FOOD FOR THOUGHT.

JAY GOULD.

He was as ruthless as the robber barons of old, and far more powerful and destructive.

The example he set is a dangerous one to follow. The methods he adopted are to be avoided. His financial success, judged by the means by which it was attained, is not to be envied.—New York Herald.

MORAL.

Every ambitious young man should be warned that winning fortune by dishonest or dishonest means cannot compensate for the failure to win the respect or confidence of one's associates.

THE plan outlined for the division of the township in our last issue has received due consideration and has been very generally commended as the most satisfactory solution of the question.

Mr. Clayton Conrow and several other influential men from the back district have said the plan was a good one.

There has been some talk that Riverton would not enter into such an arrangement, either with the back district or Palmyra, but such a feeling has given way to the intention to try the proposed plan first and then if it was not satisfactory, the same course could be pursued that was first intended—incorporation. But we believe, and have hard many like expression, that the plan proposed in our last issue, would be satisfactory to all concerned. The call for the meeting to consider to snap division is published in this issue, and there will doubtless be a large attendance from both places.

THE Y. M. C. A. have won for themselves a creditable name for first class entertainments and judging from the preparation is being made for the oyster supper, to be held in Morgan hall, Thursday evening, from 6 to 9 o'clock, they will retain their reputation for social events. All that possibly can go, should do so. Beside spending a pleasant evening with your neighbors and friends, you are helping an organization that helps the community at large. As announced in the advertising columns, the proceeds will be devoted to paying for the lot, corner Broad and Garfield avenue.

WHAT IS LIFE?

One day, when the feathered songsters in the woods were tired of singing, there was a long pause. All was quiet, and nature itself seemed lost in meditation.

Suddenly the philosophical bullfinch piped, "What is life?" to which a little songster among the leaves replied, "Life is a song."

"No a bottle in the dark," said the ground mole, who just poked his head out of the ground in the vicinity of the tree, among whose branches the little bird was hopping around.

"To my mind it is an unfolding," declared the rosebud, which was just ready to unfold its beautiful leaves, to the great delight of a magnificent butterfly, which did not hesitate to kiss the beautiful flower, with these words: "Life is full of idle joy and pleasure."

"Say, rather, a short summer day," hummed a jealous one day fly buzzing past.

"I mean that life changes over, with work and pleasure," mentioned the bee, and it disappeared in the leaves of the rosebud to gather honey.

"I do not see that it is anything else than idle worry," complained the little ant, dragging a blade of straw, which in comparison to itself, was unreasonably long.

"Yes, you are right," a little rabbit nodded from the hazel bush; "Life as sure as I live, is a hard nut to crack."

At this moment a soft rain murmured "Life consists of tears, all tears."

"Life is an ever changing consciousness," said the thunder cloud, floating toward the ocean. The ocean waves broke against the shore and sighed, "Life is a steady battle for freedom."

"No you are mistaken, it is freedom," jubilantly said the eagle, sailing through the air with his powerful wings.

"Ah, it is poor earth," moaned the weed, working its way out of moss and stone.

The high cedars bowed to each other to the earth saying: "Life is striving ever upwards." And a ripple sounded through the top of the trees until the pasture cried sorrowfully: "Life is given up to a higher power."

Night had broken in and the solemn dome prelate advised: "Let us rest, my friends. As there was no satisfactory answer given, we will resume our debate to-morrow."

"For all I care you may do that," breathed the night. "But life only a dream."

The still night ruled over the country and soon morning would draw near. The student, who was sitting in his out-of-the-way garret, lost in meditation, blew out his little lamp and murmured: "Life is but a school."

Footsteps were heard on the deserted streets. A tired citizen was going home to rest, after spending the night going from pleasure to pleasure, in spite of which he complained: "Life

is an unsatisfied longing and steady disappointment."

"It is a riddle," stammered the new born morning wind.

Suddenly a glimmering light rose upon the horizon. Higher and higher climbed the magic light over the top of the woods. The red morning light greeted the earth and like a mighty chord it sounded through the universe: "Life is only a beginning."

To the Editor of the News:

HOW CAN IT BE DONE?

This question regarding the small cost of the Oyster Supper, in Morgan hall, Thursday evening, Dec. 15th, from 6 to 9 o'clock, is easily solved.

We have many friends who have kindly donated various things which go to make up a first class supper.

No person will be disappointed with the bill of fare. Save yourself the drudging of preparing supper at home.

Well known and benevolent ladies have volunteered to do the work in our behalf. We want this to be a great social gathering, where all will be pleased to spend a pleasant evening with their friends, where the people of the community may become better acquainted with each other.

To the Editor of the News:

NOTICE.

The citizens of Ginnamans township are requested to meet at Morgan hall, Palmyra, on Friday evening, Dec. 16th, 1892, at 8 o'clock, to take action in reference to forming a new township. F. BLACKBURN, Chairman of last meeting.

SNAPPER HUNTING.

Among the various kinds of games that the sportsman pursues there is none that pays better than the hunting of snappers and terrapin. There is no outlay for ammunition; all that is required is an iron pole with a hook at the end and a bag to carry the game. The skillful hunter can generally secure a good supply of one of the most delicious articles of food. These animals in the fall of the year crowd into the holes and cavities along the banks of the rivers, creeks and marshes, where they remain in a torpid state until spring, so that it is in season to take them at any time during the winter. The hunter should be furnished with a snapper hook travels around these places and probes all the holes and cavities that he sees, particularly the muskrat holes. He can very readily tell when he strikes the back of a snapper, then working his hook around so as to get a hold of the under part of the shell, he draws him out and proceeds to search for more, for there is generally several in the same locality. As they are somewhat stupid they can be handled with impunity, but if the weather should be warm it is necessary to be cautious. Although a dull looking animal, when they strike it is instantaneous, and if they get a good hold they will not let go until their heads are cut off. We have seen the head of a snapper bite at a stick after it was separated from the body. There is no doubt but that there is plenty in this neighborhood, and persons who have little or nothing to do in the winter could obtain a good supply of the most delicious food or sell them for a good price. L. O.

A very pleasant supper and fair was held in Christ Church Sunday School room on Wednesday evening, and netted quite a sum of money for church work.

Many of our Main street residents are contemplating of the excessive price paid for overhauling the construction of the sewer extension. They claim that \$10 a day is exorbitant.

We are informed that fifty street lamps, that had been ordered and had arrived at the station were reshipped back, owing to the movement under way to establish electric lights.

The township committee met at Mr. Howard Parry's office on Monday and acted upon the application of the new electric light company, as may be seen by the ordinance published in another column.

The poems and sonnets of Mr. D. Henry Wright have been collected and published in book form by J. B. Lippincott & Co., under the title of "Is Peace on Earth?" making a very attractive little volume of 64 pages, in white pigskin cover, with a portrait of the author as a frontispiece. The poems are an index of the man and present many earnest and expressive passages.

A pretty wedding took place at 3:30 o'clock on Wednesday afternoon in Christ Church. The bride was Miss Ida Bishop, niece of Mr. Wm. J. Thompson, and the groom Mr. Joseph Bishop, of Moorestown. The ceremony was performed by the rectr, Rev. P. A. Converse, in the presence of a limited number of invited guests.

The bride was attired in a fine white gown, and the ceremony was a most beautiful one. After the ceremony the bride and groom were driven to Moorestown, where they took a train for Phoenixville, Pa., where a reception was given them. Upon their return they will make their home in Moorestown.

Mr. Howard B. Sharp, of Camden, finished moving into his handsome new house on East Main street, on Monday. It will be remembered, this house was built by Mr. Joseph Bishop, from plans somewhat different from those in this vicinity and more like those in the beautiful and wealthy Orangeville, the northern part of the State. Mr. Sharp was so well pleased with Mr. Bishop's fine workmanship and material that he not only paid the contract price price promptly but made a present of \$100.00 in addition.

The Hill and Ricker residences have been rented leaving only one house vacant in our town.

By a mistake of the editor our Delair budget of items for last week were lost.

David D. Taylor, Jr., of Camden, has leased the Ricker residence on Zimmerman avenue, near the station.

CHURCH NOTICES.

EPISCOPAL (PALMYRA).

There will be holy communion at 8 a. m. The subject of the morning sermon at 11 will be "Rejecting Christ." The Sunday School association will have a meeting after Sunday school, when important matters will be considered. The subject of the evening sermon will be "Watchful Christians." The usual evening prayer and address will be at 8 p. m. on Wednesday, and the litany at 4 p. m. on Friday.

METHODIST.

There will be a love feast on the old-fashioned plan at 9 a. m., for which tickets of admission will be given. The subject of the sermon will be "Love." The usual Sunday school will be at 2:30 p. m. The Epworth League will have their meeting at 6:30 p. m. In the evening at 7:30, Rev. Geo. Reed, the presiding elder, will preach. The Sunday school board had a meeting on Tuesday night when Mr. J. W. Smith was

cleared superintendent of the Sunday school. W. H. Libbe, assistant superintendent, Frank Clark, librarian, Frank Toy, secretary, and Arthur Rodman, treasurer.

For the mission Mr. J. W. Kimball was elected superintendent, C. H. Seybert assistant superintendent, Nathan Nixon, librarian, and Mrs. Bella Cooper organist. The old officers of the Epworth League will resign next week and new ones be elected.

M. E. MISSION.

Mr. W. H. Libbe will have charge of the service on Sunday evening. The Sunday school and week night services will be as usual.

At the business meeting of the Alliance last Friday evening, it was voted to unite with the Epworth League.

BAPTIST.

Preaching to-morrow morning at 10:45. Subject, "A Part Known." Service in the evening at 7:30. Subject, "An Important Question." A short evangelist service will follow the sermon. Every member is particularly requested to be present at the morning service.

The series of special meetings held during the week have been productive of much spiritual good—many requests for prayer being made, and a general spiritual awakening amongst our church members.

We trust that our membership and the public generally who have old books, picture cards, old or new toys, they would like to offer as a Christmas offering, will find their address on the list.

Mr. Harry Gray, Master of S. S. Roray or any member of C. E. S. Society. We are making up a Christmas box for a poor colored S. S. in Sheffield, Alabama.

Last Sunday morning our pastor preached an exceptionally good sermon, and pointed on the subject "Mending the Net." It was pointed out that many members were awakened to the fact that their portion of the net was riddled with many holes, and unless mended no fishes could be caught. A deep feeling pervaded the whole congregation which at times was expressed in sobs, and made sharp allusion to our neglected opportunities to do good service for Christ.

WASHINGTON LETTER.

Congress is again in session, and the eyes of the country turn naturally towards Washington to see the effect of the assembling of the men that have been selected to make the nation laws.

The opening of neither House and Senate differed materially from the usual opening of a second session; the interior of both House and Senate chambers are as bright and inviting to look at as paint, varnish and new carpets can make them—much brighter in fact than the looks of some of the Senators and members who are to attend their official life with the present Congress. Vice President Morton and Speaker Clegg were in their respective chairs at high noon today and there was no delay in declaring the Senate and House open for business.

What business will be transacted? Is the question that nobody is in position to solve just at this time, although the impression is that it will be general that some legislation concerning silver and immigration, which will not be sufficiently objectionable to President Harrison to meet with a veto, is among the probabilities of the session. There are a number of important bills in the calendar of both House and Senate, having been passed by one or the other body, that an attempt will be made to put through. Among these are the House bill providing for the admission of Arizona and New Mexico. At least two Republican Senators have expressed themselves as being in favor of taking up and passing those bills; one, because he thought there was no good reason for keeping them out, and the other, because he thought they would both send Democratic Senators, which would make the Democratic control of the next Senate a certainty, which he is anxious to bring about, and which the Democrats haven't the slightest objection to.

An attempt is likely to be made to change the date for the meeting of Congress from December to early spring, and although it is championed by Republicans who are anxious to precipitate the fight they predict and expect in the Democratic party when the fifty-third Congress comes together in the spring without the necessity of a Presidential proclamation convening an extra session, it meets the unqualified approval of many Democrats, particularly among those who regard an extra session of the next Congress as a necessity, and a majority of the Democrats in the present Congress unquestionably do. Aside from any question of politics, it would certainly be an improvement to have the Congress elected in November meet in the following spring, instead of waiting thirteen months as it does now, except when called in extra session.

The Senate to-day took up the anti-trust bill as the "unfinished business," and unless it can be passed at once or be gotten temporarily out of the way by parliamentary tactics, the hard fight against it will result in blocking much other legislation. The story which is fighting this bill is a powerful one, and it claims to be certain of defeating the bill, because of a change in sentiment concerning the bill in the Senate and its consequent effect upon Senators from that section. The objection of the bill is that it cannot be beaten on a vote and that the only hope of its opponents is to kill it by prolonging the debate against it until the end of the session. It is understood that Vice President Morton's sympathies are with the opponents of the bill. If that be correct he can aid in many ways in prolonging the discussion.

President Harrison's message to Congress differs in several respects from any of his previous messages. In the first place it is not so well written, a fact fully accounted for by the recent and happening at the White House; the only wonder is that he could have written it at all. It presents in a compact form the work of the present administration, of course, from a strong protection Republican point of view, and reiterates Mr. Harrison's belief in the principles will again triumph in the near future. With the

exception of that in favor of the establishment of a National Institute of the message contains no new or important propositions of importance.

I have it from trustworthy authority that Surgeon Gen. Wyman, of the Marine Hospital service, will, in his annual report shortly to be made public, make a strong plea for the suspension of all immigration for the year 1893 as a precaution to keep the cholera out of the United States. The sentiment in favor of a suspension of immigration is growing very rapidly in Congress, and unless some legislation looking to that end will almost surely go through at this session.

WANAMAKER'S.

PHILADELPHIA December 5, 1892.

An event without parallel.

Two hundred stylish fancy printed India Silks for Spring, 1893, are opened.

It is customary when we make a special early opening of Silks or Dress Goods for the envious and unprincipled to state that the goods belonged to the past season and having been brought away for a time are brought out as new.

Such statements have always been false. If made again you will know how to treat them. They are from London and Lyons. Many are hand printed; the designs are all new, and some strikingly original. They were contracted for before the advance in silk, hence the prices are not advanced over similar goods in former seasons. 75c to \$1.50.

Our exhibition in December for last Spring was a success. Encouraged then and urged by many of the best customers of our Silk store we have made this earlier movement for next season. Controlling many of the styles for this market we have made the quantities small. Aggregation creates exclusiveness in dress styles.

The tension on your purse strings will not be great for gifts of Dress Patterns—provided of course you buy here. It would be hard to depict too strongly the immense variety and unmatched cheapness of the great assortments at 37½c that are worth, as the mar. et goes, 50c to-day, and the others at 50c equally worth 75c.

A few days since we told of thirty styles in Silk and wool Bengaline, the best work of the best maker, for which witness quality and finish, at \$1.15. They would be good value at \$2. A good choice is still here—but will not be long.

The Broadcloths are going out faster than they are coming in. Demand gains daily. Here is the list:

50 in., 18 colorings, \$1.00

50 in., 20 colorings, \$1.25

52 in., 11 colorings, \$1.50

52 in., 12 colorings, \$1.75

52 in., 18 colorings, \$2.00

54 in., 25 colorings, \$2.00

An importer appeals for help. Has too many French

All-wool Dress Goods, self-colored Jacquard figures, 46 in.

Variety great in excellent colors. They are worth \$1.50.

Yes, we and Our Public will help him out—and you get the goods at \$1.00.

Boys' Clothing, sizes 3 to 7 years. For dress, Bedford Cord or Velvet, \$5 a suit.

For general wear, Scotch and English Cheviots, \$5 and \$4.50 a suit. Reefers, Blue Chin-chilla, sizes 4 to 16 years, \$7.50

\$8.50, \$10 and \$13.50. Last is satin lined. Kilt Reefers, 3 to 7, \$5.50, \$6.50, \$7, \$8.

In our application of art to clothes the greatest triumph is with the dress of small boys. Childhood is no longer sacrificed to the tailor. The tailor's art has at last found the way to keep the small boy graceful and youthful—not make him prematurely old. Our great stock of Boys' Clothes illustrates this.

"Grandy's Wonderful Chair" is not in the Furniture store, but it is in the wonderful Book store. It is a book of fairy stories. But no fairy story is so wonderful as the story of Books, beautiful Books for children that are in that Book store. All the list below comes over the sea.

Summer Sunshine for Little Ones, 70c.

Child Lights 70c.

Granny's Glasses, prose, 65c.

Our Little Men and Maidens, full page plates of children, \$1.00.

Poss in Boys Picture Book, prose, 60c.

Little Mother Goose, 90c.

The Talking Clock, prose, \$1.25.

Granny's Wonderful Chair, prose, \$1.25.

Merry Moments for Merry Little Folks 65c.

Listen Look and Listen Well, prose, \$1.20

As Told by the Buttery, \$1.20.

The Arabian Nights, arranged for young children, prose, \$1.20.

Grandmother's Book of Fairy Tales, prose, \$1.25.

Favorite Fairy Tales, by Maud Humphrey, prose, 85c.

Maud Humphrey, Walter Crane and Ralph Caldecott have many followers in the great Republic of Art who have given their best to the service of childhood. The pictures and the books for children this season are beautiful beyond precedent.

The Bishop was assisted in the ceremony by the Pastor, Father Murphy, and others. An immense congregation, many of whom were strangers, listened to the Bishop's able address, in which he set forth the reasons for confirmation and other doctrines of the Church. He complimented the pastor and people on the good work they had accomplished, and he said he hoped to see the corner stone for a new church in the course of a few years, as the present structure is entirely too small for the need of the congregation.

Who Discovered Us?

Some contend that Lief Erikson, the son of Erik, discovered this country. Others claim that Amerigo Vespucci was the guilty man. The majority lean toward the Christopher Columbus theory. At all events, whoever did it, it took him a long time to discover a good thing. Other discoverers have done much better—for instance, it did not take the people of this section so long to discover and appreciate the merits of

FOOD FOR THOUGHT.

He who is faithful over a few things is a lord of cities. It does not matter whether you preach in Westminster Abbey or teach a ragged class so you be faithful. The faithfulness is all—G. MacDonald.

Do you read our neat word column every week? If you do not you may miss getting something you want at a low price, because others do not need it.

The Union League, of Riverton and Palmyra, which was organized last Saturday night is a reunion of the Republican clubs of this locality. The object is social as well as political and a committee has been appointed to secure a club room for their use.

NEWSPAPER advertising is the best means of reaching the people and we have frequent testimony from our advertisers that the NEWS reaches the people. We claim there are not twenty-five families in both Riverton and Palmyra (and most of these are they who do not pay for anything) who do not read the NEWS.

The trustees of the Riverton public school have been able to buy nearly all the books needed for the regular classes. This is right and what should be done by every school board in the state. It would be cheaper for the parents to pay for these books in taxes, then all could remain for use by other scholars and save the purchase of new ones whenever a child goes to an advanced class.

PROMINENT medical men caution the public against a return of the grippe. Be careful of your habits. Do not eat too much or too little; avoid extremes of heat or cold when not in exercise; keep out of drafts; abstain from stimulants, except upon a doctor's prescription; if taken ill consult your doctor at once, as he may save you a long sickness and possibly death; do not dose yourself with every medicine which kind friends name as the "best preventative."

EVERY town needs some organization which can and will look after its interests, as what is everybody's business is no one's, except the personal care grinders. The Board of Trade which was organized last week is a good medium for every enterprising citizen to join, as the best interests of all concerned can be considered before any new thing need be adopted. Committees can be appointed upon any subject which will be of interest to these towns and reliable data can be secured, so that all can act with some knowledge upon any problem under contemplation.

DR. JANNEY asks what will the new township be named. We thought that question was practically settled last spring, when Dr. Hall gave the history of the present name, Cinnamonson. He showed that the name originated with the Indians and belonged specially to the Delaware shore. They used to come over to this shore and gather cinnamonson, which means sweet water, from the groves of maple trees which grew here, therefore, the name applies to the section bordering on the shore and not elsewhere. The suggestion that the back township be called Pomona is a good one, and an appropriate name.

THE people of this township have probably never considered any matter with a more unanimous idea than the present proposal to divide the township into a town and country district. Residents of each locality are disposed to take hold of the subject in a dispassionate way, without the interference of designing politicians, and evolve the best plans for each separate district. That person who attempts to defeat the best good for the largest number will call upon his fate the just condemnation of every honorable resident. It is now generally agreed that "we will get along better together if we are apart."

TO WHO IT MAY CONCERN.
The family of the late Charles A. Cline take this method of expressing their thanks for the kindness shown them, in so many ways, during the time of their recent affliction and can assure all that it was duly appreciated.
WILFRED F. CLINE.

To the Editor of the News:
We desire through you to thank our friends and neighbors for the sympathy expressed and many kindnesses rendered during our son's illness, and since our recent bereavement.
Respectfully,
MR. AND MRS. W. E. WILMER.

RIVERTON.

Get your Christmas poultry of Pearson. Killed to order.

Mr. Chas. Parry has been elected president of the Burlington County Board of Agriculture.

A Christmas present that will be appreciated will be an order to Thomas Bros. for a ton of coal.

Rev. John Scarborough, Bishop of New Jersey, will preach in Christ church on Sunday morning.

Mr. Samuel B. McCabe left here on Monday for Austin, Texas, and other points in the south. He will be gone about six weeks.

Lon Corner thinks he got a good joke on the editor last week regarding the street lamps, but we may have a chance to repeat it with interest.

Mrs. Ruth Channing Nevin, mother of Rev. C. W. Nevin, died in Philadelphia on Tuesday, April 77 years. The funeral was on Thursday afternoon.

The electric light company is preparing plans for active work as soon as possible. It has been decided to put house lights in with a meter for each house so that all will have to pay for only what they use. The rates will be about the usual city charges, which many believe to be cheaper than gas.

The ordinance granting the new electric light company the privilege to put up poles and wires on our streets, was passed by the township committee on Monday.

Mr. Wm. Thomas has refused to sell the new electric light company land on which to build their plant, situated on the railroad near Mr. Dick's blacksmith's shop, but there other sites in view.

Mr. Isaac Eastwood has sold his property on West Main street to Miss S. Coffin, of Philadelphia, who has possession. Mr. Eastwood has removed to one Mrs. Adams' house on Garfield avenue, Palmyra.

Mr. Chas. A. Wright has sold the launch America and bought a thirty foot launch of 6-horse power from the Gas Engine Power Co., of New York. Friend Wright will now have one of the finest and fastest launches on the river.

The sewer extension was completed last Saturday, except putting in the branch pipes. Some of the residents along Main street, between the railroad and the river, think part of the cost of the outlet and the flush tank should be assessed against the East Main street property.

The public school will close for the Christmas vacation on Friday the 23d and reopen on Tuesday the 30d of January 1893. All who are interested in the school will be glad to know that the trustees, by their careful management, have been able to purchase nearly enough school books to supply the pupils for the regular classes. They also have several charts, maps, globes and other aids for good schools. The heating and ventilation is very satisfactory with the new system.

The Deer Nursery Co. are erecting two new houses, which will make 46 on their place. These built this fall were Belgian houses, specially for palms. Six of them are arranged so that all are thrown into one, covering a space 100x150 feet. These are all heated with a new system of small pipes, hot water heaters, designed by the superintendent and J. C. F. Trache, of Phila., and under the control of a thermostat, with alarm bells in the house of the superintendent, Mr. J. D. Eisler. Many thousands of these palms are now being grown from imported seed, some being worth \$150 each.

In other houses are about one quarter of million ferns, of every kind and variety. The Deer Co. is now recognized as the chief grower of palms and ferns in this country. They have numerous other plants, among them we saw a beautiful double white daisy, which they call Snow Crest. It is a solid mass of pure white as large as a half dollar or larger. It has a long stem, which makes it a convenient house plant, or useful for cut flowers. One other specimen will attract the attention of many admirers of the beautiful. It is the Norfolk Island Pine, with a marvelously arranged system of foliage, shading from the dark and lovely green to the more delicate shades on the same branch. This evergreen is destined to displace the palm for private house cultivation. These methodical and well arranged houses are worth a visit by every lover of the perfection of nature.

DELAIR.

The Delair dancing class gave its first dance of the season at Bonnell hall, on Monday evening. About 90 couples availed themselves and enjoyed a well arranged program under the leadership of Mr. Walter Evans.

Harry Gardner has been repairing the chimneys of Mr. Samuel Tucker's residence.

Harry Parnell has started a paper route in town. Quite a treat to have a morning paper before breakfast.

The Free residence has been beautified by a two-story back addition. The school children under Miss Asay gave a Demarest prize contest on Tuesday evening in the Methodist church, for the organ fund. The judges, Messrs. Bonnell, Fellows and Tucker, awarded Miss Mabel Campion the prize, which consisted of a very handsome silver badge, the recitations of Miss Custer and Miss Steelman were also very good.

Are we to have an election booth in Delair next spring?

The Pennsylvania Railroad company has placed at their station a signal which can be used either day or night to flag the trains. We are certainly living in a progressive age. It is rumored that there will be a boom in the building line next spring. Our post, Mr. J. R. Whitcraft, prophesies there will be 150 houses here within the next three years.

Mr. Stacy B. Campion of Camden, brother of W. B. Campion, of Yelde avenue, while returning from a gunning trip to Exmore, Va., met with a serious accident. While traveling through the car window, striking him in the head and it is feared that his skull is fractured. At present writing he is in a dangerous condition.

CHRISTMAS THINGS.

In many varieties are on sale by our advertisers here at your own homes.

It is said they are as cheap and in many instances, cheaper than you can get the same quality of goods in the city. Here are a few of them. Mrs. M. P. Spayd has a large stock of ribbons of various styles and kinds for fancy work, which the ladies are doing so quietly at this time. We poor men are so blind we need not know Mrs. Spayd's 39c silk handkerchiefs from any other. The same might be said of notions, but when you come to neckwear we know what we like, so you women had better let us into your secret before you buy collars. In fact, we are a little curious and want to know what you are going to load up with on Xmas.

Some of us propose to get up very early on that morning and go out to see one of those draught banquet lamps with shade for only \$3.50. I have a century cloth dress pattern like as though anybody could make a dress, except a man. Don't you think the perfume would go well with those silk and linen handkerchiefs? The husband and wife might look over those dinner and tea sets together and at the same time you might find out whether there is a vase, a lace figure, or a fancy basket. A wink at any of Troth's people will give them to understand you want that put away.

Mr. J. M. Roberts, has hanging lamps, with patent extension and shade at \$2.75, and a fine set of table lamps at \$1.50. His jolly marble game and maypole marble game are new and will please the children. A musical top for 10c. is a hummer.

Mr. Roberts says those who want the finest brands of groceries should ask for "house brands." Good cider, fresh nuts, clean raisins and fruit are at both stores in abundance.

The Enterprise, of Mr. Johnson's, has a fine lot of brushes, grips, suspenders, gloves, slippers, at prices so low that you will be astonished. He now has sewing machines and musical instruments.

Mr. Westney's bicycles, tricycles, velocipedes, express wagons and baby carriages are so well known that it is not necessary to remind you that although he is at 214-216 Dock street, he is one of our esteemed residents. His largest tricycles are only \$9.95 and an elegant cylinder desk for \$6.50. Mr. Westney writes: "We have made special arrangements with Old Prob. to have plenty of snow this winter and have a large line of sleds, coasters and all that is necessary is to drop in our store with an eight cent coin, and a piece that is commonly called a dollar and get one of the best coasters you ever saw."

Mrs. R. R. Combs has lots of cuff buttons, shirt studs, gloves, books, and fancy stationery of new designs, with Christmas toys in abundance. Call in and make the little folks happy. Now if you want an elegant lamp shade, C. L. Baker is the one to see. He will sell you one at about the same price he sells them by the dozen in the city, or he will sell you a shade frame for 60c.

Most of us want a good umbrella and here is where you can get it made to order, from your own selection of stock and stick, at no more than you have to pay for old goods in the city. Friend Collier has concluded not to keep any more ready-made children's clothing and will make on a Xmas present of his profits if you come before they are all gone. The economical housewife will find several bargains here.

We all like to be dressed comfortably and well, but don't forget to live to eat. We live by eating. Bennett has some elegant London layer steaks, raisins that taste marvellous, especially if you add to them some of his fine nuts and fresh apricot tarts. He has a full supply of bananas and very large Florida oranges. If you are short of any ingredients for your Christmas pudding, Bennett will supply you with a plum.

Cooke, the shoer, has put in a large stock of shoes, from an inch long rubber boots to one's for ladies. He is going to give every purchaser of three dollars worth, the finest pair of ladies' rubber shoes in the store.

They will be in a plush or silk bag, and you a fine Christmas present for your wife or sister. Don't forget to examine the thousands of other things you will find in our home stores.

WASHINGTON LETTER.

From our Regular Correspondent.

Washington, Dec. 12, 1892.

The alleged snubbing of Speaker Clegg at the Reform Club banquet in New York, by President-elect Cleveland's friends has created a sensation in Washington, and all sorts of predictions, some of them ridiculous, are made of what will come out of it. Mr. Clegg will not talk much about it himself, but his friends are doing enough talking to show that it is a serious matter. Mr. Clegg admits that he prepared in advance a speech, and furnished the press with copies of it in anticipation of delivering it at the banquet, and that he was not asked to speak. The anti-Clegg democrats say that this "snub" was not at all a snub, but that Cleveland's friends do not approve of Mr. Clegg, and that they will have a candidate for Speaker of the next House, and it looks to be an unprejudiced man as though they are in the neighborhood of being right.

Every session of Congress is, according to its members, before it convenes, to be a "working session," but if this one is to develop any hustling qualities, it has to "get a move on" its first week's pace, which has been of the regular leisurely before-the-holiday brand. It has been noted that the Cleveland folks do not approve of Mr. Clegg, and that they will have a candidate for Speaker of the next House, and it looks to be an unprejudiced man as though they are in the neighborhood of being right.

FOOD FOR THOUGHT.
"When they saw the star, they rejoiced with exceeding great joy." Matthew 2:10.

After considerable trouble and expense we present this week a map of this township showing the lines of the proposed division, with roads and streets.

THERE should be no apprehension of increased taxes in the new township. That is one of the chief reasons why a township form of government was preferred to a borough, so that taxes would be kept low.

It is not the intention to rush into costly and unnecessary improvements or expenditures that will involve a big outlay of money. The tax rate is fixed at town meeting, and it rests with the people to decide at that meeting the rate they want, and it is all that can legally be taxed.

THIS is a dangerous part of the year for those who are not in robust health. We are apt to sit in rooms, with the temperature at 70° or over, and then go out into the cold without good protection. We need more protection than those who are hardened to colder houses and more exposure. This should be remembered by parents, whose children go looking after. Wet and cold feet should be covered after at once, and if illness shows itself, the doctor should be consulted promptly, as serious illness may follow.

There is a time to weep and a time to be merry, and there was a time to protest against the division of the township. Full public notice of the meeting called for that purpose was given, and any resident opposing the division had a perfect right to attend and be heard; by absenting themselves or by their silence, they gave consent and thereby endorsed the resolution for the division. It is a noteworthy fact that there was not a single vote against the division (except a boy) out of the large attendance present.

What alliance a questionable cause will make? Some of those who object to the division of the township say that the taxes will be increased by taxing farm property as building lots. What nonsense! Does anyone suppose Palmyra does not know the law will not allow this to be done? Others claim the country has treated them as good as they deserve. Perhaps it has. Some want to remain with the country so that they can hold property for which they pay \$1500 per acre and are taxed at \$75 per acre. The loudest defender of the do nothing policy is mad because he could not get an office with Palmyra votes. This effort to defeat a good movement has disproven the statement that there are grades of society in Riverton. It will be a satisfaction to know they claim they are united. We hope they will enjoy the society they have made.

If a conservative plan is carried out there will be a sufficient amount of money raised on a 30c. tax rate for township purposes, the same as last year, to give us street lights and some needed improvements to our streets each year.

The last township report shows the receipts for township purposes, on a 30c. rate, \$6,401. It is conceded that eight-tenths of this was raised in Palmyra and Riverton, which give \$5120 as our proportion. To this should also be added poll tax \$500, dog tax \$75, railroad tax \$30, and license fees \$475, making \$10,800 more and a total receipts of \$6200. The estimated expenditures are as follows: Fire plugs, \$700, assessor and collector, \$350, constables and police duty, \$350, election expenses, \$225, board of health, \$50, salaries and incidentals, \$325, giving a liberal estimate of expenses of \$4200, which leaves a net total of \$2000 to be spent in improvements.

To the Editor of the News:
As a spectator at the rather slimly attended meeting in Roberts hall, Riverton, on Thursday night, I was

surprised at the sentiments expressed by a few individuals in reference to the division of the township as unanimously adopted in Morgan hall. I expected that the hand of fellowship would have been extended to relieve Palmyra from any further connection with the country districts, but instead the whole sentiment appeared to be sectional except that uttered by Dr. Hall.

RIVERTON.

Mrs. A. J. Borie has been ill. The Bezique Club meet at Mrs. Cornelius on Thursday.
Master Clarence Cornelius is home from school for the holidays.
The progressive euchre club meet at Mr. C. W. Carter's on Friday evening.

We are pleased to note that Mrs. W. W. Harper is recovering, though slowly.

Mr. Wm. J. McIlhenny has been serving on the jury in Mt. Holly this week.

Mrs. Cornelius and Miss Wiggins will go to the city after the holidays for a stay.

Mr. and Mrs. George W. B. Roberts are rejecting over the arrival of their daughter.

The Reformatory Sunday School will have their Christmas celebration on Thursday night, the 29th.

Mr. E. B. Shovel and family will spend the mid-winter months in Philadelphia, at the Continental.

Rev. Chas. W. Nevin was installed as pastor of the Clinton, Pa. Presbyterian church, Wednesday evening.

Our well known townsman Mr. William M. Thomas was taken suddenly very sick last Friday morning, the 16th, and has been very ill since, but is now improved and bids fair for a speedy recovery.

Monday evening was bright and clear for the Cotillion dance in the Lyceum, which was an exception for these dances, and there was a good attendance and it was much enjoyed by the younger dancing set.

Howard Parry secured a verdict of \$500 damages against the P. R. R. Co. at Mt. Holly court on Wednesday, for being put off of a train when he had a ticket, but which the conductor would not honor.

Tom Hurley says Palmyra people do not support him when he ran for revenue of the roads and now he is against them on the township division question. Some of the other kickers have about as good reasons or want an office.

The meeting called by Charles E. Price and Tom Hurley to oppose the division of the township, on Thursday night, did not represent the voters of Riverton, as it was simply attended and many spectators from Palmyra and a number of boys were present. To judge from the sentiment expressed very few knew just what they wanted to do.

The Swathmore sociable at the Lyceum on Wednesday evening was very pleasant. Among those present were Miss Nora Lippincott, Miss Nettie Campbell, the Misses Biddle, the Misses Coale, Mr. and Mrs. Chas. Miller, Miss Needles, Mr. Haines Lippincott, Mr. Sam. Lippincott, Mr. J. Coale, Mr. Biddle, Mr. Atlee, Mr. Wright and other young friends from West Chester, Wilmington and other places.

Mr. S. F. Ringgold, started from New York, Dec. 3d, on his usual spring trip to be absent about two months. Mr. Ringgold only visits the principal cities and calls upon the first class carpet dealers only. The beautiful City of Brussels, Wilton Velvets and Royal Body Wiltons manufactured by his firm, Messrs. Hilton Bros., at their Glenham Carpet Mills, and in the hands of such a courteous gentleman can not help but meet with success. His mother and sister will undoubtedly be lonely without his society.

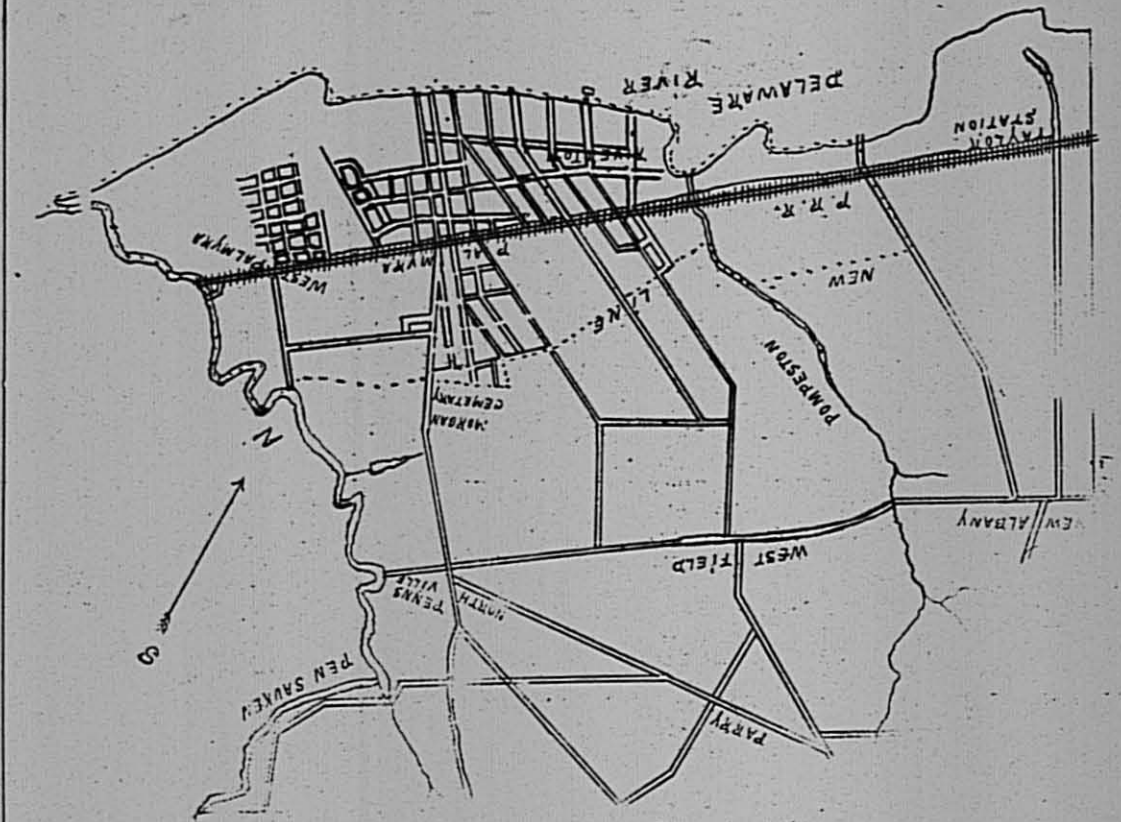

Seventy-four people including boys, attended a meeting in Roberts hall on Thursday night in response to a circular which was widely distributed. Several motions were made to defeat the action for township division. Some wanted to remain with the old township, because they had gotten along with them before Palmyra became so aggressive. Others wanted a committee appointed to persuade Palmyra that they did not want what was unanimously voted for last week. The chairman was instructed to appoint the committee.

ORDINATION.

An ordination to the Priesthood was held in Christ church, Riverton, on Wednesday the 21st, at 11 a. m. There were present the Rev. E. R. John Scarborough, the Rev. Jas. H. Lamb, of Moorestown, Rev. G. Moese, of Merchantville, Rev. G. W. Watson, D. D., of Swedesboro, Rev. R. P. Cobb, of Rahway, Rev. Geo. Harrod, of Burlington, Rev. C. H. Hibbard, D. D., at Burlington. Rev. John F. Fenton, Ph. D., Palmyra, Rev. C. A. Brewster, of Vineland, and the Rector of the Parish. The candidate Rev. C. A. Brewster was presented by Rev. John H. Converse, one of the examining chaplains of Diocese. It being the first time this service was ever held in Riverton many were privileged to witness an exceedingly interesting and impressive ceremony. The candidate who was made priest comes from the Presbyterians, he was for several years settled at Cape May, and will undoubtedly prove a very desirable acquisition to the Ministry of the church. The sermon was preached by the Bishop, and was a strong and convincing statement of the doctrine of the Church, concerning the Holy Ministry. After the service, lunch was served to the visitors through the kind assistance of several ladies of the parish.

DELAIR.

The Brotherhood of the Union has leased the lodge room in Bonnell hall, procured suitable furniture and started under most favorable auspices an institution that should meet the approval of all well thinking men.
Christmas bells will ring with good cheer to all mankind.

The Township to be Divided.

A UNANIMOUS MEETING.

The meeting in Morgan Hall to take action upon the township division on Friday night of last week was well attended, all the seats being occupied and some sat in the windows.

Mr. Fred Blackburn called the meeting to order and stated the object. Mr. Charles E. Price was elected secretary.

The committee, which was appointed at the meeting in March, reported the following resolutions:

RESOLUTIONS.

WHEREAS, the interests of the farming district of this township and the towns of Palmyra and Riverton are at variance and incompatible with each other, and

WHEREAS, there has been a spirit of opposition by the country districts to the improvements that would conduce to the benefit and up building of the said towns of Palmyra and Riverton, and

WHEREAS, the said towns have more than eight-tenths of the whole revenue of the township and get in return only a small portion of the same, and

WHEREAS, the residents of the said towns desire their streets accepted and taken care of as public roads, street lights, sidewalks, better roads, drainage, grade establishment and other necessary and needful improvements, which are denied them by the farming district, and

WHEREAS, there are certain state laws by which the township can be divided into separate school, road, sidewalk and other districts and by which each district has power to determine

extend our heartfelt congratulations

to Fitchburg, and rejoice with them at their increasing opportunities for doing good.

All persons having tickets for Oyster Supper, please return same on money on or before Tuesday evening next, Dec. 27th, as we are obliged to make payment on Jan. 2d, and the committee desires to settle outstanding bills from supper.

When shall we have a new building? Is the question asked by many of the young men who visit the rooms. The Sunday school of the church permit can be our only answer. We shall soon have our lot hall paid. We hope to find 150 persons who will give us not less than \$500 each, between Jan. 1st and July 1st, 1893, then we will be in shape to talk about building. We know you have it and need it, but we are dependent upon the community.

We trust, however, that 1893 will see a Y. M. C. A. building with bath, gymnasium, library, reading rooms, convalescent and assembly rooms, corner Garfield and Garfield avenue.

stone roadway, returned to his home on Wednesday last.

Emanuel McKim was committed to the Reform School at Jamesburg last week by Squire Pettit, on a charge of stealing eatables from the children's dinner baskets at the Academy school. There are a number of other youths in danger of joining him unless their mode of life is soon changed for the better.

Trinity church will hold their Christmas festival on Saturday afternoon at four o'clock.

West Moorestown's new station is in use at last, and again "vicious" is demolished there very comfortably. Needless to say it is a very great improvement on the old one, and the patrons of the road are correspondingly happy. It is well fitted out with conveniences and a model in its way. The long delay in opening was because of the strong spring of water in the cellar which necessitated several hundred feet of piping to drain it off to a lower level.

Dr. V. C. Roberts, of Moorestown, but now of "Older P.," a small town adjoining the city of Chester, has just issued a suit for libel against a chemist of that place named Hopper. It appears that Dr. Roberts gave a prescription for a child suffering from diphtheria as follows: "Turpentine, a half ounce; ether, a half ounce, and alcohol, two ounces." Druggist Hopper refused to fill the prescription, and posted the following notice on his window: "This prescription was written and prescribed by one of the Unlaid doctors for a child in Chester. The doctor was such an ignoramus that he did not know that turpentine is a fatal dose, even a tea spoonful was called to it. Any fifteen-year-old child ought to know that fifty drops of turpentine in its strong state would be dangerous. The second or third dose would have been fatal." Dr. Roberts' friends think he will be amply able to hold his own against any charges that can be brought against him.

Some of the town people who do not keep dogs are annoyed by them. Last week, several chickens were injured by a bird dog and a black dog about the same size. The Board of trade had their meeting in Mr. Rudderow's hall on Tuesday night. Several new members were elected and other offers of land for factory sites were made. Several interesting subjects were discussed and the advantage of having several thousand dollars paid to employees was shown. There is every indication that the Bar of Trade will be of immense advantage to the town.

Mr. Harry Rohman's part in our advertiser's Christmas notice last week was so mislaid, but we cannot let him pass unnoticed as he has so many appropriate presents for every member of the family. After being there a few days she was taken ill, but thought it unnecessary to see a physician. She continued feeling badly for a week, by which time she had become so weak that she could not get out of bed. Then she consented to have medical advice and Dr. Marcy, Mr. Swope's family physician, was sent for. He found the patient very sick indeed, with diphtheritic quinsy, and the next day it had developed into malignant diphtheria, the membrane from which gradually filled her throat and spread into the larynx and windpipe, preventing her swallowing or breathing, and on Saturday causing her death. The two children of Mr. Swope's being still weak from their recent illness, soon developed the disease, and it they have been very ill, though much better at this time. Mrs. Wilson, Mrs. Swope's mother, also contracted it and has been very ill, but is gradually improving. I will abstain from all those forms of world-amusement forbidden by the Deity, and I will attend, so far as possible, the religious meetings of the Chapter and Church, and take some active part in them."

THE MERCHANTVILLE MENTION.

All of our churches are making extra preparations for their holiday festivals.

The Merchantville Field Club will give an athletic entertainment in the hall to-night.

Frederick Ritter is erecting a high board fence around the yard adjoining his saloon.

The new dancing class met in the Niagara house on Tuesday night.

J. P. Finger, formerly of Maple Terrace, left for the West on a pleasure trip on Tuesday.

It is said the eight electric cars net an average of \$2.50 per day.

Cut glass is the hobby of one of our residents on Centre street. Her collection is rare and valuable.

Charles Pidgeon, who recently moved to Merchantville, has become one of the most active members of the fire company.

Wm. G. Lore, who some time since changed his residence to Wayne, Pa., has offered his Centre street property for sale.

Clarence Stratton, who has been occupying the farm of Postmaster Phelps on the outskirts of the borough, moved to a farm near Ellensburg, on Saturday.

The residents of Centre street who so long objected to the rails and poles of the electric railway lying in the gutters will have no cause to complain after this week.

Merchantville Lodge, No. 119, F. & A. M. had its annual meeting last Friday night at the close of which a banquet was given in the hall under the superintendence of our caterer Arthur Craig.

There is considerable sickness in town among the little ones, but we are informed not of a serious character.

It is rumored that Messrs. Moody & Sankey will possibly hold meetings

in Camden sometime in February. It is to be hoped that Merchantville will be benefited by their coming to the county.

PENSAUKEN.

The railroad station is getting too small for the accommodation of our travellers.

The policemen of the town are taking the census of Pensauken. The result will appear in our next issue.

The children's Christmas entertainment will be held on Wednesday evening, December 28th.

The wrinkle of Thomas Thorn, the new superintendent of the town lamps, that of moving the posts to the fence line of the sidewalks is a good one—it affords a better light to the pedestrians.

The raid on Christmas trees has started and the farmers are on the lookout with gun and dog.

Neighbor W. S. Ottiner is organizing a new lodge of the Order of Royal Assam, an insurance organization paying \$1500 and \$3000 at death. This is one of the most successful Orders of its kind in America, and appeals to all thinking men of families. The rates are very low.

Mr. and Mrs. R. O. Doster will celebrate the fifth anniversary of their wedding next Monday evening.

The residents of Poplar avenue feel very grateful for the visit of the snow plow on Tuesday. Call again, please.

Winter Excursion Tickets on the Pennsylvania Railroad.

The Pennsylvania Railroad Company has placed on sale at all its principal ticket offices excursion tickets to all the prominent winter resorts. This territory includes the resorts of New Jersey, Virginia, North and South Carolina, Georgia, Tennessee, Florida, and Cuba. The tickets are sold at the usual low rates, and the return coupons are valid until May 30th, 1893.

WEDDING ANNIVERSARY.

Thursday evening the 22nd being Mr. and Mrs. Chas. Lippincott's wedding anniversary, they were unexpectedly called on by the Palmyra Progressive Euchre Party, who brought elegant refreshments and a souvenir of the occasion, a handsome oak card table. Mrs. Lippincott and Mr. T. V. McCurdy eclipsed the whole party in the merry and spirited game which their marriage certificate was read by Mr. F. D. Stewart. Refreshments were served and at a late hour the party broke up, not however without wishing Mr. and Mrs. Lippincott many happy returns of the day.

SUDDEN DEATH.

Mrs. Charles Eastwood, residing on Morgan avenue above Wallace st. died suddenly on last Tuesday of heart failure.

That morning she seemed to be in her usual health, was helping with household duties and arranging to have a merry Christmas as her husband was expected home from Chicago, when she fell on the dining room floor and never regained consciousness.

Dr. Hall, who happened to be in the neighborhood, was immediately summoned but his efforts were unavailing, as she died in about two hours. Mrs. Eastwood was beloved by all those who knew her, and the bereaved husband and children have the sympathy of their numerous friends in their very sad affliction.

FOOD FOR THOUGHT.

There is no religion higher than truth.

THEOLOGY.

CERTAIN busy bodies appear to

enjoy their statements that this journal

is opposed to the farming interests.

This is not so. Our intentions are not

to disparage the farmer, as such.

Any reference to them is with no dis-

respect to their occupation, which is

as honorable as any.

THE past year has been the most

prosperous one for the journal in its

existence, for which we are duly

thankful. We set out to increase our

receipts 25 per cent. over the previous

year and we are glad to say that we

have reached the mark. Believing

these results are the best commendation

of the management we shall con-

tinue on the same policy in the future

—a clean, newsy home paper—"with

malice toward none."

DR. JANNEY warns up considerable

over the fact of the new township taking

the old name—Cinnaminson, and

for having the audacity(?) to give them

a new name—Pomona. Well, Doc-

tor, look back a little. Who was it

that named Delran when the town-

ship was divided the last time? Did

not the "child" take the old name and

and force the remainder to take the

name of Delran, though much against

their wishes? Don't speak so rash

next time.

THE action of the Palmyra mem-

bers of the committee, appointed to

draft a bill for township division was

the best they could do under the cir-

cumstances, as they could not have

done anything else without making

opposition from the country district,

as well as a few from Riverton. As

either member of the committee from

the town, they are in a bound

by the vote and should they act other-

wise, they will be condemned by all

honest people.

THERE is nothing to prove that

taxes will be any higher in the new

township than formerly, and if no im-

provements are made they will be lower.

Although the remark is frequently

heard, "I would rather pay more

taxes and get some return for my

money" yet from the very nature of

things the majority of property hold-

ers of Palmyra do not want higher

taxes. The towns will now get the

benefit of the taxes they raised and so

will not need a higher rate, while the

back district will have a much higher

rate with no improvements, and to put

down those roads their rate would be

excessive.

It is not probable that the unani-

mous action of the meeting in the

Riverton school house last Spring,

when they voted to separate from the

country district, because the interests

were so dissimilar, will be changed

by the few office seekers and perhaps

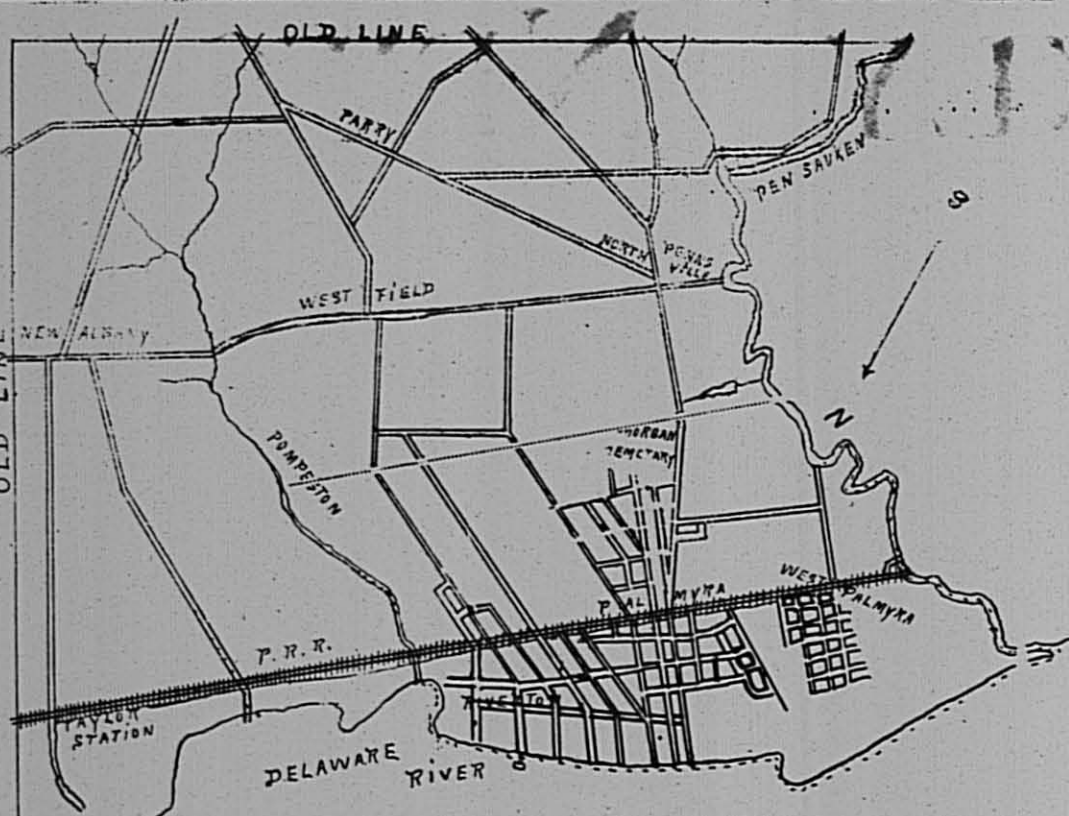

a half dozen others who prefer to re-

main with the country. The separate

road and other districts proposed for

the new townships gives Palmyra to

advantage over Riverton and Riverton

TOWNSHIP DIVISION.

In accordance with the unanimous motion of the citizens of Riverton and Palmyra in the public meeting held in Morgan hall on Dec. 16th, the committee appointed at the meeting, met at the Jefferson club room, on Friday, Dec. 23d, Mr. W. R. Lippincott called the meeting to order and on motion Mr. R. L. Temple was elected secretary.

The resolution of the public meeting was read and a motion made to have a bill drafted in accordance therewith, Mr. E. H. Ogden then presented a protest, said to be signed by residents of Riverton and Palmyra, he stated he was appointed on the committee without his consent and had no opportunity to decline. Dr. Hall said he thought Mr. Blackburn gave sufficient opportunity to any one to resign. Mr. Blackburn said any member of the committee who did not want to serve, might resign now, as he was prepared to appoint a competent

collecter. Wm. F. Morgan, who is well versed in the finances of the township. The assessed valuation is put at \$250,000, being a liberal estimate. The expenses would be as follows: Roads, \$800 (just to keep them in repair); poultry killed by dogs, \$50; election expenses, \$100; assessor and collector, \$385; constable and police duty, \$100; fire plugs, \$40; board of health, \$30; salaries and incidentals, \$200; making a total expense of \$1700. Receipts—License, \$125; poll and dog tax, \$250; leaving \$325 to be raised by tax, which at the above valuation would necessitate a local tax rate of 53c., or 23c. higher than will be required in the town.

From some of the talk one would think that any Tom, Dick or Harry had authority to assess property, but for the information of these deluded people we would state that the assessor assessment.

We gave the figures last week to show what will be received in taxes in the new township and this week we make a similar estimate on the old township, and it is conclusively proven that taxes will be higher in the back township.

The board of pardons of New Jersey has disgraced itself by pardoning all of the Hudson county ballot-box stuffers except one, who was pardoned. The State had great difficulty in getting them into jail, political influence being exerted at every turn to save them from the consequences of their crimes, and now a little more than a month after the election they have been set free. "Jersey justice" is thus made a by-word and reproach. Ledger.

DEAR FRIEND SLEEPER:
Since my return home six weeks ago, I have been bringing up the arrears in correspondence, and have more than once laid out the paper on which to write you. A year ago, it is, since I was so low with grippe, but after eight months at a Sanatorium, two at Atlantic near by, and six at St. Helena in the lovely Napa valley, 65 miles away, I find myself in better flesh and strength than for years. All this time I was treated with massage, electricity, baths, etc., without drugs, and daily exercise in Swedish movement-cure, and gymnastics. Added to these was hygienic food; that is, grains, fruits, milk and eggs, with whole wheat bread, but no tea, coffee, spices, butter, very little sugar, and no meat. Thus I have become, you see, a practical "vegetarian" not a professed or pledged one.

The chief gain I made was in learning to give up my thirtieth meal, thereby insuring sounder sleep and a long rest for the stomach. At first the prospect frightened me, but when I saw others who had half and more of a long lifetime eaten nothing after two p.m., and recalled how many among Greeks and Persians and other ancient races had thrived on the two-meal plan, I gave up my scare about "faintness," etc., and adopted it. I could write all day on the physiology of it and of the well known people that follow this practice. Dr. Lewis is a strong advocate of it. His book on digestion, or My Jolly Friend's Secret, though popular in style, is full of wholesome truth.

The institution at St. Helena is under the care of the 7th Day Adventists; a very worthy people, whose acquaintance I first made there. They make a religion of the care of the body and are very intelligent Health Reformers; much more free from any-

per-on in place of one who wanted to resign.

After a considerable discussion the Palmyra members of the committee insisted that nothing could be done until after a vote had been taken on the motion to draft a bill, finally the question was put and lost by a vote of 6 to 3 as follows: The Palmyra district, James Hartley, R. L. Temple and J. J. Leper voting yes. The country district Wm. R. Lippincott, Clayton Courvo and Isaac Eval voting no. The Riverton district, E. H. Ogden, Dr. H. B. Hall and Charles R. Haig voting no. The Palmyra members of the committee then agreed to a slight change of the line, which was suggested by the members from the country district. Mr. Price came into the meeting and was permitted to explain why he opposed the line adopted at the public meeting, the chief and good reason was, that when Riverton should go into a borough form of government the new township

would be divided, the change of line was read to Mr. Price and he was satisfied. Dr. Hall said he was a member of the Riverton committee on the borough and with the understanding that he would be free to act for borough government, should the people of Riverton so desire, he said he would vote for the new line as follows: Beginning in the middle of Pensauken creek, in a straight line with the southerly side of Morgan cemetery, and running in a parallel line with the railroad, to the middle of Pompton creek, down said creek to the Delaware river, down same to the mouth of Pensauken creek, up said creek to the place of beginning. The new line was adopted without a dissenting vote. The secretary was directed to draw a bill to present to the Legislature.

One of my pleasures, as I gained strength was exploring the region, so different from this neighborhood, where the mountains and hills are clothed with great variety of trees, of exceeding interest, redwoods (to which the "Big Trees" belong) manzanitas, madroños. Hot sulphur springs, as at Calistoga; Soda springs; the famous Petrified Forest are not too far away. The whole region is largely given to the cultivation of the vine, and here one of the largest wineries in the world. I am not at work yet. My substitute is doing good work in my place. It is possible that I may take the opportunity and visit the Sandwich Islands. If I do, I will let you hear from me again.

Sincerely yours,
W. W. Lovejoy.

RIVERTON.

Mr. Wm. Thomas is around again.

Skating has been enjoyed by all caring for that pastime.

Mrs. S. B. McCabe gave a luncheon to several of her relatives on Thursday.

Mr. John M. Davies, of Thomas avenue, is said to have had one of the finest Christmas trees in Riverton.

Mrs. John Davis gave a very enjoyable luncheon for twelve ladies on Wednesday.

The pews at Christ church are now all free for the Sunday evening service.

The annual meeting of the base ball club will be held in the gymnasium on Jan. 10th.

The railroad company are getting materials on the ground to rebuild Thomas Brook culvert.

Read the editorials. There are several points on the township division this week.

Mr. Hardman is improving his property, corner of Fourth and Thomas.

Owing to the remembrance the application of John Keating to keep a hotel here was held over at Mount Holly last Saturday.

Now that Palmyra will not stand the milking process by the country any longer they still would like to draw on Riverton, but the scheme is too thin.

The Electric Light Co. have bought a piece of ground from Mr. A. C. Heulings, along the railroad near Cinnaminson street. Work will be started on the buildings as soon as the weather permits.

It is claimed that taxes are not necessarily higher under a borough form of government than in a township, and doubtless this is true, but there have been so many instances in which taxes have increased that the word "incorporation" is almost a synonym for high taxes.

It will take a tax rate of 53 cents to pay the running expenses of the old township which is 23 cents higher than will be needed in the town, including improvements. Do you wonder the back district has such a loving regard for Riverton?

The new year always records the breaking of old ties and the forming of new ones. This year we lose from our midst the good work and example of Rev. Chas. W. Nevin and Rev. C. S. Pownell, who have even lived in our village life examples of true Christian integrity and uprightness of life.

There will be special Christmas music and sermons in the Methodist Church to-morrow. Samuel Sargent, the pastor, will preach. The special music, which will be rendered both morning and evening is as follows: Anthem, "O Praise God in His Holiness" composed by Lowell Masson, tenor solo, "Behold I bring you good tidings," composed by E. O. Clever, full anthem, "Arise, shine for thy light is come," composed by Geo. J. Elvey.

If more of our citizens would improve their sidewalks with cinders it would show a commendable interest in the welfare of the borough.

D. Leonard Moore has sold his property at Third and Pearl streets, Camden.

Haddonfield citizens have started a movement to secure an improved fire alarm system. At the last meeting of the committee a motion was made to afford better protection to the place in case of fire.

Cinnaminson Electric Light Company. The stockholders of the Cinnaminson Electric Light, Power and Heating Co. convened on Thursday in Camden, and elected the following directors: H. V. Massey, M. B. Perkins, James Hartley, A. J. Briggs and I. E. Maguire. Subsequently the directors met and organized by electing H. V. Massey, president; A. J. Briggs, secretary; M. B. Perkins, treasurer and general manager. A reception and dinner was given by the new company at Bothby's, Phila., on Thursday night. Among those present from this locality were A. J. Briggs, James Hartley, I. E. Maguire, Wm. R. Lippincott and I. Eval, township committee; Howard Parry and the representative of the WEEKLY NEWS. Two members of the township committee of Delran, the editor of the Sand Burr and others were present. It is the intention of the company to run wires to Riverton, where they have about 400 lights conditionally engaged. It was stated by electricians present that electric light at 75 cents per month was lower than a five foot gas burner at \$1.50 per thousand. Representatives from Burlington stated that the electric light company there could not supply the demand with their \$20,000 plant, and were now arranging to put in an additional plant of \$20,000. It was further stated that not one of the consumers had given up the use of the light, which speaks very well for the service given by the company.

Many questions were asked and in reply the president, Mr. Massey said, their company was organized for business, and they recognized the fact that if they wanted a large and profitable business, they would not only have to give a good service but at a reasonable price, and that was what they proposed to do. It should be understood that electric light will cost more than oil and it will be worth infinitely more, as it will not consume the life giving ingredients of the air, thus making it more difficult to retain health. Electric lights will relieve the female portion of our household from manual objectionable work, and make their burden of labor less onerous. Let the light shine to banish darkness and for better health.

A REMARKABLE HISTORY. We recently published a strongly commendatory notice of "Alden's Cyclopædia of History," in the interest of our readers we wish to repeat and emphasize what we said. A good Universal History is a rare commodity; this is certainly excellent, if not the very best for general use and reference ever published, covering all nations (except the United States) from the earliest times to the present, and is published separately, and from B. C. 5004 to A. D. 1892. Certainly it is the cheapest historical work ever published, and the best of what readers generally will expect from Mr. Alden, who has done so much to place the highest class of literature within the reach of the people.

To each of our readers we recommend the type used in necessary small compass is beautifully clear, and the paper, and the binding, are of the highest quality. WASHINGTON LETTER

From our Regular Correspondent.

Washington, D. C., Dec. 21, 1892.

Did Speaker Crisp file his Christmas stocking yesterday, Mr. Cleveland? It is said here that he did, and that it was nothing less than the assurance of the President-elect that he neither had or expected to have a candidate for Speaker of the next House, and would be pleased to see Mr. Crisp re-elected. Neither those who are regarded as confidential friends of the Speaker, nor those who enjoy the same relations with the President-elect will talk for publication about this reported endorsement of Mr. Crisp's candidacy; but it is known that a movement has been engineered by mutual friends of the Speaker and of the President-elect, the sole object of which was to bring about that endorsement and avoid the fight which has seemed to be impending over the Speakership of the next House. Mr. Crisp is going to New York this week, it is said, upon Mr. Cleveland's invitation.

It was this movement that brought out the announcement several days ago that 140 out of the 217 democrats elected to the next House had informally declared their preference for Mr. Crisp for Speakers. It is said that this announcement was made as a final argument towards convincing Mr. Cleveland that it would be good policy for him to endorse the candidacy of Mr. Crisp, and that he had been assured before that Mr. Crisp was willing to pledge himself to be guided in tariff and financial matters by his advice. Representative Springer, who will probably continue at the head of the House Ways and Means committee, if Mr. Crisp is re-elected Speaker, unless the talk of having the committee assignments made by caucus, as in the Senate, shall materialize into a rule, has already jumped down on the Cleveland side of the tariff fence, by declaring himself in favor of a general tariff bill, instead of a number of bills each attacking single clauses of the tariff, such as were passed by the House at the last session.

The attempt to get up some excitement in administration circles because of the alleged violation of a treaty between Great Britain and this country, prohibiting either nation placing warships on the Great Lakes, was not a shining success. It was agreed generally that even if Canada's armed revenue cutters are properly classable as warships we would have no good reason to complain, for the very simple reason that the Treasury and Navy Departments have the same already drawn for two revenue cutters, and the bill appropriating the money to build them has been passed by Senate, for service in the Great Lakes, which when completed will be as distinctly war vessels as any in our navy.

It is a matter for general congratulation that partisan politics have been kept out of the immigration question. The House and Senate committees are practically of one mind, and the different bills approved, one by the Senate and the other by the House committee—one suspending immigration for one year, and the other authorizing the President to suspend it whenever and for as long as he deems necessary—have precisely the same end in view. The committees are also taking advantage of the holiday recess to obtain more immigration information. They appointed one joint subcommittee to go on an investigation tour to Cuba, and another to confer with the Treasury officials having charge of immigration. The news that cholera has again broken out in Hamburg adds to the importance and to the certainty of this legislation.

It is expected that Silver will occupy a prominent place in the deliberations of Congress almost as soon as the recess is over. A strong effort is now being made, supported by all the influence of the administration and aided by all the influence that Mr. Cleveland can command, to bring about the repeal of the Sherman silver law, or at least a suspension of the purchase of silver bullion. Senator Stewart is authority for the statement that he has an opportunity to vote for repeal of the law, provided that the purchase of silver be suspended or having a contrary effect to that intended by those who opposed them.

Notwithstanding the extraordinary efforts that are being made by its opponents to form combinations to side-track the anti-opium bill without giving open its Senate, we have secured your correspondent that the bill certain it would be passed before the 15th of January.

The call to Mr. Powelson was unanimous, and together they are looking for gracious results.

The Mission building located in West Palmyra, in which services have been so well conducted by Mr. and Mrs. James Humphill, of Riverport, was the scene of an excellent Christmas entertainment on Wednesday evening, 28th inst. The rooms were bright with evergreens and full of interested participants. Every item of the program was satisfactorily carried out, and when it is remembered that most of it was rendered by children less than ten years of age, it shows careful training. Prizes for attendance were awarded to the following: Beatrice Hunt, Willie Swagg, Willie and Clayton Moore, E. Hamilton and Mrs. Chas. Cooper. Each scholar received a box of candy and an orange and a gift from the Christmas tree, and oranges and bananas were passed to the friends of the school who were present. There seems to be a steady increase in the attendance and interest of the members, which must reward and encourage those who have charge of the undertaking.

State Aid to Public Roads. The question of state aid to public roads seems likely to receive a practical solution. The Legislature passed laws in 1891 and 1892, authorizing the state to pay thirty-three and one third per cent of the cost of constructing permanent stone roads, when the property owners agree to pay ten per cent, and the county the balance of the cost of construction. Under these laws, efforts have been made in this county to take advantage of the opportunity thus afforded to complete or at least extend our system of permanent stone roads. But owing to the objections placed upon the scheme by the chosen Freeholders, we have accomplished but little. Our sister county of Middlesex seeing her opportunity to get a good sum from the state, enthusiastically went into the project of improving her highways, and has just completed 10 and 1.10th miles of macadam road, for which Gov. NEW YEAR CUSTOMS.

CHANGES THAT HAVE TAKEN PLACE IN THEIR OBSERVANCE.

The Old Year Round of the New Year has been a long one, and the changes that have taken place in its observance are many and varied.

There was a time, and that was not many years ago, when the New Year was a day of great festivity and merriment. It was a day when the people of all ranks and conditions met together in a spirit of good will and fellowship, and celebrated the coming of a new year with songs, dances, and games.

In New York the custom became as late as the 18th century. There was no real popularity made evident in a hurried handshaking and greeting, followed immediately by an equally hurried farewell; and yet there was time for nothing more, and even with all this haste few men could finish the calls written upon their lists, and omissions were apt to give offense.

Pushing young men took advantage of the hurry and flurry of the day to call at houses where entry under other circumstances would not have been possible. Even if they could only bow to the engaged hostess they could pass on to some of the young women receiving with her, who would naturally suppose them friends of the house. Their cards could be left and possibly included among the guests to be invited on other occasions, which was the end they hoped to gain by their assurance.

Another evil which right thinking people took a grave view of was the promotion of social drinking which the custom fostered. Men who could not stop for a bite and drink to pause for a glass of wine or cordial, or even a stiff dose of brandy and water, "just to keep the cold out," you know. The result of so many toasts was apt to become disastrous before the day was out, and there were incidents and scenes which were sad to witness.

When it all was the fall of some who yielded against their better judgment to the pleading of Circe as she sparkled and beamed and threatened to frown on the young man who refused the glass she held to him in her white gloved hand.

I know a white haired mother whose lips refuse to smile because her only daughter is hopelessly insane. The girl was engaged to a man to whom liquor was a terrible temptation, a hereditary craving against which he had silently fought a good fight and triumphed. One New Year's day, the first of their engagement, his fiancée made a point of his taking a glass of wine. He refused, she insisted, not knowing his weakness, and at last declared that if he would not yield to her pleasure in such a small matter his affection could not be what he pretended. He could not resist beyond that, but that one glass opened the gate to his enemy, and the passion for drink conquered him and was never overcome. Grief and remorse deprived the girl, thoughtless girl of course. That is only one story. There are thousands as pitiful, and feeling the danger which attended the pretty custom of New Year's calls, one can hardly regret its disappearance.

In New York and Philadelphia, and to a limited degree in some other places, it is fashionable to make up country parties, leaving town on one of the last days of the year and spending a week in such amusements as the horizon can suggest. If she comes a country home she will open it for her guests, or lacking a house she will hire some farmer all the rooms he can spare, and turn her entertainments into an institution of some of the primitive kind in which our ancestors were supposed to delight.

Barn dances for the evenings and straw rides for the daylight are among the amusements offered on these occasions, and for variety the Hallows' feast or some other is introduced, and the gay visitors toss apple, eat hard boiled eggs with salt, filling the cavity made by taking out the yolk, agreeably to the old tradition that a dream will follow in which the thirty-one's lover would bring a drink.

For those who stay at home the festivities which belong to the day are not overhauled, being generally confined to a family dinner, and possibly the theater or a reception in the evening. It is not a day for family gatherings, like Christmas or Thanksgiving, and, as the usual amusements are relinquished, time seems unoccupied and the day is not altogether enjoyable.

But the New Year deserves a form of celebration as well as the other anniversaries, and those who mold and lead society should inaugurate some enjoyable entertainment or custom by which we may salve the day.—New York Recorder.

New Year's Song.
Come, now, year,
And drive pale winter from our door;
With all thy golden gifts and cheer,
Come, now, year!

Sleep, now, year!
For four cold days and drear;
For oh, 'tis bleak the fields and bare,
And we are chill'd with wintry air;
Sleep, now, year!
Till sunnier days come once again,
Then, with thy gifts, come back to us,
Sleep, now, year!

Spring, now, year!
Let fall the frosty snow;
For budding corn and growing wheat,
Shall tell of thee, and of thy power;
Spring, now, year!
With youth and vigor, and with cheer,
Come back to us, and bring us on,
Spring, now, year!

Summer, now, year!
Let fall the frosty snow;
For budding corn and growing wheat,
Shall tell of thee, and of thy power;
Summer, now, year!
With youth and vigor, and with cheer,
Come back to us, and bring us on,
Summer, now, year!

Autumn, now, year!
Let fall the frosty snow;
For budding corn and growing wheat,
Shall tell of thee, and of thy power;
Autumn, now, year!
With youth and vigor, and with cheer,
Come back to us, and bring us on,
Autumn, now, year!

Winter, now, year!
Let fall the frosty snow;
For budding corn and growing wheat,
Shall tell of thee, and of thy power;
Winter, now, year!
With youth and vigor, and with cheer,
Come back to us, and bring us on,
Winter, now, year!

Now, now, year!
Let fall the frosty snow;
For budding corn and growing wheat,
Shall tell of thee, and of thy power;
Now, now, year!
With youth and vigor, and with cheer,
Come back to us, and bring us on,
Now, now, year!
