

**JULY**

## Many New Laws to be Enforced

Go Into Effect This Week:  
Revision of Criminal Code  
Included

July Fourth is the birthday of twenty-nine new laws in New Jersey. During the last Legislature this number of new laws, pieces of legislation were written in the statutes without specific enacting clauses, in which event such laws become effective the Fourth of July following their enactment. Among the new acts are important revisions of the criminal code.

One of the changes provides that sentences must be imposed within forty days following a plea of guilty to a criminal offense. In cases where a trial is held and a conviction obtained sentence must be imposed within thirty days.

A second amendment reduces from six months to thirty days the period within which the court may vacate judgment for resentencing.

Banks and trust companies are permitted to disburse checks or drafts more than a year old, unless otherwise instructed, by the terms of one of a series of banking measures. Another makes stop-payment orders on checks ineffective after ninety days, unless renewed.

An amendment to the employers' liability law requires the furnishing of an artificial limb or other appliance, including artificial teeth or clasps, for injured employees. The measure increasing the compensation for injured workers from a maximum of \$17 to \$20 a week and extending the period of payment, which occasioned a bitter fight during the session, became operative on January 1.

Other new laws in force on July 4 require that permanent teachers in the public school system be citizens of the United States; give the State Commissioner of Education the power to name normal schools; regulate the manufacture and sale of jewelry containing platinum, iridium, palladium, ruthenium and osmium or their alloys and provide that it be stamped; eliminate the word "ordained" from the qualifications of ministers; prohibit performing marriage ceremonies; authorize fraternal beneficiary associations to insure children; permit members of boards of freeholders to fill vacancies by appointment until the next election; prohibit killing at any time of deer having horns less than three inches long; authorize fish and game commission to permit shooting and trapping of gray squirrels; and relieve local school boards of necessity of taking out building permits.

## Y. W. C. A. News

Mrs. H. H. Mason, president of the Mount Holly Y. W. C. A., and Mrs. George Rags, vice-president of the Burlington City Y. W. C. A., will leave on Monday, July 9, to attend the annual conference of the Y. W. C. A. at Silver Bay on Lake George. The Silver Bay Conference opens July 10 and continues until July 20.

Every part of the program hinges in one form or another upon questions of high import to girls and women. It offers selection of courses according to diverse interests of those who attend. Some of the emphases will be: (1) the distinctive task of women in organized work of the present day; (2) what is happening in business and industry in this section of the country; (3) how to use the Bible to meet the needs of today; (4) the religious situation in this country and its implications for the Y. W. C. A.; (5) how every member should know about the Y. W. C. A.; (6) findings from the national convention on occupation of the field, on demand and supply of leadership and other major problems; (7) workshop hours for committee and department and interest groups.

Members of the Moorestown colored Y. W. C. A. will meet at the club room on Church street, Thursday, July 5, at one p. m. to organize an advisory board to carry on the work in Moorestown. Miss Hattie Branch is acting as chairman for the group.

Camping days for girls at Ockanickon are not very far distant. Burlington County girls are showing their enthusiasm by sending in each day to the county Y. W. C. A. office more registrations. There is still room for girls during the second and third weeks. All registrations must be in by July 15, but girls who are intending to go should register immediately in order to be sure of getting in.

Evelyn Dunlop, of the Moorestown colored Girl Reserve, was elected by her club as a delegate to the High School Girl Reserve Conference at Camp Arcadia, of Philadelphia, Y. W. C. A., July 6 to July 9. Evelyn writes that she is having a happy time at the conference.

Thursday evening the Marlinton girls met at the home of Ellen Atkinson. Most of the time was spent by practicing Girl Reserve songs and playing games. The two members of the club, Elizabeth Keadley and Helena Wolfson, were present. Mrs. Atkinson surprised the girls by serving a delicious supper.

Tuesday thirteen members of the Moorestown Junior High School spent the day in Philadelphia visiting the new Art Museum and the Zoo. After spending the morning at the museum the party went into Fairmount Park where a picnic lunch was served. The zoo was the attraction for the afternoon. Mrs. William Matlack and Mrs. Edwin Russell, of Moorestown, and Miss Nellie Sumner of Mount Holly, accompanied the girls on the trip.

## RAINSPOOT BOY INJURED

Bronislav Edouard, six years old of Hainesport, is in the Burlington County Hospital with a fractured right leg and possibly a fractured skull as the result of being struck by a car driven by Abraham Abramowitz, of Hainesport, on Tuesday afternoon of last week.

Bronislav had been playing along the creek, near the bridge on the Marne Highway, and suddenly darted into the path of the car, an eye-witness claims. Abramowitz took the little fellow to the hospital and then reported the accident to the police.

There are 13 players on a soccer team.

## Something He Can't Quite Comprehend

By Albert T. Reid

## Maurone Guilty of Atrocious Assault

Delran Justice of Peace, to Receive Sentence; Other Court Matters

The case of the state vs. Frank Maurone, justice of the peace of Delran township, charged in two indictments with atrocious assault and battery upon Frank Murray, a former member of the Camden police force, and Hubert Kernan, also of Camden, was heard before Judge Slaughter at Mount Holly last week.

The testimony of Murray and Kernan was in the effect that they stopped at 1:30 o'clock on the night of December 31, last, and asked for some water for the radiator of their car. They claimed that Maurone was intoxicated and when they asked for the water he became abusive and finally attacked them. The wife of the justice got his gun and shot both barrels at them at close range, Murray being struck in the right shoulder and Kernan in the right shoulder and they were confined in the Burlington Hospital, at Riverview, for several weeks in a serious condition.

The complaints also testified that Maurone was having a New Year party at his house when they stopped for the water and that he was drunk and it was also shown that Maurone had been in trouble before, both in Philadelphia and Camden.

In his own behalf Maurone testified that both Murray and Kernan were intoxicated when they stopped at his house and that they walked right in without knocking, claiming that they were two detectives from Camden, and that he ordered them out. This he said, they asked for water for their car.

Maurone's Version of It

An argument ensued when the justice accused the men of being drunk and after he had threatened to have them arrested for driving a car while intoxicated, as a result of which a free fight was started, during which Mrs. Maurone got her husband the gun. Maurone claimed the two men grabbed the gun and were shot in the scuffle for its possession.

Maurone denied being drunk and said the members of the party at his house had nothing to drink stronger than soda water.

The jury rendered a verdict of guilty to both counts of the indictment after being out three hours.

Judge Slaughter heard a number of matters at the Court House Thursday, which come under the head of Orphaned Court business, including the cancellation of a mortgage given back in 1876 on a lot at Riverview now owned by Sumner Elliott, of Bridgeboro, and upon which interest had ever been paid, either by Mr. Elliott or several previous owners of the lot, but which for some reason had never been cancelled.

He also disposed of one adoption matter and several accounts among which was the final account in the estate of Edward D. Stokes, deceased of Mount Holly.

The Court announced that Appellate Court would be heard on July 10 and 11, when Judge Austin L. Swackhamer, of Woodbury, will be in court.

Friends Can Pay \$850

William A. Willis, colored of Trenton, captured by the police of Florence township with a gallon jug of liquor in his car, had previously told the Court where he got the liquor, other than to answer that it came from Trenton. The Court with the remark that "your Trenton friends can help you pay the fine," assessed a \$850 fine.

Benjamin Weinstock, of Riverside, indicted for assault and battery on Florence Thompson, retraced his steps on Tuesday and pleaded non vult.

Lewis Scott, known as "Two-Gun Scott," convicted of burglary at Delran, was sentenced to two and one-half years in state prison.

His partner, George Whittick, convicted on the same charge, will reside at Trenton for two years at the expense of the state.

Michael Britton, of Mount Holly, committed to jail on October 10, 1927, in default of a \$250 fine on a charge of possession of liquor, was on resolution of the Board of Freeholders, ordered released, having served 227 days.

Joseph Mulvan, also committed in default of a fine of \$250, also gained his freedom by resolution of the Board of Freeholders, he having

## ELECTING A WOMAN

DR. KATHERINE BEMENT DAVIS

Well known through the country for her work in sociology, Miss Davis has thrown herself into the presidential campaign for Hoover. She says she will devote her energies to pointing out that the presidential election involves also the choice of a First Lady of the land, and she thinks Mrs. Hoover is the best possible selection for that position by reason of her personality and experience.

served 190 days.

Both of these men have been employed in the kitchen of the jail and have been model prisoners.

Isiah Trull, colored, of Evesham township, who had pleaded non vult to a charge of assault and battery, was sentenced to sixty days. He had already served six months.

## FARM NEWS

### BOTTLE SPRAY

Season of Attack: The Japanese beetle attacks the leaves and blossoms of a number of garden ornamentals from about July 4th to about August 20, the actual dates depending upon the weather. This is the period during which the beetle normally causes a great amount of damage. Ornamentals most likely to be attacked are: Aster, cannas, China aster, evening-primrose, hibiscus, hollyhock, rose, calceolarias, castor bean, dahlias, geranium, morning-glory, nasturtium, pansies, etc.

What to Spray With: The material used in lead oleate-coated lead arsenate. This can be obtained from most dealers in garden supplies. If the material is in powder form, it cannot be obtained; ordinary lead arsenate (powder) or paste containing 50% water will do, but will not stick on the leaves as long.

Formula: To 1 gallon of water, use 3 heaping tablespoonsful of lead arsenate powder or paste, or 3 heaping tablespoonsful of the coated lead arsenate, 8 pounds of the powder, or 4 pounds of the paste.

Time to Spray: Spray about July 1, before the beetles appear in numbers; repeat in 3 to 4 weeks. The first spray must be applied before the plants are attacked; otherwise, later sprays are of little value.

Spray Thoroughly: All foliage should be covered. Use a good bucket pump sprayer if available. Throw a fine mist spray over the top and sides of the plant, coating both sides of the leaves. Unsprayed leaves or portions on good feeding spots for the beetles.

Japanese Beetle Traps: Traps made after the model developed at the Japanese Beetle Laboratory have been effective in catching large numbers of beetles. However, the traps attract more beetles than they catch. For that reason traps are not recommended for the protection of nearby plants.

Other Sprays: Contact sprays made of pyrethrum soap have been developed, and have been found effective for killing beetles. The sprays are best recommended for protecting plants. It is true that they kill beetles, but they kill only those that are on the plants at the time of spraying.

Willy Will's Impromptu on news papers:

Little pens of metal,  
Little drops of ink,  
Make the tyrant tremble  
And the people think.

## New Postal Rates Are Now in Effect

Benness Gives Summary of Reductions in Many Classes of Mail Service

New postal rates, embodying reductions in many classes of mail service went into effect Monday, July 2, and a brief summary of the principal changes, as outlined in a statement by Postmaster Evan K. Benness, of Moorestown Post Office, follows:

Post Cards: Newspapers and Magazines: All post cards will be 1c instead of 2c. Newspapers and magazines will be 1c for each two ounces, regardless of weight or distance. Instead of 2c for each 3 ounces.

Special Delivery Service: Letters 10c each. Packages weighing less than 2 pounds, 15c; 2 pounds up to 10 pounds, 25c; 10 pounds and over, 35c. All to have first class service to destination.

Special Handling Service: Packages weighing less than 2 pounds, 15c; 2 pounds up to 10 pounds, 25c; and for matter weighing more than 10 pounds, 35c. Heretofore special handling charges were 25c. Special handling charges insure first class service to the office of destination.

Registering service: All articles of the first class can be registered up to \$1000 in value. Heretofore there has been no provision made for registering of matter valued more than \$100.

Short Paid Postage: All first class matter short paid more than 1 ounce will be subjected to the deficient postage plus 1c each for each ounce or fraction of an ounce.

## Frog Eating Is Popular

### Among Japanese Epicures

Tokyo.—The bullfrog is crowding the roach and the snipe off the Japanese menu. Ten years ago a Japanese pioneer ate a bullfrog, and pronounced it good. Five years ago enough Japanese were ordering frog legs in a king to make frog farming an inviting pastime.

Today almost everyone in Japan with the price selects bullfrog meat when ordering a fancy dinner, and there are more frog orders than bird orders.

Frog eaters are especially numerous in the warmer sections of Japan, where the croakers attain their greatest growth and are of the best flavor, but in all parts of the land enough of a demand exists to justify frog farms on a fairly large scale.

Engineer Travels Million Miles in Forty-Two Years

New York.—Peter Brennan, a locomotive engineer for the New York Central, retired on a pension a few days ago after having driven engines on the Central line 42 years. He is seventy years old. In honor of his time day at work Brennan dressed the cab of his engine with numerous American flags.

Brennan lives in Yonkers, N. Y. Railroad men estimate that during his career he has traveled 1,000,000 miles on passenger and freight locomotives.

In recent years he has operated switching engines in the Harmon yards.

MUST POST GAS PRICES

The price of gasoline, including the state tax, must be posted at once at all filling stations, according to an order from William L. Dill, state commissioner of motor vehicles. "Outside the station," he said, "we have found signs giving in large figures what appeared to be the price of gasoline. When, however, almost indistinguishable, we have added the information plus tax." This deceives the motorists.

CARNIVAL CONTINUED

The Merchantsville K. of C. carnival which attracted record crowds last Friday and Saturday evenings will be continued this Friday and Saturday evening. The affair is being held at the K. of C. grounds at Merchantsville. An electric refrigerator, No. 12 Wilton rug and a Royal vacuum cleaner are among the big prizes offered. Admission is free and there is a gate price each evening.

## About Your Health

### "JUST THEN"

"That tired feeling" that we have heard of for years, has been made a topic of ridicule, and humorous quip. It has been called "Spring Fever" by those who regard it as acute laziness. But there are those to whom the tired feeling incident to spring-time, means a curable disorder that interferes really enough with capable functioning; it is in this condition that I am now talking about—seeking to correct.

Any undue tiring of the body in normal action, should be regarded with concern. It means that something is wrong—and may lead to something more serious, if unattended to. The perfectly healthy human body does not tire easily, and it is almost impossible to wear it out by any reasonable form of employment. Of course the night worker, and the sweat-shop employee, the soldier in extreme temperatures, often overtime, can hardly expect to keep fit for a very long period of time. These break down prematurely.

If you are tired on rising in the morning, you are warned in advance. You probably ate too much at the last evening's feast; you are probably that all there is about it. Clean out, clean up, and stop your dissipation in diet. Probably a sugar drunk, maybe a debauch in vodka-tonic, a debauch in starches. Look to your nutrition through bowel and kidneys; use fruits and green vegetables; plenty of water. If, after a week of self-regulation, you are no keener of mornings, take your physician a specimen from your kidneys.

People tire on over-eating—it is auto-intoxication. You ought to feel fresh and vigorous after a night's rest. Then the day's work goes by like a song. Don't expect vim and vigor, with your bloodstream carrying an overload of protein ballast.

## Bachelors' Lives Short

London.—Married men live four years longer in England than bachelors. It was stated before the Associated Bodies of Life Assurance Actaries. According to Prof. G. Robertson, distinguished British medical-psychologist, usually is three times as prevalent among single men and women as among married men and women. The organization went on record urging everyone to marry before the age of twenty-five.

## Flying Police Chief

Bergen County, N. J.—This community claims to have the only flying chief of police. Chief Stearns uses an airplane to direct his eighteen motorcycle patrolmen to traffic jams along roads leading to the Teeterboro airport.

## Bottle Adrift 24 Years

Glasgow.—An official tide-testing bottle adrift since 1904 has been picked up on the Moray Firth coast.

London's water supply uses 6577 miles of pipe.

## THREE SPEEDERS ARE FINED HERE

Brooklyn Man and Two Philadelphians Pay \$10 Fines Over the Weekend

Four motorists were arrested in Moorestown for violation of motor vehicle laws over the weekend. Three were speeders and the fourth Joseph C. Wagner, 1233 East Oxford street, Philadelphia, was arrested Sunday by Officer Bruce MacDonald after he had driven his auto past a traffic light with the signal against him. At a hearing before Justice of the Peace Walter F. Middleton, Wagner was fined \$5.00 and costs.

The three speeders, who were tried before Recorder Joseph W. Johnston in Town Hall, were: Harry Walters, 47 Albany avenue, Brooklyn, arrested by Officer Walter A. Erickson; Louis Russo, 1121 South Ringold street, Philadelphia, arrested by Officer Walter A. Erickson; and Anthony Rantah, 1120 Ridge avenue, Philadelphia, arrested by Officer Bruce MacDonald.

The speeders were each fined \$10 and costs. Walters was arrested Saturday while Russo and Rantah were Sunday offenders.

## SEASIDE PARK MAY HAVE FINE NEW HOTEL

A rumor from Trenton is that capitalists of that city will build a half million dollar hotel on the old Berkeley Arms site in Seaside Park. The story is that the Sanhian Realty Company to Trenton, which bought the Berkeley Arms site from Frank Hewitt a year ago, has now sold it to another syndicate which purposes having the hotel erected there ready for next summer. This movement is said to be induced by the belief that the beach route to Atlantic City will go through, and that the recent action of the Ocean County Board of Freeholders toward building the ten mile concrete between Point Pleasant and Seaside Park, and the promise of the State Highway Commission to reimburse the county for this outlay in 1930, is a part of the shore boulevard plan.

The deed is everything; the fame is nothing.

## MISSOURI RIVER IS BOON TO POOR

### High Water Brings Up Plenty of Firewood.

Sioux Falls, S. D.—Although the Missouri river, during periods of high water, is famous for the speed with which it can "eat up" farms and other lands along its course, it is this summer doing an act of kindness for some of the poor people living in towns along that section of the river which passes through South Dakota.

These people are being furnished by the big river with an abundance of fuel for next winter, and this, in the form of driftwood, is being retrieved from the swollen waters of the stream and carefully conserved for the time when South Dakota will have freezing temperatures next winter.

Old river men along the "Big Muddy" say that not for years has the river brought down so much driftwood as during the present period of high water. The high water is due to the melting of unusually heavy snows in the mountains of Montana, at the head waters of the river.

The Missouri river has this summer inundated much bottomland, has gone through stands of timber on the upper stretches of the stream, and has collected a heavy toll of logs, lumber and brush and other material suitable for firewood. Some of the logs which float near the shore and are drawn to the bank by the watchers along the river are frequently from twenty-five to thirty feet long, and when cut up make a considerable amount of firewood.

When pulled from the river the logs and other material, including tree stumps, are water soaked, but when sawed and split and placed in small piles they soon dry out and make first-class fuel.

Day after day, at the present time, the swollen waters of the river are bringing down logs, gnarled stumps, lumber, railroad ties, and pieces of wood, and as these come near the shore at the various towns along the river they are pulled out and piled up and preserved for the time of need next winter.

Montanans plan to reopen the Lewis and Clark cavern.

Butte, Mont.—Led by the Whitehall Chamber of Commerce, a movement is under way to obtain federal appropriations for reopening the Lewis and Clark cavern.

This cave, with its stalactite and stalagmite formations, about 50 miles east of Butte, and 1,200 feet above the current of the Jefferson canyon, was accidentally discovered in 1908 by hunters, and by L. A. Morrison of Whitehall filed on the site. He installed stairways to a depth of more than 800 feet, and provided an entrance lower down the hill. Later when the hearing on patent for the ground came up it was discovered that the site was on the Northern Pacific railroad grant and the corporation turned it back to the government.

It is proposed to extend a branch of the Yellowstone trail to a point near the cavern, and install a tourist camp for those who wish to visit the cave.

Birth Rate Drops in Cities of Germany.

Berlin.—There appears to be no lower limit to the descending birth rate of European cities short of absolute zero, according to studies made by Dr. Warren S. Thompson of the Scripps Foundation for Population Problems.

Berlin leads the procession with only 11.7 births per thousand people in 1925, which exceeded only slightly the death rate of 11.4, but the figures available for 1926 indicate that the death rate may have exceeded the birth rate during the last year.

As a group the large cities of Germany had a birth rate of only 14.1 in 1926 and the report for the first month of 1927 indicates that for this year it will be even lower.

Hurt Muscle Preaching; Asks Accident Insurance.

San Francisco.—John Matthews, Presbyterian preacher of Glendale, Calif., "overpreached" while delivering a sermon recently, and as a result has applied to the state industrial accident commission for compensation for injury.

Mr. Matthews declared that he strained a muscle while gestulating in the delivery of a sermon, necessitating an operation. He seeks reimbursement for medical expenses and loss of time during his recuperation.

His application is the first made by a church employee since the commission informed such workers a year ago that they were eligible for compensation in case of accident.

## Why Keep on Advertising?

If the same people always lived in the same place and kept on doing the same things, then it might not be necessary to keep on advertising day after day, month after month and year after year. But they don't. Part of America's market dies every day and a new part takes its place. Families not only change their living places, but they change their buying habits. The pay envelope of today is not spend exactly the same as the pay envelope of five years ago was spent, nor will the pay envelope of next year be spent exactly as the pay envelope of this week. One advertising man has these figures about the changes that take place in our markets in a single year: 2,500,000 babies start their earthly careers; 400,000 high school students discover that a diploma is no open sesame to a job; 1,350,000 couples decide that two can live cheaper than one; 2,000,000 families get the wanderlust; 1,400,000 people shake off the "mortal coil."

To play a bigger part in the markets of tomorrow you must keep in front of the public your wares today—and every day. Your goods will not interest the public unless you see to it that they do. How can you do this without keeping on advertising?—Forbes Magazine.

## NOTORIOUS WOLF IS KILLED IN OREGON

### Destroyed Horses and Cattle for 12 Years.

Portland, Ore.—The great white wolf of Sycan marsh in southern Oregon has been killed and stockmen are breathing easier.

This animal has been feared and hated for 12 years and none was able to trap or shoot it until Elmer Williams, biological survey hunter and trapper, went out after it. Stockmen estimate that the creature took toll of their cattle, horses and sheep to the extent of \$15,000, and about it has grown a collection of stories almost as "tall" as those about Paul Bunyon, the great western logger.

Williams' message to his Portland chief, Stanley Jewett, head of the predatory animal work of the biological survey in Oregon, was brief and to the point. It said: "Sycan wolf killed today. White male."

White Wolf Was Notorious. Those few words were sufficient because the white wolf of Sycan marsh was the most notorious animal Oregon has ever known. Its great prowess as a stock killer and the fact that it was white in color, made it known all over the Northwest.

Williams included the word "white" in his message because he had had many arguments with Jewett over the color. Jewett had always scouted the idea that it was white. He declared that it was probably light in color and the residents had embellished their stories by calling it white.

Only three times have white wolves been known in the West. One was killed in Arizona a number of years ago by a forest ranger. Another was found over in Wyoming. The Sycan wolf is the third.

This animal was larger than the ordinary timber wolf. His tracks were about the same size as those of a big cougar. During his whole career he hunted alone except for the coyotes that skulked in his rear to feast upon his kill.

He ranged over a territory extending 50 miles in every direction from the Sycan marsh, his home. One night he would kill a horse, steer or sheep in one place and his baying, like that of a hound, would be heard 30 miles away the next night.

The animal scorned baited and scented traps of all kinds. And no sound or sight could get him until Williams got on the trail. Williams went to work first in 1925. He spent a number of periods of several weeks each trying to trap the animal.

Bobcats Beat Wolf to Trap. The wolf used to cross a footlog over the Sycan river every day or so in his rounds and Williams tried many times to trap him there. But each time the bobcats beat the wolf to the trap. "Then a fresher carried the log away and the chance was gone."

The biological survey stood a lot of joshing over its failure to catch the wolf. Jewett said it was the only animal his hunters had been unable to get rid of in a "reasonable length of time."

Now that the white wolf is gone, the natives of southern Oregon are almost sorry. He was a proof that the old West was not quite gone, and he stirred their roguish fancy. However, their stories about him will be told over and over and will grow "taller" with the retelling.

An art critic, describing a collection of bric-a-brac, said: "The visitor's eye will be struck on entering the room with porcelain umbrellas!"

## King Tut's Language Brought Up to Date

Berlin.—The language of Tutankhamen and Ramesses is now available in terms of modern speech, as a result of co-operation between American and European brains and capital. The publication of the first volume of a great Egyptian dictionary has just been announced here. The work is edited by Prof. Adolph Erman and Prof. Hermann Grapow and represents the fruit of 25 years of research on over a million and a half texts and inscriptions. In acknowledging the assistance received from sources all over the world, the editors make special mention of the co-operation of Prof. J. H. Breasted of the University of Chicago, noted Egyptologist, and of the financial support of the enterprise by John D. Rockefeller, Jr.

## Teach Laughter

London.—At a conference of local education authorities a resolution to teach the pupils to laugh was introduced and referred to a committee of teachers for action. The authorities say the schools are too sober and sedate.

## Eggs Hatch All Right, But They're Alligators

Billesdon, England.—Poultry farming in England has its disadvantages. Among them is the uncertainty whether eggs placed in incubators will produce chickens, ducklings or alligators. B. Mellor, a Billesdon farmer, bought a dozen eggs in the local market and put them in an incubator. Three weeks later he opened the drawer to see if the expected chicks had made an appearance. He shut it hurriedly. Twelve baby alligators were the sole occupants.

## STATE REPUBLICAN COMMITTEE MEETS

Body Planning Active Campaign to Give National Candidates Substantial Plurality in Nov.

At a meeting of the State Republican Committee, held at Trenton yesterday, attended by State Committeeman Harold B. Wells and State Committeewoman Mrs. Elizabeth Terry, representing Burlington county, many matters having to do with the approaching campaign in New Jersey were considered.

It was decided in a general way that the methods which resulted so successfully in the campaign of 1916, when a President, U. S. Senator, and Governor were on the same ticket, should be pursued in the 1928 campaign. New Jersey gave Coolidge a plurality of 377,419 four years ago and it is felt that the Republican National ticket will go over by nearly or quite that margin of victory this year.

A spirit of full co-operation with the National Committee was promised. Bernard Prentice of Rumson, Monmouth county, was elected treasurer to succeed Ogden H. Hammond, United States Ambassador to Spain, who declined re-election. Mrs. Mayme L. Pressie, of Woodbury, was named assistant secretary, and John McCutcheon, of Passaic; Mrs. Evelyn C. Brown, of Lakewood, and David Baird, of Camden, were named vice-chairmen.

Very stale bread—the crust of the earth.

## More Opposition for New State Highway

Cedar Ave., Pennsauken, Residents Protest No. 38 Route; Plan Hearing

The proposed new state highway route to the North Jersey shore, to be known as Route No. 38, met opposition for the second time last week when a petition protesting it was presented to Pennsauken Township Committee. A month ago a group of residents on Central avenue, Moorestown, headed by Vice-Chancellor Leaming, also protested the new route.

The opposition in Pennsauken came in the form of a petition signed by more than 40 residents of Cedar avenue, which would be part of the proposed new route from the Crescent Boulevard to the seashore.

Cedar avenue, now about 25 feet wide, would be widened to forty feet under the plan for the new road.

The petition asked that the township committee communicate with the Merchantville Borough Council and with the State Highway Commission to arrange a public meeting at which residents of both municipalities could thrash out the plans for the new route.

Township Committee Chairman Braunsward said a communication would be sent to the Merchantville Council asking for a joint public meeting and that a letter would be sent to the State Highway Commission inviting one of its members to attend the meeting and explain the plans for the new road.

## SEPTIC TANK TO PROTECT FAMILY

When the old cesspool stops up and begins to overflow into either the basement or the yard, the farmer must look for other means of sewage disposal.

In the interests of health and convenience, however, he should not wait for this to happen, in the opinion of E. R. Gross, agricultural engineer at the New Jersey Experiment Station, New Brunswick.

The danger of soil and water pollution is too great to longer use cesspools. The septic tank through its greater purifying power and by means of additional purification in the absorption area is now the best means of farm sewage disposal.

The tank of concrete is watertight so that no seepage takes place until the material has had time to digest. During absorption the soil bacteria complete the purification process. The farmer usually builds his own tank. For an average family the materials for the tank may cost about \$50 or \$60. Unless the sewer must be quite long this will include all the for sewer and absorption area. Hundreds of tanks have been built in the past few years according to the plans furnished by the experiment station.

## P. S. VOTES \$5 DIVIDEND

At a meeting held in Newark, June 26, the Board of Directors of Public Service Corporation of New Jersey voted to issue at least 285,827 shares of cumulative preferred stock, entitled to dividends at the rate of \$5 per share per annum. Holders of the common and preferred stock of the Corporation

## Dr. Frank Crane Says

### AN INTERNATIONAL BUGABOO

One of the most persistent international bugaboos, a principal cause of the senseless race for armaments, not to say one of the causes of war, is the notion that seems to be popular in every country that diplomats of every other country are deep, sly, cunning fellows, while the diplomats of our own country are babes in innocence and childlike trustfulness.

Much was said of President Wilson being deceived and hoodwinked by the deep and crafty representatives of other governments at Paris. It has always been my suspicion that President Wilson and his advisors were about as shrewd as any of the others.

Somewhat it pleases us to think that the statesmen of Europe are only, tricky Metetrichs and Talleyrands, while our own statesmen are merely Sunday School teachers from Kokomo, Indiana.

We are bluff, hale and frank, while the people of other nations are crafty and shy.

I was once in a boat sailing along the coast. My daughter exclaimed, "What a beautiful coast line!" One of the Japanese replied, "Yes, but the Japanese are tricky." Even a coast line must have some

deep and sinister significance. There is doubtless bad and evilous people in the world, but in this world, the world is never going to get along well until we learn to trust each other. This was the teaching of Christ and he was about the most un-bitten of human beings.

"He who trusts everybody will probably be bitten," said Spurgeon, "but he who suspects everybody will be devoured." Sometime ago a man wrote a book—I think he was from Arkansas—called "My Neighbor is Perfect." The book showed how human knots could be untangled by simply trusting your neighbor.

It is a long step in the dark to get the habit of trustfulness, but it is a good habit to form, nevertheless.

The Golden Rule is all right, but it needs an amendment. To the advice, "Do unto others as you would have them do unto you," should be added the supplement, dare to do it first.

To get along well with your neighbors requires after all a lot of daring, more courage perhaps than to get along with them.

It is easy to be suspicious and capricious and touchy. It is hard to be trusting. But it pays.

cess of the Republican party at the November election, with the same degree of efficiency that has characterized his course in the great tasks that he has performed for humanity in the past.

There are those who predicted that candidate Hoover would not function as successfully as did Food Administrator Hoover, or as Secretary of Commerce Hoover, head of the government's relief campaign in the stricken Mississippi Valley, but they are proving to be poor prophets.

The Republican nominee for President has yet to record his first serious failure and the year of 1928 is likely to witness it.

Organization is going to be developed to its highest point of political efficiency in this campaign if present indications are to be relied upon. Nothing is to be left to chance; neither are the Democrats going to be permitted to select their own battle ground. The party of "Al" Smith and his Tammany cohorts will start out on the defensive in the night and will be kept there.

Exchange.

### PERFECTING ART OF LIVING

If there is any quality which is consciously American, it is the ability to increase the comforts of living.

The importance of our industrial age is that creating more prosperity, efficiency and leisure, puts us on a higher plane of life.

This Golden Age of ours is just beginning. As yet, comparatively speaking, we have but skimmed the surface of its possibilities. In less than half a century we have made our magnificent beginning; there is no forecasting the end.

Our great advantage over European countries is that our youth is such a short way behind us. We have no inelastic attitudes of mind, no institutions made unprogressive and unchanging by centuries. Our ways are not dictated by ancestors dead for uncounted generations.

We face the gigantic duty of developing America, with ability and ingenuity representing the best the ancient world had to offer. And with these, we had a youthful people's qualities of open-mindedness, adventurousness and an ambition to set up new institutions and trends of thought, better than any that had been before, that we might have a happier, fuller life.

We have aged since then, and maturity has fringed many of the rough spots. To a great extent we have succeeded in accomplishing our early aims. We have the best-paid, happiest working class in the world. We enjoy advantages unknown elsewhere. Our form of government and our institutions are the admiration, and often the model, of nations centuries our elders in years.

Such is our contribution so far to civilization. The arts of living are more generally understood; we have shown the need for many luxuries as well as the bare necessities. Not only our own people, but most of the world has been influenced by this development.

We have done great things. We will do far greater things on a multitude of still dim tomorrows.

The flexibility of the English language is shown in the reply of an Irishman to a man who sought refuge in his shanty in a heavy shower, and finding it about as wet inside as out, said:

"You have quite a pond on the floor."

Some politicians evidently fear that wet plank would prove too slippery!

A Long Island lady was divorced and remarried the same day. Some people are born optimists.

### MACHINERY AND BRAINS MANY MYSTERIES SCHUBERT'S UNFINISHED WORK STICK TO YOUR JOB

W. F. Knudsen, Chevrolet president, offers cheerful news on General Motors. In May his company turned out 140,700 Chevrolet cars. On one day, May 28, the product was 7,075 finished cars and trucks. May, 1928, is 25,000 cars ahead of May, 1927.

That's good production, but high General Motors officials should bear in mind that the machinery in their brains is more valuable than any other asset of General Motors. Men like President Sloan of General Motors, and Rasbok, head of General Motors finance, work themselves as they wouldn't work any piece of machinery.

They take the night train from New York to Detroit, begin work there at 8 in the morning, work through the whole day, eating sandwiches at noon, still working, and take the night train back to New York.

No machine can stand that, and no duty to stockholders justifies it.

Dr. Walsh, of Fordham University, tells young men "The world is confronted with more mysteries than ever before. Science solves only a few problems."

Yes, indeed. Why does the hydrogen atom have a single proton in the center, and a single electron revolving around it? Why does the helium atom, first discovered on the sun through the spectroscopic have four nuclei with two electrons revolving around them, and how does the four grammes helium, from hydrogen, procure energy as great as though eighty tons of coal were burned? There are some mysteries for you.

Everything is a mystery if you go far enough into it. And the greatest of all mysteries is thought, which has no proton or electron so far as we know and is driven by an energy that has no more practical name than "soul" or "mind."

A \$20,000 prize is offered for the best ending to Schubert's "Unfinished Symphony." It won't be worth \$20,000.

To finish Schubert's symphony you would have to be Schubert. To restore her arms to the Venus of Milo, or to show how the winged Victory looked before she got into that fight, you would require the brain and feeling of the artist that made the statue. Every mind ever born is absolutely different from every other.

PONTIAC SIX  
PRODUCT OF GENERAL MOTORS

James A. Farrell, president of the United States Steel Corporation, will visit the plant of the New Haven Wire Company soon. When he was sixteen years old he worked there twelve hours out of every twenty-four for \$4.65 a week. If you stick to your job, even that kind of job, you can get somewhere.

In New York a young man brought into court by his father admitted that he had an income of \$400 a week, and employed his father as hostler to take care of his saddle horses. His excuse was that his father had not led a moral life. The Japanese religion, that includes twenty different kinds of hell, probably would find one especially prepared for him, that wouldn't include any saddle horses.

A visitor to the White House feeling important said to President Coolidge: "Mr. President, I must tell you I did not vote for you." "Well," replied the President, "some did."

Parisian ladies are wearing live tortoiseshell on their handbags. They should be trained to bite pickpockets!

Long Island is all excited about a man who has such strong teeth and tough tissues that he can eat pieces of glass and remain unharmed. We'd like to see how he reacts on the first biscuits of some prospective brides we know!

## STICK TO YOUR JOB

W. F. Knudsen, Chevrolet president, offers cheerful news on General Motors. In May his company turned out 140,700 Chevrolet cars. On one day, May 28, the product was 7,075 finished cars and trucks. May, 1928, is 25,000 cars ahead of May, 1927.

That's good production, but high General Motors officials should bear in mind that the machinery in their brains is more valuable than any other asset of General Motors. Men like President Sloan of General Motors, and Rankin, head of General Motors finance, work themselves as they wouldn't work any piece of machinery.

They take the night train from New York to Detroit, begin work there at 8 in the morning, work through the whole day, eating sandwiches at noon, still working, and take the night train back to New York.

No machine can stand that, and no duty to stockholders justifies it.

Dr. Walsh, of Fordham University, tells young men "The world is confronted with more mysteries than ever before. Science solves only a few problems."

Yes, indeed. Why does the hydrogen atom have a single proton in the center, and a single electron revolving around it? Why does the helium atom, first discovered on the sun through the spectroscopic analysis, have four nuclei with two electrons revolving around them, and how does the four grammes helium, from hydrogen, procure energy as great as though eighty tons of coal were burned? There are some mysteries for you.

Everything is a mystery if you go far enough into it. And the greatest of all mysteries is thought, which has no proton or electron so far as we know and is driven by an energy that has no more practical name than "soul" or "mind."

A \$20,000 prize is offered for the best ending to Schubert's "Unfinished Symphony." It won't be worth \$20,000.

To finish Schubert's symphony you would have to be Schubert. To restore her arms to the Venus of Milo, or to show how the winged Victory looked before she got into that fight, you would require the brain and feeling of the artist that made the statue. Every mind ever born is absolutely different from every other.

James A. Farrell, president of the United States Steel Corporation, will visit the plant of the New Haven Wire Company soon. When he was sixteen years old he worked there twelve hours out of every twenty-four for \$4.65 a week. If you stick to your job, even that kind of job, you can get somewhere.

In New York a young man brought into court by his father admitted that he had an income of \$400 a week, and employed his father as a hostler to take care of his saddle horses. His excuse was that his father had not led a moral life. The Japanese religion, that includes twenty different kinds of hell, probably would find one especially prepared for him, that wouldn't include any saddle horses.

A visitor to the White House feeling important said to President Coolidge: "Mr. President, I must tell you I did not vote for you."

"Well," replied the President, "some did."

That's good production, but high General Motors officials should bear in mind that the machinery in their brains is more valuable than any other asset of General Motors. Men like President Sloan of General Motors, and Rankin, head of General Motors finance, work themselves as they wouldn't work any piece of machinery.

PONTIAC SIX  
PRODUCT OF GENERAL MOTORS

Ever since it flashed into the field, Pontiac Six has been a history-making car. And today's Pontiac Six in countless ways is a better car than its famous predecessors.

Combining the beauty of bodies by Fisher and highest quality construction with numerous engineering advancements, it provides style, comfort, long life and smooth six-cylinder performance—never before available at prices as low as \$745. Ride once—and you will agree... here is value that cannot be matched!

One farm plank all the parties can agree to is a resolution disapproving of the seventeen-year locust!

George Bernard Shaw addresses his latest work to "intelligent women." Some cynics can't believe he cares so little for royalties that he wants to limit its perusal to that class!

A New York Judge decided that a young man had a perfect right to kiss a girl during a movie performance.

anced. This is one verdict of the law which is sure to be upheld by the younger generation.

Now that talking movies have been perfected, what is to become of all the people who went to the movies just for the pleasure of reading the titles aloud?

It didn't take a weather prophet to predict a hot time at Houston, Texas.

## Sunsweet Prunes

in pound packages

LARGE — TENDER — MEATY — DELICIOUS

## TWO TASTY WAYS TO COOK

## THE QUICK METHOD

Cover Sunsweet Prunes with hot water and allow to soak 1 hour. Bring to the boiling point in the same water in which they were soaked, cover and cook until prunes are tender, from 30 to 45 minutes. Add sugar ten minutes before removing from the stove, allowing 2 tablespoons to 1 cup prunes measured before soaking or cooking. If a thick syrup is desired, remove prunes and boil the liquid until it thickens.

## The Longer Method

Soak Sunsweet Prunes over night. Add enough water to cover again and bring to the boiling point. Cook very slowly. Never let them boil hard. In about two hours the juice will have boiled down to a thin syrup, which contains all the natural sugar of prunes. No additional sugar is necessary. A little orange peel, lemon juice or stick cinnamon improves the flavor for some tastes.

## Palmyra Wins Holiday Games

Defeat Both Medford and Vincentown by 3 to 2

### Score

Palmyra's Independence Day celebration was left to the baseball team, and they surely took it upon themselves to do the job right. In the morning they traveled to Medford where they trounced the league leaders by a score of 3 to 2, and in the afternoon trimmed the Vincentown nine by the same score on the home grounds. Each game was won in one big inning when the locals scored all their runs.

Both games were played with the same fine spirit which has been in evidence of late and contributed much to the team's third and fourth consecutive victory.

Harder took the mound in the morning tilt and held the slugger Medford crew to seven scattered hits. S. Kline, pitcher for Medford, was touched for ten safeties.

Te league leaders drew first blood when they scored in the first. Relgert was safe when Harder threw high to first and scored on Eckert's double. Both teams drew blanks in the next four innings.

Palmyra Takes Lead  
Palmyra forged ahead in their one big inning. Weikman drew a pass, stole second, and scored on Wenger's single. Wenger taking second on the throw in. King singled, scoring Wenger, and then dashed all the way to third on the play. King scored the third and winning run on Andrew's single.

Medford threatened to tie the score in the seventh when S. Kline singled, and scored on N. Vaughn's three-bagger, a hard hit which bounced off Wenger's shin and rolled out along the right foul line. Harder tightened up and retired the side without further damage.

The score:

### Afternoon Game

Wenger gave a classy exhibition of pitching in winning an abbreviated contest in the afternoon. The storm, which threatened from the start, put an end to the activities at the end of the sixth with the locals leading 3 to 2.

Again the opposing nine was the first to score, when Wenger hit Mixt with a pitched ball and Loveland and Jones singled.

The Palmyra boys came back with a vengeance in their half and scored enough runs to win the game. Johnson handed Kraus a free ticket to first and Weikman laid down a perfect bunt, both runners being safe.

Stack advanced his mates when he bunted in front of the plate and was tossed out. A single by King scored Kraus but Weikman was tagged out at the plate. Andrew's double scored King and "Andy" scored, that proved to be the winning run on a single by Harper.

Vincentown Scores  
Vincentown scored again in the third. Loveland was safe at first, when Joe Stack dropped Wenger's throw, and scored a few minutes later on G. Alloway's double.

## "SHOW ME" WEEK STIMULATES SALES

James B. Taylor, Auburn Agent, Enthusiastic Over Results

James B. Taylor, of the Auburn agency in Riverton, was one of the hundreds of Auburn dealers throughout the United States who observed the national "Show Me" week which ended June 17.

Speaking of the "Show Me" week, Roy Faulkner, vice-president of the Auburn Automobile company said, "We have built a car that will sell itself. It is so good to do that, however, the prospect must get into it and test its qualities. We do not believe that cars can be sold today off the sales-room floor. They must provide the performance that the buyer demands. That is why we urge the prospect to get into an Auburn and test it out, and let himself be shown."

Mr. Taylor believes this to be largely true and that the "Show Me" demonstration he gave helped very materially in putting over the large number of sales which followed the "Show Me" week.

Mr. Taylor reports the following sales made last week: Mrs. Mattie K. Musser, 1909 Cinnaminola avenue, Palmyra, an 88 Deluxe Cab; Alfred C. Grover, 444 N. 44th street, Camden, an 88 Deluxe Cab; and Mrs. Albert Wagner, Jr., Riverside, 88 Sport Sedan.

SAFER—KING  
The Moravian Church was the scene of a beautiful wedding last Saturday evening at seven o'clock, when Miss Marian Elizabeth King, daughter of Mr. and Mrs. Harry C. King, of 100 West Charles street, Palmyra, and Samuel Fowler Shaffer, son of Charles Shaffer, of Palmyra, were united in marriage by the Rev. A. Harke.

The bride, who was given in marriage by her father, was attired in a gown of ivory satin trimmed with silk lace that has been in the family for years and which belonged to her great grandmother. Her veil was white tulle and silk lace. She carried a bouquet of white roses and lilies of the valley.

Miss Helen M. King attended her sister as maid of honor and was attired in yellow tulle. A pink picture hat trimmed in pink tulle. She carried a bouquet of yellow roses.

The bridesmaids were Miss Elizabeth Bartley, of Portway, and Miss Emma Strang, of Atlantic City. Miss Bartley wore an orchid taffeta frock, a green picture hat trimmed in orchid tulle and carried a bouquet of pink roses. Miss Strang wore a blue gown, an orchid picture hat trimmed in green tulle. She carried a bouquet of pink roses.

The little flower girls, Esther and Caroline Messenger, the five-year-old twin daughters of Mr. and Mrs. Henderson Messenger, were attractively attired in pink crepe de chine trimmed with pink lace and white kid slippers. They carried a basket of pink sweet peas.

Wilbur Shaffer, a brother of the groom, acted as best man and the ushers were George Shaffer, brother of the groom, John Williams, Harry C. King, Jr., and Frank N. King.

The church was beautifully decorated with white roses and palms, with streamers of white ribbon.

The Misses Helen and Ruth Aydelotte sang "At Dawning" and "Oh Promise Me." Mrs. Marcelle Haines, a bride of two weeks, played the wedding march.

After the ceremony, a wedding supper was served by McAllister, the caterer, at the home of the bride's parents and a beautiful splendor of white flowers, ribbons and a large white bell under which the happy couple stood to receive their guests.

The bride left immediately after the reception for a ten day trip to Niagara Falls and New York State. Upon their return they will reside in their new home at 39 West Charles street, Palmyra. Both are well known in Palmyra and vicinity and enjoy a host of friends here.

Guests were present from Pittsburgh, Mahanoy City, Shamokin, Reading, Washington, D. C., Wilmington, Newark, New York, Atlantic City, Ocean City, Trenton, Haddonfield, Philadelphia, Camden, Riverside, Moorestown, Riverton and Palmyra.

Mr. and Mrs. Shaffer were the recipients of a rare tea set from Shanghai, China, presented to them by Robert McIntyre, who made his home with the bride's family before he joined the Navy.

UNEVENTFUL HOLIDAY  
Fireworks Dealers Have Busy Day; Traffic Heavy  
The Fourth of July was celebrated in Palmyra without any serious damage to anyone except, of course, the opposing baseball teams.

Little Robert McCamy, son of Mr. and Mrs. William A. McCamy, suffered painful burns on the fingers of his left hand when a firecracker which he was holding exploded. He was taken to Dr. Dean LeFavor where his injuries were treated.

The competition among the various fireworks dealers became very much in evidence as the day progressed. The early ferry boats brought many youthful customers from across the river, who came to Palmyra to buy their fireworks as they are not sold in the city of Philadelphia.

One of the stores located outside of the business district began sending a car to meet the boats to make sure of getting its share of the business. Before long several of the other stores followed suit, and long before noon there were half a dozen cars meeting each boat to haul the prospective buyers to their various establishments.

Chief of Police C. Morris Beck reported the heaviest traffic of the year and the police were busy from early morning until after the fireworks display at night. Everything was orderly and there was no mishap to mar a perfect holiday.

## Palmyra Scores Win at Delanco

Wenger Pitches Brilliantly as Mates Give Wonderful Support

The Palmyra ball team traveled to Delanco Saturday, June 30, and gave those who followed them a real treat in a brand of baseball similar to that displayed the previous week.

They whitewashed Delanco to the tune of 3-0 being the same score by which they defeated Moorestown last week.

Wenger's abouts and cross fire were in perfect control and there wasn't a semblance of the juggling type of baseball on the part of his teammates. The hits which he allowed were well scattered and only once did Delanco have two men on bases when in the ninth inning they were given a pass and one hit.

The next man was struck out and Catcher Bright was thrown out at first. The last man hit to Wenger who had an easy out to Baker.

Palmyra lost opportunities of piling up more runs when in the sixth, seventh and eighth innings they had the bases loaded with none out, and counted one run in the sixth.

Their other run came in the first inning, when with two men gone Len Baker got a free ticket to first and then stole second. Immediately Frank King came through with a single and Len scored.

The boys are playing like hands and look as though they would rather play ball than eat.

They have the spirit now and let the fans get the spirit also. Give them a helping hand both morally and financially and you will see a team of which you may be justly proud.

Several features of the game included a beautiful one hand stop by Weikman at short who threw his ball out at first. This play sure looked like a hit for Delanco.

Delanco's first baseman and second baseman played well for their team.

THE SCORE: PALMYRA R. H. O. A.

Errors—Weikman, Hansbury, C. Young. Double plays—C. Young to Kahad; Dann to Bright to Young. Struck out—By Hansbury, 8; by Wenger, 3. Base on balls—Off Hansbury, 2; off Wenger, 2.

SMITH GETS OIL CONTRACT  
At a special meeting of the Riverton Borough Council, held Monday night, Hyton Smith was given the contract for filling the borough streets. His bid was 25¢ a gallon and this price included preparing the streets for filling, supplying the oil and sanding.

The other bidder was he Barrett Company. His bid was 25¢ a gallon. Atlantic Refining Company submitted a price for filling only.

Mr. Smith assured council that he would begin the work promptly and push it to completion as rapidly as possible.

ADALINE HINCHMAN  
Mrs. Adaline Hinchman, 77 years old, widow of Edgar Hinchman, died at the home of her son, Charles B. Hinchman, 803 Park avenue, Palmyra, last Wednesday.

The funeral was held from the late residence at 1:30 o'clock Saturday afternoon with the Rev. George Lockett officiating. Interment was made in Fernwood cemetery, Philadelphia, with Frank A. Snover in charge.

## FORMER PALMYRIAN KILLED IN PLANE

Lieutenant Alfred Butler, Jr., Once Lived in This Locality

Lieutenant Alfred Butler, Jr., 32 years old, who was killed Monday when the aeroplane in which he was a passenger plunged 1000 feet into the waters of Narragansett Bay, was at one time a resident of Palmyra.

Some ten or more years ago he lived on Loconey avenue and later moved to Morgan avenue. He had proudly lived in Philadelphia and graduated from Central High School in 1915. He was a four-letter athlete there and was conceded to be one of the greatest athletes to wear the Crimson and Gold.

He was captain of the championship football team played first base for the championship baseball team, was guard on the championship basketball team and was a shotputter.

After his graduation he was appointed to the Naval Academy. There he was regular fullback for two years until he injured his leg and was forced out of the line-up. He was coached at the Navy by Gil Noble and Bob Folwell, and later acted as assistant coach to Folwell.

He graduated from the Naval Academy in 1920 and was attached to the U. S. S. Pennsylvania with the rank of Lieutenant. Later he entered the Naval Service and was attached to the U. S. S. Concord, which is now stationed at the Philadelphia Navy Yard.

The only match lost was the doubles set to between Hermetstadt and Snyder, of Palmyra, and Budd and Coles, Moorestown. This match went to three sets with the Moorestownians winning the rubber.

The summary:  
Singles  
Roy Hardy, Palmyra, defeated Walter Horton, Moorestown, 6-2, 6-4.

Robert Hobbs, Palmyra, defeated Robert Richie, Moorestown, 4-6, 6-3, 6-3.

William Burgess, Palmyra, defeated Wallace Armstrong, Jr., Moorestown, 6-4, 6-1.

Freeman Metzger, Palmyra, defeated Harold Budd, Moorestown, 6-2, 6-1.

Arthur Wright, Palmyra, defeated Lawrence Powell, Moorestown, 6-1, 6-3.

Edward Hoyt, Palmyra, defeated Joseph Coles, Moorestown, 6-4, 3-6, 6-1.

Doubles  
Hardy and Hobbs, Palmyra, defeated Horton and Richie, Moorestown, 6-1, 8-6.

Metzger and Burgess, Palmyra, defeated Armstrong and Powell, Moorestown, 6-2, 6-4.

Budd and Coles, Moorestown, defeated Hermetstadt and Snyder, Palmyra, 4-6, 6-3, 6-3.

## Tennis Stars Win From Moorestown

Palmyra Netman Take Eight of Nine Matches With Little Difficulty

Woodbury C. C., 20 7 740  
Crescent C. C., 16 11 592  
Palmyra T. A., 16 11 592  
Haddon F. C., 12 15 444  
Pyne Point C. C., 9 18 333  
Moorestown F. C., 8 19 296

The Palmyra Tennis Association went into a tie for second place in the Tri-county Tennis League when the team defeated Moorestown eight matches to one last Saturday afternoon.

It was the first time this season Palmyra was able to present its strongest team, and the results show what may be expected of the local requesters. These matches were played on the turf courts at Moorestown and in most cases marked the first time the local boys had played "lawn" tennis.

Hardy had little difficulty in disposing of his singles opponent in straight sets. Burgess, Metzger and Wright won their matches without going into the third set. Hobbs and Hoyt were extended to the three sets but won without great difficulty.

The only match lost was the doubles set to between Hermetstadt and Snyder, of Palmyra, and Budd and Coles, Moorestown. This match went to three sets with the Moorestownians winning the rubber.

The summary:  
Singles  
Roy Hardy, Palmyra, defeated Walter Horton, Moorestown, 6-2, 6-4.

## Telephone Development in U. S. Exceeds the Rest of the World

61 per cent of World's Telephones in This Country  
Communities Under 50,000 Population in United States Average 11.7 Telephones per 100 Inhabitants

This chart shows how the telephone development per 100 population in the United States has soared upward while the European increase has been only very gradual.

Out of a total of 27,788,963 telephones in the entire world on January 1, 1928, the United States possessed considerably more than half. There were on that date 10,938,918 telephones in this country, or 61 per cent of the world's total. The number of telephones in Europe on the same date was 7,479,690, or 27 per cent of the world's total, the remaining 12 per cent being scattered over the globe in Asia, Africa, Oceania, South America and countries in North America outside of the United States.

The figures used in the foregoing statement are taken from a recently published compilation of telephone and telegraph statistics of the world. It has taken some time to obtain authoritative data from the more distant countries and so the most recent data for which comparable figures are available is January 1, 1928.

**Private Companies Lead**  
It is interesting to note that out of 10,938,918 telephones operated by private companies throughout the world, 10,938,918 were in the United States, and that the number of telephones per 100 population in this country is markedly greater than that in Europe. In the United States there were 14.8 telephones per 100 population, as compared with only 1.6 telephones per 100 population in Europe, where over 88 per cent of the telephones were under government

**Blossom Protection:** It is very difficult to protect the blossoms themselves. As they open they furnish new food for the beetles. The sprays recommended may stain, but this would generally be preferred to their destruction by the beetles.

Haberdasher comes from "Ber-dasher" or seller of "Berdashas" the seventeenth century name for cravats.

A hat is called "wide awake" when there is no nap about it.

## Graham Brothers Get Big Orders

New Six Cylinder Line of Truck Favorably Received

Three thousand unfilled orders for the new line of six cylinder trucks including a total of 411 orders in one day have stepped up production in all plants of Graham Brothers, the truck division of Dodge Brothers, Inc., to supply the unusually heavy demand for all new models recently announced. Overtime schedules are effective in factories at Detroit and Evansville, Ind., to eliminate all possible delays in deliveries.

"Telegraphic reports from many of our dealers over the country clearly indicate the widespread public approval of commercial cars having four wheel brakes with speed and acceleration comparable to passenger car performance," said John R. Lee, general sales manager. "In the range from the Merchants Express to the 2 1/2-ton capacities, truck users find a size and type exactly fitting their business in an economical and dependable manner."

"The larger capacities with four speed transmissions have created a most favorable reception everywhere, while the improved appearance and construction, with longer wheelbases appear to have launched a new era in truck manufacture."

Production of Graham Brothers commercial cars and trucks is expected to set a new sales record for the second half of the year. The new line embraces capacities from 1,000 to 1,500 pounds and is featured by the increased power and flexibility now demanded in modern traffic conditions.

## CO. TUBERCULOSIS LEAGUE IN MEETING

The regular meeting of the Burlington County Anti-Tuberculosis League was held Wednesday of last week at the headquarters High street, Burlington, with Dr. Marcus W. Newcomb presiding. Members were present from Pemberton, Doonville, Bordentown, Jobstown, Masonville, Palmyra, Edgewater Park and Moorestown.

Committees were appointed for work during the morning, where much interest was expressed in the work of the Prevention which is located on the Oxmead Road.

There are about forty children being looked after at the present time and each child has shown some increase in weight after about one week of fresh air, good food, and careful supervision.

## For Meatless Summer Meals

With the vegetable menu it is also to serve one starch dish such as baked cheese rice, hominy fritters or macaroni croquettes made with chopped cold macaroni, cheese and white sauce, molded into croquettes and fried crisp in butter or margarine. These "substantials" give body to the meatless meal and make it quite satisfying.

## Two Jersey Governors

A. Harry Moore, Jersey's Chief Executive, showed himself to be perfectly at home with another Jersey leader, Benedictine's Oxford Lad, grand champion at the Trenton Fair last season. Governor Moore will be host to the Jersey politicians at this year's exposition which will be held from September 25 to October 1 and will also view the exhibits of the State Institutions at the Fair.

## Horticulturists to Tour County

State Meeting Will be Held at Mechling Farm on August 14

John H. Hankins, president of the State Horticultural Society, has appointed the following persons on the summer meeting committee to arrange for the carrying out of the details incident to the summer meeting and tour of the society:

Byron T. Roberts, Charles D. Barton, E. A. Mechling, H. P. Hall, Emory Roberts, and county agricultural agents in Camden and Burlington counties, Samuel F. Foster, of Haddonfield, and L. R. Smith, of Mount Holly.

This committee met at the Moores-

town Community House recently and looked over the locations that had been suggested for a place to hold the summer meeting. The committee was unanimous in agreeing to hold the meeting at the home of the vice-president of the society, Edward A. Mechling.

The tour will start from the farm of Emory Roberts, Moorestown, at 9:45 a. m., on Tuesday, August 14. The exact location of the stops that will be made on the tour will be announced later, but it is the intention of the committee to make only a few stops which will be close together in order to allow ample time for a thorough inspection of the condition of the fruit crop and equipment that will be observed at the various places. Lunch will be served on the lawn at Mr. Mechling's, and the afternoon meeting will be held at the same place, starting at 2 o'clock.

Holding the summer meeting and

## PHANTOM TELEPHONE CIRCUITS HAVE NO QUEER OCCULT POWERS

But This Special Apparatus is Very Real Aid to Toll and Long Distance Service

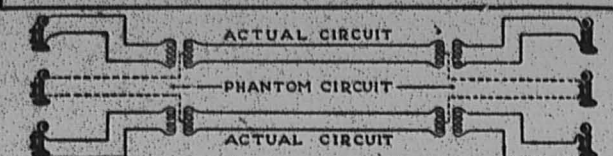

Diagram showing how a phantom circuit is tapped into the actual circuit

While phantoms and such strange things are ordinarily associated with the full of the moon and occult manifestations of this nature, the Telephone Company makes use of "phantoms" and "carriers" in a manner far removed from the supernatural or extraordinary.

The only thing unusual about the phantom telephone circuit is the fact that through the use of certain telephone apparatus, the Telephone Company creates three circuits where wires for only two circuits are strung. Hence the term "phantom"—circuits without wires. The practical application, of course, consists in the lower investment for the telephone plant.

These phantom circuits are used on toll and long-distance lines whenever practicable. Not only can they be tapped into open wires, but the Bell System has developed a means for using them in cables. A cable suitable for this purpose is called "quadruplex."

The phantom circuits are tapped into the actual circuits at the toll racks in the toll and long-distance offices. Voice sounds traveling by phantom move over the two actual wire circuits, each physical circuit acting as a single wire for the phantom circuit. At some point in the physical circuits, voice sounds on the phantom circuit are unscrambled

from voice sounds on the real circuits and are dispatched through the full of the moon and occult manifestations of this nature, the Telephone Company makes use of "phantoms" and "carriers" in a manner far removed from the supernatural or extraordinary.

Another method of saving wire is by the use of the "carrier" principle, where voice sounds or telegraph messages are sent over the same pair of wires at the same time that these wires are used in the manner already described. Only one pair of wires in each group used for phantoms can be employed in this way. By the use of carrier circuits three telephone conversations or ten telegraph messages can be dispatched simultaneously over the same circuit. Carrier currents are not economical on lines less than a hundred miles in length.

tour in the largest horticultural county in the state should insure a good attendance. The officers are urging that all interested persons

arrange now to spend August 14 with the State Horticultural Society. The Constitution of the United States has been amended 18 times.

# AND NOW Motorists of NEW JERSEY may have Keystone Automobile Club INSURANCE-AT-COST

TODAY Keystone Automobile Club Insurance-at-Cost is available to the motorists of NEW JERSEY for the first time.

Thousands in this state have wondered why they too could not receive the tremendous savings that Pennsylvania motorists were securing on their automobile insurance; a saving which has never been less than 32 1/2%. NOW the door is open.

On June 1, Insurance Exchange of Keystone Automobile Club was succeeded by Keystone Automobile Club Casualty Company and Keystone Automobile Club Fire Company—participating stock companies with combined assets of more than \$1,700,000.

One of the principal reasons for this change was to permit motorists who are members of the Keystone Automobile Club in states such as New Jersey to secure Insurance-at-Cost.

Following the formation of these two participating stock companies we lost no time in requesting a license to operate in NEW JERSEY. This license has just been granted.

New Jersey members of the KEYSTONE AUTOMOBILE CLUB now have the privilege of securing automobile insurance covering all hazards under the plan which has proven so PHENOMENALLY SUCCESSFUL in Pennsylvania.

Assessments are absolutely impossible under the stock form. Legal reserves are carried. Every safeguard is provided. Because of the careful selection of risks and economical management, Keystone Automobile Club Casualty Company and Keystone Automobile Club Fire Company are able to charge 10% less than the usual rates at the very beginning and to return a dividend at the end of the policy year. This dividend has always been 25% of the premium, making the total saving 32 1/2%. This saving has been accompanied by the highest standards of service and backed by the prestige of the Keystone Automobile Club—for 21 years the champion of the motorist and now the largest Automobile Club in Eastern United States.

More than 27,000 of the 46,000 Keystone members have taken advantage of our Insurance-at-Cost plan, saving in the aggregate more than half a million dollars annually.

Wouldn't you like to save on Insurance as only members of the Keystone Automobile Club and its affiliated organizations can save? Send the coupon below and let us tell you how much less it will cost you to insure with us.

Cinnaminson Township—Lot on 5th street, Anna M. Carson to Lindley C. Robbins, \$1.

Cinnaminson Township—Lots 625, 626 and 628, on southwest side of Jackson street, Anna Morrell Parry to William Phelan et ux, \$75.

Cinnaminson Township—Lots 627 and 628, Anna Morrell Parry to William Phelan et ux, \$100.

Moorestown Township—Lot 155, on Lenola road, Vudrieno Guglielmo to Andrew J. Mahan et ux, \$1.

Palmyra—Lot on southwest side of Morgan avenue, Carol B. Matthews et vir to Eckard J. Ballinger, \$1.

Chester Township—Lots 14 and 15, on Greenwood avenue, Horace Roberts et ux to Henry Sings et ux, \$100.

Moorestown—Lot 8, on Lenola road, Robert E. Antrim to Helen Estella Church, \$1.

Riverton — Lot on Main street, Francis C. Cole, Jr., to Francis C. Cole et ux, \$1.

Chester Township—Lot 281, on northeast side of Fork Landing road, John H. Parker et ux to Maple Shade National Bank, \$1.

Riverside Township—Large number of lots, William F. Taubel, Inc., to Florence Thread Co., \$100.

Riverton—Lot 158, on west side of Thomas avenue, Louise P. Walburn et vir to George W. Crawford, \$100.

Riverside—Lots 89, 109, 1, 2 and 3, John Genovese to Mary Genovese, \$100.

Moorestown Township—Lot 25, on northwest side of Haddonfield road, Emile S. Greenwald to Samuel L. Young et ux, \$1.

Moorestown Township—Lot on Lenola road, John R. Hoffmann et ux to Harry C. Troth, \$3,600.

Cinnaminson Township — Tract containing 1.509 acres on Riverton-Moorestown road, Maurice S. Mench et ux to Vera G. Clow, \$10,000.

## PASTURES IMPROVE BY SUMMER MOWING

A profitable increase in the production of New Jersey permanent dairy pastures is brought about by proper mowing during the summer months. In a study made by the department of agronomy of the New Jersey Experiment Station and the bureau of statistics and inspection of the State Department of Agriculture it was found that one acre of mowed pasture yielded 1,180 feed units per season while on unmowed pastures an acre yielded only 1,045 feed units. This is an increase of 12.5 percent in output.

The number of times a pasture should be mowed depends upon varying conditions. Pastures containing a large number of perennial weeds require mowing two or three times during the summer, whereas closely grazed pastures free from weeds may not need to be mowed at all. A benefit from mowing not commonly noted is the removal of the large amount of mature grass growth so noticeable in most pastures during and after June. This old growth is unpalatable to cattle and its removal makes available the new and more palatable growth underneath.

## THREE AGED MEN DIE IN ONE DAY

Instances of County Almshouse at New Lisbon, Deaths Within Few Hours of One Another.

While it is a foregone conclusion that aged residents of the Burlington County Almshouse, at New Lisbon, cannot enjoy unending life, it is unusual for three to die the same day, but this actually happened recently when John McVicker, formerly of Marlton, and aged eighty years; John Bernard, committed from Cinnaminson, aged seventy-nine, and Winfield S. Thompson, who hailed from Moorestown, and the oldest of the three, being eighty-two years old, all passed away within a few hours of each other.

The combined ages of the three men was two hundred and forty-one years, and they all died as a result of the inroads of old age. Three days later a fourth aged male inmate passed away in the person of Isaac Painter, aged seventy-five years, formerly of Florence.

## PIGEON-TOED CENTURIANS

Oklahoma City, Okla.—Dr. W. Lee Austin, attending the Southern Convention of Osteopaths, says persons who walk pigeon-toed may live to be centenarians. This is the way he explains it:

"One step in six is saved in walking slightly pigeon-toed because one rises higher on his feet and consequently takes longer strides. Pointing the toes outward causes the body to be thrown out of alignment, thus infecting the hip bones and the spine.

"Spinal trouble means worry and disruption of the nervous system, and upset nerves lead to indigestion."

## THE FUMBLE FAMILY

## A CHOICE SELECTION OF IRIS

It is truly lamentable that so few gardens are familiar with the better Iris. As one goes through the country at Iris blooming time with few exceptions all the varieties that are seen in the average yard are the old purple Koehli or American Black Prince, the white Florentine Alba and the older and poorer still, Honorables, gold and mahogany brown. These were all of them out of date a decade ago and still they are the most grown today.

Last week I was in a garden that had in bloom twelve hundred of the finest American and European productions in the Iris world. It was truly a sight to behold. I made a lot of notes and will today suggest two lists of varieties that you will find worth planting in your garden. The first list is of the less expensive ones, that any one could afford. None of them at more than fifty cents in the newest 1928 list I have before me. I will not attempt to give colors or any descriptions. You will find all that in the catalogues. Here are the ten: Afterglow, Edouard Michel, La Nef, Delazet, Neptune, Sindjha, Morlin, Frost, Mother of Pearl and White Knight. Every one of the above are prize winners and they are all easy to grow.

To attempt to select ten of the better and higher priced ones is not as easy as there are so many very good ones among them. I will keep this list within those that are priced at not more than a dollar, though there are many at two to ten times as much that you might want if you could see their exquisite coloring and the quality of bloom. Here are ten that are the best at the price, you will like every one: Ambassadeur, Crusader, Angélique, D. Y. Morrison, Camélot, Dream, Leverrier, Prospero, Cretonne and Skekna.

In buying Iris I would urge you to get them from a grower that makes a specialty of them and grows the better things. You will be more likely to get roots that are true to the name and will give you the flowers you expect.

## SUMMER AUTOS WILL OFFER RIOT OF COLOR

All Continents' Contribute Names Describing Hues, Dodge Dealers Show

Algerian Blue, Norman Blue, Viceroy Maroon, Brazilian Brown. These aren't the color schemes of chiffon creations which madame wears so gracefully at afternoon teas and on country club terraces these summer days. They are only a few of the colors in which Dodge Brothers automobiles have been produced this year.

The American car buyer today is definitely color conscious. Slightly supplemented by she-wants dash and brightness in the new car. Manufacturers who are awake to the fact that an increasing percentage of buyers have developed an acute color sense, have daubed a rainbow of tints over their models, according to C. Ridgley Sweeney, of Palmyra, local Dodge Brothers dealer.

Color lists sent out to dealers by Dodge Brothers, Inc., show that various body types of the new Standard Six may be obtained in Malaga Maroon, Yorkshire Green, Algerian Blue and Pewee Green. Colors of the various body types in the Victory Six include Tuscan Brown, Kensington Green, Brewster Green, Viceroy Maroon, Calgary and Edmont Green, while in the Senior Six line are found Anasodo Green, Aquamarine Blue and Dundee Gray.

Horned Lark Buff and Las Vegas Brown sound notes of the desert, while Corvair Blue suggests the brilliance of the Atlantic off the Cornish coast of England. There is no mistaking of Thistle Green cited in another model, and Oboe Blue carries its own oriental note. Aqua is remembered by Safari Blue.

## DID YOU EVER STOP TO THINK?

By EDSON R. WATTS Shawnee, Okla.

That advertised goods are in particularly high favor. That they will continue that way as long as they are advertised. That the crowds buy at the stores that are consistent advertisers. That there is a reason for it.

That the crowds know that the stores who advertise sell quality goods.

That goods of quality and service are what they are looking for. That quality goods and right prices are recognized as necessary in modern methods of business. That recognizing this, the dealers build their advertising by quality goods, right prices and advertising.

## CALF NEEDS GRAIN WITH ITS PASTURE

Under the present system of pasture management it is false economy to force young calves, two to five months old, to subsist on grass alone. The New Jersey Experiment Station is authority for saying that although very young calves relish short pasture grass because it is more palatable and comparatively nutritious, they do not have the capacity to consume it in large enough quantities to maintain normal growth and weight.

If the calves are put on pasture, grain them at least once a day, advises the station. A good mixture to use consists of 25 pounds of corn meal, 50 pounds ground oats, 50 pounds of wheat bran, and 25 pounds of oil meal. If it is inconvenient to use this mixture any good commercial calf growing ration may be used.

The amount of grain to feed depends upon the condition of the pasture and the bloom of the calves. After the calves are six months old and are growing they can subsist on pasture grass alone if the pastures have an abundance of good grass.

Normal growth in calves results in good size and early production.

## CHIEF FAVORS THIEF PROOF DOOR HANDLE

Inspector Parker, Detroit, Who Invented First Car "Lock" Inspects Latest Oakland Device

Detective-Inspector Lucius H. Parker, veteran chief of the automobile recovery squad of the Detroit police department, approves heartily of the additional protection afforded Oakland and Pontiac owners by the new type outside door handle which cannot be forced by automobile thieves.

Inspector Parker was invited to test the new device. He brought along a set of "tools" taken from a captured automobile thief. The set included a long handled wrench and sections of iron pipe which the thieves use to force open the doors of locked cars.

Attaching the wrench to the locked door of the Pontiac Six, Inspector Parker exerted his full strength. Under the extreme force of the wrench the door handle slowly turned.

"That ought to do it," said the inspector, but the door remained securely locked. The new handle is so devised that it merely will turn under pressure without releasing the locked door catch. Any Oakland-Pontiac service station can restore the door handle in a few moments to its proper position. The door locks of course are in addition to the semi-coincidental lock which locks both ignition and transmission with a turn of the ignition key.

The auto squad chief, incidentally, recovered the first automobile stolen in Detroit and in so doing invented the first automobile lock.

Twenty years ago a thief stole a car from a member of the Detroit "Scorch" squad, which pursued fast cyclists. Parker found the stolen car abandoned on a side street. In order to be sure it would not be stolen again while he was notifying the owner, he rolled it close to an iron fence to which he handcuffed one of the wheels.

## SAVED FROM SUICIDE BY COP'S THREATS

New York—Philip Leary decided to commit suicide, and jumped off a pier in the East River.

A policeman saw him, concluded he was drowning and threw him a rope. He did not touch it.

The rope sank beside him, the policeman hauled it out and made another cast. Again he sprang it.

The policeman then understood the man was committing suicide, and drew his pistol.

"If you don't come out of the water at once I'll shoot you," threatened the officer of the law.

Leary, who had jumped in to and it all, clambered out of the water lest he be killed.

Silk is considered unclean by the Mohammedans because it is the product of a worm.

## HERE'S CIGAR VALUE FOR YOU

Never Before Has a Nickel Bought Such a Cigar!

Talk about the past and present purchasing power of a nickel, here's a buy that upsets all previous standards: Havana Ribbon cigar. Thirty years on the market. Produced by the millions today! That and long-studied cigar-making have put value into Havana Ribbon such as you've never before known in a five-cent cigar. And there's something else: Rich tobacco. Imagine what a fine, mild, fragrant smoke that means. No bitter under-ripe top leaves of the tobacco plant. No flat-tasting over-ripe bottom leaves. Pure flavored ripe middle leaves only. Long filler—that won't come out in your mouth—same as used in higher-priced cigars. . . . You just can't beat it for the money!

## HINTS FOR THE HOME

By Nancy Hart

When you go a-visiting on your vacation, keep in mind these simple suggestions for the parting gift to your hostess: (They will save you much time and speculation when it comes to shopping.)

A set of pretty boudoir boxes for her dresser drawers; a pair of spun glass swans in colored glass for salt and pepper holders; a quaint old print or mezzotint to brighten some dull spot on the wall; one of

the new standing mirrors in photograph size for the occasional table; a luncheon set in colored damask; a pair of quilted pillow tops in shades in harmony with the guest room.

Packed attractively, with a well-chosen greeting card enclosed, any one of these gifts will express your appreciation of the visit in a most acceptable way. And none is expensive.

A Delicious Ice-Box Cake

Soak a tablespoon of gelatin in ¼ cup cold water and dissolve in ½ cup boiling water. Let stand until it thickens. Beat with rotary beater until frothy. Stir together 2 tablespoons lemon juice and 1-1½

cups sweetened condensed milk, and add 1½ cups crushed strawberries. Fold this mixture into beaten gelatin; return to ice box until it begins to set. Line mold with split lady-fingers; fill with strawberry mixture; set on ice for several hours. Turn out on plate and serve with or without whipped cream.

Before Strawberries Leave

For a luscious pineapple and strawberry jam, use two level cups of each fruit, chopped fine; add seven level cups of sugar and mix well. Stir over hot fire, boiling very hard one minute. Remove from fire and stir in a half cup liquid pectin. Skin, pour and seal.

Varying Summer Drinks

Instead of serving iced tea, coffee or lemonade all during the season, try Apricot Punch, Orange Mint Cup, Raspberry Shrub or Peach Punch for a change. A very tempting mocha beverage can be made with rich milk and eight teaspoons of strong cereal beverage to the glass. Iced cocoa made with rich milk is also wholesome, and beloved by children.

Keeps Cut Flowers

Drooping flowers revive quickly and last several days longer if an aspirin tablet is added to the water in which they stand.

## Electricity and Gas Make Housekeeping Easier

### Electricity Lessens

### Work on Washday

THE Automatic Washer is built to give years of service. It is light in weight and rolls easily. Compact in size it will hold a good sized washing and the copper tub will not rust. Its working method is simple and the most delicate clothes are washed safely.

\$95 cash pays for this washer. \$100.70 if purchased on terms.

\$5

Down

and eighteen months to pay the balance.

### Thor Electric Ironer

### Does Work Quickly

It irons all kinds of difficult things like men's shirts and ruffled garments. The operator has only to sit before the machine and guide the pieces through.

\$5

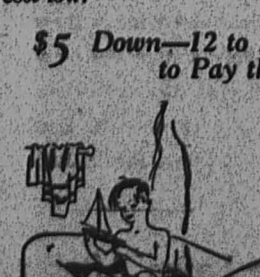

Down

eighteen months to pay the balance.

### Enjoy Dependable

### Hot Water Service

The installation of a gas automatic storage water heater puts an end to the inconvenience of "no hot water." The heater maintains a dependable hot water supply and its automatic features help to keep the operating cost low.

\$5 Down—12 to 18 Months to Pay the Balance

Prices on our automatic storage water heaters are as low as \$72.50. A substantial allowance is made if an old water heater is traded in.

### Gas Range Prices

### As Low as \$51 75

MANY of these low priced ranges have the oven heat regulator, the device which makes it possible for you to serve your favorite dishes cooked to perfection, yet permits you to be out of the kitchen while the baking is being done.

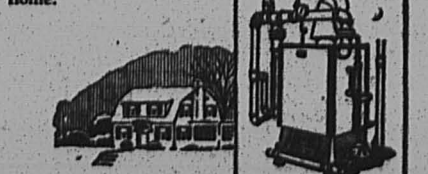

Our prices include connection to gas outlet in kitchen by expert gas fitters and a top burner lighter. Cooking lessons given free, if desired. Purchase terms are \$5 down, 12 to 18 months to pay the balance. Allowance made if old cooking stove or plate is traded in.

### Put an End to House

### Heating Worries

Install a gas furnace or boiler. Double your comfort and your leisure. Gas is safe, clean, noiseless and odorless. Public Service house heating engineers furnish without charge estimates of installing the equipment and of the operating cost.

Public Service does not offer apparatus, it offers service—a service which takes care of all the worries incident to heating a home.

### 25% Reduction

### On All Lamps

Whether the lamp you want is an elaborate affair to stand beside a grand piano, or the simplest of lamps to provide light on the porch, you will find the lamp you want at Public Service stores.

Every lamp in stock is reduced in price 25%. Easy payment terms.

PUBLIC SERVICE

## RIVERTON ITEMS

Miss Helen Galloway, of Cleveland, enjoyed the week at Atlantic City.

Mr. and Mrs. Richard H. Hollingshead had as their dinner guests Tuesday evening last, Mrs. Thomas Turner, of Philadelphia, and her nephew, John Dornier, of Pasadena, California.

Mr. and Mrs. C. H. Stonaker, of Prospect Plains, were visitors over the Fourth with his mother, Mrs. C. H. Stonaker.

Mr. and Mrs. Horace Kieffer and daughter, of Philadelphia visited Mr. and Mrs. Harry Brown on Wednesday.

Walter H. Lippincott, of Wynnewood, and a party of friends aboard his palatial yacht, 120 feet long, "Waldo" (named for his three children) stopped in Riverton last Sunday on a cruise up the river.

Mrs. Louis desCognets, sister of Mrs. Francis Boyer, will sail for France on Friday.

J. Linton Rice, former Riverton boy, is among those engaged in the race between New York and San Tander, Spain, in four small boats. Rice is aboard the Plinia, the smallest of the four.

Mrs. Francis Boyer and sister, Miss Cornelia McCarthy will leave Friday for East Northfield, Mass.

Miss Margaret Volz and Godfrey Gundersen, who were married Friday evening, June 29, at 8 o'clock in Christ Church, Riverton. The ceremony was performed by the Rev. A. S. Lewis.

Mr. and Mrs. W. A. Hendrickson have gone to Bayhead for the summer.

Mrs. Dorothy Wheeler and daughter, of New Brunswick visited her mother, Mrs. Susan Mattis, this week.

Miss Ada James started on Saturday on an extended trip through the West.

Mr. and Mrs. A. Russell Gaudier have gone to Bayhead for the summer.

Mr. and Mrs. Allen F. Deacon went to Stoddardsville, Pa., on Saturday.

Miss Hannah Chew left Saturday for Minneapolis, Minn.

Mr. and Mrs. F. E. Jones, of Fifth street, are entertaining their daughter from New York.

Mrs. C. W. Nevin, of Philadelphia, was the guest of Mr. and Mrs. Perot Nevin on the Fourth.

Mr. and Mrs. Benjamin Guest, of Camden, and Mr. and Mrs. Charles Hollings, of Moorestown, were guests of Mr. and Mrs. John Nickles on the Fourth.

Mr. and Mrs. F. S. Cummings, of Lambertville, visited her parents, Mr. and Mrs. Datis Reed, this week.

Mr. and Mrs. George Stecher, of Riverside, were visitors at the home of Mr. and Mrs. Jerome Zisk on the Fourth.

Mr. and Mrs. William White entertained on the Fourth: Mr. and Mrs. Walter White, of Riverside; Mr. and Mrs. Russell Collins and children, and Mr. and Mrs. Robert Wells and children, of Camden.

John Flynn and family, of West Philadelphia, are visiting his parents, Mr. and Mrs. James Flynn, on Thomas avenue.

Mrs. Anna Reeves visited in Salem over the Fourth.

Mr. and Mrs. A. H. Burns and son, Arthur, spent the weekend in Brooklyn.

Miss Edith C. Spear, of Pittsburgh, is spending several weeks with her aunt, Mrs. John Hillson.

Miss Marjory Lyons, of Malden Rock, is visiting her grandparents, Mr. and Mrs. Frank Goodwin.

Miss Nan Golden, of South Orange, is spending two weeks with her grandparents, Mr. and Mrs. W. A. Major.

Mrs. Norman C. Graham, of 101 Main street, has gone to Atlantic City, where she will spend the summer.

Mrs. Conrad Becker entertained her daughter, Mrs. Julia Bright, of Pittman, on Wednesday.

Misses Grace and Esther Kiel, of Philadelphia, visited their cousin, Mrs. Otto Saters, on Monday.

Mrs. C. Flood and children, and Hugh Rodgers and children, of Philadelphia, spent the Fourth with their sister and husband, Mr. and Mrs. C. W. McCordell.

Mr. and Mrs. Jack Roth and daughter, of Franklin, visited her parents, Mr. and Mrs. Harry Rice, this week.

Mr. and Mrs. Frank Holvick are receiving congratulations on the birth of a son last Friday at Cooper Hospital.

Mrs. L. E. Carpenter left today for Stamford, Ky., where she will spend two weeks visiting relatives.

Mrs. Harvey B. Stewart and daughters, and niece, Miss Beatrice, will go to Atlantic City tomorrow, for the summer.

Miss Hilda Hagstoz is visiting friends at Long Island.

Mrs. Laura B. Davis spent the Fourth at Deerfield with relatives.

Miss Ella Walker, of Philadelphia, is visiting at the home of Mr. and Mrs. Oscar Kahler on Thomas avenue.

Mr. and Mrs. H. A. Walburn and daughter, Helen, are spending July at Spray Beach.

Mrs. Florence Raymond, of East Orange, spent last week with Miss Ernestine Stewart.

Mrs. John Frenhofer will sail Saturday on the S. S. Rydam for France, Italy, Switzerland, Germany, the Rhine, Belgium, Holland, England and Ireland. She will spend about two months in Europe.

Mr. and Mrs. Frederick Blair, and daughter, Jane, are at Spray Beach for the summer.

Mr. and Mrs. Harry Sim and daughter, Betty, will sail Monday on the S. S. Aquatania, for Scotland, Ireland, England, France, Germany and Holland, and will return to the United States about the 15th of September.

Owen Merrill sailed from New London, Connecticut, on June 23, in a 54-foot schooner yacht, with friends from New York, for Bermuda. There were about twenty boats in the race and The Peel, the one in which Owen sailed, arrived in Bermuda last Thursday, June 28. They were expected to start back Tuesday.

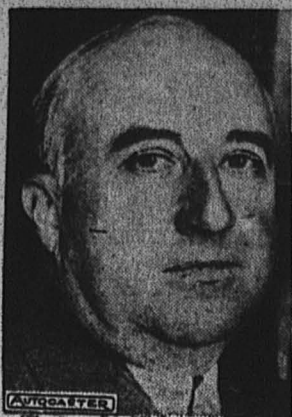

Paul Burr, of Riverton, is an assistant director at Ockanickon, the Y. M. C. A. camp near Medford, where he has charge of the Mess Hall, and is instructor of the rifle range. Riverton boys at the camp this week are Walter Mattis and Maynard Bowen.

Mrs. Robert H. Clelland spent last week visiting at the home of James Cunningham in Wildwood.

Mrs. Louis C. Clelland and family are spending the summer at Surf City.

Oliver Bowen is spending the week with friends at Norwich Lakes, Massachusetts.

## PROPOSES SMITH

Thomas L. Hickey, San Francisco lawyer, and an ardent supporter of Alfred E. Smith, who made the speech nominating Smith for President at the National Convention at Houston, Texas.

Mr. and Mrs. Clarence Yorkes were visitors at Ocean City over the Fourth. Mrs. Yorkes will spend the month of July there, and their son, Howard, will spend three weeks at Camp Ockanickon.

Edward G. Borer and family are spending a few weeks at Ocean City. Mr. and Mrs. Hamilton Smith are spending a week at the Cotton Manor, Atlantic City.

Mr. and Mrs. Samuel A. Plumly have as their house guests during July and August, Mr. and Mrs. Walter Sperry, of Long Beach, Cal., and Mr. Arthur Aten, of Santa Paula, Cal.

Mr. and Mrs. S. A. Plumly and party enjoyed a motor trip to Scranton over the weekend.

## EPWORTH METHODIST EPISCOPAL CHURCH

J. William Lee, Minister

Our Church School is being splendidly attended despite the hot weather.

A fine program will be put on this coming Sunday at 10 a. m. Morning Worship 11.15 to 12.15. Ministry of Music. "Sabbath Morn'g," "Kinder," "Largo," "Doctus," "March Moderne," "Lecture," "Processional," "Jesus, I Have Promised," Anthem, "I Hear Thy Voice." Sermon: "Thy Kingdom Come, Thy Will Be Done."

The Epworth League has elected the following officers for the year: President, Robert D. Coward; 1st vice president, M. M. Hall; 2nd vice president, Miss Rebecca White; 3rd vice president, Miss Katherine Burr; 4th vice president, Marshall Abraham; secretary, Miss Ruth Lutz; treasurer, Harry Fish; pianist, Miss Florence Groff, publicity George Long.

These officers were installed last Sunday morning. It was a beautiful and solemn sight to see them kneel at the altar and partake of the Holy Communion. The devotional meetings are so well attended that they will continue during the summer.

## Calvary Presbyterian

C. T. Bates, Minister

Calvary Presbyterian Church will hold its regular morning service of worship Sunday at 11 o'clock. The pastor will preach. Evening service will be discontinued through July and August.

All departments of the Church School with the exception of the Men's Bible Class, will meet at 10 o'clock. The Men's Class will hold no sessions during July and August.

The Christian Endeavor Society will meet at 7 o'clock in the Church School auditorium. All the young people of the congregation are invited to meet with them.

Mid-week service—There will be no service during July and August. The Golden Hour Circle will meet at the home of Mrs. Matthews, Fourth street and Elm avenue, tomorrow, Friday, at 2 o'clock.

## FIRST LUTHERAN

Rev. W. M. Eshard, Pastor

Regular services will be held during July and August, morning and evening. Visitors in Palmyra and Riverton are cordially invited and our own members are strongly urged to attend. Morning worship at 11.15 and Vesper Service at eight o'clock.

The attendance at Sunday School last Sunday was very gratifying as compared with the corresponding Sunday of last year, there being a 33 per cent. increase. Regular session at ten in the morning.

The monthly meeting of the Council will be held this coming Monday evening at 8.30 o'clock.

**SIEBKE-GERHARD**  
A very pretty church wedding was solemnized in the Epworth M. E. Church last Saturday afternoon at three o'clock when Miss Eleanor Elizabeth Gerhard, daughter of Mr. and Mrs. Maurice E. Gerhard, of Washington avenue, became the bride of G. Arthur Siebke, of Cinnaminson.

The Rev. J. William Lee performed the ceremony and the bride was given in marriage by her father. Mrs. William Siebke, a sister of the bride, attended as Matron of Honor and Miss Elizabeth Hires was bridesmaid.

Carl Hurluck was best man and the ushers included Dr. Harold Winkelpecht, Rev. Elwood Perkins, Harry Haines and Edward Hoehn.

Immediately after the ceremony a reception was held at the home of the bride's parents.

The happy young couple left on a motor trip to Stroudsburg and upon their return will reside in Palmyra temporarily.

## PALMYRA NOTES

Mr. and Mrs. Thomas C. Cashin, of Linden avenue are spending the summer at Penn Hall Apartments, Ventnor.

Mr. and Mrs. Leonard R. Baker and family, of Garfield avenue, are sojourning at Ocean City for the summer vacation season.

Miss Frances Louisa, of Morgan avenue, was among the guests at a shower tendered by Miss Helen Ruth, of Kenwood avenue, Camden, in honor of Margaret Hand, of Parkside, Monday evening.

Mrs. Frank A. Snover, of East Broad street, is visiting her parents, Mr. and Mrs. Allen Marsh, of Stroudsburg, for ten days.

Miss Gladys Booth, of the Primary department, and Miss Alice Wright, of the Cradle Roll Department, teachers in the Methodist Sunday School, are attending the undenominational School of Methodists at Hightstown.

Mr. and Mrs. Arthur Hunt, of Morgan avenue, will return this Friday after a pleasant trip through New England. While there, they left their little grand-daughter, Marjorie McFadyen, to spend the summer with friends in Gloucester, Mass.

Mr. and Mrs. William H. Reed, of Morgan avenue, are spending the summer at Ocean Grove.

The cornerstone of the beautiful Baptist Church will be laid with appropriate ceremonies on Sunday morning at the corner of Maple avenue and Fifth street. Many interesting articles will be sealed within the stone.

Mr. and Mrs. G. Conrad Svenson and Mr. and Mrs. Warren W. Yennery motored to Medford Lakes for the Fourth.

Mrs. Ella V. Willis and family, of Columbia avenue, have gone to Lavallette for the summer where they have built a cottage.

Miss Helen J. Pettit, of Highland avenue, motored to Asbury Park for the holiday on Wednesday.

Miss Rena Van Seiver, of Washington avenue, was a visitor in Lancaster, Pa., this week.

Mr. and Mrs. A. B. Cramer returned Monday after spending five weeks in their new bungalow at Seaside Park.

Misses Frances and Mary Green are visiting their sister, Mrs. H. Parks, at Carlisle, Pa.

Mr. and Mrs. West of Mount Vernon, N. Y., visited Mr. and Mrs. Everett Wiggins last Friday.

Mrs. Julius Fisher left today for Toledo, Ohio, where she will visit her uncle, Otto Styler, and then go on to Indiana, to visit relatives and friends.

Mr. and Mrs. Thomas Carroll motored to Clementon Heights on Sunday.

Mr. and Mrs. D. A. Lamont and Mrs. Charles K. Mervine and daughter, Miss Lydia, left Tuesday for a trip to Williamsport and Lock Haven, Pa.

A marriage license was issued to William T. Kellogg, Palmyra, and Etta M. Adams, Lenola, at Elkton, according to an item appearing in a Philadelphia paper, Monday.

Charlotte Mary, infant daughter of Mr. and Mrs. Joseph Cooper, died Sunday afternoon and was buried in Morgan Cemetery.

Miss Mattie Carpenter went to Broadwater, Va., on Monday, where she will spend her vacation with her parents.

Dr. James E. Brown and children visited relatives in Philadelphia last Sunday.

Mrs. Dean LeFavor and brother spent the Fourth with their mother at Ocean Gate.

The Junior Philathea Class of the Central Baptist Sunday School held their annual picnic at Camp Rogers near Mount Holly last Saturday.

Miss Corson, of Camden, is the guest of Mrs. George J. Seel.

Mrs. Wesley Huyett and children left last week for Broadwater, Va., where she will remain until the middle of August.

Mr. and Mrs. Fred Green enjoyed a trip to Ocean City on Independence Day.

Mr. and Mrs. James K. Hires and daughter, Elizabeth, were Ocean City visitors, Wednesday.

Mr. and Mrs. George Seel, 3d, and children, of Maplewood, and Clifton Seel, of East Orange, visited their parents, Mr. and Mrs. George J. Seel, over the Fourth.

## ELIZABETH RUSH McNEILL

Mrs. Elizabeth Rush McNeill, 33 years old, wife of James McNeill, died at the home of her parents, Mr. and Mrs. Isaac Hill, 607 Warrington avenue, East Riverton, Sunday morning, July 1.

The funeral will be held at two o'clock this afternoon (Thursday) from the Snover Funeral Home, 313 East Broad street, Palmyra. Interment will be made in the Oakland Cemetery, Philadelphia.

## FORMER JUDGE WELLS GETS NEW POSITION

E. Bertram Mott, Republican State chairman, has announced the appointment of former Judge Harold B. Wells, of Bordentown, to the sub-committee named last winter to conduct an unofficial probe into Hudson County affairs. He succeeds William E. Bowman, of Somerset.

This was the committee which went into Hudson during the last session of the Legislature especially to inquire into the practices of Thomas A. McDonald as superintendent of the Hudson County Bureau of Elections. McDonald was given another term of five years, but his administration is now under the scrutiny of the Case legislative commission.

Milton M. Kloz of Highland avenue is driving a handsome new Marmon Coupe.

Palmyra folk registered at the Sun Crest Inn, Cape May, for the summer vacation season are Mrs. James MacFarlane, Mrs. Harry Kennedy, Mrs. Horace Houser, Mrs. Harold Zayotti, Mrs. John Warner and Mrs. Alfred Bauer.

Mrs. M. Finch of Parry avenue left two weeks ago for Pittman Grove where she expects to spend the summer.

Mr. and Mrs. John Kennedy and daughter, Elizabeth, of Highland avenue, are spending the summer at Avalon.

Mr. and Mrs. John H. Etrls of West Broad street spent Sunday in Beach Haven.

Mrs. Thomas Van Osten and her Sunday School Class of the Central Baptist Church enjoyed Saturday afternoon and evening at Camp Linghocken.

Mr. and Mrs. Wesley Rockefeller were the weekend guests of Mr. and Mrs. Frank E. Chambers at Ocean City.

Mr. and Mrs. Albert Mount and family of Lecony avenue left Monday to spend the summer at Beach Haven.

Miss Inez Kingsley, Mr. and Mrs. Hunt and Mr. Wood of North Bergen, were the dinner guests of Mr. and Mrs. George W. Rogers, Sunday.

Mr. William H. Yost, Jr., of Parry avenue, will leave Saturday for a two weeks' visit in Boston, Massachusetts.

Mrs. Edwin A. Griscam and son Lloyd, have been spending a few weeks at their cottage at Taunton Lakes.

## HARRIETT PERKINS

Miss Harriett Perkins, 93 years old, died at the home of her nephew, Thomas Perkins, of East Riverton, Wednesday night.

Friends may call at the late residence on Randolph street, Friday night. Relatives are invited to the funeral which will be held from the Asbury M. E. Church, Saturday afternoon, at 2.30. Interment will be made in the Asbury Cemetery with Frank A. Snover in charge.

The deceased was the daughter of the late Isaac and Eliza Perkins and was an old-time resident of this vicinity.

## COWMAN-BEECHER

A quiet wedding took place last Saturday afternoon when Mrs. J. Edna Beecher and Stanley Cowman were married at the home of the bride's sister, Mrs. Charles Weikel, 612 Thomas avenue. Only the immediate members of the family were present. Mrs. Alice M. Russell was matron of honor and Mr. Robert Cowman was best man. The house was very prettily decorated with palms, ferns and flowers.

The bride wore a gown of yellow georgette, and carried a corsage of cream colored rosebuds. The happy couple left for a trip to Harrisburg and neighboring towns and will reside in Philadelphia when they return.

## ARTHUR BRISBANE ON ADVERTISING

Paragraphs picked from a recent talk on Advertising by Arthur Brisbane to the Association of National Advertisers at New York.

"Advertising is to business, what speech is to the human race."

"Sincere advertising may be likened to the limb of a tree. When the sap ceases to flow through the branch, it soon breaks and falls off. So, with insincere advertising, it soon drops away. Sincerity comes from the heart . . . intelligent and effective advertising from the mind."

"Repetition is reputation. Every advertiser should remember that. The first thing in advertising is repetition. That is what establishes the value of the newspaper as an advertising medium."

"Brevity makes the most powerful advertisement . . . the least the advertiser says, the more the mind of the reader thinks. And there's another advantage of brevity — words that are printed are paid for, while words a man thinks, you do not pay for."

"Five things are essential to every advertisement: the public must be made to see it, read it, understand it, believe it, and want it. If these are omitted, the whole thing is a failure."

"The first advertisement ever published was an advertisement in color, and it was one that can never be improved upon. This advertisement was the rainbow, and was put in the heavens to advertise to the world that it would not again be destroyed by a flood. And like all good advertisements, it has kept its promise."

## BURGLARS VISIT EVANS RESIDENCE

Many Valuables Left When Intruders Are Interrupted by Domestic

The home of Mr. and Mrs. Charles Evans on the Riverton-Moorestown road, was robbed Saturday night during their absence. It was about 11 o'clock when a telephone call came to the police booth in Riverton, and Director of Public Safety, Williams, accompanied by John Carliari, answered immediately. Within a few minutes they were joined at the Evans residence by Officers Quigley and Gootee, who had been investigating a supposed robbery at the home of Louis C. Clelland. Together the officers and their chief searched the Evans home for traces of the burglars. There were plenty of evidences that the place had been robbed, but no burglars were found. The house had been thoroughly ransacked and undoubtedly some loot was carried off. Just how much, will not be known until a thorough check-up has been made.

The many valuables that had been taken from their places, but left behind, indicates that the intruders had been frightened off before their work was completed.

Elbert Johnson and wife, employed in the Evans domicile, had been to Riverton in the early part of the evening, and it was probably their return that scared the robbers off. Johnson when he entered the library and saw that a desk had been ransacked, immediately telephoned for the Riverton police.

Entrance was gained by prying open a window in the rear of the house. When the burglars left, however, this window was locked, and the front door was standing partly open.

After making an immediate search of the place, Director Williams telephoned to the New State Police headquarters at Riverside and in a few minutes Sergeant Albright arrived on the scene. Before leaving the station the Sergeant telephoned for Troopers Small and Doyle, who had been sent to Mount Holly, and in less than twenty minutes the troopers joined in the investigation.

The following day finger prints were taken by an expert from the State Police department of the window sill and other objects touched by the burglars.

## W. C. T. U. CONFERENCE

The annual three-day tri-state conference of the New Jersey W. C. T. U. will be held in the Young People's Temple, Ocean Grove, July 17, 18 and 19. Some of the questions discussed will be "Law Enforcement," "Christian Citizenship," and "Sabbath Observance." Among the speakers will be Mrs. Minnie K. K. L. Karnell, Pennsylvania; Mrs. Charlotte Frazer Schneider, New York; Dr. E. M. George, Pennsylvania; Miss Elizabeth M. Goodwin, New Jersey; Mrs. Mamie Colvin, New York.

## P. O. WILL NOT MOVE

The Riverton post office will not move into the old bank building, as rumored some time ago. The present building will be remodeled and equipped with new fixtures, bringing it strictly up-to-date. Alterations are now under way. The Gothic windows are being removed and twin windows substituted. The building will be painted inside and out. The carpenter work is being done by Curtis E. Staveland.

## GEORGE B. HUTCHINS

George B. Hutchins, 50 years old, of 402 Main street, Riverton, died at the University of Pennsylvania Hospital last Monday morning.

Funeral services will be held at 2:30 this afternoon, (Thursday) from the Snover Funeral Home with the Rev. J. William Lee officiating. Interment will be made in the Odd Fellows Cemetery, Burlington.

The deceased was well known in this vicinity and has been for years a member of the Methodist Church. He is survived by his wife, Jennie, two sons, George and Edward and four daughters, Mrs. Ralph M. Seeley, of Decatur, Ga., Mrs. Lawrence Dallett, of Hopedale, Va., and Clara and Amanda Hutchins.

## STOLEN CAR RECOVERED

An Essex coach, stolen from Robert Huggard at Second and Penn streets, Riverton, Monday night, was recovered the following day. A passing motorist found it abandoned in the edge of the woods near Riverside and reported to Chief William Voshell, who in turn notified the Riverton police department. Word had previously been sent to all the police departments in the vicinity that the car had been stolen.

## FOR SALE

For quick sale, \$35.00. Five tube radio, including tubes, Philco A-B Socket Power Unit, Western Electric Loud Speaker, Unit and Cabinet. Phone Riverton 623 after 7 p. m.—adv.

## APPRECIATION

Mr. and Mrs. I. D. Hill, of East Riverton, desire to express their appreciation of the many kind words and words of sympathy during the last illness and death of their daughter, Mrs. Elizabeth McNeill, wife of James McNeill.

## HOME-TALENT BASEBALL

Every Friday evening at six-fifteen the Ziaak A. A. puts on a ball game at the Memorial Park Field. This team is made up of Riverton and Palmyra boys, only.

This Friday evening the Cinnaminson A. A. will be the guests of the local aggregation.

## SHINN OUT FOR SHERIFF'S OFFICE

Popular Burlington Man Will Seek Nomination at Spring Primary

Official announcement has been made by Roscoe Shinn, of Burlington, and Mount Holly, under sheriff of Burlington county, that he will be a candidate for the Republican nomination for sheriff at the primary election next spring.

Mr. Shinn was born in Burlington, on March 20, 1888, and up to the time he went to Mount Holly to take up his duty as the under sheriff he always lived there.

After working in a grocery store for several years he eventually found employment with the Pennsylvania railroad.

He worked in the operating department of the railroad for some time, and then became associated with his father-in-law, William T. Borden, who conducted, and whose estate still conducts, a dairy at Burlington. He remained with the dairy nine years.

Previous to becoming the under sheriff Mr. Shinn was connected for a time with the New Jersey Mirror, Mount Holly. He had charge of the advertising department on the paper. He was appointed under sheriff by Sheriff A. Engle Haines in November, 1926.

Mr. Shinn has taken an active part in politics for several years, but has held but one political position, the one he now holds in Mount Holly. He was assistant chief of the Burlington Fire Department. That was several years ago. He made an excellent official and had not other duties made it practically impossible he would have reached the premier position in the department.

Mr. Shinn also is a member of the Burlington County Republican Committee from the Fourth Ward a position he has held for six years. It was his activity on the committee and the political affairs of the city generally that gave him recognition for the appointment of under sheriff and made him the logical candidate for the shrievalty nomination.

Mr. Shinn's many friends throughout Burlington county testify to his fitness for the position to which he aspires.

Mr. Shinn married Miss Elsie Borden on April 2, 1908. There are two children, Miss Elizabeth A. Shinn, and Howard LeRoy Shinn. Miss Shinn is a student at the Women's Designing School of Art, Philadelphia.

## PETITION WIDER BROAD STREET

Chamber of Commerce to Ask Borough Council to Make Needed Improvement

Petitions to widen Broad street from Cinnaminson avenue to LeConay avenue, and from Garfield to Morgan, will be presented to borough council at its meeting next Tuesday.

The decision to present the petitions was reached at a meeting of the Palmyra Chamber of Commerce held in the Legion Hall Tuesday evening. A special committee of the chamber has been working on this project for the past month, and has the signatures of most of the property owners whose real estate will be affected by the widening of the street, upon the petition.

If the petition is acted upon favorably by council at its next meeting, Broad street will be nearly fifty feet wide for a distance of three squares.

Thomas McGowan, chairman of the committee of the chamber investigating the rate raise of the Palmyra-Riverton Water Company, reported at the meeting that the Public Utility Commission had granted permission to the chamber to audit the water company's book. The rate increase, which has aroused citizens of both Palmyra and Riverton, has been at least in various angles during the past few months.

The water company sought to make a profit of 20 per cent over its investment by the increase, officials have assured the citizens, but it is claimed the new increase makes their profit between 40 and 50 per cent. Charles A. Wright, president of the water company's executive board, announced at an indignation meeting last spring he would welcome any inspection of the company's books that a committee of the citizens desired to make.

The auditing committee has not been announced, but it will be chosen from among the certified public accountants living in the community, with probably an engineer or two to assist the accountants in placing valuations on the company's holdings and equipment.

When this committee has reported to the chamber, a public meeting will be called, when the report will be read in full. Steps will be planned to take whatever measures are deemed necessary. The rate increase comes up for a final hearing before the Public Utility Commissioners in September.

## MRS. IRVIN Y. DONAGHY

Mrs. Laura A. 50 years old, wife of Dr. Irvin Y. Donaghy, of 213 Thomas avenue, Riverton, died Saturday morning at the Pennsylvania Hospital after a long illness.

Services were held Wednesday at 2 o'clock at the Oliver B. Bair building, Philadelphia. The deceased is survived by her husband and one son, Irvin, Jr.

## LEGION AUXILIARY

The regular monthly business meeting of the Auxiliary will be held next Wednesday evening, July 18 at 8 p. m. in the Legion Home.

Don't forget the picnic Saturday, July 21 at Greenloch Park. Come one, come all!

## JOSEPH S. LOW ROTARIAN CHIEF

New President Fakes Tardiness to Please "I Told You So's"

Last Thursday was the first evening for Joseph Low as president of Palmyra-Riverton Rotary Club. Not only did Mr. Low make his debut as an officer of the club but he also placed a record to his credit by being present at the first meeting.

Feeling that the members of the club would miss their guess and would probably meet with a disappointment the first evening in his official capacity, he staged a fake tardiness. Vice-President Albertson, at the hour of 6:15 sounded the gavel with "Joe" still an absentee. Then came murmurs and some were smiles of satisfaction feeling that their prophecies were correct.

Non. "Joe" Hiding But the honorable "Joe" was hiding in an adjacent room, and before the confusion became too great, made his appearance and turned the expressions of self satisfaction on the faces of the "prophets" to that of complete surprise.

The evening was an excellent start for the new President. There was a very good attendance and a feeling of added determination prevailed to make the ensuing year even more successful than the last, although it will be hard to beat.

The Rev. George Lockett, who represented the Club at the National Convention in Minneapolis recently, rendered a very comprehensive report of his untiring services, were directly of his observations and the happenings of the Convention. He covered the ground thoroughly without encroaching on the time allotted him and the patience of his listeners.

President Finney Honored The previous week retiring president, J. Horace Finney, was honored by a rousing meeting in appreciation of his untiring services to the club during the past successful year.

The club rooms were made especially attractive for the occasion by a profusion of roses which bedecked the dining tables through the thoughtfulness and generosity of J. D. Elsiele and J. C. Clark, of the Henry A. Dreer Company.

Following the usual dinner and song fest which seemed to bubble up enthusiasm under the leadership of "Pat" Steele, President Horace extended words of appreciation to the various chairmen and their committees, and then turned the floor over to the speaker in several recent gatherings in Palmyra, and has been won to the hearts of many.

That which added much zest to the final evening of President Horace's term was the inspiring address, "Going Fast—But Where," by Dr. Arthur James. Dr. James has been present as the speaker in several recent gatherings in Palmyra, and has been won to the hearts of many.

From his observation of the activities of the Rotary Club, his philanthropic work among the boys, sending at this time, many to the summer camp, Dr. James stated his belief in such an organization which stops long enough in this busy world to do some good.

He drew a beautiful contrast between the desire on the part of the human race to break records of speed, and that of Lindbergh, who through his desire to break a record had not only done so but in so doing had arrived at a destination and accomplished a feat which will revolutionize modes of travel and be the means to an end bringing peace and good will among the nations of the earth.

The evening was very appropriately concluded by Vice-President William A. Albertson, when in behalf of the Club, he presented the retiring President with a handsome traveling bag which was received by President Horace with few but impressive words of appreciation.

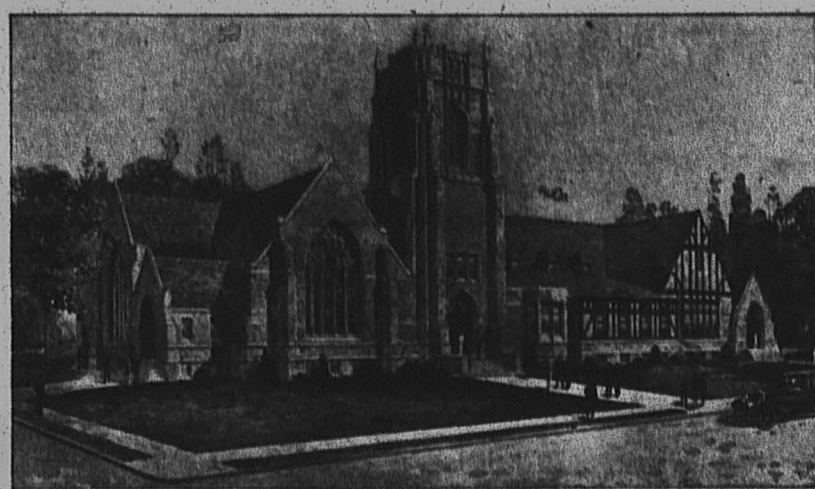

Home Town Thoughts If you want your home town to prosper, don't send your money away to make some nearby or distant city prosper instead.

If people knew the merits and achievements of their home town and talked about them, as well as they know its faults, it would go ahead faster.

Many schools are teaching salesmanship, but they are not teaching that there is much salesmanship in the policy of getting along without advertising, and failing to inform the public about the merits of merchandise.

That Opton Sinclair was bitten by a dog would not have been news, except for the fact that the able Socialist was taking a bath when attacked.

## SPLENDID NEW CENTRAL BAPTIST CHURCH

The architect's drawing shows what a handsome edifice will grace the corner of Fifth and Maple Street, Palmyra, when the new Central Baptist Church is completed. The cornerstone was laid last Sunday.

## R. F. C. AUXILIARY PRESENTS FLAGS

Fire Trucks Will Be All Dressed Up When They Go Visiting

On Tuesday evening the Ladies' Auxiliary presented the Riverton Fire Company with two large silk flags. The presentation was made by Mrs. Carhart to Walter C. Wright, president of the Fire Company. On July 4, following the flag raising by the Boy Scouts, the Fire Company on behalf of the Auxiliary presented Mr. Wright for the Fire Company a large banner for use on the truck when visiting.

The Auxiliary elected the following officers at its Tuesday evening meeting: Mrs. Elizabeth Carhart, president; Mrs. Anna Lezenby, vice president; Mrs. Elizabeth Evans, treasurer; Mrs. Martha VanScler, secretary; and Mrs. Jean Faunce, accountant.

## COMPASS CLUB ENJOYS OUTING

Lunch "In Wide Open Spaces" and Athletic Contests Feature Picnic

The Compass Club of Palmyra and Riverton held its first annual picnic at Silver Lake Park, on the White Horse Pike near the Clementon, last Saturday afternoon.

It was a real "honest-to-goodness" picnic from start to finish with baseball races, card games, quilt contests, and a host of other men and women. Mrs. A. B. Cramer and Fred Fitzmaurice won from William Branson, Jr., and J. Moffett; Mrs. A. B. Cramer and Harry Stittler won from Fred Fitzmaurice and William Branson, Jr.; Sam McMullen and Walter Lamon won from George W. Shaner and William Albertson; George W. Shaner and Harry Stittler won from Albert Ryecroft and John Moffett.

The next big feature on the program was the individual quilt pitching elimination in which Albert Ryecroft won the men's title and Mrs. Cramer took the honor in the ladies' contest. Mrs. Cramer then became the undisputed champion by defeating Mr. Ryecroft, scoring two ringers in four tries.

Heavy Leads "Heavies" The contestants in the 100-yard dash were divided into two classes according to weight, the "heavies" and the "not so heavies." William Branson proved to be the fastest of the big boys with George W. Shaner second and Albert Ryecroft third.

Among the "not so heavies" Walter Lamon took first honors with George W. Shaner second and Albert Ryecroft third. The ladies' 100-yard dash was won by Miss Ruth Hollingshead in the women's class, Miss Myrtle Stittler in the girls' class and Walter Lamon, Jr., in the boys' class.

The baseball throw was won by Miss Ruth Hollingshead in the women's class, Miss Myrtle Stittler in the girls' class and Walter Lamon, Jr., in the boys' class.

The athletic event directed by Fred Fitzmaurice who also led the singing during the sumptuous repast which was served immediately after the picnic, was Mrs. A. N. King, James Hartley and Walter Lamon.

All those who enjoyed the picnic extend their appreciation to the officers and to Mr. Jobe, chairman of the entertainment committee for the men, and Mrs. Cramer for the ladies. Unfortunately, Mr. Jobe was unable to attend due to the illness of his wife.

That Opton Sinclair was bitten by a dog would not have been news, except for the fact that the able Socialist was taking a bath when attacked.

## CORNERSTONE FOR NEW CHURCH LAID

Inspiring Ceremony Held by Officials and Members of Central Baptist

A congregation of three hundred people from Palmyra, Riverton, and many visitors and former members of the Central Baptist Church from other towns, attended the laying of the cornerstone for the magnificent new Baptist church building last Sunday.

The occasion was a history-making event for Palmyra and for the church. Those who took part in the morning service, presiding over the stone-laying were Clarence T. Yerkes, president of the church; Thomas C. Van Osten, president of the board of trustees; A. J. Brooks, president of the board of deacons; and Rev. George Lockett, pastor of the church.

"The Chief Cornerstone" Pastor Lockett preached an inspiring sermon based on a text in Ephesians, proclaiming Christ as "the chief cornerstone" upon which every church should be built, and upholding him as the foundation of all Christian civilization.

"Christ," said Pastor Lockett, "is the rock foundation upon which is built the church universal." This he compared to a building composed of many stones of all kinds, shapes and colors, several members of the stone-laying party who have named the name of Christ, of whatever creed or race, and built according to the plumb and level and plan of God, the great

(Continued on Page 3)

## BIG LEAGUERS GUESTS OF LIONS

"Lena" Blackburne and Teammates Entertained at Tuesday's Meeting

The Lions Club of Palmyra and Riverton was honored by the presence of Manager "Lena" Blackburne and several members of the Chicago White Sox at their regular dinner meeting Tuesday evening.

The Lions entertain "Lena" and some of his teammates each year and left no doubt that every Lion was pleased to have this high honor bestowed upon their fellow townsman.

Len President Kates conducted the meeting in his own inimitable style, making enthusiastic and good fellowship contagious. It would not be too much to say that this was one of the most enjoyable occasions of the year as many comments to this effect have been heard since from those present.

Len Baker, who makes the spring training trip with the team each year, introduced the big league visitors, and after saying a few words, giving credit for his promotion to the members of the team.

The others were introduced by Len in order of their length of service with the team. First was Ray Crouse, next Ray Clancy, who sang "Blue Heaven," Alex Metzler, former Athletic outfielder, Bill Barrett and Bill Cissell.

The music was furnished by J. Ed. van Lee, Woody McCord, George McCord and William Heavener. Several instrumental selections were rendered by these versatile musicians which served to keep the Lions and their guests all "pepped up" all the time.

Other guests were Bud Mathews, Bert Marple, Earl Harder, Bert Hornor, George Engle, Dr. Dye, Jack Easley, Bruce Beahm and Harvey Fisher.

Willbur E. Jones, of Thomas avenue, Riverton, has been appointed park guard and special officer. He will have charge of Memorial Park this summer. He was sworn in by Borough Clerk D. M. Clifton on Monday. Mr. Jones is well qualified for the position. In addition to watching over the children during the swimming period he will teach them to swim, play games, encourage athletic sports, and have a general supervision all day.

Work is the grand cure of all the maladies and miseries that ever beset mankind.—Curtis.

## RIVERTON TRIMS W. PHILLIES, 4-0

Home Team Held to One Run Until Seventh Inning; Huggard Razzed

The West Phillies baseball team was the guest of the Riverton nine on last Saturday afternoon at Memorial Park field. Although treated like kings during their stay the visitors were sent home with a coat of whitewash to the tune of 4-0. The calmness was applied by "Jake" Schele, a veteran hurler in these parts.

When the visitors' lead-off man slammed a double to open the battle it certainly looked as though the Phillies were enjoying a batting spree, but this hit turned out to be just 50 per cent of the hostile clan's attack. Huggard, the visiting shortstop made the other bingle off "Jake's" delivery. The fans had been giving Huggard the "rasberry" for some time and in the third inning he "settled their hash" by returning to the jeers with a lively single. The hit however amounted to naught as there were no more to back it up.

Riverton's one run lead, gathered in the first frame, looked slim until the seventh when four consecutive hits after two were out, scored the comfortable lead of 4-0 which was the final score.

Box score: RIVERTON R. H. O. A. Snyder, ss ..... 1 2 1 2 Bradle, 2b ..... 2 2 0 2 Wearing, cf ..... 0 1 1 0 Miller, 1b ..... 0 2 13 0 Beavitt, rf ..... 0 0 1 0 Linton, lf ..... 0 1 2 0 Worrell, 3b ..... 0 1 0 4 Young, c ..... 1 1 0 0 Schele, p ..... 0 2 0 2 Totals ..... 4 12 27 10

WEST PHILLIES Sloan, 2b ..... 0 1 1 2 Augler, c ..... 0 0 8 2 Wyble, cf ..... 0 0 2 0 Huggard, ss ..... 0 1 2 3 Daugherty, lf ..... 0 0 1 0 Slaz, 3b ..... 0 0 1 1 Powers, 1b ..... 0 11 0 Connelly, rf ..... 0 0 2 0 Deegan, p ..... 0 0 1 1 Totals ..... 0 24 9

This Saturday afternoon the Riverton nine will play the strong Clearview Club of Philadelphia.

## RIVERTON JUNIORS LOSE FIRST GAME

Bad Breaks Combined With Errors Cause Juniors Defeat

The Riverton A. A. Juniors were defeated Monday night for the first time this season by the strong East End team of Riverside, many of the men on this team have had several years experience at the national game. The final score was 6-4.

East End scored twice in the first frame when Freynik singled, A. Zoll doubled and F. Maloney singled. The A. A. Juniors came back in the second and scored a run on Sloan's error drive to deep center for three bases and Foulke's timely single.

In the fourth the Juniors pushed over two more markers. Broderick's stolen base, scored, was sacrificed by Ed. Foulke, who walked, when Smith singled.

East End regained the lead by virtue of errors and a triple in the sixth. The Juniors scored one more with the aid of an error and Jimmy Reeves' single.

In the fourth inning Smith and Perkins pulled a double play with the bascocks popped. Again in the fifth there was full house on the base paths at this time Sloan, Broderick and Perkins pulled the double killing.

The Juniors play Hillcrest tonight (Thursday) at the Ajax A. A. Monday next week.

## CINNAMINSON LODGE INSTALLS OFFICERS

Merchantville Odd Fellows Present to Assist in Ceremonies

District Deputy Grand Master William McConnell and his staff from Amity Lodge, of Merchantville, were present on Friday evening last and in full form, despite the heat of the evening, installed the new officers of Cinnaminson Lodge, No. 201, I. O. O. F.

The officers for the coming term which expires January first will be: Noble Grand, Harry Fish; Vice Grand, Christopher Rudolph; Warden, Harry Gray. The retiring Noble Grand, Edwin Fish, will occupy the Past Grand's chair during the term.

As has been customary, the retiring officer was presented with a handsome regalia of the office. The presentation was made by District Deputy Grand Master William McConnell in behalf of Cinnaminson Lodge. Past Grand Fish was tendered a very complimentary tribute in view of the manner in which he conducted himself in the office of Noble Grand and for the success the Lodge has experienced during his term.

The Boosters will meet in the Lodge room of Roeboling on Tuesday evening, July 24. Advance notice of this meeting is specifically published in order that the members of Cinnaminson will not find any excuse for not being present. A good time can rightly be anticipated.

## SWIMMING

It looks as though swimming was due for a revival among the younger set in Riverton. Last week thirteen boys from the Central YMCA, Philadelphia, swam from the Keystone Yacht Club to the Riverton wharf.

The race was won by Caston Petronis, who covered the mile-and-a-quarter in thirty-two minutes. This ought to be enough to stir the competitive spirit among the lads of Riverton and similar events originating on this side of the river may be expected.

## CLUB INCREASES FLYING INTEREST

Many Take First Trip to Sky at County Unit's Airport

### LOCAL AERO MEMBERS

Present members of the Burlington County Aero Club include the following from Riverton and Palmyra: Betty D. Scanlon, Wilbur Bots, M. William Willis, John J. Lockowitz, Carl M. Anders, F. W. Kneibler, Frank E. Chambers, Russell H. Stiles, Albert L. Dean, Edgar F. Shaner, and Walter C. Wright.

More and more airplanes are heard throbbing overhead, more and more eyes and minds are cast aloft, more and more Burlington County citizens are taking the opportunity of stepping into a "sky buggy" for a sky ride, where there is little traffic and where they can get an unobstructed view of their home county, than ever before.

If the Burlington County Aero Club were a commercial institution one might say that it was doing a rushing business in passenger hops from the club's Moorestown Airport. Daily, Lieut. E. G. Pennock has been taking passengers for short hops to the sky and back and nearly every day several climb into the ship's passenger compartment for their first delightful experience.

"Gee, it was great," "Nothing to it," "Borry I didn't take a hop long ago" and "I won't be satisfied till I see again," are expressions Lieut. Pennock hears at the end of every trip. And they are literal descriptions of the flight.

Many Seek Instruction According to H. H. Lougaker, president of the flying club, "The Burlington County Aero Club is an incorporated, non-profit making organization formed with the object of awakening interest in aviation throughout the county and to give instruction at low cost, to members desirous of learning to fly."

Nearly seventy-five members are now on the roster to take flying instruction in addition to a number of club members who are merely interested in helping to advance "air-mindedness" throughout the county. Lieut. E. G. Pennock, the club's regular pilot, who is also a member of the 103rd Observation Squadron, Pennsylvania National Guards, points out the fact that the tremendous development in aircraft since the World War has done much to place aviation on its present safe and efficient basis. He says, "In addition to the regular operative services in America, such as the air mail, the regular army and navy corps, and the aerial transportation companies, the manufacturing and engineering phases of aviation are in a very healthy condition."

Flying Not Difficult The modern airplane offers an ideal medium of great pleasure as well as one for rapid commercial transportation. The art of flying one of these modern ships, such as the new "Waco 10," is not difficult and almost any young man or woman can learn to pilot an airplane safely in a short time.

Lieut. Pennock's opinion of the club's airport is that "it is ideally situated and is without question one of the safest airports in the country." The airport comprises a field of nearly fifty acres, located at the intersection of Moorestown-Bridgeboro and Hartford-Westfield roads, one mile east of Moorestown, and it easily accommodates the landing and take-off of the largest aircraft.

At a meeting of the board of directors on Monday night it was voted to commence student instruction at once. Several members have already qualified with the Department of Commerce for their student licenses, and these will be the instructor's first pupils.

Interest Increasing Interest on the part of members at the field has greatly increased since the erection of the hangar and the permanent housing of the ship there, and the beginning of actual student instruction will no doubt further increase the "gallery" of workers and spectators.

Passenger flights are offered daily from the club's airport at a charge of \$5.00 per passenger for a ten-mile trip in any direction. The club also offers aerial transportation to the public for trips to nearby resorts, or long-distance flights at \$25.00 per hour for one or two passengers. William del. French, of Moorestown, chairman of the field committee, is in charge of reservations for these trips.

The next meeting of the club will be held in the Community House, Monday evening, July 16, at 8:30. The speaker at this meeting will be Lieut. E. G. Pennock, the club's chief pilot. Lieut. Pennock will give interesting ground school instruction.

## COUNTY DEMOCRATS ENDORSE AL SMITH

The nomination of Governor "Al" Smith for President was ratified by the Burlington County Democratic Committee at its meeting in the court house, Mount Holly, Monday evening, July 9, after resolution, paying tribute to the late Thomas May, a life-long Democrat, who recently died at Bordentown.

William Jacoby, alternate delegate to the Houston convention, gave tribute on the convention in the presence of William Vandegrift, the delegate to the form of organization for the campaign, as submitted by the committee, of the executive committee, was approved and adopted.

It was pointed out at the meeting that a resident of Burlington County was the oldest person to attend the Houston convention. Miss Nellie Hunter, of Riverton, who is 73 years old, enjoys this honor. On the trip back after the convention, Mayor Frank Hagler, of Jersey City, the state's Democratic leader, gave a dinner on the train and Miss Hunter was the guest of honor and was seated next to the famous "political boss."

BURLINGTON COUNTY HOSPITAL Report for month of June: Total patients admitted during month, 142; private patients, 84; ward pay patients, 58; Ward free patients, 48; operations performed, 96; remaining date of this report, 42. William L. Glover, Supt.

Italy's new tennis champion is named Gaslini, and they say he does stop on it.

## 100 Husbands Tell

For the past two years Doctor G. V. Hamilton, an eminent scientist, has been making an intensive study of marriage under the auspices of a New York foundation. The purpose of his study is to find some basis upon which practical advice can be offered to young men and young women before marriage and to help husbands and wives suffering from "maladjustment."

One hundred husbands and 100 wives, a normal men and women, were interviewed in the latest stage of Doctor Hamilton's experiment, nearly 400 questions being put to each individual and frank answers invited. Doctor Hamilton wrote down the answers, which ran into some 2,000,000 words.

A hundred husbands who tell their troubles are, save ten, college men. Twenty-two are in business; 32 are engaged in various professions; 11 are engineers; 28 work in literature or the arts; 8 are in religious work. There are 2 over 50 years of age, 31 between 40 and 50, 60 between 30 and 40. Most of them have been married 5 to 15 years. Only 20 are childless; half of them have two or children or more.

Generally, there are 11 classes of troubles which caused the unhappiness in the households of these hundred husbands. Temperamental dissatisfaction number 49; physical dissatisfaction number 39. Lack of personal freedom, 10; ill health, 10; jealousy, 8; troubles over children, 8; economic troubles, 8; friction over relatives, 7; religious conflicts, 1; "everything wrong," 2.

## P. S. BUSES TO BE WELL VENTILATED

Operators Must Watch Windows to See That All Are Kept Open in Hot Weather

The importance of giving attention to the proper ventilation of their cars and buses, particularly at this season of the year, is impressed upon all operators in an executive bulletin issued by Matthew R. Boylan, vice-president in charge of operation, Public Service Coordinated Transport. "Windows should be kept open during the hot weather, except in case of rain or storms. Examine your car or bus before you leave the terminal and see that windows are in proper position," Mr. Boylan says. "If a storm comes up while you are on the road, see to it that windows, or in case of open cars, curtains, are pulled down. After the storm passes, if the comfort and convenience of your passengers require it, see that windows and curtains are opened again."

"Your passengers are entitled to receive from you service which will meet their requirements. Please see that it is given."

## MAN CAUGHT BECAUSE HE WORE STOLEN FALSE TEETH

Kingstone, Jamaica—Mrs. Leonie McCurdy caused the arrest of Sydney Lawrence, 28, negro, recognizing him as the man who robbed her home by her late husband's gold ornamented false teeth. Lawrence was sentenced to four months in prison.

Mrs. McCurdy, walking saw the flash of a familiar set of teeth as Lawrence stood in the street talking. She identified the teeth as having belonged to her husband, and hailed police.

## MOVEMENT IN 1798 TO BUILD WARSHIP

Residents of Burlington County Were to Loan Frigate to U. S.

That the residents of Burlington County in 1798, many of the Quakers, were not opposed to being prepared for war, is established by the following article from the "Federalist", published July 16 of that year, Dr. C. E. Godfrey, of Trenton, director of the State Public Record office, came across a copy of that newspaper last week while doing some research work. "It is strange," he says in a letter to Judge Slaughter, "that the Quakers and other people of Mount Holly would consider the proposition of building a warship in New Jersey, to be loaned to the United States government, as such undertakings are extremely rare, if they ever occurred before."

The item follows: "At a meeting of the inhabitants of the county of Burlington, at Mount Holly, pursuant to public notice, to take into consideration a proposal for building a frigate, in New Jersey, by subscription, to be loaned to government. General Lacey was chosen chairman, and Mr. Griffith, secretary. The Resolutions:

"The meeting having taken into consideration the proposal contained in the aforesaid public notice, are of the opinion and do resolve, 'That the said proposition meets with their most hearty concurrence and that they will individually exert their endeavors to promote so laudable and necessary a design. And, This meeting, considering that it is of great importance to unite the whole county in the promotion of the aforesaid object, and that for this purpose it would be useful to appoint a future day, for a meeting which may be more numerous (the present being a season of great business and hurry). Do resolve, that the inhabitants of said county be requested to meet at the court house in Mount Holly, on Saturday, the 21st day of June instant, at 2 o'clock in the afternoon for the purpose aforesaid."

"Daniel J. Read, Esq., is requested to have 150 copies of the above resolution printed off and circulated through the county; And this meeting do earnestly recommending it to their fellow citizens, to be punctual in their attendance."

"J. Lacey, Chairman. "Wm. Griffith, Secretary."

Communication Ebenezer Tucker, Esq., of Tucker, in the county of Burlington, has directed one hundred dollars to be subscribed for him at the Burlington county meeting to be held at Mount Holly for the purpose of taking into consideration a proposal for building a ship of war by the people of this State, to be loaned to the United States. The example of Mr. Tucker is truly laudable; doubtless many other donations will be obtained. There are about 2,500 families in the county. Many of the inhabitants are of the domination of Friends, and from those who are consciously scrupulous against war offensive or defensive, nothing can be expected, but there are many who are only nominally of that sect; and it is hoped that the old staid ones will, according to their own principles, stand still and see what the great I Am will do for us, and not discountenance those who are patriotically disposed. The proposal is certainly praiseworthy; it is for the pro-

## SCHOOL CLERK CLOSES SERVICE OF 37 YEARS

W. R. Stafford, district clerk of Delaware township schools 37 years, has resigned "to give the younger fellows a chance."

The Board of Education accepted his resignation and appointed Morgan Parker to succeed him.

Stafford is 76. He is a farmer and dairyman and is still active in operating his farm on Berlin road. The farm has been in the possession of the Stafford family since 1738.

He was first named district clerk in 1891. As a mark of appreciation of his services the board last April named School No. 3 for him.

tection of our commerce, and to prevent the enemies of God and our religion, overrunning and spilling our country. No subscription, however small ought to be refused; the widow's mite in the gospel was an acceptable thing."

## VARIOUS WAYS FOR KEEPING CHILD FIT

School records reveal that many children lose weight during the vacation months, where as quite the opposite should be true.

Marie C. Doornik, New Jersey extension specialist in foods, offers the following suggestions for keeping children at full weight: Have regular hours for meals, rest periods, and sleep, as is done when school is in session. Make a special effort to have nourishing food served in an attractive way to tempt the appetite. Whenever possible, set the lunch table in a shady spot in the yard. This will be a change and give the children an opportunity to help carry the dishes back and forth on trays.

Vegetables, milk, eggs and fruit should be the foundation of the children's meals. Cream soups offer combinations of vegetables and milk. Whole wheat bread sandwiches may be made with various fillings on the days when lunch is served in the yard. Raisins and nuts softened with a little lemon juice make a good sweet filling, although cream cheese with diced celery or hard cooked egg and celery is a more substantial combination. Fruits for dessert are always enjoyed.

The more active a child is the more food is required. Children are fairly quiet during school hours, but in the summer they are romping and playing most of the day. To offset this a quiet play hour or rest period should be the rule in every household. Mother may have to read stories during this time but, she too, will enjoy the rest. Regular and long hours of sleep are just as necessary as during the school year.

Weigh the children each week and let each one keep the record; those who lose weight will require extra rest and food.

## Modern Banking Service

Present business conditions make a bank account not only an advantage but almost a necessity.

A modern bank is equipped to cover every form of financial service.

You will find this bank strictly modern; not too large to lose interest in the small depositor, but large enough to care for all local needs.

## JUSTICE OF PEACE GETS 3-YEAR TERM

Delran Township Official Severely Punished by Court for Assault

Spectators in the Burlington County Court at Mount Holly, last Thursday, witnessed the sad spectacle of a former respected justice of the peace being sentenced to three years in the New Jersey State Prison, all because of an outburst of temper, so frequent among men of his nationality.

The officer of the law in question was Frank J. Maurone, justice of the peace of Delran township, residing with his family at Bridgeboro.

On December 31 of last year, Frank Murray, a former Camden policeman, and Hubert Kernan, also of Camden, stopped at the Maurone home and requested some water for their car. An argument ensued, and Maurone accused the men of being drunk and of driving a car while intoxicated; this resulted in Maurone getting his gun and shooting both Murray and Kernan, the former in the groin and the latter in the shoulder and both men lay in the Eushrug Memorial Hospital at Riverside for several weeks, their lives being despaired of for several days.

Maurone was tried the week previous and a jury rendered a verdict of guilty as to both charges in the indictment, he being charged with atrocious assault and battery.

Isador Worth, of Riverside, appeared for the defendant, and before making his plea for leniency submitted the resignation of Maurone as justice of the peace, and it will be immediately forwarded to Governor Moore by Judge Slaughter.

Another case disposed of which was a particularly revolting one and in which it was not necessary to disclose the evidence of the state, due to the fact that the defendant came in on a waiver, was that of the state vs. Peter Marcellus, of Riverside, charged with "an unusual crime" with little four-year-old Clair Fibrilia, as his victim.

It was shown that Marcellus had served a two-and-a-half year term in the Eastern Penitentiary for a similar crime and the Court gave the prisoner the limit—five years in State Prison.

Benjamin Robbins, a Portuguese from Beverly, had been convicted of assault and battery, and he was fined \$100.

Elmer Magee, of Mount Laurel township, charged with obstructing justice, had the case against him nolle prossed and the indictment quashed on the motion of Prosecutor Hillman, who had investigated the case, and found the evidence very flimsy.

No one loves a quitter, but the acquitters seem to get by with it.

## PALMYRA NOTES

Master Shelby Turbett is spending two weeks at Ocean City.

Mr. and Mrs. Clement Horn and daughters, Arelto and Ruth, of Miami, Florida, are visiting her parents, Mr. and Mrs. James L. Burton, of Huntington, for a month. The Horns are former residents of Palmyra and visited several friends in town last Saturday afternoon.

Mr. and Mrs. Howard Lippincott and family, of Morgan avenue, are spending three weeks at a camp in Flagstaff, Maine.

Ray L. Olson, of Chevy Chase, Maryland, spent the weekend with his sister, Mrs. Thomas R. Bromley, at their new home on Morgan Heights Development.

Mrs. William H. Yost, Jr., of Parry avenue, left Sunday morning for a two weeks' visit in Boston, Mass.

Mr. and Mrs. Charles J. Reeves, of Morgan avenue, announce the marriage of their daughter, Helen Louise, to Lewis E. Eldridge, of Camden, at Christ Episcopal Church, Palmyra. Upon their return from a wedding trip, Mr. and Mrs. Eldridge will be at home after July 15 at their new home, 1209 Main street, Palmyra.

Frank Parker, formerly of Palmyra, who has been very ill for several weeks in Iowa, is improving.

Mr. and Mrs. Stanley Thomas, of Marlborough, Mass., Clift, of Tidona, and Nevin Kresler, of Philadelphia, were among the visitors on the Fourth at the home of Mr. and Mrs. George J. Beel.

Mr. and Mrs. C. H. Pascoe, of West Philadelphia, visited friends in Palmyra on Sunday.

Miss Mattie Carpenter has returned after spending ten days in Broadwater, Va., visiting relatives.

Mr. and Mrs. Milton Styles, of South Bend, Ind., visited his sister, Mrs. A. B. Powell, on Wednesday.

John H. Ellis, George Harvey, Christopher White, Louis Lowden, Walter Seibold, George Sharp, George W. Rogers, Edwin A. Griseom, Lloyd Griseom, Herbert Haugh, Nate Combs, and Eddie Parent, of St. Louis, enjoyed a fishing trip to Leeds Point on Monday. A total of 55 fish were lured away from their ocean home, and Nate Combs proved himself the best fisherman of the crew, with a catch of twelve. Outside of a little sunburn and a steaming radiator the party arrived home tired but in happy spirits.

All members of the P. O. of A. are requested to be present tonight (Thursday) as there will be installation of officers.

Miss Helen Moore, of Brooklyn, is spending the week with her uncle, Mr. John P. Saar, Sr., of West Broad street.

Miss Nora Carpenter, of the Palmyra National Bank, is enjoying two weeks at Woods Hole, Mass.

Mr. and Mrs. Charles B. Marple, of Morgan avenue, were visitors in Ocean City over Sunday.

Mayor George N. Wimer enjoyed the refreshing breezes of Lake Hopatcong last Sunday.

Mr. and Mrs. James J. Tomes and Raymond D. Lamont motored to Milton, Pa., over the weekend.

Miss Elizabeth Brelford is entertaining friends from Montreal, Canada.

Donald and Ruth Yerkes returned home Sunday after a week's visit with their grandmother, Mrs. J. Kinkler, in Philadelphia.

Herbert and Harry Wood, of Philadelphia, visited at the home of their grandparents, Mr. and Mrs. Harry Kemmerle, Sunday and Monday.

Officers of the L. G. E., Palmyra Castle, were installed last Thursday evening by District Deputy, Mrs. Myrtle Craig, of Trenton.

Mrs. Raymond Yerkes, who has been quite sick, is much improved.

Mr. and Mrs. Wilbur P. Crane left Saturday to spend the summer at Judian Lake, near Lake Hopatcong.

"Bugs" McAlister has a new Thomas outboard motor boat equipped with a twin cylinder Super Bait engine.

Mr. and Mrs. Harry C. Schwering spent Sunday in Surf City.

George Long, of 404 Cinnaminson avenue, is enjoying the summer at Ocean City.

James Dilks and family are vacationing for two weeks at their cottage in Wildwood.

Mrs. E. S. Childs, of Brooklyn, is visiting Mrs. George M. Becker.

Mrs. John Coyle and Miss Mary Kemmerle motored from Ventnor on Sunday to visit Mr. and Mrs. Kemmerle for the day, and took them back to Ventnor to spend two weeks.

Mrs. E. I. Powell and children are spending a week at Wildwood.

Mr. and Mrs. Wilton Neff, of Reading, visited her parents, Mr. and Mrs. John Ewald, last week.

Miss E. C. Burke, of Camden, and Mr. and Mrs. Joseph C. Burke, of Camden, visited her parents, Mr. and Mrs. Edman W. Thomas.

Mr. and Mrs. George Perkins and son, Jack, have returned home from a week's visit spent with her father, Mr. Lindsey, of Conestoga, New York.

Mrs. S. Williamson, of West Philadelphia, spent the weekend with Mr. and Mrs. Joseph A. Schwartz.

Mr. and Mrs. Albert Brewer entertained Mr. and Mrs. Conner and son, of Camden, last Sunday.

Bernhart Baylor, George Ingram and Edwin Kreeker motored to Surf City on Sunday.

Mr. and Mrs. Wallace Brewer and sons spent Fourth of July with relatives.

Herbert W. Logan is selling this Thursday for Europe on the "Rochembeau," of the French Line, lives in Philadelphia.

## FIRST LUTHERAN

Rev. W. M. Richard, Pastor

First Lutheran Church is fortunate in having for the remaining Sundays of July, the Rev. J. E. Shewell, a man of many years experience in the ministry. The Rev. Mr. Shewell served pastorates in Duluth, Minnesota and in Lorain, Ohio, from which place he has recently moved into the Philadelphia district. He is a graduate of Lafayette College, Easton, Pa., and of Mount Airy Lutheran Seminary in Philadelphia.

Do not forget your church during the months just ahead. The success of her services depends upon you. If you stay away, you not only rob yourself of a blessing, but the ones who are there as well, and most greatly reduce the power of the one delivering the message. "For the sake of my Lord, I will be true." Make this your resolve.

Sunday School at ten in the morning. The conversion of Saul of Tarsus is a pivotal point in world history. What if Paul had not taken gospel to Europe? The secret of Paul's power is contained in the Golden Text.

During the absence of the pastor, there will be no evening services, but divine worship will be conducted as usual at 11:15 a. m. with the Rev. J. E. Shewell in charge.

## EPWORTH METHODIST EPISCOPAL CHURCH

J. William Lee, Minister

The Church School will swing open the welcoming doors at 10 a. m. In every department there will be a program of character building. Morning Worship at 11:15 to 12:15. Ministry of Music, "Londonery," "Sunders," "The Spacious Firmament," "Melody," "West," "Anthem," "O, Pray for the Peace of Jerusalem." Sermon, "Give us this day our daily bread." Who may pray this prayer and who may not.

The Epworth League will conduct an inspirational service at 8:45 p. m. Last Sunday evening the Rev. C. T. Bates, of the Calvary Presbyterian Church, gave a very spiritual address. The young people are rallying splendidly.

Evening Worship 7:45 to 8:45 p. m. Musical numbers as follows: "Adieu," "Primer," "God of Our Fathers," "Anthem," "One Sweetly Solemn Thought," "The Man Who Sees Too Far." You will enjoy the song solos. Everyone likes the new song book. A spiritual message in every song.

The choir will take an outing to Greenloch Park on Saturday evening, July 14.

## BAPTIST CHURCH

Rev. George Lockett, Pastor

Last Sunday's impressive cornerstone laying service was a joyful and solemn occasion, marking the beginning of a new era in the history of the church. Full details are published in another column.

Picture postcards showing the new church edifice when completed are on sale by members of the Primary Department. Members and friends of the church are urged to take a number of these cards for themselves and to send to their friends. That the inspiration of the beautiful building project may become as widespread as possible. Orders may be placed thru Miss Dean, Riverton 504-R.

On Saturday afternoon and early evening the lot at the corner of Broad and Maple avenue will hum with the activity of the "What Not."

The Primary Department cordially invites everybody in Palmyra and Riverton to attend.

There will be playful things for play, useful things to use, good things to eat, cool things to drink, pretty things to wear, fish ponds to fish, flowers to admire, Japanese lanterns to light—all these things and "what not."

The affair is a further effort of the department to increase the fund for the beautiful window to be dedicated to "Childhood." This will be one of the principal windows in the new church.

Teachers of the Primary Department say, "If you are interested in children, be at the 'What Not'—if you are not, be there anyway."

Pastor Lockett will preach at both morning and evening services on Sunday. Subjects: morning, "The Church at Work"; evening, "The Abundant Life."

**CORNERSTONE FOR CHURCH LAID BY REV. LOCKETT**

(Continued From Page 1.)

architect of the universe.

The Episcopal Baptist Church, said the pastor, is intended to be not only of service to its members, not only a community institution for Palmyra and Riverton, but one whose influence could be felt far and wide, for the world as its teachings might be applied to the service of humanity.

**Trowel Presentation**

On the platform, erected around what will be the tower entrance to the new building, were assembled members of the official boards of the church, including the deacons, deaconesses, trustees and members of the building committee.

A trowel was presented to the Rev. George Lockett by Ferguson B. McCormick, on behalf of the Masonic brethren of the church congregation. This was received in the name of the church by the pastor, whereupon the latter proceeded to lay the stone, assisted by Philip Conover, who is in charge of the stone masons for the building.

Clarence T. Yerkes read a list of the articles which were placed in a copper box and sealed within the cornerstone. These articles were copies of "The Church Messenger" and "The Palmyra Baptist Visitor," former church publications, dating back to 1894, and saved by Mrs. E. V. Standen; copies of church directories for 1914 and 1921; a souvenir of the original cornerstone laying, November 4, 1885; copies of "The Public Ledger," of Saturday morning, "The Palmyra News" and "The New Era," of last week, all containing articles on the cornerstone laying.

A photo taken at the ground-breaking ceremonies a few weeks ago, and several photos of the building in various stages of construction, were presented by David Wood to be placed in the box. Several old coins and a rare twenty-five-cent paper note, together with some present-day money, were included.

A program of the present cornerstone-laying ceremonies, a list of the church's charter members and a list of the present members, and a copy of the Bible used in the Bible School and from which the morning Scripture was read, completed the articles placed in the stone.

**Many Pictures Taken**

Norman Shriver was present with a new motion picture camera and took a hundred feet of film of the ceremonies and of many of the people who filed past the cornerstone after it had been set in place. A number of individuals also took pictures of the memorable occasion. Copies of these will be preserved in the church archives.

A large portion of the credit due those who have made the new building possible goes to the members of the Bible School. Much of the money has been raised in this department and the various classes are continuing to work toward equipment for the new building, when finished.

The Philanthropy Class has agreed to place one of the large memorial windows and the Primary Department is raising a fund to present a window dedicated to "Childhood." Individual contributions also are being received for particular pieces of equipment for the completed edifice.

From very small beginnings in 1885 the church has grown in size and influence until the present, and the completion of the new church and Bible school temple will mark the beginning of a new and still greater era of usefulness.

## West Jersey Net Tourney Opens at Moorestown; Over 80 Entered

Host of Tennis Stars Will be Seen in Action at Field Club Courts This Week; Fischer Seeks Permanent Possession of Cup and is in Fine Form

More than eighty players were entered in the West Jersey Tennis League championship tournament which opened at the Moorestown Field Club, Monday afternoon. The tourney will be continued every afternoon and early evening this week, with the singles finals for the coveted title starting at 3 o'clock Saturday afternoon. The doubles finals will follow. The semi-finals will probably start about four o'clock Friday afternoon.

With the exception of Lieut. R. Morgan Watt, Jr., Woodbury, who defeated all of the former participants and a host of new ones are entered this year. All of the old favorites have already been seen in action.

Dr. Carl Fischer, Woodbury, the defending title holder, is in fine form and threatens to come out on top again and win permanent possession of the cup which has been in his custody two years.

Another star who is being closely watched is Bert Hammell, captain of the Swarthmore net squad. Hammell, who is playing for the host club this year, recently defeated the brilliant Dr. Fischer, and a lively match is anticipated if they meet this time. Besides the rain during early afternoon, the tournament was continued Tuesday afternoon and the matches will soon narrow down to the stars.

William C. Cummings, chairman, says there are more entered than ever before, and he predicts some brilliant matches before the champion is decided. While the entries have usually been confined to the ranking players of the leading Philadelphia and South Jersey clubs, this year finds a host of smaller club champs in the competition.

The public is invited to attend the matches. Admission is free.

The summaries follow:

**First Round**

H. T. Morris, Jr., Crescent C. C., won from William J. Burgess, Palmyra, 6-3, 6-2.

F. W. Metzger, Palmyra, defeated George Brown, Haddon Field, 9-7, 6-2.

Roy Elwell, Cohanick C. C., beat B. C. Kingdon, Mount Holly, 7-5, 6-4.

Brooke Edwards, Calcutta C. C., won from Eugene W. Karpinski, Haddon Field Club, 6-1, 6-1.

William C. Coles, Jr., Moorestown, beat Horace Roberts, Jr., Moorestown, 6-2, 6-3.

Harold MacCluffin, Belfield, won from George McFadden, Narberth, 6-0, 6-3.

Benjamin Calvert, Merion, beat Henry Parrish, Riverton, 6-1, 5-7, 6-3.

Lou Henry, Trenton, won from Thomas B. Eiler, Merchantville, 6-3, 6-1.

Ralph Dix, Cynwyd, beat Don Steele, University Courts, 6-3, 6-4.

Perdunnas Kohling, Spring Lake, won from Lieut. R. Morgan Watt, Jr., Woodbury (by default).

Roy T. Hardy, Palmyra, beat Louis Jacob, Haddon Field Club, 6-4, 6-4.

Frank Kelly, Germantown, won from Arthur Wright, Palmyra, 6-0, 6-1.

Charles Sharp, Cohanick C. C., defeated W. C. Holmes, Woodbury, 6-3, 6-2.

Fred Kuser, Trenton, won from M. W. Frommer, Logan T. C. (by default).

Norman Brammell, Idle Hour T. C., defeated Preston C. Roberts, Moorestown, 6-1, 6-2.

**Second Round**

Dr. Carl Fischer, Woodbury, won from O. A. Hopkins, Germantown, 6-3, 6-4.

Elmer Howell, Germantown, beat Charles B. Coles, Jr., Moorestown, 6-3, 6-1.

Dr. W. C. Pearson, Cynwyd, won from Robert Kuser, Spring Lake, 6-4, 6-2.

Henry Hood, Lansdowne, beat James Pennypacker, Haddon Field Club, 7-5, 7-6.

Jack Brammell, Haddon Field Club, won from A. B. Frank, unattached, 6-4, 6-4.

A. Rednor, Trenton, defeated Dr. F. B. Hurlock, Idle Hour (by default).

Joseph Othausen, Penn. A. C., won from C. S. Meier, Riverton, 7-5, 7-6.

Ty Kennedy, Trenton, won from E. Russell Perkins, Moorestown (by default).

Lieut. N. W. Cooley, Riverton, beat Mahlon Saunders, Pitman, 6-3, 1-6, 6-1.

Brooke Edwards, Calcutta C. C., won from William C. Coles, Jr., Moorestown, 6-3, 6-2.

Roy Elwell, Cohanick, won from F. W. Metzger, Palmyra, 7-5, 7-6.

E. C. Hall, Haddon Field Club, defeated M. W. Miller, Greenpoint, 6-0, 6-0.

Herbert Shenkin, University Courts, won from Dr. William Sutcliffe, Narberth, 6-4, 6-3.

A. F. Nicholson, Merion, defeated L. S. Kruger, Idle Hour (by default).

Harold Colburn, Cynwyd, won from

## TOO MUCH PEACH STIMULANT HARMS

Avoid an excessive stimulation of peach trees. In sounding this warning, the New Jersey Agricultural Experiment Station at New Brunswick states that peach trees which make a very rapid and succulent growth are extremely susceptible to the attacks of the Oriental peach moth, and that the fruits are thin-skinned, lack color, and are very susceptible to injury by brown rot.

Peach trees already possessing a dark green color and making good growth should not be further stimulated by additional applications of available nitrogen. If moist weather continues much longer it would be well to stop tillage of the early varieties of peaches, such as Carmen, and orchards on strong, loamy soils should be sown to cover crops in July rather than August, the station advises. This will result in a much better growth of cover crops and furnish a much larger supply of organic matter than occurs when the cover crops are sown in August.

Most orchard soils in New Jersey are so much organic matter as can possibly be obtained through the growth of such crops.

**ASK SMITH TO MAKE HIS N. J. SPEECH AT SEA GIRT**

New Jersey Democrats are endeavoring to arrange that the one speech which Governor Alfred E. Smith, of New York, candidate for President, is to make in New Jersey before election, be delivered at Sea Girt, Thursday, July 19, which has been designated as Smith Day at the encampment and an invitation has been extended to the Governor and Mrs. Smith to be the guests on that date of Governor and Mrs. Moore at the Little White House. The occasion will be combined with Hudson Day and is expected to attract the largest gathering in the camp's history. The speech, whenever delivered, will be radioed.

**Calvary Presbyterian**

C. T. Bates, Minister

Calvary Presbyterian Church will hold its morning service Sunday at 11 o'clock. The pastor will preach. All departments of the Church School except the Men's Class, which has been discontinued until September, will meet at 10 o'clock.

Altar week service will be discontinued throughout July and August.

**MISS WEST HONORED**

Miss Jessie E. West, superintendent of the West Jersey Homeopathic Hospital, has been elected president of the New Jersey State Board of Nurses.

Miss West graduated from the West Jersey Nurses' Training School in 1911 and came to the hospital as superintendent in 1920.

Her election to the nurses' board of the state was made in 1924 and she now holds one of the most important offices in New Jersey's field of nursing.

Miss West was the visiting nurse at Riverton in the early days of the work here.

**CUT ALFALFA WHEN CROP BLOOMS FULLY**

The best time of cutting alfalfa from the standpoint of hay yields is undoubtedly the full bloom stage, announces the agronomy department of the experiment station at New Brunswick.

Careful research on this problem by various experiment stations under climatic conditions similar to those of New Jersey shows that cutting when the stage reduces greatly the food stored in the roots. As a result, the yield of the succeeding crop is smaller, and if the practice is continued, the plants become weakened and are easily killed by disease or by competition with weeds and grass that creeps in.

Continuous early cutting is also responsible for winter killing in many cases. Alfalfa plants should be allowed to grow for at least one month before frost in the fall, so that the food reserves in the roots may be replenished. A moderate growth of tops is also excellent for holding snow and this cover will often prevent heaving out of the plants.

Where large acreages of alfalfa are being grown it may be advisable to begin cutting at the half bloom stage in order that the entire crop may be cut in time to make good quality hay.

The station points out, however, that the first cutting of the season frequently falls to produce flowers because of the abundance of moisture in the soil. In such a case, the crop should be harvested when new shoots from the crown begin to grow. Also, when the alfalfa has lodged because of a rank growth or heavy storms, it is best to cut at once. The hay will then be much higher in quality than if cut later, and if the succeeding crop is cut when in full bloom, little or no injury to the plants will result.

## DID YOU EVER STOP TO THINK?

By EDSON R. WAITE, Shawnee, Oklahoma

L. O. Risley, vice president and chief field executive of the Kansas Cane and Electric Company, Wichita, Kansas, says:

That industrial development in the so-called wide open spaces in the states of the central west and the southwest is something greatly to be desired. Continued unhampered development of the science of generating and distributing electricity is the one thing which will do most to bring about this industrial development.

This is not a political question, as some agitators of the country apparently would have people believe. It is purely an economic one, and it we could only get men of this section who compose our Chambers of Commerce and other organizations to consider it is the same calm way they do any other business proposition the desired results would be more easily and quickly accomplished.

The electric light and power companies are as deeply interested in this question as every other citizen, and have shown in a very practical way during the past few years how they stand ready to help bring about a real industrial development in these "wide open spaces."

Science has so far failed to improve the quality of the lands which campaign orators are inflated.

iff's and other Sales, Administrators' and Executors' Adver-  
tisements are solicited. The New Era will appreciate being  
remembered in this connection.

## WELLS SUCCEEDING

Burlington county Republicans need  
no confirmation of their wisdom in  
electing Judge Harold B. Wells to be  
their representative in the State Com-  
mittee, but it is none the less agree-  
able to have their judgment so heartily  
endorsed throughout the State as has  
been the case ever since the news was  
 flashed from Burlington county on  
Primary night that Judge Wells had  
been chosen State Committeeman by  
more than 2,000 majority.From the day of his attendance at  
the first meeting of the Republican  
State Committee Judge Wells has kept  
the name of Burlington county in the  
forefront in party councils and the  
value of his judgment and experience  
in shaping the party course has been  
widely recognized, both in and out-  
side of the Committee.Further evidence of the high regard  
in which the Burlington county State  
Committeeman is held by his con-  
ferees was shown when he was ap-  
pointed to succeed William P. Bowman,  
to fill a vacancy on the special com-  
mittee, named to investigate Hudson  
county conditions. This committee,  
appointed earlier in the year, sub-  
mitted a report to the Republican ma-  
jority in the Legislature advising an  
investigation and stern corrective  
steps in connection with the affairs  
of Hudson. It did not have the op-  
portunity to complete its work in the  
short interim remaining before the  
time came for making its report to the  
legislature, and Judge Wells' ap-  
pointment is taken to mean that the un-  
official inquiry is to be pressed still  
further. The selection of the Burling-  
ton county member is assurance suf-  
ficient that there is no lack of pos-  
session on conditions in Hudson coun-  
ty, so far as the new Republican  
State Committee is concerned.It should be further gratifying to  
Republicans of Burlington county that  
they have such an efficient and ener-  
getic woman member of the State  
Committee, in Mrs. Elizabeth C. Ter-  
ry, who has entered into her work  
with enthusiasm and understanding.  
In the selection of regional com-  
mittees Mrs. Terry is one of the four  
women representing the South Jersey  
tier of counties, as a separate body  
and also to have membership in the  
general regional committee.

## BEWARE OF INSECTS

Do you know that insects do dam-  
age annually in the United States to  
the tune of between two and three  
billion dollars? That the damage  
they do amounts to a total in excess  
of the total household budgets of  
American homes, with rent or taxes  
thrown in for good measure?In a word, insects literally "eat  
the American public out of house  
and home."While the great annual fire loss of  
the nation amounts to \$100,000,000  
a year, the annual insect damage costs  
between \$20 and \$30 per capita.  
Practically all of this damage is in-  
flicted by invading foreign insects,  
which, comparatively harmless in their  
native habitat, are enormously de-  
structive in this country. At the pre-  
sent time the government has quar-  
antine stations at ports all over the  
country, where all incoming cargoes  
are examined in the search for in-  
coming insect criminals.Thousands of tons of incoming  
merchandise are being subjected to  
vigilant inspection and various fumig-  
ation processes before being per-  
mitted to enter the country. Farm-  
ers, business men and manufacturers  
as well as millions of friendly in-  
sects are engaged in the battle against  
the invaders.Within the home the housewife  
must depend upon her own efforts to  
keep marauding insects at bay. She  
can sweep the fly, take care of the  
roach and get rid of the mosquito by  
sanitation and the use of insecti-  
cides and by fumigation, but she has  
a more difficult job with the moth  
and the carpet beetle. Cedar chests,  
moth balls, moth balls and insecticides  
have all been used with success.  
Another method of prevention is in  
the colorless, odorless shape of liquid  
sprays which render the family wool-  
ens unfit for the moth-worm's con-  
sumption.However, whatever weapons may be  
used, let us all join in a war on in-  
sects. It is a war worth waging!

## "THUMB" TOURISTS

"Thumb hikers," "thumb tourists,"  
and just plain ride beggars are an in-  
tolerable nuisance, in the opinion of  
Keytans Automobile Club of New  
Jersey, which urges all motorists to  
discourage this begging practice by  
the simple expedient of refusing to  
heed the importunities of the walkers.  
"In the early days of the automob-  
ile," says a statement by the Club,  
"it was the exceptional driver who  
failed to offer a lift to the plodding  
wayfarer on the highway. The kind-  
ness of the motorist has been fearfully  
abused. Often his generous act has  
resulted in a clout over the head with  
a blackjack. Times without number,  
he has seen his passengers depart  
with expressions of thanks, only to  
find that they have taken with them  
tools or other articles left on the  
back seat.In other instances he has found  
himself the defendant in a damage  
suit, arising from accidents to the  
car while the "thumb tourists" were  
riding with him.Aside from all this, he now is per-  
secuted at every turn by young and old  
who stand beside the highway, im-  
pudently themselves and seeming not  
to care whether the motorist himself  
is imperiled when he serves his  
car to avoid them.There is hardly a road in the State  
that is not infested with this ride-  
graffing gentry and while it may at  
times seem heartless or unfeeling toCOUNTY HISTORY  
OF 25 YEARS AGOItems of Interest Published in  
Mount Holly Mirror  
July 1, 1903S. Earl Asby has sold his morning  
newspaper route in Mount Holly to  
Walter Shinn, who has charge of the  
Union News Company's stand at the  
railroad station.The degree of Doctor of Divinity  
has been conferred upon Rev. Martin  
Almer, of Franklin, Pa., formerly  
of Mount Holly.George D. Hendrickson left Mount  
Holly for Jersey City on Monday to  
associate himself with his brother,  
Charles E. Hendrickson, Jr., in the  
practice of law.The Marlton Light, Heat and Power  
Company has filed articles of incor-  
poration in the county clerk's office.  
The capital stock is \$10,000; shares  
par at \$40. The incorporators are W.  
H. Zeller, H. B. Dunphy, George W.  
Haines, Clayton H. Byck, C. B. Chew,  
C. T. Middleton, Benjamin H. Bick,  
and William B. Lippincott.The epidemic of smallpox at Bor-  
downtown continues. Thus far there  
have been five deaths. The present  
number of cases is 20. The board  
of health believes it has the situation  
under control and that there will be  
no more new cases.Owing to scarcity of local help, the  
Wall rock works in Beverly has re-  
sorted to Italian laborers from Philadel-  
phia.July 8, 1903  
Mrs. Annie R. Phares, of Jackson-  
ville, charged with murdering her hus-  
band, Constable Albert Phares, by ad-  
ministering strychnine poison, was  
placed on trial last week and found  
not guilty. It was one of the most  
sensational cases ever heard in the  
Burlington county court. Mrs. Phares,  
when on the witness stand, unblush-  
ingly told of her intimacy with Char-  
les Taylor, which the prosecution  
said was known to her husband and  
was the cause of the crime. She de-  
fended administering the poison, and  
declared that her husband had com-  
mitted suicide.Belmont now boasts of a uniformed  
force of two members.A patent for ascertaining fruit has

that is not infested with this ride-  
graffing gentry and while it may at  
times seem heartless or unfeeling topass the walkers, especially in inde-  
cent weather, the car owner should  
reflect on the lessons learned by his  
brother drivers and keep on going.

## Dr. Frank Crane Says

You Can't Hit the High Spots All the Time

A young lady complained to me  
the other day that she had periods  
of depression. There were times  
when life seemed drab and uninter-  
esting. And she couldn't see the  
vision nor envisage of the ideal. Life  
was just a blur.Well, why not? That is the human  
lot and we had as well accept it.  
We are fortunate if we get the  
vision once in a while, if occasion-  
ally we stand on the mountain top,  
backed in the sunlight, and look out  
over the future. Most of the time  
we have to travel through the  
valley of the shadow.In most North temperate climates  
rain is interrupted with sunshine  
and, as the poet expressed it, "into  
each life some rain must fall."Most of our course is to be made  
by dead reckoning. We cannot have  
the vision of the stars always, and  
life is mostly composed of future  
steps taken by faith in the dark.We are fortunate if once in a while  
the clouds sweep away and we can  
glance at the sun.Life is rhythm. It has its ups  
and downs and the best thing we can  
do is to say in the language of the  
old negro hymn, "I'm sometimes up  
and sometimes down, but still my  
soul is heavenly bound."These moments of darkness, these  
uninteresting stretches of our life  
are our real test. Then is shown  
our staying quality and our ability  
to persevere a goal by faith and not  
by sight.We cannot have the glory and the  
ecstasy every moment. We cannot notstand it. He must get his feet  
down to the ground once in a while  
and just plug along.We have the comfort of knowing  
that nothing lasts forever and if our  
mood is depressed after awhile it will  
pass away.We cannot hit the high spots all  
the time.Converts begin their religious life  
usually in a blaze of enthusiasm.  
They are keyed up to a high pitch  
and undergo an emotional ecstasy.It is afterwards that the test  
comes. They are required to take  
up the affairs of daily life, which  
are perhaps humdrum and uninter-  
esting. This grave emotion, but  
emotional is an occasional experience  
and not permanent. In their daily  
life there must be a steady applica-  
tion of the truths they have  
learned in these rare moments of  
ecstasy.In quitting a bad habit very often  
we make a vow to sign a pledge  
in a moment of enthusiasm which  
is very hard to keep in the suc-  
ceeding days of weakness.The best moral quality is the  
quality of stick-to-it-iveness, the  
quality of hanging on and doing  
right when there are no drums  
beating us on to hours blowing.So in the marriage relation, we  
must begin in a burst of love and  
violent affection what must be kept  
up through days of perhaps uninter-  
esting details.So the Bible tells us that it is  
the overcomers who shall be given  
the reward.

FARMERS AND ORGANIZATION.

REAL MONEY.

THROW OUT AMBITION?

SOUND IN MOVIES.

Flour manufacturers, including  
Washburn-Crosby and Red Star, or-  
ganized a \$50,000,000 combination,  
largest flour milling concern in  
the world.That's in the line of modern meth-  
ods, big units, small overhead, power-  
ful marketing.This news will interest farmers  
and make them wish somebody could  
show them how to organize. The  
first thing, and absolutely necessary,  
is to organize and identify methods  
of production. And old-fashioned  
blacksmith could not compete with  
a modern automobile factory.Childish talk of "necessary com-  
petition" and practice about keeping  
business from getting too big are out  
of date.Where nations combine to monopoli-  
ze world business, great American  
units must combine for self defense.  
Possibly some one will find a way  
to help our farmers form such a  
combination. They need it.The French settle down courage-  
ously to the drastic new money  
rule. Four-fifths of its value is out  
from their money as a result of the  
war WHICH THEY WON. They face  
the situation bravely.In place of paper money, mean-  
ing little to the peasants and working  
people, the French will again use  
gold and silver coins in circulation.The grosse piece, size and weight  
of our silver dollar, will not come  
back. For five years before the  
war, it would be worth twenty-five  
francs now. But ten-franc silver  
piece worth forty cents will be  
collected, and the French will feel  
that they are working for REAL  
MONEY.Stabilizing the franc is a boon to  
all Europe, ending financial disorder  
that has lasted ten years.It is a great achievement by Poin-  
care, worthy successor of Thiers,  
Turgot, Recker, Bully, and a long list  
of brilliant French statesmen.Sir James Harris tells Rhodes  
scholars not to try for "greatness."  
The advice was humorous, probably.  
Trying for greatness produces desir-  
able mediocrity. Men "aim high to  
shoot low" as the favorite colored  
man said when he asked Crover  
Cleveland to make him Librarian  
of Congress. He really wanted a job  
as porter.A baby cries for the moon and  
is satisfied with a corky. Youth  
craves for greatness and is content  
with modest achievement and a  
place on the golf course.Winfield R. Sheehan, who knows  
about moving pictures, says screens  
will be much bigger for large sized  
theatres. Now, building everywhere.  
That will make it necessary to revise  
production methods.Most important for budding genius,  
he says the "talking movie" will cre-  
ate a new army of scenario writers,  
knowing how to make sound effective  
in pictures.In a detective story, noise of a  
creaking board, or a shot, might be  
more effective than the hero's smile.  
Mr. Sheehan believes that the  
pictures with sound will double the  
moving picture attendance.In New York's brutal dancing  
contest—the dance to go on until  
all but one couple drops—the female  
dancers, nervous, exhausted, slap  
their partners' faces. Then the men  
slap the women's faces vigorously.  
The yahoos, called "fans," looking  
on, shriek with delight, as the half  
cracked dancers strike each other.  
It is a far more imitation of the  
Roman arena.SUNDAY  
School Lesson

International Sunday School Lesson for July 15

THE CONVERSION OF SAUL

Acts 9:1-18

Rev. Samuel D. Price, D. D., Associate General Secretary of the World's  
Sunday School AssociationLife's entire viewpoint can be  
changed in a moment and all that  
remains in years is lived accordingly.  
It was just that way in the case of  
Saul of Tarsus who has been so ar-  
dent in persecuting the Christians in  
Jerusalem and vicinity. When Saul  
was being stoned to death for his  
declaration of faith in Jesus, the  
recently created Jew who claimed  
that he was the Messiah, Saul was  
involved. Persecutions caused the  
members of this new faith to be scat-  
tered in many directions. A colony was  
assembled in Damascus and Saul was  
commissioned by the Sanhedrin in  
Jerusalem to proceed there, arrest  
the agitators and bring them back  
in chains, if necessary, for trial.During the 140 mile journey north-  
ward Saul had time to develop his  
plans, but they were never put into  
execution. When in sight of Damas-  
cus glory was manifested from heav-  
en, just as when the Shechinah was  
with the Israelites during the forty  
years in the wilderness. The scene  
of Damascus revealed itself to Saul  
who was blinded by the light. The  
until recently strong man who was  
causing consternation to those in the  
city became helpless as a child and  
needed to be led by the hand into the  
city. He had much more to think  
of now than during the long trip  
northward for Jesus had talked  
with him, and his question was  
raised, "Who art thou, Lord?"Events directed by the Lord have  
their interrelationships. A vision and  
a message came at about the same  
time to Ananias of Damascus in-  
structing him to seek out this Saul  
and give him needed friendship and  
instruction. After being convinced  
that there was no longer any need  
to fear this man who came with an  
armed guard to make trouble, Ananias  
came with a friendly outstretched  
hand and another miracle was per-  
formed as the words were uttered  
"Brother Saul, receive thy sight."Portentous and totally different life  
was lived by this extremely strong-

## RIVERTON ITEMS

The registrar of vital statistics re-  
ports for the month of June: 1 birth,  
3 deaths and 8 marriages.Mr. and Mrs. Walter Armstrong  
and daughter are at Beach Haven.  
Mrs. Alfred Gorman, of Seventh  
street, entertained the Auxiliary of  
the I. O. O. F. at her home Tuesday  
evening.Mr. and Mrs. John Hilson enter-  
tained on the Fourth: Mr. and Mrs.  
John Whitaker and son, of Merchant-  
ville; Mr. and Mrs. Percy Hillson, of  
Chester; and Mr. and Mrs. George W.  
Harris, of Riverside.Mr. and Mrs. William R. Hoffman  
and William Evald spent the weekend  
at Ship Bottom.James Flynn, of Thomas avenue is  
having his house remodeled into  
an apartment house.Harry Burns, Raymond Bradshaw,  
Curtis Flynn and Horace Richmond  
motored to New York on Sunday to  
see Mr. and Mrs. Harry Sims and  
daughter, Betty, sail on the S. S.  
Aquitania for Europe.Mr. and Mrs. Charles Cook and  
Mr. and Mrs. B. C. Cook and family,  
motored to Allentown, Sunday and  
were the guests of Mr. and Mrs. Harry  
Heimbach.B. C. Cook and daughters, Anna  
and Mildred will leave Friday for a  
trip to Buffalo, Niagara Falls and  
Covington.Dick Moore, Arthur Hartley, and  
Weston Blaser, spent last week in  
Mount Vernon, New York and will  
spend this week in Peekskill, New  
York.Miss Helen Reer, daughter of Mr.  
and Mrs. J. L. Reer left on the 30th  
for an extended trip through the  
West. She will visit Yellowstone,  
Yosemite, and Jasper Park, Miss Reer  
will tour through the Canadian Rock-  
ies and California and the Catalina  
Islands.Mr. and Mrs. J. Russell Jermon  
and daughter, Doris, and Mrs. Brown,  
motored to Seaside Heights on Sun-  
day.Mrs. D. H. Truchess spent the  
weekend as the guest of her daughter  
in Merchantville.Miss Mabel Adams, of Philadelphia,  
is spending two weeks with Dr. and  
Mrs. James E. Brown, Dr. Brown  
moved from Palmyra to his new prop-  
erty 418 Linden avenue last Friday.Mr. and Mrs. J. W. Sylvester visit-  
ed relatives at Morris Plains on Sun-  
day.Miss Helen Becker and brother,  
Charles Becker returned Sunday after  
spending a week at Ocean City.J. A. Smith and family, of Seventh  
street, and Mrs. Alfred Smith spent  
last weekend at their cottage at  
Seaside Heights. Today (Thursday)  
they will leave for a three week's  
vacation.The boys at Camp Ochanickon, the  
YMCA camp at Medford, from Riv-  
erton this week are Ed Hahn, Claren-  
ce and "Whitey" Hulse, Arthur  
Hansen, Frank Alloway, "Pat"  
Walker, Barclay and Charles Woolton.  
John B. Watson purchased a Nash  
sedan from Taylor's Garage.Mrs. Dixon C. Taylor and children  
have moved to Plymouth, Mass.,  
where Mr. Taylor has been for sev-  
eral months.Mr. and Mrs. Samuel Jones and  
sons, of Plainfield, visited their parents,  
Mr. and Mrs. C. W. Kipp, from  
Tuesday until Sunday.Mr. and Mrs. Kenneth Davis and  
son, and Mr. and Mrs. Melvin Davis,  
of Palmyra, visited relatives at Deer-  
field on the Fourth.Mrs. F. A. Tompkins, 101 Main  
street, returned home Monday eve-  
ning, after spending a few days in  
Washington, D. C.Mr. and Mrs. C. H. Yost returned  
last Friday from Ocean City, where  
they spent three weeks.Mr. and Mrs. Casper Hughes Pad-  
more, of West Chester, Pa., are re-  
ceiving congratulations on the birth of  
a daughter, Charlotte Dale Padmore,  
July 6.Miss Florence Lochowite and Ru-  
dolph Back, of Riverside, motored  
to Atlantic City on Sunday.Anna May Wolfshmidt, daughter  
of Mr. and Mrs. Emerson Wolf-  
shmidt, was operated on for tonsils  
at the Zurling Memorial Hospital,  
Riverside, Tuesday. The little pa-  
tient returned home Wednesday.Ralph Whitel and Jane Wiley mot-  
ored to Atlantic City on Sunday.HURT WHEN CAR SKIDS  
Two Philadelphians, Andrew Re-  
petto, 499 North Fifty-first street, and  
William Blane, 451 North Forty-first  
street, had a narrow escape from seri-  
ous injury when their car left the  
road and turned over on the Turn  
Brown road between Riverton and  
Moorestown, Tuesday night, after just  
missing a pole by the roadside. Both  
men were out and badly shaken up.  
Their injuries were dressed by Dr.  
Harry L. Rogers, of Riverton.Word of the accident was brought  
to Riverton by a young woman mo-  
torist who passed that way soon after  
it happened, and Officers Miller and  
Groves went out and brought the  
men in for treatment.SENATOR ROBERTS HONORED  
Former Senator Emmor Roberts, of  
Moorestown, was shown vice-chair-  
man of the committee at the Friends  
General Conference held at  
Cape May on Tuesday of this week.It was very natural and an act  
of obedience for Saul to seal his new  
convictions in the rite of baptism.  
This was done forthwith. In later  
years when Paul wrote a letter to  
his young friend Timothy he gave a  
general declaration of his working  
principles in the words of the Golden  
Text for today: "This is a faithful  
saying, and worthy of all acceptance,  
that the Gentiles who have entered the  
world, be ready to learn, be slow to  
anger, 1, Timothy 1:18."Thus a life was founded. During  
the rest of the year we will follow  
through the experience of this apostle  
to the Gentiles who, in carrying on  
his great work, made four long mis-  
sionary journeys.F. A. STOKER, BOND CO.  
Usal H. McCarter, president of the  
Fidelity Union Trust Company and  
Thomas H. McCarter, president of  
the Public Service Corporation of  
New Jersey, issued a statement Fri-  
day confirming the prevailing rumors  
of the organization of a block and  
bond company by the two above  
mentioned corporations, which com-  
pany is to be known as the Fidelity  
Union Block and Bond Company.The purpose of the corporation  
about to be formed is to deal in all  
classes of securities, underwritings,  
and to do a general dealer and  
brokerage business.GREETING  
CARDS  
Beautiful in design  
and sentimentPost Cards of Borough  
ViewsL. L. KEATING'S  
Broad and Main  
RivertonINTERESTING MEETING  
AT POST RODGERSA meeting of unusual interest to  
members of Post Rodgers, American  
Legion, was held in the Post rooms  
on the evening of July 2.This was the regular monthly meet-  
ing and in addition to routine busi-  
ness events of special interest were  
discussed. Clint Gibson was appoint-  
ed chairman of a committee to work  
with the Auxiliary on the picnic and  
outing to be held at Greenock Park,  
Saturday, July 21. For further details  
see Clinic.Rex McCrosson and George Truman  
were appointed delegates to attend  
the state convention at Bridgeport in  
August. George Weiland and Ted  
D'Aurechy were named as alternates.A very fine report was received  
on the results of the cake sale held  
recently. A resolution was passed in-  
creasing the dues for the coming  
year from \$2.00 to \$2.50.

STOUT CHANGES ADDRESS

In the future Charles R. Stout,  
road director of the Burlington  
County Board of Freeholders, will  
not have to go all the way into Flor-  
ence to get his souvenir post cards,  
Christmas cards, bills and things like  
that. Uncle Sam has arranged to  
have them at his front gate, and in  
so doing has made Burlington Mr.  
Stout's mailing address.From now on all the letters to the  
road director will be addressed to  
"Burlington, N. J., R. F. D. No. 2,"  
instead of "Florence, N. J."Mr. Stout lives on a road that leads  
from Florence to Burlington. Being  
some statistician he figured he has  
lost many thousands of miles in auto  
trips in going to Florence for his  
mail. Consequently he has had a  
post with a tin hat erected in front  
of his house and from now on one  
of the Burlington rural free delivery  
carriers will carry mail to the pop-  
ular Freeholder's home.GOV. MOORE TO SPEAK AT  
FARMERS' PICNIC JULY 23The committee that is arranging the  
farmers' picnic to be held at the alms-  
house farm, New Lisbon, on Wednes-  
day, July 23rd, is composed of C.  
Craig Talbot, Columbia chairman;  
A. J. Roberts, Moorestown; Harold  
Joyce, Medford; H. C. Hancock, Ju-  
luster; and T. Sherman Borden,  
Beverly.Governor Moore has ac-  
cepted an invitation from the com-  
mittee to be present and be the speak-  
er of the day. There will be at least  
one other good speaker on the pro-  
gram. Arrangements for the other  
activities for the day have not been  
completed, but will include some  
sports events, and possibly some ex-  
hibits.When a speaker's stand collapsed  
members of the band fell on Senator  
Heflin. A warning to politicians who  
won't stay on the band-wagon

Our New

## PERMANENT DEN FOR LIONS CLUB

Service Men to Rent Hall for Scene of Many Activities

The establishment of a permanent den will be the next step in the progressive program now being worked out by the Lion's Club of Palmyra and Riverton under the direction of its new president, Frank A. Kates, Jr.

Arrangements have been made and approved for the use of the large room on the first floor of Society Hall which will be altered and furnished to take care of the proposed activities.

The new den will be large enough to seat more than one hundred people at dinner and will provide facilities for the rehearsals of the annual "Lion's Roar" and for social gatherings of members of the club.

**President's Letter**

The plans of the organization to make itself a real power for good in the community are discussed in detail in the following paragraphs taken from the "President's Letter" to the club, which was read at the first meeting presided over by the new chief.

"During the year just ended, this club set itself up as being a 'getter' and a 'good-doer' organization. A survey at this time of the things we did is not necessary because we know what they are. However, the aftermath of one of our undertakings stands out as a guiding light, and in my estimation, is pointing the way to our club to become the leading factor among community activities especially as they pertain to the young people."

"Besides our work and interest in the Welfare Association of Palmyra, Riverton and vicinity, I hope to see the club activities include—First—The encouragement of existing talent in the young people of this community; Second—The sponsoring of a community musical organization, either band or orchestra, under the leadership, where those in our vicinity can receive the musical advantages of the orchestra or band membership; Third—Some organized endeavor among girls between the ages of 12 and 17 years, which does not conflict with other work now in force by any group; Fourth—The formation of a File and Drum Corps for boys between the ages of 12 and 17 years."

**Encourage Local Talent**

"Measures have already been taken to encourage the existing talent among our young people and I feel that your Entertainment Committee will shortly prove to you that we have plenty of talent available. The Executive Committee sanctioned the appointment of a committee to look into the Orchestra and File and Drum Corps idea and I feel confident that details regarding this will be placed before you very soon."

"These suggested activities naturally lead to the consideration of a permanent den for the Palmyra-Riverton Lions Club, where our club can offer facilities to the ideas we sponsor. Such a place should be large enough to seat at least 100 people at dinner; to take care of rehearsals for our yearly stage attraction; to provide space for 50 or 60 boys to practice as a File and Drum Corps; to furnish space for a community orchestra's rehearsals, and last, but not least, to give to the members of our club facilities for social gatherings."

**Permanent Den**

"Let us say here that at the Convention at Asbury Park it was stated that three clubs, all in small towns, had permanent dens and all these clubs had activities that made the larger cities feel ashamed. The club

## STANWICK, HARTFORD AND MARLTON STATIONS CLOSED

Following its general policy of retrenchment where services given are not warranted on the basis of financial return or convenience, and in accordance with application made to the Public Utility Commission, the Pennsylvania Railroad Company has been granted permission and has discontinued station agents at Stanwick, Hartford and Marlton stations.

In these two cases the railroad officials showed to the satisfaction of the Commission that the absence of agents would bring no public inconvenience, and nothing was prevented to indicate the contrary.

The West Jersey was given permission to close Marlton on the same basis.

At Highlands, N. J., has taken an old skee ball alley and fixed it up for their meeting and activities center. The club among other work last year, raised \$10,000 for a memorial Parkway in its town. The citation of these clubs is intended to show that it can be done.

"It is my hope that our club will so firmly root itself in this community through its service work that those about us will say of us—'They certainly are go-getters and good-doers.'"

**Committees Appointed**

The following committees will serve during the year 1928-29:

**Membership:** Chairman, P. J. Kelly, Curtis Stavelly, Augustus Weber.

**Entertainment:** Frank Mathews, Merle Schaff.

**Constitution and By-Laws:** Chairman, Dr. H. Bauer, Frank Mathews, Dr. Charles Voorhis.

**Welfare:** Chairman, George Wimer, Dr. Francis Voorhis, Dr. Charles Voorhis, Dr. H. Bauer, Dr. W. H. Dunn, Fred Lippincott.

**Ways and Means:** Chairman, Curtis Stavelly, William Lynch, Benjamin Rieley.

**Property:** Chairman, James Patton, John Etris, Elwood Sawyer.

**Sports:** Chairman, Frank Chambers, Dave Schwartz, John Etris.

**Publicity:** Chairman, Edwin Lee, Raymond Warner, Frank Chambers.

**Educational:** Chairman, Rev. W. E. Howard, Dr. Charles Voorhis.

**Finance:** Chairman, A. Buell, William McCann, William McAllister.

**Officers:** President, Frank A. Kates, Jr.; Vice-President, Gus Weber; Treasurer, William A. McCann; Secretary, Raymond Warner; Lion Tamer, Dr. H. Bauer, and Tall Twister, Merle Schaff.

**BALTIMORE BLACK SOX TO PLAY AT PALMYRA**

Famous Colored Nine to Oppose Community Movement Team

The Baltimore Black Sox, crack colored team, will oppose the Palmyra baseball club in a game to be played on the Community grounds tonight (Thursday) at 6:15.

The Black Sox are rated as one of the best in the country and will be well worth seeing. The Palmyra team will present its strongest lineup and a real ball game may be expected.

The Sox have scored victories over many of the strongest teams in this section of the country and come here expecting to continue their winning streak. Come out and root for the local boys.

Texas wanted Jones as a candidate for vice-president. A case of trying to keep up with the Smiths.

President Coolidge is only 56, and he hasn't said he does not choose to run in 1932.

## Vacation Time and DURANT

The smooth obedient power, alertness, positive brake action, finger-tip control, economy of operation—and most of all—Riding Quality Supreme—will add much to the pleasure of your trip.

Let us demonstrate.

## HOLY CITY SCENES ODD TO WESTERNER

Visitor Must Remember It Is an Oriental Town.

The first impression which Jerusalem makes upon the visitor depends largely on the visitor's previous familiarity with oriental towns. If he comes fresh from western scenes and customs and here for the first time looks upon the East he will find many strange sights, sounds and smells to which to adjust himself. Some will shock him.

The uncleanness, the negligence of sanitation, the acceptance of filth and vermin as a matter of course; the appalling poverty, blindness and disease; the shrewish, sordid, beggarly that beset the streets; the shameless begging, aided by all the pit-producing artifices that can be devised; the bizarre marks of racial and religious distinction, such as the straggling, uncut forelocks of the Polish Jews or the knotted-back hair of the Greek priests—scores of such things will smite his eyes and nose.

If he is incapable of overpassing these strangenesses he may as well return where he can feel the congenial familiarity of Broadway anywhere. If, however, he has learned to look with generous eyes on all sorts and conditions of men he soon will see light upon Jerusalem. The conditions as to sanitation are infinitely better under British rule than they have ever been before, and they are constantly improving. Anyway, the idea that cleanliness is next to godliness is western; in a country like Palestine where, even in Jerusalem, there is barely enough water to drink, it is a bit absurd; and admirable personalities can develop under conditions where such an idea is as yet an unrealized ideal.

As for happiness, there is probably as much per capita in Jerusalem, or even in these poverty-stricken, mud-brick Arab villages, with all their sorrows, as there is in the city of New York.

In the end even the traveler who at first is shocked discovers the real Jerusalem. Its narrow, winding, cluttered streets; its thronged bazaars packed along the traffic ways or crowded under colonnades built by Crusaders to house pilgrims; its endless riot of color in costumes that represent many faiths and races; its fascinating amalgam of strange faces, strange animals, strange clothes and strange accents—all these fill the eye until the Strand or Fifth Avenue seems by contrast very dull, drab, standardized and monotonous.—Dr. Harry Emerson Fosdick in the Ladies' Home Journal.

**On the Watch!**

A bank in Portland, Maine, has applied the well known principles of the police for the protection of its underground vaults. A long tube has been built into the outer wall of the building, one end of it terminating in a mirror facing the door of a big safe down in the vault, and the other in a similar mirror at shoulder level above the street. A policeman or other guard, patrolling the sidewalk in front of the bank, peers occasionally through a narrow peephole in the side of the building, so that he can observe the whole scene in the cellar vault, explains Science and Invention Magazine.

Electric lamps and reflectors illuminate the vault so that the policeman above can see everything clearly. Any obstruction placed in front of the mirror in the cellar immediately betrays the presence of intruders.

**Bacteria in the Movies**

Deadly bacteria took their turn as movie actors in amazing films recently exhibited by Dr. H. J. Gerstenberger of Cleveland. "Cold light," developed expressly for this form of cinematography, made possible his remarkable pictures, according to Popular Science Monthly.

"Motion pictures of bacteria hitherto have been impossible because the intense heat of the ordinary moving picture light source instantly killed all germs in its path. In taking the new pictures, a current of ice water was arranged to flow beneath the glass slide bearing the living bacteria, to filter out the heat from the powerful light."

**Big Event**

Harry Pollard, who is directing "Uncle Tom's Cabin," had called for several hundred colored people for one of his big scenes. When the time for shooting arrived, and the dozen darkies had put on an appearance, "Where's the rest of the bunch," asked the perturbed director.

"Reckon dey couldn't resist 'em" to dat big dance we done heered about," said Hattie uneasily.

"What dance? Where is it?"

"Ah don't jes perazny know, but we done heered two trains was gwine to Charleston."—Los Angeles Times.

**School Has One Student**

Mrs. Helen Castle constitutes the faculty and Helen Chesbrough is the student body of the Elk Mountain (Wyo.) high school. Last year, when Helen was in the eighth grade, Elk Mountain had no high school. After her graduation, the school board, composed of Helen's parents and one other person, decided to move for higher education. They abolished the grammar school and established the high school. Wyoming has more than 200 one-year and two-year grammar schools, but this is the only one-student high school.

**WHAT—ANOTHER BOOK?**

The books in the Congressional Library, and in the public library at the City of Washington, and in the various other libraries have recently been surveyed by the District of Columbia Library Association and it has been found that there are more than 10,000 volumes in the libraries. Still, some people think they ought to print another book.

**AMERICAN MACHINERY**

More than \$50,000,000 worth of industrial machinery was shipped to Europe in 1927, representing an increase of 20 per cent of such exports during the year. Evidently Yankee inventions are in high favor in the Old World, as our out-going ships are filled with machinery to be set up in foreign manufacturing establishments.

Our trade with Latin America has also moved upward, and it amounted to \$55,597,000 in 1927, which was a gain of more than two and one-half million dollars over the previous year. Cattle moved from ninth place to fourth last customer of the United States last year.

## Husband Selected Poor Theme for Kind Words

We walked into a little East side grocery store, my companion and I, and heard the sound of raucous quarreling. The proprietor and his wife were glaring at each other across the counter, but they abandoned their sharp words momentarily, upon our entrance.

"I'll just leave it to these people here," she told her husband, flourishing an arm in our direction. "We've been married seven years and in all that time he's never said a kind word to me tonight. And now—yes, this is his idea of kind words, listen—he comes in and tells me I done well in ordering his shipment of clean potatoes."

"Well," the husband asserted, sullenly, "you did."

"Sure I did!" his wife returned. "And for seven years I been dressing the way you liked and doing everything you wanted me to do, and keeping house the way you wanted it kept, and now the first time you show any appreciation you thank me for ordering clean potatoes!"

But, my goodness, we thought, as we got outside the store and the hysterical voice of the ill-treated wife was left far behind, how like life that is! And how many times we get thanked for just such dumb things as "ordering clean potatoes," when our really worthy achievements are overlooked.

I don't doubt that seven years of marital strife do a lot toward stilling the desire to bestow mutual compliments, but it seems a pity that such a state of affairs has to exist. I suppose, for instance, that this storekeeper's wife would have swooned with joy had her stern-visaged husband remarked in an offhand manner, "Seems to me you look awfully pretty tonight in that dress." But no—he would pick on the potatoes.—Cleveland Plain Dealer.

**Diplomatic Magnate**

A theater magnate of the west coast has won the reputation of being a great diplomat and a smart politician on account of the friendly meeting and entertainment provided for all visiting dignitaries. The magnate, of any consequence in the film industry who enters his office will find a picture of himself or herself in a neat gold frame on the theater magnate's desk. The magnate has worked out the following system for putting himself in the good graces of important callers: He has in his private office a complete file of photographs of all the leading movie people. When any one of several hundred stars calls and is announced from the outer office, a quick selection of pictures is made. As the star walks into the inner sanctum his own picture is prominently placed on the desk of the magnate, who boasts of never having any friction with the temperamental film artists.—The Outlook.

**Strength of Rings**

Some elaborate calculations backed by experiments have been made to determine the "breaking strength" of rings. It appears that a ring of ductile metal, like malleable iron will be pulled out into the form of a long link before it breaks, and that the ultimate strength of the ring is virtually independent of its diameter.

Fracture finally occurs as the result of almost pure tension, and the resistance to breaking is a little less than twice that of a rod of the same cross-section subjected to a straight pull. As the ring increases in diameter there appears to be a slight approach toward equality, with double the strength of a bar. Thus a 3-inch ring made of three-quarter inch iron broke at 19½ tons, a 4-inch ring at 19½ tons and a 6-inch ring at 20 tons, the strength of a bar of the same metal being 10½ tons.

**Few Actresses Rich**

Although many actresses make huge salaries during their careers, most of them do not have the necessary foresight to lay any of it away for the inevitable "rainy day," points out Bill Burke, the well-known former actress. In an interview with Miss Burke, Liberty Sidney Sutherland reports her as saying:

"Many actresses have made enormous sums and died penniless. They play the stock market," she explains, "usually on a tip whispered by some friend in Wall Street; they invest foolishly in real estate; they purchase wildcat stocks in mines and oil fields; they spend huge sums on jewels and clothing and travel. And some have a boy friend. This last investment is a sure one—and you can't go to a bank and borrow very much on great mortgages, which are about all this investment brings."

**House of Sinister Mystery**

The little villa at Gambala, France, where Bluebeard Landru murdered and burned at least five of the eleven wives for whose deaths he went to the guillotine in Versailles, is falling into ruins. Nobody wishes to live in the place of gruesome memories and the proprietor refuses to go to the expense of demolishing it. Tourists traveling to the neighborhood sometimes desire to look over the place, but they are not permitted to enter. Automobiles turn their eyes for a few seconds from the road ahead to look at the grim dwelling. The villagers who know Landru slightly do not believe that the middle-aged bearded occupant of the villa can possibly have been guilty of the frightful series of crimes for which he suffered the death penalty.

## MOORESTOWN

Mr. and Mrs. Collins B. Rogers and family, of Colonial Ridge, have opened their cottage at Ocean City for the summer months.

Mr. and Mrs. Donald Rogers, of Valley View Terrace, are enjoying a sojourn at Ocean City.

Mr. and Mrs. John H. Heaton and daughter, Miss Eda Heaton, of Colonial Ridge, are spending the summer at their cottage in Island Heights.

Mr. and Mrs. William B. Stevenson and family, of Valley View Terrace, are in Ocean Gate for the remainder of the summer season.

Mr. and Mrs. L. J. Heulings, of Pleasant View, are spending the summer at their cottage in Island Heights.

Mr. and Mrs. Thomas W. Elkinton and family, of East Maple avenue, have closed their home and gone to Seaside Park for the summer.

Mr. and Mrs. Henry B. Cole, of East Main street, have opened their cottage at Seaside Park, where they will spend the summer season.

Mr. and Mrs. J. Warner E. Love and family, of East Oak avenue, are spending this month in Avalon.

The regular monthly meeting of the Moorestown Community House Association will be held this (Wednesday) evening, promptly at eight o'clock, in the Community House.

Members of the Association are urged to attend.

The speaker at the Community Service Sunday evening will be William F. Overman. These services are being held Sunday evening at 7 p. m. during the summer in the rear of the Friends' Meeting House.

Henry B. Cole, Jr., of East Main street, accompanied by a college chum, Malcolm Longshore, of Swarthmore, Pa., are enjoying a summer's trip by automobile to the Pacific coast and northwest. They are camping en route.

Members of the local American Legion Ladies Auxiliary have been invited to attend the regular meeting of the Burlington County American Legion Auxiliary, which will be held at St. John's Parish House on Linwood avenue near Forkland road, Maple Shade this Friday afternoon, July 13.

Officers of the local auxiliary include Mrs. Joseph J. Davidson, president; Mrs. Edna E. Davidson, secretary; Mrs. Jesse E. Atkins, treasurer; Mrs. Isabella McKell, chaplain; Mrs. Evelyn Wurst, historian; Mrs. Violet Thomas, clerk-at-arms; Mrs. F. Nelson Malins, chairman, sick and relief committee; Mrs. Emma Shreve, chairman, entertainment committee; Mrs. Edna E. Davidson, publicity chairman.

Miss Emma Oldershaw, of South Church street, is enjoying a three weeks' vacation at West Palm Beach.

Mr. and Mrs. Henry H. Blies and family, of East Main street, motored to Ocean City Sunday.

Miss Anna M. Groom, of Chester avenue, is expected home tomorrow (Thursday) from Cape May, where she has spent the past week attending the Cape May Friends' Yearly Conference.

Mr. and Mrs. W. F. Middleton and family, of Fairview avenue, spent Sunday in Ocean City.

Mr. and Mrs. J. Raymond Olthoff, of South Church street, motored to Ocean City Sunday.

Mr. and Mrs. Aaron Stratton, of East Third street, motored to Atlantic City, Fourth of July.

Mr. and Mrs. Philip Gray and family, of South Washington avenue, James T. Fitzgerald and Miss Celia Fitzgerald and Miss Anna Barr spent Sunday in Seaside.

Paul Shinn was a recent guest at the Westcott Hotel, Ocean City.

William T. Wilkins, Jr., has purchased properties at 2038 West avenue and 2818-2818 Central avenue, Ocean City.

Robert Plum, son of Mr. and Mrs. George C. Plum, Camden avenue; Robert Morley, son of the Rev. Frederick B. and Mrs. Morley, East Second street; and Robert Powell, son of Mr. and Mrs. W. F. Powell, Valley View Terrace; and Thomas Rockenbach, son of Mr. and Mrs. Henry P. Rockenbach, West Central avenue, are enjoying a week's vacation at Camp Obachickon.

John Leo, choir leader at the Methodist Episcopal Church is enjoying a three weeks' vacation. Miss Helen Derrick, of East Second street, is taking his place during his absence.

Mr. and Mrs. Norman Andrews and son, of Florida, are spending some time with Mr. Andrews' parents, Mr. and Mrs. Clayton L. Andrews, of Moorestown.

Mr. and Mrs. E. M. Andrews, of South Church street, are enjoying a sojourn in Ocean City. They are registered at The Southern.

Members of the Arctura Club of the Mystic Chapter, Order of Eastern Star, will enjoy a picnic at the cabin of Mrs. Frank Combs, Jr., on the Rancocas creek, Saturday, July 21.

Mr. and Mrs. Walter Carson and daughter, Miss Helen Carson, of the Carson, of East Main street, left Friday for Island Heights, where they will spend the summer at their cottage.

Mrs. Joseph Reed, of East Main street, left last Thursday for Asbury Park, where she will spend the summer season with her son, Irving Reed, and family.

William Woodward, of East Second street, spent Fourth of July with George Woodward and sister, of Collingswood.

Miss Josephine Juliana, daughter of Mr. and Mrs. Joseph Juliana, of 2811 street, who has been in the convent of Our Lady of Angels, Glen Riddle, Pa., for several months, received the white veil at the exercises held at the convent last Thursday morning. Sixty-one other sisters received the white veil at the same time. Miss Juliana is now Sister Mary Marcia.

Mr. J. M. Southwick, of East Second street, left last week for Detroit, Michigan, where he will enjoy a six weeks' visit with friends.

The Misses Margaret and Helen Polly, of East Main street, motored to Seaside Fourth of July.

Miss Anna Spear, of South Washington avenue, left last Thursday for Columbia University, New York, where she will take up a six weeks' course.

Mrs. John Alden and two sons, of West Third street, are spending this month at Ship Bottom. Mr. Alden joins his family over the weekend.

William F. Overman, No. 42, American Legion, and its ladies auxiliary will hold their annual picnic Saturday, July 29, at Brown's Mills. Members of the Post and auxiliary and their families will meet at headquarters, Third and Elm street, at 1:30 o'clock.

Members of the Epworth League of the Methodist Episcopal Church will hold a social business meeting at the Church tomorrow (Thursday) evening at 7:30 o'clock, after which they will enjoy a hike.

Shaffer-Davis Motor Company gives full details of the new Chrysler "Plymouth" model in its advertisement in other columns of this issue.

Charles W. Stokes and family, of Haddonfield road, are spending the summer at their cottage in Island Heights.

Mr. and Mrs. George B. Ferrier, Jr., and daughter, of Valley View Terrace, are spending the summer at their cottage in Seaside Park.

Mr. and Mrs. E. E. Thresher and family, of East Central avenue, are spending the summer at their summer home in Randolph, Vermont.

Mrs. Elizabeth H. Riche, of East Main street, is spending the summer in the Poconos.

Judge and Mrs. Joseph H. Oaskill, of Chestnut street, returned home last Friday evening on the U. S. S. Aquitania from a two months' trip abroad. Mr. and Mrs. Oaskill spent three weeks in France and three weeks in England. While in France they enjoyed a week's motor trip through western France, and two weeks in Paris. They spent a week motoring through southern England and were in London for two weeks.

Mr. and Mrs. Fred P. Smith, of Second and Church streets, are receiving congratulations on the birth of a baby girl, eight pounds and four ounces, born Saturday evening.

Mrs. Edgar L. Sanford entertained as a luncheon and bridge at her home on High street, Monday afternoon.

Samuel L. Allen, 2nd, son of East Oak avenue, and Saturday, June 30, for Europe with a party of friends, who will attend the peace conference at Brussels. While abroad they will attend the Olympic games at Amsterdam and tour England, Holland, Belgium, France, Switzerland and Germany.

Miss Charlotte L. Wild, formerly of Moorestown, was graduated from Mount Holyoke College this year. Miss Wild will be an assistant in the zoology department of Barnard College, N. Y., next year.

Miss Edith Herr, of East Main street, is visiting Mrs. Anson De Vout, of Chicago, who will be remembered as Miss Alice Lippincott, of Moorestown. Miss Herr, who is accompanied by Miss Ruth Hopper, of Glen Rock, N. J., took a motor trip to Chicago. They will be gone about a month and will return by way of the Great Lakes.

Miss Martha Roberts, daughter of Mr. and Mrs. Horace Roberts, of South Church street, is attending summer school at the University of Wisconsin, Madison, Wis.

**The Churches**

The First Lutheran Church  
Rev. William M. Ehrhard, pastor  
Sunday School at 10:00 a. m.

Report of the Condition of  
CINNAMON

## BUILD CATHEDRAL BY NEW METHODS

### Cutting Stone for Great Structure in Washington.

Washington.—Modern machinery is proving a valuable aid to the ancient art of the mason in the construction of the national cathedral on Mount St. Albans here. The Protestant Episcopal Cathedral foundation expects the building will be completed within the next five years.

It will be a massive Gothic structure comparable to the finest of the cathedrals of Europe. Generations of artisans toiled on such edifices in the Middle Ages, but this one is being manufactured speedily.

In a stone cutting plant purposely established at Bethesda, Md., 45 tons of stone are produced daily from huge blocks of Indiana limestone. The stone is cut, planed and shaped at the plant, then transported to the cathedral site, where master masons fit them together like pieces in a giant jig-saw puzzle.

The stones for Solomon's temple likewise were prepared for the masons away from the temple site. But Solomon's wisdom did not furnish the machinery and mass production methods which are expediting the work on Mount St. Albans.

The 100 men employed in the Bethesda plant cut more stone every three weeks than the same number of skilled men could cut by hand in a year. The work of the master masons, however, is much as it was in Solomon's time.

Four drafting and five mechanical operations are required for the production of each stone. After the architect determines the specific shape and dimensions it is given a number.

A full-size drawing is prepared by the architect and a line pattern for each stone made at the cutting plant. A gang saw which cuts by exerting pressure on particles of crushed steel, a circular saw with diamond teeth and a combination circular saw for shaping, together with the most modern steel tools, and electrically propelled devices are used by the masons in this up-to-date branch of an age-old calling.

## Must Support Your Poor

### Relatives, Says Judge

Chicago.—If there is a child, an aged person or a cripple in your family, you may find yourself compelled by law to support him.

That was announced by County Judge Edmund K. Jarecki, before whom all cases of indigent persons are brought for commitment to charity.

And the order in which relatives are liable for the support of poor relations is:

First, the father must support a child. If he is unable, then the grandfather; third, the mother, and then the grandmother.

In the case of aged or infirm men or women, their children, if they have any, must pay for their keep. If not, a brother must foot the bill, and, if they are without brothers, their sisters are responsible, providing they are unmarried. If they are married and have no separate property, then—and only then—are the co-owners of Cook county open to them for food and shelter.

"Hereafter when a person applies to this court for charity we shall call every relative he has to determine whether they can take care of him," Judge Jarecki said.

And in accordance with his new regulation he ordered a grandfather and a brother to support two persons applying for charity.

## "Extinct," but Alive

Berlin.—A bird and an animal thought to be virtually extinct have been found in German wilds and will be kept alive. The bird is the eagle owl, called in German the uhu (atrix ubo). A pair of owls have been captured in the mountains of Saxony and will be bred in captivity until numerous and then released into the wilds. The animal is the auroch, or European bison, largest animal in Europe and once a favorite in the Roman arena.

## Rooster Spoils Contest

Jefferson, Mo.—People at Shelbyville are still wondering how many grains of corn an industrious rooster can pick up in 60 minutes. This uncertainty resulted when a rooster in a store window quit and went to sleep after eating 744 grains in 10 minutes.

## Finds "Cheap" Ring

Its Value Is \$6,000  
Salem, Mass.—At a dance in the Hawthorne hotel, Miss Jeanette Brooks of Peabody, found what she supposed to be a cheap and gaudy ring. She wore it, much to the amusement of her friends, who thought it was worth about a dime. Later Mrs. E. C. Edwards of Toledo, Ohio, identified the ring as one which she lost. It is an emerald valued at \$6,000.

Miss Brooks said she read of the loss in a newspaper and gave the ring to the police, who telephoned to Boston and the owner came here. Miss Brooks received a reward of \$500 from Mrs. Edwards.

## A NOVEL WAY OF PAYING FOR A MEAL

New York.—A man who had eaten a big meal at the restaurant of Harry Martin here, had no money with which to pay his check. "Let me leave my hat here for security," he said. "I live just around the corner and can get the cash in a few minutes."

Martin consented. The stranger put a new fidon on the hatrack. Hours later, when Martin inspected the hat, he found that it was his own.

## Islands of Galapagos Duty March of Years

While things have changed mightily upon the face of the earth with the onward march of years, there is one little spot where nature has never changed.

In the Pacific ocean the Galapagos islands are still in the Reptilian age. That was the period of the earth's existence when monstrous dinosaurs, reptiles 60 feet or more in length, with armored, impenetrable hides and great teeth, roamed the surface of the globe.

In this one spot things are today very much as they were in the ages of the past, long before the most primitive ape-man. From that interesting group, of islands, there has recently returned an expedition which has found many strange creatures that are today just as their ancestors were millions of years ago.

It is true that no 60-foot dinosaurs have been found on the Galapagos islands, but the reptiles living there are startlingly close relations of the old monsters. The swarming, ferocious 6-foot land lizards, called Coniophis, are declared to bear a striking resemblance to the ancient extinct Coniophis. They are extremely fierce, and can bite a man's leg off.

The gigantic land tortoise, sometimes reaching a weight of 800 pounds or more, was at one time the best-known product of the Galapagos islands. Through the excessive demand for them the tortoises have become nearly extinct.

The bird life is also very wonderful, and the sea lions, which play happily with human beings, are quite entertaining. There are huge spiders that snare birds and whose web might throttle a man, and other spiders whose bite is said to be deadly to human beings.

## Power of Prayer

Doctor Strickland, the new minister, was young and full of faith, hope and charity, but he did not always plan his speech with care.

One Sunday evening he said very earnestly to his congregation: "Let us pray that we may have an attendance of at least one hundred at our next young people's meeting. And remember that the prayer of faith is always answered."

Now, the next service did not bring out one hundred persons, or anywhere near that number, but the young minister looked cheerfully down upon the faithful few.

"Friends," he said briskly, "there aren't a hundred of us, but there are thirteen, and that's one or two more than I had counted on."—Los Angeles Times.

## Militarism Rampant

"Premier Baldwin admits that his war experts, like the war experts of the other European countries, are preparing to fight the next war with bacteria."

President Hiram C. Robinson of the Universal Peace league was talking in Denver about militarism.

"America," he said, "shows Europe pretty clearly what she thinks of militarism. Her language is diplomatic, but it's clear."

"America is like the new boarder. His landlady said to him at breakfast: 'Well, how does your coffee suit you, sir?'"

"It's just to my taste, ma'am," the young fellow answered—"weak and cold, just as I like it."

## River's Course Changed

The Taro river, in Italy, is being taken from its bed about eight miles south of Brannanone, and carried through a tunnel to within two miles of Holsano, where it will be dropped 700 feet.

The horse-power to be generated at this new electric station will be 220,000, and the current will light the country as far south as Florence, 300 miles away.

Two subsidiary stations in lateral valleys are also to be constructed, and the total power of the district will be 315,000 horse-power, or three-fifths of the whole estimated hydro-electric potentialities of Scotland.

## Too Greedy for Maple Sap

At Manchester, N. H., the desire for maple syrup has caused some citizens to tap many of the 50,000 municipal maple trees scattered about the city. Failure of these persons to plug up the holes from which the sap has been drawn is causing the trees to die. Officials of the parks and playgrounds commission promise prosecution for any one who is caught carrying out this unauthorized program. One tree was discovered with 150 holes in it, and the tree will have to be cut down.

## Chin Music

Fommy Malloy, the demon film editor, is devoted to the violin in his leisure hours. The other day he remarked that he had to get a new bridge for his fiddle.

"What the deuce do they have bridges on violins for?" Eddie Meyer, here from India to study the cinema, wanted to know.

"Oh, just to put the music across," replied Tommy.—Los Angeles Times.

## Rome to Perfect Children

Rome's municipal government has outlined a program for physical improvement of its school children. It started a survey to find all unhealthy children, and will remove them free of charge. The governor of Rome has decreed the establishment of special classes for mentally defective children.

## STATE SALARY INCREASE

A number of state officials received increases in salaries when the new appropriation bill became operative last week. Among them well-known to many Burlington county people are State Commissioner of Education Charles H. Elliot, from \$12,000 to \$12,500; State Agricultural Secretary William B. Dwyer, from \$6,000 to \$6,500; James H. Hume, Superintendent of Schools, from \$5,000 to \$5,500; and State Asylum Medical Director Dr. Henry A. Cotton, from \$6,000 to \$7,000.

## TOLD ON PALS, NOW HAS ANOTHER NAME

Denver "Squealer" Said to Have Staged Comeback.

Denver, Colo.—Five years have brought a new grip on life to George L. (Lem) Reamey, former confidence man, who turned state's evidence and enabled the state to send twenty of his associates to the Canyon City penitentiary.

After giving his testimony, Reamey was spirited out of Denver by Andy Koehn, investigator, and Deputy Sheriff "Doc" Dawson. He was branded the "squealer" by his former associates and their friends, who swore vengeance.

He joined his wife, who was waiting for him 1,000 miles away, and the pair took up their life anew in a small town far from Denver. Reamey changed his name, altered his appearance, and his life generally.

Today he is the owner of a small but flourishing hotel business, a leading member of a luncheon club, a Sunday school teacher, and one of the town's leading citizens.

"Lem Reamey has staged one of the greatest comebacks ever seen in the underworld," Roy O. Sampson, detective, says. Sampson has kept in touch with Reamey ever since he left Denver. He refuses to disclose the name of the town in which Reamey and his wife are living for fear that some members of the gang sentenced as a result of Reamey's testimony might wreak vengeance on him as he was threatened five years ago.

"If I should divulge where Reamey is living I would in that breath most likely utter his death sentence," he said. "The feeling still runs high against him among the 'con' men. All the men he helped send to the Canyon City penitentiary are out now with the exception of those who died there. Many would travel to hell and back to put a bullet through Reamey."

When Reamey sought defense money from the leaders of the confidence gang he was refused aid, Sampson says. Then Reamey's wife was offered immunity for him if he would turn state's evidence. She persuaded him to do so.

## Irish Would Keep

### the Ogham Stones

Valentin, Irish Free State.—Kerry men are up in arms because the most ancient of their monuments, the Ogham Stones, are being removed one by one to British museums. They like to keep them because the few remaining historic stones are being used in Ireland as gate posts and hearth stones.

Ogham was a manner of writing on stone and wood used by the ancient Irish. It is somewhat like some of the modern shorthand characters, consisting of straight or slanting lines to represent the consonants, and short straight lines to represent the vowels. One hundred and fifty kinds of Ogham writing have been used.

The Ogham stones are usually tombstones giving the name of the chieftain or clergyman buried beneath. Because of frequent line conflicts the names of clans often are defaced. Some Ogham stones are not inscribed, and were merely landmarks to show the boundaries of clan lands, or to record battles, such as the Gates of Glory Pillars, near Ventry.

## Training a King

Sinla, Rumania.—Michael, the boy king of Rumania, is to be reared like any ordinary American boy. A threat by his mother of "a good smack" failed to make him desist from pulling his dog's tail, but an added threat of being sent to bed without supper worked.

## Versatile Apple Tree

Glen Cove, N. Y.—An apple tree here, subject of many grafting operations, is bearing 35 varieties of apples, according to James Holloway, in whose orchard it stands.

## Halts Liner at Sea

To Mail His Report  
New York.—The skipper of the Nantucket shoals lightship believes in being punctual, even if he has to commandeer a 700-foot ocean liner to help him out.

When the White Star liner Baltic arrived the other day, Capt. F. F. Summers told of receiving a wireless message while at sea from the lightship keeper asking him to stop by for an important letter.

Thinking it must be a matter of life and death, Captain Summers ran the Baltic several miles off its course and hove to off the lightship.

A bucket was let down over the side and while the 24,000-ton vessel wallowed in the swell and 650 passengers leaned over the rail the lightship keeper came alongside and solemnly dropped his letter into the pail.

"Much obliged," his thanks spoken up to the towering decks through megaphone hands. "It's my monthly report to the lightship service and it's due in two days. I wouldn't like to be late."

The letter was mailed two minutes after the Baltic docked.

## DOG LEFT \$5,000

New Orleans, La.—Orionette, a New Orleans canine, has been left \$5,000 under the terms of the will of his mistress, Mrs. L. M. Schaffer. The dog is to reap the benefit of \$2,000 in cash and an income from an additional \$3,000.

## WOW!

Senior Member.—Gosh, that new doghouse is temporary! Junior Member.—What's the trouble now? Senior Member.—She wants stationery to match her rug.

## Pyramid Built Eight Thousand Years Ago

Perhaps the oldest monument in America is Cuicuilco (Meeting Place for Singing and Dancing), a three-tier pyramid, which is only half an hour by motor from Mexico City. Prof. Byron Cummings of the University of Arizona recently undertook the excavation of this mound at the request of Dr. Manuel Gamio and with the assistance of the Mexican government. The original pyramid was a truncated cone 412 feet in diameter and 52 feet in height, surmounted by a dancing platform and an altar in the shape of a horseshoe. It was built at a period when men knew only how to heap one stone upon another. The inclination of the sides at an angle of 45 degrees and the weight of the blocks of anesite and basalt have preserved the monument amazingly.

When the digging began the mound lay buried beneath fifteen to seventeen feet of sand, clay and rock, under which again was a deep layer of lava, covering the platform at the summit to a depth of eighteen feet. The eruption of the volcano Ajusco in some forgotten era served not only to preserve this ancient monument but to date it. The Padraal, a flow of lava some fifteen miles long and three miles wide, which occurred in this neighborhood and which is declared by geologists to be 7,000 years old, is not to be found on Cuicuilco, but rather lava from an unquestionably earlier flow. Doctor Cummings believes that the mound was reared by Americans who lived at least 8,000 years ago. On reaching the summit of this mountain, made by the labor of primitive men, one finds the ancient altar of rough, unchiseled stones, calling up a vision of a circle of naked, hairy savages squatting, with their bodies swaying to the rhythm of their tuneless hymns of worship.—Martha R. Allen in Current History.

## Gold Rush in Graveyard

A small locality in the Hungarian district of Austria, near the Hungarian frontier, had a gold rush all its own a short time ago. Through an accident an ancient graveyard dating from the time of the migration of the races was discovered. The Oldenburg museum began to excavate. Ancient gold vessels were found. When the farmers of the community heard of this they rushed to the scene and began to dig for gold, instead of for last year's cabbage. In the scramble for the likely places flits developed between the farmers, until a large force ofgendarmes was called to keep the gold fever down. Anyway, outside of a few more urns nothing much was found.—Chicago News.

## There Are Frogs and Frogs

A biological concern in New Orleans owns a number of valuable frogs. Recently the frogs were missing and the police were informed. Later two men were caught with frogs in their possession. They claimed to have caught them in the marshes around the city. The head of the biological concern, however, "knew his onions"; he demonstrated to the court's satisfaction that the deep notes of the frogs varied considerably from those of ordinary frogs caught in the marshes. The men were convicted and the frogs were allowed to hop back home.—Pathfinder Magazine.

## Girls

"Commodore Gerry," a New York yachtsman said of the noted philanthropist—Commodore Elbridge T. Gerry, had old-fashioned views, and the modern girl interested and alarmed him.

"He was talking one day at a luncheon in his Newport house about the modern girl's dress—its audacity, you know."

"Modern fashions," he said, "are charming, but—"

"Girls used to want to be looked up to. Now they want to be looked round at."

## Imitates Human Voice

By the use of an organ-pipe reed, his fingers and a bellows operated by foot, an English inventor has succeeded in imitating the human voice to an extent that is uncanny. The reed serves as the vocal organ and the fingers as the tongue and lips. He recently produced the sentence, "Hello, London; are you there?" as clearly as if he were telephoning from New York. It is claimed that the experiment proves that the human voice is largely a mechanical result of muscular and nervous action.

## That Settled It

Mrs. MacMasters was in a quandary. A puff of Russian boots and a pair of elegant shoes looked equally attractive, and as there was no difference in either the fit or the price the poor woman did not know which to choose.

For a long time she hesitated, wavering between the two kinds of footwear. Then she turned to her husband and asked his opinion.

"Well, neither," he answered cautiously. "If ya choose you Russians y'all are be buyin' blackin'."—London Answers.

## Caught

"No such a thing!" retorted Mrs. Johnson. "You wasn't there a-tall. You're just telling me another whoop, so you are!"

"Huh!" snortly returned Gap Johnson of Rumpus Ridge. "What's the use of wasting a good excuse on a fellow's wife, anyhow?"—Kansas City Star.

To train had finally emerged from the blackness of a long tunnel. The conductor, looking round, caught sight of whom were apparently quite startled, and the young woman was nervously arranging her disheveled hair.

Thinking to put them at ease, the conductor remarked pleasantly: "Did you know that the tunnel we just passed through cost \$12,000,000?"

## INDIANS GAINING IN SELF-RELIANCE

Redmen Now Grapple With Own Problems.

Spokane, Wash.—The Pacific north-west Indian, treated once as an enemy of the white man and since his subjugation as a ward, is assuming a self-reliant role as a consequence of a movement inaugurated by the red man himself.

Paul G. Wapato, full-blooded American Indian, is the moving spirit in the transformation.

The crusade had its inception in the seizure of control of the north-west Indian country by the new generation of Indians following a plea by Wapato for unified thought and action among his race. The coup swept him into the presidency, formerly held by a white man, and carried through a set of declarations voicing the demands of the younger generation.

Since that time Wapato, who is frankly impatient of the story book, moving picture, Wild West idea of the Indian, has been inducing the tribes of the Pacific northwest to form associations for the discussion of problems and reaching of agreement as to suggested remedies.

There has been too much complaining against the wrongs the Indians have suffered at the hands of white men, he believes, and not enough effort on the part of the Indians to improve their condition.

It is his hope that by the time the next Indian congress convenes in September the various tribes will have agreed on definite and concrete proposals for settlement of their problems instead of sitting by while representatives of the Indian bureau and others discuss them from the white man's point of view.

Wapato, left in his own resources at the age of thirteen by the death of his father, worked his way through the Wenatchee high school and Willamette university, where he studied law. His brother, Paschal Sherman, who holds a number of college degrees, is an employee of the war-risk department at Washington.

## Finds Mystery Cloud

### Floats About Mars

Berkeley, Calif.—A theory that blue clouds that defy analysis float about the planet Mars was announced recently by W. H. Wright astronomer at Lick observatory.

Wright has been experimenting with color photography as an aid to the usual method of studying planets.

He said that although observers had noted the varying color of clouds on Mars previously, they had never attributed it to a difference in structure. His latest observations with color screens convinced him, however, that there are two types of clouds in the Martian atmosphere, one probably white, but appearing yellow because of the absorbing effect of the planet's atmosphere, and the blue clouds, which float at a higher altitude. The yellow, or white, clouds Wright styled water vapor clouds. He has been unable to determine the exact nature of the blue clouds, but he expressed belief that much of the prominence of the planet's polar caps was due to a blue cloud floating over them.

## Grinds Plate Glass

To Make Telescope  
Fremont, Neb.—With a section of stovepipe and a piece of plate glass, Gilbert Lueninghouser, student at Midland college, has made a powerful telescope.

It took him ten months. He fashioned the glass into a paraboloid mirror, the most important part of the instrument, by more than 100 hours of grinding, polishing and figuring. In the final polishing he etched, by hand, irregularities of less than one hundred thousandths of an inch. He took a piece of ten-inch stovepipe and painted it black and white to make the barrel of the telescope. Except for a right-angle prism and an eyepiece, the whole instrument is handmade.

The device has a magnifying power of 90 diameters—strong enough to enable its maker to study four satellites of Jupiter, the crescent of Venus, the rings of Saturn, the Orion nebula and the topography of the Moon.

## Crop Increased 20 Per Cent by Electricity

Chicago.—A 20 per cent increase in the yield of farm lands has been obtained through the use of atmospheric electricity as a stimulant to crops, says a report made by a committee of the American Electronic Research association.

Observations are being made on the farm of Henry Burser of Warrenton, Mo., one of the first to claim an increase in crops from applying electric stimulant. The method also is being used to cure cancerous vegetable growths.

The method used is merely discharging electricity through the ground at the roots of the plants, using wires and a device which catches the electric currents from the air. It is widely used in France with success, the report stated.

## MORE HUNTERS

Despite the favoritism for fishing shown by the White House, the rod and the worm are not growing in favor correspondingly with the gun and the dog. During the season of 1926-27 more than 8,700,000 hunting licenses for the taking of wild game were issued to sportsmen throughout the United States, including Alaska, and the revenue to the States amounted to more than \$7,500,000. This was a big increase in numbers of licenses issued and fees received over the preceding three years. Game propagation and suitable game laws are restoring the old-time pleasure and success to sportsmen.

## SAWS

### FOR THE GOOSE—

THE best pickin's for sensations is in family scraps.

Rottin' orchids smells worse than dandelions.

These sleeveless styles ain't so immoral as they're inconvenient. Un women's got nothin' to laugh up.

### FOR THE GANDER—

Even a guy lookin' for a needle in a haystack ain't got such a hopeless job if he takes along a magnet.

The dancin' is always better on somebody else's floor.

If you ain't gotta work for food, you might have to do it for medicine.

Get His Goat

One of the most absurd slang phrases in the English language is "get his goat," which is understood to mean "to annoy, irritate, or make one wild." The origin of this phrase is essentially the same as that of the word "kidding."

A goat frolicking about is an absurd sight. "Don't play the goat" is an old expression for "Don't make a silly fool of yourself." "To kid" is "to make a fool of," since kids are really more foolish acting creatures than their parents, the goats. When one is eminently successful in kidding another he is said to "get his goat."

### Lacquers Put to Good Use

A small but important new use for the new cellulose lacquers, such as used for automobile finish, to preserve from evaporation the tiny and delicate specimens mounted on glass slides for use with the microscope, is described by Prof. A. V. Michener, of Manitoba Agricultural college. He seals the edges of the cover glass to the slide with a ring of the lacquer, which quickly dries and makes a permanent mount. Shellac and other substances hitherto used for this purpose have not been very satisfactory.

### SIMPLE TASTE

He was a hero, undismayed. Said he, "I have a hunch To quit the banquet and parade, And eat a dairy lunch."

## URGE CAMP DIX AS SITE FOR HOSPITAL

Committee Named to Request Government to Locate Institution There

At a mass meeting of citizens, held in Wrightstown on Friday night, steps were taken to induce the government to select Camp Dix as the site for the proposed United States Hospital for Veterans, an appropriation for which has been voted by Congress. The hospital, which will cost approximately \$1,000,000, is for the treatment of over 400 of New Jersey's neuro-psychiatric world war veterans.

Speakers at the Wrightstown meeting pointed out that Camp Dix meets all the requirements as a site for the hospital. Besides being owned by the government, so that purchase of land is not necessary, Camp Dix, its advocates assert, is practically abandoned as a military camp, so that much area is available for the hospital; that it has the health advantages of the pine belt of South Jersey; is reached by good highways; has fine water and good sewers; both already installed; and is equipped with electricity and other facilities.

One of the requirements for the hospital, it was stated, is 350 acres of farm land, which, of course, is to be had at Camp Dix, and many more acres, if desired. Before being taken over as a cantonment, this tract contained some of the best tillable land in this or any other state.

Speakers at the meeting, in addition to a few other citizens of the county, were named a committee to urge selection of the camp, by federal authorities, as the place for the hospital, which is to be of 600-bed capacity, and will require a large number of attendants and nurses.

J. Hillman Croshaw of Wrightstown is chairman; Samuel H. Hoveler, Pemberton, secretary; and Raymond R. Wells, Pemberton, treasurer of the committee. Other members are as follows: Assemblyman M. W. Newcomb, Brown's Mills; former Judge Hoveler, Pemberton; Senator Clifford R. Powell, Herbert R. Kille, Farm Agent Charles A. Thompson, Mount Holly; Herman Croshaw, Wrightstown; Frederick Williams, H. Hoveler, Jr., Pemberton; County Clerk William H. Reeves, New Lisbon; Rev. R. P. Beasley, Johnstown; Frederick Charles R. Stout, Florence; Morris E. Lamb, Joseph Thompson, New Egypt; Daniel A. Lamm, Brown's Mills; W. B. Ross, Vincentown; John V. Bishop, Columbus; J. C. Hamilton, Juliettown and Heuben Hendrickson, Cookstown.

## DEEDS RECORDED CO. CLERK'S OFFICE

Mount Laurel Township—Lots 20 and 27, on Centennial and Hendrick avenues, Bridgeview Realty Co., to Cecelia Fick, \$500.

Chester Township—Lot 24, on west side of Fellowship turnpike, Ralph Priet et ux to Angelo Priet et ux, \$1.

Riverside Township—Lot on north side of Bon, street, Adam Scheller et ux et al to Margaret Myers, \$1.

Riverside—Lots 41 and 42, Marie B. Leuser to Bernard Fenney et ux, \$1.

Riverside—Lots 609 to 611; 604 to 607, and 609, Adeline J. Holt to Raymond G. Holt, \$1.

ROBBING MAN DROWNED STEPPING IN "SINK HOLE"

Joseph Adamatta, of Robbins, was drowned at Florence Heights Fourth of July afternoon after he had stepped into a "sink hole" while wading to get some relief from the heat. He was spending the holiday with his family at the Heights. In what appeared to be a shallow water, he was suddenly dropped into a deep, dark hole. Those who saw the accident called for help, but he was too far gone to be rescued.

## CONVENTION SIDELIGHTS

## FOUR TROOPERS AT BRIDGEBORO

State Police, Fully Established at New Barracks, Covering Wide Territory

Completely established in their new quarters, the State Troopers assigned to the Bridgeboro Barracks are beginning their daily coverage of the large territory assigned them, which stretches from Burlington to Patuxent, along the riverfront, through Moorestown district and back into the country to Medford, Marlton and Mercersville.

Sergeant Gus Albrecht, one of the State Police veterans, has replaced Sergeant Fred Bishop as commanding officer of the barracks. Troopers Horn, Small and Doyle are assigned to the post.

Two motorcycles, one single machine and the other equipped with a side car, are at the barracks. It is expected that an automobile and probably another motorcycle will be added to the equipment by fall.

The establishment of a state police station in this section is the result of constant importunities of residents of Delran and Cinnaminson townships. Cinnaminson residents have especially complained of speeders along the Burlington pike and River road.

Five troopers were left at the Columbus station, from which the three troopers and Sergeant Bishop were recruited. Sergeant Albrecht came from Hammonton headquarters.

## CLAIMS HER MOTHER WAS INCAPACITATED

Daughter Files Caveat Against Probate of Late Rachel W. Norton's Will

Testimony was taken before Judge Slaughter, sitting in the Orphans' Court at Mount Holly last week, in relation to probate of the will of Rachel W. Norton, late of Moorestown, who died November 7, 1927.

A caveat against probate of the will has been filed by decedent's daughter, Mary B. Newkirk, of Ardmore, Pa., who alleges undue influence of the estate, valued at approximately \$17,000, because of mental incapacity of her mother. Undue influence also is charged.

William J. Norton, son of the testator and William D. Lippincott, both of Moorestown, are named as executors.

Testimony given by W. Anna Adams, of Crest City, who was a nurse to the Norton home, and Mrs. Hannah Haines, of Haddonfield, an intimate friend of the testator, is to the effect that Mrs. Norton was of clear and understanding mentality at the time of making the will.

Due to absence of other witnesses, further hearings of the case was postponed until September 24.

## N. J. ENDS ITS YEAR WITH BIG INCREASE

Large Inheritance Tax Payments Give State Unanticipated Fund of Money Nearly \$4,000,000

New Jersey has an unexpended fund of nearly \$4,000,000 to apply to appropriations by the 1938 Legislature. The money comes from transfer inheritance tax payments on the Colonel Washington A. Roehling, Duke and other large estates. The payment in the Roehling estate alone was said to be in the neighborhood of \$2,000,000.

At the close of the fiscal year, June 30, there was a net balance of \$5,225,329.27 in the treasury. The figure is \$2,958,763.31 in excess of the estimate of the receipts by State Comptroller Hughes and nearly \$1,500,000 above the free balance of \$3,684,669.97 last year.

To the credit of the general fund of the State when the books were closed was \$10,488,995.60 but against that were obligations of \$10,080,765.45. These included \$3,388,544.65 for contract payments; \$2,958,173 for teachers' pensions; \$1,897,269.31 due the counties for schools and \$80,000 for vocational education.

Comptroller Hughes in a telegram submitting a report of the balance to Governor Moore congratulated the executive upon the excellent financial condition of the State.

## BOY SUICIDE BY POISON; DIDN'T LIKE FARM WORK

Apparently because he objected to working on a farm during the summer vacation, the family being unable to think of any other reason for his act, Elmer Horner, son of Thomas Horner, of Julietstown, committed suicide on Tuesday night of last week by taking a paria green solution in a barn on the farm. It was known to members of the family that he disliked farm work, but they never gave it a thought that it was so objectionable to him as to have him reach the point of such desperation.

## BEVERLY WAR MEMORIAL LIBRARY TO BE ERRECTED

Miss Sarah B. Budd, of Mount Holly, chairman of the New Jersey Library Commission and Burlington County Free Library, was a special guest at a meeting of the Beverly Free Library, Beverly Paragon Club and Beverly-Ridge Club last week when it was made known that these three organizations were united in plans to erect a \$15,000 building to be known as the Beverly War Memorial Library. There will be a campaign to raise the funds. The plans provide for a library room and a Paragon Club meeting room.

## About Your Health

DR. J. C. COOPER, M.D.

## RUNNING A TEMPERATURE

When a fire breaks out, we sound the alarm, we hurry, we breathe, we turn on the hose—a house is burning! If the fire is discovered in time the building is saved. It is the fire that is overlooked—that destroys.

Now, these bodies of ours are the veritable houses we live in, and they sometimes catch fire, as physicians know. Then we begin to procrastinate; we wonder if the fever fire won't die out of itself, if we keep on at work and let it alone. We hate to go to a doctor—and we really can't afford to lay off and be sick! You know how it is.

The fire grows into a holocaust. The physician, fire-chief, is called in a hurry; he finds the building in great danger of destruction. If a total loss—just by neglect of the small fire.

If you are running a temperature—a little fever afternoon—which breaks into a perspiration just after going to bed at night, consult your physician at once. The slight in time may save a hundred later on. A fever invariably means that something is radically wrong; it is a warning. A battle is going on inside—the forces of good against the demons of evil; the cause of the warfare must be removed before peace will be declared. You may not recognize the cause, even if you know how to remove it. The physician is your best bet.

If your child is running a temperature, look after his throat, his lungs, his digestive tract; he has a poison somewhere. Find it and force its elimination. But, be sure you are right, before you do a thing; you cannot afford to make mistakes—there cost a lot of money, and may cost a life. Don't neglect the small fire; it is easier to put out. "First aid" is to clean house. Apply water, inside and out. And, put nothing into the body that might feed the flame. Call the doctor in time.

## MARLTON GRANGE SENDS LECTURE TO ITHACA

The lecturer of Marlton Grange, Mrs. Robert C. Willis, will attend the Middle Atlantic States Lecturers' Conference to be held at Cornell University, Ithaca, N. Y., August 8, 9, and 10.

On Tuesday, July 17, the Grange will be addressed by two members of the "Prohibition Caravan," sent out by the American Friends Service Committee, Guy Pickett and Kenneth Hawkes, from Iowa.

## TO HOLDERS OF Third Liberty Loan Bonds

The Treasury offers a new 12-1/2 year Treasury bond in exchange for Third Liberty Loan Bonds.

The new bonds will bear interest from July 15, 1938, interest on Third Liberty Loan Bonds surrendered for exchange will be paid in full to September 15, 1938.

Holders should consult their banks at once for further details of this offering.

Third Liberty Loan Bonds mature on September 15, 1938, and will cease to bear interest on that date.

A. W. MELLON, Secretary of the Treasury, Washington, July 5, 1938.

## DO YOU SMOKE FOR ENJOYMENT?

All Right! One Nickel Can Bring It Home to You!

It's a free-spending age, to be sure, but man alive! What's that got to do with cigars? You smoke for enjoyment. And you can do it at a nickel per. There's an amazingly good smoke on the market for five cents. It represents the conscientious effort of a great manufacturer. He's putting his utmost into it. Havana Ribbon is the cigar. There's thirty years' success behind it. It's made by the millions. Volume production permits the use of finer tobacco than ever.

You don't have to take our word for it. You can prove it yourself. Lay down a nickel and pick up a Havana Ribbon. Smoke. Note the fragrant aroma. The cool, mild, mellow flavor. Also tobacco—every leaf. Long filler—every wrap! No short ends to crumple and come out in your mouth. Complete, satisfying smoke enjoyment from the first puff to the last.

Also sold in Practical Pocket Packages of five cigars.

## HUDSON SHERIFF DENSE TO DUTIES

Legislative Commission Finds Official Unacquainted With Work of Office

John J. Coppinger, sheriff of Hudson County, was called last Thursday before the Case legislative commission at Jersey City to explain the functions of the department. He is supposed to direct but displayed such a vast ignorance of its operations that Senator Clarence E. Case was finally impelled to ask him if he knew where his office is situated.

Sheriff Coppinger draws a salary of \$11,000 a year. But his invariable answer to almost every question concerning his official duties was that "Mr. Knight knows about that." Knight is his chief clerk.

Out of patience at length with Coppinger's flummery, Assemblyman Barrett asked the Sheriff if he knew what an execution was. His first guess was that it was "an electrocution." The resultant about of laughter informed him it was the wrong guess. On a second attempt he got somewhat closer to explaining an execution also a judicial act.

What the attaches of his department did and what they got in the way of salary appeared to be none of the Sheriff's business. He knew virtually nothing about it. But Russell E. Watson, counsel to the commission, was better informed. He told the probers the payroll for the department reached the important proportions of \$122,100 annually.

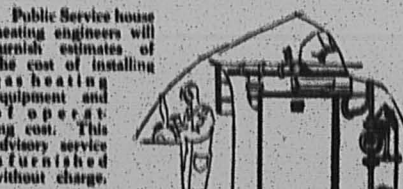

That included a salary of \$60 a week for Michael Donnelly, who drives Coppinger's county-owned Cadillac automobile and who tolls from nine in the morning until four in the afternoon to get H. James Hague, brother of Mayor Frank Hague, is also a jobholder in the Sheriff's office. He draws \$3,500 an index clerk.

## The Use of Electric and Gas Servants Gives You More Leisure

### Gas Heating Frees You Of Furnace Worries

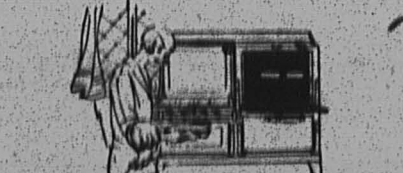

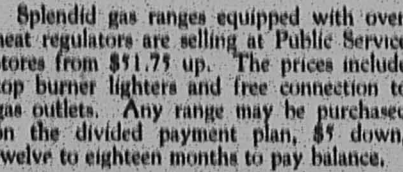

STEAM, hot water or hot air may be used in the heating system of a gas heated home. Gas generates the heat which is distributed through the house by any of the heating systems ordinarily used.

The gas furnace takes up little space, requiring no coal bin or fuel tank. It causes no dust, dirt or grime. Thermostatically controlled, the gas furnace requires practically no attention. Once the gas is lighted, it burns until it is turned off.

### Gas Ranges for as Little as \$51.75

Splendid gas ranges equipped with oven heat regulators are selling at Public Service stores from \$51.75 up. The prices include top burner lighters and free connection to gas outlets. Any range may be purchased on the divided payment plan, \$5 down, twelve to eighteen months to pay balance.

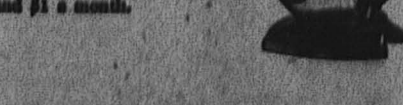

Advances can be made on the price of these ranges if you trade in your old cooking stove or plate.

### Special Offer on HOTPOINT Super Iron

Dispose of your old iron profitably by trading it in to us and we will sell you the Hotpoint Super Iron for \$7-\$1 less than the regular price. The large thumb rest and attached heel stand which saves lifting are special features of this iron.

The iron may be purchased on terms—\$1 down and \$1 a month.

### New HOOVER Keeps Rugs Like New

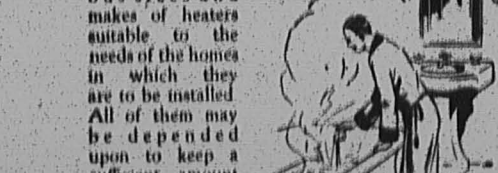

POSITIVE Agitation, the special feature of the New Hoover, removes all dirt from rugs. It vibrates loose the heavy grit which works into the nap of the rug and at the same time loosens and picks up all lint and threads.

If you trade in your old electric cleaner we will make a substantial reduction on the price of the New Hoover. You have your choice of two models—No. 700 at \$75 and No. 543 at \$59.50. When sold on terms of \$5 down and \$5 a month, there is a slight increase over cash prices.

### Automatic Water Heaters Help Housekeepers

Public Service stores are offering a liberal allowance for old water heaters traded in on the purchase of a gas automatic storage water heater.

There are various sizes and makes of heaters suitable to the needs of the homes in which they are to be installed. All of them may be depended upon to keep a sufficient amount of water hot to meet every household need.

Prices begin at \$72.50. Payment terms are \$5 down and twelve to eighteen months to pay balance.

### Lamps Now Selling at 25% Reduction

During our half yearly lamp sale, now under way, every lamp in Public Service stores is now selling at one quarter less than its regular price. The stock includes smart floor and table lamps, many of them fashioned along modernistic lines and equipped with attractive shades.

Any lamp may be purchased on our divided payment plan.

## PUBLIC SERVICE

## PALMYRA BEATEN BY R. D. WOOD NINE

Four Game Winning Streak  
Broken by Strong Flor-  
ence Nine

After winning four games in a row, the Palmyra ball team had their streak broken by a 9-0 score by the R. D. Wood team, Florence, last Saturday afternoon.

Bill Everham, the R. D. Wood ace was in rare form, letting the Palmyra sluggers down with six stingy singles and disposing of ten via the strike-out route.

Earl Harder, who had only allowed two runs in the last eleven innings he had pitched for the Palmyra club, was touched for five hits, yielding five runs in the second before regaining his former effectiveness.

After Krauss' three out Everham, Cantwell reached first on a hot bouncer to short which was too hot for Weikman to handle. Woolston worked Harder for the only pass during the game and Rhoda doubled over short, scoring Cantwell, and as Rodgers' juggled the ball momentarily Woolston also crossed the plate, Rhoda going to third on the play to the rubber.

**Keep on Scoring**  
Frappol kept things moving when he singled to short, scoring Rhoda. Frappol stole second and scored a few seconds later when Gilbert singled to right. Andrews took Cote's high fly for the second out. Gilbert stole second and scored on Frankfield's single to left. Beaudry's fly to Andrews ended the inning.

Things were quiet until R. D. Wood's half of the fifth which Frankfield opened with a sharp single through the box. On a hit and run play Everham blasted a single past Cote's stone sack, moving Frankfield to third. On an attempted delayed steal Frankfield was nipped at the plate by a sparkling play from Andrews to Harper, while Everham took second. When Cantwell singled to center, Everham raced home with the last run of the game.

**Highlights of the game from a Palmyra viewpoint were the fine work of Rodgers in left field and the snappy work of Krauss at the hot corner. Harper and Wenger scored when Frappol booted Krauss' roller, but the run was not allowed, the umpire ruling that the runner failed to touch third.**

After a whirlwind finish in the first half of the Burlington County League race the boys are "rain" to go, many posters around the circuit are picking them to be well up in the percentage table at the end of the second half. The next half will open Saturday when Palmyra plays Camden on the latter's grounds. Come along and root for the home team.

**OAKLAND TO BUILD  
FINE NEW FACTORY**

Marking the latest development in the spectacular building program of the Oakland Motor Car Company, A. H. Glancy, president and general manager, has announced construction will start immediately on a thoroughly modern gray iron foundry at Pontiac, Mich.

While no cost figure was released, it is understood the new building project will present an investment of several million dollars.

Six new buildings will comprise the foundry unit. Full operation is expected to be reached not later than February, 1929, Mr. Glancy stated.

Completion of the project will further the claim of the Oakland Company to having the most modern and best equipped automobile factory in the world.

Excavation work is already under way for the new building, under the direction of L. A. Blackman, resident engineer of the Oakland Company. Mr. Blackman estimated that 70,000 cubic yards of earth will have to be moved for the foundations, and that thirty days would be required for this work.

The foundry will stand adjacent to the recently completed Oakland and Pontiac factories, and will be devoted to casting engine blocks and other castings used in the manufacture of Oakland and Pontiac Bikes.

Included in the group will be a foundry proper, a core building, a cupola building, sand storage building, cleaning building, and service building. The group will have a total of 200,000 square feet of floor space.

**FLAG MISSING**  
When it started to rain Fourth of July, some of the residents took the flag from the curb in front of their residences and placed them where they would not get wet. When J. M. Coddington, who attends to putting out the flags, gathered them up in the evening, one was missing. If the one who kindly took it in will notify Mr. Coddington he will send for it.

Samuel Curtis may find his early boyhood training helpful in guiding the G. O. P. elephant in the coming race.

## THE BIG BOUT (Continued)

By Albert T. Reid

## EIGHT MOTORISTS PAY \$80 IN FINES

Operators Assessed for Speed-  
ing; Reckless Driving and  
Passing Traffic Lights

Eight motorists have been arrested and fined in Moorestown during the past week. They ran afoul of the law through speeding, reckless driving or passing a traffic control light with the signal against them.

All of the offenders were tried before Recorder Joseph W. Johnston in Town Hall. The fines averaged \$10 and costs, the eight paying \$80 in fines.

Those arrested Fourth of July were: John Nield, 318 Elm avenue, Burlington, for passing traffic light. He was arrested by Officer Walter A. Erickson and fined \$5.00 and costs.

Sabel Maltz, 41 Lee street, Burlington, for passing red light. Arrested by Officer Walter A. Erickson and fined \$5.00 and costs.

Tony D'Muro, 1225 Everett street, Camden, for speeding. He was arrested by Officer Walter A. Erickson and fined \$10 and costs.

Francis J. Grady, 149 White Horse pike, Camden, for reckless driving and speeding. He was arrested by Chief of Police John Bradshaw and fined \$25 and costs.

Two arrests were made Monday. Charles Boyle, 3122 North Twenty-seventh street, Philadelphia, arrested by Officer Ralph Marks on speeding charges, was fined \$10 and costs. John Green, Balcon, charged with passing a traffic light, was fined \$20 and costs. He was arrested by Walter A. Erickson.

Tuesday, Officer Walter Erickson arrested another pair of motor law violators. Both were charged with reckless driving and each paid a fine of \$10 and costs. They were Harry Tuturberville, Jr., 326 Cedarcroft avenue, Philadelphia, and Raymond Carter, 1006 Catherine street, Philadelphia.

**OAKLAND TO BUILD  
FINE NEW FACTORY**

Marking the latest development in the spectacular building program of the Oakland Motor Car Company, A. H. Glancy, president and general manager, has announced construction will start immediately on a thoroughly modern gray iron foundry at Pontiac, Mich.

While no cost figure was released, it is understood the new building project will present an investment of several million dollars.

Six new buildings will comprise the foundry unit. Full operation is expected to be reached not later than February, 1929, Mr. Glancy stated.

Completion of the project will further the claim of the Oakland Company to having the most modern and best equipped automobile factory in the world.

Excavation work is already under way for the new building, under the direction of L. A. Blackman, resident engineer of the Oakland Company. Mr. Blackman estimated that 70,000 cubic yards of earth will have to be moved for the foundations, and that thirty days would be required for this work.

The foundry will stand adjacent to the recently completed Oakland and Pontiac factories, and will be devoted to casting engine blocks and other castings used in the manufacture of Oakland and Pontiac Bikes.

Included in the group will be a foundry proper, a core building, a cupola building, sand storage building, cleaning building, and service building. The group will have a total of 200,000 square feet of floor space.

**FLAG MISSING**  
When it started to rain Fourth of July, some of the residents took the flag from the curb in front of their residences and placed them where they would not get wet. When J. M. Coddington, who attends to putting out the flags, gathered them up in the evening, one was missing. If the one who kindly took it in will notify Mr. Coddington he will send for it.

Samuel Curtis may find his early boyhood training helpful in guiding the G. O. P. elephant in the coming race.

## HINTS FOR THE HOME

By Nancy Hart

It is interesting to know that modern preserving methods have eliminated the chance of failure in making jellies and jams.

Under the old long-boiling process even experienced cooks would get fine firm jelly one time and a syrupy failure the next. The ripper fruit the less the jelly-making substance is contained, so no accurate rule could be made to govern the exact amount of sugar or cooking time.

The new short-process rules remove this uncertainty by the use of liquid pectin, which is the natural jelly-making substance extracted from the fruits and concentrated for cooking purposes.

**New Recipe for Blueberry Jam**  
Crush well two pounds of berries. Add juice of two lemons and grind fine of half lemon. Measure four level cups of mixture into a large kettle. Add eight level cups sugar and mix well. Use hottest fire and stir constantly before and while boiling. Bring to full rolling boil and boil hard for one minute. Remove this uncertainty by the use of pectin. Skin, pour quickly and cover at once with hot, melted paraffin.

**When Frying Corn Fritters**  
Many cooks know only one way to fry corn fritters, and that is to drop the batter from a spoon into the deep hot fat. If fried as a flat fritter-cake in butter margarine, the corn fritters will have a decidedly different flavor—one you will like much better than that produced by the other method.

**Sour Cream Cake**  
Half cup butter, two cups sugar, one cup sour cream, three cups prepared cake flour, three eggs, well beaten, half teaspoon lemon flavoring. Cream butter and sugar, add eggs. Add soda to sour cream; beat cream and flour alternately into sugar mixture. Add flavoring and bake in loaf pan.

**Can You Make Uncooked Custard?**  
Into beaten yolk of one egg stir a cup of sweetened condensed milk; add two teaspoons lemon juice and mix well. Then add three teaspoons water and fold in stiffly beaten white of egg. Serve as uncooked custard or pour over fresh fruit.

**Straws for Motor Trips**  
Someone suggested that we take a supply of straws on the long motor trip so a comfortable drink can be had at small springs and brooks.

**Shield Furniture from Summer Sun**  
If you would retain the soft glossy finish of your furniture do not allow the hot summer sun to beat upon it. Mahogany is especially in need of protection, as strong sun fades it.

**Disperses Cooking Odors**  
Burnt coffee grounds will free the house from cooking odors.

**The initial cost of  
Miller Scientifically  
Correct Balloons is  
no higher—the per  
mile cost is lower.

## FORGERY CHARGED TO AD SOLICITOR

Beverly Man Asserts He Did  
Not Sign Agency  
Contract

William T. Bakely, a radio dealer in Beverly city, has begun proceedings to apprehend a New York representative of the firm of Abbott & Walker, advertising specialists, on a charge of forgery.

The Abbott & Walker firm surprised Mr. Bakely some time ago, by notifying him that they had prepared a shipment of electrotypes, for use in newspaper advertising, for which they held his signed contract, and were shipping the same by express collect. The collect charge amount to over \$100.

Mr. Bakely in turn notified the firm that although their representative had called on him, he had flatly refused his plan, and had signed no paper whatsoever, and was refusing the shipment.

Following several weeks of communication by mail it was finally decided to send the original contract held by the Abbott & Walker firm to the First National Bank of Beverly for their comparison with Mr. Bakely's signature. This was done, and the signature pronounced false.

The wheels of justice then started to move, and action will be taken against the representative of the Abbott & Walker company for forgery.

## HOW TO COPE WITH JAPANESE BEETLE

Bureau of Entomology Gives  
Scientific Advice on Com-  
bating Pest

The United States Department of Agriculture, Bureau of Entomology, cooperating with the New Jersey Department of Agriculture, Japanese Beetle Project, Moorestown, N. J., has issued the following article on spraying garden ornamentals for protection from Japanese Beetle attack.

**Season of Attack:** The Japanese Beetle attacks the leaves and blossoms of a number of garden ornamentals from about July 4 to about August 20, the actual dates depending on the weather. This is the period during which the beetles normally occur in greatest numbers. Ornamentals most likely to be attacked are: Aster, Camellia, China Aster, Evening-primrose, Hibiscus, Hollyhock, Rose Calendula, Castor Bean, Dahlia, Geranium, Morning-glory, Scarlet Sage, Zinnia.

**What To Spray With:** The material used is lead oleate-coated lead arsenate. This can be obtained from most dealers in garden supplies. If the coated lead arsenate cannot be obtained, ordinary lead arsenate (powder) or paste containing 80% water will do, but will not stick on the leaves as long.

**Formula:** To one gallon of water use 3 heaping tablespoonsful of lead arsenate powder or paste or 2 heaping tablespoonsful of the coated lead arsenate. For larger quantities to 50 gallons of water, use four pounds of the powder or 6 pounds of the paste.

**Time To Spray:** Spray now before the beetles appear in numbers; repeat in 3 to 4 weeks. The first spray must be applied before the plants are attacked; otherwise, later sprays are of little value.

**Spray Thoroughly:** All the foliage should be covered. Use a good bucket pump sprayer if available. Throw a fine mist spray over the top and sides of the plants, coating both sides of the leaves. Unsprayed leaves or portions offer good feeding spots for the beetles.

**Japanese Beetle Traps:** Traps made after the model developed at the Japanese Beetle Laboratory have been effective in catching large numbers of beetles. However, the traps attract more beetles than they catch. For that reason traps are not recommended for the protection of nearby plants.

**It runs to big proportions . . . this All-American Six. In size . . . in quality . . . and, above all else . . . in value . . . Beneath the hood . . . a big, clean brute of an engine. ## MUNICIPAL BUILDING PLAN NOT APPROVED BY COUNCIL

Fire Company Offer Discussed,  
But Action Deferred for  
Present

### DELINQUENT TAX LIST TO BE PUBLISHED SOON

At a meeting of the Riverton Borough Council Tuesday night of last week, Councilman Harry L. Randall, chairman of the fire and water committee, reported that a conference had been held with a committee from the Riverton Fire Company relative to the erection of a municipal building by the company.

After going into the subject in detail the committee from the fire company requested Mr. Randall to submit to council proposition that council pay enough rent to insure carrying charges on the proposed building—about \$3,000 a year. Mr. Randall stated that he had presented the fire company's proposition as requested, but that the committee did not recommend its acceptance. He explained that while the initiative and civic interest shown by the company was fully appreciated, he thought it unwise as a matter of future policy for council to enter into an agreement with any private company in such a matter covering a period of years.

Thinks Plan Unsound  
Councilman Bartley thought the plan was unsound in principle and that council should not enter into an agreement of \$3,000 a year for its small requirements.

Councilman Welsh was strongly in favor of the immediate erection of a municipal building, providing quarters for the borough and such other public officials as could use it, the fire company and the police department, but believed that when a town hall is built it should be done by the borough.

Both Mr. Randall and Mr. Welsh felt that a suitable municipal building was an imperative necessity and should be provided as soon as possible. Mr. Randall and Mr. Bartley did not share this opinion and suggested that the \$3,000 or \$4,000 which it would probably cost to put up a suitable structure could be better used for more pressing needs—a sewer disposal plant and a new school house, for instance. Mayor Rogers also raised the question as to whether or not a town hall is a pressing necessity at this time.

Councilman Williams was not present and Councilman Hubbs had been excused and left early. In the absence of a quorum the action of the members of council further discussion of the subject was postponed.

R. R. Improvements  
Mr. Randall, who was chairman of the committee to study with the railroad company relative to certain improvements in Riverton reported that the company had made a survey of the situation and had arrived at certain conclusions as to what it was willing to do. R. C. Morse, superintendent of the New Jersey Division, had expressed a desire to discuss the proposition the company is ready to make with a committee of council and Mr. Randall said that he would arrange for a conference at an early date.

The matter of delinquent taxes which has been frequently referred to since the first of the year, at which time the borough collector, C. Kenneth Davis, was instructed to prepare for publication a list of delinquents, owing persons taxes, was again brought to the attention of council when Mr. Bartley stated the delinquent tax collector appointed more than a year ago had not rendered satisfactory service and asked for the appointment of a new delinquent collector, recommending Officer William Quigley for the position. In the discussion that followed it was decided to postpone action on the appointment of a new delinquent collector until the matter could be considered by the police department. Collector Davis informed council that the list of delinquents would be published soon.

(Continued on Page 6)

### RIVERTON WOMEN INJURED IN CRASH

Mrs. Irving Donaghy and Mrs. W. H. Botterger Suffer Minor Injuries

When Bus Goes Into Ditch  
Two Riverton women were injured Saturday evening when one of the large Penn-Jersey buses ran off the roadway of River Road near Mohican Lane below Palmyra.

Mrs. Irving Donaghy, of Fifth street, was taken to the Cooper Hospital by a passing motorist. Her left eye was cut and it was necessary for the physician to take one stitch to close the wound. She later returned to her home.

Mrs. W. H. Botterger, of Linden avenue, was thrown against the side of the bus and was painfully bruised but she refused to go to the hospital. She later was taken to her home.

Robert Dickinson, 1817 Orthodox street, Philadelphia, driver of the bus, told the Pensauken township police he was blinded by a headlight and followed the rear light of a car ahead. The car made a turn into Mohican lane exposing the full force of the car. He made a slight turn to avoid possible collision, but couldn't see the ditch.

ANNA H. TEES

Anna H. Tees died at her home, 1108 Parry avenue, Palmyra, last Friday morning.

Funeral services were held from the late residence Tuesday afternoon at two o'clock with the Rev. J. William Lee officiating. Interment was made in Arlington cemetery, Pensauken Township, with Frank A. Snover in charge.

The Order of Eastern Star, of which Mrs. Tees was Past Worthing Matron, held services at the home, Monday evening.

The deceased is survived by her husband, Joseph Tees, a son Russell, of Philadelphia, and a daughter, Edna.

### LEGION POST JR'S. NEAR STATE TITLE

Captain James MacFarland Post of  
Burlington Has Developed  
Fine Junior Team

Captain James MacFarland Post No. 79, of Burlington, has sponsored a great team of hard fighting juveniles under seventeen years of age. After untiring effort they have obtained the distinction of Champions of Burlington County.

Next Saturday, July 21, they will play the champions of Mercer County at Burlington. This game will decide the championship of South Jersey.

The winner will go to Newark, where on July 23, 30 and 31 it will play for the championship of the State. MacFarland's Junior Team is nearing the South Jersey Championship, as well as the State Championship, and there is every indication that both will be carried away by them.

### ROTARIANS SEND BOYS TO CAMP

Six Palmyra-Riverton Youths  
Enabled to Enjoy Stay  
at Oceanicton

One of the most active and most appreciated Committees of the Palmyra-Riverton Rotary Club is the Boys' Work Committee. This committee has been active for the past two years and has attained much success in its work, particularly during the Christmas and vacation seasons of the year.

Boys far it has been enabled to send six boys, who would not otherwise have an opportunity, to the Y. M. C. A. Camp "Oceanicton." This number will probably be augmented before the season closes.

Committee is Busy  
Chairman Joseph T. Evans, Harold B. Lever and Frank Snover are a trio hard to beat when it comes to working among the boys, and they have won much favor in the hearts of both those of the less fortunate and those who need encouraging in the conduct of clean sports.

Boys' Work is Rotary's long suit, and the local club stands ever ready to support the committee in any of its enterprises.

"Where is the Quartette?" the question which has been heard so frequently during the song fests at the weekly gatherings ever since the disbanding of the "wonderful four" and its entering "grand uproar," has now taken on a quite different form. The question, since last week's meeting, is "Who is the Quartette?" Like mushroom growth there sprung up two of the latest additions to the Club's musical repertoire.

Remarkable Quartettes  
Doc Mills, Jim Weart, Bill Albertson and "Blah" Lockett disclosed their talent in wonderful fashion. Not wishing to be outdone, Horace Finney, Ned Hammond, Paul Burr, of vocal renown, persuading "Blah" Lockett to act as a neutral "fourth," did justice to themselves, at least, by rendering a very unique number.

From now on, "Pat" Stiedle, the songleader, will be stamped with the requests by these aspiring quartettes for evening presentations. Competition being the life of trade, the Club is almost assured of a musical number from one of the two quartettes with Doc Dey, the pianist, to do the accompanying.

The even hour schedule for the summer months has added much vigor to the meeting and has effected a good attendance average. The dinner hour is from 6.15 to 7.15.

ALEXANDER JOHN GREER

Alexander John, the 19-year-old son of Mr. and Mrs. William Greer, died Monday morning, July 16, at his home on the Riverton-Moorestown road.

Several years ago Alexander was ill with scarlet fever and was left with a weak heart. Since that time he has not been able to work more than a few weeks at a time. Recently he has been confined to his bed.

The deceased was a member of Washington Camp 23, P. O. S. of A. The Camp held services at the home Wednesday evening.

Funeral services will be conducted at the Moravian Church by the Rev. A. J. Harke this (Thursday) afternoon. Interment at Asbury cemetery under the direction of Frank A. Snover.

CARD OF THANKS

Joseph H. Tees and children wish to express their appreciation of the many kindnesses extended to them during their recent bereavement.

### State Road Hearing at Pensauken Aug. 1

The pulse of the people regarding the proposed state highway route No. 26 that would pass from Crescent Boulevard over Cedar avenue, Pensauken, may be felt at a meeting scheduled for August 1.

The meeting was agreed upon at last week's session of Pensauken Township Committee. It will hear protests from those who oppose the road and hear arguments in favor from those who see its advantages.

J. A. Wilson, construction engineer of the State Highway Department, will attend and submit the state's side of the story. At the former meeting of the township committee, protests were filed against the road by residents of Cedar avenue who object, principally, to the plan that would widen the street.

### New School Head

PAUL Y. ECKERT  
Who has been chosen as  
Superintendent of the Palmyra  
School System, succeeding Prof.  
A. S. Griffith.

### NEW HEAD FOR PALMYRA SCHOOL

Paul Y. Eckert to Succeed Prof.  
A. S. Griffith Who Has  
Retired

Paul Y. Eckert, of Hanover, Pa., has been appointed supervising principal of the Palmyra school system, succeeding Professor A. S. Griffith, whose resignation was read at the meeting of the Board of Education last Thursday evening.

Mr. Griffith has been placed on the disability list of the State Teachers' Retirement Fund on account of his illness from which he was not expected to recover to such an extent as to allow him to return to his duties.

The new supervisor comes to Palmyra with the unqualified recommendation of Dr. Jackson, assistant state commissioner of education, who, it may be recalled, was the one who wrote the letter severely criticizing the Palmyra school system last winter. Mr. Eckert also presented very fine letters from the different schools with which he has been associated during the past several years.

His selection was approved by every member of the Board and it was agreed that the management of the school should be left entirely to him. He will be present at the August meeting when the report of the recent survey will be received and will be instructed to carry out the suggestions of the State Board.

Professor Eckert's recommendations lay particular stress on his abilities as a disciplinarian and it is thought that he will fit in exceedingly well with the particular requirements of the school. His educational qualifications are very complete and experiences have been varied enough as to enable him to meet any situation which may arise.

Mr. Eckert received his degree as Bachelor of Arts from Dickinson College in 1906 and Master of Arts in 1909. During this time he was Principal of Tuscarora Academy, Acacia, Pa., and during the following two years was Vice-principal of the High School at Portland, N. J.

In 1911 Mr. Eckert accepted a position in the mathematics department at the Benson Polytechnic High School, Portland, Oregon, where he remained until 1915. The next two years he spent as Principal of the Llewellyn School, of Portland. During this time he studied law and received his degree from the University of Oregon. The Professor said he did not expect to practice law, but took this course for its benefit to him in school administration work.

Mr. Eckert's next position was as Principal of the Oregon School, also of Portland, and then he returned to the East so he might be near his parents. He was recently appointed Superintendent of Schools at Conshohocken, Pa., where he served two years.

He has been Superintendent of Schools at New York City, at Grover, N. J., for the past eight years, and was under the tenure of office at that place, where he would have been secure in his position as long as he would have cared to stay, but resigned his \$5,000 a year job to look for a position more satisfactory to himself.

It is the opinion of those in touch with this time studied law, is a very fortunate in securing the services of an educator of such wide experience and proven ability to head its growing school system.

The new supervisor is a married man with two sons, one seventeen years old and the other twelve. He is forty-four years old, nearly six feet tall and weighs 185 pounds.

### HOWARD TAYLOR'S ORCHARD 'RAIDED'

Seven Youths From Camden 'Caught  
With the Goods'

Seven Camden youths were reprimanded and made to pay the costs of hearings before Justice of the Peace John McNulty, of Fairview, when they were arrested for stealing apples from the orchard of a farm owned by Howard G. Taylor, Jr., last Friday afternoon.

The youths were taken into custody by Special Agent William Walker, and they were emerging from the orchard and going toward their machine when they were caught by the apples tucked away in their shirts. They pleaded guilty at the hearing and paid the cost of \$2.50 each. The more serious charge of using an automobile in connection with thievery was not pressed. The punishment for this offense is a heavy fine and revocation of driver's license.

They gave their names as Joseph Verga, 216 Milton street; William Merryfield, 221 Milton street; Edward Nemy, 217 Milton street; Joseph Brown, 217 Penn street; John Bush, 21 Wood street; Samuel MacIntosh, 244 Byron street, and Paul Flinn, 822 North Front street.

CORRECTION\*

An item in this paper last week stated that Miss Helen Herr had taken a trip through the West was in error. She should have read Miss Helen Harris.

### Church Carnival Friday, Saturday

The annual carnival of the Church of Our Lady of Good Counsel, Moorestown, will be held on the grounds in the rear of the church Friday and Saturday evenings of this week.

A large crowd from Moorestown and the surrounding towns will undoubtedly be attracted to the affair, which always creates much interest.

The usual attractive booth including candy, soft drink, farthing products, novelty, and many others will offer fine articles. There will be no dancing this year.

Look in a man's eyes for honesty; around his mouth for weakness; at his chin for strength; at his hands for temperance; at his nails for cleanliness.—George Horace Lorimer in "Old Gordon Graham."

### ZISAK A. A. vs. GIBBON A. A.

Tomorrow (Friday) evening the Zisak A. A. will play the strong and undefeated Gibbon A. A. of Riverside.

The local team has grown in strength since its organization and promises to give the Gibbon boys a tough battle.

The Riverton boys are working to get more equipment and eventually have an undefeated team on the diamond.

Don't forget the time—Friday evening at 6.15, on Memorial Park Field.

Frank Goodwin, Mgr.

### BUS DRIVER DIES OF HEART ATTACK

Penn-Jersey Driver Dies at  
Taylor's Garage; Had Gone  
After Car

George V. Meyers, 33-years-old, died in the Riverside Hospital last Saturday morning a few minutes after he was stricken with a heart attack at Taylor's Garage, Riverton.

Meyers, who had been driving a Penn-Jersey bus, was boarding at 631 Main street, Riverton. His "run," however, had been changed, and he was preparing to move to Philadelphia to nearer his work.

A short time ago Meyers purchased a Velle sedan from Taylor's Garage and had gone there Saturday to get it. He got into the car and started the motor, but while he was waiting for the motor to start, he was struck by a passing car which was standing nearby and was apparently "just looking over" George Thomas, a sales man, saw a peculiar look come over Meyers' face and walked over to ask him if he felt badly, but received no answer.

Afraid that Meyers would fall, Thomas put his arm around the sick man, just as he did so Meyers fell to the floor, drawing Thomas with him. Allen Taylor, Eddie O'Neill and Thomas put Meyers into the car and tried to locate a local physician. Finding none at home, Thomas sped to the Riverside Hospital, where Meyers died, less than ten minutes from the time he was stricken at Taylor's Garage.

Dr. Wagner was called into the hospital and every effort possible was made to revive Meyers, but without success. Oxygen and hyperdermic injections failed to give the slightest results.

Meyers' family home is in Philadelphia. The officials of the Penn-Jersey Garage at East Riverton took charge of the body.

### JUNIORS DEFEAT AJAX BY 6-1 SCORE

Bartley Stars at Bat With Three  
Hits; Cole Pitches  
Fine Game

On Thursday evening, July 12, the Riverton A. A. Juniors played the Hillcrest Club at a 7-7 tie in six innings. Gootie pitched good ball but was robbed of a victory by Jupiter Pluvius. The Juniors had one man on base, one out, and "murder" row" next at bat when Jupiter flooded the grounds.

Monday evening the Juniors displayed their prowess against the Ajax A. A. and applied a 6-1 trouncing in nine innings.

Ajax scored first by virtue of an error and two hits. But the Juniors scored three in the third, which proved to be enough. Bartley doubled, Broderick scored. Broderick doubled, scoring. Broderick scored a timely single, scoring Bartley and Broderick.

In the fourth inning, singled, Bortger walked and Bob Bartley cleaned up with a blazing triple to left field, scoring Terrell and Broderick.

Bartley faced the pitcher five times and walked, singled, doubled and tripled.

Team batting average:  
Player AB H. P.O.  
Bartley 30 15 372  
Broderick 35 12 372  
Perkins 35 13 372  
Broderick 31 11 355  
Reeves 22 8 348  
Foulk 28 8 296  
Terrell 27 4 260  
Hutchins 6 0 250

Gootie 5 2 400

Cole 21 2 235

Smith 10 2 200

URGENT SPORTSMEN TO  
AID IN GAME CENSUS

"Every sportsman a game census taker" is the aim of the New Jersey Fish and Game Commission in its campaign to more definitely establish the economic importance of native fish and game to residents of the Garden State. A recent census obtained through the co-operation of license clerks and hunters and fishermen, indicated that New Jersey has a fish and game value of a food value of at least a million dollars.

The importance of every sportsman assisting in the new census by giving to the clerk from whom he obtains his license, a record of fish and game taken in the previous year, is stressed by President H. J. Burlington, of Montvale, head of the Commission. President Burlington says that while the recreational features of fishing and hunting always will be of first importance, the food value already has been shown to be a surprising economic asset to the state. The income obtained from the census will be of immediate value to the Commission in determining certain policies of restocking and other fish and game development projects.

Look in a man's eyes for honesty; around his mouth for weakness; at his chin for strength; at his hands for temperance; at his nails for cleanliness.—George Horace Lorimer in "Old Gordon Graham."

Two other bids were submitted, Kolyn Construction Co., Trenton, \$97,000, and Carl R. Camp, Inc., Philadelphia, \$98,900. A representative of the Kolyn Co. protested the awarding of the contract to the Schwiers Company on the ground that it had not furnished a statement of equipment and financial condition, as required in the specifications.

"Quibble," Says Smith  
The board, however, after hearing the objection, decided to place the contract. The engineer pointed out that the board reserved the right to waive any non-essential technicalities in considering bids, and County Solicitor Wells said the provisions of the specifications requiring this data to be submitted were for the information of the board and was designed to bar contractors who were not competent to carry out the work satisfactorily. There was no real question as to the responsibility of the successful bidder and Engineer Smith characterized the protest as a mere quibble.

A resolution was passed authorizing the issuance of temporary improvement notes to pay for the work as it progresses, these notes to be taken up by a bond issue when the bridge is completed. This is the customary procedure. J. Lloyd Wright, however, voted against this resolution, against the awarding of the contract, and against the resolution appropriating \$104,000 for the construction of the bridge and the expenses incidental thereto.

It has been known by the members of the board for a long time that this bridge would have to be rebuilt. In fact, when Mr. Wright was director of the bridge several years ago, he recommended it. The structure was built for horse and wagon traffic and was never sturdy enough to carry the heavy motor traffic of the present time. Wright proposed that it be strengthened by additional piling, but the board realized this would be only a makeshift at the best, costing \$10,000 to \$12,000, and would answer for a short time. When a new bridge would have to be constructed, it was considered good business to erect the new bridge now, rather than waste money on temporary repairs.

Citizens Approve New Bridge  
At the meeting of the board last Friday the following letters were read, bearing on the bridge proposition: (Continued on Page 8)

### MOORESTOWN TO HAVE NEW RECTOR

The Rev. Thomas F. Rudden, who last week was appointed to the rectorship of the Church of Our Lady of Good Counsel, will arrive in Moorestown, this week, to take up his work. It has been announced.

The successor of the late Father Hendrick was appointed last Thursday by Bishop McMahon, of the Trenton Diocese. A number of changes in other South Jersey parishes were announced at that time. Father Hendrick was one of the most popular and prominent priests in the diocese. He comes from the Bound Brook parish, where he has been the rector for the past fifteen years and established a fine record, and was formerly a curate at St. Mary's Cathedral, Trenton.

The Rev. Thomas F. Hennessy, one time curate at the Sacred Heart Church, Trenton, goes from St. Mary's, Salem, to Bound Brook, as Father Rudden's successor.

MARY W. SACK  
Mary W. Sack, 61 years old, died at her home, 303 West Broad street, Palmyra, Monday, July 16.

Funeral services will be held Friday afternoon at two o'clock from the late residence with the Rev. J. William Lee officiating. Interment will be made in Arlington cemetery, Pensauken Township, with Frank A. Snover in charge.

The deceased is survived by her husband, George W. Sack, a son Horatio, and a daughter, Augusta.

Johnson Gives the  
Anti-Dry Assn. \$5000

Eldridge Reeves Johnson, of Moorestown, is one of the country's largest contributors to the Association Against the Prohibition Amendment, according to news dispatches from Washington last week.

Mr. Johnson has given the chief national "wet" organization \$5,000, according to the statement from the association.

Other large contributions listed include: William M. Elkins, Philadelphia, \$5,000; William Phelps Eno, Washington, D. C., \$1,000; Raymond Picot, Bryn Athyn, Pa., \$1,000; B. Dawson Coleman, Philadelphia, \$1,000, and an anonymous gift of \$5,000.

The organization reported receipts of \$119,994.28 during the past three months. This figure included loans amounting to \$22,500. Expenditures were listed at \$129,991.29.

## CONTRACT DING RIVER BRIDGE

New Doctor

DR. EUGENE A. MEYER

Palmyra man who will open an  
office at 68 East Main Street,  
Moorestown, this week.

DR. EUGENE MEYER

OPENS NEW OFFICE

Prominent Young Physician to Start  
Practice at Moorestown  
This Week

Dr. Eugene A. Meyer, a prominent young physician, will open an office for the practice of general medicine and homeopathy at 68 East Main street, Moorestown, next to the former Burlington County Trust Company, this week.

Dr. Meyer is a graduate of Palmyra High School, Hahnemann Medical College, Philadelphia, and this spring completed his internship at the West Jersey Homeopathic Hospital, Camden.

Moorestown's new physician has a host of friends in this section, having been a resident of Palmyra for a number of years. He ranked high in his classes in high school and medical school and established a splendid reputation at the Camden Hospital.

Dr. Meyer and Miss Ida Mae Hiner, of Riverside, were married at St. Stephen's Episcopal Church, Riverside, June 23. They recently returned from their wedding trip and are now residing at 68 East Main street.

### WATCH IS PRESENTED TO OFFICER WALLACE

Nelson Wallace, Palmyra police officer, who was shot in both thighs while making an arrest six weeks ago, was presented with a handsome gold watch by Mayor George N. Wimer at the fire house Tuesday evening, just before the meeting of Borough Council.

Wallace was originally planned to have the watch presented at the meeting in the council room but since he is not yet able to walk up steps the presentation was made on the first floor of the fire house. A number of about fifty citizens were present to offer congratulations to the plucky officer.

Mayor Wimer made a fine presentation speech in which he extolled Wallace for his devotion to duty and for keeping up the splendid record of the Palmyra police department. The watch is one very similar to the one given Chief of Police and Officer Rodgers when they were wounded in a gun battle with a gang of notorious gunmen four or five years ago.

The watch was purchased with contributions from the citizens at the Mayor's suggestion that the officer's heroism be rewarded.

### ARTISANS ON TRIP TO PACIFIC COAST

A party of 180 members of the Artisans' Order of Mutual Protection and their friends is leaving Philadelphia Saturday on a trip to the Pacific Coast under the auspices of the Artisans' Extension Committee, John Lapey, chairman.

Allen P. Cox, most excellent recorder of the Artisans, will direct the tour which will have as one of its objects a visit to the United Artisans, a similar order on the Pacific Coast with headquarters in Portland. Both fraternities were founded by the same men and operate on similar lines.

The departure is scheduled for 12.30 p. m. Saturday, July 21, from the Reading terminal. The first stop will be made at Chicago on Sunday morning. Several hours will be spent there for sightseeing, the tourists' trip leaving at 8 p. m. for Denver where the evening of Monday will be spent in sightseeing before the train leaves at 3 a. m. for Colorado Springs where a day will be spent sightseeing. From there the train will stop at San Francisco to spend five days touring Yellowstone Park.

After leaving West Yellowstone on Tuesday night, July 31, at 7 a. m. the party will head for Los Angeles where they will arrive Thursday, August 2, at 8 a. m. A dinner will be given that night to the party by members living in California. Boarding the train Saturday night, the tourists will resume their journey at 8 a. m. Sunday with Santa Barbara as their destination. Nine hours will be spent there and a short overnight journey will land them in San Francisco at 5 o'clock Monday morning, August 6. Leaving San Francisco that night, the special train will arrive Wednesday morning, August 8, at Portland. Tacoma, Bannock, Seattle, Vancouver, Lake Louise, Banff, Winnipeg, St. Paul, Chicago and Niagara Falls are the stops on the homeward journey. The party is due to arrive back home August 18.

We are the sons of our own deeds.—  
Cervantes.

## MUNICIPAL BUILDING PLAN NOT APPROVED BY COUNCIL

Fire Company Offer Discussed,  
But Action Deferred for  
Present

### DELINQUENT TAX LIST TO BE PUBLISHED SOON

At a meeting of the Riverton Borough Council Tuesday night of last week, Councilman Harry L. Randall, chairman of the fire and water committee, reported that a conference had been held with a committee from the Riverton Fire Company relative to the erection of a municipal building by the company.

After going into the subject in detail the committee from the fire company requested Mr. Randall to submit to council proposition that council pay enough rent to insure carrying charges on the proposed building—about \$3,000 a year.

Mr. Randall stated that he had presented the fire company's proposition as requested, but that the committee did not recommend its acceptance. He explained that while the initiative and civic interest shown by the company was fully appreciated, he thought it unwise as a matter of future policy for council to enter into an agreement with any private company in such a matter covering a period of years.

**Thinks Plan Unsound**  
Councilman Bartley thought the plan was unsound in principle and that council should not enter into an agreement of \$3,000 a year for its small requirements.

Councilman Welsh was strongly in favor of the immediate erection of a municipal building, providing quarters for the borough and such other public officials as could use it, the fire company and the police department, but believed that when a town hall is built it should be done by the borough.

Both Mr. Randall and Mr. Welsh felt that a suitable municipal building was an imperative necessity and should be provided as soon as possible. Mr. Lynch and Mr. Bartley did not share this opinion and suggested that the \$30,000 or \$40,000 which it would probably cost to put up a suitable structure could be better used for more pressing needs, such as a sewer disposal plant and a new school house, for instance. Mayor Rogers also raised the question as to whether or not a town hall is a pressing necessity at this time.

Councilman Williams was not present and Councilman Hubbs had been excused and left early. In the absence of a full attendance of the members of council a tentative discussion of the subject was postponed.

**R. R. Improvements**  
Mr. Randall, who was chairman of the committee to confer with the railroad company for the purpose of improving the Riverton reported that the company had made a survey of the situation and had arrived at certain conclusions as to what it was willing to do. Mr. C. Morris, superintendent of the New Jersey Division, had expressed a desire to discuss the proposition the company is ready to make with a committee of council and Mr. Randall said that he would arrange for such a conference at an early date.

The matter of delinquent taxes which has been frequently referred to since the first of the year, at which time the borough collector, C. Kenneth Davis, was instructed to prepare for publication a list of delinquents owing personal taxes, was again brought to the attention of council when Mr. Bartley stated the delinquent tax collector appointed more than a year ago had not rendered satisfactory service and asked for the appointment of a new delinquent collector, recommending Officer William Quigley for the position. In the discussion that followed it was decided to postpone action on the appointment of the new delinquent collector until the matter could be considered by the police department. Collector Davis informed council that the list of delinquents would be published soon.

(Continued on Page 6)

## RIVERTON WOMEN INJURED IN CRASH

Mrs. Irving Donaghy and Mrs. W. H. Botterger Suffer Minor Injuries

When Bus Goes Into Ditch  
Two Riverton women were injured Saturday evening when one of the large Penn-Jersey buses ran off the roadway of River Road near Mohican Lane below Palmyra.

Mrs. Irving Donaghy, of Fifth street, was taken to the Cooper hospital by a passing motorist. Her left eye was cut and it was necessary for the physician to take one stitch to close the wound. She later returned to her home.

Mrs. W. H. Botterger, of Linden avenue, was thrown against the side of the bus and was painfully bruised but she refused to go to the hospital. She later was taken to her home.

Robert Dickenson, 1617 Orthodox street, Philadelphia, driver of the bus, told the Pensauken township police he was blinded by a headlight and followed the rear light of a car ahead.

The car made a turn into Mohican lane exposing the full force of the glare. He made a slight turn to avoid possible collision, but couldn't see the ditch.

**ANNA H. TEES**  
Anna H. Tees died at her home, 1108 Parry avenue, Palmyra, last Friday morning.

Funeral services were held from the late residence Tuesday afternoon at two o'clock with the Rev. J. William Lee officiating. Interment was made in Arlington cemetery, Pensauken township, with Frank A. Snover in charge.

The Order of Eastern Star, of which Mrs. Tees was Past Worthing Matron, held services at the home, Monday evening.

The deceased is survived by her husband, Joseph Tees, a son, Russell, of Philadelphia, and a daughter, Edna.

## LEGION POST JR'S. NEAR STATE TITLE

Captain James MacFarland Post of  
Burlington Has Developed  
Fine Junior Team

Captain James MacFarland Post No. 79, of Burlington, has sponsored a great team of hard fighting juveniles under seventeen years of age. After untiring effort they have obtained the distinction of Champions of Burlington County.

Next Saturday, July 21, they will play the champions of Mercer County at Burlington. This game will decide the championship of South Jersey.

The winner will go to Newark, where on July 28, 30 and 31 it will play the championship of the State. MacFarland Post's Junior Team is nearing the South Jersey Championship, as well as the State Championship, and there is every indication that both will be carried away by them.

## ROTARIANS SEND BOYS TO CAMP

Six Palmyra-Riverton Youths  
Enabled to Enjoy Stay  
at Ockanickon

One of the most active and most appreciated Committees of the Palmyra-Riverton Rotary Club is the Boys' Work Committee. This committee has been active for the past two years and has attained much success in its work, particularly during the Christmas and vacation seasons of the year.

So far, it has been enabled to send six boys who would not otherwise have an opportunity, to the Y. M. C. A. Camp "Ockanickon." This number will probably be augmented before the season closes.

**Committee Busy**  
Chairman Joseph T. Evans, Harold B. Lever and Frank Snover are a trio hard to beat when it comes to working among the boys, and they have won much favor in the hearts of both those of the less fortunate and those who need encouraging in the conduct of clean sports.

Boys' Work is Rotary's long suit and the local club stands ever ready to support the committee in any of its enterprises.

"Where is the Quartette?" the question which has been heard so frequently during the songs featured at the weekly gatherings ever since the disbanding of the "wonderful four" and its entering "grand uproar," has now taken on a little different form. The question now is, "Who is the Quartette?" Like mushroom growth there sprung up two of the latest additions to the club's musical repertoire.

**Remarkable Quartette**  
Doc Mills, Jim West, Bill Albertson and "Bliss" Lockett, disclosed their ability in wonderful fashion. Not wishing to be outdone, Horace Finney, Ned Richmond, Paul Burr, of vocal renown, persuaded "Bliss" Lockett to act as a neutral "fourth," did justice to themselves, at least, by rendering a very unique number.

From now on, "Pat" Steedle, the singer, will be accompanied with requests by these aspiring quartettes for evening presentations. Competition being the life of trade, the club is almost assured of a musical number from one of the two quartettes with Doc Dey, the pianist, to do the accompanying.

The even hour schedule for the summer months has added much vigor to the meeting and has effected a good attendance average. The dinner hour is from 6:15 to 7:15.

## ALEXANDER JOHN GREER

Alexander John, the 19-year-old son of Mr. and Mrs. William Greer, died Monday morning, July 16, at his home on the Riverton-Moorestown road.

Several years ago Alexander was ill with acute fever and was left with a weak heart. Since that time he has not been able to work more than a few weeks at a time. Recently he has been confined to his bed.

The deceased was a member of Washington Camp 23, P. O. S. of A. The Camp held services at the home Wednesday evening.

Funeral services will be conducted at the Moravian Church by the Rev. A. J. Harker this (Thursday) afternoon. Interment at Aubrey cemetery under the direction of Frank A. Snover.

## CARD OF THANKS

Joseph H. Tees and children wish to express their appreciation of the many kindnesses extended to them during their recent bereavement.

## State Road Hearing at Pensauken Aug. 1

The pulse of the people regarding the proposed state highway route No. 98 that would pass from Crescent Boulevard over Cedar avenue, Pensauken, may be felt at a meeting scheduled for August 1.

The meeting was agreed upon at last week's session of the Pensauken Township Committee. It will hear protests from those who oppose the road and hear arguments in favor from those who see its advantages.

F. A. Wilson, construction engineer of the State Highway Department, will attend and submit the state's side of the story. At the former meeting of the township committee, protests were filed against the road by residents of Cedar avenue who object, principally, to the plan that would widen the street.

## New School Head

Paul Y. Eckert to Succeed Prof.  
A. S. Griffith Who Has  
Retired

Paul Y. Eckert, of Hanover, Pa., has been appointed supervising principal of the Palmyra school system, succeeding Professor A. S. Griffith, whose resignation was read at the meeting of the Board of Education last Thursday evening.

Mr. Griffith has been placed on the disability list of the State Teachers' Retirement Fund on account of his illness from which he was not expected to recover to such an extent as to allow him to return to his duties.

The new supervisor comes to Palmyra with the unqualified recommendation of Dr. Jackson, assistant state commissioner of education, who, it may be recalled, was the one who wrote the letter severely criticizing the Palmyra school system last winter. Mr. Eckert also presented very fine letters from the different schools with which he has been associated during the past several years.

His selection was approved by every member of the Board and it was agreed that the management of the school should be left entirely to him. He will be present at the August meeting when the report of the recent survey will be received and will be instructed to carry out the suggestions of the State Board.

Dr. Eckert's recommendations lay particular stress on his abilities as a disciplinarian and it is thought that he will fit in exceedingly well with the particular requirements of the school. His educational qualifications are very complete and experience have been varied enough as to enable him to meet any situation which may arise.

Professor Eckert received his degree as Bachelor of Arts from Dickinson College in 1900 and Master of Arts in 1909. During this time he was Principal of Tuscarora Academy, Academics, Pa., and during the following year he was principal of the High School at Bridgeton, N. J.

In 1911 Mr. Eckert accepted a position in the mathematics department at the Benson Polytechnic High School, Portland, Oregon, where he remained until 1915. The next two years he spent as Principal of the Llewellyn School, of Portland. During this time he studied law and received his degree from the University of Oregon. The Professor said he did not expect to practice law, but took this course for its benefit to him in school administration work.

Principal of the Oregon School, also of Portland, and then he returned to the East so he might be near his parents in their declining years. He was fortunate in securing the position of principal of the schools at Conahocken, Pa., where he served two years.

He has been Superintendent of Schools of Neptune Township, Ocean Grove, N. J., for the past eight years and was under the tenure of office at that place, where he would have been secure in his position as long as he would have cared to stay, but resigned his position a year ago to look for a position more satisfactory to himself.

It is the opinion of those in touch with the situation that Palmyra is very fortunate in securing the services of an educator of such wide experience and proven ability to head its growing school system.

The new supervisor is a married man, 45 years of age, has been seventeen years old and the other twelve. He is forty-four years old, nearly six feet tall and weighs 185 pounds.

## HOWARD TAYLOR'S ORCHARD RAIDED

Seven Youths From Camden "Caught With the Goods"

Seven Camden youths were reprimanded and made to pay the costs of hearings before Justice of the Peace John McNulty, of Fairview, when they were arrested for stealing apples from the orchard of a farm owned by Howard G. Taylor, Jr., last Friday afternoon.

The youths were taken into custody by Special Officer Daniel Vogtman as they were seen in the orchard and going toward their machine with the apples tucked away in their shirts. They pleaded guilty at the hearing and paid the costs of \$250 each. They gave their names as Joseph Verga, 216 Milton street; William Merryfield, 221 Milton street; Edward Nemy, 231 Milton street; Joseph Brown, 217 Penn street; John Bush, 21 Wood street; Samuel Macintosh, 244 Byron street, and Paul Pilon, 622 North Front street.

**CORRECTION**  
An item in this paper last week stated that Miss Helen Herr had taken a trip through the West was in correct and should have read Miss Helen Harris.

## Church Carnival Friday, Saturday

The annual carnival of the Church of Our Lady of Good Counsel, Moorestown, will be held on the grounds in the rear of the church Friday and Saturday evenings of this week.

A large crowd from Moorestown and the surrounding towns is expected to attend the affair, which always creates much interest.

The usual attractive booths, including candy, cake, soft drink, farming products, novelty, and many others will offer fine articles. There will be no dancing this year.

## PICNIC

American Legion and Auxiliary to Visit Greenloch Park

Saturday at Greenloch Park. Meet at Legion Home 1:30 p. m. Members having cars can accommodate others, please notify Ted D'Austrechy, Riverton 321-R, or Clint Gibson, Riverton 1010.

There will be games, all kinds of races, and a peanut scramble. BRING YOUR OWN LUNCH!

## NEW HEAD FOR PALMYRA SCHOOL

Paul Y. Eckert to Succeed Prof.  
A. S. Griffith Who Has  
Retired

Paul Y. Eckert, of Hanover, Pa., has been appointed supervising principal of the Palmyra school system, succeeding Professor A. S. Griffith, whose resignation was read at the meeting of the Board of Education last Thursday evening.

Mr. Griffith has been placed on the disability list of the State Teachers' Retirement Fund on account of his illness from which he was not expected to recover to such an extent as to allow him to return to his duties.

The new supervisor comes to Palmyra with the unqualified recommendation of Dr. Jackson, assistant state commissioner of education, who, it may be recalled, was the one who wrote the letter severely criticizing the Palmyra school system last winter. Mr. Eckert also presented very fine letters from the different schools with which he has been associated during the past several years.

His selection was approved by every member of the Board and it was agreed that the management of the school should be left entirely to him. He will be present at the August meeting when the report of the recent survey will be received and will be instructed to carry out the suggestions of the State Board.

Dr. Eckert's recommendations lay particular stress on his abilities as a disciplinarian and it is thought that he will fit in exceedingly well with the particular requirements of the school. His educational qualifications are very complete and experience have been varied enough as to enable him to meet any situation which may arise.

Professor Eckert received his degree as Bachelor of Arts from Dickinson College in 1900 and Master of Arts in 1909. During this time he was Principal of Tuscarora Academy, Academics, Pa., and during the following year he was principal of the High School at Bridgeton, N. J.

In 1911 Mr. Eckert accepted a position in the mathematics department at the Benson Polytechnic High School, Portland, Oregon, where he remained until 1915. The next two years he spent as Principal of the Llewellyn School, of Portland. During this time he studied law and received his degree from the University of Oregon. The Professor said he did not expect to practice law, but took this course for its benefit to him in school administration work.

Principal of the Oregon School, also of Portland, and then he returned to the East so he might be near his parents in their declining years. He was fortunate in securing the position of principal of the schools at Conahocken, Pa., where he served two years.

He has been Superintendent of Schools of Neptune Township, Ocean Grove, N. J., for the past eight years and was under the tenure of office at that place, where he would have been secure in his position as long as he would have cared to stay, but resigned his position a year ago to look for a position more satisfactory to himself.

It is the opinion of those in touch with the situation that Palmyra is very fortunate in securing the services of an educator of such wide experience and proven ability to head its growing school system.

The new supervisor is a married man, 45 years of age, has been seventeen years old and the other twelve. He is forty-four years old, nearly six feet tall and weighs 185 pounds.

## HOWARD TAYLOR'S ORCHARD RAIDED

Seven Youths From Camden "Caught With the Goods"

Seven Camden youths were reprimanded and made to pay the costs of hearings before Justice of the Peace John McNulty, of Fairview, when they were arrested for stealing apples from the orchard of a farm owned by Howard G. Taylor, Jr., last Friday afternoon.

The youths were taken into custody by Special Officer Daniel Vogtman as they were seen in the orchard and going toward their machine with the apples tucked away in their shirts. They pleaded guilty at the hearing and paid the costs of \$250 each. They gave their names as Joseph Verga, 216 Milton street; William Merryfield, 221 Milton street; Edward Nemy, 231 Milton street; Joseph Brown, 217 Penn street; John Bush, 21 Wood street; Samuel Macintosh, 244 Byron street, and Paul Pilon, 622 North Front street.

**CORRECTION**  
An item in this paper last week stated that Miss Helen Herr had taken a trip through the West was in correct and should have read Miss Helen Harris.

## Church Carnival Friday, Saturday

The annual carnival of the Church of Our Lady of Good Counsel, Moorestown, will be held on the grounds in the rear of the church Friday and Saturday evenings of this week.

A large crowd from Moorestown and the surrounding towns is expected to attend the affair, which always creates much interest.

The usual attractive booths, including candy, cake, soft drink, farming products, novelty, and many others will offer fine articles. There will be no dancing this year.

## PICNIC

American Legion and Auxiliary to Visit Greenloch Park

Saturday at Greenloch Park. Meet at Legion Home 1:30 p. m. Members having cars can accommodate others, please notify Ted D'Austrechy, Riverton 321-R, or Clint Gibson, Riverton 1010.

There will be games, all kinds of races, and a peanut scramble. BRING YOUR OWN LUNCH!

## ZISAK A. A. GIBBON A. A.

Tomorrow (Friday) evening the Zisak A. A. will play the strong and undefeated Gibbon A. A. of Riverside.

The local team has grown in strength since its organization and promises to give the Gibbon boys a tough battle.

The Riverton boys are working to get more equipment and eventually have a uniformed team on the diamond.

Don't forget the time—Friday evening at 6:15, on Memorial Park Field.

Frank Goodwin, Mgr.

## BUS DRIVER DIES OF HEART ATTACK

Penn-Jersey Driver Dies at  
Taylor's Garage; Had Gone  
After Car

George V. Meyers, 33-years-old, died in the Riverside Hospital last Saturday morning a few minutes after he was stricken with a heart attack at Taylor's Garage, Riverton.

Meyers, who had been driving a Penn-Jersey bus, was boarding at 621 Main street, Riverton. His "run," however, had been charged, and he was preparing to move to Philadelphia to be nearer his work.

A short time ago Meyers purchased a Velle sedan from Taylor's Garage and had gone there Saturday to get it. He got into the car and started the motor, after a minute he stopped the motor and went over to a new Auburn which was standing nearby and was apparently "just looking it over." George Thomas, a sales man, saw a peculiar look come over Meyers' face and walked over to ask him if he felt badly, but received no answer.

Afraid that Meyers would fall, Thomas put his arm around the sick man. Just as he did so Meyers fell to the floor, dragging Thomas with him. Allen Taylor, Eddie O'Neill and Thomas put Meyers into the car and tried to locate a local physician. Finding none at home Thomas sped to the Riverside Hospital where Meyers died less than ten minutes from the time he was stricken at Taylor's Garage.

Dr. Wagner was called into the hospital and every effort possible was made to revive Meyers, but without success. Oxygen and hyperinjection failed to give the slightest result.

Meyers' family home is in Philadelphia. The officials of the Penn-Jersey garage in East Riverton took charge of the body.

## JUNIORS DEFEAT AJAX BY 6-1 SCORE

Bartley Stars at Bat With Three Hits; Cotes Pitches Fine Game

On Thursday evening, July 12, the Riverton A. A. Juniors played the Millers of Camden to a 7-1 tie in six innings. Gootes pitched good ball but was robbed of a victory by Jupiter Pluvius. The Juniors had one man on base, one out, and "murderers" were next at bat when Jupiter flooded the grounds.

Monday evening the Juniors displayed their prowess against the Ajax A. A. and applied a 6-1 trouncing in nine innings.

Ajax scored first by virtue of an error and two hits. But the Juniors scored three in the third, which proved to be enough. Botterger walked, Bartley doubled, scoring Botterger. Broderson beat out an infield hit. Perkins slapped a timely single, scoring Bartley and Broderson.

In the fourth Terrell singled, Botterger walked and Bob Bartley already with a blazing triple to left field, scoring Terrell and Botterger.

Bartley faced the pitcher five times and walked, singled, doubled and tripled.

Team batting average:  
Player AB H P.C.  
Bartley 30 15 .500  
Botterger 26 12 .472  
Berkins 25 13 .520  
Broderson 21 11 .524  
Reeves 23 8 .348  
Sloan 28 8 .286  
Foulke 27 7 .260  
Terrell 4 1 .250  
Hutchins 6 0 .000

Gootes 5 2 .400  
Cotes 21 7 .333  
Smith 10 2 .200

## URGENT SPORTSMEN TO AID IN GAME CENSUS

"Every sportsman a game census taker," is the aim of the New Jersey Fish and Game Commission in its campaign to more definitely establish the economic importance of native fish and game to residents of the Garden State. A recent census obtained through the co-operation of license clerks and hunters and fishermen, indicated that New Jersey has annual fish and game bag of a food value of at least a million dollars.

The importance of every sportsman to the new census is being given to the clerk from whom he obtains his license, a record of fish and game taken in the previous year, is stressed by President H. J. Burlington, of the Montvale, N. J., organization.

President Burlington says that while the recreational features of fishing and hunting always will be of first importance, the food value already has been shown to be a surprising economic asset to the state. The information obtained from the census will be of immediate value to the Commission in determining certain policies of restocking and other fish and game development projects.

Look in a man's eyes for honesty; around his mouth for weakness; at his chin for strength; at his hands for temperance; at his nails for cleanliness.—George Horace Lorimer in "Old Gordon Graham."

## BUY AT HOME

CONTRACT  
DING RIVER BRIDGE

New Doctor

DR. EUGENE A. MEYER

Palmyra man who will open an office at 68 East Main Street, Moorestown, this week.

## DR. EUGENE MEYER OPENS NEW OFFICE

Prominent Young Physician to Start Practice at Moorestown This Week

Dr. Eugene A. Meyer, a prominent young physician, will open an office for the practice of general medicine and homeopathy at 68 East Main street, Moorestown, next to the former Burlington County Trust Company, this week.

Dr. Meyer is a graduate of Palmyra High School, Hahnemann Medical College, Philadelphia, and this spring completed his internship at the West Jersey Homeopathic Hospital, Camden.

Moorestown's new physician has a host of friends in this section, having been a resident of Palmyra for a number of years. He ranked high in his classes in high school and medical school and established a splendid reputation at the Camden Hospital.

Dr. Meyer and Miss Ida Mae Harner, of Riverside, were married at St. Stephen's Episcopal Church, Riverside, June 23. They recently returned from their wedding trip and are now residing at 68 East Main street.

## WATCH IS PRESENTED TO OFFICER WALLACE

Nelson Wallace, Palmyra police officer, who was shot in both thighs while making an arrest six weeks ago, was presented with a handsome gold watch by Mayor George N. Wimer at the fire house Tuesday evening, just before the meeting of Borough Council.

It was originally planned to have Wallace present at the meeting in the council room but since he is not yet able to walk up steps the presentation was made on the first floor of the fire house. A gathering of about fifty citizens was present to offer congratulations to the plucky officer.

Mayor Wimer made a fine presentation speech in which he extolled Wallace for his devotion to duty and for keeping up the splendid record of the Palmyra police department. The watch is one very similar to the ones given to Chief Beck and Officer Rodgers when they were wounded in gun battles with a gang of notorious gunmen four or five years ago.

The watch was purchased with contributions made by several citizens at the Mayor's suggestion that the officer heretofore be rewarded.

## ARTISANS ON TRIP TO PACIFIC COAST

A party of 180 members of the Artisans Order of Mutual Protection and their friends will depart for Philadelphia Saturday on a trip to the Pacific Coast under the auspices of the Artisans Extension Committee, John Lipsey, chairman.

Allen P. Goss, excellent recorder of the Artisans, will direct the tour which will have as one of its objects a visit to the United Artisans, a similar order on the Pacific Coast with headquarters in Portland, Ore. The party will spend five days touring Yellowstone Park.

After leaving West Yellowstone on Tuesday night, July 21, at 7 a. m. the party will head for Los Angeles, where they will arrive Thursday, August 2, at 8 a. m. A dinner will be given that night to the party by members living in California. Boarding the train Saturday night, the tourists will resume their journey at 5 a. m. Sunday with Santa Barbara as their destination. Nine hours will be spent there and a short overnight journey will land them in San Francisco at 5 o'clock Monday morning, August 6. Leaving San Francisco that night, the special train will arrive Wednesday morning, August 8, at Portland, Tacoma, Rafter National Park, Seattle, Vancouver, Lehi, Louis, Banff, Winnipeg, St. Paul, Chicago and Niagara Falls are the stops on the homeward journey. The party is due to arrive back home August 18.

## JOHNSON GIVES THE Anti-Dry Assn. \$5000

Eldridge Reeves Johnson, of Moorestown, is one of the country's largest contributors to the Association Against the Prohibition Amendment, according to news dispatches from Washington last week.

Mr. Johnson has given the chief national "wet" organization \$5,000, according to the statement from the association. Other large contributions listed include: William M. Elkins, Philadelphia, \$5,000; William Phelps Eno, Washington, D. C., \$1,000; Raymond Pitcairn, Bryn Mawr, Pa., \$1,000; B. Dawson, Coleman, Philadelphia, \$1,000, and an anonymous gift of \$5,000.

The organization reported receipts of \$118,954.28 during the past three months. This figure included loans amounting to \$22,500. Expenditures were listed at \$128,901.29.

The Rev. Thomas F. Rudden, who last week was appointed to the rectorship of the Church of Our Lady of Good Counsel, will arrive in Moorestown, this week, to take up his work. It has been announced.

The successor of the late Father Hendrick was appointed last Thursday by Bishop McMahon, of the Trenton Diocese. A number of changes in other South Jersey parishes were announced at that time.

Father Rudden is one of the most capable and prominent priests in the diocese. He comes from the Bound Brook parish, where he has been the rector for the past fifteen years and established a fine record, and was formerly a curate at St. Mary's Cathedral, Trenton.

The Rev. Thomas F. Hennessey, one time curate at the Sacred Heart Church, Trenton, goes from St. Mary's, Salem, to Bound Brook, as Father Rudden's successor.

**MARY W. SACK**  
Mary W. Sack, 61 years old, died at her home, 303 West Broad street, Palmyra, Monday, July 16.

Funeral services will be held Friday afternoon at two o'clock from the late residence with the Rev. J. William Lee officiating. Interment will be made in Arlington cemetery, Pensauken township, with Frank A. Snover in charge.

The deceased is

## ZURBRUGG HEIRS ASK CASH AWARD

Are Against Being Paid Off in  
Stock of Watch Case  
Company

A question having arisen in the distribution of the estate of Joseph J. Zurbrugg, deceased, of Camden, who died in 1912, Joseph J. Zurbrugg, Jr., of Camden, appeared before Judge Slaughter in the Burlington County Orphans' Court Thursday morning of last week in the interest of the Orland Trust Company, of Philadelphia, the surviving trustee. The deceased left an estate valued at nearly \$2,000,000 with the Zurbrugg Memorial Hospital at Riverside as the residuary legatee. One of the bequests was \$33,500 to his brother, Augustus J. Zurbrugg, who died recently.

Augustus J. Zurbrugg left three children, one a minor, and Attorney Sumner applied to the court for a decision as to whether the children were to be paid the \$33,500 in stock of the Keystone Watch Case Company, which comprised the greater part of the estate or whether the money was to be paid in cash. George M. Hillman represented the guardian of the minor child of Augustus Zurbrugg, deceased, and claimed that the will was clear on this point and that the cash should be paid, with which the court partly agreed. Decision was reserved until a previous decision in 1923 by ex-Judge Harold B. Wells could be located, it evidently having been mislaid.

## STATE FARMERS TO HOLD PICNIC JULY 26

Affair Will Be Held at Clementon  
Park With Camden Board as  
Judge and Hosts

This year the farmers of the State of New Jersey will be the guests of the Camden Board of Agriculture and Camden County Pomona Grange at Clementon Park in Camden county. Every convenience and attraction that a modern amusement park can offer to the public, such as bathing, boating and amusements, are to be found in this picnic spot. Visitors are asked to come early. The day will be officially opened at 12 o'clock. This will enable picnic lunches to be eaten in comfort before the speaking and horse-shoe contest begin. Plenty of shade for picnic parties is available. The New Jersey Market train on that day will be located at Clementon. It will be on the side about two blocks from the park grounds and will be open to all who care to visit it. Clementon Park is located on the White Horse Pike about twelve miles from Camden, therefore, people in Burlington county will not have far to drive to attend this big farmer's picnic. It is hoped that a large delegation from Burlington county will be present.

### SOME PICKER

Gibson's Landing, B. C.,—Wing Russell claims a new strawberry picking record. In the course of nine hours' work she picked and decapped 160 pounds of strawberries.

### BRING 'EM ON!

Grand Island, Neb.—A special remedy for dogs that chase his motorcycle has been devised by Motorcycle Officer Ramsey. It is a pistol with blank cartridges.

## Make Longest Flight in History

Major Del Prete and Captain Ferrarin, whose flight from Rome to South America was one of 4,000 miles, the longest flight made thus far in the history of aviation.

## Clothes Stolen, Return Home in Bathing Suits

A party of young people from Mount Holly, who went to Atlantic City for a day's outing recently, had an experience which they will not soon forget and may lead to an action for damages by the father of two of the young ladies, against the bath house proprietors who are held responsible for the predicament in which the girls found themselves when they emerged from their ocean bath.

When they arrived at Atlantic City they went to the bath house establishment and engaged separate rooms. To their discomfort, three of the girls were herded into one room but they managed to change their clothing and went into the ocean. During their absence two other women, strangers to them, were assigned to the already overcrowded room occupied by the Mount Holly girls.

When the girls returned from their bath, they found their clothing had been stolen and their money taken. As well, in the place of the missing apparel had been left the clothes of the thieves, which were in very bad condition.

When the young ladies complained to the bath house proprietor, they obtained no satisfaction, being told that the owners were not responsible for anything stolen from the bath houses. The young women had to wear their wet bathing suits home.

Those who suffered from the thefts were Misses Marguerite and Elizabeth Gauntt, daughters of Dr. and Mrs. P. L. Gauntt, of Mount Holly, and Miss Sarah Jones, daughter of Mr. and Mrs. D. Budd Jones of Vincentown.

Dr. Gauntt has placed the case in a lawyer's hands and will institute suit for damages unless the bath house proprietors make satisfactory amends for the outrageous treatment accorded their Burlington county patrons.

### THINK OF THIS!

Shanghai—Tommy Dixon lent a beachcomber \$5. The beachcomber spent a dollar of it for a race ticket. The beachcomber won \$4,300 and insisted on giving Dixon half. Dixon is an American who hails from Boston.

### A LIVE WIRE

Elizabethtown, Ky.—E. R. Thomas, 70, while walking in the woods, suddenly felt that his feet were tied together. Thinking a piece of wire had caught him he stooped to take it off. He discovered it was a "live wire"—a black snake more than five feet long. He killed the snake.

## BRIDGEBORO SPAN TO BE READY SOON

Expected to be Open to Traffic  
Before End of September

C. A. Eaton, superintendent of construction on the new Bridgeboro bridge, said last week that the bridge would probably be completed and opened to traffic sometime during September.

The structural steel work which was begun last week has been finished on the north side of the bridge from the abutment to the first pier. Eaton said he expects to have all of the steel work finished this week. After this has been accomplished the task of encasing the steel in cement will be taken up.

The span is 90 feet long and has two abutments and three piers. The piers are sunk 30 feet below high water. The highest point of the bridge will be 26 feet above the surface of the water. A 40-foot roadway and a 6-foot sidewalk on the west side of the bridge will make up the width. The draw is being erected so that small pleasure craft may pass under without opening it.

The bridge is being constructed by the Eastern Engineering Company of Atlantic City, who erected the two-mile bridge between Toms River and Seaside Heights, who will next year erect a mile-and-a-half bridge across Barnegat Bay from Manahawkin to Beach Haven. Fifty men are employed and the work has been going on for 10 months. Eaton says there will be no more delays.

## BURLINGTON GIRL ALMOST "QUEEN"

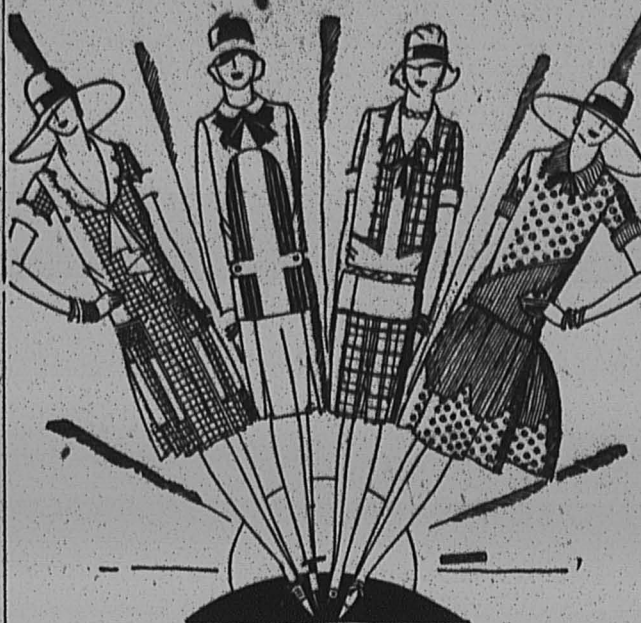

Burlington Miss Defeated for Distinctive Honor by One Vote,  
Phila. Entrant Winning

Miss Margaret Hughes, of Burlington, whom many declared to be the most charming of all the fair charms at the fifth annual party of the Wildwood Chamber of Commerce, missed being the queen of the Wildwood baby parade in August by one vote.

Miss Hughes was defeated for the distinctive honor by Miss Gertrude Hoff, a pretty little bob-blond from Philadelphia. Miss Hughes received twenty-one votes. Miss Hoff received twenty-two.

## FRIENDS ISSUE CALL TO ARMS

At the conference of Friends at Cape May last week which  
elected former State Senator Emmor Roberts a vice chairman of  
the central committee, Dr. Jesse H. Holmes of Swarthmore Col-  
lege said:

"We need to break up our camps of ease and move on. The  
Constitution of the United States might be added to the scrip-  
tures for it was formed to carry out great ideas. Politics  
should be a means to this end and instead of Friends keeping  
out of politics they should go in and stay in.

"We have no right to be inert. Election should be a sacra-  
ment. Forget the heredity of party and help bring the King-  
dom of God on earth by voting for it open fashion; call upon  
our fellows to help in the work to bring about a nobler national-  
ism and nobler patriotism."

He urged his hearers to go to the polls this fall and realize  
that duty lies not in blind party support, but with a vision of  
the Christian citizenship that is to be part of a small group  
that shall be the soul of the nation.

## CAREY FEARED BY HAGUE

A little man with a big voice and a  
genial twinkle in his eye, who lives  
in Hudson county, for years has been  
a militant Republican right in  
the heart of the enemy's country.  
More than that, he has had the  
supreme effrontery, as viewed from Boss  
Hague's angle, to aspire to be  
Governor of New Jersey.

Somewhere about the middle of the  
late Primary campaign he publicly  
confessed his ambition and set sail  
for the nomination for the Executive  
office. There were several reasons  
why he did not get it—not this time,  
but he had appeared good ground  
for believing Judge Robert Carey, of  
Jersey City, will be a stronger, per-  
haps the winning contender for the  
Republican gubernatorial nomination  
three years hence.

One of the reasons that Judge Carey  
only came in second in the guber-  
natorial sweepstakes last May was  
Frank Hague, and the latter may  
conceivably be a vital reason why  
the people will demand Judge Carey in  
1931.

But even though he did not realize  
his hope of becoming the Republican  
nominee for Governor this year, Judge  
Carey started something when he at-  
tacked the Hague machine with facts  
instead of mere abuse and generalities,  
as a candidate for the Executive  
office. He lifted the lid so that the  
public could peer within at the  
workings of the most powerful and  
arrogant political machine that ever  
functioned in New Jersey. He put his  
finger on the sore spots.

Hague, realizing that while Carey  
as a candidate for Governor in the  
Republican primary, might be annoy-  
ing, Carey as the party nominee and  
in logical sequence, the Republican  
Governor, would be a great deal more  
than that, so far as the Haguean  
dynasty was concerned. And so the  
Democratic boss set out to make the  
subject, but it should be remembered  
that the Democratic votes cast in the  
Republican ballot boxes in Hudson  
county last May fell far short of  
measuring the weight of Hague's dis-  
pleasure, so far as Judge Carey's can-  
didacy is concerned.

What Hague was able to do in Hud-  
son county he is credited with doing  
in lesser degree elsewhere. Collec-  
tively the Democratic votes cast in the  
Republican boxes for the purpose of  
defeating Carey may have been suf-  
ficient. The latter believes they were.  
The investigation into Hudson county  
affairs, for which Judge Carey was  
in large measure responsible, and the  
other investigation, that into the  
housing scandal, to which the Hud-  
son county Republicans contributed  
valuable information, are destined to  
provide some good Primary campaign  
material for Judge Carey three years  
hence. And his popularity is likely  
to increase with the succeeding years.

## RAISES STANDARDS

Representative Hawley, chairman of  
the House Committee on Ways and  
Means, in a recent statement con-  
cerning the protective tariff, said:  
"High wages in this country have  
been accompanied by a higher stand-  
ard of living of a better kind. This  
involves ownership of homes, auto-  
mobiles, radios, better food and  
clothes, and other living habits, which  
idle people are naturally attracted  
to by people. Now they must pay  
for them."

## Dr. Frank Crane Says

## CONVERSATION

Greenville Kleiser, well-known author  
and writer, gives some good advice  
about talking.

An immense amount of time and  
energy is constantly wasted, he says,  
by useless talking.

Some of the essentials that he men-  
tions for a good conversationalist are  
as follows:

The first condition of good talking is  
clear, well-ordered thinking. If your  
thoughts are in confusion your speech  
is liable to be non-effective.

Talking should not be a verbal non-  
vocal contest, but a mutual exchange  
of ideas. Monologues are tiresome.

Don't give advice. Advice costs  
nothing and is usually worth what it  
costs.

Don't exaggerate. It is easy to let  
your desires and feelings overcolor your  
views. Give the impression of under-  
statement rather than over statement,  
and what you say will have more ef-  
fect.

Keep your voice low. A low voice  
is not only an excellent thing in a  
woman, as Shakespeare says, but it is  
good for anybody. Many people are  
trying to talk to, because they con-

stantly bawl so loud. They drown  
out their opponent with sound.

Don't tell unduly long stories. Don't  
make a reputation for being a "fun-  
ny" man. This will put you in the  
class of lightweights. Stories are like  
seasoning or salt. They should be  
very judiciously intermingled and it  
is easy to get too many of them.

Do not interrupt another. Wait  
quietly for your turn to speak.

Don't relate lengthy personal ex-  
periences. A thing may be interest-  
ing to you because it is about your-  
self, but it is usually boring to other  
people. Don't be impatient.

When you observe that your listener  
does not wish to be convinced change  
the subject.

Speak clearly. Do not mumble.

Conversation is more than idle ex-  
ercise or ornamental superfluity. Its  
purpose is to keep the other party  
amused and interested. It is the wire  
upon which runs the current of your  
electric personality.

If you don't know how to talk,  
learn. Devote a certain part of your  
time to intelligent and diligent prac-  
tice in the art of small talk. It pays.

## DISCOURAGING CRIMINALS

## MAN IN SELFISH

Senator Jim Reed, who says he  
leaves the Senate next March, to prac-  
tice law, should change his mind.  
Others can practice law as well as  
he. Few can put important truths  
with emphasis such as his.

Have you read what Reed said, de-  
nouncing the League of Nations, in  
1919?

"I decline to set up any government  
greater than that established by the  
fathers, greater than that baptized in  
the blood of patriots from the lanes  
of Lexington to the forests of the  
Appomattox, greater than that sanc-  
tioned by the tears of mothers whose hero-  
sons have gone down to death to sus-  
tain its glory and its independence.  
I decline to set up any government  
greater than the Government of the  
United States of America."

Thanks largely to Reed's good fight-  
ing, the wishy-washies did not suc-  
ceed in dragging this country into a  
European super-state. Such a  
man ought to be in public life, fight-  
ing to his last day.

In big cities hundreds of thousands  
to-day for their holiday in auto.  
A philosopher said, "Most of the cars  
are not paid for. In thousands of  
cases they represent money that might  
have meant independence in old age."

The automobiles represent money  
spent for health, pleasure and time  
saving NOW. Not one in ten is really  
independent in old age, nor was he  
before automobiles came.

COUNTY HISTORY  
OF 50 YEARS AGO

Items of Interest Published in  
Mount Holly Mirror  
July 11, 1878

The national banks now charge only  
six percent on notes. Will  
that affect dividends?

Bills received for the six per cent  
Burlington City water bonds averaged  
two per cent premium. It is another  
\$30,000 issue.

Green corn already is quite plenti-  
ful in market, at 12 to 15 cents per  
dozen ears. Home-grown tomatoes  
are bringing 10 to 12 cents per quart.  
The Pennsylvania railroad is now  
running a regular train between West  
Philadelphia and Jersey City in two  
hours. Quite respectable time, that.

James Lippincott brought from the  
west last week and delivered to  
Grangers at Rockland, 1,064 sheep.  
Former Assemblyman Samuel Taylor  
is manager of the new Hotel Park  
House, which is now open for guests.  
It contains 84 chambers. There is  
good yachting, fishing and bathing at  
that resort and it is a cool place to  
spend your vacation.

The Fourth of July was scoring  
hot, but not hot enough to quench pa-  
triotic enthusiasm in our midst. There  
was considerable noise all day, caused  
by fireworks, cannons and pistols.  
The military company spent the day  
at Smithville; America Fire Company  
picnicked in Spout Spring woods; the  
Catholics had a picnic on their church  
ground, and the Greenback-Labor  
party had a mass meeting on the  
court house grounds, the "mass" con-  
sisting of about 200 people.

Historical Silver Stolen  
Mrs. Judge Conover, whose residence  
in Marlboro was robbed during the  
celebration of the Battle of Mon-  
mouth last week, says: "It is singular  
that the same silver which be-  
longed to my grandfather, Col. Hender-  
son, who was the single horseman  
who informed Washington of Lee's  
retreat at the Battle of Monmouth,  
should have been the only things  
saved when our house was burned on  
the day of the battle, and should have  
been discovered by the searching eyes  
of robbers who invaded our premises  
on the anniversary of the battle and  
stolen by them 100 years later. On  
the morning of the battle our family  
fled to Englandtown. The silver  
was buried under certain bushes,  
where it was not discovered by the  
British, who stole many other ar-  
ticles and set fire to the house. The  
present generation kept the same  
silver in a safe in the house, which  
the burglars opened and rifled. We  
have no hope of ever recovering that  
silver."

## RIVERTON ITEMS

Mrs. Caroline McCarty and child-  
ren, of Germantown, were guests of  
Mr. and Mrs. J. Russell Jernon on  
Sunday, and they all motored to  
Seaside Park.

Miss Mabel Adams, of Philadelphia,  
visited her sister, Mrs. M. Ada Brown,  
Friday and Saturday.

John Kerrigan and family have  
moved from 518 Main street to  
Charles street, Palmyra.

Miss Edith E. Spear returned to  
her home in Pittsburgh on Monday,  
after spending three weeks with her  
aunt, Mrs. John Hillson. While here  
Miss Spear took an airplane flight  
and enjoyed the adventure very much.  
Mr. and Mrs. Wardell Roberts, of  
the Hazelhurst Apartments, were en-  
tertained by Mr. and Mrs. Raymond  
S. Barrett, of Trenton, at their sum-  
mer home at Bradley Beach over  
the weekend.

Mr. and Mrs. William Cross, of  
Reading, Pa., returned home Mon-  
day after spending a week with her  
sister and husband, Mr. and Mrs.  
M. Kraus.

Mr. and Mrs. Otto Sauers, Mrs.  
Clara Mehn and S. R. Cole motored  
to Wildwood on Sunday.

Mr. and Mrs. John F. Jamison are  
spending the week at Buck Hill Falls.  
Mr. and Mrs. Clifford Davis, of  
Deerfield, were guests of Mrs. Laura  
B. Davis from Thursday until Sun-  
day.

M. Coddington and family spent  
the weekend at Margate with Mr. and  
Mrs. Paul R. Good.

Mr. and Mrs. Edgar Jones, of New  
Rochelle, N. Y., were guests of his  
parents, Mr. and Mrs. P. E. Jones,  
over the weekend.

Mrs. William R. Evans and child-  
ren are spending two weeks at Wild-  
wood with her mother, Mrs. S. R.  
Cole.

P. A. Tompkins spent the weekend  
as the guest of Wayne V. Todds, of  
Chestnut Hill, at his summer home  
at Avalon, and enjoyed a trip aboard  
Mr. Todds' yacht.

Mr. and Mrs. Alexander Cole are  
receiving congratulations on the birth  
of a daughter, Elaine Dorman. Fri-  
day, June 19, at West Jersey Hospital.

Mr. and Mrs. W. A. Webb have  
taken a cottage at 100 Corinthian  
avenue, Ocean City, for the summer.

Mr. and Mrs. Russell Holvick and  
children and Mrs. Margaret Jenkins  
spent Sunday at Cedar Lake.

George Peace, of Germantown, YM  
CA secretary, spent Saturday with  
Oscar A. Kahler.

A. Silverman, of Philadelphia, spent  
Monday with Oscar A. Kahler.

Mrs. Laura B. Davis is having her  
house painted.

Mr. and Mrs. H. Hollerith and  
family, left Wednesday for a two  
month stay at Athens, Va.

John Maloney, of Beverly, has pur-  
chased a Nash sedan from Taylor's  
Garage.

Robert Mattis has returned home  
after spending two weeks in Wood-  
bury.

Bert Stokley, of Riverton, has pur-  
chased a Ford sedan from Taylor's  
Garage.

Mrs. Mary Wolfshmidt is spending  
several weeks at Ocean City.

Atwood Lloyd, of Beverly, purchas-  
ed a Ford touring car from Taylor's  
Garage.

The Misses Anna and Florence  
Loehowitz spent Sunday at Beach  
Arlington visiting friends.

Mrs. George Reinold, of Elizabeth-  
town, Pa., formerly Miss Beale Clark,  
spent a few days in Riverton this  
week.

Clifford Davis and bride, of Deer-  
field, N. J., spent the weekend with  
his aunt, Mrs. Laura B. Davis.

Edward Yerkes entertained rela-  
tives from Delaware and Maryland,  
last Sunday.

Miss Edna Lloyd will leave Friday  
night for Auburn, N. Y., to teach in

## SWANS DOWN ANGEL FOOD

The delicate flavor and texture of this delicious cake depends  
on light and deft handling of the mixture, low baking temperatures  
and fine ingredients.

The recipe:

- 1 cup sifted Swans Down Cake Flour
- 1 cup egg whites (8 to 10 eggs)
- 4 teaspoon salt
- 4 teaspoon cream of tartar
- 1 1/4 cups sifted fine granulated sugar
- 4 teaspoon vanilla
- 4 teaspoon almond extract

Sift flour once, measure, and sift four more times. Beat egg  
whites and salt on large platter with flat wire whip. When foamy,  
add cream of tartar. Continue beating until eggs are stiff enough  
to stand up in peaks, but do not dry. Fold in sugar, two table-  
spoons at a time. Fold in flour the same way; then flavoring.

Pour batter into ungreased Angel Food pan and bake in a  
very slow oven (275 degrees F.). After 30 minutes increase the  
heat slightly (325 degrees F.). Bake at least one hour. Remove  
from oven and invert pan for one hour or until cold.

SPECIAL PRICE, 2 PKGS. SWANS DOWN FLOUR 73c

## WIDER BROAD ST. MEETS OPPOSITION

Four Property Owners Against  
Petition Presented by P. L.  
myra C. of C.

A petition for the widening of Broad street from Leocoy Avenue to Cinnaminson and from Morgan Avenue to Garfield Avenue was presented to the Palmyra Borough Council, Tuesday evening, by the Palmyra Chamber of Commerce. The petition was read before the members of council by Thomas McCrossen, Chairman of the Chamber's Utility Committee.

The petition presented by the Chamber was a very comprehensive document, setting forth in detail the reasons why it was thought Broad street should be widened, and was presented with a separate petition bearing the signatures of the property owners who were in sympathy with this step.

When the question was discussed at the meeting of the Chamber last week it was thought the signatures of all the property owners would be on the petition when it was presented. All but two had signed the petition.

Four Owners Object

At the meeting of the Chamber, John S. Warner said he was willing to sign but asked some information, and after being told how it was expected to work out said he was sure he could get the signature of one of the hold-outs.

When the petition was presented to Council Mr. Warner said he was not in it. Later a petition was presented signed by John S. Warner, Charles T. Hawke, Sol Romm and Romm and Zisk protesting against the widening. The petition read as follows:

"We, the undersigned, do object to the widening of West Broad Street, from Cinnaminson Avenue to Leocoy Avenue, which is being ordered by the Chamber of Commerce.

Owners Petition

The petition in favor of the improvement read as follows:

"We, the undersigned, being property owners along the North side of Broad Street between Morgan and Garfield Avenues, and between Cinnaminson and Leocoy Avenues, in the Borough of Palmyra, Burlington County, New Jersey, do hereby petition the Mayor and Council of the Borough of Palmyra to widen Broad Street on the North side thereof between Morgan and Garfield Avenues and between Cinnaminson and Leocoy Avenues, to correspond with Broad Street as widened on the North side thereof between Garfield and Cinnaminson Avenues; and in consideration of the Mayor and Council of the Borough of Palmyra doing said work, including the relaying of any necessary curbs and sidewalks, and the improvement, to be paid for by the Borough of Palmyra, we do hereby agree to convey to the Borough of Palmyra for the sum of One Dollar, that part of our respective properties fronting on the North side of said Broad Street as may be necessary for the widening thereof as aforesaid.

MARY A. JOYCE  
JULIA M. McALLISTER,  
Owner of building occupied by Freeman's store.

JOHN H. ETRIS,  
N. DRIER,  
NICK BEITZ,  
BERTHA HAHN,  
HAROLD R. LEVER,  
Chairman Y. M. C. A. building committee.

Petition No. 2

July 17, 1928.  
To the Honorable Mayor George N. Winger and Council of the Borough of Palmyra.

It being the object of the Palmyra Chamber of Commerce to undertake those activities that are of the greatest civic and commercial benefit to our community, and being brought before the Chamber several months ago the subject of encouraging the widening of Broad Street in the two blocks, one between Garfield Avenue and Morgan Avenue and the other between Cinnaminson and Leocoy Avenues.

As the result of this discussion authority was given to appoint a committee to determine the advantages of such widening and also to learn whether there was a sufficient number of property owners in the blocks mentioned who favored such widening to warrant presenting the question to your body for such action as it may wish to take.

The committee was appointed with Mr. Thomas McCrossen as Chairman and found as follows:

"That the property owners on Broad street on the block between Cinnaminson Avenue and Garfield Avenue, many advantages resulting from the widening of the street would add very much to the safety of the public in giving a clearer traffic vision from the intersection station, remove some of the difficulty now encountered in turning by drivers or large vehicles such as trucks and buses and accelerate the speed with which traffic could be moved at the intersection of Broad and Cinnaminson Avenues.

"That the paving of the walk between the building line and curb would largely eliminate the necessity of vehicles driving over the walk for the purpose of loading and unloading and remedy the unsightly condition of these fronts after every rain, when it is common to see many puddles of dirty water.

"While it is appreciated that the matter of parking regulation lies with the Palmyra Police Department it is very evident that a wider roadway will result in some advantage in parking and will make a very great improvement by enabling drivers to turn in the roadway without the necessity of stopping to reverse in order to make the turn. This is particularly true in the block below Cinnaminson Avenue.

"Since the Public Service Railway is obliged by law to keep its tracks level with the adjacent roadway, it is the proper authorities will see that this is done.

"That since there is a merchandising motto that 'goods well displayed are half sold' it is evident that the widening of Broad Street, the main business street in the Borough, would benefit the merchants whose places of business are on that thoroughfare, by bringing the buying public to a closer view of what the merchant has to offer and therefore greater business should result. With the greater parking room that should be available when the widening of the street is added another selling convenience for the merchant whose desire it is to place the buying public.

## CLUB PILOT GIVES INSTRUCTIVE TALK

Pennock, of County Aero Unit,  
Serves as Teacher to Bud-  
ding Flyers

Lieutenant E. G. Pennock, chief pilot of the Burlington County Aero Club, was the speaker before the club at the semi-monthly meeting in the Moorestown Community House on Monday evening. This was thought by many of the members to be the most instructive talk yet given to the club on aviation.

Lieut. Pennock's talk took the form of general "ground school" instruction and covered briefly "classes of aircraft," "theory of flight" and a number of definitions used in airplane design.

The two general classes of aircraft, said Lieut. Pennock, are lighter-than-air and heavier-than-air. Under the first classification are included free balloons (which cannot be steered or propelled) and airships, such as the Los Angeles, which are propelled and steered. These latter ships are subdivided into (a) rigid, (b) semi-rigid, and (c) non-rigid.

The second general classification includes (1) ornithopters (like birds), (2) helicopters (swirl principal), and (3) airplanes. Airplanes are further divided into water planes (flying boats and hydroplanes) and land planes. Airplanes may also be of the tractor or pusher type, depending on whether the propeller is in front of the supporting wing surface pulling in through the air, or behind the supporting wing surface pushing the plane along.

In describing the theory of flight, Lieut. Pennock pointed out the interesting fact that the upper surface of an airplane wing is responsible for about three-quarters of the lift; while the under surface is responsible for only one-quarter of the lift. This is contrary to popular conception, but it is due to the "camber" or curve of the wing creating a suction above the upper surface as the wing glides through the air.

Lieut. Pennock has been kept busy with the Moorestown Airport giving instruction to members who have already obtained student licenses. William deL. French, of Moorestown, had the honor to be the first member to take a lesson and he is now well on the way to become a pilot.

More and More Flying

President H. H. Loggaker predicts that more and more people will take advantage of the opportunity of seeing Burlington County from the air from the Moorestown field as the knowledge of the club's safe airport and careful ship conditioning, under license and regulation of the U. S. Department of Commerce, becomes more widely spread throughout the county. Another rule of the club, in the interest of safety, is that the ship is never taken out except when the weather is considered absolutely safe for the flying of passengers.

At the Monday night meeting a list of members was read by the chairman of the club, and the assignment of certain members for duty at the field each day for the next two months to see that the ships are properly cared for and that passengers are given every consideration of attention that they require for a safe and enjoyable trip.

## PALMYRA NOTES

Mr. and Mrs. Edwin A. Green and son, Lloyd, of Horace Avenue, enjoyed Sunday and Monday with friends at Belmar.

Mr. and Mrs. Forrest W. Buck and children, Elizabeth and Forrest, Jr., of Scottsdale, Pennsylvania, are spending a month at Ocean City. Their home in Scottsdale was struck by lightning recently during their stay in Ocean City.

Mr. and Mrs. William H. Buck, of Bank Avenue, Mrs. John Bell, of Morgan Avenue, spent the weekend at the Pender Hotel, Ocean City.

Mr. and Mrs. Wilbert L. Rich and Miss Hazel W. Rich motored to Beach Haven, Sunday.

Mr. and Mrs. William O'Donnell, Mr. and Mrs. Joseph A. Schwartz and Mr. and Mrs. F. J. Barr spent Sunday at Cedar Lake.

Miss Christine Green and Fred Green, Jr., have returned from a vacation at Ocean City.

Mr. and Mrs. Bert Horton, of Cinnaminson Avenue, are being congratulated on the birth of a daughter, Saturday morning, July 14.

Perry Ferry Company will hold a carnival at Palmyra Extension on Saturday and Sunday evenings, July 19, 20 and 21.

Miss Stockdale and daughter, Miss Margaret, spent Thursday in Atlantic City.

Mrs. Mary Cramer, of Florence, is spending two weeks with her son and daughter, Mrs. R. C. Cramer, at Ocean City.

Mr. and Mrs. Roy Green, of St. Marys, Pa., visited his parents, Mr. and Mrs. A. H. Green, over the weekend.

Mrs. Murray Kirkpatrick and children are spending several weeks at Ocean City.

Mr. and Mrs. Raymond Yerkes and children are visiting Mr. and Mrs. J. R. Yerkes in Philadelphia.

Mr. and Mrs. J. H. Abell are spending two weeks at Wildwood.

Mrs. H. W. Bauer and children are spending several weeks at Ocean City.

John L. Harbison and daughter, Mrs. Anna Parr, of West Philadelphia, and Miss Olive Addy, of Elizabeth, are guests of Mr. and Mrs. James M. West.

Mr. Harbison is one of the few people of note survivors of the Civil War.

Nevin Buchholz is spending his vacation in Canada.

Miss Anne Erickson entertained the Junior League class at her home Monday evening.

Miss George J. Seel is spending the week with her son, George Seel, 3d, at Maplewood.

Miss Emily Harvey is on a motor trip through the New England states.

The children of George W. Rogers are in the county White House of the National Shrine and luncheon at the home of Mrs. F. L. Shill, Tuesday.

Mrs. George Matlack, of Cinnaminson, is celebrating her 80th birthday on his eighth anniversary, Friday evening.

The Inasmuch Bible Class will hold their class picnic at Wisconsin Park, Wednesday, July 25.

Mr. and Mrs. C. Bertram Marple, of Morgan Avenue, will leave Saturday for two weeks vacation in Ocean City.

Tom Bromley, B.H. Purnell and Stan Lippincott start Friday for Little Beach for four days fishing. We will tell you next week how many big ones they have caught.

Clyde V. Ingram and daughter, Miss Miriam, left town Monday on a vacation trip to Niagara Falls, New York.

Several members of the Lions Club of Palmyra attended the testimonial dinner to Albert E. Burling, District Governor of the 10th District of New Jersey at Silver Lake Inn, Wednesday evening, July 18. John B. Bates was the speaker of the evening.

Anyone interested in night blooming Cereus can have the opportunity of witnessing the same at the residence of George W. Rogers, 705 Morgan Avenue, the latter part of this week or the first part of next.

Charles T. Hawke, Sr., was a Beach Haven visitor, Sunday.

Mr. and Mrs. Lewis W. Sharp are registered at the Llewellyn, Ocean City.

Mrs. B. R. West and daughter, Frances, were called to Mrs. West's home in Philadelphia by the sudden death of her mother.

Miss Elizabeth M. Toy left last Saturday for a week's auto trip to Quebec, Canada.

Mrs. T. C. Lloyd fell while getting out of a car in front of the Weeks' Hospital at Riverside, and fractured her left wrist. First aid was given at the hospital, after which the arm was set by the family physician, Dr. Voss, his, the X-ray showing a perfect setting.

Mr. and Mrs. D. Gray Schwarz and children, of Parry Avenue, visited his brother, Lieutenant Christian B. Schwarz at Camp Leonard Wood, Baltimore, on Sunday.

We welcome Mr. and Mrs. Thomas Morriarty, of Merchantville, who are occupying the first floor of the new building at 801 Highland Avenue.

Mr. and Mrs. J. A. Davidson, of Jersey City, visited her sister, Mrs. D. Gray Schwarz, of Parry Avenue, over the weekend.

"The" Rogers, our genial newspaper dealer, Gus Conlow and D. Vaughn enjoyed a good day's fishing at Leeds' Point, Sunday. A total catch of 84 was evidenced by those followers of Isaac Walton, which included a one hundred pound channel bass, caught by Gus.

Thomas White, of Jersey City, is spending the week as the guest of his sister, Mrs. D. Gray Schwarz.

BAPTIST CHURCH

Rev. George Lockett, Pastor  
Building, rebuilding and services continue at Central Baptist Church. Pastor Lockett will preach on Sunday morning, July 22, at 10 o'clock, "The Power of Things, or Abundance of Life." At the evening service the pastor's topic will be "How to Have Friends."

All church organizations continue to plan the progress of the new building. Post cards showing the magnificent church when completed are still on sale by teachers and members of the primary department. Those are good publicity mediums and should be sent out to friends of all the members for as wide distribution as possible. Why not frame one for your own information and inspiration?

Let us measure life by the amount of service we have rendered, and not by years; by the number of hungry hearts we have fed, and not by money; by the number of souls we have won for Christ, and not by the number of others who will follow and imitate us everywhere.

## MOORESTOWN

Miss Dorothy Rogers, of Moorestown, is spending six weeks with Mr. and Mrs. William B. Castor and family, of Scotchdale, at their summer home in Massachusetts.

Mr. and Mrs. John W. Taylor, of the Hotel Walt Whitman, Camden, were recent guests of Mr. and Mrs. John H. Heaton, of Colonial Ridge, at their summer cottage on Atlantic boulevard, Ocean City.

Mr. and Mrs. B. Hubert Cooper, of Madisonfield Avenue, have returned home from a two months' trip abroad through Italy, France and England.

Mrs. Louis T. Klauder, of "Gray Clouds," Camden Avenue, accompanied by her sister, Miss D. D. Welsel, of Springfield, Missouri, called Friday on the U. S. S. Duilio for Naples, from which point they will tour northward through Italy, Austria, Germany, France and England, returning early in September.

Mr. and Mrs. Chester L. Reagan and family of West Central Avenue, are spending the summer in Cambridge, Mass. Mr. Reagan, who is principal of the Moorestown Friends' School, is teaching at Harvard University during the summer months.

Mrs. Joseph T. Bacon and Miss Mary Bacon, of East Maple Avenue, are enjoying a two weeks' sojourn at York Beach, Maine. They will spend the month of August at Lake Umbagog, Vermont, where they will be joined by Miss Florence Bacon and Dr. Family Bacon.

Mrs. Stephen W. Meader and family, of East Main Street, are spending the summer at Pocono Lake. Mr. Meader joins his family over the weekend.

Miss Elizabeth Partridge, of Greenville Court, Merchantville, is the guest of Mr. and Mrs. Collins B. Rogers, and daughter, of Colonial Ridge, at their summer home in Ocean City.

Service Pharmacy announces that it will open a new store at 118 West Main Street, formerly the Boston property, about August 1. New fixtures, soda booths, electric fountain, and a model prescription room will be installed.

Philip J. Gray, of South Washington Avenue, Edward W. Fitzgerald, of West Second Street, Frank McMahon and John Barr, of South Church Street, enjoyed a crabbing party at Seaside Sunday.

The Misses Mary, Sara and Rebecca Conover, of West Central Avenue, and nephew, Stanley Conover, are spending this week at Ocean Grove.

Miss Myrtle Wolf, of East Main Street, is enjoying a two weeks' vacation in Atlantic City.

Miss Mildred Cohen, of East Main Street, is taking a summer course of study at the Columbia University, New York.

Miss Charlotte Wilson, of Chester, Pa., formerly of Moorestown, is visiting friends here. Miss Wilson was a popular soloist in the Methodist Episcopal Church, sang there Sunday morning.

Miss Anna and Miss Marguerite O'Donnell, of South Church Street, Miss Anna Mathews, of Linden Street, and Miss Margaret D. of East Main Street, accompanied by the Misses O'Donnell's cousin, Miss Eunice O'Donnell, of Germantown, are enjoying a two weeks' vacation in Wildwood.

Mr. and Mrs. Warner Harper Jerfer, of North Washington Avenue, and Mrs. Aaron Engle, of East Central Avenue, were registered at the Marlborough-Blenheim Hotel, Atlantic City, over the weekend.

Miss Dorothy Roberts, of East Central Avenue, and Miss Joy Reeve, of East Main Street, represented Moorestown in the fourth annual tennis tournament held under the auspices of the West Jersey League at Scotchdale Country Club Saturday afternoon. The match was one of the series of five tournaments being staged this season under the auspices of the league. A dinner-dance, attracting members of the younger set from Burlington, Camden and Gloucester counties, followed the tourney.

Miss Beatrice Collins and John B. Collins, of Riverton, and Bridgeboro roads, and Miss Catherine Kottin and Ward F. Kottin, of East Central Avenue, were weekend guests of Miss Elizabeth Woodward, of Chester Avenue, at the Woodward's cottage in Ocean City.

Mrs. Walker Bourneau and daughter, Miss Edith Bourneau, of East Main Street, are enjoying a sojourn in Asbury Park.

Mr. and Mrs. H. R. Hathaway, of Chester Avenue, are spending the summer in Ocean City.

The speaker at the Community Service Sunday evening will be Dr. Jesse H. Holmes, of Swarthmore. These services are being held every Sunday evening at 7 p. m. during the summer in the rear of the Friends' Meeting House.

EPWORTH METHODIST  
EPISCOPAL CHURCH

J. William Lee, Minister

Interest is unabating in our Church School Session opens at 10 a. m. Morning Worship, 11:15. Ministry of Music—"Andantino." Lamare: "Come Thou Almighty King." "The Swan." St. Saens: "Pontificale." Becker: "The Rock of Ages." Sermon: "Forgive Us Our Tresspasses."

Epworth League Devotional Meeting, 6:45 p. m. Address by Earl R. VanLeuven. Topic: Books and Chapters of the Social Awakening. Good music, good fellowship, everybody invited.

Evening Worship, 7:45 to 8:45 p. m. Ministry of Music—"Evening Song." Johnston: "My Faith Looks Up to Thee." "Kamehameha Ostrom." Rubenstein. Heart cheering song service. Sermon: "The man who does not see far enough."

You will receive a hearty welcome.

EXECUTORY NOTICE

Estate of Anna M. Perry

RULE TO BAH

Notice is hereby given that an order has been made by the Surrogate of the County of Burlington, bearing date on the 23rd day of June, 1928, upon the application of the subscribers, executors, requiring the creditors of Anna M. Perry, deceased, late of the County of Burlington, to bring in their claims against the estate of said decedent under oath of affirmation on or before December 23rd, 1928, or they will be barred of any action therefor against the said executors.

## BACHARACH SEES BIG HOOVER VOTE

Tells Nominee New Jersey Will Give Republican Ticket 400,000 Plurality

Congressman Bacharach, of the Second Congressional District of New Jersey, held an extended conference at Washington, D. C., with Secretary Hoover, the Republican candidate for President, during which they discussed matters bearing upon the polls in general but with particular reference to the State of New Jersey. He brought assurance to Mr. Hoover that the Second District of New Jersey would give him upwards of 400,000 plurality and the whole State would follow its usual course in Presidential years and give its electoral vote to the Republican ticket by 400,000 plurality.

The congressman also had a conference last week with Congressman Fort, Secretary of the Republican National Committee. With both he stressed the importance of putting forth strenuous efforts to get out the fullest possible vote in November, pointing out that the defeat of the Republican party in past gubernatorial campaigns was due chiefly to the great number of Republican voters who failed to go to the polls on election day.

Following his interview with Secretary Hoover, Congressman Bacharach gave out a statement bearing upon the political situation in New Jersey.

Mr. Bacharach's statement follows:

Normally Republican New Jersey is normally a Republican State in Presidential years. Only once since Cleveland's time has the State given its electoral vote to the Democratic candidate. With two Republican candidates in the field, Wilson won in 1912, but the combined vote of Roosevelt and Taft exceeded Wilson's vote by more than 55,000. In 1916, Wilson, a former Governor of our State, in his campaign for re-election with the slogan "He Kept Us Out of War" completely overshadowed the Party's platform, was defeated by the Republican candidate, Charles E. Hughes, by about the same plurality.

Claims that the State of New Jersey will go Democratic in 1928 are therefore obviously based upon the fact that the Republican Party has not been able to elect its candidates for Governor since Senator Edge went out of office as Governor in 1920.

An analysis of the election returns as far back as the gubernatorial election of 1922, will disclose the fact that while the Democratic candidates for Governor have been elected, the Republicans always controlled the State Legislature, and the failure of the Republican Party to elect its candidates for Governor is unquestionably due to the failure of registered Republican voters to vote on election day.

Figures show that only in Presidential elections does the State of New Jersey anywhere nearly approximate its full voting strength in the number of votes cast as compared with the number of registered voters. 60 Percent Non-voting Increase Even in the gubernatorial election of 1925, which was perhaps the most bitterly contested election that we have had in this State, the percentage of non-voters increased 60 percent over the Presidential election of 1924.

The significant thing about all of this lies in the fact that in the elections mentioned, Hudson county, the stronghold of the Democratic Party in the State, at no time failed to poll less than 60 percent of its registered vote, while in the important elections of 1924 and 1928 for Governor, and in 1924 for President, she polled about 94 percent, which is about as near a perfect score as any community could expect or even hope for. So it is reasonable to assume that the "stay-at home" vote in these elections was preponderantly Republican, and that had these voters responded to their responsibilities in 1925 as they did in 1924, the Republican candidate for Governor would have been elected by a substantial majority. The same reasoning applies for 1928, compared with the returns for 1924.

It would have required only 14 additional Republican votes in each voting precinct in the State to have wiped out the Democratic plurality in 1925. Mostly any one of the Republican Congressional Districts could have supplied the vote necessary to overcome the Democratic plurality had the usual Republican vote of the District been polled.

President Coolidge's plurality over Davis in 1924 was 377,419. His plurality over the combined vote for Davis and Follette was 368,521. There is no question but what New Jersey will experience a very energetic campaign this Fall, with both parties putting forth every effort to increase its registration and get out the vote on election day, and there should be at least 95 percent of the vote cast; this increase over the vote polled in 1924, taken in conjunction with the number who will cast their first vote this year, and with practically all of the vote cast for Follette going back to either of the two major Parties, based upon the vote cast for the Republican Presidential candidate in the past, should assure to the Hoover and Curtis ticket a plurality of not less than 400,000, resulting in a clean sweep for all of the Republican candidates on the State ticket.

## P. S. OPERATORS TO GUARD CHILDREN

Drivers Instructed to Be Particularly Careful to Look Out For Children Crossing Streets

Operators of Public Service trolley cars and buses are warned to be particularly careful to look out for children crossing streets or playing games on the sidewalks. "They are apt to make a sudden dart into the street," Vice President Matthews E. Boylan, of Public Service Coordinated Transport reminds the operators in an executive bulletin.

"Schools are now closed with the result that there is a larger number of children on the street during most hours of the day. This means that it is up to you to use greater vigilance than ever in the operation of your cars and buses," Mr. Boylan says.

"Children cannot be expected to have the judgement and good sense of grown persons and in compliance with your duty you must use additional care and caution. Accidents to children are particularly deplorable and I know that you will make every effort to avoid them."

## SMITH'S SEA GIRT VISIT POSTPONED

Camp Program Being Revised For Entertainment of Candidates in August

Governor Smith, of New York, the Democratic nominee for President, will be unable to come to New Jersey and speak at Sea Girt on July 19, the date originally set for his reception there.

As a result, the summer program of the camp is being revised. It has been announced by Governor Moore, and preparations are now going forward for the entertainment of the New York executive at Sea Girt in mid-August. The day has not yet been determined.

It is proposed to make the occasion a red letter event. National importance will be attached to the visit. If the suggested plan is adopted to have the speech of Governor Smith mark the opening of the campaign. Added to that is the probability that it will be his only speech in New Jersey during his campaign.

Because of the change in arrangements, no attempt will be made to make July 19, which has been designated as Hudson Day, the gala occasion of former years. There will be a review on that date and other dates to be announced, and the families and friends of the men in camp will be welcome then or at any other time, but the real fireworks will be reserved for Governor Smith. The greatest gathering ever to assemble at the Little White House is expected to greet him.

## CLOTHES MOTH, BEWARE OF HER!

Look out for the clothes moth! She is only a small insect, not over one-quarter of an inch from tip to tip of extending, narrow, buff-colored wings, but she can be the means of large destruction—this we all know. She herself does not, as many persons suppose, feed upon fabrics, as the "moth" parasite is unsuitable. Instead, she lays eggs that develop into the worms or larvae which cause the destruction of fabrics. The worms have no regard for coats, or suitcases, the blankets woven by some ancient loom, the priceless gift of a dear friend, or the \$200 garment are chewed and ravaged as if they were no more than an old, cast-off suit.

This, therefore, is the reason why all moths or millers should be destroyed without hesitation or remorse. If given a chance they will lay their eggs, or, worse, any material which can later be used by the worm or larva.

In discussing these pernicious destroyers, the extension specialist in home management at Rutgers recommends that all fabrics be cleaned carefully and then placed in gum sealed paper cases. The larvae will not chew through paper to get to the fabric but will crawl through very small cracks and holes.

Expensive furs should be placed in cold storage where they will be in no danger from the clothes moth.

All clothes in continuous use, carpets, or rugs, require regularity will be in little danger of attack. They will be in no danger where constantly a plenty of air are allowed to flood the room and its closets.

## GREAT SUPPLY OF GAME FISH RELEASED

Equip 200,000 New Jersey anglers with rod and line—let them average a catch of a dozen game fish on each weekly fishing trip and it would take the entire 200,000 fishing regularly from the opening of the trout season in April to the close of the bass and pike season at the end of November to take out all the fish liberated in a single month, this year, by the State Fish and Game Commission.

Such are the facts gleaned from a report of State Protector, James M. Stratton, that shows how the commission broke all records by "planting" in the streams and ponds during May, the astonishing total of 82,550-892 fish.

This great total, by no means represents all the fish that the commission will distribute this year. May, however, was the peak month for production at the big fish hatchery at Hackensack, and its output ran the range from tiny perch fry to big brown trout, grown to 20 inches of fighting length and ready to smash the tackle of any but the most skillful anglers: bass fingerlings now hold the centre of the stage at the hatchery and thousands of young fish, both large and small, are being distributed to all parts of the State as Superintendent Charles Hayford and other hatchery officials aim at another new production record.

## CAUTION SIGNAL CUT AS AID TO TRAFFIC

Showing of the amber or caution light of traffic signals at Camden's street intersection has been cut from ten seconds to three seconds in an effort to expedite traffic and at the same time minimize accidents at the crossing. This system, according to Captain Charles Laib, acting traffic inspector, stops motorists from attempting to cross an intersection during the amber interval after a green light without finding themselves going against the red signal. The quick change of the amber interval, enables a motorist stopped by the red light to get under way by the time the light is green.

## LUMBERTON DRIVER MAY LOSE LICENSE FOR LIFE

Recorder Kingston, of Mount Holly, recommended to Motor Vehicle Commissioner Dill that the automobile license of Elysewyn Vanciver, of Lumberton, be revoked for life. Vanciver was brought before the recorder by State Trooper Doyle on a charge of driving with fictitious tags, and a charge was made of misrepresentation of age for the past three years in securing drivers license. The tag charge was suspended but the recommendation was made to the

## TO HOLDERS OF Third Liberty Loan Bonds

The Treasury offers a new 5 1/2 per cent, 12-15 year Treasury bond in exchange for Third Liberty Loan Bonds.

The new bonds will bear interest from July 10, 1928. Interest on Third Liberty Loan Bonds surrendered for exchange will be paid in full to September 15, 1928.

Holders should consult their banks at once for further details of this offering.

Third Liberty Loan Bonds mature on September 15, 1929, and will cease to bear interest on that date.

A. W. MELLON, Secretary of the Treasury, Washington, July 8, 1928.

## YES, A GOOD 5c CIGAR AT LAST

It Knocks Out All Previous Ideas You Ever Had

Men, forget the many times you've lit a five-cent, taken a few puffs and thrown it away. Try one more brand; Havana Ribbon. You sure will hold on to this one!

Havana Ribbon is a five-cent cigar in one respect only: Price. By every other standard of comparison, it belongs to a considerably higher-priced class. And the reason is—its ripe tobacco! Many five-cent cigars contain the poorer leaves of the tobacco plant—under-ripe top leaves (usually bitter); or over-ripe bottom leaves (usually flat-tasting). Havana Ribbon contains only choice fully-ripe middle leaves. Imagine getting, for five cents, all the fragrant, mellow-mild, fine-flavored goodness of tobacco at its best! You can prove it in two minutes. Just place down one finger at the next cigar counter and ask for Havana Ribbon. Also sold in Practical Pocket Packages of five cigars.

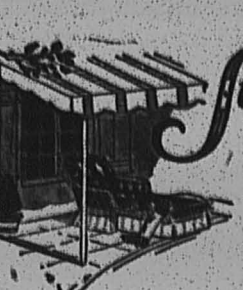

Our prices begin at \$11.75 each and include connection from end outlet in your kitchen by experienced gas fitters.

Any gas range may be purchased of Public Service on the easy payment plan at a slight increase over cash prices on terms of \$5 down—12 to 18 months to pay balance.

SAVE your money from the expensive brand! Buy the 5c CIGAR AT LAST!

Suggestions for the Home-maker who would take life easy during warm weather

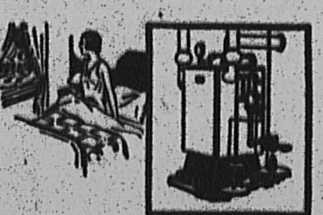

## Consider Winter

## Comfort Now

You will have no problem of househeating next winter, if you install gas for house heating before the cold weather arrives. No change need be made in pipes or radiators, only the furnace must be replaced by gas burning equipment.

In gas you will find the most nearly perfect fuel. It burns without smoke or odor and works ideally under automatic control.

It will cost you nothing to consult our househeating engineers on costs of installation and maintenance. Why not investigate this improvement that means so much comfort and convenience?

Telephone or write our House Heating Department for an appointment.

## Ideal Automatic Refrigeration From Tiny Gas Flame

The principle of the Electrolux refrigeration by gas is so simple and the results obtained so satisfactory that its popularity grows daily.

Ice cubes freeze quickly in the Electrolux because its temperature varies only a degree or two. It operates with practically no noise and has only two small moving parts.

Electrolux cabinets are well constructed and may be had in finishes to match all the popular color schemes for the kitchen. From \$225 upward.

Any Electrolux gas refrigerator may be purchased at slightly higher than cash prices for a small sum down with seventeen months to pay balance.

## Cook With a Modern Gas Range

\$5 to \$10 allowance for your old stove if you buy new

The modern gas range obtains successful cooking results with so little effort on the part of the home-maker, that every woman should have one.

Our gas ranges feature all the improvements that are recommended by domestic science experts everywhere, including the oven heat regulator, the automatic top burner lighter, easy-to-clean enamel finishes and many other aids to cooking.

Our prices begin at \$11.75 each and include connection from end outlet in your kitchen by experienced gas fitters.

Any gas range may be purchased of Public Service on the easy payment plan at a slight increase over cash prices on terms of \$5 down—12 to 18 months to pay balance.

## When the Weather Has Been "Overcast and Warm"

Let Electricity Dispose of the Big Washings That Result

There is daily call for fresh linen in the summer when heat and humidity are at work.

But even daily washings do not interfere with the housekeeping schedule when electricity operates the Automatic which washes the most delicate fabrics thoroughly and without injury. The Automatic is a quick washer and is sturdy built.

The Automatic costs only \$85 cash, on terms \$100.70; \$5 down, 18 months to pay balance.

## Electricity Irons With Fine Finish

Instead of standing up all day at an ironing board, be seated for an hour or two and guide the pieces as they are wonderfully ironed by the Thor Automatic Ironer. Ironed in the Thor, clothes and linens have the fresh appearance that expert hand pressing gives. Its price is \$175 cash, on terms \$185.50, or

\$5 Down—Eighteen Months to Pay Balance

## Summer Comfort Depends Largely On Hot Water

\$5 to \$10 allowed for old water heater if you install automatic type now

Whether you are at work or at play real summer comfort demands plenty of hot water. The gas automatic storage water heater supplies every hot water demand in your home without effort on your part. Take advantage of our trade-in offer.

We have water heaters of this type that sell for as little as \$75.50 cash and our prices include installation.

Any gas water heater may be purchased of Public Service on the easy payment plan at a slight increase over cash prices on the effective terms of

\$5 Down 12 to 18 Months to Pay Balance

## Your Favorite Coffee at Its Best Percolated Electrically

This good-looking Hotpoint set consists of the electric percolator, the cream jug, sugar bowl and round tray, and its price is \$15.75.

PUBLIC SERVICE

## FOUR HOMERS WIN FOR BLACK SOX

Crack Colored Team Hits Three Over Right Field Fence in First Inning.

The Baltimore Black Sox arrived in Palmyra last Thursday with their new clubs loaded with dynamite and proceeded to bombard pitcher Harder for three four-ply wallop before the third out was disposed of and the first session.

Nine hits were made by the colored boys, and with four of them being of the Ruthian variety, they pushed seven runs across the plate before the ending of the twilight contest. Palmyra scored an equal number of hits but were unable to manufacture more than two runs.

The Baltimore boys scored four of their runs in first as a result of their rans of home runs. Hollaway walloped the horsehide over the right field fence for the first tally. Lindsay stepped up to the plate and did likewise, and after Washington stroled Taylor slammed the third boundary belt of the inning.

The Black Sox counted again in the next inning as a result of a single by Lindsay and a double by Wilson. The next run came in the third when Washington singled and Brown was passed, Washington scoring later on a delayed steal.

Palmyra's two markers came in the fourth when Andrews and Wenger crossed the pan. Andy singled to left and Wenger bounced a one-base hit off the pitcher's glove. Bennett singled over second, scoring Andrews. Wenger scored while Brown, Lindsay and Hubbard were doubling up Bennett and Harper.

The Sox scored their last run in the seventh when Hubbard hit for the circuit.

## GIVE CONTRACT FOR BRIDGE AT WADING RIVER

(Continued from Page 1)

Wading River, N. J., July 9, 1926.

Burlington Co. Board of Chosen Freeholders, Mount Holly, N. J., Gentlemen:

I am instructed by the Board of Governors of the Wading River Game Association to thank you for the interest you are taking in regards to making arrangements for a new bridge over the Wading River, Burlington County.

Our members felt sure that you would very readily see that it was absolutely necessary for a new foundation and new bridge, as this bridge was constructed, I should say, some fifty years ago. As we have been down there for over thirty-two years and it was the same old carriage and wagon bridge in those days. Today there is more travel with heavy vehicles of every description than what there is over the Lower Bank and Green Bank Bridges, two to one.

The Board of Governors of this Association include such men as: W. E. Fortune, Chief Engineer of the Quaker Bridge constructed a few years ago—he lives in Collingswood, N. J.; W. D. Satter, Attorney at Bayonne, N. J.; Dr. W. H. Moore of 10th Street, Philadelphia; Ex-Senator from State of New Jersey, E. C. Gill; Charles S. King, Attorney in Clementon, N. J.; and the writer, John M. Zurn, Pres.

NOT first cost—but per mile cost is what determines tire value. Miller Tires cost less per mile because they give more miles. Equip your car with Miller Tires.

ED'S PLACE  
Palmyra Extension, Palmyra  
Phone 428-V

of the O. P. Burn Company. This committee wishes to co-operate with you in every way possible and trust that after opening your bids that you will award the same promptly to the lowest bidder. We wish also to extend to your Committee the use of our Club-house for their convenience.

Yours very truly,  
(Signed)  
O. P. BURN, President  
Wading River Game Association, Inc.  
Bayonne, N. J., July 8th, 1926.

Board of Chosen Freeholders, Mt. Holly.

Burlington Co., N. J., Gentlemen:

I am advised that your Board will open bids on the 12th inst. for reconstruction of the Wading River Bridge. As a taxpayer of your County individually and also as representing the Wading River Game Association, a heavy taxpayer in Base River Township, I desire to say that I trust the contract will be awarded on that date, as every day that this bridge is used in its present condition means a possibility of a serious accident and possible suit against the County for these reasons:

1. It is very difficult to open the draw its full width to permit the passage of boats and in stormy weather liable to cause a collision.
2. The wings to the draw are rotted away and a number of submerged piling broken off and very dangerous.
3. It can only be used by traffic one way at a time, being too narrow for autos to pass.
4. It can be used by trucks carrying 3 tons or less, by notice posted, heavier loads must make a long detour, and
5. This bridge is worn out, obsolete and a continuous source of danger to all using it.

Very truly yours,  
(Signed) WM. D. SALTER.

Would Keep Watchman A communication from the East-hampton township committee protested against the proposed removal of a watchman at the Smithville crossing of the Pennsylvania Railroad. It contained a petition signed by 100 representative citizens.

The board received a communication from Walter W. Marks, city clerk of Burlington, stating that City Council of Burlington had approved the plans of the county engineer for the improvement of the Mitchell avenue bridge in that city.

The audit for 1927 submitted by the Department of Municipal Accounts of the State, was approved. Freeholder Helzer offered a set of resolutions endorsing the Camp Dix site for the Veterans' Hospital, and they were unanimously adopted by the board.

Freeholder Wright submitted the request of the Medford Chamber of Commerce that additional safeguards be placed at Cross Roads, between Lumberton and Medford. It stated there has been an average of an accident a day at this dangerous corner the past week.

An overhead light was suggested and the matter was referred to Director of Roads Stout. He will get in touch with the township committee of Medford. Stout stated that the junction of the state highway with the Columbia road near Burlington is another dangerous spot, and he will look over this condition.

While fully realizing the dangerous conditions at the crossings mentioned, Mr. Stout said the county had never maintained lights at such places, and that it was up to the municipalities to do this. He said the county could erect additional road signs, warning motorists of the danger.

Charles Bunting, of Crosswicks, a member of the Chesterfield township committee, appeared before the board and requested the road department to take care of about 1,204 lineal feet of road at Crosswicks while the county

## SEIBOLD LEAGUE LEADING HURLER

Brother of Palmyra Plumber Wins Fourteen, Loses One for Reading

Harry "Box" Seibold, one time big league pitcher and now with the Reading Keys of the International League, is the leading hurler of the league with fourteen wins against one defeat and is causing much comment among the well known sports writers.

Seibold is well known in this vicinity and has a brother, Walter, in the plumbing business in Palmyra.

"Box" started his baseball career with the Tangle A. A. when this aggregation had one of the best teams in this locality. He also played with the Victor A. C. of Riverside. After a few years in the minor leagues, Connie Mack, of the Philadelphia Athletics, signed him up and he was with the A's two years.

After leaving the A's he played with the best independent teams in the east. He helped the Philadelphia Terminal team win the championship of the railroad division in the last two years. Last season he pitched the deciding game at Chicago and threw three hits, before one of the largest crowds ever to witness one of these play-off contests.

He was reinstated into organized baseball this year and Manager Hinchman, of the Reading team, signed him up immediately. At first the leading manager intended to use "Box" as a relief pitcher but the veteran has shown such fine form that he is the ace of the staff and one of the main factors in keeping Reading in the thick of the pennant race.

## AUTOMOBILE CHASSIS IS CHIEF FACTOR

External Appearance Important, Says Auburn Head, but Performance Comes First

"The automobile buying public is demanding color and pleasing lines in cars today, but it still remains that the most important part of any motor car is its chassis," E. L. Cord, president of Auburn, says.

"A motor car is simply a mechanical device to produce transportation, and therefore the efficiency and endurance of its mechanism determine its value," Mr. Cord points out.

"The worth of any car can be determined by the number of miles transportation it gives its owner with the most comfort and the least amount of annoyance," Mr. Cord says.

"The ease of operation of the motor, its smoothness and flow of power; the sturdiness of its mechanical parts; the ability to more than meet every requirement of the owner—these are the points that the prospective automobile buyer should have in mind.

"External appearance of an automobile is important, but the final analysis of its worth depends on its ability to perform in the manner the driver desires.

"While in Auburn we have paid particular attention to those qualities that please the eye, we are building a car first that will deliver miles of transportation to the driver in the easiest manner possible."

road equipment was handy, the township to pay for all materials and expense. The request was referred to the road department with power to act.

Department bills were ordered paid as follows: Roads, \$40,614.42; bridges, \$8,103.00; finance, \$60,411.23; public buildings, \$14,033.82; public affairs, \$10,947.25.

Cinnamond Lodge Planning Trip to Reading

Regardless of the promised hot weather, Cinnamond Lodge, No. 201, IOOF, is planning to visit Reading on Wednesday evening next, July 22, where the "boosters" will hold their regular monthly meeting. So much of interest is to be had from these gatherings that 201 does not want to miss them.

All brothers having cars will meet at Palmyra station on that evening about 1:30 p. m.

The Good of the Order Committee also convened at the home of Eula L. Roach on Wednesday evening and formulated plans for activities for the remainder of the summer months and also entering the Fall and Winter seasons.

## COUNCIL COMMENDS RAZING OLD BAKERY

Borough Fathers Express Approval of Removal of Eyesore

The following resolution, commending the owners of the Philadelphia Market House for removing the old building on their property which has for a long time been an eyesore on an otherwise well kept street, was passed at the meeting of the Palmyra Borough Council at its regular meeting, Tuesday evening.

"Be it resolved that the proprietors of the Philadelphia Market House Messrs. Liphowitz and Schwartz, be advised that Mayor and Council of the Borough of Palmyra have taken cognizance of the fact that they are raising the building on their premises which has been an eyesore for a long time and offers its commendation for their action in bettering the physical appearance of the Borough."

## DR. CARL FISCHER RETAINS TITLE

Singles Finalist and McGriffin, Belfield Ace, Take Doubles Crown

Vanquishing Harold Colborn, Cynwyd, 6-3, 6-3, 9-7, Dr. Carl Fischer, Woodbury, successfully defended his title, retaining the singles crown of the West Jersey Tennis League at the Moorestown Field Club courts Saturday afternoon.

Dr. Fischer, in winning the title for the third consecutive year and consequently gaining permanent possession of the beautiful cup, played a brilliant game, displaying much of the scintillating form which at one time netted him the American inter-collegiate singles crown.

He varied his play to come to the net for many hits, and his finished southpaw driving and service could not be excelled. Colborn was guilty of several errors which were chiefly brought about by the relentless play of the champion.

Colborn, however, proved a determined opponent who did not let up his attack until the last point was decided. He forced Fischer into several long games and improved as the match progressed, turning the great Carl into sixteen games in the concluding set.

The champion won his way to the finals by defeating Harold McGriffin, Belfield, 2-6, 6-4, 6-1, in the semi-finals Friday. Colborn was victorious over Norman Brammell, Idle Hour, 6-4, 6-4, in the other semi-final.

The final point score:

Palisades	Highlands

## RAPID PROGRESS BEING MADE ON PALMYRA SPAN

No Information Available Concerning Plans for Approaches

### "LIVING TOMB" RUMOR WITHOUT FOUNDATION

Bridge Expected to be Opened Before Labor Day Next Year

Engineers in charge of construction of the Tacoma-Palmyra Bridge announced last week that one of the piers is showing above water and that another will show within a few days. Two of the huge piers are ready to receive the final footing and work is progressing on six of the nine river or main piers.

The approach on the Palmyra side has already been filled in and is being allowed to settle before the permanent roadway is laid. A good view of the work being done out in the river may be had from the end of this approach which is an extension of Market street.

No definite information has been given out regarding the plans of the state highway department for handling the traffic on this side of the river but it is generally believed the outlet will be along Market street to Crooked Avenue and under the Pennsylvania Railroad (situated in a southeasterly direction to a circle at the intersection of Cinnaminson Avenue and the Burlington Pike).

Logical Route  
This would seem to be the most logical route as it is said the road could be brought back to grade at the Hilton Road crossing and would not interfere with any other streets.

There is also a rumor afloat to the effect that persons interested in real estate developments between Five Points and Camden are using influence to have the outlet road of motor cars use the line of the Burlington Pike below the Sorrell Horse hotel.

It has been pointed out that in this event all traffic to Trenton, New York and North Jersey points will be forced to go into broad street and way through Palmyra and Riverton. Under these conditions the traffic problem of the two towns will become many times greater than at present and the expense of police departments will increase proportionately.

Danger to Children  
Another thing to be considered in this event will be the danger to school children and other pedestrians if high speed traffic is forced through the center of these two communities.

While the Sorrell Horse rumor is not thought to have much foundation, it has been pointed out that the possibility is great enough to cause some concern.

The Bureau of Survey of the City of Philadelphia, has already announced that extensive plans have been made to widen and improve the Philadelphia approaches to the bridge. Interest in the work on the bridge is intense on the part of thousands of motorists who use the ferry at that point and deck hands on the boats are driven nearly frantic by the questions put to them on every trip.

The other day, on a boat approaching the Tacoma ship, there was the usual group of passengers lining the rail, gazing at the vast assembly of floating equipment, stretching in almost solid line from shore to shore. "Say, Bill," remarked one man to a companion, "that's some job, setting those piers in this strong current, isn't it?"

"I'll say it is," was the reply, "in this the first time you have seen it, Joe?"

"Yes, this is the first time I have crossed since they started work. Great Bill, look at the stream of concrete they are pouring down that hole."

"Those are solid concrete piers, Joe, resting on a bed rock sixty feet below the surface. The concrete concrete men told me the other day that they have used over 8,000 cubic yards of concrete already and they are not half through with it. And, say Joe, I have seen the body of a man, one of the sand-hogs, sealed up in one of those piers."

"Aw, quit your kidding. They wouldn't let a man's body stay there." "Honest," the poor guy told into the soft concrete while they were pouring it and nobody missed him until after it had set and hardened and there was no possible way to get him out. Blasting the concrete apart would have destroyed his body."

At this point a husky, sunburned young man who had been an interested listener, spoke up. "Ferdinand for busting in," said he, "I happen to be the engineer in charge of the work for the contractors and I really cannot let such a wild, though interesting yarn go uncontradicted."

Man Disappeared  
"All the rest you have said about the bridge is correct but that story about the sand-hog's cement tomb is bogus! The only body for it is that some weeks ago one of our sand-hogs inadvertently stepped overboard and disappeared in the river. His body was recovered. Out of the 150 men on this job there have been three lives lost. Another man was drowned by the capsizing of a boat and another sand-hog came out of the concrete air lock quickly and dropped dead from an over-strained heart."

The young man who spoiled the tomb story was W. W. Armstrong, engineer for the contractors.

## Speaks at Camp

WILLIAM F. OVERMAN

Chairman of the County Y. M. C. A. Committee, who was the speaker at the open-air service at Camp Ockanickon, Sunday morning, July 22, taking for his subject, "Adventurous Living." He had an audience of two hundred eight boys and young men, which constitutes the present camp family.

## CAMDEN BRIDGE IS SEEN FREE BY 1941

Costello's Report Shows Receipts Are Five Years Ahead of Schedule

Camden bridge annual toll receipts are five years ahead of schedule and were greater during the second year of operation than during the first according to the report of Joseph K. Costello, general manager, to the Bridge Commission Friday.

More than twice as much as had been estimated by experts was taken in at the toll booth during the year ended June 30, and expenses were nearly 5 per cent less than forecast.

"The receipts during the second year—\$2,668,830.75—not only exceeded the receipts for the first year of operation by \$685,707.17, but the receipts estimated for 1923 by \$461,030.75."

The number of vehicles crossing the span the second year was 8,107,879, as compared with 7,847,217 the first year. "There seems to be no reason to doubt," declared Costello in his report, "that the entire cost of the bridge, including interest during construction, will be repaid by 1941."

Not a month during the second year failed to show a marked increase in receipts and travel over the corresponding month of the first year.

Despite the volume of traffic, there has not yet been any real test of the capacity of the bridge, the report said.

One hundred thousand cars could well be accommodated if some way could be found to distribute them after leaving the bridge," the report declared. "We still have four lanes in reserve at the toll houses in Camden which we have had no occasion to use."

Expenditure of \$1000 for a wrecking truck to remove disabled vehicles from the span was authorized.

P. O. S. A. TO ENTERTAIN VETS  
The Civil War veterans of Palmyra and Riverton will be entertained by Camp 23, Patigoto Order Sons of America, Monday evening, August 6.

The entertainment committee has prepared a very fine program which will be of special interest to the Vets, and a large turnout is expected to do them honor.

All other P. O. S. A. Camps in Burlington county have been invited to come to Palmyra on this occasion. Refreshments are being prepared for a large number.

LADIES ATTENTION!  
Mothers, sisters and friends are cordially invited to see the Riverton Juniors play the 20th Ward Juniors, Philadelphia Champions, next Monday evening at 6:15 sharp, at Memorial Park, Riverton.

One of the most frequent questions asked by the public is "when will the bridge be opened for traffic?" Motorists do not like ferries. Charles Modjeski, son of the famous bridge builder Ralph Modjeski, and Clement E. Chase, the engineers actively in charge for the bridge company decline to fix an opening date nearer than "some time next year." From unofficial sources it was learned however, that although Labor Day 1929 had been tentatively fixed for the opening, progress has been so satisfactory that the date may be advanced a month or even two months.

Standing at the foot of Levick street, looking out across the river along the line of the bridge, one sees what appears to be an almost solid line of construction work—barges, derricks, cranes, scows, launches, tugs, floating cement houses, floating and gravel barges, floating air compressors, pile drivers, etc. It is a vastly different river scene from that during the construction of the Philadelphia-Camden bridge, where there was comparatively little work on the surface of the river itself.

At present but few of the 150 men on the work are visible. Most of them are working under the river in the caissons. But even the layman is impressed with the apparent speed shown by the builders under the driving energy of General Superintendent R. W. Kemp, who, by the way, is a famous football player, having been chosen as All-American player from the University of Wisconsin, some years ago.

## FORD AIRCRAFT LISTS PALMYRA

Aksa Fortnum's to Get Information as to Landing Facilities, Railroads, Rivers

Palmyra is to be listed in the files of the Aircraft Division of the Ford Motor Company, which is fast becoming the world's largest manufacturer of airplanes.

A letter and questionnaire has just been received by Lester S. Fortnum, local Ford dealer, requesting information as to landing facilities and suggesting that they get in touch with the Chamber of Commerce in order to get the necessary information. The questionnaire was turned over to Walter D. Lamson, President of the Chamber of Commerce, and was promptly filed out and returned.

The communication follows: "Attached is a questionnaire covering aircraft landing facilities in your city. It is quite important that we have this information for our files as soon as possible. We feel sure that your personal of the questions will indicate how valuable the information will be both to yourself and our Aircraft Division. If you have a well organized airport the management will be glad to assist you in answering the questions. If not, we would suggest that you get in touch with your local Board of Commerce and your local newspaper editors, who should be able to give you a great amount of the information requested."

"It is necessary that this questionnaire be accompanied where possible by a map showing the location of the field, the river, the railroad, etc."

Mr. Speer, while not blamed for the accident, was taken to Mount Holly Monday morning and placed under \$1,000 bond. This procedure is customary in accidents which result fatally.

Mr. and Mrs. Speer and their two children, one of whom had just returned home after several weeks in the hospital, were out for a short ride and had chosen the back road because of its freedom from heavy traffic.

## PARRY FIREMEN STAGE WEDDING

Large Crowd Witnesses Tying of Knot by "Squire" Bowers at Carnival

The committee in charge of the Parry Fire Company carnival decided to give the populace of the vicinity something to arouse their curiosity the night of their carnival—and they did.

Howard Gunn, of Parry, and Miss Alice Sears, of Frankford, were married in Philadelphia on Friday last. The Parry firemen, however, thought that a second tying of the knot would help the young couple remember their wedding day.

Some difficulties were encountered in staging the wedding as the couple could not be located without quite a hunt. While the squire, Cecil Bowers, was waiting for the marital candidate a call came for him to settle some difficulties about a mile from the carnival scene. Some time elapsed before the squire returned.

Just as the squire returned, the couple, atop the fire truck, the cheer of over five hundred people so they will be ready for the wedding ceremony were taken for a honeymoon ride on the truck.

Joseph Sears, brother to the bride, and Edna Gail stood with the happy couple.

The Parry firemen thank all who have cooperated in the work connected with the carnival and announce that they will continue the affair this Friday and Saturday night.

## LUMBERTON MOVES TO CHECK DISEASE

Guards Are Posted at Home of Late Victim of Diphtheria at That Place

With the second outbreak of diphtheria in Lumberton within eight months, township officials took drastic steps Friday for the protection of the public health when they placed two guards on duty at the quarantined home of John Herlet, where one of their children is seriously ill with the disease.

The first appearance of diphtheria in this town eight months ago resulted in the death of two children. Dr. Harold E. Loveland, township physician, declared that he considered the move essential to the community's health, since there is a family of ten children across the street from the Herlet home. Other large families are nearby.

In the Herlet family, Lida, nineteen years old, is the victim. The parents are quarantined with their children.

The appearance of the same malady in Hainesport, two miles away, recently caused an order to be issued which advised parents to keep their children off the streets. The authorities have decided to use every precaution against an epidemic.

HORNE-SHAW  
William Horner, son of Walter Horner, 436 Delaware avenue, Palmyra, and Miss Cornelia Shaw, daughter of Mr. and Mrs. Francis A. Shaw, of Camden, were married last Tuesday.

The bridegroom's father was not surprised, as he had been let in on the secret, but it was another story with the bride's father as a Delawarean, who was first apprised of the news, but later forgave the happy young couple.

They are making their home with the young Horner's father as a Delawarean, who was first apprised of the news, but later forgave the happy young couple.

## FATAL ACCIDENT NEAR PALMYRA

Philadelphia Man Dies After Collision on Church Road Sunday Afternoon

Albert Lampman, 30 years old, of 1340 Palmetto street, Philadelphia, was fatally injured when the car he was driving overturned after striking another machine Sunday afternoon at the intersection of Park Landing and Church Roads, near Palmyra.

In the car with Lampman were his two brothers, William and Charles, and Thomas and Edwin Huggett, also brothers, of 7351 Dungan street, Roxborough. There were only slightly injured.

Mrs. Frank D. Speer, of 613 Linden avenue, Riverton, wife of the driver of the other machine, was thrown from the car. She was treated by a local physician.

The Lampman party was returning from a fishing trip at the shore and were said to have been traveling at a high rate of speed as they approached the intersection. The driver attempted to stop but saw that it would be impossible and tried to maneuver around the other machine.

In attempting to do so he struck the front of the machine, causing his car to careen to the side of the road. He died striking a telegraph pole and the car quickly caught fire.

Albert Lampman, who it was evident was the most seriously injured, and one of the others was taken to the office of Dr. Voorhis by Charles Gunter, who lives nearby. The doctor ordered the injured man taken to the West Jersey Homeopathic hospital where he died at 8:15, about three hours after the accident. He was taken to the hospital in the Palmyra Ambulance after being transferred from Slinger's car.

Mr. Speer, while not blamed for the accident, was taken to Mount Holly Monday morning and placed under \$1,000 bond. This procedure is customary in accidents which result fatally.

Mr. and Mrs. Speer and their two children, one of whom had just returned home after several weeks in the hospital, were out for a short ride and had chosen the back road because of its freedom from heavy traffic.

## Convalescing

REV. G. J. MCCORMACK  
Rector of Christ Episcopal Church, Palmyra, left Tuesday for a two months' rest in the South.

## POPULAR RECTOR REGAINS HEALTH

Rev. G. J. McCormack on Road to Recovery After Serious Operation Last Spring

The Rev. G. J. McCormack, Rector of Christ Church, Palmyra, and his wife, left Tuesday for a two months' vacation in the North Carolina. They will spend the rest of the summer in a cottage at Blue Rock, near Bat Cave.

In the early spring the Rector was forced to undergo a very serious operation at the University of Pennsylvania Hospital for the removal of a tumor on the brain. Physicians at the time despaired of his life and he was saved by nothing less than a miracle.

While the surgeons were working over him on the operating table they found that the tumor was so large and so close to the brain that it could not be removed without touching a fatal spot. While they were debating on the best thing to do under the circumstances they were surprised to see the tumor release itself and fall out.

This was considered a miraculous happening and was the only thing that saved the Rector's life. The physicians have since agreed that if they had been compelled to cut deeper they would have been little chance for his recovery.

After the operation the Rev. McCormack remained in the hospital for three months, after which he was removed to his home. He has been home for two months and is now the very picture of health and says he is feeling better than he has for years.

After two months' rest in the South the Rector will return to the hospital, where a silver plate will be placed over the place on his head from which the tumor was removed.

The Rev. McCormack has been an active worker since coming to Palmyra, despite his illness, and is one of the most popular clergymen in this community. The church has done great work under his direction and has prospered in all departments.

The popular Rector was elected for the second successive term as president of the Men's Club of Christ Church last January and has been of great service to the organization. The Men's Club has one of the largest memberships of any organization in Palmyra and Riverton and has been a great influence for good in the community.

The Rev. Rector is taking charge of the services during the absence of the Rector.

## MOVIE HITS

Ramon Novarro, "The Student Prince," "The Sign of the Cross," and many other famous plays, comes to the Wald Whitman Theatre, Monday and Tuesday in his latest screen success, "Across to Singapore." The new Metro-Goldwyn-Mayer production, directed by William Nigh, is a dramatic romance of the high seas laid aboard the old clipper ships, New England and the mysterious Orient.

Novarro plays a young sailor, who, in an amazing tangle of love and adventure, figures in desperate runs across the Pacific, mullins and other graphic details incidental to a charming love story.

Nancy Carroll, star of the film version of "Abie's Irish Rose," has one of the principal roles in Fox Film's "Chicken a la King," a story of why husbands leave home, which will be shown next Wednesday.

Thursday and Friday the attraction will be "A Sailor's Sweetheart," co-starring Louise Fazenda and Clyde Cook. George Godfrey, famous as a teller of rollicking sea-stories, is responsible for the plot, and Harvey Gates did the scenario. "A Sailor's Sweetheart" portrays the ups and downs of a young sailor who succeeds in a mock marriage with her in order to get her money, and a rough sea voyage makes him a changed man.

Saturday of next week Marion Davies will be seen in "The Pater."

## LACKS \$5.50; GETS FIVE DAYS

Palmyra, July 22.—In default of a \$5.50 fine William Thomas, 23, of Palmyra, was committed to the county jail for five days today by Recorder W. C. Cowley, Jr. He was arrested on a charge of disorderly conduct.

## AUTO BREAKS BOY'S LEG

Struck by an automobile on the White Horse Pike, in Berlin, early this week, Melvin Turner, 16, of Oak avenue, Berlin, is in Cooper Hospital with a broken right leg.

## RIVERTON JUNIORS TO PLAY PHILADELPHIA JR CHAMPIONS

20th Ward Team Defeated Over 20 Teams for City Title

LOCAL BOYS "ALL SET" FOR HARD-FOUGHT GAME

By Ty Run Cobb

Next Monday evening, July 30, at 6:15 sharp, the Riverton Juniors will play the 20th Ward Juniors, champions of the Philadelphia Junior teams. The 20th Ward boys have eliminated over 20 teams to gain that coveted title of city champions. The final game was played at Shibe Park about two weeks ago.

The Riverton Athletic Association Juniors open this season's diamond activities on Memorial Day by handling a 15-0 defeat to the Delmar A. C. of Philadelphia.

After winning their first game by so decisive a score the Juniors went out after bigger games. The budding diamond kings have played teams much older and more experienced than themselves but have had little trouble in holding their own.

Among the teams the Juniors have played this season are the Parry A. C., Cinnaminson A. A. (two games), Tak-A-Bout of Florence, Triangle of Roeboling, East End of Riverdale, (the only team to down the Riverton boys), Hillcrest of Camden, Ajax of Philadelphia and the Thompson R. K. of Philadelphia.

The Junior team stands high in average for games won, winning eleven out of twelve games played.

With two teams, each with splendid records, like the 20th Ward and Riverton Juniors battling for the win, the game is looked forward to with the opportunity of those who like to see the Riverton boys play ball to show it by attending this game and let the young ball tossers know the people of Riverton are backing them 100%.

The committee in charge of the Junior team has worked hard to put a cool, clean, fighting team on the field to represent the south of the river in the baseball world. This task has been very well done and now the time has come to turn out in appreciation of this committee's work.

Let's all be at the Memorial Park field next Monday evening at 6:15 sharp to see the Riverton boys win this game. Your presence will strengthen their courage and help carry the boys through to the win.

Riverton's probable lineup in batting order: Botger, 1b; Reeves, 1b; Bartley, ss; Broderson, c; Terrell, 2b; Sloan, cf; Foulke, 3b; Coles, p; Hempill, 1b; Perkins or Hutchins, rf.

## JUNIORS ADD TWO MORE VICTIMS

Easily Defeat Thompson A. C. Nose Out Cinnaminson A. A., 6-5

Last Thursday evening the Riverton A. A. Juniors defeated the Thompson R. K. of Philadelphia by a 9-3 score. Cooley pitched fine, allowing but two hits. Bob Bartley continued his terrific batting pace by gathering three hits in four trips to the plate. Broderson and Reeves had two each.

On Monday the Juniors defeated Cinnaminson in a fast game 6-3. The Juniors scored their six runs in the second inning after two were out. Sloan walked, Coles singled, Botger walked, filling the bags; Jimmy Chapman hit a home run, scoring the teammates. Bartley drew a pass and Broderson was safe on an error and Reeves and Bartley scored on the play.

Terrell singled to score Broderson. Sloan, up for the second time in the inning, fanned for the third out.

In the fourth Cinnaminson scored four runs on five successive hits by C. Shaffer, J. Shaffer, D. Oliver, Williams and Griffith. In the seventh B. Oliver tripled and scored on Griffith's sacrifice hit.

The ninth looked as though the visitors were going to down the Juniors, but light playing kept the locals on the winning end of the score.

Monday, July 30, the Juniors will tackle the 20th Ward team of Philadelphia. This team is the undisputed champion of Junior teams of the city, having won the championship at Shibe Park two weeks ago.

## MOTORISTS WARNED REGARDING ROAD

Bulletin Relative to Highway Construction in Southern Counties Issued

To warn motorists planning South Jersey trips of road construction work so that they may arrange their drives to avoid routes in the hands of road builders, the State Highway Department has issued a bulletin of highway conditions in the southern counties. For Burlington County the following is given:

Yardville - Bordentown - Fieldsboro road under construction. Construction is mostly over new lines, but traffic is maintained where old roads are being used, except from Mile Hollow to Yardville. Traffic advised to use present Route 2 from Trenton to Fieldsboro.

Trenton - Burlington - Camden road, State Route 3, bridge at Hancocks under construction over Hancocks creek. Detour is from Route 2, south of Burlington, over Beverly road to Beverly, south on Burlington avenue through Delanco to Riverside and east on Scott street and Riverside road to Route 2 at Bridgeboro, asphalt and macadam roads in good condition. Length of detour seven miles.

COMMUNITY SERVICE  
A community service will be held Sunday, July 29, on the Friends Meeting House grounds at Cinnaminson. The speaker will be Rev. McCray, of Moorestown, who is a retired Episcopal minister. All are welcome.

## LOST CHILD FOUND BY OFFICER GOOTEE

Thirteen-Year-Old Girl Away From Home Two Days, Visiting Aunt in Chester, Pa.

Last Wednesday Stella Gale, colored, 13-years-old, was sent to the post office by her mother with \$5.00 to get a package which had been sent C. O. D. After obtaining the package Stella turned it over to a friend to deliver to Mrs. Gale.

The young lady did not return home for dinner or supper and the family became concerned over her absence. The Gale's asked the Riverton police to try to locate the missing daughter.

Officer William Coates, after communicating with the Philadelphia Electric Bureau, found that Stella had an aunt living in Chester. After verifying the probability of her being in Chester Officer Coates went there and returned the youngster to her home.

Such cooperation and work as this appreciated and shows the willingness and ability of the police forces to serve the public.

## FROMMUTH SPEAKS AT ROTARY CLUB

Palmyra Councilman Discusses "Politics" and "Religion" at Thursday's Meeting

Rather hot weather for "Pot Pie" and rather a humely repast to serve at the conclusion of an honest goodness Rotary dinner, but only Councilman Frederick C. Frommuth would dare to try this new innovation, "Pot Pie," as the councilman called it, was the subject of his talk to the Palmyra-Riverton Rotary Club on Thursday evening last, and it proved to be one of a combination of "Politics and Religion."

Not that the Club doubted in any way Mr. Frommuth's ability to give them an interesting talk, but they were more than agreeably surprised, when, in the very few minutes allotted to the speaker, due to the short summer schedule, he covered a very broad subject. He did this in a very comprehensive manner and disclosed his adaptability to prepare a timely talk full of instruction and admonitions that can be well practiced and heeded.

In defining politics, Mr. Frommuth stated it was the "Science of Government" without respect to any particular party or platform. He clearly differentiated between "politics" and the average "politician," or what we know of the practices of politicians. He attacked these evil practices and showed just how they worked and an outside effect from that accomplished by those who would carry out in their public life the "Science of Government." He emphasized the importance of a need in this country today that there should be manifested by every citizen a desire to enter politics on its true basis.

Likewise, "Religion" was explained as a "system of Faith and Worship" regardless of any sect or creed. Mr. Frommuth also stated it was just as important that everyone should confine their attention to some form of faith and worship, as an outside effect from that accomplished by every citizen a desire to enter politics on its true basis.

He declared the old established idea that politics and religion should not mix, but rather very forcefully stated that one should work with the other. Thus, the reason for the unique subject, "Pot Pie."

The only regret offered at the conclusion of Mr. Frommuth's talk was that it was not long enough, so "Fred" will have to try a second installment in the near future.

## CAMP OCKANICKON

A water pageant, "How Swimming Grew Up" is to be given at Y. M. C. A. Camp Ockanickon, Medford, Saturday afternoon, July 28, at 2:30 o'clock, to

## RIVERSIDE MEN HELD AS THIEVES

Henry Pfau and Joseph Mann  
Charged With Chicken  
Robberies

The suspicions of a Camden policeman, some efficient and diligent detective work on the part of Chief John Bradshaw and Officer Bruce MacDonald, of the Moorestown police department, and the help of Trooper Doyle, of the State Police barracks, Bridgeboro, has solved the mystery of nearly 500 chickens stolen in Moorestown and vicinity since Christmas.

Henry William Pfau, 418 Bridgeboro street, Riverside, and Joseph Mann, Spring Garden street, and Pavillon avenue, Riverside, 31 and 32 years old, respectively, are charged with the robberies and were held without bail for action by the Burlington County Grand Jury at a hearing before Recorder Joseph W. Johnston, in Moorestown Town Hall, Monday afternoon.

In statements to the police, Pfau, who is the alleged instigator of the crimes, and Mann, admitted the theft of two automobiles for use in connection with the robberies.

**Flat Tire, Arrests**

A flat tire at East Side, Camden, about three-thirty Thursday morning of last week, led to their arrest and downfall. A tire on the small coupe which they were using blew out and damaged the tube beyond repair. Officer W. T. Schiller, attached to the Third District police station, Camden, assisted the pair in locating a service station where a new tube could be obtained. While the tire was being repaired Schiller became suspicious of their actions and sent for additional police. They were taken to the Third District station, where the car was searched and 75 live young chickens, packed in burlap bags in the back of the coupe, were discovered.

Chief William Vohler, of the Riverside police, was called to identify the pair. Further investigation by Chief Bradshaw, Officer MacDonald and the state trooper, which was concluded Monday, brought out a mass of evidence against the Riverside youths, who are now lodged in the county jail at Mount Holly.

**Admit Nine "Jobs"**

They have admitted nine "jobs," two of which were performed by Pfau alone. Estimates based on their confession bring the loss of chickens up to nearly 500.

One of the automobiles was stolen from a side street off Delaware avenue, Riverside, and the other was taken from a spot near the camp meeting grounds at Delanco. Each auto was used for one robbery, as a means of conveying the loot to the poultry market in Philadelphia, where they disposed of all of the chickens, and then abandoned in Frankford. Both cars were recovered within twenty-four hours after they were stolen.

Earl Collins, North Lenola road; Joseph Cowperthwaite, Bridgeboro road; Aaron I. Collins, Michael boys, South Church street; Charles A. Janke, Camden avenue, and William H. Roberts, Chester avenue, were the victims. Some of the places were visited twice. The week before Christmas, 1927, May 13 and 17, April 16 and 20, July 12, 16 and 19, were the dates of the robberies the pair could recall.

**Holds Pfau Responsible**

Mann, in his statement, held Pfau responsible for the idea. He said he was approached by Pfau the week before Christmas. Pfau, he said, "told me he knew how we could make some easy money." Pfau, according to the testimony, explained the plan and their first robbery was committed that week, when the Cowperthwaite farm was looted.

Pfau, who was employed by Aaron Collins for two months, took advantage of his employer during his term of service and later robbed him. While he was employed by Mr. Collins he used his horse and wagon for his operations on one occasion, stole his burlap bags to carry the chickens in and even went so far as to use the Collins' barn as a place of storage for the stolen chickens for more than 24 hours.

Pfau purchased an Overland coupe from Joseph Downs and returned a few nights later to relieve his father of a large number of chickens. He took advantage of his presence on the grounds during daylight while they were negotiating for the sale to slip up the place for later operations.

**Unprofitable Evening**

On one occasion their operations did not prove as profitable as usual. They hired a truck from Lester Fortnum, Palmyra, and after paying the rent for the machine, which they kept over night in order to transport the loot to market, they had \$9.00 remaining to split two ways. They stole 99 small chickens which only netted them \$10, and the truck hire amounted to \$9.00. The "profits" were always equally divided, it was revealed.

The first car, appropriated from the Delanco camp meeting grounds was taken July 12, while the machine stolen from Riverside, a Pennsylvania sedan, was stolen last week.

After their arrest and identification, the pair were lodged in the Camden

## J. R. Hodgson, Moorestown Man, Meets Death in Train Wreck at Georgia

Fifteen Are Injured But Moorestown Victim Is Only Fatality in  
Shannon Derailment; Funeral Services Held  
Monday Morning

Funeral services for J. Royden Hodgson, 35, of 535 Bowling Green, Moorestown, who was killed in a train wreck at Shannon, Ga., were held Monday morning at the home of his brother-in-law, Collins B. Rogers, Moorestown Manor. Interment was made in Harleigh Cemetery, Camden. Mr. Hodgson was the one fatality in the wreck. Fifteen other people, most of them Elks returning from the convention of that order in Miami, were injured, when a broken rail wrecked the Ponce De Leon, crack Florida to Cincinnati express.

Mr. Hodgson's body was taken to Chattanooga, Tenn., and later shipped to Moorestown. Word of the tragedy was wired to his brother, W. Gentry Hodgson, by Chattanooga municipal authorities. Mr. Rogers was also notified and broke the news to the deceased's wife.

Mr. Hodgson was a graduate of Haddonfield High School. He served in the United States Navy during the war. His first wife, the former Marguerite Reeves, Haddonfield

jail while the police laid their attack. Pfau was first taken from the cell and picked out for the police the Cowperthwaite and Earl Collins farms as the only places he had robbed. It was Mr. Collins' chickens, which led to their arrest. He insisted they were the only chicken houses he had looted. Mann was then brought to Moorestown and after a long grilling he made a clean breast of the affair and picked out the chicken houses they had robbed.

Mrs. Pfau accompanied her husband to market to dispose of the loot on one occasion. Pfau's statement revealed.

## BOXING RETURNS AT COMMUNITY HOUSE

Blow-By-Blow Description of Tunney-  
Heeney Bout at Moorestown  
Early Thursday

"Ben" Rumpeltes, Moorestown recreation director, invites all youngsters, especially those of the boxing species, to attend the Tunney-Heeney world's heavyweight championship bout at the Community House this Thursday evening.

Although the boxing class is being held at the Yankee Stadium, New York, full up-to-the-minute details will be available at Ben's Community House party.

The powerful radio receiver, which is connected with \$6,000 Auditorium Orphonic given the Community House by Eldridge Reeves Johnson, will be turned on in the gymnasium to pick up the blow-by-blow description of the fight as broadcast by the expert radio sports reporters.

There is quite a contrast between Tunney's fight in New York and the one being conducted in Moorestown by Ben. While the premier promoter of "battles of the century" knows no limit for admission charges, Ben announces that the Community House will be wide open and seats will be as free as air. In other words, fans are invited to attend the bout right here in their home town and will not be charged a cent. And everyone is welcome to join the party.

## LENOLA RESIDENT REPORTED MISSING

Charles W. Hall Leaves Home to Feed  
Clothes Props and Fails  
to Return

Charles W. Hall, of Erickson avenue, Lenola, has been missing from his home for a week, it has been learned.

Hall is a carpenter, but has been out of work. It is understood, he left his home Tuesday morning of last week with an automobile load of clothes props, which he was to sell, and has not been seen or heard of since.

Foul play is not suspected as the cause of his disappearance. It is understood he deserted his wife and family once before.

The Halls have two children, Evelyn, four years old, and Charles, Jr., who is six months old.

Mrs. Hall conducts a small store in her home.

## FRIENDS OPEN CAMP

A camp for girls and boys under the direction of the Friends' First-Day School Association, has been established along the Rancocas creek, near Medford. At present there are twenty-five girls enjoying vacations. The camp is on the Matlack farm, and during July the girls are holding away, but next month the boys will have their turn.

Cyril Harvey, principal of the Friends' School at Atlantic City and his wife, have charge of the camp, and are assisted by four counselors.

## PICNIC SATURDAY, DEAD ON SUNDAY

Heart Attack, Acute Indigestion  
Cause of Death of Moorestown Man

Charles Alfred Janke, a principal figure in the growth of the Bell Telephone Company, died very suddenly at his home on Camden, Moorestown, Sunday as a result of a combined heart attack and acute indigestion. He was 67 years old.

Mr. Janke had been very active in business and was in fine health up to the time of his death. He had enjoyed a picnic with friends Saturday afternoon and was preparing to leave with his family for a vacation at High Point, Sunday, when he was stricken with the heart attack.

Mr. Janke, who has lived in Moorestown since February 3, 1919, was born in Philadelphia but lived the rest of his life in Camden, with the exception of a few years which he spent in Chicago when he was a boy.

Mr. Janke was very actively connected with the Bell Telephone Company for more than fifty years. He started the Camden business office and was manager there for twenty-two years. Before the Bell Telephone Company was started in Camden Mr. Janke conducted a private telephone with six friends. From Camden Mr. Janke was transferred to the Bourse Exchange, Philadelphia, where he was made chief claim agent.

Later he became chief auditor of the Philadelphia district, the position he held at the time of his death. He was the first president of the Liberty Bell Chapter of Telephone Pioneers. He was eligible for membership in this organization one must be associated with the Bell Company for at least twenty-one years. He was a member of the Patriotic Order Sons of America, treasurer of the St. Paul's Church, Camden, for several years, and was also junior warden and vestryman at the same church for a number of years. He was a member of the Moorestown Trinity Episcopal Church.

Funeral services were held at his late residence Wednesday at two o'clock with the Rev. Edgar L. Sanford, 2nd, rector of the Trinity Episcopal Church here, in charge, assisted by the Rev. Rudolph E. Brestell, of St. Paul's Church, Camden. Interment was made in Harleigh Cemetery, Camden.

The deceased is survived by his second wife, Mrs. Anna Chandler Janke, two children by his first marriage, Norman F. Janke, of Central avenue, and Miss Mildred Janke, a brother, Frank Janke, of Pensacola, and a sister, Mrs. Anna Hutton, of Philadelphia. His first wife, Emily De Pew Janke, died seven years ago.

## THANKS FROM MEXICANS

Eckford M. Watson, chairman of the township committee of Northampton township last week received a telegram from Arturo M. Elias, Mexican consul general in New York, thanking officials and others in this community for honors accorded to the Mexican aviator, Captain Emilio Carranza, whose body was found at Mount Holly after being found beside his smashed plane at Sandy Ridge, in the pines.

"Kindly assure the people of Mount Holly," says the telegram, "that the Mexican government and the Mexican people deeply appreciate everything done by them in taking safe care of the remains of Captain Carranza."

## MAN'S LEG BROKEN AS BANK CAVES IN

Clarence Taylor, Lenola, Worrell Engineering Co. Laborer, Injured  
While Loading Trucks

Clarence Taylor, 37 years old, of Regent street, Lenola, received a broken leg when a sand bank caved in on him while he was engaged in loading a truck at the Water Works hill, King's highway, Moorestown, last Thursday morning.

The cave-in covered the lower part of his body. Fellow workmen, who extricated the injured man, found his left leg was broken above the knee.

He was rushed to the office of Dr. Howard C. Curtis, who ordered his immediate removal to the Cooper Hospital, Camden. He was taken to the hospital in the Maple Shade ambulance.

Taylor was employed by Worrell Engineering Company. He had only been in the Moorestown company's employ a day, having obtained a job as laborer on Wednesday.

## CANADIAN PLANT TO ASSEMBLE PONTIACS

Concrete evidence of the growing importance of the American automobile outside the domestic market is made by officials of Pontiac, Mich., of the Oakland Motor Car Company upon receipt of advice that construction is now under way for a new Canadian factory in which Pontiac Sixes will be assembled.

Located at Regina, Saskatchewan, where 38 acres of city property have been taken over by General Motors of Canada for the project, the new unit will meet the increasing demand for Pontiac cars in the Western part of the Dominion. Construction is being rushed so that production may get under way by December 1.

Thoroughly modern equipment and mass production methods comparable to the arrangement in the new Oakland and Pontiac factories will be incorporated in the new unit it was stated. Daily production will reach 100 cars and employment is estimated at 800 workers, according to information received here.

The Regina factory will be more comprehensive than the average assembly plant. In addition to assembling cars it will be used for body building, trimming and painting operations.

## CHILD IS INJURED IN HEAD-ON CRASH

Three-Year-Old Phila. Boy Badly  
Lacerated at Moorestown

A three-year-old boy was badly lacerated about the face when two Pennsylvania automobiles crashed head-on on Camden avenue, just below Moorestown Manor, 10 o'clock Tuesday morning.

The child, his parents and a younger brother were rushed to Merchantville in a bus and taken from there to Cooper Hospital, Camden, by Chief Linderman, of the Merchantville police.

One of the machines was driven by the father, William Pinkney, 115 S. Twentieth street, Philadelphia. The Pinkney car overturned and landed in a ditch along the road. The small boy, William Pinkney, 3rd, was the most seriously injured. In addition to cuts and bruises, one of Mrs. Pinkney's hands were painfully injured. The father and the two-year-old baby escaped with minor cuts and bruises.

Several stitches were necessary in the boy's face. All members of the family were released from the hospital after treatment was administered.

The accident occurred when Dr. Lectold Vaccard, 1917 South Broad street, Philadelphia, who was driving westward on Camden avenue, turned out to pass a Penn-Jersey bus going in the same direction, and crashed head-on into the oncoming Pinkney machine.

Both machines were badly damaged. No arrests were made Tuesday. The accident was investigated by Officer Charles Erickson, of the Moorestown police department.

## DRESSING TABLE MIRROR

To harmonize mirrors with dressing tables the beveled edge is enameled from behind in a color to match the drapings.

## MOORE SETS DATE FOR SMITH RALLY

Selects August 28th for the Reception  
of Democratic Presidential  
Candidate

Governor Moore has announced that Saturday, August 25 has been set aside as "Smith-Bill day" at Sea Girt location of the summer mansion and state military reservation. He said the date had been agreed upon after a conference with Governor Smith, the Democratic Presidential nominee, and that final plans would be announced soon.

"Now that we have the date finally settled," the Governor said, "and are assured that Governor Smith will come to Sea Girt, we will bend every effort to make his visit to the state encampment one that I feel sure will be a record breaker in the point of attendance."

The Executive said he had been notified that large delegations would be present from all parts of New Jersey and that Hudson, his home county, would have the largest delegation in its history.

Plans are being made for 100,000 visitors.

**CAMDEN MAN FINED \$20**

Charged with being disorderly, James Parker, 1310 Rose street, Camden, was fined \$20 and costs at a hearing before Recorder Johnston in Moorestown Town Hall Tuesday morning. Parker was arrested by Officer Thomas Murphy.

## RIVERSIDE PARK CHILD DROWNS

Body of Walter Lipinsky 8 Years Old Found in Water at Clementon

Apparently overcome by the heat as he entered the waters of Clementon Lake last Thursday, Walter Lipinsky, 8 years old, of Alden ave., Riverside Park, was drowned in two feet of water. He body escaped notice when several other boys playing near him thought that he was lying inert in the water.

The youngster was not discovered until James Wilkins, 9 years old, of Riverton, stumbled over his body. He yelled to friends and his cries brought several life guards and park officials to the scene.

Lipinsky was one of the many children attending the picnic of Trolley-men's Union No. 806. Shortly before he had last been seen, the boy had eaten a hearty dinner and then waded into the water and was playing about when his friends left him to go on the beach to play ball.

Revival Efforts Fail  
The body of the child was taken from the water by Harold Nixon, James Walters, lifeguards, and after an hour's efforts to revive the child, Dr. Harold F. Wescott, of Clementon, pronounced him dead.

According to Dr. Wescott, the body of the child had been in the water for more than an hour. No signs of violence were discovered on the body and the physician denounced the theory that a male bather might have thrown the child into the water.

The child's grandmother, Mrs. W. Hoagner, with whom he had attended the picnic, did not miss Walter for an hour and when informed by her friends that a boy had been drowned in Clementon Lake, she hurried from the picnic grounds to the park's first-aid station, where the body of her grandson had just been moved. The body, until that time, had been unidentified.

Grandmother Identifies Body  
As Mrs. Hoagner started to walk away, one of the officials asked her to look at the child to see if she recognized him. The child's grandmother walked into the first-aid station and when she saw the dead body of her grandson she swooned and required treatment from Dr. Wescott. While being taken to an automobile, she again fainted and when revived it required the efforts of several friends to calm her.

Coroner Arthur H. Holl was called and after investigating the circumstances surrounding the drowning he issued a death certificate. Coroner Holl expressed the same opinion as Dr. Wescott, that the child met his death playing in the shallow water when he was overcome.

An hour after Lipinsky's body was recovered, one of his companions, Arthur Straub, also of Riverside Park, was saved from the same fate when he waded beyond his depth. He was carried to shore by Lifeguard Nixon, none the worse for his narrow escape.

### Lion's Big Chief

BENJAMIN A. RUFFIN

Benjamin A. Ruffin was elected President of the International Association of Lions Clubs at the last session of the twelfth annual convention of the Association, held in Des Moines, Iowa, July 10-13, 1928. Mr. Ruffin was born and raised in Richmond, Virginia, which has always been his home.

The new President of Lions International is engaged in the general insurance business and is a partner of one of the leading firms of architects of the city, and also a director of many other companies. He is the author of various insurance papers and insurance forms which have been adopted by the American Bankers' Association and has spoken before many bankers' conventions in various states.

Mr. Ruffin has been associated with Lions International for a number of years, and due to his pleasing personality and eloquent oratorical power he has been constantly in demand as a speaker at district conventions, character nights and everywhere Lions have gathered.

### DEBUTANTE GIVES BLOOD

San Francisco—Miss Florence Boswick, society debutant, of this city, gave her blood to her father to aid him in his battle against death. The parent, Henry R. Boswick, mining engineer and railroad builder, has a fighting chance for recovery.

## STATE TROOPERS HAVE BUSY WEEK

Sergeant Kiernan Now in Charge of New Bridgeboro Barracks

Sergeant Albright, who has been in charge of the Bridgeboro State Police Unit, has been transferred to the Pompton Lakes Barracks and Sergeant Kiernan, who has been in charge of the Farmingdale unit, has been transferred to Bridgeboro. A private telephone line has been installed at the barracks and the number now is Riverside 535.

During the past week the troopers at the new barracks have been kept busy answering calls in their territory.

Saturday night a call came from Masonville that some one was trying to break into the railroad station at that place. When the troopers investigated they found Carl Taylor, of Mount Holly, on the platform drunk. Taylor said he was trying to get into the station to spend the night. After spending the night in the Mount Holly jail he was given a suspended sentence and released.

Monday, Thomas Daddino and Francis Puccio, both of Riverside, were arrested on the complaint of Miss Mary Kensingler on a charge of trespassing on her property. At a hearing before Squire McCloskey, of Beverly, the boys were given a suspended sentence and released.

Fritz Bassett, of Bridgeboro, and Hans Larson and John Nelson, of Philadelphia, were arrested by the troopers Sunday on a charge of drunken and disorderly conduct. The charges were preferred by Mr. Cumthly, a neighbor of Bassett's. The three men were given a hearing before Squire McNulty, of Fairview, and sentenced to ten days each in the county jail.

A report was received Tuesday that a small wall tent had been stolen from the Hunter farm Monday night. The officers are investigating.

Willard Ricketts, of Fairview, was arrested on a charge of larceny. Ricketts is charged with stealing a number of packages of cigarettes from the service station at the corner of the Riverton-Moorestown road and Burlington Pike.

### Improving Grounds at Lenola School

Extensive improvement are being made to the grounds of the school on New Albany road, Lenola. While heretofore the pupils have had but a very small place for play, the ground will now be much larger and will provide adequate play and outdoor physical training space for the entire enrollment.

The present playgrounds have been cleared and are being put to grade with dirt being hauled from the Water Works park and the large wooded section of three-and-a-half acres is being cleared.

It is understood that the Board of Education, through Walter Carson, its president, has authorized the laying of curbs, gutters and sidewalks along New Albany road in front of the school.

ington pike. He will be given a hearing tonight.

J. Allen Baird, insurance broker of Beverly, was reported missing but since has been located at the home of his father in Wildwood, N. J.

### LOSES HIS FINGER AS AUTOS CRASH

Salvator Cardone, 21 Years Old, of Marlton Pike, Victim of Motor Accident

Salvator Cardone, 21, of Marlton pike near Brickyard road, lost the little finger of his right hand Wednesday of last week when the car in which he was riding was struck by another auto at Greentree and Fellowship roads.

Frank Cardone, the boy's father and driver of the car, was proceeding east on Greentree road from Marlton pike when his machine was struck by a car driven by Ran Whitey, of Pointview Gardens, who was going from Moorestown toward the Marlton pike. Whitey struck the Cardone car toward the rear, hooking the fenders and overturning the machine, which was badly damaged. A motorist took the boy to the West Jersey Hospital.

Whitey was uninjured and his car showed merely a bent fender. No arrests were made by Officer John Planket of the Delaware township police.

## LENOLA GIRL IS CUT BY MOWER

Quick Action of Loughery, Farmhand, Will Probably Save Foot

Anna Smith, 10, of 19 Center street, Lenola, was picking flowers on the farm of John Otto, Maple Shade, Thursday, when Benjamin Brown, a farm hand, left a mowing machine to enter the farmhouse for a moment. The horse hitched to the mower began to move and the sharp teeth of the machine caught the girl's leg.

Her screams as the knives cut into the bone of her leg were heard by Brown. When he saw what had happened he fainted.

Another farm hand, Horace Loughery, ran to the child's assistance. Tearing off his shirt, he made a rough tourniquet and bound it tightly above the girl's knee.

Then he picked her up and ran a quarter of a mile to the Moorestown pike where he stopped Nathan Wright, a rural mail carrier. Wright drove to Loughery's home, a quarter of a mile away where the farm hand got his automobile.

With his brother, Edward, 23, wearing a handkerchief from the running board Loughery raced down the pike, into Crescent boulevard, thence to Cooper Hospital.

Although the bone was badly cut, physicians took 10 stitches in the leg to close the wounds, deciding amputation may not be necessary.

If Anna's foot is saved she will owe her good fortune to the alertness of the farm hand, whose quick action got her to the hospital in short order.

Pure water is more directly responsible for the progress of the temperance movement than appeals to man's morals, Dr. William Mayo, of Rochester, recently stated.

The busier the New York stock exchange is, and the less time a man has to sit down, the more he has to pay for his seat.—Council Bluffs Nonpareil.

## Y. W. C. A. NEWS

The Riverton Colored Girl Reserves have elected officers for next year. Mary Lindsey is the new president; Gladys Cook, vice-president; Anna Hardy, secretary; Mary Kenney, assistant secretary; and Dorothy Johnson, treasurer.

Mrs. E. J. Young, adviser of the club, has given the girls the use of a basement room in her home. They are taking great pride in preparing it for their fall meetings.

Friday morning the two Medford Girl Reserve Clubs, accompanied by Mrs. Hauser, Mrs. Wright, and Mrs. Kirby, had a picnic at Kirby's Mills. After the delicious lunch which was served by the women there was a period of songs and games, followed by swimming for the remainder of the afternoon.

The Riverside Colored Girl Reserves under the leadership of Miss M. E. Hines, have organized a baseball team. They are hoping to play some of the other clubs of the county.

## Lester S. Fortnum's Auto Laundry and Greasing Station

NOW'S THE TIME to Change to the Summer Grade of ALEMITE Gear Lubricant

The transmission and differential gears of your car have needed a light grade of gear lubricant during the cold months.

But during the summer months the gear grease should be heavier in order to provide a heavier cushion. DO NOT have new grease put in with your old or worn out rear or transmission grease. Our system of flushing and cleaning of both transmission and rear before filling with new grease is a guarantee of entire satisfaction to you.

Take advantage of our special price this week on a car wash and greasing combination.

Your car is cleaned inside by vacuum and outside by the high pressure system.

### OPPOSES WIDER BROAD STREET

The following letter was presented to  
Borough Council by Charles T.  
Hawke, setting forth his reasons for  
opposing the widening of Broad street  
as recommended by the Palmyra  
Chamber of Commerce.

The Borough Council,  
Palmyra, New Jersey.  
Gentlemen:

Referring to the proposal of the  
Chamber of Commerce to widen  
Broad street from Cinnaminson avenue  
to Leconey avenue by using space  
which is desired the property owners  
in this block shall give to the  
Borough.

I would strongly recommend that  
before the Chamber of Commerce  
considers widening this particular  
block in the proposed manner, they  
get after the Public Service Corporation  
and see that they live up to the  
agreement made by them when  
they were permitted to lay the trolley  
line along Broad street. The charter  
calls for maintenance of good road bed  
18 inches outside the rails and be-  
tween the rails. They have nothing  
but dirt and the tracks are not even  
up to grade of the main roadbed.  
In some places 4 to 6 inches below.  
If this were enforced, there would  
be room for another line of vehicles  
and the street would be vastly im-  
proved from one end of the town to  
the other. Therefore, I object to giving  
any part of my ground at No.  
6-7 West Broad street for any pur-  
pose until I see good faith shown.

Now the south side of Broad street  
is used by trolley and the north side,  
in this particular block, to the ex-  
tent of one hundred (100) feet from  
Cinnaminson avenue, and Cardfield  
avenue, however, parking is per-  
mitted to within 5 feet of the fire plug.  
Does each block have a different rule  
regulating parking near fire plugs?  
Many of the business places in this  
block would be hampered in a busi-  
ness way if their frontages were re-  
duced. For instance, with the present  
frontage, and no parking per-  
mitted in front of my property, there  
is space available between the sidewalk  
and business place to permit  
people to drive in and park their  
cars there, transact their affairs and  
depart without interfering with any  
one. But if I give such ground to  
the Borough for street, there would  
be no such space for parking—the  
buses would be allotted all of it. And  
property along Broad street is becom-  
ing valuable, too valuable to be de-  
stroyed (as the back part of my prop-  
erty happens to be—for when the  
Chamber of Commerce backed the  
sewerage installations, they failed to see  
that the pipes were not buried more  
than 2 1/2 feet). Would any one wish  
to pay high taxes on property for  
years and years and have the back  
part destroyed by sewer pipes and the  
front part given away to the bus  
and trolley companies? This is  
our taxes are high enough now  
without adding any more by widening  
streets. Broad street in Palmyra  
is three feet wider than in Riverton  
and is just as wide as the street in  
all the way to Camden. Why should  
we give ground to widen two or three  
blocks when we do not need it? Why  
not widen Cinnaminson avenue, where  
most of the traffic is?

If we widen Broad street,  
why not tear away the concrete plat-  
form from the north side of the  
P. R. R. station. Its usefulness is  
gone since trolleys no longer take on  
or discharge passengers there. This  
is the part of Broad street where  
greater width would be absolutely de-  
sirable.

I believe in all just and good im-  
provement where it is needed, but I  
do not see the need for widening Broad  
street in the block between Cinnaminson  
avenue and Leconey avenue and I  
refuse to give up any part of my  
ground for the proposed widening.

Yours very truly,  
CHARLES T. HAWKE.

### THE HEART OF AMERICA IS SOUND

The candidates for President and  
Vice-President chosen by the opposi-  
tion national political parties rep-  
resent the flowering of the spirit of  
government standing at an equity of  
opportunity for every citizen. They  
illustrate the working out of a con-  
stitutional form of government which  
for 125 years has encouraged private  
initiative and enterprise instead of  
crushing individual ambition with

the iron hand of officialism seeking  
to enforce paternalistic control over  
the lives of the people.

No matter what ticket is elected  
in November it will be a victory for  
those principles of equality and de-  
mocracy, without class or privilege,  
which are the basis on which our  
Constitution rests. The people will  
choose between men who are of the  
people in the true sense of the  
word, and have a deep understand-  
ing of the national heart that makes  
for progress and good government.

Underlying the battle for the Presi-  
dency of our Country are two types  
of leadership in both parties—leaders  
like Hoover, sprung from the small  
country communities, and leaders  
like Smith who struggled up from  
the multitudes in a great city.

The inception of the United States  
of America marked the end of that  
popular stupidity of the "Divine  
Right of Kings" and established the  
first successful government in history  
where a man was judged solely on  
his own merits and not by his blood.  
When Herbert Hoover worked his  
way through college by driving a  
laundry wagon, and Alfred Smith  
sold papers on New York's "East  
Side" to help support a widowed  
mother, they were developing the  
character and proving the ability  
that was to place one of them in the  
most important executive position in  
the world. And they were given  
their opportunities to succeed by a  
principle of government that recog-  
nized that such men, in whom ap-  
parent misfortune had created quali-  
ties of greatness and sympathy, might  
be infinitely more capable of ruling  
a nation than the guarded first son  
of some favored monarch.

It is in the high honors paid  
such men that America is seen as  
the land of opportunity. The people  
rule, though the sovereignty of the  
ballot, by selecting to official author-  
ity men of simplicity and strength,  
men who have made their own climb  
from poverty and obscurity to po-  
sitions of power and responsibility,  
men who appreciate our constitutional  
rights and privileges.

Business, industry and the individ-  
ual have a feeling of security when  
they see the traditions and ideals of  
our Country carried forward and  
strengthened by recognition of abili-  
ty, ambition and enterprise. The  
greatest freedom for the individual,  
coupled with absolute security of  
private property rights, is a founda-  
tion principle of our government.  
Skeptics have been inclined to  
think that these cardinal principles  
are being lost sight of by periodically  
the people, by voting their  
opinion through the ballot, recognize  
outstanding men who truly  
American ideal which stands for  
simplicity in government in line  
with constitutional rights so dear  
to the American people.

The greatest heritage of every  
American is his right to start with  
nothing and work toward the high-  
est rewards in our political, industrial  
and business life. Every field is  
open to every man and woman. This  
is the priceless heritage our fore-  
fathers handed down to us and it  
should be jealously guarded.

In the United States there is no  
obstacle in the way of any worthy  
ambition. These men in the Presi-  
dential race, mounting each by his  
own efforts, and as the chosen lead-  
ers of great parties—this is high re-  
sponse breathing still the adventurous  
spirit of American beginnings. So  
long as the people choose of their  
own wisely, we may be sure that the  
heart of America is sound.

### AIRPORTS AND PROGRESS

While Chambers of Commerce labor  
earnestly for deeper channels to bring  
them closer to the seaboard, and po-  
litical wars are waged bitterly over  
preferential railroad rates that may  
jeopardize the markets of inland and  
isolated towns, a thousand dry-land  
ports have suddenly appeared with  
wharves open to business from all the  
world!

According to William B. Stout, pres-  
ident of the airplane division of the  
Ford Motor Company, a thousand  
communities have at least earned the  
opportunity for a place of importance  
upon the new map being drawn of  
channels and harbors that open to  
the sky. It is significant that upon  
these charts many great coastal har-  
bors are absent. For the ships of the  
air, following laws that have always  
governed the development of perma-  
nent transportation, are being drawn  
only to the most advanced terminals.  
At every hour of the day or night,  
somewhere above the United States

planes are carrying commercial cargo  
at a hundred miles an hour to sched-  
uled destinations. These planes must  
have suitable landing fields.

"Bad Roads" Stigma  
In the early days of automobiles,  
the stigma "bad roads" stuck to com-  
munities that failed to grasp the need  
for better roads to smooth the way  
for the new machine. "Bad harbor  
facilities" have ruined many a prom-  
ising seaport town. "Inefficient rail-  
way service" has hampered the de-  
velopment of cities that might have  
become important commercial centers.  
And now that a new and revolution-  
ary leap forward is being taken in  
transportation, the towns and cities  
of today are going to be powerfully  
influenced by the degree of attention  
they pay to airports.

There are still less than 250 municipal  
airports worthy of the name, ac-  
cording to Mr. Stout. There are al-  
most as many commercial and private  
ports. There are somewhat less than  
a hundred maintained by the Army  
and Navy. More than 3000 "phantom  
ports," improperly equipped, are of use  
only as emergency landing fields.  
Few American airports can yet com-  
pare to the European "world-ports" of  
Croydon, Le Bourget, Tempelhof,  
Great cities like New York are awak-  
ening to the full significance of their  
situation. It still takes as long to get  
from a New York flying field to the  
heart of the city as it does to fly  
from New York to Philadelphia. The  
really notable American airports are  
being built by inland cities such as  
Detroit, Cleveland, Chicago, St. Paul,  
Salt Lake City, Wichita and Chey-  
enne.

Moorestown Important Port  
The new flying-field of the Burling-  
ton County Aero Club at Moorestown  
is a step in line with this important  
new development. Among the private  
fields listed for pilots by the Depart-  
ment of Commerce are 1000, of which  
appears as an important port on the  
new air-map. Trenton already has  
established an airport.

What does all this mean to Burl-  
ington, to Mount Holly, to other  
South Jersey towns? Men of broad  
industrial and commercial interests,  
traffic managers, and general sales  
managers can answer best. It is of  
vital importance in American busi-  
ness to promote and maintain effi-  
cient airports. This is Colonel Lind-  
bergh's cry to every city and town.

When the New York-Atlanta Air  
Mail was inaugurated in May, instead  
of one or two ships, as required to  
take 32,000 pieces of mail from New  
York to Philadelphia, New York  
business men had realized at once  
the value of a night mail service  
that would insure delivery in At-  
lanta at the same time in the morning  
as in New York.

Those who hesitate to employ the  
airplane will do well to recall that  
there are still many old-timers who  
refuse to ride in automobiles! Mu-  
nicipalities also must remember that  
they have a golden opportunity  
to progress through the prompt estab-  
lishment of efficient airports. Air-  
ports open directly to the mighty  
ocean of the sky.

### MACHINE CONSCIOUSNESS

Manufacturers of devices to elimi-  
nate or lighten household acknowl-  
edge their debt to the automobile.  
The present generation takes to  
machinery of all kinds in the home  
as a matter of course, and learns to  
operate the "modern conveniences."  
Speaking at a recent meeting of oil  
burner manufacturers, Leod D. Beck-  
er, Managing Director of the Oil  
Heating Institute of New York, at-  
tributed the "modern conveniences"  
of the present generation largely  
to the almost universal use of the  
motor car. "The boy and girl of  
today," he said, "drive a 'gas buggy'  
as naturally as their ancestors swung  
the axe or plied the shovel and hoe."

Manufacturers of automatic oil burn-  
ers find it easier to sell their  
products now than they did a few  
years ago when the average Ameri-  
can was unaccustomed to han-  
dling machinery in the home.  
Oil fuel, according to Mr. Becker,  
is driving coal from the cellars of  
America because it is far better  
adapted than solid fuel for use with  
automatic machinery. While the  
production of heat from petroleum  
dates back to the Pharaohs, oil has  
taken its place in the American home  
as a convenient fuel, only in the  
past decades. In the present gen-  
eration, coal, on account of its diffi-  
culty in transportation, storage and  
handling, and because it produced  
a large residue of useless ash, is  
losing out in competition with mod-  
ern liquid fuel. While, at present,  
the two fuels cost about the same,  
oil has the advantage of being easier  
to regulate.  
"The oil heater, with its thermo-  
static control," said Mr. Becker, "is  
the busy housewife's best friend,  
in fact, the best mechanical servant  
of the household."

### CANDIDATES' CAREERS

Sentiment played a small part in  
the political struggle out of which  
Herbert C. Hoover and Charles Curtis  
emerged as the Republican nominees  
for President and Vice-President. But  
the process brought to the front of  
the national attention two men  
whose careers are bound to stir  
the heart of the country. Now that they  
are impressed upon the public mind  
as likely to have much to do with the  
government of the country for the  
next four years, teachers and preachers  
and ambitious boys and girls with  
courage will go back to their begin-  
nings for some clue to the secret of  
their success.

The life stories of Hoover and  
Curtis have one striking feature in  
common—both were orphan boys  
reared by relatives. Both Hoover's  
parents were gone before he was sev-  
en years old. He was raised by his  
uncles, but his inheritance was less than  
\$1000. So carefully was this conserved  
that \$12.74 of it was left when he was  
graduated at Lehigh University.  
Curtis was reared by the fami-  
lies of his uncles, paying board much  
of the time, and earning his way by  
such odd jobs as fall to the lot of a  
strong, ambitious boy. He earned  
nearly all the expense of his college  
training.

Curtis was left to his relatives at  
the age of three, when his mother  
died. He spent his life until he was  
sixteen with his few Indian relatives  
and from that time until he was grad-  
uated from high school and entered  
a law office with members of the  
Curtis family. He made his way as  
a jockey, lawyer, back driver and  
peanut vendor.

Children left at an early age with-  
out the devoted care of parents are  
deprived of benefits for which there  
is no substitute, but as Hoover and  
Curtis have shown, there are compensa-  
tions. Both men learned during  
their tender years to fight the battle  
for a living, both developed a habit  
of industry and self-reliance which  
in many cases is denied the children  
of well-to-do parents.

## RIVERTON ITEMS

Mr. and Mrs. Nathan Lane, Jr., are  
guests at the Fairmont Hotel, San  
Francisco, this week. The Fairmont  
is famous as a summer resort as well  
as a metropolitan hotel and this year  
is entertaining visitors from all parts  
of the world.

John Lochowitz and Carl Anders, of  
Palmyra, spent the weekend at Wild-  
wood.

Mr. and Mrs. A. C. Dorrance and  
children are at Ventnor.

Mr. and Mrs. Joseph Torbett and  
Mr. and Mrs. Jessup Kay, of Phila-  
delphia, were guests of Mr. and Mrs.  
S. B. Lisk on Sunday.

Mrs. C. Rex Showell and children  
and Mrs. Thomas Mooney and chil-  
dren are at Ocean City. Mr. Sho-  
well is staying with his mother, Mrs.  
C. B. Showell.

Miss Madeline Rice is enjoying the  
week as the guest of Miss Betty Ed-  
inger, who has been spending two  
weeks at Ship Bottom.

Mr. and Mrs. S. B. Clark and chil-  
dren are at Ventnor.

Miss Ada James is visiting at Camp  
Neosho, Evergreen, Colorado.

Miss Marilee Lisk is enjoying the  
week in West Philadelphia with  
friends.

Miss Doris Clark left Friday for a  
trip to Europe.

Mrs. Gertrude S. Kline is on a mo-  
tor trip through the West.

Mr. and Mrs. H. N. Sheble and chil-  
dren are staying at Ventnor.

Mrs. Teeple has gone to Pittsburgh  
to visit her son.

Earle and Dick Kline, of Bank ave-  
nue, are at camp near Doylestown,  
Pennsylvania.

Mrs. E. E. Compton and Miss Helen  
Wood have returned from a week's  
auto trip through the Shenandoah  
Valley.

Dr. and Mrs. J. Rowland Day re-  
turned last Saturday after a ten-day  
trip to Canada. Dr. Day has resumed  
his practice at 423 Lippincott avenue.

Mr. and Mrs. David Cole, of Cam-  
den, and Mr. and Mrs. George R.  
Cole, of Philadelphia, were guests of  
Mr. and Mrs. Otto Sauer on Sun-  
day.

Mr. and Mrs. J. Russell Jermon and  
daughter, Doris, and Mrs. Ada Brown  
visited relatives at Browns Mills over  
the weekend.

Mrs. Marian Donaghy and daughter  
are spending the week with her sister,  
Mrs. Elsie Cooper, at Mt. Ephraim.

Mrs. Herbert Evans and children  
are spending two months at Wild-  
wood.

Mrs. Clara Hehn, of Howard street,  
has returned after spending several  
days in New York.

Miss Mabel Adams, of Philadelphia,  
who has been visiting her sister, Mrs.  
Ada Brown, has gone to Atlantic  
City.

Mrs. William M. Thomas has re-  
turned to Riverton after spending a  
week at Surf City, Va.

S. W. Menesee and son, of Louisa-  
ville, Ky., visited his sister, Mrs. L. E.  
Carpenter, this week en route to New  
York.

Mrs. Helen Miller, of Norristown,  
who is spending the summer in the  
Pocono Mountains, spent the weekend  
with Mr. and Mrs. Morris Steedle.

Will K. Bowen and Miss Elizabeth  
Bowen were in New York, Monday,  
on business.

Mrs. Albert Faunce, of Lippincott  
avenue, who has been seriously ill,  
spent last week at Ocean City re-  
cuperating.

Mrs. J. W. Sylvester is spending  
several days at Atlantic City.

Mr. and Mrs. S. L. W. Field and  
daughter, Miss Margaret, have re-  
turned from a trip to Boston, Mass.,  
Chicheston, and Hartford, Connecticut.  
While in Boston they were the guests  
of Mr. and Mrs. Homer V. Hall, for-  
mer residents of Riverton.

A surprise birthday party was giv-  
en in honor of Miss Nellie Wallace  
on Monday evening. Guests were  
present from Camden, Delair, Beverly  
and Riverton. Many beautiful pre-  
sents were received.

### STONE AGE MUMMIES

THE GREATEST MAGNET  
ROCKEFELLER SEES KINDNESS  
WAR DOES NOT PAY

Mammoths, extinct thousands of  
years, have been found preserved  
skin, hair, flesh, in Northern ice.  
Hoping that men of the Stone Age  
might be similarly preserved, an  
expedition was sent to look.

On an island, far North in cold  
Alaska, scientist discovered at the  
top of an almost inaccessible cliff  
the grave of an ancient Stone Age  
chief.

His coffin was lined with well  
cured skins of the sea otter. His  
shirt was of bird skins, his cloth-  
ing made of the finest furs. A  
favorite child, a seamstress to sew  
for him, a servant and hunter to  
get game for him, had been killed  
and buried with him to accompany  
him on his death journey.

This mummified family from the  
Stone Age will enlighten scientists.  
It interests us all, illustrating the  
unconquerable belief in a future  
life so deeply planted in the hu-  
man brain.  
Why was the belief put there if  
only to be disappointed?

The French Government builds a  
gigantic magnet several thousand  
times as powerful as any built this  
far.

It will be used in scientific ex-  
periments in connection with the  
molecular and atomic construction  
of matter, etc. The magnet eventu-  
ally will be of great use in in-  
dustry.

Here the steel companies use mag-  
nets picking up tons of steel rails  
and loading them on cars, dropping  
them down, lifting them up, as a  
boy lifts tacks with his toy magnet.

Man is an intelligent animal, liv-  
ing on a gigantic combination power  
wheel and magnet—the earth. He  
constructs his own little power plant,  
builds his own electric and magnetic  
power.

In the north day before yester-  
day man's electric work felt an  
electric storm, and an amazing aurora  
borealis, stretching all across the  
northern part of the continent.

If men could borrow and use the  
inexhaustible electric power of the  
earth, they need not turn coal or  
water falls into electric current.

John D. Rockefeller, beginning his  
ninetieth year, said: "I never worry,  
and I am amazed at the kindness  
of people generally."

Eighty years ago, from his father's  
cottage doorway, in the Catskill foot-  
hills, he watched his uncle drive off,  
to trade horses—and saw him come  
back with better horses.

William R. Evans and Samuel R.  
Cole went to Wildwood on Tuesday  
where the ywll remain for the week.

## DRAW ORDINANCE FOR WIDENING OF PALMYRA STREET

Borough Council to Consider Improvement at Its Meeting in August

### NEEDED PROPERTY TO BE CONDEMNED

Commissioners to Decide if Owners Are Damaged or Benefitted

Official action was taken on the proposed widening of Broad street when the Palmyra Borough Council met in executive session last week and instructed the solicitor to draw up an ordinance providing for the improvement.

The ordinance will be presented for first reading at the next regular meeting of Council. When the ordinance is passed as required by law it will be

presented to the court, which will appoint commissioners to decide on the value of the land condemned for the purpose and the value of the improvement to the property. The difference will be paid to the property owners by the Borough or assessed against the property, as may be decided by the commissioners.

The property owners who are willing to deed the ground to the Borough will be released from any further cost. The majority have already expressed their approval of a wider street and are willing to give up the ground for the improvement. John S. Warner, Charles Hawke, Sol Romm and Elsie have gone on record as being opposed to widening the street.

The movement for a wider Broad street was sponsored by the Palmyra Chamber of Commerce some time ago and formally presented to the Borough Council at its regular meeting last week.

Several of the property owners are members of the Chamber and look upon the proposal as one which will be a great benefit to their town as large as well as the business district itself.

It is apparent to the Mayor and Councilmen that a wider Broad street is not only needed as an improvement to local business but is necessary to take care of the traffic when the new bridge is opened. The latter proposition is the one which is mostly responsible for their decision to act on the matter at once.

The State Highway Department has not yet placed the bridge outlets on its program and will not be able to do anything for a year or so as its appropriations have all been applied to other work. In the meantime the heavy traffic which is sure to come with the opening of the new span next fall will have to use Broad street for a time, at least.

The danger to children and other pedestrians will be very great unless plenty of room is provided for traffic to move easily and orderly. It is thought possible that parking will have to be banned entirely in the business section. If the widening program is not carried out before traffic becomes too heavy.

### AN ERROR!

An error may cost the Juniors the game next Monday evening when the 20th Ward team plays the locals. The lads are not apt to make errors if there is a good crowd to help them along with cheers. Do your bit—be there by 6:15.

### CARD OF THANKS

Mr. and Mrs. William Greer wish to thank their friends for flowers and automobiles sent to the funeral of their son, Alexander.

## DR. S. E. STOKES OPENS CAMPAIGN FOR SCOUT CAMP

Drive for \$40,000 is Launched Throughout Burlington Co. by Committee

### SEEK TO PURCHASE 320 ACRE TRACT IN PENNA.

Prominent Moorestown Physician Hends Campaign With Fine List of Directors

"Because I feel that it is better to build boys than mend men, I am glad of an opportunity to be of assistance to the Burlington County Boy Scouts in their effort to secure a camp of their own where the program of scouting may be adequately carried out," said Dr. S. E. Stokes, of Moorestown, in accepting the general chairmanship of a campaign for \$40,000 to be launched at the end of the month. The campaign will last for seven days, and will take in the entire county.

Several prominent citizens have already made plans to form a local committee to assure the success of the campaign in every town. Although Burlington County Council ranks as one of the highest Councils in the Boy Scout movement throughout the country, it is one of the very few Councils in New Jersey which has no camp of its own. Councils in the surrounding counties have already obtained camps for their boys, but Burlington County has been forced to depend on other Councils throughout the summer months.

There are over 1000 Scouts in the county, and 400 took advantage of the camping opportunities offered by Camden County, spending last summer at Camp Minnik in Ulertown, Pennsylvania.

The scout program is primarily an out-of-door one and because of the rapid growth of scouting throughout Burlington County, the County Council feels that the local boys now need a camp of their own if they are adequately to carry out this program.

A camp committee was formed two years ago to seek a desirable site for a camp to be used exclusively by the Burlington County Scouts. After a careful survey of all available sites in New Jersey and Pennsylvania, an ideal tract of 320 acres, including an eleven-acre lake, was located at Cornersville, Chester County, Pa. An option has been taken on this property and the Council is appealing to the people of the county to secure this camp for the boys.

In order to raise the \$40,000 necessary for the purchase, equipment and development of the camp, non-interest bearing bonds will be issued. This will eliminate the necessity of asking for out and out gifts.

Among the towns served by the Burlington County Council are Palmyra, Riverton, Bordentown, Beverly, Edgewater Park, Burlington, Delanco, Maple Shade, Moorestown, Mount Holly, Roeboling and Florence.

Prominent among those identified with the scout movement in these towns are B. F. Houghton, W. C. Coles, H. F. Hall, E. R. P. Johnson, G. Delb. Keim, N. F. S. Russell, Harold M. Wall, Arthur W. Luce, William B. Vandegriff, Benson Clifford R. Powell, and E. Russell Perkins.

Yes, sir, that's what the Riverton Juniors will have to do when they meet the Philadelphia Junior Champions next Monday evening on the Memorial Park field at 6:15 sharp.

## Get Behind the Boys!

The Boy Scouts of Burlington County have opened a drive for a Camp of their own. For the past several seasons they have been forced to depend on neighboring Scout Councils for camps but there has been such a rapid increase in the number of Scouts in Burlington County that this is now impossible.

In the experience of Judge Cropsey, of Brooklyn, New York, who presides at the Juvenile Court in that great Metropolis, never has a delinquent boy been brought before him who was or ever had been a Boy Scout.

Many of the most influential and representative citizens of Burlington County feel with Dr. S. E. Stokes, Moorestown, who is chairman of the campaign, that it is "better to build boys than mend men" and they have worked diligently since the formation of the Council to give the boys of Burlington County every opportunity offered by scouting.

During the past eighteen months under the leadership of Scout Executive John Tallis, a 520 per cent increase has been made in organized troops in this Council. Burlington County is among the leaders throughout the country in the vast boys organization and has secured innumerable honors in advanced Scouting. One Council in New England boasts of 200 merit badges earned in one year for proficiency in advanced Scouting. Burlington County earned over 1000 merit badges for the same year!

In order to adequately carry out the program of scouting, a camp is necessary and Burlington Council is one of the very few Councils in New York and New Jersey which has no camp of its own.

An admirable site has been secured and well known men of Palmyra and Riverton are banding together in an effort to obtain this camp for our boys. We heartily recommend this most worthwhile effort and sincerely applaud these men for their interest in the boys of our Community, who will one day be the men to carry on the work which our present citizens have started.

May success attend this project and the necessary funds for the purchase and development of this camp be secured during the coming weeks.

## The Churches

The First Lutheran Church  
Rev. William M. Erhard, pastor  
Sunday School at 10:00 a. m.  
Morning Worship at 11:00

## EPWORTH METHODIST EPISCOPAL CHURCH

J. William Lee, Minister

The Church School will begin at 10 a. m. Fellowship, melody and instruction will be the order of service.

Morning Worship at 11:15 a. m. Ministry of Music, "Trauerer," Schumann, "Nocturne," Chopin; "March in A." Barrie, Anthem by choir. Sermon, "Lead us not into temptation."

Epworth League devotional service at 6:45 p. m. Rev. Albert J. Harke, of the Moravian Church will be the speaker. Good music.

Evening Worship, 7:45 to 8:45 p. m. Ministry of Music, "Holy City," Foster; "As Pants the Heart for Cooling Streams;" "Romance," Rubenstein; "Evening Star," Mendelssohn; Anthem by choir. Inspirational song service. Sermon, "The man who is so busy that he has no business."

Good fellowship await you here.

## BAPTIST CHURCH

Rev. George Lockett, Pastor

Bible School sessions still meet as usual in the church at 10 a. m. Pastor Lockett will preach at the morning worship at 11:15 on "The Gospel of Jesus." Let there be a large Sunday morning attendance.

In the evening, at the 7:45 twilight service, ladies of the Woman's Society will present a very interesting program in the form of a sacred missionary pageant. This is entitled, "A Clinic of a Missionary Specialist." This unusual evening service will be well worth a large congregation.

Stone upon stone, beam upon beam, here a little, there a little, grows the new church under the daily labor of its builders. Its solid erection is a practical example of what little daily efforts continuously made will do. Great temples have been erected in the course of time by untiring faithfulness to its tasks and with constant fidelity to the goal.

Post cards picturing the completed church are on sale at five cents each by teachers and members of the Primary Department.

The entire church congregation extends heartfelt sympathy to the family of Miss Clara Johnson, one of the sweetest and most patient characters among the church members, now entering into the joy of her Lord.

AUBURN AGAIN IS SUPERIOR  
Local Dealer Has Driver in "Test Car" Records Smashed By Performance of Stock Auburns

Two fully equipped Auburn stock cars broke all previous records for speed on the 1.5 mile track at the City Speedway, on June 30 and July 1. These cars demonstrated perfect performance during the test.

The run starting June 30, was completed July 1 without a stop except for changing drivers and for re-fueling. Records were smashed at every turn of the wheel.

Two Auburn Speedsters, fully equipped, taken directly to the factory production line and driven to the Speedway, ran 2,023 miles at an average speed of nearly 84 miles per hour, breaking former records held by Studebaker by 9.13 miles per hour.

The mere breaking of the record was not the remarkable part of this achievement but, to quote from the American Automobile Association's report as follows:

"There was constantly working under the major technical committee a technical observer to note all pit stops, but, in this particular run, it was not necessary to observe any mechanical repairs or replenishments as there were none made."

A car less perfectly designed or built could not have withstood this strain. "This is the point of importance that we wish to impress upon the public of Riverton, Palmyra and vicinity," said James B. Taylor, local distributor. "We are not selling speed—we are selling endurance and value which we have proved by placing our cars under the severest and toughest tests that are possible for the engineers to conceive."

Mr. Taylor further stated, "So that the local organization would know and experience Auburn's superior performance, George Thomas, sales manager at Taylor's Garage, drove one of the cars during the entire run." The experience gained by the close cooperation of a dealer organization in an event of this nature is of utmost value to car owners in that it demonstrates the true measure of a car's endurance and shows what can be expected in long life, continual service and ability to stand up.

## PALMYRA NOTES

Mr. and Mrs. Stewart Buchholz moved into their new home, 29 Charles street, Monday.

Mr. and Mrs. Thomas Carroll are enjoying their vacation at Atlantic City.

Elvin I. Powell spent several days last week at Wildwood, returning on Saturday accompanied by Mrs. Powell and children and Miss Jane Hamilton.

Mr. and Mrs. William M. Wilbraham and son, Marshall, and Mrs. William H. Rudduck visited relatives in Trenton on Saturday.

William Powell returned to his home in Camden on Friday, after visiting ten days with his grandparents, Mr. and Mrs. William B. Powell, and his brother Arrowett is now visiting his grandparents.

Mrs. Everett Wiggins entertained the IOOF Auxiliary at luncheon on Tuesday.

Mr. and Mrs. Albert Smith, of Stonehurst, Water Kemmerle and son, of Riverside, and Harry Wood, of West Philadelphia, were weekend guests at the home of Mr. and Mrs. Harry Kemmerle, Sr.

Mr. and Mrs. Raymond P. Ecker, of Baltimore, spent Thursday and Friday with Mr. and Mrs. Edman W. Thomas.

Mrs. Ethel Monjeau has returned to her home in Canada after spending several weeks with friends in this vicinity.

Miss Virginia Seel and Joseph Seel spent the weekend at the Hotel Blacayne, Ocean City.

Mrs. Emma Blaser entertained her sister from Delaware over Sunday.

Miss Nora Carpenter returned home Sunday after spending her vacation with her sister, Mrs. Robert Lang, in Long Island, and visiting surrounding places of interest.

Mrs. George Kern, of Allentown, spent Sunday with her sister, Mrs. Charles Jobe, who has been ill for the past three weeks and is now convalescing.

Mrs. A. C. Blinder is visiting several weeks at the Hotel Blacayne, Ocean City.

Mr. and Mrs. John Ward are receiving congratulations on the birth of a daughter Monday, July 23.

Ralph White and James Wiley motored to New York over the weekend.

William B. Powell spent the weekend at Ocean Grove.

Mr. and Mrs. Earl Vonderamth and son, Fletcher, of Bryn Mawr, were guests of Mr. and Mrs. H. R. Guldin on Saturday.

Mrs. George Seel returned Saturday after spending a week with her son George at Maplewood.

Mr. and Mrs. F. J. Barr and Mr. and Mrs. Joseph A. Schwartz visited Sunday with Robert Grogan and family, in Lansdowne.

Mrs. A. E. Rudolph, of Harrisburg, is visiting her son and daughter-in-law, Mr. and Mrs. Edman Thomas.

Miss Ethel Truitt, of Atlantic City, is enjoying two weeks as the guest of Mr. and Mrs. Harry Storick, of Memorial avenue.

Master Russell Hammelman has returned home after a week spent at Camp Oceanickon.

Miss Ruth Hollinshead has returned to work after an enjoyable vacation spent partly at Wildwood and a motor trip to Washington and thereabouts.

Mr. and Mrs. Russell Hammelman and son, spent Saturday at Seaside Heights.

Clifton Taylor, Raymond Lamont, Dayton H. Lamont and Herbert Clark motored to Wildwood Monday and returned with a catch of over 300 fish. These Palmyraites seemed to have set quite a record.

Captain Harold B. Lever is spending two weeks with the New Jersey National Guard at Sea Orl. Captain Lever commands the Howitzer Company, 114th Infantry.

Carl W. Lutz was seen enjoying the cool ocean breezes on the boardwalk in Ocean City last Sunday.

Fred Wolfe, of Fourth and Horace avenues, who is employed at Sevier's Hardware Store, swam the Delaware River last Thursday evening.

Mrs. Norman C. Saylor and daughter, Miss Norma, of Perry avenue, left town Tuesday afternoon on a trip to Detroit, Michigan, and Cleveland, Ohio.

Paul Y. Eckert, new supervising principal of the Palmyra schools, was a Palmyra visitor Tuesday. Mr. Eckert expects to move to Palmyra with his family as soon as he can make the necessary arrangements.

Rotary President Joseph S. Low attended the Rotary convention at the Union Lake Boy Scout camp near Vineland, Monday and Tuesday.

Dr. James E. Brown, Frank McCormick and Nevin Buchholz have returned from a fishing trip to Canada.

Miss Helen Pettit, of Highland avenue, is spending two weeks in the mountains of Columbia county, Pennsylvania, near Bloomsburg.

The ladies of the Central Baptist Church will present a sacred missionary pageant in the Church on Sunday evening, entitled "A Clinic of a Missionary Specialist."

Calvin Kerr, of Horace avenue, is spending two weeks as the guest of Mr. and Mrs. Matthews, of Colton, Maryland.

Do you recall, in last week's issue, we said we would tell you just how many fish, large and small, got away from those noted fishermen, Tom Bromley, Bill Purnell and Stan Lepkowski, on their trip to Little Beach last Friday? Well, it appears they were fortunate in "bringing in" quite a nice catch. Bill caught the largest number of fish. Stan caught the largest cod, and Tom caught the largest bass. They were very successful.

## COUNTY HISTORY OF 25 YEARS AGO

Items of Interest Published in  
Mount Holly Mirror  
July 15, 1903

The price paid for the Arcade hotel property and the adjoining property, known as Arcade row, sold recently, was \$42,000.

At a public sale last week three shares of the Camden and Burlington railroad brought \$42.50 per share.

The John S. Rogers Company, of Newark, has received the contract to build Turner's Hall, Riverside, for \$11,787. It is thought that the cost of the completed structure will be \$15,000. The work is to be done in five months.

Miss Sarah J. Gaskill, who was stricken with apoplexy in Ocean Grove last week, died at her home in Mount Holly on Friday evening.

County Auditor William W. Worrell appeared before the Board of Freeholders on Wednesday and asked that steps be taken to abate the tramp nuisance in this county. From March 7 to June 4, he said, 173 tramps had been committed to the county jail from Mount Holly alone. The price paid for each commitment is 75 cents. The commitment of tramps last year cost the county \$5,000, he reported. His suggestion is that the law be enforced by placing a ball and chain on each hobo and that they be put to work on county roads. The board decided to comply with his recommendation.

The quarterly report of the superintendent of the Burlington County Asylum shows 148 patients in the institution.

July 22, 1903  
Work of surfacing the road from Burlington to Beverly with stone started last week.

The annual camp meeting at Cookstown began on Sunday and will continue until August 2.

A handsome pair of antlers have been placed in the Elks Home, Mount Holly, a gift from Moorestown members of the lodge.

The funeral of Thomas Randall, of Mount Holly, took place on Thursday with military honors accorded by Gen. A. E. Shuman Post, G. A. R., of which he was a member.

A tract of 18½ acres of land in Delran township, along the Camden and Burlington road, has been bought by Henry Tauber, from the estate of Sarah Davis, late of Moorestown, for \$1,070.

Some Mount Holly Elks, accompanied by J. Holmes Longstreet, of Bordentown, on Monday, on a trip to Baltimore in his steam yacht, May, to attend sessions of the grand lodge being held this week in the Maryland city. Exalted Ruler Eckard P. Budd is representing Mount Holly lodge at the grand lodge.

At the coming Mount Holly Fair, Rosenfeld Brothers, furniture dealers, will present a five-piece parlor suite to the couple that will get married at their exhibit in one of the buildings.

Henry Wright, one of the most prominent residents of Shamong township, died suddenly while eating breakfast at his home near Indian Mills on Wednesday, in his 57th year. Heart failure is assigned as the cause of death.

Affairs of the Seaside Improvement Company will be settled at a meeting of stockholders in Camden tomorrow to dissolve the corporation. All the original stockholders have received the amount of their stock in building lots, which can be sold at a handsome profit in addition to a twelve per cent dividend.

Charles H. Fletcher, the well-known patent medicine man, who is a member of the Seaside Park Yacht Indian Mills on Wednesday, in his 57th year. Heart failure is assigned as the cause of death.

Electric motors are being installed in the watch case factory in Riverside to operate machinery and are giving perfect satisfaction.

Rev. Charles E. Betticher, who recently resigned the pastorate of St. Stephen's Episcopal Church, Beverly, accompanied by his wife, sailed from Philadelphia on Saturday on a two-weeks' trip abroad.

Samuel W. Beldon, Bordentown lawyer, has been appointed general counsel for the Fidelity Trust Company of Newark. The salary is said to be \$15,000 a year. His removal from the county will create a vacancy in the County Republican Executive Committee, of which he is chairman.

### PLEADS FOR WIDER USE OF VEGETABLES

Vegetable dinners once or twice a week offer a pleasant change from the usual meals with meat, and July and August offer a wide variety of tender vegetables from which to choose many appetizing combinations for such dinners.

The state foods specialist of the college of agriculture at Rutgers University, New Brunswick, is suggesting for this purpose the selection of vegetables that have a contrast in color, that harmonize in color, and that blend well in flavor. Buttered peas and carrots cooked together or separately, beets with sour sauce, scalloped potatoes, and cheese and cabbage salad with cherry pie for the older members of the family and cherry jelly for the children are proposed as desirable for one dinner.

For another day the specialist recommends buttered string beans, cauliflower with cheese sauce, spinach, lettuce and tomato salad, and baked custard served with fresh fruit and crisp cookies.

According to the specialist, much of the dislike for vegetables is because of poor preparation. She says "Steam is many vegetables as possible to prevent the loss of mineral elements. Cook vegetables in a small amount of water and only until tender. The longer the cooking is continued the greater the loss in flavor and in vitamins. Most vegetables retain more of their characteristic flavor if they are served with butter rather than white sauce, but for variety now and then a white sauce of cheese sauce may be enjoyed."

"Vegetables supply bulk and thereby satisfy the appetite without burdening the body with foods rich in starch and fat which produce heat. Hot weather demands a generous use of vegetables and fruits in planning meals."

Our idea of a contented man is the one who sits at the center of the family along the dinner—Ohio State Journal.

## THE FUMBLE FAMILY

### She May Not Need Any Further Rescuing

By Albert T. Reid

## MOORESTOWN

Miss Winifred Riley, of Marter avenue, has returned from a week's vacation spent at Bayonne, with her uncle, Thomas Riley, and family.

Mrs. Henry Paulson and daughter, Miss Mable Paulson, and son, Henry, Jr., of Chester avenue, were weekend visitors of Mrs. Paulson's family, in New Egypt.

Members of the local American Legion, William H. Snyder Post No. 42, and Ladies' Auxiliary, and their families will enjoy their annual picnic at Browns Mills, this Saturday afternoon and evening. They will leave the Post headquarters promptly at 1:30 o'clock in the afternoon.

Miss Ida Mae Tull, of Hartford, has returned home after attending the Peddie Assembly for nearly two weeks as a delegate from the Baptist Young People's Union of the First Baptist Church, here. Miss Tull, who holds a remarkable Sunday School record, not having missed a Sunday for nearly sixteen years, was well chosen to represent the local group.

Little Misses Sarah and Alice Fitzgerald, daughters of Mr. and Mrs. Frank Fitzgerald, of North Church street, are spending a few weeks' vacation with relatives of Mrs. Fitzgerald in Jenkintown.

Miss Kathryn Paulson, daughter of Mr. and Mrs. Henry Paulson, is spending the summer with her grandmother in New Egypt.

Little Miss Ruth Gray, daughter of Mr. and Mrs. Philip J. Gray, of South Washington avenue, returned home last Thursday evening from a week's visit with her grandparents, Mr. and Mrs. Bernard Gray, of Overbrook, formerly of Moorestown.

Mr. and Mrs. Lavando Pond took up their residence at 309 Fairview avenue last week.

Mr. and Mrs. Russell W. Stiles, and baby daughter, of Rummenede, are spending two weeks at the home of Mrs. Stiles' parents, Mr. and Mrs. W. Clement Moore, of West Second street.

Mr. and Mrs. William S. Davidson, Jr., of Fairview avenue, returned Sunday from a week's motor trip to Canada. En route they stopped at Scranton and Buffalo, and while in Canada they visited friends on Grimsby Beach, Lake Ontario. On their return Mr. and Mrs. Davidson spent a day in Buffalo and two days in Pittsburgh, where they visited a niece of Mrs. Davidson.

Henry Paulson, of Chester avenue, is driving a new Chrysler "Plymouth" sedan which he purchased from the Fisher-Davis Motor Company, local dealer.

Miss Helen Loftis, of the Moorestown Trust Company, has returned from a week's vacation spent in Ocean City with friends.

Mr. and Mrs. John Wilmont, of West Second street, and Mrs. Wilmont's parents, Mr. and Mrs. Remington Haines, and daughter, Miss Lilian Haines, of East Main street, and Burt Rogers, motored to Asbury Park, Sunday.

Mrs. Henry H. Stiles and family, of East Main street, are spending three weeks in Ocean City.

The Misses Selma and Margaret Brodie, of North Washington avenue, are spending two weeks in Atlantic City.

Dorothy Roberts and Miss Joy Reeve, of Moorestown, again represented Moorestown in the fourth of a series of five tournaments staged annually by the West Jersey Tennis League, at Merchantville Country Club, Saturday afternoon. Other families' entries for the matches included Miss Laura Pittenger and Miss Beanie and Miss Sarah Taylor, of Haddonfield; Mrs. William C. Moore, and Miss Betty Collins, of Merchantville; and Miss Catherine Goff, of Riverton.

Dinner was served in the club house at six o'clock for the players and their friends, and was followed by a dance.

Mr. and Mrs. James E. Kelley, of East Main street, entertained at a bridge party at their home Wednesday evening of last week.

Mr. and Mrs. H. P. Stockwell, Jr., of West Maple avenue, spent the week-end in Ocean City.

Mr. and Mrs. William C. Cotes, of Chester avenue, who recently returned from the summer tour of the Pennsylvania Lumbermen's Association to Canada and the White Mountains, are now at their cottage in Seaside Park, where they will spend the remainder of the summer.

Mrs. H. A. Bartlett, Community House secretary, is recovering at her home in Maple shade after a few weeks' illness.

Mr. and Mrs. Robert N. Wood, of West Maple avenue, were among those who spent the weekend in Ocean City.

Mr. and Mrs. Henry Stockwell, of East Maple avenue, and Mrs. Henry P. Stockwell, Jr., of West Maple avenue, will leave Saturday for the Stockwell camp in Fayette, Maine, where they will remain until the middle of September.

Members of the local American Legion Auxiliary entertained members of the William H. Snyder Post No. 42 at a social night at their headquarters, Third and Elm streets, last Thursday evening. The crowd enjoyed games, piano selections by Mrs. Anna Rutland, of Linden street, and Mrs. William H. Nicholson, of North Church street, and other interesting features.

Refreshments were served during the evening. Mrs. Emma Shreve and daughter, Miss Sarah Shreve, headed the committee in charge.

Children of the local playgrounds, under the direction of the Moorestown Recreation Commission, attended a picnic at Lake Coteney yesterday (Tuesday). About three hundred kiddies enjoyed the "outing."

Mr. and Mrs. William S. Davidson, Jr., and son, Wesley Kurtz, of Fairview avenue, recently spent a week in Atlantic City visiting friends.

Miss Anna Riley, of Harris avenue, is spending the summer in Atlantic City.

Miss Kathleen Gray, of Overbrook, formerly of Moorestown, was a visitor of the Misses Agnes and Grace Cunningham, of West Third street, last week.

Mrs. Edward Fitzgerald and family, of West Second street, visited her parents, Mr. and Mrs. James D'Arcy and family, of Maple Shade, Sunday.

Mr. and Mrs. Martin J. Havers, of Church road, were among those who spent Sunday in Seaside Heights.

The marriage of Miss Mary Brennan, of Marlton, to Elwood Derringer, of Oaklyn, will take place in the Church of Our Lady of Good Counsel, next Wednesday morning, August 1.

Miss Brennan's sister, Mrs. William H. Baugh, entertained at a miscellaneous shower at her home in Oaklyn Saturday evening in her honor. Guests were present from Marlton, Collingswood, Camden and Philadelphia, as Miss Helen Brennan.

Members of the Aztec Club of the Mystic Chapter, Order of Eastern Star, will hold their annual outing this Saturday at the Rancocas cabin of Mrs. Frank Coombs.

Mr. and Mrs. Edward P. Hyland, Mr. and Mrs. Harvey Miles, and Mr. and Mrs. Samuel Lehman, all of Moorestown, were guests of Mr. and Mrs. Charles Leeds, of Marlton, at Surf City Sunday.

Mr. and Mrs. William Kennard entertained relatives at a dinner at their East Central avenue home Friday evening.

Dr. O. N. A. Westcott opened his office at 1515 Main street, where he will hold the remainder of the summer.

The former Dr. Stroud property, last week, Dr. Westcott is a graduate of Hightstown College and has been connected with the Ann May Memorial Hospital, Spring Lake, N. J., for some time.

Miss Anna Spear, of South Washington avenue, has returned from the Cooper Hospital where she recently underwent an operation for appendicitis.

Mrs. A. W. Rabau and children, of South Washington avenue, have left to spend the remainder of the summer in Island Heights.

Mr. and Mrs. J. Paul Murphy, of South Washington avenue, motored to Seaside Sunday.

Grant Mahon, of East Second Street left yesterday (Tuesday) for the Boy Scout Radio Camp at Princeton, where the Scout official will spend the remainder of the summer.

Members of the Epworth League of the Methodist Episcopal Church will enjoy an ice cream social tomorrow (Thursday) evening at the church. The members will bring the ingredients and make the ice cream.

William D. Oldershaw, of East Main street, who has been ill for the past several weeks, is much improved and now able to sit up in bed.

Missionary Sunday will be observed in the First Baptist Church this Sunday. The Rev. C. W. MacGeorge, pastor, will talk on the subject "Leprosy at Home and Abroad" at the service at 11:30 in the morning. The program is in charge of Mrs. C. O. Fountain.

Mr. and Mrs. Charles Conklin, of West Central avenue, motored to Seaside Heights Sunday.

Mr. and Mrs. Charles Sterling and Mrs. John Conklin and daughters, Miss Sarah and Miss Helen Conklin, spent Sunday in Seaside Heights.

Mrs. F. B. Morley, of the Methodist Episcopal parsonage returned Wednesday last week from the Pennsylvania Hospital, Philadelphia, where she underwent an operation for appendicitis.

Members of the Epworth League of the Methodist Episcopal Church will hold a cake sale at the church this Saturday afternoon to raise money so that they will be able to realize their many summer activities.

Mr. and Mrs. John Campbell and family, of East Second street, were among those who spent Sunday at Seaside.

Mrs. Armit H. Coale, of Chester avenue, left Saturday for a six weeks' sojourn in the Pocono mountains.

Mrs. Charles Butler and daughter, Miss Mary Sutton, and son, Charles Sutton, Jr., of South Washington avenue, enjoyed a motor trip to New Hampshire last week.

Mr. and Mrs. Preston T. Roberts and family, of Moorestown, have left for Ocean City where they will spend the remainder of the summer at their cottage at that resort.

The marriage of J. Frohock, of East Second street, left yesterday (Tuesday) morning for a motor trip to Springfield, Mass., where they will visit Mrs. Frohock's brother, William Remington, and her mother, Mrs. Remington, who is very sick. They expect to be gone about a week.

Mr. and Mrs. Samuel R. Matlack and family, of West Main street, are at their summer home in Camden, Maine, for the season.

Mr. and Mrs. W. Henry Evans and family, of West Main street, left last week for Ocean City, where they will spend the remainder of the summer at their cottage in that resort.

### SIMPLE DEVICE FOR HELPING HOUSEWIVES

Something capable of driving heat, odors, smoke and dust from the kitchen would be appreciated by nearly all housewives, especially during the hot days of August. A device of this kind would be particularly desirable if it were inexpensive to buy and cheap to operate. Such a boon exists in the electric fan, W. C. Krueger, state specialist in rural electrification, is reminding New Jersey housewives.

Either the ordinary stationary fan or the oscillating fan is satisfactory, according to the specialist, though the latter is preferred because it sweeps across the entire room several times a minute, gently pushing out hot, impure air without causing a draft. An arrangement recommended as effective is to hang the fan high on the wall opposite the window, which should be opened at top and bottom. By tilting the fan toward the ceiling, the hot upper layer of air and the rising fumes from cooking are swept out of the room, causing fresh air to enter the lower opening.

Special exhaust ventilating fans also are available. Mr. Krueger points out. These are mounted on a panel that slips into the upper sash of the open window and are extremely effective in drawing polluted air from the room. The whole house frequently can be ventilated by one of these efficient fans if windows are opened in the proper rooms. One make of fan of this type is reversible by a switch, and can, therefore, be used to drive cooling breezes back into the kitchen when cooking is finished.

### CITY WITHIN A CITY

"A city within a city." That's what they have in Detroit. It has a population of approximately 1,500, operates its own police and fire departments, postoffice, railways, restaurants, schools and hospitals, and manufactures products valued at millions of dollars monthly which are shipped to every corner of the world. The city encased in two others is "Dodge City" within the city limits of Hamtramck, a separate city within the limits of Detroit. The area of this city is reckoned by acres, approximately 218, yet nearly every function performed by municipal governments can be duplicated within its boundaries. Here more than 2,000,000 Dodge Brothers automobiles have been built in 14 years of the city's existence.

### SOUR MILK LOSS CAN EASILY BE AVOIDED

Persons producing and handling milk can greatly reduce the losses from souring and undesirable flavors during hot weather by observing a few simple precautions, states R. G. Connelly, assistant dairy extension specialist in New Jersey.

The place to begin these precautions is at the barn where the milk is produced, according to Mr. Connelly, who recommends the washing of the flanks and udders of the cows, milking the animals thoroughly, using the small-top pail, promptly removing the milk from the barn, and cooling it to 45 degrees Fahrenheit, and using only utensils which have been cleaned and sterilized with scrupulous care. Distributors will reduce their losses from souring, the specialist continues, by keeping the commodity at a temperature of 45 degrees and delivering it in sanitary bottles.

It is pointed out that many consumers ruin an otherwise excellent product through negligence in promptly putting the bottles in the ice box after they are delivered by the milk man. Even one hour exposure to a temperature of 60 degrees or more makes a vast difference in the bacterial content of milk, consumers are warned.

Fish can be left in an outside pool provided it is deep enough so that when ice forms sufficient water is left to furnish oxygen for them; if there is mud at the bottom, they will remain quiet and in all probability will survive in comfort.

## DILL WARNS OF CROOKED TRICKS

Commissioner Advises Applicants Auto Driving Fee Is Only \$3.00

Motor Vehicle Commissioner William L. Dill is issuing warning instructions to persons applying at branches of his department for the driving license tests that they should "beware of crooked schemes by a small coterie of men who have followed the examinations and extorted money from many of the applicants." Each applicant appearing at the examination point is given this notice signed by Commissioner Dill:

"Your attention is respectfully invited to the following:

"1. No license to operate a motor vehicle over the highways of New Jersey can be obtained in New Jersey until the applicant therefor passes a satisfactory examination.

"2. The legal fee for a driver's license to operate a motor vehicle is \$3 per annum.

"3. You are cautioned not to pay any more than \$3 for a driver's license, plus the legal fee of 50 cents for every learner's permit obtained.

"4. If anyone approaches you with a view of extorting money from you under the pretext of obtaining a driver's license, without an examination, call a policeman and have the man arrested.

"5. Do not converse with any stranger who approaches you while in line awaiting to undergo the test.

"6. Do not permit any solicitor to engage you in conversation with a view of securing your subscription for an automobile trade journal or to sell you some accessory.

"7. In short, beware of all impostors. Those applicants who knowingly negotiate for a driver's license, without obtaining the same in the manner prescribed by law, will be looked upon by the Motor Vehicle Department as unfit persons to hold such a license and their names will be placed upon our prohibitory list.

"8. Representatives of the Motor Vehicle Department are vested with a badge designating their office and rank and their identity can be readily established. If in doubt, the inspector to produce his credentials, which are issued under the hand and seal of the commissioner.

"9. Do not purchase any map or book that is alleged to contain the questions asked by us at the examination and the answers thereto. This kind of information has not been given out by the Motor Vehicle Department and we are strongly opposed to this form of commercialism.

"10. Report immediately to the commissioner any discourtesy or lack of attention on the part of the inspector.

"11. Finally—Do not embarrass an inspector by the tender of gratuity. They are under strict orders not to accept any emolument for services rendered."

MAKES WOOL SHAWLS

Charles Foulner, a prisoner at the county jail at Mount Holly, who is serving time for forgery, is improving his idle time by weaving shawls from wool. The prisoner has made a loom from wood and other material at his disposal. He has already received a number of orders for the shawls, which are twenty-four inches wide by two yards long and are made of two colors of wool.

SIGN FOR MARRIAGE

Love, honor and obey—and sign the temperance pledge, is the demand made upon candidates for matrimony by J. H. Sanford, justice of the peace at Cloverdale, N. M. When a couple appears before him he asks each to sign a pledge he hands to them. If they do not sign they are not married by J. H. Sanford.

ON PURE SMOKE MERIT ALONE

you'll pick this ripe tobacco

cigar . . . And the price

is only a nickel!

THAT'S a big statement—especially to the man who has hunted in vain for a five-cent cigar he could really enjoy. If that's your case, will you come with us to the nearest cigar counter and try the new Havana Ribbon (1928 model)? Every opinion you ever had about five-cent cigars will undergo revision. You'll forget the price—except to congratulate yourself on the money you're saving—and you'll choose this cigar against any other five-cent cigar you've ever tried. Because you'll thoroughly enjoy smoking it. Every one who smokes will bring home to you the fact that Havana Ribbon contains no bitter under-ripe nor flat-tasting over-ripe tobacco. But only the true, mellow-mild flavor of fully-ripe middle leaves of choice tobacco plants. And long-filler at that!

Honest-to-goodness manufacturing sincerity and huge production have done it!

BAYUK CIGARS, INC., Philadelphia

It's Ripe Tobacco!

HAVANA RIBBON

5¢

With or without foil, as you prefer. No difference in quality.

(Londres)

Also Perfecto extra size, 5¢ for 20. Also Perfecto Pocket Packages of five cigars (Londres size).

## Prosecutor Davis Denounces Verdicts

Prosecutor James Mercer Davis, of Ocean county, well known in Burlington county, last week in the Ocean County Court very clearly stated his displeasure over the manner in which jurors had given verdicts of not guilty in cases where he was positive the evidence furnished sufficient foundation for convictions. The impression was gained from his remarks that he would not move any cases for the present panel to try.

One of the important matters ready for consideration was the trial of Joseph M. Abbott, Ocean county engineer, who has been indicted on a charge of padding the payrolls that he turned in to the Board of Freeholders with his approval attached, and Prosecutor Davis indicated his feelings when he asked for a postponement of this case, and Judge Gallagher granted it. The public condemnation of the jury's decisions had previously been made.

The report is that the jurors tried some of the cases lightly because Judge Gallagher had administered a rebuke after members of the panel had become so boisterous during the deliberation of cases that the court was annoyed, and caused him to wonder whether serious business or a frolic was in progress.

## MEXICO REWARDS CHATSWORTH MAN

Finder of Carranza's Body Given Check for \$500; Carabine Rewarded

Mexico sent her representative to Chatsworth last week to reward the New Jersey berry picker who found the body of her hero aviator, Captain Emilio Carranza, who crashed in the pines near Chatsworth, Tuesday, July 12.

Abelardo N. Martinez, Mexican Consul in New York, presented \$500 to John H. Carr and an additional \$250, the personal gift of Consul General Arturo Elias, to Arthur Carabine, Burlington county detective, in appreciation of Carabine's assistance in getting the Mexican aviator's body to New York.

Martinez was taken to Sandy Ridge, the scene of the crash, and saw evidence of the disaster, although the wreckage had been cleared away. He

removed his hat at the spot where the aviator was found, 50 feet from the shattered remains of the plane. The nature of the terrain near the scene made it apparent that a successful forced landing would have been impossible.

The ceremony at which Carr and Carabine were presented their purses was simple but effective. Martinez addressed each in his turn, thanking them on behalf of Mexico and the Consul General for their assistance. He met State Senator Clifford R. Powell and was taken in charge by a Chatsworth reception committee consisting of Walter Stone, David Applegate, Walter Brower and Elmer Dunfer.

Before returning to New York, the Consul General's representative inspected the wreckage, which had been stored in the barn of Joseph Hollo-way. The motor had been taken to the army in Mount Holly. Martinez asked that all of the material be sent to New York at once.

A bill to standardize sizes of baskets and hampers for carrying fruits and vegetables was passed just before Congress adjourned, after being on the list of pending legislation for more than eight years.

## TOPOGRAPHICAL MAP FOR STATE

New Jersey Was First Commonwealth to Make Such Survey

New Jersey has the honor to lead the states in making a topographical survey of her territory. This survey was begun in 1877, with Massachusetts following in 1884, and gradually resolved itself into the present New Jersey Topographical Atlas which is constantly being revised to meet present day conditions by the Division of Geology and Topography of the New Jersey Department of Conservation and Development.

The topographical survey of New Jersey was the outcome of a desire on the part of Governor Peter D. Vroom for a geological and mineralogical survey of the state in hopes that such a survey would lead to the discovery of valuable mineral and metallic resources. Governor Vroom

conceived this idea in 1832 and succeeded in having the Legislature pass a bill on February 26, 1835, which provided for "the employment of some suitable scientific person" to make a geological and mineralogical survey of the state and allowed any sum not exceeding one thousand dollars to carry on the work.

Henry D. Rogers, professor of geology of the University of Pennsylvania, entered upon the work at once. His report was presented to Governor Vroom on February 16, 1836. The clear and easily-understood plan of work set forth by Professor Rogers in his report has furnished the basis for all the geological investigations which have since been made in New Jersey.

At the time Professor Rogers made his geological survey the maps of New Jersey, from which it was necessary for him to conduct his work, were far from satisfactory. Later it was decided that a thorough geological and mineralogical survey could be carried on more effectively if a more complete and accurate topographical survey was made of the entire state.

In 1877, under the direction of Dr. George H. Cook, state geologist, a complete topographical survey of New Jersey was begun, giving this state the honor of being the first in the

country to start such a project. Massachusetts followed in 1884.

In 1887 the topographical survey was completed. A set of 17 maps, or sheets, drawn to a scale of one inch to the mile was published. Each of these maps covered a certain area of the state, and when joined together formed the first complete and accurate topographical map of New Jersey.

As time went on this set of maps was improved by several changes. Each year new features were added and changes made to meet the present day conditions. The Division of Geology and Topography, of the State Department of Conservation and Development, constantly carries on the work of keeping the maps up to date, publishing them under the title of "The Topographical Atlas of New Jersey" and selling them at the cost of printing and mailing.

## GERMAN MAIL PILOT ESCAPES

Paris—The pilot of a German postal plane narrowly escaped death in the French Alps recently when his craft was destroyed in a forced landing. The plane made a hazardous landing near Kenne, Savoie, en route from Geneva to Barcelona.

# Public Service Stores Make Substantial Price Reductions

Washes Quickly without Injury to Finest Fabrics

The Thor agitator combines all the best features of modern washing methods. It is the result of twenty years experience in making electric washers. It is fast, safe for your clothes, and easy to operate.

Its low price places it within the means of nearly everyone.

Only \$105 Cash

or \$110 on terms.

\$5 down and the balance in 18 monthly payments.

The THOR Automatic Ironer relieves the home-maker of one of house-keeping's most tedious tasks—ironing.

The ironer brings a fine finish to all garments and linens while the home-maker is comfortably seated and guides the work.

Its cash price is \$175, on terms \$185.50 or \$5 down with 18 months to pay balance.

Refrigeration By Gas Is Highly Satisfactory

The Electrolux is a refrigerator that maintains a cold dry temperature, perfect for food preservation and it will freeze ice cubes for table use quickly and chill desserts.

Its simple mechanism contained in the refrigerator cabinet. It requires no oiling and little attention of any kind after the small gas flame that helps to produce the refrigeration is lighted. The gas refrigerator is practically noiseless and entirely odorless.

The Electrolux model illustrated may be had in white enamel and in several pleasing colors. Price \$225 cash; on terms \$236.50, or a small sum down and the balance in equal payments monthly.

The Thorough Way to Clean

The Hoover gives new meaning to the word thoroughness in cleaning. Positive Agitation, the cleaning feature of the Hoover, removes not only the surface dust and lint, but also the trapped in dirt, that only vibration can completely dislodge.

Let us clean one of your rugs and show you how thoroughly the Hoover removes the dirt.

The Hoover 700, ball bearing throughout, \$75; the Hoover 143, \$19.50, or at a small additional cost, purchase either model on the monthly terms of \$5 down and \$1 a month.

Your old cleaner may be used as part payment on your fine new Hoover.

Gas Automatic Water Heaters Are Reduced In Price

Hot water when and where you want it makes house cleaning easier and personal cleanliness delightful, and gas automatic water heaters provide it.

You can make your old water heater count for something on the price of a self-regulating gas automatic storage water heater. And you can buy any one of these splendid conveniences on terms as low as \$1 down—12 to 18 months to pay balance.

Gas Automatic Water Heaters may be had from \$70 cash upward, and Public Service prices include installation.

Public Service Stores Offer Outstanding Value in an

Oven Heat Regulator Gas Range \$73

An all enamelled gas range, oven linings included, with canopy top, warming closet, oven heat regulator, utensil drawer under top burners, baking oven and broiling oven, four regular size and one simmering burner.

An advantageous purchase makes it possible for us to price the range so low.

Prices include automatic top burner lighter and connection to gas outlet in kitchen by experienced gas fitters.

Buy on the easy payment plan at \$80; on terms of \$5 down and \$3.60 monthly.

Gas Incinerator Takes Drop of \$25 in Price

A desirable means of garbage disposal at all times—the incinerator becomes a necessity during warm weather when the accumulation of garbage and rubbish is a menace of health.

The gas incinerator burns garbage and rubbish quickly without smoke or odor.

Three bushel size, regular price \$175—now \$150 cash. Credit price \$165 instead of \$185.50, on terms of \$7.60 down and eighteen months to pay balance.

Dry Clothes Quickly Save \$25 by Buying Your Gas Clothes Dryer NOW!

Equip your laundry with a gas clothes dryer and be independent of the weather on washday.

A gas dryer dries the wash quickly, in a cleanly sanitary way, protecting it from smoke, soot and high winds.

Special cash price \$110, formerly \$135. On the easy payment plan \$121, on terms of \$5 down with eighteen months to pay balance.

# PUBLIC SERVICE
