Patrol System Nothing New, Says Freeholder Land

Contradicts Reports That Democratic Party Withholds Republicans From Office Holding

In an interview with T. Winfield Land, present Freeholder from Palmyra township and a nominee for reelection at the polls on Tuesday, he stated that the patrol system of keeping the county roads in good condition, which has been the main talking point of his opponent, George W. Rogers, is nothing new. "It has been in force for over a year," exclaimed Mr. Land, "and considerable money has been expended for this purpose, thus proving my assertion."

Another rumor has been circulated that the Republicans on the board have been restricted from holding offices.

An investigation showed that nine out of the fourteen on the board were acting in an official capacity.

Mr. Land is a Democrat, but his party affiliations have not interfered with justly fulfilling his duties as a member of the board, and also of the State Roads Committee.

Mr. Land's experience in the upkeep of county roads, his sincerity, honesty and integrity has proven his worth and should warrant his reelection on this Tuesday, November 6.

AN ATTACK AGAINST THE SO-CALLED "ANTI" SLACKER

The following communication was received this week by the editor.

October 31, 1917.

To the Editor of The Record: Sir—I see that the article in your issue of the 26th inst., that the Kaiser of Palmyra takes exception to the letter published on the 19th by a patriotic citizen.

The article was written with the object of drawing the attention of the citizens of Palmyra to the issues of the day and trying to have them wake up and do their own thinking and not allow themselves to be led by a self-motivated.

As an analytic I have in my own humble way analyzed the personnel of our "Home Defense Committee" and fail to find a single surname of same either on the Roll of Honor, the Selective Draft or never will be and I hardly think that it behooves this body of men to act as a censoring board on the speech and actions of those who have produced and furnished the "cannon fodder" from this town.

It is the opinion of the writer that the proportion of slackers is much greater on this committee than anywhere else in this town, notwithstanding the camouflage they are making.

The author of this article is in the hopes that the "Anti" will be raised, so as to benefit a worthy branch of the Red Cross.

A PATRIOTIC CITIZEN.

QUEER FOOD

Strange foods, such as potato flour, artificial protein cakes, green bone-dust preparations, tabloid soups, pudding powders and other unusual things, have come into use during the war, says a writer in the New York Sun, and their adoption serves to remind us that much good food material is neglected in ordinary use. Only a few people eat snails; most of us would starve amidst plenty of locusts; and the thought of snakes as food would give those who call themselves civilized the shudders.

But unusual food, once become familiar, is often relished. Col. Roosevelt got the best work from his men on his African expedition by promising them raw steaks from slaughtered rhinoceroses and hippopotamuses. Capt. Bartlett, who carried Stefansson to the arctic waters, found raw polar bear flesh more appetizing than anything he had eaten at home.

Frenchmen eat snails, rats are sold in the Chinese markets, and dog steaks cost three more than mutton. Some arctic tribes prefer to have their fish decomposed before eating them, and even then perhaps they smell no worse than Limburger or Brie cheese. South Americans eat lizards, and mares' milk is a favorite Russian beverage. Truly, "there is no accounting for tastes."

THE SIGN OF THE RED CROSS

Y. M. C. A. Building, Broad and Garfield Avenue

(By M. W. Wisham)

Call to Service

Women of Palmyra you are called to give all the time possible to help Palmyra Branch Red Cross in service for the Nation. Do not imagine that there is no need of additional money and supplies, the demand is greater than the supply. Red Cross standard dressings in millions must be sent over with all possible speed. A cablegram from Major Grayson Murphy, American Red Cross Chief of Commission in France, says if this is not done immediately, a serious calamity and national disgrace is inevitable. The world is in a life-and-death struggle. Many of our men are in France. Others are being prepared to go there, offering themselves as a sacrifice in defense of the great principles for which this Nation stands. Men and women, Red Cross is the Nation's business.

ANOTHER ERRONEOUS REPORT BEING CIRCULATED TO DISMAY FOOD CONSERVATISTS

The following telegram was received by Honorable James F. Fielder, Federal Food Administrator of the State of New Jersey, which should serve as a warning to the public: "Reports reach us from your State of insidious propaganda against the Food Pledge Campaign, among them the circulation of reports that the Government would confiscate the household food of all who signed the pledge. The absurdity and wickedness of such statement is obvious, and aside from the fact that the Government has no intention of doing anything of the kind it has no powers to do so in law. The attention of the prosecuting authorities is being called to the persons circulating the report."

BURLINGTON COUNTY COMMITTEE ON SUPPLYING NEEDS AND COMFORTS FOR CAMP DIX

The boys at Camp Dix are now realizing with gratitude the generosity of the people throughout the county in supplying them with comforts and amusements. The committee on this line of work is being kept busy in order that they might make it as comfortable and home-like as possible for the contingent of the National Army. Charles A. Wright, of Riverton, and George N. Wimer, of Palmyra, officially appointed representatives of their respective towns will be glad to receive any contributions. They will see that they are properly distributed.

The biggest entry list of the present golf season has been received by the Riverton Country Club for its invitation tournament to-morrow to celebrate the opening of the new eighteen hole course. The list contains the names of practically all the crack golfers in Philadelphia and vicinity including Norman H. Maxwell, Maurice Riskey, H. B. McFarland, S. E. Sharwood, Fred W. Knight, Walter H. Reynolds, W. E. Shackelford, T. B. Wootton, M. P. Jones, J. W. Platt, H. B. Newton, G. W. Hoffman, Theodore Senseman, J. P. Burleigh, and a host of others.

W. C. T. U.

Next Tuesday will be the regular business meeting of the Union at the home of Mrs. Bowker. All welcome. As tobacco is neither food nor drink, it remains to be seen whether America can afford its billion dollar narcotic. If Food Commissioner Hoover finds it worth while to ask housewives to save "a slice of bread a day" worth a fraction of a cent, a cigar, representing five cents worth of material and labor may also be a worth while economy. Indeed at such a time the tobacco fund of a certain New York daily for the soldiers takes on all the aspects of the work of those well-intentioned folks who used to send cordials and brandies to the one away from home.

The man who tries to lengthen his nights is apt to shorten his days.

Defense League Receives Several New Members

Can Still Accept Several Applications

Palmyra Home Defense League received several applications last drill night. They can still equip a few more men from the ages of twenty-one to forty-five, if those desiring this effective drilling in order that they may be of service to their country or home, will come forward.

Last Tuesday evening the by-laws were unanimously adopted, every member designating his approval by his signature.

An invitation was received by the local Defense League to attend a sham battle to be held this Saturday afternoon at Merchantville at 3 o'clock sharp.

The battle will rage between the forces of Merchantville and Haddon Heights.

The Finance Committee, the most important committee at the present time, was appointed and consists of the following: C. W. Wanger, chairman; George M. Becker, treasurer; Lieutenant P. G. McMahon, John Stuckey, W. Rickerts and Leonard Baker.

The Defense League had the pleasure on Tuesday evening of having with them Lieutenant Perry Morton, who was given command for a time by Captain Frishmuth in order that he might give them a few instructions as to drilling, he realizing what it means to be a raw recruit. His remarks were encouraging.

THE OTHER UNCLE

A traveler, who by his twang evidently came from America, entered a railway carriage at Hereford the other day, and endeavored to begin conversation in the following way:—"I guess the air of this country is dead again a long innings."

The remark was received in silence by the other passengers present, but the Yankee continued:—"Now, the air of our country is"

makes you live, want to or not. Why, my Uncle Zekiel is ninety-four next fall, but you wouldn't think so to see him jump on and off his bicycle going down South to see his old folk. And my Aunt Mima, seventy-six, and Junior golf champion of Fressia. By the time she gets a few more years over her head she will be able to beat some of the older ones, I can tell you. I assure you of this, that none of my relatives—they have all been brought up in Montana—have handed in their checks before they've passed the century."

A quiet-looking man who sat in a corner said, "I remember reading an account of one of your relatives dying comparatively young and somewhat suddenly."

The American was ready. "My Uncle Zekiel claimed damages against the 'Montana Eagle' for publishing a false account of his death. Perhaps that's what you're running your head up against," he said. "No," said the quiet man; "the account I read was a true one, and had reference to your Uncle Ananias, in the Acts of the Apostles."

ECONOMICAL ICE BOX

According to the Christian Herald, an inventive Dane has contrived a substitute for refrigerators with ice in them—namely, boxes cooled by running water. His invention has proved so popular that in all the newer sections of Copenhagen the apartment houses are constructed so as to make use of it.

The iceless refrigeration is accomplished by conducting all the cold water that enters the house from the city mains through pipes at the back of the box. Since a great deal of water is drawn during the day, the refrigerators remain fresh and cool.

If the invention proves to be what it promises, it will come into general use throughout the world, for ice, which used to be considered a luxury, is now a necessity, and its price is often so high as to make it a matter of some anxiety to housekeepers.

The name of the Dane was not mentioned in the dispatch from Copenhagen, says the Herald in conclusion, but if his plan of refrigeration works as he expects, his praise will be sung round the earth.

"Why is a grain of sand in the eye like a schoolmaster's cane?" "Because it hurts the pupil."

"Well, what is it, Nora?" "Indeed, mum, the water's cold." "What water?" "The hot water, mum."

A poor man should be polished, for he receives many hard rubs.

However, excursion tickets to Philadelphia will be taxed at the rate of 8 per cent on the dollar.

TEDDY SCORED

Nine-year-old Teddy had got a splinter in his foot, and in spite of his protestations his mother and grandmother decided to place a poultice over the wound. The boy resisted vigorously.

"I won't have any poultice," he declared, stoutly.

"Yes, you will, Teddy," declared both mother and grandmother, firmly, and, there being two to one, at bedtime the poultice was ready.

If the poultice was ready the boy was not, and he proved so refractory that a switch was brought into requisition. It was arranged that the grandmother should apply the poultice, while the mother was to stand with the uplifted switch at the bedside. The boy was told that if he "opened his mouth" he would receive that which would keep him quiet. As the hot poultice touched the boy's foot he opened his mouth.

"I say," he began.

"Keep still," said his mother, shaking her switch, while the grandmother applied the poultice.

Once more the little fellow opened his mouth.

"I—"

But the uplifted switch awed him into silence. In a minute more the poultice was firmly in place and the boy was tucked up in bed.

"There now," said his mother, "the splinter will be drawn out and Teddy's foot will soon be well."

As the mother and grandmother moved away triumphantly a shrill small voice came from under the bedclothes! "You've got the poultice on the wrong foot!"

Harry's paradox—You light a match to make it burn, and you burn a match to make it light.

THE KITCHEN CABINET

Let us keep the mind clear and bright, fill it with wholesome thoughts of life, and be kind to our feelings towards others.—C. B. Patterson.

SEASONABLE DISHES.

For a nice occasion when dainty salad is desired make a cherry salad as follows:

Cherry Salad.—The nice large cherries are preferable, fill each with a filbert and arrange eight or ten on a head lettuce leaf for each person. Pour over a little dressing made from the cherry juice, olive oil and seasoning.

Maple Parfait.—Beat three eggs, yolks and whites separately, until light. Scald a cupful of maple syrup and pour it boiling hot over the yolks of the eggs, fold in the whites and set aside to cool. Add a pinch of salt, two cupfuls of whipped cream, a teaspoonful of lemon juice and freeze. Serve after ripening for several hours and garnish with cherries.

Potato Croquettes.—Put two cupfuls of mashed potato through a sieve, add a tablespoonful of butter, two tablespoonfuls of chopped parsley, a teaspoonful of onion juice, and a well-beaten egg, salt, pepper and celery salt to season. Form into croquettes and fry in deep fat, after dipping them in egg and crumbs.

Royal Sandwiches.—Cut fresh bread a quarter of an inch thick and cover it with the following mixture: Put three hard-cooked eggs into a dish, add four teaspoonfuls of butter, a dash of red pepper, two tablespoonfuls of cooked ham, chopped, mix and rub through a sieve, then add two tablespoonfuls of mayonnaise spread this on the bread and sprinkle over it finely chopped celery, that has been chilled in ice water, add a teaspoonful of olive oil, a little vinegar and salt, place another slice of bread on top of this and butter the top, sprinkle with hard-cooked yolks of egg put through a sieve, and lightly with chopped parsley. Cut the bread in strips and serve.

Pineapple Salad with Honey Dressing.—Arrange slices of fresh pineapple on lettuce and pour over the following: Beat together three tablespoonfuls of olive oil, two tablespoonfuls of honey, a tablespoonful of lemon juice and a dash of salt. Use at once.

When whipping cream, add a tablespoonful of condensed milk to a bowl just before serving. It will add much to its deliciousness and increase the quantity of the cream.

A half-cupful of good-flavored cheese grated, then added to a dish of creamed toast, makes a highly nutritious dish.

It is a fine thing to have a great thought, but it is a much sadder thing to have a great thought and do nothing about it.

God has given us tongues that we may say something pleasant to our fellow-men.

HONEY DISHES.

A most delicious plain butter was that made by our grandmothers using honey instead of sugar; just try it with your dumplings and see if it isn't worth remembering.

Rice Pudding.—Take a half cupful of rice, two quarts of good milk, a pinch of salt and honey to sweeten, bake for three hours, stirring often the first half of the cooking. Raisins may be added and a little butter if the milk is not rich.

Honey Spice Cake.—Stir together until creamy one and a half cupfuls of honey, one scant cupful of shortening, and gradually two well-beaten eggs, one-half cupful of milk and three cupfuls of flour in which two tablespoonfuls of baking powder have been sifted, a tablespoonful of allspice and a cupful of each of raisins and currants. When well-mixed turn into a deep greased pan and bake in a moderate oven until brown.

Baked Apples.—Core and peel five one-sized apples. Mix one cupful of fine bread crumbs, three tablespoonfuls of honey, one-half cupful of milk and three cupfuls of flour in which two tablespoonfuls of baking powder have been sifted, a tablespoonful of allspice and a cupful of each of raisins and currants. When well-mixed turn into a deep greased pan and bake in a moderate oven until brown.

What Can We Do?

There is a request from hospitals for scrapbooks made to interest the convalescent soldiers when time hangs heavy on hands forced to be idle. Certainly here is a simple and easy task waiting for those who are anxious to serve the needs of our soldiers in some way, but with little time or money to spare.

And convalescents in the hospital are not the only ones who will find the scrapbook something to enjoy and pass along. So, if you are casting about for something to send to the Soldiers for Christmas, consider the many virtues of a clever scrapbook.

These books are to be filled with good and new jokes (especially those originating in the army). There can be cut from magazines or papers or gathered elsewhere. Old files of magazines might prove a good field for exploration in filling them. Kodak pictures, if good and of general interest, will help out, and those of animals or country life are always interesting, or those made on trips to places of great natural beauty of historic interest. The blank books can be had at the humble and useful ten-cent stores and the pleasure pasted in them. There is really more interest in this work, if the books are to be sent to acquaintances who have joined the army, and it is not at all hard to get acquainted with a soldier boy who may have been a friend from home than his comrades.

Especially nice thing about them is that they can be passed along and another is that the work is interesting in itself.

The pictures and stories should always be cheerful. The boys at the front have no use for "sob stuff," but they do like to see their friends and family. Here is a chance to be immediately seized to do something worth while for Christmas.

It was all my fault, anyway," Beattie had been condemned to die, but Wales' statement saved her life.

The mule is known to every one of the 400 employees of the mine and is tolerated by all of them. Wales alone will tolerate the animal. Every morning the mule must have her chew of tobacco, then exercises for a few minutes by kicking the strips two feet above her head. Wales excuses this habit, saying it is due to temperament.

FORTUNE WAITS FOR GIRL.

Abandoned by Parents Years Ago, Present Name Unknown, She Is Heir to \$700,000.

It was a curious story that was told by a man who said he had found a girl who was not known to him, but who was abandoned by parents as their unclaimed daughter, while they were upon a honeymoon in Italy, Barton C. Lee, Chicago automobile salesman, and Adelina Werner Lee, former Ottawa society belle and mistress of national repute, are the parents.

Dr. Margaret Milligan of Ottawa, alone is thought to know the young girl's whereabouts. It is said that the mother confided in her before the honeymoon trip.

Mrs. Werner, wife of the girl's maternal grandmother and member of one of Ottawa's wealthiest families, left the money to be divided among her daughter's children.

He does not know where his daughter is. His last wife, Mrs. Drusilla Lee, died at 1015 Illinois avenue, was never told about the existence of the child, she said today. She and Mr. Lee have been divorced for some time.

CHEWS MONEY FOR TOBACCO.

Excited Man, Fighting Fire in Row of Stables in Philadelphia, Masticates \$20 Bill.

Philadelphia.—During a lively fire in a row of stables Edward Madden of the police beat Masticates got out of bed to help the firemen.

He rushed into the burning building and led a pair of horses to safety. He went back again and again until, with the help of other firemen, 50 horses were rescued.

MULE MISSED HER MORNING RATION

Mule, Deprived of Tobacco, Expresses Displeasure in No Uncertain Manner.

Grass Valley, Cal.—Beattie, the old mule in the Empire mine here, has been exasperated of all blame for kicking her driver, Fred Wales, and breaking his arm. All responsibility has been taken by Wales to save the life of his companion of 14 years.

"I guess she didn't know it was me who was kicking," said Wales. "If she did, she kicked because I had forgotten to give her the usual chew of tobacco."

It was all my fault, anyway," Beattie had been condemned to die, but Wales' statement saved her life.

Divine Friendship

By REV. JAMES M. GRAY, D.D.

TEXT.—Behold a friend who is true to the end. (Matthew 13:12)

This was a name given derisively by Pharisees to our Lord and Saviour. Jesus Christ. But since he did not disown it, it became for that reason very precious to every soul who has come to believe on him.

(1) The friendship of Jesus for sinners, who trust in him, is marked by absolute distinction. He is not a friend to sinners, but a friend to those who are sinners.

(2) Consider the constancy of this friendship which is as unchangeable as the nature of God. He is a friend to the sinner, who trusts in him, for ever.

"All My Family Take Father John's Medicine

When They Need a Tonic.

It Builds New Flesh and Strength

There is part of a letter written from Pittsburg: "This is a picture of my oldest boy when he was seven months old. The winter he had a very bad attack of croup and I had a doctor for a time but could not get him better. I got a bottle of Father John's Medicine and it helped at once and gave him great relief. I always give Father John's Medicine to all my family whenever they need tonic. (Signed) Mrs. W. F. Fletcher, 7008 Wilshire St., St. Louis, Mo."

Murder Will Out.
French woman with a sense of humor once told this story:
"I was walking up a flight of stairs to my apartment with a mirror at the head of the landing.
"I glanced up, painting, she thought she saw a woman descending. I said to myself: 'Well, if I were not I should have been better than she reached that ridiculous height.'
"When she reached the head of the stairs she confronted herself."

Life Found the Way.
The spirited story of one of the most romantic weddings of the war was unfolded recently, when Barbara Wyndham, daughter of a prominent Wyndham was lunched in France, and taken to Lady Gussage's hospital. There he fell in love with Lady Inge's daughter, but the girl's father refused his consent to their marriage. The couple fled to France, where they met Lord Inge's son in hot pursuit, and that Wyndham was wanted for being absent without leave. The chase through London, in the course of which the couple got into telephone booths and changed their clothes, and then walked out under the noses of the detectives who were waiting for them. They then made their escape to Scotland, where they were married.

Remonstrative Bits.
The old soldier was showing fields are won.
"The old soldier I ever had," he said "was when we were besieged. We were had one bite a day for a fortnight, and that was horse food. The young fellow sitting at the corner side of the topmost chipped in: 'I remember living for a month on one bite, and that was out of my leg.'
The old soldier shrugged.
"I was a mid, angry." "Believe it or not, it's true!" said the young man. "A dog took a morsel out of my leg and the commotion kept me like a lord for 3 weeks."

lands of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta. This year wheat is higher but Canadian land just as cheap so the opportunity is more attractive than ever. Canada wants you to help feed the world by tilling some of her fertile soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think of the money you can make with wheat around 82 a bushel and land so easy to grow. Wonderful yields also of oats, barley and flax. Millions of farms in Western Canada is so profitable an industry as grain growing.

The Government thinks it is asking farmers to too increased acreage into grain. There is a great demand for men to help cultivate the fertile western lands who have volunteered for service. Fads And Fancies Of Fashion

These war time fads being determined to reduce the high cost of living, and also to forego wool that is needed for the armies of the world, my lady has taken to knit attire. This is no hardship at all—women have always loved silk. Besides, knits in several simple weaves and lovely crepes have proved themselves dependable for wear as well as beautiful, in the first regard at least the equal of many woolen fabrics.

number of yards of goods to be used for daytime frocks, or of course these war time economies will become fashionable. Because simplicity makes for rather than against artistic success in design, the simple and the plain are more popular than ever. Only such and needwork furnished the means for producing the lovely afternoon gown shown in the illustration. But this restriction merely serves to show the resourcefulness of its creator; he has made them entirely sufficient. The gown has a short, plain bodice, smoothed into elegant folds. The plain skirt is smoothed to adjust it to the figure at the waistline and the last row of smocking forms a narrow ruffle, lined with white satin. This provides the most graceful way for uniting bodice and skirt in one.

But the cleverest bit of strategy employed by the artist whose means were so restricted, appears in the pockets at each side. They are managed by alighting the satin and gathering the fullness of the skirt into smocking. The

An unusual garment appears in the full cape of velvet with big collar and cuffs.

equally across the back extended into revers at the front and may be turned up about the neck, muffled fashion. The velvet cape is lined with crepe de chine or crepe de bengale, which forms a soft puff about its edges.

The fox skin scarf shown at the right is a great favorite and is shown in many variations of this lovely, soft fur. It is simply the puff with tail line and the last row of smocking forms a narrow ruffle, lined with white satin. This provides the most graceful way for uniting bodice and skirt in one.

There is a certain knack in wearing the new scarves and capes. They do not adjust themselves certainly to the

figure and it is a good idea to study them and consider just how they may be most effectively worn.

Three Fashionable Neckpieces

Elastic Waistbands.

An adjustable waistband is now the correct thing to use in the making of the dress or blouse. So it has come about that on either side of the waist band of the ready-made frock triple pieces of elastic are inserted, each piece about half an inch wide. When the dress is worn the elastic draws sufficiently to fit the waist comfortably. This obviates the necessity for some one to make the garment fast better.

THE KITCHEN CABINET

Put through the grinder, nuts to make a half cupful when ground. Beat three eggs very light. Add the nut meal and pepper and mix well. Put the omelet pan on the stove and pour in the omelet mixture, lift the edge with a fork and turn over. Cook until it is firm all over, then fold and send to the table on a hot dish.

Unusual Cabbage Salad.—Shave or shred very fine one small firm head of cabbage, add a half cupful of chopped almonds that have been blanched, four or five ripe bananas also finely cut, mix with a cupful of sour cream, salt, pepper, and a dash of vinegar, if the cream is not sufficiently acid. Serve with crackers and cheese.

Different Dried Beef.—Put three tablespoons of bacon fat on a frying pan, and add a half pound of dried beef picked in small pieces or cut in shreds with the scissors. Fry for three minutes, then put the beef on a hot plate. Place three bananas cut in halves crosswise and in quarters lengthwise, let them stand over the heat long enough to become thoroughly hot, five minutes will be sufficient time. Arrange around the beef and serve all piping hot.

Chili Con Carne.—Take all the seeds from two pods of chili pepper. Soak the pods in warm water until soft, then scrape the pulp from the skins, discarding the seeds, saving the pulp and the water. Cut two pounds of round steak into small pieces and cook them in the frying pan in melted butter or sweet dripping until brown, and four tablespoons of flour and stir until the flour is brown, add a dash of garlic in which two onions have been cut, then the chili pulp and water, of which there should be a pint. Let simmer until the meat is tender, adding more water if not too hot. Season well. Soak a cupful of kidney or Mexican beans in salt water overnight. Let simmer until tender, drain and add to the meat, or they may be heated in a little hot fat and served in a dish apart from the meat.

The characters of all war depend upon the intelligence of the person who performs them.

The following dishes never lose their prestige, as they are choice and serve their popularity.

Chop Suey.—Cut up one pound of lean pork and chicken, one or both into very thin pieces and cook in a half inch length and a half inch wide. Sauté these in fresh pork oil, add the meat and have ready an equal amount of celery, cut fine, an onion cut in bits, and add the vegetables to the meat, cover the whole with chicken, veal broth or boiling water and simmer until tender. Then add a few peeled mushrooms, as few or many as taste or convenience places, which should be cooked in a little fat before adding to the mixture.

Just shown to his conversation with Chesterfield's courtesy and who sought to bestow a tip. "Thank you, but the boy scouts do not accept gratuities."

This particular boy scout was a lad of about twelve years. He had the appearance of a prince, a free American prince. The wonderful organization which is making him a prince is the Boy Scouts of America. He is teaching them many high things which are not taught in all homes, although they should be. He is teaching them to be self-reliant and self-respect, the boy scouts are taught the nobility of service.

BOYSCOUTS AS VETS ORDERLIES.

At the last annual encampment of the Grand Army of the Republic Commander William A. Patterson took occasion to thank the boy scouts for their many helpful acts. The scouts are now more numerous than the members of the Grand Army itself, and their services are daily appreciated by the old soldiers, especially during the winter in the large cities. It is touching to see the boys kneeling as guides and aides to the aged men, attending to baggage and conveyances and supplying at once any information.

They are also a great help in the traffic work. Scout Edward Meyer was a traffic officer. The city officials did this to give the scouts a practical knowledge of civic government. All performed their duties satisfactorily well. No doubt the parents spent a bad hour during this time of reversal of duty.

TRAGEDY WHERE COMEDY REIGNS

Reese Stolen From Chicago Theater Found Right Spot After All.

Three Detectives Work Several Days on Case, When They Find the Culprit—the Hat in Passed for Real Firearm.

Chicago—Felix who went to the La Salle theater the other night saw a comedy. Upstairs in the office of Nat Royer, the manager, a tragedy was being enacted.

Several days ago Royer received complaints from Joe Daly, property man, that artificial flowers used in one of the sets were being stolen. The flowers were not taken in large numbers. But every other day or so three or four were missing.

Three detectives worked on the case for a few days. The roses continued to disappear.

Then the detectives arrested Sophie Korah, a theater scrubwoman. When she confessed Royer questioned her and she told him that she had stolen the flowers.

POLLY'S INTRUSION

As Pearson sat on the little porch and sent circles of blue smoke into the soft night, snatches of gay talk, of laughter and of music came to him. Polly was at the old home once more. The little Polly who used to spring across the barbed wire fence that divided them and drop on the top step of the porch, breathless; the little audacious Polly who plucked her short skirt full of her violets without even a "by your leave," and climbed his cherry tree to toss his own cherries down to him.

Polly had wintered at a fashionable school in New York, had summered abroad, and, crossing again, had made her smiling entrance into a world that seemed vastly interested in her.

A little white-cloth figure came through the doorway, and she leaned on the barbed wire, a little plaintive voice called "Hello," saying, "Pearson took refuge in silence."

With a dash and flutter of feminine loquacity she was gone.

"That's still a barbed wire," Pearson called.

"Oh!" she chorused, "a barbed wire?" She spread across the space that intervened to drop on his top step in breathless silence.

"Was it that?" she demanded. "I've been home a whole day."

"No," said Pearson, calmly, "I don't mean to say you're not a barbed wire?" She spread across the space that intervened to drop on his top step in breathless silence.

"Was it that?" she demanded. "I've been home a whole day."

THE WINOGENESS OF JESUS

"The Wino-geness of Jesus" was the subject.
The kings of the earth, in public and private life, acknowledge the Divine Majesty of Jesus and how in worshipful homage to His name, and men of mind, the kings of thought, bring the tribute of their genius, in song and story, in science and art, in music and eloquence, and lay it at the feet of the Nazarene.
The popularity of Jesus was, in part, due to the fact that He was not born a son of privilege, but the child of the common people. He was probably poor. The gifts at the altar at the time of His nativity seem to testify that His father's family was not rich. But some argue that His raiment on the day of the crucifixion showed that He was well dressed. Yet He associated with the wealthy, and at His best in the rich man's house. Matthew, the publican, had a fine home and gave of his dinner to his Lord. Zacchaeus was a rich man, and the Master invited himself to be his guest. Mary and Martha, whom Jesus loved, enjoyed a large estate and made a great showing of professional mourners at the funeral of Lazarus, their brother. Nicodemus, a member of the Sanhedrin, and who voted "No" on the question of His death.
Jesus was a son of toil, a carpenter's son, and Himself a carpenter. At

His birth in the shop at Nazareth He gave eternal glory to labor. He was without the culture of the schools, and spoke no language but the Aramaic vernacular. The gospel record gives no intimation that He was at all acquainted with any of the literature of Greece and Rome. It is doubtful whether He could read Greek, though He seems to have quoted the Septuagint version of the Scriptures, but not hear that He was a classmate of Saul of Tarsus or ever sat at the feet of Gamaliel. "DO IT"

There's many a hard task to be done,
So do it.
Through failure, success may be won,
So do it.
Get on your feet and have a try,
But do it.
Take off your coat and have a try,
And do not ask the reason why,
But do it.
The useless on the scrap-heap lie,
So do it.
Unhonored and unused to die,
So do it.
The words "I can't" you must efface,
Incompetency is a disgrace,
Let "I will" fill the vacant place,
And do it.
Rely not on another's mind,
But do it.
Stand quite alone and you will find
You'll do it.
Determination must succeed,
A dogged will is all you need,
You'll then accomplish any deed,
So do it.
Like Bruce's spider, persevere
And do it.
Don't say, "The work is too severe,"
But do it.
No drones are wanted in life's hive,
And as you try so you will thrive
And prove your right to be alive,
So do it.

GREWSOME FOOT BALL LEGEND

Where did foot ball originate? Some people give ancient Chester, in England, credit for bringing the gray venter pastime into existence. There is a record of foot ball playing in that city in the year 1540, but Chesterians believe in a legend of much earlier date.

In the tenth century, it is said, a Dane was captured and beheaded by the citizens. Some one began kicking the head about the streets, and others followed, and it was discovered that this formed a new and decidedly fascinating sport.

Whenever possible, but as enemies heads became scarcer and the entertainment of kicking them more difficult to procure, it was at last arranged for the shoemakers yearly on Shrove Tuesday to deliver to the Mayor of Chester one ball of leather, called a foot ball, of the value of 2s. 4d. or above.

There is evidently a fine precedent for those concerned in the game "losing their heads"—Mail.

A village butcher, a big man, possessed a deep voice, and he was exercising it at the local concert by singing several unprepared encores.

"My!" exclaimed the innkeeper's wife, "hasn't he an extensive repertoire?"

"Well, I shouldn't like to say that," said the local drummer, "but he certainly is getting rather stout!"

PARENT TEACHERS' ASSOCIATION

ADDRESSED BY WESLEY A. O'LEARY

Acting Assistant Commissioner of Education

The regular monthly meeting of the Parent Teachers' Association was held in the high school auditorium on Tuesday evening, when approximately twenty-five members, through the kind cooperation of the school, were given a most interesting and profitable evening.

—Mrs. Nellie Weyman entertained a number of friends at luncheon on Monday at her home on Elm Terrace.

—Owing to the large number of boys having been granted a thorough over the Thanksgiving holidays from Camp Dix, the proposed entertainment for Saturday evening, which was to have been given in their honor and the plan to have a number of them entertain the community, was abandoned.

In this program will study, under Messrs. D. A. Read, Ralph Gibson, or C. W. Wagner, of Riverton, the committee in charge.

—The parents of Mr. Theodore D. Aubrey received a letter this week dated November 6, stating that he is now out of the trenches and is enjoying a repose in Lagny near Paris.

His remarks were interesting and educational throughout. He pointed out the importance of boys of fourteen years and over spending two or three years at some trade in connection with their school work, for as he stated, tradesmen would be in great demand after the war and the demand would be greater than the supply.

—New Jersey is one of the leading States affecting their attention to this work and the manufacturers throughout the State, being keenly interested, are defraying the expenses of young men while training.

In some cases vocational schools are doing constructive work.

Mr. O'Leary covered the value and importance of the agricultural department of the State and laid stress on the fact that boys should learn some trade before entering the stage of matrimony. The failure of this has been the cause of many a young man's downfall.

At the conclusion, Mr. O'Leary was heartily applauded and the business of the evening transacted.

After the minutes of the previous meeting, Vice-president Mrs. Edward Beeton, who attended the State meeting in Moorestown on November 9, reported that the State Association had voted for the purchase of a \$2000 ambulance equipped, to be sent to the boys in France.

Palmyra's apportionment was \$25, and upon a suggestion, an offering was taken and \$16.50 obtained on account toward the \$25. This, in connection with the \$12 now in the treasury and any small contributions from those that have not already given, the amount will be raised.

The meeting adjourned.

On a whole it was a well arranged meeting and one that will long be remembered.

People in other communities are vitally interested in these meetings and why not here? The committee in charge has arranged for good speakers and music for every month up until May 21. Show your appreciation by attending the next meeting on December 15.

DANCES FOR RED CROSS

ARE WELL ATTENDED

From \$80 to \$85 Added to Fund for

Palmyra Branch

Through the ardent work and efforts extended by Mr. Jacob Warner and Miss Elizabeth Lewis, combined with the response to their call by the people of Palmyra, the two dances held on Saturday evening last added from \$80 to \$85, as near as can be ascertained at present, to the funds of the Palmyra Branch of American Red Cross.

Mr. Warner was responsible for the amount of \$75 to \$80 as the result of the dance held in P. O. S. of A. Building, which was attended by the presentation speeches and delivered not only received pleasure from the fact that they enjoyed the festive of the occasion, but also they were helping this good cause.

While this dance was being held, Miss Elizabeth Lewis was conducting one at her home on Lincoln avenue, which was attended by eleven couples of the younger set and \$50 was realized, the same spirit being emphasized as that of the larger dance, only on a smaller scale.

France, Belgium, Italy and many other countries receive refugees and repatriates, who have earth under them and sky over their heads and the American Red Cross is a friend to all. Under these circumstances they look to the Red Cross for everything that makes for comfort and cheer.

public camp, is detained, a square player and a peacemaker. She is a woman who holds in next meeting, at Delanco, and a last from No. 33 should attend. Several matters affecting interests of the 10th will be considered during the month of December. The meeting will be made. Disposition held December 31.

More constructive work will be done in the month of January.

Next Tuesday will be monthly matters meeting.

It is to be hoped that we if it were possible at this Christmaseve announce "Peace Reigneth." The horrors of war are described in the many letters descriptive of the intense suffering of mankind one tells of the entire population of the city of Calcutta, India, facing starvation, another of the devastated sections of France with no other food than the few scraps of 1000 Belgian children between four and thirteen years sick and orphaned and for home and home life. As soon as the membership cards of persons having recently joined the local branch are received from Washington they will be distributed.

The United States of Red Cross throughout the members will be asked to place a Red Cross emblem in their window Christmas night and arrange for its illumination in honor of the close of the drive for 15,000,000 members.

A large bundle containing, awn-ers, scarfs, socks and wristlets was conveyed to headquarters this week. A consignment of wool has been re-ceived and ready for distribution by the knitting department.

A sewing machine has been loaned by Mrs. William F. Letford, an additional one by Mrs. M. W. Wisham. If the work increases it may be necessary to call for others.

Thanks are extended to all persons loaning their automobiles for use in Red Cross work.

There is nothing like knowing how to do a thing unless it is the faculty of getting along with you when you know how.

—Mr. J. D. Clark is chairman of the community in charge of the Red Cross drive to take place next week when he expects to increase the membership from 500 to 1000 members by December 25.

Edward, infant son of Mr. and Mrs. Thomas Moore, of Linds, gave birth to a son, on the morning of Wednesday after undergoing a critical operation; he is improving and recovering.

Mrs. Sarah Jane Shanks, Mrs. Herbert Brown and daughter and Mr. Tony Trench, of New York, were here and spent Thanksgiving with Dr. and Mrs. J. M. Brown and Mr. and Mrs. Louis Flanagan, on their return home. Mrs. Wynnia accompanied them.

The Misses F. E. Adams and G. D. Richter, of Philadelphia, were guests, Mrs. H. E. Brown, of Seventh street, and Mrs. J. M. Brown.

Mrs. Rex, Howell and Miss Ella Wright gave a "luncheon" at "Mills" on the 12th inst. for the benefit of the honor of Miss Gertrude Shanks, whose marriage to Mr. Earl Kline, of Melrose Park, was celebrated.

At the time of the robbery, Andrews was with his wife and three children at their home on Main street. Andrews' wife, Mrs. Mary Andrews, was at the time of the robbery, at her sister in law, Mrs. C. M. Carmel, for an extended stay.

At the time the robbery occurred, Andrews entertained a number of her friends at a house party last week-end at her home on Main street.

The Massachusetts packages that were distributed to the boys at Camp Dix on Thanksgiving by the Riverbton branch of the American Red Cross, was the source of much credit to the city.

At present to those who were of our generation in the past, the robbery of the city is a thing of the past.

From home, have not enjoyed mine coming into Camp. The Riverbton Branch is now taking preparations to repeat the robbery of the city.
