readily.

This situation was disclosed by W. J. Winterbottom, Managing Di-

rector of the Winterbottom Motor Company, dealers for Dodge Brothers, Inc., at Perth, W. A., and Robert S. Harden, Director of the Standardized Motors, Ltd., who, with Jack Kloster works manager of the same company at Sydney, N. S. W. also Dodge Brothers Dealers, are visiting the factory of Dodge Brothers, Inc., Detroit.

Mr. Winterbottom has the distinction of having imported the first Dodge Brothers Motor Car into West Australia. This was in 1915. Prior to this he saw the importation of the first American made automobile into Australia, back in 1903. He has been a resident of Perth for 20 years and this is his third visit to Detroit. "Wool and wheat are the mainstays of our economic life in West Australia," said Mr. Winterbottom. "Some times we have droughts, but these appear only to stabilize our farming industry. We do not have much rainfall in our section, nor have we any rivers of consequence to drain our lands. Our mountains are not high and very little help from the snow is expected."

## Moorestown Boy Radio Operator

Frank Convery Licensed Radio Man in U. S. Merchant Marine

Frank Convery, of Mill Street, nineteen-year-old son of Mrs. Elena Batten, is one of the youngest licensed radio operators in the country. He is serving as a radio operator on the U. S. Merchant Marine.

Frank was graduated from the Philadelphia School of Wireless Telegraphy, where J. C. Van Horn is the instructor, January 28, 1926, after a seven months' course. He attended school with Mr. Westdale, who was the operator on the S. S. Vacuum when it rammed and sank a Norwegian freighter last winter.

On March 4, as a radio operator for the U. S. Merchant Marine, he was assigned to his first boat, the passenger ship "Mary Weems," of the Baltimore-Carolina Steamship Line, where he was second operator. He made eight trips between Philadelphia and Miami, Florida, from March 4 to April 26. On these trips the youthful radio operator saw many sick passengers who hadn't got their "sea legs" yet.

During one of the trips in March, when about two days out from Philadelphia, the "Mary Weems" ran into a storm off Cape Hatteras. Old time "salts" claim that this is one of the roughest pieces of water on the Atlantic Coast. This storm delayed the vessel twelve hours.

While on route to Philadelphia from Miami on the last trip, about four o'clock in the morning Convery was on watch and picked up an S. O. S. However, the "Mary Weems" was too far from the distressed ship to render any assistance.

Frank was home from April 26, after the docking of the "Mary Weems," until May 8, when he left Philadelphia for Port Arthur, Texas, on the tanker, J. E. O'Neil, of the Atlantic Refining Co. The J. E. O'Neil is one of the largest boats of the Atlantic Refining Company fleet. It carried 80,000 barrels of oil to Philadelphia on the first trip from Port Arthur.

Convery was the only radio operator on the J. E. O'Neil on its voyage between Philadelphia and Port Arthur.

Returning during the second trip the steamship came across a storm, which was the tail-end of a hurricane, off San Key Light, Key West, Florida.

Frank returned from this trip June 13, and he will be at home until after the Fourth of July. In October he hopes to get on the "W. D. Anderson," which stops at four ports in France.

### HIS FATE A MYSTERY

The fate of Mascarel, who in 1923 reclaimed Africa for the Roman empire, is one of the world's greatest mysteries. The generally accepted story is that he was drowned on his return to Italy, by Stilicho's orders.

There are usually enough musicians in Camp each week to form an orchestra. If you play, join.

## Sheer Tub Frocks in Pastel Colors

Midsummer brings us those pretty frocks made of fine voile and adorned with needle work, that have as much class as their silken sisters. For wear on a summer day, they are as cool as georgette and as dainty, but voile is more sturdy and somewhat less expensive than that exquisite and delicate fabric. The marvelous wear resisting quality of fine voile, makes it worth while to lavish hand-wrought needlework on it and in the frock pictured this appears in downy work on a front panel, and applique of squares of the material on the under side, at the bust and waistline. Tubbing occasionally, keeps these colorful frocks fresh looking, and if they fade a little, they may be easily retinted.

### HIT BY TRAIN

Riverside Driver Has Lucky Escape at Cambridge

Lawrence Daddino, of Rush street, Riverside, narrowly escaped death Monday morning at 9.30, when the truck which he was driving for the Burlington laundry was hit by a passenger train at Cambridge and demolished.

Daddino had made his usual Monday morning route in Cambridge and was coming out on to the River road and, not hearing the train drove his truck on the tracks. Just as the train struck the truck, Daddino jumped from his seat and escaped with only a few scratches and bruises.

The truck was hurled from the track and against a pole at the side of the road and completely wrecked. Scattered clothes were scattered along the railroad for more than 200 yards. The engineer of the train stopped it as soon as possible and damaged the air brakes so badly that it took over an hour to repair them so that the train could get under way again.

Daddino was taken to the Riverside Hospital where his injuries were treated and later sent home.

### SAFETY VS. SPECULATION

W. H. Dodge, Chairman of the customer ownership committee of the National Electric Light Association, states that last year more than 250,000 customers purchased electric light and power company securities, making a total of 1,183,410 customer-owners of \$1,000,000,000 of these securities. He said that this plan would be initiated by industries to which it was not suited, and that this had come to pass. "But," said Mr. Dodge, "the committee finds that utility companies have universally offered to the public only seasoned stocks with long dividend records for customer ownership purchases."

### BLOT ON GOOD NAME

Printed below is an editorial from the June 1 issue of the Atlantic City Daily Press which will give our residents an idea of what our state neighbors think of the conspiracy cases recently tried at the Court House here and of the verdict rendered.

When it is considered that the Press is said to be owned and controlled by United States Senator Edge, who is an out-and-out "wet," the editorial is given added weight. "Burlington Blots Her Good Name" "Burlington county may not realize it, but it has dealt a blow to decency and respect for the law that has no parallel in the country. The blot is upon all the people and it is a blot."

"The nation has shown that greed for money to be made in violating the constitution of the country and willingness of those sworn before their Creator to uphold and enforce justice without favor to permit lawlessness to go unpunished, takes precedent over all moral questions. The taxpayers' money has been squandered without result, statutes on the books have been shorn of potency, and the lesson has been set that the will of the violator is more powerful than the courts."

"It is a pitiable revelation and in man respects a sinister augury of what can happen again. Burlington stands as the example for the future. The law has been trampled upon shamelessly, rum has been placed upon the throne under circumstances so vicious that thinking men shudder at the meaning of it all. Desperadoes and their great cargo were netted, only to see mysterious forces dissipate the law's strength and enable all of those corralled to go free. A more flagrant case of flouting justice never has come to light."

"Burlington may well pause and think. Her good name is imperiled and crime can look to her borders as the safety zone for those who have no concern for law and good government."

The Los Angeles Times says: "Radio offers a convincing example of the superior progressive spirit of the American people. In New York alone there are more receiving sets than in France and Germany combined, with about ten times the population of New York state. New York City possesses more broadcasting stations than Great Britain, France or Germany."

"As an educational feature, radio is second only to the public schools."

## Ask Open Season For Shooting Does

Farmers Suffer Damage To Crops From Herds of Deer

Indications now point to actual progress on deer legislation by another season, according to a statement this week from the New Jersey Federation of County Boards of Agriculture, which has been seeking ways and means to control the increasing damage to farm crops by deer. The New Jersey State Grange is likewise seeking to curb the deer nuisance, particularly troublesome in the South Jersey counties.

The farmers' committee, conferring recently with the New Jersey Fish and Game Commission decided to ask the Legislature next year for two open days on does, on which days the bag would be one doe per man but no bucks could be shot. This will be in addition to the present season for bucks.

The Fish and Game Commission agreed to give its support to such legislation, with the further understanding between the farm organizations and the Commission that such legislation be shaped as a try-out for the one year of 1927. The dates of December 27 and 28 of 1927 were scheduled as the open days on does.

Commenting upon the need of such legislation, Secretary H. E. Taylor of the New Jersey Federation said:

"The demand of organized farmers in New Jersey for control of the rapidly increasing number of deer, which are causing thousands of dollars of actual loss in orchard and garden throughout the southern part of the state, has

become so insistent that the farmer organizations in New Jersey are under considerable pressure to find suitable relief. It has been difficult to acquaint sportsmen and city interests with the seriousness of the deer menace in this state. Evidence of damage and continual repetition of complaints throughout the whole South Jersey area is having its effect.

The situation this year is particularly keen. Forest fires this spring in New Jersey have driven deer from the woods upon cultivated and improved lands in herds of from 15 to 25. Deer have been reported in gardens along the main streets of some of the smaller towns, and wholesale damage to growing crops and young fruit trees has been very generally reported.

"It is with great satisfaction that the farmer organizations now find a receptive audience with the State Fish and Game Commission. The proposed legislation for two open days on does is the first time in the history of New Jersey that the various interests have really gotten together on the deer problem."

Although the farmers plan to introduce a bill effective for only the one year of 1927, the experiment will show whether or not open days on does should be continued annually or whether several seasons should elapse before does may again be killed.

### CLEAN CHIMNEYS

William G. LeConey, Moorestown building inspector, has issued the following statement urging housekeepers to have their chimneys cleaned now:

"The widespread use of soft coal during the past winter, especially in this section of the country where most furnaces are designed for the consumption of anthracite, has led

to a condition that is dangerous. Chimneys, flues and smokepipes have become soot-clogged and have already caused many fires; more will break out in the Fall when heating again becomes necessary, unless precautions are taken.

NOW IS THE TIME to dismantle the smoke-pipe leading from stoves

or furnaces to the chimney and clear out the soot. If the pipe is badly rusted, replace it with a new one. See that the chimney is free from soot accumulations. It will improve the draft and lessen the fire hazard.

"DON'T WAIT UNTIL FALL—DO IT NOW!"

## USED CARS

### After All, An Automobile Is An Automobile

When you buy a new car or a used car, you are buying a machine. If it is in good condition mechanically it is a good machine regardless of who made it or has used it. The used cars on our floor are mechanically right. This is just one of them:

Willys-Knight Sedan, model 64, late 1924. New two-tone gray paint. Mechanically in excellent condition. A car anyone could be proud to own. Price new \$1795. Present price \$925.

**REX Operation**  
The REX Automatic Storage Water Heater keeps hot water in an insulated storage tank. The burner operates until the tank is filled with hot water of the temperature at which the thermostat is set. The thermostat regulates and controls the entire automatic operation. When water is drawn off the tank the burner automatically relights and the water in the tank is again of uniform temperature (about 120° F.). Then the gas supply is cut off and a small pilot light remains.

We'll give you \$5.00 for your old water heater, regardless of type or condition, if replaced by the dependable Rex Gas Automatic Storage Water Heater.

## The only thing HOT we like in Summer is HOT WATER

Now You Can Have It for \$10 down ~ 18 months to pay

We have made the price and the terms within the reach of almost every family

THE efficient Rex day and night supplies hot water in a jiffy when you want it. No need to tramp downstairs to light small gas heater, or shovel coal and ashes. There is no need to do anything but light the first match. From that time on Rex furnishes hot water abundantly and economically.

Five Hundred happy Rex owners have taken advantage of this \$10 Down Payment

Plan this year. Remember after the first payment of \$10 and a touch of a match your hot water problem will be taken care of by the Rex Automatic Storage Heater for years.

The Rex Automatic Storage Heater with its exclusive features, such as the Patrol Safety Pilot Valve, is the last word in water heating systems, selling at anywhere near the Rex price.

24 gallon size installed, gas, water, flue connections—Cash price \$106, on Terms \$112.60, or \$10 down, \$5.70 monthly for 18 months.

Telephone or write for full particulars

## South Jersey Exposition To Open July 5th Mid Burst of Splendor

### President Coolidge To Cross Bridge on Opening Day

The South Jersey Exposition celebrating the opening of the world's longest suspension bridge, formally opens its gates July 5th.

President Coolidge, who will officially open the Delaware Bridge and will cross the span into Camden, will mark the opening of the South Jersey Exposition, which will continue throughout the summer.

New Jersey Daughters of the American Revolution will make their annual pilgrimage to Camden this summer for the first time in many years, and on the opening day will plant the Mount Vernon willow tree on the grounds of the Exposition, Civic Center. Officers of the New Jersey Department and national officials of the D. A. R. will attend. Acceptances have been received from Mrs. Alfred Grosseau, president-general, of Washington, and Mrs. Charles R. Banks, vice-president-general.

The tree to be planted is a shoot of the willow tree at Washington's tomb in Mount Vernon, which was brought to America many years ago from Napoleon's grave on St. Helena.

### "Pennsylvania Day July 6th"

With impressive ceremonies the Hon. Gifford Pinchot, Governor of Pennsylvania, will officiate at the celebration of the linking of two states by a mighty bridge, not stronger than the chain of friendship which joins them.

This day has been set aside as Pennsylvania Day and a very comprehensive program has been prepared.

### "South Jersey Firemen To Participate"

Firemen from every county of South Jersey will enter in a number of thrilling contests demonstrating every phase of modern fire-fighting. All contestants are members of the Firemen's Association of South Jersey. A week has been set aside for each county to determine the team which will compete in the final contest. The dates of these preliminary contests are as follows: Cape May, July 6th; Atlantic, July 12th; Burlington, July 19th; Camden, July 26th; Cumberland, August 2nd; Gloucester, August 9th, and Salem, August 16th.

### "State to Maintain Varied Exhibits"

Nearly every department of the State has reserved space for educational exhibits, which will demonstrate the functions which they perform. One of the most interesting displays will be the agricultural show which is being prepared. To quote William B. Duryee, Secretary of Agriculture, "The agricultural interests of New Jersey welcome the opportunity to display the farm activities of the state. We have many things in our every-day life that will interest our South Jersey visitors. We expect to put on an exhibit which will visualize the concentration of population in the sections of the State that are adjacent to Philadelphia and New York."

The bureau of markets in the Department of Agriculture is planning to maintain a display of all seasonal fruits and vegetables and to dispose of these daily to the visitors.

### SOMETHING NEW IN KITCHEN CONVENIENCE

## McDougall Domestic Science Kitchen Units

Just the thing for installation in the modern home. A great variety of sizes and designs. Don't call your house completed until you have looked over these important features. Write today for further information.

SEE OUR EXHIBIT AT THE MODEL KITCHEN  
SOUTH JERSEY EXPOSITION

The South Jersey Community Chorus will render a series of concerts at the Exposition this summer. This chorus recently formed will number about one thousand voices and will be undenominational.

The opening chorus will be held on Sunday evening, July 4th. This is the hundredth anniversary of the birth of Stephen Foster, the originator of American folk songs. Some of his well known compositions such as "My Old Kentucky Home," "Old Black Joe," "Massa's in de Cold, Cold Ground," and a number of others will be sung. Also at the request of many South Jersey folks, the Old "Centennial Hymn" will be rendered.

### Milk Bottles Should Be Washed Before Opening Them

The bacteriologist finds no kitchen clean enough, and the ordinary methods of washing he is likely to call a "smear."

Dishes have been tested to determine the number of organisms that remain on them after "ordinary" washing as compared with a method that requires an application of hot water with the help of soap—or better still carbonate of soda—a thorough rinsing in hot water and wiping with a sterilized cloth that is clean enough, and the ordinary methods of washing he is likely to call a "smear."

One might ask why all this detail, and what harm they will do if present. Oftentimes none, but if the bacteria are those which convey disease, dirty dishes may be the means of giving it to well persons. But most of all, persons who are at all thoughtful of such things do not want any dirt that may be prevented by good methods, simply because in itself it is sufficiently unpleasant.

In washing milk utensils it is first necessary to remove with warm water all traces of milk before scalding water is used. Because of the cream adhering to the sides, soap is used also, but extreme caution must be taken to remove all traces of the soap by repeated rinsing.

A telltale flavor of soap in the morning cream has more than once revealed careless habits in the kitchen and made it evident that all of the soap was not removed in the rinsing. The utensils must then be dipped into the absolutely boiling water for a minute.

It is an important matter to carefully wash the bottle in which milk is now commonly delivered to the customer. By this is meant the washing of the full bottle before it is opened. It is safe to say that this is seldom done. But, notice the bottle as it is brought into the kitchen, the milkman grasping the top of the bottle. These hands perhaps more often than not have harnessed his horse, have opened and closed many doors, held along many railings, have perhaps wiped mouth or nose, and yet the thoughtless housekeeper or cook regarding the white cap as protection from the outer world, pours out

the milk over a very dirty bottle. Milk bottles should be put under the hot water spigot for a moment and wiped dry with a clean cloth before opening.

Most housewives agree that milk bottles should be carefully rinsed before they are returned, perhaps more from feeling for cleanliness than absolute necessity, since the bottles in all well regulated dairies are thoroughly washed and scrubbed before refilling.

### A FEW VERY CLEVER RECIPES FOR YOU TO TRY

In hot weather heavy foods are not advisable. More attention should be turned to vegetables and especially salads. Here are a few new suggestions:

**Arduley Salad**  
Mix two cream cheeses with one glassful currants and pack in small molds. Place in the freezer can and pack in rock salt and ice for four or five hours. Serve on lettuce leaves with French dressing.

**Crab Meat and Peanut Salad**  
Mixed shredded crab meat with broken peanuts. Serve on lettuce hearts and dress with mayonnaise.

**Cherry and Peanut Salad**  
Use the large white California cherries. Remove the pits and substitute a salted peanut for each one allowing the nut to show a little. Place on lettuce hearts and dress with mayonnaise.

**NUT CAKE**  
Use of 1 cup of sugar, 1/2 cup of butter, 3 eggs, pinch of salt, cream these together. Then add 2 cups of flour, 1 1/2 teaspoon of baking powder, 1/4 teaspoon vanilla, 1/4 cup of milk, 1/2 cup of chopped nut. Bake slowly in moderate oven.

Here are four choice recipes, which are very simple to use, and very successful. They are secured after much effort from a very excellent authority on cooking.

**CHOP SUEY**  
This recipe should be the subject for a very enjoyable meal. It is easy to prepare, very economical and nutritious.

Chop a large Bermuda Onion fine and fry in butter. Add 1 can of tomatoes, 1 1/2 lbs. of chopped meat, one teaspoonful of Kitchen Bouquet, salt and pepper. Cook until meat is well done. Then add a can of spaghetti, one half cup of chopped walnut and a stalk of celery chopped fine. Serve hot.

**OLD FASHIONED CHILI SAUCE**  
Take 32 ripe tomatoes, 8 or 10 yellow onions, 4 to 6 hot peppers, 2 cups of sugar, 5 cups of vinegar, 2 tablespoons of salt, 1 tablespoon of cinnamon, 1 tablespoon allspice, 1/2 tablespoon ginger, 1 tablespoon cloves. Boil down to one half the amount and seal in jars while hot. Use same procedure as in preserving.

**NUT BREAD**  
Use 1 egg, 1 cup sugar, 1/2 teaspoon salt, 4 cups of flour, 4 teaspoons of baking powder, 2 cups of milk, 1 cup of nuts and raisins. Allow to rise in warm place for 30 minutes then bake in slow oven.

### Scouts Attend

### Court of Honor

Merit Badges Presented To Hundred Boys at Moorestown

A group of at least two hundred scouts and their parents attended the Burlington County Court of Honor held in the Community House, Moorestown, Tuesday night.

One of the features was the presentation of various merit badges to more than a hundred scouts. Scout Pink, of Beverly, was awarded the eagle scout badge, one of the highest honors in scouting, by H. M. Wall, of Beverly.

Out of the seven other scouts who called for the eagle awards, five were Moorestown boys, Scouts Irving Workman, Woodrow Vennel, Keeler Mahon, Grant Mahon, and Richard Hyatt. These boys will receive the badges at the next Court of Honor.

Splendid addresses were delivered by Richard E. Wilson, of Palmyra, Chairman of the Burlington County Court of Honor, and Henry M. Neely, of Delanco, the famous radio publisher, and Burlington County Scout commissioner. The theme of the talks was "Ideals of Scouting."

Richard E. Wilson presented first-class medals, George C. Baker awarded merit badges, star scout awards were made by Edward C. Meekling, and the life scout awards were made by Arthur W. Luce.

The invocation was made by the Rev. William Cusworth, the pledge of allegiance to the flag was made by Brian Kain, scoutmaster of Troop 5, of Beverly, and the closing prayer was made by the Rev. Edgar L. Sanford, pastor of the Trinity Episcopal Church.

Scout Mumford, of Troop 3, Moorestown, sounded the call of assembly and taps at the conclusion of the meeting.

A scout handicraft exhibit which included nature studies, paintings, carvings, and various other phases of scoutwork attracted considerable favorable attention.

### New Arrivals at Laboratory

During the past week many college men have arrived at the Japanese Beetle Laboratory, Riverton, to assist the regular staff in the summer work. Among those now at the station are C. A. Clark, E. E. Atwood, E. G. Landberg, Connecticut State College; E. H. Ryan, C. A. Crooks, F. E. Baker, Massachusetts Agricultural College; A. T. Hawkinson, Rutgers University; W. E. Jordan, Cornell University; C. H. McDowell, Wesleyan University; I. L. Hunt, K. B. Rogers, H. W. Coward, University of Pennsylvania.

## South Jersey Exposition Advocates Use of Pure Foods

All Food Exhibitors Conform With Food Laws of City of Camden and State of New Jersey

One of the most important interests of the present day is the food eaten in the average household. For from this source comes the energy which is building up the younger generation, and doing the world's work. However, so varied are the claims of food, and so numerous the preparations today that it is difficult to select the proper diet. There are two distinct things to be taken into consideration in selecting the diet: first does the combination of food contain the right proportion of nutriment, and secondly is the food used free from adulterants and other harmful preparations.

This subject has been considered of vast importance, and it will be the aim of this department of the South Jersey Exposition to aid in solving this problem in a way which is understandable to every housewife. We shall proceed in subsequent issues of this page to aid the South Jersey Housewife in the selection of her menu and of the proper foods to use. We have but to inform 200,000 housewives who take charge of the buying and preparation of food for a million people. The grocer who must cater to popular demand is thereby compelled to handle only those foods which are absolutely pure. In the next few issues of this page a series of menus will be published as well as a pure food directory food departments.

## Model Kitchen Exhibit at Exposition Well Worth Visit

Arrangements and Equipment Model in Convenience

A group of newspapers, of which this paper is one, have combined to put on this unique and interesting display. The equipment of this kitchen has been carefully selected and arranged so as to eliminate waste motion and make efficiency a part of the daily routine in the kitchen.

The Model Kitchen is thoroughly equipped with every modern convenience, and the color scheme is a light gray which does not stain readily and lends to the attractiveness of the kitchen. The flooring is laid in gray and white blocks—work and material having been furnished by S. Strickland of Camden. This flooring is something new for the kitchen and can be secured in any variety of patterns. The effect is further carried out by the walls which have been attractively papered by the Hatcher Wall Paper Co., also of Camden.

The Model Kitchen is equipped with hot and cold running water as a result of the combined efforts of the J. D. Johnson Company and the Ever-Hot Heater Sales Company. An Ever-Hot Water Heater has been installed which insures a steady supply of hot water at very cost. This piece of equipment is rapidly finding its way into the modern home.

Refrigeration has been well taken care of by a Copeland Electric Refrigerator furnished by Wright and Wright, Inc., of Philadelphia. This same company has also provided a very compact laundry unit, consisting of the Whirlpool Electric Washer and Smith Ironer.

One very interesting feature of the Kitchen is the stove, a Chamberlain's Fireless Gas Range, which cooks very satisfactorily with the gas turned off. This range readily demonstrates how time and gas can be greatly conserved.

Visitors at the Model Kitchen Exhibit should take special note of the neatly arranged of the various articles. McDougall Domestic Science Kitchen Units have been used in place of the old style kitchen cabinet and fit very harmoniously against the wall. They are the last word in compact closet and storage room for limited space. The Model Kitchen has been prepared to show the progress, that has been made in decreasing the labor of running the home. Arrangements are being made for various demonstrations to take place in this kitchen, and a number of well known authorities on Home Economics will deliver lectures on this subject. The program for the summer is being prepared, and will be divulged in a subsequent issue of this page.

### PRESBYTERIAN

Calvary Presbyterian Church extends a cordial invitation to you to share in its fellowship. The pastor will preach at the morning worship at eleven o'clock and at the evening worship at eight o'clock.

Sunday School will meet at ten o'clock. Come with the children to the Sunday School session and remain with them for the morning worship. The sermon to the children may help you.

The Christian Endeavor Society invites the young people of the community to share in the inspiration of its meeting at 7:15 o'clock. The last of the midweek services until September will be held on Wednesday evening, June 30th. All members of the congregation are urged to be there.

The Sunday School and Church picnic will be held on Friday, June 25th, at Westmont Park. A special bus will leave Riverton station at ten o'clock and will stop at Palmyra station. There will be no transportation charge for the children of the School; others can pay. It is hoped that as far as possible all members of the congregation will attend this outing. If you cannot come in the morning, come in the afternoon and stay for supper. Each person is asked to bring a box luncheon.

### METHODIST NOTES

The Sunday School will meet at 10 a. m. Last Sunday marked nearly one hundred per cent attendance of officers and teachers.

The musical numbers will be "Adoration," "Meditation" by Klinger, and "March Brilliante," by Lowden.

The sermon topic will be "The Tower and an Awakened Soul." The Epworth League will have a special service at 6:45 p. m. Musical numbers of the evening: "Song of the Basket Weaver" by Russell, "Andantino in D Flat" by Lemare. This will be followed by the song service which is becoming a great feature of the evening. The evening sermon topic will be "Anchors."

The community Girl Scouts troop will attend the evening service in a body. The Ladies Aid Society will conduct a Cake Sale on Broad street in front of Mr. Wilmer's office on Saturday, beginning at 10 o'clock.

### MISSIONARY SOCIETY

The regular monthly business meeting and social of the Woman's Foreign Missionary Society of the Epworth M. E. Church will be held in the Sunday School Temple on Monday evening, June 28, at 8 p. m.

The annual election of officers for the ensuing year will take place at this meeting. The program will be under the direction of Miss Helen Welcott, Miss Box Chairlady, who earnestly requests all members having Miss Boxes to bring them in to this meeting. A social time will follow, with Miss Elizabeth Roberts, Mrs. Southard and Miss Roba Whitton acting as hostesses.

### RIVERTON BLANKS KENSINGTON NINE

(Continued from Page 1)

Schultz fled out to Peterson and Louisiana respectively. Hopkins walked. Andrews fled out to Gaskill. Peterson singled putting Hopkins on second. Louisiana hit a two-ply wallop and took third on Gaskill's error, scoring Hopkins and Peterson. Morgan hit a sacrifice fly to Gaskill, scoring Louisiana. "Dunny" Hynton hit to right for two bases. Hynton took Adams' place at second in the sixth. Bennett took right field when Wallace retired and Peterson went to left. Dillon threw out Bennett to end the "lucky" sixth.

**Seventh Inning**  
Hietrick walked but Morgan caught him stealing second and threw to Andrews for the put out. Kennedy singled. Gaskill singled and Kennedy tried for third but Peterson threw to Louisiana who tagged Kennedy out. Wick fanned. Truman and Prietag singled. Hopkins fanned. Dillon threw Andrews out at first, on a sacrifice hit. Peterson took three strikes.

**Eighth Inning**  
Louisiana threw Welch out at first. Snyder was out at first, Hynton to Truman. Dillon singled. Kasper fled out to Louisiana. Louisiana and Morgan fled out to Wick and Kennedy respectively. Kasper threw Hynton out at first.

**Ninth Inning**  
Schultz and Hietrick fled to Peterson and Truman respectively. Kennedy walked. Coxson batted for Gaskill but fanned. Kennedy of Kensington came to bat four times and had two passes to first and two bonafide hits for one base each. Louisiana was Riverton's batting star, having a single and a two-bagger.

Mix broken peanuts with cream cheese, form into balls, place on lettuce and dress with French Dressing.

**Publicity**  
John Di Palma Says He Didn't Want to be Assessor  
We erred in not giving full particulars last week in regard to John Di Palma's vote for assessor.

Mr. Di Palma states emphatically that he had no ambition or intention of trying to become assessor, but merely wanted to create some interest in politics in West Palmyra and also gain some free advertising for his own voting district.

He wasn't running against "Jim" Hartley, he says, as anybody would have sense enough to know that "Jim" couldn't be licked. Mr. Di Palma regards Assessor Hartley as one of his friends and is somewhat mystified to know why the Italian-American club needed to deny that it supported Di Palma.

"Just a publicity stunt for the West End," is the way Mr. Di Palma describes his venture into politics.
