NEW FLIGHT SCHOOL HERE

Palmyra Borough Council is sponsoring a fall program for the Civil Aeronautics Authority to include a 72 hour ground school course and flight scholarships for the successful competitors in the examinations. The summer program under the same auspices was highly successful, 52 students completed the course and the flight training starts this week. Young men and women between the ages of 18 and 25 years,

We set aside this one week to learn how to prevent fires. Men in business, women in homes, farmers, and children in school all become clearly aware of the menace of fire: how it ravages home and property, snuffs out life. But it is not enough for us to be careful and take all possible precaution only during Fire Prevention Week! We must remember all through the year that every fire that does occur—could have been prevented. Either things "catch" fire, or combustion causes fire. Both kinds of accident are results of some form of neglect—whether in the home or office, store or farm. Learn what you can about fire prevention all this week—then practice preventing fire all the rest of the year!

PALMYRA P.T.A. MEETS OCT. 15

A trip through the New York World's Fair via the silver screen and music by the Mt. Holly Boys' Chorus were announced as the main attractions for the October meeting of the Palmyra Parent-Teacher Association, at the second meeting of the executive committee, held at the home of Mrs. John C. Hoepfner, Palmyra, on Monday night.

The motion picture offers a comprehensive panorama of the "high spots" at the fair beginning from the time ground was broken, through the visit of King George and Queen Elizabeth of England, the latter part of the film being in technicolor. The Boys' Chorus from the Mt. Holly High School will undoubtedly prove to be one of the musical high lights of the year's program. The meeting will be held in the Palmyra High School Auditorium, October 15, at 8.00 o'clock in the evening.

Aid to Art Student

Additional aid was voted to a young boy who has shown exceptional ability in art studies, tuition for which was provided by the Palmyra Parent-Teacher Association last year.

Jones, asked for the hearty cooperation of the Palmyra Parent-Teacher Association in supporting and publicizing the production "On Our Way" to be held in the Palmyra High School auditorium on October 16, 17, 18 and 19. He stated that the cast will include from 150 to 200 adults and school children, and is a project worthy of public support.

BOY SCOUT NEWS

E. Newbold Cooper, of Moorestown, was named chairman of a committee to make arrangements for the Second Annual Executive Board Conference of the Burlington County Council, Boy Scouts of America. The conference was held last year at the National Boy Scout Reservation at Mendham. Here the men spent a week-end making plans for the Fall and Winter program of Scouting in Burlington county. Mr. Cooper announced that arrangements had been made this year for the executive board to go to Grison Hall at Buck Hill Falls. He is being assisted by E. E. Beyer, of Mt. Holly; W. A. Brown and G. Lloyd Cowan, Jr., of Edgewater Park; David Styer, of Bordentown; Lt. Comm. J. B. Ryan, U. S. N., of Palmyra, and Dr. Donald H. Powers and William C. Coles, Jr., of Moorestown. The meeting will be held on this week-end of October 19 and 20th, and it is expected that Gilbert H. Gendall, Regional Scout Executive of Region 2, will lead the conference as he did last year.

On Tuesday evening, R. H. Gill, of Beverly, Commissioner of the Council, held a meeting of his staff

in the council office. The members present were: James L. Moore, Jr., of Moorestown; Logan B. Morris, of Mount Holly; Frank J. Haas, of Beverly; William B. Gibson and Wendell T. Hill, of Palmyra, and E. R. Keller, of Florence. Plans were discussed at this meeting for cooperation with the national plan was laid down by Dr. James E. REEDER RESIGNS

Bud Reeder, whose resignation as associate county Y.M.C.A. secretary was accepted last week at the September board meeting, became on October 1st the executive secretary of Gloucester county Y.M.C.A. with headquarters at Woodbury.

Reeder came here September 1, 1937. He graduated from Gettysburg in '35 and for two years was in N.Y.A. work in his home city, Trenton. All but his freshman year at Gettysburg he was secretary of the college Y.M.C.A. there.

Scores of friends of the Reeder in every section of Burlington county have been voicing congratulations followed by regrets over their leaving. Bud's association here will continue close, however, because of Gloucester county being one of those in the organization and management of Camp Ockanickon.

Fire Prevention Week

Not only in connection with Fire Prevention Week, but during EVERY WEEK, there are many simple precautions which, if taken, will prevent fires, yet neglect of them causes thousands of dollars of loss of property and loss of life each year. Play safe. Insure against fires by being careful.

Have your furnace inspected—and have that inspection done by somebody who knows what to look for. It's no work for an amateur. Have needed repairs effected at once. See that chimneys and flues are properly cleaned. Hard-pressed heating plants in bad order are one of the most prolific sources of home fires. It's no fun to wake up in the middle of the night and suddenly realize that your house is burning away beneath you.

Winter means that you'll use lights oftener. Exposed electric wiring should be checked. Pay special attention to lamp cords under rugs and around baseboards—they fray in time, and when that happens a short circuit may occur. Electricity, mishandled, is one of fire's potent allies.

Go through your whole house and get rid of any and all accumulations—old clothes, old papers and magazines, collections of rags, etc. They make a fine starting place for fire—and spontaneous ignition isn't so rare a phenomenon as you may think.

A few of the more important "Don'ts" are also worth remembering:

Don't leave fluid-soaked rags to accumulate in cupboards or closets. They can result in spontaneous combustion.

Don't experiment with home dry cleaning and inflammable cleaners.

Don't smoke in bed.

Don't leave matches or inflammable fluids within reach of children.

Don't have curtains or drapery near a stove.

Don't leave a fireplace unattended before the fire is reduced to embers.

KNOW★

Who Issues Money?

THERE is a widespread but incorrect belief that banks issue money. They do not. Money is issued only by the Federal Reserve banks and the United States Treasury under powers delegated to them by Congress.

Federal Reserve banks issue Federal Reserve notes which are our most common type of currency.

The Treasury issues silver certificates, silver dollars, subsidiary silver coin, minor coin, and United States notes, most of which is placed in circulation through the Federal Reserve banks.

All U. S. paper currency is printed at the Bureau of Engraving and Printing in Washington, D. C. and all U. S. coins are made at the Philadelphia, Denver, and San Francisco mints.

TRIMBLE—MANEO

Miss Josephine Elvira Maneo, daughter of Mr. and Mrs. Sebastian Maneo, of New Albany Road, Riverton, became the bride of Samuel Bertrand Trimble, Jr., son of Mr. and Mrs. S. Bertrand Trimble, of Elkton, Maryland, at a three o'clock ceremony on Saturday, September 23, at the rectory of the Sacred Heart R. C. Church, Riverton. The Rev. John Welsh performed the ceremony.

The bride, who was given in marriage by her father, chose a street length dress of soldier blue with matching accessories. Her corsage was of gardenias.

Miss Jeanette Maneo, who was her sister's only attendant, chose a dress of wine, with black accessories. Her corsage was also of gardenias. Frank Ewing, of Elkton, served as best man.

The bride's mother chose black with a corsage of American Beauty roses, while the groom's mother chose soldier blue with a corsage of Talisman roses.

Following a reception at the home of the bride's parents, Mr. and Mrs. Trimble left for Elkton, Maryland, where they will make their home.

ELECTRICITY

HARNESSED is a FAITHFUL SERVANT
UNLEASHED is a RUTHLESS DESTROYER

When the lines reach your house, farm or place of business—the safe use of its energy becomes YOUR RESPONSIBILITY. The kind of wiring you use, the condition of fuses, switches, floor plugs and extensions is a matter completely under YOUR CONTROL. "Faulty Wiring" is a familiar phrase in newspaper accounts of disastrous fires. The greater use of appliances has made it advisable for some people to make slight alterations in their wiring.

Since most people are unable to detect the need for a change, we offer in cooperation with National Fire Prevention Week a . . .

FREE INSPECTION

of your house or business wiring without obligation on your part. Sometimes we find faulty spots and sometimes not. If you want peace of mind concerning your wiring, we invite you to avail yourself of this free service NOW.

Like Grandmother, Like Granddaughter Except...

Grandmother used a kerosene lamp, which provided the best kind of illumination that could be had in her time. Granddaughter can use an I.E.S. Better Sight lamp, the best lamp for home lighting made today.

I.E.S. Better Sight lamps are made to specifications of the Illuminating Engineering Society. They provide a combination of direct and indirect light that is soft and restful for eyes.

Note that the I.E.S. lamp (above right) and the kerosene lamp (above left) are similar in styling... the crystal pebble glass font, the "wick key" and the marble base. The beauty of the old kerosene lamp is retained in this model I.E.S. table lamp.

I.E.S. table and floor lamps are made in many beautiful styles. They add beauty to rooms and bring lighting up to modern standards. Use I.E.S. Better Sight lamps in your home.

PALMYRA PUTS UP GOOD FIGHT

Strong Collingswood Eleven Takes Opening Game By 18-0 Count

The highly touted Collingswood football outfit was expected to run roughshod over Palmyra's green eleven last Saturday afternoon on the field of the Irvinemen, but the Red and White showed a stubborn defense and the Group 4 aggregation won the fracas by the margin of three touchdowns with no conversions.

The winners tabbed a touchdown in every period with the exception of the third. First downs totaled 16 for Collingswood and seven for Palmyra, three being coming by the aerial route and three on the ground. The other was via the penalty route. The charges of Coach Bill Fiedler took to the air on 18 occasions and completed six.

Chances Better

All in all, local fans were rather well pleased with the performance of the Red and White and, with the experience gained as a result of the Saturday clash, expect better things in the games to come.

Palmyra clashes with Camden Catholic away on Saturday of the first time this year on home terrain on Saturday, October 12, with Haddonfield as the invading force.

LOCALS LOSE

The Palmyra Red Devils lost the opening game of the season on Sunday afternoon to the Blue Bell A. A. of West Philadelphia. The affair, which was played on the field of the opposition, resulted in a 6-0 win for the home team.

In the first downs the Palmyra club outscored their opponents, registering 11 to Blue Bell's 8. Twice during the final half the local club was on the enemy's 5 yard stripe due to the splendid passing of Paul Heister, and line plunging of Bill Devinney but could not push over a score.

For the Men of the Community
"EVER PRESENT"

On the same day that the City of Uim, though fortified by forty thousand soldiers, surrendered to Napoleon, he learned of the naval victory of Lord Nelson, which crushed his navy. In his disappointment he exclaimed: "I cannot be present everywhere at once."

How different the words of Jesus, "Lo, I am with you always," which He spoke to His disciples, and likewise applies to the believers of today. There is no point in space that excludes the presence of the Master. No experience or circumstance but therein He abides in His all conquering power; World leaders have had their limitations and defeats. Jesus said, "Be of good cheer I have overcome the world." He has never known defeat! None have ever been forsaken who trusted in Him!

In this confidence in the ever present Christ we assemble together in our Bible class each Sunday at 9.50 a.m.

CENTRAL BAPTIST CHURCH
Rev. George Lockett, B.D., Pastor
Services, Sunday, October 6th, Bible School, 10.00 a.m.—Rally Day, exceeding the attendance of last year, was celebrated on Sunday last with all departments participating.

Morning service, 11.15 a.m. In co-operation with an International movement, the thought of the morning service will be centered upon the "World-Wide Communion" in which every church throughout both continents will be united in celebrating this Holy ordinance.

The choir, under Mr. Barto's direction will render "O Divine Redeemer" by Gounod. Mrs. Elsie Hughes, soprano, will be the soloist for the morning service.

B.Y.P.U., 6.45 p.m.—The young people of the High School group have resumed their meetings for the winter months, meeting in the Sunday School room, promptly on the hour designated.

Evening service, 7.45 p.m.—Another subject which prompts one to think, "Fear or Faith," will be presented by the Pastor. Helpful anthems by the choir.

Wednesday evening at 8.00 p.m.—Midweek service. Although announced last week, the study of the Book of Matthew will begin this week. Pastor Lockett will expound the many revelations of this very interesting book of the bible.

All those who sew and knit are urged to give all their available time to the city from the destitute.

It is with much gratitude the Committee can announce that, through the efforts of the women in these communities who have worked for the Red Cross, the following number of articles have been completed to date: 112 sweaters (men's, women's and children's), 53 pairs of socks, 3 snowsuits, 3 pair mittens, 5 caps, 30 women's slips, 23 dresses, 23 baby blankets, 24 layettes.

One Sunday School Class is competing an eighth.

A new allotment of wool is here and all knitters will please apply to Mrs. Filson Graff, Riv. 99-J for materials and directions.

Sewing days are starting this week. All those who give their time for this greatly needed work will meet at the Porch Club on Thursday of this week, and Friday of each succeeding week from 9 a.m. to 12 o'clock.

Mrs. Gilbert Coe will be in charge of the sewing. Those who have portable sewing machines and who will lend them or use them at the Porch Club can have them called for and returned if they call Mrs. Coe, Riverton 321-R.

The present assignment for this Chapter has been girl's dresses, size ten years, 30 robes for convalescents, and a large number of diapers to be hemmed.

The ticket sale is now in full swing with 300 students of the Palmyra Schools competing to see how many tickets can be sold within three days.

The rehearsals of the entire cast of approximately 200 people are now in progress, and the scenery painters, following the design of John Faunce, are turning out a remarkable job of scenery painting. The scenery painters, who are bearing the brunt of the work are: Mr. E. Nelson Stevens, Mrs. Eunice Vogt, Mr. William A. Hows, and Mr. Frank Stewart. They have already painted one-half dozen very large scenes 12x16 feet as well as the proscenium arch for the small stage which is set within the large stage.

The Footlight Players, in cooperation with the school, are now whipping their parts into shape for the final production which will be given October 16, 17, 18, and 19, as well as the 24th of October for the Burlington County Teachers.

Calls for Ticket

There has already been a call from adjoining counties as far as Ocean Grove and Wildwood for reservations to see the Revue.

Some of the choruses will be recorded and used on the sound track to advertise the Revue.

Palmyra is one of the first school systems in the Eastern United States to produce the Revue. The Revue will probably be given to approximately 4,000 people, which is the largest production of its type attempted in this vicinity. Besides the block of 500 tickets purchased by the Burlington County School Boards' Association, a block of 700 tickets will be reserved by the teachers of the county on October 24, 1940.

Westfield Friends School

The Social Studies Program throughout the school is taking definite shape and all groups have for their aim the idea of appreciating and evaluating some of the simple problems in everyday living and the experiences men have learned and are still learning in working and playing together.

A variety of activities is carried on by the different groups in order to bring out the interests of all types of children. Following is a song written by Jean Clark of the upper group which portrays the love and appreciation for fine work of a laborer in the "Bronze Age."

Day and night,
Day and night,
Under the pale moon's silvery light:
I worked on a beautiful brown
bronze knife.
I worked and worked to make the
knife
That's going to protect us from all
strife.

At last!
At last!
By Day and night,
I made that beautiful brown bronze
knife.
It is the best thing I have ever done,
Have ever done, in all my life.

The trip to the Burlington County Library by the Primary Groups proved to be very satisfying to all as they each had an opportunity to select books of their own liking.

A trip to a florist shop was made by the Kindergarten last week, to help them in their study of plants. A florist shop has been erected in their room and equipped with pictures and plants.

The moving pictures of the New York World's Fair were most interesting to everyone even the youngest children as they helped to recall the visits of those who had attended the Fair, and gave an excellent picture to those who had not had the opportunity of attending.

A conference for the head mistresses of all Friends' Schools in the Philadelphia district will be held at Westown Friends' School on October 12th and 13th.

REPORT GIVEN ON WALL EROSION

At the meeting of the Cinnaminson Township Committee held on Tuesday night of this week, a report was read from the United States Engineers concerning a complaint that dredging operations off Randolph Avenue, in East Riverton, were undermining a retaining wall along the bank.

The report of the Department stated that, upon investigation, the dredge was operating 1100 feet from the point in question and that the material being worked was largely brought from other points along the river. Little excavation was being done it was asserted and the conclusions were that the wall was disintegrating because of natural erosion and other reasons.

No further action was taken by the committee.

Machines Assessed
Assessor Leslie W. Reeves reported that in accordance with instructions received from the Burlington County Tax Board vending and amusement machines in the Township would be assessed for 1941 on the following valuation:

Pin ball machines	each \$100
Music machines, table model	\$100
Music machines, floor model	\$200
Cigarette machines	\$50

The assessment will be levied against the actual owners of this equipment. This procedure will be followed throughout the county, it was stated, except, where a direct license tax for such apparatus has already been levied, such as that in force at present in Riverside, where pin ball machines owners, for example pay an annual license fee of \$25 for each such device.

Westfield Friends School

The Social Studies Program throughout the school is taking definite shape and all groups have for their aim the idea of appreciating and evaluating some of the simple problems in everyday living and the experiences men have learned and are still learning in working and playing together.

A variety of activities is carried on by the different groups in order to bring out the interests of all types of children. Following is a song written by Jean Clark of the upper group which portrays the love and appreciation for fine work of a laborer in the "Bronze Age."

Day and night,
Day and night,
Under the pale moon's silvery light,
I worked on a beautiful brown bronze knife.
I worked and worked to make the knife
That's going to protect us from all strife.

At last!
At last!
By Day and night,
I made that beautiful brown bronze knife.

It is the best thing I have ever done,
Have ever done, in all my life.

The trip to the Burlington County Library by the Primary Groups proved to be very satisfying to all as they each had an opportunity to select books of their own liking.

A trip to a florist shop was made by the Kindergarten last week, to help them in their study of plants. A florist shop has been erected in their room and equipped with pictures and plants.

The moving pictures of the New York World's Fair were most interesting to everyone even the youngest children as they helped to recall the visits of those who had attended the Fair, and gave an excellent picture to those who had not had the opportunity of attending.

A conference for the head mistresses of all Friends' Schools in the Philadelphia district will be held at Westwood Friends' School on October 12th and 13th.

REPORT GIVEN ON WALL EROSION

At the meeting of the Cinnaminson Township Committee held on Tuesday night of this week, a report was read from the United States Engineers concerning a complaint that dredging operations off Randolph avenue, in East Riverton, were undermining a retaining wall along the bank.

The report of the Department stated that, upon investigation, the dredge was operating 1100 feet from the point in question and that the material being worked was largely brought from other points along the river. Little excavation was being done it was asserted and the conclusions were that the wall was disintegrating because of natural erosion and other reasons.

No further action was taken by the committee.

Machines Assessed
Assessor Leslie W. Reeves reported that in accordance with instructions received from the Burlington County Tax Board vending and amusement machines in the Township would be assessed for 1941 on the following valuation:

Pin ball machines	each \$100
Music machines, table model	\$100
Music machines, floor model	\$200
Cigarette machines	\$50

The assessment will be levied against the actual owners of this equipment. This procedure will be followed throughout the county, it was stated, except where a direct license tax for such apparatus has already been levied, such as that in force at present in Riverside, where pin ball machines owners, for example pay an annual license fee of \$25 for each such device.

FORMER PRESIDENTS ON THIRD TERM

Calvin Coolidge
Statement issued August 2, 1927: "I do not choose to run for President in 1928."

Statement issued December 2, 1927: "The party will soon place in nomination its candidate to succeed me. To give time for deliberation I stated to the country on August 2 that I did not choose to run for President in 1928. My statement stands. No one should be allowed to suppose that I have modified it. My decision will be respected."

From article in Cosmopolitan magazine, May, 1929: "It is difficult to conceive how any man can successfully serve the country for a term of more than eight years. I am in favor of continuing the long-established custom of the country in relation to a third term for a President."

Everybody gives himself the benefit of the doubt when answering a questionnaire.

DON'T BURN UP FUEL MONEY—
Burn **Koppers Coke**

When you burn Koppers Coke in your furnace, your fuel money doesn't go up the chimney or into the ash pit. For this scientific fuel is almost all heat-producing! Its high carbon content makes it the most efficient solid fuel on the market. And here are the reasons—Koppers Coke leaves fewer ashes—saves you many hours of drudgery throughout the winter. It's the economical fuel for people who want to keep their homes comfortably warm with less work.

LOCALS TAKE EASY VICTORY

Palmyra Scores in Every
Period to Annex
33-0 Verdict

Palmyra High School showed surprising strength last Saturday afternoon, when the Red and White smothered Camden Catholic by the score of 33-0 in a game played on the field of the opposition.

The Fiedlermen started things by pushing over a touchdown in the initial period and kept things going along the scoring line during each of the remaining quarters. In addition to the five six-pointers, they managed to convert on three occasions. The bell was rung by Flournoy and Lane on each of two occasions, while Kean lugged the leather on the other score.

Mitchell added the singletons by three well directed placements. Flournoy was easily the mainspring in the local offense, but he was aided and abetted by a strong supporting cast, particularly in the line.

Never Threaten

The Fighting Irish were never in the game offensively, annexing only four first downs as compared with 15 for the winners. Their farthest penetration hardly carried the ball past midfield and they failed to complete a single pass.

Thus far the Palmyra season progressed more favorably than most fans expected. The reverse at the hands of Collingswood was expected, but the score did not reach the proportions that many forecast.

Although the Red and White was ruled a slight favorite to take the Green, even the most ardent enthusiasts did not predict such an overwhelming victory.

Here Saturday

The Fiedlermen will have their first opportunity to display their wares in the home stadium this Saturday afternoon with Haddonfield as the invaders. This outfit eked out a 2-0 win over Bridgeton last Saturday and the engagement here has all the earmarks of being a real tussle.

A large delegation is expected to be on hand to view the inaugural of the grid season in this vicinity.

FLOOD CONTROL PROJECT CERTAIN

Congressman D. Lane Powers has extended to President Roosevelt the gratitude of the people of Mt. Holly and Burlington county for his assurance of complete Federal sponsorship of the Mt. Holly flood control project.

President Roosevelt gave the promise that the Federal Government would perform the flood control work along the Rancocas river at a conference held at the White House yesterday (Wednesday). Those attending were: Senators W. Warren Barbour and William H. Smith, and Congressman Powers, as the three elected officers representing the affected area, and Mark Reynolds, of Mt. Holly, chairman of the Mt. Holly Flood Control Committee.

During the conference, at which Congressman Powers acted as spokesman for the delegation on the request of the other delegates, Powers pointed out to the President that the Labor Day floods had wiped out all railway communication with Fort Dix for two days. He based his plea for Federal aid on national defense.

The President assured the delegates that he believed the project was a worthy one. He decided that the labor could be obtained from W.P.A. and the C.C.C., that the money for materials could be obtained from some of the national defense funds, and that the Army Engineers should supervise the work. He ordered General Watson, his aide, to immediately take steps to have the project started.

file for the next Civil Service examination.

We picked out twenty-two of our most advanced young men students and sent them to make application. Nineteen of them were engaged and started to work at \$120 a month each.

In addition to the above, during last week, eleven other young men and young women trained at Strayer's who had passed Civil Service examinations were appointed to various government positions, mostly at \$1,440 a year.

Besides this, nine other Strayer-trained stenographers, typists, and bookkeepers obtained permanent business positions during the week.

Last Friday, Strayer's Business School received a letter from a stenotype reporter in Washington, D. C., reading "If you have in mind some young stenographer who can really write fast, is a reasonably good speller, and has some idea of punctuation and could exist on an income of \$2500 to \$3000 a year, I would like to engage his services."

We selected a stenotypist from our night school who can take two hundred words a minute and sent him to Washington for this position. The man who sent to us for an assistant stenotype reporter is the official reporter, Civil Aeronautics Board, and also reports Supreme Court hearings.

What Democrats Think

"Under the caption 'For Willkie,' the Galveston, Texas, Daily News, for 98 years a Democratic newspaper, announces its support of the Republican Presidential nominee, in the following editorial:

The News is for Wendell L. Willkie.
Because The News has been a Democratic newspaper for all the 98 years of its existence, we are sorry Mr. Willkie isn't running for President on the Democratic ticket. The News is a Democratic newspaper in that it believes in the traditional principles of the Democratic Party. But in advocating the election of Mr. Willkie we are conscious of no disloyalty to those principles.

The News is for Wendell Willkie because he is a better Democrat than Franklin Roosevelt.

President Roosevelt retains the name of the Democratic Party and controls its organization, but he abandoned democratic principles of government early in his second administration. The party he leads is not the Democratic Party whose candidates this newspaper has supported, except when it believed them clearly unworthy of election, for nearly a century.

We are for Willkie because his career and his utterances show him to be a man of full Presidential stature. We admire his confident, courageous and typically American outlook. We think the future of America will be a good deal more promising under the leadership of a President who believes in America's future than under that of a President who proclaims the end of opportunity in this still youthful republic.

It is fortunate for America that public opinion overruled the politicians at Philadelphia and nominated a man of Mr. Willkie's caliber. Another four years of the New Deal would take the Nation so far along the road to state socialism that a generation might be required to restore democratic institutions to full vigor. But Mr. Roosevelt is wonderfully adept at concealing or explaining away the failures of his administration, and the critical world situation affords him a rare opportunity. Mr. Willkie's nomination is fortunate because, in addition to being fully qualified for President, he possesses the gifts of personality and presence needed to inspire public confidence. Though he is without political experience, we are confident that his candor will be more than a match for Mr. Roosevelt's cunning.

There was no reason for Mr. Roosevelt's nomination for a third term except his inordinate ambition, and the fact that growth of Federal power and patronage during his administration made the Democratic Party organization virtually his personal property. So far from agreeing with Mr. Roosevelt that the emergency demands his continuance in office, we believe his re-election would add enormously to whatever hazards the country may encounter within the next four years.

The times call for practical leadership of the quality Wendell

Willkie's background and experience have equipped him to furnish. We have had too much government by theorists.

No Third Term

The vital importance of the No Third Term issue in the Presidential campaign is becoming more powerfully emphasized every day, according to John W. Hanes, formerly Undersecretary of the Treasury in the Roosevelt Administration.

Mr. Hanes is an executive member of the National Committee of Democrats-for-Willkie.

At the National Committee's headquarters, 122 East 42nd Street, New York City, Mr. Hanes said:

"During the last few days we have received reports from Democrats-for-Willkie organizations in 29 states. These reports, in each instance based on careful cross-section surveys among Democrats and independents, indicate that several million men and women who voted for Mr. Roosevelt in 1932 and 1936 will vote for Mr. Willkie this year because they fear that to break the No Third Term tradition will be a step toward dictatorship. "In 1936 anyone who had predicted that Mr. Roosevelt would try to pack the Supreme Court would have been accused of hysteria. But he tried.

"When this attempt was defeated, anyone who predicted that Mr. Roosevelt would seek a third term would also have been accused of hysteria. But he is trying for a third term right now.

"Anyone who predicts that a third term for Mr. Roosevelt will be a long step toward dictatorship is once again stamped as hysterical by the Roosevelt strategists. But the record shows that the 'hysteria' of one year becomes the fact of the next."

ARE YOU REGISTERED?

No one who was not registered in his present voting district last spring will be allowed to vote at the general election in November, unless he registers with the local board of elections on Tuesday, October 15, or obtains a transfer from his former district.

All elections boards in Burlington county will sit at the polling places

on that date to register voters from one o'clock till 9 o'clock p.m. The voter must appear personally. It is very important that all citizens who wish to take part in the general election make sure they are properly registered.

The following are the qualifications for voting:
You must be 21 years of age or over on election day, November 5, 1940.

WILLKIE SAYS

The President is running for a third term, and in view of the fact that this is a violation of a tradition or 150 years' standing, it is my judgment that he is under a double obligation to discuss the issues, as well as the particular issue of a third term. I do not believe that even the President of the United States has a right to eliminate public discussion or to refrain from engaging in it when seeking public office. I again invite him to engage in public discussion.—Rushville, Ind., August 20, 1940.

I would suggest that the President name experts who understand the building of defense works to make inspection trips with regard to such defense works, and that the President devote such time as he now uses for that purpose to making democracy work by discussing the issues in which the American people are very much interested.—Rushville, Ind., August 20, 1940.

GOVERNMENT WANTS SKILLED WORKERS

The Government needs men skilled in various metal-working and other trades. The United States Civil Service Commission announces that while applications are coming in, the number of qualified applicants in any of these trades don't fail to get details concerning them by writing to or calling at the office of the Board of United States Civil Service Examiners at any first or second class post office.

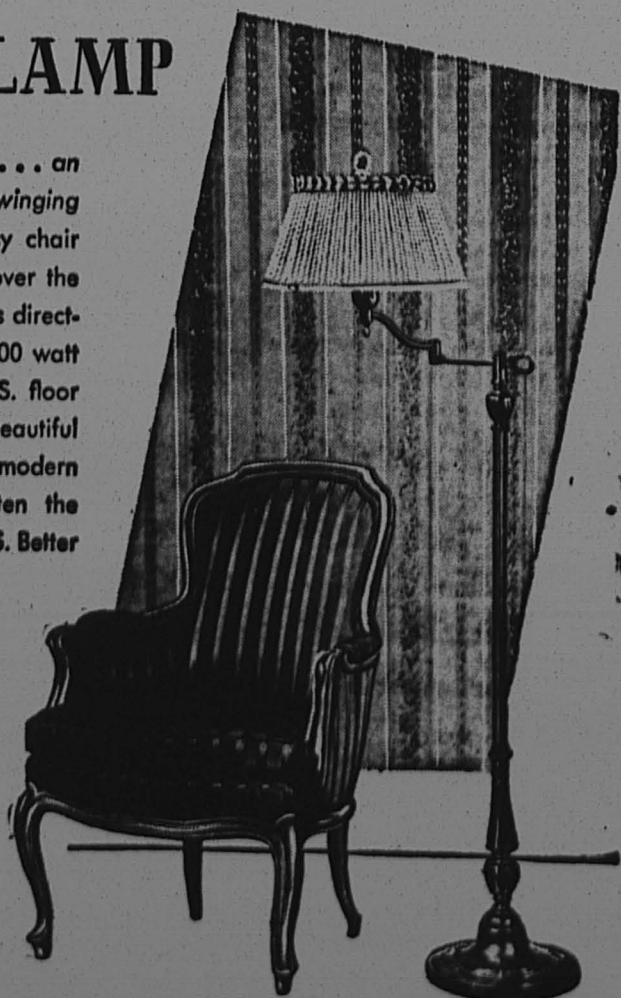

You must have been a resident of the state for one year and of this county for five months.

Citizens who have moved from one election district to another (both within the county) since they were registered last spring can obtain transfers on election day from their former district and vote in their new district. They cannot transfer from one county to another.

CHRISTIAN SCIENCE CHURCH

"Unreality" is the lesson-sermon subject for Sunday, October 6, in all Christian Science Churches and Societies throughout the world.

The Golden Text is: "Know therefore this day, and consider it in thine heart, that the Lord he is God in heaven above, and upon the earth beneath: there is none else." (Deuteronomy 4:39).

Among the lesson-sermon citations is the following from the Bible: "Put not your trust in princes, nor in the son of man, in whom there is no help." (Psalm 146:3).

The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The only fact concerning any material concept is, that it is neither scientific nor eternal, but subject to change and dissolution" (p. 297).

CENTRAL BAPTIST CHURCH
Rev. George Lockett, B.D., Pastor
Services, Sunday, October 13th.
Bible School, 10:00 a.m. A mark of progress in the School was attained last Sunday when two new classes were promoted to the Main School. In every department promotion was effected, thus showing the great advancement of the school. There was a record attendance in comparison with last year's figures. To those living in the confines of Riverton and Palmyra who are without a church school, a welcome awaits you here.

Morning service, 11:15 a.m. Pastor Lockett will have as his subject, "The Overflow of Personality." A

Evening service, 7:45 p.m. Rev. R. W. Mathews, former pastor of the Baptist Church at Hammonton, will occupy the pulpit for Pastor Lockett at the evening's service. While Mr. Mathews' subject has not been announced, it will unquestionably be a very interesting one. "Draw Me to Thee" by Nevin, will be rendered by the choir.

Wednesday, 8:00—Midweek service for all. Come and enjoy the study of the book of "Matthew."

On this Monday evening, October 14th, the Men's Organization will hold their first banquet. Rev. Elwood A. Harrar, of Camden, will be the guest speaker. SUNDAY BREAKFAST SERVICE A SUCCESS

For the first time in the history of the Wesleyan Men's Bible Class and possibly for the Community, the breakfast service planned and held last Sunday morning at 9 o'clock in the Class Room of the Wesleyan Organization proved successful in every respect.

At the conclusion of the meal, the large attendance listened to a brief exposition and application by the teacher, of the passage of Scripture recorded in the Gospel of John, chapter 21, verses 3 to 12, concerning that early morning occasion when the weary disciples, worn out by a night of fruitless toil, were unexpectedly invited by the Risen Christ to partake with Him of a breakfast which He had prepared for them on the shore of the Sea of Galilee.

REVISION FOR PARKING RULE

Riverton Council Acts to Remove Objectionable Part of Ordinance

At the meeting of Riverton Borough Council held on Thursday night of last week, an ordinance passed first reading which will, upon final passage remove the objections to the parking ordinance that was adopted during the past summer.
The new legislation will remove the one-hour parking restriction in the business section on week days between the hours of 6 p.m. and 9 a.m. At present the one hour limit is in effect 24 hours per day.

The ordinance will come up for final passage at the next meeting of the governing body to be held on November 14, but the police have been instructed to recognize the new ruling until it has been adopted. The revision of the ordinance is published in full in this issue of The New Era.

Parking Facilities

J. W. Sylvester, chairman of the highway committee, reported a revised plan for increasing parking facilities on the south side of Main street, where widening of the thoroughfare had been contemplated for several months.

The new project calls for widening the highway a distance of 15 feet on the west side, in front of the Collins building, Broad to Harrison. This will permit the parking of cars on an angle and will provide space for 21 machines.
In addition, Mr. Sylvester is negotiating with the Pennsylvania Railroad for use of the lot on the east side of Main street, adjacent to the tracks for use as a parking lot.
If this is obtained, it will do much to relieve all congestion in the area.

Appointments

Mayor H. McIlvaine Biddle appointed Mrs. John P. Abell as a member of the Local Assistance Board to fill the vacancy caused by the death of Mrs. Murray C. Boyer. This was ratified by Council.
The Mayor also made two appointments to the Zoning Board of Adjustment, these being Clarence W. Rodman and Robert G. Adams.
The vacancies were caused by the death of Mrs. Boyer and the removal of H. K. Rutherford to Boston.

The Porch Club

The greater part of Mr. Goren's interesting lecture on Thursday morning was devoted to "Rescuing." His next lecture is Thursday, October 17th, at 10.15 a.m., as originally scheduled. His third lecture will be on October 24th. Don't forget the duplicate bridge tournament on October 29th at 2 p.m. Come with a partner. Prizes will be awarded and tea served. It is free to club members and those paying for the series of lectures.
American Home Department

On Tuesday, October 22, at 2.30 p.m.—Mrs. Biddle Atlee Reed, of Philadelphia, will give a talk on Interior Decorating—To exemplify her lecture Mrs. Reed will exhibit materials and decorative accessories.

Mrs. Charles Sims, 618-W, will attend to all publicity during my absence.

YACHT CLUB NAMES OFFICERS

At a meeting of the Riverton Yacht Club held last week, Charles Knight was elected commodore for the coming year. Other officers elected were: John P. Mudd, vice commodore; Robert Lippincott, rear commodore and Thompson Coe, secretary-treasurer.

The board of directors is composed of the following: J. F. Ayres, George Wilder, Dr. Harry L. Rogers, Harold Marshall, Ogden Mattis and Dewees Showell.

Needlework Guild Meeting

The annual meeting of the Riverton Branch of the Needlework Guild will be held at 2.30 p.m. in the Porch Club, Monday, October 28th. Mrs. J. H. Meekham, South Jersey chairman of the Guild, will speak.

Directors are reminded that garments should be delivered to the Porch Club rooms by 10 a.m. And at one o'clock a luncheon will be served to all members interested in inspecting the contributions.

The luncheon, for which a charge of 35c per person will be made, will be served by Mrs. Edward Merrill and committee. Reservations should be made with Mrs. William Hendrickson on or before Friday, October 25th.

Unusual Demands

These are days when extraordinary demands are being made on our resources and our sympathies. Urgent as these are, it should be remembered that they are extraordinary—and when the exceptional crises of war are past, the need to help the underprivileged among us will still be our responsibility.

There are twelve accredited social service agencies, all but one functioning in the South Jersey area, which depend each year on gifts of new clothing and household linens from the Needlework Guild. Last year the Riverton Branch distributed 1883 articles among these institutions.

The letters of appreciation which have been received by the Branch stress, in almost every instance, the value of new, plain, serviceable articles—how much comfort and pleasure the wearing apparel gives the men, women and children who receive it; how useful the sturdy new sheets, towels, wash cloths, bed pads and spreads prove in the institutional care of the sick and aged.

Serviceability

In making purchases for the Needlework Guild, contributors are asked to keep in mind the serviceability of the articles chosen. Clothing for men, women and children is greatly needed—particularly clothing for boys and girls between ten and sixteen years of age.

The Riverton Branch of the Needlework Guild is forty-six years old this autumn. During that long time it has done a consistently fine philanthropic piece of work. Make this year outstanding for the number and value of its contributions—just because more is being demanded, try to give more.

And come to the meeting. Luncheon (35c) at one o'clock; annual meeting with speaker at 2.30, on Monday, October 28th, at the Porch Club. Luncheon reservations to Mrs. Hendrickson by Friday the 25th.

PHALANX TO SPONSOR FORUM IN OCTOBER

The Phalanx Fraternity will sponsor the first of a series of Forums on Tuesday evening, October 29, at 8 o'clock in the Community Centre. The subject chosen for this first forum, "Should the Palmyra Sunday Blue Laws be Repealed and, If So, to What Extent?", is a timely one and should prove extremely interesting. Don't forget the date—October 29, at the Community Centre.

WILLKIE CLUB PLANS MEETING

Prominent Speakers Secured for Session Here on Tuesday, October 22

As a highlight of the current political campaign, the Riverton-Cinaminson Willkie Club has planned an important meeting for Tuesday, October 22, in the auditorium of the Riverton Public School, at 8 o'clock, when A. Matlack Stackhouse, of Moorestown, and Mrs. Lillie D. Bergey, of Philadelphia, will be the guest speakers.

Mr. Stackhouse has the reputation of being one of the most dynamic speakers in New Jersey on the question of the issues involved in the presidential campaign and will have a message that should interest all those who are interested in the preservation of our democracy.

Mrs. Bergey is also noted for her ability to hold an audience and speaks from wide experience, having been a member of the Democratic National Committee from Pennsylvania, a former member of the Pennsylvania State Democratic Committee and vice chairman of the Philadelphia Democratic City Committee.

Program

In addition to the talk of Mr. Stackhouse, it is planned to show two reels of movies. These will be furnished by the Republican County Committee and depict various phases of the Willkie campaign, with the candidate in action at various localities.

Those in charge of the evening state that the program will be limited to one hour, and especially urge a large attendance, since it will be the only meeting of this nature that will be held in Riverton.

James S. Coale, of Riverton, will act as chairman of the meeting and F. H. Story, Jr. is chairman of the committee in charge of arrangements.

DR. STODDART RESIGNS FROM HOME BOARD

Members of The Board of Managers of the Cinaminson Home desire to register the great loss they feel at the resignation of Dr. Frances Janney Stoddart from the Board because of illness.

If it had not been for the energy and vision of Dr. Stoddart some fifty years ago, the home would not have been started.

She has been a valued member of the Board ever since; her knowledge of medicine and her regard for the spiritual, as well as the physical welfare of the family has been of inestimable value throughout the years.

The Board, the staff, and guests of the Home are all missing Dr. Stoddart's helpful presence, her encouraging advice and her wise guidance.

Reception Of Riverton P.T.A.

The Annual Reception of the Riverton P.T.A. for Parents and Teachers will take place on Monday, October 21, at 8 p.m. in the school auditorium. The speaker will be Dr. Francis Harvey Green, headmaster Pennington School.

His topic will be "The Job We Have." Refreshments will be served at the close of the meeting.

Mrs. John P. Abell, president of the Association, urges a large attendance at this, the first evening meeting of the new school year.

ENTHUSIASTIC GROUP HEARS REV. RENDALL

The headquarters of the Riverton-Cinaminson Willkie Club for President Club was filled to capacity on Monday night of this week, when a large audience heard Rev. James H. Rendall, of Edgewater Park, give an inspiring talk on the reasons why Wendell H. Willkie should be elected the next President of the United States.

The speaker was warmly applauded by the audience on many occasions during his talk. Francis B. Elwell presented the speaker, following the opening of the meeting by C. Singleton Mears, president of the local club.

Vital Election

In his address Rev. Rendall said in part: "The coming election is not merely a question of party politics, but is a matter that vitally concerns the life or death of the American way of life as you and I know it."

"I am firmly convinced that Wendell Willkie can, and will be, elected if all those who are for him will do their part."

As to why he is for the Republican candidate, the speaker presented the following reasons:

"I am against the third term, which many great men of both parties have decided. I do not believe that there is any indispensable man, since there are many much more capable than the Democratic candidate."

"Because, under the Democratic administration there is, for the first time in the history of the United States, a definite class consciousness which, if fostered, will eventually ruin the country."

No Confidence

"Because we are facing a great national emergency in which business does not have the confidence of the present administration and without this national defense cannot be speeded to a point where we are guaranteed safety."

Rev. Rendall stated that he felt the funds appropriated for defense could be employed more efficiently and produce greater results in a shorter time than was being done by the present administration.

ANNUAL REPORT NURSE SOCIETY

Visits During Year Numbered 3,133; Much Work Done for Needy

The annual report of The Visiting Nurse Society, of Riverton, Cinaminson and Palmyra, as submitted by Mrs. Victor Ritschard is as follows: "Every thinking American must have the deepest concern for the preservation of democracy. Now more than ever before, we must work to procure the basic needs of the people of this country. From the tragic example of Europe, we should guard against deterioration of our National institutions and fight against the deadly virus of hopelessness, insecurity and despair from which thousands of our people are suffering."

"As a Public Health Organization, our Visiting Nurse Society is striving to work for better health and better living conditions in our Community. Besides the bedside care of the sick, the Nurses carry on their school nursing, baby clinic and venereal clinic. After three years, the venereal clinic has an attendance of 71 per cent of those who began treatment."

Many Visits

"Throughout the year the Nurses made 3133 visits, 100 patients were transported to hospital clinics, involving the use of 59 cars by the volunteer transportation group. Transportation is still a great problem. We wish to thank most sincerely all those who gave so generously of their time during this past year."

"Through the interest and financial aid of the local Red Cross Chapters we have been able to restock our lean closet so that we now have sufficient supplies to meet the medical or sick room requirements of our patients."

"Many of us gained inspiration from the Public Health Convention held in Philadelphia last May. Cooperation and understanding are essential to progress. Let us strive to keep well balanced minds, wary of the propaganda and hatred and prejudice. Let us work together to share the blessing of this great Nation."

The Treasurer's twenty-eighth annual report (Continued on page 2)

An Apology

The New Era asks the indulgence of its readers and advertisers because of the delay in publication this week.

This was occasioned by the failure of a part in the newspaper press which could not be repaired in time to make the mail on Thursday morning.

MEMBERS NAMED ON DRAFT BOARD

According to an announcement made last week, the personnel of the Draft Board to be located in Palmyra is as follows: Alfred M. Addison, of Maple Shade; Leonard R. Baker, of Palmyra and Charles H. Yost, of Riverton.

The examining physicians are: Dr. Charles F. Voorhis, of Palmyra; Dr. Harry B. Mark, of Riverton, and Dr. T. Bruce Dickson, of Riverton.

The Local Appeal Agent assigned to this board, which is designated No. 1, of Burlington county, is George N. Wimer, of Palmyra.

Mayor Frank Hague's secretary at Jersey City told his hearers that he hoped they would continue their active Americanism as Frank Hague has. Nothing was said about where the voting machines come into the picture.

In closing he predicted that many who voted for Roosevelt in 1936 could not conscientiously vote for him in November.

REVISION FOR PARKING RULE

Riverton Council Acts to
Remove Objectionable
Part of Ordinance

At the meeting of Riverton Bor-
ough Council held on Thursday
night of last week, an ordinance
passed first reading which will, upon
final passage remove the objections
to the parking ordinance that was
adopted during the past summer.
The new legislation will remove
the one-hour parking restriction in
the business section on week days
between the hours of 6 p.m. and 9
a.m. At present the one hour limit
is in effect 24 hours per day.
The ordinance will come up for
final passage at the next meeting
of the governing body to be held on
November 14, but the police have
been instructed to recognize the new
ruling until it has been adopted. The
revision of the ordinance is publish-
ed in full in this issue of The New
Era.

Parking Facilities

J. W. Sylvester, chairman of the
highway committee, reported a re-
vised plan for increasing parking fa-
cilities on the south side of Main
street, where widening of the thor-
oughfare had been contemplated for
several months.

The new project calls for widen-
ing the highway a distance of 15 feet
on the west side, in front of the Col-
lins building, Broad to Harrison.
This will permit the parking of cars
on an angle and will provide space
for 21 machines.

In addition, Mr. Sylvester is nego-
tiating with the Pennsylvania Rail-
road for use of the lot on the east
side of Main street, adjacent to the
tracks for use as a parking lot.

If this is obtained, it will do much
to relieve all congestion in the area.

Appointments

Mayor H. McIlvaine Biddle ap-
pointed Mrs. John P. Abell as a
member of the Local Assistance
Board to fill the vacancy caused by
the death of Mrs. Murray C. Boyer.
This was ratified by Council.

The Mayor also made two appoint-
ments to the Zoning Board of Ad-
justment, these being Clarence W.
Rodman and Robert G. Adams.
The vacancies were caused by the
death of Mrs. Boyer and the removal
of H. K. Rutherford to Boston.

The Porch Club

The greater part of Mr. Goren's
interesting lecture on Thursday
morning was devoted to "Rescuing."
His next lecture is Thursday, Octo-
ber 17th, at 10:15 a.m., as originally
scheduled. His third lecture will be
on October 24th. Don't forget the
duplicate bridge tournament on Oc-
tober 29th at 2 p.m. Come with a
partner. Prizes will be awarded and
tea served. It is free to club mem-
bers and those paying for the series
of lectures.

American Home Department

On Tuesday, October 22, at 2:30
p.m.—Mrs. Biddle Atlee Reed, of
Philadelphia, will give a talk on In-
terior Decorating—To exemplify her
lecture Mrs. Reed will exhibit ma-
terials and decorative accessories.

Mrs. Charles Sims, 618-W, will at-
tend to all publicity during my ab-
sence.

Mrs. David F. Gould,
Publicity Chairman.

Unclaimed Articles

YACHT CLUB NAMES OFFICERS

At a meeting of the Riverton
Yacht Club held last week, Charles
Knight was elected commodore for
the coming year. Other officers
elected were: John P. Mudd, vice
commodore; Robert Lippincott, rear
commodore and Thompson Coe, sec-
retary-treasurer.

The board of directors is com-
posed of the following: J. F. Ayres,
George Wilder, Dr. Harry L.
Rogers, Harold Marshall, Ogden
Mattis and Dewees Showell.

Needlework Guild Meeting

The annual meeting of the Riv-
erton Branch of the Needlework Guild
will be held at 2:30 p.m. in the
Porch Club, Monday, October 28th.
Mrs. J. H. Meekham, South Jersey
chairman of the Guild, will speak.
Directors are reminded that gar-
ments should be delivered to the
Porch Club rooms by 10 a.m. And
at one o'clock a luncheon will be
served to all members interested in
inspecting the contributions.

The luncheon, for which a charge
of 35c per person will be made, will
be served by Mrs. Edward Merrill
and committee. Reservations should
be made with Mrs. William Hen-
drickson on or before Friday, Oc-
tober 25th.

Unusual Demands

These are days when extraordinary
demands are being made on our re-
sources and our sympathies. Urgent
as these are, it should be remem-
bered that they are extraordinary—and
when the exceptional crises of war
are past, the need to help the under-
privileged among us will still be our
responsibility.

There are twelve accredited social
service agencies, all but one func-
tioning in the South Jersey area,
which depend each year on gifts of
new clothing and household linens
from the Needlework Guild. Last
year the Riverton Branch distributed
1883 articles among these institu-
tions.

The letters of appreciation which
have been received by the Branch
stress, in almost every instance, the
value of new, plain, serviceable ar-
ticles—how much comfort and pleas-
ure the wearing apparel gives the
men, women and children who re-
ceive it; how useful the sturdy new
sheet, towels, wash cloths, bed pads
and spreads prove in the institution-
al care of the sick and aged.

Serviceability

In making purchases for the
Needlework Guild, contributors are
asked to keep in mind the service-
ability of the articles chosen. Cloth-
ing for men, women and children is
greatly needed—particularly clothing
for boys and girls between ten and
sixteen years of age.

The Riverton Branch of the
Needlework Guild is forty-six years
old this autumn. During that long
time it has done a consistently fine
philanthropic piece of work. Make
this year outstanding for the num-
ber and value of its contributions—
just because more is being demand-
ed, try to give more.

And come to the meeting. Lun-
cheon (35c) at one o'clock; annual
meeting with speaker at 2:30, on
Monday, October 28th, at the Porch
Club. Luncheon reservations to Mrs.
Hendrickson by Friday the 25th.

PHALANX TO SPONSOR
FORUM IN OCTOBER

The Phalanx Fraternity will spon-
sor the first of a series of Forums
on Tuesday evening, October 29, at
8 o'clock in the Community Centre.
The subject chosen for this first
forum: "Should the Palmyra Sunday
Blue Laws be Repealed and, If So,
to What Extent?" is a timely one
and should prove extremely inter-
esting. Don't forget the date—Octo-
ber 29, at the Community Centre.

WILLKIE CLUB PLANS MEETING

Prominent Speakers Secured
for Session Here on
Tuesday, October 22

As a highlight of the current po-
litical campaign, the Riverton-Cin-
naminon Willkie Club has planned an
important meeting for Tuesday, Oc-
tober 22, in the auditorium of the
Riverton Public School, at 8 o'clock,
when A. Matlack Stackhouse, of
Moorestown, and Mrs. Lillie D. Ber-
gey, of Philadelphia, will be the guest
speakers.

Mr. Stackhouse has the reputation
of being one of the most dynamic
speakers in New Jersey on the ques-
tion of the issues involved in the
presidential campaign and will have
a message that should interest all
those who are interested in the pre-
servation of our democracy.

Mrs. Bergey is also noted for her
ability to hold an audience and
speaks from wide experience, having
been a member of the Democratic
National Committee from Pennsylv-
ania, a former member of the Pen-
sylvania State Democratic Commit-
tee and vice chairman of the Phila-
delphia Democratic City Commit-
tee.

Program

In addition to the talk of Mr.
Stackhouse, it is planned to show
two reels of movies. These will be
furnished by the Republican County
Committee and depict various phases
of the Willkie campaign, with the
candidate in action at various local-
ities.

Those in charge of the evening
state that the program will be limited
to one hour, and especially urge a
large attendance, since it will be
the only meeting of this nature that
will be held in Riverton.

James S. Coale, of Riverton, will
act as chairman of the meeting and
F. H. Story, Jr. is chairman of the
committee in charge of arrange-
ments.

DR. STODDART RESIGNS FROM HOME BOARD

Members of The Board of Man-
agers of the Cinnaminon Home de-
clare to the resignation of Dr. Frances
Janney Stoddart from the Board be-
cause of illness.

If it had not been for the energy
and vision of Dr. Stoddart some fifty
years ago, the home would not have
been started.

She has been a valued member of
the Board ever since; her knowledge
of medicine and her regard for the
spiritual, as well as the physical wel-
fare of the family has been of in-
estimable value throughout the years.

The Board, the staff, and guests
of the Home are all missing Dr.
Stoddart's helpful presence, her en-
couraging advice and her wise guid-
ance.

Reception Of Riverton P.T.A.

The Annual Reception of the Riv-
erton P.T.A. for Parents and Teach-
ers will take place on Monday,
October 21, at 8 p.m. in the school
auditorium. The speaker will be Dr.
Francis Harvey Green, headmaster
Pennington School.

His topic will be "The Job We
Have." Refreshments will be served
at the close of the meeting.

Mrs. John P. Abell, president of
the Association, urges a large atten-
dance at this, the first evening meet-
ing of the new school year.

ENTHUSIASTIC GROUP HEARS REV. RENDALL

The headquarters of the Riverton-
Cinnaminon Willkie for President
Club was filled to capacity on Mon-
day night of this week, when a large
audience heard Rev. James H. Ren-
dall, of Edgewater Park, give an in-
spiring talk on the reasons why
Wendell H. Willkie should be elected
the next President of the United
States.

The speaker was warmly applaud-
ed by the audience on many oc-
casions during his talk. Francis B.
Elwell presented the speaker, follow-
ing the opening of the meeting by
C. Singleton Mears, president of the
local club.

Vital Election

In his address Rev. Rendall said
in part: "The coming election is not
merely a question of party politics,
but is a matter that vitally concerns
the life or death of the American
way of life as you and I know it."
"I am firmly convinced that Wen-
dell Willkie can, and will be, elected
if all those who are for him will do
their part."

As to why he is for the Republican
candidate, the speaker presented the
following reasons:
"I am against the third term,
which many great men of both
parties have decried. I do not be-
lieve that there is any indispensable
man, since there are many much
more capable than the Democratic
candidate."

"Because, under the Democratic
administration there is, for the first
time in the history of the United
States, a definite class consciousness
which, if fostered, will eventually
ruin the country."

No Confidence

"Because we are facing a great na-
tional emergency in which business
does not have the confidence of the
present administration and without
this national defense cannot be
speeded to a point where we are
guaranteed safety."

Rev. Rendall stated that he felt
the funds appropriated for defense
could be employed more efficiently
and produce greater results in a
shorter time than was being done by
the present administration.

ANNUAL REPORT NURSE SOCIETY

Visits During Year Numbered
3,133; Much Work
Done for Needy

The annual report of The Visiting
Nurse Society, of Riverton, Cin-
naminon and Palmyra, as submitted by
Mrs. Victor Ritschard is as follows:
"Every thinking American must
have the deepest concern for the
preservation of democracy. Now
more than ever before, we must work
to procure the basic needs of the
people of this country. From the
tragic example of Europe, we should
guard against deterioration of our
National institutions and fight
against the deadly virus of hopeles-
sness, insecurity and despair from
which thousands of our people are
suffering."

"As a Public Health Organization,
our Visiting Nurse Society is
striving to work for better health and
better living conditions in our Com-
munity. Besides the bedside care of
the sick, the Nurses carry on their
school nursing, baby clinic and ven-
ereal clinic. After three years, the
venereal clinic has an attendance of
71 per cent of those who began treat-
ment."

Many Visits

"Throughout the year the Nurses
made 3133 visits, 100 patients were
transported to hospital clinics, in-
volving the use of 59 cars by the
volunteer transportation group.
Transportation is still a great prob-
lem. We wish to thank most sin-
cerely all those who gave gener-
ously of their time during this past
year."

"Through the interest and financial
aid of the local Red Cross Chapters
we have been able to restock our
loan closet so that we now have suf-
ficient supplies to meet the medical
or sick room requirements of our pa-
tients."

"Many of us gained inspiration
from the Public Health Convention
held in Philadelphia last May. Co-
operation and understanding are es-
sential to progress. Let us strive to
keep well balanced minds, wary of
the propaganda and hatred and prej-
udice. Let us work together to
share the blessing of this great Na-
tion."

An Apology

The New Era asks the indulgence
of its readers and advertisers because
of the delay in publication this week.
This was occasioned by the failure
of a part in the newspaper press

to make the mail on Thursday
morning.

made last week, the personnel of the
Draft Board to be located in Pal-
myra is as follows: Alfred M. Addi-

Harry B. Mark, of Riverton, and Dr.
T. Bruce Dickson, of Riverton.
The Local Appeal Agent assigned
to this board, which is designated
No. 1, of Burlington county, is
George N. Wimer, of Palmyra.

Mayor Frank Hague's secretary at
Jersey City told his hearers that he
hoped they would continue their
active Americanism as Frank Hague
has. Nothing was said about where
the voting machines come into the
picture.

In closing, he predicted that many
who voted for Roosevelt in 1936
could not conscientiously vote for
him in November.

FINAL PLANS FOR TENNIS BANQUET

William G. Munro, who is in charge of the Palmyra Tennis club's first annual banquet on Friday, October 25, states that invitations have been sent out to all the tennis clubs throughout South Jersey including Riverside; Rose Valley, of Burlington; and Moorestown. It is also expected that Mayor McIlvain H. Bidle, of Riverton, and Mayor John F. Ward, of Palmyra, will be among those present at the affair.

The club will be host to Alice Marble, the No. 1 woman tennis star of the country, and last year's outstanding woman athlete. Not since the 1935 selection of Helen Wills

Moody had a tennis player been chosen for first place. Miss Marble the blonde daughter of a California farmer took the national title from Helen Jacobs in 1936. In the summer of 1939 Miss Marble won at Wimbledon. She took the national championship at Forest Hills for the third time.

Champion on the tennis courts of England as well as here in America, Miss Marble clearly merited the No. 1 position last year.

In the old days, when a man did a good job, you could hand him a five-dollar gold piece, but now you have to write a check, deduct social security, and report the gift to the U. S. government. It's like asking a girl friend for a receipt for your orchid.

PALMYRA LOSES TO HADDONFIELD

Keen's Run of 55 Yards for Only Local Score Is High Spot of Game

A capacity crowd of several thousand fans saw the first home football game of the season last Saturday afternoon in the Palmyra stadium when Haddonfield administered the second reverse of the season to the Red and White, the score being 12-6. The thrill of the day came following the second half kick-off when, having taken the ball on their own 45, the locals knotted the count at 6-all when Keen left end, snared a long aerial from Flournoy and went 55 yards for the six-point.

The affair opened in a promising manner as Palmyra started what looked to be a touchdown march. Conwell and Flournoy picked up a first down and the latter contributed another that brought the oval to the invader's 38.

Fades

A 15-yard penalty further aided the cause of the Fiedelmen, but the attack petered out on the 22 as three passes went astray and an end run was smothered.

Haddonfield could not gain and the locals started another parade, this time from their own 34, but again bogged down and were forced to kick. Trotta then intercepted the first of the enemy's aerials at mid-field and a pass, Flournoy to Keen advanced the scene to the 29, where Haddonfield again took over.

Kick Blocked

Midway through the second quarter one of Flournoy's boots was blocked and the opposition took over on the home 43.

Richardson made it a first down on Palmyra's 33 and then Padgett, a brilliant back, romped to within three yards of the promised land.

At this point the Red and White outfit staged a magnificent last stand as three power plays failed to gain an inch. Lyons found a hole on the last try, however, and went over. The try for conversion via the placement route was low.

Get Another

After Keen's run to start the third chukker, the opposition started carving out the winning tally from their 39, being aided by a 15 yard penalty for piling on the part of Palmyra. A thrust into the air, Richardson to Padgett went to the local 19, while another brought the ball to the 3 again. On this occasion there was no hesitation, Dost lunging the leather over on the first play.

From then on it was all Haddonfield, with the enemy in possession of the pigskin the greater portion of the time and always threatening.

The Red and White did manage to get past midfield on one occasion when a pass from Flournoy to Lane brought the attack to the enemy 45, but the next venture into the air resulted in an interception.

The affair ended with Haddonfield pounding for another score on the local 5 yard stripe.

The fall meeting of the Burlington County Historical Society will be held in the headquarters of the Camden County Historical Society, Euclid avenue and Park boulevard, Camden, Saturday, October 19th, 1940, at 3 o'clock.

There will be an address by Samuel H. Richards, Camden, "Jersey Settlements on the Delaware." Friends of members are cordially invited.

MANUFACTURE OF TNT EXPLAINED

How benzol, a nearly colorless liquid, is transformed in successive steps to a canary yellow granulated material, which looks like sugar except for its color, but is really the powerful explosive T.N.T., was related to Palmyra-Riverton Rotarians by their fellow-member S. Reid Merley, last Thursday. Mr. Merley, who is a graduate of Purdue University in chemical engineering, and has had much experience in manufacturing explosives, illustrated his talk with blackboard drawings of the processes he discussed. The highly technical subject was boiled down to a level at which it became intelligible to the laymen present.

Starting with benzol or methylbenzene, Mr. Merley described the three nitrations which raise it to the finished product, trinitrotoluene or T.N.T. Most important, he said, were the temperature regulations, for instance the first nitration does not go above 145 degrees Fahrenheit, the second above 180 degrees Fahrenheit, and the third above 230 degrees Fahrenheit. Failure to keep within these limits leads to fires in the first two, and detonation in the last. Since the benzol does not mix easily with the nitrate it is agitated by stirrers worked with a steam engine; this permits a steady control of revolutions per minute, which cannot be obtained by any other form of propulsion.

Other Steps

After the first nitration the clear liquid mononitrotoluene is drawn off and blown to the next house, where the second and third steps are carried on. When it becomes binonitrotoluene it looks just like solid butter, if crystallized, and in the final stage it is a yellow oil, not clear, since it contains some foreign matter. Excess acid is neutralized out by hot water at 180 degrees Fahrenheit, and three or four washes are necessary. Purification takes place when the liquid runs from the tank bottom and strikes a stream of water which causes it to crystallize. The pellets fall into a scoop grader that loads them into a car for transport to the grader house.

The crystallized T.N.T. is now dumped into hot water at 200 degrees Fahrenheit, which causes the impurities to float on the top. The product is then drawn off the bottom into a grading kettle, where it is agitated by a plow, and becomes like fudge. The heat of its crystallization raises the temperature 3 or 4 degrees which is enough to boil off the remaining water content as steam. This stage is very dangerous to the operator if he gets too much of these fumes, for the human body can stand only so much nitrogen.

Final Procedure

T.N.T. is prepared for shipment in a box-factory, where it is packed in 100 pound wooden boxes after being forced through revolving screens. One man can nail up 72 of these containers an hour; if for export, they are banded. There is little danger of an explosion with the finished product, in fact it is possible to place it on an iron sheet and pound it with a hammer, nor will it explode if a rifle bullet is fired through a car of it.

Paul R. Jones, supervising principal of the Palmyra Schools, outlined briefly a plan for guidance of the seniors at the High School, in their search for the kind of job suitable for their talents. A number of Rotarians agreed to give counsel where their experience seemed suitable.

Municipal Topics

Advertising is being put to a new use—the stimulation of tax payments—with considerable success, reports the Municipal Finance Officers Association of the United States and Canada. Heretofore, the ventures of government into the advertising field have been limited in large part to routine legal notices and more recently to the promotion of industrial or vacation advantages of states and cities.

New Jersey municipalities have conducted tax drives through newspaper publicity, but it remained for the State of Michigan to make an organized effort toward taxpayer education and encouragement of payments, utilizing newspapers, radio and billboards as mediums. Ingham County in Michigan, the City of Detroit, and Greenburg, New York, are other divisions of government profiting by increased tax collections through advertising campaigns.

Michigan Starts
The Michigan experiment was begun with a legislative appropriation of \$75,000 which was spent for a four-month program to sell taxpayers the idea of a 10-year installment-payment plan for delinquent taxes.

More than \$15,000,000 in cash was collected, the association reports, and taxes totaling \$60,000,000 placed on an installment basis.

Later, \$15,000 was provided to urge through advertisements the payment of the second installment under the 10-year plan and to this amount \$25,000 was subsequently added to call attention to installment payments due and to inform tax payers of minor changes in the act allowing such payments.

Special Campaign
Ingham County spent \$5,000 in a special campaign to collect \$3,000,000 in delinquent taxes. During the campaign, more than \$2,000,000 was either collected in cash or placed on the 10-year plan. Detroit was successful with a similar campaign.

Greenburg used 4,500 lines of display advertising in newspapers in a drive last March to stimulate tax collections. April receipts were 74 per cent of the levy, compared with a 69 per cent return of April, 1939.

Periodic reports of the State Department of Local Government show a considerable percentage of unpaid taxes each year. In some instances the figure has run as high as 35 per cent, although lately collections have been better due to improved business conditions.

Much of the uncollected levies is caused by genuine distress on the part of property owners, the majority of whom would prefer to pay rather than see their holdings sold at tax sales. There is another class, however, long recognized as a field for education designed to drive home the arguments that what they are called to pay is merited by the benefits they receive in return. It is this group that offers rich possibilities for an advertising campaign and, incidentally, the making of better citizens.

CARE URGED IN FIRST AID

Upon request of hospital authorities, the Keystone Automobile Club has issued a bulletin urging motorists who are inexperienced in "first aid" methods to be extremely careful in the handling of highway accident victims.

Well-intentioned motorists, it is pointed out, often aggravate injuries in their laudable, but unskilled, efforts to render assistance.

The best practice, according to medical authorities, is in the case of broken bones, to make the patient as comfortable as possible at the scene of the accident and await the arrival of doctor or ambulance. In case of bleeding, the "Good Samaritans" should apply a tourniquet before taking a patient to a hospital.

"The natural impulse of those who are first to reach highway accident victims is to get the patients to a hospital or doctor with utmost haste," said Edward P. Curran, Keystone Safety director. "However, the well-intentioned motorist may, by inexperienced handling, change a simple fracture of arm or leg into a more serious injury. In frenzied haste to reach doctor or hospital, improvised ambulances frequently are involved in accidents through disregard of traffic regulations, in some cases causing additional injury or even death to the original victims."

"It is important, therefore, that utmost care be taken both in the handling of the injured and in transporting them from the scene of accident. Lives can be saved and injuries minimized if proper precautions are observed."

PLANTS FOR YOUR GARDEN

By A. C. McLean
Extension Service, N. J. College
of Agriculture

October is the month for transplanting most hardy shrubs and many herbaceous perennials, and for harvesting gladioli and dahlias. It is better to leave these until the latter part of the month, for then they will have become ripened. Dahlia is in particular store better if they can be left in the ground a week or so after frost has stopped their growth. Around the last of October conditions are generally good and they may be harvested easily, unless there is a large quantity of them—in which case the digging should be started earlier.

If you want to transplant some types of evergreens or deciduous shrubs or trees, October is one of the best months of the year for doing it. One of the big advantages of transplanting in October is that the soil is still warm enough to start root action and the root system becomes established before the cold weather starts. Then, if they are mulched well, plants can be depended upon to go through average winters in good condition and be ready to start growing in the spring.

Cut Tops

The practice of reducing the top to correspond to the root system applied to all transplanting. This is just as essential in the fall as in the spring, in order to help the plant recover and make the best growth. Remember that top growth can be produced on plants just so fast as the root system is active and strong, and no faster. In the usual method of digging, at least 60 per cent of the root system is reduced or damaged, so don't be afraid to reduce the top accordingly.

Don't expect too much bloom next spring from woody material moved this fall, unless they are plants that will flower on new wood. If you try to leave all the flower buds that have formed in the summer when transplanting in the fall, the result will be puny flowers. It is much better for the shrub to have the buds removed and wait for bloom until another spring. Herbaceous plants that make their principal growth in the spring will bloom very well from fall transplanting, and so will roses. The spring bloom is generally better on fall-planted roses than on those planted in the spring, for roses start very early in the spring and need an established root system to produce good flowers. When roses are planted now, the roots will develop before cold weather. They need some protection over winter, but no more than established bushes.

LOCALS TO PLAY HADDON HEIGHTS

Palmyra High School's eleven will try to get back into the win column on Saturday afternoon of this week, when the locals journey to Haddon Heights to engage the scholastic outfit of that community.

According to all indication, the game should be fairly evenly contested. Palmyra displayed good football during the first part of the Haddonfield game, but showed a decided relapse during the last two quarters.

If Coaches Fiedler and Terrell can bolster up this weakness, the locals may bring home the decision.

Long Home Stand

Following the Heights game, Palmyra returns home for a four weeks' stay, meeting Burlington, Merchantville, Moorestown and Woodrow Wilson on successive Saturdays during this period.

The engagements will give local fans plenty of action at the local stadium and will make up for the games that have been played away during the early part of the campaign.

APPEALS FOR MORE CAUTION

Warning that the next three months will be the most dangerous of the year from the standpoint of traffic fatalities, Motor Vehicle Commissioner Arthur W. Magee this week appealed for greater caution among drivers and pedestrians.

Nearly one-third of last year's deaths occurred during October, November and December which is contrary to the general belief that the summer months are the most hazardous.

Reporting for the first eight months of the year Commissioner Magee announced a total of 516 casualties, or 39 more than in the corresponding period of last year. Camden and Union counties with 12 and 25 more respectively, lead the counties that contributed most to the State's higher toll.

During Eight Months Following is an eight months comparison in the counties together with the numerical changes:

MANY PEOPLE IMMUNIZED

In six years, since the State Department of Health began furnishing diphtheria immunizing material and smallpox vaccine without charge, a total of 211,998 persons have received the diphtheria toxoid and 129,139 have been vaccinated with the State vaccine.

Although the record for diphtheria in 1939 was relatively good, the occurrence of 453 cases, resulting in 25 deaths from this cause, would of course indicate continuous and determined efforts to have parents seek for their young children the protection afforded against this disease by toxoid. One hundred and twenty-nine cases and fourteen deaths were reported in children below five years of age.

Similarly, although New Jersey's record of smallpox is enviable, vigilance in stressing vaccination must not relax. Cases of this disease do occur in considerable numbers in many states of the Union, and in view of the rapidity and extent with which people now make inter-state journeys, exposures to cases of smallpox or actual importation of infected persons into our State may occur at any time.

Again Available
Diphtheria toxoid and smallpox vaccine were again made available during 1939 under rules previously adopted by the Department.
For the fiscal year ending June 30.

Six per cent of the children reported as receiving the toxoid were less than one year old; thirty-nine per cent were less than five years old. Three per cent of the persons who were vaccinated with the material furnished through the Department were children less than one year old, while forty-eight per cent were children less than five years old.

ASKS FUNDS FOR BRIDGE REPAIRS

State Highway Commissioner E. Donald Sterner today requested the Federal Government for an emergency appropriation of \$84,250 to pay one-half the cost of reconstructing eleven bridges which were destroyed during the cloudburst which struck South Jersey over Labor Day weekend. The balance will be financed with the State Aid funds from the automobile license fees and gasoline taxes.

Five of the bridges are in Burlington county, to be rebuilt for \$60,000. Three of the structures span the Rancocas Creek at the following locations: New Lisbon on the connecting link between Fort Dix and State Route 40; Lumberton on the Lumberton-Vincentown Road, connecting Routes 38 and 39, and on the Bridgeboro-Masonville-Lumberton Road. The other two bridges will span the Pennsauken Creek between Hainesport-Evesboro and Baker's Brook on the Burlington-Fort Dix Road.

Democrats Say

There are many on both sides of the aisle—and I know this from utterances here in the well of the House as well as from private conversations with the individual members—who feel that this body is, by constantly conferring increased power upon the Chief Executive of this land, laying the foundation for a change—a fundamental change—in the type of government we have. * * * and at a time when the institutions of republican, representative government have been crushed out throughout the world by that very same process of increasing the executive power at the expense of the representatives of the people, or we shall place this (tariff making) power in the hands of a commission set up for this very purpose of former Congresses. We can continue this drift toward totalitarian power by conferring it upon the office of the President or we can place it in the hands of a commission.—Rep. Lawrence Lewis (D), Colo., in House, Oct. 2, 1940.

Every time the President goes on a week-end trip he comes back with a recommendation for another four or five-billion-dollar appropriation.—Sen. Bennet C. Clark (D), Mo., in Senate, September 24, 1940.

In some of the departments in the past few years, during the emergency, young lawyers just out of college have started at salaries which they could not obtain anywhere in the country in the private practice of law. That is one of the things which has tended to bring discredit upon some of the departments. Some of the departments have taken young fellows just out of college and have given them salaries in excess of those received by very able district judges throughout the western and middle-western part of the country after long terms of service. There are a tremendous number of people unemployed in the United States today, many people are going hungry and many are looking for jobs at sufficient wages barely to make a living, and yet we have been grossly extravagant in the salaries paid in some of the departments.—Sen. Burton K. Wheeler (D), Mont., in Senate, Sept. 25, 1940

Defense Or Politics?

Delay in arming the United States is bringing violent protests from the people. They see with great anxiety the gathering of war clouds while something resembling paralysis overcomes the national defense machinery at Washington.

What causes the delay?

Congress has given to Candidate Roosevelt every dollar he has asked for. The total runs above 20 billion dollars. Congress has given to Mr. Roosevelt the powers he has asked for. He has authority to appoint all necessary agents. He can take over factories. He can finance concerns for needed extra plants and equipment. The War and Navy Departments are organized for quick procurement of war material. The National Defense Advisory Commission is composed of able men, anxious to go forward.

On all sides it is agreed that the bottleneck is in the White House.

Instead of delegating authority to close contracts, Mr. Roosevelt insists upon acting as virtual chairman of the National Defense Advisory Council. He holds up contracts that have been "cleared" by all subordinate authorities. He sends these papers back for revision, for change, for cancellation.

The ugly head of politics has appeared in the national defense program. It is now asserted that contracts which were "cleared" to tested and qualified concerns have been shifted to others for political reasons. Certain sections feel that they are discriminated against. The Governors of three States, representing in all nine States, have registered their protest in person to the President.

Col. Leonard P. Ayres, outstanding economist, who served brilliantly in the procurement branch of the War Department during the World War, is returning again to active service to assist in expediting the defense program. Recently he described present progress in rearmament as "decidedly leisurely," and added

NO THIRD TERM

YESTERDAY... and TODAY

Grandmother used a kerosene lamp. She lighted it with matches and refueled and cleaned it daily. It was the best means of home lighting available then, but a bother to maintain. The light provided was inadequate for reading, writing and sewing; very hard on grandmother's eyes.

TODAY... Granddaughter can use an I.E.S. Better Sight lamp . . . the kind approved by the Illuminating Engineering Society for correct lighting. This type of lamp provides a combination of direct and indirect illumination—light that is soft and restful for eyes.

The beauty of the old-fashioned kerosene lamp is retained in the two I.E.S. table lamps pictured here. Note the familiar pebble glass font, the polished brass standard and the old-fashioned marble base. These lamps go well with early American style furnishings.

There are I.E.S. table and floor lamps in many beautiful styles. Models include a variety of table lamps, 6-way floor lamps, junior floor lamps, swing-arm floor lamps and torchiere lamps.

These lamps will brighten the rooms in your home. Use I.E.S. Better Sight lamps in your home.

THE PEOPLE'S COLUMN

To: All Motorists
Dear Mr. Motorist:

Today, my daughter who is seven years old started to school as usual she wore a dark blue dress with a white collar—she had on black shoes—and wore blue gloves—her cocker spaniel—whose name is Coot, sat on the front porch and whined his canine belief in the folly of education, as she waved goodbye, and started off to the hall of learning.

Tonight we talked about school—she told me about the girl who sits in front of her—the girl with yellow curls—and the boy across the aisle—who makes funny faces. She told me about her teacher—who has eyes in the back of her head—and about the trees in the school yard—and about the big girl—who doesn't believe in Santa Claus. We talked about a lot of things—tremendously vital, unimportant things—and then we studied spelling, reading, arithmetic—and then to bed.

She's back there now—back in the nursery—sound asleep, with "Princess Elizabeth" (that's a doll) cuddled in her right arm. You guys wouldn't hurt her, would you?—You see, I'm her daddy—when her doll is broken—or her finger is cut—or her head gets bumped, I can fix it—but when she starts to school—when she walks across the street—then she's in our hands.

She's a nice kid—she can run like a deer, and dart about like a chipmunk—she like to ride horses, and swim, and hike with me on Sunday afternoons.

But I can't be with her all the time—I have to work, to pay for her clothes and her education.

So please help me look out for her—Please drive slowly past the school and intersections—and please remember that children run from behind parked cars.

Please don't run over my little girl.—Every Daddy.

AMERICAN BOY IS COMPANION TO THOUSANDS

Hundreds of thousands of boys and young men read THE AMERICAN BOY Magazine every month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum," writes one high school senior. "THE AMERICAN BOY seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in THE AMERICAN BOY."

credit much of their success to helpful suggestions received from sports articles carried in THE AMERICAN BOY Magazine. Virtually every issue offers advice from a famous coach or player. Football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys' clubs also recommend THE AMERICAN BOY enthusiastically. They have found that as a general rule regular readers of THE AMERICAN BOY advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff to produce in THE AMERICAN BOY, the sort of read-

Women Are Thinner

Is the American farmer losing a part of his domestic market for food-stuffs?

It appears so from a study of weight of women over a period of years. The average weight of women, in all height classifications, has shown a general decline in the period from 1922 to 1934 averaging between three and five pounds, ac-

cording to a study made by the Metropolitan Life Insurance Company.

The general decline in weight among women 25 years of age and over is not alarming and does not indicate malnutrition. It may actually prove healthful, since disease conditions are associated with overweight.

This feature is prepared by the Burlington County Medical Society and the Medical Society of New Jersey.

The New Era Office

SHALL ROOSEVELT BE King Franklin 1st of the UNITED STATES?

The President of the United States already has more power than any constitutional monarch in the world.

The chief difference has been that heretofore, for one hundred and fifty years, every President has retired from office after not more than two terms.

WASHINGTON, the Father of his Country, REFUSED a third term. JEFFERSON, the Founder of the Democratic Party, REFUSED a third term. The Democratic Party in its platforms of 1896 and 1912 declared it to be the UNWRITTEN LAW of the United States, that no President should serve more than two terms. Republican National Conventions have always firmly REFUSED to nominate a President for a Third term.

Those who plan to vote for President Roosevelt for a third time give two main reasons for so doing:

1. That Roosevelt has been such a good president that he deserves to be reelected.
2. That the nation faces such a crisis that the President should remain in office.

IF THESE ARGUMENTS ARE VALID, THEN ROOSEVELT MUST BE RE-ELECTED FOR THE REST OF HIS LIFE, BECOMING A KING OF THE UNITED STATES IN FACT.

BECAUSE, FOR THE REST OF HIS LIFE HIS SUPPORTERS CAN CLAIM HE HAS BEEN A GOOD PRESIDENT AND DESERVES REELECTION.

BECAUSE, FOR THE REST OF HIS LIFE THIS NATION WILL BE FACING A CRISIS.

The world war will probably still be raging when a president is to be chosen four years from now. That would mean Roosevelt should, according to his supporters, be reelected for a FOURTH term.

Even should the world war be ended, the world will be facing an economic crisis much longer and more terrible than the last one, which has already lasted more than ten years. That would mean, according to his supporters, that Roosevelt should be reelected for a FIFTH and a SIXTH term, in fact for the rest of his life, becoming the first

The Golden Text is: "Walk in

Among the lesson-sermon citations

them that obey him." (Hebrews

The lesson-sermon also includes

the following passage from the

Wesleyan Men's Bible Class

For the Men of the Community

Dr. Samuel Johnson, famous in English literature, with some friends was climbing among the Highlands of Scotland. In the sunset glow he saw on the top of a building the form of the cross. Deeply impressed the great scholar paid a loving tribute to the crucified Christ in his redemption of the world.

Said Jesus "And I, if I be lifted up from the earth, will draw all men unto me." The cross and its suffering Redeemer is the moral and spiritual magnet that alone draws the multitude to Him.

"There is life for a look at the crucified one." Many have been uplifted in the time of need by the cross; the cross seems to be an essential element in life. However, the loving patience of the crucified Christ is our example in forbearance and ultimate triumph.

In our Bible Class the uppermost message is the Cross transfigured as the world triumphant victory over all earth's forces in the redemption of men.

Join with us next Sunday at 9:50 a.m. in adoration of him who died for us.

Riverton a unique insight into the "Prevention of Crime through Recreation."

Mr. Patton is scheduled to speak at the Episcopal Parish House in Riverton this Sunday night, under the auspices of the Young People's Fellowship. The Fellowship, however, has extended an invitation to all of High School age, or above, to come as their guests to hear him.

Mr. Patton is supervisor of special activities for the Crime Prevention Association of Philadelphia, a full time job under the aegis of the Big Brother's Association. While he says that it is impossible to tell just what any given agency has done in a particular case, yet the indication seems to point to the fact that crime can be prevented in the majority of cases by the use of very definite and tried techniques. Crime Prevention does not seek to reform criminals, but to keep boys so occupied with helpful activities the opportunities for worthwhile attainment are increased and temptations to personal gain under the law are lessened.

Mr. Patton's contentions are well demonstrated by the work of the association, by the vastly lowered crime rate in the districts where sound work of this sort has been done. Directed by professionals, as it must be, yet most of the actual running of the clubs under the association is done by the members, members about the same age as the Fellowship group. If you are in this age group come and find out about it. If you are older and still interested come and hear Mr. Patton this Sunday night in the Parish House at 7:30. Come as the guests of the Fellowship.

FOOD PRICES DROP
September's lower retail food prices in New Jersey, which dropped 1.99 per cent below the preceding month, were attributed to abundant supplies by the State Department of Agriculture in its monthly survey of retail food prices in this state.

The upward trend in the price of meat which was so noticeable during August, 1940, was broken in September with all meats 2.48 per cent below the August level. The meat market is fluctuating widely and it is impossible to predict future prices at present. September's average retail food price was not only 1.99 per cent lower than the previous month but was 2.72 per cent lower than for September a year ago, when the price of many food items rose rapidly on account of the declaration of war in Europe.

REGISTRATION DAY

Registration of men for the Selective Service Plan was carried out locally on Wednesday in an efficient manner by local election board officials assisted by school teachers in all three communities.

No figures were given out regarding the number registered and it is understood that this data will be released at a later date.

WENDELL WILLKIE Says:

"Government employment has increased nearly 100 per cent. Government expenditures have increased nearly 200 per cent. Now amounting to over nine billion dollars. Government borrowing has increased over 150 per cent. Here is a real political boom. Here is one

activity in which the enterpriser has become both rich and powerful. But all this has been accomplished at the expense of the people, who have paid for it not only in taxes but in the losses which their enterprises have suffered as a result of this government activity."

Hidden Taxes
More than 22 per cent of the total national income is taken by Federal, State and local tax collectors. Even tho a person does not pay taxes directly, taxes nevertheless are passed on to him hidden in higher prices for the things he has to buy. A person with an income of \$80 a month pays indirect taxes of \$9.67 a month, or 12 per cent of his income. One with an income of \$150 a month pays \$19.10 monthly in hidden taxes, or 12.7 per cent of his income. This is in addition to taxes paid directly.

Approximately 75 per cent of all life insurance policyholders' deaths in 1939 were under policies owned for more than 10 years. Thirty-nine per cent of life insurance death claims were on policies which had been in force more than 20 years, while 13 per cent had been in force more than 30 years.

Pedestrians Walk Into Trouble, Report Shows

That simple thoughtlessness is to be blamed for most of the appalling number of pedestrian deaths in 1939 is the conclusion to be drawn from an analysis released in "Smash Hits of the Year," the tenth annual highway safety booklet published by The Travelers Insurance Company.

Of 12,470 pedestrians killed last year, 3,290 or 26.4 per cent met death while carelessly crossing in the middle of the block. In contrast, only 210 or 1.7 per cent were killed crossing as they should on the proper signal at intersections.

Other leading causes of fatalities, according to the analysis, were walking on rural roads, crossing at intersections against the signal, coming into the street from between parked cars and children playing in the street.

Calling attention to the responsibility of pedestrians in accidents, the booklet states: "The pedestrian has become one of modern traffic's greatest problems. This problem child of the streets and highways, so neglected and at the same time so spoiled, must be taken in hand. He needs attention and discipline."

Travelers urges modern highway engineering with special attention to pedestrians' needs, such as footpaths, walk signals, good lighting, underpasses and overpasses.

"Then," the company states, "let us educate the pedestrian to use these aids properly, as we are educating motorists to use protective devices. Finally, having provided him with safeguards and taught him to use them, let us demand of him the same strict observance of traffic laws that we now demand of the driver."

STATE SESSION OF RED CROSS

Local Delegates Attend; Sewing and Knitting Here Being Continued Fridays

On Friday, October 18, a State Conference of Red Cross Chapters in New Jersey was held in Trenton. It was the largest regional conference ever held in the state, with 720 delegates attending. Mrs. Stewart Borge and Mrs. Eric Warnick represented the Riverton Branch of the Burlington County Chapter.

Eliot Wadsworth, member of the Central Committee, spoke eloquently of the work of the organization in Europe war relief, stressing with all the emphasis at his command the fact that all Red Cross relief abroad is now civilian and British. No food, clothing, medical supplies or help of any kind is or will be sent to the Continent, either in the so-called "free" or occupied zones.

The splendid part of the Junior Red Cross in home relief and national defense was presented by Gordon Forbes, Englewood high school student.

War Diseases
Bruce Smith, a dollar-a-year man, told of the fascinating work being done by the Harvard Red Cross Hospital Unit for the study of communicable diseases in war time. Walter Davidson, assistant manager of the Eastern Assistant of the value and importance of home service programs in and out of war time.

Following the luncheon session, the Riverton delegates adjourned to the roll call conference presided over by Raymond S. Eaton, director of roll call is the Eastern Area. "Every one of the 1940 roll call; and it was emphatically stressed that all roll call monies will be used entirely in the United States—none of it will be diverted to foreign war relief.

Serving Here
Meantime the work of knitting and sewing in the local Branch goes briskly forward. The need is increasingly acute for warm, serviceable clothing for the destitute of Britain and the thousands of refugees who have fled the Continent to a precarious safety in England.

An issue of material for boys' clothing has been received for headquarters. These, and a consignment of girls' dresses, must be finished before the holidays. If you can cut out, operate a sewing machine, baste or finish, do come out to the regular weekly Red Cross sewing days—every Friday promptly at 9.30 a.m. in the Porch Club. It is an American tradition to help—prove your Americanism!

Yarns and directions for knitted sweaters and socks may be obtained from Mrs. Filson Graff in Riverton and Mrs. Joseph Thomas in Cinnaminson.

C. Arnel Nutter, senior vice president of The New Jersey Association of Real Estate Boards, and well known in the riverton towns, then spoke. He is also general chairman of The New Jersey Association of Real Estate Boards annual convention at Atlantic City in December and outlined the convention in detail, stressing the point that realtors and visitors will learn much to their advantage by attending the various lectures and forums available at that time.

Mrs. Margarette Majorie W. Penfold, executive secretary of the Camden County Real Estate Board, and one of the outstanding secretaries of the entire national association of real estate boards, spoke of her appreciation of the support given the various branches of the state organization by local boards.

P.O.S. of A.

TO ORGANIZE HOLY NAME SOCIETY HERE

A Holy Name Society will be organized for the Sacred Heart Parish this Sunday in the Sacred Heart Parish this Sunday in the Sacred School Auditorium, at Fourth street and Linden avenue, Riverton. Election of officers will take place at the first meeting which will start at 3 p.m.

Recently Reverend Bishop William A. Griffin, of Trenton, stated that it was his desire to have a Holy Name Society organized in every parish in the Trenton Diocese to honor the Holy Name of Jesus. In complying with Bishop Griffin's request Rev. John F. Webb, pastor of the Sacred Heart Church, has selected this Sunday the feast of Christ the King, as the day of the new organization's first meeting. All the men of the parish and high school students are urged to join this splendid Catholic organization and be in attendance at its meeting.

Dr. F. H. Green

P. T. A. Speaker

The Riverton P.T.A. held its twenty-fourth annual reception, Monday evening, in the school auditorium.

The meeting was opened by Mrs. John Abell, president, who introduced the Burlington County Mother's Chorus, under the direction of Mrs. Cyril V. Devery. They sang three songs, "The Lord's Prayer," "Harp of the Winds," and "Elfin Dance."

Miss Caroline Staman, supervising principal, introduced Dr. Francis Harvey Green, Headmaster of Pennington School. He gave a very delightful and interesting talk on "The Job We Have."

As he said, "this is no small job. All things in the P.T.A. center around one thing—the child! Childhood was appreciated even back in the 18th century because there is so much literature about children—by Longfellow, Eugene Fields, James Whitcomb Riley and others. The most interesting object is the unfolding of a boy or girl as there are so many possibilities.

To Remember
"We must all be worthy of children—and set them a good example. Two main points to remember with them are:

Don't get cold and don't get old! Praise should always be given when it is deserved. Teacher, Parent and Love ordinarily prove a conquering power over the child—affection is never wasted—know them—love them—help them—keep them interested and busy.

Mrs. Bush's class won the plant for the largest attendance. Refreshments were served at the close of the meeting.

ESSAY CONTEST

The Burlington County No Third Term Committee is sponsoring an essay contest on the subject "Why No President Should Have a Third Term."

The contest is open to high school students of the county and the essays should consist of not more than 750 words. Manuscripts must be submitted to Christopher N. Peditto, chairman of the committee, 29 Scott street, Riverside, not later

LEISURE HOUR ADULT CLASSES

Dr. Everett C. Preston Talks
on Subject to Local
Rotary Club

Seventy odd communities in New Jersey are burning the school-house lights at night for adult leisure-hour classes, said Dr. Everett C. Preston, supervising principal of the Haddonfield Schools. This, he told Palmyra-Riverton Rotarians last Thursday, was definitely a form of patriotism since it helps to develop the kind of thinking citizens we want. Just as a bicycle is stable only when it goes, so people who have a hobby to employ their leisure time, show more stability and fidelity of purpose.

There are now over six hundred adults attending the leisure-hour evening classes in Haddonfield. All kinds of courses are offered, among others are current events, physical education, music, interior decorating, drawing and painting, photography, typewriting stenography, salesmanship, industrial psychology and insurance. The whole program costs the taxpayers nothing, since each person enrolled pays a nominal fee for his classes; at present this is two dollars and fifty cents.

Many Attend
Haddonfield's adult education program was inaugurated four years ago, and has four times as many attending as in the first year. Dr. Preston said that it was not original, but followed in the line of similar, rapidly growing projects, the first one of which, in this state, was at South Orange. There the schools are open five nights a week, and five thousand persons take advantage of the opportunity offered.

Dr. Preston suggested that in the light of their general success, a local program might be started. He offered such assistance as he could give, and invited his listeners to visit the activities at Haddonfield. His message was challenging, and secured the active interest of his audience, who as Rotarians, are alive to anything which will benefit their home town.

A motion was passed requesting secretary Robert G. Adams to write Rotarian Hughes, of Collingswood, expressing the club's admiration of his recent vacation jaunt. Mr. Hughes gave a real illustration of service when he drove a crippled boy, who is unable to get about, through New England in a light truck, thus giving both an experience which will not soon be forgotten by either.

ALUMNI DANCE

Russell Rivers, president of the Palmyra High School Alumni Association, announces that plans are under way for a dance to be held at the Medford Lakes Lodge, Saturday, November 9, in conjunction with the Burlington High School Alumni Association.

Music will be furnished by Chuck Gordan and his orchestra while dancing will be from 9 till 1. Admission will be two dollars per couple and dress optional.

Urie Megahan has been selected to be chairman of the affair and will be assisted by Helen Mansfield, and Betty Corner of Palmyra, along with Ellis Lewis and Robert Rankin of Burlington. Robert Finney of Riverton, will be in charge of publicity.

This will be another opportunity for the graduates of Palmyra High School and members of the association to get together once more.

Cervino, Enemy Back, Factor in Win; Palmyra Gets Two Touchdowns

Cervino, Haddon Heights back and captain, had a glorious time last Saturday afternoon, when he crashed through Palmyra on four occasions to register touchdowns and pace his team to a 31-13 decision over the Red and White in an engagement played on the field of the winners.

If the Fiedlermen had been able to stop Cervino, the story might have been somewhat different, since none of the other enemy offensive plays clocked.

Stage Rally
The score read 19-0 at the end of the first half, but the Red and White managed to keep pace with the winners during the second half, largely through two blocked kicks.

Sowers was responsible for the first and Flounoy scooped up the oval and raced to the two yard stripe. He went over on the next play.

In the fourth period Kean blocked another kick on the enemy 28 and Lane recovered. A series of plays resulted in the final score.

First downs numbered 11 for the winners and seven for Palmyra.

BURLINGTON HERE THIS SATURDAY

Palmyra will oppose the formidable Burlington football aggregation this Saturday afternoon at the local touch assignment as the Blue and White has been going places this season, their last victory being a rather easy one over Moorestown.

Makuka, plunging fullback, is the lad the Fiedlermen will have to watch and if he can be stopped effectively, the locals have a chance to annex their second win.

The kickoff is at 2:30.

Other Games
The home stand will be continued for three more Saturdays with Merchantville, Moorestown and Woodrow Wilson appearing in order.

The season closes with two contests on foreign terrain, these being with Gloucester.

In order to finish the year on the right side of the ledger, the locals must win the majority of the games, since their record to date is one win against three reverses.

BANQUET POSTPONED
Due to unavoidable circumstances the executive board of the Palmyra Tennis Club announces that their banquet planned for this Friday night at the Riverton Porch Club has been postponed indefinitely.

It is hoped that it will be possible to hold this banquet sometime in the winter at a date which the same distinguished guests have arranged to be present.

Harry A. Deemer, Sr., the president of the club since its organization has submitted his resignation due to the fact that he is moving to Kingsport, Tennessee. John L. Gerding, vice president will take over Mr. Deemer's office on November 1.

An air post in the cabinet is proposed. It is hoped it won't be another hot air post.—Wichita Eagle.

Where Roosevelt Is First

By the Rev. Charles V. McKain in Pansutawney (Pa.) Post Gazette

It has been spoken of George Washington, ever since the formation of our Nation, that "He was first in war, first in peace and first in the hearts of his countrymen." And I see no reason to believe that he will lose this tribute to the present incumbent of the White House. But Mr. Roosevelt has many more firsts than does George Washington or any President. Let's look at just a few:

1. First President to dole out billions of the taxpayers' money and take credit unto himself.
2. First President to encourage the continuance of a depression so that he could count on the relief vote.
3. First President to add 500,000 to a personal political army of officeholders while the United States army, woefully weak, was adding but 25,000 men.
4. First President to recognize the uselessness of Congress.
5. First President to personally ask for the defeat of all Democratic and Republican Senators and Representatives who disagreed with him.
6. First President to try to relegate our Constitution to the junkpile by making its interpreter, the Supreme Court, obsolete.
7. First President to have a wife making more than himself in the selling of soap and whatnot.
8. First President to appoint his son to a high-salaried Federal job.
9. First President to recognize his own indispensability, seeking a Third Term.
10. First President to make an international deal in the heat of an unpredictable war, without even bothering to inform, let alone get the permission of the Congress of the United States.
11. First President to believe that the American people can be fooled all of the time, and that they actually believed that without previous knowledge of his, they insisted on his Third Term nomination.

I imagine that Mr. Roosevelt's first 10-FIRSTS will stand for all time, but the voters of America can do something about No. 11.

Jefferson Bicentennial

According to dispatches from Washington, President Roosevelt has approved a resolution establishing a commission for the celebration of the two hundredth anniversary of the birth of Thomas Jefferson, author of the Declaration of Independence, third President of the United States and father of the Democratic Party which passed off the political stage with the coming of the New Deal in 1933.

Of course the bicentennial of the birth of Thomas Jefferson should be generously observed. Jefferson was a great individualist. He believed in constitutional liberty, and was opposed to more than two terms for any President of the United States. On this latter subject he expressed his disapproval of the third term idea no less than twenty-eight times, according to the public records, writing:

"Washington set the example of voluntary retirement after eight years. I shall follow it." Again he said: "Should a Presi-

dent consent to be a candidate for a third election I trust he would be rejected on this demonstration of ambitious views." Concerning states' rights and federal economy Thomas Jefferson said:

"I am for preserving to the states the powers not yielded by them to the Union, and to the legislature of the Union its constitutional share in the division of powers; and I am not for transferring all the powers of the states to the general government, and all those of that government to the executive branch."

"I am for a government rigorously frugal and simple, applying all the possible savings of the public revenue to the discharge of the national debt; and not for a multiplication of officers and salaries merely to make partisans, and for increasing by every device, the public debt, on the principle of its being a public blessing."

Most interesting of all, Jefferson said: "Agriculture, manufactures, commerce and navigation, the four pillars of our prosperity, are the most thriving when left most free to individual enterprise."

It is not difficult to see whether Candidate Willkie or Candidate Roosevelt are honoring Jefferson by emulation of his views in this present campaign. It must be a great source of satisfaction to Candidate Roosevelt to know that Jefferson's bicentennial does not roll around until 1943.

MORE THAN JUST A LIQUID COUPLING.

EVEN MORE THAN AN AUTOMATIC TRANSMISSION

OLDSMOBILE'S EXCLUSIVE HYDRA-MATIC DRIVE

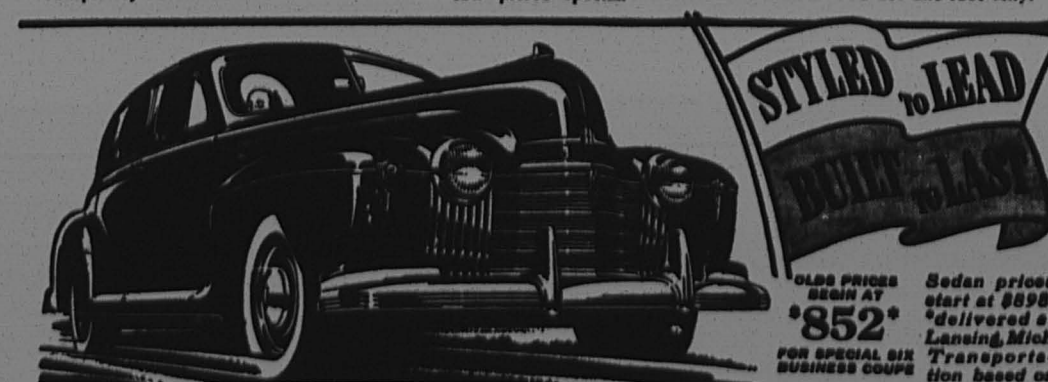

IS A COMBINATION OF BOTH!

Fluid Coupling is fine, as far as it goes. But it won't eliminate gear shifting! It takes Fluid Coupling plus a four-speed, fully automatic transmission to give you shifting that is completely automatic under all conditions.

NO OTHER type of drive gives you the performance thrills that you get with Hydra-Matic! Proved by thousands of owners, it's more sensational than ever in 1941! Hydra-Matic Drive is optional on all models, Sixes and Eights, Custom Cruiser, Dynamic Cruiser and low-priced Special.

Fluid Coupling alone will not eliminate the clutch! You need Fluid Coupling plus completely automatic transmission to do away with all clutch pushing! With Hydra-Matic, there is no clutch. You use one foot only.

OBITUARIES

A. WILLIAM SCHRAMM

A. William Schramm of 409 Linden avenue, died suddenly on Friday, October 18.

Funeral services were held on Tuesday at 11 a.m. from the Snover Funeral Home, the Rev. Francis B. Downs officiating. Interment was made in Arlington Cemetery, Camden.

WET LEAVES DANGEROUS

Declaring that hazardous road conditions due to falling leaves are responsible for many accidents in October and November, the Keystone Automobile Club warns motorists to take proper precautions in wet weather.

Wet leaves, a safety bulletin issued by Keystone says, make highways extremely treacherous. Motorists should not attempt quick stops on roads covered with soggy foliage, because of the skidding danger. Early darkness is another factor to be considered in driving at this time of year, the club says. October is considered the worst month for early-evening accidents, the combination of dusk, darkness and fatigue contributing to the accident toll.

Pedestrians, too, are in a dangerous "spot" in October, because of lighting conditions. The Club bulletin emphasizes that pedestrians should never take it for granted a motorist can see them. Lights from two cars approaching from different directions may "cancel" each other so far as pedestrian visibility is concerned, and the walker who assumes the driver can see him is taking a big chance.

Pedestrians are strongly urged to walk facing traffic on highways, even

though the discomfort of looking into headlights is distasteful to many persons. Danger of accidents along open roads is greatly minimized when the walker can see whether the car is in position to turn out for him. The walker with his back to traffic has very little chance to escape injury if the motorist cannot see him in time to stop, the bulletin warns.

About the most successful attack on Mr. Willkie by the New Dealers so far has been done with eggs: unfortunately for them that sort of barrage doesn't convince many people.

The low bidder on the Presidential ballots in Illinois withdrew his bid. This is quite right. We are still living under a New Deal administration.

POWERS SEES WILLKIE CARRYING 4TH DISTRICT

Congressman D. Lane Powers, who represents Mercer and Burlington Counties, today predicted that Wendell Willkie will not only carry the 4th Congressional District of New Jersey but will be the next elected President of the United States.

The Congressman made this statement as a pre-release on the speech he will make at a meeting of the Young Republicans of Burlington County, which will be held in the Burlington Armory tomorrow night. Powers will introduce W. Styles

'Spooks' Must Be Fed

ON Halloween night the "spooks and witches" are sure to visit you. Don't dare admit that you recognize the masquerade but be SURE to feed these "other-world folk."

It's as easy to prepare party food for a crowd as for a few persons, on an automatic gas range with temperature controls. Here's what to fix!

Baked Ham with Apple Glaze

1 whole ham Apple glaze
Wipe with a damp cloth. Wrap in glassine or the printed wrapper in which ham comes and place fat side up in a shallow pan. Bake at 325 degrees, allowing 20 minutes per pound for hams weighing more than 12 pounds, and 25 minutes per pound for hams weighing less than 12 pounds. Remove paper and skin the ham. Score the fat. Mix one cup brown sugar with one cup apple sauce and enough cinnamon candies to tint it a good pink. Spread over ham and finish baking at 350 degrees for 25 minutes.

Sweet Potato Balls
8 cups cooked ¼ tsp. salt
mashed ¼ tsp. celery
sweet potato salt
1/3 cup cream 1 egg
1 tbsp. butter 1 tsp. water
1 tsp. minced Bread crumbs
parsley

Combine potato, egg yolk, cream, butter, parsley and seasonings. Cool, form into balls, dip into slightly beaten egg white diluted with cold water, then into bread crumbs. Fry in deep fat heated to 350 degrees until brown. Drain on unglazed paper.

Fig Fluff

1 pkg. lemon Jell-o
1 pt. boiling water
1 cup chopped stewed figs or
1 cup fig jam
Dissolve Jell-o in boiling water. Chill until cold and syrupy. Place in a bowl of cracked ice and whip

with a rotary egg beater until fluffy and thick like whipped cream. Fold in figs. Chill until firm. Serve in sherbet glasses. Serves 8.

Halloween Cakes

¼ cup butter 2 ½ tsp. baking
1 cup sugar powder
8 ozs. chocolate ¼ tsp. salt
1 egg ½ cup milk
1 ½ cup flour 2 egg whites
1 tsp. maple flavoring
Cream the butter with one-half cup of sugar and add melted chocolate. In another bowl beat the egg yolks with the rest of the sugar and the flavoring. Combine the mixtures and add the sifted dry ingredients alternately with the milk. Fold in stiffly beaten egg whites. Spread one-quarter inch thick in two shallow greased pans, about 7"x11". Bake for 12 minutes at 350 degrees.

Butter Frosting

3/8 cup butter ½ tsp. maple
8 cups confectionery 8 tsp. warm
sugar
Cream butter and add sugar, maple flavoring and warm milk. Beat until light and fluffy. To decorate—place candy witches and pumpkins on cake.

Longer evenings ahead. Is your home well lighted for reading, bridge, and study?

bridges, Senator from New Hampshire, who is the principal speaker of the evening.

The Representative has just returned from Washington to take active part in his campaign for reelection. He was one of the Republican Minority, who were joined by a Majority of the Democratic Members of Congress to block the Administration's plans for adjournment of Congress, which was scheduled for last Monday. The Minority, of which Powers is one of the leaders, forced the Administration to agree to a series of three-day recesses.

Made Survey

Since his return to New Jersey, Powers has been making a survey of the political situation in his District.

strict and throughout New Jersey. As a result of this survey he has issued this prediction for a Willkie victory.

"I have been elected through two Roosevelt landslide," the Congressman stated. "In 1932 and again in 1936, I saw the same forces assembling for the Democratic Administration which are now gathering in support of Mr. Willkie's campaign."

"In my opinion Mr. Willkie has timed his campaign to perfection. He is starting now on the crest of a wave which will carry him to victory in November and will give him a substantial majority in the 4th Congressional District and in the State of New Jersey."

"I concur with the statement of Emil Hurja, who was the Democratic analyst forecasting the 1932, 1934 and 1936 elections and believe

Mr. Willkie's plurality will reach at least three million votes and may attain something in the nature of a landslide."

"In 1932 and again in 1936, some of our own Party workers were not too enthusiastic in their support of the Republican presidential nominee. This year I find them working wholeheartedly and confidently in Mr. Willkie's behalf."

The Congressman closed his statement with a further prediction that Senator Barbour would be re-elected by a tremendous majority and that Senator Hendrickson will be the next Governor of New Jersey. He predicted that, without exception, the County and State tickets of the Republican Party would be elected in both Mercer and Burlington counties.

WAGE AND HOUR LAW

Providence, R. I., Oct. 11

"I heartily support legislation which sets minimum standards below which wages cannot go and which establishes maximum limits of hours beyond which no one may be asked to work without just additional compensation."

"Our Republican administration will insist that adequate funds be appropriated for the enforcement of this law and will insist that it be vigorously and fearlessly enforced, not only in the north, but in the south as well."

Relief

"So long as unemployment continues, we must continue Federal Relief."

"When I am President, no one will be taken off relief until he has a job."

"We will improve Federal relief and expand it and make it mean more to the men on relief and to the public."

"Protection of labor's rights and continuation of relief are fundamental to our Republican Program."

Must Have Jobs

"The laws which guarantee those social gains are not enough. A law which guarantees you the right to collective bargaining is of no use if you have no jobs to bargain about."

"We will defend America from within by giving our people jobs. We will defend America from without by making our defenses the strongest in the world."

"Our hope for peace lies in a strong America, in which every man has a job and every man has a future."

BURLINGTON CO. COUNCIL OF CHRISTIAN EDUCATION

Long ago the church mothered drama, letting her histories and dogmas reach the common people through this medium. Again we realize the value of dramatics, not only in the propagation of idealism but in the enrichment of personalities. And the church once more is finding a place for religious drama in its program.

To help the churches of our country train leaders for this great unexplored field the course "The Use of

Dramatics in Religious Education" has been included in the Leadership Training School for this fall.

A qualified instructor has been secured in the person of Miss Lynnette C. Martin of the faculty of the Baptist Institute for Christian Workers of Philadelphia. Miss Martin has taken special work in religious drama at the Colgate-Rochester Divinity School.

Sessions of the Leadership Training School for Christian Workers will be held in the Mount Holly Baptist Church for six Monday evenings from 7:30 to 9:30 beginning October 28.

Other courses offered are: "The Prophets and Their Messages," "Migrant Problem in New Jersey," "Understanding Youth," and "The Growth of Christian Personality during Childhood."

Friends' Lecture

John F. Rich, associate secretary of the American Friends Service Committee, will lecture at the Westfield Friends' Meeting House on Sunday, October 27, at 7:30. His subject will be "America's Food and Europe's Hunger." All are invited to attend.

CHRISTIAN SCIENCE CHURCH

"Probation After Death" is the lesson-sermon subject for Sunday, October 27, in all Christian Science Churches and Societies throughout the world.

The Golden Text is: "Let us not be weary in well doing: for in due season we shall reap, if we faint not." (Galatians 6:9).

Among the lesson-sermon citations is the following from the Bible: "If in this life only we have hope in Christ, we are of all men most miserable." (1 Corinthians 15:19).

The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Our Master fully and finally demonstrated divine Science in his victory over death and the grave. Jesus' deed was for the enlightenment of men and for the salvation of the whole world from sin, sickness, and death" (p. 45).

Wesleyan Men's Bible Class

For the Men of the Community

"SEEING JESUS"

One day, seated in the "Rose Garden" of Cliff College, England, with the author A. J. Russell, the conversation emphasized the importance of seeing Jesus as a reality. At that moment a student was walking nearby and the author said, "As plainly as we see that student, I saw Jesus."

This experience he recites in one of his books: "One Thing I Know." The reality of Jesus by his indwelling in the human heart has with the experience of his spiritual presence!

What a joy it is amid the shaking of world order that by faith we can see Jesus, whose supremacy is undisturbed amidst it all and whose rule will prevail.

In our Bible Class, to see Jesus is our upward look, in song and in message, and to send forth the members with the reality of this spiritual vision. This vision is not restricted to any one class, it awaits you!

Come with us next Sunday at 9:30 a.m.

CENTRAL BAPTIST CHURCH

Rev. George Lockett, B.D., Pastor

SerVICES Sunday, October 27th.

Bible School 10:00 a.m.—Hardly a day passes that there is not brought to light the results of early training in the Bible School. On the other hand, the lack of such training is seen on every hand. "Train a child in the way he should go and when he is old, he will never depart from it." Central Baptist endeavors to do this very thing but it takes the co-operation of parents. Why not bring your child to the school next Sunday and see the benefits both of you will receive?

Morning service 11:15—The pastor will have as his subject for the morning service, "Saving Faith."

The sermon will be preceded by anthems, "Thy Will Be Done" by Ground-Bitchless and "Saviour, Like a Shepherd Lead Us" by Neidlinger, to be rendered by the choir under the able direction of their leader, Mr. Claude Barto. Miss Ann McConnell soprano, will be the soloist.

Hi-B.Y., 6:45 p.m.—All young people of the High School age are welcomed. Come out next Sunday evening and bring your friends.

Evening service 7:45 p.m.—The subject for the evening service is one in which both men and women, old and young, will be interested—"The Ideal Man," "Evening and Morning"

During Fire Prevention Week the science activities centered around the idea of safety. Emphasis was laid on the responsibility children can take for safe living as well as appreciating and understanding the services that we have for protection. The Lower Groups presented two short sketches in the weekly assembly showing right and wrong ways of handling everyday living situations regarding safety.

The room shop in the kindergarten room is developing nicely. Soon they expect to have plants ready to sell to other members of the school, the receipts of which will be turned over to the Red Cross.

The Upper Groups had an interesting trip to Philadelphia on Monday, October 14th, when they visited Independence Hall and The Betsy Ross House. The excursion was an outgrowth of work being done in the Fourth Group.

A treat for the boys especially, in the form of a model airplane exhibit and demonstration was put on by two model enthusiasts, Richard Ellis and Charles Hershey, of Moorestown, on Wednesday morning at 10:30 o'clock. The show included a variety of planes made by the boys including a gasoline model which held a real motor, the "Mighty Atom" model weighing but one and three-fourth ounces.

On October 19th, a conference of all upper elementary grade teachers from the Friends' Schools in the Philadelphia area, was held at Westfield. A buffet luncheon was served by the school after which Miss Marjorie Hardy of Germantown Friends' led the discussion on the subject, "The Challenge of the Times to Teachers in Friends' Schools." Much stress was laid on the need of sincere Christian living in the school and in the home in order that the citizens of tomorrow will be able to meet with faith and understanding the crises of their generation.

WILLKIE TOUR

Five speeches will be made by Wendell L. Willkie on his second trip into New Jersey on Thursday, October 31, it was announced here today by Guy George Gabrielson, Chairman of the Republican State Campaign Committee.

The entire trip will be made by special train.

Willkie will make speeches at Trenton, Elizabeth, New Brunswick, Plainboro and Camden, Gabrielson said, and although the time may have to be changed to conform to train schedules, the Camden meeting is scheduled for 9 p.m. No tickets will be issued.

Willkie will also make a rear platform appearance at Burlington. Under present plans, none of the speeches will be from the train; in each case Willkie will be taken from the train to either an outdoor or indoor meeting place.

The citizens of Palmyra will be able to hear a first-hand discussion of an all-important question next Tuesday evening, October 29, at the Community Center, at 8:00 o'clock, when the Phalanx Fraternity will sponsor the first of a series of forums to be held this season.

The timely question chosen for this first forum is, "Should the Sunday Blue Laws Be Repealed and, if so, to What Extent?" Citizens throughout the community are awaiting the outcome of this question. It is believed that the panel discussion next Tuesday will prove interesting as well as educational and informative.

NAMES OF LOCAL RESIDENTS DRAWN

The National Drawing of names for induction into the army under the Selective Service Act took place on Tuesday of this week.

As a result of the lottery the following residents of Riverton, Palmyra and Cinnaminson will be assigned order numbers in the following sequence the first 100 being listed below. Numbers given with no names are those assigned by the local board to residents in Maple Shade, Delran and Chester Townships, or to those whose registration cards were received from other localities.

According to regulations given to the Board, a number drawn, but not contained in their list is void as far as the district order number is concerned. Since Local Draft Board No. 1, of Palmyra, Burlington county, has only 2,066 names on the list, all numbers higher than that figure will receive no order numbers here. In the list that follows, the first number will be assigned order No. 1, the second No. 2, etc.

The first bridge tournament of the season was held Tuesday afternoon, top honors for the East and West boards going to Mrs. Gilbert Coe and Mrs. Gorman Bargent, while Mrs. Roland Dunn and Mrs. Charles Sims captured the honors on the North and South boards.

The tour is being sponsored by the Burlington County Republican Committee, and former Sheriff George N. Wimer is chairman of the special committee in charge.

The tour will begin at Mount Holly at nine o'clock Monday morning, and will end at Florence at five o'clock. There will be a stop for lunch at the Riverside fire house at 12:30 o'clock.

LIBRARY BOARD HOLDS MEETING

Lagging Subscriptions Create Deficit; Support of Residents Asked

The quarterly meeting of the Board of Trustees of the Riverton Free Library Association was held on Monday evening of this week. Attending were Harry F. Jones, president; Willis S. De La Cour, treasurer; Mrs. W. W. Chalmers, secretary; Miss Antoinette B. Campbell, librarian; Carl S. De La Cour, Nathan Lane, Henry C. Parrish, John F. Ward, Miss Cornelia S. Coale, Mrs. Stuart B. Clark, Mrs. Victor Ritschard, Mrs. John P. Abell.

Mrs. John P. Abell's election to the Board was confirmed and Mr. Walter L. Jones, of Palmyra, was elected to fill the one remaining vacancy.

Financial Needs
After receiving reports of officers and committees, discussion centered chiefly on the financial needs of the library for the remainder of the calendar year. Unusually heavy charges for maintenance and repairs have combined with somewhat lagging subscriptions to create a situation which indicates the year will be closed with a deficit of nearly \$200. The Board wishes to call the attention of new residents that membership is essential.

P.O.S. of A. NEWS

A very pleasant evening was enjoyed by a representative group of members of the local camp at a Hal-low-e'en party given in the P. O. S. of A. Hall after the regular meeting last Monday evening.

Various games were played and prizes were given to the lucky winners. The most intriguing sport was the spearing with darts of a swinging pumpkin. Several were able to secure four hits out of seven tries. Music for the occasion was furnished by Mento's orchestra.

ARMISTICE DAY

Post Frederick M. Rodgers, 156, American Legion, of Palmyra, will sponsor a Community Armistice Day Service on Sunday, November 10, at 4 p.m. in the auditorium of the Palmyra High School.

A prominent speaker will make the principal address of the afternoon. The public is cordially invited to attend this service.

LARGE VOTE IS EXPECTED HERE

Republicans Confident of Big Majority for Entire Ticket

A record-breaking vote is expected in this section on Tuesday of next week at the general election, when the polls will be open from 7 a.m. until 6 p.m. With the Republicans working hard to secure a substantial majority for the entire ticket, there seems to be no doubt that the G.O.P. slate will be given a substantial majority in this section, according to statements of veteran party leaders.

The Republican ticket is as follows:
For President: Wendell L. Willkie.
For Vice President: Charles L. McNary.

For United States Senator: W. Warren Barbour.
For Governor: Robert C. Hendrickson.

For Member of Congress: D. Lane Powers.
For Assemblyman: A. Matlack Stackhouse.

For Freeholders: Albert C. Jones and Fred C. Norcross. Mr. Jones is the present director of the Board, while Mr. Norcross is seeking election for his first term.

For Coroner: Emerald White.
For Riverton Borough Council: David F. Gould and Archibald Bush.

For Palmyra Borough Council: Arthur P. Wright and William F. Engle.

For Palmyra Tax Collector: E. A. Griscom.

For Member of the Cinnaminson Township Committee: Elmer Mandeville.

Democratic Slate
The Democrats offer the following candidates:
For President: Franklin D. Roosevelt.

For Vice President: Henry A. Wallace.

For United States Senator: James Cromwell.

For Governor: Charles Edison.

For Member of Congress: Thomas S. Dignan.

For Assemblyman: E. C. B. Clark.

For Freeholder: Harry E. Moyer, of Riverton, who has been prominently identified with civic affairs in that community for many years.

For Coroner: A. J. McNulty.

For Riverton Borough Council: No candidate.

For Palmyra Borough Council: Mary Duffy, R. A. Sailer.

For Palmyra Collector: H. Tranchitella.

For Cinnaminson Township Committee: No candidate.

In the last presidential year, better than 80 per cent of the registered voters went to the polls, but this record is expected to be easily bettered next Tuesday.

Riverton, Palmyra and Cinnaminson are normally Republican by a considerable margin, but Roosevelt, in 1936, cut heavily into the Landon vote. Forecasters state that this situation will not prevail this year and are confident that Willkie will carry local districts by a large plurality.

Sunday Situation
In Palmyra, interest is also centered on the question of Sunday sports with this question being presented on the ballot.

Proponents of the change which

LIE DETECTOR DEMONSTRATION

In the presence of Mayor Ward of Palmyra, and Police Chiefs Gootee of Riverton, and Dorworth of Cinnaminson Township, Chief County Detective Leon Schaffer of Gloucester County demonstrated his emotional meter to Palmyra-Riverton Rotarians last Thursday. He was assisted by Albert Denim, court stenographer, of Woodbury, who works with him in his professional use of the apparatus. While not technically a lie detector, the machine efficiently serves this purpose, and Mr. Schaffer is called upon by many police departments throughout the state for help with their cases.

Mr. Denim, by way of explanation, pointed out that this emotional detector was perfected by Mr. Schaffer, who had demonstrated it before many groups. It is powered by dry cells, and works by placing wet steel pads in contact with the palms of the hands. The minute electric currents generated by the human nerve system are recorded on milliameters, deflecting the needle readily. Pent up emotions will out, through the sweat glands in the hands, and intelligence, education, or special training makes no difference to the meter. Results are graphed, and these graphs may easily be interpreted to show when falsehoods have been told. If there is no guilt, reaction on the dial is slight, and the needle soon returns to normal.

Apparatus Legal

Four states have now accepted the emotional meter as legal, said Mr. Denim, who made clear that its value is being more appreciated by departments of public safety all the time. He told of several interesting cases in Gloucester County that had been solved by Mr. Schaffer and his device, among them being the instance of a school board member who had not finished high school and was ashamed of the fact. When being tested for a totally different reason, a chance question brought to light this condition.

Several members of the audience were tested, and were unable to conceal such simple items as the month they were born in, or the day of birth. Mr. Schaffer impressed his meter, but his personal efficiency as well; in this he was ably seconded by Mr. Denim, who always works with him.

Timely Topics On Program

Members of the Palmyra-Riverton Business and Professional Men's Club had an opportunity to listen to brief talks on two most timely subjects on Tuesday of this week, at the Riverton Country Club.

Colonel Charles V. Dickinson told of army life at Fort Dix and of the preparations being made to receive draftees.

Leonard R. Baker, chairman of Local Draft Board No. 1 of Burlington County, explained the operation of the Selective Service Act and answered questions propounded by the members.

Phillip Shulman, of Palmyra, was welcomed to membership.

Plans have been made for the tour of the General Motors Plant at Linden, N. J., on Tuesday, November 12, and the club members will leave the Jack Dawley showrooms at 11 o'clock, having lunch at the plant before the inspection.

The regular monthly meeting of Post Rodgers will be held on Tuesday evening, November 12.

The Post will present a flag to the Girl Scouts of Riverton on Monday, November 18.

LIBRARY BOARD (continued from page 1)

berhip, which carries the privilege of withdrawing books, is available at the small sum of \$1.00 per year.

The library is dependent, to a great extent, upon this membership fee and voluntary subscriptions of funds for membership in excess of the minimum amount and it is only through receipts of this nature that the institution can carry out its program of purchase of new books and maintain the excellent service which it renders to the residents of Riverton, Palmyra and Cinnaminson.

Many families have taken out a minimum membership for each member who uses the facilities and this procedure has been of tremendous help in adding to the revenues.

Civic leaders in all three communities are well aware of the splendid work that is being done by the library and ask that all possible financial support be given to the organization.

PLEDGED AT CORNELL

Among those pledged to Alpha Phi women's national fraternity at the close of formal rushing on the Cornell University campus is Miss Jeanne Leach, daughter of B. R. Leach, of Riverton.

Miss Leach, who entered the University this fall as a freshman, is enrolled in the College of Agriculture. She prepared at St. Mary's Hall, where she was Valedictorian of her class.

CHRISTIAN SCIENCE CHURCH TO BROADCAST

The Columbia Church of the Air program under the auspices of the Christian Science Church will be

radioast from New York City on Sunday, November 3, at 1 o'clock, Eastern Standard Time, by Mr. T. Coolidge Fowler, a former First Reader in a Christian Science Church, over a nation-wide network of the Columbia Broadcasting System, and may be heard in New Jersey over Station WABC.

DINNER-DANCE (Continued from Page 1)

John Borg, newspaper publisher from Hackensack. He will bring a message of real interest to all people of Burlington county. County and state candidates will also be present and will be called on for brief messages.

The after-dinner program will be in charge of Freeholder Clarence G. Price.

Music for the dancing will be furnished by Buddy Delaney's orchestra from Riverton.

Tickets are still available from members of the committee, but the supply is diminishing rapidly, and those who wish to attend Saturday are urged to make their reservations as soon as possible.

PHYLLIS WHEATLEY P.T.A.

The monthly meeting of the Phyllis Wheatley P.T.A. was held in School No. 4 on Friday, October 25. The president, Mrs. Wallace Ashby conducted the business session. Following this Mrs. Ashby gave two reports—one from the county council which was held at Bordentown on October 14 and the other from the N. J. P. T. A. convention held in Atlantic City. She presented some "P.T.A. Goals for 1940" which will be framed for reference and gave an interesting account of the theme of the convention which was "Building Character the American Way." The program which was in charge of Mrs. Ida Williams was as follows:

Saxophone solo, Eugene James, accompanied by Edward Morton. Vocal duet, Mr. William Denby, and Priscilla Denby, accompanied by Doris Jones.

Introduction of Speaker, Mrs. E. J. Young

Main address, Mrs. Gertrude Williams.

Mrs. Williams used as her theme "New Objectives in Education."

Following the main address, remarks were made by Mrs. Mildred Magowan, supervising principal and Mrs. Leslie Reeves.

A delicious repast was served by the upper grade girls under the direction of Miss Charlotte Rogers, domestic science instructor.

—Publicity Committee.

POWERS AIDS

The Chief of Staff of the United States Army has been asked by Congressman D. Lane Powers to intercede in behalf of owners of property adjacent to Fort Dix who are facing eviction as a result of the Dix expansion program.

The Congressman, who represents Burlington and Mercer counties, advised General George C. Marshall, the Chief of Staff, that he had received scores of protests from property owners relative to sudden eviction notices given them by Fort

Dix officials. In many cases, the farmers were given only fourteen days to evacuate their farms.

Powers requested that farmers living on properties to be purchased be given sufficient time to harvest remainder of their crops and move their personal effects and livestock to new locations.

More than \$50,000 life insurance endowment policies matured last year, paying nearly a quarter of a billion dollars in cash to these policyholders, according to the Institute of Life Insurance.

WHY NOT IN COUNTY GOVERNMENT TOO?

The astoundingly impressive vote cast in the November Election six years ago, when the Riverton Mayorality contest was decided by a margin of four or five ballots—seemed to indicate a strong undercurrent toward MINORITY REPRESENTATION in Borough Government.

Sentiment is crystallizing, that County Government, too, would benefit if the mechanical succession during many decades of the past, could be halted—by discarding in part at least, the dyed-in-the-wool PARTY regularity motive.

To the end that Citizens of this County may give expression to a non-partisan attitude respecting local government—and to measure the possibilities of eventually accomplishing two-party representation—my name has been offered as a Candidate for the Office of Freeholder, on the Democratic ticket. WILLKIE SAYS

Wendell Willkie recently answered questions from "We, the People" in one of a series of broadcasts. The questions, contained in thousands of letters to the Republican Presidential nominee, were put to him by Mr. Oren Root, Jr.

A few of them, as space will allow, are given herewith:

Mr. Root: Here's a letter, Mr. Willkie, from Mrs. William J. Kleinhans of New York City. "I am a mother with three sons. I am perfectly willing for them to fight for our country if war should come, but want to feel sure they won't be mowed down like the French soldiers this summer because of lack of planes and tanks to protect them."

Mr. Willkie: I can understand that mother's concern, because men against machines in modern warfare have no chance at all. Now you asked me what I would do about this. In the first place, preparing for a modern war is a preparation by experts; it is a matter of production. And only men acquainted with production can build us a defense. Therefore, any President of the United States who understands the simplest rules about production would employ men particularly trained and expert in the matter of producing and would give them adequate authority so that they could build a defense mechanism so strong that no dictator would ever seek to strike this great free land of ours.

Mr. Root: The next question is on the subject of relief. Mrs. Fred E. Hovey, of River Forest, Ill., writes: "I dropped in at a gas station and the attendant told us that although he is opposed to the Third Term, he thought he would vote for Roosevelt because he had heard that if you were elected to the Presidency relief money would be entirely cut off."

Mr. Willkie: I am very glad that Mr. and Mrs. Hovey asked that question, because I want to get my answer to everybody in the United States who has been told that kind of nonsense. That gas station attendant was the victim of a vicious whispering campaign. If I were elected President of the United States, no person would be taken off relief until that person was provided with a job. The only thing I would do about relief would be to have it administered so that not so much of the total appropriation would be consumed in administration, but a larger percentage go to those on relief. But relief is just a temporary solution of the problem. What we must provide for our people is jobs.

Mr. Root: The next question is from John W. Scott, of Pasadena, Calif. He wants to know about social security. He asks this: "In the factory where I work some of the men say you will, if elected President, attempt to repeal the Federal Social Security Insurance, and some men even say they fear the loss of the money paid into the fund. I'd like to know your attitude on this law."

Mr. Willkie: Well, that's just another one of those misrepresentations which the party of the opposition, in its desperate desire to win, is making. No one in the United States believes more in social security than I do. But I do want to say this in connection with social security that unless there is a change in administration those people who are presently paying into the Social Security fund will never get any benefit therefrom.

MOST UNUSUAL TALKING PICTURE TO BE SHOWN AT CHRIST CHURCH PARISH HOUSE NOV. 1

A talking motion picture utterly different from anything ever shown in this community will be presented in Christ Church Episcopal Parish House, Riverton, Friday evening, November 1, at 8:15 o'clock, under the sponsorship of Christ Church Woman's Guild. The title of the picture is "Golgotha," and it is the first and only talking motion picture ever made of the life and crucifixion of Christ. "Golgotha" presents the immortal story of Christ in a spectacular and impressive manner. Critics everywhere have acclaimed it the greatest talking picture of its kind ever made. It is a remarkable film. Since this great motion picture is being presented in Parish House, the finest talking motion picture equipment will be brought here for the showing of the film. This equipment includes special projector a complete sound system, and a modern screen. As a result, this picture will be shown in Parish House in an even more effective manner than if it were shown in a theatre.

"Golgotha" Cost \$800,000

The average feature picture made in Hollywood costs approximately \$200,000, but "Golgotha" cost \$800,000, or four times more than the average feature motion picture made in Hollywood. It is not an ordinary motion picture, but instead, a tremendous spectacle. Technically, the picture is a masterpiece. The cast of thousands, costumes and settings make it one of the greatest scenic dramas ever filmed. "Golgotha" was made in the old country, conse-

quently the scenic back-grounds are accurate and correct in every detail. However, all the speaking parts in this picture are in English.

Through the cooperation of the merchants of this community, special tickets are being given out, and these tickets, with 10 cents in cash, will admit adults to see this great talking motion picture. This brings the picture within the reach of everyone, and makes it possible for everybody to witness this unusual entertainment. All you need to do is go to your merchant and ask for special tickets, which will be given to you free. Then one of these tickets, with 10 cents in cash, will admit you to see "Golgotha." There will be a children's matinee, with the regular admission price of 10 cents, and children will be admitted to the night

performance, for 10 cents, without the special tickets. The date is Friday, November 1, and the place of showing is Christ Episcopal Parish House. Plan now to see "Golgotha."

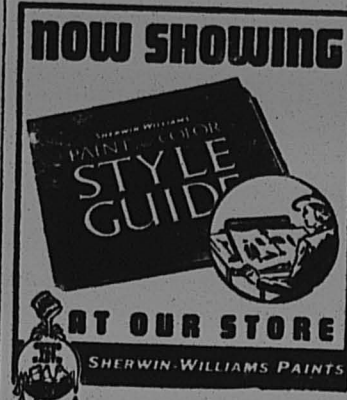

RARE OPPORTUNITY COMING TO RIVERTON—FILM IN TECHNICOLOR—"THE LAND OF THE VIKINGS"

The Rev. Arthur C. James, Drexel Hill, Pa., who recently returned from a 13,000-mile cruise to Iceland, Denmark, Sweden, Finland and Norway, will present his travelogue in the Calvary Presbyterian Church School auditorium on Friday evening, November 15, at 8:00 o'clock.

The film is rich in scenery of unspeakable beauty and majesty. It is a panorama of rivers and fjords, forests and gardens of flowers, of cities and country places. The mid-night sun is shown in its natural colors.

Dr. James explains each scene in a very amusing and entertaining manner.

The motion picture will be sponsored by the Semper Fidelis Bible Class. A free-will offering will be accepted at the door. Proceeds will be applied to the Building Fund.

A Republic If You Can
KEEP IT

Asked by the throng waiting outside Independence Hall on September 17, 1787, what the Constitutional Convention had given them, Benjamin Franklin replied, "A republic if you can keep it." They did keep it. We still have it. The question of the hour is, "Shall we continue to keep it?"

This is the one question which overshadows all others in this campaign. It is not a partisan question. It is not a complicated question like finance, agriculture or foreign policy. It is a simple question which every voter can understand and the significance of which all true Americans must appreciate.

The republic we have preserved so far and which now stands almost alone in a world of tyranny and dictatorship, was founded on three essential principles: (1) the right of the people to choose those who make and enforce their laws, (2) strict limitation of the extent and duration of executive power, (3) the protection of fundamental human rights from every agency of government.

The Constitution as written contained no bill of human rights nor any limitation on the reeligibility of a President. These omissions were strongly condemned by Thomas Jefferson and many others. They were promptly remedied, the first by the adoption of the first ten amendments and the second by the establishment of a controlling precedent. Washington declined a third term. Jefferson, Madison, Monroe and Jackson followed his example. The precedent, ripened into an unwritten but universally recognized law, was willingly obeyed for a century and a half. Until this year, no President has been bold enough to seek a third consecutive Term.

The reason for the general acceptance of the two term was and is that the powers of the President are so great as to imperil the republic unless there is frequent rotation in the office. Jefferson put it bluntly, to the Vermont legislature in 1807: "If some termination to the services of the chief magistrate be not fixed by the Constitution, or supplied by practice, his office, nominally for years, will, in fact, become for life."

The greater the power of the President, the greater the need for limiting the period of the Presidency. The powers recently showered on the President by a subservient Congress are scarcely surpassed by those of Hitler, Mussolini or Stalin. The President today dominates Congress. He commands the army and navy, conducts foreign relations, makes important international agreements without consulting the Senate, and can even lead us into war on his sole responsibility. He can lower the value of the dollars in your savings account or insurance policy, reduce the tariff that protects your job or market, and even draft you for military service. All that is necessary to transform our President into a dictator is to permit him to succeed himself indefinitely.

Remove the barrier of the two term rule and the President has unprecedented means of influencing the electorate. An army of over 1,000,000 office holders and 3,500,000,000 more on W.P.A. and other federal relief pay rolls are ready to support him—to use Cleveland's words—"with a zeal of benefits received and fostered by the hope of favors yet to come." Add to these the 5,000,000 farmers receiving checks from the A.A.A. and 3,000,000 more getting checks under the Social Security Act, and you have a quarter of the families in the United States wholly or partly dependent on the federal treasury. Annual appropriations of 9 billions, plus special defense authorizations of nearly 13 billions,

are being expended under the President's direction. He can reach the poor with relief and the rich with contracts and orders. And his powers of regulation under "emergency" statutes enable him to coerce where he cannot influence.

The third term candidacy of President Roosevelt is, therefore, a proposal to change fundamentally our form of government. He has dictated his own renomination. If he dictates his election "Good-bye, republic."

The issue is not substitution of a three term for a two term rule. The issue is, shall we repeal all bars to indefinite reelection? Elect President Roosevelt to a third term and the door to a fourth and a fifth term will be open to him or any future President.

The only excuse a President can make to himself for breaking down the two term rule is belief in his own indispensability. That is just what Mussolini, Hitler and Stalin think about themselves. The notion of the indispensable man is the very foundation of dictatorship. It has no place in a republic whose leaders must be chosen by the people from the people. There are any number of Americans capable of being good Presidents. As Raymond Moley says, "What this country needs is a good, honest, industrious, competent hired man—a hired man who knows he is a hired man, a hired man who, after a few years, is not likely to think he owns the farm."

A President who thinks himself "indispensable" is suffering from a power complex. "It is the nature of the human animal," says John W. Davis, Democratic candidate for President in 1924, "most human animals, to love place and prominence, adulation and power. Some, of course, care for all this more than others. Some love it so much that the power they have is never gladly or voluntarily surrendered. The appetite growing by what it feeds on becomes the master passion of their lives."

"Such men, even while they realize that some day their power must be laid down, can always find a reason why the fatal day must be postponed. In their minds there is always a crisis in which their services are indispensable; always some great work in hand which they, and they alone, can do."

"Outwardly they may pretend that they groan under the burden and would be glad to lay it down, but in their secret souls they cling to their places like limpets to a rock."

Franklin D. Roosevelt, the candidate, on November 5, 1932, did not believe he was indispensable, when he declared, "A great man (Woodrow Wilson) left a watchword that we can well repeat: 'There is no indispensable man.' But there are indispensable principles without which government cannot serve its purpose."

We appeal from the Roosevelt of 1940 to the Roosevelt of 1932. There are indispensable principles—the principles of the republic, if we would keep it. And among these principles not least is the two term rule.

Fear Or Favor

(Editorial in The Logan Banner, Logan, W. Va.)

"Fairly and without fear or favor."

President Roosevelt used these words only a few weeks ago in telling the governors how the new Selective Service Law was to be enforced.

All citizens of draft age, he said, were to stand equal before the law.

Wealth, position, power or no other condition was to be taken into account in calling men into the new conscript army.

But, how strange his words contrast with the action of President Roosevelt's son, Elliott, who is within the draft age, in accepting a commission as reserve captain in the army.

Elliott has been assigned to the specialists' corps and has been ordered to active duty this month with the air corps in an administrative capacity.

Not only will his duties require him to run few if any risks but he is privileged to wear civilian clothes if he so desires.

It will probably be difficult for run-of-mine folks to understand the maneuver which permitted Elliott to launch his military career with the rank of captain while their brothers and sons must start as privates and accept assignment to whatever department the military authorities choose for them.

Certainly a lot of American fathers and mothers who love their sons just as much as the Roosevelts cherish theirs, will find it difficult to believe that their boys are being treated with as much consideration as Captain Elliott Roosevelt.

The commissioning of Captain Roosevelt and his assignment to a desk job brings to mind memories of that other Roosevelt family whose members served their country, too, not behind desks but on the battlefield.

There was Col. Roosevelt, the father, who fought with the Rough Riders in Cuba.

Col. Theodore Roosevelt, the son, who was in the infantry in France during the World War.

Capt. Kermitt Roosevelt, an infantry officer in the American army in the world war and now in service with the British.

And Lieut. Quentin Roosevelt who lost his life when his plane was shot down by a German airman in the World War.

Times have changed.
So have the Roosevelts.

CENTRAL BAPTIST CHURCH
Rev. George Lockett, B.D., Pastor
Services for Sunday, November 3,
Bible School, 10:00 a.m.—The im-

portance of Christian training is being brought to our attention every day. The attitude of the youth, with a growing inclination toward cynicism, makes it not for strong generations in the future. Therefore it is all important that the youth be given that spiritual training which fortifies them with the things that make life interesting and happy. Parents and their children who have no church affiliations are invited to "Central Baptist." Classes for every age.

Morning Service, 11:15 a.m.—"The Supreme Test" will be the subject of the sermon by the Pastor. "I am Alpha and Omega" by Stanner, will be read by the choir. Mr. Edward Hoyt, tenor, will be the soloist of the morning. The ordinance of Communion will be observed following the service to which all Christians are invited.

High, 6:45 p.m.—This young people's group meets for one hour in the school room. They are addressed by speakers on subjects which are of interest to youth and are vital to their spiritual uplift.

Evening service, 7:45 p.m.—For some unknown reason the evening service does not attract as many as it should. Yet those who do attend find the Pastor's sermon just as helpful and enlightening, the choir music just as inspiring, and the fellowship just as warm. Why not make it a habit of attending the evening service where you get that lift that helps you through the week? The sermon subject will be "Our Privilege as Citizens." The anthem by the choir will be Robert's "O God, We Worship Thee."

Tuesday, November 5th, will be a deciding day for the future of Palmyra, the test as to whether Sunday will be observed as it should or whether it will be made a commercial amusement day. It is the obligation of every Christian to vote on this question and vote No.

All persons wishing to make donations will please bring or send their gifts to the Church Saturday afternoon. Bethany invites all of her members and friends to share in the worship at this service. The pastor's message will be on the theme "Life, and 'Much Goods'."

6:45 p.m.—Intermediate and Senior Luther Leagues.
7:30 p.m.—The Vesper Service—Please note the time of this Sunday's Vesper service, is one-half hour earlier than usual because of the festival program presented by the children of the Church. Wesleyan Men's Bible Class

For the Men of the Community
"LOVE'S CONQUEST"

Napoleon in exile said: "There are but two powers in the world, the sword and the mind. In the long run the sword is always beaten by the mind. Alexander, Caesar, Charlemagne and I have founded great empires, but upon what did these creations of our genius depend? Upon force!"

Jesus alone founded His empire on love, and to this day millions would die for Him. In His life and death Jesus manifested love in its highest form. The love that gives Him supremacy among men, is likewise the motive that inspires the believer's life, if we would be like Him.

What a contrast to the brutal forces of would be world conquerors, is the gentle, considerate, unselfish sacrificing love of Jesus who as Napoleon said, "Millions would die for him."

This love of Christ is the need of the world today. Jesus made brotherly love a command when He said: "Thou shalt love thy neighbor as thyself."

As members of the Bible Class we seek to give expression to this all conquering love of Christ, in the language of the Bible "The love of Christ constraineth us."

Come with us and enjoy this companionship. We meet at 9:50 a.m. Dr. Bickerton will address the class on Sunday.

CHRISTIAN SCIENCE CHURCH
"Everlasting Punishment" is the lesson-sermon subject for Sunday, November 3, in all Christian Science Churches and Societies throughout the world.

The Golden Text is: "Righteousness keepeth him that is upright in the way: but wickedness overthroweth the sinner." (Proverbs 13:6).

Among the lesson-sermon citations is the following from the Bible: "For thou hast maintained my right and my cause; thou satest in the throne judging right." (Psalms 9:4).

The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Divine Science adjusts the balance as Jesus adjusted it. Science removes the penalty only by first removing the sin which incurs the penalty. This is my sense of divine pardon, which I understand to mean God's method of destroying sin" (p. 40).

Westfield Friends School

Joan Anderson and Mary Hall conducted last week's assembly. Songs, original poems and reports on class room work made up the program.

A poem, inspired by a wind storm which arose during a sport's period recently, is given below.

THE JOLLY LEAVES
Once upon a time,
On a fine October day,
I saw some jolly little leaves,
All dressed up to play.
Some were yellow, some were brown,
Whirling and twirling round and round.

All of a sudden the sun went down,
The wind came up with a roaring sound,
The poor little leaves spread all around:
They were no longer glad and gay,
They seemed to be in a different way.
They came at me like angry bees,
They almost made me shake at the knees:

By and by, the wind died down;
The leaves were lying all over the ground.
Esther B. Wilson, Grade V.

Parents and friends are invited to attend the second Parent Assembly of the year which will be held on Friday, November 1, at 11:30 a.m. Lunch will be served to those who wish to remain.

KOERNER'S BAKERY TO CELEBRATE ANNIVERSARY

Koerner's Bakery, 3623 Westfield avenue, celebrates its 30th anniversary this week. With branches at 919 North 27th street, Camden, and 307 East Broad street, Palmyra, the bakery is now serving a large portion of South Jersey's population. In 30 years it has grown to be one of the most modernly equipped retail bakeries in this section of the state. The main shop and bakery on Westfield avenue has recently been entirely remodeled both inside and out. New modern machinery has been installed, ovens have been enlarged, and the area of the shop increased. Even though methods have been modernized the quality and tastefulness of the many varieties of baked goods retains the good old fashioned standards.

Koerner's bake more than 115 different items every week and it is the only bakery in South Jersey featuring French, Danish and fresh whipped cream pastries. Due to the homogenizing equipment recently installed different flavors of whipped cream are now obtainable.

Baked Goods
Eight different kinds of bread and 14 different varieties of rolls are baked daily. Fresh fruits, in season, are used in baking and the making of ice cream. Usually enough fruits are frozen during the season to guarantee the flavor throughout the year.

Mrs. Koerner is in personal charge of the wedding and party baking. Frequent trips to New York enables her to keep up to date on what is the newest and most wanted in this type of baking. Frequently rush orders for weddings and parties have been completed in from one to two hours depending on the type of decorations. Wedding parties, clubs, and even child-en's birthday parties, whether large or small are always welcome to take advantage of Mrs. Koerner's knowledge in this type of baking and designing.

Koerner's own make ice cream is manufactured here with one of the best equipped systems in the state. A large variety of flavors is always on hand.

Four deliveries daily are made to the two branches while hot baking is obtainable any hour of the day, Sunday, from 7 a.m. to 12 mid-night.

ALUMNI DAY

The Palmyra High School Alumni Association will hold Alumni day on Saturday, November 9, when the Palmyra High eleven will oppose Moorestown High. Plans are being made by the association to have a registration booth for new mem-

bers on the field near the stadium. There will be a special section in the stadium for the alumni and their friends. Look for the announcement on alumni day in next week's papers.

In the evening the association will hold a dance in conjunction with the Burlington High Alumni association at the Medford Lakes Lodge with the music being furnished by the well known Chuck Gordon and his orchestra. Dancing will be from 9 til 1.

THE PEOPLE'S COLUMN

To: The New Era
Gentlemen:
I would appreciate the use of your valuable columns to get a thought or two over to your Palmyra subscribers concerning the question of "Sunday Sports" which will appear under a different heading upon the ballot and voted upon at the coming General Election.

The question is really not "Sunday Sports" but "Open Sunday" and should be so considered, with the possibilities, if carried, of Palmyra having "Open Saloons, Movies, Bowling Alleys, Pool Room" etc. The promoters of the "Open Sunday" have not publicly announced where the "Sunday Sports" would be held; perhaps the new Municipal Park is being considered. This park is in a section of Palmyra now ripe for residential development. This development is already underway and it is expected to attract a desirable class of citizenry and increase our tax paying population. New homes mean new rates and an increase in rates should mean a lower tax rate.

Will the builders or buyers risk investing their dollars in a location where many automobiles may park and hundreds of yelling "Sport Enthusiasts" gather every suitable Sunday morning and afternoon, to watch the various games.

Another subject for consideration, and many Palmyra citizens may consider it the most important, is What effect would "Open Sun-

days" have upon the youth of the community? As many of us are aware, children are prone to follow in the footsteps of their parents and if father should go to the game on Sunday, little Johnny and sister Sue may attend the game instead of the Sunday School which with the Church, remain the only places where children may obtain the priceless instruction in morals and their duty towards their neighbor.

With many other citizens, I appeal to the voters of Palmyra to look for the question on the ballot and vote No, thus helping Palmyra to maintain its place as a wholesome residential town among the sensible boroughs of South Jersey.

PALMYRA WOMAN'S CLUB

The Palmyra Women's Club will hold its regular business meeting on Monday, November 4, at 2:30 p.m. at Society Hall.

An illustrated lecture "Safari on Wheels" and "How the News Is Sent Out" will be features of the program.

The music department will have home made foods for sale after the meeting.
