

JULY

In each of the four great paths of life—work, love, culture, faith—life means ceaselessly climbing the path.—Edward Howard Griggs.

Vol. 37, No. 3.

RIVERTON, NEW JERSEY, THURSDAY, JULY 1, 1926

BUY AT HOME

PRICE FIVE CENTS

PLANS COMPLETED FOR RIVERTON'S BIGGEST FOURTH

All Committees Reported At Meeting Tuesday Night; Will Spend \$1500

WILL SHOW FIREWORKS AT MEMORIAL PARK

The final meeting of the Riverton Fourth of July Committee was held in the firehouse Tuesday night. Walter C. Wright, chairman of the committee on aquatic sports, reported everything in readiness for his section of the big day. "Sonny" Sullivan, the new chairman of the department clean the rubbish from the beach at the river before the Fourth, and Councilman Lynch, chairman of that committee, agreed to have this done. Everett C. Sullivan, the new chairman of the athletic sports committee, said that he was all set, too.

Mrs. J. D. Clark, chairman of the baby parade committee, reported that the prizes had been purchased and would be displayed in Keating's window. Mrs. Clark also requested that the lawn house lawn be roped off to form an enclosure in which the contestants might be judged. In previous years fond parents, relatives and interested spectators crowded in upon contestants and the judges so that it was impossible to properly consider the merits of the various exhibits.

This year there will be four classes with four prizes in each class—baby coaches, vehicles, comic costumes and fancy costumes, the latter two being intended primarily for the older boys and girls, but children of any age are eligible. Mrs. Clark requested that the various contestants be arranged in classes, that is, the baby coaches together, the vehicles together, comic costumes and fancy costumes together.

R. F. White will be in charge of the singing assisted by his two able lieutenants. Rolland Cole will look after decorating the speaker's stand.

John M. Hughes will provide the badges, and D. M. Clifton will continue his duty of previous years as keeper of the flags.

Following the reports William B. Lynch, chairman of the fireworks committee, stated that an unusually elaborate display had been arranged this year including twenty-eight sets of fireworks, and that the fireworks would be set off at Memorial Park. When the fireworks committee had been notified that Memorial Park had been selected for the display this year, and a delegation of citizens was present to protest against changing it from the riverbank where it had been held for the last quarter of a century.

G. Rex Showell, J. Carl DeLaCour, E. C. Sullivan and Mrs. R. F. Corry, president of the Porch Club, all raised their voices in vigorous protest, pointing out the many advantages of the riverbank and the disadvantages of Memorial Park for this part of the day's program. Mrs. Corry said that her organization, with a membership of 200, had addressed a letter to Mayor Humphill objecting to the change. Mr. Humphill was attending the school board meeting and was not present with the letter.

Vote Against Park. Edward R. Williams, chairman of the Fourth of July Committee, and Mr. Lynch, chairman of fireworks, attempted to explain the reasons for the change but made little or no impression. They said that it was the thought of the majority in which Mayor Humphill concurred, that the town's Memorial Park was the proper place to hold the display. This had been agreed upon in committee and the fireworks had been ordered on this basis. The order included a large number of elaborate sets of fireworks which would not have been purchased had it been decided to use the pier as heretofore, there not being sufficient room on the wharf to arrange so many places at a safe distance apart.

When the vote was taken only Williams and Lynch voted for Memorial Park. Bartley, the other member of the committee, not voting, and the balance of the assembly being unanimously in favor of going back to the riverbank.

Decide on Memorial Park. Owing to the objections raised, Councilman Williams asked J. H. Shaw, president of the American Fireworks Company, from whom the display was purchased, to come to Riverton Wednesday night and go over the situation to see if it would be practical to display the fireworks from the pier as heretofore. In company with Mayor Humphill, Councilmen Lynch, Williams and Bartley, Mr. Shaw visited the pier and after a careful investigation declared it to be totally unfit for the display of the assortment that had been ordered. He said that it would be impossible to show more than three of the twenty-eight sets of fireworks, and declared that it would be difficult to get an operator to work in such close quarters owing to the number of premature explosions that had been caused by such conditions, resulting in injury or loss of life.

The use of barges was considered, but two barges would cost \$200, and even then the number of sets of fireworks could not be shown.

Mr. Shaw assured the committee that Riverton's selection was one of the finest displays to be shown this year. Some of the sets were thirty feet long and many of them are the same as are being used at the Sequel-Centennial. Of all the places to display fireworks he had visited this year, Mr. Shaw said, Riverton's Memorial Park was the most ideal. In view of all the circumstances, the Mayor and council finally decided to have the display at Memorial Park.

The committee has given much attention to the proper parking of cars, and has worked out a plan whereby at least two hundred and fifty can be so arranged that the occupants can see the display without leaving their seats.

DRAMATIC SOCIETY

"Acorn Players" Organized by Miss Isabel Rennie; Officers Elected

Thursday evening of last week a group of young people met to organize a dramatic society, at the home of Miss Isabel Rennie on the Burlington Pike. Penrose Ferg, of Merchantville, was elected president; Miss Rennie was elected secretary. The society is called the "Acorn Players." Mr. Armstrong, of Merchantville, a producer, is to coach the "budding" actors and actresses.

At the present time the society is working on a play by Booth Tarkington, called "The Trysting Place," which will be presented the latter part of July. It is the plan of the "Acorn Players" to present a short play every two months during the coming winter. There is a studio at Miss Rennie's home where the players will practice.

To date there are ten members to the society. They are: Misses Virginia Horner, Violet Helen Ship, Susan Walton, and Messrs. Leslie Collins, Dick and Penrose Ferg, William Armstrong, and George Hunter, of Merchantville, and Miss Rennie of Riverton.

4000 Folks Visit Camp Ockanickon

Dedication Exercises at New YMCA on Sunday Were Inspiring

A crowd, estimated at nearly 4,000 people, gathered for the dedication exercises of the new Y. M. C. A. Camp Ockanickon, near Medford, Sunday.

Henry F. Stockwell, of Moorestown, president of the Camp Association, composed of the Y. M. C. A. of Gloucester, Camden and Monmouth counties, was the master of ceremonies and opened the services with introductory remarks.

A half-hour concert by the Burlington County Y. M. C. A. orchestra, under the leadership of Guy Hendry, County Secretary, preceded the formal program of the afternoon.

The principal dedicatory address was delivered by Walter M. Wood, Metropolitan General Secretary of the Philadelphia Young Men's Christian Association, whose talk was filled with inspiring remarks and highly complimentary to the association of the four counties upon obtaining such a splendid camp site.

The site is ideal for camping with ample facilities for water sports, nature study, hiking, is high, wooded, and impressively takes one back to a real wilderness.

It consists of more than 400 acres of woodland, two lakes, a miniature mountain and is located three miles south of Medford.

A part of the afternoon's ceremony was the flag raising. One of the boys at the camp sounded the salute on the bugle as Old Glory was hoisted for the first time. The colors and the new steel flagstaff were presented by John M. Sines, of Delaware.

A large number of the folks, whose machines packed all of the available parking space, went to the camp early in the morning, either to thoroughly inspect the new site or to sit down there, and a delicious dinner at the Ockanickon Inn.

McLAUGHLIN—HUGHES

John Thomas McLaughlin, son of Mrs. Nora McLaughlin, 501 Maple avenue, and Miss Edith Louise Hughes, daughter of Mr. and Mrs. Daniel Whelan, 718 Elm street, Camden, were married at the Holy Name Church, Vine street, Camden, Wednesday morning, Father Joseph Whelan, O. C. S. A., officiating.

The bride, attired in a creation of white crepe, carried a bouquet of sweet peas and white roses.

The bridesmaid was Miss Mary Ellen McLaughlin, sister of the bridegroom, and also wore a stunning gown of pink crepe and carried a bouquet of pink roses. The flower girl, Miss Millicent Christopher, of Camden, carried a basket of red roses.

The best man was James Anderson, of Philadelphia.

Following the wedding a reception was tendered to bridal party at the home of the bride's parents.

After a two week's honeymoon at Mt. Pocono the happy couple will reside at 717 Morgan avenue.

The committee has also issued a hundred and fifty tickets for the grand stand, which will be issued to the aged and infirm, so that they may enjoy the occasion in comfort. These tickets may be secured by applying before 6 o'clock Monday, July 5, to Mayor Fred P. Humphill, phone 134; Edward R. Williams, phone 134; William B. Lynch, phone 46-W; or Joshua S. Bartley, phone 555.

Clarence Hubbs announced that a committee composed of himself as chairman, and Joseph Hyton, Walter Armstrong, Clarence Mattis, Adolph Stroblin, George Stedie, Lady Major and Ogden Mattie had arranged a dance to be given at Broad and Main for the benefit of the fire company after the fireworks, music to be furnished by Irons Band as last year.

Last Sunday morning Director of Public Safety Williams, the members of the police committee and Scoutmaster William Shoemaker met at Memorial Park to determine plans for handling the traffic at the fireworks display Monday night. The Boy Scouts will be utilized for this work during the day and in the evening as they were last year and on Old Home Day.

THREE BALL GAMES

Saturday afternoon the Riverton baseball team will play the Indiana Professionals at Memorial Park at 8:30.

Monday morning, July 5th, they will play the Palmyra Field Club at Palmyra. In the afternoon the game will be at Memorial Park at 8:00 sharp, and the Field Club will play a return game.

Catholic Boys See Babe Ruth

Nearly 1000 Youngsters Entertained by Knights of Columbus

At the organization meeting of the K. of C. Boys' Baseball League of Burlington County, this spring, the popular "Fitz" French, Athletic outfielder, and Ira Thomas, pitching coach for Connie Mack's club, spoke to the boys.

Both French and Thomas urged the boys to enter into the spirit of the game for the physical benefit derived from it. Mr. Thomas invited all the members of the Burlington County Boys' Clubs to be his guests on Tuesday June 29. Between 700 and 1000 boys accepted the invitation.

The youthful fans traveled to Shiloh Park in busses.

The Bordentown Boys' Club Band and the Hopewell Boys' Orphanage Band furnished the music.

The boys from Palmyra and Riverton who enjoyed the big league game were:

H. Schneider, R. Schneider, A. Yearly, E. Bradshaw, Harry Schuler, Andrew Brennan, Francis Brennan, Joseph Conlow, Joseph Casey, John Casor, William Eck, George Elak, Joe Minnick, Jerald, Malone, Jack Barr, Paul Burke, Bill Steele, Francis Rodick, John Sack, Joe Sack, T. Sack, Lawrence Bradshaw, Raymond Wood, Arthur Ferrell, Francis Braun, Paul Holtek, Joe Schuler, Albert Schuler, John Cavanaugh and Stanley Hyton went along to keep the boys straight, which of course was unnecessary.

"Pop" Schuler's son, Joe, is the coach of the Riverton team in the league.

The Riverton boys had a handsome wallet and gold pencil for Ira Thomas as a token of their gratitude to the "old scout" but Ira was on his way to California looking for a new outfit.

The Moorestown group took "Fitz" by surprise by presenting him with a black leather traveling toilet case, fully equipped.

Babe Ruth and Fitz French threw some autographed horseshoe spheres into the stands for the boys to scramble for.

A Philadelphia newspaper photographer took a group of the Burlington County delegation and the Philadelphia Boy Scouts.

This Thursday evening the Riverton boys will play Florence on the home grounds.

THIRTY DAYS

Palmyra Colored Man Jailed for Beating Wife

Joe Morris, colored, of West Palmyra, was sentenced to thirty days in the County Jail, Mount Holly, Sunday morning by Justice of the Peace William Fletcher.

His wife was arrested on the complaint of his wife who charged him with being abusive to the extent of tearing a waist from her body and striking her Saturday evening. She summoned Officer Nelson Wallace who placed Morris under arrest and lodged him in a cell at Police headquarters.

Monday morning he was taken to Mount Holly by Officer Wallace. Justice of the Peace Fletcher said, "After today we will not accept another fine from any one arrested on a disorderly charge. They will be sent to jail. We are determined to clean up Palmyra and towards that achievement every offender will be shown."

WHITE—HEIMS

Miss Beatrice, daughter of Mr. and Mrs. Charles H. Heims, 2000 street, Riverside, was married Wednesday evening, June 30th, at her home, to Mr. Walter A. White.

The groom was attended by Richard Heims, brother of the bride, and the bride was attended by Miss Rebecca White, sister of the groom.

The bride wore a gown of light blue georgette over satin black crepe and carried a shower bouquet. The bridesmaid was dressed in yellow georgette and carried pink and white roses.

Mr. and Mrs. White will make their home on Cinnaminson street.

Orders for printing and engraving placed at The New Era Office are delivered when promised. Phone 712 for our representative to call.

Calendars, fans, advertising pencils and other novelties are now being sold at The New Era Office. Phone 712 for our representative to call.

PALMYRA HOSPITAL FUND NEEDS \$155

Only \$155.50 more is needed to bring Palmyra's contribution to the Burlington County Hospital fund up to \$4,000 and thus entitle the borough to a place on the Memorial tablet which will be placed in a conspicuous place in the new building.

Richard E. Wilson, Palmyra Chairman, is anxious that this mark be reached and appeals to all who have not yet given as well as those who might be able to give a little more to get in touch with any of the local hospital drive committee before Friday evening and do their bit toward bringing up the total to the desired mark.

MORE SCHOOL ROOM NEEDED

Supervising Principal's Report Shows Four Rooms To Be Overcrowded

SUGGESTS USE OF OFFICE FOR CLASSROOM

The final meeting of the Riverton Board of Education for this school term was held Tuesday evening of this week.

Daniel M. Clifton, chairman of the property committee, reported a number of repairs and improvements he would like to have made during the summer and was authorized to proceed with the work. He also brought up the subject of repairing the wire fence on the old school ground to prevent balls from flying into neighbors' yards when boys are at play there. He was instructed to ascertain the cost.

The report of Miss Chew, supervising principal, was in part, as follows:

During the past year 344 pupils were enrolled. There were 294 promotions and 48 failures.

There were a number of failures in the seventh grade; none in the eighth. We attribute the latter result to the fact that the lines were drawn more sharply a year ago in making promotions to the eighth grade, those not having foundation to carry the work have repeated the seventh grade, and the eighth grade, can be expected, with a chance of finishing the eighth grade in one year, and with better habits of study. There will be complaints from some parents, probably, who see only that one child is not promoted while others move ahead, but the thing for which we must hold ourselves responsible, is that no child passes from the elementary school to the secondary unprepared to carry the advanced work. This is especially necessary in Europe countries. The High School has a right to object to pupils not having their elementary foundation securely laid.

A criticism made by Dr. Bagley, after studying the School System of Europe countries, is that elementary education is not taken seriously enough in the United States, and that our education has been superficial. I believe we are going to hear much along the same line, until the emphasis is put on the thoroughness of the entire school system.

If the figures pertaining to the number of children eligible for entering the Kindergarten, as taken by Miss Parker from the Borough census cards, revised May 1, 1925, are correct, we are dependent upon, we shall again have a beginning class of over 40 pupils. As the figures now stand, the grade enrollment will be as follows in September:

Grade 1, 49; grade 2, 42; grade 3, 37; grade 4, 33; grade 5, 47; grade 6, 49; grade 7, 35; grade 8, 28.

Relief is needed between first and second grade and between fifth and sixth. The latter has no way to chance at present, but suggest waiting to see if there is some change in the enrollment in the fall.

The first grade situation will have to be relieved and without disturbing the working of our departmental system, to do which would be a backward step, the best solution which occurs to me is to use the office as a classroom, pending the re-arrangement of the building to meet the need.

According to the legal requirement of floor space, allowing 18 square feet per child, with the exception of the kindergarten rooms, our limit is 38 per classroom. Both the first and second grades are exceeding this limit in four grades. We have seats enough in the building, but cannot distribute the children as easily as we can chairs.

The following bills were ordered paid:

The Macmill

Japanese Beetle Spray Formula

Pest Due To Arrive in a Few Days; Spray Should Be Applied July 1

Within the next week or ten days the Japanese beetle will begin to appear in numbers. On account of the late season the development of the beetle has been delayed somewhat and it is recommended to have the arsenical sprays applied to the foliage of fruit and shade trees on or about July 1 rather than June 15, which is the usual date when it is recommended to apply these sprays.

On early and late apples it is recommended to spray with 3 pounds of powdered arsenate of lead, 2 pounds of flour to 50 gallons of water. The spraying should be done thoroughly and all parts of the foliage and fruit should be covered. In the case of early ripening varieties of apples which must be sprayed shortly before the time of harvest, any residue remaining on the fruit when they are picked should be carefully removed by wiping or washing them.

Certain varieties ripen so soon after the time of appearance of the Japanese beetle that it is not recommended to spray them until after the crop has been harvested, in which case it may be necessary to spray the foliage in order to protect it against further attacks of the beetle. This applies particularly in the case of the star variety. In the case of Williams Early Red and Yellow Transparent varieties it is almost necessary to spray the fruit in order to protect the fruit against the attacks of the insects.

Early ripening varieties of peaches, such as Carmen, Red Bird, or Rochester should not be sprayed with any arsenical for the control of the Japanese beetle. Later ripening varieties of trees which are not bearing fruit may be sprayed with 1½ pounds of arsenate of lead (powder) to which is added 12 pounds of the New Jersey Drymix (lime and sulphur).

In certain cases where the concentration of beetles has become very heavy, on the fruit of early ripening peaches, it may be possible to spray them with a contact material, such as pyrethrum soap, which will kill the insects on contact and will greatly reduce the infestation on the plants, probably sufficient to carry the fruit over the next 4 or 5 days, which is necessary in order to bring it to maturity.

In the protection of grapes against the attacks of the Japanese beetle it should be remembered that the bunches of fruit are never eaten by the Japanese beetle. It is therefore necessary that the spray be applied to the foliage only. For the protection of the grape foliage a Bordeaux Mixture, prepared according to the 4-5-50 formula should be used. Three pounds of arsenate of lead powder should be added to each 50 gallons of the Bordeaux Mixture and care should be taken in its application to have a little go on the fruit clusters as is possible. Grapes should not be sprayed later than July 5.

It is recommended that shade trees, rose bushes and other ornamental plants which can be sprayed with arsenate of lead without injury, should be sprayed with coated arsenate of lead, which is now on the market, at the rate of 5 pounds to 50 gallons of water. No flour or lime should be added to this mixture. The advantage of the coated lead is that it remains in the foliage much longer and in a much more uniform coating than does the arsenate of lead and flour. The results which have been obtained at this laboratory indicate that a much higher kill of the insects is obtained where the coated arsenate of lead is used.

In some cases it is desirable to use a contact spray or a material which will kill the beetles as it strikes them, but does not have any poisonous properties which make it effective after the application is made. In such cases there are at least two brands of pyrethrum soap now on the market, which are reported to be prepared according to the formula recommended by the Japanese beetle laboratory.

The pyrethrum soap has proven to be an excellent contact insecticide for the Japanese beetle and where the beetles are concentrated in large numbers they can be killed instantly with this material. No foliage injury resulted from two applications of this spray to tender foliage. For the time being, however, one application is recommended.

Anemic children need iron-rich foods. Give egg yolk, prunes, raisins, orange juice, and green vegetables, especially spinach, as often as possible. Liver has been found especially valuable to persons having such trouble.

What this country needs is not more judges but more judgment.—Winston-Salem Journal.

To Aid Lumber Trade

E. A. Selfridge, Jr. of San Francisco, who for 20 years has been a prominent figure in the lumber industry on the Pacific coast, has been appointed American lumber trade commissioner in the Far East, according to an announcement just made by the Department of Commerce. Japan is now the largest foreign market for American lumber, and China is one of the largest buyers. Mr. Selfridge's headquarters will be in Tokyo.

Water Carnival at Mount Holly

Canoe Clubs To Hold Regatta At Woolman Lake July 24

Most Mount Holly people recall with pleasure the water carnivals that were held annually on the Upper Creek a few years ago under the auspices of the Ankokas Canoe Club, an organization that is now defunct.

With the disbandment of the Canoe Club, these celebrations on the creek that had grown to be one of the outstanding events in Mount Holly's yearly history, also passed out of existence. Regret has often been expressed over this, for the affairs were always such pleasurable ones that they had come to be looked forward to with pleasure to such an extent that the entire community made a holiday of the occasion.

Recently, a number of young men of the town and vicinity have been discussing the feasibility of a revival of these once popular water carnivals, and during the past week this has crystallized into a decision to form an organization to promote such an affair this year. Already it has been decided to hold the event on the new Woolman lake on Branch street, and Saturday, July 24, has been fixed as the date.

The Woolman Lake Estate, which is the name of the real estate development surrounding Woolman lake, presents an ideal spot for such an affair, for the banks of the lake will prevent an unobstructed view that will give opportunity for those who desire to congregate and witness the various events of the afternoon and evening, without crowding anyone.

The Red Dragon and Lakanoos Canoe Clubs, of Burlington, have already signified their willingness to take part, and in addition, the Ambassador and other clubs, of Philadelphia and Atlantic City, identified with the Amateur Athletic Union, a number of whose members maintain permanent summer camps on the upper creek, have agreed to furnish all the personnel and canoes required for a number of amateur events.

It is the intention of the promoters of the carnival to have events both afternoon and evening, a five-piece orchestra will be located on a float in the center of the large expanse of water, while a band concert and fireworks are also possibilities.

MERGER APPROVED

The Public Utility Commission has approved the merger of the Brown's 311½ Electric Light and Power Company and the New Egypt Light, Heat and Power Company with the Eastern New Jersey Power Company.

To finance the proposition and to provide for improvements in the service the Eastern Company was granted permission to issue \$400,000 worth of preferred stock and 4,000 shares of common stock without par value.

State Horseshoe Contest Planned

"Ringers" Galore on Program At State Farmers Picnic On July 29

New Jersey will have its first state-wide horseshoe pitching contest next month, when county champions compete for State Championship honors at the joint annual picnic and field day of the New Jersey State Grange at Tumbling Dam Park in Bridgeton, on July 29th.

County Boards of Agriculture and Granges throughout the state are now staging local and county horseshoe contests to determine their candidates for the state-wide event. Enthusiasm is keen, the New Jersey Federation reports in an announcement of the contest this week, and points to the spirited revival of this old-time sport.

"Horseshoe pitching is the sport of Kings," the New Jersey Federation continues, "and not so many years ago was the popular out-door pastime. Interest in rural sections notably in New York State, has again become keen and the old-timers in the art are coming forward to show the younger generation a thing or two about pitching horseshoes. New Jersey has a number of silent champions—men who can throw the other fellow's horseshoes in the air a score of ringers. Will it be one of these 'dark horses' who will carry away the honors at Bridgeton on July 29th?"

In scheduling the contest as one of the principal features of the state-wide farmers' picnic this year, the Federation-Grange Committee in charge announces seven cash prizes ranging in value from \$50 to \$5. Championship rules and regulations will be followed throughout, the contest being in charge of professional referees.

The affair is the annual sequel to the successful farm picnic held at Lake Hopatcong last October, when 700 farmers from practically every section of the State gathered for the largest open air farm event of the season.

The Cumberland County Board of Agriculture will act as host to the membership of the County Boards throughout the state. Ample tables for the large attendance expected, bands, speakers and a number of special events are being arranged for the entertainment of the visitors. The Bridgeton hotels are co-operating with the farmers' committee, offering reduced rates of \$1.25 to \$3 per person, two in a room European plan. Hotel accommodations are in charge of the New Jersey Federation of County Boards of Agriculture, which has urged its membership to make reservations before July 26th.

THE SACRIFICE THAT COUNTS---

The reason for not saving, generally advanced by those not doing so, is that they cannot afford to take anything from their small income.

Yet when unexpected expenses present themselves it is the person of small income who needs a reserve fund.

In nearly every case those who have advanced themselves from a poor financial state to a position of comfort or wealth have not only lived within their income but have constantly saved and wisely invested their savings.

It is the sacrifice that counts.

Let us help you save and help you with your investments.

LOWEST PRICES

Recent Hudson-Essex Drop Sets New Low-Cost Record

Hudson and Essex cars are now at the lowest price levels in the company's history, following reductions which have just been announced.

This reduction came at the end of a 10-month period, in 1924 in which Hudson-Essex buyers broke all records in their demand for these cars. The January-June period saw 114,500 cars shipped from the plant, or practically 17,000 in excess of the 1925 period.

At the same time these figures became available, it was stated also that the retail sales for May had reached 33,500 cars. Considering holidays, this was practically at the same high rate as obtained in April. The April and May months saw the delivery of 68,500 cars to Hudson-Essex buyers, which is said to be far in advance of any previous mark.

The reduced prices on Hudson and Essex cars," said R. D. Chapin, chairman of the board of directors, "are in line with the company's policy of offering outstanding values to the motoring public."

SHIELD AN OX-CART

Nash Bodies Made by Firm With Interesting History

No automobile body manufacturer in America has a more inspiring history than the Seaman Body Corporation of Milwaukee, exclusive builders of Nash enclosed bodies and owned in half by The Nash Motors Company. Back beyond the memory of the present generation—over seventy-five years ago—the house of Seaman was founded.

A photograph of an ox-drawn cart bearing the inscription, A. D. Seaman & Co., taken in 1871 and recently unearthed by Mrs. Christ Behrens of Milwaukee is a picturesque testimonial to the years of service that have been experienced by the Seaman organization. Mrs. Behrens, whose husband was the driver of the ox-cart, explains that during the year 1871 a severe epidemic of influenza among horses made it necessary to replace those animals by men which were still, however, in fairly general use.

The photograph, taken on East Water Street, Milwaukee, near the city hall, shows a background of buildings long since replaced by modern sky-scrapers. But even at that time the house of Seaman was twenty-three years old. Back in the days prior to the Civil War, A. D. Seaman, grand-business, engaged in the building of fine furniture. In later years as the automobile industry grew to major importance and the demand arose for automobile bodies that would worthily represent the wood-working art, Seaman turned his specialized ability to this field.

Today the immense Seaman shops are entirely utilized by Nash enclosed body production and as indicating the growth of this organization, founded back in the days of the prairie schooner and the ox-cart, the Seaman Body Corporation in 1922 produced 9,125 enclosed bodies for Nash Motors. In 1923 the production was 19,335, in 1924 the figure was 27,040, in 1925 it was 28,599, while in the first six months of 1926, Seaman built 71,060 Nash enclosed bodies.

Each process in the production of Seaman bodies is carried forward with indefinite care and scientific accuracy, for quality has been a basic principle with Seaman since the day the company was founded in 1848.

WHITE HORSE PIKE IS BEING WIDENED

White Horse Pike, the historic thoroughfare from Camden, New Jersey, to Atlantic City, paved for its entire length of fifty miles with concrete, is being widened to meet the demands of the ever increasing volume of motor traffic that pours into the famous seaside resort.

Before the year is ended the New Jersey Highway Department expects to have completed the widening of more than thirty-three miles of the Pike with ten and eleven foot concrete shoulders. There is a minimum width of eighteen feet and a maximum width of twenty-nine feet on the present concrete pavement. When the widening projects are completed the paving will be of a uniform width of twenty-nine and thirty feet for its entire length outside of towns.

In addition to the widening pro-

jects, a realignment for a distance of 1.5 miles is being built around Absecon. This realignment, actually an extension of Absecon Boulevard, has a 100 foot right-of-way, twenty-nine feet of which will be paved with concrete. A five and one-half foot gravel shoulder will be built on either side of the pavement.

PUBLIC SERVICE

NUMBER FOUR

Gas In Home and Factory!

THE waterless gas holder recently erected by Public Service at Harrison alone has a capacity of 15,000,000 cubic feet, and the combined capacity of all holders in the system exceeds 60,000,000 cubic feet.

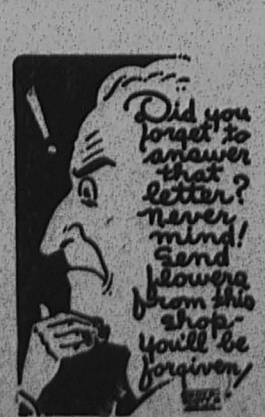

This is approximately the amount of gas burned by the people of the territory in which Public Service operates during a single day, yearly consumption for all purposes amounting to more than twenty billion cubic feet.

Service provided by Public Service enables more than 100,000 New Jersey families to cook their meals by gas, and has increased efficiency and lowered costs in hundreds of industrial processes carried on in hundreds of New Jersey factories.

Bowker's Reminders

Palmyra School Attendance Gains

Total of 1362 Pupils Enrolled For Year of 1935-6, Principal Reports

At the meeting of the Palmyra Board of Education last Thursday evening, Supervising Principal A. S. Smith gave an interesting report of attendance and other school statistics for the year 1935-6.

In the high school the enrollment was 426, of whom 227 were boys and 199 girls. The grammar grade had 187 boys and 185 girls, a total of 332; primary grades 232 boys and 210 girls, 442 in all, while in the kindergarten were 87 boys and 75 girls, a total of 162, making a grand total of 1362 pupils in the Palmyra schools.

The number of outside pupils in the high school was 257 and in the grades 25. Home students in the high school were 175. The previous year the outside high school students numbered 229 and the home pupils 157.

Colored pupils numbered 106, of whom 55 were girls and 51 boys. Boys in Majority

Professor Griffith remarked that it was unusual to find the boys outnumbering the girls in all four divisions of the school.

The percentage of attendance for the year just closed was 92 as compared with 90.9 the previous year. Total days present all pupils were 298,179, days absent 17,623 1/2.

While the absence were less numerous than the previous year, there were still too many, said the Professor. Parents do not seem to realize the importance of regular attendance.

Absences mean not only a financial loss to the school district, but also hamper the child in its progress and is often the cause of non-promotion.

The medical inspector examined 1259 pupils. Those excluded for contagious diseases numbered 29. Total reported to parents for any ailment, 537.

Going to College

In the graduating class of 62 from the high school, seven have applied for entrance to college, nine for technical schools, seven for normal and two for summer schools.

All those taking the normal entrance examination were successful in passing.

Of the 426 students in high school, 180 took the commercial course. The number of graduates was 41.6% of the number who entered the freshman class four years ago.

In the manual training department 163 boys took wood work and 152 mechanical drawing.

In the domestic science courses, 130 girls took sewing, 129 cooking, 129 home management.

This was the second year to award Old English letters for scholarship of 90% or over. This year 28 letters were awarded as against 15 last year.

In concluding his report, Professor Griffith said, "If we can succeed in stimulating a desire for better results, either by prizes or otherwise, we are helping the boys and girls to become better men and women and hence better citizens. I cannot help emphasizing at this time the need of a better physical training director for the girls of our schools. The necessity of such instruction becomes more apparent each year, with the growing number of girls in the schools."

DOUBLE-DECKED PIKE TO SHORE IS DREAM

Collingswood Man Believes Scheme Is Feasible and Would Solve Problem

The next step in progress for South Jersey—double-decking White Horse pike from Camden city line to Atlantic City—is the proposal of business men at Collingswood, Audubon, Haddon Heights and towns through Camden county where traffic conditions along the pike have become a problem and burden. A number of plans for relief have been proposed, such as making the pike a one-way thoroughfare to the shore and using Black Horse pike, a parallel highway, as the other one-way route, but the double-decking scheme seems to meet with most approval.

Charles Burkett, of West Collingswood, realtor, said he believed the day would come when White Horse pike would be double-decked all the way to the shore and either light or heavy traffic restricted to one of the other routes or one part of it used for traffic one way and the other for return traffic.

"This plan has been used in New York and it is perfectly possible for South Jersey," said Burkett. "The elevated structure could be reached by sloping ways at intervals, say every half mile. It would certainly relieve congestion. Traffic this year on White Horse pike has been greater than ever and the bridge has not yet opened. What will it be when Pennsylvania can reach Jersey without using the ferries and only need to drive across the bridge? Something has got to be done and progress can't wait much longer."

HURT BY TRUCK

Miss Helen Sterling, of Palmyra, Injured in Philadelphia

Miss Helen Sterling, West Spring Garden street, was severely injured Friday afternoon when she was struck by a "hit and run" driver in Philadelphia.

Miss Sterling was crossing Filbert street, near the city hall, and had reached the sidewalk and was about to proceed when a truck, which tried to pass another, skidded and struck her.

She fell on the sidewalk and the truck driver attempted to escape. Fortunately there were several persons nearby and one placed her in a car and rushed her to the Hahnemann hospital where she was found to be suffering from a fractured rib, cuts about the face and arms and severe bruises.

An officer was at the hospital and the person who brought Miss Sterling told him of the accident. He found the truck near Broad street and placed its driver, A. Roth, of Philadelphia, under arrest.

He was later released under \$1000 bail to await the outcome of Miss Sterling's injuries.

Miss Sterling was later removed to her home.

Here and Now

By C. Lawrence Hawthorne

I hear men talk so much about
Some great, uncertain day
When happiness at last will drive
Their miseries away,
When peace will shelter them from care
And fate will guide their feet
Along the endless paths of rest,
And joy will be complete.

They live in hope of better things
Tomorrow, in a land
Where all is rapturous and gay
And comforting and grand,
Where freedom opens wide the gates
To ecstasy supreme,
And leisure makes of days and nights
One long delightful dream.

But oh, how foolish is the plan,
How tragic is the fate
Of those who so delude themselves
Until it is too late!
Contentment sets no future time
To bless the lives of men,
For happiness is here and now
And never there and then!

"Y" CAMP NAMED AFTER INDIAN CHIEF

Camp Ockankton is operated by the Young Men's Christian Association in Burlington County, Camden County, Gloucester County and Monmouth County. Previously it was located near New Egypt. It is named for Ockankton, the chief of the Mantas, or Leaping Frogs, which made their home in the neighborhood of Burlington. Ockankton's body lies in the Friends' Burying Ground, High street. So high was his standing in the community at the time of his death that the white residents gave him a Christian burial.

Ockankton's fine character may be judged by his dying address in which he disinherited his own sons and made his nephew the king of the tribe to rule after him. The address follows:

"It was my desire that my brother's son, Iahkurse, should come to me and hear my last words, for him have I appointed king after me."

"My brother's son, this day I deliver my heart into your bosom; and mind me. I would have you love what is good, and keep good company; refuse what is evil, and by all means avoid bad company."

Friend of Christians

"Now having delivered my heart into your bosom, I also deliver my bosom to keep my heart in. Be sure always to walk in a good path, and if any Indians should speak evil of Indians or Christians, do not join in it, but look at the sun from the rising of it to the setting of the same. In speeches that should be made between the Indians and the Christians, if any wrong or evil thing be spoken, do not join with that, but with the good. When speeches are made do you not speak first; be silent and let all speak before you and take good notice what each man speaks, and when you have heard all, join to that which is good."

Brother's son, I would have you cleanse your ears, and take all foulness out, that you may hear both good and evil, and then join with the good and refuse the evil; and also cleanse your eyes, that you may see good and evil, and when you see evil, do not join with it, but join to that which is good."

Brother's son, you have heard what has passed; stand up in time of speeches; stand in my steps and follow my speeches; this do and what you desire in reason will be granted. Why should you not follow my example? I have had a mind to be good, and do good; therefore do you the same."

Wanted Him To Die

"Sheppy and Swampie were to be kings in my stead, but understanding by my doctor that Sheppy secretly advised him not to cure me, and they both being with me at John Hollinghead's house, I saw that they were given more to drink than to take notice of my last words, for I had a mind to make a speech to them and to my brethren, the English commissioners; therefore I refuse them to be kings after me, and have now chosen my brother's son, Iahkurse, in their stead to succeed me."

Brother's son, I advise you to be plain and fair with all, both Indians and Christians, as I have been. I am very weak, otherwise I would have spoken more."

BEEES AND BARRELS

Mrs. Jefferson's Dream of Apiary Rudely Shattered

It is doubtful if Mrs. Carl Jefferson, of Horace Avenue, Palmyra, will take the advice of her friends again, especially in regards to catching bees.

Sunday evening Mrs. Jefferson noted that there were large swarms of bees around the peach tree in her back yard. She said she would like to catch some and start an apiary.

Mrs. Jefferson was informed by one of her neighbors that if she waited till dusk and went out with a barrel the bees would swarm into it.

She did, but the bees didn't swarm into the strange hive. One got up her sleeve and several others are said to have expressed their disapproval of the barrel plan.

L. L. RACE

F. W. Robertson won the L. L. race last Saturday. The race was rather slow due to the light breeze, and the boats were widely scattered throughout the race. Showell finished second, Mattie third and Crowell fourth.

The course was from the Riverton Club to Keystone Yacht Club and then up stream to the House of Correction and back to the Riverton Club.

RECORD BREAKING PEACH CROP DUE

The present indications are that the peach crop will be one of the largest in the history of the state, and will bring in revenue of thousands of dollars to the owners of the orchards.

The spring season was so late that there was very little danger of frosts injuring the blossoms, and in consequence the peach trees are now being brought up to their full fruitage. Burlington county has many good-sized orchards, and motorists passing along the roads stop to admire the growing fruit.

The owners of the orchards in many instances are planning to sell their fruit direct to the consumers, as they do not have any of it rejected, and they receive the full market price, whereas if they send it to the commission dealers they lose the middleman's profit.

The one dread thing that is yet to be faced by the agriculturists is the ravages of the Japanese beetle. The United States Government service is expending thousands of dollars in their campaign to rid the state of the pest, and just how far they have it under control this season await to be seen, as it is too early yet for the beetles to make their appearance.

The other parties with Klemm were Charles Casey, Charles Klemm

COMMUNITY BAND

William Greer Elected President of New Moorestown Organization

The new band which has been forming for some time organized Thursday evening of last week, in the Community House under the name of the Community Band of Moorestown. In the election of officers the following were chosen:

President, William Greer; Secretary and Treasurer, Walter Salmon; Business Manager, J. M. Hohenlieth; Leader, Wesley Slocum.

Following the election of officers, Mr. Salmon made a few remarks about an ideal band, how it should be run, and the spirit that should be shown on the part of the players.

There will be a meeting of the band every Thursday evening at 8 o'clock at the Community House. New members are cordially invited.

Riverside Man Fined in Palmyra

Albert Klemm Accused of Reckless Driving and Evading Arrest

Albert Klemm, of Spring Garden street, Riverside, was fined \$137.50 by Squire Fichter, of Palmyra, Sunday morning, on a charge of reckless driving and attempt to evade arrest.

According to Officer Joseph Rodgers, of Palmyra, who was on duty, Klemm hit the light at the corner of Broad and Cinnaminson avenues, Palmyra, about one o'clock Sunday morning. Rodgers blew his whistle for Klemm to stop but he failed to do so and drove up Broad street at a rapid rate of speed. The officer seeing that the car was not going to stop succeeded in getting the number of the license.

Officer Rodgers telephoned Trenton as quickly as possible and found who the owner of the car was and started for Riverside at once. On the way up he saw a car in the ditch at Cambridge and, stopping to investigate, found the occupants to be two young ladies and a lady 70 years old, who said that they had been to a funeral in the northern part of the state and were on their way home when the car was hit by another machine loaded with "drunks." The other car did not stop but continued on its way at breakneck speed.

Officer Rodgers was confident that it was the same car that he was after and took one of the ladies to Riverside and located Chief Voshel. The trio went to Klemm's home and found that he was in bed. According to the officers Klemm was under the influence of liquor. They accused him of hitting the car, but he denied it. The officers took him into the garage and showed him where his car had been damaged and he finally admitted that he remembered hitting the other machine.

Officer Rodgers hurried to Palmyra to secure a warrant for Klemm's arrest, but was unable to arouse the "squire" and had to wait till morning, when the warrant was issued by Mayor Wood. The officer returned to Riverside about 8 o'clock and took Klemm back to Palmyra, where he was tried before Squire Fichter. By this time there was no evidence of the prisoner having been drinking and he was tried for reckless driving and evading arrest. A fine of \$137.50 was imposed.

The other parties with Klemm were Charles Casey, Charles Klemm

and another man. According to the officers Casey paid fifty dollars of the fine for Klemm and the balance was paid by the rest of the party.

SPEEDERS FINED

Palmyra Officers Nab Three Motorists Exceeding Limit

Cloris Loreaux, of Riverton, was fined \$5.00 and costs Thursday afternoon by Justice of the Peace William Fichter, of Palmyra, on a charge of speeding.

Loreaux was coming down Broad street in Palmyra about thirty-five miles an hour when he was stopped by Officer Nelson Wallace. He explained that he had been late at work recently and was trying to make up time.

He was told to report that afternoon for trial before Justice of the Peace Fichter.

It. Ashworth, of Philadelphia, was also fined \$5.00 Thursday afternoon. Friday, Fortunato Cesarski, of Philadelphia, fell into the trap set for speeders and was fined \$5.00.

The war on speeders will continue until every motorist entering Palmyra realizes that the law will be strictly enforced.

BLEAM—HOPKINS

On Saturday afternoon, June 28, at three o'clock, Calvin Bleam, of Woodbury, and Miss Alice Brook Hopkins, daughter of Mr. and Mrs. Edwin Hopkins, 221 Union street, Moorestown, were wedded by the Rev. W. J. Cusworth, at the home of the bride's parents.

The house was attractively decorated for the occasion, and the ceremony took place under a tower of roses and ferns.

The bride was attended by Mrs. John Kenney, of Riverside, formerly Miss Marie Malloy, of Moorestown, as matron-of-honor, and Miss Ruth Bleam, the bridegroom's sister as bridesmaid. The best man was Clarence Bleam, of Woodbury, a brother of the bridegroom. Little Nancy Thumbert, of Philadelphia, was the flower girl.

Riverside Man Fined in Palmyra

Albert Klemm Accused of Reckless Driving and Evading Arrest

Albert Klemm, of Spring Garden street, Riverside, was fined \$137.50 by Squire Fichter, of Palmyra, Sunday morning, on a charge of reckless driving and attempt to evade arrest.

According to Officer Joseph Rodgers, of Palmyra, who was on duty, Klemm hit the light at the corner of Broad and Cinnaminson avenues, Palmyra, about one o'clock Sunday morning. Rodgers blew his whistle for Klemm to stop but he failed to do so and drove up Broad street at a rapid rate of speed. The officer seeing that the car was not going to stop succeeded in getting the number of the license.

Officer Rodgers telephoned Trenton as quickly as possible and found who the owner of the car was and started for Riverside at once. On the way up he saw a car in the ditch at Cambridge and, stopping to investigate, found the occupants to be two young ladies and a lady 70 years old, who said that they had been to a funeral in the northern part of the state and were on their way home when the car was hit by another machine loaded with "drunks." The other car did not stop but continued on its way at breakneck speed.

Officer Rodgers was confident that it was the same car that he was after and took one of the ladies to Riverside and located Chief Voshel. The trio went to Klemm's home and found that he was in bed. According to the officers Klemm was under the influence of liquor. They accused him of hitting the car, but he denied it. The officers took him into the garage and showed him where his car had been damaged and he finally admitted that he remembered hitting the other machine.

Officer Rodgers hurried to Palmyra to secure a warrant for Klemm's arrest, but was unable to arouse the "squire" and had to wait till morning, when the warrant was issued by Mayor Wood. The officer returned to Riverside about 8 o'clock and took Klemm back to Palmyra, where he was tried before Squire Fichter. By this time there was no evidence of the prisoner having been drinking and he was tried for reckless driving and evading arrest. A fine of \$137.50 was imposed.

The other parties with Klemm were Charles Casey, Charles Klemm

and another man. According to the officers Casey paid fifty dollars of the fine for Klemm and the balance was paid by the rest of the party.

SPEEDERS FINED

All readers or local notices of entertainment, suppers, fairs,
dances, etc., given for the purpose of raising money, will be
charged for at the rate of fifteen cents a line.

OLD RESIDENT REGISTERS KICK
The Editor of the New Era,
I read with surprise, in last
week's New Era, that the Fourth
of July Committee had decided to hold
the fireworks display in Memorial
Park. This is certainly a foolish
move on the part of those who
have evidently not been able to con-
sider the matter in a broad way.
It has been the custom in Riv-
erton from time immemorial, to end
the glorious Fourth by adjourning
to the river bank to see the fire-
works. We have been very fortunate
in having such an ideal place to
see such a display. Crowds come
to Riverton from miles around and
the streets leading to the river bank
are lined with parked cars as far
as the street. All traffic on the
riverbank is stopped which makes
it safe for the spectators, and after
the display is over it is an easy
matter for the crowds to disperse
in a short time.
It was shown on Old Home Day,
on a bitter cold night, with a com-
paratively small crowd, that "back
in the woods" was a poor place to
handle a crowd, and the congestion
that will happen on 4th of July
night can be imagined by anyone
who takes the time to give the
matter any consideration.
An Old Resident.

ANNUAL SERMON
Shelksh Lodge, No. 32, F. & A.
M., held its annual sermon on St.
John's Day, Sunday, June 26.
The Lodge, accompanied by Ris-
ling Sun Lodge No. 1, of Camden,
Portsmouth No. 35, of Moorestown,
Union No. 2, of Burlington; Starlight
No. 48, of Merchantville, met at the
fire house, Howard street, and
marched to the Second Baptist
Church, East Riverton, to the strains
of music furnished by the Elk's
Band, of Camden. All along the
line of march the citizens of Riv-
erton complimented the men on the
fine appearance they made.
Arriving at the church, 3 p. m.,
an excellent program was rendered
in which members of the Lodge,
Rev. M. A. Foster, Rev. S. T. Boyd,
Rev. E. F. Morris, P. G. M. C. A.
Polk, Mrs. Polindexter and P. G. M.
Caston, of the District of Columbia
took part. The annual sermon was
preached by Rev. William A. Dorsey,
Pastor of the District of Columbia
Lodge, a mixed choir directed by Professor
William Hill furnished excellent
music for the meeting. Shelksh
is a little past four years old. The
consensus of opinion is that this
was the grandest and finest annual
celebration they have held.

The officers are as follows: George
M. Madison, W. M.; John Polindexter,
S. W.; James Fisher, J. W.;
Howard Conwell, secretary and Carl
Rieckhoff, treasurer, Past Masters,
William A. Dorsey, Josiah Conwell
and J. E. Robinson.

FLYNN-McDERMOTT
Miss Margaret McDermott, daughter
of Mr. and Mrs. John McDermott,
was married to Mr. Joseph
Flynn, in Sacred Heart Church,
Wednesday morning, June 30, at 9
o'clock. The ceremony was per-
formed by the Rev. Joseph A. Ri-
ney. The bride wore a gown of
white crepe embroidered with pearls
and carried a shower bouquet of
roses, and was attended by her sister,
Miss Helen McDermott. The
bridesmaid was dressed in apricot
crepe and carried pink roses tied
with pink ribbon.
The groom was attended by his
brother, John Flynn, as best man.
The organist was Miss Eleanor
Conwell and solo were rendered by
Miss Mary Steedle, Mrs. Haines and
John Graham.
After a wedding trip to Atlantic
City, Mr. and Mrs. Flynn will re-
side at 210 Clunnaminon street,
Riverton.

BAPTIST CHURCH NOTES
Sunday, July 4, is Independence
Sunday.
The pastor, Rev. George Lockett
will speak at the morning service
at 11:15 on "Dependence and Inde-
pendence."
In the evening there will be a
special patriotic service in charge
of the pastor which should be of
interest to every patriotic member of
the church and community.
The "Happy Hour" for the kiddies
on Friday afternoon at four will be
the last for the summer and will
end with a party.
The Young People's Society still
are holding their enthusiastic meet-
ings on Friday evenings at eight
which will continue throughout the
summer.
Those members of the Sunday
school who spent last Saturday at
Neshaminy Falls had a real day
of sport at the picnic. Let us carry
pleasure and enthusiasm throughout all
the regular services of the summer
including the Wednesday evening
prayer meetings.

Jung's Arch Braces are highly
recommended by physicians because
of their strictly hygienic principle.
Ask your physician about them.
Sold at Keating's store.
Charles B. Durbin, who took
such an active part in the big
swims held at Riverton for several
years, will be in charge of the
water activities of the Little Red
Harbor Yacht Club on the Fourth
of July.

RIVERTON ITEMS

C. W. Rodman and family are
spending the summer at Cape May.
Mr. and Mrs. Charles Evans and
daughters have gone abroad for two
months.

ter, of New Brunswick, expect to
spend the Fourth with her mother,
Mrs. Mattie.
The Misses Mary and Adelaide
Roedts are visiting relatives in
Pottsville and Linfield, Pa., on the
May Rail Train.
Charles B. Durbinow and family
left on Saturday for their cottage
at Beach Haven, where they will
spend the summer.
The Riverton-Palmyra Branch of
the YWCA held a "doggie" pool
in the Harmer woods near Moore-
stown Tuesday evening.
Theo Schneider is going to Ocean
City the first of July to be gone
until Labor Day. Mr. Schneider
will umpire games for the Ocean
City Riverton baseball team.
Edgar Miller has been attending
the Preparatory School conference
held at Blairtown, with the other
members of Haverford School which
he attends.

Miss Edna R. Fister, daughter
of John C. Hinkle, of Riverton, was
married to Faleon Morgan, of Ash-
ville, N. C., on June 18. Mr. and
Mrs. Morgan will live on their farm
near Asheville.

Wednesday evening last week,
the Riverton Yacht Club held a
social "get together" with a ban-
quet and dance. The music was
furnished by the Royal Commodore
of Palmyra.
Edward Faunce purchased the
first home in the Belvedere prom-
otion on St. Michel Drive opposite
Dreer's Riverview Nursery. Eddie
expects to move into his new resi-
dence the early part of next week.
Mrs. S. H. Lisk has gone to
Hoboken, N. J., to spend the sum-
mer with Mr. Lisk who is employed
there. Mr. and Mrs. William
Greene, of Philadelphia, will occupy
the house during Mrs. Lisk's ab-
sence.

Mrs. George Ames, of Mt. Rainier,
N. J., is visiting her mother, Mrs.
Mary Stratton, and sister, Mrs.
William Minks. Mr. Ames has been
in Lakeland, Florida for several
months and Mrs. Ames will join
him to make their permanent home
there.
Mrs. N. C. Graham, of the Maple,
has been entertaining her sisters-in-
law, Miss Graham and Mrs. Page,
of New York City. Mrs. Graham
will leave today for Atlantic City
where she will spend the summer
at the Hotel Wiltshire.
Messrs. William B. Lynch, Edgar
Shannon, Matthew Bontheimer, Ir-
ving Williams, Robert Robbins,
Francis Keating, Charles Serraf,
John Carhart, Harry Messmer, Wil-
liam Rogers, L. G. Rogers, Theo.
Schneider, Joseph Rose, and Wil-
liam Thompson went to Portques-
last Monday for a fishing trip. The
party brought home sixty-five fish.
Clarence Hubbs, unopposed re-
publican candidate for Riverton Ber-
rough Council, staged a surprise
party for Mrs. Hubbs last Saturday
evening. The guests included Mr.
and Mrs. Warren T. Smith, Mr. and
Mrs. Frank Chambers; the Misses
Alexine Lowman, Elizabeth Gil-
lingham, Gladys Locke and Messrs. James
J. Tomes, Charles Coward and Par-
nell Morgan.

The Tau Sigma Kappa fraternity
gave a dance last Thursday evening
in the Riverton Yacht Club with
more than fifty guests present. The
"Tau Sigma" are not connected
with any high school but is a frat-
ernity made up of young men from
Palmyra and Riverton who give
dances during the summer and the
Christmas holidays. The committee
in charge was Herbert Windsor,
George Beeton and Edgar Miller.
The music was furnished by Herb
Windsor and His Midshipmen.
Mr. and Mrs. William McKee Gil-
lingham and daughter, of New York,
are visiting her parents, Mr. and
Mrs. William H. Baker, Mr. Gil-
lingham will spend two weeks here,
and Mrs. Gillingham and daughter
will remain during July and August.

The War Department has asked
for information regarding Richard
S. Pickery, who is said to have
lived in Riverton about twenty
years ago. If any of our readers
can supply any data, please send it
to the New Era office and it will
be forwarded to the department.

GODFREY-DUDLEY
Wednesday afternoon of last week
at 8 o'clock the Rev. Dr. George H.
Hanson, married Miss Evelyn G.
Dudley, daughter of Mr. and Mrs.
Henry Dudley, of Walton Avenue,
Moorestown, and C. Clifford God-
frey, of Philadelphia, at the home
of the bride's parents.
The bride, attractively attired in
white, was attended by Mrs. Butter-
wick, of Philadelphia, who was
dressed in light blue. Mr. Butter-
wick, the matron-of-honor's hus-
band, was best man.
A reception given by the bride's
parents followed the wedding cere-
mony. About twenty-five relatives
and friends attended the ceremony
and reception. The newly married
couple then left on their honey-
moon.

THE NEW ERA, RIVERTON, N. J.

THE MARRIAGE OF Miss Gertrude E.
Karins and Mr. Francis J. Hamlin
was celebrated on Saturday, June
22, at St. Cassin's Church, Upper
Montclair, New Jersey.
The altar was elaborately decorated
with roses, ferns and lighted
candles and the chancel with tall
standard pink and white bouquets.
Proceeding the ceremony, which
was performed by the Reverend Jos.
McGarry, a musical program was
rendered by Mrs. Jos. Conner, who
sang "I Love You Truly," and "At
Dawning."

The bride looked charming in a
gown of white georgette headed
with pearls over satin, with a long
veil of Duchess lace and tulle caught
with orange blossoms. Her shower
bouquet was of roses, sweet peas,
valley lilies and orange blossoms.
Her attendants were Mrs. Edwin
Burr, of Riverton; Miss Bessie Kar-
ins, of Philadelphia, and Miss Mary
A. Jones, of Palmyra; pictures of
loveliness in green and orchid chiffon
frocks with which they carried atrn
bouquets of Premier roses.
Miss Betty Karins, the bride's
sister, made a charming flower girl
in yellow chiffon, carrying a basket
of yellow Marguerites and corn-
flowers.

The four brothers of the bride
served as usher and the best man
was Mr. Samuel Hamlin, brother of
the bridegroom.
Following the ceremony the
couple received their many guests,
who were from New York, Philadel-
phia, Riverton, Delaware, Atlantic
City and Palmyra, in the bride's
home in Upper Montclair.
After a wedding breakfast
Mr. and Mrs. Hamlin amid a shower
of rose petals and good wishes
left for a honeymoon in Maine.
Among the guests from this
vicinity were: Misses Thelma and
Dorothy Jones, Mr. and Mrs. Newton
Morton, Mrs. Palmer L. Adams,
Mrs. Roy T. Hardy, Mrs. Ida B.
Honsall, of Palmyra.
Mr. C. H. Montley, Mrs. Ralph
Sylvester, Mrs. Manie Bowers, Mel-
vin and James Burr, of Riverton,
and Joseph Rogers, of Moorestown.
The young couple have many
friends here. Mrs. Hamlin having
the YWCA held a "doggie" pool
in the Harmer woods near Moore-
stown Tuesday evening, and Mr.
Hamlin having been employed
by J. S. Collins & Son for a number
of years. They will make home at
Second and Linden avenue, Riverton.

BOY SCOUTS DINE DADS

Get-Together Meeting at Par-
ish House Dinner, With Mu-
sic and Dancing

The father and son banquet given
in the Parish House last Fri-
day night for the members of the
Boy Scout troop in Riverton and
their dads was a most enjoyable
affair, and many of the dads went
home with a much better idea of
what it was all about than they
had ever had before. The dinner
was served by the mothers, sisters
and sweethearts of the boys, and
it would be hard to tell which was
the proudest, the boys in their
natty uniforms, the dads who sat
opposite them at table, or the
ladies who served them all.
Music was furnished during the
dinner and for an informal dance
following the meeting by Partelow's
Troubadours.
H. M. Neely, Burlington County
Scout Commissioner, told the dads
something of the financial needs of
the organization, and Bryan Kane,
Scoutmaster of the Beverly Troop,
related his experience with his boys
and how after three or four years
of endeavor succeeded in getting
the fathers interested and the work
was placed on a firm basis.

John Tallis, of Palmyra, County
Scout Executive, with offices at Bur-
lington, was one of the guests of
honor.
Scoutmaster William M. Shoemaker,
of the Riverton Troop, made a
masterful appeal to the fathers
present. He said in part:
"It is undoubtedly true that as
we grow older we object to so
many things including much that
we ourselves have done, that we
do certain extent lose sight of ob-
jectives save to negative them, and
therefore, all unconsciously, stop
constructing. We think 'don't,' we
say 'don't' and we put on the
brakes more than we push, until
our children acquire a sort of neg-
ative frame of mind, so far as we
are concerned, to the extent that
many of their positive thoughts and
actions are kept from us because
they have come to feel that we
would only 'don't' them.
"To properly construct, one must
have a well-defined objective, some-
thing definite to build up to, and
it's right there that so many Dads
fall short. They don't give their
boys constructive help. They make
little effort to supply definite ob-
jectives and even less effort toward
providing any method of attaining
them.
"All boys, to some extent at least,
reflect in their manners and
thoughts the best and the worst
traits that Dad has.
"Whether we Dads will admit
these things or not, nevertheless
they are true. The responsibility
for our children's success should be
realized as the greatest job we have
handed ourselves. To shirk or side-
step it means, if not failure, at
least a lesser share of the success
than otherwise would be theirs.
"To expect a boy to do what you
want him to without first helping
him do it, is expectancy minus com-
mon sense. To build character with
nothing but negative and brake-
jamming is utterly impossible.
"Give the boy something to do,
show him how to do it, and see
that he does it.
"The Scout program can help
you as well as your boy, but we
Scoutmen find the task well-nigh
impossible unless the Dads know
what we are doing, how we are
doing it, and then, if sold on the
proposition, join hands with us and
work with us for the better man-
hood of your boy."

Miss Rebecca White is entertain-
ing her cousin from Bridgeton.
ENGAGED
Miss Elizabeth Nixon, of French's
Avenue, announces the engagement
of her niece, Miss Mary Wood, to
Oliver F. Bowen, son of Mr. and
Mrs. Walter L. Bowen, of Thomas
Avenue, Riverton.

Tennis at Country Club

Annual Tournament Held Last
Saturday; Won By
Haddonfield

The day started off rather dis-
mally—for the first hour there were
showers every ten minutes, and it
looked as if it would be necessary
to postpone the Tournament. The
sun finally peeped through and stay-
ed until the last entry was complet-
ed.

Riverton did not do particularly
well. Rev. H. Rendall and A. F.
Coe reached the finals in the Men's
Singles but it was necessary for
them to default, due to the fact
that Rev. Rendall had to leave early
to officiate at a wedding.

At the conclusion of the play the
entrants and their numerous friends
were served a supper on the Club
House porch and a dance followed
in the evening.
Haddon Field Club continued its
dizzy pace in the championship race
of the West Jersey League of Field
clubs by capturing highest scoring
honors in the second of a series of
tournament held Saturday at the
Riverton Country Club.

Brilliant performances by Dr.
Lawrence L. Glover, his sister, Miss
Mathilda Glover and the Misses
Sara and Bessie Taylor enabled
Haddon Field Club to register 20 1/2
points.
Woodbury Country Club finished
second with 14 1/2 points, while
Moorestown Country Club placed
third, with eight and a half points.
and Merchantville Country Club
was fourth, a mere half-point be-
hind Moorestown. Riverton Country
Club finished last with five and a
half points.

By virtue of Saturday's victory,
Haddon Field Club now leads the
stand with 35 points. Woodbury
is runner-up with 29 points.

Miss Glover's Scholastics
Miss Margaret Jones, of Moore-
stown, after winning from Miss Mil-
dred Van Mote, of Woodbury, in a
first-round match and triumphing
over Mrs. Katherine Miller, of Mer-
chantville, fell in the final round
match.

Miss Mathilda Glover, wearing
the colors of Haddon Field Club,
who defeated Miss Elizabeth Stokes
of Riverton, in a preliminary round
match, overcame Miss Jones in the
final round, score, 10-8, 6-4.
Lieutenant R. M. Watt, former
United States Naval Academy tennis
star, representing Woodbury in com-
petition for the first time this sea-
son, advanced to the men's singles after
twice triumphing in the early and
semi-final matches.

The erstwhile Annapolis racket
wielder turned back Charley Orr, of
Haddon Field Club, in the first
round and also upset C. A. (Sig)
Mears, one-time Seashore College
athlete in the semi-finals.

Opposing Parry Truscott, steady
Merchantville performer in the final,
Lieutenant Watt won by a score
of 6-2, 6-2.

WOMEN'S SINGLES
Final Round
Miss Glover beat Miss Jones, 10-8
6-4.
MEN'S SINGLES
Final Round
Lieut. Watt defeated Truscott,
6-2, 6-2.

WOMEN'S DOUBLES
Semi-Final Round
Misses Sara and Bessie Taylor
won from Mrs. Roberts and Mrs.
Sehested, 6-1, 6-0.

"Cooperative church schools" are
attended by 28,316 pupils in 264
schools in 36 cities of Kansas. In
many of the cities it is the practice
to dismiss the public schools for
an hour every week to receive in-
struction in the churches, but it
is reported that in a few places
religious teaching is given in the
school houses. Some of the teach-
ers of religion are paid, but others
render voluntary service.

Methodists Lead In Twilight Race

Ray Lamont Sends Baptists Down To Defeat In Thrilling Battle

The Methodists, coming from behind, defeated the Baptists in the battle for the Twilight League leadership by the score of 8 to 5 Monday evening.

Ray Lamont pitched a beautiful game and well deserved the victory. The whole Methodist team played real snappy baseball and after the second inning retired the Baptists without any further trouble.

Nellie Bly Hits Another Victim

Delair Colored Man Killed at Arch Street Station Tuesday Noon

Zero games, colored, of Columbia Park, Delair, was fatally injured when the car in which he was riding was struck by the "Nelly Bly" bus at Palmyra at 12:30 as he was crossing the Hyton Road crossing, West Palmyra, Tuesday.

It is said that Ganes had come out of the store opposite the West Palmyra Station and got into his car, a Ford sedan, turned around and without apparently noticing the speeding train, was half way across the tracks before he was struck.

His body was hurled about eighty feet and the car was completely demolished.

Coroner Elwood Belton, of Moorestown, was called and said the man had died instantly.

Ganes was apparently on his way to the farm of T. W. Beidemann. He had obtained a position there and had started work that morning.

His body was removed to the Snover Funeral Home, where it was identified by the Rev. E. F. Morris, of Delair.

Ganes was 46 years old. He is survived by his wife, Bertha, and two children.

Funeral services will be held Thursday evening in the Morrellville Church, the Rev. E. F. Morris, officiating.

The remains will be shipped to Millsboro, Delaware, Friday morning for interment in Frank A. Snover, Funeral Director.

The crossing where Ganes was killed is particularly dangerous and has been the scene of several tragedies. The West Palmyra station obstructs one's view of west bound trains and the steep grade at the crossing necessitates auto drivers dividing their attention between running their cars and watching for trains.

LUTHERAN NEWS

The First Lutheran Church of Palmyra and Riverton welcomes all to its services. Bring your friends to the house of God for an hour's worship. The pastor will preach on a patriotic theme in the morning service, which starts at eleven o'clock, and there will be a children's object sermon preceding the regular service.

The hour of the evening worship has been changed from 7:45 to seven o'clock. Please bear in mind this forty-five minute change in the time of the evening worship.

Sunday School will meet at ten o'clock in the morning. The new quarter opens with studies of the early leaders of Israel from Moses to Samuel, the lesson for next Sunday being "Israel Enslaved in Egypt."

The Sunday School and Congregational picnic will be held Saturday July 10th, at Hanting Park. It is hoped that all members, both of the Sunday School and of the church will avail themselves of the privilege of a day of social fellowship.

The Thursday evening prayer meetings will be continued throughout the month of July, but not through August. You will find this prayer circle inspirational and helpful.

The installation of the present pastor, Rev. William M. Erhard, will take place on July 11th with special speakers at both morning and evening services.

On July 18th the mid-summer Holy Communion will be conducted. This is the first communion under the new pastor and we look forward to a large attendance at this service.

The Texas family averages 4.5 persons, and Papa knows who that nine-tenths is.—Dallas News.

ANNUARY

Mr. and Mrs. Thomas Hunter entertained friends from Philadelphia on Sunday.

Mrs. Nellie Heltner and Miss Sarah Horton, of Bridgeboro, and Misses Ada and Helen Southwick were visitors in Camden on Saturday.

The Cambridge Union Mission celebrated their seventh anniversary on Sunday by speaking at 10 a. m. and the Lord's Supper by Rev. John Norberry, of Delanco. Their Children's Day service was held on Sunday evening, also speaking by Keith Bodine of Pensacola. Those who attended from Asbury were, Mr. and Mrs. Thornton Southwick and Misses Louisa, Ada and Helen Southwick.

Miss Florence McGowan, of Philadelphia, and Freeman E. Hunter, of Asbury, motored to Gloucester on Sunday evening.

Mrs. Elizabeth Dudley, of Riverside, and Mrs. Mamie Heck, of Asbury, spent Tuesday at the home of Mr. and Mrs. Thornton Southwick.

Independence Day, fraught with deep significance becomes dearer to the hearts of American people as each year passes. In this, the 150th year of our Nation's freedom, and also the 4th of July comes on Sunday, it is altogether fitting that we should celebrate this day, by attending Church services somewhere.

Our idea of perfect digestion is to be initiated into the lodge on Wednesday night and appointed on the membership committee Thursday noon.

Hard work is a better tonic than you can buy at the drug store.

CAR HITS BOY

Albert Groff runs in front of Edward Steedle's Car

Albert Groff, twelve year old son of Mr. and Mrs. L. Groff, 6th and Race streets, Palmyra, was slightly injured Wednesday afternoon when he was struck by the car driven by Edward Steedle, of Riverton.

The youngster was on the back of Dreer's truck coming toward Palmyra and Steedle was driving in the opposite direction.

Without warning the boy darted in front of the car, a Ford coupe, and was slightly cut about the arms and face.

He was rushed to the office of Dr. Francis Voorhes, Palmyra, and his wounds were dressed.

Steedle reported to Chief of Police C. Morris Beck and was released upon his own recognizance after the mother of the child exonerated him.

CONTRACTS AWARDED

At a meeting of the Burlington County Board of Freeholders held at the almshouse Wednesday of this week, the following contracts for additions and improvements at the Hospital for Insane at New Lisbon were awarded: Plumbing, Albert Ellis, \$6,780.48; ventilating, Albert S. Ellis, \$14,851.80; electrical work, Enterprise Electric Company, \$5,324.

The contract for the general work was temporarily held up.

Contract was awarded to the Russell Index Company for judging indexes at the county clerk's office at a cost of \$1500. A resolution was passed to appropriate \$140,000 to meet the cost of improvements at the Hospital for Insane.

WIKMAN—TICK

Clayton Albert Wikman, son of Mrs. Joseph Stack, 227 Broad street, and Miss Helen Elizabeth Tice, daughter of Mrs. Albert Clark, Fairview street, Riverside, were married at St. John's Church, Chews Landing, Wednesday evening.

The ring ceremony was used and the Rev. William Hoffman, pastor of St. John's Church, and a life long friend of the groom, officiated. The bride wore a beautiful gown of white georgette and carried a bridal bouquet and tulle of the valley.

Mrs. George Partelow, wearing a stunning dress of green georgette, was the matron of honor. John Hudson, of Palmyra, acted as best man. The ushers were Edwin and Francis Kapus, Clarence Bell and Spencer Johnson.

Miss Alma Stack sang "O Promise Me" and "At Dawning." Following the ceremony a reception was held at the home of the bridegroom's parents, 237 Broad street, and music was furnished by Partelow's Troubadours.

After an extended honeymoon at the Hotel Glenwood, Wildwood, the newlyweds will be at home to their many friends at 227 Broad street.

P. S. REVENUE

A comparative statement of combined results of operations of Public Service Corporations of New Jersey and subsidiary companies for the month of May and for the twelve months ending May 31, 1926 shows that operating revenue of subsidiary companies in May 1926 amounted to \$6,481,722.50 as against \$7,605,968.00 for May 1925, an increase of \$875,754.50. Net increase in surplus before dividends for May 1926 was \$808,796.35 as against \$801,966.45 for May 1925, an increase of \$6,829.90.

For the twelve months ending May 31, 1926 operating revenue of subsidiary companies was \$99,925,957.50 as against \$99,367,302.85 for the twelve months ending May 31, 1925, an increase of \$558,654.65. Net increase in surplus before dividends, \$12,424,259.58 as against \$8,005,078.74.

BARN BURNS

Green Hay Thought to Have Caused Blaze in West Palmyra

The barn located at Third and Arch streets, the property of Robert Young, was destroyed by fire Tuesday morning.

In the barn was a quantity of green hay and it is thought that spontaneous combustion was the cause of the flame.

The blaze had gained too much headway for the firemen to reach the roof by the time an alarm had been turned in.

When the firemen arrived it was too late to save a horse and several hundred dollars worth of equipment and feed.

PHRENETICIAN

A cordial invitation is extended to you to unite with the fellowship and in the worship of Calvary Presbyterian Church, West Sunday morning the pastor will preach. The evening services have been discontinued until September. Sunday School at ten o'clock. Bring the children and remain with them for the morning worship. There will be no meetings of the Christian Endeavor and no mid-week services.

Lesson for July 4

ISRAEL ENSLAVED IN EGYPT

LESSON TEXT—Exodus 1:1-14.
GOLDEN TEXT—The Lord will not
eat of his people.—Ps. 84:14.
PRIMARY TOPIC—A Wicked King
in Cruelty to God's People.
JUNIOR TOPIC—The Israelites Be-
come Slaves.
**INTERMEDIATE AND SENIOR TOP-
IC**—Israel Oppressed by a Despotie
King.
**YOUNG PEOPLE AND ADULT TOP-
IC**—Modern Forms of Oppression.

I. The Increase of the Chosen Seed (vv. 1-7).

This miraculous increase seems
only to have begun after the death
of Joseph and the passing of his ge-
neration. After this Israel quickly
grew into a nation. This amazing in-
crease "is expressed as is usual in
Hebrew by a chain of verbs; where
fruitful is taken from the vegetable
world in which the increase varies
from the multiple to several hundred-
fold; increased (spawned)—swarmed
is borrowed from the fanny tribes in
which the rate of increase rises to
many myriads; multiply is a general
word referring to number; and "waxed
exceedingly mighty" is a similar phrase
alluding to the strength which num-
bers confer, composed of verb and ad-
verb repeated and therefore well
adapted to complete the climax.—
Murphy. This increase can only be
accounted for by admitting the hand
of the Almighty to be in it.

II. A New Dynasty Appears (vv. 8-10).

Joseph's elevation as prime minister
in Egypt was during the reign of the
Hyksos kings. Being of Semitic ori-
gin, they were not hostile to the He-
brews, but when "there arose up a
new king which knew not Joseph" (v.
8) their troubles began. This affords
a striking illustration of God's provi-
dence in history. His purposes in-
clude the means to carry them out.
The amazing growth of the Israelites
excited the envy and fear of the king
(v. 9, 10). Fear was twofold—
1. In case of war they might join
the enemy and fight against them.
2. Lest they should remove from the
land, thus cutting off a vital source of
revenue and also exposing to danger
the eastern border of the land.

III. Measures to Check the Growth of Israel (vv. 11-23).

These measures with their outcome
expose the folly of world wisdom (I
Cor. 3:19). If they could have
eliminated God from the affairs of
men their policy would have been a
good one, but it proved to be alto-
gether vain. The greatest mistake
a man can ever make is to leave God
out of his calculations. God had prom-
ised that His people should become
mighty in power as well as great in
numbers.

1. Placed under cruel taskmasters (vv. 11-14).

The first measure he adopted was
to put Israel into cruel bondage by
afflicting them with heavy burdens.
Cruel taskmasters were placed over
them, who forced them to labor in
building treasure cities and all man-
ner of service in the field. They ex-
acted of them hard service, but this
measure was ineffectual for "the more
they afflicted them the more they mul-
tified and grew." This rapid growth
resulted in more intense burdens be-
ing heaped upon them. The Egyptians
meant this for evil to the Israelites,
but God blessed it to their good. It
was part of His plan for them (Gen.
35:13, 14). Indeed, the righteous may
expect such treatment of the world
(II Tim. 3:12; Heb. 12:10). Prosper-
ity and adversity constitute God's
teaching and discipline. While their
burdens were heavy and their suf-
ferings very intense, they had the
consolation that it would not last for-
ever. The presence of Joseph's dead
body was a guarantee that they would
one day be delivered. Though the
Christian's burden may be heavy and
his sufferings keen, he has the guar-
anty that they shall not last always.

2. The authorized murder of the male infants by the midwives (vv. 15-21).

This measure also miscarried as the
midwives feared God and chose to
obey Him. Because they refused to
destroy God's people He gave them
homes and children and the joys
thereof.

3. The drowning of the male chil- dren in the river (v. 22).

The king, having heretofore been
baffled, he now gave the heartless
command to cast the male infants
into the river. This mandate seems
to have been given shortly before
Moses was born. This plan likewise
failed, and the very child who ul-
timately upset Pharaoh's throne, was
sheltered and nurtured in his own
palace.

The Values That Abide

We acquire, discard and cherish;
and the things that we retain are those
which can endure the light of the pres-
ence of God. And these are the things
which are eternal.—Isaac Edwards.

Studying the Bible

We have been studying the Bible to
the light of modern scholarship. The
time has come for us to study modern
scholarship in the light of the Bible.

FATHER SAGE SAYS
A writer who sets
down a thousand
brilliant thoughts to
entertain his read-
ers has a good
many that he keeps to himself.

The Federal Trade Commission
has prohibited the sale of candy
bars with prizes concealed in them
on the ground that it is a lottery.
But buying from him or her is pretty
much of a lottery, too.

Dressed for Parties in Gay Sheer Frocks

Leading the procession of early-
colored, sheer fabrics that are fash-
ionable for little girls' party frocks,
come voile and dotted swiss, followed
by georgette and crepe de chine. Taf-
feta silk, net and fine batiste are well
represented, but voile holds the lead,
and often two light pastel colors are
combined in the same dress, one of
them introduced in applique or other
decoration. In the quaint frock of
pink voile pictured here cream-col-
ored dotted net ruffles between groups
of tucks are used for trimming. A
band of ribbon ending in a bow flar-
ishes the round neck. It also defines
the short yoke and falls in streamers
from each shoulder, where a little
blossom is posed.

NEW JUNIOR COUNTY LEAGUE ORGANIZED

At a meeting in the Delanco A.
A. building last Wednesday night
a new Burlington county Junior
Baseball league was organized which
includes the junior teams from
Roebbling, Riverside, Delanco, Mar-
lton, Florence and Mount Holly.

The officers elected were, Edward
Zimmerman, president; Roy Wil-
liams, vice president; F. (Mickey)
McGarrigle, secretary, and Sage
Bennett, treasurer.

A twenty-eight game series was
agreed upon, which will open Satur-
day, June 25. The teams will play
three games a week, Saturday, Mon-
day evening and Wednesday even-
ing.

Each team in the league may use
one player from outside towns not
listed in the league, with the excep-
tion of Marlton, which can use any
player that see fit as long as they
are listed and sanctioned by the
president of the league.

ROOM FOR 800 AT PLATTSBURG

Eight hundred young men from
New York, New Jersey and Dela-
ware may apply at Governors Is-
land for the Citizens' Military Train-
ing Camp at Plattsburg Barracks,
New York, for the camp which will
open on August 6th and close Sep-
tember 4th.

There will be two camps at
Plattsburg this summer, General
Summerall explains, and the fact
that the first one scheduled for the
period July 2nd to July 31st has
been completely filled and no more
applications can be accepted, has
led to an erroneous opinion through-
out the Second Corps Area that no
more applications are being accept-
ed for the C. M. T. Camps at Platts-
burgh, this summer. As a matter
of fact, says the General, "there
are eight hundred vacancies for the
August 6th Plattsburgh camp. A
month in camp without costing
them a cent is offered to young
men with no previous military train-
ing between seventeen and twenty-
four years of age. For those with
training in the National Guard, the
R. O. T. C. or with World War ser-
vice, the age limit is thirty-one."

Uncle Sam will furnish a railroad
ticket from home to camp, will
pay three dollars a day for meals
enroute, will provide a complete
Army uniform, substantial well-
cooked food, laundry, medical at-
tention and instruction by specially
qualified Regular Army officers. The
troops that assist in the training
will be the 26th Infantry of the
famous old First Division.

Young men in Citizens' Military
Training Camps will be given the
opportunity to learn to shoot the
Army rifle. With this military
training will go studies in citizen-
ship, hikes and athletics, and best
of all, a month in the open air amid
healthy surroundings. Applications
are being received and accepted at
Governor's Island in the order in
which they arrive.

A two-way dish closet in the
wall between the kitchen and din-
ing room is a great convenience, if,
on the kitchen side, it adjoins the
sink it will save still more steps.

COMMUNITY CHORUS FEATURES EXPOSITION

Its membership of nearly 400
representing almost a score of
towns in the lower counties of the
state, the South Jersey Community
Chorus, organized to present high-
grade musical concerts at the out-
ing Jersey Exposition, will in all proba-
bility make its debut on the occasion
of the visit of President Coolidge to
the Exposition on July 5.

The plan to stage the first presen-
tation in honor of the President is
now under consideration, but what
decision will be reached depends on
the hour at which Mr. Coolidge and
his party will reach Camden. The
members of the chorus are enthu-
siastic over the proposal to present a
concert for the head of the nation
and if the time of his arrival is con-
venient this big band of expert sing-
ers will fill a prominent part in the
program incident to the Chief Ex-
ecutive's first visit to Camden.

Formed only four weeks ago this
big array of mixed voices from
thirty different organizations from
music clubs, churches and welfare
societies and while the chorus was
formed for the express purpose of
giving renditions at the exposition
there is already a well crystallized
movement to make it permanent.

Under the presidency of Miss
Julia Williams of Merchantville, the
chorus has made wonderful strides
in its rehearsals at the Junior High
School and is growing numbers
weekly. Miss Williams was former-
ly president of the Federated Club
of New Jersey and by her
engaging personality and her talent
for music, has aroused the sincere
interest of every member of the
chorus in her effort to make it the
most proficient body of vocalists ever
formed in South Jersey. The chorus
will present programs at stated
intervals and will also be heard on
Sundays in renditions appropriate to
the day.

BUY YOUR MILK WITH MUCH CARE

To many people milk is milk, but
to others many questions about its
source, cleanliness in handling, tem-
perature at which it is kept, and the
proportion of fat it contains are
asked before it is served to the
family. In the large cities, the
health department sets the standard
for the milk supply and the home-
maker chooses from that which is
available. In small communities
and in rural sections, there are no
such rigid regulations and the indi-
vidual family must select its supply
from the various producers who
sell milk.

There are various grades of milk
sold in some places. The New Jer-
sey foods specialists at Rutgers
University suggests that it is well
for the housewife to inquire and
learn the difference between grade
"A" or "B". The fat or cream
content of milk is determined by
State law. If raw milk is being
used, one wants to be certain it
comes from tuberculin-tested cows.
Certified milk is raw milk which
must meet certain rigid regulations
set by the medical commission of
the state. Because of the high
price of this milk, it is used pri-
marily for small babies. Pasteur-
ized milk is heated to kill the mi-
crobes in it. A cooked taste should
not be evident if the pasteurizing
has been carefully done.
The food value of milk is not
changed greatly whether it is eaten

raw or cooked. Some of the vita-
mins are killed in the heating pro-
cess but these are easily replaced
by eating citrus fruits, tomatoes,
and leafy vegetables.

Milk is beneficial for all the
members of the family and no other
food supplies the nutritive elements
so economically and in a form so
easily utilized by the body.

A quart of milk a day for each
child, and a pint for the adults of
the family, is the ideal standard.
This does not mean one must drink
this amount of milk. Cream soups,
escaloped dishes, milk shakes,
cocoa, puddings, and ice cream are
a few suggestions for using milk in
the meals of the day.

P. S. TO ENLARGE CAMDEN PLANT

Will Increase Gas Capacity by
3,000,000 Feet Daily

Keeping a few steps ahead of the
exceptional growth of Camden and
vicinity and anticipating a still
larger development when the new
Camden-Philadelphia bridge is open-
ed, Public Service Electric and Gas
Company is about to start work on
a large extension to its manufactur-
ing facilities at Camden Gas Works.
An addition will be built to the
generator house sufficient to accom-
modate new equipment which will in-
crease the daily capacity by 3,000-
000 cubic feet of gas. This is the
latest construction project to be
undertaken in this district where
for some time new gas mains and
service extensions have been laid
and general improvements in the
manufacturing and distribution de-
partments have been made.

The new gas manufacturing ma-
chinery will include a waste heat
boiler, centrifugal blowers and a
steam accumulator. The addition
to the building will be sixty-seven
feet long and thirty-two feet wide
and it will be of brick and steel
construction. The centrifugal blow-
ers will be housed in a separate ex-
tension, thirty-five by twenty-three
feet.

This will give Camden a total of
15,000,000 cubic feet of gas a day
including the output of the Camden
Coke Company which is 5,000,000
cubic feet per day. Add to this
6,000,000 cubic feet per day pro-
duced by the Trenton Works and
the total makes 21,000,000 cubic
feet a day for the Southern Divi-
sion territory of the company.

GROWN IN NEW JERSEY
under soil and climate ad-
vantages, Steele's Hardy Stock is
the satisfactory kind. Great
assortment of Fruit, Nut, Shade
and Evergreen Trees, Small-
and Large Shrubs, Hardy Shrubs,
Roses, etc. Fully described in
my beautiful illustrated De-
scriptive Catalog—15¢ FREE.

Outdoor Exhibit At Exposition

New Jersey's Appeal to the Sportsman Will Be Strikingly Demonstrated

New Jersey's position as "The Great Outdoor State" will be strikingly featured at the South Jersey Exposition in Camden during July and August. Through exhibits staged by the New Jersey State Fish and Game Commission it will carry an especial appeal to sportsmen. These exhibits will present glimpses of live fish and game in their native habitat and will be of important educational value to school children and the general public as well as of interest to devotees of rod and gun.

Although situated between two of the greatest metropolitan centers and with a record population per square mile within its own boundaries, New Jersey has managed to reconstruct and conserve its natural fish and game resources to an extent that is amazing to the uninformed. Within an hour's ride by motor from New York or Philadelphia are woods that abound with wild deer and other game.

One county in the state a year ago reported more buck deer legally killed by hunters than were taken during the same season in the entire state of Colorado. Efforts will be made by the state to exhibit in a pen in sylvan surroundings, in the park, adjacent to the exposition building a few of the live deer.

Famous Wildfowl
Famous the country over for its wildfowl shooting along the coastal bays, New Jersey will show wild geese and wild ducks in another pen and pond in the exposition park. In addition there will be exhibits of brilliantly plumed pheasants, a few of which are grown for show purposes and breed-crossing experiments at the State game farms.

The birds and small game come from the State Game Farm at Forked River and will be in charge of Malcolm Dunn, superintendent of the establishment, which is one of the most successful plants in the country for artificial rearing of game birds. The State has another large farm at Rockport, in Warren County, and several branch farms and preserves scattered throughout the state, which will make additional contributions to the Exposition exhibits.

An artificial lake in the center of the Exposition park and an indoor exhibit in glass-sided aquaria in the State building will give the public an idea of the type of game and food fish which New Jersey stocks its 500 streams and lakes.

Angler's Paradise
To its tens of thousands of licensed anglers the state offers excellent fishing in practically every county. Native, brown and rainbow trout make the streams in the northern counties a veritable angler's paradise. Musconetcong and Pesquest rivers have become two of the best known trout streams in the country and thousands of adult trout poured into the streams every month keep them stocked to the limit throughout the season.

The State produced its game fish at the State Fish Hatchery at Hackensack, built and maintained, like the game farms, from income from sportsmen's licenses and without expense to the taxpayers of the state.

From the hatchery there was distributed last year a supply of approximately 75,000,000 fish, black bass, rock bass, catfish, bluegill and crappie with the native pike and perch, which inhabit New Jersey streams to-day only because they have been protected by closed seasons and bag limits and increased by restocking, will be shown in the exhibits, which are being arranged by Superintendent Charles C. Hayford, of the Hackensack Hatchery.

ROSE MILDEW

Reports coming in to the New Jersey State College of Agriculture, New Brunswick, from various parts of the state indicate that there is a veritable epidemic of mildew on many of the rambling roses which are just coming into bloom.

Industry of C. H. Conner, floriculturist at the college, as to what should be done, brought the following statement: "The attacked bushes will probably give no bloom unless measures are taken to prevent the spread of the disease. It appears as a grayish, downy substance upon the new leaves, the flower buds, and stalks. This disease is caused by a fungus and the warm days and cool nights are favorable for its development. Once the disease becomes visible it is impossible to cure it, but it is possible to check its spread."

"Any weak fungicide, such as bordeaux mixture or sulphur solutions, will tend to prevent the spread of the disease. One of the best and most easily applied means of control is sulphur. All seedmen or dealers in spray materials carry in stock various sulphur dusts, although flowers of sulphur will act satisfactorily on mildew."

"Several manufacturers of spray materials are preparing and packing a special dust for roses, which contains 90 parts of dusting sulphur and 10 parts of powdered arsenate of lead. This material is effective against all leaf-eating insects as well as against mildew, and when properly applied will also assist materially in the control of black spot of roses."

"These dusts are inexpensive and readily applied with a small hand sprayer costing from 50 cents upward and obtainable from seedmen and some hardware stores."

A 28-page publication, entitled "Roses in the Garden," containing information about this disease and other matters regarding roses is being issued free of charge by the College of Agriculture, New Brunswick, N. J. Requests should be addressed to the Mailing Clerk.

It is fine to speak well of the dead, but what shall we do about those who are dead and don't know it?—Boston Globe and Leather Reporter.

Some of these days a wide-awake, intelligent A. A. is a community somewhere or other is going to try stopping crime by punishing the criminals.—Nashville American.

DIPPING INTO SCIENCE

Size of Sphinx

The great Sphinx, lying about a quarter of a mile southeast of the Great Pyramid in Egypt, is 175 feet 6 inches in length and 66 feet high. Its head is more than 100 feet around. While its exact age is in doubt, investigations seem to indicate that it was built about 5,000 B. C.

SESQUI-CENTENNIAL MUSIC PRIZES

Open to All Music Students; \$500 Prizes in Every Class

The Sesqui-Centennial Exposition to be held in Philadelphia from June 15th to December 1st, is a celebration of the 150th Anniversary of the signing of the Declaration of Independence.

The Exposition Music Committee has set aside a considerable sum of money as prizes for musical accomplishment in the fields of composition and public performance.

In the latter class a prize of \$50 is offered in each of eight classes: Soprano, Contralto, Tenor, Baritone, Violin, Violoncello, Piano and Organ.

Contests will be under the direction of the National Federation of Music Clubs, through its state and district officers.

New Jersey State Contests will be held in Camden during the month of October, the Liberty District Contest in New York City during the month of October, and the final contests in November at the Exposition in Philadelphia.

Students must be Americans and under the age of 24 years. As the test pieces are difficult and the contests take place so early in October, it would seem necessary to prepare the students before the end of this musical season.

Direction of the contests in New Jersey is in charge of Mrs. W. Burnett Stewart, 23 W. Cedar Avenue, Merchantville, and the Liberty District is in charge of Rita Hamilton Morris, 835 Lincoln Place, Brooklyn, N. Y. Address all communications to Mrs. W. Burnett Stewart, who will be glad to furnish further particulars upon request.

FREE BRIDGE?

The Pennsylvania-New Jersey Joint Commission for the Elimination of Toll Bridges between these two states has stepped into the Burlington-Bristol bridge proposition and has instructed its engineer to prepare an estimate of the cost of the building of a proposed bridge and to select an appropriate site.

A charter has been issued to Joseph R. Cheesman and others for the building of a toll bridge, the charter having been issued under the corporation laws of Delaware, but it is said this will not prevent the Commission from erecting a toll-free bridge on its own account.

The result of the controversy will be watched with interest.

Paying the Piper

By THOMAS ARKLE CLARK

Dean of Men, University of Illinois.

"WHOMEVER would dance," the Scotch proverb had it, "must pay the piper" which in the parlance of today would mean that if you would do the Charleston successfully you must be in a financial condition to contribute to the support of the saxophone player, and the rates these days are high.

Daily had a tremendously good time in college last year. He had a racoon coat and a Ford car and a girl and a generous allowance from his father, who, when he was in college, stoked a furnace for his room rent and waited table for his board. Daily, senior, is one of these fond fathers who got where he is by hard work, and who doesn't want his son to repeat that experience, and son feels about it just as his father does. He likes work so well that he can easily lie down beside it and go to sleep.

I had young Daily keep an account of his activities for a week once, with the result that it appeared that he had been to a show on an average of once a day during the week, had treated hundreds of miles in the car, had spent twenty dollars or so for mere pleasure, and had studied four hours. He would have spent more money, he admitted frankly to me, excepting for the fact that it was near the end of the month and his allowance was exhausted.

Daily didn't pass anything and was, as is the custom, dropped from college. He had danced regularly and gayly, and now when it came to settling his account with the piper he thought that the rate was too high.

"The piper never plays for nothing," the piper is always standing at the door as we go out insisting on his money.

"You were dancing, you see, during all that time, and when it was over, you did not have money enough to pay the nodder."

"Can't I have another chance?" he asked.

"You've had two already," the dean replied.

"But I've learned my lesson," Daily pleaded.

"What did you do the first twelve weeks?" I inquired. "It's the good beginning that counts most."

"Well, I did play around a good deal, but I thought I could make it up at the last."

It is a hard lesson for youth to learn, and for middle age also at times, that when we dance, no matter whether it is in the form of extravagance or dissipation or loafing, we have to pay.

Field Club Wins Its Third Victory

Palmyra Nine Defeats Belkfield, of Camden, in Snappy Contest

Once more Palmyra Field Club emerged victorious, making three straight wins, when it defeated the strong Belkfield team, of Camden, Saturday, in a fast game played on the Palmyra diamond by a score of 4-2.

Although the Field Club only registered seven hits, they were bunched in the fourth and fifth innings and yielded the winning runs. Heppard was by far the individual star of the game and his timely hitting and snappy fielding undoubtedly played a big part in the victory.

Nerves of Invalids

Soothed by Pictures

Art is being used successfully in the treatment of nervous diseases in a Philadelphia hospital. Pictures in proper colors, when exhibited to patients, have a soothing effect. It has been found. Reds and other "hot colors" are not used, since they disturb the nervous system, in some of the more turbulent cases it has been necessary to hang the paintings out of reach of the patients.

The basic idea is that of the emotion being affected by color, so great care is exercised in selecting the right picture.

"The colors we find most advantageous," said a hospital attaché, "are the cool ones. These bring a calming influence. For this reason landscapes, seascapes and mountain scenes are preferable. The wave-wash on a New England coast, a misty pastoral scene, puffy white clouds against mountain peaks, all reveal peace, stillness, rest."

Explaining "Sea Serpent"

It can be said that many of the stories of the sea serpent can be explained as being due to mistaken interpretations of large fishes, dolphins and whales; but there are two or three well-authenticated statements, such as that reported by the warship Daedalus of China, and another reported from Lord Crawford's yacht, which seem to resemble prehistoric types.

There is nothing impossible in the suggestion that there should be animals living of which we have no knowledge, but there is a great difference between the possible and the probable. There are, for instance, giant squids, which have enormous feelers, and which, it is raised above the water, would present somewhat of the appearance attributed to the sea serpent.—London Mail.

Many Self-Taught Men

"That middle-aged man who just went out came in about a year and a half ago," said a Detroit bookkeeper to a news reporter. "Then he bought an arithmetic. Later he came in after algebra and a geometry. Today he dropped in for a trigonometry and key. I venture to say when that man completes his mathematical study all dug out by himself, he will have a more thorough knowledge than most college graduates. You'd be surprised to learn how many of these self-taught men are in Detroit delving into every sort of subject." Which is not strange. But it is easier and quicker to get it in college if time and means are to be had.

From Personal Observation

One of the questions put to a class of rural adults was: "In the sentence, 'The bird flew over the house, he flew' a regular or an irregular verb?" This proved a sticker for the class, but finally one man ventured an answer. Said he, "If the bird that flew over the house was a wild goose, it went in a straight, regular line, so the verb is regular; but if it was a woodpecker, then it went in a crooked, zigzag line, and so the verb is irregular."

All but the Grammar-bound Examiner

was satisfied with this rational explanation.

Expert With Knife

Despite the meers of the superperfect, the great art of cutting with a knife is not lost in America. One 100 per cent, observed on a Pennsylvania diner out of St. Louis, whose pockets bulged with oil contracts, did it with infinite dexterity, conveying semi-liquid morsels to his mouth without losing a drop. He also spurned napkin and finger bowl. There was really no call for either. He had not missed himself up a bit.—Outlook.

When Two Are Enough

A woman, looking for an apartment, said to a janitor one day: "I hope there are no barking dogs in any of the adjoining flats?" "Oh, no, ma'am," said the janitor. "Not on your life, ma'am." "I guess I'll take the place, then," said the woman, with a sigh of relief. "You see, I've got two dogs of my own that bark like fury, and I really couldn't stand any more."

Ed Only Fish Which

Seeks Prey in Pools

Among fishes the pike is called "the tiger of the stream" because of the daring and ferocity with which it plays among the lesser denizens of the under-water world.

But, as in the jungle, the wolf pack is responsible for more killings than the solitary tiger, so the depredations of the wolves of the stream, the eels, are ten times greater, although perhaps less visible than the spectacular dashes of the pike, says the London Mail.

Eels are practically omnivorous and will eat anything—fish, flesh, fowl or insect. Nothing from a dainty spinner to a dead dog or cat comes amiss to these ravagers of the stream. They wage relentless war on all other species of fish, devouring their spawn and hunting the small fry from their hiding places under stones and weeds.

Eels are the only species of fish which actually hunt their prey in company. The pike, perch and trout are all predaceous, but in hunting they work singly. But eels, like wolves, although hunting individually where the smaller prey is concerned, do not hesitate to band together and attack victims for which they would be no match in single combat.

Hebrews Among Early

Settlers in America

Father Lejane of Kamloop, a pioneer missionary in British Columbia and probably the foremost linguist of native Indian dialects, has reported to the government of Canada that words of Hebrew origin are found in most languages of the province. He writes, says Pierre Van Passen, in the Atlanta Constitution, that among the Tshimshians there were such customs as the burnt offering of food and fasting from sunset to sunset in times of stress, which has come to the conclusion that Hebrews lived in America as early as between the years 1100 and 1600 A. D. He advises "that an exhaustive study should be made 'before old men and women of Indian tribes who are today in a position to recount the customs and beliefs of the aboriginal peoples of British Columbia have passed away.' And he advances the theory that following establishment of a Jewish community at Kaituma, China, Chinese expeditions brought Jewish traders to the Pacific coast of North America."

"Lost Continent" Again

Though the myth of the lost continent has long since been thought exploded, a recent article in a Dutch periodical revives the story and adds that after all it may have existed.

Scientists also are discussing it. Books are written to prove it once existed and now found shallow in the Gulf of Gancony start speculations once again. Once the lost continent was a matter of faith, and men took the word of the Egyptian priest who told Solon it was larger than all Libya and Asia, and lay beyond the Pillars of Hercules, near the true sea. It sank, said the Egyptian, after an earthquake that shook its golden cities for a day and a night, "whereupon that sea is now impassable on account of the slime and mud which has been left."—P. Y. P. in Atlanta Constitution.

Long Sleep for Long Life

How much sleep should a business man have if he wishes to keep fit and live to a good old age?

The question is answered by Dr. A. T. Nankivell, the medical officer of Plymouth, England, who says that eight to ten hours is necessary.

He points out that although we crowd into our days three times as much as our grandparents did, we take only the same amount of rest and sleep.

Matter Easily Settled

Mr. Wombat (who, in the absence of his wife, has called in Sherlock Holmes to consult him)—Mr. Holmes, I wish your invaluable aid in deciding which present I shall get for my wife for her birthday—an electric range, or a full-length mirror. Sherlock (after quick inspection of the kitchen and bedroom)—The mirror will please her best. I observe that the floor in your wife's boudoir shows more evidence of wear than that in the kitchen.

Insects Wait for Weather

Observations made by a British scientist have led to the belief that if the weather is bad the small egg moth can postpone its own birthday for days, months or years. The cocoon of this type is ordinarily due to open in February but if the weather is inclement the birth is usually postponed sometimes for twelve months. Moths have been known to emerge successfully after being imprisoned eleven years.

Hadn't Brought Bill

A young woman entered a milliner's shop with a young man and paid a small deposit on a hat, which she promised to call for in a few days. However, it was several weeks later when she returned. The assistant having forgotten the transaction, asked if she had brought her bill.

"Oh, no," she replied. "You see, we're married now, and we can't afford train fares for two."

REIN'S SALES.

Riverside has always been considered the center of the automobile industry in Burlington county. This fact is borne out by the number of cars that are sold each week. A few of the sales reported by the Rein Motor Company this week are: Nash Sedan, Walter A. Richman, Moorestown; Studebaker sedan, Samuel Briggs, Burlington; Buick heavy duty truck, Harry Schmeidler, Delanco; Chevrolet sedan, Carl Thorbeck, Riverside; Buick touring, Harlow Vincent, Riverton.

The Y. W. C. A. camp at New Hope, Pa., opened on Saturday, June 26 with a large enrollment.

Burlington County has a delegation of forty girls for the first week. These girls are Rae Gashill, Margaret Tyler, Louisa Wright, Helen Kasser, from Medford; Carol Perry, Margaret Glendhart, from Hartford; Clara Reed, Alma Reed, Margaret Ellis, Mabel Miller, Elizabeth Harbison, Anny Kingma, from Chesterfield and Crosswicks; Sohle Trybusky, Pearl Addis, from Farnersville, Burlington; Stella Wright, Doris Wright, Jane Gardner, Katherine Wright, Indian Mills; Elva Ward, Pemberton; Margaret Madison, Katherine Gilliam, Mount Holton; Anna Mae Dean, Cedar Lake; Irene Sippel, Rath Patterson, Nan Caroline Evans, Jane Blackwell, Helen Geiss, Riverton; Alice Slinger, Erla Mae Cook, Marion Fisher, Allwood, Hainesport; Eleanor Stogman, Ruth Sleeper, Sara Curtis, Mary Benckert from Burlington.

Thirty-five Girl Reserves from Beverly, Palmyra, Riverton, Riverside, Bridgeboro, Mt. Holly, Burlington, Hainesport, and Willingboro will enter camp on July 3rd. There will be a third group entering for the week of July 10-17.

The camp is under the direction of Miss Susan Thomas of Trenton, with Miss Irene Ives as head counselor and Miss Helen Hoff, assistant head counselor. Assisting these workers are a trained recreation director, and a graduate doctor, handcraft teacher, nature study teacher, and tent leaders.

The Burlington County girls are having a wonderful camping experience and one need only visit the camp to see how happy the girls are in the great outdoor life.

The bus for camp will leave the Y. W. C. A. building in Mount Holly Saturday at one o'clock. Girls returning from camp will arrive in Mount Holly at five o'clock Saturday. The transportation is being handled by Mr. Wm. Hamilton of Florence.

There are certain events in the Y. W. C. A. calendar which members of the Association look forward to from year to year. Foremost among these events is the Eastern County Conference at Silver Bay, New York, July 13-18.

The delegates from Burlington County will leave on July 13th from Burlington for New York City spending one day in the city. The trip from New York to Albany will be made by boat, and from Lake George Station to Silver Bay by boat.

The delegates are Mrs. William Matlack, Misses Edith Conow, Helen Thomas Millman, of Moorestown; Mrs. Alexis P. Clark, Mrs. Adeline M. Horner, of Crosswicks and Ches-

terfield; Miss Emma Foster of Willingboro; Miss Minnie Shadle of Riverside; Miss Beatrice Shadle and Alice Rowan of Mount Holly; Misses Margaret Logan and Elsie G. Hoover of Burlington. Miss Salie Sumner, County secretary will be in charge of the delegates.

SIGNALS BARRED

Highway Engineer Explains State's Attitude

At the monthly meeting of the State Freeholders' Association, held at Atlantic City, Major William G. Sloan, State highway engineer, defended the action of the State Highway Commission in ordering automatic traffic signals from streets and roads that intersect with State highways.

Major Sloan declared that through traffic has become so great that some sacrifice must be made on the part of the municipalities to help meet the problem.

The Major took the view that it is not fair for a through motorist to be held up by a red light when there is no automobile coming along the intersecting street. The loss caused by these delays, he declared, runs into many dollars through time and gasoline.

The meeting, which was in the form of a dinner, was presided over by Charles R. Stout, of the Burlington County Board of Freeholders, the president of the organization.

Other speakers included Judge Higbee, county solicitor for Atlantic county and State Senator J. Gilbert Boltron, of Salem county, and Assemblyman Stratton, of Gloucester county, both of whom spoke of the value of the State Freeholders' work in connection with the Legislative program.

STOLE GRAIN

Coupled Employee Arrested and Discharged by H. B. Williams

James Chapman, colored, West Palmyra, was arrested last Thursday on a charge of stealing grain from H. B. Williams, by whom he is employed.

He was tried before Justice of the Peace William Fichter and after promising to pay for the stolen grain he was released.

It was said that Chapman had been systematically stealing the grain for some time and selling it at cut prices to the company's customers.

Mr. Williams was satisfied to discharge the man and withhold any charges providing he paid for the stolen grain.

Rabbi Marcus Ransom, Temple Beth-El, Albany, N. Y., says that the world court to be established in Jerusalem. He claims that passages in Isaiah and Micah forecast such a tribunal there.

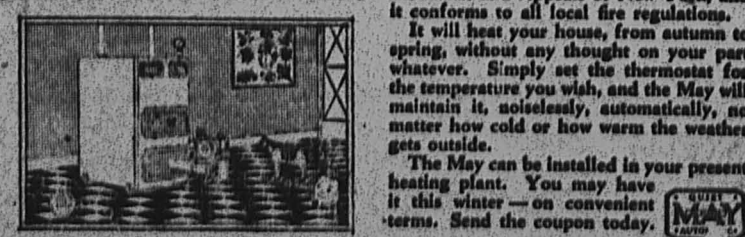

In a free-for-all fight in a congressional hearing at Washington the other day, the contestants hurled ink wells at each other, and doubtless they are all thankful now that there were no beer bottles around.

Are you still a slave to your furnace?

The oil burner is PERFECTED now
It is releasing men from winter drudgery

FIRST thing in the morning—last thing at night—month after month through the long winter—the furnace! In every house someone is its slave. . . . But that is needless now. For now the oil burner has been perfected. The coupon below will bring you the most important information ever offered

about modern heating. Send it today. You will be under no obligation whatever. The May is the simplest and safest automatic oil heater—noiseless—economical—dependable. It is listed as Standard by the Underwriters' Laboratories, Inc., of Chicago, and approved by the Board of Standards and Appeals of New York, and it conforms to all local fire regulations.

It will heat your house, from autumn to spring, without any thought on your part whatever. Simply set the thermostat for the temperature you wish, and the May will maintain it, noiselessly, automatically, no matter how cold or how warm the weather gets outside.

The May can be installed in your present heating plant. You may have it this winter—on convenient terms. Send the coupon today.

Please send me complete details of the May system of oil heating. I understand that I may be under no obligation.

Exposition Is Opened Today

Eight Counties Unite To Show South Jersey Progress To The World

With President Coolidge's visit lending a national significance and with the state expending thousands of dollars to demonstrate the operation of the various activities of the Commonwealth, the South Jersey Exposition to be held in Camden during July and August will not only be a fitting observance of the opening of the Camden bridge but will also show to the thousands who will visit the great fair the unexcelled opportunities and progress of the southern section of the Garden State.

With eight counties united to stage an observance that sets the high water mark for exposition of this nature and with upwards of a hundred cities co-ordinating to show to the world the unparalleled advance of Southern New Jersey in industry, agriculture and other lines of human endeavor, the Exposition will demonstrate the wonderful possibilities of the lower section of the state to such an extent that thousands of visitors are expected to be thus induced to become residents of the state and enjoy the benefits accruing from the development of the immense area still waiting the golden touch.

The Exposition opens today simultaneously with the opening of the Camden bridge, the world's longest single span constructed at a cost of \$4,000,000. From the first of July until Labor Day when the closing festivities will be held, the State of New Jersey and the eight counties of the lower half of the Commonwealth will take the role of host to visitors from all sections of the United States who will marvel at the wonderful display depicting the advancement of the state and the opportunities for the future.

New Civic Center
Camden's new civic center, just a stone's throw from the bridge plaza and abutting the Cooper River boulevard which intersects the \$6,000,000 Crescent boulevard, will be the scene of the Exposition. With double the capacity of old Madison Square Gardens in New York, Camden's Convention Hall will house the principal exhibits. This building is 325 feet long and 183 feet wide.

Connecting with it is Exposition Hall, 197 by 86 feet where other exhibits will be on display. Then, too, the vast acreage of land surrounding the main buildings will be dotted with other structures housing additional exhibits and amusement attractions that will delight and please the great throngs that will pass through the Exposition gates during the more than two months that the splendid display will be open to the public.

Coming to the Exposition on July 5 as the guest of the City, President Coolidge will take part in the planting of a sapling cut from a giant willow tree that shades the tomb of Washington at Mt. Vernon. National officers of the Daughters of the Revolution will conduct the exercises incident to the planting of this sapling. The willow tree which stands guard at the grave of the nation's first President was grown from a sapling taken from the tree which shelters the scene of the death of Bonaparte at Saint Helena. President Coolidge will go to the Exposition grounds immediately after crossing the bridge and will assist in the planting of the sapling. The visit of the President will be made four days after the actual opening of the Exposition in which national and state officials and members of the Exposition Commission will play the leading roles. United States Senator Walter E. Edge will be one of the principal speakers.

Many Counties Join
Joining with Camden County in staging the Exposition are the counties of Atlantic, Burlington, Cumberland, Cape May, Gloucester, Ocean and Salem, each of which is exerting every effort to best show the possibilities of their soil for agriculture and home-making, the health giving qualities of its atmosphere, their natural resources, their traditions and history and their capacity for harmonious and beautiful developments through new highway and the extension of existing parks and roads.

Then, too, the twenty-five other Camdens in the United States have joined in a unique program to be staged during July. Mayors and other dignitaries of the other Camdens scattered throughout the nation will be the guests of the city at the planting of 26 trees, one for each of the cities along what will be known as "The Avenues of Camdens."

Victor King, Mayor of the Exposition city will welcome the visitors from the other Camdens and will be their host not only at the Exposition, but on their visits to the famed seashore resorts, all of which are actively engaged in promoting the great South Jersey fair, Atlantic City, Wildwood, Cape May, Ocean City and numerous municipalities on the roads leading to the sea realize that the great stream of traffic that will come with the opening of the bridge.

AUTO CRASH

Four Persons Hurt in Accident at Branch Pike

About three o'clock Sunday morning an automobile, occupied by one man, the driver, and three women, ran off the road at Branch Pike and the Riverton-Moorestown Road. Whether the driver was speeding or whether he did not know of the bend in the road at this point is still unknown. Perhaps the car skidded while taking the turn. The road was wet from an all-night rain.

Morris Mench, who lives only a few yards from the scene of the accident, was awakened by the screams of the women. Mr. Mench and his son, Clyde, went out and helped the injured persons to free themselves from the wreckage. Mench and his son then took the occupants of the car to the Cooper Hospital.

All the occupants were badly bruised and cut and it is reported that one woman suffered a broken leg.

Mr. and Mrs. George Warren, of 547 Lester Terrace, Philadelphia, were the only ones that could be obtained at the hospital.

ing of the bridge will bear fruit for the whole territory now ripe for intensive development.

Prominent Leaders
Many men of affairs have been devoting a great part of their time to developing the Exposition plans and as the hour for the opening of the gates approaches, the great buildings at Civic Center are being transformed into beautiful booths wherein will be housed exhibits and displays that will charm and delight multitudes of visitors during the months of July and August.

Volney Bennett is president of the Exposition Commission. J. David Stera is vice president and James J. Scott secretary-treasurer. Other members of the Commission are: Atlantic County—Hon. Emerson L. Richards, Hon. Anthony J. Strauss.

Burlington County—Hon. Emmor Roberts, Hon. Clifford R. Powell.

Hospital Fund Is Now \$425,000

Mrs. Eldridge R. Johnson Made Contribution of \$10,000 This Week

Moving steadily upward during the past week, the new Burlington County Hospital building fund has now reached the fine figure of approximately \$425,000, which means that there is only a short stretch to go before the new goal of \$450,000 is reached.

There was joy among the members of the executive committee of the Board of Council on Monday night when they were told that the fund was just a little short of \$415,000 and this feeling of happiness advanced several points with the announcement made Tuesday that Mrs. Eldridge R. Johnson, of Moorestown, had sent in a contribution of \$10,000.

With encouragement of this kind, the executive committee feel that \$450,000 is not far off and they are expecting to take some new joys to the Board of Managers when that body has its meeting at the hospital next Tuesday afternoon. Moorestown has now contributed a total of nearly \$119,000.

The new Burlington County Hospital will be most modernly constructed with strong exterior walls. It is to be a 100-bed hospital and the equipment to be used will be the best. The Medical Advisory Board of Burlington County is visiting many of the newest hospitals in order to incorporate the best ideas in hospital construction and equipment, because the Burlington County Hospital wants to be absolutely up-to-date.

STARTS TOO QUICK

One Auto Smashes Into Another in Ferry Line-up

E. De Bruyn, of Roslyn, Pa., drove his car into the rear of the auto of Herman Mal, of Little Falls, N. J., Sunday afternoon.

Both the men were in the line of heavy traffic on Cinnaminson avenue, Palmyra, and De Bruyn suddenly started forward crashing into the other car.

Chief of Police C. Morris Beck was attracted by the commotion and was going to place the man under arrest when Mal said that he would not press charges provided the damage to his car, which was slight, was paid.

De Bruyn deposited five dollars with Chief Beck and Mal was instructed to have the car fixed and send the bill to Chief Beck.

ABANDONED CAR

An abandoned car with a Pennsylvania license stands in front of the Palmyra Police Headquarters waiting for its owner.

The car, a Ford touring, was parked on Cinnaminson Avenue all day Saturday and when the owner failed to drive it away it was pushed over to its present parking place. While it is not known whether the car was stolen or not, the person last driving it took the coils making it practically impossible for anyone else to drive it.

Chief Morris Beck has sent the license number to Harrisburg and will notify the person to whom the license was issued.

LUCKY "13" MEETS AFTER SEVEN YEARS

The first meeting in seven years of the Lucky Thirteen Beach Circle was held at the home of Miss Edna Forrester, of Philadelphia, a former resident here, last Friday evening. The club was very popular in Palmyra in years gone by and the members were among the most popular girls of the town.

As time passed the interest lagged and the club was disbanded until last month when Mrs. Bertha L. Hardy and Mrs. Ethel M. Braddock reorganized it.

It is planned to carry on the work as in the past years prior to the disbanding and a meeting will be held every month. The members are: Miss Ellen Atkinson, of Collingswood, Miss Edna Forrester, Mrs. Marion Gilpin, Mrs. Helen T. Mansfield, Miss Adeline Neel, Mrs. Elizabeth Dunning, Mrs. Francis W. Wilkinson, Mrs. Carol B. Matthews, Mrs. B. J. Hardy, Mrs. Caroline J. Baker, Mrs. Ethel M. Braddock, Mrs. Jennie W. Donnell, and Mrs. Mabel G. Dodge.

NEW VICTOR \$75.00

The Victor Adding Machine Company has announced a new model selling at \$75.00, which will be placed on the market July 15. We have arranged to have one on display at The New Era Office on that date. For further particulars, telephone Riverton 712 or 244.

Mayor Weart Will Wear Gold Badge

His Honor Has Been Member of Fire Company For 25 Years

Mayor James T. Weart will soon be the proud wearer of a gold Fireman's badge, the reward of his having served 25 years in the Palmyra Fire Company.

It all came about Monday evening through William Smith applying for retirement to the honorary list, accompanied by a gold badge as the result of his 25 years of service. The Mayor hinted that one didn't have to retire to get the badge if he had served the necessary term and the rest of the company agreed, so both Mr. Smith and his honor are going to receive badges, but the Mayor will still be an active fireman.

He joined the Palmyra company in January, 1901.

The Rev. Mr. Lockett, new Pastor of the Baptist Church, is a new member of the company, having been elected chaplain. Mr. Lockett made a speech in which he described the quandary he would be in if all four of the organizations he belongs to were to parade at one time. He figured he would parade part of the way with each organization, but wondered how he would make out changing his uniform on the run. He also told of how it cost Mayor Weart fifty cents to be in the middle of a speech when the fire whistle blew and his Honor couldn't wind up his address in time to answer the call.

Officers of the fire company elected for the coming year were as follows: President, Harry J. Saar; Vice-President, James T. Weart; Secretary, George J. Spencer; Treasurer, Lewis H. Wallace; Chief, C. M. Beck; Assistant Chief, Joseph Stack; Foreman, Fremont Truman; Assistant Foreman, Melvin Cromwell; Directors, Joseph Stack, Sid Headington, Louis Krause, Ed Bennett and Walter Horner.

TENNIS

Palmyra Courts Scene of Much Activity

The ancient and honorable game of tennis has received quite an impetus in Palmyra during the past few days and on all those evenings when Dame Nature has smiled on the Field Club courts have presented quite a lively scene.

The fact that said Dame Nature has done a little frowning hasn't been all on the wrong side of the ledger at that, as the rains have helped keep the clay surface of the courts hard and smooth, although "Mad" Mathers has had quite a bit of rolling to do.

New players galore have been showing up at the courts. Four experts from the "Bus" station were out Tuesday evening and showed

Best All-Around Athlete

Raymond Bailey, Junior at the University of California, Berkeley, was awarded the gold medal as the best all-around athlete at that institution of learning. Photograph shows Bailey not for a sprint.

Base form.

Ridgely Sweeney, of Collingswood, who has the Dodge Agency in Palmyra and who was a crack singles player with the Collingswood team, which met Palmyra a few years back, is now going to try his luck on the local courts.

Miss Betty Scanlon, of Washington avenue, the nurse at the Kleckhefer plant and heroine of the Delair wreck, is another new member who is enthusiastic about the game. The motto of the club is "Every member get a new member," so that the club can continue to grow, open up new courts and in some not too far distant future be prosperous enough to build a club house.

Every member, old and new, is urged to come out and play at every opportunity, for that is the only way to keep things humming.

CHILD HYGIENE

The work of the Child Hygiene Nurse will continue through the summer. Although the school are closed Miss Olwell will continue the follow-up work. Since her May report to the School Board, there are a number of children who have had and, others who will have, in the near future, the corrections advised by the School doctor.

It has been most gratifying to have the Superintendent of Schools Mr. A. S. Griffith, say that the response to and the co-operation with Dr. Bauer, the School Physician has been noticeably greater than formerly. In this respect the value of the follow-up work of the Child Hygiene Nurse becomes most apparent.

The Baby Clinic will function throughout the summer. However, the hours will be changed to Wednesday morning from 10 until 12 because of the intense heat of the afternoon. The Clinic has proved to be so great an aid to many mothers, it is hoped others will avail themselves of the opportunity.

Baby Clinic Hours—Wednesday, 10 a. m. to 12, American Legion Home.

TRACTOR ACCIDENTS

Inquiries as to how to prevent tractor accidents, the cause of several deaths in the United States this spring, have prompted the agricultural engineer at Rutgers University to make a "safety" suggestion.

Only the light-weight tractors tip over backwards, and the danger from that is greatest when the rear wheels are in a dead furrow or the front wheels are set up on some-

thing, says the engineer. Extreme caution, he asserts, is the best way to prevent accidents with light tractors in that position. Jerking them by suddenly throwing in the clutch, is inviting disaster.

A safety device can be installed to prevent such accidents but experience has shown that the best safety device yet known is the gray matter under the operator's cap, according to the engineer. This is effective also in preventing the cranking of a tractor while it is in gear, the cause of numerous serious accidents. Familiarity with the mechanism of tractors also is a help in preventing mishaps.

The need of the times is a vehicle you can ride down-town and then fold up and carry into the office.—Newcastle (Ind.) Courier.

An educated man earns more. And it seldom takes over ten years after graduating to get educated.—Cranking of a tractor while it is in Washington Post.

Twenty-Two Years Ago

we used the following definition as copy for a blotter.

Art Printing -- A Definition

ART PRINTING, as we use it, means the application of art to the production of distinctive and original printing. The subject treated, or the article advertised, the people which it is expected to reach, and all other vital points are considered in selecting the color and quality of paper, the combination of inks and the other little points unnoticed by the average printer, but which make so vast a difference in the finished product.

If you want something particularly fine send us your order and be sure.

Our ideal has not been changed, and we have added twenty-two years' experience.

RIVERTON WINS TWO GAMES; EVENS SCORE WITH PALMYRA

Riverton and Palmyra Even Series by Independence Day Score 8-6

ANDREWS AND HARDER SHARE BATTING HONORS

The Independence Day game between Riverton and Palmyra in the morning was called off owing to the rain, but the battle in the afternoon furnished enough excitement for two games.

After winning a five-to-four decision over Riverton in the opening game of the season, Palmyra naturally expected an easy victory. But "Doc" Hinkle had different support in the second game.

Palmyra secured an early lead by getting a run in the first. Weikman was safe on Andrews' error, stole second and scored on Harder's single.

In Riverton's turn to club the henchman "Buck" Truman slammed one out to center field for a home run, tying the score.

A pass to Kraus, a safe bunt by Buckholts and Harder's single tied Palmyra two more in the third.

Palmyra added another in the fourth on four singles.

Two bases on errors and two singles along with a pass gave the Palmyra boys two more—their last runs of the game.

Full of Thrills

In the sixth the Riverton lads decided to win the game and set upon Wenger's services to score seven runs. Gaffney and Jefferson singled. "Nick" Wallace was safe on Reagle's error. With bases loaded Wenger walked "Sammy" Rogers, forcing in Riverton's second run. Wenger drew Truman out at first. "Doc" Hinkle's singled scored Jefferson and Wallace. "Dumny" Hylton was safe on Weikman's error at short, and Rogers scored.

Andrews singled but "Doc" was cut off at home by Rogers' throw. Harper, Hylton, Andrews and King scored on "Jimmy" Gaffney's long single.

The game was full of thrills—especially the sixth when Riverton was staging its "mountainous" rally.

Both teams scored their first run because of the security encountered in handling a wet ball. Considering all things, both teams played good ball.

"Doc" Hinkle bested Wenger in strike outs by fanning eleven Palmyra boys while Wenger whiffed five of the Riverton boys. Each pitcher gave two bases on balls.

Palmyra had a total of eleven hits for as many bases. Riverton collected twelve singles; two, two-base hits and a home run, netting twenty bases.

Three for Harder

Harder, Palmyra's stellar center fielder and "clean-up" man, led the team's attack with three hits all singles, in five times up. Andrews topped the Riverton batters with three singles and a double in five times at the bat.

A large crowd braved the inclement weather to see this exciting exhibition of sportsmanship. There were rooters for both teams and they did their duty too perfectly.

"Lody" Orcutt was forbidden the privilege of rooting because he was wearing the umpire's moustache behind the plate. Orcutt executed this task of deciding balls and strikes with satisfaction to both sides. Paul Holvick umpired bases.

It was a good game, thoroughly appreciated and the enthusiasm of the rooters did a lot to put pep in the players.

Fighting Team Wins For "Doc" Over Indiana Professionals By Score 8-7

ANDREWS AND WALLACE GET FOUR HITS EACH

Last Saturday afternoon the Riverton baseball team played its longest game so far this season before an appreciative group of fans, coming from behind to win over the Indiana Pros. by the score of 8-7.

"Doc" Hinkle was to have brought Fay, a Warwick catcher, with him, but Fay failed to arrive at Bridge street by a quarter of three so "Doc" came about without him.

Joe Louisiana, who has been shining on third base also failed to put in his appearance for Saturday's fracas.

Meanwhile Manager Welsh went away from the field to look up a catcher. The "pet" manager finally located "Pete" Jenkins, who with "Walt" Miller's aid arrived at the field after one-third of the first inning was over.

"Rollie" Naylor, Manager Welsh's assistant, started the game at ten minutes of four with a different arrangement of the batting order than the manager wanted. Gaffney, the third baseman was catching, for the first time in his life. King, an outfielder, was on third, and Harvey, a relief pitcher, was in right field.

When "Pete" arrived Harvey was taken out. King went to right and Gaffney to third. "Pete" immediately donned the "muzzle and mitt," and although having never caught Hinkle before, he made a fine job of it.

The reason why the Philadelphia boys scored five runs in the first was that "Doc" had not "warmed up," and an inexperienced man was trying his best to hold "Doc's" curves.

8 Hits in 11 Innings

After hopping into a seven-to-nothing lead the Indiana Pros were never dangerous throughout the remainder of the game.

"Doc" deserves credit for his fine exhibition of pitching after the first two innings, allowing the Pros' only eight hits in the last eleven frames.

In the fourth a pass to Jenkins, singles by Hylton, Rogers and Wallace scored two runs.

A single and two-ply wallows by Gaffney and Jenkins scored two more in the fifth.

The local boys hopped onto Lefty Bartlett's curves for three more in the sixth. Singles by Truman, Wallace and Hinkle followed by a basting triple by "Gord" Andrews supplied the fireworks to tie the score. Andrews was thrown out at home trying to score the deciding run on King's infield single.

From the sixth until the thirteenth the game was nip and tuck, each team fighting hard for the breaks.

Helps Win Own Game

In the last inning "Doc" started to win his own game by getting a single which was followed by a single by Andrews. King sacrificed the runners to third and second respectively. Then came the winning punch, a neat little single by "Jimmy" Gaffney, who by the way "can't hit," according to an old timer who voiced his opinion to Manager Welsh.

"Doc" scored the winning run. "The local boys gave a good exhibition of their fighting spirit by coming up from behind and overcoming such a large lead.

The largest crowd of the season was in attendance and really showed their appreciation of good playing by applauding good plays and good hitting.

Fine Team Work

"Pete" Jenkins and Gaffney "talked" to "Doc" and kept his spirits up throughout the game. Every man on the field played his best.

Not the Army as a whole, but the everlasting team work of every bloomin' soul."

That leads to success in any line. Keep up the good support and the boys will keep on coming to win.

YACHT RACES

Robertson Wins L. I. Class, and Youngsters Sail Close Race in 10-Footers

No race was sailed Saturday owing to lack of wind.

On Monday the race started at 10.30 and was won by F. W. Robertson, with Crowell second, Miller third, Showell fourth and Miller last.

The course was from Riverton pier to buoy off mouth of Rancocas creek, and return to pier, twice around, and the race was sailed in a westerly northeaster.

Robertson got away first but was passed by Crowell who rounded the first buoy in the lead, but Robertson beat him to it in the finish.

Worked his way up to third place. The sixteen footers had four entries. Dewees, Showell, Laddie, Dickinson, John Fuller and John Graft sailing Merrill's boat.

The breeze was pretty stiff for the small boats and kept the skipper on the jump. The race was exciting throughout, and the winner could not be determined until the first boat crossed the line, first one boat leading and then another throughout the course. Showell was the first to cross the line, with Dickinson a scant minute behind.

About five minutes later Fuller led Graft to the finish by about the same margin.

LIONS CLUB IN PALMYRA

Dr. Voorhis President and W. A. McCamy Secretary of New Organization

WILL FOLLOW IDEALS OF SERVICE CLUBS

An organization meeting of the Palmyra Lions Club was held in the offices of the Palmyra-Riverton Realty Company, 9 Broad street, Tuesday evening and plans formulated for the future work of this club.

The officers elected were: Dr. Charles Francis Voorhis, President, and William A. McCamy, Cashier of the Palmyra National Bank, Secretary.

Walter D. Lamont, President of the Palmyra Realty Company and Vice President of the Chamber of Commerce, and Dr. H. W. Bauer were appointed as a committee to secure a meeting place for the club's luncheon to be held next Tuesday afternoon.

The present officers will serve until the entire membership of the club is attained after which new executives will be chosen.

The likely place for next Tuesday's meeting will be the Lutheran Church, Palmyra.

The work of the Lions Club is well known throughout the United States and its excellence in service and community activities is much praised.

It will be the club's purpose to foster all objects for the betterment of the community at large and it will perform such work as is done by service clubs all over the United States.

Albert R. Mundorf, of Camden, International Field Director, has arranged for several of the Camden members of the Lions Club to be present at the first banquet and tell the new "Lions" of the service and good work accomplished by them in Camden.

LOOKED LIKE MURDER

Riverton Police Find Man Lying in Road in Palmyra Covered With Coat

Just as they returned from making their rounds of the town about half past two Sunday morning, Director of Public Safety Williams and Officer Quigley of the Riverton police force received a call to go at once to West Palmyra where a murder had been committed.

The director picked up Officer Miller who was about to go off duty, and the trio hastened to Fourth and Arch streets, where they found a man lying in the road covered with a coat and apparently dead.

They stood off the crowd of excited colored men and women while the body was placed in the car, and then hastened to the office of Dr. Mills in Riverton where the "corpse" was found to be very much alive.

Healed by a blow on the head which had raised a sizeable welt. The doctor advised that he be taken to Cooper hospital.

Meanwhile Chief of Police Beck, of the Palmyra force, who was off duty, had been called out and took charge of the man. He took him to the Camden hospital as advised, but there he was pronounced to be not seriously injured and was brought home again. The two members of the Palmyra force on duty at that time had left headquarters for a tour of the town just as the friends of the man went in search of help, and could not be located at once. Hence they continued to Riverton and made their appeal.

According to the story told in court the next morning, there had been a disturbance over a girl, and the injured man, Walter Myers, had gone to the house of John and Richard Belford in which she had taken refuge. In the argument that followed Myers was forcibly ejected from the premises.

In order to have the whole matter properly ironed out Chief Beck placed the Belford brothers under arrest and returned to the Justice of the Peace Fletcher Monday morning they were discharged. The judge remarking that "any man would have done the same under the circumstances."

FOX-NEAL

Miss Margaretta Crumley Neal, daughter of Mr. and Mrs. J. Taylor Neal of Riverside, became the bride of Harry Sumner Fox, son of Mr. and Mrs. Edward E. Fox, of Palmyra, at a pretty church wedding held in St. Stephen's Episcopal church, Riverside, Saturday, June 26.

The ring ceremony was used and the Rev. Elmer B. Christie officiated.

The bride wore a pretty dress of white georgette embroidered with pearls and carried a bouquet of roses and lilies of the valley. Miss Ruth Lambert Taylor, was the maid of honor. She wore a blue tulle dress and carried an old fashioned bouquet of pink roses.

Miss Elizabeth Coleman Neal, sister of the bride, and Miss Helen Rogers Fox, sister of the bridegroom, were bridesmaids. They carried bouquets of yellow tea roses and wore pink georgette dresses trimmed in gold.

The best man was John Taylor Neal, brother of the bride. The bride was escorted to the altar and given away by her father. The ushers were David Cramer, of Beverly, and Samuel Taylor, of Riverside.

Mrs. Alma Smith says "O Promise Me." Mrs. Margaret Christie was at the organ.

Following the ceremony a reception was held at the home of the bride's parents. After a short honeymoon at Atlantic City the happy couple will be at home to their friends at 512 Cleveland avenue, Riverside.

DURBOROW PLANS BUSY SUMMER

Charles B. Durborow, chairman of the Penn Athletic Swimming Club, will be the judge at the finish of the National Swimming Championships to be held in the Sequel-Centennial lake August 4 to 7, at 2 p. m. daily.

But at that, Charlie never lets pleasure interfere with business, and he has just opened up his third tract at Surf City, and headed a syndicate of South Jersey bankers in buying a 400-acre tract to be known as "Barnegat Shores," with over a mile frontage on Barnegat Bay, directly opposite the famous Barnegat Light. This tract will be developed and sold in acre estates during the coming winter.

At present Mr. Durborow is president of his big real estate development along the Jersey coast. In addition to all his other activities he is doing quite a lot of selling of his own developments as president of the Ocean Realty Sales Company, with offices at 1418 Walnut street, Philadelphia, handling the Surf City, Beach Haven and Warrenton tracts. Mr. Durborow's principal office is with his firm, F. P. Ristline & Co., bankers and brokers, Widener Building, Philadelphia.

Firemen Victors In Twilight Game

Methodists Lose To Smoke-Eaters, But Easily Defeat Riverton Greys

The Firemen administered the first defeat of the season to the fast Methodist team Tuesday evening in a Twilight League game by a score of 4-1.

Len Hylton pitched for the "Church Men" and although he allowed a small number of hits they occurred at opportune times and the "Fire-Eaters" made good use of them.

The box score follows:

FIRE CO.	R.	H.	O.	A.	E.
Rogers, lf	1	0	0	0	0
Stack, rf	1	1	0	0	0
Truman, 1b	0	1	5	0	1
Harper, c	0	0	0	0	0

Last week the Methodists scored an easy victory over the Riverton Greys and with Ray Lamont on the mound. The victors piled up 14 runs to the opponents 4.

Lody Orcutt was the twirling ace of the Firemen when they defeated the Riverton team by a score of 6-0. Lody twirled beautiful ball and he certainly deserved the plaudits that were given him.

Riverton's defeat in this game was due to costly errors rather than poor pitching. The winning team took advantage of everything offered them.

The box score follows:

METHODISTS	R.	H.	O.	A.	E.
Burr, ss	3	1	1	1	1
Griffenber, 3b	1	2	2	0	0

RIVERTON'S BIG CELEBRATION UNCHECKED BY RAIN CLOUDS

Flag Made of Chintz

A large flag containing thirty-nine stars displayed at the home of Harry E. Davis, of Riverton, during the celebration of Independence Day, was the object of much interest and comment. It was made of chintz and displayed at the Centennial in Philadelphia in 1876.

The colors were as bright and fresh as the day it was made. It was loaned to Mr. Davis by George Farland, 31 Henry Street, Palmyra. It was made by hand by Mr. Huland's mother.

AMBULANCE

George Daddino is Rushed to Camden Hospital

George Daddino, Market and Washington streets, was rushed to the West Jersey Homeopathic Hospital, Camden, Tuesday afternoon in the Palmyra Ambulance suffering from a severe attack of typhoid fever.

The car was driven by Chief of Police Morris Beck and His Honor Mayor James T. Wear, accompanied them.

The committee in charge of the ambulance for the month of July will be Mrs. John Lord, 5th and Market street, and Mrs. C. A. Hines, 805 Washington avenue.

The nurses who will be on duty are: Mrs. Edward Day, 200 Cinnamond avenue, Mrs. Elias Morgan, 801 Garfield avenue; Mrs. E. Fox, 328 Garfield avenue, and Mrs. Joseph L. Stack, 227 W. Broad street.

STATE AID

Money for Roads is Distributed Among Counties

The State Highway Commission this week apportioned \$84,000 on the basis of \$40,000 to each of the twenty-one counties to aid in building township and borough roads.

Preference was given to thoroughfares serving as connecting links and those on which municipalities have agreed to construct with a permanent type of material. Under the law each township or borough receiving state aid must provide at least twenty-five per cent. of the cost and agree to expend one hundred dollars yearly for the maintenance of each mile of road paved.

Among the allotments to municipalities in Burlington County were: Chester Township, North Fork Landing Road, \$6,750; Eveham Road, \$1,500; Chewtown Road, \$4,000; Medford-Taunton Road, \$3,000; Shamong-Naylor Corner road, \$2,625; Jackson Road, \$5,250; Southampton Township, Pemberton Road, \$16,841; Springfield, Jobstown-Julietown, \$570; Monmouth road, \$923.

Camden County—Clementon-New Freedom road in Berlin, \$5,625; Berlin-New Freedom road, \$5,625; Eveham Road, Gloucester Township, \$2,813; Erlar Road, \$3,000; Atlan Road, Waterford, \$7,710; Alco Avenue, \$1,500; Chewtown road, \$1,637; Mays Landing road, Winslow, \$12,000.

AMERICAN CITIZENSHIP

Rotarians Hear Norwegian Guest Tell of What It Has Meant To Him

At the meeting on June 24, William E. Swartz, mayor of one of the most inspiring talks that Palmyra and Riverton Rotarians have been privileged to hear. Mr. Strandwitz, a resident of Haddonfield and prominent business man of Camden, cited several incidents in his strenuous life to illustrate the importance and value of American citizenship.

At fifteen years of age he went to sea from his native town in Norway, and for five years lived a life which would make most of us venture stories seem tame. His ship sailed into Manila Bay a few hours after the Maine blew up, and

Exhibit Shows Care of Forests

Conservation is Theme of Interesting Booth at Camden Exposition

A unique feature of the exhibit of the New Jersey Department of Conservation and Development at the South Jersey Exposition, Camden, during July and August, is the booth given over to the State Forestry and Forest Fire Service. In this booth the story of the forests and their care is graphically told by a series of five miniature stage settings equipped with ingenious electric lighting effects.

The first set shows the virgin forests with the amber sunlight peeping through the boughs of the pine trees. The next set portrays two careless picnickers leaving the glowing embers of their camp fire. The third set depicts a forest fire, the result of carelessness on the part of picnickers. Here one may see the heroic work of the firewardens battling with a ground fire and through the tree trunks in the distance can be seen the main fire steadily eating its way through the timber. The next set is a moonlight scene with the charred trunks and stumps of what was once a virgin forest silhouetted against the sky. The last scene shows the work of reforestation.

Another booth worthy of attention is the one occupied by the sand, gravel, marl and clay exhibit. In the rear of this booth is a miniature stage setting showing the method by which sands, gravels and clays are mined from the pits. On the side walls are two ornamental cases containing typical specimens of sands, gravels, marls and clays produced in South Jersey.

The third booth is devoted to Departmental activities. By means of charts, maps, photographs and a stereomicrograph the various projects and work of Conservation and Development is explained.

In the Exposition park a model forest plantation consisting of red and white pine trees (habitats of South Jersey) has been planted under the supervision of the State Forester, Nelson T. Kessler.

NEW SPORT TOURING BY DODGE BROTHERS

Distribution of the new Sport Touring Car to its dealers in the United States is rapidly being completed by Dodge Brothers, Inc. The smart, stylish appearance of this product of a conservative manufacturer has attracted favorable attention everywhere.

The body and hood are finished in brilliant pheasant green lacquer set off by a single strip of parti-colored cream. A striking contrast is afforded by the glossy black of the fenders and shields and the polished nickel of the radiator shell and lamp rims.

The deep comfortable upholstery is of Gray Spanish hand tufted genuine leather. The natural wood spokes of the wheels and the nickel trimmed natural wood bows and nickel plated stanchions of the low one-piece windshield with the tan colored top give the car an elegance worthy of open cars much higher in price.

The cowl ventilator is easily controlled and is rain and wind tight when closed. The nickel trimmed head and cowl lamps are of an unusually attractive design. The wheels are of natural wood with black dagger stripes on the face of the spokes. Steel disc wheels are optional at no extra cost.

The special equipment is complete throughout and conforms to Dodge Brothers well-known standards of excellence. Among the important items are: Nickel plated radiator shell and emblem, one piece windshield with automatic cleaner, robe rail, front and rear bumpers, bullet shaped head lamps and cowl lamps.

WATER BREAKS BACK

Woman Walked 440 Miles In Year To Pump

Somebody has figured out that a woman living on a certain farm in Maryland walked 440 miles a year—as far as from Chicago to Omaha—in her daily journeys between her kitchen door and the farm pump. Ignoring the question of expended energy which might be put to more profitable use, it is figured that this woman spends in her 440-mile annual pilgrimage between her hypothetical Chicago and her imaginary Omaha is easily worth \$50—and for \$50 a simple but efficient water supply system could be installed in this farm home. And \$50 a year for several years would rear view mirror and scuff plates, put in something elaborate in the way of farm water systems.

The first steps toward such labor-saving systems are pictured in a new U. S. Department of Agriculture film, "Turn on the Water," which has been made through the cooperation of the Bureau of Public Roads. The film aims to give a general idea of the need and the problems involved, and to point the interested farmer to more detail resources of information. The need for such an effort is indicated by the department's statement that for every American farm possessing a modern system of water supply there are ten still using the old back-breaking methods.

FRANK BATZEL

Frank Batzel, 221 West Broad street, Palmyra died at his late residence Saturday morning following a lingering illness.

The deceased was in his 69th year and was one of Palmyra's oldest residents, having resided here for over 25 years.

He is survived by his widow, Fredericks.

Funeral services were conducted Tuesday afternoon at his late residence by the Rev. J. B. Whitton.

Interment was made in the Harleigh Cemetery, Camden, Frank A. Snover, Funeral Director, in charge.

Between 4,000,000 and 4,500,000 snakes are used annually in Japan for medical purposes. More than 200 men make their living by serpent catching in the vicinity of Mount Isonki and Shiga-Ken.

The most distant object known to science is the Great Nebula of Andromeda, which is 2,000,000,000,000,000 miles away.

Summer Invasion

Forty happy girls returned from Camp Camarade on Saturday afternoon, declaring that they had never had a better time in their lives than they had had in camp.

The Burlington County girls carried off many honors and a number of the girls were awarded Camp Spirit Emblems. Margaret Gindhart, of Hartford, won the Big Sister Emblem for the week. There is only one of these emblems awarded each week and it is the highest honor that camp has to give. The girl who wins this honor is not only the most popular girl in camp, but also shows the best spirit and is the best all around girl.

The following girls covered camp on Saturday: Anita Wilson, Julia Sloan, Amelia Stevenson, Anna Lee, Chatsworth; Katherine Gilliam, Hazel Kinsler, Eleanor Riley, Dorothy Leonard, Miriam Pickard, Alberta Whitman, Hilda Jones, Rose Moran, Edna Foster, Eleanor Ellis, Dorothy Phillips, Mount Holly; Frances Wright, Hainesport; Marion Pennington, Willingboro; Mary A. Wells, Virginia E. Eden, Pemberton; Esther M. Nelson, Edna Tilghman, Johnstown; Jane Keeney, Jane Price, Palmyra; Emma Myers, Margaret Crouch, Irene Sippel, Nan Caroline Evans, Jane Blackwell, Helen Gelas, Riverton; Beale Brock, Lillian Hintermeier, Riverside; Maylin Elliott, Hazel Tomlinson, Bridgeboro; Frances C. Brock, Edna Adams, Helen B. Rausch, Edna G. Zulinski, Beverly.

TREAT CHICKS RIGHT TO GET MANY EGGS

To insure good layers next fall, keep the young birds healthy and well fed, says Mr. Black, assistant poultry specialist at the New Jersey College of Agriculture. Everlasting attention to every detail should be the rule of the range during the summer months.

"The growing birds must have a constant supply of fresh water and sufficient mash hopper space must be provided," says Mr. Black. "Mash is responsible for maximum growth and it should be always available. Birds will not eat sufficient mash in the house, place some sheltered hoppers on the range."

"Our two great disease troubles, coccidiosis and intestinal worm infections, can be controlled only through sanitation. Clean and disinfect the houses frequently. That flies are spreaders of tape-worms cannot be overlooked and every effort should be made to discourage their presence on the range. Don't allow rubbish and manure piles to accumulate, for they furnish ideal breeding places for the pest. Treat the manure piles liberally with hydrated lime."

"Finally, attempt to adjust the mash and grain ratio so that the pullets do not come into production too early. Aim to allow five months for the growing period of Leghorn pullets. That is, before they come into a heavy lay or when they are laying about 10 per cent on range, move them to the laying pens and endeavor to get them in prime condition by feeding scratch grain heavily. Be assured that the care and pains thus taken will be repaid, and that a flock of well-grown, healthy pullets is not only a source of profit but also a deep satisfaction."

THE BUILDER

An old man going a lone highway Came at the evening cold and gray To a chasm deep and vast and wide. The old man crossed in the twilight dim.

The sullen stream had no fear for him; But he turned when safe on the other side.

And built a bridge to span the tide. "Old man," said a fellow-pilgrim near.

"You are wasting your strength with building here; Your journey will end with the ending day.

You never again will pass this way; You've crossed the chasm deep and wide; Why build this bridge at eventide?"

The builder lifted his old, gray head. "Good friend, in the path I've come," he said.

"There followeth after me to-day A youth whose feet must pass this way.

This chasm that has been as naught to me To that fair youth may a pitfall be; He, too, must cross in the twilight dim;

FIRST FUNERAL

Frank Snover Takes Cortege Across New Bridge

To Frank A. Snover, Palmyra's Funeral Director, falls the distinction of being the first man to lead a funeral procession across the Delaware River bridge.

At 7:12, daylight, Saving Time, last Thursday morning, Mr. Snover led the cortege across the bridge and as he paid his toll inquired if any other funeral director had preceded him. He was informed that he was the first.

The saving in time was very noticeable. The party left Palmyra and, driving at a rate of speed that did not exceed twenty miles per hour, they reached their destination, Broad Street Station, in thirty-two minutes.

CHANGE DATE

Mount Holly Water Carnival to be Held on July 17

Due to conflicting water events at the Sequel-Centennial grounds on Saturday, July 24, the Mount Holly enthusiasts have changed the date of the Water Carnival to be held at the Woolman Lake Estates in Mount Holly to Saturday, July 17, and this gives the Mount Holly carnival a jump on the Sequel, as many of the amateurs entered there will take part in the Mount Holly carnival one week in advance.

The most important section of the Amateur Athletic Union, of which the Mount Holly Athletic Association is a part, and this insures the appearance of a number of champions here on July 17.

There will be four prizes for the canoe, as follows: The most beautiful, the best canoe, the most complete outfit for both, and the most novel. Pierre H. Stanton will accept entries in this class.

There will be swimming events as follows: 100 yd. free style for women; 100 yd. breast stroke for women; 220 yd. free style for men, and diving contests for both. As contests in addition there will be exhibitions of the swim, front jack, back jack flip, half full galmer and other fancy diving.

There will also be five canoe races, with the Red Dragon, Red YMA and YMA of Bristol, as contestants, and several other events to be announced later.

With illuminated canoe parade, orchestra and band music, in the evening, the Water Carnival can surely be made down in advance as another successful event for Mount Holly.

SAYS BUY MILK WITH CARE AND SERVE GENEROUSLY

To many people milk is milk, but to others many questions about its source, cleanliness in handling, temperature at which it is kept, and the quality of the milk are asked before it is served to the family. In large cities, the Health Department sets the standard for the milk supply and the homemaker chooses from that which is available. In small communities and in rural sections, there are no such rigid regulations and the individual family must select its supply from the various producers who sell milk.

There are various grades of milk sold in some places. The New Jersey food specialist at Rutgers University suggests that it is well for the housewife to inquire and learn the difference between grade "A" or "B". The fat or cream content of milk is determined by State Law. If raw milk is being used, one wants to be certain it comes from healthy, lintested cows. Certified milk is raw milk which must meet certain rigid regulations set by the medical commission of the state. Because of the high price of this milk, it is used primarily for small babies. Pasteurized milk is heated to kill the microbes in it. A cooked taste should not be evident if the pasteurizing has been carefully done.

The food value of milk is not changed greatly whether it is eaten raw or cooked. Some of the vitamins are killed in the heating process but these are easily supplied by eating citrus fruits, tomatoes and leafy vegetables.

Milk is beneficial for all the members of the family and no other food supplies the nutritive elements so economically and in a form so easily utilized by the body.

A quart of milk a day for each child, and a pint for the adults of the family, is the ideal standard. This does not mean one must drink this amount of milk. Cream soups, scalloped dishes, milk shakes, cocoa, puddings, and ice cream are a few suggestions for using milk in the meals of the day.

DEVIL-CARSON
Saturday afternoon, June 26, at 5 o'clock, Mrs. Anna Carson, of Central, and Newbold, avenues, Moorestown, and Richard Devlin, of the Bridge department of the P. R. were married at the bride's residence by the Rev. Shackelford Danvers in the presence of a few friends.

Mr. Devlin is a brother of Mrs. Henry P. Stockwell, of East Maple avenue, Moorestown.

Mr. and Mrs. Devlin left on their honeymoon for Yellowstone National Park.

Fear War Between Chile and Peruvians

Dispute Over Tacna-Arica Pointing to Clash, Says Alessandri

Are Chile and Peru doomed to go to war over the Tacna-Arica dispute? Arturo Alessandri, ex-president of Chile, is afraid so. In his apartment at the Benjamin Franklin Hotel, in Philadelphia, he unbundled his heart. Peru is buying submarines, he said, some of them in the United States. Chile's confidence in American fairness is shaken by the sudden decision of General Llaqui not to proceed with the plebiscite which was to decide by vote of the inhabitants, whether Tacna and Arica should belong to Chile or Peru.

Ex-president Alessandri is a short, stocky man, quick-moving, and emphatic in gesture. His skin is ruddy, but his hair and eyes are dark. His hands move constantly, opening and closing as he talks. He shifts incessantly in his chair, gasping out the window, head thrown back, when describing geography or natural resources of a province; leaning forward and fixing his auditor with eye and gesture while he presents some point of justice or of feeling. One feels that as an orator he runs some risk of being carried away his own emotions.

Chile, said Alessandri, has been trying to make peace with Peru since the Treaty of Ancon gave Arica and Arica to Chile in 1884, after Chile had defeated Peru and Bolivia in the "War of the Pacific." By that treaty, Chile was to have the provinces for ten years, after which a vote of the inhabitants was to decide whether they should belong to Chile or Peru. In 1894 the election could not be held because Peru was in the midst of a revolution, and could not discuss the voting rules. Since then every effort to reach agreement has failed.

When Alessandri became president in 1920, he decided to make a determined effort to have the dispute settled once for all. The provinces include only 9,000 square miles of desert land, practically without value. Their total population is less than 35,000. They are not worth shedding blood over, but the national pride of both countries has become involved. That is the difficulty.

On the 27th of March last, registration began. It is estimated that in all there are about 8,000 votes. 5,800 Chilean sympathizers immediately registered; but the Peruvians abstained. General Lassiter on June 14, decided that a fair election could not be held, declaring that the Chilean officials were declining to protect Peruvian votes. This accusation came as a great surprise to the Chileans, who thought they had done everything they had been asked to do to make possible a fair election. In any case they think they have been betrayed and, whether or not the Peruvian voters could vote, they feel that the registration demonstrates that three-fourths of the votes favor union with Chile.

Peru has been hostile to the election, and has put every possible obstacle in the way, said Alessandri. There are two reasons for this. In the first place, Peru knows that she will lose. In the second place, the present president of Peru, President Leguía, is a dictator, who must keep his people enraged against some neighbor to divert their attention from his own illegal rule. Thus it is to his interest to keep the old quarrel with Chile alive.

Chile feels that the United States has been duped by Peruvian diplomacy, and has failed to render justice. Thus while President Leguía gives his troops medals which "they are to wear until the lost provinces of Tacna and Arica are once more under the Peruvian banner," the rage of the Chilean people flames hot against Alessandri, who got them into this mess of American arbitration, and against the United States, which has failed to recognize the just solution.

Meanwhile, Chile is buying submarines, and Peru is buying submarines. Will wrath or wisdom prevail. Will Chile and Peru again shed human blood for empty honor and a few square miles of desert? It will take self-restraint on both sides to prevent it.

Friends Peace Committee.

ARREST RUNAWAYS

Two Young Philadelphia Girls Found by Moorestown Police

Moorestown police apprehended a pair of runaways about 4:30 Monday afternoon. The wanderers, who

were Philadelphia girls, gave the following names, ages, and addresses: Jennie Pietz, 13, 517 Greenwich street; Helen Stronglo, 14, 511 Greenwich street.

The girls were found along South Church Road by a motorist who brought them into town to obtain shelter from the pouring rain. When questioned by Chief Bradshaw, they asserted that after leaving Church in Philadelphia Sunday evening they picked up the acquaintance of two young men, probably eighteen and nineteen years of age, who, after keeping them in Philadelphia until it was too late for them to return to their homes, brought them to Jersey.

The girls seemed unwilling to give a thorough description of the youths, although they declared they had described them near Moorestown earlier in the day.

Chief Bradshaw notified the Third Police District, Philadelphia, which in turn communicated with the girls' parents, who later sent to Moorestown for them.

ACKNOWLEDGE IMPORTANCE OF CARE WITH PULLETS

New Jersey poultrymen are coming more and more to the conclusion that summer care of the young stock cannot be over-emphasized. Observation through the state has shown that the success of a poultryman with a flock of laying birds is usually the reflection of his success in rearing the pullets.

It is generally acknowledged by the leading poultrymen that one does not have to raise poultry for very many years before the importance of clean, steady, and well-grown pullets is recognized. In nine cases out of ten the flocks which experience trouble during the winter months are the flocks in which trouble was prevalent while they were on the range.

Growing a clean, profitable pullet includes a great number of small steps which when put together assure success. As with the mature birds, the houses must be comfortable and clean. Overcrowding and overheating have their effects in stunting the growth of the birds and so a square foot of floor space should be allowed to each growing pullet, and, in addition, sufficient roosting space. On hot days the houses should be cool and comfortable.

Frequent house cleaning is practiced by the most successful poultrymen to help prevent a rapid spread of disease during the warm, moist weather. This is particularly effective against coccidiosis.

Alternate ranges which supply an abundance of green feed and some shade are the rule on the best farms in the state. The birds are never without a daily supply of green feed. Shade is considered essential during the hot days. The ground, now believed to be the source of many of our most troublesome diseases, is frequently cropped and cultivated so that the direct rays of the sun may act as a germicide.

Agriculture, declared Franklin, is "the most useful, the most independent, and therefore the noblest of employments."

500 Children Join Playground Center

Moorestown Recreation Commission's Summer Program Proves Popular

The Moorestown Recreation Commission's Summer Playground program has proved very popular with the kiddies of the community and more than 500 children are now enrolled at the three recreation centers which are located at the Community House, North Church Street school grounds for colored children and at the Lenola school yard.

The colored children are enjoying croquet, volley ball, baseball, quoits, and horse-shoe pitching along with the handcraft which is given under the direction of the trained instructors. The old folks at the North Church street playground are devoting considerable time and energy to putting the tennis court there in good shape.

Colored boys have been given permission to use John F. Hall's grounds for baseball. Mrs. Earl V. Williams is in charge of the handicraft work there.

In addition to the games and sports at the Community House grounds, kiddies are engaged in emulsion work, and have created

many unusual designs on the bottles and vases which they are decorating. Some of the children have displayed unusual talent in this work and have turned out some splendid decorated urns.

Decorating, weaving and cut paper work have proven very popular with the youthful workers at the Lenola center.

Donald Group, who is directing the sports of the playground system, has announced that the boys will stage another baseball game this (Wednesday) evening at the South Church street grounds. Competition, of course, will be keen and a lively well played tilt is anticipated.

Arrested on Wife's Complaint

Charles King, colored, 2nd and Market street, was arrested Sunday evening by Officer Lawrence Betty, upon the complaint of Mrs. King.

King was placed in the Palmyra police headquarters over night and was tried on a charge of disorderly conduct before Justice of the Peace William Fleiter.

The complaint of the case failed to appear and the defendant was released with a reprimand.

Do not use clothespins when hanging out rayon underwear after washing it. You may tear the material. Hang the garment over the line without pinning it.

Milk Producers Badly Underpaid

Dairymen Fortunate To Make Living Wage, Declares Economist

American city dwellers are courting a milk famine by greatly underpaying the man who produces their milk, in the opinion of Charles Staff, secretary of the Larrowe Institute of Animal Economics. Prices consumers are now paying for milk makes impossible a decent living to the producer who is "fortunate if he can get \$2.00 a day."

It takes a dairyman a full half hour daily to milk, feed and care for one cow, says Mr. Staff. A dairyman who has twenty cows must put in ten hours a day of solid work in looking after them. Taking the average production figures as a basis, these twenty cows will yield the dairyman a gross return of \$10.00 a day.

"Out of this \$10.00 he must charge up \$6.00 for feed, hay and silage, and from the remaining \$4.00 must come taxes, interest on investment in equipment and livestock, replacement of his cattle, straw for bedding, veterinary service, repairs to building and equipment, and many other miscellaneous items. Taking everything into consideration, it would be very conservative to estimate these additional expenses at \$2.00 a day, so for his ten hours of hard work, commencing not later than five in the morning, winter and summer, rain or shine, a dairyman is fortunate if he gets for himself \$2.00 a day or 20c an hour.

Intelligence Required
"This is less money than the poorest paid worker in the city, and yet it requires a man of no small intelligence to properly feed and care for a herd of cows and produce milk of a quality that will pass inspection by the Board of Health.

A drastic change in the existing dairy situation must come if the dairy industry is to be conserved, according to Mr. Staff. "The number of dairy cows in the East is gradually diminishing. Young folks are not staying on the farm and as the older people reach the age when they feel they can no longer bear the burden, they also follow their children to the city, or decide to give up their cows and live on what means they have available. This is all very serious to the city dweller. In the not too distant future, it seems to me that every large city will find itself suddenly confronted with a milk famine, because the city folks have stoutly resisted all efforts of the producer to get a fair living wage for his work. And when that time

of famine comes, it will be too late to correct the situation, because it takes years to build up herds of dairy cows, and it will not be easy to get dairymen back into the dairy business after they have once gone out of it.

One Cent Would Help

"An increase of one cent to the farmer for every quart of milk delivered to the city home would go far toward remedying the present serious state of affairs. The difference in one month to the average family would not represent the price of a single admission to a good movie show, but the extra cent to the farmer would mean the difference between a starvation wage and a living return. If the dairyman with twenty cows was paid one cent more per quart for his milk, his net return instead of being \$2.00 per day would be \$4.00 per day, and the prospects are that city folks would continue to get their milk at a reasonable price over a great many years, instead of finding themselves confronted in two or three years with the necessity of paying 18 or 20 cents a quart."

The individual dairyman can improve his own condition somewhat, by the adoption of better methods which will show him how to get the extra dollar out of his business, according to Mr. Staff. A system of selection of the health of the cows and the production of the greatest amount of milk of which cows are capable, are among the benefits to be derived from weighing the feed for each cow apportioned as closely as possible to her milk production.

MOORESTOWN BOYS TIE BORDENTOWN

Moorestown Catholic Boys' Club entered into a tie with Bordentown for first place in the Burlington County Catholic Boys' League by virtue of its 5 to 4 victory over Burlington Boys' Club.

The contest was a hurling duel between Bolton and Wade, with the honors favoring the Moorestown flinger at the close of hostilities. Bolton struck out nine enemy batsmen and held Burlington to seven blows. Wade breezed eight Moorestown hitters but was nicked for 17 safeties during the battle. After Burlington had chased over one run in the final frame and had a man on third with nobody down, Bolton braced and fanned the next three batsmen.

Murray, Hohwald and Regan led the attack for the winners, while Glackin got two blows for the losers. Regan and Ryan sparked ahead for Moorestown and McCloskey and Sisler supplied the holding thrills for Burlington.

Sports Committee Duly Organized

Harry Middleton Chairman of Community House Athletic Association

The athletic committee of the Moorestown Community House Association held its first meeting Thursday evening.

This committee consists of twelve persons most active along physical activity lines and is to have charge of all things pertaining to athletics and special day programs.

Harry Middleton was elected chairman of the committee. Mrs. Robert Wood was chosen secretary, while the other members were appointed as chairman of the various groups of activities.

Committee Chairmen
Men—Swimming "Al" Leconey; Tennis, Lesley Nicholson; Baseball—Mushball, Harry Brody and "Wild" Conroy; Volley Ball, "Al" Gifford, and "Walt" Salmon; Horseshoe Pitching, "Ed" Oldershaw.

Women—Volley Ball, Mrs. Robert Wood; Mushball, Edith Conroy; Swimming, Kathryn Sharpless; Tennis, Mrs. McAllister; Horseshoe Pitching, Martha Gardiner.

Leagues for all the various activities mentioned will be immediately started and everyone interested can sign up with the chairman or at the Community House.

The Friends School grounds will be used for mushball while volleyball will be staged at the court in the rear of the Community House. A very excellent court has been laid out and can be used every afternoon and evening of the week for regular games or practice.

TENNIS TOURNAMENT

West Jersey Championship Event to be Held at Moorestown

Beginning Monday, July 12th, and continuing throughout that week, the West Jersey championship tennis tournament will be held on the tennis courts of the Moorestown Field Club. Play will begin promptly at 3.30 p. m. daily.

This tournament is sanctioned by the United States Lawn Tennis Association and open to all players throughout the country whose home clubs are affiliated with the association. Prior to the World War, this tournament was for several years an annual event. The present national singles champion, William T. Tilden, won the cup then offered for two years.

The present tournament gives promise of attracting equally wide attention, a large list of entries have already been received not only from the ranking players in this section, but from distant points as well. The committee in charge, as appointed by President Albert J. Burling, of the League of West Jersey Field Clubs, consists of C. S. Mears, Riverton C. C.; Lt. R. M. Watt, Jr., Woodbury C. C.; Charles P. Orr, Haddon Field Club. The latter will receive all entries for men's singles and doubles. Address Charles P. Orr, Penn and Mickle streets, Camden, N. J.

BRED IN THE MANAGEMENT

About a year ago the Chicago, North Shore and Milwaukee Railway won the Charles A. Coffin medal for its exceptional contribution to development of electric transportation for convenience and welfare of the public, and the benefits of the industry.

We now read that 94 per cent of all the homes in Chicago, with 3,000,000 population, use electricity. This achievement was one of the outstanding accomplishments of the Commonwealth Edison Company during 1925, for which it was awarded the Charles A. Coffin medal, the most coveted honor to be bestowed upon electric light and power companies.

Both of the companies winning this medal are under the Inoué-Budd management. It is not by favoritism that this medal is won. Judging is impartial, and merit alone can secure the award in a country where electric development and service is the greatest of anywhere in the world.

DIPPING INTO SCIENCE

Origin of Tomato

The tomato, a native of South America, was introduced into Europe in 1583 by the Spaniards, and thence to America. In the United States it was called "love apple" prior to 1830, being a translation of the French name, pomme d'amour. The English word "tomato," is derived from the Spanish-American "tamato," (© 1918, Western Newspaper Union.)

JAZZY AUTO SIGNS MUST BE REMOVED

Dill Issues Order Against Indecent and Suggestive Plates

Signs containing suggestive expressions attached to automobile registration plates must be removed by July 10, or car owners will be required to show cause before State Motor Commissioner Dill why their license should not be revoked. Officials charged with enforcement of the motor laws have been instructed to take license plate numbers of those who ignore the commissioner's request.

"For several weeks past the Department of Motor Vehicles has been observing with startling concern the growth of the practice of displaying upon the rear of automobiles, directly underneath the registration plates, small metal signs containing expressions that in many cases are indecent," said Mr. Dill.

"We had hoped that the reaction following the practice of affixing to the windshields and windows of automobiles posters of a nude bathing girl would be so unfavorably as to preclude the possibility of New Jersey motorists lending themselves to the display of vulgar signs on their cars.

"It is impossible for us to visualize the sense of humor that would prompt an automobile owner to display these offensive signs and it can only be justified in our opinion by the absent mindedness of the motorist at the time the signs are purchased and placed upon the car for display.

"We feel, that every car owner in New Jersey is solicitous of the good name of our state, and we believe that it will be only necessary to call to their attention this practice and to ask them to remove the signs to immediately abate the evil.

"To those motorists who thus comply, the department will be profoundly grateful, and I know that to them will likewise go the profound thanks of our citizenry.

"To those motorists who ignore this request and continue to display these signs on their cars, we desire to say that it is our purpose to direct a rule to show cause why the registration of each car displaying this offensive sign should not be revoked if the signs continue to make their appearance on our highways after July 10, 1926.

"A list of the registration numbers displayed upon the cars which thus are flaunting decency in the face is now being made by police officials, members of the state constabulary, and inspectors of motor vehicles."

Editor (to would-be contributor): "Please write on one side of the paper only."

Would-be Contributor—"Thanks! On which side?"

SOMETHING TO THINK ABOUT
By F. A. WALKER

FILLING THE RANKS

IF IN the exuberant spirit of youth you are just stepping on the threshold of human activities, equipped with talents which should permit you to take a leading part in the stirring scenes, but for some reason you are unable to participate, hold your patience and bide your time.

Opportunity does not call today, he may knock at your door tomorrow. To every human comes the time of entrance and the period of exit. The tide of life is ever moving.

Somewhere in the waters is being cast on the rocks; somebody is drifting out to sea; somebody is being sucked under.

The old, the worn and the incompetent are being swept ruthlessly aside by the currents and whirlpools. It is the natural trend of things.

Those who occupy the high places today, conspicuous for ability and wisdom, must in the common order of things yield the right of way to fresh recruits, as must the decrepit in all the great armies of men.

Every day somewhere there is a vacancy.

Every hour there is a call for young men and women of sterling worth to step up to the front and help bear the world's burdens.

The vacant chairs and the broken ranks must be filled.

Art, science, industry and business must move forward.

The black smoke must curl from the factory chimney; the shuttles must dart to and fro; the forge must ring with steel upon steel; trains must move and ships must sail, else the world and the peoples of earth would retrograde and perish.

While waiting for Opportunity, the thing for young men and women to do is to improve themselves, even though they may hold university diplomas, mere tickets certifying that they have paid first-class fare on a through train, but not designating destinations.

When the old conductor shouts: "All tickets, please!" where will you tell him you are going?

Are you on your way to uplift humanity, or work for human good—to do things and not merely talk about them?

If you are willing to work, willing to bear the knocks and rubs, willing to sacrifice, to love and to stand the true test, there is a place waiting for you in the depleted ranks, where by giving much you will receive much, from hand and heart.

RIVERTON ITEMS

Robert Biddle has returned from a business trip to Canada.

Charles H. Yost and family spent the Fourth at Ocean City.

Miss Helen Becker entertained friends from Germantown over the weekend.

Mrs. E. C. Clark, of Wilmington, spent the Fourth with Mrs. C. W. Weyand.

Mr. and Mrs. J. W. Sylvester spent Saturday and Sunday with relatives in Morris Plains.

"Bobby" Frishmuth, of Glassboro, is visiting at the home of Joshua W. Atlee.

William Yeager, of Philadelphia, has rented the property at 614 Thomas Avenue.

Mr. and Mrs. Joseph Whartnaby entertained friends from Philadelphia over the weekend.

Attention is called to the fact that the fee for marriage license is \$2.00, beginning July 1st.

Joseph Scattergood went to Avalon Tuesday to carry out a painting contract for Mrs. Herr, of Riverton.

Misses Ethel and Isabel Williams and Louise and Cecelia Becker spent the Fourth of July holidays in Ocean City.

Jack Middleton, of Moorestown, associated with Armistage and Clelland spent the weekend at Beach Haven.

Mrs. Dorothy Wheeler and daughter, Virginia, of New Brunswick, are visiting Mrs. Wheeler's mother, Mrs. O. H. Mattis.

Mrs. Louis Clelland and children left Monday for North Carolina, where she will make several stops visiting relatives.

Miss Edith Spear, of Pittsburgh, motored to Riverton on Saturday to spend three weeks with her aunt, Mrs. John Hillson.

William Asher and family have rented one of C. D. Durbin's semi-detached houses at Second and Penn streets, Riverton.

George Willingmeyer and family of Washington, D. C., spent the Fourth with his parents, Mr. and Mrs. Daniel Willingmeyer.

Miss Ingeborg Horton returned home from New York to visit her parents, Mr. and Mrs. Werner Horton, over the Fourth of July holidays.

Mrs. Samuel MacMullin returned home Tuesday evening from the West Jersey hospital where she has been for six weeks with a broken knee cap.

Mr. and Mrs. Arthur H. Burns and son, and Mr. and Mrs. Thomas Seaman and daughters have returned home after spending two weeks at Manasquan.

Mr. and Mrs. H. P. Doff and children, of Unfintown, Pa., and Mrs. Lydia C. MacDougall, of Pittsburgh, visited Mr. and Mrs. Melvin Davis over the Fourth.

Mr. and Mrs. Norman Quasheharth, of Rosemont Park, Alexandria, Va., visited Mrs. Quasheharth's parents, Mr. and Mrs. Werner Horton, over the Fourth of July holidays.

Mr. and Mrs. John Hillson went to New York on Saturday to see Mrs. Knowles off on the Franconia for Liverpool, after a two months' visit with her sister, Mrs. Hillson.

Mr. and Mrs. Clarence Kempthorne Bowdoin, of "Living Wallow" Ardmore, are being congratulated upon the birth of a son, Peter Hollingshead Bowdoin, on June 12.

Dr. and Mrs. B. R. West and daughter motored to Virginia on Saturday in their new Hudson car. They expect to spend two weeks with Mrs. West's relatives in the Blue Mountains.

George W. Tucker, of Haddon Heights, and son Clarence spent the Fourth in Riverton. George says he has not been contented since he moved away from here, and is coming back just as soon as he can arrange it.

The Misses Mattie Jordan, Belle Witter, and Esther Wilson, of Tampa, Florida, Miss Frances Thompson of Laurel, Maryland, also Byron Marquis, of Chicago, have been visiting John Wilson, of Thomas Avenue for the past week.

Independence Day was celebrated at Christ Church, Riverton, on Sunday with appropriate sermons and the singing of patriotic hymns. At both the morning and evening service a large flag was carried to the front of the church and the Star Spangled Banner sang by the congregation while standing at attention.

The Misses Florence Raymond and Doris Thorpe of East Orange, Miss Christine Wilson of Wenonah, and Edward Coffey, of Lock Haven, Pa., were house guests at the home of Mr. and Mrs. Harvey E. Stewart over the weekend. On Monday the Stewart family also entertained Harold Test, and Wallace Earley of Merchantville, and William Stewart of Sewell.

By a sudden lurch of the truck on which he was riding last Saturday night, on Broad street, Philadelphia, Werner Horton, Sr., was thrown through the windshield and badly cut about the head. He was taken to St. Joseph's hospital where his injuries were dressed. He has been confined to his home on Main street since the accident, his head swathed in bandages.

Manufacturer:—"Safest on earth."

JERSEY BOYS TO BE DAIRY SHOW JUDGES

New Jersey dairy boys will again take part in the National Dairy Show, which this fall will be held at Detroit. They will be represented by the Somerset County calf club team, chosen in a state-wide elimination contest at the College of Agriculture last month.

The Somerset County boys placed first by winning 1013 1/2 points out of a possible 1200. Mercer county finished second with 993 1/2 points; Middlesex county third with 976 points; Cumberland fourth with 952 points; Salem fifth with 909 points and Hunterdon sixth with 908 points. Forty-five boys from 11 counties competed. Four rings of animals were judged.

The winning team is as follows: Donald Craig, who scored 348 points out of a possible 400 and was second high man in the contest; Raymond Gunther, who scored 333 points and was fourth high man; and Isaac Stryker, who scored 332 points and was fifth high man in the contest.

John Raab, of Mercer county, was the highest scorer with a total of 363 points out of a possible 400.

Lloyd Tallman, of Burlington county, was the only one to place three rings exactly right but in the fourth ring he met a reverse.

The winning team will be coached for the contest at the National Show by E. A. Gaunt, assistant dairy specialist at the college. New Jersey boys coached by Mr. Gaunt for last year's show at Indianapolis made an excellent showing.

FIRE COMPANY DANCE

Enjoyable Affair Held After Fireworks; Is Well Attended

The dance given by the Riverton Fire Company at Broad and Main streets Monday night was well patronized, and the dancing continued until midnight. Prizes were awarded for the best dancers. Mr. and Mrs. George Partelow, of Riverton, were given first prize, box of candy for the lady and silver pencil for the man. The second prize, (candy and pencil) went to Mr. and Mrs. Royal Tetterton, of Mount Airy. Mrs. Tetterton is niece of Mrs. Williams' of Cinnaminson street.

The most popular number on the varied program was the Charleston contest for colored folks. Two boxes of candy were given as prizes. The first was awarded to Charles Pratt, of Palmyra, and the second went to Cecil Johnson, of Riverton.

The committee in charge of the dance was composed of Clarence Hubbs, chairman, Joseph Hyton, Walter Armstrong, Clarence Mattis, Adolph Strohm, George D. Steedle, Lloyd Major and Gordon Mattis. John M. Hughes was floor manager. Music was furnished by Iron's Band.

These dances are becoming increasingly popular, and a desire has been expressed by many that they will not be confined to the Fourth of July.

Very truly yours,
Old Timer.

HARRY W. SEABER,
Horace Avenue, Palmyra.

AN OPEN LETTER
Riverton, N. J.
Late in the evening of July 4, 1926.

To the Editor of The New Era:—
May I ask you to extend to the people of Riverton, the very real regret that the River Bank residents feel in not having been given the privilege this year of entertaining on their lawns and porches for the fireworks display on July 4th.

It has always been a pleasure to see the bank crowded with the throng from here and from neighboring towns and to see their comfort and enjoyment.

Very truly yours,
Old Timer.

SCOUT HIKE
Moorestown Boys to Take Overnight Trip to Rancocas Park

Moorestown Boy Scouts will go on an over-night hike Thursday. They will encamp at the Boy Scout reservation at Rancocas Park.

Scouts who plan to join their comrades on what promises to be a real night of fun, which will be continued Friday at the Camp, are requested to report at the Community House Thursday afternoon at 5:30 in readiness for the hike.

J. Alfred McConey, Ian Forbes and Donald R. Group will be in charge of the hike.

MIDDLE CAR IN CRASH
An accident which had the making of a catastrophe occurred at the junction of the Riverton-Moorestown Road on the State Highway formerly known as the Burlington Pike, early last evening when the Charles M. Biddle car, containing Mr. and Mrs. Biddle and a number of other passengers was crashed into by a big car from Chicago, also filled with people. Both cars were wrecked but curiously enough none of the occupants were injured, even slightly.

Coal Bills Cut in Half
By the Marvelous

"ELECTRIC
Furnace Man"

An automatic stoker for your home—burns cheap Anthracite Coal—Buckwheat or Rice. Puts coal on the fire—Keeps fire burning—Delivers ashes to can without shaking or shoveling.

It is the safest automatic heating appliance now on the market—Operates without noise or roar and produces no smoke or greasy clinging dirt. Cannot explode.

Investigate now before buying your Winter's coal supply.

The Resurrection of the Cow

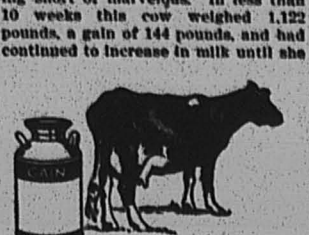

Proper feeding will not only resurrect a dairy cow but will turn a cow at only for the bologna factory, into a real profit producer for its owner.

According to the Larrow Institute of Animal Economics. Next to feeding scrub cows the greatest mistake the dairyman can make is the scrub feeding of his good cows.

"The condition of some of the average cows on farms is almost unbelievable," the Institute quotes. "Instead of being in good flesh and condition, many of them are poor and scrawny. Their sides are sunk, their ribs plain enough to count and their bones stick out like sore thumbs. It is plain that their run down condition is the result of underfeeding. With proper care and good feed many of these cows could be turned into better than average dairy cows."

As an instance of how better care and feed will resurrect a dairy cow, the Institute cites the case of a typical cow under observation. At the time the test was made, this cow weighed 978 pounds and gave 30.2 pounds of milk, on a ration of corn cob meal and bran, together with silage and hay. This was changed to a ready mixed, well balanced feed, together with 30 pounds of good silage and 10 pounds of mixed hay, daily. The response of the cow to the new ration was nothing short of marvelous. In less than 10 weeks this cow weighed 1,122 pounds, a gain of 144 pounds, and had continued to increase in milk until she attained a daily production of 46.1 pounds. Equally splendid results have been secured with other cows in various stages of run-down condition.

Watch Cow's Temperament

Most temperamental of all farm animals is Madame Dairy Cow, according to the Larrow Institute of Animal Economics. She who is considered by most persons as the personification of calm and the living contradiction of nervousness is really the fussiest, and much thought, work and study on the part of the dairyman are devoted to the pampering of her whims.

"Experienced cow owners know that it is no libel of the lady of the dairy

cotton-seed meal of a certain protein content for one slightly higher; musty bran for bran that is sweet; linseed meal having a low fat content for a high one, etc. Such changes affect the feeding value of a ration and Madame Dairy Cow spots them all. She is fussy about the flavor of her ration, and does not care who knows it. There is just one thing she craves and that is uniformity. She approves of it and demands that her ration have ex-

actly the same feeding value, the same flavor, day in and day out; month in and month out. If she is to give the maximum production which that particular ration will permit. This is a real problem for those who mix their own rations and the manufacturer of dairy feed is no less a victim of these variations. Only one feed manufacturing concern so far as is known has, by means of an ingenious device, solved this problem. Through a eye-

tem of storage blending and tank blending on a large scale, this organization is producing a composite of many different lots of the same ingredients in their feeds that is giving them a mixture as perfectly uniform as it is humanly possible to make it. Such uniformity in feed affords Madame Dairy Cow the least possible excuse to display her fussiness."

LUTHERAN NEWS

The coming Sunday's services will be of unusual interest to the people of First Lutheran Church, as the new pastor, the Rev. William M. Erhard, is to be installed at that time.

The Rev. D. Burt Smith, D. D., of Philadelphia, who has appeared before Lutheran audiences before in Palmyra, will deliver the installation message to the congregation in the morning at eleven o'clock.

The Rev. Silas D. Daugherty, Superintendent of

PALMYRA NOTES

William B. Powell was at Ocean Grove over the weekend.

George Miller from Cuba is visiting his sister, Mrs. H. King.

Mr. and Mrs. Fred Davis, and family, spent the weekend at Wildwood.

Mrs. Frank E. Chambers and children are spending the month at Avalon.

Mr. and Mrs. A. H. Brown entertained Mr. and Mrs. B. Torbett over the weekend.

The Methodist Sunday School picnic will be held Saturday, July 24, at Taunton Lakes.

Harry Mathews, of Philadelphia, was the weekend guest of Mr. and Mrs. Edward Fox.

Mrs. Hummel, Mrs. J. W. Brandt and Carl Hurlock are enjoying a vacation at Avalon.

Raymond Lambert enjoyed the Fourth of July holidays visiting friends in Milton, Pa.

Russell Davis, of Columbia avenue, has returned from a two week's vacation at Ocean City.

Mr. and Mrs. Leonard Hock, of Garfield avenue, are spending the summer at Ocean City.

Mrs. William Rawlings and Mrs. Pearl Carpenter and children spent the Fourth at Atlantic City.

Dr. and Mrs. Clement Vollmer, of Oakmont, spent the weekend with Dr. and Mrs. Philip Vollmer.

Robert Blackburne, of Newark, spent the weekend as the guest of Mr. and Mrs. Leonard R. Baker.

Fred Schmitt, of Newark, is taking a vacation trip in company with some friends from Deanco Saturday.

Mrs. E. L. Dean and daughter Betty, of Morgan avenue, spent the weekend over the Fourth at Cresco, Pa.

Mrs. Mary Achter returned to New York Tuesday after spending ten days with her sister, Mrs. A. B. Powell.

Mr. and Mrs. Clinton R. Rhodes and family are spending the summer at the Garden Apartments, Wildwood Crest.

Mr. and Mrs. W. Paul VanSant and son Billy, spent the weekend visiting friends and relatives in Pleasantville.

Mr. and Mrs. William P. Blackburne will entertain Mrs. Blackburne's brother, of Lebanon, over the weekend.

Mrs. A. Bailey and children, of Ashbury Park, were the weekend guests of Mrs. Clarence Williams, of Garfield avenue.

Harley Carpenter is nursing a very sore left hand which was burned by the discharge of a blank cartridge last Friday.

Palmyra Motor Company offers several attractive specials in overhauling and repair work. See the ad. in this issue.

Miss Adeline Seel returned from Ocean City, on Sunday, where she has been spending some time at the Hotel Biscayne.

The Palmyra Ambulance was called Saturday evening to rush Richard Haas, 334 North Church street, Moorestown, to the Jefferson Hospital, Philadelphia.

Miss Katharine Hirsch, of New York City, spent the weekend with her parents, Mr. and Mrs. A. C. Hirsch, of Highland avenue.

Mrs. Raymond Yerkes, and children, and Helen Bates, of Delaware avenue, spent the Fourth with Mrs. Jacob Kinkor, of Philadelphia.

Mr. and Mrs. A. H. Brown and family, Lecony avenue, are staying at their summer villa "Funnysides," Wildwood, during the month of July.

Mr. and Mrs. Charles Whitmer, accompanied by Mr. and Mrs. W. Wilkins, of Moorestown, motored to the Delaware Water Gap and Bushkill Falls Sunday.

Mr. and Mrs. Joseph H. Abdl and daughter Ruth, are enjoying a two weeks vacation at Avalon. On Saturday their son Everett, a Lieutenant on the U. S. S. New York, visited them.

Mr. and Mrs. John E. Morton leave next week on a trip to California. They will be gone about a month and will visit Los Angeles, Palo Alto, San Francisco, Yosemite Valley and other points of interest.

Samuel Johnson, of Highland avenue, leaves the week for Miami, Florida, where he will assume charge of an outfit of the Water Transport and Trading Company valued at over a million dollars.

Mrs. E. V. Standon, who has been visiting friends in Steelton, Pa., returned on Saturday, having spent the last few days of her visit. Mrs. Standon attended the State Christian Endeavor Convention, at Hershey.

Miss Helene Johnson entertained the following guests over the Fourth: Misses Mable Angle and Myrtle Hopkins, of Philadelphia, Charles Harrison and William Geary of Philadelphia, and Edward Hoyt, of Riverton.

Mr. and Mrs. William Rudolph entertained a house party on the Fourth. Among those present were Mr. and Mrs. Edwin S. Seel, of W. Philadelphia, Mr. Clifton Seel, of Maplewood and Miss Anna Corson, of Camden.

Mr. and Mrs. Foster H. Fowler, of Baltimore; Miss Olive Hoke, of Gettysburg; Dr. and Mrs. R. G. Wildrick and daughters, Clara, Mae and Shirley, of Philadelphia; Mr. and Mrs. William Brant and daughters, Adele and Ruth, of Radnor Heights, were entertained by Mr. and Mrs. A. E. Fowler, of Lincoln avenue over the Fourth.

The Good Fellowship Class of the Episcopal Church under the leadership of Rev. R. H. Baker will journey to Fortescue next Wednesday evening. Last year the party made one of the largest catches of fish ever made in the fishing town and they hope to break all records this year. About sixty members will be in the party.

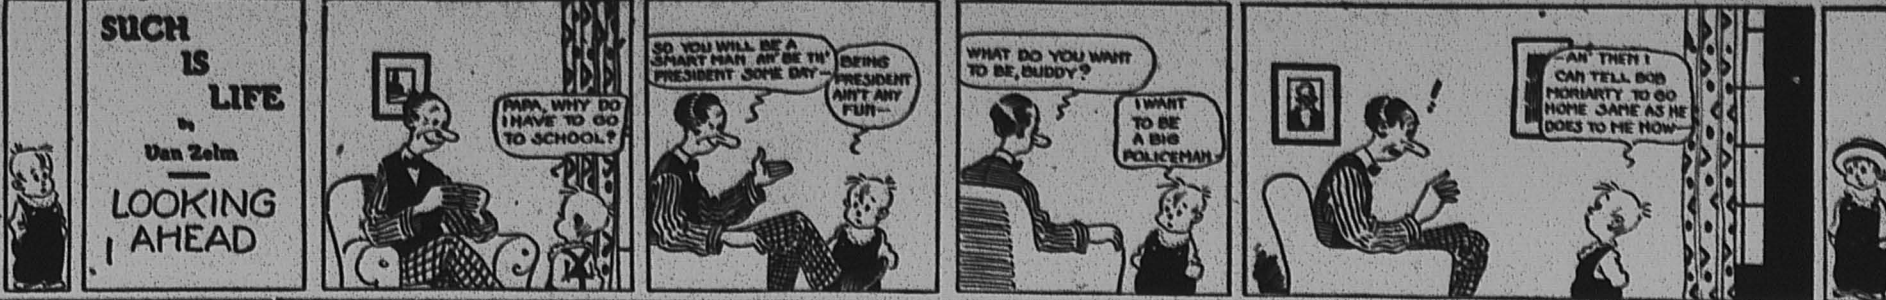

Attorney Joseph S. Low returned home last Thursday after a splendid trip through the west as delegate to the Rotary Convention in Denver. Mr. Low enjoyed the many various side trips on which most of the delegates went, including an ascent of Pike's Peak, where wintry blizzards were encountered in June; a visit to Yellowstone, Salt Lake City, a Rotarian welcome at Kansas City, and other enjoyable affairs.

Mr. and Mrs. H. C. King gave a birthday dinner today in honor of their daughter, Marion's 24th birthday. Thursday, July 8th. Those present were Frank M. King, Harry C. King, Jr., Marion E. King, Helen M. King, Edith F. King, George Butler, Mr. and Mrs. Herbert Miller, and Lawrence Miller, of Riverton; Miss Elizabeth McDermid and Miss Elizabeth Bartley, of Philadelphia; John Williams, of Riverton, and Fowler Shaffer, of Parry.

LOOKING AHEAD

THE BASIC TROUBLE WITH AMERICAN AGRICULTURE

Many Mythical Causes Given But the Chief Financial Problem Rises From Inflation of Capital Account Based on War Prices—Remedy Pointed Out—"Trick Legislation" Will Not Help.

By MELVIN A. TRAYLOR
First Vice President American Bankers Association.

IN recent years agriculture and the welfare of the farmer have been our most fruitful topics of conversation. Political fortunes have revolved around the unhappy situation of the farmer and the business barometer has gone up and down with varying proposals for his relief. Only a few years ago there was widespread feeling voiced by the leading agriculturists that the time was fast approaching when America would not be able to feed its rapidly increasing population unless there was improvement in soil culture, fertilization, reforestation and larger production. What is the situation now? The worry seems no longer to be for food for the hungry millions but for more millions to consume our tons of food.

Evangelists of despair have talked so much about over-production and surplus of agricultural products since 1920 that we are warranted in calling attention to a fact or two which may be enlightening to those who have felt that there has been a crushing surplus of the staples of the land.

From 1911 to 1915 average production of cotton was 14,775,000 bales at an average price of 12.41 cents per pound, while from 1921 to 1925 production averaged 11,362,000 bales at an average price of 21.35 cents per pound. In the 1911-1915 period wheat production averaged 806,358,000 bushels at an average price of 59 cents, while in the 1921-1925 the average production was 804,334,000 bushels at a price of \$1.11 1/4 average. In the former period corn averaged 2,754,000,000 bushels at 60.3 cents while in the latter the average was 2,875,000,000 at 69.8 cents. Cattle on farms for 1911-1915 were 37,178,000 at an average estimated price of \$26.52 while in the latter period the annual average was 41,616,000 at \$26.08. Hogs on farms in the first period were 65,151,000 at an average price of \$9.68 per head, and in the latter 60,419,000 at \$11.34.

The Surplus Production Myth—From these figures, which eliminate the period that embraced the war and the early post-war inflation, it will be observed that, with the exception of cotton and cattle, production has been almost uniform in the two periods. In no case has production anywhere approached an increase commensurate with the increase in population. So-called surplus production is largely a myth and the cause of the farmer's complaint must be looked for in some other direction. It must be admitted that all has not been and is not well with this industry. After all, what is the matter with agriculture? There are a few facts which seem obvious as a part at least of the underlying causes of the situation and which suggest something of the remedy that sooner or later must be applied.

Present difficulties have their inception largely in inflation of prices for agricultural products from 1915 to 1920 with consequent large expansion of profits. This led inevitably to the farmer as with the manufacturer to expansion of plant and equipment—the acquisition by the individual of larger acreage and modern, if not always efficient, machinery. These statements do not apply to every one because there are always some who play safely and conservatively, proved by the fact that there are millions of farmers who have gone through the recent crisis without any difficulty and are today prosperous and contented. In fact the complaints today are coming from less than 25 per cent of the farmers of the country and from a horde of politicians who are seeking to make capital out of the situation.

Results of Inflation and Expansion—With the average and with the majority of those who were swept off their feet by the wave of prosperity through which they were passing, let us analyze the results of this inflation and expansion. The farmer operating on land that he was carrying in his capital account at a value of, say, \$100 per acre, and who perhaps had a loan of \$50 an acre, suddenly found that because of the increased profits from his operations, his land had a market value of \$200 per acre and that if he had a new tractor and some new farm machinery, he could greatly increase his production. But if he did that he would need a larger barn and more warehouse facilities. The chances are that with an appraisal of \$200 per acre on his land he increased his loan to \$100 per acre, thereby doubling his capital account and his bonded debt—not out of earnings but because of his ability to effect a "clean write-up" of 100 per cent of his plant account.

If he did not effect the doubling of his capital account in this manner, and if his \$100 acre farm was clear, he probably bought his neighbor's farm for \$200 per acre and mortgaged both the new and the old for \$100 per acre. In this latter case, he increased his capital account 150 per cent. It is easy to see what this did to his net percentage of income. If he had been able to make 6 per cent on his original investment, without any allowance for the increased cost of operations which of course did take place, he cut his net income, based upon his capitalization, about one-half when he had completed his expansion program. But worse than that happened. His calculations had been made upon a price for his product which reflected wartime demand and buying power of government money which were suddenly curtailed. With

QUIET FOURTH

Palmyra's Independence Day Devoid of Excitement

The quietest Fourth of July in many years was experienced by Palmyra residents in the absence of the usual celebration.

Although the plans for a large celebration were dropped because of the numerous ones going on in nearby towns there has always been some kind of a picnic or gathering. Justice William Fichter remarked that this was the first year in all of his long residence here that things were really quiet. He has lived here for forty years.

"In year gone by," says Mr. Fichter, "we did not always have a pro-technic display but we did always have a cake sale, ice cream sale or something of that sort; but this year we didn't have anything of any kind."

7000 CARS CROSS FERRY

It is estimated by Captain Sidney Albertson, of the Palmyra-Tacony Ferry Company, that over 7000 cars were carried across the river during the weekend and, considering the adverse weather conditions, this is the best record yet.

Last year under ideal weather conditions only 6000 cars were carried over during the same length of time and the ferry officials are more than pleased with the record.

With the opening of the Delaware River bridge a decrease of 40 per cent was expected, but to the satisfaction of the company a decrease of less than 5 per cent was experienced.

With the building of the new bridge between Palmyra and Tacony the ferry company shareholders will automatically become stockholders in the new project and the ferry line will be discontinued.

Last Thursday evening, after the boats had made their last run, the crew were driving across the new Delaware River bridge as the guests of their Chief Engineer George Easton.

MORAVIAN CHURCH NOTES

Services on July 4th were of a patriotic character and the church was decorated with flags and bunting.

The subject was "American Foundations."

The picnic of the Willing Workers will be held on Thursday, July 15th, at Knights Park.

The Sunday School will go to Cedar Lake on Saturday, July 24th, for their annual picnic.

The pastor's family were in the Pocono Mountains from Tuesday to Friday of last week.

MRS. ANNIE PFAFF

Mrs. Annie Pfaff, of Front and Market street, Palmyra, died Tuesday evening at 8.30 at the age of 68.

Mrs. Pfaff was one of the older residents of Palmyra, having made her home here for the past 28 years, and was widely known and highly respected.

She was the widow of the late John Adams Pfaff, who died eight years ago.

Four children, Walter Thorne, of Riverdale, Md.; Mrs. Lillian Martin, Mrs. Elizabeth Williams and Andrew J. Pfaff, of Palmyra, survive.

The funeral services will be held Saturday morning with low requiem mass at the Church of the Sacred Heart, Riverton, at 9 o'clock, and interment in St. Peter's Cemetery, Riverton.

The body may be viewed Friday evening at the home of her daughter, Mrs. Martin, 37 Rowland street.

Mrs. Abram Ewald and daughters

are at Wildwood over the weekend.

Mr. and Mrs. Herbert Trout

and daughters have taken an apartment at Atlantic City for the month of July.

Mr. and Mrs. A. Harry Rudnick

visited Mr. and Mrs. Joseph H. Smith at Clearmont from Friday until Tuesday.

Loose long sleeves, open at the wrist

are most becoming to fleshy arms. Trimmings and construction lines should follow the length of the arm.

Saw Evils Attendant on Unfair Jury Trial

"A mockery and a snare." With this well-known phrase two famous names are closely connected, those of the Irish "Liberator," Daniel O'Connell, and Lord Chief Justice Denman. Most people know that O'Connell started the agitation which ended in the definite establishment of the Irish Free State.

O'Connell had been the chief agent in stirring up the Irish people to demand the repeal of the union. For this he was brought to trial by Sir Robert Peel's government, and a jury found him guilty. The case was eventually carried to the house of lords, and it was at this juncture that the path of these two great men crossed.

Denman was a little younger than O'Connell and was at that time the greatest lawyer in the land. He was a fine orator, and eventually became lord chief justice.

Lord Denman presided over the house of lords tribunal in the famous case of "O'Connell and Others v. the Queen" in 1844, and in giving judgment which reversed the earlier one and released O'Connell, he said: "It is possible that such a practice as that which has taken place in the present instance should be allowed to pass without a remedy (and no other remedy has been suggested), but by jury, instead of being a security to persons who are accused, will be a delusion, a mockery, and a snare."

THE QUESTION BOX

Wood Pulp

C. K. Riverton—Will you kindly answer in your interesting question column what country in the world produces the greatest amount of wood pulp?

Ans.—The Dominion of Canada controls the world's wood-pulp trade. Canada sends to the United States alone about \$40,000,000 worth of chemical pulp, mechanical pulp and cordwood to be turned into pulp, which is composed of spruce, balsam, fir, hemlock, jack pine and poplar.

Hamlin, Lincoln's Vice President

H. J. Delair—Can you tell me who was vice-president of the United States during Abraham Lincoln's first term?

Ans.—Hannibal Hamlin of Maine.

Why Yeast Raises

R. T. Palmyra—Will you be obliging and tell me through your Query and Answer column why yeast raises dough?

Ans.—Bread dough contains a small percentage of sugar due to the starch made by the wheat plant; yeast consists of myriads of living plants which ferment, and this fermentation has the power of working on the sugar in the dough, so that it is broken up and its character changed. The process generates alcohol and carbonic acid gas—the alcohol evaporating into the air. The carbonic gas gets busy and causes little bubbles to rise in the dough. As these increase and get larger, they raise the dough which is converted into bread.

Cotton Wedding Anniversary

T. K. Riverton—Will you be kind enough to answer in your paper what is the first wedding anniversary, and what should I give?

Ans.—The first wedding anniversary is "Cotton." It is appropriate to give any kind of a garment, the material of which is cotton.

Sullivan and Fitzsimmons

T. K. Riverton—Did John L. Sullivan and Robert Fitzsimmons ever fight, and was either of them champion of the world?

Ans.—They never fought each other, because Sullivan was heavyweight and Fitzsimmons a middleweight. Later, however, Fitzsimmons went out of his class to fight Corbett, the heavyweight champion of the world. In defeating Corbett he was classed as the heavyweight pugilist of the world, as well as middleweight champion. Sullivan was champion of America only.

"Et Cetera"

A. C. Cinnaminson—Does "et cetera" mean "and so forth"? If so, what is the connection?

Ans.—"Et cetera" is the contraction of the Latin words "et cetera," which in English means "and so forth."

Eat Less and Live Longer, Says Lawyer

By W. W. O'BRIEN

(Noted Criminal Lawyer of Chicago.)

Business and professional men working under high nervous pressure do not

live as long as men whose pursuits keep them out of doors and active. Examine the records of longevity and you will find that on the average the longest-lived men are soldiers, sailors and farmers, all avocations which tend to keep a man at his physical best.

Man, in general, rolls down the hill of life fastest when his figure is rotund. "Leanness and longevity" is a good axiom for business men to remember. If office workers would eat a little less, they would add years to their lives.

Overfeeding is as dangerous to adults as underfeeding is to children. Foods difficult to digest, or which overstimulate, should be avoided by persons whose work does not require any particular amount of physical exercise. Yet thousands of business men eat as much as or more than men who do manual labor. And, inevitably, nature rebels and sickness results.

Many of the country's foremost executives eat but two meals a day, breakfast and dinner in the evening. They seek to keep the organs of the body from becoming clogged. Thousands of other business men confine themselves at noon to a sandwich, pudding, soup and other sustaining dishes made with milk, or evaporated milk, which is milk in its most sterile form, from which 90 per cent of the water has been removed by evaporation. Such a diet is light and readily assimilated.

There is no more necessary lesson to be learned by the brain worker than how to keep well and healthy by proper attention to food habits.

Eating Greater Cause of Death Than Drinking

Drink is the second greatest cause of disease and death. Food comes first, then drink. Excluding alcoholic beverages, there are dozens of drinks on the market today whose effect is detrimental, particularly to children.

Milk is the best drink for children. Not only is it drink, but food as well, the most nearly perfect food known to man.

Milk is an all-the-year-round drink and for this reason the children often rebel against drinking it. This condition, however, may be overcome by the introduction of the mixed drink. Milk or diluted evaporated milk may be mixed with eggs or used in fruit juices or in some other way which will disguise the fact that the drink contains milk. In the hot summer months when the child naturally drinks more than in cooler weather, it is wise to vary the ways of serving milk, so as not to create a distaste for this important food.

In connection with mixed drinks, the following formulas for milk beverages may aid mothers in serving something new:

Iced Cocoa

3 tbsp. cocoa 1 1/2 cups evaporated milk

2 tsp. sugar 1 cup hot water

1/2 cup hot water 1/2 cup water

1/2 cup water 1/2 cup water

Send the diluted milk in a double boiler. Mix cocoa, sugar, salt and add the hot water. Cook over a low flame from 10 to 15 minutes, stirring occasionally to prevent burning. Add to the cocoa the scalded milk; return to the double boiler and continue cooking for 10 minutes. Add vanilla, chili before serving. Pour into tall glasses which contain a few small cubes of ice. Serve plain or top with whipped cream sprinkled with cinnamon. Serves four.

Egg-Nog

1 egg 2 1/2 cups ice water

2 tsp. sugar 2 tsp. berry or cherry juice or nutmeg

2 1/2 cups cold milk 1/2 cup cold milk

Separate white from yolk of egg. Add salt to white and beat until stiff. Beat yolk until thick and lemon colored and add the fruit juices, nutmeg and sugar. Combine diluted milk with yolk mixture. Pour into a tall glass and put the egg white on top. Sprinkle top with chopped nuts and serve at once.

Orange-Nog

1/2 cup orange juice 1 1/2 cups evaporated milk

1/2 cup sugar 1/2 cup water

1 1/2 cups cold milk 1 1/2 cups cold milk

Add sugar and salt to orange juice and pour slowly into the diluted milk, stirring to mix thoroughly. Chill before serving. One-half pint lemon improves this drink for many. Serves one.

A COMING FINANCIER

Old Man—"Son, can you direct me to the bank?"

Boy—"Yes, sir, for a quarter."

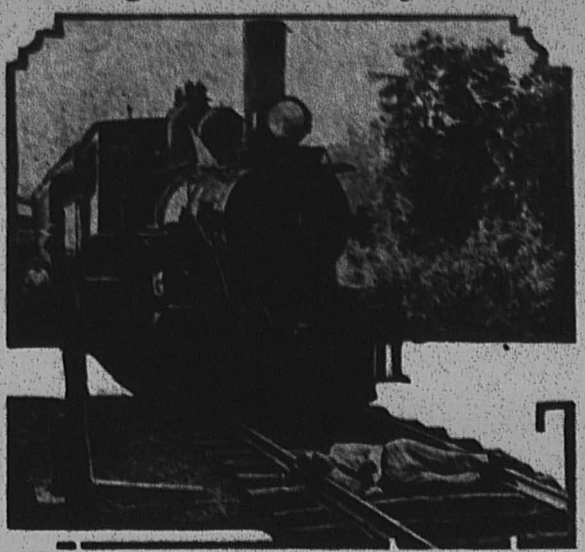

Old Man—"Isn't that mighty high?"

Boy—"Not for a bank director, mister!"

Rein deer milk is delivered in Alaska in the form of frozen cubes equal to a quart of milk.

Courtesy is a seed that bears fruit in all soils, even the roughest and least kindly—Henry Drummond.

Daring Test of a Safety Device

Shat Hanson is pictured above, risking his life to prove the infallibility of a new safety train device by lying on the track before an onrushing locomotive equipped with the apparatus. The test was made on the Chesapeake Beach railway. The safety device is the brain child of George C. Witty of New York city, an engineer. Members of the Interstate commerce commission and officials of railroads witnessed the test.

MRS. GRIEBEL'S LETTER

It was only as far back as 1891 that special sizes were offered for the first time in men's clothes. Just why they should have demanded type apparel before the women folks is hard to say—perhaps because so many men buy clothes ready-to-wear while their better halves fuss over home-made dresses, or, having purchased ready-made suits, alter them as best they can to suit their own needs.

Ready-made gowns came with the new freedom of women, for, of course, a business girl has as little time, and, often as little inclination to sew, as the man who works beside her. The choice, at first, was limited to shirt waists and skirts. If the shirt waist was too long-waisted, it was a simple matter to tuck it under the skirt-band, for in those days hips were considered an added charm, and a little extra in the way of clothing was acceptable. Skirts did fit—or were supposed to—and it often took a good half day to adjust a too large or too small waist-band. Lengths didn't matter much so long as they were of sufficient length to sweep the ground. Many home women made their own clothes or perhaps had a dressmaker by the day who "sewed-up" the feminine members of the family. Figures were more uniform, then, too, for everyone wore high, tight corsets and when nature had overlooked flesh at hip or bust, this was easily supplied with pads of one sort or another.

It is interesting to know that the first variation from regular sizes offered the men was for the "Stout." This was natural because it was impossible to let-out the regulars to fit the stout men. The next variation was for the "Tall," and for the same reason. It was not possible to piece out the regulars to cover the long legs and arms of the tall man. Probably the reason for the "Stout" being offered first was because there are more stout men than tall men. And then, because it was wasteful to cut off extra material to make regulars fit the short men, the last type, "Shorts," came into being. These were offered in "Stouts" as well as regular sizes, and it is a funny thing, too, that more of the "Shorts" are sold at present than of either the "Stouts" or the "Talls."

With the growing demands among women for ready-mades, we find the same development. Stouts were the first offered and in many shops these are obtainable in regular, tall and short models. This is about as far as we have gone in suiting clothes to type. There are, in some shops, departments for small women but often this type must be fitted in the misses' department where the designs are often not suitable for the older women. The tall women have been much neglected. Of course, there are many of them who find ready-mades to suit their figures but in this age of short skirts, it is the length that troubles them. Then, too, there are, just as definite problems in design for the extremely tall woman as for her stout sister. But, as among the men folks, there seems to be fewer of the very tall type, hence the demands for garments to suit their needs have not been insistent enough to have clothes designed especially for them.

It is the demand from the public that gives the merchant his cue. Ask for what you want. Keep on asking. Thirty-five years of asking has given the men a variety of special sizes in suits, top coats, etc., to choose from. Their hats, too, are marked as to head size as we wish ours might be. There are rumors that some shops are offering hats for women in several different head

sizes; we know that most shops have stout departments for coats and frocks; some show stouts in tall, short and regulars and a few cater to small women. Surely, it is encouraging to note these signs of progress but do remember that supply and demand go hand in hand. The shop-keeper is bound to have what his patrons want. That's his business.

Cordially yours,

Catherine H. Griebel,

Extension Clothing Specialist.

GILLES-GOODWIN

Wednesday morning of last week at nine o'clock in the Church of Our Lady of Good Council, Moorestown, Miss Gertrude Goodwin, daughter of Mr. and Mrs. Edward U. Goodwin, of 214 Locust street, Moorestown, and Edward Gilles, of Burlington, were married with nuptial mass celebrated by the Rev. Leo E. Dineen, The Rev. Father Russo, Cravin and Duff, from Burlington, were also present.

The bride, who was given in marriage by her father, wore a white beaded georgette gown. Her white veil was finished with pearls and orange blossoms, and she carried a bouquet of white roses and lilies of the valley.

Miss Rose Goodwin, the bride's sister, as maid-of-honor, wore a yellow tulle dress, a large leghorn hat trimmed with yellow marlins, and carried a bouquet of pink roses and pink sweet peas.

The bridesmaid, Miss Catherine P. Murphy, a cousin of the bride, was attired in a dress of honeydew georgette with rhinestones. Her large leghorn hat was trimmed with marlins to match her dress. The bridesmaid carried a bouquet of pink roses and sweet peas.

Charles Gilles, a brother of the bridegroom, was best man. Thomas and Anthony Gilles, both brothers of the bridegroom, were the ushers. Little Agnes McCann, another cousin of the bride, was the flower girl. She wore a light blue georgette frock, white shoes and stockings, and blue rosettes on her hair. The little girl carried a basket of wild flowers.

The church with approximately seven hundred present was decorated with pink, red and white bridal roses, and the bridal party walked under a beautiful tower of roses and ferns.

Following the ceremony, there was a reception in honor of Mr. and Mrs. Gilles at the home of the bride's parents. Two hundred fifty persons attended the reception from Washington, Philadelphia, Burlington, Mount Holly, Camden, Trenton and the Main Line. The wedding cake weighed fifty pounds. The house was beautifully decorated and the bride walked under a bower of palms and lilies of the valley as she left and entered the house. The newlyweds left immediately after the reception on their honeymoon. They will go to Niagara Falls, and will tour the west during which time they will spend a few weeks at Mrs. D. A. Gott's, a cousin of the bride. After their return in the fall Mr. and Mrs. Gilles will reside at Orchard View, Burlington.

Father Sage Says:

Much of the Lord's wrath may be due to people being so foolish, rather than being so wicked.

"Pa, what is preparedness?"

"Preparedness, my son, is the act of wearing spectacles to breakfast when you know that you are going to have grapefruit."

Japanese Beetles

Can be most easily, safely and cheaply controlled only by certain logically sound means I described as far back as five years ago, part of which have since been imitated by the U. S. Bureau of Entomology through recommending the use of what they call "geraniol." Under my system not only are you shown how you can secure the necessary materials that furnish "geraniol" from your own trees with the greatest ease, but you are also shown not only how to increase the effectiveness of these materials, but also how to put it in effect, other easy generally practicable means, that increase concentration of the beetles and their destruction so as to make disposal of the pest in a wholesale way a very easy matter. Send for valuable free information, some of which cannot be obtained elsewhere.

U. S. is a Giant Among Nations

Colonel Birch Issues Booklet Commemorating America's Sesqui-Centennial

Colonel Thomas H. Birch, of Burlington, a New York, former minister to Portugal and now president of the Fruit Company, of North America, has issued an excellent booklet commemorating the two hundred and fiftieth anniversary of the Declaration of Independence.

The booklet, which has attracted considerable attention, is entitled "A Giant Among Nations." It says a tribute to America and tells of the things that make the country great. Mr. Birch says:

From the vantage point of the United States Legation at Lisbon, where it was my privilege to serve for ten years as minister of Portugal, and through intimate association with diplomats and citizens of numerous foreign nations, I acquired an accentuated appreciation of this great country of ours.

And particularly now, on the eve of the one hundred and fiftieth anniversary of the birth of our nation, one cannot contemplate the United States of America without being staggered by the vastness of its growth and development.

From a humble beginning, we have grown until we now have a combined area of 3,743,510 square miles. Our total population exceeds 120,000,000 prosperous, hard-working, contented people.

In national resources, the United States is today the richest country in the world. Its coal, oil, timber and precious metals exist in vast natural stores and practically every base mineral known to science and commerce is deposited within its boundaries.

Although originally an agricultural country, the presence of this tremendous natural heritage of minerals and timber, together with increased "pressure of population on land," has resulted in gigantic industrial development, until today the United States leads the world in commerce and is one of the greatest merchants on the high seas. Its steel, rubber goods, timber, cotton machinery, foodstuffs and numerous other essential commodities go literally to the ends of the earth.

At present we are producing considerably more than one-half of the main industrial output of the world. With less than six per cent. of the world's land area and less than seven per cent. of the world's population, we are doing more than half of the world's business.

Amazing Figures

Here are figures which I think you will agree are amazing—I

We are producing—

Fifty-five per cent. of the world's iron ore.

Fifty-five per cent. of the world's pig iron.

Sixty-six per cent. of the world's steel.

Fifty-one per cent. of the world's copper.

Sixty-two per cent. of the world's petroleum.

Forty-three per cent. of the world's coal.

Fifty-two per cent. of the world's timber output.

Sixty-five per cent. of the world's naval stores.

Forty-two per cent. of the world's phosphate.

Eighty per cent. of the world's sulphur.

Sixty-three per cent. of the world's mica.

Sixty-two per cent. of the world's lead.

Sixty-four per cent. of the world's zinc.

Sixty per cent. of the world's tale and soapstone.

Forty-five per cent. of the world's barytes.

Fifty-five per cent. of the world's cotton.

In addition to all this, we have—

Eighty-eight per cent. of all automobiles and motor trucks.

Thirty-four per cent. of the world's railroad mileage.

Fifty-one per cent. of the world's ton-mile traffic.

More telephones and radios than all the rest of the globe.

Half of World's Gold

As to our financial position among nations, we have more than half the world's known store of gold.

During the World War and immediately thereafter, our financial aid to Europe attained the astounding total of more than \$14,000,000,000. Since then, we have supplied approximately \$4,000,000,000 for the restoration, rehabilitation and development of the devastated areas and industries abroad.

Our contributions to relief funds and philanthropic enterprises throughout the world have been so various and manifold as to be accurately incalculable but may be safely figured in excess of \$2,000,000,000. Our charities have not remained at home but have been universally distributed without regard to race or creed.

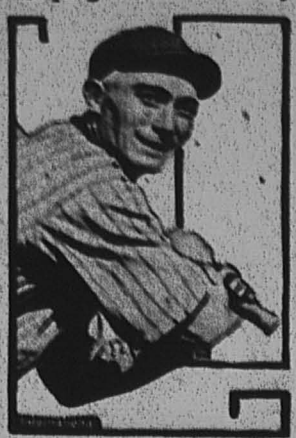

To put into cold type even this brief outline of one hundred and fifty years of progress, appears vain, glorious and boastful, but I have been prompted by no such motive. Rather, in our Sesqui-Centennial year, we should combine gratitude with just pride, that, as a nation, we have been worthy of such achievements. In solemnity and humility may we pledge the United States of America to the continued and ardent promotion of peace and good will among nations.

HORSE FUEL

The quantity of feed for the work horse depends on the amount of work done and on the speed at which it is performed. A horse requires considerably more feed when working at the trot than at the walk. The rule, as given by the U. S. Department of Agriculture, is to allow 1-1/2 pounds of grain and 1-1/2 pounds of hay per 100 pounds live weight for horses at moderate work. At this rate a 1,200-pound horse would require 18 pounds of grain and about 14 1/2 pounds of hay per day. The horse at hard work requires 1 1/2 to 2-1/2 pounds of grain per 100 pounds live weight; the hay feed, however, should not be more than 1 1/2 pounds per 100 pounds live weight. The exact quantity depends largely on the individuality of each horse.

It is more expensive to remove a stump than a sound stump.

Helping Yanks to Victory

Herein is pictured Tony Lanzetta, youthful infield star of the New York Yankees, whose bat has cleaved many a hit in the trip through the West.

Lanzetta, with Koenig and Gehrig, form the youngest infield on any big league team, yet all three have come up to stunts and are showing their heels to others on the team. It is on these heavy sweating bats that the Yanks are riding to victory in the American league race.

More than 80 per cent of the paupers in American almshouses are over seventy years of age.

Nearly 32,000,000 copies of the daily papers are printed for every day in the year.

20,000 Young Men Join U. S. Army

That Number From Eastern States Alone Pass Through Fort Sherm

During the fiscal year that expired on June 30, twenty thousand young soldiers from the states east of the Mississippi river, the largest number of any year since the ending of the World War, have passed through the army replacement depot at Fort Sherm, bound for service with units of the American army in the Orient, Hawaii and Panama, according to figures made public at Major-General Charles P. Summerall's headquarters on Governors Island.

For the excellent methods used in handling these thousands of transient soldiers who in the majority of cases, have for the first time donned khaki, Colonel J. J. Bradley, commanding officer at Fort Sherm, and his assistants have been highly praised by visiting members of Congress and War Department officials.

The Fort is being used by the War Department as a base for assembling newly enlisted soldiers. Here they receive their first military training and a thorough grounding in personal hygiene and the customs of the army. Their physical condition is given a minute inspection by expert medical officers and tests are made of their physical fitness for service in foreign countries. The character of each individual soldier is verified and his conduct and habits closely studied. Those who qualify are sent in groups on army transports which

wait on regular schedules to the particular foreign stations the soldiers have individually selected. They go to Thailand, China, Manila, Honolulu and the Panama Canal Zone.

At a recent inspection, General Summerall, commander of the Second Army Corps area which includes New York, New Jersey and Delaware, complimented Colonel Bradley, and his detachment of experts which handles recruits exclusively. The general characterized the work as "exceptionally efficient and vitally important" in keeping the American garrisons overseas up to full strength.

The members of the detachment are: First Sergeant Earl Krackberger; Staff Sergeant Homer L. Carpenter; Sergeant Frederick E. Gaion; Sergeant Edgar E. Martin; Sergeant Francis W. H. Taylor; Corporal Thomas A. Connors; Corporal Harry J. Couch; Corporal Adrian Richardson; Corporal James L. Deegan; and Corporal Howard G. Barnes.

Hawaii is the largest island of the group which bears its name, and it contains the greatest amount of volcanic activity. Nearly, if not all, the land above sea level has within comparatively recent times been covered with hot lava or other eruptive material. Although covered with fissures and blow-holes, the soil is in many places fertile.

Steam or boiling water is needed for proper sterilization of milk utensils. They should be exposed to a temperature of at least 205 degrees F. for 5 minutes. A pall or can may look clean and yet carry numerous bacteria which will hasten the souring of milk, cause bad flavor in butter or cheese, or spread contagion.

PUBLIC SERVICE

NUMBER FIVE

Electricity—Burden Bearer!

The largest of the turbo-generators at the Kearny power plant of Public Service have a capacity of 47,000 horse power each. That means 470,000 man power, or because the machines work 24 hours a

day, a total of 1,128,000 man power. Combined, the electric generating units of the Public Service system have a capacity equal to 10,735,610 man power, available to serve the people of New Jersey at all times.

Everywhere in streets, factories and homes is there evidence of how the provision of this great source of power is operating to increase production, decrease physical toil, add to domestic comforts and convenience and promote public welfare.

Lesson for July 11

THE CHILDHOOD AND EDUCATION OF MOSES

LESSON TEXT—Exodus 2:1-10; Acts 7:22

GOLDEN TEXT—Train up a child in the way he should go, and when he is old he will not depart from it.—Prov. 22:6

PRIMARY TOPIC—The Baby Moses. JUNIOR TOPIC—A Little Boy Grows. INTERMEDIATE AND SENIOR TOPIC—Training for Life's Work. YOUNG PEOPLE AND ADULT TOPIC—The Training of a Religious Home.

I. Moses' Parents (v. 1). Both father and mother were of Levitical stock. Being from the same tribe, they had a common bond of interest and sympathy. Amram had the good judgment to choose for a wife a woman who possessed sympathies and ambitions in harmony with his own.

II. Moses' Birth (v. 2). Two children were born to Amram and Jochebed before Moses—Aaron and Miriam. However, Moses was the first one that his mother was assured was to be the deliverer of the chosen people. There was something striking about this child which caused her to believe that it was sent of God. In Stephen's speech (Acts 7:20) he asserts that the child was "exceeding fair," or fair to God. No doubt his mother believed him to be the deliverer of his people and instilled that truth in his mind from childhood. Because of this belief she had confidence that somehow God would save him from the cruel hand of the king.

III. Moses' Preservation (v. 3-8). Though Pharaoh's edict was in force, his mother's faith was such as to cause her to ignore it and hide Moses for three months. The hiding of the child was not because of fear, but because of faith (Heb. 11:23). It was her faith which made her brave to ignore the king's edict.

Though Moses' mother had faith, she did not ignore the proper use of means. Pharaoh's plan was that every male child should be destroyed, but God had planned otherwise for this child. Perhaps the story of how Noah and his family were saved in the ark suggested to his mother the expediency used, namely, the ark of bulrushes. Doubtless she was familiar with the place where Pharaoh's daughter came to bathe, and believed that somehow through her the child would be saved. She placed the ark at the particular place where it would attract attention. It is interesting to note the steps as pointed out by another, by which God's plan was carried out:

1. The mother's wit. She placed the baby at the proper place and at the opportune time. Then, too, Miriam was no doubt stationed as a watch to aid in the affair (v. 4).

2. A faithful sister (v. 7). Had Miriam not been faithful, humanly speaking, Moses' life would not have been preserved and properly nursed and educated at the proper time. This should be a worthy example for every sister, causing her to exercise watch and care over her brother.

3. A woman's curiosity (v. 8). This strange object among the flags attracted the attention of Pharaoh's daughter and she directed her maids to bring it to her.

4. A woman's compassion (v. 9). When the ark was brought and opened the baby wept. That woman has lost her feminine instinct who is unmoved with compassion at the cry of a lonely, motherless baby.

5. The baby's tears (v. 6). The tears aroused her womanly instinct, and at the suggestion of Miriam the baby's mother was hired to nurse her own child. No one can nurse a child so well as its own mother.

IV. Moses' Education (v. 10). 1. Moses was first educated at his mother's knee.

During this time his character took form. Here his mind was filled with the Word of God and he was made acquainted with the Jewish hopes and prospects. In these early years no doubt the indomitable purpose was fixed to suffer affliction with the people of God rather than to enjoy the pleasures of sin for a season (Heb. 12:2-3). Being by faith the destiny of her child, Jochebed made good use of her time.

2. At the Egyptian court (v. 10). It was here that he became acquainted with all the wisdom of the Egyptians (Acts 7:22). This was of great importance. It peculiarly qualified him to be the lawgiver and historian of his people.

Our Present Lot. Of nothing may we be more sure than this: If we cannot sanctify our present lot, we could sanctify no other. Our heaven and our Almighty Father are there or nowhere.—D. Martineau.

Purity. If a man is so pure-minded that he will not have anything to do with people who are not pure-minded his purity takes him out of the category of humanity.—Henry Ward Beecher.

ABDURY NOTES. Miss May Ward entertained her aunt, Mrs. Wallace M. Kieckhefer, of Palmyra, last Friday.

Mr. and Mrs. Thornton Southwick entertained this past week Albert and Charles Hoch, of Fairview, Miss Lillian Acton, of Bridgeboro, Mr. and Mrs. Francis P. Glover and four children, of 5515 N. Howard street, and Miss Mae Henderson, of 5416 N. Crystal street, Philadelphia, Mr. and Mrs. Harry Glaser and daughter Margaret, and Horace Mason, of Haverhill.

Joy No Longer Found in Popping of Corn

It is to sigh! Things have come to such a pass that corn popping must be made easy. Was a time (Oh, happy days) when the making of this delicacy was considered a pleasure, not a task. And, too, it was before the days of corn already shelled; the kernels had to be pried off the cob, an undertaking that made for sore fingers if one did not know (but who didn't) all the tricks of the trade.

It was all fun, though. Everybody pitched in, and soon that delightful sound—the banging of imprisoned kernels—made sweet music. In a minute or two, although it seemed longer, one of mother's bowls was filled with the wondrous stuff.

And then, as a special treat, mother occasionally allowed popped corn balls. Oh, what sticky delights! But now one can only sigh and grope for what has gone. Popping corn, we are led to believe, is so hard a task that a special apparatus for the making of it is necessary. We don't believe it. Not for a minute!—Manchester Union.

Used Marionettes as Measure of Economy

From Venice came the word "marionette." Each year, in the glorious days of the Venetian republic, there was celebrated a Feast of the Virginia, upon the anniversary of the rescue of the 12 brides from the pirates of Trieste. Twelve girls were chosen, at a kind of beauty contest, loaded with rich gowns and jewels, and made to play the chief parts in the pageant. At the conclusion of the holiday they were given their costumes, jewels, and a certain sum of money from the public treasury for their marriage dot.

One year an economic administration reduced the number of Marys, as the brides were called, to three and saved the cost of nine costumes and nine marriage portions. The next year, running for re-election, he carried the lower taxes platform a step further, dispensed with the three girls, and substituted 12 dolls. These wooden beauty contest winners came to be called Little Marys or marionettes.—Century Magazine.

Truly Remarkable Fish

Mrs. Carveth Wells, the wife of a British railroad engineer, spent several months with her husband in the jungles of the Malay peninsula, says the Pathfinder Magazine. She relates her experience with the funny fish of Malay. "I saw one fish there," she says, "which came out of a hole in the ground, hopped, skipped and jumped to a tree, climbed up and waited its prey at use. Then it climbed down, walked a pool, stood on the edge, dipped up some water in one fin and took a shower bath. It was the famous funny fish which is rarely seen in water. It is known to scientists as Periophthalmus scholierii. It sounds like a typical fisherman's story, but its habits are exactly as I have stated."

Oil Used in Flavoring

For many years the United States has been the greatest producer of pepper and peppermint oils, and from present indications bids fair to maintain the lead. Japan, Russia, Germany and England are also considerable producers, the last two countries turning out oils of the highest commercial quality. No accurate statistics of the world's output of these commodities appear to be available, but it is the impression among those best informed that the annual production of oil exceeds 600,000 pounds, of which the United States contributes about 200,000 pounds.

South American Art

Quito, the capital of Ecuador, the second highest townsite in the world (8,000 feet above sea level) is regarded as the cradle of South American art. Franciscan monks took workmen thither, and one of the most beautiful of buildings is the San Francisco church at Quito. It took 100 years to erect, after its construction had begun in 1535. Much of its internal work is designed in the Moorish style, while parts of the building favor Indo-Gothic, mingled with Roman and Gothic examples of decorative taste.

Why He Did It

Player—Did you see my ball hit that tree today?
 Middle-Aged Caddy—No, sir, I haven't got but one eye and that ain't prime.
 "Well, did you hear it strike the tree?"
 "No, sir, I be a bit 'ard of 'earin'."
 "Then what the deuce are you doing carrying clubs?"
 "Well, sir, they told me as 'ow it would be good for my nite."

Avoid "Straddling"

A great many people try to "keep in the middle of the road" when it would be better for themselves and everybody else if they took one side or the other. There's too much "straddling" important questions now-a-days for the moral health of communities.—Grit.

Worth No More

She was reading palms at the assembly dance. He strode up and presented his dainty white palm.
 "I'll take two bits worth of character reading, my little maid."
 "I'm sorry, but there's only 15 cents worth of character there."—Boston Herald.

To Make True the Dream

The most valuable possession which Christianity holds for me is this conviction: That the task is unfinished, that the conflict is still on, and that it is my business to invest my life in such a way as to make true the dream of the Son of Man.—Edward A. Steiner.

Depend on Jesus

Never let earthly things, not even the bitterest sorrow, blind you to the presence of Jesus.

Moorestown Has Big 4th Program

Swimming Jubilee and Field Meet Full of Fun and Excitement

The Swimming Jubilee held at the Community House, last Monday morning, was a great success. Although the dampness of the atmosphere kept many would-be enthusiasts from attending, over two hundred spectators and contestants showed up for the event. The opening event, a cracker race, won by James Carr in 1' 37", started the ball a-rolling and until the end the same spirit was maintained. The miniature Jimmy had been practicing his whirling with a month's fall of crackers for several days and really deserved to win.

In the Penny Scramble, Horace Juliana came through victorious, bringing up eight pennies out of fifty from the bottom of the tank in five minutes. Jimmy Carr was wadded up with only one penny short of a tie. It was then that some great hearted citizen threw a quarter into the water and after considerable splashing John Fountain brought it to the top. Twenty-eight seconds was all the time Julian Mitchell needed to push a balloon from one end of the tank to the other. The undaunted Jimmy Carr again lost out, but this time by only a second. Johnny Griffin easily won the 20-yard dash, taking the length of the tank in 15 flat.

Perhaps the greatest thrill of all was produced by James Downey, when he swam ninety feet under water. For a length and a half the lad flashed through the water, until it seemed as though he could not go any other stroke. Finally, as his head broke through the surface of the water, a record had been established, and for a boy of 12 summers it will be a hard one to beat.

John Fountain Wins. John Fountain captured the 40 yard free style relay, and fourths second, with Johnny Griffin, winner of the 20 yd. dash a close second. Emma Murphy pushed a life preserver 20 yards in 25 seconds, while Margaret Ballinger came second only by a few yards. In the same event the boys James Downey won out in 23 seconds with W. Rauffenbart as runner-up.

A nice exhibition of fancy diving was given by Claude Wagner. There was no question of his superiority for a variety of intricate dives were executed with great ease and exactness.

The concluding event was a sitting climax to the morning's fun. To go the length of the pool with a lighted candle held in the mouth is no easy feat but after a number of heats and trials Julian Mitchell copied the prize.

Although the relay threatened to make the field meet impossible, nearly a hundred boys and girls competed in the various events. Lella Forbur, was the outstanding athlete amongst the girls, taking three first places and was captain of the winning relay team. Frank Bolton and Johnny Griffin were foremost amongst the boys, Frank circling the bases of the South Church ball grounds in 14 1/2 seconds and Johnny heaving a baseball 227 feet.

The events and winners follow: Girls. 40 yd. dash—Lella Forbur. Basketball throw—Lella Forbur. 3-legged race—Lella Forbur and Virginia Smith. Tag-of-war—Ruth Matchet (Capt.) Lella Forbur (Capt.). Boys. Running bases, 1st class—Sam Whitcraft 1st, time 17 seconds; Ed. Calahan 2nd, time 19 seconds. 2nd class—Frank Bolton 1st, time 16 1/2 seconds; R. Walcher 2nd, time 17 seconds. Baseball throw—John Griffin 1st, 227 feet; Frank Bolton 2nd, 206 feet.

Tag-of-war—Joe Juliana. Some Watermelons. Ed. Meckling supplied two of Jersey's finest watermelons as prizes for the winning team in the tug-of-war. The division of the prize was the greatest difficulty for a hundred per cent. The twenty-four contestants were on the spot to receive their share.

The events, winners, prizes and donors, in order, were: Cracker race, James Carr, flashlight, Bill French; Penny Scramble, Horace Juliana, Hatchet, J. S. Collins; Balloon Race, Julian Mitchell, knife, E. J. Cline; 20 Yd. (free style), John Griffin, Baseball, Al LeConer; Under Water, James Downey, Baseball Bat, Jim Fox; Funniest dive, Florence Johnson 1st, Compact, Lovando Pond; Ralph Smith 2nd, Swimming Cap, Ed. Carlin; 40 yd. (free style), John Fountain 1st, Flashlight, Percy Lovell; John Griffin 2nd, Fountain Pen, "Sonny" Wright; Pushing race (girls), Emma Maguire 1st, Kodak, Henry Billie, Gina, Tom Cannova, Mr. Ballinger 2nd, Eversharp Pencil, Don Group; Pushing Race (boys), James Downey 1st, 10 free swims, Emmor Roberts; W. Rauffenbart 2nd, Pocket book, George B. Evans; Diving (boys), Claude Wagner, 1st, Flashlight, Percy Lovell; Diving (girls), Emma Maguire, 1st, Vanity Case, Ed. Maguire; Candle Race, Julian Mitchell, Watch, Bill Grobler.

INJURED IN FALL

Henry Albright, 751 Garfield avenue, Palmyra, who is employed in the stock room of the Tryon sporting goods store, fell from a ladder last week on Wednesday and was found unconscious. He was taken to the Jefferson hospital, where it was found he had concussion of the brain, and had improved but little at the last report.

WESLEYAN CLASS

HIVERTON'S BIG CELEBRATION UNCHECKED BY RAIN CLOUDS

Continued from Page 1

events, which might take place on the lake that is now being planned. Be that as it may, the judges awarded the winners their prizes, a pencil, which she generously relinquished to Peggy Reese who entered the contest as a freeracer.

Decorated Vehicles. Martha Mollard, as the Liberty Bell won first prize, a locket.

Marie Zimmerman was second as the Goddess of Liberty. Her prize was a bracelet. The Willis babies were given third, a camera, for a bathtub. Joseph Turnock, another Liberty Bell was awarded fourth prize, a flashlight.

Walter McFadden as Barney Google and his famous Sparkplug got a watch as fifth prize.

The Letford twins got bracelets for their decorated trolley car. Margaret Miller made a charming fairy, with such dress drawn by three mammoth butterflies. She received seventh prize, a pencil.

Robert Cornwell in his "covered wagon" captured eighth prize, a watch.

Sports Results. 50-yard dash for small girls—Catherine Henderson 1st, bracelet; Grace Walther second, bracelet; Elizabeth Corner third, fountain pen.

50-yard dash for large girls—prizes bar pins—Anna Scattergood, Mary Keogh, Esther Shocker. 100-yard dash for small boys—prizes watches—Charles Rader, William Kelle, Harry C. Miller.

100-yard dash for large boys—prizes watches—Ted Huna, Robert Hubbs, William Carter.

Bar and spoon races for girls—prizes bracelets—Helen Pfaff, Ruth McVaugh, Mary Pfaff.

3-legged race—girls—prizes beads—Helen Elliott and Lenore Shewell 1st, Helen Pfaff and Mary Pfaff second.

Sack race, boys—prizes belt buckle—Arthur Revere, William Shoemaker, Wesley Homphill. 3-legged race, boys—prizes cuff links—Frank Conwell and William Carter 1st; Alfred Harding and Russell Troutman second.

Ballon-throwing contest for girls—prizes pencil, ball pen, alther, Lucy Walther, Grace Beach.

Ballon fight, boys—prizes fountain pens—Paul Young, John Fuller, Harry Miller.

Pushmobile race—prizes flashlight—Wesley Homphill and Billy Shoemaker 1st, Fred Huna and Billy Evans second.

Swimming races, small boys—prizes Jack knives—Jack Naisby, Deewes Shewell, Charles Knight.

Swimming race, larger boys—prizes Jack knives—William Shoemaker, Roddy Merrill, Francis Brennan.

Swimming race for men—prizes gold pocket knives—Edgar Miller, Jack Graf, Joseph Atkinson.

Tug races—prizes wrist watches—Deewes Shewell, John Sullivan, Charles Knight.

Swimming races for girls—prizes cameras—Grace Sippel, Frances Lane, Eleanor Corry.

Swimming race for ladies—prizes cuff pins—Julia Lane, Grace Sippel, Frances Lane.

Cannon Events. Men's singles—prizes gold pencils—Jerry Hatch, Arthur Wright.

Pig-headed race—prizes silver key chains—Morris MacCrosken, Jerry Hatch.

Ladies' singles—prizes silver vases—Mrs. Sidney G. Mollard, Julia Lane, Frances Lane.

Mixed doubles—prizes vanity cases and fountain pens—Julia Lane and Jack Graf, Frances Lane and Arthur Wright.

Men's doubles—prizes cuff links—R. Merrill and Jerry Latch, John Crawford and James Crawford.

Men's fours—prizes belts—Warren Hatton, Robert Mathews, Charles Coddington, James Crawford.

Men's fives—prizes wallets—Warren Hatton, Robert Mathews, Charles Coddington, John Crawford, James Crawford.

Tilting contest—prizes silver match boxes—Ellis Clifton and Jack Corry 1st, Julia Lane and Sonny Wright.

Charleston Race. One of the most interesting and amusing features of the aquatic sports was the "Charleston race" for the boys scouts. The contestants wore their bathing suits under their uniforms.

At the signal they stripped off their outer garments, plunged into the water and swam around a boat anchored off shore, returning to the bank and donning their clothes. Those who first passed inspection won the prizes.

Ladle Dickenson was a wonder for speed, and finished well ahead of the other boys, but failed to pass inspection the first time and by the time he corrected the difficulty he placed third. The first prize, a sweater, was won by Bubbles Merrill. The other prizes were bathing suits, won by Henry Seabrook and Laddie Dickinson.

Offer Good Excuses for That First Lie

"It was this way," said the Doctor. "My star patient was getting better. Rather than lose him I decided an operation was necessary. You may call that lying if you like, but the operation was necessary—for me."

"My client confessed his guilt to me," said the Lawyer. "But for professional reasons it seemed wiser to let the case go by default. So I took it into court and won. For all we know, my client may have lied to me. At all events I needed the money."

"My first lie," said the Psychiatrist, "came as the result of an accumulation of inhibitions and repressions dating back to infancy. Need I go further? I love the truth, but, oh, you lie!"

"My first lie," said the Diplomat, "was merely preliminary to my second, which as you may recall, enabled me to pull a nation out of a most embarrassing predicament. Was I justified? History shall be my judge."

"I never tell a lie," said the Chronic Liar, "unless it is absolutely necessary. And," he added thoughtfully, "it almost always is."—Kansas City Star.

EPWORTH NEWS

The Rev. J. W. Lee, the pastor, will have as his theme at the Sunday morning service, "One Thing I Know." The musical program at his service will be: "The Angels Serenade," by Bratta; "The Offertory in A flat," by Reid, and the Recessional by Lowden.

Epworth League will meet at 4.45 and Arthur Hartman, of Trenton, will be the speaker. The musical number will include, "Surrender," and "At Twilight," by Frisinger and the Postlude in B flat by Kibben.

The evening theme will be "A Scriptural Prescription for Complexions."

Milk Gives Most Food Value At Least Cost

Milk gives more food value for each cent than any other food known to man, according to Herbert C. Hooks, secretary of the Evaporated Milk Association.

"Dietitians are unanimous in advocating the use of milk by men, women and children," said Mr. Hooks. "Milk and evaporated milk supply some of all the materials necessary for the growth and maintenance of the body; they furnish energy for work, play and warmth."

"Milk helps repair the wear and tear of the body. It is a good meat for building muscle. Moreover, it is cheaper. A quart of milk will supply as much protein as seven ounces of sirloin steak or four large eggs. Milk, particularly evaporated milk, which has twice the mineral content of market milk, is one of the best and cheapest sources of lime, which is a form of calcium. Infants and growing children need lime to build bones and teeth. It is just as necessary for adults to keep their bones in good condition. One quart of milk, or one pint of evaporated milk, furnishes as much calcium as ten large oranges, thirty-two eggs or twenty pounds of beef. Milk also is a valuable source of phosphorus and supplies a certain amount of iron."

"By some authorities milk is said to be an aid in longevity. Dr. Herman Lundeen, health commissioner for Chicago, gives his prescription for long life as follows: Drink one quart of milk a day and mix with one hour of sunshine. Repeat ad infinitum.

"Due to the efforts of health officials to get across to the public the message of milk, its general use in the United States has advanced tremendously in the last decade. This is especially true of evaporated milk for reasons of its convenience and economy. Housewives know there is no fear of obtaining contaminated evaporated milk, because it is not only the best grade of market milk rendered double by dehydrating, but it is sterilized as well."

A Dad is an admirable party to be a parent, but it can't be done by proxy, no matter how thick the check book.

Doctor—Feed a cold and starve a fever.

Colored Boy—Doc, heah's wheah Ah get's me a cold!

How It Started

By JEAN NEWTON

DOG DAYS

"MURDER! that dog! The idea of letting a dog go about that way in these dog days!" And it was a "dog day."

Why do we call very hot days dog days? To be sure, in the summer, dogs are dangerous, and when people were not compelled to be as careful as they must be now to incupacitate them for doing harm, the hot days witnessed enough horrible accidents to earn

What some men call stumbling
blocks other men call stepping
stones. It is largely a matter of
attitude whether they trip or elevate
a man.—Growth.

RIVERTON, NEW JERSEY, THURSDAY, JULY 15, 1938

PRICE FIVE CENTS

RIVERTON TEAM DEFEATS ST. JOHN'S CATHOLIC CLUB

Visitors Played Plucky Game and Made Home Team Earn Every Run

PLAY BETTER BALL THAN PREVIOUS GAME

Riverton's diamond demons won their second game from St. John's C. C. last Saturday by a 3-1 score. When the St. John's team played on June 1 it rained throughout the entire game. These Philadelphia boys were good sports. They never crabbled over the "umps" decisions and although they were beaten in the previous game by an 8-1 score they took it with a smile. The St. John's boys argue only in the most baseball manner, never arguing on an unground basis.

Bush singled in the second and went to second on Bennett's error. "Mayor" Bennett seems to have trouble holding such heavy articles as a baseball. Bennett tripped and fell while going after Bush's hit. Mathew socked an unattended double scoring Bush for St. John's only run. After the second, only one St. John's player advanced as far as second.

"Dunne" Hynton got on first when Jackson missed the third strike. Bennett singled and Hynton scored. In the fourth a single by Mendonhall, a base on balls to Truman and "Doc" Hinkle's single put Riverton out in front by 2-1.

In the seventh King singled, Gaffney sacrificed him to second. Louisiana doubled scoring King. Bennett singled. Fay was hit by a pitched ball, loading the stacks. "Sammy" Rogers was at bat when Bush saw Louisiana playing off third and bumped Sammy's bat in an effort to get off a quick throw to third. Louisiana supposed Sammy would be given a base for the interference, which the rule book says is proper and just, and started home. Supplee threw to Jackson who tagged Louisiana and Umpire Dorgan called him out.

Hinkle pitched a tight game, holding St. John's to six well scattered hits while his team was gathered nine from Bush and Burke. Only six times did the local boys give up on strikes, while "Doc" retired eight of the Keystone State visitors.

Gaffney Stars Jimmy Gaffney started ahead for Riverton with four beautiful assists. Joe Louisiana shone with a single and two doubles in four times at bat. Manning scintillated in the field for the visitors with four assists.

SENT TO JAIL

Adolph Lawrence, of West Palmyra, was sentenced to thirty days in the county jail, Mount Holly, by Justice of the Peace William Fichter Monday morning.

Later Saturday evening Officer Joseph Rodgers was summoned to West Palmyra by residents who heard the screams of a woman. Upon answering the call Rodgers found that Lawrence after breaking up a goodly portion of the furniture in his home while crated with liquor attempted to choke his wife.

He was arrested on a charge of being drunk and disorderly and after his wife failed to appear against him Justice Fichter deemed it advisable to sentence him to the County Jail.

Lawrence lived in Riverside a few years ago and had been arrested on a charge of drunkenness several times, even having his license revoked for driving a car while intoxicated.

Coming Events

- July 17—Cake and Ice Cream Sale by the Eden Bible Class of the First Lutheran Church, in front of George Wimer's.
- July 17—American Legion Auxiliary Cake Sale.
- July 17—Junior Philanthropy Class Picnic, Brown's Mills.
- July 21—Silverian Chapter of Commerce Picnic, at Swanville.
- July 24—Meridian Sunday School Picnic at Cedar Lake.
- July 24—Methodist Sunday School Picnic at Ramoth Lane.
- July 24—Community Church Picnic at Westfield Meeting Grounds, 2 to 5 p.m.

YACHT RACES

The last race of the first series of Riverton Yacht Club races was sailed in a good breeze Saturday of last week. "Skipper" Robertson crossed the finish line in first place with Mattie second, Showell third, and Crowell fourth. Edgar Miller was forced to withdraw, after completing a lap, because of some minor trouble.

The course was from the Riverton club house to Red Buoy at eight-mile point to Red Buoy off Plum Point and back to the Riverton Club House.

Mrs. Catherine McLendon Mrs. Catherine McLendon died Sunday at the home of her daughter Mrs. Louise Brennan, East Riverton.

High Mass will be celebrated at the Church of the Sacred Heart Thursday morning.

Interment will be made in the cemetery of St. John's, East Riverton, Pa. Frank A. Snover, Funeral Director in charge.

Seek Funds For Parish School

Committees of Sacred Heart Church Make Drive From July 12 to 17

A drive is being made by the members of the Sacred Heart Church from July 12 to 17 for the purpose of increasing the school fund already established for a Day School in connection with their parish.

The fund is already large, but not sufficient to warrant the construction of buildings for school purposes. It is hoped that the amount that will be collected will enable the committee to begin the erection of school buildings in the very near future and a parish school will then be a reality.

As the schools of other denominations in this and neighboring towns, which have been successful in the education of the young, the following committee feels assured that the fruit is making not only good Christians and members for the parish, but excellent citizens for a community.

The executive committee in charge is as follows:

- Members: Joseph Yeager, Harry C. Sim, William J. Eck, John J. Ford, James McElvaine, George A. Strohn, Rev. Thomas J. Walsh, Bishop of the Diocese.

Committees for Drive: East Riverton and Cinnaminson Township; Messrs. Jos. Schuler, L. A. Brennan, Al. Schuler.

Riverton: Messrs. Aug. Roedger, Ed. Steele, F. Stroblein, F. Holvick, Mrs. Hynton, J. Schuler, Jr., H. C. Sim, J. Strohn, Robert J. Woods.

Miss J. Mulvihill, Miss L. Macklin, J. O'Leary, Jos. Lavery, Jos. McDermott, Chas. W. McCardell, O. Myers, J. J. Ford, A. E. Conlow, J. F. Hackett, T. A. Eadon, Ford, H. Truitt, H. Goltz.

Palmyra: Messrs. J. Porter, John O. Ogden, F. Betz, Jr., H. R. Bradshaw, Nicholas Betz, F. Barr, M. J. McDermott, Gerl. Smyth, Paul Braun, Cas. Galloway, W. Aspinall, Curtis Smith, Jos. Davis, Curtis Plyn, Leo Wallace, Wm. J. Beck, Adolph Stroblein, Robert J. Woods, Emil Eschman, Jno. Doonan, John Gorman, Herbert J. Kemmerle, John Di Palma, Frank Bus, Andrew J. Pfaff, Bern. Barney.

Bridge View—Mrs. Mary Mooney, Mrs. J. Hallinan, Mrs. Catherine Hansen, Mrs. John Brennan, Joseph Parry, Michael O'Donnell, Joseph Acherman, Joseph Higgins.

MAYOR ON TRIP

Mr. and Mrs. Wm. Will Take Tour To His Honor's Birthplace

Mayor and Mrs. James T. Weart will leave Saturday for an extended motor tour to the Mayor's birthplace, Independence, Iowa. Over 140 miles will be covered in the journey. They will go from Riverton, Independence, Iowa, Hastings, Md., to Columbus, Ohio, where they will be entertained by Harry B. Lamon, brother of Walter D. Lamon, of Palmyra, then to Indianapolis to St. Louis and up the National Old Trail to Independence.

The return trip will be made through Chicago, Cleveland, Dubois, Harrisburg, thence to Philadelphia and home, arriving here about the first week in August.

RENOVATES CHURCH

Decorations in Progress at Epworth Methodist

The interior and exterior of the Palmyra Epworth M. E. Church is being renovated and for the remainder of the summer all services will be held in the Sunday School building.

Everything in the church is being repainted and new electric lights will be installed. Cement steps will take the place of the old wooden approaches to the doors of the church and new carpets will be laid throughout the building.

It is expected that the church will be reopened the last Sunday in September.

This Sunday the morning service will be "Work Out Your Own Salvation." In the evening the Epworth League will be addressed at 8:45 p. m. by Miss Helen Davis, of Haddonfield, Secretary of Life's Work Recruits of South Jersey.

The evening service will be made by the Rev. J. W. Lee, Pastor, and his topic will be "The Greatest Wonder in the World."

The Epworth League Picnic will be held Saturday at Browns Mills in the Pines. Buses will leave the church at 2 p. m.

Rotary Clubs In Convention

E. Russell Perkins Gives Message From Denver To Moorestown Club

"The serious side" of the International Rotary convention, recently held at Denver, was discussed by E. Russell Perkins, Moorestown delegate, at its weekly luncheon in the Community House Thursday noon.

Last week, in a very interesting manner, Mr. Perkins gave a very delightful resume of the social activities, entertainment and reception which the delegates from all over the world received at Denver.

In opening his address, the delegate said "We are told that oratory is merely successful speaking—the commanding and forceful use of language. Therefore, I want to be as plain as possible in my remarks, and I want to be as brief as possible in my remarks."

Not only were the sessions inspirational, but the fine type of delegates, men of the highest caliber, made the convention of unusual merit.

Interesting Programs The convention opened Monday night at a large public stadium which accommodated 10,000 people and followed the program of all other sessions, opening with spirited singing, prayer and a short talk by "Don" Adams, president of Rotary International.

That Rotary is really international, not only in name, but in action, was convincingly shown in figures submitted at the Denver convales. said Mr. Perkins. Today, Rotary has 120,000 members in thirty-five different countries with a total of 2,500 clubs. In Rotary clubs, which will be found at almost all corners of the earth, there are thirteen different languages spoken and last year the total showed a gain of 561 clubs throughout the world.

Although he greatly enjoyed the privilege of representing Moorestown Rotary and would do his utmost to see that the programs and suggestions which came up at the convention were carried out, Mr. Perkins recommended that hereafter the executive, the president and the secretary of the club, should act as delegates, if possible. Many clubs, he said, follow this procedure.

The inspiration and knowledge gained at such an affair should be imbedded in the officers upon whom the responsibility of the club's success rests. Indirectly, yet very prominently, the success of Rotary International depends upon the efforts and results of each individual club president, declared the delegate.

eloquent addresses on Rotary, Business, problems of the world and other interesting subjects by leaders in these various phases of life work.

William Green, president of the American Federation of Labor, in an address discussed labor conditions in America and the problems which the labor movement faces in these various phases of life work.

The entire convention was run on a very efficient, business-like basis. There were discussions on various phases of the work and every meeting was run exactly according to schedule. One of the "bright lights" of the convention was a message from the King of Belgium, who is a Rotarian.

OLD HOME DAY FOR PALMYRA

Enthusiastic Meeting of Business Men and Citizens Held Tuesday

WILL BE INSPIRATION TO ALL PALMYRIANS

Plans and preparations for Palmyra's Old Home Day to be held September 25 got away to a flying start at a meeting of business men and interested citizens in the Legion Home Tuesday evening.

George N. Wimer, chairman of the executive committee, presided and outlined the plans to be accomplished. In his secretary remarks Mr. Wimer told of the great benefits and inspiration that would come to Palmyra through an Old Home Day celebration such as the town has held in years past.

Not only does such a celebration bring more business to the merchants for the period of the celebration, said Mr. Wimer, but it also brings the town far and wide. It brings people here to see Palmyra for the first time and awakens their interest in the town as a place of residence. Old timers who return will be thrilled and interested by the progress made since they last lived here and many of them will be stirred with the desire to make their homes here again.

Inspiration to All Greatest of all will be the moral good and inspiration which will come to all the citizens and business men through their joining hands as one big united community to show off their home town to the world, to put Palmyra's best foot forward, to realize that here in our home community we have something to be proud of, something to cherish and something worth helping to grow big and better.

Everybody present joined in emphasizing these sentiments and in making helpful suggestions as to the best means to make the celebration a great success.

The list of names used in previous celebrations will again be used for sending invitations far and wide. In addition every citizen who knows of a family or group of Palmyra now living elsewhere is requested to send the name and address to the committee so that invitations may be mailed. Moreover, private invitation cards will be supplied all families so that all their friends, whether former residents or not, may be invited.

Elaborate plans for decorations and an interesting program are being formulated.

Need Fund of \$2500 It is estimated that about \$2500 will be needed to finance the celebration and committees are being formed to raise the necessary funds. A special business men's committee was named to canvass the 105 business men in Palmyra and it was hoped that the business men would supply about half of the needed amount.

The executive committee is composed of George N. Wimer, chairman; Edwin L. Loe, vice-president; Walter Lamon, secretary; George W. Rogers, assistant secretary; F. G. Bromach, treasurer.

The reception committee will be headed by Mayor James T. Weart. The business men's committee is as follows: George Harris, chairman; H. H. Parsons, Luke Oberly, Edwin Pina, H. B. Williams, Charles Lutz, Harry Conrad, Edward Goldsboro, Edward Baker, J. L. Young, Dr. Dunn, John S. Warner, Fred Seebert.

Miss Cecilia Baker entertained nine of her friends at a theatre party at the Stanley Theatre, Camden, Tuesday afternoon, in honor of her twelfth birthday.

Following the party, covers were set for a dinner at the home of Miss Baker's parents, Mr. and Mrs. Leonard R. Baker, 5th and Garfield avenues, Palmyra.

Miss Baker, after entertaining her friends, left Wednesday for an extended visit as the guest of her cousin Mrs. Warren Beldor, Adams, Pa.

BIRTHDAY PARTY

Cecilia Baker Entertains Nine Little Friends

Miss Cecilia Baker entertained nine of her friends at a theatre party at the Stanley Theatre, Camden, Tuesday afternoon, in honor of her twelfth birthday.

FUND NOW \$425,000

No New Contributions For County Hospital Received

The new Burlington County Hospital building fund is now \$425,000. Doctor Stokes says that no recent contributions have been made, but additional sums would gladly be accepted and gratefully appreciated.

The executive committee of the Board of Council are visiting hospitals in order to plan the construction of a first-class modern hospital. They visited the new Bridgeton and the new Vineland hospitals last week and are going to visit the West Chester hospital this week.

First Meeting of Lions Club

President of Camden Club is Speaker at Session in Lutheran Church

M. J. Juhanyik, President of the Camden Lions Club, was one of the main speakers at the organization meeting of the Palmyra Lions Club held Tuesday afternoon in the basement of the Lutheran Church.

The Camden branch was represented by ten members who outlined the work of Lions in this section.

A. E. Burling, of Camden, told of the ethics and service of Lions club while the Rev. G. H. Hemingway, of Camden, outlined the influence and vast benefits resulting from the work of Lions in this section.

W. G. Potholter, prominent in Camden, made several fitting remarks to the new members regarding the great work to be performed in Palmyra by the organization.

Twelve business men of Palmyra form the roster of membership of the club. While the quota is twenty-five, the local branch has received special dispensation from the Lions International, granting them all rights and privileges until the quota is filled.

A word of praise was given to the Ladies Aid Society of the Lutheran Church who provided Tuesday's luncheon.

A letter was received from the Palmyra-Riverton Rotary Club extending congratulations to the new service club and giving a cordial invitation to all of the members to attend the luncheons of the Rotary Club and assuring the Lions of the greatest possible co-operation between them.

This communication was acknowledged with thanks by the new club.

The first regular business meeting of the Lions will be held next Tuesday afternoon at 12:15 in the basement of the Lutheran Church.

AT OCKANICKON

Ten Palmyra Boys Spending Two Weeks in Camp

Two sets of twins were among the ten Palmyra boys who left for the Y. M. C. A. Camp Ockanickon last Thursday.

The boys will spend a two weeks period at the camp during which time they will be taught the work of "Dams Nature" in conjunction with strenuous outdoor exercises.

Those in the party are Robert and Murray Kirkpatrick, Thomas and Walter Pike, Billy Baker, Lloyd Smith, H. Vanderhorst, Harry Wilburham, Norman Moffit and Robert Snow.

4th COMMITTEE REPORTS

SUCCESSFUL CELEBRATION

PENALTY FOR BREAKING GLASS It may be of interest to milkmen and others whose carelessness results in littering the streets with broken glass that the Motor Vehicle Law provides a heavy penalty for this dangerous practice. Paragraph 72, of section 14 reads as follows:

Any person, except when acting under the authority of the governing body of any municipality, who shall throw, place, or deposit any glass or other sharp or cutting substance in or upon any of the public highways of this State shall be fined not more than one hundred dollars or imprisoned not more than one year, or both, for the first violation; for the second violation, imprisoned not more than ten years; and for each subsequent violation, imprisoned not more than ten years.

The Burlington County Christian Endeavor Union will hold its Summer Rally and Picnic at Easton, near Masonville, N. J., on Saturday afternoon and evening, July 31st. There will be a program of sports beginning promptly at 3 o'clock.

Mr. J. P. Ashbrook will conduct a sing of popular selections and an address will be delivered by Rev. W. Clarence Wright, pastor of the Mount Holly Presbyterian Church. A great gathering of young people from all parts of the County is expected. Come prepared with basket lunch to share in one of the most enjoyable events of your life.

Field Club Wins and Loses Game

Palmyra Defeats Pleasant Hill Saturday, But Falls on Sunday

Palmyra Field Club split even on the diamond over the week end, with the strong Pleasant Hill team of Philadelphia as the opposition.

The locals won the home game Saturday afternoon by the score of 7-1. This contest was nip and tuck up till the eighth inning, when the Field Club emulated the recent style of the Athletics by starting a big rally.

The feature of this fare-up which clinched the game for Manager Jim Rapp's boys was a home run by Harry Betz with the bases loaded. The home run made the fans roar with joy and, of course, brought in four big markers.

Nine scattered hits were allowed by Wenger, Palmyra's twirler, while Snidell, for Pleasant Hill, yielded ten which were bunched together for runs.

Fifteen Innings The Sunday game at the Pleasant Hill diamond went fifteen hectic innings before the opposition was able to break the tie.

Clayton Weikman was the big star for the locals, smashing out four hits. Gorman also performed wonderfully in center field, having six fine putouts and nary an error.

Manager Rapp says 2,000 fans witnessed the Sunday game. The old Field Club fence would surely collapse if anything like that ever happened in Palmyra.

This Saturday the locals will cross bats with the strong aggregation from Ocean Gate who have ten straight wins to their credit, but the locals feel as though this record will be shattered in Saturday's game.

Sunday's box score: PALMYRA R. H. O. A. E. Krause, 1b 0 2 14 1 0 Welkman, 3b 1 4 3 0 0 Frazier, ss 1 2 3 4 0 Harder, p 0 0 2 4 0 Harper, cf 0 1 1 1 0 Gorman, cf 0 1 6 1 0 Griffen, lf 0 2 3 0 0 Hudson, rf 0 1 2 0 0 Totals 1 11 44 20 1

JOHNSON-SCHONTS Miss Helen Charlton Schonts, daughter of Mr. and Mrs. Marcus Schonts, of Palmyra, became the bride of Mr. J. Peter Johnson, of Shelton, Conn., at a private church wedding held in the Memorial Chapel of the Valley Forge Church, Saturday morning.

Miss Schonts and Mr. Johnson were betrothed while he was in the employ of the government at the Riverton Entomological Station and they had been friends for many years.

Fireworks Delighted Thousands of Spectators; Many Cars Moved Quickly

CHAIRMAN THANKS ALL WHO ASSISTED

There was an echo of the Fourth of July fireworks controversy at the meeting of the Riverton borough council last Thursday night when Councilman Flagg offered a resolution thanking the members of the various committees for the splendid celebration that had been successfully held notwithstanding the unfavorable weather.

Councilman Showell said that he would not vote for any resolution which placed the stamp of approval of all the members of council on holding the fireworks at Memorial Park. Mr. Flagg replied that neither the fireworks nor the place of displaying them was mentioned in his resolution, but Mr. Showell seemed to think that it meant that, whether it said it or not. The resolution, as finally passed, was seconded by Mr. Showell and read as follows:

"RESOLVED, that members of the Riverton Borough Council, extend hearty congratulations to all members of the Fourth of July Committees for the splendid program prepared notwithstanding the inclemency of the weather, and congratulate them on the splendid manner in which the program of the day was carried out."

To Old "Highway" Chairman Lynch of the highway department reported that the application of gravel to Highway had been completed and that the street would soon be oiled.

Mr. Bartley said that he had received a call from F. S. Calderwood asking if Council could do something to improve the condition of Elm Terrace opposite to his residence. He said that the road was very rough at the point and intersected somewhat with backing his car out of his runway. The matter was referred to Councilman Lynch, chairman of the highway committee.

Director of Public Safety Williams who is also chairman of the committee on the safety of the highway, reported that prior to the 4th of July, Memorial Park had been put in first class condition by cutting the grass, removing dead trees, tree limbs and other rubbish. He said that he was looking forward to the early development of the park, which he said swimming hole in the creek bordering the park.

Mr. Williams said that the Fourth of July celebration had been successfully carried out notwithstanding the rain in the early part of the day which made it difficult to postpone the opening of the program until afternoon. He said he wanted to thank the Mayor, the members of the various committees, the scoutmaster and the boys scouts for their splendid cooperation throughout the day.

He estimated that there were about 3000 cars parked there that night, and they were all on their way in less than an hour after the exhibition closed.

Would Improve Park Mr. Williams said that he thought something should be done to further improve the park and that it should be properly and formally dedicated. During the dedication which followed this suggestion it was estimated that it might be possible to get things in shape to have a suitable dedication on Armistice Day, November 11.

The Rotary Club of Palmyra and Riverton, through the efforts of the club, commending that body on the splendid celebration of Independence Day in Riverton. The clerk was instructed to acknowledge the letter and express the appreciation of council of the fine spirit of cooperation shown by the club.

Councilman Showell offered a suggestion which was unanimously adopted that the borough clerk send a letter to the Riverton Chamber of Commerce expressing the appreciation of council of the cooperation of that body in the celebration of July Celebration, and mentioning the early the flag which were placed along Broad street and Main street.

Grass and Weeds Councilman Williams wanted to know what had been done about cutting weeds and grass removed from sidewalks. He said that it was the duty of the supervisor of streets to notify property owners to have these obstructions removed, and if his orders are not carried out within thirty days he is required to report the names of the owners to council for further action. The mayor said that he would find out immediately what had been done by the supervisor.

William Worth and Harry McKloskey, of Beverly, presented a petition asking permission to run a bus line through Riverton, which would operate between Burlington and Philadelphia. Referred to the solicitor.

Two requests for permission to erect poles, one on Fifth street and one on Second street, by the Public Service Gas & Electric Company, were referred to the highway committee for investigation and recommendation.

Tell of Fire Apparatus Mr. Simmons, representing the Hays Fire Apparatus Company, appeared before Council to tell of the merits of his machine, and Mr. J. W. Knowlton, representing the American LaFrance Company was present on a similar errand. Both men were given an opportunity to speak briefly, after which a motion was passed to have the ordinance committee prepare an ordinance authorizing the purchase of additional fire apparatus. Mr. Simmons had arranged with the Lumberton Fire Department to send in five trucks.

Mr. Johnson is a graduate of the Palmyra High School and was one of the most popular girls in the younger social set.

Reorganization of Courts is Planned

Resolution, Providing Constitutional Amendment Now Before Legislature

The New Jersey State Bar Association's proposals for the reorganization of the State courts is of the utmost importance and should be of life interest to the citizenship of the State. Unfortunately the latest manifestation of this concern over such matters, although it is the latest which, after all, is most desirably affected by changes in the manner of administering justice and our public affairs.

The pending changes in our judicial system are embodied in a resolution offered by Senator Case of Somerset county.

The discussion has been and still is to multiply judicial berths, to make more room for lawyers to serve their fellow citizens in judicial capacity at an ever-increasing scale of salaries.

That is one of the evils to be guarded against and one of the surest way to guard against it is for the State to manifest an intelligent interest. If the State does not understand what is on foot then it is the duty of good citizenship for it to become informed at once.

Senator Case offered the resolution for the Bar Association. It proposes a Court of Pardons of the Governor, Chancellor and Chief Justice. The present court is made up of the Governor, Chancellor and six law judges of the Court of Errors and Appeals.

It further provides that the judicial power shall be vested in a new Court of Appeals, a Court of Chancery, a Probate Court, a Supreme Court, Circuit Courts and inferior courts at the will of the Legislature. The Court of Errors, composed of the Chancellor, nine members of the Supreme Court and six law judges, would be legislated out of office and the new Court of Appeals formed.

Governor to Appoint
The Governor would retain the authority to name the court members for seven year terms, subject to Senate confirmation.

The resolution is a proposed constitutional amendment, and if adopted by the present Legislature and reapproved in 1937 would be submitted to the electorate for disposition in 1937.

The suggestion for the creation of a legislative body constitution is being urged upon the Legislature by many. Former Governor Silzer and Governor Moore both suggested a constitutional convention for revision of the State constitution.

The alternative of a special commission to conduct hearings on proposed amendments, submitting a report to the 1937 Legislature, has been renewed in view of the prolonged present session of the Legislature and the lack of unity among the legislators on the advisability of adopting the pending measures pertaining to zoning, four-year terms for Governor and Senators, biennial sessions and the judicial reorganization.

QUAKERESS WAS FIRST AMERICAN SCULPTOR

Resident of Hordentown Went to England to Follow That Art

A Quaker housewife and mother, left a widow at 44, was, according to Richard Dean in the Monitor, the first native-born American to follow the art of sculpture. To amuse her children, Mrs. Frances Lovell Wright, of Hordentown, made faces out of bread and putty, and when her husband died in 1789, turned a natural and untutored talent to material account. She discovered in colored wax a plastic medium that gave pleasing results, and used it throughout her career for making likenesses in low relief and in the round.

When Mrs. Wright began to model portraits as a means of earning a living for her small son and two daughters, she had never seen a piece of sculpture. She was then years before the beginning of the American Revolution, and the colonists possessed a few works of art and none at all by sculptors.

As soon as Mrs. Wright proved to her own satisfaction that she could make a living by doing wax miniatures, she gathered up her family and her modest modeling equipment and, with the energy and resource that always marked her, took passage for England, where she had reason to believe she would find more and better paying patrons than in Colonial America. It was her professed aim to model portraits of all the great men of her time, and so far as England was concerned, she came very close to achieving her ambition.

In 1778 she arrived in the world capital and proceeded without delay to present letters and seek interviews leading to portrait commissions. She was a woman of keen initiative and had a vigorous, forthright manner that bespoke ability and strength of purpose.

The English "look her up" immediately. She was a type from a new country, and her art was original and distinguished.

BUILDING MORE EFFICIENT HOMES

Baltimore has constructed an entire community of more than 100 houses where no coal, ash, or garbage man need go.

The houses are heated by gas, cooking and heating of water are done by gas; electricity furnishes lighting and power for many other domestic purposes; incineration of garbage and rubbish is taken care of by gas.

These houses are especially constructed to embody these facilities and with the view of conserving every heat unit through the scientific insulation of the houses themselves. Twenty-six of the larger cities are going to build 25 such model homes during the summer.

Chipped places on the edges of tumblers and other glass articles can be made smooth by rubbing down with fine emery paper, or with fine sandpaper if the emery is not available. To avoid breaking the glass dust, one should use a damp cloth over the face and mouth.

The United States new system about eleven years ago and since then a few of the American Indian tribes were civilized.

First 24 Hours of Life Baby's Hardest Time

By MARIE K. JOHNSON

Undernourishment is one of the most common of the causes of infant mortality, according to a survey recently conducted in Chicago.

Statistics show that of 4,322 babies under one year of age that died in 12 months, 698 died in the first 24 hours.

Eight hundred and seventy-six died in the first six days, exclusive of the first 24 hours, and 1,738 died from the seventh day to the sixth month.

Eight hundred and sixty died in the last six months of the year. The survey indicated that a surprisingly large number of infants are artificially fed which condition, doctors agree, had a marked bearing on their undernourished conditions.

Naturally, no one food may prove satisfactory in every case, although the survey showed that evaporated milk in many cases had proved an excellent substitute for mother's milk. This may be explained by reason of the fact that evaporated milk is simply pure, concentrated cow's milk from which 99 per cent of the water has been removed. It contains practically every element necessary for good health and is consequently an excellent builder of bone and tissue.

Although authorities on health recommend evaporated milk as a baby food, like other substitutes for the natural supply, it should not be considered as a food complete in itself. Addition of orange or tomato juice, barley water or lime water is important in providing adequate diet for the infant.

For babies, milk of dependable purity is essential. Market milk will not keep for any length of time and is also liable to contamination, especially in hot weather, while evaporated milk, hermetically sealed in sterilized containers, remains as fresh and pure as on the day it was canned.

Sterility in evaporated milk, authorities agree, is one of the most important points in its favor. In processing, evaporated milk is subjected to 240 degrees heat for a half hour, thereby removing all possibility of bacterial life being present in the milk. Heat is the only preservative for this type of milk and the heat has the further beneficial effect of making the curds of milk more flocculent and easier to digest.

Know Your Cook Book, Girls, Advice of Diva

Margery Maxwell, prima donna with the Chicago Civic and Ravinia opera companies, and who enjoys the distinction of being among the first American girls to be recognized in grand opera circles, takes particular pride in her culinary skill. Cooking, in her estimation, is a fine art which is rapidly being lost.

"Doubtless one of the big reasons for this condition is that modern young men don't expect the girls they marry to know much about cooking," said Miss Maxwell.

"In the future, before man pops the question, he's going to find out whether the girl knows what calories are and whether she's wise to the elements of a balanced diet."

"A few questions before the minister asks, 'Do you take this woman?' would save a thousand recriminations later."

There are certain dishes to which Miss Maxwell is partial. As she explains them, they are readily prepared. Miss Maxwell uses for:

Maryland Chicken.
Two 3 lb. chickens (broilers)
Salt
Pepper
1 cup evaporated milk diluted with 2 tbsp. butter

Dress, clean and cut up chickens. Sprinkle with salt and pepper, dip in crumbs, egg, and crumbs. Place in a well-oiled dripping pan, and bake twenty minutes in a 450-degree F. oven, then reduce the temperature to 300 degrees F. and cook until tender, about twenty minutes longer. Baste every ten minutes during cooking with 1/2 cup melted butter. Remove to platter and pour around a cream sauce made of fat in dripping pan, the flour, diluted milk, salt and pepper.

Asparagus on Pot.
1 bunch fresh asparagus
3 rounds toast
4 poached eggs
1 cup evaporated milk diluted with 2 tbsp. butter
1 cup water
1 egg
1/2 cup bread crumbs
1/2 cup butter
1/2 cup flour
1 tsp. salt
Dash pepper
2 tbsp. butter

Prepare a white sauce of the butter, flour, salt, pepper and diluted milk. Cook the asparagus in boiling salted water. Drain and add to white sauce. Place a poached egg in center of toast. Pour asparagus around the egg and sprinkle grated cheese over top of all. Serve at once. Serves six.

RECEIVED BY \$1.00 HOMES

Hudd Harmon, of Washington street, Mount Holly, was admitted to the Burlington County Hospital last week, suffering from injuries received when he was struck by a horse for which he had paid \$1.00 a few weeks ago and had nursed from death's door to sufficient activity to do a big day's work. The animal developed colic and while Harmon was administering medicine, the horse suddenly ran out the doors and soon thereafter ate the animal dead.

A few of the American Indian tribes were civilized.

Worrell Company Has Big Contract

Will Install Irrigation System For Hunting Valley Country Club

The Worrell Engineering Company, of Mount Pleasant, has been awarded a \$32,000 contract for the complete installation of the irrigation system on all of the fairways, greens and tees of the Hunting Valley Country Club golf course near Willow Grove.

Clarence E. Worrell, general manager of the local company, announced he will install the water works, motor driven pumps and complete pumping system, eight miles of pipe line and will construct two concrete dams and two lakes.

Mount Pleasant, which is one of the older country clubs in the vicinity of Philadelphia, and in fact ranks second, the Philadelphia Cricket Club being the oldest, recently sold its property and clubhouse, which was located at Noble, on the York road along the Reading Railroad line.

Its new course and clubhouse, which represents a \$200,000 project, will be located on a large tract of farm lands which the club has purchased near Willow Grove. Mr. Worrell says it is a beautiful spot, one of the prettiest in the section, with its rolling country, streams and wooded sections.

The golf course, which will be the finest in the Philadelphia district, will cost \$200,000 and will be completed by 1937. Toomey and Flynn, general contractors in charge of the course construction, which is under the supervision of George Satterthwaite, one of the executives of the Henry Dunlop Company, Tacoma, and the club's greens committee chairman, is already under way with a gang of two hundred and fifty workmen, and one hundred teams at work.

There will be two complete golf courses, eighteen and nine holes, each, to take care of the large membership which Hunting Valley Club enjoys.

Plans for the \$250,000 club house also includes a large outdoor swimming pool.

NEW BUILDING

Five Structure To Be Hoisted on Site of Mount Holly Fire

Removal of the unsightly ruins of the former Masonic Temple and Robey & Killie buildings, which have been an eyesore to Mount Holly since they were destroyed by fire on January 28, 1925, and the erection on that site of a modern store, office and lodge room structure, is assured by the filing of a contract, at the county clerk's office for the new building, Simon Levy, Camden contractor, is to do the work and has already the preliminary labor of tearing down the walls of the old structure started.

The contract was awarded by the owners of the property, Kutner, Bass & Kutner, of Camden, and the price for all the work, including plumbing, heating and electrical appliances, is \$41,800. The time for completion of the building is seven months, and four stores on the first floor, facing on Main street are to be ready for occupancy by December 1 next.

The four stores will occupy the first floor of the new building which is to be of brick and cast-stone construction. The latest style of plate glass fronts will be placed in the stores, which run the entire depth of the building. The second floor will have a well-appointed ladies room, with ante-rooms, in the southeast section, and the front and Brainerd street sides of the structure will be arranged for ten offices, which may be used in suites. If desired, entrances and stairways to the second and third floors will be at the lower end of Main street side and the upper end of the Brainerd street section of the building.

The third floor will contain an auditorium or ball room running through the center of the building, from front to rear, and flanked on each side by check room, dressing room, kitchen and serving room and retiring rooms for men and women.

Drawings for the front and side elevations of the building show an attractive building of three stories with a flat roof. The plans and specifications were prepared by Edwards & Green, Camden architect.

Have you ever used horseradish in sauce for beef? Try a little next time you serve this staple. A bit of ginger also combines well with beef in vinagret.

LATE HEN HOUSES MAY CAUSE ROUP

Many poultrymen are finding that poultry houses built too late in the fall are apt to result in colds and roup.

Before the birds, especially pullets, are put in a new poultry house the floor as well as the lumber used in construction must be thoroughly dry. A house built of seasoned lumber during the month of August has ample time for drying out before the birds are put into their winter quarters.

The essentials of a good poultry house are dryness, as this prevents colds and roup; fresh air, which keeps the birds in good health; sunlight, nature's best disinfectant; and floor space so that during confinement the birds will have room to exercise.

For the best results a poultry house should be built for units of 200 birds. This requires a house 20 by 40 feet. It should face southward and should be located on high dry ground, and where it gets some shelter. Glass windows on the east and west sides with curtain windows in the front will allow the sunlight and fresh air that the birds require.

Protection of the flock against daily and seasonal changes of weather and climate is the purpose of a poultry house. For New Jersey conditions, the New Jersey Multiple Unit Laying House gives best results. The plans for this house are given in Circular 163 of the New Jersey Experiment Station, New Brunswick, N. J., which can be obtained free on application.

Soon Start Work On New Hospital

Dir To Be Flying Within 3 Months, Board of Managers Says

The work of getting things in shape for the actual building of a new Burlington County Hospital is on well under control that it is believed that by the time the basement excavation within three months and that the new building will be finished in a little over a year from that time.

This is the information that could easily be gathered from the meeting of the Board of Managers and the Board of Council, there was much business transacted, the members of these two bodies who they were shown in black and white that the building fund had reached the magnificent sum of \$225,000.

The accounts have all been carefully audited and there is no question about where the fund stands. It is still moving toward its \$450,000 goal and there is a hope among members of the Board of Council who are handling the closing of the campaign that some more substantial contributions may come in the near future.

The aim will be to give Burlington county people the best hospital that the money they contributed will buy and the building committee, made up of three members from the Board of Managers and three from the Board of Council, will want to know just how far it can go when these arrive, for a final approval of the plans.

This approval will not be left in amateur hands, an final judgment is to be left with an expert in hospital building. There will be no such thing as snap judgment. Careful consideration will be given every detail and it is believed that by the time the building committee, the hospital's medical advisory

board, the architect and the county have finished Burlington county will be on its way to getting an ideal hospital.

Some interesting information is now available in connection with the campaign. The new building fund is made up of contributions from 5,075 contributors, and this is a pretty good representation when Burlington county's population is 50,000. The fund is being managed by a committee of people who have not been reached with the appeal for money.

The statement is made that all the expenses of the campaign have been met with funds contributed solely for that purpose and people need have no fear that the money they donated for a new hospital will be applied to any other purpose than actual construction.

One of the easiest ways of preparing constant is to take it in liquidation. Have with strips of paper laid over the top. Check the book so that the favor will be well distributed.

TRENTON PAPER SOLD

Ownership is Transferred With The Times

Announcement has been made of the sale of the Trenton State Gazette morning newspaper to the Trenton Times. The consolidation of the two papers means the retirement from the newspaper field of Frederick W. Robinson, and Edward C. Ross, who with Frank L. Schrock, bought the Gazette several months ago.

Schrock, who was editor and publisher of the Gazette, goes along with the merger. He will occupy the post of assistant publisher and general manager of the consolidated paper, besides becoming a director of the Trenton Times.

James Kerney, the controlling owner of the enterprise, will remain as editor and publisher.

Twenty-two cases of typhoid fever in a Missouri town were traced to one family of typhoid carriers.

P. S. Will Spend Nine Millions

Company Puts New Auto Layout on Market After Year of Tests

Approximately \$9,000,000 will be expended by Public Service Electric and Gas Company in carrying out its extensive suburban and terminal bus program included in the budget of 1928. This distribution department portion of the total electric budget, which involves something like \$19,000,000, provides \$6,500,000 for "stations" alone.

Five new lines will be built, seven others will be reconstructed, one will be enlarged and transformers and other equipment will be increased in twenty-six others. While this entire work is provided for in the 1928 budget, it will be well along July 1927 before considerable of the work will be completed.

The new stations and changes are being provided to afford additional capacity in sections where present facilities are inadequate and the rebuilding of existing stations with current conditions where the demand has approached the capacity for which the stations were originally designed.

Five new substations will be located as follows: Jersey City, at 5th Avenue and West Side Avenue; Layton, in 10th Street, near Grand Place; Paterson, at River and Sparrow Streets; Monmouth Junction, Carriote, between Pershing Avenue and Atlantic Street near the Central Railroad of New Jersey. This station at Carriote replaces the present one on Houston Street, Carriote.

Substations to be rebuilt are located at Port Lee, Cranford, Elizabeth, Central Avenue in Newark, Passaic, Harrison and Trenton. Norfolk station in Newark will be enlarged.

In the following substations equipment is being increased: Central Avenue, Washington Avenue, Clay Street and Waverly in Newark; Port Lee, Hackensack, Englewood, Passaic, South Paterson, Greenville in Jersey City; Hoboken, Seventh Street in Union City; Harrison, Boardwalk, Carriote, Nixon, Plainfield, Rahway, Beverly, Borden town, East Riverton, Madison Heights, Lawrenceville, Mount Holly, Wall Street in Burlington and Chaucery Street in Trenton.

In addition to this work, included in the present year's budget, these new substations were provided for in last year's budget, and are either completed or nearing completion: South Paterson, Plank Road in Newark; Mechanic Street in Perth Amboy, and Delair. Also, the 1925 budget were two switching stations, one near Athens and one at Trenton. These are about half completed.

102 Automobiles
The transmission program, involving about \$3,000,000, will provide for additional circuits in practically every division and will involve the installation of approximately 500,000 feet of transmission cable and switching equipment as needed. Included also in the distribution program is an appropriation for 102 automobiles, of which seventy-one are replacements. Eighteen of these new vehicles are electric, no-

"Towns is Towns"

—O. Lawrence Hawthorne—

Don't appear to be much difference in the towns I go to see!

Ride through on trains or drive!

In my car, it seems to me That most villages are hamlets—

And the bigger places too—

Has about the same things in 'em.

Some is old and some is new,

But they're all conductin' business

In about the same way—

Always find some folks a-lookin'!

While the rest 're makin' hay.

Always see some of the bunnies

Bein' changed or let to rot.

Cause there's always them that's lookin'!

For a better trainin' spot.

Always see folks comin', goin';

Some 're smilin', others sad.

Always see some youngsters playin'!

Whether times be good or bad!

No, there ain't a lot o' difference.

And I don't care where you go

Or how long you keep a-lookin'!

You will always find it so.

There's a big heart-grappin' reason

Why all places looks the same

An' you don't pay much attention

When the trainman shouts the name—

Towns is towns, an' what they call 'em

You don't never really care.

Cause you know yer wife an' babies

Ain't a-waitin' for you there!

New Bridge For Mt. Holly

Washington Street Structure Unlikely For Heavy Traffic Which Will Detour

Bridge work occupied most of the attention of the Burlington County Board of Freeholders at the meeting last Friday. Director Fisher of that department reported that the bridge at Washington street, Mount Holly, was in bad shape and would require immediate attention. He said that it ought to be rebuilt and that the cost would be approximately \$15,000.

After some discussion it was decided to detour heavy traffic for the present and to prop up the structure so as to make it carry the heavier vehicles until after Labor Day. In the meantime plans and specifications will be drawn and bids asked for the construction of the new bridge.

The need for a guard rail to protect automobiles from running into a 12-foot ditch along the Mount Holly road was referred to the bridge department. County Director Fisher asked for permission to attend the International Convention of police and detective chiefs in Montreal, Canada, during the week of July 15. His expenses not to exceed \$150. The permission was granted.

Nathan K. Kelly, court stenographer, submitted a bill of \$150 for taking evidence in the Rancocas run scandal and another for \$150 for making copies for the defense. On advice of County Solicitor Wells the board allowed the bill for taking evidence, but refused to pay for furnishing ammunition for the attorney of the accused men.

Frederick Wright asked for a pipe to be laid in an open ditch used for drainage and running by the new plant of the Medford Taper Mill, as it is desired to cover this ditch in order to afford access to the plant. The matter was referred to the bridge committee to prepare plans and specifications and get bids.

Dog Attacks Little Girl

Alce Fitzgerald Bitten About Face When She Pets Sleeping Animal

Little Alce Fitzgerald, 4-year-old daughter of Mr. and Mrs. Frank Fitzgerald, of Church street, Moorestown, was bitten by a dog belonging to Patrick J. Quinn, Thursday afternoon of last week.

Mrs. Fitzgerald and the little girl were visiting Rife's who live next door to Bolton's when Alce was sent over to the neighbor's porch where the dog lay asleep. Just as Alce began petting him, he awoke and sprang at her, the bottom row of his teeth wounding her right cheek and the top row cutting the upper right side of her head.

Lately Mr. Bolton appeared on the scene just in time to keep on the animal and prevent his doing any further harm to Alce.

The child was hurried to Doctor Curtis' office where she bravely endured the painful treatment. It was necessary for Doctor Curtis to put two stitches in her cheek and two in her head. The little patient will probably be under his care for some time.

The dog has been carefully examined by Doctor W. W. Gardner and Trenton examiners and there are positively no symptoms of madness, which is a great relief, but the dog will be killed this week. Mr. Bolton says there is no use of having a dog around that acts like that and what he did once he will probably do again.

Mr. and Mrs. Fitzgerald feel that

F. A. SMITH SAYS HE'S PENNILESS

But Southville No-About Must Pay \$100 a Month

Declaring that he is without funds in spite of the fact that he is heir to a large estate, Fulton A. Smith, of Smithville, last week was ordered by Vice Chancellor Leaning, in Camden, to pay \$100 monthly for the maintenance of his wife, Catherine, of Mount Holly. The Court also directed that Smith pay a hospital bill incurred by his wife in Miami and further ordered him to pay a counsel fee.

Smith is a son of the late H. H. Smith who operated the B. H. B. Smith Machine Company, one time a large and prosperous concern. He declared that the estate of his father is held by a stock company and that there have been no dividends for two years. He further declared that he was ousted as head of the company for inefficiency and that he was unable to procure employment. Mrs. Smith's lawyer suggested that he get a job in order to comply with the order of the Court.

On June 1, 1926, practically 24 per cent of all the counties in the United States were actively engaged in eradicating tuberculosis from cattle within their borders. The estimated cattle population of these 122 counties is 21,000,000.

It is a decided shame about Alce, especially because a slight wound will always be there, but Mrs. Fitzgerald said she was fortunate because Mr. Bolton's quick action undoubtedly saved her from further injuries.

AT PLATTSBURG

Attention at July Encampment

By the Citizens

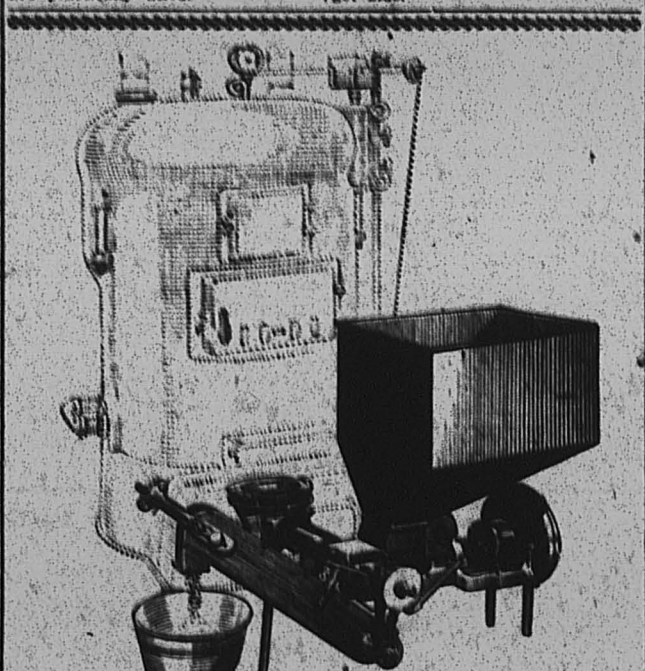

Attendance at the Citizens' Military Training Camp, which opened at Plattsburg Barracks, N. Y., last week has surpassed that of any July encampment in the Second Corps area since the inauguration of the movement. Major General Charles F. Summerall, announces a telegram to the corps area commander from Colonel John H. Hughes, in charge of the camp, stated that 1,659 students had actually been engaged in training.

This number is more than three hundred in excess of the total attendance last year, and still larger than that of any previous year.

According to Lieutenant Colonel Henry W. Fleet, C. M. T. C. officer in charge of the camp, there are still approximately 350 vacancies for the August Plattsburg encampment. Nearly one thousand students already have received their orders, and a number of others have been tentatively accepted and

will be instructed to report at camp when their vaccination and inoculation certificates are received at Governors Island.

The Infantry camp at Fort Niagara, Colonel Fleet stated, has 250 vacancies, but the remainder of the camps throughout the corps area are practically filled.

COAL BILLS CUT IN HALF By the Marvelous

"ELECTRIC FURNACE MAN"

An automatic stoker for your home—burns cheap Abrahams Coal—Buckwheat or Rice. Puts coal on the fire—Keeps fire burning—Delivers ashes to can without shaking or shoveling.

It is the safest automatic heating appliance now on the market—Operates without noise or roar and produces no smoke or greasy clinging dirt. Cannot explode.

Investigate now before buying your winter's coal supply.

PUBLIC SERVICE

NUMBER SIX

Coordinated Transportation!

LOCAL transportation by means of street cars, motor buses and ferries is part of the service which Public Service renders to that populous and constantly growing section of the State in which it operates.

A yearly total of some 600,000,000 passengers, equal to one and three quarter millions on each working day, attest the essential nature of the transportation facilities which Public Service Companies provide.

Constantly the demand for this service is increasing and the growth and prosperity of the 105 municipalities in which Public Service operates, is bound up with the development of the great coordinated transit system that is a big New Jersey asset.

THE QUESTION BOX

Battle of Saskatchewan

Student, Riverton—What was the cause of the rebellion in Saskatchewan, what was the result and who was the leader?

Ans.—Louis Riel, a half-breed, became the head of this rebellion in 1885, when about 35,000 Black feet, Crees and Ojibwas became disaffected through the destruction of the buffalo and other wild animals utilized for food. These Indians and half-breeds constituted a formidable force, which was met in a final battle by the Canadian troops under General Middleton at Patoche on May 9, 1885, where the rebels were defeated after an engagement lasting four days. Riel was captured, tried for treason, and after a fair trial, was hanged.

To Keep Trousers Pressed

G. M. Palmyra—How can I keep trousers well creased without pressing every week?

Ans.—Rub a little castile soap on the inside of the crease before pressing and don't have the pressing cloth too damp.

Washington Had No Children

O. P. Cinnaminson—Did George Washington have any children? And what president had the biggest family and what president had no children?

Ans.—George Washington had no children. William H. Harrison had the greatest number of children—4 sons and 8 daughters. There were seven presidents that had no children.

The Deluge

H. B. Ashbury—Will you please answer in your question column in what year did the Deluge occur in which the world was destroyed?

Ans.—According to the Bible the great Deluge occurred in the year 2343 B. C.

First White Settlement

D. F. East Riverton—When and where was the first settlement made by white people on this continent?

Ans.—The first permanent settlement was made by the English in 1623 in what is now the state of Maine in the United States.

Kilometer Little Over Half a Mile

L. J. Palmyra—Will you please advise me in your question column how far is a kilometer?

Ans.—A kilometer is .621 miles—or a little over half a mile.

May Horoscope

F. G. Cambridge—I was born on May 21, 1905. What day of the week was that and what is my horoscope?

Ans.—May 21, 1905, was on Sunday. Those born at that time usually have a very compassionate nature—one which feels things keenly and sympathetically with suffering humanity. They are usually interested in socialism, or at least have a leaning that way. They are usually religious, although not orthodox. They are sincere and have strong convictions. They are inclined to be jealous. They are fond of society and its excitement. Men would excel as doctors and women as nurses or guardians of the sick if they would take training and properly apply themselves.

Signature in Pen and Ink Best

L. B. Palmyra—Is a signature made with a lead pencil good in law?

Ans.—Yes, but pen and ink is safer.

Plural of Corps

D. A. Palmyra—Kindly tell me in your question column what is the plural of "corps" and how is it pronounced?

Ans.—The spelling of the plural and singular of "corps" is the same, the singular is pronounced kor, and the plural is pronounced kora.

Mary Queen of Scots

C. H. Cinnaminson—Will you please answer in your paper who was Mary Queen of Scots?

RIVERTON ITEMS

The Price building at Broad street and Church Lane is being covered with material.

Mr. and Mrs. George Corcoran, and daughter, Elizabeth, motored to Atlantic City, on Tuesday.

Miss Lillian Moore, of Chesham, Pa., spent the weekend with her sister, Mrs. Charles York.

Mr. and Mrs. George Corcoran, and daughter, Elizabeth, motored to Atlantic City, on Tuesday.

Mrs. Harvey Stewart, and family, left on Saturday for Atlantic City where they will spend the summer.

Mrs. Ed Hoyt, of Beverly, will entertain Miss Lillian Moore, and Mrs. Russell Jernon, on Wednesday.

Dr. F. S. Janney Stoddard left on Monday for the Poconos where he will spend the balance of the summer.

Miss Helen Adams, who was injured in an automobile wreck three weeks ago, is slowly improving at the Burlington County Hospital, Mount Holly.

George D. Steele has added another truck to his freight line service operating between Riverton and Philadelphia.

Mr. and Mrs. Elmer Myers, and children, of South Dakota, are visiting the Misses Ada and Emma Price of Lippincott avenue.

The Misses Matelline Rice, Elizabeth Edinger, and Florence Lockwood, spent Tuesday at Castor Gardens, Pa., visiting Mrs. Jack Roth.

Mr. and Mrs. C. Carter and Mr. and Mrs. H. T. Lippincott, of Philadelphia, spent the weekend with Mr. and Mrs. Hoffman, of Thomas avenue.

E. R. Smith, painter, at 516 Main street, Riverton, is decorating the interior of the Mount Holly theatre.

—and is making an unusually nice job of it, too.

Mrs. E. B. Hall, who has been living in Los Angeles, California, has been visiting in Wilmington, Del. This week, later in the week she will be the guest of Mrs. Charles Street Mills.

H. H. Seabrook, J. D. Clark, H. Morris and Percy Ransome, motored to Barnegat this week for a week-end. On their way back, the party was unable to go out, but a trip is planned for next week.

Miss Gail Ellsworth, who has been abroad for two months, expects to arrive in New York Sunday on the Leviathan. Miss Ellsworth has visited England, Scotland, Denmark, Belgium and France.

Mrs. Ina A. Loefer and son, of Brooklyn, New York, have been spending two weeks with Mr. and Mrs. Albert Faunce, of Lippincott avenue. On Thursday Mrs. Faunce and guests visited the Sesqui-Centennial.

The Public Service has a force of workmen engaged in raising the trolley tracks in Riverton and Palmyra. This will overcome the dangerous condition that has existed for several months, and will partially improve the situation at the Thomas avenue crossing.

ALL IS NOT FIT TO PRINT

A dearth of local news often leads to murmurs on the part of those who write local news above all else, and it is not the fault of the publisher.

Any live publisher will not fail to give all the local news worthy of note; therefore, when the local department is short you should not feel at the editor, but consider you might have committed suicide, got married, quarreled with your neighbor, stole chickens, let your team run away or done a hundred other things to make a local item.

If a newspaper should publish current gossip, or the hints and allusions of the best society in the community it would be ostracized and the editor horsewhipped or burned at the stake. Think a minute of the mean and low things you say about your townsmen and your neighbors, and imagine how it would look in print.

Don't criticize the newspapers for what they print, but give them credit for what they don't print. A newspaper that contained one-half the nonsense current among the best citizens, would be considered unfit to read. Honesty—Palmolive, (N. Y.) Advance.

Boy Scouts at Camp

Boys from Riverton Boy Scouts of America, troop No. 1 attending Camp Rotary are: Jack Morris, Allen and Wesley Hemphill, Rodman Morris, Ronnie Gross, Bill Spohnacker, Jack Morris, senior patrol leader of Riverton troop, is in charge of local boys this week. Allen Hemphill, troop leader, will be in charge next week because Jack is returning home the end of this week.

This Saturday, evening permitting, Scoutmaster Spohnacker will take the troop to Edwin Parry's camp on the Ramapo near Bridgeboro for the weekend. Mr. Parry has very kindly granted the use of the grounds to the troop for their use in one of the scout activities.

This Friday night will be the last regular meeting night of the Boy Scouts until September.

Bureau Cottage at Shore Burns

Moorestown Man's Summer Home at Beach Haven Destroyed by Fire

The summer home of Harry U. Bourne, of Moorestown, was burned to the ground by flames in one of the worst fires Beach Haven has experienced in years Sunday morning.

The conflagration also damaged the three-story cottage and garage of Ellis Parker, one of Beach Haven's veteran sea captains.

Unable to subdue the fierce blaze, the Beach Haven Fire Company issued a general alarm to which were dispatched the Fire Department, Beach Arlington, Ship Bottom, Barnegat and Manahawick departments responded.

The origin of the fire is a mystery. After a one-hour battle the fire was confined largely to the Bureau cottage and garage. The Parker and other properties were saved from destruction. The fire was fanned by a thirty-mile west wind and for a time threatened the destruction of the entire block.

At the height of the fire two firemen, George Sprague, of Beach Haven, and Charles Long, of Beach Arlington were injured. Sprague was severely shaken up, while Long suffered a sprained ankle.

That the fire was confined to the Bureau property was due to the fast work of the firemen. Several times fire broke out on the adjoining properties upon which several streams were thrown.

Beach Haven firemen were aided by five members of the Philadelphia Fire Department who were visiting at the resort.

The loss is covered by insurance. At one time the smoke was so dense it nearly covered the entire resort, which did much to hamper the firemen.

Mr. Bourne was the only member of the family at the cottage Sunday.

THE REV. ISAAC CADMAN

The Rev. Isaac Cadman, 65 years old, died at his late home, East Riverton, Sunday evening.

The deceased was a retired Methodist minister and has only resided in this section for the past few months.

He is survived by his widow and several children.

Funeral services will be conducted at his late home Thursday and interment will be made in the Locustwood Cemetery, Haddonfield, Pa.

A. Shover, Funeral Director in charge.

Special—45c for regular 25c talcum powder. L. L. Keating—Advertisement.

The New Victor Adding Machine has arrived—and it is a dandy. Just like the other machines only smaller. It sells for \$75.00.

One of the two machines we were able to secure is already out on trial.

When do you want yours? Phone Riverton 712 and it will be sent around.—Advertisement.

PRESBYTERIAN

Calvary Presbyterian Church extends a cordial invitation to all in the community who have no regular church home. Come and enjoy our Christian fellowship in worship next Sunday. The pastor will preach at the morning worship at eleven o'clock. Sunday School at ten o'clock. There will be no evening services during July and August.

SIXTY DAYS

Charles Ricketts, colored, of Poncauk, was arrested early Saturday morning by Officer Nelson Wallace on a charge of being drunk and disorderly.

This was Ricketts' second offense and he was tried before Justice of the Peace William Fichter Saturday morning and sentenced to sixty days in the county jail, Mount Holly.

MOTOR TRIP

Mr. and Mrs. Edwin Griseom and son, Lloyd, left Monday morning for a motor tour of the New England States.

In the course of their tour the party will journey from Stone King to Newburg, thence to the Catskill Mountains. Later they will go to Springfield and Boston and will return home over the Boston Post Road.

It is rumored that "Ed" will try some of those famous Boston Baked Beans and enjoy at least one meal of steamed clams along the shores of Maine.

WOMANLY CLASSES

Lesson for July 18, 1938. Wesleyan Bible Class. "God working with man—man working without God."

All men are welcome. Come at 10:00 o'clock. May be a hour of greatest interest to all men.

Rev. J. B. Whitton, Teacher.

LUTHERAN NEWS

The mid-summer Holy Communion will be celebrated next Sunday morning at eleven o'clock and in the evening at seven o'clock.

In the evening there will be a short sermon on the theme "Christ, Our Redeemer." Preparatory services will precede each communion service.

We invite to our communion table not only all our own members, but also those belonging to other Lutheran Churches elsewhere who are living in our midst as well as all Christians of other denominations who may be with us on that day.

Sunday School at 10 a. m. Holy Communion at 11 a. m. Holy Communion with sermon at 7 p. m. Prayer Meeting, Wednesday at 8 p. m.

The New Era Office will get your orders for any kind of advertising—news, general, real estate, etc. If you would like to see samples, phone 712.—Advertisement.

England already is making extensive preparations for observing the eclipse of the sun, which will be visible there June 30, 1937.

STRAIGHT TALKS WITH AUNT EMMY

ON HOUSEHOLD BUDGETS

"Aunt Emmy," asked Helen, "won't you explain what a household budget is? You said something the other day about budgets, but I don't seem clear in my mind about it."

"A budget is simply a plan," said Aunt Emmy. "You plan what you are going to do with your income. You give your income systematically so that you can meet your needs. You pay a part of your income for rent, other parts for food, clothing, book, book, recreation, savings and so on."

"How are you going to know how much you should spend for each thing—on rent for instance, Aunt?" asked Helen.

"Experts have studied the question carefully and have worked out budgets to suit every income. Of course, you can alter these typical budgets slightly to suit your particular needs."

For example, the average budget for a family of four from \$2,000 to \$3,000 a year divides your income into six parts. Ten per cent for savings, twenty per cent for rent, twenty per cent for food, twenty per cent for what is called betterment and includes education, amusement, entertainment, books, music, sports; fifteen per cent for clothes and fifteen per cent for operating expenses.

"No matter how you change the other items you must not change the savings allowance—except to increase it."

A great majority of men who reach sixty are dependent on relatives or charity. If they had saved only ten cents out of every dollar, they would not have been in that plight. There is nothing like money in the savings bank to help you through the emergencies that come in everybody's life. If everybody kept one year's income in the savings bank, much misery would be averted. If you always have enough money to see you through one year, you are pretty safe. Beyond that, it is wise to let your money accumulate until you have enough to buy some good securities. Your banker will advise you about the securities that suit your needs."

"But, Aunt Emmy, suppose you wanted to alter your budget?" inquired Helen. "How would you know how to do it? A young married couple might make a certain budget and then, when they had children to feed and educate, they might want to change it."

"Well, my dear, if they were in doubt about their financial affairs, they could always consult their banker. That is why it is so good to establish friendly relations with a bank when you start out in life. Any banker will be glad to advise young people about making their money go farther."

—A. B. Ayres.

WHAT THE FEDERAL RESERVE HAS DONE FOR BUSINESS

What the Federal Reserve System has done for business is summed up in these points: It has (1) given business greater confidence in the ability of the banks to care for credit needs; (2) introduced an elastic currency and eliminated money panics; (3) eliminated extreme seasonal fluctuations in rates of interest; (4) brought business safety through the war and post-war crisis; (5) saved millions of dollars to business through its efficient system for check collections; (6) made the gold reserve more effective as a basis for credit extension in times of extraordinary demand; (7) aided in the financing of foreign and domestic trade by developing a discount market for acceptances; (8) provided a means for handling huge financial operations of the government without interference with business; (9) aided in the re-establishment of the gold standard abroad; (10) given us an experienced banking organization which will assist us in meeting the future exigencies of business at home and abroad with courage and confidence.

BANKERS EDUCATIONAL FOUNDATION TRUSTEES

John H. Paeleher, former president of the American Bankers Association, has been named chairman of the board of trustees of the American Bankers Association Educational Foundation, for which \$500,000 has been pledged by the bankers to provide for scholarships and research in economics in colleges throughout the country. The other trustees are Leonard P. Ayers, Vice-President Cleveland Trust Company; Stephen I. Miller, Educational Director American Institute of Banking; Lewis H. Pierson, Chairman Irving Bank-Columbia Trust Company, New York; George M. Roberts, Vice-President National City Bank, New York; Francis H. Sisson, Vice-President Guaranty Trust Company, New York; Evans Woolfin, President Fletcher Savings & Trust Company, Indianapolis; W. Essey Albright, Deputy Manager American Bankers Association, Secretary.

The banks of Washington, Inc., have in giving the pupils of the public schools, simple and practical information in regard to banking practices as a matter of education. Talks were made during the year to grade and high school students by representatives of the banks.

TENNIS MEET

Field Club Stars Will Play Greenpoint at Local Courts Saturday

The Greenpoint tennis club, of Olney, will send a picked team to Palmyra Saturday afternoon to play a set of matches with the Field Club tennis team.

Six matches of singles and three of doubles will be played. All the Field Club stars are getting prime for the tournament and some interesting competition is expected.

Russell Davis arranged the meet and will have charge of all the details. The general public is invited to attend and witness the matches. Play will start at 2:30.

BALANCED EDUCATION

Eighty-two boys in the graduating class of the Jefferson High School in Portland, earned \$34,352.50 during their high school careers. The average for the class of 93 being \$422.50. One boy, Neil Boddy, earned \$2,250. The girls earned an average of \$11.95, with 48 girls collecting \$5,151.00; and Alma Larson earned \$1,000.

The nature of the job indicates that the present generation is not drifting too far into "white-collar" preference. Almost every industry, however hard or hand-some, was represented.

Education should make a man better qualified for citizenship, for enjoyment, for trust, because of his better balance and his wider vision; it should not take from him the basic principles of faithfulness to his job, whatever it is.

LET'S BEGIN TO BAKE OUR ROADS WIDER

More than 40,000 miles of highways will be paved this year, after which the mileage of hard-surfaced roads in the United States will be 100,000. This is twice the mileage of hard-surfaced roads of ten years ago, says the New York Commercial.

Standards of living cannot be raised nor industrial progress made in the mud. But we are rapidly approaching the time when the linear measurement of our roads will not be as important as width and load-carrying capacity. If every state in the Union was honeycombed with paved highways, it would be a number of years before we would actually feel the need for increased road width. But all states are not, nor is there any immediate prospect of their reaching that point. This results in forcing the constantly increasing motor traffic on to the existing stretches of pavement, with congestion, delay, accidents and rapid highway deterioration as a result.

Let's begin to make our roads wider and heavier.

"Cultivators of the earth are the most valuable citizens. They are the most vigorous, the most independent, the most virtuous, and they are tied to their country, and wedded to its liberty and interests, by the most lasting bonds."—Thomas Jefferson.

Modern Home Aided Byrd Pole Dash; Sugar Cane Fought Cold of North

The House in the Arctic.
Loading Ship for Trip.
Byrd in Airship and Doughnut Boat.

A MODERN home built in the Arctic defied the death-dealing cold of the polar regions and proved an invaluable aid to Lieutenant Commander Richard E. Byrd in his successful flight to the North Pole, which he circled three times in a record breaking flight of 1,500 miles in 18 hours and 30 minutes at an average speed of 98.75 miles an hour.

It was at the Spitzbergen base, King's Bay, where this first modern house was constructed amid the snow and ice of the Arctic immediately upon the arrival of Lieutenant Byrd and his companions, as a permanent home and observation station for the explorers. The house, which rose up on the horizon of the frigid north in marked contrast to the igloo of the eskimo, was equipped with a complete radio outfit that those who remained at the base while Lieutenant Byrd made his thrilling dash to the Pole in his speeding Fokker might keep in touch with their chief and the outside world, which they kept informed as to the progress and success of the flight.

It was to this same home that he returned after his hazardous trip and from which some of the first messages were sent to the waiting public, telling them through the lanes of the air that Byrd had circled the pole three times and had returned to his Spitzbergen home in safety, adding one of the most memorable pages to the history of Arctic exploration.

Sugar Cane Fights Polar North.

When Lieutenant Byrd left the Brooklyn Navy Yard on the ship Chantier he declared he had the best and most scientifically equipped expedition that ever had started for the North Pole. Special plans were made for the erection of his Arctic home. Boards of celotex insulating lumber made from bagasse (sugar cane fiber after all sugar juices have been extracted) were carried along with the latest inventions to aid in polar exploration. This building material is very light and is filled with millions of air cells, which give it great insulating value and resistance to change in temperature, especially the severe cold. One odd circumstance in connection with the use of this material is that the sugar cane of the south was utilized to fight the cold of the north.

Celotex was selected instead of lumber because tests made by the United States Bureau of Standards and its universal use in building construction all over the world, had demonstrated that this insulating lumber would keep the quarters of the explorers warmer and protect their living conditions more securely than ordinary building material.

It was only after careful investigation by the scientific men in the expedition that celotex was selected. These authorities pointed out that the protection afforded by its insulation efficiency was three times as great as that of brick and other masonry material. The ship Chantier also was lined with celotex as an added precaution to keep the ship warm while the explorers used it in the preliminary stages of the expedition.

In practically every other way this expedition was more scientifically prepared than any of its predecessors. These included inventions of Commander Byrd himself. A simple sun compass conceived by Byrd and developed by Mr. Burnstead of the National Geographic Society, superseded the complicated German device, developed three years ago for Amundsen. The drift indicator also was Byrd's invention. The bubble sextant by which the navigator obtains his bearings while in flight was another one of his inventions. Still another scientific development was a quick method of telling when one is at the North Pole. This has been worked out by G. W. Littlehales, the navy's hydrographic engineer.

Device Locates the Pole.

Byrd and others contributed to a chart of the magnetic lines flowing toward the magnetic North Pole, which is in Bothnia Land, 1,200 miles south of the Pole. Between Bothnia Land and the Pole the compass points south instead of north and over much of the Arctic it is badly disturbed by the discrepancy of position between the geographical North Pole and the magnetic North Pole.

This chart of the magnetic lines, flowing to the magnetic North Pole, although it was far from complete, was such as to enable the navigator to tell in what direction the compass should point from any spot in the Arctic. With this knowledge, the erratic behavior of the compass becomes orderly and it is once again a useful instrument.

A third type of compass used was a device of infinite sensitivity—a revolving electrical coil, which is adjusted to a given relation with the magnetism of the earth. This, the sun compass, and the magnetic compass were each used to correct the other.

Lieutenant Byrd in his flight used a quick method of telling when he was actually at the Pole. This was the invention worked out by Mr. Littlehales, the U. S. Navy hydrographic engineer. It shows the sun's position from the North Pole at every hour of the day and every day of the year. When the flyer is near the Pole he can, by ascertaining the exact position of the sun, prove that he is near the Pole.

Flies 3,000 Miles Over Arctic.

The expedition, backed by such men as John D. Rockefeller, Jr., and Theodore Roosevelt, Jr., had three main objects:

- 1.—To prove that air navigation in the Arctic is feasible and that freight and messenger travel over the top of the world is certain to come.
- 2.—To hunt for new land in the unexplored areas of the Arctic.
- 3.—To conquer the North Pole from the air as a sporting adventure and as a demonstration of what a plane can do—not a geographical study, as the Pole was bagged for all time by Admiral Peary.

Probably no one knows more about Arctic flying than Commander Byrd. From the Greenland base of the MacMillan expedition at Etah last year he flew 3,000 miles over the Arctic, studying the behavior of oil, motors, compasses, and other navigation instruments at great altitudes over the Polar sea.

With him this time Commander Byrd took a noted fuel expert, who is flying Commander G. O. Noble, as it requires great skill and pains to prevent the freezing of lubricating oil and stiffened action of the motors, if forced to work on the plane in the open at great altitudes with the thermometer at 60 to 70 below zero. The points which favored the month of May were that the Arctic fog had not begun to rise and heavy snows still covered the land and afforded many good landing places.

A factor of safety pointed out by Commander Byrd in connection with the use of the Fokker machine is that it carries a reserve engine. It has three engines. With a light load one is expected to be sufficient to maintain the plane in flight. With a normal load, two engines will do the work. If two engines break down at one time, when the plane is not too heavily loaded, it may fly with the use of one engine. The Fokker machine has a wing-spread of slightly more than 64 feet. It is said to be a marvel of airship construction.

The other airplane—the Curtis Oriole—was to have been used chiefly in finding landing fields so that if the flyers found their main landing place covered with a fog they might go elsewhere.

The Chantier was equipped with a powerful radio transmitter to send back the news of the expedition. The Fokker also is equipped with a receiving and transmitting set. Commander Byrd not only kept the world informed of the progress of the expedition, but received through the Chantier weather warnings to guide him in his flight.

How Expedition Was Equipped.

Forty-five hundred pounds of whole beef were included in the rations of the Byrd crew of forty-seven flyers, seamen and technicians. Also four hundred pounds of pemmican (meat fats and raisins), huge quantities of bacon, dried milk, erswurst (pea soup) and other supplies in proportion were carried along. Cod liver oil was included for its healthful properties. Herbert Griggs, who had charge of provisioning Peary's expedition in his famous dash to the Pole, worked out the rations for the Byrd explorers. Two pounds per man per day was the allowance to take care of all emergencies.

No amount of clothing is really sufficient when flying 1,000 or more feet in the air in the Polar regions, but every possible precaution was taken by Commander Byrd against exposure. The men were equipped with the warmest and lightest of reindeer suits and with fur parkas, a garment that reaches to the knees and has a hood covering the head. Plenty of goggles were found to be an absolute necessity to protect them against the glare of the snow.

In spite of all the precautions the undertaking was full of unseen danger. None of this equipment would be of the slightest avail against some unexpected and unprecedented situation which might arise. There is always the danger of snowblindness, exhaustion, freezing, some mishap to the engine. Lieutenant Byrd and his companions, however, were particularly fortunate in escaping with practically no ill effects except the exhaustion due to such a perilous trip.

Pick Up Ice Piles.

The ship Chantier's first stop was at Tromsø, Norway, where an ice shipper was taken on to pilot the Chantier and its crew through the ice-filled waters around Spitzbergen to King's Bay, where preparations for the first flight to the Pole were made. The planes, the instruments and the various oil mixtures used in connection with the flights were carefully examined and tested. Lieutenant Byrd's original plans called for six flights as follows:

- 1.—A 400-mile flight from Spitzbergen to Peary Land to unload oil, provisions and equipment at a place that looks promising for a landing.
- 2.—A 400-mile flight back to Spitzbergen.
- 3.—A second 400-mile flight from Spitzbergen to Peary Land base with further food, fuel and equipment.
- 4.—An 850-mile flight to and around the Pole and back to the Peary base.
- 5.—An 800-mile round trip flight to the northwest over unexplored areas in search of new lands.
- 6.—A 400-mile flight from the Peary Land base back to Spitzbergen.

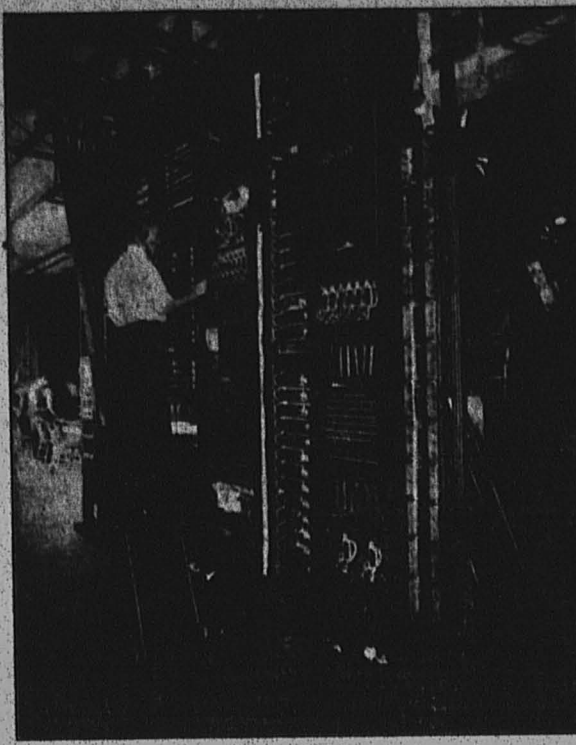

It was his plan in his second flight to attempt to discover new land, but when he received the report of the flight of Amundsen in his dirigible, in which it was stated that the Norge had failed to find any trace of new land, Lieutenant Byrd decided to abandon further flights and the trip over land on sleds he had planned in his search for new land in unexplored areas. Now he has decided to try to accomplish his dash at the South Pole what he did at the North. As he left the Spitzbergen base he stated that he would have just as well air equipped expedition for his southern flight as he had in his recent adventure in the North.

who claimed that the City of Beverly could only use the fire hydrants in case of fire, and if either company wanted to test their apparatus, or hose, they must get special permission from the Water company, and they would render an additional charge.

The report in part of the Commissioners submitted by Philander Betts, chief inspector of the Bureau of Utilities, states:

"Of course the primary use of the fire hydrants is for the extinguishment of fire and the use of water for this purpose is what is meant when 'fire purpose' is referred to. However, the fire department may also use water from the hydrants for the cleaning of the

Testing Telephone Lines

Telephone lines are constantly being tested by skilled workmen of The Bell Telephone Company of Pennsylvania in order to insure satisfactory operation. In most cases where "trouble" develops on telephone lines, it is discovered and repaired before it comes to the attention of telephone subscribers.

WIN SCHOLARSHIPS

Sixty State Awards Made by Rutgers University

Announcement was made this week of the award of sixty State Scholarships to Rutgers University as the result of competitive examinations on June 3 and 4. Two hundred and fifty-four candidates from all sections of the State took the examinations.

Essex county led in number of winners with twenty-seven, with Middlesex second with seven. Atlantic county qualified four men. Bergen four, Burlington one, Camden one, Hudson four, Mercer three, Monmouth one, Passaic three, Somerset one, and Union four. The Burlington county winner was Arthur A. Holzhaur, of Burlington High School.

HINTS FOR HOT HOGS

A hog will find shade in hot weather if he can, but if the shade place he finds is also hot he does not seem to realize it, and will stay there and die from overheating. For this reason it is best to close any buildings that are not cool, forcing the hogs to get shade elsewhere.

The natural shade from trees is preferable to any other. If trees are not available, a good artificial shade should be made by setting

posts and building a cheap framework about 4 feet from the ground, covering it with brush, hay, or straw. A shade of this kind is better than one made of boards or sheet iron. It dust accumulates the covering should be made wet by watering with a hose or bucket. This will serve the double purpose of cooling the air and settling the dust.

CARS IN CRASH

The cars driven by Charles Franzel, of Perry, and Nathan Comley, of Philadelphia, crashed into the Pensacola Bridge, West Palmyra, Sunday evening.

Franzel cut out of the line of traffic to drive around a truck and at the same time Comley, coming in the opposite direction, pulled out to go by.

He saw Franzel coming and to avoid a crash drove straight into one of the bridge fences, damaging his car.

Franzel stopped suddenly, causing another car to crash into his car.

In view of the circumstances, after Chief of Police C. Morris Beck was summoned, the men decided to bear their own expenses.

The two largest hoists in the world are now in use in Canada. They can raise 500 tons of ore an hour from a depth of 3,200 feet.

My Paradise

Down on the Jersey Coast—that's where I want to be. Down where the beach is smoothest, down where the breezes always blow, down where the gamefish bite, and the dories crawl across the bay.

There's no other spot like the one I'm thinking of. It's just a step from Beach Haven, where thousands of people spend their carefree summer. And Brant Beach is its name. Wonderfully beautiful bungalows are being built here. There's electricity and running water and all the things that make life easy.

I don't need to be a Banker to build a bungalow here. I only paid \$35 down per lot and only \$15.00 per month for the balance. And I'm making money, too, for others are buying also and values are rising with every tide. My friends are coming down on my advice, and if you love the seashore, you'll come too.

Brant Beach

Near BEACH HAVEN

\$55 down per lot secures a site within 225 feet of the Ocean Front with 2 1/2 Years to Pay the Balance.

PACKAGES ORDERED EARLY SAVE WORRY

A good supply of packages in the shed is what saves the fruit grower from the merciless traveling buyer and trucker. With barrels or baskets on hand the grower is always prepared to pack, ship or store his crop if the local markets are not satisfactory.

Many growers put off buying packages until just before the crop is ready to pick. This generally results in delay in harvesting the fruit and sometimes a loss in re-handling the crop. The crop should be carefully estimated and extra containers ordered, as most crops over-run expectations and packages can always be held for another year if there is a surplus.

Growers having a local trade find the basket an excellent container, although a supply of large heavy Manila bags holding from one to two pecks are very handy, and relatively inexpensive. The bushel hamper and round bushel are very satisfactory shipping baskets, but should be ring-packed and carefully handled to get the best results.

The barrel is the standard package for the average grower. It is easy to handle, relatively easy to pack and handles a large bulk with small trouble.

A good product deserves a good container. Cheap or second-hand packages should be avoided, whenever possible, except for temporary storage or hauling. Barrels and baskets should be made of good clean stock, free from knots and discolorations. On the other a good package deserves a good pack, and too much attention cannot be given to the grading, sizing and packing.

SOUND DEFLECTORS

Maple Shade to Remedy Defect in New Siren

After several tests Monday evening, the Maple Shade Fire Company has decided to put sound deflectors on its new electric siren alarm. Although its shrieks were distinctly heard in Lenola, Haddonfield and Cinnaminson, the sounds seemed somewhat muffled in the immediate community, where it is most urgent that it be heard.

The siren is the prize which the Maple Shade department won for

PRICE FIVE CENTS

HARVEY ON MOUND FOR RIVERTON WINS GAME

Brilliant Fielding by Luciano,
King and Rogers Con-
tribute to Victory

GILLEY STARS FOR VISITORS WITH 3 HITS

Bill Harvey, of Gloucester City, in his first time on the mound for Riverton covered himself with glory last Saturday by pitching Riverton to its fourth consecutive victory, the losers being the strong Manayunk A. C. combination. Harvey had not seen action with the local team except once as a ninth inning pinch hitter but Bill worked hard and followed catcher Mendenhall's instructions both in letter and spirit.

Only six batters faced Harvey in the first two innings, while his teammates manufactured a run. Hyton, took some nice "cuts" at the "hill" and after half a dozen foul balls, knocked out a two-bagger, King, next up, hit to field at short. Red threw King out at first. Dunnay going to third. Zisk missed Pines' throw to third and Dunnay scored.

In the fourth the visitors came back and took the lead by 2 to 1. Gilley was sent out to pitch. Boyce unceremoniously blasted triple scoring Gilley. Shingle lined to Luciano. Farrell hit a long foul fly to Sammy Rogers which sacrificed Boyce home. Alberts walked and Minick fled to Joe Luciano.

Locals Get Lead
Riverton jumped into a 3 to 2 lead in the sixth. Harvey was hit by a pitched ball. Gaffney popped up to Boyce. Luciano's long single went King to third. McDonald playing in right field for Bennett, singled sending Joe to third. McDonald played between first and second to throw from the pitcher which was a little wild allowing Luciano to go home with the winning run and McDonald still safe on second. That is what Manager Welch called "using your head." McDonald batted third in the third year of St. Joseph's College.

King and Luciano were the leading clubbers for Riverton with two singles apiece. Joe had six put-outs, four unassisted, and four assists in the field.
Gilley starred at the bat for Manayunk with three hits.
Now that Harvey had had a chance to "strut his stuff" and has done it satisfactorily the "pet manager" says there will be more assignments coming his way. Bill was the starting point of the only double play of the game. In the ninth Harvey pitched to King. Welch batting for Alberts, singled. A. Alberts batting for Minick smashed one to Harvey who threw to Joe at second and he in turn to Truman for the last out of the game. Some finish, eh? The other eight members of the team gave Bill fine support especially Rogers and King who made beautiful catches in the outfield.

Give 'em Support
Here is a chance for the people of Riverton to show their spirit by attending the games and supporting the team financially, but more than that with their spirit. Come out and root for Bill and Doe and all the others. Each week the attendance is larger, and more appreciative of team work.
The management is hoping to be able to present the Ocean City team, under Eddie Williams' direction, sometime in the near future. Look for the date in the paper or on the posters.
This week's attraction will be the strong Pendale A. C. of Camden.

AMBULANCE
Fifty-eight dollars has been received by Mrs. John Hoepfner, treasurer of the Palmyra Ambulance Association, as a donation towards the upkeep of the ambulance.
The money was the proceeds from the curb market conducted by the Riverton Porch Club, Civic Department.

In the letter it was stated that this market was now for the sole purpose of raising a fund to donate to the worthy cause of the Ambulance Association.

JOE IS 74

Councilman Davis Celebrates His Anniversary

Councilman Joseph A. Davis celebrated his 74th birthday Wednesday by a trip to his birthplace.

Coming to Palmyra in 1876, fifty years ago, he has lived here ever since. He was ordered to this section by his physician in search of health.

He was born in Honeybrook, Chester County, Pa., and each year a party composed of Mr. and Mrs. Joseph A. Davis and Mr. and Mrs. Louis A. Weikman motor to Mr. Davis' birthplace.

Rotary Discusses Members' Problem

Committees Have Charge of
Different Subjects and
Conduct Meetings

On July 8 the Palmyra-Riverton Rotary Club began its summer program of meetings in charge of club committees for the consideration of their duties and possible application to our own conditions. The Business Methods committee opened the series. Chairman Paul Burr of this committee being ill, Ellwood Thum took up the discussion and after going over some phases of responsibility of employer to employee and their proper relations, he outlined some of his personal problems and conclusions.

It was felt that in lines where periods of high production and slack times were fairly regular, that a sincere attempt ought to be made by the employer to keep his help occupied through down periods. Constant employment tends to strengthen the loyalty of an organization and improve the quality of the product, and in rush periods makes for greater efficiency. At its July 15 meeting the club welcomed three new members, May or James T. Weart, L. G. Rogers and Edward A. Richmond. C. Ridgely Sweeney and Herbert A. Waburn were the club's guests at this meeting.

Paul Burr was reported much improved and many members expressed the hope that he would be able to meet with us soon.
Ross Mattis and his Community Service committee were authorized to work with the Palmyra Old Home Day committee.
John S. Warner and J. Horace Finley conducted the meeting for the consideration of classification and membership. After answering many pertinent questions on these points there was general discussion on the desirable size and growth of the club. It was felt that to best serve the communities represented in the membership, a slow, natural growth would be better than a mushroom expansion.

Lions Elect Two New Members

Interesting Meeting of Palmyra
Service Club is Held in
Lutheran Church

Two new members were received at the regular business meeting of the Palmyra Lions Club held in the basement of the Lutheran Church Tuesday afternoon at 12:15. The new members who were Frank Chambers, Publisher and Benjamin Reilly, Electrician, bring the roster of members up to fourteen.

It is expected that before the month is out the full quota of 25 will be obtained.
A delegation of Palmyra Lions attended the meeting of the Camden Lions at the Hotel Wark Whitman, Camden, Wednesday afternoon and had the opportunity of hearing talks by various Camden Lions who have just returned from trips abroad. They used lantern slides during their talks.

A communication was received announcing that once more the local Lions would be honored by a visitation from the Camden Lodge at the next meeting.
Albert Mundorf, Field Director of Lions International, expressed satisfaction at the excellent program being made by the local club and he was exceedingly pleased by the attitude of the new members.

Mr. W. W. Blaser and C. A. Buchi were appointed a committee representing the Lions to assist the general committee of the Old Home Day Celebration.

MILK BOTTLES

Police To Enforce Law Against
Broken Glass on Highways

Because several complaints have been received by the Palmyra police a drive has been started against the careless persons who are dropping milk bottles on the highways near Palmyra.

A state law provides a fine of \$100 with a possible jail term to offenders and it is hoped by the police that they will not have to have this punishment inflicted.

Coming Events

July 24—Moravian Sunday School Picnic at Cedar Lake.
July 24—Methodist Sunday School Picnic at Taunton Lake.
July 25—Community Service, West-side Meeting Grounds, 7 to 7:30
July 25—Moravian Christmas Bazaar Picnic, to Riverview Beach.
July 25—Willing Workers Picnic, at Kintzville Park.

LEG SCALDED

Palmyra Man Injured at Burlington
Pipe Foundry

Francis McGill, of West Palmyra, was severely injured Monday afternoon while at work.

McGill, who is employed by the United States Cast Iron Pipe and Foundry Company, Burlington, was working on a stand over a steam vat and his attention was attracted to something else.

He permitted his leg to become exposed and he was scalded about the right leg.

Physicians expressed a belief that he would be on crutches for six weeks at least.

PROFESSOR HERE

Dr. M. C. Lamb, of London, Guest of Mr. and Mrs. Rennie

Dr. M. C. Lamb, of London, England, is spending several weeks with Mr. and Mrs. John B. G. Rennie, of Riverton.

Dr. Lamb was Mr. Rennie's professor at Herold Institute and is making his headquarters with his former student while he is in the United States making a survey of the leather industry.

Dr. Lamb is a noted authority on leather and it is thought that after his survey here he will produce a treatise on the American methods in the industry.

F. C. Divides With Ocean Gate

Losses Saturday's Game at
Home But Wins Sunday on
Opponents' Grounds

Sunday the Palmyra Field Club nine gave the fans a real treat when they fought their way to victory through a gruelling fourteen inning game played at Ocean Gate.

Palmyra scored in the second, fourth and fifth innings and looked like the logical winners until errors once more gave Ocean Gate the opportunity of tying the score.

The outsiders scored one in the eighth and two in the ninth and with the one they registered in the fourth led the game.

For five innings a pitchers' duel was fought and it seemed as though a new record would be established for a long inning game.

In the sixth inning, Gorman made first on a single. Gorman went to first after being hit by a pitched ball and was followed by Griffenberg who was also hit by the pitcher.

The bases were full and the crowds were cheering when Welch came to bat. Slugging up the situation, he batted, making a sacrifice to score Winger. Winger crossed the home plate.

Harder was the next man at bat. He singled and sent Gorman across the home plate, giving Palmyra one of the cleanest victories of the season.

This Saturday the boys will play Belvidere at Palmyra.

Lose Saturday Game					

In an interesting game played at Palmyra Saturday afternoon, the Ocean Gate baseball team emerged victorious by a score of 4-2.

Krause opened the scoring of the game in the first inning and the game was played very evenly until the seventh inning, Palmyra holding Ocean Gate scoreless up to that time.

In the seventh Ocean Gate scored two runs taking the lead and when the ninth session opened Palmyra scored another making the score 2-2.

Weikman and Andrews Ocean Gate came to bat and succeeded in scoring two more runs giving them a two run lead.

The playing of Weikman and Andrews of Palmyra and Hunt and Tucker of Ocean Gate were the features of the game, while the two base hits of Banes and Harder drew cheers from the ardent supporters of both teams.

Palmyra's defeat was attributed not to the inferiority of playing, but to the errors in the seventh inning, coupled with the timely hits, gave the visitors the necessary lead.

WELLS—HORN
Miss Emily J. Horn, daughter of Mr. and Mrs. Walter M. Horn, of Palmyra, and Mr. Joseph W. Wells, son of Mrs. Frank Wells, of Palmyra, announced their wedding at an informal dinner held at the home of the bride's parents Sunday afternoon.

Miss Horn and Mr. Wells were married January 17th, 1926 and kept the news a secret until Sunday.

Plans had been made for a church wedding but the couple decided to elope and keep it a secret.

They are at home to their friends at the home of the bridegroom, 224 Delaware Avenue.

Scientist has invented an earthquake measuring device that goes off an alarm clock. There is a much more correct kind of an alarm clock that goes off an alarm clock. —Armed Forces.

WIDER BROAD STREET SOON

Palmyra Borough Council Pre-
pares To Improve Main
Business Thoroughfare

PROPERTY OWNERS WILL GIVE NEEDED LAND

Steps toward the immediate widening of Broad street between Garfield and Cinnaminson avenues were taken at the meeting of Palmyra Borough Council Tuesday evening.

The plans of the improvement were presented by Engineer Vowbury and the total cost was estimated at \$2265.50, a figure which was considered by Council as quite low and reasonable.

The proposition is to cut away the eastern half of the block, extending from Maurice Schwartz's store to the Garfield avenue corner, making the curb line of the whole square even with that now in front of McAllister's.

This would make the street twenty feet wider from the end of the station platform to Garfield and would do much to facilitate traffic and also provide parking opportunities in the main Palmyra business section.

To accomplish the improvement, the property owner affected, who are Maurice Schwartz, George N. Wimer, Morris Lipkowitz and David Schwartz have agreed to deed the necessary frontage to the borough.

The hope was expressed by Council that when the necessary work is completed, all the property holders from Garfield avenue to Elm avenue would see the advantage not only to the general public but to the individual owners as well and that all would join in deeding the necessary frontage to the borough.

The matter was referred to the roads and streets committee for a report next Tuesday evening.

More Ground Offered
A letter was received from the J. L. Lippincott Company objecting to paying taxes on a strip of land lying between the highway and Broad street and the railroad from Highland avenue to Elm and offering to donate this strip to the borough for a park.

This matter also was referred to the roads and streets committee to bring between the highway and Broad street in the future when it becomes necessary to widen the street there.

More Bus Lines
An application was received from Harry McCloskey, of Dover, for permission to run a bus line through Palmyra from Burlington to Philadelphia via the Camden bridge.

Another application for a line running from Jersey City to Camden was made by the Nevins' Bus Company. Both lines would stop at the railroad station at Camden.

Several petitions for sidewalks and curbs were received and a general ordinance for the building of sidewalks and curbs and also for the replacement and repair of such work on various streets was passed.

This matter and several others of importance will be considered again at a special meeting next Tuesday evening.

Old Home Day
Plans Advancing

Committees Busily at Work in
Preparing For Palmyra's
Big Celebration

Plans are rapidly shaping for the celebration of "Old Home Day" Saturday, September 25th.

The affair will be the largest in the history of the town, and along the riverfront and accommodations are being prepared for a crowd of fifteen thousand.

A request has been sent out by the general committee to the residents to compile a list of former residents and send the names to the general committee that these former residents may be invited to participate in the celebration.

At the last "Old Home Day" former residents came from nearly every state in the Union.

A committee has been selected from the merchants to work in conjunction with the executive committee and they will solicit donations from the townspeople and as well as those who have not lived in Palmyra to donate as much as possible.

Reunion exercises will be held in all churches on Sunday, September 26th, that all of the former residents may have the opportunity of visiting their former places of worship.

A statement from George N. Wimer, chairman of the executive committee, says: "We hope that every home will have its own reunion and that we may be able to show our visitors a real celebration staged by a real town."

MUELLER—BUCHANAN
Miss Thelma Austin Buchanan, daughter of Mr. and Mrs. B. Buchanan, of Palmyra, and Louis Jacob Mueller, son of Mr. and Mrs. John Mueller, of Riverton, were married at Delanco, Wednesday evening.

The Rev. William Ehrhardt, pastor of the Palmyra Lutheran Church officiated.

The bride wore a stunning dress of orchid crepe and carried a bouquet of pink roses. She was attended by Miss Alma Ford, of Germantown, who wore a pretty dress of pink organdy and carried a bouquet of pink roses.

The best man was Edward Allen, of Riverton.

Mr. Miller is a well known baseball player and attended Pottsville Institute and Drexel College.

Following a short honeymoon the happy couple will be at home to their friends at their apartment, Burlington avenue, Delanco.

Under average conditions it cannot be expected that cats should be counted upon as a profitable crop in this section. However, in certain areas, a hot, dry season the crop would show a decidedly different result.

Not for many years has a crop of cats been as good as this year, but the farmers should not over-estimate the possibilities of growing cats as a result of the development that cats made this year.

The cool, wet weather this crop has had during the growing season has been particularly favorable for it. On the other hand, if we were to experience a hot, dry season the crop would show a decidedly different result.

DRIVE CONTINUED

Weather Interfered Last Week, But
Big Success Expected

The drive for funds for the erection of a parochial school by the parish of the Sacred Heart Church, Riverton, undertaken by a large committee of members last week, was somewhat interfered with by the inclemency of the weather, and the drive is being continued this week.

The movement to raise funds for a parochial school was started six years ago and has been constantly carried on every year. From present indications this year's canvass will be as successful as it has been in previous years, and the committee hopes to be able to start building operations by mid-summer next year and have the building completed before the end of 1927.

There has been a growing conviction on the part of members of this parish that they should have a school of their own, and when they viewed the successful operation of denominational schools in surrounding towns, many of them no larger than the Riverton parish, they were encouraged to make an effort in this direction which is now about to be crowned with success.

As the evening progressed the party drove to Cedar Lakes and held a marshmallow toast.

The committee in charge was Miss Katherine Green, Miss Hilda Lippincott, Gray Schwartz and Cliff Taylor.

20 Feet Wider
This would make the street twenty feet wider from the end of the station platform to Garfield and would do much to facilitate traffic and also provide parking opportunities in the main Palmyra business section.

To accomplish the improvement, the property owner affected, who are Maurice Schwartz, George N. Wimer, Morris Lipkowitz and David Schwartz have agreed to deed the necessary frontage to the borough.

The hope was expressed by Council that when the necessary work is completed, all the property holders from Garfield avenue to Elm avenue would see the advantage not only to the general public but to the individual owners as well and that all would join in deeding the necessary frontage to the borough.

The matter was referred to the roads and streets committee for a report next Tuesday evening.

More Ground Offered

TROLLEY COMPANY WANTS FREEHOLDERS TO TAKE TRACKS

Abandoned Tracks Between
Burlington and Moores-
town Create Problem

COUNTY AND TOWNSHIP
FIGHT SHY OF UPKEEP

The Burlington County Board of Freeholders met on Friday of last week and again on Monday of this week to discuss the matter of resuming the Washington Street bridge in Mount Holly.

At the Friday meeting it was decided to post the bridge as unsafe for heavy trucks, and the township employed special officers to keep heavy traffic off the condemned structure.

It was the township's idea that the county would pay half the cost of special officers but this the board declined to do and it was finally decided that the best course would be to close the bridge entirely which was done by mandate of the Board of Freeholders on Monday.

This bridge will be entirely reconstructed and bids for the work will be received on July 30.

Another subject that came before the board on Monday was the matter of the tracks of the Burlington County Traction Company which has discontinued its trolley service and substituted buses.

Horace Roberts and Aaron Collins appeared before the board representing the Traction Company and submitted a proposition that the company relinquish its franchise, the right of way reverting to the township. The township, however, did not want to assume the responsibility for maintaining this strip down the middle of the street, and appealed to the county to take it over and assume its maintenance.

No decision was reached at the Monday meeting and the whole subject was held over until the Friday meeting on July 22. In the meantime a conference will be held between Roberts and Collins, representing the Traction Company, and Herbert Kille and Edward Watson, representing Northampton Township, and County Solicitor Harold B. Wells.

Improved Uniform International Sunday School Lesson

Lesson for July 25

THE PASSOVER

LESSON TEXT—Exodus 12:1-10.
GOLDEN TEXT—Christ, our Passover, is sacrificed for us.
PRIMARY TOPIC—The story of a Feast.
JUNIOR TOPIC—The First Passover Feast.
INTERMEDIATE AND SENIOR TOPIC—A Memorial Feast.
YOUNG PEOPLE AND ADULT TOPIC—The Meaning of the Passover.

1. The Passover instituted (vv. 1-5).
1. The date (v. 2).
With the institution of the passover came a change in the order of time. The common year was rolling on as usual, but with reference to God's chosen people the order was interrupted and everything was made to date from this event.

2. The lamb set apart (vv. 6-8).
This lamb must be a male without blemish, indicating that it must be both representative and perfect.

3. The lamb killed by the whole congregation (v. 9).
This shows that it was not for the individual only, but for the entire assembly. The setting apart of the lamb was not sufficient. It must be killed, for "without the shedding of blood there is no remission of sins."

4. The blood of the slain lamb was to be placed upon the side posts and lintels of the door (v. 7). When the destroying angel passed through the land he passed over the houses where the door posts were sprinkled with blood (v. 28). This blood was the evidence that a substitute had been offered for them.

5. Israel feeding upon the lamb (vv. 8-10).
This denotes fellowship. The lamb roasted signified the action of fire in God's judgment at the cross. The head, the legs and purtenance thereof show that in the substitutionary sacrifice the understanding, the will and all that pertains thereto were involved. This shows that the atonement of Jesus Christ involved His obedience to law as well as His suffering in the stead of His own. The eating of unleavened bread signifies that no sin is connected with or allowed in fellowship with Christ. Leaven signifies corruption (1 Cor. 5:6-8). The Israelites did not put away leaven to be saved from the destroying angel, but being saved because under the shadow of the blood they put away leaven, that is, evil, in order to have fellowship with their Redeemer. The bitter herbs connected with this feast suggest the bitterness of Christ's suffering.

6. They ate the passover ready for action (v. 11).
Their loins were girded, their shoes were on their feet, and a staff in hand. The girding of the loins betokened separation from sin, and preparation and readiness for service. The feet being shod indicated their willingness and readiness to march out of Egypt. The staff in hand indicated their nature as plucking leaven upon a support outside of themselves. They were to leave behind them the place of death and darkness and march to the promised land.

7. The uncircumcised denied participation in the feast (vv. 43-45). Circumcision was typical of regeneration. The significance of the requirement is that only those who have become new creatures by the power of the Cross have a right to sit at the passover feast.

8. The Significance of the Passover (vv. 24-28).
It was a memorial institution, calling to mind the deliverance of the Israelites from Egyptian bondage. This was to be taught to their children from generation to generation when they came into the land.

9. The Awful Judgment (vv. 29-30).
At midnight the Lord smote all the first-born in the land from the first-born of Pharaoh that sat on his throne unto the first-born of the captive that was in bondage, and all the first-born of cattle. There was death that night in every home throughout Egypt where the blood was not found. A great and awful cry went up from the Egyptians for there was not a house where there was not one dead.

10. The Great Deliverance (vv. 31-33).
No mighty was this stroke that Pharaoh called for Moses in the night and requested him to be gone with his flocks and herds. The Israelites hastily made ready for their journey. They demanded of the Egyptians jewels of silver and gold and raiment. The word "borrow" in verse 32 means "demand" instead of the sense in which we use it today.

11. Our Christian Calling
To carry out our good and solemn thoughts and feelings into daily life—this is the great difficulty of our Christian calling.

12. He Offers Us Strength
Whatever the work to which our Master calls us, He offers us a strength in keeping with our needs.

13. Be Faithful
Not by sight, but by faith. Endure, endure—be faithful to the end!

14. ANSWER
Miss May Ward entertained Miss Tabitha Hunter, of Camden, on Monday.

The Advisory M. E. Sunday School picnic is expected to be held on Saturday, July 31st, at Woodlawn Park, Trenton.

Mr. and Mrs. Thornton B. Southwick, Misses Ada and Helen Southwick, of Ashbury, and Herman Mason, of Riverton, called on Sunday to visit Mrs. Mary I. Foster, Mrs. Southwick and Helen stayed until Tuesday.

Sense and Folly Seen in "Reducing"

Too Many Falsome Curves Not Indicative of Health, Says Mrs. Griebel

By Mrs. Catherine Griebel
State College Clothing Extension Specialist

At a recent gathering of club women, someone suggested that "indiscriminate weight reduction was harmful" and the whole crowd went on record as agreeing with this statement. Well, I agree with it too—probably most people do—but reducing according to common sense is another matter and deserves some consideration.

To live on orange juice and spinach for weeks at a time does not sound like common sense to me; on the other hand it seems just as senseless to stuff one's self with French pastries, ice cream, chocolate, mashed potatoes, and a lot of other things.

For fifty-odd to try to look like fifteen is "going some" as the boys say, and even taking off pounds will not accomplish it. But for fifty-odd to refrain from over-eating in commendable, I'd say, and I am sure any doctor or life insurance man would agree with me. A famous artist was quoted in a daily paper of this week as saying that curves were more beautiful than bones. He did go on to say, though, that there are curves and curves with satisfaction and took spelled with capital letters that result from over-indulgence in rolls and potatoes.

What I am trying to say is this: that there is moderation in all things and that while "indiscriminate weight reduction" is all wrong, so "indiscriminate indulgence" is all wrong too. And if some of the plump ladies who smoothed their CURVES with satisfaction and took to second helping of mashed potatoes and gravy when the waiter went forth that dieting was taboo, would just think a little, it might be a good idea.

Who wants to puff and perspire in hot weather or heave when the stairs to climb? A too curvy woman is not one of health, and as the years go by it becomes harder and harder to say "no" to sweets and starches, with the result that more and more pounds are acquired.

Again I call your attention to the fact that moderation is a good word to have in the vocabulary of health. Don't starve yourself—please don't—but don't stuff yourself either. Practice a little self-control and swear off on pork and potatoes.

Just think how much easier it will be when you go out to buy yourself a dress or a coat!

A woman asked me not long ago what she should do about her permanent pattern—said she had put on forty pounds since she made it. I suggested that what she was quite easy to make another pattern by her new measurements. It might be better if she took a little thought of what she ate and got back her figure of three years ago. She smiled but I am practically sure she is thinking the new pattern—I could see it in her eyes. She was one of the ladies who had just "listened in" on the weight reduction discussion and she was quite convinced that every woman who tries it "will die of starvation or heart disease." If you are doubtful, why not ask your doctor?

I know a woman who did this and who was told that unless she mended her ways and took off fifty pounds she would be dead in a year. She took off the pounds and, after four years, she says she cannot understand why she let it go so long. We need a lot sometimes to bring us to our senses.

CLULLED POULTRY
MEANS SUCCESS

Exceptionally successful poultrymen who do not cull their flocks periodically are in the minority in New Jersey, according to the state poultry specialist. The practice is becoming universally recognized as essential for greatest profits.

Several advantages of culling, or slacker elimination, are mentioned by the specialist and first among them is simplicity and ease. Not a cent of outlay is necessary and the benefits are almost immediately realized. Some hens are poor layers but great feeders. To wait for them to lay is to wait for something that will amount to little even if it does finally occur, for these birds soon quit.

Various characteristics distinguishing the slacker from the layer are used by poultrymen in clearing

from their flocks all of the blemishes. Appearance of the tail feathers, color of the comb and wattles, and shape of the body both to visual and manual examination, are among the signs read by poultrymen. Now, culling in the business are applied, as requested, with helpful bulletins by the New Jersey College of Agriculture, New Brunswick.

In addition to requiring no outlay, culling causes no loss. The eliminated birds are sold at good prices on the poultry meat market.

Because of the influence of heredity, the general laying average of a flock is materially raised over a period of years by persistent culling and the use of good cockerels. This factor is considered particularly important by leading poultrymen.

Tragedy Not as Great
as Sailor Had Feared

In the old days all shipping advertisements in the papers used to be embellished with a picture of a ship. At first they were all sailing ships, but gradually the steamers came under the reader's eye. Columns after columns of some of the papers used to be filled with these advertisements, and a great fleet of vessels used to appear in print daily. It made the papers a bit more interesting to those who could not read and illiterate sailors used to spend much of their leisure time criticizing the cuts and ridiculing the advertisements who used pictures of brigs to advertise full-riggers.

A good story is told of an old pilot of the early days, a good old sailor, but absolutely illiterate. He picked up a paper in a stall in a saloon and made a bluff at being occupied in the reading of it. It so happened that he held the paper upside down when an acquaintance entered, snatching out, "What's the news in the paper today, Abner?" Abner shook his head sorrowfully, took off his glasses, and passed the paper to his friend. "It's awful," he said, "something horrible. All the ships in the ocean are turned bottom up." The newcomer picked up the paper and held it right end up. Then he shouted in feigned glee: "Cheer up, Abner, cheer up. See, they have all righted themselves."—Fall River Globe.

Peace and Promise
in Nature's Temple

It was a swamp of the kind I love, miles upon miles of it, seldom marked by the footprints of men; a primitive swamp, hoary with age, where life had grown upon life through centuries of time; fragrant with a breath of mystery, filled with a vast contentment, a home for the creatures of the wild. But its age was what grew upon me.

I sat upon a fallen pine that had lived five hundred years, and then had lain a century where it had fallen, crumbling once more into dust of earth. Near me was a still mightier tree rearing its head to the sky. Under my feet was the soft and sweetly musty mold of prehistoric generations of God's greatest living things on earth—the trees. Age—age and life and death—breathed together in the air, and in their mingling there seemed to be a glorious symphony of fulfillment and promise.—James Oliver Curwood in Hearst's International Cosmopolitan.

ROTARY'S DEFINITION

"The club," Quakerdom Club's Publication, the Quaker (Pa.) Rotary Club, follows:

The aim of Rotary is:
To make each member a better citizen.
To help us all think right, be right, and do right.
To make business a pleasure.
To make truthfulness and quality the prime elements of business.
To boost every fact.
To boost that which is worthy.
To make men have their neighbors, even if he is a competitor.
To look on the sunny side of life and smile.
To suppress sorrow with joy.
To seek that which is good in all men.
To condemn none unjustly.
To put honor before gain.
To be considerate of all and their opinions.
To serve mankind cheerfully, faithfully, honorably, and unselfishly.

They extend courtesy to the whole man, but right to differ in opinion without falling out with him.

P. S. CHANGES

Jacob T. Barron, who has been general superintendent of generation of the Electric Department of Public Service Electric and Gas Company, has been made general manager and Marion Penn, chief engineer at Kearny Station, has been named to succeed Mr. Barron. These appointments were made by Edgar Allegretti, vice president in charge of electric operation.

Mr. Barron has been with Public Service since 1907, having served as chief operator of substations and generating stations in the Central Division and later as superintendent of that division. He was made general superintendent of generation in 1915. He lives in Elizabeth.

Mr. Penn went to Public Service Electric Company in 1914 as assistant division superintendent in the Central Division. After a period in the army, in which he was captain in the heavy artillery, he returned to Public Service. He has served as plant engineer and has been chief engineer at Essex and Marion Stations as well as at Kearny. He lives in Jersey City.

The Board of Directors of Public Service Corporation of New Jersey has approved the appointments of Charles Stuart Straw to be assistant general solicitor and Leland Tallaferrro to be assistant general attorney. Both Mr. Straw and Mr. Tallaferrro have been attorneys in the law department.

Mr. Straw, a native of Berwyn, Pa., was graduated from the University of Pennsylvania in 1914 and became associated with Judge Lewis Starr, Public Service trial lawyer in the Southern Division. In March 1915, Mr. Straw was made assistant general attorney of Camden County. He resigned in November, 1923, to become a partner of Frank B. Jess in the law firm of Jess and Straw.

In September 1925, Mr. Straw went to the general claim department of Public Service in Newark, and was transferred to the law department as attorney January 1 of this year.

Mr. Tallaferrro, a native of Atlantic City was graduated from Rutgers in 1920 and Columbia Law School in 1923. He entered the partnership of Higgins and Tallaferrro of Newark and went to Public Service in March of this year.

Find Collection of Relics in Mt. Holly Masonic Temple Cornerstone

Lead Box, Discovered by Workmen Raising Walls, Reveals Many Interesting Documents, Publications and Currency

The corner stone of the Mount Holly Masonic Temple, laid on July 25, 1891, was removed last week by workmen who are engaged in raising the walls of the building, destroyed by fire last year, preparing the site for a new structure.

The lead box that had been placed in a cavity in the stone was found to be intact and its contents in excellent condition. The box was given into the custody of George M. Shepper, present worshipful master of Mount Holly Lodge No. 18, P. and M. The contents were erected in 1891 by the Masonic Temple Association, later passing to other ownership.

Interesting documents and relics found in the box, follow:
Holy Bible, printed in 1891.
Constitution and Laws of the Grand Masonic Lodge of New Jersey, 1891.
Proceedings of the Grand Lodge of New Jersey, 1891.
Copy of "Royal Craftsmen," July, 1891, issue.
Copy of "Keystone," July 25, 1891.
Calendars of various Masonic lodges of New Jersey, presented by Joseph W. Ewan, District Deputy Grand Master.

Menu of dinner at Washington House, Mount Holly, given to grand lodge officers on July 20, 1891.
Half cent of the United States of 1891, the year of the first meeting of Mount Holly Lodge.
Collection of old copper coins.
Warrant from Grand Lodge for Lodge No. 14.
History of local lodge, prepared by Joseph C. Cowgill, Master Mason, 1891.
Program of exercises.
Resolution of President Harrison and Vice-President Morton.
By-Laws of local lodge.
Bullet from battlefield of Fredericksburg.
Ten-dollar note and fractional currency notes of 3 cents and five cents of the Confederate States, 1864.
May, 1891, issue of "Church Echoes," a publication of the Mount Holly Baptist Church, Rev. Robert F. Y. Pierce, editor, containing a history of that church.
"Royal Craftsmen," issue of May, 1891.
Catalogue of Mount Holly Academy.
Schedule of Burlington County Fair, 1891.
New Jersey Mirror, July 25, 1891.
Mount Holly Herald, June 27 and July 21, 1891, the former containing history of Hotel Fire Company, Mount Holly, written by Joseph C. Cowgill.
Mount Holly News, July 28, 1891.
Mount Holly Dispatch, July 23, 1891.

Pieces of stone from ruins of Solomon's Temple.
Two moccasins from ruins of Pompeii.
Piece of lava from Mt. Vesuvius with Italian coin imbedded therein.
Silver square, compass, plumb and level.
Coins of the United States of the denomination of \$1, 50c, 25c, 10c, 5c, 1c.
A Hat of the contents, written by Joseph C. Cowgill, was found in the box.
The corner stone also has been placed in the custody of the local Masonic lodge.

Downpour of Rain
An account of the affair shows that there was a downpour of rain while the corner stone exercises were in progress, in charge of grand lodge officers. A short parade, headed

LEGAL ADVERTISEMENTS

The New Era is a Legal Newspaper. Commissioners', Sheriff's and other Sales, Administrators', and Executors' Advertisements are solicited. The New Era will appreciate being remembered in this connection.

NOTICE

All readers or local notices of entertainment, suppers, fairs, dances, etc., given for the purpose of raising money, will be charged for at the rate of fifteen cents a line.

THE QUESTION BOX

Angora Cat from Turkey
C. G. Palmyra—As you have invited your readers to ask questions, I am going to ask you where the Angora cat came from originally?

Ans.—Originally the Angora cat came from Angora, Turkey, a city of about 75,000 in the interior of Turkey in Asia.

Soft Coal Hotter than Wood
G. J. Riverton—Can you tell me what is the heat value of soft coal as compared with that of wood?

Ans.—The average soft coal has about twice the heating value of an equal weight of dry wood.

Use of Hittersweet
H. F. East Riverton—I wish to ask through your column if the hittersweet is used for medicinal purposes?

Ans.—The leaves and roots of the plant are barbotis and have been applied to various medicinal purposes. The berries, if not absolutely poisonous, are suspicious, and should be passed upon by a qualified chemist before being used as a medicine.

Taft Received Highest Vote
R. M. Palmyra. Will you please tell which of the three presidents of the United States received the largest popular vote—Roosevelt, Taft or Wilson?

Ans.—Taft received 7,078,908 votes; Roosevelt 7,623,486 and McKinley 7,307,923, and were the highest three in the order named up to 1920.

Kipling
C. B. Clifton—Will you please tell me through your question column who is the author of the book "Plain Tales from the Hills"?

Ans.—Rudyard Kipling is the author of that book.

Inventor of Microscope
D. D. Five Points—I would like to know who invented the microscope and the shomoscope?

Ans.—The invention of the microscope is buried in antiquity. The oldest one in existence is now in the British Museum. It was found in the ruins of Nineveh. We know nothing about shomoscopes.

Number in Machine Company
R. F. D. Five Points—Will you be so kind as to tell me how many men there are in a machine-gun company?

Ans.—A machine-gun company has six officers and 173 men. Its armament is 12 machine guns of heavy type and four spare guns.

Vassar College
T. H. East Riverton—Where is Vassar College, and does it belong to any denomination?

Ans.—Vassar College is located at Poughkeepsie, N. Y., and is a non-sectarian institution.

115 Miles an Hour
H. H. Palmyra—To settle a dispute will you please answer what is the fastest time ever made by a locomotive?

Ans.—The fastest time of which we have any record was made in July, 1914, on the Philadelphia & Reading railroad, when a given distance was made at the rate of 115 miles an hour.

Date of Cromwell's Victory
Reader, Riverton—Can you give the day and date that Cromwell defeated Charles I. in England?

Ans.—Sunday, September 3, 1651.

Waves Caused by Wind
P. S. Cinnaminson—Can you explain what causes the waves and the swells in the ocean?

Ans.—The waves of the ocean are caused by the action of the wind, while the heavy swells which occasionally take place are supposed to originate in distant storms of wind.

McKaiser Not a Mason
J. L. East Riverton—Will you please answer in your question column what religion the ex-Kaiser embraces, and whether or not he is a Mason?

Ans.—The ex-Kaiser Wilhelm of Germany is a Lutheran. He is not a Mason, as his religious privileges preclude his joining secret society.

Speed of Light
H. H. Cinnaminson—Will you please answer how fast light can travel?

Ans.—Light travels at the rate of 186,000 miles a second.

Interesting Lecture on Home Economics
Announcement Regularly from Riverton Hall.

Miss Catherine Cahalan of the Home Service Department of the Public Service Corporation one of the largest exhibitors at the Fair broadcast an interesting lecture to the housewife every Thursday and Friday afternoon from the Camden Municipal Broadcasting Station located in the Exposition Hall. Accompanying her talk Miss Cahalan also delivers a series of demonstrations between 2:30 and 4:30 o'clock on those afternoons.

Believes. When in front of the old Gloucester bridge the boys up. The Gloucester police took the kids from the water but they gave the boys a ride in the car. The boys were calling the Gloucester police. The boys' identity is still unknown. The case has been referred to its owner.

The Misses Middle, while driving their Packard across the Delaware bridge Tuesday afternoon, were run into head-on by a car which skidded on the wet surface, as it was trying to avoid still another car that had skidded. The Middle car was badly damaged but no one was injured. Immediately following, four other accidents were witnessed in the course of twenty minutes.

Nathan Lane, 33, left Saturday to attend the International Y. M. C. A. conference to be held at Helsingfors, Finland, as one of the delegates from Burlington County. There were about thirty in the party; some will remain here week and others will remain for a longer period.

PICNIC

Epworth Sunday School Will Journey to Tuscon Lakes

The picnic of the Epworth Sunday School will be held Saturday, July 24, at Tuscon lakes. Buses will leave the church at 9:30 a. m. and it is expected that about two hundred persons will be in the party.

The entire group will carry baskets, lunches and arrangements have been made to spend a very enjoyable day.

The committee in charge is: Edwin A. Grison, Harold McCorkle, Cliff Taylor and Harry Strang.

STRAPS STREETS

Palmyra streets are being scraped by the Borough tractor.

The work has been going on for the past few days and will be continued throughout the week.

J. Patterson, Supervisor of Borough Highways, is in charge.

Moorestown Briefs

Mrs. Howard C. Curtis returned from the Metropolitan Hospital, Philadelphia, Friday, after undergoing a tonsillectomy operation there Wednesday of last week.

Arthur F. Barber, of East Third street, has purchased the lot which adjoins the property owned by him on East Third street in the Stanwick section.

Mr. and Mrs. A. F. Atkin, of Union street, left last week for a stay at Seaside Park.

Mr. and Mrs. Clarence E. Worrell, of Newbold avenue, spent the weekend at the Traymore Hotel, Atlantic City.

Mrs. Gertrude Middleton is visiting her nephew, Bernard Long, in Roydsford, Pa.

William Ritchie attended the Monday Bible Institute held recently in Chicago.

Miss Mary J. Lovick, of East Main street, is spending the summer at Pocono Manor.

Miss Elma Capowell, of Camden, formerly of Moorestown, was a recent guest of her cousin, Mrs. Charles Makin, of Moorestown.

Isaac L. Evans and family, of West Main street, left last week to spend the remainder of the summer at their cottage in Ocean City.

The Misses Sabina and Margaret Brodie, of Washington, D. C., spent the weekend in Atlantic City, visiting Miss Grace Cunningham.

Miss Elsie Parker, a graduate of the Moorestown High School, class of 1918, is employed as book-keeper at Collins' Nurseries, Pleasant Valley avenue.

Dr. and Mrs. A. B. Pancoast, of East Main street, spent the weekend at Seaside Park.

Several members of the Harvester's Sunday School Class, of the M. E. Church, are enjoying the week at Ship Bottom.

Harry Thompson has purchased a new Ford sedan.

Mrs. Arthur Lee Davies and children, of the Methodist parsonage, left last week to spend some time with Mrs. Davies' mother at Wilkes-Barre, Pa.

Mrs. Walter S. French, of West Main street, is entertaining for Mrs. William K. Thompson, of West Philadelphia.

Frank Stanton, of East Central avenue, has returned from a business trip to Richmond, Va.

Miss Elizabeth Nixon French's avenue, returned home Friday from a three weeks stay at the Cooper Hospital, and is much improved in health.

H. L. Williams and family, of Chester avenue, are staying at their cottage in Seaside Park.

Harry A. Franz, of Second street and Poplar avenue, recently purchased a new Packard touring car.

Mrs. A. B. Pancoast entertained her Sunday school class Thursday of last week on a boat outing on the Delaware.

On Sunday, the 11th of July, there will be an open air community service held on the grounds of Westfield Meeting from 7 to 7:30 p. m. Should it rain, the meeting will be held in the Meeting House. All are invited.

Officer Guley found a Ford roadster at Second and Howard streets three o'clock Monday morning belonging to George Jones, of Beverly. The car was released from Woolston's garage when Jones produced the owner's license and his driver's card.

Recent visitors at the Japanese Beetle Laboratory at Riverton during the past week were M. L. Dean, Director Bureau Plant Industry of Idaho; Dr. Stefan Boudek, College of Agriculture and Forestry, Brno, Czechoslovakia, and Professor H. W. Harned, State Entomologist of Mississippi.

D. P. Vaughan, daughter Miss Betty Vaughan and Miss Isabel Groves will leave for the Rocky Mountains this week, where they will spend several weeks camping.

Mr. and Mrs. George W. Crawford who are spending the summer in Atlantic City, have been in Riverton this week.

A goodly number of the active members of the Riverton Fire Company arrived on Tuesday night of last week for a drill. Chief Armstrong reports that the boys made a very good showing. An urgent appeal is made to every man listed as an active member to report for every drill. Drills will be held every second Tuesday night.

Sunday afternoon church services from Riverside took a canoe belonging to John Harrison of Delaware and traveled down the river.

A fatal fire started by a live cigarette stump thrown into waste is not an accident. It is a crime.

Frederick Church Next Sunday, the Rev. H. A. Brotemarkle, Ph. D., of Philadelphia, will preach at the morning worship at eleven o'clock. Sunday School at ten o'clock. During August there will be no Sunday evening service.

When Bedtime Comes

By Clarence Hawthorne

Oh, what a splendid thing it is
For father and for son
To learn the joys of comradeship
At home when day is done!
How fine it is for little boys
To know that Daddy cares
Enough for them to "tuck 'em in,"
And help them say their prayers!

Though duty calls us far from home
To spend each busy day,
Though we may seldom find the time
To join them in their play,
One thing I ask of Him who guides
The destinies of men:
When bedtime comes, help us to be
Their faithful comrades then!

HOW GREAT MEN MAKE LOVE

AS REVEALED BY THEIR LOVE LETTERS

By JOSEPH KAYE

(As by Whittier, Whitman, etc.)

WALT WHITMAN AND ANNE GILCHRIST

ANNE GILCHRIST was a passionate admirer of Walt Whitman, the poet and the man; she was free; she was the woman he admired above all others—yet they were fated to remain apart, for Walt Whitman had given his heart to another and it remained in that other's possession even after she had married some one else.

Mrs. Gilchrist was an English writer whose husband had died when she was thirty-three and left her with four children. Eight years later she read the newly published book of Whitman's first poems, "Leaves of Grass." It was a revelation to her and made her a devoted Whitman disciple.

Whitman was badly in need of such friends. His book, which he had set up with his own hands—he was a printer among other things—because he could not find a publisher for it, was universally abused and ridiculed. His unconventional metrical style and his freedom in discussing social and moral subjects both astonished and shocked readers and critics and a friendly word for his work was a holiday for the poet.

During the Civil war, Whitman had served as a volunteer nurse, and when it was over, he found he had ruined his health. Thereafter, he was partly an invalid in his home at Camden, N. J. Mrs. Gilchrist, to be near the man she loved in his affliction, came to America with her children and lived in Philadelphia and then in New York. Personal acquaintance caused no disillusionment and their platonic love continued as before.

Mrs. Gilchrist had to leave America to educate her daughter in Europe and Whitman never saw her again. She died in England in 1895.

The following is the third letter in the series Mrs. Gilchrist wrote to Whitman:

"I wrote you a letter of the 9th of September and would have told you how much I have treasured your hand. I have not, I will write its contents again quickly to you—it has I will await your time with courage and with patience for an answer; but spare me the needless suffering of uncertainty on this point and let me have one line, one word of assurance that I am no longer hidden from you by a thick cloud—I from then, then from me; for I have never set eyes upon thee. All the Atlantic flowing between us, yet cleave closer than those that stand nearest around thee—love the day and night—last thoughts, first thoughts, my soul's passionate yearning toward thy divine soul, every hour, every deed and thought—my love for my children, my hopes, my aspirations for them, all taking new shape, new height, through this great love. My soul has staked all upon it. In dull, dark moods when I cannot, as it were, see thee, still, still always a dumb, blind yearning toward thee—still it comforts me to touch, to press to me the beloved books—like a child holding some hand in the dark—it knows not whose—but knows it enough—knows it is a dear, strong, comforting hand. Do not say I am forward, or that I lack pride because I tell this love to thee who have never sought or made a sign of desiring to seek me. Oh, for all that, this love is my pride my glory."

CHARLES N. BASTEDO

Charles N. Bastedo, 58 years old, of New Brunswick, died of a heart attack while riding in an automobile along Haddonfield Road near Moorestown, Sunday night.

Mr. Bastedo, who with his wife, had been visiting relatives in Rock-ledge, motored to the shore with their host and hostess Sunday and were returning when he suddenly gasped and fell across the seat unconscious. He was rushed to the office of Dr. B. B. Powell, where he was pronounced dead by Coroner J. C. Selton.

Funeral Director William Grobler took charge of the body until Monday, when a New Brunswick undertaker removed it to the Bastedo home.

WHY GOVERNMENT PRICE FIXING WON'T WORK

One of the most persistent fallacies in government price-fixing on competitive commodities. There is already government price-fixing in commodities and services where competition plays no part in price determination. These are railway transportation, electricity, gas, telephone and telegraph, and so on. Here government price-fixing is solely to protect the consumer. There are two fatal objections to government price-fixing for agricultural products, which represent the most competitive business in the world. These are, first, that it will not work; second, that it is always done for the consumer as against the producer.

Government price-fixing for agricultural products would work if at the same time the government regulated wages, profits, middlemen's margins, the production of all commodities, and the rationing of all commodities. In short, if the population were enlisted in one vast army, directed and rationed, price-fixing would work, but otherwise not. If the price is fixed on the wheat the farmer sells, then he cannot keep on producing wheat if wages or the cost of harvesting machinery rise, or if the cost of other material he buys rises. So the next step would be the fixation of other prices, and yet other prices.

The United States government fixed the price of wheat but once in our history, and then it was to benefit consumers, not producers. The government might, in an emergency, fix some agricultural prices for the purpose of elevating such prices. Such action would inevitably and speedily lead to outcry from city consumers and a consequent reversal of policy. Indeed, the consumers, not the producers, are most likely to demand and secure food price regulation by government authorities. The farmer, therefore, who favors any form of governmental price-fixing is working against his own interests. He is putting his head into a noose.—James E. Boyle, Professor of Rural Economics, Cornell University, in the Banker-Farmer.

Day of Realization for Concel's Victim

Concel is something like red paint. The first time one tries it, even a trifle of it looks bad. The next time it doesn't look so bad. The third time you put on a little more to make it look better. Then you have to keep adding a dab or two a day to make you feel toward yourself the way you felt on the first day you tried it.

Everybody else knows this but you. You carry your conceit about you so plainly that even in your silence it is evident.

But nobody dares tell you about it, and if he did you wouldn't believe him. Until one day, after you have struggled and suffered and risen above things and fallen and got up and are forty and have married and are growing slightly gray, a little miss of ten climbs on your knee, and grabs your cheeks in both hands, and—yes, right there in the presence of her relatives—blushes out: "Daddy, mamma says you are the most conceited man she knows."

And then you know.—Kansas City Star.

FIGHTING DRUNK

Thomas Higgins, of Philadelphia, and John Higgins, of Palmyra, were arrested Friday evening by Officer Lawrence Betty, of the Palmyra police force, on a charge of disorderly conduct.

Betty was operating the traffic sign at the corner of Broad street and Cinnaminson avenue, when a taxicab passed and he saw the passengers sitting in the back seat were apparently under the influence of liquor.

The cab stopped at Fifth street and Betty drove down to the street to see if he could be of any assistance.

The men were evidently intoxicated and when Officer Betty inquired where they were going he was told to mind his business and at this time the cab driver was beginning to worry about his fare because he had been engaged in Philadelphia.

After considerable talk Betty placed John Higgins in the police car and went back after the other man. When they got into the car both men attacked Betty and he was forced to use his blackjack on John Higgins.

The men were placed in the Police headquarters, but John Higgins was later removed to the Cooper Hospital, Camden.

Thomas Higgins was tried before Justice of the Peace William Foster and fined twenty dollars and costs.

John Higgins will be tried following his release from the hospital where he is under observation.

WELL CALLED CITY OF ETERNAL YOUTH

Damascus Has Seen Many Empires Come and Go

Damascus, said to be the most ancient inhabited city of the world, has just come through another ordeal of fire and sword, yet the work of rebuilding the devastated area is already well under way.

From the earliest times the city has been continuously subjected to destruction and pillage. On countless occasions she has been sacked and her buildings leveled to the ground; yet thanks to her wonderful recuperative power she has always risen from the debris radiant and with a new lease of life.

Damascus is a city of eternal youth. She is the garden of the desert and her position is unique in the eastern world.

For thousands of years the waters of Damascus have given refreshment to millions of people parched with the heat of the Syrian sun, and her cool, shady gardens have never failed to provide their luscious fruits. She has seen the rise and fall of kings and empires, of princely powers and dominating dynasties. She has survived them all.

The life of the city never changes. The caravans come and go. The same cosmopolitan multitude of Bedouins, Turks, Persians, Armenians, Kurds, Jews, Christians and negroes from Arabia throng her busy bazars, which are a perfect bazaar of oriental color. The ceaseless hum of the narrow, covered streets, flanked by picturesque doorways and stone courtyards, is ever-present, and the recent disturbances have only caused a temporary lull.

For a few days there was a pause in the feverish activity of this mighty market of the East, and the bazars were strangely silent.

Now Damascus is returning to her own again, the Damascusians are working hard to repair the damaged buildings, and the old atmosphere is gradually coming back. Every day the damage appears less, the chattering crowd of jostling Orientals grows greater, and the hummer of the brass beaters sounds louder. The gentle tinkles of the camel bells are heard once more, although the great caravans do not venture on the open road.

From the surrounding hills Damascus appears a great white city, enclosed in a rich green garden. She is like a pearl in a setting of emeralds, like hundreds of mosques and minarets vie with each other in simple splendor.

From this great oasis the camel caravans have century after century wended their slow and stately way out into the vast waterless spaces of the world, which on the map are merely yellow patches.

Damascus has seen the beginning of every existing power. She will probably see the end of them all.

Transcendental Talk

"Do you still want Leicester square? Here's your party."

"Are you there?"

"Hello, Johnny, this is Sam. Don't this beat the cablegram? Thought I'd give you a ring. How's the price on anything?"

"Oh! I say! A ripping notion! Here we chat across the ocean!"

"Thirty hundred miles or so?"

"Most extraordinary thing, you know! Quite across the wide, gigantic, bally, blooming old Atlantic!"

"Yes, some stunt! Here's you and me talking clean across the sea. How's the weather?"

"Fog—no name!"

"Say, we're having just the same!" (Here Big Ben rings.)

"Well, so long, it's time to stop."

"Au revoir. Pop-pip, old top."—New York Tribune.

Balsa Wood Valuable

Half the weight of cork, the balsa wood of the tropics is coming into use for many purposes other than that of making life preservers and life rafts for which it was introduced in this country. It has marvelous insulating qualities. Fish, ice cream or other similarly perishable articles may be packed in a tightly constructed box of this wood and shipped great distances and delivered in excellent condition. The government is testing airplane propellers made of it and quite a quantity of the wood is made use of in the construction of theatrical scenery which is to be shipped about the country. A New York architect is experimenting with it as an inner sheathing for houses. It may create a revolution in refrigeration.

Angora Goats Best Eaters

Angora goats are the most voracious feeders known, according to a writer in the *Hayes (Australia) Bulletin*, who says: "I can show you a dozen acres in South Gippsland, Victoria, that 50 dinosaurs could not clean up. The blackberry is exceedingly difficult to destroy and though new shoots spring up within a few days after the vines are cut and burned, these are kept from gaining headway by a few angora goats."

Sailors' Superstitions

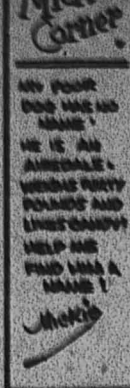

Blue paint is unpopular with seafaring men, who dislike to join a vessel having any part of her painted blue, and a Scotch sea captain once refused to let an apprentice come aboard because he was carrying his worldly possessions in a blue box. The construction of a ship is still believed by many mariners to foretell her whole future, and if she sticks on the ways and is reluctant to be launched, a dark fate is predicted for her.

Tasteful Publicity Man

The first to register was Miss — and Miss — who passed the winter in southern California. They have been the — in each summer for more than twenty years. The two are noted far and wide for their collection of antiques.—From a dispatch in the New York Herald-Tribune.

Pen knives, balls, pens, pencils and stationery in an old apartment at Hastings.—Advertisement.

PALMYRA NOTES

Lawrence Dalzell is spending several days in Ocean City.

Mr. and Mrs. Harry C. Schwartz, motored to Ringier Rock, Pa., Sunday.

Mr. and Mrs. W. H. Powell spent Sunday at Indian Mills with Harry Wright.

Mr. and Mrs. Thomas Carroll, Sr., are spending two weeks at Atlantic City.

Mrs. Charles Bates and children, of Delaware Avenue, spent Sunday at Wildwood.

Miss Helen Scatter, of Westmont, was the weekend guest of Miss Mary Corbush.

Knigh G. L. Sims, of South Carolina, was the weekend guest of Mr. and Mrs. J. H. Abell.

Mrs. Alfred Van Oaten entertained the Stitches and Chatter Circle last Thursday afternoon.

Albert Sachs and son, of Philadelphia, spent Sunday with Mr. and Mrs. Lawrence Dalzell.

Mrs. Raymond Yerkes spent Sunday at Philadelphia visiting her mother, Mrs. Jacob Kinkler.

Mrs. Charles Whitmer and Mrs. William Whitmer will spend the coming week at Ocean City.

Miss Dorothy Nicola, of the Palmyra National Bank, is spending a week's vacation at the seashore.

The Riverton and Palmyra boys who have been at Camp Ockaniche, will return home on Thursday.

Miss Kate Daugherty, who has been visiting Miss Nora Carpenter, is spending some time at Cape May.

Mrs. Raymond Yerkes entertained Mr. William Eckstein and children of Baltimore, Md., on Wednesday.

Mr. and Mrs. Edwin Griscam have returned from an extensive motor tour of the New England States.

Mrs. George J. Spencer and daughters, Blanche and Harriett, are enjoying two weeks at Wildwood.

Officer Joseph Rodgers, of the Palmyra Police Force, is on a motor tour of the United States and Canada.

Ten members of the Palmyra Lodge P. O. E. of A. will leave on Monday to spend Saturday at Cape May.

Mr. and Mrs. Edwin P. Seal, of West Philadelphia, were the guests of their brother, George Seal, over the weekend.

Mr. and Mrs. Arthur Post, of Highland Avenue, are returning to East Stroudsburg where they will make their home.

Mrs. A. E. Conlow, Miss Marie Conlow, Miss Anna Braun and Miss Anna Barry, of Moorestown, spent Sunday in Wildwood.

Palmyra Ambulance was pressed into service Monday evening to rush Mrs. Granville Kelley, of Riverside to the Hahnemann Hospital.

Mrs. Charles Shaw, formerly Miss Carroll, of Palmyra, will be home on Monday evening for a day in balance last week and seriously bruised.

George Seal, 3rd, and family, of Maplewood, and Clifton Seal, of East Orange, spent the weekend with their parents, Mr. and Mrs. George J. Seal.

The Junior Philathea Class was entertained at the home of Mrs. James M. Weart, by Mrs. Harry Hough and Mrs. Raymond Yerkes Monday evening.

Ensign Everett Abell, of the U. S. S. *Albatross*, was stationed at Longue Island in spending several days with his parents, Mr. and Mrs. J. H. Abell.

Mrs. Theo. L. Morris is entertaining Miss Grace Bulkley, of Gloucester, Mass., and Mrs. J. C. Langer, of Philadelphia, her summer cottage in Lumberville, Pa.

Mr. and Mrs. A. B. Cramer, West Broad street, spent the weekend with their daughter, Mrs. O. H. Hayne, of New York. Mr. and Mrs. C. H. Hayne will call for Europe today for a three month visit.

A delegation from the Palmyra Lodge Knights of Pythias paid a visit to the Mount Holly lodge Friday evening. During the summer there will only be two meetings a month instead of the regular four.

Several of Palmyra's residents were members of a fishing party to Mt. Gretna last Saturday. Those in the party were: Paul Braun, Tom Smith, George Anselmo, Gerald Smith, Hamey Lorraine, A. E. Conlow, and W. Pivot.

Mr. and Mrs. Alfred Bauer, of Washington Avenue, left Tuesday for a trip to Buffalo, Niagara Falls, Toronto and down the St. Lawrence River. They will return via Lake Champlain, Lake George, the Hudson River and New York.

Mr. and Mrs. Elmer Jones, Mr. and Mrs. Frank A. Shover, Mr. and Mrs. Wesley Rockefeller, Mr. and Mrs. Russell Hammelman, Mr. and Mrs. Howard Alloway and Mr. and Mrs. George Price, spent the week end on a fishing trip at Tom's River.

The efficiency of the insurance Department of the Palmyra-Riverton Realty Company was demonstrated in a recent automobile accident that occurred on the River Road, Monday, July 6. The claim was made July 22 and exactly one week later, July 19, the claim was satisfactorily settled.

Mrs. C. W. Rudolph entertained the members of the primary department of the Central Baptist Church, at her home last Wednesday evening, in honor of Mrs. Orlando Symonds, who is leaving Tuesday with her family for the Panama Canal Zone, where Mr. Symonds has accepted a government position.

LOCAL FARMERS PLAN TO ENJOY STATE PICNIC

(Continued from First Page)

tain cases, such as using them for nurse crops or in a mixture with Canada field peas for emergency hay, this crop can and will be considered.

Cherry Blights
This is a very common trouble on cherry. It may occur even in the seed-bed, but in New Jersey seldom does much damage until the fruit, set in July of September and October, when it may become extremely severe.

The disease starts on either surface of the leaf as small, sub-circular, yellowish spots. Later the spots become more irregular in outline and brown or black in the center. When they become numerous enough to unite, large blotches are formed on the stems and leaves and the whole plant is darkened.

The disease in this stage is sometimes termed "black-blight." In each spot are numerous minute black dots, which are the fruiting bodies of the fungus parasite. Millions of spores come from these bodies and are disseminated by means of insects, splashing rains, and on tools and clothing. The fungus lives over winter on the soil or in the old diseased leaves left in the field or on the compost heap.

Cucurbit Blight
This blight also may occur in the seed-bed, but seldom does much injury in New Jersey until the warm weather of July and August.

The disease appears either on the upper or the lower surface of the leaves as small, yellowish-green spots which take on watery cast. Later they change to an ashen-gray color, and have a dry, papery texture. The spots of early blight are different from those of late blight, in that there are no minute black fruiting bodies, the spots usually are larger, and have the ashen-gray color.

The fungus lives over in a manner similar to that causing late blight.

Control
The two blights can be controlled by careful spraying in the seed-bed and in the field. In the seed-bed weekly applications of Bordeaux mixture 5-4-50 or of copper-lime dust are recommended.

After the plants are set in the field and become established they should be sprayed at weekly or 10-day intervals with Bordeaux mixture 5-4-50.

At least two nozzles, and preferably three, should be used for each row, especially when the plants become large.

The pressure generated by the sprayer should be about 150 pounds, and higher if possible.

From 150 to 200 gallons of spray are necessary to cover an acre of large celery.

Other Recommendations
The spraying should be continued to about three weeks before harvesting.

Other recommendations are to use three-year rotations of celery with other crops, and growing under as deeply as possible the disease celery refuse.

Seed treatment or the use of 3 to 5-year-old seed (on which the fungus is supposed to be dead) has been suggested, but its usefulness is rather doubtful.

The County Extension Office will be glad to furnish information on the proper method of making Bordeaux to any interested persons.

Cherry Leaf Spot
A rather heavy infection of cherry leaf spot was observed the second week in July, approximately 10% of the leaves showing the disease. It will be recalled that leaf spot was conspicuous by its absence last year.

This year, however, all indications point to an outbreak of leaf spot. If this spray has not already been applied, an application should be made at once, and one or possibly two other applications made at two-week intervals, using concentrated lime sulphur solution 1-4-0.

Wesleyan Class
Lesson for the Wesleyan Bible Class, July 25, "What to do to Make Life a Success."

All men are welcome. Come and help some one to make life a success. We live for one and the other.

J. B. WHITTON,
Teacher.

Mrs. Hannah Hummel and daughter, Mrs. J. W. Brandt attended a family picnic at Shiloh Wednesday.

GEORGE M. PFENDER
George M. Pfender, 59 years old, died Wednesday of last week following an illness of several months.

Mr. Pfender was the Moorestown water works engineer and lived in the home on the water works property on Haddonfield Road. Before taking up the work with the water department, he was proprietor of the Criterion Sweet Shop.

The deceased, who is survived by his widow and one daughter, Kathryn, was a member of Camden Lodge, No. 100, and Lodge 189, F. & A. M., Moorestown.

Philip C. Mann, of Beverly, who for fifty-six years has been connected with the Philadelphia Savings Fund Society, was given a royal reception by the water works when he reached last July during a tour of the Pacific coast.

Olsen is a new color for dress goods. It is said to be a strong color.

Former Palmyra Man Heads Live Troup Which Does Stunts at Sequi

(Continued from First Page)

A. W. King, former resident and scoutmaster of Palmyra, is now scoutmaster in the Elizabeth Section Council which takes in over half of Union County. The Union County Scouts desired to make a showing of their skill, consequently a "Sequel Troup" was picked. Sixty were selected for the final pick-up—the best from each troop and from those thirty-two were to be selected. By the time thirty-two had been sifted out the contest was so close that further elimination was abandoned.

Each member of the troop is a specialist, having received an award for their superior in the branch of scouting. One member was awarded a gold medal by Vice-president Dawson for saving a woman from drowning after two others had failed to rescue her.

The troop was given a farewell reception at the Haddon Motors factory, at Elizabeth, on Monday. The Durant Company loaned eleven touring cars and a truck for the trip to Philadelphia and sent along two mechanics to keep the cars in shape.

Governor A. Harry Moore received the boys in Trenton at noon Monday. In the afternoon they enjoyed a swim from the Yacht Club pier. Monday night, camp was set up on the Palmyra Extension. Tuesday the troop left for Scout Headquarters in Philadelphia.

At the camp in the Curtis printing plant, Wednesday and Thursday were spent at the Sequi, giving their exhibitions and demonstrations. Friday they will go to the new Scout Camp at Germantown, where the boys will spend the night. The next will be to Valley Forge, Pa., and return to Elizabeth Sunday.

"Death Curve," at Chewa Landing, on Black Horse Pike, is soon to be a thing of the past. Its doom was sounded last week, when the Camden County Board of Freeholders awarded a contract to Edward J. Ellis for rebuilding and widening the road. The curve is at the foot of a hill and an abrupt double turn takes motorists over a narrow bridge. The turn has been the cause of many fatalities and numerous other accidents. By the purchase of a new right-of-way the road will be straightened and widened to forty feet. The improvement will eliminate five curves in all and will cost \$100,000.

Municipal ownership of the local water system is proposed in an ordinance introduced at a session of Gloucester Borough Council last week. It provides for the purchase of all the holdings of the Clayton-Gloucester Water Company for \$175,000. The entire project, with proposed improvements, will cost approximately \$250,000. A public hearing on the ordinance has been set for Tuesday night, July 27.

Organizations which have not yet sent the names of their representatives to the Old Home Day Committee are requested to do so at once.

The Red Jacket, a sailor of the clipper type, in 1854, crossed the Atlantic Ocean in thirteen days and one hour.

The income-tax department refuses to allow Miss Jane Claire to deduct the cost of her wig as business expense. If wig aren't legitimate overheads for an actress what is—Chicago Daily News.

APARTMENTS

HOW LAND SWINDLERS AND LOAN SHARKS DEFRAUD THEIR PREY

W. R. Morehouse Reveals Further Schemes by Which Poor Widows Are Debauched of Their Savings—Unbelievable Frauds Are Worked on the Uninformed.

By W. R. MOREHOUSE,
Public Relations Committee, American Bankers Association.

ARTICLE NO. III

LAND swindlers are almost as common as sand on the seashore. Here is one. A widow was left alone in the world with but \$5,000. She was to take a free ride into the country to look over a new town site. Just a pleasure ride, she was told. No obligation on her part. She accepted the invitation with no intention of parting with her precious \$5,000, but she fell among high-pressure salesmen and in an unguarded moment she affixed her signature to a contract to purchase a vacant lot for the \$5,000 cash she had in a savings bank.

Thirty days after she drew out her account for what she supposed was a business lot she received a notice that her monthly installment of \$5,000 was due, being a \$1,000 payment on each of six \$5,000 lots. Strange as it may seem, not until she received this notice did she read the contract she had signed. Instead of buying one \$5,000 lot and paying for it, as she meant to do, she had signed a contract to buy six \$5,000 business lots and the \$5,000 she drew from the bank had been applied as a first payment of \$1,000 each on the six lots.

Had she gone to her banker she would have saved herself the loss of her inheritance, but doubtless the reason she had not consulted her banker was because she was not aware that bankers render such a service.

A Widow Fell Among High Pressure Land Salesmen

Had it been the lot of the savings depositor who, after losing his savings through wild speculation, is driven to desperation for funds and finds it necessary to borrow money to meet an emergency such as sickness or unpaid rent. Let me give the facts about two cases of the many with which I have come in contact.

The Loan Shark at Work
The principal characters in the first case are a man, who must borrow \$350 to place his wife in a hospital to save her life, and a loan shark, who demands every ounce of blood in desperation the borrower applies to this loan shark for the loan of \$350. This is what it costs him—the amount is almost unbelievable but I obtained the exact figures first hand and I can vouch for their correctness—this man was obliged to give his note for \$925 for a loan of \$350! The day he got the note the shark told it to an innocent holder and it became an obligation binding upon the borrower. Think of paying \$925 for a loan of \$350!

Here is another. This time there is a woman in the case. The woman needed \$150 to meet a payment on her furniture or lose it. She turned to

work. The equipment in the house still lacks a generous size refrigerator and some rugs. Many opportunities come when such things are to be removed in homes of the county and the League would be grateful if the need of the Preventorium would be remembered by friends in the county.

The returns from the lawn sale conducted at Mount Holly in June for the Preventorium Fund was \$500. The League extends hearty thanks to all who contributed to the Lawn Sale.

A Chicago citizen has applied to the municipality for a job as night watchman. He says he has to walk all night with the lady anyhow; so he might as well have a regular route and get paid for it.

WHEN IN ROME

By THOMAS ARKLE CLARK
Dean of Law, University of Illinois

PERKINS took a trip abroad last summer with his wife and daughter. She Perkins is a graduate of Smith college and is proud of the fact and Perkins had the honor of getting his degree from Harvard. I give these details to indicate that the Perkins are no common truck, but really some people with training and experience and measure and taste.

Their daughter is sixteen and an accomplished pianist and her mother was at twenty.

They went on an English boat, and it was a shock to Perkins when he walked into the dining saloon for dinner to find that all the men but himself were in dinner coats and the ladies in evening dresses. They didn't do it that way in Kankakee.

They visited Spain first, the custom of which country they were unfamiliar with excepting as they had been presented in Don Quixote. Perkins was wearing a very light-gray suit, and Mrs. Perkins and her daughter were in tan-colored costumes. They were at once the center of comment and attention. Walking down the streets of Madrid or entering the cathedral at Seville, they could see at once that they were queer; there was something different with them; they were different from other people.

Then it dawned upon Perkins that their clothing was not in accordance with Spanish custom. Women on the streets in Spain wear black, and if they enter a church, their heads are discreetly covered with a veil. Men, too, dress in dark clothes—black or blue serge with black hats. When Perkins realized all this he felt almost as if he were going about in his pajamas.

Mrs. Perkins has modern ideas. Occasionally, just to show that she can do as she pleases, she smokes a cigarette—not because she enjoys smoking especially, but to establish her independence. She discovered in Barcelona that ladies in Spain do not smoke. Some women do; but they are not ladies.

When they arrived in Geneva it was decided to put Mildred into school in order that she might to some extent perfect her knowledge of modern languages, and she was entered in a high-class boarding school. At the first meal to which Mildred sat down she amused the instructor in charge of her table.

"Such manners!" she exclaimed in perfect French. "Mademoiselle! Where have you been reared?" Mildred was cutting her food with her knife and fork in the ordinary way employed by civilized Americans, and then transferring the fork to the right hand in order to convey the food to the mouth. It was a process not to be thought of. Mildred explained that in America she would be an object of derision if she did otherwise, but she was informed that no one could go out of Madame Fourier's school eating as Mildred did.

So Mildred learned to keep her fork in her left hand only and to balance all sorts of nourishing articles of food upon the back of it—never on the front. If peas rolled off they should be washed. Whatever could not be loaded upon the back of a fork must be left on the plate. It is not done otherwise in Europe, no matter how it is done in Kankakee.

(© 1926, Western Newspaper Union.)

THE INCREASE IN TAXES
A study of the cost of living in 32 representative cities of the United States, under the auspices of the Bureau of Labor Statistics, U. S. Department of Labor, indicates that taxation has increased faster than any other element entering into the cost of living.

On January 1st of this year, the cost of living in these cities was 78% over the 1913 level, while the cost of government, as expressed in taxation, has risen 300%. Federal taxation, which was \$6.92 per capita in 1913, has risen to \$25; state taxation, from \$5.18 to \$9.50; and local taxation, from \$12.55 to \$36. From these figures it will be seen that the cost of federal taxes is 3 1/2 times, and state and local taxes 2 1/2 times as great as in 1913.

Those drive fastest whose presence won't make any particular difference when they get there.—Daily Herald.

County Building Much Improved

Alterations and Improvements at Mount Holly Are Nearing Completion

The improvements to the ancient building lately occupied by the County Collector, County Auditor and Board of Freeholders and County Engineer, are nearly completed and everybody seems to be much pleased with the prospect of transacting the county's business amid more convenient surroundings.

The offices have been rearranged with an eye to the very necessary privacy when the county's officials are at work. In former days the public was able to wander into the county offices with ease to say it was, look over the County Collector's shoulder as he drew checks for a hundred thousand dollars or so, commented on the legibility or otherwise of his signature, swapped yarns with the Auditor while that official was trying to check up on the Freeholders' expenditures; sit down for an hour's chat with Clerk of the Board of Freeholders Alfonso Adams, on his busiest morning or amble back into County Engineer Smith's office to tell him how his department ought to be run.

All this was pleasant for the public, but after all it interfered with efficiency and it grew to a point where something had to be done to keep the public in proper bounds when it had business to transact at the Collector's office. The building, more than a cen-

tury old (it was put up in 1807,) was in many respects just as its original builder had left it. Walls of sufficient thickness and strength to stand until the stack of doom, remained, but they were damp and at certain seasons conducive to rheumatism.

The new plan, which called for a halfway running directly back from the main entrance on High street, also provides badly needed privacy for the Collector, the Auditor, and the Clerk of the Board of Freeholders, Alfonso Adams and his assistant, Miss Jane Finley.

The work of putting in the addition on the north side of the building in order to give the Clerk more room for his growing department has been finished, there are new toilet facilities, also.

There will be some new office equipment, but only such as is immediately needed. The board having in mind the question of public expense and being desirous of keeping the cost down to the minimum and yet have the building in which the county business is transacted of appropriate dignity.

MARTIN ILL.
Secretary of State Thomas F. Martin, who has been in poor health for more than six months past, from a general breakdown, caused by overwork, is now under treatment at a private hospital in Trenton, where it is stated that he is suffering from a breakdown and that there has been no change in his condition during the past few days.

Secretary Martin is a newspaper publisher and hails from Union City, Hudson county. He is one of the most influential Democrats in the State and enjoys a host of friends.

VOCATIONAL SCHOOLS FOR CAMDEN COUNTY
Following approval of the project by the Camden County Board of Freeholders, Judge Gray on Saturday named a commission of five members to establish a vocational training school. On the commission are Norman Parker, William Gorman, Burleigh E. Draper, Theodore Kassel and Charles A. Albertson.

The last named is county superintendent of schools. The new board will select a site for the school and direct the preparation of plans and specifications.

The four-wheel brake is still a desirable proposition. It enables a certain type of motorist to get ten feet closer to death and scare more pedestrians into fits.

PUBLIC SERVICE

NUMBER SEVEN

Electricity for Everyone!

SUPPLEMENTING the functions performed by the ten electric generation stations operated by Public Service are eighty substations essential to the maintenance of adequate current supply.

In them current from transmission lines is "stepped down" to lower voltages and sent out on distribution lines to the transformers, from which it is supplied to thousands of customers in many municipalities.

In the last ten years nineteen new substations costing millions of dollars have been built by Public Service in order to improve service through dependability, uniform voltage and maintenance of a sufficient supply of energy when and where it is needed in home or factory.

Jersey Exposition Getting Into Full Sway Despite Handicaps

Attendance Very Surprising In Spite of Rainy Weather and Uncompleted Amusements

The South Jersey Exposition opened its doors officially on July 18th when President Coolidge visited Camden and planted a tree on the lawn of the new Camden Bridge. On July 19th Governor Pinchot delivered a very inspiring talk in the main exhibition hall. Since these happenings, events have proceeded in rapid succession. The lack of amusements, the only weak part of the fair, is being remedied under the able direction of John A. Politt, a showman of long experience and national renown. Col. Collier, formerly director-general of the Sesqui-centennial viewed the Exposition and was distinctly pleased with its arrangement. The exhibits are particularly pleasing, the state having prepared over \$35,000 worth, showing the work of every department. The Fish and Game Commission is maintaining a live exhibit of the species

of fish and wild game which abound in Jersey. A very interesting exhibit of forestry has also been arranged on the grounds. Commercial displays of nearly every article manufactured are found in the Exhibition Hall. These are both interesting and instructive and represent many thousand dollars worth of effort on the part of exhibitors.

On July 23rd mayors from 25 other cities named Camden in the United States will visit the Exposition and a very fine program has been prepared. Much mayor will bring with him a tree which will be planted on a thorefare afterward to be known as the Avenue of Camdens.

Borough Council has contracted for a \$7,000 LaFrance pumping fire engine. The engine was made in fact about the way it was done as the advertisement for bids was for the LaFrance, thus keeping out all competition. The committee in charge justified its procedure by saying it had investigated the matter first and wanted nothing but the LaFrance pump.

Freeholder Charles R. Stout, of Florence, received a Grand Caccapedia salmon, caught in the province of Quebec, last week. It was sent by National Republican Committee, which measured forty inches in length and weighed 25 pounds.

A dance pavilion being erected at the eastern end of the R. & P. athletic field, Mount Holly, will be completed in time for the carnival that is to be given there by the Athletic Association from July 25th to 31st, at which there will be many attractions. The new floor is of sufficient size to accommodate a large crowd of dancers.

The Hedding M. E. Church announced a harvest home to be given on Wednesday evening, August 25th, at Hedding.

Sixteen automobile drivers, at hearings in Mount Holly last week, were fined \$5 each for disregarding the automatic signal light at the corner of Washington and King streets.

Elimination of a number of sidings and sections of track in Mount Burlington, which once formed part of the Burlington-Mount Holly branch of the railroad, is being accomplished by the Pennsylvania Railroad Company.

The school has been announced by Miss Edith Read, attractive daughter of State Treasurer and Mrs. William T. Read, of Camden, to Dr. George B. German, prominent physician of the same city, has been announced. Miss Read is summering with her parents at their cottage in Beach Haven.

Postmasters throughout the country have been urged to make a systematic effort to induce every rural box owner to paint his box white, and to stencil his name on each side of the box in black letters about one inch high. This is the standard set by the post office department at Washington and patrons are requested to comply therewith.

Early promise of a bumper crop in New Jersey will in all likelihood be fulfilled, according to a report issued last week by the State Department of Agriculture. An excellent yield of apples, peaches and pears is expected. There are indications, said the report, that the apple production will total 3,519,000, the peach yield is being figured at 1,445,000 bushels, and a harvest of 641,000 bushels of pears is expected.

Detective Ellis H. Parker and family, of Mount Holly, are at their cottage in Beach Haven for the summer.

County Detective Ellis H. Parker is attending the annual convention of the International Chiefs of Police Association at Chicago this week.

The New Jersey State Museum is planning to conduct a special Revolution exhibit this fall in connection with the Sesqui-Centennial celebration. Revolutionary war relics, Colonial furniture and other articles pertaining to Revolutionary times in New Jersey are being collected and prepared for exhibition.

It is said that the Public Service Trolley Company is considering a proposition to extend its trolley car service from Barton's Landing road to Hancock Park, at least for the remainder of the summer, and that the trolley cars of the Burlington County Transit Company may also be utilized by the Public Service for the storage of cars.

Out of the matter of the rum, drug, white slave and civil prosecutions, that cluttered up the Federal District Court in New Jersey throughout the recent year which ended June 30 last, the United States Government in New Jersey emerged enriched by a total of \$282,825.34 in fines, judgments and court costs.

DANCE SUCCESSFUL

Moorestown Community House Affair Well Attended

The first Moorestown Community House Association dance given under the auspices of the Social Recreation Committee was held last Saturday.

It was undoubtedly a success, judging from the number of people present. Not only was Moorestown well represented but also many nearby towns.

During the dance an announcement was made that the next Community House dance will be held on Friday evening, Aug. 6, at 8:30 o'clock. Charge of admission will be 50 cents a person.

To the Housewife
We should like to hear how much of a help you are finding the new era. Any suggestions or suggestions you have will be very welcome.

Home for Undernourished Children Opened by Tuberculosis League

Thirty Burlington County Boys and Girls Enjoying Play and Rest at Oxmead

Continuing the work begun two years ago at Brown's Mills, the Burlington County Tuberculosis League has opened its preventorium for undernourished children at "Oxmead," the Parrish estate, on Oxmead road, three miles from Burlington.

Thirty girls and boys from all parts of the county, selected from the number of children between the ages of 7 and 15 years reported by school doctors and nurses to be suffering from malnutrition, are spending the summer there. Under scientific supervision and care, they follow out a daily program which tends to correct their trouble. Light chores, play out-of-doors, a daily sun bath, an approved nutrition program which includes a quart of milk for each child daily, and an afternoon rest period, are among the features of the program to bring the children to normal condition.

Remarkable results were obtained among the children at the preventorium conducted at "Oxmead," Brown's Mills, during the past two summers, and the work is attracting county-wide attention and support. This year, through the generosity of James C. Parrish, of the estate, an approved nutrition program which includes a quart of milk for each child daily, and an afternoon rest period, are among the features of the program to bring the children to normal condition.

As the large mansion on the estate had not been occupied for more than 20 years, extensive repairs and renovations were necessary before it opened for the children. The proceeds from lawn fetes and rummage sales, together with generous contributions

from persons interested in the work made it possible to repair and equip the house sufficiently to accommodate 30 children this summer. It is estimated that there will be ample room for 10 boys and girls at "Oxmead" next year.

The preventorium work is carried on by the league without financial aid from State or county; nor are the county children who attend the preventorium required to pay any board. A small charge is made for any children accepted whose home is outside Burlington county.

In addition to contributions of money, equipment for the preventorium has been received from various sources. Screens for every window in the mansion were provided by John A. Roebbing's Sons Company, of Trenton; a kitchen shower bath, for the league provided full equipment for the kitchen; dishes were given by the proprietors of Chalfont-Haddon Hall, Atlantic City; silverware was purchased with money contributed by the County Council of Parent-Teacher Association; books were donated by the State Masonic Home and the State Library, and various articles of furniture were offered by friends and members of the league.

Dr. Marcus W. Newcomb, of Brown's Mills, is president of the league, and Miss Margaret S. Halnes, of Burlington, is the executive secretary. The Preventorium Committee, of which William Darnell, of Moorestown, is treasurer, has as follows: Dr. M. W. Newcomb, Brown's Mills; Miss Alice Keller, Burlington; Mrs. Hannah Black, Hartford; Mrs. William Rogers, Crosswicks; Mrs. George Hobbs, Florence; Miss Helen N. Henderson, Johnstown; Miss Helen C. Parrish, Philadelphia; Miss Margaret Hathaway, Brown's Mills; Mrs. J. S. Moyer, Brown's Mills; Mrs. Charles D. Gault, Hainesport; Mrs. Henry Wright, Mount Holly; Dr. R. F. Darlington, New Lisbon; Mrs. John H. Sinex, Edgewater Park; Mrs. Elwood Hollinshead, Moorestown; Mrs. Albert Haines, Masonville; Mrs. T. M. Eastwood, Burlington; Miss Emma Chandler, Moorestown; Mrs. M. W. Newcomb, Brown's Mills; Mrs. Paul Burk, Bridgeton; Mrs. Helen Haas, Medford; Mrs. Charles Carpenter, Brown's Mills.

Church Summer School in Session

Students Preparing For Leadership in Religious Education at Blairtown

The Summer School of Methods now in session at Blairtown, New Jersey, reports the largest enrollment since moving to its present location. Three hundred and thirteen students, representing every county in New Jersey and three neighboring states are preparing themselves for leadership in religious education.

The New Jersey School of Methods is the oldest summer school for religious educational leadership training in the United States. It was founded by the Rev. E. Morris Ferguson, D. D., at Asbury Park, in 1894. For thirty years it met each summer at Asbury Park until 1924 when it moved to Blairtown, in the mountains of Warren County within sight of the Delaware Water Gap, where on the beautiful campus of the Blair Academy with its commodious buildings it has an ideal new home.

The school is conducted by the New Jersey Council of Religious Education as one of its leadership training activities.

The day's program at the summer school includes four fifty-minute class periods beginning at 8:10 and followed by a chapel service at 11:50. One hour's study outside of class is required for each hour in lecture or conference. The afternoon is given up entirely to recreation. The sixteen tennis courts are in constant demand for tournaments. The baseball diamond in the athletic field is used daily with games between the different dormitory groups and the swimming pool is always a popular feature of the afternoon program.

After supper a vespers service is held on a hillside facing the sunset. The Sunday evening vespers service on July 11 was a special event in the history of the school. The sacrament of the Lord's Supper was administered by clergymen of four denominations and participated in by students representing eleven denominations.

Those present from Burlington County include the Rev. R. J. Beasley, executive secretary, and nineteen students, from Mount Holly, Burlington, Bordentown, Palmyra, Riverton, Medford, Johnstown, and Fenton.

Among the students are the following from Palmyra: Miss Edna Lloyd, Mrs. Etta M. Kemmerle, Mrs. Harriet W. Bawerling, Mrs. Margaret C. Seelhorst, Miss Mary A. Green, Miss Lydia S. Horton, Miss Frances S. Green and Miss Pearl C. Coulson.

BAPTIST CHURCH

The last of the series of sermons drawing lessons from Nature will be delivered by the Rev. George Lockert next Sunday morning at 11:15. This subject will be "Lessons from the Mountains."

In the evening at 7:45 the pastor's topic will be "God the Creator."

July attendance for these services has been splendid and very inspiring to the pastor. Do not miss the last of the series.

Bible School meets at 10, Sunday mornings. Prayer meeting, Wednesday evening at eight and Young People's meeting on Friday evenings. Come and bring a neighbor.

MAYOR LEES

Councilman Edwin Lee, of Palmyra, has been appointed Mayor during the absence of His Honor James C. West who is making a 150-mile motor tour to his birth place, Independence, Iowa.

Mayor Lee will carry on about three weeks and Mr. Lee will not be a special deputy until Mayor West returns from his tour.

POLICE CHIEF'S ENDORSE ALL STEEL MOTOR CARS

Approval of all steel automobile body construction was expressed by all but 24 out of approximately 500 police chiefs interviewed on the subject of Highway Accidents and their Prevention, according to a statement in a recent issue of the Literary Digest.

These police chiefs from all parts of the country were interviewed in the making of a survey which was submitted to the Second National Conference on Street and Highway Safety, held recently in Washington under the supervision of Secretary of Commerce Hoover.

As quoted in the Digest, Harold D. Buttenheim, editor of The American City Magazine, in submitting the results of the survey to the conference said:

"The last question dealt specifically with lowering the fatalities by constructing closed car bodies of steel on the same safety principle as the all steel railway coach. All but eighty-six answers this affirmatively. A number of the chiefs were decidedly emphatic in their answers, relating experiences of theirs which indicated conclusively that in the wrecks involving all steel bodies they had found the strength of steel had saved the lives of passengers."

"One California chief pointed out that not only did the all steel body protect passengers in unavoidable wrecks, but that the reduction in the size of the pillars supporting the top gives the driver a better view of the road and permits greater opportunity to avoid accident than the bulky wood posts often used in closed car construction."

This is a sincere tribute to Dodge Brothers, the first automobile manufacturers to recognize the strength and safety of the all steel body," said C. R. Sweeney, Palmyra Dealer, in commenting on this article. The all steel body is destined within a few years, I believe, to replace the wood framed automobile body just as certainly as the all steel railway coach and the all steel steamship have replaced those made of wood."

Fined for Reckless Driving

On Thursday of last week, Nick Marchiselle, of Camden, was arrested on the complaint of Allen T. Green, of Palmyra, whose car he ran into. The charge was reckless driving. Justice of the Peace Codrington, of Riverton, imposed a fine and costs amounting to \$5.55.

Moorestown Bank Merger Arranged

Burlington County Trust and Moorestown National Soon To Be Consolidated

According to an announcement by George B. Evans, of the Burlington County Trust Company, definite action has been taken toward the consolidation of the Trust Company and the Moorestown National Bank and the merger will probably be completed before the combined organizations go into the new Burlington County Trust Company building which will be erected on the site now occupied by Coles' Hotel.

The negotiations have practically been completed, although the Trust Company has not yet completed buying in all of the bank stock, which it is purchasing with Trust Company stock.

As the result of the merger, the Burlington County Trust Company will increase its capital from \$200,000 to \$300,000, its surplus from \$100,000 to \$500,000 and will have undivided profits amounting to \$200,000.

Of the \$700,000 in the Trust Company's capital, only \$100,000 of it was actually paid in while the other \$600,000 represent the earnings. Only \$50 was paid in on each share and the other \$50 was declared as a dividend from the earnings while the \$100,000 surplus and \$200,000 undivided profits were derived from the earnings.

After the merger has been completed, the bank employees will be given positions with the enlarged Trust Company, which would necessarily have to increase its force to meet the increased business of the combined institutions.

Mr. Evans says final settlement has been made on the Coles hotel and after a series of conferences with the architect, the directors are prepared to advertise for bids in the near future. The new banking home, which will be a splendid structure, probably with a white stone exterior, will be sixty feet across the front and eighty-five feet deep, two stories in the rear and one in the front.

It is said that man can now fly four times as fast as the birds but the birds still have it on him when it comes to engine trouble.

Watch for Special Railroad Rates To The South Jersey Exposition

BECAUSE—To be truly well-informed one should know all about the place where he lives. The state has prepared exhibits costing over \$150,000 which are extremely interesting and educational. For example - What color are 1927 license tags? You should visit the Exposition and find out. This and thousands of other questions can be answered by these displays.

BECAUSE—There are many interesting commercial exhibits for you to look at representing many thousands of dollars worth of time and effort.

BECAUSE—There is a world of amusement and fun awaiting you including fireworks, circus, shows, rides, athletic events, wild west, etc. There is a special playground provided for children.

HOW TO GET TO THE EXPOSITION

The Exposition is located off Haddon Avenue, Haddon Avenue is one of the main streets of Camden and has bus and trolley service every several minutes. From the Penna. Railroad Terminal, Camden any car or bus marked Haddon Avenue will take you to the grounds in about ten minutes.

RIVERTON, NEW JERSEY, THURSDAY, JULY 29, 1926

PRICE FIVE CENTS

FREEHOLDERS TAKE OVER TROLLEY COMPANY'S TRACKS

Will Assume Maintenance For Sum of \$1000; Rails Will Be Covered

PRISONER RELEASED BY ACTION OF BOARD

When the Board of Freeholders met for their regular meeting last Friday the trolley track question between the county, Northampton township and the Burlington County Trolley Company again played a prominent part in the proceedings of the meeting. The transit company submitted its responsibility for the tracks on Washington street, west of King and High street, north of Garden, in Mount Holly on the county for a consideration of \$1,500, free from all liability.

The resolution that was passed by the board was prepared by County Solicitor Wells and introduced by Director Russ. With the passage the eight feet of roadway on these streets, which has been maintained by the trolley company, will now have to be maintained by the county and the rails taken out or left in and the cavities along the tracks filled and made level with the balance of the street. It is understood that Northampton township is not a party to this transaction.

Horace Roberts and Wilmer Collins, directors of the Transit Company, attended the meeting. The former stated that the trolley tracks between Mount Holly and Burlington and Mount Holly and Moorestown would be removed immediately with all overhead wires, etc., but that the tracks on the Hainesport bridge would be left until the county was ready to put on the new tracks. The Transit Company would cooperate with the county.

Thinks Bill Too High. Director Russ discovered after he had voted for the passage of the bill of W. Holt Apper, special investigator in the recent conspiracy cases, that he did not intend to approve it. He said a little investigation of his own and found that the bill amounted to \$9,130. After explaining that he thought the bill excessive, being at the rate of \$35,000 a year for a prosecutor, Apper having been employed by the county for about three months, asked to have his vote recorded against it. Russ also indicated that if Apper had been successful in securing a verdict for the state, he would have thought the bill rendered more justifiable.

Whenever applications for culverts for drainage purposes are presented it always brings out the question of responsibility and investigation, and Freeholder Fisher, of the bridge department, thought this long mooted question of responsibility should be settled once and for all. He suggested that the matter be referred to Solicitor Wells, which was done.

Fisher thought there were numerous places throughout the county where there should be guard rails erected to protect the traveling public. Freeholder Wright said that it would cost \$75,000 to erect guard rails in the county and he favored widening of the roads and installing a substitute. He said there was less danger to the occupants if a car were to run off the road and into a ditch than there would be if the car first ploughed through a guard rail and finally landed in a ditch.

Warning by Lippincott. Freeholder Lippincott said the board should proceed very carefully in the matter of erecting guard rails, as it would be very easy to spend a lot of money unnecessarily. In fact, in Mr. Lippincott's opinion, some money had already been in judiciously spent, but when Director of Bridges Fisher asked where the rails had been erected unnecessarily, Mr. Lippincott replied that "he did not propose to get into an argument." Mr. Fisher, however, stated that if his department was making a mistake he wanted to know it. Then Mr. Lippincott pointed out a place on the Vincentown road, and Chambers Corner as two of the places where work had been done unnecessarily. Mr. Fisher replied that the Vincentown road work was replacement and that there was a dangerous curve at Chambers Corner which should be guarded.

Mr. Fisher said there were many small bridges in the county which should be painted. Freeholder Stout suggested that a schedule be made out providing for the painting of a certain number of these bridges every year. In about five years, he said, all the smaller ones would have been taken care of, and then the rounds could be started over again. By this plan, he said, all the bridges would be painted once in five years, which ought to keep them in pretty good shape. Mr. Lippincott interjected that he had tried to establish such a system four years ago when he was director of the bridge department.

The clerk of the board was authorized to advertise for bids for furniture for the new Nurses' Home in connection with the Fairview Sanatorium at New Lisbon. A communication notified the members of the board that the next meeting of the State Association of Freeholders will be held at Woodbury on August 9, when the local board will be represented.

BEETLE CONTROL WORK SHOWN

Visiting Entomologists Are Shown Methods at Riverton Laboratory

Following the summer meeting and field trip of the Northeastern Entomologists a number of the members spent July 23 at the Japanese Laboratory, Riverton. A field trip was arranged for the visiting scientists which included the grub control project at the Riverton golf course, beetle control by spraying at several orchards and an exhibition of the attractant-contact spray.

Among those present were: J. N. Knull, H. B. Kirk, and F. M. Trimble, Harrisburg, Pa.; Dr. Hugh Glasgow, Rodney Cecil, Geneva, N. Y.; Dr. R. D. Glasgow, University of Illinois; H. L. Dunler, Delaware; Dr. Alva Peterson, Riverton, N. J.; S. M. Dohlan, T. H. Jones, Melrose Highlands, Mass.; P. T. Barnes, J. G. Sanders, Philadelphia; Albert Hartzell, Yonkers, N. Y.; J. R. Springer, Florida; J. K. Stear, Chambersburg, Pa.

Connie Mack Takes Luciano

Riverton's Star Shortstop Played First Game at Dover on Monday

Ball players may come and ball players may go but Joe is going on forever—higher up in the major sport of America.

Joe Luciano, a Philadelphia lad of only twenty-three years came from the Suburban League of Philadelphia to play regular Saturday baseball with Riverton. About the middle of June, Trenton signed him up to play Sunday ball. The Eighth Ward Lancaster team's management liked his playing with Trenton and signed Joe up with the Eighth Ward team, taking him away from Trenton, entirely. Joe also played with the Elkins Park team.

Joe only played five games with the local team, missing one on account of illness, but his record is an enviable one with the Riverton team. His standing is:

AB 11, R 11, H 17, 11-9-0. Two of his eleven hits were two-runners and another a three-bagger. Joe was never once fanned in his five games with Riverton. It was quite noticeable that after Joe's first time at bat, in every game, the opposing outfielders played "dead" when he came up to bat in the succeeding innings.

Besides having an excellent batting record of .668 Luciano has a fielding average of 1.000. Joe not only has ability to stop liners and grounders and catch flies, but he can throw from third to first a ball which will not vary in height from the ground, more than six inches.

The management of the local club is very sorry to lose such a player as Joe, but they are happy to see him climb upward.

Joe's date of birth is 1903. He looks and they turned his name in to Mr. Mack. Connie sent Joe to Dover, Delaware, team in the Eastern Shore League for a little seasoning. Joe may play in Philadelphia this season and then again he may play in Dover until next spring.

Luciano left Philadelphia Monday morning at eleven o'clock for Dover and was put in the line up for Monday afternoon's game.

Everyone wishes Joe good luck and plenty of it. It is the hope of the Riverton team and management to attend the first game Joe plays in Shibe Park in a body and a cordial invitation is extended to all those who wish to go along and root for the lad.

The date of his first appearance will be announced in these columns, if possible.

GRAYS WIN

Riverton Twilight League Team Downs Baptists

The Riverton Grays overwhelmed the Baptists in a Twilight League game played at Field Club Monday evening by a score of 10-1.

Lytle was on the mound for the victors and he allowed only four hits while the Grays gathered nine from Graham, the Baptist pitcher. Graham pitched a good game for his team but he received poor support while the Grays played in big league style and were, seemingly, everywhere at the same time when a ball was hit.

Krause was the heavy hitter and scored for the victors with two of such and Wallace was a close follower with one run and two hits.

FIREMEN WIN

May Lamont Has First Defeat of Season

The Firemen were victorious against the Methodists in a game played Tuesday evening at the Field Club grounds to decide the logical contenders for the championship of the second half series of the Twilight League.

The score was 10-4. Lamont, the Methodist twirling ace, was way off form and coupled with the poor support of his teammates and the excellent playing of the "fire eaters," it is easy to see why the Firemen were victorious. It was the first game lost by Lamont this season.

The big lining for the victors was the third when they scored four runs.

It started with Stack and Truitt being hit by pitched balls. With these two men on base Harker singled. King fled out to center field and Bennett struck out.

Wellman next came to bat and singled. Wenger also singled. Conway struck out and the inning ended with the Firemen four runs in the lead.

It is expected that a silver loving cup will be donated to the team that emerges victorious in a three-game series to be played at the end of the season.

This Thursday evening the Baptists and Methodists will engage in a game.

Field Days for Study of Beetle

Prominent Officials From Washington and Three States Witness Tests

Great interest was shown by the many visitors at the Japanese Beetle Laboratory, Riverton, on Wednesday and Thursday of this week when field days were held for prominent officials of New Jersey, Pennsylvania, Delaware and Washington.

An elaborate program was prepared by members of the laboratory under the direction of Loren B. Smith, in charge of the Japanese Beetle Project. Opportunity was afforded the visitors to become acquainted with all phases of the work being conducted at the laboratory and to observe practical examples of control in the field.

The morning program began with an inspection of the Toxicology Laboratory where chemicals in spray form are being tested against the beetle. The history of the Parasite Diapars was next examined. Methods employed in rearing the various parasites were explained together with the method of collecting and shipping from foreign countries.

The Physiology Department presented an interesting exhibit of several types of traps, bait-cans and other apparatus used in field and laboratory work. A trip was then made to the Riverton Golf Course where the turf insecticide plot work was inspected and methods of golf green treatment discussed.

Following the return to the laboratory the visitors were informed by guests and members of the staff after which the party repaired to the Lawn House for luncheon.

At 1:00 p. m. the field trip was made by auto to several orchards, both apple and peach, where opportunity was given to observe injury caused by the beetles on un-sprayed trees and the excellent protection attained when spray recommendations were carefully followed.

A feature of the trip was the demonstration of a geraniol-contact spray. The geraniol was first applied to a tree in spray form and immediately attracted the beetles to the vicinity by the thousands.

The oleo-resin pyrethrum contact spray was then applied by means of a high-powered spray outfit. Soon after the application dead beetles covered the ground under the trees.

At 3:30 the caravan returned to the laboratory where the guests left for their various destinations.

HIT AND RUN

Colored Man Quickly Apprehended After Moorestown Accident

Through quick action of Moorestown police a "hit-and-run" driver was apprehended before he had driven many miles Sunday evening. Ernest Patterson, colored, of Collierville, driving a high-powered machine of a striking cream finish, sideswiped another automobile near Borton's Landing Road Sunday evening and sped off.

FATALLY HURT BY TRAIN

Remey C. Loreaux Dies From Injuries at Palmyra Railroad Crossing

WALKS IN FRONT OF SPEEDING TRAIN

Remey C. Loreaux, 424 Lippincott Avenue, Riverton, was fatally injured Saturday evening when he was struck by an eastbound freight train at the Morgan Avenue crossing, Palmyra.

He had been visiting his daughter, Mrs. J. Elliott, of Morgan Avenue, and left to go home. Apparently unaided of the train he started across the tracks.

The engineer frantically blew his whistle and the crossing lights flashed but deep in thought, Mr. Loreaux continued on his way.

The engineer applied his brakes but it was too late to stop. The force of the impact hurled the victim forty feet.

Chief of Police C. Morris Beck was notified and he obtained the Palmyra Ambulance and rushed to the scene. Placing the man in the ambulance he called the Cooper Hospital, Camden.

Upon arrival at the hospital Mr. Loreaux seemed to be in possession of all his faculties and did not lose consciousness for several hours.

He conversed with Chief of Police Beck telling him he knew him and at the same time asking permission to get out of bed and walk home.

Father Paul N. Fairbrother, of Camden, was called about two o'clock Sunday morning and at the same time the victim's family was summoned. He passed away early Sunday morning. The body was removed to the Snyder Funeral Home, Palmyra.

Mr. Loreaux came to Palmyra sixteen years ago from Philadelphia. He was a charter member of the Palmyra Artisans and was a member of the Riverton Knights of Columbus. He had been employed at the Keystone Watch Case Company, Riverside, for over thirty years.

The deceased is survived by his wife, Clara, two daughters, Mrs. James Elliott, of Palmyra, and Mrs. John Hulings, of Riverton, and three sons, Remey Jr., Clovis and Robert.

Funeral services were conducted at his late home Wednesday morning followed by High Mass at the Church of the Sacred Heart, Riverton, the Rev. Joseph A. Rigney, officiating.

Interment was made in the Calvary Cemetery, Camden. Frank A. Snover, Funeral Director, in charge.

GOVERNMENT MAY PROBE RUM SCANDAL

New Man Sent to Mount Holly for Copies of Evidence and Witnesses

That the United States government is not willing to accept the Burlington County jury's verdict in connection with the men arrested for conspiracy as a result of the raid staged at Adams' Wharf by Detective Carls and Troopers Nicol, Wilton, Greene and Rankin on October 1, when a large load of fancy liquors was confiscated and fifty-eight men arrested, is evidenced by the fact that last week a Department of Justice man appeared in Mount Holly—and by the way he was heard to say in this vicinity, which is also significant.

He visited the County Clerk's office and secured a list of the witnesses in the recent conspiracy cases tried there, and which ended in a verdict of acquittal. He secured a typewritten copy of all the testimony adduced.

The department of justice man was extremely reticent when interrogated as to what would be the probable outcome of his visit, but he did drop the remark that the government did want to make some comparisons.

As it is well-known that a certain Bridgeboro resident who was missing at the time of the trial has since made some damaging statements which corroborated the confession of Charles Sharp, in many particulars, it is thought that the government is in possession of another confession.

GOOD WORK

The traffic in Palmyra moved along very smoothly Sunday evening despite the fact that it was very heavy during the latter part of the evening.

Under the direction of C. Morris Beck, Chief of Police, the steady streams of cars were kept moving in the four directions at the corner of Chestnut and Morgan Avenue and Broad Street.

It is estimated that 4500 cars went over the ferries in both directions over the weekend. The new Delaware River Bridge is not affecting the business of the ferry company to any noticeable degree.

200 AT PICNIC

Epworth Sunday School Enjoys Day at Tuxton Lakes

Over two hundred persons enjoyed the picnic of the Epworth Sunday School at Tuxton Lakes Saturday. About 115 made the trip in the buses while the remainder joined the party later in the day.

Many prizes were awarded to the contestants in the various races, running, potato and other races, while several hours were spent playing games.

BACK TO JAIL

William Eble Gets Work and Is Sent to Reformatory

William Eble, of Palmyra, was arrested by Chief of Police C. Morris Beck Wednesday morning, charged with breaking parole. Eble had been sent to the reformatory at Rahway, and was recently released with the understanding that he would obtain employment.

He came back to Palmyra, obtained a job in Tacony, and it seemed as if he was "making good."

Later he quit his work and when caught Wednesday morning he was being taken back to Rahway.

LIONS ANNIHILATE MUCH FINE HAM

Palmyra Club Has Enthusiastic Meeting in Lutheran Church Basement

The Palmyra Lions roared and "bit 'em" Tuesday noon in the basement of the First Lutheran Church, where a splendid luncheon was served by the Lutheran ladies.

The place d'aisance of the luncheon consisted of some mighty tasty baked ham and the Lion President (sometimes pronounced "Ly-in' President") Dr. Francis Voorhis used all his ingenuity and persuasive powers in vain to obtain a second helping.

There were a lot of "docs" at the luncheon. In addition to the "Lion President," there was Doc Bauer, also an M. D., Doc Voorhis, Sr., dentist and Doc Ehrhardt, pastor. Doc Dunn, another dentist, was scheduled to appear but somebody's toothache prevented.

Five new members were added to the roster of the organization and several other likely Lions are being considered.

Doc Ehrhardt has promised to practice up on the piano on several Lion songs so that Frank Kates, the rambunctious Lion song leader, will be able to hold the key and tune at next meeting.

Name Committees For Old Home Day

Palmyra Organizations Selecting Representatives To Help Arrange Celebration

Several replies have been received by Walter D. Lamont, Secretary of the "Old Home Day" Committee from various organizations and churches which have appointed committees to act in conjunction with the general and executive committees of the "Old Home Day" celebration which will be larger, greater and better than ever this year.

It is pleasing to note that the first replies received were from the churches who were anxious to make this day a success.

While the list grows every day a meeting of the general committee will be held Thursday evening in the Legion Home, Broad street, and definite plans will be laid.

The sub-committees appointed are Central Baptist Church, W. Cooper and J. H. Pike; Methodist Episcopal Church, Leonard R. Baker and A. Harry Rudduck; Lutheran Church, N. H. Schriver and J. Warren Benson; Christianson Lodge I. O. O. F. Christian Rudolph and Huls Roach; Covenant Chapter Order of Eastern Star, Mrs. William Colsey and Mrs. George W. Rogers and the Lions Club, C. A. Buohi and Dr. H. W. Bauer.

An earnest appeal is made to the residents to forward the names and addresses of former residents of Palmyra that invitations may be sent. It is requested that this be done as soon as possible in order that the out of town "old timers" will have plenty of time to make their plans to attend.

The spirit is growing and the enthusiasm is spreading rapidly and it is expected that within the next few weeks everyone will be lending a hand to promote this day of celebration.

P. O. S. of A., William Branson, Edward Patterson; Palmyra-Riverton Club, Herman Eichner and Luke K. Eberly; Covenant Lodge Free and Accepted Masons, James Hartley and De Witt Morris; Girl Scouts, Miss K. Green and Miss C. Curry, Knights of Columbus, William J. Eck and Thomas W. McCann; Commercial Club, of Palmyra, Roland Price and Charles Cook; Artisans, Horace Finney and Harry Battinger; Independence Fire Company of Palmyra, H. Kemmerle and Joseph Stack; Boy Scouts, Albert Fry.

BOOM REEVES

Local P. O. S. of A. Man Hacked For Hate Office

Leslie O. Reeves, of Riverton, is being backed by Camp 23, P. O. S. of A. as a candidate for the Master of the Palmyra Chapter of the P. O. S. of A. at the State Convention to be held in Paterson, August 14th.

Reeves has served in many offices of the organization and has been secretary here for over ten years.

He is a member of the State Auditing Board of the P. O. S. of A.

For many years he has been active in all work and his friends are busy among the members seeking and pledging support for the candidate.

A committee has been formed by the delegates from here for the purpose of backing the local man at the convention.

"DOC" HINKLE ON MOUND SHUTS OUT PENDALE A. C.

UNFAMILIAR FACTS

Some spiders catch tadpoles. The Arabian horse has fewer vertebrae in its back and tail than other horses.

Producing peanut oil is an old industry in southern France. Shakes can not be charmed by human beings, naturalists say.

The ancient mound builders of the Mississippi Valley made the first roads in North America.

The building was so named because of its skill at fighting bulls in the sport of bull baiting.

Explosives were used this year to hasten the breaking up of the ice gorge in the Allegheny River.

Portland cement got its name because it resembles a kind of stone on the Isle of Portland, in England.

When George Stephenson, pioneer railroad builder, said that fifteen miles an hour was a practical speed for travel, his sanity was questioned.

Palmyra Beats Belfield 16-3

Lop-sided Victory Won by Field Club in Saturday Contest

The Palmyra baseball team handed the Belfield Club, of Camden, a trouncing Saturday afternoon at the Field Club grounds, by a score of 16-3.

Scoring two runs in the first inning, the locals played a hit and run game. Another run was registered in the third and then the fireworks broke loose.

Two double steals were registered this inning by Ruckholz and Andrews and Wellman and Ruckholz. These two plays were the going and on top of these plays Ruckholz, the hitting ace, drove out a two-bagger, cleaning the bases, and adding three runs to the credit of the team.

At the end of this session Palmyra was in the lead by twelve runs, the score standing 13-1.

The seventh and eighth innings were a rout for Palmyra. Three more runs were added.

Belfield tried three pitchers but they could not halt the onslaught.

This Saturday one of the finest teams in this section will cross bats with Palmyra. The Morrill Professionals, of Philadelphia, will be the attraction. They have played such teams as Melrose, of Atlantic City, Audubon Police and Kingston, N. Y.

The following Saturday another strong club will be here in the form of the Kensington A. A., of Philadelphia.

Come out and help the boys. They would enjoy your support.

CORNERSTONE LAID

Impressive Ceremonies Held By St. Paul Colored Church

The cornerstone of the St. Paul Union American M. E. Church, of West Palmyra, was laid Sunday afternoon and very impressive ceremonies arranged by the Rev. Dr. Daniel Ennis, pastor, and his congregation.

The Rev. B. F. Fernandez, pastor of the African Union Church, Camden, was the master of ceremonies.

The Rt. Rev. J. P. Ramsey, Bishop of the Diocese, spoke at the ceremonies and emphasized the fact that the laying of the cornerstone marked a step forward in the progress of the church and its congregation.

Orlando S. Watts, President of the Standard Enameling Company, also gave a very brief talk on the advance of the church.

Johnny Fay Stars at Short With Eight Assists and Two Stolen Bases

LUCIANO SIGNS UP WITH CONNIE'S "A's"

On Saturday Riverton's diamond demons marched to their fifth straight victory at the expense of the strong Pendale A. C., Philadelphia by a 5 to 0 score. "Doc" Elzabik did the mound duty for Riverton again this week.

The local boys played excellent ball. King and Bennett could not shine in center and right field because not once did either have a chance to handle the ball, nevertheless King came through at the bat with two singles, while Bennett's only hit scored Fay with Riverton's second run in the first.

The Riverton infield pulled some classy fielding in the first and third frames. In the first McDermott was out at first, Fay to Truman. Miller walked. Fulton hit into a double play, Gaffney to Hyton to Truman.

In the third Hyton started the double out play on Lawler's hit after Elzabik had singled, by tossing to Fay who covered second and shot the sphere to first to get Lawler.

In the first Elzabik picked up Hyton's short hit and threw him out at first. King slashed a one-base hit through the infield. "Jimmy" (Bykes) Gaffney sacrificed to second with a nice little bunt.

Johnny Fay came through with a scorching hit for one base, scoring King, going to second when a play was made for King at home. While Bennett was taking two strikes Fay stole third. Bennett lined one through pitcher's box which was too hot for Lawlor to handle and which nearly gave Joe Dorgan a free shave. It took quick work for the pitcher and ump to get out of the way of Bennett's line smash.

Mendenhall was safe on Milner's error. The umpire struck Samuyl Rogers out.

"Cup" Fans Him. In the fourth Samuyl was again struck out by the ump. Buck Truman was tossed out at first by Lawler. "Doc" started things by getting his second hit of the game, a nice single to center. "Doc" stole second and scored on Hyton's timely single. Bunney took second of the over. In the fifth King singled to center but Fulton made a perfect peg to the plate to cut Hyton off.

Singles by Mendenhall, Rogers and Truman manufactured two more for Riverton in the sixth.

Only once were the victors in a position to score. In the fourth Fulton doubled and tried to score on Milner's infield hit but Jimmy Fay threw him out at home.

"Doc" reigned supreme in the sixth by striking out the top three batters of the lineup.

Milner scintillated afield at shortstop with five assists. Lawler had three assists.

Johnny Fay had a total of eight assists and two putouts for the local team. Fay is taking Joe Luciano's place at short. Joe has joined Connie Mack's club and has been sent south for the balance of this season.

Everybody Hits. Hyton, King, Truman and Hinkle garnered two hits apiece, while all the other Riverton players came through with one each.

Score by Innings:
Riverton 2 0 0 1 0 2 0 0-5
Pendale 0 0 0 0 0 0 0 0-0

Two-base hits—Fulton, Stolen bases—Milner, Gaffney, Hyton, Truman; Hyton, Fay, Truman. Struck out—By Hinkle 6, by Lawler 7. First base on called balls—Off Hinkle 2, off Lawler 2. Sacrifice hits—Gaffney.

Time—1 hour, 15 minutes. Umpires—Dorgan and Holvick. Must Have Support.

If the team is to continue to carry on it must be given better support. A team can't play ball on nothing, and without financial and moral support a team is helpless. Whether or not the team keeps on playing and winning rests with the people of Riverton.

So far this season the team has played ten games, winning eight, and losing two for an average of .800.

Fans Mutual, of Philadelphia, champions of the Financial League for the last four years will play Riverton this Saturday.

RAMMED BY TRUCK. One of Wanamaker's trucks ran into the Mack car driven by Mrs. Clement Biddle Lewis at Taylor's Lane last Tuesday morning. The Wanamaker truck wrecked its radiator and poked a hole in the back of the Lewis car. Mrs. Lewis had showed up and signaled for a turn. The Wanamaker driver thought she was going to turn right and did not slow down when she saw the Mack car.

Senate Approves Judiciary Change

New Jersey Legislature Passes
Bill For Reorganization
of Courts

With the adoption of a few minor amendments, the State Senate has passed the Case concurrent resolution, providing for the reorganization of the judiciary whereby the Court of Errors and Appeals would be abolished and an appellate tribunal created, consisting of a presiding judge and six associates who would be appointed by the Governor with the advice and consent of the Senate.

By a strict party vote of 16 to 2, the Senate passed a series of four proposed constitutional amendments, which had been consolidated into one measure, increasing the term of the Governor from three to four years, that of the senators from three to four years, members of the assembly from one to two years, and providing for biennial sessions of the Legislature.

The decision to consolidate the four resolutions was reached at a conference of the senate majority to prevent possible confusion which might ensue in the event of separate passage upon each proposal individually. It was pointed out that there was a probability of the electorate adopting one or more of the resolutions and rejecting others. For that reason it was decided all four should be merged into one resolution.

Both Senators Simpson and Agans, the two Democratic members present, voted against the proposed amendments, in arguing against the resolutions Senator Simpson, the minority leader, pointed out that no provision was made for the establishment of assembly districts, which he characterized as a mistake, and further facetiously declared that in event of biennial sessions no one would know when such deliberations would terminate, having in mind that when annual sessions are held a considerable time is wasted.

In that connection he pointed out that the Legislature was in session in July with annual deliberations, and if it was decided to conduct sessions every two years there would be no telling when the legislators would get home.

Under another resolution, advocated by Senator Richards, the amendments to the Constitution could be offered every year instead of every five years as at present. Further, the proposal would enable amending the Constitution at general elections instead of at special elections as at present provided. The resolution, however, further provides, as amended by Senator Richards, that in the event a subject is offered for amendment to the Constitution and defeated that same subject cannot be submitted again for five years.

Governor Moore surprised the Republican majority in the Legislature when he announced that he had signed the four measures known as the water policy bills.

PROGRESSIVE METHODS

A new field for the use of illuminating gas is found in the process of using it with oxygen for metal cutting. Recent tests show that it is cheaper, safer, more available, and it may find its way into the welding and cutting shops of the country over. Especially because of its lower cost, it has a profound influence on manufacturing. The rapid increase in the use of this fuel is just another step in the progressive development of the American industrial system.

ROGERS—SLEEPER

One of the most attractive weddings in Burlington County this summer was that of Miss Mary Eleanor Sleeper and George M. Rogers, which took place in the First Methodist Episcopal Church, Mount Holly, at six o'clock Tuesday evening of last week in the presence of a large audience of relatives and friends. The decorations of palms, ferns and flowers made a beautiful background for the large bridal party. The color scheme was yellow.

The ring ceremony was performed by Rev. J. S. Garrison, of Sayreville, N. J., an uncle of the bride, assisted by the Rev. Franklin Haley, pastor of the Mount Holly church.

The bride looked charming in a colonial gown of white tulle, trimmed with real lace. Her veil of tulle was held in place by a bandeau of duchesse lace, and was trimmed with orange blossoms. She wore white lace mitts and carried a colonial bouquet of bridal roses and lilies of the valley. She was given in marriage by her father, George M. Sleeper, publisher of the Mount Holly Herald, on whose arm she entered the church.

Her maid of honor was Miss Esther Surman, of Camden, a classmate at Miss Ilman's school, Philadelphia, and the bridesmaids were Miss Winifred Sutton, of East Orange; Eleanor Pickard, of Lansdowne, Pa.; Elizabeth Rogers, Mildred Budd and Alice Clark, of Mount Holly, and Eleanor Petty, of Florence.

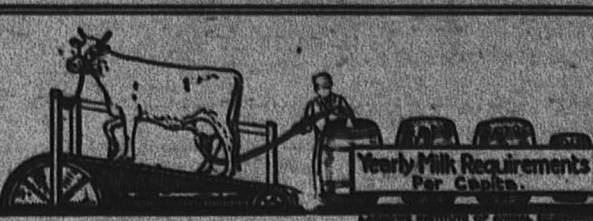

Old-fashioned frocks. These attendants were attired in old-fashioned bouffant frocks of yellow shades. The maid of honor wore a light shade of yellow tulle with skirt of ruffled tulle, black lace mitts, and leghorn hat trimmed with black velvet ribbon. They also carried old-fashioned bouquets of mixed flowers.

The bride's mother was attired in a beautiful gown of black beaded georgette and a picture hat. She wore a carriage bouquet of orchids and lilies of the valley.

The wedding march was played by Beverly C. Kingston and before the ceremony solo were sung by Miss Mildred Budd and Pierre H. Stanton—"Kashmiri Love Song," by Miss Budd, and "At Dawning," and "I Love You Truly," by Mr. Stanton.

After the wedding Mr. Rogers, who was best man, was escorted to his room by his ushers, who were William Jones, Vincent Ward, Daniel Wilson, and F. Russell, G. Harwood, and J. W. Smith.

Cow Works Three Months to Give Year's Milk for One Person

NINETY days of hard labor on the part of the average dairy cow will keep one person in milk for a year, according to the Larrow Institute of Animal Economics. At least, it takes three months for her to turn out the 1,004 pounds of milk necessary to provide the fluid and canned milk, cheese, butter and ice cream consumed per capita per year.

While this fact may be merely interesting to the person consuming the milk, it is of vital importance to the dairyman who depends upon this milk for a living. For while the 3,500 pounds of milk produced by the average cow in a year will meet the requirements of a family of four persons, by the time one has figured up the cost of the feed that has gone into the production, there really isn't very much left. The only way to permanently increase the income per cow is in greater milk production per unit, government figures showing that when a cow's milk yield is doubled the profit is tripled, and when the yield is tripled the profit is increased almost five-fold. Experiments have proven that it is entirely possible by better feeding and management to increase the milk yield of the average cow to a point where three cows could supply four families with milk. To do this, however, the hocus-focus feeding so commonly practiced on many dairy farms will have to give way to more scientific methods. Comfortable quarters for the cows, an abundance of fresh water at all times, a plentiful supply of good hay, and a properly balanced green ration are some of the things that go far toward securing greater profit per cow.

Royaton D. Engle, Palmyra.

After the ceremony a reception was held at the Biker Club, which was prettily decorated with palms and ferns, and the color scheme was carried out with yellow flowers.

Following a short honeymoon, Mr. and Mrs. Rogers will occupy newly furnished apartments at No. 45 Main street, Mount Holly.

Both the bride and bridegroom are graduates of the Mount Holly High School, class of 1924, and Mrs. Rogers also is a graduate of Miss Ilman's School, Philadelphia, class of 1926. The groom is a member of the men's clothing firm of George M. Rogers & Co., and is a son of Willard H. Rogers.

The American Legion

National Headquarters, War Memorial Building, 777 No. Meridian St., Indianapolis, Ind.

The American Legion, composed of men and women who served honorably in the armed forces of the United States in the World War, was organized in Paris, France, in 1919.

Was there ever a man who willingly admitted having shown poor judgment?

We read of a new roller-skating rink, capable of seating 2,000 beginners.—Florence (Ala.) Herald.

Rum Scandal Cost Less Than \$20,000

Aggar's Bill of \$9,100 Largest Item; Forfeited Bails Amounted to \$14,000

While the investigation and trials in connection with the Rancocas rum scandal were in progress, stories were circulated by those who would have been mighty well pleased to have the whole thing dropped that the cost to the county would run anywhere from \$50,000 to \$200,000.

In the light of these statements the actual cost is interesting.

According to the Mount Holly Herald, the total cost is about \$18,000. Of this sum, \$14,000 was met by the bails forfeited, leaving the net cost to the county \$4,000. In this connection, too, this newspaper points out that \$40,000 was collected in fines by the courts last year.

The conclusion then, seems to be that financially the frequent and flagrant violations of the prohibition amendment is not such a bad thing for the county, and but for the smirch on the fair name of the commonwealth all would be well.

The costs of the investigations and trials are given as follows:

Judge Loder's bill was for \$2,000 and about \$200 expense, while Mr. Aggar presented a bill for \$9,100 and expenses totaling about \$1,100. Add to this the bill of Detective Carlake amounting to less than \$5,000 and with miscellaneous items totaling less than \$5,000, the total expenses will not exceed \$18,000.

CONGRESS TO CONTROL INTERSTATE BUS TRAFFIC

The next Congress will undoubtedly put the control of interstate motor bus traffic in charge of the Interstate Commerce Commission, and those beautiful rolling and rattling dolls will be dignified by their arrival in a class with the railroads which they are putting out of business even though they are under the control of the Federal Government.

DIPPING INTO SCIENCE

Early Automobiles

If an automobile is a "horseless vehicle," then they originated several centuries back. A Jesuit missionary built "an improvement on the wind coaches of the natives." A jet of steam playing on a mill wheel furnished power. A London paper in March, 1742, announced the arrival from Bern, Switzerland, "of a chaise that travels without horses, carries five persons, and of sound mechanical principles." (N. Y. Times, Western Newspaper Union.)

FIREMEN NOT EXEMPT

Courts Revoke Tax Exemption in Law of 1925

Firemen in this state are not entitled to tax exemption, although the Legislature of 1925 passed a law which includes them among those entitled to personal and real estate tax exemption up to \$500.

This non-exemption ruling was made by the State Board of Taxes and Assessments last week, and notice of it sent to all county tax boards.

In impressing its view on local taxing authorities, the State Board based its conclusions on the fact that the courts have declared the exemption of firemen from property taxes as without constitutional warrant. The board cited decisions given by the courts construing earlier laws than the one enacted in 1925, through which firemen unsuccessfully have claimed exemption from taxation.

The statute in question exempts from poll tax and from the partial property tax persons in the military or naval service of the state, honorably discharged veterans of any war fought by the United States, widows of veterans and members of the volunteer fire departments.

Classes other than firemen are not disturbed by the board's ruling. It was also declared that since the poll tax exemption has never been passed on by the courts, this pro-

vision of the act is still in effect for all the classifications enumerated in the law, including firemen.

Tomatoes fresh, raw or canned are a good source of vitamins A, B, and C. This is the reason that child specialists often recommend that young children and sometimes babies be given tomato juice. It is a good plan also to include tomatoes often in the family menu.

Serve all lamb dishes piping hot, on hot plates, because many people object to the texture of the fat that has hardened as it has cooled. Tart jellies and tasty sauces also "cut" the fat and tone down the pronounced flavor of the meat.

Stopping advertising when your business begins to improve is like stopping fishing when you get a bite. —Altoona (Kans.) Tribune.

Thermometer Rose To Dizzy Heights During Centennial Exposition Summer

This Year Is Merely Traditional, According to News Items Published in County Paper During July, 1876

That the thermometer rose to dizzy heights fifty years ago about this time is evidenced in some clippings from a Mount Holly paper under the dates of July 26 and 27, 1876. They follow:

The Centennial year will be memorable for its heated term as well as for other things. We have had one continuous spell of extreme hot weather, the mercury from June to July 18, the mercury each day running up to 90 degrees and on three days to above 100, as follows: July 2, 101; July 8, 103; July 9, 102.

While workmen were repairing the wall at Smith's hotel on Mill street, Mount Holly, they came across an arch belonging to a bake oven. A bystander remarked that he had eaten pies baked there over forty years ago.

Arbitrators have been appointed to assess the value of the water works in Burlington, with a view to their purchase by the city. Common council has offered \$20,000; the company asks \$30,000.

The continued hot weather last week reduced the attendance of pay visitors to the Centennial Exhibition in Philadelphia to below 20,000 per day. This again will be doubled when cooler conditions prevail.

Banks in the county show by their financial reports of June 30, deposits as follows: Farmers', Mount Holly, \$171,671.31; Mount Holly National, \$109,459.25; Union, Mount Holly, \$71,703.61; Burlington County, \$68,104.66; Vincentown, \$40,334.29; Mechanics' Burlington, \$151,112.46.

Burlington City has been divided into four election districts, instead of two, as heretofore.

Mount Holly market prices: Chickens 25c; best sirloin steak, 25c; best leg mutton, 22c; lamb, 25c; smoked hams, 14c; wheat flour, \$4.25 cwt.; lard, 18c; butter, best grade, 40c; string beans, 15c; half peck; tomatoes, 40c; half peck; fresh eggs, 50c.

A number of people went on the excursion to Sea Side Park on Tuesday. Among the number from Burlington was Rev. James E. Welsh, now of Missouri, a resident of Mount Holly forty years ago, when he was pastor of the Baptist Church. After parking to erect fifty additional stalls at the fair ground.

The H. B. Smith band, of Smithville, visited Mount Holly on Thursday evening, 23 strong, in full uniform, and paraded our streets, discoursing fine music. The band presented an attractive appearance and commanded much attention.

Scribe Travels Old Indian Trail

Gives Fine Account of Trip From Freehold to Camden Thru Burlington Co.

The Freehold Transcript recently published an interesting account of a trip by the Freehold scribe from his home to Camden by automobile. As a considerable part of the way led through Burlington county, we publish a portion of the narrative, not only for its literary excellence but also as showing how our old Burlington county villages and the intervening countryside impressed the visitors from the county seat of fertile Monmouth. The account of the motor trip follows:

Following the ghostly trail of forgotten stage coaches, we travelled 15 miles, meeting but one automobile. Many a hurried motorist on that traffic-congested artery of a road would have regarded us well for directing him to such a deserted roadway, and it is easiest of all roads to find and follow. From Freehold, one simply joins the main stagecoach route to Philadelphia and West Main street and follows it south to Philadelphia over the old Mount Holly pike.

This line of big poles and many wires apparently has a liking for solitude as though silence adds its long distance conversation. It comes to Freehold from Asbury Park through the Hominy Hills, and above Smithburg ignores the bend of the main gravel road to the right and plunges again boldly into the forest, continuing on through Mount Holly and Moorestown to Camden with a straightness of route unusual in telephone lines and highways.

Old Road Deteriorated
The forlorn little road that accompanies it above Smithburg has deteriorated from its proud name as the Mount Holly pike. The main stagecoach route to Philadelphia a few decades ago, into a single-track sand trail worn a foot and a half below the level of bordering land through want seem endless forests until open land is again reached in Burlington county. Incidentally its resurrection into a main State highway to connect with the new Camden bridge and to bring Monmouth county almost as near Philadelphia as Atlantic county resorts is both predicted and urged by Monmouth county seashore people.

But the picturesque interest is greater today along the route than it would be, if it becomes a main highway. Villages passed were so isolated that the few inhabitants looked upon a stranger's car with great interest.

Hornerstown is about three miles beyond Prospectown and is the last village on the pike in Monmouth county. The old Mount Holly pike runs for some ten miles with Ocean county on its left and Monmouth on its right, and then near New Egypt enters Burlington county.

FLORSHEIM SHOES

known all through the United States as a style leader.

In all the latest styles.

These shoes are now obtainable in Palmyra at a much lower price than in the large cities.

FILLS NEW OFFICE

Creation of a new division in the Post-Office department to handle general engineering problems of the postal service has just been announced by Postmaster General New. The new division will be known as post-office quarters and engineering, and Frank M. McMillan will be its chief.

Walter L. Woodward, formerly of Mount Holly, has bought from Miller Howard and Charles Steward, of Camden, 1,948 acres of land on Long Beach, four miles above Beach Haven, including the hotel property occupied by Thomas Jones, on the beach, for \$1,200.

The distillery of George Gross, near Arnetown, was robbed recently of a still, with lead pipe and other apparatus, valued at \$400.

The thieves undertook to carry off the whiskey still, but could not get it through the door.

The lessees of the canning house at Columbus are contracting for removal of considerable acreage. At the quarterly meeting of the Burlington County Agricultural Society on Saturday, the committee on printing reported having contracted with The Mirror for 3,000 schedules for the coming fair. A committee of the fair is erecting fifty additional stalls at the fair ground.

The H. B. Smith band, of Smithville, visited Mount Holly on Thursday evening, 23 strong, in full uniform, and paraded our streets, discoursing fine music. The band presented an attractive appearance and commanded much attention.

As a matter of fact, Hornerstown is not quite on the pike but a few hundred yards up a side road. It is picturesque, with its couple of dozen houses, stores, church, and old inn running up and down a hilly street on both sides of a mill pond.

The pike also avoids New Egypt half a mile to its south and Jacobstown a few hundred yards to its north, so it obviously already is laid out to avoid "city" traffic.

Rich Country
From Hornerstown to Mount Holly, the country is as rich looking and the farm houses as well kept as the section through the pines was poor. Jacobstown is also a picturesque village with an old red brick church with a quaint little white steeple showing up from its hillside.

Skyville is next and a place distinguished for an apparent love of the classic by its early inhabitants. Its tiny church looks like a miniature Doric temple and there is a handsome example of the Georgian architecture in an old red brick house there. In fact, there are a number of such houses along the road and just off it near New Egypt.

Burlington county in Colonial days seems to have been much richer than Monmouth county and to have had a number of handsome Colonial estates, so that the handsomest antique furniture originally came from this region in West Jersey.

From Skyville on to Jobstown and Mount Holly the country takes on an ancient mellowness and the old pike, so little travelled now because there are hard surfaced roads a few miles either side of it, is overhung with giant trees and beautiful groves of oaks and elms surround the farm houses.

Jobstown is the site, as all farmers and turfmen know, of the Hancock farm, whose broad pastures and great stables extend on every side as far as the eye can see. The pastures are also enclosed with fences painted white and black, and so are clumps of trees within the pastures enclosed so that the thoroughbred horses and cattle grazing there may not gnaw the bark.

Jobstown Station
Here our infallible guide, the telephone line, makes a detour around the farm, but joins the road again before the Jobstown railway station is reached—a tiny railway station which a decided was about to lose its road out over the platform or had been designed by an architect under the Japanese influence.

We had just crossed the track when a collision with half a dozen sleek, half-grown Berkshire pigs was narrowly avoided. A black shepherd dog had playfully chased them out of a field. A beautiful herd of Jersey cows also crossed the road led by a black goat, and a little further along when we had left the pike to the right to dine at the rustic inn at Columbus, we saw large flocks of sheep with many black sheep among them.

We decided that black sheep are really handsomer than their brethren, quite as the human "black"

Colonel Roebbling Dies at Trenton

Famous Builder of Brooklyn Bridge Succumbs at Age of 89

Colonel Washington A. Roebbling, president of the John A. Roebbling's Sons Company and builder of the Brooklyn Bridge and other great suspension spans, died at 3.30 o'clock Wednesday afternoon of last week at his home in Trenton, after a lingering illness. He was 89 years old and death was due to infirmities of age.

Until the past year Colonel Roebbling had enjoyed good health in spite of his advanced age and continued to give daily attention to the business of the Roebbling Company. He began to fail notably about six months ago, and in May for the first time in many years, although gathering, which customarily marked his birth anniversary, was omitted. Since then Colonel Roebbling has been confined to his room and has been steadily losing strength, although displaying to the last evidences of his remarkable vitality.

Family at Bedside
With him when he died were his wife, his son and daughter-in-law, Mr. and Mrs. John A. Roebbling, of Bernardsville, and his grandson, Sigfried Roebbling.

Colonel Roebbling was a soldier in the civil war, a great engineer and an industrial leader. Colonel Roebbling has led a retired life and for many years did not engage actively in business. Seven years ago, however, when he was in his eighty-second year, he was called upon to resume the presidency of the Roebbling works, owing to the death of his nephew, Karl G. Roebbling, and he served as president of the company until his death.

Construction of the Brooklyn Bridge which, when completed in 1883, was the longest suspension bridge in the world, brought international fame to Colonel Roebbling as an engineer. The structure, unique in bridge building, was regarded as a remarkable feat in engineering skill.

Overcome Many Obstacles
Colonel Roebbling was beset with many serious obstacles and disadvantages from the beginning of the work, being left by the untimely death of his father, John A. Roebbling, to undertake alone the difficult task of carrying out the plan of construction. The latter was injured while making a survey of the bridge and died 16 days later of lockjaw.

Colonel Roebbling made an excellent record during the civil war, receiving three brevets for gallant conduct, including that of colonel. At the outbreak he enlisted in the Sixth New York Artillery and served for a year with that battery.

During the remainder of the war he did staff duty. He was on duty at general headquarters during the battle of Chancellorsville, and each morning ascended in a balloon to reconnoiter the enemy. From one of those ascensions he was the first to discover and announce that General Lee was moving toward Gettysburg.

In June, 1865, he received his commission in the army and went to Cincinnati to assist his father in the completion of the Cincinnati & Covington bridge.

He was born at Saxonsburg, Pa., May 26, 1837. His father, a native of Prussia, was a civil engineer, having received his degree from the Royal Polytechnic School, of Berlin. The son was graduated as a civil engineer from the Rensselaer Polytechnic Institute at Troy, N. Y., in 1857. He immediately became an assistant to his father, his first engineering work being done on the Allegheny suspension bridge.

He was a man of versatile attainments, being a classical scholar, a linguist and an excellent musician. As a mineralogist it was said that he hardly had a superior in this country. He had a valuable collection of mineral specimens, numbering approximately 15,000.

P. S. POWER

Juice for New York City Trains Supplied from Jersey

The electric service for hauling trains of the Pennsylvania Railroad between Pennsylvania Terminal, New York City, and Manhattan Transfer is now being supplied by Public Service Electric and Gas Company over a new three circuit connection from Marion Station.

In order to make this capacity available for the Pennsylvania Railroad it was necessary to install a second 12,500 Kv.—a frequency changer at Marion as well as change over several Hudson Division substations from twenty-five to sixty cycle service.

An outdoor substation was constructed at Marion for the purpose of transforming the power to the voltage desired by the railroad, with a maximum swing capacity of 37,500 K-v. The power is transmitted to the Pennsylvania Railroad right-of-way at a point near Snake Hill by means of three 11,000 volt transmission circuits.

It is expected that the consumption of power over this connection by the Pennsylvania Railroad will exceed 3,000,000 kilowatt hours per month.

The International Institute of Agriculture at Rome is a clearing from 90 countries.

For the very early days of autumn light fabrics are still desired—but the styles must be advanced full styles and that is why you will want to buy your copy of the McCall Quarterly of Autumn Styles at once. In the pattern department, 25c.

LAND OF MODERN MIRACLES

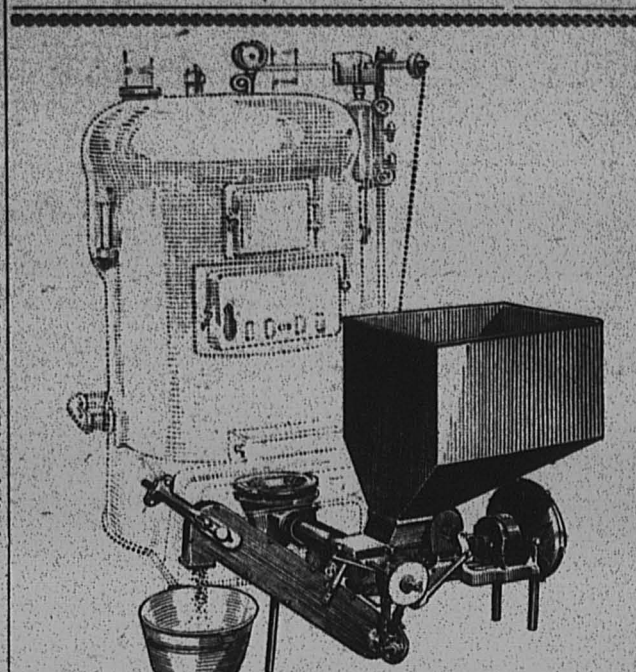

In the United States there are 16,500,000 telephones, 17,000,000 have pleasure cars, 16,000,000 have phonographs, and 4,000,000 have radios. Radio business this year is expected to reach \$600,000,000, a gain of \$100,000,000 over 1925.

Until as many homes have radios as now have phonographs or phones, there is bound to be an unexploited, untapped new field in which to sell radio supplies and service. Every farm in the nation is a prospect for radio, for nothing puts the farmer in touch with the market more quickly.

May Killers

In growing a crop of alfalfa the worst animal pests are gophers, ground squirrels, prairie dogs, and mice. This is particularly true in the Western half of the United States. The best means of holding them in check is poisoning and trapping.

Turn cakes upside down when they are taken from the oven and allow them to cool partially. Remove from the pan before the cake reaches room temperature or has a chance to sweat.

COAL BILLS CUT IN HALF
By the Marvelous

"ELECTRIC FURNACE MAN"

An automatic stoker for your home—burns cheap Anthracite Coal—Buckwheat or Rice. Puts coal on the fire—Keeps fire burning—Delivers ashes to can without shaking or shoveling.

It is the safest automatic heating appliance now on the market—Operates without noise or roar and produces no smoke or greasy clinging dirt. Cannot explode.

Investigate now before buying your Winter's coal supply.

THE QUESTION BOX

Average Span of Life

M. R., Riverton—Can you tell what is the average span of human life? Is it on the increase or decrease?

Ans.—In 1800 the average length of life was thirty-three years. In 1885 it was thirty-eight years. Actuaries of the large insurance companies report that within the last 50 years the span of human life has been lengthened ten years. The great decrease in the death rate is due primarily to the better preservation and care of infant life, but the actual longevity of man has been advanced. According to Dr. Mayo the virility of man has also been extended over a longer period.

Difference Between Fruit and Vegetable

S. S., Palmyra—To settle a bet will you please tell me what is the difference between a "fruit" and a "vegetable"?

Ans.—In botany the fruit of a flowering plant is the matured seed vessel, and its contents together with such accessory parts as become finally incorporated with them. Thus in a botanical sense not only apples, grapes, etc., but all berries, nuts, grains, beans, pumpkins, cucumbers, etc., are fruits. Popular usage has become much narrower. The grains have been dropped, and the tendency is to drop nuts also, so that a fruit is now generally understood to be the fleshy, juicy product of some plant which when ripe is edible without cooking and adapted to use as a dessert.

Lungs Are "Lights"

T. D. P., Palmyra—Do chickens have lungs? I never hear them mentioned.

Ans.—Yes; the lungs of a chicken are commonly called "lights."

Description of Starling

W. S., Riverton—As I am making a bird study. Can you tell me something about the starling?

Ans.—The starling is a prolific species, raising usually two broods of three to six a year, and its rapid increase in numbers requires constant reaching out for new food supplies and nesting places. The undesirable qualities of the starling appear to arise from its choice of nesting sites in buildings, which it defaces, and its propensity to drive native birds from the vicinity of houses. In the Old World the starling is harmful. Its habits, so far as its choice of food is concerned, have improved a bit in the New World, but taking it all in all the bird is an undesirable alien.

Early History of Ireland

R. J., Cambridge—How far back does Ireland date? That is, what are the earliest evidences of occupation by man?

Ans.—It was not until about 600 B. C. that the Goels, the first invaders speaking a Celtic language, set foot in Ireland. Between 200 and 150 B. C. various Celtic and other Brytonic tribes settled in Britain and probably crossed over to Ireland. The earlier history of Ireland is largely legendary. There is a tradition that the first colony arrived in Ireland B. C. 2520, under the leadership of Partholon, who came from middle Greece.

Since 1912

R. B., Riverton—I want to ask you if the Chinese year is the same as ours?

Ans.—Yes, however, the Chinese year, which formerly began late in January, or early in February, depending upon the moon, was similar to the Mohammedan in having 12 months of 29 and 30 days alternately, and in every 19 years there were 7 years which had 13 months, which were determined upon lunar observation. Since 1912 China has adopted the Christian calendar.

Hercules a Greek God

W. M., Palmyra—I am writing this letter to ask you if Hercules and Satan are the same? Please answer soon as you can.

Ans.—No, Satan is one of the names of the Devil, and that by which in the Bible, poetry and popular legends, he is often designated. Hercules was a celebrated Greek hero of antiquity, noted especially for twelve great feats of strength. Finally Hercules was carried off by the gods to Olympus and married to Hebe.

What is a Bonehead?

Mary, Cincinnati—Excuse my apparent ignorance, but I wish to ask you what is a bonehead play in talking about baseball, and is one any different than another?

Ans.—In baseball parlance a "bonehead" play is any error, mistake or bad play by a player that cannot be charged against him in the scoring, and the degree of the "bonehead" depends upon how much the opponents profited by it.

Somebody has invented a square doorknob. So long as the hole is made no larger it's quite all right.

RIVERTON ITEMS

Mrs. R. D. Barclay and children spent last week at Ocean City.

Mrs. Harvey Hirst and family spent Tuesday at Ocean City.

Dr. and Mrs. Alexander Marcy, Jr., expect to leave Friday for Cape May.

Mr. and Mrs. J. W. Sylvester are spending a few days at Morris Plains.

Miss Betty Edinger is spending this week at Prospect Plains, N. Y., visiting relatives.

Mrs. John Carhart and sons, Robert and John, motored to Beach Haven on Sunday.

Miss Anna Lentz, of Philadelphia was the guest of her sister, Mrs. August Roediger last week.

Miss Betty M. Bailey has as her guest for two weeks her cousin, Margaret Stonaker, of Camden.

Walter L. Smith and family and Alexander M. Smith and wife are spending the week at Wildwood.

Mr. and Mrs. Jack Bolton, and family, of Philadelphia, spent Sunday visiting her sister, Mr. and Mrs. Harry Rice.

Miss Elizabeth Campbell and Miss Annette B. Campbell are spending six weeks at South Brookville, Maine.

Mrs. H. L. Rogers and children expect to return from Beach Haven Sunday, where they have been spending several weeks.

Ernest Chew and Emerson Wolf-schmidt came back from a fishing trip to Cape May last Thursday with a total catch of forty-two fish.

Miss Nellie Wallace celebrated her thirteenth birthday with a party last Friday evening. The guests were present from Beverly, Riverton, East Riverton and Camden.

She received many pretty gifts.

Oscar A. Kahler and family of 406 Thomas Avenue Riverton, had a very pleasant trip on Monday to West Nottingham, Md. They were charmed with the scenery through Philadelphia, Delaware, Chester and Cecil Counties.

Mrs. S. L. W. Field spent the weekend at Bethlehem, Pa., returning on Monday with her daughter, Miss Margaret Field, who for the past four weeks has been engaged as superintendent of one of the departments of a Daily Vacation Bible School held in the First Baptist Church of Bethlehem.

R. V. Townsend has sold his house at 707 Thomas Avenue to George Slater, of Massachusetts. Mr. Townsend is professor in chemistry at the University of Delaware, Newark, Del., where he has been since last October. He has found a suitable residence there and Mrs. Townsend will join him on Saturday. A. G. Worme, father of Mrs. Townsend, will accompany them to Delaware. The Slaters will move in immediately.

A farewell party was tendered Miss Alma Symonds by the Sunday School Class of which she is a member. The party was held at the home of Miss Betty Bailey, on Saturday afternoon, the afternoon being happily spent in playing games and blowing bubbles, after which refreshments were served.

Miss Alma with her parents sailed on Tuesday of this week for the Panama Canal, where they expect to make their home in the future.

CHASE A DOLLAR

Officer Betty Snatches Back Bill From Auto's Path

"It's an ill wind that blows no good," so the old saying goes and Officer Lawrence Betty really believes it now.

Tuesday afternoon Officer Betty was talking with several friends at the corner of Cinnaminson avenue and Broad street when he suddenly darted between the cars that were coming in both directions and narrowly escaped being hit.

About a half minute later he returned triumphantly, waving a dollar bill that had been lying in the road.

Thinking that it might belong to one of the cars that went by he drove to the ferry and inquired if anyone had lost anything. They hadn't.

Well, anyway, Lawrence is a dollar richer now than he was this time last week.

BAPTIST CHURCH

Sunday, August 1, there will be Communion in the morning at 11:15 with a short sermon by the pastor.

In the evening pastor Lockett's subject will be "The Fashions of the World."

Pastor Lockett will be on his vacation after next Sunday for the remainder of August. All members should make it a point to be present next Sunday.

The baseball team representing our church deserves your support. Go and see some of the twilight games.

Last Saturday a group of members from the pastor's former church in West Philadelphia came out to Palmyra for a little picnic at the park.

Needless to say the picnic was a good time as the pastor is a jolly host at a picnic.

Mr. and Mrs. John Cole, of Providence, R. I., are guests of Mrs. Cole's mother, Mrs. Schaffer, of Vicksburg.

Keating's Drug Store carries an excellent line of goods ranging from 25c to 75c in price. Come and get one of these summer comforts.—Advertisement.

Boston Had the First

Fire Engine in America

The first fire engine introduced into America was received at Boston from England about 247 years ago.

It was a strong cistern of oak placed on wheels, furnished with pumps, air chambers and a suction pipe of strong leather. In case the suction could not be used the water was supplied to the container by buckets passed from hand to hand.

It required three men to work the pump and direct the nozzle. Few improvements were made in the methods of fighting fire until the middle of the last century, when steam fire engines were introduced.

The first successful one being used in Cincinnati in 1853, and in a few years most of the larger cities had one or more of these.

It was about this time that the present department system of fire fighting was introduced. But there need be no doubt that the Boston small boys of 1670 took as much delight in running after the engine as does his modern successor—only of course, he did not have to run so fast—nor so far.

Cincinnati seems to have led in the organization of paid departments, as in 1858 that city had 100 firemen on its payroll, who each received a salary of \$60 per month.

Another Fairy Tale

for the Very Young

There was once a writer who, struggling for recognition, wrote carefully and exceedingly well. One day success came his way. Thereafter, his works were often quoted; his pieces appeared in many of the best magazines; his books sold by the edition instead of by the copy; in short, he became an established member of the literary.

Despite the fact, he continued to smoke his cigarette without a holder. He insisted that his portraits be made full face rather than profile (with shirt collar unbuttoned); he refused to dig out his first, and rather weak, literary attempts to foist upon an unsuspecting public; he made sure that the film rights to his works should be granted only to those companies who pledged themselves truthfully to portray what he had written; he did not travel to France and attempt a different description of Paris at dusk than had been written before; he was careful to speak of pictures as pictures instead of prints.

And what is more, he continued to write carefully and exceedingly well.—Daily Californian.

Wordy Warning

At one of the big London hotels there was a page boy who in his spare moments studied the best English literature. Once he was paid his wages with a small fine deducted for a breach of the regulations.

Indignant, the boy said to the manager: "Sir, if you should ever find it within the scope of your jurisdiction to levy an assessment on my wage for some trivial act alleged to have been committed by myself at some inopportune moment in the stress of my avocation, I would suggest that you refrain from exercising that prerogative. Failure to do so would of necessity force me to tender my resignation. In other words, if you find me again I shall chuck the job!"

Cost of Rust

The inability of anyone to say exactly what corrosion is and how it acts has permitted our annual rust bill to mount to the astonishing total of \$500,000,000. Structural steel, ships, railroads, water and steam pipes, the metal equipment of our industries, the multitude of wires overhead and of cables below the ground and under the sea, indeed, everything of metal that is necessary to our complex modern civilization is subject, more or less, to the ravages of corrosion and in the course of time adds its bit to the general waste.—D. H. Killefer, in the Scientific American.

Optimist

In the southern California colleges the two R's are much more popular than the three R's—that is, bridge and basketball. Thus it happened that Elizabeth Maupin and Gladys Lee found themselves as partners, doubling in no-trumps and all those kooky things.

Gladys, trying to figure out a new charade, was, unwittingly placed a king on her opponent's ace.

"See whiz!" exclaimed Elizabeth. "You know a king can't beat an ace!"

"I know," said Gladys absently, "but I thought I'd let it have a try."

Slightly in Error

"Mother, what is this Lent that you folks have been talking so much about?" asked the small daughter of Episcopal parents. There followed a lengthy dissertation on the subject, during which the child paid close attention. At the close of the discourse, when the mother was hoping she had instilled some beautiful thoughts in the young mind, her daughter smiled angelically and said:

"Oh, so that's it. And here I thought all the time that it was that stuff you find under the bed!"

Their Conversation

Horace called on Estelle. They spent an enjoyable evening in intellectual conversation.

They did not talk of the achievements in science, of the policies needed to solve the world's problems, of books, of travel, or art.

They talked none of these things. They talked of Horace—Colleen Farnham.

Worth Something

Government data from several thousand farms show that the value of the family living from the farm at farm prices is approximately one-third of the cost of living of farm families, and two-thirds of the cost of food, fuel, and house rent. It is one-ninth as much as the farm receipts and one-third as much as the farm income.

Keating's Drug Store carries an excellent line of goods ranging from 25c to 75c in price. Come and get one of these summer comforts.—Advertisement.

REHEARSE FOREST TAXATION

The next Oregon legislature will consider a bill exempting young, growing timber from annual taxation until it reaches the crop-harvest stage; the yield then is taxed as a product.

Under the Coast climatic conditions, a crop of timber may mature in from 40 to 60 years; for some purposes there would be considerable value in this young timber, in from 20 to 40 years. Most of the nation's timberland is in private hands. Private growers must grow the forests of the future. If they are to grow at all, they must be able to pay annual taxes on forest lands that will produce no crop for almost a century; a tax exemption must be made as a protection for the future, and for the benefit of the nation's water-sheds and shade and health by means of trees. A good forest-tax law will be a national boon.

POULTRYMEN WATCH

AUGUST FLOCKS

Have the early hatched pullets started to lay the eggs? It is the question that leading poultrymen in New Jersey are asking themselves in mid-summer, as the method of handling these birds has everything to do with their production record this fall.

The men know that the expected molt can sometimes be avoided if the weight of the pullets after they come into production is maintained by feeding plenty of scratch grain. Just before the pullets begin to lay or when they are laying about 10 percent of the maximum, they are removed to their permanent laying quarters. Here the poultryman endeavors to get them in prime condition and, once he does so, tries to maintain it.

Proper feeds and a good system of management have been found essential if maximum egg production is to be secured. To lay eggs is needed and the bird which consumes the largest quantity of a well-balanced ration, lays the most eggs.

Some poultrymen will be disappointed in the early-hatched pullets unless the birds have been carefully managed during the growing period, asserts L. M. Black, state poultry specialist. It takes from five to six months to grow a Leghorn pullet properly. Longer than this is required for earlier breeds. According to Mr. Black, birds starting to lay at a younger age are often small and underdeveloped and their eggs are likewise small. "Give the birds time to develop, furnish them with the necessities for proper development," he says, "and then have pullet eggs which can be sold as extras."

"RAINCOATS" FOR FOOTBALL AND BASEBALL FIELDS

Great raincoats for football and baseball fields, tennis courts and other playing fields, made of a special rubberized fabric, which will keep the ground dry and thus permit games to be played in spite of rainy weather, have been developed and are expected to be features of coming season in athletic contests.

The University of Illinois is the first great institution to arrange for the new "raincoat" for its football field. The rainy season of last year, in other words, will be a record of famous backs such as "Red" Grange and spoiled many a football contest brought the need of such a covering sharply to the attention of the athletic officials of that institution. The new rubberized fabric is such that it is not only rainproof, but resistant to fungus growth when rolled up and not in use.

Tests of sections of the new fabric were made at the University of Illinois grounds under light frost conditions, and the rubberized material kept the ground from four to six degrees warmer than other fabrics, besides keeping out the water. Satisfactory tests of the new material were also made in the theoretical and applied mechanics laboratory of the University. The development of the new material is expected to aid to a great extent in baseball and tennis matches, many of which have to be postponed each year because of showers which make the ground too wet to play.

OUTDOOR POOL

Moorestown Water Works Swimming Pond Is Popular

During the recent extreme heat the Moorestown Water Works swimming pool became a very popular rendezvous where hundreds gathered daily to seek relief from the sweltering weather.

According to records kept at the pool, crowds numbering between 500 and 800 sought refreshment on the very hot days, with ages ranging from the tiniest tots in the arms of parents to folks who had been swimming for many summers.

The pool, which is municipally owned, is operated under the direction of the Moorestown Recreation Commission which directs the activities at the Community House, North Church Street and Lenola playgrounds.

The popular center is open every day, including Sunday, from 11 a. m. to 5 p. m. under the supervision of Walter L. Trudus, University of Pennsylvania athlete, who has been appointed life guard by the Recreation Commission. Anyone is privileged to enjoy a dip at the pool.

In addition to acting as life guard, Trudus will introduce organized sports in connection with the Recreation Commission's playground program and has complete control over the conduct of the pleasure seekers, having been appointed a special officer by the Moorestown Township Committee.

Director Ian Forbes announces the bath house is in excellent condition and as an added convenience for the bathers, check facilities whereby the patrons may put their clothing in safekeeping, have been added. Calvin Hyland is in charge of the check room.

Ordinary cows in milk require about one ounce of salt a day, while heavy producers need more. Many dairymen mix it with the grain, adding from 1 to 2 pounds to each 100 pounds of concentrate. In addition, salt is kept accessible so the cows can take more if they desire.

MT. HOLLY WALLOPS

ST. JOSEPH'S C. C.

Aggregation From County Seat Put Up Fine Game

Last Friday evening the St. Joseph's C. C. of Riverton and Palmyra was defeated by Mount Holly by the score of 8-2.

Erchman, the future "Lefty Grove" of the local aggregation, pitched a right hand for the first four innings. Four errors in the first four frames allowed as many batters to get on the bases when they should have remained vacant. Only one hit was allowed by the young left-hander in the first quarter of innings.

The fifth frame was Erchman's last inning when he allowed the visitors five hits for a many runs. Poproski, a right-hander, Mount Holly's youthful mound star, held the Riverton boys to five scattered hits while his teammates garnered seven clean hits and eight safeties off Erchman. Mount Holly giving Riverton half that number of talented hits.

Elwood Bradshaw led Riverton's batting attack with two hits. Wolfstrom and Lamb were the only Riverton boys that did not get a safe base.

Herb Schneider, scintillated for Riverton in the field with four assists.

NEWSPAPER SOLD

Elizabeth Times Bought for \$40,000 by Joseph F. Moran

Sale of the Elizabeth Times to Joseph F. Moran, of Brooklyn and Point Pleasant, for \$40,000 last week was confirmed by Vice Chancellor Backer.

The paper went into the hands of a receiver some time ago. The offer by Moran was the highest made last week. The confirmation of the sale was delayed to enable other bidders to make an offer.

Confirmation was opposed by counsel for the two principal creditors, the United Steel Chase Company, and the United Metals Company, who said creditors would receive but ten per cent of their claims.

STATE COP UNITS

ARE REORGANIZED

Nineteen Officers and Troopers, Working in This Section, Quartered at Hammononton

A reorganization of State Police units in South Jersey has been announced. By the rearrangement of the personnel of the sub-stations in the district, all officers and non-commissioned officers of Troop A, which patrols the six South Jersey counties, will make their headquarters in the Hotel Raleigh, Hammononton.

The change leaves only troopers at the various sub-stations and zone headquarters in the district. The number of troopers at Magnolia will be reduced from four to three by the change, while the number of men assigned at other stations will remain the same. Hereafter, a sergeant and corporal included the force in each zone.

Sergeant William V. Long and Corporal W. Clayton Apper at Magnolia will be assigned to Hammononton in carrying out the new arrangement and trooper C. W. Hammond will take their place to complete the personnel at Magnolia. Troopers Thomas M. Connolly and Edwin M. Baer remain.

The change will place the non-commissioned officers in a supervising capacity over their districts. Sergeant Long and Corporal Apper will continue to direct the work in the Magnolia zone, making regular inspection trips from Hammononton headquarters.

The non-commissioned officers will alternate in this duty, one making day inspections and the other night inspections. All paper work with the exception of keeping reports of investigations will be done at the troop headquarters.

The change will result in 19 officers, non-commissioned officers and first-class troopers making their headquarters in Hammononton, under Captain William Carter. It will provide a large force of troopers at headquarters for general assignment throughout the district.

Poultry, Pigs and Peach Stones

Customer—What sort of chicken do you call this?

Waiter—That sir, is I believe, a Plymouth Rock.

Customer—Ah! I'm glad it has some historic interest. I thought it was an ordinary cobblerstone.

In Other Lands

Great Britain has a mile of railway to every 2.53 miles of territory as compared with a mile to more than 12 square miles in the United States, and a mile to each 71.5 square miles in Canada.

PRESBYTERIAN NOTES

Next Sunday the pastor will preach at the morning worship at seven o'clock. Sunday School at ten o'clock. During August there will be no evening service.

M. E. CHURCH

The services of the Methodist Church include Church School at 10 a. m., Morning worship at 11:15 a. m., with a sermon by the pastor, Rev. Arthur L. Davies. Evening services with the Church Federation at 7 o'clock on the lawn of the Friends' Meeting House.

BRIDAL—JEWELL

Luke K. Eberly, son of Mr. and Mrs. E. B. Eberly, of Shillington, Pa., and Miss K. Alberts Jewell, daughter of Mr. H. T. Jewell, of Chester, Pa., were married Tuesday evening at the home of the bride's parents.

The Rev. W. F. Corkran, pastor of the Chester town M. E. Church, officiated. The ring ceremony was used.

The bride, attired in a pretty gown of white crepe, carried a bridal bouquet of roses and lilies of the valley and was attended by her sister, Miss M. Emyrn Jewell who wore a pink crepe dress and carried a bouquet of pink roses.

Ray Eberly, brother of the bride, was best man.

Following the ceremony a reception was held at the home of the bride's parents.

The newlyweds are now on a tour of the New England States and upon their return will reside in Palmyra.

The bride is a graduate of Drexel Institute.

The bridegroom is a graduate of the Philadelphia College of Pharmacy and is a prominent Palmyra business man.

Lesson for August 1

DELIVERANCE AT THE RED SEA

LESSON TEXT—Exodus 14:1-31.
GOLDEN TEXT—The Lord is my strength and song and he is become my salvation.

PRIMARY TOPIC—God Takes Care of the Children of Israel.
JUNIOR TOPIC—Israel Saved at the Red Sea.

INTERMEDIATE AND SENIOR TOPIC—How a Nation of Slaves Was Set Free.
YOUNG PEOPLE AND ADULT TOPIC—Divine and Human Leadership.

1. Israel in Straitened Circumstances (vv. 1-12).
2. Going out of the land of Egypt (12:18).

The tenth stroke from the strong hand of the Almighty made Pharaoh willing to let Israel go. The Israelites went out from Egypt on their way to the promised land with a high hand. Through the land of the Philistines the journey would have been comparatively short, but God commanded them to turn from that way lest going through the land of the Philistines they would see war and desire to turn back to Egypt. The way of the wilderness was a longer route, but it had many valuable lessons for them. By this way which would have come to them at the hand of the Philistines, but they learned the crookedness and perverseness of their own hearts (Deut. 8:12).

2. Hindered in (vv. 1-3).
At the Lord's direction they turned from their first course and were made to face a great difficulty. The Red sea was before them and mountains on either side. However, they should have been encouraged because the Lord went before them by day in a pillar of cloud to lead them the way and by night in a pillar of fire to give them light. He took not away the pillar of cloud by day, nor the pillar of fire by night (12:21).

3. Pursued by Pharaoh (vv. 4-12).
The stricken Egyptians had now recovered from their sorrow, and perceiving the straitened circumstances of the Israelites they interpreted this to mean that Moses was unable to lead them out of their difficulty. Therefore they went in pursuit, hoping yet to prevent them from leaving the country.

4. The Miraculous Escape of the Israelites (vv. 13-22).
Though they were in a straitened condition they had no reason to fear, for the Lord had led them there. There seems to have been a twofold object in leading them into this particular place.

1. To strengthen the faith of the people. To be delivered from such circumstances would impress upon them anew the reality of the love and power of God. The people, as usual, displayed their unbelief and even censured Moses for leading them out of Egypt. Moses replied, "Fear ye not, stand still and see the salvation of the Lord." Standing still in such a trial is faith taking hold on God's promises. God said, "Wherefore criest thou unto Me? Speak unto the children of Israel that they go forward." The lifting up of the rod simply served as something tangible upon which their faith could act. They were to go forward a step at a time without raising any question as to the outcome, for from the source from which came the command, came the power to obey.

2. To lay a snare for the overthrow of the Egyptians.
Those who will not heed the warning judgments of God may be allowed to go to their destruction under the presumption that the Almighty is helping them.

3. The Overthrow of the Egyptians (vv. 23-31).
Having seen the Israelites go across the sea dry shod, Pharaoh and his people madly pursued them. They vainly thought that they in their unbelief could follow in the wake of God's children. The Lord looked forth from the cloud and wrought confusion among the Egyptians. He not only looked upon them but took off their chariot wheels, which caused them to realize that God was fighting against them. He then directed Moses to stretch forth his rod and bring destruction upon the Egyptians.

4. The Song of Triumph (15:1-21).
Standing on the other shore of the Red sea they could fittingly sing the song of triumph because of their miraculous deliverance and the overwhelming defeat of the Egyptians. They attributed it all to God. All self-consciousness and importance were left out. In a glad coming day, a similar but much larger company will sing the same song with an important addition, namely, the "Song of the Lamb." (Rev. 15:3).

The Deep Well of Life

Oh, ye poor, dry and dead souls, why will ye not come hither with your empty vessels and your empty souls, to this deep and sweet well of life, and fill your empty vessels.—S. Ruthford.

Help Improve the World

The world was never meant to satisfy. It is man's business to do what he can to improve it; then he is to leave it and pass on to a higher life, to eternal joy.—W. Robertson Nicoll.

The Happy Medium

Forty years of sound agricultural and grove management have revolutionized the economic and social life of the Danish people. From a depressed state of peasant agriculture, which threatened the welfare and prosperity of the whole nation, Denmark stands to-day foremost agricultural country in the scientific organization of her production and marketing. Her people, rural as well as urban, prosper contented and prosperous. Neither extreme wealth nor extreme poverty exists.

Cool, Cut-out Linen Enters Summer Modes

Everywhere the two-piece dress in flourishing like the green bay tree and designers are thinking up new ways of varying this popular mode. Their latest achievement appears in new fabric combinations and some charming late summer frocks show printed silk in the company of cut-out linen, with very alluring results. An example is pictured consisting of a frock of printed silk banded at the bottom and at the top of the plait in the skirt with plain silk. Over this there is a long jacket of cut-out linen, with a band of printed silk as a finish at the bottom. The same silk is used in a belt across the back and, in combination with the plain silk, for collar and cuffs. Many novel and pretty jackets to be worn with separate skirts have come to the fore in sports and tailored clothes. Twill, serge, flannel or kasha are the materials most popular for making them.

RUSH SHIPMENTS

Railroads Cooperate with New Jersey Farmers

Prompt shipment of more than fifteen million dollars' worth of fresh fruits and vegetables from South Jersey farms to nearby markets is insured this season, according to a statement issued by the State Department of Agriculture, which announces the completion of summer fast freight schedules for South Jersey points arranged through Transportation Specialist Harry B. Bamford.

"While the increased use of motor truck transportation is a big factor in prompt delivery of perishable products," states Secretary W. B. Duryee, "the cooperation evidenced by the railroads during the past few weeks, in which working relations between the railroads and the Department have never been better, means many thousands of dollars to the truck growers at this season of the year, when the difference of a few hours in time of arrival at market may mean an entire day's delay in selling the produce and determines the condition in which it reaches the consumer."

"The railroads know that Mr. Bamford's requests represent actual needs of the farmers, and the farmers have learned by experience that whenever they have a bona fide grievance against any railroad they will always secure an audience by making application to the Department. In this way a system of co-operation has been built up that simplifies the problems of both groups."

"Conferences between railroad officials and groups of farmers have been arranged by the Department during the past month, where railroad officials were enabled to learn at first hand the best hour for departure of certain trains, the number of refrigerator and other cars needed and similar information that will facilitate shipment."

IRON ORE DIDN'T ATTRACT LIGHTNING

Dr. Twitcheil, Assistant State Geologist, Says No Foundation For Rumors

"I am confident that there is no foundation for the idea that iron ore is an attraction for lightning," is the statement of Dr. M. W. Twitcheil, Assistant State Geologist, in reply to the many rumors circulated to the effect that lightning was strongly attracted to the Lake Denmark Arsenal by iron ore in the hills surrounding it.

Ever since the recent disaster in which the Lake Denmark Arsenal was almost obliterated and more than a score of lives lost, rumors have circulated that lightning was drawn to the Arsenal by the iron ore in the Morris county hills. In answer to an inquiry received by the Geological Division of the State Department of Conservation and Development regarding this matter, Dr. Twitcheil's reply is full as follows:

"I am confident that there is no foundation for the idea that iron ore is an attraction for lightning. The only way in which any objects are attractions for lightning is by being good conductors for electricity and thereby affording an easy path for the charge of electricity on the cloud to unite with the charge of electricity on the earth. Copper, iron and other metals, as well as wet trees, etc., are good conductors of the kind mentioned. They are especially effective when they extend higher than surrounding objects so that the distance between them and the cloud is reduced somewhat."

"Iron ore, unlike metallic iron, is not a good conductor. The iron in it is not in a metallic state, but is chemically combined with oxygen and, therefore, would not like any other mineral mass of similar poor conductivity. In fact, would not be any more likely to 'attract lightning' than a mass of granite or any other stone."

"Much of the iron ore in Morris county is of the variety known as 'magnetic iron ore.' It does attract a magnetic needle, a fact that has been successfully utilized in prospecting. However, magnetism, while in some ways bearing relations to electricity, is not electricity, and this iron ore would not act differently in regard to lightning from any other iron ore."

"If the iron ore of Morris county were an 'unusual attraction for lightning' every time there was a thunderstorm in that region there would be a veritable bombardment of lightning flashes toward the ore and the inhabitants would long ago have abandoned that part of the State."

ROMANCE OF SCIENCE

Pathological Battle Now Being Waged In Near East

One of the most stupendous of modern works of construction, the Panama Canal, was accomplished by sanitary engineers, not electricians. To be sure, steam shovels and concrete mixers and a high type of technical experts played their part, but the helplessness of the most expert of civil engineers was demonstrated by the sorry outcome of the French enterprise on the Isthmus. The microscopic germ of yellow fever was a more formidable barrier than the mighty Culebra Hills. The highlands could be conquered by the construction of locks; the microbe was no passive enemy to be routed with transept, T-square and dredge. But for the victory over disease the Panama Canal had remained, doubtless forever, an impossibility. Thus the crossing of Panama was not only an engineering triumph, but it stands also as the scientific romance of the age. The romance of medical and sanitary science is a never-ending serial story with drama and tragedy in every chapter. The conquest of the hookworm in the Cotton States was but one paragraph, the war upon tuberculosis is a chapter. In all kinds of matters, science has buckled on armor of pathological

knowledge and have gone to the front to battle mankind's universal enemy, disease.

Probably one of the greatest and most absorbing chapters in this romance of science is being written today in those lands which border upon the eastern reaches of the Mediterranean. Physicians and sanitarians engaged in the campaign against malaria in the Near East are confronted not only by one of the most difficult problems, but by some of the greatest obstacles ever faced by men of their calling. The territory in which the conquest goes on is vast and populous with an acute housing and rationing puzzle in that part of the world.

Although the war and subsequent irrigation work, thousands of refugees remain in impoverished clots in far Europe and near Asia. Limitless swamps, epidemically flooded by rivers untended in a district all but denuded of its forests, provide one of the most perfect breeding grounds for the anopheles mosquito that nature in a malignant mood ever provided. Contiguous to, and even in the midst of, these swamps dwell millions of humans in continually harassed relationship with countless insects bearing misery and death.

One third of the population of Greece is infected with malaria, while in Macedonia and Thrace the proportion curves upward to one half. In Asia Minor the survey reveals that people socially and economically dominated by the disease. In all these districts resistance to the malarial was found to be at a low ebb because of malnutrition and evil housing conditions.

Scarcely a beginning has been made in the campaign against malaria in the Near East. It is a colossal problem, involving many branches of human knowledge and skill. The war is not only medical; it is pathological, social and economic. More, it is a tremendous engineering problem, for millions of acres of swamps must be scooped clean of their possibilities as mosquito hatcheries. The struggle is the more interesting in that the stakes are so high. A few dozen Near East Relief physicians and workers hold in their hands the fate of millions. Under terrific handicaps they are engaged in a desperate fight not only for the physical life, but the economic and social existence of entire peoples.

ON VACATION

Congressman Bacharach Spending Two Months at Shore Home

Congressman Bacharach wishes to announce to his constituents that on and after July 23rd his Washington office will be closed for a period of two months, during which time communications should be addressed to him at 1704 Pacific avenue, Atlantic City.

Several days delay in the handling of matters will be saved by writing direct to Atlantic City instead of Washington. Those wishing personal interviews are requested to communicate with the Congressman and ask for a definite engagement. While the Congressman or his secretary, Mr. Burke, will be in the Atlantic City office daily, it is the intention of the Congressman to spend considerable time throughout his district during the summer months, and therefore for the convenience of those who contemplate calling on him, it is suggested that a definite engagement should be made; it may be that the Congressman would be at some point in his district where he could be consulted without the necessity of a trip to Atlantic City.

Congressman Bacharach also wishes to call the attention of Civil War Veterans and Widows of Civil War Veterans to the only two provisions of the new Pension Law which requires action on the part of the pensioner.

1. Those Veterans who are now receiving \$12 per month, and who may be entitled to the \$30 rate under the new law, must write to

the Commissioner of Pensions, asking his case be considered under the provisions of the Act of July 3rd.

2. Those Widows and remarried Widows, who are now on the pension rolls, and who were married to soldiers during their service in the war, are entitled to \$50 per month, under the same Act, and they must write to the Commissioner of Pensions stating that they are entitled to the new rate. When writing to the Bureau be sure to give the number of pension certificate in each instance. Those veterans or widows who are now living in Soldiers' Home, are not entitled to any increase in pension. All other provisions of the Act are automatic, and the new rates are effective from August 4th and will be included in September 4th checks.

WHY DESTROY BEET INDUSTRY?

America consumed, in 1925, 5,310,000 tons of sugar or 107-1/2 lbs. per capita. Sugar is about the only food commodity of importance selling for less than it did before the war. Considering the present purchasing value of \$1, compared with 1913, sugar is now selling at what would have been the equivalent of 2 1/2 cents a pound.

Even with this cheap sugar, there is agitation to lower the sugar duty to a point which would wipe out the American sugar beet farmer and factory which safeguard us from foreign sugar domination.

A New Yorker was knocked down twice by the same car. Next time, he probably becomes the property of the motorist.

Picked Up About the
County and State

Immediate repair of the wooden bridge over Barnegat Bay, connecting coast resorts with the mainland, is being urged on the State Highway Commission by municipal authorities, automobile clubs and business men. Staking of the pillars at several points has given the bridge what motorists call a permanent wave.

A school for training swimmers in life-saving has been established at the T. M. C. A. camp at Ocean Beach by Paul C. Crist, special Red Cross field worker, as a part of the summer campaign of the Camden chapter of the Red Cross Society, designed to reduce the number of deaths by water accidents.

Billy Young, Burlington's blacksmith evangelist, has two baseballs that were given him by "Lefty" Groves, the Athletic pitcher. Mr. Young met the pitcher on the Fourth of July at Shibe Park and there was harmonious talk as well as baseball talk, and the Burlington man gave two more to the Philadelphia twirler.

The Cape May County Board of Freeholders, at a session held last week, at Cape May Courthouse, passed a resolution notifying residents along Rio Grande avenue, Wildwood, to remove any buildings they own bordering on the county right of way in that vicinity.

Little Tommy Wilson of Burlington, yesterday afternoon got a Japanese beetle in his ear, and the services of a physician were required to extricate it. The children had some beetles in a can and in escaping one of them flew in Tommy's ear and bored so deeply that his mother could not remove it.

Three new buildings are under construction at the Thomas Devlin Manufacturing Company plant, Burlington, which is now owned and operated by the Samuel Fretz, Jr., Company, of Philadelphia. The new buildings, which will be completed by September, will house the plant of the Fretz Company at Third street and Lehigh avenue, Philadelphia, now being dismantled for removal to Burlington.

Warm appreciation of the aid rendered by the New Jersey State police in connection with the recent

Have You Seen a Blue Carnation?

The ambition of English florists is to grow a blue carnation. The incontestable fact that in nature no such thing as a blue carnation or a blue rose or a yellow sweet pea or a black tulip occurs is no argument against the florists' endeavor to produce one of these unnatural flowers. If our gardens were only allowed to show such blooms as may be found in a state of nature, they would be miserably poorer. A wild rose is a charming flower, but what reason is there in an aesthetic which would deny us the color and form of Madame Chatenot or the fragrance of General McArthur because these roses are unnatural—the product of the florists' science?

explosion at Dover is contained in a letter received by Governor Moore from Secretary of War Davis. The co-operation of the police with the troops sent to the scene of the disaster was of the greatest assistance, said Mr. Davis.

Slipping off moss-covered boards at the Cedar Lake dam, at Bayre town, while on the count Holly Baptist Sunday school picnic, Mrs. the 14-year-old daughter of Mrs. Haasman, was drowned Wednesday of last week. She had gone in bathing, but the swift current in deep water at the falls held her below the surface. By the time the Rev. Marjorie M. Lewis, the pastor, was called there was no chance for rescue. The body was recovered in about 20 minutes. Dr. Longsdorf happened along, found no water in the lungs and said the girl's heart trouble, for which she had treated her frequently, had much to do with her death.

SHOULD WORK ON LAWNS NOW

Among others the old theory that spring is the best time to sow lawn seed is wrong, according to a bulletin entitled "Better Lawns" now being distributed free on request to New Jersey residents by the State College of Agriculture, New Brunswick.

The time to get busy on this phase of lawnmaking is late August and early September, says H. R. Cox, state farm crops specialist and author of the publication. At this time, we are told, one has a much better chance of combating weeds. When grass seed is sown in the spring it must start on even terms with weeds. In late summer the weeds have about completed their year's activity, whereas grass seed will germinate and produce a sward that will grow until late in the fall.

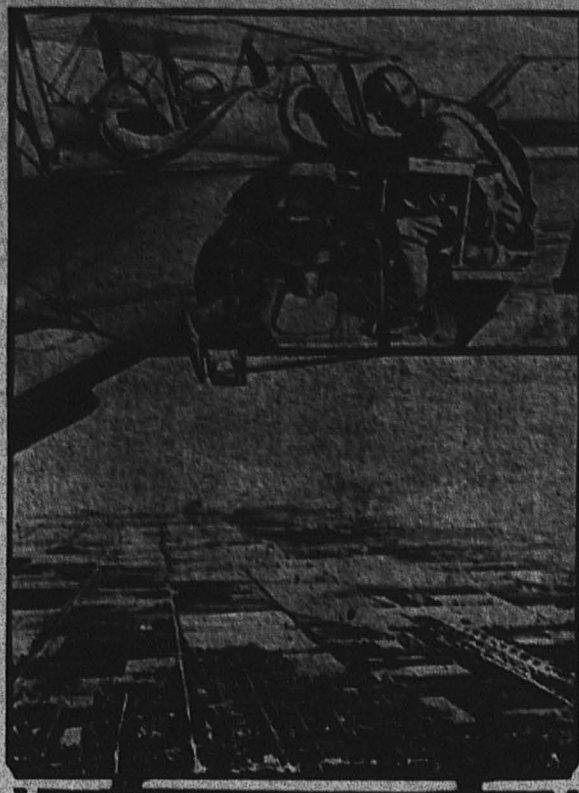

Another advantage of summer seeding is the time it allows for adequate preparation of the soil when a new lawn is being started. On poor soils it is frequently desirable to add organic matter by growing oats or Italian ryegrass, or some other crop and then plowing it under.

The manner of seeding old lawns also falls under criticism. Merely scattering the seed around on the bare or thin patches is usually a waste of money and time, for every little bit of it ever comes up, asserts Mr. Cox. He suggests raking the thin places, sowing the seed, applying a top-dressing and fertilizer, and then rolling. The kind of top dressing and fertilizer to use depends on soil conditions.

The issuance of the publication has come largely as a result of general observations by the state crop specialist that about one-third of the lawns in New Jersey are not worth renovating. Improper treatment and neglect in fertilizing, watering, cutting, and rolling, and the use of inferior quality or wrong kind of seed have all contributed toward the degradation of thousands of lawns in the state.

The correct handling of these factors is discussed in the college's new bulletin, over 12,000 copies of which have been turned over to the mailing clerk to meet demands from New Jersey residents.

Giant Camera for Airplane Work

This composite drawing and photograph shows the method of using the "five-mile high" camera designed at Dayton, Ohio, for the army service and soon to be used there by Lieut. George W. Goddard. This aerial camera has the largest photographic lens ever ground. With its aluminum mounting the lens is nine inches across. A specially sensitized film is to be used to record light at the infra red end of the spectrum, and the actual size of each negative is 6 by 8 inches, with 100 exposures to the film. Photographs may be taken from an altitude of 25,000 feet, if the plane can make it, which should show a city the size of Detroit to be about three inches long in the picture.

URGE MEDAL AWARD

Public Service Superintendent Saves Life of Employee

The accident prevention committee of the American Gas Association has been asked by Public Service Electric and Gas Company to give a McCarter Medal and certificate to John F. Hoff, of Princeton. Mr. Hoff, superintendent of the gas department of Public Service in Princeton district, revived by the prone pressure method of resuscitation Peter Unangst, also of Princeton, a street foreman in the same department. Unangst was overcome by gas June 4 while working in a street trench at Penn's Neck.

Hoff happened to be driving by in his automobile on his way to another job when the accident occurred. His attention attracted by the commotion, he hurried to the scene just as the men were lifting Unangst out of the trench. Immediately applying the prone pressure method, Hoff revived the foreman who was able to return to work in a few hours.

The McCarter Medal is an award by President Thomas N. McCarter of Public Service to employees of gas companies throughout the country who, by the prone pressure method of resuscitation, save the lives of employees of any gas company who become victims of gas asphyxiation.

PROTEST PAYMASTER'S

As a consequence of the recent hold-up and murder of a Public Service paymaster and as a protection to its upwards of 20,000 employees, the policy of paying by check instead of cash had been adopted. Employees working in Public Service Terminal, Newark, are now being paid by check and it is the purpose to extend the system to include employees of all companies and departments.

SACRIFICES CAR

Saves Other Machines While His Own Is Prey to Flames

Dashing into a fire that destroyed his six-car garage on Elm avenue, Burlington, Thursday night of last week, John Silpath sacrificed his own automobile in order to save other machines that had been left in his keeping. And in doing it Mr. Silpath was burned on one arm, but his injury is not of a serious nature.

While four cars are kept in the garage as a rule, only two were stored there at the time of the blaze.

The fire broke out shortly before twelve o'clock, and as soon as it was discovered Mr. Silpath rushed to the garage, which is in the rear of his dwelling, and started his excellent work. Soon neighbors hastened to his assistance. The building at this time was a roaring furnace.

But with all his work and help that the neighbors gave it was impossible to save the Silpath car and it became a prey to the flames.

Merica's chewing-gum bill in the last year was \$90,000,000, exclusive of the cost of gasoline necessary to remove it from the trousers.—Detroit News.

PUBLIC SERVICE

PUBLIC SERVICE

NUMBER EIGHT

Supplying Gas Needs!

TO SUPPLY the needs of its more than 67,000 customers, living in 181 different municipalities, Public Service sends out in excess of twenty billion cubic feet of gas each year.

Not only are the resources of its own ten works required but in addition it absorbs the output of a great by-products works located in the center of its greatest gas consuming district.

Public Service has since its organization consistently added to its gas facilities in advance of demand and in pursuance of its policy of Service, it is preparing for still greater requirements as the result of the rapid increase in the use of gas in industry.

COOLIDGE ECONOMY
COMING TO JERSEY

Governor Plans to Hold Heads of State Department Accountable for Estimates Submitted

Coolidge caution and economy in the application of the budget of New Jersey.

Governor Moore let him be known last week when he announced that in the preparation of the budget of the state for the next year he is going to hold heads of State Department accounts responsible for the estimates submitted for their financial needs.

Printed forms for the listing of estimates and other information for the guidance of the Governor have already been distributed, according to announcements by Budget Commissioner Redden. The forms ask for many more facts than heretofore, and the mailing date this time is several weeks earlier than in the past, in order that ample time be allowed for their preparation. Specific information is asked relative to the quantity, character and value of food produced on state farms. The increased cost of food purchased in the open market likewise will receive attention. It is thought by the Governor that the marked saving has been effected with proper supervision and specialization in products peculiarly adapted to certain farms.

Other items to be checked more closely are the number of state-owned automobiles and the matter of maintenance and repairs. Shop costs and production values in the various institutional activities are listed for details.

TWO GIRLS DROWN

Bodies of Roebeling Victims Recovered After Three Days

Terese Kelle and Anna Bosark, 15 and 20 years old respectively, were drowned in the Delaware river Thursday evening of last week. The body of Miss Kelle was recovered Sunday evening and that of her friend Monday morning.

The two girls had spent the day with friends and acquaintances at the union picnic of the Roebeling Sunday School at Woodlawn Park, and on returning early in the evening joined the Roebeling bathers in what is known as "The Cove." "The Cove" is a safe bathing place unless one goes out to the channel, where the drop to greater depth is almost precipitous. There is a belief that one of the girls stepped into the channel and that the other, in attempting to help her, was pulled in. According to reports nobody saw the drowning and it was not known that they were drowned until they were missed from their homes later in the evening. Immediately it was recalled that they had been seen at the bathing place and it was certain that they had become victims of another river tragedy.

A search at once was started and all night friends and neighbors worked on the river. But without success. The work continued on Saturday and Sunday. There was talk of dynamiting and the suggestion also was made that a net be used.

Despite the untiring work the river held on until it was ready to give up its dead, and for three days the young bodies were at the mercy of the tides.

A statement has been issued by the Roebeling Company and the families of the two dead girls in which appreciation is expressed of the excellent and untiring work done by those who sought to recover the bodies.

PLAYGROUNDS THRIVE

Moorestown Recreation System Wins Much Popularity

According to an announcement by Ian Forbes, Recreation Commission Director, the Moorestown playground system continues to thrive and increase in popularity.

Activities at all of the centers, the Community House, North Church Street school grounds and Lenola, are running on full schedule and the extensive program is meeting success from all angles.

The organized sports maintain a high interest during the recreational periods and the junior baseball league, organized by Donald R. Group, the athletic director, has stirred up considerable interest among the youthful players.

Last week keen competition and plenty of enthusiasm reigned at the Lenola grounds as the children staged a hard-fought quilt tournament.

Sports only form a small part of the program. Considerable talent has been displayed in the handicraft periods and the children are planning an exhibition of their work, which will be held at the Community House Saturday, August 21.

Some fine work in all of the branches taught is expected to be on display when the kiddies complete their enamels, decorated boxes, head wearing, clothes, tin dolls, lamp mats and lanterns, which form part of the educational and instruction programs.

PASTOR TO STAY

Arrangements were made at the second quarterly conference of the Moorestown Methodist Episcopal Church to have the Rev. David M. Davies remain as pastor until the end of the Church conference year in March.

The decision was the outcome of a conference between the pastor, the Church official board and the Rev. Sherman G. Davis, district superintendent, who prevailed upon the Rev. Mr. Davies and his church officials to continue the present pastorate for the current year.

According to reports, the Rev. Mr. Davies' request will probably meet complete approval. The Rev. Mr. Davies presented his resignation more than a week ago, but it was not officially acted upon until Tuesday evening.

Pastor Davies is very popular with his congregation and has won the warm friendship of a large number of people during the year and a half he has served in Moorestown. He came to Moorestown Methodist from St. James Church, New Brunswick, where he also established an enviable record.

Women's auxiliaries are said to have grown a half-inch thicker in the last few years, as a result of wearing low heeled slippers.

CARRIES ROTARY
TO NEW CHARGE

The Rev. Harry Saul is First President of Rotarians at New Bedford

At a meeting of the Palmyra-Riverton Rotary Club last week final arrangements were made for the picnic to be held at Silver Lake, on Wednesday of this week.

The club was interested and pleased to hear that the Rev. Harry Saul, who left Palmyra soon after joining, had already been instrumental in organizing a Rotary Club in New Bedford, Pa., where he is now located. He is serving as the first president of the New Bedford club.

The evening program on Community Service was conducted by Luke Sherry. Several members were given questions, and many helpful suggestions were made. A sincere community spirit was encouraged, with due care to avoid duplication of effort already efficiently organized and functioning.

N. J. APPLE MEN
STUDY STORAGE

A study of common types of storage for apples was made by a group of 28 farmers, their families, county agents, and specialists from the New Jersey State College of Agriculture, July 15 to 18, 1926.

Two points of chief interest were storage houses at Marble Laboratory, Inc., Canton, Pa., and at Pennsylvania State College. At these places the visitors had an opportunity to inspect above-ground storage houses and bank or cellar type storage. It was made clear that the principal factors involved in storage are ventilation, humidity, and temperature.

Apples continue respiration after harvesting and therefore must have doors at both ends of the storage.

The visitors were shown that by opening the end doors an entire change of air may be made in a short time. In the fall this is done at night when the air is cool. A good temperature for keeping apples is maintained in this way. In winter the warm air temperatures are used for ventilation.

The bank or cellar storages hold a uniform temperature without danger of freezing the fruit, as they have the moderating effect of the ground. It was observed that above-ground storage must be well insulated to keep the fruit in the winter and to exclude it in the warmer months. Humidity is generally maintained in cellar storages, due to damp earth floors. With other types of floors, in cellar or above-ground storage, humidity is provided by sprinkling the floor with water at frequent intervals.

WILL REPORT SUNDAY

Final returns on the drive just made for funds for the erection of a parochial school by the parish of the Church of the Sacred Heart, Riverton, are not in, but it is expected that all of the collectors will be ready by Saturday of this week so that the report, Rev. Joseph A. Rigney, will be able to make a complete report at the church services on Sunday.

This project, which has been under way for several years, has been gaining momentum rapidly this year.

Father Rigney says many who have visited Palmyra and Riverton seeking prospective home sites have refused to buy because there is no parochial school as the members of the Catholic faith of Philadelphia, Camden and some of Philadelphia's suburbs are used to parochial schools, and they refuse to live in a community that does not have one.

FIRST AID KITS

Motor Vehicle Commissioner William L. Dul has taken steps to check the increasing number of automobile fatalities on New Jersey roads by ordering all cars of his departmental inspectors equipped with first-aid kits and the men instructed in methods of treating injured persons.

Manufacturers of surgical supplies have offered to donate the necessary material, and this week Dr. Andrew F. McGuire, State Commissioner of Labor, will give the inspectors a course of instructions of emergency treatment.

The kits will be covered with khaki cloth, will contain adhesive tape, bandages, absorbent cotton, gauze, iodine and other supplies.

It has been pointed out that in motor crashes a considerable time often elapses before those injured can receive proper medical attention and that sometimes stoppage of flow of blood from a wound or the swelling of an extremity is arrest.

There are about fifty inspectors who will add this first-aid work to their present duties of patrolling the roads in quest of law violators.

AT DAWN

"Tis morn and Ros shyly peeps
Up through the eastern skies,
And soon in her resplendent robes,
She will with dawn arise.
And with her lovely, brilliant hues,
The fair horizon, paint
With first a little rose streak,
So delicate and faint:

But an old Sol is drawing near,
Will deepen her own blush;
And as she glazes at the morn,
Responsive skies will flush;
Until their lovely brilliance seems
As like an artist's dream.
Far lovelier than work of man
Is Ros' rosy gleam.

The light reflected from her smile,
Will reach far up the skies,
Until old Sol's great, fiery ball,
At dawn, will soon arise
And dim the luster of the stars,
The faint and flatter glow;
Until they feel that from our view,
'Tis time for them to go.

Martha Shepard Lippincott.

On Parade.—"They say it takes three generations to make a gentleman." "The reason it takes so long, I suppose, is that most of us only work at it when we're in company."—Yonkers statesman.

SIMPLE POLISH
FOR FURNITURE

For the housewife who is planning to freshen and brighten furniture that has been affected by the extreme heat maintained in the house during the months of furnace operation, the New Jersey extension specialist in home management sends out a few suggestions. She states that although the varnish or shellac has been rubbed down so that the furniture is hardly conscious of its existence, there is usually enough of it left to need treatment.

The very best furniture treatment and polish that can be used in this case is to heat a pint of water very hot and stir into it 1½ tablespoons of turpentine and 1½ tablespoons of linseed oil (boiled). Allow this solution to cool a little, then dip a clean, soft cloth into it and wring dry. Shake this cloth until it is cool and wash the entire wood surface of the piece or pieces of furniture in the room.

The best step to one that some women seem to forget and that some very reason come back with complaints. A dress will not be satisfactory unless the hem is put in, neither will this wood cleaning be satisfactory unless the wood is rubbed dry and polished. In about ten minutes after it has been washed with the solution.

Do not use the solution after it has become soiled. Make a small quantity at a time and make fresh whenever that being used becomes dirty.

Guest—Gosh, but I'm thirsty!
Hostess—Just a minute, I'll get you some water.
Guest—I said thirsty, not dirty!

This too,
Mother?

A few extra pieces don't bother you when you're equipped the modern way for ironing day. A reliable, self-heating iron saves lots of time and labor on the big flat pieces. It's equally desirable for those dainty things that are so easy to ruin with the old-fashioned "lift off the stove kind." You do a better job in less time and are left fresh for other household and social duties.

ALUMINUM COOKERY

ALUMINEX—A Marvelous Discovery

Heretofore, the inside surface of aluminum utensils have not had the smooth, polished shining finish that you have seen and admired so much on the outside.

The inside, where a smooth, sanitary surface is absolutely essential, was either left in the same condition as when it came from the presses or given a sun-ray finish which left the inside rough. The use of steel wool for cleaning left fresh scratches, making cleaning more difficult each time you washed the utensils.

Aluminex is as smooth and bright inside as outside.

This line of utensils contains over 100 different pieces and is priced right.

THERMOPLAX KNOBS made from the same material as electric switches. Withstands terrific heat, will not crack or come loose.

No obligation to show you these goods. Ask for booklet.
