More Local Men Taken Into Army By Draft Board

Palmyra Contributes Eight Additional Soldiers; Riverton Six

Conscription now has reached the stage where the first quota of men have been called to Camp Dix at Washington to begin training. Seventy soldiers from this district comprised the first quota first taken, but none of these went from Palmyra or Riverton.

On Sept. 19, it is understood, forty per cent of the men already drafted will be sent to camp.

Although it was rumored early this week that the Board had found it necessary to call 100 more registered men to complete the first quota from this district, no such action has yet been taken, but members of the Board admit that additional men may have to be called. They are still working on the exemption claims and probably will not arrive at their decision concerning the calling of further men until the 19th.

Out of the first 286 called, seventy-three have been certified for service and of the next 300, 61 thus far have been certified. The following local men are among the 61:

RIVERTON
William J. Hagby, Jr.
Joseph E. Keating
Rudolph O. Woldill
Clarence Fooks
George B. Evald
Ernest Lieb.
PALMYRA
A. J. Wilkinson, Jr.
A. J. Wilkins
Simon Gray
Marlen Wallace
Pietro Di Bella
H. S. Griffith
Thomas K. Bromly
Byron R. Jones
Frederick A. Young.

Those called to camp this week are:

Wednesday, Herbert O. Githens, Riverside; Alex. Mowery, Riverside; Thursday, Hurley Troxell, Beverly; John N. Gleason, Moorestown; Friday, Wilson E. Robertson, Beverly; Jacob Eble, Riverside; Saturday, Lloyd H. Bacon, Moorestown.

Men from Palmyra and Riverton previously certified for service were:

RIVERTON
O. G. Willis
James D. Tomlinson
J. J. Wilkins
PALMYRA
James Cucupe
Jesse Vincent
S. A. Rominsky
A. F. Upshaw
A. R. Vaughn
D. J. Blackburn
J. J. Halliwell

ASBURY NOTES

BOAT RACE WINNERS ARE DISQUALIFIED

Finish on Wrong Side of Buoy, Enabling Clark to Win A First

The winners in both classes of boats in the Labor Day Regatta of the Riverton Yacht club lost their places owing to finishing on the wrong side of the buoy. It is the almost invariable custom to finish down the river, but a special course was sailed Monday, which did not include the lower buoy, hence the finish was up the river. Only three skippers out of twelve remembered this.

The 26 footers got away first at 10:49, with Cook in the lead and Jones a very close second. No. 7, sailed by William Baker, crossed the line third, but later withdrew. Cook, who finished six minutes ahead of Jones, forfeited the race to his opponent for the reason above stated.

The power boat race, which was given first place on the mistake in finishing, with Patterson in second place. Mercer Shreve, who sailed his first race, came in fourth, but forgot about the buoy.

THE VISITING NURSE

Funds Needed to Carry on Work in Palmyra

On September 1, of last year the Visiting Nurse Committee, of Riverton and Cinnaminson, extended its territory and joined with Palmyra. The donation of an automobile made this possible. One year has passed and we hope we have met a need in the community, but our work can only continue with your support and hearty co-operation. During these hot summer months the babies have needed us and many an anxious mother has had help and encouragement, that only a nurse trained in the service can give. If every citizen could spare us \$1.00 a year our financial problem would be solved.

Contributions may be sent to Miss Martha McI. Biddle, chairman, 297 Bank avenue, Riverton, N. J.; Mrs. Charles W. Williams, 509 Elm ave., Palmyra, N. J.

Mrs. John Armilage, 312 Thomas avenue, Riverton, N. J.

RIVERTON RED CROSS

Will Transfer Headquarters to Old Gas Office

Having outgrown its very comfortable quarters in the Porch Club, the Riverton Branch of the Red Cross will transfer its headquarters to the gas office, Broad and Main streets, about the middle of the month. The president of the Public Service has generously donated the use of the building for this purpose, and suitable lighting fixtures are now being installed.

It is estimated that at least \$250 will be needed monthly for the purchase of materials. Of this amount \$60 monthly has already been pledged for the next seven months, beginning the first of September.

A Careful Driver

"Are you cautious about driving your car?"

"Caution!" echoed Mr. Chuglins, "I should say. I have taken pains to not well enough acquainted with every bicycle policeman to call him by his first name."

TWO POLITICAL FIGHTS DEVELOP

Contests on For Freeholder and Township Committeeman in Palmyra

When the time for filing nomination petitions expired Wednesday night, it developed that there would be two interesting contests in the primary and election.

For Freeholder from Palmyra, both Winfield Land present Freeholder, and George Rogers filed petitions. Mr. Land is a Democrat and Mr. Rogers is a Republican. The candidacy of Mr. Rogers comes somewhat as a surprise, inasmuch as it was expected that Mr. Land would have no opposition. The County Republican leaders, however, wished to have a full Republican ticket in Palmyra and it is also understood that an effort is being made to wrest from the Democrats the control of the Board of the Board of Freeholders which they now enjoy. This battle will be fought out at the regular election.

The other contest will be that between Township Committeeman Stephen S. Cook and M. J. Quinn, candidates for the Republican nomination for Committeeman. Both have hosts of friends in town and Mr. Cook has already made a good record as member of the Committee. This fight will be settled at the primary, as both are candidates for the same three-year term. Committeeman C. H. Hill has no opposition for the year's unexpired term of the late James Russell.

There are two constables to be elected and the candidates are F. R. Grubb and Paul Jones.

Candidates for the County Committee are: First District, William E. Taylor, R.; William McConnell, D.; Second District, John P. Saar, R.; no Democratic candidate. Third District, Edwin S. Keim, R.; Julius R. Fisher, D.

The member of the election board for the first district given incorrectly by the Mount Holly papers last week as Sidney Y. Snellson is Albert Koepfenhofer.

The Sign of the RED CROSS

Y. M. C. A. Building Broad and Garfield Avenue

By M. W. WISHAM

The Cross—a small neat stain where blood has been.

The Cross—that whispers hope to fighting men.

The Red, Red Cross that bears its single grace.

In colors of the heart within a firm embrace.

Red Cross Magazine.

Mr. Henry P. Davidson says, "I firmly believe that through the Red Cross we can not only render a service to our allies, to those who are today fighting for us—but we can bring forcefully to our own people a sense both of their obligation and of their opportunity. And I am optimistic enough to believe that the men and women of this country will in a not far distant day rejoice in sacrifice, in real sacrifice—and demand that the Red Cross shall carry to the people then living the heartiest and most sincere of what they have done for us and express such appreciation by every possible aid."

Twenty-five million school children in the United States are to be interested as co-workers for the government through the Red Cross.

HENRY I. WORRELL

Candidate for the Republican Nomination
FOR COUNTY AUDITOR

To the Republican voters of Burlington County, I wish to announce myself as a candidate on the Republican ticket for County Auditor. I have always worked for and supported the Republican ticket since a voter. I have never held any county elective office except that of Constable, and if accepted, by your decision at the primary election, to be held September 25th, I will use every effort to be elected, and if chosen by the decision of the voters of the county to be their choice for the office of County Auditor, I will consider myself a servant of the people of Burlington county, and I promise to give my entire time and attention to the office, that I may be beneficial to the taxpayers of Burlington county, which is my earnest desire.

HARD TO FIND SCHOOL TEACHERS

Riverton Board Still Has One Vacancy Unfilled And Another Position is Uncertain

After working diligently all summer trying to fill the vacancies in the teaching force, the teachers committee was obliged to report at the meeting of the Riverton Board of Education Tuesday night that one position was still unfilled, and another uncertain. The situation had been made more difficult by the very recent resignations of Mrs. Drayton and Miss Jackson.

Miss Frances Fogg, of Canton, N. J., was elected teacher of departmental work, and the teachers committee was authorized to employ a teacher for arithmetic at their discretion, as the time is now too short to call a board meeting.

The property committee reported that the necessary repairs and painting had been done and the building thoroughly cleaned preparatory to the opening of school next Monday, the 19th.

Physical training will be introduced in all the grades, as required by the law passed by the last legislature. This will add a half hour daily to the session.

OPEN NEW GOLF LINKS

18-Hole Course of Riverton Country Club in Use

The new 18-hole golf links of the Riverton Country Club was opened for play on Labor Day. Mr. Arthur Durraunce, vice-president of the club, drove the first ball, and a handicap tournament followed.

In the medal play which followed James S. Coale and L. W. Collings were tied for lowest gross score.

On Saturday, September 15, the new course will be the scene of its first important tournament. A 2-ball mixed foursome handicap will be held, in which visiting couples from Moorestown, Merchantville, Woodbury and Haddonfield have been invited to participate.

Finger And Toe Nails

Finger nails and toenails are only another phase of the development of man from the animal that originally walked on all fours. Animals and man have the same structure of nails and toenails, which in man is the nail, to scratch in the ground, to attack enemies and, in man, to clean and polish the present day. A civilized being has changed them to a different use. At that there are still uses for finger nails and toenails, and in man it is his changing to a higher plane would have found a way to develop away from them, says Dr. J. H. Wonders. They are useful today in making our hands and feet firm at the end and enable us to pick up things more easily. The times may come when man will have neither finger nails nor toenails.

His Answer
"Now, Captain Wilson," said a certain brigadier general, according to a story which is told in London, "suppose you found your company out off from the rest of the battalion, hopelessly outnumbered and surrounded on every side. What would you do?"

SAGE TEA BEAUTIFIES AND DARKENS HAIR

Don't Stay Gray! It Darkens So Naturally That Nobody Can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost before you know it. It is the only hair restorer that has been used by the "World's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of "World's Sage and Sulphur Compound," are sold annually, say a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

The Boy's Example
In a certain school a teacher asked his class the meaning of "fortitude." The word which means "courage" was not in the dictionary. The boy who was asked the question, however, proceeded to explain it. He told them that it was a kind of manly drama usually founded on some Scripture story, and he indicated the "Moses" drama in the Bible as an example. He then explained the class to give him other examples.

One boy, who was manifesting a great impatience at not being allowed to show that he knew all about "fortitude," was lengthily and fairly nonplussed the master by his answer: "Aaron on the Rhine."

FREE-FOR-ALL PAGERS AFTER TRACK REG.

Purse of \$2,500 Placed by Trenton Fair Draws Great Entries.

Entries in the \$2,500 free for all pace at Trenton Fair, Tuesday, Sept. 23, drew a record-breaking crowd of spectators to the track. The purse was placed by the Trenton Fair Association for a single track event.

One of the greatest stables in the East, the grand circuit racer and winner of the Kentucky Futurity as a three-year-old, the other paces, including Ecker's Peter Stevens, will have plenty of followers, and the race will be a great success.

It was Mr. Gathmann's belief that it was not necessary to carry the high explosive shell through armor plate and into the interior of a ship, but that if a sufficient quantity were detonated against the outside of a ship it would be equally if not more destructive.

Both types were tested at Sandy Hook about a score of years ago. The armor plating shell penetrated an eleven inch plate and tore the backing to pieces.

Board Prepares To Call More Men To Camp

Forty Per Cent. of Quota to Go to Wrightstown Next Wednesday

As soon as the necessary certifications are received from the District Board at Trenton, the local assembly board will announce the names of the men who will comprise the 40 per cent. to go to camp at Wrightstown next Wednesday, Sept. 19.

It is expected that at that time or before, 100 additional men will be sent to the camp to supply the few men needed to complete the 157 wanted to be sent from this district.

Already 152 have been obtained. The excess over the quota of 157 will be made up for any reflections at camp.

There follows a list of the local men in the second call who were exempted because of dependents.

MITES PESTER NEW POULTRY

WASHINGTON, D. C., Sept. 12.—Chicken mites, the most pest of poultry, may not always leave the fowls before daylight, as commonly supposed. In general, the first signs of their presence are seen in the morning. It is better service, and we ask you to come to us when your eyes are troubled.

RAILROAD CROSSING IN NEW

Recognizing the fact that ordinary railroad track intersections are a source of much severe wear on rolling stock and are repeatedly in need of costly repair, a firm in Clinton, Ill., has constructed a crossing for railroad designed on a new principle.

For each of the four intersections, which exist where one track crosses another, is placed a rail only a few inches above the ground, and which, when a train is passing, is raised by a single lever in the track bed.

When a train is to be set for "clear," these four rails are swung around so that they make a continuous track. When the train has passed, they are swung back to their original position. When the other track is to be set for "clear," the four rails are swung around so that the second line is ready for traffic.

Each of the four short rails is turned by a rack which meshes with a gear in the side of its base. When they are set, each rail is locked by a simple device which prevents it from being moved.

The inventor claims that this crossing is in perfect alignment. The jar which this crossing produces and the cost of maintaining it are said to be much less than those of ordinary crossings.

Of Helgoland

Of Helgoland one has an unexpected glimpse in Rudolf Lehmann's recent publication, published twenty years ago.

The artist went to Helgoland in 1849 and found it, the great plain, lying in that most bracing of bathing places—a bay of some 100 feet high and scarcely two miles in circumference in the midst of the North sea.

There were, besides Lutz, half a dozen well known people staying in Helgoland, and Lehmann calls it "this enchanted island." He says it is "a little bit of heaven on earth, so soft that the sea, washing away the sand, is like a soft, warm blanket."

Since Lord Salisbury ended the little island to Germany at least \$20,000,000 were spent in fortifying Helgoland.

Power of Blaque

A story is told of the great Irish orator, O'Connell. An attack had been made upon his political position, and he was called upon to reply by a lofty brow and a voice as thunder and a smile as a flower.

He said, "I have no words of bitterness or reproach for any man, but I have words of love and of hope for the people of Ireland. The pathos in the fragmentary utterance of the great man brought tears to the eyes of many veterans of the house."

NOTICE OF REGISTRY AND ELECTION

In conformity with the provisions of an Act entitled, "An Act to Regulate Elections (Revision of 1898)," approved April 1898, and the amendments thereof, notice is hereby given that the Boards of Registry and Election in the

TOWNSHIP OF PALMYRA in the County of Burlington, will commence a house to house canvass of voters on

Tuesday, September 11, 1917, for the purpose of registering all persons entitled to vote at the ensuing Primary and General Elections.

Notice is further given that the said Board will meet on the dates and at the place hereafter designated for the purpose of adding to and revising the registry list:

Tuesday, September 25, 1917, between the hours of seven o'clock A. M. and nine o'clock P. M. in the City of Philadelphia.

Tuesday, October 30, 1917, between the hours of one o'clock and nine o'clock P. M. in the City of Philadelphia.

INFORMATION FOR RECRUITS

In addition to the three fighting arms—Infantry, Cavalry and Artillery—there are nine branches of the Army known as the staff corps, and in general the first duty of a recruit is to be assigned to one of these branches.

The first four of the staff branches are: General Staff, Adjutant General's Department, Signal Corps, and Quartermaster's Department.

ALASKA REAL WONDER SITE

WASHINGTON, Sept. 12.—Gilbert H. Grosvenor, director and editor of the National Geographic Society, has just made public a telegram from Kotik, Alaska, in which Robert F. Griggs, director of the Society's Alaska expedition, reports that he has returned to civilization together with the findings of the expedition's complete success in its scientific investigation.

Dr. Griggs' message declares that in the light of the expedition's discoveries the value of the First Wonder of the World, instead of "ten thousand miles," as the vast volcanic area in Alaska is now known, the valley has literally millions of active vents in the space of a hundred square miles.

The survey of the exploration party proves that Katmai is the greatest crater on the face of the globe, being more than nine miles in circumference and 2,600 feet deep. The party also discovered a mud river seventeen miles long, and mapped sixteen hundred miles of territory hitherto uncharted.

Two thousand photographs of the great volcanic and the surrounding geographical data, including birds and geological data, is being brought back to the United States by the expedition.

This expedition set sail for the Mt. Katmai region from Seattle on May 28th, fully equipped in every particular for the investigation of new and special geological data.

To Finish Quota

All Up To The Thirtieth— Hundred Now Have Been Summoned

Several well-known Palmyra and Hiverton boys have been summoned to appear before the draft board at Hiverton this Saturday for examination.

The latest call, the third made in the district to supply the quota, takes in 63 boys between 18 and 21. The first two calls were for first order numbers 587 and 450. A total of 650 having been summoned, the board has now called for the third order numbers 143, but 14 extra boys are required as a reserve to replace those reported at camp. The number of boys remaining is 152.

The serial number of the last man called this time is 1538. This number was drawn in the order 3,102 in the grand lottery.

Local men called for Saturday are:

From Palmyra—Lewis J. Pier
cross, A. Fremont Truman, Walter
E. Pike, Burd R. Schoener, Wesley
Davies, Theodore E. Jennings, E.
Perry Morton, Edwin W. Redfield.
Toney Avendo, Powell Thatcher.

From Riverport—Marlus Krancke
Elroy W. Staedle, Frank J. Hunt
John F. Flynn, Lawton J. Steele

**PHILADELPHIA BAND
TO AID HOME GUARD**

Will Appear Here on October 6 For
Carnival And Noted Singer
Also is Expected

Some idea of the calibre of the
Palmyra Home Guard Carnival to
be held a week from this Saturday
can be gained from the announce-
ment just made by the committee in
charge that the Philadelphia Band,
which all summer has given con-
certs on the Plaza of the Philadel-
phia City Hall, will be on hand to
entertain the probable Mademoiselle
Bernice D. Roberts, who often
sings with the band, and who will
here and render several operatic se-
lections.

of Red Cross ladies, dressed in white, who will appear in the parade carrying a huge American Flag into which they requested that contributions be tossed. The Red Cross ladies are not to be for the Home Guard, but for the Red Cross to buy coal to heat their quarters this winter. It is hoped that all dealers will throw in several tons.

All arrangements for the carnival are progressing swiftly and donations of articles to be sold at the carnival are being solicited by citizens of all parts of the town.

It is hoped the company's new uniforms will arrive in time for the carnival, the members are making good time in their training. Captain, Biddle Frishmuth, who had been marching on Broad street last Tuesday night. Anybody who wishes to join the guard should join the parade may obtain sufficient information at meetings scheduled for next week.

MOBILIZATION AT EFWORTH CHURCH

Th. pastor, Rev. S. Monroe Vansant, has divided his congregation into companies with officers responsible for full attendance at possible on Rally Day, Sunday, October 7.

Transportation service has been established for the benefit of the invalids and veterans. It is planned to register all in attendance and to have each captain report on Sunday, October 14th, number present, accounted for, and missing from his company. Special features will mark the services of the day.

An officers conference will be held at the close of the twilight service next Sunday night to complete arrangements.
