## FOOD FOR THOUGHT.

It costs more for a dull merchant to dust off his goods than it would to advertise and sell them. BUCK LOMBARD.

We understand the township committee are considering whether it will be advisable to put the policemen on a month earlier this year, as ordered at town meeting, owing to the lessened income this year, but we note that there is a way to find funds to gravel quite a stretch of road—very by Clayton Couvers, in the back district.

A LARGE number of those who were in favor of the new sidewalks for Palmyra did not attend the meeting to vote for it, as they supposed there would be no objection to such a necessary improvement. But doubtless all those who objected to this advance towards better things for our town, were out and recorded their opposition.

MRS. PORTER, of Berkley Hall school desires us to assure her patrons and the public that they are very careful to provide against contagious diseases. Careful inquiry is made whenever any scholar, or one in any family is sick, and if there is any intimation that the disease is contagious, they are excluded from the school until all danger is past.

At the meeting of the township committee on Monday the report of the meeting voting side walks for Palmyra (side walk district No. 1) was received and the clerk was ordered to advertise for proposals to do the work. See adv. elsewhere. It is proposed to put three layers of stone, the first to be of 1 1/2 inch stone, the second of 2 inches of 3-4 in. stone and the last of 1-2 inch of crushed stone.

Will Dr. Janney, Chas. Parry & Co. who argue (?) that towns receive more benefit from the stone roads than the county, guarantee that our groceries, coal, etc., will not cost the consumer as much as with our present roads? Strange to say, our town's people who own horses think the additional taxation if our township would be saddled with the whole cost, would more than balance the benefits. Bounding the township to build stone roads is now a back number as an equitable law has provided a way by which the board of freeholders have the power to build them.

## SYNOPSIS OF A SERMON

Preached last Sunday night by Rev. Dr. Fenton in Christ Church, Palmyra, from Phil. iii, 13: "Reaching forth unto those things which are before."

After calling attention to St. Paul's earnest and zealous efforts to perfect himself by a complete subjugation of all that interfered with his spiritual development, the marvelous success of his ministry was described, and the preacher showed that his religious growth and spiritual power were secured by continually reaching forth for those things which are before. After alluding to some skeptical teachings he said error is often simply distorted truth—truth as badly warped and perverted as to lose all the appearance of truth. Reaching forth is not being like St. Paul, but having a higher standard for ourselves. We cannot all rise to the same level of sanctity. No one should be discouraged on account of the seemingly unattainable standards of christian living. Many difficult things have been made easy by a constant determination, and other things may be accomplished by reaching forth. We must rise to a higher and more complete conception of duty, something beyond what we have at present. God will give to all a power to become better than they are. We have different capacities for receiving truth and different opportunities for living up to it. One person, for instance, may be blessed with a natural aptitude for living a holy life, surrounded by Christian influences, and with a heart full of love and tenderness, and imagination naturally directing itself toward that which is pure and elevating. Another may commence the Christian life with obstacles on every side, having an evil temper, possessing strong passions, without the gentle restraint inherent in cultured refinement, and chastened elevated desires, and yet the latter may be following out the spirit of the text more consistently than the who rests satisfied with a fair proportion of sanctity. The humble engineer may be trying to do right. In the midst of many failings and few successes he will grow to loathe his besetting sins the more he falls a victim to them. The weak, struggling soul may have made more honest effort to conquer than the other and made more progress too, in proportion, when we take into consideration the points from which they started and the relative heights to which they have arrived.

The reaching forth then is for each one to have his eyes upon a higher spot towards which his next efforts must be directed and yet the standard is the same, only seen from different

The organ in Christ Church is being moved. Send in your subscriptions to this fund at once, by so doing you can show your appreciation of the noble work of Mr. M. M. Reese, who has been the volunteer organist for fifteen years. Think of that! Fifteen years of free service in Summer and Winter! Surely his good work must be rewarded!

A few warm days at this season of the year make a wonderful difference in the appearance of the country. Although every year nature asserts herself in the same way one never tires of watching the change and it has a charm that is ever new and fresh.

The New Jersey Protestant Episcopal Convention on Wednesday adjourned in Camden after transacting considerable business. An assessment of two and one-half per cent. was made on the parishes to pay the expenses of the convention. The suggestion made by the committee to increase the Bishop's salary \$800, making it \$4500, was unanimously adopted. The increase was a surprise to Bishop Scarborough, and he spoke very feelingly about the matter.

## Y. M. C. A.

We would all earnest attention to the lecture to be given on Thursday evening, May 12 at the rooms, by Mr. James W. King, the talented young city editor of the Philadelphia Press.

The Public Ledger spoke of Mr. King in a recent issue as "The rising young orator from the ranks of newspaper men." A pleasant evening is promised.

The proceeds are also in a good cause, that of replenishing the library of the Y. M. C. A. Donations of bound magazines and books of travel and history are requested and could be

brought without trouble on the night of the lecture.

Rev. Geo. H. Neal, pastor of the Methodist Church will address the men's meeting at 4 p. m. on Sunday. A quartette from Calvary Presbyterian Church will sing. Make it a point to be present.

The following Princeton students have been secured to address our meetings: Mr. D. C. Wood, half back on 92 foot ball team, on May 5th; Mr. Nicely, May 22d; Mr. MacGaffin, who has studied at Moody's Northfield school, May 28th. These are all good men.

## WASHINGTON LETTER.

From our Regular Correspondent. WASHINGTON, May 2d, 1892.

President Harrison's friends profess to believe that he will be nominated again with practically no opposition but their acts are not altogether in keeping with their professions of belief, as the minister said of the brother with backsliding convictions. It is significant that just as the talk of nomination of Mr. Blaine without his consent began again to assume gigantic proportions, ex-Poetmaster General Frank Hutton should have begun in the Washington Post an editorial crusade against Mr. Blaine for having agreed to the arbitration of the Behring Sea question. Mr. Hutton, who is claiming to edit a strictly independent paper, has frequently been made the mouthpiece of the injudicious friends of President Harrison who believe that abuse of Mr. Blaine helps Mr. Harrison.

Without endorsing the claims of either gentleman or caring the value of a bare match whether either of them shall be nominated by their party for President, it may be remarked that so far as the Behring Sea matter is concerned it is difficult for unprejudiced eyes to see the sense in blaming one and praising the other when they both occupied precisely the same position. Either they are both entitled to praise for agreeing to arbitration, or they are both deserving of censure for it. There can be no division, and for Mr. Harrison to attempt to saddle blame upon Mr. Blaine, while praising Mr. Harrison, in this connection, is but to place on exhibition the prejudice that everyone knows he has against Mr. Blaine.

While everybody concedes the ability of Mr. T. Jefferson Coolidge, of Boston, who has been nominated by Whitehead Reid as Minister to France, and the Republican brethren are disposed to grumble at the appointment, because Mr. Coolidge has only been a Republican since Mr. Cleveland's famous tariff message was sent to Congress. Previous to that time he was a leading Democrat, as his own record in Massachusetts shows.

Members of the House are thinking so much more about securing a renomination than about transacting the business for which they are paid that it is extremely difficult to get a quorum to either on the floor of the House, and seemingly impossible to keep it together a week at a time. The Republicans, of course, lay all the blame on the Democrats; as that party has a membership of sixty odd more than a quorum in the House, it will not be strange if the public agrees in holding it responsible for the present legislative situation, which will inevitably result in much hurried and consequently bad legislation at the end of the session.

There is much common sense in the proposition of Representative Bailey, of Texas, to "do it" the members of Congress for the time they are absent, but there is even the slightest probability that Congress will see in that light. The majority of the present House are ready to cut down any thing but their own requisites, and in this last respect they do not differ from the majority of any house which preceded it.

Representative Cummings, of New York, who is a Tammany democrat, put a new phrase on the cutting down of salaries and the consolidation in the diplomatic and consular appropriation bill, now under consideration by the House when he said: "I want to rebuke this parsimony. It means really virtually legislating in favor of the rich against the poor. For by reducing the salaries of ministers and consuls, the offices are placed in the hands

## NOTICE.

Proposals, per Lineal foot, will be received at the Office of Howard Parry, Township Clerk, Riverton, N. J., until 8 o'clock a. m., May 15th, 1892, for furnishing all material and labor to construct at 60,000 feet of crushed blue-stone sidewalks four (4) feet wide and four (4) inches thick in a thoroughly workman-like manner. The township Committee reserves the privilege of rejecting any or all bids. (Signed) HOWARD PARRY, Clerk of Cinnaminson township.

## PHILADELPHIA.

May 2, 1892.

Yachting days and woodsey walks and seaside saunterings are not far away. Have you a notion what pretty patterns for the Outing Dress may be yours at 12 1/2c the yard? Troops and troops of Yachting Clothes and Flannelettes are romping out to that music.

Two notably good Outing Cotton Dress Stuffs that have been 12 1/2c go to 10c. We believe them the best in America at the price. Excellent quality and colors dark enough not to show every smirch.

It is to be a betwixt and between Dress—one right for the market trip or the picnic or the lounge-about time? Here just the stuff you'll welcome for it. Flannelly to look at, Flannelly to touch, good weight, and in six of just the quiet colorings that fit in for anybody. 20 a yard, say you? No. 12 1/2c.

Cunard and Galatea—those sturdy, striking Cotton Stuffs—are going into some of the jauntiest Outing Suits of the season. Children's Dresses, too, as before. Galatea, 30c; Cunard, 35c.

A Cotton Bedford Cord just as dressy and durable, is doing duty in the same way. 30 inches, 45c. Several colors.

Two dreams in color printing join the 18c Callis jubilee through. Wreaths, sprays and twiny-viny twists in designs as artistic as the cutting of a cameo. Seven color work! that is seven printings to bring out the full beauty of the picture—and all on an 18c Challis! Make fifty other designs as daintily delicate.

But this is only the bottom round of the Challis ladder—the top is in the ethereal elegance of the ravishing French printed styles at 60c. The stuff itself a fairy-like fabric of foaminess. Ali wool, silky wool, woven as only those deft loom-artists over-sea have yet been able to do it and printed with the skill that has made Mulhouse famous the world over. Words are weak to tell of such loveliness. You must see to fully sense.

Some of the less elaborate Challis patterns (precisely the same quality as the best) are marked at 37 1/2c.

Have you seen the new Cotton Dress Goods, Riga Cloth? The combination of weaving differs from any other fabric you ever saw. The printing is dainty and elegant and it's done right here in the suburbs of Philadelphia. 30 inches, 25c.

## Success in Filling Mail Orders.

like success in selling goods over the counters, is due to thorough organization, skilled clerks, and careful attention to the wishes of the buyer.

The same effort to give satisfaction is made in the one case as in the other, and should goods fail to be just what is wanted, they can be returned, and others will be promptly sent.

As the result of such methods, our Mail Order Department has reached its present dimensions, and is constantly growing greater and more comprehensive.

We solicit the patronage of shoppers by mail, having full confidence in our power to give satisfaction.

## THE WONDERFUL

## "New Process"

The ONLY Vapor Stove.

A stove that lights like gas! A stove that makes no noise or smell! A safe stove! An economical stove! A stove requiring no skill to operate it! A stove that never gets out of order! A stove that pleases the user, satisfies the dealer, and stands sold! The stove that has revolutionized the Vapor Stove business! Needle valves beyond the reach of children. The reservoir is readily lifted from the stove—cannot be filled while the flames are burning.

Be up with the Times!

Don't make any mistake with theoretical, untried experiments, but buy the article which time and thousands of tests have proven to be an unqualified success.

Don't buy an old style, complicated and "generating" stove—under a "new" name. If you have one you can't afford to keep it. The "New Process" is what you want.

The fluid drops, drop by drop (never runs), upon a brass evaporator, mixes with and carburets a current of air, descends the supply pipe to the burner, where it lights like gas. How simple! and yet that's all there is of it. All parts are made interchangeable, are readily detached and can be replaced.

Many of our readers are much opposed to the noisy sparrows, but do not know how to get rid of them. The following item from an exchange suggests one way out of the difficulty: Amzi Merring had a large flock of sparrows around his barn and succeeded in killing off all except nine, when he soaked buckwheat in salt brine and placed it under a place where it was protected from the storm and heat, but where the sparrows could reach it. The result is that only one sparrow remains. These pests carry off bushels of grain during the winter season, besides driving away song birds, and Mr. Merring believes it to the advantage of farmers to know how they can be prevented from overrunning the country.

## The Dardanells

is perhaps the most important water passage in the world, politically. It is the channel which joins the sea of Marmora and indirectly the Black sea with the Grecian Archipelago, a d o with the Mediterranean and the Atlantic beyond. It is forty seven miles in length and one to four miles in width, and is under the control of the Sultan of Turkey. It is strongly fortified on both sides. It is the portal of Constantinople, and for centuries it has had a great military and political importance and the extensive fortifications on either side of the Dardanells are necessary for Turkey's own protection.

### FOOD FOR THOUGHT.

Any school boy can ask questions that a ten volume encyclopedia can't answer.

ANON.

At the meeting in the Riverton school house on Tuesday evening, held to consider improved local government, the affair was: greatly a topic of the country district was sharply criticized by several speakers and was roundly applauded by the audience. This shows that the people of Palmyra coincide with the people of Palmyra in their desire that the taxes be returned in improvements where they originate.

Mr. Edward Dudley, of Camden, has critically examined the laws under which boroughs and townships are governed, and informs us that the township committee has power to make all the local improvements that a borough council has, and is much the simpler and more economical form of government. He was personally interested in the recent division of Stockton township and aided in the formation of a new township for Cramer Hill and adjacent villages rather than a city of the third class or a borough. He said that the formation of boroughs has always increased the tax rate and usually the assessed valuation as well. He cited the case of a property in Merchantville, which cost \$6000 and was assessed at \$7500. He also stated that certain property in Merchantville pays fifty times as much tax, including the higher assessment and tax rate, as similar adjoining property in another township. He said that it was a general complaint throughout the state that the farming element opposed improvements in the villages, the same as we encounter in Cinnaminson, and he suggested the formation of a new township to include Riverton and Palmyra as the best solution of the question. We also had an interview with one of the borough trustees of Riverton. He concluded with Mr. Dudley, that taxes were usually higher under a borough government than in a township. He advised Riverton and Palmyra to form a new township rather than a borough, but if they could not have a new township as proposed he would advise a borough.

### RIVERTON.

Hon. and Mrs. Ad. Clay are visiting their daughter in New York.

New England tally at Cowperthwaite.

The Gun Club Season is nearly over.

Chas. W. Davis was here last Sunday.

Mr. M. M. Reese is in Detroit on business.

Anna, the sweet little daughter of Squire Out, is quite ill.

Mr. Samuel McCabe, of Philadelphia, has rented one of Mr. Hans' houses on Lippincott avenue.

Barber Wolfescheidt has been temporarily located in Price's building owing to sickness in his home.

The alterations being made in Mr. W. J. McIlhenny's house makes a decided improvement.

Extensive alterations and additions have been made in Mr. Frishmuth's house on the river bank.

The Ancient Order of Heberians gave a ball in Robert's hall on Wednesday evening.

Mrs. Brown has had the sidewalks about her home, Broad and Lippincott streets, repaved.

Mr. Dudley, that taxes were usually higher under a borough government than in a township. He advised Riverton and Palmyra to form a new township rather than a borough, but if they could not have a new township as proposed he would advise a borough.

THE committee to consider the best form of government for Riverton will have some months for the consideration of the matter, and we suggest that a committee from Palmyra be selected to confer with them, as what is good for Riverton will be equally desirable for Palmyra. We believe the best interests of both places will be secured by united efforts.

WE have received an advertisement from some travelers who claim to be professional men, who will be in our town next week for the purpose of getting all the money they can and leave as little as possible.

This gives us occasion to say that we frequently decline advertisements from outside parties, as this paper is devoted to home interest, and we unhesitatingly commend our own home professional as well as business men in preference to any other. We caution every one to be careful how they allow people to operate on their eyes, ears or teeth, as irreparable injury may be done by cheap people.

A LETTER from Dr. Marcy, the secretary of the Board of Health, will be found in another column. It should dispel any fear which the scandal monger may have created in reference to the health of our town. The majority of our residents are intelligent people and recognize the necessity of keeping their children in until fully assured that they will not communicate the disease to others.

To the Editor of the News:

Permit me through the medium of your paper to say a few words, in relation to the recent scarlet fever scare. Since I have been practicing in Palmyra, some over 10 years, we have had reported every year, and sometimes twice in a year, epidemics of scarlet fever, diphtheria, measles, and yet during that time I have never seen anything approaching an epidemic of either of these diseases in my practice, nor do I believe that they ever have been epidemic during that time. There are occasional cases of these diseases at various times, and occasionally there have been a number of children sick at the same time, and with the same disease, but nothing like an epidemic.

The effect of these exaggerated reports of sickness has a very unfavorable effect upon the growth of our village, to say nothing of the discomfort and anxiety it occasions to those who already live among us.

It is hard to tell just who are responsible for these exaggerated reports, but certain it is, that there is not, nor has there been any foundation in fact for such a scare.

Still further, let me say that there is no reason why people should be so terribly frightened on hearing of scarlet fever or diphtheria in the village, or in the vast majority of cases, the disease is mild and runs a favorable course, if properly managed.

Of course either disease is to be dreaded, and every effort should be made to prevent its spread from one child to another, but there need never be any fear of the disease becoming epidemic in such a healthy neighborhood as this, if each individual case is properly cared for.

Scarletina and scarlet fever are one and the same disease, and just a mucous membrane should be given to the one as the other. The State Board of Health has issued a circular giving some useful information concerning the management and care of contagious disease, and I should be glad to distribute them to such of our people as may wish them. Very truly yours,

ALEX. MARCY,  
Secretary.

### MEMORIAL DAY IN PALMYRA.

As preparations are being made in all parts of the United States for the proper observance of the day, to be observed on the occasion of the death of the brave soldiers of our country, who died in the defense of their country, the undersigned desires to give timely notice to the patriotic citizens of Palmyra that it will be utterly impossible for him to take charge of the Decoration Ceremonies on the coming May 30th. He has successfully conducted them for the last ten (10) years, he is perfectly satisfied to be placed on the retired list.

Some people are bitterly opposed to playing with the country and have advanced the borough idea, which was successful at the meeting on Tuesday night. We are informed that there was a scheme on foot to defeat the borough endorsement that night and then spring a motion on the meeting for a division of the township to cut off Palmyra, but it was not successful.

### FENTON-BUTLER.

BRILLIANT CHURCH WEDDING AT ST. JOHN.

"St. John's Episcopal Church was the scene of a brilliant wedding yesterday afternoon at 5 o'clock, when Miss Elizabeth Butler, daughter of Mr. and Mrs. Thomas Butler of this city, was married to Rev. John F. Fenton, Ph. D. rector of the Christ Episcopal Church of Palmyra, New Jersey, son of Mr. and Mrs. John Fenton of Trenton, N. J. The ceremony was performed by Rev. Francis G. Burgess, rector of the church, in the presence of about three hundred relatives and friends of the contracting parties.

The wedding procession moved up the centre aisle from the vestry, J. Vernon Butler, brother of the bride, presiding at the organ and playing the beautiful "Bridal Song" of Wagner.

The procession was composed of the ushers, Messrs John Kendall, John E. Morse and George E. Rix, all of Worcester, and Walter H. Stimpson of Boston, followed by the bridesmaids, Miss Annie Butler, sister of the bride, and Miss Amy Fenton of Trenton, N. J., sister of the groom. Master Theodore Butler, brother of the bride, was page and little Miss Marguerite Reed, daughter of Fred E. Reed of Worcester, was the maid of honor. They were followed by the bride, leaning on the arm of her father. At the church rail, the party, with the exception of the ushers, ascended to the altar platform, where the groom and the best man, George Ley Butler, brother of the bride, and the rector, Mr. Burgess, were standing.

During the ceremony, selections from Robins were played upon the organ by J. Vernon Butler.

The party left the church to the music of Mendelssohn's wedding march. The bride was becomingly attired in a handsome gown of white silk crepe, trimmed with silk blonde lace. She wore a full bridal veil, and at her neck was pinned a handsome cluster of diamonds, set in gold, the gift of the groom. She wore an elaborate train, presented to her by Bishop and Mrs. Scarborough of the diocese of New Jersey, and carried a large bunch of handsome brides roses tied with white ribbon.

The bridesmaids wore gowns of cream white silk, trimmed with lace. A reception was held at the residence of the bride's parents, 4 Charlotte street from 6 to 8 o'clock.

The house was decorated with palms, amylax and bowls of roses.

Among those present at the wedding and reception were: Rev. Mr. Wainwright, grand vicar of the diocese, Bishop Wainwright of Mauch Chunk, Pa.; Rev. Mr. Hazard of Boston; Rev. N. Livingstone, of New York City; Rev. Dr. Fenton is a very promising young clergyman. He graduated from Princeton College, standing second in a class of 80, receiving the degree of B. D. He then entered the General Theological Seminary, of New York City, where he received the degree of B. D. He took a special course in divinity at Columbia College, where his Ph. D. was received.—Worcester Daily Sp.

### THE BOROUGH MEETING.

The meeting to hear the report of the committee which had been considering the advisability of forming a separate government for Riverton, was held in the school house on Tuesday evening, Mr. E. H. Ogden acting as chairman. There were about seventy persons present. The committee reported against the adoption of either the borough or the village act in their present shape. They advised that a committee be appointed to offer amendments to the borough act, at the next legislative session.

An opinion was read from lawyer P. S. Sovell, of Camden, in which it was stated that the borough act was unsatisfactory. After much discussion regarding the merits of borough and township government and some sharp criticism of our present township committee, on motion of Mr. J. C. W. Frishmuth, the meeting voted in favor of a borough with the amendments as proposed by the committee. On motion the same committee was appointed to present the proposed amendments to the legislature. It was explained that the general tone of the discussion did in no way bind the voters to adopt the borough act even if the legislature made the desired changes. As many present desired to see if the improvements wanted could not be secured through the present form of government. The general tone of the discussion was to the effect that either a new township should be formed or the amended borough act accepted.

### BIRCH, of Burlington, N. J., is a Benefactor.

Because he has built and sold more Carriages, Harnesses and Saddles than 25 years than all the rest of the carriage builders in New Jersey added together. Many a carriage maker has lived and died and felt under obligations to the community for their patronage to allow him to exist. Birch does not acknowledge it in the way, he knows it would be utterly impossible to run America without his kind of Carriages and Harnesses. People can get along very smoothly without a \$400 buggy of Brewster's make. Birch has developed the Carriage and Harness business to such a point this year that it is folly to pay extravagant prices.

### STATE NEWS.

While the Barnum Circus procession was passing along Broad street, Newark, on Wednesday, a painter at work on a window on the third story of the State Bank building dropped his pail of cream colored paint, delaying about fifty people crowded on the sidewalk, and ruining many dresses of women.

A Western Union lineman named "hammers" was sent to repair a wire near Salem, which was so much as to be in danger of being caught in a trap passing under. While at work upon the pole a freight train passed under and Chambers was thrown down and under the cars and killed instantly.

The Lawrenceville schools have been closed on account of the prevalence of diphtheria, owing, it is supposed, to the breaking down of the wall of a sewer near the buildings.

Burglars entered the station at Riverton on Monday night and got a small sum of money.

Lizzie Farrell, a servant girl, was murdered and assaulted and hurt at Red Bank, Monmouth county, last Thursday night. Her assailant is still at large.

Dr. Enoch Fithian, residing at Greenwich, celebrated his 100th birthday on Tuesday. He is a bachelor. Several family groups paid him a visit, representing three or four generations each. His health is still good and he is engaged in light work.

H. W. Parker, of Burlington, who left town very suddenly some months ago, it was charged had left sundry unpaid bills and forged notes behind him. He has been arrested at St. Mary's, Canada, and brought back. Horace L. Aaronson has been arrested for connection with the matter and Parker testified at his examination that he had seen Aaronson sign the notes. Both men are held for court.

The Plumsted township, Burlington county, committee has issued a notice that all persons who poll tax is unpaid by May 1st will be arrested and locked up in the county jail until a settlement is made.

An organized band of thieves is operating in the vicinity of Mount Holly and Rancocas, and steal horses, sets of harness, blankets, whips, carriages, etc., have been stealing lately, mostly in the early part of the evening.

The contest over the will of wealthy Henry J. Deacon, of Mount Holly, has been settled by all the legates, except the widow and daughter, relinquishing their claims.

Mrs. Franklin Leonard Paine, wife of a well known electrician of Elmhurst, surprised the U. S. Circuit Court at Elizabeth by appearing and making a vigorous speech against the granting of licenses to certain road houses which she declared were disorderly and sold liquor openly on Sunday. She said she had been warned not to appear against the road houses if she did not want them to retaliate. The place was denied renewal until court could investigate the charges.

A movement is on foot to erect an extra high liberty pole on a slight mound on it so as to be the most prominent object to all vessels approaching the coast. The idea is a good one, and a popular subscription for this purpose should be instituted this summer in the various towns along the shore.

The fourth convention of the district of Y. M. C. A., at Mount Holly, May 8th, 7th and 8th was attended by about twenty-five delegates from Camden, Beverly, Mount Holly and Palmyra. The programme prepared by the committee was successfully carried out. The attendance at the different meetings was very good, the largest number present at one time being 1000. The addresses were listened to with a great deal of interest. Prof. C. D. Raine delivered the address of welcome. Rev. A. G. Lawson, of Camden, spoke to an appreciative audience in the Baptist Church, Friday evening. Mr. H. W. Bean's paper on "How shall we conduct our physical work?" was thoughtful and practical. Mr. R. H. Freeman very carefully prepared the subject, "Bible study and its relation to Association work." The music under the leadership of Mr. H. E. Ford, of Camden, was excellent. Mr. C. H. Harrington, general secretary, Camden, handled the subject "Why should our Association do a four fold work?" in a very acceptable manner. Mr. W. A. Venter, general secretary, Trenton, answered the question, "How can we have more young men to embrace the privileges we are offering them?" Mr. D. F. More, State secretary, Newark, N. J., presided at several of the meetings and delivered words of encouragement. Messrs. John Henning and John M. Taylor both had charge of the consecration meeting and men's meeting, Sunday afternoon. Hon. Elkanah D. Lake, addresses were received with attentive interest, his remarks always being very appropriate. Mr. S. C. Woodhull's theme, "The need of more Christian workers," was eloquently written and impressive. The convention closed with a very spirited meeting at the Methodist church at which the delegates and pastors made short addresses.

## THE SCARE HEAD.

By James W. King.

Mr. King was introduced by Mr. James Forrester, after which the lecturer opened his address by relating some incidents which had occurred in his experience. He said the "scare head" is that headline which charms or startles. The fact that the news of the world was condensed in the American journal daily made all members of one family. Everything that has happened or that will happen, is kept in a book, and some one assigned to find out all the facts. Newspapers see the shadows as well as the bright side of life, and many of the dark sides are buried in the waste paper basket. Men are in constant communication with all telegraphic centres, and can select from the large amount of matter which is best suited to their paper.

The interview was commended and their experience with prominent men like George W. Childs, John W. A. Baker, Chauncey Depey, J. G. Blaine, Grant, Jay Gould, R. C. Rocker, Matthew S. Quay and others. He spoke of the reserve of many prominent men and cautioned all to keep their eye on Quay.

The wonderful detective work of the modern newspaper reporter, specially that of the Press representative who recently traced the murderer of Dr. Hall in Maryland. He related the experience of a New York Tribune reporter who was incarcerated in a lunatic asylum for two months for the purpose of exposing the abuse of the inmates. The lecture was closed with a brief outline of history of several papers, including their cost and profits, and a word of commendation for their promoters.

RESIDENCE—Corner Fourth and Garfield  
Avenue, Palmyra, N. J.

Entered at the Palmyra Post Office as Second-Class Matter.

We should think that the rainy

weather of the past few weeks, which

has softened the side walks and made

them muddy, was sufficient reason

why we should have improved side

walks. The side walk that was pro-

posed to be laid in Palmyra was the

best for the low cost, that can be

had and another meeting should be

arranged to be called at once author-

izing the township committee either to

accept the bid of the lowest bidder on

the first proposition or advertise for

new proposals. One thing is certain

we need better sidewalks or our town

will start a retrograde movement

rather than otherwise, if we do not

make our surrounding more satisfac-

tory to our present residents and in-

cluding to prospective ones.

Is an editorial in our last issue, in

which we commended our own home

professional as well as business men

in preference to outsiders we simply

stated a principle that governs the

management of this journal. Dr. Wallace

(D. D. S.), of Camden, who was in

Palmyra three days this week, intro-

ducing what he claims is a painless

extraction of teeth, has considered that

we reflected on him, but such is not

the case, as no personality was intend-

ed for any one.

ONE would suppose that the sewer

question was a new one, from what is

said in some quarters. We have fre-

quently called attention to the grow-

ing necessity for a sewer in our rapidly

growing town, and do not propose to

drop such an improvement, while we

agitate the urgent necessity of side

walks and electric lights.

We call attention to a communica-

tion, concerning early closing of stores,

in another column. Would it not be

advantageous to all concerned? These

columns are open for discussion of this

subject.

Mr. Editor: I would like to use

your paper to ask why the merchants

of Riverton and Palmyra do not con-

sider for the purpose of closing early

in the evening. Philadelphia mer-

chants close their stores and enjoy

their evenings at home with their fam-

ilies: why cannot we? I would like

to hear what others have to say about

this matter.

FROM AN INTERESTED ONE.

Mr. Editor: I have noticed on more

than one occasion in your reports of

meetings held by a few citizens of our

neighbor, Riverton, that a sentiment

seemed to prevail among a few of the

narrow-minded egotistical persons in

their midst to create a feeling of dis-

respect to Palmyra. It is a sad state

of affairs when the citizens of two com-

munities whose interests are allied

should be guided by such who should

be given a free ticket that they might

go to the antipodes. What has Palmyra

done that a separation should be

brought about or "vice versa" I am

not speaking in the interests of Palmyra,

for she is well able to look out for

her own interests, but for the common

good of both towns. What do these

people want? Some office! If they

do let them run their names out for

president. Then they can have the

whole country to run (if they get elected).

They may imagine they are public

spirited, but their insupportable

ideas are not only tending to strife but

will ultimately do incalculable injury

to the towns. By keeping together the

time may not be far distant when

a great sufferer for some three years,

passed away last Sunday, at his home

near Westfield, aged 78 years. The

funeral was held on Thursday after-

noon, services being conducted by Rev. M.

Winder.

Mr. John Davis gave an informal

reception to Judge Ashman on Tues-

day evening last, at which Judge Ash-

man read an eloquent appeal for Woman

Suffrage. It was a calm, cogent

argument. He gave many anecdotes

concerning his many years in Phila-

delphia practice. Among the intelli-

gent audience gathered there were

Mr. and Mrs. Richard H. Osmund, Rev.

and Mrs. J. H. Cuyver, Miss Con-

verse, Dr. Janney, Dr. and Mrs. Mar-

cy, Mr. and Mrs. Thos. Roberts, Mr.

and Mrs. C. Carter, Miss Cowton, Miss

## DUTY AT THE LYCEUM.

Baiber a large crowd faced the

storm on Saturday night last, to be

present at the Riverton Lyceum; the

occasion being another of those inter-

esting dramatic productions by the

Social Dramatic Association, and

those present were amply repaid by

viewing one of the best, if not the

best play yet produced by this excel-

lent company of amateurs. The play

itself, one of Sardou's best 4 act

comedies, gave room for the display of

humor, as well as strong dramatic

pathos. The plot was an interesting

one and kept the attention of the

audience to the very last, and ripples

of laughter and rounds of applause

were frequent. The rendition of the

play was highly praise-worthy, and

the pretty stage settings added much

to the artistic success of the perfor-

mance.

The characters were all well taken.

Those in the leading roles displayed

great talent, and by their careful

and painstaking attention

to every detail, proved their ability

to assure success in plays demand-

ing deep feeling and dramatic force,

as well as in lighter comedies; while

those in the comedy roles relieved the

tension produced by the serious side,

and by their humorous impersona-

tions excited the audience to laughter.

The stage was under the able man-

agement of Mr. Irve M. Jones. The

orchestra played several operatic se-

lections under the leadership of I. L.

Chipman. Following is the cast.

## THE CROP BULLETIN.

OF THE NEW JERSEY WEATHER SERVICE.

For Week ending May 13, 1892.

WEATHER AND CROP CONDITIONS.

The propitious weather conditions

which have prevailed during the week

in all portions of the State have very

materially advanced the growing

crops, with the exception of grain and

clover. To bring up these crops to

an average condition, abundant rains,

followed by moist and warm weather

is needed.

The critical period for both orchard

and small fruits has arrived, and un-

less severe frost occurs during the in-

coming week, will safely cross the

danger line, with promise of abundant

yield. Pears and cherries have al-

ready a good set, but the outlook for

peaches in nearly all districts is below

the average.

Winter grain has made rapid

growth during the week, and is be-

ginning to show signs of heading out

in some sections. Oats, while doing

well, need more rain. The planting of

corn is nearly completed in the

southern and middle sections, and is

well under way in the northern part

of the State.

The growth of early truck has been

somewhat retarded by the cool nights.

Farm work, generally, is up to date.

The largest total rainfall reported

during the week, are as follows:

Bridgeton, 1.50 inches; New Village,

1.05 inches; Egg Harbor City, 1.09

inches; Hanover, .91 inch, and Ten-

Some of the attendants of our churches are annoyed by the bad manner of half grown boys during the evening services. The congregation and ministers should have sympathy with these ignorant boys, as it is possible they are only half witted and consequently but little can be expected of them. A buzzard circles over a green field carpeted with beautiful flowers, but the flowers have no beauty for him, the trees are laden with sweet blossoms, but their perfume sickens him. Now see his lazy eye light up, and watch him swoop down; what is it that attracts him? A piece of filthy carrion! So with the scandal monger, his delight is in feasting on earth's carrion rather than its sweetness. To dwell in God's holy hill I must be one that taketh not up a reproach against my neighbor.—Christian Work.

REXON—LAWYER—May 11, 1892, at Moorestown, N. J., by the Rev. S. Monro Vansant, William Marlin Rexon, Moorestown, to Matilda E. Lawyer, of Cramer Hill.

You can't afford to paint your house every year.—The manufacturer who makes up his mind to produce a first-class article, paint for example, and sells it at a reasonable price, generally finds that there is room in the market for his productions. That a good article recommends itself, and once a customer always a customer. This has been the history of the Chilton Manuf. Co. Their paints have stood the test of time and proved their durability. What you want is a paint that will stand exposure to wind and rain and sun. You can't afford to paint your house every year, and you won't have to if you use the Chilton Paints. We have a color card for you.
