THE PHILADELPHIA HIPPODROME WILL OPEN SATURDAY, OCTOBER 14TH, WITH "HIP! HIP! HURRAY!"

Chorus, songs and principals of "Hip! Hip! Hurray!" including Sousa and his famous band, come to Philadelphia direct from the Hippodrome. Charlotte, the greatest skater in the world, who is now at the Hippodrome, repeating her last season's sensation, will leave there October 13th and open in Philadelphia with the rest of the big company.

The new ice plant for the skating ballet on real ice is nearly completed and those who go from this section of the country are assured the amusement treat of a life time. No one should fail to see it.

For the convenience of patrons outside of Philadelphia, Charles Dillingham has established a bureau of information and a mail order service at 1019 Chestnut street, Philadelphia. All mail orders, with remittances, sent to that address, will be filled in the order received, and the best seats will be given to suburban patrons.

The prices range from fifty cents to one dollar at daily matinees, except Saturdays, when the prices will be the same as evenings, fifty cents to \$1.50 and \$2 in the orchestra.

FINE FREE SHOW.

The little man had taken his wife and children to see the traveling show. After viewing all the sights that could be viewed for nothing, the entire family lined up in front of a large booth, which advertised in bold letters on the outside, "The Grand Elk, the Wonder of the World."

On a small ledge in front of this booth paced the showman himself, entreating all and sundry to "come up an' view." Presently his attention was attracted by the little man, who gazed earnestly and wistfully at him.

"Here, you!" he called. "Ain't yer comin' up? It's only ten cents."

But the little man only shook his head.

"Can't," he whispered. "It would cost be \$2.20 if I did. Yer see, there's me an' my wife an' twenty children."

"What!" exclaimed the showman, hoarse with incredulity, and pointing to the long line of earnest faces. "Are all of them yours?"

A nod was the little man's sole answer.

"Good heavens!" cried the man of the booth, as he bounded to his entrance. "Don't yer move, guv'nor. Just stay where y'are. I'm going to give the grand elk a treat. I'm going to bring him out to have a look at you."

First Youth—Scientists say that trees contribute to the heat of the atmosphere.

Second Youth—That's so; a birch has warmed me many a time.

LOCAL SPORTS

FIELD CLUB TENNIS TOURNAMENT.

Russell Gibbon, the sensation of the 1916 tournament, by the annexation of his third victory last Saturday, advanced to the final round of the singles, winning the first set 6-1 and the second by the score of 9-7.

This brought two Gibbons (Walter and Russell) together in the finals. Russ played a splendid game against tremendous odds, but was compelled to bow down to defeat before the onslaught of his younger brother, 6-3, 6-4 and 6-1.

This Saturday, October 7, D. K. Finley will be on from Virginia to defend the Three Year Trophy Cup, on which he won the first leg last year. It will be remembered that Walter Gibbon was the runner-up in the 1915 tournament.

In the doubles Stanley Green and Arthur Wright captured a three-set match from Francis and Edward Durgin 8-6, 6-8 and 6-4.

Geo. and Lonz Bonsal were unable to stop Pete Weart and Kelton, who are making what it appears will be a successful effort to gain possession of a set of cups in the doubles. They played well together and won their match, 7-5, 6-4.

Frank Mathews put up a nice game against Tony Boehme, the match going to three sets. Tony was the victor, 6-4, 5-7, 6-3, only to meet his fate in the semi-finals, as recounted above.

In consolation singles, Lonz Bonsal defeated Morris Allen, 6-1, 6-4. Francis and Edward Durgin defeated Kipp and Seger, 6-3, 6-3, in consolation doubles.

This Saturday will witness the close of the 1916 tournament, with the match between Walter Gibbon and D. K. Finley as the "blue ribbon" event.

APPRECIATION.

Mr. and Mrs. H. H. Hinkle and family wish to express their sincere thanks to their many friends who so kindly offered their assistance during their recent bereavement, also for the automobile service and the beautiful floral tributes received.

SETTLED HIM.

"Jane," said her mistress, "you really will have to put a stop to the visits of your follower."

"Yes, I must, ma'am," replied Jane. "But you've said that before," expostulated her mistress, "and there it's ended."

"I'm sure I've done my best, ma'am," said Jane; "it isn't easy. But I'll try and settle him on my next Thursday out."

Her next Thursday out came and went. Her follower also came and went (with Jane), and Jane eventually returned herself in a radiant mood.

"I've settled him this time, ma'am!" she exclaimed, breathlessly. Her mistress was delighted. But in the hour of victory one should be generous to the fallen foe, so she expressed the hope that Jane had not been too hard on the young man.

"Hard on him!" cried Jane. "No, ma'am, that I wasn't. I've just married him, and I leave at the end of the month!"

A SLOW CAR.

As the new electric car reached the terminus an old man with a long white beard rose feebly from a corner seat and tottered towards the door. He was, however, stopped by the conductor, who said:

"Your fare, please."

"I paid my fare."

"When? I don't remember it."

"Why, I paid you when I got on the car."

"Where did you get on?"

"At the Imperial."

"That won't do. When I left the Imperial there was only a little boy on the car."

"Yes," answered the old man, "I know it. I was that little boy."

NO ALTERNATIVE.

Two Irishmen with a gun were hunting. The one carrying the gun saw a bird in a bush and carefully took aim.

"For the love of Heaven, Mike," shouted the other hunter, "don't shoot! The gun ain't loaded."

"I've got to," yelled Mike, "the bird won't wait."

When a man is satisfied with himself he is apt to be dissatisfied with others.

WALSH ESTATE READY FOR FALL AND WINTER

The fall and winter season of 1916-17 has opened, and opened auspiciously, a reminder that our wardrobes may need replenishing.

The housekeeper is also reminded that now is the time when the parlor needs a new rug, the laundry or kitchen new linoleum and the bedrooms need toning up.

The Phil. J. Walsh Estate, at 30, 32 and 34 South Second street, is better prepared than ever before to furnish all that may be needed in wearing apparel for men, women and children, as well as housefurnishings of every conceivable kind. The store is now stocked with a full line of becoming clothes of the latest fashions. There is also a large supply of up-to-date furniture, rugs, carpets and matings of the latest designs and housefurnishings.

The Walsh Estate has been in business for more than 50 years, and each year this great store does a little better than the last.

Only first-class goods are dealt in, and no trashy installment goods or anything especially manufactured for trade at this kind is handled in this store.

Special attention is paid to catering to the ladies in artistic millinery.

with competent milliners to make a desired. Also charming styles in fine furs designed of the very best skins that knowledge and skill can procure.

We also carry for the ladies a full line of top coats of the fall and winter models of 1916-17; stylish tailored suits, winter wear for children, dresses, waists and skirts, storm and raincoats, umbrellas for men, women and children, underwear, hosiery, gloves, etc.

The men's department is fully stocked with suits, overcoats, shoes, hats, haberdashery, etc.; also a feature of the Walsh store is custom-made suits and overcoats on credit at cash prices.

The Walsh Estate this year has introduced the Ford Overcoat for men and young men. This store is the sole local agent for this garment. The Ford Overcoat is something entirely new, combining a dress overcoat, a raincoat and an everyday overcoat. The price—\$20 cash, or \$1 weekly—this is the most serviceable overcoat on the market to-day.

At the Walsh store you buy on credit and have the terms made to suit your convenience. You take no risk, because everything is guaranteed to be as represented.

Give them a call—and mention the Palmyra Record.

DEATH OF JOSEPH HEMPLE.

On Friday, September 29, after a lingering illness, Joseph, husband of Anna, Della Hemple, passed away at his home, Broad and Washington avenues. Mr. Hemple's demise is greatly felt by his many friends; he was a man of fine characteristics, with a quiet and sincere demeanor, inspiring confidence in those with whom he came in contact. The loss his family has sustained cannot be estimated.

The deceased was a member of Covenant Lodge, F. & A. M. No. 161, Washington Camp, P. O. S. of A. No. 23, Brotherhood of America, and was a member of the Keystone Leather Co., in which he held a responsible position, and for years served on the Palmyra Board of Education.

The funeral services were held on Monday afternoon at 2 o'clock, Rev. Charles Williams, pastor of the Central Baptist Church, and Rev. C. Lawrence, of Island Heights, N. J., officiating. Interment was made in Harleigh Cemetery, Camden.

TROLLEY JUMPS TRACK CRUSHING ONE AND SERIOUSLY INJURING ANOTHER.

On Thursday morning at 8.30 o'clock a trolley car in rounding the curve at Broad and Main streets, jumped the track and crashed into the supports of the flagman's signal tower of the Pennsylvania Railroad, toppling the tower house to the ground.

D. A. Bard, of Camden, who was working at the base of the tower, heard the crash, but too late to avoid being crushed by the falling structure. Joseph Hessling, of Bordentown, was seriously injured by being pinned between the trolley and the iron frame work of the gate on which he was working.

Through the courtesy of Miss Mary Biddle, Hessling was motored to Zurburg Hospital, Riverside, where he was found to be suffering with severe internal hemorrhages and many cuts and bruises.

Next Tuesday will be the regular mothers' meeting in charge of the superintendent, Mrs. Hattie Troutman. These meetings are always very interesting. All members of the union are urged to attend our meetings. Every lady welcome. The saloon has outlived its day as a community center. It offers nothing to help our children on in this day of competition.

Prohibition is not some new breakfast food or system of mental or moral healing; but it is a torch to illuminate the dark spots in our civilization and help to produce a race of mankind without spot and blemish free from degeneration.

CENTRAL BAPTIST CHURCH.

Charles W. Williams, Pastor.

Rally day services all day as follows:—

Morning worship at 10.45, "Joshua's Rally Day." Sermonette for the children.

Bible school at 2.30. Classes for all. Special service. Rev. Howard K. Williams.

Followed by a sermon by the pastor on "The Great Rally Cry."

Wednesday evening at 8 o'clock prayer meeting. Bible class after the prayer meeting.

Christian Endeavor meeting Friday evening at 8 o'clock.

A cordial invitation is extended to all to attend every one of these services.—Adv.

DEFECTIVE CHIMNEY CAUSES FIRE

At 10 o'clock on Sunday evening last the Riverton and Palmyra fire companies were called out to respond to an alarm of fire at the home of D. L. Vaughn, 201 Lippincott avenue. The flames were discovered in the chimney from the fire place, which resulted in a damage of \$500, although it would have exceeded this amount had it not been for the careful and prompt work of the firemen.

CHRISTIAN SCIENCE.

First Church of Christ, Scientists, Riverton, N. J. Services at the church, Thomas avenue and Seventh street, Sundays, 11 A. M. Wednesday, 8 P. M.

Reading room open on Tuesday and Friday afternoons from 3 to 6 o'clock. All welcome.—Adv.

STORE UP SOME RESERVE FORCE

Without a sufficient supply of reserve force, one will not be able to endure the unexpected calls made upon the mind and body.

The person who eats more than is necessary makes an unnecessary demand on the reserve force. The excess food taken into the body must be got rid of at the expense of energy. Worry is another thing which draws heavily on the reserve force. Worry has been called the great shortener of life. If one could only be made to understand that it doesn't do one ounce of good, but does pounds and pounds of harm, how much happier and healthier the worrying person would be.

There is an old Chinese proverb that it would be well for the one who has the habit of worrying to learn, and it is this: "The legs of the stork are long, the legs of the duck are short; you cannot make the legs of the stork short, neither can you make the legs of the duck long. Why worry?"

If one has lost much reserve force he should start at once to renew his energy. This can be done by obtaining the proper amount of sleep, fresh air, exercise and food.

A man runs into debt, but he either walks out or stays in.

MARRIAGE WITHOUT LOVE A FAILURE

The newly engaged girl who reveals too much of her heart and her future husband's affairs to even her closest friends is certainly a very foolish—very unwise—girl.

"Oh, I'm so happy. Don't you think I'm lucky? Anyway, mother couldn't bear to think of my being an old maid. Just wait until I give my announcement party; some persons will get a surprise."

The girl's friends listened in amazement to the engagement announcement, and as soon as their "lucky" chum left them had a fine, big laugh on her face. Then they took especial pains to see that the engagement news was well circulated, with the result that now this "lucky" girl is a laughing stock in certain circles.

The girl who will rush into marriage simply to escape being an "old maid" is certainly taking chances. Far better that she should decide to walk down a steep flight of stairs backward, expecting to reach the bottom in safety. This she could never do, and the hope that happiness will follow a marriage as outlined above is likewise impossible.

The particular girl (hampered by a foolish mother) unable to hold her own, knowing nothing about housework or household management, is going to marry a middle-aged man, a widower, with an earning capacity of not more than thirty dollars a week. She can sing, well, paint on china, speak a little French, is passably good-looking and about twenty-eight years old; yet her mother-in-law is going to be a mortal afraid she was going to be an "old maid."

Cleverly this mother bent her daughter's will, and let her hope, as they say in story books, that the girl "will be happy ever after," but it would seem to her thinking person that sympathy should be given the man in the case.

Old maids? Heaven bless them. They are as necessary as the sun, the moon or the stars. One kind-hearted old maid can do more real good in a week than a hundred selfish, unhappy married women can in ten years.

The world offers any woman who is willing to work, a living, and the girl who does not marry need not sit down and pine away. She will find plenty to occupy her time and her mind, and if the right man does not come along, she can strike out fearlessly alone; but the girl who is so weak-kneed as to be influenced by a foolish mother into a marriage that will never be a happy one—well, who could have much sympathy for such a girl?

Girls, show your bravery and will power. If the right man comes along, all by means accept him, but if he is not the right man, do not bring him as well as your own.

Happiness is the only thing that really makes life worth while, and the girl who is strong-willed—who will resist her mother's influence, and refuse to enter into a loveless marriage—well, it's pretty safe to assume that such a girl will never be downright unhappy.

THE BISON'S REVENGE.

An old Indian named Neahpaw, who lived in the part of Oklahoma that used to be called the Indian Territory used to tell his friends this story of the strange but terrible revenge that a bison took on the hunter who had wounded it in the chase.

When I was a boy most of our food was brought in by the buffalo hunters. Killing these large beasts was hard and dangerous work, but it was very exciting. One day the hunter went out after a herd, each riding a large bull, failed to strike a vital spot, and the animal, pursued the beast across the prairie.

Suddenly in the mad race the hunter and prey came to a buffalo patch that had been washed down by the heavy rains till it was of three feet deep. The horse stumbled, threw the man into the ditch, and then washed off, leaving him helpless. The buffalo saw the accident, turned, and with its long tongue began to lick the man's bare back. Every stroke of that rough tongue tore the skin and flesh painfully. The Indian could only bear it, for if he tried to escape he would meet death at the horns of the enraged beast. Before his companions found him and killed the buffalo, it had licked the flesh from his back down to the bone, and the poor man bore the scars of that terrible revenge to his grave.—Youth's Companion.

A lady was continually accusing her servant of extravagance without any real cause. The servant always bore this accusation patiently.

One day the servant informed her mistress that the coal had all been consumed. This was followed by the usual remark on the part of the mistress, who finished up by saying: "You evidently eat it!"

The next day the candles were all gone.

"Candles gone!" said the mistress. "Why, I bought half a pound only yesterday!"

"Oh, well," rejoined the now disgusted servant, "I can tell you where the candles have gone. I ate them to grease my throat, so no more could swallow the coal more easily!"

RETAIRING THEIR MAIDEN NAMES.

In China, married women preserve their own name after marriage, the name of a person being regarded as very important in that country.

Large Production of Borax.

The borax deposits of the United States are of great extent and there seems to be little danger of their exhaustion. In 1910 we produced, according to the United Geological Survey, 42,617 tons of crude borax, valued at \$1,201,842, while the value of the imports amounted to only \$12,297—approximately 1 per cent. of the domestic production.

"Do you keep many servants, Hawkins?"

"Well, last year we had eighteen."

"Eighteen?" echoed Wigglethorpe. "How can you manage that number on your income?"

"Oh, seventeen of 'em were cooks who stayed on an average of five days apiece," said Hawkins. "The rest was our gardener."

"Just at the top of the bump,
Where you often get the bump"

THE MERIT OF BREVITY.

To Baltheasar Gracian we owe the saying, "Good words are doubly good if they are short." This is something people frequently forget.

And not infrequently their forgetfulness costs them much.

It is especially in business transactions that brevity is of value. There indeed its presence makes good doubly good, while its absence may ruin what otherwise have been good work.

Some time ago I had a visit from a book agent trying to sell a scientific work which he felt would be of great usefulness to me.

Within ten minutes he had presented in an admirable manner a series of arguments that made me agree to purchase the work.

"But then he kept on talking. He evidently felt it necessary to bombard me with every selling argument he had in stock."

The Women's World

QUITE TRUE

In preparing some land for building, a quantity of rock was removed, and about this there was a law-suit. One of the witnesses was a laborer who had worked on the job, but his evidence was difficult to follow, as he obviously did not understand what a cubic yard was.

"Look here, my dear sir," said the judge patiently, after another muddle. "Assume that this lotstead here were three feet across the top, and three feet in height—what would you call it?"

The witness scratched his head in confusion. Then he replied slowly: "Well, sir, I should think it was SOME instead!"

ELECTRICITY AS FREE AS AIR

AN INVENTION WHICH ITS ORIGINATOR claims will make electricity almost as free as air has been produced after four years of experimenting.

The inventor is a Kansas City, Mo., man who has been a practical electrician many years and in recent months has devoted considerable means and practically all his waking hours to constructing what he calls an electrical accumulator. The apparatus, he claims, collects and stores electric energy from the air, which by transformers can be reduced to suitable voltages for various purposes, such, for example, as supplying a lighting circuit.

Since no details of the invention have been given out nor any public demonstrations given, it is of course, impossible at the present time to form an opinion as to its practicability—Popular Mechanics Magazine.

THE GORILLA'S THUMBS

The gorilla and chimpanzee, which belong to the higher order of apes, have many points of resemblance to man; but there is one thing they cannot do—that is, twiddle their thumbs.

In the gorilla the thumb is short and does not reach much beyond the bottom of the first joint of the forefinger. In the chimpanzee the thumb is longer and reaches to the middle joint of the forefinger.

Since the gorilla's thumb is so short, it cannot be used for anything but a support. The gorilla's thumb is so short, it cannot be used for anything but a support.

1552. A PRACTICAL, SERVICEABLE COMBINATION.

As here shown figured percale was used for this set of serviceable garments. The model is also suitable for gingham, chambray, saten, percale, lawn or seersucker. The apron is on good comfortable lines, and affords ample protection for the dress beneath. The sleeve protectors are a popular accessory, and the cap is good to hold off the dust. At the same time it imparts a neat trim appearance. The pattern is cut in 3 sizes: small, medium and large. It embraces all styles illustrated, and requires 1-3 yards of 36-inch material for the apron, 3-4 yard for the cap, and 7-8 yard for one pair of sleeve protectors, for a medium size.

A pattern of this illustration mailed to any address on receipt of ten cents in silver or stamps.

Beautiful Bust and Shoulders are possible if you will wear a scientifically constructed **Bien Jolie Brasieres**. The drugging weight of an unconfined bust so stretches the supporting muscles that the contour of the figure is spoiled.

Bien Jolie Brasieres

Put the bust back where it belongs, prevent the full bust from having the appearance of a barrel, and confine the flesh of the shoulders, giving a graceful, slender figure. They are the simplest and most serviceable garments for the bust. They are made of a strong, elastic, non-stretching material,

RIVERTON NEWS

(Continued from First Page)

Mrs. Eugene Deacon (See Cart.)

Mrs. Oliver G. Willis will entertain at cards and tea on Monday in honor of Miss Marion Shawell.

Mrs. Kathryn Bright, of Thomas avenue, had as her house guests Mrs. Turner and daughter, Miss Ethel Knass, of West Philadelphia, several days this week.

Mr. John B. M. Shovel, of Bank avenue, has purchased a fine new Overland touring car.

Mr. and Mrs. H. Hemple, of Atlantic City, are spending some time with his parents on Lippincott avenue.

Main street has been much improved by macadamizing, also a number of sidewalks have been laid in the borough and others have been repaired.

The dedication exercises of the grand pipe organ recently installed in Christ Church, Riverton, were held on Wednesday evening in the church.

They were in charge of Rev. John Riez, Bishop of the Diocese of New Jersey and the church choir.

A large attendance greeted them and greatly appreciated the program, also organ recital by Chormaster Lincoln Hildley and the special offering by the augmented choir.

AN AWFUL THREAT.

Person Johnson—Do contribution this morning will be for the purpose of making up the deficit in your pastor's salary. Do choir will now sing, and will continue to sing, until the full amount is collected—Puck.

"I have lived before God in all good conscience until this day," Paul said when defending himself before the Jewish council. (Chap. 23: 1) "Herein do I also exercise myself, to have a conscience void of offense toward God and men always," he said to Felix.

Paul was not only able to plead "not guilty" in regard to any blame-worthy action, but he was even able to assert that he had kept his conscience clear toward God which is a very much more difficult achievement.

than merely to avoid any outward act of wrong doing.

Very many persons are always ready to justify doubtful actions by asserting that their conscience is clear. A man may be living very far from God; he may be living in sin; and yet may have no trouble with his conscience. Conscience may even impel a man to commit awful crimes. Paul was following the dictates of his conscience when he was persecuting the Christians. He honestly believed that he was serving God in doing so. But his honest belief could not make a wrong act right, neither could it excuse him for doing the wrong act; because he could have known better. If he had been more humble-minded and had prayed earnestly for guidance, and had studied the character of the Christians, and had examined the basis of their belief, he would undoubtedly have had his eyes opened to the truth. But instead of investigating the subject carefully before engaging in the cruel work of persecution, he allowed his feelings to lead him.

"I have lived before God in all good conscience until this day," Paul said when defending himself before the Jewish council. (Chap. 23: 1) "Herein do I also exercise myself, to have a conscience void of offense toward God and men always," he said to Felix.

Paul was not only able to plead "not guilty" in regard to any blame-worthy action, but he was even able to assert that he had kept his conscience clear toward God which is a very much more difficult achievement.

ECCENTRICITIES OF FAMOUS MEN

The innocent weaknesses of distinguished men form an interesting chapter in their history, and many have been imitated for their popularity in wider circles to their peculiarities.

Distinguished persons often appear in private life very different than in their public works.

La Fontaine, the fable writer, was

never heard to express himself orally in the morally-offensive manner which characterized his writings. It seemed as if "the man was ashamed of the author and his works. In company, if an attempt was made to induce him to speak in the spirit of his stories, he remained perfectly dumb.

The noted astronomer, Tycho de Brahe, used to condemn, with the severest contempt those persons who ascribed any omen or presage to eclipses of the sun or moon, to comets, the aurora borealis, or other appearances in the heavens.

He himself was so superstitious, that if he chanced to meet an old woman in his morning walk, he at once retreated, fearing some evil omen.

Gardens, much to his own satisfaction, but to the amusement of his acquaintances.

Jean Paul, the favorite of the women, was as much of a sloven as Goldsmith was a top. With bare chest, without neckcloth or hat, in a worn-out coat, and with unpolished boots, he wandered through the streets of Bayreuth.

Once he was even arrested as a vagabond on account of his uncivilized appearance, and only the arrival of the mayor of the city saved the poet from the hands of the zealous officers.

Several other literary men have practical striking eccentricities, though not in dress. Plautus, the comic writer, composed all of his pieces in bed. The famous Bossuet worked in a cold room, with his head warmly enveloped.

It is said that Schiller, before composing, put his feet in cold water.

Montaigne, the moral philosopher, was full of prejudices and superstitions. He would never sit at a table where thirteen persons were seated; would commence no kind of business on a Friday, and was violently agitated if a hare crossed the path before him.

The liberal-spirited Byron was equally superstitious. He believed in ghosts, in forebodings, omens and dreams. Friday was a black day in his calendar. He remembered with horror that he had entered upon his journey to Greece on a Friday. In Genoa he once dismissed a tailor because he brought him a new suit on a Friday.

Friday, in Asia he sought one day for a distinguished lady, whose acquaintance he desired very much, but on arriving at the door, he turned away as he remembered it was Friday.

Not a few famous men have been noted for their eccentricity of dress. Buffon, the naturalist, was particularly almost to ridiculousness, in his dress. It was his delight to dress in showy, costly material, and to wear magnificent jewels. He curled his hair with special attention, and when at work wore it always in curl-papers.

The English poet, Alexander Pope, dressed like a dandy, and his monstrous bag of hair, his elegant sword, his tight velvet hose and his extensively wide ruffles, gave to his little crooked figure a comical appearance.

But perhaps Goldsmith was the most addicted to fine clothes, and his startling effects. "He was fond," says one of his contemporaries, "of exhibiting his muscular little person in the gayest apparel of the day, which was added a bag-wig and a sword." Thus arrived, he would sit in his study, and read the papers.

Montesquieu could compose only in a post-chaise, with the horses at a rapid trot.

You wrote his "Night Thoughts" having a skull lying on the table before him, which served him also as a candlestick. Sometimes he walked at midnight, in order to excite grave and solemn thoughts in his mind.

Joseph wrote most of his tragedies in an alley, at each end of which was a bench, and on each bench paper and pencils, ready for use.

The habits of the French painter, Louis Girodet, was similar. He did not work in the daytime. But at night, when inspiration came to him, he arose, lighted candles, put on a broad-brimmed hat, and half muffled up, painted with all his might.

Charles Etienne, the dramatist, when the inspiration for writing seized him, sent wife, children and servants away from home, locked doors and window shutters, laid himself in bed and composed his verses in the quiet and darkness.

The productive capacity of LaSage, author of "Gill Bias" on the other hand, depended upon the sun. He wrote at sunrise, and the higher it rose in the heavens, and the clearer it shone, the richer was the flow of his pen.

The approach of night was something awful to Jean Jacques Rousseau; and Thomas Hobbes, the English philosopher, fell into a condition resembling insanity, if at night the light was taken even for a few minutes from his room, but when the light was brought back to the room, he was quiet and composed.

Some of the most distinguished men of the world have had great fear of thunder. Thomas Aquinas saw the approach of a rising storm with the greatest anxiety and trembling; and the great Caesar always fell into convulsions in a thunderstorm.

The eclipse of the moon had the same effect upon Roger Bacon. A number of noted men have been governed by still stranger antipathies. Scott, Walter Scott, the author of "Ivanhoe," was undisturbed by the heaviest thunder, could not induce the lightest tone of a musical instrument.

The hero of Vendee, a Rochejacquin, who in his first address to his countrymen said, "If I go forward, follow me; if I retreat, kill me; if I die, avenge me," turned pale if he saw a squirrel, and when he was once induced to touch such an animal, he trembled through his whole body.

LET me explain this paradoxical statement. It is a canoe trip that costs the week-enders little and pays me, the promoter, well. Some people may be prejudiced against my title for myself. Once it is so often from nonpayment with "Get-Rich-Quick" schemes, and bricks and other bad company, but in this case it has hit "The Trail" and is a perfectly respectable handle to add any name.

How would this look on a business card?

DOROTHY PERKINS,

Promoter of the Week-end Canoe

Interpret.

Of course that is not my real name, but the handle to it is bona fide. It is probably a distinctive addition to the list of occupations for women, but there are distinctive additions being made every day.

There is no more reason why men should have the exclusive right to call themselves promoters than they have to monopolize other professions, blacksmithing, for instance. The frequency with which you come across "Mrs. Jones, Blacksmith," in the latest census report shatters that old tradition.

Chances are she did the same thing, choosing blacksmithing as her favorite profession. Here am I, a professional canoeist, at least during the open season.

Two women, two dogs and a panther.

Tip and Paybe were two young shepherds, dogs that belonged to a ranch, and were sent to the

the ranch, and she had three young children. Although the country was a wild one twenty-five years ago, when these things happened, Mrs. Phillips would not have any firearms in the house. She depended on the dogs to protect her and the children from savages or wild animals.

Near the ranch the valley of the Devil's River broadened into a meadow that several hundred yards wide, and cutting through the forest, Mrs. Phillips lived. In the step hills, three miles up the canon the panthers, and the children from savages or wild animals.

Hardly a week passed that some ranchman did not report the loss of a calf or a choice yearling to those animals.

Once hunger actually drove one of the savage beasts into the Phillips

It was in December, 1891. The family had risen early so that the children might finish the chores in time to go to school and get ready for the day.

They took Tip and went off to the calves. Paybe lay asleep at the back door of the house. Mrs. Phillips was in the kitchen, cooking breakfast and preparing the school luncheons. The house consisted of two log rooms covered with a grass roof. The rooms faced each other, and a brush arbor connected them.

Mrs. Niel, the mother of Mrs. Phillips, was standing under this arbor at the washstand. As she dipped her hands in the water and stooped over to bathe her face she felt something rub against her skirts. She looked round to see a large tawny animal

hastening past her toward the goat pen.

"Nancy! Nancy!" she called. "What is this creature?"

Her frightened tone brought her daughter to the door and she saw at once that it was a panther. She ran into the yard, shaking her apron at the panther and calling to the dogs.

The panther sprang into a large oak tree that stood at the edge of the yard, but paid no further attention to Mrs. Phillips. After surveying the fowls in the tree and the pigs in the pen at its foot, the animal came down and started toward the goat pen.

Mrs. Phillips knew that the panther, when it attacks a flock of sheep or goats, usually takes them in order, and she was determined to open the gate of the pen as soon as the panther was inside the fence and let the goats scatter. Meanwhile Paybe, the dog that had stayed at home, heard his mistress calling him, and jumping up from his nap, ran round the house and struck the fresh trail; but he took the wrong direction, and started off toward the bluff from which the weather had come. By the time he found out his mistake and returned, Tip had come from his hunt after the

son for canoes, when all my life I have looked forward to becoming a mural decorator. One of the girl fairies evidently decreed when I was born that I should wield my arm for profit and then she forgot to designate the exact means. That is the only way I can account for the mix-up between the brush and the paddle. That and, of course, my environment.

But it is only reasonable since I am in a position to market the activities of my brush that the paddle should be the most active. Particularly so because of my diminutive income and my colossal wants.

Some of them have been reached recently, thanks to the paddle.

I might have said, thanks to the brush, had I been living in the Latin Quarter, but I am not.

distributed as equally as possible between the four bark.

It was a happy crowd that floated out from our little boat house landing on a grassy meadow and still happy, though much more and hungry when it returned Monday morning. For fifteen miles we floated down stream between walls of trees that often interrupted the view of the river, and the boat was a leafy canopy. I have often wondered how this ideal camping ground he had so successfully hidden under a bush.

Coming home was not so easy, but it was in the cool of the early morning and the first view so enthusiastic about the outing that they wanted to repeat it later on as a Dutch treat.

There were two serious problems confronting me in their entertainment. One was limited house room and the other was limited entertaining facilities. As it turned out a happy inspiration solved both these problems in a way that was satisfactory to all parties. The little river and four canoes did the trick. I had two of my own and procured two others through the generosity of neighbors.

Each canoe held two girls and a duffle bag, in which they packed their blankets, towels, toilet articles, bathing suits, thermos bottles, mosquito netting and a fly tent. The latter are made of old silk, and while they are rather expensive they were very well and have

it was worried. The longer the fight the weaker the brute became. At last the woman thought, it time to take a hand. They sent the children to get the axe, and Mrs. Niel, who was a strong woman, went to the shed and volunteered to use the axe. She watched for her chance, and while the dogs held the panther by the legs she stepped forward and swung the axe on the head with the back of the axe. The blow stunned it and it was

FOOT BALL.

On a field where real foot ball could

not be played, which was very soft,

the members of the Porch Club on

Tuesday when the music section held

their regular "Afternoon in Music."

The program was in charge of Mrs.

Beatrice Flint Collins, contralto, who

was ably assisted by Miss Ethel

Righter, of Lansdowne, soprano; Miss

Irene Truesdale, pianist.

The club room was filled to its ca-

pacity and the program of length was

thoroughly appreciated by all.

"OLD CAP."

WITH DEFEAT.

Riverton again meets.

Riverton was defeated again last

Saturday by the strong Hobart Club

of Philadelphia. The boys are get-

ting there slow, but sure, the score

being 12 to 0. Next week they will

take the Riverton team in camp. A

last game is anticipated. There will

be a few new faces in the Riverton

team and some old ones. Come out and

watch the game. Come out and watch us

The Women's World

1857. AN ATTRACTIVE UNDER GARMENT.

This design has the cover in surplus style, and the drawers in the popular envelope design. Muslin, cambric, nainsook, batiste, crepe and silk are good materials for this garment. The pattern is cut in 3 sizes: Small, medium and large. It requires 3-4 yards of 36-inch material for a medium size.

A pattern of this illustration mailed to any address on receipt of ten cents in silver or stamps.

MIGRATION OF SWALLOWS.

One of the most curious and interesting of the unexplained problems relating to bird migration is connected with the chimney swift, more often called the chimney "swallow," a very common and well known bird of Eastern United States. After the breeding season the flock drifts southward, and concentrates in vast numbers on the northern coast of the Gulf of Mexico.

Then they disappear as completely as if they had been under the earth. It is the mind, according to the old belief, that migrates in general.

On the Gulf coast, their hiding-place during the intervening five months is still the swift's secret.

MORE PRACTICE.

So many quick retorts are ascribed to the "Aurora of the Breakfast Table" that it sometimes seems as if the witty poet could scarcely have taken time to eat or sleep. The last reply is quoted by a man to whom it was made only a few months before the death of Doctor Holmes.

The talk between the two men had fallen on the subject of age.

"You're five years my junior," said Doctor Holmes, "but I believe I don't envy you."

"I can't see why you should," said his friend. "You carry your years much more lightly than I do mine."

"That's natural," said the younger man. "I've had five years' more practice."

FAMILIARITY.

Illustrative of the fads and fancies of some families which have suddenly acquired riches is the delightful story which comes from a neighboring town of the new-rich family which adopted the profession of calling house servants by their last names. An application for employment as chauffeur was received and the applicant interviewed the woman of the house.

"We call our servants by their last names," she said. "What is your name?"

"You had best call me Jerry," replied the applicant.

"No, we insist that you be willing to be called by your last name. Otherwise you won't do at all."

The chauffeur said that he was willing to be called by his last name, but did not think the family would like to use it.

"What is your last name then?" said his prospective employer, somewhat coldly, as though she expected an unpleasant revelation.

"Darling, ma'am, Jeremiah Darling."

THE WORD "CALICO."

The word "calico" has a queer origin. Many centuries ago the first in the province of Malabar, in Hindustan, gave to one of his chiefs as a reward for distinguished services his sword and all the land within the sword's reach. The chief, who was a certain temple could be heard, from this circumstance the little town which grew up in the center of this territory was called Calicooda, or "the sword reaching." Afterwards it was called Calicut, and from this place the word "calico" was imported into England bearing the word "calico."

A COMFORTABLE PLAY OR DRESS.

Galatee, gingham, seersucker, poplin, corduroy, poplin, gabardine, checked and plaid suiting and serge are nice for this design. The bloomers may be of the same material as the dress, or of flannel, linen, saten, serge or cambric. The dress may be made without the yoke, and the sleeve finished in wrist or elbow length. The pattern is cut in 4 sizes: 2, 4, 6 and 8 years. It requires 1-1/2 yards of 36-inch material for the bloomers, and 3-1/4 yards for the dress for a 4-year size.

A pattern of this illustration mailed to any address on receipt of ten cents in silver or stamps.

A NEW AND PRACTICAL SLEEPING GARMENT.

This model is more comfortable than the two-piece model, is easy to develop, and well adapted for all materials, such as jean, cambric, crepe, flannel, cotton, madras or poplin. The pattern is cut in 5 sizes: 6, 8, 10, 12 and 14 years. The front is made with body and waist, combined. The back has a "fall" or "drop" buttoned to a waist portion under the belt. The right front overlaps the left in closing. The 10-year size will require 3-4 yards of 36-inch material.

A DANGEROUS PRACTICE.
On Wednesday and Thursday the fire company was called out to extinguish blazes on fields which had caught fire while burning leaves. One on the field between Garfield and Cinnaminson avenues below Fourth, and the other at Pennsylvania avenue and Broad. This is a very dangerous practice, and should be stopped, as a fire started with the aid of swift fall breezes and the dry fields might result in a very disastrous fire.

MEN'S FALL SUITS
READY-TO-WEAR OR MADE-TO-MEASURE
We want our clothing service to meet the needs of all men—even to those who feel they must have the suit made to order—and either way the outlay for a fine, stylish suit, will be very little.
Our Fall Clothing lines embrace the most popular fabrics all the new shades—conservative or up to the minute styles and especially good tailoring details that mean attractive appearing clothes.
IN READY-TO-WEAR
Suits for Men
We again introduce to you the season's newest Fall styles of the famous MICHAELS-STERN make of men's clothing.
We've taken no chances, but our lines in early to insure a full season supply. The styles are simply great this season, and there will be no question about the proper fit.
Prices are \$12, \$15, \$16.50, \$18, \$20 and \$22.50.
IN MADE-TO-ORDER
Suits for Men
It has been our good fortune again this season to be able to get the fine fabrics left over in one of the big suit making factories after the season's stock had been made up. Out of these pieces we can get but two or three suits; out of others a number of suits, but it's all new and perfect fabric of the best choice.
We've enough fabric to make 800 men's suits—equal to any 5c tailor-made suit—for only

THROWING STONES.
It is hardly worth while to tell you that girls cannot throw stones like boys. You have all seen them try it, and perhaps have heard at that effort, which was wring, of course, but really, for it really is a funny sight. You thought perhaps—that is, you boys thought—that it was merely a girl's awkward attempt to imitate a boy, but in that you were wrong, for a physical impossibility for a girl to throw with the free movement of the arm that a boy has, because her collar bone is larger than a boy's and set lower.
This comes from a physician in a girls' college who has made a careful study of the matter, impelled thereto, it may be, by the impertinence of the girls, who were ambitious to equal or excel the boys in this physical accomplishment, as they have done in many others. In any sport where this free use of the arm and shoulder is not required a girl may excel, but she may as well give up all hope of ever throwing stones the same way as boys do. To make of

Preparing the Home for Winter Coziness

WHEN ONE IS A-HOMER.

By Elsie Carleton Megary

TO-DAY our little talk will have to do, not so much with the "weather" in connection with the accepted sense of the word, nor yet with what can be termed non-essentials; rather let us call them the "afterthoughts" the very vital "afterthoughts" without which a home is lacking in that almost indefinable quality—coziness.

Think of the homes you know! Probably there comes before you a vision of one, built and furnished with a prodigious purse; where a driveway approach, rare planting and a huge white-columned porch lead up to a house where everything is the "finest," color schemes are flawless; fine rugs, marbles, brasses and bronzes abound—but is it cozy?

As you dwell on that word "cozy" somehow you see another picture. This time it is an unpicturesque cottage, where good taste has admirably played the part of money. You sense at once the thoughtful personality of the occupant. You just know that whoever lives in it, loves it. For the "lived-in" charm of the home is manifest.

Full Preparation.
In the summer months we put our linen slip-covers on the furniture; rugs are taken up, draperies taken down, pillows appear in a Summer guise, while lamp shades and table covers do likewise. We are satisfied with life, bare spaces within doors for we do not, most of the time, dwell in the open at this season! In the Fall it is a different tale and all these unwritten laws for the home in Springtime are reversed. We crave coziness.

Most of us are now in the throes of the Fall housecleaning, and what an opportune time it is for each to ask herself: "Is my home cozy? Is there any charm manifest? Does it look as though we could live in it, really live, not just read-stay and eat, but live? Can I sit and write and read in comfort? If it does not, now is the time to make critical decisions. Actually, however, there are two things we have already learned: coziness has nothing to do with the size of the house, nor can money buy it. How then may it be acquired?

After a careful survey of several cozy homes you will very rightly come to the conclusion that thoughtful consideration of the comfort of the household has much to do with it; that a careful arrangement of furniture plays a large part and everywhere is evident, an unusual regard for the "little things."

GOOD TASTE AND GOOD JUDGMENT.
The two hardest things in the world to define are about the two most noticeable things about superior people. There are superior people. For all our talk about democracy, and for all our railing at privilege, must not be kind to mean that democracy has not its heaven-born ones, its elect, its salient aristocracy.

Now, what I began to say is, that two rare qualities mark the superior mind. They are good taste and good judgment.

The whole purpose of experience is to form good judgment, yet experience cannot of itself compass this end, for the capacity for it must be born. We go to school, we amass knowledge, we travel, converse, transact affairs, study, practice, and labor, all to bring to bloom, if possible, this rare flower, Good Judgment.

And as for good taste, it is the end and aim of the disciple of gentle society, and of all culture and so-called "breeding."

It is the most widespread error and epidemic in the world, the persuasion that most people have, that their taste is good. As a matter of fact it is pretty uniformly bad.

Not one man in a hundred knows a good book, a good picture, a good building, a good speech, good deed, or good man. We are senselessly asking other people's opinions on these things. That is why we read book reviews, read "best sellers," stand in awe at the pictures marked with an asterisk in the catalogue, follow the mob to hear the celebrated singer or that much talked of actor or such and such a famous preacher, praise this man for doing the cheapest kind of a deed, and praise that man to mean that democracy has not its heaven-born ones, its elect, its salient aristocracy.

Now, what I began to say is, that two rare qualities mark the superior mind. They are good taste and good judgment.

Helpless humanity, poverty stricken in both taste and judgment, grasps at any straw that will show it which way to think.

Whether it is that superior man of good taste and good judgment, you will note of him these marks: (1) He is honest, and will say no second-hand thing he does not think. (2) He is independent, and will follow no authority however venerable unless it be his own. (3) He is tactful, and gladly listens to whomsoever will instruct him. (4) He is omnivorous, and takes up any one's opinion that appeals to him; and (5) He is of disposing mind, and all judgments and opinions in him fall into crystal order, become an organic co-herence, and give him the prime quality of a natural knower.

These are placed, one at each end of the davenport, and only one may be used. Each is large enough to hold a lamp, a book, a flower-stand, an ash tray.

But for the Small Room.
If your living-room is small and a davenport is much too big for it, you may have in its stead a chaise longue, comfortably cushioned, with a small side table (so shaped as to be at the head of it and a floor lamp in back. Another grouping has the tea table as the center of interest, for, be it known, the tea table is very much to the fore. Then in another corner, a small round table takes advantage of its corner, and has a big chair with a footstool and a lamp.

The Thoughtful Touch.
You never find the dining-room of the cozy home lighted by a colored glass lamp, inasmuch as the thoughtful touch is to be seen in the dining-room.

How to Get the Best of the Food.
There has always been some confusion between what we call "cooking" and what we call "cooking." If you want to write a letter in this living-room, you do not have the annoyance of dragging a heavy lounge chair up to the desk, only to discover it is too low for you. For, here, close at hand and of proper height, is a straight back desk chair. One may write by day or night at the desk in the cozy home, for, placed close to a window, there is always sufficient daylight and at night is provided a special desk light.

The Underlying Cause.
I wonder if you haven't discovered for yourself the real secret of the many groupings in the cozy home. It is that nothing in it is the result of chance; nothing is haphazard—it is all meant to be. Do you not see that the whole underlying thought has been drawn up in front of this center of interest, or it may be at right angles to it. Back of the couch will be a table with a good reading light, or even two. If the table be one of the new, long davenport style, a bedside chair may stand by the side of the fire. If the size of the room makes a mirror and a table and davenport prohibitive, and if the couch must be placed alone, there are deer, little tables, called sofa-tables, just as long as the usual davenport, but wide and of semi-circular shape.

MAKING A GOOD IMPRESSION.
Life, as has been often said, is an art. To become expert in using one's feelings, ideas, position, knowledge, and temperament, so as to put forth one's influence with the maximum effect, is like becoming expert in book-keeping, picture painting, or piano playing; it takes steady study and the outstanding quality of his greatest.

Helpless humanity, poverty stricken in both taste and judgment, grasps at any straw that will show it which way to think.

woman, ages ago, discovered the charm of candle-light on the table; so, while there may be lighting fixtures around the wall for special occasions, she makes each night a party night by the constant use of candles. Just try it! And always are there flowers on her table and a fern box in the bay. Then, because our chandelier of the cozy home has a sense of values in decorating, she is taking particularly great pride in the new floor standard for the dining-room, which is illustrated. It is of dark oak to match the furniture, too, standing about five feet in height. It is indeed a lovely color note when its bowl-shaped top is filled with fruit or flowers.

Even the kitchen bears the touch of coziness. Warm rag rugs are scattered over the cold linoleum floor and at the windows are crisp, white curtains, with like as not, a box of parsley and chives growing in a sunny window.

The man of the house is not forgotten, and for his special shaving benefit has been added a light each side of the bathroom mirror. Oh, yes, clients in the cozy home find guest washbasins as well as guest towels—a fine point not to be ignored.

Running it up, the cozy home is the right combination of big things with the little ones—enough big things to bind a room together—enough little things for highly specialized comfort. It is a home of big, comfortable chairs and little footstools, couches—all cushioned, plenty of lamps and little tables everywhere. It is the home of bookcase, book racks, magazine holders, a tea table (for everyday use) and an aquarium—and a bird cage. Everything is placed with the idea of drawing them together at night—they are more than ornamental. Flowers are filled with flowers all Summer and throughout the Winter with pine boughs, bitter-sweet and colorful fall rose-hips.

So, this Fall give more than passing consideration to the afterthoughts in furnishing, which, carefully placed, will throw your home with the available cause of coziness.

MAKING HIS WAY.
A man who later became a detective did a clever bit of amateur sleuthing before taking up that work as a profession.

Later in the day, having occasion to make further purchases, he discovered to his horror that he had paid the seller of the pig a twenty dollar note instead of a five dollar note, as he supposed. He looked for the fair, leaving no clue to his whereabouts.

A hard pull of a mile against a strong northeast wind brought me up under the lee of the island. There my left car broke short off just outside the rockwork, and I had to do some lively paddling to make the rocky landing.

Spoke Island is about two miles long and less than half as wide, and has two narrow coves on its westerly shore. A dense growth of evergreen covers the larger half of it; at that time there were two houses on it; that is, there were.

"Climbing the high bank, I walked north almost a mile to the house where Sam Elwood lived. Sam, an eccentric old hermit, garrulous and inquisitive, was more than glad to see me. He asked two questions for every answer I gave him, and I humored him by talking as I wrote; before I could get away, the time had stretched into half an hour.

"I kicked, and trod mud with all my might, hoping to touch something solid, but still I sank, inch by inch. The pit held me fast, like a fly in a molasses jug. Beneath the surface I felt the water, and I was deluged with custard pudding—tenacious, clinging, almost like glue. It was thick enough to hold me, but not firm enough for me to push against it. I struggled I could feel it pressing round my legs and body, rising steadily toward my armpits.

"BUB" HE'S ALWAYS TO BLAME!

THE second house was at the other end of the island. For the sake of easy walking I took to the beach, for the tide was out. On reaching the beach, I found its owner was away.

"As I turned to go I remembered my gun, and I went back to the house to get it. I found it in the kitchen, and I took it to the beach. I found it in the kitchen, and I took it to the beach. I found it in the kitchen, and I took it to the beach.

"I started work on the first day of June. Every day I was up with the sun, and often it was well toward midnight before my returns were finished. Coast people rise early; yet I was at some houses almost before the inmates were out of bed. But I had to make every minute count.

"On Sunday, the fifteenth, it rained hard. On Monday, the day before my first senior examination, I drove three miles, from West Barrville to Spur Point, and was hard at work all the way. The sky was cloudless, but the mud was deep, and so I wore rubber boots. I carried the regulation loose-sheet census book, which was about twenty inches wide by twenty-four inches long, with thick, board covers. It weighed at least three pounds.

"After I had finished canvassing the Point, I looked round for something to take me to Spile Island. All the fishing boats were out, and the best thing I could find was a leaky national punt, with a pair of decrepit oars.

"A hard pull of a mile against a strong northeast wind brought me up under the lee of the island. There my left car broke short off just outside the rockwork, and I had to do some lively paddling to make the rocky landing.

Spoke Island is about two miles long and less than half as wide, and has two narrow coves on its westerly shore. A dense growth of evergreen covers the larger half of it; at that time there were two houses on it; that is, there were.

"Flinging my shoulders this way and that, I made short, frantic clothes, hoping to catch the solid edge of the pit; but my hands met only soft mud. Meanwhile I was getting lower and lower into the sucking mire, I sank when I struggled and when I did not the pit was apparently bottomless. I finally managed to crawl out. I no longer reached the firm surface of the sand than I collapsed, weak and shak-

"I had been in the pit less than half a minute, but it seemed to me as though I had been there for hours. I was pressed down by my left hand, but I discovered the book several inches under the surface, and managed to pry it up. Fortunately I had tied the edges tight together, and the writing on the loose leaf sheets was still legible, although the pages were muddy.

"Near the old cellar round which the flies grew I found a shallow well, full of rain water, and here I washed and wrung out my clothing as best I could. Then with a long fence rail I dug out the bottom. My feet once again stood on firm ground. I had reached the steep slope came to me, and sweet and strong.

"My face was coming closer to the mud. I noticed the small tracks on it, and my eye was caught by little, wriggling, shrimp-like things in the mud. All would soon be over; the little would erase my footprints and no one would ever know what had happened to me. At least, however, I would go down fighting.

"As I struggled, my glance fell upon the car. It lay barely within reach, where I had tossed it when I fell. Was it long enough to reach across the honey-pot? If so, there might yet be hope. I made a frantic clutch for it and caught the end. Running it through my hands, I dropped the tip of the blade of my foot from my last footprint. The handle lay eight feet across the churned-up pit.

"Grasping the car with both hands well apart, I threw my weight upon it. The blade settled slightly and the handle slipped quickly out of sight into the bluish ooze. I felt a sickening disappointment; the pit was too wide, and the farther wall of the pit.

"The slime bubbled under my armpits; there was time for just one final trial more. I lay on my back, and I gave the handle a shove. It moved! From the footprint. It had moved! Full foot, when the handle struck something solid under the mud. It was the farther wall of the pit!

"I kicked, and trod mud with all my might, hoping to touch something solid, but still I sank, inch by inch. The pit held me fast, like a fly in a molasses jug. I struggled I could feel it pressing round my legs and body, rising steadily toward my armpits.

"I kicked, and trod mud with all my might, hoping to touch something solid, but still I sank, inch by inch. The pit held me fast, like a fly in a molasses jug. Beneath the surface I felt the water, and I was deluged with custard pudding—tenacious, clinging, almost like glue. It was thick enough to hold me, but not firm enough for me to push against it. I struggled I could feel it pressing round my legs and body, rising steadily toward my armpits.

hardly daring to believe my senses, I will keep my weight on the stout stick. It held. Both ends rested on the stratum of hard blue clay that formed the solid edges of the pit.

I'M THE MAN.
An Indianapolis pastor was recently a very sick patient in a hospital of that city when the physicians called to consult regarding an operation.

MONEY IN STOCKINGS---YOU HAVE HEARD OF THAT BEFORE, BUT THIS IS QUITE DIFFERENT

GATHERED around the tall tea glasses on the cozy parlor the address of the tea was a comfortable life, and seemingly settled for the rest of her existence. Suddenly racing the realities, wearily finding out how much more difficult it is to earn a dollar than to spend it.

Some time ago, spoke up one of the guests, a woman I knew was in a position similar to the one we were describing, and a casual suggestion I made gave her all idea which she developed.

"This is a very humble story from the 'short and simple annals of the poor,' but if you are interested I shall continue."

"My landlady, Cora," she said, "came to me a despair one day and said the doctor had told her she must give up going out to work, and I shall pay you for a week's board, and I shall pay you for a week's board, and I shall pay you for a week's board."

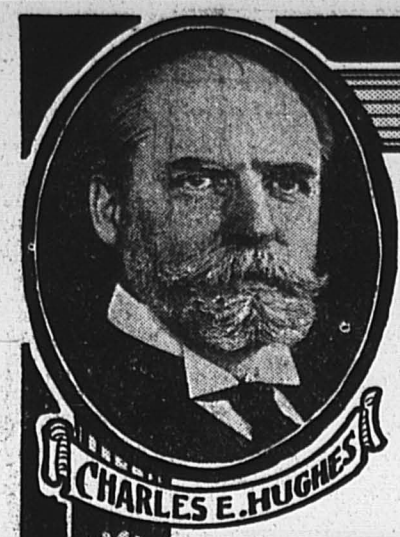

She found it strange to sit quietly and ply her needle at the open window and watch the world go by, and she told me afterward, she made plans for getting work from other women she knew. At last she had accomplished.

She had transformed about twenty pairs of stockings afflicted with all the ills that stockings are heirs to into neat and thrifty objects of pride to any housewife's heart.

Soon she had found numbers of women who were in the same predicament, and she had secured employment for a day every two weeks at \$10 per day and carfare, as well as making a few dollars for her own use, and she had become a well-sought-for specialist. Busy women who employ her find that she saves them not only time, but also money, for her needle adds several dollars to the former short and precariousness of their families' stockings.

The sedentary occupation helped her avoid sickness, her health and spirits improved, and she feels, she told me, that for years she had repaired the

makers from miles around on Tuesday evening, October 31st, when the Board of Trade of that city will inaugurate a Halloween celebration, which will parade over the principal streets of

that city. There will be several bands of music and thousands of masqueraders who generally wander aimlessly up and down the streets in an effort to celebrate the occasion.

The merchants of Camden have contributed several hundred dollars for music and prizes, which will all be of cash, as follows:

Best dressed couple—First prize, \$10; second prize, \$5.

Best dressed individual—First prize, \$10; second prize, \$5.

Most comical couple—First prize, \$10; second prize, \$5.

Best male impersonator—First prize, \$10; second prize, \$5.

Best female impersonator—First prize, \$10; second prize, \$5.

Best appearing club, with fifteen or more in line, \$25.

Most comical club, with ten or more in line, \$10.

Best appearing club from outside of Camden with twenty-five or more in line, \$25.

It will be noticed that the Board of Trade is giving away \$125 in these events, and that the sum of \$25 is offered for the club making the best appearance from outside of the city, which is an inducement for all social clubs to get in line, make themselves popular and at the same time win some gold.

The parade will form at Broadway and Market street at 8 o'clock and will be a gala occasion. No charge whatever will be made to contest for any of the prizes.

Those living outside of Camden should address the Board of Trade, 29 Broadway, Camden, to secure places in the parade.

RIVERTON NEWS

(Continued from First Page)

Mr. Lloyd Mayor has resigned his position with C. W. Lawlor and has accepted one as chauffeur for the Franklin D. Oiler.

With the gentlemen of the Riverton Country Club gathered in female costume, a spectacular and humorous Pa., at luncheon on Tuesday.

Mr. and Mrs. Leo Mulvey, Mr. and Mrs. Chas. Baister, Mr. and Mrs. Harry Snyder, Mr. Harry Spilke, Mr. Joseph McManigan, Mr. and Mrs. Robert Anderson, and Mr. and Mrs. Alfred Murray, of Philadelphia, and Mr. and Mrs. Mollie Rush have been confined to her home on Florence avenue this week suffering from a severe cold.

A basketball team is being organized among the ladies of the Methodist Church here. Negotiations have been made to have an instructor which will help materially in the formation of a strong team. The object is to hold games in the new gymnasium in the Temple Building.

Miss Edna Hinch, of Philadelphia, was a week-end visitor here, being the guest of Miss Edna Hinch.

The ever popular "Edna King" of Highland avenue, has temporarily pre-empted the title of "Official Cripple of the Village," having driven a mail through his foot. We trust for his speedy recovery.

The members of "Hallowe'en" were seen in various places Tuesday evening. The assembly on Broad street was particularly interesting. All manners, minds and costumes were in evidence. The ladies entered into the spirit of the festival occasion.

A large delegation from Riverton to the home of her daughter, Mrs. Hannah M. Plum, after being confined to her bed by several days, succumbed to pneumonia on Friday last at the home of her daughter, Mrs. Ira C. Monach, of Leocoy avenue, at the age of 77 years.

Miss Dorothy Taylor, of Berkeley avenue, died at a masquerade party on Tuesday evening.

Marked party to a large number of her friends on Saturday evening.

PALMYRA NEWS

In an exciting chess and field-play game of foot ball the Field Club defeated the "Always strong" Arlington A. C. on Saturday last at Field Club grounds by a score of 19 to 8. Owing to the inability of Grace A. A. to appear on the scene Arlington was procured at the last minute. The management has made an effort to continue this sport from year to year and has now a team that put up a strong defense and, naturally, good games are the result, therefore it is hoped that they will receive encouragement by having the home team filed every Saturday by rooters that will BOOM! Come out this Saturday. Ladies admitted free. A special attraction has been booked for November 11th. It is the Wolverines, the strong team that is composed of men of the U. S. E. A. League.

It seems that it could hardly be done by the destructive act of young boys, which we are glad to note, were few this year. A window in the residence of Mr. J. Franklyn Cline, Jr., Fourth and Garfield avenue, was broken by either a sharp stone or shot from a revolver by a crowd of young boys whose identity is unknown. One of the occupants of the room at the time was confined to his bed by several days, succumbed to pneumonia on Friday last at the home of her daughter, Mrs. Ira C. Monach, of Leocoy avenue, at the age of 77 years.
