## LOCAL SCHOOL BOARD CONTRACTS

Riverton Organization Holds Last Session Until Fall Season

The Riverton Board of Education convened on Thursday night of last week to close affairs for the current school year. A number of bids were opened and contracts awarded, the first being for painting certain portions of the exterior and interior of the school building.

J. M. Coddington was the successful bidder for the painting on his proposal of \$610. Others who submitted estimates were: Elwood Johnson, Palmyra, \$723, and H. E. Uber, Camden, \$625.

### Supplies

Contracts for supplies were awarded as follows: general, Milton Bradley, \$205.

Domestic science, Hurley, \$46.66. Manual training, J. H. Matlack, \$77.84.

Janitors' supplies will be purchased when needed by the district clerk, there being no official award for this item.

Quotations were received from several houses in respect to cleaning and dyeing the curtains in the school auditorium, but this matter was referred to the property committee with power to act at a cost not to exceed \$240.

### Miss Staman's Report

Miss Caroline M. Staman, supervising principal presented her annual report which contained much interesting and valuable data concerning the year that has just closed.

Excerpts from this follow:

### Extra-Classroom Activities

Our extra classroom activities have been reported from time to time and need only be summarized.

The entire school joined the Junior Red Cross, contributed toys to the American Legion, canned goods to Zurburg Hospital, money for the New England flood relief fund and the incubator fund for the local hospitals, and bought Christmas seals for the Burlington County tuberculosis prevention fund. Sewing classes made and filled ten dozen stockings for the Four Mile Colony.

A number of field trips were taken. The kindergarten toured the school, visited Collin's coal yard and the fire house. The first grade rode from Riverside to Palmyra on the train, visited the post-office and a Burlington county farm. The second grade went to an Indian ex-

(continued on page 10)

## Three Injured In Car Smash

Two cars were involved in a crash on S-41, near River road, at 5.25 last Saturday afternoon, the result of the collision being that three people were injured, one seriously.

The accident occurred when a machine driven by James H. Greenwood, 1339 Jerome street, Philadelphia, allegedly turned out suddenly to avoid hitting a car operated by Leranzo Darfrizer, 739 Garfield avenue, Palmyra, that had stopped suddenly. Both of these autos were travelling north on S-41.

As Greenwood turned out, his machine crashed into one driven by Harry Fox, 1467 Steven street, Philadelphia, that was going south on S-41.

Mrs. Fox received a fractured skull and a broken arm. James J. Malone, of Philadelphia, had lacerations of the face, while William Hayes, also of Philadelphia, sustained lacerations about the head.

The affair was investigated by Chief C. Morris Beck and Officer William Stack, of the Palmyra police.

## REMINDER

In view of the fact that many local residents visited the Cinnaminson Bank and Trust Company last Saturday morning only to find the doors closed, a reminder might not be amiss to the fact that the institution will not be open on Saturday mornings during the months of July and August.

As a consequence of the Saturday closing and the fact that Tuesday was a holiday, the bank did a rush business on Monday, parking space on Main street being at a premium.

## DEDICATION OF LADDER TRUCK

George N. Wimer and Mayor Biddle Speakers; Chiefs Aid in Housing

Following the exercises at the river bank, formal housing ceremonies were held at the Riverton fire house for the new city service ladder truck recently purchased by the local governing body.

Mayor H. McIlvain Biddle officiated at the affair and, before introducing the speakers, called for a minute of silence in respect to Walter C. Wright, late president of the fire company and beloved member for many years.

He then introduced the speaker of the morning, George N. Wimer, of Palmyra, ex-Sheriff of Burlington county and a charter member of Independence Company No. 1, of Palmyra.

### 52 Years Ago

Mr. Wimer said that he appreciated the honor conferred upon him and told of conditions here 52 years ago, when a disastrous fire prompted the forming of a joint Palmyra-Riverton Fire Company. He reviewed the advances made in equipment from the original ladder truck and hose wagon, to that of the present time.

Riverton, he said, formed a separate organization when the need for such a unit was felt following the fire that destroyed the old Roberts building.

Mr. Wimer said that the firemen were, he considered, the first line of defense against a most dangerous internal enemy. He asserted that they were the "minute men of today" and recalled the motto of one of the old Philadelphia organizations, "when duty calls, it is ours to obey." This motto, he remarked, holds true right now, as well as years ago.

He stated that the new apparatus was a fine thing and congratulated the firemen on having such a valuable addition.

Mr. Wimer concluded by saying that the members of the Riverton Company have always been ready to do a good job in the past and that he was confident that they would be able to do even better in the future.

### Mr. Wright Speaks

Mayor Biddle then introduced Charles A. Wright, a charter member of the company who paid tribute to the older members and spoke briefly.

The Mayor then said it was a great pleasure to dedicate the apparatus to the local company and asked the officers of the visiting companies to assist in housing the equipment.

The exercises were concluded as the truck was run to its appointed place within the fire house.

### HIGH HEDGE

It behooves all drivers to proceed carefully at the intersection of South Broad street and Thomas avenue, since the high hedge on the southwest corner obscures the vision of people going north on Thomas and east on Broad.

Unless caution is exercised a bad accident will happen there, according to many car operators.

## MAYOR BIDDLE'S ADDRESS

Rev. Francis B. Downs, pastor of Christ Church, Episcopal, offered the invocation at the river bank on July Fourth, following which Mayor H. McIlvain Biddle gave the following address:

### Fellow Citizens:

Another year has passed and again we are gathered to celebrate, in thankfulness, the work of our forefathers, who by devoting their lives, their fortunes and their sacred honor, founded this great republic.

To secure the blessings of a free country to us, their descendants, and to our children's children, they perpetuated what they had done by creating the first written constitution that the world had ever seen.

This year of 1939 is conspicuous inasmuch as it is the 150th Anniversary of the birth of this great document, which for the century and a half that our government has existed has safely guided our legislators, with so few amendments, that it seems as if our forefathers had been inspired by Divine Providence.

### Progression

During this time, our country has progressed from the original 13 sparsely settled states, all east of the Allegheny Mountains, to a great Empire made up of 48 sovereign states, reaching from the Atlantic to the Pacific, and with a population of about 130 million people.

During all this time the administration of the Country has repeatedly passed from one political party to another. Laws innumerable have been enacted by our Legislative body, but if any law was judged by our Supreme Court to be contrary to this great document—the Constitution of the United States—it was immediately declared null and void, and ceased to exist.

### Guards Rights

In the years that have passed from the first administration of George Washington to the present day, this great document has stood guard over the right of the citizens of the United States, through years of prosperity and years of great National stress, and though repeatedly

## PARADE PRIZES

The following awards were made by the judging committee following the parade:

Patriotic Floats: First, Phyllis and Gene Swayne; second, Joseph D'Autrechy.

Attractive Floats: First, Emerson Wolfshmidt; second, David Barrett.

Original Floats: First, Bobby Becker; second, Roosevelt and John Long.

Comical Floats: First, Mary Anne Knight; second, George Rotenbury.

Most Patriotic Costume: First, Thelma Davis; second, Stella Gonteski; third, Anne Wills.

Most Attractive Costume: First, Donna Lee Bush; second, Eunice Vogt.

Most Original Costume: George Pack, Graham and Roland Harris. (All three prizes. Dressed as 3 Musketeers).

Most Comic Costume: First, Valerie Dey; second, Mary Lou Bush.

Baby Carriages: First, Gwenn Chambley, Ronald Wolfe, Terry Easley; second, Faith Bell.

Children Pushing Doll Carriages: First, Helen D'Autrechy; second, Elaine Fichter; third, Elsie Cooper.

Boys Velocipedes: First, Roger Wagner; second, John Holloway.

Girls Velocipedes: First, Marilyn O'Neill; second, Rosemary Neff.

Boys Bicycles: First, Jimmy Hamlin; second, Dick Karins; third, Billy Betz; fourth, James Booker.

Girls Bicycles: First, Jane Cook; second, Jean Gowell; third, Janette Smalley; fourth, Joan Watson.

## LAST WARNING

Chief William Gootee, of the Riverton police, has issued the warning that 5-day notices will be served this week to all dog owners who have failed to register their canines. All those who do not heed the warning by July 10 will be given a summons to appear before the borough recorder for violation of a local ordinance.

Since this means payment of a fine and costs, if found guilty, it would seem advisable for all dog owners to comply with the law before more stringent measures are taken.

## MAYFIELD GIVES YEAR'S REVIEW

Retiring President of Palmyra Riverton Rotary Club Tells of Work

Luke K. Eberly, fourteenth president of the Palmyra-Riverton Rotary Club, took office at an interesting meeting of that organization held on Thursday night of last week. The session was featured by retiring President Mayfield's summary of the year's activities and the program included a fine musical entertainment by an orchestra of young men and women under the conductorship of Cecil Guest.

The group played a number of classical selections and showed what can be done by interested people who are willing to practice. Among the members were the daughter of Rotarian Edward Fry and the son of Past-President J. Horace Finney.

### New Members

The remarks of President Mayfield stressed the continuous effort throughout the year to obtain new members and the fact that seven were brought in shows the effectiveness of the work. Although death, and the transfer of business connections removed several names from the roster, the club is slightly larger now than a year ago and Mr. Mayfield urged the filling of a few more classifications.

The attendance for 1938-39 was just over one per cent higher than that for the previous year, which showed greater cooperation by Rotarians.

## TRAFFIC SURVEY AT INTERSECTION

On several days last week, a representative of the New Jersey State Highway Department was stationed at the intersection of Route 25 and the Moorestown-Piverton road, conducting a survey of the number of cars that cross the intersection and the type of turn made by each.

It is understood that the data is being obtained in order to determine what type of a traffic control signal, if any, should be located at the crossing. A similar survey made two or three years ago appeared to indicate that no light was needed.

Since that time, however, traffic on Route 25 has increased to a very appreciable extent and crossing the Burlington Pike has become a most hazardous operation. The fact that no serious accidents have occurred there can only be attributed to the extreme alertness of those who find it necessary to use the Moorestown-Riverton Road.

Motorists in this section would welcome some kind of signal which would remove this danger.

### NOTICE

Dr. T. B. Dickson, of 408 Main street, wishes to announce that during the month of July office hours will be as follows: Monday, Tuesday and Friday, 9 to 10 a.m., 2 to 3 p.m. and 7 to 8 p.m.

For other days please contact Dr. Harry L. Rogers, Riverton, N. J.

## PARADE HERE IS BIG ATTRACTION

Twenty-Five Pieces of Fire Apparatus and Hundreds of Marchers Entered

Favored by excellent weather, Riverton's Fourth of July parade proved to be one of the largest in the history of the community with a large turnout of firemen from all parts of the county and hundreds of children in the flag parade section participating.

Thousands of spectators lined the route of march, which extended from Memorial Park to the river bank and the various units were the recipients of unstinted applause as they swung their way along the shaded thoroughfare.

### Participating

Heading the procession were Mayor H. McIlvain Biddle, Councilman Robert W. Knight, J. W. Sylvester and David F. Gould and Rev. Francis B. Downs.

They were followed by the color guard of Post Frederick M. Rodgers and the Drum and Bugle Corps from the same organization.

The children's section was exceptionally large and the gayly decorated bicycles and other vehicles presented a riot of color with the flags and decorative costumes. Prize winners are listed in another article in this issue.

### Firemen

The Flynn-Walls Drum and Bugle Corps, 60 strong, in red and white uniforms followed, with the Palmyra Fire Company next in line. The fire-fighters from the neighboring community presented a fine appearance, having three pieces of apparatus and the Palmyra ambulance. Other units were:

The Delanco pumper, with a contingent of 20 men.

Delaware Company, No. 2, of East Riverton, with their pumper, and 25 men.

Riverside Fire Company, with 20 men, pumper and ladder truck.

Imhoff Post Drum and Bugle Corps, with 60 members in red and black.

Vincetown firemen and truck.

Maple Shade pumper and 20 firemen.

Parry Fire Company with 25 men.

(continued on page 2)

## Dedication Of Memorial Plaque

"Dedicated to the soldiers and sailors from this Borough who served their country in the World War." This is the inscription on the bronze plaque located on a granite base near the flag pole at Memorial Park which was dedicated on the afternoon of July Fourth with appropriate ceremony.

The exercises were under the direction of Post Frederick M. Rodgers, with Judge Frank A. Mathews in charge. Invocation was asked by Rev. George Lockett, pastor of the Central Baptist Church, Palmyra.

### Program

The preamble to the Constitution of the United States was recited by Eleanor H. Metzger, while Arthur Gowell gave the preamble of the Constitution of the American Legion.

Short addresses were made by Judge Mathews and Charles A. Wright, father of the late Walter C. Wright.

The benediction was pronounced by Rev. Francis Downs.

### 350 PRESENT

Approximately three hundred and fifty Palmyra children enjoyed the six-act variety show held in the Grove on July Fourth, which proved to be a most enjoyable affair.

Ice cream was served at the conclusion of the program.

## No Settlement at Kieckhefer's

At the time of going to press, the strike at the Kieckhefer Container Corporation had not been settled.

The following is a copy of a memorandum recently sent to employees by the company:

Delair, N. J.  
June 22, 1939

### To Our Employees:

"In view of inquiries received by the company from its employees asking the company to state its position in the current labor dispute, the company offers the following explanation:

"A number of conferences have been held with union officials and an agreement has been tentatively reached on most of the demands submitted by the unions.

"The question of the proper bargaining unit, which the unions presented as the cause of the strike, has been solved by the company agreeing to have the three unions, collectively as a single unit, represent its employees.

"The major obstacle in the way of resumption of operations seems to be the demand made for a 'Union Shop.' It is our understanding that the term 'Union Shop' means that every eligible employee must be a member in good standing of one of the three unions. If an employee does not wish to join the union, resigns from the union or is dropped from the union for non-payment of dues or other reason, he is subject to discharge and the company is placed in the position of having to do so by the union, even though such employee's work has been entirely satisfactory.

"Some of the reasons why the company has refused to agree to the 'Union Shop' are as follows:

"1. We believe it is the right of every employee to decide for himself whether or not he wishes to belong to a union and if so what union.

"2. In view of recent happenings, the management does not feel that it can, in fairness, agree to discharge a capable and trustworthy employee whose only offense, perhaps, has been the violation of some union rule.

"3. The management feels that it has the right to operate the plant on an 'Open Shop' basis if such a plan appears to be for the best interests of the employees as well as the company. This stand is supported by a ruling handed down by Vice Chancellor Berry on June 20, 1939, in the Chancery Court at Trenton, which in part as quoted by the newspapers, reads as follows:

"Unless the law of this State, as established by our Constitution, has undergone a radical change of which I am ignorant, the employer still has some rights—One of these is to run his business on the open shop plan if he desires to do so—To act freely in these matters without molestation or compulsion and indeed without the unsolicited advice of the union is the owner-employer's constitutional right."

—The Kieckhefer Container Co.

### CLUB OFFICERS

For the tenth year, Mrs. Pearl Bridgum, of Hainesport, has been elected president of the Women's Republican Club of Burlington County. Other officers are: Mrs. Alma Evans, of Riverton; Mrs. Anna Sleeper, of Burlington; Mrs. Mary Fleetwood, of Mount Holly; Mrs. Mary Krupnick, of Mount Holly; Mrs. Rebecca Lamon, of Palmyra; Mrs. Bessie Phillips, of Maple Shade; Mrs. Florence Haines, of Vincentown, and Mrs. Ethel Briggs, of Marlton, vice presidents; Mrs. May Bozarth, of Mount Holly, treasurer; Mrs. Bessie Miller, of Edgewater Park, corresponding secretary, and Mrs. Nettie Smith, of Bridgeboro, recording secretary.

The lion's wings are so small that it has to take a running start on water.

## PARADE HERE IS BIG ATTRACTION

(continued from page 1)

Lumberton Fire Company Auxiliary in blue and white uniforms. Lumberton Fire Company with two pieces of apparatus.

Hainesport pumper and 20 men. Delran Fire Company with two pieces of apparatus and 30 men. Bristol Drum and Bugle Corps, 60 members in orange and white uniforms.

Riverton Fire Company in full force with new uniforms of blue and white, with three pieces of apparatus.

The following men were in line: Chief E. M. Carhart, Jr., E. T. Vile, Jesse Morris, J. J. Ziaak, Richard Taylor, Frank Coddington, Joseph Lezenby, Lawrence Downs, Edward Kapus, Henry Borden, Frank Stroblein, Jacob Stroblein, James Goodwin, Edward Morris, Floyd Smith, William Anderson, Anthony Gonteski, William Wigmore, J. S. McDermott, Joseph Morris, Edson Carhart, Walter Armstrong, Edward Faunce, William Evans and John Carhart, Jr.

The parade was held along the west side of the park and the spectators, for the first time, were able to utilize the grandstand to advantage, in addition to the bleacher seats loaned by the Palmyra Board of Education.

The members of the Post Rodgers Corps acted as guards on both sides of the field and performed in various capacities.

Funeral services were held last Saturday afternoon at 2:30 o'clock for Henry I. Worrell, former Burlington county auditor and former superintendent of the county almshouse, who died at his home at 20 Brainerd street, Mt. Holly.

Death followed a long illness. Mr. Worrell was 77 years of age.

Waiving extradition and allegedly anxious to return to New Jersey to pay the penalty for the murder of his mother, which he says he committed 14 years ago, Charles W. Quigley, 30, will be returned to Mt. Holly from Idaho within the next week or ten days.

While charge followed charge of construction errors at the new county Almshouse at New Lisbon, workmen walked out on strike last week in protest against the hiring of non-union labor by one of the subcontractors.

Over 400 friends of Charles A. Thompson paid tribute to his long service as county farm agent, at a testimonial dinner at the Moorestown Community House last week. Thompson retired Friday as farm agent, to assume his new duties at New Brunswick where he will be in executive charge of all county agents of the state.

Despite many conjectures regarding the identity of the successor to Ellis H. Parker as chief of Burlington county detectives, Prosecutor Howard Eastwood remains non-committal regarding his selection. It is likely that he will make an announcement soon, however.

Life is like tennis in that the player who doesn't serve well usually loses in the end.—B. C. Forbes.

## Exhibition Is Colorful Affair

The exhibition of the Junior American Legion Drum and Bugle Corps was, as usual, one of the highlights of the Riverton Fourth of July Celebration, the affair being witnessed by thousands of spectators.

The corps of Robert W. Bracken Post, of Bristol, Pa., was first on the field and made a fine appearance, both in its marching maneuvers and rendition of musical selections.

The George H. Imhoff Corps, of Philadelphia, went through their paces next and the performance of this unit was particularly striking, the playing of the "Lost Chord," being most impressive, the blending of the bugle notes resembling that of a mighty organ.

The Flynn-Walls Post, also of Philadelphia, a newcomer this year showed considerable excellence in marching formation, in addition to the fine music. This corps also played at the dedication ceremonies.

Seats Appreciated

The exhibition was held along the west side of the park and the spectators, for the first time, were able to utilize the grandstand to advantage, in addition to the bleacher seats loaned by the Palmyra Board of Education.

The members of the Post Rodgers Corps acted as guards on both sides of the field and performed in various capacities.

Funeral services were held last Saturday afternoon at 2:30 o'clock for Henry I. Worrell, former Burlington county auditor and former superintendent of the county almshouse, who died at his home at 20 Brainerd street, Mt. Holly.

Death followed a long illness. Mr. Worrell was 77 years of age.

Waiving extradition and allegedly anxious to return to New Jersey to pay the penalty for the murder of his mother, which he says he committed 14 years ago, Charles W. Quigley, 30, will be returned to Mt. Holly from Idaho within the next week or ten days.

## BRIEF ITEMS from ABOUT TOWN

Alterations are in progress at the former Palmyra bank building. Broad and Morgan, where the structure is being remodeled as a house of worship for the Bethany Evangelical Lutheran Church.

Bituminous concrete is being laid on Highway, Riverton.

The Sperry rail testing equipment of the Pennsylvania Railroad went up and down the local line last week. The accurate devices in the cars detect flaws in the rails and thus prevent accidents from happening from this cause.

The Japanese beetle made its appearance locally last week. This pest, which formerly caused so much injury hereabouts is now reduced to the ranks of an amateur as compared with its cousin, the Asiatic garden beetle that operates at night.

Funeral services were held last Saturday afternoon at 2:30 o'clock for Henry I. Worrell, former Burlington county auditor and former superintendent of the county almshouse, who died at his home at 20 Brainerd street, Mt. Holly.

Death followed a long illness. Mr. Worrell was 77 years of age.

Waiving extradition and allegedly anxious to return to New Jersey to pay the penalty for the murder of his mother, which he says he committed 14 years ago, Charles W. Quigley, 30, will be returned to Mt. Holly from Idaho within the next week or ten days.

While charge followed charge of construction errors at the new county Almshouse at New Lisbon, workmen walked out on strike last week in protest against the hiring of non-union labor by one of the subcontractors.

Over 400 friends of Charles A. Thompson paid tribute to his long service as county farm agent, at a testimonial dinner at the Moorestown Community House last week. Thompson retired Friday as farm agent, to assume his new duties at New Brunswick where he will be in executive charge of all county agents of the state.

Despite many conjectures regarding the identity of the successor to Ellis H. Parker as chief of Burlington county detectives, Prosecutor Howard Eastwood remains non-committal regarding his selection. It is likely that he will make an announcement soon, however.

Life is like tennis in that the player who doesn't serve well usually loses in the end.—B. C. Forbes.

## RIVERTON

Emilie Louise Moorhouse, a member of this year's graduating class at Palmyra High School, was one of a group of 51 to be awarded scholarships to Temple University. Miss Moorhouse is the daughter of Mr. and Mrs. Edward Moorhouse, of Main street.

Mr. and Mrs. Russell Dussman, of Philadelphia, spent Tuesday with Mr. and Mrs. Urban Watson, of Seventh street.

Mr. and Mrs. Arthur Johansen and family, of Scotch Plains, and Mr. and Mrs. Edward Coffey and son, of Brooklyn, spent the 4th at the home of Harvey E. Stewart, of Thomas avenue.

Mr. and Mrs. Harry Riley, of Camden, spent the holiday with Miss Clara Bishop, of Thomas avenue.

Joseph Weber, of 108 Morgan avenue, is recovering from an operation at West Jersey Hospital where he has been confined since June 25. He will be home after Sunday, July 9.

Mr. and Mrs. C. Y. Barto, of Thomas avenue, entertained Mr. and Mrs. F. N. Johnson, Mr. and Mrs. Thomas S. Branson, Mr. and Mrs. E. Hughes and Mr. and Mrs. Dingle, all of Palmyra, on the 4th.

Mr. and Mrs. H. A. Walburn and daughter, of Bank avenue, are spending the month of July at Avalon.

George Tucker, of Woodbury, formerly of Riverton, was a visitor here on the 4th.

Mrs. Margaret Waters and children, of Howard street, are spending the month of July at Avalon.

Mr. and Mrs. J. Elmer Hahn, of Westfield, formerly of Riverton, visited here on the Fourth.

Mrs. Edna Morgan and son, of North Carolina, returned home on Wednesday after spending a month with Mrs. Morgan's father, John Hinkle, of Riverton.

Miss Margaret Rinck, of Crescent City, Florida, is spending the summer with Mr. and Mrs. A. B. Garwood, of Lippincott avenue.

Mr. and Mrs. Harry C. Sim and daughter Betty, of Thomas avenue, spent the holidays in Atlantic City where they were registered at the Strand Hotel.

Mr. and Mrs. Thomas McChesney and daughter Mary Elizabeth, of Moorestown, enjoyed the Fourth in Riverton, visiting a number of friends.

Mr. and Mrs. A. B. Garwood, of Lippincott avenue, entertained forty out of town guests on the Fourth.

Mr. and Mrs. Lee Hallock, of Bridgeport, Connecticut, visited Mr. and Mrs. Everett Gest, of Thomas avenue, for the holidays. Mr. and Mrs. Gest will spend this weekend in Bridgeport.

Mr. and Mrs. Louis Clelland, of 905 Main street, entertained at a family reunion on Tuesday. Mr. and Mrs. Clelland have recently moved here from Boston, Massachusetts.

William H. Cooper and family, of Merchantville, have moved to 419 Thomas avenue.

## CARD OF THANKS

We wish to express our appreciation to our many friends who were so kind during our recent bereavement, especially those who sent cars and flowers to the funeral.

Mrs. Albert Gorman and daughters.

## POWERS HAS PAMPHLETS

Pamphlets containing the entire record of Congress on March 4th of this year when the 150th Anniversary of the First Congress was celebrated, are available on request at the office of Congressman D. Lane Powers in Washington.

## CALVARY PRESBYTERIAN

Rev. Charles T. Bates, B.D., Pastor  
Church School, 9:45 a.m.  
Morning Worship, 11:00 a.m.  
At the morning worship next Sunday, July 9, the Rev. Robert W. Mark, D.D., pastor of the Presbyterian Church at Allentown, New Jersey, will occupy the pulpit.  
All those in the community who have no regular church home are cordially invited to enter into the worship and fellowship of Calvary Church.

## COURSEN-JOHNSON

A very lovely home wedding took place on Friday at 8 p.m. when Miss Kathryn Entekin Johnson, daughter of Mr. and Mrs. F. N. Johnson, of Morgan avenue, became the bride of Thomas Sheridan Coursen, son of Mr. and Mrs. Robert M. Coursen, of Plymouth, Pa.  
The bride wore an old fashioned model of embezzled organza and her tulle veil was fingertip length. She carried a shower bouquet of white roses, lilies of the valley and baby's breath.

Miss Helene Johnson was her sister's maid of honor and her gown was an old fashioned model of flowered dotted organdy. She carried a colonial bouquet of roses, snapdragons and baby's breath.

Barbara Jean Dingle, of Palmyra, and Betty Marie Coursen, a niece of the groom, were flower girls and wore old fashioned models of pink dotted swiss. They carried smaller bouquets like that of the maid of honor.

Miss Helen Shaffer, of Hollidaysburg, Pa., played the wedding march.

## Picnic Time... Is Here Again

A FAMILY picnic is one of the great thrills of childhood. The children enjoy picking out-of-doors with mother and father, and what an appetite they have after the games!

Here are directions for a well-balanced picnic meal. Hot soup or chocolate should be included, for the warm food helps in the digestion of the cold "picnic-lunch."

## A PICNIC BASKET

Chilled Tomato Juice or Hot Chicken Soup in Thermos Bottle  
Pickles  
Double Decker Sandwiches  
Huckleberry Flinn Cakes or Oases (Filled Cookies)

Fresh Fruit  
Hot Chocolate or Coffee in Thermos Bottle

For the picnic basket, butter slices of white, rye or wholewheat raisin bread; place in waxed paper to be packed.

Place the various fillings for sandwiches in small jars to be carried easily. In vegetable pan, place lettuce, tomato, shredded carrots, tomato juice, dressing and a knife. Place six cubes of ice from the automatic refrigerator over vegetables to keep ingredients crisp. At the picnic, the sandwiches may be made fresh and with ease.

No matter how warm the day, be sure and have something hot to drink at the picnic.

## Double Decker Sandwich Fillings

(a) For first slice; blend cottage or cream cheese with one-quarter cup raisins and sprinkle with brown sugar. Peanut butter with shredded carrots on second slice.

(b) Spread slice of bread with Thousand Island Dressing and slices of hard cooked eggs or tomatoes. Sardines on second slice.

## Huckleberry Flinn Cakes

2 cups sifted cake flour  
2 1/2 tps. baking powder  
1/4 tsp. salt  
1 1/2 cups fresh, well drained, canned huckleberries

and Rev. George Lockett performed the ceremony.

The house was beautifully decorated in summer flowers and forty guests were present from Plymouth, Hollidaysburg, Vineland, Trenton, and Palmyra and Riverton.  
Mr. and Mrs. Coursen left immediately after the reception for a wedding trip in the New England states.

## THINGS TO WATCH FOR

A new bicycle speedometer which records speeds up to 50 miles an hour and distances up to 10,000 miles for a trip... More young men getting a chance to learn aircraft building as a result of Lockheed Aircraft plan, dictated by shortage of skilled aviation workers, to start an apprentice school. Apprentices will be paid about half of journeyman's prevailing wage rate for part-time work between classes during a four-year period... A new furniture finish said to have the quality of lacquer and "build" of varnish, but drying from three to five times faster than either... Cinecolor, cosmocolor and dunningcolor, up-and-coming rivals of technicolor... a new type of ironing cord for housewives. It stretches easily to a seven-foot length, but automatically snaps back to an eight-inch coil when not in use... A new air conditioning unit using natural or artificial gas to provide both heat in winter and to run the cooler in summer.

William Early, 58, of Williamstown, Maine, a hunting guide for more than 30 years, never carries a gun and has always refused to kill any animals or birds.

## PALMYRA

Mr. and Mrs. Thomas Bromley and daughter Barbara, of Morgan avenue, are spending the month in Beach Haven.

Rev. and Mrs. W. A. Boyd and Mr. and Mrs. J. E. Liming, of Palmyra, spent the holiday in Ocean City.

Miss Margaret Coates, of Philadelphia, spent Tuesday with Mr. and Mrs. Ellsworth Coates, of Highland avenue.

Rev. Harold L. Creager, formerly of Palmyra, visited here on Sunday. Rev. Creager is now teaching in Canada.

Mr. and Mrs. LeRoy Blackman, of Ventnor, spent the weekend with Mrs. Blackman's mother, Mrs. Laura Winner, of Cinnaminson avenue.

Mrs. B. C. Ross, of Morgan avenue, is spending two weeks at Bay Shore.

Mrs. Francis Luby and son, of Germantown, and Mr. and Mrs. J. Walker, of Germantown, were guests of Mr. and Mrs. H. Messenger, of Charles street, on the Fourth.

Miss Dorothy Stavelly, of Charles street, spent the weekend in Hanover, Pa.

MISS BILLARD SINGS  
Miss Grace G. Billard, of Palmyra, is one of a group of artist-students who performed at the summer recital of the Camden School of Music, in the Junior Ballroom of the Walt Whitman Hotel, Broadway and Cooper streets, Camden, Friday evening, June 30.

Miss Billard rendered two selections, a duet, "Until," by Sanderson, and "Liebestraum," by Liszt.

## SPORTS JOTTINGS

Riverton won another last Wednesday night, taking Delanco over the hurdles to the tune of 8-1. Duffenbaugh turned in another of his brilliant mound performances for the locals, who failed to get a hit until the fifth.

As in Saturday's game, however, when the assault started it got going with a vengeance.

In Saturday's game, Whitmeyer was the only member of the local outer cordon to register a putout. McDermott and Brewster spent a leisurely afternoon under the shade of the trees. On the other hand, Karitis and Rothbaum were kept very busy, each being credited with 12 counters in the out column.

Schirard, a new member of Manager Sim's cast, played part of the tilt at second base and added considerable zip to the defensive force. He handled four chances with neatness and dispatch.

A good-sized crowd viewed the pastime, which was played under almost perfect weather conditions.

Rothbaum, Duffenbaugh and McDermott batted .500, getting two out of four. Elmer Sutters led the offense, plastering two out of three and being thrown out on a very, very close play during his other official time at bat. He also stroled once.

EIGHTY-EIGHT  
FEET PER SECOND

When Bob Feller, Cleveland's fireballing pitcher, lets go a fast one it travels at the rate of 116 feet per second, according to tests recently conducted with the aid of a specially designed machine.

When a motorist drives at 60 miles per hour, his car covers the road at 88 feet per second, a little slower than Feller's Sunday pitch-but.

The Keystone Automobile Club points out, Feller's fireball stops instantly when it strikes the catcher's mitt, while under the most favorable circumstances a motor vehicle traveling at 60 miles per hour cannot be stopped inside of 290 feet.

"So it's not how fast can you go, but how quickly you can stop that counts in automobile operation," said Trevor B. Mathews, manager of the Camden division of the club. "Unfortunately, not enough drivers think in terms of stopping distance."

As an aid to motorists, the club quotes the following table prepared by the National Bureau of Standards showing practical stopping distances with four-wheel brakes on the most favorable type of road surfaces:

Miles per hour	Feet per second	Stopping distances
10	14.7	14
15	22	26
20	29.3	42
25	36.7	61
30	44	83
35	51.3	109
40	58.7	137
45	66	168
50	73.4	208
55	80.7	249
60	88	290

LATE RALLY GETS  
MOORESTOWN WIN

Pushing over four runs in the last frame netted Moorestown a 5-2 decision over Palmyra in a Burlington County League game played here last week.

PROMPT FIRST-AID MAY  
SAVE STROKE VICTIM

This is the season of stroke and heat exhaustion. Every utility company in the State has instructed its workers in first-aid relief and many lives have been saved through prompt action. But too many of the general public have little or no idea of first-aid in case of sudden emergency. Prompt action in the interval until the doctor arrives may mean the difference between life and death.

Stroke and heat exhaustion have different symptoms, explains the New Jersey Public Utility Information Committee. In stroke, the skin is dry and hot and the face is red and feverish. The victim should be placed in a cool, shady spot with head raised and clothing loosened or removed and cold cloths applied to the head. Call the doctor and avoid stimulants for the patient.

In heat exhaustion, the skin is pale, with profuse sweating, face cold, and the victim is chilly. The patient should be placed in a quiet, cool spot and clothing loosened and the head kept low. Keep him warm and if conscious let him drink coffee or aromatic spirits of ammonia in water, but avoid ice water. Call the doctor in both cases as soon as possible.

## "HOME" FOR JITTERBUGS

Five hundred "jitterbugs" broke into a free "jam session" recently at the New York World's Fair when ground was broken for the Savoy Theatre which will become the nation's home of swing after the opening of the Fair on April 30.

Chile is more than twenty-five times as long as it is wide.

DIFFENBAUGH IN  
FOUR HIT GAME

Local Bats Lash Out in Big Rally to Beat Beverly Here Saturday

Miccuci, Beverly hurler, silenced the Riverton A. A. bats with one lone hit for five innings last Saturday afternoon at Memorial Park, but the locals got him in the sixth frame for five hits and as many runs, going on to win the interesting skirmish by the count of 8-3.

While the locals were touching up the enemy hurling corps for 10 safeties, Duffenbaugh, Riverton hurler, was turning in a most excellent performance, limiting the hostiles to four hits, two being of a very dubious nature. Diff fanned 12 and walked three.

## Cause Looks Dark

Things looked bad for the home talent early in the pastime as Beverly tallied twice in the third frame. These counters were decidedly a gift, resulting from a blotchy hit, a walk, a poor throw to third and a brace of pilfered sacks.

The situation was amended toward the gloomy side by the fact that Sutters was the only local batter who had connected safely in five frames, Miccuci's curve ball functioning to perfection.

All good things must come to an end, however, and this happened to the effectiveness of the rival hurler in the sixth. Cole started the rally with a lively single and Sutters followed suit. Karitis advanced both runners with a sacrifice and the deluge started when Rothbaum jostled one with much enthusiasm. Duffenbaugh and McDermott duplicated this endeavor and Miccuci took his departure, being replaced by Smith.

## Touched for a Few

The latter felt the force of the homester's assault in the eighth when four hits and a pair of walks were good for three more runs, a snappy double killing preventing the score from mounting higher.  
In this session Karitis singled and Rothbaum got his second hit. Duffenbaugh doubled to bring in a run and McDermott's one baser was good for another. Schirard was passed to fill the sacks, but Whitmeyer asked to left. Brewster, on an attempted squeeze play, dumped in from the plate and Irons, Beverly catcher, tagged the runner coming in, rifled the apple to first getting Brewster, thus ending the uprising.

RIVERSIDE WINS  
FROM PALMYRA

Although outitting the opposition 10-9, Palmyra could not connect in the pinches and dropped an 8-4 decision to Riverside on Sunday afternoon.  
Mick led the locals at the plate with three out of five.

## More Rumors

Once in awhile there is a revival of inflationary talk in Washington which has some effect on the markets. Sometimes common stocks and commodity prices are pushed up temporarily by rumors of inflation. At other times the talk sends the price of government bonds down temporarily. The latest gossip of this kind came from the National Capital recently when it was reported that there was a proposal in Congress led by Senator Thomas of Oklahoma for putting out \$2,000,000,000 worth of additional currency as an experimental attempt to revive commodity prices, and that there was a plan in New Deal circles for some "extra-budgetary financing" to be used in another big spending campaign.

Of course these rumors are still more or less vague, but they did have the effect of lowering bond prices momentarily. It is said that when the supporters of Senator Thomas' idea met to discuss it there were less than a dozen of them in number. This is hardly representation enough to cause any excitement. It indicates that most statesmen are still convinced that printing more money is not the way to revive prosperity. As a matter of fact the banks are full of money now—there is twice as much per capita as the amount William J. Bryan advocated in free silver days. But the money isn't moving. What we need is not more money but more confidence in the future of business and in the government's program. If confidence could be turned off printing presses as rapidly as greenbacks then we could indeed solve the depression.

Of course, the scheme, for grandiose spending to prime the pump is something else again. It has better prospect of succeeding because the 1940 Presidential campaign is just around the corner.

But since the banks are already full of money, and the extravagant spending program has been tried and has failed, wouldn't it be a good idea to try something else? Something sound and sensible, for example.

## Our Problem

Every one will probably agree that our social system is not perfect and also that abuses and injustices should be corrected. No system, however, can succeed by coddling loafers and encouraging spendthrifts.

People are no different today than they have been for years back. They got ahead in those days rather much in proportion to their ability. Of COURSE, there were exceptions.

If this happened in the past, there is every reason to expect that it should continue, unless the strong are so heavily burdened that they sink to the level of the weak.

The AVERAGE person succeeds in proportion to his thrift, dependability, behavior, industry, etc. Even today, after a major depression, three-fourths of the people of the United States are comfortable and are enjoying a better standard of living than was enjoyed by a large number before the World War.

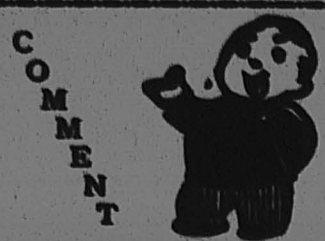

But, men who never had steady work in their lives now contend that they should receive what amounts to permanent doles.

Our problem in the near future is not to discover new sources of taxation so that the unfit and the misfits can live in comparative luxury, but to offer such security and reward to business enterprises that men of ability will be encouraged to proceed with confidence that their efforts will earn them a fair return.

In Scotland workmen have been painting the Firth of Forth bridge for forty years. This is the first time we knew they had any WPA projects over there.

In the old days a railroad was completed by its president's driving in a golden spike. Nowadays a railroad is finished by its receiver filing his report.

The New Dealers aren't always in favor of crop curtailment. For example, they never plow under the bumper crop of propaganda which goes out from Washington at government expense.

There wouldn't be any fun nowadays in being a barefoot boy in summer with all these shiny, hot asphalt and concrete pavements.

Herr Goebbels is said to be indignant because the British have copied the Nazi propaganda machine. Well he undoubtedly knows how bad it is.

Eight billion cans of food were packed by the canneries in the United States last year. Woman's emancipation seems about completed.

Miss Perkins says that the political issue next year will be New Deal humanitarianism. Well, New Deal humanitarianism is like a lion. It is designed to cover a lot of things.

Great Britain takes a "serious view" of the Japanese blockade in China. But the trouble is that John Bull has taken so many "serious views" during the past few years without effect, that something more strenuous seems to be called for.

A Boston technician says that New England is swapping youth for age. But that is what most of us seem to do as we grow older, and nothing can be done about it.

It used to be that Americans on July 4th would twist the British Lion's tail. But this year the Japs seem to have taken over the job.

If we get a commercial blockade

against Japan in the United States the bootleggers can go back into business again, this time bootlegging silk stockings.

King George commended Canada and the United States on how neighborly and peaceably they can live side by side. This is fine and we agree to it, hoping that it continues. But it is slightly possible that one reason we got together so well is that both nations have so much room.

Inflationists in Congress suggest that there be a \$2,000,000,000 issue of gold backed currency as a revival experiment. Trying a new chemical for a shot in the arm. A shot of business confidence might work a little better.

Mr. Chamberlain and Mr. Daladier have come to the conclusion that the Moscow maiden isn't such a bad looking gal after all.

## Longer Assembly Term

Less frequent election of Assembly members would greatly facilitate our Legislative program. An elected officeholder invariably finds himself confronted by two important considerations—his work for the public as an official, and his task of becoming re-elected at the expiration of his term. If his term is for only one year, it is readily apparent which consideration tends to gain greater prominence in his mind.

It is vitally important to rip politics out of public payrolls. Unnecessary jobs must be eliminated, and public employees must be hired and promoted on the basis of ability rather than political debts. It is important, too, that the platform pledges be kept. Abrogation of pledges by an elected official constitutes a serious offense to the public, and should call for elimination by the voters of those who break their pledges.

These recommendations approach the problem of governmental economy constructively and effectively. Injected into our governmental machinery they will lead toward vast savings, and far greater service to the taxpayer.

Health Question: What are some suggestions for a healthful and restful vacation?

## Doc Says:

1. Begin your bereavement vacation gradually. After a year at an office desk, don't try to climb Mt. Olympus on the first day of the vacation. Muscles which are used little during the year require conditioning before you give them the acid test.
2. Acquire your sun tan gradually.
3. Relax mentally. Forget about the difficulties of the job you left behind you.
4. Rest physically. Get plenty of sleep.
5. If the source of drinking water is of unknown purity, boil the water before drinking it.
6. Make sure that the milk supply comes from a source that can be depended upon to give you pure milk.
7. As an additional precaution it is well to be immunized against typhoid fever before the vacation begins.
8. Burn your garbage and refuse each day.

## COUNTY ROAD WORK

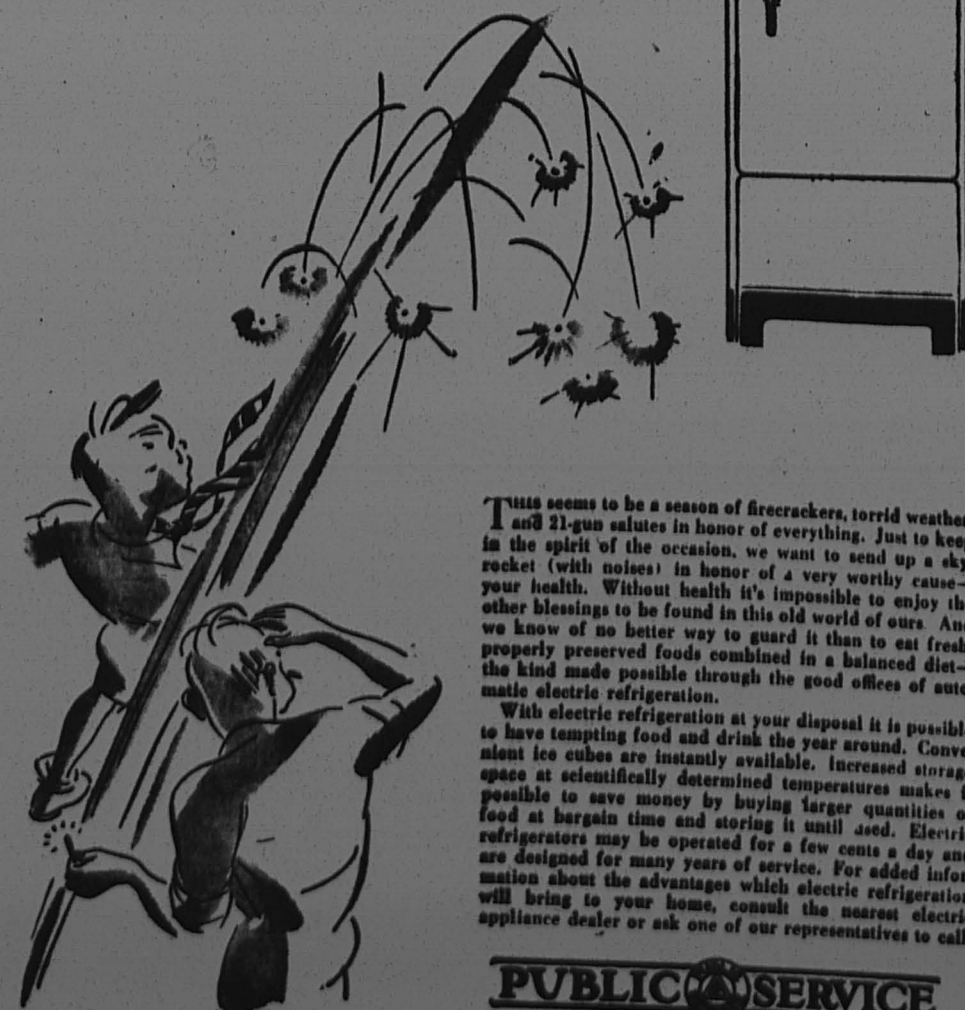

Oiling operations under way on Burlington County roads during July. Extra caution required.

Browns Mills-Cookstown Road, New Hanover and Pemberton Townships, bridge closed. Detour Browns Mills to Wrightstown to Cookstown.

Chesterfield - Crosswicks Road closed during construction. Detour by way of Bordentown-Chesterfield Road.

Chesterfield - Georgetown Road, Chesterfield Township, two and three-tenths miles and Jostown to State Route 39, Springfield Township, two miles, under construction with traffic maintained.

## A Salute TO YOUR SUMMER HEALTH

THIS seems to be a season of firecrackers, torrid weather, in the spirit of the occasion, we want to send up a sky-rocket (with noise) in honor of a very worthy cause—your health. Without health it's impossible to enjoy the other blessings to be found in this old world of ours. And we know of no better way to guard it than to eat fresh, properly preserved foods combined in a balanced diet—electric refrigeration.

With electric refrigeration at your disposal it is possible to have tempting food and drink the year around. Convenient ice cubes are instantly available. Increased storage space at scientifically determined temperatures makes it possible to save money by buying larger quantities of food at bargain time and storing it until used. Electric refrigerators may be operated for a few cents a day and are designed for many years of service. For added information about the advantages which electric refrigeration will bring to your home, consult the nearest electric appliance dealer or ask one of our representatives to call.

## Election Information

October 13th. Last day vacancy can occur in any county or municipal office.

October 16th. Last day for filling vacancies among Primary Election nominees.

October 16th. Last day for filling vacancies in any county or municipal office by the county committee or petition.

October 17th. Third registration day of voters by District Boards of Registry and Election between 1 p.m. and 9 p.m.

October 17th. County Clerk at 3 p.m. determines by drawing the position which candidates for county offices shall occupy upon the general election ballots.

October 17th. District Boards of Registry and Election shall make one complete list of all persons registered and deliver to the county clerk.

October 24th. Application for appointment of challengers for the general election to be filed with the County Board of Elections on or before this date.

October 31st. Clerk of each municipality shall deliver at his office sample general election ballots and stamped envelopes to the District Board of Registry and Election for mailing.

November 1st. District Boards of Registry and Election shall mail sample ballots for general election before 12 o'clock noon.

November 3rd and 4th. Campaign managers must file statement, etc., with county clerk on or before either of these dates.

November 7th. General Election Day. Polls open 7 a.m. to 8 p.m.

November 7th. County Board of Elections to sit between the hours of 6 a.m. and midnight.

November 8th. District Boards of Registry and Election shall, not later than noon, deliver to the county clerk one tally sheet, keys to the ballot boxes, poll book and register of voters.

November 13th. County Board of Canvassers shall meet for the purpose of checking canvass made by the county clerk.

November 27th. Campaign managers shall file statement of receipts and expenses with county clerk on or before this date.

## Bold Stroke Won Fortress

Smoldering fires of a revolution burst into flames in Santo Domingo in 1916. Soon the U. S. Marines were landed and, after several skirmishes, they occupied a number of towns and villages with a view to pacifying the country.

One small detachment of sea soldiers was on duty at San Francisco de Macoris, under the command of Lieutenant Ernest C. Williams. All about them were rebellious Dominicans, and the local stronghold, called Fortaleza, was under the control of about forty well-armed natives. At any moment the natives might decide to release and arm the 100 prisoners confined in Fortaleza, increasing the potential dangers of the situation.

When orders were received by Williams to establish a military government, he immediately attacked and captured the fortress with a mere handful of men, performing one of the most daring exploits in the history of the Marine Corps.

With only a dozen men he made his assault, eight marines being

## YOUR GARDEN

## WHAT TO DO THIS WEEK

By A. C. McLean  
Extension Service, U. S. College of Agriculture

Several weeks ago it seemed that major garden problems would be solved if it would just rain! But now that the rains have come and plants are reviving after their siege of thirst, there are still many things to be done, including insect control, harvesting tulip bulbs and moving German Irises and Oriental Poppies.

Concerning the insects, be sure to look for plant lice and red spiders, for they are apt to do much damage to perennials and shrubs from now on. Get them now by using a good dust or spray, before their populations grow.

## Tulip Bulbs

Experienced tulip growers have found that bulbs last much longer if they are dug each year and replanted in the fall. If left in the ground they are liable to destruction by decay or botrytis disease. Another task for this season is moving and dividing narcissus bulbs which may be getting too thick. This may be done as soon as the foliage dies down or turns yellow.

Moving German Irises after they have finished blooming gives these plants a good opportunity to make late season growth and to develop bloom buds for next year. Divide the single fans, reduce the leaf surface to about half, and replant, not covering the rhizomes with soil more than one-half inch. A still better plan may be to leave the

rhizomes on top of the ground and cover the roots well. Irises, narcissi and other similar plants require dividing regularly, and midsummer is about the best time to do it.

Although dividing Pyrethrums and other early-blooming perennials is usually an August job, it can be done now if there are sufficient provisions for watering and for keeping the plants growing after transplanting. Oriental poppies may be moved as soon as the tops die down. By dividing such perennials regularly the gardener makes way for

strong plant growth and an abundance of bloom for the following year.

**WORLD'S HORSEMEN TO COMPETE AT FAIR**  
A \$750,000 exhibition of international horsemanship will be staged at the New York World's Fair. The show, which has been named the "Cavalade of Centaurs" will be seen in an arena 235-feet long and 120-feet wide. Wild riders from Mexico, Australia, Argentina and other parts of the globe will perform.

## Background . . .

A broad background of experience especially fits us to render the ultimate in funeral service. ## Wesleyan Mens' Bible Class

For the Men of the Community

Arnold, the distinguished author and poet of Oxford University, England, was also recognized for the saintliness of his life. Walking one day down the street of the city, he met a group of his students who in his honor stood still as he passed by and said, "His presence changed the atmosphere."

One day the disciples of our Lord walked down the streets of Jerusalem. The on-lookers said of them, "They have been with Jesus."

There are unconscious influences that surround the good like the atmosphere. People recognize this influence and feel its subduing impact.

To fellowship with the Christ and His followers means an investiture of influence which is quietly felt by others. In His presence and transmission of influence from one to another, is the object of our class fellowship, so that as we pass out the atmosphere of such an experience abides with us.

Attend the Wesleyan hour next Sunday at 9:50 and get the impact of this sacred influence. Mr. Poinsett will discuss "The Praying Prophet," 1 Kings 18: 41-46.

Forgetfulness of God and indifference to His clearly revealed will, bring their inevitable results, destitution, poverty and want with all of their attendant suffering. It was ever thus; true in Samaria nine centuries before God sent forth His son "in fashion as a man." It is true today. The evidences are everywhere about us, but Samaria was not abandoned by God to the fate she so richly merited. God spoke through a prophet; Samaria heard and heeded; relief came. The same God is speaking in the same clear accents that we today may be blessed in the same manner as was ancient Samaria.

## NEW LEAGUE SECRETARY

Mrs. Ruby Rogers Freer, recently appointed executive secretary of the Burlington County Tuberculosis League, arrived here from New York City last Friday and took up her duties on July 1st.

Mrs. Freer is a registered nurse, a graduate of the Rochester (N. Y.) General Hospital, and holds a Bachelor's degree in public health nursing from Teachers College, Columbia University, New York. She comes well prepared both in education and experience, having taken an active part in community health and welfare for the past several years. She has held a wide variety of positions including that of hospital administrator, visiting nurse, staff writer for a daily newspaper, instructor and supervisor in tuberculosis, and editor of a magazine for nurses.

Mrs. Freer is entering upon her new work with enthusiasm. She expresses the hope that the Tuberculosis League may help the people of Burlington County to attain the optimum of personal and community health, continuing in its present policy of health education and tuberculosis control.

The League offices have not been changed, and are located at Main and Brainard streets, Mount Holly. Officers of the League are: president, Marcus W. Newcomb, M.D., Brown's Mills; first vice president, Mrs. W. H. Heisler, Jr., Pemberton; secretary, Mrs. Nelson D. W. Purney, Mount Holly; treasurer, Miss Dorothy Burr, Pemberton.

**METHODIST CHURCH**  
Rev. William A. Boyd, Pastor

"Compensations" is the title of a very interesting sermon to be delivered by the Rev. W. A. Boyd, in the Methodist Church this Sunday morning at eleven o'clock. Miss Doris Hampton, contralto, will be the soloist.

The Church and Bible School Picnic will take place Saturday, July 15. Buses will leave the Church at 8:30. All members and friends of the Church and School are invited to go. Come when you can and stay as long as you can.

The basis of May Day seems to be the Roman Floralia, instituted at Rome in 238 B. C.

## FIVE TEETH AT BIRTH

Katherine Marie Anderson, 7½ pound daughter of Mr. and Mrs. Norman Anderson, of Randolph street, East Riverton, has the distinction of possessing five teeth at the time of her birth on June 21. Katherine has four teeth in front, two upper and lower, and one tooth in back.

Dr. Charles S. Mills, the Anderson physician, says the case is very exceptional and that he has never had such an instance in Palmyra or Riverton heretofore.

## TEES—HEMINGWAY

Joseph H. Tees and Mrs. Elizabeth Hemingway, of Palmyra, were married on Saturday, July 1 at 10:30 a.m. in the Methodist parsonage by the Rev. William A. Boyd.

## GUESTS AT MEDFORD

Among the guests at the institution of the Borough of Medford Lakes on last Monday evening were the following from Palmyra:

Director of the Board of Freeholders, Palmer L. Adams; county treasurer, Frank A. Snover; coroner, John Schwartz and wife; County Solicitor Christopher N. Peditto, and Ex-sheriff and Mrs. George N. Wimer.

The officers of the new Borough were sworn in by Supreme Court Justice Ralph A. Donges and the principal address of the evening was made by Judge Harold B. Wells.

The average kangaroo is capable of doing a high jump of 12 feet and a broad jump of 30.

## Flag That Inspired National Anthem Made 125 Years Ago for Ft. McHenry

THE original "Star Spangled Banner," the hand-sewn flag that floated over Fort McHenry and gave the United States its anthem, is still a national relic. Preserved in the National Museum in Washington, it will be the center of attention next September, when the nation celebrates the 125th anniversary of its making, and of Francis Scott Key's masterpiece.

The immortal anthem was written on September 14th, 1814, as Key recoiled at seeing "by the dawn's early light" that the stars and stripes still waved. He had spent the night peering the dock of a cartel ship and watching a British fleet's bombardment of the fort.

The flag, which continued to wave triumphantly as the attack failed, was made by a widow, Mrs. Mary Young Pickersgill, of Baltimore. Mrs. Pickersgill's mother had made the "Grand Union Flag" under which Washington had taken command of the American Army at Cambridge, Mass., in 1776.

When the British invaded Chesapeake Bay, Mrs. Pickersgill was given the task of sewing a flag for the fort defending Baltimore. The order called for a mammoth banner, 30 by 42 feet. Because of the size, a large floor was necessary for the work. The mayor of Baltimore, Edward Johnson, provided the mauling floor of the brewery adjoining his home. The walls of the building are still standing.

The huge flag contained four hundred yards of bunting, and Mrs. Pickersgill and her daughter, Caroline, with guidance from Mrs. Young, worked day and night to complete it. After the battle, Mrs. Pickersgill embroidered around the holes in the shot-torn flag, in 1912 the "Star Spangled Banner" was presented to the National Museum by a descendant of the Commanding Officer of Fort McHenry.

Baltimore and the nation will celebrate the famous flag's 125th birthday in September.

## YWCA NOTES

Interesting plans are being made for an international supper to be held by the Burlington County Y.W.C.A. at the Moorestown Community House on November 2.

Mrs. John Thacher, of Moorestown, is chairman of the supper committee. She will be assisted by the women from towns throughout the county. Mrs. William Grobler, also of Moorestown, will be in charge of the hostesses and will direct the dining room arrangements. Home made cakes, candy and delicatessen foods will be on sale in addition to the supper.

## Camp Opens

The Burlington County Y.W.C.A. Day Camp, Camp Shining Arrow, opened Wednesday on the shores of the Rancocas Creek at New Lisbon, with a large and enthusiastic group of girls in attendance. After this week, the camp will be in session Tuesdays through Fridays for the remainder of the month.

Visiting days will be held on Fridays, when parents and friends will be welcome at the camp. On two of these visiting days the camp will be special exhibits and camp activities. Miss Katherine Gilliam, of Mt. Holly, will give Red Cross life-saving instructions to the campers one day each week. Miss Gilliam is the life-saving instructor for the Burlington County Branch, American Red Cross.

Miss Virginia Slim, camp director, and her group of counselors attended a meeting and picnic at Camp Shining Arrow last week when final plans for the summer's program were made. Mrs. William Matlack and Miss Hannah Severs, of Moorestown; Mrs. Alexander C. Wood, Jr., of Riverton; Mrs. Clyde Freehafer, of Burlington; Mrs. Louis Watson, of Bordentown; and Mrs. E. P. Darlington, of New Lisbon, members of the camp committee, were also present.

Summer Executive Committee

A summer executive committee which will act for the board of directors of the Burlington County Y.W.C.A. during July and August, has been appointed. Mrs. John Thacher, of Moorestown, is chairman; Mrs. E. P. Darlington, of New Lisbon; Mrs. Emily A. Griffith, of Mt. Holly; Mrs. Kenneth Ried, of Lumberton; Mrs. Carlton W. Tillingshaast, of Burlington; Mrs. Edward S. Aaronson, of Columbus, and Mrs. William Grobler, of Moorestown.

The county Y.W.C.A. office in Mt. Holly will open regularly only on Mondays during July, as the office secretary, Miss Jean Lee, will assist at the Day Camp. It may be opened at other times by appointment.

## OBITUARIES

## MRS. IDA LAWSON

Mrs. Ida Lawson died at her home, 426 Cinnaminson avenue, on Tuesday, July 4. She was the widow of the late Jacob V. B. Lawson.

Funeral services will be held on Friday at 2 p.m. from the Snover Funeral Home, Rev. George Lockett officiating. Interment was made in Morgan cemetery.

The deceased is survived by two daughters, Mrs. Herbert Trout, of Cinnaminson avenue, and Miss Blanche Lawson, of 426 Cinnaminson avenue.

Ivory suitable for making billiard balls is found in one elephant tusk out of every fifty.

up well but there is still room for more. A suggestion to all members—bring your summer guests with you and let them share in the enjoyment of the hour.

Morning Service, 11:15 a.m.—Pastor Lockett has announced his subject for the morning worship, "Sunset on Galilee." Visitors in our towns are most cordially invited to worship at "Central Baptist." Always a good sermon and music by the choir.

Evening worship in the Municipal Grove at 7 p.m. This service only lasts one hour but you get 60 minutes of real enlightenment. The Rev. Oliver W. Powers of the Lutheran Church will deliver the sermon for the evening.

## COUNTERFEIT \$10 BILLS PASSED HERE

Two local merchants lost the sum of ten dollars each from Fourth of July receipts when some unknown individual succeeded in passing counterfeit notes of that denomination.

The spurious bills were detected by officials at the Cinnaminson Bank and Trust Company when included in deposits Wednesday.

Experts describe them as good imitations of a Federal Reserve note, with figures and portrait closely resembling those on a good bill. The check letter was wrong, however, and one side of the face was much lighter than the other. The paper, in addition, has a rather dingy appearance.

The scroll work on one side of the reverse lacks much of the detail of an original.

Since both bills were of the same type, the passing of them was evidently the work of a professional along this line who, knowing of the large crowds to be here on July 4, chose this section as a base for his or her nefarious operations.

Merchants are warned to be on the lookout for similar bills of this nature.

**LOSE PAIR**

The Palmyra team in the Burlington County Baseball League dropped a pair of games on Independence Day, losing a 3-2 decision to Medford and coming out on the short end of a 9-2 count in a tilt with Columbus.

To date the locals have a standing of two wins against 10 reverses.

## BURLINGTON COUNTY WOMEN APPROVE POWERS' RECORD

Approval of Congressman D. Lane Powers' official actions thus far this Session has been voiced by the Women's Republican Club of Burlington county, according to information recently sent Congressman Powers in Washington.

Florence H. Haines, of Vincentown, one of the vice presidents of the club, advised the Congresswoman that, on her motion, a unanimous resolution was passed "thoroughly approving and endorsing your efforts in our behalf and on behalf of the Nation in Congress this session. We thank you most especially for your action in trying to reduce expenses and correct abuses in Government."

The motion was passed at an informal picnic meeting of the club.

Only seven states fix the starting salary of a school teacher who has had four years or more of training, at more than \$1000 a year.

## QUESTION OVER BEER STORAGE

Palmyra Council Deliberates on Request to Construct Place Near Park

Considerable discussion arose in the regular meeting of Palmyra Borough Council, Tuesday night, when the building committee reported that John Sacca was seeking permission to erect a new building on the rear of his property 212 West Broad street to house two trucks and store beer for wholesale distribution.

Mr. Sacca now conducts his distribution business from the old mill at Broad street and Pennsylvania avenue and has a State license to conduct such business. To curtail expense Mr. Sacca wants to build his own building on the property adjacent to the municipal park.

## To Consult Law

Mr. Mervine stated that he would vote no on any such move until he was satisfied that the people in the immediate neighborhood were satisfied that such a business should be conducted there.

Mayor Ward settled the discussion when he asked the solicitor to look up the law concerning the location of liquor places of business and the building committee instructed to prepare a rough sketch showing the exact location with relation to adjacent properties. The subject will come up for further consideration at a special meeting to be held in the police headquarters on Monday evening, July 17th.

## Contract Renewed

The usual 5-year contract for gas and electricity with the Public Service Corporation of New Jersey was renewed by the unanimous vote of council, the rates for both being at the new current reduction in each instance.

Councilman Huyett reported that (continued on page 9)

## Chimney Fire On Hottest Day

At the height of the sudden, but violent storm that broke at 5 o'clock Monday afternoon of this week, the Palmyra Fire Department responded for an alarm that was caused by — of all things on one of the hottest days of the summer — a chimney fire.

The blaze was located in the flue of the dwelling at the corner of Jefferson and Market streets, occupied by William Reed and family. A line from the booster tank soon extinguished the fire without loss.

The comparatively large crowd of spectators, that braved the cloud-burst to drive to the scene of the action received little more than a thorough dampening for their trouble. The rain, incidentally, stopped soon after the apparatus arrived at the fire.

## GARBAGE TRUCK IN COLLISION

The truck owned and operated by John Dziedzic, Riverton garbage collector, figured in a car crash early Friday morning of this week with the pickup truck belonging to Eval Chambers, of East Riverton, the accident occurring at the corner of Linden avenue and South Broad street.

The garbage truck was going north on Linden, while the smaller vehicle was travelling west on Broad.

The right rear wheel of the Ford was neatly amputated, while the front end of the larger vehicle was slightly damaged.

Chief William Gootee, of the Riverton police investigated the affair, but no action was taken against either driver. No one was injured.

## THE NEW ERA

RIVERTON :: CINNAMINSON :: PALMYRA

RIVERTON—PALMYRA, N. J., THURSDAY, JULY 13, 1939

PRICE FIVE CENTS

## Union Attitude

(Editorial)

As might be expected, the A. F. of L. and the C. I. O. have rushed to the support of the W.P.A. strikers, the main reason for this action being that a reduction in the wage scale for skilled W.P.A. workers might seriously affect the rate paid by private employers.

Such reasoning is certainly about as ludicrous as could be imagined. At the present time, organized labor has a stranglehold on business that is well-nigh unbreakable. Strikes are called on the slightest pretext, in many cases where wages, hours, or working conditions are not involved, the question merely being what bargaining unit shall be recognized. The unions, it might be added, usually win.

With such power in their hands, it is unbelievable that the labor organizations would tolerate a reduction in wage scales by private business merely because a W.P.A. painter, for example, was not paid according to the union standards.

It seems, therefore, that the C. I. O. and A. F. of L. are doing a straw-clutching act in order to justify their support of the strike.

As regards the situation in general, the Government has apparently created a Frankenstein in W.P.A. The handicraft of the Administration, having learned to walk, so to speak, has now reached the stage where it proposes to take over the reins and run the organization to suit the purposes of the Workers' Alliance and other associations of similar ilk.

## HOME VACATION CAMP TO OPEN

To Be Sponsored Again by Y.M.C.A.; Boys From 10-14 Eligible

A Home Vacation Camp will be a part of the Y.M.C.A. program in Palmyra-Riverton this summer. Such a camp was held here last summer, the first time this kind of "camping" was introduced in Burlington county.

Again this year most of the activities of the camp will be centered in the Palmyra-Riverton Y.M.C.A. building, at Broad and Garfield avenues. The Moorestown Community House pool will be used for swimming and life saving instruction, with transportation being provided. The opening date will be Tuesday, July 18, closing four weeks later, August 11. T. Paul Reeder, assistant county Y.M.C.A. secretary, will again direct the Home Vacation Camp.

This year's home camping program will include craft work, overnight trips, hikes, a softball league, dramatics, religious instruction, besides the aquatic activities. There will also be special outing trips.

## Enrollment

Enrollment has to be limited, but any boy from Cinnaminson, Palmyra and Riverton, between 10 and 14 years old, is eligible. The first 35 boys to sign up for the four weeks will make up the 1939 camp family.

Enrollment blanks may be had from the county Y.M.C.A. Office, 39 Main street, Mount Holly, phone 101. Or one may enroll on either of these two dates, when Mr. Reeder will be at the local Y.M.C.A. building: Thursday, July 13, from 1 to 3 p.m., and Monday, July 17, from 1 to 3 p.m.

The cost to the camper is two dollars for the four weeks.

This kind of "camping" supplements the Y.M.C.A. Camps at Medford-Ockanickon for boys and Matolonequay for girls, both of which opened July 8 for 6 weeks, for which enrollments for later weeks are receivable at Mt. Holly.

## NOTICE

Dr. John Richard Siddall, of 404 Lippincott avenue, wishes to announce that from July 15 to 31 inclusive office hours will be as follows: Tuesday, Friday and Sunday 5:30 to 7 p.m. Other days by appointment only.

## W.P.A. STRIKERS

Mrs. Mary Sim, executive secretary of the Riverton-Cinnaminson Welfare Association, has received the following letter concerning W.P.A. strikers in respect to the relief question.

July 11, 1939.

To the Directors of Welfare:  
To Local Assistance Boards of the Municipalities of the State of New Jersey:

Subject: W.P.A. Strikes

In order that our bulletin of April 1, 1939, on the subject of "Assistance Granted to Persons Engaged in Labor Disputes" may not in any sense be misinterpreted, please be advised that the State will not reimburse municipalities for relief granted to W.P.A. workers on strike since, according to W.P.A. ruling, these persons have lost their relief status.

Very truly yours,  
Signed—Arthur Mudd,  
State Financial Assistance Commissioner.

## BUILDING WORK DURING MONTH

Estimated Cost of Operations in Palmyra Is \$4385; Twelve Permits

Twelve building permits have been issued in Palmyra during the past month by the building inspector, Edward A. King. The total estimated cost of the work is \$4,385.00 and fees collected amounted to \$6.00.

The complete list of projects follows, the first mentioned name being that of the contractor and the second that of the owner of the property:

Stewart Maines, asbestos siding on dwelling, 712 Pennsylvania avenue, Emma Spruck. Estimated cost, \$435.

Edward A. King, new floor and stairway, Garfield avenue, Emil Eschman. Estimated cost, \$150.

R. S. Harris, screen enclosure, 26 West Broad street, Mrs. Emily Lutz. Estimated cost, \$685.

Austin Kellig, asbestos shingles on dwelling, Market and Jefferson streets, Mr. Brown. Estimated cost, \$500.

Mr. Brewster, one car garage, 1014 Garfield avenue, Mr. McCord. Estimated cost, \$150.

Hedley Williams, new cedar shingles and repair, 316 Leconey avenue, Mr. Brown. Estimated cost, \$450.

Hedley Williams, enclose back porch and remodel, 211 East Broad street, Luke Eberly. Estimated cost, \$850.

Joseph Longstreet, new asbestos siding, 622 Pennsylvania avenue, Edwin Redfield. Estimated cost, \$400.

George Friday, repairing church, Fifth and Maple avenue, Baptist Church. Estimated cost, \$600.

Elwood Sawyer, S.K. oil burner, 300 Cleveland avenue, Francis Darguin. Estimated value, \$300.

Standard Oil Co., Standard oil burner, 735 Parry avenue, George Degothsen. Estimated cost, \$250.

Lumadue & Son, demolishing dwelling, 330 West Broad street.

## DOWNS ASSISTANT CHIEF

At a meeting of the Riverton Fire Company held on Tuesday night of this week, Lawrence Downs was named first assistant chief of the organization.

Mr. Downs replaces Albert Yearly, whose resignation was recently accepted with regret.

A special meeting will be held on July 18, at which time a new president will be elected, this office having been made vacant by the recent death of Walter C. Wright.

## BOAT CLUB IS DENIED LICENSE

Forest Hills Organization of East Riverton May Make Appeal

At a meeting of the Cinnaminson Township Committee held on Tuesday night of this week, the application of the Forest Hills Boat Club, of East Riverton, for a club liquor license was denied by a unanimous vote.

A representative of the yachting organization who was present at the meeting intimated that an appeal of the decision might be taken to State Commissioner Frederick Burnett.

The consensus of opinion, as expressed by the members of the committee, was that if the license in question were granted, several other organizations might make similar requests and that authorization of one would set a precedent not to be desired.

A request for a one year's trial was made by a club member, who reviewed the history of the club here. This was denied also.

## Road Contract

The contract for the Church road improvement project was awarded to Paul R. Piergross, of Riverside, on his low bid of \$47,229.75. There were three other bidders.

Start of the work awaits approval of the project by the New Jersey State Highway Department and other details. The township engineer stated that he believed operations would get under way by August 1.

He also stated that the local W.P.A. road project was progressing slowly, but surely.

The East Riverton drainage question was mentioned by Chairman Maurice Conrow, who stated that negotiations toward alleviation of the difficulty were progressing favorably.

He stated that a further report on the matter would be given at a special meeting scheduled for July 28.

## Relief

Clifton P. Mayfield, president of the Riverton-Cinnaminson Welfare Association, and Charles Evans, member of the Cinnaminson financial assistance board attended the session and commented upon the rulings of the state commission concerning relief to strikers. They asked that an expression of opinion on the subject be given by the committee.

Later in the meeting the governing body voted that no relief be given to persons who were out on strike.

## Two Accidents On Route 25

During the past week two auto accidents occurred on Route 25 that entailed extensive car damage, but with only one person injured.

Last Friday afternoon, at 2 o'clock William A. Marsey, 413 Barclay street, Salisbury, Md., operator of a large truck, lost control of his machine and mowed down two signs at the Albertson Service Station. The side of the truck was considerably damaged.

Marsey was arrested by Chief Dorworth, of Cinnaminson, on the charge of careless driving, given a hearing before Recorder Cecil Bowers. He paid a fine and costs.

On Monday afternoon, at 5:30, Elia L. Baker, 1157 North 33rd street, Camden, lost control of a car near Lakeview Memorial Park and crashed into a machine operated by Margaret Earnest, 348 Farnsworth avenue, Bordentown.

Mrs. Harold Clift a passenger in the latter machine sustained injuries to her left knee.

Chief Dorworth conducted an investigation, but no arrests were made.

## LOCAL NEWS GOES TO MANY PLACES

New Era Read by Subscribers in All Parts of the United States

In addition to its large local circulation The New Era is sent each week to many former residents and others living in various parts of the United States and its possessions.

## TUBERCULOSIS LEAGUE TELLS ACTIVITIES

The Burlington County Tuberculosis League has had a half year of effective activity during the first six months of 1939 as reported by Mrs. Ruby Freer, executive secretary.

Seventeen clinics were held and 391 patients examined, 260 of whom were examined in a chest clinic for the first time. Many were referred by private physicians for diagnosis. Others came, with and without symptoms, to secure a health check-up. Still others were "contacts," people who had been associated at some time with a tuberculosis patient; they came to clinic to find out whether they had contracted any infection from the sick person. In each case where a family doctor could be named a report of the findings at the clinic were sent to him. The examining physicians were: Dr. Marcus W. Newcomb and Dr. Samuel Busanski, Brown's Mills; Dr. Paul Sparks, Burlington, and Dr. Walter Zwick, Riverside.

### Many Given Test

Two hundred and one patients were given the tuberculin test and 95 X-rays were taken at the clinics. As a result of these tests and examinations 43 patients were admitted to institutions for the treatment of tuberculosis.

The clinics were held at Burlington County Hospital, Mt. Holly, on the first and third Monday of each month at 8:30 a.m., and at Zurburg Hospital, Riverside, on the third

## ABOUT THE COUNTY

Mount Holly Post No. 11, American Legion, on Wednesday of this week held the eleventh annual service in memory of Captain Emilio Carranza, Mexican national aviation hero and good will flier, who crashed in the pines near Chatsworth on July 12, 1928.

Frank Costaglio, 21, of 239 High street, Burlington, was drowned last week when he got into deep water and sank to the bottom while wading in the Delaware river. He was wading at the foot of St. Mary street when the accident occurred. He stepped into deep water and sank immediately, nearby bathers being unable to get to him in time to save him.

Less than 48 hours after the car in which he was riding crashed into the stone wall of the railroad tunnel near Moorestown, John Delphing, 27, died at the Burlington County Hospital. The crash occurred early last week, and Delphing, who was a well-known Camden baseball player, died on Wednesday night. Death was due to a fractured skull.

Two hundred invitations have been sent to volunteer fire companies to take part in the 125th anniversary at Medford on Saturday, July 29th.

With the major number of company meetings yet to be held, Chairman Walter McClain, announces that "among the first 30 replies already received from company secretaries, more than 20 have been acceptances."

A current rumor has it that Daniel Lichtenthal, popular Riverside attorney, is being urged by his friends to enter the political lists as a Democratic candidate for State Senator. With retirement of Major General Clifford R. Powell, it is indicated that the primary fight for nomination by both parties is likely to resolve itself into a wide-open race.

### THANKS

The Delaware Fire Co. No. 2, of East Riverton, wish to thank their friends and neighbors for the splendid cooperation extended the company's drive for funds.

Friday of each month at 2:30 p.m. This schedule will continue throughout the summer.

The nurses made 478 visits to patients who either had tuberculosis or were contacts to tuberculosis patients. They made 425 visits to the schools in the County which are under contract for nursing service from the League, and 1172 visits to school children in their homes. The nurses are: Mrs. Lillian Brumfield, Lumberton; Mrs. Anna Heller, Mt. Holly; and Mrs. Martine Walther, Palmyra. The members of the Nursing Committee whose enthusiasm and effort helped to make this work possible are: Dr. Marcus W. Newcomb, Brown's Mills; Miss Margaret Hathaway, Brown's Mills; Mrs. Hilda Beckwith, Pemberton; Miss Elizabeth Ancker, Mt. Holly; Mrs. Laura Burr, Pemberton; Mrs. Hannah Blackburn, of Moorestown, and Mrs. H. H. Brakeley, Jr., Bordentown.

### School Program

In connection with the health program carried on in the schools 806 pupils in five schools were tuberculin tested and 123 of those who had positive reactions to the test were X-rayed. In the recent 35th annual meeting of the National Tuberculosis Association in Boston, specialists approved the tuberculin test as a method of uncovering tuberculosis in apparently healthy persons. Dr. Bruce H. Douglas, tuberculosis controller of the Detroit Department of Health, said that the test is an inexpensive way to find such persons and then proceed to the next step of having the positive reactors receive chest X-rays. Tuberculin testing as a method of finding tuberculosis is being increasingly used in high schools and colleges, according to the Detroit specialist.

## ABOUT TOWN

The article in last week's issue of The New Era concerning the height of a certain hedge in Riverton was not printed as a result of a complaint by any resident in the vicinity.

It is pleasant to note, however, that the foliage in question has been clipped and the hazard no longer exists. The property owners are to be congratulated for their prompt attention.

River traffic was especially heavy on Sunday, many boats being here for the regatta across the river and a large number of skippers were evidently out in an endeavor to escape the heat. Many wonder whether traffic control lights will ever be necessary.

Riverton Borough Council meets on Thursday night of this week.

The car of a Riverton resident was not stolen recently, a current report to the contrary.

Palmyra Fire Company held a lengthy drill at the foot of Cinnamon avenue on Monday night.

The new lights at the Burke and Easley service station add considerably to the illumination of the local "white way."

Experience is what you have left when everything else is gone.

## Y.M.C.A. CAMPS IN FULL SWING

Ockanickon and Matollionequay, Y.M.C.A. camps at Medford, opened last Saturday, and are now well into their first week of multiple program activities.

C. A. Duran, director of Camp Ockanickon, was on hand to welcome nearly two hundred boys who had enrolled for the first week, and their parents.

Mrs. Evelyn S. Smith, girls' camp director, greeted old and new campers and their parents at Matollionequay Lodge, headquarters for the girls' camp on the upper lake portion of the vast Ockanickon property.

Both camps will operate for six weeks, closing Saturday, August 19. "Chief" Duran was the speaker at the boys' Sunday morning outdoor chapel service. Miss Tillie Shillingsburg, director of the girls' senior area was in charge of the girls' service in the Russell Memorial outdoor chapel at Matollionequay.

### Schedules

Monday morning both camps swung into their activities schedules. Some of the things one finds going on there now are: crafts in leather, wood and metals; aquatics, including Red Cross life saving instruction, supervised swimming periods, classes for beginners and non-swimmers, boating and canoeing; nature hikes; camp craft; Indian lore, with two full-blooded Indians as guides and instructors; horseback riding; first aid, photography, various land sports, including tennis, baseball badminton, volley ball, zel-

## COMPLAINTS ON WORK AT HOME

Workman at the county Welfare House at New Lisbon went back on the job with settlement of union difficulties last week, but complaints against the plumbing and heating contractors, which have been reported for several weeks, were definitely brought out.

In a letter sent to the Board of Freeholders this week, Col. Hugh A. Kelly, the Welfare House architect, lists 16 complaints against the plumbing and heating contractor, the Harry Knecht Company, of Merchantville.

Members of the Board of Freeholders indicated yesterday that a close check would be kept on the plumbing work from now until the finish of the building, which will probably not be for another month. In the event that the complaints as listed by Col. Kelly are not corrected, the building is not likely to be accepted by the county according to recent reports.

ball, outdoor basketball, rifle range target practice, archery, on-going preparation for evening stunt night and camp fire programs and ceremonies; instruction for older fellows in principles and practices of camp leadership.

Many of the same kinds of activities make up the girls' camp program.

Enrollments for any of the succeeding weeks are receivable at the county Y.M.C.A. office, Mt. Holly, where folders, with full information, may be had.

Traffic over the Tacony-Palmyra bridge was very heavy on Sunday evening over a five-hour period.

There was a large attendance on Sunday evening at the Union Church services held in the Grove, Palmyra.

The W.P.A. band which gives concerts every Friday night in the Palmyra Grove will be glad to play request numbers the week following the request.

Workmen are now engaged in the installation of the metal supports for the seats in the completed section of the Palmyra High School stadium.

Workmen are engaged in cutting Filbert street through for a distance of two blocks south of Park avenue.

A large daily attendance is noted at the Palmyra playground located at the municipal park.

Harry Bates, son of Walter D. Bates, of 223 Horace avenue, Palmyra, has been appointed by borough officials to the position of special summer police officer in Palmyra. Mr. Bates, who began work this week, will be on the job for ten weeks.

Many boys and girls from both Palmyra and Riverton have left for one of the various camps sponsored by county organizations.

Tree surgeons are still at work pruning the beautiful trees that line local thoroughfares.

Another counterfeit \$10 bill of the type found here last week is reported to have been passed at a road-stand on Route 25, near Bridgeboro. Local merchants are exercising unusual care in scrutinizing notes of this denomination since the spurious money was found hereabouts.

Health Question: What Materials Should a Vacation First Aid Kit Contain?

Doc Says:

The first aid kit for use in minor emergencies which may occur on summer outings and vacation trips should contain some sterile bandages one to four inches in width; a spool of adhesive tape; a roll of absorbent cotton; a package of sterile gauze a package of bicarbonate of soda; a small bottle of iodine; a small bottle of mercurochrome; some boric acid; and some fairly large safety pins.

The bicarbonate of soda can be used to make a paste for sunburn or poison ivy to be applied in an emergency before medical attention can be obtained.

Health Question: What Are Some Safety Factors to Be Considered in Connection with a Vacation in a Summer Cottage?

Most summer cottages are inexpensive structures and are not fire-proof. Nor are they so well built as the year-round residence. It is therefore, well to be especially watchful of the cooking and heating equipment in a cottage. The light fixtures and equipment, wheth-

## N. J. RESIDENTS ARE RESPONSIBLE

It's the local resident who is his home town's biggest accident problem and not the folks from the next county or adjoining state. Tired of hearing Camden and Trenton citizens blame their high accident rate on "those Pennsylvania drivers," Elizabeth people scoring their Essex county neighbors and Patersonians branding Bergen county operators as the "world's worst," Commissioner Magee has just completed a survey of the residence of accident drivers in these four cities for the year 1938. His findings, a reversal of common belief, are as follows:

### Camden

Of all drivers involved in traffic accidents, 53.4 per cent resided in the city and 23 per cent in other municipalities of Camden county. Only 8.1 per cent came from counties immediately adjoining and 4.1 per cent from other parts of the state. Out-of-state drivers, mostly Pennsylvanians, comprised but 11.4 per cent of all drivers.

### Elizabeth

Despite its important highway routes carrying through traffic, only 8.6 per cent of the accident drivers were non-residents. Citizens of the city comprised 56.3 per cent of total drivers and other Union county municipalities 17.4 per cent. From counties immediately adjacent the percentage was 12.3 per cent and the rest of the State 5.4 per cent.

### Paterson

Fifty-four per cent of the drivers were city residents and 18.9 per cent were from other municipalities in Passaic county. From adjoining counties came 16.1 per cent and the rest of the State 4.7 per cent. Only 6.3 per cent were non-residents.

### Trenton

Of the four cities surveyed, Trenton had the highest percentage of residents in the city's accidents—66.9 per cent. From the rest of Mercer county came 12.7 per cent of the accident drivers and from counties immediately adjacent, 2.6 per cent. Other counties in the state contributed 6.3 per cent of the drivers while non-resident drivers represented 11.5 per cent of the total.

er electric or of some other type, should be examined carefully for defects, particularly if the cottage has been closed during the winter months.

In this connection, inflammable litter and refuse should be disposed of outside of the cottage.

The summer occupant would also be wise to inspect the floor and the steps of the porch and stairway for defective or loose boards which might cause a fall.

A vacation first aid kit is also in order for the summer cottage.

This feature is prepared by the Burlington County Medical Society and the Medical Society of New Jersey.

## STATE AID FOR COUNTY ROADS

State Highway Commissioner E. Donald Sterner recently approved the request of Mansfield Township to include the construction of the Mansfield-Georgetown Road, Section 1, in the State Highway Department-W.P.A. Work Relief Program. The project will provide 306 man-weeks of employment. Gravel, six inches deep and 20 feet wide, will be laid for two and three-tenths miles. Two shoulders of three feet each will make the graded width 26 feet. The improvement will cost approximately \$5,000.

Shamong Township obtained the sum of \$2,200 in state aid for placing bituminous surface treated gravel, 20 feet wide, on two and one-tenth miles of Piper's Corner Road. The gravel shoulders of five feet each will be included in the improvement, making the graded width 30 feet.

Delran Township was allowed \$600 in State Aid for the bituminous surface treatment of Main street, Cambridge. The surfacing will be 20 feet wide and two-tenths of a mile long. The graded width will be made 36 feet.

"My husband is an efficiency expert in a large office."

"What does an efficiency expert do?"

"Well, if we women did it, they'd call it nagging!"

Weather men now believe they can predict a thunderstorm 24 to 36 hours in advance.

YOU'D NEVER THINK a car as big and powerful as Olds would be a gas miser. Yet, that's just what Oldsmobile is—a fuel saver if there ever was one. With Olds, you spend less time (and money) in gas stations and more on the open road. The big 90 H. P. Econo-Master Engine of the Olds Sixty gives you a wealth of live, eager power to master any kind of going. Yet, because it is precision-built and pressure-lubricated, because it embodies such advanced features as a high-efficiency cylinder head, completely cooled cylinders and pressure-cooled valves, it gets the utmost out of every drop of gas and oil. That's why an Olds Sixty was able to win first in its class in this year's Gilmore-Yosemite Economy Run with an average of 21.4 miles per gallon over a tough 315-mile course. Come in and let us prove to you that Olds gives you quality plus economy!

YOU'LL GET A BETTER DEAL FROM OLDSMOBILE! That's what our customers are saying all over town. Bring your present car in for appraisal and find out why. It will never be worth more than it is today, so why not get top value for it in trade on a big, new, money-saving Olds! \$777 AND UP \* Delivered at Lansing, Michigan. Prices include safety glass, bumpers, bumper guards, spare tire if any, optional equipment and accessories—extra. Price subject to change without notice. \* A GENERAL MOTORS VALUE.

## Third Term Talk

The word is being given out to newspaper correspondents in Washington that the demand for a third term for the President is steadily growing all over the country. It is said that political observers out over the land are sending in the word that the drift toward the President is increasing and that the boom launched for Vice President Garner some time back reached its peak and is receding. Prominent New Deal senators like Smathers, of New Jersey, and Guffey, of Pennsylvania, have come out publicly demanding the third candidacy and more are to follow. Every sign points to the fact that the third term idea is being built up cleverly either with or without the consent of the White House. Credit for the news strategy is given to Tommy Corcoran, one of the White House trusted advisors.

Of course, we are witnessing only the preliminary skirmishes in the Democratic battle of 1940. Mr. Roosevelt is not going to display his hand now. If he were to say he would not run in 1940, his power over Congress would slip entirely from his hands and the whole New Deal program would be greatly endangered, to say nothing of the general effect of a flock of candidates which would immediately descend on the public. On the other hand, if Mr. Roosevelt decides to run again, his candidacy will have to come, out as an ambitious desire to break a tradition, but as a "spontaneous and popular demand" on the part of the people.

## Do As They Say

In these days, when various and sundry government regulations have been imposed upon private business in respect to wages, hours, working conditions, unemployment relief, old age benefits, etc., etc., it is interesting to note the effective manner in which the government has set the example for all these moves.

Private businesses are compelled to contribute one per cent of their payrolls toward old age pensions, employees pay another one per cent. The government taxes its employees three and one-half per cent for this, contributes nothing and, in addition, charges \$12 per year for administering each account.

Employers of eight or more individuals pay the equivalent of three per cent of their payroll toward unemployment relief. The government makes no provision for this, one argument probably being that government employees are never without a job. Nothing can be further from the fact, since there are numerous instances where members of the personnel have been dropped due to "lack of funds." Many of these were specialists and found it hard to obtain work along similar lines. Needless to say, they were civil service employees in non-New Deal agencies.

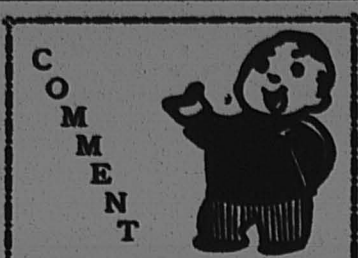

In private business, overtime is compensated at the rate of one and one-half the base rate of pay. In government service, with a few possible exceptions, overtime is not paid for at all and men are expected to work 24 hours a day if the "good of the service" demands it. Time off for holidays and vacation is a "privilege" and not a "right."

Other comparisons of a similar nature could be cited. The point is not being raised as to whether or not these various laws are essential or not, this being a question of broad aspects. The crux of the situation, however, is that since, the government has imposed these regulations upon private business, why would it not be reasonable to assume that the same government would feel that similar regulations might be applicable to its own employees.

The entire situation seems to be a rather startling example of the old adage "Don't do as I do, but do as I say."

## What Other Editors Say

When the war crisis in Europe was hot and our stock market prices slumped, Europe was blamed. Then Europe quieted down and the prices on Wall Street continued slumping. Evidently confidence in America's business future is needed as much as peace in Europe.

Our congratulations to the members of the various committees in charge of the Fourth of July celebration in Riverton. The many activities of the day were a complete success and the local community can feel well satisfied that the observance here set the standard for South Jersey. It would be most difficult to suggest any way of improvement.

A new machine demonstrated in Hollywood changes the voice of a baritone into a soprano and makes a crooner's voice sound like a trio of crooners. What horrors will they discover next?

The Hatch bill is designed to take the politics out of relief. Some senators may be opposing it on the grounds that there wouldn't be much left.

Who says Secretary Wallace doesn't know anything about farming? A friend of ours returning from Washington reports a fine stand of grass on the lawn around the Department of Agriculture building.

It's all right to talk about the government putting a floor under wages but wouldn't it be better to have private business build a foundation under wages?

An exchange says that if the present rate of spending keeps up at Washington some of these days Uncle Sam will run short of money. Land sakes, man! He's about fifty billion dollars short already.

Some enterprising real estate firm ought to get an option on the Sahara Desert and advertise it as the place where there is plenty of parking space without meters and you

may have all the U-turns you can make for a nickel.

Diggers of a subway in Rome have unearthed two statues dating back to the Roman Empire. We presume, however, that Mussolini will continue to occupy the chief niche in the Italian Hall of Fame.

Speaking of the WPA theatre project, we think it has been overlooking a bet. We fail to note any phase in the investigation showing that the guild has been employing footlight tenders.

When the price of silver was raised by law five years ago we were promised higher wheat and cotton prices. Now read them.

## One View

A manufacturer recently said that he employed the same number of men that he did before the World War, but that the output of his plant had multiplied four times. He imagined that this improvement in productive efficiency was one cause of unemployment.

Such reasoning is unsound. Most of the income of the American people is spent or invested as quickly as it is earned. It is converted into commodities or services. As the national income and the standard of living improve, in consequence of productive efficiency, new wants are created and satisfied. To mention a homely example, think of the vast number of women employed today as manicurists and hairdressers. Mowing lawns was once a boy's work; now in wealthy suburban districts it is an industry.

Whatever is earned is spent. If the owner does not spend it to gratify his own wants, he lends his surplus to another who uses it to build a house or buy a locomotive. The temporary dislocations caused by labor-saving machinery are painful, but they do not cause permanent unemployment. The manufacturer who quadruples his output in twenty years, without an increase in the number of employees, makes a substantial contribution to the national well-being.

The surplus that is created by

such methods can be enjoyed either in increased leisure or in a greater plenitude of goods. We probably choose to take a little of both, that is, a little more leisure and a few more goods.

Right now, in fact, we are working fewer hours and enjoying more conveniences than a decade ago.—Imperial Magazine.

## WARNING GIVEN TO EMPLOYERS

The serious consequences of the failure of an employer to keep records clearly showing the amount of time worked and the wages paid to each employee in accordance with regulations issued by Administrator Elmer F. Andrews of the Wage and Hour Division, was pointed out recently by Arthur J. White, official representative of the White and Hour Division, whose office is at 424 Federal post office building, Newark.

Mr. White was notified by his Washington office this week that fines totalling \$1500 had been levied in a case where no records had been kept. Sussex Hats, Inc., employing 300 workers at Holyoke, Mass., was fined \$1,000 and William Wolfe, treasurer of the concern was fined \$500 by Judge Hugh D. McLellan in Boston Federal Court after being convicted on an indictment charging the firm with failure to keep proper records. Mr. White was notified.

## Fines Levied

In the many other criminal cases, in which fines have been levied, the indictment usually alleged failure to pay the minimum wage, failure to pay overtime, failure to keep proper records or falsification of records. The Sussex case was the first in the country since the law went into effect October 24 last, in which the sole charge was failure to keep records.

Full information on the form in which records should be kept can be obtained by employers in the New Jersey area from Mr. White. The Wage and Hour Division local office telephone number is Mitchell 2-2020.

## YOUR GARDEN

## WHAT TO DO THIS WEEK

By A. C. McLellan  
Extension Service, N. J. College of Agriculture

Maintenance is the most important aspect of gardening in July. Weeding, in particular, must be stressed, because undesirable plants can easily outdo flowers and lessen their effect at this time of the year.

Another task for early July is pruning climbing roses. Leaving the younger shoots starting near the base to make flowering wood for next year. Many climbing roses may be treated the same as blackberries—cutting the old wood out each year and leaving just the new shoots to make strong growth and ripen well.

Wisterias need some attention now. The Japanese always get plenty of bloom from wisterias by never letting the vines get too large. Now is a good time to take the tip from these expert gardeners and encourage the development of flowering spurs instead of long shoots.

## Spraying or Dusting

Do not neglect the spraying or dusting routine. If phlox leaves appear yellow, they probably have spider mites and should be dusted with sulphur. It is well to dust roses with sulphur and nicotine, or spray them with a sulphur compound with nicotine added to control mildew, black-spot and lice. If flowering shrubs are infested with plant lice or aphids, dust them with pyrethrum or nicotine preparations. Although they may be sprayed, dusting is usually more practical for the amateur gardener.

Lice have been very prevalent on lilacs during the last two summers. They appear rather late in the season and do much damage. For this reason, lilac enthusiasts should start now to dust with rotenone, pyrethrum or nicotine. The undersides of the leaves need particular attention, for that is where the lice usually stay.

In order to get maximum summer bloom from annuals, roses and many herbaceous perennials, one should not let flowers wither on the plants. It is much better to pick them and enjoy their beauty indoors. In any event, they should be cut and discarded when they fade. And don't be afraid to remove some of the shoots from annuals, especially if you want large flowers. Chrysanthemums and dahlias should be pinched back until about August 1st.

## ALL WAS QUIET IN MT. HOLLY

In contrast to the Fourth of July celebration here, the Mt. Holly Herald comments as follows on the activities of the day there:

Mount Holly's quietest Fourth of July has passed serenely into history. With no celebration planned, no fireworks allowed and not even a baseball game to liven the old town, Main street was as quiet as a Shanghai thoroughfare 10 minutes after a Jap aerial bombardment.

Few Sundays have seen the tranquility of the town's main stem from dawn 'till midnight on Tuesday. Lacking a baseball game, the town's sports who were unable to see the doubleheader in Philadelphia, spent the day sleeping. (There were no giant 'crackers' to disturb them, either.)

All in all, it was a good day for a rest, but a poor holiday for the lads who like to whoop it up. The canine kingdom is reported to have voted Tuesday the best Fourth of July ever — dogs wandered the streets as if the Fourth were the same as any other day in town—and it was, except quieter.

Some Mount Holly folks left town early on Tuesday night for Bristol and other riverfront towns on the New Jersey side of the Delaware, where public displays of fireworks were scheduled.

The patriotic fervor always caused by "bombs bursting in air" and colored lights flashing through the heavens aroused thousands in other towns—but Mount Holly slept quietly on.

On Wednesday, townspeople who had witnessed the fireworks displays—and many who were sorry

## IN CADDY TOURNEY

Five caddies from the Riverton Country Club participated in the annual bag-carriers' tournament on Monday, at the Iron Rock Country Club, but none finished up with the leaders.

M. Leedom had 83-90 for 173, while J. Mathews turned in a card of 82-85, 186 for the 36 holes. P. Midiri, of Spring Hill, won the event with 152.

"Some people," said Uncle Eben, "worries so hard tryin' to be happy, dat dey couldn't be happy nohow."

## TAMPERERS BEWARE

A new signal ink which will change color upon being subjected to steam has just been developed by the E. J. Kelley Company, printing ink makers. The new signal ink is designed for printing on the flaps of envelopes and changes color when an attempt has been made to steam open the envelope. The new ink is obtainable in any shade with nearly any color change.

Ostia, port of Rome, was founded in 330 B. C. and was at first essentially a military town.

## Legal Notices

## SHERIFF'S SALE

By virtue of a Writ of Fieri Facias to me directed, issued out of Court of Chancery of the State of New Jersey, I will sell at public sale.

THURSDAY, JULY 27, A.D., 1939, between the hours of 12 and 2 o'clock in the afternoon of said day (to wit, 2 o'clock) Standard Time, at the Court House, Mount Holly, New Jersey.

ALL of the following tract or parcel of land and premises hereinafter particularly set forth and described:

ALL that tract or parcel of land and premises hereinafter particularly described, situate, lying and being in the Borough of Burlington, in the County of Burlington and the State of New Jersey. BEGINNING at a point in the North-easterly line of Thomas Avenue distant ninety-seven feet Northwesterly from the intersection of the Northwesterly line of Thomas Avenue with the Northwesterly line of Fourth Street, and in the dividing line between Lots Nos. 45 and 46, on a certain Town plot or plan of lots made by Edward Lippincott and on file as of record in the Clerk's Office of the County of Burlington, at Mount Holly, New Jersey, and extends thence Northwesterly along the North-easterly line of Thomas Avenue sixty feet in front or width to a point in the dividing line between Lots Nos. 44 and 45, said plan, and thence extending Northeastwardly between parallel lines of that width or frontage, at right angles to Thomas Avenue, forty feet to the building line; then continuing on in the same direction a further distance of one hundred and twenty-five feet to the Southwesterly line of a certain alley or passageway, being Lot No. 45 on said plan.

BEING the same land and premises which Samuel W. Collin and Beatrice F. Collin, his wife, by deed bearing date the ninth day of August, A.D. 1924, and of record in the office of the Clerk of Burlington County at Mount Holly, New Jersey, in Book 637 of Deeds, page 222 &c., granted and conveyed unto the said Alphons Schmitt and Frances Schmitt, his wife, in fee.

Decree approximately \$4,670.46 besides interest, costs and fees. Seized as the property of Frances C. Schmitt, widow of defendant, taken in execution at the suit of Home Owners' Loan Corporation, complainant; and to be sold by me, GEORGE FURTH, Sheriff.

Solicitors: Lichtenthal & Turnbull.  
Dated: June 28, 1939.  
6-29-7-20-39  
Printer's Fee \$27.30.

## Burlington County Surrogate's Court

## RULE TO BAR CREDITORS

## Estate of Henry H. Lippincott, Deceased.

Notice is hereby given that an order has been made by George B. Hitting, Surrogate of the County of Burlington, bearing date the 19th day of June, 1939, upon application of the subscriber, Executor, requiring the creditors of Henry H. Lippincott, late of the County of Burlington, deceased, to bring in their claims against the estate of the said decedent, under oath or affirmation, on or before December 19, 1939, or they will be barred of any action thereafter against the said Executor.

EMILY L. LIPPINCOTT, Executor.

Practor: Wm. D. Lippincott.  
Dated: June 19, 1939.  
6-22 to 7-20-39

## BURLINGTON COUNTY ORPHANS' COURT

## In the matter of the Estate of Laura B. Davis, deceased.

## On Petition for Decree of Intestacy

## NOTICE

Pursuant to an order of the Orphans' Court of the County of Burlington, made on the 28th day of March, 1939, upon the application of C. Kenneth Davis, Administrator of the Estate of Laura B. Davis, deceased, notice is hereby given by the said C. Kenneth Davis, Administrator as aforesaid, to the creditors of the said estate of Laura B. Davis, deceased, to present to him, under oath or affirmation, their claims and demands against the said estate within six months from the 10th day of March, 1939, or they will be forever barred from prosecuting or recovering the same.

C. KENNETH DAVIS, Administrator,  
122 Thomas Avenue,  
Riverton, New Jersey.

Dated: May 1st, 1939.  
6-1-40-7-27-39

## AFTER PLAY

## Hot Water Without Delay!

Have hot water on tap, automatically, by GAS. Then there will be no excuse for youngsters not being clean. They are more apt to wash unassisted when the water is always hot.

This hot water is cheap. For example, a family in Jersey City pays only about \$2.64 per month for automatic hot water service by gas, based on a comparison of gas bills before and after installing an automatic gas water heater. You can get an estimate of cost according to your hot water usage, by asking Public Service or your local plumber.

## PUBLIC SERVICE

Modern, insulated automatic gaswater heaters can be purchased on terms as low as \$1.80 down, \$2.15 monthly.

## Wesleyan Men's Bible Class

For the Men of the Community

The life of Abraham is an adventure by faith. In his advanced years God called him from Ur of Chaldees to go out into the unknown tomorrow with no other assurance than the promise of an assured reality.

On the human side, Abraham in his years had sought seclusion in his environment. Adventure with youth is normal, but age seeks quietude.

In Hebrews, the author writes, "By faith he went out, not knowing whither he went." Faith was the inspiring and upholding power that led him onward to greater achievements than had he stayed in his comfortable environment.

In our Bible class we hear the call to go forth from smugness and accept the challenge of the tomorrow, not in our strength but by faith in the goodness of God, who opens the doors of opportunities. The material life closes in about us and limits in vision and power. Faith widens one's outlook and sends us forth with obedient hearts to unselfish deeds.

Meet with us next Sunday at 9:30 and feel the thrill of the vision of faith and its assuring promise of spiritual realities. A welcome cordial and sincere awaits you.

## Municipal Topics

## War Without End

New Jersey in recent years has attained a number of outstanding public health records. For example, 1938 was the seventh consecutive year of freedom from the scourge of smallpox and during the last ten years there has been a reduction of deaths from diphtheria.

While fortuitous circumstances and a considerable amount of good luck have undoubtedly contributed to these achievements, the major factor, Dr. J. Lynn Mahaffey, State Health Director, believes, is the preventive program in which health, school and other authorities have cooperated. The success attained, he points out, calls for a continuance and, wherever possible, an expansion of efforts. The battle against disease is a never-ending fight.

## Enviably Record

"New Jersey's enviable smallpox

record has been attained in the absence of a state-wide compulsory vaccination law." Dr. Mahaffey cites. "Rather, it is attributable to the slow processes of education and persuasion, with local boards of health and municipal boards of education, under the home rule law, taking the initiative for the vaccination of pupils in the public school system."

"Vaccinations as a preventive measure against smallpox must be encouraged to maintain our record of freedom from the disease, and that requires a large percentage of the population be immunized. We recall the war-time measures of vac-

ination of the armed forces of the country. In that situation, a large percentage of the adult population was inoculated against smallpox and typhoid fever. The new technique is the attempt to immunize the younger generation during their school days."

In Many Communities  
"Local boards of health report that in the year 1937 the municipal boards of education in two hundred and fifty municipalities of New Jersey required pupils and teachers to be vaccinated, if attending public schools within their respective jurisdictions. Still more general applica-

tion of the authority granted to local boards of education, to require the vaccination of public school children, would correspondingly increase the State's protection against smallpox."

Turning to other communicable diseases, Dr. Mahaffey makes the point that further experimentation and knowledge are not so much needed as the application of the weapons at hand.

"Diphtheria immunization must be stressed in order not only to reduce further this serious disease, but to keep the disease at the present low rate," he continues. "The fact fifty-eight per cent of the fatal cases of diphtheria in 1937 were children less than five years old shows the grave importance of having young children protected by immunizing treatments."

The first specimen of Czech composition known to us, dating from the Middle Ages, consists of a hymn, beginning prophetically enough, "Lord, have mercy upon us."

Next Winter's  
Jam and Jelly

Next Winter's jam and jelly may be made at this time of year, when fruits and berries are ripe and inexpensive. Jellies will be used for breakfast and also to serve with meats and desserts.

To make tender, clear, sparkling jelly, follow the recipe carefully. Measure all ingredients and use the time and temperature control of your gas range to regulate the cooking.

Four Fruit Jam  
1 pt. cleaned ripe gooseberries 1 pt. currants  
1 qt. straw-berries 1 pt. cherries,  
pitted  
3 qts. sugar

Mash the fruits, with the exception of the gooseberries, cut gooseberries in halves, add the sugar and put over a slow fire until juices are extracted. Then increase the heat and boil for fifteen to twenty minutes. Seal hot.

Current and Raspberry Jam  
1 qt. currants 4 qts. raspberries  
2 lbs. sugar

Wash and stem currants, wash raspberries. Put into a large kettle and heat. Add sugar and boil for ten minutes or heat to 214 degrees. Pour into hot, sterilized jars and seal.

Current Jelly  
4 1/2 cups juice 1/2 cup commercial pectin  
from cooked fruit 7 cups sugar

Crush about three and one-half pounds ripe fruit. Add one cup of water, stir until boiling, cover pan and simmer for ten minutes. Place in a jelly bag and allow juice to drip. Measure juice into a large saucepan. Measure sugar. Bring the juice to the boiling point and add the sugar gradually, with constant stirring.

Cherry Preserves  
2 lbs. sour cherries 1/4 lb. sugar  
ries weighed 1 1/2 cups water  
after stoning

Dissolve the sugar in the water and boil until the syrup spins a thread. Add the cherries, cook rapidly for six minutes, allow to stand for six to twelve hours. Heat to the boiling point, pour into clean hot jars and seal.

Gooseberry Conserve  
3 qts. gooseberries 1 lb. raisins,  
chopped fine  
8 cups sugar 2 cups walnuts,  
blanched and  
1 lb. ground pineapples chopped fine

Wash gooseberries and boil them until they burst. Add sugar, ground pineapples and finely chopped raisins. Boil mixture slowly until it is thick and add to the chopped nuts. Pack into clean, hot jars and seal immediately.

Canned Pineapple  
2 pineapples 1 cup sugar  
1 cup water

Pare pineapples and remove eyes, cut in cubes and pack into sterilized jars. Prepare syrup by boiling sugar and water together for two and one-half minutes. Pour over pineapples. Fit on sealed rubber and adjust lid loosely. Place in oven two inches apart and set regulator at 250 degrees. Allow to remain in oven forty minutes for pint jars and fifty minutes for quart jars.

Supreme Soft Twist  
Bread 8c

Heinz Baked Beans 3 cans 29c

Garden Fresh Fruits and Vegetables

Extra Large Oranges doz 29c

PEACHES Large 4 lbs 25c

HONEYDEWS EXTRA LARGE each 23c

## Church Notices

**BETHANY EVANGELICAL LUTHERAN CHURCH**  
Rev. Oliver W. Powers, Pastor

Programs for the two services on Sunday mornings during the summer are proving very successful. Many members are taking advantage of the opportunity to worship at the earlier hour.

On this Sunday, the Sixth after Trinity, Matins will be at 8:45 a.m. at which time the pastor, the Rev. Oliver W. Powers, will read the service and Mr. Charles King Wynkoop will preach from the Epistle for the Day. At the chief service, 11:00 a.m., Mr. Wynkoop will read the service and Pastor Powers will preach on the subject "The Righteousness of the New Life."

Despite vacations and the warm weather the attendance at Church School is very encouraging. The School meets at 10:00 a.m. The topic-lesson for Sunday will be Rehoboam: A Man Who Made a Foolish Choice.

**CALVARY PRESBYTERIAN**  
Rev. Charles T. Bates, B.D., Pastor

Summer Services  
Church school, 9:45 a.m.  
Morning worship, 11:00 a.m.  
At the morning worship next Sunday, July 16, the Rev. J. Clayton Lime, pastor of the Presbyterian Church at Delanco, will occupy the pulpit.

All those in the community who have no regular church home are cordially invited to enter into the worship and fellowship of Calvary Church.

**CENTRAL BAPTIST CHURCH**  
Rev. George Lockett, B.D., Pastor

Services Sunday, July 16th.  
Bible school, 10:00 a.m. Despite the warm weather that has prevailed the last few Sundays, Secretary James West reports the attendance is still keeping above the 1938 record, which was one of the highest in years, proving that the humid days are not dulling the interest. During the summer months the sessions are made somewhat shorter so that any one attending may not be discomforted and still receive that needed spiritual inspiration which "Central Baptist" endeavors to disseminate.

Morning worship, 11:15 a.m. Likewise the morning service starts and ends promptly. It lasts but one hour. But in that hour you hear a helpful sermon by the pastor and inspiring music by the choir. The pastor will preach the second of a series of sermons for the summer months. The subject this Sunday will be "Sunrise on Galilee."

Evening service, 7:00 p.m. The municipal grove has been taxed to its seating capacity the last several Sundays, showing the increasing popularity of these services. Rev. William A. Boyd, pastor of the Methodist Church will be the speaker for this evening's service. Mr. Boyd's sermon will make it worth anyone's while to attend this twilight service of an hour. Come out and bring your friends.

Wednesday evening at 8 o'clock—The midweek prayer service. A large and enthusiastic meeting was held last week, in fact the interest in these meetings has been greatly manifested by the increasing attendance right through the summer months. Here is where you receive that extra spiritual boost. A fine prescription for the ills of life. Visitors are always welcome.

**WESTFIELD FRIENDS MEETING**

Burlington Pike  
Sunday Morning  
10 o'clock—Meeting for worship.

**CHRISTIAN SCIENCE CHURCH**  
First Church of Christ, Scientist

Thomas Ave. and Seventh St.

"Be a booster for the Lord." With that consciousness of His presence abiding within, impetuous and romantic youth, dreaming of the future, cannot but catch a glimpse of the possibilities of man and God in partnership. Pennington Institute presents a fine view of Christian work and church activities. Young people get a vision of what may be accomplished when they cooperate with God in carrying the glad tidings of the gospel to all the world. Whatever form it may take, telling the story of the Lord Jesus Christ is the one purpose of the life that is yielded to Him.

League will be held as usual, at the Methodist Church Thursday evening at 7 p.m. Come out and make our growing attendance grow larger. Our speaker of the evening will be Edward L. Hill, of Delanco.

## CHRISTIAN SCIENCE CHURCH

"Life" is the subject of the lesson-sermon in all Churches of Christ, Scientist, on Sunday, July 16.

The Golden Text is: "Seek good, and not evil, that ye may live; and so the Lord, the God of hosts, shall be with you, as ye have spoken." (Amos 5:14).

Among the citations which comprise the lesson-sermon is the following from the Bible: "And we know that the Son of God is come, and hath given us an understanding, that we may know him that is true, and we are in him that is true, even in his Son Jesus Christ. This is the true God, and eternal life." (1 John 5:20).

The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "We all must learn that Life is God. Ask yourself: Am I living the life that approaches the supreme good? Am I demonstrating the healing power of Truth and Love? If so, then the way will grow brighter 'unto the perfect day.' Your fruits will prove what the understanding of God brings to man" (p. 496).

**METHODIST CHURCH**  
Rev. William A. Boyd, Pastor

This Sunday morning at eleven o'clock the Rev. Boyd has chosen "Courage" as the topic of his sermon. The soloists during this service will be Mrs. Lydia Strang and Mrs. Helen Johnson, who together will sing a duet.

"God in His World" will be the subject of the sermon by Mr. Boyd to be delivered in the Grove Service Sunday evening at 7 o'clock. Come enjoy this hour in the presence of God in His out of doors. The trumpeters will be there. The Methodist Choir will sing and render a surprise number. You will enjoy the singing by the people.

Don't forget the Church and Bible School picnic this Saturday afternoon. Buses will leave the Church for Berlin Park at 1:30 and return leaving the park at 8:30. Come and bring your friends along with you. Bring your bathing suits and your tennis rackets and plenty of things to eat.

A total of 45,051 North Carolina farm homes were equipped with electricity between 1935 and 1939.

## HAPPY AT CAMP

Twenty-two boys and girls spent a happy and healthy Fourth because Burlington county cares about its children. These youngsters, aged six to fourteen, celebrated one of the grandest days of their lives, and went to bed at nightfall sleepily content, knowing that it's only the beginning of six weeks of July Fourth's for them.

School nurses and teachers selected these lucky children for a summer vacation on Rotary Island, at Camp Rotary, Trenton, N. J., and the Burlington County Tuberculosis League is paying their expenses. They are children the nurses think will be stronger, better developed, happier boys and girls because of living camp life under expert guidance for a few weeks. They are not sick. They aren't even tuberculosis "suspects."

## Reasons

Johnny is too thin. He hasn't gained weight regularly all winter and the nurse had failed to find much increase in his height as she measured him each month. Johnny was squeamish about the things he would eat. He didn't like milk. Sometimes he'd run off to school without eating his breakfast. His mother was at a loss. If he could learn to eat properly at camp he certainly could go. You should have seen Johnny yesterday. If oatmeal and milk was good enough for the gang it was good enough for him, and he attacked a bowl as though it was the one thing he had wanted all his life.

Mary, on the other hand, is a personality of a different color. She would dutifully eat her meals like a little lady, but take a nap or a rest period? Oh, no. "She's never still a minute," her mother complained. "Seems like she runs off every ounce of meat she puts on." But Mary climbs into her cot at Camp Rotary, just like the other little girls, and she's off to sleep before she has time to think of what a "bad" little girl she used to be.

Others were selected because they were not getting enough air and sunshine at home. Here they are dressed in sun suits all day and sleep with the night breeze blowing on their faces. They are learning to like fresh air.

Some have never learned how to play with other children, to give and take, to be good sportsmen in their dealings with others. Here the leaders help them over the rough spots, give them appropriate recognition for the right thing done right. They are learning to be proud of themselves and to appreciate the other fellow.

## Camp Supervision

The camp is under the general supervision of Mrs. Frank Thompson, executive secretary of the Mercer County Tuberculosis and Health League. Ralph S. Abel is camp director. Mr. Abel is an instructor of physical education during the school year. For six summers he has had charge of health camps. This is his second summer at Camp Rotary.

Others on the staff are: Camp physician, Dr. George Horowitz; nurse, Mrs. Myrtle Carpenter; head boys' counselor and assistant director, Frank Thompson; head girls' counselor, Miss Nancy Waugh. There are six additional girls' counselors and seven additional boys' counselors.

Besides the children from Burlington County there are eighty-four

from Mercer county, 106 in all.  
Program

Each day's program is planned and begins with the rising bell for the children at 7:15 a.m. and ends with every young camper in bed at 8:30 p.m. In the long sunny hours of the day they have had three generous meals, milk at 10 a.m. and 3 p.m., rest period from one to three, and such directed activities as swimming, crafts, dancing, drama, story telling and nature study.

Visiting hours are every other Sunday and parents and families are invited to visit the children from three to five o'clock on July 9th, 16th, 30th, and August 13th. Mr. Abel was asked whether he thought the children would all gain weight. "Oh, yes," he smiled, "they always do. But what is more important is that they learn good habits; habits of eating, sleeping, playing, resting, to live with throughout the year."

## CORPS NAMES OFFICERS

The recently formed American Legion Cadet Corps will parade with the firemen at the firemen's celebration to be held at Medford, Saturday, July 29th, under the leadership of Harry Groome, of the Legion Post.

The corps is composed of fifty boys of Palmyra and Riverton who are taking a real interest in their work and are very anxious to duplicate the success of the senior corps. At a recent meeting the following corps leaders were elected: Sergeant bugler, John Broemme; corporal bugler, Raymond Fichter; sergeant drummer, Harry Horner; corporal drummer, George Bishop.

Plans are underway for a card party to be held late this month. The proceeds will be used to obtain a drum major's uniform. More information in regard to the card party will be announced at a later date.

## FOR PRIVACY AND SHADE ADDING COZINESS TO THE PORCH AND HOME

## Plant Hardy Vines

"Most every day someone asks the name of the vine flowering now, bearing clusters of showy orange colored trumpet-shaped flowers. This is Bignonia or Trumpet Vine—just grand for shading the veranda or covering an arbor. Can be planted now. Price \$1.00 each. Other vines for present planting are Wisterias, Bittersweet, Anemone-flowered Clematis and others. All are in stock at the nursery.

## HENRY A. DREER

Building the Garden Beautiful since 1838

The Kudzu Vine, the fastest hardy vine in cultivation grows to a height of fifty feet in a season. Price 25c each.

## Air Conditioned...

Especially in weather such as we are experiencing this July, is the air conditioning in the Snover Funeral Home most appreciated.

The cool, comfortable interior of our funeral parlors is just one of the advantages offered by this modern establishment, and yet the expense is no greater than desired.

## Camp Trustees Meet

Burlington county's full quota of representatives on the board of Camp Oceanicquay Trust and the Matolionequay Girls' Camp Committee were present at a dinner at Oceanicquay Inn—dining room of the boys' Y.M.C.A. Camp, Medford, July 6, along with representatives from Monmouth, Gloucester and Camden counties and the staff members and boy and girls counselors of Oceanicquay and Matolionequay.

Mrs. Evelyn S. Smith, who directs Camp Matolionequay, and her counselors had arrived at their camp that afternoon. The Oceanicquay or counselors came in on Monday. A brief entertainment was provided by the Oceanicquay leaders, following which a joint meeting of the Oceanicquay Trust and the Matolionequay Committee left the counselors of both camps to enjoy an hour of entertainment and games, directed by Mrs. Smith.

Henry F. Stockwell, president of the Oceanicquay board chaired the meeting. Other Burlington County camp trustees are: Everett H. Haines, Medford; John W. Thacher, Moorestown; Secretary Guy C. Hendry, Mount Holly. Matolionequay committee members from Burlington county are: Mrs. Charles S. Beckwith, Pemberton, chairman, of the personnel committee; Miss Carolyn Gaunt, Jobstown, vice chairman of the women's committee responsible for the operation of the girls' camp; Mrs. S. Roger Oliver, Burlington.

A second joint meeting of the trustees and the women's committee will be held July 27, this time at Camp Matolionequay, where the men and women will eat with the campers before holding their meeting.

The executive committee of the county Y.M.C.A. board will meet at the Moorestown Community House, Monday evening, July 17. Plans for certain parts of the fall and winter program of the county Y.M.C.A. will be considered. President Benjamin J. Roberts presides at all sessions of the executive committee, which convenes at his call.

Y.M.C.A. Groups have received the welcome information that they will again have a Philadelphia baseball trip, the date being Tuesday, July 25. Secretary T. Paul Reader has made the necessary arrangements with the management of the Athletics. The usual hundreds of Y.M.C.A. group members are expected to be on hand again this year.

Secretary Guy C. Hendry is a member of a commission working on a new handbook for the use of Y.M.C.A. leaders, which the county secretaries of New Jersey want to have ready for use this fall.

## TELEVISION SHOWS TO FEATURE RCA OUTING

The first public television demonstration in South Jersey will be presented Friday night, July 14, before an estimated audience of 12,000 RCA Victor employees and their friends during the Company's fifth annual Employee Get-together at Clementon Lake Park.

Beginning at eight o'clock, a television camera and six home television receivers will be used to present a three-hour "vox pop" program as employees and their friends step before the camera to be televised. Special studio lighting facilities have been installed in the Skating Rink Building at the Park, where the demonstration will be held.

Using the same equipment which was recently installed in Philadelphia's Franklin Institute RCA television engineers will supervise informal programs similar to those that have drawn over a million people to the RCA exhibits at the New

## JERSEY CORN IS AVAILABLE NOW

That special delight of small boys and their dads—fresh sweet corn on the cob—is now appearing on local New Jersey markets, according to the New Jersey State Department of Agriculture.

Although small shipments of southern corn were offered previous to last week, most of these were improved varieties of field corn, quite different from the true "sugar" corn for which New Jersey is famous. An added advantage of the local offerings is that New Jersey sweet corn reaches the table of the consumer in less than 24 hours from the time it was harvested. This assures the ultimate freshness and quality to buyers.

Timely rains are given much of the credit for the uniformly high quality and good harvest of sweet corn this season. To date, farmers report the lightest infestation of corn-eating worms in several years, and kernels are well-filled, firm and succulent.

Heavy movement of sweet corn in Burlington county, one of the largest growing sections, began about July 4 and will continue through the month, according to John M. Fenton, supervisor of crops and markets information service in the Department of Agriculture.

Offerings from this area chiefly early varieties; mid-season and late varieties are expected to follow within a week from the vicinity of Hightstown and the market gardens of Bergen and Passaic counties. These later offerings will continue until frost. Current wholesale prices to the farmer range from 85 cents to \$1.25 a bushel on the New York market for white sweet corn and from \$1.25 to \$2 for yellow sweet corn. There are between 60 and 75 ears to the bushel.

"Helping to maintain New Jersey's rank as first over all states in the production of fresh market sweet corn, growers this year increased their acreages approximately 10 per cent, from a total of about 25,500 acres in 1938 to 28,000 acres for this year's crop, according to reporting estimates," Mr. Fenton stated.

Favored varieties for both white and yellow sweet corn are chiefly hybrids. These are becoming more and more popular because they have been bred from strains resistant to wilt, which is one of the farmer's most serious problems and is very difficult to solve with ordinary straight varieties of corn.

## WAIT

Probably the European war scare is not to be taken seriously—yet. None of those countries over there has tried to borrow money from us for quite a while.—Cleveland Plain Dealer.

Keeping wood well-painted prevents the exterior of a house weathering to tinder dryness and therefore becoming a fire hazard.

## York and San Francisco Fairs.

In addition to the historic demonstration which will bring thousands of people in the Camden area their first glimpse of the miracle of light-sound broadcasting, the Get-together program includes a gigantic fireworks display, a special circus high-wire act, and special arrangements for members of the RCA Victor Family to enjoy the Park's many rides and amusements. There will also be band concerts, prize drawings, boating and swimming.

R. R. Hitchens, athletic director of the RCA Victor Athletic Association, is in charge of program for the gala affair which was drawn up under the supervision of Elmer C. Morse, the company's personnel director.

## YACHT CLUB YARNS

BY NUTE AND MIKE

Your very, very conscientious scribes did a swell job of not reporting the "things and stuff" that happened on the fourth. They figured anyone interested would have seen them anyway, so Phooey to youse who didn't. Anyway during the week of the 4th, and the past week the activities of the R. Y. C. have carried on at a terrific pace. What with the usual races and all the special events and activities "cooked" up by the entertainment and regatta committees, one hardly knows what he's doing next. But enough of that.

## Series Ends

Last week saw the end of the summer series for the Duster fleet with results as follows: Bob Lippincott, 60 points; Howard Lippincott, 52 points; Ed Smith, 45 points; Bert Shoemaker, 39 points; Tom Coe, 36 points; Alan Ransom, 31 points; Bill Shoemaker, 23 points; and Brown, 16 points. And so we find Bob with the Howard Evans Perpetual trophy half won. Now it all depends on the second series. The Comets in the meantime have finished their elimination series to see which Comet sailor shall represent our club in the National Comet races at Oxford, Md., this year. And again "The Old Fox," Ed Merrill, garnered enough points to make himself the R. Y. C. representative for one more year. How 'bout bringing that championship back to Riverton again Merrill?

## Wednesday Races

As many already know, the fleets of the club run a "Wednesday night or evening series." These are more for "the love of it" than anything but as the spectators show much interest in his or her favorite class, the boys have gotten a lot of fun out of it also. The Comet class has several more races to run in their series the Dusters have completed their contest. Honors in this went as follows: Bob Lippincott, Howard Lippincott, Tom Coe, Bert Shoemaker, Alan Ransom, Ed Smith, Bill Shoemaker, Brown.

It has been noted that the Women's Auxiliary, Quote, in recent weeks can think up more darn stuff to do—even if the men do have to do all the tough work, Unquote. Author unknown.

Also what famous harbor committee was heard to say, "Too doggone many boats, with too much doggone chain." And that can explain how the popular sport of sailing has gained again this year. Speaking of gaining Cliff Loane, of Palmyra, has a Duster half built somewhere in his attic. Also we hear rumors about the Coe family building a new Duster.

## Saturday

Saturday my friends, appeared with wind aplenty and much to the regret of one Alan Ransom we hereby officially and most ceremoniously elect to the ranks of the Horizontally fleet a new and shiny member. Nice goin' Alan, couldn't 'av

## NEW 1939 CHEVROLET SEDAN TO BE GIVEN AT SACRED HEART CARNIVAL

Plans are now about complete for the annual carnival of the Sacred Heart parish which will be held this year on August 11th and 12th at the Knights of Columbus grounds at Broad street and Elm avenue.

Father Luther, assistant to Father Welsh, is directing the activities, and is bringing some entirely new ideas that will greatly interest those who attend.

Leo Wallace is general chairman, assisted by a large and capable committee. Meetings are being held each Monday evening at the school hall. All organizations of the parish are working together to make this an outstanding event.

It has been decided to award a new 1939 Chevrolet Sedan as the main prize, which will be on display in due time on the K. of C. grounds.

done better myself. But then the race carried on. With Bob Lippincott winning, Bill Shoemaker and Howard Lippincott fouling out, we found Tom Mooney second in T. Coe's boat. Mean while the Hunn Bros. did a good job of practically sinking Nute's craft and eventually hauling it ashore to bail it out. Bert Shoemaker managed to hold his boat down, and to come in third, while Ed Smith captured the fifth position.

The store will re-open on Friday, July 21, with a big special reopening sale full of top notch bargains. Watch the advertising columns of The New Era, next week for details.

## Know Your Government

## Declining School Enrollment

Since 1924 New Jersey's birth rate has declined rapidly. So rapidly, in fact, that the 1938 rate, 12.7 births per thousand population, was only 50 per cent of the 1924 rate, which was 25.5 per thousand.

This decline has, of course, affected the enrollment of our schools. Despite factors such as economic conditions and possible immigration from other states that might offset the declining birth rate, pupil enrollment began to fall off in 1933, and has been decreasing ever since.

A ten-year survey (1927-1937) made recently by the New Jersey Taxpayers Association, discloses that pupil enrollment in day schools dropped from 825,827 in 1933 to 779,713 in 1937, a decrease of 5.5 per cent. According to figures supplied by the State Commissioner of Education, 1938 witnessed a further decrease of 2.2 per cent, bringing the total enrollment down to 765,197 pupils. An even greater percentage of decrease occurred in the kindergarten which is the starting point of enrollment. The decrease there of 3.6 per cent, forecasts a decreasing enrollment for a number of years, and at a more rapid rate.

## Cost Increased

Although enrollment has been decreasing, the cost of education has soared. While the enrollment in day schools in 1938 was 17,516 less than in 1937, the expenditures for day schools that year increased \$5,417,245 over the year 1937. And in the ten-year period from 1927 to 1937

the value of school land, buildings and equipment increased more than \$100,000,000.

Since pupil enrollment is declining, and will continue to decline, taxpayers are concerned at the mounting cost of education. The report of the Commissioner of Education shows that the expenditures in counties and districts of the state in the school year 1937-38 reached a total of \$105,400,946. The report shows, too, that during that year teachers' salaries increased \$2,563,207; that the cost of textbooks increased \$88,104; that janitors' salaries increased \$37,585; that maintenance of the school plant increased \$588,212.

## Large Item

The cost of education is the largest single item in the cost of government within the state. It is the greatest factor in determining the tax rate. In 1938 the total local and state tax levy in New Jersey was approximately \$350,000,000. The grand total of educational costs, including such items as State Teachers' Colleges, Teachers' Pensions, the State Agricultural College, etc., is close to one-third of the total tax levy of the State.

## Appreciate Value

Naturally taxpayers appreciate the

value of our free educational system. They want their children to receive the right kind of training to make them good citizens—and to prepare them for their activities of later life, both civic and vocational. Although they want high standards of education, they also want the educational program kept within the bounds of their ability to pay for it. Regardless of the importance of education, it is not a sacred thing beyond criticism.

Education is a practical proposition and since it is a practical proposition, it should be conducted efficiently and economically. In any long-range plan to provide for education, officials must consider fully the effect of the declining birth rate and its corollary, the declining pupil enrollment. While supplying adequate facilities for educational purposes, expenditures must be based not upon whims, but upon actual needs.

## RESIDENT PHYSICIANS

Dr. Edward Platt and Dr. G. C. Nicastro have been appointed resident physicians at Zorbrugg Memorial Hospital by the Board of Trustees.

They succeed Dr. Joseph Newmeyer and Dr. Kirk R. Deibert,

whose terms as residents expired last Friday.

Dr. Platt, a graduate of Jefferson Medical School, served his internship at Cooper Hospital, Camden. He began his duties at Zorbrugg on Saturday.

Dr. Nicastro is a graduate of Temple Medical College and interned at Chester County Hospital, Westchester, Pa. He will arrive at the hospital this Saturday.

Dr. Newmeyer will be associated with Dr. Hammell P. Shipp in general practice in Delanco, and Dr. Deibert will open offices for general practice in Camden.

## NOT VERY MIQUE

## DEPT. OF WEIGHTS MEASURES REPORT

C. B. Fisher Shows Situation Well in Hand; Commends Clarence Mattis

C. B. Fisher, superintendent of the county department of weights and measures, submitted his annual report to the Burlington County Board of Freeholders last week. This is printed in full.

The department of weights and measures has pleasure in submitting to you a summary of its annual report to the state department, as required by law. First of all I wish to express my sincere appreciation for the kindness and consideration given me during my recent serious illness, and especially do I acknowledge my obligation to Clarence C. Mattis, my assistant, who was ceaseless in labor during the period, and so prosecuted the work that no lessening of efficiency was experienced in our county. I also give thanks for the aid given by the officials of the State Department.

I regret that our county was not represented at the annual conference of weights and measures officials under the auspices of the Bureau of Standards in Washington. Mr. Mattis was called to service on the Federal jury in Camden, and this prevented the privilege and his participation there which this body so kindly sanctioned.

Bootleg Coal Controlled  
The control of the illegal coal industry is now well and efficiently assured. Legislation has thrown about legitimate coal dealers such rigid protection laws that it is almost impossible for the old time coal bootlegger to do business in this state. It is true that much coal is still being brought by trucks directly from the Pennsylvania mines into our state, but this must be from legal mines, and this fact must now be shown by an accompanying certificate with each load. Arrests and prosecutions exceed in number those of last year. However, there seems to be an increase (continued on page 7)

## Work Started On Track Removal

Palmyra will soon see the last of the disused trolley tracks in that community as the work in tearing up the rails from the Borough line to Cinnaminson avenue was begun on Monday of this week.

Road crews of the county highway department are following in the wake of the rail pullers, excavating for the new pavement which will conform to the type already laid east of Cinnaminson avenue.

Eighteen county employees are engaged on the work at present and those in charge of the project estimate six weeks will be required before completion of the work.

The improvement will be greatly appreciated by residents in this section.

GOODWIN PRESIDENT  
At a special election of the Riverton Fire Company held on Tuesday night of this week, John Goodwin was elected president of that organization by a unanimous vote, there being no other nominations.

Mr. Goodwin, who has been a member of the company for many years and a member of the board of directors, succeeds the late Walter C. Wright.

TO CANVASS TOWN  
On Thursday and Friday nights of this week, the members of the Riverton Fire Company will conduct a house to house canvass to secure donations for the uniform fund.

A generous response on the part of local residents will be greatly appreciated.

## TRAP TO CATCH ASIATIC BEETLE

The green and white device hanging from a pole in the vacant lot adjoining the residence of Charles Sprekel, Cinnaminson street and Temple boulevard, is a light trap designed to catch the Asiatic beetle, the chocolate-colored pest that operates after dark on a wide variety of plant foliage.

The insect is strongly attracted to light and, hitting the baffle about the trap, is precipitated into the jar container below from which it cannot escape.

While the trap is successful in capturing a considerable number of the annoying insects, local residents need not feel relieved that the nuisance will be abated. The apparatus is not sufficiently efficient to reduce the population materially, although if a number of traps were operated, some permanent good might result.

## NEW COURSE AT PALMYRA HIGH

Social Scientific Curriculum Real Advance in Modern Education Program

A real attempt to revise high school courses of study, so that they can actually assist boys and girls to fit into the life of today was outlined by Supervising Principal Paul R. Jones, of Palmyra, in a talk to his fellow Rotarians last Thursday. In addition to the nine curricula now functioning in the local high school, Mr. Jones described a new department for next year, a social-scientific course, approved by the State Department of Public Instruction, and designed to train pupils for worthy citizenship in their communities. Copies of the latest standard curricula, and the 1938 report of the Palmyra Board of Education were passed out to those desiring them.

Real Advance  
Although the description by Mr. Jones of the various curricula now in operation at the Palmyra High School showed thoughtful, careful planning on the part of the administration and teachers, the proposed new course marked a real advance in secondary school technique. The Social-Scientific Course, designed for those who will not go to college or who are not interested in a business course will be tried out with fifty pupils next fall. Four units of work will serve as centers of interest for the various subjects of instruction. "The Home," "The Community," "The State," and "The Nation," one for each year of the high school course.

For instance, a study of the home would naturally include care of clothing, cooking, shop work, which emphasizes household repairs, and the exploration into the large field of safety devices and electrical equipment now a part of civilized family life.

Any study of the community would embrace the fire, police and other civic departments, the study of local taxes and taxing bodies, and the functioning of the local courts. Much the same set-up will be used for the examination of state and the industries will claim considerable attention. The fourth year's appraisal of the national government will stress the places where the individual actually is a part of governmental functioning as in taxation, social security, and the use of the ballot.

Full Credit Given  
The pupils enrolled in the Social-Scientific Course will be studied by the five or six teachers selected to give the instruction, and the effort made to find out from all possible sources, their interests and abilities. Full credit for a high school diploma (continued on page 16)

## PLAN SURVEY ON JAIL WORK HOUSE

Board of Freeholders to Act As Committee; Other County Business

At the meeting of the Burlington County Board of Freeholders held last Friday afternoon, LeRoy Church, board member, proposed a resolution that the director name a committee to confer with the judge, prosecutor and sheriff of the county in respect to the advisability of establishing a work house in the county for prisoners at the jail.

The question was passed by a unanimous vote and Director Palmer L. Adams named the entire board as the committee. He stated that the proposition had been tried out experimentally by having some of the prisoners work at the county farm.

All board members were in agreement that, if a work house is established, no regular labor will be displaced.

Dirt Road Fund  
On a resolution presented by Freeholder Clarence C. Price, the county treasurer, Frank A. Snover, was authorized to disburse the 1939 dirt road fund to the various municipalities. This was passed, but another related resolution had considerable bearing on the question.

This was due to the fact that the new county borough, Medford Lakes, requested its share of the appropriation. This application was authorized, subject, however, to the approval of the state auditor and state highway commission.

The check for Medford Lakes will be withheld until such permission is received by the board.

The effect of the new borough on the allotment to the various other municipalities is that each will receive the sum of \$1,282.05 instead of \$1,315.79 as anticipated. In the event that Medford Lakes is not given a share, a supplemental check of \$33.74 will be sent to each participating municipality in the county.

Welfare Home  
As usual, the Welfare Home entered into the discussion from several angles. Colonel Hugh A. Kelly presented a bill for \$4,993.85 for engineering and architectural services. Director Adams voted "no" on the payment, but the matter passed 4-1.

The Pelletia Construction Co. presented grievances concerning the non-payment of bill by the Harry Knecht Co., for work done by the general contractor, together with \$5,000 damages for delay caused by strikes for which it was alleged the plumbing contractor was responsible. Pelletia asked that further (continued on page 2)

## Twin Cities B. &amp; L. Names New Directors

At a meeting held on Monday night of this week officers and directors of the Twin Cities Building and Loan Association were named for the current year, with John H. Etris being elected to the office of president.

Other officers named at the meeting were: Edward E. Yerkes, vice president; E. Horace Houser, treasurer; Herbert J. Kemmerle, assistant treasurer and Howard B. Conover, secretary.

Three new directors were elected by the shareholders, these being Joseph F. Yearly, Joseph L. Stack and F. W. Metzger.

Other members of the board include Frank Betz, Dr. Charles S. Mills, Dr. P. Conner Hulse, Harry R. Williams and Dr. H. W. Bauer.

Paving of Highway, in Riverton, with bituminous concrete was completed this week.

## TERMS OF LOCAL OFFICERS EXPIRE

At the coming primary election in September, three municipal officials will be elected in Palmyra and a similar number in Riverton.

In Palmyra, the terms of Mayor John F. Ward and Councilmen Charles K. Mervine and C. Nevins Buchholz expire. In Riverton, the same situation exists in respect to Mayor H. McIlvaine Biddle and Councilmen J. W. Sylvester and Nathan Lane.

No petitions have been filed by prospective candidates, but it is generally understood that Mayor Ward will be out for re-election. None of the Riverton officials have made a statement as yet.

In Cinnaminson, the term of Herbert Dinges, member of the township committee also expires.

## DOCTORS DONATE TWENTY MILLION

Estimated Amount of Free Annual Services States Medical Society

It is estimated that New Jersey physicians will donate more than 20 million dollars worth of medical services in 1939 to persons unable to pay for these services. This will approximate almost \$4,000 worth of services per physician.

This estimate is contained in the final report of the survey of the need and supply of medical care conducted by the Medical Society of New Jersey and its component county medical societies during the last year. The estimate does not include the value of free maternity service, the figures for this category of service being too incomplete to permit their inclusion.

## Large Number Free

Seventeen per cent of the total number of visits made by a representative group of physicians during one week of October, 1938, were free visits. More than 5,100 physicians were asked to present a resume of their practice during this one week. 1,182 physicians returned questionnaires. These 1,182 doctors reported 16,070 free office and home calls for the week. They also reported 1,985 operative procedures performed during the week for which they received no payment.

From these figures an estimate was made of the amount of service given throughout the year by 4,630 (continued on page 3)

## LOCAL FIREMEN WILL BE AWAY

According to a report made on Monday, thirty fire companies have officially registered their acceptances to take part in the celebration of the 125th anniversary of the Union Fire Company at Medford on Saturday, July 29.

According to the rotating system in effect here, the Riverton Company will participate in the parade, while the Palmyra firemen will cover both communities in the event of a blaze.

These companies represent about 800 marchers, and will bring with them more than 40 pieces of modern fire apparatus. Eight women's organizations are listed, as well as at least four musical units.

Chairman Walter McClain and Secretary Harold Bunning announced that companies will be present from Morrisville, Pa.; Lawnside, Glendora, Crosswicks, National Park, Farmingdale, Riverside Park, Marlton, Oaklyn, Bristol, Pa., Delanco, Point Pleasant, New Egypt, Egg Harbor, Merchantville, Vincentown, Willow Grove, Pa., Parry, Lumberton, Erlton, Gloucester, Masonville, Gibbstown, Lucaston, Hainesport, Bordentown, Pennsauken, Haddonfield and Camden.

As a matter of fact, the Moorestown-Riverton road and Five Points are two such locations which, in the opinion of many, need a traffic control light more than Burlington. There is, however, little likelihood of any such work being done.

RYAN ON BOARD  
James B. Ryan was recently appointed a member of the Palmyra Board of Education to fill the vacancy caused by the resignation of Frank Snowden.

George B. Snyder, board member tendered his resignation on June 24. This vacancy has not been filled as yet.

## BUILDING WORK PICKS UP HERE

Riverton Building Inspector Reports Six Jobs; Dog Returns Good

At the meeting of the Riverton Borough Council held on Thursday night of last week, the building inspector, Daniel M. Clifton, reported that permits had been granted for six projects, the total estimated cost of which amounted to \$10,725.

The work is as follows: R. M. Hollingshead, Second street and Linden avenue, repairs to garage and den following recent fire, cost \$2,000, contractor C. T. Pippitt.

Dr. T. Bruce Dickson, Main street, repairs to residence following fire, \$1,025, contractor G. W. Shaner.

H. L. Randall, new two car garage, 709 Linden avenue, cost \$1,600, contractor Arnold Bowen.

New Residence  
Robert Finney, 306 Cinnaminson street, residence, cost \$4,700, contractor S. R. Maines.

Harry Groome, 617 Linden avenue, extensive interior work to dwelling, cost \$850, contractor C. C. Himes.

A. C. Gausler, Highway and Lipincott, new roof, cost \$500, contractor Edwin Fish.

## Dog Census

Mr. Clifton reported that excellent work had been done this year in registering dogs, the job being nearly 100 per cent perfect. He said that the report by Chief of Police William Gootee showed that there were 279 dogs in the borough. Two hundred and thirty-six owners have secured tags. Of the remainder, 18 are kennel canines, 11 are puppies, six were away and the other six died recently. This leaves only two to be accounted for and the owners of these have received a summons to appear before the borough recorder.

Other Business  
Among the other items of business disposed of at the session were the following:  
Mrs. Mary B. Sim, executive secretary (continued on page 11)

## Traffic Light Cost Is \$4,000

F. L. Brannin, Burlington County engineer, recently rendered a report to the Board of Freeholders concerning the cost of installing a traffic actuated light at the intersection of Route 25 with the main highway in the City of Burlington.

He stated that the light would cost \$4,000, half of which would be borne by the state. In addition, the yearly maintenance would amount to \$133. Mr. Brannin said that funds were not available for this work at the present time and recommended that the project be laid over until some future date. This was agreed to by a unanimous vote.

In addition, the engineer reported that there were 11 other locations of a similar nature throughout the county where, if a light were installed at Burlington, requests would probably be made for similar equipment.

As a matter of fact, the Moorestown-Riverton road and Five Points are two such locations which, in the opinion of many, need a traffic control light more than Burlington. There is, however, little likelihood of any such work being done.

RYAN ON BOARD  
James B. Ryan was recently appointed a member of the Palmyra Board of Education to fill the vacancy caused by the resignation of Frank Snowden.

George B. Snyder, board member tendered his resignation on June 24. This vacancy has not been filled as yet.

## Light Lends Enchantment to the Garden at Night

WHEN day is done, the charm and beauty of the garden need not disappear with the dusk. It may be recaptured in a fairyland effect by means of simple illumination.

Lighting the garden may become an enjoyable hobby. Fascinating effects may be created—a touch of moonlight, a shimmering emerald pool, a fine old tree silhouetted in every detail and a bed of flowers in colorful, daytime hue.

The secret of garden lighting is placement. There should be high lights and shadows with emphasis on a few selected points of beauty. It would be better not to try to illuminate the entire garden. Too much light or festoons of multicolored lights make a garden resemble a carnival and completely destroy the artistic effect.

When arranging lighting equipment, it is well to locate weather-

proof outlets at various points about the garden, making it possible to move the light source as various flowers and shrubs come into bloom. All equipment can be concealed or disguised.

Plenty of weather-proof extension cord, a number of lamps from 10 watts to 60 watts—each with a reflector, and a small portable floodlight will be needed. Small reflectors in the shape of birds or flowers set on sticks may be purchased for flower-bed lighting. They carry lamps of from 10 to 25 watts.

Here are a few suggestions for lighting arrangement. Light the garden wall or fence and the vines and shrubs will stand out in silhouette. Spotlight small statuary or the bird-bath in the garden to emphasize the lines of the object.

Lighted shrubs or trees bordering a pond make a silver-lake reflection.

A large tree in the garden should be lighted from the ground with a concealed floodlight carrying a 500 to 600 watt lamp.

Underwater lighting is very effective. Conceal a water-tight lighting unit below a ledge in the pool and let the light penetrate the water. Clever reflectors in the shape of lily pads, and frogs, are made to place in the water and conceal the source of illumination. There is also a large rock reflector for the pool's edge.

Colored light is often used to heighten the color of natural beauties. Pale green is considered the best color of lamp to use in lighting foliage. Daylight blue is used to show flowers in their true colors. Bright blue or purple lamps give the impression of depth and distance.

Colorless light thrown on a fountain will add sparkle to the water and colored light is also effective.</

JAMES E. WOLFE, Proprietor

PALMYRA, N. J.

### PLAN SURVEY ON JAIL WORK HOUSE

(continued from page 1)

payments to Knecht be withheld pending settlement.

The matter was ordered referred to the solicitor and architect.

The board discussed, in detail, specifications for furnishings at the Welfare Home, as presented by Harold B. Cooper, director of welfare.

The following departmental bills were approved and ordered paid, Messrs. Church and Stout voting in the negative:

Bridges, \$3,342.75; roads, \$25,416.75; public affairs, \$13,455.16; buildings, \$7,858.69; institutions and agencies, \$14,710.17; finance, \$1,620.29; a total of \$66,403.72.

### DOCTORS DONATE TWENTY MILLION

(continued from page 2)

physicians in active practice in New Jersey. To this estimate was added the value of services given to ward cases in 75 general hospitals of the state.

#### Breakdown

The estimate for the year is broken down as follows:

Estimated total free office and home calls by 4,630 physicians in one year, 3,342,560; estimated value at \$1.50 each, \$5,013,840.

Estimated number of free operative procedures performed in one year, 412,880; estimated value at \$25 each, \$10,322,000.

Estimated value of services given to ward cases in general hospitals of the state, \$4,040,000; a grand total of \$19,375,840.

The report states that "the attending physician or surgeon in our hospitals receives no pay for his work and responsibility for the care of ward cases. Many patients receiving this free service actually believe that the physician is being well paid."

#### Observations

Other observations set forth in the report include these:

"There is a feeling that hospital facilities for the average price patient are inadequate and should be increased by additional facilities in the form of moderately priced semi-private hospital beds."

Hospital insurance is favored by physicians as a solution of the hospital problem for the low income group.

Reports from rural areas do not indicate that general hospital facilities are inadequate in those areas.

There appears to be some lack of facilities for the care of the chronically ill.

Social service investigation relating to hospital facilities, clinic practice, and free private practice, is inadequate.

There appears to be some need for additional public funds for drugs and medical supplies for home care of the indigent.

Referring to the general adequacy of medical facilities in New Jersey the report states:

"Within the scope of any reasonable definition of the term (adequacy), the facilities and their distribution in this state are adequate. Lack of acceptance of these facilities is the only reason for any person in this state not receiving medical care."

#### Left to State

The Medical Society of New Jersey proposed no specific recommendations in this report stating that it preferred to leave recommendations to the New Jersey Health and Welfare Conference Committee appointed by Governor Moore to investigate the status of medical and health care in the state.

In a preliminary report of the national findings, the American Medical Association cited the report of the Medical Society of New Jersey as being particularly noteworthy. Its report read "Some state medical societies deserve special mention for the services which they rendered the medical profession of their own state and of the whole country in making such a summary. New Jersey may be offered as an outstanding example; its state report forms a large volume which covers every type of medical problem and lays the foundation for further study and for solutions where these are possible."

### MARRIED FIFTY YEARS

New Era Staff Photo

Mr. and Mrs. Jacob J. Vatter, of 603 Washington avenue, were guests at a surprise party last Wednesday evening in honor of their 50th wedding anniversary. The affair was held at the home of the Rev. Oliver W. Powers.

There were one hundred and twenty guests at the party which was in the form of a covered dish supper. A big pound cake, decorated with a bride and groom was one of the features of the evening.

Mr. and Mrs. Vatter were presented with a beautiful silk and linen dinner set by the group, and were the recipients of hundreds of cards and flowers.

They were married in 1889 at Lancaster, Pa., on July 17. Mrs. Vatter was Miss Elizabeth M. Allbach. The ceremony took place at her home and was performed by the Rev. F. Reed, Lutheran minister.

Mrs. M. P. Lloyd, a daughter, resides at Wynnewood, Pa.

The Vatters have resided in Palmyra for the past 16 years, prior to that time having lived in West Philadelphia. Mr. Vatter is a retired P.R.R. employee.

### RIVERTOWN CLUB NAMES OFFICERS

The Rivertown Ladies Club held a special meeting on Thursday evening, July 13th, at the home of Mrs. Gertrude Lynch, 421 Lippincott avenue, Riverton, which all members had been requested to attend for election of officers and other matters of importance.

The following officers were elected by ballot: President, Mrs. Gertrude Lynch; vice president, Mrs. George Carnie; secretary, Mrs. Lillian Whartnaby; treasurer, Mrs. Anna Davis.

Our club has had a successful year with the work in which we are interested. Our members wish to thank each and every one who helped us in any way. The club is still holding social card parties each Thursday afternoon. Mrs. George W. Carnie, of 106 Second street, will entertain this Thursday, July 20. —Publicity.

### WITHOUT TAG LICENSE, ETC.

Joseph Wise, Jr., of 226 North Ninth street, Camden, had a car, but little else in the way of necessary driving appurtenances when he was arrested in Riverton last Thursday evening by Officer John Robinson.

Wise was minus a driver's license, registration card, rear tag and rear light. Friends repaired the light, while the credentials were brought from his home. Wise having neglected to bother about carrying them.

In the absence of Recorder Frank Probsting, Wise was arraigned before Mayor H. McIlvaine Biddle. He pleaded guilty and was given a suspended sentence.

### MANY ATTEND VACATION CAMP

The Y.M.C.A. home vacation camp opened here on Tuesday for a month, under the directorship of Secretary T. Paul Reeder, of the county Y.M.C.A. staff. Three dozen boys are enrolled, ranging in age from 10 to 14.

Mr. Reeder conducted such a camp here last summer, which was the first time that this type of summer Y.M.C.A. program was introduced by Burlington county.

The boys who are enrolled are from Cinnaminson, Palmyra and Riverton. Richard M. Woodward is chairman of the committee of the local Y.M.C.A. board which is co-operating with the county Y.M.C.A. in this home camp.

The "Y" building is headquarters for many of the kinds of activities which go to make up the program. Moorestown's Community House pool is used for swimming, where there is instruction for non-swimmers and learners. Mr. Reeder also teaches life saving. Transportation is by bus.

Crafts, athletic leagues, hikes, overnight out-of-doors, special educational and pleasure trips, religious instruction and entertainments are being featured.

A yacht ride up the Delaware is scheduled for Thursday morning on Captain Lippincott's "Pythagorus." Next Tuesday the boys will see the

### BALL PLAYER IS INJURED HERE

Herbert Furreth, of Merchantville, sustained a possible fracture of the skull on Monday evening of this week, when he ran into the flagpole at Memorial Park.

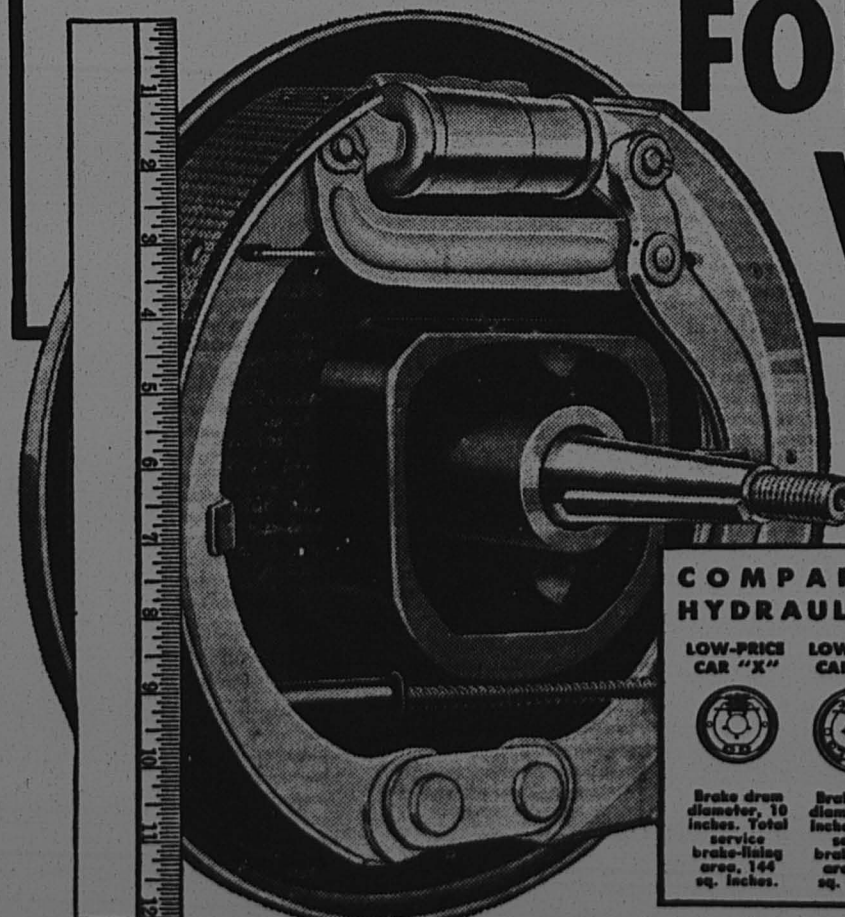

The accident occurred when Furreth was backing up to catch a fly ball that had been hit to him during practice before the game started. He was immediately taken to Dr. T. Bruce Dickson for treatment and his personal physician later ordered him removed to Cooper Hospital, where he was carried in the Palmyra ambulance.

### PROPERTY VALUATION LOWER IN COUNTY

Personal property valuations in Burlington county are \$7,160,208, as compared to \$7,286,502 for last year, a drop of \$126,294, according to an equalization table released by the State Tax Department on Friday. Real property valuations are \$51,103,580 as compared to \$51,613,216 for last year, a decrease of \$509,636. For the entire state, personal property assessments increased \$28,653, but real estate valuations dropped \$74,075,570.

Athletics play the Cleveland Indians.

Miss Estelle Billard, of the Presbyterian Hospital, Newark, is visiting her parents, Mr. and Mrs. Clayton G. Billard, of Horse avenue.

Mrs. Emma Bradley, of Morgan avenue, celebrated her 92nd birthday on Tuesday. She received a number of flowers, cards and gifts.

The Stinging Horn Class, of Epworth Church, will hold its regular meeting on Friday July 21, at Taylor's Cabin. Members will meet at 6:30 at the church. Bring your supper and 10c for cabin charges. Free Talk-Abouts.

Miss Margaret Coates, of Philadelphia, spent the weekend with Mr. and Mrs. Elwyn Coates, of Highland avenue.

Mrs. Albert Smith, of Broad street, spent Friday with her sister, Mrs. Milly Wood, of Philadelphia.

Mrs. Fanny Crowley, of Philadelphia, returned home Wednesday after spending some time with her sister, Mrs. Anna Rockhill, of Third street.

Mrs. William Engle and Miss Dorothy Staley, of Charles street, are registered at Gray Gables, Ocean City.

Mrs. Robert Galloway, of Cleveland avenue, left Tuesday for Niagara Falls where she will visit her daughter, Mrs. Hawkins.

Mrs. George Rivel and children, of Cleveland avenue, are spending the week at Ocean City.

Mrs. John Kerrigan and Misses Mary and Florence Kerrigan, of Edward Bachholz, of Charles street, are spending the week at Seaside Heights.

The many friends of Mrs. Ehringer, of West Sixth street, will be glad to know that she is improving nicely after her long illness.

Miss Kathryn Angerhoffer, of Lawrence, Pa., is spending the week with Miss Florence Henzler, of Charles street.

Dorothea Gosner, Dorothy Mohrfield, Carol Lenker and Peggy Haines, of Palmyra, are spending the week in Ocean City as guests of Ruth Haines, of Palmyra, who is spending the summer there.

Albert Mount and son, Albert 3rd, of Leocory avenue, are taking a tour of the Western States. The early part of this week word was received that they were visiting the Golden Gate Exposition.

Mr. and Mrs. William MacCorkle and daughter Margaret, of Florida, have been spending the past two weeks with Mr. MacCorkle's parents, of Broad street.

Mrs. Hayes Brady, of Washington avenue, and Dr. and Mrs. H. W. Bauer, of Maple avenue, are spending the month in Ocean City.

Mr. and Mrs. Harry Deemer and family, of Garfield avenue, have returned home from a visit to Niagara Falls and Canada.

Donald West, of Morgan avenue, is spending the week at Y.M.C.A. Camp Ockanickon, Medford.

## RIVERTON

Mr. and Mrs. Spencer L. Haines, of Linden avenue, were among those recently registered at the Chalfonte-Haddon Hall.

George Ginter, of the J. L. Lippincott Company, returned this week from a trip to Great Smoky Mountain National Park, North Carolina.

Dr. and Mrs. Howard Stackhouse and family, of Houston, Texas, are visiting Mrs. Stackhouse's father, H. E. Moyer, and Mr. and Mrs. Walter Moyer, of Fulton street.

Misses S. H. and B. H. Parry, of

## NEW 5c AND 10c STORE ADDITION

Pictured here is a part of the new building addition recently completed at the Palmyra 5c and 10c Store owned by James E. Wolfe, at 5 West Broad Street, Palmyra. The new section permits of an entire new layout, that increases counter space three times and gives a total of 2500 square feet of floor space. A new modern candy department is one of the features and in the new arrangement the Palmyra 5c and 10c Store is enabled to carry a complete line of 5c and 10c merchandise comparable to that of the larger city stores. The grand reopening sale starts tomorrow with a host of excellent values and two cash door prizes. See their advertisement in this issue for complete details.

805 Main street, were among those recently registered at the Chalfonte-Haddon Hall.

Mr. and Mrs. Paul Coddington, of Rochester, N. Y., are visiting Mr. Coddington's parents, Mr. and Mrs. J. M. Coddington, of Elm avenue.

Levan Charles Coddington returned home Monday from Fort Dix C.M.T.C. where he has been for two weeks.

Mr. and Mrs. Frank Zimmerman, Mrs. Charles Coddington and Mr. and Mrs. J. M. Coddington visited Fort Dix on Sunday to witness the review.

Miss Betty Sim, of Thomas avenue, is spending the week in Atlantic City as the guest of Miss Helen DeViney.

Mr. and Mrs. James Fitzgerald, of Mt. Holly, have purchased the property at Broad and Thomas avenue formerly owned by Mrs. Clifford Nesbitt.

Miss Clara Bishop, of Thomas avenue, spent Tuesday and Wednesday at Ocean City.

Mrs. Oscar Kahler, of Thomas avenue, has as her guest this week, Mrs. Mary Miller, of Norwood, Pa.

Miss Agnes Weber, of Linden avenue, and Miss Frances Kemmerle, of Garfield avenue, Palmyra, spent Saturday in Atlantic City.

Charles Lezenby, Jr., of Main street, was among the visitors from this section at Fort Dix on Sunday.

SACRED HEART CARNIVAL  
The new 1939 Chevrolet Town Sedan, that will be awarded at the Sacred Heart carnival is now on display at the Knights of Columbus grounds at Broad street and Elm avenue. It is the latest model with an 85 horse power motor, and is the major prize at this event.

A number of unique ideas imported from other cities will be introduced here, and no doubt will create lots of interest and amusement. The dates set are August 11th and 12th.

LANDRETH WINS  
IN LAST FRAME

Riverton Blows Three Run  
Lead in Third Setback  
of Season

For eight frames Riverton A. A. held the highly touted Landreth Seed nine on better than even terms last Saturday afternoon at Memorial Park. Ball games, however, last nine innings and the final stanza proved to be the downfall of the homesters, the Seedsmen pushing over five tallies to romp off with a 7-5 verdict.

The fracas was a tough one for the locals to lose, especially in view of the fact that Diffenbaugh, Riverton hurler, had rather effectively silenced the heavy artillery of the enemy until the time of the uprising.

The Bristol outfit, however, is a smart ball club and Manager Sims' charges proved that their lengthy string of victories this year has not been a matter of accident.

Carey Shaky  
Carey, the Landreth hurler got off to a shaky start and it appeared that he was not destined to linger long about the premises. Things turned out otherwise, but the homesters grabbed off a two run advantage in the first canto. Freeman drew a walk, Brewster singled and Sutters drove in the first run with his one-baser. Karitis was safe on a fielder's choice as Brewster was nipped at the plate.

With two away, Len Baker rifled a single to bring in the second marker. McDermott grounded out with runners on second and third.

Landreth got one back in the second by virtue of a single and triple, but the locals boosted their total by a pair in the same frame. Diff started with a double and Freeman's blow brought him in. Brewster stroled and Sutters' second hit scored the local second baseman.

Get Another  
Landreth came back in the third to score again, this marker being produced by Rockhill's double and a single by Costello. This was nullified by the home guard in the same stanza as Baker connected again, was sacrificed to second by McDermott and rallied as Diff rang the bell for the second time.

Up to this time, the game was more or less of a free-hitting affair, but things quieted down with great abruptness, Riverton getting only two more hits during the balance of the engagement and Landreth three until the fatal ninth.

Bunt Starts It  
Rockhill opened the last inning with a bunt that earned him an infield single. Van Lenton was safe as Freeman mugged up his roller and Costello reached first as Schirard erred on his tap to third. Thus, in three plays the entire picture was transformed and, by this time the visitors were in full cry.

A Texas Leaguer into right that no one could reach added to the discomfort of the locals and Baker, who relieved Diffenbaugh, slipped in attempting to field Heisler's bunt. Another single and a sacrifice fly completed the sortie, the enemy having coined five markers on three hits.

Baker was sent in to relieve Diff with the bases jammed and no one out, but the enemy could not be denied.

Country Club  
Notes

Conroy Wins  
Robert Conroy won the club championship on Saturday of last week, defeating the other finalist, H. F. Jones, Jr., 6 and 5 in the 36-hole match.

Conroy's card was 74-68, 142, while Jones had 75-73, 148 for the match.

Coward First  
C. H. Coward with a card of 64-23, 71 won the Kickers' Handicap Tournament last Saturday, J. J. Vilasack was second with 80-10, 72 and W. L. Rogers third with 91-13, 78.

Other participants were: R. C. Farrell, J. S. Coale, J. B. Tyler, H. M. Kieckhefer, W. W. Chalmers, J. S. Fair, Dr. R. D. Geary, H. Stuart, J. F. Jamison, H. N. Sheble, S. L. Gillam, Dr. P. M. Scott, A. P. Gregg, W. L. Blyler and D. H. Tyson.

The event slated for this Saturday is a match play vs. par tournament, with full handicap.

The order of things was as follows: Coles singled and Schuck followed his example. Small beat out a bunt for an infield hit. Bonatelli stroled. Then followed hits by Young, Kessler, Carpenter and Beddow. Three hits produced the final marker in the seventh, with Bonatelli, Young and Beddow being the perpetrators.

The restauranters, meanwhile, were doing little or nothing with the pitching of Kessler, Fortnum moundman. Rothbaum singled in the first. Phelan and Shaffer hit safely in the second. No damage was done. Rothbaum and Phelan hit in the fourth to produce the first marker and Williams clouted one for the circuit in the fifth with the sacks devoid of runners.

Later Hits  
Rothbaum got his third hit in the sixth and Shea poled out a one-baser in the seventh. Thus ended the assault staged by the losing aggregation.

Manager Beddow, of the Fortnum outfit, had a busy night in the left field sector, pulling down no fewer than seven long range projectiles that were directed his way.

Regan, third baseman for the German Kitchen played a flawless game, his handling of several hot grounders being a joy to behold.

Small, of Fortnum, also held down the hot corner for his team in admirable fashion.

FORTNUM WINS  
FROM KITCHENERS

V-8 Aggregation Scores Six  
Runs in One Frame  
Rally Thursday

A hustling Fortnum team, that played in championship form, took an 8-2 decision from the German Kitchen in a Memorial Park Softball League tilt played last Thursday evening.

One big inning, the second, provided the margin of victory for the Motor Boys, six big runs clattering over the rubber in this man-sized rally.

The winners tabbed a singleton in the initial stanza, but the deluge followed soon after.

How It Happened  
The order of things was as follows: Coles singled and Schuck followed his example. Small beat out a bunt for an infield hit. Bonatelli stroled. Then followed hits by Young, Kessler, Carpenter and Beddow. Three hits produced the final marker in the seventh, with Bonatelli, Young and Beddow being the perpetrators.

The restauranters, meanwhile, were doing little or nothing with the pitching of Kessler, Fortnum moundman. Rothbaum singled in the first. Phelan and Shaffer hit safely in the second. No damage was done. Rothbaum and Phelan hit in the fourth to produce the first marker and Williams clouted one for the circuit in the fifth with the sacks devoid of runners.

Later Hits  
Rothbaum got his third hit in the sixth and Shea poled out a one-baser in the seventh. Thus ended the assault staged by the losing aggregation.

Manager Beddow, of the Fortnum outfit, had a busy night in the left field sector, pulling down no fewer than seven long range projectiles that were directed his way.

CRUCIAL GAME  
THIS EVENING

Another crucial game in the Memorial Park Softball circuit is slated for this (Thursday) evening, when the Dawley Olds aggregation tangles with the German Kitchen.

When these two outfits met in the first half, the result was a win for the Kitchen boys, then known as the Athletics. This reverse was the only one sustained by the motor aggregation until they met Broadway later in the season.

Since the German Kitchen outfit has already one loss against their record they will put forth a desperate effort to bring home the verdict, realizing that a second reverse will practically put them out of the running for the second half title.

The affair will get under way at 6:45 and a large turnout of fans is expected.

PALMYRA LOSES  
TO BURLINGTON

Palmyra got only four hits off Miller, a Burlington pitcher, and dropped a 4-3 decision last Saturday afternoon. Altadonna went the route for the locals and allowed 11 safeties.

## Taxes

American industry last year paid more than twice as much in taxes as was paid in dividends to common stockholders.

Taxes paid by American industry for 1938 amounted to almost two-thirds of net earnings, before taxes and dividends.

These startling facts, showing the confiscatory nature of the tax burden imposed upon business and investors as a result of governmental extravagance and socialistic trend in national policies, are revealed in a survey just completed by American Federation of Investors. The study covers 163 typical American corporations, representing a cross-section of various lines of industry.

The results of this survey are of vital concern to business leaders, investors, and workers, who constitute an important element of the consuming public. Among salient facts brought out by this study are the following:

Total assets of these 163 corporations are 40 billion 379 million dollars.

More than 6½ million stockholders have invested all or a portion of their savings in the 650 million shares of these 163 companies. The average number of common shares owned by each of the 5 million 806 thousand common stockholders is 104. More than three-fourths of the common stockholders hold not more than 100 shares each.

The total number of employees of these 163 companies in 1938 averaged 2 million 854 thousand, or less than one-half the number of investors in common stock. The average number employed per company last year was 17,601, compared with an average of 21,141 per company in 1937.

Total taxes paid by these 163 companies in 1938 was 1 billion 643 dollars, equivalent to \$283 per common stockholder and to \$576 per employee.

These taxes amounted to an average of \$2.73 on each share of common stock, whereas the total amount paid by these 163 companies in dividends to the 5 million 806 thousand holders of common stock was equivalent to but \$1.33 for each share of common stock.

Taxes consumed 61.6 per cent of the net earnings (before taxes) of the 163 companies—almost two-thirds of such earnings. Nineteen of these companies reported a deficit before taxes, while the earnings of 15 others were wiped out by taxes, leaving net deficits for the year.

The statistical information upon which these facts are based is authentic, having been obtained by the Federation direct from the corporations listed. Its compilation was made possible through the cooperation of 163 corporations whose managements recognize the importance of a frank relationship between the corporation on the one hand and its investors, employees and the consuming public on the other hand.

For example, it is shown that, although United States Steel Corporation last year earned \$41,124,677 before payment of taxes, nothing was left for stockholders after all taxes had been paid. In fact, a deficit of \$7,717,454 was incurred. While 168,899 owners of common stock received nothing, the company was able to pay a dividend to preferred stockholders out of surplus accumulated in former years. Total taxes were equivalent to \$5.61 per share of common stock.

The steel industry as a whole is owned by 519,000 stockholders, about 40 per cent of whom are women. Last year taxes amounted to 96 million 600 thousand dollars, although earnings before taxes and dividends amounted to but 83 million 727 thousand dollars. After deduction of taxes the industry was "in the red" to the extent of 14 million 879 thousand dollars. In 1937 the steel industry paid out in taxes 64 per cent more than in the prosperous year of 1929, although steel output in 1937 was 10 per cent below the 1929 tonnage. Taxes paid by the steel industry in 1938 were equivalent to a year's wage for 83,000 workers. For every ton of steel produced last year, the industry paid \$5.18 in taxes, which was 78 per cent more per ton than in 1929. What is happening in the steel industry as a result of steadily-mounting taxes is taking place in practically every other industry to some degree.

Reasonable taxes are essential to the maintenance of good

Italy has made a deal with Brazil whereby she will furnish the Pan-American republic with three submarines, two motorships, machinery and war materials. Rather a good neighbor!

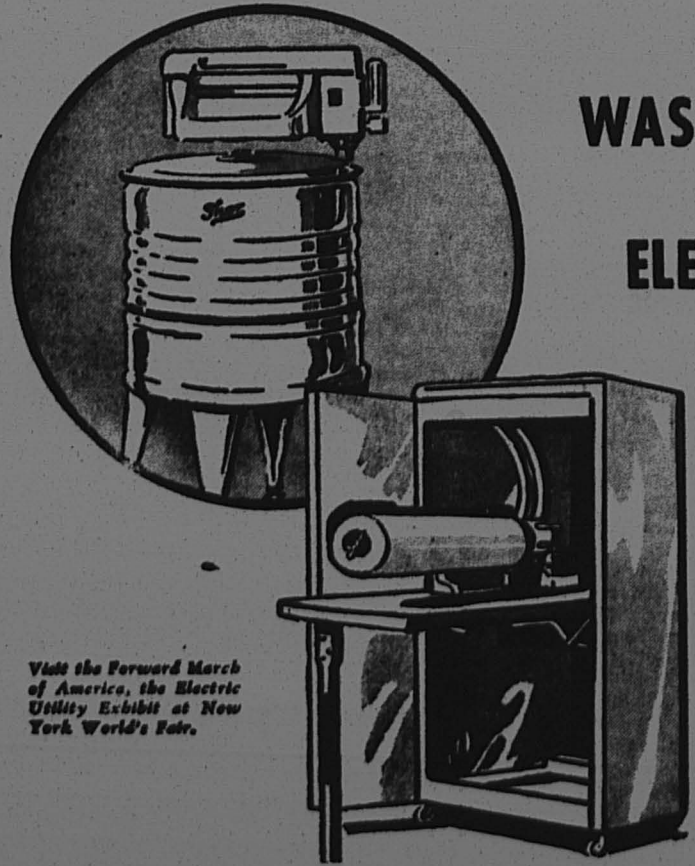

We are still waiting to hear of an airplane collision which occurred because one aviator failed to put out his hand in making a left-hand turn.

Max Eastman, author of "The Enjoyment of Laughter," lectured before a group of poets the other evening. If some of them want to enjoy laughter they might try reading their own poetry.

New Dealers at Washington say the third term boom is growing. And here is one crop which the Department of Agriculture won't try to plow under.

Some people still call it the "al-

government, and all good citizens willingly assume their just share of necessary taxes. However, when extravagance and political corruption waste the billions of dollars collected from the people in taxes and result in a steadily mounting debt that threatens the solvency of the Federal Government, there is cause for complaint on the part of those upon whom the burden falls most heavily. The millions of thrifty citizens whose savings form the backbone of industrial investment in this country are the ones most directly affected by these destructive taxes. Workers in industry also are vitally concerned, for unless business is permitted to operate on a basis that will permit a fair margin of profit the system of free enterprise will break down and there will be fewer jobs and lower wages. This would further increase the number of dependents and cut off their support by drying up the sources of taxation from which relief funds now come.

Visit the Forward March of America, the Electric Utility Exhibit at New York World's Fair.

THAT is the sensible, modern way to do laundry work. If the material is washable, any article will be safe in the Thor washer. Its washing method is gentle but thorough. This electric ironer has its own cabinet. The ironer is easy to adjust and comes down to a height that is comfortable for you. You do your work seated comfortably on a chair. All you have to do is to feed the articles to the ironer. Washer prices begin at \$49.95, ironers at \$20. Ironer illustrated is \$69.95 cash. Carrying charge extra.

PUBLIC SERVICE

mighty dollar" even it isn't worth more than fifty-nine cents.

We should by all means buy all the silver that other nations have to offer for twice what it is worth, just to keep the world safe for democracy, or something.

Mayor LaGuardia calls critics of the WPA "third rate politicians." The way to be a first rate politician is to get a federal job dealing out the taxpayers money from the inside.

We used to think that the deeper a hole was the harder for one to climb out. But according to the New Deal financial experts you can get out of a hole by digging yourself in deeper.

The honey bee and the little ant are always referred to as examples of activity and industry. But how about the hungry mosquito?

## ALL-TIME LOW BID OBTAINED

State Highway Commissioner E. Donald Sterner announced last week that he has obtained an all-time low bid for the purchase of lignin binder, another phase of his drive to secure the lowest possible

Commissioner Sterner also disclosed additional savings in the purchase of 42,700 gallons of bituminous materials by Burlington county. He approved the purchase from the Barrett Paving Company, of Trenton, after investigation revealed that the bid was \$244 less than last year.

"The automobilists' taxes go further," said Commissioner Sterner, "when we are able to purchase maintenance materials at greatly reduced prices. The money available for expenditure is insufficient for the maintenance work to be done and any savings we obtain enable us to carry on our program on a broader scale."

## SOUNDS BEARISH

Measured in terms of the price of wheat, a \$40,000,000,000 national debt, tax revolts, the 10,000,000 unemployed, vacant factories and reduced dividends, it looks now as if the New Deal sold the country short.—Red Wing, Minn., Republican.

"If you want to be downright exak," said Uncle Eben, "don't say 'common sense' when you mean 'good sense'. Good sense ain't common."

## WASH and IRON with ELECTRICITY

## Parry Puts Up Good Battle

Parry held Broadway on even terms for six innings in the game between these two contenders in the Memorial Park Softball League that took place on Monday night of this week, but the charges of Manager Bill Anderson rallied in the closing frames to earn an 8-4 verdict.

Broadway tallied once in the opening session, but Parry, unabashed by the might of the first half champs, came right back to cross the rubber three times. Broadway evened up the count in the fourth.

The runs that proved to be deciding were tabbed in the seventh as Burke and Manager Anderson singled. Both scored as Clay Weikman jostled out a timely double.

Parry collected seven hits, while Broadway got 17, being able to hit O'Neil, Parry pitcher, rather freely except in the pinches.

Score by innings: Broadway 100 200 212-8 Parry 300 000 001-4 Batteries — Broadway: Gonteski and Daley. Parry: O'Neil and Veit-einheimer. Umpires — Carhart and Alloway.

## ANDERSON WINS AWARD

Manager Bill Anderson, of the Broadway team, was the winner of a \$25 prize in a novelty contest staged by a Philadelphia newspaper. Anderson's picture was taken on Fourth of July when he was the color bearer for Riverton Fire Company's delegation in the parade. A portion of this picture was published in the paper several days later, along with a number of others. Upon identification of his picture, Mr. Anderson received the cash award.

## ABOUT THE COUNTY

Contributions to the baby incubator fund have reached a total of \$1,061.59, according to Mrs. Winfield S. Cronley, chairman of the health project committee of the Burlington County Council of Parent-Teacher Associations, sponsoring the drive.

The long-rumored removal of the Headquarters offices of Division B, of the State Department of Conservation and Development, from Mt. Holly to Tom's River will take place about August 1.

No reason is given for the change in the location of the headquarters other than for "reasons of administrative efficiency."

Said to have threatened to take the life of Mrs. Frank Storey, prominent Delanco riverbank resident, Harley Reed, 40 years old, was lodged in the county jail last week without bail on three charges. He is charged with larceny, atrocious assault and battery with intent to kill, and threat to kill.

Mount Holly's most modern industrial plant—the newly-organized Eagle Dyeing and Finishing Company's structure—will probably open late in August. The big plant, which is located in the rear of the Northampton Textile Co., property off West Washington street, is rapidly nearing completion. Workmen this week were putting on the roof of the building.

The Mechanics National Bank of Burlington celebrated its 100th anniversary on Saturday. Organized as the Mechanics Bank of Burlington, the institution opened for business on July 9, 1839. Its first president was William R. Allen. The bank was re-chartered in 1865 as the Mechanics National Bank of

## DEPT. OF WEIGHTS MEASURES REPORT

(continued from page 1)

of moral rectitude on the part of tradesmen. This may be due to the close scrutiny maintained by this department and its educational value.

## Many Complaints

Complaints received have been many, and these have received immediate attention. Some are founded upon flimsy evidence, others are late in coming to our attention. We still urge upon the consuming public the duty of personal care in assuring correct and honest delivery. The Consumers Guide, a Federal publication, urges the housekeeper "to be a good shopper, watch the scale while your purchase is being weighed, if fraud is detected quickly inform the Weights department."

All places of business are regularly and frequently visited by a representative of the department. It is no small task to see that every measuring device is in perfect order and capable of exact measurement.

## Licensing

The licensing of coal dealers, coal haulers and all trucks is being carefully attended to. Oil trucks now come under careful scrutiny. All deliveries are by meter, and these and all compartments are tested for accuracy by our own adequate equipment. The expenditure for this device has proven its wisdom.

The retirement upon pension of Harry S. Provost, of the State Department, has made necessary some changes in administration. Heretofore we have had his assistance in testing the equipment of drug and jewelry stores, while the supervision of this work has been handed down to Elliot Holton, another assistant to the state superintendent, the increase of the work devolving upon the state department necessitates the assumption of this responsibility solely by county and municipal officers as rapidly as possible. This will mean the acquiring by us of the facilities for this special work.

## Pension System

Chapter 397, Laws of 1938, providing a pension system for weights and measures officials. A deduction of 3 per cent from the salaries of such officials is set aside for the creation of a fund in order to establish their rights to the benefits that the Act provides for them. The statute is mandatory, and it is incumbent upon the governing bodies to set up the necessary machinery to abide by its provisions. We therefore urge this body to give immediate attention to this matter in justice to those who may be effected by the Act in years to come. At least the Act should receive your careful consideration and study.

## Summary

It is needless to remind this board that all money collected from solid fuel coal license fees and fines from violations of coal statutes go to the county treasurer, but that these moneys must be applied to the work of the Department of Weights and Measures for expenses or salaries. The question of allocating a part of this money to a pension fund is now being considered by the State Attorney General's office. Your solicitor has already, no doubt, received information concerning this

Rivington, with John C. Deacon as president.

Attest: HAROLD R. WEST, Municipal Clerk.

21-7-13 to 7-20-39

By virtue of a Writ of Fieri Facias to me directed, issued out of Court of Chancery of the State of New Jersey, I will sell at public sale on

THURSDAY, JULY 27, A.D., 1939, between the hours of 12 and 3 o'clock in

the afternoon of said day (to wit, 2 o'clock) Standard Time, at the Court House, Mount Holly, New Jersey:

ALL of the following tract or parcel of land and premises hereinafter particularly described, situate, lying and being in the Borough of Riverton, in the County of Burlington and the State of New Jersey:

REQUIRING at a point in the North-easterly line of Thomas Avenue distant ninety-seven feet Northwestwardly from the intersection of the Northwesterly line of Thomas Avenue with the Northwesterly line of Fourth Street, and in the dividing line between Lots Nos. 43 and 45, on a certain Town plot or plan of lots made by Edward Lippincott and on file as of record in the Clerk's Office of the County of Burlington, at Mount Holly, New Jersey, and extended thence Northwesterly along the Northwesterly line of Thomas Avenue sixty feet in front or width to a point in the dividing line between Lots Nos. 43 and 45, said plan, and thence extending Northwesterly by between parallel lines of that width or frontage, at right angles to Thomas Avenue, forty feet to the building line; then continuing on in the same direction a further distance of one hundred and twenty feet to the Southwesterly line of the same alley or passageway. Being Lot No. 45 on said Plan.

BEING the same land and premises which Samuel W. Collin and Beatrice F. Collin, his wife, by deed bearing date the ninth day of August, A.D., 1924, and of record in the office of the Clerk of Burlington County, at Mount Holly, New Jersey, in Book 637 of Deeds, page 222 &c., granted and conveyed unto the said Alphons R. Schmidt and Frances C. Schmidt, his wife, in fee.

Decree approximately \$4,670.46 besides interest, costs and fees.

Seized at the property of Frances C. Schmidt, widow, defendant, taken in execution at the suit of Home Owners' Loan Corporation, complainant; and by special order of the Court of Chancery, do hereby authorize F. GEORGE FURTH, Sheriff of the County of Burlington, late deceased, to bring in their claims against the estate of the said deceased, with each affidavit, on or before December 19, 1939, or they

will be barred of any action thereon against the said Estate.

## Legal Notices

AN ORDINANCE ENTITLED IMPROVEMENT OF CHURCH ROAD IN THE TOWNSHIP OF CINNAMINSON, FROM NEW JERSEY STATE HIGHWAY ROUTE 25 TO THE CINNAMINSON MOORESTOWN TOWNSHIP LINE.

That the Church Road from N. J. S. Highway Route 25 to the Cinnaminson-Moorestown Township Line in the Municipality of Cinnaminson, County of Burlington, be improved in accordance with plans and specifications which were forwarded to the New Jersey State Highway Commission.

That the sum of \$6000 (total estimated cost) or so much thereof as may be required, is hereby appropriated for such purpose.

That the issuance of bonds in the sum of \$6000 or so much thereof as may be required, be and is hereby authorized. (Amount of bonds equals difference between total cost and contributions).

That the order temporarily to finance the above undertaking, bond anticipation notes are hereby authorized under the provisions of Chapter 77, P. L. 1935, as amended, in an amount not to exceed the sum of \$6000. Said notes shall state in general terms the purpose for which they are issued, and shall be issued in such amounts and at such times as may be determined by resolution of the Governing Body. The form of note, rate of interest, which rate of interest shall not be in excess of six per centum per annum, and date of maturity shall also be determined by resolution.

The period of usefulness of said improvement is 10 years.

That the supplemental debt statement required by Chapter 77, P. L. 1935, as amended, has been made and filed as required and the gross debt is increased by the amount of the obligations authorized by this ordinance are within all debt limitations prescribed by said act.

Any and all moneys received from the State of New Jersey, and from contributions made by residents or property owners on account of said improvement, shall be applied to the reduction of the notes or bonds issued on account of the said improvement.

This ordinance shall take effect twenty (20) days after final publication after final passage.

NOTICE  
The foregoing ordinance was introduced at a special meeting of the Governing Body of the Municipality of Cinnaminson Township, Burlington County, held on July 5th, 1939, and will be considered for final reading and adoption at a meeting to be held at 7:30 o'clock on the 28th day of July, 1939.

MAURICE CONROW, President Officer.  
Attest: HAROLD R. WEST, Municipal Clerk.

## YACHT CLUB YARNS

BY NUTE  
AND  
MIKE

And once more the R. Y. C. goes  
a little nuts getting ready to "go to  
the Bay." Lippincott's even hauled  
the "Pythagoras" up on the beach  
and started pouring new propeller  
shaft bearings. In fact you'll find  
guys and gals all over the club re-  
pairing boats.

With the many regattas that are  
held annually in the Chesapeake,  
near at hand, the activities have con-  
tinued around the club, but not quite  
as furiously. The Duster fleet is  
well into its second series, with Bob  
Lippincott leading, and brother  
Howard not far behind. The comet  
fleet, is in the midst of a series  
competing for a trophy donated by  
"Champ" Ed Merrill. In this fleet  
we find Nick Shelby in the lead.

We hear that "Rub" Gladney has  
been practicing his landing lately.  
Mostly down wind with tide. Re-  
minds me of the Navy "Rubber."

## Card Party

Tuesday of this week brought us  
another Card Party sponsored by  
the Ladies Auxiliary. And Wednesday  
night brings us our monthly  
meeting. Next Saturday a good ma-  
jority of our fleet will attend the  
races at Gibson Island, and from  
there will proceed to Chestertown,  
Md., the week following.

By the way, who was it that used  
Lippi's "hard finish bottom paint, to  
paint the regatta committee's table.  
Nice goin' Gus! And at \$8.80 per  
gallon too.

Heard around the club: Quote: "We  
wonder when the boys will be  
able to play ping pong again in the  
Hen-house. Unquote.

And on the face of things, you'd  
think the way Ayres has that fast in  
and out of the "Little Bear" it was  
related to a "Jack-in-a-box."

To whom it may concern; Sir  
Dunk Knights one glorious and well  
famed, the ill fated "May-go" may  
be seen in the vicinity of Beverly  
Y. C. And guess what! It runneth  
And speaking of Sir Dunk! Just  
what does one do when one drops a  
ten spot overboard and fails to re-  
trieve it? Moan! As Dunk says,  
"The Catfish won't spend it brother."  
O! Well off to the races.

## GALENTO AT MILLION DOLLAR PIER JULY 23

Tony Galento, Italian's fearless  
freak, brings his energetic entertain-  
ing ability to Hamid's Million Dol-  
lar Pier in Atlantic City, for one  
day only, Sunday, July 23rd. Tony  
will appear in the vaudeville bill in  
the hippodrome with his manager  
Joe Jacobs as his historic sparring  
partner. Having fought none of his  
shy modesty, Tony vows to enter  
Clyde Beatty's cage of wild ani-  
mals and "make bums" out of fifty  
lions and tigers.

Lou Breese and his orchestra play  
for dancing beginning Sunday, with  
the alternate music of Eddy Mor-  
gan's orchestra and Reg Kehoe and  
his Marimba Queens. The feature  
photoplay is Phil Regan in "She  
Married a Cop" while Will Rogers  
and Harold Lloyd bring back silent  
picture memories in "Old Time  
Movies." Vaudeville for the week  
starting Sunday includes Emmett  
Oldfield and Eddie Ware, Sylvia and  
Christian, Roy Campbell's Ambassa-  
dors, Earl La Vere and Helen Ware  
and the Gae Foster Roxettes. The  
"Headless Woman" continues to  
confound the incredulous, while  
other attractions include free bat-  
ing, the fun house, aquariums and  
net hauls.

## TO REBUILD DAM

Of interest to several local resi-  
dents is the fact that reconstruction  
of the Smithville dam, to relieve low-  
water conditions on the upper Ran-  
cocas above the nearby town, seems  
imminent.

Preliminary action necessary to  
secure Federal grants has already  
been taken by the Eastampton  
Township Committee and final ap-  
proval of plans will be before the  
body on Monday night, July 24.

An ordinance, providing for re-  
construction of the dam with a  
\$3,000 "campers" fund, plus appro-

## WELL-ROUNDED CAMP PROGRAM

A well-rounded program for each  
of the 250 boys enjoying the sum-  
mer at Camp Ockanickon has been  
worked out this year and every  
youngster will return home in the  
fall with real achievement in each of  
several fields. The plan has been in-  
stituted under the direction of Di-  
rector C. A. Duran and is being  
carried on by a corps of 52 trained  
leaders and instructors. Success of  
the program is assured following  
the first week of camping as the  
boys take part with a will in the  
colorful ceremonies and interest pro-  
voking activities which unconscio-  
usly are training them in leadership  
and self-reliance.

## Choses Craft

One of the features of this year's  
program is, that it is not imposed  
upon the boy, but each youngster  
chooses for himself the sport and  
craft for which he is fitted and  
which interests him. The boys have  
a voice in governing their camp and  
one of the first rules made was that  
every boy must be active.

As an example of what the boys  
are doing, a copy of the activities  
layout in the camp was exhibited.  
In the first division is sports and  
the youngsters each choose one or  
more from a list which includes:  
Badminton, volley ball, camp la-  
crosse, basketball, table tennis, tum-  
bling, wrestling, boxing, touch foot-  
ball, horse shoes, marksmanship and  
archery.

Aquatic activities include: Swim-  
ming, diving, life saving, boating,  
casting, sailing, fishing and fly  
casting.

Crafts include woodcraft, archery  
tackle, metal craft, felt craft, wood-  
burning, plastics, leather, metal  
work, cork craft, and model build-  
ing.

Arts will feature drawing, photo-  
graphy, orchestra, bugling, singing  
and dramatics.

These subjects are all being thor-  
oughly taught under a skilled staff  
that knows not only how to do the  
things they teach, but arouse interest  
and dramatize the subject for the  
boys.

Besides Director Duran, staff  
members include Associate Director  
H. B. Sink; secretary, G. Dare; pro-  
gram director, R. E. Ramsey; guid-  
ance and leadership, C. Herchner;  
steward, C. Smith, doctor, W. Mar-  
shall; camp craft, G. Quensch, and  
water safety, C. Smith.

## CODDINGTON-KELLY

Announcement has been made of  
the marriage of Miss Marie Kelly,  
of Rochester, N. Y., and Paul Cod-  
dington, son of Mr. and Mrs. J. M.  
Coddington, of Elm avenue, on Sat-  
urday, July 15, at Rochester.  
Mr. and Mrs. Coddington will  
make their home in Rochester.

## BRIEF ITEMS from ABOUT TOWN

The wooden forms for the sec-  
ond section of the Palmyra High  
School stadium have been com-  
pleted.

As might be expected, consider-  
ing the excellent weather over the  
weekend, traffic over the Tacony-  
Palmyra bridge was especially heavy  
on Sunday evening, thousands of  
cars crossing the span during the  
evening.

Street scraping work, in prepa-  
ration of oil application, occupied  
the attention of Palmyra street em-  
ployees this week.

A considerable number of Pal-  
myra residents went to Newark on  
Monday to attend the hearing on  
the question of the Peditto liquor li-  
cense.

The disgusting odor from the glue  
plant across the river was especial-  
ly noticeable on two evenings of  
last week. Many local residents  
felt that, in this advanced era, such  
an establishment should not be al-  
lowed to do business in a thickly  
populated area. People residing  
near the plant must have to wear  
masks since, the smell, although di-  
luted by crossing the river, still has  
considerable volume when it reaches  
here.

## OBITUARIES

### JOSEPH W. GRIFFENBERG

Joseph W. Griffenberg died on  
Saturday at the home of his daugh-  
ter, Mrs. Albert Parker, of 803  
Washington avenue.

Funeral services were held on  
Tuesday at 2 p.m. from the Snover  
Funeral Home, the Rev. George  
Lockett officiating. Interment was  
made in Morgan cemetery.

Mr. Griffenberg is survived by  
three children, Edwin P. Griffen-  
berg, of Palmyra; Mrs. Mary Cham-  
bers, of Burlington, and Mrs. Park-  
er, with whom he made his home.

### MRS. ANNA L. REAGERS

Mrs. Anna L. Reagers, of 508  
West Broad street, died on Wednes-  
day, July 12, at the home of her  
daughter, Mrs. Lawrence Betty.  
She was the wife of the late Fred-

erick Reagers.  
Funeral services were held on  
Saturday at 2 p.m. from the Snover  
Funeral Home, the Rev. George  
Lockett officiating.  
Interment was made in Morgan  
Cemetery.

The deceased is survived by three  
daughters, Mrs. Betty, with whom  
she made her home, Mrs. Thelma  
Fortner, of Haddonfield, and Mrs.  
Ethel Chant, of Clementon.

### MRS. ANNIE B. OAKES

## Church Notices

## BETHANY EVANGELICAL LUTHERAN CHURCH

Rev. Oliver W. Powers, Pastor

On Sunday, the Seventh after Trinity, at Matins 8:45 a.m., the pastor, the Rev. Oliver W. Powers, will preach on the subject "Compassion on the Multitude." Mr. Charles King Wynkoop, student for the ministry, will read the service. At the chief service, 11:00 a.m., Mr. Wynkoop will preach on the topic, "The Christian is a Servant to God," and Pastor Powers will read the service.

Sunday School is at 10:00 a.m. The lesson in most departments will be "Asa: A Life of Trust."

## CHRISTIAN SCIENCE CHURCH

"Truth" is the subject of the lesson-lesson in all Churches of Christ. Scientist, on Sunday, July 23, The Golden Text is: "Holy Father, keep those whom thou hast given me, that they may be one, as we are... Sanctify them through thy truth: thy word is truth." (John 17:11, 17).

Among the citations which comprise the lesson-lesson is the following from the Bible: "O Lord, thou art my God; I will call thee. I will praise thy name; for thou hast done wonderful things; thy counsels of old are faithfulness and truth." (Isaiah 25:1).

The lesson-lesson also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The spiritual reality is the scientific fact in all things. The spiritual fact, repeated in the action of man and the whole universe, is harmonious and is the ideal of Truth. Spiritual facts are not inverted; the opposite discord, which bears no resemblance to spirituality, is not real. The only evidence of this inversion is obtained from suppositional error, which affords no proof of God, spirit or of the spiritual creation" (p. 207).

## NEW COURSE AT PALMYRA HIGH

(continued from page 1)

will be given by the State Department of Public Instruction for work done in the four units, and it is believed that along such lines lies the secondary school development of the future.

Another feature of Mr. Jones talk was his description of the large part played by practical teaching in the Palmyra High School. The Agricultural Department, for instance, completely built and equipped a greenhouse, and was aided on the job by the instruction of a carpenter, a plumber, and a concrete worker.

## Practice Work

Commercial secretarial students work one day in ten in one of the school offices, or operate the switchboard for the school telephone. When opportunity arises, pupils even take jobs outside the school for short periods. All such activities are in the fore-front of high school progress today, and show an alert, active staff in the Palmyra schools.

Among the several visitors present at the meeting were Mr. L. A. Evans, past president of the Mason-town, Pa. Rotary Club, near Pittsburgh. Mr. Engle and Dr. Lippincott, from Moorstown, joined with Messrs. Adams and Thomas of the local club to form a quartet, which sang with feeling and power.

President Eberly called attention to the meeting next week to be held at Browns Mills in Dr. Mills cabin, and thanked the club for the flowers sent him on the occasion of the recent opening of his enlarged store.

## CENTRAL BAPTIST CHURCH

Rev. George Lockett, B. D. Pastor

Services Sunday, July 23

Bible school, 10 a.m.—The school was glad to hear that Secretary James Weart has been able to arrange for a good job and could turn in a good attendance report notwithstanding.

Morning worship, 11:15 a.m.—The pastor will conclude the series of sermons for July this Sunday with "The Message from the Hills." The choir has arranged, during the summer months of July and August, to have a soloist for the morning worship. "Central Baptist" welcomes visitors to Riverton and Palmyra and invites them to worship with them. Come, and feel at home.

Twilight Service, 7:00 p.m.—Lively singing, good orchestral music, and always a good message. Rev. Albert J. Harke of the Moravian Church will deliver the message. The popularity of this service is growing but, come out, a seat will be provided.

## CALVARY PRESBYTERIAN

## WESTFIELD FRIENDS MEETING

Burlington Pike

Sunday Morning

10 o'clock—Meeting for worship.

## SHEA-HESTER

Christ Church, Riverton, was the scene of a very pretty wedding on Saturday afternoon when Dorothy Heeter, daughter of Mr. and Mrs. Albert Heeter, of 20 Rowland street, Palmyra, became the bride of Edward H. Shea, son of Mr. and Mrs. Harry E. Shea, of Riverton.

The bride, who was given in marriage by her father, wore a gown of white net and her long tulle veil was edged in lace. She carried a bouquet of white roses, lilies of the valley and gardenias.

Miss Helen Gould, of Trenton, was maid of honor and wore a gown of orchid net. Edna and Louise Heeter, sisters of the bride, and Mrs. James Reeves and Mrs. Donald Koerner served as bridesmaids. Two of the bridesmaids wore turquoise and two pink net and all the attendants carried old fashioned bouquets of roses.

Harry McKinney served as best man and ushers included Jack and Howard Shea, brothers of the groom and James Reeves and George Zillinger.

The Rev. Francis B. Downs, rector of the church, performed the ceremony and Mrs. Rachel Lord, of Palmyra, played the wedding march. A reception followed the ceremony at the home of the bride's

parents. Following a wedding trip, Mr. and Mrs. Shea will be at home after August 1 at Terrace avenue, Maple Shade.

## HEARING ADJOURNED

The hearing held at Newark on Monday of this week concerning the renewal of the liquor license of Placido Feditto was adjourned until Thursday, July 27, at 10 a.m., in Newark.

At the Monday session, which convened at 2 p.m., the testimony of a number of witnesses occupied the entire afternoon, with many more still to go on the stand.

The current program of the Burlington County Highway Department in respect to road closing started this week, with a large force of men engaged in this project.

## NO RELIEF TO STRIKERS

Concurring with the action of the New Jersey State Financial Assistance Commission in not affording relief to employees who are out on strike, the Riverton Borough Council recently passed a resolution to the effect that aid will not be granted to such strikers. The Riverton-Cinnaminson Welfare Association was advised of the action. Similar steps have been taken in Cinnaminson and Palmyra.

The current program of the Burlington County Highway Department in respect to road closing started this week, with a large force of men engaged in this project.

## A GARDEN GAY

Abloom 'til Frost . .

May be had by planting now our new Rustproof Snapdragons. Six varieties in white, scarlet, rose-pink, crimson, yellow and rich copper colors. Petunias in our famed fringed strain. Lantanas in pink, yellow, red and the weeping lilac-rose of surpassing loveliness. All at the special price of One Dollar a dozen.

## HENRY A. DREER

A good time now to sow perennial seed and with few exceptions have flowers next year.

## YOUR GARDEN

## WHAT TO DO THIS WEEK

By A. C. McKean  
Extension Service, N. J. College of Agriculture

It is harvest time for tulips.

These popular spring-flowering bulbs generally do better if dug each summer and replanted in the fall.

Tulips grow naturally in countries where the soil becomes very dry in the summer and the bulbs have a period of complete rest. In flower borders there is a possibility of heavy losses from rotting during the summer, although there are cases where tulips have persisted in well drained soils for years. It is safer to dig and replant each year, however. Digging may be started as soon as the foliage is yellow. It is better to finish this job soon, for tulip bulbs left in the ground will start new root growth in August. Take pains to dry the bulbs in the shade rather than in the sun to prevent burning and decay.

The same points about digging apply to narcissi and daffodils but these can be left in the soil from year to year except when the bulbs become too thick. As a rule, narcissi do better if dug, separated and replanted about every three years. Be sure to do this as soon as the foliage yellows and starts to ripen, for if you don't you may find it hard to locate the bulbs.

## Move Iris

This is the time to move German Irises; that is, the common bearded kinds of most gardens. By dividing the clumps that are too thick and resetting the plants, they will have an opportunity to make good strong bloom buds for next year.

In replanting this type of Iris, don't set the divisions too deep. Merely cover the rhizomes with soil or even leave them partly exposed. Soil is usually well to reduce the foliage about half. The divisions will not wilt, and new foliage is needed more than the old.

Oriental poppies are now ripening and it will soon be time to plant them. They propagate very easily from root cuttings. Make cuttings about an inch long, and be sure to plant them in the same position, for the top will produce shoots and the bottom roots. An easy way to do this is to make a straight cut at the top of the cutting and a sloping one at the bottom. Then you can always tell which are the top and the bottom ends. Plant these about an inch deep in rather light soil. About two years' growth will be required for these cuttings to make strong, blooming plants. However, this means of propagation is the only way to keep varieties of Oriental Poppies true.

The rest of the garden chores are the same as they have been from week to week. Keep weeds down; water when necessary but don't just sprinkle the top of the ground; watch out for insects and diseases by maintaining a regular spraying program.

## RACE VOTE COST

Costs in this county to conduct the special election on the horse racing amendment totaled approximately \$5,500, according to County Clerk Lawrence G. Mungin, who is preparing a bill to submit to the state for payment.

Expenses of the election included payment to election boards in the 63 districts of the county totaling \$3,720; rental of polling places, \$800; printing of ballots, \$283.22, and other minor items including mailing, cartage and miscellaneous supplies. The cost in this county was only about half that in other counties.

## NOT NEW DEALISH

The Scandinavians have solved the secret of neutrality, but a good many other nations wouldn't be interested in their recipe, as it involves an awful lot of minding one's own business.—Kansas City Star.

## A FEW FACTS ABOUT LEASES

By GEORGE F. GINTHER

Sec.-Treas., J. L. Lippincott Co.

What do you know about the lease you signed? Did you read all of the covenants before you signed it? Do you know what is required of the lessee by the lessor when the lessee desires to vacate? Who is the lessee and who is the lessor? Do you know the answers to the above questions? To that end I have prepared this article with the hope that someone will benefit by it and so avoid the unpleasant and embarrassing situations that arise from time to time.

A lease is a legal contract for possession and as such should be viewed with respect by both parties to the contract, as the agreements contained in a lease are binding on both parties, they are put there for their protection and comfort. The Lessee is the one hiring or the tenant and the lessor is the one letting or the landlord.

A well drawn lease should contain: 1—Date of possession. 2—The names of both parties. 3—The consideration or rental, stipulating when, where, and how it is to be paid. 4—Description and location of premises. 5—Agreements as to lessee and lessor responsibilities. 6—A vacating clause. 7—Provisions for a forfeiture of the term in case the lessee refuses to pay rent. 8—The use of the premises.

## Improvements

One thing that a lessee should always remember is that all improvements that become part of the premises or such as cannot be removed without injury to the same, become the property of the lessor, unless otherwise specified and the lessee can claim no allowance from the lessor, therefore, the safest procedure is to consult the lessor before making any alterations or additions. Another thing it is well to keep in mind is that a lessee cannot make repairs and deduct the cost from their rent, because that would be in effect compelling the lessor to do it.

As a tenant you are entitled to quiet enjoyment of the premises, all leases should be carefully conditioned to cover all reasonable possibilities, in the interest of both parties. The lessee is expected to take such care of the premises that others may not be injured by any neglect of any part of it.

The law recognizes in a lease only one christian name and the surname, if a party assumes a false name he is nevertheless responsible, the lessor deals with the man and not the name.

Why not get out your lease now, look it over carefully, and if there is any part of it you do not understand, take it to your Realtor and he will answer your questions in detail.

By dealing with a Realtor you can always be sure of a well drawn lease, because Realtors, as specialists in real estate matters, protect well the interests of both parties.

Policeman: I've had my eye on you for some time, Miss.

Girl: "Fancy that. And I thought you were arresting me for speeding."

## McHUGH WANTS MONEY

A rather peremptory demand for \$2,900 was received by the Burlington County Board of Freeholders last week from James M. Davis, Jr., attorney for John McHugh, who was recently awarded that sum by court, following a suit against the county.

The members of the board agreed that it was essential that the account be paid promptly, but the clerk was authorized to inquire from Commissioner Darby as to how the money should be set up in order to make payment.

The Freeholders will also confer with Mr. Davis concerning the matter.

## OR HOT AIR

According to estimates, the average adult consumes three pounds of water, four pounds of food and thirty-five pounds of air daily. And unless he is careful, about fifty pounds of propaganda.—The Christian Science Monitor.

A Full Length Feature

PRESTON FOSTER

A large number of local residents, attracted by the dense clouds of smoke, viewed the fire that caused extensive damage to a Pennsylvania foundry last Friday afternoon. The plant is located almost directly opposite the Riverton Yacht Club and upended flames and billowing black clouds for a considerable time.

W. L. Hendrickson is a consistent winner in the Comet class races at Island Heights this summer, his boat coming in first the last two weeks in succession.

The Riverton curb project reached the fourth street section the latter part of last week.

Local yards and gardens are showing the effect of the continued dry weather this summer.

A number of Palmyra residents are considering plans for another Old Home Day, but it is unlikely that the event will be held this year. The last affair of this nature took place a number of years ago.

A large contingent of Riverton firemen will journey to Medford on Saturday to take part in the elaborate program planned in that community. The Post Rodgers Junior Drum and Bugle Corps will provide the music for the local firemen.

The Riverton Ladies Club held their social-card party last Thursday afternoon. Prizes were awarded, everyone having an enjoyable afternoon. This week's social card party will be held at the home of Mrs. Anna Davis, 601 Arch street, Palmyra, Mrs. Davis being the hostess for this week.

#### POWERS GETS MONEY TO IMPROVE FORT DIX

Continuing his campaign for improvement of Fort Dix, Congressman D. Lane Powers announced this week he had obtained allocation of \$200,000 War Department funds for the Fort, and had induced Congress to approve purchase of 1750 acres to be added to the post.

The allocation of \$200,000 was made by the War Department from WPA funds, the Congressman explained. Under the law, only \$18,000 of that amount can be expended for material. The remaining \$181,200 will be spent for labor. The money will be used for minor new construction at Dix, for grading and leveling the parade grounds, for grading of streets, and for alterations and repairs to existing buildings.

The President signed his approval of the allocation last week. Powers asserted cooperation of the Quartermaster General's office in the War Department helped in obtaining the new funds.

Goes to Senate

Through a drive made by Powers at a recent session of the House, the measure HR-5735 was passed, which included authorization for the War Department to purchase 1750 additional acres for Fort Dix. The measure now goes to the Senate for its approval.

Powers announced he expected the bill would become law before the present Session of Congress ends.

"I am delighted with these additional improvements we are able to

#### SPECIAL SHORT TERM CAMPING

(continued from page 1)  
will take part in every one of the activities under the direction of the camp staff. They will have part in the Indian Village, the Dude Ranch, aquatic sports and craft work. Boys who have had swimming but have not passed their required tests, will thus have a chance to get their Red Cross certificates, perhaps they have been camping earlier in the season, but want a short vacation before school starts, and there are a lot of other reasons why the short term camping idea should be popular.

Registration  
The Y.M.C.A., which sponsor Camp Ockanickon, believe that two periods of short term camping will be a real service to parents, and the enthusiasm with which the announcement of that policy has been received, bears them out.

Registrations may be sent direct to Camp Ockanickon, Medford, New Jersey, or to any of the following Y.M.C.A. offices:  
Guy C. Hendry, Y.M.C.A. Mount Holly, N. J.  
William A. Rogers, Y.M.C.A., Haddonfield, N. J.  
Robert P. Bedell, Y.M.C.A., Woodbury, N. J.  
Leigh E. Cobb, Y.M.C.A., Freehold, N. J.  
Jules A. Kaiser, Y.M.C.A., Vineland, N. J.

#### NEW SIGNS

State Highway Commissioner E. Donald Sterner has extended his safety program, to include the erection of 48 electric direction signs on State routes in Burlington county.

The new signs are lettered on glass and are visible during the day and night. This improvement is of great advantage after dark as the names of municipalities are made more legible by the electric lights in the background, lessening the danger of accidents which occurred when drivers stopped suddenly at intersections to determine the direction they should take.

Commissioner Sterner said that 16 of the signs will be located at the Red Lion Traffic Circle, Southampton Township, the junction of Routes 35 and 40; 14 at the Marlton Traffic Circle, Evesham Township, the intersection of Routes 3-40 and S-41; and 18 at the Kings Highway Traffic Circle, in Chester Township, the intersections of Route 38, 41 and S-41.

The safety program of Commissioner Sterner was a vital factor in New Jersey earning the grand award in the 1938 National Traffic Safety Contest.

#### BIRTH

Mr. and Mrs. O. D. Simpson, of Hartford, Connecticut, are receiving congratulations on the birth of a daughter, Nancy Evelyn, on Monday, July 24, at Cooper Hospital. Mrs. Simpson was formerly Miss Sarah Kercher, of Palmyra.

get for Dix," Powers declared. "It is my purpose to make that Fort one of the foremost in the East and we are well along the road now to achievement of that ideal."

#### ACCEPTS POSITION

RICHARD HARTMAN

is the new county agent for Burlington county, and is a native of Illinois, who has completed two years of graduate work at Rutgers University and who holds a master's degree in dairy production. He began his duties on July 15th and expects to soon develop friendship among the farmers and other citizens of the county as he makes contacts in his work.

Mr. Hartman is married and has a three-months-old child. He and his family are residing on Bartram avenue, in Mount Holly.

#### BIRTH

Mr. and Mrs. Frank Conwell, of 501 Howard street, have announced the birth of a daughter, Francine Harriet, on Thursday, July 20, at Bellevue Hospital, Camden.

#### ROAD IMPROVEMENT

State Highway Commissioner E. Donald Sterner recently approved an agreement with Tabernacle township to include the improvement of Sandy Ridge Road in the State Highway Department-W.P.A. Work Relief Program.

The project will provide 2,450 man-weeks of employment, with materials to be purchased through a grant of State Aid and labor to be supplied by the W.P.A.

Gravel base, 20 feet wide, will be placed for three and two-tenths miles. The graded width of the road is 30 feet. The improvement will extend from Friendship Bogs to the monument erected in honor of Carranza, the Mexican good-will flier, who fell to his death near Chatsworth.

#### BATTLE ON FOR SOFTBALL TITLE

The Dawley Olds and the Hope Fire Company, of Burlington, will battle for the softball supremacy of Burlington county, on Friday night at Mill Dam Park, Mt. Holly, in the final round of the New Jersey State Softball Tournament held within the county. The game is called at 6:30 p.m. On the issue of this contest will depend which of the two teams will represent the county in the

State Finals which will probably be held at Camden on August 25-27. The Riverton and Burlington teams are the survivors of eight contesting teams representing Burlington, Mt. Holly, Riverton, Beverly and Maple Shade. The tournament is sponsored by the National Amateur Softball Association and the New Jersey Association of Recreational Executives. In Burlington county the tournament has been under the supervision of the Recreational Division of the Works Project Administration.

The Green Hornets, of Florence, will represent the county in the Women's Division of the Tournament.

#### YWCA NOTES

Entertainment was the highlight of this past week at the Y.W.C.A. Day Camp in New Lisbon. Miss Hannah Severn, librarian at the Moorestown Community House was a very welcome guest on Thursday morning with interesting stories.

Throughout the week campers also contributed to the program. Viola Nociti, of Delanco, Jean Vernon, of Riverside, and Mildred Ronan, of Lenola, provided songs. Dorothy Ann O'Kelley and Jeanne Aaronson, of Columbus, gave comic readings, and Joan Russ, of Delanco, presented a puppet show.

The home of Mr. John Buswell, at Ortleigh Beach, will be the scene for a counselors' party on Friday, July 28. The counselors will be the guests of the Day Camp Committee, of the county Y.W.C.A. for a beach supper and an evening of fun.

Mrs. Leslie Krusen and Mrs. Ralph Charlton, of Delanco, are working together on plans for a five and ten counter at the Y.W.C.A. International Supper to be held November 2 at the Moorestown Community House. These plans are not yet divulged, but they promise to make the event more pleasant for children, both young and old. Mrs. John W. Thacher, of Moorestown, is chairman of this event.

#### TUBERCULOSIS FATALITIES ON DECLINE

A decrease of almost 6,000 tuberculosis deaths for the entire country was announced by Dr. Kendall Emerson, managing director, National Tuberculosis Association. Based on data supplied by state health departments to Jessamine S. Whitney, statistician for the association, figures show that 63,332 persons died of tuberculosis in 1938 compared with 69,292 in 1937. A summary of this study has been supplied to the Burlington County Tuberculosis League by the Health Information Service of the New Jersey Tuberculosis League.

#### National Rate

The national death rate for each 100,000 population was 48.6 for 1938, a decrease of 9.3 per cent from the 1937 mortality rate of 53.5. Forty-three states, including New Jersey, reported fewer fatalities from the disease, while Florida, Georgia, Virginia, Montana and Wyoming showed a slight increase over the 1937 figures.

North Dakota, one of the states with a lower than average mortality rate, showed the greatest percentage decline between the two years, amounting to 25 per cent. Its rate dropped from 25.5 for 100,000 population to 19.0. Vermont, Nevada and Arizona were next in order, all registering decreases of more than 20 per cent in the ratio of deaths for each 100,000 of the population. New Jersey's rate dropped from 48.1 to 44.3, a decrease of 8 per cent.

#### N. J. Decline

Deaths from tuberculosis in New Jersey declined from 8091 in 1937 to 1962 in 1938. In New York State from 7,325 to 6,539; in Illinois from 3,995 to 3,686; in California from 4,428 to 4,033 and in Pennsylvania from 4,906 to 4,348.

"A growing appreciation on the part of the general practitioner of the importance of finding people in the early stages of the disease and the prompt segregation of all those infected have done much to bring about the decline in mortality figures," Dr. Emerson said.

#### Toll of 150,000

"Forty years ago tuberculosis was taking a yearly toll of more than 150,000 lives," Dr. Emerson continued, "and it remains without question one of the most expensive of the ills which beset mankind. Tuberculosis still leads all diseases as a cause of death in the United States in the age group from 15 to 45. In this group, many heads of families. Because treatment is prolonged, the economic burden of caring for the affected families devolves often upon the community." Dr. Emerson pointed out that

under construction at Wilmette, Ill. A model is on exhibit at 1508 Chestnut street, Philadelphia.

there were only 90,000 sanatorium and hospital beds for the care of the tuberculous in the United States in 1938. Under the proposed National Health Act, providing of federal grants-in-aid to states, additional beds could be made available. This would help greatly in the drive toward the eradication of tuberculosis.

#### DOG CATCHER ACTIVE

The Palmyra dog catcher continues to ply his unenviable trade with unabated vigor during the hot summer days, his haul on Monday of this week being three canines. Local citizens are reminded of the fact that all dogs running at large are subject to being picked up, whether licensed or not. The price to bail Rover out of the Palmyra puppy bastle is \$3.00 with no discount or reduction as a number of dog owners have learned to their sorrow.

It is reported that a certain Great Dane proved to much of a task for the Riverside man who does the nabbing and was turned loose as being too great a liability.

#### CAN CUT DOWN SICKNESS COST

"The people of Burlington county could cut down the cost and suffering caused by sickness by getting a thorough physical examination once a year," Dr. C. A. Munro, president of the Burlington County Medical Society, made the above statement in answer to a question put to him by a representative of the Burlington County Tuberculosis League. "Most illnesses don't strike suddenly," Dr. Munro continued, "A person often loses ground over a period of months. But he waits until he really feels sick before he consults a doctor. Then it's no longer a case of preventing a long

siege of sickness; the patient either has to go to the hospital, or stay in bed at home, with loss of work, bills, and the additional expense for necessary medicines and medical and nursing care."

"Nearly everybody knows that tuberculosis can be recognized early with the aid of tuberculin tests, x-rays and sputum examinations. But they don't seem to realize that the same thing is true with many other diseases. Doctors today have the benefit of many scientific procedures to aid them in diagnosis. With the help of modern laboratories and scientific equipment, the doctor can spot an illness when it is just beginning. With proper care, treatment and diet the patient can often avoid the illness altogether."

#### Many Physicians

There are close to a hundred licensed physicians in Burlington County alone. With the use of available laboratories, hospitals and clinics it is possible for every citizen to have a health check-up annually. During the summer months is an excellent time to consult your doctor for routine examinations. During that time of year the doctors are less rushed and have more time to devote to the patient than they do in the winter and spring when there are the usual seasonal illnesses, for example, pneumonia, grippe and measles.

"Of the seven leading causes of death in Burlington county in 1938," Dr. Munro concluded, "at least six could be reduced considerably with periodic and early medical attention. These six are heart diseases, cancer and other malignant tumors, cerebral hemorrhage, kidney conditions, pneumonia and tuberculosis. Even the seventh one, violent deaths, might be reduced because people in the best of health are less likely to have or cause accidents."

New Jersey was the only State with three cities among a list of 10 with a population of 50,000 or over which had the lowest cancer death rates in 1937.

**BROILED** suppers are speedy and successful. They are easily prepared and every homemaker agrees that broiling is one of the coolest methods of cooking. Ideal for summer weather.

#### Here is the Best Way to Broil

1. Preheat the broiler and broiling pan for six minutes with the range door closed.  
2. Place meat on broiling rack so that top of meat is one inch from tip of flame. Broil three to six minutes, longer if desired. When meat is brown, turn and broil three to five minutes. Leave door of broiling compartment closed during broiling.

#### Planked Mackerel

Clean and split a three pound mackerel. Place skin down on an oiled plank. Sprinkle with salt and pepper. Brush over with melted but-

ter. Broil thirty to thirty-five minutes in the bottom of the broiling compartment. Remove from broiler and garnish with duchess potatoes; return to broiler and broil until potatoes are brown. Garnish with baked tomatoes, sliced cucumber, parsley and lemon slices. Serves six.

#### Keep Cool in the Kitchen...

Wipe skillet or porterhouse steak one to one and a half inches thick with damp cloth. Pre-heat broiling compartment and pan six minutes at broiling temperature. Place steak on rack so that surface of meat is about one inch from top of the flame. For medium steak broil about seven minutes on first side. Turn and broil about five minutes on second side.

#### Broiled Steak

Use your usual biscuit recipe. Add one-half cup grated cheese to dry ingredients and cut in with shortening. Bake the biscuits in the oven while the meat is broiling.

#### Cheese Biscuits

Use your usual biscuit recipe. Add one-half cup grated cheese to dry ingredients and cut in with shortening. Bake the biscuits in the oven while the meat is broiling.

## New Farm Bill

One bit of legislation which went over recently without much difficulty, although it called for greater expenditures than last year, was the new farm bill. The measure called for an appropriation of nearly \$1,000,000,000 as against special appropriations for farm aid of "only" \$875,000,000 the year before.

The reason the bill went through with so little difficulty is that everybody wants to do something for the farmers. It is realized that, in spite of the growth of our great manufacturing cities, agriculture remains our basic industry—that the entire country cannot be prosperous for long unless the farmers are prosperous.

The trouble is that no golden rule for making the farmers prosperous by legislation has yet been discovered. The one adopted by the New Deal administration is certainly not one, conceding that such a rule is possible.

After costly experiments in destroying crops and curtailing acreage the New Dealers have talked a great deal about farm parity in prices. Such a thing is of course desirable. But it is becoming evident that the expenditure of billions of dollars in an effort to gain farm parity has not worked under New Deal guidance. The farmers do not have price parity now.

It would seem evident therefore that something is called for other than crop destruction and New Deal efforts to restore parity. We like to recall the five years before the World War as normal.

The price of wheat was considerably higher then than now and the farmer's dollar would buy more in finished products. In those days there was no acreage curtailment and no federal applied farm parity plan. Perhaps something different is needed now—a few consistent doses of old-fashioned American economy.

## No Common Cause

It is not likely many Americans will approve any step by their government to make "common cause" with the British and French over any broad question of Far Eastern policy. The American people want no part of European balance-of-power politics, or world balance-of-power politics. Thus they will see no possibility of making common cause with any European power as against Japan, simply because such a step might be to enlist this country's strength in support of policies its people would not knowingly support. It might lead to a settlement which, though difficult for this country alone to reject, could either exceed or fall short of American ideas of international law and justice. But the American people, we feel, will not approve of any step by this country that is not taken strictly in its own right and in pursuit exclusively of its own publicly avowed policy.

## NOTHING NEW

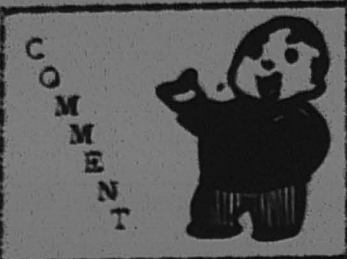

A blind man was arrested for driving an automobile in Peoria, Ill. Out here in California we have grown used to it.—Los Angeles Times.

A golfer who was reported dead turned up last week in Florida. This is not the first golfer, of course, who has looked more dead than alive.—Rochester Democrat and Chronicle.

No man makes a good driver of an automobile until he has had plenty of experience riding the water wagon.

Right here in Erie there is a man who says himself that he can not start working until he starts sweating, and that when he starts sweating it makes him too weak to work.—Erie Record.

Use The New Era Want-Ad Column as a medium for exchange, sale, buy or rent—Just Phone 712. Only ten cents per line each insertion.

A household expert says that the modern kitchen should be made as cheerful a place as possible. How about a smiling red faced cook looking into the oven on a hot July afternoon and finding the pie burning?

Attorney General Murphy is said to favor giving the prisoners at Alcatraz a change so they might receive rigorous treatment. Might he transferring them to the Walcott Asylum for awhile.

They used to tell us to watch our pennies and our dollars would take care of themselves. Now we watch our pennies and the tax collector takes care of our dollars.

A man used to wait a month or so for his wagon train to the west, and now he craves it he makes one section of a revolving door.—Exchange.

Jeanette MacDonald, of movie fame, got away from wearing arches. The average girl would not consider arches anything to be sneezed at.—Leavenworth Times.

One of our much married men says this may be the "land of the free and the home of the brave" but he can't even get away to go to lodge on Saturday night.

For our money, the prize for the most pitiful query of the year should go to the correspondent who inquires if it is necessary to put a stamp on letters containing income tax payments.—Cincinnati Enquirer.

## ONE MONTH AFTER...

JUNE BRIDES are July homemakers. Orange blossoms, bridal bouquet, shower of rice—all have been filed away among the precious memories of the occasion. Little Mrs. Bride has settled down to her job of creating a home for her husband, of offering him the sort of meals and comfort which his mother has always provided.

It's not an easy job, this running a home. But we know one way to help the June bride save money on the food bill and prepare the kind of tempting meals which she longs to do. Buy her an Electrolux gas refrigerator on the deferred payment plan or for cash and let it be her helper. Low operating cost, silent freezing principle, and all the conveniences which scientific refrigeration can bring are built-in features of the Electrolux. We invite you to visit our nearest showroom today and pick the model to suit your needs.

HEAT WATER AUTOMATICALLY BY GAS; WASH DISHES ELECTRICALLY

## ABOUT THE COUNTY

New York State ended its fiscal year with a deficit of \$20,000,000, which, under the New Deal book-keeping system, practically balances its budget.—New York Sun.

## BUSINESS

After dropping along aimlessly for months, the stock market last week gave financial observers reason for cheer. They were encouraged by the "growing volume as stocks broke out of their rut on the upside."

This is a technical way of saying that the majority of investors (it is estimated there are 26,000,000) throughout the nation view the immediate business prospectus hopefully.

Disturbed by war scares and plodding economic business, few persons are willing to hazard a guess, dictated by money as to the direction of trade and industry. Those who owned stocks couldn't make up their minds to sell, while those with cash couldn't decide to buy.

As a result, transactions in stocks have been comparatively small and prices drawn lay-by-lay in a most showed little deviation from a straight line. Last week's action demonstrated that for the moment at least the decision of major investors had been resolved in favor of retaining stocks rather than cash a vacation that arises when the stage is being set for a broad spruik in business.

Due to loss in revenue occasioned by resignation of members, the Field Club found itself unable to pay its mortgage interest and taxes, and as a result, the mortgage is being foreclosed. In these proceedings the property will be offered for public sale, and unless the Field Club is able to buy the property in its competition with outside buyers, the property will be lost as the golf and tennis center of Moorestown.

## FRUIT GROWERS TO MEET ON SUSSEX FARM JULY 27

Sussex County will be the locale of this year's summer fruit meeting of the New Jersey Horticultural Society to be held Thursday, July 27. Prof. A. J. Farley, secretary of the Society, announced this week.

In addition to a business meeting, fruit growers from all parts of the state will inspect two Sussex County farms and will be given an opportunity to talk over crop prospects and problems of insect and disease control, marketing and soil management with representatives of the State Department of Agriculture.

That man is happy whom nothing makes less strong than he is: he keeps to the heights, leaning upon none but himself; for one who sustains himself by any group may fall.—Seneca.

## YOUR GARDEN

## WHAT TO DO THIS WEEK

By A. C. McLean  
Extension Service, N. J. College of Agriculture

One of the chores on the gardeners' schedule for this week is staking herbaceous perennials, dahlias and other tall plants. Although strong breezes are always welcome at this season of the year, hard ones are apt to blow plants over. Tying plants in flower borders while they are straight is much easier than trying to restore them later. Various kinds of stakes may be used for this purpose. The light green ones made of bamboo which florists use and practically all seedsmen handle are quite cheap and fairly satisfactory, although they only last one season. Wire stakes are more expensive, but last longer.

It is time, too, to start diabudding dahlias. This may be done at the same time they are tied. Tall gladioli should also be tied up, for the weight of heavy flower stems often causes them to blow over easily.

## Pansy Seed

Very soon pansy seed may be sown in the open in order to have strong plants for blooming next spring. These may be sown in an outdoor seedbed, but it is well to have some way to furnish shade until the seedlings are up. Even in a frame, they do better if shade is provided. Burlap and muslin are very good for shade screens, or paper may be used—anything that keeps the ground shaded and the moisture at the surface is all that is needed. Be careful to remove the shading material as soon as the seeds start germinating. Even if lath screen is used—and it is highly recommended—the seedbed should also be covered with paper or burlap until germination starts.

Pansy seeds are rather small, so merely cover them with soil when planting. They germinate quickly if kept moist. A word of caution—don't plant all your pansy seed at one time, for it will not germinate well if the soil temperature is much above 75 degrees. If there is a very warm spell, replanting may be necessary.

Forget-me-nots and the English Daisies may also be planted, and even Canterbury-bells provided you keep them growing rapidly. Started now, all will bloom quite satisfactorily next year. Now is also a good time to sow delphinium seed, if it is ripe. Either buy fresh seed or plant seed of your own choice delphiniums. It is best to sow seed of delphinium in a coldframe where the young plant can be protected over winter and not transplanted until spring.

## POWERS OBTAINS MORE FUNDS FOR FORT DIX

One hundred thousand dollars of additional War Department-W.P.A. funds have been obtained for Fort Dix, according to announcement on Tuesday from Congressman D. Lane Powers.

The Congressman asserted the funds would be used for general repair and alterations to existing buildings at the fort.

This sum, Powers explained, is in addition to the allocation of \$200,000 he obtained for the fort last week. All the money comes from WPA funds which have been allotted to the War Department to disburse.

"We are still trying for even greater allocations for the fort," Powers, of Burlington and Mercer counties, asserted. "During the past two years we have been able to get hundreds of thousands of dollars for Dix, and it is my hope that the total allocations for the fort this year will at least equal those of the fiscal year 1939."

Powers was instrumental last week in having the House pass a measure which included authority for the War Department to purchase additional land for the fort.

## COUNTY ROAD WORK, GOOD TUNA CATCH REPORTED HERE

State Highway Commissioner E. Donald Sterner today approved a formal agreement with Delran Township to include the improvement of streets in Bridgeboro in the State Highway Department-W.P.A. Work Relief Program.

The project will provide 692 man-weeks of employment with materials to be purchased with a grant of State Aid and labor to be supplied through the W.P.A.

Gravel base will be laid on Mulberry, Ferry, Chestnut, Union, Division, Clay and Rancocas streets for a total distance of six-tenths of a mile. The gravel base will be laid at a width of 28 feet and the grading will be 50 feet wide.

Commissioner Sterner also approved an application of Pemberton Township for \$3,600 in State funds for the improvement of New Lisbon-Magnolia Road. The project will provide 64 man-weeks of employment. Gravel will be spread 20 feet wide for two and four-tenths miles and with two gravel shoulders, five feet wide, the graded width will be 30 feet.

Chester Township was authorized to include in one project the bituminous surface treatment of North Forked Landing Road and Coles avenue. The surface will vary from 20 to 30 feet in width, for one and one-tenths miles at an estimated cost of \$2,000. The improvement will provide six man-weeks of employment.

## ETRIS DISPLAYS 1940 PHILCO

The new 1940 Philco radio, built to receive television sound, is now on display at the John H. Etris Hardware Store, 17 West Broad street, Palmyra.

The new sets, which are very moderately priced, need no installation, no wires of any kind on your roof or around your room. They can be plugged in anywhere and are immediately ready to play.

Three vital new features are contained in the 1940 model: a new loop aerial, the sensational new lokitube and the triple power television tube.

Together they give a complete system of super reception, pure clear tone even in noisy locations with tremendous power.

Demonstrations of the new radio have evoked great enthusiasm. Mr. Etris is the exclusive dealer for Philco radios in Palmyra.

## Legal Notices

BURLINGTON COUNTY ORPHANS' COURT

In the matter of the Estate of Laura B. Davis, deceased.

On Petition for Decree of Inventory, Return and Distribution of the Estate of Laura B. Davis, deceased, notice is hereby given by the said C. Kenneth Davis, Administrator as aforesaid, to the creditors of the said estate of Laura B. Davis, deceased, to present their claims and demands against the said estate within six months from the 30th day of March 1939, or they will be forever barred from prosecuting or recovering the same.

C. KENNETH DAVIS, Administrator, 633 Thomas Avenue, Riverton, New Jersey.

Dated: May 1st, 1939.  
6-140-7-27-39

## FIRST IN RACE

**DR. S. EMLER STOKES**  
who recently made the following statement:  
To My Fellow Citizens  
of Burlington County:  
Just three years ago this July I announced my candidacy as a member of the Assembly from Burlington county. Each year since then you have seen fit to elect me as your representative in our State Legislature, and I appreciate this confidence which you have placed in me.

Inasmuch as there will soon be a vacancy in our Senate due to the resignation of Senator Powell, I have been urged by many of my fellow citizens, and also by many of our Senators, to offer my services again as your representative in the New Jersey Senate.

Most of you know my record during these past three years in the Assembly. I have endeavored to give faithful service, not missing more than one session of the Legislature in any one year. I have given much thought to the solution of many vexing problems of government, and I have welcomed discussion and advice on pending legislation from my fellow citizens who have desired to talk these matters over with me. With these three years of experience in our legislature, I am again offering my services as your representative in the Senate. I am well aware of the responsibilities attached to this important office, and will attempt to fill it to the best of my ability.

I am seeking no political leadership. My only interest is that of good government, and I want to assure my fellow citizens that I will at all times welcome advice and help or the problems that come before us.

Good government begins in our local municipalities and counties, and I sincerely hope that this year the Republican party will unite to present a strong ticket of which we can all be proud.

partisan, fact-finding research promoted by organized taxpayers. The well intentioned citizen who, as an individual, tries to get the answers soon finds the job an impossible one, because government is a huge and highly complicated business.

New Jersey's taxpayers' associations, a network of local organizations working in conjunction with the State Taxpayers Association, have learned how to get the facts about their local and state government, and have learned what steps to take toward getting adequate returns for their tax dollars. They have learned to project themselves into the activities of their government, to work cooperatively with public officials, and to insist upon policies that insure to the benefit of the general public.

## Intricate Phases

Through standing committees the local associations analyze the intricate phases of governmental activity and gain first-hand knowledge of local public affairs. A brief sketch of the character and duties of these committees gives an idea of the scope and significance of their work.

Two committees of especial importance are the local budget and school budget committees. Their duty is to study budgetary affairs, and arrange with budget officials to sit with them at preliminary discussions of the budget. By injecting the taxpayers viewpoint into the early proceedings, much can be accomplished by the time the proposed budget is presented for public hearing and adoption.

Specific information is made available to the budget committees by the work of the committees assigned to the various municipal departments. The Fire and Police Committee, for example, is required to investigate the local fire and police

organizations, to determine the present situation, then to compare their findings with information concerning those two departments in other communities of similar character and population.

## School Costs

Similarly the Education Committee can acquire pertinent information about educational costs by an examination of the records of past years as to capital investment in school buildings, etc., supervision, teaching, staff, enrollment curricula, total cost of operation, per capita cost, per pupil cost, total debt, per capita debt, per pupil debt, etc., as compared to the most recent information available on the same items. In like manner a special committee studies the situation regarding streets and roads, and still another studies conditions in the various departments of health and sanitation. Present conditions and probable future needs are analyzed in order to determine the most effective and economical methods of maintaining efficiency at a reasonable cost.

Coordinating the activities and surveys of the local associations, the New Jersey Taxpayers Association conducts its activities on a state-wide front. The Association scrutinizes closely the effects of state legislation upon local and state taxes, keeps the local units informed, about state-wide affairs that react upon local affairs, guides the local associations in their work, and maintains an energetic and continuous campaign for economy and efficiency in both local and state government.

Young man: "Will you marry me?"  
Heiress: "No, I'm afraid not."  
Young man: "O, come on, be a support."—Exchange.

## Cooling Drinks for Sweltering Days....

SUMMER drinks may be pretty as well as refreshing. Colored ice cubes that are attractive in drinks may be made by freezing, in the trays of the automatic refrigerator, water that is tinted with vegetable coloring. A cherry or a sprig of mint may be frozen in the ice cubes.

**Canadian Grenadier**  
(Individual Portion)  
2 large tbsp. vanilla ice cream  
Gingerale  
Place the ice cream in a tall glass. Fill with ice cold gingerale. Garnish top with red cherry. Orange or lemon ice may be substituted for the ice cream.

**Fruit Punch**  
1 pt. grated pineapple  
2 lbs. sugar  
3 cups boiling water  
1 pint hot tea  
1 pt. strawberry juice  
3 lemons  
6 oranges  
7 qts. cold water

Cook pineapple, sugar and boiling water together fifteen minutes, add tea and strain. When cold add fruit juice and cold water, adding ice a short time before serving. Marshmallows or candied cherries, strawberries or mint leaves may be used as garnish. This recipe makes about ten quarts.

To vary this recipe, substitute other fruit juices for the strawberry juice or leave out entirely. When the fruit juice is omitted, a good sprig of fresh mint leaves crushed adds flavor and changes the drink entirely.

The answers to these questions can be secured only through non-

**Grape Gingerale**  
1 bunch fresh mint  
2 cups water  
5 lemons (juice)  
1/2 cup sugar  
1 qt. gingerale

Shake a bunch of mint under faucet, remove leaves, reserving tips of spray for garnish and put leaves with lemon juice, sugar and water. Let stand thirty minutes. Strain, add grape juice and gingerale. Pour over ice cubes and serve in glasses with mint leaves and slices of lemon for garnish.

**Coffee Ice Cream Punch**  
1 qt. coffee, regular strength  
1/2 cup heavy cream  
1/2 pts. chocolate ice cream  
1/2 tsp. almond flavoring  
Nutmeg

Chill coffee. Place one-half chocolate ice cream in punch bowl and add coffee. Blend until cream is partially melted. Whip cream; add flavoring. Place whipped cream and remainder of ice cream over top of mixture. Sprinkle whipped cream with nutmeg. Serves twelve.

**Fruit Iced Tea**  
3 oranges  
3 lemons  
1 cup water  
1 pt. strong tea  
1 cup sugar  
Infusion

Grind oranges and lemons in food chopper. Make a syrup of the sugar and water. Make tea; combine syrup and pulp. Strain tea into mixture. Dilute with ice water. Serve with plenty of ice cubes.

RYTEX STATIONERY. \$1.00

## Church Notices

## BETHANY EVANGELICAL LUTHERAN CHURCH

Rev. Oliver W. Powers, Pastor  
At Matins, 8:45 a.m. on Sunday  
Mr. Charles King Wynkoop will  
preach from the Epistle lesson for  
the Day. The pastor, the Rev.  
Oliver W. Powers, will read the  
service. At the Chief Service, 11:00  
a.m. Mr. Powers will preach on  
the subject "By Their Fruits," and  
Mr. Wynkoop will read the service.  
Sunday Church School meets at  
10:00 a.m. The lesson in most de-  
partments for Sunday will be  
"Jehosaphat: A Life of Confidence."

## CALVARY PRESBYTERIAN

Rev. Charles T. Bates, B. D., Pastor  
Church school, 9:45 a.m.  
Morning worship, 11:00 a.m.  
At the morning worship next Sun-  
day, July 30, the Rev. William W.  
Owen, pastor of the Reformed  
Church, of Harlingen, N. J., will  
occupy the pulpit.  
All those in the community who  
have no regular church home are  
cordially invited to enter into the  
worship and fellowship of Calvary  
Church.

## CHRISTIAN SCIENCE CHURCH

"Love" is the subject of the les-  
son-sermon in all Churches of  
Christ, Scientist, on Sunday, July 30.  
The Golden Text is: "Keep your-  
selves in the love of God, looking  
for the mercy of our Lord Jesus  
Christ unto eternal life." (Jude 1:21).  
Among the citations which com-  
prise the lesson-sermon is the fol-  
lowing from the Bible: "Beloved,  
let us love one another: for love is  
of God; and every one that loveth  
is born of God, and knoweth God.  
He that loveth not knoweth not  
God; for God is love." (I John  
4:7, 8).  
The lesson-sermon also includes  
the following passage from the Chris-  
tian Science textbook, "Science and  
Health with Key to the Scriptures"  
by Mary Baker Eddy: "With one  
Father, even God, the whole family  
of man would be brethren; one with  
one Mind and that God, or good, the  
brotherhood of man would consist  
of Love and Truth, and have unity  
of Principle and spiritual power  
which constitute divine Science" (p. 469).

## W.C.T.U. BROADCAST

The National Woman's Christian  
Temperance Union, through its  
radio department, of which Mrs.  
Helen Hewitt Green is National di-  
rector, will present Mrs. Marguerite  
Harmon Bro over the air on Sat-  
urday, July 29, at 12:15 Eastern Day-  
light Saving Time, Columbia Broad-  
casting Company, on the subject  
"Women Leaders in the World of  
Tomorrow."

Mrs. Bro's broadcast is one of a  
series, keyed to the theme of the  
New York World's Fair and entitled  
"Women in the World of Tomor-  
row," which is being featured by the  
Columbia Broadcasting System on its  
network each Saturday at 12:15  
o'clock.

The Women's National Radio  
Committee, whose annual awards  
for outstanding programs have been  
so widely publicized, is sponsoring  
the series: the participants are na-  
tional women's organizations with a  
membership aggregating many mil-  
lions.

Mrs. Bro is the wife of president  
Albin C. Bro, of Frances Shimer  
Junior College, at Mount Carroll,  
Illinois, and the mother of four chil-  
dren. In addition to her family in-  
terests, she is a lecturer and writer  
of national reputation.

## WESTFIELD FRIENDS

MEETING  
Burlington Pike  
Sunday Morning  
10 o'clock—Meeting for worship.

## CHRISTIAN SCIENCE CHURCH

First Church of Christ, Scientist  
Thomas Ave. and Seventh St.  
Riverton, N. J.  
Sunday School, 11 a.m.  
Sunday Services, 11 a.m.  
Wednesday, 8:00 p.m.  
Reading Room in Church Building  
Thomas Ave. and Seventh St., Riv-  
erton, open Tuesday and Friday, 2:30  
to 4:30.

## PALMYRA

## EPWORTH LEAGUE

Twenty of our members enjoyed a picnic held at Clementon Lake Park last Friday evening. More fine socials are now being planned for the future.  
Saturday, two of our readers are leaving for Pennington Institute for a week. The delegates are Maud Wells and Eleanor Gamble.  
All young people of high school age are welcome to join us at our weekly meetings held on Thursday at 7 p.m. at the Methodist Church. This week our speaker is "Buck" Mallory.

## GROVE MEETING

Another meeting will be held in the Municipal Grove in Palmyra, Thursday night, July 27th, at 7:30 p.m.  
The meetings are under the di-  
rection of "Contender" for the Faith," who are evangelistic and home missionary workers.

The subject of the message will be "God's Word versus The Judges," or an answer to Russellism.  
There will be special music and all are invited regardless of denom-  
ination.

## EPWORTH M. E. CHURCH

Rev. W. A. Boyd, Pastor  
The Rev. W. A. Boyd will be in the pulpit this Sunday morning and preach at eleven o'clock. Grace Bil-  
lard, soprano, will be the soloist.  
This evening at 7 o'clock the Rev. W. A. Boyd will preach in the Grove Service and the choir will furnish the music. "What Do You See?" is the very interesting subject to be considered by Mr. Boyd.

## MODEL BAHAI HOUSE

## OF WORSHIP IN PHILA.

A model of the Baha'i House of Worship, which is now under construction in Wilmette, Ill., was placed on display at 1508 Chestnut street, Philadelphia, on July 1 and will remain on exhibit until July 14.

This model and several others like it have been prepared to meet the increasing demand for a more accurate conception of this unusual structure in its final appearance.  
Produced by the Earley Studios of Rosslyn, Va., contractors for the exterior ornamentation of the build-  
ing, the model required several months of the working time of a sculptor to complete. One-ninety-sixth the size of the original, the model is 23 inches high and 27 inches wide.

The Baha'i House of Worship, the original of the model, is unique in design, construction and religious concept. Inspired by the world embracing principles of the Baha'i Faith, the late Louis Bourgeois, architect and designer, incorporated into a structure of living beauty the Baha'i ideals of universal peace, the unity of religions and the oneness of mankind.

The huge dome is the fifth largest in the world and is self-supporting. The decorative material which is being used for the exterior ornamentation is a combination of quartz crystals and cement, which is poured into hand-made moulds. When hardened this material is more durable than stone.

The building will be completed on the outside in 1944, the end of the first Baha'i century.

Similar models are now on display at the World's Fairs of both New York and San Francisco. Have also been displayed at the Canadian National Exposition at Toronto, Cornell University, Ithaca, New York, and during the International Youth Conference at Vassar College, also many other cities in libraries and stores.

## WARNED ABOUT ROAD DETOURS

The motorist who is accustomed to pick up a map and select their route for their annual vacation may be in for trouble this year, unless he "checks before he starts," the Keystone Automobile Club warns.

Thousands of road projects are under way in the United States, according to Trevor B. Mathews, Manager of the Camden division of the club, and in many cases long and tedious detours may be avoided by proper routing. "The red lines of arterial highways look very pretty on the map," he added, "but they may prove a delusion and a snare to the motorist who did not have the forethought to inquire into the actual road conditions before starting on his trip."

"Unpleasant or even dangerous experiences can be avoided if motorists take the precaution to check the routes they propose to use."

## Delays

"Very frequently the delays incident to tedious driving in construction areas warrant the use of alternate routes wherever available. For this reason, we strongly urge drivers to check on construction and detour information. Motorists who rely on maps alone may find their trips beset by inconvenience, if not actual hardship, but when maps are used in conjunction with adequate road data, there is no reason why difficulties should be encountered."

"Because of the constantly changing road condition picture the club advises motorists to seek advice from its touring counselors just before they intend to travel. Week-old information is apt to prove disappointing, except in cases where the road program is not subject to change in the interim, a fact which may be determined at the time inquiry is made."

Health Question: What are some suggestions for keeping cool during hot weather?

## Doc Says:

1. Wear clothing that is light both in color and weight. Light colors reflect the sun's rays; dark colors absorb them.
2. Field workers and others exposed to the hot sun should wear hats with broad brims.
3. Drink plenty of water. More water is required to compensate for the body fluid lost through increased perspiration. Ice cold water is to be avoided when a person is very warm.
4. Use more salt than usual, either as a seasoning or in water. This helps to maintain the saline solution of the body and aids in the prevention of sunstroke.
5. Bathe frequently.

Health Question: Are the chances of getting tuberculosis greater among infected persons than among those who have never been infected?

A recent article in the Journal of the American Medical Association reports that the chances of having active tuberculosis are nine times greater among once infected children than among those who have never had a positive reaction to a tuberculin test.

A positive reaction to a tuberculin test indicates the person tested has been exposed to the disease. It is not proof that the person tested has tuberculosis. An X-ray of the positive reactor reveals whether the disease has been arrested. In the great majority of cases it is arrested and a healed lesion remains in the lung.

The findings reported above show the desirability of periodic exami-

## AUXILIARY PICNIC

Thirty-six members and friends of the Cinnamon Branch of the Zorbrugg Memorial Hospital Auxiliary enjoyed a picnic in Steele's woods on Tuesday.

A corn roast, hot dogs and all that goes to make up a delightful picnic meal were served.  
Mrs. Dawson, 80 year old mother of Mrs. George Dorworth, recited two pieces, to the delight of all who heard her.  
Mrs. George Womfor, former president of the group, was in charge of arrangements.

## REV. W. A. BOYD GROVE SPEAKER SUNDAY NIGHT

The Rev. W. A. Boyd, minister of the Methodist Church, will be the speaker in the Palmyra Community Grove this Sunday evening at 7:00 o'clock. "What Do You See?" is the topic of the message to be delivered by Mr. Boyd. The music will be in charge of the Methodist Choir and some members of the Methodist Church School Orchestra. This is a community meeting and all people regardless of church affiliation are welcome.

## TALBERT-BECTON

Announcement has been made of the marriage of Mrs. Edward M. Becton, of Washington avenue, Palmyra, to Arthur Talbert, of Stuart, Florida, on April 4, 1939.  
After September 1 Mr. and Mrs. Talbert will be at home at Vero Beach, Florida.

## Weather Forecasts

"If you believe the moon celestial Can govern growth of plants terrestrial— And many folks believe it strong, I can't convince you, but you're wrong."

This little rhyme, credited to a resident of New York state, has the wholehearted support of scientists of the U. S. Weather Bureau, reports the Federal Department of Agriculture.

Although there is scientific basis for some of the proverbs about the weather which have been handed down through the ages—some since Bible days, the Bureau says, the moon and the stars cannot influence plants or animals growing on this earth in any way. Neither can man make it rain or stop raining, not even an Indian chief.

The Bureau explodes some old-time notions with satisfying logic. Dogs, for instance, do not grow thicker fur because it's going to be cold, but rather because it has been cold. And if cream sours during a thunder storm, it is because the hot atmosphere which usually precedes a storm caused it to sour and not the storm itself. Beliefs surrounding Groundhog Day, St. Swithin's Day and Fourth of July are nonsense, too, the Bureau insists.

However, not all beliefs about tomorrow's weather are false. Cloud formations are affected by storm and wind conditions and some of the proverbs about them deserve credence, the Bureau says. This one, for instance:

"Mackerel scales and mare's tails Make lofty ships carry low sails."

Another storm warning is unusual clearness of sounds, due to changes in the atmosphere set up by the approaching disturbance, which gives basis for the following verse:

"When the forest murmurs and the mountain roars, Then close your windows and shut the doors."

And New Jersey fruit growers need no explanation to know that the old saying: "Year of snow, fruit will grow" contains more truth than poetry.

## SUMMER HAZARD FOR MOTORISTS

Dangerous days for motorists are at hand, the Keystone Automobile Club declares in a statement calling attention to the seasonal hazard of summer growths obscuring vision of drivers at intersections. State, county and local authorities are urged by the club to act in the interest of public safety by requiring the trimming of trees, hedges and other growths which constitute a menace to the motoring public.

"Warning of this danger in past years," said Trevor B. Mathews, manager of the Camden division of the club, "resulted in appreciable improvement of highway conditions. In many cases, property owners do not fully realize the hazard motorists are subjected to, and are quick to take remedial action when the matter is brought to their attention."

The danger is particularly serious at points where "slow" and "stop" signs are obscured, the club official declared.

"Motorists on the 'stop' street," he said, "enter intersections without warning of danger or knowledge of law violation. At the same time, drivers on highways which the obscured signs are supposed to protect are placed in peril because they are expecting cross traffic to give them right of way and are unprepared for the emergency when vehicles from the cross road loom before them."

"We believe motorists should take cognizance of these conditions and approach intersections at greatly reduced speed."

New Jersey has the lowest infant mortality rate in the United States.

## GO HOME MONDAY

Motorists taking week-end vacation trips should plan whenever possible to return to the city Monday morning rather than Sunday night. Mrs. Kathryn D. Sullivan, secretary-manager of the Automobile Club of Central New Jersey, said this week. Her advice was based upon the fact that the fatality toll on Sundays is worse than for any other day in the week. Last year, 21.3 per cent of the total 32,000 motor vehicle deaths occurred on Sundays.

"Main highways leading to urban centers are nearly always crowded on Sundays, but early Monday morning generally finds the highways comparatively clear of traffic," Mrs. Sullivan continued.

"In addition, returning on Sunday generally means driving during dusk and darkness, demonstrably the most dangerous period of the day for motoring. On the other hand, returning on Monday morning means driving during the early daylight hours, a period when traffic accidents are at a minimum."

"A further and very important factor is the question of fatigue. A strenuous day in the open, swimming, canoeing, fishing or engaging in some other recreational sport, generally leaves the week-end vacationists with a feeling of lassitude that is not conducive to really efficient driving. By extending his stay for one more night, the motorist will find his energies restored to an extent that permits the careful concentration and quick response required by modern traffic conditions."

"All in all, week-end vacationists who extend their stay over Sunday night will be more than repaid in both increased safety and more pleasant driving conditions."

## PALMYRA BOWS TO BURLINGTON

The local entry in the Burlo Baseball League lost a 7-4 decision to Burlington on Tuesday night, hits in the closing frames providing the downfall of Palmyra.

Burlington plays Riverton at Memorial Park on Saturday.

## Municipal Topics

## Why Not?

One of the significant conclusions reached by the New Jersey Commission on Tax Law Revision, and the first listed in the recent legislative report of that body, was set forth in the following brief statement:

"That the requirement of the tax laws of this State that real and personal property be assessed at full value and the local rate of taxation be applied is grossly disregarded."

In 1938, it was pointed out, the value of personal property in the State was approximately \$12,000,000,000 and the value of all real property about \$5,300,000,000. Total local taxes levied against real and personal property were \$256,591,625, of which amount \$226,756,044 was levied against real property upon an assessed valuation of \$4,990,850,441 and \$29,835,581 against personal property upon an assessed valuation of \$677,027,272.

"These levies demonstrate," said the report, "that for 1938 real property carried 88.37 per cent of the total tax levy, while personal property carried only 11.63 per cent."

## Obsolete System

While it has been known for many years New Jersey is laboring under an archaic system of taxation, it has not been generally recognized just how much the possession of personal property has been favored over real estate in the assessment method. Undoubtedly much of the personal property valuation, more than double the figure for real estate, consists largely of intangible personal property. Realizing this situation, a number of the larger cities are making an effort to place

slur. Struck out—By Miller, 13; Uva, 3. Base on balls—Off Miller, 1; Uva, 1. Umpires—Miller and Johnson.

Life expectancy has been more than doubled in the United States in the last 50 years.

a more proper share of the cost of government on this form of wealth. It is obvious real estate cannot bear a further increase of taxes and other municipalities are expected to follow the lead of the larger cities in turning to increased levies on personal property, both tangible and intangible. By so doing, pressure will be brought upon the Legislature to act upon the long-deferred revision of the entire tax structure.

There seems little likelihood of the lawmaking body doing anything about the situation this year. Action is necessary or the ownership of real estate will lose the little remaining attractiveness it now holds. Mandatory spending legislation, cash basis laws, unound pension funds, decreasing rates and the cost of public relief have forced the rates of taxation on real estate to an alarming and confiscatory point.

## Values Lower

Values are crumbling and the saleability of property is sharply declining. At least one fourth of the total value of real estate today is under direct control of banks, building and loan associations and insurance companies through inability of individual owners to retain it. Because of frozen assets, consisting largely of real estate, one of the largest New Jersey banking institutions closed its doors a few months ago.

Competition between municipalities to bring industries to their communities has been one reason in the past why personal property has received such lenient treatment. It is essential, and desirable, that business be encouraged in every manner within reason, but the inducements offered for location in a community should not be at the expense of other taxpayers.

Those who protest loudest against revision of the tax system are often those who are escaping a just share of the cost of government and the benefits they now enjoy. There is no valid reason why some should be called to pay so much and others so little as shown by the commission report.

Life expectancy has been more than doubled in the United States in the last 50 years.

## Wesleyan Men's Bible Class

For the Men of the Community

"Shew us the Father" said Philip to Jesus. Then came the immortal answer, "He that hath seen me hath seen the Father."

Jesus was the revealer of the Fatherhood of God; that was the distinctive feature of His ministry. Hitherto the revelations of God were largely monarchical.

Jesus revealed God as Father! That relates God to us in a tender, sympathetic and affectionate way—the highest revelation made by God. That brings the God of the Universe very near to our understanding and in abiding presence.

Barrie, the Scotch author, in his book pays a wonderful tribute to his mother, but in his fatal illness he said, "I want my heavenly Father."

The up-lifted Christ in our Class represents also the Fatherhood of God, whose everlasting arms enwrap and guide. The reality of the unseen attests itself in the warmth of the atmosphere in Christian fellowship; we can all say as we do, "Our Father." This gives comfort and sustaining power to the believer's life.

Come with us next Sunday morning at 9.50 in the recognition of the Fatherhood of God and say with us "Our Father" as in the Lord's prayer. The Question and Answer forum proved quite interesting last Sunday. It will be tried again next Sunday.

### THE PEOPLE'S COLUMN

In view of the various stories carried in the press concerning my recently recommended increase in salary for Chief Engineer James Logan and the newly created (Chapter 75, Laws of 1939) General Solicitor Benjamin C. VanTine, I believe I should publicly explain my action.

Prior to my becoming State Highway Commissioner, there was a chief engineer at an annual salary of \$17,500.00 and an assistant at \$10,000.00, or a total of \$27,500.00. Shortly after the resignation of Major Sloan in 1936 as chief engineer,

## SHERIFF'S SALE

By virtue of a Writ of Fieri Facias to me directed, issued out of Court of Chancery of the State of New Jersey, I will sell at public sale on

THURSDAY, AUGUST 24, A. D. 1939, between the hours of 12 and 5 o'clock in the afternoon of said day (to wit, at 2 o'clock) Standard Time, at the Court House, Mount Holly, New Jersey:

ALL the following tracts or parcels of land and premises hereinafter particularly described, situate, lying and being in the Township of Cinnaminson, in the County of Burlington and State of New Jersey, viz:

THE FIRST: BEGINNING at a point in the Easterly line of Highland Avenue three hundred thirty-three and eighty-two one-hundredths (333.82) feet Southwardly from the point of intersection of the Southerly line of Park Avenue and the Easterly line of Highland Avenue; thence continuing Southwardly along the said Easterly line of Highland Avenue the distance of one hundred eighteen and eighty-two one-hundredths (118.82) feet in front or width to a point for a corner; thence Eastwardly of that frontage between two parallel lines drawn at right angles to the said Highland Avenue the distance of one hundred seventy (170) feet to the rear of the lot.

CONTAINING within said bounds a rectangular lot of land one hundred eighteen and eighty-two one-hundredths feet by one hundred seventy feet.

THE SECOND: BEGINNING at a point in the Easterly line of Highland Avenue five hundred twelve and five-hundredths (512.05) feet Southwardly from the point of intersection of the Southerly line of Park Avenue and the Easterly line of Highland Avenue; thence continuing Southwardly along the said Easterly line of Highland Avenue the distance of fifty-nine and forty-four one-hundredths (59.44) feet in front or width to a point for a corner; thence Eastwardly of that frontage between two parallel lines drawn at right angles to the said Highland Avenue the distance of one hundred seventy (170) feet to the rear of the lot.

CONTAINING within said bounds a rectangular lot of land fifty-nine and forty-four one-hundredths feet by one hundred seventy feet.

BEING the same land and premises which Herbert Clark and Kate Clark, his wife, by their deed of conveyance bearing date June 8th, 1932, and recorded in the Office of the Clerk of Burlington County in Book No. 796 of Deeds, page 316, granted and conveyed unto the said Herbert Thomas Clark, Jr., in fee.

Decree approximately \$1,498.70 besides interest, costs and fees. Seized as the property of Herbert Thomas Clark, Jr., et ux, et al., defendants; taken in execution at the suit of Margaret Wallace Ryan, Substituted Trustee for Emma R. Polls, under the last will and testament of John Wallace, deceased, complainant; and to be sold by

F. GEORGE FURTH, Sheriff.

Solicitor: Wm. D. Lippincott.

Dated: July 26, 1939.  
7-27 to 8-17-39  
Printer's Fee \$55.00.

I promoted Assistant Engineer James Logan with an increase to \$12,000.00 but did not raise his salary to that of chief engineer. Mr. Logan also continued the duties of assistant engineer including all the township, borough and county programs. As chief engineer he took over supervision of all other departments, including, during the past year, the P.W.A. and W.P.A. programs with all their detailed procedure. In view of Mr. Logan's outstanding, sincere and faithful service I felt an increase of his salary, effective July 1, to \$14,000.00 was more than justified, particularly when he was fulfilling with credit positions of two men who formerly cost the taxpayers a total annually of \$27,500.00, and even with the increase would be receiving less than former chief engineers of the department.

In the appointment of Benjamin C. VanTine as general solicitor of the State Highway Department, I was merely carrying out the instructions of the present Legislature. His salary shall be fixed by the Commissioner according to law.

Accordingly, following the approval of Attorney General David Wilentz, I appointed Benjamin C. VanTine. He had been assistant counsel at a salary of \$9,000.00, and I made his new salary \$12,000.00 annually, or \$3,000.00 less than the last full time counsel, Walter H. Bacon.

Both Mr. Logan, as head of our engineering staff, and Mr. VanTine, in supervision of our legal work, have been most valuable to me in protecting the best interests of the State Highway Department.

E. Donald Sterner, New Jersey State Highway Commissioner.

About 2,500 physicians die each year in the United States. About 7,000 new physicians are licensed to practice medicine each year. The annual increase of licensed physicians is therefore about 4,500 per year.
