

MAY

THE WEEKLY NEWS

PUBLISHED WEEKLY BY
L. W. Perkins & J. J. Sleeper,
Editors and Publishers.
Terms: \$100 per Year, in Advance.
SATURDAY, MAY 21, 1905.

Twenty states of the Union now observe Arbor Day. Massachusetts falls into line a few weeks ago.

The Evening Mercury of Portland, suspended publication, on Saturday, after an existence of nearly two months.

Evangelist Moody proposes to build a training school, in Chicago, for the education of female missionaries for "local application," and \$250,000 has been subscribed for the purpose.

The Commissioners of Harlem Park, Baltimore, have made a mistake in hugging a mile-wide, the penalty being a fine, from \$5 to \$25. Some of the Baltimore girls are now risking it for.

Earthquakes which reveal veins of gold in the mountains of Mexico, in the recent "quake" in Mexico, will become more popular than the old style which brought general destruction, without any compensating advantages.

There will probably be a movement made by the Board of Freeholders to ascertain why all the Justices of the Peace of this county combined have turned over to the County Collector during the past year but \$25 in fines.

It is high time the pugilistic ministers of Camden and Philadelphia, cooled down, or else they will disgrace their cloth, if they have not already. It is enough to make a conscientious Christian hide his face in his hands at the threats and blarney in the daily papers.

JACK SHARP, the king of the board, was brought up for trial in the New York County, on Monday morning, on a charge of alleged bribery giving. Sharp and his co-defendants, Kerr, Foshay and Richmond, are under twenty-one indictments for bribery and on the bribery of the former Grand Jury, is the specific charge upon which the "King" is to be tried.

BROTHER GLENNON, of the Burlington Gazette has secured the new business location, No. 3 East Broad street, in the Rogers' Building and will take possession as soon as the necessary repairs are made. The new cylinder press will be run by steam, and the Gazette can boast of a first class office. We trust the editor will so largely increase the editor's bank account that he may retire from active labor in a few years.

AND now we have another railroad rumor. It is said that the Pennsylvania Railroad have in prospect the erection of a bridge to cross the Delaware at Bristol to Burlington Island and then to connect with the Mount Holly Railroad. This will give a new route to the seaboard by the way of the Whiting's, Seaside Park, Berkeley, &c. This would avoid the ferries at Camden and would not add much to the distance, and in the long distance along the shore can be made in a very short time. This ought to make fare and freight by this route much less than they are at the present time.

The Department of Agriculture, at Washington, has issued the following card: "The Forestry Division of the Department of Agriculture, in Washington desires to be informed about the interest and success with which Arbor Day has been observed this year in New Jersey. The division will be gratified if some one in each town will send an account of the manner in which the day was observed, the number and kind of trees planted, and any other facts of interest in connection with the celebration. Address: Forestry Division, Department of Agriculture, Washington, D. C."

The following from the Evening Reporter express our sentiments to the letter:

Barbed wire fences, as we have always contended, are barbarous inventions. They are cruel to the degree that should induce the Legislature at its next session to enact a prohibitory law in regard to them. They mark the land for purposes that is not reached by the unbarbed wire, while they do frequently cause the maiming of dumb animals that have a right to legal protection. Wire fences are good thing in themselves, but they should not be barbed. It is astonishing to the society to prevent cruelty to animals, they may not be able to work to have Legislative action taken regarding the use of this kind of fence.

VENUS AND SATURN

An interesting astronomical phenomenon occurs on the 20th instant, viz: the conjunction of the above planets, at midnight of the 20th and 30th, Saturn passing about 2 degrees South of Venus. Venus has been visible for several months, at the rate of 11 seconds in space every hour. Their right Ascension of the three days are as follows:

VENUS. SATURN.
May 20. 11h 30m. 11h 30m.
May 21. 11h 30m. 11h 30m.
May 22. 11h 30m. 11h 30m.

BRIDGING THE DELAWARE.

It is generally rumored that the Pennsylvania Railroad will erect a bridge across the Delaware River, connecting Bristol and Burlington, for the purpose of improving the route to Long Branch. At the present time, the new Long Branch route starts from Camden, going to the shore by the way of Mount Holly. The ferries to Camden are charged heavily with passenger traffic to Atlantic City. Cape May and suburban places, so that the Board of Freeholders, considering some scheme of relieving the ferry by making a change of the route to Long Branch.

At the annual meeting of the stockholders of the Camden and Burlington Railway Company at Mount Holly, Saturday, the following directors were elected: Directors: John Ash, Richard C. Shreve, John Ash, William G. Gatzert, Richard C. Shreve, Edmund Smith, Joseph W. Barry, Clifford Stanley Smith, Jr., Du Barry Wilson, Wm. L. Sewell, Wm. S. Taylor, Joseph H. Gaskill, Wm. N. Ballard. At a subsequent meeting of the stockholders, the new route from Camden to Long Branch is shorter and pleasanter than the old one, and by the arrangement proposed the travel would be largely increased on account of the close connections that could be made with all points of the main line to the Baltimore and Washington branch and suburban towns near Philadelphia.

The current report charged the color of the fact that the Burlington and Mount Holly Railroad is to be built, and that the new route from Camden to Long Branch is shorter and pleasanter than the old one, and by the arrangement proposed the travel would be largely increased on account of the close connections that could be made with all points of the main line to the Baltimore and Washington branch and suburban towns near Philadelphia.

The people of Philadelphia and Bristol have been agitating the building of a bridge for years, it having been agreed that direct communication between the two towns would be mutually advantageous. Several old engineers who have taken some interest in the new route claim that it will maintain the distance between Camden, Beverly, Burlington and Trenton shorter by at least four miles.

WASHINGTON LETTER.

WASHINGTON, May 16, 1887.

The past week was full of interest to the people of Philadelphia as well as to the hundreds of strangers who came to the city for the purpose of seeing the new bridge. It may be said that there were four national conventions. First came the 25th annual convention of the Philadelphia (Horse Street Station) at 10:00 a. m. The convention was held at the hotel, and the speakers were: Richard C. Shreve, John Ash, William G. Gatzert, Richard C. Shreve, Edmund Smith, Joseph W. Barry, Clifford Stanley Smith, Jr., Du Barry Wilson, Wm. L. Sewell, Wm. S. Taylor, Joseph H. Gaskill, Wm. N. Ballard.

Beverly.

Superintendent Pettit has laid out a fine garden bed, at the Soldiers' Cemetery.

William Maris, Jr., has sold his yacht "Vert" to J. W. Everich, of Burlington.

The opening game of ball on the grounds of the Beverly Athletic Association will be played this Saturday afternoon. The club of Philadelphia, the "Viola" club, of Philadelphia, will play the team from the grounds of the Beverly Athletic Association. A plank stand dinner hall, and then tennis of incidents, and the following of the Beverly Athletic Association will be played this Saturday afternoon. The club of Philadelphia, the "Viola" club, of Philadelphia, will play the team from the grounds of the Beverly Athletic Association.

On last Friday, the President Cleveland for the first time in his life, made a pilgrimage to the city of Washington. It was at the invitation of the widow of Gen. Logan, who is now being held in the city of Washington. The President, Mrs. Cleveland and about a dozen other invited guests, left the White House at 10:00 a. m. and arrived in Washington at 1:00 p. m. The President, Mrs. Cleveland and about a dozen other invited guests, left the White House at 10:00 a. m. and arrived in Washington at 1:00 p. m. Is Life Worth Living?
"Is life worth living?" Ask of him
Who has been through the mill.

THE LITTLE FIGURE IN GRAY.

BY CLIFTON L. LEWIS.

Two pretty little girls, the least we
bit of a nest, nestled beneath
the lace edging of a snow-white petti-

"Man is the creature of habit," said
the next day looking across the
street as before he beheld the same
little figure. Day after day it con-

One morning, our hero, for so we
must call her, was crossing as usual
when suddenly every eye was started.

Down the street came the huge en-
gine, the bell clanging, the smoke from
the huge funnel like black trailing

Of all except one, the little figure
in gray, there in the centre of the
tracks a bewildered and frightened look

Down came the terrible horse, the
breath from his nostrils puffed the
smoke upon the lamp air. On, on, he

Glancing across our hero's face
he saw the face of her whom he had
raked his life to save. She immediately

It was due time that George Delmore
was a constant visitor at the home of Irene's
widowed mother.

Last winter while the fields lay
covered with snow, and the streets lay
frozen, Jack Frost, here in the frozen North, a gentle-
