PRICE FIVE CENTS

Report from Your Congressman

FRANK A. MATHEWS, JR.

Concluding the discussion of the new reasons your Congressman gave for rising prices and inflation, the seventh, eighth, ninth and tenth reasons more or less speak for themselves. You have read about these and heard them discussed over the radio and otherwise for a long, long time.

This much can be said, however, regarding government support price programs: Such programs are not necessarily unwise in themselves, particularly as to agriculture. It is the way they have been set up and administered in the past that has caused serious results which would also be ludicrous if they were not serious. The whole program needs a thorough going over. Naturally farmers cannot just go bankrupt all over the country due to over-production and not have it affect all of us seriously. Agriculture is the basis of any nation's economy. What is needed is a study of these support programs with relation to the rest of the causes of inflation.

The last reason given for the present condition — world wide spending — is one against the unreasons and amazingly wasteful phases of which your Congressman has been a vigorous and vocal opponent ever since he has been in the House of Representatives.

Let us take one of the earliest phases of this — the \$3,750,000,000 British so-called loan. In one year it was gone, with nothing to show for it but the salvation of the British Socialized Labor Party, which could not have existed as long as it has without that money. There is no one today, except those who insist upon shutting their eyes to actual facts, who does not recognize this "loan" as helping Britain little or none at all and hurting us considerably.

Your Congressman was one of the earliest to call attention to the enormous amount of material needed here which was being shipped to Russia at a time when the Administration was saying out of the other side of its mouth that we must spend millions and millions in Greece, Turkey and elsewhere to stop Communism.

And now we have come to the frightening realization that our steel industry is in a most precarious position, due to the lack of scrap and other reasons. This scrap we let get away from us and sent away from us. The Administration seemed to care nothing about what happened to American economy and poured our resources lavishly upon European and other nations free — paid for with your money at the same time it deprived you of this essential commodity in the manufacture of steel as well as of innumerable items made of steel which not only you could have used but which had they remained with us, would have been scrap for our use when they wore out.

You are beginning to feel the effects of the so-called bi-partisan foreign policy, for opposing which your Congressman has earned the displeasure of some political leaders of his own Party who were carried away by its short-sighted glamour. And the end is not yet.

A covered dish supper will precede the meeting, and will start at 6:30. Democratic candidates for National, State and County office have been invited, including Archibald S. Alexander, candidate for the United States Senate; Charles R. Howell, Congressional nominee; James M. Davis, Jr., State Senate candidate, and Henry S. Haines and Richard J. Lippincott, candidates for the Board of Freeholders.

CAR INSPECTION DUE

Motorists are advised by Motor Vehicle Commissioner Arthur W. Magee that September 1 begins the second car inspection period of the current registration year.

Appearances for this inspection period are governed, not by written notices, but by the back of the sticker which tells the month in which the car is due back in the inspection lane. Early appearances each month will not only spread the work load at the stations but will insure prompt handling throughout the period, said the Commissioner.

The Commissioner also advised that motorists who have been notified to present their vehicles for the first inspection and have not complied are delinquent.

EAGLES WIN

In one of the best played softball games this season the Palmyra Eagles defeated Shorten's 1-0 at Memorial Park on Monday night of this week. The only tally came in the last of the seventh inning.

The win placed the Eagles in a tie for first place in the second half with the K. of C. These two teams are now engaged in a three game series to determine the opponent for Shorten's, first half winner.

RIVERTON A. A. TIES ONE, WINS ONE

On Saturday, August 28th, Riverton A. A. and Brooklawn A. A. played a 5-5 tie. The game was called at the end of ten innings due to the terrific heat. With two out in the ninth, Sam Austin hit a home run over the right fielder's head that scored two runs and tied up the game. Riverton almost won the game in the tenth, as Bill Langenberg led off with a double, only to be thrown out trying to take third. Riverton's hitting was led by Austin who had three hits, Fred Freeman, Wallie Staub and F. Langenberg each had two. The latter started the game for Riverton but was relieved in the sixth inning by Joe Zimmer. Zimmer held Brooklawn to one run in the last five innings.

On Tuesday, August 31st, Riverton defeated the Merchantville Tigers, at Merchantville, 6-3. Outstanding for the locals were Dick Durgin with three hits, and Charlie Haines with two. Austin, Faulkner, W. Langenberg, and Watkins had one safety apiece. In getting his one hit, Watkins kept his batting average over .400. F. Langenberg pitched for Riverton.

Many fans from both Riverton and Palmyra have been asking why we do not schedule a series of games with the Palmyra A. A. For many weeks the Riverton management has been trying to arrange a series, but so far, all attempts have been completely unsuccessful.

There will be a game at home this Saturday at 2:30 p.m. On Labor Day, the final game of the series with Sacred Heart will be played, at Memorial Park. Game time 2:30. Publicity

in which they traveled through all of the states in that group.

They left Riverton on Saturday, August 21, and by the time the group returned had covered a total distance of 1600 miles.

The first night out camp was made near Nassau, N. Y., on the shore of a small lake. The next day, Sunday, the entire group attended church in Bennington, Vermont. That night the Explorers camped on the shores of Lake Timmouh in the Green Mountains.

From this point they proceeded to the Wild River area of the White Mountain National Forest which is situated on the Maine-New Hampshire

state line about fifteen miles from Gilead, Maine. The Explorers used this camp as a base for the next three days, from here visiting Mr. Washington, Franconia Notch, The Old Man of the Mountain and the Glacial Caves of Lost River. Hiking was also done along the mountain trails and swimming in the Wild River Gorge.

The next stop was at Boothbay Harbor, Maine, which is situated on the coast. Permission was granted by the U. S. Bureau of Fisheries Station and the Maine State Bureau of Fisheries for the Explorers to camp on their grounds.

The next day the group proceeded south along the coast stopping at Bailey's Island, the Desert of Maine and Portland Head Lighthouse. Camp was made that night near Saco, Maine.

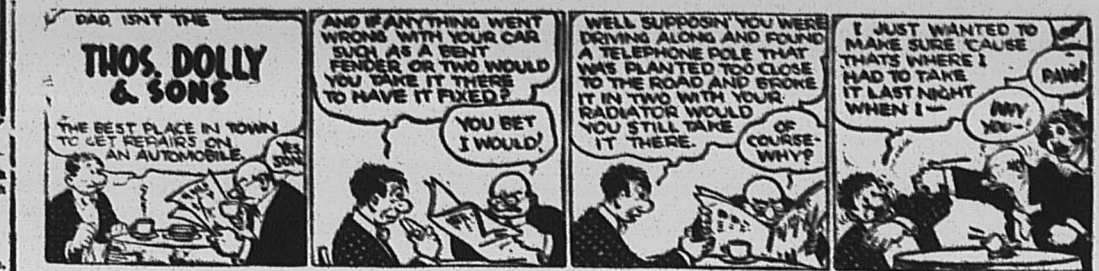

Saturday they drove to Middletown, Connecticut, where they stayed overnight and attended church Sunday morning before leaving for home.

The members of the Post on this trip were: Jack Lundstedt, post guide; Richard Burr, post secretary; Richard Adams, Jack Oliver, Roger Wagner and Nelson Ross.

OUR 5-POINT PLEDGE TO THE PUBLIC

✓ DELIVERIES—We will deliver all new Oldsmobiles at the earliest possible date consistent with production.

✓ PRICES—We will charge no more than the delivered prices suggested by the Oldsmobile Division of General Motors. The buyer will receive an itemized bill of sale.

✓ TRADE-INS—We will take your order and deliver your car without requiring a trade-in. However, we have many valued used car customers we would like to supply, and we will give you a fair and reasonable allowance on your present car.

✓ FINANCING—You may pay cash for your new Oldsmobile or finance it whenever you wish. We will be glad to furnish low cost finance and insurance terms if you so desire.

✓ ACCESSORIES—All cars are delivered with accessories as ordered, and prices are figured to cover these. We pledge ourselves to add no "extras" except those each customer orders.

When a manufacturer produces a car so obviously ahead of the times as the Futuramic Oldsmobile, it's only natural that demand for that product should break all records. Add to this today's pent-up need for automobiles—plus continuing shortages of steel and other critical materials—and you'll see why we have a real problem on our hands. We value the good will of all our customers. We would like

to provide all our customers with new Oldsmobile cars. But unfortunately, this can't be done overnight. That is why we are taking this opportunity to reaffirm publicly our POLICIES ON PRICES AND DELIVERIES. We believe that under present circumstances these policies constitute a sound basis for "fair play" to everybody. And we hope that, on this basis, we may continue to serve you.

FIRE EXTINGUISHERS
a BIG product of
NEW JERSEY

Since the beginning of time, our fight against the menace of fire... the horrible destructive force of fire... has occupied man's ingenuity. But today, thanks to the leadership of New Jersey engineers and designers, modern fire extinguishers constitute a valuable protection against this mortal enemy.

Fire control apparatus is in use everywhere... on land, in the air, at sea. You see them on the highways and in the home, always ready for your protection. So hats off to the New Jersey men and women who have contributed so much to the design and manufacture of these important products!

Public Service Electric and Gas Company, public servant of a great state, commends the fire extinguisher industry on its accomplishments and its plans for future growth.

Know Your Government

SEDATIVE FOR SPENDERS

It's the pen of a governor that gives a legislative bill its final push to make it law. Often times in making State law, a governor's approval can load one more burden on the taxpayer. Or his veto can mean savings.

New Jersey's acting Governor Sumner recently took the latter course in many instances, and the untold thousands of dollars in future taxes to meet the cost of added State and municipal expenditures. Numerous bills, whose first-tions with the taxpayers' pocketbooks were to close for comfort, were felled by the veto of the acting Governor.

temporarily, which always has been a going to override a governor's veto, is nevertheless slowed down by the chief executive, "Ho!" This is often the taxpayer's lifesaver, the last stoppage against pet spending ideas.

The New Jersey Taxpayers Association says: "All legislative measures which are the catalyst or spending ideas of one legislator or a special interest group. Too often the political interest of our representatives in drafting a vote for such measures, in relation for these political friends, the Governor's veto can save a lot of legislative malfeasance — and a lot of taxpayer ills — at the same time.

MAVEY TO GET FAT

We usually think of the fat man as a jolly fellow. In any event, we expect him to be jolly. But this is not always the case. In fact, obesity is not really funny at all. Other things being equal, obesity shortens one's span of life. Moreover, fat people have an extra tendency toward developing degenerative diseases of the heart, kidneys, gall bladder, and joints. In addition, various other ailments appear.

SUNDAY DINNER Suggestions

A WELCOME meal, a season of the year, is a time when the A. & P. Service for Home Makers suggests this as the main dish for dinner this Sunday.

The lighter pink meat is in color, the younger the lamb. The color darkens to a deeper pink as the animal grows older. The leg with which to serve the lamb is the one that is closest to the body. It is the best of the leg, but to be sure, ask the butcher for the best.

With the most with salt and pepper and place it in a rack in an uncovered roasting pan. But the oven heat moderately slow (325-350 F.) and roast from 10 to 15 minutes a pound. Remember, the lamb should be roasted until it is tender, not until it is browned.

Many people who are engaged in strenuous work and others who have too much leisure time overeat as a way of escaping boredom. Again, unhappy conditions of life, a feeling of frustration, a lack of emotional satisfaction, responsibilities, all these conditions may lead one to overeat. Parents sometimes give their children too much food because of a drive to favor and protect them, thus teaching the child poor eating habits.

In many cases, obesity can be cured. It can be treated, and even prevented. A thorough understanding of a patient's physical and psychological situation. The doctor must

AIR PARCEL POST NOW IN OPERATION

With the inauguration of nationwide-worldwide air parcel post September 1, the United States can boast of the most modern and expeditious delivery service in the world, according to Postmaster Haas, of Riverton.

The new highly specialized airborne service, enacted into law by the 80th Congress, will afford patrons of more than 42,000 post offices in America and its possessions unexcelled shipping facilities. Transit time will be reduced to a fraction of that required by other modes of transportation.

Postmaster Haas pointed out that air parcel post packages will receive the same particular consideration shown air mail in routing. In addition, identical doorstep delivery will be given to air parcel post as is afforded other forms of mail, making

the airborne mail service unique in every respect.

The Postmaster added that distinct air parcel post stickers, printed in red, white and blue and bearing the likeness of a winged package with the earth's globe underneath, will soon be available without cost at the Riverton Post Office to apply to outgoing packages.

"With a scheduled plane taking off or landing within the United States on an average of every seven seconds

around the clock, and an overseas-bound plane leaving our borders every 30 minutes, we stand ready to give our patrons the fastest parcel post service offered anywhere," Postmaster Haas said.

While international air parcel post service has been available from the United States and its possessions for several months, domestic airborne service is being launched for the first time in history.

WARNS AGAINST COMPLACENCY

"The recent death of Charles Evans Hughes should serve to remind all Republicans that an election cannot be taken for granted," Thomas D. Begley, chairman of the Republican County Committee, said today. Reminding Republican committeemen and women of the importance of getting potential voters to register, he quoted recent polls which show that of the independent voters who vote either ticket according to their choice, approximately 45% will vote for Thomas E. Dewey for president, while only 25% will vote for Truman. The balance of the independent voters have not made up their minds as yet.

Said Begley, "Out of every one hundred new registrations, the Republicans should get a minimum of 45 votes in November. This, plus the many who are now undecided, should help us win the election in November."

Begley warned against complacency in Republican ranks, saying, "Although all public opinion polls today show that almost 50% of the people would vote for Dewey, against 30% for Truman, it must be remembered that such polls are on the basis of an election held today. However, we must remember that the election will be held on November 2, and a lot can happen between now and then.

We must work continually to show everyone that the Republicans have the best ticket in the field, and that Dewey, with his background as the successful governor of the State of New York, is the man for the tremendous job ahead."

Reminding all workers that there will be a pre-election picnic at Log Cabin Lodge, Medford Lakes, on Saturday, September 25 at 2 p.m., Begley urged a 100% attendance of committeemen and women. He invited them to "come out and meet your candidates. When you know a man who is running for office, and have talked to him personally, you can assure your voters that your man is the better man without any doubt." The Medford Lakes site of the picnic was obtained through Leon Todd, county chairman in previous years.

CAB DRIVER ROBBED

A 28-year-old taxi driver was stabbed and robbed of his cab on Monday of this week by two young men in Army uniforms.

George T. Seeda, Jr., of 1 Bellevue avenue, East Riverton, was attacked near Richmond and Luzerne streets about 4 a.m., after he had brought the men here from near Fort Dix.

He suffered two deep wounds of the chest and one of the thumbs may have punctured a lung, doctors at Frankford Hospital said. His condition is only fair, they said.

Seeda, who is employed by the United Taxi Cab Co., told Detective Leo Kane that the men hailed him on the highway near Fort Dix shortly before 2 a.m., and said they wanted to be driven to Philadelphia.

NOTICE TO MOTORISTS

With the reopening of schools in the office, the New Jersey Highway Safety Coordinating Committee today reminded motorists of a recent amendment to the Traffic Law that provides a mandatory minimum penalty for failure to stop not less than ten feet from a standing school bus that is receiving or discharging children on the highway. The new penalty is a mandatory minimum \$10 fine for first offenders, not less than \$25 for each succeeding offense and the possibility of license revocation.

School buses that are used solely for the transportation of children to or from school must be so designated with a sign on the front and rear in letters at least four inches in height. The law also imposes on the school bus driver the responsibility for keeping his bus stationary until every child who may have been discharged therefrom has reached a place of safety.

Members of the Committee are Arthur W. Magee, Motor Vehicle Commissioner; Charles H. Schofield, Superintendent State Police; John H. Boshart, Commissioner of Education; and Spencer Miller, Jr., State Highway Commissioner.

LOCAL SAILORS WIN

The new champions, all of whom represent Riverton Yacht Club, are: Barbara Lippincott, 18, who had two firsts and a third with her Tanny Boo, to take the duster class title; Howard Lippincott, who won two races and was runner-up in the other with Cirrus II to capture the comet class crown; and Bob Andrews, Palmyra High School student, who had a perfect score when he won two contests for the moth class championship.

Champion in 2d Marcy Lippincott was runner-up in Woody in the comets; John Knight, former National champion, was duster class runner-up, and Kris Mann was second in the moths.

Harold Sheble, in Double Scotch, from the home club, won the comet class drifting match, in a close finish from Howard Lippincott, with Owen Merrill, National class champion, third.

Howard Lippincott repeated in the third comet race and Barbara Lippincott had things her own way in the dusters. Bob Lundstedt, National champion, finally got the hang of the light breezes and placed third.

BURLINGTON COUNTY BOARD OF ELECTIONS Mount Holly, New Jersey

WOOD-COOPER

On Saturday afternoon, September 4th, Miss Elizabeth Maude Cooper, daughter of Mr. and Mrs. Basil Hubert Cooper, of "Pinehurst," Moorestown, was married in Trinity Church, Moorestown, to James Arnott Elliott Wood, son of Mr. and Mrs. Alexander Cooper Wood, Jr., of "Harmony Hall," Cinnaminson. The ceremony was performed by the rector, the Rev. Edgar L. Sanford, with Mr. Walter Bethel, cousin of the groom, presiding at the organ. The processional was the Bach chorale, "Rejoice, Ye Christians, Loudly," and the recessional, the organ music accompanying the "Gloria" of the Bach B-Minor Mass.

Given in marriage by her father, the bride wore a gown of dark ivory satin, hoop skirted, with old Brussels lace bertha and a rose point Brussels lace full length veil caught at the top in a crown of orange blossoms. She carried an antique white lace fan.

Miss Caroline McMurtrie Speer, of Dobbs Ferry, New York, was maid of honor, and Mrs. Kenneth Hassarick, of Blooming Glen, Pennsylvania, and Mrs. Walter W. Haase, of New York, both sisters of the bride, and Mrs. Kenneth Edward Cooper, of Moorestown, the bride's sister-in-law, were bridesmaids. They wore ankle-length, off the shoulder, hoop skirted, white dotted swiss gowns with scarlet, gold, green and blue sashes and carried matching bouquets.

Alexander C. Wood, 3rd, of Cinnaminson, brother of the groom, was best man, and the ushers were Mr. Nathaniel B. Groton, Jr., Chicago, Illinois; Mr. Richard M. Gummere, Media, Pennsylvania; Mr. Kenneth E. Cooper, Moorestown; Mr. W. Harrison Mechling, Moorestown; Mr. Kenneth Hassarick, Blooming Glen, Pennsylvania, and Mr. David D. Makel, Moorestown.

The bride's mother wore a gown of rose lace with black hat and accessories and a corsage of orchids, and the groom's mother a gown of beige lace with beige hat and accessories and a corsage of orchids.

The bride was graduated from Vassar College and studied at Union Theological Seminary and the bridegroom from Harvard University and New York University Law School. During World War II he served overseas with the 80th Division, U.S. Army.

Following the ceremony, a reception was held at "Pinehurst," the home of the bride's parents.

Mr. and Mrs. Francis R. Mitchell, Main street, Riverton, entertained Miss Myrtle Leek of Darby, Pa., last weekend.

SACRED HEART SCHOOL INSPECTION SEPTEMBER 12

A meeting of the executive committee of the Sacred Heart Parent-Teacher Association was held Tuesday evening, August 24, in the school auditorium, when plans were made for the opening of school, Wednesday, September 8.

Extensive renovating of the school, church and convent has been made during the summer months, and the parents and friends of the children are invited to inspect the school buildings Sunday, September 12.

Potato Surplus

Nearly every day for the past week a freight train rolls along the local line with about 100 cars loaded with loose potatoes. These are part of the surplus crop grown in New Jersey which have been purchased, it is reported, by a company which will use them in making alcohol. It is also reported that this company acquired the potatoes for six cents per hundred pounds from Uncle Sam.

The government, had already bought them from growers at the price which the producers are guaranteed, about \$2.46 per hundred pounds. According to this policy, if you grow potatoes and can't sell them at the guaranteed price, you get from Washington whatever you lose in the transaction. If you can't sell them at all, the government takes the lot at the fixed price and then sells them for whatever it can get in this case, six cents. Sometimes it is less.

The cheap potatoes never reach the retail market because that would still further disturb the economics of the existing situation.

RIVERTON WINS TWO

Over the past weekend, Riverton A.A. added two more victories to their increasing win column. Both games were featured by hard hitting on the part of the locals.

On Saturday, September 4th, at Memorial Park, Riverton downed the Delair Vets 10-4. They were never threatened and won easily behind the pitching of Bill Langenberg. Dick Durgin came through with three hits, while Faulkner, Haines, Bill Langenberg and Fred Freeman each had two. Three home runs were smashed out by the home team, the most that Riverton has hit in a single game this year. Watkins, Durgin and Bill Langenberg accounted for these homers.

On Labor Day, Riverton defeated Sacred Heart by the one-sided score of 16-2. Riverton had 22 hits and judging from the way they swung at the ball there was no doubt that they were out to avenge their earlier defeat. Harry Watkins and Wallie Staub had four singles each to lead the batting parade. Faulkner and Bill Langenberg had three hits apiece, one of the latter's being his second home run in two games. Fred Langenberg pitched the entire game for his tenth consecutive victory of the current season.

Challenge Palmyra With Riverton's victory over Sacred Heart they have now defeated two of the three other teams in the Tri-Boroughs. The only team that Riverton has not played is the Palmyra A. A., and we take this opportunity to challenge them. The victor of this game will be the undisputed champion. The fans want, and deserve, this game!

WALTER M. CROUCH

Walter M. Crouch, of Northfield, N. J., died Tuesday, September 7. He was a former resident of Palmyra.

He is survived by his wife, Lillian.

TENNIS WINNERS

On Labor Day the doubles team of Dick Eberly and Don West added the Riverton Memorial Park championship to their Country Club championship. In the finals, Eberly and West defeated Dick Edwards and Dick Wilder 6-3, 6-1, 6-2.

The results of other matches are as follows: first round — H. Carson and A. Thompson defeated Al Farrow and R. Jermon 6-1, 7-5. Second round — Eberly and West defeated Carson and Thompson 6-3, 6-2; Ed and Jack McVaugh defeated the Taylor brothers 6-1, 7-5; Edwards and Wilder won from F. Groff and R. Wilder by default; R. Coe and G. Hagstoz defeated Bob Lundstedt and Bob Farrow 6-1, 6-3. Semi-final round — Eberly and West defeated the McVaughs 1-6, 6-4, 6-1; Edwards and Wilder won from Coe and Hagstoz by default.

The winners each received a handsome silver cup which must be won three times for permanent possession.

HALLOWEEN COMMITTEE PLANS GALA PARADE

At a meeting of the Tri-Borough Halloween Jubilee committee held last Tuesday evening at Palmyra Borough Hall, further plans for the gala parade scheduled for Saturday, October 30, were made.

Thus far seven musical units have definitely agreed to participate. Many others are expected. Also this year the parade will welcome contestants from out of town.

Commercial vehicles will be barred from participating except as floats. The parade will be strictly of a color and masquerade nature.

It is the desire of the committee, headed by Thomas Schwink, to make this year's affair the largest and most spectacular thus far. Russell Rivers is assistant chairman, with Francis Hamelman as secretary and treasurer, assisted by a fine committee.

In case of rain the parade will be held Monday evening, November 1.

PUBLIC SERVICE

NAVAL AVIATION CADET PROGRAM

Of vital interest to all young men between the ages of 18 and 25 is the opening of the Naval Aviation Cadet Program. Men so enrolled fulfill their draft obligation at the same time they receive flight training. This is a new training program from start to finish, both in equipment and methods. It is the result of a great deal of research and all those lessons learned in training flyers during World War II. This program is open for men with two years of college (total of sixty semester hours credit). Successful cadets are commissioned in the Naval Reserve and may transfer to the Regular Navy after completion of eighteen months of active commissioned service, in such numbers as may be required to meet the needs of the service. When commissioned, the officer receives \$291 per month, or \$372 if married. The new Naval Cadet receives his first taste of flight instruction in the Navy's sleek SNJ basic trainer, a plane which has a long record for safety and suitability for student flight instruction.

The training of a single man consumes about fifteen intensive months and includes principles of flight theory, navigation, aerology, and aviation communication as well as basic military and athletic programs. After finishing twelve months of basic work at Pensacola, Florida, the Cadet receives his Navy Wings and is commissioned Ensign, U. S. Naval Reserve. The new Ensign then proceeds to Jacksonville, Florida, or Corpus Christi, Texas, for four months of advanced training in operational type aircraft. If possible, he is given a choice between specializing in the Navy's multi-engine aircraft or in single-engine carrier planes.

Detailed information may be readily obtained at the Office of Naval Officer Procurement, 13 South Thirtieth street, Philadelphia 7, Pa.

How can I avoid service charges?
A service charge on a checking account is made only when the cost of rendering the service is greater than the earnings the depositor's balance will provide. We would prefer not to make a service charge. For that reason we encourage the depositor to maintain a balance of sufficient size to compensate for the number of checks drawn. Inquiries cordially invited.

When a manufacturer produces a car so obviously ahead of the times as the Futuramic Oldsmobile, it's only natural that demand for that product should break all records. Add to this today's pent-up need for automobiles—plus continuing shortages of steel and other critical materials—and you'll see why we have a real problem on our hands. We value the good will of all our customers. We would like

to provide all our customers with new Oldsmobile cars. But unfortunately, this can't be done overnight. That is why we are taking this opportunity to reaffirm publicly our POLICIES on PRICES AND DELIVERIES. We believe that under present circumstances these policies constitute a sound basis for "fair play" to everybody. And we hope that, on this basis, we may continue to serve you.

Association each Spring and Fall is again in progress. Plans for the Fall dance to be held October 16th with dancing from 9 to 1:00, were discussed at the Alumni meeting Wednesday evening. Warner Haines has been secured by the committee to supply the music and as usual the evening promises to be a very gay, friendship renewing evening.

Tickets may be secured at the Palmyra Post Office from Walter Poulson. Dr. Hayes Brady can also supply you. Some member of the committee will probably see you about your ticket, but in case you're missed you can see either of the above mentioned.

The Shorten softball team took the playoff series opener on Tuesday night of this week by defeating the K. of C. by the score of 9-6. The first team to win three games will be awarded the league championship for the current season.

The Knights got off to a two run lead in the opening frame, but the

winners tallied frequently on a series of K. of C. errors. The Knights put on a four run rally in the final stanza, but a fast double play put out the fire.

LOCAL STRING BAND AT ATLANTIC CITY

SLEEPING PILLS

Misuse of sleeping pills, causing nineteen deaths in New Jersey since January 1 last, recently came under the scrutiny of Dr. Daniel Bergsma, State Commissioner of Health. Study of death certificates reveals that physicians in six of the nineteen fatalities certified that the sleeping pills were taken in over-doses without suicidal intent.

New Jersey's shocking record of misuse of the pills discloses 89 deaths in the last three years, 29 in 1945; 25 in 1946, and 34 last year.

Legislation has been in effect for more than a decade limiting the sales of sleeping pills, or barbiturates by pharmacists, to those cases where physicians' prescriptions were presented. Drug-store refills are prohibited.

State Boards of Health and Pharmacy plan renewed activity to insure compliance with the non-refill provisions of the State regulations affecting sleeping pills.

Through the State Medical Society, the Health Department has informed physicians of the misuse of barbiturates, suggesting that prescriptions not intended for renewal be marked "Not to be Renewed," at the time they are initially issued.

"The barbituric acid act of 1933 which prohibits the sale of barbituric acid compounds except on the prescription of a licensed physician has had strict enforcement on New Jersey by the Health Department and State Board of Pharmacy," said Health Commissioner Bergsma, "with the result that the illegal sale of barbiturates by pharmacists is but a small part of the problem."

First Church of Christ, Scientist
Thomas Ave. at Seventh St.
Riverton, N. J.

"Substance" is the subject for Sunday, September 12.

Golden Text: "We are saved by hope: but hope that is seen is not hope: for what a man seeth, why doth he yet hope for? But if we hope for that we see not, then do we with patience wait for it." (Rom. 8: 24, 25)

Sermon: Passages from the King James version of the Bible include: "How great are his signs! and how mighty are his wonders! his kingdom is an everlasting kingdom, and his dominion is from generation to generation." (Dan. 4:3)

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "Substance is that which is eternal and incapable of discord and decay." (p. 468) "Mortals must look beyond fading, finite forms, if they would gain the true sense of things." (p. 264)

The Church School
All materials are on hand for "The New Curriculum," a program of religious education for church and home which will be inaugurated in our Church School on Sunday, October 3. Superintendents of departments and teachers have been studying the course very carefully during the summer months; a "Preview Conference" has been held, and the "Parent-Teacher Magazines" will soon be in the hands of all parents of Church School students.

Next Wednesday evening, September 15 a Council meeting of all officers, teachers, substitute teachers, superintendents of departments and members of the Session's Committee on Christian Education will be held in the Ladies' Parlor beginning at 7:45 p.m. It is of vital importance to the success of this program that every leader should be present.

Parents are requested to encourage all students to be present for the Church School sessions next Sunday morning at 9:45. Please note that the Semper Fidelis Bible Class for ladies and the Men's Bible Class will also meet next Sunday morning.

Morning worship begins at eleven o'clock. Next Sunday the Calvary Choir will be back after the summer recess, and under the direction of Mr. Cooper will render the anthem "The Radiant Morn." by Woodland. Choir rehearsal will be held immediately following morning worship. The subject of the morning message will be "It Pays to Trust God."

A church nursery will be conducted during the morning worship hour for babies and children up to eight years of age. Mrs. Dante Mento will supervise the nursery.

A brief planning meeting for young people of Senior High and college age will be held on Sunday evening at 7:30 in the Ladies' Parlor. A "summer conference" discussion will be enjoyed, and arrangements will be made for the election of officers for the senior "Westminster Fellowship" group.

Arrangements for the Junior Choir, Intermediate and Junior Westminster Fellowship will be announced next week.

The Women's Society

For the inaugural fall meeting of the Women's Society a picnic outing has been arranged, to be held at the home of Mrs. Clarence Verkes at Taunton Lakes. The date is Wednesday, September 15. Members will meet at the Church at eleven o'clock Wednesday morning. Those desiring transportation, and those who will be using their own cars should get in touch with Mrs. Howard B. Conover (phone Riverton 9-0554-R) who will make the necessary arrangements. Each member should bring a box luncheon.

The September meeting of the Good Fellowship Club will be held on Friday evening, September 17, at seven o'clock in the Social Hall.

Summer is over. The season of harvest is at hand. Farmers are predicting bumper crops this year in almost every commodity. The time is ripe for the Church of God to harvest a bumper crop of the most precious commodity of all — the human soul. Let us start the harvest in our own community. Someone you know, someone you love, may be just waiting for that word or gesture that will bring them to God.

MORAVIAN CHURCH

Warren C. Kuhfahl, Pastor

The sickness that comes only on Sunday must be cured by the Great Physician. A cordial Christian welcome is extended to our friends to attend Sunday School which begins at 9:30 a.m.

The inspiration to better living must come from some higher source than ourselves. Go to Church Sunday. The worship service begins at 10:45 a.m. The worship theme for this Sunday is the Christmas Message. The spirit of Christ's birthday should be observed every day.

RATE INCREASE

New Jersey Bell Telephone Company today filed with the Board of Public Utility Commissioners new rate schedules increasing charges for all classes of telephone service in the State.

The company asked that the new rates become effective October 15. Immediate relief is necessary, it states, to bring earnings up to a level which will place the company on a sound financial basis and to offset the cost of general wage increases arising out of the recent awards by statutory boards of arbitration.

The new schedule will increase the local service charge for residence telephone service 75 cents a month in all communities. The rise in cost to business customers will depend on the amount of service and equipment they use. Charges for daytime station-to-station toll calls within the State will be increased for most distances over 25 miles by five cents, and length of talking periods, overtime rates, person-to-person and night rates have also been revised.

The new schedule will add, it is estimated, \$16,036,000 annually to the company's revenues. Additional revenues of \$10,515,000 were authorized in November, 1947 in the first general increase in telephone rates in New Jersey in 22 years. The amount granted in the 1947 order was less than two-thirds of the company's full application. The increase now sought and that authorized last fall will together increase the company's revenues from intrastate services about 30 per cent. The company terms this increase low, less than half the increase in living costs in New Jersey in the last 10 years.

Financial results for the first seven months of 1948 show earnings on the company's intrastate business at the rate of 3.56 per cent on the net investment, the company reports. The adverse effect on earnings of recent general wage increases is not yet reflected in the financial results. Since wages constitute two-thirds of total telephone operating expense, a further sharp drop in earnings is bound to occur. The company states that this lower level of earnings will continue until new rates are in effect.

In announcing the filing, the company stressed the particular importance of adequate earnings at this time, when it is seeking investment capital in large amounts for its \$300,000,000 postwar construction program to expand and improve the service, and is in competition for available funds with other businesses whose earnings are much higher than the company's. Since V-J Day, service has greatly improved and over 400,000 telephones have been added to the number in use in New Jersey. More than 50,000 telephones will be converted to dial service this year and nearly 270,000 are scheduled in the next two years under the program.

Rates under the new schedule, not including the Federal Tax follow:

Residence—Unlimited Calling	Ind'l 2-Party	4-Party
Line	Line	Line
Riverton \$5.00	\$4.25	\$3.50

Extension stations, Each 1.00 1.00 1.00
The local calling area will continue to include the following points:
From Riverton: Merchantville, Moorestown, Riverside, Riverton.

NOTICE

The office hours of Dr. E. T. Clifton, 621 Highland avenue, Palmyra, will be 9:00 to 11:00 a.m. and 6:30 to 8:30 p.m., every day except Thursday and Sunday.

PAPER COLLECTION

The Explorer Scouts of Post 50 of Riverton urge the people of Riverton to save all their scrap metal, rags and paper. They intend to start collection again Saturday, October 25th.

The first collection will be on Main, Howard, Cinnaminson and Fulton streets. Please save all you can.

Ambulance Campaign

The annual drive for funds for the Palmyra Ambulance Association will be held September 20 to 25. Walter L. Poulson will be the chairman of the drive this year.

As in past years the townspeople are reminded of the splendid work of the association, which is entirely voluntary, and of its willingness to lend a hand, at all hours of the day or night, whenever the use of the ambulance is desired. This service is without charge.

RIVERTON CHILDREN
MOLESTED

In the past few weeks, on two occasions, children have been approached on the streets of Riverton by a man who has attempted to entice them into his automobile. Both times the children have sensed the danger and fled from the molester.

In reporting the case, Sgt. John J. Robinson said the man attempted to lure two girls, six and eight years old, respectively, into his automobile on Thursday, September 2nd near the North Club. Again at noon, on Monday, a man answering the same description, attempted to lure a five year old girl into his car near the Riverton Public School.

The police are working earnestly on the case to apprehend the man and put a stop to this disgraceful action toward small children. The help of parents, by instructing their children not to enter the automobile of any stranger, is solicited by the police and school authorities. Children should go to and from school in company with other children, whenever possible. The police department radio car will patrol the streets constantly and be on the alert for any calls that may help them catch any would be offender, who enters the Borough.

Citizens can assist the police greatly in this work, if they will telephone in when they see anyone or any circumstance, that looks suspicious to them. Calls should go in to the Palmyra Police Station, Riverton 9-0191, as the Riverton police car radio is in constant tune with the Palmyra police short wave telephone. Riverton police can be reached by this modern method in a matter of minutes. Let each citizen constitute himself or herself as an arm of the police and help keep the streets of Riverton friendly and free.

Merrill Takes Title

Owen P. Merrill successfully defended his International canoe class sailing championship over the last week end by skimming his 16-footer easily to first place in three heats and racking up the perfect score of 150 1/4 points, at Port Clinton, Ohio. The Riverton skipper thus won two trophies — the John C. Eiman Perpetual Trophy and an individual award for winning three first places. Second place out of the 45 entries at the Port Clinton Yacht Club went to Lawrence Low, who gathered 142 points in his Tym-Fly, sailing out of Green Pond, N. J.

Lippincott Third

Howard Lippincott, also of Riverton, managed his Cirrus II over the Lake Erie course to take third place with 141 points.

HERRICK—ADAMS

The marriage of Miss Jane Hedges Adams, daughter of Mr. and Mrs. Robert Goss Adams of Riverton, to Mr. Myron Robert Herrick, son of Mr. and Mrs. Myron Charles Herrick of "Three Acres" Niles, Michigan, took place on Saturday afternoon, September 11, 1948, in Calvary Presbyterian Church, Riverton with Rev. Robert Barr Stewart officiating. Mrs. Cornelius De Boe sang "Ich liebe dich" by Greig and "The Lord's Prayer" by Melotte.

The bride, who was given in marriage by her father, wore a gown of deep ivory satin, with fitted bodice, with a Peter Pan collar of old rose-point lace, long pointed sleeves with a rill of the lace over her hands, and full gathered skirt ending in a circular train. Her chapel length illusion veil fell from a cap of the same lace, fastened at the sides with French orange blossoms. She carried a cascade bouquet of gardenias and stephanotis.

Mrs. E. Howard Koester, of Green Acres, Md., acted as matron of honor, and the bridesmaids were Mrs. Harry Woske, sister of the groom, of Brooklyn, N. Y.; Miss Martha Jane Daniels, of Riverton; Miss Marjorie Seabrook, Bridgeton, N. J.; and Miss Katharine N. Sutro, Chestnut Hill, Pa.

The attendants were dressed in soft gray green satin with matching mitts — fitted bodice with sweetheart neckline, full skirts, with panniers at the waist. They carried flame gladiolas with trailing ivy and wore ivy and gladiola petal half hats. The matron of honor carried buff gladiolas.

Mrs. Adams chose a gray crepe with mauve hat and gloves. She wore mauve and white spray orchids. The bridegroom's mother wore a coffee colored crepe trimmed with bronze beads, a brown with French and a corsage of brown green orchids.

Harrison C. Bristol, Jr., of New Britain, Conn., served as best man, and the ushers were Benjamin H. Adams, Jr., of Riverton, cousin of the bride; Thomas M. Bartlett, Easton, Maryland; Robert E. Keane, Summit, N. J.; and Robert L. Kirkpatrick, Sagerstown, Maryland.

A reception at the home of the bride's parents followed the ceremony.

How can I avoid
service charge?

A service charge on a checking account is made only when the cost of rendering the service is greater than the earnings the depositor's balance will provide. We would prefer not to make a service charge. For that reason we encourage the depositor to maintain a balance of sufficient size to compensate for the number of checks drawn. Inquiries cordially invited.

Leadership...
in the Garden State!

It's harvest time—and on more than 25,000 New Jersey farms, the leadership of our farmers is being shown. There are many notable achievements in agriculture in our Garden State. New Jersey has the highest farm income per acre in the U.S.A. Our dairy farmers produce more milk per cow per year than those of any other state except one. The average farm in New Jersey yields more than double the gross income per farm as compared to the national average.

Electricity promotes farm efficiency, and New Jersey farmers have made noteworthy use of rural electrification. A continuing program to aid farmers in securing the greatest benefits from electricity is being conducted by the State's Farm Electrification Council.

Public Service, public servant of a great state,
joins you in pointing with pride to the agricultural achievements of New Jersey's farmers.

Look for the next advertisement in this series regarding your state published by Public Service.

Copies of this series of messages regarding New Jersey are available on request. Write to 80 Park Place, Newark, N. J. Room 650B.

September 13.
Golden Text: "Turn ye not unto

gods: I am the Lord your God."
(Lev. 19:4)

Sermon: Passages from the King
James version of the Bible include:
"For my people have committed

hewed them out cisterns, broken
cisterns, that can hold not water."

Correlative passages from "Science

"Every system of human philosophy,

GILL—GRIFFENBERG

Bethany Lutheran Church, Palmyra, provided the setting for the wedding last Friday evening at which Miss Helen Griffenberg, daughter of Mr. and Mrs. John Griffenberg, of 604 Lincoln avenue, Palmyra, became the bride of Mr. Reginald H. Gill, Jr., son of Mr. and Mrs. Gill, of 504 Melrose avenue, Palmyra. The ceremony took place at 7 o'clock, and the Rev. George Miller, pastor of the church officiated.

The bride, who was given in marriage by her father, was gown in white marquisette, the full skirt made of white tulle and bodice designed with an illusion off-shoulder neckline and long sleeves tapering into points over the hands. Her fingertip scalloped veil of net fell from a tiara of seed pearls and she carried a bouquet of pearls and she carried a bouquet of white roses.

Miss Joan Griffenberg was maid of honor for her sister and she wore a model of teal marquisette made with an illusion off-shoulder neckline, cap sleeves and full skirt. Her bouquet was of pink roses. The bridesmaids, Miss Amy Griffenberg, of Island Park, N. Y., and Miss Grace Rose, cousins of the bride, were attired in frocks similar to that of the honor attendant, but in yellow and pink, respectively. Their bouquets of roses were in matching shades, and all attendants wore picture hats to match their dresses.

Mr. Marshall Gill, of Philadelphia, was his brother's best man, and Mr. Vernon Ross and Mr. Warren Schultz, of Beverly, served as ushers.

The bride's mother wore a rose lace dress with balances accessories, and the mother of the groom a balencia crepe dress with dark brown accessories. Their corsages were of yellow tea roses.

A reception was held at the Riverton Country Club. On their return from a wedding trip through the south, Mr. Gill and his bride will reside at 418 Linden avenue, Riverton.

**LIONS CLUB HEARS
ABOUT BOYS' STATE**

Edgar DeMaris, Hubert Hauck, Jack Lundstedt and Fred Schletter were the guest speakers last week at the Palmyra-Riverton Lions Club meeting. Each gave a short talk on his experiences at the "Boys' State" Convention at Rutgers earlier this summer. The club having contributed the financial support for one of the boys was interested in hearing their reactions to the program as it was carried out this year.

It was brought out that the purpose of the convention was to familiarize the youth of New Jersey with the various forms of municipal, county and state government as it exists today. The daily program included such items as party caucuses, campaign rallies, lectures, and recreation periods; the latter suffered from too much rain. The boys having learned for themselves are now charged with the responsibility of passing on this information to the other members of the school and town they represented.

The Lions Club was proud to have contributed to such a worthy cause and gratified to hear and see the interest these boys took in this activity.

**ROUTE 25 CROSSING
IS DANGEROUS**

The old problem of the hazardous crossings on Route 25 was discussed at length by the Cinnaminson Township Committee at their meeting held last week when it was brought out that the Township has only one officer available to stop traffic on the through highway when school buses cross in the afternoon, at Riverton road. One man, it was stated, cannot do this job because of the heavy traffic in both directions and the State Police are usually unable to aid because of manpower shortage. Because of this situation it was felt advisable to discontinue the service in the afternoon.

Although the problem has been discussed for over 10 years by various local, county and state officials, no definite action has been taken to date except a promise to straighten out the crossing at Riverton road. This project has not yet been started and local authorities feel that it will not solve the difficulty.

During the present year, Riverton and Cinnaminson officials, armed with a petition with hundreds of names and aided by State Senator Arthur W. Lewis and Assemblyman Albert McCay conferred with the heads of the State Highway and Motor Vehicle Departments. It was felt at that time that traffic control signals were needed not only at Riverton road, but also at Five Points, Parry.

Such traffic lights have not been established, a variety of reasons having been offered over a period of years. Some of these are as follows:

Cross traffic is not sufficiently heavy to warrant such lights. The number of accidents at the intersections in question does not show them to be particularly dangerous.

Lights would tend to increase accidents. If lights were installed locally many other communities would make similar requests and traffic on Route 25 would be slowed down (something desired by many).

Local officials point out that traffic on Route 25 is increasing constantly and much of it is composed of commercial vehicles from out of state. They feel that it is only a question of time before a very serious accident occurs and the thoughts of a huge trailer truck crashing into a crowded school bus create a picture that every one shudders to contemplate.

One suggestion was that the highway be made a 20-mile zone between the two intersections. This would materially reduce the hazard, but ONLY if the ruling were strictly enforced.

Having apparently exhausted every effort toward solving the difficulty, township officials are at a loss to determine their next move.

**LEAGUE OF WOMEN VOTERS
MEETS SEPTEMBER 28**

Women of Riverton and Palmyra are cordially invited to attend the first fall meeting and membership tea to be given by the League of Women Voters at 1:30 on Tuesday, September 28th, in the Porch Club.

The program that day will include a talk by Mrs. Victor Ritchard, who has recently returned from Europe, a panel discussion of the major political parties and their platforms, as well as a political skit.

The Riverton-Palmyra League is a new branch of the national League which has been attracting nationwide interest because of its achievements in promoting political responsibility through informed and active participation of citizens in government. Life Magazine credits much of the good civic reform, which has made Madison, Wisconsin one of the most desirable U. S. cities in which to live, to the energy of the Madison League of Women Voters. Other publications, such as the New York Times and Parade, have also commended the League's work which is more important now than ever before.

Immediate plans for the local League include a Voters Information booth and a study of the United Nations. Those interested are urged to attend this meeting.

New Church Curriculum

A significant advance in the field of religious education will be recognized next Sunday morning by approximately 8500 Presbyterians churches across the nation.

For the past eight years the leaders of this denomination have been preparing a new program of Christian education that will provide parents with the opportunity to do part of the teaching in their homes during the week, and that will eventually provide each student with a complete library of well-bound books on Christian subjects.

This new teaching program will begin on Sunday, October 3, but local Presbyterians will please note that the morning worship service next Sunday, September 26 will begin at 10:30 instead of 11 o'clock. This change in time of meeting is for one Sunday only. This will be a special Consecration Service for students, parents of students, teachers and officers of the Church School, and the members of the congregation. Special seats will be assigned to each of these groups.

At this service the new teaching program for church and home will be explained.

PUBLIC HEALTH WEEK

The State Medical Society of New Jersey is sponsoring Public Health Week which will be held throughout the State, November 8-12. There will be numerous local meetings, open forums, exhibits, speeches, etc. These gatherings are to inform the public on health matters and to show them the many ways in which medicine has progressed.

In Burlington county, Public Health Week is endorsed by Burlington County Medical Society. On September 28, at 8 p.m., in St. Mary's Guild House, West Broad Street, Burlington, there will be a meeting of the Public Health Committee of the Burlington County Medical Society to which are cordially invited representatives of schools, church groups, civic organizations, veterans organizations, and professional societies of each community. The purpose of this meeting is to discuss the program for Public Health Week. A large representation is anticipated.

The estimated cost of this proposed construction including the cost of the property will be \$300,000. The portion of the building program which was originally contemplated for a new gymnasium for the high school has been postponed in view of the high cost of construction at present and the immediate need for grade school facilities.

The election has been planned for September 28 and it is hoped that all residents of the town will take steps to be registered so that they may vote at this very important election.

A large crowd witnessed the contest in which Andy Winters starred for the winners.

New School Proposed

The Palmyra Board of Education at its regular meeting last Tuesday evening, took formal action to request permission of the voters to purchase land and issue bonds for the construction of an elementary school building.

For several years the Board has been considering the problem of providing additional facilities for the elementary grades. Two years ago it became necessary to use the library of the Cinnaminson avenue building for an additional section of First Grade. Last year still more room was needed and a Sunday School room of the Bethany Lutheran Church was rented for Kindergarten purposes. This year another room is needed. However, since no room has been found it has been necessary to crowd 74 Second Graders into two rooms. This is far too many for any effective individualized instruction but there is no alternative at the moment.

The problem will become increasingly acute as the second graders move into other grades from year to year.

For the past few months the Board of Education had under consideration the use of the present ball diamond for the erection of an elementary. This would be particularly desirable because of its location in the center of town. After several conferences with the Borough Council and members of the Field Club it was decided that it would be to the best interests of the community to keep the ball park and playground as they now are and to secure some other available site for school purposes.

A careful survey of the community has resulted in the selection of the area known as the Wallace Tract, located on Charles street between Cinnaminson avenue and Public road. This plot must be bought in its entirety although it is likely that not all of it will be needed for school purposes.

The plan of the Board of Education is to erect an 8 room building on the portion of the tract approximately at the intersection of Charles and Walnut streets, facing on Charles street. The site provides plenty of room for expansion in the future and for the ultimate replacement of the Cinnaminson avenue and Spring Garden street buildings in the years to come.

The plan under consideration by the architect is to provide classrooms for 4th, 5th, and 6th grades in the new building, using the present Cinnaminson avenue and Spring Garden street buildings for the primary grades, from Kindergarten to Grade 3 inclusive. This will make it unnecessary for young children to walk any further from their homes than they now must walk. The distance from the farthest part of the town to this proposed tract is slightly over one mile and only the students of 4th, 5th, and 6th grades will be assigned to this building.

The estimated cost of this proposed construction including the cost of the property will be \$300,000. The portion of the building program which was originally contemplated for a new gymnasium for the high school has been postponed in view of the high cost of construction at present and the immediate need for grade school facilities.

The election has been planned for September 28 and it is hoped that all residents of the town will take steps to be registered so that they may vote at this very important election.

PANTHERS WIN

The Palmyra Panthers took their first decision of the season on Tuesday night of this week when they defeated Erlen A. C. 20-2 under the lights in the local high school stadium.

NEW JERSEY keeps the young 'uns happy

NEW JERSEY is like Santa Claus. It produces wonderful toys. This state ranks fifth in the country in toy production and manufactures nine per-cent of all the toys made in the United States.* And such toys! Beautiful dolls—amusing novelties, made of modern plastics—toys which perform amazing feats—electric trains, scale detailed models of trains now in actual service and on which you probably have ridden.

The oldest and largest manufacturer of electric trains in the world is located here in New Jersey. These trains have become the delight of adults as well as children.

New Jersey-made toys are responsible for creating joy in many places, near and far, and Public Service is proud of the part electricity plays in both their manufacture and operation.

How can I avoid service charges?
A service charge on a checking account is made only when the cost of rendering the service is greater than the earnings the depositor's balance will provide. We would prefer not to make a service charge. For that reason we encourage the depositor to maintain a balance of sufficient size to compensate for the number of checks drawn. Inquiries cordially invited.

SMITH—deHOLL

The marriage of Miss Tommie Lou deHoll, daughter of Mr. and Mrs. Henry Theodore deHoll, Riverton, to Mr. Albert Allen Smith, son of Mrs. Robert Meyer, Elkins Park, Pennsylvania, took place Saturday, September 18th, at four o'clock in the Central Baptist Church, Palmyra.

The Reverend S. Dan Morgan performed the ceremony.

The bride was given in marriage by her father and wore a white wedding gown made with a fitted eyelet organdie bodice having a high round neckline with a turn down organdie collar, long fitted sleeves and a wide organdie skirt ending in a long train outlined in a pleating of organdie. The apron front was of eyelet embroidery. Her fingertip length tulle veil fell from a Juliet cap of laticed tulle trimmed with orange blossoms at the side. She carried a round bouquet of gardenias edged with a tulle frill.

Mrs. B. C. Jones, Ashland, Kentucky, was matron of honor and Nancy deHoll was the maiden of honor. They wore coral bengaline dresses made with fitted off-shoulder bodices and cap sleeves, the wide skirts had a band of cording at the hipline. They carried round bouquets of pale yellow gladioli edged with pink gladioli and magnolia leaves and tied with chartreuse streamers. Their headresses were of the same flowers.

The bridesmaids were Mrs. C. J. Peter, Trenton; Miss Jean L. Thomas, Hazleton, Pa.; Miss Mary Lou Stewart, Salisbury, Md., and Miss Katherine O'Boyle, Drexel Hill. They wore the same style dress as the matron of honor in chartreuse bengaline and carried pink gladioli bouquets tied with coral streamers. The headresses were of the same flowers.

Mr. Robert H. Shinn, Philadelphia, was best man.

The ushers were Mr. William V. Hughes, Philadelphia; Mr. S. Roger Oliver, Jr., Edgewater Park; Mr. Edward Winklespecht, Riverside, and Mr. Hilton Walter, Jr., Yeadon.

Mrs. deHoll wore a royal blue gown and a matching hat trimmed with black feathers. Her corsage was of purple gladioli florettes. The groom's mother was attired in gray.

A reception followed at the deHoll home. On their return from a wedding trip to Williamsburg, Va., Mr. Smith and his bride will reside at 7819 York road, Elkins Park, where they will be at home after October 1.

The bride is a graduate of Drexel Institute of Technology and is a member of Sigma Sigma sorority and Alpha Psi Omega, national honorary fraternity. U. S. CEMETERY
TO BE ENLARGED

The Federal Government has pur-
chased an additional 21 acres of land
to extend the U. S. National Ceme-
tery at Beverly.

Representative Frank A. Mathews,
Jr. (R. N. J.) of Riverton, said that
he was informed of the purchase for
additional grave sites by Col. George
W. Hinman, Memorial Division,
Quartermaster General's Office,
Washington.

Mathews said the only other in-
formation available at this time was
that there would be no interruption
in burials.

It was reliably reported that plans
were to begin burials on the new
land sometime in October. The
present cemetery facilities will be
utilized at that time.

Plans for the addition to the vet-
erans' cemetery were begun early
this year when on January 6, Quar-
termaster Gen. T. B. Larkin revealed
in a letter to Representative Math-
ews that "action had been initiated"
to obtain 18 acres. The present
acreage of the Beverly National
Cemetery is seven acres.

termaster Gen. T. B. Larkin revealed
in a letter to Representative Math-
ews that "action had been initiated"
to obtain 18 acres. The present
acreage of the Beverly National
Cemetery is seven acres.

U. S. CEMETERY
TO BE ENLARGED

The Federal Government has pur-
chased an additional 21 acres of land
to extend the U. S. National Ceme-
tery at Beverly.

Representative Frank A. Mathews,
Jr. (R. N. J.) of Riverton, said that
he was informed of the purchase for
additional grave sites by Col. George
W. Hinman, Memorial Division,
Quartermaster General's Office,
Washington.

Mathews said the only other in-
formation available at this time was
that there would be no interruption
in burials.

It was reliably reported that plans
were to begin burials on the new
land sometime in October. The
present cemetery facilities will be
utilized at that time.

Plans for the addition to the vet-
erans' cemetery were begun early
this year when on January 6, Quar-
termaster Gen. T. B. Larkin revealed
in a letter to Representative Math-
ews that "action had been initiated"
to obtain 18 acres. The present
acreage of the Beverly National
Cemetery is seven acres.

"Reality" is the subject for Sunday,
September 28.
Golden Text: "The things which
are seen are temporal; but the things
which are not seen are eternal." (II
Cor. 4:18)

Sermon: Passages from the King
James version of the Bible include:
"I know that, whatsoever God
doeth, it shall be for ever: nothing
can be put to it, nor any passages
from it." (Eccl. 3:14)

Correlative passages from "Science
and Health with Key to the Scrip-
tures" by Mary Baker Eddy include:
"The relations of God and man,
divine Principle and idea, are in-
destructible. Science, and Science
knows no lapse from nor return to
harmony, but holds the divine order
or spiritual law, in which God and
all that He creates are perfect and
eternal, to have remained unchanged
in its eternal history." (p. 470-471)

He lives at Beverly road, Burlington Township.

Mr. Dold entered the employ of Public Service in August, 1908, as a representative in the Camden Commercial Office. He was appointed agent at the former commercial office in Woodbury in 1913 and was made commercial manager at Burlington in May, 1916.

In his 32 years at Burlington, Mr. Dold has been active in the industrial development of the Burlington area. MRS. GILPIN BRINGS LOCAL TOUCH TO CINNAMINSON HOME

Mrs. Marion Reber Gilpin, new superintendent of the Cinnamonson Home is an enthusiastic believer in knowing and using the resources of one's own community. A native of Palmyra, and lifelong resident of this vicinity, Mrs. Gilpin has had wide opportunity for knowing not only local resources but those of the state and of other communities through her work as state vice president of the Parent-Teacher Association. In this capacity she was director of the seven southern counties of New Jersey, including Burlington County. During a long residence in Merchantville she was active in civic affairs, and for the past five years she has been cottage mother at Ellis College, Newtown Square, Pa., also serving for two summers as manager of Hostess House on Ocean City.

As a "local thrush," she reminisces, she was soprano soloist for some years at Christ Church, Riverton, and still feels that music is good for every one's soul.

Mrs. Gilpin believes it would be mutually beneficial to the Cinnamonson Home and to this community if local residents knew more about the Home — what it is and whom it serves. "People contribute to it through their Community Chest," she says, "but many of them are unfamiliar with its work. For instance, there seems to be a general impression that the patients are all from out of town. On the contrary, the patients now at the Home include women from Riverton and Palmyra, as well as from Moorestown, whose Community Chest the Home also shares. The Home is definitely a local asset, and has always helped local residents as the need has arisen."

The Cinnamonson Home no longer takes babies. Stringent new state rules require isolation of babies from adult patients, as well as other conditions which the Home is not in a position to fulfill, so all baby equipment has been regretfully disposed of.

Morale boosters are a field in which the local touch is most welcome at the Home, and Mrs. Gilpin's familiarity with the community has already enabled her to interest individuals and groups in projects for enlivening and enriching the lives of the patients during their stay. "The Community Chest and physical contributions ensure their physical care," she says, "but it's the little extras that mean so much in keeping up their spirits."

Besides the Riverton Pastry Shop whose donations of delicious butter rolls, coffee cakes, and cupcakes have frequently dressed up the menu, and Denner's Market whose gifts of fresh vegetables are always some thing special, recent benefactors have included individuals who have brought "treats" of ice cream and cake for the patients, or given jams and jellies for their use, or garden flowers for decorating the living and dining rooms.

NOTICE

Effective October 1, the office hours of Dr. John C. Whitaker, 402 Lippincott avenue, Riverton, will be from 9:00 until 10:30 a.m. and 6:30 until 8:30 p.m.

NEW PRINCIPAL AT CINNAMINSON

William Herbst, formerly teaching principal in Lambertville, has been elected supervisor of the Cinnamonson Township Schools. Mr. Herbst, who succeeds Mrs. Ethel T. Parker, is a graduate of Glassboro State Teachers College. He received his M. Ed. at Temple University.

Other changes in the system include: Charles T. Goss III, a graduate of Glassboro State Teachers College, succeeding Leo Buchla in the eighth grade.

Mrs. Frances Jamney replacing James Liparula in the sixth grade.

Mrs. Ada Hunter replacing Miss Charlotte Anderson in the fourth grade.

Mrs. Ruth LeBlanc replacing Mrs. Florence Price in the first grade.

The girls in the Home Economics Department of the Cinnamonson School have started a very promising year in the study of Foods and Clothing.

The foods classes are canning and preserving food to be used in the cooking classes throughout the year. A quantity of jelly has been made for use in the cafeteria.

Clothing classes are making simple projects ranging from stuffed animals, laundry bags, embroidered bandanas — to blouses, skirts and dresses.

Interest and cooperation should make this year one of outstanding achievement.

New School Approved

Palmyra voters approved the issuance of \$300,000 in bonds for the construction of a new grade school building at a special election held on Tuesday night of this week. The vote was 484 in favor and 251 opposed.

The proposed building which will have eight classrooms, is to be erected on the portion of a tract approximately at the intersection of Charles and Walnut streets, facing on Charles street.

The site provides ample room for future expansion.

LEGION INSTALLATION

Arrangements have been completed for the second annual installation dinner and dance to be sponsored by the Frederick M. Rodgers Post 156 to be held next Tuesday night at Jack Downie's Old Mill Inn on Route 25.

A Russell DeMaris, of Linden avenue, Riverton, will be installed as the new Commander of the local American Legion Post, to succeed W. Harold Thorn.

CINNAMINSON POLICE WILL ARREST SPEEDERS

A vigorous campaign against speeders on the streets of Cinnamonson Township is now in progress, according to Chief Erich Veitenheimer of the police department.

He stated that since repeated warnings have produced no results the police will be to arrest all car drivers who exceed the speed limits in the various sections of the Township. Conditions have been especially bad on Cinnamonson avenue and River road.

Motorists who pass school buses while the latter are taking on or discharging passengers will pay a severe penalty if they are apprehended in this violation of the motor vehicle laws.

This kind of "local touch" is something Mrs. Gilpin wishes to encourage, and she hopes that club service clubs, and other groups and individuals will share their resources with the women who are regaining health and morale at the Cinnamonson Home, by bringing these such entertainment and "little extras" as their generosity may suggest.

COMMUNITY CENTER MAY BE CLOSED

At the last meeting of the board of directors of the Tri-Borough Community Center, Inc., the matter of being able to continue the operation of the Center due to lack of funds was discussed. It was brought out to the directors that the Center realized only about 60 per cent of the request of the Tri-Borough Youth Campaign, which would make it approximately \$800 short for operating expenses.

The people of the communities who have contributed of their time and money in keeping the Center open for the past ten years certainly are entitled to know why the Center will be closed if we find it necessary. At the present time approximately \$500 per month is required for operating expenses, including the purchase of our building and all those items incidental to running such an establishment. At the present time we have funds to continue the operation of the Center until the first of the year, and then only on a curtailed basis. William S. Luken, director in charge of the Center, will have the Center open three nights per week instead of six nights as we have had in the past. By doing this we will be able to save the salary of one of our paid directors.

Any organization which wishes to do anything in the nature of providing funds to keep the Center open must consider the matter from a project standpoint.

The citizens of the three communities can rest assured, however, that the board of directors of the Tri-Borough Community Center itself will do everything in their power to keep the Center open just as long as it is financially possible to do so, but if the Center closes it will be because of the lack of funds and the youth of our communities will suffer.

Board of Directors.

STILL PACES PALMYRA TO INITIAL WIN

Palmyra High School, grid team defeated Woodrow Wilson on Saturday night in the local stadium by the score of 18-0 with Kenneth Still, giant fullback making all the touchdowns, and once in the third quarter and once in the fourth.

The game was postponed from Friday night because of lightning. With the exception of Still's touchdowns of 42 and 61 yards the game provided few highlights. Wilson was thoroughly outgained on the ground and neither team gained much via the aerial route.

Palmyra meets Camden Catholic at the latter's field on Friday night of this week.

Mrs. E. D. Wilder of Main street, Riverton, is visiting friends in Boston, Mass. this week.

Miss Judy Wilder, daughter of Mr. and Mrs. Robert D. Wilder, of Riverton, celebrated her eighth birthday on Wednesday with a dinner for some of her friends.

BOY
SCOUT
NEWS

This is the forest fire season!

The Boy Scouts of the Burlington County Council, Boy Scouts of America, are being enlisted, along with the others of the nation's 2,141,984 Scouts and Leaders, to do what they can to lick this dreaded national problem.

Each year an average of 210,000 fires burn over 30 million acres of forest land, causing 50 million dollars damage to commercial timber—enough to build 86,000 five-room homes with enough pole size timber left over to furnish newspaper for every newspaper in the nation for a year.

The Boy Scouts of America has a vital stake in the forest fire problem. It is interested in the protection of American forests from fire. Scouts believe that an educated and trained citizenry conserves its national resources and protects its people.

Capt. J. B. Ryan, USN (ret.), Palmyra, chairman of the camping and activities committee of the Burlington County Council, with headquarters in Moorestown, said, "Our organization believes that destruction caused by carelessness indicates weakness not conducive to strong character and that the causes of such destruction can be removed through better understanding, training and the assumption of personal responsibility."

Captain Ryan said that the camp property owned or leased by the Boy Scouts of America, nationally, comes to more than 250,000 acres with a value of over 10 million dollars. Much of the camp areas is heavily timbered, an invaluable asset for boys who enjoy living in the woods and studying nature. The Lenape Boy Scout Reservation, Scout Camp of the Burlington County Council, contains over 400 acres of wooded pine land, and is located about five miles south of Medford, N. J., on the Jackson road.

Studies have shown that 90 per cent of all forest fires are caused by carelessness of average persons, through carelessly tossed matches, cigars or cigarettes or unattended campfires or improper brush and field burning. Weekend hikes, camping trips and the hunting season will soon be underway. Dry leaves, grass, ferns become tinder ready to be exploded by a half extinguished fire, a snapping softwood spark or a flash of lightning. Lightning, by the way, is blamed with only seven per cent of forest fires. The remainder are man-caused.

Scouts throughout the nation are now being urged to "sell" fire protection knowledge to their parents and friends who hunt or drive through dry country. Scouts are cautioned to clear ground all around and deep down to mineral earth before lighting their camp or cooking fires. Many forest fires stay in decayed vegetation on the forest floor and travel great distances under ground. Like all good campers, Scouts are trained to put out "every spark" of their own fires. They are constantly reminded to report quickly to the nearest authorities any fires they discover.

All fires are small when they start, but even a small fire may spread into a conflagration. Fires starting in remote areas often reach vast proportions before fire fighters can get to the scene. Scouts are encouraged to drench their campfires, then stir the remains and douse it again. Smokers are urged to hold their matches until cold, then pinch them to make sure, and finally to crush cigarette, cigar and pipe ashes, or better still to use ashtrays.

Persons who must use fire to clear old fields, to burn brush or trash must learn about local laws. In many states and most communities a permit is required to start a fire. Safe rules call for such burning only on calm days with help and tools on hand from start to finish and finally to kill every spark when the guarded fire has done its intended job.

The importance of the nation's timberlands is often not recognized. The United States uses tremendous

quantities of wood in peace and in war, and it takes 50 to 100 years or more before seedlings grow into timber suitable for commercial use. Private timberlands, totalling 340,000,000 acres are generally the most accessible, easily logged and most productive. They supply ninety per cent of all our timber and other forest products.

Forest fires can have a tragic aftermath, months after a fire, Captain Ryan said. He related the experience of the town of Montrose, Colorado. In November 1933, he said, someone was careless with fire in the mountain watershed area above the town. The brush cover was completely destroyed. On New Year's Day, 1934, a heavy rain beat down upon the mutilated soil and brought a disastrous flood to Montrose. Thirty lives were lost and property damage ran to five million dollars. People noted that no floods came from the unburned watersheds in the vicinity which received the same storm.

CHILD SAFETY DRIVE

A reduction in the accident toll of death and injury among Burlington county children is the objective of an intensive campaign being carried on by the 31 members of the agency force of the Metropolitan Life Insurance Company in Burlington and surrounding territory. The effort is part of a national child safety campaign being launched this month by the co-sponsorship of the U.S. Children's Bureau, the American Academy of Pediatrics, and the National Safety Council.

The local campaign is planned to reach all homes in the area with a direct message designed to enlist parents and older members of the family in an intensified effort to recognize and correct unsafe conditions, and to help the child, through example and guidance, to develop safe habits and practices.

The door to door phase of the Burlington county campaign is ambitious, somewhat reminiscent of the War Bond drives, but if it helps to save the life or avert the crippling of even one Burlington county child, the time and personal effort of all involved will be more than justified. A key activity of the local campaign is the distribution of an illustrated booklet, "Help Your Child to Safety," prepared by the Metropolitan, which suggests ways of eliminating the unsafe practices and hazards which are responsible for the great number of accidents to children. The booklet also is being offered to the public through The Child Welfare Department of the Burlington County Welfare Board. Miss Helen Beaverson, Child Welfare Supervisor will act for the Welfare Board.

The national campaign has its significance in the fact that accidents are now the leading cause of death among children more than one year old. Although there has been a marked improvement during recent years in the death rates from all nonaccident causes, the decrease in death rates from accidents has been relatively slight. The objective of the national campaign is to promote an intensified effort designed to bring about a comparable reduction in child accidents.

The local campaign of the Metropolitan agency force is in charge of J. J. Robinson, manager of the company's Burlington office.

More than 56,000,000 people live within 500 miles of Arkansas boundaries.

Know Your
Government

ROAD TO POORHOUSE

The shortest route to the poorhouse for New Jersey's State Government is an unwarranted flood of bond issues.

Yet proposals for various bond issues discussed by this year's State Legislature reached the tremendous total of nearly a half billion dollars. This compares with the State's present net indebtedness of a little more than \$75 million. And among the new bond proposals was the \$105 million issue for a veterans bonus.

In its recent report to the State Lawmakers on the desirability of a bonus, the State Tax Policy Commission notes that the State already is sinking to its knees and faces a \$20 million deficit at the end of the fiscal year. A vets bonus would just about be the death blow to the State's hope for financial stability, the Commission indicated.

This is in line with the sad words of Tax Foundation, a national, non-partisan organization, which points to veterans bonuses as the greatest single factor in increased indebtedness among the states. And the Foundation notes that up to 1946, the States had their indebtedness problems on the run instead of otherwise.

The New Jersey Taxpayers Association, which recently reported that within 10 years 40 per cent of our population will consist of veterans and their families, says: "New Jersey's World War I bonus bond issue is an experience that disproves the term 'benefit' as it is applied to the 1948 proposal. Payments for the World War I bonus were \$11,203,144, but the total cost of the bonus was over \$23 million. The bonus was granted when prices were high, as they are now, and largely was repaid with interest by the veterans themselves during hard times when dollars were scarce — thus illustrating that a bonus bond issue is in the nature of a political goldbrick."

Jersey vets, who have realized almost a half billion dollars in Federal and State benefits to date, may well consider their positions as taxpayers. In the end, it's always the taxpayers who pay for the misfortunes of governmental debt.

Dr. Wilson and his family were in the Near East during the period of great interest and startling change that stretches between the two world wars. They entered Iran through the barbed wire entanglements of armies at war in the Russian Caucasus and Dr. Wilson passed through the wreckage and empty lifeboats of a steamer just sent down by a submarine as he returned to America.

As an author Dr. Wilson has produced a number of books and tracts published in the Persian language; among the major ones are a commentary on the Epistle to the Hebrews and a book on Evangelism and the Bible.

The Ministerial Association extends a cordial invitation to all church members and to others who will find this hour of Christian worship and fellowship both profitable and enriching.

See how your telephone Service has grown

• When you consider the greater number of people you can reach by telephone, or who can reach you, you get a good idea of how much your telephone has grown in value.

• In 1938 there were 700,000 telephones in New Jersey—today there are more than 1,400,000. To put it another way, in many New Jersey communities, the number of telephones has more than doubled within the past 10 years.

• The point is this: As the number of telephones in your area increases, the usefulness of your telephone service increases.

Golden Text: "The night is far

James version of the Bible include:
"The way of the wicked is as dark-
ness; they know not at what they
stumble." (Prov. 4:19)

Correlative passages from "Science

tures" by Mary Baker Eddy include:
"Evil is a negation, because it is
the absence of truth... It is unreal,
because it presupposes the absence
of God, the omnipotent and omni-
present. Every mortal must learn
that there is neither power nor real-

**DRUM AND BUGLE CORPS
TO COMPETE HERE**

A preview of many of the leading bugle and drum corps of this area that will go to Miami, to participate in the National Legion competition later this month will be staged at the Palmyra High School stadium Saturday night, October 9.

A colorful program is being arranged by the Frederick M. Rodgers American Legion Post 156 through the Philadelphia area circuit which is composed of many of the outstanding senior bugle and drum corps of this section.

The Reilly Raiders are the defending champions of the circuit, and The Evening Bulletin of Philadelphia has announced they will donate a trophy to the winner of the event.

The Pennsylvania State Legion Champions, The George H. Imhoff corps, and their No. 2 legion corps in the nearby Keystone State, the York, Pa. senior corps will participate in the program, along with the Olney American Legion Post Corps, of Philadelphia.

The R. A. Garbarina Corps, of New York City, New York State senior corps champions for the American Legion and the Richmond VFW Corps of Jamaica, Long Island will also compete for top honors.

An invitation has been extended to the Riverside Jersey Joes who were recently crowned the new, State senior corps champions for New Jersey. This will also be an opportunity for local residents to view the Riverside unit against some top corps from Pennsylvania and nearby areas.

With many of the corps it will be the first visit into Burlington county, and it is anticipated a large turnout will be present to view the affair under the lights starting at 8 p.m. sharp.

Arrangements have been made for local residents by the local American Legion Post Commander W. Harold Thorn, for tickets for the event to be purchased at the Snack Shop; the offices of Palmer L. Adams; Walter D. Lamon; Shulman's; Durgin's Men's Shop and McAllister's.

CARD PARTY

Christmas will have meaning for some underprivileged family of the Tri-Borough Communities if you will

help support the Annual Welfare Card Party given by the Evening Department of the Woman's Club, Friday, October 8th, 8:15 in the Club Rooms, 305 East Broad street, Palmyra.

Tickets are 50 cents and may be secured from any member of the club. All proceeds are used to help provide gifts and baskets of food for deserving families. Spend an enjoyable evening playing cards and doing your bit to spread Christmas cheer to those less fortunate.

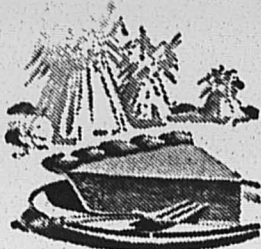

Last Saturday, September 25, the Palmyra String Band paraded at Bridgeton, N. J., where they helped celebrate the town's 200th anniversary.
